The following is a description of the policies in the 6000 series. Many of the policies will apply without modification, but each one should be reviewed carefully to make sure that it conforms to the school district's practices.

Policy 6001. School Organization. This policy defines the school as organized in K-5, 6-8, and 9-12 schools. Adopt or amend this policy to describe how your board has organized your school district.

Policy 6002. School Calendar. This is a standard policy about the school calendar. We believe it is best practice for the administrative team to propose the calendar. Some schools involve the teachers and/or parent organizations in creating the calendar. If that is your practice we will be happy to help you revise this policy, although we believe that is not best practice.

Policy 6003. Instructional Program. This is a standard policy about the instructional program. You must fill in the number of instructional hours in the first paragraph.

Policy 6004. Curriculum Development. This is a standard policy about curriculum development. Please note that this policy expressly places on principals the responsibility to ensure that teachers are teaching the curriculum and likewise places responsibility on the superintendent to hold principals accountable for implementation of the curriculum.

Policy 6005. Academic Credits and Graduation. This policy is the place where the board should insert its standards for academic credits and graduation.

Policy 6006. Commencement Ceremony. This policy contains two options regarding the commencement ceremony. One permits a student who is within a specified number of credits to participate in the ceremony without receiving a diploma. The second permits all seniors to participate in the ceremony.

Policy 6007. Senior Recognition. This policy addresses recognition of academic achievement by graduating seniors. The board should fill in the standards that the district uses.

Policy 6008. Class Rank. This policy addresses class rank. It is not required by state law, but this is always a politically charged issue. We have highlighted areas where the board should exercise its discretion to set standards. This is another area where school district vary widely in their past practice. Please let us know if you would like our assistance in creating a policy which describes your board's decisions in this area.

Policy 6009. Grade Placement of Transfer Students. This policy sets forth the criteria for determining the grade placement of transfer students, and addresses what credits the district will accept from both accredited and from exempt (home) schools.

Policy 6010. Special Education Identification, Evaluation and Verification. This policy guarantees the district will comply with the rules and protocols of the Nebraska Department of Education and the United States Department of Education identifying, evaluating, verifying and serving students who may be entitled to rehabilitation or special education services.

Policy 6011. Fire Inspection and Prevention. This policy states that the district will provide regular periods of fire instruction and will observe State Fire Day as required by statute.

Policy 6012. Flag Display and Patriotic Observances. This policy confirms the state statute requiring that the district display the U.S. and state flags. It also implements the requirements of Rule 10 related to the recitation of the pledge of allegiance.

Policy 6013. Controversial Issues. This policy addresses the teaching of controversial issues and sets forth criteria for teachers to follow when teaching or leading discussions.

Policy 6014. School Attendance on Days of Scheduled Activities. This policy requires students to attend regularly scheduled classes on days when they participate in any student activity. Be sure to check with your secondary administrators to determine what their current practice is related to student absences and school activities. If your district has a different practice let us know and we can help you update this policy.

Policy 6015. Summer School. This policy authorizes the school district to conduct a summer school program for students who need remedial

help and for enrichment purposes. Your board will need to decide if it will allow a student who retakes a course in the summer to replace a lower grade earned during the regular school year for purposes of class rank. These can become sensitive political issues, so your board should also consult with your secondary administrative team to receive their input on this issue.

Policy 6016. Homebound and Off-Campus Instruction. This policy addresses homebound and other forms of off-campus instruction. Although the majority of students who are served in these settings are students with some sort of disability, there are times when a general education student is not able to attend school for a prolonged period but is not legally disabled. When special education students are placed in a homebound or off-campus setting, the board should be mindful that it is the student's IEP team and not the administration or board of education that determines the details of that placement.

Policy 6017. Homework. Although not legally required, many boards of education would like to have a broad policy statement on the value of homework. Some boards also want to place restrictions on the amount of work assigned by teachers overall or on Wednesday nights. We are aware that with the advent of flipped classrooms and 1:1 programs, the entire concept of homework is in flux. Again, your board should discuss its unique approach to this issue and let us know if you would like our assistance in crafting a policy.

Policy 6018. Grades. This is a standard policy on issuing grades. For special education law purposes, it is important that the board have a standard interval during which the school will communicate grades and academic progress to general education students.

Policy 6019. [Intentionally Left Blank]

Policy 6020. Multicultural Education. This is a standard policy on fostering and developing an appreciation and understanding of the racial, ethnic and cultural heritage of all students. Rule 10 requires that the board receive an annual report on the multicultural education program. This policy places the responsibility for delivering that report on the superintendent.

Policy 6021. District Criteria for Selecting Evaluators to be Used for Special Education. This policy is required by Rule 51 of the Nebraska Department of Education. This policy can be no more restrictive than the criteria you would apply when seeking your own evaluations. Please review and update the highlighted paragraph in consultation with your special education staff and providers to ensure that it accurately reflects the

boundaries you would recognize for the school district's own evaluations, noting where certain specialized assessments or evaluations will require travel outside the generally applicable geographical area.

Policy 6022. [Intentionally Left Blank]

Policy 6023. [Intentionally Left Blank]

Policy 6024. [Intentionally Left Blank]

Policy 6025. Student Cell Phone and Other Electronic Devices. Although a few schools still prohibit students from having cell phones at any time during the school day, we find that most schools allow cell phones within reason. This policy attempts to capture what we believe most schools do related to this issue. Please review the highlighted paragraph with your principals to make sure it is consistent with their current practice.

Policy 6026. Emergency Dismissal. This policy gives the superintendent or his/her designee the responsibility for determining whether and when to cancel or dismiss extracurricular activities because of inclement weather or emergency conditions.

Policy 6027. Field Trips. This is a standard policy on field trips.

Policy No. 6028. The Extracurricular Activities Program. This is a standard policy about the purposes and governance of extracurricular program. Please note the highlighted sentence which states that the superintendent assigns extracurricular sponsorship. We strongly believe that this is best practice. A few school boards persist in appointing coaches and other activity sponsors at the board level. If that is your practice, you should modify this sentence accordingly.

Policy No. 6029. Activity Trips. This policy governs transportation and conduct on activity trips.

Policy 6030. Public Appearances of School Groups. This policy addresses school groups making public appearances.

Policy 6031. Emergency Exclusion Procedure. This policy governs the procedure for extending an emergency exclusion under the Student Discipline Act.

Policy 6032. Constitution Day Education. This policy meets the statutory requirement for observing Constitution Day on September 17th.

Policy 6033. Seclusion and Restraint. The restraint and seclusion of students has been the subject of national attention and lawsuits. This policy provides definitions, guidelines, procedures, and staff requirements. You should review this policy carefully with your staff and ensure it is wholly consistent with your present practices.

Policy 6034. Concussion Awareness. This policy meets the requirements of Nebraska law and outlines each school's obligations for compliance with those requirements for student concussions. It requires training for all coaches, notifications to families, and "return to learn" protocols as adopted by NDE. We have included applicable forms, and if you have forms you use already we would be happy to review them. You should review these requirements in detail even if you make no changes to this policy.

Policy 6035. Athletic Contest Participation by Sixth Graders. Section 004.02C of Rule 10 allows schools to include sixth grades students in interscholastic athletic competitions involving seventh and eighth grade students when (1) combined enrollment for seventh and eighth grade becomes fewer than 12 boys or 12 girls and (2) if the school board or local governing body has a policy regulating participation for sixth graders. This is the recommended policy.

Policy 6036. Reading Instruction and Intervention Services. The Nebraska Reading Improvement Act expresses the Unicameral's intent that all students in public schools be able to read at or above grade level by third grades. In order to meet this goal, school boards are required to develop policies to facilitate reading instruction and intervention services to address student reading needs, including, but not limited to, dyslexia. Beginning with the 2019-20 school year, schools will be required to administer reading assessments approved by NDE three times per school year to all students in kindergarten through third grade. Schools will also be required to provide supplemental reading intervention programs to students identified with reading deficiencies to ensure that they are reading at or above grade level by the end of third grade. This policy addresses all of the requirements of the new Act.

6008 Class Rank

Student class rank shall be determined by using a numeric grade point average derived from all classes graded on a numeric basis. To be included in the class ranking, a student must have received a numeric grade for each core curriculum class in which he/she was enrolled. For the purposes of this policy, core curriculum shall include all courses in the areas of language arts, mathematics, science, and social studies.

Students who transfer into the school district will be eligible to be included in class ranking after two semesters of attendance.

Students who transfer into the school district in middle of their senior year will be eligible to be included in class ranking, although a mid-year transfer will not displace the ranking of a student who has not transferred mid-year. In those circumstances there will be two students holding the relevant class ranking. Mid-year transfer students will not be eligible to receive senior awards such as valedictorian and salutatorian unless the student has been enrolled in the district's high school for the last two semesters.

Grade Placement and Academic Credits of Transfer Students

Subject to a determination on grade placement based on the criteria set forth below, a student transferring from an accredited school generally will be placed at the grade level that is comparable to the placement in the school from which the student is transferring. Temporary placement may be made until a student's records are received to verify the placement.

Elementary Level Students

The appropriate level of placement for elementary level students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience
- Diagnostic test data
- Achievement test data
- Criterion-referenced test data

Secondary Level Students

The appropriate level of placement for secondary students may be determined by, but not limited to, consideration of the following information:

- Chronological age
- Previous public school or private school experience and transcript
- Standardized achievement test data
- Criterion-referenced test data
- Final examination test data
- Diagnostic test data

The district will accept credits toward graduation that were awarded by an accredited school district and which, in the professional judgment of the administrative team, are sufficiently rigorous and comparable to the district's offered courses of study. A student transferring into the school district in grades 9-12 will be responsible for meeting all graduation requirement in order to be awarded a diploma from the district.

Students who transfer from an exempt (home) school and/or a non-accredited school may be awarded credits to be counted toward high school graduation requirements at the discretion of the building principal in consultation with the superintendent of schools. The principal will consider all of the factors listed above and will also consider the student's performance on the district's internal benchmark tests.

Teachers may teach or lead discussions about controversial issues if they comply with the following criteria:

1. The issues discussed must be relevant to the curriculum and be part of a planned educational program.
2. Students must have free access to appropriate materials and information for analysis and evaluation of the issues.

The following criteria shall be used for selecting evaluators according to 92 Nebraska Administrative Code 51-006.07B:

1. Those in-state service agencies that have approved rates for the current year established by the Nebraska Department of Education. A list of service agencies with approved rates, including state agencies, individual providers, and in-state providers may be found at <https://www.education.ne.gov/sped/service-agencies/>.
2. Those Nebraska providers located within 100 [NOTE TO BE DELETED: insert mileage that is appropriate to your district's geographic location.] miles of the building of the district where the child attends when driving by ordinary public roadways, except [include here any exceptions to these criteria necessary for specific assessments which the district would not obtain within the indicated area. Based on feedback from ESU Special Education Directors statewide, these exceptions might include the following: vision-related evaluations (___ miles); evaluations for severe autism spectrum disorder (___ miles); evaluations for severe psychiatric disorders (___ miles); evaluations for significant or atypical orthopedic disorders (___ miles); threat assessments (___ miles); profound hearing impairments (___ miles). You should specifically identify such assessments after consulting with your special education or educational service unit staff, and include those and their relevant mileage range. If no assessments would require a deviation from this area, simply conclude this paragraph after the word "roadways."]
3. Evaluations must consider the educational, health, or other student records of the student provided by the district. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records unless disclosure is already authorized by state and federal law.
4. Evaluations must be provided to the district, including all educational, health, student, or other records created as part of or relied upon to complete the evaluation. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records unless disclosure is already authorized by state and federal law.

5. Evaluations must be conducted by a provider that is authorized, available, and willing to discuss, confer, or otherwise cooperate with the district regarding the evaluation, its results, or any other information related to the evaluation. Such cooperation may include reasonable participation in, or the submission of additional reports or information to, an IEP, MDT, or SAT team. The parents, guardians, or age-appropriate student must provide any required consent to the disclosure of these records or information unless disclosure is already authorized by state and federal law.
6. Evaluations must be sufficiently comprehensive for the evaluator to submit to the district a report that specifically details whether the student should be considered eligible for special education and related services, the nature of special education and related services recommended to accommodate the student's suspected disability, and the particular facts or findings underlying the evaluator's conclusions. This report must be submitted to the district within 45 days after the conclusion of the evaluation.
7. Evaluations must meet the then-current state standards for reliability, research-based processes, and educational or professional best practices.
8. Reimbursement to any evaluator chosen in conformance with this policy shall not exceed the cost that would be charged by the school district's contracted providers for the same or substantially similar evaluation.

All special education evaluations, including those independently obtained at the district's expense, must be obtained in a manner consistent with the criteria set forth above, unless state or federal law requires waiver of one or more criteria in order to accommodate unique circumstances.

Students may use cellular phones or other electronic devices while at school, so long as they do so safely, responsibly and respectfully and comply with all other school rules while using these devices.

By bringing their cell phones and other electronic communication devices to school, students consent to the search of said devices by school staff when permitted by law.

Students may not have cell phones or electronic devices on while they are in locker rooms, restrooms, or any other area in which others may have a reasonable expectation of privacy.

The taking, disseminating, transferring, or sharing of obscene, pornographic, lewd, or otherwise illegal images or photographs, whether by electronic data transfer or otherwise (including things like texting, sexting, e-mailing, etc.) may constitute a crime under state and/or federal law. Any person engaged in these activities while on school grounds, in a school vehicle or at a school activity will be subject to the disciplinary procedures of the student code of conduct.

While on school property, at a school activity, or in a school vehicle, students may not use their cell phones or electronic devices to bully, harass, or intimidate any other person as governed by the student code of conduct.

Students shall be personally and solely responsible for the security of their electronic devices. The district is not responsible for theft, loss or damage of any electronic device, including or any calls or downloads.

Students who violate this policy may have their cell phones or electronic devices confiscated immediately. The administration will return confiscated devices to the parent or guardian of the offending student, after meeting with the parent or guardian to discuss the rule violation. The board encourages instructional staff to incorporate field trips into the curriculum. These trips should normally be conducted during the school day.

1. General Conditions

All trips must be pre-approved by the teacher's building principal. Out-of-state and overnight trips require pre-approval by the board. The superintendent and principals will develop guidelines for approval of trips and communicate those guidelines to teaching staff.

2. Parental Permission

Each student must submit a signed parental permission slip prior to being allowed to attend a field trip. A new permission slip must be submitted for each trip. Caregivers, as that term is defined in the Nebraska Strengthening Families Act, shall be permitted to sign parental permission slips.

3. Supervision

Sponsoring teachers must ensure that students are adequately supervised and chaperoned by a responsible adult at all times during field trips. Whether paid staff or volunteers, chaperones are prohibited from drinking alcoholic beverages of any kind at any time during any field trip. All chaperones must be at least 21 years of age. Any chaperone who drives students must possess a valid driver's license. Chaperones who drive students in private vehicles must possess adequate insurance coverage. Chaperones do not have any property right in or to a chaperone assignment. The school district may deny or terminate a chaperone assignment for any reason that is not unconstitutional or unlawful. The superintendent's decision shall be final.

4. Student Conduct

Students must comply with the student code of conduct, any applicable extracurricular conduct codes, and all directives by trip chaperones.

6031 Emergency Exclusion

Grounds for Emergency Exclusion. Any student may be excluded from school in the following circumstances subject to the procedural provisions governing short term suspension found elsewhere in these policies or state law:

- (a) If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
- (b) If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers that prompted the exclusion.

Extension of Exclusion. Pursuant to the Student Discipline Act, the principal has the authority to exclude a student from school for up to five school days on an emergency basis. If the superintendent or superintendent's designee determines that it is appropriate to consider the extension of an exclusion beyond five days, such consideration shall be made according to the procedures set forth below.

Notification of Student's Parent(s) or Guardian(s). The superintendent or the superintendent's designee shall notify the student's parent(s) or guardian(s) that the principal has proposed the extension of the exclusion. If the initial notice is oral, the superintendent shall confirm it in writing.

Opportunity to Request a Hearing. The student's parent(s) or guardian(s) may submit an oral request for a hearing on the proposed extension of the exclusion within two school days of receiving the initial notice. If the initial request for a hearing is oral, they shall confirm the request in writing.

Failure to Request a Hearing. If the parent(s) or guardian(s) do not request a hearing within two school days of receiving oral or written notice, the proposed extension of the exclusion shall automatically go into effect.

Appointment and Qualifications of a Hearing Examiner. If the parent(s) or guardian(s) request a hearing, the superintendent shall appoint a hearing examiner upon receiving a request for a hearing. The hearing examiner may be any person who did not bring charges against the student, is not to be a witness at the hearing, and has no involvement in the charge.

Hearing Examiner's Notice to Parent(s) or Guardian(s). The hearing examiner shall promptly give written notice of the time, date and place of the hearing. The hearing will be held within five school days after the school district receives the initial oral or written request; provided, the hearing may be held more than five school days after receipt of the request upon a showing of good cause. No hearing will be held on less than two (2) school days' notice unless otherwise agreed to by the student's parent(s) or guardian(s) and school officials.

Continued Exclusion. If a hearing is requested, the principal may determine in his or her sole discretion that the student shall remain excluded from school until the hearing officer makes a recommendation to the superintendent.

Examination of Student's Records and Affidavits. Prior to the hearing, the student and his/her parent(s) or guardian(s) shall have the right to examine and have school officials explain the student's records and any affidavits that will be used by school officials at the hearing.

Attendance at Hearing. The hearing may be attended by the hearing examiner, the principal (or designee), the student, and the student's parents or guardian(s). The student may be represented at this hearing by a representative of the family's choice.

Student's Witness(es). The student and his/her parent(s) or guardian(s) may ask any person with knowledge of the events leading up to the sanction or with general knowledge of the student's character to testify on behalf of the student. If school personnel or other students are requested to testify by the student's parent(s) or guardian(s), the hearing officer shall endeavor to help obtain the presence of such witnesses at the

hearing.

Right to Know Issues and Nature of Testimony. The student and his/her parent(s) or guardian(s) have the right to request in advance of the hearing the issues which the administration will propose in support of the extension, and the general nature of the testimony of any administrative or expert witnesses.

Presence of Student and Witnesses at the Hearing. The student and witnesses may be excluded at the discretion of the hearing examiner in accordance with state statutes. The student may speak in his/her own defense and may be questioned on such testimony, but may choose not to testify.

Sworn or Affirmed Testimony. The principal or his or her designee shall present evidence supporting the recommended extension of the exclusion. Witnesses will give testimony under oath of affirmation, and may be questioned.

Hearing Examiner's Report and Recommendations. The hearing examiner shall prepare a report of his or her findings and recommendations, and forward the report to the superintendent.

Superintendent's Decision. The superintendent will review the hearing examiner's report and determine whether to extend the exclusion. He or she shall have the decision delivered or sent by registered or certified mail to the student, student's parent(s), or guardian(s). If the superintendent decides to extend the exclusion, the extension will take effect immediately.

Restraint and Seclusion of Students

Restraint and seclusion, as defined below, are behavioral interventions. The use of such behavioral interventions must be in accordance with this policy. The following interventions do not constitute seclusion and restraint, and are not governed by this policy: voice control, limited to loud, firm commands; time-limited ignoring of specific behaviors; brief physical prompts to interrupt or prevent a specific behavior; physical interventions which a student's health care provider has indicated are medically necessary for the treatment or protection of the individual; or other similar interventions.

Definitions

Physical restraint refers to a personal restriction that immobilizes or reduces the ability of a student to move his or her torso, arms, legs, or head freely. The term physical restraint does not include a physical escort. Physical escort means a temporary touching or holding of the hand, wrist, arm, shoulder or back for the purpose of inducing a student who is acting out to walk to a safe location. Physical restraint does not include incidental touching that comes along with movement inside a classroom, lunch line, or other areas of the school building where maintaining order is required.

Mechanical restraint refers to the use of any device or equipment to restrict a student's freedom of movement. The term does not include devices implemented by trained school personnel, or utilized by a student that have been prescribed by an appropriate medical or related services professional and are used for the specific and approved purposes for which such devices were designed, such as:

- Adaptive devices or mechanical supports used to achieve proper body position, balance, or alignment to allow greater freedom of mobility than would be possible without the use of such devices or mechanical supports;
- Vehicle safety restraints when used as intended during the transport of a student in a moving vehicle;
- Restraints for medical immobilization; or
- Orthopedically prescribed devices that permit a student to participate in activities without risk of harm.

Chemical restraint refers to the administration of medication for the purpose of restraint, but does not include the administration of medication in accordance with the directions and prescription of a physician with the consent of the student's parent or guardian.

Seclusion refers to the involuntary confinement of a student alone in a room or area from which the student is physically prevented from leaving. It does not include a timeout, which is a behavior management technique that is part of an approved program, involves the monitored separation of the student in a non-locked setting, and is implemented for the purpose of calming.

Use of Restraint and Seclusion

The use of chemical restraint is strictly prohibited. The use of any seclusion or restraint intervention for punitive or disciplinary purposes is strictly prohibited. Similarly, the use of any technique that constitutes corporal punishment, which is the infliction of bodily pain as a penalty for disapproved behavior, is strictly prohibited. Seclusion and/or restraint shall not be used for the convenience of staff or as a substitute for an educational program. When restraint or seclusion is used to respond to the danger of harm posed by a student's behavior, the intervention shall be discontinued as soon as the danger of harm has dissipated.

[Option A: Most Aggressive Approach]

The use of physical restraint, mechanical restraint, and seclusion is permitted in a manner consistent with this policy as reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process.

[Option B: Aggressive Approach]

The use of physical restraint, mechanical restraint, and seclusion is permitted in a manner consistent with this policy:

- as reasonably necessary where the student's behavior risks causing physical harm to self, others, and property;
- in accordance with the student's IEP, Section 504, or behavior intervention plan; *or*
- as otherwise prescribed, recommended, or suggested by a medical or related services provider.

[Option C: Conservative Approach]

The use of mechanical restraint is strictly prohibited. The use of physical restraint and seclusion is permitted in a manner consistent with this policy as reasonably necessary where the student's behavior risks causing physical harm to self or others.

Procedures

No technique shall restrict a student's breathing, deprive a student of basic needs, or unnecessarily expose a student to physical pain or discomfort.

Seclusion shall not be used for students who are severely self-injurious or suicidal. When seclusion is utilized as permitted by this policy, the following procedures shall be followed:

- The student shall be monitored by an adult in close proximity who is able to regularly observe the student;
- The confining space shall be approved for such use, unless the use of such a space is impossible or impracticable under the circumstances;
- The confining space shall be appropriately lighted, ventilated, and heated or cooled; *and*
- The confining space shall be free from objects that unreasonably expose the student or others to harm.

If a pattern of behavior emerges that requires or is anticipated to require the use of restraint and/or seclusion for the student, the appropriate educators and/or team members shall review what assessments, evaluations, supports, services, programs, or placements are appropriate in light of the student's needs and circumstances.

Recording and Reporting

Each incident of restraint or seclusion must be recorded and reported as required by the building administrators.

Training

All staff members shall be provided notice of this policy and will be trained on its contents. The Superintendent or his or her designee will identify school staff members likely to implement the restraint or seclusion interventions authorized by this policy and arrange for those individuals to receive appropriate training on the appropriate implementation of such interventions and the use of other behavioral supports and interventions.

Concussion Awareness

The Nebraska Unicameral has found that concussions are one of the "most commonly reported injuries in children and adolescents who participate in sports and recreational activities and that the risk of catastrophic injury or death is significant when a concussion or brain injury is not properly evaluated and managed."

The School District will:

- a. Require all coaches and trainers to complete one of the following on-line courses on how to recognize the symptoms of a concussion or brain injury and how to seek proper medical treatment for a concussion or brain injury:
 - Heads UP Concussions in Youth Sports
 - Concussion in Sports—What You Need to Know
 - Sports Safety International
 - ConcussionWise
 - ACTive™ Athletic Concussion Training for Coaches; and
- b. On an annual basis provide concussion and brain injury information to students and their parents or guardians prior to such students initiating practice or competition. This information will include:
 - 1 The signs and symptoms of a concussion;
 - 2 The risks posed by sustaining a concussion; and
 - 3 The actions a student should take in response to sustaining a concussion, including the notification of his or her coaches.

A student who participates on a school athletic team must be removed from a practice or game when he/she is reasonably suspected of having sustained a concussion or brain injury in such practice or game after observation by a coach or a licensed health care professional who is professionally affiliated with or contracted by the school. The student will not be permitted to participate in any school supervised team athletic activities involving physical exertion, including practices or games, until the student:

- a. has been evaluated by a licensed health care professional;
- b. has received written and signed clearance to resume participation in athletic activities from the licensed health care professional; and

- c. has submitted the written and signed clearance to resume participation in athletic activities to the school accompanied by written permission to resume participation from the student's parent or guardian.

If a student is reasonably suspected after observation of having sustained a concussion or brain injury and is removed from an athletic activity, the parent or guardian of the student will be notified by the school of:

- a. the date and approximate time of the injury suffered by the student,
- b. the signs and symptoms of a concussion or brain injury that were observed, and
- c. any actions taken to treat the student.

The school district will not provide for the presence of a licensed health care professional at any practice or game.

School officials shall deem the signature of an individual who represents that he/she is a licensed health care professional on a written clearance to resume participation that is provided to the school to be conclusive and reliable evidence that the individual who signed the clearance is a licensed health care professional. The school will not take any additional or independent steps to verify the individual's qualifications.

Students who have sustained a concussion and returned to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered. The school's "return to learn protocol" shall be the guidance provided by the Nebraska Department of Education entitled "Bridging the Gap from Concussion to the Classroom," and accompanying materials and future supplements. Nothing in this policy or the referenced protocol shall entitle a student who has sustained a concussion to an individualized plan under Section 504 of the Rehabilitation Act, although staff will refer students who have sustained a concussion for evaluation under Section 504 as appropriate.

Athletic Contest Participation by Sixth Graders

If there are fewer than 12 boys or 12 girls in the combined enrollment of the seventh and eighth grades when those grades are part of the elementary school system, sixth grade students may participate in athletic contests between schools, within a school system, or between school systems if the school administration judges that it is appropriate after taking into consideration the competition's nature and value to the students, its physical requirements and dangers, and the sixth grade students' ages, physical and mental abilities, maturity, skills, and preparation for the competition. Otherwise, pupils in kindergarten through the sixth grade may not participate in any kinds of athletic contests between schools, within a school system, or between school systems except as provided in this policy or as otherwise allowed by law. This prohibition does not apply to annual field or play days.

Reading Instruction and Intervention Services

The purpose of this policy is to facilitate reading instruction and intervention services to address student reading needs, including, but not limited to, dyslexia. It is the school district's goal that each student be able to read at or above grade level by third grade.

Effective Reading Teachers. It is the intent of the school district to employ teachers for kindergarten through third grade who are effective reading teachers as evidenced by (a) evaluations based on classroom observations and student improvement on reading assessments or (b) specialized training in reading improvement.

Reading Assessment. Beginning in 2019-20, the school district will administer a reading assessment approved by the Nebraska Department of Education three times during the school year to all students in kindergarten through third grade. Exceptions to this requirement include:

- Any student receiving specialized instruction for limited English proficiency who has been receiving such instruction for less than two years;
- Any student receiving special education services for whom such assessment would conflict with the individualized education plan; and
- Any student receiving services under a plan pursuant to the requirements of section 504 of the federal Rehabilitation Act of 1973, 29 U.S.C. 794, or Title II of the federal Americans with Disabilities Act of 1990, 42 U.S.C. 12131 to 12165, as such acts and sections existed on January 1, 2018, for whom such assessment would conflict with such section 504 or Title II plan.

The first assessment must occur within the first 30 days of the school year.

Diagnostic assessments used within a supplemental reading intervention program do not require Nebraska Department of Education approval.

Deficiency Identification. Any student in kindergarten through third grade performing below the threshold level as determined by the Nebraska Department of Education shall be identified as having a reading deficiency for purposes of the Nebraska Reading Improvement Act and this policy. A student who is identified as having a reading deficiency shall remain identified as having a reading deficiency until the student performs at or above the threshold level on an approved reading assessment. Nothing in the Nebraska Reading Improvement Act or this policy shall prohibit a school district from identifying any other student as having a reading deficiency.

Supplemental Reading Intervention Program. The school district will provide a supplemental reading intervention program to ensure that students can read at or above grade level at the end of third grade. The school district may work collaboratively with a reading specialist at the Nebraska Department of Education, with educational service units, with learning communities, or through interlocal agreements to develop and provide such supplemental reading intervention programs. Each supplemental reading intervention program must:

- Be provided to any student identified as having a reading deficiency;
- Be implemented during regular school hours in addition to regularly scheduled reading instruction unless otherwise agreed to by a parent or guardian; and
- Make available a summer reading program each summer for any student who has been enrolled in grade one or higher and is identified as continuing to have a reading deficiency at the conclusion of the school year preceding such summer reading program. The summer reading program may be held in conjunction with existing summer programs in the school district or in a community reading program not affiliated with the school district or may be offered online.

The supplemental reading intervention program may also include:

- Reading intervention techniques that are based on scientific research and best practices;
- Diagnostic assessments to frequently monitor student progress throughout the school year and adjust instruction accordingly;
- Intensive intervention using strategies selected from the following list to match the weaknesses identified in the diagnostic assessment:
 - Development in phonemic awareness, phonics, fluency, vocabulary, and reading comprehension;
 - Explicit and systematic instruction with detailed explanations, extensive opportunities for guided practice, and opportunities for error corrections and feedback; or
 - Daily targeted individual or small-group reading intervention based on student needs as determined by diagnostic assessment data subject to planned extracurricular school activities;
- Strategies and resources to assist with reading skills at home, including parent-training workshops and suggestions for parent-guided home reading; or
- Access to before-school or after-school supplemental reading intervention with a teacher or tutor who has specialized training in reading intervention.

Parent/Guardian Notification. The school will give notice in writing or by electronic communication to the parent(s) or guardian(s) of any student identified as having a reading deficiency within 15 working days of such identification that the student has been identified as having a reading deficiency and that an individual reading improvement plan will be established and shared with the parents or guardians.

Reading Improvement Plan. Any student who is identified as having a reading deficiency will receive an individual reading improvement plan no later than 30 days after the identification of the reading deficiency. The reading improvement plan may be created by the teacher, the principal, other pertinent school personnel, and the parents or guardians of the student and shall describe the reading intervention services the student will receive through the supplemental reading intervention program to remedy the reading deficiency. The student must receive reading intervention services through the supplemental reading intervention program until the student is no longer identified as having a reading deficiency.

Reading Progress. Each student in kindergarten through third grade and his or her parent(s) or guardian(s) will be informed of the student's reading progress within a reasonable time after the school district receives the results from the student's approved reading assessment.
