### RECOMMENDED ACTION

**Special Recognition**

### RATIONALE

The Texas Art Education Association (TAEA) recently announced that Lake Travis ISD is the recipient of a 2024 District of Distinction Award.

According to TAEA, the largest state professional organization for art educators in the United States, the award recognizes districts for providing a well-rounded education that advocates and integrates visual arts curriculum to inspire creativity and build social emotional learning.

This is the fifth year that TAEA is honoring districts who meet rigorous criteria as evidenced from data. For the 2024 award, over 1,200 districts were eligible to apply. Each district submitted documentation from a comprehensive, 14-point rubric throughout the 2023-2024 school year. The association looks at field experiences, community service, and community exhibitions as part of the rigorous rubric for the award. TAEA also identifies districts who actively participate in programs such as the Visual Arts Scholastic Event (VASE), Junior VASE, and the Texas Elementary Art Meet (TEAM). Less than 100 districts met the standard and received the highest honor, indicating they are in the top 5.5 percent in art education of districts in the state.

The winning districts will be honored during the TAEA Fall Conference General Assembly in November.

Lake Travis High School Wind Ensemble - TMEA 6A Honor Band State Finals

### **RECOMMENDED ACTION**

**Special Recognition**

### **RATIONALE**

The Lake Travis High School Wind Ensemble recently secured 7th place in the highly competitive Texas Music Educators Association (TMEA) 6A Honor Band state finals competition.

To enter the TMEA Honor Band competition, a band must first prepare and record its performance within specified time limits. Recordings are then submitted to TMEA for adjudication. The adjudication process involves multiple rounds starting with Region, where up to four bands per classification can advance, followed by Area, and culminating in State, where bands are evaluated through a Semifinals/Finals format. Recordings are assessed by panels of judges at each level, and bands are ranked based on a combination of judges' scores, with strict guidelines to ensure fairness and adherence to competition rules.

This prestigious recognition highlights the exceptional talent, dedication, and hard work of our student-musicians and their directors.

## 2024-2025 Official Budget

### Overview:

The official budget document and the annual financial and compliance report are the primary vehicles used to present the financial plan and the results of operations of the District. The primary purpose of this budget document is to provide timely and useful information concerning the past, current and projected financial status of the District, in order to facilitate financial decisions that support the educational goals of the District.

The following document represents the financial plan for the Lake Travis Independent School District for the 2024-2025 fiscal year. This document culminates an intensive process involving input from parents, citizens, campus and administrative staff, the Superintendent and the Board of Trustees.

The budget has been prepared in accordance with state regulations and local policies covering the required twelve-month period from September 1, 2024 through August 31, 2025. Funding estimates were prepared under the current state funding legislation passed in the 88<sup>th</sup> Session (SB 2). Under SB 2, the M&O tax rate compression increased along with a \$60,000 increase to the homestead exemption. The Maximum Compression Rate approved by Texas Education Agency (TEA) for the 2024-2025 fiscal year decreases the M&O tax rate by 0.0085 cents. The Basic Allotment was adjusted from \$5,140 to \$6,160 in 2019-2020 under HB 3 and did not have an inflation adjustment factor to account for rising prices of goods and services. The Basic Allotment was not adjusted once again during the most recent 2023-2024 legislative session with the passage of SB 2. Therefore, the amount of funding per student has not changed for the last five budget years.

### Financial Status:

Lake Travis ISD proudly carries one of the highest credit ratings of any school district in the State of Texas. Debt issued by the District is currently rated AA+/AA+ by Standard & Poor's and Fitch, respectively.

The District began the 2023-2024 fiscal year with a fund balance of \$46 million. This healthy fund balance level will assist the District in continuing to absorb the impact of inflation and state funding adjustments. The District will also continue to identify and incorporate budget efficiencies wherever possible while meeting the needs of students with required services, enhancing student programs and providing instructional supports. Legislation at the state and federal levels will continue to be monitored in preparing future budgets.

**Legal Requirements:**

Federal, state and local guidelines govern the budget development process. The annually adopted budget includes the General Fund, Food Service Fund and the Debt Service Fund. For informational purposes only, planning estimate amounts for the federal grant funds are presented.

Section 44.002 through 44.006 of the Texas Education Code establishes the legal basis for the budget development in school districts. These codes require that the District prepare a budget by the date set by the state board of education, currently August 20<sup>th</sup> for districts with an August 31<sup>st</sup> fiscal year end. The code further requires that the president of the Board of Trustees call a public meeting, giving ten days public notice in a newspaper for the adoption of the District’s budget. The Board of Trustees must adopt the prepared budget no later than August 31<sup>st</sup>. The officially adopted District budget must be filed with the TEA through the Public Education Information Management System (PEIMS) by the date prescribed annually by TEA. A budget comparison for the annually adopted budget is presented below in Table 1.

The Official Budget for this district for the school year 2024-25 was adopted at a meeting of the Board of School Trustees on August 21, 2024 as evidenced in the Official School Board minutes. I certify, to the best of my knowledge, that the budget preparation and adoption is in accordance with provisions applicable to the Texas Education Code.

## **GENERAL FUND**

- **The General Fund accounts for the financial resources of the District and includes transactions as a result of revenues received from local maintenance taxes and foundation entitlements from the State of Texas.**
- **The General Fund uses budgetary control and shows activity resulting from the daily operations of the District. The majority of budget activity is attributed to personnel salaries and benefits.**

Taxes Due on Average Residence	\$ 5,581.86	\$ 5,988.62
Increase (Decrease) in Taxes		\$ 406.76

**Under state law, the dollar amount of school taxes imposed on the residence homestead of a person 65 years of age or older or of the surviving spouse of such a person, if the surviving spouse was 55 years of age or older when the person died, may not be increased above the amount paid in the first year after the person turned 65, regardless of changes in tax rate or property value.**

**Notice of Voter-Approval Rate: The highest tax rate the district can adopt before requiring voter approval at an election is 1.0656. This election will be automatically held if the district adopts a rate in excess of the voter-approval rate of 1.0656.**

**Fund Balances**

The following estimated balances will remain at the end of the current fiscal year and are not encumbered with or by a corresponding debt obligation, less estimated funds necessary for operating the district before receipt of the first state aid payment:

Maintenance and Operations Fund Balance(s)	\$ 42,034,875
Interest & Sinking Fund Balance(s)	\$ 10,765,361

A school district may not increase the district's maintenance and operations tax rate to create a surplus in maintenance and operations tax revenue for the purpose of paying the district's debt service.

Visit [Texas.gov/PropertyTaxes](http://Texas.gov/PropertyTaxes) to find a link to your local property tax database on which you can easily access information regarding your property taxes, including information about proposed tax rates and scheduled public hearings of each entity that taxes your property.

The 86th Texas Legislature modified the manner in which the voter-approval tax rate is calculated to limit the rate of growth of property taxes in the state.

### RATIONALE

TASB regularly sends updates of legal and local policy reflective of legislative changes, court cases, Commissioner's rulings, letters, etc. Update 121 includes updates to legal policies primarily due to legislative and regulatory changes. The local policy changes offered for board consideration in this update were prompted primarily by changes to the Texas Administrative Code and federal regulations, as well as new guidance from the Governmental Accounting Standards Board. In addition, the series of local policies addressing school safety personnel has been rearranged to better align with the associated legal policy codes.

For a detailed summary of the recommended changes see the Update 121 packet, explanatory notes, and local policy comparison packet. Below is a summary of the recommended changes to local policies.

CFB(LOCAL): ACCOUNTING - INVENTORIES - Revisions regarding the capitalization threshold are based on amended guidance from GASB Implementation Guide 2021-1, Question 5.1, regarding the capitalization of assets with individual acquisition costs below the threshold if the assets in the aggregate are significant. The amended guidance applies to re-reporting periods beginning after June 15, 2023.

CKE(LOCAL): SAFETY PROGRAM/RISK MANAGEMENT - SECURITY PERSONNEL - To better align the district's legal and local policies, provisions addressing commissioned peace officers have been relocated to CKEA(LOCAL).

CKEA(LOCAL): SECURITY PERSONNEL - COMMISSIONED PEACE OFFICERS - Provisions addressing commissioned peace officers have been relocated to this code from CKE(LOCAL). Please review the provisions for accuracy. If revisions are needed regarding other security personnel or if the

district's police department has a body-worn camera program or considers one in the future, please contact your policy consultant.

**CLB(LOCAL): BUILDINGS, GROUNDS, AND EQUIPMENT MANAGEMENT – MAINTENANCE -** Administrative Code rules regarding integrated pest management (IPM) were amended to include district-owned residential property among the district facilities subject to the IPM requirements. Although the changes to the rules add "residential property" to the buildings and grounds subject to IPM requirements, it is our understanding from the Texas Department of Agriculture that this inclusion is intended to apply only to district-owned residential property that is primarily used as student housing. As requested by TDA, revisions include such residential property among the district facilities subject to the district's IPM program.

**CO(LOCAL): FOOD AND NUTRITION MANAGEMENT -** Based on information received from the district, the enclosed revisions are recommended to update the district's grace period for students who have exhausted all funds or have an insufficient balance in their prepaid meal account.

**COA(LOCAL): FOOD AND NUTRITION MANAGEMENT – PROCUREMENT -** Based on information received from the district, the enclosed revisions are recommended to update the position of the employee responsible for overseeing procurement with federal child nutrition funds and for determining whether the district will apply a geographic preference when procuring certain products.

**CRF(LOCAL): INSURANCE AND ANNUITIES MANAGEMENT - UNEMPLOYMENT INSURANCE -** There are no significant revisions to the text on reasonable assurance; however, the policy template has been updated to accommodate the new adoption date function in Policy Online®. This policy is being issued at no charge to the district.

**CVA(LOCAL): FACILITIES CONSTRUCTION - COMPETITIVE BIDDING -** Policy BJA(LOCAL) authorizes the superintendent to delegate responsibilities to other employees of the district as permitted by law; thus, it is not necessary to include a reference to the superintendent's de-signee at Specifications. In addition, the policy template has been updated to accommodate the new adoption date function in Policy Online®. This policy is being issued at no charge to the district.

**CVB(LOCAL): FACILITIES CONSTRUCTION - COMPETITIVE SEALED PROPOSALS -**As noted above, policy BJA(LOCAL) authorizes the superintendent to delegate responsibilities to other employees of the district as permitted by law; thus, it is not necessary to include a reference to the superintendent's designee at Specifications. In addition, the policy template has been updated to accommodate the new adoption date function in Policy Online®. This policy is being issued at no charge to the district.

**DEA(LOCAL): COMPENSATION AND BENEFITS - COMPENSATION PLAN -** To eliminate the possibility of confusion about the frequency of pay, we recommend replacing bimonthly with the more specific and widely used semi-monthly. Other revisions are recommended for policy style and to clarify the circumstances under which certain employees will receive premium pay during an emergency closing for a disaster.

If the district no longer wants to provide premium pay for nonexempt employees who are required to work during an emergency closing for a disaster, please contact your policy consultant for appropriate revisions to this policy.

FD(LOCAL): ADMISSIONS - Recommended revisions to this policy at Transition Assistance reflect the repeal and replacement of an Administrative Code provision regarding awarding credit to a student who is homeless or in substitute care. Under the new rule, a district must adopt a policy to ensure credit has been awarded appropriately prior to enrollment. - Policies being recommended for revision (annotated)
- New policies (not annotated)
- Policies recommended for deletion (annotated in PDF; not shown in Word)

<i>Counseling</i>	The principal or designee shall notify the victim, the student who engaged in bullying, and any students who witnessed the bullying of available counseling options.

EDGAR means the Education Department General Administrative Regulations (34 C.F.R. 75, 76, 77, 79, 81, 82, 84, 86, 97, 98, and 99). *34 C.F.R. 77.1(c)*

Uniform Guidance  
(2 C.F.R. 200)

The Department of Education (ED) adopts the Office of Management and Budget (OMB) Guidance in 2 C.F.R. Part 200 Uniform Guidance, except for 2 C.F.R. 200.102(a) and 2 C.F.R. 200.207(a). Thus, 2 C.F.R. Chapter XXXIV, Part 3474 gives regulatory effect to the OMB guidance and supplements the guidance as needed for the ED. *2 C.F.R. 3474.1*

The Uniform Guidance establishes uniform administrative requirements, cost principles, and audit requirements for federal awards to non-federal entities, including school districts, as described in 2 C.F.R. 200.101 (Applicability). *2 C.F.R. 200.100(a)(1)*

*General  
Compliance*

A district is responsible for complying with all requirements of the federal award. *2 C.F.R. 200.300(b)*

Throughout 2 C.F.R. Part 200 when the word “must” is used it indicates a requirement. Whereas, use of the word “should” or “may” indicates a best practice or recommended approach rather than a requirement and permits discretion. *2 C.F.R. 200.101(b)(1)*

*Disclosures  
Conflicts*

A district must disclose in writing any potential conflict of interest to the federal awarding agency (e.g., ED) or pass-through entity (e.g., TEA) in accordance with applicable federal awarding agency policy. *2 C.F.R. 200.112*

Crimes

A district must disclose, in a timely manner, in writing to the federal awarding agency or pass-through entity all violations of federal criminal law involving fraud, bribery, or gratuity violations potentially affecting the federal award. Failure to make required disclosures can result in any of the remedies described in 2 C.F.R. 200.339 (Remedies for Noncompliance). *2 C.F.R. 200.113*

*Procurement  
Standards  
District  
Procedures*

The district must have and use documented procurement procedures, consistent with state, local, and tribal laws and regulations and the standards of 2 C.F.R. 200.318, for the acquisition of property or services required under a federal award or subaward. The district's documented procurement procedures [see Competition,

STATE AND FEDERAL REVENUE SOURCES  
FEDERAL

CBB  
(LEGAL)

below] must conform to the procurement standards identified in 2 C.F.R. 200.317 through 200.327.

Oversight The district must maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.

Conflicts of Interest The district must maintain written standards of conduct covering conflicts of interest and governing the actions of its employees engaged in the selection, award, and administration of contracts. No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a federal award if he or she has a real or apparent conflict of interest. A conflict of interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization that employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for a contract. The officers, employees, and agents of the district may neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, districts may set standards for situations in which the financial interest is not substantial or the gift is an unsolicited item of nominal value. The standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the district. [See BBFA, CAA(LOCAL), CB(LOCAL), DBD]

Records The district must maintain records sufficient to detail the history of procurement. These records will include, but are not necessarily limited to, the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price. [See Pre-procurement Review and Contract Cost and Price, below]

*2 C.F.R. 200.318(a), (b), (c)(1), (i)*

[See 2 C.F.R. 200.334 for record retention requirements.]

*Financial Management* The district's financial management systems, including records documenting compliance with federal statutes, regulations, and the terms and conditions of the federal award, must be sufficient to permit the preparation of reports required by general and program-specific terms and conditions; and the tracing of funds to a level of expenditures adequate to establish that such funds have been used according to the federal statutes, regulations, and the terms and conditions of the federal award. [See also 2 C.F.R. 200.450 (Lobbying)]

The district's financial management system must comply with 2 C.F.R. 200.302(b). [See also 2 C.F.R. 200.334 (Retention requirements for records), .335 (Requests for transfer of records), .336 (Methods for collection, transmission and storage of information), and .337 (Access to records)]

*2 C.F.R. 200.302*

Internal Controls The district must:

1. Establish and maintain effective internal control over the federal award that provides reasonable assurance that the district is managing the award in compliance with federal statutes, regulations, and the terms and conditions of the award. These internal controls should be in compliance with guidance in "Standards for Internal Control in the Federal Government" issued by the Comptroller General of the United States or the "Internal Control Integrated Framework" issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).
2. Comply with the U.S. Constitution, federal statutes, regulations, and the terms and conditions of the award.
3. Evaluate and monitor the district's compliance with statutes, regulations and the terms and conditions of federal awards.
4. Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.
5. Take reasonable measures to safeguard protected personally identifiable information and other information the federal awarding agency or pass-through entity designates as sensitive or the district considers sensitive consistent with applicable federal, state, local, and tribal laws regarding privacy and responsibility over confidentiality.

*2 C.F.R. 200.303*

"Internal controls" for districts means processes designed and implemented by districts to provide reasonable assurance regarding the achievement of objectives in the following categories:

1. Effectiveness and efficiency of operations;
2. Reliability of reporting for internal and external use; and
3. Compliance with applicable laws and regulations.

*2 C.F.R. 200.1*

*Competition*

All procurement transactions for the acquisition of property or services required under a federal award must be conducted in a manner providing full and open competition consistent with the standards of 2 C.F.R. 200.319 and 200.320 (Methods of procurement to be followed).

In order to ensure objective contractor performance and eliminate unfair competitive advantage, contractors that develop or draft specifications, requirements, statements of work, or invitations for bids or requests for proposals must be excluded from competing for such procurements.

The district must conduct procurements in a manner that prohibits the use of statutorily or administratively imposed state, local, or tribal geographical preferences in the evaluation of bids or proposals, except in those cases where applicable federal statutes expressly mandate or encourage geographic preference. Nothing in this provision preempts state licensing laws. When contracting for architectural and engineering services, geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

The district must have written procedures for procurement transactions. These procedures must ensure that all solicitations meet the requirements of 2 C.F.R. 200.319(d). [See Procurement Standards, above]

The district must ensure that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to ensure maximum open and free competition. Also, the district must not preclude potential bidders from qualifying during the solicitation period.

Noncompetitive procurements can only be awarded in accordance with 2 C.F.R. 200.320(c).

*2 C.F.R. 200.319*

*Procurement  
Methods*

The district must have and use documented procurement procedures, consistent with the standards of 2 C.F.R. 200.320 and 200.317 (Procurements by states), 200.318 (General procurement standards), and 200.319 (Competition) for any of the following methods of procurement used for the acquisition of property or services required under a federal award or sub-award. *2 C.F. R. 200.320*

Informal  
Procurement  
Methods

When the value of the procurement for property or services under a federal award does not exceed the simplified acquisition threshold, as defined in 2 C.F.R. 200.1, or a lower threshold established

by a district, formal procurement methods are not required. The district may use informal procurement methods to expedite the completion of its transactions and minimize the associated administrative burden and cost. The informal methods used for procurement of property or services at or below the simplified acquisition threshold include:

*Micro-  
Purchases—  
Definitions*

“Micro-purchase” means a purchase of supplies or services, the aggregate amount of which does not exceed the micro-purchase threshold. Micro-purchases comprise a subset of a district's small purchases as defined in 2 C.F.R. 200.320.

“Micro-purchase threshold” means the dollar amount at or below which a district may purchase property or services using micro-purchase procedures. Generally, the micro-purchase threshold for procurement activities administered under federal awards is not to exceed the amount set by the Federal Acquisition Regulations (FAR) at 48 C.F.R. Part 2, Subpart 2.1 [see below], unless a higher threshold is requested by the district and approved by the cognizant agency for indirect costs.

*2 C.F.R. 200.1*

Micro-purchase threshold means \$10,000, except as provided by 48 C.F.R. 2.101. *48 C.F.R. 2.101*

*Micro-  
Purchase  
Distribution*

The acquisition of supplies or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold. [See the definition of “micro-purchase” above.] To the maximum extent practicable, the district should distribute micro-purchases equitably among qualified suppliers. *2 C.F.R. 200.320(a)(1)(i)*

*Micro-  
Purchase  
Awards*

Micro-purchases may be awarded without soliciting competitive price or rate quotations if the district considers the price to be reasonable based on research, experience, purchase history or other information and documents it files accordingly. Purchase cards can be used for micro-purchases if procedures are documented and approved by the district. *2 C.F.R. 200.320(a)(1)(ii)*

*Micro-  
Purchase  
Thresholds*

The district is responsible for determining and documenting an appropriate micro-purchase threshold based on internal controls, an evaluation of risk, and its documented procurement procedures. The micro-purchase threshold used by the district must be authorized or not prohibited under state, local, or tribal laws or regulations. Districts may establish a threshold higher than the federal threshold established in the FAR in accordance with 2 C.F.R. 200.320(a)(1)(iv) and (v). *2 C.F.R. 200.320(a)(1)(iii)*

Districts may establish a threshold higher than the micro-purchase threshold identified in the FAR in accordance with the requirements

of 2 C.F.R. 200.320. The district may self-certify a threshold up to \$50,000 on an annual basis and must maintain documentation to be made available to the federal awarding agency and auditors in accordance with 2 C.F.R. 200.334. The self-certification must include a justification, clear identification of the threshold, and supporting documentation of any of the following:

1. A qualification as a low-risk auditee, in accordance with the criteria in 2 C.F.R. 200.520 for the most recent audit.
2. An annual internal institutional risk assessment to identify, mitigate, and manage financial risks; or,
3. For public institutions, a higher threshold consistent with state law.

*2 C.F.R. 200.320(a)(1)(iv)*

Micro-purchase thresholds higher than \$50,000 must be approved by the cognizant agency for indirect costs. The district must submit a request with the requirements included in 2 C.F.R.

200.320(a)(1)(iv). The increased threshold is valid until there is a change in status in which the justification was approved. *2 C.F.R. 200.320(a)(1)(v)*

*Small  
Purchases—  
Procedures*

The acquisition of property or services, the aggregate dollar amount of which is higher than the micro-purchase threshold but does not exceed the simplified acquisition threshold. If small purchase procedures are used, price or rate quotations must be obtained from an adequate number of qualified sources as determined appropriate by the district. *2 C.F.R. 200.320(a)(2)(i)*

*Small  
Purchases—  
Simplified  
Acquisition  
Thresholds*

“Simplified acquisition threshold” means the dollar amount below which a district may purchase property or services using small purchase methods. Districts adopt small purchase procedures in order to expedite the purchase of items at or below the simplified acquisition threshold. The simplified acquisition threshold for procurement activities administered under federal awards is set by the FAR at 48 C.F.R. Part 2, Subpart 2.1 [see below]. The district is responsible for determining an appropriate simplified acquisition threshold based on internal controls, an evaluation of risk, and its documented procurement procedures. However, in no circumstances can this threshold exceed the dollar value established in the FAR (48 C.F.R. Part 2, Subpart 2.1) for the simplified acquisition threshold. Recipients should determine if local government laws on purchasing apply. *2 C.F.R. 200.1, .320(a)(2)(ii)*

Simplified acquisition threshold means \$250,000, except as provided by 48 C.F.R. 2.101. *48 C.F.R. 2.101*

Formal  
Procurement  
Methods

When the value of the procurement for property or services under a federal financial assistance award exceeds the simplified acquisition threshold, or a lower threshold established by a district, formal procurement methods are required. Formal procurement methods require following documented procedures. Formal procurement methods also require public advertising unless a non-competitive procurement can be used in accordance with 2 C.F.R. 200.319 or 200.320(c). The following formal methods of procurement are used for procurement of property or services above the simplified acquisition threshold or a value below the simplified acquisition threshold the district determines to be appropriate:

*Sealed Bids*

A procurement method in which bids are publicly solicited and a firm fixed-price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bids method is the preferred method for procuring construction, if the conditions [*sic*].

In order for sealed bidding to be feasible, the following conditions should be present:

1. A complete, adequate, and realistic specification or purchase description is available;
2. Two or more responsible bidders are willing and able to compete effectively for the business; and
3. The procurement lends itself to a firm fixed price contract and the selection of the successful bidder can be made principally on the basis of price.

If sealed bids are used, the following requirements apply:

1. Bids must be solicited from an adequate number of qualified sources, providing them sufficient response time prior to the date set for opening the bids, for local governments, the invitation for bids must be publicly advertised;
2. The invitation for bids, which will include any specifications and pertinent attachments, must define the items or services in order for the bidder to properly respond;
3. All bids will be opened at the time and place prescribed in the invitation for bids, and for local governments, the bids must be opened publicly;
4. A firm fixed price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation

cost, and life cycle costs must be considered in determining which bid is lowest. Payment discounts will only be used to determine the low bid when prior experience indicates that such discounts are usually taken advantage of; and

5. Any or all bids may be rejected if there is a sound documented reason.

*2 C.F.R. 200.320(b)(1)*

*Proposals*

A procurement method in which either a fixed price or cost-reimbursement type contract is awarded. Proposals are generally used when conditions are not appropriate for the use of sealed bids. They are awarded in accordance with the following requirements:

1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Proposals must be solicited from an adequate number of qualified offerors. Any response to publicized requests for proposals must be considered to the maximum extent practical;
2. The district must have a written method for conducting technical evaluations of the proposals received and making selections;
3. Contracts must be awarded to the responsible offeror whose proposal is most advantageous to the district, with price and other factors considered; and
4. The district may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby offeror's qualifications are evaluated and the most qualified offeror is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

*2 C.F.R. 200.320(b)(2)*

*Noncompetitive  
Procurement*

There are specific circumstances in which noncompetitive procurement can be used. Noncompetitive procurement can only be awarded if one or more of the following circumstances apply:

1. The acquisition of property or services, the aggregate dollar amount of which does not exceed the micro-purchase threshold;
2. The item is available only from a single source;

STATE AND FEDERAL REVENUE SOURCES  
FEDERAL

CBB  
(LEGAL)

3. The public exigency or emergency for the requirement will not permit a delay resulting from publicizing a competitive solicitation;
4. The federal awarding agency or pass-through entity expressly authorizes a noncompetitive procurement in response to a written request from the district; or
5. After solicitation of a number of sources, competition is determined inadequate.

*2 C.F.R. 200.320(c)*

Cooperative  
Purchasing

To foster greater economy and efficiency, and in accordance with efforts to promote cost-effective use of shared services across the federal government, the district is encouraged to enter into state and local intergovernmental agreements or inter-entity agreements where appropriate for procurement or use of common or shared goods and services. Competition requirements will be met with documented procurement actions using strategic sourcing, shared services, and other similar procurement arrangements. *2 C.F.R. 200.318(e)*

*Minority, Small,  
and Women's  
Businesses*

The district must take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are used when possible. Affirmative steps must include:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
2. Assuring that small and minority businesses and women's business enterprises are solicited whenever they are potential sources;
3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and

6. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in items 1 through 5 above.

*2 C.F.R. 200.321*

*Domestic  
Preference*

As appropriate and to the extent consistent with law, the district should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of 2 C.F.R. 200.322 must be included in all subawards including all contracts and purchase orders for work or products under this award.

For purposes of this provision:

1. "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
2. "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

*2 C.F.R. 200.322*

*Pre-procurement  
Review*

The district must make available upon request, for the federal awarding agency or pass-through entity pre-procurement review, procurement documents, such as requests for proposals or invitations for bids, or independent cost estimates, when:

1. The district's procurement procedures or operation fails to comply with the procurement standards in 2 C.F.R. Part 200;
2. The procurement is expected to exceed the simplified acquisition threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation;
3. The procurement, which is expected to exceed the simplified acquisition threshold, specifies a "brand name" product;
4. The proposed contract is more than the simplified acquisition threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or

5. A proposed contract modification changes the scope of a contract or increases the contract amount by more than the simplified acquisition threshold.

*2 C.F.R. 200.325(b)*

*Contract Cost  
and Price*

The district must perform a cost or price analysis in connection with every procurement action in excess of the simplified acquisition threshold including contract modifications. The method and degree of analysis is dependent on the facts surrounding the particular procurement situation, but as a starting point, the district must make independent estimates before receiving bids or proposals.

The district must negotiate profit as a separate element of the price for each contract in which there is no price competition and in all cases where cost analysis is performed. To establish a fair and reasonable profit, consideration must be given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Costs or prices based on estimated costs for contracts under the federal award are allowable only to the extent that costs incurred or cost estimates included in negotiated prices would be allowable for the district under 2 C.F.R. Part 200, Subpart E. The district may reference its own cost principles that comply with the federal cost principles.

The cost plus a percentage of cost and percentage of construction cost methods of contracting must not be used.

*2 C.F.R. 200.324*

*Contract  
Provisions*

The district's contracts must contain the applicable provisions described in appendix II to 2 C.F.R. Part 200. *2 C.F.R. 200.327*

*Suspension and  
Debarment*

Districts are subject to the non-procurement debarment and suspension regulations at 2 C.F.R. Part 180. These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in federal assistance programs or activities. *2 C.F.R. 200.214*

*Remedies for  
Noncompliance*

If a district fails to comply with the U.S. Constitution, federal statutes, regulations, or the terms and conditions of a federal award, the federal awarding agency or pass-through entity may impose additional conditions, as described in 2 C.F.R. 200.208 (Specific Conditions). If the federal awarding agency or pass-through entity determines that noncompliance cannot be remedied by im-

posing additional conditions, the federal awarding agency or pass-through entity may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by the district or more severe enforcement action by the federal awarding agency or pass-through entity.
2. Disallow (that is, deny both use of funds and any applicable matching credit for) all or part of the cost of the activity or action not in compliance.
3. Wholly or partly suspend or terminate the federal award.
4. Initiate suspension or debarment proceedings as authorized under 2 C.F.R. Part 180 and federal awarding agency regulations (or in the case of a pass-through entity, recommend such a proceeding be initiated by a federal awarding agency).
5. Withhold further federal awards for the project or program.
6. Take other remedies that may be legally available.

*2 C.F.R. 200.339*

*Travel Costs*

Travel costs are the expenses for transportation, lodging, subsistence, and related items incurred by employees who are in travel status on official business of the district. Such costs may be charged on an actual cost basis, on a per diem or mileage basis in lieu of actual costs incurred, or on a combination of the two, provided the method used is applied to an entire trip and not to selected days of the trip, and results in charges consistent with those normally allowed in like circumstances in the district's non-federally funded activities and in accordance with the district's written travel reimbursement policies.

In the absence of an acceptable, written district policy regarding travel costs, the rates and amounts established under 5 U.S.C. 5701-11 (Travel and Subsistence Expenses; Mileage Allowances), or by the administrator of general services, or by the president (or his or her designee) pursuant to any provisions of such subchapter must apply to travel under federal awards [48 C.F.R. 31.205-46(a)].

*2 C.F.R. 200.475(a), (d)*

*Property  
Standards*

Federally  
Owned Property

Title to federally owned property remains vested in the federal government. The district must submit annually an inventory listing of federally owned property in its custody to the federal awarding agency. Upon completion of the federal award or when the prop-

erty is no longer needed, the district must report the property to the federal awarding agency for further federal agency utilization.

Exempt property means property acquired under a federal award where the federal awarding agency has chosen to vest title to the property to the district without further responsibility to the federal government, based upon the explicit terms and conditions of the federal award. The federal awarding agency may exercise this option when statutory authority exists. Absent statutory authority and specific terms and conditions of the federal award, title to exempt property acquired under the federal award remains with the federal government.

*2 C.F.R. 200.312(a), (c)*

Property Trust  
Relationship

Real property, equipment, and intangible property that are acquired or improved with a federal award must be held in trust by the district as trustee for the beneficiaries of the project or program under which the property was acquired or improved. The federal awarding agency may require the district to record liens or other appropriate notices of record to indicate that personal or real property has been acquired or improved with a federal award and that use and disposition conditions apply to the property. *2 C.F.R. 200.316*

Real Property

Subject to the requirements and conditions set forth in 2 C.F.R. 200.311, title to real property acquired or improved under a federal award will vest upon acquisition in the district.

Except as otherwise provided by federal statutes or by the federal awarding agency, real property will be used for the originally authorized purpose as long as needed for that purpose, during which time the district must not dispose of or encumber its title or other interests.

When real property is no longer needed for the originally authorized purpose, the district must obtain disposition instructions from the federal awarding agency or pass-through entity. The instructions must provide for one of the following alternatives:

1. Retain title after compensating the federal awarding agency an amount determined under 2 C.F.R. 200.311(c)(1).
2. Sell the property and compensate the federal awarding agency an amount determined under 2 C.F.R. 200.311(c)(2).
3. Transfer title to the federal awarding agency or to a third party designated/approved by the federal awarding agency. The district is entitled to be paid an amount calculated by applying the district's percentage of participation in the purchase of the

real property (and cost of any improvements) to the current fair market value of the property.

*2 C.F.R. 200.311*

Equipment  
*Title and Use* Subject to the requirements and conditions set forth in 2 C.F.R. 200.313, title to equipment acquired under a federal award will vest upon acquisition in the district. Unless a statute specifically authorizes the federal agency to vest title in the district without further responsibility to the federal government, and the federal agency elects to do so, the title must be a conditional title. Title must vest in the district subject to the following conditions:

1. Use the equipment for the authorized purposes of the project during the period of performance, or until the property is no longer needed for the purposes of the project.
2. Not encumber the property without approval of the federal awarding agency or pass-through entity.
3. Use and dispose of the property in accordance with the provisions below.

Equipment must be used by the district in the program or project for which it was acquired in accordance with 2 C.F.R. 200.313(c).

Procedures for managing equipment (including replacement equipment), whether acquired in whole or in part under a federal award, until disposition takes place will, as a minimum, meet the requirements of 2 C.F.R. 200.313(d).

*Disposition* If the district is authorized or required to sell the property, proper sales procedures must be established to ensure the highest possible return.

When original or replacement equipment acquired under a federal award is no longer needed for the original project or program or for other activities currently or previously supported by a federal awarding agency, except as otherwise provided in federal statutes, regulations, or federal awarding agency disposition instructions, the district must request disposition instructions from the federal awarding agency if required by the terms and conditions of the federal award. Disposition of the equipment will be made as prescribed in 2 C.F.R. 200.313(e), in accordance with federal awarding agency disposition instructions.

*2 C.F.R. 200.313*

Supplies Title to supplies will vest in the district upon acquisition. If there is a residual inventory of unused supplies exceeding \$5,000 in total aggregate value upon termination or completion of the project or pro-

The amount of compensation must be computed in the same manner as for equipment under 2 C.F.R. 200.313(e)(2). <i>2 C.F.R. 200.314(a)</i></p>
Intangible Property	<p>Title to intangible property acquired under a federal award vests upon acquisition in the district. The district must use that property for the originally authorized purpose, and must not encumber the property without approval of the federal awarding agency. When no longer needed for the originally authorized purpose, disposition of the intangible property must occur in accordance with the provisions in 2 C.F.R. 200.313(e). <i>2 C.F.R. 200.315(a)</i></p>

**Bonds and Bond  
Taxes**

The board may issue bonds for:

1. The construction, acquisition, and equipment of school buildings in the district;
2. The acquisition of property or the refinancing of property under a contract entered under the Public Property Finance Act (Local Government Code, Chapter 271, Subchapter A), regardless of whether payment obligations under the contract are due in the current year or a future year;
3. The purchase of the necessary sites for school buildings;
4. The purchase of new school buses;
5. The retrofitting of school buses with emergency, safety, or security equipment; and
6. The purchase or retrofitting of vehicles to be used for emergency, safety, or security purposes.

The board may levy, pledge, assess, and collect annual ad valorem taxes sufficient to pay the principal of and interest on the bonds as or before the principal and interest become due, subject to the provisions at Bond Elections, below.

*Education Code 45.001(a)*

All bonds shall be issued in accordance with the Public Security Procedures Act. *Gov't Code, Ch. 1201*

Limitation

A district may not issue general obligation bonds to purchase, improve, or construct one or more improvements to real property, to purchase one or more items of personal property, or to do both, if the weighted average maturity of the issue of bonds exceeds 120 percent of the reasonably expected weighted average economic life of the improvements and personal property financed with the issue of bonds. *Gov't Code 1253.002*

Use of Proceeds for  
Utilities

The proceeds of bonds issued by school districts for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used, among other things, to pay the cost of acquiring, laying, and installing pipes or lines to connect with the water, sewer, or gas lines of a municipality or private utility company, whether or not the water, sewer, or gas lines adjoin the school, so that the school district may provide its public school buildings the water, sewer, or gas services. *Education Code 45.101*

*Instructional  
Facilities

“Instructional facility” means real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching the required curriculum. *Education Code 46.001*

Under the Instructional Facilities Allotment, Education Code Chapter 46, Subchapter A, for each year, except as provided by Education Code 46.005 (limitation on the guaranteed amount) and 46.006 (shortage or excess of appropriated funds), a district is guaranteed a specified amount per student in state and local funds for each cent of tax effort, up to the statutory maximum in Education Code 46.003(b), to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate or improve an instructional facility. *Education Code 46.003(a)* [See 19 Administrative Code 61.1032 for commissioner’s rules related to the instructional facilities allotment.]

*Existing Debt  
Allotment*

A district is guaranteed a specified amount per student in state and local funds for each cent of tax effort to pay the principal and interest on eligible bonds under Education Code Chapter 46, Subchapter B. Bonds are eligible to be paid with state and local funds under Subchapter B if the district made payments on the bonds during the final school year of the preceding state fiscal biennium or taxes levied to pay the principal and interest on the bonds were included in a district’s audited debt service collections for that school year, and the district does not receive state assistance under the Instructional Facilities Allotment for payment of the principal and interest on the bonds. *Education Code 46.032(a), .033* [See 19 Administrative Code 61.1035 for commissioner’s rules related to the existing debt allotment.]

Investment of Bond  
Proceeds

For legal requirements regarding investment of bond proceeds, see CDA(LEGAL).

Unspent Bond  
Proceeds

A district may use unspent proceeds of issued general obligation bonds only:

1. For the specific purposes for which the bonds were authorized;
2. To retire the bonds; or
3. For a purpose other than the specific purposes for which the bonds were authorized if:
  - a. The specific purposes are accomplished or abandoned; and

- b. The board at a public meeting held only for the purpose of considering the use of the unspent bond proceeds approves in separate votes the use of the proceeds for:
  - (1) A purpose other than to retire the bonds; and
  - (2) The purpose specified at the time the vote is taken.

In addition to other requirements, notice of a public meeting held under this provision must include a statement that the board will consider the use of unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized. A public meeting held under this provision must provide the public an opportunity to address the board on the question of using the unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

*Education Code 45.1105*

**Capital Appreciation  
Bonds**

For purposes of the following policy provisions, a “capital appreciation bond” is a bond that accrues and compounds interest from its date of delivery, the interest on which by its terms is payable only upon maturity or prior redemption.

Limitation on  
Issuance

A school district may not issue capital appreciation bonds that are secured by ad valorem taxes unless:

- 1. The bonds have a scheduled maturity date that is not later than 20 years after the date of issuance;
- 2. The board has received a written estimate of the cost of the issuance, including:
  - a. The amount of principal and interest to be paid until maturity;
  - b. The amount of fees to be paid to outside vendors, including vendors who sell products to be financed by the bond issuance;
  - c. The amount of fees to be paid to each financing team member; and
  - d. The projected tax impact of the bonds and the assumptions on which the calculation of the projected tax impact is based;
- 3. The board has determined in writing whether any personal or financial relationship exists between the members of the board and any financial advisor, bond counsel, bond underwriter, or other professional associated with the bond issuance and submitted the determination to the Ethics Commission; and

4. The board posts prominently on the district's internet website and enters in the minutes of the board:
  - a. The total amount of the proposed bonds;
  - b. The length of maturity of the proposed bonds;
  - c. The projects to be financed with bond proceeds;
  - d. The intended use of bond proceeds not spent after completion of the projects identified;
  - e. The total amount of the district's outstanding bonded indebtedness at the time of the election on the bonds, including the amount of principal and interest to be paid on existing bond indebtedness until maturity;
  - f. The total amount of the district's outstanding bonded indebtedness, including the amount of principal and interest to be paid until maturity; and
  - g. The information received at item 2 above and determined under item 3 above.

The board shall regularly update the debt information posted on the district's internet website under item 4.f above to ensure that the information is current and accurate.

Limitation on Use of Proceeds

Capital appreciation bond proceeds may not be used to purchase the following items, unless an item has an expected useful life that exceeds the bond's maturity date:

1. Items more regularly considered maintenance items, including replacement HVAC units, upgraded plumbing, or similar items; or
2. Transportation-related items, including buses.

*Unspent Proceeds*

Capital appreciation bond proceeds unspent after completion of the project identified as the proceeds' intended use may be used only for a use identified on the district's website as required above, unless another use is approved by the voters of the district at an election held for that purpose.

Total Amount of Capital Appreciation Bonds

The total amount of capital appreciation bonds may not exceed 25 percent of the district's total outstanding bonded indebtedness at the time of the issuance, including the amount of principal and interest to be paid on the outstanding bonds until maturity.

Extension

A district may not extend the maturity date of an issued capital appreciation bond, including through the issuance of refunding bonds that extend the maturity date, unless:

1. The extension of the maturity date will decrease the total amount of projected principal and interest to maturity; or
2. The maximum legally allowable tax rate for indebtedness has been adopted and TEA certifies in writing that the solvency of the permanent school fund's bond guarantee program would be threatened without the extension.

*Gov't Code 1201.0245*

The foregoing provisions of Government Code 1201.0245 do not apply to the issuance of refunding bonds under Government Code Chapter 1207 or capital appreciation bonds for the purpose of financing transportation projects. *Gov't Code 1201.0245(j)*

**Bond Elections**

Bonds may not be issued and taxes may not be levied unless authorized by a majority of the qualified voters of the district, voting at an election held for such purpose, at the expense of the district, in accordance with the Election Code, except as provided by Education Code 45.003. The election shall be called by resolution or order of the board. The resolution or order must state the date of the election, the proposition or propositions to be submitted and voted on, the polling place or places, and any other matters considered necessary or advisable by the board. *Education Code 45.003(a)*

Each special election in this state shall be held on one of the following dates:

1. The first Saturday in May; or
2. The first Tuesday after the first Monday in November.

*Election Code 41.001(a)* [See BBB]

In addition to other legal requirements regarding the election order [see BBBA(LEGAL)], the document ordering an election to authorize a district to issue debt obligations must distinctly state:

1. The proposition language that will appear on the ballot;
2. The purpose for which the bonds are to be authorized;
3. The principal amount of the bonds to be authorized;
4. That taxes sufficient to pay the principal of and interest on the bonds may be imposed;

5. The estimated tax rate if the bonds are authorized or the maximum interest rate of the bonds or any series of the bonds, based on the market conditions at the time of the election order;
6. The maximum maturity date of the bonds to be authorized or that the bonds may be issued to mature over a specified number of years not to exceed the maximum number of years authorized by law;
7. The aggregate amount of the outstanding principal of the district's debt obligations as of the date the election is ordered;
8. The aggregate amount of the outstanding interest on the district's debt obligations as of the date the election is ordered, which may be based on the district's expectations relative to variable rate debt obligations; and

1. Sufficient, without limits as to rate or amount, to pay the principal of and interest on said bonds; or

Each separate ballot proposition must state the principal amount of the bonds to be issued that constitutes the cost for construction of that portion of the building or complex attributable to the building described by items 1a–e above or to the traditional classroom facilities, as applicable.

**50 Cent Test for New  
Debt**

Before issuing bonds, a district must demonstrate to the attorney general that, with respect to the proposed issuance, the district has a projected ability to pay the principal of and interest on the proposed bonds and all previously issued bonds, other than bonds authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992, from a tax at a rate not to exceed \$0.50 per \$100 of valuation (the "50 Cent Test").

A district may demonstrate the ability to comply with the 50 Cent Test by using the most recent taxable value of property in the district, combined with state assistance to which the district is entitled under Education Code Chapter 46 or 48 that may be lawfully used for the payment of bonds.

Future Taxable  
Value

A district may demonstrate the ability to comply with the 50 Cent Test by using a projected future taxable value of property in the district anticipated for the earlier of the tax year five years after the current tax year or the tax year in which the final payment is due for the bonds submitted to the attorney general, combined with state assistance to which the district is entitled under Education Code Chapter 46 or 48 that may be lawfully used for the payment of bonds.

The district must submit to the attorney general a certification of the district's projected taxable value prepared by a registered, certified professional appraiser who has demonstrated professional experience in projecting taxable values or who can obtain any necessary assistance from an experienced person.

The certification of a district's projected taxable value must be signed by the superintendent. The attorney general must base a determination of whether a district has complied with the 50 Cent

Test on a taxable value that is equal to 90 percent of the value certified.

5. The district must agree in its application that the total annual debt service on bonds approved for the credit enhancement will be paid on or before August 15 of each state fiscal year.

**Federal Securities Law**

Disclosure Obligations for Bond and Other Debt Offerings

Prior to publicly offering bonds, a school district must prepare and deliver to an underwriter an official statement containing the terms of the bond offering, a description of the district itself, financial and operating data of the district, and any other information that may be material to an investor interested in purchasing the district's bonds or otherwise required by Rule 15c2-12 of the Securities Exchange Commission (SEC) (SEC Rule 15c2-12(b)). *17 C.F.R. 240.15c2-12* [See Note, below]

Continuing Disclosure after Issuing Bonds

Except for exempt offerings, SEC Rule 15c2-12(b) requires underwriters to obtain a continuing disclosure agreement (CDA) from the district when the district issues bonds. A CDA obligates the district to prepare and file continuing disclosures of financial information and operating data annually after the bonds are issued. A CDA also requires filing notice regarding the occurrence of events listed under SEC Rule 15c2-12(b)(5)(i)(C) within 10 business days following the occurrence of any such event. *17 C.F.R. 240.15c2-12* [See Note, below]

Liability under Federal Securities Law

School districts, board members, and certain employees of the district are subject to liability under the antifraud provisions of the federal securities laws contained in Section 17(a) of the Securities Act

of 1933 (the “Securities Act”), Section 10(b) of the Securities Exchange Act of 1934 (the “Exchange Act”) and Rule 10b-5 of the SEC. The antifraud provisions generally prohibit false or misleading statements made in connection with the offer or sale of a district’s bonds (or the omission of material facts from such statements), including the official statement itself and any other statement reasonably expected to reach bond investors (disclosures). *SEC Exchange Act Release No. 33741 (Mar. 9, 1994)*

The antifraud provisions also apply to a district’s continuing disclosure obligations under SEC Rule 15c2-12(b) after a district’s bonds are issued. [See Continuing Disclosure after Issuing Bonds, above] *SEC Report on the Municipal Securities Market (July 31, 2012) (the “SEC 2012 Report”) at pg. 29*

---

**Note:** In preparing an official statement, a district may reasonably rely on the advice of outside professionals who are also subject to the antifraud provisions, but a district is primarily liable for the content of its official statement and other disclosures. *SEC Exchange Act Release No. 36761 (Jan. 24, 1996)*

A district may engage qualified consultants, including qualified disclosure or securities counsel and a financial adviser, to assist with preparing an official statement and other primary disclosures relating to a bond offering. Creation of internal procedures may help to insulate a district against criticism or liability under federal securities laws.

Districts may also engage disclosure counsel and/or other professionals to assist with secondary disclosure, including advice and assistance ensuring that (1) reporting requirements imposed by a CDA are satisfied and (2) information disclosed in periodic and occasional reports is accurate and complete.

Internal procedures may provide for (1) appointment of, and disclosure training for, district officials and employees who will be part of the financing team, (2) a procedure of accountability for review of the disclosures, and (3) ensuring that any procedures established are in fact followed.

**Exemptions**

Homestead

*Mandatory*

An adult is entitled to exemption from taxation by a district of \$40,000 of the appraised value of the adult's residence homestead, as defined by Tax Code 11.13(j), except that only \$5,000 of the exemption applies to an entity operating under former Education Code Chapters 17, 18, 25, 26, 27, or 28, as those chapters existed on May 1, 1995, as permitted by Education Code 11.301. *Tax Code 11.13(b)*

*Persons 65 or Older or Disabled*

In addition to the mandatory exemption above, an adult who is disabled, as defined by Tax Code 11.13(m)(1), or 65 or older is entitled to an exemption of \$10,000 of the appraised value of the individual's residence homestead. *Tax Code 11.13(c)*

Tax Limitation

A district may not increase the total annual amount of ad valorem tax it imposes on the residence homestead of an individual 65 years of age or older, or on the residence homestead of an individual who is disabled, above the amount of the tax it imposed in the first tax year in which the individual qualified that residence homestead for an applicable exemption. *Tax Code 11.26(a)*

Improvements

If an individual subject to a tax limitation makes improvements to the individual's residence homestead, other than improvements required to comply with governmental requirements or repairs, the district may increase the tax on the homestead in the first year the value of the homestead is increased on the appraisal roll because of the enhancement of value by the improvements. A limitation then applies to the increased amount of tax until more improvements, if any, are made. *Tax Code 11.26(b)*

*Exception*

An improvement to property that would otherwise constitute an improvement discussed above is not treated as an improvement if it is a replacement structure for a structure that was rendered uninhabitable or unusable by a casualty or by wind or water damage. For purposes of appraising the property in the tax year in which the structure would have constituted an improvement, the replacement structure is considered to be an improvement only if the square footage of the replacement structure exceeds that of the replaced structure as that structure existed before the casualty or damage occurred or the exterior of the replacement structure is of higher quality construction and composition than that of the replaced structure. *Tax Code 11.26(o)*

AD VALOREM TAXES  
EXEMPTIONS AND PAYMENTS

CCGA  
(LEGAL)

Portability of Tax Limitation	If an individual who receives a tax limitation, including a surviving spouse, discussed below, subsequently qualifies a different residence homestead for the same exemption, a district may not impose ad valorem taxes on the subsequently qualified homestead in a year in an amount that exceeds the amount of taxes calculated in accordance with Tax Code 11.26(g). <i>Tax Code 11.26(g)</i>
Surviving Spouse	If an individual who qualifies for the exemption at Persons 65 or Older or Disabled, above, dies, the surviving spouse of the individual is entitled to the limitation applicable to the residence homestead of the individual if the surviving spouse is 55 years of age or older when the individual dies, and the residence homestead of the individual is the residence homestead of the surviving spouse on the date that the individual dies and remains the residence homestead of the surviving spouse. <i>Tax Code 11.26(i)</i>
<i>Local Options</i> All Taxpayers	In addition to other exemptions in Tax Code 11.13, an individual is entitled to an exemption from taxation by a district of a percentage of the appraised value of the individual's residence homestead if the exemption is adopted by the board before July 1 in the manner provided by law for official action by the board. If the percentage set by the district produces an exemption in a tax year of less than \$5,000 when applied to a particular residence homestead, the individual is entitled to an exemption of \$5,000 of the appraised value. The percentage adopted by the district may not exceed 20 percent. <i>Tax Code 11.13(n)</i>
Disabled or 65 or Older	An individual who is disabled or 65 or older is entitled to an exemption from taxation by a district of a portion of the appraised value of the individual's residence homestead if the exemption is adopted either by the board or by a favorable vote of a majority of the qualified voters of the district at an election called by the board, and the board shall call the election on the petition of at least 20 percent of the number of qualified voters who voted in the preceding election of the district.
<i>Amount</i>	The amount of an exemption adopted as provided at Disabled or 65 or Older is \$3,000 of the appraised value of the residence homestead unless a larger amount is specified by the board if the board authorizes the exemption or the petition for the election if the exemption is authorized through an election. Once authorized, an exemption adopted may be repealed or decreased or increased in amount by the board or by the petition and election procedure. In the case of a decrease, the amount of the exemption may not be reduced to less than \$3,000 of the market value.  <i>Tax Code 11.13(d)-(f)</i>

<i>Continuation of Exemption during Construction</i>	If a qualified residential structure for which the owner receives a homestead exemption under Tax Code 11.13 is rendered uninhabitable or unusable by a casualty or by wind or water damage, the owner may continue to receive the exemption for the structure and the land and improvements used in the residential occupancy of the structure while the owner constructs a replacement qualified residential structure on the land in accordance with Tax Code 11.135. <i>Tax Code 11.135(a), .26(n); 34 TAC 9.416</i>
<i>Surviving Spouse of First Responder</i>	The surviving spouse of a first responder who is killed or fatally injured in the line of duty is entitled to an exemption from taxation of the total appraised value of the surviving spouse's residence homestead if the surviving spouse is an eligible survivor for purposes of Government Code Chapter 615 as determined by the Employees Retirement System of Texas and has not remarried since the first responder's death. <i>Tax Code 11.134</i>
<b>Veteran Exemptions</b> <i>100 Percent Disabled</i>	A disabled veteran who has been awarded by the U.S. Department of Veterans Affairs or its successor 100 percent disability compensation due to a service-connected disability and a rating of 100 percent disabled or of individual unemployability is entitled to an exemption from taxation of the total appraised value of the veteran's residence homestead. <i>Tax Code 11.131(b)</i>
<i>Partially Disabled with Donated Residence</i>	A disabled veteran who has a disability rating of less than 100 percent is entitled to an exemption from taxation of a percentage of the appraised value of the disabled veteran's residence homestead equal to the disabled veteran's disability rating if the residence homestead was donated to the disabled veteran by a charitable organization at no cost to the disabled veteran, or at some cost to the disabled veteran in the form of a cash payment, a mortgage, or both in an aggregate amount that is not more than 50 percent of the good faith estimate of the market value of the residence homestead made by the charitable organization as of the date of the donation. <i>Tax Code 11.132(b)</i>
<i>Surviving Spouse of Veteran</i>	The surviving spouse of a disabled veteran, as defined by Tax Code 11.22(h)(3), is entitled to the same exemption from taxation of the same property to which the disabled veteran's exemption applied or would have applied if it had been in effect on the date of death if: <ol style="list-style-type: none"><li>1. The surviving spouse has not remarried since the death of the disabled veteran; and</li></ol>

2. The property was the residence homestead of the surviving spouse when the disabled veteran died and remains the residence homestead of the surviving spouse.

of Individual

A person who qualifies for an exemption under this provision must apply for the exemption not later than the 105th day after the date the governor declares the area in which the person's qualified property is located to be a disaster area. *Tax Code 11.43(s)*

"Damage" means physical damage. *Tax Code 11.35(a)(1)*

Optional  
Exemptions

Among others, a board may grant additional tax exemptions in accordance with applicable law for:

1. Residential property owned by the United States or an agency of the United States and used to provide transitional housing for the indigent under a program operated or directed by the

U.S. Department of Housing and Urban Development. *Tax Code 11.111*

2. Land and housing units on the land owned by a community land trust. *Tax Code 11.1827*
3. Certain historic structures or archeological sites and the land necessary to access and use the structure or archeological site. The board may not repeal or reduce the amount of an exemption for a property that otherwise qualifies for the exemption unless the property owner consents to the repeal or reduction or the district provides written notice of the repeal or reduction to the owner not later than five years before the date the board repeals or reduces the exemption. *Tax Code 11.24*
4. Property on which approved water conservation initiatives, desalination projects, or brush control initiatives have been implemented. *Tax Code 11.32*

If a district adopts, amends, or repeals an exemption that the district by law has the option to adopt or not, the district shall notify the appraisal office of its action and of the terms of the exemption within 30 days after the date of its action. *Tax Code 6.08*

Goods-in-Transit  
*Exemption*

A person is entitled to an exemption from taxation of the appraised value of that portion of the person's property that consists of goods-in-transit, as defined in Tax Code 11.253(a)(2). *Tax Code 11.253(b)*

[For information on the board's option in a district located in a disaster area to extend the date by which goods-in-transit must be transported, see Tax Code 11.253(l).]

*Option to Tax*

A board, by official action, may provide for the taxation of goods-in-transit exempt under Tax Code 11.253(b) and not exempt under other law. The official action to tax the goods-in-transit must be taken before January 1 of the first tax year in which the board proposes to tax goods-in-transit. Before acting to tax the exempt property, a board must conduct a public hearing as required by Texas Constitution Article VIII, Section 1-n(d). If the board provides for the taxation of the goods-in-transit as provided by this provision, the exemption stated above does not apply to that district. The goods-in-transit remain subject to taxation by the district until the board, by official action, rescinds or repeals its previous action to tax goods-in-transit, or otherwise determines that the exemption will apply to that district.

Notwithstanding official action that was taken before October 1, 2011, to tax goods-in-transit, a district may not tax such goods-in-

transit in a tax year that begins on or after January 1, 2012, unless the board takes official action on or after October 1, 2011, to provide for the taxation of the goods-in-transit.

**Tax Increment  
Financing Act**

Board of Directors

Except as provided at Large Municipality below, each district that levies taxes on real property in a reinvestment zone designated by a county or municipality in accordance with the Tax Increment Financing Act, Tax Code Chapter 311, may appoint one member of the reinvestment zone board of directors if the district has approved the payment of all or part of the tax increment produced by the district into the tax increment fund for the zone. A district may waive its right to appoint a director. *Tax Code 311.009(a), (b)*

*Large  
Municipality*

In a reinvestment zone designated by a municipality which is wholly or partially located in a county with a population of less than 1.8 million in which the principal municipality has a population of 1.1 million or more, each taxing unit that approves the payment of all or part of its tax increment into the tax increment fund is entitled to appoint a number of members to the board in proportion to the taxing unit's pro rata share of the total anticipated tax increment to be deposited into the tax increment fund during the term of the zone. *Tax Code 311.0091(a)–(c)*

Tax Increments  
*Amount*

The amount of a district's tax increment for a year is the amount of property taxes levied and assessed by the district for that year on the captured appraised value of real property taxable by the district and located in a reinvestment zone or the amount of property taxes levied and collected by the district for that year on the captured appraised value of real property taxable by the district and located in a reinvestment zone. The board of the district shall determine which of the methods is used to calculate the amount of the district's tax increment.

"Captured  
Appraised  
Value"

The captured appraised value of real property taxable by a district for a year is the total taxable value of all real property taxable by the district and located in a reinvestment zone for that year less the tax increment base of the district.

"Tax Increment  
Base"

The tax increment base of a district is the total taxable value of all real property taxable by the district and located in a reinvestment zone for the year in which the zone was designated under Tax Code Chapter 311.

*Tax Code 311.012*

*Collection and  
Deposit*

Each district that taxes real property located in a reinvestment zone shall provide for the collection of its taxes in the zone as for any other property taxed by the district. Each district shall pay into the tax increment fund for the zone an amount equal to the tax increment produced by the district, less the sum of:

1. Property taxes produced from the tax increments that are, by contract executed before the designation of the area as a

reinvestment zone, required to be paid by the district to another political subdivision; and

2. A portion, not to exceed 15 percent, of the tax increment produced by the district as provided by the reinvestment zone financing plan or a larger portion as provided at Agreement Required below.

*Tax Code 311.013(a)–(b)*

Notwithstanding any termination of the reinvestment zone and unless otherwise specified by an agreement between the district and the municipality or county that created the zone, a district shall make the required payment not later than the 90th day after the later of the delinquency date for district property taxes or the date the municipality or county that created the zone submits to the district an invoice specifying the tax increment produced by the district and the amount the district is required to pay into the tax increment fund for the zone. A district is not required to pay into a tax increment fund the applicable portion of a tax increment attributable to delinquent taxes until those taxes are collected. *Tax Code 311.013(c), (i)*

A district whose taxable value is reduced under Government Code 403.302(d)(4) (determination of district property values by the comptroller) shall pay into the tax increment fund, in addition to the amount otherwise required to be paid, an amount equal to the amount by which the amount of taxes the district would have been required to pay into the fund in the current year if the district levied taxes at the rate the district levied in 2005 exceeds the amount the district is otherwise required to pay into the fund in the year of the reduction. This additional amount may not exceed the amount the district receives in state aid for the current tax year under Education Code 48.253 (additional state aid for tax increment financing payments). The district shall pay the additional amount after the district receives the state aid to which the district is entitled for the current tax year under Education Code 48.253. *Tax Code 311.013(n)*

*Agreement  
Required*

A district is not required to pay into the tax increment fund any of its tax increment produced from property located in a reinvestment zone designated under Tax Code 311.005(a) or in an area added to a reinvestment zone under Tax Code 311.007 unless the district enters into an agreement to do so with the governing body of the municipality or county that designated the zone. *Tax Code 311.013(f)*

A district that participates in a zone is not required to increase the percentage or amount of the tax increment to be contributed by the

district because of an amendment to the project plan or reinvestment zone financing plan for the zone unless the board by official action approves the amendment. *Tax Code 311.011(g)*

A district is not required to pay into the tax increment fund any of its tax increment produced from property located in an area added to the reinvestment zone under Tax Code 311.007(a) or (b) unless the board enters into an agreement to do so with the governing body of the municipality or county that created the zone. *Tax Code 311.013(k)*

If the governing body of the municipality or county that designated a reinvestment zone extends the term of all or a portion of the zone, a district is not required to participate in the zone or portion of the zone for the extended term unless the district enters into a written agreement to do so. *Tax Code 311.007(c)*

Notwithstanding the designation of a later termination date under Tax Code 311.017(a), a district that taxes real property located in the reinvestment zone is not required to pay any of its tax increment into the tax increment fund for the zone after the termination date designated in the ordinance or order creating the zone unless the board enters into an agreement to do so with the governing body of the municipality or county that created the zone. *Tax Code 311.017(a-1)*

**Property  
Redevelopment and  
Tax Abatement Act**

On or after September 1, 2001, a school district may not enter into a tax abatement agreement under Tax Code Chapter 312. *Tax Code 312.002(f)*

Reinvestment Zone  
for Chapter 313

Notwithstanding any other provision of Tax Code Chapter 312 to the contrary, the board, in the manner required for official action and for purposes of Tax Code Chapter 313, Subchapter B or C [see Texas Economic Development Act below], may designate an area entirely within the territory of the district as a reinvestment zone if the board finds that, as a result of the designation and the granting of a limitation on appraised value, for property located in the reinvestment zone, the designation is reasonably likely to:

1. Contribute to the expansion of primary employment in the reinvestment zone; or
2. Attract major investment in the reinvestment zone that would:
  - a. Be a benefit to property in the reinvestment zone and to the district; and
  - b. Contribute to the economic development of the region of this state in which the district is located.

The board may seek the recommendation of the commissioners court of each county and the governing body of each municipality that has territory in the district before designating an area as a reinvestment zone.

*Tax Code 312.0025*

**Texas Economic  
Development Act**

**Note:** The Texas Economic Development Act, Tax Code Chapter 313, Subchapters B and C, expired on December 31, 2022. *Tax Code 313.007*

A limitation on appraised value approved before the expiration continues in effect according to the law as it existed immediately before its expiration, and the law is continued in effect for purposes of the limitation on appraised value. *Tax Code 313.171*

In implementing the Texas Economic Development Act, Tax Code Chapter 313, districts should strictly interpret the criteria and selection guidelines provided by Chapter 313 and approve only those applications for an ad valorem tax benefit that:

1. Enhance the local community;
2. Improve the local public education system;
3. Create high-paying jobs; and
4. Advance the economic development goals of Texas.

*Exceptions*

Emergency  
Damage or  
Destruction

If school equipment, a school facility, or a part of a school facility or personal property is destroyed or severely damaged or, as a result of an unforeseen catastrophe or emergency, undergoes major operational or structural failure, and the board determines that the delay posed by the methods provided for in Education Code 44.031 would prevent or substantially impair the conduct of classes or other essential school activities, then contracts for the replacement or repair of the equipment, school facility, or the part of the school facility may be made by methods other than those required by Education Code 44.031. *Education Code 44.031(h)*

Sole Source

Without complying with Education Code 44.031(a) above, a district may purchase an item that is available from only one source, including:

1. An item for which competition is precluded because of the existence of a patent, copyright, secret process, or monopoly.
2. A film, manuscript, or book.
3. A utility service, including electricity, gas, or water.

*Education Code 44.031(j)–(k)*

*Competitive Bidding*

Except to the extent prohibited by other law and to the extent consistent with Education Code Chapter 44, Subchapter B, a district may use competitive bidding to select a vendor as authorized by Education Code 44.031(a)(1).

A district shall award a competitively bid contract at the bid amount to the bidder offering the best value for the district. In determining the best value for the district, the district is not restricted to considering price alone but may consider any other factors stated in the selection criteria. The selection criteria may include the factors listed in Education Code 44.031(b) [see Contract Selection Factors, below].

Except as provided below, Local Government Code Chapter 271, Subchapter B (Competitive Bidding on Certain Public Works Contracts) does not apply to a competitive bidding process under this policy.

Local Government Code Sections 271.026 (Opening of Bids), 271.027(a) (Award of Contract), and 271.0275 (Safety Record of Bidder Considered) apply to a competitive bidding process under Education Code Chapter 44, Subchapter B. [See CVA for these requirements.]

*Education Code 44.0351*

[For information on additional competitive procedures under the Public Property Finance Act, see CHH.]

*Competitive Sealed Proposals*

In selecting a vendor through competitive sealed proposals as authorized by Education Code 44.031(a)(2), a district shall follow the procedures prescribed below.

Request for Proposals

The district shall prepare a request for competitive sealed proposals that includes information that vendors may require to respond to the request. The district shall state in the request for proposals the selection criteria that will be used in selecting the successful offeror.

Opening Proposals

The district shall receive, publicly open, and read aloud the names of the offerors and, if any are required to be stated, all prices stated in each proposal. Not later than the 45th day after the date on which the proposals are opened, the district shall evaluate and rank each proposal submitted in relation to the published selection criteria.

Selection

The district shall select the offeror that offers the best value for the district based on the published selection criteria and on its ranking evaluation. The district shall first attempt to negotiate a contract with the selected offeror. The district may discuss with the selected

offeror options for a scope or time modification and any price change associated with the modification. If the district is unable to negotiate a satisfactory contract with the selected offeror, the district shall, formally and in writing, end negotiations with that offeror and proceed to the next offeror in the order of the selection ranking until a contract is reached or all proposals are rejected.

In determining the best value for the district, the district is not restricted to considering price alone but may consider any other factors stated in the selection criteria.

*Education Code 44.0352*

A district may agree with another local government, including a nonprofit corporation that is created and operated to provide one or more governmental functions and services, or with the state or a state agency, including the comptroller, to purchase goods and any services reasonably required for the installation, operation, or maintenance of the goods. This provision does not apply to ser-

vices provided by firefighters, police officers, or emergency medical personnel. *Gov't Code 791.025(b)*

A district that purchases goods and services under Government Code 791.025 satisfies the requirement to seek competitive bids for the purchase of the goods and services. *Gov't Code 791.025(c); Atty. Gen. Op. JC-37 (1999)*

*Reverse Auction*

A district that uses the reverse auction procedure must include in the procedure a notice provision and other provisions necessary to produce a method of purchasing that is advantageous to the district and fair to vendors. *Local Gov't Code 271.906(b)*

"Reverse auction procedure" means:

1. A real-time bidding process usually lasting less than one hour and taking place at a previously scheduled time and internet location, in which multiple suppliers, anonymous to each other, submit bids to provide the designated goods or services; or

Site-Based  
Purchasing

If a purchase is made at the campus level in a district with a student enrollment of 180,000 or more that has formally adopted a site-based decision-making plan under Education Code Subchapter F, Chapter 11 [see BQ series], that delegates purchasing decisions to the campus level, Education Code 44.031 applies only to the campus and does not require the district to aggregate and jointly award purchasing contracts. A district that adopts site-based purchasing under this provision shall adopt a policy to ensure that campus purchases achieve the best value to the district and are not intended or used to avoid the requirement that a district aggregate purchases under Education Code 44.031(a). *Education Code 44.031(m)*

**Contract Selection

3. The quality of the vendor's goods or services.
4. The extent to which the goods or services meet the district's needs.

8. For a contract for goods and services, other than goods and services related to telecommunications and information services, building construction and maintenance, or instructional materials, whether the vendor or the vendor's ultimate parent company or majority owner has its principal place of business in this state or employs at least 500 persons in this state.
9. Any other relevant factor specifically listed in the request for bids or proposals.

*Education Code 44.031(b)*

In awarding a contract by competitive sealed bid under Education Code 44.031, a district that has its central administrative office located in a municipality with a population of less than 250,000 may consider a bidder's principal place of business in the manner provided by Local Government Code 271.9051. This provision does not apply to the purchase of telecommunications services or information services, as those terms are defined by 47 U.S.C. Section 153. *Education Code 44.031(b-1)*

The factors listed above are the only criteria that may be considered by a district in its decision to award a contract. *R.G.V. Vending v. Weslaco Indep. Sch. Dist.*, 995 S.W.2d 897 (Tex. App.—Corpus Christi 1999, no pet.)

Preferences  
*Agricultural  
Products*

A district that purchases agricultural products shall give preference to those produced, processed, or grown in Texas if the cost to the district is equal and the quality is equal. If agricultural products produced, processed, or grown in Texas are not equal in cost and quality to other products, the district shall give preference to agricultural products produced, processed, or grown in other states of the United States, if the cost and quality of the U.S. and foreign products are equal.

"Agricultural products" includes textiles and other similar products.

“Processed” means canning, freezing, drying, juicing, preserving, or any other act that changes the form of a good from its natural state to another form.

A district may not adopt product purchasing specifications that unnecessarily exclude agricultural products produced, processed, or grown in Texas.

A district shall give preference in purchasing to products made of recycled materials if the products meet applicable specifications as to quantity and quality and the average price of the product is not more than ten percent greater than the price of comparable nonrecycled products. Preferences will be applied in accordance with state procurement statutes and rules. *30 TAC 328.203*

Subchapter K of 30 Administrative Code (Governmental Entity Recycling and Purchasing of Recycled Materials) does not apply to a district with a student enrollment of less than 10,000 students. *30 TAC 328.204(a)*

If there is not a newspaper in that county, the advertising shall be published in a newspaper in the county nearest the county seat of the county in which a district's central administrative office is located. In a two-step procurement process, the time and place where the second-step bids, proposals, or responses will be received are not required to be published separately. *Education Code 44.031(g)*

**Electronic Bids or  
Proposals**

A district may receive bids or proposals under Education Code Chapter 44 through electronic transmission if the board adopts rules to ensure the identification, security, and confidentiality of electronic bids or proposals and to ensure that the electronic bids or proposals remain effectively unopened until the proper time.

Notwithstanding any other provision of Education Code Chapter 44, an electronic bid or proposal is not required to be sealed. A provision of Education Code Chapter 44 that applies to a sealed bid or proposal applies to a bid or proposal received through electronic transmission in accordance with the rules adopted by the board.

*Education Code 44.0313*

**Right to Work**

*Education Code 44.043*

**Contract with Person  
Indebted to District**

The board by resolution may establish regulations permitting the district to refuse to enter into a contract or other transaction with a person indebted to the district. “Person” includes an individual, sole proprietorship, corporation, nonprofit corporation, partnership, joint venture, limited liability company, and any other entity that proposes or otherwise seeks to enter into a contract or other transaction with the district requiring approval by the board.

*Education Code 44.044*

**Out-of-State Bidders**

A district may not award a governmental contract to a nonresident bidder unless the nonresident underbids the lowest bid submitted by a responsible resident bidder by an amount that is not less than the greater of the amount by which a resident bidder would be required to underbid the nonresident bidder to obtain a comparable contract in the state in which the nonresident’s principal place of business is located, or the state in which a majority of the manufacturing relating to the contract will be performed. *Gov’t Code 2252.002*

This requirement does not apply to a contract involving federal funds. A district shall use the information published by the comptroller under Government Code 2252.003 (Publication of Other State’s Laws on Contracts) to evaluate the bid of a nonresident bidder. A district may rely on information published under Government Code 2252.003 to meet the requirements of Government Code 2252.002. *Gov’t Code 2252.003–.004*

by a financial consultant or a technology consultant in the manner provided by Government Code 2254.003 (Professional Services Procurement Act) (see below), in lieu of the methods provided by Education Code 44.031. *Education Code 44.031(f)*

Professional  
Services  
Procurement Act  
*Selection*

A district may not select a provider of professional services or a group or association of providers or award a contract for the services on the basis of competitive bids submitted for the contract or for the services, but shall make the selection and award on the basis of demonstrated competence and qualifications to perform the services and for a fair and reasonable price. *Gov't Code 2254.003(a)*

The term includes an amendment to a contract for legal services described by this provision if the amendment changes the scope of representation or may result in the filing of an action or the amending of a petition in an existing action. *Gov't Code 2254.101(2)*

Government Code Chapter 2254, Subchapter C provides the manner in which and the situations under which a district may compen-

1. Provided to a district under Government Code Chapter 403, Subchapter M; or
2. Entered into by a district for the collection of an obligation, as defined by Government Code 2107.001, that is delinquent [see CCGA(LEGAL) regarding delinquent tax collection] or for services under Government Code 1201.027 [see CCA(LEGAL) regarding issuance of public securities], except that Government Code sections 2254.1032, 2254.1034, 2254.1036, and 2254.1037 do apply to the contract.

**District Participation**

A district may participate in the purchasing program, including participation in purchases that use the reverse auction procedure, by filing with the comptroller a resolution adopted by the board requesting that the district be allowed to participate on a voluntary basis, and to the extent the comptroller deems feasible, and stating that the district will:

1. Designate an official to act for the district in all matters relating to the program, including the purchase of items from the vendor under any contract, and that the board will direct the decisions of the representative;

A strategy for achieving energy efficiency includes facility design and construction.

In determining whether a strategy may result in financial cost to the district, the board shall consider the total net costs and savings that may occur over the seven-year period following implementation of the strategy.

*Education Code 44.902*

**Energy Savings Performance Contracts**

"Energy savings performance contract" has the meaning assigned by Local Government Code 302.001.

Each energy or water conservation measure must comply with current local, state, and federal construction, plumbing, and environmental codes and regulations. An energy savings performance contract may not include improvements or equipment that allow or cause water from any condensing, cooling, or industrial process or any system of nonpotable usage over which the public water supply system officials do not have sanitary control, to be returned to the potable water supply.

The board may enter into energy savings performance contracts only with persons who are experienced in the design, implementation, and installation of the energy or water conservation measures addressed by the contract.

Government Code Chapter 2269 (Contracting and Delivery Procedures for Construction Projects) does not apply to energy savings performance contracts.

**Performance Bond** Before entering an energy savings performance contract, the board shall require the provider of the energy or water conservation measures to file with the board a payment and performance bond relating to the installation of the measures in accordance with Government Code Chapter 2253 (Public Work Performance and Payment Bonds). The board may also require a separate bond to cover the value of the guaranteed savings on the contract.

**Financing** An energy savings performance contract may be financed:

1. Under a lease/purchase contract that has a term not to exceed 20 years from the final date of installation and that meets federal tax requirements for tax-free municipal leasing or long-term financing.
2. With the proceeds of bonds.
3. Under a contract with the provider of the energy or water conservation measures that has a term not to exceed the lesser of 20 years from the final date of installation or the average useful life of the energy or water conservation or usage measures.

Notwithstanding other law, the board may use any available money to pay the provider of the energy or water conservation measures under these provisions, and the board is not required to pay for such costs solely out of the savings realized by the district under an energy savings performance contract. The board may contract with the provider to perform work that is related to, connected with, or otherwise ancillary to the measures identified in the scope of an energy savings performance contract.

An energy savings performance contract shall contain provisions requiring the provider of the energy or water conservation measures to guarantee the amount of the savings to be realized by the district under the contract. If the term of an energy savings performance contract exceeds one year, the district's contractual obligations in any one year during the term of the contract beginning after the final date of installation may not exceed the total energy, water, wastewater, and operating cost savings, including electrical, gas, water, wastewater, or other utility cost savings and operating cost savings resulting from the measures as determined by the district, divided by the number of years in the contract term.

Contract  
Procurement

An energy savings performance contract shall be let according to the procedures established for professional services by Government Code 2254.004 (the Professional Services Procurement Act). [See CH] Notice of the request for qualifications shall be published in the manner provided for competitive bidding.

Cost Savings  
Review

Before entering into an energy savings performance contract, the board must require that the cost savings projected by an offeror be reviewed by a licensed professional engineer who has a minimum of three years of experience in energy calculation and review, is not an officer or employee of an offeror for the contract under review, and is not otherwise associated with the contract. In conducting the review, the engineer shall focus primarily on the proposed improvements from an engineering perspective, the methodology and calculations related to cost savings, increases in revenue, and, if applicable, efficiency or accuracy of metering equipment. An engineer who reviews a contract shall maintain the confidentiality of any proprietary information the engineer acquires while reviewing the contract. Occupations Code 1001.053 and 1001.407 (Texas Engineering Practice Act) apply to work performed under the contract.

If such an emergency exists, the consumer information sheet must be made available by the licensee. The statement must be kept on file with the pest control use records. If the customer is not available to sign a statement at the time of treatment, that shall be recorded in the use records along with the customer's name and telephone number. An emergency is defined as an imminent hazard to health. An emergency treatment is limited to the localized area of the emergency. *4 TAC 7.147(g), .148(d)*

Pesticide Use

All pesticides used by districts must be registered with the EPA and the TDA, with the exception of those pesticides that have been exempted from registration by the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Section 25(b). All pesticides used by districts must also bear a label as required by FIFRA and Chapter 76 of the Texas Agriculture Code. Pesticide use must also meet the following requirements:

1. Pest control signs shall be posted at least 48 hours prior to a pesticide application inside district buildings, including residential properties, as provided for under 4 Administrative Code 7.148.
2. For outdoor applications made on district grounds, including residential properties, the treated area must be identified at all entry points with a sign, or must be secured using a locking device, a fence or other practical barrier such as commercially available barrier caution tape, or periodically monitored to

keep students out of the treated area until the allowed reentry time.

3. Pesticides used on district property shall be mixed outside of student occupied areas of buildings and grounds.
4. The use of non-pesticide control measures, non-pesticide monitoring tools and mechanical devices, such as glue boards and traps as permitted in accordance with Division 7, are exempt from posting requirements. The use of non-pesticide tools and devices by unlicensed district personnel, for monitoring purposes, shall be permitted. Monitoring by unlicensed district personnel shall be done only as directed, under the supervision of the IPM coordinator.
5. Pesticide applications shall not be made to outdoor school grounds if such an application will expose students to physical drift of pesticide spray particles. Reasonable preventative measures shall be taken to avoid the potential of drift to occur.
6. Districts are allowed to apply the pesticides to control pests, rodents, insects, and weeds at school buildings, grounds, or other facilities in accordance with the approval for use and restrictions listed for each category detailed in 4 Administrative Code 7.204(6).

*4 TAC 7.204*

Incidental Use

The Incidental Use For Schools Fact Sheet must contain the text specified in 4 Administrative Code 7.205 and must be provided during pesticide instruction and training by the IPM coordinator to each district employee whose primary duty is not pest control, and whose work may include tasks subject to the exception. The IPM coordinator must keep records of all the training conducted annually. Pest control use records for all incidental pesticide use application, including the reason for application and justification for emergency, must be maintained by the IPM coordinator for two years. *4 TAC 7.205*

Inspections

School districts will be inspected at least once every five years. TDA may waive these requirements due to TDA staff availability, budgetary constraints, inspection trends, or operational efficiencies. School districts demonstrating a lack of compliance with TDA rules may be inspected more frequently based on risk using the following elements of consideration: prior violations, prior inspection results, and prior complaints. *4 TAC 7.149*

**Integrated Pest  
Management  
Program**

The District is committed to following integrated pest management (IPM) guidelines as required by Chapter 1951 of the Occupations Code and Title 4, Chapter 7 of the Administrative Code in all pest control activities that take place on District property.

Definition

IPM is a pest management strategy that relies on accurate identification and scientific knowledge of target pests, reliable monitoring methods to assess pest presence, preventative measures to limit pest problems, and thresholds to determine when corrective control measures are needed. Under IPM, whenever economical and practical, multiple control tactics shall be used to achieve the best control of pests. These tactics shall include, but are not limited to, the judicious use of pesticides.

Standards

The District's IPM program shall govern the District's use of pesticides, herbicides, and other chemical agents for the purpose of controlling pests, rodents, insects, and weeds in and around District facilities, including residential property primarily used as student housing.

IPM Coordinator

The Superintendent shall designate the IPM coordinator(s), who shall be registered with the Texas Department of Agriculture. The IPM coordinator(s) shall receive training in accordance with law and shall provide training to District employees, as necessary.

Application Time  
Frame

The IPM coordinator(s), in addition to the responsibilities set out in CLB(LEGAL), shall coordinate with appropriate District administrators or other designated and trained employees regarding pesticide or herbicide applications in accordance with law. The IPM coordinator(s) shall determine when an emergency situation exists and an exception to the 48-hour notice requirement may be made.

No Unauthorized  
Application

If the IPM coordinator is a licensed applicator, the IPM coordinator may apply pesticides in accordance with law. No other employee or other person or entity shall be permitted to apply a pesticide or herbicide at a District facility, including residential property primarily used as student housing, without the prior approval of the IPM coordinator and other than in the manner prescribed by law and the District's IPM program.

**Note:** For provisions regarding selection and adoption of instructional materials, see EFA.

---

**Instructional  
Materials and  
Technology**

Instructional materials selected for use in the public schools shall be furnished without cost to the students attending those schools. Except as provided by Education Code 31.104(d), a district may not charge a student for instructional material or technological equipment purchased by the district with the district's technology and instructional materials allotment. *Education Code 31.001*

Each instructional material, including electronic instructional material only to the extent of any applicable licensing agreement, purchased as provided by Education Code Chapter 31 for a district is the property of the district. *Education Code 31.102(a)–(b)*

**Allotment**

A district is entitled to an allotment each biennium from the state instructional materials and technology fund for each student enrolled in the district on a date during the last year of the preceding biennium specified by the commissioner of education. The commissioner shall determine the amount of the allotment per student each biennium on the basis of the amount of money available in the state instructional materials and technology fund to fund the allotment. The allotment shall be transferred from the state instructional materials and technology fund to the credit of the district's instructional materials and technology account as provided by Education Code 31.0212. *Education Code 31.0211(a)*

The commissioner shall, as early as practicable during each biennium, notify each district of the estimated amount to which the district will be entitled during the next fiscal biennium. *Education Code 31.0215(a)*

**No Appeal**

The amount of the allotment determined by the commissioner is final and may not be appealed. *19 TAC 66.1307(d)*

**Delayed Publisher  
Payment Option**

A district may requisition and receive state-adopted instructional materials before allotment funds for those materials are available. The total cost of delayed-payment-option materials requisitioned may not exceed 80 percent of the district's expected allotment for the subsequent biennium.

When a district submits a requisition for instructional materials under this provision, the Texas Education Agency (TEA) will expend a district's existing allotment balance before applying the delayed payment option. TEA will make payment for any remaining balance for a district's order as the allotment funds become available and

will prioritize payment for requisitions under this provision over reimbursement of purchases made directly by a district.

*19 TAC 66.1312(a)–(e)*

The commissioner shall ensure that publishers of instructional materials are informed of any potential delay in payment and that payment is subject to the availability of appropriated funds. *Education Code 31.0215(d)*

Publishers may decline orders for which payments could be delayed. A publisher's decision to decline an order shall affect all of that publisher's orders for which payments could be delayed. Publishers may not selectively decline individual orders or orders from individual districts. *19 TAC 66.1312(f); Education Code 31.0215(d)*

Government Code Chapter 2251 (payments for goods and services) does not apply to requisitions under this provision. *Education Code 31.0215(e); 19 TAC 66.1312(g)*

Allotment  
Adjustment  
*Change in  
Enrollment*

Not later than May 31 of each school year, a district may request that the commissioner adjust the number of students for which the district is entitled to receive an allotment on the grounds that the number of students attending school in the district will increase or decrease during the school year for which the allotment is provided. The commissioner may also adjust the number of students for which a district is entitled to receive an allotment, without a request by the district, if the commissioner determines a different number of students is a more accurate reflection of students who will be attending school in the district. The commissioner's determination is final. *Education Code 31.0211(e)*

*High Enrollment  
Growth*

Each year the commissioner shall adjust the instructional materials and technology allotment of districts experiencing high enrollment growth. *Education Code 31.0214(a)*

High-enrollment growth adjustments will be based on the difference between the district's percentage of enrollment growth and that of the state. Enrollment growth calculations will be determined each fiscal year based on fall Texas Student Data Systems Public Education Information Management System (TSDS PEIMS) enrollment data. The amount of the adjustment determined by the commissioner is final and may not be appealed.

If sufficient funds are available, high-enrollment growth adjustments will be granted once each fiscal year. Notwithstanding this, a district that experiences an unexpected growth:

1. Of at least two percent due to a natural or man-made disaster or catastrophic event may apply for additional allotment funding at any time during a fiscal year.
2. In its bilingual population of at least ten percent in any school year may apply for additional bilingual allotment funding at any time during a fiscal year.

Any additional funding will be dependent on the availability of funds.

The per-student high-enrollment growth adjustment granted in the second year of a biennium shall not exceed one-half of the per-student amount established as the biennial allotment.

*19 TAC 66.1309*

Permitted

**Instructional  
Materials and  
Technology Account**

The commissioner shall maintain an instructional materials and technology account for each district. In the first year of each biennium, the commissioner shall deposit the district's allotment in the account. The commissioner shall pay the cost of instructional materials requisitioned by a district under Education Code 31.103 using funds from the district's instructional materials and technology account.

A district may also use funds in the district's account to purchase electronic instructional materials or technological equipment. The district shall submit to the commissioner a request for funds for this purpose from the district's account in accordance with the commissioner's rules.

Money deposited in a district's instructional materials and technology account during each state fiscal biennium remains in the account and available for use by the district for the entire biennium. At the end of each biennium, a district with unused money in the district's account may carry forward any remaining balance to the next biennium.

*Education Code 31.0212*

**Access to Allotment**

The allotment for each biennium will be made available for district use through the state’s online instructional material ordering system as early as possible in the fiscal year preceding the beginning of the biennium for which the funds have been appropriated. A district may access its allotment for any upcoming school year upon completion of:

1. Submission to the commissioner certification that:
  - a. The district has instructional materials that cover all the required Texas Essential Knowledge and Skills (TEKS), except those for physical education, as required by Education Code 31.004 [see Certification of Instructional Materials, below]; and
  - b. The district has used its allotment for only allowable expenditures [see Permitted Expenditures and Certification of Allotment Use, above]; and
2. Preparation by TEA of the state ordering system for the new school year with the new allotment amounts.

Upon completion of these requirements, a district may access its funds by correctly providing all information required in the state ordering system.

Prior to the beginning of each school year, a district shall submit to the SBOE and commissioner certification that for each subject in the required curriculum under Education Code 28.002, other than physical education, and each grade level, the district provides each student with instructional materials that cover all elements of the essential knowledge and skills adopted by the SBOE for that subject and grade level. The certification shall be submitted in a format approved by the commissioner and can be based on both state-adopted and non-state-adopted materials.

To determine whether each student has instructional materials that cover all elements of the essential knowledge and skills, a district may consider:

As provided by board policy, a district may waive or reduce the payment required if the student is from a low-income family. [See FP] The district shall allow the student to use instructional materials and technological equipment at school during each school day.

If instructional materials or technological equipment is not returned in an acceptable condition or paid for, a district may withhold the

student's records. A district may not prevent the student from graduating, participating in a graduation ceremony, or receiving a diploma. [See FL and GBA regarding student and parental right to access records; and FD, FFAB, and FL regarding a district's duties to provide records to another district]

The failure of a district of innovation to provide information required under Education Code 22.0832 may result in termination of the district's designation as a district of innovation. [See AF]

*Education Code 22.0815*

Substitute Teachers	This section applies to a person who is a substitute teacher for a district or shared services arrangement.
<i>Applicability</i>	For purposes of the CHRI review requirements, a "substitute teacher" is a teacher who is on call or on a list of approved substitutes to replace a regular teacher and has no regular or guaranteed hours. A substitute teacher may be certified or noncertified.
<i>Information to DPS and TEA</i>	<p>A district shall send or ensure that a person to whom this section applies sends to DPS information required for obtaining NCHRI, which may include fingerprints and photographs.</p> <p>A district shall provide TEA with the name of a person to whom this section applies. TEA shall examine the CHRI and certification records of the person and notify the district if the person:</p> <ol style="list-style-type: none"><li>1. May not be hired or must be discharged as provided by Education Code 22.085; or</li><li>2. May not be employed as a substitute teacher because the person's educator certification has been revoked or is suspended.</li></ol>
<i>Employment Pending Review</i>	After the required information is submitted, the person may begin employment, but that employment is conditional upon the review of that person's CHRI by TEA and must be terminated if TEA makes a determination that the employee or applicant is ineligible for employment.
<i>Criminal History</i>	<p>A district shall obtain all CHRI that relates to a person to whom this section applies through the clearinghouse. A district may require the person to pay any fees related to obtaining the CHRI.</p> <p><i>Education Code 22.0836; 19 TAC 153.1101(5), .1111(d)</i></p>
Student Teachers	This section applies to a person participating in an internship consisting of student teaching to receive a teaching certificate.
<i>Applicability</i>	
<i>Criminal History</i>	<p>A student teacher may not perform any student teaching until:</p> <ol style="list-style-type: none"><li>1. The student teacher has provided to a district a driver's license or another form of identification containing the person's</li></ol>

photograph issued by an entity of the United States government; and

2. The district has obtained from DPS all CHRI that relates to a student teacher. A district may also obtain CHRI relating to a student teacher from any other law enforcement agency, criminal justice agency, or private consumer reporting agency. A district may require a student teacher to pay any costs related to obtaining the CHRI.

*Education Code 22.0835*

Coordination of Efforts

TEA, SBEC, a district, and a shared services arrangement may coordinate as necessary to ensure that criminal history reviews authorized or required under Education Code Chapter 22, Subchapter C are not unnecessarily duplicated. *Education Code 22.0833(h)*

All Other Employees

A district shall obtain CHRI that relates to a person who is not subject to an NCHRI review under Education Code Chapter 21, Subchapter C and who is an employee of:

1. The district; or
2. A shared services arrangement, if the employee's duties are performed on school property or at another location where students are regularly present.

A district may obtain the CHRI from:

1. DPS;
2. A law enforcement or criminal justice agency; or
3. A private consumer reporting agency [see Consumer Credit Reports, below].

*Education Code 22.083(a), (a-1); Gov't Code 411.097*

**Note:** For criminal history record provisions regarding volunteers, see GKG. For provisions on employees of entities that contract with a district, see CJA.

---

Confidentiality of Record

CHRI that a district obtains from DPS, including any identification information that could reveal the identity of a person about whom CHRI is requested and information that directly or indirectly indicates or implies involvement of a person in the criminal justice system:

1. Is for the exclusive use of the district; and

2. May be disclosed or used by the district only if, and only to the extent, disclosure is authorized or directed by a statute, rule, or order of a court of competent jurisdiction.

For purposes of these confidentiality provisions, “criminal history record” information does not refer to any specific document provided by DPS, but to the information contained, wholly or partly, in a document’s original form or any subsequent form or use.

A district or an individual may not confirm the existence or nonexistence of CHRI to any person who is not eligible to receive the information.

*Gov’t Code 411.084*

CHRI obtained by a district, in the original form or any subsequent form, may not be released to any person except the individual who is the subject of the information, TEA, or SBEC, or by court order. The CHRI is not subject to disclosure under Government Code Chapter 552 (Public Information Act).

An employee of a district may request from the district a copy of any CHRI related to that employee that the district has obtained from DPS. The district may charge a fee to provide the information, not to exceed the actual cost of copying the CHRI.

*Gov’t Code 411.097(d), (f)*

Destruction of CHRI A district shall destroy CHRI obtained from DPS on the earlier of:

1. The date the information is used for the authorized purpose; or
2. The first anniversary of the date the information was originally obtained.

*Gov’t Code 411.097(d)(3)*

Confidentiality of  
Information  
Obtained from  
Applicant or  
Employee

A district may not release information collected about a person in order to obtain CHRI, including the person’s name, address, phone number, social security number, driver’s license number, other identification number, and fingerprint records, except:

1. To comply with Government Code Chapter 22, Subchapter C (criminal records);
2. By court order; or
3. With the consent of the person who is the subject of the information.

EMPLOYMENT REQUIREMENTS AND RESTRICTIONS  
PRE-EMPLOYMENT REVIEWS

DBAA  
(LEGAL)

In addition, the information is not subject to disclosure under Government Code Chapter 552.

The district shall destroy the information not later than the first anniversary of the date the information is received.

*Education Code 22.08391*

Unauthorized  
Disclosure of CHRI

A person commits a Class B misdemeanor if the person knowingly or intentionally:

1. Obtains CHRI in an unauthorized manner, uses the information for an unauthorized purpose, or discloses the information to a person who is not entitled to the information; or
2. Violates a DPS rule adopted under Government Code Chapter 411, Subchapter F.

A person commits a second degree felony if the person:

1. Obtains, uses, or discloses CHRI for remuneration or for the promise of remuneration; or
2. Employs another person to obtain, use, or disclose CHRI for remuneration or for the promise of remuneration.

*Gov't Code 411.085*

Refusal to Hire  
Convicted  
Applicants

A district shall discharge or refuse to hire an employee or applicant for employment if the district obtains information through a CHRI review that the employee or applicant has been:

1. Convicted of or placed on deferred adjudication community supervision for an offense requiring registration as a sex offender under Code of Criminal Procedure Chapter 62; or
2. Convicted of:
  - a. A felony under Title 5, Penal Code, if the victim of the offense was under 18 years of age at the time the offense was committed; or
  - b. An offense under the laws of another state or federal law that is equivalent to an offense under item 1 or 2a, above.

*Exception*

However, a district is not required to refuse to hire an applicant if the person committed an offense under Title 5, Penal Code and:

1. The date of the offense is more than 30 years before the date the person's employment will begin; and

DBAA  
(LEGAL)

2. The applicant for employment satisfied all terms of the court order entered on conviction.

Certification to  
Commissioner

Each school year, the superintendent shall certify to the commissioner that the district has complied with the above provisions.

Sanctions

SBEC may impose a sanction on an educator who does not refuse to hire an applicant for employment if the educator knew that the applicant had been adjudicated for or convicted of having an inappropriate relationship with a minor in accordance with Education Code 21.009(e), or knew or should have known, through a CHRI review, that the applicant has been convicted of or placed on deferred adjudication community supervision for an offense described above.

SBEC may impose a sanction on a superintendent who falsely or inaccurately certified to the commissioner that the district had complied with Education Code 22.085. [See Certification to Commissioner, above]

Termination for  
Failure to Disclose

A district may discharge an employee if the district obtains information of the employee's conviction of a felony or misdemeanor involving moral turpitude that the employee did not disclose to SBEC or to the district. An employee so discharged is considered to have been discharged for misconduct for the purposes of Labor Code 207.044 (unemployment compensation).

*Education Code 22.085; 19 TAC 249.15(b)(12), (14) [See DF]*

**Pre-employment  
Affidavit**

An applicant for a certified or licensed position [see Professional Personnel at DBA(LEGAL)] with a school district, including a district of innovation, must submit, using a form adopted by TEA, a pre-employment affidavit disclosing whether the applicant has ever been charged with, adjudicated for, or convicted of having an inappropriate relationship with a minor.

An applicant who answers affirmatively concerning an inappropriate relationship with a minor must disclose in the affidavit all relevant facts pertaining to the charge, adjudication, or conviction, including, for a charge, whether the charge was determined to be true or false.

An applicant is not precluded from being employed based on a disclosed charge if the district determines based on the information disclosed in the affidavit that the charge was false.

A determination that an employee failed to disclose required information is grounds for termination of employment.

SBEC may revoke the certificate of an administrator if the board determines it is reasonable to believe that the administrator employed an applicant for a position described by Education Code 21.003(a) or (b) despite being aware that the applicant had been adjudicated for or convicted of having an inappropriate relationship with a minor.

*Education Code 21.009*

**Do Not Hire Registry**

TEA shall develop and maintain an internet portal through which required reports may be confidentially and securely filed and TEA makes available:

1. The registry of persons who are not eligible to be employed in public schools; and
2. Information indicating that a person is under investigation.

*Education Code 22.095*

TEA shall maintain and make available through its internet portal a registry of persons who are not eligible to be employed by a district, district of innovation, open-enrollment charter school, other charter entity, regional education service center, or shared services arrangement.

A district, district of innovation, open-enrollment charter school, other charter entity, regional education service center, or shared services arrangement shall discharge or refuse to hire a person listed on the registry.

The registry must list:

1. An employee of an open enrollment charter school determined by TEA under Education Code 22.0832 as a person who would not be eligible for educator certification based on their NCHRI;
2. A noncertified person determined by TEA to be not eligible for employment based on the person's CHRI, as provided by Education Code 22.0833 [see DBAA];
3. A person who is not eligible for employment based on CHRI received by TEA under Education Code 21.058(b) indicating that a certified employee is required to register as a sex offender;
4. A person whose certification or permit is revoked by SBEC on a finding that the person engaged in misconduct described by Education Code 21.006(b)(2)(A) or (A-1) [see DHB]; and

5. A noncertified person who is determined by the commissioner under Education Code 22.094 to have engaged in misconduct described by Education Code 22.093(c)(1)(A) or (B) [see DHC].

*Education Code 22.092*

**Commercial Driver License Drug and Alcohol Clearinghouse**

The U.S. Department of Transportation (DOT) operates and maintains a national clearinghouse for records relating to alcohol and controlled substances testing of commercial motor vehicle operators in order to improve compliance with DOT's alcohol and controlled substances testing program applicable to commercial motor vehicle operators [see DHE] and to enhance the safety of roadways by reducing accidents and injuries involving the misuse of alcohol or use of controlled substances by operators of commercial motor vehicles. *49 U.S.C. 31306a*

Pre-employment Query Required

A district must not employ a driver subject to controlled substances and alcohol testing under 49 C.F.R. Part 382 to perform a safety-sensitive function without first conducting a pre-employment query of the federal Drug and Alcohol Clearinghouse to obtain information about the driver's previous test results.

Annual Query Required

A district must conduct a query of the federal Drug and Alcohol Clearinghouse at least once per year for information for all employees subject to controlled substance and alcohol testing under 49 C.F.R. Part 382 to determine whether information exists about those employees.

Prohibition

A district may not allow a driver the district employs or intends to hire or use to perform any safety-sensitive function if the results of a Clearinghouse query demonstrate that the driver has a prohibited test result.

Recordkeeping Required

A district must retain for three years a record of each query and all information received in response to each query made under this section.

*49 C.F.R. 382.701*

**Consumer Credit Reports**

Definitions

"Adverse action" includes a denial of employment or any other decision for employment purposes that adversely affects any current or prospective employee.

"Consumer report" includes any information from a consumer reporting agency that is used or expected to be used as a factor in establishing the person's eligibility for employment.

"Consumer reporting agency" is an agency that, for monetary fees, dues, or on a cooperative nonprofit basis, regularly assembles or

evaluates consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties.

“Employment purposes” when used in connection with a consumer report means a report used for the purpose of evaluating a person for employment, promotion, reassignment, or retention as an employee.

*15 U.S.C. 1681a*

Obtaining Reports

A district may not procure a consumer report for employment purposes unless:

1. The district has provided the applicant or employee a written disclosure that a consumer report may be obtained for employment purposes; and
2. The applicant or employee has authorized in writing the procurement of the consumer report.

Adverse Action

Before taking any adverse action based on the consumer report, a district shall provide the applicant or employee a copy of the consumer report and a written description of the person’s rights under the Fair Credit Reporting Act, as prescribed by the Federal Trade Commission.

*15 U.S.C. 1681b(b)(2)*

Disposal of Records

A district must properly dispose of a consumer report by taking reasonable measures to protect against unauthorized access to or use of the information.

“Dispose” includes discarding or abandoning the consumer report, or selling, donating, or transferring any medium, including computer equipment, upon which the consumer report is stored.

Examples of reasonable measures include:

1. Burning, pulverizing, or shredding papers containing a consumer report so the information cannot practicably be read or reconstructed;
2. Destroying or erasing electronic media containing a consumer report so that the information cannot practicably be read or reconstructed; or
3. After due diligence, entering into and monitoring compliance with a contract with another party engaged in the business of record destruction to dispose of the consumer report.

COMPENSATION AND BENEFITS  
COMPENSATION PLAN

DEA  
(LOCAL)

The Superintendent shall recommend an annual compensation plan for all District employees. The compensation plan may include wage and salary structures, stipends, benefits, and incentives. [See also DEAA] The recommended plan shall support District goals for hiring and retaining highly qualified employees. The Board shall review and approve the compensation plan to be used by the District. The Board shall also determine the total compensation package for the Superintendent. [See BJ series]

**Pay Administration**

The Superintendent shall implement the compensation plan and establish procedures for plan administration consistent with the budget. The classification of each job title within the compensation plan shall be based on the qualifications, duties, and market value of the position.

Annualized Salary

The District shall pay all salaried employees over 12 months in equal monthly or semi-monthly installments, regardless of the number of months employed during the school year. Salaried employees hired during the school year shall be paid in accordance with administrative regulations.

Pay Increases

The Superintendent shall recommend to the Board an amount for employee pay increases as part of the annual budget. Any pay adjustments for individual employees shall be determined within the approved budget following established procedures.

*Midyear Pay  
Increases*

Contract  
Employees

A contract employee's pay may be increased after performance on the contract has begun only if authorized by the compensation plan of the District or there is a change in the employee's job assignment or duties during the term of the contract that warrants additional compensation. Any such changes in pay that do not conform with the compensation plan shall require Board approval. [See DEA(LEGAL) for provisions on pay increases and public hearing requirements.]

Noncontract  
Employees

The Superintendent may grant a pay increase to a noncontract employee after duties have begun because of a change in the employee's job assignment or to address pay equity. The Superintendent shall report any such pay increases to the Board at the next regular meeting.

**Pay During Closing**

During an emergency closure, all employees shall continue to be paid for their regular duty schedule unless otherwise provided by Board action. Following an emergency closure, the Board shall adopt a resolution or take other Board action establishing the purpose and parameters for such payments. [See EB for the authority to close schools.]

COMPENSATION AND BENEFITS  
COMPENSATION PLAN

DEA  
(LOCAL)

Premium Pay  
During Disasters

Nonexempt employees who are required to work to mitigate the reason for an emergency closing shall be paid at the rate of one and one-half times their regular rate of pay for all hours worked up to 40 hours per week. All other nonexempt employees who are required to work during an emergency closing shall be paid their regular rate of pay.

Overtime for time worked over 40 hours in a week shall be calculated and paid according to law. [See DEAB] The Superintendent shall approve payments and ensure that accurate time records are kept of actual hours worked during emergency closings.

**Fair Labor Standards Act**

Minimum Wage and Overtime

Unless an exemption applies, a district shall pay each of its employees not less than minimum wage for all hours worked. 29 U.S.C. 206(a)(1)

Unless an exemption applies, a district shall pay an employee not less than one and one-half times the employee's regular rate of pay for all hours worked in excess of 40 in any workweek. 29 U.S.C. 207(a)(1); 29 C.F.R. pt. 778

Breaks for Nonexempt Employees

Rest periods of up to 20 minutes must be counted as hours worked. Coffee breaks or time for snacks are rest periods, not meal periods. 29 C.F.R. 785.18

Bona fide meal periods of 30 minutes or more are not counted as hours worked if the employee is completely relieved from duty. The employee is not relieved from duty if the employee is required to perform any duties, whether active or inactive, while eating. For example, an office employee who is required to eat at his or her desk is working while eating. It is not necessary that an employee be permitted to leave the premises if the employee is otherwise completely freed from duties during the meal period. 29 C.F.R. 785.19

Compensatory Time  
*Accrual*

Nonexempt employees may receive, in lieu of overtime compensation, compensatory time off at a rate of not less than one and one-half hours for each hour of overtime work, pursuant to an agreement or understanding arrived at between the employer and employee before the performance of the work. Such agreement or understanding may be informal, such as when an employee works overtime knowing that the employer rewards overtime with compensatory time.

An employee may accrue not more than 240 hours of compensatory time. If the employee's overtime work included a public safety activity, an emergency response activity, or a seasonal activity, the employee may accrue not more than 480 hours of compensatory time. After the employee has reached these limits, the employee shall be paid overtime compensation for additional overtime work.

*Payment for Accrued Time*

Compensation paid to an employee for accrued compensatory time shall be paid at the regular rate earned by the employee at the time of payment. An employee who has accrued compensatory time off shall be paid for any unused compensatory time upon separation from employment at the rates set forth at 29 U.S.C. 207(o)(4).

*Use*

An employee who has requested the use of compensatory time shall be permitted to use such time within a reasonable period after making the request if the use of the compensatory time does not unduly disrupt the operations of the district.

The Fair Labor Standards Act (FLSA) does not prohibit a district from compelling the use of accrued compensatory time.

*29 U.S.C. 207(o); Christensen v. Harris Cnty., 529 U.S. 576 (2000); Houston Police Officers' Union v. City of Houston, 330 F.3d 298 (5th Cir. 2003)*

Exempt Employees

The minimum wage and overtime provisions do not apply to any employee employed in a bona fide executive, administrative, or professional capacity. *29 U.S.C. 213(a)(1)*

*Academic  
Administrators*

The term “employee employed in a bona fide administrative capacity” includes an employee:

1. Compensated on a salary or fee basis at a rate of not less than \$684 per week, exclusive of board, lodging, or other facilities; or on a salary basis which is at least equal to the entrance salary for teachers in the district by which employed; and
2. Whose primary duty is performing administrative functions directly related to academic instruction or training in a district or department or subdivision thereof.

“Performing administrative functions directly related to academic instruction or training” means work related to the academic operations and functions in a school rather than to administration along the lines of general business operations. Such academic administrative functions include operations directly in the field of education. Jobs relating to areas outside the educational field are not within the definition of academic administration.

Employees engaged in academic administrative functions include:

1. The superintendent or other head of an elementary or secondary school system, and any assistants, responsible for administration of such matters as curriculum, quality and methods of instructing, measuring and testing the learning potential and achievement of students, establishing and maintaining academic and grading standards, and other aspects of the teaching program;
2. The principal and any vice principals responsible for the operation of an elementary or secondary school;
3. Academic counselors who perform work such as administering school testing programs, assisting students with academic problems and advising students concerning degree requirements; and
4. Other employees with similar responsibilities.

Jobs relating to building management and maintenance, jobs relating to the health of the students, and academic staff such as social workers, psychologists, lunchroom managers, or dietitians do not perform academic administrative functions, although such employees may qualify for another exemption.

*29 C.F.R. 541.204*

*Salary Basis*

To qualify as an exempt executive, administrative, or professional employee, the employee must be compensated on a salary basis, unless the employee is a teacher. Subject to the exceptions listed in the rule, an employee must receive the full salary for any week in which the employee performs any work, without regard to the number of days or hours worked. A district that makes improper deductions from salary shall lose the exemption if the facts demonstrate that the district did not intend to pay exempt employees on a salary basis. *29 C.F.R. 541.600, .602(a), .603*

*Partial-Day  
Deductions*

A district employee who otherwise meets the salary basis requirements shall not be disqualified from exemption on the basis that the employee is paid according to a pay system established by statute, ordinance, or regulation, or by a policy or practice established pursuant to principles of public accountability, under which the employee accrues personal leave and sick leave and which requires the employee's pay to be reduced or the employee to be placed on leave without pay for absences for personal reasons or because of illness or injury of less than one workday when accrued leave is not used by an employee because:

1. Permission for its use has not been sought or has been sought and denied;
2. Accrued leave has been exhausted; or
3. The employee chooses to use leave without pay.

Deductions from the pay of a district employee for absences due to a budget-required furlough shall not disqualify the employee from being paid on a salary basis except in the workweek in which the furlough occurs and for which the employee's pay is accordingly reduced.

*29 C.F.R. 541.710*

*Safe Harbor  
Policy*

If a district has a clearly communicated policy that prohibits improper pay deductions and includes a complaint mechanism, reimburses employees for any improper deductions, and makes a good faith commitment to comply in the future, the district will not lose the exemption unless the district willfully violates the policy by con-

tinuing to make improper deductions after receiving employee complaints.

The best evidence of a clearly communicated policy is a written policy that was distributed to employees before the improper pay deductions by, for example, providing a copy of the policy to employees upon hire, publishing the policy in an employee handbook, or publishing the policy on a district's intranet.

*29 C.F.R. 541.603(d)*

*Teachers*

The term "employee employed in a bona fide professional capacity" includes any employee with a primary duty of teaching, tutoring, instructing, or lecturing in the activity of imparting knowledge and who is employed and engaged in this activity as a teacher in an elementary or secondary school system by which the employee is employed. The salary basis requirements do not apply to teaching professionals.

Exempt teachers include:

1. Regular academic teachers;
2. Teachers of kindergarten or nursery school pupils;
3. Teachers of gifted or disabled children;
4. Teachers of skilled and semi-skilled trades and occupations;
5. Teachers engaged in automobile driving instruction;
6. Home economics teachers; and
7. Vocal or instrumental music instructors.

Those faculty members who are engaged as teachers but also spend a considerable amount of their time in extracurricular activities such as coaching athletic teams or acting as moderators or advisors in such areas as drama, speech, debate, or journalism are engaged in teaching. Such activities are a recognized part of the schools' responsibility in contributing to the educational development of the student.

The possession of an elementary or secondary teacher's certificate provides a clear means of identifying the individuals contemplated as being within the scope of the exemption for teaching professionals. Teachers who possess a teaching certificate qualify for the exemption regardless of the terminology (e.g., permanent, conditional, standard, provisional, temporary, emergency, or unlimited) used by the state to refer to different kinds of certificates. However, a teacher who is not certified may be considered for

**School Library**

A district possesses significant discretion to determine the content of its school libraries. A district must, however, exercise its discretion in a manner consistent with the First Amendment.

Removal of Library  
Materials

Students' First Amendment rights are implicated by the removal of books from the shelves of a school library. A district shall not remove materials from a library for the purpose of denying students access to ideas with which the district disagrees. A district may remove materials because they are pervasively vulgar or based solely upon the educational suitability of the books in question.

*Bd. of Educ. v. Pico, 457 U.S. 853 (1982)*

**Instructional  
Materials**

Instructional materials selected for use in the public schools shall be furnished without cost to students attending those schools. Except as provided by Education Code 31.104(d), a district may not charge a student for instructional material or technological equipment purchased by the district with the district's technology and instructional materials allotment [see CMD]. *Education Code 31.001*

Parental Access

A parent is entitled to:

1. Review all teaching materials, instructional materials, including while the child is participating in virtual or remote learning, and other teaching aids used in the classroom of the parent's child;
2. Review each test administered to the child after the test is administered; and
3. Observe virtual instruction while the parent's child is participating in virtual or remote learning to the same extent the parent would be entitled to observe in-person instruction of the child.

A district shall make teaching materials and tests readily available for parental review and may specify reasonable hours for such review.

*Taking Home  
Materials*

A student's parent is entitled to request that a district allow the student to take home any instructional materials used by the student. Subject to the availability of the instructional materials, a district or school shall honor the request. A student who takes home instructional materials must return the instructional materials to school at the beginning of the next school day if requested to do so by the student's teacher.

*Students Without  
Reliable Access  
to Technology*

A district must provide the instructional materials to the student in printed format if the student does not have reliable access to technology at the student's home. This requirement does not require a

district to purchase printed copies of instructional materials that the district would not otherwise purchase. A district may comply with this requirement by providing the student a printout of the relevant electronic instructional materials.

**Transfer Students**

In-State Transfers

When a student transfers to a new district within the state in the same school year and the parents verify that the student was receiving special education services in the previous district or the previous district verifies in writing or by telephone that the student was receiving special education services, the new school district must meet the requirements of 34 C.F.R. 300.323(e) regarding the provision of special education services. The timeline for completing the requirements outlined in 34 C.F.R. 300.323(e)(1) or (2) is 30 school days from the date the student is verified as being a student eligible for special education services.

Transfers from  
Another State

When a student transfers from a district in another state in the same school year and the parents verify that the student was receiving special education services in the previous district or the previous district verifies in writing or by telephone that the student was receiving special education services, the new district must meet the requirements of 34 C.F.R. 300.323(f) regarding the provision of special education services. If the new district determines that an evaluation is necessary, the evaluation is considered a full individual and initial evaluation and must be completed within the timelines established by 19 Administrative Code 89.1011(c) and (e). The timeline for completing the requirements in 34 C.F.R. 300.323(f)(2), if appropriate, is 30 calendar days from the date of the completion of the evaluation report. If the school district deter-

mines that an evaluation is not necessary, the timeline for completing the requirements outlined in 34 C.F.R. 300.323(f)(2) is 30 school days from the date the student is verified as being a student eligible for special education services.

A student with a disability who has an IEP in place from a previous in- or out-of-state district and who enrolls in a new district during the summer is not considered a transfer student for the purposes of this provision or for 34 C.F.R. 300.323(e) or (f). For these students, the new district must implement the IEP from the previous district in full on the first day of class of the new school year or must convene an ARD committee meeting during the summer to revise the student's IEP for implementation on the first day of class of the new school year.

*19 TAC 89.1050(j)*

**Transfer of Records**

The district in which the child enrolls shall take reasonable steps to promptly obtain the child's records, including the IEP and supporting documents and any other records relating to the provision of special education or related services to the child, from the previous district.

The previous district shall take reasonable steps to promptly respond to the request from the new district and must furnish the new school district with a copy of the student's records, including the student's special education records, not later than the tenth working day after the date a request for the information is received by the previous school district.

**Students Who Are Homeless or in Substitute Care**

When a student who is homeless or in substitute care transfers into a district after being referred by a previous district for a special education evaluation, the receiving district must accept the referral and ensure that any written report of a full individual and initial evaluation is completed in accordance with the timelines established in 19 Administrative Code 89.1011 (relating to Full and Individual Initial Evaluation).

When a student who is homeless or in substitute care is eligible for special education and transfers into a new district during the school year, the receiving district must ensure that it meets the student transfer requirements of 19 Administrative Code 89.1050(j) (relating to the Admission, Review, and Dismissal Committee).

*19 TAC 89.1615*

**Military Dependents**

A district shall initially provide comparable services to a military student with disabilities based on his or her current IEP. This does not preclude the district from performing subsequent evaluations to ensure appropriate placement of the student. *Education Code 162.002 art. V, C* [See FDD]

**Individualized  
Education Program**

A district shall develop, review, and revise an IEP for each child with a disability. *20 U.S.C. 1412(a)(4); 34 C.F.R. 300.320(a)*

At the beginning of each school year, a district shall have in effect, for each child with a disability in its jurisdiction, an IEP. *20 U.S.C. 1414(d)(2)(A); 34 C.F.R. 300.323(a)*

Supplemental  
Special Education  
Services

The ARD committee of a student approved for participation in the supplemental special education services and instructional materials program shall provide to the student's parent at an ARD committee meeting for the student:

The supplemental special education services and instructional materials program (SSES) expires September 1, 2024.

*Education Code 29.048*

A district shall notify parents and guardians of students served by special education of the SSES program and how to apply.

A student's ARD committee may not consider a student's current or anticipated eligibility for any supplemental special education instructional materials or services that may be provided under the SSES program when developing or revising a student's IEP, when determining a student's educational setting, or in the provision of a free appropriate public education.

If the committee makes that determination, the behavior improvement plan or behavioral intervention plan shall be included as part of the student's IEP and provided to each teacher with responsibility for educating the student.

If a behavior improvement plan or a behavioral intervention plan is included as part of a student's IEP, the ARD committee shall review the plan at least annually, and more frequently if appropriate, to address:

Translation of IEP  
into Native  
Language

If the parent is unable to speak English and Spanish is the parent's native language, a district shall provide a written or audiotaped copy of the student's IEP translated into Spanish. If the parent's native language is other than Spanish or English, a district shall make a good faith effort to provide a written or audiotaped copy of the student's IEP translated into the parent's native language.  
*Education Code 29.005(d)*

A written copy of the student's IEP translated into Spanish or the parent's native language means that all of the text in the student's IEP in English is accurately translated into the target language in written form. The IEP translated into the target language must be a comparable rendition of the IEP in English and not a partial translation or summary of the IEP in English.

An audio recording of the student's IEP translated into Spanish or the parent's native language means that all of the content in the student's IEP in English is orally translated into the target language and recorded with an audio device. A district is not prohibited from providing the parent with an audio recording of an ARD committee meeting at which the parent was assisted by an interpreter as long as the audio recording provided to the parent contains an oral translation into the target language of all of the content in the student's IEP in English.

If a parent's native language is not a written language, the district must take steps to ensure that the student's IEP is translated orally or by other means to the parent in his or her native language or other mode of communication.

Under 34 C.F.R. 300.322(f), a district must give a parent a written copy of the student's IEP at no cost to the parent. A school district meets this requirement by providing a parent with a written copy of the student's IEP in English or by providing a parent with a written

translation of the student's IEP in the parent's native language as provided above.

Autism/Pervasive  
Developmental  
Disorder

For students with autism/pervasive developmental disorders, the following strategies shall be considered by the ARD committee, based on peer-reviewed, research-based educational programming practices to the extent practicable and, when needed, addressed in the IEP:

1. Extended educational programming;
2. Daily schedules reflecting minimal unstructured time and active engagement in learning activities;
3. In-home training and community-based training or viable alternatives that assist the student with the acquisition of social/behavioral skills;
4. Positive behavior support strategies based on relevant information;
5. Beginning at any age, futures planning for integrated living, work, community, and educational environments that considers skills necessary to function in current and postsecondary environments;
6. Parent/family training and support, provided by qualified personnel with experience in Autism Spectrum Disorders (ASD);
7. Suitable staff-to-student ratio appropriate to identified activities and as needed to achieve social/behavioral progress based on the student's developmental and learning level (acquisition, fluency, maintenance, generalization) that encourages work towards individual independence;
8. Communication interventions, including language forms and functions that enhance effective communication across settings;
9. Social skills supports and strategies based on social skills assessment/curriculum and provided across settings;
10. Professional educator/staff support; and
11. Teaching strategies based on peer-reviewed, research-based practices for students with ASD.

If the ARD committee determines that services are not needed in one or more of the areas in 1–11 above, the IEP shall include a

statement reflecting that decision and the basis upon which the determination was made.

*19 TAC 89.1055(e)–(f)*

*Visual Impairment*

If a district provides special education services to students with visual impairments, it shall have written procedures as required in Education Code 30.002(c)(10) (staff access to resources). *19 TAC 89.1075(b)*

*Collaborative Process*

All members of the ARD committee shall have the opportunity to participate in a collaborative manner in developing the IEP. Decisions of the ARD committee concerning the required elements of the IEP shall be made by mutual agreement, if possible. The ARD committee may agree to an annual IEP or an IEP of shorter duration.

*Ten-Day Recess*

When mutual agreement about all required elements of the IEP is not achieved, the parent who disagrees must be offered a single opportunity to recess and reconvene the ARD committee meeting. The period of time for reconvening the ARD committee meeting must not exceed ten school days, unless the parties mutually agree otherwise. The ARD committee must schedule the reconvened meeting at a mutually agreed upon time and place. The opportunity to recess and reconvene is not required when:

1. The student's presence on campus represents a danger of physical harm to the student or others;
2. The student has committed an expellable offense; or
3. The student has committed an offense that may lead to placement in a disciplinary alternative education program. [See FOF]

These requirements do not prohibit the ARD committee from recessing an ARD committee meeting for reasons other than the failure to reach mutual agreement about all required elements of an IEP.

During the recess, the ARD committee members must consider alternatives, gather additional data, prepare further documentation, and/or obtain additional resource persons who may assist in enabling the ARD committee to reach mutual agreement.

*Failure to Reach Agreement*

If a recess is implemented and the ARD committee still cannot reach mutual agreement, a district shall implement the IEP it has determined to be appropriate for the student. Each member of the ARD committee who disagrees with the IEP developed by the ARD

committee is entitled to include a statement of disagreement in the IEP.

If the IEP is not developed by agreement, the written statement of the program must include the basis of the disagreement. Each member of the ARD committee who disagrees with the IEP developed by the committee is entitled to include a statement of disagreement in the written statement of the program.

*Education Code 29.005(c); 19 TAC 89.1050(g)*

**Modification of  
Existing IEP**

Changes to the IEP may be made either by the entire ARD committee or by amending the IEP by agreement, rather than redrafting the entire IEP.

After the annual IEP meeting for a school year, the parent and district may agree not to convene an IEP meeting for the purposes of making changes to the IEP and instead may develop a written document to amend or modify the child's current IEP.

Upon request, a parent shall be provided with a revised copy of the IEP with amendments incorporated.

To the extent possible, a district shall encourage the consolidation of reevaluation meetings for the child and other ARD meetings for the child.

**Teacher Access to  
IEP**

Each district must ensure that each teacher who provides instruction to a student with a disability has access to relevant sections of the student's current IEP, is informed of the teacher's specific responsibilities related to implementation of the IEP, and has an opportunity to request assistance regarding implementation of the student's IEP. *19 TAC 89.1075(c)*

**Teacher Request to  
Review IEP**

Each district shall develop a process to be used by a teacher who instructs a student with a disability in a regular classroom setting:

1. To request a review of the student's IEP;
2. To provide input in the development of the student's IEP;
3. That provides for a timely district response to the teacher's request; and
4. That provides for notification to the student's parent or legal guardian of that response.

**Parental Consent  
Not Required**

An employee of a district is not required to obtain the consent of a child's parent before the employee may make a videotape of a child or authorize the recording of a child's voice if the videotape or voice recording is to be used for a purpose related to the promotion of student safety under Education Code 29.022. *Education Code 26.009(b)*

**Video Surveillance of  
Special Education  
Settings**

In order to promote student safety, on receipt of an authorized written request, a district shall provide equipment, including a video camera, to the campus in the district specified in the request.

**Classroom or Other  
Setting**

A campus that receives equipment shall place, operate, and maintain one or more video cameras in self-contained classrooms and other special education settings in which a majority of the students in regular attendance are provided special education and related services and are assigned to one or more self-contained classrooms or other special education settings for at least 50 percent of the instructional day, provided that:

1. A campus that receives equipment as a result of the request by a parent or staff member is required to place equipment only in classrooms or settings in which the parent's child is in regular attendance or to which the staff member is assigned, as applicable; and
2. A campus that receives equipment as a result of the request by a board of trustees, principal, or assistant principal is required to place equipment only in classrooms or settings identified by the requestor, if the requestor limits the request to specific classrooms or settings subject to Education Code 29.022.

*Education Code 29.022(a)*

**Definitions**

"Incident" means an event or circumstance that:

*Incident*

1. Involves alleged "abuse" or "neglect," as described in Family Code 261.001, of a student by a staff member of the district or alleged "physical abuse" or "sexual abuse," as described in Family Code 261.410, of a student by another student; and

Coverage

The video cameras must be capable of:

1. Covering all areas of the classroom or setting, including a room attached to the classroom or setting used for time-out; and
2. Recording audio from all areas of the classroom or setting, including a room attached to the classroom or setting used for time-out.

The inside of a bathroom or any area in the classroom or other special education setting in which a student's clothes are changed may not be visually monitored, except for incidental coverage of a minor portion of a bathroom or changing area because of the layout of the classroom or setting.

*Education Code 29.022(c)–(c-1)*

Written Notice

Before a campus activates a video camera in a classroom or special education setting, the campus shall provide written notice of the placement to all campus staff and to the parents of each student attending class or engaging in school activities in the classroom or setting.

If for any reason a campus will discontinue operation of a video camera during a school year, not later than the fifth school day before the date the operation of the video camera will be discontinued, the campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue unless requested by a person eligible to make a request. Not later than the tenth school day before the end of each school year, the campus must notify the parents of each student in regular attendance in the classroom or setting that operation of the video camera will not continue during the following

school year unless a person eligible to make a request for the next school year submits a new request.

*Education Code 29.022(b), (d)*

Retention Period

A district shall retain video recorded from a video camera for at least three months after the date the video was recorded.

If a person requests to view a video recording from a video camera, a district must retain the recording from the date of receipt of the request until the person has viewed the recording and a determination has been made as to whether the recording documents an alleged incident. If the recording documents an alleged incident, the district or campus shall retain the recording until the alleged incident has been resolved, including the exhaustion of all appeals.

*Education Code 29.022(e)–(e-1)*

Gifts, Grants, and Donations

A district may solicit and accept gifts, grants, and donations from any person to implement the requirements of Education Code 29.022 and 19 Administrative Code 103.1301. A district is not permitted to use Individuals with Disabilities Education Act, Part B, funds or state special education funds to implement these requirements. *19 TAC 103.1301(d)*

No Waiver of Immunity

The requirements described by Education Code 29.022 do not:

1. Waive any immunity from liability of a district, or of district officers or employees; or
2. Create any liability for a cause of action against a district or against district officers or employees.

No Monitoring

A district may not:

1. Allow regular or continual monitoring of video recorded under Education Code 29.022; or
2. Use video for teacher evaluation or for any other purpose other than the promotion of safety of students receiving special education services.

*Education Code 29.022(g)–(h)*

Confidentiality

A video recording of a student made under this provision is confidential and may not be released or viewed except as provided below.

*Limited Release*

A district shall release a recording for viewing by:

1. An employee who is involved in an alleged incident that is documented by the recording and has been reported to the district, on request of the employee;
2. A parent of a student who is involved in an alleged incident that is documented by the recording and has been reported to the district or campus, on request of the parent;
3. Appropriate Department of Family and Protective Services (DFPS) personnel as part of an investigation of alleged or suspected abuse or neglect of a child under Family Code 261.406;
4. A peace officer, a school nurse, a district administrator trained in de-escalation and restraint techniques as provided by commissioners rule, or a human resources staff member designated by the board in response to a report of an alleged incident or an investigation of district personnel or a report of alleged abuse committed by a student; or
5. Appropriate agency or State Board for Educator Certification personnel or agents as part of an investigation.

A contractor or employee performing job duties relating to the installation, operation, or maintenance of video equipment or the retention of video recordings who incidentally views a video recording does not violate these confidentiality provisions.

*Education Code 29.022(i)–(i-1); 19 TAC 103.1301(h)–(i)*

*Duty to Report*

If a person described by item 4 or 5, above, views a video recording and has cause to believe that the recording documents possible abuse or neglect of a child under Family Code Chapter 261, the person must submit a report to the Texas Department of Family and Protective Services or other authority in accordance with the local policy adopted under 19 Administrative Code 61.1051 (Reporting Child Abuse and Neglect) and Family Code Chapter 261 [see FFG].

*19 TAC 103.1301(j); Education Code 29.022(j)*

*Use in  
Disciplinary  
Actions Against  
District Personnel*

If a person described by items 3, 4, or 5, above, views the recording and believes that it documents a possible violation of district or campus policy, the person may allow access to the recording to appropriate legal and human resources personnel of the district to the extent not limited by the Family Educational Rights and Privacy Act (FERPA) or other law. A recording believed to document a possible violation of district policy relating to the neglect or abuse of a student may be used in a disciplinary action against district personnel and must be released in a legal proceeding at the request of a

parent of the student involved in the incident documented by the recording. A recording believed to document a possible violation of district policy relating to the neglect or abuse of a student must be released for viewing by the district employee who is the subject of the disciplinary action at the request of the employee. *19 TAC 103.1301(k)*

*Federal Law /  
FERPA*

19 Administrative Code 103.1301(j) (child abuse reporting) and (k) (disciplinary actions against personnel) do not limit the access of a student's parent to a record regarding the student under FERPA or other law. To the extent any provisions in Education Code 29.022 and 19 Administrative Code 103.1301 conflict with FERPA or other federal law, federal law prevails. *19 TAC 103.1301(l)*

District Policy

A district must adopt written policies relating to the placement, operation, and maintenance of video cameras under Education Code 29.022 and 19 Administrative Code 103.1301. At a minimum, the policies must include:

1. A statement that video surveillance is for the purpose of promoting student safety in certain self-contained classrooms and other special education settings;
2. Information on how a person may appeal an action by the district that the person believes to be in violation of this section or a policy adopted in accordance with this section, including the appeal and expedited review processes under 19 Administrative Code 103.1303 (Commissioner's Review of Actions Concerning Video Cameras in Special Education Settings) and the appeals process under Education Code 7.057;
3. A requirement that the district provide a response to a request made under this section not later than the seventh school business day after receipt of the request by the person to whom it must be submitted under Education Code 29.022(a-3) (at Limited Release, above) that authorizes the request or states the reason for denying the request;
4. Except as provided by item 6 of this provision, a requirement that a campus begin operation of a video camera in compliance with this provision not later than the 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the request is authorized unless the Texas Education Agency (TEA) grants an extension of time;
5. A provision permitting the parent of a student whose admission, review, and dismissal (ARD) committee has determined that the student's placement for the following school year will

be in a classroom or other special education setting in which a video camera may be placed under this section to make a request for the video camera by the later of:

- a. The date on which the current school year ends; or
  - b. The tenth school business day after the date of the placement determination by the ARD committee;
6. A requirement that, if a request is made by a parent in compliance with item 5 of this provision, unless TEA grants an extension of time, a campus begins operation of a video camera in compliance with this provision not later than the later of:
- a. The tenth school day of the fall semester; or
  - b. The 45th school business day, or the first school day after the 45th school business day if that day is not a school day, after the date the request is made;
7. The procedures for requesting video surveillance and the procedures for responding to a request for video surveillance;
8. The procedures for providing advanced written notice to the campus staff and the parents of the students assigned to a self-contained classroom or other special education setting that video and audio surveillance will be conducted or cease in the classroom or setting, including procedures for notice, in compliance with Education Code 29.022(b), of the opportunity to request continued video and audio surveillance if video and audio surveillance will otherwise cease;
9. A requirement that video cameras be operated at all times during the instructional day when one or more students are present in a self-contained classroom or other special education setting in which video cameras are placed;
10. A statement regarding the personnel who will have access to video equipment or video recordings for purposes of operating and maintaining the equipment or recordings;
11. A requirement that a campus continue to operate and maintain any video camera placed in a self-contained classroom or other special education setting for as long as the classroom or setting continues to satisfy the requirements in Education Code 29.022(a), for the remainder of the school year in which the campus received the request, unless the requester withdraws the request in writing;
12. A requirement that video cameras placed in a self-contained classroom or other special education setting be capable of

recording video and audio of all areas of the classroom or setting, except that no visual monitoring of bathrooms and areas in which a student's clothes are changed may occur. Incidental visual coverage of the inside of a bathroom or any area of the classroom or other special education setting in which a student's clothes are changed is permitted only to the extent that such coverage is the result of the layout of the classroom or setting. Audio recording of the inside of a bathroom or any area of the classroom or other special education setting in which a student's clothes are changed is required;

13. A statement that video recordings must be retained for at least three months after the date the video was recorded and that video recordings will be maintained in accordance with the requirements of Education Code 29.022(e-1), when applicable;
14. A statement that the regular or continual monitoring of video is prohibited and that video recordings must not be used for teacher evaluation or monitoring or for any purpose other than the promotion of student safety;
15. At the district's discretion, a requirement that campuses post a notice at the entrance of any self-contained classroom or other special education setting in which video cameras are placed stating that video and audio surveillance are conducted in the classroom or setting;
16. The procedures for reporting an allegation to the district that an incident occurred in a self-contained classroom or other special education setting in which video surveillance under Education Code 29.022 and 19 Administrative Code 103.1301 is conducted;
17. The local grievance procedures for filing a complaint alleging violations of Education Code 29.022, and/or 19 Administrative Code 103.1301; and
18. A statement that video recordings made under Education Code 29.022 and 19 Administrative Code 103.1301 are confidential and a description of the limited circumstances under which the recordings may be viewed.

*19 TAC 103.1301(g)*

Governmental  
Record

A video recording under this section is a governmental record only for purposes of Penal Code 37.10.

Operation of  
Camera

These provisions apply to the placement, operation, and maintenance of a video camera in a self-contained classroom or other

special education setting during the regular school year and extended school year services.

A video camera placed under this section is not required to be in operation for the time during which students are not present in the classroom or other special education setting.

*Education Code 29.022(s)–(t)*

Exclusions	A district is not required to provide video equipment to a campus of another district or charter school or to a nonpublic school. <i>19 TAC 103.1301(c)</i>
Dispute Resolution	The special education dispute resolution procedures in 34 Code of Federal Regulations 300.151–.153 and 300.504–.515 do not apply to complaints alleging that a district has failed to comply with Education Code 29.022 and 19 Administrative Code 103.1301. Complaints alleging violations of those sections must be addressed through the district’s local grievance procedures or other dispute resolution channels. <i>19 TAC 103.1301(e)</i>
Denial of Request	The following standards and procedures apply to a denial of a request for placement of a video camera under Education Code 29.022(a), or to the denial of a request to release a video or to view a video made under Education Code 29.022(i) or (l)(2).
<i>Exhaustion of Administrative Remedies</i>	Once a request for placement of a video camera or a request to release a video is administratively denied, the requester must exhaust administrative remedies through the district’s grievance process even if the requester opts for the expedited review process. However, a district, parent, staff member, or administrator may request an expedited review even before the local remedies are exhausted.  After local remedies are exhausted by filing a grievance with the board and obtaining a board determination, the requester may appeal the denial to the commissioner of education under Education Code 7.057 by filing a petition for review.
<i>Proper Request</i>	In a case where there is a denial of a request for the placement of a video camera, the commissioner will determine whether the person requesting placement is a person allowed to request placement under Education Code 29.022(a-1) (see Limited Release, above) and whether the requester made a proper request under Education Code 29.022(a-3) (see Processing the Request, above).
<i>Cost</i>	The commissioner will not consider the cost to the district of installing cameras or releasing video.

*Release  
Determination*

In a case where there is a denial of a request to release a video, the commissioner will determine whether the requester is a person allowed to receive a video under Education Code 29.022(i) (described at Limited Release, above).

*Timelines for  
Petition for  
Review*

The following timelines are established for filing a petition for review:

1. A petition for review shall be filed with the commissioner within ten calendar days of the decision of the board denying the request being first communicated to the requester or requester's counsel, whichever occurs first. The petition for review shall be made in accordance with 19 Administrative Code 157.1073(c) (hearings brought under Education Code 7.057) and may include a request for expedited review.
2. The district's answer and local record shall comply with 19 Administrative Code 157.1052(b) and (c) and 19 Administrative Code 157.1073(d) and shall be filed with the commissioner within ten calendar days of the district receiving notification from the commissioner of the appeal.
3. The procedures specified in 19 Administrative Code 157.1059; .1061; and .1073(e)–(h), (j), and (k) apply to a case brought to the commissioner under this section.

*Expedited  
Review*

A request for expedited review is governed by the following.

1. The expedited review process is designed to allow a requester to promptly receive a preliminary judgment from the commissioner as to a decision to deny a request for the installation of cameras or a decision to deny a request to release a video while at the same time respecting the school grievance process. The expedited review process does not apply to a request to only view a video. Invoking the expedited review process results in a prompt initial determination. However, the final commissioner's determination is to be based on a substantial evidence review of the district's grievance record. This allows for a full record to be developed at the district level and does not require the requester and the district to make an evidentiary record before TEA in Austin, Texas. Because the requirements of Education Code 7.057 are met when the board's decision is heard by the commissioner, an appeal to district court is allowed under Education Code 7.057(d). Education Code 29.022 does not by itself allow an appeal to district court.
2. A district, parent, staff member, or administrator may request an expedited review. Any request for an expedited review

shall include the names, telephone numbers, and addresses of all interested parties to the request. "Interested parties" are all persons who brought the grievance, all persons who have testified or provided written statements as part of the grievance process, and the district. The request for expedited review shall specify whether the district denied a request for the placement of a video camera or the district denied a request to release a video and briefly describe why that decision is either correct or incorrect.

3. A request for expedited review shall be filed with the commissioner no earlier than 14 business days after a request for placement of a video camera or a request to release a video is administratively denied under Education Code 29.022(i) or (l)(2) (see Limited Release and Process, above), and no later than the fifth business day after a board resolves a grievance as to a request for placement of a video camera or a request to release a video. A request for expedited review shall be filed with the commissioner electronically as provided on TEA's Division of Hearings and Appeals website or by U.S. Mail, facsimile, hand-delivery, or by a commercial delivery service.
4. Whenever an interested party files a document with the commissioner, with the exception of the request for expedited review, the interested party shall send the same document to all other interested parties by the same method that the document was sent to the commissioner. Hand-delivery of the document by the next day may be substituted for service by facsimile delivery.
5. If a request for expedited review is timely filed, the commissioner will establish a briefing schedule and will send to all interested parties a notice that an expedited review has been filed, which will include relevant statutes and rules. Any interested party who knows of any additional interested parties who have not been notified will promptly inform the commissioner in writing.
6. All briefing shall clearly state the facts relied upon. Documents relevant to the issues presented may be attached to a brief. All briefing shall provide the reasons why the commissioner should or should not grant the request for expedited review. Citations to statutes, rules, commissioner decisions, and case law are important to identify the legal basis for the claims made.

7. All interested parties who are in favor of granting the request for expedited review shall file briefing at the time specified for the requester of the expedited review.
8. All interested parties who are opposed to granting the request for expedited review shall file briefing at the same time.

10. A preliminary judgment shall be issued based on the briefing of the interested parties. The preliminary judgment will be sent to the requestor, the district, and all interested parties. If it is determined that a district is not likely to prevail on the issue of a request for the placement of video cameras or the issue of a request to view a video under full review, the district will fully comply with Education Code 29.022.
11. After a preliminary judgment is made, a final judgment will be made in accordance with the procedures set forth in 19 Administrative Code 103.1303(b)(1)–(5) (the Denial of Request Review process).

Immediately following the individual's address and telephone number there shall appear in bold type: "You have been identified as the individual who requested the operation of a video camera that is the subject of this request to the

commissioner of education to extend the statutory timeline. You may, but are not required to, participate in the proceedings before the commissioner concerning the school district's request for an extension of time. It is entirely up to you whether and to what extent you wish to participate in these proceedings. The procedures governing these proceedings are found at 19 Texas Administrative Code 103.1303(c) and Texas Education Code 29.022.”

A request for an extension of time to begin the operation of a video camera shall list the names, telephone numbers, and addresses of all interested parties to the request. All interested parties include all parents of students in the classroom or other special education setting for which a video camera has been requested and all staff who provided services in a classroom for which a video camera has been requested.

*Filing Documents*

All documents in a case shall be filed with the Division of Hearings and Appeals, Texas Education Agency, 1701 N. Congress Ave., Austin, Texas 78701, facsimile number (512) 475-3662. Documents shall be filed electronically as provided on the division's website or by mail, delivery, or facsimile. The mailbox rule does not apply to filings in a case filed under this subsection. Electronic filing is strongly encouraged.

All filings in a case shall be sent to the district, the individual who initially requested the installation of the cameras, and all interested parties who have filed a request to receive documents filed in the case by the same method as the request is filed with the commissioner. Due to the requirements of FERPA, the names, telephone numbers, and addresses of parents and other publicly identifiable student information may not be given to the interested parties. The copies of the filings sent to interested parties shall be redacted to remove all personally identifiable student information.

*Filing Responses*

Any response to a request for an extension of time to begin the operation of a video camera shall be filed with the commissioner by an interested party within ten calendar days of the filing of the request. If no response to the request is timely filed, the commissioner shall issue a final decision within 20 calendar days of the filing of the request.

A response to a request for an extension of time to begin the operation of a video camera shall specify why an extension of time should or should not be granted. The response shall include affidavits concerning any factual claims made in the request and reference any legal authority as to why the request should or should not

be granted. The response may include a request for expedited review.

*Expedited  
Review*

A request for expedited review must be filed with the commissioner within ten calendar days of the filing of the request for an extension of time to begin the operation of a video camera. If a request for expedited review is made, all interested parties shall be notified that they have been identified as interested parties in the request for an extension of time to begin the operation of a video camera. In particular, the interested parties will be informed that it is their choice whether to participate in the proceedings before the commissioner, that it is entirely up to them to determine to what extent they wish to participate in the proceedings, that the procedures governing these proceedings are found in 19 Administrative Code 103.1303 and Education Code 29.022, and that upon their written request filed with the commissioner they will be sent all filings in this case.

If a request for an expedited review is not made, the commissioner shall issue a final decision within 45 calendar days of the filing of the request for an extension of time to begin the operation of a video camera, unless the commissioner determines that an evidentiary hearing would be helpful in deciding the issues raised. If the commissioner decides to hold an evidentiary hearing, the commissioner shall establish the timelines and procedures to be used. Whether to conduct the hearing by telephone or other electronic methods will be considered.

If a request for expedited review is made, the following procedures shall be followed:

1. Any reply by the district to any response to the request shall be filed with the commissioner within 25 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.
2. A preliminary judgment shall be made by the commissioner within 35 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.
3. Any interested party or the district may file objections to the preliminary judgment within 40 calendar days of the filing of the request for an extension of time to begin the operation of a video camera.
4. Any reply to an objection to a preliminary judgment must be filed within 45 calendar days of the filing of a request for an extension of time to begin the operation of a video camera.

5. The commissioner shall issue a final decision within 55 calendar days of the filing of the request for an extension of time to begin the operation of a video camera, unless the commissioner determines that an evidentiary hearing would be helpful in deciding the issues raised. If the commissioner decides to hold an evidentiary hearing, the commissioner shall establish the timelines and procedures to be used. Whether to conduct the hearing by telephone or other electronic methods will be considered.

*Commissioner  
Consideration*

In making either a preliminary judgment or a final judgment under this subsection, the commissioner will consider whether granting the requested extension is reasonable considering all factors, including contracting statutes, architectural and structural issues, and the difference in costs to the district if a moderate extension of time is granted.

*No Appeal*

A commissioner's final decision under this provision is not subject to appeal.

Implementing  
Services**

A district shall use student performance data from state basic skills assessment instruments and achievement tests to design and implement appropriate compensatory, intensive, or accelerated instructional services for students in the district's schools that enable the students to perform at grade level at the conclusion of the next regular school term. *Education Code 29.081(a)*

[See EHBCA for information regarding acceleration instruction and accelerated learning committees.]

**Intensive Program of  
Instruction**

State Assessments

A district shall offer an intensive program of instruction to a student who does not perform satisfactorily on a state assessment instrument or is not likely to receive a high school diploma before the fifth school year following the student's enrollment in grade 9, as determined by the district.

The program shall be designed to:

1. Enable the student to:
  - a. To the extent practicable, perform at the student's grade level at the conclusion of the next regular school term; or

3. Plan to offer advanced academic and transition opportunities, including dual credit courses and college preparatory courses, such as advanced placement courses.

A district may enter into a partnership with a public junior college in accordance with Education Code 29.402 [see GNC] in order to fulfill a plan.

Any program designed to fulfill a plan must comply with the requirements of Education Code 29.081(e) and (f).

2. Provide the student supplemental instruction under Education Code 28.0211(a-4) [see below].

*Education Code 28.0211(a-1)*

Participation

Supplemental accelerated instruction may require a student to participate before or after normal school hours and may include participation at times of the year outside normal school operations. 19 TAC 104.1001(c)

In providing accelerated instruction, a district may not remove a student, except under circumstances for which a student enrolled in the same grade level who is not receiving accelerated instruction would be removed, from:

*19 TAC 104.1001(c)*

ARD Committee  
Determination

For a student served by special education who does not perform satisfactorily on an assessment instrument administered under Education Code 39.023(a) [see EKB], the student's admission, review, and dismissal (ARD) committee must determine the manner in which the student will engage in supplemental accelerated instruction. ARD committees must consider the individual needs of a student with a disability when determining the manner in which supplemental accelerated instruction is to be provided to the student. If supplemental accelerated instruction is to be provided to the student, the supplemental accelerated instruction must meet the requirements outlined in this subsection unless the ARD committee specifically determines that some or all of the requirements for supplemental accelerated instruction would deny the student access to a FAPE. *19 TAC 104.1001(b)(3)*

**Assessments Not  
Required**

Education Code 28.0211 does not require the administration of a fifth or eighth grade assessment instrument in a subject under Education Code 39.023(a) to a student enrolled in the fifth or eighth grade, as applicable, if the student:

1. Is enrolled in a course in the subject intended for students above the student's grade level and will be administered an assessment instrument adopted or developed under Education Code 39.023(a) [see EKB] that aligns with the curriculum for the course in which the student is enrolled; or
2. Is enrolled in a course in the subject for which the student will receive high school academic credit and will be administered an end-of-course (EOC) assessment instrument [see EKB] for the course.

Notwithstanding any other provision of Education Code 28.0211, the student may not be denied promotion on the basis of failure to perform satisfactorily on an assessment instrument not required to be administered to the student, nor may a student in grade 5 or grade 8 be denied promotion to the next grade on the basis of fail-

ure to perform satisfactorily on a reading or mathematics assessment instrument intended for use above the student's grade level.

*Education Code 28.0211(o)–(p)*

**Accelerated  
Instruction After  
EOC Assessments**

A district shall provide accelerated instruction to an enrolled student who has taken an EOC assessment instrument and has not performed satisfactorily or who is at risk of dropping out of school.

A district shall offer before the next scheduled administration of the assessment instrument, without cost to the student, additional accelerated instruction to each student in any subject in which the student failed to perform satisfactorily on an end-of-course assessment instrument required for graduation.

A district that is required to provide accelerated instruction must separately budget sufficient funds for that purpose. [See CE]

A district shall evaluate the effectiveness of accelerated instruction programs and annually hold a public hearing to consider the results.

*Education Code 29.081(b), (b-1), (b-2), (b-3), 39.025(b-1)*

Each time a student fails to perform satisfactorily on an assessment instrument administered under Education Code 39.023(c), the district in which the student attends school shall provide to the student accelerated instruction in the applicable subject area.

Accelerated instruction may require participation of the student before or after normal school hours and may include participation at times of the year outside normal school operations and must comply with the requirements for accelerated instruction provided under Education Code 28.0211 [see above].

*Education Code 28.0217*

Effectiveness

A district shall evaluate and document the effectiveness of the accelerated instruction in reducing any disparity in performance on state assessment instruments or disparity in the rates of high school completion between students at risk of dropping out of school and all other district students. *Education Code 29.081(c)*

**No Available Test  
Score**

The superintendent of each district shall establish procedures to ensure that each eligible student who is absent or does not receive a test score for any test administration shall receive appropriate supplemental accelerated instruction as warranted on an individual student basis. *19 TAC 104.1001(b)(4)*

**Accelerated Learning Committee**

A district shall establish an accelerated learning committee for each student who does not perform satisfactorily on the following state assessment instruments [see EKB]:

1. The third grade mathematics or reading assessment;
2. The fifth grade mathematics or reading assessment; or
3. The eighth grade mathematics or reading assessment.

*Education Code 28.0211(a)*

Composition

The accelerated learning committee shall be composed of the principal or the principal's designee, the student's parent or guardian, and the teacher of the subject of an assessment instrument on which the student failed to perform satisfactorily. The district shall notify the parent or guardian of the time and place for convening the accelerated learning committee and the purpose of the committee. *Education Code 28.0211(c)*

If a student is changing campuses, the committee must include the receiving principal or designee, the sending principal or designee, the receiving content teacher or designee, and the sending content teacher or designee. *19 TAC 104.1001(e)(1)*

Educational Plan

An accelerated learning committee shall, not later than the start of the subsequent school year, develop an educational plan for the student that provides the necessary accelerated instruction to enable the student to perform at the appropriate grade level by the conclusion of the school year. The educational plan must be documented in writing, and a copy must be provided to the student's parent or guardian.

During the school year, the student shall be monitored to ensure that the student is progressing in accordance with the educational plan. The district shall administer to the student the assessment instrument for the grade level in which the student is placed at the time the district regularly administers the assessment instruments for that school year.

The board shall adopt a policy consistent with the grievance procedure adopted under Education Code 26.011 [see FNG] to allow a parent to contest the content or implementation of an educational plan.

*Education Code 28.0211(f)–(f-3)*

Failure in a Subsequent School Year

If a student who fails to perform satisfactorily on the third, fifth, or eighth grade math or reading assessment fails in the subsequent school year to perform satisfactorily on an assessment instrument in the same subject, the superintendent, or the superintendent's

designee, shall meet with the student's accelerated learning committee to:

1. Identify the reason the student did not perform satisfactorily; and
2. Determine, in order to ensure the student performs satisfactorily on the assessment instrument at the next administration of the assessment instrument, whether the educational plan developed for the student must be modified to provide the necessary accelerated instruction for that student and any additional resources are required for that student.

The superintendent's designee may be an employee of a regional education service center and may not be a person who served on the student's accelerated learning committee.

*Education Code 28.0211(f-4)–(f-5)*

ARD Determination  
for Grades 3, 5, and  
8

The ARD committee of a student who does not perform satisfactorily on a third, fifth, or eighth grade math or reading assessment must meet to determine the manner in which the student will participate in an accelerated instruction program. *Education Code 28.0211(i)*

*Students Who  
Meet Criteria for  
the Alternative  
Assessment*

The ARD committee must serve as the accelerated learning committee for students who meet the criteria for participation in alternative assessment instruments under Education Code 39.023(b) [see EKB], who do not perform satisfactorily on a mathematics or reading assessment instrument in grade 3, 5, or 8. The ARD committee must determine the manner in which the student will participate in supplemental accelerated instruction; however, the requirements for supplemental accelerated instruction described by 19 Administrative Code 104.1001(b) do not apply.

*ARD Committee  
Responsibilities*

In serving as the accelerated learning committee for a student served by special education, the ARD committee must meet and develop a plan [see Education Plan, above] to determine the manner in which the student will participate in supplemental accelerated instruction, and this meeting must include the required members of a properly constituted ARD committee [see EHBAB].

When the ARD committee for a student served by special education serves as the accelerated learning committee, efforts must be taken to ensure parental participation as specified within the requirements of 19 Administrative Code 89.1050(d) and 34 Code of Federal Regulations 300.322 [see EHBAB].

The ARD committee, serving as the accelerated learning committee, must document decisions regarding supplemental accelerated

instruction in writing and a copy must be provided to the student's parent or guardian. This documentation may either be included in ARD deliberations or as a supplemental attachment to the student's individualized education program.

*Dispute  
Resolution*

A parent or guardian of a student served by special education may use a dispute resolution mechanism specified in 19 Administrative Code 89.1150 [see EHBAE] to resolve any dispute between the parent and a public education agency relating to the identification, evaluation, or educational placement of or the provision of a free appropriate public education (FAPE) to a student with a disability. If a parent or guardian of a student served by special education does not agree with the decision of the ARD committee serving as the accelerated learning committee regarding supplemental accelerated instruction, the parent or guardian may follow the district grievance policy [see FNG].

*19 TAC 104.1001(f)*

Parent Request

Each district shall establish a process allowing for the parent or guardian of a student who fails to perform satisfactorily on a third, fifth, or eighth grade math or reading assessment to make a request for district consideration that the student be assigned to a particular classroom teacher in the applicable subject area for the subsequent school year, if more than one classroom teacher is available. *Education Code 28.0211(a-5); 19 TAC 104.1001(g)*

Classroom  
Assignment

A student who fails to perform satisfactorily on a third, fifth, or eighth grade math or reading assessment and is promoted to the next grade level must be assigned in the subsequent school year in each subject in which the student failed to perform satisfactorily on the applicable assessment instrument to an appropriately certified teacher who meets all state and federal qualifications to teach that subject and grade.

In a manner consistent with federal law and notwithstanding any other law, the commissioner may waive the requirement regarding the assignment of a student to an appropriately certified classroom teacher on the request of a district.

*Education Code 28.0211(n)-(n-1)*

Students who are deaf or hard of hearing must have an education in which their unique communication mode is respected, used, and developed to an appropriate level of proficiency. *Education Code 29.303*

**Personnel**

A student who is deaf or hard of hearing must have an education in which teachers, psychologists, speech therapists, progress assessors, administrators, and others involved in education understand the unique nature of deafness and the hard-of-hearing condition. A teacher of deaf or hard-of-hearing students either must be proficient in appropriate language modes or use an interpreter certified in appropriate language modes if certification is available. Regular and special personnel who work with students who are deaf or hard of hearing must be adequately prepared to provide educational instruction and services to those students.

The district shall employ or provide access to appropriate qualified staff with proficient communications skills, consistent with credentialing requirements, to fulfill the responsibilities of the district and shall make positive efforts to employ qualified individuals with disabilities.

*Education Code 29.304*

**Involvement of Others**

Students who are deaf or hard of hearing must have an education in which parents or legal guardians and advocates for parents or legal guardians are involved in determining the extent, content, and purpose of programs. Other individuals may be involved at the discretion of parents or legal guardians or the district. *Education Code 29.306*

Students who are deaf or hard of hearing shall be given the opportunity to be exposed to deaf or hard-of-hearing role models. *Education Code 29.307*

**Advisory Committee**

If the district has students who are deaf or hard of hearing, it shall include in its local special education advisory committee persons who are deaf or hard of hearing and parents or students who are deaf or hard of hearing, if practicable. *Education Code 29.309*

**Assessment**

The district shall not discriminate on the basis of race, culture, or sex when selecting and administering procedures and materials for assessment and placement of students who are deaf or hard of hearing. *Education Code 29.310(a)*

Placement

A single assessment instrument may not be the sole criterion for determining the placement of a student who is deaf or hard of hearing. *Education Code 29.310(b)*

Procedures and materials for the assessment and placement of a student who is deaf or hard of hearing shall be in the student's preferred mode of communication. All other procedures and materials

used with any student who is deaf or hard of hearing and who has limited English proficiency shall be in the student's preferred mode of communication. *Education Code 29.310(c)*

**Deaf or Hard-of-Hearing Programs**

Programs for students who are deaf or hard of hearing must be coordinated with other public and private agencies, including agencies operating early childhood intervention programs, preschools, agencies operating child development programs, nonpublic nonsectarian schools, agencies operating regional occupational centers and programs, and the Texas School for the Deaf. The programs must also be coordinated with postsecondary and adult programs for persons who are deaf or hard of hearing. *Education Code 29.311*

**Counseling**

Appropriate psychological counseling services for a student who is deaf or hard of hearing shall be made available at the student's school site in the student's primary mode of communication. Appropriate auditory systems shall be used with students who are hard of hearing, if required by the admission, review, and dismissal (ARD) committee. *Education Code 29.312*

**Evaluation**

The district must provide continuous evaluation of the effectiveness of programs for students who are deaf or hard of hearing. If practicable, the evaluations shall follow program excellence indicators established by TEA. *Education Code 29.313*

**Transition to Regular Class**

In addition to satisfying requirements under state and federal law for vocational training, the district shall develop and implement a transition plan for transition of students who are deaf or hard of hearing into a regular class program if the students are to be transferred from a special class or center or from a nonpublic, nonsectarian school into a regular class for any part of the school day. The transition plan must provide for activities to integrate the students into the regular education program and to support the transition of the students from the special education program into the regular education program. *Education Code 29.314*

**Regional Day School Programs for the Deaf**

In accordance with Education Code 30.081 through 30.087, a district shall have access to regional day school programs for the deaf operated by districts at sites previously established by the State Board of Education. Any student who is deaf or hard of hearing with a disability that severely impairs processing linguistic information through hearing, even with recommended amplification, and that adversely affects educational performance shall be eligible for consideration for the Regional Day School Program for the Deaf, subject to the ARD committee recommendations. *19 TAC 89.1080*

<b>Adult Education</b>	<p>A district must provide an adult education program designed to meet the education and training needs of adults to the extent possible using available public and private resources. Bilingual education must be used to instruct students who do not function satisfactorily in English whenever it is appropriate for those students' optimum development. <i>Labor Code 315.003</i></p>
<b>Essential Program Components</b>	<p>An Adult Education and Literacy (AEL) grant recipient shall ensure that essential program components are provided as outlined in the grant application for statewide AEL funds, which include the components described by 40 Administrative Code 805.4. <i>40 TAC 805.4</i></p>
<b>Staff Qualifications</b>	<p>AEL instructional aides, administrative, data entry, proctoring staff, and staff providing support or employment services to students shall have at least a high school diploma or a high school equivalency certificate. AEL directors, supervisors, and staff that oversee program assessment services and/or overall program accountability, and instructors in the content areas of reading, writing, mathematics, and English language acquisition, including substitutes, shall possess at least a bachelor's degree.</p> <p>Requests for exemptions for staff qualification requirements in individual cases may be submitted to the Texas Workforce Commission for approval. The exemption shall include a justification outlining extenuating circumstances and shall be submitted and approved prior to an individual being placed in the position in question.</p>
<b>Professional Development</b>	<p>The district shall comply with the program requirements for professional development in accordance with 40 Administrative Code 805.21.</p> <p>Records of staff qualifications and professional development shall be maintained by each grant recipient and shall be available for monitoring.</p> <p><i>40 TAC 805.21</i></p>

<b>Reimbursement for Community Education</b>	<p>If a board elects to provide community education for all age groups, it may be eligible for reimbursement for the costs of the program. In order to receive reimbursement, it must submit an application in accordance with TEA rules and reimbursement shall be made to the extent authorized.</p>

Conditions

A district will receive such reimbursement only if it has achieved the level of community services prescribed by TEA in the current or preceding year.

*Education Code 29.256*

**Innovative Courses**

A district may offer innovative courses to enable students to master knowledge, skills, and competencies not included in the essential knowledge and skills of the required curriculum. Applications shall not be approved if the proposed course significantly duplicates the content of a Texas Essential Knowledge and Skills (TEKS)-based course or can reasonably be taught within an existing TEKS-based course.

To request approval for an innovative course from the State Board of Education or the commissioner, a district or organization must submit a request for approval at least six months before planned implementation. The request must address the elements listed at 19 Administrative Code 74.27(a)(4).

To request approval from the commissioner for a career and technical education innovative course, the applying school district or organization must submit with its request for approval evidence that the course is aligned with state and/or regional labor market data.

To request approval of a new innovative course, the applying district or organization must submit with its request for approval evidence that the course has been successfully piloted in its entirety in at least one school in the state of Texas.

With the approval of the board, a district may offer, without modifications, any state-approved innovative course.

*19 TAC 74.27(a)(3)–(7)*

**Magnet Schools or Programs**

A district may operate a magnet program, academy, or other innovative program to serve student populations with specialized interests and aptitudes. *19 TAC 74.22(b)*

<b>Award of Credit</b>	The award of credit for a course affirms that a student has satisfactorily met state and local requirements. Any course for which credit is awarded must be provided according to 19 TAC 74.26(a)(1) and (a)(2) [see FDA]. <i>19 TAC 74.26(a)</i>
Early Award of Credit	A district may offer courses designated for grades 9–12 in earlier grade levels. A course must be considered completed and credit must be awarded if the student has demonstrated achievement by meeting the standard requirements of the course, including demonstrated proficiency in the subject matter, regardless of the time the student received instruction in the course or the grade level at which proficiency was attained. The academic achievement record (transcript) shall reflect that students have satisfactorily completed courses at earlier grade levels from grades 9–12 and have been awarded state graduation credits. <i>19 TAC 74.26(b)</i>
Partial Award	<p>In accordance with a district’s local policy, a student who is able to successfully complete only half of a course can be awarded credit proportionately. <i>19 TAC 74.26(d)</i></p> <p>A district shall award credit proportionately to a student who is homeless or in substitute care who successfully completes only half of a course. <i>19 TAC 74.26(e)</i></p>
Attendance for Credit or Final Grade	Unless credit is awarded by the attendance committee or regained in accordance with a principal’s plan [see FEC], a student in any grade level from kindergarten through grade 12 may not be given credit or a final grade for a class unless the student is in attendance for at least 90 percent of the days the class is offered. <i>Education Code 25.092</i>
Homeless or Substitute Care	<p>A district shall adopt a local policy to ensure credit, including proportionate credit, has been awarded appropriately to a student who is homeless or in substitute care for coursework completed prior to the student enrolling in or transferring to the district in accordance with 19 Administrative Code 74.26 (Award of Credit).</p> <p>A district must ensure that student records or transcripts provided by the previous district or charter school are evaluated promptly and are complete, accurate, and up to date.</p> <p>The receiving district must develop, maintain, and regularly update local records and documentation, including transcripts if applicable, for a student who is homeless or in substitute care.</p> <p>A district must ensure that the records or transcripts of a student who is homeless or in substitute care and transferring from out of state, out of country, or a Texas nonpublic school are evaluated and the award of credit is determined in a timely manner, as required by 19 Administrative Code 74.26(a)(2). [See FDA]</p>

A district must award credit proportionately to a student who is homeless or in substitute care who successfully completes only half of a course. Districts must evaluate the student record upon a student's enrollment and ensure that proportionate credit has been awarded appropriately.

If a district determines that there are courses in which a student was enrolled but for which the student has not earned credit, the district may use a variety of methods to determine whether the student may be eligible for full or proportionate credit for coursework completed. The award of credit must be based on demonstrated proficiency in all state and local requirements for a course in accordance with 19 Administrative Code 74.26.

A district must provide opportunities for a student who is homeless or in substitute care who enrolls in the district after the start of the school year to be administered credit by examination at any point during the school year, as required by 19 Administrative Code 74.24 (Credit by Examination) [see EHDB and EHDC].

Districts must:

1. Develop processes for students who have credit deficits or incomplete coursework that would impede on-time promotion or graduation to earn credit and implement appropriate academic interventions to address any credit deficiencies identified;
2. Develop and administer a personal graduation plan in accordance with Education Code 28.0212 (see EIF) for each student in junior high or middle school who is not likely to receive a high school diploma before the fifth school year following the student's enrollment in grade 9, as determined by the district, or does not perform satisfactorily on a state assessment instrument;
3. Review personal graduation plan options with each student entering grade 9 and with that student's parent or guardian as required by Education Code 28.02121 [see EIF]. Before the conclusion of the school year, the student and the student's parent or guardian must confirm and sign a personal graduation plan for the student;
4. Ensure that school staff actively engage with the student and the student's parent or guardian, as applicable, to develop a plan to recover credits if the student has credit deficits or incomplete coursework that would impede on-time promotion or graduation; and

5. Comply with Education Code 28.025(i) [see EIF], concerning the award of diplomas for students who are homeless or in substitute care who are in grade 11 or 12.

*19 TAC 89.1607*

[For information on transition assistance for students who are homeless or in substitute care, including enrollment and placement in education programs and courses, see FFC.]

**Graduation Requirements**

Credit for courses for high school graduation may be earned only if the student received a grade equivalent to 70 on a scale of 100, based upon the essential knowledge and skills of each course. Credit earned toward state graduation requirements in an accredited school district shall be transferable and must be accepted by any other school district in the state. *19 TAC 74.26(a)(1), (c)*

**Academic Achievement Record**

Following guidelines developed by the commissioner of education, a district shall use an academic achievement record (transcript) form that includes student demographics, school data, student data, and the record of courses and credits earned.

The academic achievement record (transcript) shall serve as the academic record for each student and shall be maintained permanently by a district.

Any credit earned by a student must be recorded on the academic achievement record (transcript), regardless of when the credit was earned.

A student's performance on a state assessment, including an end-of-course assessment instrument required under Education Code 39.023(c) [see EKB], must be included in the student's academic achievement record (transcript).

Copies of the record shall be made available to students transferring to another district. A district shall respond promptly to all requests for student records from receiving districts. [See also FD, FDA, and FL]

*Education Code 28.025(e), 39.023(c-5); 19 TAC 74.5(b)-(d)*

**Transcript Seals**

Students who complete high school graduation requirements shall have attached to the academic achievement record (transcript) a seal approved by the State Board of Education. *19 TAC 74.5(e)*

**Endorsement**

Students who complete the requirements for an endorsement shall have the endorsement clearly indicated on the academic achievement record (transcript).

**State Assessment of Academic Skills**

Every student receiving instruction in the essential knowledge and skills shall take the appropriate criterion-referenced assessments, as required by Education Code Chapter 39, Subchapter B [see Testing in Grades 3–8, below]. *Education Code 39.023(a), (c), (f); 19 TAC 101.5*

A student may not receive a high school diploma until the student has performed satisfactorily on end-of-course (EOC) assessment instruments [see End-of-Course Assessments, below]. *Education Code 39.025(a); 19 TAC 101.4001*

Emergent Bilingual Students

In grades 3–12, an emergent bilingual student, as defined by Education Code Chapter 29, Subchapter B, shall participate in the state assessment in accordance with commissioner rules at 19 Administrative Code Chapter 101, Subchapter AA. *Education Code 39.023(l), (m)* [See EKBA]

Special Education

The Texas Education Agency (TEA) shall develop or adopt appropriate criterion-referenced alternative assessment instruments to be administered to each student in a special education program for whom a state assessment instrument adopted under Education Code 39.023(a), even with allowable accommodations, would not provide an appropriate measure of student achievement, as determined by the student’s admission, review, and dismissal (ARD) committee, including assessment instruments approved by the commissioner of education that measure growth. The assessment instruments developed or adopted, including the assessment instruments approved by the commissioner, must, to the extent allowed under federal law, provide a district with options for the assessment of students.

TEA may not adopt a performance standard that indicates that a student’s performance on the alternate assessment does not meet standards if the lowest level of the assessment accurately represents the student’s developmental level as determined by the student’s ARD committee.

The student’s ARD committee shall determine whether any allowable modification is necessary in administering to the student a required EOC assessment instrument under Education Code 39.023(c), and whether the student is required to achieve satisfactory performance on an EOC assessment instrument to receive a high school diploma.

*Education Code 39.023(b)–(c), .025(a-4)*

Military Dependents

If the student is a military dependent, the district shall incorporate procedures to accept:

1. Exit or EOC exams required for graduation from the sending state;
2. National norm-referenced achievement tests; or
3. Alternative testing, in lieu of testing requirements for graduation in the receiving state.

In the event the above alternatives cannot be accommodated by the receiving state for a military dependent transferring in his or her senior year, then Education Code 162.002 article VII, section C, shall apply.

*Substitute  
Passing Standard*

The commissioner shall adopt a passing standard on one or more national norm-referenced achievement tests for purposes of permitting a qualified military dependent to meet that standard as a substitute for achieving a score on an assessment instrument otherwise required for graduation. The passing standard is available only for a student who enrolls in a public school in this state for the first time after completing the ninth grade or who reenrolls in a public school in this state at or above the grade 10 level after an absence of at least two years from the public schools of this state. Each passing standard in effect when a student first enrolls in a Texas public high school remains applicable to the student for the duration of the student's high school enrollment, regardless of any subsequent revision of the standard.

*Education Code 162.002 art. VII [See EIF]*

**Administration**

A district shall follow the test administration procedures established by TEA in the applicable test administration materials. A superintendent shall be responsible for administering tests. *19 TAC 101.25, .27*

Schedule

The commissioner shall specify the schedule for testing that is in compliance with Education Code 39.023(c-3) and supports reliable and valid assessments. Participation in University Interscholastic League (UIL) area, regional, or state competitions is prohibited on any days on which testing is scheduled between Monday and Thursday of the school week in which the primary administration of assessment instruments occurs.

The commissioner may provide alternate dates for the administration of tests required for a high school diploma to students who are migratory children and who are out of the state.

*19 TAC 101.25*

On request by a district, the commissioner may allow the district to administer an assessment instrument on the first instructional day

of a week if administering the assessment instrument on another instructional day would result in a significant administrative burden due to specific local conditions. *Education Code 39.023(c-3)*

*Alternate Test  
Dates*

The commissioner shall consider requests from districts or campuses for alternate test dates on a case-by-case basis. Alternate test dates will only be allowed if the campus or district is closed on the day on which testing is scheduled or if there is an exceptional circumstance, defined below, that may affect a district's or campus's ability to administer an assessment or the students' performance on the assessment.

"Exceptional circumstances" include:

1. Inclement weather or natural disasters that would cause a district or campus to be closed or that would cause a small percentage of students to be in attendance on the day testing is scheduled;
2. Health epidemics that result in a large number of students being absent on the day of testing;
3. Death of a student or school official that may impact student performance; and
4. Sudden emergencies that occur on the day of testing or shortly before testing that may inhibit students from completing the assessments, such as a fire on campus, a bomb threat, an extended power outage, or a water main break.

If an alternate test date for primary test administration is approved, the commissioner may prohibit a district or campus from participating in UIL competition on the new test date if that is determined to be in the best interest of the district, campus, and students.

Test Administration  
Training

The commissioner may require training for district employees involved in the administration of the assessment instruments. The commissioner may only require for the employee at each district campus who oversees the administration of the assessment instruments to annually receive the training. The district employee who oversees test administration on a district campus may, with discretion, require other district employees involved in the administration of assessment instruments to repeat the training. *Education Code 39.0304(a), (b-1)–(b-2)*

**Notice to Parents  
and Students**

A superintendent shall be responsible for the following in order to provide timely and full notification of graduation requirements:

1. Notifying each student and his or her parent or guardian in writing no later than the beginning of the student's seventh-grade year of the testing requirements for graduation;
2. Notifying each student in grades 7–12 new to the district and his or her parent or guardian in writing of the testing requirements for graduation; and
3. Notifying each student who shall take the tests required for graduation and his or her parent or guardian, as well as out-of-school individuals, of the dates, times, and locations of testing.

**Testing in  
Grades 3–8**

Except as provided below, all students, other than students who are assessed under Education Code 39.023(b) (alternative assessment instrument) or 39.023(l) (emergent bilingual students) or exempted under Education Code 39.027, shall be assessed in:

1. Mathematics, annually in grades 3–8;
2. Reading, annually in grades 3–8;
3. Social studies in grade 8;
4. Science in grades 5 and 8; and
5. Any other subject and grade required by federal law.

*Education Code 39.023(a)*

Exception

For purposes of federal accountability, a student shall not be administered a grade-level assessment if the student:

1. Is enrolled in a course or subject intended for students above the student's enrolled grade level and will be administered a grade-level assessment instrument developed under the list above that aligns with the curriculum for that course or subject within the same content area; or
2. Is enrolled in a course for high school credit in a subject intended for students above the student's enrolled grade level and will be administered an EOC assessment instrument that aligns with the curriculum for that course or subject within the same content area.

For purposes of federal accountability, a grade 3–8 student who is accelerated in mathematics, reading/language arts, or science and on schedule to complete the high school end-of-course assessments in that same content area prior to high school shall be assessed at least once in high school with the ACT or the SAT.

A student is only eligible to take an assessment instrument intended for use above the student's enrolled grade if the student is on schedule to complete instruction in the entire curriculum for that subject during the semester the assessment is administered.

A student in grade 5 or 8 described above may not be denied promotion on the basis of failure to perform satisfactorily on an assessment instrument not required to be administered to the student.

Kindergarten  
Assessment

An assessment instrument under Education Code 39.023 may not be administered to a kindergarten student except for the purpose of determining whether the student is entitled to the benefit of the Foundation School Program [see FD]. *Education Code 39.023(a-16)*

Prekindergarten  
Assessment

Performance on an assessment instrument administered to students in prekindergarten may not be considered for any purpose related to Education Code Chapters 39 and 39A. *Education Code 39.0237*

Accommodations

Testing accommodations are permitted for any student unless they would make a particular test invalid. Decisions regarding testing accommodations shall take into consideration the needs of the student and the accommodations the student routinely receives in classroom instruction. Permissible testing accommodations shall be described in the appropriate test administration materials.

The committee established by a board to determine the placement of students with dyslexia or related disorders shall determine whether any allowable modification is necessary in administering an assessment to such a student.

A student's ARD committee shall determine the allowable accommodations and shall document them in the student's individualized education program (IEP). [See Special Education, above]

**End-of-Course  
Assessments**

Beginning with students first enrolled in grade 9 in the 2011–12 school year, a student enrolled in a course for which an EOC assessment exists as required by Education 39.023(c) shall take the appropriate assessment. *19 TAC 101.3021(a)*

TEA shall adopt EOC assessment instruments for secondary-level courses in Algebra I, biology, English I, English II, and United

States history. The Algebra I EOC assessment instrument must be administered with the aid of technology but may include one or more parts that prohibit the use of technology. The English I and English II EOC assessment instruments must each assess essential knowledge and skills in both reading and writing and must provide a single score. A district shall comply with State Board of Education rules regarding administration of the assessment instruments listed in this provision.

If a student is in a special education program, the student's ARD committee shall determine whether any allowable modification is necessary in administering to the student an assessment instrument required under this provision.

*Education Code 39.023(c)*

Students Enrolled  
Below High School  
Level

Beginning in the 2011–12 school year, a student in grade 8 or lower who takes a high school course for credit is required to take the applicable EOC assessment. The EOC assessment result shall be applied toward the student's assessment graduation requirements, as specified in 19 Administrative Code 101.3022. *19 TAC 101.3021(d)*

Assessment  
Requirements for  
Graduation

A student must meet satisfactory performance on an EOC assessment listed in Education Code 39.023(c) in order to be eligible to receive a Texas diploma, except as described below at Exceptions, Credits Earned Prior to Enrollment, Individual Graduation Committee, and Special Education.

The standard in place when a student first takes an EOC assessment is the standard that will be maintained throughout the student's school career.

*Exceptions*

English I or  
English II

A student who was administered separate reading and writing EOC assessments under Education Code 39.023(c), for the English I or English II course has met that course's assessment graduation requirement if the student has:

1. Achieved satisfactory performance on either the reading or writing EOC assessment for that course;
2. Met at least the minimum score on the other EOC assessment for that course; and
3. Achieved an overall scale score of 3750 or greater when the scale scores for reading and writing are combined for that course.

Exceptions related to English I also apply to emergent bilingual students who meet the criteria in 19 Administrative Code 101.1007. [See EKBA]

*19 TAC 101.3022(a)–(c)*

Credits Earned  
Prior to  
Enrollment

If a student earned high school credit for a course with an EOC assessment prior to enrollment in a Texas public school district and the credit has been accepted by a Texas public school district, or a student completed a course for Texas high school credit in a course with an EOC assessment prior to the 2011–12 spring administration, the student is not required to take the corresponding EOC assessment. *19 TAC 101.3021(e)*

Substitute  
Assessments

The commissioner adopts certain assessments as substitute assessments that a student may use in place of a corresponding EOC assessment to meet the student’s assessment graduation requirements. A satisfactory score on an approved assessment may be used in place of only one specific EOC assessment, except as provided by 19 Administrative Code 101.4002(d)(1) (student who qualifies for use of the Texas Success Initiative (TSI) as a substitute assessment and is enrolled in certain college preparatory courses).

A student at any grade level is eligible to use a substitute assessment as provided in the commissioner’s chart at 19 Administrative Code 101.4002(b) if the student:

1. Was administered an approved substitute assessment for an equivalent course in which the student was enrolled;
2. Received a satisfactory score on the substitute assessment as determined by the commissioner and provided in the chart at 19 Administrative Code 101.4002(b); and
3. Using a Texas Success Initiative Assessment (TSIA) or a Texas Success Initiative Assessment, Version 2.0 (TSIA2) also meets the additional criteria of 19 Administrative Code 101.4002(d).

*TSI Additional  
Criteria*

A student must meet the criteria established in 19 Administrative Code 101.4002(d) in order to qualify to use TSIA or TSIA2 as a substitute assessment.

Accountability  
Testing

A student electing to substitute an assessment for graduation purposes must still take the corresponding EOC assessment required under Education Code 39.023(c) at least once for accountability purposes. If a student sits for an EOC assessment, a district may not void or invalidate the test in lieu of a substitute assessment.

A student who fails to perform satisfactorily on a PSAT, PLAN, or Aspire test (or any versions of these tests) as indicated in the chart in 19 Administrative Code 101.4003(b) must take the appropriate EOC assessment required under Education Code 39.023(c). However, a student who does not receive a passing score on the EOC assessment and retakes a PSAT, PLAN, or Aspire test (or any versions of these tests) is eligible to meet the requirements specified in 19 Administrative Code 101.4002(c).

*19 TAC 101.4002*

*Verification of  
Results*

An eligible student is responsible for providing a district an official copy of the student's scores from the substitute assessment.

Upon receipt of official results of an approved substitute assessment, a district must:

1. Verify the student's score on the substitute assessment; and
2. Determine whether the student met the performance standard required to qualify for a public high school diploma in Texas as established by the commissioner.

*19 TAC 101.4005*

*Satisfactory  
Performance*

A student is required to achieve a scale score that indicates satisfactory performance, as determined by the commissioner on each EOC assessment instrument administered to the student. *Education Code 39.025(a)*

*Individual  
Graduation  
Committee*

A student in grade 11 or 12 who has failed to comply with the EOC assessment instrument performance requirements under Education Code 39.025 for not more than two courses may qualify to graduate on the basis of a review by an individual graduation committee (IGC). [See EIF] *Education Code 28.0258, 39.025(a-5)*

A student may not graduate under an IGC if the student did not take each required EOC assessment or an approved substitute assessment for each course in which the student was enrolled in a Texas public school for which there is an EOC assessment. A district shall determine whether the student took each required EOC assessment or an approved substitute assessment. For purposes of this provision only, a student who does not make an attempt to take all required EOC assessments may not qualify to graduate by means of an individual graduation committee.

Notwithstanding any action taken by a student's individual graduation committee, a district must provide a student an opportunity to retake an EOC assessment under Education Code 39.023(c) if the student has not previously achieved satisfactory performance on

an assessment for that course. A student is not required to retake a course in order to be administered a retest of an EOC assessment.

*19 TAC 101.3022(e)(1), (3)*

For provisions related to an IGC and emergent bilingual students, see EKBA.

Special Education

A student receiving special education services is not subject to the IGC requirements in Education Code 28.0258. As provided in 19 Administrative Code 89.1070 (Graduation Requirements) and 19 Administrative Code 101.3023 (Participation and Graduation Assessment Requirements for Students Receiving Special Education Services), a student's ARD committee determines whether a student is required to achieve satisfactory performance on an EOC assessment to graduate. [See EIF]

A student dismissed from a special education program who achieved satisfactory performance on an alternate EOC assessment while enrolled in a special education program is not required to take and achieve satisfactory performance on the general EOC assessment to graduate. A student who took an EOC assessment while enrolled in a special education program is not required to retake and achieve satisfactory performance on the EOC assessment if the student's ARD committee determined that the student was not required to achieve satisfactory performance on the EOC assessment to graduate. A student dismissed from a special education program must achieve satisfactory performance on any remaining EOC assessments that the student is required to take. If the student fails to achieve satisfactory performance on no more than two of the remaining EOC assessments, the student is eligible for IGC review under Education Code 28.0258 and is subject to the IGC provisions above. [See Individual Graduation Committee, above]

*19 TAC 101.3022(f)*

For more information on graduation requirements for special education students, see EIF.

Credit by  
Examination

An EOC assessment administered under Education Code 39.023(c) cannot be used for purposes of credit by examination under 19 Administrative Code 74.24. [See EHDB, EHDC] *19 TAC 101.3021(c)*

Additional State  
Assessments

TEA may adopt EOC assessment instruments for courses not listed in statute, as described above. A student's performance on these EOC assessment instruments is not subject to the perfor-

mance requirements established for the statutory assessments.

*Education Code 39.023(c-2)*

Retakes

Each time an EOC assessment instrument is administered, a student who failed to achieve a score requirement may retake the assessment instrument. [See Satisfactory Performance, above]

A student is not required to retake a course as a condition of retaking an EOC assessment instrument.

If a student failed a course but achieved satisfactory performance on the applicable EOC assessment, that student is not required to retake the assessment if the student is required to retake the course.

**Reporting Results**

To the Public

Overall student performance data, aggregated by ethnicity, sex, grade level, subject area, campus, and district, shall be made available to the public, with appropriate interpretations, at regularly scheduled meetings of a board, after receipt from TEA. The information shall not contain the names of individual students or teachers. *Education Code 39.030(b)*

To the Board

A superintendent shall accurately report all test results with appropriate interpretations to a board according to the schedule in the applicable test administration materials.

To Parents,  
Students, and  
Teachers

A district shall notify each of its students, his or her parent or guardian, and his or her teacher for that subject of test results, observing confidentiality requirements stated at Confidentiality of Results, below. All test results shall be included in each student's academic achievement record and shall be furnished for each student transferring to another district or charter school or private school. The scoring contractor will provide districts with the results of the machine-scorable assessments within a 21-day period following the close of the testing window. Upon receipt of the assessment results from the test contractor, a district shall disclose a student's assessment results to a student's teacher in the same subject area as the assessment for that school year. [See BQ series, FD, and FL]

*19 TAC 101.3014(a)–(d)*

TEA shall adopt a series of questions to be included in an EOC assessment instrument administered under Education Code 39.023(c) to be used for purposes of identifying students who are likely to succeed in an advanced high school course. A district shall notify a student who performs at a high level on the questions and the student's parent or guardian of the student's performance and

potential to succeed in an advanced high school course. A district may not require a student to perform at a particular level on the questions to be eligible to enroll in an advanced high school course. *Education Code 39.0233(b)*

Parents Right-to-Know Under ESEA

As a condition of receiving assistance under Title I, Part A of the Elementary and Secondary Education Act (ESEA) (20 U.S.C. 6301 et seq.), a district shall provide to each individual parent of a child who is a student in such school, with respect to such student information on the level of achievement and academic growth of the student, if applicable and available, on each of the state academic assessments required under Part A. *20 U.S.C. 6312(e)(1)(B)(i)*

Parental Access

A parent is entitled to access to a copy of each state assessment instrument administered to the parent's child. This right of access does not apply, however, to those instruments or particular questions that are being field-tested by TEA. *Education Code 26.005, .006(a)(2), 39.023(e)*

---

**Note:** For information on instructional requirements for students who fail to perform satisfactorily on a state assessment instrument, see EHBC and EHBCA.

---

**Out-of-State Transfers**

A district shall accurately report to TEA whether that student transferred into the district from out of state during the current school year.

Procedures for the reporting of out-of-state-transfer students to TEA shall be established in the applicable test administration materials. A district shall follow procedures specified in those test administration materials.

The assessment results of the out-of-state transfer students shall be reported separately to districts from the results of the district's other students in addition to the current reporting of assessment results for all students and other student subsets.

*19 TAC 101.3014(e)*

**Security and Confidentiality**

All assessment instruments included in the student assessment program are considered secure, and the contents of these tests, including student information used or obtained in their administration, are confidential.

Districts and campuses and the superintendent and campus principals in each district and campus shall:

1. Implement and ensure compliance with state test administration procedures and training activities;

2. Notify TEA as soon as the district becomes aware of any alleged or suspected violation of the security or confidential integrity of a test [see Violations, below];
3. Report all confirmed testing violations to TEA within ten working days of the district becoming aware of the violation in accordance with the reporting process stipulated in the test administration materials;
4. Ensure that the only individuals with access to secure test materials are district employees who have:
  - a. Met the requirements to participate in the student assessment program;
  - b. Received training in test security and test administration procedures; and
  - c. Signed an oath affirming they understand their obligation to maintain and preserve the security and confidentiality of all state assessments and student information, acknowledge their responsibility to report any suspected testing violation, and are aware of the range of penalties that may result from a violation of test security and confidentiality or a departure from test administration procedures; and
5. Ensure the security of the test materials as required by 19 Administrative Code 101.3031(a)(2)(E).

*19 TAC 101.3031(a)(1)–(2)*

Violations

Violations of the security and confidential integrity of a test include:

1. Directly or indirectly assisting students with responses to test questions;
2. Tampering with student responses;
3. Falsifying holistic ratings or student responses;
4. Viewing secure test content before, during, or after an administration unless specifically authorized by TEA or by the procedures outlined in the test administration materials;
5. Discussing or disclosing secure test content or student responses;
6. Scoring students' tests, either formally or informally;

7. Duplicating, recording, or electronically capturing confidential test content unless specifically authorized by TEA or by the procedures outlined in the test administration materials;
8. Responding to secure test questions;
9. Fraudulently exempting or preventing a student from participating in the administration of a required state assessment;
10. Receiving or providing unallowable assistance during calibration activities (e.g., taking notes, providing answer sheets, or sharing answers);
11. Encouraging or assisting an individual to engage in the conduct described above or in any other serious violation of security and confidentiality;
12. Failing to report to an appropriate authority that an individual has engaged or is suspected of engaging in the above conduct or in any other serious violation of security and confidentiality under this provision;
13. Failing to implement sufficient procedures to prevent student cheating; and
14. Failing to implement sufficient procedures to prevent alteration of test documents by anyone other than the student.

Consequences

If a district determines that a student has cheated or attempted to cheat on a state assessment either by providing or receiving direct assistance, the district shall invalidate the student's test results.

Any violation of test security or confidential integrity may result in TEA:

1. Invalidating student test results;
2. Referring certified educators to the State Board for Educator Certification (SBEC) for sanctions in accordance with 19 Administrative Code Chapter 247 (Educators' Code of Ethics) and Chapter 249 (Disciplinary Proceedings, Sanctions, and Contested Cases); and
3. Lowering the district's accreditation status or a district's or campus's accountability rating in accordance with Education Code 39.003(d), or appointment of a monitor, conservator, or management team to the district in accordance with Education Code Chapter 39A.

Test Administration  
Procedures

Test administration procedures shall be delineated in the test administration materials provided to districts annually. Districts must

comply with all of the applicable requirements specified in the test administration materials.

Districts shall ensure that test coordinators and administrators receive training to ensure that testing personnel have the necessary skills and knowledge required to administer assessment instruments in a valid, standardized, and secure manner.

**Records Retention**

As part of test administration procedures, the commissioner shall require districts to maintain records related to the security of assessment instruments for five years.

*19 TAC 101.3031(a)(3)–(d)*

**Disciplinary Action and Penalties**

SBEC may take disciplinary action against a person who has violated the security or integrity of any assessment required by Education Code Chapter 39, Subchapter B or has committed an act that is a departure from the test administration procedures established by the commissioner under 19 Administrative Code Chapter 101.

The superintendent and campus principal must develop procedures to ensure the security and confidentiality of the tests and will be responsible for notifying TEA in writing of conduct that violates the security or confidentiality of a test. Failure to report can subject the person responsible to the applicable penalties.

*19 TAC 249.15(a)–(b), (g)(8)*

**Minimize Disruptions**

In implementing the commissioner’s procedures for the administration of assessment instruments adopted or developed under Education Code 39.023, including procedures designed to ensure the security of the assessment, a district shall minimize disruptions to school operations and the classroom environment. *Education Code 39.0301(a-1)*

**Confidentiality of Results**

Individual student performance results are confidential and may be released only in accordance with the Family Educational Rights and Privacy Act of 1974. *Education Code 39.030(b)* [See FL and GBA]

**General Eligibility**

A board or its designee shall admit into the public schools of a district free of tuition all persons who are over five and younger than 21 years of age on September 1 of any school year in which admission is sought, and may admit a person who is at least 21 and under 26 for the purpose of completing the requirements for a high school diploma, if any of the following conditions exist:

Student and Parent

The person and either parent reside in the district.

Conservator

The person does not reside in the district, but one of the parents resides in the district and that parent is a joint managing conservator or the sole managing conservator or possessory conservator of the person.

Guardian or Person  
Having Lawful  
Control

The person and his or her guardian or other person having lawful control under an order of a court reside in the district.

Students Living  
Separate and Apart

The person is under the age of 18 and has established a separate residence in the district apart from his or her parent, guardian, or other person having lawful control under an order of a court and has established that the person's presence in the district is not for the primary purpose of participation in extracurricular activities. A board is not required to admit such person, however, if the person has:

1. Engaged in conduct that resulted in removal to a disciplinary alternative education program or expulsion within the preceding year;
2. Engaged in delinquent conduct or "conduct in need of supervision" and is on probation or other conditional release for that conduct; or
3. Been convicted of a criminal offense and is on probation or other conditional release.

Students Who Are  
Homeless

The person is homeless. [See also FDC]

1. "Child who is homeless," "person who is homeless," and "student who is homeless" have the meaning assigned to the term homeless children and youths under the McKinney-Vento Homeless Assistance Act.
2. "Homeless children" under the McKinney-Vento Homeless Assistance Act, means children or youths who lack a fixed, regular, and adequate nighttime residence; and includes:

- a. Children who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;

[For information regarding the transfer of records and other transition requirements for a student who is homeless, see FFC.]

Foreign Exchange  
Students

The person is a foreign exchange student placed with a host family that resides in the district by a nationally recognized foreign exchange program, unless the district has applied for and been granted a waiver by the commissioner of education because:

1. This requirement would impose a financial or staffing hardship on the district;
2. The admission would diminish the district's ability to provide high-quality education services for the district's domestic students; or
3. The admission would require domestic students to compete with foreign exchange students for educational resources.

3. Authorizing the child to participate in age-appropriate extracurricular, civic, social, or recreational activities, including athletic activities.

*Family Code 34.002*

A parent may enter into an authorization agreement with an adult caregiver with whom a child is placed under a parental child safety placement agreement approved by the Department of Family and Protective Services (DFPS) to allow the person to perform the acts described above with regard to the child during an investigation of

abuse or neglect or while the department is providing services to the parent. *Family Code 34.0021*

The authorization agreement must conform to the requirements of Family Code Chapter 34.

A child who is the subject of an authorization agreement is not considered to be placed in foster care and the parties to the agreement are not subject to any law or rule governing foster care providers. *Family Code 34.0022(b)*

An authorization agreement does not affect the rights of the child's parent or legal guardian regarding the care, custody, and control of the child, and does not mean that the adult caregiver has legal custody of the child. *Family Code 34.007(b)*

Only one authorization agreement may be in effect for a child at any time. Execution of a subsequent authorization agreement does not by itself supersede, invalidate, or terminate a prior authorization agreement. An authorization agreement is void if it is executed while a prior authorization agreement remains in effect. *Family Code 34.002(d), .008(f)*

An authorization agreement is for a term of six months and renews automatically for six-month terms unless an earlier expiration date is stated in the agreement, the agreement is terminated under Family Code 34.008, or a court authorizes continuation. *Family Code 34.0075*

Immunity

A person who is not a party to the authorization agreement who relies in good faith on the authorization agreement, without actual knowledge that the authorization agreement is void, revoked, or invalid, is not subject to civil or criminal liability to any person, and is not subject to professional disciplinary action, for that reliance if the agreement is completed as required by Family Code Chapter 34. *Family Code 34.007(a)*

---

**Note:** The [Authorization Agreement for Nonparent Relative \(PDF\)](#)<sup>1</sup> is available on the DFPS website.

---

**Temporary  
Authorization for  
Care**

A person eligible to consent to treatment of a child under Family Code 32.001 or a person eligible to enter an authorization agreement [see Authorization Agreement, above] may seek a court order for temporary authorization for care of a child by filing a petition in the district court in the county in which the person resides if:

1. The child has resided with the person for at least the 30 days preceding the date the petition was filed; and

2. The person does not have an authorization agreement or other signed, written documentation from a parent, conservator, or guardian that enables the person to provide necessary care for the child.

*Family Code 35.001–.002*

The order may authorize the petitioner to, among other things:

1. Consent to medical, dental, psychological, and surgical treatment and immunization of the child;
2. Enroll the child in the district; and
3. Authorize the child to participate in age-appropriate extracurricular, civic, social, or recreational activities, including athletic activities.

A temporary authorization order does not affect the rights of the child's parent, conservator, or guardian regarding the care, custody, and control of the child, and does not establish legal custody of the child. *Family Code 35.007(b)*

Immunity

A person who relies in good faith on a temporary authorization order is not subject to civil or criminal liability to any person, or to professional disciplinary action. *Family Code 35.007(a)*

**Students in Foster Care**

A child placed in foster care by an agency of the state or a political subdivision shall be permitted to attend schools in the district in which the foster parents reside free of any charge to the foster parents or to the agency. A durational residence requirement may not be used to prohibit that child from fully participating in any activity sponsored by a district. *Education Code 25.001(f)*

A student who was enrolled in a primary or secondary public school before the student entered the conservatorship of DFPS and who is placed at a residence outside the attendance area for a school or outside a district is entitled to continue to attend the school in which the student was enrolled immediately before entering conservatorship until the student successfully completes the highest grade level offered by the school at the time of placement without payment of tuition. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of DFPS for the duration of the student's enrollment in the school. *Education Code 25.001(g)*

If a student who is in the conservatorship of DFPS is enrolled in a primary or secondary public school, other than the school in which the student was enrolled at the time the student was placed in the conservatorship of DFPS, the student is entitled to continue to at-

tend that school without payment of tuition until the student successfully completes the highest grade level offered by the school at the time of enrollment in the school, even if the child's placement is changed to a residence outside the attendance area for that school or outside the district. The student is entitled to continue to attend the school regardless of whether the student remains in the conservatorship of DFPS for the duration of the student's enrollment in the school. *Education Code 25.001(g-1)*

A written case plan for any child in foster care under the responsibility of the state must include a plan for ensuring the educational stability of the child while in foster care, including:

1. Assurances that each placement of the child in foster care takes into account the appropriateness of the current educational setting and the proximity to the school in which the child is enrolled at the time of placement; and
2. An assurance that the appropriate state agency has coordinated with a district to ensure that the child remains in the school in which the child is enrolled at the time of each placement; or if remaining in that school is not in the best interests of the child, assurances by the state agency and the district to provide immediate and appropriate enrollment in a new school, with all of the educational records of the child provided to the school.

Any such tuition charge must be submitted to the commissioner for approval. The attendance of students admitted under this provision shall not be counted for purposes of allocating state funds to a district. *Education Code 25.003*

**Students Holding F-1 Student Visas**

If a student is required, as a condition of obtaining or holding the appropriate U.S. student visa, to pay tuition to the district that the student attends to cover the cost of the student's education provided by the district, the district shall accept tuition for the student in an amount equal to the full unsubsidized per capita cost of providing the student's education for the period of the student's attendance at school in the district.

The commissioner shall develop guidelines for determining the amount of the full unsubsidized per capita cost of providing a stu-

dent's education. A district may not accept tuition in an amount greater than the amount computed under the commissioner's guidelines unless the commissioner approves a greater amount as a more accurate reflection of the cost of education to be provided by the district.

The attendance of a student for whom a district accepts tuition is not counted for purposes of allocating state funds to the district.

*Education Code 25.0031*

---

**Note:** Enrolling students with F-1 visas is optional. If the district is interested in enrolling students with F-1 visas, it must comply with the federal [Student and Exchange Visitor Program](#)<sup>2</sup> (SEVP) under the Department of Homeland Security.

However, unless a tuition fee is prescribed and set out in a transfer agreement prior to its execution by the parties, no increase in tuition charge shall be made for the year of that transfer that exceeds the tuition charge, if any, of the preceding school year. *Education Code 25.038*

**Transfers to  
Adjoining States**

---

**Note:** The following provision applies to a district located on the border of an adjoining state.

---

Any student who would be entitled to attend the public school of any district situated on the border of Louisiana, Arkansas, Oklahoma, or New Mexico and who may find it more convenient to attend the public school in a district in one of those contiguous states, may have the state and county per capita apportionment of the available school funds paid to the school district of the contiguous state and may have additional tuition, if necessary, paid by the district of residence on such terms as may be agreed upon by the trustees of the receiving district and the trustees of the residence district. *Education Code 25.040*

---

**Contracts for  
Education Outside  
Districts**

**Note:** The following section applies only to districts that do not offer all grades, kindergarten–grade 12.

---

A district that does not offer each grade, kindergarten–grade 12, may provide by contract for students residing in the district who are at grade levels not offered by the district to be educated at those grade levels in one or more other districts. In each contract, the

districts also shall agree to the transfer of school funds or other payments proportionate to the transfer of attendance.

Tuition

The district in which the students reside shall pay tuition to any district with which it has a contract under this section for each of its students attending school in that district at a grade level for which the district has contracted. The amount of the tuition paid may not exceed the greater of the amount provided for by Education Code 25.038 [see above], or an amount specified by commissioner rule [see below].

A district is not required to pay tuition to any district with which it has not contracted for the attendance by any of its students at a grade level for which it has contracted under this provision with another district.

A contract under this provision may not be for a period exceeding five years.

*Education Code 25.039*

*Definitions*

“Home district” means a district of residence of a transferring student.

“Receiving district” means a district to which a student is transferring for the purpose of obtaining an education.

“Tuition” means an amount charged to the home district by the receiving district to educate the transfer student.

*Tuition Allotment  
of the Home  
District*

For the purposes of calculating the tuition allotment of the home district as authorized by Education Code 48.154, the amount of tuition that may be attributed to a home district for a transfer student in payment for that student’s education may not exceed an amount per enrollee calculated for each receiving district. The calculated limit applies only to tuition paid to a receiving district for the education of a student at a grade level not offered in the home district. Tuition may be set at a rate higher than the calculated limit if both districts enter a written agreement, but the calculated tuition limit will be used in the calculation of the tuition allotment for the home district. The calculation will use the most currently available data in an ongoing school year to determine the limit that applies to the subsequent school year. For purposes of this provision, the number of students enrolled in a district will be appropriately adjusted to account for students ineligible for the Foundation School Program funding and those eligible for half-day attendance.

*Calculated  
Tuition Limit*

The calculated tuition limit is the sum of the excess maintenance and operations (M&O) revenue per enrollee and the excess debt

revenue per enrollee, as calculated in 19 Administrative Code 61.1012(b)(2)–(3).

*Notification and  
Appeal Process*

In the spring of each school year, the commissioner will provide each district with its calculated tuition limit and a worksheet with a description of the derivation process. A district may appeal to the commissioner if it can provide evidence that the use of projected student counts from the LPE in making the calculation is so inaccurate as to result in an inappropriately low authorized tuition charge and undue financial hardship. A district that used significant nontax sources to make any of its debt service payments during the base year for the computation may appeal to the commissioner to use projections of its tax collections for the year for which the tuition limit will apply. The commissioner's decision regarding an appeal is final.

**Children Who Are Homeless**

As a condition of receiving funds under the McKinney-Vento Homeless Assistance Act (McKinney-Vento Act), a district serving children who are homeless shall, according to the child's best interest:

*42 U.S.C. 11432(g)(3)(I)*

**School Stability**

In determining the best interest of a child who is homeless, a district shall:

1. Presume that keeping the child in the school of origin is in the child's best interest, except when doing so is contrary to the

request of the child's parent or guardian, or (in the case of an unaccompanied youth) the youth;

2. Consider student-centered factors related to the child's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of children who are homeless, giving priority to the request of the child's parent or guardian or the unaccompanied youth;
3. If, after conducting the best interest determination based on consideration of the presumption in item 1 above and the student-centered factors in item 2 above, the district determines that it is not in the child's best interest to attend the school of origin or the school requested by the parent or guardian or the unaccompanied youth, provide the parent, guardian, or unaccompanied youth with a written explanation of the reasons for its determination, in a manner and form understandable to such parent, guardian, or unaccompanied youth, including information regarding the right to appeal as set forth at Enrollment Disputes, below; and
4. In the case of an unaccompanied youth, ensure that the homeless liaison [see FFC] assists in placement and enrollment decisions under these provisions, gives priority to the views of such unaccompanied youth, and provides the notice to such youth of the right to appeal as set forth at Enrollment Disputes, below.

*42 U.S.C. 11432(g)(3)(B)*

**Contact Information**

A district may require the parent or guardian of a child who is homeless to submit contact information. *42 U.S.C. 11432(g)(3)(H)*

2. Has missed application or enrollment deadlines during any period of homelessness.

*42 U.S.C. 11432(g)(3)(C)*

**Enrollment Disputes**

If a dispute arises over eligibility, or school selection or enrollment in a school:

2. The parent or guardian of the child or an unaccompanied youth shall be provided with a written explanation of any decisions related to school selection or enrollment made by the district, including the rights of the parent, guardian, or unaccompanied youth to appeal such decisions.
3. The parent, guardian, or unaccompanied youth shall be referred to the homeless liaison [see FFC], who shall carry out the dispute resolution process as expeditiously as possible after receiving notice of the dispute; and
4. In the case of an unaccompanied youth, the liaison shall ensure that the youth is immediately enrolled in the school in which the youth seeks enrollment pending resolution of such dispute.

*42 U.S.C. 11432(g)(3)(E)* [See FNG]

**School Placement**

As a condition of receiving funds under the McKinney-Vento Act, TEA shall submit to the U.S. Secretary of Education a plan that includes assurances that a district will adopt policies and practices to ensure that children who are homeless are not stigmatized or segregated on the basis of their status as homeless. *42 U.S.C. 11432(g)(1)(J)(i)*

The choice regarding placement shall be made regardless of whether the child lives with the parents who are homeless or has been temporarily placed elsewhere. *42 U.S.C. 11432(g)(3)(F)*

**Records**

[See also FFAB] *42 U.S.C. 11432(g)(3)(C)(iii)*

Maintenance

Any record ordinarily kept by a school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluation for special services or programs, regarding each child who is homeless shall be maintained so that the records involved are available, in a timely fashion, when a child enters a new school or district, and in a manner consistent

	with the Family Educational Rights and Privacy Act (FERPA) (20 U.S.C. 1232g) [see FL]. <i>42 U.S.C. 11432(g)(3)(D)</i>

Each campus within a district with 3,000 or more students and located in a county with a population of at least 50,000 that maintains an internet website shall post on the campus website information regarding local programs and services, including charitable programs and services, available to assist students who are homeless.

A campus shall make a good faith effort to compile information and shall post the information compiled in a format and style that is easily understandable by students or parents, as appropriate based on the grade levels the campus offers.

A representative of a local program or service available to assist students who are homeless may request to have information concerning the program or service posted on a campus website. A campus may determine the information that is posted on its website and is not required to post information as requested by the representative.

A person whose enrollment is revoked for exceeding this limit may be considered an unauthorized person on school grounds for the purposes of Education Code 37.107 regarding trespassing.

The student shall be allowed a reasonable time to make up school-work missed on the days described above. If the student satisfactorily completes the work, the days of absence shall be counted as days of compulsory attendance.

*Education Code 25.087(d)*

**Other Excused  
Absences**

A person required to attend school may be excused for temporary absence resulting from any cause acceptable to the teacher, principal, or superintendent of the school in which the person is enrolled. *Education Code 25.087(a)*

**Notices to Parents**

Warning Notice

A district shall notify a student's parent in writing at the beginning of the school year that, if the student is absent from school on ten or more days or parts of days within a six-month period in the same school year, the student's parent is subject to prosecution under Education Code 25.093, and the student is subject to referral to a truancy court for truant conduct under Family Code 65.003(a).

Notice of Absences

A district shall notify a student's parent if the student has been absent from school, without excuse under Education Code 25.087, on

three days or parts of days within a four-week period. The notice must:

1. Inform the parent that:
  - a. It is the parent's duty to monitor the student's school attendance and require the student to attend school;
  - b. The student is subject to truancy prevention measures under Education Code 25.0915; and
2. Request a conference between school officials and the parent to discuss the absences.

The fact that a parent did not receive the notices described above is not a defense for the parent's failure to require a child to attend school nor for the student's failure to attend school.

*Education Code 25.095*

**Non-Attendance**  
Parent Liability

A parent or person standing in parental relation commits an offense if:

1. A warning notice is issued;
2. The parent with criminal negligence fails to require the child to attend school as required by law; and
3. The child has absences for the amount of time specified under Family Code 65.003(a).

The attendance officer [see FED] or other appropriate school official shall file a complaint against the parent in an appropriate court, as permitted under Education Code 25.093.

*Affirmative  
Defense—Parent*

It is an affirmative defense to prosecution that one or more of the absences required to be proven was excused by a school official or should be excused by the court. A decision by the court to excuse an absence for this purpose does not affect the ability of a district to determine whether to excuse the absence for another purpose.

*Education Code 25.093*

Student Liability

A child engages in truant conduct if the child is required to attend school under the compulsory attendance laws, and fails to attend school on ten or more days or parts of days within a six-month period in the same school year. Truant conduct may be prosecuted only as a civil case in a truancy court. *Family Code 65.003(a)–(b)*

“Child” means a person who is 12 years of age or older and younger than 19 years of age. *Family Code 65.002(1)*

*Truancy Courts*

The following are designated as truancy courts:

1. The constitutional county court in a county with a population of 1.75 million or more;
2. Justice courts; and
3. Municipal courts.

A truancy court has exclusive original jurisdiction over cases involving allegations of truant conduct.

*Family Code 65.004(a)–(b)*

*Affirmative  
Defense—  
Student*

It is an affirmative defense to an allegation of truant conduct that one or more of the absences required to be proven:

1. Have been excused by a school official or by the court;
2. Were involuntary; or
3. Were due to the child's voluntary absence from the child's home because of abuse, as defined by Family Code 261.001.

The affirmative defense is not available if, after deducting the absences described above, there remains a sufficient number of absences to constitute truant conduct.

In asserting an affirmative defense, the burden is on the child to show by a preponderance of the evidence that the absence has been or should be excused, was involuntary, or was due to the child's voluntary absence from the child's home because of abuse, as defined by Family Code 261.001.

A decision by the court to excuse an absence does not affect the ability of the district to determine whether to excuse the absence for another purpose.

*Family Code 65.003(c)–(f)*

**Truancy Prevention  
Measures**

If a student fails to attend school without excuse on three or more days or parts of days within a four-week period but does not fail to attend school for the time described below, the district shall initiate truancy prevention measures on the student. [See FED] *Education Code 25.0915(a-4)*

**District Complaint or  
Referral**

If a student fails to attend school without excuse on ten or more days or parts of days within a six-month period in the same school year, a district shall within ten school days of the student's tenth absence refer the student to a truancy court for truant conduct under Family Code 65.003(a). [See FED] *Education Code 25.0951(a)*

**Uniform Accounting System**

Each district shall use a uniform accounting system adopted by the commissioner for the data required to be reported for the Public Education Information Management System. *Education Code 48.008(b)*

**Student Attendance Accounting Handbook**

The commissioner will annually establish student attendance accounting guidelines and procedures to be used by a district to maintain records and make reports on student attendance and student participation in special programs.

The standard procedures that a district must use to maintain records and make reports on student attendance and student participation in special programs are described in the official TEA publication *Student Attendance Accounting Handbook*. A copy of the *Student Attendance Accounting Handbook* is available on the TEA website with information related to financial compliance.

Data from previous school years will continue to be subject to the student attendance accounting handbook as the handbook existed in those years.

**Incentive for Additional Instructional Days**

The commissioner shall adjust the average daily attendance of a district under Education Code 48.005 in the manner provided by Education Code 48.0051(b) if the district:

1. Provides the minimum number of minutes of operational and instructional time required under Education Code 25.081 and commissioner rules adopted under that section over at least 180 days of instruction; and
2. Offers an additional 30 days of half-day instruction for students enrolled in prekindergarten through fifth grade.

*Education Code 48.0051(a)*

**Funding for Off-Campus Programs**

Funding eligibility for a student participating in an off-campus program will include time instructed in the off-campus program. A campus may choose an alternate attendance-taking time for a group of students that is scheduled to be off-campus during the regular attendance-taking time. The alternate attendance-taking time will be in effect for the period of days or weeks for which the group is scheduled to be off-campus during the regular attendance-taking time (for example, for the semester or for the duration

of employment). This alternate attendance-taking time may not be changed once it is selected for a particular group of students. If attendance is taken at an off-campus location, the district must ensure that attendance is taken in accordance with the *Student Attendance Accounting Handbook*.

For a district to receive FSP funding for a student participating in an off-campus program, the district must have documentation of an agreement between the district and the college.

*19 TAC 129.1031(c)–(d)* [See EHDD]

[For information regarding funding for virtual instruction and remote learning programs, see EHDE and EHDF.]

### **Disasters**

The commissioner may adjust the average daily attendance of a district all or part of which is located in an area declared a disaster area by the governor under Government Code Chapter 418 if the district experiences a decline in average daily attendance that is reasonably attributable to the impact of the disaster.

The commissioner may make the adjustment under this section for the two-year period following the date of the governor's initial proclamation or executive order declaring the state of disaster.

2. Evaluate the student's ability to manage and level of understanding of the student's diabetes; and
3. Be signed by the parent or guardian and the physician.

Submission to  
School

The parent or guardian must submit the DMTP to the school, and the school must review the plan:

1. Before or at the beginning of the school year;
2. On enrollment of the student, if the student enrolls after the beginning of the school year; or
3. As soon as practicable following a diagnosis of diabetes for the student.

*Health and Safety Code 168.002*

Individualized  
Health Plan

Upon receiving the student's DMTP, the school principal, or designee, and the school nurse, if a school nurse is assigned to the school, shall develop an individualized health plan (IHP) for the student. The IHP shall be developed in collaboration with the student's parent or guardian and, to the extent practicable, the physician responsible for the student's diabetes treatment and one or more of the student's teachers.

A student's IHP must incorporate components of the student's DMTP, including the information required under Health and Safety Code 168.002(b) [see Required Elements, above].

*Health and Safety Code 168.001(3), .003*

Independent  
Monitoring and

2. Administering insulin through the insulin delivery system the student uses;
3. Treating hypoglycemia and hyperglycemia;
4. Possessing on the student's person at any time any supplies or equipment necessary to monitor and care for the student's diabetes; and
5. Otherwise attending to the management and care of the student's diabetes in the classroom, in any area of the school or school grounds, or at any school-related activity.

*Health and Safety Code 168.008*

Required Care

Each school shall adopt a procedure to ensure that a school nurse or at least one unlicensed diabetes care assistant (UDCA) is present and available to provide the required care to a student with diabetes during the regular school day. A district may not restrict the assignment of a student with diabetes to a particular campus on the basis that the campus does not have the required UDCA's. *Health and Safety Code 168.007(c)–(d)*

If a school nurse is assigned to a campus and the nurse is available, the nurse shall perform the tasks necessary to assist a student with diabetes in accordance with the student's IHP.

School Nurse Not Available

If a school nurse is not assigned to the campus or a school nurse is not available, a UDCA shall perform the tasks necessary to assist the student in accordance with the student's IHP and in compliance with any guidelines provided during UDCA training. A UDCA may perform these tasks only if the parent or guardian of the student signs an agreement that:

1. Authorizes a UDCA to assist the student; and
2. States that the parent or guardian understands that a UDCA is not liable for civil damages [see Immunity from Liability, below].

*Health and Safety Code 168.007(a)*

If a school nurse is not assigned to a campus:

1. A UDCA must have access to an individual with expertise in the care of persons with diabetes, such as a physician, a registered nurse, a certified diabetes educator, or a licensed dietitian; or

2. The principal must have access to the physician responsible for the student's diabetes treatment.

*Health and Safety Code 168.007(b)*

  - b. At least three UDCA's if a full-time nurse is not assigned to the school.

"School employee" means a person employed by a school, a local health department that assists the school under Health and Safety Code Chapter 168 (Care of Students with Diabetes), or another entity with whom the school has contracted to perform its duties under that chapter.

"Unlicensed diabetes care assistant" means a school employee who has successfully completed the required training [see UDCA Training, below].

A school employee may not be subject to any penalty or disciplinary action for refusing to serve as a UDCA.

A UDCA shall serve under the supervision of the principal.

*Health and Safety Code 168.001(5)-(6), .003-.004*

UDCA Training

If a school nurse is assigned to a campus, the nurse shall coordinate the training of school employees acting as UDCA's. Training for UDCA's must be provided by a health-care professional with expertise in the care of persons with diabetes or by a school nurse. The training must include instruction in the elements set forth at Health and Safety Code 168.005(d).

Training must be provided before the beginning of the school year or as soon as practicable following:

3. Provide the telephone number of a contact person in case of an emergency involving the student with diabetes.

*Health and Safety Code 168.006*

Immunity from  
Liability

A school employee may not be subject to any disciplinary proceeding, as defined by Education Code 22.0512(b), resulting from any action taken in compliance with Health and Safety Code Chapter 168. The requirements of Chapter 168 are considered to involve the employee's judgment and discretion and are not considered ministerial acts for purposes of immunity under Education Code 22.0511. *Health and Safety Code 168.009(a)* [See DG]

A school nurse is not responsible for and may not be subject to disciplinary action under Occupations Code Chapter 301 for actions performed by a UDCA. *Health and Safety Code 168.009(b)*

A UDCA who assists a student as provided above [see Required Care, above] in compliance with the student's IHP:

A district shall annually review the policy and, as necessary, revise its policy for the care of students with a diagnosed food allergy at risk for anaphylaxis to ensure the policy is consistent with the most current version of the guidelines.

This section does not waive any liability or immunity of the district or its officers or employees or create any liability for or a cause of action against the district or its officers or employees.

Notwithstanding any other law, these provisions do not create a civil, criminal, or administrative cause of action or liability or create a standard of care, obligation, or duty that provides the basis for a cause of action.

*Education Code 38.0151(a)–(b), (d), (i)–(j)*

A district that provides for the maintenance, administration, and disposal of epinephrine auto-injectors under Education Code Chapter 38, Subchapter E [see FFAC] is not required to comply with Education Code 38.0151. *Education Code 38.0151(f)*

**Website Requirements**

Each school year, the board shall post a summary of the guidelines on the district's website [see CQA], including instructions on obtaining access to the complete guidelines document. The district's website must be accessible by each student enrolled in the district and a parent or guardian of each student. Any forms used by a district requesting information from a parent or guardian enrolling a child with a food allergy in the district must include information to access on the district's website a summary of the guidelines and instructions on obtaining access to the complete guidelines document. *Education Code 38.0151(g)*

3. As soon as practicable following a diagnosis of a seizure disorder for the student.

Plan Requirements

A seizure management and treatment plan must:

1. Identify the health-care services the student may receive at school or while participating in a school activity;
2. Evaluate the student's ability to manage and level of understanding of the student's seizures; and
3. Be signed by the student's parent or guardian and the physician responsible for the student's seizure treatment.

*Education Code 38.032(a)–(b)*

Immunity

The care of a student with a seizure disorder by a district employee under a seizure management plan submitted under Education Code 38.032 is incident to or within the scope of the duties of the employee's position of employment and involves the exercise of judgment or discretion on the part of the employee for purposes of Education Code 22.0511, regarding immunity from liability.

The immunity from liability provided by Education Code 22.0511 applies to an action or failure to act by a district employee in administering a medication, assisting with self-administration, or otherwise providing for the care of a student under a seizure management plan submitted for the student.

Definitions

*Educational and Course Programs*

"Educational and course programs" means programs intended to provide instruction to students in conjunction with or outside of the required curriculum, which may include, but are not limited to, gifted and talented services, bilingual or special language services for emergent bilingual students, career and technical education, and early college high school.

*Enrollment Conference*

"Enrollment conference" means a student-centered meeting between key district staff and the newly enrolled student and/or the student's parent or guardian that occurs within the first two weeks of enrollment, as soon as feasible, at a new school to collaboratively ease transitions; identify the student's academic strengths and extracurricular interests; introduce school processes and opportunities for engagement; and identify any interventions and additional support services (e.g., special education or Section 504

services, academic and/or behavioral interventions, social and emotional needs, college and career readiness). The student's attendance in the conference should be addressed on a case-by-case basis.

*Records*

"Records" means documents in printed or electronic form that include, but are not limited to, student transcripts; individual course grades; academic achievement records; course credits, whether full or partial; individualized education program referrals; intervention data; immunizations; state assessment scores; student attendance data; disciplinary reports; graduation endorsements; special education/Section 504 committee records; performance acknowledgements; and personal graduation plans.

*Welcome Packet*

*19 TAC 89.1601(2), (4), (9), (11)*

Transfer of Student  
Records

Each district shall ensure that school records for students who are identified as homeless or in substitute care are transferred to the student's new school after receiving a request for records. Student records must be requested, sent, and received using the Texas Records Exchange (TREx) system.

Each district is required to transfer student records within ten working days of receipt of a request from a district to which a student who is homeless or in substitute care enrolls, as required by Education Code 25.002(a-1) [see FD(LEGAL)]. The discretionary authority under Education Code 31.104(d) [see CMD(LEGAL)] to withhold records of a student if the student has not returned or paid for instructional materials or technological equipment does not exempt a district from the mandatory provision to send records to another public school in which the student enrolls.

If a district fails to receive the required information within ten working days, the requesting district may report the noncompliant district to the division responsible for TREx Support at TEA.

Proof of enrollment in a different district permits retroactive withdrawal to the date a student enrolled in the new school. The date of enrollment in the new district is considered the date of withdrawal from the previous district.

*19 TAC 89.1603*

Systems and  
Procedures

A district shall develop systems to ease transition of a student who is homeless or in substitute care during the first two weeks of enrollment at a new school. These systems shall include the following:

1. Welcome packets containing applicable information regarding enrollment in extracurricular activities, club activities, information on fee waivers, tutoring opportunities, the student code of conduct, available student supports, and contact information for key school staff members such as principals, registrars, counselors, designated liaisons, nutrition coordinators, and transportation specialists;
2. Introductions for new students that maintain student privacy and confidentiality to the school environment and school processes by district faculty, campus-based student leaders, or ambassadors; and
3. Mechanisms to ensure that a process is in place for all students who qualify to receive nutrition benefits upon enrollment, as all students who are homeless or in substitute care are eligible for United States Department of Agriculture Child Nutrition Programs. The process must expedite communication with the district nutrition coordinator to ensure that eligible students are not charged in error or experience delays in receiving these benefits.

*19 TAC 89.1605(a)*

A district must provide professional development opportunities and resources to support key staff members such as principals, registrars, counselors, designated liaisons, nutrition coordinators, and transportation specialists on local processes and procedures for facilitating successful school transitions for students who are homeless or in substitute care.

A district must use the TREx, the Personal Identification Database (PID), or the Person Enrollment Tracking (PET) application to facilitate records transfer and expedite coordination and communication between the sending and receiving schools. In cases where records from the student's previous school are missing or cannot be located, a district should use the Texas Student Data System (TSDS) Unique ID application to identify where the student was previously enrolled.

*19 TAC 89.1605(c)–(d)*

Enrollment  
Conference

A district shall convene an enrollment conference within the first two weeks or as soon as feasible, after a student who is homeless or in substitute care enrolls at a new school. The convening of the

enrollment conference shall not delay or impede the enrollment of the student.

The student's attendance in the conference should be addressed on a case-by-case basis. The enrollment conference may be used in conjunction with an existing meeting that is designed for similar purposes for newly enrolled students.

The enrollment conference shall address the student's credit recovery, credit completion, attendance plans and trauma-informed interventions, interests and strengths, discipline or behavior concerns, previous successes, college readiness, and social and emotional supports as well as district policies relating to transfers and withdrawals and communication preferences with parents or guardians.

The enrollment conference may be comprised of:

1. School administrators;
2. McKinney-Vento or foster care liaisons;
3. Social workers;
4. Teachers;

10. The DFPS caseworker, Court Appointed Special Advocates (CASA) volunteer, or other volunteers, as applicable; and
11. A parent or guardian, unless the caseworker indicates the parent's or guardian's rights to participate have been restricted by the court.

*19 TAC 89.1605(b)*

Educational  
Placement

A district must establish procedures to receive, review, and assess student records for the initial course and educational program placement for a student who is homeless or in substitute care upon enrollment at a new school.

A district must ensure that a student who is homeless or in substitute care has the opportunity to pursue the same endorsement cat-

egories, to the extent possible. If only one endorsement is offered, it must be multidisciplinary studies.

To the extent possible, a district shall ensure the continuation of a student's course and educational programs, if appropriate, from the previous district by placing the student in comparable courses and programs for which they are eligible.

A district shall promote placement in academically challenging and career preparation courses.

*19 TAC 89.1609*

[For award of credit for students who are homeless or in substitute care, see EI. For special education services for students who are homeless or in substitute care, see EHBAA.]

Access to  
Educational and  
Extracurricular  
Programs and  
Courses

A district must develop processes to increase awareness of opportunities available to students who are homeless or in substitute care to participate in extracurricular programs, summer programs, credit transfer services, electronic courses, and after-school tutoring programs.

A district must identify and remove barriers, whenever possible, to participation by students who are homeless or in substitute care in extracurricular programs, summer programs, credit transfer services, electronic courses, and after-school tutoring programs.

Appropriate district staff must facilitate the process to complete and submit a University Interscholastic League (UIL) waiver of residence application form for a student who is homeless and plans to participate in varsity athletics.

In compliance with Education Code 25.001(f) [see FD], a durational residence requirement may not be used to prohibit a student in substitute care from fully participating in any activity sponsored by the district.

*19 TAC 89.1611*

Postsecondary  
Information for  
Students who are  
Homeless or in  
Substitute Care

District counselors or other designated staff shall work with district McKinney-Vento and foster care liaisons to ensure that all students who are identified as homeless or in substitute care graduate with endorsements, if applicable, and have postsecondary plans identified in their personal graduation plans, to the extent required by Education Code 28.02121 [see EIF].

Districts must provide postsecondary counseling in alignment with Education Code 33.007 [see FFEA], for all students, including students who are homeless or in substitute care.

Districts must connect students to college readiness initiatives, campus visits, and other postsecondary preparation opportunities provided by the district.

School counselors must provide information about postsecondary education to the student and the student's parent or guardian during the first school year a student is enrolled in high school and each subsequent year throughout high school. [See FFEA]

*Provisions for  
Students  
Experiencing  
Homelessness*

McKinney-Vento liaisons must inform unaccompanied homeless youths of their status as independent students for the purpose of applying for financial aid for higher education and provide verification of such status for the Free Application for Federal Student Aid (FASFA), pursuant to 42 United States Code 11432(g)(6)(A)(x)(III).

School counselors must assist and advise students experiencing homelessness with college preparation and readiness, pursuant to 42 United States Code 11432(g)(1)(K).

*19 TAC 89.1613(a)–(b)*

*Provisions for  
Students in  
Substitute Care*

A district shall ensure that a student in substitute care who is enrolled in grade 11 or 12 is provided information regarding tuition and fee exemptions under Education Code 54.366, for dual-credit or other courses provided by a public institution of higher education for which a high school student may earn joint high school and college credit.

A district shall inform students in substitute care of tuition and fee exemptions under Education Code 54.367, regarding monthly payments, medical assistance benefits, and reimbursement of fees.

A district shall ensure students in substitute care are informed that every higher education institution in Texas has a designated foster care liaison to assist students.

Foster care liaisons are encouraged to support students in substitute care with linking to colleges to develop connections and facilitate effective transitions into postsecondary education.

Foster care liaisons, school counselors, and others must assist students with seeking and applying for all types of scholarships for which the student may qualify.

*19 TAC 89.1613(c)*

*Notice of Events for  
Students in  
Substitute Care*

A district must provide notice in writing to the educational decision-maker and caseworker of a student who is in substitute care regarding events that may significantly impact the education of the student. *19 TAC 89.1617*

Events that may significantly impact the education of a child include:

1. Requests or referrals for an evaluation under Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794), or special education under Education Code 29.003 [see EHBA];

**School-Community  
Guidance Center**

A district may establish a school-community guidance center designed to locate and assist children with problems that interfere with their education, including juvenile offenders and children with severe behavioral problems or character disorders.

Each center shall coordinate efforts of district personnel, local police departments, school attendance officers, and probation officers in working with students, dropouts, and parents in identifying and correcting factors that adversely affect the education of the children.

*Education Code 37.051*

Upon request from a superintendent, a governmental agency concerned with children that has jurisdiction in a district shall cooperate with the school-community guidance center and shall designate

---

<b>Bullying Prohibited</b>	The District prohibits bullying, including cyberbullying, as defined by state law. Retaliation against anyone involved in the complaint process is a violation of District policy and is prohibited.
Examples	Bullying of a student could occur by physical contact or through electronic means and may include hazing, threats, taunting, teasing, confinement, assault, demands for money, destruction of property, theft of valued possessions, name calling, rumor spreading, or ostracism.
<b>Minimum Standards</b>	In accordance with law, the Superintendent shall develop administrative procedures to ensure that minimum standards for bullying prevention are implemented.
<b>Retaliation</b>	The District prohibits retaliation by a student or District employee against any person who in good faith makes a report of bullying, serves as a witness, or participates in an investigation.
Examples	Examples of retaliation may include threats, rumor spreading, ostracism, assault, destruction of property, unjustified punishments, or unwarranted grade reductions. Unlawful retaliation does not include petty slights or annoyances.
<b>False Claim</b>	A student who intentionally makes a false claim, offers false statements, or refuses to cooperate with a District investigation regarding bullying shall be subject to appropriate disciplinary action.
<b>Timely Reporting</b>	Reports of bullying shall be made as soon as possible after the alleged act or knowledge of the alleged act. A failure to immediately report may impair the District's ability to investigate and address the prohibited conduct.
<b>Reporting Procedures</b>	To obtain assistance and intervention, any student who believes that he or she has experienced bullying or believes that another student has experienced bullying should immediately report the alleged acts to a teacher, school counselor, principal, or other District employee. The Superintendent shall develop procedures allowing a student to anonymously report an alleged incident of bullying.
Student Report	

Employee Report	Any District employee who suspects or receives notice that a student or group of students has or may have experienced bullying shall immediately notify the principal or designee.
Report Format	A report may be made orally or in writing. The principal or designee shall reduce any oral reports to written form.
Periodic Monitoring	The Superintendent shall periodically monitor the reported counts of bullying incidents, and that declines in the count may represent not only improvements in the campus culture because bullying declines but also declines in the campus culture because of a decline in openness to report incidents.
<b>Notice of Report</b>	When an allegation of bullying is reported, the principal or designee shall notify a parent of the alleged victim on or before the third business day after the incident is reported. The principal or designee shall also notify a parent of the student alleged to have engaged in the conduct within a reasonable amount of time after the incident is reported.
<b>Prohibited Conduct</b>	The principal or designee shall determine whether the allegations in the report, if proven, would constitute prohibited conduct as defined by policy FFH, including dating violence and harassment or discrimination on the basis of race, color, religion, sex, gender, national origin, or disability. If so, the District shall proceed under policy FFH. If the allegations could constitute both prohibited conduct and bullying, the investigation under FFH shall include a determination on each type of conduct.
<b>Investigation of Report</b>	The principal or designee shall conduct an appropriate investigation based on the allegations in the report. The principal or designee shall promptly take interim action calculated to prevent bullying during the course of an investigation, if appropriate.
<b>Concluding the Investigation</b>	<p>Absent extenuating circumstances, the investigation should be completed within ten District business days from the date of the initial report alleging bullying; however, the principal or designee shall take additional time if necessary to complete a thorough investigation.</p> <p>The principal or designee shall prepare a final, written report of the investigation. The report shall include a determination of whether bullying occurred, and if so, whether the victim used reasonable self-defense. A copy of the report shall be sent to the Superintendent or designee.</p>
<b>Notice to Parents</b>	If an incident of bullying is confirmed, the principal or designee shall promptly notify the parents of the victim and of the student who engaged in bullying.

<b>District Action</b>	
Bullying	If the results of an investigation indicate that bullying occurred, the District shall promptly respond by taking appropriate disciplinary action in accordance with the District's Student Code of Conduct and may take corrective action reasonably calculated to address the conduct. The District may notify law enforcement in certain circumstances.
<i>Discipline</i>	<p>A student who is a victim of bullying and who used reasonable self-defense in response to the bullying shall not be subject to disciplinary action.</p> <p>The discipline of a student with a disability is subject to applicable state and federal law in addition to the Student Code of Conduct.</p>
<i>Corrective Action</i>	Examples of corrective action may include a training program for the individuals involved in the complaint, a comprehensive education program for the school community, follow-up inquiries to determine whether any new incidents or any instances of retaliation have occurred, involving parents and students in efforts to identify problems and improve the school climate, increasing staff monitoring of areas where bullying has occurred, and reaffirming the District's policy against bullying.
<i>Transfers</i>	The principal or designee shall refer to FDB for transfer provisions.
<i>Counseling</i>	The principal or designee shall notify the victim, the student who engaged in bullying, and any students who witnessed the bullying of available counseling options.
Improper Conduct	If the investigation reveals improper conduct that did not rise to the level of prohibited conduct or bullying, the District may take action in accordance with the Student Code of Conduct or any other appropriate corrective action.
<b>Confidentiality</b>	To the greatest extent possible, the District shall respect the privacy of the complainant, persons against whom a report is filed, and witnesses. Limited disclosures may be necessary in order to conduct a thorough investigation.
<b>Appeal</b>	A student who is dissatisfied with the outcome of the investigation may appeal through FNG(LOCAL), beginning at the appropriate level.
<b>Records Retention</b>	Retention of records shall be in accordance with CPC(LOCAL).
<b>Access to Policy and Procedures</b>	This policy and any accompanying procedures shall be distributed annually in the employee and student handbooks. Copies of the policy and procedures shall be posted on the District's website, to the extent practicable, and shall be readily available at each campus and the District's administrative offices.

The term “education records” does not include:

1. Records that are created or received by a district after an individual is no longer a student in attendance and that are not directly related to the individual’s attendance as a student.
2. Records made by district personnel that are kept in the sole possession of the maker, are used only as a personal memory aid, and are not accessible or revealed to anyone other than a temporary substitute for the maker of the record.
3. Records maintained by a law enforcement unit of a district that were created by that law enforcement unit for the purpose of law enforcement.
4. Records on a student who is 18 years of age or older, or who is attending an institution of postsecondary education, that are:
  - a. Made or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his or her professional capacity or assisting in a paraprofessional capacity;
  - b. Made, maintained, or used only in connection with treatment of the student; and
  - c. Disclosed only to individuals providing the treatment. For the purpose of this definition, “treatment” does not include remedial educational activities or activities that are part of the program of instruction at the agency or institution.
5. Grades on peer-graded papers before they are collected and recorded by a teacher.

Specific approval from students, parents, or guardians is not required prior to making such record transfers. *Education Code 38.002* [See FFAB]

Medical Records

The parent or guardian of a student is entitled to access to the student's medical records maintained by a district. On request of a student's parent or guardian, a district shall provide a copy of the student's medical records to the parent or guardian. A district may not impose a charge that exceeds the amount authorized by Section 552.261 of the Government Code [see GBAA]. *Education Code 38.0095*

*Privacy Rule for  
Non-"Education  
Records"*

However, overall student performance data shall be aggregated by ethnicity, sex, grade level, subject area, campus, and district, and made available to the public, with appropriate interpretations, at regularly scheduled board meetings. The information may not contain the names of individual students or teachers. *Education Code 39.030(b)* [See EKB]

Academic  
Achievement  
Record (Grades 9–  
12)

Following guidelines developed by the commissioner of education, a district must use an academic achievement record (transcript) form that includes student demographics, school data, student data, and the record of courses and credits earned. The academic achievement record shall serve as the academic record for each student and must be maintained permanently by the district. A district must ensure that copies of the record are made available for a student transferring from one district to another. To ensure appropriate placement of a transfer student, a district must respond promptly to each request for student records from a receiving district. *19 TAC 74.5(b)–(c)* [See EI]

A district must obtain a copy of the record of further disclosures maintained by the named authorities, officials, and agencies under 34 C.F.R. 99.32(b)(2) and make it available in response to a parent's request to review the record.

A district must record the following information when it discloses personally identifiable information from education records under the health or safety emergency exception [see Health or Safety Emergency, above]:

1. The articulable and significant threat to the health or safety of a student or other individuals that formed the basis for the disclosure; and
2. The parties to whom the district disclosed the information.

*34 C.F.R. 99.32*

The records shall include at least the name of the person or agency that made the request and the legitimate interest the person or agency had in the information. The record will be maintained as long as the district maintains the student's education record. The record of access shall be available only to parents, school officials responsible for custody of the records, and those state, local, and federal officials authorized to audit the operation of the system. *20 U.S.C. 1232g(b)(4)(A); 34 C.F.R. 99.33(a)(2)*

If, as a result of the hearing, the district decides not to amend the records, it shall inform the parent of the right to place a statement in the records commenting on the contested information and/or stating why the parent disagrees with the decision of the district. Any explanation shall be maintained with the contested part of the record for as long as the record is maintained and shall be disclosed whenever the contested portion of the record is disclosed. *34 C.F.R. 99.21*

Fees for Copies

No fee shall be charged to search for or to retrieve the education records of a student. A fee may be charged for a copy of education records which is made for the parent or an eligible student, unless the imposition of a fee effectively prevents a parent or eligible student from exercising the right to inspect and review those records. *20 U.S.C. 1232g; 34 C.F.R. 99.11; Education Code 26.012*

Directory information includes the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, dates of attendance, grade level, enrollment status, participation in officially recognized activities and sports, weight and height of members of athletic teams, honors and awards received, and the most recent educational agency or institution attended. "Directory information" does not include a student's:

1. Social security number; or
2. Student identification (ID) number, unless:

- b. The student ID number or other unique personal identifier that is displayed on a student ID badge cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a PIN, password, or other factor known or possessed only by the authorized user.

*34 C.F.R. 99.3*

*Disclosure of

3. The period of time within which the parent has to notify the district in writing that he or she does not want any or all of those types of information about the student designated as directory information.

*Restrictions on  
the Right of  
Refusal*

A parent or eligible student may not use the right of refusal to opt out of directory information disclosures to prevent a district from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled or to prevent a district from requiring a student to wear, to display publicly, or to disclose a student ID card or badge that exhibits information that may be designated as directory information and that has been properly designated by the district as directory information in the public notice provided under this section.

*Former Students*

A district may disclose directory information about former students without satisfying the public notice conditions above. However, the district must continue to honor any valid request to opt out of the disclosure of directory information made while a student was in attendance unless the student rescinds the opt-out request.

Notice to  
Requestor

In accordance with Government Code 552.1175(f), a district may redact information that must be withheld under this provision from any information the district discloses under the Public Information Act without the necessity of requesting a decision from the attorney general. If a district redacts information under this provision, the district shall provide the information required by Government Code 552.1175(h) to the requestor on a form prescribed by the attorney general. Each current or former employee or board member of a district shall choose whether to allow public access to information in the custody of the district that relates to the person's home address, home telephone number, emergency contact information, or social security number, or that reveals whether the person has family members.

Each current or former employee and board member shall state that person's choice to the main personnel officer of the district in a signed writing not later than the 14th day after the date on which the employee begins employment with the district, the board member is elected or appointed, or the former employee or official ends service with the district.

If the current or former employee or board member fails to state the person's choice within the period established by this provision, the information is subject to public access.

A current or former employee or board member who wishes to close or open public access to the information may request in writing that the main personnel officer of the district close or open access.

**Officer for Public Information and Required Sign**

Officer and Agents

The superintendent of a district is the officer for public information. Each department head is an agent of the officer for public information for purposes of complying with Government Code Chapter 552 (Public Information Act [PIA]).

*Duties*

The officer is responsible for the release of public information as required by the Public Information Act. Subject to penalties provided by the Public Information Act, the officer for public information shall:

1. Make public information available for public inspection and copying;
2. Carefully protect public information from deterioration, alteration, mutilation, loss, or unlawful removal;
3. Repair, renovate, or rebind public information when necessary to maintain it properly; and
4. Make reasonable efforts to obtain public information from a temporary custodian if:
  - a. The information has been requested from the district;
  - b. The officer is aware of facts sufficient to warrant a reasonable belief that the temporary custodian has possession, custody, or control of the information;
  - c. The officer is unable to comply with the duties imposed by the Public Information Act without obtaining the information from the temporary custodian; and
  - d. The temporary custodian has not provided the information to the officer or the officer's agent.

The officer is not responsible for the use made of the information by the requestor or the release of the information after it is removed from a record as a result of an update, correction, or change of status of the person to whom the information pertains.

*Gov't Code 552.201(a)–.204; Keever v. Finlan, 988 S.W.2d 300 (Tex. App.–Dallas 1999, pet. dismiss'd) (a district's chief administrative officer is the superintendent)*

*Training*

This provision applies to an elected or appointed board member and the officer for public information.

Each person shall complete a course of training of not less than one and not more than two hours regarding the responsibilities of the district and its board members and employees under the Public Information Act not later than the 90th day after the date:

1. The board member takes the oath of office; or
2. The officer for public information assumes duties as officer for public information.

A public information coordinator who is primarily responsible for administering the responsibilities of the board under the Public Information Act and designated for board members to satisfy the training requirement of this provision shall complete the training course regarding the responsibilities of the board and district employees under the PIA not later than the 90th day after the date the coordinator assumes the person's duties as coordinator. [See BBD, CPC(LOCAL)]

Designation of a public information coordinator does not relieve a board member from the duty to comply with any other requirement of the Public Information Act that applies to the board member. A district shall maintain and make available for public inspection the record of its board members' or, if applicable, the public information coordinator's completion of the training.

*Gov't Code 552.012(a)–(c), (e)*

PIA Sign

The officer for public information shall prominently display a sign (PIA sign) in the form prescribed by the attorney general that contains basic information about the rights of a requestor, the responsibilities of a district, and the procedures for inspecting or obtaining a copy of public information under the Public Information Act. The officer shall display the sign at one or more places in the district's administrative offices where it is plainly visible to:

1. Members of the public who request public information in person; and
2. Employees of the district whose duties include receiving or responding to public information requests.

*Gov't Code 552.205(a)*

**Requests for Public Information**

Method of  
Requesting Public  
Information

A person may make a written request for public information only by delivering the request by one of the following methods to the officer for public information or a person designated by that officer:

1. United States mail;
2. Electronic mail;

3. Hand delivery; or
4. Any other appropriate method approved by the district, including facsimile transmission and electronic submission through the district's website.

A district is considered to have approved another method only if the district includes a statement on the PIA sign or the district's website that states a request for public information may be made by that method.

*Designated  
Addresses to  
Receive  
Requests*

A district may designate one mailing address and one electronic mail address for receiving written requests for public information and shall provide the designated mailing address and electronic mailing address to any person on request.

A district that posts a designated mailing address or electronic mail address on the district's website or that prints those addresses on the PIA sign is not required to respond to a written request for public information unless the request is received:

1. At one of those addresses;
2. By hand delivery; or
3. By a method described above that has been approved by the district.

*Gov't Code 552.234(c), (d)*

*Optional Request  
Form*

The attorney general shall create a public information request form that provides a requestor the option of excluding from a request information that the district determines is:

1. Confidential; or
2. Subject to an exception to disclosure that the district would assert if the information were subject to the request.

A district that allows requestors to use the attorney general's form and maintains a website shall post the form on its website.

*Gov't Code 552.235*

**District Response to  
Requests**

Uniform Treatment

The officer for public information or the officer's agent shall treat all requests for information uniformly without regard to the position or occupation of the requestor, the person on whose behalf the request is made, or the status of the individual as a member of the media. *Gov't Code 552.223*

ACCESS TO PUBLIC INFORMATION  
REQUESTS FOR INFORMATION

GBAA  
(LEGAL)

Inquiries by District	The officer for public information and the officer's agent may not make an inquiry of a requestor except to establish proper identification or except as provided below.
<i>Requests to Clarify or Narrow</i>	If what information is requested is unclear to the district, the district may ask the requestor to clarify the request. If a large amount of information has been requested, the district may discuss with the requestor how the scope of the request might be narrowed, but the district may not inquire into the purpose for which the information will be used.
<i>Additional Information for Vehicle Records</i>	If the information requested relates to a motor vehicle record, the officer for public information or agent may require the requestor to provide additional identifying information sufficient for the officer or agent to determine whether the requestor is eligible to receive the information under Transportation Code Chapter 730. In this provision, "motor vehicle record" has the meaning assigned that term by Transportation Code 730.003.  <i>Gov't Code 552.222(a)-(c)</i>
Statement of Consequences	A written request for clarification or discussion or for additional information, as described above, must include a statement as to the consequences of the failure by the requestor to timely respond to the request for clarification, discussion, or additional information. <i>Gov't Code 552.222(e)</i>
<i>Requestor's Failure to Respond</i>	If by the 61st day after the date the district sends a written request for clarification or discussion or for additional information, as described above, the district, officer for public information, or agent does not receive a written response from the requestor, the underlying request for public information is considered to have been withdrawn by the requestor.
Exception to Automatic Withdrawal	Except when the requestor's information request was sent by electronic mail, described below, if the requestor's information request included the requestor's physical or mailing address, the request may not be considered to have been withdrawn unless the district or officer for public information or agent sends the request for clarification or discussion or for additional information, as described above, to that address by certified mail.  If the requestor's information request was sent by electronic mail, the request may be considered to have been withdrawn if: <ol style="list-style-type: none"><li>1. The district, officer for public information, or agent sends the request for clarification or discussion or the written request for additional information by electronic mail to the same electronic mail address from which the original request was sent</li></ol>

or to another electronic mail address provided by the requestor; and

2. The district, officer for public information, or agent does not receive from the requestor a written response or response by electronic mail within the period described by Government Code 552.222(d).

*Gov't Code 552.222(d), (f)–(g)*

Time for Production  
*Promptly*

An officer for public information shall promptly produce public information for inspection, duplication, or both, on application by any person to the officer. "Promptly" means as soon as possible under the circumstances, that is, within a reasonable time, without delay. A district may not automatically withhold for ten business days public information not excepted from disclosure. *Gov't Code 552.221(a); Atty. Gen. ORD 664 (2000)*

*Certifications of Availability*

If an officer for public information cannot produce the public information for inspection or duplication within ten business days after the date the information is requested, the officer shall certify that fact in writing to the requestor and set a date and hour within a reasonable time when the information will be available for inspection or duplication.

If the requested information is unavailable at the time of the request to examine because it is in storage or active use, an officer for public information shall certify this fact in writing to the requestor and set a date and hour within a reasonable time when the information will be available for inspection or duplication.

*Gov't Code 552.221(c), (d)*

*Administrative Offices Closed*

Unless the district has initiated a temporary suspension of the Public Information Act during a catastrophe [see below], if a district closes its physical offices, but requires staff to work, including remotely, then the district shall make a good faith effort to continue responding to applications for public information, to the extent staff have access to public information responsive to an application while its administrative offices are closed.

Failure to respond to requests may constitute a refusal to request an attorney general's decision or a refusal to supply public information or information that the attorney general has determined is public information that is not excepted from disclosure.

*Gov't Code 552.2211*

Methods of Production

An officer for public information complies with the requirement to promptly produce public information by:

1. Providing the information for inspection or duplication in the offices of a district. The Public Information Act does not authorize a requestor to remove an original copy of a public record from the office of a district;
2. Sending copies of the information by first class United States mail, if the requestor requests that copies be provided and pays the postage and any other applicable charges that the requestor has accrued under Government Code Chapter 552, Subchapter F [see Authorized Costs and Charges, below]; or
3. Referring a requestor to an exact internet location or uniform resource locator (URL) address on a website maintained by the district and accessible to the public if the requested information is identifiable and readily available on that website. If the person requesting the information prefers a manner other than access through the URL, the district must supply the information in the manner described above at items 1 and 2.

If the officer for public information provides by email an internet location or URL address as permitted by item 3, above, the email must contain a statement in a conspicuous font clearly indicating that the requestor may nonetheless access the requested information by inspection or duplication or by receipt through United States mail, as described above at items 1 and 2.

*Gov't Code 552.221(b)-(b-2), .226*

Inspection and  
Duplication  
Procedures

A district may promulgate reasonable rules of procedure under which public information may be inspected and copied efficiently, safely, and without delay. These rules may not be inconsistent with any provision of the Public Information Act. *Gov't Code 552.230*

The officer for public information or agent shall give the requestor all reasonable comfort and facility for the full exercise of the right granted by the Public Information Act. *Gov't Code 552.224*

*Time For District  
to Provide Copies*

It shall be a policy of a district to provide a suitable copy of public information within a reasonable time after the date on which the copy is requested. *Gov't Code 552.228(a)*

*Time for  
Requestor to  
Appear and  
Complete  
Inspection*

A request is considered to have been withdrawn if the requestor fails to inspect or duplicate the public information in district offices on or before the 60th day after the date the information is made available or fails to pay the postage and any other applicable charges accrued under Government Code Chapter 552, Subchapter F on or before the 60th day after the date the requestor is informed of the charges.

A requestor must complete the examination of the information not later than the tenth business day after the date the custodian of the information makes it available. If the requestor does not complete the examination within ten business days and does not file a request for additional time under Government Code 552.225(b) (described below), the requestor is considered to have withdrawn the request.

The officer for public information shall extend the initial examination period by an additional ten business days if, within the initial period, the requestor files with the officer a written request for additional time. The officer shall extend an additional examination period by another ten business days if, within the first additional period, the requestor files with the officer a written request for more additional time.

The time during which a person may examine information may be interrupted by the officer if the information is needed for use by the district. The period of interruption is not considered to be a part of the time during which the person may examine the information.

*Gov't Code 552.221(e), .225*

*Electronic Data*

If public information exists in an electronic or magnetic medium, the requestor may request a copy in an electronic medium, such as on diskette or on magnetic tape. A district shall provide a copy in the requested medium if:

1. The district has the technological ability to produce a copy of the information in the requested medium;
2. The district is not required to purchase any software or hardware to accommodate the request; and
3. Provision of a copy of the information in the requested medium will not violate the terms of any copyright agreement between the district and a third party.

If a district is unable to comply with a request to produce a copy of information in a requested medium for any of these reasons, the district shall provide a copy in another medium that is acceptable to the requestor. A district is not required to copy information onto a diskette or other material provided by the requestor but may use district supplies.

*Gov't Code 552.228(b), (c)*

Requests Requiring  
Programming or  
Data Manipulation

*Written  
Statement  
Required*

A district shall provide to a requestor a written statement, described below, if the district determines:

1. That responding to a request for information will require programming or manipulation of data; and
2. That:
  - a. Compliance with the request is not feasible or will result in substantial interference with operations; or
  - b. The information could be made available in the requested form only at a cost that covers the programming and manipulation of data.

The written statement shall include:

1. A statement that the information is not available in the requested form;
2. A description of the form in which the information is available;
3. A description of any contract or services that would be required to provide the information in the requested form;
4. A statement of the estimated cost of providing the information in the requested form, as determined in accordance with the rules established by the attorney general under Government Code 552.262; and
5. A statement of the anticipated time required to provide the information in the requested form.

*Time For  
Programming or  
Manipulation  
Statement*

A district shall provide the written statement to the requestor within 20 days after the date the district receives the request. The district has an additional ten days to provide the statement if the district gives written notice to the requestor, within 20 days after receiving the request, that additional time is needed.

*Requestor Reply  
Required*

On providing the written statement described above, the district does not have any further obligation to provide the information in the requested form or in the form in which it is available, unless within 30 days the requestor states in writing that the requestor:

1. Wants the district to provide the information in the requested form according to the cost and time parameters set out in the written statement or according to other terms to which the requestor and the district agree; or
2. Wants the information in the form in which it is available.

If a requestor does not make a timely written statement to the district, the requestor is considered to have withdrawn the request for information.

*Processing  
Procedures and  
Recordkeeping*

The officer for public information shall establish policies that assure the expeditious and accurate processing of requests for information that require programming or manipulation of data. A district shall maintain a file containing all written statements issued concerning responding to requests for information that require programming or manipulation of data in a readily accessible location.

*Gov't Code 552.231*

Repetitious or  
Redundant  
Requests

A district that determines a requestor has made a request for information for which the district has previously furnished or made copies available to the requestor on payment of applicable charges must respond to the request, in relation to the information for which copies have already been furnished or made available, except that:

1. The district is not prohibited from furnishing the information or making the information available to the requestor again in accordance with the request; and
2. The district is not required to comply with these provisions in relation to information that the district simply furnishes or makes available to the requestor again in accordance with the request.

*Gov't Code 552.232(a)*

These provisions do not apply to information not previously furnished to a requestor or made copies available to the requestor on payment of applicable charges.

A request by the requestor for information for which copies have not previously been furnished or made available to the requestor, including information for which copies were not furnished or made available because the information was redacted from other information that was furnished or made available or because the information did not exist at the time of an earlier request shall be treated in the same manner as any other request for public information under the Public Information Act.

*Gov't Code 552.232(d)*

*Certification of  
Previous  
Production*

A district shall certify to the requestor that copies of all or part of the requested information were previously furnished or made available to the requestor. The certification must include:

1. A description of the information for which copies have been previously furnished or made available to the requestor;

2. The date the district received the requestor's original request for that information;
3. The date the district previously furnished copies or made available copies of the information to the requestor;
4. A certification that no subsequent additions, deletions, or corrections have been made to that information; and
5. The name, title, and signature of the officer for public information or agent making the certification.

A charge may not be imposed for making and finishing this certification.

**Withholding  
Excepted  
Information**

Request for  
Attorney General  
Decision Required

A district that receives a written request for information that it wishes to withhold from public disclosure and that it considers to be within one of the exceptions to required disclosure under Government Code Chapter 552, Subchapter C [see GBA] must ask for a decision from the attorney general about whether the information is within that exception if there has not been a previous determination about whether the information falls within one of the exceptions [see Request for Attorney General Decision Not Required, below]. A district may only request an attorney general decision if the district reasonably believes that the requested information is excepted from required disclosure. *Gov't Code 552.301(a); Atty. Gen. ORD 665 (2000)*

*Consequences of  
Missed Deadlines*

If a district does not request an attorney general decision and provides the requestor with the information required by Government Code 552.301(d) and (e-1) [see Information to Requestor, below], the information requested in writing is presumed to be subject to public disclosure and must be released unless there is a compelling reason to withhold it. *Gov't Code 552.302*

*Request and  
Submissions to  
Attorney General*

The district must ask for the attorney general's decision and state the exceptions that apply within a reasonable time but not later than the tenth business day after the date of receiving the written request.

When a district requests an attorney general decision, it shall, within a reasonable time but not later than the 15th business day after receiving the request for information, submit to the attorney general all of the following:

1. Written comments stating the reasons why the stated exceptions apply that would allow the information to be withheld;
2. A copy of the written request for information;

3. A signed statement as to the date on which the written request for information was received by the district or evidence sufficient to establish that date; and
4. A copy of the specific information requested, or representative samples of the information if a voluminous amount of information was requested. The district shall label the copies or representative samples to indicate which exceptions apply to which parts of the copy.

*Gov't Code 552.301(b), (e)*

*Information to  
Requestor*

A district that requests an attorney general decision shall provide to the requestor within a reasonable time but not later than the tenth business day after the date of receiving the requestor's written request:

1. A written statement that the district wishes to withhold the requested information and has asked for a decision from the attorney general about whether the information is within an exception to public disclosure; and
2. A copy of the district's written communication to the attorney general asking for the decision. If a district's written communication to the attorney general discloses the requested information, the district shall provide a redacted copy of that written communication.

The district shall send a copy of the comments to the requestor not later than the 15th business day after the district receives the written request. If the written comments disclose or contain the substance of the information requested, the copy of the comments provided to the requestor shall be redacted.

*Gov't Code 552.301(d), (e-1)*

*Calculating  
Timeliness*

For the purposes of Government Code Chapter 552, Subchapter G (Attorney General Decisions), if a district receives a written request by United States mail and cannot adequately establish the actual date of receipt, the request is considered to have been received by the district on the third business day after the date of the postmark on a properly addressed request. *Gov't Code 552.301(a-1)*

When Government Code Chapter 552, Subchapter G requires a request, notice, or other document to be submitted or otherwise given to the attorney general within a specified period, the requirement is met in a timely fashion if the district submits the document through the attorney general's designated electronic filing system within that period. This provision does not affect the right of a dis-

trict to submit information to the attorney general by specified methods of mail under Government Code 552.308.

When the attorney general is required to deliver a notice, decision, or other document within a specified period, the requirement is met in a timely fashion if the attorney general electronically transmits the document within that period.

For information surrendered or returned to a district by a temporary custodian, the district is considered to receive the request for that information on the date the information is surrendered or returned to the district. [See GB]

*Gov't Code 552.233(d), .309*

When Government Code Chapter 552, Subchapter G requires a request, notice, or other document to be submitted or otherwise given to a person within a specified period, the requirement is met in a timely fashion if the document is sent to the person by first class United States mail or common or contract carrier properly addressed with postage or handling charges prepaid and:

1. It bears a post office cancellation mark or a receipt mark of a common or contract carrier indicating a time within that period; or
2. The person required to submit or otherwise give the document furnishes satisfactory proof that it was deposited in the mail or with a common or contract carrier within that period.

*Gov't Code 552.308*

*Third Party  
Privacy or  
Property Interests*

In a case in which information is requested under the Public Information Act and a person's privacy or property interests may be involved, including a case under Government Code 552.101 (information confidential by law), 552.110 (trade secrets), 552.1101 (proprietary information), 552.114 (student records), 552.131 (economic development information), or 552.143 (investment information), a district may decline to release the information for the purpose of requesting a decision from the attorney general.

*Third Party  
Submissions*

A person whose interests may be involved as described above, or any other person, may submit in writing to the attorney general the person's reasons why the information should be withheld or released. A district may, but is not required to, submit its reasons why the information should be withheld or released. The proprietary information exception to disclosure provided by Government Code 552.1101(a) may be asserted only by a vendor, contractor, potential vendor, or potential contractor in the manner described by Government Code 552.305(b) for the purpose of protecting the in-

terests of the vendor, contractor, potential vendor, or potential contractor.

*Gov't Code 552.305(a)–(c), .1101(c)*

Notice to Third  
Party

If release of a person's proprietary information may be subject to exception under Government Code 552.101 (information confidential by law), 552.110 (trade secrets), 552.1101 (proprietary information), 552.113 (geological or geophysical information), 552.131 (economic development information), or 552.143 (investment information), a district that requests an attorney general decision shall make a good faith attempt to notify that person of its request. The notice must:

1. Be in writing and sent within a reasonable time not later than the tenth business day after the district receives the request for information; and
2. Include:
  - a. A copy of the written request for information, if any, received by the district; and
  - b. A statement, in the form prescribed by the attorney general, that the person is entitled to submit to the attorney general, not later than the tenth business day after the person receives the notice:
    - (1) Each reason the person has as to why the information should be withheld; and
    - (2) A letter, memorandum, or brief in support of that reason.

A person who submits a letter, memorandum, or brief to the attorney general under this provision shall send a copy of that letter, memorandum, or brief to the person who requested the information from the district. If the letter, memorandum, or brief submitted to the attorney general contains the substance of the information requested, the copy of the letter, memorandum, or brief may be a redacted copy.

*Gov't Code 552.305(d), (e)*

*Requests for  
Contracting  
Information Not  
Maintained by the  
District*

"Contracting information" means the following information maintained by a district or sent between a district and a vendor, contractor, potential vendor, or potential contractor:

1. Information in a voucher or contract relating to the receipt or expenditure of public funds by a district;

2. Solicitation or bid documents relating to a contract with a district;
3. Communications sent between a district and a vendor, contractor, potential vendor, or potential contractor during the solicitation, evaluation, or negotiation of a contract;
4. Documents, including bid tabulations, showing the criteria by which a district evaluates each vendor, contractor, potential vendor, or potential contractor responding to a solicitation and, if applicable, an explanation of why the vendor or contractor was selected; and
5. Communications and other information sent between a district and a vendor or contractor related to the performance of a final contract with the district or work performed on behalf of the district.

*Gov't Code 552.003(1-a)*

Government Code 552.371 applies to an entity that is not a governmental body that executes a contract with a district that:

1. Has a stated expenditure of at least \$1 million in public funds for the purchase of goods or services by the district; or
2. Results in the expenditure of at least \$1 million in public funds for the purchase of goods or services by the district in a fiscal year of the district.

Government Code 552.371 applies to a written request for public information received by a district that is party to a contract described above for contracting information related to the contract that is in the custody or possession of the entity and not maintained by the district.

*Gov't Code 552.371(a), (b)*

District Request  
to Contracting  
Entity

A district that receives a written request for contracting information shall request that the entity provide the information to the district. The district must send the request in writing to the party not later than the third business day after the date the district receives the written request. *Gov't Code 552.371(c)*

Requesting  
Decision About  
Contracting  
Information

A district's request for an attorney general's decision to determine whether contracting information not maintained by the district falls within an exception to disclosure under the Public Information Act is considered timely if made not later than the 13th business day after the date the district receives the written request described above. *Gov't Code 552.371(d)(1)*

The statement and copy described above [see Information to Requestor] is considered timely if provided to the requestor not later than the 13th business day after the date the district receives the written request. *Gov't Code 552.371(d)(2)*

A submission and copy described above [see Request and Submissions to Attorney General] is considered timely if sent not later than the 18th business day after the date the district receives the written request. *Gov't Code 552.371(d)(3), (4)*

The presumption that information is subject to disclosure for failing to comply with Government Code 552.301 [see Request and Submissions to Attorney General, above] does not apply if a district:

1. Complies with the requirements of Government Code 552.371(c) in a good faith effort to obtain contracting information not maintained by the district;
2. Is unable to meet a deadline because the contracting entity failed to provide the information to the district not later than the 13th business day after the date the district received the written request for the information; and
3. Complies with all notice requirements not later than the eighth business day after the date the district receives the information from the contracting entity.

*Gov't Code 552.371(e)*

Nothing in Government Code 552.371 affects the deadlines or duties of a district related to requesting an attorney general opinion regarding contracting information the district maintains. *Gov't Code 552.371(f)*

Request for  
Attorney General  
Decision Not  
Required

*Previous  
Determinations*

Same  
Information

Categories of  
Previously  
Determined  
Information

A district must release the requested information and is prohibited from asking for a decision from the attorney general about whether information requested under this chapter is within an exception under Government Code Chapter 552, Subchapter C if the district has previously requested and received a determination from the attorney general concerning the precise information at issue in a pending request and the attorney general or a court determined that the information is public information that is not excepted by Subchapter C. *Gov't Code 552.301(f)*

A district may rely on a previous determination by the attorney general regarding a specific, clearly delineated category of information if:

1. The previous decision is applicable to a school district;

2. The previous decision concludes that the category of information is or is not excepted from public disclosure;
3. The elements of law, fact, and circumstances are met to support the previous decision's conclusion that the requested records and information at issue are or are not excepted from public disclosure; and
4. The previous decision explicitly provides that the governmental body or bodies, such as the district, to which the decision applies may withhold the information without the necessity of seeking a decision from the attorney general.

*Atty. Gen. ORD 673 (2001)*

A district that relies on a previous determination to withhold information from disclosure should notify the requestor in writing of the decision or ruling upon which it is relying. *Atty. Gen. ORD 684 (2009)*

When Request  
Is Allowed for  
Previous  
Determination

A district may ask for another decision from the attorney general concerning the precise information that was at issue in a prior decision made by the attorney general if:

1. A suit challenging the prior decision was timely filed against the attorney general in accordance with the Public Information Act concerning the precise information at issue;
2. The attorney general determines that the requestor has voluntarily withdrawn the request for the information in writing or has abandoned the request; and
3. The parties agree to dismiss the lawsuit.

### **Authorized Costs and Charges**

Attorney General's  
Cost Rules

A district shall use the attorney general's rules to determine the charges for providing copies of public information and to determine the charge, deposit, or bond required for making public information that exists in a paper record available for inspection, except to the extent that other law provides for charges for specific kinds of public information. The charges for providing copies of public information may not be excessive and may not exceed the actual cost of

producing the information or for making public information that exists in a paper record available for inspection.

A district may determine its own charges for providing copies of public information and its own charge, deposit, or bond for making public information that exists in a paper record available for inspection. However, a district may not charge an amount that is greater than 25 percent more than the amount established by the attorney general, unless the district requests an exemption.

*Gov't Code 552.262(a); 1 TAC 70.1(b), .3, .10.*

*Exemption*

A district may request that it be exempt from part or all of the rules adopted by the attorney general for determining charges. The request must be made in writing to the attorney general and must state the reason for the exemption. If a district receives notice from the attorney general that an exemption has been granted, the district may amend its charges according to the attorney general's determination. *Gov't Code 552.262(c)*

Multiple Requests

All requests received in one calendar day from an individual may be treated as a single request for purposes of calculating costs. A district may not combine multiple requests from separate individuals who submit requests on behalf of an organization. *Gov't Code 552.261(e)*

Charges for  
Producing Copies

The charge for providing a copy of public information shall be an amount that reasonably includes all costs related to reproducing the information, including costs of materials, labor, and overhead.

*50 Pages or Less*

If a request is for 50 or fewer pages of paper records, the charge for providing the copy of the information may not include costs of materials, labor, or overhead, but shall be limited to the charge for each page of the paper record that is photocopied, unless the pages to be photocopied are located in two or more separate buildings that are not physically connected with each other or a remote storage facility. A connection of two buildings by a covered or open sidewalk, an elevated or underground passageway, or a similar facility is insufficient to cause the buildings to be considered separate buildings.

*Statement of  
Labor Costs*

If the charge for providing a copy of public information includes costs of labor, the requestor may require the officer for public information or agent to provide the requestor with a written statement as to the amount of time that was required to produce and provide the copy. The statement must be signed by the officer or agent, and the officer or agent's name must be typed or legibly printed below the signature. A charge may not be imposed for providing the written statement to the requestor.

<i>Accrual of Charges</i>	<p>Charges for providing a copy of public information are considered to accrue at the time the district advises the requestor that the copy is available on payment of the applicable charges.</p> <p><i>Gov't Code 552.261(a)–(d)</i></p>
<i>Deposit or Bond for Copies</i>	<p>The officer for public information or agent may require a deposit or bond for payment of anticipated costs for the preparation of a copy of public information if:</p> <ol style="list-style-type: none"><li>1. The officer or agent has provided the requestor with the written itemized statement required by Government Code 552.2615 (itemized estimate of charges, below); and</li><li>2. The charge for providing the copy is estimated by the district to exceed \$100, if the district has more than 15 full-time employees, or \$50, if the district has fewer than 16 full-time employees.</li></ol> <p>The officer or agent may not require a deposit or bond as a down payment for copies of public information that the requestor may request in the future.</p> <p><i>Gov't Code 552.263(a), (b)</i></p>
<i>Effect on Timelines</i>	<p>For purposes of Government Code Chapter 552, Subchapters F (Charges for Providing Copies of Public Information) and G (Attorney General Decisions), a request for a copy of public information is considered to have been received by the district on the date the district receives the deposit or bond for payment of anticipated costs or unpaid amounts if the officer for public information or agent requires a deposit or bond.</p> <p>A requestor who fails to make such a deposit or post such a bond for payment of anticipated costs for the preparation of copies before the tenth business day after the date the deposit or bond is required is considered to have withdrawn the request for the copy of public information that precipitated the requirement of the deposit or bond.</p> <p><i>Gov't Code 552.263(e), (f)</i></p>
<i>Modified Request</i>	<p>If a requestor modifies a request in response to the requirement of a deposit or bond, the modified request is considered a separate request and is considered received on the date the district receives the written modified request. <i>Gov't Code 552.263(e-1)</i></p>
<i>Unpaid Amounts</i>	<p>The officer for public information or agent may require a deposit or bond for payment of unpaid amounts the requestor owes a district in relation to previous public information requests before preparing a copy of public information in response to a new request, if those</p>

unpaid amounts exceed \$100. The officer for public information or agent may not seek payment of those unpaid amounts through any other means.

*Documentation of Unpaid Amounts*

A district must fully document the existence and amount of those unpaid amounts or the amount of any anticipated costs before requiring a deposit or bond. The documentation is subject to required public disclosure.

*Gov't Code 552.263(c), (d)*

*Pre-Payments*

A district that receives a request from a requestor to produce public information for inspection or publication or to produce copies of public information in response to a requestor who, within the preceding 180 days, has accepted but failed to pay written itemized statements of estimated charges from the district as provided under Government Code 552.261(b) (statement of labor costs, above) may require the requestor to pay the estimated charges for the request before the request is fulfilled. *Gov't Code 552.2661*

*Waivers*

A district shall provide a copy of public information without charge or at a reduced charge if the district determines that waiver or reduction of the charge is in the public interest because providing the information primarily benefits the general public.

If the cost to a district of processing the collection of a charge for providing a copy of public information will exceed the amount of the charge, the district may waive the charge.

*Gov't Code 552.267*

*District Publications*

Government Code Chapter 552, Subchapter F (charges for providing copies of public information) does not apply to a publication that is compiled and printed by or for a district for public dissemination. If the cost of the publication is not determined by state law, a district may determine the charge for providing the publication. This provision does not prohibit the district from providing the publication free of charge if state law does not require that a certain charge be made. *Gov't Code 552.270*

*Copies for Parents*

A district may charge a reasonable fee in accordance with the above requirements for copies of materials provided to parents pursuant to Education Code Chapter 26. *Education Code 26.012*

Charges for Inspection Without Copies

If the requestor does not request a copy of public information, a district may not impose a charge for making available for inspection any public information that exists in a paper record, except as set forth below.

ACCESS TO PUBLIC INFORMATION  
REQUESTS FOR INFORMATION

GBAA  
(LEGAL)

*Copy of Edited  
Page*

If a page contains confidential information that must be edited from the record before the information can be made available for inspection, the district may charge for the cost of making a photocopy of the page from which the confidential information must be edited. No charge other than the cost of the photocopy may be imposed.

*Payment,  
Deposit, or Bond  
for Inspections*

The officer for public information or agent may require a requestor to pay, or to make a deposit or post a bond for the payment of, anticipated personnel costs for making available for inspection public information that exists in paper records if:

1. The information specifically requested by the requestor is older than five years or completely fills, or when assembled will completely fill, six or more archival boxes; and
2. The officer for public information or agent estimates that more than five hours will be required to make the information available for inspection.

*Gov't Code 552.271(a)–(c)*

*Exception for  
Certain Small  
Districts*

If a district has fewer than 16 full-time employees, the payment, deposit, or bond may be required only if:

1. The information specifically requested by the requestor is older than three years or completely fills, or when assembled will completely fill, three or more archival boxes; and
2. The officer for public information or agent estimates that more than two hours will be required to make the information available for inspection.

*Gov't Code 552.271(d)*

*Inspection of  
Electronic  
Records*

In response to a request to inspect information that exists in an electronic medium and that is not available directly online to the requestor, a charge may not be imposed for access to the information unless complying with the request will require programming or manipulation of data. If programming or manipulation of data is required, a district shall notify the requestor before assembling the information and provide the requestor with an estimate of charges that will be imposed to make the information available [see also Requests Requiring Programming or Data Manipulation, above].

If public information exists in an electronic form on a computer owned or leased by a district and if the public has direct access to that computer through a computer network or other means, the electronic form of the information may be electronically copied from that computer without charge if accessing the information does not require processing, programming, or manipulation on the district-

owned or district-leased computer before the information is copied. If such information also requires processing, programming, or manipulation before it can be electronically copied, a district may impose charges.

If information is created or kept in an electronic form, a district is encouraged to explore options to separate confidential information from public information and make the public information available to the public through electronic access through a computer network or by other means.

*Gov't Code 552.272*

Itemized Estimate  
of Charges

If a request for a copy of public information will result in the imposition of a charge that exceeds \$40, or a request to inspect a paper record without requesting copies will result in the imposition of a charge that exceeds \$40, a district shall provide the requestor with a written itemized statement that details all estimated charges that will be imposed, including any allowable charges for labor or personnel costs. If an alternative less costly method of viewing the records is available, the statement must include a notice that the requestor may contact the district regarding the alternative method. A district must inform the requestor of the responsibilities imposed on the requestor by Government Code 552.2615 and the rights granted by that section and give the requestor the information needed to respond as detailed in Government Code 552.2615(a).

If, after a district provides the requestor the itemized statement but before it makes the copy or the paper record available, the district determines that the estimated charges will exceed the charges detailed in the original itemized statement by 20 percent or more, the district shall send to the requestor an updated written itemized statement that details all estimated charges that will be imposed, including any allowable charges for labor or personnel costs.

*Requestor's  
Response*

A request for which a district is required to produce an (original or updated) itemized statement of estimated charges is considered to have been withdrawn if the requestor does not respond in writing to the itemized statement by informing the district within ten business days after the date the statement is sent to the requestor that:

1. The requestor will accept the estimated charges;
2. The requestor is modifying the request in response to the itemized statement; or
3. The requestor has sent to the attorney general a complaint alleging that the requestor has been overcharged for being provided with a copy of the public information.

*Actual Charges* If the actual charges exceed \$40, the charges may not exceed:

1. The amount estimated in the updated itemized statement; or
2. If an updated itemized statement is not sent to the requestor, an amount that exceeds by 20 percent or more the amount estimated in the original itemized statement.

*No Effect on Deadlines To Request Attorney General Decision* An original or updated itemized statement is considered to have been sent by a district, and a requestor is considered to have responded to the statement, on the date that the statement or response is:

1. Delivered in person;
2. Deposited, properly addressed, in the United States mail; or
3. Transmitted by electronic mail or facsimile, provided the requestor agrees to receive the statement by those means.

The time deadlines for providing or responding to the required statement of estimated charges do not affect the application of a time deadline imposed on a district for requesting a decision by the attorney general under Government Code Chapter 552, Subchapter G.

*Gov't Code 552.2615*

**Temporary Suspension of Requirements for Districts Impacted by Catastrophe** The requirements of the Public Information Act do not apply to a district that is currently significantly impacted by a catastrophe such that the catastrophe directly causes the inability of the district to comply with the requirements of the PIA and the district complies with requirements below to elect a suspension period.

“Catastrophe” means a condition or occurrence that directly interferes with the ability of a district to comply with the requirements of the PIA, including:

1. Fire, flood, earthquake, hurricane, tornado, or wind, rain, or snow storm;
2. Power failure, transportation failure, or interruption of communication facilities;
3. Epidemic; or
4. Riot, civil disturbance, enemy attack, or other actual or threatened act of lawlessness or violence.

“Catastrophe” does not mean a period when staff is required to work remotely and can access information responsive to an appli-

	<p>cation for information electronically, but the physical office of the governmental body is closed.</p> <p>“Suspension period” means the period of time during which a district may suspend the applicability of the requirements of the Public Information Act.</p>
Initial Suspension Period	<p>A district may suspend the applicability of the Public Information Act to the district for an initial suspension period only once for each catastrophe, which may not exceed seven consecutive days and must occur during the period that:</p> <ol style="list-style-type: none"><li>1. Begins not earlier than the second day before the date the district submits notice to the attorney general; and</li><li>2. Ends not later than the seventh day after the date the district submits that notice.</li></ol>
Extension of Initial Suspension Period	<p>A board may extend an initial suspension period if the board determines that the district is still impacted by the catastrophe on which the initial suspension period was based. The initial suspension period may be extended one time for not more than seven consecutive days that begin on the day following the day the initial suspension period ends.</p>
Maximum Suspension Period Per Catastrophe	<p>A board that initiates an initial suspension period may not initiate another suspension period related to the same catastrophe, except for a single extension period as described above.</p> <p>The combined suspension period for a district filing for both an initial suspension period and a subsequent extension may not exceed a total of 14 consecutive calendar days with respect to any single catastrophe.</p> <p>Upon conclusion of any suspension period the district shall immediately resume compliance with all requirements of the Public Information Act.</p>
Notices to the Attorney General	<p>A district that elects to suspend the Public Information Act must submit notice to the attorney general that the district is currently impacted by a catastrophe and has elected to suspend the applicability of the PIA during the initial suspension period.</p> <p>A board that elects to extend an initial suspension period must submit notice of the extension on the form prescribed by the attorney general.</p> <p>The notices on the form prescribed by the attorney general must require the district to:</p>

1. Identify and describe the catastrophe that the district is currently impacted by;
2. State the date the initial suspension period determined by the board begins and the date that period ends;
3. If the board has determined to extend the initial suspension period:
  - a. State that the district continues to be impacted by the catastrophe; and
  - b. State the date the extension to the initial suspension period begins and the date the period ends; and
4. Provide any other information the office of the attorney general determines necessary.

**Notice to the Public** A district that elects to suspend the Public Information Act must provide notice to the public of the suspension in a place readily accessible to the public and in each other location the district is required to post a notice under Government Code Chapter 551, Subchapter C (Notice of Meetings). The district must maintain the notice of the suspension during the suspension period.

**Requests During Suspension Period** Notwithstanding another provision of the Public Information Act, a request for public information received by a district during a suspension period is considered to have been received by the district on the first business day after the date the suspension period ends.

**Pending Requests Tolloed** A request for public information received by a district before the date an initial suspension period begins are tolloed until the first business day after the date the suspension period ends.

*Gov't Code 552.2325(a)-(j), (l), (m)*

**Large or Frequent Requests** A district may establish reasonable monthly and yearly limits on the amount of time that district employees are required to spend producing public information for inspection or duplication by a requestor, or providing copies of public information to a requestor, without recovering its costs attributable to that personnel time. A yearly time limit may not be less than 36 hours for a requestor during the 12-month period that corresponds to a district's fiscal year. A monthly time limit may not be less than 15 hours for a requestor for a one-month period.

*Request by Minor* In determining whether a time limit applies, any time spent complying with a request submitted in the name of a minor, as defined by Family Code 101.003(a), is to be included in the calculation of the cumulative amount of time spent complying with a request for public information by a parent, guardian, or other person who has con-

trol of the minor under a court order and with whom the minor resides, unless that parent, guardian, or other person establishes that another person submitted that request in the name of the minor.

*Gov't Code 552.275(a), (b), (c)*

Written Statement  
of Cumulative  
Personnel Time

If a district establishes a time limit, each time the district complies with a request for public information, the district shall provide the requestor with a written statement of the amount of personnel time spent complying with that request and the cumulative amount of time spent complying with requests for public information from that requestor during the applicable monthly or yearly period. The amount of time spent preparing the written statement may not be included in the amount of time included in the statement to the requestor. *Gov't Code 552.275(d)*

*Written Estimate  
of Charges  
Beyond Time  
Limit*

Subject to unpaid cost estimates for large and frequent requests, as described below, if in connection with a request for public information, the cumulative amount of personnel time spent complying with requests for public information from the same requestor equals or exceeds the district-established time limit, the district shall provide the requestor with a written estimate of the total cost, including materials, personnel time, and overhead expenses, necessary to comply with the request. The written estimate must be provided to the requestor on or before the tenth day after the date on which the public information was requested. The amount of this charge relating to the cost of locating, compiling, and producing the public information shall be established by rules prescribed by the attorney general under Government Code 552.262(a) and (b).

Additional Time

If a district provides the requestor with written notice that additional time is required to prepare the written estimate, the district must provide the written estimate as soon as practicable, but on or before the tenth day after the date the district provided the notice that additional time was required.

*Gov't Code 552.275(e), (f)*

Unpaid Cost  
Estimate

When a request is made by a requestor who has made a previous request to the district that has not been withdrawn, for which the district has located and compiled documents in response, and for which the district has issued a written estimate of charges that remains unpaid on the date the requestor submits the new request, the district is not required to locate, compile, produce, or provide copies of documents or prepare an estimate of charges in response to a new request until the date the requestor pays each unpaid statement issued in connection with a previous request or

withdraws the previous request to which the statement applies.  
*Gov't Code 552.275(e-1)*

*Production Not  
Required Until  
Payment*

If a district provides a requestor with the estimate of charges and the district's time limits regarding the requestor have been exceeded, the district is not required to produce public information for inspection or duplication or to provide copies of public information in response to the requestor's request unless on or before the tenth day after the date the district provided the written estimate, the requestor submits payment of the amount stated in the written estimate.

If the requestor fails or refuses to submit payment, the requestor is considered to have withdrawn the request.

*Gov't Code 552.275(g)-(h)*

*Exceptions*

The provisions above concerning requests that require large amounts of employee or personnel time do not apply if the requestor is:

1. An individual who, for a substantial portion of the individual's livelihood or for substantial financial gain, gathers, compiles, prepares, collects, photographs, records, writes, edits, reports, investigates, processes, or publishes news or information for and is seeking the information for:
  - a. Dissemination by a news medium or communication service provider (as defined by Government Code 552.275(m)), including:
    - (1) An individual who supervises or assists in gathering, preparing, and disseminating the news or information; or
    - (2) An individual who is or was a journalist, scholar, or researcher employed by an institution of higher education at the time the person made the request for information; or
  - b. Creation or maintenance of an abstract plant as described by Insurance Code 2501.004.
2. An elected official of the United States, this state, or a political subdivision of this state.
3. A representative of a publicly funded legal services organization that is exempt from federal income taxation under Internal Revenue Code 501(a), as amended, by being listed as an exempt entity under 501(c)(3) of that code.

*Gov't Code 552.275(j)-(l)*

**Filing Suit to  
Challenge Attorney  
General's Decision**

The only suit a district may file seeking to withhold information from a requestor is a suit that:

1. Is filed in a Travis County district court against the attorney general in accordance with Government Code 552.325, and
2. Seeks declaratory relief from compliance with a decision by the attorney general issued under Government Code Chapter 552, Subchapter G.

The district must bring the suit not later than the 30th calendar day after the date the district receives the attorney general's decision determining that the requested information must be disclosed to the requestor. If the district does not bring suit within that period, the district shall comply with the decision of the attorney general.

Exception for  
Affirmative  
Defenses

If the district wishes to preserve an affirmative defense for its officer for public information as provided by Government Code 552.353(b)(3), the district must file suit not later than the tenth calendar day after receipt of the attorney general's decision.

*Gov't Code 552.324, .353(b)(3)*

Suits Over Parent's  
Request

A district that seeks to withhold information from a parent who has requested public information relating to the parent's child under the Public Information Act, and that files suit as described by Government Code 552.324 to challenge a decision by the attorney general, must bring the suit not later than the 30th calendar day after the date the district receives the decision of the attorney general, unless an earlier deadline is established by the Public Information Act.

A court shall grant such a suit precedence over other pending matters to ensure prompt resolution of the subject matter of the suit. Notwithstanding any other law, a district may not appeal the decision of the court. This prohibition does not affect the right of a parent to appeal the decision. If a district does not bring suit within the period established, the district shall comply with the decision of the attorney general.

This provision does not affect the earlier deadline for purposes of Government Code 532.353(b)(3) (exception for affirmative defenses, above) for a suit brought by an officer for public information.

**Note:** The following legal provisions address the notification requirements and right of access to students when DFPS investigates reports of abuse and neglect at school. For additional legal provisions addressing reporting child abuse and neglect and investigations generally, see FFG.

---

**Child Protective Investigations**

A Texas Department of Family and Protective Services (DFPS) investigation of a report of child abuse or neglect under Family Code Chapter 261 may include an interview and examination of the subject child, which may be conducted at any reasonable time and place, including the child's school. A school official may not deny the request of an investigator, investigating a report of suspected child abuse or neglect, to interview, at school, a student who is an alleged victim. A school official may not condition granting the request on a requirement that school personnel, such as a counselor, attend the interview. *Family Code 261.302(a), (b); Atty. Gen. Op. DM-476 (1998)*

A person that has confidential locating or identifying information regarding a family that is the subject of an investigation under Family Code Chapter 261 shall release that information to DFPS on request. The release of information to DFPS by a person is not subject to Government Code 552.352 or any other law providing liability for the release of confidential information. *Family Code 261.303(e)*

**Special Investigations**

On receipt of a report of alleged or suspected child abuse or neglect in a public school, DFPS shall perform an investigation as provided by Family Code Chapter 261 and the rules adopted thereunder.

The Special Investigations program (SI) of the Child Protective Investigations division (CPI) of DFPS investigates allegations of abuse or neglect of a child by school personnel or volunteers in a school setting.

*Family Code 261.406(a); 40 TAC 707.597-.625*

Definitions

"School personnel and volunteers" means persons who have access to children in a school setting and are providing services to or caring for the children. School personnel include but are not limited to school employees, contractors, school volunteers, school bus drivers, school cafeteria staff, and school custodians.

"School setting" means the physical location of a child's school or of an event sponsored or approved by the child's school, or any other location where the child is in the care, custody, or control of

school personnel in their official capacity, including transportation services. This does not include:

1. School settings involving only children in facilities regulated by the Texas Health and Human Services Commission (HHSC) when HHSC contracts with the local school district to provide education services; or
2. School settings that are a part of child care operations regulated by the Child Care Licensing division of HHSC.

*40 TAC 707.605(6)–(7)*

Notice to School  
Personnel

Prior to conducting an investigation of school personnel or volunteers, SI shall notify the school principal (or the principal's supervisor if the school principal is an alleged perpetrator) of the fact that a report has been assigned for investigation, the nature of the allegations contained in the report, and the date and time SI plans to visit the school campus to begin the investigation.

SI must also orally notify the superintendent about the investigation.

SI must request that the school personnel notified of the investigation not alert the alleged perpetrator or others regarding the report until SI has had an opportunity to interview the alleged perpetrator.

*Family Code 261.105(d); 40 TAC 707.615*

No Interference with  
Investigation

School officials or other persons related to the school setting may not interfere with an investigation of a report of child abuse or neglect conducted by DFPS.

Interviews on  
School Premises

Interviews and examinations in a school investigation may take place on or off the school premises, as deemed appropriate by SI, pursuant to all applicable standards. SI will notify appropriate school personnel prior to conducting an interview or visual inspection on school premises.

Presence of School  
Personnel

SI may request that school personnel or volunteers not be present during the interview or visual inspection of an alleged victim, an alleged perpetrator, an adult or child witness, or any other person who may have information relevant to the investigation if the investigator determines that:

1. The presence of school personnel or volunteers would compromise the integrity of the investigation; or
2. A better interview or examination of the child would result without school personnel or volunteers being present.

*Family Code 261.303(a); 40 TAC 707.619(a)*

**Report of Findings** After the completion of an investigation, SI must provide a report of the investigation, redacted to remove the identity of the reporter, to the Texas Education Agency (Director of Education Investigations) for an investigation concerning an employee of the district. On request, SI shall provide a redacted copy of the report to the following:

1. State Board for Educator Certification;
2. The president of the school board;
3. The superintendent; and
4. The school principal, unless the principal is the alleged perpetrator.

SI is not required to provide notice to a school official if it administratively closes a report of abuse or neglect prior to notifying school officials that DFPS received a report of abuse or neglect in the school setting.

*Family Code 261.406(b); 40 TAC 707.623*

**Prohibited Law  
Enforcement  
Citations**

For this provision, a “school offense” means an offense committed by a child enrolled in a public school that is a Class C misdemeanor other than a traffic offense and that is committed on property under the control and jurisdiction of a school district. “Child” means a person who is a student and at least ten years of age and younger than 18 years of age.

A peace officer, law enforcement officer, or school resource officer may not issue a citation to a child who is alleged to have committed a school offense. Education Code Chapter 37, Subchapter E-1 (Criminal Procedure) does not prohibit a child from being taken into custody under Family Code 52.01 (described below).

*Education Code 37.141, .143*

**Students Taken into  
Custody**

For the following provisions, “child” means a person who is:

1. Ten years of age or older and under 17 years of age, or
2. Seventeen years of age or older and under 18 years of age who is alleged or found to have engaged in delinquent conduct or conduct indicating a need for supervision as a result of acts committed before becoming 17 years of age.

*Family Code 51.02(2)*

A child may be taken into custody under Family Code Title 3 (Juvenile Justice Code):

RELATIONS WITH GOVERNMENTAL ENTITIES  
STATE AND LOCAL GOVERNMENTAL AUTHORITIES

GRA  
(LEGAL)

1. Pursuant to an order of the juvenile court.
2. Pursuant to the laws of arrest.
3. By a law enforcement officer, including a school district peace officer, if there is probable cause to believe the student has engaged in a criminal violation, delinquent conduct, conduct indicating a need for supervision, or conduct that violates a condition of probation.
4. By a probation officer, if there is probable cause to believe the student has violated a condition of probation or a condition of release.
5. Pursuant to a directive to apprehend issued by a juvenile court.
6. By a law enforcement officer, to take the child's fingerprints or photograph, as set forth at Family Code 58.0021.

*Family Code 52.01(a), 58.0021*

In addition, a child may be taken into custody without a court order:

1. By an authorized representative of the DFPS, a law enforcement officer, or a juvenile probation officer under the conditions set out in Family Code 262.104, relating to the student's physical health or safety; or
2. As otherwise provided by Family Code Chapter 262 (Suit by Governmental Entity to Protect Health and Safety of Child).

*Family Code Ch. 262*

**Students in Custody**

A person taking a child into custody may, if school is in session and the child is a student, bring the child to the campus to which the child is assigned if the principal, the principal's designee, or a peace officer assigned to the campus agrees to assume responsibility for the child for the remainder of the school day. *Family Code 52.02(a)(7)*

### RECOMMENDED ACTION

**For Presentation/Discussion only; action will be requested at the September 18, 2024 Board Meeting.**

### RATIONALE

TASB regularly sends updates of legal and local policy reflective of legislative changes, court cases, Commissioner's rulings, letters, etc. Update 122 includes revisions to local policies as a result of changes implemented during the 88<sup>th</sup> Regular Legislative Session and changes to the Texas Administrative Code. The legal policies are also being updated due to changes from the legislative session.

For a detailed summary of the recommended changes see the Update 122 packet, explanatory notes, and local policy comparison packet. Below is a summary of the recommended changes to local policies.

CQB(LOCAL): TECHNOLOGY RESOURCES – CYBERSECURITY - Based on the new notification requirements imposed by SB 271, the security breach notification provisions have been revised to include security incidents.

CSA(LOCAL): FACILITY STANDARDS - SAFETY AND SECURITY - This new local policy on facility safety and security includes recommended provisions addressing audits of building access control to comply with the commissioner's new school safety rules for facilities, effective May 31, 2023.

DC(LOCAL): EMPLOYMENT PRACTICES - HB 1789 creates a nepotism exception for hiring bus drivers, regardless of county population, if the board approves employment. We recommend adding a note referring to DBE(LEGAL) (concerning nepotism) to this policy that delegates hiring authority for noncontractual employees to the superintendent as a reminder of the special requirements related to this nepotism exception for bus drivers.

EHB(LOCAL): CURRICULUM DESIGN - SPECIAL PROGRAMS – New provisions are recommended to comply with HB 3928, which requires the board to adopt and implement a policy requiring the district

to comply with all rules and standards adopted by the SBOE and guidance published by the commissioner to implement the program to test students for dyslexia and related disorders.

**EHBC(LOCAL): SPECIAL PROGRAMS - COMPENSATORY SERVICES AND INTENSIVE PROGRAMS** – This local policy containing provisions on accelerated instruction has been moved to EHBCA(LOCAL) (see below) to align with the legal policy created at that code in Update 121.

**EHBCA(LOCAL): COMPENSATORY SERVICES AND INTENSIVE PROGRAMS - ACCELERATED INSTRUCTION** - This local policy has been recoded from EHBC(LOCAL) to align with EHBCA(LEGAL) created in Update 121. HB 1416 made several changes to the requirements for accelerated instruction. Recommended changes to this local policy reflect that a parent's ability to request a particular teacher after a student fails to perform satisfactorily on a state assessment is no longer limited to students in grades 3, 5, and 8. Other changes delete references to the accelerated learning committee, which has been eliminated. A district now must develop an accelerated learning plan for certain students, and parents still may file a complaint about the plan in accordance with FNG.

**FEA(LOCAL): ATTENDANCE - COMPULSORY ATTENDANCE** – SB 68 allows a district to excuse a student from attending school for career investigation days to visit a professional's workplace during the student's junior and senior years to determine the student's interest in a career in the professional's field. Districts that choose to excuse students for absences to visit a professional's workplace to explore a career in that professional's field must adopt a policy to determine when an absence will be excused for this purpose and a procedure to verify the visit. A new provision offered for the board's consideration at Career Investigation permits such absences for the maximum amount allowed in law — up to two days during a student's junior year and up to two days during the student's senior year. Contact your policy consultant for revisions if the district will allow fewer excused absences or will not allow any excused absences for this purpose.

**FFAC(LOCAL): WELLNESS AND HEALTH SERVICES - MEDICAL TREATMENT** - Recommended revisions to the provisions on opioid antagonists are based on SB 629, which requires a district to have at least one person who is authorized and trained to administer the medication present during regular school hours on each campus that serves grades 6 through 12. The district's current language does not limit administration of the opioid antagonist medication to specific grade levels or campuses; therefore, the revisions state that the provision will be applicable to every campus. If the district wishes to implement this policy only for campuses with certain grade levels, contact the district's policy consultant for appropriate adjustments.

**FFB(LOCAL): STUDENT WELFARE - CRISIS INTERVENTION** - Recommended revisions to this local policy on crisis intervention include the following: • In accordance with HB 3, provisions have been added at Student Reports to require each campus to establish a clear procedure for students to report concerning behavior by another student. • Revisions at Employee Confidentiality are based on SB 1720 and allow employees who report a potential threat to elect to keep their identities confidential.

**FL(LOCAL): STUDENT RECORDS** - HB 1416 repeals provisions related to accelerated learning committees. The references to the accelerated learning committee have been replaced with references to the

accelerated education plan that now must be created for certain students who fail to perform satisfactorily on state assessments.

The changes in policy DEC (LOCAL) were also recommended as a part of Update 122; however, this policy was presented at the July 17, 2024 board meeting and will presented in the consent agenda separately at the August 21, 2024 board meeting.

## **(LEGAL) vs. (LOCAL): Remember the Difference**

Legal policies:

- Reflect the ever-changing legal context for governance and management of the district
- Inform local decision making
- Are NOT adopted, but only reviewed

Local policies:

- Require close attention by the administration and the board
- Reflect the practices of the district and the intentions of the board
- Are changed only by board action (adopt, revise, or repeal)

## **Keep Your Administrative Regulations Current**

[Regulations Resource Manual](#)<sup>6</sup> Update 68, which includes revisions to model regulations and forms corresponding with Update 122, is now available through the Governance and Management Library (*TASB login required*).

Inspect your district's administrative procedures and documents — including exhibits, regulations, handbooks, and guides — that may be affected by Update 122 policy changes.

If you need to make changes to the regulations or exhibits contained in your board policy manual, please notify your policy consultant.

### Lake Travis ISD

#### ATTN(NOTE)

#### GENERAL INFORMATION ABOUT THIS UPDATE

##### Please note:

Changes at Update 122 are based almost exclusively on legislation from the 88th Regular Legislative Session.

Unless otherwise noted, references to legislative bills throughout these explanatory notes refer to Senate Bills (SB) or House Bills (HB) from the 88th Regular Legislative Session. All referenced bills have already gone into effect unless otherwise noted.

Each regular legislative session, legislation is passed that makes nonsubstantive additions, revisions, or corrections to existing statutes. HB 4595 was passed for this purpose in the 88th Regular Legislative Session. Minor nonsubstantive changes throughout Update 122 result from HB 4595 and are not otherwise mentioned in the explanatory notes.

For more information about the bills mentioned throughout and other changes from the 88th Legislative Session, download the free [2023 Legislative Summary for TASB Members](#) PDF from the TASB store.

The *Local Policy Overview* for Update 122, available with your Update 122 materials under [Local Manual Updates](#) on Policy Online® (TASB login required), provides a general, high-level overview of the changes to the local policies included in the update. **Legal policies provide the legal framework for key areas of district operations and are not adopted by the board.**

Changes to the policy manual based on bills from the special called sessions will be included in Update 123.

#### BBBA(LEGAL)

#### ELECTIONS: CONDUCTING ELECTIONS

HB 1217 repeals Election Code provisions creating different requirements for days and hours of early voting at temporary branch polling places in counties with a population under 100,000. The same requirements now apply regardless of county size.

#### BBBB(LEGAL)

#### ELECTIONS: POST-ELECTION PROCEDURES

HB 2559 adds retired justices of the peace, the comptroller of public accounts, and former comptrollers to the list of persons authorized to administer an oath in Texas. Because this legal policy includes only the four broadest categories of authorized persons, it has been amended to include retired justices of the peace. (See Oath of Office on page 4.)

#### **BBBC(LEGAL) ELECTIONS: CAMPAIGN FINANCE**

HB 2626 requires all districts, regardless of size, to post campaign finance reports filed with the district on the district website not later than the 10th business day after receipt. Certain address information may be removed before posting, and the reports must remain accessible on the website for five years.

#### **BE(LEGAL) BOARD MEETINGS**

HB 3440 requires all districts to post both the notice *and* agenda for a board meeting on the district website under the Open Meetings Act. (See Internet Posting — Notice on page 4.) The Section C table of contents has been revised to rename CKA as Safety Program/Risk Management: Safety and Security Audits and Monitoring. Provisions regarding asbestos management have been moved to a new code CSC, Facility Standards: Asbestos Management.

#### **CCA(LEGAL) LOCAL REVENUE SOURCES: BOND ISSUES**

For bonds authorized at an election after September 1, 2023, HB 3 allows the use of bond proceeds to pay for compliance with school safety and security requirements for school facilities. If TEA finds that the district is not in compliance, the district must use bond proceeds to achieve compliance before using the proceeds for other purposes. (See page 3.)

#### **CDA(LEGAL) OTHER REVENUES: INVESTMENTS**

The board must ensure that at least one armed security officer, as defined by the bill, is present during regular school hours at each campus or claim a good cause exception due to availability of funding or qualified personnel. A board that claims a good cause exception must develop an alternative standard. (See page 1.)
- The board's options as to who may be hired for security purposes are expanded. (See pages 1-2.)
- Security personnel are no longer required to be commissioned peace officers to carry weapons, but a person permitted to carry a firearm on campus may not perform certain law enforcement duties, except in an emergency, unless they are commissioned peace officers. (See page 5.)

To facilitate this record vote, TASB Policy Service sent a draft resolution with the [2023 Post-Legislative Policy Changes Policy Alert](#), available in the Policy Online® Governance and Management Library (TASB login required), for consideration by the board between September 1, 2023, and March 1, 2024. ### **EHBCA(LOCAL)                    COMPENSATORY SERVICES AND INTENSIVE PROGRAMS: ACCELERATED INSTRUCTION**

This local policy has been recoded from EHBC(LOCAL) to align with EHBCA(LEGAL) created in Update 121. HB 1416 made several changes to the requirements for accelerated instruction. Recommended changes to this local policy reflect that a parent's ability to request a particular teacher after a student fails to perform satisfactorily on a state assessment is no longer limited to students in grades 3, 5, and 8. Other changes delete references to the accelerated learning committee, which has been eliminated. A district now must develop an accelerated learning plan for certain students, and parents still may file a complaint about the plan in accordance with FNG.

### **EHBG(LEGAL)                    SPECIAL PROGRAMS: PREKINDERGARTEN**

HB 2729 makes several changes related to prekindergarten programs:

- Expands teacher qualifications (See page 5.)
- Requires a district or an entity with which a district contracts to provide a prekindergarten program to attempt to maintain an average ratio of at least one *qualified*, rather than certified, teacher or aide for each 11 students (See page 6.)
- Prescribes new supervisor requirements for entities with which a district contracts to provide a prekindergarten program (See page 6.)

### **EHBK(LEGAL)                    SPECIAL PROGRAMS: OTHER INSTRUCTIONAL INITIATIVES**

HB 3991 designates the first Friday in April as Texas Fruit and Vegetable Day and requires appropriate instruction. (See page 4.)

HB 3908 requires the governor to designate Fentanyl Poisoning Awareness Week, which may include age-appropriate instruction. (See page 7.)

### **EHDD(LEGAL)                    ALTERNATIVE METHODS FOR EARNING CREDIT: COLLEGE COURSE WORK/DUAL CREDIT**

HB 8 implements the Financial Aid for Swift Transfer (FAST) program to allow certain students to enroll at no cost in a dual credit course. A district must provide notice to parents about the program and determine student eligibility. (See pages 7-8.)

In addition, a parent may elect for a student to repeat a course taken for high school credit in the previous school year unless the district determines the student has met all requirements for graduation. (See page 1.)

#### **EIF(LEGAL)                      ACADEMIC ACHIEVEMENT: GRADUATION**

Provisions related to diplomas for certain students who entered ninth grade before the 2011-12 school year expired on September 1, 2023, and have been removed from this legal policy.

HB 3 requires a parent enrolling a child or the district the child most recently attended to provide the new district a copy of the child's disciplinary record and any threat assessment involving the child's behavior. (See page 8.)

#### **FDA(LLEGAL) ADMISSIONS: INTERDISTRICT TRANSFERS**

HB 3 requires a transfer student's district of residence to provide the receiving district with the student's disciplinary record and any threat assessment involving the student's behavior. (See page 1.)

HB 1959 and HB 2892 require the board to grant the request of a peace officer who is a parent of a student or a servicemember who is a parent of a student to transfer the student to another campus or to another district under an agreement between the districts under Education Code 25.035. (See pages 2-3.)

#### **FDB(LLEGAL) ADMISSIONS: INTRADISTRICT TRANSFERS AND CLASSROOM ASSIGNMENTS**

A reference to information regarding intradistrict transfers requested by a parent who is a servicemember or peace officer has been added to page 3 of this legal policy. The referenced information is located in FDA(LLEGAL).

#### **FEA(LLEGAL) ATTENDANCE: COMPULSORY ATTENDANCE**

HB 1212 prohibits a district from requiring documentation from a clergy member or other religious leader and requires the district to accept a note from a parent when excusing a student's absence to observe a religious holy day. (See page 4.)

SB 68 allows a district to excuse a student from attending school for career investigation days to visit a professional's workplace during the student's junior and senior years to determine the student's interest in a career in the professional's field. (See page 6.)

HB 4559 increases the population threshold for constitutional county courts in certain counties to be designated as truancy courts. (See page 8.)

#### **FEA(LOCAL) ATTENDANCE: COMPULSORY ATTENDANCE**

SB 68 allows a district to excuse a student from attending school for career investigation days to visit a professional's workplace during the student's junior and senior years to determine the student's interest in a career in the professional's field. Districts that choose to excuse students for absences to visit a professional's workplace to explore a career in that professional's field must adopt a policy to determine when an absence will be excused for this purpose and a procedure to verify the visit. A new provision offered for the board's consideration at Career Investigation permits such absences for the maximum amount allowed in law — up to two days during a student's junior year and up to two days during the student's senior year. Contact your policy consultant for revisions if the district will allow fewer excused absences or will not allow any excused absences for this purpose.

#### **FEC(LLEGAL) ATTENDANCE: ATTENDANCE FOR CREDIT**

Provisions allowing a district to adopt a policy to exempt students from the 90 percent rule for courses offered under a local remote learning program exception expired on September 1, 2023, and have been removed from this legal policy.

#### **FED(LLEGAL) ATTENDANCE: ATTENDANCE ENFORCEMENT**

HB 3917 allows a parent against whom a complaint for contributing to nonattendance has been filed to enter a written agreement to complete counseling, training, or another program designated by the district. (See page 10.)

#### **FFAC(LLEGAL) WELLNESS AND HEALTH SERVICES: MEDICAL TREATMENT**

SB 629 requires a district to adopt a policy regarding maintenance, administration, and disposal of opioid antagonists at each campus that serves students in grades 6 through 12; a district may adopt a policy at campuses serving students in grades below 6. Provisions have been added beginning on page 4 regarding reporting, training, immunity, and other topics.

General provisions related to the administration of opioid antagonists have been deleted in light of the new requirements.

SB 294 revises provisions related to a district's option to adopt a policy regarding maintenance, administration, and disposal of medication for respiratory distress. A district that adopts a policy must require each campus to have at least one authorized and trained person present during regular school hours. Provisions have been added beginning on page 11 regarding required referrals after medication is administered, training, reporting, parental notice of the policy, and other topics.

Also under SB 294, a district that implements a policy for the maintenance, administration, and disposal of epinephrine auto-injectors must give notice *of the policy* to parents before the policy is implemented or before the start of each school year. (See page 10.)

Finally, SB 294 prohibits disciplinary action against an employee or volunteer who refuses to administer or receive training to administer epinephrine auto-injectors or medication for respiratory distress in accordance with board policy. (See pages 13-14.)

#### **FFAC(LOCAL) WELLNESS AND HEALTH SERVICES: MEDICAL TREATMENT**

Recommended revisions to the provisions on opioid antagonists are based on SB 629, which requires a district to have at least one person who is authorized and trained to administer the medication present during regular school hours on each campus that serves grades 6 through 12. The district's current language does not limit administration of the opioid antagonist medication to specific grade levels or campuses; therefore, the revisions state that the provision will be applicable to every campus. If the district wishes to implement this policy only for campuses with certain grade levels, contact the district's policy consultant for appropriate adjustments.

#### **FFB(LEGAL) STUDENT WELFARE: CRISIS INTERVENTION**

The required policies and procedures for the district's threat assessment and safe and supportive school team are changed as follows (see pages 1-2):

- Under HB 3, the policy must require each campus to establish a procedure for students to report concerning behavior by another student.
- SB 1720 requires the policy to allow employees who report a potential threat to elect to keep their identities confidential.

Before the threat assessment and safe and supportive school team may conduct a threat assessment, HB 473 requires the team to notify a student's parent regarding the assessment. The team must also notify the parent of its findings and conclusions after the assessment.

HB 3 also requires that materials and information from a threat assessment be maintained in the student's school record until the student's 24th birthday.

**Adoption of Local  
Innovation Plan**

The board may not vote on adoption of a proposed local innovation plan unless:

1. The final version of the proposed plan has been available on the district's website for at least 30 days;
2. The board has notified the commissioner of the board's intention to vote on adoption of the proposed plan; and
3. The district-level committee [see BQA] has held a public meeting to consider the final version of the proposed plan and has approved the plan by a majority vote of the committee members. The public meeting may occur at any time, including up to or on the same date at which the board intends to vote on final adoption of the proposed plan.

The board may adopt a proposed local innovation plan by an affirmative vote of two-thirds of the membership of the board.

On adoption of a local innovation plan, the district is designated as a district of innovation for the term specified in the plan, but no longer than five calendar years, and shall begin operation in accordance with the plan. In addition, the district is exempt from state requirements identified under Education Code 12A.003(b)(2). [See Local Innovation Plan, above]

The district shall notify the commissioner of approval of the plan along with a list of approved exemptions by completing the agency's form provided at 19 Administrative Code 102.1307(d).

A district's exemption under the plan includes any subsequent amendment or redesignation of an identified state requirement, un-

less the subsequent amendment or redesignation specifically applies to an innovation district.

The district shall ensure that a copy of the plan is posted on the district's website in accordance with Education Code 12A.0071, for the term of the designation as an innovation district.

*Education Code 12A.005; 19 TAC 102.1307*

Notice to TEA

Not later than the 15th day after the date on which the board finalizes a local innovation plan either through adoption, amendment, or renewal, the district shall provide a link to the local innovation plan as posted on the district's website to the Texas Education Agency (TEA). TEA shall promptly post the current local innovation plan on the agency's website. *19 TAC 102.1307(g); Education Code 12A.0071(b)*

Term

The term of a district's designation as a district of innovation may not exceed five years and is effective upon district approval and notification of the plan to the TEA. A district may only have one innovation plan at any given time. *Education Code 12A.006; 19 TAC 102.1311*

**Amendment,  
Rescission, or  
Renewal of Local  
Innovation Plan**

A local innovation plan may be amended, rescinded, or renewed if the action is approved by a vote of the district-level committee [see BQA] and a two-thirds majority vote of the board.

An amendment to an approved plan does not change the date of the term of designation as an innovation district. Exemptions that were already formally approved are not required to be reviewed.

A district must notify TEA within five business days of rescission and provide a date at which time it will be in compliance with all sections of the Education Code, but no later than the start of the following school year.

During renewal, all sections of the plan and exemptions shall be reviewed, and the district must follow all components outlined in 19 Administrative Code 102.1307 relating to Adoption of Local Innovation Plans, except that a district is not required to notify the commissioner of the board's intention to vote on the adoption of the proposed plan.

The district shall notify the commissioner of any actions taken along with the associated exemptions and local approval dates.

A district must meet eligibility requirements under 19 Administrative Code 102.1303 in order to renew an innovation plan.

*Education Code 12A.007; 19 TAC 102.1313*

**Renewal Timeline**

In the event that a district fails to renew a plan prior to the expiration of its term, a district may renew the plan in the six months subsequent to the plan's date of expiration in order to maintain a continuous designation as a district of innovation.

The term of a renewed plan, subject to 19 Administrative Code 102.1311, may not begin prior to the date on which the board votes to adopt the renewed plan, unless the plan is adopted during the six months subsequent to the plan's date of expiration.

If a plan is renewed during the timeline described in this provision, the renewed plan will have a term not to exceed five calendar years, beginning on the date of expiration of the prior term.

If a plan is renewed during the timeline described in this provision and changes are made to the plan during the renewal process, those changes will be in effect from the date of adoption of the renewed plan through the expiration date of the renewed plan, unless amended, rescinded, or terminated.

If changes are made to the plan during the renewal process, the district shall mark the changes with the date of the vote to renew the plan in order to denote the earliest date those changes may take effect.

A district whose plan is not renewed during the timeline described in this provision shall comply with all previously adopted exemptions immediately upon expiration of the plan and begin the adoption process over again in its entirety should the district wish to pursue designation as a district of innovation in the future.

*19 TAC 102.1313(a)(3)(B)*

**Website Posting**

A district designated as a district of innovation shall ensure that a copy of the district's current local innovation plan is available to the public by posting and maintaining the plan in a prominent location on the district's internet website. *Education Code 12A.0071(a); 19 TAC 102.1307(f)*

The district's innovation plan must be clearly posted on the district's website for the term of the designation as an innovation district. *19 TAC 102.1307(f)*

3. A final unacceptable academic performance rating under Education Code 39.054 for one of the school years and an unacceptable financial accountability rating under Education Code 39.082 for the other school year.

The commissioner may permit the district to amend the local innovation plan to address concerns specified by the commissioner in lieu of terminating the district's designation.

*Education Code 12A.008(a)-(b); 19 TAC 102.1315(a)(1)-(a)(2)*

**Membership**

The board consists of the number of members that the district had on September 1, 1995. *Education Code 11.051(b)*

Increase in  
Membership

A board that has three or five members may by resolution increase the membership to seven. A board that votes to increase its membership must consider whether the district would benefit from also adopting a single-member election system under Education Code 11.052. [See Single-Member Districts, below.]

A resolution increasing the number of trustees takes effect with the second regular election of trustees that occurs after the adoption of the resolution. The resolution must provide for a transition in the number of trustees so that when the transition is complete, trustees are elected as provided by Education Code 11.059 (terms).

*Education Code 11.051(c)*

**Terms**

A trustee of a district serves a term of three or four years.

Elections for trustees with three-year terms shall be held annually. The terms of one-third of the trustees, or as near to one-third as possible, expire each year.

Elections for trustees with four-year terms shall be held biennially. The terms of one-half of the trustees, or as near to one-half as possible, expire every two years.

Board policy must state the schedule on which specific terms expire.

*Education Code 11.059*

---

**Note:** For website posting requirements regarding trustee information, see CQA.

---

**Uniform Election  
Dates**

Each general or special election of board members shall be on one of the following dates:

1. The first Saturday in May.

2. The first Tuesday after the first Monday in November.

*Election Code 41.001(a)*

**Joint Elections**

Required

A district trustee election shall be held on the same date as:

1. The election for the members of the governing body of a municipality located in the district;
2. The general election for state and county officers, which is held on the first Tuesday after the first Monday in November in even-numbered years under Election Code 41.002;
3. The election for the members of the governing body of a hospital district, if the school district:
  - a. Is wholly or partly located in a county with a population of less than 50,000 that is adjacent to a county with a population of more than three million; and
  - b. Held its election for board members jointly with the election for the members of the governing body of the hospital district before May 2007; or
4. The election for the members of the governing board of a public junior college district in which the school district is wholly or partly located.

Elections held on the same date as provided above shall be held as a joint election under Election Code Chapter 271, and the voters shall be served by common polling places consistent with Election Code 271.003(b).

*Education Code 11.0581(a)-(c)*

A board may enter into an agreement with another political subdivision holding an election on the same day in all or part of the same county to hold the elections jointly. The terms of a joint election agreement must be stated in an order, resolution, or other official action adopted by the board. *Election Code 271.002*

**Methods of Election  
— Options**

At Large

In a district in which the positions of trustees are not designated by number or in which the trustees are not elected from single-member trustee districts, the candidates receiving the highest number of votes shall fill the positions the terms of which are normally expiring. *Education Code 11.057(b)*

Position or Place

The positions on the board shall be designated by number in any district in which the board by resolution orders that all candidates for trustee be voted on and elected separately for positions on the board and that all candidates be designated on the official ballot

according to the number of the positions for which they seek election.

Not later than the 60th day before the date of an election, the board must make the resolution and number the positions on the board in the order in which the terms of office expire. Once a board has ordered the election of trustees by numbered positions, neither the board nor their successors may rescind the action.

*Education Code 11.058(c)-(f)*

Single-Member  
Districts

*On Board's  
Motion*

Except as provided below, the board, on its own motion, may order that trustees of the district are to be elected from single-member districts or that not fewer than 70 percent of the members of the board are to be elected from single-member districts with the remaining board members to be elected from the district at large.

If a majority of the area of a district is located in a county with a population of less than 10,000, a board, on its own motion, may order that trustees of the district are to be elected from single-member districts or that not fewer than 50 percent of the members of the board are to be elected from single-member districts with the remaining board members to be elected from the district at large.

Before adopting an order, a board must:

1. Hold a public hearing at which registered voters of a district are given an opportunity to comment on whether or not they favor the election of trustees in the manner proposed by the board; and
2. Publish notice of the hearing in a newspaper that has general circulation in the district, not later than the seventh day before the date of the hearing.

An order adopted by the board must be entered not later than the 120th day before the date of the first election at which all or some of the trustees are elected from single-member districts authorized by the order.

*Education Code 11.052(a)-(d)*

*By Voter Petition*

If at least 15 percent or 15,000 of the registered voters of the district, whichever is less, sign and present to the board a petition requesting submission to the voters of the proposition that trustees be elected in a specific manner, which must be generally described on the petition and which must be a manner of election the board could have ordered on its own motion, the board shall order that the appropriate proposition be placed on the ballot at the first regular election of trustees held after the 120th day after the date the

petition is submitted to the board. The proposition must specify the number of trustees to be elected from single-member districts. Beginning with the first regular election of trustees held after an election at which a majority of the registered voters voting approve the proposition, trustees shall be elected in the manner prescribed by the approved proposition. *Education Code 11.052(e)*

*Board Member  
Districts*

If single-member districts are adopted or approved by either method described above, the board shall divide the district into the appropriate number of trustee districts, based on the number of members that are to be elected from single-member districts, and shall number each trustee district. The trustee districts must be compact and contiguous and must be as nearly as practicable of equal population. In a district with 150,000 or more students in average daily attendance, the boundary of a trustee district shall not cross a county election precinct boundary except at a point at which the district boundary crosses the county election precinct boundary. Trustee districts must be drawn not later than the 90th day before the date of the first election of trustees from those districts. *Education Code 11.052(f)*

*Residency for  
First Election*

Residents of each trustee district are entitled to elect one trustee to the board. A trustee elected to represent a trustee district at the first election of members must be a resident of the district the trustee represents not later than the 90th day after the date election returns are canvassed, or the 60th day after the date of a final judgment in an election contest filed concerning that trustee district. A trustee vacates the office if the trustee fails to move into the district the trustee represents within the time provided. [For more information on residency, see BBA and BBC.] *Education Code 11.052(g)*

*Number and  
Term*

At the first election at which some or all of the trustees are elected from single-member trustee districts and after each redistricting, all positions on a board shall be filled. The trustees then elected shall draw lots for staggered terms as provided by Education Code 11.059 (terms). *Education Code 11.052(h)*

*Redistricting*

Not later than the 90th day before the date of the first regular board election at which trustees may officially recognize and act on the last preceding federal census, a board shall redivide a district into the appropriate number of trustee districts if the census data indicates that the population of the most populous district exceeds the population of the least populous district by more than 10 percent. Redivision of a district shall be in the manner provided above at Board Member Districts. *Education Code 11.052(i)*

*Phase-in Option*

Cumulative

The board of a district that elects its trustees at large or at large by position may order that elections for trustees be held using the cumulative voting procedure.

If a board adopts an order requiring the use of cumulative voting, only the board member positions that were scheduled to be filled at the election are filled through the use of cumulative voting.

At an election at which more than one board member position is to be filled, all of the positions that are to be filled at the election shall be voted on as one race by all the voters of a district. Each voter is entitled to cast a number of votes equal to the number of positions to be filled at the election.

A voter may cast one or more of the specified number of votes for any one or more candidates in any combination. Only whole votes may be cast and counted. If a voter casts more than the number of votes to which the voter is entitled in the election, none of the voter's votes may be counted in that election. If a voter casts fewer votes than entitled, all of the voter's votes are counted in that election.

The candidates who are elected are those, in the number to be elected, receiving the highest number of votes.

A district that adopts an order requiring the use of cumulative voting may not elect its members by position as provided by Education Code 11.058.

*Education Code 11.054*

**Tie Votes**

Second Election

In an election requiring a plurality, if two or more candidates for the same office tie for the number of votes required to be elected, a second election to fill the office shall be held in accordance with the deadlines and other requirements of Election Code 2.002.

Other Options

*Casting Lots*

The tying candidates may agree to cast lots to resolve the tie. The agreement must be filed with the board. The board president shall supervise the casting of lots.

*Withdrawal*

A tying candidate may resolve the tie by filing with the board a signed and acknowledged written statement of withdrawal. On receipt of the statement, the remaining candidate is the winner, and a second election or casting of lots is not held.

Automatic Recount

If the tie is not resolved by casting lots or withdrawal, an automatic recount shall be conducted under Election Code Chapter 216 before the second election is held. If the recount resolves the tie, the second election is not held.

If the recount does not resolve the tie, the tied candidates may cast lots not later than the day before the date the board must order the second election under Election Code 2.002(b) or withdraw from the election not later than 5:00 p.m. of the day after the date the automatic recount is held.

*Election Code 2.002*

**Runoff Election**

In a district in which trustees are elected by majority vote under Education Code 11.057(c) [see BBB], if no candidate for a particular office receives the vote necessary to be elected, a runoff election for that office is required. *Election Code 2.021 et seq.*

If the candidates in a runoff election tie, an automatic recount shall be conducted under Election Code Chapter 216. If the recount does not resolve the tie, the tied candidates shall cast lots to determine the winner. The board president shall supervise the casting of lots. A tying candidate may resolve the tie by filing with the board president a signed and sworn to written statement of withdrawal. If the statement of withdrawal is received before the automatic recount is conducted, the remaining candidate is the winner, and the automatic recount is not conducted. If the statement of withdrawal

is received not later than 5:00 p.m. the day after the date the automatic recount is conducted, the remaining candidate is the winner, and a casting of lots is not held. *Election Code 2.028*

**Ballot Order**

The order of the candidates' names on the ballot of any resulting runoff election or election held to resolve a tie vote shall be the relative order of names on the original election ballot. *Election Code 2.002(d), 52.094(a)*

**Recounts**

The district shall conduct an authorized recount in accordance with Election Code Title 13. *Election Code 211.001*

A candidate in a board election may obtain an initial recount in an election if the difference in the number of votes received by the candidate and any candidate for the office who is shown by the election returns to be elected, tied, or entitled to a place on a runoff ballot, if applicable, is less than 10 percent of that candidate's number of votes, or the total number of votes received by all candidates for the office is less than 1,000. *Election Code 212.022*

A ground for obtaining an initial recount is not required to obtain an initial recount of electronic voting system results. A candidate may obtain an initial recount of electronic voting system results in an election only if the candidate is shown by the election returns not to be elected. *Election Code 212.0241*

An initial recount may not be conducted unless an authorized candidate submits a petition for the recount to the presiding officer of the local canvassing authority in accordance with Election Code Chapter 212, Subchapter B, accompanied by a deposit to cover the costs of the recount in accordance with Subchapter E. *Election Code 212.025, .026, .111*

Effect of Petition

The submission of a recount petition before a board completes its canvass does not delay the canvass for the office involved in the recount. The board shall make a notation on the tabulation of any office involved in a recount. The submission of a recount petition delays the issuance of a certificate of election and qualification for the office involved in the recount pending completion of the recount. A candidate may not qualify for an office involved in a recount before completion of the recount. This provision does not affect a candidate who has received a certificate of election and qualified for office before the submission of a recount petition involving the office. *Election Code 212.033, .0331*

*Gov't Code 551.056*

[See CQA for other website posting requirements.]

**Specificity of  
Agenda/Notice**

Agendas for all meetings must be sufficiently specific to inform the public of the subjects to be discussed at the meeting, setting out any special matters to be considered or any matter in which the public has a particular interest. *Cox Enterprises, Inc. v. A board may not deliberate or take action on a matter at a meeting for which notice or supplemental notice is posted as described above other than:

1. A matter directly related to responding to the emergency or urgent public necessity identified in the notice or supplemental notice of the meeting; or
2. An agenda item listed on a notice of the meeting before the supplemental notice was posted.

An emergency or urgent public necessity exists only if immediate action is required of a board because of:

2. A reasonably unforeseeable situation, including:
  - a. Fire, flood, earthquake, hurricane, tornado, or wind, rain, or snow storm;
  - b. Power failure, transportation failure, or interruption of communication facilities;

The notice of a meeting to be held by videoconference call must specify as a location of the meeting the location where a quorum of the board will be physically present and specify the intent to have a quorum present at that location, except that the notice of a meeting held by videoconference call described above at Multiple Counties must specify as a location of the meeting the location where the board member presiding over the meeting will be physically present and specify the intent to have that member present at that location.

*Gov't Code 551.127(b)-(e)*

Quality of Audio and Video Signals

Each portion of a meeting held by videoconference call that is required to be open to the public shall be visible and audible to the public at the location specified in the notice. If a problem occurs that causes a meeting to no longer be visible and audible to the public at that location, the meeting must be recessed until the problem is resolved. If the problem is not resolved in six hours or less, the meeting must be adjourned.

The location specified in the notice, and each remote location from which a member of the board participates, shall have two-way audio and video communication with each other location during the entire meeting. The face of each participant in the videoconference call, while that participant is speaking, shall be clearly visible, and the voice audible, to each other participant and, during the open portion of the meeting, to the members of the public in attendance at the physical location described by the notice and at any other location of the meeting that is open to the public.

Computer-based videoconferencing applications may specify unique minimum requirements for computer central processing units, memory, and video capability to run the computer-based videoconferencing application. A board shall comply with these minimum requirements.

If the videoconference call hosts a public audience at a location or locations specified by the official notice of the open meeting posted in compliance with Open Meetings Act requirements, then the district shall establish a minimum of one host computer at the location(s) that will run the computer-based videoconferencing application. This host computer shall then be connected to:

**Bonds and Bond  
Taxes**

The board may issue bonds for:

1. The construction, acquisition, and equipment of school buildings in the district;
2. The acquisition of property or the refinancing of property under a contract entered under the Public Property Finance Act (Local Government Code, Chapter 271, Subchapter A), regardless of whether payment obligations under the contract are due in the current year or a future year;
3. The purchase of the necessary sites for school buildings;
4. The purchase of new school buses;
5. The retrofitting of school buses with emergency, safety, or security equipment; and
6. The purchase or retrofitting of vehicles to be used for emergency, safety, or security purposes.

The board may levy, pledge, assess, and collect annual ad valorem taxes sufficient to pay the principal of and interest on the bonds as or before the principal and interest become due, subject to the provisions at Bond Elections, below.

*Education Code 45.001(a)*

All bonds shall be issued in accordance with the Public Security Procedures Act. *Gov't Code, Ch. 1201*

Limitation

A district may not issue general obligation bonds to purchase, improve, or construct one or more improvements to real property, to purchase one or more items of personal property, or to do both, if the weighted average maturity of the issue of bonds exceeds 120 percent of the reasonably expected weighted average economic life of the improvements and personal property financed with the issue of bonds. *Gov't Code 1253.002*

Use of Proceeds for  
Utilities

The proceeds of bonds issued by school districts for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used, among other things, to pay the cost of acquiring, laying, and installing pipes or lines to connect with the water, sewer, or gas lines of a municipality or private utility company, whether or not the water, sewer, or gas lines adjoin the school, so that the school district may provide its public school buildings the water, sewer, or gas services. *Education Code 45.101*

Use of Proceeds for Safety      The proceeds of bonds issued by a school district for the construction and equipment of school buildings in the district and the purchase of the necessary sites for school buildings may be used to pay the costs associated with complying with school safety and security requirements for school facilities in accordance with Education Code 37.351. [See CKA]

A district that has been determined by the Texas Education Agency (TEA) to not be in compliance with safety and security requirements must use the proceeds of bonds described above to achieve compliance with applicable safety and security requirements in accordance with Education Code 37.351 before the district may use those proceeds for any other authorized purpose.

*Education Code 45.1011*

State Facilities  
Funding  
*Instructional  
Facilities  
Allotment*

“Instructional facility” means real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching the required curriculum.  
*Education Code 46.001*

Under the Instructional Facilities Allotment, Education Code Chapter 46, Subchapter A, for each year, except as provided by Education Code 46.005 (limitation on the guaranteed amount) and 46.006 (shortage or excess of appropriated funds), a district is guaranteed a specified amount per student in state and local funds for each cent of tax effort, up to the statutory maximum in Education Code 46.003(b), to pay the principal of and interest on eligible bonds issued to construct, acquire, renovate or improve an instructional facility. *Education Code 46.003(a)* [See 19 Administrative Code 61.1032 for commissioner’s rules related to the instructional facilities allotment.]

*Existing Debt  
Allotment*

A district is guaranteed a specified amount per student in state and local funds for each cent of tax effort to pay the principal and interest on eligible bonds under Education Code Chapter 46, Subchapter B. Bonds are eligible to be paid with state and local funds under Subchapter B if the district made payments on the bonds during the final school year of the preceding state fiscal biennium or taxes levied to pay the principal and interest on the bonds were included in a district’s audited debt service collections for that school year, and the district does not receive state assistance under the Instructional Facilities Allotment for payment of the principal and interest on the bonds. *Education Code 46.032(a), .033* [See 19 Administrative Code 61.1035 for commissioner’s rules related to the existing debt allotment.]

**Note:** For information on the new instructional facility allotment, see CBA.

Investment of Bond Proceeds For legal requirements regarding investment of bond proceeds, see CDA(LEGAL).

Unspent Bond Proceeds A district may use unspent proceeds of issued general obligation bonds only:

1. For the specific purposes for which the bonds were authorized;
2. To retire the bonds; or
3. For a purpose other than the specific purposes for which the bonds were authorized if:
  - a. The specific purposes are accomplished or abandoned; and
  - b. The board at a public meeting held only for the purpose of considering the use of the unspent bond proceeds approves in separate votes the use of the proceeds for:
    - (1) A purpose other than to retire the bonds; and
    - (2) The purpose specified at the time the vote is taken.

In addition to other requirements, notice of a public meeting held under this provision must include a statement that the board will consider the use of unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized. A public meeting held under this provision must provide the public an opportunity to address the board on the question of using the unspent bond proceeds for a purpose other than the specific purposes for which the bonds were authorized.

*Education Code 45.1105*

**Capital Appreciation Bonds** For purposes of the following policy provisions, a “capital appreciation bond” is a bond that accrues and compounds interest from its date of delivery, the interest on which by its terms is payable only upon maturity or prior redemption.

Limitation on Issuance A school district may not issue capital appreciation bonds that are secured by ad valorem taxes unless:

1. The bonds have a scheduled maturity date that is not later than 20 years after the date of issuance;

2. The board has received a written estimate of the cost of the issuance, including:
  - a. The amount of principal and interest to be paid until maturity;
  - b. The amount of fees to be paid to outside vendors, including vendors who sell products to be financed by the bond issuance;
  - c. The amount of fees to be paid to each financing team member; and
  - d. The projected tax impact of the bonds and the assumptions on which the calculation of the projected tax impact is based;
3. The board has determined in writing whether any personal or financial relationship exists between the members of the board and any financial advisor, bond counsel, bond underwriter, or other professional associated with the bond issuance and submitted the determination to the Ethics Commission; and
4. The board posts prominently on the district's internet website and enters in the minutes of the board:
  - a. The total amount of the proposed bonds;
  - b. The length of maturity of the proposed bonds;
  - c. The projects to be financed with bond proceeds;
  - d. The intended use of bond proceeds not spent after completion of the projects identified;
  - e. The total amount of the district's outstanding bonded indebtedness at the time of the election on the bonds, including the amount of principal and interest to be paid on existing bond indebtedness until maturity;
  - f. The total amount of the district's outstanding bonded indebtedness, including the amount of principal and interest to be paid until maturity; and
  - g. The information received at item 2 above and determined under item 3 above.

Limitation on Use of Proceeds      Capital appreciation bond proceeds may not be used to purchase the following items, unless an item has an expected useful life that exceeds the bond's maturity date:

1. Items more regularly considered maintenance items, including replacement HVAC units, upgraded plumbing, or similar items; or
2. Transportation-related items, including buses.

*Unspent Proceeds*      Capital appreciation bond proceeds unspent after completion of the project identified as the proceeds' intended use may be used only for a use identified on the district's website as required above, unless another use is approved by the voters of the district at an election held for that purpose.

Total Amount of Capital Appreciation Bonds      The total amount of capital appreciation bonds may not exceed 25 percent of the district's total outstanding bonded indebtedness at the time of the issuance, including the amount of principal and interest to be paid on the outstanding bonds until maturity.

Extension      A district may not extend the maturity date of an issued capital appreciation bond, including through the issuance of refunding bonds that extend the maturity date, unless:

1. The extension of the maturity date will decrease the total amount of projected principal and interest to maturity; or
2. The maximum legally allowable tax rate for indebtedness has been adopted and TEA certifies in writing that the solvency of the permanent school fund's bond guarantee program would be threatened without the extension.

*Gov't Code 1201.0245*

*Gov't Code 1251.052(a)-(a-1)*

Exception

Notwithstanding the requirements at Ballot Contents, above, the question of whether to approve the issuance of bonds for the construction, acquisition, and equipment of school buildings in the district, the purchase of new school buses, and the purchase of necessary sites for school buildings may be submitted to the voters in a single ballot proposition, except that bonds for each of the following purposes must be stated in a separate proposition:

  - b. A natatorium;
  - c. Another recreational facility other than a gymnasium, playground, or play area;
  - d. A performing arts facility;
  - e. Housing for teachers as determined by the district to be necessary to have a sufficient number of teachers for the district; and

The question of whether to approve the issuance of bonds for a building described by items 1a-e above must be printed on the ballot as a separate ballot proposition regardless of whether that building is proposed as part of the same complex or building that contains traditional classroom facilities. Each separate ballot proposition must state the principal amount of the bonds to be issued that constitutes the cost for construction of that portion of the building or complex attributable to the building described by items 1a-e above or to the traditional classroom facilities, as applicable.

A district with at least 250 registered voters on the date the board adopts the debt obligation election order must prepare a voter information document for each proposition to be voted on at the election.

**50 Cent Test for New  
Debt**

Before issuing bonds, a district must demonstrate to the attorney general that, with respect to the proposed issuance, the district has a projected ability to pay the principal of and interest on the pro-

posed bonds and all previously issued bonds, other than bonds authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992, from a tax at a rate not to exceed \$0.50 per \$100 of valuation (the "50 Cent Test").

A district may demonstrate the ability to comply with the 50 Cent Test by using the most recent taxable value of property in the district, combined with state assistance to which the district is entitled under Education Code Chapter 46 or 48 that may be lawfully used for the payment of bonds.

Future Taxable  
Value

A district may demonstrate the ability to comply with the 50 Cent Test by using a projected future taxable value of property in the district anticipated for the earlier of the tax year five years after the current tax year or the tax year in which the final payment is due for the bonds submitted to the attorney general, combined with state assistance to which the district is entitled under Education Code Chapter 46 or 48 that may be lawfully used for the payment of bonds.

The district must submit to the attorney general a certification of the district's projected taxable value prepared by a registered, certified professional appraiser who has demonstrated professional experience in projecting taxable values or who can obtain any necessary assistance from an experienced person.

The certification of a district's projected taxable value must be signed by the superintendent. The attorney general must base a determination of whether a district has complied with the 50 Cent Test on a taxable value that is equal to 90 percent of the value certified.

*Education Code 45.0031*

**Attorney General  
Review and Approval**

Unless exempt under Government Code 1202.007, before the issuance of a public security, the issuer shall submit the public security and the record of proceedings to the attorney general. *Gov't Code 1202.003(a); see, e.g., 1 TAC 53.3 (Content of Transcripts), 53.16 (Submission and Approval of Transcripts), and 53.61 (School District Tax Bond Elections)*

**Refunding Bonds**

A board may refund or refinance all or any part of any of the district's outstanding bonds and matured or unmatured but unpaid interest on those bonds payable from ad valorem taxes by issuing refunding bonds payable from ad valorem taxes. *Education Code 45.004; Gov't Code Ch. 1207*

for Refunding  
Bonds

A district may use state funds received under Education Code Chapter 46 to pay principal of and interest on refunding bonds that:

1. Are issued to refund bonds eligible under Education Code 46.003;

**Authorized Unissued  
Bonds**

If a district has authorized school bonds for a specific purpose and that purpose has been accomplished by other means or has been abandoned and all or a portion of the authorized bonds remains unissued, a board may order an election [see BBBA] to submit to the qualified voters of the district the proposition of whether or not the authorized but unissued bonds may be issued, sold, and delivered for other and different purposes specified in the election order and notice. The election shall be ordered, held, and conducted in the same form and manner as that at which the bonds were originally authorized. If a majority of those voting at the election vote in favor of the sale and delivery of the unissued bonds for the purposes specified in the election order and notice, the board may issue, sell, and deliver the bonds and use the proceeds for the purposes authorized at the election. *Education Code 45.110*

**Bond Guarantee  
Program**

Eligibility

A district seeking guarantee of eligible bonds under the Bond Guarantee Program shall apply to the commissioner of education using a form adopted by the commissioner. To be eligible for approval, district bonds must be issued under Education Code Chapter 45, Subchapter A, or under Government Code Chapter 1207. *Education Code 45.054, .055(a); 19 TAC 33.6(b)(5)*

On approval by the commissioner, bonds issued by a district are guaranteed by the corpus and income of the permanent school fund. The guarantee remains in effect until the date those bonds mature or are defeased in accordance with state law. *Education Code 45.052*

If a district does not receive approval for the guarantee or for any reason does not receive approval of the bonds from the attorney general within the specified time period, the district may reapply in a subsequent month. Applications that were denied approval for the guarantee will not be retained for consideration in subsequent months. *19 TAC 33.6(f)(5)*

A district may not represent bonds as guaranteed for the purpose of pricing or marketing the bonds before the date of the letter granting approval for the guarantee. *19 TAC 33.6(g)(4)(D)*

**Credit Enhancement Program**

If a district's application for guarantee of district bonds by the permanent school fund is rejected, the district may apply under Education Code Chapter 45, Subchapter I for credit enhancement of bonds described by Education Code 45.054 (eligibility for the Bond Guarantee Program) by money appropriated for the Foundation School Program, other than money that is appropriated to districts specifically:

1. As required under the Texas Constitution; or
2. For assistance in paying debt service.

The credit enhancement remains in effect until the date the bonds mature or are defeased in accordance with state law.

*Education Code 45.252*

Eligibility

**Federal Securities Law**

Disclosure  
Obligations for  
Bond and Other  
Debt Offerings

Prior to publicly offering bonds, a school district must prepare and deliver to an underwriter an official statement containing the terms of the bond offering, a description of the district itself, financial and operating data of the district, and any other information that may be material to an investor interested in purchasing the district's bonds or otherwise required by Rule 15c2-12 of the Securities Exchange Commission (SEC) (SEC Rule 15c2-12(b)). *17 C.F.R. 240.15c2-12* [See Note, below]

Continuing  
Disclosure after  
Issuing Bonds

Except for exempt offerings, SEC Rule 15c2-12(b) requires underwriters to obtain a continuing disclosure agreement (CDA) from the district when the district issues bonds. A CDA obligates the district to prepare and file continuing disclosures of financial information and operating data annually after the bonds are issued. A CDA also requires filing notice regarding the occurrence of events listed under SEC Rule 15c2-12(b)(5)(i)(C) within 10 business days following the occurrence of any such event. *17 C.F.R. 240.15c2-12* [See Note, below]

Liability under  
Federal Securities  
Law

School districts, board members, and certain employees of the district are subject to liability under the antifraud provisions of the federal securities laws contained in Section 17(a) of the Securities Act of 1933 (the "Securities Act"), Section 10(b) of the Securities Exchange Act of 1934 (the "Exchange Act") and Rule 10b-5 of the SEC. The antifraud provisions generally prohibit false or misleading statements made in connection with the offer or sale of a district's bonds (or the omission of material facts from such statements), including the official statement itself and any other statement reasonably expected to reach bond investors (disclosures). *SEC Exchange Act Release No. 33741 (Mar. 9, 1994)*

The antifraud provisions also apply to a district's continuing disclosure obligations under SEC Rule 15c2-12(b) after a district's bonds are issued. [See Continuing Disclosure after Issuing Bonds, above] *SEC Report on the Municipal Securities Market (July 31, 2012) (the "SEC 2012 Report") at pg. 29*

---

**Note:** In preparing an official statement, a district may reasonably rely on the advice of outside professionals who are also subject to the antifraud provisions, but a district is primarily liable for the content of its official statement and other disclosures. *SEC Exchange Act Release No. 36761 (Jan. 24, 1996)*

A district may engage qualified consultants, including qualified disclosure or securities counsel and a financial adviser, to assist with preparing an official statement and other primary disclosures relating to a bond offering. Creation of internal procedures may help to insulate a district against criticism or liability under federal securities laws.

Districts may also engage disclosure counsel and/or other professionals to assist with secondary disclosure, including advice and assistance ensuring that (1) reporting requirements imposed by a CDA are satisfied and (2) information disclosed in periodic and occasional reports is accurate and complete.

Internal procedures may provide for (1) appointment of, and disclosure training for, district officials and employees who will be part of the financing team, (2) a procedure of accountability for review of the disclosures, and (3) ensuring that any procedures established are in fact followed.

If the board has contracted with another investing entity to invest its funds, the investment officer of the other investing entity is considered to be the investment officer of the contracting board's district. In the administration of the duties of an investment officer, the person designated as investment officer shall exercise the judgment and care, under prevailing circumstances, that a prudent person would exercise in the management of the person's own affairs, but the board retains the ultimate responsibility as fiduciaries of the assets of the district. Unless authorized by law, a person may not deposit, withdraw, transfer, or manage in any other manner the funds of the district. Authority granted to a person to invest the district's funds is effective until rescinded by the district or until termination of the person's employment by a district, or for an investment management firm, until the expiration of the contract with the district. <i>Gov't Code 2256.005(f)</i></p> <p>A district or investment officer may use the district's employees or the services of a contractor of the district to aid the investment officer in the execution of the officer's duties under Government Code Chapter 2256. <i>Gov't Code 2256.003(c)</i></p>
Investment Training	<p>Investment training must include education in investment controls, security risks, strategy risks, market risks, diversification of investment portfolio, and compliance with the Public Funds Investment Act. <i>Gov't Code 2256.008(c)</i></p>

*Education Code 31.0751*

1. For each subject in the required curriculum under Education Code 28.002, other than physical education, and each grade level:
  - a. Provides each student with instructional materials that cover all elements of the essential knowledge and skills adopted by the SBOE for that subject and grade level; and

At the end of the school year for which OER instructional material that a district does not intend to use for another student is distributed, the printed copy of the OER instructional material becomes the property of the student to whom it is distributed.

This provision does not apply to an electronic copy of OER instructional material.

*Education Code 31.104(c), (g)-(h)*

**Responsibility for Instructional Materials and Equipment**

Each student or the student's parent or guardian is responsible for all instructional material and technological equipment not returned in an acceptable condition by the student. A student who fails to return in an acceptable condition all instructional materials and technological equipment forfeits the right to free instructional materials and technological equipment until all instructional materials and

technological equipment previously issued but not returned in an acceptable condition are paid for by the student, parent, or guardian.

As provided by board policy, a district may waive or reduce the payment required if the student is from a low-income family. [See FP] The district shall allow the student to use instructional materials and technological equipment at school during each school day.

If instructional materials or technological equipment is not returned in an acceptable condition or paid for, a district may withhold the student's records. A district may not prevent the student from graduating, participating in a graduation ceremony, or receiving a diploma. [See FL and GBA regarding student and parental right to access records; and FD, FFAB, and FL regarding a district's duties to provide records to another district]

District-Owned  
Devices**

“Covered application” means the social media service TikTok or any successor application or service developed or provided by ByteDance Limited or an entity owned by ByteDance Limited, or a social media application or service specified by proclamation of the governor to pose a risk to the state. *Gov’t Code 620.001(1), .005.*

**State Standards for Construction on or After November 1, 2021**

Applicability

All new facilities must meet the commissioner's standards for adequacy of school facilities to be eligible to be financed with state or local tax funds. *Education Code 46.008*

The school facilities standards established in 19 Administrative Code 61.1040 ("section 61.1040") shall apply to all district capital improvement projects as follows, regardless of the type of school facility or the type of construction delivery method used by the district.

1. A district capital improvement project of any type or size relating to a school facility subject to section 61.1040 must comply with applicable requirements established in section 61.1040(d), (e), (f), (j), and (k).
2. A project for new construction or major renovation at an instructional facility must comply with the requirements established in section 61.1040(d), (e), (f), (g), (j), and (k) and one of the methods required to demonstrate compliance with minimum space requirements established in section 61.1040(h) and (i).
3. A project for minor renovation at an instructional facility must comply with applicable requirements established in section 61.1040(d)(1), (e), (f), (j), and (k).
4. A project for new construction, major renovation, or minor renovation at a specialized instructional facility, noninstructional facility, or noninstructional specialized assembly facility must comply with applicable requirements established in section 61.1040(d)(1), (e), (f), (j), and (k).
5. A project for major renovation that includes minor scopes of work in an area of a school facility that is separate and distinct from the project scope of the major renovation may be performed as a part of a construction services contract for the major renovation without the minor scope of work becoming subject to the standards in section 61.1040(g), (h), or (i) if:
  - a. The minor scopes of work would not, on a stand-alone basis, be considered a major renovation project; and

- b. The cost of the minor scopes of work is included in the total cost of the project construction budget to determine the appropriate scope of work to be included in the project, as specified in section 61.1040(k)(1)(B).

*19 TAC 61.1040(b)(1)*

Definitions

The words and terms used in section 61.1040 shall have the meanings set out in section 61.1040(a).

*Capital Improvement Project*

Any school facility project consisting of new construction, major renovation, or minor renovation for which construction services are procured under Government Code Chapter 2269, in accordance with Education Code 44.031(a)(5). *19 TAC 61.1040(a)(4)* [See CV]

Implementation

The school facilities standards established in section 61.1040 shall apply to a capital improvement project for which at least one of the following has occurred on or after November 1, 2021:

1. A board adopts a fiscal year maintenance and operations budget where a capital improvement project title and a design or design and construction budget are delineated;
2. A board calls a bond election where one or more capital improvement project titles and design or design and construction budgets are delineated; or
3. A new contract or amendment to an existing contract for architectural services for new construction or a major renovation project or a contract for engineering services for a major renovation or minor renovation has been agreed to and signed and dated by both parties to the agreement.

*19 TAC 61.1040(c)(1)*

A district shall consider implementing the safety and security standards under section 61.1040(k) for any safety and security upgrades to an existing instructional facility that does not require compliance with section 61.1040. *19 TAC 61.1040(c)(4)*

*Option for Actions Taken Before November 1, 2021*

A board may elect to treat a capital improvement project, for which an action listed above was taken prior to November 1, 2021, under standards established in 19 Administrative Code 61.1036, below, or under the standards established in section 61.1040. If an election to comply with section 61.1040 is made by a board, the district and architect may mutually agree that the contract for design services may be adjusted and then must signify in writing that the project will become subject to the facilities standards established in section 61.1040 through an affirmative indication on the required certification form for the project or through some other written doc-

ument or addendum to the contract signifying election under section 61.1040 and any modifications to the contract terms agreed to by the parties.

If a board makes an election to comply with section 61.1036, it may still elect to comply with section 61.1040(k) (safety and security standards).

*19 TAC 61.1040(c)(2)-(3)*

Educational  
Adequacy  
*Long-Range  
Facility Plan*

A district shall ensure that a capital improvement project subject to section 61.1040 complies with the requirements and standards as follows.

Elements

The long-range facility plan shall include all of the following elements that apply to the facility and project and must also be updated prior to commencement of construction to include the access control document required in section 61.1040(k)(1)(B):

1. Existing and proposed instructional programs at the project campus, including special education, dual language, course offerings, and partnerships;
2. The age and condition of all buildings and systems at the project campus;
3. History of completed capital improvement projects at the facility;
4. Site evaluation of the project campus, including, but not limited to, overall site; shape; useable land; suitability for intended use as well as planned improvements; adequate vehicular, pedestrian, and emergency access; queuing; parking; and site amenities;
5. The district's educational specifications;
6. The district's enrollment projections, maximum student enrollment of the facility, and the facility's maximum instructional capacity, if applicable; and
7. The noncompliance, partial compliance, or full compliance with each of the safety and security standards required in section 61.1040(k).

Process

The process of developing the long-range facility plan shall consider input from teachers, students, parents, taxpayers, and other district stakeholders.

Compliance

The requirement for a long-range facility plan is met when a district completes the long-range facility plan, presents it to the board, and

makes it available to the prime design professional for a capital improvement project. The long-range facility plan expires after five years from the date of the final plan presented to the board and must be updated prior to commencement of a subsequent capital improvement project. A long-range facility plan developed as part of a district-wide long-range facilities plan may be used to satisfy this requirement.

*19 TAC 61.1040(d)(1)*

*Educational Specifications*

A district shall ensure that a project for new construction and major renovation subject to section 61.1040 complies with the requirements and standards as follows.

Elements

Educational specifications are a written document prepared by the district and approved by the board and shall include all of the following:

1. The district mission, vision, goals, and pedagogy;
2. Preliminary details related to facility type, grades served, and maximum student enrollment;
3. Pertinent provisions of the multi-hazard emergency operations plan that may inform the functionality of the built environment, including how the district complies with Education Code 37.108 [see CKC];
4. A written statement that includes:
  - a. Inclusive design goals and considerations supported by the district; and
  - b. How inclusive design should be addressed in new and renovated facility designs;
5. Minimum total square footage required to comply with the quantitative method of compliance; and
6. Innovative teaching or operational practices intended for implementation at the instructional facility that may lead to the use of the qualitative method of compliance.

Schedule

An educational specification shall be created for each campus type. If the design and construction of a new campus or major renovation of an existing campus differs substantially from an educational specification that exists for the same campus type, a separate educational specification must be developed. Educational specifications shall be initiated upon the first proposed project of its type and must be completed prior to initiating the planning or pro-

gramming phase of a project. Each educational specification must be updated after five years from the date of approval.

Compliance

The requirement for educational specifications is met when a district delivers the approved document to the architect.

*19 TAC 61.1040(d)(2)*

*Exceptions*

A district is exempt from the requirements of section 61.1040(d) (Educational Adequacy):

1. If a school facility experiences catastrophic damage and the board approves a capital improvement project in accordance with Education Code 44.0312(c) (delegation of contracting authority); or
2. In a situation deemed urgent by action of the board that warrants immediate action because, if left unresolved, it would impair the conduct of classes.

*19 TAC 61.1040(d)(3)*

Administration

Section 61.1040(e) establishes standards for the administration and procurements of design professional services and other professional services and for the administration of competitive bids and contracting requirements for construction services. A district shall comply with requirements in section 61.1040(e) and with all applicable requirements, restrictions, and responsibilities established in state law, administrative code, or by a local authority having jurisdiction.

A district shall comply with the administrative and procedural requirements established in section 61.1040(e) and with the standards established in section 61.1040(j) to promote construction quality and best value for a capital improvement project subject to section 61.1040.

A standard in section 61.1040 that incorporates by reference a key statutory provision or administrative rule is established as a compliance requirement for a district seeking to procure, obtain a competitive bid, or administer a contract for construction services, construction-related services, design professional services, or any other professional service required for a capital improvement project. The requirements establish a method by which a district shall demonstrate compliance with the requirements in section 61.1040(e) and with the construction quality standards and construction code requirements in section 61.1040(j). Any express reference to, or omission of, an applicable statutory provision in section 61.1040(e) may not be construed to diminish, alter, or abate a

provision of law applicable to a district or to a district capital improvement project subject to section 61.1040.

*19 TAC 61.1040(e)(1)*

*District  
Requirements  
and  
Responsibilities*

In addition to the provisions below, district requirements and responsibilities are set out in section 61.1040(e)(2).

*Procurement  
Transparency*

In accordance with Education Code 46.003(g), the board and voters of a district shall determine district needs concerning construction, acquisition, renovation, or improvement to instructional facilities. District funding is entrusted to the district by the taxpayers, and a district must ensure procurement processes and procedures are transparent and provide the best value to the district by complying with applicable laws governing procurement of professional design services and construction services [see CV] and with the standards established in section 61.1040(e) to promote construction quality. *19 TAC 61.1040(e)(2)(A)*

*Superintendent's

In accordance with Education Code 11.201, a superintendent shall oversee and ensure compliance with the standards for school facilities established in section 61.1040 and shall ensure board consideration for any action specified as being required to be made by the board, whether by statute, board rule, or other applicable requirement. *19 TAC 61.1040(e)(2)(B)*

*Requirements for  
Other Services*

Requirements for construction services, design professional services, and third-party consultants are set out in section 61.1040(e)(3)-(5).

*Contract  
Compliance and  
Quality Control*

A district shall ensure that services sought by or provided to the district for a school facility capital improvement project, including, but not limited to, professional design services, construction services, construction administration services, third-party inspection services, third-party testing services, or third-party code compliance services, are provided through a project-specific written agreement that meets the requirements of section 61.1040(e)(6). *19 TAC 61.1040(e)(6)*

*Certification of  
Compliance with  
Standards*

A district, design professional, contractor, and prime subcontractors, if applicable, shall certify compliance with all applicable standards required in section 61.1040(d), (g)-(k) as required by section 61.1040(f). *19 TAC 61.1040(f)(1)*

A district may use the qualitative method of compliance for a capital improvement project only if the board has prior documented approval of one or more instructional or operational practices for the proposed project that distributes or manages student capacity in an innovative or nontraditional manner. Prior to approving the qualitative method of compliance, all instructional and operational practices applicable to the proposed project must have been documented and approved by the board to demonstrate compliance with the requirements in section 61.1040(i). *19 TAC 61.1040(i)*

Construction Quality Standards

A capital improvement project for a school facility must reasonably comply with the following construction code requirements.

Safety and Security Standards

A capital improvement project of a district must include campus-wide implementation of the provisions of section 61.1040(k)(1) related to communications infrastructure and access control. *19 TAC 61.1040(k)(1)*

*Requirements for All Instructional Facilities*

A district shall develop a document that designates each exterior door of each instructional facility campus-wide as either primary, secondary, or nondesignated entrances and shall ensure that the documented designation of all exterior doors becomes part of the long-range facility plan prior to commencement of construction of a capital improvement project. *19 TAC 61.1040(k)(1)(B)*

*Additional Standards Based on Budget*

A district shall approve a project construction budget for a capital improvement project at completion of the design development phase of the project and prior to commencement of the construction documents phase. The project construction budget approved by the district shall determine how many of the additional safety and security standards established in section 61.1040(k)(3) are required for the project. A district shall designate in writing which of the additional safety and security standards in section

61.1040(k)(3) have been approved by the board for a capital improvement project and shall provide to the prime design professional and each design professional of record written documentation of the approved safety and security standards for the proposed facility prior to commencement of the construction documents phase of a capital improvement project. The following standards shall apply to a capital improvement project for an instructional facility until all instructional facilities campus-wide fully comply with all of the additional safety and security standards specified in section 61.1040(k).

1. If a project construction budget is \$1 million to \$5 million, the facility is required to comply with at least one additional safety and security standard specified in section 61.1040(k)(3).

*19 TAC 61.1040(k)(2)*

Exceptions

A district may opt out of the requirements specified in section 61.1040(k)(2) if:

1. The facility is scheduled to, according to the long-range facilities plan, cease operations as an instructional facility within three years of the project; and
2. The five-year long-range facility plan clearly states that, prior to the end date of the plan, the facility will be compliant with at least two additional safety and security standards if ceasing operation does not occur or operation resumes. The long-range facility plan must specify which two additional safety and security standards will be implemented.

*19 TAC 61.1040(k)(4)*

*Public Disclosure*

A board shall ensure information or documents collected, developed, or produced by the district as part of a capital improvement project are reviewed to ensure that any project-specific safety and security information is adjusted for disclosure if necessary to ac-

**State Standards for Construction Before November 1, 2021**

The requirements for school facility standards set out in 19 Administrative Code 61.1036 ("section 61.1036") shall apply to projects for new construction or major space renovations if:

**Safety and Security  
Requirements for  
Facilities**

Facilities Standards  
Compliance

A district must ensure that each district facility complies with each school facilities standard, including performance standards and operational requirements, related to safety and security adopted under Education Code 7.061 (Facilities Standards) or provided by other law or agency rule.

A district must develop and maintain documentation of the district's implementation of and compliance with school safety and security facilities standards for each district facility, including a good cause exception claimed under Education Code 37.353 [see Good Cause Exception, below], and shall, if requested by the Texas Education Agency (TEA), provide that documentation in the manner prescribed by TEA.

*Education Code 37.351*

Good Cause  
Exception

If a district is unable to bring a district facility into compliance with a school facilities standard related to safety and security, the district may claim a good cause exception from the requirement to comply with that standard, including for a reason related to:

1. The age, physical design, or location of the noncompliant facility;
2. The projected remaining use or functional life of the noncompliant facility;
3. Availability of funding; or
4. Supply chain obstacles.

A district that claims a good cause exception must develop an alternative performance standard with which the district is able to comply.

Definitions

The following words and terms when used in 19 Administrative Code 61.1031 shall have the following meanings:

"Actively monitored" means supervised by an adult who can visibly review visitors prior to entrance, who can take immediate action to close and/or lock the door, and whose duties allow for sufficient attention to monitoring.

“Exterior secured area” means an area fully enclosed by a fence and/or wall that:

1. If enclosed by a fence or wall, utilizes a fence or wall at least 6 feet high with design features that prevent it from being easily scalable, such as stone, wrought iron, chain link with slats or wind screen, or chain link topped with an anti-scaling device, or utilizes a fence or wall at least 8 feet high;
2. Is well maintained; and
3. If gated, features locked gates with emergency egress hardware and has features to prevent opening from the exterior without a key or combination mechanism.

“Instructional facility” has the meaning assigned in Education Code 46.001, and includes any real property, an improvement to real property, or a necessary fixture of an improvement to real property that is used predominantly for teaching curriculum under Education Code 28.002. An instructional facility does not include real property, improvements to real property, or necessary fixtures of an improvement to real property that are part of a federal, state, or private correctional facility or facility of an institution of higher education, medical provider, or other provider of professional or social services over which a school system has no control.

“Modular, portable building” means:

1. An industrialized building as defined by Occupations Code 1202.002 and 1202.003;

Safety and Security  
Standards

The provisions of 19 Administrative Code 61.1031 apply to all school instructional facilities owned, operated, or leased by a school system, regardless of the date of construction or date of lease. The provisions ensure that all school system instructional facilities have access points that are secured by design, maintained to operate as intended, and appropriately monitored. *19 TAC 61.1031(b)*

A school system shall implement the following safety and security standards compliance requirements to all school instructional facilities owned, operated, or leased by the school system.

*Doors,  
Entrances, and  
Windows*

All instructional facilities campus-wide, including modular, portable buildings, must include the addition of graphically represented alpha-numerical characters on both the interior and exterior of each exterior door location. The characters may be installed on the door, or on at least one door at locations where more than one door leads from the exterior to the same room inside the facility, or on the wall immediately adjacent to or above the door location. Characters shall comply with the International Fire Code Section 505. The primary entrance of an instructional facility shall always be the first in the entire sequence and is the only door location that does not require numbering. The numbering sequence shall be clockwise and may be sequenced for the entire campus or for each facility individually. The door-numbering process must comply with any and all accessibility requirements related to signage.

Unless a secure vestibule is present, a primary entrance shall:

1. Meet all standards for exterior doors;
2. Include a means to allow an individual located within the building to visually identify an individual seeking to enter the primary entrance when the entrance is closed and locked, including, but not limited to, windows, camera systems, and/or intercoms;

3. Feature a physical barrier that prevents unassisted access to the facility by a visitor; and
4. Feature a location for a visitor check-in and check-out process.

All exterior doors shall:

1. Be, by default, set to a closed, latched, and locked status, except that:
  - a. A door may be unlocked if it is actively monitored or within an exterior secured area; and
  - b. For the purposes of ventilation, a school system may designate in writing as part of its multihazard emergency operations plan specific exterior doors that are allowed to remain open for specified periods of time if explicitly authorized by the school safety and security committee when a quorum of members are present, and only if it is actively monitored or within an exterior secured area;
2. Be constructed, both for the door and door frame and their components, of materials and in a manner that make them resistant to entry by intruders. Unless inside an exterior secured area, doors constructed of glass or containing glass shall be constructed or modified such that the glass cannot be easily broken and allow an intruder to open or otherwise enter through the door (for example, using forced entry-resistant film);
3. Include:
  - a. A mechanism that fully closes and engages locking hardware automatically after entry or egress without manual intervention, regardless of air pressure within or outside of the facility; and
  - b. A mechanism that allows the door to be opened from the inside when locked to allow for emergency egress while remaining locked; and
4. If keyed for re-entry, be capable of being unlocked with a single (or a small set of) master key(s), whether physical key, punch code, or key-fob or similar electronic key device.

Except when inside an exterior secured area, classrooms with exterior entry doors shall include a means to allow an individual located in the classroom to visually identify an individual seeking to enter the classroom when the door is closed and locked, including, but not limited to, windows, camera systems, and/or intercoms.

Except when inside an exterior secured area, all windows that are adjacent to an exterior door and that are of a size and position that, if broken, would easily permit an individual to reach in and open the door from the inside shall be constructed or modified such that the glass cannot be easily broken.

Except when inside an exterior secured area, all ground-level windows near exterior doors that are of a size and position that permits entry from the exterior if broken shall be constructed or modified such that the glass cannot be easily broken and allow an intruder to enter through the window frame (for example, using forced entry-resistant film).

If designed to be opened, all ground-level windows shall have functional locking mechanisms that allow for the windows to be locked from the inside and, if large enough for an individual to enter when opened or if adjacent to a door, be closed and locked when staff are not present.

Roof access doors should default to a locked, latched, and closed position when not actively in use and be lockable from the interior.

All facilities must include one or more distinctive, exterior secure master key box(es) designed to permit emergency access to both law enforcement agencies and emergency responder agencies from the exterior (for example, a Knox box) at a location designated by the local authorities with applicable jurisdiction or provide all local law enforcement electronic or physical master key access to the building(s).

*Communications  
Infrastructure*

A communications infrastructure shall be implemented that must:

1. Ensure equipment is in place such that law enforcement and emergency responder two-way radios can function within most portions of the building(s); and
2. Include a panic alert button, duress, or equivalent alarm system, via standalone hardware, software, or integrated into other telecommunications devices or online applications, that includes the following functionality:
  - a. An alert must be capable of being triggered by campus staff, including temporary or substitute staff, from an integrated or enabled device.
  - b. An alert must be triggered automatically in the event a district employee makes a 9-1-1 call using the hardware or integrated telecommunications devices from any location within the school system.

- c. With any alert generated, the location of where the alert originated shall be included.
- d. The alert must notify a set of designated school administrators as needed to provide confirmation of response, and, if confirmed, notice must be issued to the 9-1-1 center of an emergency situation requiring a law enforcement and/or emergency response and must include the location of where the alert originated. A notice can simultaneously be issued to all school staff of the need to follow appropriate emergency procedures.
- e. For any exterior doors that feature electronic locking mechanisms that allow for remote locking, the alert system will trigger those doors to automatically lock.

*Compliance with  
9-1-1 Rules and  
Regulations*

In implementing these requirements, school systems shall comply with state and federal Kari's Laws and federal RAY BAUM's Act and corresponding rules and regulations pertaining to 9-1-1 service for school telephone systems, including a multi-line telephone system.

*19 TAC 61.1031(c)*

Operating  
Requirements

A school system shall implement the following.

1. Access control. The board shall adopt a policy requiring the following continued auditing of building access:
  - a. Conduct at least weekly inspections during school hours of all exterior doors of all instructional facilities to certify that all doors are, by default, set to a closed, latched, and locked status and cannot be opened from the outside without a key as required above;
  - b. Report the findings of weekly inspections to the school system's safety and security committee and ensure the results are kept for review as part of the safety and security audit;
  - c. Report the findings of weekly inspections to the principal or leader of the instructional facility to ensure awareness of any deficiencies identified and who must take action to reduce the likelihood of similar deficiencies in the future; and
  - d. Include a provision in the school system's applicable policy stating that nothing in a school system's access control procedures will be interpreted as discouraging parents, once properly verified as authorized campus

visitors, from visiting campuses they are authorized to visit.

2. Exterior and interior door numbering site plan.
  - a. A school system must develop and maintain an accurate site layout and exterior and interior door designation document for each instructional facility school system-wide that identifies all exterior and interior doors in the instructional facility and depicts all exterior doors on a floor plan with an alpha-numeric designation, in accordance with the door numbering specifications established above.
  - b. Copies of exterior and interior door numbering site plans shall be readily available in each campus main office.
  - c. Electronic copies of exterior and interior door numbering site plans shall be supplied to the local 9-1-1 administrative entity so that the site plans can be made available to emergency responders by 9-1-1 dispatchers.
  - d. The site layout and exterior and interior door designation document should be oriented in a manner that depicts true north.
3. Maintenance.
  - a. A school system shall perform at least twice-yearly maintenance checks to ensure the facility components function as required. At a minimum, maintenance checks shall ensure the following:
    - (1) Instructional facility exterior doors function properly, including meeting the requirements above;
    - (2) The locking mechanism for any ground-level windows that can be opened function properly;
    - (3) Any perimeter barriers and related gates function properly;
    - (4) All panic alert or similar emergency notification systems in classrooms and campus central offices function properly, which includes at least verification from multiple campus staff and classroom locations that a notification can be issued and received by the appropriately designated personnel, that the alert is successfully broadcast to all campus staff and to appropriate law enforcement and emergency responders, and that a potential threat observed on

video triggers an alert from video surveillance monitoring systems;

- (5) All school telephone systems and communications infrastructure provide accurate location information when a 9-1-1 call is made in accordance with state and federal laws and rules and when an alert is triggered;
  - (6) All exterior master key boxes function properly and the keys they contain function properly;
  - (7) Law enforcement and emergency responder two-way radios operate effectively within each instructional facility; and
  - (8) Two-way radios used by school system peace officers, school resource officers, or school marshals properly communicate with local law enforcement and emergency response services.
- b. A school system shall ensure procedures are in place to require that staff who become aware of a facility component functionality deficiency that would be identified during the twice-yearly maintenance review immediately report the deficiency to the school system's administration, regardless of the status of the twice-yearly maintenance review.
- c. A school system shall promptly remedy any deficiencies discovered as a consequence of maintenance checks.

*19 TAC 61.1031(d)*

Compliance With  
Standards for  
Construction

In implementing the requirements of 19 Administrative Code 61.1031, school systems shall comply with the provisions of 19 Administrative Code 61.1040(j). [See CS]

To the extent that any provisions of 19 Administrative Code 61.1031 conflict with rules adopted in Chapter 61, Subchapter CC, (relating to Commissioner's Rules Concerning School Facilities), including terms defined or standards established, the provisions of 19 Administrative Code 61.1031 prevail.

In implementing these requirements, school systems shall comply with the standards adopted under Government Code 469.052 (Elimination of Architectural Barriers).

*19 TAC 61.1031(e), (f), (g)*

Records Control  
Schedule

In implementing these requirements, school systems must adopt a three-year records control schedule that complies with the minimum requirements established by the Texas State Library and Archives Commission schedule, record series item number 5.4.017, as referenced in Government Code 441.169 and Local Government Code 203.041. *19 TAC 61.1031 (h)* [See CPC]

Certification

All requirements above shall be implemented during the 2022- 23 school year and thereafter. Annually, a school system shall certify compliance with those requirements as part of ongoing security audits under Education Code 37.108(b); maintain the certification locally; and report as required by the Texas School Safety Center. Any and all noncompliance shall be reported to the school system's safety and security committee, the school system's board, and the Texas School Safety Center, as required by Education Code 37.108(c). [See CKA]

*Provisional  
Certification*

A school system may provisionally certify compliance of a facility component that is not in compliance if:

1. The school system has taken the necessary steps to initiate an upgrade of the facility component to ensure compliance; and
2. For the 2023-24 school year, the contractor or supplier has been procured and has provided a time frame when the upgrade will be completed.

TEA may modify rule requirements or grant provisional certification for individual site needs as determined by TEA.

Rules related to provisional certification expire August 31, 2024.

*19 TAC 61.1031(i), (j)*

**Silent Panic Alert  
Technology**

Beginning with the 2025-26 school year, a district shall provide each classroom in the district with silent panic alert technology that allows for immediate contact with district emergency services and emergency services agencies, law enforcement agencies, health departments, and fire departments.

Silent panic alert technology provided by a district does not satisfy the requirement under Education Code 37.108(a)(2) [see CKC] for the district to ensure employees have classroom access to a telephone or another electronic communication device.

To comply, a district may use funds provided to the district through the school safety allotment or other available funds and may use the district's customary procurement process.

*Education Code 37.117*

**Security Criteria**

A district that constructs a new instructional facility or conducts a major renovation of an existing instructional facility using Instructional Facilities Allotment funds shall consider, in the design of the instructional facility, appropriate security criteria. *Education Code 46.0081*

**Playgrounds**

Public funds may not be used to purchase or install:

1. Playground equipment that:
  - a. Does not comply with each applicable provision of ASTM Standard F1487-07ae1, "Consumer Safety Performance Specification for Playground Equipment for Public Use," published by ASTM International; or
  - b. Has a horizontal bare metal platform or a bare metal step or slide, unless the bare metal is shielded from direct sun by a covering provided with the equipment or by a shaded area in the location where the equipment is installed;
2. Surfacing for the area under and around playground equipment if the surfacing will not comply with each applicable provision of ASTM Standard F2223-04e1, "Standard Guide for ASTM Standards on Playground Surfacing," published by ASTM International.

**Exception**

Public funds may be used to maintain playground equipment or surfacing that was purchased before September 1, 2009, even if the equipment or surfacing does not comply with the applicable specifications described above.

*Health and Safety Code 756.061*

**Building Access  
Control**

Audits of building access control shall include weekly inspections of instructional facilities during school hours to certify all exterior doors are, by default, set to closed, latched, and locked status and cannot be opened from the outside without a key.

The Superintendent shall ensure that the findings of the weekly inspections are:

1. Reported to the District safety and security committee; and
2. Reported to the campus principal or lead administrator of the instructional facility to ensure awareness of any deficiencies identified.

The campus principal or lead administrator shall assign appropriate staff to take action to reduce the likelihood of similar deficiencies in the future.

The results of the weekly reports shall be kept for review as part of the required safety and security audit.

The District's building access control procedures shall not be interpreted as discouraging parents or guardians who have been properly verified as authorized visitors from visiting their student's campus. [See GKC]

**Natural Gas Piping  
Pressure Testing**

A district shall perform biennial pressure tests on the natural gas piping system in a school facility before the beginning of the school year. A district with more than one facility may perform the testing on a two-year cycle under which the district pressure tests the natural gas piping system in approximately one-half of the facilities each year. If a district operates the facilities on a year-round calendar, the pressure test in each of those facilities must be conducted and reported not later than July 1 of the year in which the pressure test is performed.

A natural gas piping pressure test performed under a municipal code in compliance with Railroad Commission rules shall satisfy the pressure testing requirements.

*Utilities Code 121.502; 16 TAC 8.230(c)(1), (4)*

Requirements of  
Test

A district shall perform the pressure test to determine whether the natural gas piping downstream of a district facility's meter holds at least normal operating pressure over a specified period determined by the Railroad Commission. During the pressure test, each system supply inlet and outlet in the facility must be closed. The pressure test shall be performed by a person authorized under Railroad Commission rules. At a district's request, the Railroad Commission shall assist the district in developing a procedure for conducting the test. *Utilities Code 121.503; 16 TAC 8.230(c)(2), (3)*

Notice

A district shall provide written notice to the district's natural gas supplier specifying the date and result of each pressure test or other inspection. The supplier shall develop procedures for receiving such written notice from the district. *Utilities Code 121.504(a); 16 TAC 8.230(b)(1)*

Termination of  
Service

A supplier shall terminate service to a district facility if:

1. The supplier receives official notification from the firm or individual conducting the test of a hazardous natural gas leakage in the facility piping system; or
2. A test or other inspection is not performed as required.

*Utilities Code 121.505(a)*

A supplier shall develop procedures for terminating service to a district if the supplier:

1. Receives notification of a hazardous natural gas leak in the school facility piping system; or

2. Does not receive written notification from the district specifying the completion date and results of the testing.

*16 TAC 8.230(b)(2)*

Reporting Leaks

An identified natural gas leakage in a district facility must be reported to the board. The firm or individual conducting the natural gas piping pressure test shall immediately report any hazardous natural gas leak in a district facility to the board and the natural gas supplier. *Utilities Code 121.506; 16 TAC 8.230(c)(6)*

**LP-Gas Systems  
Testing**

At least biennially, a district shall perform leakage tests on the LP-gas piping system in each district facility before the beginning of the school year. The district may perform the leakage tests on a two-year cycle under which the tests are performed for the LP-gas piping systems of approximately half of the facilities each year. If a district operates one or more district facilities on a year-round calendar, the leakage test in each of those facilities must be conducted and reported not later than July 1 of the year in which the test is performed.

A test performed under a municipal code satisfies the testing requirements.

*Natural Resources Code 113.352; 16 TAC 9.41*

Requirements of  
Test

A district shall perform the leakage test to determine whether the LP-gas piping system holds at least the amount of pressure specified by the Railroad Commission. The leakage test must be conducted in accordance with Railroad Commission rules at 16 Administrative Code 9.41. The leakage test shall be conducted by a person authorized under Railroad Commission rules. At a district's request, the Railroad Commission shall assist the district in providing for the certification of a district employee to conduct the test and in developing a procedure for conducting the test. *Natural Resources Code 113.353; 16 TAC 9.41(b)-(d)*

Notice

Before the introduction of any LP-gas into the LP-gas piping system, a district shall provide verification to its supplier that the piping has been tested.

Documentation

A district shall retain documentation specifying the date and the result of each leakage test or other inspection of each LP-gas piping system until at least the fifth anniversary of the date the test or other inspection was performed. The Railroad Commission may review a district's documentation of each leakage test or other inspection conducted by the district.

*Natural Resources Code 113.354; 16 TAC 9.41(b)(3)-(4)*

Termination of  
Service

A supplier shall terminate service to a district facility if:

1. The supplier receives official notification from the district or the person conducting the test that there is leakage in a school LP-gas system;
2. The leakage test performed on a school LP-gas system was not performed as required; or
3. The supplier has not received a copy of the required form from the district verifying that the LP-gas system has been tested in accordance with 16 Administrative Code 9.41.

*Natural Resources Code 113.355; 16 TAC 9.41(e)*

Reporting Leaks

An identified school LP-gas leakage in a school district facility shall be reported to the board. The district shall immediately remove the affected school district facility from LP-gas service until repairs are made and it passes a subsequent school LP-gas system leakage test. If a district employee performs the initial test, then the subsequent test may not be performed by a district employee. *Natural Resources Code 113.356; 16 TAC 9.41(b)(2)*

Definitions

“School district facility” means each building or structure operated by a school district and equipped with a school LP-gas system in which students receive instruction or participate in school sponsored extracurricular activities, excluding maintenance or bus facilities, vehicle fueling facilities, administrative offices, and similar facilities not regularly used by students.

“School LP-gas system” means all piping, fittings, valves, regulators, appliance connectors, equipment, and connections supplying fuel gas from the outlet of the shutoff valve at each LP-gas storage container or upstream of each meter to the shutoff valve(s) on each appliance in a school district facility.

*16 TAC 9.41(a)(3)-(4)*

**Intrastate Pipeline  
Emergency  
Response Plan**

The Railroad Commission shall require the owner or operator of each intrastate hazardous liquid or carbon dioxide pipeline facility, any part of which is located within 1,000 feet of a public school building containing classrooms, or within 1,000 feet of another public school facility where students congregate, to:

1. On written request from a district, provide in writing the following parts of a pipeline emergency response plan that are relevant to the school:
  - a. A description and map of the pipeline facilities that are within 1,000 feet of the school building or facility;

- b. A list of any product transported in the segment of the pipeline that is within 1,000 feet of the school facility;
  - c. The designated emergency number for the pipeline facility operator;
  - d. Information on the state's excavation one-call system; and
  - e. Information on how to recognize, report, and respond to a product release; and
2. Mail a copy of the requested items by certified mail, return receipt requested, to the superintendent of the district in which the school building or facility is located.

A pipeline operator or the operator's representative shall appear at a regularly scheduled board meeting to explain the above items if requested by the board or district.

The Railroad Commission may not require the release of parts of an emergency response plan that include security sensitive information, including maps or data. Security sensitive information shall be made available for review by but not provided to the board.

*Natural Resources Code 117.012(k)-(m); 16 TAC 8.315*

**Asbestos Hazard  
Emergency  
Response Act**

The rules adopted under the Asbestos Hazard Emergency Response Act (AHERA) (15 U.S.C. 2641-2656) require a district to identify asbestos-containing material (ACM) in schools by visually inspecting school buildings for such materials, sampling such materials if they are not assumed to be ACM, and having samples analyzed by appropriate techniques; submit management plans; and implement the plans in a timely fashion. Districts are required to use persons who have been accredited to conduct inspections, reinspections, develop management plans, or perform response actions. The rule includes recordkeeping requirements.

Delegation

Districts may contractually delegate their duties, but they remain responsible for the proper performance of those duties.

*40 C.F.R. 763.80(a)*

Duties

A district shall:

1. Ensure that the activities of any persons who perform inspections, reinspections, and periodic surveillance, develop and update management plans, and develop and implement response actions, including operations and maintenance, are carried out in accordance with 40 C.F.R. 763.80-.99 and appendices (Subpart E).
2. Ensure that all custodial and maintenance employees are properly trained as required by Subpart E and other applicable federal and/or state regulations (e.g., the Occupational Safety and Health Administration asbestos standard for construction, the Environmental Protection Agency [EPA] worker protection rule, or applicable state regulations).
3. Ensure that workers and building occupants, or their legal guardians, are informed at least once each school year about inspections, response actions, and post-response action activities, including periodic reinspection and surveillance activities that are planned or in progress.
4. Ensure that short-term workers (e.g., telephone repair workers, utility workers, or exterminators) who may come in contact with asbestos in a school are informed of the locations of asbestos-containing building material (ACBM) and suspected ACBM assumed to be ACM.
5. Ensure that warning labels are posted in accordance with 40 C.F.R. 763.95 [see Warning Labels, below].

8. Consider whether any conflict of interest may arise from the interrelationship among accredited asbestos personnel and whether that should influence the selection of accredited personnel to perform activities under Subpart E.

*40 C.F.R. 763.84*

Management Plan

Each district shall develop an asbestos management plan for each school, including all buildings that they lease, own, or otherwise use as school buildings, and submit the plan to the Texas Department of State Health Services (TDSHS). Each district shall maintain and update its management plan to keep it current with ongoing operations and maintenance, periodic surveillance, inspection, reinspection, and response action activities. All provisions required to be included in the management plan shall be retained as part of the management plan, as well as any information that has been revised to bring the plan up-to-date. *40 C.F.R. 763.93(a), (d)*

able ACBM, the locations where such measures and action will be taken, reasons for selecting the response action or preventive measure, and a schedule for beginning and completing each preventive measure and response action.

7. With respect to the persons who inspected for ACBM and who will design or carry out response actions, except for operations and maintenance, a statement regarding the person's accreditation.
8. A detailed description in the form of a blueprint, diagram, or in writing of any ACBM or suspected ACBM assumed to be ACM that remains in the school once response actions are undertaken pursuant to 40 C.F.R. 763.90. This description shall be updated as response actions are completed.
9. A plan for reinspection under 40 C.F.R. 763.85, a plan for operations and maintenance activities under 40 C.F.R. 763.91, a plan for periodic surveillance under 40 C.F.R. 763.92, a description of the management planner's recommendation regarding additional cleaning under 40 C.F.R. 763.91(c)(2) as part of an operation's maintenance program, and the district's response to that recommendation.

11. An evaluation of the resources needed to complete response actions successfully and carry out reinspection, operations and maintenance activities, periodic surveillance, and training.
12. With respect to each consultant who contributed to the management plan, the name of the consultant and a statement regarding the person's accreditation.

*40 C.F.R. 763.93(e); Occupations Code 1954.101 (License Required for Certain Activities)*

*Plan Availability*

Upon submission of a management plan to TDSHS for review, a district shall keep a copy of the plan in its administrative office. The management plans shall be available, without cost or restriction, for inspection by representatives of EPA and the state, the public, including teachers, other school personnel and their representatives, and parents. The district may charge a reasonable cost to make copies of management plans.

Each school shall maintain in its administrative office a complete, updated copy of the management plan for that school. Management plans shall also be available for inspection, without cost or restriction, to workers before work begins in any area of a school building. The school shall make management plans available for inspection to representatives of EPA and the state, the public, including parents, teachers, and other school personnel and their representatives, within five working days after receiving a request for inspection. The school may charge a reasonable cost to make copies of the management plan.

*Notice of  
Availability*

Upon submission of its management plan to TDSHS and at least once each school year, a district shall notify in writing parent, teacher, and employee organizations of the availability of the management plans and shall include in the management plan a description of the steps taken to notify such organizations, and a dated copy of the notification.

*40 C.F.R. 763.93(g)*

Inspections

Each building leased or acquired to be used as a school building shall be inspected in accordance with 40 C.F.R. 763.85(a)(3) and (4) prior to use as a school building. In the event that emergency use of an uninspected building as a school building is necessitated, such buildings shall be inspected within 30 days after commencement of such use. At least once every three years after a management plan is in effect, each district shall conduct a reinspection of all friable and nonfriable known or assumed ACBM in each school building that they lease, own, or otherwise use as a school building. For each inspection and reinspection, the district shall have an accredited inspector provide a written assessment of all friable known or assumed ACBM in the school building. *40 C.F.R. 763.85, .88*

Response Actions

The district shall select and implement in a timely manner the appropriate response actions in 40 C.F.R. 763.90 consistent with the assessment. The response actions selected shall be sufficient to protect human health and the environment. The district may then select, from the response actions that protect human health and the environment, that action which is the least burdensome method. *40 C.F.R. 763.90(a)*

Periodic  
Surveillance

At least once every six months after the management plan is in effect, each district shall conduct periodic surveillance in each building that it leases, owns, or otherwise uses as a school building that contains ACBM or is assumed to contain ACBM. *40 C.F.R. 763.92(b)*

Operations and  
Maintenance  
Training

The district shall ensure, prior to the implementation of operations and maintenance provisions of the management plan, that all members of the maintenance and custodial staff who may work in a building that contains ACBM receive awareness training of at least two hours, whether or not they are required to work with ACBM. New custodial and maintenance employees shall be trained within 60 days after commencement of employment. Training shall include information specified in 40 C.F.R. 763.92(a)(1)(i)-(v). The district shall ensure that all members of its maintenance and custodial staff who conduct any activities that will result in the disturbance of ACBM shall receive training described above and 14 hours of additional training that includes information specified in 40 C.F.R. 763.92(a)(2)(i)-(iv). *40 C.F.R. 763.92(a)*

Warning Labels

The district shall attach a warning label immediately adjacent to any friable and nonfriable ACBM and suspected ACBM assumed to be ACM located in routine maintenance areas at each school building. This shall include friable ACBM that was responded to by a means other than removal and ACBM for which no response action was carried out. All labels shall be prominently displayed in readily visible locations and shall remain posted until the ACBM that is labeled is removed. The warning label shall read, in print which is readily visible because of large size or bright color, as follows: CAUTION: ASBESTOS. HAZARDOUS. DO NOT DISTURB WITHOUT PROPER TRAINING AND EQUIPMENT. *40 C.F.R. 763.95*

**Texas Asbestos  
Health Protection  
Act**

Texas Asbestos Health Protection rules are found in 25 Administrative Code Chapter 296.

The executive commissioner of the Health and Human Services Commission adopts by reference and enforces, except as otherwise provided in this paragraph, 40 C.F.R. Part 763, Subpart E, (relating to Asbestos-Containing Materials in Schools) adopted under AHERA. The executive commissioner does not adopt from Appendix C (relating to Asbestos Model Accreditation Plan), the EPA's recommended project monitor accreditation category in its Asbestos Model Accreditation Plan. *25 TAC 296.2*

For purposes of enforcing the federal regulations adopted to implement AHERA, 25 Administrative Code Chapter 296 applies to districts. *25 TAC 296.1(b)(4), .21(51)*

A district must ensure compliance with AHERA for all schools under its administrative control. A TDSHS representative may enter any regulated school building to inspect and investigate conditions to determine compliance in accordance with Occupations Code 1954.060, Texas Health and Safety Code 12.018, and 25 Administrative Code 296.271(c) (relating to Inspections and Investigations).

TDSHS may take enforcement action as described in 25 Administrative Code Chapter 296, Subchapter Q (relating to Compliance) for violations of AHERA. *25 TAC 296.4*

Asbestos- Related  
Activity

An “asbestos-related activity” means the removal, encapsulation, or enclosure of asbestos; the performance of an asbestos survey; the development of an asbestos management plan or response action; the collection or analysis of an asbestos sample; or the performance of another activity for which a license is required under Occupations Code Chapter 1954 (the Texas Asbestos Health Protection Act). *Occupations Code 1954.002, .101 (License Required for Certain Activities)*

The public building owner or the owner’s delegated agent must engage persons licensed as required in 25 Administrative Code Chapter 296 to perform any asbestos-related activity. *25 TAC 296.21(74), .211(a)*

---

**Note:** For public building owner responsibilities for asbestos management, see 25 Administrative Code 296.191

---

Notice of Certain  
Activities

A person engaged in removing asbestos from or encapsulating or enclosing asbestos in a public building shall notify TDSHS in writing at least 10 days before the date the person begins the removal, encapsulation, or enclosure project according to applicable laws. A person may give the required notice orally if the removal, encapsulation, or enclosure project is of an emergency nature. *Occupations Code 1954.252*

TDSHS must be notified of any demolition of a public building whether or not asbestos has been identified. TDSHS must be notified of any asbestos abatement within a public building. Notification must be submitted as required in 25 Administrative Code 296.151.

*Responsibility*

It is the responsibility of the public building owner and delegated agent (such as a licensed asbestos abatement contractor, asbestos consultant, or demolition contractor) to submit a notification to TDSHS for each project. When the task to notify is delegated, the building owner’s delegation and the name of the delegated agent must be specified on the notification form. The building owner and the delegated agent are responsible for the accuracy and timeliness of the notification and one or both may be found in violation for failing to accurately and timely notify TDSHS of a project.

or Above \$50,000**

Except as provided by Education Code Chapter 44, Subchapter B, all district contracts for the purchase of goods and services valued at \$50,000 or more in the aggregate for each 12-month period shall be made by the method, of the following methods, that provides the best value for a district [see also CH]:

1. An interlocal contract. *Education Code 44.031(a)(4)* [See CH]

Exceptions  
*Emergency  
Damage or

*Contracts  
Requiring a Bond*

A reverse auction procedure may not be used to obtain services related to a public work contract for which a bond is required under Government Code 2253.021 [see Payment and Performance Bonds, below]. "Reverse auction procedure" has the meaning assigned by Government Code 2155.062 or a procedure similar to that described by Section 2155.062. *Gov't Code 2253.021(h)*

**Notice Publication**

A board shall advertise or publish notice of requests for bids, proposals, or qualifications in a manner prescribed by law.

*Gov't Code 2269.052(a)-(b)*

[See CH for additional notice publication requirements.]

**Contract Selection  
Criteria**

In determining the award of a contract under Government Code Chapter 2269, the district shall consider and apply:

1. Any existing laws, including any criteria, related to historically underutilized businesses; and
2. Any existing laws, rules, or applicable municipal charters, including laws applicable to local governments, related to the use of women, minority, small, or disadvantaged businesses.

In determining the award of a contract, the district may consider:

1. The price.
2. The offeror's experience and reputation.
3. The quality of the offeror's goods or services.
4. The impact on the ability of the district to comply with rules relating to historically underutilized businesses.
5. The offeror's safety record.
6. The offeror's proposed personnel.
7. Whether the offeror's financial capability is appropriate to the size and scope of the project.
8. Any other relevant factor specifically listed in the request for bids, proposals, or qualifications.

*Gov't Code 2269.055*

Experience Modifier

*Definitions*

"Contract" means a contract awarded by a district that is:

1. A construction contract, as defined by Business and Commerce Code 272.0001; or
2. A contract for constructing, altering, or repairing a public building or carrying out or completing any public work.

"Contract solicitation" means a request for bids, proposals, qualifications, offers, or other responses from potential contractors under a contract.

“Experience modifier” means a factor expressed as a value that:

1. Is assigned to an employer seeking to purchase a workers’ compensation insurance policy in this state;
2. Affects the premium amount for the policy; and
3. Is based on the employer’s past loss experience.

*Voidable  
Contract  
Provisions*

An offer to contract or a contract solicitation may not require a specified experience modifier in order to accept the offer or respond to the contract solicitation.

A contract or an agreement collateral to or affecting a contract may not require the contractor to have a specified experience modifier.

A contract solicitation, an offer, a contract, or an agreement collateral to or affecting a contract that violates these requirements is voidable as against public policy.

*Gov’t Code 2252.909*

**Using Method Other Than Competitive Bidding**

The board that considers a construction contract using a method authorized by Government Code Chapter 2269 other than competitive bidding must, before advertising, determine which method provides the best value for the district.

Determine Best Value

Publish Criteria

The district shall base its selection among offerors on applicable criteria listed for the particular method used. The district shall publish in the request for proposals or qualifications:

1. The criteria that will be used to evaluate the offerors;
2. The applicable weighted value for each criterion; and
3. A detailed methodology for scoring each criterion.

Make Evaluations Public

The district shall document the basis of its selection and shall make the evaluations public not later than the seventh day after the date the contract is awarded.

*Gov’t Code 2269.056*

**Submission**

A person who submits a bid, proposal, or qualification to a governmental entity shall seal it before delivery. *Gov’t Code 2269.059*

**Documents Related to Evaluation and Ranking**

An offeror who submits a bid, proposal, or response to a request for qualifications for a construction contract under Government Code Chapter 2269 may, after the contract is awarded, make a request in writing to the district to provide documents related to the evaluation of the offeror’s submission.

Not later than the 30th day after the date a request is made, the district shall deliver to the offeror the documents relating to the evaluation of the submission including, if applicable, its ranking of the submission.

*Gov't Code 2269.060*

**Uniform General  
Conditions for  
Contracts**

After reviewing the uniform general conditions adopted by the Texas Facilities Commission under Government Code 2166.302, a school district may adopt uniform general conditions to be incorporated in all district building construction contracts. *Education Code 44.035*

**Right to Work**

While engaged in procuring goods or services, awarding a contract, or overseeing procurement or construction for a public work or public improvement under Government Code Chapter 2269, a district:

1. May not consider whether a person is a member of or has another relationship with any organization; and
2. Shall ensure that its bid specifications and any subsequent contract or other agreement do not deny or diminish the right of a person to work because of the person's membership or other relationship status with respect to an organization.

*Gov't Code 2269.054*

**Collective  
Bargaining**

A district awarding a public work contract funded with state money, including the issuance of debt guaranteed by the state, may not:

1. Prohibit, require, discourage, or encourage a person bidding on the public work contract, including a contractor or subcontractor, from entering into or adhering to an agreement with a collective bargaining organization relating to the project; or
2. Discriminate against a person described by item 1 based on the person's involvement in the agreement, including the person's status or lack of status as a party to the agreement or willingness or refusal to enter into the agreement.

*Gov't Code 2269.0541(a)*

**Out-of-State Bidders**

For legal requirements regarding out-of-state bidders, see CH.

**Change Orders**

If a change in plans or specifications is necessary after the performance of a contract is begun or if it is necessary to decrease or increase the quantity of work to be performed or of materials, equipment, or supplies to be furnished, the district may approve change orders making the changes. The district may grant general authority to an administrative official to approve the change orders.

The total contract price may not be increased because of the changes unless additional money for increased costs is approved for that purpose from available money or is provided for by the authorization of the issuance of time warrants.

A contract with an original contract price of \$1 million or more may not be increased by more than 25 percent. If a change order for a contract with an original contract price of less than \$1 million increases the contract amount to \$1 million or more, the total of the subsequent change orders may not increase the revised contract amount by more than 25 percent of the original contract price.

*Education Code 44.0411*

Unsigned Change  
Orders

A vendor may elect not to proceed with additional work directed by a district under a public work contract if:

1. The vendor has not received a written, fully executed change order for the district-directed additional work; and
2. The aggregate actual or anticipated value of the additional work under the vendor's contract terms plus any previous district-directed additional work for which the vendor has not received a written, fully executed change order exceeds 10 percent of the vendor's original public work contract amount.

A subcontractor may elect not to proceed with additional work directed by a vendor under a subcontract if:

1. The subcontractor has not received a written, fully executed change order for the district-directed additional work from the vendor; and
2. The aggregate actual or anticipated value of the additional work under the subcontractor's subcontract terms plus any previous district-directed additional work for which the subcontractor has not received a written, fully executed change order exceeds 10 percent of the subcontractor's subcontract amount.

A vendor or subcontractor who elects not to proceed with additional work is not responsible for damages associated with the election not to proceed.

*Gov't Code 2251.0521*

**Inspection,  
Verification, and  
Testing**

Independently of the contractor, construction manager-at-risk, or design-build firm, a district shall provide or contract for the construction materials engineering, testing, and inspection services and the verification testing services necessary for acceptance of the facility by the district. The district shall select the services for

which it contracts in accordance with Government Code 2254.004.  
*Gov't Code 2269.058*

---

**Note:** For additional requirements related to code compliance, including fees and contracts, see 19 Administrative Code 61.1040(e)(5).

---

**Impact Fees**

A district is not required to pay impact fees imposed under Local Government Code Chapter 395 unless the board consents to the payment of the fees by entering a contract with the political subdivision that imposes the fees. The contract may contain terms the board considers advisable to provide for the payment of the fees.  
*Local Gov't Code 395.022*

**Design Professionals**

A district shall designate one design professional to be the prime design professional for a capital improvement project and shall contractually engage the prime design professional to review and coordinate the design of the project, allowing the prime design professional to rely on and contract for other design professionals where appropriate. *19 TAC 61.1040(a)(4), (e)(4)(D)*

A district shall require any design professional contractually engaged to procure professional design services from any other design professional as a subconsultant to select and subcontract the professional design services based on the qualification-based selection process established in Government Code Chapter 2254. [See Procuring Architectural or Engineering Services, below] *19 TAC 61.1040(e)(5)(B)*

**Architects and Engineers**

An architect or engineer required to be selected or designated under Government Code Chapter 2269 has full responsibility for complying with Occupations Code Chapter 1051 or 1001, as applicable.

If the selected or designated architect or engineer is not a full-time employee of the district, the district shall select the architect or engineer on the basis of demonstrated competence and qualifications as provided by Government Code 2254.004 [see Procuring Professional Services, below].

*Gov't Code 2269.057*

*Registered Architect*

An architectural plan or specification for any of the following may be prepared only by an architect:

1. A new building having construction costs exceeding \$100,000 that is to be:
  - a. Constructed and owned by a district; and

- b. Used for education, assembly, or office occupancy; or
- 2. An alteration or addition having construction costs exceeding \$50,000 that:
  - a. Is to be made to an existing building that:
    - (1) Is owned by a district; and
    - (2) Is or will be used for education, assembly, or office occupancy; and
  - b. Requires the removal, relocation, or addition of a wall or partition or the alteration or addition of an exit.

This provision does not prohibit an owner of a building from contracting with an architect or engineer as the prime design professional for a building construction, alteration, or addition project. Designation as the prime design professional does not expand the scope of practice of an architect or engineer beyond the scope of practice that the architect or engineer is authorized to practice under Occupations Code Chapter 1001 or 1051.

*Occupations Code 1051.703; 22 TAC 1.212*

*Registered  
Engineer*

A district may not construct a public work involving engineering in which the public health, welfare, or safety is involved, unless:

- 1. The engineering plans, specifications, and estimates have been prepared by an engineer; and
- 2. The engineering construction is to be performed under the direct supervision of an engineer.

*Occupations Code 1001.407*

The following work is exempt from Occupations Code Chapter 1001 (Texas Engineering Practice Act):

- 1. A public work that involves electrical or mechanical engineering, if the contemplated expense for the completed project is \$8,000 or less; or
- 2. A public work that does not involve electrical or mechanical engineering, if the contemplated expense for the completed project is \$20,000 or less.

*Occupations Code 1001.053*

*Certification for Purchases Through Purchasing Cooperatives*

A district may not enter into a contract to purchase construction-related goods or services through a purchasing cooperative under Government Code Chapter 791 in an amount greater than \$50,000 unless a person designated by the district certifies in writing that:

1. The project for which the construction-related goods or services are being procured does not require the preparation of plans and specifications under Occupation Code Chapter 1001 or 1051; or
2. The plans and specifications required under Occupation Code Chapters 1001 and 1051 have been prepared.

“Purchasing cooperative” means a group purchasing organization that governmental entities join as members and the managing entity of which receives fees from members or vendors.

*Gov’t Code 791.011(j)* [See CH for more information on interlocal contracts and purchasing cooperatives.]

Procuring Architectural or Engineering Services

Education Code 44.031 does not apply to a contract for professional services rendered, including the services of an architect. *Education Code 44.031(f)* [See CH for information on the Professional Services Procurement Act generally.]

In procuring architectural, engineering, or land-surveying services, a district shall:

1. First select the most highly qualified provider on the basis of demonstrated competence and qualifications; and
2. Then attempt to negotiate with that provider a contract at a fair and reasonable price.

If a satisfactory contract cannot be negotiated with the most highly qualified provider of architectural, engineering, or land-surveying services, a district shall formally end negotiations with that provider, select the next most highly qualified provider, and attempt to negotiate a contract with that provider at a fair and reasonable price. The district shall continue this process to select and negotiate with providers until a contract is entered into.

*Gov’t Code 2254.004*

An interlocal contract between a district and a purchasing cooperative may not be used to purchase engineering or architectural services. *Gov’t Code 791.011(h)*

Contracts for  
Engineering or  
Architectural  
Services

*Indemnification*

A covenant or promise in, in connection with, or collateral to a contract for engineering or architectural services to which a district is a party is void and unenforceable if the covenant or promise provides that a licensed engineer or registered architect whose work product is the subject of the contract must indemnify or hold harmless the district against liability for damage, other than liability for damage to the extent that the damage is caused by or results from an act of negligence, intentional tort, intellectual property infringement, or failure to pay a subcontractor or supplier committed by the indemnitor or the indemnitor's agent, consultant under contract, or another entity over which the indemnitor exercises control.

*Duty to Defend*

Except as provided below, a covenant or promise in, in connection with, or collateral to a contract for engineering or architectural services to which a district is a party is void and unenforceable if the covenant or promise provides that a licensed engineer or registered architect whose work product is the subject of the contract must defend a party, including a third party, against a claim based wholly or partly on the negligence of, fault of, or breach of contract by the district, the district's agent, the district's employee, or other entity, excluding the engineer or architect or that person's agent, employee, or subconsultant, over which the district exercises control. A covenant or promise may provide for the reimbursement of a district's reasonable attorney's fees in proportion to the engineer's or architect's liability.

*District as  
Additional  
Insured*

A district may require in a contract for engineering or architectural services to which the district is a party that the engineer or architect name the district as an additional insured under the engineer's or architect's general liability insurance policy and provide any defense provided by the policy.

*Standard of Care*

A contract for engineering or architectural services to which a district is a party must require a licensed engineer or registered architect to perform services:

1. With the professional skill and care ordinarily provided by competent engineers or architects practicing under the same or similar circumstances and professional license; and
2. As expeditiously as is prudent considering the ordinary professional skill and care of a competent engineer or architect.

In a contract for engineering or architectural services to which a district is a party, a provision establishing a different standard of care than a standard described above is void and unenforceable. If a contract contains a void and unenforceable provision, the standard of care described above applies.

Nothing in these provisions prohibits a district in a contract for engineering or architectural services to which the district is a party from including and enforcing conditions that relate to the scope, fees, and schedule of a project in the contract.

*Local Gov't Code 271.904*

**Payment and  
Performance Bonds**

A district that makes a public work contract with a prime contractor shall require the contractor, before beginning the work, to execute to the district:

1. A performance bond if the contract is in excess of \$100,000; and
2. A payment bond if the contract is in excess of \$25,000.

A bond required by this provision must be executed by a corporate surety in accordance with Insurance Code Article 7.19-1 (now Insurance Code 3503.001-.005). A bond for a public work contract with a district must be payable to and its form must be approved by the awarding board.

*Gov't Code 2253.021(a), (d)-(e)*

The performance bond is solely for the protection of the district awarding the public work contract, in the amount of the contract, and conditioned on the faithful performance of the work in accordance with the plans, specifications, and contract documents.

*Gov't Code 2253.021(b)*

The payment bond is solely for the protection and use of payment bond beneficiaries who have a direct contractual relationship with the prime contractor or a subcontractor to supply public work labor or material, and in the amount of the contract. *Gov't Code 2253.021(c)*

**Failure to Obtain  
Payment Bond**

If a district fails to obtain from a prime contractor a payment bond as required above or fails to include in a lease the lease terms required by Government Code 2252.909 [see CDB]:

1. The district is subject to the same liability that a surety would have if the surety had issued a payment bond and if the district had obtained the bond; and
2. A payment bond beneficiary is entitled to a lien on money due to the prime contractor in the same manner and to the same extent as if the public work contract were subject to Property Code Chapter 53, Subchapter J (Lien on Money Due Public Works Contractor).

*Gov't Code 2253.027(a)*

**Bond for Insured  
Loss**

A district shall ensure that an insurance company that is fulfilling its obligation under a contract of insurance by arranging for the replacement of a loss, rather than by making a cash payment directly to the district, furnishes or has furnished by a contractor:

1. A performance bond as described above for the benefit of a district; and
2. A payment bond, as described above for the benefit of the beneficiaries described above.

If the payment bond is not furnished, the district is subject to the same liability that a surety would have if the surety had issued the payment bond and the district had required the bond to be provided.

*Gov't Code 2258.021*

For a contract for a public work awarded by a district, the board shall determine the general prevailing rate of per diem wages in the district for each craft or type of worker needed to execute the contract and the prevailing rate for legal holiday and overtime work by:

The board shall determine the general prevailing rate of per diem wages as a sum certain, expressed in dollars and cents. A board shall specify in the call for bids for the contract and in the contract itself the wage rates determined under these provisions. The board's determination of the general prevailing rates of per diem wages is final.

Withhold money forfeited or required to be withheld under Government Code Chapter 2258 from the payments to the contractor under the contract, except that the board may not withhold money from other than the final payment without a determination by the board that there is good cause to believe that the contractor has violated Government Code Chapter 2258.

On receipt of information, including a complaint by a worker, concerning an alleged violation of Government Code 2258.023 [see Penalty for Noncompliance, below] by a contractor or subcontractor, a board shall make an initial determination as to whether good cause exists to believe that the violation occurred. A board must make its determination before the 31st day after the date the board receives the information. ---

A board shall use any amounts retained under Government Code Chapter 2258 to pay the worker the difference between the amount the worker received in wages for labor on the public work at the rate paid by the contractor or subcontractor and the amount the worker would have received at the general prevailing rate as provided in the arbitrator's award. The board may adopt rules, orders, or ordinances relating to the manner in which the reimbursement is made. *Gov't Code 2258.056(a)-(b)*

A board awarding a contract shall specify this penalty in the contract. A contractor or subcontractor does not violate this section if a board awarding a contract does not determine the prevailing wage rates and specify the rates in the contract as required by these provisions. The board shall use any money collected under this provision to offset the costs incurred in the administration of Government Code Chapter 2258. *Gov't Code 2258.023*

Districts shall only submit a request for CHRI on a person who has authorized the access of their information.

Districts may subscribe to a person in the clearinghouse, if the entity has the authority to view the record. Entities shall unsubscribe from a person when it no longer has authority to view a record.

Districts shall validate their subscriptions in accordance with DPS policies. “Validation” is a process whereby the subscriber reviews a subscription to determine whether they are still authorized to receive CHRI on that individual and updates the subscription accordingly. Validations are required on a yearly basis.

Districts shall maintain compliance with the FBI Criminal Justice Information Services Security Policy. Districts shall allow DPS and the FBI to conduct audits of their clearinghouse accounts to pre-

**Definition** In this policy, the term “appoint” includes appointing, confirming the appointment of, and voting to appoint or confirm the appointment of a person.

**Nepotism Prohibited** Except as provided by this policy, a public official may not appoint a person to a position that is to be directly or indirectly compensated from public funds or fees of office if:

1. The person is related to the public official by consanguinity (blood) within the third degree or by affinity (marriage) within the second degree [see Consanguinity and Affinity, below]; or
2. The public official holds the appointment or confirmation authority as a member of a local board and the person is related to another member of the board by blood or marriage within a prohibited degree.

*Gov’t Code 573.002, .041; Atty. Gen. Op. JC-184 (2000)*

**Independent Contractor** The nepotism law governs the hiring of an individual, whether the employee is hired as an individual or an independent contractor.  
*Atty. Gen. Op. DM-76 (1992)*

**Superintendent**  
Counties with  
Population 35,000  
or More  
In a district located wholly in, or whose largest part is located in, a county with a population of 35,000 or more, if, under the employment policy [see DC], a board delegates to the superintendent the final authority to select district personnel:

1. The superintendent is a public official for purposes of the nepotism prohibitions only with respect to a decision made under that delegation of authority; and
2. Each member of the board remains subject to the nepotism prohibitions with respect to all district employees.

For purposes of this provision, a person hired by a district before September 1, 2007, is considered to have been in continuous employment [see Continuous Employment, below] and is not prohibited from continuing employment with the district subject to the abstinence requirements.

*Education Code 11.1513(f)-(h)*

Counties with  
Population Less  
Than 35,000  
In a district located wholly in, or whose largest part is located in, a county with a population of less than 35,000, to the extent a board has delegated final hiring authority to a superintendent to select personnel [see DC], the superintendent is a “public official” for purposes of the nepotism laws. *Atty. **Compensation of Prohibited Employee**

A public official may not approve an account or draw or authorize the drawing of a warrant or order to pay the compensation of an ineligible person if the official knows the person is ineligible. *Gov't Code 573.083*

**Consanguinity**

Two persons are related to each other by consanguinity (blood) if one is a descendant of the other or if they share a common ancestor. An adopted child is considered to be a child of the adoptive parents for this purpose. *Gov't Code 573.022*

An individual's relatives within the third degree by consanguinity are the individual's:

1. Parent or child (first degree);
2. Brother, sister, grandparent, or grandchild (second degree); and
3. Great-grandparent, great-grandchild, aunt or uncle (who is a sibling of a parent of the person), nephew or niece (who is a child of a brother or sister of the person) (third degree).

*Gov't Code 573.023(c)*

Half-Blood  
Relatives

There is no distinction under the nepotism statute between half-blood and full-blood relations. Thus, half-blood relationships fall within the same degree as those of the full blood. *Atty. Gen. Op. LO-90-30 (1990)*

**Affinity**

Two persons are related to each other by affinity (marriage) if they are married to each other or if the spouse of one of the persons is related by consanguinity to the other person.

The ending of a marriage by divorce or the death of a spouse ends relationships by affinity created by that marriage unless a child of the marriage is living, in which case the marriage is considered to continue as long as a child of that marriage lives. This provision applies to a school board member or officer of a school district only until the youngest child of the marriage reaches the age of 21 years.

*Gov't Code 573.024*

A husband and wife are related to each other in the first degree by affinity. For other relationships, the degree of affinity is the same as the degree of the underlying relationship by consanguinity. For example, if two persons are related to each other in the second degree by consanguinity, the spouse of one of the persons is related to the other person in the second degree by affinity.

A person's relatives within the second degree by affinity are:

All public officers shall continue to perform the duties of their offices until their successors shall be duly qualified, i.e., sworn in. The nepotism prohibitions do not apply to the appointment of a person to a position if the person is employed in the position immediately before the election or appointment of the public official to whom the person is related in a prohibited degree and that prior employment is continuous for at least:

1. Thirty days, if the public official is appointed; or
2. Six months, if the public official is elected.

*Gov't Code 573.062(a)*

*Retirees*

A teacher who has retired from a full-time, certified teacher position has broken his or her employment with a district and does not qualify for the continuous-employment exception to the nepotism laws. *Atty. Gen. Op. JC-442 (2001)*

For purposes of calculating the appropriate date for the applicability of the continuous-employment exception, a superintendent with final authority to select personnel is an appointed public official. *Atty. Gen. Op. GA-177 (2004)*

*Abstention*

If an employee continues in a position under this exception, the public official to whom the employee is related in a prohibited degree may not participate in any deliberation or voting on the appointment, reappointment, employment, reemployment, change in status, compensation, or dismissal of the employee, if the action applies only to the employee and is not taken regarding a bona fide class or category of employees. *Gov't Code 573.062(b)*

**Personnel Duties** The Superintendent shall define the qualifications, duties, and responsibilities of all positions and shall ensure that job descriptions are current and accessible to employees and supervisors.

**Posting Vacancies** The Superintendent or designee shall establish guidelines for advertising employment opportunities and posting notices of vacancies. These guidelines shall advance the Board's commitment to equal opportunity employment and to recruiting well-qualified candidates. Current District employees may apply for any vacancy for which they have appropriate qualifications.

**Applications** All applicants shall complete the application form supplied by the District. **Employment Assistance Prohibited**

No District employee shall assist another employee of the District or of any school district in obtaining a new job if the employee knows, or has probable cause to believe, that the other employee engaged in sexual misconduct regarding a minor or student in violation of the law. **Incentive Grants —  
Contract Provision**

A district shall provide in employment contracts that qualifying employees may receive an incentive payment under an awards program established under Education Code Chapter 21, Subchapter O (Educator Excellence Award Program and Educator Excellence Innovation Program) if the district participates in the program. A district shall indicate that any incentive payment distributed is considered a payment for performance and not an entitlement as part of an employee's salary. *Education Code 21.415*

**Educator Excellence  
Innovation Program**

The Educator Excellence Innovation Program (EEIP) is a grant program under which a district may receive a competitive grant for the purposes of systematically transforming educator quality and effectiveness. The Texas Education Agency (TEA) will give priority to districts that receive Title I funding and have at a majority of district campuses a student enrollment that is at least 50 percent educationally disadvantaged.

Eligibility

A district is eligible to apply for EEIP grant funds if the district:

1. Completes and submits a Notice of Intent to Apply to TEA by the date established by the commissioner of education;
2. Complies with all assurances in the Notice of Intent to Apply and grant application;
3. Participates in the required technical assistance activities established by the commissioner, including establishing leadership teams, master teachers, mentor teachers, and instructional coaches and developing career pathways;
4. Agrees to participate for four years; and
5. Complies with any other activities set forth in the program requirements.

An eligible district must submit an application in a form prescribed by the commissioner. Each eligible applicant must meet all deadlines, requirements, and assurances specified in the application. The commissioner may waive any eligibility requirements as specified in 19 Administrative Code 102.1073.

Local Plan

An eligible district that intends to participate in the EEIP shall submit a local educator excellence innovation plan to TEA. A local educator excellence innovation plan must address the elements at 19 Administrative Code 102.1073(e)(2).

A district must act pursuant to its local board policy [see DEAA (LOCAL)] for submitting a local educator excellence innovation plan and grant application to TEA. A local decision to approve and submit a plan and grant application may not be appealed to the commissioner.

A district may renew its local educator excellence innovation plan for three consecutive school years without resubmitting a full grant application to TEA. With TEA approval, a district may amend its local plan in accordance with 19 Administrative Code 102.1073(c) and (h) for each school year the district receives a program grant.

Use of Grant Funds

A district may use grant funds only to carry out purposes of the program as described at Education Code 21.7011, in accordance with the district's local plan, which may include the following specific methods or procedures:

1. Implementation and administration of a high-quality mentoring program for teachers in the first three years of classroom teaching using mentors who meet the qualifications prescribed by Education Code 21.458 [see Mentor Teachers, below];
2. Implementation of a teacher evaluation system using multiple measures that include:
  - a. The results of classroom observation, which may include student comments;
  - b. The degree of student educational growth and learning; and
  - c. The results of teacher self-evaluation;
3. To the extent permitted under Education Code Chapter 25, Subchapter C, restructuring of the school day or school year to provide for embedded and collaborative learning communities for the purpose of professional development [see EC];
4. Establishment of an alternative teacher compensation or retention system; and
5. Implementation of incentives designed to reduce teacher turnover.

Waiver Request

A district may apply to the commissioner in writing for a waiver to exempt the district or one or more district campuses from one or more of the statutory sections listed at Education Code 21.7061(a).

The application for the waiver must demonstrate:

1. Why waiving the identified section of the Education Code is necessary to carry out the purposes of the program;
2. Approval for the waiver by a vote of a majority of the members of the board;
3. Approval for the waiver by a vote of a majority of the educators employed at each campus for which the waiver is sought; and
4. Evidence that the voting occurred during the school year and in a manner that ensured that all educators entitled to vote had a reasonable opportunity to participate in the voting.

Neither the board nor the superintendent may compel a waiver of rights under Education Code 21.7061.

Not later than April 1 of the year in which the waiver application is submitted, the commissioner shall notify the district in writing whether the application has been granted or denied. A waiver expires when the waiver is no longer necessary to carry out the purposes of the program, in accordance with the district's local educator excellence innovation plan.

**Local Optional  
Teacher Designation  
System**

A district may designate a classroom teacher as a master, exemplary, or recognized teacher for a five-year period based on the results from single year or multiyear appraisals [see DNA]. *Education Code 21.3521(a)*

Commissioner's

6. Funding.

*19 TAC 150.1012*

Standards

The commissioner's rules establish performance and validity standards for each local optional teacher designation system that:

1. Must provide a mathematical possibility that all teachers eligible for a designation may earn the designation; and
2. May not require a district to use an assessment instrument adopted under Education Code 39.023 to evaluate teacher performance.

*Education Code 21.3521(b); 19 TAC 150.1014*

A classroom teacher that holds a National Board Certification issued by the National Board for Professional Teaching Standards may be designated as recognized in accordance with the commissioner's rules for eligibility. *Education Code 21.3521(c); 19 TAC 150.1013*

No Property Right

A teacher has no vested property right in a teacher designation assigned under a local optional teacher designation system. A teacher designation is void in the determination that the designation was issued improperly, and the Administrative Procedure Act does not apply to the voiding of a local optional teacher designation. *Education Code 21.3521(f)*

Teacher Incentive Allotment

For each classroom teacher with a local optional teacher designation, a district is entitled to an allotment, adjusted by high needs and rural factors, as determined under Education Code 48.112.

  - a. At least 90 percent was used for the compensation of teachers employed at the campus at which the teacher for whom the district received the allotment is employed; and
  - b. Any other funds were used for costs associated with implementing the local optional teacher designation system, including efforts to support teachers in obtaining designations; and
2. The district prioritized high needs campuses in the district in using funds.

*Education Code 48.112(c), (i)*

**Evaluations** TEA shall periodically conduct evaluations of the effectiveness of the local optional teacher designation systems and the teacher incentive allotment and report the results of the evaluations to the legislature. A district that has implemented a local optional teacher designation system or received funds under the teacher incentive allotment shall participate in the evaluations. *Education Code 21.3521(g)*

**Mentor Teachers** A district may assign a mentor teacher to each classroom teacher who has less than two years of teaching experience in the subject or grade level to which the teacher is assigned. A teacher assigned as a mentor must:

1. To the extent practicable, teach in the same school;
2. To the extent practicable, teach the same subject or grade level, as applicable; and
3. Meet the qualifications prescribed by commissioner's rules.

*Education Code 21.458(a)*

**Commissioner's Rules** The commissioner's rules for receiving funds under the mentor program allotment specify the requirements for districts to implement a mentor training program, including:

The assignment must begin not later than the 30th day of employment of the classroom teacher to whom the mentor teacher is assigned. A district must agree to assign a mentor to a new classroom teacher for at least two school years.

A school district shall assign a mentor teacher to a classroom teacher who has been issued a temporary certificate to teach career and technology education under Education Code 21.0444 for at least two school years.

A district shall also provide supplemental training to mentor teachers and employees during the school year. The training must include content related to best mentorship practices. *Education Code 21.458(b-1)*

Unless the district has created a mentoring curriculum as provided below, the mentoring sessions must address the following topics:

1. Orientation to the context, policies, and practices of the school district;
2. Data-driven instructional practices;
3. Specific instructional coaching cycles, including coaching regarding conferences between parents and the classroom teacher;

Each full-time educator shall be given a leave of absence for temporary disability at any time the educator's condition interferes with the performance of regular duties. The contract or employment of the educator may not be terminated while the educator is on a leave of absence for temporary disability. For purposes of temporary disability leave, pregnancy is considered a temporary disability.

<p><b>Assault Leave</b></p>	<p>In addition to all other days of leave, a district employee who is physically assaulted during the performance of regular duties is entitled to the number of days of leave necessary to recuperate from physical injuries sustained as a result of the assault. The leave shall be paid as set forth below at Coordination with Workers' Compensation Benefits.</p> <p>A district employee is physically assaulted if the person engaging in the conduct causing injury to the employee:</p> <ol style="list-style-type: none"><li>1. Could be prosecuted for assault; or</li><li>2. Could not be prosecuted for assault only because the person's age or mental capacity makes the person a nonresponsible person for purposes of criminal liability.</li></ol>
<p>Notice of Rights</p>	<p>Any informational handbook a district provides to employees in an electronic or paper form or makes available by posting on the district's website must include notification of an employee's rights regarding assault leave, in the relevant section of the handbook. Any form used by a district through which an employee may request personal leave must include assault leave as an option.</p>
<p>Assignment to Assault Leave</p>	<p>At the request of an employee, a district must immediately assign the employee to assault leave. Days of assault leave may not be deducted from accrued personal leave. Assault leave may not extend more than two years beyond the date of the assault. Following an investigation of the claim, a district may change the assault leave status and charge the leave against the employee's accrued personal leave or against the employee's pay if insufficient accrued personal leave is available.</p>

Coordination with  
Workers'  
Compensation  
Benefits

Notwithstanding any other law, assault leave benefits due to an employee shall be coordinated with temporary income benefits due from workers' compensation so the employee's total compensation from temporary income benefits and assault leave benefits will equal 100 percent of the employee's weekly rate of pay.

*Education Code 22.003(b)-(c-1)*

**Religious  
Observances**

A district shall reasonably accommodate an employee's request to be absent from duty in order to participate in religious observances and practices, so long as it does not cause undue hardship on the conduct of district business. Such absence shall be without pay unless applicable paid leave is available. *42 U.S.C. 2000e(j), 2000e-2(a); Ansonia Bd. of Educ. v. Philbrook, 479 U.S. 60, (1986); Pinsker v. Joint Dist. No. 28J of Adams and Arapahoe Counties, 735 F.2d 388 (10th Cir. 1984)*

**Compliance with a  
Subpoena**

An employer may not discharge, discipline, or penalize in any manner an employee because the employee complies with a valid subpoena to appear in a civil, criminal, legislative, or administrative proceeding. *Labor Code 52.051(a)*

---

**Note:** A Texas federal court held that by omitting any reference to governmental entities from Labor Code 52.051, the state legislature intended to exclude governmental entities from the definition of "employer" contained within that section. Therefore, the statute did not waive a county's governmental immunity from liability for claims of retaliatory discharge of an employee for complying with a subpoena. *Alcala v. Texas Webb County, 620 F. Supp. 2d 795 (S.D. Tex. 2009)*

**Jury Duty**

An employee's accumulated personal leave may not be reduced because of the employee's service in compliance with a summons to appear as a juror [see DG]. *Education Code 22.006(c)*

**Attendance at  
Truancy Hearing**

A district may not terminate the employment of a permanent employee because the employee is required under Family Code 65.062(b) to attend a truancy court hearing. *Family Code 65.063*

**Developmental  
Leaves of Absence**

A board may grant a developmental leave of absence for study, research, travel, or other suitable purpose to an employee working in a position requiring a permanent teaching certificate who has served in a district at least five consecutive school years.

A developmental leave of absence may be granted for one school year at one-half salary or for one-half of a school year at full salary paid to the employee in the same manner, on the same schedule,

and with the same deductions as if the employee were on full-time duty.

An employee on developmental leave shall continue to be a member of the Teacher Retirement System of Texas and shall be an employee of a district for purposes of participating in programs, holding memberships, and receiving benefits afforded by employment in a district.

*Education Code 21.452*

**Leave for Sick Foster Child**

An employer commits an unlawful employment practice under Labor Code, Chapter 21 if:

1. The employer administers a leave policy under which an employee is entitled to personal leave to care for or otherwise assist the employee's sick child; and
2. The leave policy does not treat in the same manner as an employee's biological or adopted minor child any foster child of the employee who:
  - a. Resides in the same household as the employee; and
  - b. Is under the conservatorship of the Texas Department of Family and Protective Services.

*Labor Code 21.0595*

**Leave for Peace Officers**

Quarantine Leave

A board shall develop and implement a paid quarantine leave policy for peace officers who are employed by the district and ordered to quarantine or isolate due to a possible or known exposure to a communicable disease while on duty.

A paid quarantine leave policy must:

1. Provide that a peace officer on paid quarantine leave receive:
  - a. All employment benefits and compensation, including leave accrual, pension benefits, and health benefit plan benefits for the duration of the leave; and
  - b. Reimbursement for reasonable costs related to the quarantine, including lodging, medical, and transportation; and
2. Require that the leave be ordered by the person's supervisor or the district's health authority.

A district may not reduce a peace officer's sick leave balance, vacation leave balance, holiday leave balance, or other paid leave

Mental Health  
Leave

A district shall develop and adopt a policy allowing the use of mental health leave by peace officers and full-time telecommunicators authorized under Occupations Code 1701.405 employed by the district who experience a traumatic event in the scope of that employment.

The mental health leave policy must:

1. Provide clear and objective guidelines establishing the circumstances under which a peace officer or telecommunicator is granted and may use mental health leave;
2. Entitle a peace officer or telecommunicator to mental health leave without a deduction in salary or other compensation;
3. Enumerate the number of mental health leave days available to a peace officer or telecommunicator; and
4. Detail the level of anonymity for a peace officer or telecommunicator who takes mental health leave.

A mental health leave policy may provide a list of mental health services available to peace officers and telecommunicators in the area of the district.

Line of Duty Illness  
or Injury Leave

"Emergency medical services personnel" means a person described by Health and Safety Code 773.003, who is a paid employee of a district.

"Police officer" means a paid employee who is full-time, holds an officer license issued under Occupations Code Chapter 1701, and regularly serves in a professional law enforcement capacity in the police department of a district. The term includes the chief of the department.

*Local Gov't Code 177A.001*

A district shall provide to a police officer or emergency medical services personnel a leave of absence for an illness or injury related to the person's line of duty. The leave is with full pay for a period commensurate with the nature of the line of duty illness or injury. If necessary, the district shall continue the leave for at least one year.

At the end of the leave of absence, the board may extend the leave of absence at full or reduced pay.

If the police officer or emergency medical services personnel is temporarily disabled by a line of duty injury or illness and the leave of absence and any extension granted by the board has expired, the person may use accumulated sick leave, vacation time, and other accrued benefits before the person is placed on temporary leave.

If the leave of absence and any extension granted by the board has expired, a police officer or emergency medical services personnel who requires additional leave shall be placed on temporary leave.

*Local Gov't Code 177A.003*

If able, a police officer or emergency medical services personnel may return to light duty while recovering from a temporary disability. If medically necessary, the light duty assignment may continue for at least one year.

After recovery from a temporary disability, a police officer or emergency medical services personnel shall be reinstated at the same rank and with the same seniority the person had before going on temporary leave. Another police officer or emergency medical services personnel may voluntarily do the work of the injured person until the person returns to duty.

*Local Gov't Code 177A.004*

**Absence Control**

Uniform enforcement of a reasonable absence-control rule is not retaliatory discharge. For example, a district that terminates an employee for violating a reasonable absence-control provision cannot be liable for retaliatory discharge as long as the rule is uniformly enforced. *Howell v. **Withholding Information**

An attempt by any district employee to encourage or coerce a child to withhold information from the child's parent is grounds for discharge or suspension under Education Code 21.104 (probationary contracts) and 21.211 (term contracts). *Education Code 26.008(b)*

**Registry of Persons Not Eligible for Employment**

A district, district of innovation, open-enrollment charter school, other charter entity, regional education service center, or shared services arrangement shall discharge or refuse to hire a person listed on TEA's registry of persons who are not eligible to be employed. [See DBAA] *Education Code 22.092*

**Discharge of Convicted Employees**

A district shall discharge or refuse to hire an employee or applicant for employment if the district obtains information through a criminal history record information (CHRI) review that the employee or applicant has been:

1. Convicted of or placed on deferred adjudication community supervision for an offense requiring registration as a sex offender under Code of Criminal Procedure Chapter 62; or
2. Convicted of:
  - a. A felony under Title 5, Penal Code, if the victim of the offense was under 18 years of age at the time the offense was committed; or
  - b. An offense under the laws of another state or federal law that is equivalent to an offense under item 1 or 2a, above.

Exception

However, a district is not required to discharge an employee if the person committed an offense under Title 5, Penal Code, and:

1. The date of the offense is more than 30 years before the date the person's employment will begin; and
2. The employee satisfied all terms of the court order entered on conviction.

Certification to Commissioner

Each school year, a superintendent shall certify to the commissioner that the district has complied with the above provisions.

Sanctions

The State Board for Educator Certification (SBEC) may impose a sanction on an educator who does not discharge an employee when the employee was employed in a public school and on the

SBEC may impose a sanction on a superintendent who falsely or inaccurately certified to the commissioner that the district had complied with Education Code 22.085. [See Certification to Commissioner, above]

Termination for  
Failure to Disclose

A district may discharge an employee if the district obtains information of the employee's conviction of a felony or of a misdemeanor involving moral turpitude that the employee did not disclose to SBEC or the district. An employee so discharged is considered to have been discharged for misconduct for purposes of Labor Code 207.044 (unemployment compensation).

**Certain Offenses  
Against Students**

Mandatory  
Termination

If a district receives notice that SBEC has revoked the certificate of a person based on conviction of or placement on deferred adjudication community supervision for an offense for which the person is required to register as a sex offender under Code of Criminal Procedure, Chapter 62; a conviction of a felony under Penal Code Title 5 if the victim of the offense was under 18 years of age at the time the offense was committed; or conviction of or placement on deferred adjudication community supervision for an offense under Penal Code 43.24 (Sale, Distribution, or Display of Harmful Material to Minor), the district shall:

1. Immediately remove the person whose certificate has been revoked from campus or from an administrative office, as applicable, to prevent the person from having any contact with a student; and
2. If the person is employed under a probationary or term contract, with the approval of the board or its designee:

  - b. Provide the person with written notice that the person's contract is void [see Notice to Employee, below]; and

*Education Code 21.058(a), (c)*

Discretionary  
Termination

If a district becomes aware that a person employed by the district under a probationary or term contract has been convicted of or received deferred adjudication for a felony offense, and the person is not subject to the mandatory termination provision above, the district may, with the approval of the board or its designee:

1. Suspend the person without pay;
2. Provide the person with written notice that the person's contract is void [see Notice to Employee, below]; and
3. Terminate the employment of the person as soon as practicable.

*Education Code 21.058(c-1)*

Notice to Employee

A person's probationary or term contract is void if, with the approval of the board or its designee, the district provides written notice to the person, under the mandatory or discretionary termination provisions above, that the person's contract is void. *Education Code 21.058(c-2)*

No Appeal

Action taken by a district under the mandatory or discretionary terminations provisions above is not subject to appeal under Education Code Chapter 21 and the notice and hearing requirements of Chapter 21 do not apply to the action. *Education Code 21.058(e)*

**Invalid or Expired  
Certification**

An employee's probationary or term contract is void if the employee:

1. Does not hold a valid certificate or permit issued by SBEC;
2. Fails to fulfill the requirements necessary to renew or extend the employee's temporary, probationary, or emergency certificate or any other certificate or permit issued under Education Code Chapter 21, Subchapter B; or
3. Fails to comply with any requirement under Education Code Chapter 22, Subchapter C [criminal history review, see DBAA], if the failure results in suspension or revocation of the employee's certificate.

*Education Code 21.0031(a)*

A certificate or permit is not considered to have expired if:

TERMINATION OF EMPLOYMENT

DF  
(LEGAL)

1. The employee has completed the requirements for renewal of the certificate or permit;
2. The employee submitted the request for renewal before the expiration date; and
3. The date the certificate or permit would have expired is before the date SBEC takes action to approve the renewal of the certificate or permit.

*Education Code 21.0031(f)*

District's Options

If a district has knowledge that an employee's contract is void under Education Code 21.0031(a), the district may:

1. Terminate the employee;
2. Suspend the employee with or without pay; or
3. Retain the employee for the remainder of the school year on an at-will employment basis in a position that does not require a contract under Education Code 21.002, at the employee's existing rate of pay or at a reduced rate.

The employee is not entitled to the minimum salary prescribed by Education Code 21.402.

*Education Code 21.0031(b)*

Exception

A district may not terminate or suspend an employee under 21.0031(b) because of the employee's lack of a valid certificate or permit, or failure to renew or extend a certificate or permit, if:

1. The employee requests an extension from SBEC to renew, extend, or otherwise validate the employee's certificate or permit; and

Applicability

These void contract provisions do not affect the rights and remedies of a party in an at-will employment relationship and do not apply to a certified teacher assigned to teach a subject for which the

**Report to Superintendent**

A principal shall report the educator's termination to the superintendent if the conditions set forth at Education Code 21.006 exist. [See DP]

**Falsification of Military Record**

A district may discharge an employee, regardless of whether the employee is employed under an employment contract, if the district determines, based on a reasonable factual basis, that the employee, in obtaining the employee's employment or any benefit relating to the employee's employment, falsified or otherwise misrepresented any information regarding the employee's military record in a manner that would constitute an offense under Penal Code 32.54.

An employment contract entered into by a district with an employee discharged by the employer under Labor Code Chapter 105 is void and unenforceable as against public policy. [See DF series]

*Labor Code Ch. 105*

**Employee Free  
Speech**

District employees do not shed their constitutional rights to freedom of speech or expression at the schoolhouse gate.

However, neither an employee nor anyone else has an absolute constitutional right to use all parts of a school building or its immediate environs for unlimited expressive purposes. When a public employee makes statements pursuant to his or her official duties, the employee is not speaking as a citizen for First Amendment purposes, and the Constitution does not insulate the communications from employer discipline.

*Garcetti v. Ceballos*, 547 U.S. 410 (2006); *Tinker v. Des Moines Indep. Cmty. Sch. Dist.*, 393 U.S. 503 (1969) [See also GKD]

**Whistleblower  
Protection**

A board or its agents shall not suspend or terminate the employment of, or take other adverse personnel action against, an employee who in good faith reports a violation of law by a district or another public employee to an appropriate law enforcement authority.

A “report” is made to an “appropriate law enforcement authority” if the authority is a part of a state or local governmental entity or the federal government that the employee in good faith believes is authorized to:

1. Regulate under or enforce the law alleged to be violated in the report; or
2. Investigate or prosecute a violation of criminal law.

*Gov’t Code 554.002*

A supervisor who suspends or terminates the employment of or takes an adverse personnel action against an employee for reporting a violation of law shall be subject to civil penalties. *Gov’t Code 554.008*

Definitions

“Employee” means an employee or appointed officer who is paid to perform services for a district. It does not include independent contractors. *Gov’t Code 554.001(4)*

“Law” means a state or federal statute, an ordinance of a local governmental entity, or a rule adopted under a statute or ordinance. *Gov’t Code 554.001(1)*

A “good faith” belief that a violation of the law occurred means that:

1. The employee believed that the conduct reported was a violation of law; and

2. The employee's belief was reasonable in light of the employee's training and experience.

Wichita County v. Hart, 917 S.W.2d 779 (Tex. 1996)

A "good faith" belief that a law enforcement authority is an appropriate one means:

1. The employee believed the governmental entity was authorized to:
  - a. Regulate under or enforce the law alleged to be violated in the report, or
  - b. Investigate or prosecute a violation of criminal law; and
2. The employee's belief was reasonable in light of the employee's training and experience.

Tex. Dep't of Transp. v. Needham, 82 S.W.3d 314 (Tex. 2002)

**Whistleblower  
Complaints**

An employee who alleges a violation of whistleblower protection may sue a district for injunctive relief, actual damages, court costs, and attorney's fees, as well as other relief specified in Government Code 554.003. *Gov't Code 554.003*

Initiate Grievance

Before suing, an employee must initiate action under a district's grievance policy or other applicable policies concerning suspension or termination of employment or adverse personnel action.

The employee must invoke a district's grievance procedure not later than the 90th day after the date on which the alleged suspension, termination, or other adverse employment action occurred or was discovered by the employee through reasonable diligence.

Legal Action

If a board does not render a final decision before the 61st day after grievance procedures are initiated, the employee may elect to:

1. Exhaust a district's grievance procedures, in which case the employee must sue not later than the 30th day after the date those procedures are exhausted to obtain relief under Government Code Chapter 554; or
2. Terminate district grievance procedures and sue within the timelines established by Government Code 554.005 and 554.006.

*Gov't Code 554.005, 554.006* [See DGBA regarding grievance procedures]

EMPLOYEE RIGHTS AND PRIVILEGES

DG  
(LEGAL)

Burden of Proof	If the employee brings a lawsuit, the employee has the burden of proof unless the suspension, termination, or adverse personnel action occurred within 90 days after the employee reported a violation of law, in which case the suspension, termination, or adverse personnel action is presumed, subject to rebuttal, to be because the employee made the report.
Affirmative Defense	<p>It is an affirmative defense to a whistleblower suit that the district would have taken the action against the employee that forms the basis of the suit based solely on information, observation, or evidence that is not related to the fact that the employee made a report protected under the whistleblower law.</p> <p><i>Gov't Code 554.004</i></p>
Notice of Rights	A board shall inform its employees of their rights regarding whistleblower protection by posting a sign in a prominent location in the workplace. The design and content of the sign shall be as prescribed by the attorney general. <i>Gov't Code 554.009</i>
<b>Right to Report a Crime</b>	A district employee may report a crime witnessed at the school to any peace officer with authority to investigate the crime. A district may not adopt a policy requiring a school employee to refrain from reporting a crime witnessed at the school or to report a crime witnessed at the school only to certain persons or peace officers. <i>Education Code 37.148</i>
<b>Protection for Reporting Child Abuse</b>	<p>A district may not suspend or terminate the employment of, discriminate against, or take other adverse employment action against a professional employee who in good faith:</p> <ol style="list-style-type: none"><li>1. A person may sue for injunctive relief, damages, or both if the person is suspended or terminated from the person's employment; is discriminated against; or suffers any other adverse employment action.

A district employee who has a cause of action under the provisions at Whistleblower Protection, above, may not bring an action under Protection for Reporting Child Abuse.

*Family Code 261.110(a)-(c), (l)*

**Protection from  
Disciplinary  
Proceedings**

For purposes of the following provisions, "disciplinary proceeding" means discharge or suspension of a professional employee, or termination or nonrenewal of a professional employee's term contract. [See DGC regarding immunity] *Education Code 22.0512(b)*

Reporting Child  
Abuse or  
Maltreatment

A district employee may not be subject to any disciplinary proceeding resulting from an action taken in compliance with Education Code 38.0041 [prevention of child abuse and other maltreatment, see FFG]. *Education Code 38.0041(g)*

Use of Physical  
Force

A professional employee may not be subject to disciplinary proceedings for the employee's use of physical force against a student to the extent justified under Penal Code 9.62. This provision does not prohibit a district from enforcing a policy relating to corporal punishment or bringing a disciplinary proceeding against a professional employee of the district who violates the district policy relating to corporal punishment. *Education Code 22.0512(a); Tex. Atty. Gen. Op. GA-0202 (2004)*

Penal Code 9.62 provides that the use of force, other than deadly force, against a person is justified:

1. If the actor is entrusted with the care, supervision, or administration of the person for a special purpose; and
2. When and to the degree the actor reasonably believes the force is necessary to further the special purpose or to maintain discipline in a group.

*Penal Code 9.62*

**Failure to Follow  
Scope, Sequence,  
and Instructional  
Materials**

A district may not penalize a teacher who does not follow the pacing of recommended or designated instructional materials or the pacing of the recommended or designated scope and sequence for a subject in the required curriculum under Education Code 28.002(a) in a particular grade level based on the teacher's determination that the teacher's students need more or less time in a specific area to demonstrate proficiency in the essential knowledge and skills for that subject and grade level [see EHAA].

A district may take appropriate action with respect to a teacher for conduct described above based on documented evidence of a deficiency in classroom instruction obtained through observation or substantiated and documented third-party information.

*Education Code 28.0027(b), (c)*

A classroom teacher employed by a district may not be subject to disciplinary proceedings for an allegation that the teacher violated Education Code 28.0022, the Establishment Clause of the First Amendment of the United States Constitution, or a related state or federal law if:

1. The teacher used only instructional material included on the list of approved instructional material maintained by the State Board of Education under Education Code 31.022 and adopted by the district; and
2. The allegation does not dispute that the teacher delivered instruction from the instructional material with fidelity.

This immunity is in addition to, and may not be construed to interfere with, any other immunity provided by law.

*Education Code 22.05125*

**Instructional  
Materials and  
Technological  
Equipment**

A board may not require an employee who acts in good faith to pay for instructional materials or technological equipment that is damaged, stolen, misplaced, or not returned. An employee may not waive this provision by contract or any other means.

Exception

A district may enter into a written agreement with an employee whereby the employee assumes financial responsibility for electronic instructional material or technological equipment usage off school property or outside of a school-sponsored event in consideration for the ability of the employee to use the electronic instructional material or technological equipment for personal business.

The written agreement shall be separate from the employee's contract of employment, if applicable, and shall clearly inform the employee of the amount of the financial responsibility and advise the employee to consider obtaining appropriate insurance. An employee may not be required to enter into such an agreement as a condition of employment.

**Controversial Topics**

For any course or subject, including an innovative course, for a grade level from kindergarten through grade 12, a teacher may not be compelled to discuss a widely debated and currently controver-

**Jury Duty**

A district may not discharge, threaten to discharge, intimidate, or coerce any permanent employee because the employee serves as a juror or grand juror, or for the employee's attendance or scheduled attendance in connection with the service, in any court in the United States. An employee who is discharged, threatened with discharge, intimidated, or coerced is entitled to return to the same employment that the employee held when summoned for jury or grand jury service if the employee, as soon as practical after release from jury or grand jury service, gives the employer actual notice that the employee intends to return. *Civ. Prac. & Rem. Code 122.001*

A district may not discharge, discipline, reduce the salary of, or otherwise penalize or discriminate against a school district employee because of the employee's compliance with a summons to appear as a juror. For each regularly scheduled workday on which a non-salaried employee serves in any phase of jury service, a school district shall pay the employee the employee's normal daily compensation [see DEC]. *Education Code 22.006(a), (b)*

**Breaks for Nursing Mothers**

A district shall provide a reasonable break time for an employee to express breast milk for the employee's nursing child for one year after the child's birth each time the employee has need to express the milk.

A district shall provide a place, other than a bathroom, that is shielded from view and free from intrusion from coworkers and the public, which may be used by an employee to express breast milk.

A district shall not be required to compensate an employee receiving reasonable break time for any time spent during the workday for such purpose unless otherwise required by federal or state law or municipal ordinance.

Break time provided shall be considered hours worked if the employee is not completely relieved from duty during the entirety of the break.

A district that employs less than 50 employees is not subject to these requirements, if the requirements would impose an undue hardship by causing the district significant difficulty or expense

when considered in relation to the size, financial resources, nature, or structure of the district.

EMPLOYEE WELFARE  
FREEDOM FROM DISCRIMINATION, HARASSMENT, AND RETALIATION

DIA  
(LEGAL)

Severe and  
Pervasive

Harassment violates Title VII if it is sufficiently severe and pervasive to alter the conditions of employment. *Pennsylvania State Police v. Suders*, 542 U.S. 129 (2004)

Title VII does not prohibit all verbal and physical harassment in the workplace. For example, harassment between men and women is not automatically unlawful sexual harassment merely because the words used have sexual content or connotations. *Oncale v. Sun-downer Offshore Services, Inc.*, 523 U.S. 75 (1998)

Prevention

A district should take all steps necessary to prevent unlawful harassment from occurring, such as affirmatively raising the subject, expressing strong disapproval, developing appropriate penalties, informing employees of their right to raise and how to raise the issue of harassment under Title VII, and developing methods to sensitize all concerned. 29 C.F.R. 1604.11(f)

Responsibility for  
Harassment by  
Third Parties

A district is responsible for acts of unlawful harassment by fellow employees and by nonemployees if the district, its agents, or its supervisory employees knew or should have known of the conduct, unless the district takes immediate and appropriate corrective action. 29 C.F.R. 1604.11(d), (e), 1606.8(d), (e)

When no tangible employment action is taken, a district may raise the following affirmative defense:

1. That the district exercised reasonable care to prevent and promptly correct any harassing behavior; and
2. That the employee unreasonably failed to take advantage of any preventive or corrective opportunities provided by the employer or to avoid harm otherwise.

**Racial  
Discrimination**

The prohibition against discrimination because of race or on the basis of race includes discrimination because of or on the basis of an employee's hair texture or protective hairstyle commonly or historically associated with race.

A district commits an unlawful employment practice if the district adopts or enforces a dress or grooming policy that discriminates against a hair texture or protective hairstyle commonly or historically associated with race.

"Protective hairstyle" includes braids, locks, and twists.

*Labor Code 21.1095*

**Religious  
Discrimination**

The prohibition against discrimination on the basis of religion includes all aspects of religious observances and practice, as well as religious belief, unless a district demonstrates that it is unable to reasonably accommodate an employee's or prospective employee's religious observance or practice without undue hardship to the district's business. "Undue hardship" means more than a *de minimus* (minimal) cost. *42 U.S.C. 2000e(j); 29 C.F.R. 1605.2; Labor Code 21.108*

Burden on Free  
Exercise

A district may not substantially burden an employee's free exercise of religion, unless the burden is in furtherance of a compelling governmental interest and is the least restrictive means of furthering that interest. *Civ. Prac. & Rem. Code 110.003*

**Sex Discrimination**  
Pregnancy

The prohibition against discrimination because of sex includes discrimination on the basis of pregnancy, childbirth, or related medical conditions. A district shall treat women affected by pregnancy, childbirth, or related medical conditions the same as other employees for all employment-related purposes, including receipt of benefits under fringe benefit programs. *42 U.S.C. 2000e(k); 29 C.F.R. 1604.10; Labor Code 21.106*

with disabilities in programs assisted by the IDEA. *34 C.F.R. 300.177(b)*

Discrimination  
Based on Lack of  
Disability

The ADA and the TCHRA do not provide a basis for a claim that an individual was subject to discrimination because of the individual's lack of disability. *42 U.S.C. 12201(g); 29 C.F.R. 1630.4(b); Labor Code 21.005(c)*

Definition of  
Disability

"Disability" means:

1. An actual disability: a physical or mental impairment [see definition, below] that substantially limits one or more of an individual's major life activities;
2. A record of having such an impairment; or
3. Being regarded as having such an impairment.

An impairment that substantially limits one major life activity need not limit other major life activities in order to be considered a disability. An impairment that is episodic or in remission is a disability if it would substantially limit a major life activity when active.

*"Regarded as"  
Having an  
Impairment*

An individual meets the requirement of being "regarded as" having an impairment if the individual establishes that he or she has been subjected to an action prohibited by the ADA because of an actual or perceived physical or mental impairment whether or not the impairment limits or is perceived to limit a major life activity.

Transitory and  
Minor

The "regarded as" prong of the definition does not apply to impairments that are transitory or minor. A transitory impairment is one with an actual or expected duration of six months or less. The "transitory" exception does not apply to the "actual disability" or "record of disability" prongs of the definition.

*Mitigating  
Measures*

The determination of whether an impairment substantially limits a major life activity shall be made without regard to the ameliorative effects of mitigating measures, such as medication, medical supplies, low-vision devices, prosthetics, hearing aids, mobility devices, oxygen therapy, assistive technology, or learned behavioral or adaptive neurological modifications.

The ameliorative effects of ordinary eyeglasses or contact lenses shall be considered in determining whether an impairment substantially limits a major life activity. Ordinary eyeglasses and contact lenses are lenses that are intended to fully correct visual acuity or to eliminate refractive error.

*42 U.S.C. 12102(1), (3), (4); 29 C.F.R. 1630.2(g), (j)(1); Labor Code 21.002, .0021*

Reasonable  
Accommodations

A district is required, absent undue hardship, to make a reasonable accommodation to an otherwise qualified individual who meets the definition of disability under the “actual disability” or “record of disability” prongs. A district is not required to provide a reasonable ac-

commodation to an individual who meets the definition of disability solely under the “regarded as” prong. *42 U.S.C. 12112(b)(5); 29 C.F.R. 1630.2(o)(4), .9; 29 U.S.C. 794; 34 C.F.R. 104.11; Labor Code 21.128* [See DBB regarding medical examinations and inquiries under the Americans with Disabilities Act]

Illegal Drugs and  
Alcohol

The term “qualified individual with a disability” does not include any employee or applicant who is currently engaging in the illegal use of drugs, when a district acts on the basis of such use.

*Drug Testing*

A district is not prohibited from conducting drug testing of employees and applicants for the illegal use of drugs or making employment decisions based on the results of such tests.

2. Require a qualified employee affected by pregnancy, childbirth, or related medical conditions to accept an accommodation other than any reasonable accommodation arrived at through the interactive process in the Americans with Disabilities Act (ADA);
3. Deny employment opportunities to a qualified employee if the denial is based on the need of the district to make reasonable accommodations to the known limitations related to the pregnancy, childbirth, or related medical conditions of the qualified employee;
4. Require a qualified employee to take leave, whether paid or unpaid, if another reasonable accommodation can be provided to the known limitations related to the pregnancy, childbirth, or related medical conditions of the qualified employee; or

*42 U.S.C. 2000gg-1*

Definitions

“Known limitation” means physical or mental condition related to, affected by, or arising out of pregnancy, childbirth, or related medical conditions that the employee or employee’s representative has communicated to the district whether or not such condition meets the definition of disability specified in the ADA (42 U.S.C. 12102).

“Qualified employee” means an employee or applicant who, with or without reasonable accommodation, can perform the essential functions of the employment position, except that an employee or applicant shall be considered qualified if:

1. Any inability to perform an essential function is for a temporary period;
2. The essential function could be performed in the near future; and
3. The inability to perform the essential function can be reasonably accommodated.

“Reasonable accommodation” and “undue hardship” have the meanings given in the ADA and are construed as those terms are construed under the ADA and regulations, including with regard to

the interactive process that will be used to determine an appropriate reasonable accommodation.

This rule does not apply if the payment is pursuant to a seniority system, a merit system, a system that measures earnings by quantity or quality of production, or a differential based on any other factor other than sex. *29 U.S.C. 206(d) (Equal Pay Act); 34 C.F.R. 106.54 (Title IX)*

**Planning and Preparation**

Each classroom teacher is entitled to at least 450 minutes in each two-week period for instructional preparation including parent-teacher conferences, evaluating students' work, and planning. A planning and preparation period may not be less than 45 minutes within the instructional day. During that time, a teacher may not be required to participate in any other activity. *Education Code 21.404* [See DC(LEGAL) for definition of classroom teacher]

Planning and preparation time must occur during the time that students at the school where the teacher is located are receiving instruction. *Canutillo Educators Ass'n v. Canutillo Indep. Sch. Dist., Tex. Comm'r of Educ. Decision No. 042-R10-203 (April 30, 2010)*

Supplemental Agreement

A district may enter into a supplemental agreement with a classroom teacher under which the teacher agrees to perform a duty relating to initial lesson plan design or instructional material selection that is not a duty generally anticipated to be performed during the instructional day and assigned to all classroom teachers of the same subject and grade level under those teachers' employment contracts.

A district may not require a classroom teacher for a foundation curriculum course to spend planning and preparation time creating or selecting instructional materials to initially cover the applicable essential knowledge and skills for the course unless the teacher has entered into a supplemental agreement. A classroom teacher may choose to spend the teacher's planning and preparation time creating or selecting instructional materials.

A supplemental agreement between a district and a classroom teacher described above under which a teacher is assigned responsibility for a greater number of duties unrelated to providing instruction than other full-time teachers of the same grade level in the district must explicitly state each of the teacher's duties unrelated to providing instruction.

*Education Code 21.4045*

**Duty-Free Lunch**

Each classroom teacher or full-time librarian is entitled to at least a 30-minute lunch period free from all duties and responsibilities connected with the instruction and supervision of students. The implementation of this requirement may not result in a lengthened school day. *Education Code 21.405* [See DC(LEGAL) for definition of classroom teacher and DEA(LEGAL) for definition of librarian]

Teachers may not be required to spend their 30-minute duty-free lunch break on school property. *Tex. Atty. Gen. Op. JM-481 (1986)*

Exception

If necessary because of a personnel shortage, extreme economic conditions, or unavoidable or unforeseen circumstances, a district

may require a classroom teacher or librarian to supervise students during lunch. A classroom teacher or librarian may not be required to supervise students under this exception more than one day in any school week. *Education Code 21.405*

In determining whether an exceptional circumstance exists, a district shall use the following guidelines:

1. A personnel shortage exists when, despite reasonable efforts to use nonteaching personnel or the assistance of community volunteers to supervise students during lunch, no other personnel are available.
2. Extreme economic conditions exist when the percentage of a local tax increase, including the cost of implementing duty-free lunch requirements, would place the district in jeopardy with respect to a potential roll-back election.
3. Unavoidable or unforeseen circumstances exist when, because of illness, epidemic, or natural or man-made disaster, the district is unable to find individuals to supervise students during lunch.

*19 TAC 153.1001*

**Restrictions on  
Written Reports**

A board shall limit redundant requests for information and the number and length of written reports that a classroom teacher is required to prepare.

A classroom teacher may not be required to prepare any written information other than:

1. Any report concerning the health, safety, or welfare of a student;
2. A report of a student's grade on an assignment or examination;
3. A report of a student's academic progress in a class or course;
4. A report of a student's grades at the end of each grade reporting period;

7. An attendance report;
8. Any report required for accreditation review;
9. Any information required by a district that relates to a complaint, grievance, or actual or potential litigation and that requires the classroom teacher's involvement; or

A district may collect essential information, in addition to the information specified above, from a classroom teacher on agreement between the classroom teacher and the district.

**Paperwork Review**

A board shall review paperwork requirements imposed on classroom teachers and transfer to existing noninstructional staff a reporting task that can reasonably be accomplished by that staff.  
[See BAA]

*Education Code 11.164*

The commissioner of education may authorize special accreditation investigations in response to repeated complaints concerning imposition of excessive paperwork requirements on classroom teachers. *Education Code 39.075(b-1)*

**Staff Development**

Educator

The staff development provided by a district to an educator other than a principal must be conducted in accordance with standards developed by the district and designed to improve education in the district.

Principal

The staff development provided by a district to a principal shall be governed by Education Code 21.3541 and rules adopted under that section. [See DNB]

*Education Code 21.451(a), (a-1)*

Professional  
Development Policy

1. Be guided by the recommendations for training in the clearinghouse;
2. Note any differences in the policy adopted by the district or school from the recommendations in the clearinghouse; and
3. Include a schedule of all training required for educators or other school personnel at the district or school.

To the extent of any conflict, a frequency requirement for the completion of training provided by statute prevails over a frequency requirement for that training included in the professional development policy.

*Education Code 21.4515(a), (b)*

**Requirements for  
Training**

In designing staff development for educators other than principals, a district must use procedures that, to the greatest extent possible, ensure the training included in the staff development:

1. Incorporates proactive instructional planning techniques using a framework that:
  - a. Provides flexibility in the ways:
    - (1) Information is presented;
    - (2) Students respond or demonstrate knowledge and skills; and
    - (3) Students are engaged;
  - b. Reduces barriers in instruction;
  - c. Provides appropriate accommodations, supports, and challenges; and

- d. Maintains high achievement expectations for all students, including students with disabilities and students of limited English proficiency; and
2. Integrates inclusive and evidence-based instructional practices for all students, including students with disabilities.

Staff development shall be predominantly campus-based, related to achieving campus performance objectives, and developed and approved by the campus-level committee.

A district may use district-wide staff development that has been developed and approved through the district-level decision process. [See BQA and BQB, as appropriate]

*Education Code 21.451(a-2), (b), (c)*

Optional Training

Staff development may include training in:

1. Technology and digital learning; and
2. Positive behavior intervention and support strategies, including classroom management, district discipline policies, and the Student Code of Conduct.

Commission under Education Code 38.351 [see FFEB]. Required training may include two or more topics listed together.

*Instruction of  
Students with  
Disabilities*  
Definition

“Student with a disability” means a student who is:

1. Eligible to participate in a school district’s special education program under Education Code 29.003;
2. Covered by Section 504, Rehabilitation Act of 1973 (29 U.S.C. Section 794); or
3. Covered by the Individuals with Disabilities Education Act (20 U.S.C. Section 1400 et seq.).

*Education Code 21.001(3-a)*

Staff development must include training that is evidence-based, as defined by Section 8101, Every Student Succeeds Act (20 USC 7801), and that:

1. Relates to the instruction of students with disabilities, including students with disabilities who also have other intellectual or mental health conditions; and
2. Is designed for educators who work primarily outside the area of special education.

A district is required to provide the training to an educator who works primarily outside the area of special education only if the educator does not possess the knowledge and skills necessary to implement the individualized education program developed for a student receiving instruction from the educator. A district may determine the time and place at which the training is delivered.

In developing or maintaining the training, a district must consult with persons with expertise in research-based practices for students with disabilities, including colleges, universities, private and nonprofit organizations, regional education service centers, qualified district personnel, and any other persons identified as qualified by the district, regardless of whether the training is provided at the campus or district level.

*Education Code 21.451(d)(2), (e)-(f)*

*Suicide  
Prevention*

The required suicide prevention training may be satisfied through independent review of suicide prevention training material that complies with the guidelines developed by the Texas Education Agency (TEA) and is offered online. *Education Code 21.451(d-2); 19 TAC 153.1013(d)*

Suicide prevention programs on TEA's list of recommended best practice-based programs [see FFEB] must include components that provide for training school counselors, teachers, nurses, administrators, and other staff, as well as law enforcement officers and social workers who regularly interact with students, to:

1. Recognize students at risk of attempting suicide, including students who are or may be the victims of or who engage in bullying;
2. Recognize students displaying early warning signs and a possible need for early mental health or substance abuse intervention, which warning signs may include declining academic performance, depression, anxiety, isolation, unexplained changes in sleep or eating habits, and destructive behavior toward self and others;
3. Intervene effectively with students described above by providing notice and referral to a parent or guardian so appropriate action, such as seeking mental health or substance abuse services, may be taken by a parent or guardian; and
4. Assist students in returning to school following treatment of a mental health concern or suicide attempt.

A district shall provide training described in the components above for teachers, school counselors, principals, and all other appropriate personnel. A district is required to provide the training at an elementary school campus only to the extent that sufficient funding and programs are available. A school district may implement a program on TEA's list of recommended best practice-based programs [see FFEB] to satisfy this training requirement.

If a district provides the training, a district shall require completion in accordance with the district's professional development policy and maintain records that include district employees who participated in the training.

A district may satisfy a requirement to implement a program in the area of substance abuse prevention and intervention by providing instruction related to youth substance use and abuse education under Education Code 38.040. [See EHAC]

The training must be provided in accordance with the district's professional development policy and as part of new employee orientation to all new employees.

The training must include:

1. Factors indicating a child is at risk for sexual abuse, trafficking, or other maltreatment;
2. Warning signs indicating a child may be a victim of sexual abuse, trafficking, or other maltreatment;
3. Internal procedures for seeking assistance for a child who is at risk for sexual abuse, trafficking, or other maltreatment, including referral to a school counselor, a social worker, or another mental health professional;
4. Techniques for reducing a child's risk of sexual abuse, trafficking, or other maltreatment; and
5. Information on community organizations that have relevant research-based programs and that are able to provide training or other education for district staff, students, and parents.

A district must maintain records that include staff members who participated in the training.

To the extent that resources are not yet available from TEA or the commissioner of education, districts shall implement the policies and trainings with existing or publicly available resources. The district may also work in conjunction with a community organization to provide the training at no cost to the district.

*Education Code 38.0041(c)-(f); 19 TAC 61.1051(d)*

**Trauma-Informed  
Care**

A district's efforts to increase awareness and implementation of trauma-informed care must include training to new and existing employees in accordance with the district's professional development policy. [See BQ, FFBA] *Education Code 38.036(c)*

A district possesses significant discretion to determine the content of its school libraries. A district must, however, exercise its discretion in a manner consistent with the First Amendment.

Removal of Library

**Instructional  
Materials**

Instructional materials selected for use in the public schools shall be furnished without cost to students attending those schools. A district shall make tests readily available for review by parents in person and teaching materials readily available for review by parents both in person and, if applicable, through an instructional materials portal established under Education Code 31.154 [see CMD].

The district may specify reasonable hours for in-person review. A district may not deny a parent access to an instructional materials parent portal.

*Review Period*

In providing access to instructional materials to a student's parent under this provision, the district shall allow access beginning not later than 30 days before the school year begins and concluding not earlier than 30 days after the school year ends.

For the entire period, the district shall include access to all instructional materials that pertain to each subject area in the grade level

in which the student is enrolled, except for tests or exams that have not yet been administered to the student and the student's graded assignments.

*Taking Home

Subject to the availability of the instructional materials, a district or school shall honor the request. A student who takes home instructional materials must return the instructional materials to school at the beginning of the next school day if requested to do so by the student's teacher.

*Students Without  
Reliable Access

Before a full individual and initial evaluation is conducted to determine whether a student has a disability under the IDEA, a district must notify the student's parent or guardian or another person standing in parental relation to the student of its proposal to conduct an evaluation consistent with 34 C.F.R. 300.503, provide all the information required in the above notice, and provide an opportunity for written consent for the evaluation. The district must also provide a copy of the IDEA procedural safeguards notice required under 34 C.F.R. 300.504 and a copy of Section 504 information required under Education Code 26.0081. [See EHBAE and FB]

*Options and Services*

Parents or guardians of a student with dyslexia or a related disorder must be informed of all services and options available to the student, including general education interventions under response

to intervention and multi-tiered systems of support models as required by Education Code 26.0081(d), and options under federal law, including IDEA, and the Rehabilitation Act, Section 504.

*19 TAC 74.28(f)-(h)*

Parent Education

A district shall provide a parent education program for parents and guardians of students with dyslexia and related disorders. This program must include:

1. Awareness and characteristics of dyslexia and related disorders;
2. Information on testing and diagnosis of dyslexia and related disorders;
3. Information on effective strategies for teaching students with dyslexia and related disorders;
4. Information on qualifications of those delivering services to students with dyslexia and related disorders;
5. Awareness of information on accommodations and modifications, especially those allowed for standardized testing;
6. Information on eligibility, evaluation requests, and services available under IDEA and Section 504 and information on the response to intervention process; and

*Education Code 38.003; 19 TAC 74.28(i)*

Progress Reports

At least once each grading period, and more often if provided for in a student's individualized education program, a district shall provide the parent of or person standing in parental relation to a student receiving dyslexia instruction with information regarding the student's progress as a result of the student receiving that instruction. *Education Code 20.0031(d)*

Services

Each school must provide each identified student access at his or her campus to instructional programs required at Reading Program, below, and to the services of a teacher trained in dyslexia and related disorders. A district may, with the approval of each student's parents or guardians, offer additional services at a centralized location, but centralized services shall not preclude each student from receiving services at his or her campus. *19 TAC 74.28(i)*

Providers of  
Dyslexia Instruction

A provider of dyslexia instruction to students with dyslexia and related disorders must be fully trained in the district's adopted instructional materials for students with dyslexia and is not required

to hold a certificate or permit in special education issued under Education Code Chapter 21, Subchapter B unless the provider is employed in a special education position that requires the certification.

The completion of a literacy achievement academy under Education Code 21.4552 by an educator who participates in the evaluation or instruction of students with dyslexia and related disorders does not satisfy the requirements of this provision.

*Education Code 29.0032*

Reading Program A district shall purchase a reading program or develop its own reading program that is aligned with the descriptors in the *Dyslexia Handbook*.

Teachers who screen and treat these students must be trained in instructional strategies that use individualized, intensive, multisensory, phonetic methods and a variety of writing and spelling components described in the *Dyslexia Handbook*. The professional development activities specified by the district- and/or campus-level committees shall include these instructional strategies.

*19 TAC 74.28(e)*

Reassessment Unless otherwise provided by law, a student determined to have dyslexia during screening or testing or accommodated because of dyslexia may not be rescreened or retested for dyslexia for the purpose of reassessing the student's need for accommodations until the district reevaluates the information obtained from previous screening or testing of the student. *Education Code 38.003(b-1)*

Audiobook Program Notification A district shall notify the parent or guardian of each student determined, on the basis of a dyslexia or related disorder screening or other basis, to have dyslexia or a related disorder, or determined, on the basis of reading instrument results, to be at risk for dyslexia or other reading difficulties of the program maintained by the Texas State Library and Archives Commission providing students with reading disabilities the ability to borrow audiobooks free of charge. The notification shall be done in accordance with the program developed by the commissioner. *Education Code 28.006(g-2)*

**Dyslexia and Related Disorders**

The District shall comply with all rules and standards adopted by the State Board of Education and guidance published by the commissioner of education to implement the program to test students for dyslexia and related disorders.

In accordance with administrative procedures, the District shall provide regular training opportunities for teachers of students with dyslexia that include new research and practices for educating students with dyslexia.

**Identification**

Child Find

A district shall ensure that all children residing within the district who have disabilities, regardless of the severity of their disabilities, and who are in need of special education and related services are identified, located, and evaluated. This requirement applies to:

1. Homeless children;
2. Children who are wards of the state;
3. Children attending private schools;
4. Highly mobile children (including migrant children); and
5. Children who are suspected of being in need of special education but who are advancing from grade to grade.

*20 U.S.C. 1412(a)(3)(A); 34 C.F.R. 300.111(a)(1)(i), (c)*

*Private School  
Students*

A district shall conduct a timely and meaningful consultation with private school representatives regarding the child find process and the provision of special education and related services to children enrolled in private schools in the district.

A district shall undertake activities similar to those undertaken for public school children and shall complete the child find process for children enrolled in private schools in a time period comparable to that for other students attending public schools in the district.

*20 U.S.C. 1412(a)(10)(A)(ii)-(iv)* [See EHBAC regarding students in nondistrict placement.]

*Preschool  
Students*

A district shall develop a system to notify district residents with children who are at least three and younger than six and who are eligible for enrollment in a special education program of the availability of the program. *Education Code 29.009*

**Requests and  
Referrals for  
Evaluation**

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services. *20 U.S.C. 1414(a)(1)(E)*

Referral of students for a full individual and initial evaluation for possible special education services shall be a part of a district's overall general education referral or screening system. Either a parent, the Texas Education Agency (TEA), another state agency, or the district may initiate a request for an initial evaluation.

District Obligation to  
Refer

Students experiencing difficulty in the general classroom should be considered for all support services available to all students, such as tutorial; remedial; compensatory; response to evidence-based intervention; and other academic or behavior support services. A student is not required to be provided with interventions for any

specific length of time prior to a referral being made or a full individual and initial evaluation being conducted. If the student continues to experience difficulty in the general classroom with the provision of interventions, district personnel must refer the student for a full individual and initial evaluation. A referral for a full individual and initial evaluation may be initiated at any time by school personnel, the student's parents or legal guardian, or another person involved in the education or care of the student.

*19 TAC 89.1011(a)*

Parental Request

If a parent submits a written request to a district's director of special education services or to a district administrative employee for a full individual and initial evaluation of a student, the district shall, not later than the 15th school day after the date the district receives the request:

1. Provide the parent with prior written notice of its proposal to conduct an evaluation consistent with 34 C.F.R. 300.503, a copy of the procedural safeguards notice required by 34 C.F.R. 300.504, and an opportunity to give written consent for the evaluation; or
2. Provide the parent with prior written notice of its refusal to conduct an evaluation consistent with 34 C.F.R. 300.503, and a copy of the procedural safeguards notice required by 34 C.F.R. 300.504.

*19 TAC 89.1011(b); Education Code 29.004(c); 20 U.S.C. 1414(a)(1); 34 C.F.R. 300.301*

Notice of Rights

A reasonable time before a district proposes or refuses to initiate the identification, evaluation, or educational placement of a student or the provision of a free appropriate public education (FAPE) to a student, the district shall provide written notice to the student's parent or guardian. *20 U.S.C. 1415(b)(3); 34 C.F.R. 300.503(a)* [See EHBAE]

Initial Evaluation  
Required

A district shall conduct a full individual and initial evaluation before the initial provision of special education and related services. *20 U.S.C. 1414(a)(1)(A)*

*Consent for Initial  
Evaluation*

Before a district conducts an initial evaluation, it shall make reasonable efforts to obtain informed parental consent.

If the parent does not provide consent for an initial evaluation, or if the parent fails to respond to a request to provide consent, a district may, but is not required to, pursue the initial evaluation by utilizing due process procedures [see EHBAE], except to the extent inconsistent with state law relating to such parental consent.

Parental consent to initial evaluation shall not be construed as consent for placement for special education and related services.

*20 U.S.C. 1414(a)(1)(D)(i)(I); 34 C.F.R. 300.300(b)*

Wards of the  
State

If the child is a ward of the state and is not residing with the child's parent, a district shall make reasonable efforts to obtain the informed consent from the parent for an initial evaluation, unless:

1. Despite reasonable efforts to do so, the district cannot discover the whereabouts of the parent;
2. The rights of the parent have been terminated; or
3. The rights of the parent to make educational decisions have been subrogated and an individual appointed by a judge to represent the student has given consent for an initial evaluation.

*20 U.S.C. 1414(a)(1)(D)(iii); 34 C.F.R. 300.300(a)(2)*

*Time Frame for  
Completion of  
Written Report*

A district must complete the written report of a full individual and initial evaluation:

1. Not later than the 45th school day following the date on which the district receives written consent for the evaluation from the student's parent. If a student has been absent from school during that period on three or more school days, the period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent; or
2. For students under five years of age by September 1 of the school year and not enrolled in public school and for students enrolled in a private or homeschool setting, not later than the 45th school day following the date on which the district receives written consent for the evaluation from the student's parent.

If a district receives written consent for the evaluation from the student's parent at least 35 but less than 45 school days before the last instructional day of the school year, the written report of a full individual and initial evaluation of a student must be provided to the student's parent not later than June 30 of that year.

If a district receives written consent signed by a student's parent less than 35 school days before the last instructional day of the school year or if the district receives the written consent at least 35 but less than 45 school days before the last instructional day of the school year but the student is absent from school during that period on three or more days, the report must be completed not later

than the 45th school day following the date the district received written consent, except that the period must be extended by a number of school days equal to the number of school days during that period on which the student has been absent.

A student is considered absent for the school day if the student is not in attendance at the school's official attendance taking time or at the alternate attendance taking time set for that student. A student is considered in attendance if the student is off campus participating in an activity that is approved by the school board and is under the direction of a professional staff member of the school district or an adjunct staff member who has a minimum of a bachelor's degree and is eligible for participation in the Teacher Retirement System of Texas.

"School day" does not include a day that falls after the last instructional day of the spring school term and before the first instructional day of the subsequent fall school term.

These time frames shall not apply if the parent repeatedly fails or refuses to produce the child for the evaluation.

Transfer  
Students

A district shall ensure that evaluations of children who transfer from one district to another in the same academic year are coordinated with the children's prior and subsequent schools, as necessary and as expeditiously as possible, to ensure prompt completion of evaluations.

If a student was in the process of being evaluated for special education eligibility by a district and enrolls in another school district before the previous district completed the full individual and initial evaluation, the new district must coordinate with the previous district as necessary and as expeditiously as possible to ensure a prompt completion of the evaluation in accordance with 34 C.F.R., 300.301(d)(2) and (e) and 300.304(c)(5).

The timelines above do not apply in such a situation if:

1. The new school district is making sufficient progress to ensure a prompt completion of the evaluation; and
2. The parent and the new school district agree to a specific time when the evaluation will be completed.

*20 U.S.C. 1414(a)(1)(C), (b)(3)(D); 34 C.F.R. 300.301(c)-(e); Education Code 29.004; 19 TAC 89.1011*

*Psychological  
Examinations*

If a district determines that an additional examination or test is required for the initial and individual evaluation, the district shall provide the information required by Education Code 29.0041(a) and

shall obtain additional parental consent. If a parent does not give consent within 20 calendar days after the district provided the information, the parent's consent is considered denied.

The time required for a district to provide information and seek consent may not be counted toward the time frame for completion of an evaluation. [See Time Frame for Completion of Written Report, above]

*Education Code 29.0041*

**Eligibility and  
Reevaluations**

A student is eligible to participate in a district's special education program if:

1. The student is between the ages of 3 and 21, inclusive;
2. The student has one or more of the disabilities listed in federal regulations, state law, or both; and
3. The student's disability(ies) prevents the student from being adequately or safely educated in the public schools without the provision of special services.

*20 U.S.C. 1401(3); Education Code 29.003(b); 19 TAC 89.1035*

**Disability Definitions**

To be eligible to receive special education services, a student must be a "child with a disability," as defined in 34 C.F.R. 300.8(a), subject to the provisions of 34 C.F.R. 300.8(c), Education Code 29.003, and 19 Administrative Code 89.1040. The provisions in 19 Administrative Code 89.1040 specify criteria to be used in determining whether a student's condition meets one or more of the definitions in federal regulations or in state law. *19 TAC 89.1040*

[For more information on special education of students with dyslexia and related disorders, see EHB.]

**Visual and Auditory  
Impairments**

Students with visual impairments or who are deaf or hard of hearing shall be eligible to participate in a district's special education program from birth. *19 TAC 89.1035(b); Education Code 30.002(e), .081*

**Determination of  
Initial Eligibility**

Upon completion of the administration of assessments and other evaluation measures, a team of qualified professionals and the parent shall make the determination of whether the child has a disability and of the educational needs of the child.

A district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent.

*20 U.S.C. 1414(b)(4); 34 C.F.R. 300.306(a)*

The admission, review, and dismissal (ARD) committee must make its decisions regarding a student's initial eligibility determination and, if appropriate, individualized education program (IEP) and placement within 30 calendar days from the date of the completion of the written full individual and initial evaluation report. If the 30th day falls during the summer and school is not in session, the student's ARD committee has until the first day of classes in the fall to finalize decisions concerning the student's initial eligibility determination, IEP, and placement, unless the full individual and initial evaluation indicates that the student will need extended school year (ESY) services during that summer.

When a report is provided to a parent not later than June 30 as described at Time Frame for Completion of Written Report, above, the ARD committee must meet not later than the 15th school day of the following school year to consider the evaluation. If, however, an evaluation indicates that a student will need ESY services, the ARD committee must meet as expeditiously as possible.

*19 TAC 89.1011(d), (e)*

Consent for  
Services

*Initial Provision of  
Services*

A district must obtain informed consent from the parent for the initial provision of special education and related services. If the parent of a child fails to respond to a request for, or refuses to consent to, the initial provision of services, the district:

1. May not use the procedures in 34 C.F.R. part 300 subpart E (including the mediation and due process procedures) in order to obtain agreement or a ruling that the services may be provided to the child;
2. Will not be considered to be in violation of the requirement to make FAPE available to the child for the failure to provide the services for which the district requests consent; and
3. Is not required to convene an ARD meeting or develop an IEP for the child for the services.

*Revoking  
Consent*

If, at any time after the provision of initial services, the parent of a child revokes consent in writing for the continued provision of services, the district:

1. May not continue to provide services to the child, but must provide prior written notice before ceasing services;
2. May not use the procedures in 34 C.F.R. part 300 subpart E in order to obtain agreement or a ruling that the services may be provided to the child;

3. Will not be considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further services; and
4. Is not required to convene an ARD meeting or develop an IEP for further provision of services.

*34 C.F.R. 300.300(b)*

Reevaluations

A district shall ensure that each child with a disability is reevaluated if the district determines that the educational or related services needs of the child, including improved academic achievement and functional performance, warrant a reevaluation, or if the child's parent or teacher requests a reevaluation.

Reevaluation shall occur:

1. No more than once a year, unless the parent and the district agree otherwise; and
2. At least once every three years, unless the parent and district agree that a reevaluation is unnecessary.

A district shall obtain informed parental consent before conducting a reevaluation, except that informed parental consent is not needed if the district can demonstrate that it has taken reasonable measures to obtain consent and the child's parent has failed to respond.

*20 U.S.C. 1414(a)(2), (c)(3); 34 C.F.R. 300.303*

Evaluation for  
Change in Eligibility

A district must evaluate a child with a disability before determining that the child is no longer a child with a disability. However, an evaluation is not required before the termination of eligibility due to graduation from secondary school with a regular diploma or due to exceeding the age eligibility for FAPE under state law. If a child's eligibility terminates under the aforementioned circumstances, a district must provide a summary of academic achievement and functional performance, which shall include recommendations on how to assist the child in meeting the child's postsecondary goals. *34 C.F.R. 300.305(e); 20 U.S.C. 1414(c)(5)*

All students graduating under 19 Administrative Code 89.170 [see EIF] must be provided with a summary of academic achievement and functional performance as described above. This summary must consider, as appropriate, the views of the parent and student and written recommendations from adult service agencies on how to assist the student in meeting postsecondary goals. An evaluation as required by 34 C.F.R. 300.305(e)(1), must be included as part of the summary for a student graduating under 19 Administra-

	<p>tive Code 89.1070(b)(3)(A), (B), or (C) or (f)(4)(A), (B), or (C).19 <i>TAC 89.1070(g)</i></p>
<p>Independent Evaluation</p>	<p>The parents have a right to obtain an independent educational evaluation of their child. If a parent requests an independent evaluation, a district shall provide the parents with information regarding where one can be obtained and the district's criteria for independent evaluations.</p> <p>The results of a parent-initiated independent educational evaluation, whether at public or private expense, must be considered by the district if it meets the district's criteria, in any decision made with respect to providing FAPE to the child.</p>
<p><i>At Public Expense</i></p>	<p>If a parent requests an independent evaluation at public expense, the district shall, without unnecessary delay, either:</p> <ol style="list-style-type: none"><li>1. File a due process complaint to request a hearing to show that its evaluation is appropriate; or</li><li>2. Ensure that an independent evaluation is provided at public expense, unless the district demonstrates that the evaluation obtained by the parent did not meet district criteria.</li></ol>
<p><i>At Private Expense</i></p>	<p>If a district initiates a hearing, and the final decision is that the district's evaluation is appropriate, the parent still has a right to an independent evaluation, but not at public expense.</p> <p><i>34 C.F.R. 300.502</i></p>
<p><b>Prescription Medication</b></p>	<p>An employee of a district is prohibited from requiring a child to obtain a prescription for a substance covered under the federal Controlled Substances Act (21 U.S.C. 801 et seq.) as a condition of attending school, receiving an evaluation for special education, or receiving special education and related services.</p> <p>An employee is not prohibited from consulting or sharing classroom-based observations with parents regarding a student's academic and functional performance, behavior in the classroom or school, or the need for evaluation for special education or related services.</p> <p><i>20 U.S.C. 1412(a)(25)</i></p>

**Admission, Review,  
and Dismissal  
Committee**

Each district must establish an admission, review, and dismissal (ARD) committee for each eligible student with a disability and for each student for whom a full individual and initial evaluation is conducted. The ARD committee is the individualized education program (IEP) team defined in federal law and regulations, including 34 C.F.R. 300.321.

The district is responsible for all of the functions for which the IEP team is responsible under federal law and regulations and for which the ARD committee is responsible under state law, including the responsibilities listed at 19 Administrative Code 89.1050.

*19 TAC 89.1050(a); 34 C.F.R. 300.116(a), .321(a)*

A district shall ensure that each ARD committee meeting includes all of the following:

1. The parents of a student with a disability;
2. At least one regular education teacher of the student (if the student is, or may be, participating in the regular education environment), who must, to the extent practicable, be a teacher who is responsible for implementing a portion of the student's IEP;
3. At least one special education teacher or, if appropriate, at least one special education provider of the student;
4. A representative of the district who:

9. For a student with a suspected or documented visual impairment, a teacher who is certified in the education of students with visual impairments;
10. For a student with suspected or documented deaf-blindness, a teacher who is certified in the education of students with visual impairments and a teacher who is certified in the education of students who are deaf or hard of hearing;
11. For a student with limited English proficiency, a member of the language-proficiency assessment committee (LPAC), who may also be a member as described at items 2 or 3;
12. A representative of any participating agency likely to be responsible for providing transition services for a student, as appropriate, and with the consent of the student's parents or a student who has reached the age of majority; and
13. When considering initial or continued placement of a student in a career and technical education program, a representative from career and technical education, preferably the teacher.

The special education teacher or special education provider that participates in the ARD committee meeting must be appropriately certified or licensed as required by 34 C.F.R. 300.156.
