# Facility Improvement & Oversight Committee

# Agenda

- Pool RFP Process
- Athletics Updates
- Athletic Swing Sites
- Bond Audit Updates

# Pool RFP Process

---

# Explanation of Owner Provided Service Pools

---

- Not a new process for PPS
- The contractor pool process has been previously implemented on a smaller scale
  - I.e. moving, hazmat removal, architectural, engineering, and roofing contractors have been selected from a pool in previous years
- The biggest differences:
  - Larger scale
  - Pool is generated by a matrix formula accounting for equity amongst vendors, location, and performance history

# Cost and Operational Benefits

---

- Faster Procurement
  - Eliminates full RFP cycles (8-12 weeks vs 3-10 days for pool task orders)
  - Net time savings per project: 6-11 weeks
  - Faster Procurement = Earlier Start
- Reduced Staff Time and Fewer Delays
  - Example: There will be approximately 45 Roofing projects in the 2025 Bond. Historically, each individual contract for each individual project would need its own Board approval. The timeline of that is below:

## Old Process:

- 4 weeks to develop RFP
- 3 weeks to evaluate
- 2-3 weeks for contract negotiations
- 3 weeks to get to a BOE date
- x 45!

## New Process:

- Same timeline
- BUT only once!
- AND it results in multiple master contracts for PMs to write task orders against
