WALLED LAKE CONSOLIDATED SCHOOL DISTRICT NOTES TO STATEMENT OF REVENUE & EXPENDITURES JULY 1, 2025 to NOVEMBER 30, 2025

REVENUE

- Property taxes are largely collected in the summer. As a result, a significant amount of tax revenue has been collected.
- Year-to-date tuition and fees are from summer programming. Budgets will be updated with the next amendment.
- Interest earnings continue to be strong going into the new fiscal year; the budget will be monitored and amended during the year.
- State Sources consist primarily of State Aid payments, which are paid from October 2025 through August 2026. We have received two of eleven payments, or 18% as of November 30th. In addition to State Aid, there are several State grants included in this category of revenue.
- Federal programs are reimbursed after expenditures have been incurred and there is often a delay in timing before the revenue is received.
- Interdistrict Sources represent revenues received through Oakland Schools. These sources include Public Act 18 funds (received quarterly), Medicaid (received at the end of the year), and grant funds (received four times per year).

EXPENDITURES

- Teachers have received 6 of 24 pays related to the 2025/2026 contract; therefore, we would expect instructional areas to be approximately 25% of budget. All other employees have received 10 of 24 pays, or about 42%.
- Other basic programs consist primarily of preschool and summer programming, which are largely funded with grant funds.
- Instructional Support is trending ahead of budget primarily due to pending amendments to grant budgets. The grant budgets were approved by grant agencies subsequent to the adoption of the District's budget, so certain approved expenditures
- Transportation is trending behind budget due to the timing of invoicing. This report includes transportation costs for services provided through October.
- Community Services expenditures are primarily driven by grant programs. A significant portion of these expenditures are recorded manually via reclassification of wages and fringes based on completed time logs. Due to the manual nature of this process, the reclassification of expenditures lags the related services.
- Debt service includes payments on installment purchase agreements used to finance district vehicles and lease payments for leased equipment. The budget for this category will be adjusted with the next budget amendment to remove expired leases.
