Standards for School Board Leadership

The Role of the School Board

As the entity legally charged with governing a school district, each school board is responsible to its community for governing efficiently and leading effectively to provide for equitable education, resulting in high student achievement.

The following five standards are essential to being an effective, high-performing school board team.

Standard 1: Conduct and Ethics

The school board, as a whole, provides leadership to the community on behalf of the school district by conducting its business in a fair, respectful, legal, and responsible manner.

An effective, high-performing school board strives to meet the following benchmarks:

- A. Recognize the school board team consists of school board members and the superintendent and evaluates its performance at least annually.
- B. Take full responsibility for its activity and behavior at and away from the school board table.
- C. Encourage its members to express their individual opinions, respect others' opinions, and vote according to their convictions.
- D. Speak with one voice after reaching a decision.
- E. Spend time on board governance work rather than staff work - focuses on the ends not the means.
- F. Provide for orientation and ongoing training for all school board members.
- G. Follow established policies, including the chain-of-command, by directing people with concerns to the appropriate staff.
- H. Set an example of respectful and civil leadership.

Standard 2: Vision

The school board, with community input, envisions the educational future of the community and then formulates the goals, defines the outcomes, and sets the course for the school district.

An effective, high-performing school board strives to meet the following benchmarks:

- A. Use clear, focused, attainable, and measurable goals and outcomes to support gains in student achievement.
- B. Develop a strategic plan which includes well crafted school district belief statements, mission statement, vision statement, goals, and objectives that enable the school board to evaluate school district performance.
- C. Regularly monitor the strategic plan to evaluate progress toward goal achievement and school district success.
- D. Ensure that the school district belief statements, mission statement, vision statement, goals, and objectives are reflected in school board policies, mirrored in the budget planning and implementation efforts, and is supported district-wide.
- E. Communicate the strategic plan and the progress to the community.

Standard 3: Structure

The school board, to achieve its vision, establishes organizational and physical structures for student and staff success.

An effective, high-performing school board strives to meet the following benchmarks:

- A. Create organizational and physical structures based on equity in which all students and staff have the resources and supports to maximize achievement.
- B. Advocate and provide for learning through rigorous curriculum, effective technology, and a safe and secure environment.
- C. Select and employ one person – the superintendent – as the school district’s chief executive officer to lead and manage the school district.
- D. Hold the superintendent accountable for school district performance and compliance with written school board policy.
- E. Delegate the authority to the superintendent to recommend and evaluate all school district staff within the standards established through written school board policies.
- F. Accept ultimate responsibility for the care, management, fiscal oversight, and control of the school district while understanding that the day-to-day operations will be conducted by the staff.

Standard 4: Accountability

The school board is accountable to the community for constantly monitoring the conditions affecting the school district as a whole.

An effective, high-performing school board strives to meet the following benchmarks:

- A. Recognize the duty to itself and the community to determine whether the authority delegated to the superintendent is being used as intended.
- B. Evaluate the superintendent’s performance at least annually.
- C. Use student achievement data and other indicators when available as the basis for assessing progress toward school district goals and compliance with school board policies and state and federal laws.
- D. Recognize the distinction between “monitoring data” (data used by the school board to address accountability) and “management data” (data used by the staff for operations).

Standard 5: Advocacy and Communication

The school board advances its vision at the local, regional, state, and national levels.

An effective, high-performing school board strives to meet the following benchmarks:

- A. Focus on community-wide concerns and values that best support equity and student achievement rather than being influenced by special interests.
- B. Develop communication strategies to build trust between the school board and the superintendent, staff, students, and community.
- C. Utilize a public relations strategy that supports the flow of information into and out of the school district.
- D. Engage and build relationships with both public and private stakeholders.
- E. Advocate on local, state, and national levels.

PREFACE

Effective school boards recognize that hiring the right superintendents to lead and manage the school districts they serve is one of their most important duties. Delegating authority and holding the superintendent accountable are vital. Effective school boards also know that they have a duty to themselves and their communities to determine whether the authority delegated to the superintendents is being used as intended. As a result, evaluating the superintendent's performance should be a major focus of the school board and, by extension, the superintendent.

The Superintendent Evaluation: A Resource for School Board Members and Superintendents (Resource) is divided into three parts as outlined in the Table of Contents. Part 1 provides basic information to help school board-superintendent teams gain knowledge of evaluation principles and holding a closed meeting for superintendent evaluation. Part 2 provides a three-step process for establishing an evaluation that includes both performance goals and standards of performance and information about holding the mid-year and end-of-year evaluations. Part 3 includes examples of evidence of superintendent performance (such as documents, communications, etc.), sample evaluation forms, and a copy of Minnesota Rules 3512.0510.

The information in this Resource provides a framework for effective superintendent evaluations. School board and superintendent teams may choose to focus on establishing a goals-based evaluation; others may choose to develop a hybrid that includes a limited number of performance goals and standards of performance; others may choose a different model or opt to continue using the tool(s) and processes they are currently using. Whichever option the school board-superintendent team selects, the most important consideration is to commit to holding at least an annual evaluation of the superintendent's performance.

Before beginning to read the content of this Resource, two terms used throughout this document should be explained. From this point, the phrase, "performance standard," is a written criteria against which a superintendent's work is assessed to determine growth and/or functioning. While the superintendent's job description lays out what must be done, performance standards provide the superintendent with specific expectations for each job duty. The phrase, "performance goal," is a statement that describes the desired outcome(s) of the superintendent's work. Performance goals are job specific, measurable, and should support the school district's mission, vision, and beliefs.

Finally, training for both the school board and superintendent is suggested prior to implementing the tool.

PART 1: EVALUATION OVERVIEW

1. Reasons to Evaluate the Superintendent

Evaluation of a superintendent's performance is one of a school board's most important responsibilities. A school board's evaluation of its superintendent is an inherent managerial right unless negotiated away.

Wise school boards avoid limiting the school board's inherent managerial rights in the superintendent's employment contract. Each school board member should review the superintendent's employment contract to determine the evaluation-related provisions, if any, that may be included.

Done correctly, an evaluation is a useful governance tool that helps drive school improvement. In fact, a high-quality evaluation process enhances positive school board-superintendent relationships, improves communication, clarifies leadership roles, creates common understandings, and provides a mechanism for satisfying the public's desire for accountability.

DO	DON'T
Collaborate with the superintendent on expectations, process, and timeline	DON'T expect either the school board or the superintendent to manage the evaluation alone
Develop an effective process for the <i>entire</i> school board to engage in the evaluation	DON'T appoint a school board committee or a single school board member to conduct the evaluation
Develop agreed-upon ratings along with written commentary, feedback, and recommendations to the superintendent	DON'T provide only the agreed-upon ratings
Compile one final evaluation summary so that the school board speaks with one voice	DON'T prepare separate, individual evaluations from each school board member
Allow time for the school board to discuss the results and for the superintendent to give input and respond to the evaluation	DON'T conduct the evaluation as a one-way communication from the school board to the superintendent

2. Elements of a Comprehensive Superintendent Evaluation

Principle	Rationale
Provide opportunities for personal and professional development	Successful evaluation processes must address the whole person and be oriented toward continuous improvement
Focus on improving performance (not proving incompetence)	An effective evaluation process is based on providing feedback for growth, not on finding shortcomings. A school board may use evaluation for the purpose of termination, but doing so should not be the focus or priority
Provide legal, realistic, accurate, useful, and measurable criteria that reflect the competencies in Minnesota Rules 3512.0510	Evaluation criteria should incorporate these qualities
Create an ongoing process connected to school district and school improvement goals and/or performance standards	Evaluation is a process, not a once-a-year conversation; it must be embedded in the school district's goals and plans
Connect the school district's goals with the community's vision for its schools	Goals must reflect the community's hopes for its public schools and students
Link evaluation to academic, social, and emotional growth of all school district students	Accountability should include multiple measures of student learning
Recognize the importance of superintendent leadership to facilitate a better quality of life for all inside the school community and in the community at large	The superintendent's work must be concerned with shaping the community's future and having a positive effect upon people's lives

3. How to Evaluate Objectively and Fairly

While every evaluation process includes some subjectivity, effective tools and procedures will make the process more objective. The components below will help create a quality evaluation process.

Documentation

An evaluation is more than a checklist: deciding whether expectations are met requires careful consideration of documented evidence. School board members and the superintendent should work together to reach consensus on the evidence to be used, keeping in mind that school districts already produce a variety of annual reports, curriculum studies, budget printouts, contracts, meeting minutes, and more—all of which may be used to document a superintendent’s progress and accomplishments related to established goals and/or performance standards.

Criteria and Ratings

An effective evaluation requires that school board members rate performance by using criteria that are mutually agreed upon, understandable, realistic, and measurable.

Written Comments

Written comments offer school board members the opportunity to provide specific constructive praise and criticism. They provide the superintendent with useful information that can be used for continuous improvement.

Evaluation Conferences

Face-to-face meetings between a school board and its superintendent are useful to (a) discuss evaluation criteria; (b) establish goals and select performance standards; (c) determine the evaluation instrument, rating scale, and process; and (d) present supporting evidence and discuss the results of the school board’s mid-year formative and year-end summative evaluations.

School boards must comply with Minnesota’s Open Meeting Law ([Minnesota Statutes Chapter 13D](#)), the Minnesota Government Data Practices Act (MGDPA) ([Minnesota Statutes Chapter 13](#)), and other privacy laws. MSBA/MASA Model Policies 205 and 206, MSBA Service Manual Chapter 13 and Law Bulletins C and I, and the Minnesota Office of the Revisor of Statutes offer additional guidance. Please also see *Closed Meeting for Superintendent Evaluation* on page 7.

4. Timeline for Superintendent Evaluation

Summer/Early Fall

- School board and superintendent **review** job description, the evaluation process, form(s), and timelines.
- **Identify acceptable supporting documents**, information, evidence, and data to be used to measure performance.
- School board and superintendent **create goals and/or identify standards** based on school district priorities and that are measurable and achievable in twelve months. If no agreement can be reached, the school board's determination prevails as it is the superintendent's employer.

Winter

- During a school board meeting, the school board chair and superintendent **review evaluation process and forms** with new school board members. Private data may not be shared with new school board members until after they officially take office.
- Superintendent may complete a **self-evaluation**, with supporting documents, to be provided to the school board. The data used to create a self-evaluation is the superintendent's sole property and is shared with the school board only if the superintendent chooses to do so.
- Superintendent makes **mid-year progress reports** to the school board related to the goals and standards.
- Prior to the superintendent's **mid-year formative evaluation**, each school board member receives the mid-year evaluation form, including the evaluation criteria (goals and standards).

A formative evaluation may include informal or formal assessment of current practice and should offer feedback suited to improve future performance.

- School board members **prepare to discuss the superintendent's performance** for each goal and/or standard. The school board may request an opportunity to prepare without the superintendent's presence, but the school board cannot exclude the superintendent.

- At the **formative evaluation meeting**, the school board chair leads the school board’s review of the superintendent’s performance. The school board may close the meeting unless the superintendent requests that the meeting be open. The school board should require that this request be in writing.
 - The school board members share assessments of the superintendent’s formative evaluation performance.
 - The superintendent may offer clarification and/or progress reports on goals and/or standards.
 - The school board seeks to reach consensus on the evaluation. The school board chair completes the evaluation form during the evaluation meeting.
- At the next open meeting, the school board **summarizes its conclusions** regarding the formative evaluation, in compliance with Minnesota’s Open Meeting Law.
- The **formative evaluation is attached to the summative evaluation** when it is completed. Both documents are placed in the superintendent’s personnel file.

Spring

- Each school board member **receives the end-of-year summative evaluation form** and the evaluation criteria.
- The school board members **prepare to discuss the superintendent’s performance** on each goal and/or standard. The school board may request an opportunity to prepare for the summative evaluation without the superintendent’s presence, but the school board cannot exclude the superintendent.
- At the **evaluation meeting**, the school board chair leads the school board’s review of the superintendent’s performance. The school board may close the meeting unless the superintendent requests that the meeting be open. The school board should require that this request be in writing.
 - The school board members share their assessments of the superintendent’s summative evaluation performance.

A summative evaluation is a formal evaluation that is based on all evidence collected throughout the evaluation process. The superintendent receives an overall performance rating and the evaluation is placed in the superintendent’s personnel file.

- The superintendent may provide clarification and/or progress reports on the goals and/or standards.
- The school board seeks to reach consensus on the evaluation. The school board chair completes the evaluation form during the evaluation meeting.

- At the next open meeting, the school board **summarizes its conclusions** regarding the summative evaluation, in compliance with Minnesota’s Open Meeting Law.
- The **final written summative evaluation form** is placed in the superintendent’s personnel file.

5. Closed Meeting for Superintendent Evaluation

A school board may evaluate the superintendent’s performance in a closed meeting. The following steps must be taken:

- a) The school board **provides proper notice** to hold a meeting to evaluate the superintendent
- b) The school board **meets in open session** pursuant to the notice.
- c) A school board member **moves to close the meeting** for the purpose of evaluating the superintendent. This motion must be seconded and a majority vote of the school board members present must support the motion before the school board moves into closed session.
 - **NOTE:** If the superintendent requests that the evaluation meeting be open, the school board cannot meet in closed session. The evaluation must then be conducted in open session.
 - **NOTE:** the superintendent has the right to attend the closed meeting.
- d) The school board **proceeds to the closed meeting** to evaluate the superintendent.
- e) After the school board completes its closed meeting, it must **return to open session**. The school board can proceed with the open meeting or it can move to adjourn.
- f) The school board chair **prepares a summary** of the school board’s conclusions regarding the superintendent’s evaluation. The summary must summarize each specific, salient point of the evaluation and be more detailed than a statement that strengths and weaknesses or areas of growth were identified. The summary must give enough information so that a reasonable person would know what occurred without disclosure of private data.

The summary should include:

- The closed meeting date;
 - The names of attendees;
 - The performance areas that were reviewed, including
 - Whether expectations were met
 - Areas of strength
 - A summary statement of each goal
 - Areas of concern, if any (do not include specific personnel data that led to the concern)
- g) **At its next open meeting**, the school board provides the summary of its conclusions regarding the superintendent’s evaluation. The ‘next open meeting’ applies regardless of the type of meeting (such as a regular meeting, special meeting, work session, work study, etc.). If the next meeting is a special meeting, the school board should ensure that the special meeting notice includes the superintendent evaluation summary in the purpose of the special meeting notice and on the special meeting agenda.

The written summary should be read aloud at the meeting. Copies of the written summary should be given to the school board members at the meeting. A copy must be available at the open meeting for the public to review. The summary should be reflected in the meeting minutes.

6. Superintendent Job Description

To be effective, a superintendent must focus on meeting the regular, ongoing responsibilities that make the school district function effectively and efficiently. The superintendent must have a clearly defined job description to ensure that the school board and superintendent share a common understanding of roles and ongoing responsibilities.

The job description should be grounded in the competencies identified in Minnesota Rules 3512.0510, address the school district's specific needs, and be revisited regularly to ensure that the description accurately describes the full scope of the superintendent's roles and responsibilities. The job description must be consistent with the school board's vision, mission, and goals.

PART 2: DEVELOPING A GOALS- AND STANDARDS-BASED EVALUATION

Planning is essential to developing an effective goals- and standards-based evaluation. A goal establishes shared expectations for the superintendent's individual job performance. Standards focus on objectives the school district is directed toward. Goals- and standards-based evaluations are important because they help communicate expectations to the superintendent regarding individual improvement and district-level aspirations.

To set goals and standards, the school board must decide how the superintendent should spend the bulk of his or her time to help the school district meet its strategic priorities and goals. The school board and superintendent team must decide the areas that are most in need of the superintendent's attention.

The school board and superintendent are encouraged to develop the evaluation criteria and processes that meet their school district's needs. A hybrid approach that includes a limited number of performance goals and standards may be most helpful to the school board and superintendent. The process of setting performance goals, selecting the standards, and conducting the evaluation can be divided into three steps:

Step 1: Establish goals and standards

Step 2: Schedule and hold a mid-year formative evaluation meeting

Step 3: Schedule and hold an end-of-year summative evaluation meeting

Each step of the process is outlined below.

Step 1: Establish Goals and Select Standards

The school board and superintendent establish two or three district-focused goals and one or two professional development goals for the superintendent. The goals should be clearly aimed at improving student learning, the climate for student learning, and other specific areas of operational oversight. The goals detail expectations for the superintendent to accomplish during the next twelve months, understanding that circumstances may necessitate modifications during the year. [Minnesota Rules 3512.0510](#), which can be helpful in setting superintendent goals, can be found beginning on page A-10.

When possible, measurable progress indicators (the evidence the school board expects to receive from the superintendent for use in determining whether the goals have been accomplished) should be mutually agreed upon by the school board and superintendent. Each measurable progress indicator should be clear, understood by both the school board and superintendent, and recorded under the goal. The sample document found on page A-1 details two possible superintendent goals and evidence associated with each goal.

Once the goals have been selected and the relevant evidence is identified, the school board and superintendent work together to identify standards to be assessed based on the school district's strategic goals and priorities. Each standard includes specific elements that further define the superintendent's responsibilities within the standard. The level of performance is progressive in nature and moves from ineffective to highly effective.

Each standard will not be assessed annually. Each year, the parties will select two or three standard(s) and all or some of the elements within the selected standard(s). Lastly, a standard may support (an) established superintendent goal(s), school district goal(s), or a clearly defined operational or organizational area of focus. A list of eight possible standards and associated elements is provided below. A sample completed evaluation form that includes both goals- and standards-based criteria can be found beginning on page A-4.

Evidence of performance for each goal (measures and/or progress indicators for each goal) that the superintendent must provide should also be identified.

Step 2: Schedule and Hold a Mid-Year Evaluation

The school board determines the superintendent evaluation process and procedures, which must comply with Minnesota's [Open Meeting Law](#) (Minnesota Statutes Chapter 13D) and the [Minnesota Government Data Practices Act](#) (MGDPA) (Minnesota Statutes Chapter 13).*

Midway through the evaluation cycle, school board members should conduct a formative evaluation of the superintendent to assess the superintendent's progress toward the established goals and standards. The superintendent may choose to complete a self-evaluation. The school board and superintendent should note that superintendent evaluations may be conducted more often.

The school board's completed formative evaluation form should be placed in the superintendent's personnel file and later attached to the summative evaluation. Please see the sample superintendent evaluation timeline (page 5), the sample mid-year formative evaluation form (page A-5), and the sample superintendent self-evaluation form (page A-8).

Preparing for the Mid-Year and End-of-Year Evaluation Meetings

The process and procedures for preparing for and holding the mid-year and end-of-year evaluation meetings should be developed and documented well in advance to ensure the meetings run as smoothly as possible. One process a school board might follow is provided below.

- One month prior to the evaluation, the school board schedules a closed meeting in compliance with [M.S. 13D.05, Subd. 3\(a\)](#) for the purpose of discussing the superintendent's performance evaluation;
- One or two weeks prior to the closed evaluation meeting, the school board chair distributes the evaluation form to the other school board members for review and preparation prior to the evaluation meeting;
- During the evaluation meeting, the school board chair leads the discussion to help the school board reach a consensus on the superintendent performance. As they review each goal and standard, the school board members should note their ratings when appropriate and provide general comments on the superintendent's progress and/or growth;
- The school board chair writes the school board members' comments and ratings on the appropriate evaluation form. After the evaluation meeting, the form completed by the school board chair becomes the school board's overall mid-year or summative evaluation of the superintendent's performance. Once signed by the superintendent and school board chair, the completed form is placed in the superintendent's personnel file.
- The school board chair ensures that the school board complies with all of the requirements of [M.S. 13D.05, Subd. 3\(a\)](#).

**Note: When evaluating the superintendent's performance, school board members should be aware that any data that the school district collects is government data that may become the subject of a MGDPA request.*

Step 3: Schedule and Hold an End-of-Year Summative Evaluation Meeting

At the end of the evaluation cycle, the school board should conduct a summative evaluation of the superintendent. The school board assigns ratings, along with supporting evidence, based on the superintendent's accomplishment of the school board-approved goals and standards. The superintendent's presentations to the school board throughout year, other evidence and data, and an ongoing discussion of the superintendent's progress toward the goals and standards will provide school board members with important information to support their evaluation.

The school board determines the superintendent evaluation process and procedures, which must comply with Minnesota's [Open Meeting Law](#) (Minnesota Statutes Chapter 13D) and the [Minnesota Government Data Practices Act](#) (Minnesota Statutes Chapter 13).^{*} Please see the sample superintendent evaluation timeline (page 5) and a sample end-of-year summative evaluation (page A-6).

School board members prepare for the summative evaluation meeting by reviewing the established goals and standards to determine whether progress was made and/or growth or achievement has occurred. Each school board member should prepare to share observations and ratings for each goal and standard assessed. The school board chair facilitates the discussion and invites the superintendent to provide additional clarification/progress reports, if any, the school district-focused goals and professional development goals for the superintendent.

When considering the rating to choose, school board members should keep the following brief descriptions in mind:

- **“Highly Effective”** – the superintendent's performance goes above and beyond proficiency to achieve an exceptionally high level. This rating is relatively rare.
- **“Effective”** – the superintendent's performance is fully satisfactory, meeting all expectations at a high level. The superintendent not only meets goals and carries out plans effectively, but also shows flexibility and creativity in adjusting to changed circumstances or unexpected roadblocks and can articulate the progress to date and future plans.
- **“Developing”** – the superintendent's performance demonstrates many of the characteristics associated with effective performance, although a few exceptions and inconsistencies may exist.
- **“Ineffective”** – the superintendent's behavior does not demonstrate the characteristics associated with effective performance. The superintendent may behave contrary to expectations or may fail to show positive behaviors desired. This rating is relatively rare.

Based on the discussion, the school board completes an overall end-of-year summative evaluation form and provides a summary of its conclusions at its next open school board meeting. The school board chair ensures that a copy of the summative evaluation is placed in the superintendent's personnel file.

Tips for Conducting a Fair and Objective Evaluation Meeting

Holding the evaluation meeting requires prior thought and tact. The school board has a responsibility to evaluate the superintendent's performance. Unfortunately, no evaluation process or instrument is completely objective and some subjectivity is to be expected. However, every evaluation process should foster a fair analysis of the superintendent's performance.

Tips for conducting the superintendent's evaluation include:

- Maintain a respectful, professional process
- Focus on standards and goals, not personality
- Identify strengths in performance on which the superintendent can build
- Address poor results with tact and constructive criticism
- Give recommendations for corrective action where needed
- Go beyond conclusion reporting; use a problem-solving focus
- Encourage a professional development plan
- Conclude the evaluation by outlining priority goals for the coming year

APPENDICES

A. Evidence Examples

The validity, reliability, and effectiveness of the evaluation instrument chosen will rely upon school board members' use of evidence to rate the superintendent's performance regardless of whether the performance evaluation is a goal or standard. Evidence helps to demonstrate performance of the superintendent and removes guess work and subjectivity from the evaluation. Data sources are those documents, communications, newspaper articles, agendas, etc., that provide evidence of the superintendent's performance.

The data sources that serve as evidence of the superintendent's performance should be selected at the beginning of the evaluation cycle and be mutually agreed on by the school board and superintendent. Data sources should be limited to only what is needed to inform rating the superintendent's performance for a specific goal or standard. Excessive use of evidence clouds the evaluation process and wastes precious time and resources. The school board and superintendent should also establish when data sources are to be provided, i.e., as they originate, at designated checkpoints, during self-evaluation, etc.

The following list provides a sampling of data sources that may be used as evidence of performance. The list is by no means exhaustive, but it provides an overview of many commonly created and used data sources. Again, the board and superintendent should work together to select the data sources that best demonstrate the superintendent's performance for each goal and/or standard to be assessed.

B. Evaluation-Related Forms

A school board and superintendent should collaborate to develop evaluation forms.

Below, five sample forms are provided. The content in each sample form illustrates the nature and extent of the content that might be provided. Your school district may choose to adopt one of these options or create its own evaluation forms.

Form 1: Establish Goals and Standards

The goals for the superintendent are set forth, together with the evidence to be provided to establish the superintendent’s performance of the goal. The evaluation scale that the Governance Team will use to evaluate the superintendent’s performance is included.

Form 2: Mid-Year Formative Evaluation Form

The superintendent’s goals and the standards are stated and evidence of progress or growth to date is described. The school board then provides overall comments.

Form 3: School Board’s Final End-of-Year Summative Evaluation

The superintendent’s goals, which appear on Form 1, are set forth. The school board completes the evaluation scale for each goal and standard and, in addition, states an overall rating for the combined goals and standards. Qualitative guidance is included regarding the goals and standards. The superintendent is provided an opportunity to offer comments.

Form 4: School Board’s Summary of its Conclusions

The school board provides a summary statement on each superintendent goal and standard.

Form 5: Superintendent Self-Evaluation Form (Optional)

The superintendent provides evidence of performance of each goal, together with evidence of progress/growth related to each goal. The superintendent also provides evidence of progress/growth on each standard, noting areas of strength and areas needing improvement.

SAMPLE FORM 1 – ESTABLISH GOALS AND STANDARDS				
Goal 1: Provide leadership to maximize use of school district resources	Evidence of Performance 1: By (month) of 20--, develop and implement a five (5) year capital improvement plan, identifying general and deferred maintenance needs for all facilities and an annual allocation of resources for meeting needs.			
	Evidence of Performance 2: By the fall of 20__, develop a plan by which the school district will meet the fund balance reserve goal of ___ days or ___% of the annual general fund of the school district.			
	Evidence of Performance 3: Annually prepare and submit a report to the school board concerning expected and unexpected revenue/expenditure changes for all funds for the current fiscal year and for the following three (3) years.			
Goal 2: Provide leadership to strengthen school/community communications and relationships.	Evidence of Performance 1: Assess existing communication methods and identify preferred communication methods and content for internal and external stakeholders concerning volunteer and partnership opportunities.			
	Evidence of Performance 2: Increase by ___% the number of parents who “Agree” or “Strongly Agree” that “the school district provides timely and informative communication about the school district” on the school district’s climate survey.			
	Evidence of Performance 3: Conduct a minimum of four school district surveys and/or community meetings on specific school district programs or initiatives.			
Standard 1. Governance Team: Element 1.b. Goals and/or Strategic Plan <i>Please select one of the following: highly effective, effective, developing, ineffective, or not applicable.</i>				
Highly Effective (4)	Effective (3)	Developing (2)	Ineffective (1)	Not Applicable
<i>Facilitates development of short- and long-term measurable school district goals and aligns available resources to accomplish goals</i>	<i>Facilitates development of short-term and long-term school district goals and recommends financial strategies to meet goals</i>	<i>Goals are defined by implementing standards and seeking to maximize student achievement</i>	<i>Goals are not developed.</i>	

Evaluation Period: _____ to _____

Superintendent’s Signature: _____ Date: _____

School Board Chair’s Signature: _____ Date: _____

- * No more than three standards should be evaluated at one time.
- ** Additional goals and/or standards/elements may be inserted above.

SAMPLE FORM 2 – MID-YEAR FORMATIVE EVALUATION FORM*

Goal 1: Provide leadership to obtain and maximize use of the school district’s resources.

Evidence of Progress and/or Growth to Date: Action plan with status update on plan, including: documents in progress or completed, minutes of staff/administrative team meetings on plan development, and specific school board policies and administrative rules/regulations developed or used to implement measurable indicators

Goal 2: Provide leadership to strengthen school/community communications and relationships.

Evidence of Progress and/or Growth to Date: A list was generated of the existing communication methods used with the community, volunteers, and partnership organizations; identifying the preferred modes of communication for each. Action plan outlining a timeline of data and input gathering surveys to be conducted and community meetings has been provided. One survey has been done, data analysis has been initiated.

Standard 1. Governance Team: Element 1.b. Goals and/or Strategic Plan

Evidence of Progress and/or Growth to Date: Strategic planning process facilitator has been selected by the school board. Several planning sessions have been scheduled. The school board has approved new school district mission, vision, and beliefs statements and is developing the short- and long-range school district goals with community and staff input.

Overall Comments:

Goal 1: The superintendent developed a detailed and workable action plan. The superintendent has implemented the action plan and has begun to develop short- and long-term goals for the school district, with input from our staff and administrative team. The school board encourages the superintendent to make the goals measurable, as financial strategies will need to be implemented to meet these goals.

Goal 2: Initially, the school board thought it would review the data analysis of two surveys by this time. The surveys may be too broad given the results are generating an overwhelming amount of data. The community input meeting held this fall gleaned supportive and specific information regarding program input. This goal may be ongoing as the survey process and procedures are fine tuned.

Overall Rating Goals and Standards (Combined)				
<p>A. For the goals and standards, which best illustrates the superintendent’s greatest strength and why? Our superintendent believes in school district strategic planning. The superintendent is very organized in his/her efforts to develop short- and long-term goals and to align available resources to that end. The superintendent is visible at community and school events, always cultivating open lines of communication with our stakeholders, and continually enhances positive relationships.</p> <p>B. For the goals and standards, which presented the superintendent with the greatest challenge and why? The abundance of data generated by the survey given was overwhelming. As we move forward with the school district’s new strategic plan, identifying the specific areas that need to be worked on and then inviting community and staff input, both survey and community meeting formats generated is important. The input was invaluable to developing the short-term and long-term goals for our school district and should continue.</p> <p>C. How might the school board enhance the superintendent’s strengths and assist in overcoming challenges? Community meeting involvement by individual school board members may support the superintendent. Using the information that the superintendent gleaned from the community will be important evidence for the alignment of resources as we build next year’s school district budget. The expectation of up to four surveys a year needs to be revisited. Equal weight should be given to committee and group meeting input.</p> <p>D. Superintendent’s Comments: We made good progress on the goals this year. We gleaned an abundance of information from our stakeholders and the community support is overwhelming. I have aligned school district resources to meet the community supported goals in our upcoming year’s budget. With school board support, this budget will facilitate the needed changes. The comments above will be the basis of next year’s goals.</p>

SAMPLE FORM 4 – SCHOOL BOARD’S SUMMARY OF ITS CONCLUSIONS *

Goal 1: Provide leadership to obtain and maximize utilization of the school district’s resources.

Summary Statement: The superintendent effectively led our school district through a strategic planning action plan that included the development of short-term and long-term goals. These measurable goals will be the basis of an alignment of resources to accomplish these goals.

Goal 2: Provide leadership to strengthen school/community communications and relationships.

Summary Statement: The superintendent effectively facilitated open communication with our community. The superintendent held small and large group meetings and surveyed stakeholders to get real time data on which to base the short- and long-term goals. This ongoing input is vital to the school district administration and school board as we set school district goals and meet the needs of all of our students.

**Pursuant to M.S. 13D.05, Subd. 3 (a), the school board may close a meeting to evaluate the performance of an individual who is subject to its authority. At its next open meeting, the school board shall summarize its conclusions regarding the evaluation.*

Note: The school board’s summary must give enough information so that a reasonable person would know what occurred without disclosing private personnel data. For more information see page 7 or contact MSBA or MASA.

SAMPLE FORM 5 – SUPERINTENDENT SELF-EVALUATION FORM (OPTIONAL)

<p>Superintendent Goal 1: Provide leadership to obtain and maximize utilization of the school district’s resources.</p>	<p>Evidence of Performance 1: By (month) of 20--, develop and implement a five (5) year capital improvement plan identifying general and deferred maintenance needs for all facilities and an annual allocation of resources for meeting those needs.</p>
	<p>Evidence of Performance 2: By the fall of 20__, the school district will meet the fund balance reserve goal of ___ days or ___% of the annual general fund of the school district.</p>
	<p>Evidence of Performance 3: On an annual basis, prepare and submit a report to the school board concerning expected and unexpected revenue/ expenditure changes for all funds for the current fiscal year and for the following three (3) years.</p>

Evidence of Progress and/or Growth Goal 1 to Date: This year, I facilitated the school board’s strategic planning process. School district staff and community members participated in developing the strategic plan. We are working to align the school district’s resources and the strategic plan priorities and to guide school district decision making. We incorporated the school district’s capital improvement plan into the strategic plan. I am cognizant of the school board’s goal of establishing a 45-day fund balance reserve. I am pleased that we now have set aside an additional five days of fund balance this year and will continue to work toward the established fund balance goal in subsequent years. My annual report includes a review of expected and unexpected revenue and expenditures changes for the current fiscal year and projected scenarios for the next three years

<p>Goal 2: Provide leadership to strengthen school/community communications and relationships.</p>	<p>Evidence of Performance 1: Complete an assessment of existing communication methods and number of types of school district-related volunteer and partnership opportunities that identifies preferred communication methods and information wanted and needed about volunteer and partnership opportunities for both internal and external stakeholders.</p>
	<p>Evidence of Performance 2: Increase by ___% the number of parents who “Agree” or “Strongly Agree” with the statement “The school district provides timely and informative communication about the school district” on the school district’s climate survey.</p>
	<p>Evidence of Performance 3: Conduct a minimum of four school district surveys or community meetings related to specific school district programs or initiatives.</p>

Evidence of Progress and/or Growth Goal 2 to Date: Three surveys were conducted this year. The information from the staff and community was analyzed by the administrative team to determine trends and needs, presented to the staff and the community, and used to establish the strategic plan priorities. The strategic planning process resulted in new school district mission, vision, and belief statements, and measurable short- and long-term goals. The survey information was instrumental in the planning process. We will continue to conduct surveys annually, but we will need to be more specific and mindful in of what we want to know when generating the questions. Parents preferred the online survey format and suggested no more than two surveys per year. Doing this each year will get the parents in the routine of sharing their input and help them understand how important their input is to the school district.

Standard 1. Governance Team: Element 1.b. Goals and/or Strategic Plan				
<i>Believes in and facilitates the development of short- and long-term measurable school district goals and aligns available resources with the budget to accomplish these goals</i>	<i>Facilitates the development of short-term and long-term goals for the school district and recommends necessary financial strategies to meet those goals</i>	<i>Goals are defined by implementing standards and seeking to maximize student achievement</i>	<i>Goals are not developed</i>	
Evidence of Progress and/or Growth Standard 1 to Date: Working through the strategic planning process this year has made me a believer in that process. The input from our stakeholders became the basis and impetus of our school board’s planning. The strategic plan provides a firm foundation on which to make staff, facility, and resource decisions. We will revisit our strategic plan yearly and will glean ongoing input from our stakeholders to guide our work.				
Areas of Strength: As a result of this year’s successful strategic planning process, I have become a strong proponent and advocate for the process and its importance in the school board’s goal of providing a successful learning experience for all students. The strategic plan has focused us all on what is truly important. With this insight, we can use the school district resources appropriately and have made substantial progress toward the school board’s fund balance goal.				
Areas Needing Improvement/Strategies for Improvement: I will take the advice of our stakeholders and streamline our online survey techniques. I will facilitate the school board’s annual review and revision of the school district’s strategic plan. This is a priority that is essential to support the school board’s work.				

Evaluation Period: _____ to _____

* Recommend no more than three standards be evaluated at one time.

** Additional goals and/or standards/elements may be inserted above.

*** MSBA and MASA do not recommend using 360-degree feedback tools for an evaluation because the school board directs the superintendent and should not delegate this responsibility to others. If 360-degree feedback is initiated, it should be used by the superintendent for growth purposes. The decision whether to share the results should be controlled by the superintendent.

School Board Self-Evaluation Framework for Governance

The School Board Self-Evaluation results reflect the collective responses of the board team (board members and superintendent). These results build a profile of the board’s work in five standards (Conduct and Ethics, Vision, Structure, Accountability, Advocacy and Communication) of board practice proven to support student achievement.

The data on the following page is organized in a color-coded, horizontal-stacked bar chart that shows the board team’s results at the level of the five standards. The explanation for the color code is just above the data chart.

Analyzing your Results: Looking at Data

Start with the following page, which shows your district's aggregated data for each of the five standards. Identify standards that capture strengths, growth areas and or divergent perspectives, then work through the benchmarks and indicators for those standards.

Here is a simple protocol for your use:

Step 1: What do you see?

- Describe what you see in the data, identify where it is located to the group. This is not about interpretation at this stage, only what you see.
- List the descriptions on chart paper.

Step 2: What does the data suggest?

- Discuss what the data suggests and try to generate different interpretations. Ask clarifying questions of one another to increase clarity and understanding of one another’s perspectives.
- List responses on the chart paper

Step 3: Identify goal areas from the lists generated.

Step 4: Build two to three goals using the S.M.A.R.T. goal framework.

- **S** = Simple: Is it clear and easy to understand?
- **M** = Measurable: Is it clear what the school board will use to indicate successful performance?
- **A** = Achievable: Is it within the scope of the board’s sphere of control/responsibility?
- **R** = Realistic: Will successful performance on this goal benefit the school district?
- **T** = Time-bound: Is it clear what the school board will see and when?

Measurable Progress for Goals Identified Above:

- Indicates or signals change
- Indicators can be assessed or observed
- Examples include:
 - Measurements
 - Specific activities
 - Behavioral change
 - Shift or reallocation of school district resources

School Board Self-Evaluation

MSBA believes your school district will find it beneficial to drill down to individual items under the benchmarks. If your board team would like to dig deeper into the School Board Self-Evaluation and data, MSBA provides an opportunity to use your evaluation data as an in-district in-service for a fee. During this 2-3 hour in-service, MSBA staff will provide your school board with more in-depth individualized data and reports designed for the board's ongoing improvement. MSBA staff will lead the conversation on the individualized report and assist your school board with discussion and setting board team improvement goals.

If your board team would like to dig deeper into the self-evaluation and data, contact Gail Gilman (ggilman@mnmsba.org) or call (1-800-324-4459) for the cost associated with this board in-service and to arrange a date for an MSBA staff member to facilitate.

Thank you for your time and thoughtful efforts in completing the School Board Self-Evaluation.

MSBA looks forward to serving your school board and being the association, "Where Minnesota School Boards Learn to Lead."
