OUR COMMUNITY

We have an opportunity to unify the district around a core identity, strengthening community pride, and building a sense of belonging by putting students first across all seven cities.

- Rightsize facilities to align with enrollment (one high school, two middle schools, seven elementary schools)
- Create relevant, dynamic spaces that serve students¹³ now and into the future
- Increase opportunities, engagement, and equitable programming
- Improve safe, secure, and inclusive spaces
- Expand arts, innovation, and outdoor learning spaces

OUR CURRENT REALITY

Decisions outside of a long-term plan over many years have created our current reality:

- Statutory Operating Debt (SOD)
- Excess number of buildings
- Inequitable program offerings
- Declining student enrollment
- Low academic achievement
- Nearly 50 years without a bond referendum
- \$140M in LTFM needs

OUR CURRENT REALITY

Declining Student Enrollment

OUR CURRENT REALITY

Building Better **Together**

OUR CURRENT REALITY

- **Outdated classroom designs** that support passive learning over student-centered instruction
- **Inadequate career pathways** and technical education spaces for future readiness
- **Insufficient safety and security** infrastructure
- **Lacking single-user** and ADA-accessible restrooms

Need for relevant, dynamic learning spaces

Need quality college and career pathways classes

Continued need for upgraded safety and security

Need for single-user restrooms and showers

PLANNING FOR THE FUTURE

Over the last two years, we have:

- Assessed the root causes of academic concerns and began the process of continuous improvement.
- Studied student enrollment trends
- Engaged community in Reimagine Rdale: Vision 2030.
- Completed a comprehensive facility assessment.
- Closed schools, consolidated buildings, and reduced programming.
- Reduced the budget by \$26M over the past three years.

WHAT IF THE BOND ISN'T APPROVED?

Potential Cost-Cutting Decisions

- Draw high school attendance boundaries to maximize enrollment at or near capacity at one school while decreasing enrollment at the other for district-wide services and programming
- Reconfigure grades to maximize building efficiency and capacity

Continued onto next slide ➡

WHAT IF THE BOND ISN'T APPROVED?

- Reduce non-required educational programming (i.e., art, music, Advanced Placement, CTE)
- Increase class sizes
- Maximize building capacity by requiring teachers to share rooms and instruct from carts
- Reduce staff
- Expand walking distances for student transportation eligibility
- Scale-back athletics and activities for students
- Erode our ability to be this community's school of choice, risking further enrollment loss
- Weaken our ability to attract and retain top talent

Goals and Standards

Dr. Teri Staloch, Superintendent
August 3, 2026

Goal 1: The Superintendent will prioritize executive time to secure the opportunity for the financial recovery and future sustainability of Robbinsdale Area Schools by leading a building bond referendum campaign and implementing the Statutory Operating Plan	Evidence of Performance 1: The superintendent will lead the process to design and execute a comprehensive community information campaign to educate all Robbinsdale Area Schools stakeholders, including staff, students, families, and community members, on the Building Better Together Bond. This will provide the opportunity for broad awareness and transparency regarding the district facilities, and strategic needs to advance student learning and opportunities. The superintendent will provide evidence of informational campaigns across all district sites as well as provide community engagement metrics to demonstrate the successful deployment of the bond campaign.		
	Evidence of Performance 2: The superintendent will lead the process to systematically implement and monitor the district's Statutory Operating Debt (SOD) plan, allocating administrative time to monitoring fiscal metrics and delivering data-driven recommendation adjustments to the school board to permanently improve the district's financial position. A balanced budget will be created through data-informed administrative recommendations and board direction. Evidence of structural progress toward balancing long-range district and student needs with fiscal accountability will be demonstrated.		
Standard 2: School District Finances, Element 2.a. Budget Development and Maintenance <i>Please select one of the following: highly effective, effective, developing, ineffective, or not applicable.</i>

<i>Engages in timely budget planning and actions that consider current and long-range information and data; seeks balance to meet students' current and future needs and be fiscally responsible to community; distributes resources to meet immediate and long-range objectives</i>	<i>Engages in proactive budget actions that consider current information and data; seeks to balance to meet the students' needs and be fiscally responsible to community; distributes resources in light of school district goals and immediate objectives</i>	<i>Budget development, resource allocations, and management is focused on meeting immediate needs and fiscal issues. Decisions are primarily reactive to current needs of the school district</i>	<i>Budget knowledge is limited. The budget is developed and managed without taking into consideration the current needs of the school district. Resources are allocated without consideration of school district needs</i>
Notes:
