- III. **2020-2021 Co and Extra-Curricular Update**
- IV. **Clay Target Team Proposal**

**14**

## **Clay Target Team Proposal**

The USA High School Clay Target League is a 501(c)(3) non-profit organization, and is an independent provider of shooting sports as an extracurricular co-ed and adaptive activity for high schools and students in grades 6 through 12. The organization's priorities are safety, fun, and marksmanship – in that order.

The League attracts student athletes that have earned their firearm safety certification to participate in shooting sports while creating a “virtual” competition among high school teams at no cost to the schools. Family travel costs are minimal because practice and competition are conducted at a shooting range near the school's location. The league is also the safest sport in high school, with no reported injuries since the inception of the League in 2001.

Why start a high school/middle school trap team? The growth of sport shooting depends on new and experienced shooters being introduced to this fun sport, as well as enjoying a competitive, easy-going activity. Shooting sports help students learn safety, self-confidence, hand-eye coordination, teamwork and leadership skills. It has been found that participation in trapshooting helps with concentration, focus and discipline.

These skills will help the students as they grow and mature past their high school years. You learn to overcome peer pressure, learn from your mistakes, you become a good sport, learn how to set goals and achieve them. A shooting range or gun club is a great place to make new friends with common interest, there are no age or gender limitations when it comes to shooting sports.

### **What student is eligible to participate?**

Students must be in grades six through twelve (or per school team requirements) and possess a league-approved firearm education certificate.

### **Can a parent or student start a team?**

Yes. Ask school administrators to provide the process and requirements to add an activity to the school. Then visit the League's website and select the “Start A Team” page and follow the instructions to acquire the interactive presentation to learn more. Make sure you understand the school's approval schedule and requirements so you can receive the approval and setup the team prior to the March student athlete registration deadline.

### **How much does it cost to join the team?**

About \$230. The fee varies slightly for each team depending on ammunition and target costs from the teams local shooting range. Some teams may also include uniforms. A \$35 fee is paid to the League for administration costs associated with operations, awards and insurance. An annual four-issue subscription to the League's PullUSA Magazine is also included. Some school

teams are sponsored by local businesses and organizations to help pay for costs. The State Tournament participation fee is not included in the team cost.

### **What kind of firearm safety training is required for students to participate in the League?**

All student athletes are required to complete and submit certificates for either one of two League-approved firearm safety certification programs – a state-approved hunter education certificate or the **League's SAFE certificate**. Teams should verify the firearm safety training certification requirements with the shooting range where they will be conducting League events. View certification details by visiting the firearms safety training page under the Rules section on this website.

### **How safe is clay target shooting?**

The League is the safest sport in high school. With more than 30,000 student athletes that have participated in more than 330,000 events that have shot more than 20 million times, there have been no reported injuries since the League started in 2001.

### **Is the League a sport or an activity?**

Both. Clay target shooting is an Olympic sport that is identified as an “activity” or “club” at the high school level. In most cases, a high school identifies their “sports” as a varsity sport officially recognized by the state high school athletic/activities association.

### **Is this activity Title IX compliant?**

Yes. All students have an equal opportunity to participate and must adhere to the same rules.

### **Do schools offer a lettering program or yearbook inclusion for this activity?**

Yes. Although it is not required, the League recommends that the student athletes be recognized similar to other athletes in other sports. The League provides lettering recommendations on the website.

### **How much does it cost the school to participate?**

\$0. All costs are paid for by the student athletes.

### **Are students or schools at risk of violating our gun-free zone policy?**

No. The student athletes follow the same state law as all other students. Students must either go home after school and get their firearm and ammunition or have a parent or someone else bring the items to the shooting range for them. Some shooting ranges offer on-site gun safes to store the guns for the student athletes.

### **How much staff time, transportation, or facilities are required by the school to support the team?**

None. No administration assistance is required because coaches manage the entire team and the League provides online resources and guidance to manage the team. Transportation to the shooting ranges is arranged by student, families and coaches.

**How many colleges have shooting sport teams?**

Over 500. Many offer scholarships to student athletes.

**Are athletes expected to adhere to all school policies?**

Yes. The League fully supports all school and activity policies regarding participation, academic, and ethical requirements.

**Are all participants insured?**

Yes. Registered student athletes receive accident insurance and each registered coach and volunteer receives liability insurance policy from the League. There is no additional cost for the insurance coverage.

**What is the most popular way to set up a team?**

As a club activity. The League provides the tools and resources so the team can be self-sustaining and school involvement can be as much, or as little, as they prefer.

**What is the number one priority in the League?**

Safety.

**What is required for a school to join the League?**

The League requires a formal approval from a school official (AD, Principal, Superintendent or School Board) and permission to use the high school name for the team.
