Title	Copy of FIELD AND OTHER DISTRICT-SPONSORED TRIPS
Code	po2340
Status	Policy Committee Review
Adopted	March 13, 2017
Last Revised	December 5, 2022

2340 - **FIELD AND OTHER DISTRICT-SPONSORED TRIPS**

The Board recognizes the value of organized trips or other excursions away from the classroom as a valuable part of the District's educational programming and a valuable opportunity to obtain additional educational experiences not offered directly in the curriculum offerings. These opportunities occur in four (4) primary forms addressed in this policy: (a) field trips; (b) extra-curricular/co-curricular program-related trips; (c) overnight trips; and (d) other District-sponsored trips.

Field Trips

The Board of Education recognizes that field trips, when used for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the schools. For purposes of this policy, a field trip shall be defined as any planned journey by one (1) or more students away from District premises, which is under the supervision of a professional staff member, approved by Administration, and furthers or supplements an integral part of a course of study as planned for and incorporated into that course of study by the teacher. Properly planned and executed field trips should:

- A. supplement and enrich classroom procedures by providing learning experiences in an environment outside the schools;
- B. arouse new interests among students;
- C. help students relate school experiences to the reality of the world outside of school;
- D. bring the resources of the community - natural, artistic, industrial, commercial, governmental, educational - within the student's learning experience;
- E. afford students the opportunity to study real things and real processes in their actual environment.

Extra-Curricular/Co-Curricular Trips

The Board recognizes that student trips will occur for reasons that are not directly incorporated into the curriculum as part of a class, but rather are part of the extra-curricular/co-curricular activities offered by the District. For example, a District athletic team may travel to away games, or take a trip to an out-of-town tournament. Any such trips must be identified at the beginning of the activity for the school year, or for the particular season. Extra-curricular or co-curricular trips shall be approved by Administration in accordance with the same procedures used for approving field trips. In cases where such advance notice is not possible (such as travel to State tournament competition), the staff member responsible for such activity shall notify the building administrator of the activity and pertinent information.

Extra-curricular trips that extend to an overnight stay are considered overnight travel, other than WIAA athletic teams participating in State tournaments/meets.

Overnight Travel

Overnight travel is defined as a field trip that involves one (1) or more overnight stays. Overnight travel includes foreign travel. The District views overnight travel outside of the District related to the curriculum/program as an adjunct to that curriculum/program. As such it is an important feature of the overall educational program. The District recognizes the importance of overnight travel outside of the District to amplify and enhance studies that occur in the schools' classrooms through unique enrichment opportunities that are not available locally. Overnight travel shall first be approved by the Principal in accordance with the District's overnight travel guidelines, and then must be submitted to the Board for final approval.

Other District-Sponsored Trips

Other District-sponsored trips shall be defined as any planned, student-travel activity which is approved as part of the District's total educational program, but not a part of a particular course and not expressly connected to an established extra-curricular/co-curricular activity. These trips may include such trips as summer trip programs, youth service trips, and other types of day trips that are organized by or through school staff or facilitated in some fashion through the District.

Trip Approval Process

No staff member may offer or lead any trip as a District-sponsored trip ~~no matter the type~~ unless the trip has been approved in the manner prescribed in this policy.

Any staff member may propose a trip by presenting details of the proposed trip to the principal.

Proposals shall include the details of the trip, the cost of the trip, identify any third party entities that will be involved in the trip, identify the curriculum-based purpose of the trip, identify what students will be eligible to participate, and any other pertinent information. If overnight, the proposal must describe how accommodations will be provided and how such arrangements will be properly supervised.

General Trip Provisions

The Board does not endorse, support, or assume liability in any way for any staff member, volunteer, or parent of the District who takes students on trips not approved by the Board or District Administrator. No staff member may solicit students of this District for such trips within the facilities or on the school grounds of the District without permission from the District Administrator. Permission to solicit neither grants nor implies approval of the trip.

The District Administrator shall ensure the implementation of guidelines which address:

- A. the safety and well-being of students;
- B. parental permission is sought and obtained before any student leaves the District on a trip;
- C. each trip is properly planned and monitored;
- D. student behavior while on all field trips complies with the Student Code of Conduct and on all other trips complies with an approved code of conduct for the trip;
- E. a copy of each student's Emergency Medical Authorization Form is available to the staff member in charge.

In any instance in which the itinerary of a trip is altered, the professional staff member in charge shall notify the administrative superior immediately.

The distance traveled outside the State and the use of nondistrict vehicles shall be consistent with Chapter 121 Wis. Stats.

Trips Not Sponsored by the District

No staff member, volunteer, coach, or other individual acting in some capacity for the District may solicit students of this District to participate in any trip not sponsored by the District unless that staff individual has received approval of the principal to promote such trips within the facilities or on the school grounds. This includes summer trips abroad or other trips offered through a third-party organizer in which a staff member, volunteer, coach, or other individual acting in some capacity for the District is participating, as well as athletic activities outside the District's athletic program.

If approval is granted to solicit students to participate, that individual must clearly communicate to parents that the trip is not District-sponsored and that that individual is not participating within the staff individual's role representing the District.

Coordination and/or participation in such a program shall be consistent with Policy 3210 - Staff Ethics/Policy 4210 - Support Staff Ethics.

Section	Ready for Policy Committee
Title	Copy of INDEPENDENT EDUCATIONAL EVALUATION (IEE)
Code	po2460.03
Status	Policy Committee Review
Adopted	July 17, 2017
Last Revised	December 5, 2022

2460.03 - **INDEPENDENT EDUCATIONAL EVALUATION (IEE)**

An independent educational evaluation (IEE) is an evaluation conducted by a qualified examiner who is not an employee of this District. A parent has the right to an IEE at public expense if the parent disagrees with an evaluation that the District conducted. For purposes of this policy, "evaluation" means the procedures used to determine whether a child has a disability and the nature and extent of the special education and related services the child needs. In the event the District receives a parent request for an IEE, the District must either provide the IEE at District expense pursuant to this policy or request a due process hearing to show that its evaluation is appropriate. The IEE must meet District criteria for IEEs, which is the same criteria that the District uses when it conducts its own evaluations. If the District requests a due process hearing and the hearing officer determines that the District's evaluation is appropriate, the parent still has the right to an IEE, but not at public expense. Parents may only request one publicly funded IEE for each evaluation completed by the District.

Procedures to Obtain an IEE at Public Expense

- A. The parent should submit to the District a written request for an IEE and should include in such request an explanation of their reasons for objecting to the evaluation obtained by the District. However, the District will not deny parents a publicly funded IEE because they fail to provide the District with such a written request or fail to provide reasons for requesting an IEE.
- B. If a parent requests an IEE, the District will provide the following information:
 1. A list of the names and addresses of IEE examiners located in the area. The list will consist of IEE examiners who, in the District's judgment, are qualified to perform the evaluation requested by the parents. If a qualified examiner is not located in the area, the District will identify a qualified examiner elsewhere in the State of Wisconsin.
 2. A description of the District's criteria for selection of IEE examiners.
- C. Minimum qualifications for IEE examiners. The District will not pay for an IEE unless the IEE complies with the following criteria or the parents can show unique circumstances that justify a publicly funded IEE that does not meet the criteria.
 1. The prospective IEE examiner (the "examiner") must hold a valid license from the State of Wisconsin in the field related to the known or suspected disability. The examiner must have extensive training in the evaluation of the area(s) of concern and be able to interpret instructional implications of the evaluation results. In instances where no "applicable license" exists, the evaluator must provide documentation of extensive and recent training and experience related to the known or suspected disability.
 2. The examiner must be located within 100 miles of the District, and must conduct the evaluation within

District boundaries.

3. The examiner may only charge fees for educational evaluation services that, in the sole judgment of the District, are reasonable.
 4. The examiner must be permitted to directly communicate and share information with members of the IEP Team. The examiner must also agree to release the assessment and results, including parent and teacher surveys, prior to receipt of payment for services.
 5. If the District evaluation included an observation of the child in one (1) or more educational settings, the IEE shall include at least one (1) observation in that setting. Evaluators shall make at least one (1) contact with the child's general education teacher for the purpose of determining how the student is progressing in the general curriculum. In addition, evaluators are encouraged to make additional contacts with other involved general or special education teachers. If the purpose of the evaluation is to address a learning disability, an observation of the child is a required evaluation component.
 6. The same criteria apply to both public and independent examiners.
- D. The maximum allowable cost for an examiner will be the average cost per day or per hour for a similarly qualified staff member employed by the District during the current school year, as determined by the Director of Special Education (not to exceed \$400.00). In the unusual event the examiner is one (1) not typically employed by the District, such as a medical doctor, psychiatrist, clinical psychologist, or other similar professional, reimbursement of costs will be limited to reasonable and customary charges as determined by the District and its insurance carrier. The District shall not be responsible for reimbursement of travel costs or other related costs incurred by the parents in connection with their arrangement of, or their attendance at the IEE unless the parent can demonstrate that necessary services are not available in the community.
- E. If unique circumstances justify an IEE that exceeds the maximum allowable cost; the District must ensure the IEE is publicly funded. The District will review these circumstances on a case-by-case basis. If the total cost for an IEE exceeds the District's cost criteria and it is determined through appropriate procedures that there is no justification for excess cost, the cost of the IEE will be publicly funded up to the District's maximum allowable cost. If the District determines the cost exceeds the cost criteria, then the District must without unnecessary delay, initiate a due process hearing to demonstrate the cost did not meet appropriate agency criteria.

5350 - **SUICIDE PREVENTION, INTERVENTION, AND POSTVENTION**

The Board recognizes that suicide is a leading cause of death among youth and must be taken seriously. In order to attempt to reduce suicidal behavior and its impact on students and families, the District Administrator shall develop prevention, intervention, and postvention strategies and procedures.

The District Administrator may involve school health professionals, school counselors, administrators, other staff, parents/guardians, students, local health agencies and professionals, and community organizations in planning, implementing, and evaluating the district's strategies for suicide prevention, intervention, and postvention.

The District Administrator may offer parents education or information which describes the severity of the youth suicide problem, the district's suicide prevention curriculum, risk factors and warning signs of suicide, basic steps for helping suicidal youth, and/or school and community resources that can help youth in crisis.

Prevention and Instruction

Using the Department of Public Instruction notice, the District Administrator shall annually inform the professional staff of the resources available from the Department and other resources regarding suicide prevention. The District Administrator shall also implement procedures to obtain payment or reimbursement for professional mental health services provided by any licensed treatment professional.

Suicide prevention strategies may include, but not be limited to, efforts to promote a positive school climate that enhances students' feelings of connectedness with the school and is characterized by caring staff and harmonious interrelationships among students.

Developmentally appropriate, student-centered education materials will be integrated into the curriculum of all K-12 health classes. The content of these materials will:

- A. encourage positive social and emotional development.
- B. teach life skills such as problem-solving and sound decision-making.
- C. provide knowledge of the relationship between youth suicide and the use of alcohol and controlled substances.
- D. promote awareness of the warning signs of suicide, how to respond to potential suicidal persons and available community counseling and mental services

Intervention

When a suicide attempt or threat is reported at school or during a school-sponsored event or activity, the principal shall:

- A. Address the student's physical safety by one of the following, as appropriate:
 - 1. Securing immediate medical treatment if a suicide attempt has occurred.
 - 2. Securing law enforcement and/or other emergency assistance if a suicidal act is being actively threatened.
 - 3. Keeping the student under continuous adult supervision until the parent and/or appropriate support agent or agency can be contacted and has the opportunity to intervene.
- B. Designate specific individuals to be promptly contacted, including the school counselor, psychologist, nurse, superintendent, and/or the student's parent, and, as necessary, local law enforcement or mental health agencies.
- C. Document the incident in writing as soon as feasible.
- D. Follow up with the parent and student in a timely manner to provide referrals to appropriate services as needed.
- E. Provide access to counselors or other appropriate personnel to listen to and support students and staff who are directly or indirectly involved with the incident at the school.
- F. Where appropriate, evaluate and plan for the student's educational needs by communicating with teachers and parents regarding return to school and interim academic measures.
- G. Provide an opportunity for all who respond to the incident to debrief, evaluate the effectiveness of the strategies used, and make recommendations for future actions.

In the event that a suicide occurs or is attempted at school, the Principal shall follow the crisis intervention procedures contained in the school safety plan. After consultation with the District Administrator and the student's parents about facts that may be divulged in accordance with the laws governing the confidentiality of student record information, the principal or designee may provide students, parents, and staff with information, counseling, and/or referrals to community agencies as needed. School staff may receive assistance from school counselors or other mental health professionals in determining how best to discuss suicide or attempted suicide with students.

Staff Development

Suicide prevention training for staff shall be designed to help staff identify and respond to students at risk of suicide. The training shall be offered under the direction of a school counselor/school psychologist and/or in cooperation with one or more community mental health agencies.

Suicide Intervention; Civil Liability Exemption

Any School District officer, employee, or volunteer who in good faith attempts to prevent suicide by a student is immune from civil liability for their acts or omissions in respect to the suicide or attempted suicide.

Postvention

The Board recognizes that the death of a staff member or student, whether by suicide or other means, that affects the entire school and community. In the event of a staff member or student's death, it is critical that the school's response be swift, consistent, and intended to protect the student body and community.

Development and Implementation of an action plan:

The school will develop an action plan to guide school response following a death by suicide. A meeting to implement the action plan should take place immediately following news of the suicide death. The action plan may include the following steps:

- A. Verify the death. Staff will confirm the death and determine the cause of death through communication with a coroner's office, local hospital, the student's parent, or police department. Even when a case is perceived as being an obvious instance of suicide, it should not be labeled as such until after a cause of death ruling has been made. If the cause of death has been confirmed as suicide but the parent will not permit the cause of death to be disclosed, the school will not share the cause of death but will use the opportunity to discuss suicide prevention with students.

- B. Assess the situation. A team will meet to prepare the postvention response, to consider how severely the death is likely to affect other students, and to determine which students are most likely to be affected. This team will also consider how recently other traumatic events have occurred within the school community and the time of year of the suicide. If the death occurred during a school vacation, the need for or scale of postvention activities may be reduced.
- C. Share information. Before the death is officially classified as a suicide by the coroner's office, the death can and should be reported to staff, students, and parents/guardians with an acknowledgement that its cause is unknown. Inform the faculty that a sudden death has occurred, preferably in a staff meeting. Write a statement for staff members to share with students. The statement should include the basic facts of the death and known funeral arrangements (without providing details of the suicide method), recognition of the sorrow the news will cause, and information about the resources available to help students cope with their grief. Public address system announcements and school-wide assemblies should be avoided. The team may prepare a letter (with the input and permission from the student's parent or guardian) to send home with students that includes facts about the death and information concerning the school's response.

~~Confirming the News and Convening the Education Support Team~~

~~Upon receiving news of a student's or employee's death, including an unconfirmed rumor, a staff member must immediately contact the Principal, and/or designee. Contact must be made whether this is during or outside school hours.~~

~~In the case of a death by suicide, other concerns such as the prevention of suicide contagion will be taken into account. Suicide contagion is the process by which suicidal behavior or a suicide completion influences an increase in the suicide risk of others. Identification, modeling, and guilt are each thought to play a role in contagion. Although rare, suicide contagion can result in a cluster of suicides within a community.~~

Violating academic honesty erodes the trust between teachers and students as well as compromises the academic standing of other students. So that each student is judged solely on their own merits, the Board prohibits any student from presenting someone else's work as their own, using artificial intelligence platforms in place of one's own work, providing unauthorized assistance to another student, and cheating in all its forms.

All school work submitted for the purpose of meeting course requirements must be the individual student's original work. It is prohibited for any student to unfairly advance their own academic performance or that of any other student. Likewise, no student may intentionally limit or impede the academic performance or intellectual pursuits of other students.

Academic dishonesty includes, but is not limited to:

- A. plagiarism (of ideas, work, research, speech, art, music, etc.);
- B. forgery of another's work;
- C. presenting the results from an artificial intelligence platform as one's own () (See Policy 7540.08 - Artificial Intelligence (AI));
- D. downloading or copying information from other sources and presenting it as one's own;
- E. using language translation work of someone else when the expectation is doing one's own translation;
- F. copying another person's work;
- G. allowing another person to copy one's own work;
- H. stealing another person's work;
- I. doing another person's work for them;
- J. distributing copies of one's work for use by others;
- K. distributing copies of someone else's work for use by others;
- L. intentionally accessing another's work for the purpose of presenting it as one's own;
- M. distributing or receiving answers to assignments, quizzes, tests, assessments, etc.
- N. distributing or receiving questions from quizzes, tests, assessments, etc.

Faculty and Administration have the responsibility for monitoring students' work for compliance with this policy.

All teachers, beginning in the elementary grades, will educate students as to what constitutes academic dishonesty and what is acceptable and unacceptable behavior in District schools regarding academic integrity.

Students who violate this policy are subject to disciplinary consequences.

Parents shall be contacted as soon as practicable to report any alleged acts of academic dishonesty by their child.

Repeated violations of this policy at the high school level will result in additional disciplinary consequences, up to and including suspension and expulsion.

Student and/or parent appeals of disciplinary consequences resulting from violation of this policy may be made within five (5) business days to the Principal whose decision shall be final. If the Principal was the staff member responsible for the disciplinary consequence being appealed, then student and/or parent appeals should be directed within five (5) business days to the District Administrator whose decision shall be final.

5517 - **STUDENT ANTI-HARASSMENT**

Prohibited Harassment

It is the policy of the Board to maintain an educational environment that is free from all forms of harassment. This commitment applies to all District operations, programs, and activities. All students, administrators, teachers, staff, and all other school personnel share responsibility for avoiding, discouraging, and reporting any form of harassment. This policy applies to conduct occurring in any manner or setting over which the Board can exercise control, including on school property, or at another location if such conduct occurs during an activity sponsored by the Board.

The Board will not tolerate any form of harassment and will take all necessary and appropriate actions to eliminate it, including suspension or expulsion of students and disciplinary action against any other individual in the School District community. Additionally, appropriate action will be taken to stop and otherwise deal with any third party who engages in harassment against our students.

The Board will vigorously enforce its prohibition against harassment based on the traits of sex (including gender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation or physical, mental, emotional or learning disability, or any other characteristic protected by Federal or State civil rights laws (hereinafter referred to as "Protected Classes"), and encourages those within the School District community as well as Third Parties, who feel aggrieved to seek assistance to rectify such problems. Additionally, the Board prohibits harassing behavior directed at students, including at a group of students, for any reason, even if not based on one of the Protected Classes, through its policies on bullying (See Policy 5517.01 – Bullying).

The Board will investigate all allegations of harassment and in those cases where harassment is substantiated, the Board will take immediate steps designed to end the harassment, prevent its reoccurrence, and remedy its effects. Individuals who are found to have engaged in harassment will be subject to appropriate disciplinary action.

Other Violations of the Anti-Harassment Policy

The Board will also take prompt steps to impose disciplinary action on individuals engaging in any of the following prohibited acts:

- A. Retaliating against a person who has made a report or filed a complaint alleging harassment, or who has participated as a witness in a harassment investigation;
- B. Filing a malicious or knowingly false report or complaint of harassment;
- C. Disregarding, failing to investigate adequately, or delaying investigation of allegations of harassment, when responsibility for reporting and/or investigating harassment complaints comprises part of one's duties

Sexual Harassment covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, i.e., sexual harassment prohibited by Title IX, is not included in this policy. Allegations of such conduct shall be addressed by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities.

Notice

Notice of the Board's policy on anti-harassment in the educational environment and the identity of the District's Compliance Officers will be posted throughout the District and published in any District statement regarding the availability of employment, staff handbooks, and general information publications of the District as required by Federal and State law and this policy.

Definitions

Words used in this policy shall have those meanings defined herein; words not defined herein shall be construed according to their plain and ordinary meanings.

Complainant is the individual or group of students who alleges, or is alleged, to have been subjected to harassment, regardless of whether the person files a formal complaint or is pursuing an informal resolution to the alleged harassment.

Day(s) means business day(s) (i.e., a day(s) that the District office is open for normal operating hours, Monday – Friday, excluding State-recognized holidays) unless expressly stated otherwise herein.

Respondent is the individual who has been alleged to have engaged in harassment, regardless of whether the Reporting Party files a formal complaint or is seeking an informal resolution to the alleged harassment.

School District community means individuals, students, administrators, teachers, and staff, as well as Board members, agents, volunteers, contractors, or other persons subject to the control and supervision of the Board.

Third Parties include, but are not limited to, guests and/or visitors on School District property (e.g., visiting speakers, participants on opposing athletic teams, parents), vendors doing business with, or seeking to do business with, the Board, and other individuals who come in contact with members of the School District community at school-related events/activities (whether on or off District property).

Bullying

Bullying is prohibited by Board Policy 5517.01 – Bullying. It is defined as deliberate or intentional behavior using words or actions, intended to cause fear, intimidation, or harm. Bullying may be a repeated behavior and involves an imbalance of power. Furthermore, it may be serious enough to negatively impact a student's educational, physical, or emotional well-being. Bullying need not be based on any Protected Class. Bullying behavior rises to the level of harassment when the prohibited conduct is based upon the student's sex (including gender status, change of sex, or gender identity), race, color, national origin, religion, creed, ancestry, marital or parental status, sexual orientation, physical, mental, emotional, or learning disability, or any other characteristic protected by Federal or State civil rights. Complaints brought under this policy that are more appropriately handled under the Bullying policy shall be referred for investigation consistent with the procedures in that policy.

Bullying that rises to the level of Sexual Harassment is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, i.e., sexual harassment prohibited by Title IX, and is not included in this policy. Allegations of such conduct shall be addressed by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities.

Harassment

Harassment means any threatening, insulting, or dehumanizing gesture, use of data or computer software, or written, verbal or physical conduct directed against a student or group of students based on one or more of the student's or group of students' Protected Class that:

- A. places a student or group of students in reasonable fear of harm to their person or damage to their property;
- B. has the effect of substantially interfering with a student's or group of students' educational performance, opportunities, or benefits; or
- C. has the effect of substantially disrupting the orderly operation of a school.

"Harassment" also includes "hate speech" directed against a student or group of students —the use of language, behavior, or images/symbols that express prejudice against a particular group or groups on the basis of any protected

characteristic(s).

Examples are:

- A. making statements that promote violence toward a racial or ethnic group;
- B. drawing, displaying, or posting images or symbols of prejudice.

Sexual Harassment

For purposes of this policy only and not sexual harassment under Title IX, addressed in Policy 2266 - Nondiscrimination on the Basis of Sex in Education Programs or Activities, "sexual harassment" is defined as unwelcome sexual advances, requests for sexual favors, sexually motivated physical conduct or other verbal or physical conduct or communication of a sexual nature when:

- A. submission to that conduct or communication is made a term or condition, either explicitly or implicitly, of access to educational opportunities or program;
- B. submission or rejection of that conduct or communication by an individual is used as a factor in decisions affecting that individual's education;
- C. that conduct or communication has the purpose or effect of substantially or unreasonably interfering with an individual's education, or creating an intimidating, hostile, or offensive educational environment.

Sexual harassment may involve the behavior of a person of any gender against a person of the same or another gender.

Prohibited acts that constitute sexual harassment under this policy may take a variety of forms. Examples of the kinds of conduct that may constitute sexual harassment include, but are not limited to:

- A. unwelcome verbal harassment or abuse;
- B. unwelcome pressure for sexual activity;
- C. threats or insinuations that a person's employment, wages, academic grade, promotion, classroom work or assignments, academic status, participation in athletics or extra-curricular programs, activities, or events, or other conditions of employment or education may be adversely affected by not submitting to sexual advances;
- D. unwelcome verbal expressions, including graphic sexual commentaries about a person's body, dress, appearance, or sexual activities; the unwelcome use of sexually degrading language, profanity, jokes or innuendoes; unwelcome suggestive or insulting sounds or whistles; obscene telephone calls and obscene gestures;
- E. Sexually suggestive objects, pictures, graffiti, videos, posters, audio recordings or literature, placed in the work or educational environment, that may reasonably embarrass or offend individuals;
- F. unwelcome, sexually motivated or inappropriate patting, pinching, or physical contact, other than necessary restraint of students by teachers, administrators, or other school personnel to avoid physical harm to persons or property;
- G. unwelcome sexual behavior or words including demands for sexual favors, accompanied by implied or overt threats concerning an individual's educational status;
- H. unwelcome sexual behavior or words, including demands for sexual favors, accompanied by implied or overt promises of preferential treatment with regard to an individual's educational status;
- I. unwelcome behavior or words directed at an individual because of gender;

Examples are:

- 1. repeatedly asking a person for dates or sexual behavior after the person has indicated no interest;
- 2. rating a person's sexuality or attractiveness;
- 3. staring or leering at various parts of another person's body;
- 4. spreading rumors about a person's sexuality;

5. letters, notes, telephone calls, or materials of a sexual nature;
 6. displaying pictures, calendars, cartoons, or other materials with sexual content.
- J. inappropriate boundary invasions by a District employee or other adult member of the District community into a student's personal space and personal life;

Boundary invasions may be appropriate or inappropriate. Appropriate boundary invasions make medical or educational sense. For example, a teacher or aide assisting a kindergartner after a toileting accident or a coach touching a student during wrestling or football can be appropriate. However other behaviors might be going too far, are inappropriate and may be signs of sexual grooming.

Inappropriate boundary invasions may include, but are not limited to the following:

1. hugging, kissing, or other physical contacts with a student;
2. telling sexual jokes to students;
3. engaging in talk containing sexual innuendo or banter with students;
4. talking about sexual topics that are not related to the curriculum;
5. showing pornography to a student;
6. taking an undue interest in a student (i.e. having a "special friend" or a "special relationship");
7. initiating or extending contact with students beyond the school day for personal purposes;
8. using e-mail, text messaging or websites to discuss personal topics or interests with students;
9. giving students rides in the staff member's personal vehicle or taking students on personal outings without administrative approval;
10. invading a student's privacy (e.g. walking in on the student in the bathroom, locker-room, asking about bra sizes or previous sexual experiences);
11. going to a student's home for non-educational purposes;
12. inviting students to the staff member's home without proper chaperones (i.e. another staff member or parent of a student);
13. giving gifts or money to a student for no legitimate educational purpose;
14. accepting gifts or money from a student for no legitimate educational purpose;
15. being overly "touchy" with students;
16. favoring certain students by inviting them to come to the classroom at non-class times;
17. getting a student out of class to visit with the staff member;
18. providing advice to or counseling a student regarding a personal problem (i.e. problems related to sexual behavior, substance abuse, mental or physical health, and/or family relationships, etc.), unless properly licensed and authorized to do so;
19. talking to a student about problems that would normally be discussed with adults (i.e. marital issues);
20. being alone with a student behind closed doors without a legitimate educational purpose;
21. telling a student "secrets" and having "secrets" with a student;
22. other similar activities or behavior;

Officers, as designated in this policy, the Building Principal or the District Administrator.

K. remarks speculating about a person's sexual activities or sexual history, or remarks about one's own sexual activities or sexual history;

L. verbal, nonverbal, or physical aggression, intimidation, or hostility based on sex or sex-stereotyping that does not involve conduct of a sexual nature.

Not all behavior with sexual connotations constitutes sexual harassment. Sex-based or gender-based conduct must be sufficiently severe, pervasive, or persistent such that it adversely affects, limits, or denies an individual's education, or such that it creates a hostile or abusive educational environment, or such that it is intended to, or has the effect of, denying or limiting a student's ability to participate in or benefit from the educational program or activities.

It is further the policy of the Board that a sexual relationship between staff and students is not permissible in any form or under any circumstances, in or out of the workplace, in that it interferes with the educational process and may involve elements of coercion by reason of the relative status of a staff member to a student.

Race/Color Harassment

Prohibited racial harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's race or color and when the conduct has the purpose or effect of: interfering with the individual's educational performance; creating an intimidating, hostile, or offensive learning environment; or interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's race or color, such as racial slurs, nicknames implying stereotypes, epithets, and/or negative references regarding racial customs.

Religious (Creed) Harassment

Prohibited religious harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's religion or creed and when the conduct has the purpose or effect of: interfering with the individual's work or educational performance; creating an intimidating, hostile, or offensive learning environment; or interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's religious tradition, clothing, or surnames, and/or involves religious slurs.

National Origin/Ancestry Harassment

Prohibited national origin/ancestry harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's national origin or ancestry and when the conduct has the purpose or effect of: interfering with the individual's educational performance; creating an intimidating, hostile, or offensive working and/or learning environment; or interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's national origin or ancestry, such as negative comments regarding customs, manner of speaking, language, surnames, or ethnic slurs.

Disability Harassment

Prohibited disability harassment occurs when unwelcome physical, verbal, or nonverbal conduct is based upon an individual's physical, mental, emotional or learning disability and when the conduct has the purpose or effect of: interfering with the individual's educational performance; creating an intimidating, hostile, or offensive learning environment; or interfering with one's ability to participate in or benefit from a class or an educational program or activity. Such harassment may occur where conduct is directed at the characteristics of a person's disability, such as negative comments about speech patterns, movement, physical impairments or defects/appearances, or the like.

Anti-Harassment Compliance Officers

The Board designates the following individuals to serve as the District's Compliance Officers (also known as "Anti-Harassment Compliance Officers"; hereinafter referred to as the "COs").

Anthony Edge, Assistant Principal
1701 2nd Street
New Glarus, WI 53574
608-527-2410

Jen Talarczyk, Director of Student Services

1701 2nd Street
New Glarus, WI 53574
608-527-2410

The names, titles, and contact information of these individuals will be published annually on the School District's website.

The Compliance Officer(s) are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding harassment.

Reports and Complaints of Harassing Conduct

Reporting procedures are as follows:

- A. Any student who believes they have been the victim of harassment prohibited under this policy will be encouraged to report the alleged harassment to any District employee, such as a teacher, administrator or other employees.
- B. Any parent of a student who believes the student has been the victim of harassment prohibited under this policy is encouraged to report the alleged harassment to the student's teacher, building administrator or District Administrator.
- C. Teachers, administrators, and other school employees who have the knowledge or received notice that a student has or may have been the victim of harassment prohibited under this policy shall report the alleged harassment to one (1) of the Compliance Officer(s) within two (2) days.
- D. Any other person with knowledge or belief that a student has or may have been the victim of harassment prohibited by this policy shall be encouraged to immediately report the alleged acts to any District employee, such as a teacher, administrator or other employees.
- E. The reporting party or Complainant shall be encouraged to use a report form available from the principal of each building or available from the District office, but oral reports shall be considered complaints as well. Use of formal reporting forms shall not be mandated. However, all oral complaints shall be reduced to writing.
- F. To provide individuals with options for reporting harassment to an individual of the gender with which they feel most comfortable, the Board has designated both a male and a female Compliance Officer for receiving reports of harassment prohibited by this policy. At least one (1) Compliance Officer or other individuals shall be available outside regular school hours to address complaints of harassment that may require immediate attention.

A CO will be available during regular school/work hours to discuss concerns related to harassment and to assist students, other members of the School District community, and third parties who seek support or advice when informing another individual about "unwelcome" conduct, or to intercede informally on behalf of the student.

Any Board employee who directly observes harassment of a student is obligated, in accordance with this policy, to report such observations to one of the COs within two (2) days. Thereafter, the COs must contact the Complainant, if over age eighteen (18) or the Complainant's parents/guardians if under age eighteen (18), within two (2) days to advise of the Board's intent to investigate the alleged misconduct, including the obligation of the Compliance Officer to conduct an investigation following all the procedures outlined in the complaint procedures.

The COs are assigned to accept complaints of harassment directly from any member of the School District community or a Third Party, or to receive complaints that are initially filed with a school building administrator. Upon receipt of a complaint, either directly or through a school building administrator, a CO will contact the Complainant and begin either an informal or formal process (depending on the request of the Complainant or the nature of the alleged harassment), or the District Administrator will designate a specific individual to conduct the process necessary for an informal or formal investigation.

The Compliance Officer(s) will provide a copy of this policy to the Complainant and Respondent. The CO will prepare recommendations for the District Administrator. In the case of a complaint against the District Administrator or a Board member, the CO will prepare recommendations for the Board Attorney who has been designated to serve as the decision-maker for such complaints. All Board employees must report incidents of harassment that are reported to them to the Compliance Officer as soon as possible, but always within no more than two (2) days of learning of the incident.

In cases where no District CO is able to investigate a complaint due to concerns regarding conflicts, bias, or partiality, or for other reasons that impair the CO's ability to conduct an investigation, the CO may, in consultation with the District Administrator, or Board President if the matter involves the District Administrator, engage outside legal counsel to conduct the investigation consistent with this policy.

Except for Sexual Harassment that is covered by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities, any student, or the student's parent/guardian, who believes that the student has been subjected to harassment may seek resolution of the complaint through the procedures described below. The formal complaint process involves an investigation of the Complainant's claims of harassment or retaliation and a process for rendering a decision regarding whether the charges are substantiated.

The procedures set forth below are not intended to interfere with the rights of a student to pursue a complaint of harassment or retaliation with the United States Department of Education Office for Civil Rights ("OCR") and/or other applicable government agency. The Chicago Office of the OCR can be reached at John C. Kluczynski Federal Building, 230 S. Dearborn Street, 37th Floor Chicago, IL 60604; Telephone: 312-730-1560; FAX: 312-730-1576; TDD: 800-877-8339; Email: OCR.Chicago@ed.gov; Web: <http://www.ed.gov/ocr>.

If at any time during the investigation process the investigator determines that the complaint is properly defined as Bullying, under Policy 5517.01 - Bullying and not Harassment under this Policy, because the conduct at issue is not based on a student's Protected Characteristics, the investigator shall transfer the investigation to the appropriate building principal.

If during an investigation of alleged bullying, aggressive behavior, and/or harassment, in accordance with Policy 5517.01 - Bullying, the Principal believes that the reported misconduct may have created a hostile educational environment and may have constituted discriminatory harassment based on a Protected Class, the Principal shall report the act of bullying, aggressive behavior, and/or harassment to one (1) of the Compliance Officer(s) who shall investigate the allegation in accordance with this policy. If the alleged harassment involves Sexual Harassment as defined by Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities, the matter will be investigated in accordance with the grievance process and procedures outlined in Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities. While the Compliance Officer investigates the allegation, or the matter is being addressed pursuant to Policy 2266, the Principal shall suspend the Policy 5517.01- Bullying investigation to await the Compliance Officer's written report or the determination of responsibility pursuant to Policy 2266 -Nondiscrimination on the Basis of Sex in Education Program or Activities. The Compliance Officer shall keep the Principal informed of the status of the investigation under this policy and provide the Principal with a copy of the resulting report. Likewise, the Title IX Coordinator will provide the Principal with the determination of responsibility that results from the Policy 2266 - Nondiscrimination on the Basis of Sex in Education Program or Activities grievance process.

Complaint and Investigation Procedure

A Complainant may file a complaint, either orally or in writing with a teacher, principal, or other District employee at the student's school, the CO, District Administrator, or other District official who works at another school or at the District level. Due to the sensitivity surrounding complaints of harassment, timelines are flexible for initiating the complaint process; however, individuals should make every effort to file a complaint within thirty (30) days after the conduct occurs while the facts are known and potential witnesses are available. If a Complainant informs a teacher, principal, or other District official at the student's school, the CO, District Administrator, or other District employee, either orally or in writing, about any complaint of harassment, that employee must report such information to the CO within two (2) days.

Throughout the course of the process, the CO should keep the parties reasonably informed of the status of the investigation and the decision-making process.

All complaints must include the following information to the extent known: the identity of the Respondent; a detailed description of the facts upon which the complaint is based (i.e., when, where, and what occurred); and a list of potential witnesses.

If the Complainant is unwilling or unable to provide a written statement including the information set forth above, the Compliance Officer shall ask for such details in an oral interview. Thereafter the CO will prepare a written summary of the oral interview, and the Complainant will be asked to verify the accuracy of the reported charge by signing the document.

Upon receiving a complaint, the CO will consider whether any action should be taken in the investigatory phase to protect the Complainant from further harassment or retaliation including but not limited to a change of class schedule for the Complainant or the Respondent, or possibly a change of school for either or both of the parties. In making such a determination, the Compliance Officer should consult the Principal prior to any action being taken, except for complaints against the District Administrator, in which case the Board President should be consulted. The Complainant should be notified of any proposed action prior to such action being taken.

As soon as appropriate in the investigation process, the CO will inform the Respondent that a complaint has been received. The Respondent will be informed about the nature of the allegations and a copy of any relevant policies and/or administrative procedures and the Board's anti-harassment policy shall be provided to the Respondent at that time. The Respondent must also be provided an opportunity to respond to the complaint.

All investigations shall be commenced as soon as practicable upon receipt of a complaint and concluded as expeditiously as feasible, in consideration of the circumstances, while taking measures to complete a thorough investigation. The Complainant shall be notified in writing of receipt of the complaint within forty-five (45) days of the complaint and shall reach a determination concerning the complaint within ninety (90) days of receipt unless additional time is agreed to by the Complainant.

Generally, within two (2) days of receiving the complaint, the CO will initiate an investigation by at a minimum confirming receipt of the complaint with the Complainant and informing the Complainant of the investigation process.

The investigation generally will include:

- A. interview(s) with the Complainant;
- B. interview(s) with the Respondent;
- C. interviews with any other witnesses who reasonably may be expected to have any information relevant to the allegations, as determined by the CO;
- D. consideration of any documentation or other evidence presented by the Complainant, Respondent, or any other witness which is reasonably believed to be relevant to the allegations, as determined by the CO.

At the conclusion of the investigation, the CO shall prepare and deliver a report to the District Administrator which summarizes the evidence gathered during the investigation and provides recommendations based on the evidence and the definition of harassment as provided in Board policy and State and Federal law as to whether the Respondent engaged in harassment/retaliation of the Complainant. In determining if harassment occurred, a preponderance of evidence standard will be used. The CO's recommendations must be based upon the totality of the circumstances, including the ages and maturity levels of those involved.

Generally, within five (5) days of receiving the report of the CO or designee, the District Administrator, or in the case of a complaint against the District Administrator or a Board member, the person designated to serve as the decision-maker for the complaint either must issue a written decision regarding whether the complaint has been substantiated or request further investigation. A copy of the District Administrator's final decision will be delivered to both the Complainant and the Respondent. The District Administrator may redact information from the decision consistent with applicable law. The Board authorizes the District Administrator to consult with legal counsel to determine the extent to which information in an investigation report must be provided to either the Complainant or Respondent.

If the District Administrator requests additional investigation, the District Administrator must specify the additional information that is to be gathered, and such additional investigation must be completed within five (5) days. At the conclusion of the additional investigation, the District Administrator must issue a final written decision as described above.

The decision of the District Administrator shall be final. If the Complainant feels that the decision does not adequately address the complaint they may appeal the decision to the State Superintendent of Public Instruction by submitting a written request to the Wisconsin Department of Public Instruction ("DPI"), Pupil Nondiscrimination Program, or by contacting the DPI Pupil Nondiscrimination Program at (608) 267-9157.

The Board reserves the right to investigate and resolve a complaint or report of harassment regardless of whether the member of the School District community or Third Party alleging the harassment pursues the complaint. The Board also reserves the right to have the complaint investigation conducted by an external person in accordance with this policy or in such other manner as deemed appropriate by the Board.

To the extent required by law or permitted by the District, the parties may be represented, at their own cost, at any of the above-described meetings/hearings.

The right of a person to a prompt and equitable resolution of the complaint shall not be impaired by the person's pursuit of other remedies such as the filing of a complaint with the Office for Civil Rights, the filing of charges with local law enforcement, or the filing of a civil action in court. Use of this internal complaint process is not a prerequisite to the pursuit of other remedies.

Additional School District Action

If the evidence suggests that the harassment at issue is a crime or requires mandatory reporting under the Children's Code (Sec. 48.981, Wis. Stat.), the CO or District Administrator shall report the harassment to the appropriate social service and/or law enforcement agency charged with responsibility for handling such investigations and crimes.

Any reports made to the local child protection service or to local law enforcement shall not terminate the CO's obligation and responsibility to continue to investigate a complaint of harassment. While the COs may work cooperatively with outside agencies to conduct concurrent investigations, in no event shall the harassment investigation be inhibited by the involvement of outside agencies without good cause after consultation with the District Administrator.

Privacy/Confidentiality

The District will employ all reasonable efforts to protect the rights of the Complainant, the Respondent(s), and the witnesses as much as possible, consistent with the District's legal obligations to investigation, take appropriate action, and comply with any discovery or disclosure obligations. Confidentiality cannot be guaranteed, however. Respondents must be provided an opportunity to meaningfully respond to allegations, which may include disclosure of the Complainant's identity.

All records generated under the terms of this policy shall be maintained as confidential to the extent permitted by law. Additionally, the Respondent must be provided with the Complainant's identity.

During the course of an investigation, the CO will instruct each person who are interviewed about the importance of maintaining confidentiality. Any individual who is interviewed as part of an investigation is expected not to disclose to Third Parties any information that is learned or provided during the course of the investigation.

Directives During Investigation

The CO may recommend to the District Administrator placing any employee involved in an investigation under this Policy on administrative leave pending resolution of the matter. If the District Administrator is the Respondent, the CO shall make such recommendation to the Board. For example, administrative leave may be appropriate in situations in which protecting the safety of any individual or the integrity of the investigation necessitates such action.

The CO shall determine whether any witnesses in the course of an investigation should be provided a Garrity warning apprising the person of their obligations to answer questions truthfully and honestly while preserving the right against self-incrimination in the context of any resulting criminal investigation or prosecution.

Every employee interviewed in the course of an investigation is required to provide truthful responses to all questions. Failure to do so may result in disciplinary action.

Remedial Action and Monitoring

If warranted, appropriate remedial action shall be determined and implemented on behalf of the Complainant, including but not limited to counseling services, reinstatement of leave taken because of the discrimination, or other appropriate action.

The Board may appoint an individual, who may be a District employee, to follow up with the Complainant to ensure no further discrimination or retaliation has occurred and to take action to address any reported occurrences promptly.

Sanctions and Disciplinary Action

The Board shall vigorously enforce its prohibitions against harassment by taking appropriate action reasonably calculated to stop the harassment and prevent further misconduct.

While observing the principles of due process, a violation of this policy may result in disciplinary action up to and including the discharge of an employee or the suspension/expulsion of a student. All disciplinary action will be taken in accordance with applicable law.

When imposing discipline, the District Administrator shall consider the totality of the circumstances involved in the matter, including the age and maturity level of any student involved. In those cases where harassment is not substantiated, the Board may consider whether the alleged conduct nevertheless warrants discipline in accordance with other Board policies.

Where the Board becomes aware that a prior disciplinary action has been taken against the Respondent, all subsequent sanctions imposed by the Board and/or District Administrator shall be reasonably calculated to end such conduct, prevent its reoccurrence, and remedy its effects.

Retaliation

Retaliation against a person who makes a report or files a complaint alleging harassment/retaliation or participates as a witness in an investigation is prohibited. Neither the Board nor any other person may intimidate, threaten, coerce or interfere with any individual because the person opposed any act or practice made by any Federal or State civil rights law, or because that individual made a report, formal complaint, testified, assisted or participated or refused to participate in any manner in an investigation, proceeding, or hearing under those laws and/or this policy, or because that individual

exercised, enjoyed, aided or encouraged any other person in the exercise or enjoyment of any right granted or protected by those laws and/or this policy.

Retaliation against a person for making a report of discrimination, filing a formal complaint, or participating in an investigation or meeting is a serious violation of this policy that can result in imposition of disciplinary sanctions/ consequences and/or other appropriate remedies.

Formal complaints alleging retaliation may be filed according to the internal complaint process set forth above.

The exercise of rights protected under the First Amendment of the United States Constitution does not constitute retaliation prohibited under this policy.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of discriminatory practices. The District Administrator shall provide appropriate information to all members of the School District community related to the implementation of this policy and shall provide training for District students and staff where appropriate. All training, as well as all information, provided regarding the Board's policy and discrimination in general, will be age and content appropriate.

Retention of Investigatory Records and Materials

The CO is responsible for overseeing retention of all records that must be maintained pursuant to this policy. All individuals charged with conducting investigations under this policy shall retain all information, documents, electronically stored information ("ESI"), and electronic media (as defined in Policy 8315) created and received as part of an investigation which may include but are not limited to:

- A. all written reports/allegations/complaints/statements;
- B. narratives of all verbal reports, allegations, complaints, and statements collected;
- C. a narrative of all actions taken by District personnel;
- D. any written documentation of actions taken by District personnel or individuals contracted or appointed by the Board to fulfill its responsibilities;

- F. all documentary evidence;

- J. dated written determinations to the parties;
- K. dated written descriptions of verbal notifications to the parties;
- L. written documentation of any supportive measures offered and/or provided to the Complainant and/or the Respondent, including no contact orders issued to both parties, the dates issued, and the dates the parties acknowledged receipt;
- M. documentation of all actions taken, both individual and systemic, to stop the discrimination or harassment, prevent its recurrence, eliminate any hostile environment, and remedy its discriminatory effects;
- N. copies of the Board policy and/or procedures/guidelines used by the District to conduct the investigation, and any documents used by the District at the time of the alleged violation to communicate the Board's expectations to students and staff with respect to the subject of this policy (e.g., Student Code of Conduct and/or Employee Handbooks);

- O. copies of any documentation that memorializes any formal or informal resolutions to the alleged discrimination or

harassment;

- P. documentation of any training provided to District personnel related to this policy, including but not limited to, notification of the prohibitions and expectations of staff set forth in this policy and the role and responsibility of all District personnel involved in enforcing this policy, including their duty to report alleged violations of this policy and/or conducting an investigation of an alleged violation of this policy.

The information, documents, ESI, and electronic media (as defined in Policy 8315) retained may include public records and records exempt from disclosure under Federal and/or State law (e.g., student records).

5610 - **SUSPENSION AND EXPULSION**

The Board of Education recognizes that exclusion from educational programs of the School District, by suspension or expulsion, is a substantial sanction and that such action must comply with the student's due process rights.

SUSPENSION

For purposes of this policy, "suspension" shall be the short-term exclusion of a student from a regular District program.

The District Administrator, ~~any~~the principal, or a teacher designated by the District Administrator may suspend a student for up to five (5) school days or, if a notice of expulsion hearing has been sent, for up to fifteen (15) consecutive school days, or ten (10) consecutive school days for each incident if the student is eligible for special education services under Chapter 115, Wis. Stats.

The suspension must be reasonably justified based upon the grounds authorized under Sec. 120.13, Wis. Stats., which include, but are not limited to: noncompliance with school rules or Board rules; knowingly conveying any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives; conduct by the student while at school or while under the supervision of a school authority that endangers the property, health, or safety of others; conduct while not at school or while not under the supervision of a school authority that endangers the property, health, or safety of others at school or under the supervision of a school authority; or conduct while not at school or while not under the supervision of a school authority that endangers the property, health, or safety of any employee or School Board member of the District in which the student is enrolled.

The District Administrator, ~~any~~the principal, or a teacher designated by the School District Administrator shall suspend a student if the student possessed a firearm, as defined in 18 U.S.C. 921(a)(3), while at school or while under the supervision of a school authority.

The parent of a suspended minor must be given prompt notice of the suspension and the reason for the suspension. The student's suspension from school shall be entered in the student's record as required by the rules adopted by the Board concerning the content of the student records. The suspended student or the student's parent ~~or guardian~~ may, within five (5) school days following the commencement of the suspension, have a conference with an ~~Administrator~~administrator, who shall be someone other than a principal, administrator or teacher in the suspended student's school, to discuss removing reference to the suspension from the student's records. Reference to the suspension on the student's school record shall be removed if the ~~Administrator~~administrator finds that the student was suspended unfairly or unjustly; the suspension was inappropriate, given the nature of the alleged offense; or the student suffered undue consequences or penalties as a result of the suspension. The administrator shall make a finding within fifteen (15) days of the conference.

A suspended student shall not be denied the opportunity to take any quarterly, semester, or grading period examinations or to complete course work missed during the suspension period. ~~46~~ Such work shall be completed pursuant to the procedures established by the Board.

In the event a student is classified as Homeless, the building principal shall consult with the Homeless Coordinator to determine whether the conduct is a result of homelessness. The Homeless Coordinator will assist administration and the student's parents ~~or guardian~~ in correcting conduct subject to disciplinary action that is caused by homelessness.

EXPULSION

Under this policy, expulsion shall mean the Board will not permit a student to attend school at all, including any school-sponsored events or activities, for a specified period of time. If the student is expelled, the Board will determine the length of the expulsion period, which may extend at a maximum to the student's 21st birthday. The Board's expulsion order may include the opportunity for the student to return to school prior to expiration of the term of expulsion under a specified set of early reinstatement condition(s) which are related to the conduct for which the student was expelled. The condition(s), once set forth in an expulsion order, shall be administered at the discretion of the District Administrator who shall have the authority to deny early reinstatement if any early reinstatement condition is not met prior to reinstatement or to revoke it for the remainder of the expulsion period if any enrollment conditions applicable to the student's attendance during a period of expulsion under early reinstatement, or conditional enrollment, are deemed by the District Administrator to have been violated. The decision to revoke a student's conditional enrollment shall be explained in writing. The student or student's parent may request a conference with the District Administrator within five (5) school days of a decision to revoke early reinstatement. The District Administrator shall meet with the student and/or parents within five (5) school days of a request. The District Administrator's decision is final.

The District Administrator may designate another School District employee to perform the functions pertaining to a student's early reinstatement, but may not designate someone that is an administrator or teacher in the student's school.

The Board may expel a student only when it is satisfied that the interest of the school demands the student's expulsion and only when the student: repeatedly refused or neglected to obey the rules established by the School District; knowingly conveyed or caused to be conveyed any threat or false information concerning an attempt or alleged attempt being made or to be made to destroy any school property by means of explosives; engaged in conduct while at school while under the supervision of a school authority that endangered the property, health, or safety of others; engaged in conduct while not at school or while not under the supervision of a school authority that endangered the property, health, or safety of others at school or under the supervision of a school authority or endangered the property, health, or safety of any employee or Board member of the ~~School~~-District in which the student is enrolled; or was at least sixteen (16) years old and had repeatedly engaged in conduct while at school or while under the supervision of a school authority that disrupted the ability of school authorities to maintain order or an educational atmosphere at school or at an activity supervised by a school authority and that such conduct did not otherwise constitute grounds for expulsion. For purposes of this policy, conduct that endangers a person or property includes making a threat to the health or safety of a person or making a threat to damage property.

The School Board shall hold an expulsion hearing in the event a student is in possession of a firearm while at school or under the supervision of school authorities and shall expel a student from school for not less than one (1) year whenever it finds that the student brought a firearm to school or, while at school or while under the supervision of a school authority, possessed a firearm, as defined in 18 U.S.C. 921(a) (3), unless the Board finds that the punishment should be reduced based upon the circumstances of the incident. Any such finding by the Board shall be in writing. This does not include any circumstance in which a student possessed a firearm while lawfully hunting on school forest land.

The District shall refer any student who brings a firearm (as defined in 18 U.S.C. 921(a)(3)) or a weapon to school to law enforcement.

As required by 20 U.S.C. 7151, the District Administrator will ensure that the following information is sent to the Wisconsin Department of Public Instruction: a copy of this policy; a description of the circumstances surrounding any expulsion(s) for violating the above- stated firearms policy; the name of the school; the number of students expelled; and the types of firearms involved.

Prior to expelling a student, the Board shall provide the student with a hearing. Prior written notice of the hearing must be sent separately to both the student and if the student is a minor, to their parent(s) ~~or guardian(s)~~. The notice must be sent at least five (5) days prior to the date of hearing, not counting the date notice is sent. The notice must also satisfy the requirements of Sec. 120.13(1) (c)4, Wis. Stats.

An expelled student or, if the student is a minor, the student's parent(s) ~~or guardian(s)~~ may appeal the Board's expulsion decision to the Wisconsin Department of Public Instruction. An appeal from the decision of the Department may be taken within thirty (30) days to the circuit court for the county in which the school is located.

In the event a student is classified as Homeless, the building principal shall consult with the Homeless Coordinator to determine whether the conduct is a result of homelessness. ~~The~~ District will not expel a homeless student for conduct that is caused by the student's homelessness. The Homeless Coordinator will assist administration and the student's parents ~~or~~

guardians in correcting conduct subject to disciplinary action that is caused by homelessness. If the conduct in question is determined not to be caused by the student's homelessness, the District shall proceed with expulsion proceedings as outlined in this policy.

Revised Policy - Vol. 33, No. 1

6325 - PROCUREMENT – FEDERAL GRANTS/FUNDS

Procurement of all supplies, materials, equipment, and services paid for from Federal funds including any District matching funds shall be made in accordance with all applicable Federal, State, and local statutes and/or regulations, the terms and conditions of the Federal grant, Board policies, and administrative procedures.

The District Administrator shall have and use a procurement and contract administration system in accordance with the USDOE requirements (2 C.F.R. 200.317-.326) for the administration and management of Federal grants and federally-funded programs. The District shall maintain oversight that requires contractors to perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders. Except as otherwise noted, procurement transactions shall conform to the provisions of the District's documented general purchasing policy and administrative guidelines (Policy 6320 - Purchasing and AG 6320A - Purchasing).

When required by Federal program legislation, all Federally-funded contracts in excess of \$2,000 related to construction, alteration, repairs, painting, decorating, etc. must comply with Davis-Bacon prevailing wage requirements.

All District employees, officers, and agents who have purchasing authority shall abide by the standards of conduct covering conflicts of interest and governing the actions of its employees, officers, and agents engaged in the selection, award, and administration of contracts as established in Policy 1130 - Ethics and Conflict of Interest, Policy 3230 - Ethics and Conflict of Interest, and Policy 4230 – Ethics and Conflict of Interest.

The District will avoid acquisition of unnecessary or duplicative items. Additionally, consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase and, where appropriate, an analysis shall be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach. These considerations are given as part of the process to determine the allowability of each purchase made with Federal funds.

To foster greater economy and efficiency, the District may enter into State and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.

Competition

All procurement transactions for the acquisition of property or services required under a Federal award paid for from Federal funds or District matching funds shall be conducted in a manner that encourages full and open competition and in accordance with good administrative practice and sound business judgement. In order to promote objective contractor performance and eliminate unfair competitive advantage, the District shall exclude any contractor that has developed or drafted specifications, requirements, statements of work, or invitations for bids or requests for proposals from competition for such procurements.

Some of the situations considered to be restrictive of competition include, but are not limited to, the following:

- A. unreasonable requirements on firms in order for them to qualify to do business
- B. unnecessary experience and excessive bonding requirements
- C. noncompetitive pricing practices between firms or between affiliated companies
- D. noncompetitive contracts to consultants that are on retainer contracts
- E. organizational conflicts of interest
- F. specification of only a "brand name" product instead of allowing for an "*or equal*" product to be offered and describing the performance or other relevant requirements of the procurement
- G. any arbitrary action in the procurement process

Further, the District does not use statutorily or administratively imposed State, local, or tribal geographical preferences in the evaluation of bids or proposals, unless 1) an applicable Federal statute expressly mandates or encourages a geographic preference; or 2) the District is contracting for architectural and engineering services, in which case geographic location may be a selection criterion provided its application leaves an appropriate number of qualified firms, given the nature and size of the project, to compete for the contract.

To the extent that the District uses a pre-qualified list of persons, firms or products to acquire goods and services, the pre-qualified list includes enough qualified sources as to ensure maximum open and free competition. The District allows vendors to apply for consideration to be placed on the list periodically.

The District shall require that all prequalified lists of persons, firms, or products which are used in acquiring goods and services are current and include enough qualified sources to provide maximum open and free competition. The District shall not preclude potential bidders from qualifying during the solicitation period.

Solicitation Language (Purchasing Procedures)

The District shall have written procurement procedures that require that all solicitations incorporate a clear and accurate description of the technical requirements for the material, product, or service to be procured. Such description shall not, in competitive procurements, contain features which unduly restrict competition. The description may include a statement of the qualitative nature of the material, product or service to be procured and, when necessary, shall set forth those minimum essential characteristics and standards to which it shall conform if it is to satisfy its intended use. Detailed product specifications should be avoided if at all possible.

When it is impractical or uneconomical to make a clear and accurate description of the technical requirements, a "brand name or equivalent" description may be used as a means to define the performance or other salient requirements of procurement. The specific features of the named brand which shall be met by offers shall be clearly stated; and identify all requirements which the offerors shall fulfill and all other factors to be used in evaluating bids or proposals.

The Board will not approve any expenditure for an unauthorized purchase or contract.

Procurement Methods

The District shall have and use documented procedures, consistent with the standards described above, for the following methods of procurement:

A. Informal Procurement Methods

When the value of the procurement for property or services under a Federal award does not exceed the simplified acquisition threshold, or a lower threshold established by the State, formal procurement methods are not required. The District may use informal procurement methods to expedite the completion of its transactions and minimize the associated administrative burden and cost. The informal methods used for procurement of property or services at or below the simplified acquisition threshold include:

1. Micro-purchases

Procurement by micro-purchase is the acquisition of supplies or services, the aggregate dollar amount of which does not exceed \$10,000. To the maximum extent practicable, the District should distribute micro-purchases equitably among qualified suppliers. ~~Micro-purchases~~ Micro-purchases may be made without soliciting competitive quotations if the District Administrator considers the price to be reasonable based on research, experience,

purchase history or other relevant information and documents are filed accordingly. The District shall maintain evidence of this reasonableness in the records of all purchases made by this method.

2. Small purchases

Small purchases include the acquisition of property or services, the aggregate dollar amount of which is higher than the micro-purchase threshold but does not exceed the simplified acquisition threshold of \$25,000, except as otherwise required by State law. Small purchase procedures require that price or rate quotations shall be obtained from three qualified sources, when possible.

3.

4. Districts are responsible for determining an appropriate simplified acquisition threshold based on internal controls, an evaluation of risk, and its documented procurement procedures which must not exceed the threshold established in the Federal Acquisition Regulations (FAR). When applicable, a lower simplified acquisition threshold used by the non-Federal entity must be authorized or not prohibited under State, local, or tribal laws or regulations.

A. Formal Procurement Methods

When the value of the procurement for property or services under a Federal award exceeds the simplified acquisition threshold, or a lower threshold established by the State, formal procurement methods are required. Formal procurement methods require following documented procedures. Formal procurement methods also require public advertising unless a non-competitive procurement method can be used in accordance with the standards on competition in 200.319 or non-competitive procurement. The formal methods of procurement are:

1. Sealed bids

Sealed, competitive bids shall be obtained when the purchase of, and contract for, single items of supplies, materials, or equipment which amounts to more than \$250,000 unless otherwise required by State law.

In order for sealed bidding to be feasible, the following conditions shall be present:

- a. a complete, adequate, and realistic specification or purchase description is available;
- b. two (2) or more responsible bidders are willing and able to compete effectively for the business; and
- c. the procurement lends itself to a firm fixed-price contract and the selection of the successful bidder can be made principally on the basis of price.

When sealed bids are used, the following requirements apply:

- a. Bids shall be solicited in accordance with the provisions of State law and Policy 6320. Bids shall be solicited from at least three qualified suppliers, providing sufficient response time prior to the date set for the opening of bids. The invitation to bid shall be publicly advertised.
- b. The invitation for bids will include product/contract specifications and pertinent attachments and shall define the items and/or services required in order for the bidder to properly respond.
- c. All bids will be opened at the time and place prescribed in the invitation for bids; bids will be opened publicly.
- d. A firm fixed-price contract award will be made in writing to the lowest responsive and responsible bidder. Where specified in bidding documents, factors such as discounts, transportation cost, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine the low bid when prior experience indicates that such discounts are usually taken.
- e. The Board reserves the right to reject any or all bids for sound documented reason.

2. Proposals

Procurement by proposals is a method in which either a fixed price or cost-reimbursement type contract is awarded. Proposals are generally used when conditions are not appropriate for the use of sealed bids or in the case of a recognized exception to the sealed bid method.

If this method is used, the following requirements apply:

52

- a. Requests for proposals shall be publicized and identify all evaluation factors and their relative

importance. Any response to the publicized requests for proposals shall be considered to the maximum extent practical.

- b. Proposals shall be solicited from at least three sources.
- c. The District shall use its written method for conducting technical evaluations of the proposals received and for selecting recipients.
- d. Contracts shall be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered.

The District may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

3. Noncompetitive Procurement

Procurement by noncompetitive proposals allows for solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:

- a. micro-purchases;
- b. the item is available only from a single source;
- c. the public exigency or emergency for the requirement will not permit a delay resulting from publicizing a competitive solicitation;
- d. the Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the District;
- e. after solicitation of a number of sources, competition is determined to be inadequate.

Domestic Preference for Procurement

As appropriate and to the extent consistent with law, the District shall, to the extent practicable under a Federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States. Such requirements shall be included in all subawards including all contracts and purchase orders for work or products under the Federal award.

Contract/Price Analysis

The District shall perform a cost or price analysis in connection with every procurement action in excess of \$250,000, including contract modifications. A cost analysis generally means evaluating the separate cost elements that make up the total price, while a price analysis means evaluating the total price, without looking at the individual cost elements.

The method and degree of analysis is dependent on the facts surrounding the particular procurement situation; however, the District shall come to an independent estimate prior to receiving bids or proposals.

When performing a cost analysis, the District shall negotiate profit as a separate element of the price. To establish a fair and reasonable profit, consideration is given to the complexity of the work to be performed, the risk borne by the contractor, the contractor's investment, the amount of subcontracting, the quality of its record of past performance, and industry profit rates in the surrounding geographical area for similar work.

Time and Materials Contracts

The District uses a time and materials type contract only 1) after a determination that no other contract is suitable; and 2) if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and materials type contract means a contract whose cost to the District is the sum of: the actual costs of materials, and direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

Since this formula generates an open-ended contract price, a time-and-materials contract provides no positive profit incentive to the contractor for cost control or labor efficiency. Therefore, the District sets a ceiling price for each contract

that the contractor exceeds at its own risk. Further, the District shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

Suspension and Debarment

The District will award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of the proposed procurement. All purchasing decisions shall be made in the best interests of the District and shall seek to obtain the maximum value for each dollar expended. When making a purchasing decision, the District shall consider such factors as 1) contractor integrity; 2) compliance with public policy; 3) record of past performance; and 4) financial and technical resources.

The District Administrator shall have the authority to suspend or debar a person/corporation, for cause, from consideration or award of further contracts. The District is subject to and shall abide by the nonprocurement debarment and suspension regulations implementing Executive Orders 12549 and 12689, 2 CFR Part 180.

Suspension is an action taken by the District that immediately prohibits a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. Chapter 1) for a temporary period, pending completion of an agency investigation and any judicial or administrative proceedings that may ensue. A person so excluded is suspended. (2 C.F.R. Part 180 Subpart G)

Debarment is an action taken by the District Administrator to exclude a person from participating in covered transactions and transactions covered under the Federal Acquisition Regulation (48 C.F.R. Chapter 1). A person so excluded is debarred. (2 C.F.R. Part 180 Subpart H)

The District shall not subcontract with or award subgrants to any person or company who is debarred or suspended. For contracts over \$25,000, the District shall confirm that the vendor is not debarred or suspended by either checking the Federal government's System for Award Management, which maintains a list of such debarred or suspended vendors at www.sam.gov; collecting a certification from the vendor; or adding a clause or condition to the covered transaction with that vendor. (2 C.F.R. Part 180 Subpart C)

Bid Protest

The District maintains the following protest procedures to handle and resolve disputes relating to procurements and, in all instances, discloses information regarding the protest to the awarding agency.

A bidder who wishes to file a bid protest shall file such notice and follow procedures prescribed by the Request For Proposals (RFPs) or the individual bid specifications package, for resolution. Bid protests shall be filed in writing with the Office of the District Administrator within seventy-two (72) hours of the opening of the bids in protest.

Within five (5) days of receipt of a protest, the District Administrator shall review the protest as submitted and render a decision regarding the merits of the protest and any impact on the acceptance and rejection of bids submitted. Notice of the filing of a bid protest shall be communicated to the Board and shall be so noted in any subsequent recommendation for the acceptance of bids and awarding of contracts.

Failure to file a notice of intent to protest, or failure to file a formal written protest within the time prescribed, shall constitute a waiver of proceedings.

Maintenance of Procurement Records

The District shall maintain records sufficient to detail the history of all procurements. These records will include but are not necessarily limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection, and the basis for the contract price (including a cost or price analysis).

Code	po6610 Revised
Status	Policy Committee Review
Adopted	March 13, 2017
Last Revised	March 15, 2021

Revised Policy - Vol. 33, No. 1

6610 - NONDISTRICT-SUPPORTED STUDENT ACTIVITY ACCOUNTS

The Board authorizes the maintenance of approved student activity accounts for nondistrict-supported student activities as allowed by DPI regulations and the auditor's recommendations in accordance with GASB 84. Approval of the establishment of any student activity account for a nondistrict-supported student activity, after the student activity is approved, without District financial support, in accordance with Policy 2430 - District-Sponsored Clubs and Activities, shall be determined by the Business Manager before monies can be collected or disbursed in the name of said activity.

Definitions

The following definitions are provided for these terms within the context of this policy:

- A. District-sponsored student activity:** All student activities recognized by the District as approved co-curricular/extra-curricular activities are designated as District-sponsored, including both District-supported and nondistrict-supported student activities. (See Policy 2430 - District-Sponsored Clubs and Activities and Policy 6611 - District Supported/Sponsored Student Activity Accounts)
- B. District-supported student activity:** The District provides financial support of the student activity and exercises administrative control over dispersal of the activity's funds. (See Policy 6611 - District Supported/Sponsored Student Activity Accounts)
- C. Nondistrict-supported student activity:** The District does not provide financial support of the student activity and does not exercise administrative control over dispersal of funds.

Other terms are used as defined in Bylaw 0100 - Definitions.

Nondistrict-supported Student Activities

Nondistrict-supported student activity accounts are intended to provide a custodial account for an approved student activity for which the District does not provide funds (i.e., have financial involvement) or exercise administrative control over the funds. Such nondistrict-supported student activities may not be required by any course or provide any academic credit. These student activities are established for District students and may have a District-assigned and/or a District-compensated staff advisor/coach for supervisory purposes. While these student activities may use District facilities, equipment, and materials, the funds for these activities are self-managed by the students. Assistance from parents or other volunteers is permissible (see Policy 8120 - Volunteers). Fund-raising is permissible in accordance with District policies (see Policy 5830 - Student Fund-Raising and Policy 9700 - Relations with Non-School Affiliated Groups). Equal access shall be provided in accordance with Policy 5730 - Equal Access for Nondistrict-Sponsored Student Clubs and Activities. A District

staff member may serve as an advisor/coach, but decisions regarding money must be made by the students, as long as such expenditures do not violate District policies (e.g., purchase of illegal items, purchase of nonconforming technology, purchase from a non-approved vendor). As a fiduciary in accordance with GASB 84, the District maintains custodial accounts for the student activity, but does not determine or approve how account monies are used since financial decisions are made by the students without administrative control or endorsement from District staff.

Criteria for Nondistrict-Supported Student Activity Accounts

Nondistrict-supported student activity accounts may be established if all of the following criteria are met:

- A. The student activity account has been approved in accordance with this policy.
- B. The activity's students or student officers make all decisions regarding revenues, budgeting, and expenditures.
- C. Any request to expend money from the account must be endorsed in writing by the activity's President and Treasurer.
- D. The activity's advisor/coach is NOT permitted to make decisions regarding money, nor may the advisor/coach initiate or endorse any expenditure request.
- E. The student activity account is not under the District's control, nor subject to District oversight.

General Provisions

The purpose of District-sponsored activities is to enable students to explore a wider range of individual interests than may be available in the District's courses of study but are still related to accomplishing the educational outcomes for students as adopted by the Board in Policy 2131 - Educational Outcome Goals and Expectations. District-sponsored activities must be approved in accordance with Policy 2430 - District-Sponsored Clubs and Activities or Policy 2431 - Interscholastic Athletics.

District-sponsored student activities are authorized to use the District name, logo, mascot, or any other name which would associate an activity with the District provided such use is consistent with other applicable District policies.

Student fund-raising shall be conducted in accordance with Policy 5830 - Student Fund-Raising and Policy 9700 - Relations with Non-School Affiliated Groups.

All collected money shall be handled, secured, and deposited in accordance with Policy 6630 - Cash Handling and Deposits. Misappropriation of activity monies, which includes theft or any other misuse of monies, will result in discipline up to and including suspension, expulsion, and/or termination of employment.

Discontinued Student Activities

After one (1) full school year of inactivity, the unexpended funds of a discontinued nondistrict-supported student activity shall be transferred to the Student Council's account unless the discontinued student activity had provided other instructions for dispersal of its unexpended funds.

After one (1) full school year of inactivity, the unexpended funds of a discontinued District-supported student activity shall be transferred to the District's General Fund - Fund 10.

- C. Nondistrict-supported student activity:** The District does not provide financial support of the student activity and does not exercise administrative control over the dispersal of funds.

Other terms are used as defined in Bylaw 0100 - Definitions.

All activities described in this policy are sponsored by the District and are authorized to use the District name, logo, mascot, or any other name which would associate an activity with the District provided such use is consistent with other applicable District policy.

All activities shall be on a self-sustaining basis.

The Business Manager shall be the Treasurer of the student activities activity account.

Fund-raising for all student activities will be in accordance with Board Policy 5830 - Student Fund-Raising and Policy 9700 - Relations with Non-School Affiliated Groups.

All collected money shall be handled, secured, and deposited in accordance with Policy 6630 - Cash Handling and Deposits. Misappropriation of activity accounts, which includes theft or any other misuse of funds, will result in discipline up to and including suspension, expulsion, and/or termination.

After one (1) year of inactivity, the unexpended activity accounts of discontinued student organizations shall, on the recommendation of the principal and the approval of the District Administrator, be transferred to the General Fund.

7440 - **FACILITY SECURITY**

Promoting the safety of students, staff, and others in the school buildings, as well as providing for the protection of the significant financial investment in the District's buildings is a critical function of the Board. Proper safety measures are to be implemented to protect those who use the buildings and to protect the buildings and equipment owned by the Board from theft and vandalism in order to maintain the optimum conditions for carrying out the educational program.

The District Administrator shall develop and supervise the District's School Safety Plan, in compliance with State and Federal laws, as described in Policy 8420 - School Safety.

Every effort shall be made to apprehend those who knowingly cause serious physical harm to students, staff, visitors, and Board property and to require prosecution of those who bring harm to persons and/or property. The Board will seek to repair the damage or seek the payment of a fee to cover such repairs.

The Board authorizes the District Administrator to conduct searches of non-student visitors or vehicles on school property when there is a reasonable suspicion of violation of the law or school rules, and the search is reasonable in scope related to the objectives of the search and not excessively intrusive.

The District Administrator is authorized to install and utilize metal detectors (e.g., walk through detectors and hand-held wands), and video surveillance/electronic monitoring equipment, and other security devices on school property in order to protect the health, welfare, and safety of students, staff, visitors and Board property, ~~and other security devices that would assist in the detection of guns and dangerous weapons:~~

Public Access to School Facilities

The Board expects that during regular school hours only students and school staff need to be present in the school building. The Board also acknowledges that there will be times during the instructional day that members of the public, including parents/guardians, invited guests, or other individuals will for appropriate and legitimate reasons require entry into a school facility. In such cases, the following guidelines shall be followed:

- A. All exterior doors to every school building shall be locked during the instructional day, preventing entry into the building and all visitors to the school building during those times will be directed to designated entrance(s) into the building. Visitors must identify themselves and the purpose of their visit to the school through the intercom system.
- B. All persons, other than students and building staff, shall check in with the main office of the building and shall complete a visitor log.

Any visitor to the school may be refused entry or asked to leave the building at any time if the building administrator or event supervisor determines that the visitor's presence is disruptive or is likely to become disruptive to the educational environment, including all school-sponsored events, or for other safety or security reasons. If a visitor refuses to leave

upon request by the building administrator or event supervisor, the building administrator or event supervisor shall contact the school resource officer or local law enforcement as appropriate. No staff member should attempt to physically remove a visitor unless the visitor poses an imminent safety threat.

Failure to follow the requirements above when entering or remaining in school facilities may be subjected to a fine not exceeding \$1,000 in circumstances tending to provoke a disturbance of the peace, persons may be fined not more than \$10,000 or imprisoned not more than ninety (90) days.

Any school staff member that witnesses a visitor in the school building who is not wearing a visitor tag as required shall report the visitor's presence to the school office. In the event the school office does not have a record of such visitor properly checking in, the office staff shall immediately contact an ~~administrator~~Administrator or, if an ~~administrator~~Administrator is not available, the school resource officer, if applicable, or appropriate law enforcement.

Parents as Visitors

The Board encourages parental involvement in the education of students in the District. For this reason, it is important to facilitate the involvement of parents in school activities and the educational process while at the same time preserving the integrity of the educational environment for all students. As a balance, the Board adopts the following requirements for parents visiting the school during the instructional day

- A. Parents should make arrangements with their child's teacher or with the building administrator in advance of visiting their child at school unless that is not possible.
- B. Parents, like any other visitor, must enter the building through only the approved visitor entrance and shall check in at the school~~main~~ office in the same fashion as a visitor.

Parents visiting District schools shall comply with Policy 9150 - School Visitors, and other relevant policies and (~~administrative guidelines.~~

Parents that do not follow these guidelines or whose presence is disruptive to the educational environment may be asked to leave the building by the Building Administrator. Any decision to permanently expel a parent may only be made by the District Administrator due to repeated failure to follow rules causing a disruption to the educational environment or for overt threats of harm or actual physical contact with any staff or student.

Court Imposed Restrictions

In any case in which an individual is the subject of a court order restricting the individual's presence at a school building, including any restrictions on the individual's physical proximity to an individual that is a student or staff member at the school facility, the Building Administrator shall inform staff of the situation and if any staff member sees the individual on school premises that staff member shall immediately contact law enforcement and the main office.

Sex Offenders on School Property

Any person that is a registered sex offender under Wisconsin Law is required to notify the District Administrator of the specific date, time and place of the person's visit to any school facility and must notify the District Administrator of their status as a registered sex offender.

Parents of students enrolled in the District must notify the District Administrator of their status as a registered sex offender and that they have a child enrolled in the District. Notification must occur at the beginning of each school year or at the time the individual is required to register or whenever the child is first enrolled, whichever occurs first.

Notification requirements do not apply if the person will be on school grounds to vote in an election or to attend a non-school sponsored event occurring on the school grounds.

7540 - **TECHNOLOGY**

The Board is committed to the effective use of technology to both enhance the quality of student learning and the efficiency of District operations. However, the use of the District's network and technology resources by students is a privilege not a right.

This policy, along with the Student and Staff Technology Acceptable Use and Safety policies, and the Student Code of Conduct, further govern students' and staff members' use of their personal communication devices (see Policy 5136 - Personal Communication Devices and Policy 7530.02 - Staff and School Officials Use of Personal Communication Devices). Users have no right or expectation of privacy when using District technology resources (including, but not limited to, privacy in the content of their personal files, e-mails, and records of their online activity when using the District's computer network and/or Internet connection).

Further, Safeguards shall be established so that the Board's investment in both hardware and software achieves the benefits of technology and inhibits negative side effects. Accordingly, students shall be educated about appropriate online behavior including, but not limited to, using social media, which is defined in Bylaw 0100 - Definitions, to interact with others online; interacting with other individuals in chat rooms or on blogs; and, recognizing what constitutes cyberbullying, understanding cyberbullying is a violation of District policy, and learning appropriate responses if they are victims of cyberbullying. Social media does not include sending or receiving e-mail through the use of District-issued e-mail accounts.

Equipment Security and Retention Procedures

The District invests significant resources in making current technology available for staff and students. Individual usage of devices that are not in a fixed location must be in accordance with these guidelines. The term "device" for purposes of this guideline includes District-owned computers, tablets, smart devices, and any other hardware or software systems or equipment owned or leased by the District.

A. Identification:

1. Records of the identification number, serial number, model, etc. for each device shall be maintained by the Technology Department

B. Use of District-owned Devices:

All devices to be used either in the District or off-school premises shall be checked out through the Technology Department. Devices may not be used for the purpose of copying materials in violation of copyright laws.

The person checking out the device will be responsible for the device until it gets checked back in.

No device may be used to access any material that is prohibited by the District's technology usage policies, Policy

7540.03 - Student Technology Acceptable Use and Safety and Policy 7540.04 - Staff Technology Acceptable Use and Safety. Devices may not be used to access content that is unlawful or potentially harmful to the device and may never be used to access any "darkweb" content. Specifically, use of devices to access material that poses a risk of introducing viruses, malware, or other destructive content is strictly prohibited. Users are responsible for replacing devices that are inoperable due to the introduction of such malicious content while in the user's possession.

B. Requests for Personal Use:

Personal use of devices by students, staff, and District residents shall be in accordance with Policy 7530 - Lending of District-Owned Equipment.

Additionally, a device shall not be used to access any material that is prohibited by the District's technology usage policies. (See Policy 7540.03 - Student Technology Acceptable Use and Safety and Policy 7540.04 - Staff Technology Acceptable Use and Safety)

If allowed for personal use, devices may not be used to access content that is unlawful or potentially harmful to the device and may never be used to access any "darkweb" content. Specifically, use of devices to access material that poses a risk of introducing viruses, malware, or other destructive content is strictly prohibited. Users are responsible for replacing devices that are inoperable due to the introduction of such malicious content while in the user's possession.

No business use shall be made of any borrowed devices. Software shall not be used in violation of any licensing agreement, nor shall it be copied.

No software or other applications may be downloaded onto any device except by the District's Technology Director or designee, and only as authorized by the District Administrator.

Users will be responsible for arranging safe transportation and housing for use off school premises.

C. Staff Services:

Media staff will instruct the user on the correct operation of devices. Media staff may assist other staff members in obtaining materials for instructional use by recording and/or copying within copyright guidelines.

D. Equipment Inventory and Repair:

All devices will be inventoried pursuant to Policy 7450 - Property Inventory.

If a piece of equipment requires repair, it will be sent to the Technology Department.

E. Report of Loss:

If any device is lost, the Principal and the Technology Director shall be notified. The Principal may notify the police if deemed appropriate.

Access to Social Media

The Board authorizes the access and use of social media from the District's network to increase awareness of District programs and activities, as well as to promote achievements of staff and students, provided such access and use is approved in advance by the District Administrator.

7544 - **USE OF SOCIAL MEDIA**

Technology is a powerful tool to enhance education, communication, and learning.

The Board authorizes the use of social media to promote community involvement and facilitate effective communication with students, parents, staff (including District-approved volunteers), and the general public. Social media is defined in Bylaw 0100 - Definitions.

The District Administrator is charged with designating the District-approved social media platforms/sites.

It is critical that students be taught how to use social media platforms safely and responsibly. Social media (as defined in Bylaw 0100 - Definitions) are a powerful and pervasive technology that affords students and employees the opportunity to communicate for school and work purposes, and to collaborate in the delivery of a comprehensive education. Federal law mandates that the District provide for the education of students regarding appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and regarding cyberbullying awareness and response. See Board Policy 7540.03 – Student Technology Acceptable Use and Safety.

The District recognizes that employees may use social media for personal, as well as professional reasons. The District neither encourages nor discourages employees' use of social media for personal purposes. The District regulates employees' use of social media for purposes related to their District assignment to the same extent as it regulates any other form of employee communication in that regard.

The District uses approved social media platforms/sites as interactive forms of communication and accepts public comments. The District-approved social media platforms/sites are considered limited public forums. As such, the District will monitor posted comments to verify they are on-topic, consistent with the posted rules for use of the forum, and in compliance with the platform/site's applicable terms of service. The Board's review of posted comments will be conducted in a viewpoint neutral manner, and consistent with State and Federal law. Employees' personal posts on the public platforms/sites are limited/restricted to matters of general public interest that are not related to the employee's specific employment and wholly unrelated to the employee's job responsibilities (i.e., matters where it is clear the individual is posting not in an official capacity, but simply as a member of the public). Employees in administrative positions are ordinarily not permitted to post personal comments on matters of general public interest because to do so could be misconstrued as Board-sponsored speech. The District-approved social media platforms/sites are considered limited public forums. District authorized personnel may reply to comments asking direct questions with regard to dates, places, or times of District or building level events and/or programs, but will not respond to or engage in dialogue about any other comments received.

Each District-approved social media account/site must contain a statement that specifies its purpose(s) and limits those who access the social media account/site to use of the account/site only for that/those purpose(s), and in accordance with any specified procedures, and applicable terms of service. Users are personally responsible for the content of their posts.

The District Administrator shall maintain the District's social media presence with respect to general announcements,

notices, or other such communications that are disseminated to the public at large or specific audiences within the community. To the extent individual staff members or volunteers wish to post information or announcements to a District social media platform, the staff member or volunteer may request that the District Administrator approve and post such information. (This provision does not apply to social media communications that are related to instructional and school-sponsored activities.)

Social Media for Instructional and School-Sponsored Activities

Staff (including District-approved volunteers) may, with prior approval/authorization from the Principal, use social media platforms/sites for communications about classroom instruction or school-sponsored activities, as well as to support classroom instruction. When a staff member uses a District-approved social media platform/site for an educational purpose, it will be considered an educational activity and will not be considered a limited public forum. Students' use of District-approved social media platforms/sites must be consistent with the Student Code of Conduct, Policy 5722/~~AG-5722~~ – School-Sponsored Student Publications and Productions, Policy 7540.03/~~AG-7540.03~~ – Student Technology Acceptable Use and Safety, the instructor's directions/procedures, and the platform/site's applicable terms of service. Students are prohibited from posting or releasing personally identifiable information about students, employees, and volunteers through District-approved social media without appropriate consent.

Staff members (including District-approved volunteers) must provide parents of students involved in a school-sponsored activity the ability to opt-out of having their child use social media platforms/sites for communication purposes associated with that activity, and arrange for an alternative method of communicating with the participating student concerning the school-sponsored activity.

Expected Standards of Conduct on District-Approved Social Media

Employees and District-approved volunteers who access District-approved social media platforms are expected to conduct themselves in a respectful, courteous, and professional manner. Students, parents, and members of the general public who access District-approved social media platforms are similarly expected to conduct themselves in a respectful, courteous, and civil manner.

8310 - PUBLIC RECORDS

The Board recognizes its responsibility to maintain the public records of this District and to make such records available for inspection and reproduction. The Board designates the District Administrator as the District Records Custodian (DRC), to be the legal custodian of records for the District. The DRC shall safely keep and preserve the public records of the District and shall have the authority to render decisions and carry out duties related to those public records, including providing the notice required under 19.34(1) Wis. Stats., identifying the positions of the District that constitute a local public office pursuant to 19.32(1dm), and 19.42 (7w), Wis. Stats., and other required information. The DRC may deny access to records only in accordance with the law. The DRC is authorized and encouraged to consult with the District's legal counsel to determine whether to deny access to a records request in whole or in part.

Under the Wisconsin Public Records Law, a "record" is defined as any material on which written, drawn, printed, spoken, visual, or electromagnetic information or electronically generated or stored data is recorded or preserved, regardless of physical form or characteristics, that has been created or is being kept by the authority. It includes handwritten, typed, or printed pages, maps, charts, photographs, films, recordings, tapes, optical discs, and any other medium on which electronically generated or stored data is recorded or preserved. A "record" does not include drafts, notes, preliminary computations, and like materials prepared for the originator's personal use or prepared by the originator in the name of a person for whom the originator is working; materials that are purely the personal property of the custodian and have no relation to ~~his/her~~ the office held; materials to which access is limited by copyright, patent, or bequest; and published materials in the possession of an authority other than a public library that are available for sale, or that are available for inspection at a public library. The personal use exception applies to notes created by the originator solely for the purpose of refreshing ~~his/her~~ the originator's recollection and as a matter of convenience (not part of ~~his/her~~ assigned job duties), but does not apply to notes that are distributed to others for the purpose of communicating information or notes that are created or retained for the purpose of memorializing agency activity.

In addition, records may be exempted from disclosure as a matter of statute or common law or, under the balancing test, the public interest in the disclosure may be outweighed by the public interest in non-disclosure.

Any person may make an oral or written request for any public records of the District. The person may inspect or receive copies of the public record requested. The District will respond as soon as practicable and without delay. The District will either provide the requested documents, subject to any redactions or inform the requester of the District's decision to deny the request.

The District will comply with the Safe at Home/Address Confidentiality Program administered by the Wisconsin Department of Justice. (See Policy 5111 - Eligibility of Resident/Nonresident Students, Policy 8320 - Personnel Records, and Policy 8330 - Student Records.)

The District may impose a fee upon the requester of a copy of a record of up to 10 cents per page, which represents the actual, necessary, and direct cost of reproduction of the record. In addition, the District may impose a fee upon a requester for the actual time spent by District employees in locating a record, if the cost is \$50.00 or more. In calculating location costs, the District will use the applicable employee's hourly rate⁷⁴ for salary and benefits.

The District may also charge the requester for any equipment required to fill the request (such as videotapes, computer disks, etc.) The District may impose a fee upon a requester for the actual, necessary, and direct cost of mailing or shipping any copies which are mailed or shipped to the requester.

The District may require prepayment of fees if the total amount exceeds \$5.00. If payment is required, the District will calculate the actual cost and charge the requester. If advance payment is required, the District will either invoice the requester for the difference between the estimate and actual cost or refund any overpayment.

No public record may be removed from the office in which it is maintained except by a Board officer or employee in the course of the performance of ~~their~~^{his/her} duties.

Nothing in this policy shall be construed as preventing a Board member from inspecting in the performance of his/her official duties any record of this District, except student records and certain portions of personnel records.

Records Retention Schedule

19.21(6), Wis. Stats. requires that school districts retain public records, other than student records, for seven (7) years, unless a shorter period is fixed by the Public Records Board (PRB) in a records retention schedule subsequently adopted by the Board.

The Board has approved the following records retention schedules developed by the Wisconsin Historical Society and PRB: Wisconsin Public School District and Related Records GRS (expiring March 20, 2033)

The District will retain public records in accordance with the preceding general records schedule(s). In the event that the preceding general records schedules adopted do not define the retention period for a particular record, the District will retain the record for seven (7) years.

8510 - **WELLNESS**

As required by law, the Board of Education establishes the following wellness policy for the New Glarus School District as a part of a comprehensive wellness initiative.

Policy Preamble

The Board recognizes that good nutrition and regular physical activity affect the health and well-being of the District's students. Furthermore, research suggests that there is a positive correlation between a student's health and well-being and their ability to learn. Moreover, schools can play an important role in the developmental process by which students establish their health and nutrition habits by providing nutritious meals and snacks through the schools' meal programs, by supporting the development of good eating habits, and by promoting increased physical activity both in and out of school.

Schools alone, however, cannot develop in students healthy behaviors and habits with regard to eating and exercise cannot be accomplished by the schools alone. It will be necessary for not only the staff, but also parents and the public at large to be involved in a community-wide effort to promote, support, and model such healthy behaviors and habits.

The Board sets the following goals in an effort to enable students to establish good health and nutrition choices to:

- A. promote nutrition education with the objective of improving students' health and reducing childhood obesity;
- B. improve the health and well-being of our children, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits;
- C. promote nutrition guidelines, a healthy eating environment, child nutrition programs, and food safety and security on each school campus with the objective of promoting student health and reducing childhood obesity;
- D. provide opportunities for every student to develop the knowledge and skills for specific physical activities, maintain physical fitness, regularly participate in physical activity, and understand the short and long-term benefits of a physically active lifestyle;

9130 - **PUBLIC REQUESTS, SUGGESTIONS, OR COMPLAINTS**

Any individual(s), having a legitimate interest in the staff, programs, and operations of this District shall have the right to present a request, suggestion, or complaint to the District and the Board. At the same time, the Board reserves the right to protect District staff and students from harassment, disclosure of confidential information, and other violations of the staff's or student's rights. It is the intent of this policy to provide a process for considering and addressing public requests, suggestions, or complaints in an efficient, reasonable, and equitable manner. Requests, suggestions, or complaints made by District staff members are covered by Policy 1422, /Policy 3122, and /Policy 4122 - Nondiscrimination and Equal Employment Opportunity. This policy is not to be used to appeal or to otherwise seek review of a personnel decision that was or could have been reviewed through the grievance policy, Policy 3340 or /Policy 4340 - Grievance Procedure.

It is the desire of the Board to address any such matters through direct, informal discussions. It is only when attempts at informal resolution fail that more formal procedures shall be used.

Generally, requests, suggestions, or complaints reaching the Board or Board members shall be referred to the District Administrator for consideration. Only those items that are appropriate for consideration under this policy will be considered. The District Administrator may close out any such request presented to him/her that is not appropriate for consideration consistent with this policy. The Board reserves the right to reverse the District Administrator's decision to dismiss any item raised and to fully investigate or review the matter.

Guidelines for Consideration of Matters Brought Forward Under this Policy

A. First Level

Generally, if the matter raised involves a staff member, the individual(s) should discuss the matter with the staff member, if appropriate. The staff member shall take appropriate action within their authority and District administrative guidelines to deal with the matter. Matters related to other aspects of the District operations, programming, or other decisions shall be brought generally to the Administrator administrator closest to the issue (e.g. if the matter relates to a decision, procedure, or the like in one of the schools, the matter should be raised first with the Principal building principal or a designated person in the school).

Discussion with the staff member may not be appropriate in some situations including, for example, where the matter involves suspected child abuse, substance abuse, or any other serious allegation that may require investigation or inquiry by school officials prior to approaching the staff member.

B. Second Level

If the matter has not been satisfactorily addressed at the First Level or it would be inappropriate to discuss the matter with the staff member, the individual(s) may discuss the matter with the staff member's supervisor, if applicable. Discussions with the supervisor shall occur promptly following any discussion with the staff member. If

the matter involves allegations of harassment, discrimination, bullying, or other conduct implicating other policies and investigative procedures, the supervisor shall proceed to follow the applicable procedures which may include informing the District Compliance Officer for further review.

Matters not resolved at the Second Level may be brought to the Third Level.

C. Third Level

If the matter has not been satisfactorily addressed at the Second level, and the matter does not involve the District Administrator, the individual(s) may submit a written request for a conference to the District Administrator. This request should include:

1. the specific nature of the request, suggestion or complaint and a brief statement of the facts giving rise to it;
2. the respect in which it is alleged that the individual(s) (or child of a complainant) has been affected adversely, if at all, or an explanation of other adverse results or impact of the matter;
3. the action which the individual(s) wishes taken and the reasons why it is felt that such action be taken.

The request must be submitted promptly after discussion with the staff member's supervisor. The District Administrator shall respond in writing to the individual(s) and shall advise the Board of any resolution of the matter.

D. Fourth Level

If the matter has not been satisfactorily addressed at the Third Level, or at the First Level in the case of a matter involving the District Administrator, the individual(s) may submit a written request to the Board to address the matter. Any such request must be submitted within 10 business days of the latest attempt to resolve the matter. The written submission shall include all correspondences pertaining to the matter between the individual and any School District officials or employees.

The Board, after reviewing all material relating to the matter, will provide a written response or may, at its discretion, grant an opportunity to address the Board or a committee of the Board prior to making a final decision on the matter.

The Board's decision, or the decision of the committee of the Board to which the matter was referred, will be final on the matter. The Board may choose to consolidate complaints or other communications for consideration if more than one individual raises similar concerns before it, but reserves the right to refuse to consider any subsequent complaint on the same matter unless previously unknown material facts are raised.

If the individual(s) contacts an individual Board member to discuss the matter, the Board member shall refer the individual(s) to this policy or the District Administrator for further assistance.

Guidelines for Matters Regarding Classroom and Library Materials

Students and parents have the right to inspect instructional materials used as part of the educational curriculum and the procedure for completing such an inspection. See Policy 5780 - Student/Parent Rights.

Parents of children attending school in the District and District residents may request formal reconsideration of the inclusion of specific instructional materials.

Concerns about specific textbooks or other classroom materials should be raised first with the classroom teacher and then the Principal if necessary, in an effort to resolve the matter informally. Concerns about specific library materials should be raised first with the library media specialist, then with the Principal, if necessary, in an effort to resolve the matter informally. If a satisfactory resolution is not reached, requests for consideration of removal of any instructional materials, including library materials, shall be submitted in writing to the Director of Instruction.

If the request, suggestion, or complaint relates to instructional materials such as textbooks, library books, reference works, and other instructional aids used in the District, the following procedure shall be followed:

2. title;
 3. publisher;
 4. the complainant's familiarity with the material objected to;

This should include specific references to the text of the material by page number and excerpted text if known..
- B. Upon receipt of the information, the Director of Instruction~~Curriculum~~ may refer the matter to the District Administrator for resolution.
- C. The individual(s) may submit an appeal of the District Administrator's decision in writing to the Board President within thirty (30) business days of receiving the decision. The written appeal and all written material relating to it shall be referred to the Board for consideration.
- D. The Board shall review the matter and advise the individual(s), in writing, of its decision as soon as practicable. The Board shall determine on a case-by-case basis whether its review will include appearances by the petitioner and administration, be conducted based on written submissions, or only on the record produced by the District Administrator.
- E. The decision of the Board is final.

Decisions on reconsidered materials will stand for 4 years before new requests for reconsideration of those items will be entertained.

No challenged material may be permanently removed from the curriculum or from a collection of resource materials except by action of the Board, and no challenged material may be removed solely because it presents ideas that may be unpopular or offensive to some. Any Board action to remove material will be accompanied by the Board's statement of its reasons for the removal.
