## INDEPENDENT AUDITOR'S REPORT

To the Board of Education  
New Glarus School District  
New Glarus, Wisconsin

### Report on the Audit of the Financial Statements

#### *Opinions*

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the New Glarus School District ("District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District as of June 30, 2024, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### *Basis for Opinions*

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### *Change in Reporting Entity*

As discussed in Note 1 to the financial statements, effective July 1, 2023, the District adopted the provisions of the Governmental Accounting Standards Board Statement No. 100, Accounting Changes and Error Corrections. Our opinions are not modified with respect to this matter.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining non-major fund financial statements and schedules of expenditures of federal and state awards, as required by Title 2 *U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and *State Single Audit Guidelines* are presented for purposes of additional analysis and are not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining non-major fund financial statements and schedules of expenditures of federal and state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Reporting Required by Government Auditing Standards***

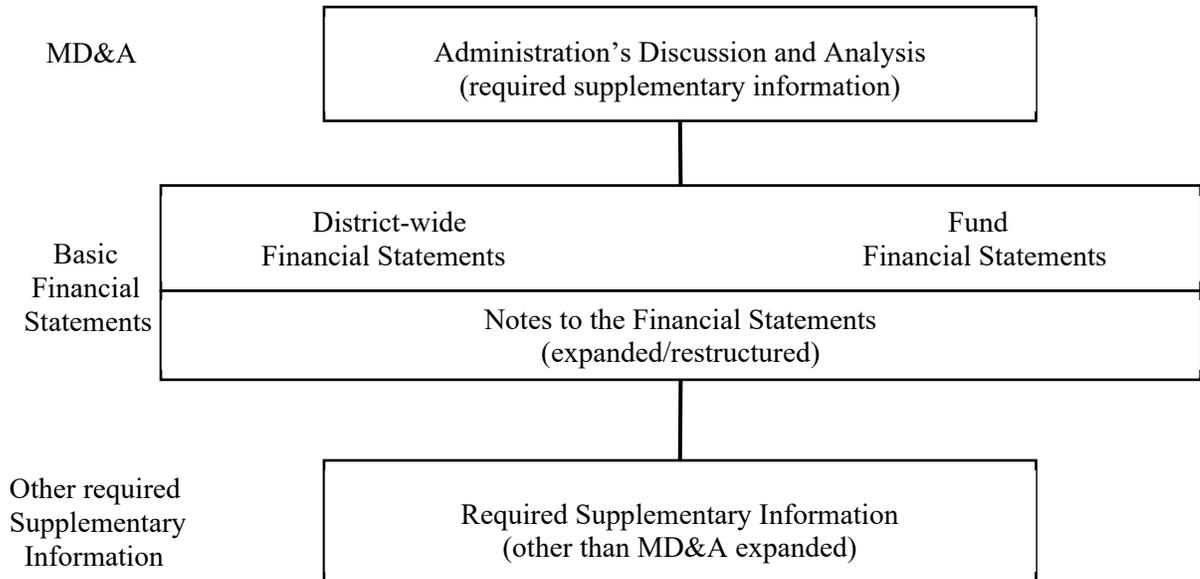

In accordance with *Government Auditing Standards*, we have also issued our report dated December 9, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

**NEW GLARUS SCHOOL DISTRICT  
MANAGEMENT’S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2024**

New Glarus School District’s (the District) Administration discussion and analysis is intended to assist the reader in focusing on significant financial issues, provide an overview of the District's financial activity, and identify changes in the District's financial position and its ability to address the next and subsequent year challenges. It also identifies any material deviations from the financial plan and identifies individual fund issues or concerns. This is a requirement of the Governmental Accounting Standards Board Statement No. 34 (GASB 34) "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments and is intended to provide the financial results for the fiscal year ending June 30, 2024.

As indicated in the illustration, GASB 34 requires the presentation of two basic types of financial statements: District Wide Financial Statements and Fund Financial Statements.

**District Wide Financial Statements**

The District wide statements provide a perspective of the District as a whole. These statements use the full accrual basis of accounting similar to private sector companies. There are two District wide statements: the Statement of Net Position and the Statement of Activities.

The Statement of Net Position combines and consolidates governmental funds' current financial resources (short-term spendable resources) with capital assets and long-term obligations, regardless if they are currently available or not.

Consistent with the full accrual basis method of accounting the Statement of Activities accounts for current year revenues and expenses regardless of when cash is received or paid. The intent of this statement is to summarize and simplify the user's analysis of the costs of various District services.

**NEW GLARUS SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2024**

**Fund Financial Statements**

The fund statements are similar to financial presentations with the focus on the District's Major Funds rather than fund types. Consistent with previous years, the fund statements are reported using the modified accrual method of accounting. Under this basis of accounting, revenues are recorded when received except where they are measurable and available and therefore represent resources that may be appropriated. Expenditures are accounted for in the period that goods and services are used in school programs. In addition, capital asset purchases are expensed and not recorded as an asset. Debt payments are recorded as expenditures in the current year and future debt obligations are not recorded.

Fund types include the General Fund, Special Revenue Funds, Capital Projects Fund, Debt Service Fund, and Fiduciary Funds. The General Fund is used primarily to account for the general education requirements of the District. Its revenues are derived from property taxes, state and federal distributions and grants and other intergovernmental revenues. The Special Revenue Funds are comprised of the Special Revenue, Food Service and the Community Service funds. The Capital Projects Fund is used to account for any construction projects in progress in the District. The Debt Service Fund is used to record the funding and payment of principal and interest on bonded debt. The Fiduciary Fund accounts for assets held by the District in a trustee capacity or as an agent for the employee benefits trust.

Unrestricted	6,029,145	5,246,188
Total Net Position	\$ 33,382,459	\$ 27,639,048

As indicated by the statement above, total net position is \$33,382,459. Net position can be separated into the following categories: capital assets net of related debt, restricted, and unrestricted.

Net capital assets are a combination of funds available for capital assets, plus capital assets at original cost less accumulated depreciation and related debt. The original cost of capital assets is \$59,300,863, which is an accumulation of capital assets year after year less any capital disposals. The accumulated depreciation is the accumulation of depreciation expense since acquisition. In accordance with Generally Accepted Accounting Principles (GAAP), depreciation expense is recorded on the original cost of the asset, less an estimated salvage value, expensed over the estimated useful life of the asset. Total accumulated depreciation is \$17,396,659. Most capital asset acquisitions are financed through long-term debt. Primarily, long-term debt is repaid as the debt service comes due through property taxes approved by the voters. Total related long-term debt is \$26,025,000. As of June 30, 2024, unspent long-term debt proceeds amounted to \$9,988,082.

**Financial Analysis of the District as a Whole (Continued)**

Net position of \$270,932 is restricted for debt service, \$293,182 is restricted for the special revenue fund, \$2,093,775 is restricted for capital projects, \$543,752 is restricted for food service, \$11,886 is restricted for the common school fund carryover, \$8,038 is restricted for community service, and \$72,197 is restricted for the District's net supplemental pension asset. The remaining balance of \$6,029,145 is unrestricted. The unrestricted fund balance is an accumulation of prior years' operating results. This balance is directly affected each year by the District's operating results.

**NEW GLARUS SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2024**

**Financial Aspects of the District's Funds**

The general fund had a net increase in fund balance of \$721,628. The increase was mainly due from savings of anticipated expenditures, from unanticipated state and local revenues, and from the use of one-time ESSER III funding sources.

The capital projects fund had a net decrease in fund balance of \$15,192,612. The decrease was due construction project expenditures incurred.

The debt service fund had a net decrease in fund balance of \$33,270. The decrease was due to the prepayment of debt.

The special revenue fund had a net increase in fund balance of \$33,268. The increase was due to additional student organizations and higher interest earnings.

The food service fund had a net increase in fund balance of \$16,520. The increase was due to additional supply chain assistance funding and an increase in meal prices.

The community service fund had a net decrease in fund balance of \$1,741. The decrease was due to the use of fund balance for community events.

**Capital Assets and Debt Administration**

**Capital Assets**

At June 30, 2024 and 2023, the District had \$59,300,863 and \$40,634,611 invested in a broad range of capital assets, including land, buildings, furniture and equipment, respectively.

Less Accumulated Depreciation	(17,396,659)	(16,374,111)
	\$ 41,904,204	\$ 24,260,500

There was a net increase in capital assets of \$18,666,252 from last year. Depreciation expense for the year was \$1,023,384.

**NEW GLARUS SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS  
FOR THE YEAR ENDED JUNE 30, 2024**

**Debt**

At the end of this year, the District had \$26,025,000 in general obligation bonds. This is a net decrease of \$2,230,000. The net decrease is a result of scheduled principal payments of debt.

**Factors Bearing on the District's Future**

Currently known circumstances that will impact the District's financial status in the future are:

- Student enrollment
- Health insurance costs
- Funding from the State of Wisconsin
- Energy costs
- Passage of future operational referendum
- Overall inflating costs

**Original vs. Revised Budget**

Per State Statute 120.13(33) during the period between July 1 and the final adoption of a budget by the school board after the budget hearing under s.65.90, spend money as needed to meet the immediate expenses of operating and maintaining the public instruction in the school district.

The District may amend its budget during the school year.

**Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Tammy Marty, Business Manager, School District of New Glarus, 1701 Second St., New Glarus, Wisconsin 53574.

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended June 30, 2024**

Net change in fund balances - total governmental funds: \$ (14,456,207)

Amounts reported for Governmental Activities in the Statement of Activities are different because:

Governmental funds report outlays for capital assets as expenditures because such outlays use current financial resources. In contrast, the Statement of Activities reports only a portion of the outlay as expense. The outlay is allocated over the assets' estimated useful lives as depreciation expense for the period.

This is the amount by which capital outlays (\$19,946,516) were greater than depreciation (\$1,023,384) in the current period. 18,923,132

Governmental funds report the entire net sales price (proceeds) from the sale of an asset as revenue because it provides current financial resources. In contrast, the Statement of Activities reports only the gain (loss) on the sale of the assets. Thus, the change in Net Position differs from the change in fund balance by the cost of the asset sold. (1,424,475)

Gain on disposal of capital assets 145,049

Repayment of principal on long-term debt is reported in the governmental funds as an expenditure but is reported as a reduction in long-term debt in the Statement of Net Position and does not affect the Statement of Activities.

The amount of long-term debt principal payments in the current year is: 2,230,000

The amount of financed purchase arrangements principal payments in the current year is: 93,310

Amortization of debt premium 110,301

Vested employee benefits, OPEB, and the supplemental pension liability are reported in the governmental funds when amounts are paid. The Statement of Activities reports values of benefits earned during the year.

Change in OPEB - group life insurance plan liability and related deferred outflows and inflows of resources (40,502)

Change in supplemental pension liability and related deferred outflows and inflows of resources 464

Change in compensated absences 10,096

In governmental funds, interest payments on outstanding long-term debt are reported as an expenditure when paid. In the Statement of Activities interest is reported as incurred.

Interest paid is greater (less) than interest accrued by 27,588

Pension expense reported in the governmental funds represents current year required contributions into the defined benefit pension plan. Pension expense in the Statement of Activities is actuarially determined by the defined benefit pension plan as the difference between the net pension asset/liability from the prior year to the current year, with some adjustments.

This is the amount of current year required contributions (\$490,506) into the WRS defined benefit pension plan that were less than the actuarially determined (\$365,851) change in net pension asset/liability between years, with adjustments. 124,655

Change in net position of governmental activities \$ 5,743,411

**1. Summary of Significant Accounting Policies**

**A. Introduction**

The New Glarus School District (the "District") is organized as a common school district. The District, governed by a seven-member elected school board, operates grades Pre-Kindergarten through 12 and is comprised of all or part of nine taxing districts.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The significant accounting principles and policies utilized by the District are described below.

**B. Component Units**

Accounting principles generally accepted in the United States of America require that these financial statements include the primary government and its component units. Component units are separate organizations that are included in the District's reporting entity because of the significance of their operational or financial relationships with the District. All significant activities and organizations with which the District exercises oversight responsibility have been considered for inclusion in the basic financial statements. The District has no component units, and it is not included in any other governmental reporting entity.

**C. District-Wide Statements**

The statement of net position and the statement of activities present financial information about the District's governmental activities. These statements include the financial activities of the overall government in its entirety, except those that are fiduciary. Eliminations have been made to minimize the double counting of internal transactions. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. The District does not report any business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

**D. Fund Financial Statements**

The fund statements provide information about the District's funds, including fiduciary funds. Separate statements for each fund category – governmental and fiduciary – are presented.

The emphasis of fund financial statements is on major governmental funds; each displayed in a separate column. All remaining funds are aggregated and reported as non-major funds. Each fund is accounted for by providing a separate set of self-balancing accounts, which constitute its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund equity, revenues, and expenditures.

**1. Summary of Significant Accounting Policies (Continued)**

**D. Fund Financial Statements (Continued)**

Funds are organized as major funds or non-major funds within the governmental and fiduciary statements. An emphasis is placed on major funds within the governmental category. A fund is considered major if it is the primary operating fund of the District or meets the following criteria:

- a. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues, or expenditures of that individual governmental fund are at least 10 percent of the corresponding total for all funds of that category or type, and
- b. Total assets, deferred outflows of resources, liabilities, deferred inflows of resources, revenues or expenditures of the individual governmental fund are at least 5 percent of the corresponding total for all governmental funds combined.
- c. In addition, any other governmental fund that the District believes is particularly important to financial statement users may be reported as a major fund.

The District reports the following major governmental funds:

**General Fund** – The general fund is the operating fund of the District. It is used to account for all financial resources of the District except those required to be accounted for in other funds.

**Debt Service Fund** – The debt service fund is used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

**Capital Projects Fund** – The capital projects fund is used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

**Special Revenue Fund** – The special revenue fund is used to account for trust funds that can be used for district operations. The sources of such funds are gifts and donations from private parties.

The District accounts for fiduciary activities for supplemental pension benefits in an employee benefit trust fund.

The District also has the following non-major funds

- Community Service Fund
- Food Service

**1. Summary of Significant Accounting Policies (Continued)**

**E. Measurement Focus and Basis of Accounting**

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental fund statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences which are recognized as expenditures when paid. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under lease and transfer of ownership agreements are reported as other financing sources.

State general and categorical aids and other entitlements are recognized as revenue in the period the District is entitled to the resources and the amounts are available. Expenditure-driven programs currently reimbursable are recognized as revenue when the qualifying expenditures have been incurred and the amounts are available. Amounts owed to the District which are not available are recorded as receivables and deferred inflows of resources. Amounts received prior to the entitlement period are also recorded as deferred inflows of resources.

Revenues susceptible to accrual include property taxes, miscellaneous taxes, expenditure-driven grant programs, public charges for services, and investment income.

Charges for services provided to other educational agencies and private parties are recognized as revenue when services are provided. Charges for special educational services are not reduced by anticipated state special education aid entitlements.

For governmental fund financial statements, deferred inflows of resources arise when a potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred inflows of resources also arise when resources are received before the District has a legal claim to them, as when grant monies are received prior to the period in which the funds are first permitted to be used. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, deferred inflows of resources is removed from the balance sheet and revenue is recognized. Resources that are received prior to incurring qualifying expenditures are reported as a liability and recognized as revenue in subsequent periods when eligibility requirements have been met.

**1. Summary of Significant Accounting Policies (Continued)**

**F. Property Tax Levy**

The aggregate District tax levy is apportioned and certified in November of the current fiscal year for collection to the comprising municipalities based on the immediate past October 1<sup>st</sup> full or “equalized” taxable property values. As permitted by a collecting municipality’s ordinance, taxes may be paid in full or two or more installments with the first installment payable the subsequent January 31<sup>st</sup>, and the final payment no later than the following July 31<sup>st</sup>. On or before January 15<sup>th</sup>, and by the 20<sup>th</sup> of each subsequent month thereafter, the District is paid by the collecting municipalities its proportionate share of tax collections received through the last day of the preceding month. On or before August 20<sup>th</sup>, the County Treasurer makes full settlement to the District for any remaining balance. The County assumes all responsibility for delinquent real property taxes.

Property taxes are recognized as revenue in the period for which the taxes are levied. All property taxes are considered due on January 1<sup>st</sup>, when an enforceable lien is assessed against the property and the taxpayer is liable for the taxes. All taxes are collected within 60 days of June 30<sup>th</sup> and are available to pay current liabilities.

**G. Deposits and Investments**

The District’s cash and equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition. Cash and investment balances for individual funds are pooled unless regulations require segregated accounts.

State statutes permit the District to invest available cash balances, other than debt service funds, in time deposits of authorized depositories, U.S. Treasury obligations, U.S. Agency issues, high-grade commercial paper, and the local government pooled-investment fund administered by the state investment board. Available balances in the debt service fund may be invested in municipal obligations, obligations of the United States, and the local government pooled-investment fund.

Donations to the District for scholarships are invested as the donor specifies. In the absence of specific directions, the District may invest donated items in accordance with laws applicable to trust investments.

The District has adopted an investment policy which permits all investments allowed under state statutes.

**H. Accounts Receivable**

All accounts receivable are shown at gross amounts with uncollectible amounts recognized under the direct write-off method. No allowance for uncollectible accounts has been provided since such allowance would not be material.

**I. Inventories and Prepaid Items**

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. Prepaid items represent payments made by the District for which benefits extend beyond June 30.

Nonspendable net assets (inventories and prepaid items) have been recognized to signify that a portion of net assets is not available for other subsequent expenditures.

**Notes to Financial Statements**

**1. Summary of Significant Accounting Policies (Continued)**

**J. Capital Assets**

Capital assets are valued at historical cost or estimated historical cost. Maintenance and repair costs are charged to expenses as incurred and betterments are capitalized as assets. Upon disposal of land, buildings and equipment, a gain or loss is reflected in the statement of activities. Donated assets are reported at acquisition value at the time received. Property and equipment and related depreciation expense are not reflected in the governmental fund financial statements.

Capitalization thresholds (the dollar valued above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the district-wide statements are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Building	\$ 5,000	Straight-line	50 years
Building improvements	5,000	Straight-line	50 years
Site improvements	5,000	Straight-line	20 years
Furniture and equipment	5,000	Straight-line	5-20 years
Computer and related technology	5,000	Straight-line	5 years

**K. Long-Term Obligations**

All long-term obligations to be repaid from governmental resources are reported as liabilities in the district-wide statements. The long-term debt consists primarily of notes, bonds, leases liabilities and transfer of ownership agreements, or loans payable and accrued compensated absences.

Long-term obligations for governmental funds are not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures.

Principal and interest on long-term debt is recognized when due.

**L. Accumulated Unpaid Vacation and Sick Pay**

**Compensated Absences**

Sick leave for teachers hired before July 1, 2013 will accumulate up to a maximum of 200 sick leave days. Upon retirement, if the member has completed 10 years of full-time service with the District and who is eligible for retirement under the Wisconsin Retirement System will be credited with up to 200 accumulated sick leave days at the rate of pay of \$90 per day not to exceed \$18,000.

Sick leave for all eligible staff hired on or after July 1, 2013 will accumulate to a maximum of 90 days. Upon retirement, if the member has completed 10 years of full-time service with the District and who is eligible for retirement under the Wisconsin Retirement System will be credited up to 90 accumulated sick leave days at the rate of pay of \$5 per day.

Accumulated vacation and personal days for all eligible staff are allowed to be carried-over up to five days each year.

See Note 7b for additional information.

**M. Pensions**

The fiduciary net position of the Wisconsin Retirement System (WRS) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for the purposes of measuring the following:

- Net Pension Liability (Asset),
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions,
- Pension Expense (Revenue).

Information about the fiduciary net position of the WRS and additions to/deductions from the WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**N. Other Post-Employment Benefits (OPEB)**

The fiduciary net position of the Local Retiree Life Insurance Fund (LRLIF) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for the purposes of measuring the following:

- Net Pension Liability (Asset),
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs,
- Pension Expense (Revenue).

Information about the fiduciary net position of the LRLIF and additions to/deductions from the LRLIF's fiduciary net position have been determined on the same basis as they are reported by the LRLIF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**O. Deferred Outflows and Inflows of Resources**

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expenditure) until then. The District has three items that qualify for reporting in this category.

In addition to liabilities, the statement of net position will sometime report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until then. The District has three items that qualify for reporting in this category.

The net position of the District is significantly impacted by the combined effect of deferred outflows and inflows of resources from the pension plan.

**1. Summary of Significant Accounting Policies (Continued)**

**P. Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

**Q. Net Position**

Net position represents the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement for those assets. Net position is reported as restricted when there are limitations imposed on their use through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

When both restricted and unrestricted resources are available for use, the District's policy is to use restricted resources first, then unrestricted resources, as they are needed.

**R. Fund Balances – Governmental Funds**

The District previously implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions. In the fund statements, governmental funds report the following classifications of fund balance:

**Nonspendable** – includes amounts that cannot be spent because they are either not in spendable form (i.e., convertible to cash) or are legally or contractually required to be maintained intact. \$9,503 of the amount reported as nonspendable at June 30, 2024 is nonspendable in form. The remaining balance of \$10,000 is legally or contractually required to be maintained intact.

**Restricted** – includes amounts restricted by external sources or by constitutional provision or enabling legislation.

**Committed** – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to policies enacted by the Board of Education, the District's highest level of decision making authority. Commitments may only be rescinded through the same type of action employed to previously commit the amounts.

**Assigned** – includes amounts that the District intends to use for a specific purpose, but do not meet the definition of restricted or committed fund balance. The Board of Education has delegated authority to assign fund balance for a specific purpose to the Business Manager.

**Unassigned** – includes amounts that have not been assigned to other funds or restricted, committed or assigned to a specific purpose.

**1. Summary of Significant Accounting Policies (Continued)**

**R. Fund Balances – Governmental Funds (Continued)**

The District considers restricted amounts to be spent first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as in grant agreements requiring dollar for dollar spending. Additionally, the District would first use committed, then assigned and lastly unassigned amounts of unrestricted fund balance when expenditures are made.

The Board of Education recognizes the need to maintain an operating reserve in the general fund to 1) to hold adequate working capital to meet cash flow needs during the fiscal year, 2) to reduce the need for short term borrowing, 3) to serve as a safeguard for unanticipated district expenditures and 4) to show fiscal responsibility to maintain a high credit rating which will help reduce future borrowing costs.

Any excess of revenues and other financing sources over expenditures and other financing uses at the end of the fiscal year will be added to the District fund balance. The District will strive to maintain a general fund balance of not less than 15% of the subsequent year's operational expenditures. If the District, as of June month-end of a given fiscal year, shows an operating fund balance below 15% of the subsequent year's budget, the Board of Education will take proactive actions to increase the fund balance to 15%.

The District's long-term goal for fund balance is to achieve and maintain a general fund balance that will alleviate the need for short-term borrowing to meet operational cash flow needs. Fund balance in excess of this goal may be used for one-time expenditures or unforeseen costs (i.e., damages). The general fund balance shall not be used for recurring costs in the operating budget.

The Board may, from time to time, commit fund balance to a specific purpose. Such actions shall be taken in open meeting and require the approval of a majority of the Board. Commitments of fund balance, once made, can be modified only by a majority vote of the Board.

The Board authorizes and directs the Business Manager to assign the fund balance to the extent such assignment does not create a negative unassigned fund balance as follows:

- An amount sufficient to liquidate open encumbrances that are reasonably expected to result in an expenditure in the subsequent year.
- An amount estimated to be sufficient to cover the cost of unsettled labor agreements, if any.

**S. Change in Accounting Principle**

Effective July 1, 2023, the District adopted GASB Statement No. 100, *Accounting Changes and Error Corrections*. GASB Statement No. 100 was issued to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. The District did have a change in its reporting entity that required disclosure in the financial statements. See Note 17 for additional information.

**2. Explanation of Certain Differences Between Governmental Fund Statements and District-wide Statements**

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements, certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items.

Differences between the governmental funds statement of revenues, expenditures and changes in fund balances and the statement of activities fall into one of three broad categories:

- a. Long-term revenue differences arise because governmental funds report revenues only when they are considered “available,” whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities.
- b. Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements and depreciation expense on those items as recorded in the statement of activities.
- c. Long-term debt transaction differences occur because both interest and principal payments are recorded as expenditures in the governmental fund statements, whereas interest expense is recorded in the statement of activities as incurred, and principal payments are recorded as a reduction of liabilities in the statement of net position.

**3. Cash and Investments**

For all the District’s cash and investments shown below, the market value at the balance sheet date is substantially the same as the fair value. The difference between the bank balance and the carrying value is due to outstanding checks and/or deposits in transit. At various times during the year, the District’s deposits were higher than the June 30, 2024 balances. This means that the District’s risk and exposure could be higher at these times.

Deposits

The District's deposits and investments at June 30, 2024 were comprised of the following:

<u>Depository:</u>	<u>Carrying Amount</u>	<u>Fair Value</u>	<u>Associated Risk</u>

Investments Authorized by Wisconsin State Statutes

Investment of District funds is restricted by state statutes. Available investments are limited to:

- Time deposits in any credit union, bank, savings bank, trust company or savings and loan association.
- Bonds or securities of any county, city, drainage district, technical college, village, town, or school district of the state.
- Bonds or securities issued or guaranteed by the federal government.
- The local government investment pool.
- Any security maturing in seven years or less and having the highest or second highest rating category of a nationally recognized rating agency.
- Securities of an open-end management company or investment trust, subject to various conditions and investment options.
- Repurchase agreements with public depositories, with certain conditions.
- Bonds issued by a local exposition district.
- Bonds issued by a local professional baseball park district.
- Bonds issued by the University of Wisconsin Hospital and Clinics Authority.
- Bonds issued by a local football stadium district.
- Bonds issued by a local arts dealer.
- Bonds issued by the Wisconsin Aerospace Authority.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.

The District does not have an investment policy that addresses interest rate risk.

**NEW GLARUS SCHOOL DISTRICT**  
**Notes to Financial Statements**  
**For the Year Ended June 30, 2024**

**3. Cash and Investments (Continued)**

As of June 30, 2024, the District had the following investments and maturities subject to interest rate risk:

Investment Type	Credit Quality	Fair Value	Investment Maturities (In Years)		
			Less than 1	1-5	6-10
Fixed Income - Exchange Traded Funds	Varies - Not rated to AAA	\$ 202,929	\$ -	\$ 18,367	\$ 184,562
Government Securities	Varies - Not rated to AAA	3,986,097	3,986,097	-	-
Certificates of Deposit	Not Rated	226,000	226,000	-	-
		<u>\$ 4,415,026</u>	<u>\$ 4,212,097</u>	<u>\$ 18,367</u>	<u>\$ 184,562</u>

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. State law limits investments in commercial paper, corporate bonds and mutual bond funds to the top two ratings issued by nationally recognized statistical rating organizations. The District's investment policy minimized credit risk by limiting investments to the safest type of securities. Quality ratings available are noted in the table above. The District's equity securities subject to credit risk were not rated.

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the District would not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial risk for investments is the risk that, in the event of failure of the counterparty (e.g. broker-dealer) to a transaction, the District would not be able to recover the value of its investment of collateral securities that are in possession of another party. The District does not have an investment policy for custodial credit risk.

Deposits in each local and area bank are insured by the Federal Depository Insurance Corporation (FDIC) up to \$250,000 for all time and savings accounts and \$250,000 for all demand accounts. Bank accounts are also insured by the State Deposit Guarantee Fund in the amount of \$1,000,000. However, due to the relatively small size of the Guarantee Fund in relationship to the total deposits covered and other legal implications, recovery of material principal losses may be significant to individual organizations. Deposits maintained at investment institutions are insured by the Securities Investor Protection Corporation (SIPC) up to \$500,000.

As of June 30, 2024, the District's deposits with financial institutions were exposed to custodial credit risk as follows:

Insured by FDIC & State Coverage	\$ 1,797,679
Insured by irrevocable letters of credit*	\$ 8,431,214
Uninsured and uncollateralized	\$ -

\*The District's irrevocable letters of credit amount to \$10,000,000 in total.

**4. Fair Value Measurement**

Financial assets required to be measured on a recurring basis are classified under a three-tier hierarchy for fair value investments. Fair value is the amount that would be received to sell an asset, or paid to settle a liability, in an orderly transaction between market participants at the measurements date.

The District uses the following hierarchical disclosure framework:

Level 1 – Measurement based upon quoted prices for identical assets in an active market as of the reporting date.

Level 2 – Measurement based upon marketplace inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in inactive markets, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Measurement based on the District’s assumptions about a hypothetical marketplace because observable market inputs are not available as of the reporting date.

The District uses appropriate valuation techniques based on the available inputs to measure the fair values of its assets and liabilities. When available, the District measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs have the lowest priority.

	Assets at Fair Value as of June 30, 2024	
	Fair Value	Level 1
Equity - Exchange Traded Funds	\$ 260,388	\$ 260,388
Fixed Income - Exchange Traded Funds	202,929	202,929

**Cash Defeasances**

Additionally, the District issued general obligation refunding bonds in 2016. In 2017, 2018, 2020, and 2021 the District deposited cash into an irrevocable trust to purchase securities for the purpose of generating resources for future debt service payments of the general obligation bonds. As a result, a portion of the general obligation bonds are considered to be defeased and the liability has been removed from the governmental activities on the statement of net position. No economic gain resulted from the cash defeasance. The total of the defeased debt outstanding at June 30, 2024 is \$4,460,000. The entire amount of defeased debt was called on the April 1, 2024 early redemption date. The risk-free monetary assets of the trust cannot be replaced.

Lastly, the District issued general obligation refunding bonds in 2022. In 2022 and 2023, the District deposited cash into an irrevocable trust to purchase securities for the purpose of generating resources for future debt service payments of the general obligation bonds. As a result, a portion of the general obligation bonds are considered to be defeased and the liability has been removed from the governmental activities on the statement of net position. No economic gain resulted from the cash defeasance. The total of the defeased debt outstanding at June 30, 2024 is \$2,000,000. The entire amount of defeased debt will be called on the April 1, 2028 early redemption date. The risk-free monetary assets of the trust cannot be replaced.

**7. Employee Pension Plans**

7a) Defined Benefit Pension Plan – Wisconsin Retirement System

*General Information about the Pension Plan*

**Plan Description.** The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, expected to work at least 1,200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**7. Employee Pension Plans (Continued)**

7a) Defined Benefit Pension Plan – Wisconsin Retirement System (Continued)

**Benefits Provided.** Employees who retire at or after age 65 (54 for protective occupations and 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

Year	Core Fund Adjustment (%)	Variable Fund Adjustment (%)
2014	4.7	25.0
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for General category employees, including Teachers, and Executives and Elected Officials. Starting on January 1, 2016, the Executives and Elected Officials category was merged into the General Employee Category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

During the reporting period, the WRS recognized \$490,507 in contributions from the employer.

Contribution rates as of June 30, 2024 are:

Employee Category	Employee	Employer

Protective without Social Security	6.90%	19.10%

***Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2024, the District reported a liability (asset) of \$563,929 for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2022 rolled forward to December 31, 2023. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District’s proportion of the net pension liability (asset) was based on the District’s share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2023, the District’s proportion was 0.03792894%, which was a decrease of 0.00070935% from its proportion measured as of December 31, 2022.

For the year ended June 30, 2024, the District recognized pension expense of \$392,848.

7a) Defined Benefit Pension Plan – Wisconsin Retirement System (Continued)

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 2,273,759	\$ (3,011,608)
Net differences between projected and actual earnings on pension plan investments	1,965,204	-
Changes in assumptions	245,800	-
Changes in proportion and differences between employer contributions and proportionate share of contributions	10,623	(1,381)
Employer contributions subsequent to the measurement date	331,365	-
Total	\$ 4,826,751	\$ (3,012,989)

\$331,365 reported as a deferred outflow of resources related to pension resulting from the District's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

**Actuarial Assumptions.** The total pension liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	December 31, 2022
Measurement Date of Net Pension Liability (Asset):	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020 Published November 19, 2021

Salary Increases:	
Wage Inflation	3.0%
Seniority/Merit	0.1% - 5.6%
Mortality:	2020 WRS Experience Mortality Table
Post-Retirement Adjustments	1.7%

\*No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate.

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The total pension liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the December 31, 2022 actuarial valuation.

**Long-term Expected Return on Plan Assets.** The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Allocation Targets and Expected Returns<sup>1</sup>  
As of December 31, 2023

<u>Core Fund Asset Class</u>	<u>Asset Allocation %</u>	<u>Long-Term Expected Nominal Rate of Return %</u>	<u>Long-Term Expected Real Rate of Return %<sup>2</sup></u>

<sup>1</sup>Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations

<sup>2</sup>New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.7%

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower volatility assets, such as fixed income securities.

Currently, an asset allocation target of 12% policy leverage is used, subject to an allowable range of up to 20%.

**Single Discount Rate.** A single discount rate of 6.8% was used to measure the Total Pension Liability for the current and prior year. This single discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 3.77% (Source: Fixed-income municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index’s “20-year Municipal GO AA Index” as of December 31, 2023. In describing this index, Fidelity notes that the Municipal Curves are constructed using option-adjusted analytics of a diverse population of over 10,000 tax-exempt securities.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the District’s Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate.** The following presents the District’s proportionate share of the net pension liability (asset) calculated using the discount rate of 6.80 percent, as well as what the District’s proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (5.80 percent) or 1-percentage-point higher (7.80 percent) than the current rate:

	1% Decrease to Discount Rate (5.80%)	Current Discount Rate (6.80%)	1% Increase to Discount Rate (7.80%)
District's proportionate share of the net pension liability (asset)	\$ 5,450,653	\$ 563,929	\$ (2,855,517)

7b) Supplemental Pension Stipend Benefit (Continued)

**Benefits Provided.** This benefit applies to Teachers who were hired by the District prior to July 1, 2013. A Teacher, who has completed ten (10) years of full time equivalency service with the District and who is eligible for retirement under the Wisconsin Retirement System will be credited with: (a.) up to two hundred (200) accumulated sick days at the rate of pay of \$90 per day not to exceed \$18,000; and (b.) \$500 per year for every year of full time equivalency employment with the District, not to exceed \$15,000. The total dollars credited for accumulated sick days and accumulated years of employment with the District shall not exceed \$30,000. Teachers, who retire by filing an irrevocable resignation with the District by March 1st, shall be eligible for an additional \$2,000 above and beyond the \$30,000 limit, not to exceed \$32,000. The additional \$2,000 shall be prorated as listed below:

10-14 years of service - \$1,000
15-19 years of service - \$1,500
20 years of service and above - \$2,000

An eligible Teacher who tenders his or her irrevocable resignation to the District, retires at the end of the contract year, shall receive the dollar amount contemplated in the preceding paragraphs as contributions to a tax-sheltered annuity (TSA).

TSA contributions will be made in a series of three (3) equal installments beginning in July after the Eligible Employee’s retirement and on the two (2) subsequent annual anniversaries of that date. Retirees receiving TSA contributions cannot be employed by the District.

**Employees Covered by Benefit Terms.** At June 30, 2024 (the measurement date), the following employees were covered by the benefit terms:

Retirees eligible and receiving benefits	5
Active teachers fully eligible	10
Active teachers not fully eligible	28
Total	43

This plan is closed to new entrants as it only applies to teachers hired before July 1, 2013.

**Contributions.** The District has continued to fund these stipend liabilities through its irrevocable trust that was previously reported as an “other postemployment benefit” trust. The District has indicated that the contribution amount to the trust is tied to the actuarial determined contribution (ADC) provided in prior actuarial studies. There are no contractual or statutory required contributions to the trust.

During the reporting period, the District contributed \$7,882 to the trust.

*Net Pension Liability (Asset)*

The District's net pension liability (asset) was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of June 30, 2022.

*Actuarial Assumptions.* The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Measurement Date	June 30, 2023
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market Value
Amortization Method	30 year Level %
Discount Rate	6.00%
Amortization Growth Rate	3.00%
Inflation	2.50%

The valuation was based upon the data provided by the District. All of the demographic assumptions used for this report are approximately the same as those based on an experience study conducted in 2021 using the WRS experience from 2018-2020.

Changes in assumptions between years resulted in an increase in the discount rate of 6.00% from 5.00% in the prior year.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Long-Term Real Rate of Return</u>	<u>Target Allocation</u>
US Equities	1.97%	54%
Fixed Income	4.43%	45%

**Discount Rate.** The discount rate used to measure the total pension liability was 6.00%, which was the same discount rate used for the prior year. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the employee rate. Based on those assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

**8. Other Post-Employment Benefits**

***General Information about the Other Post-Employment Benefits***

***Plan Description.*** The LRLIF is a multiple-employer defined benefit OPEB plan. LRLIF benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. The Wisconsin Department of Employee Trust Funds (ETF) and the Group Insurance Board have statutory authority for program administration and oversight. The plan provides post-employment life insurance benefits for all eligible members.

***OPEB Plan Fiduciary Net Position.*** ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Retiree Life Insurance Financial Report, which can also be found using the link above.

***Benefits Provided.*** The LRLIF plan provides fully paid up life insurance benefits for post-age 64 retired members and pre-65 retirees who pay for their coverage.

***Contributions.*** The Group Insurance Board approves contribution rates annually, based on recommendations from the insurance carrier. Recommended rates are based on an annual valuation, taking into consideration an estimate of the present value of future benefits and the present value of future contributions. A portion of employer contributions made during a member's working lifetime funds a post-retirement benefit.

Employers are required to pay the following contributions based on employee contributions for active members to provide them with Basic Coverage after age 65. There are no employer contributions required for pre-age 65 annuitant coverage. If a member retires prior to age 65, they must continue paying the employee premiums until age 65 in order to be eligible for the benefit after age 65.

Contribution rates as of June 30, 2024 are:

<u>Coverage Type</u>	<u>Employer Contribution</u>
50% Post Retirement Coverage	40% of Member Contribution
25% Post Retirement Coverage	20% of Member Contribution

**NEW GLARUS SCHOOL DISTRICT**  
**Notes to Financial Statements**  
**For the Year Ended June 30, 2024**

---

**8. Other Post-Employment Benefits (Continued)**

Member contributions are based upon nine age bands through age 69 and an additional eight age bands for those age 70 and over. Participating employees must pay monthly contribution rates per \$1,000 of coverage until the age of 65 (age 70 if active). The member contribution rates in effect for the year ended December 31, 2023 are as listed on the below:

Life Insurance

During the reporting period, the LRLIF recognized \$1,720 in contributions from the employer.

***OPEB Liabilities, OPEB Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs***

At June 30, 2024, the District reported a liability (asset) of \$388,350 for its proportionate share of the net OPEB liability (asset). The net OPEB liability (asset) was measured as of December 31, 2023, and the total OPEB liability used to calculate the net OPEB liability (asset) was determined by an actuarial valuation as of January 1, 2023 rolled forward to December 31, 2023. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net OPEB liability (asset) was based on the District's share of contributions to the OPEB plan relative to the contributions of all participating employers. At December 31, 2023, the District's proportion was 0.084412%, which was an increase of 0.001943% from its proportion measured as of December 31, 2022.

For the year ended June 30, 2024, the District recognized OPEB expense of \$42,292.

**Actuarial Assumptions.** The total OPEB liability in the January 1, 2023, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date:	January 1, 2023
Measurement Date of Net OPEB Liability (Asset)	December 31, 2023
Experience Study:	January 1, 2018 - December 31, 2020, Published November 19, 2021

Wage Inflation:	3.00%
Seniority/Merit:	0.10% - 5.6%
Mortality:	2020 WRS Experience Mortality Table

\*Based on the Bond Buyer GO 20-Bond Municipal Index.

Actuarial assumptions are based upon an experience study conducted in 2021 that covered a three-year period from January 1, 2018 to December 31, 2020. The total OPEB liability for December 31, 2023 is based upon a roll-forward of the liability calculated from the January 1, 2023 actuarial valuation.

**Long-term Expected Return on Plan Assets.** The long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. Investments for the LRLIF are held with Securian, the insurance carrier. Interest is calculated and credited to the LRLIF based on the rate of return for a segment of the insurance carriers' general fund, specifically 10-year A- Bonds (as a proxy, and not tied to any specific investments). The overall aggregate interest rate is calculated using a tiered approach based on the year the funds were originally invested and the rate of return for that year. Investment interest is credited based on the aggregate rate of return and assets are not adjusted to fair market value. Furthermore, the insurance carrier guarantees the principal amounts of the reserves, including all interest previously credited thereto.

**Single Discount Rate.** A single discount rate of 3.32% was used to measure the Total OPEB Liability for the current year, as opposed to a discount rate of 3.76% for the prior year. The change in the discount rate was primarily caused by the decrease in the municipal bond rate from 3.72% as of December 31, 2022 to 3.26% as of December 31, 2023. The Plan's fiduciary net position was projected to be insufficient to make all projected future benefit payments of current active and inactive members. Therefore, the discount rate for calculating the Total OPEB Liability is equal to the single equivalent rate that results in the same actuarial present value as the long-term expected rate of return applied to benefit payments, to the extent that the plan's fiduciary net position is projected to be sufficient to make projected benefit payments, and the municipal bond rate applied to benefit payment to the extent that the plan's fiduciary net position is projected to be insufficient. The plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through December 31, 2036.

The projection of cash flows used to determine the single discount rate assumed that employer contributions will be made according to the current employer contribution schedule and that contributions are made by plan members retiring prior to age 65.

**Sensitivity of the District's Proportionate Share of the Net OPEB Liability (Asset) to Changes in the Discount Rate.** The following presents the District's proportionate share of the Net OPEB Liability (Asset) calculated using the discount rate of 3.32 percent, as well as what the District's proportionate share of the Net OPEB Liability (Asset) would be if it were calculated using a discount rate that is 1-percentage-point lower (2.32 percent) or 1-percentage-point higher (4.32 percent) than the current rate:

	1% Decrease to Discount Rate (2.32%)	Current Discount Rate (3.32%)	1% Increase to Discount Rate (4.32%)

**11. Operating Leases**

GASB Statement No. 87, Leases (GASB 87), is in effect for the District's financial statements for the year ended June 30, 2024. One aspect of implementation of any statement issued by GASB is that the provision of the statement need not be applied to immaterial items. Management of the District evaluated all lease agreements currently in place and made the determination that at the present time, the implementation of GASB 87 would not have a material impact on the District's financial statements; consequently, GASB 87 was not implemented for the District's fiscal year ending June 30, 2024. Management will continue to assess the impact that GASB 87 may have on the District's financial statements in the future and, if determined to be material, the provisions of the statement will be implemented at that time.

The District, as lessee, leases several copiers under a lease. The lease requires monthly payments of \$512 through June 2025. Future minimum lease payments on this lease are as follows:

Year Ended June 30,	
2025	\$ 6,143
	<u>\$ 6,143</u>

**12. Limitation on School District Revenues**

Wisconsin statutes limit the amount of revenues school districts may derive from general school aids and property taxes unless a higher amount is approved by a referendum. This limitation does not apply to revenues needed for the payment of any general obligation debt service (including refinanced debt) authorized by either of the following:

- A resolution of the school board or by a referendum prior to August 12, 1993.
- A referendum on or after August 12, 1993.

History of Increased Revenue Limits

In April 2023, the residents of the New Glarus School District passed a referendum that the District could override its revenue limit by \$1,400,000 for the 2023-2024 school year, by \$1,600,000 for the 2024-2025 school year, and by \$1,800,000 for the 2025-2026 school year, for non-recurring purposes consisting of expenses related to staffing, operating and maintaining school facilities, and maintaining current educational programming, extracurriculars, and services.

**13. Risk Management**

The District is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors and omissions; workers compensation; and health care of its employees. These risks are covered through the purchase of commercial insurance, with minimal deductibles.

**14. Commitments**

In April 2021, the electors of the District authorized the issuance of \$28,900,000 in general obligation bonds via a referendum for the public purpose of paying the cost of a new school building and improvements to existing District buildings and property. As of June 30, 2024, construction, engineering, and architectural contracts were in place totaling \$25,638,616. Total costs incurred as of June 30, 2024 related to the new school building and improvement project contracts was \$14,396,783. These costs are currently reported as construction in progress on the statement of net position.

In November 2023, the District approved a contract commitment related to the construction of a new athletics complex. The total contract sum is \$3,784,059. Total costs incurred as of June 30, 2024 related to the new athletics complex was \$2,941,312. These costs are currently reported as construction in progress on the statement of net position.

Additionally, in June 2023, the District approved a finance purchase agreement for six new buses totaling \$605,838. Three of the buses were delivered to the District in November 2024 while the remaining three buses are to be delivered as a later date. Financing for the buses was approved in October 2024.

**15. Effect of New Accounting Standard on Current Period Financial Statements**

The GASB has adopted GASB Statement No. 101, *Compensated Absences*, effective for periods beginning after December 15<sup>th</sup>, 2023, GASB Statement No. 102, *Certain Risk Disclosures*, effective for periods beginning after June 15, 2024 and GASB Statement No. 103, *Financial Reporting Model Improvements*, effective for periods beginning after June 15, 2025. When these statements become effective, application of these standards may restate portions of these financial statements.

**16. Subsequent Events**

In October 2024, the District approved a proposal to build a storage building at the new athletic complex for \$92,791.

**17. Change in Reporting Entity**

During fiscal year 2024, changes to the financial reporting entity resulted in restatements of beginning fund balance as follows:

	Reporting Units Affected by Restatements of Beginning Balances	
	Special Revenue Fund	Non-Major Governmental Funds
7/1/2023, as previously reported	\$ -	\$ 806,428
Change within financial reporting entity (non-major to major fund)	259,914	(259,914)

**1. Budget Schedule**

Budgets are adopted each fiscal year for all funds in accordance with Section 65.90 of the Wisconsin Statutes, using the budgetary accounting basis prescribed by the Wisconsin Department of Public Instruction, which is in accordance with generally accepted accounting principles. The legally adopted budget and budgetary expenditure control is exercised at the two-digit function for all funds. Reported budget amounts are as originally adopted or as amended by the School Board resolution.

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- Based upon requests from District staff, District administration recommends budget proposals to the School Board.
- The School Board prepares a proposed budget including proposed expenditures and the means of financing them for the July 1 through June 30 fiscal year.
- A public notice is published containing a summary of the budget and identifying the time and place where a public hearing will be held on the proposed budget.
- Pursuant to the public budget hearing, the School Board may alter the proposed budget.
- After the School Board (following the public hearing) adopts the budget, no changes may be made in the amount of tax to be levied or in the amount of the various appropriations and the purposes of such appropriations unless authorized by a 2/3 vote of the entire School Board.

Appropriations lapse at year-end unless authorized as a carryover by the School Board.

**2. Excess of Actual Expenditures Over Budget in Individual Funds**

Annual budgets are adopted on a basis consistent with U.S. generally accepted accounting principles for all governmental and special revenue funds.

The following functions had an excess of actual expenditures over budget for the year ended June 30, 2024:

Fund	Function	Amount
General	Physical Instruction	\$ 713
General	Instructional Staff Services	122,188
General	General Administration Services	1,894
General	Business Administration Services	10,237
General	Insurance and Judgments	6,164
General	Other Support Services	45,854
General	Non-Program Services	36,637

*Changes of Assumptions.* Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the postretirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-end December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%
- Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the postretirement adjustments from 2.1% to 1.9%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

**SINGLE AUDIT**

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE  
AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN  
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education  
New Glarus School District  
New Glarus, Wisconsin

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the New Glarus School District (the "District") as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 9, 2024.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item #2024-001 that we consider to be a significant deficiency.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **New Glarus School District's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on the District's response to the finding identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Report on Compliance for Each Major Federal and State Program**

***Opinion on Each Major Federal and State Program***

We have audited the New Glarus School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and the *State Single Audit Guidelines* that could have a direct and material effect on each of the District's major federal and state programs for the year ended June 30, 2024. The District's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended June 30, 2024.

***Basis for Opinion on Each Major Federal and State Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States (*Government Auditing Standards*); the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principle, and Audit Requirements for Federal Awards* (Uniform Guidance); and the *State Single Audit Guidelines*, issued by the Wisconsin Department of Administration. Our responsibilities under those standards, the Uniform Guidance, and the *State Single Audit Guidelines* are further described in the Auditor's Responsibilities for the Audit of Compliance section of this report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide legal determination of the District's compliance with the compliance requirements referred to above.

### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal and state programs.

### ***Auditor's Responsibilities of the Audit of Compliance***

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines* will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, the Uniform Guidance, and the *State Single Audit Guidelines* we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and the *State Single Audit Guidelines*, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### ***Other Matters***

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the *State Single Audit Guidelines* and which is described in the accompanying schedule of findings and questioned costs as item #2024-002. Our opinion on each major federal and state program is not modified with respect to this matter.

*Government Auditing Standards* requires the auditor to perform limited procedures on the District's response to the noncompliance finding identified in our audit described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### **Report on Internal Control Over Compliance**

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that have not been identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of testing based on requirements of the Uniform Guidance and the *State Single Audit Guidelines*. Accordingly, this report is not suitable for any other purpose.

**NOTES TO SCHEDULES OF EXPENDITURES OF FEDERAL AND STATE AWARDS**  
**For the Year Ended June 30, 2024**

---

**Note 1            Reporting Entity**

The accompanying schedules of expenditures of Federal and State Awards include the federal and state grant activity of the New Glarus School District.

**Note 2            Basis of Presentation**

The accounting records for the grant programs are maintained on the modified accrual basis of accounting. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in preparation of the financial statements.

**Note 3            Food Distribution**

Nonmonetary assistance is reported in the schedule at the fair value of the commodities received and disbursed (\$60,982).

**Note 4            Medical Assistance**

Expenditures presented for the Medicaid SBS Benefit represent only the federal funds for the program that the District receives from DHS. District records should be consulted to determine the total amount expended for this program.

**Note 5            Subrecipients**

No amounts were passed through to subrecipients.

**Note 6            De Minimis Cost Rate**

The District does not use an indirect cost rate.

**Section II – Financial Statement Findings**

Finding #2024-001 – Segregation of Duties

**Cause:** The District has determined that hiring additional staff to perform separate accounting duties would be too costly.

**Criteria:** Good internal control necessitates a separation of duties regarding the handling and recording of cash receipts and cash disbursements.

**Condition:** The responsibility for the District's bookkeeping and accounting functions is assumed by a limited number of individuals.

**Effect:** Because of the lack of segregation of duties, individuals could mishandle receipts and disbursements.

**Recommendation:** The District should be aware of the need for separation of duties and provide for as much separation of duties as is feasible in the circumstances.

**District's Response:** Management of the District is aware of this deficiency and will continue to look for opportunities to strengthen this area. Segregation of duties is enhanced whenever possible and the Board of Education and management assumes an active role through monthly review of receipts and disbursements and monthly financial reports. In addition, the Board and management will continue to rely on its direct knowledge of daily operations and direct contact with employees to better control and safeguard assets.

**Section III – Federal and State Awards Findings and Questioned Costs**

Finding #2024-002 – Lack of Supporting Documentation Related to Common School Fund School Census Reporting

**Section III – Federal and State Awards Findings and Questioned Costs (Continued)**

Finding #2024-002 – Lack of Supporting Documentation Related to Common School Fund School Census Reporting (Continued)

**Cause:** Due to turnover at the District, supporting documentation to substantiate the school census data reported to the Wisconsin Department of Instruction could not be identified.

**Criteria:** Under the program, common school fund distributions are made on a per capita basis according to the school census.

**Condition:** The District did not have the appropriate supporting documentation for the census data that was reported to and certified with the Wisconsin Department of Instruction.

**Effect:** By not having supporting documentation for the exact amount reported, the District could have been under- or over-allocated program funds.

**Recommendation:** The auditors recommend that the District compile and keep sufficient records while completing the certification going forward.

**District’s Response:** We (the District) will report the census data to the Wisconsin Department of Instruction with accurate balances and keep records to substantiate the amount reported.
