- ☐ If necessary, take formal action and vote in open session

Reference/Background Information

Before the Meeting

- Confirm whether the planned subject matter is eligible for a closed session under Nebraska law. (e.g., superintendent or board president consultation with legal counsel).
- Prepare a brief summary of the topic to be cited in the motion.

Identify Lawful Purpose(s) for Closed Session

- Under the Nebraska Open Meetings Act, a public body (such as a school board) may convene in closed (executive) session only for specific, lawful purposes. Closed/Executive Session must be clearly necessary to ensure:
 - protection of the public interest; or
 - prevention of needless injury to the reputation of an individual and if such an individual has not requested a public meeting.
- Common reasons include:
 - Strategy sessions with respect to litigation, real estate purchases, pending or imminent.
 - Discussion regarding collective bargaining negotiations.
 - Discussion regarding the evaluation or job performance of a staff member (like the Board evaluation of the Superintendent), or for the prevention of needless injury to an individual's reputation (if that individual has not requested an open meeting).
 - Discussion concerning security personnel or devices.

Make a Proper Motion in Open Session

- Before moving into a closed session, a board member must make a motion in open session. The motion should include:
 - Specific Subject Matter – A brief description of the topic to be discussed (e.g., “to discuss litigation strategy regarding the [XYZ] lawsuit,” “to discuss negotiations with the local teachers’ association,” etc.) and
 - Stated Purpose – A statement of which section of the Nebraska Open Meetings Act applies (e.g., “to prevent needless injury to the reputation of a staff member” if evaluating job performance).
 - Example: “I move to go into closed session to discuss negotiations (subject matter) for the protection of the public's interest (reason necessitating the closed session).” “I move to go into closed session to discuss a performance evaluation to protect the reputation of an individual and that individual has been notified and has not requested a public meeting.”

Vote on the Motion (In Open Session)

- Once the motion is made, the board president (or presiding officer) must call for a vote in open session.
- A majority of board members present must vote in favor of the motion for the board to legally enter closed session.

- The vote must be recorded in the meeting minutes.
- If the motion to close passes, the presiding officer shall restate for the record the limitation of the subject matter of the closed session immediately and prior to moving into closed session.
- Make a note of the time the board entered closed session (Board meeting minutes must include the entire motion, the vote of each member, time in which the closed session started and ended.)

Conduct the Closed Session Properly

- Board Members will close/lock any laptops and will leave their cell phones and any other media or recording devices at South Campus.
- The Board will move to another location to conduct closed sessions (typically the school library in the elementary school).
- Admit Only Necessary Individuals: During the closed session, typically, the board members, required staff (e.g., superintendent, board secretary), legal counsel, or others with relevant input may remain present. Anyone not necessary for the closed-session discussion is welcome to remain at South Campus until the board returns to open session.
- Discuss Only the Announced Topic: The board must limit the discussion strictly to the purpose(s) identified in the motion. Venturing into unrelated topics violates the Open Meetings Act.
- No Formal Action: The board cannot take final action (e.g., vote to approve a policy) during the closed session. Any vote or final decision must be conducted in open session.
- If, during the closed session, a member believes the discussion has strayed away from the reason or motion for the closed session, the board member may challenge the continuation of the closed session. If the board member believes the discussion is inappropriate, next steps:
 - If a challenge is made, the board will return to open session, note the time, and vote in public.
 - If a majority of the board members vote against the challenge to terminate [i.e., motion failed], the board will return to the closed session referencing the original motion to enter closed session, note the time, and continue.
 - If the challenge is made, it shall be reflected in the minutes, and it will list how each member voted.
 - If a challenge is made by a member and the board votes against it, the member making the motion should consider leaving the meeting if he/she believes the board is discussing material that is not relevant to the reason for the closed session. The board member may also return to the closed session.

Return to Open Session and Record in Minutes

- When the board finishes its closed-session discussion:
 - Reconvene in Open Session: The board president (or presiding officer) announces the end of the closed session, restates the limitations of the closed session, and reconvenes the open meeting.
 - Record the Time: The start and end times of the closed session must be noted in the minutes.

Document Compliance:

- The minutes should reflect:
 - The motion to go into closed session, including who made and seconded it.
 - The vote (roll call or otherwise) on the motion.
 - The statutory reason for the closed session.
 - The start time of the closed session and the end time when the board returned to open session.

Formal Action:

- If any formal action (e.g., a decision or vote) results from the closed-session discussion, that action must be taken in the open session so that it is publicly recorded.

504.19 - STUDENT FEES

The board realizes some activities may require additional expenditures which are properly to be borne by students as a separate charge. Such charges may be waived as specified below depending upon the student's eligibility for the free and reduced-price lunch program. No fees, specialized or nonspecialized attire or equipment shall be required of students outside this policy. This policy does not apply to tuition payments by nonresident students.

For the purposes of this policy, the following definitions shall apply:

1. Extracurricular activities means student activities or organizations which are supervised or administered by the school district, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the school district;
2. Postsecondary education costs means tuition and other fees associated with obtaining credit from a postsecondary educational institution.

The district may charge student fees or require students to provide specialized equipment or attire in the following areas:

1. Participation in extracurricular activities, including extracurricular music courses;
2. Admission fees and transportation charges for spectators attending extracurricular activities;
3. Postsecondary education costs, limited to tuition and fees associated with obtaining credits from the postsecondary institution;
4. Transportation fees for option students not qualifying for free lunches and nonresident students as allowed by state statute;
5. Copies of student files or records as allowed by state statute;
6. Reimbursement to the district for property lost or damaged by the student;
7. Before-and-after-school or prekindergarten services in accordance with state statute;
8. Summer school or night school; and
9. Breakfast and lunch programs.

The district may also require students to furnish musical instruments for participation in optional music courses that are not extracurricular activities. Students qualifying for free or reduced-price lunches shall be provided with a musical instrument of the school's choice.

Waivers for any of the following shall be provided for students who qualify for free or reduced-price lunches:

- Fees and specialized equipment and specialized attire required for participation in extracurricular activities;
- Admission fees for onsite district-sponsored extracurricular activities, excluding Western Trails Conference activities and Nebraska State Activities Association activities
- District transportation charges for spectators attending offsite extracurricular activities;

- Materials required for course projects where the project becomes the property of the student upon completion.

The superintendent shall establish a Student Fee Fund and ensure that funds collected as fees for the following purposes are properly recorded and deposited to it:

- Participation in extracurricular activities;
- Postsecondary education costs; and
- Summer school or night school.

The superintendent shall distribute regulations outlining the purposes for which fees in these three areas are collected and shall ensure such fees are spent for those purposes.

The superintendent shall distribute regulations to be published annually in the student handbook authorizing and governing:

1. Any nonspecialized clothing required for specified courses and activities;
2. Any personal or consumable items a student will be required to furnish for specified activities; and
3. Any specialized equipment or specialized attire which a student will be required to provide for any extracurricular activity, including extracurricular music courses.

The superintendent shall also distribute any regulations authorizing and governing the following areas:

1. All fees to be collected within the nine numbered areas of the third paragraph of this policy;
2. Any other types of specialized equipment or attire to be provided by all students in the nine numbered areas of the third paragraph of this policy;
3. Procedures and forms for students or parent/guardians to apply for waivers under this policy;
4. Deadlines for waivers for all types of fees;
5. Procedures for allowing facilities use for NSAA District events to avoid conflict with this policy;
6. Procedures to avoid the direct handling of fees for students receiving postsecondary education credits;
7. Procedures for handling of fees related to summer school or night school; and
8. Attendance requirements and procedures in connection with evening, weekend or summer use of facilities related to all extracurricular activities to avoid conflict with this policy.

The maximum dollar amount of each fee must be specified as part of this policy.

Public concerns or complaints regarding required fees, attire or equipment shall be addressed under Policy 1005.01, Public Complaints.

This policy will be reviewed and re-adopted annually by August 1 at a regular or special meeting of the board. This shall include a review of the amount of money collected under this policy and the use of waivers as provided by this policy. The policy shall be published in the student handbook provided at no cost to each household.

504.20 - BULLYING PREVENTION

The board recognizes the negative impact that bullying has on student health, welfare, safety, and the school's learning environment and prohibits such behavior. Bullying is defined as any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, at a designated school bus stop, or at school-sponsored activities or school-sponsored athletic events.

Bullying may constitute grounds for detention, suspension, expulsion or mandatory reassignment, subject to state and federal statutes and the district's student discipline and due process procedures.

Every report of alleged bullying that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing bullying investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged bullying.

It shall be the responsibility of the superintendent to implement appropriate programs or procedures for the purpose of educating students regarding bullying prevention.

This policy shall be reviewed annually.

1005.02 - PARENT RELATIONS GOALS

It is the general goal of the district to foster relationships with parents which encourage cooperation between the home and school in establishing and achieving common educational goals for students. The board believes parents should be active participants in education by demonstrating interest in and support for their school and the district, by becoming informed about their role as partners in education, and by becoming involved in the education of their children.

While parents are individually responsible for their children, the district provides direct services of education and indirect services of child care for students during the time when they are within the supervision of school personnel. Consistent with these shared responsibilities and as appropriate to the maturity of the student, members of the school staff will consult with parents regarding student progress and achievement, methods to enhance student development, and matters of correction.

Additionally, parental involvement in the schools is encouraged through regular communication with the school principal and staff, the parent/teacher organizations, the school volunteer program, and other opportunities for participation in school activities and district programs. It is assumed that the relationship described in the general goal is fostered if the district will:

- consult with and encourage parents to share in school planning, in setting objectives, and evaluating programs;
- help parents understand the education process and their role in promoting this process;
- provide for parent understanding of school operations;
- provide opportunities for parents to be informed of their child's development and the criteria for its measurement; and
- help parents improve in their role as parents.

1005.021 - PARENTAL/COMMUNITY INVOLVEMENT IN SCHOOLS

Hemingford Public Schools, after having conducted a public hearing concerning parental involvement and participation, declares that it shall be the policy of the District:

In the event any parent, guardian, or educational decisionmaker of a student has a complaint or objection to textbooks, tests, curriculum materials, activities, digital materials, websites or applications used for learning, training materials for teachers, administrators, or staff, and any other instructional materials, the parent, guardian, or educational decisionmaker may request a personal conference with appropriate school personnel to discuss such concerns. The Superintendent or designee shall prepare a complaint form which may be used by a parent, guardian, or educational decisionmaker to express objections to any such instructional material. Such complaint forms shall seek information including, but not limited to, the specific instructional material complained of, the reason for the complaint, and a proposed resolution of the complaint by the parent, guardian, or educational decisionmaker.

Upon reasonable advance request, a parent, guardian, or educational decisionmaker will be permitted to attend and monitor courses, assemblies, counseling sessions, and other instructional activities unless the school determines that such attendance would substantially interfere with a legitimate school interest, which includes the interests of the child, other students, and the educational staff.

Parents, guardians, and educational decisionmakers are encouraged to communicate to school staff when the parent, guardian, or educational decisionmaker believes it to be appropriate for their child to be excused from testing, classroom instruction, learning materials, activities, guest speaker events, and other school experiences that the parent, guardian, or educational decisionmaker finds objectionable. The Superintendent or designee shall make a provision on the complaint form hereinabove referenced for receiving information from a parent, guardian, or educational decisionmaker concerning what specific testing, classroom instruction, or other school experience the parent finds objectionable, the basis for the objection, and a proposed solution for dealing with the objection that would be satisfactory to the parent, guardian, or educational decisionmaker and consistent with the mission of the District and legitimate school interests. Parents, guardians, and educational decisionmakers are encouraged to contact the building principal with any questions about any test, curriculum, or surveys.

Upon request of a parent, guardian, or educational decisionmaker the District will provide access to the education records of their child consistent with applicable law. Access will be provided during regular business hours of the school.

The District will notify parents, guardians, and educational decisionmakers when their child may be subjected to a standard norm referenced or criterion referenced test or standardized tests. When reasonable to do so or required by law, the parents, guardians, or educational decisionmakers will be notified of where a sample of such test might be observed and the date

upon which such test will be administered. As to all testing by the District, experimental evaluation methodologies, experimental testing instruments and any testing instrument which would tend to inquire into the values, beliefs, or privacy rights of any student, or parent, guardian, or educational decisionmaker of such student shall be prohibited unless a parent, guardian, or educational decisionmaker requests in writing that such tests be administered to their child.

Parents, guardians, and educational decisionmakers will be notified in advance of any school-sponsored survey administered to students of the District when the survey concerns one or more of the following areas:

Political affiliations or beliefs of the student or the student's parent, guardian, or educational decisionmaker;
Mental or psychological problems of the student or the student's family;
Sex behavior or attitudes;
Illegal, anti-social, self-incriminating, or demeaning behavior;
Critical appraisals of other individuals with whom respondents have close family relationships;
Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
Religious practices, affiliations, or beliefs of the student or student's parent, guardian, or educational decisionmaker; or
Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

Any survey administered by the District that asks a student to disclose any of the aforementioned topics, including any non-anonymous survey requesting a student provide information relating to drug, vape, alcohol, or tobacco use, then the District will, at least fifteen days prior to the administration of the survey, notify parents, guardians, and educational decisionmakers that their students will receive the survey. This notice must describe the nature and types of questions included in the survey, the purposes and age-appropriateness of the survey, how information collected by the survey will be used, who will have access to such information, the steps that will be taken to protect student privacy, and whether and how any findings or results of such survey will be disclosed. After receiving such notice, parents, guardians, and educational decisionmakers may request a copy of the survey, review the survey, and/or exempt their student from participating in the survey.

No survey requesting sexual information of a student shall be administered to any student in kindergarten through grade six.

No personally identifiable information of any student survey shall be disclosed unless permitted or required by state and federal law.

As a general matter substantive decision-making processes will be left to the judgment of the professional staff, administration and the Board of Education, subject to an effort to receive

information from parents, guardians, or educational decisionmakers as to any concerns, objections, or other information such parents, guardians, or educational decisionmakers would wish to provide to the school district concerning a parent's, guardian's, or educational decisionmaker's access, involvement, and participation in activities of the school.

1005.03 - DISTRICT AND SCHOOL (COMBINED) TITLE I PARENT AND FAMILY ENGAGEMENT POLICY

Hemingford Public Schools intends to follow the Title I Parent and Family Engagement Policy guidelines in accordance with federal law, Section 1116(a -f) ESSA, (Every Student Succeeds Act) of 2015.

In General

The written District parent and family engagement policy has been developed jointly with, updated periodically and distributed to parents and family members of participating children and the local community in an understandable and uniform format. This policy agreed on by such parents describes the means for carrying out the requirements as listed below.

- Parents and family members of all students are welcomed and encouraged to become involved with their child's school and education; this includes parents and family members that have limited English proficiency, limited literacy, are economically disadvantaged, have disabilities, racial or ethnic minority background or are migratory children. Information related to school and parent programs, meetings, school reports and other activities are sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand.
 - Hemingford Open House/Back to School Night
 - 7th grade and New Student orientation
 - Annual Title I Parent Meeting
 - Parent-Teacher Conferences
- Parents are involved in the planning, review, evaluation, and improvement of the Title I program, Parent and Family Engagement Policy and the School-Parent Compact at an annual parent meeting scheduled at a convenient time. This would include the planning and implementation of effective parent and family involvement activities.
- Conduct, with meaningful parent and family involvement, an annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy. Use the evaluation findings to design evidence-based strategies for more effective parental involvement, and to revise the Parent and Family Engagement Policy.
- Opportunities are provided for parents and family members to participate in decisions related to the education of their child/children. The school and local educational agency shall provide other reasonable support for parental involvement activities.
 - Parent and Community Surveys
 - Annual Title I parent meeting
 - Development of the School Improvement Plan

- School Advisory Meetings
- Parents of participating children will be provided timely information about programs under this part, a description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards. The school will provide assistance, opportunities, and/or materials and training to help parents work with their children to improve their children's academic achievement in a format, and when feasible, in a language the parents and family members can understand.
- Student handbook
- Parent-Teacher Conferences
- Standardized Tests results
- Progress reports & report cards
- Educate teachers, specialized instructional support personnel, principals, and other school leaders, with the assistance of parents, in the value and utility of contributions of parents, how to reach out to, communicate with and work with parents as equal partners.
- Coordinate and integrate parental involvement programs and activities with other Federal, State and Local programs, including preschool programs that encourage and support parents in more fully participating in the education of their children.

Proposed 611.05R1 GRADING PRACTICES GUIDELINES

Purposes and Roles of Grades

Grades serve as indicators of students' mastery of learning targets. They reflect students' ability to reason, problem-solve, demonstrate performance skills, and integrate content knowledge and product development. The primary purpose of grades is to assess student learning in a manner that is closely tied to clear and concise learning targets. These targets enable students to easily track their progress and self-assess their growth.

Weighting of Assessments and Daily Work: Emphasis on Learning Targets

When determining the weight of daily work and assessments, the focus should remain on learning targets and specific skills. A major emphasis must be placed on understanding content knowledge and mastering skills. Assessments and quizzes within the classroom directly reflect mastery of learning targets and should contribute the most to the overall grade. While daily work plays a crucial role in practice and reinforcement, it should contribute to the overall grade without becoming the major component. The final grades should accurately represent students' ability to showcase mastery of learning targets.

Frequency and Timeliness of Grades and Assessments

Grades should align with learning targets and the progressive practices that aid the development of target mastery. Assigning grades is appropriate whenever students demonstrate content knowledge, apply reasoning, solve problems, display performance skills, or create products. Grading must offer timely feedback, allowing students ample time to seek assistance before formal assessments on learning targets occur. The frequency of grading varies by content but should document growth and progress toward benchmarks that scaffold the learning targets. While the frequency of grades in each category may change, these grading categories apply consistently across all classes.

Managing Due Dates, Late Work, and Absence-related Submissions

Due dates will be assigned for assignments. A placeholder "0" with "missing" or "absent" will be entered into the grade book until the missing work is completed or turned in, as long as it is done before the quarter's end.

In cases of student absences, a 2-day window will be provided to make up missed work before a "0" and "missing" is recorded. Once the work is submitted, a grade will be entered, given that it's completed before the quarter concludes.

Late assignments may incur an academic penalty of up to a 30% reduction in percentage/points, based on educator discretion and frequency of student submission of late assignments. Late assignments may also result in students losing privileges or free time. Teachers and students share the responsibility to collaborate during designated support times or outside of class to complete assignments. Teachers will actively assist students in finishing late or missing work.

Should a student refuse to cooperate or maintain consistently low performance, the teacher will engage guardians to formulate a support plan.

Redos and Retesting

All assessments should align with standards and learning targets, measuring student mastery of specific skills. Teachers will collaborate with students to identify areas of deficiency, providing opportunities for relearning prior to retesting.

Customized retests and revisions will be offered to students after relearning has taken place, allowing additional chances to demonstrate mastery.

Retesting opportunities can be scheduled during regular class hours or outside of class, depending on the agreement between the teacher and student.

The highest mastery level achieved will be recorded in the gradebook. The initial grade may be omitted or noted in the test section.

Teachers will promptly contact parents when students consistently face challenges in their studies.

Mastery Learning and Alignment to Standards

Grades should exclusively reflect mastery of skills, standards, and learning targets, not attitude, effort, behavior, or attendance, which may be considered under a separate 'Behavior' Grade that is not factored into the report card or GPA.

Assessments and assignments gauge student mastery of skills, not mere compliance. Regularly, students will receive clear explanations of learning targets, course standards, and objectives.

Summative Assessments and assignments are designed to evaluate student mastery of communicated learning targets that align with course standards.

Formative assessments, closely tied to the skills being taught, will occur frequently with a clear purpose.

Struggling students will have opportunities for growth through reassessment and individualized instructional time provided by support systems.

Open communication on assessments and assignments between teachers and parents will establish a strong partnership to ensure student success.

Role and Purpose of Homework

When assigned, homework should align with course standards, reinforcing skills learned in class. Its purpose is to practice skills and knowledge directly related to classroom content.

Homework offers valuable feedback to students prior to summative assessments. Homework assignments should be introduced during class, with the majority being achievable during class time or within a reasonable duration. Formative assessments and observations help identify students needing assistance with homework completion.

Teachers will provide additional learning opportunities and support to students who require assistance with homework assignments.

Homework should be limited to items that reinforce the skills and standards taught in the lesson. Homework should not become a mechanism for assigning extra work without a meaningful purpose and connection to learning targets.

611.06 - HONORS RECOGNIZED AT HIGH SCHOOL GRADUATION AND GRADE POINT AVERAGE

The official grade point average (GPA) of graduating students is based on all high school credit hours in order to allow students sufficient opportunity to demonstrate achievement. Temporary GPA's will be sent to colleges and universities who request information for admission.

The official GPA will be furnished to post-secondary institutions upon request.

Hemingford High School will use the cum laude system to recognize academic excellence at graduation with the following GPA standards for levels of achievement and recognition.

97% and above = Summa Cum Laude (gold medallion)

95-96.99% = Magna Cum Laude (silver medallion)

93-94.99% = Cum Laude (bronze medallion)

Beginning with the 2027 graduating class, valedictorian and salutatorian will no longer be determined or recognized.

Students may wear honor cords and other regalia as approved by the high school principal. As a general guideline, honor cords will only be recognized when associated with school-sponsored programs. Medals will be reserved for academic achievements. Stoles will be reserved for nationally recognized honors programs.

The following procedures will also remain in effect until after the commencement of the class of 2026, at which time they will be eliminated:

The district will name a Valedictorian (Rank 1st in class) and Salutatorian (Rank 2nd in class) based solely upon class rank. Students must have attended Hemingford Schools for a minimum of 3 consecutive semesters to be eligible. If there is a tie in GPA for 1st or 2nd ranking, then students tied will be honored.

505.03 - STUDENT DISCIPLINE

Student Discipline

A. Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent contacts and parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

1. Short-Term Suspension: Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

- a. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
- b. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

- a. The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- b. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- c. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.

- d. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference. The Principal shall document their attempt to make a reasonable effort to hold a conference with the parent or guardian.
- e. A student who is on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.

2. Long-Term Suspension: A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than twenty school days. A student who is on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.

3. Expulsion:

a. Meaning of Expulsion. Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.

b. Suspensions Pending Hearing. When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to,

examinations, missed during the period of suspension. During this period, the student will not be required to attend the alternative programs for expelled students in order to complete classwork or homework.

c. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.

d. Alternative Education: Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.

e. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., “stayed”) for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.

f. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal’s designee shall meet with the student’s probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal’s designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

g. Returning from Expulsion. At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the

student during the term of expulsion from any Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.

h. Exception for Pre-Kindergarten through Second Grade Students.

Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this Policy's disciplinary procedures.

i. Religious Freedom. The District will not substantially burden a student's right to religious exercise unless the student's religious exercise is disruptive to the school environment, not permitted by staff, may pose a safety risk, or would otherwise interfere with the school day.

4. Emergency Exclusion: A student may be excluded from school in the following circumstances:

- a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
- b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above.

If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or his or her designee determines that an emergency exclusion shall extend beyond five days, a hearing is to be held and a final determination made within ten school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

5. Other Forms of Student Discipline: Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but are not limited to, counseling of

students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

B. Student Conduct Expectations. Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.

C. Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment. The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment where it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.

7. Public indecency as defined in section 28-806, except that this prohibition shall apply only to students at least twelve years of age but less than nineteen years of age or sexual conduct. 16. A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:
- a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
 - b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.
17. Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18

U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
- b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
- c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

For purposes of this policy, the term "dangerous weapon" includes any personal safety or security device (such as tasers, mace and pepper spray). If a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the student's locker, in the main office or in another secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

D. Additional Student Conduct Expectations and Grounds for Discipline. The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

1. Student Appearance: Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that ~~is dangerous to the health and safety of anyone or is reasonably forecasted to interfere~~ with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be

considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- a. Clothing or jewelry that is gang-related
- b. Clothing that shows an inappropriate amount of bare skin or underwear (~~midriffs, spaghetti straps, sagging pants~~) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- c. Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- d. Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g. cleats).
- e. Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (none prescription) may be allowed under circumstances where a medical condition is present with approval of the building principal
- f. Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- g. Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- ~~h. Visible body piercing (other than ears)~~
- i. Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- j. Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- k. Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

Students wearing inappropriate clothing will be required to change. Time missed from school or class will consequently be required to be made up two-fold. Additional violations will result in further disciplinary action. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in discipline, up to expulsion.

~~Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.~~

~~Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.~~

~~On a first offense of the dress code, the student may call home for proper apparel. If clothes cannot be brought to school, the student will be assigned to in-school suspension for the remainder of the day. Students will not be allowed to leave campus to change clothes. Continual violations of the dress code will result in more stringent disciplinary actions, up to expulsion. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in more stringent discipline, up to expulsion.~~

2. Academic Integrity.

a. Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

b. Definitions: The following definitions provide a guide to the standards of academic integrity:

(1) "Cheating" means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:

(a) Tests (includes tests, quizzes and other examinations or academic performances):

(i) Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

(ii) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material or AI (artificial intelligence) systems, devices, or information while taking a test except as expressly permitted.

For example, except for "open book" tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.

(iii) Use of Other Student Answers: Copying or looking at another student's answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student's paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student's answers on the test paper.

(iv) Use of Other Student to Take Test. Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.

(v) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student's real reason for missing class was because the student was not prepared for the test.

(b) Papers (includes papers, essays, lab projects, and other similar academic work):
i) Use of Another's Paper: Copying another student's paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.

(ii) Re-use of One's Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.

(iii) Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's. Likewise, using material generated through an AI (artificial intelligence) system and submitting it as original work is considered cheating.

(iv) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.

(v) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.

(c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.

(2) "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:

(a) Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.

(b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.

(3) "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.

c. Sanctions: The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:

(1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.

(2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.

(3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

3. Electronic Devices

a. Philosophy and Purpose. The District strongly discourages students from bringing and/or using electronic devices at school. The use of electronic devices can be disruptive to the educational process and are items that are frequently lost or stolen. In order to maintain a secure and orderly learning environment, and to promote respect and courtesy regarding the use of electronic devices, the District hereby establishes the following rules and regulations governing student use of electronic devices, and procedures to address student misuse of electronic devices.

b. Definitions.

(1) "Electronic devices" include, but are not limited to, cell phones, Mp3 players, iPods, personal digital assistants (PDAs), compact disc players, portable game

consoles, cameras, digital scanners, lap top computers, and other electronic or battery powered instruments which transmit voice, text, or data from one person to another.

(2) "Sexting" means generating, sending or receiving, encouraging others to send or receive, or showing others, through an electronic device, a text message, photograph, video or other medium that:

(i) Displays sexual content, including erotic nudity, any display of genitalia, unclothed female breasts, or unclothed buttocks, or any sexually explicit conduct as defined at Neb. Rev. Stat. § 28-1463.02; or

(ii) Sexually exploits a person, whether or not such person has given consent to creation or distribution of the message, photograph or video by permitting, allowing, encouraging, disseminating, distributing, or forcing such student or other person to engage in sexually explicit, obscene or pornographic photography, films, or depictions; or,

(iii) Displays a sexually explicit message for sexual gratification, flirtation or provocation, or to request or arrange a sexual encounter.

c. Possession and Use of Electronic Devices.

(1) Students are not permitted to possess or use any electronic devices during class time or during passing time except as otherwise provided by this policy. Cell phone usage is strictly prohibited during any class period; including voice usage, digital imaging, or text messaging.

(2) Students are permitted to possess and use electronic devices before school hours, at lunch time, and after school hours, provided that the student not commit any abusive use of the device (see paragraph (d)(1)). Administrators have the discretion to prohibit student possession or use of electronic devices on school grounds during these times in the event the administration determines such further restrictions are appropriate; an announcement will be given in the event of such a change in permitted use.

(3) Electronic devices may be used during class time when specifically approved by the teacher or a school administrator in conjunction with appropriate and authorized class or school activities or events (i.e., student use of a camera during a photography class; student use of a lap top computer for a class presentation).

(4) Students may use electronic devices during class time when authorized pursuant to an Individual Education Plan (IEP), a Section 504 Accommodation Plan, or a Health Care Plan, or pursuant to a plan developed with the student's parent when the student has a compelling need to have the device (e.g., a student whose parent is in the hospital could be allowed limited use of the cell phone for family contacts, so the family can give the student updates on the parent's condition).

d. Violations

(1) Prohibited Use of Electronic Devices: Students shall not use electronic devices for: (a) activities which disrupt the educational environment; (b) illegal activities in violation of state or federal laws or regulations; (c) unethical activities,

such as cheating on assignments or tests; (d) immoral or pornographic activities; (e) activities in violation of Board or school policies and procedures relating to student conduct and harassment; (f) recording others (photographs, videotaping, sound recording, etc.) or otherwise transmitting images and/or sounds of another person or persons without direct administrative approval and consent of the person(s) being recorded, other than recording of persons participating in school activities that are open to the public; (g) "sexting;" or (h) activities which invade the privacy of others. Such student misuses will be dealt with as serious school violations, and immediate and appropriate disciplinary action will be imposed, including, but not limited to, suspension and expulsion from school.

(2) Disposition of Confiscated Electronic Devices: Electronic devices possessed or used in violation of this policy may be confiscated by school personnel and returned to the student or parent/guardian at an appropriate time. If an electronic device is confiscated, the electronic device shall be taken to the school's main office to be identified, placed in a secure area, and returned to the student and/or the student's parent/guardian in a consistent and orderly way.

(i) First Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student personally comes to the school's main office and retrieves the electronic device.

(ii) Second Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and his/her parent/guardian and the school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(iii) Third Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration, a conference between the student and his/her parent/guardian and the school principal or assistant principal, and suspension of the student from school. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(3) Penalties for Prohibited Use of Electronic Devices: Students who receive a "sexting" message are to report the matter to a school administrator and then delete such message from their electronic device. Students shall not participate in sexting or have any "sexting" message on their electronic devices regardless of when the message was received while on school grounds or at a school activity. Students who

violate the prohibitions of this policy shall be subject to the imposition of appropriate disciplinary action, up to and including expulsion, provided that at a minimum the following penalties shall be imposed:

- (i) Students found in possession of a “sexting” message shall be subject to a one (1) day suspension from school.
- (ii) Students who send or encourage another to send a “sexting” message shall be subject to a five (5) day suspension from school.

(4) Reporting to Law Enforcement: Violations of this policy regarding the prohibited use of electronic devices that may constitute a violation of federal or state laws and regulations, including, but not limited to, the Nebraska Child Protection Act or the Nebraska Child Pornography Prevention Act shall be reported to appropriate legal authorities and law enforcement.

e. Responsibility for Electronic Devices. Students or their parents/guardians are expected to claim a confiscated electronic device within ten (10) days of the date it was relinquished. The school shall not be responsible, financially or otherwise, for any unclaimed electronic devices. By bringing such devices to school, students and parents authorize the school to dispose of unclaimed devices at the end of each semester. The District is not responsible for the security and safekeeping of students’ electronic devices and is not financially responsible for any damage, destruction, or loss of electronic devices.

E. Inappropriate Public Displays of Affection (IPDA): Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. Students will face the following consequences for IPDA:

- 1. 1st Offense: Student will be confronted and directed to cease.
- 2. 2nd Offense: Student will be confronted, directed to cease, and parents will be notified.
- 3. 3rd Offense: Student will be suspended from school for a minimum of 1 day, and parents and student will need to meet with Administrator(s) and/or counselor.

If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face long-term suspension or expulsion.

F. Specific Rule Items: The following conduct may result in disciplinary action which, in the repeated violations, may result in discipline up to expulsion:

- 1. Students in the hallway during class time must have a pass with them, and may not leave class without permission.
- 2. Students are expected to follow other classroom rules as set by individual teachers.
- 3. Lunch is to be eaten in the cafeteria/Red Zone or off campus during open campus lunchtime unless special permission is granted.
- 4. Students are expected to bring all books and necessary materials to class.

5. Assignments for all classes are due as assigned by the teacher.
6. Special classes such as Art, P.E., and computer courses will have other safety or clean-up rules that will be explained to you by that teacher which must be followed.
7. Classes are ended by the teacher. Students are not to begin to pack up or leave the class until the dismissal bell has rung or the teacher has dismissed the class.
8. Students are to be in their seats and ready for class on the tardy bell.
9. Students are not to bring "nuisance items" to school. A nuisance item is something that is not required for educational purposes and which would cause a distraction to the student or others.
10. Snow handling is prohibited.
11. Sunflower seeds, etc. are not allowed in the school building or classrooms.
12. Students are not to be in the school facilities without supervision.
13. Lying or otherwise deceiving staff or administration.
14. Willfully disobeying any reasonable written or oral request of a school staff member or voicing of disrespect to those in authority.

G. Law Violations

1. Any act of a student which is a basis for expulsion and which the principal or designee knows or suspects is a violation of the Nebraska Criminal Code will be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student's maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student's parent of the fact that the referral to legal authorities has been or will be made.

The foregoing reporting standards shall be reviewed annually by the school board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his or her parent or guardian at the beginning of each school year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.

2. When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

The following prompt was utilised to solicit additional open-ended feedback:

After reviewing the statute, please share your perceptions regarding the legislative prohibition on the use of cell phones by students in schools in the space below:

Parents

- I feel more at ease when my child has his/Her cell phone in school. We live in different times and school sittings, intruders, etc. will always cause me to worry about where specifically in the school my child is and if I can communicate with him/her at a moment's notice.
- School is for learning. Cell phones are distracting
- I have read the book, "The Anxious Generation" by Jonathon Haidt. There's not a single compelling reason to allow students to have cell phones in school.
- While I don't agree with use of cell phone during class. I think having a cell phone on the student for emergencies should be considered.
- I understand limiting usage, but there should be regulated exceptions, not a full elimination of rights.
- I do like being able to know I can send a quick text to my kiddo and being able to locate her throughout the day when on field trips. She keeps her watch on school

mode. So she won't get anything until after school lets out. I am completely fine with calling the school if I need to get in contact with my daughter during the day.

- "Cell phones and connected smart watches should not be permitted. There is no need for teachers to be saddled with students that cannot pay attention in class. Another factor is the digital bullying, which as we all are fully aware, is a major issue with devices. Another stance is that photos could be taken of others in bathrooms or locker rooms, which then is a criminal offense.
- I stand fully behind the statute and Hemingford should stay grounded to their roots of providing a quality education, along with stronger mental support for their students."
- Phones can provide a life line to students who are neurodivergent. Auditory input and verbal expression are very difficult for these kids when they are overstimulated and are not able to utilize their prefrontal cortex. Cell phones are able to provide the visuals needed in order to help decrease adverse behaviors. I do realize that many students do not use cell phones in this manner but please don't ignore the ones who do.
- I support students not using their phone during school. I do not think phones should be taken or stored away from students in case of an emergency.
- It's needed
- The only time I feel that it would be beneficial for a student to have a phone is in a medical emergency or lockdown situation.
- I think it should state "Personal" electronic devices so they can still use school issued tablets. Those tablets will suffice for students to access the internet, a calculator, calendar etc. Good luck with the battle.
- It seems that it just empowers the school board to create policy regarding it.
- "As parents we teach our kids by being an example first and foremost. I think the teachers have just as much of an issue of being on their phones. I have caught multiple teachers, multiple times throughout the day on social media posting or scrolling, or just being on their phones. This in itself is a teaching.
- I also understand the abuse of students and phones. Though in our home we do our part to prohibit as much as possible, we know this is not the case for all families. We have experienced multiple times our girls have not been notified appropriately for pickups or appointments through the school and have been late or actually missed.
- God for bid, I also believe if there is a school shooting I would absolutely NEVER regret my child calling me and hearing them for "the last time" if something tragic would happen. I'm sure you will disagree for the "safety of the kids" on this, but as a parent I don't think you couldn't disagree with this statement either.

- Very minimal places in the “grownup world” will you find no cellphone usage. So let’s “teach” them responsibility of the use of cellphones starting in the classroom.
- We didn’t have them growing up. Period. They are a distraction, cause anxiety, and if a child needs to call their parents they can go to the office like we did.
- Great for mental health.
- I don’t think they need it in classes unless necessary
- I am good with students not being able to use a phone at school for the majority of the day or all of it.
- My kids use theirs only in case of emergencies or if I need to communicate with them fast and easy.
- I do strongly agree with prohibiting cell phone use during school hours. However! There are a few students who depend on their phones for medical reasons (dexcom/diabetes). For those students, I would allow them to have their phones but only have them access it for their medical reasons.
- I feel that the statute is entirely too vague and leaves things entirely too open for misuse. For example, IEP and health issues can be manipulated to a student or parent’s desire. If there is a reasonable, fair, and unmanipulable way to control student cell phone usage, then I support it fully. It has been my experience as a parent that that one day teachers will strictly enforce cell phone rules, another day they will encourage them to use them when they have nothing to teach/have nothing for them to do the rest of the class period. My child has even had to download apps to play games in certain classes or to do certain tasks for assignments. It seems counter productive to go from here, download this app for your graphing calculator in the 2024-25 school year to no cell phone at all in the 2025-26 school year. Would a better alternative be some form of parental supervision app that all school students are required to have in order to have a cell phone at school that only gives them access to school approved apps and their parents during school hours? I hate to be someone who doesn’t offer some sort of a solution along with complaints.
- I believe students should be able to have immediate access to their phones in case of emergencies.
- I think the law is only valid if the board implements policies and rules as such. I think it’s needed as internet crimes are now happening in the schools and won’t stop until something is done.
- The only reason I did not strongly oppose, was because, I do feel they are a distraction in the classroom. They should be silenced and stowed, but still on person should an emergency arise.

- They will get more sneaky with them than they already are. Setting boundaries yes. But kids will find a way. There have been times my daughter was so I'll she couldn't call for help or a teacher from the bathroom and the cellphone helped with those situations. Situations kids feel are embarrassing
- I believe limiting access to cell phones is understandable but do not agree with a full ban. Our family uses a cell enabled Apple Watch to ensure our daughter is where she is supposed to be, but there is limited functionality. I would not appreciate not being able to have that peace of mind.
- I do not like the idea of not being able to communicate with my child throughout the day. The way the world is now and the lack of a resource officer within our school, I feel cell phones should accessible if needed. Sure, make them keep them in their backpacks during class time, but please don't prohibit use altogether.
- No big concerns, i know I can reach my kid by calling the school.
- "I can understand the distractions that cell phones cause. For this reason I can understand limiting cell phone use.
- However I feel that it is violating students rights to take away their way direct communication with their parents or guardians. In this age, there are always concerns about school shootings or other acts of violence/terrorism. I need a way for my children to communicate directly with me. Furthermore, students are using computers everyday in the classroom. Are the schools going to take away those devices? Does it not seem logical that children will find ways to use their school provided devices inappropriately if their phones are gone? A better solution would be for each classroom to have a cell phone box/area that kids have to put their devices in at the beginning of class and check out after class is over. "
- I dont believe there is an issue in our school. My children have there phones to communicate with me. Since we live 20 miles away. There has been many times when there is embarrassing things that my children need and I will deliver without them being eembarrassed I agree they shouldn't be used in class. But the rest should be permitted
- I will support whatever the school decides to do. I think it will be very difficult to enforce, especially the "at a school function" requirement. I believe that means that if the kids are at a District Music contest and waiting around for their small group to play, Mrs. Arneson would have to make sure that no Hemingford students were on their phones, even though she might be supervising a different group at the time. Like I said, I will support you however you decide to implement this difficult prohibition.

Students

- To contact parents to to make plans for anything that is happening that day
- They could have to talk to their parents, and cant go to the office.
- I do believe that having no cellphones in class is beneficial but I think it's safer to let students keep them on hand because if something does happen (not that it would ever happen) students would want to contact their loved ones what's going on.
- "In this day and age, I do not feel safe at when I am at school and if something should happen I would like to have contact with my parents the whole time."
- I don't think that phones should be fully taken away, but instead have restrictions on the phones.
- My only concern is with recent threats against the school and that families are so involved with the school via there kids, the kids are sometime the only one available to help orchestrate things.
- I need my phone because I have to contact people all the time off of there and not talking about snap I'm talking about parents
- I somewhat oppose this because as a student at Hemingford public schools there are days I would forget my Chromebook or Chromebook charger at home, and for myself and a few other students it is not possible to drive home during our lunch breaks to go get it, so a way I do my work when I forget my Chromebook is through google classroom on my phone, therefore prohibiting phone use during school hours could cause a struggle for out of town students who can't go get their chromebooks.
- While prohibiting phones might seem like a easy way to get students to pay more attention in class many students won't care and will just secretly use their phones. Plus it takes away a way for students to easily communicate with their parents because sometimes issues are private and kids might not want the front office knowing what happened. Plus most phones are usually only used for listening to music or texting parents when teachers approve so they aren't you biggest issue.
- Incase of emergency or medical need
- I think it's a pretty good idea
- I think phones can help students with school for a bunch of things when they're chrome book is dead because you can access it on your phones with your school account. Such as email, tci, Google, Google classroom and more.
- How will we contact our parents in emergency if we can not reach the school office and after school hours activities. We also need it for concussion. We also

have to drive and bring having a cellphone for emergency could end peoples lives! Thank you!

- I disagreed because there are many uses of a phone in school
- I think it is important to have our phones in school for safety reasons. School shootings and things like that in our world today are very common. I think it is important that if something like that were to happen we should be able to contact our parents ourselves.
- I am against this because I am a strong music listener. I pay attention to the teachers during lecture time but once we have to do homework, I put my earbuds in and listen to music. This way i can drown out all the conversations and focus on my work. Also when subs are gone we have a good time to work on work and have 10ish minutes left of class of free time. I get my work done and try and get ahead if work so sometimes if there is nothing to do then we can go in our phones. Doing this keeps the students more quiet and not messing around (most of the time). Not all the teachers are easy to talk to and it's easier to tell your parents to call you out then getting a pass to the office to even jsut ask to call your parents. I am also going into my senior year and for some college classes and things, i put my email in as the one in my phone. I have a few college classes too so what would i do during the period for college courses. Overall i am against this and think we should get our phones.
- While cell phones can be distracting we are also young adults now, and we should be able to have the choice to use them. Not only is it a way for our parents to be in contact with us, but it is also a way for coaches to inform us of practice times etc.
- Most phones are used to get ahold of parents in emergency situations.

Teachers

- Cell phones are a huge distraction and addiction amongst our students. I think prohibiting them will be challenging at first, but I truly believe students' academic performance will be enhanced, and there will likely be a positive impact on their mental health as well.
- Requires developing a policy and apply restrictions for cell phone use while in class.
- Cell phones are becoming more and more prevalent in the middle school with sneaking them or being on them. Not so much in the classroom as they are not to be out but they sneak them to lunch and recess. My biggest concern is what is being said on them in regards to bullying other students or being on something

they shouldn't be in school. This ban will help keep out classrooms as a safe space!

- Cell phone usage is an incredible distraction and I agree to no use while in class. It has grossly impacted social communication skills and social interactions in general.
- I'm concerned how we are to go about consistent enforcement of the expectations and what support the lawmakers are going to provide in this requirement.

Support Staff

- They need to use their minds & not Google or some other app on their phones to learn
- Cell phone use by students should not happen during the school day. Students who use phones for medical services should be allowed to use them for that purpose only. Students should have no restrictions at extra curricular activities when after school hours.
- I feel if the staff allows phones in class then, the phones should be allowed. But classroom assignments and instruction should be completed first.

Community Members/Patrons

- Most adults today before cell phones got a long fine with no distractions. School is for learning. You must do your best as your school years frame the rest of your life
- I've always believed that cell phones are a HUGE distraction and should be left in the school office until school is over

604.16 - BEHAVIORAL INTERVENTION AND CLASSROOM MANAGEMENT

1. Purpose

The District is committed to creating a learning environment where every individual is valued, respected, and supported. This Policy emphasizes the shared responsibility of individuals for their actions and their ability to learn, grow, and thrive. This Policy further provides a framework for encouraging positive behavior, addressing challenges in a caring and constructive way, and ensuring safe and supportive school and classroom environments.

2. General Principles

As part of the District's commitment to all students, the Board hereby implements a tiered-system of support to foster a positive school climate and culture, encourage appropriate student behavior, and provide the necessary supports for academic and behavioral success.

This Policy does not replace or alter the Student Discipline Act when behaviors warrant student disciplinary action under the Student Discipline Act.

3. Standards

4. Addressing Dysregulated Behavioral and Classroom Removal

This Policy outlines a structured approach for managing dysregulated behavior that disrupts the learning environment or poses safety concerns. The aim is to ensure the safety and well-being of all students and staff, while supporting the student in developing self-regulation skills and reintegrating into the classroom.

A. Criteria for Removal

- i. Safety Concerns: Immediate removal may occur if a student poses a threat to their own safety, the safety of others, or the environment.
- ii. Disruption to Learning: Removal may be necessary if the student's behavior significantly disrupts instruction or the learning environment.
- iii. Attempted Interventions: Whenever possible, staff should use de-escalation techniques, behavior redirection, or other Tier 1 or Tier 2 interventions before considering removal. Severe behaviors that endanger safety may bypass prior interventions.

B. Procedure for Removal

- i. Behavior Documentation: The teacher or staff member documents the behavior leading to the removal, including antecedents, attempted interventions, and the incident itself. A clear, objective description of the behavior must be included.
- ii. Safe Transition: The student is escorted to a designated safe space, such as the office or a designated calming area, by trained personnel. Efforts are made to ensure the student remains calm and safe during the transition.
- iii. Notification: Parents or guardians are notified as soon as possible about the removal. A detailed account of the behavior and any interventions attempted are shared.

C. Post-Removal Actions

- i. Restorative Meeting: A meeting involving the student, parents or guardians, teacher or other designated staff member, and administrator may be scheduled to review the behavior, its impact, and steps to prevent recurrence. The meeting emphasizes restoring relationships and understanding the root cause of the behavior.
- ii. Behavior Support Plan (if needed): For recurring incidents, a behavior support plan is developed or reviewed, including targeted interventions and supports aligned with the student's needs. The plan may include strategies such as check-ins, mentoring, or additional behavioral learning supports.

D. Transition Back to the Classroom

- i. Reintegration Plan: The student returns to the classroom with appropriate

support, which may include a reintegration checklist, a designated buddy, or frequent check-ins with a trusted adult. Expectations and routines are explicitly reviewed with the student.

- ii. Ongoing Support and Monitoring: Follow-up meetings with the student, teacher or other designated staff member, and parents/guardians are scheduled to evaluate progress. Data from behavior observations are used to adjust interventions and supports as needed.
- iii. Focus on Positive Growth: A strengths-based approach is applied to recognize and reinforce improvements in behavior.

5. Communication and Collaboration

Families are partners in addressing the student's behavior and supporting reintegration. School staff will provide clear and transparent communication about any incident, the student's plan for return, and available resources. Collaboration will also occur between general education, special education, school psychologist, behavior specialists, school counselors, and/or social workers to ensure all supports align with the student's needs and strengths.

6. Required Training

The District will ensure that school employees are trained in behavioral awareness and intervention as required by this Policy and state law. The Superintendent is hereby delegated the authority and responsibility to develop or contract for such training and to ensure that the appropriate staff receive said training as required by state law.

7. Monitoring and Feedback

Parents, guardians, students, advocates and community members are encouraged to provide feedback on this Policy and the District's actions under this Policy. The Superintendent or designee is also directed to provide any feedback to the Board of Education as the Superintendent deems appropriate.

506.01 - STUDENT ACTIVITY ELIGIBILITY

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and ability in the students during their school years and for their lifetime.

However, students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from school or at school. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity and must conduct themselves in accordance with student conduct policies.

Student activity events must be approved by the superintendent unless they involve unusual travel expense, in which case the board will take action. The events must not disrupt the education program or other school district operations.

Eligibility requirements as published by the Nebraska School Activities Association (NSAA) shall be observed by all students.

All boys or girls who participate in any athletics or practices must have a physical examination signed by a physician. The results of the examination and the physician's signature must appear on all local and state forms where it is required. All such examination results must be on file in the school where the student is to participate in athletics. In all cases, these forms should be signed first by parents to signify their permission and then by the physician. Only proper forms are to be used in all cases.

All students participating in extracurricular activities shall follow the rules provided by the Nebraska School Activities Association and rules of Hemingford Public Schools. The Superintendent or designee shall, as required by law, designate each school-sponsored interscholastic athletic team or sport as either: (1) boys; (2) girls; or (3) mixed.

Students who represent Hemingford Public Schools in any of its allied or extracurricular activities shall practice a high level of citizenship both in school and in community living.

Additional eligibility requirements are in place as of January 3rd, 2006 that were developed by a committee of teachers, parents, and administrators.

Students in grades 9-11 must pass thirty (30) semester hours (six classes) of credit the immediate preceding semester in order to be eligible for any activity sponsored by Hemingford Public Schools.

Seniors: Students in Grade 12 will be required to pass twenty (20) semester hours (four classes) of credit during their senior year in order to be eligible for any activity sponsored by Hemingford Public Schools.

Students in grades 7 and 8 must pass 6 of 8 classes the immediate preceding semester in order to be eligible for any activity sponsored by Hemingford Public Schools.

In addition to the above eligibility rule, eligibility for Junior and Senior High students at Hemingford Public Schools is determined on a weekly basis. Students failing two or more classes (grade below 70%) for two consecutive weeks are ineligible to participate in extracurricular activities for a one week period which will be considered Wednesday through Tuesday. A student who is academically ineligible may attend practices, however they cannot travel with any team/activity, suit up/participate in any event/performance, or participate in any special school activity (such as prom and all dances/parties). Eligibility requirements shall not apply to instructional field trips which are a part of the scheduled course learning experience; or activities or events which are a part of the student's grade requirements.

Students who are enrolled primarily in an exempt school, a private school, or a parochial school who are part-time students participating in activities at Hemingford Public Schools shall provide the principal with current transcripts and grade reports (weekly), so eligibility determinations can be made.

605.07 - FULL-TIME AND PART-TIME ENROLLMENT

Full-Time Enrollment

Students must be enrolled in Hemingford Public Schools on a full-time basis. Full-time basis is defined as attending classes for the full instructional day within the public school system.

Exceptions are permitted only for:

1. enrolled students attending another state accredited institution such as a vocational-technical school or a college or university for school credit;
2. enrolled students taking the limited number of credits needed to graduate in the school year;
3. enrolled students in need of modified school attendance as an accommodation for a disability or similar unique circumstance;
4. enrolled students receiving special education services where the student's IEP requires a modified schedule, or non-enrolled students receiving special education services or other legally mandated services required to be provided to eligible resident children under state and federal laws and regulations;
5. students from other school districts participating in programs offered by the District pursuant to an interlocal agreement or other arrangement approved by the School Board; and
6. non-public school students in accordance with the policies and procedures set forth in this policy.

Part-Time Enrollment of Non-Public School Students

The School Board shall allow the part-time enrollment of students who are residents of the school district and who are also enrolled in a private, denominational, or parochial school or in a school which elects pursuant to section 79-1601 not to meet accreditation or approval requirements. Such students are referred to herein as "non-public school students."

The School Board establishes the following guiding principles for enrollment of non-public school students:

1. The primary school for a non-public school student is the student's private, denominational, parochial or home school.
2. Enrollment of a non-public school student in Hemingford Public Schools is allowed for the purpose of providing enhanced educational opportunities not otherwise available to the non-public school student. It is not to supplant programming of the student's primary school.
3. Non-public school students are not to be given priority over full-time students.

4. Non-public school students are to be enrolled only in programs or courses that are educationally appropriate for the student.
5. Enrollment of non-public school students is not to negatively affect the educational services to be provided to full-time students.

The School Board establishes the following specific policies and procedures for enrollment of non-public school students. In the event the specific policies and procedures require interpretation or do not fully resolve an issue, the above established guiding principles are to be considered.

A. Non-Public School Student Enrollment Application Procedures.

1. Application. Parent or guardian must submit an Application of Non-Public School Student for Part-Time Enrollment to the principal of the school the student desires to attend.
2. Deadline for Applications. The application must be received by August 1st preceding the school year the student wishes to enroll.
 - a. Change of Residence Exception: The application deadline for a student who becomes a resident of the District after the school year has commenced is: 20 calendar days after the student becomes a resident of the District. The principal may delay enrollment until the next following quarter or semester starts, or at such other time as determined to be educationally appropriate.
 - b. High School Course Exception: The application deadline for a student who desires to enroll in a second semester high school course is December 1st.
 - c. Change in Enrollment Status Exception: When an enrolled student experiences a change of enrollment to an exempt school during the school year, the application deadline may be waived to coincide with the timing of the status change.
3. Action on Applications. The principal will review the application and will notify the parent of the approval or denial of the application within 2 weeks of receipt of the application or 2 weeks prior to the start of school or 2 weeks prior to the start of the next semester, whichever is later.
4. Appeals. The parent or guardian may appeal the principal's action to deny their application. Any such appeal must be submitted to the Superintendent within 14 calendar days from the date of the principal's action. The appeal shall be in writing and shall be decided on the basis of the written submission. The Superintendent may request the parent or guardian to provide further explanation or information and the appeal may be denied in the event the parent or guardian fails to fully respond on a timely basis. The Superintendent shall decide the appeal within 10 calendar days of the submission of the appeal. The Superintendent may make a decision later than the 10 days in the event good reason for delay exists. Good reason includes but is not limited to the Superintendent being unable to gather the information the Superintendent determines necessary to make the decision within the decision period.

5. Annual Applications. Part-time enrollment is determined annually. Application must be made each school year. There will be no guarantee that enrollment will be continued from one year to the next.

B. Non-Public School Student Admission

1. Admission Requirements. Students must meet the normal admission requirements. This include the requirements that the student: be a resident of the District, be of school attendance age and not have graduated or have received a GED.

2. Admission Process. Students must complete the normal enrollment process and forms required by the District and/or the building for enrollment of all children. This includes the requirements relating to: birth certificates, immunizations, physical examinations, and visual evaluations.

C. Non-Public School Student Enrollment Standards

1. Maximum Enrollment. Students may not enroll in more than 2 middle school or high school courses during any one semester. Elementary students may not enroll in programming of greater than 90 minutes of instruction each day. A student who is attending an exempt school and who is enrolled on a part-time basis in the District's middle school or high school will be permitted to enroll in 20 semester credit hours of classes in the event the student has an interest in participating in extracurricular activities.

2. Capacity Limits. Enrollment will ordinarily be subject to capacity limits. Any grade level, program, or course which has been determined to be at capacity for option enrollment purposes will not ordinarily be available for non-public school students.

3. Integrated Courses. Students must meet prerequisite requirements to be enrolled in a course by appropriate credits earned through an accredited program. The principal may on a discretionary basis allow prerequisite requirements to be satisfied where the student provides reasonable indications that the academic criteria have been met, such as results from achievement tests or other indications of adequate preparation.

4. Educationally Appropriate Programs and Courses. Students will not be allowed to enroll in programs or courses which the school administration determine to not be educationally appropriate for the student. Determination of whether a program or course is educationally appropriate will be made based on the standards the District uses for making academic placement decisions.

5. Selection of Courses. Subject to Paragraphs 1 through 4 of this Paragraph C, and all other applicable provisions of this Policy, non-public school students may select their courses.

D. Non-Public School Student Policies

General Standard. Non-public school students who are enrolled part-time are to be subject to the same standards as full-time enrolled students except where appropriate to reflect their part-time status.

Building assignment. Students must enroll in the attendance center that serves the student's residence, provided that the administration reserves the authority to make a different attendance center assignment. A student may request assignment to an attendance center other than that of the student's residence under the intra-district transfer procedures.

No Partial Part-Time Enrollment. Students must apply for enrollment and attend the entire school year for which enrollment is made or, for high school courses, for the full length of the course. Once enrolled, part-time students will be required to participate in all activities, programs, and tests related to the program or course for which the student is enrolled, including as applicable State or District wide assessments, as full-time students.

Student Conduct Policies. Students enrolled on a part-time basis shall be required to follow all school policies that apply to other students at any time the part-time student is present on school grounds or at a school sponsored activity or athletic event. This includes the District's student conduct policies. Students enrolled on a part-time basis shall be subject to discipline, including suspension or expulsion, for violation of student conduct rules.

Attendance. Students enrolled on a part-time basis are not exempt from the compulsory attendance laws or from the District's attendance policies. Students who engage in excessive absenteeism as defined in Board policy are to be reported under the truancy laws.

Presence on School Grounds. Students enrolled on a part-time basis are to be present on school grounds during the school day only at the times required for their attendance in the program or course in which they are enrolled. Exceptions may be made in the discretion of the principal or the principal's designee. Students must sign in and out of the school by following the building level procedure. Students are responsible for being aware of any changes in the school schedule during inclement weather or for other reasons.

MISSION STATEMENT

The mission of the Hemingford Early Childhood Program is to ensure that children from categorically and economically diverse groups have access to a research-based, effective, developmentally appropriate preschool program with a strong emphasis on family participation.

PHILOSOPHY

It is the philosophy of the Hemingford Early Childhood Program that parents are a child's first and foremost teachers. Our program provides support to parents using developmentally appropriate classroom activities, which are designed to help children reach their full potential in all areas of development. Through a structured routine and with input from parents regarding their child, the program recognizes each child as an individual and strives to meet their individual needs.

ADMISSION PROCEDURES

- All four-year-old resident children of the Hemingford Public School district are invited to attend the Hemingford Early Childhood program by a letter sent home to eligible resident children.
- The maximum number of students in each classroom session is 20 students.
- A visit to the preschool for parents and their child is arranged prior to the first day of attendance.
- Policies and procedures will be reviewed, release forms and health plans will be completed, and a copy of the child's current immunization record and certified birth certificate will be collected before the child begins preschool.

PRESCHOOL ENROLLMENT

If applications exceed the program's enrollment capacity, students will be admitted into the program according to the following priority:

1. Any students required by law to participate or required to be given a preference in the program.
2. Resident students who will become eligible to attend kindergarten in the following year.
3. Resident students who are not otherwise yet eligible to enroll in kindergarten.
4. Non-resident students who are children of current employees of Hemingford Schools.
5. Resident students who will be required to attend kindergarten in the following year.
6. Non-resident students who are siblings of option-enrolled students.
7. Non-resident students who are not yet eligible to enroll in kindergarten.

After the above prioritization process, any further prioritization will be determined based on the date of application for admission, with earlier applicants earning priority for enrollment. In that situation, the determining factor of which remaining applicants shall be accepted will be the date the completed application was received. If an application is not complete when it is received, it will not be dated until all necessary information has been received. If circumstances warrant, concurrent enrollment in morning and afternoon preschool may be allowed. In these circumstances, the same prioritization will be utilized, with the exception that children of current employees of Hemingford Schools will receive primary priority when such enrollment approaches the operational capacity of the program.

PARENT INFORMATION

Parents are recognized as their child's most important teachers. Parental involvement in their child's education is encouraged and welcomed. Parents are encouraged to visit the school at any time. Formal meetings are held twice a year to discuss a child's progress and development. Participation from parents is encouraged to ensure the best education is occurring for their child. Parents may also request a meeting at any time to discuss their child's progress. Parents are invited and encouraged to provide their input regarding policies, procedures, and activities of the program. Home visits are also scheduled. These visits can be held in another location of the parents' choosing.

PARENT VOLUNTEER IDEAS

- Bring treats for special occasions such as birthdays, holidays, teacher recognition days, open house, etc.
- Share special family traditions through props, special foods, pictures, etc.
- Assist teachers with class parties
- Assist teachers with field trips
- Assist teachers with the preparation/clean-up of snacks
- Assist teachers with classroom activities
- Copy newsletters
- Laminate posters
- Design wall posters

PROCEDURES AND INFORMATION

Immunizations

The State of Nebraska has immunization requirements for children entering school. Students will not be able to enter school until the school has written proof of their immunization status. To attend school, students in the State of Nebraska are required to be immunized per current requirements from the Nebraska Department of Health and Human Services. Students who do not receive immunizations for health reasons must have a statement signed by a healthcare

provider stating that, in their opinion, the specified immunization required would be injurious to the health and well-being of the student or any member of the student's family or household. Students who are exempted from the immunization requirement may be excluded from school in the event of an outbreak of any contagious disease in the school population.

For further information on immunizations, contact the school nurse or refer to the Nebraska Department of Health and Human Services - Control of Communicable Disease regulations.

School Calendar/School Closings

The Hemingford Early Childhood Program follows the public school calendar. When the school has a late start, no morning preschool is held. When the school has an early out, no afternoon preschool is held. In the case of bad weather, the preschool follows the public school when closing. If Hemingford Public Schools does not have school, the preschool will also be closed. On certain occasions, preschool will be held on a voluntary basis when teachers are participating in inservice. This will be communicated ahead of time to all parents.

Pick-Up/Drop-off Points

~~Please pick up and drop off preschool students at the main entrance of the school. If the student is eating breakfast, they may enter the school and eat in the cafeteria beginning at 7:45 AM. If they are not eating breakfast, they may play on the playground behind the school beginning at 7:45 AM until Mrs. McClure greets them at the back door at 8:00 AM. Please use crosswalks when dropping off and picking up your child.~~

The preschool room is located in the south room of the west modular. Preschool children are to be dropped off by the parent/guardian/designated individual at the south door of the modular and also picked up in the same manner at the same location. Parents are to park at the east end of the fairground parking lot and walk to the modular with their child.

When it is necessary to pick up a student during the school day, parents are to report to the main entrance of the school. The elementary secretary will call the preschool using the school's phone and intercom system and arrange for a staff member to escort the student to their parent.

Checking Your Child's Backpack

Please check your child's backpack every night. They are excited about their work at this age and will be excited to share it with you. This is the best way for me to communicate with you. Also, please make sure that they have a backpack daily to carry their work home.

Parent/Teacher Conferences

Your child's development is constantly monitored through the use of checklists and development charts. Results of the Teaching Strategies Gold assessment are shared with parents during conferences. Parents may also request a meeting at any time to discuss their child's program and progress. Parent/Teacher Conferences are held twice a year. Conferences will be held at the same time as Hemingford Public School Conferences. If a child qualifies for special education, an IEP will be held at least once during the school year to discuss a child's developmental skills.

Emergency Numbers

Current telephone numbers must be on file. The home, cell, and work numbers of both parents/guardians need to be on file with the elementary secretary. It is also helpful to have your childcare provider's name, address, and phone number on file. If any of these numbers should change, please notify the preschool of these changes. Emergency contacts should also be on file. Emergency people should know about this responsibility.

Absences

If your child will not be attending class, please notify the school by calling 308-487-3330.

Label possessions

Please write your child's name on their possessions. Children will be provided with a cubbie and coat hook for their possessions. The school is not responsible for lost items.

Addressing Concerns

We try hard to meet the needs of each child and family. We strive to work with parents to provide quality services to children and families. If you have a concern with our program, we need to work out a satisfactory solution. Please contact the preschool teacher first and visit with her about your questions and concerns. When concerns arise, instead of making assumptions, we all need to ask questions for more information. By viewing each other as teammates, we can positively resolve any problem that comes our way for the benefit of the program and, more importantly, for the benefit of the children we are all responsible for teaching.

Child Find

Child Find is a community-wide effort to provide opportunities for children with disabilities. Parents, educators, and members of the medical community take part in the program to locate children who may have a disability. Child Find provides developmental screening and, when appropriate, a comprehensive, multi-disciplinary evaluation for children from birth to age 21.

Parents/Community members who contact Child Find may have concerns about the child's development in the areas of:

- Hearing
- Vision
- Speech/language skills
- Motor skills
- Thinking skills
- Emotional/social skills

If you live within the Hemingford School District and have, or know of, a child who may have a disability, contact Mandy Plog, Director of Instructional Services, at 308-487-3330.

Confidentiality Statement

Student records or files maintained by the district are strictly confidential under the Family Education Rights and Privacy Act of 1974 (34 CFR 300).

Records may not be released without written consent except for the following:

- District personnel who have a legitimate educational interest.
- Auditing officials of the United States Government. Auditing officials of this state or state education authorities, when necessary, in connection with the audit evaluation of federally or state-supported educational programs. The collection of such data shall not permit the personal identification of students or their parents.
- Courts, in compliance with judicial order or subpoena, provided that the parents of the students are notified of the order or subpoena in advance of compliance.

Notice Of Nondiscrimination

Hemingford Public Schools does not discriminate based on gender, national origin, race, creed, color, national origin, gender, age, marital status, or disability in admission or access to, or treatment, or employment of its programs or activities. The Hemingford Early Childhood Preschool Program and Hemingford Public School complies with Section 504 of the Rehabilitation Act of 1973 and the Family Educational Rights and Privacy Act. DRAFT

INTRODUCTION

This handbook has been prepared to guide all extracurricular personnel in the successful performance of their assigned tasks. In establishing this guide, many factors are considered. An attempt has been made to include all areas, problems and circumstances that normally occur in daily performance of duties. However, not all possible situations can be planned for or against. Procedures for particular situations not covered by this handbook will be established as they occur.

While carrying out your duty assignment always act for the best interest of all students concerned and for the best interest of each individual student. There are no minor sports or activities; whatever you do is important. Each sport or assignment is vital and necessary to you, to your school, to our community and to the overall excellence of our total program.

GOALS AND OBJECTIVES

Positive Experience and Maximum Potential

To provide opportunities that will allow the program to serve as a classroom where the students learn to cope with problems and deal with situations similar to those encountered as a part of daily life. These opportunities could include, but are not limited to:

- Physical, mental, and emotional growth and development.
- The acquisition and development of special skills in activities the students choose to be a part of.
- Team play with the development of such characteristics as loyalty, cooperation, fair play, and other desirable social traits.
- Directed leadership and supervision that stresses self-discipline, self-motivation, excellence, and the ideals of good sportsmanship that develop a habit of winning and losing graciously.
- Achievement of initial goals as set by the school, the program, and the student as an individual.
- To enable all participants to expand possibilities for future vocational pursuits.
- To provide sufficient activities that offer an outlet for a wide variety of student interests and ability levels.
- To strive for excellence that will produce successful programs within the bounds of good sportsmanship.
- To create a desire to succeed and excel.
- To provide for the constructive use of leisure time now and in the future.
- To develop high ideals of fairness in all human relationships.
- To practice self-discipline and emotional maturity in learning to make decisions under pressure.
- To be socially competent and operate within a set of rules, thus gaining a respect for the rights of others.
- To develop an understanding of the value of participation as part of a balanced educational program.
- To provide a positive image of school activities at Hemingford Public Schools

HEMINGFORD ACTIVITIES PHILOSOPHY

The athletic program in the Hemingford Schools is to be a learning (educational) experience. The participants are to be taught how to work hard at something and the self-satisfaction that goes with doing their very best in whatever they do. Important lessons in living are taught in athletics. The Hemingford Athletic Program is to teach these lessons.

The athletics programs at the Junior High levels are to acquaint the athletes with the various sports, to give them playing time, and to allow them to make decisions as to participation. They should be taught the fundamentals and encouraged to do their best. The ultimate goal is to win but not at the expense of over pressurization of the young athletes. Winning is a by-product of doing things correctly.

At the high school level, the athletes should be out for athletics because they want to be. The non-varsity competition is to be a learning experience where the athletes improve their skills. The goal at the varsity level is to give the athletes the best opportunity to win. Striving to win is important, but whether winning or losing, the athletes should always strive to do their best in competition. It is the coach's responsibility to motivate the athletes so that they do their very best.

The activity programs should emphasize the importance of self-discipline, self-control, sportsmanship and effort. The team concept is to be taught to all Hemingford teams. Negative actions and attitudes should not be allowed nor should they be tolerated.

COACHING CREED

1. Be a resource person able to assist the athlete to develop his or her athletic potential and self-dependency.
2. Recognize individual differences in athletes and always think of the athlete's long-term best interest.
3. Aim for excellence based upon realistic goals and the athlete's growth and development.
4. Lead by example. Teach and practice cooperation, self-discipline, respect for officials and opponents and proper attitudes in language, dress and deportment.
5. Make sport challenging and fun. Skills and techniques need not be learned painfully.
6. Be honest and consistent with athletes. They appreciate knowing where they stand.
7. Be prepared to interact with the media, league officials and parents. They too have important roles to play in sports.
8. Coaching involves training by responsible people who are flexible and willing to continually learn and develop.
9. Physical fitness should be a Lifelong goal for all. Encourage athletes to be fit all year, every year and not just for the season.

STUDENT DRESS CODE

Teachers will send students to the office, or notify the office, if a student's clothing or dress is questionable. The final decision will rest with the administration.

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation.

Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

COACH/SPONSOR EXPECTATIONS

1. Develop reasonable training rules and regulations and be sure your team/organization members understand what is expected of them. A copy of your training rules should be given to the Athletic Director.
2. Watch closely the health of your athletes. This includes reporting any potential illegal or harmful activities up to and including concussions, bullying or hazing to the activities director immediately.
3. Have water breaks and rest periods.
4. Keep the length of practice sessions reasonable and release students from practices on time!
5. No swearing among coaches or athletes. There is no defending or justifying this action. Coaches set the example.
6. No tobacco among coaches on school property.

7. A professional relationship between coaches, players and game officials is a must.
8. Winning is an important goal, but the welfare of your athletes is always number one. Don't let the pressures cause you to forget this.
9. Emphasize often to your team that good sportsmanship will prevail. Only captains communicate with game officials and then only in a courteous manner. Again coaches set the example. Cool heads are a must in highly emotional situations.
10. Take some practice time periodically to discuss the intangibles. Emphasize the importance of good behavior and sportsmanship and the benefits derived from athletic participation. If we are to justify athletics and our own positions as coaches, we need to continually point out the educational values of our program. Let your behavior and sportsmanship be a model to your team.
11. Be sure that all athletes receive the required number of practice sessions.
12. Be sure all athletes have completed the Athletic Participation, Parental Consent, and Physician's Report Form. It is mandatory that all parts of these forms are completed, signed by all concerned, and on file with the high school office before athletes are allowed to participate in any way.
13. No practice sessions until the official starting practice date for your sport. It is all right to check out gear and pass out forms and information sheets before the official start date. Pre conditioning will be allowed one week prior to the start of practice.
14. Supervision especially in the places like the locker room have the highest frequency of incidents where you as coaches/sponsors and the school district may be found negligent and liable. Coaches and sponsors will have a plan in place to ensure the best possible supervision of students while they are under their responsibility during practice and competitions.
15. District requires head coaches to complete the online or in person NSAA rules meeting in the sport(s) they coach if such meetings are required.
16. All Open Gyms must be approved in advance. Established prior to the school year ending.
17. Work with the Athletic Director on developing a budget for your sport and seeing that eligibility lists are checked each week.
18. Work with the Athletic Director on submitting transportation requests such as departure times for the entire season two weeks in advance of the opening contest. Bus requisition forms must be submitted and approved well in advance of an activity. If no requisition form is submitted and approved, then no transportation will be available.
19. Maintain accurate records on all equipment. See that all equipment is accounted for and checked in immediately at the close of the season. Inventory all equipment and submit a report to the Athletic Director within two weeks of the end of your season. Uniforms are not to be worn around the community unless approved by the coaches in conjunction with the Athletic Director and administration.
20. Prepare and submit requests for replacement equipment to the Athletic Director.

21. No Sunday athletic practices, walkthroughs or shoot-arounds are permitted without prior approval.
22. All coaches/sponsors are required to adhere to NSAA and school guidelines relating to summer participation, camps and practices.
23. Coaches must visually witness the signing out of student-athletes by their parents or guardians.
24. Maintain effective communication with parents/guardians/families. This is especially important when dealing with violations of behavioral expectations, student injuries, or other situations where parents need to receive information from coaches/sponsors.

WORKING WITH PARENTS

- Coaching is exciting and rewarding, but from time to time you may experience difficulty with parents. *Some may want* their children to play more or they might question some of your judgments as a coach. This is normal, so do not feel that you are alone if this happens. Here are a few thoughts to remember when dealing with parents:
- Always listen to their ideas and feelings. Remember, they are interested and concerned because their children are involved. Encourage parental involvement.
- Express appreciation for their interest and concern. This will make them more open and at ease with you.
- No coach can please everyone. Don't try.
- Know what your objectives are and do what you believe to be of value to the team.
- Make certain all parents know your ground rules. Have rules and regulations, your philosophy, practice dates and times, etc. printed on a sheet of paper you can pass out to all parents. Have a parent meeting before the season begins to discuss your operating procedures if necessary.
- Resist unfair pressure. You are the coach and it's your responsibility to make decisions.
- Most importantly, be fair. If you treat all players fairly, you will gain respect. Be consistent! If you change a rule or philosophy during the season, you may be in for trouble. If you do change something, make sure the parents are informed as soon as possible.
- Handle any confrontation one-on-one and not in a crowd situation. Don't be defensive. Don't argue with a parent. Listen to their viewpoint, and thank them for it. Don't discuss individual players with other parents.
- Ask parents not to criticize their children during a practice game. Don't let your players be humiliated, even by their own parents.
- Don't blame the players for their parents' actions, if negative. Try to maintain a fair attitude.
- Parents must accept the fact that officials and coaches should not be subjected to criticism during or after ball games. Parents and coaches should wait 24 hours before engaging in any type of criticism directed towards a coach.
- Always remember that you will be dealing with all types of children and parents with different backgrounds and ideals. One of your main challenges as a coach is to deal with these differences in a positive manner so the team's season will be an exciting and enjoyable experience for all.

INVENTORY

Each season, each coach/sponsor is responsible for maintaining an inventory of equipment and supplies. Each assistant coach should work with his/her head coach and each head coach should work with his/her athletic director to requisition and maintain equipment with which to prepare his/her team for the season.

At the end of each season, each coach is responsible for making an inventory of equipment and supplies and for reporting to the athletic director any equipment or supplies that are missing, damaged, lost or that need to be replaced.

The athletic director should maintain an inventory of all equipment and supplies and utilize this inventory when making requisitions.

The Inventory Sheet on the following page is for you to use to record your inventory if you need it. Your actual inventory list will be kept on a Google Sheet that will be provided for you by the Activities Director.

8. Budget requests for the next season listing all items in priority order.
9. An updated three-year plan for the program. (Instructions below).

PROFESSIONAL COACHING AND PROGRAM PLANNING: “Development of the Three-Year Plan”

A three-year interscholastic athletic plan is designed to help you look at where your program is and how to get it to a desired level three years into the future. It doesn't matter whether you are a first year coach seeking stability in your program or an established, successful program which is seeking the proverbial “next rung” of success, a three-year plan will help you look at what is working within your program, where technical and tactical trends are moving, and design the steps to achieve student-athlete skill-set goals. The ultimate objective of this process is to assess the direction of the sport program and to indicate a “prescription” for the continued success and improvement of the sport for all participants.

- Part One: Mission Statement
What is the defining objective and purpose of the specific sport program? “*Why does your program exist?*” The mission statement should guide the actions of the organization and all participants as well as spell out your overall goal. It provides a “pathway” to guide all decision-making and is the framework from which your program strategies are formulated.
- Part Two: Program Description
Describe the program in detail; this section should provide a brief history of the program over the course of recent years.
- Part Three: The Student Profile
Look at your underclassmen; “What’s coming up?” “What are the numbers like?” “What are the expectations of each grade level group?” If you want to move beyond the next three years in this section based on your knowledge of junior high or upper elementary students feel free to do so.
- Part Four: Program Assets and Challenges
What are the foundational pieces you have to work with currently? What are the equipment/budget/facility needs expected to be year-by-year over the next three years? Identify the obstacles that you believe you need to overcome and indicate plausible options to address in correcting these challenges.
- Part Five: Academics
What types of strategies do you have in place to address academic and/or eligibility concerns? How will you monitor academic progress and provide appropriate support/encouragement for academic success?
- Part Six: Timeline and Athletic Department Support
Create a timeline of where your program is now and where it will be in three years. Identify those specific areas of support necessary from the Athletic Department.

SUNDAY ACTIVITIES

For the purposes of maintaining good community relations and limiting unnecessary intrusion upon students and families, the following policy shall guide the school and its employees regarding school-related activities on Sundays.

To the greatest extent possible, the school and its employees shall refrain from involving students in school activities or school-related activities that occur on a Sunday.

School-related activities involving students shall be prohibited from taking place on a Sunday unless authorized in advance by the Superintendent. The Superintendent may consider

approving student participation in school-related activities on Sundays under the following circumstances:

1. The school-related activity is reasonably necessary to prepare for a Conference, District, State, or National-level event that is to take place on the Sunday in question or on the immediately subsequent Monday, Tuesday, or Wednesday.
 - a. When such school-related activity is used for practice or preparation, such activity shall be limited to the hours of 1 PM to 5 PM unless other approval has been granted.
2. The school-related activity is reasonably necessary for approved participation in a Conference, District, State, or National-level event to take place on the Sunday in question.
3. The school-related activity is reasonably necessary for approved participation in a community event to take place on the Sunday in question.
4. The school-related activity is reasonably necessary for approved travel related to a Conference, District, State, or National-level event.
5. Other instances, not already listed, that are determined by the Superintendent to be reasonable, highly beneficial to students, and caused by extraordinary circumstances.

INJURY/EMERGENCY ACTION PLAN GUIDELINES

The risk of injury, catastrophic injury, and even sudden death are inherent to sports. This is something we must always keep in mind as we prepare both mentally and physically to practice our plan of action. In all emergency situations it is important to attempt to remain calm, avoid making hasty decisions, and to trust your knowledge and the training you have been given.

The following emergency action plan includes identification of the personnel involved, specific equipment needed to respond to the emergency, and an established communication system to summon the needed emergency care.

In all venues used by Hemingford Jr/Sr High School the following emergency protocol should be used:

- If there appears to be a life-threatening injury or illness, call 911.
- Inform emergency medical services (EMS) of the exact location relative to our campus and that we have an individual in need of emergency medical treatment.
- The EMS operator will ask several questions, but you need to be sure to give them the following information:
 - o Name, address and telephone number of the caller
 - o Condition of the individual needing emergency medical treatment
 - o Details of the first-aid treatment that has been initiated
 - o Any other information requested by the dispatcher/operator

- Have another staff adult contact the parents (this individual should be designated on your emergency plan in advance so there is no question as to who is responsible for this should the need arise). Do not leave information on an answering machine, go to the next emergency contact listed (use PowerSchool for additional numbers if needed). Explain the situation to them and ask if there is a specific location they would like their son or daughter transported.
- Administration, site supervisors and all other school personnel present (as needed) will act as crowd control around the injured individual.
- Provide appropriate emergency care until the arrival of EMS. This includes the use of emergency equipment such as a portable AED and emergency bags if necessary. When EMS arrives, give them all necessary information (specific injury including the events leading up to it, vital signs, treatment given, medical history of the individual involved) and answer any questions they may have.

LIGHTNING: What You Need to Know

- ***NO PLACE*** outside is safe when thunderstorms are in the area.
- If you hear thunder, lightning is close enough to strike you.
- When you hear thunder, *immediately* move to safe shelter: a substantial building with electricity or plumbing or an enclosed, metal-topped vehicle with windows up.
- Stay in a safe shelter at least 30 minutes after you hear the last sound of thunder.

Lightning During a Game

1. Should lightning occur during games when athletes are outside, the certified athletic director and site supervising administrator will be in charge of monitoring the situation.
2. The AD and site supervising administrator will use both visual and technology to monitor the lightning.
3. If the AD and site supervising administrator is alerted that there is lightning 10 miles from an outdoor sports venue they will notify at least one coach of each team of the approaching weather situation either in person or via cell phone. Play may continue at this point.
4. If the AD and site supervising administrator is alerted there is lightning less than 10 miles from an outdoor sports venue, they will notify at least one coach of each team of the approaching weather situation either in person or via cell phone. Additionally, the game officials/umpires will also be notified. Coaches, athletes and spectators will be instructed to seek shelter immediately.
5. No athletic contests will be allowed to resume outdoors until there have been no lightning strikes for 30 minutes that have occurred within 10 miles of the outdoor facility in which the contest is being held.

Lightning During a Practice

1. Should lightning occur during games when athletes are outside, the head coach and any administrator(s) still on campus will be in charge of monitoring the situation.
2. The head coach and administrator(s) will use both visual and technology to monitor the lightning.
3. If the head coach and administrator(s) are alerted that there is lightning 10-20 miles from the venue they will notify all assistant coaches of that program as well as head and assistant coaches of other programs of the approaching weather situation either in person or via cell phone. Practice may continue at this point.
4. If the head coach and administrator(s) are alerted there is lightning within 10 miles of the venue, they will notify all assistant coaches of that program as well as head and assistant coaches of other programs of the approaching weather situation either in person or via cell phone. Coaches and athletes will be instructed to seek shelter immediately.
5. No practices will be allowed to resume outdoors until there have been no lightning strikes for 30 minutes that have occurred within 10 miles.

Indoor Lightning Safety

- Stay off corded phones, computers and other electrical equipment that put you in direct contact with electricity.
- Avoid plumbing, including sinks, baths and faucets.
- Stay away from windows and doors and stay off porches.
- Do not lie on concrete floors, and do not lean against concrete walls.

Last Resort Outdoor Risk Reduction Tips

If you are caught outside *with no safe shelter anywhere nearby* the following actions *may* reduce your risk:

- Immediately get off elevated areas such as hills, mountain ridges or peaks
- Never lie flat on the ground
- Never shelter under an isolated tree
- Never use a cliff or rocky overhang for shelter
- Immediately get out and away from ponds, lakes and other bodies of water
- Stay away from objects that conduct electricity (barbed wire fences, power lines, windmills, etc.)

INJURY/EMERGENCY PLAN: Big Gym – Volleyball, Basketball, Wrestling, and Concerts

1. The certified athletic trainer (ATC) or most qualified individual on the scene will evaluate the injury situation. The head coach, or a designated assistant coach will stand by to assist. If an ATC is not on duty, a designated assistant coach will contact the ATC if needed. An AED is located in the gym if needed.
2. An additional designated assistant coach or student manager will be responsible for retrieving ice &/or any necessary emergency equipment (splint, crutches, etc.).
3. Administration, site supervisors and all other school personnel present (as needed) will act as crowd control around the injured individual.
4. If the Emergency Medical System (EMS) needs to be activated, a designated assistant coach will make the call. When the call is made the following script should be used:

“This is **caller’s name** from Hemingford High School. There has been an accident at the **sport/activity** game at Hemingford, and **give the general extent of the injury**. We are located at 913 Niobrara Ave. and the entrance to the gym is on the South side of the big gym building. Please enter through the gym entrance, the door marked ____ (state which door) Someone will be waiting outside to direct you in.” Allow the 911 operator to hang up first at the conclusion of the call.

5. The designated assistant coach that made the call to EMS will go to the designated door after making the call to direct EMS to the injured person when they arrive.
6. Administration/site supervisors will clear a path for the ambulance to meet the injury situation.
7. The head or assistant coach that remained with the ATC will record all vital information as directed.
8. If the injured individual requires a spine board, EMS will complete that procedure at which point the patient will be turned over to them for transport.
9. The designated assistant coach will call and notify parents and administration of the situation and transport location.
10. If available, the ATC, designated assistant coach or a school representative will accompany the individual to the hospital.

The same protocol will apply to visiting team injuries as well.

In the event of severe weather, the administrator(s)/site supervisor(s) will make an announcement over the PA system and direct everyone to safe shelter locations.

CONCUSSIONS

- Concussions continue to be a focus of attention in football at all levels of competition. The NFHS has been at the forefront of national sports organizations in emphasizing the importance of concussion education, recognition and proper management.
- Discussion of proper concussion management at all levels of play in all sports has led to the adoption of rules changes and concussion-specific policies by multiple athletic organizations, state associations and school districts. Coaches and game officials need to become familiar with the signs and symptoms of a concussed athlete so that appropriate steps can be taken to safeguard the health and safety of participants.
- Athletes must know that they should never try to “tough out” a suspected concussion. Teammates, parents and coaches should never encourage an athlete to “play through” the symptoms of a concussion. In addition, there should never be an attribution of bravery associated with athletes who play despite having concussion signs or symptoms. The risks of such behavior must be emphasized to all members of the team, as well as all

coaches and parents. If an athlete returns to activity before being fully healed from an initial concussion, the athlete is at an increased risk for a repeat concussion. A repeat concussion that occurs before the brain has a chance to recover from the first can slow recovery or increase the chance for long-term problems. In rare cases, a repeat concussion can result in severe swelling and bleeding in the brain that can be fatal.

- Governing bodies at all levels of play continue to review and revise playing rules and encourage practices that decrease the risk of concussion. Among the most concerning data from the past several high school football seasons is that concussions continue to account for a high percentage of the injuries reported and that more than half of all concussions were a direct result of helmet-to-helmet contact!
- All coaches should undergo education and utilize available professional development tools regarding the signs and symptoms of concussion and the proper management of athletes with a suspected concussion. The NFHS offers the free course “Concussion in Sports: What You Need to Know” that is available at www.nfhslearn.com. The free course is a brief and user-friendly resource not just for coaches, but also for students, parents and other interested persons. Many states have developed their own education programs. It is incumbent upon coaches to lead by example in recognizing the seriousness of all suspected concussions.
- Contact to and with the Helmet: Over the years, the NFHS Football Rules Committee has repeatedly emphasized the need to keep the HEAD OUT OF FOOTBALL because of the potential for catastrophic head and neck injuries. The committee in its publications for review by coaches and game officials has specifically targeted some form of helmet review or illegal helmet contact emphasis 24 times since 1980. In the past few years, all levels of football have increased the focus on decreasing the risk of concussion, and it is widely conceded that one of the biggest steps in this effort is to eliminate direct helmet-to-helmet contact and any other contact both with and to the helmet.
- Any initiation of contact with the helmet is illegal; therefore, there must be a focus on enforcing the existing rules. These rules include fouls such as butt blocking, face tackling and spearing (all of which are illegal helmet contact fouls) as well as other acts prohibited by the provisions regarding unnecessary roughness. These types of contact, such as blows to the head by the defender, initiating contact to the head, and helmet-to-helmet contact are all unnecessary to the playing of the game. When in doubt, contact to or with the helmet should be ruled a foul by game officials.

Hemingford Concussion Management Team:

The concussion management team (CMT) will consist of the activities director, school nurse(s), athletic trainer(s), teachers, and coaches of the individual diagnosed with a concussion.

Concussion Protocol

If at any time a student participating in an activity is thought to have a possible concussion the following steps will be taken:

- A coach/sponsor/teacher will call a parent/guardian & they or a trainer, doctor, or nurse will stay with the participant until they have been picked up by the parent/guardian to be taken to see a doctor. If a parent/guardian/emergency contact is not able to pick up the

participant, it is acceptable for the coach/sponsor/teacher to give the student a ride to a location where they will be supervised. The participant is not to ride home on a bus or with another student. Document that you informed a parent/guardian/emergency contact.

- The coach/sponsor/teacher will contact the parent/guardian later in the evening to find out the diagnosis. Document this contact as well.
- If the diagnosis is a concussion, the coach/sponsor/teacher will notify the activities director and school nurse, and be responsible for making sure the participant does not take part in any activities (this includes all practices and competitions) until cleared to do so in writing by a doctor.

Protocol for returning to “normal” activity:

- Parents will be informed that the best thing they can do for their child after a concussion diagnosis is to keep them at home with limited exposure to light and/or electronic devices. It is also recommended that there be very limited mental exertion and no prolonged periods of concentration.
- Parents will also be asked to complete a form that will allow the physician who saw the child to share information with the school CMT.
- At school, we will provide a quiet place for rest, a quiet place to eat lunch, and academic modifications as needed while helping the child gradually transition back to a “normal” day.
- Teachers and coaches of the individual diagnosed with a concussion will be asked to observe the child for symptoms and fill out a form for the school CMT. The school CMT will then complete a symptom checklist regularly to determine the appropriate level of academic activity for the child.
- Once the child is symptom free and able to resume “normal” academic activity, the athletic trainer will follow a progression to get the child back to “normal” physical activity. This process will include an impact test.
- Once the child is able to resume “normal” physical activity, and has been cleared to do so by a physician, they will be allowed to participate in school activities again.

HELMET TECHNOLOGY AND PROPER HELMET FITTING

The heightened concern about concussions and the variety of football helmets available have led participants and coaches to seek a helmet that they believe will best protect a player from concussion. While many new football helmets incorporate innovative materials and designs, no existing football helmet is “concussion proof.” Therefore, it is incumbent upon athletic administrators, coaches, game officials, parents and participants to understand the limitations of all protective equipment, including the helmet. Everyone must realize that a combination of best practices, including but not limited to, repeated instruction on proper tackling and blocking techniques, proper helmet fitting and equipment tracking/recertification procedures, and proper and consistent officiating, are the keys to limiting injury risk and must be emphasized within each program.

Proper helmet fit has been a concern in recent years as anecdotal and documented reports of

players having helmets completely dislodged during games continue to mount. To emphasize this point, the NFHS Football Rules Committee has passed a rule in 2012 that requires the athlete to leave the game for a single play if the helmet comes off during live ball action, unless the removal is due to a foul by the defense. If no foul is called, then the player must be removed. It is imperative that the athletes take an active role in the proper fitting, wear and use of the helmet and realize the “comfort” shortcuts are not permitted.

Every football helmet manufacturer provides various helmet-fitting pamphlets with each helmet sold, detailing how to properly fit the helmet. If the helmet-fitting pamphlets or other football helmet-related instructions are missing, please contact the respective football helmet manufacturer.

HEAT ACCLIMATIZATION AND PREVENTING HEAT ILLNESS

Exertional Heat Stroke (EHS) is the leading cause of preventable death in high school athletics. Athletes participating in high-intensity, long-duration or repeated same-day practices during the summer months or other hot-weather days pose the greatest risk. Football has received the most attention because of the number and severity of exertional heat illnesses. Notably, the National Center for Catastrophic Sports Injury Research reports that 37 high school football players died of EHS between 1995 and 2010. EHS also results in thousands of emergency room visits and hospitalizations throughout the nation each year.

In the spring of 2012, the NFHS Sports Medicine Advisory Committee (SMAC) released a new position statement “Heat Acclimatization and Heat Illness Prevention.” The position statement is intended to provide an outline of “Fundamentals” and may be used as a guiding document by member state associations. Also, the NFHS has released a 20-minute free online course “A Guide to Heat Acclimatization and Heat Illness Prevention” at www.nfhslearn.com, regarding this life-threatening topic. Further and more detailed information will be found within the NFHS online course, as well as the 4th Edition of the NFHS Sports Medicine Handbook, the NFHS SMAC position statement “Recommendations for Hydration to Minimize the Risk for Dehydration and Heat Illness” and other resources.

The new position statement and online course are intended to reduce the risk and incidence of EHS and the resulting deaths and injuries. The NFHS recognizes that various states and regions of the country have unique climates and an assortment of resources, and that there is no “one-size-fits-all” optimal acclimatization plan. However, the NFHS and the NFHS SMAC strongly encourage member state associations to incorporate all of the “Fundamental Musts” into any heat acclimatization plan to improve athlete safety. In addition, the online “A Guide to Heat Acclimatization and Heat Illness Prevention” should be required viewing for all coaches.

Heat Acclimatization and Heat Illness Prevention Keys for Coaches

1. Recognize that Exertional Heatstroke (EHS) is the leading preventable cause of death among high school athletes.

2. Know the importance of a formal preseason heat acclimatization plan.
3. Know the importance of having and implementing a specific hydration plan, keeping your athletes well hydrated, and providing ample opportunities for, and encouraging, regular fluid replacement.
4. Know the importance of appropriately modifying activities in relation to the environmental heat stress and contributing individual risk factors (e.g., illness, obesity) to keep your athletes safe and performing well.
5. Know the importance for all staff to closely monitor all athletes during practice and training in the heat, and recognize the signs and symptoms of developing heat illnesses.
6. Know the importance of, and resources for, establishing an emergency action plan, practicing the aspects of that plan, and promptly implementing it in case of suspected EHS or other medical emergency.

Fundamentals of a Heat Acclimatization Plan

1. Physical exertion and training activities should begin slowly and continue progressively. An athlete cannot be “conditioned” in a period of only two to three weeks.
2. Keep each athlete’s individual level of conditioning and medical status in mind and adjust activity accordingly. These factors directly affect heat illness risk.
3. Adjust intensity (lower) and rest breaks (increase frequency/duration), and consider reducing uniform and protective equipment, while being sure to monitor all players more closely as conditions are increasingly warm/humid, especially if there is a change in weather from the previous few days.
4. Athletes must begin practices and training activities adequately hydrated.
5. Recognize early signs of distress and developing exertional heat illness, and promptly adjust activity and treat accordingly. First aid should not be delayed!
6. Recognize more serious signs of exertional heat-related distress (clumsiness, stumbling, collapse, obvious behavioral changes and/or other central nervous system problems), immediately stop activity and promptly seek medical attention by activating the Emergency Medical System. On-site rapid cooling should begin immediately.
7. An Emergency Action Plan with clearly defined written and practiced protocols should be developed and in place ahead of time.

The NSAA has adopted a Heat Acclimatization and Contact Plan specific to football & it is required that all member schools follow the plan. That plan is on the following page(s).

14-Day Heat-Acclimatization Period

1. Days 1 through 5 of the heat-acclimatization period consist of the first 5 days of formal practice. During this time, athletes may not participate in more than 1 practice per day.
2. If a practice is interrupted by inclement weather or heat restrictions, the practice should recommence once conditions are deemed safe. Total practice time should not exceed 3 hours,

3. A 1-hour maximum walk-through is permitted during days 1–5 of the heat-acclimatization period. However, a 3-hour recovery period should be inserted between the practice and walk-through (or vice versa). The only pieces of player equipment to be worn by the individuals during the walk-through are shoes and helmets. The only pieces of general equipment to be used during the walk-through are footballs and kicking tees.

4. During days 1–2 of the heat-acclimatization period, in sports requiring helmets or shoulder pads, a helmet should be the only protective equipment permitted (goalies, as in the case of field hockey and related sports, should not wear full protective gear or perform activities that would require protective equipment).

During days 3–4, only helmets and shoulder pads should be worn.

A. Football only: On days 3–4, contact with blocking sleds and tackling dummies may be initiated.

Beginning on day 5, all protective equipment may be worn and full contact may begin.

B. Full-contact sports: 100% live contact drills should begin no earlier than day 6.

5. Beginning no earlier than day 6 and continuing through day 14, double-practice days must be followed by a single-practice day. On single-practice days, 1 walk-through is permitted, separated from the practice by at least 3 hours of continuous rest. When a double-practice day is followed by a rest day, another double-practice day is permitted.

6. On a double-practice day, neither practice should exceed 3 hours in duration, and student-athletes should not participate in more than 5 total hours of practice. Warm-up, stretching, cool-down, walk-through, conditioning, and weight-room activities are included as part of the practice time. The 2 practices should be separated by at least 3 continuous hours in a cool environment.

7. Because the risk of exertional heat illnesses during the preseason heat-acclimatization period is high, we strongly recommend that an athletic trainer be on site before, during, and after all practices.

PRACTICE: LEVELS OF PHYSICAL CONTACT

Levels of Contact focus on the varying levels of intensity throughout practices to build player confidence, ensure their safety and prevent both physical and mental exhaustion. These Levels of Contact will increase player safety by reducing the risk of helmet-to-helmet contact without sacrificing skill.

Five intensity levels are used to introduce players to practice drills which position them to master the fundamentals and increase skill development.

Air (Coach determined outcome)

Players run a drill unopposed without contact.

Bags (Coach determined outcome)

Drill is run against a bag or another soft-contact surface.

Control (Coach determined outcome)

Drill is run at assigned speed until the moment of contact; one player is predetermined the “winner” by the coach. Contact remains above the waist and players stay on their

Thud (No coach determined outcome)

Drill is run at assigned speed through the moment of contact; no predetermined “winner”. Contact remains above the waist, players stay on their feet and a quick whistle

Live Action (No coach determined outcome)

Games, scrimmages and drills run in game-like conditions. These are the only times that players are taken to the ground.

SOCIAL MEDIA

INTENT

The school district supports the appropriate use of technology to communicate with students for legitimate educational purposes. Employees and agents of the school district are responsible for conducting themselves professionally, exercising sound judgment, and teaching and modeling high standards of behavior and civic values, regardless of location. This expectation applies to employees' conduct and interactions with students and to all material that employees post through school district media, texting, personal websites, blogs, and other social networking sites including but not limited to Facebook, MySpace, YouTube, and Twitter.

PROHIBITED ACTIONS

District employees, volunteers, and others serving as agents of the school district are prohibited from engaging in inappropriate communication with students including but not limited to online or digital socializing, social networking (i.e. Facebook, Twitter, YouTube, etc.), internet use, email, texting, blogging, or other electronic communication that violates the law, district policies, or the Regulations and Standards for Professional Practices Criteria, commonly known as Rule 27 of the Nebraska Department of Education ("Rule 27").

The following use of social or digital media is a violation of this policy. The following list is intended to be illustrative and does not describe every kind of prohibited behavior.

1. Sending any correspondence, including but not limited to text or email, that does not directly serve a school or educational purpose.
2. Authorizing students to access your personal, social media accounts (e.g. "friending" or "following") or requesting that students provide you with access to their personal social media accounts.
3. Communicating with students about sex, personal matters, intimate matters, or similar matters.
4. Joking with students about matters involving sex, using double entendre, or making suggestive remarks of a sexual or intimate nature.
5. Sharing sexually inappropriate material or objects with students.
6. Displaying pornography.
7. Making a sexual advance or engaging in any activity of a sexual or romantic nature with a student.
8. Disclosing confidential student records or information.
9. Disclosing confidential personnel records or information of other school district employees, agents, or volunteers.
10. Behaving in any manner that results in a disruption to the school environment.
11. Behaving in any manner that impairs the employee's ability to perform his or her employment duties or impairs his or her ability to be an effective employee.

12. Using an employment title or including any reference to the employee's affiliation with the school district unless the communication is school related and in compliance with the law, district policies, and Rule 27.
13. Including mascots, symbols, logos, or other district trademarks in non-school related communications.

EXCLUSIONS

The aforementioned prohibition shall not apply to the following such that these exclusions do not otherwise constitute a violation of the law, district policies, or Rule 27:

- A. School-purposed, non-personal social media accounts and messaging applications created solely for school-related matters to which all of the employees' students within an established group, their parents, and school officials are allowed or offered access.
- B. Personal, social media accounts and messaging applications of students who are immediate family members (limited to children, grandchildren, brothers, sisters, nieces, and nephews).
- C. Contact with students through personal social media accounts or messaging applications when students are not immediate family members but for which explicit, parental consent has been obtained by the employee from the student's parent/guardian and whereby the employee acts within the parameters for which parental consent has been given.

LIMITATIONS NOT CONSTRUED

Nothing in this policy should be construed to:

- A. limit an employee's right to speak as a citizen about matters of public concern; or
- B. prohibit an employee from communicating with students about non-school organizations or activities for which the employee is a coach or sponsor so long as the employee's communication is in compliance with the non-school organization's standards of conduct, school district policies, the law, and Rule 27; or
- C. regulate any communication that is unrelated to the employee's position of employment with the school district and otherwise protected by the United States Constitution and the Nebraska Constitution.

DUTY TO NOTIFY

School district employees are required to promptly notify an administrator if they become aware of any situation that may constitute a violation of this policy.

Students, parents, or any other person should notify an administrator if they believe that a school district employee or any other person affiliated with the school district may be engaging in conduct that violates this policy.

VIOLATION

A violation of this policy will form the basis for employee discipline up to and including termination or cancellation of employment, filing a report with law enforcement officials, and filing a report with the Commissioner of Education.

FUNDRAISERS AND MANAGEMENT OF CASH AND OTHER RECEIPTS

Coaches and Sponsors need to keep in mind when planning fundraising activities that we live in a small community that gets asked to donate money for multiple school and community activities. Hemingford is a very generous community, but we do not want to take advantage of this situation. With that in mind please plan fundraising using the following guidelines.

Purpose

The purpose of this section is to provide guidance to coaches and activity sponsors in organizing and conducting fundraisers, to ensure that all funds raised are properly secured, managed, and deposited.

Approval Process

All proposed fundraisers must be submitted for advanced approval to the activities director, principal of the school, and the superintendent's office. The approval process includes a review of the fundraising activity, its purpose, timeline, target amount, and any potential risks. The approval process may take up to 10 business days, and no fundraising activity should be conducted until approval has been obtained. It is the responsibility of the coach/sponsor to complete the approval process. It is suggested that the coach/sponsor walks the approval process. Forms left in mailboxes or emailed may not be seen or received in a timely manner.

Fundraising Methods

Coaches and activity sponsors must ensure that all fundraising activities comply with all federal, state, and local laws and regulations, as well as any applicable school district policies. Only those fundraising activities that are legal, ethical, and aligned with the school district's values and mission should be approved. The NDE has strict compliance rules against fundraising in the form of gambling.

On-Campus Fundraising

If you are interested in selling food items at a contest that is in the gym your group will need to also be in charge of the concession stand that day as well.

You are responsible to secure and set up any tables and chairs that you need. More importantly, you are responsible for the cleaning of those items and returning them to where they are stored immediately following the competition.

Off-Campus Fundraising

This includes selling food items as examples. It also includes online sales of items like apparel and Christmas wreaths. PLEASE PLAN AHEAD! Make sure you are not selling a similar product or asking for donations for the same thing as another organization. You will not be allowed to run the same fundraiser as another group. There are some established fundraisers that organizations have been doing for several years. You will not be allowed to use the same type of fundraiser as the ones that have been

established. The Activity Director will do his outmost to guard against duplications of established fundraising activity, but the primary responsibility falls on the coach/sponsor.

The exception would be the sales of online apparel for a specific sport or activity. These sales should be held in proximity to the beginning of the activity's season.

Please plan on doing one major fundraiser. Please avoid doing a new fundraiser every month, as people get tired of getting requested for donations. Plan ahead to give yourself time to secure and return the fundraiser request, and allow for time for it to make it through the administrative channels.

State qualification apparel sales should not be run as a fundraiser and should be sold as close to a breakeven price point as possible. Chances are you have already gotten a donation from these same patrons.

Collection and Deposit of Funds

All cash and checks received during fundraising activities must be collected in a secure and tamper-proof container, which should be clearly labeled with the name of the fundraising activity and the date of collection. Coaches and activity sponsors are responsible for ensuring the safekeeping of all funds until they can be turned in to the school for deposit.

Cash and checks must be deposited in the school's bank account on a weekly (or more frequent) basis. When possible, no cash or checks should be held overnight, and no cash or checks should be used to purchase any items for the fundraiser or for any other purpose.

Accounts

All accounts should be part of the school district's financial system. No accounts are authorized on behalf of the school or in the name of the school (or any school group's name). If any accounts currently exist, they should be closed and funds deposited with the Business Manager immediately.

Records and Reporting

Coaches and activity sponsors must keep detailed and accurate records of all fundraising activities, including the name of the activity, the date, the amount of money raised, and the expenses incurred. These records must be submitted to the High School office or the Business office within 10 business days of the conclusion of the fundraising activity.

Conclusion

The success of any fundraising activity is dependent on proper planning, execution, and management. Coaches and activity sponsors should familiarize themselves with these procedures and ensure that all fundraising activities comply. Any questions or concerns regarding fundraising activities should be directed to the superintendent's office.

EXPENDITURE PROCEDURES

Purpose

The purpose of this section is to provide guidance to coaches and activity sponsors regarding expenditures made in connection with their coaching and sponsorship responsibilities.

Approval Process

All purchases or expenses made in connection with coaching or sponsoring an activity must be approved in advance by the activities director, the principal of the school, and the superintendent's office. Approval must be obtained before any purchase is made. Purchases made without approval or by personal payment (rather than through the school) will not be reimbursed. The approval process may take up to 10 business days, and no purchases should be made until approval has been obtained.

Eligible Expenses

Expenses that are eligible for purchase include items that are necessary for the successful operation of the activity, such as supplies, equipment, transportation, and registration fees. The expenses must be reasonable and necessary for the activity and must comply with all federal, state, and local laws and NSAA regulations, as well as any applicable school district policies.

Documentation and Reporting

Coaches and activity sponsors must keep detailed and accurate records of all expenses incurred in connection with the activity, including detailed/itemized receipts, invoices, and other supporting documentation. These records must be submitted to the Business Manager within three days of the transactions/etc.

Conclusion

Coaches and activity sponsors should familiarize themselves with these procedures and ensure that all expenses are necessary and comply with the policy. Any questions or concerns regarding expenses should be directed to the Business Office.

ACTIVITY FUNDS (Dual Accounts)

Purpose

The purpose of this section is to provide guidance to coaches and activity sponsors regarding the management of activity funds and the use of the two separate accounts.

Activity Fund Accounts

Each activity will have two separate accounts: one account funded by the school district through transfers from the general fund, and the other account funded by students fundraising, hosting camps/clinics, and donations. The purpose of each account is as follows:

School District Funded Account

This account is funded by the school district and is used to help with required and necessary costs, such as registration fees and the cost of officials hired by the school during the activity season. The funds in this account are intended to support the basic operations of the activity and ensure that all required and necessary costs are covered including practice and game equipment, game uniforms, and first aid supplies.

Student Funded Account

This account is funded by students fundraising, hosting camps/clinics, and donations. The funds in this account may be used to help pay for supplemental equipment, personalized warm-up attire, meals for teams during travel, summer development activities, and other various needs of each program including uniforms purchased outside of the regular rotation. The funds in this account are intended to support activities beyond the basic operations covered by the school district-funded account.

Honor Cords and Other Recognition Items

When the principal approves the use of graduation honor cords, the cost of those cords will be paid for by the student-funded account or by the students themselves. Other recognition items provided to seniors or for other special recognitions will also be paid for by the student-funded account.

Use of Funds

All funds received by each activity must be deposited into the appropriate account. Coaches and activity sponsors must ensure that all expenditures are made in accordance with the purpose of each account. All expenditures must be approved in advance by the activities director, principal of the school, and the superintendent's office, and all expenses must be supported by appropriate documentation, including detailed/itemized receipts, invoices, and other supporting documentation.

Accounting and Reporting

All funds received and expended by each activity must be recorded and reported in accordance with generally accepted accounting principles and any applicable school district policies. Coaches and activity sponsors must maintain accurate and detailed records of all activity funds, including receipts, invoices, and other supporting documentation. These records must be submitted to the principal of the school or the superintendent's office on a regular basis.

Conclusion

Coaches and activity sponsors should familiarize themselves with these procedures and ensure that all activity funds are managed in accordance with the purpose of each account. Any questions or concerns regarding activity funds should be directed to the superintendent's office.

BOARD POLICY: STAFF CONDUCT WITH STUDENTS - 0402.15

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;
- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;
- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and
- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;
- Maintaining personal contact with a student outside of school by phone, email, Instant Messenger or Internet chat rooms, social networking websites, or letters (beyond homework or other legitimate school business);

- Exchanging personal gifts (beyond the customary student teacher gifts); and/or
- Socializing or spending time with students (including but not limited to activities such as going out for meals or movies, shopping, traveling, and recreational activities) outside of school sponsored events or except as participants in organized community activities.

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

APPENDIX B: CHAIN OF COMMAND, CONFLICT RESOLUTION, AND COMMUNICATION

HEMINGFORD PUBLIC SCHOOLS

Chain of Command

Directives for School Personnel

Conflict Resolution Responsibilities:

All school employees have a responsibility to ensure individuals are directed to the appropriate source for resolving their conflicts. If people complain about decisions, practices, or staff members, direct them to the person with whom they have an issue. If they have already addressed the issue with that person, guide them to the next level in the chain of command. Avoid sympathizing with those who do not follow proper channels, as this erodes trust and undermines effective team dynamics.

Speaking Well of Others:

Except during necessary evaluations or assessments, school employees are to avoid making unkind or critical remarks about any employee, student, parent, or administrator. Blaming others when things do not go well erodes trust and undermines the collaborative culture in our schools.

How to Effectively Communicate with Our School Team

When students, parents, or community members need to work through questions or issues, it is essential to know whom to contact. This document outlines the appropriate contacts for various matters, starting with the first person listed. Most issues can be resolved at this initial level. If necessary, appointments can be made with the next person in the chain of command.

Matters involving student schedules and course placement:

1. Classroom Teacher
2. School Counselor
3. Principal
4. Superintendent

Matters involving instruction/curriculum:

1. Classroom Teacher

GENERAL INFORMATION

PURPOSE

This handbook is prepared for the purpose of providing information on customs and policies pertaining to the Hemingford Schools. It is intended for use by substitute staff as a guide in developing a well-coordinated instructional program. It is hoped the statements set forth in this handbook will improve understanding and cooperation among all school personnel in the coming school year. It is the purpose of this handbook to establish uniformity of operation. It will be supplemented from time to time as board policy, superintendent policy or the principals' policies are changed.

WHEN TO ARRIVE

When possible, substitute support staff are asked to arrive at 7:45. If you were called late and cannot be at the school by then, please make sure the building secretary knows and can make plans for supervision of students until you are able to arrive. Students will be entering classrooms at 8:00, so please arrive early enough to get settled in, read through any supervision assignments, and be prepared to greet students when they arrive in your classroom.

WHEN TO DEPART

Unless there is a need for afterschool supervision, please plan to see the students out the door and safely to dismissal at the end of the day. Once the students have left, please complete any notes to the regular teacher and let the office secretary know you are leaving, either by stopping by the office on the way out of the building or by placing a message with the secretary through the school phone system. Once parents and students have cleared the parking lot, please feel free to leave, even if the regular teachers are required to stay longer.

PAYMENT

Payroll periods begin with the first workday of the month and end with the last workday of the month. Pay for the work period is made on the 15th following the previous month's last workday. As an example, the September payroll will reflect days worked in August.

EMERGENCY PROCEDURES

Each classroom has an Emergency Response Manual. Please be sure to know the location of each of this manual and take a few moments to review the contents in the event of an emergency.

STUDENT ILLNESS

If a student is sick, please contact the office and work with the secretary to determine whether to send the student to the nurse or to request assistance from the nurse in the classroom.

PHONE OPERATION

Please familiarize yourself with the operation of the telephones in each building where you work as a substitute. The building secretaries and principals can provide a brief overview.

COMPLIMENTARY LUNCH

Substitutes receive a complimentary lunch from the school nutrition program when working.

BAD WEATHER/SCHOOL CLOSING

The importance of notifying employees, parents, and students when school will be delayed in opening, not opened at all, or be dismissed early is of prime concern. We will be using an automated messaging system (Remind) which will allow the school to contact each family with regard to school closing and other notifications. Please sign up to receive the Remind messages. If you need help getting signed up, please ask any administrator. Please ensure that the school district is continually notified of any changes to your contact information. The school also uses local radio station KCOW, KNEB, and KCSR to inform staff, parents, and students of closing due to inclement weather. The school will make every effort to make this information available as soon as possible.

CLASSROOM MANAGEMENT

Certified teachers have the primary responsibility of managing their classrooms in a manner that allows students to effectively accomplish their learning tasks. Support staff assist the certified teachers with this task. Realizing there is a wide variety of teaching styles, learning styles, and subject content, classroom management should also vary. There are, however, some common procedures teachers of well-managed classrooms follow:

1. Be prepared for class. When the bell rings, be in the classroom ready to assist.
2. Be a neat dresser, well groomed; be businesslike and friendly.
3. Do not allow students to address you by your first name or a nickname. (Ex. Ms. Pat is allowed for younger students, but simply Pat is not.)
4. Follow the classroom expectations and model those expectations to the students.
5. Be consistent each day of the school year.
6. Avoid punishing the entire class for the actions of a few.
7. Avoid comments to students you would not make in the presence of their parents.
8. Avoid comments or actions that could humiliate a student.
9. Be willing to apologize.
10. Communicate with the classroom teacher or special education teacher via email or note: sharing success and concerns during your coverage.
11. Avoid arguments with students in front of a class. Even if you win, you've lost.
12. Be enthusiastic. If you don't want to be here, neither will the students.
13. Keep the level of your voice under control. Avoid yelling.
14. Be specific with assistance and instructions. Facilitate success.

15. Get to know your students, take an interest. Attend activities.
16. Physically manhandling students will not be supported, except when defending yourself, separating students in a confrontation, or preventing injury to a student.
17. Seating arrangements should be maintained in classrooms.
18. Certified teachers assign consequences and/or detentions. Do not assign detentions directly to students. Speak to the teacher about your concern and the teacher will assign the consequence.
19. Limit free time; maintain appropriate support.
20. Staff and Student personal cell phones and electronic devices, including ear buds, will remain off and out of sight.

COMMUNICATION

Support staff at Hemingford Public Schools are expected to utilize effective communication strategies and technological resources when appropriate to collaborate and engage with certified staff members, other support staff, administrators, and students. Direct communication to parents and families should be done by the certified teacher or administrator. Engage with the community in a way that leads to positive impressions.

COMMUNITY RELATIONS

The Board of Education, through the administration, demands dignity, neatness, and seriousness of purpose for its staff members. The teaching profession, as a whole, is frequently and unjustly judged by the attitude and conduct of a single person. Since all are judged by what only a few may do, it is imperative that each of us give considerable thought to our actions as they relate to community customs. Support staff should regard the community in which they are employed as their home. Good judgment should be used in all practices. Poor public relations can ruin the finest faculty in a good school. It is imperative that we all use common sense and discretion in and out of school.

CONFIDENTIALITY AND CONFIDENTIALITY OF RECORDS

Employees should not discuss school matters outside the job nor discuss confidential or personal information about students or staff. Requests from anyone, including fellow building staff members, for personal information about students or staff should be referred to the principal. School staff shall maintain student records in compliance with state and federal law.

CUSTODIAL ASSISTANCE

Our custodians strive to keep the school neat, clean and functional. It is a difficult job, and we should all encourage students to conduct themselves in ways that contribute to an attractive and safe environment. If custodial assistance is needed, all requests should go through the building principal's office.

DISCIPLINE

Substitute support staff are expected to enforce reasonable classroom rules and consequences. Students should know what behaviors are expected, and these expectations should be firmly but fairly enforced. Discipline does not automatically mean

punishment, but it does always mean encouraging a desired behavior. Threatening, yelling, criticism, sarcasm, etc. are questionable discipline techniques and often prove inadequate. The student's improper behavior should be the focus of the discipline and not the student's personality, family, dress, appearance, etc. Discipline that punishes all students for the wrongdoing of a few is discouraged. The certified teacher is responsible for implementing discipline, however, substitute support staff may remind the students of the rules and the expected behaviors. Discipline is a very important factor in the success of any school.

Discipline is the responsibility of each individual certified teacher. The principal's role is to assist and advise in the event of flagrant or continued misbehavior. Flagrant misbehavior should be brought to the attention of the principal immediately. A student shall not be sent to the office without an explanation of the offense. If assistance is needed in the removal of a student, the teacher may send the substitute support staff to the principal's office immediately for assistance. Corporal punishment may never be administered. Students causing excessive discipline problems may be recommended to the Superintendent for expulsion.

GUM AND CANDY

When gum is allowed in classrooms, it should be disposed of properly. Candy may be allowed on special occasions when it is permitted by the teacher. Certain elementary grades and secondary courses, such as band and choir may restrict the use of gum and candy for safety and equipment reasons.

HALL SUPERVISION

Every teacher is expected to step into the hall between classes to help maintain order. Students must be supervised at all times when they are on school premises because of possible accidents and subsequent liability. Substitute staff are to file all accidents no matter how large or small. Lawsuits can happen several years later. A written record could be great assistance in presenting requested testimony. This documentation should be given to the building principal.

MUTUAL RESPECT

The Hemingford Public Schools expects every staff member and student to be treated with respect and dignity.

PARKING AT THE ELEMENTARY SCHOOL

In order to provide a safe and invitational atmosphere to parents and visitors, staff members are to refrain from parking in the parking spaces located directly in front of the school building. These spaces are to be reserved for parents and other visitors to the school.

PROFESSIONALISM AND CODE OF ETHICS

Professional conduct is expected from all personnel of Hemingford Public Schools. This behavior is reflected in your dress and grooming, relationships with students and

parents, and interaction with your peers. A positive school climate is critical to everyone's success.

RADIOS AND OTHER COMMUNICATION DEVICES

All staff should take a handheld radio with them when out of the school building. One staff member should always have a radio at recess in order to facilitate effective and timely communication. Support staff escorting students to the bus should always take a radio with them.

RECESS SUPERVISION

Supervision of students at recess or other non-instructional times is an expectation for Substitute Paraprofessionals in the district. When supervising please engage in the practices described in the "Supervision of Students" section of this handbook.

SANITATION, HEALTH, AND ROOM MAINTENANCE

Substitute Paraprofessionals are expected to engage in keeping a sanitary classroom. This includes directing students in the process of regularly sanitizing desks, counters, doorknobs, light switches, and other frequently touched surfaces, according to specific instructions given by the Building Principal or Superintendent, in addition to the regularly scheduled sanitation by the custodial staff. Substitute Paraprofessionals may be expected to engage in monitoring student health including taking temperatures, recording health screening data, and reporting any health concerns to the school nurse or other designated individual, according to specific instructions given by the Building Principal or Superintendent. Substitute Paraprofessionals are expected to serve as role models in meeting and complying with health practices and guidelines, including those enacted for public health purposes. If you are the last one in the classroom at the end of the day, before leaving the classroom close windows, turn out all lights, close the door, and ensure sure the room is locked.

SCHOOL BOARD POLICIES

School Board policies are made available to the staff and to the public. Please direct any questions about Board policy to the Superintendent.

STUDENT CONDUCT

A student handbook will be used to familiarize students and parents or guardians with the school's practices and procedures. Students will be given a copy of the handbook, which will explain general regulations and requirements. Students are expected to act, dress, and conduct themselves in the school building and at school-sponsored events, in such a fashion that their behavior and dress will reflect favorably on the individual and on the school, will show consideration to fellow students, and will create a harmonious school atmosphere. All students must recognize their individual responsibilities and obligations and discharge them in accordance with the school regulations.

All staff members are responsible for overseeing the conduct of students, both during school hours and at school-sponsored events. In each instance in which an employee

acts to help a student conduct him/herself properly, emphasis shall be placed upon the growth of the student and the ability to discipline him/herself.

STUDENT PASSES

Substitutes should limit the amount of traffic in the hallways during class time. It is a distraction to other classes. The student is to go directly to the designated destination and return. Please make an effort to reduce hall wandering. Limit restroom and drink privileges to one student leaving the room at a time. Electronic passes are required for students leaving the classroom for any reason.

SECTION 504 PLANS, IEP PLANS, STUDENT ASSISTANCE TEAM PLANS, DYSLEXIA PLANS, READING INTERVENTION PLANS, AND BEHAVIORAL/HEALTH PLANS

Students may have plans to receive individualized accommodations or modifications. The regular education teacher, principal, school counselor, and special education teachers can provide guidance and strategies for substitutes to work with students to implement such plans.

STAFF DRESS

Staff members should be conscious of the importance of appropriateness and neatness in dress and grooming. Set a positive example. Business casual attire is appropriate. This includes polos, button down shirts, dress pants, khaki's, etc. The wearing of T-shirts should be limited to promotion of school spirit and messaging that supports educational initiatives and school endorsed educational causes, such as post-secondary learning promotion, “#BeKind,” and “I Love Public Schools” days. Staff attire needs to be compliant with expectations for student dress. Staff Members are permitted to wear jeans on Fridays when they have contributed to the jean scholarship program. Staff members will wear shoes at all times.

STUDENT DRESS CODE

Certified teachers will send students to the office, or notify the office, if a student's clothing or dress is questionable. If the substitute support staff has a concern about a particular student's attire, please let the certified staff member know and have them send the student to the office if necessary. The final decision will rest with the administration.

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation. Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate. Such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration. No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student’s gender, race, color, religion, disability, or national origin. No school staff shall ever permanently or temporarily alter or cut a student’s hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The

final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

STUDENT ERRANDS

Students are not to be sent on errands during the school hours unless by permission of the principal. Students are entrusted to our care, therefore, it is essential that we know where they are at all times. Notify the principal well in advance when you desire to go with your groups during school time on class trips.

STUDENT HANDBOOK

All staff members should be familiar with and know the student handbook, encouraging students to know and follow its guidelines and regulations, too.

SUPERVISION OF STUDENTS

Proper supervision of students is an important responsibility for Substitutes and other adults responsible for our students. Substitutes and other adults responsible for student supervision are expected to meet the following:

Proper Supervision

1. Report to all duty assignments on time.
2. Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
3. Be vigilant while supervising students. **Never leave your students unattended;** the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave your classroom, request that another nearby staff member cover your class, or notify the office so someone can provide assistance. If you are on recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students are doing.

4. If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. Remember, though, that this type of information is confidential - do not share confidential information about students except with other staff who need to know the information to perform their jobs.
5. Refrain from touching students. Use of corporal punishment is prohibited at Hemingford Public Schools. Touching students should be limited to that necessary to protect the student from harm (e.g., falling from playground equipment).
6. Be careful with your language. Profanity or abusive language should not be used by you. Be a good role model for students. If a student uses such language, you should correct the student and let the certified teacher know so the teacher can such disciplinary action as is appropriate, which may include making a report to the administration.

Proper Instructions

1. Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
2. Remind students of the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume students heard the directions or that they will be remembered.
3. Review playground and classroom safety rules with students as needed. Remind students of the rules any time you notice the rules are not followed.

When To Contact the Principal Immediately for Assistance

The principal should be contacted immediately when a situation exists which could cause injury to students or others. Examples include:

1. Student fight
2. Student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
3. Reported incident or a suspicion that a student has a weapon or other dangerous item(s), drugs, alcohol, or other illegal substances
4. Presence of an intruder (a non-student or staff member who refuses to go office)

Student Searches

Substitute support staff should notify the certified teacher and/or school principal of any situation in which a student is suspected of having an item in violation of school rules. Substitutes are not to conduct searches of students or their belongings.

Student Rights

Students should be treated fairly and given the same treatment without consideration of race, color, religion, gender, or disability. Students who need special accommodations should be given those accommodations as needed for them to participate in school and school activities. Further, students have the right to have their school records kept confidential. Such information should be shared only with other school staff with a need to know the information to perform their duties.

TEACHERS' WORKROOM

The work room is to be kept as neat as possible. Avoid discussing individual students in the teacher's workroom. Additionally, ensure that communications in the teacher's work room are positive and conducive to a productive and effective school climate. Parents and community members often form impressions of our schools based upon the professionalism exhibited in the school offices and in the teachers' workroom and teachers' break room. Your assistance in this is greatly appreciated.

TELEPHONE

Substitutes are welcome to use the school telephone. The school telephones are not to be used for personal long distance calls. School telephones are tax exempt and are to be used for official school business only. Substitutes **will not** be called to the telephone during class time except in case of emergency.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video cameras on Hemingford School District property to ensure the health, welfare, and safety of all staff, students, and visitors to District property; and to safeguard District facilities and equipment and to further the educational process. Video cameras may be used in locations as deemed appropriate by the Superintendent.

Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies. Teachers may videotape instruction and other classroom activities to make available to students who were absent or who would like to otherwise review such content.

VISITORS

All visitors are to be directed to the principal's office. This is for the preservation of classroom order as well as to protect students and staff. Parental interest and concern should be welcomed. However, if a visitation becomes hostile, another teacher or an administrator should be present. All direct communication with parents should be done by the certified teacher, however, substitute support staff should be prepared to support any issues you discuss with the teachers with sufficient documentation. Students and school employees are not to open any doors for non-school personnel, as visitors must

enter through the main doors to the building and check-in at the office. School employees have the responsibility and the right to question visitors in the building.

WORK AREA SAFETY AND ACCIDENT REPORTING

All employees share in the responsibility for maintaining a safe and healthy school environment. Any unsafe or unhealthy conditions in the immediate work area, building, or on the school campus should be reported immediately to the school principal. In the event of an accident to an employee, student, or visitor, the safety and care of the injured individual should be of primary concern. A written report of the incident should be made to the principal within 24 hours, if not sooner. An incident which requires the attention of medical personnel and any other incident deemed important by the principal, should be reported to the superintendent of schools.

EYE AND FACE PROTECTIVE DEVICES

Instructors or sponsors of groups using laboratories, including science, art or shop areas will be responsible for seeing that individuals or groups working with the following materials or in the following areas will wear the appropriate eye and/or face protection or other protective gear deemed appropriate:

(1) Every student and teacher in schools or other educational institutions shall be required to wear appropriate industrial-quality eye protective devices at all times while participating in or observing the following courses of instruction:

(a) Vocational, technical, industrial arts, chemical, or chemical-physical, involving exposure to:

- (i) Hot molten metals or other molten materials;
- (ii) Milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials;
- (iii) Heat treatment, tempering, or kiln firing of any metal or other materials;
- (iv) Gas or electric arc welding or other forms of welding processes;
- (v) Repair or servicing of any vehicle; or
- (vi) Caustic or explosive materials; and

(b) Chemical, physical, or combined chemical-physical laboratories involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other hazards not enumerated.

Such devices shall be furnished by the school or educational institution for all students, teachers, and visitors to shops and laboratories of such institutions. Teachers are directed to ensure that the proper devices are available and in use prior to any instruction or observation.

(2) For purposes of this section, unless the context otherwise requires, industrial-quality eye protective devices means devices which meet the standard of the American National Standard Practice for Occupational and Educational Eye and Face Protection, Z 87.1(1979) as approved by the American National Standards Institute, Inc.

CLOCKING IN AND REPORTING WORK HOURS

Employees will be expected to accurately report hours worked through district software used for time reporting. Timely and accurate tracking of hours through the electronic system is necessary for calculation of payroll and reporting of hours to the Nebraska Public Employees Retirement System (NPERS)

OVERTIME OR COMP TIME

Overtime is paid to classified employees in accordance with the Fair Labor Standards Act (FLSA). A publication provided by the federal government which provides more information about the FLSA is displayed at your workplace or a copy is available from the Human Resources Department. The District may provide compensatory time in lieu of overtime pay to employees, at the Superintendent's discretion on a case by case basis, in accordance with applicable law. ALL overtime and comp time must be pre-approved by supervisor.

The regular workweek for overtime purposes is from 12:00 a.m. on Sunday through 11:59 p.m. on Saturday. The administration may establish a different 7-day period workweek from time to time for specified employees or employee groups.

Employees will be expected to accurately report hours worked through district software used for time reporting. Falsification of time worked is a serious offense.

Employees must receive prior approval from their supervisor to work additional hours beyond their regular work schedule. Non-exempt employees will be paid overtime rates for each hour worked in excess of 40 hours in a workweek and are expected to accurately and timely report overtime hours to their supervisor.

Overtime calculations do not include payment for idle hours when the employee is not at work. Idle hours include vacation, holiday, sick time, and all other types of leave offered to classified employees. Employees who use leave during a week will not be compensated for overtime until time actually worked exceeds 40 hours in the same workweek. For example, if an employee uses eight hours of personal leave on Monday and then works 44 hours between Tuesday and Saturday, only four hours will be considered overtime for that workweek.

Overtime pay for non-exempt employees will be paid at the rate of not less than 1½ times the employee's regular rate of pay for hours worked in excess of the 40 hour workweek. Employees with two or more non-exempt positions may be eligible for overtime pay based upon the total number of hours worked in one workweek. If applicable, the employee and the Superintendent or designee will agree upon the overtime rate in compliance with FLSA regulations.

A non-exempt employee may request or the district may provide compensatory time in lieu of overtime pay, with prior written approval of the Superintendent, with the rate figured as 1½ times the number of hours worked in excess of 40 hours in any work week. Compensatory time must be used within a month of earning the time. Extended time for using compensatory time must be approved by the Superintendent on a case by case basis.

The District's policy is to not permit improper deductions from the salary of exempt employees who are required to meet a "salaried basis" test for the overtime exemption to be applicable. An employee who feels an improper deduction affecting exemption status has occurred may submit a complaint to the Superintendent or designee, who shall promptly investigate the complaint. Reimbursement shall be made and a good faith commitment to comply in the future will be given in the event it is determined that an improper deduction affecting overtime exemption has been made.

DUTIES AND RESPONSIBILITIES

HOURS OF WORK AND MEETINGS

Substitute support staff are to utilize a method determined by the superintendent to record work time. Employees are to clock in and clock out at their scheduled work start and end times each day. Failure to do so may result in a review of the employee's work responsibilities and schedule. Non-compliance with procedures and assignments may result in termination of employment.

In the event an employee forgets to clock in or out, the employee is required to send an email with the information about the missed punch, the reason for the missed punch and actual time of arrival or departure from work to Kristy Hanks, Business Manager. khanks@gubn.org

ARRIVAL TO DUTY ASSIGNMENTS

Substitute support staff work assignments may or may not be related to the regular school day. These employees are expected to know their duty dates and times and to be on time for work. All duty times are subject to assignment by the direct supervisor, the building principal, and the superintendent.

LEAVING SCHOOL/ASSIGNMENT

Employees are to be on duty at all times during the assigned work day. Employees may not leave school or their assigned area during duty hours without approval of the Principal or their supervisor.

Employees who leave the school during their designated lunch period or for an approved absence must check out with the Principal's office or their supervisor when leaving and check back in upon return. Employees who need to leave during the school day for reason of illness or emergency are to make sure that a responsible person has been notified of their unexpected absence so work coverage may be

provided. When employees leave school for any non-work reason, including lunch, they are to clock out before leaving and clock in upon return. If employees are on site and available/willing to work during the lunch period they may remain clocked in during their lunch time.

SCHOOL PROCEDURES

Employees are expected to adhere to the following school procedures in the performance of their duties:

1. Use of Cell Phones. Employees are to refrain from use of personal cell phones for non-school purposes during duty time.
2. Employees are not to use cell phones or otherwise engage in distracted driving while transporting students or using school vehicles. This rule applies to the driver when the vehicle is in motion. The only exception would be in the case of emergencies. Employees will abide by all rules of the road and any applicable rules of the Nebraska Department of Education and the District relating to driving a motor vehicle. Seat belts and child restraint systems are to be utilized by all occupants.
3. Employees are not to use radar detectors, laser detectors, or similar devices while transporting students or using school vehicles.
4. Checking Out of Equipment. All equipment must be checked out through the appropriate office. School equipment may be used only for school purposes. School equipment and other resources may be used for personal purposes only as authorized by Board policy or contract.
5. E-mail. Use of the District's e-mail system for personal communications should be limited and is subject to the rules governing overall computer usage found in Board policy.
6. Follow IEP and 504 Plans for the students for whom you are responsible. Be attentive and respond to "bullying." Maintain the confidentiality of student records. Student record information should be shared only with other school staff with a need to know the information to perform their duties.

DISPENSING MEDICATION

Employees are not permitted to give any medication to students unless trained under the Medication Aide Act. To ensure the proper care of our students, employees who are asked to take the medication training and administer medications shall do so.

Students who need to take prescription medicine must have a signed parent release form on file in the office. Medications are to be taken in the presence of the office staff, the nurse, or medication aide and are to be stored in the nurse's office; with the exception of students who have a diabetes self-management or asthma self-management plan. Medical procedures are not to be administered in the classroom except in accordance with the District's Safety and Security Management Plan and the District's Emergency Protocol (asthma/anaphylaxis protocol).

If students must take medication and/or perform medical procedures prescribed by a duly licensed physician during school hours, it is the responsibility of the parents or guardians to sign permission slips to dispense the medicine at the school and to submit a note or prescription from the physician authorizing the medicine and/or medical procedure. School district personnel are not to administer medicine, including over the counter medicine, without a signed form and note or prescription. Any medication brought to school needs to be properly labeled. The label should include the following information: student's name, name of medication, dosage needed, and time of dispensing the medication.

REPORTING CHILD ABUSE

Employees are to be familiar with and follow the Child Abuse Policy No. 4105.

ROLE MODEL

Employees serve as role models for students and their actions and conduct reflect on the school as a whole. Employees are in all respects to conduct themselves in a professional manner.

All employees are expected to observe and maintain professional boundaries between themselves and students. A violation of professional boundaries will be regarded as a form of misconduct and may result in disciplinary action.

The following non-exclusive list of actions will be regarded as a violation of the professional boundaries that employees are expected to maintain with a student:

- Using e-mail, text messaging, instant messaging or social networking sites to discuss with a student a matter that does not pertain to school-related activities, such as the student's homework, class activity, school sport or club, or other school-sponsored activity. Electronic communications with students are to be sent simultaneously to multiple recipients, not to just one student, except where the communication is clearly school-related and inappropriate for persons other than the individual student to receive (for example, e-mailing a message about a student's grades).
- Engaging in social-networking friendships with a student on SnapChat, Facebook, Instagram, or other social networking site. Material that employees post on social networks that is publicly available to those in the school community must reflect the professional image applicable to the employee's position and not impair the employee's capacity to maintain the respect of students and parents or impair the employee's ability to serve as a role model for children.
- Engaging in sexual activity, a romantic relationship, or dating a student or a former student within one year of the student graduating or otherwise leaving the District.

- Making any sexual advance – verbal, written, or physical – towards a student.
- Showing sexually inappropriate materials or objects to a student.
- Discussing with a student sexual topics that are not related to a specific curriculum.
- Telling sexual jokes to a student.
- Invading a student's physical privacy (e.g., walking in on the student in a restroom).
- Hugging or other physical contact with a student that is initiated by the employee when the student does not seek or want this attention.
- Being overly "touchy" with a specific student.
- Allowing a specific student to get away with misconduct that is not tolerated from other students, except as appropriate for students with an IEP or 504 Plan.
- Discussing with the student the employee's problems that would normally be discussed with adults (e.g., marital problems).
- Giving a student a ride in the employee's personal vehicle without express permission of the student's parent or school administrator unless another adult is in the vehicle.
- Taking a student on an outing without obtaining prior express permission of the student's parent or school administrator.
- Inviting a student to the employee's home without prior express permission of the student's parent and school administrator.
- Going to the student's home when the student's parent or a proper chaperone is not present.
- Giving gifts of a personal nature to a specific student.

Appropriate exceptions are permitted to the foregoing for legitimate health or educational purposes and for reasons of familial relationships between employees and their children who are students in the District.

Employees who observe or become aware of a violation of the foregoing expectations by other employees are to report the matter to the Principal or the Superintendent.

RELATIONSHIPS

It is important for employees to maintain an effective working relationship with the administration and all co-workers. Employees are also to maintain appropriate relationships with students. Appropriate relationships are established by extending social courtesies, following through on commitments and promises, complying with administrative directives and Board policies, being honest and consistent, and not intruding into personal matters outside the scope of duties, gossiping, or spreading rumors about others.

CIVILITY

All employees shall behave with civility, fairness and respect in dealing with fellow employees, students, parents, patrons, visitors, and anyone else having business with the District. Uncivil behaviors are prohibited. Employees may be subject to disciplinary action up to and including termination for engaging in uncivil behaviors.

Uncivil behaviors are any behaviors that are physically or verbally threatening, either overtly or implicitly, as well as behaviors that are coercive, intimidating, violent or harassing. Such interactions are prohibited in all forms of communication, including telephone conversations, voice mail messages, face-to-face conversations, written communications, and email messages. Any employee aware of another employee's uncivil behavior shall report the conduct to the employee's immediate supervisor or to the Superintendent. There will be no retaliation against a person for making the report.

CONFIDENTIALITY AND CONFIDENTIALITY OF RECORDS

Employees should not discuss school matters outside the job nor discuss confidential or personal information about students or staff. Requests from anyone, including fellow building staff members, for personal information about students or staff should be referred to the principal. School staff shall maintain student records in compliance with state and federal law.

CRISIS SITUATIONS

Behavior in the first moments, by those actually involved in a crisis situation, will largely dictate the outcome. In the event of a crisis situation, Hemingford School personnel are expected to follow the procedures as written in the Emergency Responses Manual.

FORMS, REPORTS, AND RECORDS

The following items need to be supplied to the Superintendent's Office and updated as needed.

1. W4's
2. Address
3. Telephone Number

INSTRUCTIONAL AND WORK AREAS

The appearance of the school and school grounds has an impact on the learning that occurs. Take pride in your educational setting, as well as your work. Be an example for students. When a room is unoccupied, lock and shut doors behind you and shut off lights. ***School employees assigned to supervise students are expected to be with their students during the entire period for which their supervision is assigned.***

Upon leaving an area please ensure that: a) materials and equipment are stored properly, b) chairs and desks are properly placed, c) the floor is free of litter. School employees using the building after hours must check all lights and doors and see that all students are out of the building. Students are not to be left to close the building. Whenever the facility is being used, there must be a staff person present and directly supervising the students. Do not give your keys to students or any other person. Individuals and organizations wishing to use the school facilities must complete an Application for Facility Use and submit such application to the office for approval.

OBSERVING AND ENFORCING RULES

It is the duty of each school employee to become familiar with the rules, regulations, and policies of the school and to do all that you can at all times to see that they are enforced. Ignorance of the rules does not excuse you.

PUBLICITY/PUBLICATIONS

Take pride in the school and be proud to tell about the positive elements of the school. Any items to be submitted to local papers or sent home to the parents should be appropriate and approved by the building principal. Any concerns should be presented to the principal in advance. The Secondary Principal shall serve as the editor of all student publications.

SAFETY INSTRUCTIONS

All other faculty members who supervise activities or classroom activities where a student could sustain an injury from the activity, will also conduct a class on the dangers and the safety precautions to be used during the activity or classroom sessions.

SCHOOL BOARD POLICIES

School Board policies are made available to the staff and to the public through the school website. Staff are encouraged to become familiar with board policies. Please direct any questions about board policy to the Superintendent. Policies can be accessed at the following link:

<https://meeting.sparqdata.com/public/Organization/Hemingford>

SCHOOL KEYS

No key is to be duplicated without the Superintendent's written permission. DO NOT GIVE YOUR KEYS TO ANY ONE ELSE TO USE. Staff members may be required to pay for the cost of lock/key replacement in the event that the staff member's keys are lost, misplaced, or stolen.

STAFF WELLNESS

Hemingford Public School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. Staff members are expected to serve as role models for students in the area of wellness. HPS staff members are encouraged to serve as healthy role models for students.

SELECTED BOARD POLICIES

EMPLOYEE GRIEVANCES - 0402.05

School employees are encouraged to solve difficulties and problems within the school or department in which they are employed. In the event that a difficulty or grievance cannot be settled within the school or department, the employee is encouraged to bring the matter to the attention of the district administrator in charge of certificated personnel. This grievance procedure serves to secure, at the lowest possible administrative or supervisory level, proper and equitable solutions to grievance, and to guarantee orderly succession of procedures within which solutions may be pursued. School personnel are encouraged to ask their immediate supervisor for assistance on any matters that relate to their duties.

It will be incumbent upon all district employees to follow these procedures to settle their grievances. Within this general framework the following specific purposes are to be served by this grievance procedure:

1. To ensure that a complaint is considered fairly, with all due speed and without prejudice or reprisal to the aggrieved person.
2. To encourage teacher expression regarding conditions that affects him or her professionally.
3. To provide a specific procedure that will facilitate the understanding of district policies that affect teachers.
4. To build confidence in the sincerity and integrity of the procedure as a means to establish the facts upon which a grievance is based and a fair conclusion is reached.

Nothing in this policy shall contradict the requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board.

STAFF CONDUCT WITH STUDENTS - 0402.15

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Any type of sexual or inappropriate physical contact with students or any other conduct that might be considered harassment under the Board's policy on Harassment By Employees;
- Singling out a particular student or students for personal attention and friendship beyond the normal teacher-student relationship;
- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;

- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;
- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and
- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;
- Maintaining personal contact with a student outside of school by phone, email, Instant Messenger or Internet chat rooms, social networking websites, or letters (beyond homework or other legitimate school business);
- Exchanging personal gifts (beyond the customary student teacher gifts); and/or
- Socializing or spending time with students (including but not limited to activities such as going out for meals or movies, shopping, traveling, and recreational activities) outside of school sponsored events or except as participants in organized community activities.

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

This policy shall be included in future employee, student and volunteer handbooks.

APPENDIX A: CHAIN OF COMMAND, CONFLICT RESOLUTION, AND COMMUNICATION

HEMINGFORD PUBLIC SCHOOLS

Chain of Command

Directives for School Personnel

Conflict Resolution Responsibilities:

All school employees have a responsibility to ensure individuals are directed to the appropriate source for resolving their conflicts. If people complain about decisions, practices, or staff members, direct them to the person with whom they have an issue. If they have already addressed the issue with that person, guide them to the next level in the chain of command. Avoid sympathizing with those who do not follow proper channels, as this erodes trust and undermines effective team dynamics.

Speaking Well of Others:

Except during necessary evaluations or assessments, school employees are to avoid making unkind or critical remarks about any employee, student, parent, or administrator. Blaming others when things do not go well erodes trust and undermines the collaborative culture in our schools.

Section 2: Building Hours

The building is open every day from 7:30 to 4:00 every day that school is in session. Teachers will be on duty from 7:45 to 4:00 Monday thru Thursday and 7:45 to 2:15 on Fridays, unless otherwise determined by the administration. The school secretary is available daily from 7:30 to 4:00.

Section 3: Severe Weather and School Cancellations

Ref: SB Policy: 905.08

The Superintendent of schools is authorized by the Board of Education to close public schools in case of severe weather. The Superintendent will notify parents through the appropriate means and also notify local news media when inclement weather warrants such action. The information is broadcast regularly by radio stations, (KCOW AM 1400, KQ 106 & 97.5 FM, KPNY 102 FM, KMOR 92.9 FM). If schools are closed due to severe weather conditions, all after-school activities will be canceled.

Parents should assume that school is open and a regular schedule is being followed if there is no announcement concerning the school district. Please do not call the school or individual staff members to find out whether school is being canceled. Parents who do not believe it is safe to transport their students to school may keep their students home after contacting the district office.

Emergency Conditions. Hemingford Public Schools has a procedure that, when activated, includes the evacuation of the building or moving to safer areas of the building. All regular drills are held as required by law throughout the school year. There are plans for an Emergency Exit system, Tornado Warning System, and Critical Incident Response.

Section 4: Open-Closed Campus

Ref: SB Policy: 602.03

All K-6 students are required to remain on campus during the school day unless other arrangements have been made by parents/guardians. Campus is open for all 7 - 12 students during lunch. Students who violate school policies and rules may have lunch privileges revoked. If students are utilizing open campus lunch they should leave school grounds and not return to the building or school grounds until the end of the lunch period. Students will reenter the building through the main entrance. **The school does not provide supervision for any student that leaves the designated lunch area at any time during the open campus lunch period.**

Section 5: Distribution of Food

Students are not permitted to distribute or sell food, beverages, or other items on school property without prior approval from the administration. The Nebraska Competitive Food Rule requires that no other program or school group sell food or beverages anywhere on the school campus without prior approval and is required to comply with specific guidelines. Any teacher or staff member has the right to confiscate food products from students during the school day that do not comply with Section 6: Food and Drinks.

Section 6: Food and Drinks

While gum is allowed in classrooms, it should be disposed of properly. Candy may be allowed on occasion when it is permitted by the teacher. Certain elementary grades and secondary courses, such as band and choir may restrict the use of gum and candy for safety and equipment reasons. Snacks that follow the school's wellness policy are permitted in the classroom. Large bags of food or candy, along with sugary drinks, coffee/smoothies, and energy drinks are a distraction from the educational environment for students and are not appropriate for the classroom setting. All drinks must have a sealable lid, no cans are permitted. Perishable food items shall not be kept in lockers.

ARTICLE 3: USE OF BUILDING AND GROUNDS

Section 1: Entering and Leaving School Grounds

Ref: SB Policy: 903.07

Beginning of School: Students should not be on school grounds prior to 7:30 a.m. During fair weather conditions, the first bell will ring at 8:00 a.m. allowing students to enter the building and to proceed to their lockers and classrooms. During bad weather, the entrance will be open by 7:30 a.m. for students to enter the building. Students are to stay in their designated area and are not to go to any other part of the building.

During the School Day: Students who must leave school for any reason must check out of the office before leaving. Students leaving must be cleared in advance by a note or phone call from the student's parent or guardian. In the event that school personnel are unable to contact a parent or guardian the school principal or superintendent will make an in loco parentis decision about whether or not a student will be permitted to leave school. Students will be dismissed from the classroom at the designated time per parent request.

End of School: Our regular school day ends at 3:46 p.m. Monday through Thursday and 2:00 p.m. on Fridays. The Elementary will end its day at 3:40 p.m. Monday thru Thursday and 1:55 p.m. on Fridays. Club meetings and other school activity practices may begin immediately after school Monday through Thursday and at 2:00 p.m. on Fridays. It is important that students who are involved in any of these activities report to the designated area on time. All other students must clear the building as soon as possible.

Traffic And Parking Procedures

Ref: SB Policy: 504.05

The school assumes no liability for pupils driving motor vehicles. Pupils driving cars to school are required to park them in the designated area upon arrival at school if they choose to park on school grounds.

It shall be the responsibility of all faculty and school employees to report any violation of traffic laws or any improper conduct of student drivers to the principal.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. "Fair use" of a copyrighted work includes reproduction for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research. Students who are unsure whether their proposed reproduction of copyrighted material constitutes "fair use" should consult with their teacher or building principal, review the school district's copyright compliance policy, and review *Copyright for Students* found at <https://www.whoishostingthis.com/resources/student-copyright/>. 1. Obligation to Report threatening Statements or Behaviors.

All staff and students must report any threatening statements or behavior to a member of the administration. Staff and students must make such a report regardless of the nature of the relationship between the individual who initiated the threat or threatening behavior and the person(s) who were threatened or who were the focus of the threatening behavior. Staff and students must also make such reports regardless of where or when the threat was made or the threatening behavior occurred.

THREATS OR ASSAULTS WHICH REQUIRE IMMEDIATE INTERVENTION SHOULD BE REPORTED TO THE POLICE AT 911.

2. Threat Assessment Investigation and Response

All reports of violent, threatening, stalking, or other behavior or statements which could be interpreted as posing a threat to school safety will immediately be forwarded to the superintendent. Upon receipt of an initial report of any threat, the superintendent will take steps to verify the information, make an initial assessment, and document any decision involving further action. This investigation may include interviews with the person who made the statement(s) or engaged in the behavior of concern, interviews with teachers and other staff members who may have information about the individual of concern, interviews with the target(s) of the threatening statements or behavior, interviews of family members, physical searches of the individual of concern's person, possessions, and home (as allowed by law and in cooperation with law enforcement), and any other investigatory methods that the superintendent determines to be reasonable and useful.

At the conclusion of the investigation, the superintendent will determine what, if any, response to the threat is appropriate. The superintendent is authorized to disclose the results of his/her investigation to law enforcement and to the target(s) of any threatened acts. The superintendent may refer the individual of concern to the appropriate school administrator for consequences under the school's student discipline policy or, if appropriate, report the results of his/her investigation to the student's individualized education plan team.

3. Communication with the Public about Reported Threats

To the extent possible, the team will keep members of the school community informed about possible threats and about the team's response to those threats. This communication may include oral announcements, written communication sent home with students, and communication through print or broadcast media. However, the team will not reveal the identity of the individual of concern or of any target(s) of threatened violence if that individual is a minor.

The Board of Education has authorized the use of video cameras on school district property to ensure the health, welfare, and safety of all staff, students, and visitors, and to safeguard District facilities and equipment. Video cameras may be used in locations deemed appropriate by the Superintendent. If a video surveillance recording captures a student or other building user violating school policies or rules or local, state, or federal laws, it may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies.

In no event shall photographs or video recordings be taken or made in restrooms, locker rooms, or other areas where there is a reasonable expectation of privacy. Students who violate this policy may be subject to discipline up to and including expulsion.

ARTICLE 4: ATTENDANCE

Section 1: Attendance Policy

Ref: SB Policy: 503.03

Regular and punctual student attendance is required by Nebraska State Statute ([§79-201](#)). The Board's policies require such attendance, the administration is responsible for developing further attendance rules and regulations, and students and parents are responsible for developing behaviors that will result in regular and punctual student attendance. The responsibility for the attendance of the child in school is fixed by law, upon the parents. It will be the duty of the school to inform parents of non-attendance.

Section 2: Required Attendance

Every person residing in the school district who has legal or actual charge or control of any child who is of mandatory attendance age shall cause that child to attend a public or private school regularly unless the child has graduated from high school or has been allowed to disenroll pursuant to this policy.

Expectations for Regular Attendance:

Students are expected to attend every class, every day.

- 1) The only "excused" absences shall be:
 - a.) absences when a licensed health care provider has confirmed in writing that, in his/her professional medical opinion and within his/her scope of practice, the student or a child whom the student is parenting is so physically or mentally ill that attendance of the student is impracticable or impossible;
 - b.) absences when severe weather conditions have made the roads impassable so that the student's attendance impracticable or impossible;
 - c.) student attendance at a school-sponsored activity;
 - d.) student has been suspended or expelled from school by the school district; and
 - e.) absences required by law enforcement, child protective services, or a court of competent jurisdiction confirmed in writing to the school district.
- 2) All other absences, including absences for minor illnesses, parent requests, family events, and routine medical appointments are simply "absences."

Absence Procedure

When it is necessary for a student to be absent for any reason, the parent or guardian of the student must call the school office by 9:00 a.m. to state the reasons for the absence. If the office receives no telephone call, we will then try to contact the home to ensure that the student is accounted for. **Appointment cards may be requested to verify an absence.** Students not accounted for will be considered truant. When a student returns from an absence, he/she shall report to the office to check in. Parents should make every attempt to schedule medical and other appointments outside of school hours when possible.

Excessive Absenteeism

Ref: SB Policy: 503.04

When a student receives 10 absences or the hourly equivalent in any semester, the Attendance Officer will follow the district's policy to address barriers to the student's attendance.

When a student is absent more than 20 days per year or the hourly equivalent, the Attendance Officer will file a report with the county attorney of the county in which the student resides.

Section 3: Homework Policy

Ref: SB Policy: 503.03

As a general guideline, on the due date of an assignment, a "0" will be entered in the grade book as a placeholder until missing work is completed/turned in so long as the work is in prior to the end of the quarter. Late work will be handled in accordance with the grading practices guidelines. Students who are absent shall make up the work missed and receive full credit for the missed school work. It shall be the responsibility of the student to initiate a procedure with the student's teacher to complete the work missed. Students are responsible for communicating with their teachers regarding this and all absences. Students missing work due to absences will have 2 days to make up work before a "0" is entered however, a grade will be entered when the work is completed/turned in so long as the work is in prior to the end of the quarter. **Example:** *If a student misses Monday, the work is due by the end of the day on Wednesday. If a student misses Monday and Tuesday, all work is due by the end of the day on Thursday. If the student misses Monday, Tuesday, and Wednesday, all work is due by the end of the day on Friday.*

When the student **knows** he/she is going to be absent or the absence is **prearranged (family trips, surgeries, etc.)**, all effort should be made to complete and turn in all assignments he/she will miss prior to the date of the absence or in a reasonable amount of time pre-arranged with the teacher. This may or may not be the same as the above absence window. Students are responsible for communicating with their teachers and making these arrangements during their absence.

Depending on the grade level and/or class make-up work will be accessible through Google Classroom, email, or a homework folder to be picked up by the parent/guardian, so the student can do the work at home. If this is not possible, the student and/or parent/guardian will make arrangements with the teacher for the student to make up the work within the required time.

Attendance Officer

Each building principal is designated as an attendance officer for the district. Each building principal, at his or her discretion, may delegate these responsibilities to any other qualified individual. The attendance officer is responsible for enforcing the provisions of state law relating to compulsory attendance. This responsibility includes but is not limited to filing a report with the county attorney of the county in which a student resides.

Section 4: Tardiness Anytime During the School Day

Ref: SB Policy: 503.03

Punctuality is required on a daily basis. Preliminary instruction, assessment, attendance, lunch count, etc. takes place at the beginning of class. Students not in attendance may lose the opportunity for this instruction. Tardiness may result in a student making up time after school, at lunch and/or charged with an absence, or having in-school suspension. Students and parents will be notified of excessive tardiness. Students will serve detentions or suspensions based on the severity of the excess of tardies.

Section 5: Leaving School

Ref: SB Policy: 503.05

Students who must leave school for any reason must check out of the office before leaving. Students leaving must be cleared in advance by a note or phone call from the student's parent or guardian. In the event that school personnel are unable to contact a parent or guardian the school principal or superintendent will make an in loco parentis decision about whether or not a student will be permitted to leave school. Students will be dismissed from the classroom once the parent has signed the child out through the office.

Section 6: Attendance is Required to Participate in Activities

Ref: SB Policy: 503.03

Students must attend school the immediate preceding ½ day (4 class periods) of any scheduled school activity in order to participate in the activity. Students will not participate if they are truant from school at any time during the day. This includes school activities and dances. Failure to attend on that day will result in a student being withheld from participation in the activity. The principal retains the right to grant participation should exceptional circumstances prevail. Students must be present for a ½ day Friday to participate in Saturday activities.

College and Job Shadow Visits as School-Related Activities

In alignment with the district's strategic efforts to enhance academic, career, and life readiness, non-classroom-based college visits and job shadowing experiences are recognized as valuable components of a student's educational journey. These experiences allow students to explore career opportunities, gain real-world exposure, and make informed decisions about their future.

When students follow the procedures outlined by the principal and receive proper approvals, these visits may be classified as a "school-related activity" for attendance purposes, meaning they will not be counted as absences. This aligns with the district's commitment to empowering students through partnerships with colleges, universities, industries, and community organizations.

This designation as a school-related activity does not mean the school will provide any resources or supervision or cover any costs associated with the activity. This designation allows students who complete this process to participate in other school activities on subsequent days and not be penalized for an absence in the school's record-keeping system.

Section 7: Students Picked Up From School Early

Ref: SB Policy: 503.05

If reasons arise that require you to remove your child from school early, please call or stop in at the office. Elementary students should be picked up from the office so that they can be checked out by the building secretary. Elementary students will not wait outside to be picked up.

Parents that would like their child to walk home, or to a doctor's office, dentist, etc. must provide written permission prior to the time the student will leave before that student will be allowed to leave the school grounds.

Section 8: Entrance Age

Ref: SB Policy: 502.03

Kindergarten children are eligible for enrollment if they are five years of age on or before July 31st of the current school year. Exceptions can be made according to the Board of Education's policy on early enrollment.

First Grade children are eligible for enrollment if they are six years of age on or before July 31st of the current school year or have completed kindergarten in another school district. Exceptions can be made for age or physical reasons approved by the administration.

Mandatory Attendance Age. All children who are or will turn six years old before January 1 of the current school year are of mandatory attendance age. Children who have not turned eighteen years of age are of mandatory attendance age. A child who will not reach age 7 before January 1 of the current school year may be excused from mandatory attendance if the child's parent or guardian completes an affidavit affirming that alternative educational arrangements have been made for the child.

Discontinuing Enrollment – 5 Year Old Students. The person seeking to discontinue the enrollment of a student who will not reach six years of age prior to January 1 of the current school year shall submit a signed, written request to the superintendent. The school district may request written verification or documentation that the person signing the form has legal or actual charge or control of the student. The school district shall discontinue the enrollment of any student who satisfies these requirements. Any student whose enrollment is discontinued under this subsection shall not be eligible to reenroll in this school district until the beginning of the following school year unless otherwise required by law.

Discontinuing Enrollment – 16 and 17 Year Old Students. Only children who are at least 16 years of age may be disenrolled from the district. The person seeking to discontinue the child's enrollment shall submit a signed, written request that demonstrates that the student meets the district's legal criteria allowing for disenrollment to the superintendent using the applicable district form. The district will follow the procedures outlined on the attached form in considering requests to disenroll.

Only children disenrolling to attend a non-accredited school may be exempt from this policy. The person with legal or actual charge or control of the child must provide the superintendent with a copy of the signed request submitted to the State Department of Education for attending non-accredited schools. The superintendent may confirm the validity of the submission with the State Department of Education.

Section 9: Pregnant and Parenting Students

Students who are pregnant or parenting are encouraged to continue participating in the district's educational and extracurricular programs. Students who anticipate deviations from their regular school experience or accrue absences due to pregnancy or parenting should notify their building principal as early as possible to discuss their educational programming. The building principal will work with the student to develop a plan to assist the student in participating in the district curriculum and extra-curricular activities.

ARTICLE 5: SCHOLASTIC ACHIEVEMENT

Section 1: Grading System and Class Rank

Grading System

Kindergarten-Third grade uses the following grading system:

	1--Beginning	2--Progressing	3--Proficient	4--Advanced
K and 1st	Does not meet district standards	Working towards district standards	Meets district standards	Above district standards
2nd and 3rd	Student rarely demonstrates an understanding of the concepts and the application of skills and strategies.	Student occasionally demonstrates an understanding of the concepts and the application of skills and strategies.	Student usually demonstrates an understanding of the concepts and the application of skills and strategies.	Student consistently demonstrates an understanding of the concepts and the application of skills and strategies.

Fourth grade - Seniors will use the letter grading system as follows:

A+ = 99-100	A = 95-98	A- = 94	Excellent
B+ = 93	B = 88-92	B- = 87	Good
C+ = 86	C = 78-85	C- = 77	Satisfactory
D+ = 76	D = 71-75	D- = 70	Needs Improvement
F = Below 70			Failing – No Credit

Each teacher should define for students the grading procedures to be used in their classes consistent with grading guidelines issued pursuant to Board Policy 611.05.

Grades for Distance Learning and Dual Credit Courses

For grading and transcript recording purposes, the grading scale of the originating institution will be considered for incoming students and students taking distance learning and dual credit courses. For passing grades, these grades will then be adjusted numerically to align with the lowest number numerical range of the corresponding letter grade on Hemingford High School's grading scale. For failing grades with no reported numerical percentage, a percentage grade of 60 will be used for the purposes of numerical GPA calculation.

For the purpose of handling grades from other academic institutions for student transfers, the Hemingford Public Schools letter grading system above will be used when necessary to convert letter grades to numerical percentages.

Procedures for Calculation of Grade Point Average

Calculating Numerical Percentage GPA:

Numerical grades will be averaged by summing the percentage grades of all courses multiplied by the number of credits for those courses and dividing by the total number of credits taken. This average will be reported as the student's GPA in a numerical percentage format. This is the primary method of GPA calculation and reporting at Hemingford Public Schools.

Converting to a 4.0 Scale

Some academic and scholarship-granting institutions request reporting of Grade Point Average on a 4.0 scale. When converting grades to a 4.0 scale, the following scale will be used:

A+, A, A- = 4.0

B+ = 3.5

B, B- = 3.0

C+ = 2.5

C, C- = 2.0

D+ = 1.5

D, D- = 1.0

F = 0.0

Calculating GPA on a 4.0 scale:

Each grade is multiplied by the number of credits for the course.

The sum of these products is then divided by the total number of credits attempted to determine the GPA on a 4.0 scale.

Honors Recognized at High School Graduation and Grade Point Average (GPA) (Board Policy 611.06)

The official grade point average (GPA) of graduating students is based on all high school credit hours in order to allow students sufficient opportunity to demonstrate achievement. Temporary GPA's will be sent to colleges and universities who request information for admission.

The official GPA will be furnished to post-secondary institutions upon request.

Hemingford High School will use the cum laude system to recognize academic excellence at graduation with the following GPA standards for levels of achievement and recognition.

97% and above = Summa Cum Laude (gold medallion)

95-96.99% = Magna Cum Laude (silver medallion)

93-94.99% = Cum Laude (bronze medallion)

Beginning with the 2027 graduating class, valedictorian and salutatorian will no longer be determined or recognized.

Students may wear honor cords and other regalia as approved by the high school principal. As a general guideline, honor cords will only be recognized when associated with school-sponsored programs. Medals will be reserved for academic achievements. Stoles will be reserved for nationally recognized honors programs.

The following procedures will also remain in effect until after the commencement of the class of 2026, at which time they will be eliminated:

The district will name a Valedictorian (Rank 1st in class) and Salutatorian (Rank 2nd in class) based solely upon class rank. Students must have attended Hemingford Schools for a minimum of 3 consecutive semesters to be eligible. If there is a tie in GPA for 1st or 2nd ranking, then students tied will be honored.

Section 2: Promotion, Retention

Ref: SB Policy: 611.02

The professional staff at Hemingford Public Schools will place students at the grade level and in the courses best suited to them academically, socially, and emotionally. Students will typically progress annually from grade to grade. A student may be retained at a grade level or be required to repeat a course or program when such is determined in the judgment of the professional staff to be appropriate for the educational interests of the student and the educational program.

Section 3: Progress Reports

Ref: SB Policy: 611.01

Regular first, second, third, and fourth quarter progress reports shall be sent home to each student's parents or guardians. These reports will be approved by the principal and will be designed to report to parents the progress of the students in each subject area. This report is intended for parents and teachers to work together to improve the progress of the student before the end of the nine-week grading period. Weekly progress may be checked via PowerSchool for grades 4-12.

Section 4: Report Cards

Ref: SB Policy: 611.01

Report cards are issued at the end of each quarter, or nine-week sessions. This report card shall contain an accurate and complete report of the student's grades and attendance record.

Section 5: Testing

Ref: SB Policy: 610.02

Hemingford Elementary students participate in the following assessments to fulfill State and Federal testing requirements:

Kindergarten: NWEA: MAP Growth

First Grade: NWEA: MAP Growth

Second Grade: NWEA: MAP Growth

Third Grade: NWEA: MAP Growth, NSCAS Growth (ELA and Math)

Fourth Grade: NWEA: MAP Growth, NSCAS Growth (ELA and Math), NAEP (when required)

Fifth Grade: NWEA: MAP Growth, NSCAS Growth (ELA, Math, and Science)

Sixth Grade: NWEA: MAP Growth, NSCAS Growth (ELA and Math)

Seventh Grade: NWEA: MAP Growth, NSCAS Growth (ELA and Math)

Eighth Grade: NWEA: MAP Growth, NSCAS Growth (ELA, Math, and Science), NAEP (when required)

Ninth Grade: NWEA: MAP Growth, Pre-ACT

Tenth Grade: NWEA: MAP Growth, Pre-ACT

Eleventh Grade: NSCAS ACT, NWEA: MAP Growth, ASVAB

These tests will be given on scheduled days during the school year.

Section 6: Parent-Teacher Conferences

Ref: SB Policy: 611.04

Parent-teacher conferences will be held at the end of the 1st quarter and 3rd quarter in the teacher's classroom. Conferences with teachers, at any time, are possible by calling the school office and making arrangements with one or more teachers as needed.

Section 7: Distance Learning Courses/Online Courses

Hemingford Public School offers students classes over the distance learning system. We are part of a consortium with approximately 20 other institutions. Therefore, the students are required to follow not only the

rules of Hemingford Schools but also the rules of the consortium. When a student registers to take a distance learning class, he/she and his/her parents will be required to sign the appropriate documents that outline expectations as well as the consequences for not following the expectations. Online courses are available to students with counselor and principal recommendations. Parents or students are responsible for payment of the online course before credit is given.

Section 8: Honor Roll (Grades 4 – 12 only)

The Honor Roll will consist of two separate lists. The Distinguished List will include the names of those students who have earned all "A's". The Honor List will include the names of those students who have earned all "A's" and "B's" and have earned an average of 90% and above. These lists will be produced at the conclusion of each grade period and semester. These lists will be published in the newsletter and the local paper.

Section 9: Graduation Requirements

Ref: SB Policy: 611.07

Grade 9-12

- A minimum of 260 academic hours are required for high school graduation.
- 200 hours are specifically required with
 - 40 in English Language Arts
 - 40 in Science
 - 40 in Social Studies
 - 30 in Mathematics
 - 30 in Career Technical Education
 - 10 in Physical Education/Health
 - 10 in Fine Arts

Each student shall also complete and submit a Free Application for Federal Student Aid prior to graduation, unless the required opt-out form is completed by either: (1) the student's parent or legal guardian; (2) the Principal, if the Principal determines that good cause exists not to require the student to complete the FAFSA; or (3) an emancipated student or student of at least 19 years of age.

Pre-college students should check additional requirements often prescribed by the college of their choice, especially prior to the junior and senior years.

Courses from an approved agency may be taken when the student has an actual need to take a course in order to meet graduation requirements and deadlines. Courses must be taken under the direction of an administrator, counselor, or teacher as the supervisor if the student wishes to count this credit toward a high school diploma. It must be stressed that these courses are not the easiest method of receiving credit and payment is the responsibility of the student.

Transfer students must meet the minimum hour requirement for graduation both in terms of total number and specific subject areas. Substitutions may be made for deficiencies in required courses, provided that it was not possible to include the courses on the student's schedule while enrolled at this school district.

Students who receive special education services are mainstreamed into the regular education curriculum when appropriate. The curriculum content of regular education classes may be modified to accommodate the individual needs and abilities of verified special education students. Each curriculum modification will be included on the student's Individual Education Plan by the Multidisciplinary Team and/or school staffing teams composed of special and regular education staff. Hours in special education will be counted toward a high school diploma.

Parents of students who may not qualify for their high school diploma because of academic deficiencies will be notified of this possibility by the beginning of the second semester of the student's senior year.

Section 10: Participation in Graduation Ceremony

Ref: SB Policy: 611.09

Students who have not successfully completed all graduation requirements as established by the Board of Education as of the date set for graduation shall not be allowed to participate in the graduation ceremony. If special circumstances are involved, the student may appeal to the Board of Education for an exemption to this policy. Any appeal must come before the Board of Education at least by the Board of Education's regular monthly meeting in April. The high school principal shall certify to the superintendent of schools and the Board of Education, in advance of the ceremony, those students who are eligible to participate. Students who fulfill graduation requirements through a course or other means at a later date are welcome to attend the next graduation ceremony with full recognition.

Section 11: Graduation Ceremony Expenses

The graduation class will assume the responsibility of providing caps and gowns and the cost of individual flowers for parents and/or grandparents as long as there is an equitable distribution of the flowers. The cost of providing flowers for the gymnasium will be the responsibility of the school district.

Section 12: GED Diploma and Endorsement

GED diplomas will not be endorsed by Hemingford High School until one year after the student's regular class has graduated. Such a diploma must be requested from the Board of Education through the high school principal at least one month before its presentation. The individual must see that verification of scores is provided by the adult education center where the student took the test and verification of eligibility must be made by the appropriate state agency.

Section 13: Students Records and Parental Rights

Ref: SB Policy: 507.01

Students 18 years of age or older, or parents of students under the age of 18 may schedule a conference with an administrator to evaluate the file upon request.

Requests for transcripts must be made in writing to the principal. Parents must sign the request for students under 18, but for those who are 18 or over, only that individual can make the request (The office may send transcripts to an educational institution with a verbal request but all other requests must be made in writing). This is in compliance with guidelines established by the Federal Privacy Act. Questions concerning the complete FERPA rules and regulations may be directed to the building principal.

If a student is not supposed to have contact with his/her parents, the school must be notified in writing by the appropriate authorities.

Section 14: Academic Integrity

Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades that accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

Definitions:

The following definitions provide a guide to the standards of academic integrity:

(1) “Cheating” means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others.

Cheating includes but is not limited to:

(a) Tests (includes tests, quizzes, and other examinations or academic performances):

(1) Advance Information: Obtaining, reviewing, or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

(2) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material or AI (artificial intelligence) systems, devices, or information while taking a test except as expressly permitted.

For example, except for “open book” tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.

(3) Use of Other Student Answers: Copying or looking at another student’s answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student’s paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student’s answers on the test paper.

(4) Use of Other Students to Take Tests. Having another person take one’s place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.

(5) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student’s real reason for missing class was because the student was not prepared for the test.

(b) Papers (includes papers, essays, lab projects, and other similar academic work):

(1) Use of Another’s Paper: Copying another student’s paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.

(2) Re-use of One’s Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.

(3) Assistance from Others or Unauthorized use of the work of an AI system: Having another person or program assist with the paper to such an extent that the work does not truly reflect the student’s work. For example, a student engages in cheating if the student has a draft essay reviewed by the student’s parent or sibling, and the essay is substantially re-written by the student’s parent or sibling. Assistance from home is encouraged, but the work must remain the student’s. Likewise, using material generated through an AI (artificial intelligence) system and submitting it as original work is considered cheating.

(4) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.

(5) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student’s real reason for missing class was because the student had not finished the paper.

(c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.

(2) "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works.

Plagiarism includes but is not limited to:

(a) Failure to Credit Sources: Copying work (words, sentences, paragraphs or illustrations, or models) directly from the work of another without proper credit.

Academic work frequently involves the use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to an outside source.

(b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.

(3) "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, copy your papers or lab projects, and fail to report a known act of cheating or plagiarism to the instructor or administration.

Sanctions:

The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:

(1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade that the instructor determines to be appropriate for the work.

(2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.

(3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

4) Dual Credit or College Credit class academic integrity offenses may be reported to the college providing credit. The college guidelines and rules will have governance on sanctions.

For additional guidance on the use of Artificial Intelligence in the classroom please see School Board Policy 606.09

ARTICLE 6: SUPPORT SERVICES

Section 1: Special Education Identification and Placement Procedures

Ref: SB Policy: 612.04

The Hemingford Public Schools offers a special education program for students with disabilities. The board of education believes all children regardless of handicap condition have a right to equal education opportunities.

The board of education has adopted procedures and policies for the operation of a special education program. Parents/students may contact the director of special education for further information.

Section 2: Guidance Services

Ref: SB Policy: 508.09

Hemingford Public Schools employs guidance counselor(s) for the purpose of assisting with the District's testing program and to assist with scheduling and for students to discuss problems and resolve conflicts. If you wish to see a counselor, stop by a counselor's office and make arrangements for an appointment.

Section 3: Health Services

Health Screenings:

Ref: SB Policy: 508.01

Health screenings are performed per the Nebraska Department of Health and Human Services schedule. The purpose of the screening is to identify those students needing further evaluation or assistance in the area screened. A health screening is not diagnostic. Parents/guardians will be notified of the screening result if the student is found to need further evaluation. The cost of such evaluation is the parent/guardian's responsibility. A child is not required to submit to a school health screening if his or her parent/guardian provides the school with a statement signed by a healthcare provider indicating that the child has undergone such required screenings within the last six months preceding the school's health screening.

Contagious and Infectious Diseases/Conditions:

Ref: SB Policy: 508.03

HPS follows the Nebraska Department of Health and Human Services regulations for the control of communicable diseases. These regulations include the incubation period, symptoms of illness, infection period and minimum isolation periods/control measures. Diseases/Conditions included in these regulations are: chicken pox, pink eye, common cold, diphtheria, pinworm/threadworm/seatworm, fifth disease, hand/foot/mouth, hepatitis A, herpes simplex, impetigo, influenza, measles, meningitis (bacterial and viral), MRSA, mumps, head lice, pertussis/whooping cough, polio, ringworm, rubella, scabies, shingles, strep infection, and tuberculosis. If your child is diagnosed with or is presenting symptoms of one of the above diseases or conditions, contact the school nurse for an exclusion timeframe and/or if a healthcare provider note is needed to return to school.

A student with a temperature of over 100 degrees will be sent home. It is strongly recommended that a student does not return until fever free for 24 hours without the use of fever-reducing medications (Tylenol, ibuprofen). Alternatively, a student may return with a healthcare provider note. A student who vomits will be sent home. It is strongly recommended that students remain out of school for 24 hours.

Physical Education Limitations:

Ref: SB Policy: 604.06

If a student is not to participate for more than one day in physical education due to a health condition, please provide the school with a note from your healthcare provider. Students with physical limitations such as asthma, diabetes, seizures, or other illness/health concerns need their records updated annually. CONTACT THE SCHOOL NURSE IMMEDIATELY AT 308-487-7425.

Medications:

Ref: SB Policy: 508.02

Whenever possible, parents should arrange medication schedules to eliminate the need for giving medication during school hours. It is recognized that for effective treatment of chronic and/or acute illness, medication might need to be administered during school hours. A student who is required to take medication during the regular school day must comply with the medication administration policy. The policy has been developed for the safety of the students receiving the medication and for the safety of all students.

Medications will be administered by the school nurse or other school staff member meeting the minimum competency standards for the Medication Aide Act, the requirements of Title 92, Nebraska Administrative

Code, Chapter 59, (promulgated by the Nebraska Department of Education and entitled *Methods of Competency Assessment of School Staff Who Administer Medication*), and all state and federal regulations. To avoid disruption of education, with doctor's approval, the most beneficial time to administer medication at school is during lunch. The prescription label should indicate this. The student has a responsibility to remember to report to the office at medication time. Some medications may not need to be given during school hours. In order for school personnel to administer prescription medication to a student, it is necessary to have a health care provider's authorization and written order and a parent/guardian's authorization. Medication must be brought to school in the original labeled prescription bottle by parent/guardian with a proper label including child's name, healthcare provider's name, drug name, and instructions for use (time, dosage, duration). The authorization must be renewed on an annual basis and/or if the prescription changes. Loose capsules, tablets, unidentified or non-labeled medication will not be accepted for administration. Medication will not be administered without the above authorization and information.

HPS will not be held liable in cases of choking, allergic reaction, side effects, and/or any health risks related to medication. If medication is not brought to school by an adult, HPS will not be responsible for lost or stolen medication. Medications must be picked up by an adult on the last day of school or they will be disposed of. A record of the medication administration is kept for each student receiving medication. Medication will be kept in a secured area. Students may carry and self-administer inhalers, epi-pens, insulin, and other medication if appropriate paperwork has been completed. If your child has a prescription medication in the office, it will be sent with staff on field trips.

The health office is stocked with first aid medication (such as Neosporin, hydrocortisone, saline eye drops, insect sting swabs, topical cooling gel, etc.) At HPS, cough drops are given as needed and students may self-carry/self-administer. If your student cannot have such products, then contact the school nurse. At HPS, over the counter medication (Tylenol, Ibuprofen, tums, etc.) can be given and will be provided if the parent signs and returns the permission form. Other forms of over the counter medications can be administered by the school nurse if the parent provides written permission/direction and provides the medication. Medications will not be provided out of range of directions stated on the bottle regardless of parent direction. The school nurse reserves the right to refuse to administer any over the counter medication at their discretion.

The district reserves the right to review and decline requests to administer or provide medications that are not consistent with standard pharmacological references, are prescribed in doses that exceed those recommended in standard pharmacological references, or that could be taken in a manner that would eliminate the need for giving them during school hours. The district may request parental authorization to consult with the student's physician regarding any medication prescribed by such physician.

Procedures for Students Who Become Ill or Injured at School:

Ref: SB Policy: 508.03

An ill or injured student may not leave school until permission of parent or emergency contact has been received. HPS has an Emergency Response Team and staff who are CPR/First Aid/AED certified and Attack on Asthma trained. Basic first aid will be administered to a student, if more extensive care is needed, then the parent/guardian or emergency contact will be notified. If it is perceived that a student is in an emergency medical situation, an ambulance will be called to the scene and parent/guardian or emergency contact will be notified. If a student is transported to the hospital, then a healthcare provider note releasing them to return to school is required. The student may not return to school on the same day.

Physical Examination:

Ref: SB Policy: 508.01

Physical examination by a physician, physician assistant or advanced practice registered nurse within the six months prior to the entrance of a child into Early Childhood Education, beginner grade, or Kindergarten, and 7th

grade, or in the case of transfer from out of state to any grade, is required. The parent/guardian has the right to submit a written statement refusing such examination.

Sports Physicals:

Ref: SB Policy: 506.10

Each student participating in interscholastic athletics is required to have a complete physical examination, to be given on or after May 1st of each year.

Vision Evaluation:

Ref: SB Policy: 508.01

An evaluation of vision for all children is required by a physician, a physician assistant, an advanced practice registered nurse, or an optometrist within 6 months prior to entrance of a child into the beginner grade or Kindergarten, or in the case of transfer from out of state to any grade. This evaluation must consist of testing for amblyopia, strabismus, and internal and external eye health, with testing sufficient to determine visual acuity. The parent/guardian has the right to submit a written statement refusing such an evaluation.

Immunizations:

Ref: SB Policy: 508.01

The State of Nebraska has immunization requirements for children entering school. Students will not be able to enter school until the school has written proof of their immunization status. To attend school, students in the State of Nebraska are required to be immunized per current requirements from the Nebraska Department of Health and Human Services. All students K-12 must be immunized for diphtheria, poliomyelitis, measles, rubella, varicella, mumps, and hepatitis B. The Tdap (tetanus, diphtheria, acellular pertussis) vaccination is required for incoming 7th graders. Dates of immunizations are required. Students with a history of varicella disease (chicken pox) must provide evidence of immunity in the form of a signature of the parent with the date of illness, the signature of the healthcare provider with the date of illness, laboratory evidence of varicella immunity or a clinical diagnosis of shingles.

Students who do not receive immunizations for health reasons must have a statement signed by a healthcare provider stating that, in their opinion, the specified immunization (s) required would be injurious to the health and well-being of the student or any member of the student's family or household. Students who are exempted from the immunization requirement may be excluded from school in the event of an outbreak of any contagious disease in the school population.

A student may be provisionally enrolled in a school if he/she has begun the immunizations against the specified disease prior to enrollment and continues the necessary immunizations as rapidly as is medically feasible. In addition, a student may also be provisionally enrolled if he/she is the child of an officer or enlisted person, or the child of the spouse of such officer or enlisted person on active duty in any branch of military services of the United States.

For further information on immunizations, contact the school nurse or refer to the Nebraska Department of Health and Human Services Control of Communicable Disease regulations.

Asthma/Anaphylaxis:

Ref: SB Policy: 508.12

All schools in Nebraska are required to be prepared to respond to life-threatening asthma and anaphylaxis (severe allergic reactions) emergencies while school is in session. The protocol, *Emergency Response to Life-Threatening Asthma or Systemic Allergic Reactions (anaphylaxis)*, directs school staff members to identify signs and symptoms of a breathing emergency and respond by calling 911, administering Epi-Pen (auto-injectable epinephrine) followed by nebulized albuterol.

Epinephrine is a medication that is used to bring quick relief by improving breathing and lung function. Albuterol is another medication that is used to bring breathing relief. A nebulizer is a machine that mixes the albuterol with air to provide a fine mist (aerosol) for breathing in through a mask or mouthpiece.

The protocol steps are designed to provide quick, effective care in order to prevent death from occurring due to severe asthma attacks or anaphylaxis. Staff members have been trained to recognize signs and symptoms of a life-threatening breathing emergency and there is a group of staff members who have been taught to properly administer the medications.

If you know that your child has asthma or a known allergy, it is **critically important** that you communicate this information to the school nurse. For each student with a known allergic condition or asthma, you must provide the school with (1) written medical documentation (Asthma/Allergy Action Plan), (2) medications, as directed by a healthcare provider. In the event that your student experiences a life-threatening asthma attack or systemic allergic reaction, we will defer to the specific documentation and medications that you have provided. If you do not have medical documentation and instructions on file with the school for your student, we will defer to the regulatory protocol as described above.

This protocol is in effect for the school day hours (8:00 am-3:44 pm). Emergency medication remains on school grounds. If your child has an Epi-Pen or inhaler in the health office, it will be sent with school staff on field trips. If your child participates in after school activities (sports, clubs, etc.), complete appropriate paperwork for him/her to carry and self-administer medication. In the event of an emergency, 911 will be called.

If you do not want your student to receive the above described emergency medication, contact the school nurse.

Head Lice Administrative Procedures:

Ref: SB Policy: 508.20

1. Initial Identification and Parent/Guardian Notification Upon identification of a student with live head lice and/or nits, the parent/guardian will be immediately notified. The student will be discreetly and respectfully sent home with detailed instructions on appropriate treatment protocols. Whether the student is sent home at the end of the day or earlier will be at the discretion of the school nurse, based on the severity and risk of transmission to other students and staff. It is expected that the child will miss no more than one day of school due to head lice/nits. The responsibility of treatment rests with the parents/guardians.
2. Treatment Verification and School Re-Entry Prior to returning to school, the parent/guardian must treat the student and remove nits. Upon the student's return, a school nurse or designated qualified individual will inspect the student for live lice. If live lice are present, the student will be sent home. In cases where nits are found but no live lice, parents will be advised to continue nit removal and combing. Regular follow-up checks may be conducted to ensure effective lice management.
3. Recurrent Infestations In cases where a student experiences two instances of live lice within a single semester, they will be sent home until they are free from both live lice and nits. School personnel may also notify DHHS or other public health agencies to increase the likelihood of additional support being available to families with recurrent infestations.
4. Additional Screening Procedures Members of the same household as the affected student may also be checked for lice/nits. Whole classroom screenings will only be conducted if deemed necessary by the school nurse and/or building principal.
5. Classroom Environment Management The affected classroom and upholstered furniture will be vacuumed by the custodian. Stuffed animals and similar items will be either bagged for two weeks or washed and dried at

high temperatures. Environmental pesticide treatments may also be utilized as necessary. Students will be encouraged not to share personal items that may facilitate the spread of lice.

6. Notification Procedures Notifications of head lice cases will be handled on an individual basis. Classroom notifications will be issued for the grade level of the student with an active case. In instances of multiple cases across different grades, notifications will be extended to all parents/guardians of students in the building, as determined by the school nurse or principal.

7. Exclusion and Re-Entry for Chronic or Severe Cases In rare instances of chronic or severe head lice infestation, the school nurse will assess the situation. If exclusion is considered, the nurse will consult with the administrator, documenting repeated unsuccessful management attempts. Re-entry of the student post-exclusion will depend on a head check showing progress in lice management, evidenced by the absence of live lice and a reduction in nits. The school nurse may monitor progress over time, with the aim of supporting the family in eradicating head lice. This policy is subject to the professional judgment of the school nurse and/or building principal, who may implement additional measures in extraordinary circumstances. The primary objective of this policy is to ensure the health and well-being of all students while minimizing disruptions to the educational process.

8. Other Parasitic Insects The school nurse and principal will apply similar procedures, subject to their professional judgment, for other parasitic insects, such as bedbugs, scabies, or fleas.

Birth Certificate Requirements:

Ref: SB Policy: 502.03

State Law requires that a certified copy of a student's birth certificate be used when enrolling a new student in school. If your child is registered with HPS for the first time, you may obtain this document from the Bureau of Vital Statistics in the state in which your child was born. Assistance in obtaining birth certificates may be obtained from Health Records Management, P.O. box 95065, Lincoln, NE 68509-5065. There is a fee per certificate.

Please note: The document parents receive from the hospital looks like a birth certificate, but it is not a certified copy. A certified copy has the raised seal from the state that the child was born on it and is signed by the director of vital statistics.

If a birth certificate is unavailable, other reliable proof of a student's identity may be used. These documents would include naturalization or immigration documents showing date of birth or official hospital birth records, a passport, or a translation of a birth certificate from another country. The documents must be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate.

Emergency Health Cards:

Parents must complete an emergency information card for each child enrolled in the district. The card should list the family physician's name, where parents or a responsible adult can be located, and any necessary emergency instructions. Parents must promptly inform the school if this contact information changes during the school year.

The information on these cards is vitally important in those instances when a student becomes ill or is injured. The parents or designated persons will be contacted before a child is sent or taken home. Health information is requested on these cards and is shared with school staff in order to help meet your student's health and safety needs. If you do not want this information shared, contact the school nurse. If your student has severe allergies that require an Epi-Pen and or diet modifications, asthma, diabetes, and/or seizures, contact school health staff

for appropriate paperwork to complete. If your student has a significant health condition that you want school staff to be aware of, contact the school nurse.

Section 4: Homebound Instruction

The school district may provide a student with instruction in his or her home and under parental supervision if the student is physically or mentally ill or injured and unable to attend regular classes for an extended period of time. Homebound instruction shall be provided when the student's physical and mental conditions are such that the student can benefit from instruction and no other provision will meet the student's educational needs. If you believe that homebound instruction is appropriate for your child, please contact the building principal to initiate the appropriate process to determine eligibility.

Section 5: Student Assistance

Parents who believe their students have any learning, behavior, or emotional needs that they believe are not being addressed by the school district should contact the student's teacher. If appropriate, the teacher may convene the Student Assistance Team (SAT). The SAT can explore possibilities and strategies that will best meet the educational needs of the student.

ARTICLE 7: DRUGS, ALCOHOL, and TOBACCO

Section 1: Drug-Free Schools

Ref: SB Policy: 504.15

The District implements regulations and practices which will ensure compliance with the Federal Drug-Free Schools and Communities Act and all regulations and rules promulgated pursuant thereto. The District's safe and drug-free schools program is established in accordance with the principles of effectiveness as required by law to respond to such harmful effects.

Section 2: Smoke-Free Environment

The District implements regulations and practices which will ensure a smoke-free environment in compliance with The Nebraska Clean Indoor Air Act, section 71-5716, et seq., and the applicable Nebraska regulations (Nebraska Health and Human Services, Title 178, Chapter 7, "Rules and Regulations for the Implementation of the Nebraska Clean Indoor Air Act in Public Places and At Public Meetings"). Smoking is not permitted within any indoor facility owned or leased or contracted for, and utilized for the provision of routine or regular kindergarten, elementary, or secondary education or library services to children or for Head Start services.

Education and Prevention:

This District promotes comprehensive, age appropriate, developmentally based drug and alcohol education and prevention programs, which will include in the curriculum the teaching of both proper and incorrect use of drugs and alcohol for all students in all grades of this School District. Further, this District will have proper in-service orientation and training for all employed staff.

Drug and Alcohol Use and Prevention

By this handbook, each student of the District is hereby provided a copy of the standards of conduct for student behavior in the District which prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol on school premises or as a part of any of the school's activities.

Drug and Alcohol Education and Prevention Program of the District Pursuant to The Safe and Drug-Free Schools and Communities Laws and Regulations

All students are provided age appropriate, developmentally based drug and alcohol education and prevention programs for all students of the schools. It shall be the policy of the District to require instruction at such grade level concerning the adverse effects resulting from the use of illicit drugs and alcohol. Such instruction shall be

designed by affected classroom teachers or as otherwise directed by the Board to be appropriate to the age of the student exposed to such instruction. One of the primary objectives shall be the prevention of illicit drug and alcohol use by students. It shall further be the policy of the District to encourage the use of outside resource personnel such as law enforcement officers, medical personnel, and experts on the subject of drug and alcohol abuse, so that its economic, social, educational, and physiological consequences may be made known to the students of the District.

It shall further be the policy of the District, through the instruction earlier herein referred to, as well as by information and consistent enforcement of the Board's policy pertaining to student conduct as it relates to the use of illicit drugs and the unlawful possession and use of alcohol, that drug and alcohol abuse is wrong and is harmful both to the student and the District, and its educational programs.

Drug and Alcohol Counseling, Rehabilitation, and Re-entry Programs

All students shall be provided information concerning available drug and alcohol counseling, rehabilitation, and re-entry programs within sixty miles of the administrative offices of the District or, where no such services are found, within the State of Nebraska. Information concerning such resources shall be presented to all of the students of the District upon request by the Guidance Counselor.

In the event of disciplinary proceedings against any student for any District policy pertaining to the prohibition against the unlawful possession, use, or distribution of illicit drugs and alcohol, appropriate school personnel shall confer with any such student and his or her parents or guardian concerning available drug and alcohol counseling, rehabilitation, and re-entry programs that appropriate school personnel shall consider to be of benefit to any such student and his or her parent or parents or guardian.

Standards of Student Conduct Pertaining to the Unlawful Possession, Use, or Distribution of Illicit Drugs or Alcohol on School Premises or as a Part of Any of the School's Activities

(In addition to standards of student conduct elsewhere adopted by board policy or administrative regulation to absolutely prohibit the unlawful possession, use, or distribution of illicit drugs or alcohol on school premises or as a part of any of the school's activities.) This shall include such unlawful possession, use, or distribution of illicit drugs and alcohol by any student of the District during regular school hours or after school hours, at school sponsored activities on school premises, at school sponsored activities off school premises, or when being transported in vehicles dispatched by the school.

Conduct prohibited at places and activities as hereinabove described shall include, but not be limited to, the following:

1. Possession of any controlled substance, possession of which is prohibited by law.
2. Possession of any prescription drug in an unlawful fashion.
3. Possession of alcohol on school premises or as a part of any of the school's activities.
4. Use of any illicit drug.
5. Distribution of any illicit drug.
6. Use of any drug in an unlawful fashion.
7. Distribution of any drug or controlled substance when such distribution is unlawful.
8. The possession, use, or distribution of alcohol.
9. The possession, use, or distribution of any tobacco product, including cigarettes, cigars, chew or other tobacco or tobacco derivative products or any other such look-alike or imitation product.
10. The possession, use, or distribution of any vapor products or electronic nicotine delivery systems; alternative nicotine products; or any other such look-alike or imitation product.

It shall further be the policy of the district that violation of any of the above prohibited acts will result in a disciplinary sanction being taken within the bounds of applicable law, up to and including short-term suspension, long-term suspension, expulsion, and referral to appropriate authorities for criminal prosecution.

Drugs and Alcohol Prohibited - Standards of Conduct for Students:

The manufacture, possession, selling, dispensing, use, or being under the influence of alcohol or any alcoholic beverage or alcoholic liquor on school grounds, or during an educational function or event off school grounds is prohibited.

The possession, selling, dispensing, use or being under the influence of any usable glue or aerosol paint or any other chemical substance for inhalation, including but not limited to lighter fluid, whiteout, and reproduction fluid, when such activity constitutes a substantial interference with school purposes on school grounds or during an educational function or event off school grounds, is prohibited.

The possession, selling, dispensing or use of any look-alike drug or look-alike controlled substance when such activity constitutes a substantial interference with school purposes on school grounds or during an educational function or event off school grounds, is prohibited.

Any prescription or non-prescription drug, medicine, vitamin, or other chemical may not be taken unless authorized as stated in the next section on AUTHORIZED USE.

Authorized Use:

Any student whose parent or guardian requests that he or she be given any prescription or non-prescription medicine, drug, or vitamin shall provide signed permission by the parent or physician.

Random Drug Testing of Students Involved in Extracurricular Activities and Competitions

The Hemingford school district supports and values student participation in extracurricular activities and competitions. Such participation is a privilege and not a right. Students in all extracurricular activities and competitions in grades 7-12 shall be subject to mandatory random testing for the presence of tobacco/nicotine, alcohol, and/or illegal drugs.

Purpose of Random Drug Testing

1. The purpose of this policy is to promote the health and safety of our students who participate in extracurricular activities or competitions and to deter the use of alcohol, illicit drugs, and tobacco among them.
2. The school district has recognized that observed and suspected drug, alcohol, and tobacco/nicotine use and abuse have increased among the student population, including students participating in extracurricular activities or competitions.
3. The school district seeks to provide safe, substance-free schools.
4. The school district seeks to deter the use of illegal and prohibited drugs, alcohol, and tobacco/nicotine among students.
5. The school district recognizes that students who use illegal and prohibited substances pose a threat to the health and safety of themselves, other students, teachers, administrators, and other persons.
6. The school district believes that the drug, alcohol, and tobacco/nicotine problem among the student body needs to be addressed. A large number of students who participate in extracurricular activities and

competitions do not use drugs, alcohol, and tobacco/nicotine. The school district wishes to give those students an ongoing reason to say, “No,” when presented with a chance to use.

**For more information please refer to the Hemingford Public Schools Random Drug Testing of Students Involved in Extracurricular Activities and Competitions Handbook.*

ARTICLE 8: STUDENT RIGHTS, CONDUCT, RULES and REGULATIONS

Section 1: Student Conduct and Discipline Policies

Ref: SB Policy: 504.03 / 505.03

The common goal of students, parents, faculty, and administration of Hemingford Public Schools is to maintain a school atmosphere which is conducive to learning. In order to achieve this, Hemingford Public Schools will continue to review and distribute a set of reasonable and fair rules and policies. Violations of the Hemingford Public School’s rules and policies will result in disciplinary action.

Student Discipline Act

Neb. Rev. Stat. § 79-254 to 79-294

The purpose of the Student Discipline Act is to assure the protection of all elementary and secondary school students' constitutional right to due process and fundamental fairness within the context of an orderly and effective educational process. The sanctions defined in the act shall be interpreted at all times in the light of the principles of free speech and assembly protected under the Constitution of Nebraska and the United States Constitution and in recognition of the right of every student to public education.

Part 1: Forms of School Discipline

In-School-Suspension (ISS):

Ref: SB Policy: 505.01

Students may be excluded by the Principal or the Principal’s designee, from normal participation in class activities. Students will be placed in a designated location for the school day to perform classroom assignments. Individuals placed in ISS will have closed campus lunch. There will be zero tolerance for behavior problems from students placed in in-school suspension. Students not completing their In-School Suspension will face further disciplinary action.

Suspension:

Ref: SB Policy: 505.03

Short-Term Out-of-School Suspension

The Principal or the Principal’s designee may exclude a student from attendance in all schools within the system for a period not to exceed five school days (short-term suspension) on the following grounds:

1. Conduct constituting grounds for expulsion as hereinafter set forth; or
2. Other violations of rules and standards of behavior adopted by the board of education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

1. The Principal shall make a reasonable investigation of the facts and circumstances. Short-term suspension shall be imposed only after a determination that the suspension is necessary to help any student, to further school purposes, or to prevent interference with school purposes.
2. Prior to the commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what he/she is accused of having done, an explanation of the evidence the authorities have, and an opportunity to explain his/her version of the facts.

3. Within 24 hours or such additional time, as is reasonably necessary following the suspension, the Principal will send a written statement to the student and the student's parent or guardian, describing the student's conduct, misconduct, or violation of the rule or standard and the reasons for the action taken. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal ordering the short-term suspension before or at the time the student returns to school. The Principal shall determine who, in addition to the parent or guardian, is to attend the conference.
4. Students who are short-term suspended will be given the opportunity to complete classwork, including but not limited to examinations, under the following conditions: within one school day of the suspension.

Long-Term Out-of-School Suspension

Students may be excluded by the Principal from school or any school function for a period of more than five school days but less than twenty school days (long-term suspension) for any conduct constituting grounds for expulsion as hereinafter set forth.

Expulsion:

Ref: SB Policy: 505.04

Students may be expelled for violations of board policy, failure to refrain from the conduct for which they may be subject to suspension, school rules or the law. In addition, a student who is determined to have brought a firearm to school, or to have possessed a firearm at school, shall be expelled from school for a period of not less than one year. The Superintendent may modify such one-year expulsion requirements on a case-by-case basis, provided that such modification is in writing. The term "to school" or "at school" means on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event.

1. **Meaning of Expulsion.** Expulsion shall mean exclusion from attendance in all schools, grounds, and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period.
2. **Summer Review.** Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year. The review will be conducted by the hearing officer who conducted the initial expulsion hearing, or a hearing officer appointed by the Superintendent in the event no hearing was previously held or the initial hearing officer is no longer available or willing to serve, after the hearing officer has given notice of the review to the student and the student's parent or guardian. This review shall be limited to newly discovered evidence or evidence of changes in the student's circumstances occurring since the original hearing. This review may lead to a recommendation by the hearing officer that the student be readmitted for the upcoming school year. If the school board or board of education or a committee of such board took the final action to expel the student, the student may be readmitted only by action of the board. Otherwise the student may be readmitted by action of the Superintendent.

3. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., "stayed") for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect, and as a condition of such suspended action, the student may be assigned to a school, class, or program and to such other consequences which the school district deems appropriate. In lieu of other authorized educational programs to which the student may be assigned, such school, class, or program may be offered as a community-centered classroom and may include experiences for the student as an observer or aide in governmental functions, as an on-the-job trainee, and as a participant in specialized tutorial experiences or individually prescribed educational and counseling programs. Such programs shall include an individualized learning program to enable the student to continue academic work for credit toward graduation. At the conclusion of the designated period: (1) if the student has satisfactorily participated in the school, class, or program to which such student has been assigned the student shall be reinstated and permitted to return to the school of former attendance or to attend other programs offered by the district, and action to expunge the record of the expulsion action may be taken at the discretion of the Superintendent or his or her designee, or (2) if the student's conduct has been unsatisfactory, the expulsion action shall be enforced. The determination of whether the students' participation and conduct have been satisfactory or not shall be made by the Principal or the Principal's designee.
4. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal's designee shall meet with the student's probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal's designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.
- Ref: SB Policy: 504.11**
5. Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:
- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator, and parent.
 - b. The purpose of having a firearm or other dangerous weapon in school is for a legitimate educational function.
 - c. A plan for its transportation into and from the school, its storage while in the school building, and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such a plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.

- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

Other Forms of Student Discipline:

Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include but need not be limited to, counseling of students, parent conferences, rearrangement of schedules, requirements that a student remains in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions during the day. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures, and a failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

Alternative Education Setting:

Students placed on long-term suspension will be provided with an alternative education plan. Prior to attending the alternative education setting, the student and parent/guardian will need to meet with an official from the school to go over rules, expectations, and other pertinent information. Upon returning to school at Hemingford Public Schools, the student and parent/guardian will need to meet with the building principal before the student will be allowed to attend classes. Students who choose not to attend the alternative school setting while suspended or expelled from Hemingford Public Schools to make up work missed while excluded from school will not receive credit for the missed assignments.

Part 2: Student Conduct

Ref: SB Policy: 504.03

Students have an opportunity to learn by sharing some of the responsibility for creating a good learning environment. The following additional student conduct rules are established. Failure to comply with such rules is grounds for disciplinary action, up to and including expulsion, as further specified in these rules. These rules govern student conduct on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event.

Grounds for Long-Term Suspension, Expulsion, or Mandatory Reassignment:

Ref: SB Policy: 505.03

The failure to refrain from the following conduct shall constitute grounds for suspension, expulsion, or mandatory reassignment, subject to the procedural provisions of the Student Discipline Act, Neb. Rev. Stat. § 79-254 through 79-294, when such activity occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event:

1. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes;
2. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property;
3. Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision;
4. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student;

5. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (*see also board policy on weapons and firearms*);
6. Engaging in the unlawful possession, selling, dispensing, or use of a controlled substance or an imitation controlled substance, as defined in section 28-401, a substance represented to be a controlled substance, or alcoholic liquor as defined in section 53-103.02 or being under the influence of a controlled substance or alcoholic liquor (*note: the term “under the influence” for school purposes has a less strict meaning than it does under criminal law; for school purposes, the term means any level of impairment and includes even the odor of alcohol on the breath or person of a student; also, it includes being impaired by reason of the abuse of any material used as a stimulant*);
7. Public indecency as defined in section 28-806, except that this prohibition shall apply only to students at least twelve years of age but less than nineteen years of age;
8. Engaging in bullying as defined in section 79-2,137 and in these policies;
9. Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults that occur off school grounds not at a school function, activity, or event. For purposes of this subdivision, sexual assault means sexual assault in the first degree as defined in section 28-319, sexual assault in the second degree as defined in section 28-320, sexual assault of a child in the second or third degree as defined in section 28-320.01, or sexual assault of a child in the first degree as defined in section 28-319.01, as such sections now provide or may hereafter from time to time be amended;
10. Engaging in any other activity forbidden by the laws of the State of Nebraska which activity constitutes a danger to other students or interferes with school purposes; or
11. A repeated violation of any of the following rules, or a single violation if the conduct amounts to a criminal act, if such violations constitute a substantial interference with school purposes:
 - a. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, sex, national origin, or religion;

 - 16. A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:

- a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or

Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18 U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
- b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
- c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

For purposes of this policy, the term "dangerous weapon" includes any personal safety or security device (such as tasers, mace and pepper spray). If a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the student's locker, in the main office or in another secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

2. If the Principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers, and a notice of intent to discipline the student by long-term suspension, expulsion, or mandatory reassignment is filed with the Superintendent or his or her designee, the student may be suspended by the Principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if no hearing is requested or, if a hearing is requested, the date the hearing examiner makes the report of his or her findings and a recommendation of the action to be taken to the Superintendent.
3. The Principal or his or her designee shall serve by registered or certified mail or by personal service the student and the student's parents or guardian with a written notice within two school days of the date of the decision to recommend long-term suspension or expulsion. 4. Nothing in this policy shall preclude the student, student's parents, guardian or representative from discussing and settling the matter with appropriate school personnel prior to the hearing stage.
 5. In the event that the Principal has not received a request for a hearing within five school days following receipt of the written notice, the punishment recommended in the charge by the Principal, or his or her designee shall automatically go into effect.
 6. If a hearing is requested more than five school days following the actual receipt of the written notice, but not more than thirty calendar days after actual receipt, the student shall be entitled to a hearing but the punishment imposed may continue in effect pending final determination.
 7. If a request for a hearing is not received within thirty calendar days following the mailing or delivery of the written notice, the student shall not be entitled to a hearing.
 8. In the event that a hearing is required to be provided, the Superintendent shall appoint a hearing officer.

Hearing Procedure:

1. Hearing Officer. The hearing officer shall be any person designated by the Superintendent. The hearing officer shall be an individual who has had no involvement in the charge, will not be a witness at the hearing, and has not brought the charges against the student. It shall be the duty of the hearing officer to remain impartial throughout all deliberations. The hearing officer shall be available prior to any hearing held pursuant to this policy to answer any questions the administrative representative, the student, the student's parents, or guardian, may have regarding the nature and conduct of the hearing.
2. Administrative Representative. The Principal may appoint an administrative representative to present the facts and evidence. Such administrative representative may be an attorney or may be represented by an attorney, but any such attorney shall not advise the hearing officer or parties who may review the proceedings as their counsel.
3. Notice of Hearing. If a hearing is requested within five school days of receipt of the notice, the hearing officer shall, within two school days after being appointed, give written notice to the administrative representative, and the student, the student's parents or guardian of the time and place for the hearing. The hearing shall be scheduled within a period of five school days after it is requested. No hearing shall be held upon less than two school days' actual notice to the administrative representative, and the student, the student's parents, or guardian, except with the consent of all of the parties.
4. Continuance. Upon a written request of the student or the student's parents or guardian, the hearing officer shall have the discretionary authority to continue from time to time the hearing. In addition, the hearing officer may continue the hearing upon any good cause.
5. Access to Records. The administrative representative, the student, the student's parent or guardian, and the legal counsel of the student shall have the right to examine the records and affidavits and the statements of any witnesses in the possession of the Hemingford Public Schools Board of Education at any reasonable time prior to the hearing.
6. Hearing Procedure. The hearing shall be attended by the hearing officer, the student, the student's parents, or guardian, the student's representative if any, and the administrative

representative. Witnesses shall be present only when they are giving information at the hearing or with the consent of both parties. The student may be excluded at the discretion of the hearing officer at times when the student's psychological evaluation or emotional problems are being discussed. The student or the student's parents or guardian or both may be represented by legal counsel. The hearing examiner may exclude anyone from the hearing when his/her actions substantially disrupt an orderly hearing. The formal rules of evidence shall not apply at the hearing. The administrative representative shall present to the hearing officer statements, in affidavit form, of any person having information about the student's conduct and the student's records, but not unless such statements and records have been made available to the student, the student's parents, guardian or representative prior to the hearing. The information contained in such records shall be explained and interpreted prior to or at the hearing to the student, parents or guardian, or representative at their request, by appropriate school personnel. The student, the student's parents/guardian, or representative, the administrative representative, or the hearing officer may ask witnesses to testify at the hearing. Such testimony shall be under oath and the hearing officer shall be authorized to administer the oath. The student, parent, guardian, representative, administrative representative, or the hearing officer shall have the right to question any witness giving information at the hearing, the student may testify in his/her own defense in which case he/she shall be subject to cross-examination nor will any conclusion be drawn therefrom. Any person giving evidence by written statement or in person at a hearing shall be given the same immunity from liability as a person testifying in a court case. A single hearing may be conducted for more than one student if at the discretion of the hearing examiner, a single hearing is not likely to result in confusion or prejudice to the interest of any of the students involved. If during the conduct of such a hearing, the hearing examiner concludes that any of such student's interests will be substantially prejudiced by a group hearing, or that confusion is resulting, the hearing examiner may order a separate hearing for each or any of said students.

7. Availability of Witnesses. The hearing officer will have the authority to subpoena any witnesses to the hearing and shall make reasonable efforts to assist in obtaining the attendance of any witnesses requested by the student, the student's parents or guardian, or their legal representative.
8. Record. The proceedings of the hearing shall be recorded at the expense of the school district.
9. Findings. Within a reasonable time after the conclusion of the hearing, the hearing officer shall prepare and submit to the Superintendent of schools his/her written findings and recommendation as to disposition. This report shall explain, in terms of the needs of both the student and the school board, the reasons for the particular action recommended. Such recommendations may range from no action, through the entire field of counseling, to long-term suspension, expulsion, or mandatory reassignment.
10. Review by Superintendent. The Superintendent of schools shall review the findings and recommendations of the hearing officer and in his/her discretion may also review any of the facts and evidence presented at the hearing and based upon such report and the facts shall determine the sanctions to be imposed. However, the Superintendent may not impose a more severe sanction than that imposed by the hearing officer.
11. Notice of Determination. Written notice of the findings and recommendations of the hearing officer and the determination of the Superintendent of schools shall be made by certified registered mail or by personal delivery to the student, the student's parents, or guardian. Upon receipt of such written notice by the student and/or parents and guardian, the determination of the Superintendent shall take immediate effect.
12. Appeal to Board. The student, student's parents, or guardian may, within seven school days following the receipt of the Superintendent's decision, submit to the Superintendent of schools a written request for a hearing before the Board of Education.

13. Review by Board of Education. Upon receipt of the request for review of the Superintendent's determination, the Board of Education or a committee of not less than three members shall, within ten school days, hold a hearing on the matter. Such hearing shall be made on the record except that the board may admit new or additional evidence to avoid a substantial threat of unfairness. Such new evidence shall be recorded. The Board of Education or a committee thereof may withdraw to deliberate privately upon the record and new evidence. Any such deliberation shall be held in the presence only of board members in attendance at the appeal proceeding, but may be held in the presence of legal counsel who has not previously acted as the administrative representative in presenting the school's case before the hearing officer. If any questions arise during such deliberations which require additional evidence, the Board of Education or committee thereof may require the hearing to receive such evidence, subject to the right of all parties to be present. A record of any such new or additional evidence shall be made and shall be considered as a part of the record and based upon the evidence presented at the hearing before the hearing officer, and such new or additional evidence, the Board of Education or the committee shall make a final disposition of the matter. The board may alter the Superintendent's disposition of the case if it finds his/her decision to be too severe, but it may not impose a more severe sanction. A designated method of giving notice by the Board of Education or committee thereof, if required, for any Board review shall be by posting on the schoolhouse door.
14. Final Decision of Board of Education. The final decision of the board shall be delivered to the student and parents or legal guardian of the student by personally delivering the same or by mailing the same by certified or registered mail.

Part 5: Student Appearance Policy:

Ref: SB Policy: 504.06

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation. Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses: Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.

- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

Students wearing inappropriate clothing will be required to change. Time missed from school or class will consequently be required to be made up two-fold. Additional violations will result in further disciplinary action. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in discipline, up to expulsion.

Part 6: Harassment and Bullying Policy:

Ref: SB Policy: 504.20

It is the policy of Hemingford Public Schools that "bullying" type behavior is not to be permitted. These guidelines are established to respond specifically to bullying behavior. Students and parents are advised that other response measures are also in place and set forth in Article 8 of this handbook for behavior which is discriminatory or harassing on unlawful grounds (e.g., sexual harassment, harassment of students with disabilities, race harassment, etc.).

- Step One:** The first time school personnel become aware of a possible harassment or bullying situation, the accused student will be informed that such a complaint has been filed. At that time a warning will be given regarding this kind of behavior. The consequences for this kind of behavior in the future will be clearly outlined for the student. **If, in the school's opinion, the first occurrence of the harassment behavior is severe, the school may move immediately to**

any of the four steps or levels in the harassment policy. In other words, the policy may or may not be used sequentially. Moreover, at any stage the student may be disciplined under the student code by actions which may include expulsion, in the event the conduct is also a violation of other provisions of the student code.

- (ii) Step Two: The second time school personnel become aware of a harassment incident, the student's parents will be notified. A conference will be requested at that time. If it is determined that the student has harassed another student, consequences will be assigned. A student may stay on the second step as long as school authorities feel the consequences are effectively correcting the harassment behaviors. If it is determined that there is no basis for the harassment accusation, no consequences will be assigned. If the school determines that a student is intentionally making a false accusation against another student, an appropriate response will be made. Policy allows that a written warning may be placed in a student's file.
- (iii) Step Three: If the school authorities determine that the student continues to harass another student or the student fails to agree to not harass in the future, the school may assign the student to the Harassment Program level set forth below which the school authorities determine to be appropriate.
- (iv) Step Four: If a student fails to respond positively to the corrective measures of the Harassment Program, the student will be suspended from school for a minimum of five school days, up to expulsion. School authorities will determine the action necessary to insure a safe learning environment for all students.

Part 7: Inappropriate Public Displays of Affection (IPDA)

Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling, or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face additional discipline up to and including long-term suspension or expulsion.

Part 8: Specific Rule Items

The following conduct may result in disciplinary action, which in repeated violations, may result in discipline up to expulsion.

- Students in the hallway during class time must have a pass with them, and may not leave class without permission.
- Students are expected to follow other classroom rules as set by individual teachers.
- Lunch is to be eaten in the cafeteria/Red Zone or off campus during open campus lunchtime unless special permission is granted.
- Students are expected to bring all books and necessary materials to class.
- Assignments for all classes are due as assigned by the teacher.
- Special classes such as Art, P.E., and computer courses will have other safety or clean-up rules that will be explained to you by that teacher which must be followed.
- Classes are ended by the teacher. Students are not to begin to pack up or leave the class until the dismissal bell has rung or the teacher has dismissed the class.
- Students are to be in their seats and ready for class on the tardy bell.
- Students are not to bring "nuisance items" to school. A nuisance item is something that is not required for educational purposes and which would cause a distraction to the student or others.
- Snow handling is prohibited.

- Sunflower seeds, etc. are not allowed in the school building or classrooms.
- Students are not to be in the school facilities without supervision.
- Lying or otherwise deceiving staff or administration.
- Willfully disobeying any reasonable written or oral request of a school staff member or voicing of disrespect to those in authority.

Part 9: Playground Rule Items

It is the intent of Hemingford Public Schools, to create a positive, active environment for students at recess. With this in mind, it is our intent to stop any action on the playground that is potentially dangerous to our students.

Students must follow these rules to keep the playground safe when they are using the playground as part of the school day:

1. Students must obey the playground supervisor at all times.
2. Students may not enter the street/highway to retrieve a ball unless given permission by the playground supervisor.
3. Students must play away from the school windows.
4. Touch and flag football are permitted, but tackle football is prohibited. Students may only play football on grassy areas.
5. Students may throw balls and other authorized play equipment. They may not throw rocks, gravel, snowballs, and clothing.
6. Students must use playground equipment properly and in a safe manner.
7. Students may not leave the playground after they have arrived at school for the day.

Students who violate these rules will be disciplined with the loss of recess or other privileges, detention, and/or other consequences.

The school's playgrounds, equipment, and surrounding areas are generally not supervised. Staff will supervise students when the students are using these areas as part of the school day or as part of a school activity. At all other times and in all other circumstances, the school district does not provide supervision of its playgrounds, equipment, and surrounding areas.

Exclusion from recess

If a parent wishes a child to stay in from recess due to a cold or recovering from a serious illness or any other justifiable reason, a written note must be submitted each day that this is requested. If a child brings an excessive number of requests, a doctor's excuse may be requested by the teacher or principal.

Part 10: Library Rule Items (Elementary)

Ref: SB Policy: 507.04R1

It is the goal of the elementary library to encourage students to take pleasure in learning by providing useful and valuable information resources for student research, as well as a wide variety of appealing materials at all levels for reading pleasure.

- a. All elementary classes have the opportunity to come to the library at a scheduled time each week or on a flexible schedule when the need arises.
- b. During these visits, students may check out books and magazines for up to two weeks with the opportunity to renew items at least once when the student brings them to the library on the date due.
- c. Reference books in the library are marked with an "R" above the call number. These include a variety of almanacs, encyclopedias, atlases, etc. Because these are needed for reports and

research by a number of students, reference books may be checked out to be used in the **classroom only** for five days and **must not be taken home**.

- d. The grade level, the classroom teacher, and the librarian determine the number of items that students may check out. In some cases, the librarian or teacher may determine if a student, student, or class is allowed to take library books home.
- e. Students are responsible for all materials they have checked out from the library.
- f. If a book is lost or damaged beyond repair, the student is responsible for paying the replacement cost of the book.
- g. If a book is damaged, but repairable, the student responsible will be charged for the cost of repairing the book. Please send damaged books to the library for repair. Do not mend books at home.
- h. All fines for lost or damaged materials must be paid before the student checks out any additional materials.
- i. In the event a lost book is found after paying for its replacement, a refund may be given if the item is returned in good condition and within the school year the item was lost.

Part 11: Library Regulations (High School)

Ref: SB Policy: 507.04R1

It is the goal of the high school library to encourage students to take pleasure in learning by providing useful and valuable information resources for student research, as well as a wide variety of appealing materials at all levels for reading pleasure.

Students who use the library during a class should have adequate supervision; teachers are still responsible for their own students while they are in the library. Students are responsible for all materials they have checked out from the library.

Through regular library visits, it is our hope that students may develop positive lifelong reading, viewing, and study habits.

Section 2: Transportation Services

The district operates school buses as a convenience for students and parents. They represent a substantial investment, and students are expected to care for and respect them.

Transportation To And From School

Ref: SB Policy: 504.04

Riding a school bus is a privilege that can be restricted by the school administration. Drivers are hired that will watch for the well-being of the entire group. If a student becomes troublesome or disruptive, he/she may be barred from riding the bus and a parent or guardian must provide their own transportation at their own cost. Bus drivers are school employees and have the same powers of discipline as any other school employee.

Student Conduct on School Transportation:

Ref: SB Policy: 504.04

Safety of pupil passengers is primary, this overrides all other considerations. Violations of these rules will result in a conference with the Principal and the transportation director. Further violations could result in denial of transportation until a satisfactory solution is worked out with the parents of the student. In no case will the students be discharged indiscriminately from buses for misbehavior; they are to be discharged at the regular discharge points only.

Pupils must be well-behaved in all ways and must follow the following rules of conduct on school vehicles:

- Under the direction of the driver, each student is to be assigned a seat and held responsible for that seat. Students in rear seats may be permitted to move forward to a second assigned seat for added comfort on the part of the route where the passenger load is lightened.
- Pupils must be on time; the bus can wait only 30 seconds for those who are tardy.
- If the pupil is not going to ride the bus, he/she should contact the driver so he/she will know beforehand.
- Unnecessary conversation with the driver is prohibited.
- Outside of ordinary conversation, classroom conduct is to be observed by the students. Any pupil who is guilty of unbecoming conduct, using inappropriate language, and/or abusing or casting reflections upon the driver or upon other pupils forfeits the right to ride the bus.
- Pupils must not throw waste paper or other rubbish on the floor of the bus.
- No pupil will at any time, extend arms or head out of the bus window.
- Pupils must not get on or off or move about within the bus while it is in motion.
- When leaving the bus, pupils crossing a road must look both ways and make sure they can cross safely.
- The driver is in full charge of the bus and pupils. Pupils are requested to comply promptly, cheerfully, and fully with his/her requests.
- If monitors or patrols are on duty, pupils must obey and respect their orders.
- Any damage to the bus is to be reported at once to the driver.

Section 3: Network, Internet, and Other Computer Use Rules:

Ref: SB Policy: 606.06

Our school district promotes a digital environment that is safe and collaborative, provides students with the opportunity to be responsible digital citizens, and enriches 21st-century real-world digital skills. Please, students

and parents/guardians, take the time to review this information that will be referred to as “policy” throughout the following sections. If you have any questions about the **TECHNOLOGY** policy, contact the school district’s technology coordinator.

Computer, Internet, and School Account Use by Students

Students are expected to use computers, the Internet, and school accounts as educational resources. The following procedures and guidelines govern the use of school computers (including but not limited to school-owned tablets, laptops, and desktops), the school’s Internet (including but not limited to local and global computer networks), and school accounts (including but not limited to @gubn.org and Windows accounts).

I. Student Expectations in the Use of Computers, the Internet, and School Accounts

A. Acceptable Use

1. Students may use computers, the Internet, and school accounts to complete school work assigned by their teachers.
2. Students may use computers, the Internet, and school accounts to gain access to information related to school-related activities unless doing so would be a violation of the “Unacceptable Use” guidelines.
3. If students are given access to electronic communication (including but not limited to e-mail and Google Docs), all communication must be school-appropriate, directly related to school work, and not a violation of the “Unacceptable Use” guidelines.
4. Students may store digital files on their computers or in their school accounts if the digital files are school-appropriate, directly related to school work, and are not a violation of the “Unacceptable Use” guidelines.

B. Unacceptable Use

1. Students shall not use school computers or accounts to gain access to material that is obscene, pornographic, harmful to minors, or otherwise inappropriate for educational uses.
2. Students shall not engage in any illegal or inappropriate activities on school computers or accounts, including the downloading and copying of copyrighted material.
3. Students shall not use email, chat rooms, instant messaging, or other forms of direct electronic communications on school computers for any unauthorized or unlawful purpose or in violation of any school policy or directive. Electronic communication access may be given to students for educational purposes only.
4. Students shall not use school computers or accounts to participate in online auctions, online gaming (except sponsored eSports activities), or illegal digital file-sharing systems.
5. Students shall not disclose personal information, such as their names, school, addresses, or telephone numbers outside the school network.
6. Students shall not use school computers or accounts for commercial advertising or political advocacy of any kind without the express written permission of the district technology coordinator or district administrator.

7. Students shall not publish web pages that purport to represent the school district or the work of students at the school district without permission from their teacher, district technology coordinator, or district administrator.
8. Students shall not erase, rename, or make unusable anyone else's digital files, programs, or disks.
9. Students shall not share their passwords with fellow students, school volunteers, or any other individuals, and shall not use, or try to discover, another user's password.
10. Students shall not copy, change, or transfer any software or documentation provided by the school district, teachers, or another student without permission from the district technology coordinator or district administrator.
11. Students shall not write, produce, generate, copy, propagate, or attempt to introduce any computer code designed to self-replicate, damage, or otherwise hinder the performance of any computer's memory, file system, or software. Such software is often called but is not limited to, a bug, virus, worm, or Trojan Horse.
12. Students shall not configure or troubleshoot computers, networks, printers, or other associated equipment, except as directed by a teacher, district technology coordinator, or district administrator.
13. Students shall not take home technology equipment (hardware or software) without permission from their teacher, district technology coordinator, or district administrator.
14. Students shall not falsify electronic mail messages or web pages.

II. Enforcement

A. Methods of Enforcement

1. The district has the ability to monitor all Internet communications, Internet usage, and patterns of Internet usage when students are using the district's Internet. Students have no right of privacy to any Internet communications or other electronic files while using the district's Internet, a school device, or a school account. The computer system is owned by the school district. As with any school property, any electronic files on the system are subject to search and inspection at any time. Any electronic files deemed inappropriate by the district technology coordinator or district administrator may be removed from a student's school device or school account.
2. The school district uses a technology protection measure that blocks access to some Internet sites that are not in accordance with the policy of the school district. This technology protection measure is active while students are using the district's Internet or when the students are using their school devices or accounts. It is impossible for the district to reflect each individual or family's opinions of what constitutes inappropriate material. If a student accesses inappropriate material, the student should immediately notify their teacher, district technology coordinator, or district administrator at school, or their parent/guardian outside of school.
3. Due to the nature of filtering technology, the filter may at times filter pages that are appropriate for students. The district technology coordinator or district administrator may override the technology protection measure for the student to access a site with legitimate educational value that is wrongly blocked.

4. At school, the school district staff will monitor the students' use of the Internet through direct supervision, school filtering, or by monitoring Internet use history to ensure enforcement of the policy. Monitoring students using their school accounts or school devices elsewhere (1:1 Take-home Program) is the responsibility of the parent/guardian.
- B. Consequences for Violation of this Policy
1. Access to the school's computers and to the Internet is a privilege, not a right. Any violation of school policy and rules may result in:
 - a) Loss of computer, Internet, or account privileges;
 - b) Short-term suspension;
 - c) Long-term suspension or expulsion; and
 - d) Other discipline as school administration deems appropriate.
 2. Students who use the school's computers inappropriately may be guilty of a criminal violation and will be prosecuted.

III. Protection of Students

A. Children's Internet Protection Act (CIPA)

1. The school district will comply with the Children's Internet Protection Act (CIPA). With respect to the district's computer network, the district shall use reasonable means to:
 - a) prevent user access to, or transmission of, inappropriate material via Internet, electronic mail, or other forms of direct electronic communications
 - b) provide for the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications
 - c) prevent unauthorized access, including so-called "hacking," and other unlawful activities online
 - d) prevent unauthorized online disclosure, use, or dissemination of personal identification information of minors
 - e) implement measures designed to restrict minors' access to materials (visual or non-visual) that are harmful to minors

B. Children's Online Privacy Protection Act (COPPA)

1. The school will make reasonable efforts to not allow companies to collect personal information from children under 13 for commercial purposes.
2. The school will make reasonable efforts to disable advertising in educational computer applications.
3. This policy allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for educational purposes.

C. Education About Appropriate Internet Behavior

1. School district staff will educate students about appropriate Internet behavior, either in specific computer usage units or in the general curriculum.
2. Staff will specifically educate students on
 - a) Appropriate interactions with other individuals electronically.
 - b) Cyberbullying awareness and response.

3. The district technology coordinator shall inform staff of this educational obligation and shall encourage staff to note such instruction in their syllabi or lesson plans.
4. It is also the responsibility of the parents/guardians to address their student(s) in regard to appropriate Internet behavior and this policy. Parents/guardians that are inexperienced with this content may seek out advice from websites like <https://www.common sense media.org> or they may contact the district technology coordinator.

Device Information, Care, Responsibilities, and Acknowledgements

ARTICLE 9: ATHLETICS AND ACTIVITIES

Section 1: Eligibility Requirements

Ref: SB Policy: 506.01

Participation in school activities is a privilege. School activities provide the benefits of promoting additional interests and abilities in the students during their school years and for their lifetime. However, students who participate in extracurricular activities serve as ambassadors of the school district throughout the calendar year, whether away from or at school. Students wanting to participate in school activities must meet the requirements set out by the school district for participation in the activity and must conduct himself or herself in accordance with student conduct policies.

The superintendent must approve student activity events unless they involve unusual travel expenses, in which case the board will be asked to approve the event. Every attempt will be made so that the events would not disrupt the education program or other school district operations.

All students will abide by all policies regarding eligibility as published by the Nebraska School Activities Association (NSAA). Students in grades 9-12 at Hemingford Public Schools must pass thirty (30) semester hours of credit the immediate preceding semester in order to be eligible for any activity that is school sponsored. Students in grades 7 and 8 must pass 6 of 8 classes the immediate preceding semester in order to be

eligible for any school sponsored activity. Any student who is sanctioned or is found by the school district or NSAA to be ineligible to participate in any extracurricular activity may appeal the sanction or finding in accordance with the student due process policy. It shall be the responsibility of the superintendent to develop administrative regulations for each school activity, which will be published in the student handbook, or other document provided to students and parents.

Extracurricular school activities are encouraged and desirable for all students to participate in. However, the principal goal and responsibility for each student is to establish a firm academic foundation. As such, a student who chooses to participate in extracurricular school activities will abide by the following standards:

1. Maintain passing grades in all classes. Any student failing two or more academic classes (grade below 70%) for two consecutive weeks is ineligible to participate in extracurricular activities.
2. Students who are failing will be on a warning week of eligibility starting with the 2nd week of each semester.
3. Teachers will post the most recent academic grades for each student by 12:00 pm on Tuesday, the ineligibility list will go into effect on Wednesday morning. Eligibility runs from Wednesday through the following Tuesday beginning with the 3rd week of each semester.
4. The administrator will pull the current Quarter's academic grades to use for eligibility purposes.
5. Junior High students in 9 week only classes will have an exemption for those classes during the first three weeks of each quarter when figuring eligibility.
6. Students who are academically ineligible may attend practices, however, they cannot travel with any team/activity, suit up/participate in any event/performance, or participate in any special school activity (such as prom and all dances/parties). Eligibility requirements shall not apply to instructional field trips which are a part of the scheduled course learning experience; or activities or events which are a part of the student's grade requirements.
7. Supervised Study Time (SST) will not apply to eligibility but will be available to students twice daily from 7:45 - 8:00 am and 3:45 - 4:00 pm.
8. Students with disabilities on an IEP may have special accommodations written into the IEP plan, however, the majority of students with disabilities will follow the regular eligibility policy in its entirety.

Section 2: Philosophy of Activities for Hemingford Public Schools

The athletic program in the Hemingford Schools is to be a learning (educational) experience. The participants are to be taught how to work hard at something and the self-satisfaction that goes with doing their very best in whatever they do. Important lessons in living are taught in athletics. The Hemingford Athletic Program is to teach these lessons.

The athletics programs at the Junior High levels are to acquaint the athletes with the various sports and to allow them to make decisions as to participation. They should be taught the fundamentals and encouraged to do their best. The ultimate goal is to win but not at the expense of over-pressurization of the young athletes. Winning is a by-product of doing things correctly. The coach/coaches will encourage all junior high athletes to participate to the best of their ability and to continue to participate in the athletic program. Playing time and team selection will be determined by the authority of the coaching staff and is based on a variety of factors.

At the high school level, athletes should be out for athletics because they want to be. The non-varsity competition is to be a learning experience where the athletes improve their skills. The goal at the varsity level is to give the athletes the best opportunity to win. Striving to win is important, but whether winning or losing, athletes should always strive to do their best in competition. Playing time and team selection will be determined by the authority of the coaching staff and is based on a variety of factors.

The activity programs should emphasize the importance of self-discipline, self-control, sportsmanship, and effort. The team concept is to be taught to all Hemingford teams. Negative actions and attitudes should not be allowed nor should they be tolerated.

The high school varsity coach in each sport should be the overall head coach for the Hemingford Schools. The varsity high school coaches are responsible for the methods employed throughout their sport.

Section 3: Participation at The Junior High And Junior Varsity Levels

Participation at the Junior High and Junior Varsity levels is extremely important for the building of a program. At Hemingford, we feel that if an athlete is suited up for a Junior High or JV contest, they will be expected to play. If extenuating circumstances arise the coach, in communication with the activities director & building principal may make an alternate plan to support the needs of the students and the program.

Section 4: Practice Regulations

In order to promote uniformity in practice the following guidelines should be followed:

1. Practice during a holiday break or on a Sunday must be approved by the administration. The coach must be careful that they do not make such practices required to the extent that the athletes are forced to choose between practice and family plans.
2. If it is necessary to practice at a time other than the regular time after school on a school day, the preferred time could be as soon as possible after school rather than early in the morning. If the practice needs to be held early in the morning, the practice should be cleared with the Administration far enough in advance so that the athletes and their parents have at least one day's notice. If an early morning practice is held, it should be set at a time as late as possible to get in the practice and also get the athletes to school on time.
3. Athletes are expected to be at all practices scheduled on school days by the coach. Should an athlete that has been in school not be able to attend a practice, they must contact the coach in advance. When the athlete is absent from school they do not need to notify the coach. However, most coaches appreciate knowing the reason why the athlete is absent from school and that they will not be at practice.
4. When practices are scheduled on a non-school day, (Saturdays or during a break) the athletes are encouraged to attend whenever possible. If the athlete is unable to attend that practice or practices, they should inform the coach that they will be unable to be there. Coaches must show understanding in regard to the athlete being unable to be at such a practice.
5. Coaches are encouraged to give athletes time between sports seasons, whenever possible, before starting practice for the next sports season.
6. Two-a-day practices for fall sports may be held beginning on the date the NSAA allows a practice to begin and the start of school.

Section 5: Definition of Mandatory Practice Date

The first mandatory practice date for all participants is defined as the first day of practice, on or after the allowable date set by the NSAA for the beginning of practice for that sport, in which all students participating are required to attend. All participating athletes shall not be required to attend until the prior sports season has ended, including the playoffs.

Section 6: Regular Practices

Regular practice for high school athletes begins after school. Junior high practice will be during 8th period Monday - Thursday. There will be no junior high practices. It is recommended that formal High School or Junior High practices be limited to approximately 1 ½ to 2 hours. Specialized work both before and after formal practices can be carried out as necessary.

The school day for Junior High students participating in a sport (during that sport season) will end after 7th period. Students participating in a sport are required to attend the full duration of practice with their team. Junior High students not participating in a sport are required to attend physical education class. When students are not participating in a sport (such as the times of the school year that fall between sports seasons) they are required to attend physical education class.

EXCEPTION ----- Students who are failing class(s) may be required to attend Academic Support during practice. If a student misses practice to due attending academic support, the coaches will have the discretion to assess whether prior engagement in practices was sufficient enough to allow a student to participate without unnecessary risk to the student and their teammates (e.g. a student doesn't know how to properly execute plays learned in practice or engage in sufficient conditioning, may potentially pose an unnecessary risk of injury.) If eligible, the student may still attend the contest/travel with the team, but the student's role will be subject to the coach's assessment.

EXCEPTION ----- Practices on Wednesday evenings should be limited to make sure that the athletes are out of the building by 6:00 PM. This is to make sure the athlete has enough time to participate in church activities if they so choose.

Section 7: Participation and Practice

Ref: SB Policy: 506.01

A team member is not allowed to practice or participate unless he/she is in school the immediate preceding ½ **day (4 class periods)** of the scheduled school activity or practice. A student is not allowed to practice or participate if he/she is **truant** anytime during the school day. Exceptions will be made for absenteeism due to school activities and being absent for business, doctor, dentist or similar appointments, provided the absenteeism is **pre-arranged** through the principal. Any questions about the rule must be directed toward the activities director or the principal. In the case of a Saturday event, the athlete must be in school Friday afternoon. If the athlete is unable to be in school on Friday afternoon, they should make prior arrangements with the principal to receive permission to participate on Saturday. If a student is ill, we do not expect them nor do we want them to come to school simply to perform in a contest. Not only will this slow the student's recovery, they may be contagious and infect other students. The principal will make the final ruling whether or not a student can perform in a contest when missing school the half day before a contest.

All students are required to be dressed and ready for practice by the indicated start time for all practices, contests, and departures for contests. Failure to do so may result in loss of playing time at all levels.

Section 8: Team Travel/ Transportation

Ref: SB Policy: 801.06

The privilege of riding a school bus is contingent upon a student's good behavior and observance of established regulations for student conduct both at bus stops and on board buses. Since bus transportation is provided to assist the educational programs, the board shall require students to conduct themselves on the bus in a manner consistent with established standards for classroom behavior.

The driver of a school bus shall be responsible for the safety of the students on the bus, both during the ride and while the students are entering or leaving the vehicle. Therefore, it is the bus driver's duty to notify the supervisor of transportation or the principal of the school if any student persists in violating the established rules of conduct.

After due warning has been given to the student and to parents/guardians, the principal may withhold from the student the privilege of riding the school bus. In such cases, the parents of the children involved will be responsible for seeing that their children get to and from school safely.

The student may also face detention, suspension or expulsion, in accordance with established policies, for flagrant violation of school bus rider conduct regulations or conduct detrimental to the safe operation of the bus.

Hemingford students attending a school-sponsored activity must use the transportation provided by the school unless previous arrangements have been made. A student that misses the bus for an activity will not be allowed to drive him or herself and still participate in the activity.

Hemingford students and staff members travel to and from school events by school bus or school vehicles. All members of a team or activity should return from a contest by the same transportation provided for taking them to the contest, unless they meet the following exceptions.

Updated: **EXCEPTION** -- A student may continue on a trip with their parents after a contest. Also, when due to distance, it is permissible for a student to return home with his/her parents, rather than return to Hemingford and have additional miles in order to arrive at home. Families may also have other business to take care of following an event and would like their student to join them. Students may only be released to their parents or guardian unless prior approval has been authorized as stated below. The students must obtain permission from the head coach. A parent/guardian must present to the head coach a written statement of their intent to take the athlete with them.

EXCEPTION – The parent or guardian requests in writing, in advance of the extracurricular activity that their child or children be allowed to return from the activity with an adult they deem responsible. The written request must be notarized or made in person with the Principal or Superintendent. The request shall be made to school administration during regular school hours prior to the time transportation leaves for the extracurricular activity.

As a condition of approving such requests, the parent shall be instructed by school administration that the school is not responsible for the child once he/she joins the designated person providing transportation.

Section 9: Weight Room

The weight room is for the use of all enrolled students in Hemingford Public Schools. A certified employee of the school district or an administratively approved representative must supervise all students using the weight room. The physical education department is encouraged to use the weight room along with the athletic department. During the sports practice time, the athletes participating in the season sports have the first right to use the weight room.

Whoever opens the weight room for the students is responsible for the people they open it for. It is the sponsor's responsibility to turn out the lights and lock the doors. Do not leave any students unsupervised.

Keys should not be given to students for them to open and use the weight room. A certified employee of the school district must open the weight room and be responsible for those using the facility by being in the weight room.

The coach should instruct the students on the proper use and spotting of free weights and whatever other instruction is necessary for the safe use of the room.

Section 10: Activity Training Rules and Regulations

Ref: SB Policy: 506.01

Above all, participants should be good citizens. Participants should have pride in themselves as well as in their community and their school. Athletes should be dedicated to a healthy mind, a healthy body, and a positive

attitude. Participants should not be exempt from rules, but rather held highly accountable for any actions that may be viewed as detrimental to the school or the community. Participants must remember at all times that their actions and attitudes not only reflect upon themselves but are a direct reflection of all of the students, parents, and staff at Hemingford Public School as well as all community members of Hemingford.

The following rules have been adopted by the Board of Education to help establish a meaningful and complete program for our youth. These training rules are for all students. For the training rule violations to be investigated by Activities Director and/or Administration, it must be reported in one of the following ways:

1. Self-report by the student.
2. Statement of the violation from the parent/guardian of the student being reported.
3. Written Statement of the possible violation from a current member of the coaching staff.
4. Written Statement from Law Enforcement of the violation.

- RULE 1 DRINKING** – A participant in sponsored activities shall not drink or be in the possession of alcoholic beverages.
- RULE 2 SMOKING, CHEWING** – A participant in sponsored activities shall not use or be in the possession of any tobacco product, including cigarettes, cigars, chew or other tobacco or tobacco derivative products; vapor products or electronic nicotine delivery systems; alternative nicotine products; or any other such look-alike or imitation product.
- RULE 3 DRUGS** – A participant in sponsored activities shall not take drugs except under a doctor's prescription.
- RULE 4 CRIMES** – A participant in sponsored activities will not be convicted of a crime serious enough to be deemed a misdemeanor or felony offense. Misdemeanor traffic violation may not be included in this rule. (The Activities Counsel will address a charge of any law, which violates training rules.)
- RULE 5 ACTIVITIES SPECIFIC RULE** – Students participating in sponsored activities, which are in season, must also abide by any other rules of the activity as established by that coach or sponsor.

ACTIVITIES COUNCIL The activities council will consist of the head coach/sponsor from each activity, the activities director and the principal. The activities council will determine the extent of the punishment and also address other issues concerning the extra-curricular activities. Parents of the student under investigation will be invited to sit in during the meeting pertaining to their son or daughter.

Section 11: Violations of Activity Training Rules and Regulations

Ref: SB Policy: 506.01

Violations of Rules 1, 2, 3* or 4* will result in the investigation by the Activities Council.

*Violation of Rule 3 or 4 may result in punishment equal to "Second Offense" of rules 1 and 2. If a student first violates rule 3 or 4 and then violates either rule 1 or 2, the second violation will be considered a "Second Offense." A second violation of rules 3 or 4 would result in punishment equal to "Third Offense" of rules 1 or 2.

FIRST OFFENSE: Suspension of all activities for 14 calendar days beginning with the 1st contest following the violation.

SECOND OFFENSE: Suspension of all activities for 30 calendar days beginning with the 1st contest following the violation.

THIRD OFFENSE: The student will forfeit eligibility for all school-sponsored activities for the remainder of the school year.

OTHER NOTES ON OFFENSES:

Ref: SB Policy: 506.01

- These time periods are the minimum requirements for loss of eligibility to participate in contests. Individual sponsors may assess additional consequences, as they deem appropriate.
- For activities with one- (1) time performances, the student will forfeit that event, if it occurs during the suspension.
- All students charged with any violation will be given the opportunity to defend themselves or their actions to the Activities Counsel if they so desire.
- Students cannot pick and choose the events that will be missed.
- All school-sponsored activities, clubs, and athletics count toward the suspension. (Dances added by the board at their 12/11/06 meeting).
- Conduct rules leading to activity restriction apply during the school year. The school year will begin with the official start of the fall activities, as determined by the NSAA, through the last scheduled event of the school year.
- Conduct rules leading to activity restriction apply both on and off school grounds.
- Students under school suspension or expulsion from school are not to be involved in activities in any manner.
- Violation of two different rules on two separate occasions will not be considered first violations of training rules.
- Participants who violate Board policy, these conduct rules, any training rules or rules of conduct of the coaches and/or activity sponsors, or any other discipline rule may be subject to disciplinary action, up to and including activity suspension or expulsion from the activity program.

ARTICLE 10: STUDENT FEES POLICY

The Board of Education of District #10, Hemingford Public Schools adopts the following student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's policy is to provide free instruction in school in accordance with the Nebraska Constitution and Nebraska state law. This generally means the District's policy is to provide free instruction for courses that are required by state law, regulation or accreditation requirements and to provide the staff, facility, equipment and materials necessary for such instruction, without charge or fee to the students. The Board also does provide activities, programs, student clubs, and services to children that extend beyond the minimum level of constitutionally required free instruction. The board realizes some activities may require additional expenditures that are properly to be borne by students as a separate charge. Students and their parents have historically contributed to the District's efforts to provide such activities and the district will continue to depend on such contributions. The District's general policy is to continue to encourage and to the extent permitted by law, to require such student and parent contributions to enhance the educational program provided by the District. Some charges may be waived depending upon the student's eligibility for the free and reduced-price lunch program. In other special cases where the parent/guardian requests that the student be exempt from charges, the superintendent shall determine granting of waivers. No fees, specialized or non-specialized attire or equipment shall be required of students outside this policy. This policy does not apply to tuition payments by nonresident students.

For the purposes of this policy, the following definitions shall apply:

1. "Extracurricular activities" means student activities or organizations which are supervised or administered by the school district, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the school district;
2. "Post-secondary education cost" means tuition and other fees associated with obtaining credit from a post-secondary educational institution.

The district may charge student fees or require students to provide specialized equipment or attire in the following areas:

1. Participation in extracurricular activities;
2. Admission fees and transportation charges for spectators attending extracurricular activities.
3. Post-secondary education costs, limited to tuition and fees associated with obtaining credits from the post-secondary institution;

4. Fees for option students not qualifying for free lunches and nonresident students as allowed by state statute;
5. Copies of student files or records as allowed by state statute;
6. Reimbursement to the district for property lost or damaged by the student;
7. Before-and-after-school or pre-kindergarten services in accordance with state statute;
8. Summer school or night school;
9. Breakfast and lunch programs;

The district may also require students to furnish musical instruments for participation in optional music courses that are not extracurricular activities. Students qualifying for free or reduced-price lunches shall be provided with a musical instrument of the school's choice.

The superintendent shall establish a Student Fee Fund and ensure that funds collected as fees for the following purposes are properly recorded and deposited to it:

- Participation in extracurricular activities;
- Post-secondary education costs when necessary;
- Summer school or night school if offered;

The superintendent shall promulgate regulations outlining the purposes for which fees in these three areas are collected and shall ensure such fees are spent for those purposes.

The superintendent shall promulgate regulations authorizing and governing the following areas:

1. All fees to be collected within the nine numbered areas of the third paragraph of this policy;
2. Any other types of specialized equipment or attire to be provided by all students in the nine numbered areas of the third paragraph of this policy;
3. Procedures and forms for students or parent/guardians to apply for waivers under this policy;
4. Deadlines for waivers for all types of fees;

Public concerns or complaints regarding required fees, attire or equipment shall be addressed under Policy 1005.01, Public Complaints.

PUBLIC HEARING. On or before August 1, 2002, and annually each year thereafter, the School Board shall hold a public hearing at a regular or special meeting of the Board on a proposed student fee policy. The hearing shall include a review of the amount of money collected from students pursuant to, and the use of waivers provided in, the student fee policy for the prior school year. The student fee policy shall be adopted by a majority vote of the School Board and shall be published in the student handbook. The board shall provide a copy of the student handbook to every student at no cost to the student. The student fee policy shall include specific details regarding those items required by law. In the event that the district would like to consider offering a service or materials for a fee which is not offered at the time that this policy is adopted or if the district would like to consider charging a fee for services or materials currently provided at no charge to the students or their parents or if any other change is desired, a public hearing shall be held at a regular or special meeting of the Board on the proposed changes to the student fee policy before any changes to the policy are adopted. If changes are made to the policy after the public hearing, written notice shall be provided to the students and their parents as soon as is practicable.

Membership in these organizations is purely voluntary and any fees, costs, materials, or clothing are the responsibility of the student or the organization. These organizations may choose to fund their activities through fundraising. Students who belong to these organizations are expected to participate in the fundraising activities of the organization in order to participate in the activities supported by the fundraising. The Board of Education must approve fundraising activities sponsored by student organizations.

Students who qualify for district or state competitions that are district approved competitions are provided transportation, registration, and meal money by District #10. The District may also provide transportation or partial transportation for activities of the student organizations. These organizations include:

H. Other Student Activities:

Students may participate in activities that are not sponsored by the school or are traditionally totally supported by fundraising activities.

- Summer band trips are sponsored entirely by fundraising. District #10 is not a sponsor and provides no support.
- World Stride is an activity supported partially by District #10 but all of the student costs to attend the Washington, D.C. trip is raised through fundraising activities. In the event the entire cost for each student is not raised, students who qualify for free and reduced lunch may request a waiver for the amount of funds required of each student to attend.

I. Classes:

Students belong to classes, which by nature become an organization. The classes sponsor student activities such as prom and graduation. Dues are set by the students in each class on an annual basis. Students may choose not to belong to their class organization but by doing so relinquish their right to attend those events and activities their dues and fundraising projects support. Preventing Harassment and Discrimination of Students

Ref: SB Policy: 504.18R1

Purpose: Hemingford Public Schools is committed to offering employment and educational opportunity to its employees and students in a climate free of discrimination. Accordingly, unlawful discrimination or harassment of any kind by administrators, teachers, co-workers, students or other persons is prohibited. In addition, the Hemingford Public Schools will try to protect employees and students from reported discrimination or harassment by non-employees or others in the workplace and educational environment.

For purposes of this policy, discrimination or harassment based on a person's race, color, religion, national origin, sex, disability or age is prohibited. The following are general definitions of what might constitute prohibited harassment.

- In general, ethnic or racial slurs or other verbal or physical conduct relating to a person's race, color, religion, disability or national origin constitute harassment when they unreasonably interfere with the person's work performance or create an intimidating work, instructional or educational environment.
- Age harassment (40 years of age and higher) has been defined by federal regulations as a form of age discrimination. It can consist of demeaning jokes, insults or intimidation based on a person's age.
- Sexual harassment is defined by federal and state regulations as a form of sex discrimination. It can consist of unwelcome sexual advances, requests for sexual favors, or physical or verbal conduct of a sexual nature by supervisors or others in the workplace, classroom, or educational environment.
- Sexual harassment may exist when:
- Submission to such conduct is either an explicit or implicit term and condition of employment or of participation and enjoyment of the school's programs and activities;
- Submission to or rejection of such conduct is used or threatened as a basis for employment related decisions, such as promotion, performance, evaluation, pay adjustment, discipline, work assignment, etc., or school program or activity decisions, such as admission, credits, grades, school assignments or playing time.
- The conduct has the purpose or effect of unreasonably interfering with an individual's work or educational performance or creating an intimidating, hostile, or offensive working, classroom or educational environment.
- Sexual harassment may include explicit sexual propositions, sexual innuendo, suggestive comments, sexually-oriented "kidding" or "teasing", "practical jokes", jokes about gender-specific traits, foul or obscene language or gestures, displays of foul or obscene printed or visual material, and physical contact, such as patting, pinching or brushing against another's body.

Complaint and Grievance Procedures:

Ref: SB Policy: 504.18R1

Good communication helps to resolve many misunderstandings and disagreements. This complaint procedure applies to board members, patrons, students, and school staff, unless the staff member is subject to a different grievance procedure pursuant to policy or contract. Individuals who have a complaint should discuss their concerns with appropriate school personnel in an effort to resolve problems. When such efforts do not resolve matters satisfactorily, including matters involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age, a complainant should follow the procedures set forth below.

A preponderance of the evidence will be required to discipline a party accused of misconduct. This means that the investigator must conclude that it is more likely than not that misconduct occurred.

Complaint and Appeal Process.

1. The first step is for the complainant to speak directly to the person(s) with whom the complainant has a concern. For example, a parent who is unhappy with a classroom teacher should initially discuss the matter with the teacher. However, the complainant should skip the first step if complainant believes speaking directly to the person would subject complainant to discrimination or harassment.
2. The second step is for the complainant to speak to the building principal, Title IX/504 coordinator, superintendent of schools, or president of the board of education, as set forth below.
 - a) Complaints about the operation, decisions, or personnel within a building should be submitted to the principal of the building.
 - b) Complaints about the operations of the school district or a building principal should be submitted in writing to the superintendent of schools.
 - c) Complaints about the superintendent of schools should be submitted in writing to the president of the board of education.
 - d) Complaints involving discrimination or harassment on the basis of race, color, national origin, sex, marital status, disability, or age may also be submitted, at any time during the complaint procedure to the School District's Title IX/504 coordinator. Complaints involving discrimination or harassment may also be submitted at any time to the Office for Civil Rights, U.S. Department of Education: by email at OCR.KansasCity@ed.gov; by telephone at (816) 268-0550; or by fax at (816) 268-0599.
3. When a complainant submits a complaint to an administrator or to the Title IX/504 coordinator, the administrator or Title IX/504 coordinator shall promptly and thoroughly investigate the complaint, and shall:
 - a) Determine whether the complainant has discussed the matter with the staff member involved.
 - 1) If the complainant has not, the administrator or Title IX/504 coordinator will urge the complainant to discuss the matter directly with that staff member, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the staff member, the administrator or Title IX/504 coordinator shall, in his or her sole discretion, determine whether the complaint should be pursued further.
 - b) Strongly encourage the complainant to reduce his or her concerns to writing.
 - c) Interview the complainant to determine:
 - 1) All relevant details of the complaint;
 - 2) All witnesses and documents which the complainant believes support the complaint;
 - 3) The action or solution which the complainant seeks.
 - d) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the administrator or Title IX/504 coordinator received the complaint.
4. If either the complainant or the accused party is not satisfied with the administrator's or the Title IX/504 coordinator's decision regarding a complaint, he or she may appeal the decision to the superintendent.
 - a) This appeal must be in writing.

- b) This appeal must be received by the superintendent no later than ten (10) business days from the date the administrator or Title IX/504 coordinator communicated his/her decision to the complainant.
 - c) The superintendent will investigate as he or she deems appropriate. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) Upon completion of this investigation, the superintendent will inform the complainant in writing of his or her decision. If the complaint involved discrimination or harassment, the superintendent shall submit the decision within 180 days after the superintendent received the complainant's written appeal.
5. If either the complainant or the accused party is not satisfied with the superintendent's decision regarding a complaint, he or she may appeal the decision to the board.
- a) This appeal must be in writing.
 - b) This appeal must be received by the board president no later than ten (10) business days from the date the superintendent communicated his/her decision to the complainant.
 - c) This policy allows, but does not require the board to receive statements from interested parties and witnesses relevant to the complaint appeal. However, all matters involving discrimination or harassment shall be promptly and thoroughly investigated.
 - d) The board will notify the complainant in writing of its decision. If the complaint involved discrimination or harassment, the board shall submit its decision within 180 days after it received the complainant's written appeal.
 - e) There is no appeal from a decision of the board.
6. When a formal complaint about the superintendent of schools has been filed with the president of the board, the president shall promptly and thoroughly investigate the complaint, and shall:
- a) Determine whether the complainant has discussed the matter with the superintendent.
 - 1) If the complainant has not, the board president will urge the complainant to discuss the matter directly with the superintendent, if appropriate.
 - 2) If the complainant refuses to discuss the matter with the superintendent, the board president shall, in his or her sole discretion, determine whether the complaint should be pursued further.
 - b) Strongly encourage the complainant to reduce his or her concerns to writing.
 - c) Determine, in his or her sole discretion, whether to place the matter on the board agenda for consideration at a regular or special meeting.
 - d) Respond to the complainant. If the complaint involved discrimination or harassment, the response shall be in writing and shall be submitted within 180 days after the president received the complaint.

No Retaliation. The school district prohibits retaliation against any person for filing a complaint or for participating in the complaint procedure in good faith.

Bad Faith or Serial Filings. The purpose of the complaint procedure is to resolve complaints at the lowest level possible within the chain of command. Complaints filed (a) without a good faith intention to attempt to resolve the issues raised; (b) for the purpose of adding administrative burden; (c) at a volume unreasonable to expect satisfactory resolution, or (d) for purposes inconsistent with the efficient operations of the district may be dismissed by the superintendent without providing final resolution other than noting the dismissal. There is no appeal from dismissals made pursuant to this section.

Section 3: Notification of Rights Under FERPA

Legal Ref: 20 U.S.C § 1232g

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. The right to inspect and review the student's education records within 45 days of the day the district receives a request for access. Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.
2. The right to request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading. Parents or eligible students may ask the school district to amend a record that they believe is inaccurate or misleading. They should write to the school principal, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the district decides not to amend the record as requested by the parent or eligible student, the district will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of the right to a hearing.
3. The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent. One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the district as an administrator, supervisor, instructor or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the school board; a person or company with whom the district has contracted to perform a special task (such as an attorney, auditor, medical consultant or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the district discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.
4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, S.W.

PURPOSE

This handbook is prepared for the purpose of providing information on customs and policies pertaining to the Hemingford Public Schools. It is intended for use by the staff as a guide in developing a well-coordinated instructional support program. It is hoped the statements set forth in this handbook will improve understanding and cooperation among all school personnel in the coming school year.

It is the purpose of this handbook to establish uniformity of operation. It will be supplemented from time to time as board policy, superintendent policy or the principals' policies are changed.

The quality of educational achievement is directly related to the employees of the school district. Each employee has been selected to provide for a certain phase of the child's needs as he/she grows in the educational program. As we coordinate our work and as each school employee grows professionally in his effectiveness, so grows the Hemingford Public Schools as a more effective school system.

DRAFT

CONTRACT AND RELATED ITEMS

Teachers are appointed to their position by the superintendent after election by the Board of Education. They are directly responsible for the welfare of the students under their control, which includes the development of the child's capacities in all phases: mental, physical, social, and moral.

Teachers are jointly responsible to the superintendent of schools and the principals in accordance with Board of Education Policy. Teachers are expected to carry out the policies of the Board of Education.

ABSENCES - TEACHER

Teachers who are to be absent from school for any purpose whatsoever shall request leave in writing through the Red Rover online leave system to the principal. After receiving written authorization to be absent, the teachers shall work with the building designee to arrange for the supervision of their classes and activities. This should be done 3 days in advance of anticipated absence if possible. The teacher is responsible for reporting the expected absence and for making necessary plans in advance, whether the absence is in the line of school duty or for private business. Substitutes will be secured through the principal's office.

For unexpected absences or illness please notify the building designee no later than 7:00 a.m. so a substitute teacher can be attained. Please provide adequate lesson plans for substitutes for all absences. Teachers must report unexpected leave through the Red Rover online leave system within three days of taking leave.

RETURNING FROM ABSENCES

1. Justification for Absences Taken Without Prior Approval. If an employee is absent without advance approval either: (1) the day immediately preceding or immediately following a regularly scheduled school break (such as winter break, spring break, and quarter or semester breaks) or (2) during the first two weeks or the last two weeks of school (student contact days), the employee will be required to give verification (for example, a doctor's note) to establish that the employee was unable to work for an excusable condition or excusable reason.

2. Establishing Fitness for Duty. Employees must present a written statement from their physician or health care provider to their supervisor when absent for any period of time because of injury requiring care from a physician or health care provider, or absent from work for 5 days or more due to a personal health condition. The statement is to clearly verify that the employee is mentally and physically able to return to duty. This statement is to be presented in person to the employee's supervisor before the employee returns to duty in order that the readiness to perform work can be observed and discussed.

Employees are required to disclose any medical restrictions that limit their ability to perform the essential functions of their position to their supervisor and to request a meeting with the Superintendent to discuss the provision of reasonable accommodations. The District will not discriminate against any employee due to

disability and will provide reasonable accommodations. Information provided about medical conditions or disabilities shall be treated as confidential, as required by state and federal statutes, and will be divulged only to the extent necessary to provide reasonable accommodations.

CERTIFICATION

Each teacher must hold a Nebraska Teacher Certificate of the proper class for the position for which he or she has been employed. The certificate must be registered in the office of the Superintendent of Schools in Hemingford, Nebraska. Any contract is subject to cancellation if these requirements are not met. The superintendent may assign other duties or classes as necessary.

CONTRACT

Teacher contracts consist of a total of 185 days.

CONTRACT TERMINATION

The termination of contract, non-renewal of contract, cancellation of contract, amendment of contract, or disciplinary actions less severe than cancellation, non-renewal, termination or amendment will be in accordance to Nebraska Statutes 79-12, 107 to 79-12,120.

Failure to give Evidence of Professional Growth as Required by 79-12,113 – A teacher does not provide evidence of completing or did not complete the requirements for professional growth as established by the Board of Education Policy.

Other Conduct Which Interferes Substantially With the Continued Performance of Duties – A teacher to a large degree or in the main, becomes so involved in out-of-school activities, in school actions, or other activities or actions that by their involvement detracts from or prohibits the teacher from performing their required and professional duties and causes the teacher to become ineffective in their performance.

FACULTY EVALUATION

Faculty evaluation will be conducted in accordance with the procedures detailed in Board Policy 406.08R. The procedures and associated forms are included in Appendix A of this handbook.

PAY DAY

Salaries for teachers are to be paid in twelve equal installments. Payment day shall be the fifteenth day of each month, unless the fifteenth falls on a weekend or holiday; then the payments will be made on the Friday before the fifteenth. Payment will be made by direct deposit to the teacher's account. Deductions from the payment will include social security, federal tax, state tax, and teacher retirement. Optional deductions are annuities, dental insurance, health insurance, and professional dues.

JURY DUTY

All certificated personnel selected to serve on jury duty will be paid the difference between what the court allows them and what they would have earned in a regular working day.

PROBATIONARY TEACHERS

Probationary teachers are those who have not completed three years of teaching with the employer school district. They are not protected by the "just cause" provision of 79-1254, and their contracts may be terminated as of the close of the school year for any reason the Board of Education chooses; except for exercising constitutionally protected rights such as free speech, freedom of assembly and association, etc.

Probationary teachers will be evaluated at least one time per semester.

GENERAL INFORMATION

ACADEMIC INTERVENTION/ACADEMIC DETENTION

Academic Intervention is established with the purpose of facilitating opportunities for the professional teachers of the district to help their students succeed in each content area. In the event that a student is failing any course, the expectation is for the teacher of the course to work with the student and parent to schedule academic intervention to stay and work on their assignments with direct instruction from the classroom teacher. Academic Intervention will be available every regular school day from 7:45am-8:00am and 3:40pm-4:00pm.

Teachers who have students failing any courses along with other staff members who assign Academic Intervention are directed to provide instruction and supervision to the student. Teachers are expected to utilize academic intervention to assist students seeking to improve their learning and grades in accordance with the grading procedures of the school district.

The school administration may assign students to attend the academic intervention program. Additionally, teachers may issue academic detention during the academic intervention period to students to provide for support and supplemental instructional time as needed to help students learn material and complete assigned learning tasks.

Students will be assigned to the academic intervention program on a mandatory basis when the following factors place them at academic risk:

- A current failing grade in any class.

- Missing/Late assignments.

- Risk of course failure.

Students attending the academic intervention program are supervised by both certificated and non-certificated staff members. Students attending the academic intervention program have access to support, encouragement, structure, and resources to complete their assigned learning tasks.

When students are assigned to participate in the academic intervention program, failure to attend will be considered truancy. Students who are assigned to the academic intervention program are directed to avoid scheduling medical and other appointments for times when academic intervention is in session. In instances when no alternative scheduling options exists, the school administration reserves the right to grant a make-up attendance time to be decided by the assigning administrator.

Although attendance is mandatory when assigned, the academic intervention program is open to all students in grades 7-12 who need additional work time, support, or access to learning technology.

Student failures are often (but not always) the result of not turning work in or late work. One of the best ways that parents/guardians can help students be successful is by providing time and structure at home for students to complete all of their assignments. Parents can monitor their students' grades, assignments, and attendance via PowerSchool our online student information system.

Teachers who have students meeting the qualifications for participation in the academic intervention period are required to provide supervision and instructional support to these students for the entire duration of the academic intervention period. When circumstances arise where teachers are assigned to other duties during the academic intervention period the teachers involved are to work with the principal to ensure that students are supervised and have the opportunity to receive academic support. It is the responsibility of the classroom teacher to communicate with students, parents, and the principal when students have missing or late assignments or are otherwise at risk of course failure.

STUDENT ABSENCE

Work missed because of absence can be, and often needs to be, made up on the student's return to school. Make-up provisions vary depending upon the type of absence. Teachers will work with students to ensure work is made up in accordance with the district's grading practices to promote learning.

ATTENDANCE PROCEDURES

Teachers are to take attendance within the first 10 minutes of each instructional period in the secondary school and at such times as assigned by the principal in the elementary school. Teachers are to contact the office immediately regarding any student who is absent and not previously marked as absent by the school office in the school's computerized attendance system. Teachers are responsible for ensuring that attendance records are accurate and regularly updated. For example, if a student comes to class after attendance has been taken then the student's attendance record needs to be updated to "tardy" instead of "absent". Additionally, teachers are required to read email announcements regarding students' attendance at activities so that student attendance properly reflects the students' attendance at school/activity functions as being "present."

BAD WEATHER/SCHOOL CLOSING

The importance of notifying employees, parents, and students when school will be delayed in opening, not opened at all, or be dismissed early is of prime concern. We will be using an automated messaging system (Remind) which will allow the school to contact each family with regard to school closing and other notifications. This system is designed to message the phone number or numbers listed in your employment file. Please ensure that the school district is continually notified of any changes to your contact information.

The school also uses local radio station KCOW, KNEB, and KCSR to inform staff, parents, and students of closing due to inclement weather. The school will make every effort to make this information available as soon as possible.

CLASSROOM MANAGEMENT

Teachers have the responsibility of managing their classrooms in a manner that allows students to effectively accomplish their learning tasks. Realizing there is a wide variety of teaching styles, learning styles, and subject content, classroom management should also vary. There are, however, some common procedures teachers of well-managed classrooms follow:

1. Be prepared for class. When the bell rings, the teacher is ready to begin class. A meaningful activity is planned for each class on each day.
2. Make assignments reasonable and clear.
3. Be a neat dresser, well groomed; be businesslike and friendly.
4. Do not allow students to address you by your first name or a nickname.
5. Communicate your classroom expectations to the students. Keep rules to a minimum.
6. Incorporate technology in various ways to enhance student learning and engagement.
7. Staff and Student personal cell phones and electronic devices including ear buds will remain off and out of sight and may only be used during class time or times of supervision for educational purposes.
8. Be consistent each day of the school year.
9. Avoid punishing the entire class for the actions of a few.
10. Avoid comments to students you would not make in the presence of their parents.
11. Avoid comments or actions that could humiliate a student.
12. Be willing to apologize.
13. Communicate with the parents---call them on the telephone or write a note when concerns arise. Use Progress Reports and Eligibility Reports appropriately.
14. Avoid arguments with students in front of a class. Even if you win, you've lost.
15. Be enthusiastic. If you don't want to be here, neither will the students.
16. Keep the level of your voice under control. Avoid yelling.
17. Be creative with assignments and instructions. Facilitate success.
18. Get to know your students, take an interest. Attend activities.
19. Physically manhandling students will not be supported, except when defending yourself, separating students in a confrontation, or preventing injury to a student.
20. Seating arrangements should be maintained in classrooms. Inspect desks daily for damage.
21. Detentions assigned by an individual teacher are the responsibility of that teacher. Do not assign detentions to students if you are unable to supervise the student during the assigned time.
22. Limit free time; maintain appropriate control of your classroom and area.

COMMUNICATION

Teachers at Hemingford Public Schools are expected to utilize effective communication strategies and technological resources when appropriate to collaborate and engage with students, parents, families, and the community to create meaningful relationships that enhance the learning process.

In order to facilitate such communication between the school and homes, teachers are expected and directed to follow the communications plans and protocols developed at the school and district levels. Such communications plans will include directions for frequency, content, and method/mode of communication teachers will be expected to utilize.

COMMUNITY RELATIONS

The Board of Education, through the administration, demands dignity, neatness, and seriousness of purpose for its teachers. The teaching profession, as a whole, is frequently and unjustly judged by the attitude and conduct of a single teacher. Since all are judged by what only a few may do, it is imperative that each of us give considerable thought to our actions as they relate to community customs.

Teachers should regard the community in which they are employed as their home. You should be interested in its institutions, its worthwhile activities, and participate in those in which you have special interest and abilities. Good judgment should be used in all practices.

Poor public relations can ruin the finest faculty in a good school. It is imperative that we all use common sense and discretion in and out of school.

Staff should refrain from commenting on or posting negative comments on social media platforms about school personnel or the school community. Engaging in this type of behavior erodes the public's trust in you as an educator and the school system as a whole. Any concerns or complaints should be addressed through the chain of command and/or the grievance process.

CONCESSIONS/CASH BOXES

Arrangements for concessions stand dates are to be made through the office of the Activities Director. Concessions and other cash boxes, such as gate receipts for athletic events, are to be counted and signed-off by two adults before the funds are remitted to the school administration and office staff.

CONCUSSIONS: RETURN TO LEARN

Students who sustain a concussion and return to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered.

The school administration of Hemingford Public Schools adopts the NDE Guidance entitled "Bridging the Gap from Concussion to the Classroom," and accompanying Appendix, as its return to learn protocol, with the recognition that each student who has sustained a concussion will require an individualized response.

CONFIDENTIALITY AND CONFIDENTIALITY OF RECORDS

Employees should not discuss school matters outside the job nor discuss confidential or personal information about students or staff. Requests from anyone, including fellow building staff members, for personal information about students or staff should be referred to the principal. School staff shall maintain student records in compliance with state and federal law.

COPYRIGHT AND FAIR USE POLICY

It is the school's policy to follow the federal copyright law. Students are reminded that when using school equipment and when completing course work, they must also follow the federal copyright laws. The federal copyright law governs the reproduction of works of authorship. Copyrighted works are protected regardless of the medium in which they are created or reproduced; thus, copyright extends to digital works and works transformed into a digital format. Copyrighted works are not limited to those that bear a copyright notice.

The "fair use" doctrine allows limited reproduction of copyrighted works for educational and research purposes. The relevant portion of the copyright statute provides that the "fair use" of a copyrighted work, including reproduction "for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research" is not an infringement of copyright. The law lists the following factors as the ones to be evaluated in determining whether a particular use of a copyrighted work is a permitted "fair use," rather than an infringement of the copyright:

- the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- the nature of the copyrighted work;
- the amount and substantiality of the portion used in relation to the copyrighted work as a whole, and
- the effect of the use upon the potential market for or value of the copyrighted work.

Although all of these factors will be considered, the last factor is the most important in determining whether a particular use is "fair." Students should seek assistance from a faculty member if there are any questions regarding what may be copied.

CRISIS SITUATIONS

Behavior in the first moments, by those actually involved in a crisis situation, will largely dictate the outcome. In the event of a crisis situation, Hemingford School personnel are expected to follow the procedures as written in the Emergency Response Manual.

CUSTODIAL ASSISTANCE

Our custodians strive to keep the school neat, clean and functional. It is a difficult job, and we should all encourage students to conduct themselves in ways that contribute to an attractive and safe environment. If custodial assistance is needed, all requests must go through the building principal's office. Staff members who observe any areas of

custodial/maintenance concern are expected to complete a Custodial/Maintenance Work Request Form and submit the form to the building principal.

DETENTIONS

In order to modify certain behavior, it is allowable to require students to come to school early (if not a bus issue), come in at lunch (and eat), or stay after school. Please make this time related to the work in class and to addressing undesirable behavior. Due to individual students' geographic situations, it may be necessary that you give the student one day to make transportation arrangements. Detentions should be 30 minutes in length (or the length of the lunch period). Be consistent within yourself and the staff. Detentions assigned by an individual teacher are the responsibility of that teacher. Do not schedule detentions for times when you are unable to supervise the student.

DISCIPLINE

As professional educators, teachers are expected to create reasonable classroom rules and consequences. Students should know what behaviors are expected, and these expectations should be firmly but fairly enforced. Discipline does not automatically mean punishment, but it does always mean encouraging a desired behavior. Threatening, yelling, criticism, sarcasm, etc. are questionable discipline techniques and often prove inadequate. The student's improper behavior should be the focus of the discipline and not the student's personality, family, dress, appearance, etc. Discipline that punishes all students for the wrong doing of a few is discouraged. Grades are not to be reduced as a form of discipline for poor behavior. The forms of discipline that you choose should be consistent, reasonable, and fair.

Discipline is a very important factor in the success of any teacher. Teachers may know their subject matter and the most current research, but these are of little value unless they are able to control the pupils in their classes.

Discipline is the responsibility of each individual teacher. The principal's role is to assist and advise in the event of flagrant or continued misbehavior. Flagrant misbehavior should be brought to the attention of the principal immediately. A student shall not be sent to the office without an explanation of the offense. If assistance is needed in the removal of a student, the teacher is to send someone to the principal's office immediately for assistance. Each student dictates different strategies, but effective teaching and adequate preparation prevent many behavioral problems from occurring. Teachers are encouraged to read and may be required to read "Tools for Teaching" by Fred Jones for additional guidance in proper classroom management.

Corporal punishment shall not be administered. Students causing excessive discipline problems may be recommended to the Superintendent for expulsion.

DISCIPLINARY DOCUMENTATION, AND REFERRALS

Staff members are directed to utilize the student information system (PowerSchool) for all disciplinary and behavioral documentation and referrals. All discipline referrals must be submitted to the principal or his/her designee via PowerSchool. All student disciplinary documentation is to be kept in the PowerSchool system.

DISPENSING MEDICATION

Employees are not permitted to give any medication to students unless trained under the Medication Aide Act. To ensure the proper care of our students, employees who are asked to take the medication training and administer medications shall do so.

Students who need to take prescription medicine must have a signed parent release form on file in the office. Medications are to be taken in the presence of the office staff, the nurse, or medication aide and are to be stored in the nurse's office; with the exception of students who have a diabetes self-management or asthma self-management plan. Medical procedures are not to be administered in the classroom except in accordance with the District's Safety and Security Management Plan and the District's Emergency Protocol (asthma/anaphylaxis protocol).

If students must take medication and/or perform medical procedures prescribed by a duly licensed physician during school hours, it is the responsibility of the parents or guardians to sign permission slips to dispense the medicine at the school and to submit a note or prescription from the physician authorizing the medicine and/or medical procedure. School district personnel are not to administer medicine, including over the counter medicine, without a signed form and note or prescription. Any medication brought to school needs to be properly labeled. The label should include the following information: student's name, name of medication, dosage needed, and time of dispensing the medication.

DISRUPTED DAY

Use disrupted days for review, special help, or enrichment activities. Disrupted days become wasted days for students only if teachers allow it. Teachers may videotape instruction and other classroom activities to make available to students who were absent or who would like to otherwise review such content.

DISTRICT INSTRUCTIONAL MODEL

The Nebraska Teacher and Principal Performance Standards (NTPPS) and Rubrics provide the basis of an instructional framework for Hemingford Public Schools, which includes focusing on evidence-based instructional strategies to enhance teaching and learning. Teachers are expected to effectively utilize the Nebraska Teacher and Principal Performance Standards and Rubrics as a routine component of their instructional design and delivery.

DUTY HOURS

All teachers are expected to report for duty as determined by their building principal. Currently 7:45 am to 4:00 pm (Teachers will be allowed to leave at 2:15 pm on those Fridays when administration does not schedule professional development). All teachers are to remain on duty during these hours unless otherwise excused by the principal or superintendent. During school hours, no teacher is to leave unless the superintendent or principal have been notified, or arrangements have been made

previously through the superintendent or principal. Under no condition should a teacher leave the room while his/her pupils are in attendance. In case of emergency, send another student to either the superintendent's or principal's office.

EMPLOYEE FAMILY MEMBERS AND VISITORS

Employees are welcome to bring their children to visit their worksite, provided that the visits are infrequent, brief, and planned in a fashion that limits disruption to the workplace and/or staff member responsibilities. Other family members, spouses, significant others, or visitors may be allowed from time to time at the discretion of the administrator/supervisor. If the frequency, length, or nature of visits becomes problematic, the employee will be advised of the situation and will be expected to take corrective action.

Employees are not permitted to bring ill children to work. This guidance is not to be utilized as a backup childcare arrangement. Employees are provided paid time off benefits which should be used for personal reasons or to care for an ill child.

EMPLOYEE BENEFITS ONLINE PLATFORM

As part of a comprehensive benefits package, the district provides access to various elective benefits, including vision insurance, supplemental insurance, emergency transportation insurance, and Section-125 (flex spending) plans. These are available for employees to purchase at group rates through an online benefits platform.

FACULTY MEETINGS

Teachers' meetings will be called by the principal when necessary. Advance notice will be given in time for activity teachers to plan their work in order to attend. The only exception to this will be meetings of an emergency nature.

FUNDRAISERS AND ACTIVITIES ACCOUNTS

In order to ensure that the resources of the community are not strained as a result of multiple fundraisers occurring at simultaneously, all student organization fundraisers (other than the concession stand) must be approved by the organization's sponsor, the activities director, building principal, bookkeeper, and superintendent. When an organization wishes to engage in a fundraising activity the sponsor will need to complete a Fundraiser Request Sheet and submit the form to the Activities Director. Fundraising activities should not begin until the request has been approved by the superintendent. Fundraising activity should be limited to the actual needs of the organization. As a general rule, the concession stand should be a component of the fundraising strategy of student organizations. Food and/or drinks shall not be sold during school hours without annual approval of the building principal and must be in compliance with the school wellness policy.

Cash and checks which are collected are to be accounted for by the sponsor and remitted to the school bookkeeper each business day. All cash and checks must be remitted to the bookkeeper within 24 hours of the completion of any fundraiser.

Funds earned in the name of a school organization belong to the organization rather than to the individual student. When students engage in fundraising as a member of a school organization (such as activities, groups, teams, or clubs) the proceeds from the fundraising shall remain with the organization regardless of the continued participation status of the student in such organization. If organizations are disbanded all funds remaining with the organization will be transferred to the activity travel account.

Senior class funds remaining after graduation expenses are paid may be designated for a specific school project or activity by a majority vote of the senior class. If no project or activity is designated prior to graduation the remaining funds will be transferred to the secondary school account in the activities fund.

GRADES AND REPORT CARDS

Teachers are expected to enter grades into the online grading program in a timely manner. As a general rule grades should be updated at least weekly. Grades should be of a sufficient number to provide meaningful feedback to students and parents regarding learning/performance and to allow students to work toward mastering the learning objectives of the course of study.

Grades are to be a reflection of student understanding of content and skills in each academic area. Grading guidelines will issued from time to time by the superintendent of schools in accordance with policy. Grading practices (including grades for late work and subject-specific grading criteria) are to be approved by the building principal prior to the beginning of each school year. Grading practices should be clearly communicated

to parents and students at the beginning of each school year to promote understanding of student performance as communicated through student grades.

Report cards will be provided at the end of each quarter. The grading system used is as follows:

Kindergarten-Third grade uses the following grading system:

	1--Beginning	2--Progressing	3--Proficient	4--Advanced
K and 1st	Does not meet district standards	Working towards district standards	Meets district standards	Above district standards
2nd and 3rd	Student rarely demonstrates an understanding of the concepts and the application of skills and strategies.	Student occasionally demonstrates an understanding of the concepts and the application of skills and strategies.	Student usually demonstrates an understanding of the concepts and the application of skills and strategies.	Student consistently demonstrates an understanding of the concepts and the application of skills and strategies.

Fourth grade - Seniors will use the Hemingford Public Schools letter grading system as follows:

A+ = 99-100	A = 95-98	A- = 94	Excellent
B+ = 93	B = 88-92	B- = 87	Good
C+ = 86	C = 78-85	C- = 77	Satisfactory
D+ = 76	D = 71-75	D- = 70	Needs Improvement
F = Below 70			Failing – No Credit

Each teacher should define for students the grading procedures to be used in their classes consistent with grading guidelines issued pursuant to Board Policy 611.05.

Parents may ask for a progress report on their child at anytime. No pupil may be penalized for discipline by or through his/her grades.

GUM, FOOD, AND CANDY

While gum is allowed in classrooms, it should be disposed of properly. Candy may be allowed on occasion when it is permitted by the teacher. Certain elementary grades and secondary courses, such as band and choir may restrict the use of gum and candy for safety and equipment reasons. In accordance with the school wellness policy,

gum and candy should be limited as a classroom reward. Staff members interested in having class parties or supplying food need to have that approved by the principal prior to planning the event.

HALL SUPERVISION

Every teacher is expected to step into the hall between classes to help maintain order. Students must be supervised at all times when they are on school premises because of possible accidents and subsequent liability. Teachers are to file all accidents no matter how large or small. Lawsuits can happen several years later. A written record could be great assistance in presenting requested testimony.

HOMEWORK

The purpose of homework is to:

1. Reinforce learning; practice a skill previously taught.
2. Encourage independence, self-discipline, self-direction, and develop productive work habits.
3. Create a school-home bridge by acquainting parents with what the children are learning in school.

Factors bearing consideration:

1. Adequate notice, time, and reminders should be given for long-range projects.
2. Homework should be used for valuable tasks. "Busy work" creates resentment and fosters the idea that schoolwork is meaningless.
3. Assignments should be clearly explained to students, with work beginning at school under the teacher's supervision.
4. Individual student abilities should be considered in determining the amount and nature of homework assignments.

Parents show an interest in the homework assigned to their children. They form opinions of and attitudes toward the school and you as a teacher based on the nature of the homework assigned to their children.

INSTRUCTIONAL AREAS

Each teacher is responsible for the appearance and organization of their assigned classroom, lab, shop, etc. The appearance of the instructional area has an impact on the learning that occurs; therefore each teacher should devote time and energy to developing an attractive, stimulating, and orderly instructional setting. Take pride in your educational setting, as well as your teaching. Be an example for students. When a room is unoccupied, lock and shut doors behind you and shut off lights. ***Teachers are expected to be with their students during the entire period their classes are in session.***

Occasionally teachers are required to share rooms. Upon leaving an area please insure that:

a) materials and equipment are stored properly, b) chairs and desks are properly placed, c) the floor is free of litter. On leaving your room for a length of time or for the day, teachers will turn out all lights, close and lock all windows and close and lock all doors. Teachers using the building after hours must check all lights and doors and see that all students are out of the building. Students are not to be left to close the building. Whenever the facility is being used, there must be a staff person present and directly supervising the students. Do not give your keys to students or any other person. Individuals and organizations wishing to use the school facilities must complete an Application for Facility Use and submit such application to the office for approval.

LESSON PLANS, CLASS ROSTERS, AND SEATING CHARTS

Written lesson plans are required. They are to be completed in a format determined by the principal and submitted to the principal's office before classes resume each Monday. Lesson plans may be required to be prepared collaboratively and/or during common planning time at the discretion of the principal. Lesson plans; class rosters, and seating charts must be easily accessed in the event a substitute needs to cover for a teacher.

LETTERS TO PARENTS

Please have all general letters to parents cleared through the principal before releasing.

MUTUAL RESPECT

The Hemingford Public Schools expects every staff member and student to be treated with respect and dignity.

OBSERVING AND ENFORCING RULES

It is the duty of each teacher to become familiar with the rules, regulations, and policies of the school and to do all that you can at all times to see that they are enforced. Ignorance of the rules does not excuse you.

OUTSIDE RESOURCE PEOPLE

The administration feels that the utilization of outside resource people has the capability to greatly enhance the learning process in the classroom. The building principal shall be made aware of the teacher's plans to bring in an outside speaker, and the principal is authorized to terminate plans to bring in an outside speaker should there be doubt about the visiting speaker's credentials.

The teacher does, however, assume the responsibility for what happens in the classroom whether it is the teacher presenting a lesson or an outside resource person. It is the responsibility of the teacher to exercise mature judgment in the selection of people brought in. The teacher must stand ready to limit any speaker who strays into questionable topics, or when the speaker's veracity seems questionable.

It is suggested that you utilize the following check-list before inviting any person to speak to your class.

1. Is the prospective resource person known to me as one who will present honest factual information? If not, will someone well known to me verify the personal characteristics to me?
2. Will the prospective speaker present the types of information and topics which are appropriate for the maturity level of those in your class.
3. Will the prospective speaker cover material cognate to that currently being pursued in your classroom?

PARENT – TEACHER CONFERENCES

Parent-teacher conferences will be held for the elementary grades and the secondary school twice a year. They are a vital part of the evaluation and public relations program. During this time, many things can be discussed with the parents: test results, daily grades, samples of daily work, the student's strong and weak points, how the parent can help their child improve his/her work, and any problems that may exist.

Although the conferences involve considerable time and work, you will find that they are extremely worthwhile. This short visit with the parents will be of great value to the student, to the parent, and to the teacher.

Individual conferences with parents are encouraged and can be requested by the teacher whenever necessary. It is best to schedule a conference whenever a problem appears or whenever a problem seems about to develop.

PARKING AT THE SCHOOL

In order to provide a safe and invitational atmosphere to parents and visitors, staff members are to refrain from parking in the parking spaces located on the curbcut on the south side of the school. These spaces are to be reserved for parents and other visitors to the school.

PROFESSIONAL COLLABORATION AND PEER COACHING

As professional educators, teachers are expected to engage in collaboration and common planning to support improvement in teaching and learning. As part of district efforts to promote continuously improved professional practice, teachers will be expected to engage in non-evaluatory observations of other teachers and to engage in peer coaching. Engaging in peer coaching and providing feedback enhances the professional dialogue within the school district and provides a growth opportunity for both the teachers who are observing, and those being observed. Building principals will be responsible for determining the number of peer observations and the processes to be used for collaboration and coaching.

PROFESSIONALISM AND CODE OF ETHICS

Professional conduct is expected from all personnel of Hemingford Public Schools. This behavior is reflected in your dress and grooming, relationships with students and parents, and interaction with your peers. A positive school climate is critical to everyone's success. All holders of public school certificates must be familiar with the Standards of Conduct and Ethics as set forth in Title 92, Nebraska Administrative Code, Chapter 27.

PUBLICITY/PUBLICATIONS

Take pride in the school and be proud to tell about the positive elements of the school. Any items to be submitted to local papers or sent home to the parents should be appropriate and approved by the building principal. Any concerns should be presented to the principal in advance. The Secondary Principal shall serve as the editor of all student publications.

PURCHASING

Board Policy on Purchases: **Any employee who purchases supplies or equipment without expressed authorization of the Superintendent shall be personally liable for payment of the bill.** Teachers should make requests for supplies or equipment in sufficient time to allow for economical and wise purchasing.

Class and club sponsors will have responsibility for supplies ordered through their organizations. In many cases, items can be procured through regular school channels more economically. All purchases which are handled through the activity fund should be cleared through the Office of the Superintendent or the Activities Director.

All purchases charged to the school district or to any organization of the school will be accompanied a requisition order approved through the Weblink online requisitioning system. Requisition Orders for a class or organization must be approved by the authorized personnel in the Office of the Superintendent or the Activities Director. No bills will be paid by the Board of Education or from the Activity Fund which have not been authorized.

RADIOS AND OTHER COMMUNICATION DEVICES

In order to facilitate effective and timely communication, employees may be assigned to wear and use a handheld radio or similar communications device while on duty.

RECESS SUPERVISION

Supervision of students at recess or other non-instructional times is an expectation for teachers in the district. When supervising please engage in the practices described in the "Supervision of Students" section of this handbook.

RECORDS MANAGEMENT AND DISPOSITION – LITIGATION HOLDS OF ELECTRONIC MESSAGES

When litigation against the District or its employees is filed or threatened, the District will take all reasonable action to preserve all documents and records that pertain to the issue.

As soon as the District is made aware of pending or threatened litigation, a litigation hold directive will be issued by the records officer or designee. The directive will be given to all persons suspected of having records that may pertain to the litigation issue.

Employees who receive notice of a litigation hold are to preserve all records that pertain to the litigation issue. This includes preserving electronic messages that would otherwise be deleted by the computer system; such messages are to be converted by the recipients of the litigation hold to hard copy (printed) or electronic format which can be retrieved and interpreted (downloaded) for the duration of the litigation hold.

No employee who has been notified of a litigation hold may alter or delete an electronic or other record that falls within the scope of the hold. Violation of the litigation hold may subject the employee to disciplinary actions, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

SANITATION, HEALTH, AND ROOM MAINTENANCE

Teachers are expected to engage in keeping a sanitary classroom. This includes directing students in the process of regularly sanitizing desks, counters, doorknobs, light switches, and other frequently touched surfaces, according to specific instructions given by the Building Principal or Superintendent, in addition to the regularly scheduled sanitation by the custodial staff.

Teachers may be expected to engage in monitoring student health including taking temperatures, recording health screening data, and reporting any health concerns to the school nurse or other designated individual, according to specific instructions given by the Building Principal or Superintendent.

Teachers are expected to serve as role models in meeting and complying with health practices and guidelines, including those enacted for public health purposes.

Before leaving the classroom each day, close windows, turn out all lights, and lock the room. Elementary teachers, please make sure your air-conditioners are turned off when you leave. When repairs are needed, notify the principal in order for arrangements to be made for the repair.

SAFETY INSTRUCTIONS

All head coaches will conduct a safety lecture in regards to potential dangers that might be incurred by participating in that particular sport. All coaches will instruct participants in their sports in the correct fundamentals of the sport and will not teach fundamentals that have been determined as illegal or unsafe.

All other faculty members who supervise activities or classroom activities where a student could sustain an injury from the activity, will also conduct a class on the dangers and the safety precautions to be used during the activity or classroom sessions.

SCHOOL BOARD POLICIES

School Board policies are made available to the staff and to the public through the school website. Staff are encouraged to become familiar with board policies. Please direct any questions about board policy to the Superintendent. Policies can be accessed at the following link:
<https://meeting.sparqdata.com/public/Organization/Hemingford>

SCHOOL LUNCH

School employees are strongly encouraged to utilize payroll deduction to pay for school lunches purchased by themselves and or members of their family. This ensures convenience for employees and timely payment of lunch bills to the school. Lunches must be paid for in advance. The school will not charge meals to employees or students with negative lunch account balances.

SCHOOL PROCEDURES

Employees are expected to adhere to the following school procedures in the performance of their duties:

1. Use of Cell Phones and Other Electronic Devices. Employees are to refrain from use of personal cell phones for non-school purposes during duty time.

1.a Employees are not to use cell phones or otherwise engage in distracted driving while transporting students or using school vehicles. This rule applies to the driver when the vehicle is in motion. The only exception would be in the case of emergencies. Employees will abide by all rules of the road and any applicable rules of the Nebraska Department of Education and the District relating to driving a motor vehicle. Seat belts and child restraint systems are to be utilized by all occupants.

1.b Employees are not to use radar detectors, laser detectors, or similar devices while transporting students or using school vehicles.

2. Checking Out of Equipment. All equipment must be checked out through the appropriate office. School equipment may be used only for school purposes. School equipment and other resources may be used for personal purposes only as authorized by Board policy or contract.

3. Requisition of Equipment and Supplies. Books and supplies which are needed for instruction should be requested through the appropriate office. Employees shall not make purchases on behalf of the District without prior approval of the Superintendent.

4. E-mail. Use of the District's e-mail system for personal communications should be limited and is subject to the rules governing overall computer usage found in Board policy.

5. Employee Mail Box. Employees may be assigned a mailbox. Employees should check for mail upon arrival, in the course of the work day, if possible, and upon departure. If something requires an answer employees are responsible for responding promptly. Employee mail boxes are to be limited to communicate regarding school business.

STUDENT CONDUCT

A student handbook will be used to familiarize students and parents or guardians with the school's practices and procedures. Students will be given a copy of the handbook, which will explain general regulations and requirements.

Students are expected to act, dress, and conduct themselves in the school building and at school sponsored events, in such a fashion that their behavior and dress will reflect favorably on the individual and on the school, will show consideration to fellow students, and will create a harmonious school atmosphere. All students must

recognize their individual responsibilities and obligations, and discharge them in accordance with the school regulations.

All staff members are responsible for overseeing the conduct of students, both during school hours and at school sponsored events. In each instance in which an employee acts to help a student conduct him/herself properly, emphasis shall be placed upon the growth of the student and the ability to discipline him/herself.

STUDENT PASSES

Teachers should limit the amount of traffic in the hallways during class time. It is a distraction to other classes. Each student that leaves your class must have a pink pass. The student is to go directly to the designated destination and return. Please make an effort to reduce hall wandering. Students absent from your room are your responsibility. Limit restroom and drink privileges to one student leaving the room at a time. Pink passes are required for the students coming to the office for any reason.

SCHOOL KEYS

No key is to be duplicated without the Superintendent's written permission. **DO NOT GIVE YOUR KEYS TO ANY ONE ELSE TO USE.** Prior arrangements must be made if student managers use your keys. Staff members may be required to pay for the cost of lock/key replacement in the event that the staff member's keys are lost, misplaced, or stolen.

SECTION 504 PLANS, IEP PLANS, STUDENT ASSISTANCE TEAM PLANS, DYSLEXIA PLANS, READING INTERVENTION PLANS, AND BEHAVIORAL/HEALTH PLANS

All teachers are responsible for reading and following the educational plans for the students with whom they work. Section 504 Plans, IEP Plans, Student Assistance Team (SAT Team) plans, Dyslexia Plans, Reading Intervention Plans, and Behavioral/Health Plans. State and Federal laws require that Individualized Educational Programs (IEPs), Section 504 Plans, Behavioral Plans, and Health Plans and the modifications/accommodations within such plans be accomplished by both general education and special education teachers. These programs and plans are available for review in their entirety by teachers working with students on any such plan or plans.

Regular education teachers are expected to respond to invitations to IEP and 504 Plan meetings via the electronic calendaring system. When teachers are unable to attend these meetings, they should provide written feedback on student performance in advance of the meeting.

SOCIAL ACTIVITIES

The class sponsor shall be responsible for the approval or disapproval and scheduling of the (7-12) social activities of classes and organizations with the scope of the regulations with the final decision resting with the administration.

On Sunday school activities will be limited to only activities which have advanced approval by the principal and only under extenuating circumstances. This includes practice for any activity.

School activities will not be permitted after 5:30 p.m. on Wednesday evening. Buildings must be cleared of students and staff by 6:00 p.m.

SPONSOR/CHAPERONE DUTIES

Most teachers, in addition to their regular assignments, are asked to sponsor a class or organization.

At the first meeting of the year, students in each class or organization should elect officers, and determine projected plans for activities and fundraising activities. Projects must be approved by the principal and scheduled by the activity director to avoid conflicts with other organizations and competition with local businesses. Parliamentary Procedure will be used in all class meetings.

If a project involves the use of the cafeteria and/or kitchen, the head cook must be consulted. If a cook needs to be present at the project, the organizer will be billed for that individual's time. If a janitor is asked to do the cleaning, make prior arrangements and be prepared to pay that individual for the services.

The sponsor is responsible for the financial records for each class or organization. They should review the records with the treasurer of the organization and the district bookkeeper at least once a month.

No students are to be in the building during a project or event unless a sponsor is present. Sponsors should check to see that lights are off and doors locked when they leave. The facilities should be left in a clean condition.

No organization is to meet at the school or any other location for any purpose without prior clearance from the principal. Sponsors are also to be aware that any money earned from fundraisers is to be used to benefit the school or community or for a growth experience. Using the school's name to raise money for a party is prohibited.

Elementary teachers are expected to attend the Christmas concert and the spring music concert to help supervise their students.

STAFF DRESS

Staff members should be conscious of the importance of appropriateness and neatness in dress and grooming. Set a positive example about the importance of school. Dress the part of a professional educator. Business casual attire is appropriate. This includes polos, button down shirts, dress pants, khaki's, etc. The wearing of T-shirts should be limited to promotion of school spirit and messaging that supports educational initiatives and school endorsed educational causes, such as post-secondary learning promotion, "#BeKind," and "I Love Public Schools" days. Staff attire needs to be compliant with expectations for student dress. Staff Members are permitted to wear jeans on Fridays when they have contributed to the jean scholarship program. Staff members will wear shoes at all times.

STAFF WELLNESS

Hemingford Public School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support

personal efforts by staff to maintain a healthy lifestyle. Staff members are expected to serve as role models for students in the area of wellness. HPS staff members are encouraged to serve as healthy role models for students.

STUDENT BOOKS

Each teacher is responsible for issuing books to students. The number and condition of the book must be recorded in the grade book when issued. New books must be stamped and numbered before being issued to the student. If a student loses or destroys a textbook, report it to the principal's office immediately.

STUDENT DRESS CODE

~~The school administration and teachers encourage everyone to behave and dress in a fashion reflecting good taste and in a style appropriate for a school day or school activity. An individual's dress, personal appearance, and cleanliness, like his/her behavior, should reflect sensitivity to and a respect for others.~~

~~Student dress and personal appearance that disrupts or distracts from the educational environment of the school, is offensive, in violation of any statute, or is a health or safety hazard is not acceptable and is not permitted.~~

~~Examples of inappropriate dress: midriff blouses; low cut blouses; hats; caps; headbands; chains or straps on pants; articles displaying obscene or vulgar writing or symbols; articles displaying tobacco, alcohol, or drug advertisement; jewelry with potentially harmful accessories; any clothing in reference to membership in gangs; bandanna; sagging clothes; or tagging with gang signs or letters. Any type of shorts worn to school will reach to the middle of the thigh. Shoes and socks must be worn.~~

Teachers will send students to the office, or notify the office, if a student's clothing or dress is questionable. The final decision will rest with the administration.

~~If students are participating in extra-curricular activities or school-sponsored activities, their dress or appearance will be the responsibility of the coach or sponsors.~~

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation. Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or

otherwise of an appropriate size and fit so as to be revealing or drag on the ground

- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student’s gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student’s hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or

Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

STUDENT ERRANDS

Students are not to be sent on errands during the school hours unless by permission of the principal. Students are entrusted to our care, therefore, it is essential that we know where they are at all times. Notify the principal well in advance when you desire to go with your groups during school time on class trips. Students should not be sent to unsupervised areas of the building without staff supervision.

STUDENTS - LEAVING THE ROOM

Teachers should honor excuses for leaving the room, but discourage and guard against leaving too often or unnecessarily. Only one student at a time should be out of the room and they should have a proper hall pass. Unless teachers are careful, some pupils will take advantage and misuse a well meant privilege. Teachers must use their best judgment in cases of illness or emergencies. **It is seldom necessary for a high school pupil to be excused.** Pupils who become ill are to be reported at once to the Principal's office and sent to the nurse. Do not send ill pupils home alone. Students will phone the principal's office upon arrival at home.

STUDENT HANDBOOK

All staff members should be familiar with and know the student handbook, encouraging students to know and follow its guidelines and regulations, too.

SUBSTITUTE TEACHERS

Substitute teachers will be hired by the principals' offices. Teachers are responsible for having a complete substitute teacher folder if required by the principal. Lesson plans, class rosters, and seating charts must be easily accessed in the event a substitute teacher is needed. **PLEASE BE PREPARED FOR YOUR SUBSTITUTE TEACHER.** Sometimes substitutes are difficult to find.

SUPERVISION OF STUDENTS

Proper supervision of students is an important responsibility for teachers and other adults responsible for our students. Teachers and other adults responsible for student supervision are expected to meet the following:

Proper Supervision

1. Report to all duty assignments on time.
2. Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
3. Be vigilant while supervising students. **Never leave your students unattended**; the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave your classroom, request that another nearby staff member cover your class, or notify the office so someone can provide assistance. If you are on recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students are doing.
4. If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. Remember, though, that this type of information may be confidential—do not share confidential information about students except with other staff who need to know the information to perform their jobs.
5. Be careful with touching students. Use of corporal punishment is prohibited at Hemingford Public Schools. Touching students should be limited to that necessary to protect the student from harm (e.g., falling from playground equipment), and that which professional educators determine appropriate for purposes of proper student relationships.
6. Be careful with your language. Profanity or abusive language should not be used by you. Be a good role model for students. If a student uses such language, you should correct the student and take such disciplinary action as is appropriate, which may include making a report to the administration.

Proper Instructions

1. Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
2. Repeat the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume because students heard the directions once that they will be remembered.
3. When you go over safety rules with students, note it in your written records (e.g., your lesson plan book or daily reports).
4. Review playground and classroom safety rules with students at least once each semester, and note when you do it in your written records. Also, if any students are absent when you review the rules; contact the student(s) to review the same information and also note that contact in your written records.

Contact the Principal for Assistance

The principal should be contacted immediately when a situation exists which could cause injury to students or others. Examples include:

1. Student fight
2. Student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
3. Reported incident or a suspicion that a student has a weapon or other dangerous item(s), drugs, alcohol, or other illegal substances
4. Presence of an intruder (a non-student or non-staff member who refuses to go to the office)

Student Searches

School staff members should notify the school principal of any situation in which a student is suspected of having an item in violation of school rules. Teachers are not to conduct searches of students or their belongings unless authorized to do so for a specific situation by the school administration.

Student Rights

Students should be treated fairly and given the same treatment without consideration of race, color, religion, gender, or disability. Students who need special accommodations should be given those accommodations as needed for them to participate in school and school activities. Further, students have the right to have their school records kept confidential. Such information should be shared only with other school staff with a need to know the information to perform their duties.

TEACHERS' WORKROOM

The work room is to be kept as neat as possible. Avoid discussing individual students in the teacher's workroom. Additionally, ensure that communications in the teacher's work room are positive and conducive to a productive and effective school climate. Parents and community members often form impressions of our schools based upon the professionalism exhibited in the school offices and in the teachers' workroom and teachers' break room. Your assistance in this is greatly appreciated.

TEACHER WEBSITES

Each teacher is authorized to maintain a webpage containing grade-appropriate and relevant information such as contact information, professional profile information (with qualifications and degree(s) held), grading procedures, upcoming coursework, a list of class rules or course syllabus, and other information of educational value. Posting of student information, student work, and images of students must be approved through the school principal and must be in accordance with board policy and any state and federal regulations.

TELEPHONE

Teachers are welcome to use the school telephone. The school telephones are not to be used for personal long distance calls. School telephones are tax exempt and are to be used for official school business only. Teachers **will not** be called to the telephone during class time except in case of emergency.

VIDEOS

Although there are times when it is appropriate to use videos in the classroom, teachers must make sound educational decisions when showing videos to students. Teachers are expected to follow these basic guidelines:

- The teacher has viewed the material in advance and in its entirety.
- The material is related to the curriculum; teacher has articulated in the lesson plan the educational purpose for showing the film or video.
- The material is appropriate for the age of the students (including the movie rating, e.g., no "R-Rated videos."
- Written parental consent when the content or age appropriateness is unclear or undetermined.
- Comparable learning opportunities will be given to students when parents do not want their children to see a film or video.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video cameras on Hemingford School District property to ensure the health, welfare, and safety of all staff, students, and visitors to District property; and to safeguard District facilities and equipment and to further the educational process. Video cameras may be used in locations as deemed appropriate by the Superintendent.

Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies. Teachers may videotape instruction and other classroom activities to make available to students who were absent or who would like to otherwise review such content.

VISITORS

All visitors are to be directed to the principal's office. This is for the preservation of classroom order as well as to protect students and staff.

Parental interest and concern should be welcomed. However, if a visitation becomes hostile, another teacher or an administrator should be present. Be prepared to support any issues you discuss with parents with sufficient documentation. Students and school employees are not to open any doors for non-school personnel, as visitors must enter through the main doors to the building and check-in at the office. School employees have the responsibility and the right to question visitors in the building.

WORK AREA SAFETY AND ACCIDENT REPORTING

All employees share in the responsibility for maintaining a safe and healthy school environment. All staff members, more specifically, the teaching staff shall avail themselves of every possible opportunity to instruct students in the safe use and handling of any school property or equipment that could cause injury to students or school personnel. Any unsafe or unhealthy conditions in the immediate work area, building, or on the school campus should be reported immediately to the school principal. In the event of an accident to an employee, student, or visitor, the safety and care of the injured individual should be of primary concern. A written report of the incident should be made to the principal within 24 hours, if not sooner. An incident which requires the attention of medical personnel and any other incident deemed important by the principal, should be reported to the superintendent of schools.

EYE AND FACE PROTECTIVE DEVICES

Instructors or sponsors of groups using laboratories, including science, art or shop areas will be responsible for seeing that individuals or groups working with the following materials or in the following areas will wear the appropriate eye and/or face protection or other protective gear deemed appropriate:

(1) Every student and teacher in schools or other educational institutions shall be required to wear appropriate industrial-quality eye protective devices at all times while participating in or observing the following courses of instruction:

- (a) Vocational, technical, industrial arts, chemical, or chemical-physical, involving exposure to:
 - (i) Hot molten metals or other molten materials;
 - (ii) Milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials;
 - (iii) Heat treatment, tempering, or kiln firing of any metal or other materials;
 - (iv) Gas or electric arc welding or other forms of welding processes;

Such devices shall be furnished by the school or educational institution for all students, teachers, and visitors to shops and laboratories of such institutions. Teachers are directed to ensure that the proper devices are available and in use prior to any instruction or observation.

(2) For purposes of this section, unless the context otherwise requires, industrial-quality eye protective devices means devices which meet the standard of the American National Standard Practice for Occupational and Educational Eye and Face Protection, Z 87.1(1979) as approved by the American National Standards Institute, Inc.

“WORK FROM HOME” EXPECTATIONS

In the event work from home is needed, (such as during a pandemic or due to other circumstances, the district may employ personnel in work from home. It is essential that remote staff members understand the District's expectations for those staff members while they are “on duty.” When work from home is authorized, the following expectations apply to all staff members working remotely during the workday and during working hours:

1. If a staff member will appear via videoconference (such as Zoom), the staff member must be dressed professionally and in the same manner expected as if the staff member reported to work in-person. A staff member appearing by videoconference is expected to minimize background noise (such as a dog barking) that may interfere with the communication, and be in a professional setting (such as at a table or in a home office—not in bed).
2. Staff members should respond promptly to school-related communications. “Promptly” will depend on the context but, as a general matter, staff members who are not teachers will be expected to respond to phone calls within 15 minutes of receiving such calls. Teachers who receive a phone call or other school-related communication (such as an email) will be expected to respond after their teaching assignments, but not later than the end of the workday. We understand that staff members may be engaged during the workday with webinars, teaching, holding office hours, talking with colleagues or parents, and so forth. As such, each staff member's situation will depend on the circumstances. However, generally, all staff members (including teachers) are expected to be checking their phone and email during the workday and responding in a timely manner. The intent of this rule is to ensure that no staff member who is being paid during working hours is misusing worktime by not working.
3. During working hours, all staff members are bound by the same computer and Internet expectations as if they were in the physical classroom. This expectation includes not watching shows or movies, shopping for personal items, browsing social media, and so forth. Staff members who use District-owned devices may be subject to a search of their Internet browsing history. Staff members' District-owned email accounts may also be searched. We would prefer not to have to use these options, so please use work time for work purposes only.
4. All staff members continue to be bound by the applicable professional boundaries policy and/or rules. Staff members will not communicate directly with students via texting, social media or one-on-one video conference sessions, unless the staff member has received approval in advance from a school administrator.
5. Hourly staff members must keep track of their work time. Hourly staff members must receive prior approval from their immediate supervisor before working overtime. The District may review each hourly staff member's Internet browsing history and/or email history to determine whether a staff member was

working during their claimed work time. Hourly staff members must keep current a detailed log of the time they spent on work-related items and the time that they spent working on such items.

6. All staff members must communicate in a professional manner. Although much communication may be accomplished via electronic means, all staff members need to remember that communications should be professional and avoid inappropriate or vulgar language.

7. Staff members should refrain from communicating with each other about non-school business during the workday. For instance, calling or emailing other staff members during worktime to gossip is not an appropriate use of the workday.

8. Staff members should coordinate with their immediate supervisor on clock-in/clock-out procedures so that your immediate supervisor ensures that you are working that workday. If you need to miss work during a workday, you must contact your immediate supervisor as soon as practicable.

9. Each staff member's duty hours will be determined by each staff member's immediate supervisor. As a result, staff members are expected to maintain regular communication with their immediate supervisor about the upcoming workweek.

10. Staff members will comply with the recommendations of the Instructional Technology Coordinator with regards to secure technology arrangements.

11. Staff members are expected to follow all other directives from their supervisors in a positive and professional manner.

12. A staff member who repeatedly violates these expectations may be subject to discipline.

13. All other provisions of board policy and the staff handbook remain in effect.

If a staff member has any questions or needs clarification, they should contact their supervisor in advance for clarification. Please know that these expectations are subject to change and may be modified by the Superintendent or Superintendent's designee.

SELECTED BOARD POLICIES

EMPLOYEE GRIEVANCES - 0402.05

School employees are encouraged to solve difficulties and problems within the school or department in which they are employed. In the event that a difficulty or grievance cannot be settled within the school or department, the employee is encouraged to bring the matter to the attention of the district administrator in charge of certificated personnel. This grievance procedure serves to secure, at the lowest possible administrative or supervisory level, proper and equitable solutions to grievance, and to guarantee orderly succession of procedures within which solutions may be pursued. School personnel are encouraged to ask their immediate supervisor for assistance on any matters that relate to their duties.

It will be incumbent upon all district employees to follow these procedures to settle their grievances. Within this general framework the following specific purposes are to be served by this grievance procedure:

1. To ensure that a complaint is considered fairly, with all due speed and without prejudice or reprisal to the aggrieved person.
2. To encourage teacher expression regarding conditions that affects him or her professionally.
3. To provide a specific procedure that will facilitate the understanding of district policies that affect teachers.
4. To build confidence in the sincerity and integrity of the procedure as a means to establish the facts upon which a grievance is based and a fair conclusion is reached.

Nothing in this policy shall contradict the requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board.

STAFF CONDUCT WITH STUDENTS - 0402.15

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Any type of sexual or inappropriate physical contact with students or any other conduct that might be considered harassment under the Board's policy on Harassment By Employees;
- Singling out a particular student or students for personal attention and friendship beyond the normal teacher-student relationship;
- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;

- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;
- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and
- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;
- Maintaining personal contact with a student outside of school by phone, email, Instant Messenger or Internet chat rooms, social networking websites, or letters (beyond homework or other legitimate school business);
- Exchanging personal gifts (beyond the customary student teacher gifts); and/or
- Socializing or spending time with students (including but not limited to activities such as going out for meals or movies, shopping, traveling, and recreational activities) outside of school sponsored events or except as participants in organized community activities.

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

This policy shall be included in future employee, student and volunteer handbooks.

Appendix A

406.08R - Growth and Evaluation Procedures

Purpose and Scope

The purpose of this regulation is to outline the procedures for the evaluation of certificated employees, ensuring consistency, fairness, and a focus on continuous improvement. This regulation supports the district's commitment to high standards of classroom organization and management, instructional performance, professional conduct, and personal conduct among its staff.

Goals and Annual Plan for Growth

All teachers, educational specialists, principals, and administrators are required to develop goals and a plan for growth annually. Ideally, this process will involve reflecting on student performance data, aligning practice with the Nebraska Teacher and Principal Performance Standards and Self-Reflection Rubrics, or other areas of opportunities for personal and professional growth. The sole intent of this part of this process is to improve individual effectiveness.

Formal Evaluation

Written Criteria: The formal evaluation forms shall be documented in writing and made available to all certificated employees.

Observation: Each formal evaluation process shall include an observation of the teacher for a full instructional period.

Evaluation Discussion: The formal evaluation process shall include observation of the teacher for a full instructional period (at least 40 minutes), a meeting between the evaluator and the certificated employee to discuss the educator's performance and future areas of growth.

Documentation: The formal evaluation shall be completed by the evaluator, signed by the certificated employee, and transmitted to the superintendent to be filed in the certificated employee's personnel file. The documentation shall specify all noted deficiencies, include specific means for the correction of the noted deficiency, and provide an adequate timeline for implementing the concrete suggestions for improvement.

Teacher Response: The teacher shall be allowed to offer a written response to the evaluation within 7 days of the evaluation discussion.

Frequency of Evaluation: New and probationary certificated employees shall be evaluated at least once each semester in their first three years. This evaluation procedure will include at least one classroom observation for one full instructional period each semester.

Non-probationary certificated employees will be evaluated formally at least once every three years. The evaluation shall include at least one classroom observation for one full instructional period. Principals will annually establish and publish to the teachers a list of observations/evaluations to be completed each year.

Evaluation Components

The evaluation process will assess, at a minimum, the following areas:

- Instructional Performance
- Classroom Organization and Management
- Professional Conduct and Personal Conduct

Nebraska Teacher and Principal Performance Standards and Rubrics

The evaluation forms will utilize the Nebraska Teacher and Principal Performance Standards and Rubrics as a framework. The Nebraska Teacher and Principal Performance Standards and Rubrics provide the basis of an instructional framework for our school which includes focusing on evidence-based instructional strategies to enhance teaching and learning.

Evaluators will be trained to use these standards and rubrics to ensure evaluations are consistent, objective, and supportive of professional growth. Evaluators will be trained annually by the Superintendent or his/her designee.

Proficiency Identification:

Proficiency determinations in each standard shall be rated by the evaluator at one of the following levels: Highly Effective, Effective, Developing, and Ineffective.

- Ratings of Highly Effective shall be considered exemplary.
- Ratings of "Effective" shall be considered to meet the district standard of proficiency for educators.
- Ratings of "Developing" shall be considered to be working toward the district standard of proficiency for educators.
- Ratings of "Ineffective" shall be considered to be below the district standard of proficiency for educators.

Improvement and Deficiency Identification and Correction

Ratings of "Ineffective" are considered to be below the district's standard of proficiency and will require recommendations for correction of deficiencies and plans for correction of those deficiencies.

- A Plan of Assistance is required for Teachers/Educational Specialists who receive a rating of “Ineffective” on any of the Standards covered by the evaluation.

An adequate timeline for implementing the concrete suggestions for improvement shall be established within each Plan for Improvement or Plan of Assistance.

Ratings of “Developing” are considered to be working toward the district standard of proficiency and may require additional goals and plans for growth in addition to the annual goals.

Classroom Walkthroughs and Differentiated Supervision

Classroom Walkthroughs: The use of classroom walkthroughs is authorized as part of the evaluation process to gather data on instructional performance and classroom management. The nature and focus of walkthroughs will necessarily change from time to time based on changing district and building initiatives, the expertise of teachers, and

Differentiated Supervision: Supervision may be differentiated based on the expertise and experience of the teachers, allowing for more targeted and effective evaluation and support.

Ongoing Informal Evaluation: This regulation supports and does not preclude the ongoing informal evaluation of the certificated employee’s skills, abilities, and competence.

APPENDIX B: CHAIN OF COMMAND, CONFLICT RESOLUTION, AND COMMUNICATION

HEMINGFORD PUBLIC SCHOOLS

Chain of Command

Directives for School Personnel

Conflict Resolution Responsibilities:

All school employees have a responsibility to ensure individuals are directed to the appropriate source for resolving their conflicts. If people complain about decisions, practices, or staff members, direct them to the person with whom they have an issue. If they have already addressed the issue with that person, guide them to the next level in the chain of command. Avoid sympathizing with those who do not follow proper channels, as this erodes trust and undermines effective team dynamics.

Speaking Well of Others:

Except during necessary evaluations or assessments, school employees are to avoid making unkind or critical remarks about any employee, student, parent, or administrator. Blaming others when things do not go well erodes trust and undermines the collaborative culture in our schools.

PURPOSE

This handbook is prepared for the purpose of providing information on customs and policies pertaining to the Hemingford Public Schools. It is intended for use by the staff as a guide in developing a well-coordinated instructional support program. It is hoped the statements set forth in this handbook will improve understanding and cooperation among all school personnel in the coming school year.

It is the purpose of this handbook to establish uniformity of operation. It will be supplemented from time to time as board policy, superintendent policy or the principals' policies are changed.

The quality of educational achievement is directly related to the employees of the school district. Each employee has been selected to provide for a certain phase of the child's needs as he/she grows in the educational program. As we coordinate our work and as each school employee grows professionally in his effectiveness, so grows the Hemingford Public Schools as a more effective school system.

WORK AGREEMENT AND RELATED ITEMS

Classified school employees are appointed to their position by the Superintendent. They are directly responsible, in coordination with the school's certificated staff, for the welfare of the students under their control, which includes the development of the child's capacities in all phases: mental, physical, social, and moral.

Classified school employees are jointly responsible to the superintendent of schools, the principals, and their immediate supervisors in accordance with Board of Education Policy. School employees are expected to carry out the policies of the Board of Education.

EMPLOYMENT

Classified employees are "at-will" employees, and may be terminated at any time by the school district.

ASSIGNMENT

The duties to be performed are subject to assignment by the administration and your supervisor. Job descriptions, where available, provide additional information about the position duties.

Employees are expected to devote full time during days of school to their work and to diligently and faithfully perform the assigned duties to the best of the employee's ability

PERSONNEL FILE

The District will follow the requirements of state and federal law and regulation with regard to an employee's personnel file. If an employee elects to view their file, it will be under the supervision of the Superintendent or their designee.

GRIEVANCES AND COMPLAINTS

Employee grievances or complaints shall be addressed through the administrative chain of command following the process set forth in Board Policy 0402.05.

PAYMENT

Payroll periods begin with the first workday of the month and end with the last workday of the month. Pay for the work period is made on the 15th following the previous month's last workday. The September payroll will reflect days worked in August. The check will be small for staff that did not work all possible August days.

VOLUNTEER WORK

Any individual volunteering will not be compensated nor receive compensatory time. Volunteer work at the building level is permitted so long as the duties to be performed are: (1) not similar in nature to the duties being performed for paid time

and (2) the volunteer work does not continue in the same building during duty hours of the individual.

BENEFITS

Classified employees are provided benefits in accordance with their employment classification and Board Policy. Annual fringe benefit elections are to be made by September 1 of each school year. Should an employee fail to make such election, the employee election from the immediately preceding school and contract year shall be continued. Employees are responsible for informing the school bookkeeper in writing of any changes in benefit status.

PAYROLL

Payroll deductions are made in accordance with the law and elections made by employees. Before a new employee can be eligible to receive the first paycheck, all necessary forms must be completed. Employee start date will be at least two working days after required documentation is received by the district central office. Those documents include, but are not limited to:

- I-9
- W-4
- Direct deposit form (see details below)
- Nebraska State Retirement System Application (if applicable)
- Criminal History Background Check
- Physical, if required
- Signed Classified Employee Handbook Sign off Sheet, verifying receipt and compliance with handbook

DIRECT DEPOSIT

The district shall pay all wages by manner of direct deposit to a checking or savings account with a financial institution identified and authorized in writing by the particular employee. The employee shall have two weeks from the commencement of employment to return a completed direct deposit form to the payroll department to ensure timely automatic deposit of the employee's wages. The returned form shall include documents that corroborate the relevant routing and bank account number. Once the payroll department receives and verifies all necessary information and forms, payroll will be released on the 15th calendar day of the following month in which wages are earned. Any subsequent changes to an employee's direct deposit information must be submitted before the 10th calendar day in the month in which wages are to be paid through payroll.

ADDRESS CHANGE

If an employee's address or phone number changes at any time during employment with the District, the employee must contact the school bookkeeper as soon as possible. Maintaining accurate employee information is a requirement for all school districts.

PAYROLL DEDUCTIONS

Employees will have payroll deductions of federal tax, state tax, FICA and any other deductions required by law or authorized by an employee on the appropriate sheet in compliance with applicable laws.

Deductions of pay of a partial day or of a full day or more may be made for FMLA leaves and in the first and last weeks of employment. In addition, based on principles of public accountancy, deductions from pay of a partial day or of a full day or more will be made for absences for illness, injury or personal reasons when accrued leave is not used or not available.

RETIREMENT

Hemingford Public Schools employees over the age of 18 who work twenty (20) or more hours per week are required to join the Nebraska Public Employees' Retirement System.

All members of the Nebraska Public Employees' Retirement System must contribute a percentage of their gross salary to the retirement fund through payroll deduction. The school district is required by law to match the cost at 101%. Any member who terminates employment with Hemingford Public Schools may:

- 1) Leave the account on an inactive basis in order to draw a retirement benefit. The employee must have five years of creditable service.
- 2) Receive a refund or make inquiries to:

Nebraska Retirement System
PO Box 94816
Lincoln, NE 68509
1-800-245-5712

TAX-SHELTERED ANNUITY

All classified employees can have a payroll deduction toward a selected tax-sheltered annuity.

CLOCKING IN AND REPORTING WORK HOURS

Employees will be expected to accurately report hours worked through district software used for time reporting. Timely and accurate tracking of hours through the electronic system is necessary for calculation of payroll and reporting of hours to the Nebraska Public Employees Retirement System (NPERS)

OVERTIME OR COMP TIME

Overtime is paid to classified employees in accordance with the Fair Labor Standards Act (FLSA). A publication provided by the federal government which provides more information about the FLSA is displayed at your workplace or a copy

is available from the Human Resources Department. The District may provide compensatory time in lieu of overtime pay to employees, at the Superintendent's discretion on a case by case basis, in accordance with applicable law. ALL overtime and comp time must be pre-approved by supervisor.

The regular workweek for overtime purposes is from 12:00 a.m. on Sunday through 11:59 p.m. on Saturday. The administration may establish a different 7-day period workweek from time to time for specified employees or employee groups.

Employees will be expected to accurately report hours worked through district software used for time reporting. Falsification of time worked is a serious offense.

Employees must receive prior approval from their supervisor to work additional hours beyond their regular work schedule. Non-exempt employees will be paid overtime rates for each hour worked in excess of 40 hours in a workweek and are expected to accurately and timely report overtime hours to their supervisor.

Overtime calculations do not include payment for idle hours when the employee is not at work. Idle hours include vacation, holiday, sick time, and all other types of leave offered to classified employees. Employees who use leave during a week will not be compensated for overtime until time actually worked exceeds 40 hours in the same workweek. For example, if an employee uses eight hours of personal leave on Monday and then works 44 hours between Tuesday and Saturday, only four hours will be considered overtime for that workweek.

Overtime pay for non-exempt employees will be paid at the rate of not less than 1½ times the employee's regular rate of pay for hours worked in excess of the 40 hour workweek. Employees with two or more non-exempt positions may be eligible for overtime pay based upon the total number of hours worked in one workweek. If applicable, the employee and the Superintendent or designee will agree upon the overtime rate in compliance with FLSA regulations.

A non-exempt employee may request or the district may provide compensatory time in lieu of overtime pay, with prior written approval of the Superintendent, with the rate figured as 1½ times the number of hours worked in excess of 40 hours in any work week. Compensatory time must be used within a month of earning the time. Extended time for using compensatory time must be approved by the Superintendent on a case by case basis.

The District's policy is to not permit improper deductions from the salary of exempt employees who are required to meet a "salaried basis" test for the overtime exemption to be applicable. An employee who feels an improper deduction affecting exemption status has occurred may submit a complaint to the Superintendent or designee, who shall promptly investigate the complaint. Reimbursement shall be made and a good faith commitment to comply in the future will be given in the event

it is determined that an improper deduction affecting overtime exemption has been made.

DISCIPLINARY SUSPENSION

The District's policy is to authorize unpaid disciplinary suspensions of a full day or more for infractions of workplace conduct rules and to apply such policy uniformly to all similarly situated employees, including exempt employees who are required to meet a "salaried basis" test for the exemption to be applicable. Unpaid disciplinary suspensions of a partial day or of a full day or more may be implemented for infractions of safety rules of major significance.

WORKER'S COMPENSATION

All employees come under the provisions of the Nebraska Workers' Compensation law. Injuries on district-owned grounds or in district-owned buildings or that happen during job duties off premises, no matter how minor, should be reported immediately to the supervisor or principal.

The principal will work the employee to provide the forms and direct the employee on how to complete the proper incident forms.

Employee's eligible for worker's compensation can receive up to 66 2/3% of their wages from the worker's compensation insurer. The District will then use the employee's available sick and vacation leave time to compensate the employee for the remaining portion of their wages. Once the employee's sick and vacation leave are used up, the district paid portion of their wages will cease and the employee will only receive the amount paid by the worker's compensation insurer. No leave accruals will occur while an employee is on worker's compensation leave.

Once an employee is eligible for worker's compensation, the employee's time off will be treated as allowable time off under the Family Medical Leave Act (FMLA). See Article 3, Section 8 for FMLA details.

ABSENCE PROCEDURES

Once the employee has used all of his/her allotted leave in any category, absent without pay is the only option available.

REQUESTING LEAVE

An employee who wants to use available leave is to submit a leave request through the online leave system to the employee's supervisor. Leave requests are to be submitted in a timely fashion to the supervisor. The supervisor may require that more advance notice be given depending on the nature of the employee's duties or the need to schedule a substitute. Absence requests must be submitted in the month they occur or before, in order to be paid for the time. Vacation leave, if applicable, must be approved by the Superintendent.

REPORTING LEAVE

Employees must report leave through the online leave system to the business office within three days of taking the leave. Employees must report leave in a timely fashion or the employee will not be compensated for the leave.

GIVING NOTICE OF UNSCHEDULED ABSENCES

An employee who is unable to request advance approval for an absence because of the nature of the circumstance requiring the absence (such as personal illness or unforeseen emergency) is to report the need to be absent as soon as the situation is known. To report the need to take a sick or bereavement leave, employees are to contact their building administrator or supervisor as soon as possible. Before the end of the day on the first day of the absence, and on each subsequent day of absence, the employee is to report to their building administrator or supervisor whether the employee will be able to return to work on the next duty day. For sick or bereavement leaves occurring in circumstances where the need for the leave can be determined in advance, the employee is to make a report of the need to take the leave as soon as possible.

RETURNING FROM ABSENCES

1. Justification for Absences Taken Without Prior Approval. If an employee is absent without advance approval either: (1) the day immediately preceding or immediately following a regularly scheduled school break (such as winter break, spring break, and quarter or semester breaks) or (2) during the first two weeks or the last two weeks of school (student contact days), the employee will be required to give verification (for example, a doctor's note) to establish that the employee was unable to work for an excusable condition or excusable reason.
2. Establishing Fitness for Duty. Employees must present a written statement from their physician or health care provider to their supervisor when absent for any period of time because of injury requiring care from a physician or health care provider, or absent from work for 5 days or more due to a personal health condition. The statement is to clearly verify that the employee is mentally and physically able to return to duty. This statement is to be presented in person to the employee's supervisor before the employee returns to duty in order that the readiness to perform work can be observed and discussed.

Employees are required to disclose any medical restrictions that limit their ability to perform the essential functions of their position to their supervisor and to request a meeting with the Superintendent to discuss the provision of reasonable accommodations. The District will not discriminate against any employee due to disability and will provide reasonable accommodations. Information provided about medical conditions or disabilities shall be treated as confidential, as required by state and federal statutes, and will be divulged only to the extent necessary to provide reasonable accommodations.

PAID LEAVE

Employees are provided with paid sick and personal leaves (professional leaves, bereavement leaves, etc.) in accordance with their employment classification and Board policy. During such paid leaves, employees continue to receive their salary and fringe benefits.

The leaves provided by the District are to be used for the purpose intended. Abuse of leave privileges affects the students, other staff, and the entire District and will not be tolerated.

UNPAID LEAVES

The District complies with laws that require leaves to be allowed, such as for FMLA leaves, military service and jury duty. Should an employee be absent from work in excess of the employee's available paid leaves, the absence will be an unpaid leave except as may be required by law. The employee's salary and fringe benefits (including the cost of premiums for group health insurance) may be subject to reduction for the day or days of work missed.

JURY DUTY LEAVE

An employee who is summoned for jury service must promptly notify the employee's immediate supervisor. Compensation during jury duty will be handled as indicated in Policy 0415.06.

FAMILY MEDICAL LEAVE ACT***Basic Leave Entitlement***

FMLA requires the District to provide up to 12 weeks of unpaid, job-protected leave to eligible employees for the following reasons:

- for incapacity due to pregnancy, prenatal medical care or child birth;
- to care for the employee's child after birth, or placement for adoption or foster care;
- to care for the employee's spouse, son, daughter or parent, who has a serious health condition;
- or
- for a serious health condition that makes the employee unable to perform the employee's job.

The 12 month period for the purposes of FMLA is the period from June 1st through May 31st.

Military Family Leave Entitlements

Eligible employees whose spouse, son, daughter or parent is on covered active duty or call to covered active duty status may use their 12-week leave entitlement to address certain qualifying exigencies. Qualifying exigencies may include attending certain military events, arranging for alternative childcare, addressing certain financial and legal arrangements, attending certain counseling sessions, and attending post-deployment reintegration briefings.

FMLA also includes a special leave entitlement that permits eligible employees to take up to 26 weeks of leave to care for a covered servicemember during a single 12-month period. A covered servicemember is: (1) a current member of the Armed Forces, including a member of the National Guard or Reserves, who is undergoing medical treatment, recuperation or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness*; or (2) a veteran who was discharged or released under conditions other than dishonorable at any time during the five-year period prior to the first date the eligible employee takes FMLA leave to care for the covered veteran, and who is undergoing medical treatment, recuperation, or therapy for a serious injury or illness.*

***The FMLA definitions of “serious injury or illness” for current servicemembers and veterans are distinct from the FMLA definition of “serious health condition”.**

Benefits and Protections

During FMLA leave, the District will maintain the employee’s health coverage under any “group health plan” on the same terms as if the employee had continued to work. Employees must continue to pay their share of any health insurance premium when they become due. If an employee does not return from FMLA leave, he or she will be required to reimburse the District for the District’s share of health plan premiums during a period of unpaid FMLA leave unless the reason the employee does not return is due to the continuation, recurrence, or onset of either a serious health condition of the employee or the employee’s family member, or a serious injury or illness of a covered servicemember, which would otherwise entitle the employee to leave under the FMLA, or due to other circumstances beyond the employee’s control. An instructional employee who is on FMLA leave at the end of the school year must be provided with any benefits over the summer vacation that employees would normally receive if they had been working at the end of the school year. As used herein, “*instructional employees*” are those whose principal function is to teach and instruct students in a class, a small group, or an individual setting. This term includes not only teachers, but also athletic coaches, driving instructors, and special education assistants such as signers for the hearing impaired. It does not include, and the special rules do not apply to, teacher assistants or aides who do not have as their principal job actual teaching or instructing, nor does it include auxiliary personnel such as counselors, psychologists, or curriculum specialists. It also does not include cafeteria workers, maintenance workers, or bus drivers.

Upon return from FMLA leave, most employees must be restored to their original or equivalent positions with equivalent pay, benefits, and other employment terms. Use of FMLA leave cannot result in the loss of any employment benefit that accrued prior to the start of an employee’s leave.

Eligibility Requirements

Employees are eligible if they have worked for the District for at least 12 months and have 1,250 hours of service in the previous 12 months.

Definition of Serious Health Condition

A serious health condition is an illness, injury, impairment, or physical or mental condition that involves either an overnight stay in a medical care facility, or continuing treatment by a health care provider for a condition that either prevents the employee from performing the functions of the employee's job, or prevents the qualified family member from participating in school or other daily activities. Subject to certain conditions, the continuing treatment requirement may be met by a period of incapacity of more than 3 consecutive calendar days combined with at least two visits to a health care provider or one visit and a regimen of continuing treatment, or incapacity due to pregnancy, or incapacity due to a chronic condition. Other conditions may meet the definition of continuing treatment.

Use of Leave

An employee does not need to use this leave entitlement in one block. Leave can be taken intermittently or on a reduced leave schedule when medically necessary, as further provided below. Employees must make reasonable efforts to schedule leave for planned medical treatment so as not to unduly disrupt the District's operations. Leave due to qualifying exigencies may also be taken on an intermittent basis.

Leave taken for a period that ends with the school year and begins the next semester is leave taken consecutively rather than intermittently. The period during the summer vacation when the employee would not have been required to report for duty is not counted against the employee's FMLA leave entitlement.

If an eligible instructional employee needs intermittent leave or leave on a reduced leave schedule to care for a family member with a serious health condition, to care for a covered servicemember, or for the employee's own serious health condition, which is foreseeable based on planned medical treatment, and the employee would be on leave for more than 20 percent of the total number of working days over the period the leave would extend, the District may require the employee to choose either to:

- Take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- Transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position

If an instructional employee does not give required notice of foreseeable FMLA leave to be taken intermittently or on a reduced leave schedule, the District may require the employee to take leave of a particular duration, or to transfer temporarily to an alternative position. Alternatively, the District may require the employee to delay the taking of leave until the notice provision is met.

If an employee chooses to take leave for periods of a particular duration in the case of intermittent or reduced schedule leave, the entire period of leave taken will count as FMLA leave.

If an instructional employee begins leave more than five weeks before the end of a semester, then the District may require the employee to continue taking leave until the end of the semester if —

- The leave will last at least three weeks, and
- The employee would return to work during the three-week period before the end of the semester.

If an instructional employee begins leave during the five-week period before the end of a semester because of the birth of a son or daughter; the placement of a son or daughter for adoption or foster care; to care for a spouse, son, daughter, or parent with a serious health condition; or to care for a covered servicemember then the District may require the employee to continue taking leave until the end of the semester if—

- The leave will last more than two weeks, and
- The employee would return to work during the two-week period before the end of the semester.

If an instructional employee begins leave during the three-week period before the end of a semester because of the birth of a son or daughter; the placement of a son or daughter for adoption or foster care; to care for a spouse, son, daughter, or parent with a serious health condition; or to care for a covered servicemember, then the District may require the employee to continue taking leave until the end of the semester if the leave will last more than five working days.

In the case of an employee who is required to take leave until the end of a semester, only the period of leave until the employee is ready and able to return to work shall be charged against the employee's FMLA leave entitlement. The District has the option not to require the employee to stay on leave until the end of the semester. Therefore, any additional leave required by the District to the end of the semester is not counted as FMLA leave; however, the District shall be required to maintain the employee's group health insurance (to the extent stated herein) and restore the employee to the same or equivalent job including other benefits at the conclusion of the leave.

Substitution of Paid Leave for Unpaid Leave

The District requires to use all accrued paid leave while taking FMLA leave. In order to use paid leave for FMLA leave, employees must comply with the District's normal paid leave policies.

Employee Responsibilities

Employees must provide 30 days advance notice of the need to take FMLA leave when the need is foreseeable. When 30 days notice is not possible, the employee must provide notice as soon as practicable and generally must comply with the District's normal call-in procedures. Employees must provide sufficient information for the District to determine if the leave may qualify for FMLA protection and the anticipated timing and duration of the leave. Sufficient information may include that the employee is unable to perform job functions, the family member is unable to perform daily activities, the need for hospitalization or continuing treatment by a health care provider, or circumstances supporting the need for military family leave. Employees also must inform the District if the requested leave is for a reason for which FMLA leave was previously taken or certified. Employees also may be required to provide a certification and periodic recertification supporting the need for leave.

As a condition of restoring an employee whose FMLA leave was occasioned by the employee's own serious health condition that made the employee unable to perform the employee's job, the District requires that all employees who take leave for such conditions to obtain and present certification from the employee's health care provider that the employee is able to resume work and perform the essential functions of the employee's job.

District Responsibilities

The District must inform employees requesting leave whether they are eligible under FMLA. If they are, the notice must specify any additional information required as well as the employees' rights and responsibilities. If they are not eligible, the District must provide a reason for the ineligibility.

The District must inform employees if leave will be designated as FMLA-protected and the amount of leave counted against the employee's leave entitlement. If the District determines that the leave is not FMLA-protected, the District must notify the employee.

Unlawful Acts by Employers

FMLA makes it unlawful for any employer to:

- interfere with, restrain, or deny the exercise of any right provided under FMLA; and
- discharge or discriminate against any person for opposing any practice made unlawful by FMLA or for involvement in any proceeding under or relating to FMLA.

Enforcement

An employee may file a complaint with the U.S. Department of Labor or may bring a private lawsuit against an employer.

FMLA does not affect any Federal or State law prohibiting discrimination, or supersede any State or local law or collective bargaining agreement which provides greater family or medical leave rights.

The foregoing is a general overview of FMLA leave. For more information, please contact the Superintendent.

DUTIES AND RESPONSIBILITIES

HOURS OF WORK AND MEETINGS

Regular, dependable attendance at work is an essential function of a classified employee's employment position.

Employees are required to attend meetings called by the administration or their supervisors, except those meetings which are designated for optional attendance.

Classified employees are to utilize a method determined by the superintendent to record work time. Employees are to clock in and clock out at their scheduled work start and end times each day. Failure to do so may result in a review of the employee's work responsibilities and schedule. Non-compliance with procedures and assignments may result in termination of employment.

In the event an employee forgets to clock in or out, the employee is required to send an email with the information about the missed punch, the reason for the missed punch and actual time of arrival or departure from work to Kristy Hanks, Business Manager. khanks@gubn.org

Classified Staff shall not read and respond to work emails or texts outside of regular work hours, unless specifically directed to by an administrator. In the event a classified staff member is directed to read and/or respond to an email or text outside of working hours, then the staff member shall record all time spent in doing so as time worked.

ARRIVAL TO DUTY ASSIGNMENTS

Classified employees' work assignments may or may not be related to the regular school day. Classified employees are expected to know their duty dates and times and to be on time for work. All duty times are subject to assignment by the direct supervisor, the building principal, and the superintendent.

LEAVING SCHOOL/ASSIGNMENT

Employees are to be on duty at all times during the assigned work day. Employees may not leave school or their assigned area during duty hours without approval of the Principal or their supervisor.

Employees who leave the school during their designated lunch period or for an approved absence must check out with the Principal's office or their supervisor when leaving and check back in upon return. Employees who need to leave during the school day for reason of illness or emergency are to make sure that a responsible person has been notified of their unexpected absence so work coverage may be provided. When employees leave school for any non-work reason, including lunch, they are to clock out before leaving and clock in upon return. If employees are on site and available/willing to work during the lunch period they may remain clocked in during their lunch time.

SCHOOL PROCEDURES

Employees are expected to adhere to the following school procedures in the performance of their duties:

1. Use of Cell Phones. Employees are to refrain from use of personal cell phones for non-school purposes during duty time.
2. Employees are not to use cell phones or otherwise engage in distracted driving while transporting students or using school vehicles. This rule applies to the driver when the vehicle is in motion. The only exception would be in the case of emergencies. Employees will abide by all rules of the road and any applicable rules of the Nebraska Department of Education and the District relating to driving a motor vehicle. Seat belts and child restraint systems are to be utilized by all occupants.
3. Employees are not to use radar detectors, laser detectors, or similar devices while transporting students or using school vehicles.
4. Checking Out of Equipment. All equipment must be checked out through the appropriate office. School equipment may be used only for school purposes. School equipment and other resources may be used for personal purposes only as authorized by Board policy or contract.
5. Requisition of Equipment and Supplies. Books and supplies which are needed for instruction should be requested through the appropriate office. Employees shall not make purchases on behalf of the District without prior approval of the Superintendent.
6. E-mail. Use of the District's e-mail system for personal communications should be limited and is subject to the rules governing overall computer usage found in Board policy.
7. Employee Mail Box. Employees may be assigned a mailbox. Employees should check for mail upon arrival, in the course of the work day, if possible, and upon departure. If something requires an answer employees are responsible for responding promptly. Employee mail boxes are to be limited to communicate regarding school business.

SUPERVISION OF STUDENTS

Proper supervision of students is an important responsibility of all employees of the District. Employees responsible for student supervision are expected to meet the four "P's" for student supervision and safety. All employees of the school should be

familiar with these principles to the extent they may be involved in supervision of students or interacting with students.

1. Proper Supervision

- a. Report to all duty assignments on time.
- b. Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
- c. Be vigilant while supervising students. Never leave your students unattended; the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave students who you are supervising, request that another nearby staff member provide supervision for you, or notify the office so someone can provide assistance. If you are on recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students who you are to be supervising are doing.
- d. If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. (Remember, though, that this type of information may be confidential—do not share confidential information about students except with other staff who need to know the information to perform their jobs).
- e. Be careful when physically contacting students. Physical contact with students should be limited to that necessary to protect the student. Corporal punishment is prohibited in our school district and is not to be used. Physical force may only be used to the extent reasonably necessary to protect the student, yourself and others, and to protect property as may be reasonable.
- f. Use good judgment when dealing with difficult situations involving students. Physical confrontation generally escalates tense situations.
- g. Be careful with your language. Profanity or abusive language should not be used by you. Be a good role model for students. If a student uses such language, you should correct the student and take such disciplinary action as is appropriate, which may include making a report to administration.

2. Proper Instructions

- a. Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
- b. Repeat the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume because students heard the directions once that they will be remembered.
- c. When you go over safety rules with students note it in your written records.

3. Proper Maintenance of Buildings, Grounds, and Equipment

- a. Conduct periodic inspections of equipment under your control or in your area of supervision.
- b. If equipment is broken and presents a risk of injury, immediately take it out of service (if it can't be moved, tape a "Do Not Use" sign) and notify the office so those repairs may be undertaken.

4. Proper Warnings

- a. If you have knowledge of a hazard that can likely cause injury, take steps to warn other staff and students. Tell the office so additional warnings may be given.

Contact the Office for Assistance: The principal's office should be contacted immediately when a situation exists which could cause injury to students or others.

Examples include:

- student fights
- student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
- a report or a suspicion that a student has a weapon or other dangerous item or drugs, alcohol, or other illegal substances
- presence of an intruder (a non-student or staff member who refuses to go to the office)

Violations of student rules which are also violations of state law are required to be reported to law enforcement. Make a report of such conduct to the Principal so this law may be followed.

Student Searches: School staff members should notify the school principal of any situation in which a student is suspected of having an item in violation of school rules. Classified staff members are not to conduct searches of students or their belongings unless authorized to do so for a specific situation by the school administration. You may direct a student suspected of having an item in violation of school rules to wait with you until another adult is present, or to follow you to the office if you can leave your assigned area without causing risk of harm to others. Do not use physical force to detain the student or to make the student accompany you except as reasonably necessary to protect the student or others.

Student Rights: Treat students fairly and consistently without consideration of race, color, religion, gender, or disability. Students who need special accommodations are to be given those accommodations as needed for them to participate in school and school activities.

Follow IEP and 504 Plans for the students for whom you are responsible. Be attentive and respond to "bullying." Maintain the confidentiality of student records. Student record information should be shared only with other school staff with a need to know the information to perform their duties.

DISPENSING MEDICATION

Employees are not permitted to give any medication to students unless trained under the Medication Aide Act. To ensure the proper care of our students, employees who are asked to take the medication training and administer medications shall do so.

Students who need to take prescription medicine must have a signed parent release form on file in the office. Medications are to be taken in the presence of the office staff, the nurse, or medication aide and are to be stored in the nurse's office; with the exception of students who have a diabetes self-management or asthma self-management plan. Medical procedures are not to be administered in the classroom except in accordance with the District's Safety and Security Management Plan and the District's Emergency Protocol (asthma/anaphylaxis protocol).

If students must take medication and/or perform medical procedures prescribed by a duly licensed physician during school hours, it is the responsibility of the parents or guardians to sign permission slips to dispense the medicine at the school and to submit a note or prescription from the physician authorizing the medicine and/or medical procedure. School district personnel are not to administer medicine, including over the counter medicine, without a signed form and note or prescription. Any medication brought to school needs to be properly labeled. The label should include the following information: student's name, name of medication, dosage needed, and time of dispensing the medication.

REPORTING CHILD ABUSE

Employees are to be familiar with and follow the Child Abuse Policy No. 4105.

ROLE MODEL

Employees serve as role models for students and their actions and conduct reflect on the school as a whole. Employees are in all respects to conduct themselves in a professional manner.

All employees are expected to observe and maintain professional boundaries between themselves and students. A violation of professional boundaries will be regarded as a form of misconduct and may result in disciplinary action.

The following non-exclusive list of actions will be regarded as a violation of the professional boundaries that employees are expected to maintain with a student:

- Using e-mail, text messaging, instant messaging or social networking sites to discuss with a student a matter that does not pertain to school-related activities, such as the student's homework, class activity, school sport or club, or other school-sponsored activity. Electronic communications with students are to be sent simultaneously to multiple recipients, not to just one student, except where the communication is clearly school-related and inappropriate for persons other than the individual student to receive (for example, e-mailing a message about a student's grades).
- Engaging in social-networking friendships with a student on MySpace, Facebook, or other social networking site. Material that employees post on social networks that is publicly available to those in the school community must reflect the professional image applicable to the employee's position and not impair the employee's capacity to maintain the respect of students and parents or impair the employee's ability to serve as a role model for children.

- Engaging in sexual activity, a romantic relationship, or dating a student or a former student within one year of the student graduating or otherwise leaving the District.
- Making any sexual advance – verbal, written, or physical – towards a student.
- Showing sexually inappropriate materials or objects to a student.
- Discussing with a student sexual topics that are not related to a specific curriculum.
- Telling sexual jokes to a student.
- Invading a student's physical privacy (e.g., walking in on the student in a restroom).
- Hugging or other physical contact with a student that is initiated by the employee when the student does not seek or want this attention.
- Being overly "touchy" with a specific student.
- Allowing a specific student to get away with misconduct that is not tolerated from other students, except as appropriate for students with an IEP or 504 Plan.
- Discussing with the student the employee's problems that would normally be discussed with adults (e.g., marital problems).
- Giving a student a ride in the employee's personal vehicle without express permission of the student's parent or school administrator unless another adult is in the vehicle.
- Taking a student on an outing without obtaining prior express permission of the student's parent or school administrator.
- Inviting a student to the employee's home without prior express permission of the student's parent and school administrator.
- Going to the student's home when the student's parent or a proper chaperone is not present.
- Giving gifts of a personal nature to a specific student.

Appropriate exceptions are permitted to the foregoing for legitimate health or educational purposes and for reasons of familial relationships between employees and their children who are students in the District.

Employees who observe or become aware of a violation of the foregoing expectations by other employees are to report the matter to the Principal or the Superintendent.

RELATIONSHIPS

It is important for employees to maintain an effective working relationship with the administration and all co-workers. Employees are also to maintain appropriate relationships with students. Appropriate relationships are established by extending social courtesies, following through on commitments and promises, complying with administrative directives and Board policies, being honest and consistent, and not intruding into personal matters outside the scope of duties, gossiping, or spreading rumors about others.

CIVILITY

All employees shall behave with civility, fairness and respect in dealing with fellow employees, students, parents, patrons, visitors, and anyone else having business with the District. Uncivil behaviors are prohibited. Employees may be subject to disciplinary action up to and including termination for engaging in uncivil behaviors.

Uncivil behaviors are any behaviors that are physically or verbally threatening, either overtly or implicitly, as well as behaviors that are coercive, intimidating, violent or harassing. Such interactions are prohibited in all forms of communication, including telephone conversations, voice mail messages, face-to-face conversations, written communications, and email messages.

Any employee aware of another employee's uncivil behavior shall report the conduct to the employee's immediate supervisor or to the Superintendent. There will be no retaliation against a person for making the report.

GENERAL INFORMATION

BAD WEATHER/SCHOOL CLOSING

The importance of notifying employees, parents, and students when school will be delayed in opening, not opened at all, or be dismissed early is of prime concern. We will be using an automated messaging system (Remind) which will allow the school to contact each family with regard to school closing and other notifications. This system is designed to message the phone number or numbers listed in your employment file. Please ensure that the school district is continually notified of any changes to your contact information.

The school also uses local radio station KCOW, KNEB, and KCSR to inform staff, parents, and students of closing due to inclement weather. The school will make every effort to make this information available as soon as possible.

COMMUNICATION

Employees of Hemingford Public Schools are expected to utilize effective communication strategies and technological resources when appropriate to collaborate and engage with students, parents, families, and the community to create meaningful relationships that enhance the learning process.

In order to facilitate such communication between the school and homes, teachers are expected and directed to follow the communications plans and protocols developed at the school and district levels. Such communications plans will include directions for frequency, content, and method/mode of communication teachers will be expected to utilize.

COMMUNITY RELATIONS

The Board of Education, through the administration, demands dignity, neatness, and seriousness of purpose for its employees. The education profession, as a whole, is frequently and unjustly judged by the attitude and conduct of a single school employee. Since all are judged by what only a few may do, it is imperative that each of us give considerable thought to our actions as they relate to community customs.

School employees should regard the community in which they are employed as their home. You should be interested in its institutions, its worthwhile activities, and participate in those in which you have special interest and abilities. Good judgment should be used in all practices.

Poor public relations can ruin the finest faculty in a good school. It is imperative that we all use common sense and discretion in and out of school.

CONCESSIONS/CASH BOXES

Concessions and other cash boxes, such as gate receipts for athletic events, are to be counted and signed-off by two adults before the funds are remitted to the school administration and office staff.

CONCUSSIONS: RETURN TO LEARN

Students who sustain a concussion and return to school may need informal or formal accommodations, modifications of curriculum, and monitoring by medical or academic staff until the student is fully recovered.

The school administration of Hemingford Public Schools adopts the NDE Guidance entitled “Bridging the Gap from Concussion to the Classroom,” and accompanying Appendix, as its return to learn protocol, with the recognition that each student who has sustained a concussion will require an individualized response.

CONFIDENTIALITY AND CONFIDENTIALITY OF RECORDS

Employees should not discuss school matters outside the job nor discuss confidential or personal information about students or staff. Requests from anyone, including fellow building staff members, for personal information about students or staff should be referred to the principal. School staff shall maintain student records in compliance with state and federal law.

COPYRIGHT AND FAIR USE POLICY

It is the school's policy to follow the federal copyright law. Students and staff are reminded that when using school equipment and when completing course work, they must also follow the federal copyright laws. The federal copyright law governs the reproduction of works of authorship. Copyrighted works are protected regardless of the medium in which they are created or reproduced; thus, copyright extends to digital works and works transformed into a digital format. Copyrighted works are not limited to those that bear a copyright notice.

The “fair use” doctrine allows limited reproduction of copyrighted works for educational and research purposes. The relevant portion of the copyright statute provides that the “fair use” of a copyrighted work, including reproduction “for purposes such as criticism, news reporting, teaching (including multiple copies for classroom use), scholarship, or research” is not an infringement of copyright. The law lists the following factors as the ones to be evaluated in determining whether a particular use of a copyrighted work is a permitted “fair use,” rather than an infringement of the copyright:

- the purpose and character of the use, including whether such use is of a commercial nature or is for nonprofit educational purposes;
- the nature of the copyrighted work;
- the amount and substantiality of the portion used in relation to the copyrighted work as a whole, and

- the effect of the use upon the potential market for or value of the copyrighted work.

Although all of these factors will be considered, the last factor is the most important in determining whether a particular use is “fair.” Employees should seek assistance from a administration if there are any questions regarding what may be copied.

CRISIS SITUATIONS

Behavior in the first moments, by those actually involved in a crisis situation, will largely dictate the outcome. In the event of a crisis situation, Hemingford School personnel are expected to follow the procedures as written in the Emergency Responses Manual.

EMPLOYEE FAMILY MEMBERS AND VISITORS

Employees are welcome to bring their children to visit their worksite, provided that the visits are infrequent, brief, and planned in a fashion that limits disruption to the workplace and/or staff member responsibilities. Other family members, spouses, significant others, or visitors may be allowed from time to time at the discretion of the administrator/supervisor. If the frequency, length, or nature of visits becomes problematic, the employee will be advised of the situation and will be expected to take corrective action.

Employees are not permitted to bring ill children to work. This guidance is not to be utilized as a backup childcare arrangement. Employees are provided paid time off benefits which should be used for personal reasons or to care for an ill child.

EMPLOYEE BENEFITS ONLINE PLATFORM

As part of a comprehensive benefits package, the district provides access to various elective benefits, including vision insurance, supplemental insurance, emergency transportation insurance, and Section-125 (flex spending) plans. These are available for employees to purchase at group rates through an online benefits platform.

CUSTODIAL ASSISTANCE

Our custodians strive to keep the school neat, clean and functional. It is a difficult job, and we should all encourage students to conduct themselves in ways that contribute to an attractive and safe environment. If custodial assistance is needed, all requests must go through the building principal's office. Please email or visit with the building secretary for coordination of custodial and maintenance requests.

DISCIPLINE

School employees are expected to support students in engaging in positive and appropriate behavior. Students should know what behaviors are expected, and

these expectations should be firmly but fairly enforced. Discipline does not automatically mean punishment, but it does always mean encouraging a desired behavior. Threatening, yelling, criticism, sarcasm, etc. are questionable discipline techniques and often prove inadequate. The student's improper behavior should be the focus of the discipline and not the student's personality, family, dress, appearance, etc. Discipline that punishes all students for the wrong doing of a few is discouraged. The forms of discipline used by school employees should be consistent, reasonable, and fair.

Discipline is the responsibility of each individual school employee under the direction of the certificated staff and the principals. The principal's role is to assist and advise in the event of flagrant or continued misbehavior. Flagrant misbehavior should be brought to the attention of the principal immediately. A student shall not be sent to the office without an explanation of the offense. If assistance is needed in the removal of a student, the school employee is to send someone to the principal's office immediately for assistance. Each student dictates different strategies, but effective teaching and adequate preparation prevent many behavioral problems from occurring.

Corporal punishment shall not be administered. Students causing excessive discipline problems may be recommended to the Superintendent for discipline.

FORMS, REPORTS, AND RECORDS

The following items need to be supplied to the Superintendent's Office and updated as needed.

1. W4's
2. Address
3. Telephone Number
4. Marital Status
5. Payroll Deductions
6. Annuities
7. Health Insurance Coverage
8. Supplemental Insurance
9. Savings or Investment Plans

NOTE: All of the above are due prior to September 1st.

FUNDRAISERS AND ACTIVITIES ACCOUNTS

In order to ensure that the resources of the community are not strained as a result of multiple fundraisers occurring at simultaneously, all student organization fundraisers (other than the concession stand) must be approved by the organization's sponsor, the activities director, building principal, bookkeeper, and superintendent. When an organization wishes to engage in a fundraising activity the sponsor will need to complete a Fundraiser Request Sheet and submit the form to the Activities Director. Fundraising activities should not begin until the request has been approved by the superintendent.

Funds earned in the name of a school organization belong to the organization rather than to the individual student. When students engage in fundraising as a member of a school organization (such as activities, groups, teams, or clubs) the proceeds from the fundraising shall remain with the organization regardless of the continued participation status of the student in such organization. If organizations are disbanded all funds remaining with the organization will be transferred to the activity travel account.

Senior class funds remaining after graduation expenses are paid may be designated for a specific school project or activity by a majority vote of the senior class. If no project or activity is designated prior to graduation the remaining funds will be transferred to the secondary school account in the activities fund.

HALL SUPERVISION

School employees are expected to step into the hall between classes to help maintain order. Students must be supervised at all times when they are on school premises because of possible accidents and subsequent liability. School employees are to file all accident reports no matter how large or small. Lawsuits can happen several years later. A written record could be of great assistance in presenting requested testimony.

INSTRUCTIONAL AND WORK AREAS

Each staff member is responsible for the appearance and organization of their assigned work areas. The appearance of the school and school grounds has an impact on the learning that occurs; therefore each staff member should devote time and energy to developing an attractive, stimulating, and orderly instructional setting. Take pride in your educational setting, as well as your work. Be an example for students. When a room is unoccupied, lock and shut doors behind you and shut off lights. ***School employees assigned to supervise students are expected to be with their students during the entire period for which their supervision is assigned.***

Occasionally school employees are required to share rooms. Upon leaving an area please ensure that: a) materials and equipment are stored properly, b) chairs and desks are properly placed, c) the floor is free of litter. On leaving your room for a length of time or for the day, school employees will turn out all lights, close and lock all windows and close and lock all doors. School employees using the building after hours must check all lights and doors and see that all students are out of the building. Students are not to be left to close the building. Whenever the facility is being used, there must be a staff person present and directly supervising the students. Do not give your keys to students or any other person. Individuals and organizations wishing to use the school facilities must complete an Application for Facility Use and submit such application to the office for approval.

MUTUAL RESPECT

The Hemingford Public Schools expects every staff member and student to be treated with respect and dignity.

OBSERVING AND ENFORCING RULES

It is the duty of each school employee to become familiar with the rules, regulations, and policies of the school and to do all that you can at all times to see that they are enforced. Ignorance of the rules does not excuse you.

PARKING AT THE ELEMENTARY SCHOOL

In order to provide a safe and invitational atmosphere to parents and visitors, staff members are to refrain from parking in the parking spaces located on the concrete immediately in front of the south side of the elementary school. These spaces are to be reserved for parents and other visitors to the school.

PROFESSIONALISM AND CODE OF ETHICS

Professional deportment is expected from all personnel of Hemingford Public Schools. This behavior is reflected in your dress and grooming, relationships with students and parents, and interaction with your peers. A positive school climate is critical to everyone's success. All classified employees must be familiar with and adhere to the Personal and Professional Conduct Standards section of this handbook.

PUBLICITY/PUBLICATIONS

Take pride in the school and be proud to tell about the positive elements of the school. Any items to be submitted to local papers or sent home to the parents should be appropriate and approved by the building principal. Any concerns should be presented to the principal in advance. The Secondary Principal shall serve as the editor of all student publications.

PURCHASING

Board Policy on Purchases: **Any employee who purchases supplies or equipment without expressed authorization of the Superintendent shall be personally liable for payment of the bill.** School Employees should make requests for supplies or equipment in sufficient time to allow for economical and wise purchasing.

Class and club sponsors will have responsibility for supplies ordered through their organizations. In many cases, items can be procured through regular school channels more economically. All purchases which are handled through the activity fund should be cleared through the Office of the Superintendent or the Activities Director.

All purchases charged to the school district or to any organization of the school will be accompanied by a requisition order approved through the Weblink online requisitioning system. Requisition Orders for a class or organization must be approved by the authorized personnel in the Office of the

Superintendent or the Activities Director. No bills will be paid by the Board of Education or from the Activity Fund which have not been authorized.

RECORDS MANAGEMENT AND DISPOSITION – LITIGATION HOLDS OF ELECTRONIC MESSAGES

When litigation against the District or its employees is filed or threatened, the District will take all reasonable action to preserve all documents and records that pertain to the issue.

As soon as the District is made aware of pending or threatened litigation, a litigation hold directive will be issued by the records officer or designee. The directive will be given to all persons suspected of having records that may pertain to the litigation issue.

Employees who receive notice of a litigation hold are to preserve all records that pertain to the litigation issue. This includes preserving electronic messages that would otherwise be deleted by the computer system; such messages are to be converted by the recipients of the litigation hold to hard copy (printed) or electronic format which can be retrieved and interpreted (downloaded) for the duration of the litigation hold.

No employee who has been notified of a litigation hold may alter or delete an electronic or other record that falls within the scope of the hold. Violation of the litigation hold may subject the employee to disciplinary actions, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

RADIOS AND OTHER COMMUNICATION DEVICES

In order to facilitate effective and timely communication, employees may be assigned to wear and use a handheld radio or similar communications device while on duty.

ROOM MAINTENANCE

Before leaving the work area each day, close windows, turn out all lights, and lock the room. Elementary staff members, please make sure your air-conditioners are turned off when you leave. When repairs are needed, notify the principal in order for arrangements to be made for the repair.

SAFETY INSTRUCTIONS

All head coaches will conduct a safety lecture in regards to potential dangers that might be incurred by participating in that particular sport. All coaches will instruct participants in their sports in the correct fundamentals of the sport and will not teach fundamentals that have been determined as illegal or unsafe.

All other faculty members who supervise activities or classroom activities where a student could sustain an injury from the activity, will also conduct a class on the

dangers and the safety precautions to be used during the activity or classroom sessions.

SCHOOL BOARD POLICIES

School Board policies are made available to the staff and to the public through the school website. Staff are encouraged to become familiar with board policies. Please direct any questions about board policy to the Superintendent. Policies can be accessed at the following link:

<https://meeting.sparqdata.com/public/Organization/Hemingford>

SCHOOL LUNCH

School employees are strongly encouraged to utilize payroll deduction to pay for school lunches purchased by themselves and or members of their family. This ensures convenience for employees and timely payment of lunch bills to the school. Lunches must be paid for in advance. The school will not charge meals to employees or students with negative lunch account balances.

STUDENT CONDUCT

A student handbook will be used to familiarize students and parents or guardians with the school's practices and procedures. Students will be given a copy of the handbook, which will explain general regulations and requirements.

Students are expected to act, dress, and conduct themselves in the school building and at school sponsored events, in such a fashion that their behavior and dress will reflect favorably on the individual and on the school, will show consideration to fellow students, and will create a harmonious school atmosphere. All students must recognize their individual responsibilities and obligations, and discharge them in accordance with the school regulations.

All staff members are responsible for overseeing the conduct of students, both during school hours and at school sponsored events. In each instance in which an employee acts to help a student conduct him/herself properly, emphasis shall be placed upon the growth of the student and the ability to discipline him/herself.

SCHOOL KEYS

No key is to be duplicated without the Superintendent's written permission. **DO NOT GIVE YOUR KEYS TO ANY ONE ELSE TO USE.** Prior arrangements must be made if student managers use your keys. Staff members may be required to pay for the cost of lock/key replacement in the event that the staff member's keys are lost, misplaced, or stolen.

SPONSOR/CHAPERONE DUTIES

Most employees, in addition to their regular assignments, are asked to sponsor a class or organization.

At the first meeting of the year, students in each class or organization should elect officers, and determine projected plans for activities and fundraising activities. Projects must be approved by the principal and scheduled by the activity director to avoid conflicts with other organizations and competition with local businesses. Parliamentary Procedure will be used in all class meetings.

If a project involves the use of the cafeteria and/or kitchen, the head cook must be consulted. If a cook needs to be present at the project, the organizer will be billed for that individual's time. If a janitor is asked to do the cleaning, make prior arrangements and be prepared to pay that individual for the services.

The sponsor is responsible for the financial records for each class or organization. They should review the records with the treasurer of the organization and the district bookkeeper at least once a month.

No students are to be in the building during a project or event unless a sponsor is present. Sponsors should check to see that lights are off and doors locked when they leave. The facilities should be left in a clean condition.

No organization is to meet at the school or any other location for any purpose without prior clearance from the principal. Sponsors are also to be aware that any money earned from fundraisers is to be used to benefit the school or community or for a growth experience. Using the school's name to raise money for a party is prohibited.

STAFF DRESS

School employees should be conscious of the importance of attractiveness, appropriateness, and neatness in dress and grooming. Set a positive example about the importance of school. Business casual attire is appropriate. This includes polos, button down shirts, dress pants, khaki's, etc. The wearing of T-shirts should be limited to promotion of school spirit and messaging that supports educational initiatives and school endorsed educational causes, such as post-secondary learning promotion, "#BeKind," and "I Love Public Schools" days. Staff attire needs to be compliant with expectations for student dress. Staff Members are permitted to wear jeans on Fridays when they have contributed to the jean scholarship program.

STAFF WELLNESS

Hemingford Public School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. Staff members are expected to serve as role models for students in the area of wellness. HPS staff members are encouraged to serve as healthy role models for students.

STUDENT DRESS CODE

~~The school administration and teachers encourage everyone to behave and dress in a fashion reflecting good taste and in a style appropriate for a school day or~~

~~school activity. An individual's dress, personal appearance, and cleanliness, like his/her behavior, should reflect sensitivity to and a respect for others.~~

~~Student dress and personal appearance that disrupts or distracts from the educational environment of the school, is offensive, in violation of any statute, or is a health or safety hazard is not acceptable and is not permitted.~~

~~Examples of inappropriate dress: midriff blouses; low cut blouses; hats; caps; headbands; chains or straps on pants; articles displaying obscene or vulgar writing or symbols; articles displaying tobacco, alcohol, or drug advertisement; jewelry with potentially harmful accessories; any clothing in reference to membership in gangs; bandanna; sagging clothes; or tagging with gang signs or letters. Any type of shorts worn to school will reach to the middle of the thigh. Shoes and socks must be worn.~~

Teachers will send students to the office, or notify the office, if a student's clothing or dress is questionable. The final decision will rest with the administration.

~~If students are participating in extra-curricular activities or school-sponsored activities, their dress or appearance will be the responsibility of the coach or sponsors.~~

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation. Students should not dress in a manner that is reasonably forecasted to interfere with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.

- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

STUDENT ERRANDS

Students are not to be sent on errands outside the school building during school hours unless by permission of the principal. Students are entrusted to our care, therefore, it is essential that we know where they are at all times. Notify the principal well in advance when you desire to go with your groups outside the school building during school time on class trips.

STUDENT HANDBOOK

All staff members should be familiar with and know the student handbook, encouraging students to know and follow its guidelines and regulations, too.

SUPERVISION OF STUDENTS

Proper supervision of students is an important responsibility for teachers and other adults responsible for our students. Teachers and other adults responsible for student supervision are expected to meet the following:

Proper Supervision

1. Report to all duty assignments on time.
2. Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
3. Be vigilant while supervising students. **Never leave your students unattended**; the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave your classroom, request that another nearby staff member cover your class, or notify the office so someone can provide assistance. If you are on recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students are doing.
4. If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. Remember, though, that this type of information may be confidential—do not share confidential information about students except with other staff who need to know the information to perform their jobs.
5. Be careful with touching students. Use of corporal punishment is prohibited at Hemingford Public Schools. Touching students should be limited to that necessary to protect the student from harm (e.g., falling from playground equipment), and that which professional educators determine appropriate for purposes of proper student relationships.
6. Be careful with your language. Profanity or abusive language should not

be used by you. Be a good role model for students. If a student uses such language, you should correct the student and take such disciplinary action as is appropriate, which may include making a report to the administration.

Proper Instructions

1. Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
2. Repeat the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume because students heard the directions once that they will be remembered.
3. When you go over safety rules with students, note it in your written records (e.g., your lesson plan book or daily reports).
4. Review playground and classroom safety rules with students at least once each semester, and note when you do it in your written records. Also, if any students are absent when you review the rules; contact the student(s) to review the same information and also note that contact in your written records.

Contact the Principal for Assistance

The principal should be contacted immediately when a situation exists which could cause injury to students or others.

Examples include:

1. Student fight
2. Student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
3. Reported incident or a suspicion that a student has a weapon or other dangerous item(s), drugs, alcohol, or other illegal substances
4. Presence of an intruder (a non-student or staff member who refuses to go to the office)

Student Searches

School staff members should notify the school principal of any situation in which a student is suspected of having an item in violation of school rules. School staff members are not to conduct searches of students or their belongings unless authorized to do so for a specific situation by the school administration.

Student Rights

Students should be treated fairly and given the same treatment without consideration of race, color, religion, gender, or disability. Students who need special accommodations should be given those accommodations as needed for them to participate in school and school activities. Further, students have the right to

have their school records kept confidential. Such information should be shared only with other school staff with a need to know the information to perform their duties.

WORK ROOM

The work room is to be kept as neat as possible. Avoid discussing individual students in the workroom. Additionally, ensure that communications in the workroom are positive and conducive to a productive and effective school climate. Parents and community members often form impressions of our schools based upon the professionalism exhibited in the school offices and in the workroom and break room. Your assistance in this is greatly appreciated.

TELEPHONE

School employees are welcome to use the school telephone. The school telephones are not to be used for personal long distance calls. School telephones are tax exempt and are to be used for official school business only. School employees who have student supervision responsibilities **will not** be called to the telephone except in case of emergency.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video cameras on Hemingford School District property to ensure the health, welfare, and safety of all staff, students, and visitors to District property; and to safeguard District facilities and equipment; and to further the educational process. Video cameras may be used in locations as deemed appropriate by the Superintendent.

Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies. Teachers may videotape instruction and other classroom activities to make available to students who were absent or who would like to otherwise review such content.

VISITORS

All visitors are to be directed to the principal's office. This is for the preservation of classroom order as well as to protect students and staff.

Parental interest and concern should be welcomed. However, if a visitation becomes hostile, a teacher or an administrator should be present. Students and school employees are not to open any doors for non-school personnel, as visitors must enter through the main doors to the building and check-in at the office. School employees have the responsibility and the right to question visitors in the building.

WORK AREA SAFETY AND ACCIDENT REPORTING

All employees share in the responsibility for maintaining a safe and healthy school environment. All staff members shall avail themselves of every possible opportunity

to instruct students in the safe use and handling of any school property or equipment that could cause injury to students or school personnel. Any unsafe or unhealthy conditions in the immediate work area, building, or on the school campus should be reported immediately to the school principal. In the event of an accident to an employee, student, or visitor, the safety and care of the injured individual should be of primary concern. A written report of the incident should be made to the principal within 24 hours, if not sooner. An incident which requires the attention of medical personnel and any other incident deemed important by the principal, should be reported to the superintendent of schools.

Instructors or sponsors of groups using laboratories, including science, art or shop areas will be responsible for seeing that individuals or groups working with the following materials or in the following areas will wear the appropriate eye and/or face protection or other protective gear deemed appropriate:

1. Hot molten materials.
2. Heat treatment, tempering, or kiln firing of any metal or other materials.
3. Milling, sawing, turning, shaping, cutting, grinding or stamping of solid materials.
4. Gas or electric arc welding or other welding processes.
5. Repair or servicing of any vehicles.
6. Caustic or explosive materials.
7. Hot liquids or solids, injurious radiation or other hazardous materials.

SELECTED BOARD POLICIES

EMPLOYEE GRIEVANCES - 0402.05

School employees are encouraged to solve difficulties and problems within the school or department in which they are employed. In the event that a difficulty or grievance cannot be settled within the school or department, the employee is encouraged to bring the matter to the attention of the district administrator in charge of certificated personnel. This grievance procedure serves to secure, at the lowest possible administrative or supervisory level, proper and equitable solutions to grievance, and to guarantee orderly succession of procedures within which solutions may be pursued. School personnel are encouraged to ask their immediate supervisor for assistance on any matters that relate to their duties.

It will be incumbent upon all district employees to follow these procedures to settle their grievances. Within this general framework the following specific purposes are to be served by this grievance procedure:

1. To ensure that a complaint is considered fairly, with all due speed and without prejudice or reprisal to the aggrieved person.
2. To encourage teacher expression regarding conditions that affects him or her professionally.
3. To provide a specific procedure that will facilitate the understanding of district policies that affect teachers.
4. To build confidence in the sincerity and integrity of the procedure as a means to establish the facts upon which a grievance is based and a fair conclusion is reached.

Nothing in this policy shall contradict the requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board.

STAFF CONDUCT WITH STUDENTS - 0402.15

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Any type of sexual or inappropriate physical contact with students or any other conduct that might be considered harassment under the Board's policy on Harassment By Employees;
- Singling out a particular student or students for personal attention and friendship beyond the normal teacher-student relationship;
- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;

- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;
- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and
- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

This policy shall be included in future employee, student and volunteer handbooks.

APPENDIX A: CHAIN OF COMMAND, CONFLICT RESOLUTION, AND COMMUNICATION

HEMINGFORD PUBLIC SCHOOLS

Chain of Command

Directives for School Personnel

Conflict Resolution Responsibilities:

All school employees have a responsibility to ensure individuals are directed to the appropriate source for resolving their conflicts. If people complain about decisions, practices, or staff members, direct them to the person with whom they have an issue. If they have already addressed the issue with that person, guide them to the next level in the chain of command. Avoid sympathizing with those who do not follow proper channels, as this erodes trust and undermines effective team dynamics.

Speaking Well of Others:

Except during necessary evaluations or assessments, school employees are to avoid making unkind or critical remarks about any employee, student, parent, or administrator. Blaming others when things do not go well erodes trust and undermines the collaborative culture in our schools.

1. **Identify the source of the conflict:** Go directly to the source to seek resolution.
2. **Look beyond the incident:** Understand the broader context and underlying issues.
3. **Request solutions:** Write down the specific solution you are seeking and share it with the person involved.
4. **Identify solutions both disputants can support:** Find common ground and mutually agreeable solutions.
5. **Agreement:** Reach a final agreement that resolves the conflict.

Additional Guidelines:

- Address the person directly in a respectful and constructive manner.
- Arrange meetings in a place free of distractions, possibly with a mediator or facilitator if needed.
- Consider using a hearing officer or mediation framework for more complex conflicts.
- Encourage all parties to participate in good faith and with a collaborative mindset.

WELCOME

MESSAGE FROM THE SUPERINTENDENT

Dear Substitute Teacher,

I would like to take some time to express, in advance, my gratitude for your contributions to Hemingford Public Schools as a substitute teacher.

Substitute teachers play a vital role in the functioning of our school. The work you do makes a significant contribution to our school and to our continuous work on providing a quality education to our students.

It is my sincere hope that you enjoy substitute teaching at Hemingford Public Schools and that you will continue to share your talents with our students and our community throughout the school year.

If you have made any changes to phone numbers or other contact information please contact Mrs. Kristy Hanks in the Central Office prior to the start of the school year. As in the past, we will use the Red Rover system for working with you to schedule substitute teachers.

The rate of compensation for substitute teaching for the 2024-2025 school year will be \$145 per day (\$72.50 for half days). In addition, we will continue to offer a complimentary meal to our substitute teachers.

I sincerely hope that you will continue to share your talents with our students during the upcoming school year. I look forward to working with you to provide the highest quality education for our students.

I believe that together we can create exceptional learning experiences for our students. Thank you for being a part of our school.

Sincerely,

Dr. Travis W. Miller
Superintendent of Schools

GENERAL INFORMATION

PURPOSE

This handbook is prepared for the purpose of providing information on customs and policies pertaining to the Hemingford Schools. It is intended for use by substitute teachers as a guide in developing a well-coordinated instructional program. It is hoped the statements set forth in this handbook will improve understanding and cooperation among all school personnel in the coming school year.

It is the purpose of this handbook to establish uniformity of operation. It will be supplemented from time to time as board policy, superintendent policy or the principals' policies are changed.

The quality of educational achievement is directly related to the classroom teachers, including substitute teachers. Each teacher has been selected to provide for a certain phase of the child's needs as he/she grows in the educational program. As we coordinate our work and as each teacher grows professionally in his effectiveness as a superior teacher, so grows the Hemingford Schools as a more effective school system.

WHEN TO ARRIVE

When possible, substitute teachers are asked to arrive at 7:45. If you were called late and cannot be at the school by then, please make sure the building secretary knows and can make plans for supervision of students until you are able to arrive. Students will be entering classrooms at 8:00, so please arrive early enough to get settled in, read through any supervision assignments, and be prepared to greet students when they arrive in your classroom.

WHEN TO DEPART

Unless there is a need for afterschool supervision, please plan to see the students out the door and safely to dismissal at the end of the day. Once the students have left, please complete any notes to the regular teacher and let the office secretary know you are leaving, either by stopping by the office on the way out of the building or by placing a message with the secretary through the school phone system. Once parents and students have cleared the parking lot, please feel free to leave, even if the regular teachers are required to stay longer.

PAYMENT

Payroll periods begin with the first workday of the month and end with the last workday of the month. Pay for the work period is made on the 15th following the previous month's last workday. As an example, the September payroll will reflect days worked in August.

EMERGENCY PROCEDURES

Each classroom has an Emergency Response Manual. Please be sure to know the location of each of this manual and take a few moments to review the contents in the event of an emergency.

STUDENT ILLNESS

If a student is sick, please contact the office and work with the secretary to determine whether to send the student to the nurse or to request assistance from the nurse in the classroom.

PHONE OPERATION

Please familiarize yourself with the operation of the telephones in each building where you work as a substitute. The building secretaries and principals can provide a brief overview.

COMPLIMENTARY BREAKFAST AND LUNCH

Substitute Teachers receive a complimentary “grab and go” breakfast and a lunch from the school nutrition program.

ATTENDANCE PROCEDURES

Teachers are to take attendance within the first 10 minutes of each instructional period in the secondary school and at such times as assigned by the principal in the elementary school. Teachers are to contact the office immediately regarding any student who is absent and not previously marked as absent by the school office in the school's computerized attendance system. Teachers are responsible for ensuring that attendance records are accurate and regularly updated. For example, if a student comes to class after attendance has been taken then the student's attendance record needs to be updated to “tardy” instead of “absent”. Additionally, teachers are required to read email announcements regarding students' attendance at activities so that student attendance properly reflects the students' attendance at school/activity functions as being “present.”

BAD WEATHER/SCHOOL CLOSING

The importance of notifying employees, parents, and students when school will be delayed in opening, not opened at all, or be dismissed early is of prime concern. We will be using an automated messaging system (Remind) which will allow the school to contact each family with regard to school closing and other notifications. This system is designed to message the phone number or numbers listed in your employment file. Please ensure that the school district is continually notified of any changes to your contact information.

The school also uses local radio station KCOW, KNEB, and KCSR to inform staff, parents, and students of closing due to inclement weather. The school will make every effort to make this information available as soon as possible.

CLASSROOM MANAGEMENT

Teachers have the responsibility of managing their classrooms in a manner that allows students to effectively accomplish their learning tasks. Realizing there is a wide variety of teaching styles, learning styles, and subject content, classroom management should also vary. There are, however, some common procedures teachers of well-managed classrooms follow:

1. Be prepared for class. When the bell rings, the teacher is ready to begin class. A meaningful activity is planned for each class on each day.
2. Make assignments reasonable and clear.
3. Be a neat dresser, well groomed; be businesslike and friendly.
4. Do not allow students to address you by your first name or a nickname.
5. Communicate your classroom expectations to the students. Keep rules to a minimum.
6. Be consistent each day of the school year.
7. Avoid punishing the entire class for the actions of a few.
8. Avoid comments to students you would not make in the presence of their parents.
9. Avoid comments or actions that could humiliate a student.
10. Be willing to apologize.
11. Communicate with the classroom teacher via email or note: sharing success and concerns during your coverage.
12. Avoid arguments with students in front of a class. Even if you win, you've lost.
13. Be enthusiastic. If you don't want to be here, neither will the students.
14. Keep the level of your voice under control. Avoid yelling.
15. Be creative with assignments and instructions. Facilitate success.
16. Get to know your students, take an interest. Attend activities.
17. Physically manhandling students will not be supported, except when defending yourself, separating students in a confrontation, or preventing injury to a student.
18. Seating arrangements should be maintained in classrooms. Inspect desks daily for damage.
19. Detentions assigned by an individual teacher are the responsibility of that teacher. Do not assign detentions to students if you are unable to supervise the student during the assigned time.
20. Limit free time; maintain appropriate control of your classroom and area.
21. Staff and Student personal cell phones and electronic devices, including ear buds, will remain off and out of sight and may only be used during class time or times of supervision for educational purposes.

COMMUNICATION

Teachers at Hemingford Public Schools are expected to utilize effective communication strategies and technological resources when appropriate to collaborate

and engage with students, parents, families, and the community to create meaningful relationships that enhance the learning process.

In order to facilitate such communication between the school and homes, teachers are expected and directed to follow the communications plans and protocols developed at the school and district levels. Such communications plans will include directions for frequency, content, and method/mode of communication teachers will be expected to utilize.

COMMUNITY RELATIONS

The Board of Education, through the administration, demands dignity, neatness, and seriousness of purpose for its teachers. The teaching profession, as a whole, is frequently and unjustly judged by the attitude and conduct of a single teacher. Since all are judged by what only a few may do, it is imperative that each of us give considerable thought to our actions as they relate to community customs.

Teachers should regard the community in which they are employed as their home. You should be interested in its institutions, its worthwhile activities, and participate in those in which you have special interest and abilities. Good judgment should be used in all practices.

Poor public relations can ruin the finest faculty in a good school. It is imperative that we all use common sense and discretion in and out of school.

CONFIDENTIALITY AND CONFIDENTIALITY OF RECORDS

Employees should not discuss school matters outside the job nor discuss confidential or personal information about students or staff. Requests from anyone, including fellow building staff members, for personal information about students or staff should be referred to the principal. School staff shall maintain student records in compliance with state and federal law.

CUSTODIAL ASSISTANCE

Our custodians strive to keep the school neat, clean and functional. It is a difficult job, and we should all encourage students to conduct themselves in ways that contribute to an attractive and safe environment. If custodial assistance is needed, all requests must go through the building principal's office.

DISCIPLINE

As professional educators, Substitute Teachers are expected to create reasonable classroom rules and consequences. Students should know what behaviors are expected, and these expectations should be firmly but fairly enforced. Discipline does not automatically mean punishment, but it does always mean encouraging a desired behavior. Threatening, yelling, criticism, sarcasm, etc. are questionable discipline techniques and often prove inadequate. The student's improper behavior should be the focus of the discipline and not the student's personality, family, dress, appearance, etc. Discipline that punishes all students for the wrongdoing of a few is discouraged. Grades are not to be reduced as a form of discipline for poor behavior. The forms of discipline that you choose should be consistent, reasonable, and fair.

Discipline is a very important factor in the success of any teacher. Teachers may know their subject matter and the most current research, but these are of little value unless they are able to control the pupils in their classes.

Discipline is the responsibility of each individual teacher. The principal's role is to assist and advise in the event of flagrant or continued misbehavior. Flagrant misbehavior should be brought to the attention of the principal immediately. A student shall not be sent to the office without an explanation of the offense. If assistance is needed in the removal of a student, the teacher is to send someone to the principal's office immediately for assistance. Each student dictates different strategies, but effective teaching and adequate preparation prevent many behavioral problems from occurring. Substitute Teachers are encouraged to read and may be required to read "Tools for Teaching" by Fred Jones for additional guidance in proper classroom management.

Corporal punishment shall not be administered. Students causing excessive discipline problems may be recommended to the Superintendent for expulsion.

GUM AND CANDY

While gum is allowed in classrooms, it should be disposed of properly. Candy may be allowed on occasion when it is permitted by the teacher. Certain elementary grades and secondary courses, such as band and choir may restrict the use of gum and candy for safety and equipment reasons.

HALL SUPERVISION

Every teacher is expected to step into the hall between classes to help maintain order. Students must be supervised at all times when they are on school premises because of possible accidents and subsequent liability. Substitute Teachers are to file all accidents no matter how large or small. Lawsuits can happen several years later. A written record could be great assistance in presenting requested testimony.

LETTERS TO PARENTS

Please have all general letters to parents cleared through the principal before releasing.

MUTUAL RESPECT

The Hemingford Public Schools expects every staff member and student to be treated with respect and dignity.

PARKING AT THE ELEMENTARY SCHOOL

In order to provide a safe and invitational atmosphere to parents and visitors, staff members are to refrain from parking in the parking spaces located on the concrete on the south side of the elementary school. These spaces are to be reserved for parents and other visitors to the school.

PROFESSIONALISM AND CODE OF ETHICS

Professional conduct is expected from all personnel of Hemingford Public Schools. This behavior is reflected in your dress and grooming, relationships with

students and parents, and interaction with your peers. A positive school climate is critical to everyone's success. All holders of public school certificates must be familiar with the Standards of Conduct and Ethics as set forth in Title 92, Nebraska Administrative Code, Chapter 27.

PUBLICITY/PUBLICATIONS

Take pride in the school and be proud to tell about the positive elements of the school. Any items to be submitted to local papers or sent home to the parents should be appropriate and approved by the building principal. Any concerns should be presented to the principal in advance. The Secondary Principal shall serve as the editor of all student publications.

RADIOS AND OTHER COMMUNICATION DEVICES

In order to facilitate effective and timely communication, employees may be assigned to wear and use a handheld radio or similar communications device while on duty.

RECESS SUPERVISION

Supervision of students at recess or other non-instructional times is an expectation for Substitute Teachers in the district. When supervising please engage in the practices described in the "Supervision of Students" section of this handbook.

RECORDS MANAGEMENT AND DISPOSITION – LITIGATION HOLDS OF ELECTRONIC MESSAGES

When litigation against the District or its employees is filed or threatened, the District will take all reasonable action to preserve all documents and records that pertain to the issue.

As soon as the District is made aware of pending or threatened litigation, a litigation hold directive will be issued by the records officer or designee. The directive will be given to all persons suspected of having records that may pertain to the litigation issue.

Employees who receive notice of a litigation hold are to preserve all records that pertain to the litigation issue. This includes preserving electronic messages that would otherwise be deleted by the computer system; such messages are to be converted by the recipients of the litigation hold to hard copy (printed) or electronic format which can be retrieved and interpreted (downloaded) for the duration of the litigation hold.

No employee who has been notified of a litigation hold may alter or delete an electronic or other record that falls within the scope of the hold. Violation of the litigation hold may subject the employee to disciplinary actions, up to and including dismissal, as well as personal liability for civil and/or criminal sanctions by the courts or law enforcement agencies.

SANITATION, HEALTH, AND ROOM MAINTENANCE

Substitute Teachers are expected to engage in keeping a sanitary classroom. This includes directing students in the process of regularly sanitizing desks, counters, doorknobs, light switches, and other frequently touched surfaces, according to specific instructions given by the Building Principal or Superintendent, in addition to the regularly scheduled sanitation by the custodial staff.

Substitute Teachers may be expected to engage in monitoring student health including taking temperatures, recording health screening data, and reporting any health concerns to the school nurse or other designated individual, according to specific instructions given by the Building Principal or Superintendent.

Substitute Teachers are expected to serve as role models in meeting and complying with health practices and guidelines, including those enacted for public health purposes.

Before leaving the classroom each day, close windows, turn out all lights and lock the room. Elementary teachers, please make sure your air-conditioners are turned off when you leave. When repairs are needed, notify the principal in order for arrangements to be made for the repair.

SCHOOL BOARD POLICIES

School Board policies are made available to the staff and to the public. Please direct any questions about Board policy to the Superintendent.

STUDENT CONDUCT

A student handbook will be used to familiarize students and parents or guardians with the school's practices and procedures. Students will be given a copy of the handbook, which will explain general regulations and requirements.

Students are expected to act, dress, and conduct themselves in the school building and at school-sponsored events, in such a fashion that their behavior and dress will reflect favorably on the individual and on the school, will show consideration to fellow students, and will create a harmonious school atmosphere. All students must recognize their individual responsibilities and obligations and discharge them in accordance with the school regulations.

All staff members are responsible for overseeing the conduct of students, both during school hours and at school-sponsored events. In each instance in which an employee acts to help a student conduct him/herself properly, emphasis shall be placed upon the growth of the student and the ability to discipline him/herself.

STUDENT PASSES

Substitute Teachers should limit the amount of traffic in the hallways during class time. It is a distraction to other classes. Each student that leaves your class must have a pink pass. The student is to go directly to the designated destination and return. Please make an effort to reduce hall wandering. Students absent from your room are your responsibility. Limit restroom and drink privileges to one student leaving the room at a time. Pink passes are required for the students coming to the office for any reason.

SECTION 504 PLANS, IEP PLANS, STUDENT ASSISTANCE TEAM PLANS, DYSLEXIA PLANS, READING INTERVENTION PLANS, AND BEHAVIORAL/HEALTH PLANS

Students may have plans to receive individualized accommodations or modifications.

The regular education teacher, principal, school counselor, and special education teachers can provide guidance and strategies for substitute teachers to work with students to implement such plans.

STAFF DRESS

Staff members should be conscious of the importance of appropriateness and neatness in dress and grooming. Set a positive example about the importance of school. Dress the part of a professional educator. Business casual attire is appropriate. This includes polos, button down shirts, dress pants, khaki's, etc. The wearing of T-shirts should be limited to promotion of school spirit and messaging that supports educational initiatives and school endorsed educational causes, such as post-secondary learning promotion, “#BeKind,” and “I Love Public Schools” days. Staff attire needs to be compliant with expectations for student dress. Staff Members are permitted to wear jeans on Fridays when they have contributed to the jean scholarship program. Staff members will wear shoes at all times.

STUDENT DRESS CODE

~~The school administration and teachers encourage everyone to behave and dress in a fashion reflecting good taste and in a style appropriate for a school day or school activity. An individual's dress, personal appearance, and cleanliness, like his/her behavior, should reflect sensitivity to and a respect for others.~~

~~Student dress and personal appearance that disrupts or distracts from the educational environment of the school, is offensive, in violation of any statute, or is a health or safety hazard is not acceptable and is not permitted.~~

~~Examples of inappropriate dress: midriff blouses; low cut blouses; hats; caps; headbands; chains or straps on pants; articles displaying obscene or vulgar writing or symbols; articles displaying tobacco, alcohol, or drug advertisement; jewelry with potentially harmful accessories; any clothing in reference to membership in gangs; bandanna; sagging clothes; or tagging with gang signs or letters. Any type of shorts worn to school will reach to the middle of the thigh. Shoes and socks must be worn.~~

Teachers will send students to the office, or notify the office, if a student's clothing or dress is questionable. The final decision will rest with the administration.

~~If students are participating in extra-curricular activities or school sponsored activities, their dress or appearance will be the responsibility of the coach or sponsors.~~

Students at Hemingford Public Schools are expected to dress in a way that is appropriate for the school setting. Following a dress code is a means of helping students learn and practice differentiating between dressing for careers and recreation. Students should not dress in a manner that is reasonably forecasted to interfere with the

learning environment or teaching process in our school. Following is a list of examples of attire that will not be considered appropriate, such list is not exclusive, and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- Clothing or jewelry that is gang-related
- Clothing that shows an inappropriate amount of bare skin or underwear or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage “horse-play” or that would damage property (e.g., cleats).
- Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (non-prescription) may be allowed under circumstances where a medical condition is present, with approval of the building principal
- Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

STUDENT ERRANDS

Students are not to be sent on errands during the school hours unless by permission of the principal. Students are entrusted to our care, therefore, it is essential that we know where they are at all times. Notify the principal well in advance when you desire to go with your groups during school time on class trips.

STUDENTS - LEAVING THE ROOM

Substitute Teachers should honor excuses for leaving the room, but discourage and guard against leaving too often or unnecessarily. Only one student at a time should be out of the room and they should have a proper hall pass. Unless Substitute Teachers are careful, some pupils will take advantage and misuse a well meant privilege. Substitute Teachers must use their best judgment in cases of illness or emergencies. **It is seldom necessary for a high school pupil to be excused.** Pupils who become ill are to be reported at once to the Principal's office and sent to the nurse. Do not send ill pupils home alone. Students will phone the principal's office upon arrival at home.

STUDENT HANDBOOK

All staff members should be familiar with and know the student handbook, encouraging students to know and follow its guidelines and regulations, too.

SUPERVISION OF STUDENTS

Proper supervision of students is an important responsibility for Substitute Teachers and other adults responsible for our students. Substitute Teachers and other adults responsible for student supervision are expected to meet the following:

Proper Supervision

1. Report to all duty assignments on time.
2. Circulate through your duty area. Pay particular attention to areas and activities that pose an increased risk of injury.
3. Be vigilant while supervising students. **Never leave your students unattended**; the need to make a copy is not greater than the need to supervise your students. If an emergency requires that you leave your classroom, request that another nearby staff member cover your class, or notify the office so someone can provide assistance. If you are on recess duty, your responsibility is to supervise the students in your assigned area. When talking with other adults or students, remember that your primary duty is supervision and make sure you are aware of what all students are doing.
4. If you have seen or have been informed that a particular student has a propensity to act dangerously or in an unpredictable manner, your supervision of that student must increase with the known risk of injury. Remember, though, that this type of information may be confidential—do not share confidential information about students except with other staff who need to know the information to perform their jobs.
5. Be careful with touching students. Use of corporal punishment is prohibited at Hemingford Public Schools. Touching students should be limited to that necessary to protect the student from harm (e.g., falling from playground equipment), and that which professional educators determine appropriate for purposes of proper student relationships.
6. Be careful with your language. Profanity or abusive language should not be used by you. Be a good role model for students. If a student uses such language, you should correct the student and take such disciplinary action as is appropriate, which may include making a report to the administration.

Proper Instructions

1. Proper instructions are important to reduce the risk of injury when students undertake an activity, especially an activity that has an increased risk of harm to students.
2. Repeat the instructions on how to complete a task that has a heightened risk of danger as often as needed. Do not assume because students heard the directions once that they will be remembered.
3. When you go over safety rules with students, note it in your written records (e.g., your lesson plan book or daily reports).

4. Review playground and classroom safety rules with students at least once each semester, and note when you do it in your written records. Also, if any students are absent when you review the rules; contact the student(s) to review the same information and also note that contact in your written records.

Contact the Principal for Assistance

The principal should be contacted immediately when a situation exists which could cause injury to students or others. Examples include:

1. Student fight
2. Student health problem (fainting, bleeding, high temperature, difficulty breathing, etc.); if the office can not be immediately located, call 911 if the problem appears to be of immediate and serious concern
3. Reported incident or a suspicion that a student has a weapon or other dangerous item(s), drugs, alcohol, or other illegal substances
4. Presence of an intruder (a non-student or staff member who refuses to go to the office)

Student Searches

School staff members should notify the school principal of any situation in which a student is suspected of having an item in violation of school rules. Substitute Teachers are not to conduct searches of students or their belongings unless authorized to do so for a specific situation by the school administration.

Student Rights

Students should be treated fairly and given the same treatment without consideration of race, color, religion, gender, or disability. Students who need special accommodations should be given those accommodations as needed for them to participate in school and school activities. Further, students have the right to have their school records kept confidential. Such information should be shared only with other school staff with a need to know the information to perform their duties.

TEACHERS' WORKROOM

The work room is to be kept as neat as possible. Avoid discussing individual students in the teacher's workroom. Additionally, ensure that communications in the teacher's work room are positive and conducive to a productive and effective school climate. Parents and community members often form impressions of our schools based upon the professionalism exhibited in the school offices and in the teachers' workroom and teachers' break room. Your assistance in this is greatly appreciated.

TELEPHONE

Substitute Teachers are welcome to use the school telephone. The school telephones are not to be used for personal long distance calls. School telephones are

tax exempt and are to be used for official school business only. Substitute Teachers **will not** be called to the telephone during class time except in case of emergency.

VIDEOS

Although there are times when it is appropriate to use videos in the classroom, Teachers must make sound educational decisions when showing videos to students. Teachers are expected to follow these basic guidelines:

- The teacher has viewed the material in advance and in its entirety.
- The material is related to the curriculum; the teacher has articulated in the lesson plan the educational purpose for showing the film or video.
- The material is appropriate for the age of the students (including the movie rating, e.g., no “R-Rated videos.”)
- Written parental consent when the content or age appropriateness is unclear or undetermined.
- Comparable learning opportunities will be given to students when parents do not want their children to see a film or video.

VIDEO SURVEILLANCE

The Board of Education has authorized the use of video cameras on Hemingford School District property to ensure the health, welfare, and safety of all staff, students, and visitors to District property; and to safeguard District facilities and equipment and to further the educational process. Video cameras may be used in locations as deemed appropriate by the Superintendent.

Notice is hereby given that video surveillance may occur on District property. In the event a video surveillance recording captures a student or other building user violating school policies or rules or local, state or federal laws, the video surveillance recording may be used in appropriate disciplinary proceedings against the student or other building user and may also be provided to law enforcement agencies. Teachers may videotape instruction and other classroom activities to make available to students who were absent or who would like to otherwise review such content.

VISITORS

All visitors are to be directed to the principal’s office. This is for the preservation of classroom order as well as to protect students and staff.

Parental interest and concern should be welcomed. However, if a visitation becomes hostile, another teacher or an administrator should be present. Be prepared to support any issues you discuss with parents with sufficient documentation. Students and school employees are not to open any doors for non-school personnel, as visitors must enter through the main doors to the building and check-in at the office. School employees have the responsibility and the right to question visitors in the building.

WORK AREA SAFETY AND ACCIDENT REPORTING

All employees share in the responsibility for maintaining a safe and healthy school environment. All staff members, more specifically, the teaching staff shall avail themselves of every possible opportunity to instruct students in the safe use and

handling of any school property or equipment that could cause injury to students or school personnel. Any unsafe or unhealthy conditions in the immediate work area, building, or on the school campus should be reported immediately to the school principal. In the event of an accident to an employee, student, or visitor, the safety and care of the injured individual should be of primary concern. A written report of the incident should be made to the principal within 24 hours, if not sooner. An incident which requires the attention of medical personnel and any other incident deemed important by the principal, should be reported to the superintendent of schools.

EYE AND FACE PROTECTIVE DEVICES

Instructors or sponsors of groups using laboratories, including science, art or shop areas will be responsible for seeing that individuals or groups working with the following materials or in the following areas will wear the appropriate eye and/or face protection or other protective gear deemed appropriate:

(1) Every student and teacher in schools or other educational institutions shall be required to wear appropriate industrial-quality eye protective devices at all times while participating in or observing the following courses of instruction:

- (a) Vocational, technical, industrial arts, chemical, or chemical-physical, involving exposure to:
 - (i) Hot molten metals or other molten materials;
 - (ii) Milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials;
 - (iii) Heat treatment, tempering, or kiln firing of any metal or other materials;
 - (iv) Gas or electric arc welding or other forms of welding processes;
 - (v) Repair or servicing of any vehicle; or
 - (vi) Caustic or explosive materials; and
- (b) Chemical, physical, or combined chemical-physical laboratories involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other hazards not enumerated.

Such devices shall be furnished by the school or educational institution for all students, teachers, and visitors to shops and laboratories of such institutions. Teachers are directed to ensure that the proper devices are available and in use prior to any instruction or observation.

(2) For purposes of this section, unless the context otherwise requires, industrial-quality eye protective devices means devices which meet the standard of the American National Standard Practice for Occupational and Educational Eye and Face Protection, Z 87.1(1979) as approved by the American National Standards Institute, Inc.

SELECTED BOARD POLICIES

EMPLOYEE GRIEVANCES - 0402.05

School employees are encouraged to solve difficulties and problems within the school or department in which they are employed. In the event that a difficulty or grievance cannot be settled within the school or department, the employee is encouraged to bring the matter to the attention of the district administrator in charge of certificated personnel. This grievance procedure serves to secure, at the lowest possible administrative or supervisory level, proper and equitable solutions to grievance, and to guarantee orderly succession of procedures within which solutions may be pursued. School personnel are encouraged to ask their immediate supervisor for assistance on any matters that relate to their duties.

It will be incumbent upon all district employees to follow these procedures to settle their grievances. Within this general framework the following specific purposes are to be served by this grievance procedure:

1. To ensure that a complaint is considered fairly, with all due speed and without prejudice or reprisal to the aggrieved person.
2. To encourage teacher expression regarding conditions that affects him or her professionally.
3. To provide a specific procedure that will facilitate the understanding of district policies that affect teachers.
4. To build confidence in the sincerity and integrity of the procedure as a means to establish the facts upon which a grievance is based and a fair conclusion is reached.

Nothing in this policy shall contradict the requirements stated in the Negotiated Contract between employees in that certified collective bargaining unit and the board.

STAFF CONDUCT WITH STUDENTS - 0402.15

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members

also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Any type of sexual or inappropriate physical contact with students or any other conduct that might be considered harassment under the Board's policy on Harassment By Employees;
- Singling out a particular student or students for personal attention and friendship beyond the normal teacher-student relationship;
- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;
- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;
- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and

- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;
- Maintaining personal contact with a student outside of school by phone, email, Instant Messenger or Internet chat rooms, social networking websites, or letters (beyond homework or other legitimate school business);
- Exchanging personal gifts (beyond the customary student teacher gifts); and/or
- Socializing or spending time with students (including but not limited to activities such as going out for meals or movies, shopping, traveling, and recreational activities) outside of school sponsored events or except as participants in organized community activities.

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

This policy shall be included in future employee, student and volunteer handbooks.

APPENDIX A: CHAIN OF COMMAND, CONFLICT RESOLUTION, AND COMMUNICATION

HEMINGFORD PUBLIC SCHOOLS

Chain of Command

Directives for School Personnel

Conflict Resolution Responsibilities:

All school employees have a responsibility to ensure individuals are directed to the appropriate source for resolving their conflicts. If people complain about decisions, practices, or staff members, direct them to the person with whom they have an issue. If they have already addressed the issue with that person, guide them to the next level in the chain of command. Avoid sympathizing with those who do not follow proper channels, as this erodes trust and undermines effective team dynamics.

Speaking Well of Others:

Except during necessary evaluations or assessments, school employees are to avoid making unkind or critical remarks about any employee, student, parent, or administrator. Blaming others when things do not go well erodes trust and undermines the collaborative culture in our schools.

2. **Look beyond the incident:** Understand the broader context and underlying issues.
3. **Request solutions:** Write down the specific solution you are seeking and share it with the person involved.
4. **Identify solutions both disputants can support:** Find common ground and mutually agreeable solutions.
5. **Agreement:** Reach a final agreement that resolves the conflict.

Additional Guidelines:

- Address the person directly in a respectful and constructive manner.
- Arrange meetings in a place free of distractions, possibly with a mediator or facilitator if needed.
- Consider using a hearing officer or mediation framework for more complex conflicts.
- Encourage all parties to participate in good faith and with a collaborative mindset.

505.03 - STUDENT DISCIPLINE

Student Discipline

A. Development of Uniform Discipline System. It shall be the responsibility of the Superintendent to develop and maintain a system of uniform discipline. The discipline which may be imposed includes actions which are determined to be reasonably necessary to aid the student, to further school purposes, or to prevent interference with the educational process, such as (without limitation) counseling and warning students, parent contacts and parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling upon written consent of the parent or guardian, or in-school suspension. The discipline may also include out-of-school suspension (short-term or long-term) and expulsion.

1. Short-Term Suspension: Students may be excluded by the Principal or the Principal's designee from school or any school function for a period of up to five school days (short-term suspension) on the following grounds:

- a. Conduct that constitutes grounds for expulsion, whether the conduct occurs on or off school grounds; or
- b. Other violations of rules and standards of behavior adopted by the Board of Education or the administrative or teaching staff of the school, which occur on or off school grounds, if such conduct interferes with school purposes or there is a nexus between such conduct and school.

The following process will apply to short-term suspensions:

- a. The Principal or the Principal's designee will make a reasonable investigation of the facts and circumstances. A short-term suspension will be made upon a determination that the suspension is necessary to help any student, to further school purposes, or to prevent an interference with school purposes.
- b. Prior to commencement of the short-term suspension, the student will be given oral or written notice of the charges against the student. The student will be advised of what the student is accused of having done, an explanation of the evidence the authorities have, and be afforded an opportunity to explain the student's version of the facts.
- c. Within 24 hours or such additional time as is reasonably necessary, not to exceed an additional 48 hours, following the suspension, the Principal or administrator will send a written statement to the student and the student's parent or guardian describing the student's conduct, misconduct or violation of the rule or standard and the reasons for the action taken.

- d. An opportunity will be given to the student, and the student's parent or guardian, to have a conference with the Principal or administrator ordering the short-term suspension before or at the time the student returns to school. The Principal or administrator shall determine who in addition to the parent or guardian is to attend the conference. The Principal shall document their attempt to make a reasonable effort to hold a conference with the parent or guardian.
- e. A student who is on a short-term suspension shall not be permitted to be on school grounds without the express permission of the Principal.

2. Long-Term Suspension: A long-term suspension means an exclusion from school and any school functions for a period of more than five school days but less than twenty school days. A student who is on a long-term suspension shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends a long-term suspension. The notice will include a description of the procedures for long-term suspension; the procedures will be those set forth in the Student Discipline Act.

3. Expulsion:

a. Meaning of Expulsion. Expulsion means exclusion from attendance in all schools, grounds and activities of or within the system for a period not to exceed the remainder of the semester in which it took effect unless the misconduct occurred (a) within ten school days prior to the end of the first semester, in which case the expulsion shall remain in effect through the second semester, or (b) within ten school days prior to the end of the second semester, in which case the expulsion shall remain in effect for summer school and the first semester of the following school year, or (c) unless the expulsion is for conduct specified in these rules or in law as permitting or requiring a longer removal, in which case the expulsion shall remain in effect for the period specified therein. Such action may be modified or terminated by the school district at any time during the expulsion period. A student who has been expelled shall not be permitted to be on school grounds without the express permission of the Principal. A notice will be given to the student and the parents/guardian when the Principal recommends an expulsion. The notice will include a description of the procedures for expulsion; the procedures will be those set forth in the Student Discipline Act.

b. Suspensions Pending Hearing. When a notice of intent to discipline a student by long-term suspension, expulsion, or mandatory reassignment is filed with the superintendent, the student may be suspended by the principal until the date the long-term suspension, expulsion, or mandatory reassignment takes effect if the principal determines that the student must be suspended immediately to prevent or substantially reduce the risk of (a) interference with an educational function or school purpose or (b) a personal injury to the student himself or herself, other students, school employees, or school volunteers. If the student is suspended pending the outcome of the hearing, the student may complete classwork and homework, including, but not limited to,

examinations, missed during the period of suspension. During this period, the student will not be required to attend the alternative programs for expelled students in order to complete classwork or homework.

c. Summer Review. Any expulsion that will remain in effect during the first semester of the following school year will be automatically scheduled for review before the beginning of the school year in accordance with law.

d. Alternative Education: Students who are expelled may be offered an alternative education program that will enable the student to continue academic work for credit toward graduation. A student will not be required to attend the alternative education program in order to complete classwork and homework. In the event an alternative education program is not provided, a conference will be held with the parent, student, the Principal or another school representative assigned by the Principal, and a representative of a community organization that assists young people or that is involved with juvenile justice to develop a plan for the student in accordance with law.

e. Suspension of Enforcement of an Expulsion: Enforcement of an expulsion action may be suspended (i.e., “stayed”) for a period of not more than one full semester in addition to the balance of the semester in which the expulsion takes effect. As a condition of such suspended action, the student and parents will be required to sign a discipline agreement.

f. Students Subject to Juvenile or Court Probation. Prior to the readmission to school of any student who is less than nineteen years of age and who is subject to the supervision of a juvenile probation officer or an adult probation officer pursuant to the order of the District Court, County Court, or Juvenile Court, who chooses to meet conditions of probation by attending school, and who has previously been expelled from school, the Principal or the Principal’s designee shall meet with the student’s probation officer and assist in developing conditions of probation that will provide specific guidelines for behavior and consequences for misbehavior at school (including conduct on school grounds and conduct during an educational function or event off school grounds) as well as educational objectives that must be achieved. If the guidelines, consequences, and objectives provided by the Principal or the Principal’s designee are agreed to by the probation officer and the student, and the court permits the student to return to school under the agreed to conditions, the student may be permitted to return to school. The student may with proper consent, upon such return, be evaluated by the school for possible disabilities and may be referred for evaluation for possible placement in a special education program. The student may be expelled or otherwise disciplined for subsequent conduct as provided in Board policy and state statute.

g. Returning from Expulsion. At the conclusion of an expulsion, the District will reinstate the student and accept nonduplicative, grade-appropriate credits earned by the

student during the term of expulsion from any Nebraska accredited institution or institution accredited by one of the six regional accrediting bodies in the United States.

h. Exception for Pre-Kindergarten through Second Grade Students.

Notwithstanding the foregoing, no pre-kindergarten through second grade student may be suspended from school, unless the student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity. Instead, the Principal or Principal's designee may implement alternative disciplinary measures on a case-by-case basis if a pre-kindergarten through second grade student engages in misconduct that would otherwise result in a short-term suspension. If a pre-kindergarten through second grade student brings a deadly weapon on school grounds, in a school vehicle, or to a school activity, then the student may be suspended or expelled in accordance with this Policy's disciplinary procedures.

i. Religious Freedom. The District will not substantially burden a student's right to religious exercise unless the student's religious exercise is disruptive to the school environment, not permitted by staff, may pose a safety risk, or would otherwise interfere with the school day.

4. Emergency Exclusion: A student may be excluded from school in the following circumstances:

- a. If the student has a dangerous communicable disease transmissible through normal school contacts and poses an imminent threat to the health or safety of the school community; or
- b. If the student's conduct presents a clear threat to the physical safety of himself, herself, or others, or is so extremely disruptive as to make temporary removal necessary to preserve the rights of other students to pursue an education.

Any emergency exclusion shall be based upon a clear factual situation warranting it and shall last no longer than is necessary to avoid the dangers described above.

If the emergency exclusion will be for five school days or less, the procedures for a short-term suspension shall be followed. If the Superintendent or his or her designee determines that an emergency exclusion shall extend beyond five days, a hearing is to be held and a final determination made within ten school days after the initial date of exclusion. Such procedures shall substantially comply with the procedures set forth in this policy for a long-term suspension or expulsion, and be modified only to the extent necessary to accomplish the hearing and determination within this shorter time period.

5. Other Forms of Student Discipline: Administrative and teaching personnel may also take actions regarding student behavior, other than removal of students from school, which are reasonably necessary to aid the student, further school purposes, or prevent interference with the educational process. Such actions may include, but are not limited to, counseling of

students, parent conferences, rearrangement of schedules, requirements that a student remain in school after regular hours to do additional work, restriction of extracurricular activity, or requirements that a student receive counseling, psychological evaluation, or psychiatric evaluation upon the written consent of a parent or guardian to such counseling or evaluation. The actions may also include in-school suspensions. When in-school suspensions, after-school assignments, or other disciplinary measures are assigned, the student is responsible for complying with such disciplinary measures. A failure to serve such assigned discipline as directed will serve as grounds for further discipline, up to expulsion from school.

B. Student Conduct Expectations. Students are not to engage in conduct which causes or which creates a reasonable likelihood that it will cause a substantial disruption in or material interference with any school function, activity or purpose or interfere with the health, safety, well being or rights of other students, staff or visitors.

C. Grounds for Short-Term Suspension, Long-Term Suspension, Expulsion or Mandatory Reassignment. The following conduct has been determined by the Board of Education to have the potential to seriously affect the health, safety or welfare of students, staff and other persons or to otherwise seriously interfere with the educational process. Such conduct constitutes grounds for long-term suspension, expulsion, or mandatory reassignment, and any other lesser forms of discipline. The conduct is subject to the consequence of long-term suspension, expulsion, or mandatory reassignment where it occurs on school grounds, in a vehicle owned, leased, or contracted by the school and being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or an employee's designee, or at a school-sponsored activity or athletic event.

1. Use of violence, force, coercion, threat, intimidation, or similar conduct in a manner that constitutes a substantial interference with school purposes;
2. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property of substantial value, or repeated damage or theft involving property;
3. Causing or attempting to cause personal injury to a school employee, to a school volunteer, or to any student. Personal injury caused by accident, self-defense, or other action undertaken on the reasonable belief that it was necessary to protect some other person shall not constitute a violation of this subdivision;
4. Threatening or intimidating any student for the purpose of or with the intent of obtaining money or anything of value from such student or making a threat which causes or may be expected to cause a disruption to school operations;
5. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon (see also board policy on weapons and firearms) or that has the appearance of a weapon or bringing or possessing any explosive device, including fireworks.;

7. Public indecency as defined in section 28-806, except that this prohibition shall apply only to students at least twelve years of age but less than nineteen years of age or sexual conduct. This includes "deep fakes" or other computer-generated images of other students or staff intended to bully, harass, intimidate, or humiliate another student or staff member.
8. Engaging in bullying as defined in section 79-2,137 and in these policies which includes any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or a school employee's designee, or at school-sponsored activities or school-sponsored athletic events;
9. Sexually assaulting or attempting to sexually assault any person if a complaint has been filed by a prosecutor in a court of competent jurisdiction alleging that the student has sexually assaulted or attempted to sexually assault any person, including sexual assaults or attempted sexual assaults that occur off school grounds not at a school function, activity, or event. For purposes of this subdivision, sexual assault means sexual assault in the first degree as defined in section 28-319, sexual assault in the second degree as defined in section 28-320, sexual assault of a child in the second or third degree as defined in section 28-320.01, or sexual assault of a child in the first degree as defined in section 28-319.01, as such sections now provide or may hereafter from time to time be amended;

- i. Engaging in hazing as defined by state law and this policy. Hazing is defined as any activity by which a person intentionally or recklessly endangers the physical or mental health or safety of an individual for the purpose of initiation into, admission into, affiliation with, or continued membership in any school organization. Under state criminal law, hazing activities include but are not limited to, whipping, beating, branding, an act of sexual penetration, an exposure of the genitals of the body done with the intent to affront or alarm any person, lewd fondling or caressing of the body of another person, forced and prolonged calisthenics, prolonged exposure to the elements, forced consumption of any food, liquor, beverage, drug, or harmful substance not generally intended for human consumption, prolonged sleep deprivation, or any brutal treatment or the performance of any unlawful act that endangers the physical or mental health or safety of any person. For purposes of school rules, hazing also includes any activity expected of someone joining a group, team, or activity that humiliates, degrades, or risks emotional and/or physical harm, regardless of the person's willingness to participate; personal servitude; restrictions on personal hygiene; yelling, swearing and insulting new members/rookies; being forced to wear embarrassing or humiliating attire in public; consumption of vile substances or smearing of such on one's skin; binge drinking and drinking games; sexual stimulation and sexual assault;
- j. Bullying which shall include cyber-bullying, defined as the use of the internet, including but not limited to social networking sites such as Facebook, cell phones and electronic devices (including earbuds) or other devices to send, post, or text message images and material intended to hurt or embarrass another person. This may include, but is not limited to; continuing to send emails to someone who has said they want no further contact with the sender; sending or

posting threats, sexual remarks, or pejorative labels (i.e., hate speech); ganging up on victims by making them the subject of ridicule in forums, and posting false statements as fact intended to humiliate the victim; disclosure of personal data, such as the victim's real name, address, or school at websites or forums; posing as the identity of the victim for the purpose of publishing material in their name that defames or ridicules them; sending threatening and harassing text, instant messages or emails to the victims; and posting or sending rumors or gossip to instigate others to dislike and gang up on the target;

- k. Violation of the district's computer acceptable computer use policy is subject to discipline, up to and including expulsion; and
 - l. Any other violation of a rule or regulation established by a school district staff member pursuant to authority delegated by the board.
12. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
- ~~13. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to students or staff members. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, disability, national origin, or religion.~~
- ~~14. Dressing or grooming in a manner which is dangerous to the student's health and safety or a danger to the health and safety of others or repeated violations of the student dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.~~
- ~~15. Willfully violating the behavioral expectations for riding school buses or vehicles.~~
16. A student who engages in the following conduct shall be expelled for the remainder of the school year in which it took effect if the misconduct occurs during the first semester, and if the expulsion for such conduct takes place during the second semester, the expulsion shall remain in effect for the first semester of the following school year, with the condition that such action may be modified or terminated by the school district during the expulsion period on such terms as the administration may establish:
- a. The knowing and intentional use of force in causing or attempting to cause personal injury to a school employee, school volunteer, or student, except if caused by accident, self-defense, or on the reasonable belief that the force used was necessary to protect some other person and the extent of force used was reasonably believed to be necessary, or
 - b. The knowing and intentional possession, use, or transmission of a dangerous weapon other than a firearm.
17. Knowingly and intentionally possessing, using, or transmitting a firearm on school grounds, in a school-owned or utilized vehicle, or during an educational function or event off school grounds, or at a school-sponsored activity or athletic event. This conduct shall result in an expulsion for one calendar year. "Firearm" means a firearm as defined in 18

U.S.C. 921, as that statute existed on January 1, 1995. That statute includes the following statement: "The term 'firearm' means (a) any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; (b) the frame or receiver of any such weapon; (c) any firearm muffler or firearm silencer; or (d) any destructive device." The Superintendent may modify such one year expulsion requirement on a case-by-case basis, provided that such modification is in writing.

Bringing a firearm or other dangerous weapon to school for any reason is discouraged; however, a student will not be subject to disciplinary action if the item is brought or possessed under the following conditions:

- a. Prior written permission to bring the firearm or other dangerous weapon to school is obtained from the student's teacher, building administrator and parent.
- b. The purpose of having the firearm or other dangerous weapon in school is for a legitimate educational function.
- c. A plan for its transportation into and from the school, its storage while in the school building and how it will be displayed must be developed with the prior written approval by the teacher and building administrator. Such plan shall require that such item will be in the possession of an adult staff member at all times except for such limited time as is necessary to fulfill the educational function.
- d. The firearm or other dangerous weapon shall be in an inoperable condition while it is on school grounds.

For purposes of this policy, the term "dangerous weapon" includes any personal safety or security device (such as tasers, mace and pepper spray). If a student desires to carry or possess a personal safety or security device, the student must obtain prior approval from the building principal before bringing such device on school grounds. If a student obtains prior approval from the building principal, the student must store the device during the school day in the student's locker, in the main office or in another secure location designated by the building principal. A student shall not carry a personal safety or security device during the school day.

D. Additional Student Conduct Expectations and Grounds for Discipline. The following additional student conduct expectations are established. Failure to comply with such rules is grounds for disciplinary action. When such conduct occurs on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose or in a vehicle being driven for a school purpose by a school employee or by his or her designee, or at a school-sponsored activity or athletic event, the conduct is grounds for long-term suspension, expulsion or mandatory reassignment.

1. Student Appearance: Students are expected to dress in a way that is appropriate for the school setting. Students should not dress in a manner that ~~is dangerous to the health and safety of anyone or is reasonably forecasted to interfere~~ with the learning environment or teaching process in our school. Following is a list of examples of attire that will not be

considered appropriate, such list is not exclusive and other forms of attire deemed inappropriate by the administration may be deemed inappropriate for the school setting:

- a. Clothing or jewelry that is gang-related
- b. Clothing that shows an inappropriate amount of bare skin or underwear (~~midriffs, spaghetti straps, sagging pants~~) or clothing that is too tight, revealing or baggy, or tops and bottoms that do not overlap or any material that is sheer or lightweight enough to be seen through, or otherwise of an appropriate size and fit so as to be revealing or drag on the ground
- c. Clothing or jewelry that advertises alcohol, tobacco, or illegal drugs
- d. Clothing or jewelry that could be used as a weapon (chains, spiked apparel) or that would encourage "horse-play" or that would damage property (e.g. cleats).
- e. Headwear including hats, caps, bandannas, hoodie hoods, scarves, and non-prescription glasses/sunglasses; Hats/headcover/glasses (none prescription) may be allowed under circumstances where a medical condition is present with approval of the building principal
- f. Clothing or jewelry which exhibits nudity, makes sexual references or carries lewd, indecent, or vulgar double meaning.
- g. Clothing or jewelry displaying words or images that carry double meanings or profanity (bad words) in writing, pictures or slogans.
- ~~h. Visible body piercing (other than ears)~~
- i. Shorts of mid-thigh length, or longer, may be worn during the periods of daylight savings time only for K-6. Grades 7-12 may wear shorts that meet this guideline year-round.
- j. Costumes and/or clothing intended for entertaining or special occasions may only be worn on days approved by the building principal.
- k. Sleepwear of any kind (no slippers, pajama pants, or blankets). These items may only be worn or brought on days approved by the building principal.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any location where the student is authorized to be on such school grounds or at any school function, as long as the tribal regalia does not interfere with the educational process and does not endanger another person, as determined by the administration. Further, students will also be permitted to wear attire, including religious attire, natural and protective hairstyles, adornments, or other characteristics associated with race, national origin, or religion, as long as the attire does not interfere with the educational process and does not endanger another person, as determined by the administration.

No student shall be disproportionately affected by a dress code or grooming policy enforcement because of the student's gender, race, color, religion, disability, or national origin.

No school staff shall permanently or temporarily alter or cut a student's hair.

Consideration will be made for students who wear special clothing as required by religious beliefs, disability, or to convey a particularized message protected by law. The final decision regarding attire and grooming will be made by the Principal or Superintendent. In the event a student is uncertain as to whether a particular item or method of grooming is consistent with the school's guidelines, the student should contact the Principal for approval, and may also review such additional posting of prohibited items or grooming which may be available in the Principal's office.

A student dress code violation will be treated as a minor rule violation and may not require the student to miss substantial classroom time, instructional time, or school activities. However, a repeated violation of school rules may subject the student to further discipline, as outlined in this Policy.

Coaches, sponsors or teachers may have additional requirements for students who are in special lab classes, students who are participants in performing groups or students who are representing the school as part of an extracurricular activity program.

Students wearing inappropriate clothing will be required to change. Time missed from school or class will consequently be required to be made up two-fold. Additional violations will result in further disciplinary action. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in discipline, up to expulsion.

~~On a first offense of the dress code, the student may call home for proper apparel. If clothes cannot be brought to school, the student will be assigned to in-school suspension for the remainder of the day. Students will not be allowed to leave campus to change clothes. Continual violations of the dress code will result in more stringent disciplinary actions, up to expulsion. Further, in the event the dress code violation is determined to also violate other student conduct rules (e.g., public indecency, insubordination, expression of profanity, and the like), a first offense of the dress code may result in more stringent discipline, up to expulsion.~~

2. Academic Integrity.

a. Policy Statement: Students are expected to abide by the standards of academic integrity established by their teachers and school administration. Standards of academic integrity are established in order for students to learn as much as possible from instruction, for students to be given grades which accurately reflect the student's level of learning and progress, to provide a level playing field for all students, and to develop appropriate values.

Cheating and plagiarism violate the standards of academic integrity. Sanctions will be imposed against students who engage in such conduct.

b. Definitions: The following definitions provide a guide to the standards of academic integrity:

(1) "Cheating" means intentionally misrepresenting the source, nature, or other conditions of academic work so as to accrue undeserved credit, or to cooperate with someone else in such misrepresentation. Such misrepresentations may, but need not necessarily, involve the work of others. Cheating includes, but is not limited to:

(a) Tests (includes tests, quizzes and other examinations or academic performances):

(i) Advance Information: Obtaining, reviewing or sharing copies of tests or information about a test before these are distributed for student use by the instructor. For example, a student engages in cheating if, after having taken a test, the student informs other students in a later section of the questions that appear on the test.

(ii) Use of Unauthorized Materials: Using notes, textbooks, pre-programmed formulae in calculators, or other unauthorized material or AI (artificial intelligence) systems, devices, or information while taking a test except as expressly permitted.

For example, except for "open book" tests, a student engages in cheating if the student looks at personal notes or the textbook during the test.

(iii) Use of Other Student Answers: Copying or looking at another student's answers or work, or sharing answers or work with another student, when taking a test, except as expressly permitted. For example, a student engages in cheating if the student looks at another student's paper during a test. A student also engages in cheating if the student tells another student answers during a test or while exiting the testing room, or knowingly allows another student to look at the student's answers on the test paper.

(iv) Use of Other Student to Take Test. Having another person take one's place for a test, or taking a test for another student, without the specific knowledge and permission of the instructor.

(v) Misrepresenting Need to Delay Test. Presenting false or incomplete information in order to postpone or avoid the taking of a test. For example, a student engages in cheating if the student misses class on the day of a test, claiming to be sick, when the student's real reason for missing class was because the student was not prepared for the test.

(b) Papers (includes papers, essays, lab projects, and other similar academic work):
i) Use of Another's Paper: Copying another student's paper, using a paper from an essay writing service, or allowing another student to copy a paper, without the specific knowledge and permission of the instructor.

(ii) Re-use of One's Own Papers: Using a substantial portion of a piece of work previously submitted for another course or program to meet the requirements of the present course or program without notifying the instructor to whom the work is presented.

(iii) Assistance from Others: Having another person assist with the paper to such an extent that the work does not truly reflect the student's work. For example, a student engages in cheating if the student has a draft essay reviewed by the student's parent or sibling, and the essay is substantially re-written by the student's parent or sibling. Assistance from home is encouraged, but the work must remain the student's. Likewise, using material generated through an AI (artificial intelligence) system and submitting it as original work is considered cheating.

(iv) Failure to Contribute to Group Projects. Accepting credit for a group project in which the student failed to contribute a fair share of the work.

(v) Misrepresenting Need to Delay Paper. Presenting false or incomplete information in order to postpone or avoid turning in a paper when due. For example, a student engages in cheating if the student misses class on the day a paper is due, claiming to be sick, when the student's real reason for missing class was because the student had not finished the paper.

(c) Alteration of Assigned Grades. Any unauthorized alteration of assigned grades by a student in the teacher's grade book or the school records is a serious form of cheating.

(2) "Plagiarism" means to take and present as one's own a material portion of the ideas or words of another or to present as one's own an idea or work derived from an existing source without full and proper credit to the source of the ideas, words, or works. Plagiarism includes, but is not limited to:

(a) Failure to Credit Sources: Copying work (words, sentences, and paragraphs or illustrations or models) directly from the work of another without proper credit. Academic work frequently involves use of outside sources. To avoid plagiarism, the student must either place the work in quotations or give a citation to the outside source.

(b) Falsely Presenting Work as One's Own: Presenting work prepared by another in final or draft form as one's own without citing the source, such as the use of purchased research papers or use of another student's paper.

(3) "Contributing" to academic integrity violations means to participate in or assist another in cheating or plagiarism. It includes but is not limited to allowing another student to look at your test answers, to copy your papers or lab projects, and to fail to report a known act of cheating or plagiarism to the instructor or administration.

c. Sanctions: The following sanctions will occur when a student engages in cheating, plagiarism, or contributing to an academic integrity offense:

(1) Academic Sanction. The instructor will refuse to accept the student's work in which the academic integrity offense took place, assign a grade of "F" or zero for the work, and require the student to complete a test or project in place of the work within such time and under such conditions as the instructor may determine appropriate. In the event the student completes the replacement test or project at a level meeting minimum performance standards, the instructor will assign a grade which the instructor determines to be appropriate for the work.

(2) Report to Parents and Administration. The instructor will notify the Principal of the offense and the instructor or Principal will notify the student's parents or guardian.

(3) Student Discipline Sanctions. Academic integrity offenses are a violation of school rules. The Principal may recommend sanctions in addition to those assigned by the instructor, up to and including suspension or expulsion. Such additional sanctions will be given strong consideration where a student has engaged in serious or repeated academic integrity offense or other rule violations, and where the academic sanction is otherwise not a sufficient remedy, such as for offenses involving altering assigned grades or contributing to academic integrity violations.

3. Electronic Devices

a. Philosophy and Purpose. The District strongly discourages students from bringing and/or using electronic devices at school. The use of electronic devices can be disruptive to the educational process and are items that are frequently lost or stolen. In order to maintain a secure and orderly learning environment, and to promote respect and courtesy regarding the use of electronic devices, the District hereby establishes the following rules and regulations governing student use of electronic devices, and procedures to address student misuse of electronic devices.

b. Definitions.

(1) "Electronic devices" include, but are not limited to, cell phones, Mp3 players, iPods, personal digital assistants (PDAs), compact disc players, portable game

consoles, cameras, digital scanners, lap top computers, and other electronic or battery powered instruments which transmit voice, text, or data from one person to another.

(2) "Sexting" means generating, sending or receiving, encouraging others to send or receive, or showing others, through an electronic device, a text message, photograph, video or other medium that:

(i) Displays sexual content, including erotic nudity, any display of genitalia, unclothed female breasts, or unclothed buttocks, or any sexually explicit conduct as defined at Neb. Rev. Stat. § 28-1463.02; or

(ii) Sexually exploits a person, whether or not such person has given consent to creation or distribution of the message, photograph or video by permitting, allowing, encouraging, disseminating, distributing, or forcing such student or other person to engage in sexually explicit, obscene or pornographic photography, films, or depictions; or,

(iii) Displays a sexually explicit message for sexual gratification, flirtation or provocation, or to request or arrange a sexual encounter.

c. Possession and Use of Electronic Devices.

(1) Students are not permitted to possess or use any electronic devices during class time or during passing time except as otherwise provided by this policy. Cell phone usage is strictly prohibited during any class period; including voice usage, digital imaging, or text messaging.

(2) Students are permitted to possess and use electronic devices before school hours, at lunch time, and after school hours, provided that the student not commit any abusive use of the device (see paragraph (d)(1)). Administrators have the discretion to prohibit student possession or use of electronic devices on school grounds during these times in the event the administration determines such further restrictions are appropriate; an announcement will be given in the event of such a change in permitted use.

(3) Electronic devices may be used during class time when specifically approved by the teacher or a school administrator in conjunction with appropriate and authorized class or school activities or events (i.e., student use of a camera during a photography class; student use of a lap top computer for a class presentation).

(4) Students may use electronic devices during class time when authorized pursuant to an Individual Education Plan (IEP), a Section 504 Accommodation Plan, or a Health Care Plan, or pursuant to a plan developed with the student's parent when the student has a compelling need to have the device (e.g., a student whose parent is in the hospital could be allowed limited use of the cell phone for family contacts, so the family can give the student updates on the parent's condition).

d. Violations

(1) Prohibited Use of Electronic Devices: Students shall not use electronic devices for: (a) activities which disrupt the educational environment; (b) illegal activities in violation of state or federal laws or regulations; (c) unethical activities,

such as cheating on assignments or tests; (d) immoral or pornographic activities; (e) activities in violation of Board or school policies and procedures relating to student conduct and harassment; (f) recording others (photographs, videotaping, sound recording, etc.) or otherwise transmitting images and/or sounds of another person or persons without direct administrative approval and consent of the person(s) being recorded, other than recording of persons participating in school activities that are open to the public; (g) "sexting;" or (h) activities which invade the privacy of others. Such student misuses will be dealt with as serious school violations, and immediate and appropriate disciplinary action will be imposed, including, but not limited to, suspension and expulsion from school.

(2) Disposition of Confiscated Electronic Devices: Electronic devices possessed or used in violation of this policy may be confiscated by school personnel and returned to the student or parent/guardian at an appropriate time. If an electronic device is confiscated, the electronic device shall be taken to the school's main office to be identified, placed in a secure area, and returned to the student and/or the student's parent/guardian in a consistent and orderly way.

(i) First Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student personally comes to the school's main office and retrieves the electronic device.

(ii) Second Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration and a conference between the student and his/her parent/guardian and the school principal or assistant principal. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(iii) Third Violation: Depending upon the nature of the violation and the imposition of other appropriate disciplinary action, consequences at a minimum may include a relinquishment of the electronic device to the school administration, a conference between the student and his/her parent/guardian and the school principal or assistant principal, and suspension of the student from school. The electronic device shall remain in the possession of the school administration until such time as the student's parent/guardian personally comes to the school's main office and retrieves the electronic device.

(3) Penalties for Prohibited Use of Electronic Devices: Students who receive a "sexting" message are to report the matter to a school administrator and then delete such message from their electronic device. Students shall not participate in sexting or have any "sexting" message on their electronic devices regardless of when the message was received while on school grounds or at a school activity. Students who

violate the prohibitions of this policy shall be subject to the imposition of appropriate disciplinary action, up to and including expulsion, provided that at a minimum the following penalties shall be imposed:

- (i) Students found in possession of a “sexting” message shall be subject to a one (1) day suspension from school.
- (ii) Students who send or encourage another to send a “sexting” message shall be subject to a five (5) day suspension from school.

(4) Reporting to Law Enforcement: Violations of this policy regarding the prohibited use of electronic devices that may constitute a violation of federal or state laws and regulations, including, but not limited to, the Nebraska Child Protection Act or the Nebraska Child Pornography Prevention Act shall be reported to appropriate legal authorities and law enforcement.

e. Responsibility for Electronic Devices. Students or their parents/guardians are expected to claim a confiscated electronic device within ten (10) days of the date it was relinquished. The school shall not be responsible, financially or otherwise, for any unclaimed electronic devices. By bringing such devices to school, students and parents authorize the school to dispose of unclaimed devices at the end of each semester. The District is not responsible for the security and safekeeping of students’ electronic devices and is not financially responsible for any damage, destruction, or loss of electronic devices.

E. Inappropriate Public Displays of Affection (IPDA): Students are not to engage in inappropriate public displays of affection on school property or at school activities. Such conduct includes kissing, touching, fondling or other displays of affection that would be reasonably considered to be embarrassing or a distraction to others. Students will face the following consequences for IPDA:

- 1. 1st Offense: Student will be confronted and directed to cease.
- 2. 2nd Offense: Student will be confronted, directed to cease, and parents will be notified.
- 3. 3rd Offense: Student will be suspended from school for a minimum of 1 day, and parents and student will need to meet with Administrator(s) and/or counselor.

If this type of behavior continues, or if the IPDA is lewd or constitutes sexual conduct, the student could face long-term suspension or expulsion.

F. Specific Rule Items: The following conduct may result in disciplinary action which, in the repeated violations, may result in discipline up to expulsion:

- 1. Students in the hallway during class time must have a pass with them, and may not leave class without permission.
- 2. Students are expected to follow other classroom rules as set by individual teachers.
- 3. Lunch is to be eaten in the cafeteria/Red Zone or off campus during open campus lunchtime unless special permission is granted.
- 4. Students are expected to bring all books and necessary materials to class.

5. Assignments for all classes are due as assigned by the teacher.
6. Special classes such as Art, P.E., and computer courses will have other safety or clean-up rules that will be explained to you by that teacher which must be followed.
7. Classes are ended by the teacher. Students are not to begin to pack up or leave the class until the dismissal bell has rung or the teacher has dismissed the class.
8. Students are to be in their seats and ready for class on the tardy bell.
9. Students are not to bring "nuisance items" to school. A nuisance item is something that is not required for educational purposes and which would cause a distraction to the student or others.
10. Snow handling is prohibited.
11. Sunflower seeds, etc. are not allowed in the school building or classrooms.
12. Students are not to be in the school facilities without supervision.
13. Lying or otherwise deceiving staff or administration.
14. Willfully disobeying any reasonable written or oral request of a school staff member or voicing of disrespect to those in authority.

G. Law Violations

1. Any act of a student which is a basis for expulsion and which the principal or designee knows or suspects is a violation of the Nebraska Criminal Code will be reported to law enforcement as soon as possible. Conduct to be reported for law enforcement referral includes conduct that may constitute a felony, conduct which may constitute a threat to the safety or well-being of students or others in school programs and activities, and conduct that the legal system is better equipped to address than school officials. Conduct that does not need to be reported for law enforcement referral includes typical adolescent behavior that can be addressed by school administrators without the involvement of law enforcement. In making the decision of whether to report, consideration should be given to the student's maturity, mental capacity, and behavioral disorders, where applicable. When appropriate, it shall be the responsibility of the referring administrator to contact the student's parent of the fact that the referral to legal authorities has been or will be made.

The foregoing reporting standards shall be reviewed annually by the school board on or before August 1 of each year, be annually reviewed in collaboration with the County Attorney each year, be distributed to each student and his or her parent or guardian at the beginning of each school year, or at the time of enrollment if during the school year, and shall be posted in conspicuous places in each school during the school year.

2. When a principal or other school official releases a minor student to a peace officer (e.g., police officer, sheriff, and all other persons with similar authority to make arrests) for the purpose of removing the minor from the school premises, the principal or other school official shall take immediate steps to notify the parent, guardian, or responsible relative of the minor regarding the release of the minor to the officer and regarding the place to which the minor is reportedly being taken, except when a minor has been taken into custody as a victim of suspected child abuse, in which case the principal or other school official shall provide the peace officer with the address and telephone number of the minor's parents or guardian.

- **New Birth-3 Referral** - We have a new B-3 Referral for evaluation. In Nebraska, schools are required to provide services for children with disabilities from birth until the end of the school year in which the student turns 21. The Early Development Network (EDN) is the umbrella state agency that oversees these services in coordination with the Nebraska Department of education. Public schools are required to provide services and supports based on the needs of children birth to age three and their families. These services must address what families think is important for their child and family. The goal of the Early Development Network is to provide coordinated services for Nebraska families as conveniently as possible. B-3 services must occur year round, even during the summer and while the public school is

on break. NDE has even suggested that school personnel must conduct the meetings for B-3 students in the evenings and on Saturdays if that is what the family requires. The program helps families to understand their child's disability and provides assistance in dealing with situations that interfere with the child's development. Overall, Early Intervention services are very beneficial to both the families and the school because the school can start working with children early and promote better outcomes for the child's future.

- **Non-public Consultation Meeting/Summer NDE Required Reports** - Our Non-public school consultation meeting was held on June 18, 2025, 1:30 PM, at South Campus in my office. Like every year, no one was in attendance except for me. But this NDE requirement has been met. Also, all summer NDE required reports have been submitted.
- Let me know if you have any questions, thanks so much!!

Superintendent's Report

July 14, 2025

Mission/Vision/Goals

- Our administrative team met with Dr. Julie Downing in June to conduct planning work for the upcoming school year. During the session, we reaffirmed our administrative team norms, discussed the continued implementation of classroom walkthroughs and instructional feedback, and planned individual and group coaching sessions for our team with Dr. Downing.
- We are planning to utilize the remainder of our allocated grant funds from the CSI-ATSI grant to bring back the trainer (Tonia Gibson) to help us work on the continued implementation of evidence-based instructional strategies (one of our school improvement goals).

Policy

- The policy manual has been updated as of June 17, 2025, and the changes from the June 16, 2025 board meeting have been incorporated.

Budget Planning and Management

- Financial Data is current on the [Strategic Dashboard Indicators Page](#). Here is the monthly fund balance trend report for the General Fund and Building Fund:

Educational Leadership

- We have received our Certificate of Accreditation from the Nebraska Department of Education. A copy of the certificate and accompanying letter are attached.
- Elementary summer school began on July 14th and will conclude on July 25th. I appreciate the time and work from our dedicated summer school staff.
- Five students regularly attended high school summer school and collectively recovered credit in nine courses. The students who participated in summer school have significantly improved their pathway to on-time graduation. I would like to commend Mr. Westover for his work with these students.
- Ten students participated in junior high summer school, receiving targeted support in reading and math through the IXL program, as well as the development of organizational, social-emotional, and coordination skills through the Bal-A-Vis-X program. The program incorporated a book study of *The 7 Habits of Highly Effective Teens* by Sean Covey, focusing on: (1) Be Proactive, (2) Begin with the End in Mind, (3) Put First Things First, (4) Think Win-Win, (5) Seek First to Understand, Then to Be Understood, (6) Synergize, and (7) Sharpen the Saw. I would like to commend Ms. Davies, Mrs. Horstman, Mrs. Huss, and Mrs. Gilkerson for their excellent work in supporting student growth over the summer. Here are a couple of graphic data reports Ms. Davies shared from the IXL program.

School Achievement Summary | August 1, 2024 - June 23, 2025

Hemingford Junior Senior High School

School Achievement Summary | August 1, 2024 - June 23, 2025

BUILDING MASTERY

Organizational and Cultural Leadership

- I would like to commend Coach Dean for recently attending a workshop at Bennett County on developing speed and agility in athletes. We had four athletes attend the workshop. I anticipate implementation of some of the ideas will be incorporated into the speed and agility training for our summer weight participants

Professional Leadership

- I would like to commend Molly Turek on completing the school census. Taking the census and keeping all of the associated records is an important role for educational planning and also integral to the State Apportionment component of the State of Nebraska's school funding process (as we receive a per-student allocation in February).

Community Relations

- The past couple of years, we have invited several community organizations/businesses to participate in the open house. I anticipate we will plan to make that opportunity available again during the coming year.

Board-Superintendent Relations

- The [NASB Area Membership Meeting](#) in Gering is scheduled for Wednesday, August 20th. Please let me know if you would like me to get you registered.

Strategic Plan (Highlights)

- Reporting order on these Principles is based on the Prioritization Summary:
 - **Guiding Principle III: Student and Staff Well-Being**
 - The Hope Squad is still collaborating with Dr. Mark Adler to determine a date to share a #BeKind message with our students next fall. We are scheduled for Wednesday, August 27th.
 - **Guiding Principle I: Student-Centered Learning**
 - I recently had the opportunity to conduct a review of our JAG program with Mrs. Samantha Pavelka. I have attached a copy of the report from the year-end review. She was very complimentary of our program. We look forward to working with Mr. Mo Hanks, who will serve as the western Nebraska supervisor for the JAG program next year.
 - Students in grades 7-12 have access to their 2025-2026 course schedules through PowerSchool. Our counselors will offer drop/add opportunities for high school students before the start of the school year.
 - **Guiding Principle IV: Communication and Engagement**
 - Mrs. Frost and the culture and climate committee are working to again invited community organizations to participate in our Open House, which will be from 5:30 to 7:00 on August 12th.
 - As we move into the summer, please encourage anyone new to town to stop by and enroll their kids early. That will help us ensure that we can work with parents to have all the necessary paperwork, immunizations, and other requirements in place for the start of the school year.

- **Guiding Principal II: Personnel Effectiveness**
 - We are in the process of planning back-to-school inservice training. As you know, it is always a balance of providing staff with time in their classrooms, working on new initiatives (this year, hosting our school improvement visit), and state-required training.
- **Guiding Principal V: District Resources**
 - [Facilities transitions for 2025-2026](#) school year are underway. Most of the items have been moved in to the rooms that have had the flooring work completed. Additional rooms are scheduled to be refloored this week.

Planned Professional Travel

- Administrators' Days - Kearney, July 23-25
- I plan to attend student activities as my schedule allows.
