GUIDELINES FOR THE
USE OF SCHOOL FACILITIES
NEWCASTLE PUBLIC SCHOOLS

FACILITY USE POLICY GK

The school district will make school property available for public recreation before or after normal school hours, on weekends or during school vacations. In making the determination as to whether property is available the superintendent or designee shall review current recommended local, state and federal health and safety guidelines to determine whether the district space that is requested will be able to be utilized. If a group is allowed to use school property, it will be the responsibility of the person who fills out the application for use to ensure that all appropriate steps are taken with regard to health and safety guidelines, including with regard to sanitation and cleaning. The school district will not provide supervision during these hours, and any use should be carefully monitored by parents or legal guardians.

The leasing organization or individuals using school facilities will be required to purchase a school approved general liability insurance policy or accident insurance in the amount of $2,000,000.00 for participants to cover each event sponsored by non-school groups. Such policy shall name the Newcastle Public Schools as additional insured. A certificate of insurance will be provided to the school ten (10) days prior to the date the function is to be held.

School sponsored events will have precedence of scheduling over non-school sponsored events.

The school district will not provide emergency shelter for patrons during weather emergencies. Animals will not be permitted in the school district's tornado shelter.

If the school renders emergency care, aid, shelter, or other assistance during a national disaster or catastrophic event, the school district shall not be liable for damages resulting from the rendering of the emergency are, aid, shelter or other assistance unless the damage was caused by the gross negligence or willful or wanton misconduct of the individual or entity rendering the emergency care, aid, shelter or assistance.

The board shall exercise its authority to fix and collect rentals, rates, and charges for the occupancy or use of school property in such amounts and in such manner as may be determined. See Facilities Handbook located on the school website.

Fees charged for the use of the Facilities are not rental charges but are based on the cost of operating expenses that would not otherwise have been incurred by the district. Such expenses include utilities, supplies, maintenance of facilities, wear and tear on facilities, custodial and cafeteria services, as well as clerical services necessary to process each application. Fees are subject to change as the Superintendent may deem necessary. With prior permission of the Board of Education, a fee in excess of operating expenses may be charged to an Applicant if such user is using school property as a part of a profitmaking operation or for long term usage. Such fee will be set by the Board of Education after recommendation of the Superintendent.

USE OF THIS GUIDE

This handbook contains descriptions of the types of organizations permitted to use NPS facilities, a description of those facilities, and current rates associated with facility use.

USE OF SCHOOL PROPERTY REGULATIONS

Any individual applying for the use of school property on behalf of any society, group, or organization shall be a member of such applicant group and must present written authorization from such applicant group to make such application.

It is the responsibility of the individual/organization to provide proof of liability insurance before using any facility or transportation equipment. A copy of the individual/organization's liability insurance shall be maintained on file in the district administration office.

The application must be submitted at least five(5) business days in advance.

Any school-sponsored activity will automatically take priority over any other requested use.

Payment of use fees will be made in person at the Administration Building prior to occupying the facility.

School property shall not be available on occasions or during hours that have been scheduled in advance by the various school principals for school exercises or functions in connection with regular school work.

No intoxicants or narcotics shall be used in or about school buildings, premises, and transportation equipment, including playing fields; nor shall profane language, quarreling, fighting, or gambling be permitted.

Smoking on school property is prohibited. Violations of this rule by any organization during occupancy shall be sufficient cause for denying further use of school premises to the organization. The school district's policy regarding tobacco use will be provided, which discloses the district's rules regarding tobacco products on school premises.

Juvenile organizations must have adequate adult sponsorship and supervision. The person or group receiving the permit shall be responsible in case of loss or damage.

When custodians are normally not on duty, any group using school facilities must reimburse the school for all employment costs incurred by the district for such employment of school personnel, in addition to any rental fee as prescribed. The custodian is paid at his/her time and one-half rate and will be included in applicable charges to run through NPS payroll.

In the event of severe weather, the school employee on duty will provide appropriate communication to the individual/group using school facilities utilizing the Newcastle Public School Emergency Response Procedures Manual.

All functions must close by midnight unless special arrangements have been made with the school principal.

The school district reserves the right to reschedule any or all school property for another purpose or group should a priority need arise.

During School Hours

GENERAL

1. A Certificate of Insurance with a minimum $2,000,000.00 combined single limit is required to use NPS facilities and must accompany the rental applications.

2. Automated external defibrillators are installed in every school. The location of the AED is marked on the map provided by the school. Because of the lag time that could occur between finding someone unconscious and the alarm company calling the paramedics, RESCUERS MUST ALSO CALL 911 IMMEDIATELY AFTER FINDING THE UNCONSCIOUS PERSON. NPS requires that the AED be used by someone trained in CardioPulmonary Resuscitation and AED usage.

3. The organization's supervisor or designated representative must remain on-site during the entire activity and have in his/her possession a copy of the permit or rental agreement.

4. Organizations must supply ample supervision for activities involving minors. A suggested guideline is one supervisor for every ten (10) minors. Supervisors are responsible for maintaining order and control of minors during the activity. Congregating and loitering in the hallways and other parts of the building not rented for use is strictly prohibited.

5. Organizations and the facility representative are responsible for assessing the condition of the rental space. If either the applicant or the facility representative feels that unsafe conditions exist, the facility representative will contact the NPS Director of Facilities, to make the final decision as to event continuation.

6. Organizations are responsible for all damages to buildings, equipment, grounds, and fixed assets at the current market price for materials and labor from any actions directly or indirectly arising out of or in connection with the said use of school facilities.

7. Organizations are not allowed to sublease their space.

8. Any injury must be reported to the facility representative immediately. A completed accident report will be required.

9. If a date needs to be canceled, notification must be made by the applicant not less than five (5) working days before the date requested for use.

10. Organizations will be committed to the personnel charges and time slots they have applied for, after final approval and charges have been assigned. If the organization fails to adhere to the time slots applied for, without prior notification to the facility, the organization will be billed for any costs associated with the set-up of an event, as well as the facility portion of the rental fee. If the facility use requires the presence of District and/or food service personnel, a minimum two-hour personnel charge will apply.

11. Organizations are expected to pay facility and/or personnel charges in accordance with the Rental Categories for Organizations.

12. Organizations are responsible for adhering to all provisions of this facility use policy. Organizations violating policy may be subject to the following procedure:

a. First violation - The site supervisor for the rented facility will contact the organization and notify the Assistant Superintendent.

b. Second violation – The district may choose to refuse access to district facilities for future requests.

RESPONSIBILITY OF APPLICANT REQUESTING USE OF FACILITIES

1. Cancellation policy
Applicants will be charged for all dates listed on the agreement unless a request is made not less than five (5) working days before the date for use requesting the cancellation of the agreement.

2. Billing conflicts
In the event of a billing dispute, unless there is proof that the facility was notified of the cancellation, the total amount will be due before the scheduled event.

3. Scheduling
To avoid conflicts with other groups on the practice field(s), the applicant must advise the school's facility rental contact of any changes in scheduling. Any changes to the originally agreed upon schedule must be approved through an updated facilities use agreement. All school sponsored activities will automatically take priority over any other requested use.

4. Damage to field(s)
The applicant is expected to assess the condition of field(s) with the Athletic Director before use of the field(s), and again after the last day of use. The applicant will be liable for costs incurred to repair field(s) due to extraordinary wear and tear determined by the District to have been caused by the applicant, e.g.
activities on field(s) soaked by precipitation; stationary equipment which causes undue stress on a particular area of the field(s).

The District reserves the right to cancel activities due to unsatisfactory field conditions.

5. Organizations are responsible for adhering to all provisions of this facility use policy. Organizations violating policy may be subject to the following procedure:

a. First violation - The site supervisor for the rented facility will contact the organization and notify the Assistant Superintendent.

b. Second violation – The district may choose to refuse access to district facilities for future requests.

RENTAL PROCEDURES

Individuals or organizations wishing to rent Newcastle Public Schools facilities may go to the district webpage and use the Forms and Links tab to access the Facilities Use Agreement request. The form must be submitted to the Administration building for approval. Once approved, the requestor will be contacted within three (3) business days.

INSURANCE PROVISIONS

The rental applicant shall provide a Certificate of Insurance, naming Newcastle Public Schools as additional insured.

The certificate should contain a thirty (30) day notification provision to the certificate holder before cancellation or modification of the policy.

A Certificate of Insurance with a minimum $2,000,000.00 combined single limit is required to use NPS facilities and must accompany the rental application.

SPECIAL FACILITIES

Other than typical school spaces that may be rented (classrooms, libraries, elementary gyms, elementary cafeterias, etc.), NPS rents two venues that are unique in nature and rental rates.

HIGH SCHOOL AUDITORIUM

The Newcastle High School Auditorium contains a 600-seat auditorium and a sunlit foyer. All spaces are available for rent. Special considerations for the use of this facility include; rental request submissions two weeks in advance, 72-hour cancellation notice.

This space is operated by Newcastle Public Schools for the primary purpose of serving the education needs of the children within the district. At times other than when it is in use for district activities, the facility will be available for use to all individuals, organizations, and corporations on a non-discriminatory basis under the terms and conditions set forth in this document and pursuant to a fully executed Facility Use Contract. Facility Use Contracts are not fully executed until approved by the site Administrator and/or the Assistant Superintendent.

It is the intent of NPS to promote arts education through creating opportunities for students and patrons:

1. To participate in the production of arts, experience the teamwork necessary to mount productions and to provide the instruction necessary for desiring students to work in the professional arts community upon graduation;

2. To provide the highest level of artistic entertainment possible in a state-of-the-art facility, ultimately raising the taste, appreciation, and standards of artistic productions in the community; and

3. To aid in preserving the grand heritage and promising future of our culture by staging a variety of works, from classical to contemporary, in all performing art disciplines.

The material contained within this handbook section is deemed to be an adjunct and integral part of all Facility Use Contracts for the HS Auditorium rental.

The Facilities Manager, High School Principal and the Assistant Superintendent, may by specific exception or amendment to the main body of a Facility Use Contract, alter sections of this policy to suit the unique needs of specific events. However, in the absence of written changes, all policies set forth in this document shall be in full force and effect as stated herein.

Artistic Freedom- No attempt shall be made on the part of the Newcastle Independent School District to impose prior censorship or review of the material to be presented during an event. All lessees and patrons, however, will be responsible for compliance with all local, state, and federal laws, in addition to the ordinances, policies, and regulations of NPS. Further, no performance, exhibition, or entertainment shall be given or held in the HS Auditorium, which is illegal, indecent, obscene, or immoral, or for any reason which in the sole opinion of the district admin would create a negative image or which would otherwise create public controversy.

If a performance, exhibition or entertainment is deemed by the district admin as such, NPS reserves the right to stop the event at any time. If the district admin exercises this right, all rental and other fees due to NPS will remain the property of NPS and any unpaid charges shall be considered payable to NPS. If an event performance is deemed unsuitable for some audiences, prior notification to the district admin is necessary, and it must be advertised as such during ticket sales and with notices posted in the lobby. Ultimately, the responsibility rests with parents and guardians to choose performances which are appropriate for their own children.

No Alcoholic Beverages- illegal contrabands, uncontrolled substances, no tobacco use on school premises. From time to time exemptions may occur when productions require tobacco props.

No Permanent or Indefinite Use- No organization, private school, church or group will be allowed to schedule space for permanent or indefinite use.

Electronic Devices- Ringing cellular phones and paging devices interrupt the performance and will not be tolerated. Patrons are reminded that cellular phones should be turned off upon entry into the HS Auditorium and pagers should be set to vibrate.

Flames- Open flames or any pyrotechnics in any area of the building are strictly prohibited regardless of how such flames are fueled, unless approved in advance and in writing by the City of Newcastle Fire Department. Proof of this permission must be submitted with the Facility Use Contract.

Invitational Dress Rehearsals- As a general rule, the NPS does not encourage lessees to invite or allow people to attend rehearsals, whether or not there is a charge for such attendance. Lessees should be warned that having an audience legally constitutes a performance, regardless of the number attending, and could result in paying both royalties and performance rental fees. **Lost Articles**- The NPS admin or a designated representative shall have the sole right to collect and to have custody of articles left in the auditorium by persons attending events. The district will make every effort to reunite such articles with their owners; provided, however, that the district will not be responsible for incurring any cost for returning lost articles to their owners. After a reasonable period of time (not less than thirty days), all unclaimed articles shall become the property of the Newcastle Independent School District to do with or dispose of as its representatives shall deem fit.

Public Announcements- Lessor reserves the right to make public announcements during intermissions and other times as will not unreasonably interfere with lessee's performances. Said public announcements may relate briefly to future attractions at NPS or the welfare and safety of those attending the event. Lessee is prohibited from making public announcements other than those which pertain to the event for which this agreement is made without prior written approval of the lessor.

Weapons- The performance use of weapons, including but not limited to pistols, rifles, shotguns, knives, and swords, will not be permitted.

Scheduling and Requirements

Hours- The Administration office will be open normal business hours Monday through Thursday from 7:30 AM until 4:30 PM, throughout the school calendar year. Summer hours will be posted. Facilities Usage request may be submitted during this time.

Master Calendar- The district will maintain a current school term master calendar from July 1 through June 30 and will accept reservations in the following priority: 1) school district events, 2) non-profit educational events, 3) commercial events, and 4) non-profit, non-educational events. Typically, within each of these scheduling priorities, events will be scheduled on a "first come, first served" basis. However, the district reserves the right to make changes to reservations when necessary. Unless otherwise specified in writing, the district shall be privileged to schedule other events both before and after any then currently contracted or tentatively scheduled event without prior notice to the lessees involved.

Requests- Requests for facility use should be made by accessing the district webpage. Patrons may complete the required usage form and submit it to the district's admin office.

Compliance with Laws- All participants, attendees, Newcastle students, activities and usage shall comply with all laws of the United States, the State of Oklahoma, all ordinances of the City of Newcastle, and all policies established by the Newcastle Board of Education.

Licenses- Lessees agree to assume full responsibility for complying with the Federal Copyright Law of 1978 (17 USC 101 et seq.) and any regulations issued thereunder, including, but not limited to, the assumption of any and all responsibilities for paying royalties which are due for the use of copyrighted works in lessee's performances or exhibitions. Additionally, the lessee will fully indemnify, defend, and hold harmless NPS and all of its agents and employees, for any claims, damages, or costs, including attorney fees, growing out of the lessee's infringement or violation of said copyright laws and regulations. The district may require proof that

these permits have been secured.

Refusal to Rent- The district will refuse to approve the use of the facility for any event, activity, or performance if the manager reasonably determines that such event, activity, or performance, or the anticipated audience response to such event, activity, or performance may cause damage or the unusual risk of damage to the facility or its patrons.

Forbidden Actions and Substances- A lessee will not do or permit to be done anything in or upon any portion of the premises of the district or bring or keep anything therein or thereon which will in any way conflict with the conditions of any insurance policy upon the HS auditorium or any part thereof, or in any way increase any rate of insurance upon the district or on the property kept therein. Nor shall a lessee, without prior written consent from the Facilities Manager or a designated representative, store or operate any engine or motor or machinery on the premises of the district or use oils, burning fluids, camphene, kerosene, naphtha, or gasoline for either mechanical or other purposes. Additionally, beverages and food are not allowed in any area of the facility except the lobby and dressing rooms. Smoking is not allowed on the premises at any time.

Stage Equipment and Personnel

Stage Equipment- The district will make every effort to keep its equipment available and in good working order. However, if equipment is out of service for any reason, the district will not be responsible for providing replacement equipment. Any malfunction of equipment provided by the district should be reported immediately to the Facilities Manager The district, at its sole discretion, reserves the right to make its equipment unavailable to a lessee in the event such lessee's planned use is deemed too dangerous to such lessee or to such equipment. Lessees shall not do or permit to be done in or on the premises of the HS auditorium anything that may tend to injure, mar, or in any manner deface such facility or its premises. This includes but is not limited to, driving or installing any nails, hooks, tacks, or screws alterations of any kind to such facility or any equipment belonging to such facility, especially dismantling protection devices from such equipment.

Stage Technicians- After examining an event's requirements, the site Admin or Facilities Manager will determine the minimum number of personnel required to run the event. Only district approved technicians will be permitted to operate stage equipment and the lessee will be required to hire the required technicians.

House Manager and Ushers- The lessee will be required to supply sufficient personnel to house manage and usher patrons for each event performance, as long as the personnel are competent volunteers, capable of performing such functions to the satisfaction of the NPS Admin; otherwise, the lessee will be required to hire capable personnel to perform these functions.

Security- The HS Auditorium is under the control of the NPS Facilities Manager or a designated representative who will be present at all times the building is open or occupied. If properties of exceptional value are to be left in the facility, prior notification should be made to the appropriate staff member. The lessee will be responsible for all personal belongings onstage and in the backstage area during rehearsals and performances. Strike will occur immediately following the final performance, so it is the responsibility of the lessee to remove all equipment and properties immediately after the final performance.

Novelty Sales, Tickets and Programs

Tickets- Ticket sales will be available at the box office on the day of the event. The box office will open prior to the event and will be staffed by those responsible for the event. There is a strict no-refund policy for tickets. NPS Admin reserves, for its exclusive use, ten (10) seats for each performance held. The location of seats, when an event uses reserved seats, will be negotiated by the NPS district Admin.

Programs- NPS retains the right to insert promotional material of its own choosing into any programs distributed within the facility.

Americans With Disabilities Act- It is the intent of NPS to comply with the ADA in both facilities and accommodations.

RACER STADIUM

Racer Stadium is a multi-use athletic facility with a FieldTurf playing surface striped for football and soccer, a large well-equipped concession and restroom area, two (2) ticket booths, and a press box. The entire site is located on the high school campus and has parking for approximately 500 vehicles. Renting this facility or parts thereof will require approval from the Newcastle High School Athletic Director.

HIGH SCHOOL WELLNESS CENTER

Located on the high school campus, the Wellness Center has a larger hospitality room, athletic offices, and locker facilities. Rental of this space will require prior approval of the Newcastle High School Athletic Director.

Located on Main Street in Newcastle, the Fair Barn is a spacious venue designed to host events that permit live animals.

CAFETERIA KITCHEN FACILITIES

Application to use the cafeteria kitchen facilities involves additional fees and requirements. Due to the food supplies, expensive equipment and rigid requirements of health and sanitation authorities, no organization will have access to the cafeteria kitchen area unless school cafeteria personnel are present and in charge of the kitchen.

Applicants are required to pre-plan the event with the school cafeteria manager to determine the number of cafeteria personnel required and other needs and costs that may arise.

Failure to pre-plan the event with the cafeteria manager or failure to comply with the cafeteria manager's requirements will result in cancellation of the application.

PARKING LOTS

Parking lots are provided with the use of most school buildings. If use of only a parking lot is desired, application will be made for the same use as any school facility. Fees will be determined on a case by case basis by the Superintendent or designee. Parking areas are not reserved exclusively for groups using school buildings.

PLAYGROUNDS AND RECREATIONAL FACILITIES

Newcastle School playgrounds may be made available to the general public at times when they are not being used for school purposes. The general public has a responsibility not to cause damage to the property or become a nuisance to adjoining property owners and others in the neighborhood. Playground use during non school hours is at the risk of the patron using the facility.

The board realizes that each case should be dealt with separately. However, the following regulations will serve as a guide:

1. Newcastle School playgrounds may be used by the general public when not in conflict with school programs.
2. No automobiles, motor scooters, motor bikes or other such licensed vehicles are to be driven on the playgrounds.
3. Recreational sport activities will be permitted as long as there is no damage to neighboring or school property.

When acquiring replacement property, the school district may utilize the equipment to be replaced as a trade-in or sell the property and use the proceeds to offset the cost of the replacement property.

Any property that is purchased with federal funding is the property of the school district and should be identified on inventory lists with a description of the property, a serial number or other identification number, the source of funding for the property, the acquisition date, and the cost of the property, the location, use and condition of the property, any ultimate disposition information including the date of disposal and sale price of the property. TRANSFERS FOR SPECIAL EDUCATION STUDENTS

If a transfer application is received for a child with disabilities to a school district other than the district of residence of the child pursuant to the Education Open Transfer Act, the following provisions shall apply:

1. The school district shall establish availability of the appropriate program, staff, and services prior to approval of the transfer;

2. Prior to the approval of the transfer of a student on an Individualized Education Program (IEP), a joint IEP conference shall be required between the district of residence and the receiving district; and

3. Upon approval of the transfer, the receiving district shall claim the student ~~child~~ in the average daily membership for state and for federal funding purposes and shall assume all responsibility for education of the student. For state funding purposes, the State Department of Education shall include the appropriate grade level weight and all category weights to which the pupil is assigned pursuant to the provisions of Section 18-201.1 of this title when calculating State Aid pursuant to the provisions of Section 18-200.1 of this title, regardless of whether the receiving district provides education to the student using traditional in-class means or via online instruction. When applicable, the receiving district may apply to the Oklahoma Special Education Assistance Fund for assistance in meeting any extraordinary costs incurred.

Once a student transfer application is received, the superintendent or their designee shall review the application. The review process shall include:

1. A joint IEP conference between the previous district and the receiving district to review the services the student has received at their previous district;
2. A determination as to whether the district has the availability of the appropriate program, staff and services to provide appropriate services to the student who has applied for a transfer.

If a transfer request is denied by the school district, the district shall provide notification of the denial in writing to the parent by either hand-delivery, by U.S. Mail or electronic mail. The notification shall include:

1. An explanation including but not limited to any citation of the statute, regulation, or school district policy under which the denial was made;
2. A copy of the policy adopted by the district for transfers of students with disabilities;
3. A copy of the State Board of Education rule governing appeals (after adoption); and
4. The date upon which the appeal will be due.

The parent or legal guardian of a student with disabilities or an adult student with disabilities who is age 18 or older but under the age of 22, or a legal guardian of an adult student with disabilities who is age 18 or older but under the age of 22 may appeal the denial within 10 days of notification of the denial to the board of education. The board shall consider the appeal at its next regularly scheduled board meeting. If notification was hand-delivered, the appeal period shall begin the day after the notification is delivered. If notification is sent by U.S. Mail, the appeal period shall begin three (3) days after the notification is mailed. If notification is sent via electronic mail, the appeal period shall begin the day after the notification is sent. The board of education shall consider the appeal at its next regularly scheduled board meeting if notice is provided prior to the statutory deadline for posting the agenda for the meeting. The board of education shall accept an otherwise untimely appeal if a parent of a student can establish that they did not receive actual notice of the notification denying the transfer request, and the appeal was submitted within 10 days after the parent of the student received notice.

The appeal to the board of education shall be submitted to the office of the superintendent. The appeal shall include the following:

1. The name, address and telephone number of the parent of the student and the student for whom the appeal is being taken;
2. The date the district gave notice denying the transfer request;
3. The basis for appealing the decision of the school district; and
4. The name, address and telephone number of the legal representative, if applicable.

During the appeal, the board will review the action of the administration and the appeal paperwork submitted by the parent of the student to make sure that the district policy was followed with regard to the denial of the transfer. The board of education will meet in an executive session to review the educational records of the student. If the policy was not followed, the board of education shall return to open session to vote to overturn the denial and the transfer will be granted. This will be a paper appeal and will include the written documentation utilized by the school district as well as a written response from the parent or legal guardian which explains why the policy was not followed.

If the board of education votes to deny an appeal of a request to transfer, the board of education shall instruct the superintendent to provide notification of denial in writing to the parent of the student by either hand-delivery, by U.S. Mail, or by electronic mail. The notification shall include:

1. An explanation, including the legal citation to the statute, regulation, or school district policy under which the denial was made;
2. A copy of the policy adopted by the board of education for determining the number of transfer students the district has capacity to accept;
3. A copy of the State Board of Education's prescribed form for an appeal; and
4. A copy of the rule adopted by the State Board of Education which identifies the Accreditation standard for appealing the denial of a student transfer.

If the board of education denies the appeal, the parent or legal guardian of the student with disabilities or the adult student with disabilities who is age eighteen (18) or older but under the age of twenty-two (22) may appeal the denial within ten (10) days of notification of the appeal denial to the State Board of Education. The appeal shall be considered by the State Board of Education at its next regularly scheduled meeting.

The parent or legal guardian shall submit to the State Board of Education and to the superintendent of the district, a notice of appeal on the form prescribed by the State Board of Education. The superintendent shall immediately provide a copy of the appeal to each member of the board of education. Upon receipt of notice of an appeal, but not later than five (5) days prior to the date at which the State Board of Education is scheduled to consider the appeal the board of education may submit a written response to the appeal. Responses should not exceed five (5) pages. If not submitted by the parent, the board of education shall provide a copy of the policy adopted to determine the number of transfer students the district has the capacity to accept in each grade level for each school site within the district. The parent and the school district will have an opportunity to appear in person or by authorized representative or by attorney to address the State Board at the meeting.

NEWS MEDIA RELATIONS

The District encourages positive relations with the press and other media. The District may provide news releases or other communications in order to inform the public regarding events within the District and other matters. All communications with the news media for the purpose of arranging news coverage, providing official statements from the District, or responding to requests from the news media shall be directed to the Superintendent or the Superintendent's designee.

The welfare of our students and the community is important. All information that is to be released to the media shall be carefully monitored. Such monitoring is intended to ensure accuracy and to prevent potential liability for the unauthorized disclosure of confidential information. The school district shall fully comply with the Freedom of Information Act and Open Records Act.

Any issue that appears to be sensitive or which may involve confidential information shall be cleared through the superintendent or the superintendent's designee. It may, at the superintendent's discretion, be necessary to submit issues that could lead to community disruption to the board of education.

COMPLAINT RESOLUTION POLICY

Limited Applicability of Policy

The policy outlined below provides a vehicle for addressing certain types of issues and concerns of citizens and personnel. It does not abridge the right of individuals to address the board at regular meetings of the board (public participation provision of policy BED). Further, matters for which specific complaint/appeal steps are identified in other policies, procedures or are outlined in applicable laws, regulations, or negotiated agreements (employees) shall be directed through those channels rather than under the auspices of this policy.

Among matters for which complaints and/or appeals are addressed by specific policies include but may not be limited to: Student Discipline (policy FO); Student Transfers (policy FE); Prohibiting Bullying (Regulation and Investigation Procedures) (policy FNCD); and Sexual Harassment of students (policy FB). For matters applicable to this policy, the board will consider and act upon appeals within the sequence identified below.

Rationale

The Board of Education welcomes comments and suggestions for improvement from the patrons whom it serves. Constructive criticism of the schools is welcome whenever it is motivated by a sincere desire to improve the quality of the educational program or to allow the schools to do their tasks more effectively. Similarly, the board recognizes that employees at times have complaints and/or issues they consider appropriate or necessary for review and/or appeal. However, the board has confidence in its professional staff and respects the role delegated administration to investigate and seek to bring about resolution of complaints.

Procedural Steps

Accordingly, whenever a complaint is made directly to the board as a whole or to a board member as an individual, it will promptly be referred to the school administration for study and possible resolution. If a board member considers a complaint sufficiently substantial or persistent, the matter may be referred directly to district-level administration to determine the appropriate level of review. Upon making the referral administration will informally notify the board member/s (e.g., telephone call) regarding the status of the complaint review process. When a complaint initially directed to board members reaches "formal" status (Step 2B, as noted in Administrative Regulations), the board will be apprised in writing of the step and resolution status of the complaint.

Reasonable efforts will be made to address concerns and issues raised in any complaint at the earliest stage and to reach an acceptable resolution through an informal process. Administration will develop procedures for receiving complaints courteously and ensuring a timely reply to the complainant (see Complaint Policy GF-R Administrative Regulations).

Whenever a complaint is made directly to the board of education or to an individual board member the complainant will be advised to take their concern to the appropriate staff member. This can be a teacher, supervisor, principal or the superintendent/designee. The proper steps and sequence for channeling complaints are as follows:

1. Subject of the complaint (teacher or involved employee)
2. Supervisor or building administrator
3. Superintendent or his/her designee
4. Board of Education

COMPLAINT RESOLUTION POLICY (Cont.)

If all other remedies have been exhausted and a complaint cannot be satisfactorily resolved at Steps 1-3, the complainant may appeal to the board of education (Step 4 of Administrative Regulations for policy GF). No appeal will be heard by the board and no charges or accusations against an employee will be investigated or acted upon unless the accusations are reduced to writing, signed by the party making the complaint, and presented to the board through the board clerk.

For purposes of conducting the appeal review, the board will have access to documents and reports of lower-level rulings. Further, all parties involved may be asked to attend the board meeting for the purpose of presenting any additional facts, making further explanations, and/or clarifying the issues.

Board action with regard to complaints heard will be communicated to affected parties as specified within Complaint Policy Administrative Regulations.

Important Provisions

Anonymous Complaints: This type of complaint provides no avenue for response or redress. Therefore, it will be the policy of the board that anonymous complaints shall not be pursued. An unsigned complaint will not be read or acted upon at any meeting of the board and anonymous telephone complaints will not be brought to the board by any individual board member, administrator, or other district employee. Further, the administration will not act on any anonymous complaint. However, anonymous complaints received will be reported to the superintendent or designee who is authorized to make exception to this provision and to review and investigate anonymous complaints on a case-by-case basis.

Non-Retaliation: The board recognizes that individuals may at times hesitate to bring a complaint due to fear of "retaliation." Regardless of the outcome of a complaint review, it is the board's expressed expectation that neither the complainant nor family member, including a student/s, shall be subjected to any retaliatory action/s as a consequence of bringing a complaint against an employee or the district.

For Federal Program Complaints: The complainant has the right to appeal the decision of the Newcastle Public Schools Board of Education to the Oklahoma State Department of Education, Compensatory Education Section, Oklahoma City, Oklahoma 73105.

A complaint made directly to the State Department of Education (SDE) without previously being filed with this school district will be reviewed by the SDE to determine if an investigation is warranted by the SDE because of the seriousness of the complaint or if the complaint shall be returned to the complainant to be filed with this school district. Complaints forwarded to the district shall be investigated within thirty (30) days of receipt.

COMPLAINT RESOLUTION POLICY ADMINISTRATIVE REGULATIONS

Upon filing a formal complaint, the complainant will be given a copy of the Complaint Policy GF by the principal or designated administrator. Problems and questions concerning individual schools should be directed to the principal of the school. Problems and questions concerning the school district as a whole should be directed through the superintendent's office.

Procedures to be followed toward resolving issues are explained below. The number of days designated for processing of complaints at each step should be considered as a maximum. The time limits specified may be extended or limited by mutual consent.

Step One (informal):
A complaint will first be discussed by the complainant with the subject of the complaint (the person or persons against whom the complaint is registered) with the objective of resolving the matter informally. However, nothing in this rule shall be construed to limit at this step participation of the principal or supervisor toward addressing and resolving concerns.

Step Two (informal/formal):
If the complaint is not satisfactorily resolved in Step One, the complainant may meet with the building principal or appropriate supervisor (informal Step 2A) and if still not resolved at that time, the complainant may formalize the complaint by submitting in writing (using Form GF-E) to the building principal or supervisor, stating the reasons for the complaint and the relief desired (formal Step 2B). Within five (5) working days of receipt of the written complaint, the principal/supervisor will provide a written response to the complainant and subject of the complaint, stating reasons for the decision and procedures for appeal. A copy of the response also will be forwarded to the superintendent/designee.

Step Three:
In the event the matter is not yet resolved, the complainant may file a written appeal to the superintendent or his/her designee within five (5) working days of receipt of the decision at Step Two. The written appeal to the superintendent or his/her designee will include reasons for the complaint and relief desired. Within ten (10) working days following receipt of the appeal, the superintendent will investigate the complaint and provide a written response to the complainant, supervisor/principal and subject of the complaint, stating reasons for the decision and procedures for appeal.

Step Four:
Within ten (10) working days of receiving the decision of the superintendent or his/her designee, the complainant may appeal to the board of education. This appeal, directed to the clerk of the board, must be in writing and accompanied by a copy of the decision rendered at Step Three.

The board will consider the matter at the next regularly scheduled meeting of the board of education, provided the appeal is received by the clerk of the board in time to place it on the agenda. This meeting will be held in either open session or executive session in accordance with provisions contained in the Open Meeting Act. Within ten (10) working days after the board meeting, the superintendent will communicate the board's decision in writing, with supporting reasons, to parties involved. The decision of the board is final and non-appealable.

As mentioned within policy, the board will not act on complaints that have not been previously reviewed at the appropriate administrative level.

STUDENT RECRUITMENT
ACCESS TO STUDENTS AND DIRECTORY INFORMATION

The Newcastle Public School District restricts recruiting access to students and directory information. Directory information or class lists of student names, addresses, and/or telephone numbers shall not be distributed without the consent of the parent or legal guardian of the student or by the student age 18 or over. Military services representatives shall have access to student directory information unless such access is specifically denied in writing by the parent, legal guardian, or student age 18 or over.

Military services representatives shall have the same access to secondary school students as is generally provided to postsecondary institutions or prospective employers. However, such access may be specifically denied in writing by the parent, legal guardian, or student age 18 or over.

This district will notify parents of the types of student directory information released. The notice will include:

1. An explanation of the parent's right to request that information not be disclosed without prior written consent;

2. Notice that the school routinely discloses names, addresses, and telephone numbers to military recruiters upon request, subject to a parent's request not to disclose such information without written consent; and

3. Notification on how the parent may opt out of the public, nonconsensual disclosure of directory information and the method which to do so.

The notice will be provided to parents on an annual basis.

USE OF SCHOOL PROPERTY

~~The Newcastle Board of Education believes that the first priority in the use of its school property is the education of children in the district. However, local citizens are encouraged to use the property for other reasonable general public use including religious, political, literary, community, cultural, scientific, mechanical, agricultural, or parental involvement purposes. The school district shall allow use of school buildings and facilities to youth groups listed in Title 36 of the United States Code as a patriotic society in accordance with the rules and requirements set forth in the school district's regulation on use of school facilities.~~

The school district will make school property available for public recreation before or after normal school hours, on weekends or during school vacations. In making the determination as to whether property is available the superintendent or designee shall review current recommended local, state and federal health and safety guidelines to determine whether the district space that is requested will be able to be utilized. If a group is allowed to use school property, it will be the responsibility of the person who fills out the application for use to ensure that all appropriate steps are taken with regard to health and safety guidelines, including with regard to sanitation and cleaning~~. NPS will assign a facility representative for each event~~. The school district will not provide supervision during these hours, and any use should be carefully monitored by parents or legal guardians.

The leasing organization or individuals using school facilities will be required to purchase a school approved general liability insurance policy or accident insurance in the amount of $2,000,000.00 for participants to cover each event sponsored by non-school groups. Such policy shall name the Newcastle Public Schools as additional insured. A certificate of insurance will be provided to the school five (5) days prior to the date the function is to be held.

School sponsored events will have precedence of scheduling over non-school sponsored events.

The school district will not serve as ~~an~~ a community emergency shelter for patrons during weather emergencies~~. If school is in session, parents/guardians may be allowed in the building to pick up students, but due to safety and security concerns will not be allowed in the areas of refuge~~.

If the school renders emergency care, aid, shelter, or other assistance during a national disaster or catastrophic event, the school district shall not be liable for damages resulting from the rendering of the emergency care, aid, shelter or other assistance unless the damage was caused by the gross negligence or willful or wanton misconduct of the individual or entity rendering the emergency care, aid, shelter or assistance.

The board shall exercise its authority to fix and collect rentals, rates, and charges for the occupancy or use of school property in such amounts and in such manner as may be determined. See Facilities Handbook located on the school website.

~~The superintendent is directed to establish rules and regulations in support of this policy. The rules and regulations will require evidence of appropriate liability insurance coverage. The school district will not permit the use of school property or equipment by any person or organization that does not furnish evidence of sufficient insurance coverage.~~

~~No school equipment will be lent to individuals, organizations, or other schools without permission from the Superintendent.~~

~~Facility Use Forms are required of all individuals or groups seeking permission to use NPS facilities and will be submitted for approval to appropriate building level administrator. Fees that apply will be approved by the Newcastle Board of Education.~~

~~A facilities rental handbook, containing usage rules and contracts, is available at each site's office.~~

Fees charged for the use of the Facilities are not rental charges but are based on the cost of operating expenses that would not otherwise have been incurred by the district. Such expenses include utilities, supplies, maintenance of facilities, wear and tear on facilities, custodial and cafeteria services, as well as clerical services necessary to process each application. Fees are subject to change as the Superintendent may deem necessary. With prior permission of the Board of Education, a fee in excess of operating expenses may be charged to an Applicant if such user is using school property as a part of a profitmaking operation or for long term usage. Such fee will be set by the Board of Education after recommendation of the Superintendent.

LAW ENFORCEMENT AND BODY CAMERAS ON SCHOOL PREMISES

Law Enforcement Agencies and Department of Human Services: The District shall cooperate with law enforcement agencies in the investigation of criminal activities and with the Department of Human Services in the investigation of incidents involving students. The District shall allow law enforcement agencies or the Department of Human Services to question students while in the custody of the District upon notification to the Superintendent or other administrative officer. Questioning shall be conducted in private. The Superintendent or other administrative officer may determine if a District representative should be present during the questioning. If the representative of the law enforcement agency or the Department of Human Services requests that a District representative not be present, the Superintendent or administrative officer shall document such request and permit the questioning of the student without the presence of a District representative. If a District representative is present during questioning, the District representative shall prepare and maintain a record of the questioning which includes the date, time, place, persons present, and summary of discussion.

A law enforcement agency that operates a body-worn camera program shall adopt a policy for the use of body-worn cameras that must ensure that a body-worn camera is activated only for a law enforcement purpose.

A peace officer may not keep a body-worn camera activated for the entire period of the officer's shift on school premises. The body camera should be activated when peace officer is involved on school premises.

Before a law enforcement agency may operate a body-worn camera program, the agency must provide training to peace officers who will wear the body-worn cameras and any other personnel who will come into contact with video and audio data obtained from the use of body-worn cameras.
