5.B. Superintendent Report

Superintendent Scott Cline reported that the district is closing the 2025-2026 fiscal year in a solid financial position, although final figures will not be available until August after all June revenues have been received. Cline said the district's general fund expenditures increased slightly during June but remain approximately \$72,000 below last year's total. He noted that reserve expenditures were significantly lower than the previous year, resulting in overall spending that is about \$200,000 less than a year ago. General fund revenues were lower for the month, but Cline said the district is still expecting additional revenues before the fiscal year officially closes. Because the previous year's revenues included a one-time legal settlement, he said a more accurate comparison is with two years ago. "When you compare this year to two years ago, we're right where we normally collect our revenue," Cline said. "I still expect another \$50,000 or so to come in before everything is finalized." Based on current projections, the district is anticipating a general fund carryover of approximately \$8.2 million. The superintendent also reviewed the building fund, noting that expenditures are substantially

lower than last year because bond construction projects have largely been completed. While revenues are also slightly lower, additional collections are still expected before the books are closed. Cline projects the building fund will finish the year with a carryover of approximately \$3.6 million. He reminded board members that two years ago the district began depositing all interest earnings into the building fund rather than the general fund. This year alone, those interest earnings totaled approximately \$400,000. "When you look at the total financial picture, we're actually increasing our building fund carryover by about \$500,000 while only reducing the general fund by roughly \$170,000," Cline said. "We're certainly not hemorrhaging financially. I feel comfortable with where we are." Although the district's financial reserves remain healthy, Cline cautioned that uncertainty surrounding future property tax revenues requires careful budgeting. He said pending tax protests and recent state law changes involving flow lines and meter movement could affect local valuations, although the district has not yet received estimates from the county assessor. "We know there are some protests coming, and we don't yet know the impact of the new legislation," Cline said. "Until we have those numbers, we need to remain cautious as we prepare next year's budget."

Cline also reviewed the district's auxiliary programs. Child Nutrition is expected to finish the year with an operating loss of approximately \$81,000, compared with about a \$30,000 loss last year. However, he noted that the district made significant improvements in its daycare operation. Last year the daycare program operated at an approximate \$82,000 loss. This year, the projected loss has been reduced to about \$40,000, cutting the deficit by more than half. Combined, the Child Nutrition and daycare programs are expected to account for approximately \$120,000 in losses that must be covered by the district's general fund. During discussion following the report, board members asked about daycare enrollment for the upcoming school year. Cline said current pre-enrollment indicates the program will likely serve between six and eight children, with official enrollment scheduled for the following week.

Alternative Education COOP Waiver

A school district with fewer than ten eligible students that seeks to operate its own Alternative Education program, rather than participate in a cooperative agreement, must request a waiver from the State Board of Education by **September 1** of the applicable school year.

Oklahoma State Statute

[70 O.S. § 1210.568\(l\)](#)

Statewide System of Alternative Education Programs Rules and Regulations

Any school district submitting a plan for an alternative education program serving fewer than ten students shall enter into a cooperative agreement with another school district to jointly provide the program unless the program has been granted a waiver from this requirement by the State Board of Education.

Section 1:

Submit a cover letter on school letterhead with the superintendent's signature with a brief explanation of the request for the waiver.

Section 2:

Complete the waiver form with signatures from the superintendent, board president signature, and notary.

Section 3:

Complete all questions in section 3 and add any supporting documentation.

Section 2:School Year(s): 20 27 - 20 27County: WoodsSchool District: WaynokaSchool District Mailing Address: 2134 Lincoln StreetCity: Waynoka Zip Code: 73860School Site Name: Waynoka High School

I hereby certify that this Alternative Education COOP Waiver application was approved by our local board of education at the meeting on _____.

Board President Signature: _____

Notary Seal: _____

Notary Date: _____

Commission Expiration Date: _____

Section 3:

1. Reason for the Waiver request. Please include distance from your alternative education site to the closest possible district to coop with, what alternative means will have to be employed if your waiver was to be denied, and what percentage of your student population will benefit from the waiver if approved.

Waynoka Public Schools is requesting to deregulate our Alternative Education Program for 2026 27 school year by way of 70 O.S. § 1210.568 COOP Agreement. We are a small school with approximately 235 students pre kindergarten through twelfth grade. We currently have no kids enrolled in our alternative education program, but being able to house our own program will allow for an easy transition if needed. The closest site is 30 miles away if we COOP.

2. List alternate strategies/plans which the district/site proposes, and how this plan will best serve the students of your alternative education program, i.e., a description of the educational benefits to the students, graduation rate if a waiver has been awarded prior to this year, and the result of the previous year's alternative education audit.

This plan will best serve our students because it allows for an easier and smoother transition if we are able to house our alternative education program on site. This will also allow us to transition a student any time we need to and not have to wait until there is a seat open in the program. We feel that we know our students' needs the best and this allows a better opportunity for the kids to be successful.

3. Have you participated in an alternative education coop previously? Have you been awarded this waiver before and what was the educational impact to the district: Results of the Statutory Waiver, i.e., effect on student performance levels, impact of plan on other sites in the district.

We believe that any impact will be a positive one for our students.

4. Describe the method used to assess or evaluate the effectiveness of the plan for both staff and students (e.g., TLE, ACT scores, graduation rates, RSA data, School Report Card indicators) and explain the educational impact on the district, including effects on student performance levels and projected graduation rates.

We mostly use an online curriculum with the ability to attend electives. We monitor their grades just like a regular classroom. We also monitor their end of instruction assessments to ensure they are getting all the material they need to be successful.

District payments are subject to lawful appropriation and available funds. Upon termination, the District shall pay for authorized services performed, and the Sheriff's Office shall return any unearned prepaid amount.

13. Notices

Formal notices shall be written and delivered personally, by certified mail, or by recognized overnight carrier to the addresses below, or to an updated address designated in writing.
