StudentsStudent Fees Policy

The Board of Education of McCook Public Schools adopts the following student fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution and state and federal law. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children which extend beyond the minimum level of constitutionally required free instruction. Students and their parents have historically contributed to the District's efforts to provide such activities, programs, and services. The District's general policy is to continue to encourage and, to the extent permitted by law, to require such student and parent contributions to enhance the educational program provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies. This policy is subject to further interpretation or guidance by administrative or Board regulations which may be adopted from time to time. The Policy includes Appendix "I," which provides further specifics of student fees and materials required of students for the 2023-2024 school year. Parents, guardians, and students are encouraged to contact their building administration or their teachers or activity coaches and sponsors for further specifics.

(1) Guidelines for non-specialized attire required for specified courses and activities. Students have the responsibility to furnish and wear non-specialized attire meeting general District grooming and attire guidelines, as well as grooming and attire guidelines established for the building or programs attended by the students or in which the students participate. Students also have the responsibility to furnish and wear non-specialized attire reasonably related to the programs, courses and activities in which the students participate where the required attire is specified in writing by the administrator or teacher responsible for the program, course or activity.

The District will provide or make available to students such safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other similar hazards. Building administrators are directed to assure that such equipment is available in

the appropriate classes and areas of the school buildings, teachers are directed to instruct students in the usage of such devices and to assure that students use the devices as required, and students have the responsibility to follow such instructions and use the devices as instructed.

(2) Personal or consumable items & miscellaneous

(a) Extracurricular Activities. Students have the responsibility to furnish any personal or consumable items for participation in extracurricular activities.

(b) Courses

(i) General Course Materials. Items necessary for students to benefit from courses will be made available by the District for the use of students during the school day. Students may be encouraged, but not required, to bring items needed to benefit from courses including, but not limited to, pencils, paper, pens, erasers, notebooks, trappers, protractors and math calculators. A specific class supply list will be published annually in a Board-approved student handbook or supplement or other notice. The list may include refundable damage or loss deposits required for usage of certain District property.

(ii) Damaged or Lost Items. Students are responsible for the careful and appropriate use of school property. Students and their parents or guardian will be held responsible for damages to school property where such damage is caused or aided by the student and will also be held responsible for the reasonable replacement cost of school property which is placed in the care of and lost by the student.

(iii) Materials Required for Course Materials. Students are permitted to and may be encouraged to supply materials for course projects. Some course projects (such as projects in art and shop classes) may be kept by the student upon completion. In the event the completed project has more than minimal value, the student may be required, as a condition of the student keeping the completed project, to reimburse the District for the reasonable value of the materials used in the project. Standard project materials will be made available by the District. If a student wants to create a project other than the standard course project, or to use materials other than standard project materials, the student will be responsible for furnishing or paying the reasonable cost of any such materials for the project.

(iv) Music Course Materials. Students will be required to furnish musical instruments for participation in optional music courses. Use of a musical instrument without charge is available under the District's fee waiver policy. The District is not required to provide for the use of a particular type of musical instrument for any student.

(v) Parking. Students may be required to pay for parking on school grounds or at school-sponsored activities, and may be subject to payment of fines or damages for damages caused with or to vehicles or for failure to comply with school parking rules.

(3) Extracurricular Activities-Specialized equipment or attire. Extracurricular activities means student activities or organizations which are supervised or administered by the District, which do not count toward graduation or advancement between grades, and in which participation is not otherwise required by the District. The District will generally furnish students with specialized equipment and attire for participation in extracurricular activities. The District is not required to provide for the use of any particular type of equipment or attire. Equipment or attire

fitted for the student and which the student generally wears exclusively, such as dance squad, cheerleading, and music/dance activity (e.g. choir or show choir) uniforms and outfits, along with T-shirts for teams or band members, will be required to be provided by the participating student. The cost of maintaining any equipment or attire, including uniforms, which the student purchases or uses exclusively, shall be the responsibility of the participating student. Equipment which is ordinarily exclusively used by an individual student participant throughout the year, such as golf clubs, softball gloves, and the like, are required to be provided by the student participant. Items for the personal medical use or enhancement of the student (braces, mouth pieces, and the like) are the responsibility of the student participant. Students have the responsibility to furnish personal or consumable equipment or attire for participation in extracurricular activities or for paying a reasonable usage cost for such equipment or attire. For musical extracurricular activities, students may be required to provide specialized equipment, such as musical instruments, or specialized attire, or for paying a reasonable usage cost for such equipment or attire.

(4) Extracurricular Activities-Fees for participation. Any fees for participation in extracurricular activities for the 2023-2024 school year are further specified in Appendix "1." Admission fees are charged for extracurricular activities and events.

(5) Postsecondary education costs. Students are responsible for postsecondary education costs. The phrase "postsecondary education costs" means tuition and other fees only associated with obtaining credit from a postsecondary educational institution. For a course in which students receive high school credit and for which the student may also receive postsecondary education credit, the course shall be offered without charge for tuition, transportation, books, or other fees, except tuition and other fees associated with obtaining credits from a postsecondary educational institution.

(6) Transportation costs. Students are responsible for fees established for transportation services provided by the District as and to the extent permitted by federal and state laws and regulations.

(7) Copies of student files or records. The Superintendent or the Superintendent's designee shall establish a schedule of fees representing a reasonable cost of reproduction for copies of a student's files or records for the parents or guardians of such student. A parent, guardian or student who requests copies of files or records shall be responsible for the cost of copies reproduced in accordance with such fee schedule. The imposition of a fee shall not be used to prevent parents of students from exercising their right to inspect and review the students' files or records and no fee shall be charged to search for or retrieve any student's files or records. The fee schedule shall permit one copy of the requested records be provided for or on behalf of the student without charge and shall allow duplicate copies to be provided without charge to the extent required by federal or state laws or regulations.

(8) Participation in before-and-after-school or pre-kindergarten services. Students are responsible for fees required for participation in before-and-after-school or pre-kindergarten services offered by the District, except to the extent such services are required to be provided without cost.

(9) Participation in summer school or night school. Students are responsible for fees required for participation in summer school or night school. Students are also responsible for correspondence courses.

(10) Breakfast and lunch programs. Students shall be responsible for items which students purchase from the District's breakfast and lunch programs. The cost of items to be sold to students shall be consistent with applicable federal and state laws and regulations. Students are also responsible for the cost of food, beverages, and personal or consumable items which the students purchase from the District or at school, whether from a "school store," a vending machine, a booster club or parent group sale, a book order club, or the like. Students may be required to bring money or food for field trip lunches and similar activities.

(11) Waiver Policy. The District's policy is to provide fee waivers in accordance with the Public Elementary and Secondary Student Fee Authorization Act. Students who qualify for free or reduced-price lunches under United States Department of Agriculture child nutrition programs shall be provided a fee waiver or be provided the necessary materials or equipment without charge for: (1) participation in extracurricular activities and (2) use of a musical instrument in optional music courses that are not extracurricular activities. Participation in a free-lunch program or reduced-price lunch program is not required to qualify for free or reduced price lunches for purposes of this section. Students or their parents must request a fee waiver prior to participating in or attending the activity, and prior to purchase of the materials.

(12) Distribution of Policy. The Superintendent or the Superintendent's designee shall publish the District's student fee policy in the Student Handbook or the equivalent (for example, publication may be made in an addendum or a supplement to the student handbook). The Student Handbook or the equivalent shall be provided to every student of the District or to every household in which at least one student resides, at no cost.

(13) Student Fee Fund. The School Board hereby establishes a Student Fee Fund. The Student Fee Fund shall be a separate school district fund not funded by tax revenue, into which all money collected from students and subject to the Student Fee Fund shall be deposited and from which money shall be expended for the purposes for which it was collected from students. Funds subject to the Student Fee Fund consist of money collected from students for: (1) participation in extracurricular activities, (2) postsecondary education costs, and (3) summer school or night school.

StudentsStudent AttendanceAttendance Policy and Excessive Absenteeism

Regular and punctual student attendance is required. The administration is responsible for developing further attendance rules and regulations, and all staff are expected to implement this policy and administrative rules and regulations to encourage regular and punctual student attendance. The District will maintain an accurate record of student attendance.

A. Attendance and Absences.

1. Circumstances of Absences – Definitions. The circumstances for all absences from school will be identified as School Excused or Not School Excused. Absences should be cleared through the Principal's office in advance whenever possible. All absences, except for illness and/or death in the family, require advance approval.
 - a. School Excused. Any of the following circumstances that lead to an absence will be identified as a School Excused absence, provided the required attendance procedures have been followed:
 - (1) Impossible or impracticable barriers outside the control of the parent or child prevent a student from attending school. The parent may be required to provide the school with documentation to demonstrate the absence was beyond the control of the parent or child. This could include, but is not limited to documented illness (including physical or mental illness), court, death of a family member, or suspension.
 - (2) Other absences as determined by the principal or the principal's designee.
 - b. Not School Excused. Absences that are not school excused may result in a report to the county attorney and may be classified as follows:
 - (1) Parent acknowledged absences are those in which the parent communicated with the school in the prescribed manner that the child is absent and is the parent's responsibility for the extent of the school day. This includes vacations or other events that do not meet the criteria for a School Excused absence.
 - (2) Other absences are those in which the parent has not communicated a reason for the student's absence.

2. Absence Procedure. In its Student Information System, the District may identify many different codes that provide greater definition to the circumstances of a child's absence, but all of the codes need to be identified to parents and students as fitting into one of the above defined absence circumstances.
3. Mandatory Ages of Attendance. A child is of mandatory age if the child will reach age 6 prior to January 1 of the then-current school year and has not reached 18 years of age.

Exceptions for Younger Students. Attendance is not mandatory for a child who has reached 6 years of age prior to January 1 of the then-current school year, but will not reach age 7 prior to January 1 of such school year, if the child's parent or guardian has signed and filed with the school district in which the child resides an affidavit stating either: (1) that the child is participating in an education program that the parent or guardian believes will prepare the child to enter grade one for the following school year; or (2) that the parent or guardian intends for the child to participate in a school which has elected or will elect pursuant to law not to meet accreditation or approval requirements and the parent or guardian intends to provide the Commissioner of Education with a statement pursuant to section 79-1601(3) on or before the child's seventh birthday.

Exceptions for Older Students. Attendance is also not mandatory for a child who: (1) has obtained a high school diploma by meeting statutory graduation requirements; (2) has completed the program of instruction offered by a school which elects pursuant to law not to meet accreditation or approval requirements; or (3) has reached the age of 16 years and has been withdrawn from school in the manner prescribed by law.

Early Withdrawal for Students Enrolled in Accredited or Approved Schools. A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if an exit interview is conducted and a withdrawal form is signed.

Exit Interview. The process is initiated by a person who has legal or actual charge or control of the child submitting a withdrawal form. The form is to be as prescribed by the Commissioner of Education. Upon submission of the form, the Superintendent or Superintendent's designee shall set a time and place for an exit interview if the child is enrolled in [Name] Public Schools or resides in the [Name] Public School District and is enrolled in a private, denominational, or parochial school.

The exit interview shall be personally attended by:

- The child, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable;
- the person who has legal or actual charge or control of the child who requested the exit interview;
- the Superintendent or Superintendent's designee;
- the child's principal or the principal's designee if the child at the time of the exit interview is enrolled in a school operated by the school district; and
- any other person requested by any of the required parties who agrees to attend the exit interview and is available at the time designated for the exit interview which may include, for example, other school personnel or the child's principal if the child is enrolled in a private school.

At the exit interview, the person making the written request must present evidence that (a) the person has legal or actual charge or control of the child and (b) the child would be withdrawing due to either:

- financial hardships requiring the child to be employed to support the child's family or one or more dependents of the child, or
- an illness of the child making attendance impossible or impracticable.

The Superintendent or Superintendent's designee shall identify all known alternative educational opportunities, including vocational courses of study, that are available to the child in the school district and how withdrawing from school is likely to reduce potential future earnings for the child and increase the likelihood of the child being unemployed in the future. Any other relevant information may be presented and discussed by any of the parties in attendance.

At the conclusion of the exit interview, the person making the written request may sign a withdrawal form provided by the school district agreeing to the withdrawal of the child or may rescind the written request for the withdrawal.

Withdrawal Form. Any withdrawal form signed by the person making the written request shall be valid only if:

- the child also signs the form, unless the withdrawal is being requested due to an illness of the child making attendance at the exit interview impossible or impracticable, and
- the Superintendent or Superintendent's designee signs the form acknowledging that the interview was held, the required information was provided and discussed at the interview, and, in the opinion of the Superintendent or Superintendent's designee, the person making the written request does in fact have legal or actual charge or control of the child and the child is experiencing either (i) financial hardship, or (ii) an illness making attendance impossible or impracticable.

Early Withdrawal for Students Enrolled in an Exempt School (Home Schools). A person who has legal or actual charge or control of a child who is at least 16 but less than 18 years of age may withdraw such child from school before graduation and be exempt from the mandatory attendance requirements if such child has been enrolled in a school that elects not to meet the accreditation or approval requirements by filing with the State Department of Education a signed notarized release on a form prescribed by the Commissioner of Education.

4. Reporting and Responding to Excessive Absenteeism. Any District staff member or board member who knows of any failure on the part of any child of mandatory school attendance age to attend school regularly without lawful reason, shall within three days report such violation to the Superintendent or Superintendent's designee to be the attendance officer. The attendance officer shall immediately cause an investigation into any such report to be made. The attendance officer shall also investigate any case when of his or her personal knowledge, or by report or complaint from any resident of the district, the attendance officer believes there is a violation of the compulsory attendance laws. The school shall render all services in its power to compel such child to attend school

5. Excessive Absenteeism. Students who accumulate five (5) unexcused absences in a quarter which are Not School Excused shall be deemed to have "excessive absences." Such absences shall be determined on a per day (or hourly equivalent) basis for elementary students and on a per class basis for secondary students. When a student has excessive absences, school officials will have verbal or written communication with the person or persons who have legal or actual charge or control of any child.

When a student continues thereafter to have absences of at least twenty days which are Not School Excused, one or more meetings will be held between the school, the child's parent or guardian, and the child, when appropriate, to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall include, if agreed to by the person who is responsible for making educational decisions on behalf of the child, an educational evaluation to determine whether any intellectual, academic, physical, or social-emotional barriers are contributing factors to the lack of attendance. The plan shall also consider, but not be limited to:

- (a) The physical, mental, or behavioral health of the child.
- (b) Educational counseling;
- (c) Referral to community agencies for economic services;
- (d) Family or individual counseling; and
- (e) Assisting the family in working with other community services.

If the parent/guardian refuses to participate in such meeting, the principal shall place documentation of such refusal in the child's attendance records.

6. Reporting Excessive Absenteeism to the County Attorney.

The school may report to the county attorney of the county in which the person having control of the student resides when the school has documented the efforts to address excessive absences, the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and the student has accumulated more than twenty (20) absences per school year. The school shall notify the child's family in writing prior to making the referral to the county attorney. Illness (including physical or mental illness) that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

InstructionParental/Community Involvement in Schools

[County] County School District ____, a/k/a McCook Public Schools, after having conducted a public hearing concerning parental involvement and participation, declares that it shall be the policy of the District:

1. In the event any parent has a complaint or objection to textbooks, tests, curriculum materials, and any other instructional materials, the parent may request a personal conference with the parent and appropriate school personnel to discuss such concerns as the superintendent or designee may deem appropriate. The Superintendent or designee shall prepare a complaint form which may be used by a parent to express objections to any such instructional material. Such complaint forms shall seek information including, but not limited to, the specific instructional material complained of, the reason for the complaint, and a proposed resolution of the complaint by the parent.
2. Upon reasonable advance request a parent will be permitted to attend and monitor courses, assemblies, counseling sessions, and other instructional activities unless the school determines that such attendance would substantially interfere with a legitimate school interest, which includes the interests of the parent's child, other students, and the educational staff.
3. Parents are encouraged to communicate to school staff when the parent believes it to be appropriate for their child to be excused from testing, classroom instruction, and other school experiences that the parent finds objectionable. The Superintendent or designee shall make a provision on the complaint form hereinabove referenced for receiving information from a parent concerning what specific testing, classroom instruction, or other school experience the parent finds objectionable, the basis for the parent's objection and a proposed solution for dealing with the objection that would be satisfactory to the parent and consistent with the mission of the District and legitimate school interests.
4. Upon request of a parent, the District will provide access to the education records of their child consistent with applicable law. Access will be provided during regular business hours of the school.
5. The District will notify parents when their child may be subjected to a standard norm referenced or criterion referenced test or standard tests such as but not limited to the Measure of Academic Progress (MAP) test. When reasonable to do so or required by law the parents will be notified of where a sample of such test might be observed and the date upon which such test will be administered. As to all testing by the District, experimental evaluation methodologies, experimental testing instruments and any testing instrument which would tend to inquire into the values, beliefs, or privacy rights of any student, or parent or guardian of such student shall be prohibited unless a parent requests in writing that such tests be administered to their child.

6. Prior to any school sponsored survey being administered to the students of the District, it shall be the responsibility of the Superintendent or designee to notify the parent or parents of each student involved in the survey of the nature of the survey, the date and time when such survey shall be administered, and the purpose for which and the uses of which survey exist from the school's perspective.
7. As a general matter substantive decision-making processes will be left to the judgment of the professional staff, administration and the Board of Education, subject to an effort to receive information from parents as to any concerns, objections, or other information such parents would wish to provide to the school district concerning a parent's access, involvement, and participation in activities of the school.
