EMPLOYEE FUNDRAISING

Any employee fundraising campaigns, including online fundraising such as crowdfunding campaigns, must have prior approval from the Superintendent before taking any actions when using the employee's position to raise funds. Any person or entity acting on behalf of the district and wishing to conduct a fundraising campaign for the benefit of the district must also begin the process by seeking prior approval from the Superintendent. All money raised through an approved fundraising campaign is subject to normal accounting procedures of the district and any additional procedures that may be required in the approval process. Any information or materials placed on fundraising websites are subject to the same district policies covering publication of materials on the district website.

Approval of requests shall depend on factors including, but not limited to:

- Compatibility with the district's educational program, mission, vision, core values, beliefs, and student achievement goals;
- The district's instructional priorities;
- The manner in which donations are collected and distributed by the fundraising process;
- Equity in funding; and
- Other factors deemed relevant or appropriate by the district.

If approved, the employee shall be responsible for preparing all materials and information related to the fundraising campaign and keeping district administration apprised of the status of the campaign. The employee shall not violate any district policy or guideline and must protect the confidentiality of all student information.

The employee is responsible for compliance with all state and federal laws and other relevant district policies and procedures. All items and money generated are subject to the same controls and regulations as other district property and shall be deposited or inventoried accordingly. No money raised or items purchased shall be distributed to individual employees.

OBJECTIVES FOR EQUAL EDUCATIONAL OPPORTUNITIES FOR STUDENTS

This section of the board policy manual is devoted to the board's goals and objectives for assisting the students of the school district in obtaining an education. Each student shall have an opportunity to obtain an education in compliance with the policies in this series. It is the goal of the board to develop a healthy social, intellectual, emotional, and physical self-concept in the students enrolled in the school district. Each student attending school will have the opportunity to use it and its education program and services as a means for self-improvement and individual growth. In so doing, the students are expected to conduct themselves in a manner that assures each student the same opportunity.

The board supports the delivery of the education program and services to students free of discrimination on the basis of race, color, national origin, sex, disability, religion or marital status and provides equal access to the Boy Scouts and other designated youth groups. This concept of equal educational opportunity serves as a guide for the board and employees in making decisions relating to school district facilities, employment, selection of educational materials, equipment, curriculum, and regulations affecting students.

Board policies, rules and regulations affect students while they are on school district property or on property within the jurisdiction of the school district; while on school owned, operated, or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

This section of the board policy refers to the term "parents" in many of the policies. The term parents for purposes of this policy manual shall mean the legal parents. It shall also mean the legal guardian or custodian of a student and students who have reached the age of majority or are otherwise considered an adult by law.

Inquiries by students regarding compliance with equal educational opportunity laws and policies, including but not limited to complaints of discrimination, shall be directed to the superintendent or his or her designee.

Inquiries may also be directed in writing to the Director of the Kansas Office of Civil Rights, U.S. Department of Education, One Petticoat Lane, 1010 Walnut Street, Suite 320, Kansas City, MO 64106, (816) 268-0599, the Nebraska Equal Opportunity Commission, State Office Building, 301 Centennial Mall South, 5th floor, P.O. Box 94394, Lincoln, NE 68509-4934, (402) 471-2024 or (800) 642-6112 or by email to OCR.KansasCity@ed.gov. This inquiry or complaint to the federal or state office may be done instead of, or in addition to, an inquiry or complaint at the local level.

Further information and copies of the procedures for filing a complaint are available in

the school district's central administrative office and the administrative office in each attendance center.

SEARCHES, SEIZURES AND ARRESTS

School district property is held in public trust by the board. School district authorities may, without a search warrant, search students or protected student areas based on a reasonable and definable suspicion that a school district policy, rule, regulation or law has been violated.

The search shall be in a manner reasonable in scope to maintain order and discipline in the schools, promote the educational environment, and protect the safety and welfare of students, employees and visitors to the school district facilities. The furnishing of a locker, desk or other facility or space owned by the school and provided as a courtesy to a student, even if the student provides the lock for it, shall not create a protected student area and shall not give rise to an expectation of privacy with respect to the locker, desk, or other facility.

School authorities may seize any illegal, unauthorized or contraband materials discovered in the search. Items of contraband may include, but are not limited to, nonprescription controlled substances, marijuana, cocaine, amphetamines, barbiturates, apparatus used for controlled substances, alcoholic beverages, tobacco, weapons, explosives, poisons and stolen property. Such items are not to be possessed by a student while they are on school district property or on property within the jurisdiction of the school district; while on school owned and/or operated transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and welfare of the school district.

Possession of such items will be grounds for disciplinary action including suspension or expulsion and may be reported to local law enforcement officials. The board believes that illegal, unauthorized or contraband materials may cause material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees, or visitors on the school district premises or property within the jurisdiction of the school district.

The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes.

The principal or designee will attempt to notify the parent/guardian or responsible relative prior to the student's release and the place to which the student is reportedly to be taken, except in cases of child abuse.

It shall be the responsibility of the superintendent, in conjunction with the administrative team, to implement this policy.

QUESTIONING OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present.

If a child abuse investigator wishes to interview a student, the principal will defer to the investigator's judgment as to whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview. An administrator or designee will be present during the interview.

The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes.

ACCEPTABLE USE OF COMPUTERS, TECHNOLOGY AND THE INTERNET

The Board supports the use of computers, technology and the Internet in the District's instructional program as a resource to educate and inform. The use of these resources shall be consistent with the curriculum adopted by the School District and shall be employed in an appropriate and responsible manner to meet the varied instructional needs, learning styles, abilities and developmental levels of students.

Procedures and Guidelines

The Superintendent shall develop and implement appropriate procedures to provide guidance for computer use and Internet access. Guidelines shall address teacher supervision of computer use, ethical use of electronic media, and the District's ownership and right of administrative review of electronic files and communications. The term "electronic media" includes, but is not limited to, the Internet, e-mail and other technological resources.

The guidelines shall prohibit utilization of networks for inappropriate or illegal activities, the intentional spreading of imbedded messages (viruses) or the use of other programs with the potential of damaging or destroying programs, data or equipment. The guidelines will describe the District's limitation of liability and will establish that the use of computers, technology and the Internet is a privilege, not a right. Violation of the procedures and guidelines will result in cancellation of those privileges and appropriate disciplinary action.

Technology Protection Measure

The District will implement a technology protection measure that will block or filter Internet access to visual depictions that are obscene, pornographic or of a harmful nature to minors. Operation of this measure will be monitored and enforced during use of computers by minors.

Audit of Use

Users with network access shall not utilize District resources to establish electronic mail accounts through third-party providers or any other nonstandard electronic mail system. Participation in chat rooms is prohibited without specific prior approval by the system administrator. The Superintendent shall establish a process to determine whether the District's education technology is being used for purposes prohibited by law or for accessing prohibited materials. The process may include, but not be limited to:

1. Utilizing blocking/filtering software.

Approved _____ Reviewed _____ Revised _____

2. Turning off the "auto load images" feature of the Internet browser.

3. Using a proxy server to control accessible websites.

Appropriate Internet Behavior On Social Websites

The district recognizes its responsibility to educate students regarding appropriate behavior on social networking and chat room sites about cyberbullying. Therefore, students shall be provided instruction about appropriate online behavior, including interacting with other individuals on social networking sites and in chat rooms and cyberbullying awareness and response.

Student Use

A written parental permission and agreement form will be required prior to the student being granted access to electronic media involving District technological resources. The form will specify acceptable uses, rules of on-line behavior, access privileges and penalties for procedural violations. It must be signed by the parent or legal guardian of minor students (under age 18) and by the student. This document will be kept on file as a legal, binding document. In order to rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Superintendent with a written request.

Staff Use

A written staff agreement form will be required for all employees having access to electronic media. Staff shall confine e-mail use to work-related purposes and a reasonable, appropriate and limited personal use that does not interfere with their district duties. The agreement form will refer to the procedures and guidelines for use of computers and the Internet, describe prohibitions and limitations on the use of these resources and state the employee's responsibility for the security of individual passwords.

Community Use

On recommendation of the Superintendent, the Board will determine the conditions and limits under which equipment and services will be made available to the community. Upon request to the Building Principal, community members may have access to electronic resources and programs available through the District, provided they attend any required training and abide by the rules of usage established by the Superintendent. A written agreement form will be required for all community members having access to these resources indemnifying the District from claims by community users.

Disregard of Rules

Individuals who refuse to sign required acceptable use documents or who violate District rules governing the use of District technology shall be subject to loss or restriction of the privilege of using computers, technology or the Internet and related resources.

Responsibility for Damages

Individuals shall reimburse the Board for repair or replacement of District property lost, stolen, damaged, or vandalized while under their care.

A copy of this regulation, an accompanying cover letter, and an Acceptable Use Agreement will be distributed to students and parents/guardians for signature before a student is issued an Internet or e-mail account.

Acceptable Use

The use of computers, technology and the Internet are provided to students only for limited educational purposes. All School District electronic resources must be used in a responsible, efficient, ethical and legal manner. Failure to adhere to these regulations will result in loss of user privileges, disciplinary action and/or appropriate legal action.

The use of the District's electronic networks is a privilege, not a right. The Building Principal will make all decisions regarding whether or not a user has violated this authorization and may deny, revoke, or suspend access at any time.

Oversight

Teachers will preview the materials and sites they require or recommend students access to determine the appropriateness of the material contained on or reached through the site. Teachers will assist their students in developing the skills to ascertain the validity of information, distinguish fact from opinion, and engage in discussions about controversial issues, tolerance and respect for divergent views.

Unacceptable Use

The user is responsible for his or her actions and activities involving electronic resources. Some examples of unacceptable uses are:

1. Using the network for any illegal activity, including violation of copyright or other contracts, or transmitting any material in violation of any U.S. or State law.

16. Using or attempting to use the resources while access privileges are suspended or revoked.

No Expectation of Privacy

Use of the District's electronic resources, including e-mail, is not private. The District reserves the right to log, monitor, examine, evaluate, and disclose solely at its discretion, the contents of all files, communications, or other usage on or conducted through these resources despite any designation of privacy by either the sender or recipient.

No Warranties

The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed deliveries, or service interruptions caused by its negligence or the users' errors or omissions. Use of any information obtained via the Internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification

The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of these procedures.

Security

Network security is a high priority. If the user can identify a security problem on the Internet, the user must notify appropriate personnel. Do not demonstrate the problem to other users. Users shall not reveal their passwords to other individuals. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to these resources.

Vandalism

Vandalism will result in cancellation of privileges and will be reported to the legal authorities for possible prosecution. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges

The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Limited Resource

Activities that are deemed by the network supervisor to cause unreasonable demand on network capacity or disruption of system operation are prohibited. Users shall not post chain letters or engage in "spamming". Spamming is sending unsolicited messages to a large number of people, or sending a large number of unsolicited messages to one or a few individuals.

FREE OR REDUCED COST MEALS ELIGIBILITY AND MEAL CHARGES

The district shall comply with all state and federal laws applying to providing free and reduced meals under the National School Lunch Program, School Breakfast Program, and other related federal grant programs.

Free or Reduced Meals Eligibility

Families of students enrolled in the district who wish to qualify for free or reduced price meals may submit an application on or after July 1 for the current school year. If the financial situation of a household changes during the school year, they may submit a new application to become eligible. Applications are available at the Central Administrative Office of the school building.

Meal Charges

The written meal charge policy and guidelines shall be in place before the beginning of each school year and parents shall be advised of the available payment systems and meal prices. The district will encourage pre-payment of meal balances but the district must include a method for adding funds during the school day such as cash payments at the school office. A qualifying student with money to purchase a reduced price meal must be provided the meal; the district may not use that money for previously unpaid charges if the student intended to buy a meal that day.

All balances remaining in accounts shall carry over to the next month. Balances of households qualifying for free or reduced meals with funds remaining in the account at the end of the school year shall receive a refund. The district shall attempt to contact the household of all students transferring out or graduating from the district to return any unused funds remaining in the student's account. The district may set varying meal charge guidelines for students of different grade levels including charges relating to alternate meals, ala carte items and limits on charges that a parent may set for a student's daily lunch expenditures.

The district must set written guidelines regarding the collection of delinquent meal charges such as the amount of delinquent meal charges which initiate an established collection process, providing notice to households of those students and carrying out appropriate follow-up. Unpaid meal charges are classified as "delinquent debt" and remain on the food service accounting documents until they are collected or written off as uncollectible.

Guidelines must also cover how the district will handle situations where children eligible for reduced price meals do not have money in their accounts to cover the cost of their meal at the time of service. Households must be notified of all payment methods used by the district, including any fees. At least one payment method must be free of charge. The district cannot solely require the use of an online payment system; another option must be available.

Confidentiality

The information provided by families on the free and reduced price application will be used only for determining eligibility for meal or milk benefits and verification of eligibility. Only staff members and organizations carrying out the activities of the School Lunch Act shall have access to this information.

The district should use methods of lunch payment systems such as pre-payment to avoid openly identifying children who qualify for free or reduced meals. Meal cards, tickets, tokens or other methods of payment must not be coded or colored to identify such status.

Policy Communication

This policy will be provided in writing to all households at the start of each school year and to households that transfer to the district during the school year.

This policy will also be provided annually to all district staff responsible for enforcing the policy including food service professionals. Staff members such as counselors, school nurses, homeless liaisons, and others assisting students in need should also be informed of the policy.

The district will maintain documentation of the annual distribution of this policy.

It shall be the responsibility of the superintendent to implement this policy.

Updated 1/25/2017

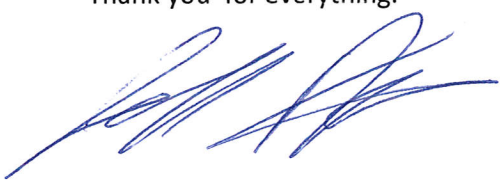

Dear Board of Education,

I want to thank you for all the opportunities that you have given me here at Schuyler Community Schools. I could not have asked for better support from everyone here at this great district.

The reason for this letter is to tender my resignation as Food Service Director for the 2017-2018 school year. I have received a job offer that will provide me to be able to go to different schools and help them with their programs as well as provide more financial stability for me and my family.

I wish to thank everyone in the SCS community. I really thought that I would be here a long time, as I truly enjoy working here. The support everyone has shown has been awesome. The administrators are fantastic, I could not have asked for better. I do love this job, and this district. I hope I am able to come back here with my new job some day.

Thank you for everything.

Jeff Andel

7-27-17

This letter is to let my supervisor and the school know about my two weeks notice, which will be 8/10/17 to 8/24/17. Just wanted to say thank you for giving me the opportunity to work here. I also want to thank Mrs.Vrba and Mr.Comley for giving me my first job and for trusting me with such a responsible position. I had a great time working at SES with all the teachers and Miss Weihl. They really made me feel like part of a family. And if there is another chance of me coming back I would really appreciate it.

Thank You

Roberto Magaña

CONTINUING THE VISION ..... ONE VISION - ONE STATE

A recap, update and continuation of the discussion from 2016 on the development of a vision for addressing Nebraska's reliance on property taxes for school funding, taking last year's feedback to build a formalized plan of action that we can take back to our legislators / lawmakers, as well as the districts and communities you represent.

THE BOARD'S ROLE IN DEVELOPING RESILIENT STUDENTS

Why are some students discouraged at the first setback, while others overcome every obstacle in their path? Decades of research indicate effective classrooms and supportive relationships are even more important than the student's natural personality and inborn qualities in developing resilience to adversity. We'll discuss methods, measurements, expectations and policies to create classrooms that foster student resilience in your district. *Presented by Jim Luebbe, Director of Policy Services*

THE MASTER KEY TO MANAGING YOUR BOARD MEETINGS!

See how key stakeholders in some of Nebraska's largest, medium and smallest school districts have unlocked the key to simplifying their board meetings and documents, while improving their overall quality and output by utilizing a paperless board meetings system that can do it all in one easy to use, intuitive application. *Presented by Craig Caples, Director of Technology*

EDUCATING AND EQUIPPING BOARD MEMBERS

Developing your knowledge as a new board member is critical to contributing to the overall effectiveness of your local school board. This session will provide a foundation of information to build upon as you grow in your role. Experienced board members will receive a refresher on best practices to share with new members on your board. Network with board members from your region and create a personal relationship with NASB staff members knowledgeable in board protocol and procedures. *Presented by Shari Becker, Director of Education Leadership Search Service, and Will Jones, Associate Director of Board Leadership*

COMMUNICATING THE CAPITOL TO THE COMMUNITY

With 670 bills,130 related to education and/or taxes in 2017 alone, what am I expected to know to properly report back to my district and community? How involved do I need to be? Is testifying in front of a committee as scary as I think? Will my phone call REALLY make a difference? What tools can I be using to be most effective during both the Legislative Session and year-round? Get answers to these questions and more, in an easy, layman's breakdown, as we all work to become better advocates for public education in Nebraska! *Presented by Matt Belka, Director of Marketing, Communication & Advocacy*

NEGOTIATIONS - TIMING AND DATA ARE EVERYTHING!

This session will outline and simplify the negotiation process. It will provide an overview of the statutory requirements and necessary steps of the comparability process, demonstrate how to gain an advantage in the negotiation process, utilize various tools that will ensure your district is following the applicable Industrial Relations Act requirements, instantly create and access data reports, and view real-time placement calculations. Come see how your district can save time using these simple tools to effortlessly streamline your negotiations. *Presented by Craig Caples, Director of Technology, and Matthew Dunning, Legal Counsel*

CAN WE TALK?

How is your district engaging your parents and community? Engaging the community in discussion conveys assurance and fosters a connection with your community stakeholders by strengthening the public image of the school district and building a positive working relationship. This session will engage participants in the discussion of how, when, and why the process of engagement can build community trust for the board and superintendent. *Presented by Marcia Herring, Director of Board Leadership*
