The new and renovated facilities would address the following program needs:

Restrooms: Handicap accessible (new and remodeled restrooms)

1. We currently have no restrooms in the high school that meet ADA requirements
2. If we renovate current restrooms by the high school gym or auditorium to meet ADA, we would not have sufficient facilities to meet capacity of either area.

Parking: Increased security and parking for school and community events

1. ADA parking around the building on the west side is not adequate
2. Bus loading and unloading zone before, after, and during school and activities creates safety problems on the street in front of the west gym.
3. Service entrance on the street on the west side of the high school also creates safety problems when food service and maintenance, trash, etc... before, during and after school hours.

Food Service: Kitchen, serving area, lunch room, commons area for meetings and events

1. Serving area for students is limited requiring longer service times, extended lunch schedules, and limited access for students.
2. Current food service area is too narrow for ADA compliance.
3. Students are served behind the service counter in order to accommodate the number of students in each lunch shift.
4. Reduce from four lunch periods to two. Improve academic schedule to accommodate class schedule.
5. Increase seating to accommodate students in each lunch period.
6. Increase meal options and service lines for breakfast and lunch programs.

Concessions: Concessions for school and community events

1. One central concession area with tables to accommodate storage and vending during activities.
2. Organization with concessions storage and access to the football field/track venue.
3. Larger concessions area to accommodate special events, soup suppers, etc...

Event Center: Renovation of the east gym and stage to accommodate handicap accessibility for performing arts, dance, music, drama, meetings community events, etc...

1. ADA accessible stage
2. Improved seating for school activities and community events
3. Improved acoustics and sound for speech, music, drama, etc...
4. Improved lighting, heating, cooling, and ventilation

Gymnasium: to accommodate varsity wrestling, basketball, volleyball, large school and community gatherings, graduation, etc...

1. Both gymnasiums in the same area to accommodate multiple sporting events with completion in both gyms.
2. Security of the building to lock off the classroom areas during athletic events and/or events in the east gym.
3. New gymnasium with increased seating would allow us to host conference and district contests.
4. Gymnasium available all-day for health and physical education classes.

Locker Rooms: Additional locker room space (two additional locker rooms, training room)

1. Two additional locker rooms to accommodate our student athletes.
2. Locker rooms for both home and visiting teams.
3. Training room for care and prevention of athletic injuries.
4. Dressing room for adults/officials.

Wrestling: Practice room on mezzanine level to accommodate wrestling practice for youth, middle, and high school athletes.

1. Wrestling room and locker rooms in the main building with access to the gyms
2. Storage rooms to accommodate athletic equipment storage and wrestling mats.
3. Wrestling practice room available for warm-up during tournaments and multi-team duals.
4. Wrestling room available to students outside of the wrestling season.
