Adoption of Resolution of Sublease Agreement for Southeast Technical College was tabled for a later approval date during the **approval of the agenda**.

Action 39851

Dr. Kirk Zeeck, Assistant Superintendent, presented **Sioux Falls School District Academic report** as follows (MRF #19828):

The Sioux Falls School District (SFSD) is dedicated to maximizing student success and uses a range of assessments to measure student achievement. In addition to assessment data, the SFSD monitors attendance, graduation rates, and growth over time.

The data collected through these various assessments reflect positive results. On-time graduation rates outpaced the state and increased by three percentage points to 89%, the highest in the past nine years.

Eight hundred eighteen students from the SFSD (50% of the 2025 graduating class) took the ACT Exam. The SFSD average composite score was 22.5, up from 22.0, and the SFSD continues to outpace both the state and national averages.

The combined College Career and Readiness indicator remained steady at 52%. Achievement scores collected through the South Dakota Assessment were steady, with English Language Arts remaining flat, math increasing by 1%, and science decreasing by 1%. However, student growth in both ELA and math increased by 3% over the prior year and continued its upward trend.

Students learning English as a second language are making steady progress, with 31% either exiting the EL program or on track to exit. Attendance, which has been a focus of the SFSD, increased by one-half percentage point.

A motion was made by Elizabeth Duffy and seconded by Dawn Marie Johnson four (4) votes “yes” on roll call **acknowledging the Sioux Falls School District Academic report.**

Action 39852

Kristin Grinager, High School Curriculum Coordinator, presented **AP and Dual Credit report** as follows (MRF #19829):

The Sioux Falls School District (SFSD) continues to demonstrate strong academic achievement through its Advanced Placement (AP) and Dual Credit programs, which provide rigorous, college-level learning opportunities for high school students.

In the 2024-25 school year, 1,989 students took 3,577 AP exams, more than half (55%) of all exams taken statewide. The SFSD students achieved an impressive 80% pass rate of three or higher, surpassing both the state (74%) and global (69%) averages. The District offered more than 30 AP courses, allowing students to explore a wide range of academic subjects at an advanced level. To help make those courses accessible, the District subsidized more than 1,000 AP exams for students in financial need. Additionally, participation among students from a variety of backgrounds continues to grow. The College Board recognized 690 SFSD students with AP Scholar distinctions, reflecting their consistent high performance.

Dual Credit participation also increased, with 585 students —10% of all participants statewide— earning college credit through courses approved by the South Dakota Board of Regents in partnership with Southeast Technical College and other postsecondary institutions. Several dual credit courses are now taught by SFSD staff, further expanding access while maintaining high instructional quality.

Together, these programs provide students with meaningful opportunities to engage in challenging coursework and achieve academic excellence.

A motion was made by Gail Swenson and seconded by Elizabeth Duffy four (4) votes “yes” on roll call **acknowledging the AP and Dual Credit report.**

Action 39853

Todd Vik, Business Manager, presented **2026 Sioux Falls School District Legislative Priorities report** as follows (MRF #19830):

The Sioux Falls School District remains committed to advocating for fair, stable, and forward-looking education funding as the 2026 legislative session approaches. Working alongside other large districts in South Dakota, the District has identified four top priorities: securing an annual increase in the state aid formula of at least 3% or the Consumer Price Index (whichever is greater), maintaining a capital outlay funding formula that reflects growth and inflation, promoting consistent property assessment practices that ensure equitable revenue for K–12 schools, and preserving local control in decision-making.

At the state level, the Comprehensive Property Tax Task Force has proposed a major tax relief package aimed at delivering roughly 25% property tax reductions for homeowners statewide. While the plan includes rebates and state spending cuts, several of its nineteen recommendations could negatively impact public schools by restricting financial flexibility, limiting revenue growth, and requiring additional voter approval for district funding measures. In addition, Governor Rhoden has announced a separate property tax relief proposal through an optional half-cent county sales tax.

The District will continue to monitor these developments closely and work with legislators to ensure that any property tax reforms balance relief for taxpayers with the need to sustain strong, high-quality public education in Sioux Falls.

A motion was made by Dawn Marie Johnson and seconded by Elizabeth Duffy four (4) votes “yes” on roll call **acknowledging the 2026 Sioux Falls School District Legislative Priorities report.**

Action 39854

On motion by Gail Swenson and seconded by Elizabeth Duffy four (4) votes “yes” on roll call, the School Board **adjourned** at 6:46 p.m.

Graduation Rates and Freshmen Transition to Tenth Grade Report EXECUTIVE SUMMARY

Purpose of Report: The purpose of this report is to provide an overview of the high school graduation rates and the transition rates of ninth grade students successfully advancing to tenth grade.

The Sioux Falls School District (SFSFSD) continues to strengthen student outcomes, with on-time graduation rates rising from 84.8% in the 2019-20 school year to 88.7% in the 2024-25 school year, nearly three points above the state average. The District's "Completer Rate", which includes students who earn a diploma or complete their high school requirements within five years, remains strong at 90.4%, reflecting effective support systems that help students stay engaged and finish high school, even if additional time is needed.

Strong early high school supports play a major role in these results. The Summer Connections Program helps incoming ninth graders build relationships, understand expectations, and feel prepared before the year begins. During the school year, the Freshmen Academy provides a structured, team-based model that includes mentoring and coordinated interventions. This approach has proven highly effective, with more than 95% of students in the Freshmen Academy advancing to tenth grade each year. The program serves roughly 80% of ninth graders districtwide and continues to be a key driver of early high school success.

High schools reinforce this foundation with credit recovery options, academic counseling, advanced coursework, and regular progress monitoring. These combined efforts have increased the total number of on-time graduates while reducing the number of students pursuing GEDs.

Together, these multi-layered strategies reflect a districtwide commitment to preparing every student for graduation and success beyond high school.

Administrative Recommendation to School Board: Acknowledge the report on the Sioux Falls School District High School Graduation Rate.

Graduation Rates and Freshmen Transition to Tenth Grade Report

Purpose of Report: The purpose of this report is to provide an overview of the high school graduation rates and the transition rates of ninth-grade students successfully advancing to tenth grade.

Priority Area: Student Outcomes

Explanation: This report highlights multi-year trends and key factors that influence student success. The information supports ongoing efforts to improve graduation outcomes, ensure early high school readiness, and guide interventions that promote on-time graduation for all students.

Over the past six years, the Sioux Falls School District has shown steady progress in on-time graduation rates, demonstrating the district's ongoing commitment to supporting student success. Since the 2019–20 academic year, the district's graduation rate has increased from 84.8% to 88.7%, representing a gain of nearly four percentage points.

Throughout this period, Sioux Falls students have consistently outperformed the state average, widening the gap in recent years. In 2024–25, the district's graduation rate stood at nearly three percentage points higher than the state's 85.7%.

In addition to the district's steady growth in on-time graduation rates, the "Completer Rate," which includes students who earn a diploma or complete their high school requirements within five years, remains strong and continues to demonstrate the district's commitment to supporting every learner. The Sioux Falls School District's Completer Rate has consistently remained near 90%, reaching 90.4% in the 2024–25 school year. While the state saw a slight increase this year, Sioux Falls continues to maintain a high level of student completion, reflecting the district's focus on re-engagement efforts, alternative pathways, and individualized support for students who need additional time to graduate. These outcomes underscore the district's dedication to ensuring all students have the opportunity to complete their high school education and are prepared for their next steps beyond graduation.

The following table shows the Sioux Falls School District's graduation rate over the past six years.

Graduation Rates						
	2019-20	2020-21	2021-22	2022-23	2023-24	2024-25

State Overall	93.1%	89.9%	90.4%	90.5%	91.3%	91.3%

The Sioux Falls School District consistently demonstrates strong on-time graduation rates. As reflected in the graduation cohort data, the number of on-time graduates has steadily increased from 1,432 in 2019–20 to 1,635 in 2024–25, highlighting the district's continual focus on student achievement and support.

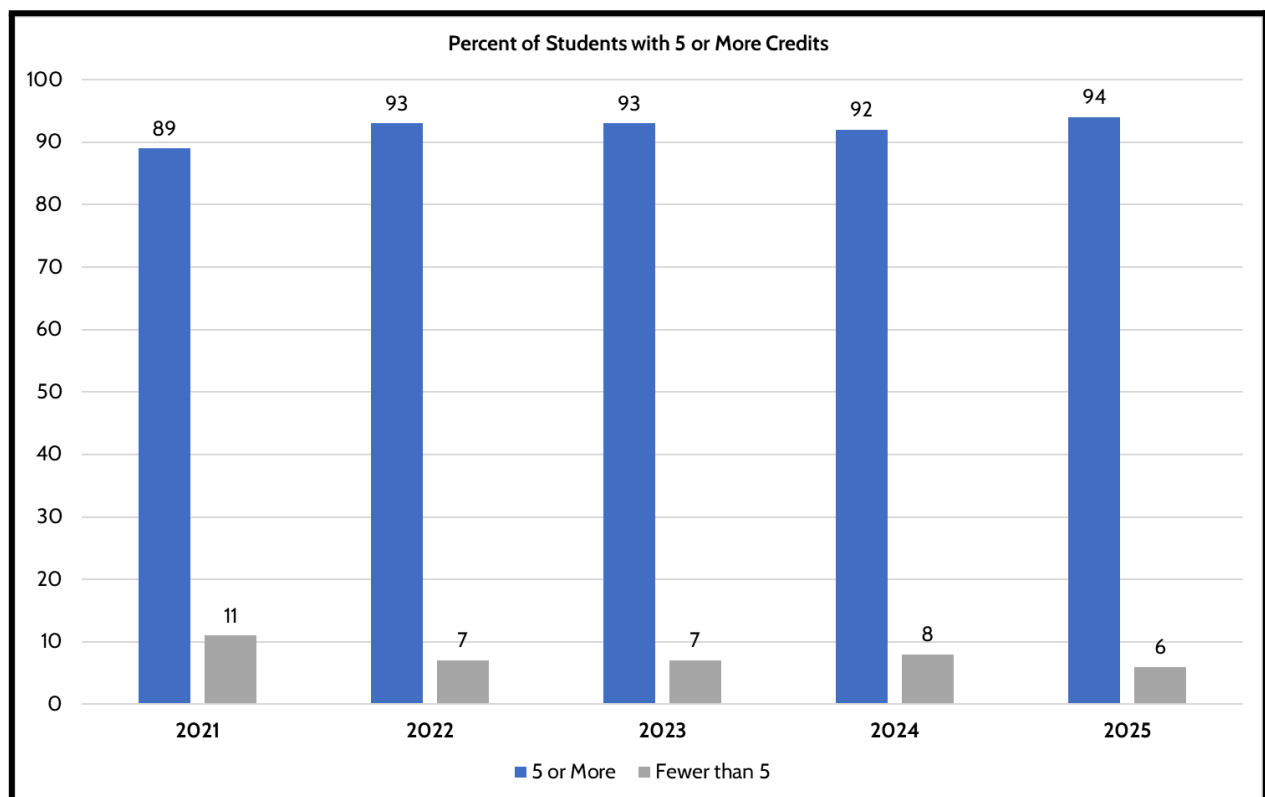

Overall, the total number of graduates has grown steadily, reaching 1,638 in the 2024–25 academic year, reflecting both district growth and sustained student success. Additionally, the number of students completing a GED has declined over time, from 30 in 2019–20 to 13 in 2024–25, further emphasizing that the vast majority of students are successfully completing the traditional diploma pathway.

*This number will rise.

A key factor contributing to the district's strong graduation rate is the intentional support provided to students as they begin their high school journey. Each high school offers a Connections Program during the summer to ease the transition for incoming ninth graders. The program is designed to build student confidence and familiarity by allowing participants to walk through their schedules, meet teachers, and connect with peers in small-group settings. These experiences help students understand the culture and expectations of their new high school before the start of the academic year. Additionally, upperclassmen serve as mentors, offering guidance and modeling positive engagement, fostering a welcoming and supportive start to the high school experience.

To advance from ninth to tenth grade, students must earn at least five credits, establishing a strong foundation for completing the twenty-two credits needed for graduation. Students who do not meet this benchmark are reclassified as ninth graders to ensure they receive additional support and guidance. As shown in Chart A, the district has consistently supported students in meeting this milestone. These results demonstrate the district's continued focus on early academic success and proactive interventions to keep students on track toward graduation.

Since 2008, The Freshman Academy has served as a transition model supporting ninth-grade students in successfully adjusting to the academic and social expectations of high school. Rather than being housed in a separate wing, freshmen are fully integrated into the school, supported by four teacher teams who closely monitor progress, provide coordinated interventions, and

foster strong connections with students and families. Teachers in the program have a seven-period schedule that includes one short study hall and lunch, one personal planning period, one team collaboration period, and four instructional periods. A student is part of The Freshman Academy when they have two or more teachers from the same team. About 80% of freshmen participate, while others take accelerated, special education, or English Learner courses that limit full inclusion.

The Freshman Academy requires an additional 3.5 FTE to fund a full-time coordinator and daily team collaboration time. Since its inception in 2008, between 91% and 96% of freshmen in The Freshman Academy have advanced to tenth grade, with recent years maintaining rates above 95%. These outcomes highlight the program's effectiveness in fostering early relationships, promoting coordinated communication, and fostering shared accountability, all of which are key factors in supporting ninth-grade success and long-term high school achievement.

The district's commitment to student success continues beyond the freshman year, with targeted strategies for students in grades ten through twelve to ensure they remain on track for graduation. High schools offer credit recovery options, personalized academic counseling, and intervention programs to help students who may have fallen behind. Advanced coursework opportunities, such as dual credit, Advanced Placement, and career-focused pathways, engage students while preparing them for postsecondary education and career readiness.

Additionally, upperclassmen participate in mentorship and leadership programs that foster peer connections, promote a positive school culture, and encourage students to stay the course through graduation. Schools monitor credit progress throughout high school, ensuring students meet diploma requirements within four years while offering flexible pathways for those who need extra time or support. Together, these efforts, paired with early interventions in ninth grade, continue to drive the district's strong on-time graduation and completion rates, reflecting a coordinated, districtwide commitment to every student's success.

EXECUTIVE SUMMARY

Purpose of Report: To recommend to the School Board the timeline and guidelines for the Fiscal Year 2027 (FY27) Budget.

A committee of Sioux Falls School District administration, two school board members, and various staff have developed the proposed budget timeline and guidelines for the FY27 Budget of all funds of the District.

The guidelines also require Central Leadership and Budget Advisory teams to prepare significant reduction line items in the Committed Funds cost center.

Administrative Recommendation to School Board: Approve the FY27 Budget timeline and guidelines as presented.

FY27 Budget Guidelines

Budget Committee Level:

- Allocate District resources only to direct achievement of Sioux Falls School District mission and priorities
- Evaluate existing programs to determine effectiveness of meeting District mission and goals; every program will justify need for existence based upon research and/or performance data
- Strive to maintain class size ratios at elementary, middle, and high school levels
- With the exception of committed funds, the penitentiary program, early intervening services (federal) and out-of-District placements, for each unrestricted general and special education cost center, make reductions to the current program to establish the following budget levels:
 - 98% of current program (depending on whether cuts were made the prior year)
 - 99% of current program
 - Present a budget at 100% of current level program.
 - Expansion program budgets may be submitted.
- If an expansion packet is requested by any program within a subset of programs, (i.e. elementary programs, middle school programs, etc.), an off-setting reduction must be made in a different program within the subset. The offset shall cover the difference between the 98% budget and the expansion budget. The committee shall present points as to why the expansion and correlating reduction should be accepted by the Budget Review Committee. Likewise, if the reduction in the second program makes that program untenable, an explanation must be made of why the expansion would be a good choice if the funds were available.
- To the extent possible, include relevant Return on Investment (ROI) data in the Program Description/Justification.
- Ensure that all budget levels below 100% of current program include reductions that comply with negotiated agreements and state/federal requirements.
- Prepare "Impact on Program" narrative that is specific and relates to the District's priorities.
- Prepare significant reduction line items in Committed Funds cost center (run through Central Leadership and Budget Advisory teams).

Budget Review Committee Level:

- Recommend funding priorities that support the District's Strategic Plan
- Prioritize all levels within \$500,000 of the funded range and all levels outside the funded range
- Prioritize federally-funded programs to ensure optimal use of federal dollars to supplement local dollars
- Align fund balance to the approved five-year budget plan
- Prepare revenue deficit options to align with five-year budget plan
