No public comment.

#### VI. INFORMATION AND PROPOSALS

##### VI.1. ACTIVITY DIRECTOR'S REPORT

Mr. Hauxwell informed the board that junior high wrestling had their first meet on November 5th and the other winter sports teams would begin practice on November 16th. He went over the NSAA guidelines as well as the new directed health measures and how those would affect winter sporting events. On November 23rd the SPVA board of directors will meet at Chase County. The SPVA play production will also be held that day. Perkins County is the host school, but has asked to use our auditorium. Mr. Hauxwell also attended the NSAA District 5 meeting that was held on November 2nd and explained all the proposed changes that were voted on that day.

##### VI.2. PRINCIPALS' REPORT

Mrs. Odens talked about the Halloween Parade of Costumes and how this year it was live streamed online for parents to see their children. She also mentioned that the PTO and Cox's Pond donated pumpkins to be decorated in art class for the K-4 students. She briefly went over the teacher in-service on November 9th and explained that the teachers were able to work in their PLC groups and discuss what the next couple weeks would look like. She informed the board that there was a Veteran's Day program on November 11th for the students and that the PTO book and health checks were also taking place this week. November 16-20 is American Education week and PBIS would supply snacks and drinks for the staff that week. She talked about the ARC in-services they had since the last board meeting and discussed how she felt the program was working in the school.

Mr. Sorensen updated the board on his progress with 7-12 teacher evaluations. He attended an ESU 15 meeting on October 22nd with Ms. Hess and Mrs. Bartels for SPED. He said they had met their goals that were set last year and they also created new goals. He also mentioned the ARC in-services and told the board he was seeing progress with the 7-12 students and teachers. He also talked about the in-service day on November 9th. He gave the board the list of questions that the teachers were given to discuss in their PLC groups.

### VI.3. SUPERINTENDENT'S REPORT

Mr. Lambert updated the board on academics, building & grounds, and budget & finance. Some items he mentioned were plans created to offer remote learning to students under quarantine including the purchase of ARC online access and hotspots from Viaero. ACT scores were received and Mr. Herbert & Mrs. Lambert met with the students to discuss their scores. He said currently attendance is back to normal after the spike in cases & quarantines. The swivl devices were received and currently 4 teachers are testing them in their classrooms. Regarding building & grounds he said the arboretum sign was now in the cafeteria, the Ford vans had been ordered, the custodial staff is needing equipment to clear snow, new camera equipment was received and starting to be installed, Allo Communications had sent a bid to get phones in all the classrooms, and the cement work by the Kindergarten classrooms should be done by the end of the week. Lastly, he ended saying that the 19-20 audit had been completed and that the administrative team would be sitting down to determine personnel needs for the upcoming school year.

# Activities Director's Report

Thank you to Jill Bauerle, Mary Fortkamp, the Cast and Crew for their time and effort on **Play Production**. The cast did a great job and felt they had their best performance at Districts. They competed at Districts in Bridgeport and Finished 7th in a really strong district.

**The NSAA District 5 meeting** will be – **Wednesday, January 13 – 1:00 CDT/12:00 MST p.m. – Holdrege, The Tassel.**

**Youth Basketball** we are waiting to January before we start Saturday morning activities. Practices would have to look differently and be spread out. Some of the youth teams have began practice at the City Gym.

**Hudl-** Focus Camera will continue to be used to stream basketball games at all levels. We are also using an Ipad in the Auxilliary gym to stream the JV Boys games on Meridix.

**Fall Academic All-State** is to be submitted by December 15th. Academic All-State includes contributing athletes with a GPA of 3.7 or higher and contributor to the team.

**Winter Activities Participation Numbers:** High School- 16 Girls Basketball, 23 Boys Basketball, and 12 Wrestlers (10 Boys and 2 Girls). Junior High- JH Girls Basketball 27, JH Boys Basketball will begin tomorrow after school in the Longhorn gym.

**Attitude of Gratitude-** Thankful for the 2 extra days at the Christmas Break. Thankful for all the extra work and help to keep activities moving along.

**Wrestling Trinagular-** Kimball is in quarantine, but we are looking to add Wauneta-Palisade to increase matches. This will allow us to continue to move forward and host the triangular with Leyton and Wauneta-Palisade.

**Colorado Opponents-** Colorado has had their Winter Start date move to February 1st.

If you have any questions about my report, please email me at [thauxwell@chasecountyschools.org](mailto:thauxwell@chasecountyschools.org)

**7-12 Principal's Report  
December 8, 2020  
Mr. Sorensen**

**I have been out of the building and quarantined November 25th through December 6th.**

- **December MAP testing has started and will conclude December 18th.**
- **Teacher evaluations for this semester will be finished up this week.**
- **Subs are tight right now and we are seeing a small increase in teachers being out of the building due to sickness and pregnancy. I predict we will be limping along to the finish line next Friday. Staff have done a great job of stepping up and covering for absent teachers when a sub is not available.**

Mrs. Odens' December, 2020 School Board Report

MAP testing started this week and will finish by Winter Break. Report cards will go home when we get back from Winter Break and will include MAP results.

I have completed the non-tenured staff's first semester evaluations. I am also about half way through the tenured staff's evaluations for the year. I will begin the second evaluations for non-tenured staff and the rest of the tenured staff in the middle of January.

The individual K-4 Christmas vocal concert is tonight. The kindergarteners started the night off at 5:00 and will end with the fourth graders performing at 7:00. The 5-12 vocal concert will be Thursday, December 10th starting at 6:00 with the 5th grade vocal students and will finish up the high school vocal starting at 7:30.

The PTO is again sponsoring a movie for the 3-4 grade classrooms on the last day of school before Christmas break. The students will have the opportunity to get popcorn and pop from the concession stand area and then make their way back to their classrooms. They will then watch a movie and enjoy their treats from the PTO in their individual classrooms. The K-2 classrooms all have themes this year and will be having Christmas parties and movies on the last day of school before Christmas break.

I have heard a lot of appreciation from staff about having the extra two days off before Christmas. The staff is thankful for the extra time to regroup.

## Dec. 8, 2020

Adam Lambert  
Superintendent of Schools

### Academics & Students

- Continue to offer extra curricular activities with our health department in the red and new DHM's in place
- Academic leadership team studied all the department needs and will present potential personnel needs to the board.
- Met with MPCC president Ryan Purdy to talk through the offerings that we currently receive and started talking about future endeavors to expand those offerings
- Stress levels have been increased for both students and teachers as we near the end of 2nd semester
- Teachers and academic leadership team have been doing a good job meeting in their PLC's. It is great that our departments are meeting on a consistent basis to collaborate and discuss curriculum, standards and student needs.
- Called off school for Dec. 21 and Dec. 22. Entire staff has been working extremely hard and this is a much needed break extension. Activities will continue as scheduled.
- Principal evaluations were completed. As we all have things we can work on, I couldn't be more proud of the hard work and dedication our principals put in on a daily basis. I feel like we work as a great team and will continue to grow as the year goes on.

- Common theme that I have observed and will continue to praise is that the entire staff is all hands on deck. Whether they help drive a bus, help out with custodial duties or sub for each other, it is impressive to see the dedication to CCS.

## **Building & Grounds**

- New Cameras continue to be updated on a weekly basis. There are two controllers that essentially split the building in half, which is a really smart configuration.
- Concrete work on the west side of the building near the kindergarten classrooms has been completed and looks really nice.
- Jeff E. has found some dead spots with our wifi connections in the building and has been working on addressing those areas of concern.
- Allo communications will be running a new line into our building to take over the phone service. I anticipate the current phones being updated potentially by 2nd semester. Still planning out when the entire school will be up and running for every classroom.
- Did a walk through with Dallas B. and examined carpet needs for next year. Will need to meet with the building and grounds committee to get a plan in place in preparation for the summer and what needs to address.
- We did have a minor bus accident. The bus was traveling at 7mph. The bus driver and three students were all ok with no injuries. As of right now insurance is trying to decide if they will fix it or total it out since it is an older model with high miles.

## **Budget & Finance**

- Received a \$2,700 donation from Allo communications from there education program.
- Overall general fund budget looks good. We should be good through January as it sits and should receive tax dollars next month as well.

everything in our power to build/ship machines as quickly as possible within that time frame. For typical orders, a minimum non-refundable down payment of \$2,500 is required to reserve your machine and allow assembly to begin. Deposits can be paid via credit card, check, or bank wire transfer. The remaining balance of your order will be due when your machine is ready for shipping. You may also choose to pay the full amount up-front, however doing so will not decrease your lead time. IF you are FINANCING the machine through a STEPCRAFT approved Finance Company, then full payment up front, from the Finance Company, is typical to reserve your machine and allow assembly to begin. STEPCRAFT must receive official documents and cleared funds before your order is confirmed. IF you are using your own Financing Company, or have chosen to finance only PART of the machine purchase with any company, then your balance owed must be paid prior to the machine shipping from our facility. IF reserving a machine on PURCHASE ORDER then the official Purchase Order document must be received and accepted to reserve your machine and allow assembly to begin. FULL PAYMENT for the machine is then expected within 30 days of receiving it (NET 30) \*Purchase Orders are only accepted from schools and government institutions.

NOTE: ACQUIRING AND USING A FORKLIFT FOR UNLOADING Q.404 & Q.408 MACHINES OFF THE DELIVERY TRUCK IS THE CUSTOMER'S RESPONSIBILITY. ACQUIRING AND USING PALLET JACKS TO ASSIST WITH UNLOADING AND/OR MOVING Q.204, Q.404, and Q.408 MACHINES INTO PLACE ONCE UNLOADED, IS ALSO THE CUSTOMER'S RESPONSIBILITY.

## 2-Year Limited Warranty

### For STEPCRAFT D-SERIES Q-SERIES

#### WHAT THIS WARRANTY COVERS?

STEEPCRAFT GmbH & Co. KG / Stepcraft, Inc. ("STEEPCRAFT") warrants to the original purchaser that the product purchased (the "Product") will be free from defects in materials and workmanship at the date of purchase.

#### WHAT IS NOT COVERED?

This warranty is not transferable and does not cover (i) cosmetic damage, (ii) damage due to acts of God, accident, misuse, abuse, negligence, commercial use, or due to improper use, installation, operation or maintenance, (iii) modification of or to any part of the Product, (iv) attempted service by anyone other than a STEPCRAFT authorized service center, (v) Product not purchased from an authorized STEPCRAFT dealer, or (vi) Product not compliant with applicable technical regulations.

OTHER THAN THE EXPRESS WARRANTY ABOVE, STEPCRAFT MAKES NO OTHER WARRANTY OR REPRESENTATION, AND HEREBY DISCLAIMS ANY AND IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE PURCHASER ACKNOWLEDGES THAT THEY ALONE HAVE DETERMINED THAT THE PRODUCT WILL SUITABLY MEET THE REQUIREMENTS OF THE PURCHASER'S INTENDED USE

#### PURCHASER'S REMEDY

STEEPCRAFT's sole obligation and purchaser's sole and exclusive remedy shall be that STEPCRAFT will, at its option, either (i) service, or (ii) replace, any product determined by STEPCRAFT to be defective. STEPCRAFT reserves the right to inspect any and all product(s) involved in a warranty claim.

We will accept the return of merchandise that we acknowledge to be defective, and we will offer a repair. If a repair is not reasonable, we offer a non-defective replacement (complete or in parts). At STEPCRAFT's request, defective parts may be required to be returned to STEPCRAFT and will require an RMA, which can be obtained by calling STEPCRAFT support 203-556-1856. In the case of cosmetic damage, Instead of a repair or replacement, we can offer compensation for the reduction in value of a defective product.

SERVICE OR REPLACEMENT AS PROVIDED UNDER THIS WARRANTY IS THE PURCHASER'S SOLE AND EXCLUSIVE REMEDY.

### **LIMITATION OF LIABILITY**

STEEPCRAFT SHALL NOT BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY, REGARDLESS OF WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR ANY OTHER THEORY OF LIABILITY, EVEN IF STEPCRAFT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Further, in no event shall the liability of STEPCRAFT exceed the individual price of the product on which liability is asserted. As STEPCRAFT has no control over use, setup, final assembly, modification or misuse, no liability shall be assumed nor accepted for any resulting damage or injury. By the act of use, setup or assembly, the user accepts all resulting liability.

### **LAW**

These terms are governed by United States law (without regard to conflict of law principals).

This warranty gives you specific legal right, and you may also have other rights. STEPCRAFT reserves the right to change or modify this warranty at any time without notice.

## **1-Year Limited Warranty**

### **For STEPCRAFT Q-SERIES CNC SYSTEMS**

#### **WHAT THIS WARRANTY COVERS**

The STEPCRAFT Q-Series CNC machines and accessories come with a 1-Year Limited Warranty that covers manufacturing defects of parts.

#### **WHAT IS NOT COVERED?**

We will not cover any damage that stemmed from misuse, modifications, or running the equipment outside the parameters specified in our documentation.

#### **HOW ARE SUPPORT AND REPAIRS HANDLED?**

To properly diagnose a problem, please call our support department or send an email to [support@stepcraft.us](mailto:support@stepcraft.us). Please include as much information as you can in your email, including your location (state or time zone), photos and video, if possible. Our support technician will help diagnose your problem via email, phone or visually using Skype, FaceTime, GotoAssist, or TeamViewer. Sometimes it is necessary for us to have "eyes" on the machine in action to help assess the problem.

For the Q-SERIES CNC MACHINE, we will send you replacement parts or repair the item. This is decided on a case by case basis as most issues are unique. STEPCRAFT support technician will be available to answer any questions that you might have.

If your problem is with an ACCESSORY ITEM (NOT the CNC machine), that cannot be repaired by sending you parts, then we will issue you an RMA form via email so you can ship the item back to us for repair. You are responsible for the return shipping cost, but

STEPCRAFT will cover the cost of parts and labor as well as the return shipping, via UPS Ground or USPS Priority, back to you.

### **LIMITED WARRANTY DEFINITION**

STEPCRAFT SHALL NOT BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY, REGARDLESS OF WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, TORT, NEGLIGENCE, STRICT LIABILITY OR ANY OTHER THEORY OF LIABILITY, EVEN IF STEPCRAFT HAS BEEN ADVISED OF THE

POSSIBILITY OF SUCH DAMAGES. Further, in no event shall the liability of STEPCRAFT exceed the individual price of the product on which liability is asserted. As STEPCRAFT has no control over use, setup, final assembly, modification or misuse, no liability shall be assumed nor accepted for any resulting damage or injury. By the act of use, setup or assembly, the user accepts all resulting liability.

### **QUESTIONS, ASSISTANCE, AND SERVICE**

If you have any questions or support-related issues with your STEPCRAFT product, we encourage you to contact us (STEPSCRAFT, Inc.) directly. This will enable STEPCRAFT to better answer your questions and service you in the event that you may need assistance. For questions or assistance, please visit our website or call to speak to a product support representative (IN NORTH AMERICA, SOUTH AMERICA & MEXICO: Stepcraft, Inc. 203-556-1856)

### **NON-WARRANTY SERVICE**

Should your service not be covered by warranty, service will be completed and payment will be required without notification or estimate of the expense unless the expense exceeds 50% of the retail purchase cost. By submitting the item for service you are agreeing to payment of the service without notification. Service estimates are available upon request. You must include this request with your items submitted for service.

Non-warranty service estimates will be billed a minimum of ½ hour of labor (\$70/hr). In addition you will be billed for return freight. STEPCRAFT accepts money orders, cashier's checks, as well as credit cards and PayPal payment. By submitting any item to STEPCRAFT for service, you are agreeing to the STEPCRAFT Terms and Conditions, which you can read by visiting [www.stepcraft.us/shop/terms](http://www.stepcraft.us/shop/terms).

**ATTENTION:** STEPCRAFT service is limited to product compliant in the original country of purchase. If received, a non-compliant product will not be serviced. Further, the sender will be responsible for arranging the return shipment of the un-serviced Product, through a carrier of the sender's choice and at the sender's expense.

## Q.408 CNC System

**Starting at: \$13,999**

The STEPCRAFT Q.408 CNC System offers the ability to process full 4x8 foot sheet stock with an accuracy of  $\pm 0.001$ " and at speeds of up to 475 in/min. The Q.408 also boasts the smallest footprint out of any 4x8 foot CNC in its class, thus saving you valuable floor space in your shop. Every Q.408 is hand built at our facility in Torrington, CT to meet your exact needs.

Every customer has unique needs and requirements for their CNC system. Because of this, it is best to talk to one of our Technical Sales Associates to review your application requirements in order for us to provide you with the exact solution you need. You can reach our sales team at (203)556-1856 or click the "Request Quote" button below.

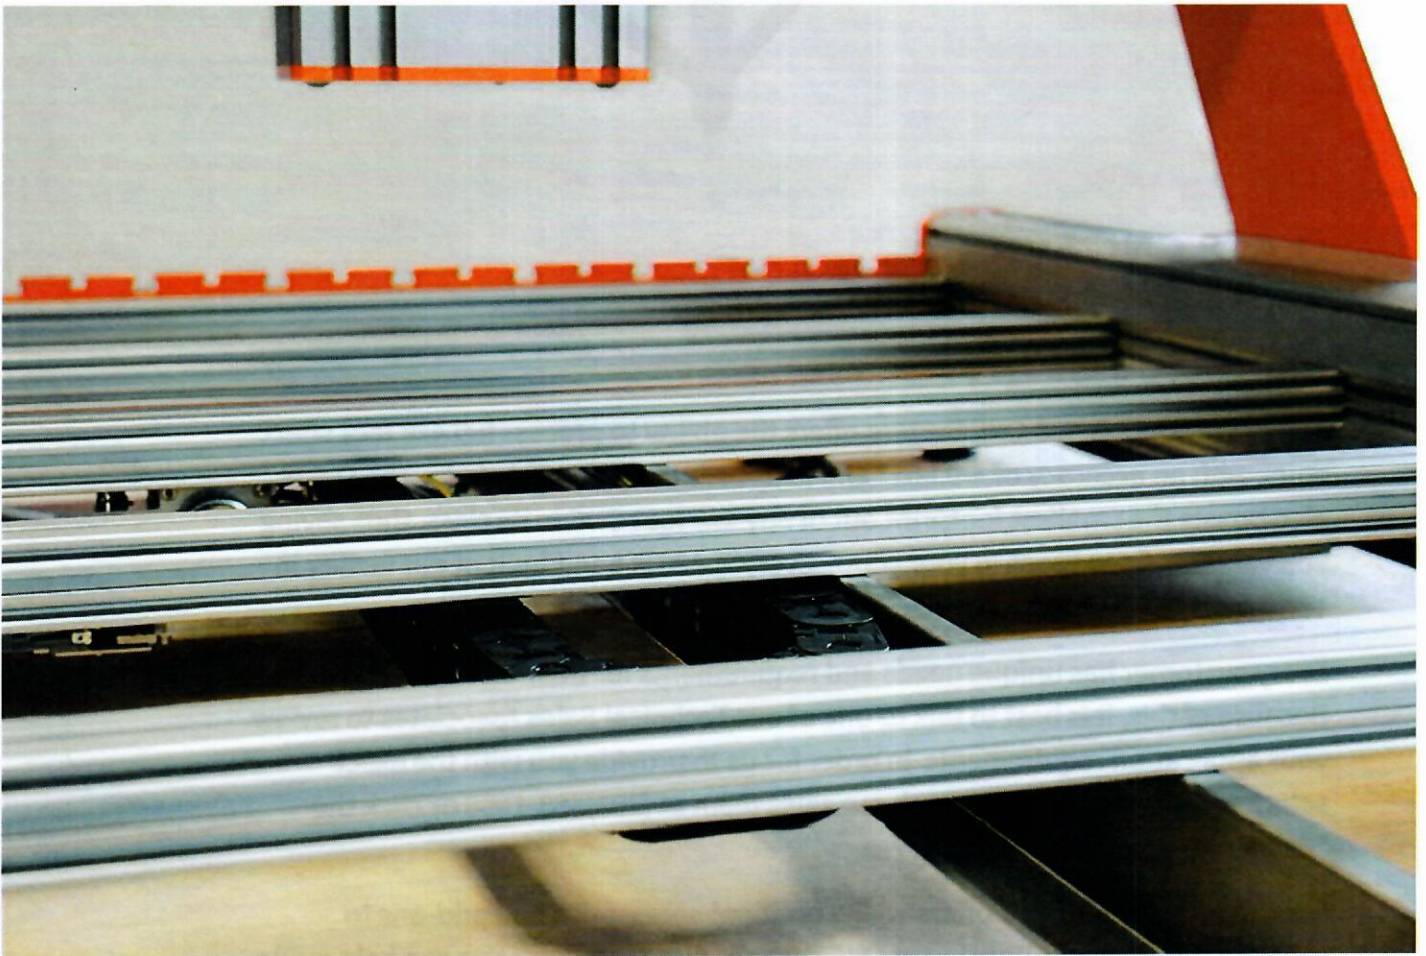

Additionally, STEPCRAFT offers many optional accessories and add-ons to increase the functionality of your CNC system. Our representative can help guide you through the available options and greatly simplify the buying process.

## The Finest In German Engineering

The STEPCRAFT Q-Series sets new standards in the world of computer-aided CNC production systems. The powerful CNC system offers optimal precision and extreme reliability in the manufacturing and processing of high quality work-pieces with a modern design. Thanks to innovative solutions and incorporating the latest in CNC design technology, the Q-Series machines are designed to meet the demanding needs of even the most critical of industrial, woodworking, furniture making and sign making applications. Below we detail the main highlights of the Q-Series CNC systems and many of the options that are available to allow us to build your Q-Series machine to meet your exact needs.

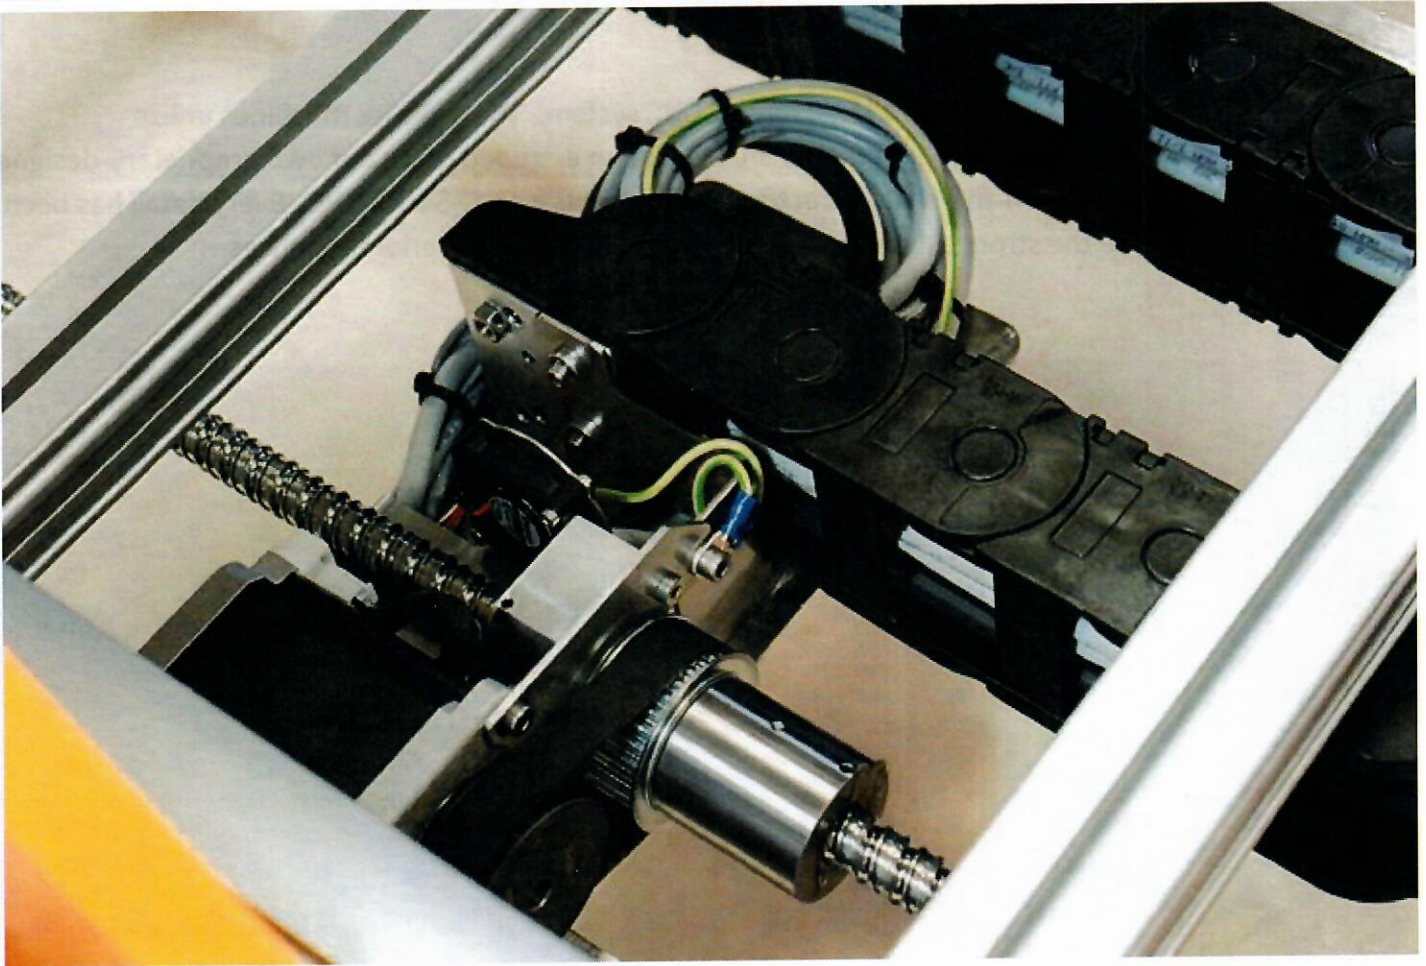

## Reinforced Machine Frame

Rigidity and uniformity are critical on a large format CNC system. The Q-Series machines utilize engineered aluminum frame components that are all custom extruded using our own proprietary-designed dies. You will not find any "off-the-shelf" structural components on a Q-Series CNC. Every detail has been considered to give you the strongest engineered frame possible with superior tolerances.

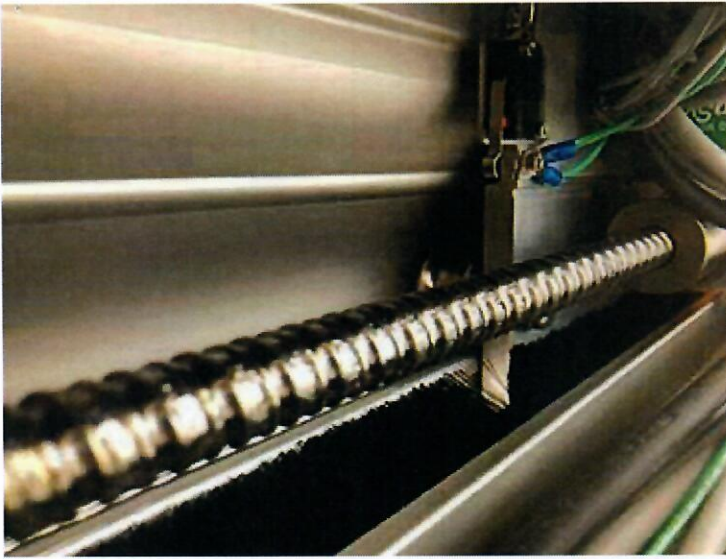

## Laminated Steel Gantry Supports

The gantry uprights on the Q-Series machines are made from 5-layer welded laminated steel, which have been engineered to provide superior strength while allowing for all wiring to be protected and hidden from view. Laminated designs are stronger, stiffer, and can handle much higher loads than solid counterparts. A durable powder-coated paint is applied for a superior finish.

## Accurate, Responsive Drive System

The Q-Series systems utilize precision ball screws on all axes. The Y-axis of the Q.408 has an encoded stepper drive system on both sides of the gantry. These drives operate by spinning the ball screw nut rather than the entire ball screw. This same design is also found in the X-axis with a single drive system. This allows all of the motor's power and resolution to be utilized in the axis's motion rather than wasting power spinning the mass of the ball screw. The result is ultra-fast acceleration and deceleration with incredible accuracy.

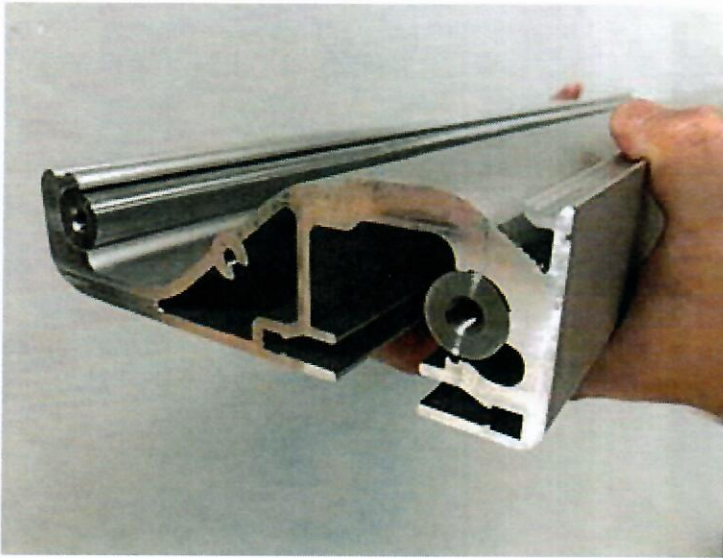

## Hiwin Zero Backlash Ball Screws

When you are looking for the most accurate CNC drive system possible, then ball-screw drives are the only way to go. They do not have the backlash or maintenance issues that you find with rack and pinion systems. Hiwin is a world leader in the engineering and manufacturing of precision ball screws and every Q-Series CNC uses them on all axes, giving you the best possible accuracy with repeatability of  $<0.0006''$

## STEPSCRAFT All-Steel Motion System®

The STEPCRAFT Q-Series CNC systems feature a proprietary STEPCRAFT All-Steel Motion System®. This linear guide system uses 20mm hardened steel rails that are precision ground for superior accuracy. Each steel roller contains two precision SKF bearings with a total of 8 per side on the Y axes and 8 on the X and Z. The end result is an ultra smooth, low maintenance motion system designed to outperform traditional linear guides commonly found on other CNC systems.

## Engineered Aluminum Extrusions

Don't think that just because the major frame components are made from aluminum that you are sacrificing strength and rigidity, because you would be wrong. Frame profiles like the X axis (shown above) are highly engineered to match the strength of steel-frame competitors. Finite element analysis software was used to calculate stress loads and ensure maximum performance from every frame component. There is a reason why the worlds highest performance supercars use aluminum in their engine and drive systems - lighter, stronger, maximum performance.

## Three Q-Series Machine Sizes Available

There are three sizes of the Q-Series available to our customers to ensure that no matter what your application, we have you covered. The Q.204 is a 2x4 foot machine that comes with our without a steel stand so it can be installed on a work bench that you might already have. The Q.404 and Q.408 machines are built on a structural steel frame. All three machines ship fully custom built to the individual customer's specifications and are fully tested prior to leaving our facility.

Overall Size  
Working Space  
Clearing Volume

**Q.204**

996 x 1501 x 870 mm  
623 x 1223 x 145 mm  
800 x 1477 mm

**Q.404**

1566 x 1501 x 870 mm  
1223 x 1223 x 145 mm  
1400 x 1477 mm

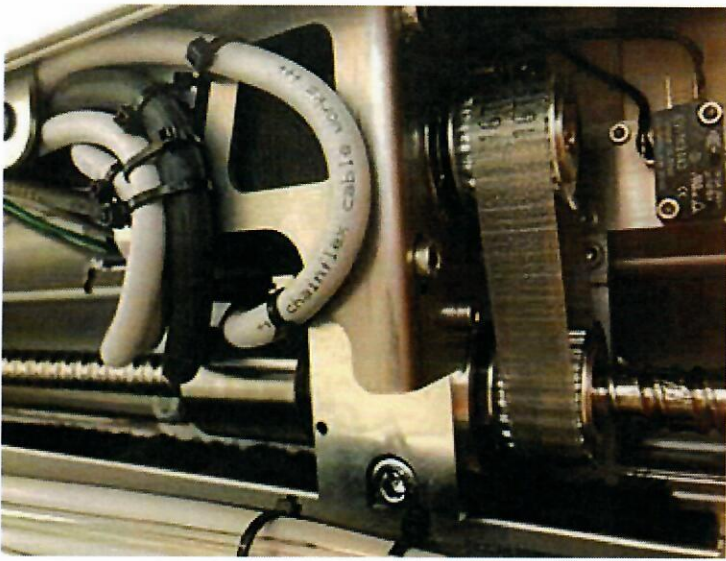

**Q.408**

1596 x 2724 x 870 mm  
1223 x 2446 x 145 mm  
1400 x 2700 mm

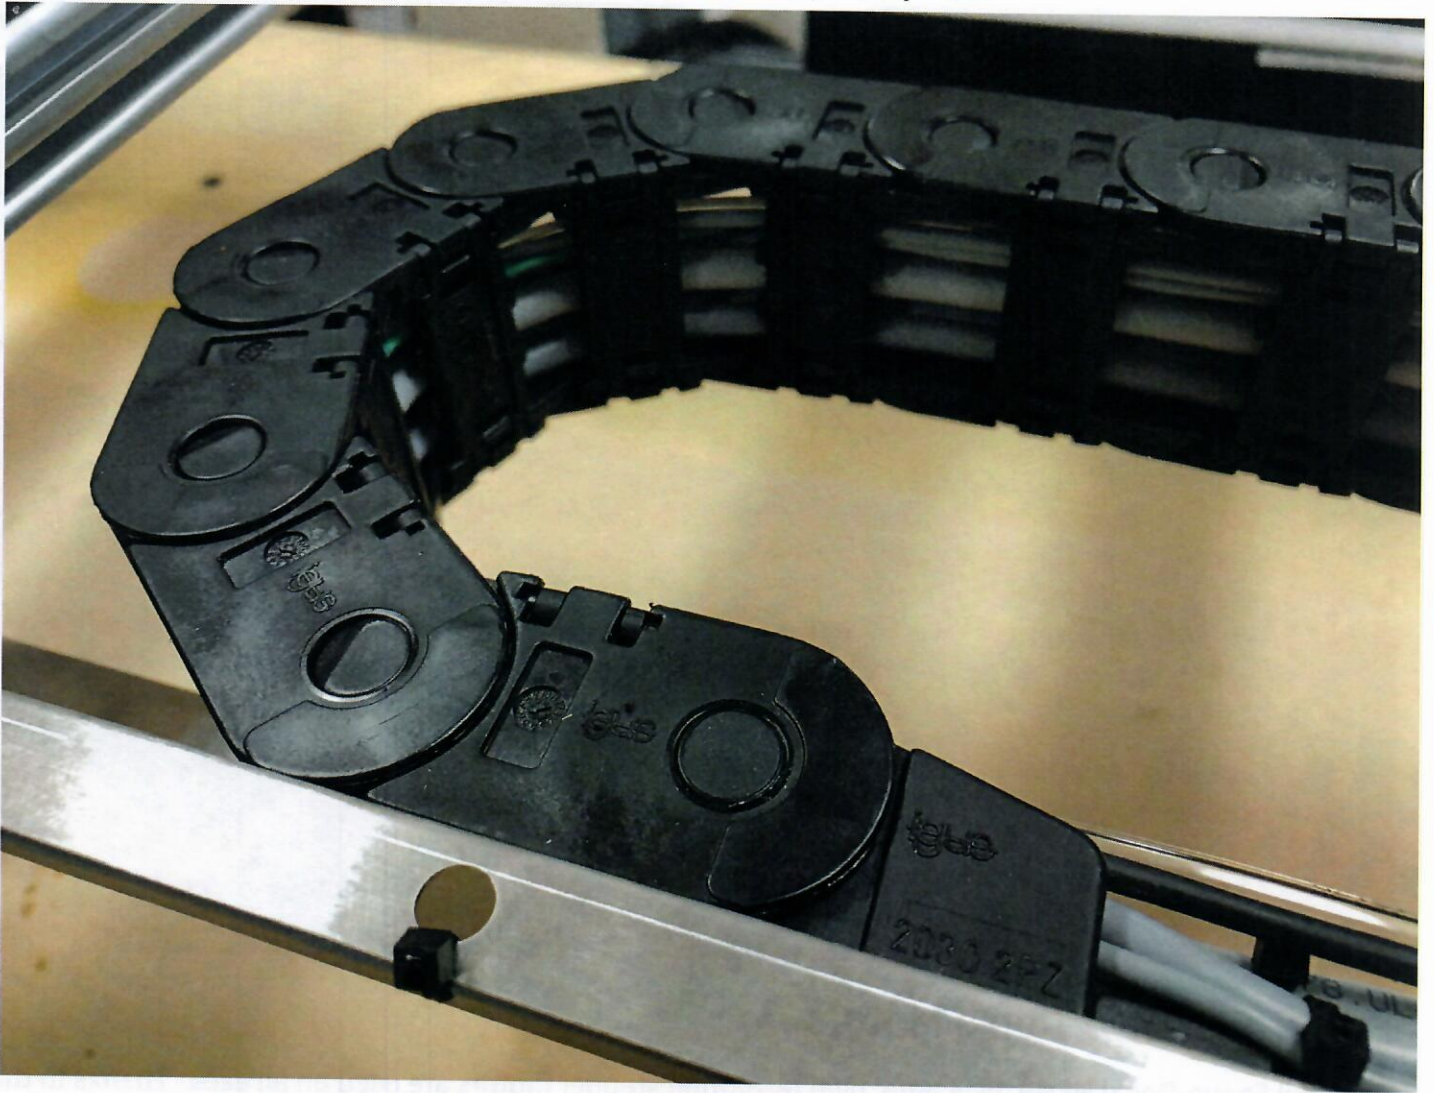

## Concealed Drive Systems

Each axis was designed to be completely concealed using brushes or seal profiles that are integrated into the frame extrusions. These brushes keep 99% of dust and debris out of the critical drive components which yields long, low-maintenance, production cycles. The guide rails, ball screws and other components will always run at their peak and not be susceptible to common maintenance issues found on systems with exposed drive systems. Your uptime is our number one goal

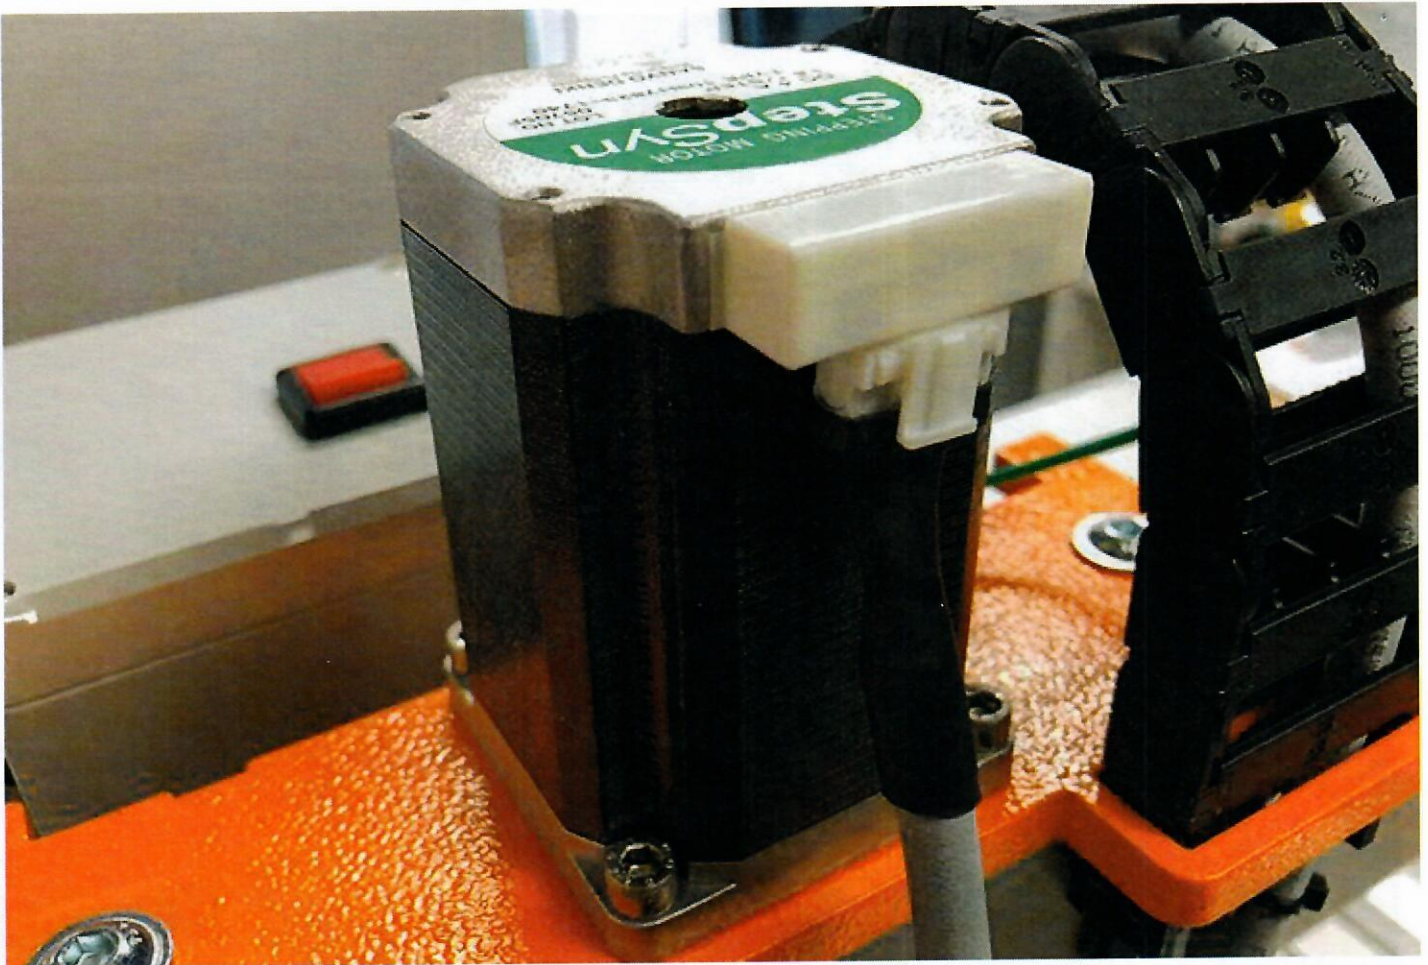

## Redundant Protection On All Axes

The Q-Series systems all feature not only software limit protection, but each end of every axis has an integrated industrial mechanical limit switch. Typical CNC systems use a homing switch on one side of the axis which leaves no protection against a possible crash. The dual limit switch design of the Q ensures that your machine and drive system are always protected in the event of an error in CAM programming or a major jam such as accidentally hitting a steel clamp. Should an accident happen, your machine is protected!

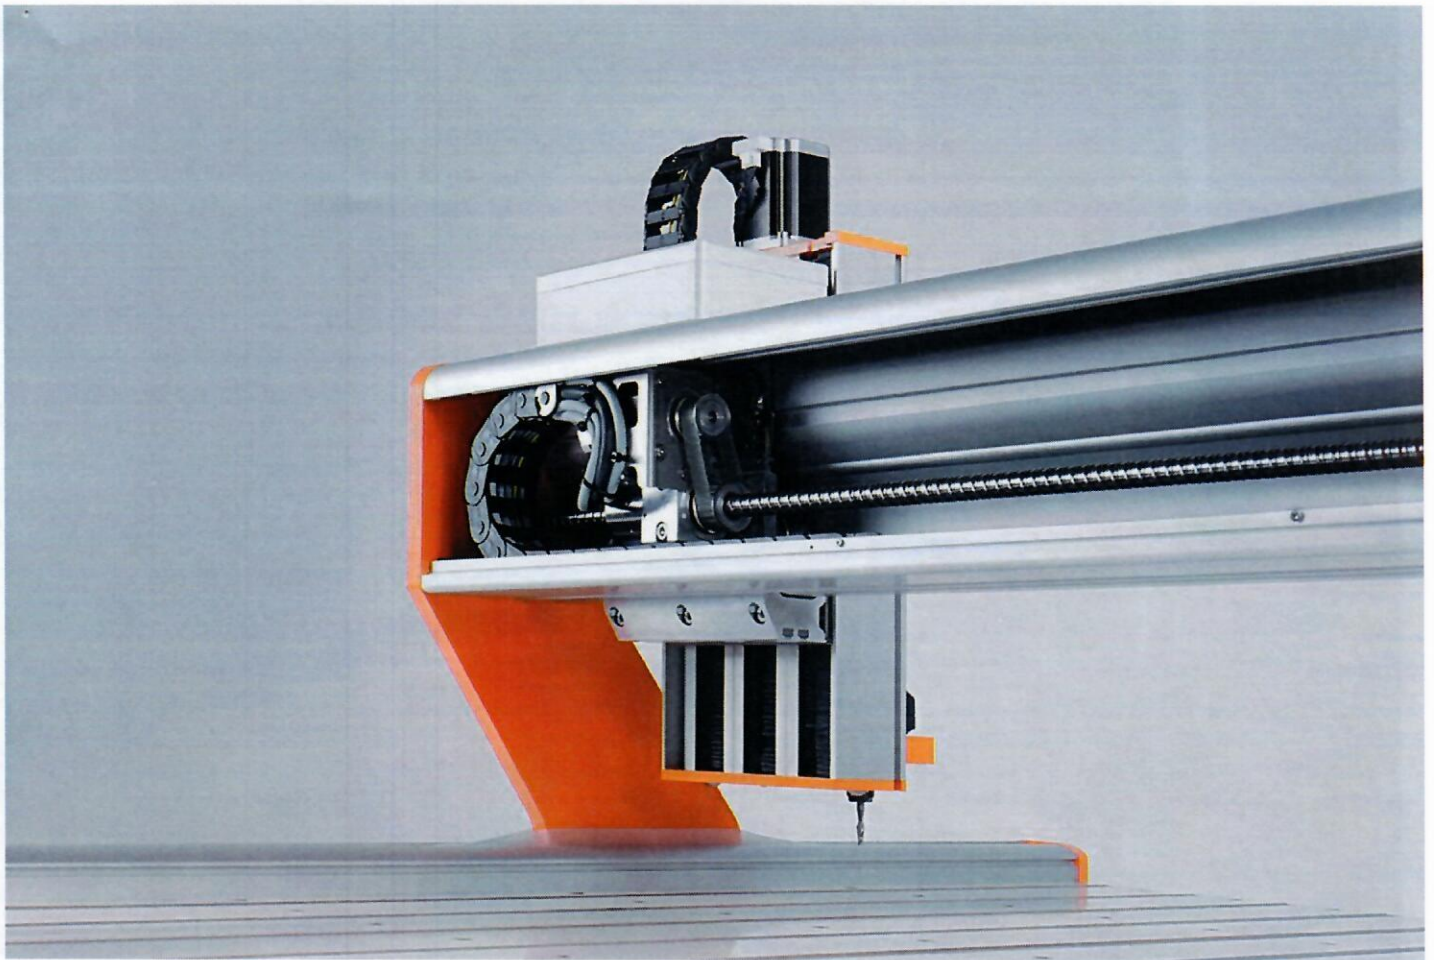

## Concealed Cable Routing

The Q-Series CNC systems use the highest quality IGUS cables in all areas of the machine. They have a bend rating of 10 million cycles ensuring a lifetime of reliability, giving every customer industrial-grade production cycles out of every machine. All cables are concealed and routed throughout the machine in IGUS energy chains protecting them from the rigors of a CNC production environment. In fact, 95% of all wiring on the Q-Series systems are concealed from view, providing a clean look with no chance of any wiring getting in the way of your productivity.

## Powerful Sanyo-Denki Motors

Powerful Sanyo-Denki NEMA 24, 4 amp, high resolution stepper motors are used on all axes. Thanks to the responsive drive system (shown above on X and Y) where the motor is controlling the ball screw nut rather than the entire ball screw, all of the motor's energy and resolution can be directed to each control axis. The result is accuracy and control comparable to that found in servo-driven systems costing 3-4 times as much. You sacrifice nothing with a STEPCRAFT Q-Series CNC system.

## Easy Serviceability

It is easy to service the gantry system on the Q-Series machines by simply removing covers to access all control systems. The covers complete the Concealed Drive System keeping virtually all dust and debris from getting into the drive systems which vastly lengthens time between maintenance and keeps your Q-Series CNC producing as much as you need it.

## Integrated LED Lighting

Good lighting on a CNC system is essential, specifically when setting up your jobs or inspecting jobs as they are being produced. Every Q-Series CNC system has an integrated LED lighting strip on the bottom of the X axis with enough brightness to illuminate your entire work area.

## Intelligent Mix Of Materials

One of the great advantages of the Q-Series lies in the smart combination of heavy-duty STEPCRAFT custom aluminum extrusions and steel components ensuring rigidity, extremely low vibration while maintaining lower weight which allows for faster axis movement and for more precise machining applications.

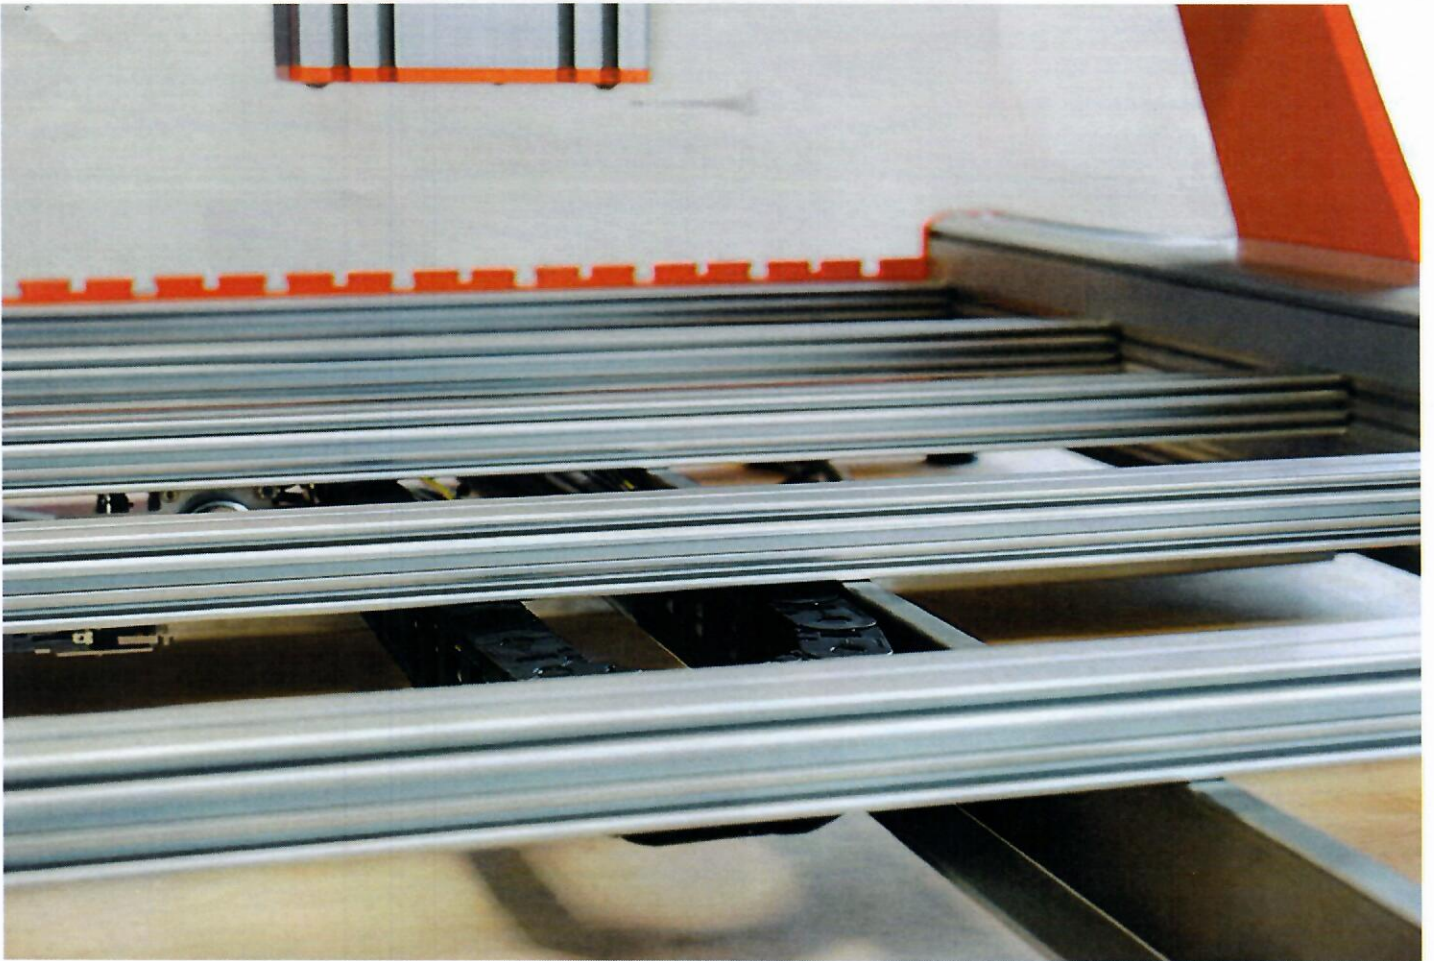

## CE Compliant - The Safest CNC

STEPCRAFT went above and beyond when it comes to the level of safety features that have been integrated into the Q-Series CNC systems. Ensuring that all pinch points have been eliminated coupled with X axis safety bumpers protect the operators fingers and limbs as the machine is in motion. These features and more are part of our stringent CE certification and are appreciated by Schools, Clubs and Maker spaces where they can take solace knowing that their operators are using a certified, safe CNC system.

## Clean, Uncluttered Euro Design

As we mentioned above that great efforts were made in the design of the Q-Series CNC systems to conceal wiring, drive components and guide systems to ensure long times between maintenance intervals. This also holds true for the external profiles of the machine frame. Custom extruded aluminum profiles completely encapsulate the exterior of the machine keeping everything clean and uncluttered so you can focus on using the machine rather than cleaning and maintenance of it.

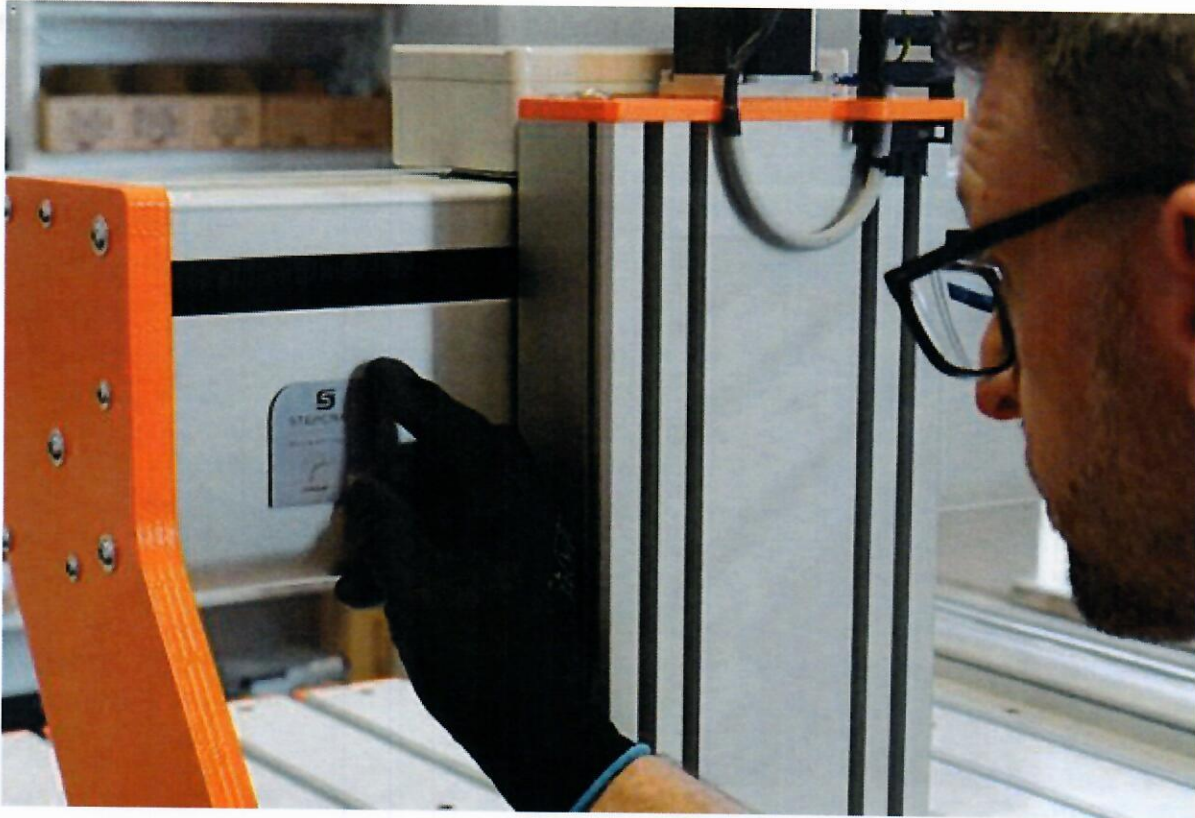

## Table Flatness Is Critical

Each Q-Series system utilizes up to 10 custom aluminum extruded cross supports which interlock into the side frame panels on the machine. This keyed design ensures that the entire table area is flat in relation to the main frame. This design ensures a flatter work table which yields cleaner, more precise finishes of your workpieces, especially when multiple cutting tools are being used in a single job. This uniformity gives you exceptional surface finishes to all your jobs.

## Structural Steel Frame

The Q.404 and Q.408 machines come standard with a 1/8" wall, 3" square tube structural steel frame (optional on the Q.204). Each frame is precision welded to exacting tolerances and then a durable paint is applied designed to stand up to the harshest environments. The solid steel frame is the foundation that the machine is built upon and since the Q-Series CNC systems are designed for high production use and for processing of a wide variety of materials including non-ferrous metals like aluminum, it is imperative that they are solid from the ground up.

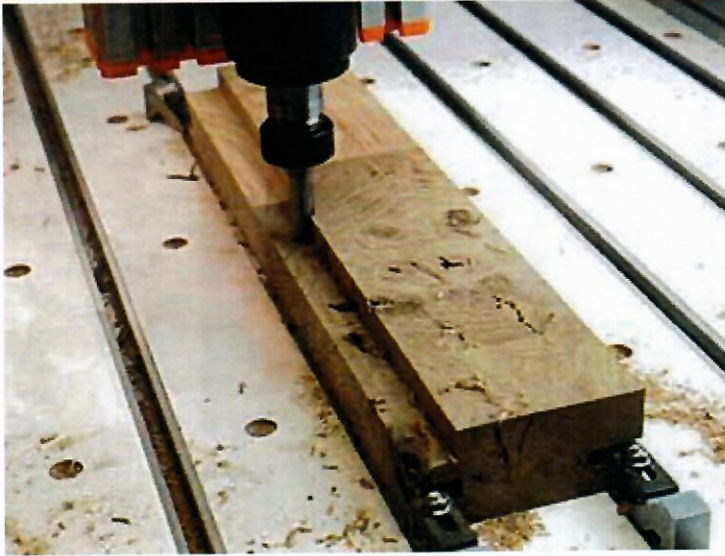

## OneTech®

Our OneTech quality philosophy guarantees that each CNC machine has been completely hand-crafted and checked by the designated STEPCRAFT technician. The Q-Series machines are custom-built for each customer's requirements and by utilizing a non-assembly line process, we ensure that the utmost in pride and care is taken on every machine that leaves our facility in Torrington, CT. Only after completing a rigorous testing of all functionalities will a system be released and marked with our OneTech quality seal.

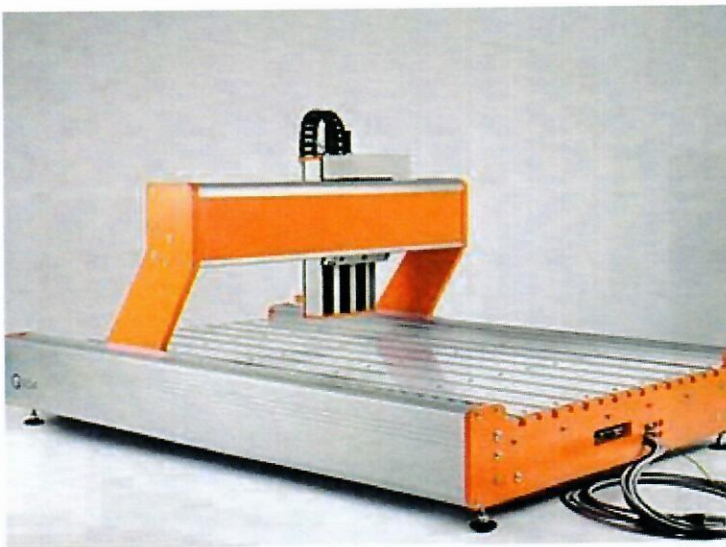

## Universal Z-Tool Holder

To ensure that your Q.408 system can meet all of your present and future needs, it includes six T-slots in the Z-axis extrusion. This allows you to adjust the spindle height range as well as attach other devices, such as dust collection, mist lubrication and other STEPCRAFT attachments.

## Integrated Aluminum T-Slots

Every Q-Series CNC comes standard with a white formica-coated MDF table with integrated aluminum T-slots. This ensures that you have the most flexibility when fixing your workpieces to the machine. An optional all-aluminum T-slot table can be added in place of the standard table and is best for when you plan to use mist cooling for metal machining.

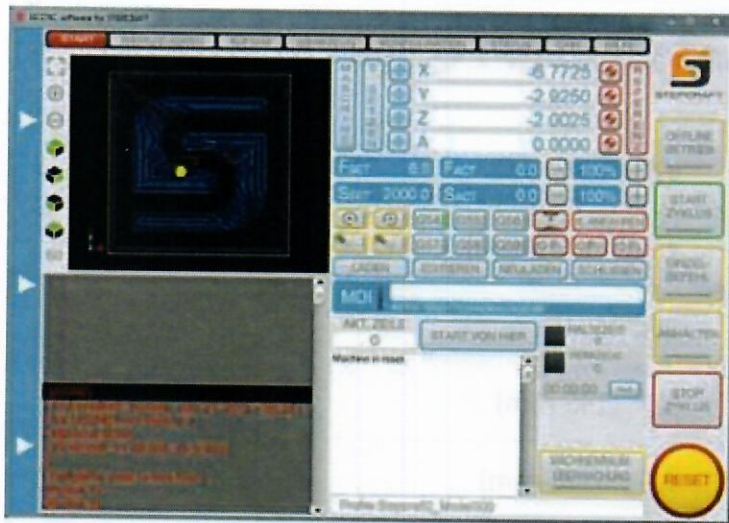

## Virtually Unlimited Workpiece Length

The open Y-axis pass-through design of the Q.408 machine table allows you to process longer material lengths using "Tiling" in your CAM program, splitting the job into multiple files that are up to 48" long. This gives you virtually unlimited machine capability with a 8 foot machine.

## Metal Cutting Capability

All of the Q-Series CNC systems are designed to handle many materials in a production environment. This includes machining of non-ferrous metals like aluminum, brass and copper. When coupled with a 3hp or greater spindle the Q.408 can achieve very accurate results - with greater performance and precision than many CNC routers on the market.

## UCCNC Machine Control Software

Every Q-Series CNC system sold in the USA, Canada and Mexico comes with UCCNC machine control software. This powerful software runs G-Code files generated using your favorite CAD/CAM software, such as Vectric V Carve Pro, Autodesk Fusion 360, Solidworks, MasterCam and more. To make the learning process easy, we have a free online video training course on UCCNC available to all customers.

## German Engineered - American Built

The STEPCRAFT Q-Series line of CNC systems gives you the best of both worlds - high quality, fine detailed German engineering and American-built by our dedicated team of CNC assembly technicians. Working closely with our German team, we ensure that every CNC system that we ship is perfect and meets all of our critical testing standards.

## Technical Specifications of the STEPCRAFT Q.408 CNC System

Machine's Footprint (Width, Length, Height)	63" x 108" x 68"
X-Travel	49.8" (1223 mm)
Y-Travel	96.5" (2451 mm)
Z-Travel	5.7" (145 mm)
Gantry Clearance (Z)	7.67" (195 mm)
Table Work Area (X, Y)	55.1" x 106.3" (1400 x 2700 mm)
Max Feed Rate	475 in/min (200 mm/sec)
Drive Unit	Precision Ball Screws on X, Y, and Z
Linear Drive	All-Steel-Motion System®
Positional Accuracy/Repeatability	+/- 0.0006" (+/- 0.015 mm)
Programmable Resolution	+/- 0.00019" (+/- 0.005 mm)

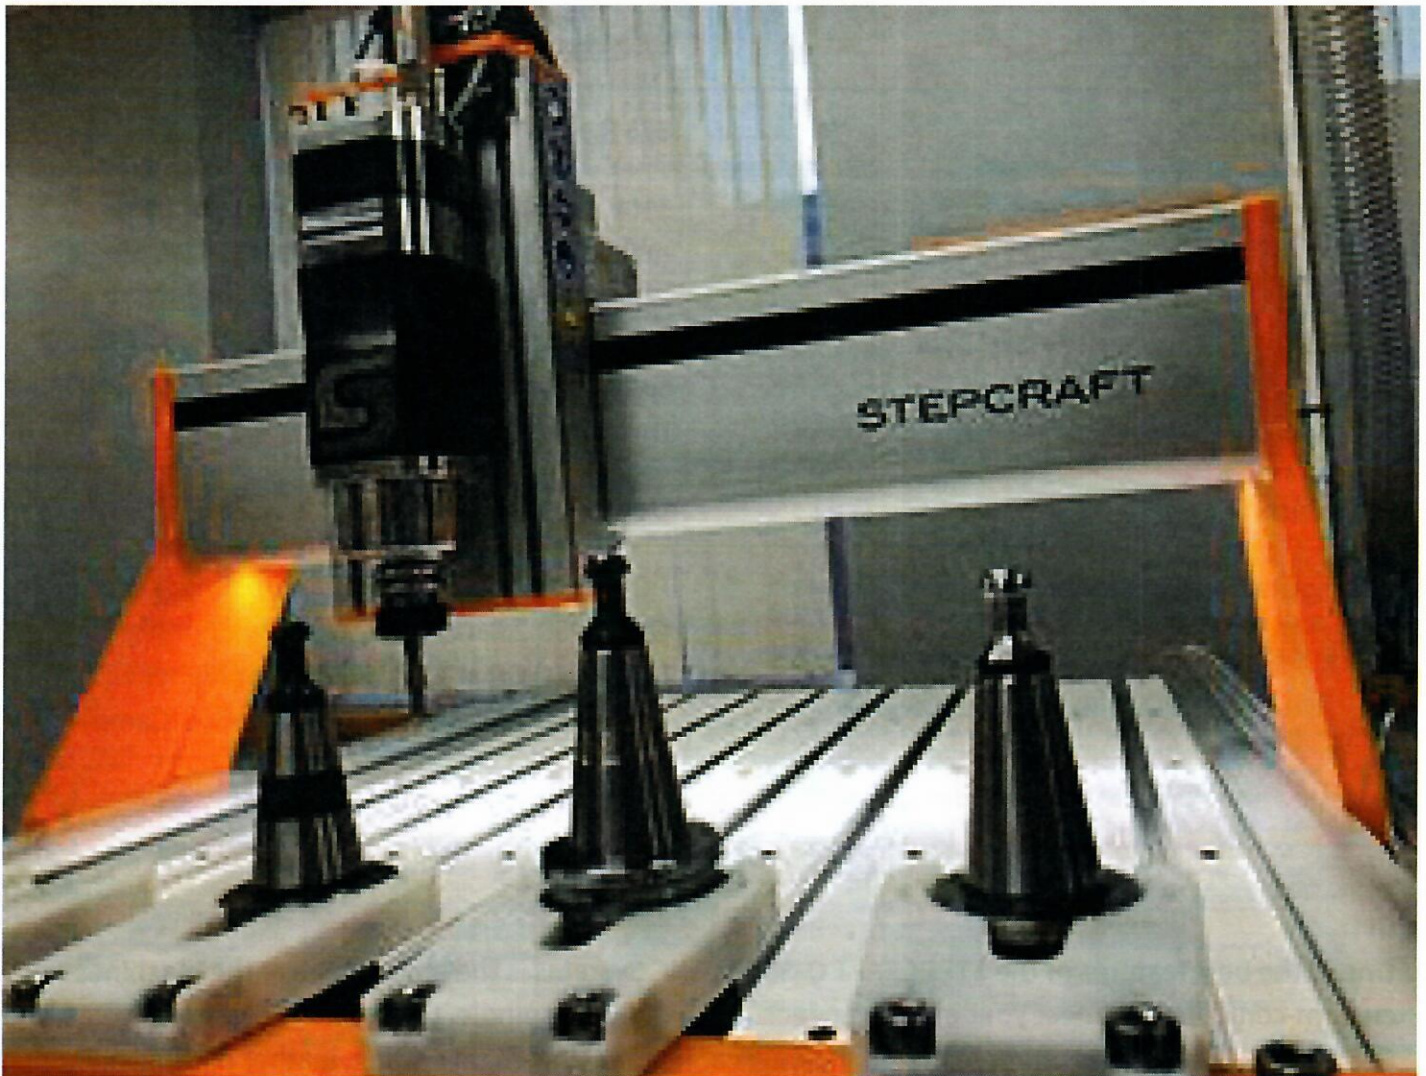

Backlash	+/- 0.0006" (+/- 0.015 mm)
Weight	675 lbs (306.4 kg)
Power Requirements	110V, 50-60 Hz, 10A, Single Phase (for base machine) a second 110V, 50-60 Hz, 15A, Single Phase outlet is required for the MM-1000 or 3.25HP router. Note: If using the HFS-2200 or ATC-2200 spindles you will require 220V Single Phase 30A for the entire system.
Interface	USB 2.0
Computer Requirements	PC with 1Ghz Processor (Laptop, Desktop or All-in-One), USB 2.0 interface, Windows 7 or higher (32/64 bit) OR MAC OS X 10.3.9 or higher with Windows emulation (Parallels or BootCamp)

## Q-Series Options

One of the best features of the STEPCRAFT Q-Series CNC Systems is the ability to have the machines custom-configured to meet your exacting needs. With multiple spindle, table, and accessory choices, your Q-Series CNC can be the ultimate in sign making, cabinet making, foam cutting, leather cutting, aluminum machining and much more. Below are some of the options that are available. For more information, please request a proposal or contact one of our knowledgeable sales consultants today.

### ATC-2200 2.2KW Automatic Tool Changer Spindle

For the ultimate in productivity, fully-automate your Q-Series CNC system with the ATC-2200 spindle. This passively-cooled spindle (not air, not water) is one the quietest running CNC spindles with lowest standard operating temperature around, producing over 3hp of raw machining power. The spindle uses ISO30 tool holders with ER32 collets capable of up to 3/4" shanks. You can custom configure your CNC with tool racks in almost any position, holding up to 10 tools on the machine. (Talk to a sales consultant about these options). Our software makes configuring and setting up tools fast and easy.

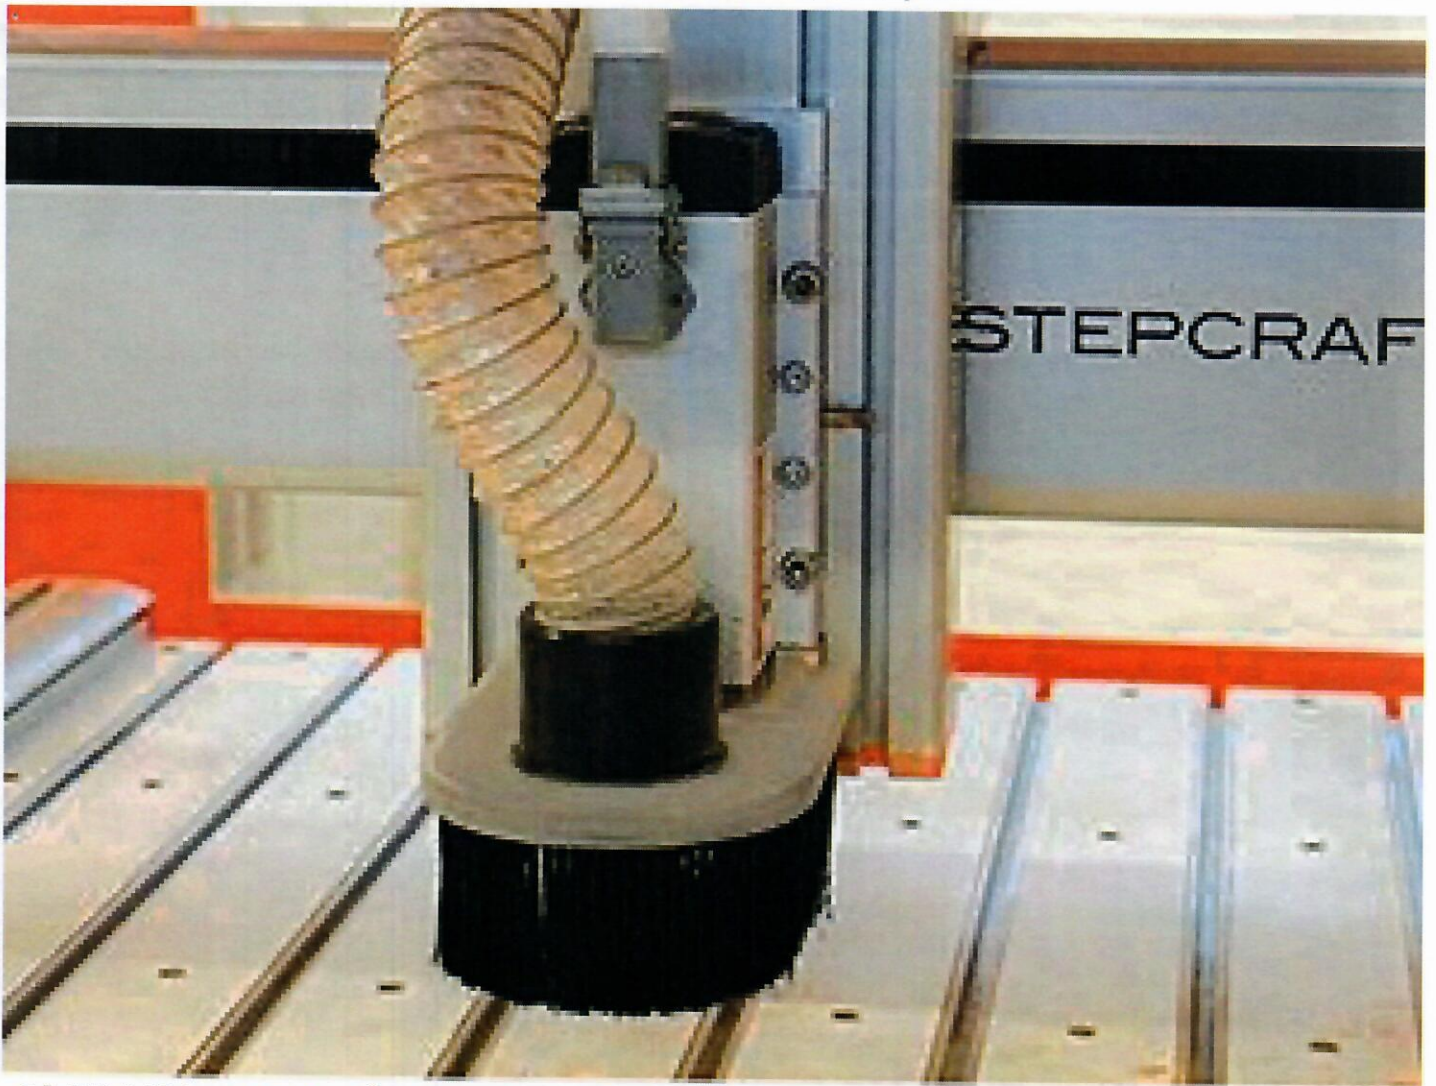

## HFS-2200 2.2kW Air-Cooled Spindle

When you are looking for the raw power and accuracy of a CNC spindle, but you do not need the automation from an automatic tool changer, the HFS-2200 can be the solution. The HFS-2200 is a 3hp air-cooled spindle that supports up to 1/2" shank tooling using ER20 collets. The speed control is completely driven electronically from the Hitachi VFD (Variable Frequency Drive).

## 3 1/4 HP Router

Sometimes you do not have the budget of a traditional spindle but you still need a lot of milling power. This is where the 3.25 HP Variable Speed router is a solid solution. This router is very popular in the woodworking and carpentry community and replacements parts and units can be easily obtained online and from woodworking specialty stores. The router has an RPM knob that allows infinite adjustment of RPM depending on your job and tooling. Also when using a 3.25 HP router with your Q-Series CNC, the power requirements are reduced from 220V single phase to a standard 15 amp 110V house circuit.

## 1kW MM-1000 Air Cooled Spindle

Some applications require the larger format size of the Q-Series machines, but do not require the power from a traditional high-power spindle. An example might be foam cutting, PC board work, or other thin, easy-to-cut materials. The MM-1000 spindle is a 1kW unit producing about 1.4hp. It has a variable speed control dial on the top of the unit to set your RPMs. You are limited to 1/4" max shank size but if your application does not demand large bits or aggressive cutting then this spindle is an affordable and highly accurate solution.

## 6 Zone Vacuum Table

Processing panel material for signs, cabinet making, or furniture has never been easier. STEPCRAFT's 6 zone vacuum table for the Q.408 CNC system gives you 6 independent zones that you can control depending on your work material size, or simply turn on all zones for 4x8 foot sheet materials. The system has 4 integrated T-tracks for applications where you do not need vacuum. The vacuum table is unique because with the use of 3/8" foam rubber cord, you are able to custom configure the layout of the vacuum area around each vacuum port. This is perfect for making custom fixtures for production work.

## Full Aluminum T-Slot Table

When you need to machine a lot of non-ferrous metals such as aluminum, brass and copper, you might find it necessary to use a mist cooling system to lubricate and cool your cutting tools as you engage the material. For these applications, you need a very heavy, rigid T-slot system that is impervious to liquids. The aluminum T-slot table also adds double the number of T-tracks for M8 T-nuts accessible from the front and M6 T-nuts accessible from the rear of the machine.

## Standard MDF/Aluminum T-Track Table

The standard bed option that comes on every Q-Series CNC system is comprised of Formica coated dense MDF boards with full-length M8 T-nut aluminum T-tracks in between. This bed system give you a lot of flexibility for countless projects and clamping options. You can easily utilize a variety of industry clamping

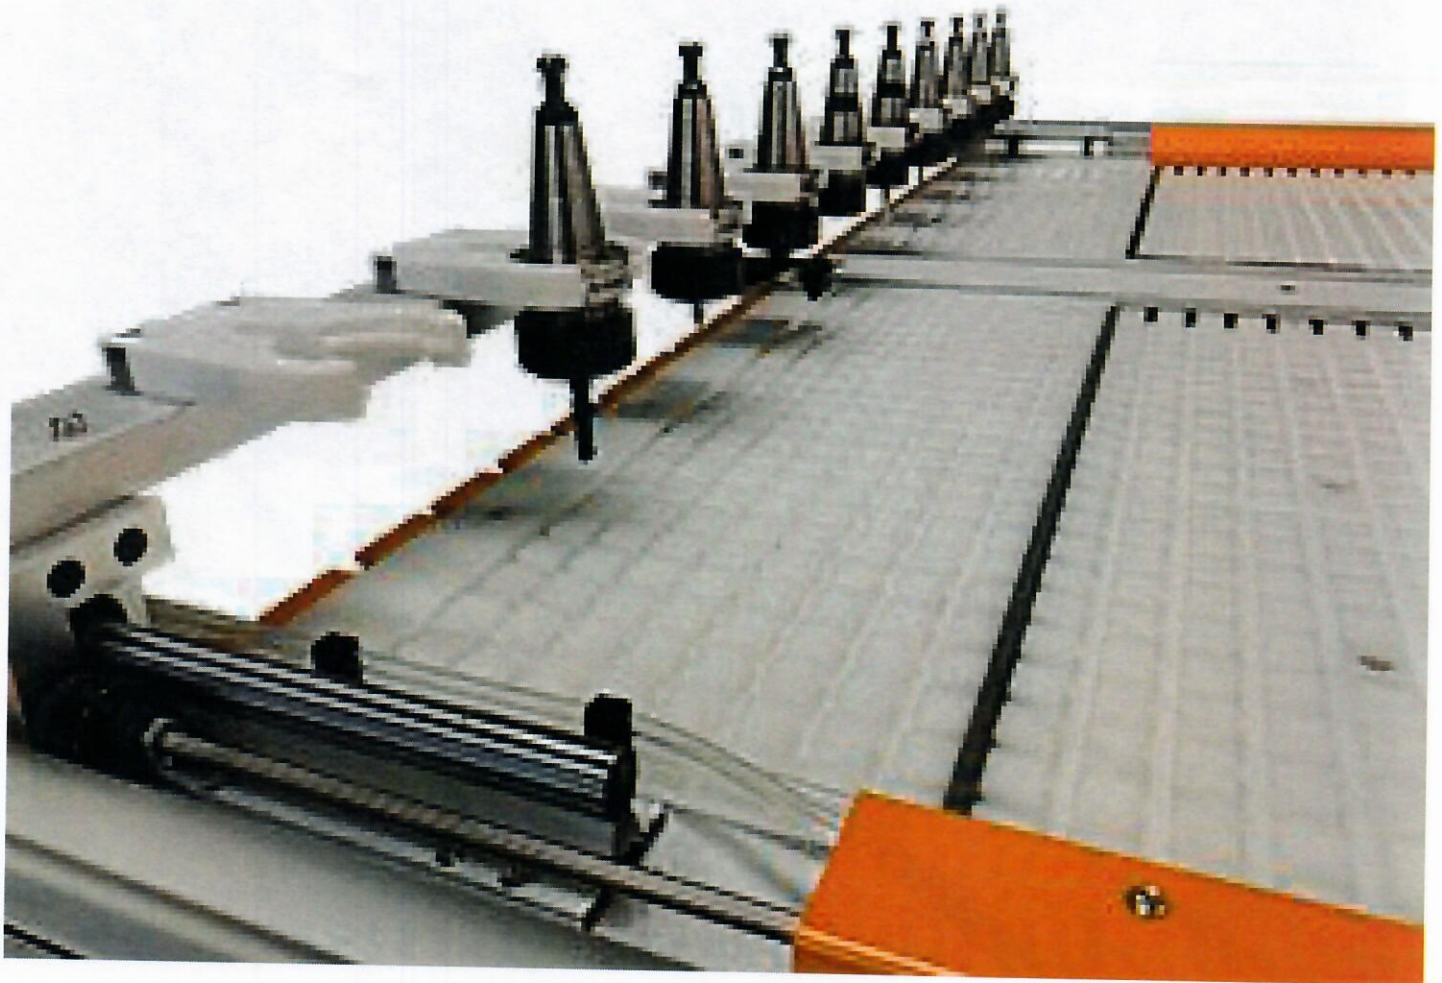

systems as well as having the capability to setup various fixtures at different locations on the table for repetitive production work.

## Pneumatic Sliding Tool Rack for ATC

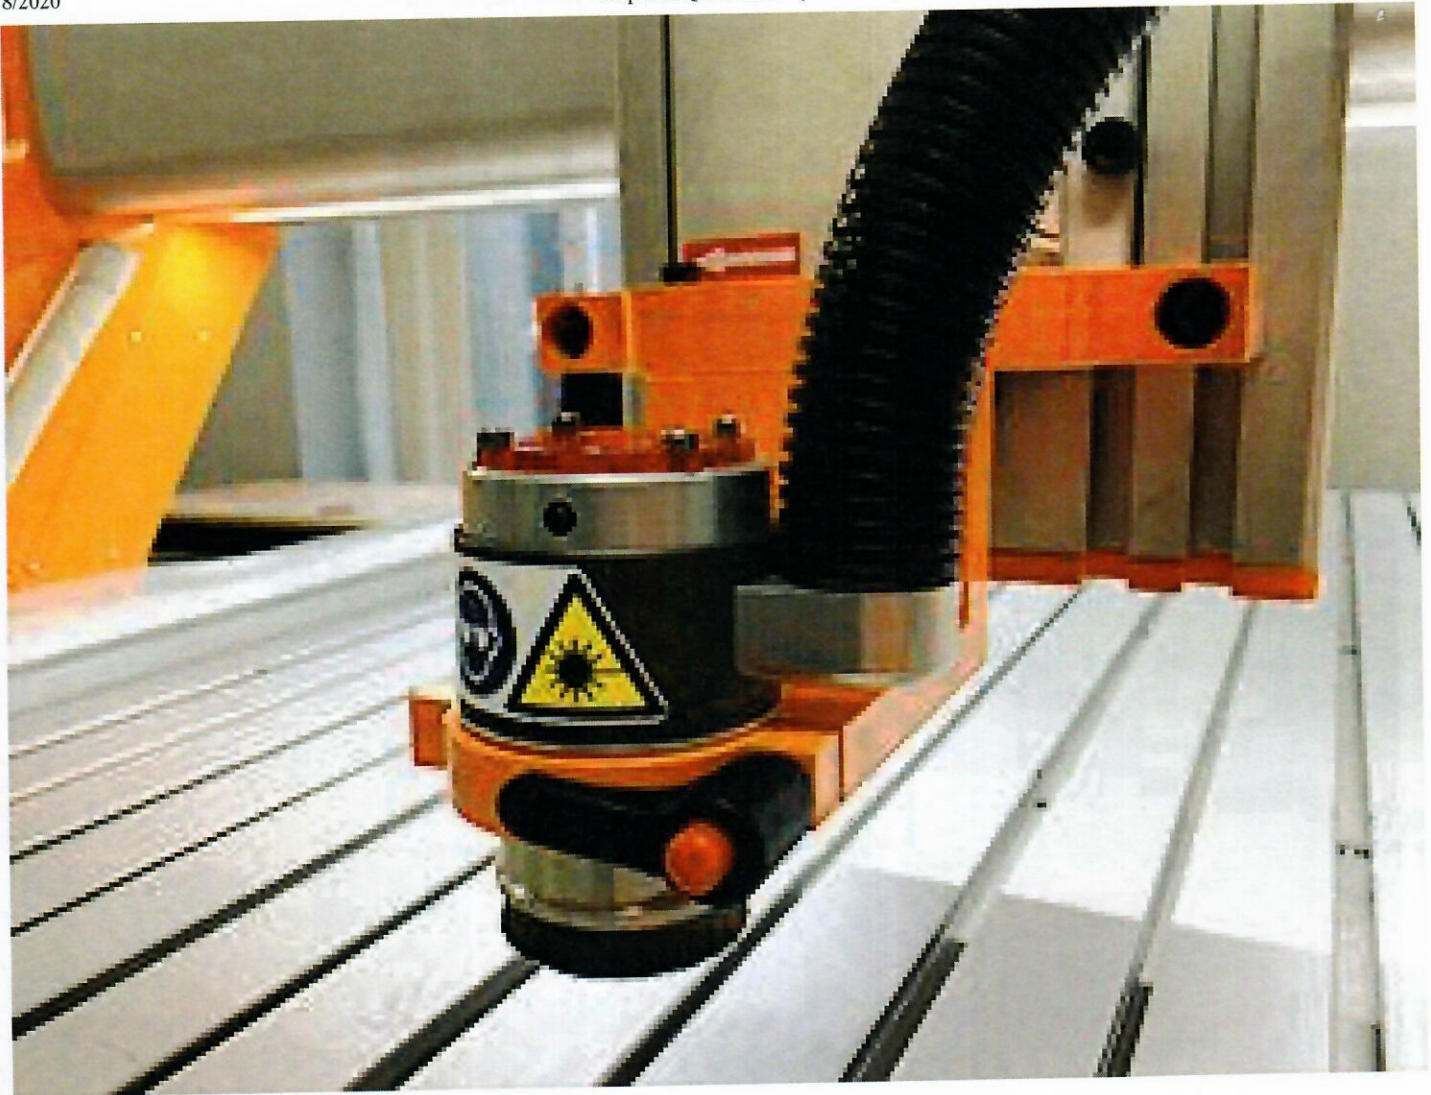

In many shops, floor space is at a premium. STEPCRAFT has designed the Q-Series CNC systems to have the smallest footprint possible, up to 25% shorter than competitive machines. The fact is that the space at the rear of the machine is a "dead zone" and it not usually included in the cutting area. This is often where you would find the tool rack for the automatic tool changer. To minimize this required "dead zone" space, an optional Pneumatic Sliding Tool Rack can be used to move the tool rack out of the cutting area when not in use and then it slides forward to engage the tools during a tool change. This innovation gives you full ATC capability in the smallest footprint possible.

## 43mm Accessory Bracket

STEPCRAFT is known as the world leader in multi-function CNC systems. We have over 12 optional tools that can be added to our CNC machines. We wanted to incorporate the same flexibility and multi-function capability to our Q-Series line of machines as well. Since the spindles are heavy and come pre-trammed from the factory, we do not want customers to have to remove them. The 43mm Accessory Bracket quickly attaches to the T-slots in the Z axis and surrounds the spindle giving you easy access to adding a laser, tangential knife, hot wire cutter and more.

## Tool Length Sensor

STEPCRAFT's Tool Length Sensor makes it quick and easy to setup your jobs and get perfect Z height registration from tool to tool every time. In addition to locating a job's Z height, the Tool Length Sensor is also used with the Automatic Tool Changer to automatically measure every tools height offset and record the values into the system. ***NOTE: As of 2020, all Q-Series CNC Systems are now including the Tool Length Sensor at no extra charge***

## 3D Touch Probe

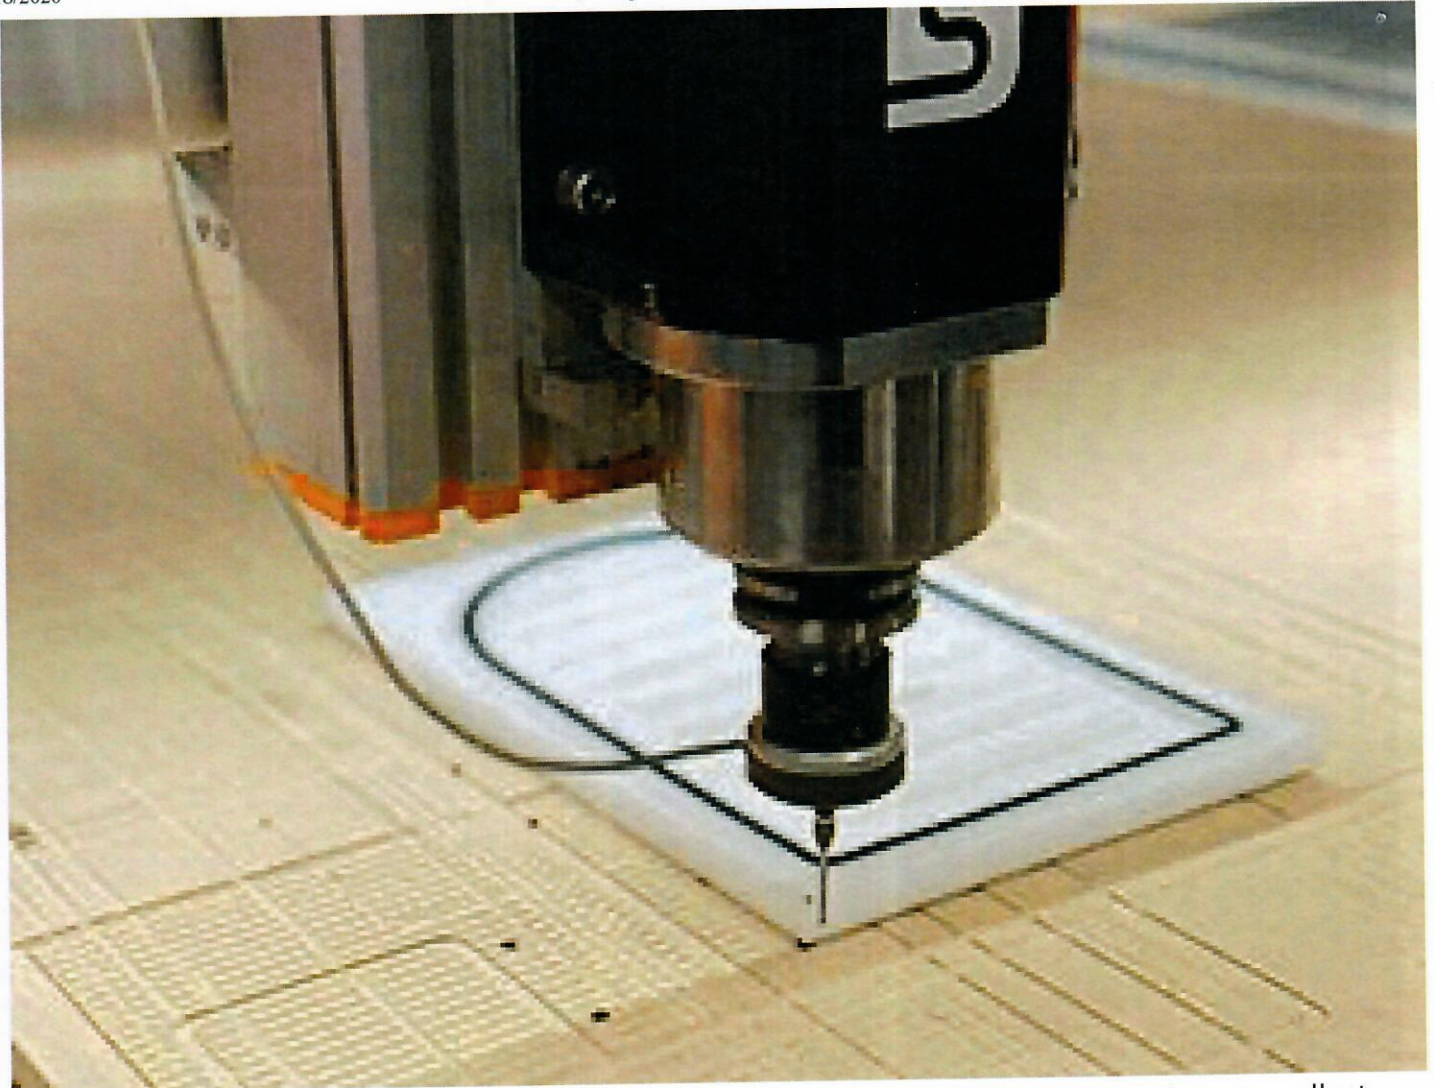

The 3D Touch Probe is probably one of the most versatile products that you can add to a Q-Series CNC system. It gives you the ability to quickly and accurately locate the edges of a part, the center of a part, and

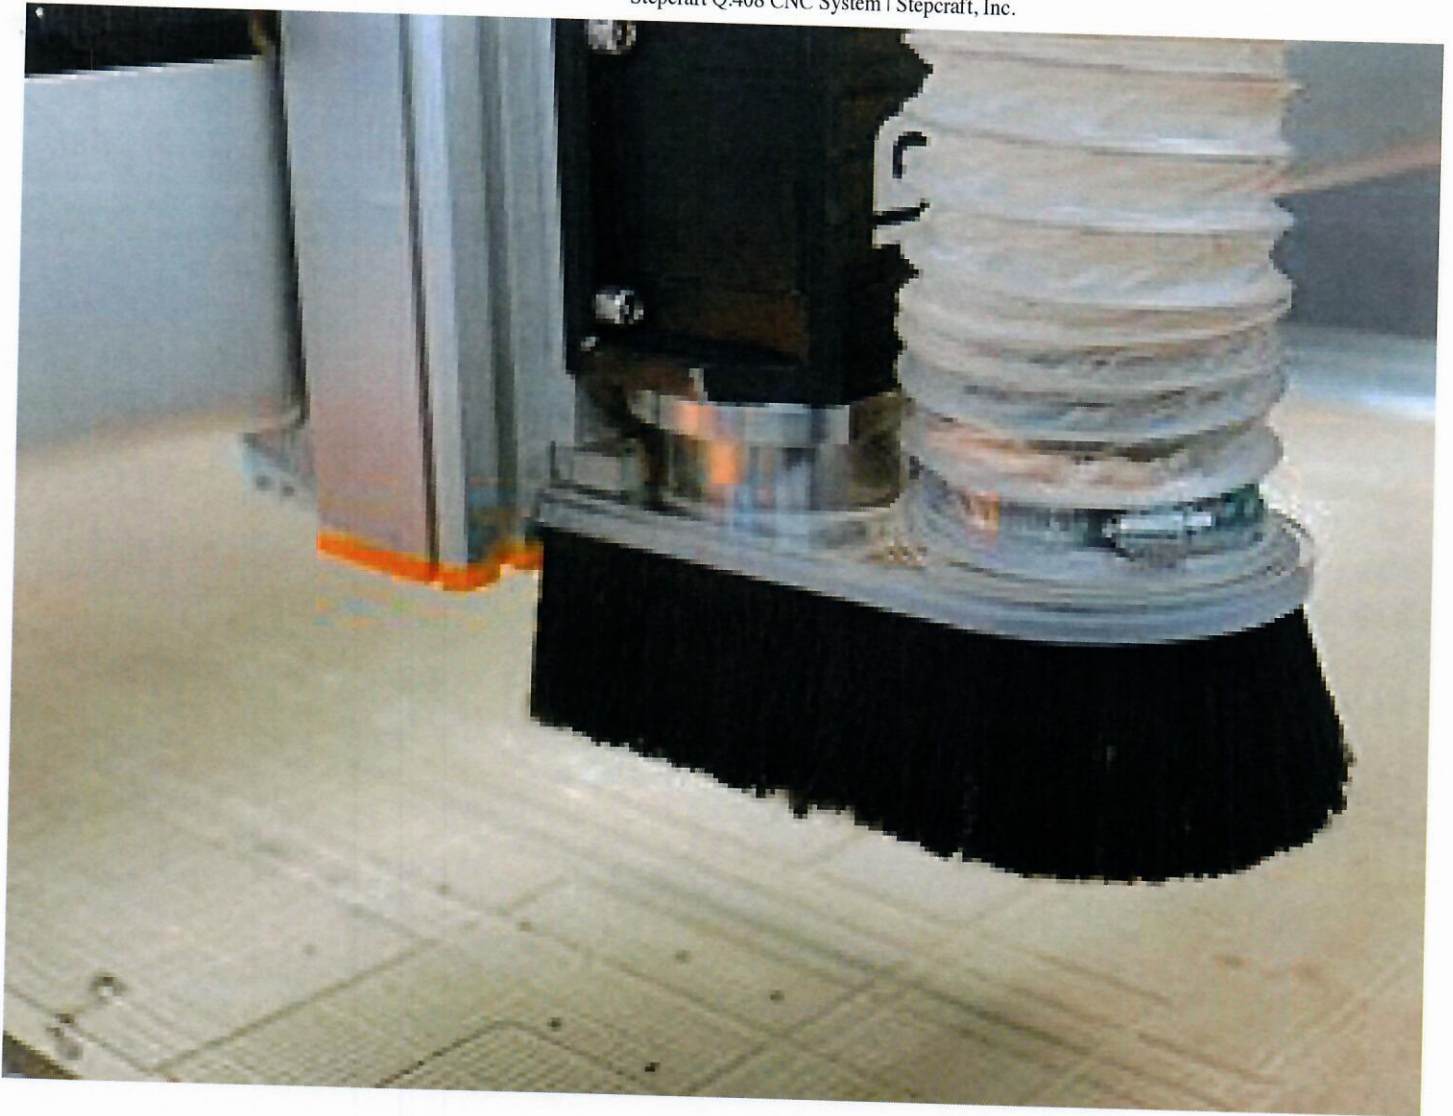

to measure parts from edge to edge. Additionally you can use the 3D Touch Probe to digitally level your bed to  $>0.001$ ", which is critical when doing fine detail work like circuit boards. You can also use the 3D Touch Probe to 3D scan objects and turn them into solid models that you can carve and replicate. When used with the ATC-2200 spindle, you can install it in a ISO30 tool holder and quickly load and unload it from the machine during job setups.

## Floating Dust Collection Boot

There is no denying that a CNC router can make a lot of dust and chips quickly. A good dust collection solution is a critical part of keeping a clean work area and keeping airborne particles to a minimum. STEPCRAFT's dust boots are designed to float on the material surface independently from the Z axis motion of the spindle. This ensures that there is always positive engagement between the brush and the

material surface which dramatically increases the amount of dust that your vacuum system can collect. There are two versions, a manual one for the HFS-2200 spindle and an automatic dust boot for the ATC-2200 spindle which raises and lowers automatically for tool changes.
