GRADUATION REQUIREMENTS

The Shelby-Rising City Public School Board of Education has set the following graduation requirements for the upcoming school year. The classes listed under each category will be required for graduating classes of 2020 and beyond.

English -- 40 credits to include:

- English 9 (10 credits)
- English 10 (10 credits)
- English 11 (10 credits)
- English 12 Composition, English 12 Literature, Contemporary Novels, Applied Communications or other English Approved Courses (10 credits)

Social Science -- 30 credits to include:

- World History (10 credits)
- American History (10 credits)
- Civics (10 credits)

Mathematics -- 30 credits to include:

- Algebra I or Intro to Algebra (10 credits)
- Geometry (10 credits)
- Other Math Approved Courses (10 credits)

Science -- 30 credits to include:

- Physical Science (10 credits)
- Biology (10 credits)
- Chemistry (10 credits)

Visual and/or Performing Arts -- 10 credits

Career Education -- 20 credits for Classes through 2026, 25 credits for the Class of 2027 and beyond to include:

- Personal Finance (5 credits)
- IT Fundamentals (5 credits) beginning with the Class of 2027
- Other Approved Career Education Courses (15 credits)

P.E. and/or Health -- 10 credits

Electives -- 95 credits for Classes through 2026, 90 credits for the Class of 2027 and beyond Senior Service Project

In order to graduate, students must have 8 semesters of secondary attendance and be classified as a senior at the beginning of the school year in which the student wishes to graduate.

Each student shall complete and submit a Free Application for Federal Student Aid (FAFSA) prior to graduating unless the required opt-out form is submitted by either: (1) the parent or legal guardian; (2) the Principal, if the Principal determines good cause exists for not requiring the student to complete the FAFSA; or (3) an emancipated student or a student of at least 19 years of age.

Refer to the secondary handbook for more details regarding graduation.

Schedule Changes:

Changes that need to be made in schedules can occur prior to the start of the school year and be made as late as the **end of the fifth day of the semester**. Students who make changes in their schedule after school starts may, at the teacher's discretion, have to make up the new course work. Notification of changes must be given to the teacher of the dropped class, the new class, and either the high school principal or school counselor. The changes may also need to have parental approval. Second semester changes will be reviewed in the same manner as first semester changes.

Students will be encouraged to stay in classes - particularly year long classes. Factors taken into consideration to withdraw will include out of level placement, or incorrect level of difficulty. Other extenuating circumstances might include court related situations, medical conditions, or a clinically diagnosed psychiatric condition.

Students, who request a change of schedule and are denied, may be asked to take the following steps to better insure their success:

1. Plan of remedial academic action developed by the student, counselor, and teacher.
2. The student set a conference with the teacher to discuss the problem.
3. The student makes arrangements with the teacher to get extra help.

University of Nebraska Admission Requirements:

Category	Units	University-Wide Requirements
English	4 units	All units must include intensive reading and writing experiences.
Math	3 units	Algebra I, Geometry, & Algebra II
Social Studies	3 units	American or World History & one additional unit of history, American government or geography.
Natural Science	3 units	2 units selected from biology, chemistry, physics, or earth science. One of which includes lab instruction.
Foreign Language	2 units	Both units must be in the same language.
Additional Academic Req's	1 unit	UNK – chosen from any academic discipline UNL – Math: one additional unit that builds on algebra UNO – chosen from any academic discipline
Class Rank or ACT/SAT		For assured admission you must also graduate in the upper half of your class or have an ACT composite score of 20 or higher, or an SAT combined score of 950. *Test optional schools are referencing admissions only. Students applying for scholarships need to submit test scores.
Notes:		1 unit = 1 year of high school instruction

Please note that each college may have a unique set of requirements. Make sure to check with the college you are thinking of attending to find out their specific requirements.

Early College/Career Pathway Opportunities
(in partnership with Central Community College)

Students availing themselves of the Early Entry option will be able to take online college courses through a Career Pathway period without the need to leave the building. Several opportunities are available for Juniors and Seniors to take courses involved in a Career Pathway or that will apply to their chosen area of study beyond high school. Every attempt will be made for students to take courses with a dually certified (high school AND college certified) instructor but cannot be guaranteed. Options will be covered at the time of registration.

Students enrolling in classes through CCC must work through the counseling office. **CCC will need qualifying Assessment scores on file before processing your enrollment. ACT scores are best sent from ACT - please choose this as one of your options when registering for the ACT.**

Students participating in this program are responsible for all of their own expenses for college classes. They will receive college and/or high school credit upon successful completion of the classes. To take part in this option you will need to work through the School Counselor. Students enrolled in a CCC class must follow the college's established dates for dropping courses.

Students taking college classes will follow the CCC calendar. This may include expectations/deadlines or due dates while Shelby-Rising City Public School is not in session.

CRITERIA FOR ENROLLMENT:

Students of Shelby-Rising City Public Schools must meet the following requirements to participate in this program:

1. Students must be in "good academic standing" and be a Junior or Senior
2. Students must meet the MAP and/or ACT scores for the chosen class (these are set by the college).
IT IS MOST ADVANTAGEOUS TO HAVE YOUR ACT SCORES SENT TO CCC
DIRECTLY FROM ACT
3. Students must have approval of the School Counselor and/or the High School Principal.

ENGLISH / LANGUAGE ARTS
(45 Credits Required for Graduation)

ENGLISH 9 (Grades 9-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

This course is designed to give students experience in reading and analyzing a variety of literary genres. Students will compare and contrast literature selections for style, theme, and context. Also included in course work are vocabulary lessons, review of basic grammar rules, and writing for different audiences.

ENGLISH 10 GEN (Grades 10-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

This course is designed to give students experience in reading and analyzing a variety of literary genres in World Literature. Students learn to write essays in 5 paragraph format and to write a research paper in MLA format. Also included in course work are vocabulary lessons utilizing grade level vocabulary and enhancing vocabulary skills and comprehension, review of basic grammar rules and writing, note taking, technical writing incorporating grammar techniques, and writing for different audiences such as comparison/contrast, persuasive/argumentative, research.

ENGLISH 10 CP (Grades 10-12) **10 Credits (2 Semesters)**

PREREQUISITES: With teacher approval or with signed Parent Waiver

This course will focus on the evaluation of various types of literature, including novels, short stories, poetry, etc. in the literary genre of World Literature. Students will be expected to examine what they have read through discussion and academic writing. This course will also focus on good academic writing. Students will look at all aspects of a strong paper, from the foundations of thought and organization to the production of a grammatically correct, critical paper. Students will have practice on all different types of academic writing as well – persuasive, narrative, creative, research, etc. Vocabulary skills will also be integrated into the course’s study.

ENGLISH 11 GEN (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: None.

This course provides students with a survey of important literary periods and works from American Literature – including short stories, essays, poetry, biographies, historical documents, etc. The literature studies will emphasize comprehension and interpretation of literature. Additionally, emphasis will be placed on writing skills, particularly technical writing. Vocabulary skills will also be integrated into the course’s study.

ENGLISH 11 CP (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: With teacher approval or with signed Parent Waiver

This course provides students with a survey of important literary periods and works from American Literature. Students study key literary terms and concepts along with the literature unit and novel studies. Additionally, students will perform a variety of writing tasks including but not limited to literary analysis, personal reflection, persuasion, and argument. Vocabulary skills will also be integrated into the course’s study.

APPLIED COMMUNICATION (Grade 12) **10 Credits (2 semesters)**

PREREQUISITES: With teacher approval

This course is designed for students who are entering the workforce after graduation. This course emphasizes the development of effective speaking, reading, writing and listening skills. Application of these skills is stressed in letter, memo, email and resume writing. Brief oral situations/opportunities are given to the students to improve their speaking, listening and presentational skills for the workforce and life beyond graduation. Units of study include soft skills needed for the workplace, time management, effective communication and conflict resolution, cultural awareness in the workplace, writing your resume and cover letter, email etiquette and writing and speaking to persuade.

ENGLISH 12 COMPOSITION (Grade 12) 5 Credits (1 Semester)

PREREQUISITES: English 11CP or teacher permission

This course is a semester long and provides students with a general introduction to the principles of writing with emphasis on the writing process, thesis, context, purpose and audience. Students will write in a variety of manners, including narrative, persuasive, and expository. Vocabulary skills will also be integrated into the course's study.

ENGLISH 12 INTRO TO BRITISH LITERATURE (Grade 12) 5 Credits (1 Semester)

PREREQUISITES: English 11CP or teacher permission

This course is a semester long and provides students with a survey of British Literature. The literature is chronologically divided into historical literary periods, beginning with the Anglo-Saxon Period and ending with Twentieth Century Period literature. Attention is given to some theme-oriented poetry, short stories, essays, non-fiction, and full-length literary works. Literary devices, content, style, and cultural diversity are studied. Vocabulary skills are also integrated into the semester's study. Emphasis is placed on the development of critical and analytical thinking skills through discussion and some compositions.

SPEECH (Grades 9-12) 5 Credits (1 Semester)

PREREQUISITES: None **This course is REQUIRED for graduation*

Speech is a performance-based course designed to help students improve their speaking skills. Students will be introduced to both the theory and practice of oral communication in various public speaking situations. The goals are to develop a positive attitude toward public speaking, to develop critical listening skills, and to develop skills in dealing with various communication situations. Students will learn fundamental principles of public speaking, developing the creative capacity to create prepared and extemporaneous speeches.

ADVANCED SPEECH (Grades 10-12) 5 Credits (1 Semester)

PREREQUISITES: Successful completion of Speech or participation on the Speech team

Advanced Speech is a performance-based course designed to help students improve their speaking. This course will provide an introduction to the theory and practice of oral communication by applying the NSAA guidelines of competitive speech. The course will focus on learning fundamental principles, generalizations, and theories associated with competitive speech, while developing the creative capacity to create/prepare Informative, Persuasive, Extemporaneous, Humorous, Serious, Poetry, Entertainment, OI, and Duet speeches.

CONTEMPORARY NOVELS (Grades 11-12) 10 Credits (2 Semesters)

PREREQUISITES: With teacher approval or with signed Parent Waiver

This course provides students with the opportunity to experience current issues through contemporary fiction and non-fiction. Through analysis of novels (fiction and nonfiction) students will examine the relevance of the literature to their experience. While reading high-interest literature, students will employ various techniques for discussing, evaluating, and writing about literature.

JOURNALISM I (Grades 9-12) 10 Credits (2 Semesters)

PREREQUISITES: None

This course is designed to introduce students to the field of journalism. Students will learn about journalistic writing style, editing, reporting, and interviewing. Students will develop time management and organizational skills in order to meet deadlines. Students will develop an understanding of photography and journalistic layout/design. Students will be expected to attend activities to enhance photography and reporting skills. This class counts as elective credit.

MATHEMATICS
(30 Credits Required for Graduation)

INTRODUCTION TO ALGEBRA I (Grade 9) **10 Credits (2 Semesters)**

PREREQUISITES: Teacher Recommendation

**This course is designed to be a 2 year course - this being year one.*

Intro to Algebra is a class that will focus on the basic elements of Algebra. Topics will include, but are not limited to simplifying numerical and polynomial expressions, solving equations, solving systems of equations, graphing equations, and applications.

**This Math sequence will make admission to UNL difficult as they require 4 years of Math.*

INTRODUCTION TO ALGEBRA/GEOMETRY II (Grade 10) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Intro to Algebra I or Teacher Recommendation

**This course is the second year of a 2 year course.*

Intro to Algebra/Geometry is a class that will focus on the basic elements of Geometry and Algebra. Topics will include, but are not limited to triangles, polygons, right triangles, circles, area, surface area, volume and similarity. In addition, algebra concepts will be completed from the previous course and reinforced throughout this course.

**This Math sequence will make admission to UNL difficult as they require 4 years of Math.*

ALGEBRA I (Grades 9-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Pre-Algebra or with signed Parent Waiver

Algebra I is a course designed for students in high school. It is considered a college prep course, although it has many useful real world applications. Concepts taught include, but are not limited to: solving equations and inequalities, polynomials, graphing, roots of numbers, percents, systems of equations, and applications of these concepts.

BUSINESS MATH (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: Teacher Recommendation

This course will reinforce real-world applications of business math. Topics include foundation mathematical principles for business math calculations, banking, percents and applications, discounts, markups/markdowns, payroll, interest, annuities/sinking funds, inventory/overhead, loans, taxes, insurance, and business statistics.

**This Math sequence will make admission to UNL difficult as they require 4 years of Math Algebra I and higher.*

GEOMETRY (Grades 9-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Algebra I or with signed Parent Waiver

Geometry is considered a college prep course, although it has many useful real world applications. Concepts taught include, but are not limited to: patterns, constructions, relationships between and within plane figures, area and perimeter of plane figures, surface area and volume of three-dimensional figures, proportion, and applications of these concepts.

ALGEBRA II (Grades 10-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Geometry or with signed Parent Waiver

Algebra 2 is considered a college prep course, although it has many useful real world applications. Concepts taught include, but are not limited to: solving equations and inequalities, quadratics, graphing, complex numbers, functions, systems of equations and inequalities, logarithms, trigonometry, probability, statistics, and applications of these concepts.

TECHNICAL MATH (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Algebra II or Math Essentials

This course provides the math skills required in career/technical fields. The course includes a review of arithmetic operations, exponents, algebraic operations, and right triangle trigonometry with emphasis placed applications.

**This course may be taken for college credit - MATH 1020*

PRECALCULUS with TRIGONOMETRY (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Algebra II (B or better) or with signed Parent Waiver

This course is intended to prepare students to take Calculus. The course covers linear, quadratic, polynomial, exponential, logarithmic, and trigonometric functions. In addition, derivatives will be introduced. Functions will be analyzed using a variety of methods, including a graphing calculator. Appropriate applications will be included.

**This course may be taken for college credit - MATH 1410*

COLLEGE ALGEBRA (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of Algebra II or with signed Parent Waiver

This course is a functional approach to algebra that incorporates the use of appropriate technology. Emphasis will be placed on the study of functions and their graphs, inequalities, and linear, quadratic, piecewise defined, rational, polynomial, exponential, and logarithmic functions. Appropriate applications will be included.

**This course may be taken for college credit - MATH 1150*

CALCULUS (Grade 12) **10 Credits (2 Semesters)**

PREREQUISITES: Successful completion of PreCalculus or with signed Parent Waiver

Calculus is the mathematical study of change. This course is used to describe motion and it has multiple applications in mathematics, physics, engineering and other sciences. This class will study two major concepts and their applications: the derivative and the integral. Students will need a solid foundation in algebra and geometry as well as PreCalculus with trigonometry.

**This course may be taken for college credit - MATH 1600*

SOCIAL SCIENCES
(30 Credits Required for Graduation)

WORLD HISTORY (Grades 9-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

World History offers an in-depth look at the history of the world starting with the rise of civilizations. The course moves through the rise and development of civilizations to the emergence of the modern world, focusing on topics such as the Renaissance and Reformation and various empires and their expansion. The course also covers the Age of Revolution focusing on the scientific revolution, the English and American revolutions, and the French Revolution. The course concludes by explaining the impact of industry and nationalism in our world and the various conflicts we have been involved in, including: WWI, WWII, The Cold War, and current problems with the Middle East.

AMERICAN HISTORY (Grade 10-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

Modern American History offers an overview of the rise of industry. It offers an in-depth look at the events that led to World War I, the Great Depression, World War II, The Cold War, the struggle for civil rights, the Vietnam War, and the reinvention of government toward the end of the 20th century. The classroom textbooks will be utilized for instruction. In addition, the Internet will also be used as a resource for information about the topics we will be covering. Students will be encouraged to use outside resources to help them with various classroom projects.

CIVICS (Grades 12) **10 Credits (2 Semesters)**

PREREQUISITES: None

The course focuses on the United States' founding principles and beliefs. Students will study the structure, functions, and powers of government at the national, state, and local levels. Students will explore the purpose of government and will examine how various governments meet the needs of the people. Students will examine the duties, responsibilities, and individual roles of citizens in a democracy, as well as prepare them to become contributing members of American society.

***Juniors considering Mid-term graduation would be eligible to take during the second semester.**

PSYCHOLOGY (Grades 10-12) **5 Credits (1 Semester)**

PREREQUISITES: None - Prefer to have juniors and seniors due to the nature of some topics.

The course provides an introduction to the study of Psychology. Psychology is the scientific study of behavior that is tested through scientific research. Students will study the various approaches to psychology, the life span from the viewpoint of a psychologist, the workings of the mind and the body and our learning and cognitive processes. Students will examine personality and individuality, psychological disorders and treatment for disorders. They will also briefly learn about social psychology. This class counts as elective credit.

SOCIOLOGY (Grades 10-12) **5 Credits (1 Semester)**

PREREQUISITES: None - Prefer to have juniors and seniors due to the nature of some topics.

The course provides an introduction to the study of Sociology. Sociology is the scientific study of social structure. Students will examine sociological research methods. They will develop an understanding of society from the sociological viewpoint. Students will examine culture and social structures, social inequality, social institutions, and social change. This class counts as elective credit.

EVENTS (Grades 10-12) **5 Credits (1 Semester)**

PREREQUISITES: None - Prefer to have juniors and seniors due to the nature of some topics.

Current Events will focus on the news. The class will revolve around class discussion, news clips, and newspaper/Internet articles. Students will examine these things to gain a better understanding of the world that they are living in and will gain an understanding and appreciation of the media industry and the impact it has on our lives. Students will discuss current issues that are going on in the world around them. They will be expected to be knowledgeable about topics in the news and will relate their opinions about these topics. This class counts as elective credit.

NATURAL SCIENCES
(30 Credits Required for Graduation)

PHYSICAL SCIENCE (Grade 9) **10 Credits (2 Semesters)**

PREREQUISITES: None

Physical Science is typically taken as a freshman and will include components of physics and earth science. Physical Science covers topics of forces and motion (nature of field forces and their interactions with matter); energy (energy systems relating to the conservation and interaction of energy and matter); and components of earth science. The course uses a simple algebraic approach and incorporates lab based activities. A graphing calculator is not necessary but a calculator with scientific functions is required.

BIOLOGY (Grade 10-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

Biology is typically taken as a sophomore. The topics of study include: structure and function of living systems; cellular processes; basic genetics; flow of matter and energy in ecosystems; evolutionary history; and biodiversity. This course combines scientific inquiry with technology and the nature of science along with various labs and hands-on activities to investigate the various topics surrounding the life sciences. This course spans an entire year and is a requirement for graduation.

ANATOMY & PHYSIOLOGY I AND II (Grade 11-12) **10 Credits (2 semesters)**

PREREQUISITES: “C+” in Biology, or with signed Parent Waiver.

Anatomy and Physiology is a one-year course that will enable students to develop an understanding of the relationships between the structures and functions of the human body. Course content will focus on the skeletal system, muscular system, nervous system, endocrine system, cardiovascular system, lymphatic system, respiratory system, digestive system, and reproductive system. The course is an overview of the body’s structure (anatomy) and function (physiology) which involves laboratory activities, projects, dissections, models, diagrams, journal writings, and clinical studies. The target audience will be Juniors and Seniors interested in careers in health and human sciences. This class counts as elective credit and spans an entire year.

CHEMISTRY GENERAL (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: None

Chemistry is typically taken as a Junior. The topics of study include: basic matter and its properties, the atomic structure of the atom, the periodic table, chemical formulas, the mole, chemical bonding, chemical reactions, and proportions. The course uses a basic algebraic approach and incorporates lab based activities. Graphing calculators are useful but not necessary. A calculator with scientific functions is required.

CHEMISTRY CP (Grades 11-12) **10 Credits (2 Semesters)**

PREREQUISITES: Meet or exceed Pre-ACT Math scores of 19, Science scores of 21 and, successful completion of Algebra II; or obtain permission with a signed Parent Waiver.

Chemistry is an advanced course in the study of physical science with an extensive focus on matter and its properties. This course is typically taken as a junior and the topics addressed are the atomic structure of the atom, the periodic table, chemical formulas, the mole, stoichiometric calculations, chemical bonding, reaction rates, chemical equilibrium, acids, bases, and salts. The course uses an algebraic approach and incorporates lab based activities. Graphing calculators are useful but not necessary. A calculator with scientific functions is required.

PHYSICS (Grades 11-12) 10 Credits (2 Semesters)

PREREQUISITES: “B” or higher in Algebra II or with signed Parent Waiver

Successful completion of Algebra II is required. It is highly recommended for students to be enrolled in a math course beyond Algebra II. Physics is considered a college prep class for any student considering furthering their education beyond high school. Opportunities of inquiry and developing upper level thinking and learning strategies are emphasized. Physics offers an introduction to the principles of motion, waves, optics, and electricity. Emphasis is also placed on showing how physics applies to everyday life. The course uses an algebraic approach, along with geometry concepts and trigonometry functions to investigate the various principles and laws of physics. Lab based activities are incorporated. Computer graphing and on-line textbook materials are utilized. Graphing calculators are useful but not necessary. A calculator with trigonometric functions is necessary. This class counts as elective credit.

FORENSIC SCIENCE (Grades 11-12) 5 Credits (1 Semester)

PREREQUISITES: Successful completion of Biology and Physical Science

Forensic Science is the application of scientific processes (biology, chemistry, physics) to the criminal and civil laws enforced in a criminal justice system. Throughout this course, students would gain knowledge about, but not limited to, ballistics, blood spatter, blood evidence, DNA evidence, fiber analysis, fingerprinting, and crime scene investigation. EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain shall be considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

No employee earning more than one hundred fifty thousand dollars annually in salary and benefits may enter into any contract, agreement, or understanding on the district's behalf that may cause financial benefit to the employee, a member of the employee's immediate family, or a business with which the employee is associated, without prior full disclosure of the conflict to the board, and without prior approval by the board.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee or employee's spouse without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may require the employee to immediately cease such solicitations as a condition of continued employment.

Employees shall not act as an agent or dealer for the sale of textbooks or other school supplies. Employees shall not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees shall not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It shall also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest shall be deemed to exist shall include, but not be limited to, any of the following:

1. The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or monetary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
2. The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the

employee's regular duties or during the hours during which the employee performs service or work for the school district.

3. The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment or activity. If the activity or employment falls under (3), then the employee must:

- Cease the outside employment or activity; or
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

It shall be the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

WORKPLACE PRIVACY

The district will not:

1. Require or request that an employee or applicant provide or disclose any username or password or any other related account information in order to gain access to the employee's or applicant's personal Internet account by way of an electronic communication device; or
2. Require or request that an employee or applicant log into a personal Internet account by way of an electronic communication device in the presence of the employer in a manner that enables the employer to observe the contents of the employee's or applicant's personal Internet account or provides the employer access to the employee's or applicant's personal Internet account; or
3. Require an employee or applicant to add anyone, including the employer, to the list of contacts associated with the employee's or applicant's personal Internet account or require or otherwise coerce an employee or applicant to change the settings on the employee's or applicant's personal Internet account which affects the ability of others to view the content of such account; or
4. Take adverse action against, fail to hire, or otherwise penalize an employee or applicant for failure to provide or disclose any of the information or to take any of the actions specified above.
5. Require an employee or applicant to waive or limit any protection granted under the Workplace Privacy Act as a condition of continued employment or of applying for or receiving an offer of employment.

The district shall maintain its right to control, monitor and review the use of its computers, technology and the Internet as stated in policy 606.06, to access any employee-related information available in the public domain, and conduct investigations related to employee actions prohibited by district policy to the extent those investigations are not expressly prohibited by the Workplace Privacy Act or other applicable state or federal law.

Recording of Conversations in the Workplace

To ensure privacy and confidentiality in the workplace, no person is authorized to record or transmit the sound or image of any person without prior authorization or consent by either the person(s) being recorded or whose sound or image is being transmitted or by the Superintendent. Recording may be done in circumstances where recording is expressly permitted such as (1) recording a Board meeting during open session, (2) at District-sponsored activities where the focus of the recording or transmission is on the student performances or activities, (3) when recording an IEP or similar meeting to facilitate a record of parental involvement in the process or protection of other rights guaranteed by the Individuals with Disabilities Education Act, (4) District-operated security equipment, or (5) other instances required by law or allowed by District policy.

EMPLOYEE CONFLICT OF INTEREST

Employees' use of their position with the school district for financial gain shall be considered a conflict of interest with their position as employees and may subject employees to disciplinary action.

No employee earning more than one hundred fifty thousand dollars annually in salary and benefits may enter into any contract, agreement, or understanding on the district's behalf that may cause financial benefit to the employee, a member of the employee's immediate family, or a business with which the employee is associated, without prior full disclosure of the conflict to the board, and without prior approval by the board.

Employees have access to information and a captive audience that could award the employee personal or financial gain. No employee may solicit other employees or students for personal or financial gain to the employee or employee's spouse without the approval of the superintendent. If the approval of the superintendent is given, the employee must conduct the solicitations within the conditions set by the superintendent. Further, the superintendent may require the employee to immediately cease such solicitations as a condition of continued employment.

Employees shall not act as an agent or dealer for the sale of textbooks or other school supplies. Employees shall not participate for personal financial remuneration in outside activities wherein their position on the staff is used to sell goods or services to students or to parents. Employees shall not engage in outside work or activities where the source of information concerning the customer, client or employer originates from information obtained because of the employee's position in the school district.

It shall also be a conflict of interest for an employee to engage in any outside employment or activity which is in conflict with the employee's official duties and responsibilities. In determining whether outside employment or activity of an employee creates a conflict of interest, situations in which an unacceptable conflict of interest shall be deemed to exist shall include, but not be limited to, any of the following:

1. The outside employment or activity involves the use of the school district's time, facilities, equipment and supplies or the use of the school district's badge, uniform, business card or other evidences of office to give the employee or the employee's immediate family an advantage or monetary benefit that is not available to other similarly situated members or classes of members of the general public. For purposes of this section, a person is not "similarly situated" merely by being related to an employee who is employed by the school district.
2. The outside employment or activity involves the receipt of, promise of, or acceptance of more or other consideration by the employee or a member of the employee's immediate family from anyone other than the school district for the performance of any act that the employee would be required or expected to perform as part of the

employee's regular duties or during the hours during which the employee performs service or work for the school district.

3. The outside employment or activity is subject to the official control, inspection, review, audit or enforcement authority of the employee during the performance of the employee's duties.

If the outside employment or activity is employment or activity in (1) or (2) above, the employee must cease the employment or activity. If the activity or employment falls under (3), then the employee must:

- Cease the outside employment or activity; or
- Publicly disclose the existence of the conflict and refrain from taking any official action or performing any official duty that would detrimentally affect or create a benefit for the outside employment or activity. Official action or official duty includes, but is not limited to, participating in any vote, taking affirmative action to influence any vote, or providing any other official service or thing that is not available generally to members of the public in order to further the interests of the outside employment or activity.

It shall be the responsibility of each employee to be aware of and take the necessary action to eliminate a potential conflict of interest should it arise.

NONRESIDENT STUDENTS/OPTION ENROLLMENT

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the option enrollment program authorized by state statutes. Option enrollment students shall be accepted without charge. The option shall be available once during elementary school, once during middle school or junior high school, and once during high school for a total of three times

Applications: Application for option enrollment should be made between September 1 and March 15 for enrollment during the following and subsequent school years. Upon agreement of the school boards of the resident district and the option (receiving) district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident school district, or if the student is an option student at the time of such application and applying to become an option student at a subsequent option school district, a release approval from the option school district the student is attending at the time of such application,

When No Release Approval is Required: The application for option enrollment does not require a release from the resident district or the option school district the student is attending at the time of such application, and the receiving district the student is applying to attend has forty-five days to issue acceptance or rejection if:

1. after February 1 the student relocated to a different resident district, or
2. the student's option district merged with another district effective after February 1, and
3. the student's attendance would occur during the next immediate and subsequent school years.

Initial Decision for Acceptance or Rejection: The option school district the student is applying to attend shall provide the resident school district, and if applicable, the option school district the student is attending at the time of such application, with the name of the applicant on or before April 1 or, in the case of an application submitted after March 15, within sixty days after submission. If the district rejects an application for a student to option in or out, the district will provide notification by certified mail to the parent/guardian of the specific reasons for rejection including a description of services and accommodations required that the district does not have the capacity to provide, and the process for appealing the decision to the State Board of Education.

Attendance at Option District: In general, the option student shall attend the option district until graduation unless the student relocates in a different resident school district, transfers to a private or parochial school, or chooses to return to the resident school

district, or options into a subsequent option school district, except that no student may use the enrollment option program other than as provided in state statutes.

No option student shall attend an option school for less than one year unless the student relocates to a different resident school district, completes requirements for graduation prior to the end of his or her senior year, transfers to a private or parochial school, or upon mutual agreement of the resident and option school districts cancels the enrollment option and returns to the resident school district or the previous option school district the student was attending immediately prior.

Setting Standards for Acceptance or Rejection of an Option Request: The board shall adopt a resolution and publish its specific standards for acceptance and rejection of applications as an option school prior to October 15 of each school year for the next school year. Standards will conform to those set forth by state statute. These may include the capacity of a program, class, grade level, or school building.

The board shall also adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15. Such standards shall not include the failure to meet the March 15 deadline.

Capacity for the district's special education services shall be determined on a case-by-case basis as determined by the Director of Special Education or designee. If the district receives an option enrollment application indicating the student has an individualized education program under the Individuals with Disabilities Education Act or may be eligible to receive special education or related services, it shall be evaluated to determine if the appropriate class, grade level, or school building in the district has the capacity to provide the student with the appropriate services and accommodations.

The standards shall not include previous academic achievement, athletic or other extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings except as allowed by law.

Option Priorities: An option district shall give first priority for enrollment to siblings of option students within the requirements of state statutes. The board shall follow statutes regarding the application of a student who relocates in a different district but wants to continue attending his or her original resident district or current option district.

Acceptance or Rejection Procedures: The option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

If an application is rejected by the option school district or if the resident school district rejects a request for release, the rejecting school district shall provide written notification to the parent or guardian stating (a) the specific reasons for the rejection including, for students with an individualized education program under the Individuals with Disabilities Education Act., or with a diagnosed disability as defined in section 79-1118.01, a description of services and accommodations required that the school district does not have the capacity to provide, and (b) the process for appealing such rejection to the State Board of Education. Such notification shall be sent by certified mail.

The parent or legal guardian may appeal a rejection to the State Board of Education by filing a written request, together with a copy of the rejection notice, with the State Board of Education. Such request and copy of the notice must be received by the board within thirty days after the date the notification of the rejection was received by the parent or legal guardian. The hearing shall be held in accordance with the Administrative Procedure Act and shall determine whether the procedures of sections 79-234 to 79-241 have been followed. Any rejection based upon capacity limitations established under section 79-238 shall be the responsibility of the school district to prove in any appeal filed with the state board.

Reporting to the Department of Education: The district shall provide to NDE required information relating to all applications rejected by the option school district. Such information shall include, but not be limited to, (a) the number of applications rejected in each public school in such district, (b) an explanation why each application was rejected, and (c) whether each application for option enrollment indicated that the student had an individualized education program under the Individuals with Disabilities Education Act or had been identified as a student with a disability as defined in section 79-1118.01.

Nonresident Students: Nonresident students not going through option enrollment may also be admitted under a contract with the student's resident district at the discretion of the superintendent upon application and payment of tuition as stated in the contract. The tuition rate shall be the current per-pupil cost of the school district as computed by the superintendent.

Students whose residency in the district ceases during a school year may continue attending school for the remainder of the school year without payment of tuition.

Transportation: The district may choose to provide transportation to the option student in the same manner as for resident students and may choose whether or not to charge the parents of those option students a fee to recover the district's costs for the transportation. All option students who qualify for free lunches are eligible for either free transportation or the reimbursement of transportation costs from the school district as provided by state statute. Students receiving special education services shall receive transportation services as provided in the student's Individualized Education Plan.

ENTRANCE - ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to July 31 to participate in the school district's kindergarten program or beginner grade or be admitted under exceptions provided by state statute.

The board shall require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It shall be within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with proof of a physical examination and immunizations as required by law and the respective policies of this district. Failure to provide this information shall be reason for denying admission to the student under statute 79-217.

Preschool Enrollment

The district will develop and make available its guidelines for families wishing to enroll a child in the district's preschool program. If applications exceed the program's enrollment capacity, students will be admitted into the program according to the following priority:

1. Any students required by law to participate or required to be given a preference in the program.
2. Resident students who will become eligible to attend the kindergarten grade in the following year.
3. Resident students who are not otherwise yet eligible to enroll in kindergarten.
4. Non-resident students who are not yet eligible to enroll in kindergarten.
5. Resident students who will be required to attend kindergarten in the following year.

ASSIGNMENT OF NEW STUDENTS TO CLASSES AND GRADE LEVELS

New students entering from schools recognized and approved by the Nebraska Department of Education will initially be placed in grades and classes on the basis of their grade placement/credits in the school from which they are transferring. The district administration, through academic achievement tests and other evaluation measures as necessary, will determine the appropriate grade level/credit status of students transferring from schools that have not been approved by the state department of education. These measures may include chronological age, previous public or private school experience and transcript review, diagnostic or achievement testing data test data, criterion referenced test data, exam test data, and administrative or counselor reviews.

Previous high school work may be validated for a high school student by successfully completing a higher level unit in this district's high school for every unit completed in a non-accredited high school; i.e., completion of a second unit mathematics would validate the mathematics credit transferred. If no successive course work is pursued to validate the credit, similar or equivalent work will be evaluated at the discretion of the principal.

ADDRESSING BARRIERS TO ATTENDANCE

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center. This policy, developed and annually reviewed in collaboration with the county attorney for the district's principal office location, is an attempt to address the barriers to student attendance. This policy shall include a provision indicating how the district and the county attorney will handle those cases in which excessive unexcused absences are not due to mental or physical illness and shall state the circumstances and number of other absences or hourly equivalent upon which the school shall render all services to address barriers to attendance.

Any superintendent, principal, teacher, or member of the school board who knows of any violation of the state school attendance laws (79-201) shall report that violation to the school attendance officer within 3 days.

The superintendent shall designate an attendance officer. The attendance officer will immediately investigate the report of any child who may be in violation of the state's compulsory attendance statutes.

If any student has exceeded the number of unexcused absences as defined in the student handbook, the school shall render all services to address barriers to attendance. These services shall include the following:

1. Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and
2. A meeting or meetings between the school attendance officer, school social worker, a school administrator or designee, the person who has legal or actual control of the child, and the student (when appropriate) to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall include, if agreed to by the person who is responsible for making educational decisions on behalf of the child, an educational evaluation to determine whether any intellectual, academic, physical, or social emotional barriers are contributing factors to the lack of attendance. The plan shall also consider, but not be limited to:
 - (i) Illness related to physical, mental, or behavioral health of the child;
 - (ii) Educational counseling;
 - (iii) Referral to community agencies for economic services;
 - (iv) Family or individual counseling; and
 - (v) Assisting the family in working with other community services.

The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by statutes, that the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and that the child has been absent more than twenty days per school year. The school shall notify the child's family in writing prior to referring the child to the county attorney. Illness, either physical or mental, that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

Students are subject to disciplinary action for excessive absenteeism including suspension and expulsion. It shall be within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of excessive absenteeism. Disciplinary action for students receiving special education services will be assigned in accordance with the goals and objectives of the student's Individualized Education Program.

The superintendent shall report to the Commissioner of Education as directed by the commissioner regarding the number of and reason for any long-term suspension, expulsion, or excessive absenteeism of a student; referral of a student to the office of the county attorney for excessive absenteeism; or contacting of law enforcement officials other than school resource officers by the district relative to a student enrolled in the district. The superintendent shall report annually to the Commissioner the required data for the number of students who have dropped out of school.

It shall be the responsibility of the superintendent to implement this policy. The implementation may include regulations indicating the disciplinary action to be taken for excessive absenteeism.

STUDENT CONDUCT

The board believes inappropriate student conduct causes serious disruption to the learning environment, interferes with the rights of others, and threatens the health and safety of students, employees and the public. The Superintendent and staff will develop and implement age-appropriate student codes of conduct to facilitate the educational process.

The district will not substantially burden the right to a student's religious exercise unless that religious exercise is disruptive to or interferes with the school learning environment, is detrimental to the health or safety of the student or another person, or violates the permission of staff.

Students shall conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district. This policy will also apply while on school owned, operated or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

Students who violate this policy and the administrative regulations supporting it will be subject to disciplinary measures including, but not limited to, removal from the classroom, detention, suspension, probation and expulsion. The codes of conduct will include measures to prevent or discourage behavior which interferes with the educational program, behavior which disrupts the orderly and efficient operation of the school or the functioning of school activities, behavior which interferes with the maintenance of a learning environment, behavior that is violent or destructive, or behavior which interferes with the rights of other students to pursue their education. Procedures will be available to allow rights of due process for all students.

Every report of alleged violations of student conduct policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing student conduct investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of student conduct policies.

This disciplinary process is designed to create the expectation that the degree of discipline imposed by the school will be proportionate to the severity of the behavior of the particular student, the previous discipline history of the student and other relevant

factors. It will also include parental involvement processes designed to enable parents, guardians, teachers and school administrators to work together to improve and enhance appropriate student behavior and academic performance. All student codes of conduct shall be submitted to the board for approval or review.

The code of conduct will be included in the student handbook, and a parent/guardian will sign and promptly return an acknowledgement of receipt of the handbook which specifically mentions the student code of conduct.

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness, grooming and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any public or private location on the school grounds or at any school function where the person is otherwise authorized to be as long as the tribal regalia does not interfere with the educational process and is not detrimental to the health or safety of the student or another person.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

WEAPONS

The board believes weapons and other dangerous objects and look-a-likes in school district facilities including concealed weapons cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

This shall not apply to the issuance of firearms to or possession by members of the armed forces of the United States, active or reserve, National Guard of this state, or Reserve Officers' Officers Training Corps, peace officers, authorized law enforcement officers, or authorized retired law enforcement officers when on duty or training.

Weapons and other dangerous objects and look-a-likes shall be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

The term "dangerous object" shall include noxious or flammable material, fireworks, devices intended to administer an electric shock (tasers, electric batons, prods, or stun guns) chemical weapons (i.e. mace, pepper spray), martial arts weapons or other instruments including those which eject a projectile or substance of any kind, or any replica or facsimile of any of the above, whether functional or nonfunctional, whether designed for use as a weapon or for some other use.

Parents of students found to possess weapons or dangerous objects or look-a-likes on school property shall be notified of the incident. Confiscation of weapons or dangerous objects including concealed weapons shall be reported to the law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Students bringing firearms as defined in 18 U.S.C. 921 to school or knowingly possessing firearms including concealed firearms at school may be expelled for a period of not less than one year. Students bringing to school or possessing dangerous weapons, including firearms, will be referred to law enforcement authorities. The superintendent shall have the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas.

Weapons or dangerous objects under the control of law enforcement officials shall be exempt from this policy. This policy does not prohibit firearms contained in a private vehicle operated by a nonstudent adult or prohibited person that are locked inside the

glove box, trunk, or other compartment of the vehicle, a storage box securely attached to the vehicle, or, if the vehicle is a motorcycle, other than an autocycle, a hardened

compartment securely attached to the motorcycle while the vehicle is in or on such parking area. Firearms also may be possessed by a person for the purpose of using them, with the approval of the school, in a historical reenactment, in a hunter education program, or as part of an honor guard. The principal may allow authorized persons to display weapons or other dangerous objects or look-a-likes for educational purposes and must be kept in a designated location during the school day. Such a display shall also be exempt from this policy. It shall be the responsibility of the superintendent, in conjunction with the principal, to implement this policy.

QUESTIONING OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Law enforcement interviews should involve school-related criminal activity, a warrant or a court order. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted.

Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present. The principal shall document actions taken by the district on behalf of the student, detail the steps taken to notify parents, document the activities taken by the law enforcement officer, and document any further contacts with law enforcement officer.

If a child abuse investigator wishes to interview a student, the principal will determine whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview. An administrator or designee will be present during the interview.

The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes. In all cases of giving up custody to a law enforcement officer, the administrator should obtain the officer's name, badge number and law enforcement agency, date, time, location to which the student is being taken, and reason for arrest in those situations not legally requiring a court order or warrant.

SUICIDE AWARENESS AND ASSESSMENT

Required Training

The board wishes to ensure that appropriate staff training for suicide awareness and prevention as required by state statutes is conducted on an annual basis. All district nurses, teachers, counselors, school psychologists, administrators, school social workers, and any other appropriate personnel shall receive at least one hour of such training each year.

The training should include such topics as how to identify appropriate mental health services both within the school and also within the larger community, and when and how to refer youth and their families to those services.

It shall be the responsibility of the superintendent to implement and monitor this training.

Assessment Program

In its commitment to protect the health, safety, and welfare of its students, and to reduce the risk of suicide or suicide attempts among the student population, the board directs school personnel to develop a program of suicide risk assessment, identification, counseling, and response within the schools. These measures, strategies, practices, and supports will be used by employees who regularly interact with students to promote the students' mental and physical well-being. Nothing in this policy shall be interpreted to impose a specific duty of care.

Definitions

At-Risk for Suicide shall mean any youth with risk factors or warning signs that increase the likelihood of suicidal behavior.

Prevention refers to efforts that seek to reduce the factors that increase the risk for suicidal thoughts and behaviors and increase the factors that help strengthen, support, and protect individuals from suicide.

Protective Factors refers to characteristics associated with a lower likelihood of negative outcomes or that reduces a risk factor's impact. Protective factors may be seen as positive countering events.

Resilience is the process of adapting well in the face of adversity, trauma, tragedy, threats, or significant sources of stress or "bouncing back" from difficult experiences.

Risk Factors refers to characteristics at the biological, psychological, family, community, or cultural level that precede and are associated with a higher likelihood of negative outcomes, including suicide.

School Connectedness shall mean the belief by students that adults and peers in the school care about their learning as well as about them as individuals.

School Personnel include, but may not be limited to, administrators, teachers, school-based behavioral health professionals (e.g., school counselor, school psychologist, school social worker), paraprofessionals, support staff, coaches, bus drivers, custodians and cafeteria workers.

Suicide shall refer to death caused by self-directed injurious behavior with intent to die as a result of the behavior.

Suicidal Act or Suicide Attempt shall mean a potentially self-injurious behavior for which there is evidence that the person intended to kill him/herself; a suicidal act may result in death, injuries, or no injuries.

Suicide Threat shall mean a verbal or nonverbal communication that an individual intends to harm him/herself with the intention to die but has not acted on the behavior.

Warning Signs are evidence-based indicators, often observable, that someone may be in danger of suicide, either immediately or in the very near future.

Crisis Response Team

The district shall establish a Crisis Response Team. The team may include, but is not limited to, administrators, school counselors, school psychologists, school nurses, school social workers, school safety and security personnel, and/or teachers and other employees who regularly interact with the students. Outside health agency resources may also be called upon for assistance. A letter of agreement between the district and any community providers is encouraged prior to commencement of any crisis response services. Each building shall designate a Crisis Response Team Coordinator and that individual shall be identified in student handbooks and on the district's website.

The Crisis Response Team should also include individuals designated as coordinators and/or investigators in district policy on cases involving harassment, as required under federal law. These individuals will help identify overlapping risk factors, including hostile environments created by persistent or severe harassment on the basis of gender, race, disability, or other protected classes.

Members of the Crisis Response Team should receive additional suicide awareness and prevention education in addition to the basic suicide awareness training required by state law to educate them in the importance of suicide prevention, the recognition of suicide risk factors and warning signs, and how to respond. Staff education should also include strategies to enhance protective factors, resilience, and school connectedness.

Student Health Education

Age-appropriate student health education in accordance with state health education standards may include but is not limited to the following:

1. Adherence to safe and effective messaging guidelines, avoiding graphic testimonials, and inclusion of reputable suicide prevention resources.
2. Informing students about broader behavioral health issues such as depression and substance abuse, as well as specific risk/protective factors and warning signs for suicide.
3. Encouraging students to seek help for themselves or their peers, including when concerns arise via social media or other online media, and to avoid making promises of confidence when they are concerned about the safety of a peer; and/or
4. Promoting a healthy school climate where students feel connected to and can identify trusted adults in the building.

Intervention/Prevention

Information received in confidence from a student may be revealed to the student's parents or guardians, the building principal or other appropriate authority when the health, welfare or safety of the student or other persons is clearly in jeopardy.

Any school personnel who observe a student exhibiting a warning sign for suicide, or who has another indication that a student may be contemplating suicide, shall refer the student for risk assessment and intervention to the building principal or the Crisis Response Team Coordinator. In the absence of an immediate warning sign for suicide, students demonstrating suicide risk factors that appear to be adversely impacting the student should be referred to the Crisis Response Team Coordinator.

Any school personnel who are made aware of any threat or witness any attempt towards self-harm that is written, drawn, spoken, or threatened shall immediately notify the building principal or the Crisis Response Team Coordinator. Any threat in any form shall be treated as real and dealt with immediately. In cases of suicidal thoughts and behaviors, a student's confidentiality will be waived.

For students with disabilities who are identified as being at risk for suicide or who attempt suicide, the Crisis Response Team Coordinator shall also notify the Director of Special Education to address the student's needs in accordance with applicable law, regulations and board policy.

Procedures for Parental Involvement

Parents or guardians of a student identified as being at risk of suicide must be immediately notified by the school and must be involved in consequent actions and provided with appropriate available resources.

Response to Suicide Attempt

The Crisis Response Team will develop guidelines for responding to a suicide attempt on school grounds or during a school-sponsored event including notifications of appropriate

persons, for responding to a suicide death, and for post-incident procedures, which shall include methods for informing the school community, identifying and monitoring at-risk youth, and providing resources and supports for students, staff, and families.

NONRESIDENT STUDENTS/OPTION ENROLLMENT

Students who are eligible to attend a Nebraska public school but who are not legal residents of the school district may be admitted into the school district in accordance with the option enrollment program authorized by state statutes. Option enrollment students shall be accepted without charge. ~~If the student has previously had an option enrollment accepted in any district, the application shall be rejected unless a statutory exception to this rule applies for that student.~~ The option shall be available once during elementary school, once during middle school or junior high school, and once during high school for a total of three times

Applications: Application for option enrollment should be made between September 1 and March 15 for enrollment during the following and subsequent school years. Upon agreement of the school boards of the resident district and the option (receiving) district, deadlines for application and approval of the option may be waived. Following the March 15 deadline, applications requesting admittance must contain a release approval from the resident ~~district prior to the option district's consideration for acceptance.~~ school district, or if the student is an option student at the time of such application and applying to become an option student at a subsequent option school district, a release approval from the option school district the student is attending at the time of such application,

When No Release Approval is Required: The application for option enrollment does not require a release from the resident district or the option school district the student is attending at the time of such application, and the receiving district the student is applying to attend has forty-five days to issue acceptance or rejection if:

1. after February 1 the student relocated to a different resident district, or
2. the student's option district merged with another district effective after February 1, and
3. the student's attendance would occur during the next immediate and subsequent school years.

~~For applications submitted by the March 15 deadline, written notification of approval or rejection of the application will be made before April 1 to the student's parent/guardian and the resident district.~~ **Initial Decision for Acceptance or Rejection:** The option school district the student is applying to attend shall provide the resident school district, and if applicable, the option school district the student is attending at the time of such application, with the name of the applicant on or before April 1 or, in the case of an application submitted after March 15, within sixty days after submission. If the district rejects an application for a student to option in or out, the district will provide notification by certified mail to the parent/guardian of the specific reasons for rejection including a description of services and accommodations required that the district does not have the capacity to provide, and the process for appealing the decision to the State Board of Education.

Attendance at Option District: In general, the option student shall attend the option district until graduation unless the student relocates in a different resident school district, transfers to a private or parochial school, or chooses to return to the resident school

Approved _____ Reviewed _____ Revised _____

~~The board shall adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15-~~ district, or options into a subsequent option school district, except that no student may use the enrollment option program other than as provided in state statutes.

No option student shall attend an option school for less than one year unless the student relocates to a different resident school district, completes requirements for graduation prior to the end of his or her senior year, transfers to a private or parochial school, or upon mutual agreement of the resident and option school districts cancels the enrollment option and returns to the resident school district or the previous option school district the student was attending immediately prior.

Setting Standards for Acceptance or Rejection of an Option Request: Such standards shall not include the failure to meet the March 15 deadline. ~~For those applications,~~ The option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

The board shall adopt a resolution and publish its specific standards for acceptance and rejection of applications as an option school prior to October 15 of each school year for

the next school year. Standards will conform to those set forth by state statute. These may include the capacity of a program, class, grade level, or school building.

The board shall also adopt standards and conditions for acceptance or rejection of a request for release of a resident student submitting an option application after March 15.

Such standards shall not include the failure to meet the March 15 deadline.

Capacity for the district's special education services shall be determined on a case-by-case basis as determined by the Director of Special Education or designee. If the district receives an option enrollment application indicating the student has an individualized education program under the Individuals with Disabilities Education Act or may be eligible to receive special education or related services, it shall be evaluated to determine if the appropriate class, grade level, or school building in the district has the capacity to provide the student with the appropriate services and accommodations.

The standards shall not include previous academic achievement, athletic or other extracurricular ability, disabilities, proficiency in the English language, or previous disciplinary proceedings except as allowed by law.

Option Priorities: An option district shall give first priority for enrollment to siblings of option students within the requirements of state statutes. The board shall follow statutes regarding the application of a student who relocates in a different district but wants to continue attending his or her original resident district or current option district.

Acceptance or Rejection Procedures: The option district shall notify the parent/guardian and the resident district whether the application is accepted or rejected within sixty days after submission. False or substantively misleading information submitted by a parent/guardian on an application to an option district may be cause for the option district to reject a previously accepted application prior to the student's attendance.

If an application is rejected by the option school district or if the resident school district rejects a request for release, the rejecting school district shall provide written notification to the parent or guardian stating (a) the specific reasons for the rejection including, for students with an individualized education program under the Individuals with Disabilities Education Act., or with a diagnosed disability as defined in section 79-1118.01, a description of services and accommodations required that the school district does not have the capacity to provide, and (b) the process for appealing such rejection to the State Board of Education. Such notification shall be sent by certified mail.

The parent or legal guardian may appeal a rejection to the State Board of Education by filing a written request, together with a copy of the rejection notice, with the State Board of Education. Such request and copy of the notice must be received by the board within thirty days after the date the notification of the rejection was received by the parent or legal guardian. The hearing shall be held in accordance with the Administrative Procedure Act and shall determine whether the procedures of sections 79-234 to 79-241 have been followed. Any rejection based upon capacity limitations established under section 79-238 shall be the responsibility of the school district to prove in any appeal filed with the state board.

Reporting to the Department of Education: The district shall provide to NDE required information relating to all applications rejected by the option school district. Such information shall include, but not be limited to, (a) the number of applications rejected in each public school in such district, (b) an explanation why each application was rejected, and (c) whether each application for option enrollment indicated that the student had an individualized education program under the Individuals with Disabilities Education Act or had been identified as a student with a disability as defined in section 79-1118.01.

Nonresident Students: Nonresident students not going through option enrollment may also be admitted under a contract with the student's resident district at the discretion of

ENTRANCE - ADMISSIONS

Children in the school district community will be allowed to enroll in the school district's regular education program beginning at age five. The child must be age five on or prior to July 31 to participate in the school district's kindergarten program or beginner grade, or be admitted under exceptions provided by state statute.

The board shall require evidence of age and residency in the form of a birth certificate or other evidence before the student may enroll in the school district's education program. It shall be within the discretion of the superintendent to determine what is satisfactory evidence for proof of age.

Prior to enrollment, the child must provide the administration with proof of a physical examination and immunizations as required by law and the respective policies of this district. Failure to provide this information shall be reason for denying admission to the student under statute 79-217.

Preschool Enrollment

The district will develop and make available its guidelines for families wishing to enroll a child in the district's preschool program. If applications exceed the program's enrollment capacity, students will be admitted into the program according to the following priority:

1. Any students required by law to participate or required to be given a preference in the program.
2. Resident students who will become eligible to attend the kindergarten grade in the following year.
3. Resident students who are not otherwise yet eligible to enroll in kindergarten.
4. Non-resident students who are not yet eligible to enroll in kindergarten.
5. Resident students who will be required to attend kindergarten in the following year.

ASSIGNMENT OF NEW STUDENTS TO CLASSES AND GRADE LEVELS

New students entering from schools recognized and approved by the Nebraska Department of Education will initially be placed in grades and classes on the basis of their grade placement/credits in the school from which they are transferring. The district administration, through academic achievement tests and other evaluation measures as necessary, will determine the appropriate grade level/credit status of students transferring from schools that have not been approved by the state department of education. These measures may include chronological age, previous public or private school experience and transcript review, diagnostic or achievement testing data test data, criterion referenced test data, exam test data, and administrative or counselor reviews.

Previous high school work will/may be validated for a high school student by successfully completing a higher level unit in this district's high school for every unit completed in a non-accredited high school; i.e., completion of a second unit mathematics would validate the mathematics credit transferred. If no successive course work is pursued to validate the credit, similar or equivalent work will be evaluated at the discretion of the principal.

ADDRESSING BARRIERS TO ATTENDANCE

Regular attendance by the students at school is essential for students to obtain the maximum opportunities from the education program. Parents and students alike are encouraged to ensure an absence from school is a necessary absence. Students shall attend school unless excused by the principal of their attendance center. This policy, developed and annually reviewed in collaboration with the county attorney for the district's principal office location, is an attempt to address the barriers to student attendance. This policy shall include a provision indicating how the district and the county attorney will handle those cases in which excessive unexcused absences are not due to mental or physical illness and shall state the circumstances and number of other absences or hourly equivalent upon which the school shall render all services to address barriers to attendance.

Any superintendent, principal, teacher, or member of the school board who knows of any violation of the state school attendance laws (79-201) shall report that violation to the school attendance officer within 3 days.

The superintendent shall designate an attendance officer. The attendance officer will immediately investigate the report of any child who may be in violation of the state's compulsory attendance statutes.

If any student has exceeded the number of unexcused absences as defined in the student handbook, the school shall render all services to address barriers to attendance. These services shall include the following:

1. Verbal or written communication by school officials with the person or persons who have legal or actual charge or control of any child; and
2. A meeting or meetings between the school attendance officer, school social worker, a school administrator or designee, the person who has legal or actual control of the child, and the student (when appropriate) to address the barriers to attendance. The result of the meeting or meetings shall be to develop a collaborative plan to reduce barriers identified to improve regular attendance. The plan shall include, if agreed to by the person who is responsible for making educational decisions on behalf of the child, an educational evaluation to determine whether any intellectual, academic, physical, or social emotional barriers are contributing factors to the lack of attendance. The plan shall also consider, but not be limited to:
 - (i) Illness related to physical, mental, or behavioral health of the child;
 - (ii) Educational counseling;
 - (iii) Educational evaluation;
 - ~~(iv)~~ Referral to community agencies for economic services;
 - ~~(v)~~ Family or individual counseling; and
 - ~~(vi)~~ Assisting the family in working with other community services.

Approved _____ Reviewed _____ Revised _____

The school may report to the county attorney of the county in which the person resides when the school has documented the efforts it has made as required by statutes, that the collaborative plan to reduce barriers identified to improve regular attendance has not been successful, and that the child has been absent more than twenty days per school year. The school shall notify the child's family in writing prior to referring the child to the county attorney. Illness, either physical or mental, that makes attendance impossible or impracticable shall not be the basis for referral to the county attorney.

Students are subject to disciplinary action for excessive absenteeism including suspension and expulsion. It shall be within the discretion of the principal to determine, in light of the circumstances, whether a student may make up work missed because of excessive absenteeism. Disciplinary action for students receiving special education services will be assigned in accordance with the goals and objectives of the student's Individualized Education Program.

The superintendent shall report to the Commissioner of Education as directed by the commissioner regarding the number of and reason for any long-term suspension, expulsion, or excessive absenteeism of a student; referral of a student to the office of the county attorney for excessive absenteeism; or contacting of law enforcement officials other than school resource officers by the district relative to a student enrolled in the district. The superintendent shall report annually to the Commissioner the required data for the number of students who have dropped out of school.

It shall be the responsibility of the superintendent to implement this policy. The implementation may include regulations indicating the disciplinary action to be taken for excessive absenteeism.

STUDENT CONDUCT

The board believes inappropriate student conduct causes serious disruption to the learning environment, interferes with the rights of others, and threatens the health and safety of students, employees and the public. The Superintendent and staff will develop and implement age-appropriate student codes of conduct to facilitate the educational process.

The district will not substantially burden the right to a student's religious exercise unless that religious exercise is disruptive to or interferes with the school learning environment, is detrimental to the health or safety of the student or another person, or violates the permission of staff.

Students shall conduct themselves in a manner fitting to their age level and maturity and with respect and consideration for the rights of others while on school district property or on property within the jurisdiction of the school district. This policy will also apply while on school owned, operated or chartered transportation; while attending or engaged in school activities; and while away from school grounds if misconduct will directly affect the good order, efficient management and educational processes of the school district.

Students who violate this policy and the administrative regulations supporting it will be subject to disciplinary measures including, but not limited to, removal from the classroom, detention, suspension, probation and expulsion. The codes of conduct will include measures to prevent or discourage behavior which interferes with the educational program, behavior which disrupts the orderly and efficient operation of the school or the functioning of school activities, behavior which interferes with the maintenance of a learning environment, behavior that is violent or destructive, or behavior which interferes with the rights of other students to pursue their education. Procedures will be available to allow rights of due process for all students.

Every report of alleged violations of student conduct policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing student conduct investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of student conduct policies.

This disciplinary process is designed to create the expectation that the degree of discipline imposed by the school will be proportionate to the severity of the behavior of the particular student, the previous discipline history of the student and other relevant

STUDENT APPEARANCE

The board believes inappropriate student appearance causes material and substantial disruption to the school environment or presents a threat to the health and safety of students, employees and visitors.

Students are expected to adhere to standards of cleanliness, grooming and dress that are compatible with the requirements of a good learning environment. The standards will be those generally acceptable to the community as appropriate in a school setting.

The board expects students to be clean and well-groomed and wear clothes in good repair and appropriate for the time, place and occasion. Clothing or other apparel promoting products illegal for use by minors and clothing displaying obscene material, profanity, or reference to prohibited conduct are disallowed. While the primary responsibility for appearance lies with the students and their parents, appearance disruptive to the education program will not be tolerated. When, in the judgment of a principal, a student's appearance or mode of dress disrupts the educational process or constitutes a threat to health or safety, the student may be required to make modifications.

A student who is a member of an indigenous tribe of the United States or another country may wear tribal regalia in any public or private location on the school grounds or at any school function where the person is otherwise authorized to be as long as the tribal regalia does not interfere with the educational process and is not detrimental to the health or safety of the student or another person.

It shall be the responsibility of the superintendent, in conjunction with the principals, to develop administrative regulations regarding this policy.

WEAPONS

The board believes weapons and other dangerous objects and look-a-likes in school district facilities including concealed weapons cause material and substantial disruption to the school environment or present a threat to the health and safety of students, employees and visitors on the school district premises or property within the jurisdiction of the school district.

This shall not apply to the issuance of firearms to or possession by members of the armed forces of the United States, active or reserve, National Guard of this state, or Reserve Officers' Officers Training Corps, peace officers, authorized law enforcement officers, or authorized retired law enforcement officers when on duty or training.

Weapons and other dangerous objects and look-a-likes shall be taken from students and others who bring them onto the school district property or onto property within the jurisdiction of the school district or from students who are within the control of the school district.

The term "dangerous object" shall include noxious or flammable material, fireworks, devices intended to administer an electric shock (tasers, electric batons, prods, or stun guns) chemical weapons (i.e. mace, pepper spray), martial arts weapons or other instruments including those which eject a projectile or substance of any kind, or any replica or facsimile of any of the above, whether functional or nonfunctional, whether designed for use as a weapon or for some other use.

Parents of students found to possess weapons or dangerous objects or look-a-likes on school property shall be notified of the incident. Confiscation of weapons or dangerous objects including concealed weapons shall be reported to the law enforcement officials, and students will be subject to disciplinary action including suspension or expulsion.

Students bringing firearms as defined in 18 U.S.C. 921 to school or knowingly possessing firearms including concealed firearms at school may be expelled for a period of not less than one year. Students bringing to school or possessing dangerous weapons, including firearms, will be referred to law enforcement authorities. The superintendent shall have the authority to recommend this expulsion requirement be modified for students on a case-by-case basis. For purposes of this portion of this policy, the term "firearm" includes, but is not limited to, any weapon which is designed to expel a projectile by the action of an explosive, the frame or receiver of any such weapon, a muffler or silencer for such a weapon, or any explosive, incendiary or poison gas.

Weapons or dangerous objects under the control of law enforcement officials shall be exempt from this policy. ~~Firearms kept in a locked firearm rack that is on a motor vehicle or that are~~ This policy does not prohibit firearms contained ~~within~~ within a private vehicle operated by a nonstudent adult or prohibited person that are locked inside the

QUESTIONING OF STUDENTS BY OUTSIDE AGENCIES

Generally, students may not be interviewed during the school day by persons other than parents and school district officials and employees.

Requests from law enforcement officers and from persons other than parents, school district officials, and employees to interview students shall be made through the principal's office. Law enforcement interviews should involve school-related criminal activity, a warrant or a court order. Upon receiving a request, it shall be the responsibility of the principal to determine whether the request will be granted. Generally, prior to granting a request, the principal shall attempt to contact the parents to inform them of the request and to ask them to be present. The principal shall document actions taken by the district on behalf of the student, detail the steps taken to notify parents, document the activities taken by the law enforcement officer, and document any further contacts with law enforcement officer.

If a child abuse investigator wishes to interview a student, the principal will ~~defer to the investigator's judgment as to determine~~ whether the student should be interviewed independently from the student's parents, whether the school is the most appropriate setting for the interview, and who will be present during the interview. An administrator or designee will be present during the interview.

The superintendent or building principal shall only release minor students into the custody of a law enforcement officer upon presentation of a court order or warrant for the student's arrest, or under conditions for temporary custody of a juvenile without a warrant as provided by state statutes. In all cases of giving up custody to a law enforcement officer, the administrator should obtain the officer's name, badge number and law enforcement agency, date, time, location to which the student is being taken, and reason for arrest in those situations not legally requiring a court order or warrant.

SUICIDE AWARENESS AND ASSESSMENT

Required Training

The board wishes to ensure that appropriate staff training for suicide awareness and prevention as required by state statutes is conducted on an annual basis. All district nurses, teachers, counselors, school psychologists, administrators, school social workers, and any other appropriate personnel shall receive at least one hour of such training each year.

The training should include such topics as how to identify appropriate mental health services both within the school and also within the larger community, and when and how to refer youth and their families to those services.

It shall be the responsibility of the superintendent to implement and monitor this training.

Assessment Program

In its commitment to protect the health, safety, and welfare of its students, and to reduce the risk of suicide or suicide attempts among the student population, the board directs school personnel to develop a program of suicide risk assessment, identification, counseling, and response within the schools. These measures, strategies, practices, and supports will be used by employees who regularly interact with students to promote the students' mental and physical well-being. Nothing in this policy shall be interpreted to impose a specific duty of care.

Definitions

At-Risk for Suicide shall mean any youth with risk factors or warning signs that increase the likelihood of suicidal behavior.

Prevention refers to efforts that seek to reduce the factors that increase the risk for suicidal thoughts and behaviors and increase the factors that help strengthen, support, and protect individuals from suicide.

Protective Factors refers to characteristics associated with a lower likelihood of negative outcomes or that reduces a risk factor's impact. Protective factors may be seen as positive countering events.

Resilience is the process of adapting well in the face of adversity, trauma, tragedy, threats, or significant sources of stress or "bouncing back" from difficult experiences.

Risk Factors refers to characteristics at the biological, psychological, family, community, or cultural level that precede and are associated with a higher likelihood of negative outcomes, including suicide.

School Connectedness shall mean the belief by students that adults and peers in the school care about their learning as well as about them as individuals.

School Personnel include, but may not be limited to, administrators, teachers, school-based behavioral health professionals (e.g., school counselor, school psychologist, school social worker), paraprofessionals, support staff, coaches, bus drivers, custodians and cafeteria workers.

Suicide shall refer to death caused by self-directed injurious behavior with intent to die as a result of the behavior.

Suicidal Act or Suicide Attempt shall mean a potentially self-injurious behavior for which there is evidence that the person intended to kill him/herself; a suicidal act may result in death, injuries, or no injuries.

Suicide Threat shall mean a verbal or nonverbal communication that an individual intends to harm him/herself with the intention to die but has not acted on the behavior.

Warning Signs are evidence-based indicators, often observable, that someone may be in danger of suicide, either immediately or in the very near future.

Crisis Response Team

The district shall establish a Crisis Response Team. The team may include, but is not limited to, administrators, school counselors, school psychologists, school nurses, school social workers, school safety and security personnel, and/or teachers and other employees who regularly interact with the students. Outside health agency resources may also be called upon for assistance. A letter of agreement between the district and any community providers is encouraged prior to commencement of any crisis response services. Each building shall designate a Crisis Response Team Coordinator and that individual shall be identified in student handbooks and on the district's website.

The Crisis Response Team should also include individuals designated as coordinators and/or investigators in district policy on cases involving harassment, as required under federal law. These individuals will help identify overlapping risk factors, including hostile environments created by persistent or severe harassment on the basis of gender, race, disability, or other protected classes.

Members of the Crisis Response Team should receive additional suicide awareness and prevention education in addition to the basic suicide awareness training required by state law to educate them in the importance of suicide prevention, the recognition of suicide risk factors and warning signs, and how to respond. Staff education should include strategies to enhance protective factors, resilience, and school connectedness.

Student Health Education

Age-appropriate student health education in accordance with state health education standards may include but is not limited to the following:

1. Adherence to safe and effective messaging guidelines, avoiding graphic testimonials, and inclusion of reputable suicide prevention resources.
2. Informing students about broader behavioral health issues such as depression and substance abuse, as well as specific risk/protective factors and warning signs for suicide.
3. Encouraging students to seek help for themselves or their peers, including when concerns arise via social media or other online media, and to avoid making promises of confidence when they are concerned about the safety of a peer; and/or
4. Promoting a healthy school climate where students feel connected to and can identify trusted adults in the building.

Intervention/Prevention

Information received in confidence from a student may be revealed to the student's parents or guardians, the building principal or other appropriate authority when the health, welfare or safety of the student or other persons is clearly in jeopardy.

Any school personnel who observe a student exhibiting a warning sign for suicide, or who has another indication that a student may be contemplating suicide, shall refer the student for risk assessment and intervention to the building principal or the Crisis Response Team Coordinator. In the absence of an immediate warning sign for suicide, students demonstrating suicide risk factors that appear to be adversely impacting the student should be referred to the Crisis Response Team Coordinator.

Any school personnel who are made aware of any threat or witness any attempt towards self-harm that is written, drawn, spoken, or threatened shall immediately notify the building principal or the Crisis Response Team Coordinator. Any threat in any form shall be treated as real and dealt with immediately. In cases of suicidal thoughts and behaviors, a student's confidentiality will be waived.

For students with disabilities who are identified as being at risk for suicide or who attempt suicide, the Crisis Response Team Coordinator shall also notify the Director of Special Education to address the student's needs in accordance with applicable law, regulations and board policy.

Procedures for Parental Involvement

Parents or guardians of a student identified as being at risk of suicide must be immediately notified by the school and must be involved in consequent actions and provided with appropriate available resources.

Response to Suicide Attempt

The Crisis Response Team will develop guidelines for responding to a suicide attempt on school grounds or during a school-sponsored event including notifications of appropriate persons, for responding to a suicide death, and for post-incident procedures, which shall include methods for informing the school community, identifying and monitoring at-risk youth, and providing resources and supports for students, staff, and families.

CLASSROOM ENVIRONMENT

Classrooms are expected to be maintained in a safe, orderly manner at all times in keeping with providing an appropriate, healthy learning environment. Any items for display or use in the classroom shall meet this criterion. The use of essential oils or essential oil diffusers will not be permitted in district facilities by students, staff or visitors.

All items on display in the classroom such as posters, pictures, banners, charts, signs or flags must be related to the curriculum. Items unrelated to the curriculum or that may cause a disruption to the learning environment are prohibited. Staff members are expected to request the building principal's approval for display of items that may not meet this standard.

The district will display or use the Gall-Peters projection map (or a similar cylindrical equal-area projection map) or the AuthaGraph projection map in classrooms, although other types of maps are allowed in addition to it.

STUDENT PROMOTION, RETENTION OR ACCELERATION

Students will be promoted to the next grade level at the end of each school year based on the student's achievement, age, maturity, emotional stability, and social adjustment.

Students will normally progress annually from grade to grade. Exceptions may be made when, in the judgement of the teachers and the principal, such exceptions are in the best educational interest of the students involved. Exceptions will always be made after prior notification and explanation to the student's parents, but the final decision will rest with school authorities.

When it becomes apparent a secondary student will be unable to meet the minimum credit requirements for the year, both the student and parents will be informed. Students who cannot demonstrate proficiency at their grade levels will also be considered for retention. Teachers must notify the principal of these students, make a recommendation to the principal concerning their promotion or retention, and hold a conference with parents.

A student in kindergarten through fourth grade may be retained due to academic needs, illness, or excessive absenteeism. A student in fifth through twelfth grade may be retained due to excessive absenteeism.

Excessive absenteeism means that the student was absent fifty percent or more of the school year and includes excused absences, unexcused absences, and absences due to suspension or expulsion. Absences due to approved school-related activities, such as field trips, competitions, athletic events, and testing, are not included. Illness means that the student experienced a severe mental or physical illness resulting in hospitalization of two or more weeks during the school year.

A parent or guardian wishing to request their student repeat a grade shall meet with the superintendent or designee to discuss having the student repeat a grade. The parent or guardian shall provide evidence of academic needs, illness, or excessive absenteeism that would justify the student repeating the grade. At the meeting, the superintendent shall identify any alternative educational opportunities, including remedial instruction, if applicable, and verify any special education supports available to the student. If the parent or guardian still intends their student repeat a grade, they shall complete and submit the district's required form. If all other requirements of district policy and state statute are met, the district shall have the student repeat the grade for the next school year. The district shall file the form with the Nebraska Department of Education.

Students with exceptional talents may, with the permission of the principal and parents, take classes beyond their current grade level. Enrichment opportunities outside the school district may be allowed when they do not conflict with the school district's

graduation requirements. Acceleration ahead in a grade level should be approached with caution and should only occur with the joint approval of the superintendent, the principal and the parent or guardian.

GRADUATION REQUIREMENTS

Students must successfully complete the courses required by the board and the Nebraska Department of Education in order to graduate.

It shall be the responsibility of the superintendent to ensure that students complete grades one through twelve and that high school students complete *[200; other]* credits prior to graduation. The following credits will be required:

Language Arts	40 credit hours
Science	30 credit hours
Mathematics	30 credit hours
Social Studies	30 credit hours
Physical Education	10 credit hours
Total Required Hours	110 credit hours
Total Elective Hours	90 credit hours
Total Required Hours for Graduation	200 credit hours

Total Course Credits - 270 (State of NE requires 200 – 80% must be core – Rule 10)

Each student must complete at least one five-credit course in financial literacy or personal finance prior to graduation. The required courses of study will be reviewed by the board annually.

Each student shall complete and submit a Free Application for Federal Student Aid (FAFSA) prior to graduating unless the required opt-out form is submitted by either: (1) the parent or legal guardian; (2) the Principal, if the Principal determines good cause exists for not requiring the student to complete the FAFSA; or (3) an emancipated student or a student of at least 19 years of age.

Graduation requirements for special education students will be in accordance with the prescribed course of study as described in their Individualized Education Program (IEP). Each student's IEP will include a statement of the projected date of graduation at least 18 months in advance of the projected date and the criteria to be used in determining whether graduation will occur. Prior to the special education student's graduation, the IEP team shall determine whether the graduation criteria have been met.

IDEA Considerations

Graduating with a regular high school diploma or reaching the maximum age of eligibility both result in termination of a student's eligibility for Special Education (IDEA) services. Procedurally, the student's Individualized Education Program (IEP)

team must meet to review the student's status and issue the appropriate coding for the student, specifically 210 or 211 as described in the ADVISER Data Elements Manual, a

reasonable time before the student's eligibility is terminated. These meetings may be held via the telephone or through a virtual platform (e.g. Zoom, Google, etc.) and should include the student (if possible). The school district must also provide the student with a summary of performance prior to graduation or ending services because of age. Some IEP teams may have already provided a Notice of Graduation or Notice of Ending Services Due to Age to certain students. As this is an issue of IDEA eligibility, the Nebraska Department of Education recommends that school districts make every effort to complete these steps in a timely manner.

Requirements Related to American Civics (Nebraska Revised Statute 79-724)

The requirements within Nebraska Revised Statute 79-724 took effect on September 1, 2019, and the NDE considers 2019-2020 a transition year for implementation. Even so, opportunities may exist in an alternate learning environment to meet requirements within 79-724.

- If a district intends to administer the civics portion of the U.S. Citizenship and Immigration Service Naturalization Test, students are required to take the test twice - once prior to completing 8th grade and a second time prior to completing 12th grade. It may be possible for seniors to complete the second testing in an alternate learning environment. For example, the University of Nebraska High School is offering “Citizenship 101” for free (non-credit), and it prepares students to take the naturalization test at the completion.
- For districts that intend to have students attend/participate in a meeting of a public body OR complete a project/paper and class presentation as outlined in 79-724, those requirements may also be met in an alternate learning environment.

CHILDFIND

All children with disabilities from birth to age twenty-one residing in the district, including children with disabilities who are homeless children or wards of the state and children with disabilities attending non-public schools, regardless of the severity of their disabilities, and who are in need of special education and related services, are identified, located, and evaluated and a practical method is developed and implemented to determine which children with disabilities are currently receiving needed special education and related services. The district will provide multiple methods to provide parents, guardians, and community members with information regarding how to refer a child for an evaluation and the identification process. These will include annual mailings sent to families with school-aged children and a link on the district's website. The district will accept referrals from parents, school staff and state and local agencies. Each school building will have a designated contact person who is knowledgeable about the district procedures, and the district will designate a contact person to oversee the child find process. The child find process will be consistent with Federal and state regulations.

Student Assistance Teams (SAT)

The SAT shall utilize and document problem solving and intervention strategies to assist the teacher in the provision of general education for students experiencing difficulties in school. The SAT will be tailored to the difficulties facing the individual student and will be comprised of building staff identified as appropriate to the content areas causing these difficulties. The team will review the strengths and interests of the student and document all viable problem-solving and intervention strategies to help the student be more successful in school. The district will generally work to assist a student through the SAT process prior to evaluating the student for possible verification under Section 504 of the Rehabilitation Act or Rule 51. The length of the SAT process will vary according to the needs of the student.

If a parent refers a child for a special education evaluation, the school district should discuss with the parent the use of the student assistance team. The discussion should include information regarding the requirements for a student assistance team, the timelines and the personnel which will be included on the team.

If, after conducting the SAT problem-solving and intervention strategies, the district suspects the child may have a disability, a referral for a special education evaluation must be completed. The school district must seek consent from the parent prior to conducting an evaluation to determine eligibility for special education services. However, parents can request an evaluation at any time during the SAT activities, and the school district must either obtain consent to evaluate and begin the evaluation, or, if the school district declines the parent's request, issue a prior written notice as required by 92 NAC 51-009.05. Additionally, if at any time during the SAT process the district suspects the student has a disability and requires special education and related services, the district must seek consent to conduct an evaluation to determine eligibility for special education services.

Multidisciplinary Team (MDT)

If the SAT determines that all viable alternatives have been explored after faithfully and consistently implementing the intervention strategies recommended by the SAT, a referral for multidisciplinary evaluation shall be completed in accordance with Rule 51. The MDT is comprised of the student's parent and building staff including such individuals as the school psychologist, general and special education teachers, and related service providers or specialists as appropriate to the content areas causing difficulties for the student.

The MDT will be established to evaluate the child and review all existing educational assessments and other relevant observations to report whether the student has a disability, and if the disability is such that the child is eligible for special education and related services or needs additional or modified special education to meet the goals of the student's IEP or the general goals of the school district's curriculum. An MDT report including the assessment results that were used in determining whether the child is eligible for special education will be shared with the parent or guardian following receipt of consents and issuance of meeting notices as shown below.

The district will utilize a Consent for Initial Evaluation asking for the parent/guardian's written consent to conduct a special education evaluation. The stated purpose of this evaluation will be to determine if the student meets the state and federal criteria as a child with a disability and stating this evaluation must be completed before the student can receive special education or related services.

The district will issue the MDT Meeting Notice inviting the parent or guardian to attend a meeting concerning their student's special education evaluation and potential eligibility for special education and related services. The parent or guardian will be notified of the parent's right to participate in any meeting regarding the student's special education evaluation, individual education plan (IEP), and placement. If the student is already receiving special education and related services, the evaluation information is reviewed every three years.

The IEP Meeting Notice will be utilized to invite the parent or guardian to attend a meeting concerning the student's IEP meeting. It will state that the plan is updated annually, and the parent or guardian has the right to participate in any meeting regarding the student's special education evaluation, IEP, and placement.

Independent Education Evaluations (IEEs)

When a student's parent requests an IEE, the district's special education director will promptly respond in writing that either an independent educational evaluation will be provided at public expense, or the district will initiate a hearing in accordance with Rule 55 to show that its evaluation is appropriate. The written response will include a copy of this policy and if appropriate, identify at least one qualified individual who is appropriate to conduct the evaluation within the geographic area. These evaluations will become part of the decision-making process.

NDE documents "Rule 51, Special Education Program" and "Policies and Procedures Guidance Documents" shall serve as administrative procedures to this policy. The entire documents can be found at <https://www.education.ne.gov/sped/regulationspolicies>.

INDIVIDUALIZED EDUCATION PROGRAM AND FAMILY SERVICES PLAN

A meeting to develop an IEP for a child must be held within thirty (30) calendar days of a determination that the child needs special education and related services, and it must review the child's IEP not less than annually. After the initial IEP meeting, it must be in effect at the beginning of each school year. The school district shall encourage the consolidation of reevaluation meetings for the child and other IEP team meetings as much as possible. Alternative means of meeting participation, such as video conferences and conference calls, may be used by the district and parent by mutual agreement.

The district ensures that an Individualized Education Program (IEP), or an Individualized Family Service Plan (IFSP) is developed, reviewed, and revised for each child with a disability in accordance with 92 NAC 51-007. Prior to considering any draft of an IEP as final it shall be reviewed and revised based on discussion and decisions of the team including the parent, guardian or surrogate. Reasonable efforts will be made to obtain informed consent from the parent, guardian, or surrogate regarding special education placement on the IEP before services are begun.

Strategies to meet transition objectives shall be in place beginning not later than the first IEP to be in effect when the child turns 14 and updated annually thereafter. This shall include appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills. It will also include transition services (including courses of study) needed to assist the child in reaching those goals. If a participating agency other than the school district fails to provide the transition services described in the IEP, the school district shall reconvene the IEP team to identify alternative strategies to meet the transition objectives for the child set out in the IEP.

Every report of alleged violations of the district's special education policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of these policies, potential issues of sexual harassment or discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged sexual harassment or discrimination as well as the incidents of alleged violations of the special education policies.

NDE documents "Rule 51, Special Education Program" and "Policies and Procedures Guidance Documents" shall serve as administrative procedures to this policy. The entire documents can be found at <https://www.education.ne.gov/sped/regulationspolicies>.

Reasonable efforts will be made to obtain informed consent from the parent, guardian, or surrogate regarding special education placement on the IEP before services are begun.

Strategies to meet transition objectives shall be in place beginning not later than the first IEP to be in effect when the child turns 14 and updated annually thereafter. This shall include appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills. It will also include transition services (including courses of study) needed to assist the child in reaching those goals. If a participating agency other than the school district fails to provide the transition services described in the IEP, the school district shall reconvene the IEP team to identify alternative strategies to meet the transition objectives for the child set out in the IEP.

Every report of alleged violations of the district's special education policies that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of these policies, potential issues of sexual harassment or discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged sexual harassment or discrimination as well as the incidents of alleged violations of the special education policies.

NDE document "Supporting Document to Checklist of Required Special Education Policies, Procedures and practices for Part B of the IDEA" shall serve as an administrative procedure to this policy. The entire document can be found at <http://www.education.ne.gov/sped/regulations.html>.

FREE OR REDUCED COST MEALS ELIGIBILITY AND MEAL CHARGES

The district shall comply with all state and federal laws applying to providing free and reduced meals under the National School Lunch Program, School Breakfast Program, and other related federal grant programs.

Free or Reduced Meals Eligibility

Families of students enrolled in the district who wish to qualify for free or reduced price meals may submit an application on or after July 1 for the current school year. If the financial situation of a household changes during the school year, they may submit a new application to become eligible. Applications are available at the Central Administrative Office of the school building.

Meal Charges

The written meal charge policy and guidelines shall be in place before the beginning of each school year and parents shall be advised of the available payment systems and meal prices. The district will encourage pre-payment of meal balances but the district must include a method for adding funds during the school day such as cash payments at the school office. A qualifying student with money to purchase a reduced price meal must be provided the meal; the district may not use that money for previously unpaid charges if the student intended to buy a meal that day.

All balances remaining in accounts shall carry over to the next month. Balances of households qualifying for free or reduced meals with funds remaining in the account at the end of the school year shall receive a refund. The district shall attempt to contact the household of all students transferring out or graduating from the district to return any unused funds remaining in the student's account. The district may set varying meal charge guidelines for students of different grade levels including charges relating to alternate meals, ala carte items and limits on charges that a parent may set for a student's daily lunch expenditures.

The district must set written guidelines regarding the collection of delinquent meal charges such as the amount of delinquent meal charges which initiate an established collection process, providing notice to households of those students and carrying out appropriate follow-up. Unpaid meal charges are classified as "delinquent debt" and remain on the food service accounting documents until they are collected or written off as uncollectible.

The district will not use a debt collection agency to directly or indirectly collect, or attempt to collect, debts due or assessed to be owed on a school lunch or breakfast account of any student nor will it assess or collect any interest, fees, or other monetary penalties for outstanding debts on a school lunch or breakfast account of any student.

Guidelines must also cover how the district will handle situations where children eligible

for reduced price meals do not have money in their accounts to cover the cost of their meal at the time of service. Households must be notified of all payment methods used by the district, including any fees. At least one payment method must be free of charge. The district cannot solely require the use of an online payment system; another option must be available.

Confidentiality

The information provided by families on the free and reduced price application will be used only for determining eligibility for meal or milk benefits and verification of eligibility. Only staff members and organizations carrying out the activities of the School Lunch Act shall have access to this information.

The district should use methods of lunch payment systems such as pre-payment to avoid openly identifying children who qualify for free or reduced meals. Meal cards, tickets, tokens or other methods of payment must not be coded or colored to identify such status.

Policy Communication

This policy will be provided in writing to all households at the start of each school year and to households that transfer to the district during the school year.

This policy will also be provided annually to all district staff responsible for enforcing the policy including food service professionals. Staff members such as counselors, school nurses, homeless liaisons, and others assisting students in need should also be informed of the policy.

The district will maintain documentation of the annual distribution of this policy.

It shall be the responsibility of the superintendent to implement this policy.

ANNUAL EMERGENCY SAFETY PLAN

All employees have the responsibility for maintaining safe, healthy and sanitary conditions within the buildings and on the grounds of the school district. The Superintendent shall designate staff and develop procedures to ensure that all facilities meet fire, safety and health codes.

The Superintendent shall appoint a school safety and security committee represented by faculty, parents and community members that will prepare and review the school's safety plan. This plan will be updated annually by the committee and approved by the School Board. The plan will address safety procedures and security plans for students, staff and visitors, including during emergency events. Detailed guidelines may be found on the Nebraska Department of Education website at <https://www.education.ne.gov/safety/developing-an-emergency-operations-plan/>.

Typical elements of this plan will include:

- The assignment of specific employees to safety tasks and responsibilities.
- Instructions relating to the use of alarm systems and signals.
- Information concerning methods of fire containment and equipment use.
- Systems for notification of appropriate authorities.
- Practices for conducting an annual hazard analysis of district properties.
- Procedures for implementing a behavioral threat assessment plan.
- Specification of evacuation routes and procedures.
- Posting of plans and procedures at suitable locations.
- Procedures and frequency of emergency evacuation drills.
- An evaluation of each evacuation drill.
- Procedures and practices for reunification drills.
- Plans to facilitate continuity of operations.

The plan shall be reviewed annually by one or more persons not on the committee and not an employee of the school district. This review includes a visit to each school building to analyze plans, policies, procedures and practices. Recommendations shall be made to the Superintendent and the committee for use in revising the plan.

EMERGENCY RESPONSE MAPPING

The district will provide mapping data to public safety agencies to assist them in providing efficient responses to emergencies. The map will be in a standard or open-source electronic file reader and available in a printable format. It will give an indication of directions, be overlaid with a grid and coordinates, and provide site-specific information as required by statutes.

The district will verify and certify the mapping data to the public agencies for accuracy, initially and annually, by a walk-through of the school facilities. If any information has changed, the district will provide the appropriate public safety agencies with updated mapping data.

SAFETY DRILLS

All schools are required to instruct and drill students on emergency procedures so that students may respond to an emergency without confusion and panic. All building occupants will participate in the drills. Each building administrator will conduct emergency drills in accordance with requirements of the State Fire Marshall and the district's Emergency Safety Plan. All fire drill alarms shall be sounded on the fire alarm system.

Drills and instruction on fire emergencies shall include routes and methods of exiting the school building. At least one emergency exit and relocation drill shall be conducted every month school is in session with one additional drill required in the first 30 days of the school year (ten required each year). In months when the weather is severe the drills may be deferred provided that the required number of drills is achieved and at least four are conducted before the drills are deferred. A minimum of two years of completed fire drill records shall be kept on site and available for review by the State Fire Marshal Deputy.

At least two tornado drills and one Hold/Secure/Lockdown drill shall be conducted during each school year. Hold drills focus on staying in your room or area. Secure drills focus on threats outside the building. Lockdown drills focus on threats inside the building. Hold, Secure and Lockdown drills may be conducted the same day. The district will provide parents with at least 24 hours' notice before the school conducts any secure or lockdown drill and they will be announced as drills within the building prior to their start. There will be no simulations or role-playing enactments of intruders in the buildings.

Certified employees shall be responsible for instructing the proper techniques to be followed in the drill.

PUBLIC EXAMINATION OF SCHOOL DISTRICT RECORDS

Public records of the school district may be viewed by the public during the regular business hours of the administration offices of the school district. These hours are 9:00 a.m. to 4:00 p.m. Monday through Friday, except for holidays and recesses.

Records defined by law as confidential records shall be viewed or copied upon receipt of written permission by the administration office from the person or entity whose confidential records are being requested. Lacking such permission, the superintendent will issue a written denial of the request.

Persons wishing to view the school district's public records shall contact the central administration office and make arrangements for the viewing. The office personnel will make arrangements for viewing the records as soon as practicable, and within 4 business days if possible.

Nebraska residents wanting copies shall submit a written request and may be assessed a fee for the copies not to exceed the actual costs. If responding to the request is expected to cost more than \$50.00 or require more than eight cumulative hours of searching, identifying, physically redacting, or copying, the office may obtain an advance deposit equal to the estimated cost. Records will not be made available in any form in which that record is not already maintained or produced. Persons making requests to use their own copying equipment must make arrangements satisfactory to the administration office.

Nonresidents shall submit a written request and may be charged fees including public employee salaries and attorneys' fees as allowed by state law.

It shall be the responsibility of the administration office to maintain accurate and current records of the school district. It shall be the responsibility of the office to respond in a timely manner to requests for viewing and receiving public information of the school district. If the office is unable to provide the requested records within 4 business days, the secretary will issue a written explanation with a revised date for completion, an estimate of cost, and allow the requester to modify or prioritize the information request.

MARTIN LUTHER KING, JR.

Martin Luther King, Jr. was a Baptist minister in Montgomery, Alabama. He became a major part of the civil rights movement in America. He wanted to find a peaceful way to get equality.

In 1955, Rosa Parks was arrested for not giving up her seat on a bus. King was one of the people to plan the Montgomery Bus Boycott. The boycott lasted for 382 days. African-Americans walked, shared rides, and took cabs to work. King was arrested during the boycott. He became known across the nation for his part in the civil rights movement.

In 1957, King and other ministers and civil rights activists started a group to help organize the movement. They named it the Southern Christian Leadership Conference. Non-violent protests were commonly used to reach their goals. The SCLC's motto was "Not one hair of one head of one person should be harmed." Actions such as boycotts, marches, and sit-ins protested segregation and other injustices. Sit-ins happened when African-American students sat at lunch counters reserved for white people. The students were asked to move or leave. Instead, they simply sat there and did nothing. Sometimes they would get yelled at or injured. These sit-ins were successful. Lunch counter segregation ended in many southern cities.

In 1963, King and leaders of other civil rights groups organized the March on Washington for Jobs and Freedom. The march was another non-violent event. More than 200,000 people participated in the march. It was where King gave his famous "I Have a Dream" speech near the Lincoln Memorial. Soon, the Civil Rights Act of 1964 was passed. Martin Luther King, Jr. was also awarded with the Nobel Peace Prize in 1964.

Many people did not agree with King and his work towards racial equality. Those people sent him death threats and bombed his home. He was arrested a total of twenty-nine times. On April 4, 1968, King was shot as he was standing on the balcony of the Lorraine Motel in Memphis, Tennessee.

In 1983, Martin Luther King, Jr. Day became an American federal holiday. It is observed on the third Monday of January. The day is near his birthday. It is a day when people celebrate King's life and his contributions to the struggle for racial equality. Also on that day, many people honor King by volunteering their time in service to their neighbors and communities.

Objective of the lesson:

- *use phonics and word analysis skills to read the biographical article on the life of poet, Rhina Espaillat, and her poem "Little Red Hen"
- *participate in class discussion about the author's life, including personal challenges related to her immigration and having English as a second language
- *discuss one of the author's poems - identifying examples of alliteration, mood, theme, rhyming, repetition
- *discuss the life lesson for us - respectful treatment of others, perseverance, hope, grit
- *complete self-reflection - articulate how thinking has changed

Description of the lesson evaluation (include materials and activities):

Session 1

- *students access ReadWorks.org via Title I Google Classroom post to read biographical article introducing Cuban-American poet, Rhina Espaillat
- *complete the ReadWorks.org online vocabulary practice and comprehension questions related the biography of Rhina Espaillat (working at individual pace, using audio supports as needed)
- *view a short interview video with Rhina Espaillat
- *discuss the key events in the author's life, personal challenges, ways to show respect to others

Session 2

- *oral reading and rereading of poem "Little Red Hen"
- *compare and contrast the message of the original folktale of the Red Hen and Espaillat's poem - life lessons - seeing different perspectives - complete reflection sheet - "I used to think... Now I think..."

Additional Activities Planned:

It was very beneficial to have the students view a video showing the actual author, hearing her tell about her life, one of her personal frustrations related to being an immigrant and how she handled the situation - I will definitely find videos of the author for any future activities of this type - helps students connect and improves engagement

I will continue to use the "I use to think... Now I think..." strategy when possible to push students to think about their thinking. It was challenging for the students. Modeling for them helped their understanding of the process and the goal of self-reflection.

How Did the Native American People Contribute to the First Thanksgiving Celebration?

The first Thanksgiving celebration is a significant event in American history. It took place in 1621 when the Pilgrims, who were early settlers from England, held a feast to give thanks for a successful harvest. But did you know that the Native American people played a crucial role in this celebration? Let's explore how they contributed their history and culture to our American way of life.

When the Pilgrims arrived in Plymouth, Massachusetts, they faced many challenges. They were unfamiliar with the land and its resources, and they struggled to grow crops in the new environment. Luckily, the Native American people, specifically the Wampanoag tribe, were there to lend a helping hand.

The Wampanoag people had been living in the region for thousands of years and had a deep understanding of the land and its resources. They taught the Pilgrims essential survival skills, such as how to cultivate native crops like corn, beans, and squash. They also showed them how to hunt and fish, providing them with much-needed sustenance.

Furthermore, the Wampanoag people shared their knowledge of the local ecosystem and the medicinal properties of various plants. They introduced the Pilgrims to herbs and plants that could be used for healing purposes. This knowledge proved invaluable, as the Pilgrims often fell ill due to the harsh conditions they faced.

The Native American people also contributed their history and culture to the first Thanksgiving celebration. They shared their traditional recipes and cooking techniques, enriching the feast with their unique flavors and culinary traditions. Foods like turkey, cornbread, and cranberries, which are now synonymous with Thanksgiving, were introduced by the Native American people.

Additionally, the Wampanoag people participated in the celebration itself. They joined the Pilgrims in feasting, dancing, and playing games. This exchange of cultures fostered a sense of unity and understanding between the two groups, marking the beginning of a long history of cultural exchange in America.

In conclusion, the Native American people made significant contributions to the first Thanksgiving celebration. They shared their knowledge, skills, and culture with the Pilgrims, helping them survive and thrive in their new homeland. Their contributions continue to shape our American way of life, reminding us of the importance of honoring and respecting the diverse cultures that make up our nation.

Remember to always give thanks for the knowledge and contributions of others, just as the Pilgrims did on that first Thanksgiving.

We decide to explore how different human interest holders interact with the Serengeti ecosystem. We hear about different human interactions from Dr. Simon Mduma, and we add them to our model. We use our model to evaluate the Serengeti conservation plan and decide that it was successful in achieving its goals. We wonder what will happen in the future and investigate a proposal to build a road in the Serengeti. We evaluate three separate road proposals and make a recommendation. We decide to apply our understanding to other systems.

Description of the lesson evaluation (include materials and activities):

We explore how human interest holders interact with the Serengeti ecosystem and we add them to our models. We use our model to evaluate the Serengeti conservation plan and decide that it was successful in achieving its goals. We wonder what will happen in the future and investigate a proposal to build a road in the Serengeti. Each student evaluates road proposals and make a recommendation about the Serengeti conservation plan. We figure out: Creating the park protected the wildebeest migration and protected the stability of the system. Some interest holders benefit, but others are harmed, and not all human connections in the system are stable. Successful conservation that supports a stable ecosystem also involves relationships between the conservation managers and the broader community.

How Did the Native American People Contribute to the First Thanksgiving Celebration?

The first Thanksgiving celebration is a significant event in American history. It took place in 1621 when the Pilgrims, who were early settlers from England, held a feast to give thanks for a successful harvest. But did you know that the Native American people played a crucial role in this celebration? Let's explore how they contributed their history and culture to our American way of life.

When the Pilgrims arrived in Plymouth, Massachusetts, they faced many challenges. They were unfamiliar with the land and its resources, and they struggled to grow crops in the new environment. Luckily, the Native American people, specifically the Wampanoag tribe, were there to lend a helping hand.

The Wampanoag people had been living in the region for thousands of years and had a deep understanding of the land and its resources. They taught the Pilgrims essential survival skills, such as how to cultivate native crops like corn, beans, and squash. They also showed them how to hunt and fish, providing them with much-needed sustenance.

Furthermore, the Wampanoag people shared their knowledge of the local ecosystem and the medicinal properties of various plants. They introduced the Pilgrims to herbs and plants that could be used for healing purposes. This knowledge proved invaluable, as the Pilgrims often fell ill due to the harsh conditions they faced.

The Native American people also contributed their history and culture to the first Thanksgiving celebration. They shared their traditional recipes and cooking techniques, enriching the feast with their unique flavors and culinary traditions. Foods like turkey, cornbread, and cranberries, which are now synonymous with Thanksgiving, were introduced by the Native American people.

Additionally, the Wampanoag people participated in the celebration itself. They joined the Pilgrims in feasting, dancing, and playing games. This exchange of cultures fostered a sense of unity and understanding between the two groups, marking the beginning of a long history of cultural exchange in America.

In conclusion, the Native American people made significant contributions to the first Thanksgiving celebration. They shared their knowledge, skills, and culture with the Pilgrims, helping them survive and thrive in their new homeland. Their contributions continue to shape our American way of life, reminding us of the importance of honoring and respecting the diverse cultures that make up our nation.

Remember to always give thanks for the knowledge and contributions of others, just as the Pilgrims did on that first Thanksgiving.

1. The Pilgrims and the Wampanoag people are preparing for the first Thanksgiving feast. The Pilgrims have harvested 25 pounds of corn, while the Wampanoag people have gathered 50 pounds of squash. How many pounds of vegetables do they have in total for their feast?

2. During the feast, the Pilgrims and the Wampanoag people have prepared 6 turkeys to share among themselves. Each turkey weighs 12 pounds. How many pounds of turkey will each person get if there are 45 people at the feast?

3. The Pilgrims and the Wampanoag people are working together to grow crops. The Pilgrims have planted 8 rows of corn, with 10 corn plants in each row. How many corn plants have the Pilgrims planted in total?

4. The Wampanoag people are planting beans in their garden. Each bean plant produces 15 beans. If they have planted 5 rows of beans, with 12 bean plants in each row, how many beans will they have in total?

MARTIN LUTHER KING, JR.

Martin Luther King, Jr. was a Baptist minister in Montgomery, Alabama. He became a major part of the civil rights movement in America. He wanted to find a peaceful way to get equality.

In 1955, Rosa Parks was arrested for not giving up her seat on a bus. King was one of the people to plan the Montgomery Bus Boycott. The boycott lasted for 382 days. African-Americans walked, shared rides, and took cabs to work. King was arrested during the boycott. He became known across the nation for his part in the civil rights movement.

In 1957, King and other ministers and civil rights activists started a group to help organize the movement. They named it the Southern Christian Leadership Conference. Non-violent protests were commonly used to reach their goals. The SCLC's motto was "Not one hair of one head of one person should be harmed." Actions such as boycotts, marches, and sit-ins protested segregation and other injustices. Sit-ins happened when African-American students sat at lunch counters reserved for white people. The students were asked to move or leave. Instead, they simply sat there and did nothing. Sometimes they would get yelled at or injured. These sit-ins were successful. Lunch counter segregation ended in many southern cities.

In 1963, King and leaders of other civil rights groups organized the March on Washington for Jobs and Freedom. The march was another non-violent event. More than 200,000 people participated in the march. It was where King gave his famous "I Have a Dream" speech near the Lincoln Memorial. Soon, the Civil Rights Act of 1964 was passed. Martin Luther King, Jr. was also awarded with the Nobel Peace Prize in 1964.

Many people did not agree with King and his work towards racial equality. Those people sent him death threats and bombed his home. He was arrested a total of twenty-nine times. On April 4, 1968, King was shot as he was standing on the balcony of the Lorraine Motel in Memphis, Tennessee.

In 1983, Martin Luther King, Jr. Day became an American federal holiday. It is observed on the third Monday of January. The day is near his birthday. It is a day when people celebrate King's life and his contributions to the struggle for racial equality. Also on that day, many people honor King by volunteering their time in service to their neighbors and communities.

International Business Etiquette (PROJECT)

Published

Edit

International Business Etiquette (PROJECT)

Success in business comes down to building strong relationships with our associates. As our jobs become more and more globalized, many of us find ourselves traveling and building relationships with people across international borders, where manners and expectations might be different than we're used to.

The ins and outs of international business etiquette can get confusing. For example, punctuality is of utmost importance in England, but in France, you're considered to be "on time" if you arrive 10 minutes late. The intricacies unique to each country's business practices can be difficult to keep track of, but they can make or break your international business relationships.

Directions

Imagine you own or work for a company that is about to travel to a foreign country to conduct business. Does the country you are traveling to have the same business culture and expectations as we do in America? Probably not! Create a **Google Slides** or **Canva** presentation that highlights key information one should know when conducting business in a country of your choice (each student must choose a different country -- first come first served!).

Topics that must be covered:

- **Introductions** (must include: proper dress attire, greetings & titles, and anything else you feel relates)
- **Business Meetings** (must include: punctuality, eye contact, gift giving, conversational guidelines, negotiating/making deals, and anything else you feel relates)
- **Dining Etiquette** (must include: toasting, drinking rules, how much you should eat, and anything else you feel relates)
- **Other** (include additional information that is important to know about conducting business in this country)
- **United States Business Culture** (Include a detailed summary of the United States' business culture. Include similar topics that you did for your other country and be sure to highlight similarities and differences.)

[CLICK HERE FOR DETAILED INSTRUCTIONS](#) ➔ **FOR WHAT KIND OF INFORMATION I AM LOOKING FOR ON YOUR SLIDES**

Additional Requirement --> You must include a list of the URLs of any websites you used to obtain information for that specific slide in the notes section below the slide if using Google Slides. If using Canva, create a slide at the end of your presentation with the URLs.

Additional Requirement --> You must orally present your presentation to the class. (See attached rubric.)

- [Business Etiquette Around the World \(Infographic\)](#) ↗
- ["The Web's Leading Resource for International Business Etiquette"](#) ↗

Google Slides & Visual Appeal

As the rubric indicates, you will be graded on the visual appeal of your presentation slides. In fact, it is worth 10/50 points, or 20% of your grade on this project.

Here are some helpful tips to be mindful of:

- **slide background** -- choose something plain/simple; use a color scheme that makes sense
- **graphics/images** -- use them!; the audience likes to focus on an image rather than stare at a bunch of words; make sure you choose your images wisely -- they should relate to the slide and be clear (not blurry); **NO WHITE BACKGROUNDS ON IMAGES**
- **structure** - make use of the entire slide; use headings to clearly communicate what the slide is about
- **text** - use fonts that are easier to read; use size 18 or bigger; **NO COMPLETE SENTENCES**; stick to the 7x7 rule (there is no limit on the number of slides you can have); use contrast! (dark slide = lighter font; light slide = darker font)
- **spelling & grammar** -- use spell check; you will lose credibility for every "typo" that you have

Detailed Instructions for Business Etiquette Project

Introductions

Dress attire	What is the proper dress attire? (professional attire / suit / dress, business casual, casual, jewelry?)
Greetings	How do you properly greet someone? (Hello? Handshake? Kiss on cheek?)
Titles	How do you address someone when you say their name? (Mr. ____, First name? Sir?)
Other	Is there any other information related to introductions that we should be aware of for your country?

Business Meetings

Punctuality	What is considered to be on time behavior? (5 minutes early? Is 10 minutes late acceptable?)
Eye contact	Are you expected to look people in the eye when speaking to them? Or is it considered rude for some reason?
Gift Giving	Are you expected to bring and present a gift? Or would they be considered a bribe? What kind of gifts are acceptable/unacceptable?
Conversational Guidelines	What types of conversation are acceptable/expected? (Is it expected to stick to business only, or is "small talk" ok? Are there any topics that are considered to be off limits?)
Negotiating	Is it normal to negotiate a deal? Or is it considered offensive and would cause conflict?
Other	Is there any other information related to business meetings that we should be aware of for your country?

Dining Etiquette

Toasting	Who is expected to make a toast at dinner?
Drinking Rules	Are you allowed to have an adult beverage? Expected to have one?
Eating	Is it rude to finish your plate? Leave food on the plate? Other eating expectations?
Other	Is there any other information related to dining etiquette that we should be aware of for your country?

Other

In addition to introductions, business meetings, and dining etiquette -- what other information about your country do you feel is relevant and important to know before conducting business in your country?

United States Business Culture

Include a detailed summary of the United States' business culture. Include similar topics that you did for your other country and be sure to highlight similarities and differences.

*NOTE: You will not have to present over this information. We don't need to hear multiple students discuss what business etiquette in the United States looks like. 😊

Multicultural Lesson - Exploring Global Entrepreneurs

 Published
  Edit
 

Project: Students will research and create a tribute to a famous entrepreneur from a country outside of the US.

- In this class, you have learned about the importance of entrepreneurship and its impact on our economy and even other economies worldwide. We have discussed several entrepreneurs who have helped shape America into what it is today. This project provides you an opportunity to explore entrepreneurs from other countries outside of the United States and learn about the impact they have had, both domestic and foreign.

Objective:

- To research and understand the life and achievements of a famous entrepreneur from a country outside of the US.
- To create a tribute or presentation highlighting the entrepreneur's journey, contributions, and impact.
- To foster appreciation for entrepreneurship and global perspectives.

Materials Needed:

- Internet access
- Books or articles about famous entrepreneurs
- Presentation software (Canva, Google Slides, etc.)

INSTRUCTIONS

Part 1: Research

- Choose an entrepreneur (outside of the US) to research.
- Use credible sources and be sure to cross-reference information.
- Research the entrepreneur's background, early life, major achievements, challenges faced, and their impact on society and the economy.
- Be sure to include key points such as the entrepreneur's innovations, business strategies, and their legacy.

Part 2: Presentation Creation

- Organize your research findings into a presentation format.
- Creativity in your presentation design, such as including images, videos, or quotes is highly encouraged!

Part 3: Presentation

- Each student will present their tribute to the class.
- Questions and additional discussions will take place after each presentation.

Objective of the lesson:

Students will explore the cultural significance of music in Hispanic American culture, particularly during the celebration of Día de los Muertos, through analysis of songs from the movie "Coco".

Description of the lesson evaluation (include materials and activities):

1. Introduce the movie "Coco" as a celebration of Hispanic American culture, focusing on its portrayal of music and the traditions of Día de los Muertos.
2. Provide a brief overview of Día de los Muertos and its significance as a time to honor deceased loved ones through music, dance, and celebration. Select key songs from the "Coco" soundtrack that showcase different musical styles and themes related to Hispanic American culture and Día de los Muertos.
3. Play each song for the class, pausing to discuss the following:
Musical elements, Cultural context and Emotional impact

Additional Activities Planned:

1. Invite students to reflect on the themes of "Coco" and Hispanic American culture through their own musical compositions or performances.
2. Students can write original songs inspired by the movie, incorporating themes of family, remembrance, or cultural identity.
3. Encourage students to share their observations and interpretations, drawing connections between the music and their own cultural backgrounds or experiences.

TSW mix sugar and water with merrange powder to create the sugar skulls.

TSW observe and use traditional designs used to decorate the sugar skulls.

Description of the lesson evaluation (include materials and activities):

Day 1-2; After viewing multiple examples of Day of the Dead motifs, decorations and sugar skull designs. The students will use a work sheet that already has the skull drawn. They are to use examples that I have provided as well as their own imagination to design the patterning and decoration they can apply to their sugar skulls once they are dried and ready of ornamentation. Color is added once patterning and designs are drawn in pencil. It is not a coloring sheet!

Day 3-5: The students will now take part in the casting process of making the sugar skull (weather providing). The sugar will be prepared according to the instructions so that the students can right into making their skulls. Students

-Second Grade: Give each student a handout of MLK facts. Students will use PebbleGo to research information about MLK. They will select 3 facts that they think are important for all others to know about his life. They will paraphrase

-STEAM: 4th & 5th Grade: After researching and viewing film about MLK- discuss his important message. Watch a part of his speech "I Have a Dream". Students will then work through the STEAM challenge of creating a podium for a paper cut-out of MLK. They must use the process of Ask, Imagine, Plan, Create, and Improve. The podium must be 4" tall and be a rectangular prism. They can only use a ruler, pencil, 4 straws, a sheet of paper, and one foot of masking tape.

Additional Activities Planned:

MARTIN LUTHER KING, JR.

Martin Luther King, Jr. was a Baptist minister in Montgomery, Alabama. He became a major part of the civil rights movement in America. He wanted to find a peaceful way to get equality.

In 1955, Rosa Parks was arrested for not giving up her seat on a bus. King was one of the people to plan the Montgomery Bus Boycott. The boycott lasted for 382 days. African-Americans walked, shared rides, and took cabs to work. King was arrested during the boycott. He became known across the nation for his part in the civil rights movement.

In 1957, King and other ministers and civil rights activists started a group to help organize the movement. They named it the Southern Christian Leadership Conference. Non-violent protests were commonly used to reach their goals. The SCLC's motto was "Not one hair of one head of one person should be harmed." Actions such as boycotts, marches, and sit-ins protested segregation and other injustices. Sit-ins happened when African-American students sat at lunch counters reserved for white people. The students were asked to move or leave. Instead, they simply sat there and did nothing. Sometimes they would get yelled at or injured. These sit-ins were successful. Lunch counter segregation ended in many southern cities.

In 1963, King and leaders of other civil rights groups organized the March on Washington for Jobs and Freedom. The march was another non-violent event. More than 200,000 people participated in the march. It was where King gave his famous "I Have a Dream" speech near the Lincoln Memorial. Soon, the Civil Rights Act of 1964 was passed. Martin Luther King, Jr. was also awarded with the Nobel Peace Prize in 1964.

Many people did not agree with King and his work towards racial equality. Those people sent him death threats and bombed his home. He was arrested a total of twenty-nine times. On April 4, 1968, King was shot as he was standing on the balcony of the Lorraine Motel in Memphis, Tennessee.

In 1983, Martin Luther King, Jr. Day became an American federal holiday. It is observed on the third Monday of January. The day is near his birthday. It is a day when people celebrate King's life and his contributions to the struggle for racial equality. Also on that day, many people honor King by volunteering their time in service to their neighbors and communities.

MARTIN LUTHER KING, JR. - SECOND READ

Go back through the text and highlight the major events of Martin Luther King, Jr.'s life during the civil rights movement. Then add the events to the timeline.

MARTIN LUTHER KING, JR. - THIRD READ

Go back through the text to find causes and effects. Label the causes with a C and the effects with an E. Then add them to the t-chart.

- *students access ReadWorks.org via Title I Google Classroom post to read biographical article introducing Cuban-American poet, Rhina Espaillat
- *complete the ReadWorks.org online vocabulary practice and comprehension questions related the biography of Rhina Espaillat (working at individual pace, using audio supports as needed)
- *view a short interview video with Rhina Espaillat
- *discuss the key events in the author's life, personal challenges, ways to show respect to others

Session 2

- *oral reading and rereading of poem "Little Red Hen"
- *compare and contrast the message of the original folktale of the Red Hen and Espaillat's poem - life lessons - seeing different perspectives - complete reflection sheet - "I used to think... Now I think..."

Additional Activities Planned:

It was very beneficial to have the students view a video showing the actual author, hearing her tell about her life, one of her personal frustrations related to being an immigrant and how she handled the situation - I will definitely find videos of the author for any future activities of this type - helps students connect and improves engagement

I will continue to use the "I use to think... Now I think..." strategy when possible to push students to think about their thinking. It was challenging for the students. Modeling for them helped their understanding of the process and the goal of self-reflection.

How Did the Native American People Contribute to the First Thanksgiving Celebration?

The first Thanksgiving celebration is a significant event in American history. It took place in 1621 when the Pilgrims, who were early settlers from England, held a feast to give thanks for a successful harvest. But did you know that the Native American people played a crucial role in this celebration? Let's explore how they contributed their history and culture to our American way of life.

When the Pilgrims arrived in Plymouth, Massachusetts, they faced many challenges. They were unfamiliar with the land and its resources, and they struggled to grow crops in the new environment. Luckily, the Native American people, specifically the Wampanoag tribe, were there to lend a helping hand.

The Wampanoag people had been living in the region for thousands of years and had a deep understanding of the land and its resources. They taught the Pilgrims essential survival skills, such as how to cultivate native crops like corn, beans, and squash. They also showed them how to hunt and fish, providing them with much-needed sustenance.

Furthermore, the Wampanoag people shared their knowledge of the local ecosystem and the medicinal properties of various plants. They introduced the Pilgrims to herbs and plants that could be used for healing purposes. This knowledge proved invaluable, as the Pilgrims often fell ill due to the harsh conditions they faced.

The Native American people also contributed their history and culture to the first Thanksgiving celebration. They shared their traditional recipes and cooking techniques, enriching the feast with their unique flavors and culinary traditions. Foods like turkey, cornbread, and cranberries, which are now synonymous with Thanksgiving, were introduced by the Native American people.

Additionally, the Wampanoag people participated in the celebration itself. They joined the Pilgrims in feasting, dancing, and playing games. This exchange of cultures fostered a sense of unity and understanding between the two groups, marking the beginning of a long history of cultural exchange in America.

In conclusion, the Native American people made significant contributions to the first Thanksgiving celebration. They shared their knowledge, skills, and culture with the Pilgrims, helping them survive and thrive in their new homeland. Their contributions continue to shape our American way of life, reminding us of the importance of honoring and respecting the diverse cultures that make up our nation.

Remember to always give thanks for the knowledge and contributions of others, just as the Pilgrims did on that first Thanksgiving.

BULLYING PREVENTION

The board recognizes the negative impact that bullying has on student health, welfare, safety, and the school's learning environment and prohibits such behavior. Bullying is defined as any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by a school being used for a school purpose by a school employee or his or her designee, at a designated school bus stop, or at school-sponsored activities or school-sponsored athletic events.

Bullying may constitute grounds for detention, suspension, expulsion or mandatory reassignment, subject to state and federal statutes and the district's student discipline and due process procedures.

Every report of alleged bullying that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing bullying investigation, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged bullying.

It shall be the responsibility of the superintendent to implement appropriate programs or procedures for the purpose of educating students regarding bullying prevention.

This policy shall be reviewed annually.

STAFF CONDUCT WITH STUDENTS

The Board expects all staff members, including teachers, coaches, counselors, administrators, and others to maintain the highest professional, moral, and ethical standards in their conduct with students. For the purposes of this policy, staff members also include school volunteers. The term “students” excludes a staff member’s immediate family members.

The interactions and relationships between staff members and students should be based upon mutual respect and trust; an understanding of the appropriate boundaries between adults and students in and outside of the educational setting; and consistency with the educational mission of the schools.

Staff members are expected to be sensitive to the appearance of impropriety in their conduct with students. Staff members are encouraged to discuss issues with their building administrator or supervisor whenever they are unsure whether particular conduct may constitute a violation of this policy.

Unacceptable Conduct

Examples of unacceptable conduct by staff members include but are not limited to the following:

- Any type of sexual or inappropriate physical contact with students or any other conduct that might be considered harassment under the Board's policy on Harassment By Employees;
- Singling out a particular student or students for personal attention and friendship beyond the normal teacher-student relationship;
- Associating with students in any situation or activity that includes the presence of alcohol, drugs, or tobacco or that could be considered sexually suggestive;
- For non-guidance/counseling staff, encouraging students to confide their personal or family problems and/or relationships. If a student initiates such discussions, staff members are expected to be supportive but to refer the student to appropriate guidance/counseling staff. In either case, staff involvement should be limited to a direct connection to the student's school performance;
- Sending students on personal errands;
- Sexual banter, allusions, jokes, or innuendos with students;
- Asking a student to keep a secret;

Approved _____ Reviewed _____ Revised _____

- Disclosing personal, sexual, family, employment concerns, or other private matters to one or more students;
- Addressing students with terms of endearment, pet names, or otherwise in an overly familiar manner; and
- Permitting students to address you by your first name, nickname or otherwise in an overly familiar manner.
- Being alone with individual students by closing a room door except when dealing with issues of health by appropriate personnel, or being alone with individual students outside of normal school hours;
- Maintaining personal contact with a student outside of school by phone, email, Instant Messenger or Internet chat rooms, social networking websites, or letters (beyond homework or other legitimate school business);
- Exchanging personal gifts (beyond the customary student teacher gifts); and/or
- Socializing or spending time with students (including but not limited to activities such as going out for meals or movies, shopping, traveling, and recreational activities) outside of school sponsored events or except as participants in organized community activities.

Students and/or their parents/guardians are strongly encouraged to notify the principal if they believe a teacher or other staff member may be engaging in conduct that violates this policy.

Staff members are required to notify promptly the principal or superintendent if they become aware of a situation that may constitute a violation of this policy.

Staff violations of this policy may result in disciplinary action up to and including dismissal. Violations involving sexual or other abuse will also result in referral to the Department of Health and Human Services and/or law enforcement in accordance with the Board's policy on Child Abuse Reporting.

Every report of alleged violations of this policy that can be interpreted at the outset to fall within the protections of laws against discrimination shall be handled as a joint, concurrent investigation into all allegations and coordinated with the full participation of the Compliance Officer and Title IX Coordinator. If, in the course of an ongoing investigation of this policy, potential issues of discrimination are identified, the Title IX Coordinator shall be promptly notified, and the investigation shall be conducted jointly and concurrently to address the issues of alleged discrimination as well as the incidents of alleged violations of this policy.

This policy shall be included in future employee, student and volunteer handbooks.

TITLE 1 PARENT AND FAMILY MEMBER ENGAGEMENT

Shelby-Rising City Schools intends to follow the Title I Parent and Family Engagement Policy guidelines in accordance with federal law, Section 1116(a-f) ESSA, (Every Student Succeeds Act) of 2015.

For the purpose of this policy “parents and family members” means “parents and persons in a parental relation to the student.” This Policy will be distributed to all parents annually, in a language that parents can understand.

The written District parent and family engagement policy has been developed jointly with, updated periodically and distributed to parents and family members of participating children and the local community in an understandable and uniform format. This policy agreed on by such parents describes the means for carrying out the requirements as listed below.

1. Parents and family members of all students are welcomed and encouraged to become involved with their child’s school and education; this includes parents and family members that have limited English proficiency, limited literacy, are economically disadvantaged, have disabilities, racial or ethnic minority background or are migratory children. Information related to school and parent programs, meetings, school reports and other activities are sent to the parents of participating children in a format, and to the extent practicable, in a language the parents can understand.
2. Parents are involved in the planning, review, evaluation and improvement of the Title I program, Parent and Family Engagement Policy and the School-Parent Compact at an annual parent meeting scheduled at a convenient time. This would include the planning and implementation of effective parent and family involvement activities.
3. Conduct, with meaningful parent and family involvement, an annual evaluation of the content and effectiveness of the Parent and Family Engagement Policy. Use the evaluation findings to design evidence-based strategies for more effective parental involvement, and to revise the Parent and Family Engagement Policy.
4. Opportunities are provided for parents and family members to participate in decisions related to the education of their child/children. The school and local educational agency shall provide other reasonable support for parental involvement activities.
5. Parents of participating children will be provided timely information about programs under this part, a description and explanation of the curriculum in use, the forms of academic assessment used to measure student progress and the achievement levels of the challenging State academic standards. The school will provide assistance, opportunities, and/or materials and training to help parents work with their children to improve their children’s academic achievement in a format, and when feasible, in a language the parents and family members can understand.

O. To receive any money from any source and to make payments to carry out the purpose of this Agreement.

5. BUDGETING. The Nebraska PowerSchool Cooperative shall, during the term of this Agreement, annually prepare a budget based on a fiscal year commencing on September 1st and ending on August 31st for the operation of the Nebraska PowerSchool Cooperative, and such annual budget shall be adopted by the Nebraska PowerSchool “Cooperative Governing Board” no later than June 1st prior to commencement of the next budget and fiscal year. The budget for the first year of operation may be accomplished according to procedure, policies, or bylaws adopted by the “Cooperative Governing Board” from time to time.

6. ANNUAL FINANCIAL CONTRIBUTION TO BUDGET OR FOR LEASE PURCHASE PAYMENTS FOR MEMBERS. In addition to funds, which the Cooperative may receive from grants, financing, or any other sources, to annually fund its budget, if necessary, during the term of this Agreement, each Member Entity agrees to provide or pay to the Cooperative an amount determined by the “Cooperative Governing Board” sufficient to fund the Cooperative budget, and further each Member Entity agrees to pay amounts sufficient to cover payments under any Lease Purchase Agreement for equipment, technology or other materials as may be entered into by and between the Cooperative and the Member. Member Entity annual payments, if any, required to fund the Cooperative annual budget shall be made by each Member Entity in accordance with procedures and payment deadlines established by the “Cooperative Governing Board”.

7. NOT FOR PROFIT. It is expressly understood that the Nebraska PowerSchool Cooperative is to be operated not for profit, and no profit or dividend will inure to the benefit of any individual or Member Entity.

8. NEGOTIABLE INSTRUMENTS. All checks, drafts, bills of exchange, notes, Lease Purchase Agreements, indentures of trust, or other obligations or orders for payment of money to or by the Cooperative, or for the payment of bills or for investments, shall be executed, endorsed, acknowledged, and delivered by ESUCC as the Managing Agent, or its successor, for the Nebraska PowerSchool Cooperative.

9. MANNER OF ACQUIRING AND HOLDING PROPERTY. The Cooperative, through the Managing Agent (ESUCC or its successor), may lease, lease purchase, purchase, or acquire by any means from a Member Entity, or from any other source, such real and personal property as is required for the operation of the Nebraska PowerSchool Cooperative and for carrying out the purposes of this Agreement. The title to all such property, real or personal, shall be held in the name of the Managing Agent on behalf of the Cooperative. All conveyances of real or personal

property acquired, owned or held in the name of the Managing Agent on behalf of the Nebraska PowerSchool Cooperative shall be authorized by resolution of the Nebraska PowerSchool “Cooperative Governing Board” and the governing body of the Managing Agent, if any, and shall be executed by the Managing Agent’s Administrator or other designee on behalf of the Cooperative.

10. NO SEPARATE ENTITY. The Nebraska PowerSchool “Cooperative Governing Board”, created hereunder, is not a separate or new legal entity and its powers are limited to those granted by this Agreement and by the provisions of the Interlocal Cooperation Act.

11. EXPANSION OF MEMBERSHIP. Participation in the Nebraska PowerSchool Cooperative shall be limited to the members who are parties to this Interlocal Cooperation Act Agreement. However, the membership of the Nebraska PowerSchool Cooperative may be expanded at the discretion of the PowerSchool Director and ESUCC Administrator. Any new Cooperative member shall also be bound by all terms and conditions of this Agreement.

During the term of this Agreement or any subsequent extension thereof, this Agreement may be terminated by a 2/3 consent of all “Cooperative Governing Board” members which consent shall also include as a part thereof a liquidation plan for disposing of any Cooperative assets and winding up the business thereof. Unless this Agreement is terminated during its term by a 2/3 consent and agreement as herein before provided, the assets acquired by the Nebraska PowerSchool “Cooperative Governing Board” may only be liquidated or distributed in kind upon the expiration of the term of this Agreement according to a liquidation and winding up plan. Any funds or property acquired by the Nebraska PowerSchool “Cooperative Governing Board” shall be distributed among the Members upon termination on an equal basis. Such property may be distributed in cash or in kind, provided, however, if a dispute exists among the parties as to the value of any such property, such items shall be sold to the highest bidder and the proceeds shall be divided as described above. The Nebraska PowerSchool “Cooperative Governing Board” shall make a report of its activities within 120 days after termination and liquidation of its assets. Individual members may withdraw from the Cooperative in accordance with policies, regulations, procedures, or bylaws established by the “Cooperative Governing Board”.

13. AMENDMENT OF AGREEMENT. In order to change or adopt an amendment to the Interlocal agreement, the amendment must be presented and recommended at a Cooperative Governing Board meeting. An amendment to the Interlocal agreement must be adopted by a 2/3 affirmative vote of the Cooperative Governing Board members and approved by the authorized official of each Member Entity.

14. HEADINGS. Headings in the Agreement are for convenience only and shall not be used to interpret or construe its provisions.

15. GOVERNING LAW. The Agreement shall be construed in accordance with and governed by the laws of the State of Nebraska.

16. COUNTERPARTS. This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall be one and the same instrument.

IN WITNESS WHEREOF the parties have executed this Interlocal Agreement as of

this 14 day of June, 2024.

EXHIBIT "B"

Detailed Description of Services

- A. To establish and maintain standardized fields for student data for submission to ADVISER (Nebraska Student and Staff Reporting System).

This will include communicating with NDE and creating necessary fields that will be reported to ADVISER (example: NE Student Unique ID).

District NRT fields and screens will be standardized for reporting purposes.

Additionally, if other management systems are used by a district, a matching field will be added to PowerSchool to facilitate imports/exports.

- B. To assist districts in maintaining accurate, complete, and timely data.

The support team will assist the district in trouble-shooting data. This will include help in determining correct calculations in:

GPA

Honor Roll and Class Rank

Attendance Issues (ADA/ADM)

PowerLunch Reports

Earned Credit Calculations

PowerTeacher Pro Calculations

Fee Management/Calculations

- C. Create and standardize staff fields and screens in PowerSchool for reporting to ADVISER.

- D. Offer PowerSchool training opportunities for new and existing PowerSchool functions.

Listing of trainings offered:

Administrators using PowerSchool

Beginning of Year Setup

Beginning and Advanced Secretary Training

Counselors and PowerSchool – Beginning and Advanced Levels

Data Tips and Tricks for Office Personnel

Direct Database Exports & Export Templates

Elementary Scheduling

Scheduling (Open Lab Workdays)

- E. Provide quick turn-around phone and email support and troubleshooting.

Support team members will answer helpdesk tickets on days that districts are in session. Phone calls to the NebPS helpdesk will automatically generate tickets. If support is needed from the PowerSchool Tech Team, all communications will be handled and relayed to the district as soon as a solution from PowerSchool has been supplied.

- F. Assist district in setting up 'Case Manager' logins for teachers of special needs students to monitor student progress.

Teachers of special needs students need to be able to monitor the progress of students that may not be in that teacher's classroom. There are several methods for configuring PowerSchool for these teachers so they can view student information as a "case manager" and monitor their progress.

- G. Provide training to teachers of special needs students to monitor student progress.

Training for teachers of special needs students is conducted as a stand-alone session to provide training of PowerSchool functions that are unique for these teachers. These sessions are also necessary to allow for district specific procedures. This would include setting up modified grade scales in PowerSchool and assigning them to students.

- H. Make available detailed handouts for districts to distribute to staff members.

Currently there are 50+ documents on the Nebraska PowerSchool helpdesk that can be downloaded and distributed to district staff members. These documents are in Microsoft Word format so they can be edited to include district specific information before distributing. Each time a new handout is created, it will be put on the website for all to access.

I. Develop fields and screens for future data storage as deemed necessary by staff developers/curriculum directors.

Communication/coordination with staff developers at each ESU will be maintained for purposes of storing additional data in PowerSchool. If data is available and viewing that data would increase the teacher's ability to improve instructional strategies, all attempts will be made to develop fields/screens in PowerSchool for that data.

J. Provide information regarding PowerSchool software upgrades.

The PowerSchool support team will test upgrades on a test server, as well as communicate and monitor issues with software upgrades. All pros/cons to possible upgrades will be communicated to districts.

K. Assist districts in importing data into PowerSchool from other district management systems allowing PowerSchool to function as cumulative student database and main source for ADVISER submission.

An effort will be made to work with other management systems that might be used in a district. An example of what is being done is to write help documents for getting information to the NWEA testing platform. The support team assists districts with creating an export template from matching fields in PowerSchool. Likewise, some districts are using an online testing system for standards, and results will be imported back into PowerSchool.

L. Create and make accessible (via the helpdesk) instructional help videos for PowerSchool functions and uses.

Short clips demonstrating steps in accomplishing various tasks are on the website. Videos from weekly webinar training sessions are available on the website.

M. Encourage and assist districts in using all current and future functions of the PowerSchool management system.

N. To perform such other and further services as are subsequently agreed upon by the "Cooperative Governing Board" and Member Entities hereinafter established or as evidenced by a written addendum executed on behalf of the Members.

RESOLUTION APPROVING CERTAIN STAFF TRAININGS

WHEREAS, during the 2024 legislative session, the Legislature enacted LB 1329; and,

WHEREAS, LB 1329 defers to each Board of Education to determine the reasonable length of time for certain staff training requirements; and

WHEREAS, to ensure that the District’s planned training requirements for the 2024-2025 school year comply with these statutory requirements, the Board of Education adopts this Resolution to find and determine that the following training requirements are reasonable in scope and length.

NOW, THEREFORE, BE IT RESOLVED that the Board of Education hereby determines as follows:

1. The following trainings are reasonable in both length and scope and the Superintendent or designee shall identify the District staff who shall be trained as follows:

Subject	Required by	Source of Training	Approximate Length of Training

Blood Borne Pathogens	State of Nebraska	Vector Solutions	30 minutes
Asthma / Epipen	State of Nebraska	Vector Solutions	30 minutes

2. The Superintendent or designee is authorized to implement additional training requirements for staff if the Superintendent or designee determines that additional training would be in the best interest of the District and/or is otherwise required by law.

3. The Superintendent or designee is further authorized to deviate from the source of these training requirements if any unexpected circumstances arise and the Superintendent or designee determines that it is in the best interests of the District to require a different training(s).

4. All District staff who are directed to attend or participate in any training requirement(s) must complete such training(s) in good faith and in accordance with this Resolution and the directives of the Superintendent or designee.

This Resolution shall continue until or unless modified by a vote of the majority of a quorum of the Board of Education.

DATED this ___ day of _____, 2024.
