MISSION STATEMENT

D.C. Everest Area School District, in partnership with the community, is committed to being an innovative educational leader in developing knowledgeable, productive, caring, creative, responsible individuals prepared to meet the challenges of an ever-changing global society.

Executive Summary

Annual Meeting

2014-15 Budget - Update

Included within this Annual Budget Report is the 2014-15 fiscal year net budget for all funds that total \$79,521,406 (inter fund transfer from 10 to 27 has been removed). The general fund portion of the budget is \$63,283,247. The current levy provides \$23,787,730 and the levy rate will be \$11.03.

The children of the D.C. Everest Area School District rely on the support of the electors to secure their educational future. Your help, by voting to fund the proposed levy, is encouraged for the benefit of our children.

This budget considers the economic challenge that our citizens face and still allows us to continue working toward accomplishing the district goals outlined by the school board and staff in a cost effective manner. We greatly appreciate the continued support of the community.

The budget reflects the mission statement of the D.C. Everest Area School District. It is a prudent plan that balances the many needs of our students and the economic realities of our state and local community. School board members have provided outstanding leadership and the budget reflects the commitment to quality education programs.

Sincerely,

Kristine A. Gilmore, Ed.D.
Superintendent of Schools

Mission Statement

D.C. Everest Area School District, in partnership with the community, is committed to being an innovative educational leader in developing knowledgeable, productive, caring, creative, responsible individuals prepared to meet the challenges of an ever-changing global society.

District Description and Organization

D.C. Everest Area School District, a fiscally independent entity, is located in north-central Wisconsin on the southeast side of the Wausau area in Marathon County. The District provides a full range of educational programs and services to all pupils, including adult education programs. A broad range of extra-curricular and athletic opportunities is offered. D.C. Everest Area School District serves the Villages of Hatley, Rothschild, Weston and part of Kronenwetter; the Towns of Easton, Ringle and Weston; parts of the Towns of Norrie, Reid, and Wausau; the City of Schofield and parts of the City of Wausau. The District encompasses 162 square miles.

D.C. Everest Area School District is organized as a common school district and is governed by a seven-member elected school board. The board has the power and obligation to set budgets, certify tax levies, issue debt and perform other tasks necessary to operate the district.

The school board meets monthly on the fourth Wednesday at 6:30 p.m. All meetings are held at the D.C. Everest Administration Building boardroom located at 6300 Alderson Street in the Village of Weston.

Our school district was consolidated in 1950 by combining a Union High School District and Common School District #1. Since the original consolidation, Hatley joined the district in 1961 and the Town of Easton in 1962.

Prior to 1953, the district operated a K-12 school in Rothschild, a K-8 school in Schofield and smaller one-room rural schools in the Towns of Weston, Wausau, and Kronenwetter.

D. C. Everest Senior High School opened its doors to students in the fall of 1953, with a 9-12 enrollment of 388 students. The first newly constructed elementary school was completed in Rothschild in 1960. In 1963, with crowded conditions in the Everest Junior-Senior High School (now the Junior High), an addition provided for a junior high wing and additional shop facilities. At the same time the Weston Elementary School was built and a wing added to the existing Schofield Elementary School.

In the mid 1960's, it became evident that a new school facility was needed. In October 1966, the community approved the purchase of 63 acres of land at a cost of \$105,000. Initially, the thought was to build a new middle school; however, the school board later decided to build a new senior high school. An active citizen's committee convinced the public that the board's plan was too costly and a better structure could be built. In January 1968, voters turned out to defeat a proposed \$4,950,000 building by a count of 3,513 to 501. In April 1968, after much discussion and revision, a \$4,000,000 structure was approved by a vote of 2,173 to 1,847. This was the largest building program in the history of our district. The final cost for the new senior high school was \$4,325,327. The additional cost was partially funded through private donations. The official dedication took place on September 20, 1971, even though the school opened in the fall of 1970. The school was not completely finished at this point as the field house and auditorium were completed while classes were in session. Total district enrollment had grown from

District Description and Organization (continued)

1,668 students in 1953 to 4,225 in 1971. Grades 9-12 had grown from 338 students in 1953 to 1,325 during the same period.

The high school was named after David Clark Everest (1883-1955) who was the President and General Manager of Marathon Paper Mills. Mr. Everest was influential in the growth of the community and promoted educational opportunities.

In the mid 1970's, the growing needs of the district resulted in two new elementary schools. Evergreen Elementary (cost \$1,236,000) was dedicated in September 1976 and was the first district school to utilize the open classroom concept. In 1979, Riverside Elementary (cost \$1,800,000), was built in the Town of Ringle. Also, additions to the senior and junior high schools and Schofield Elementary were constructed. In 1976, the school district's name was changed from Joint School District #1 to D.C. Everest Area School District.

In 1990, the district approved a \$3,600,000 proposal for additions to various buildings including Hatley, Riverside, Weston, and Evergreen Elementary schools, the junior and senior high schools, and remodeling of Schofield Elementary.

In February 1996, the district approved funding of the Greenheck Field House. Total project cost was \$3,600,000 of which \$1,995,000 were public funds and approximately \$1,600,000 were private contributions. Greenheck Field House opened in January 1998 adding a new dimension to the quality of life in the Everest area and to the academic and physical education of our children. The facility houses additional classrooms for the high school, an Olympic ice rink, a 3-court gymnasium, two racquetball courts, a weight room, a fitness balcony and a concession stand.

Citizens approved a \$26,595,000 referendum in February 2000 to build a new 6-7 middle school (\$19.2 million) and for remodeling and additions to the junior high (\$1.5 million) and senior high (\$4.8 million). The D.C. Everest Middle School opened in September 2002. The project realigned grade levels to elementary (K-5), middle school (6-7), junior high (8-9), and senior high (10-12) alleviating overcrowding in the elementary schools and junior high.

In February 2005, citizens passed an \$18,955,000 referendum to build an additional elementary school at the middle school site and to construct additions and undertake maintenance, repair and remodeling projects at various school district buildings and sites. Mountain Bay Elementary School opened September 2006.

In February 2007, citizens passed a recurring referendum to exceed the revenue limit by \$1,500,000 for 2007-08 school year and \$2,500,000 for the 2008-09 school year for a total of \$4,000,000. The purpose of this referendum was to help resolve the budget shortfall that the district has been challenged with due to rapid enrollment growth.

At the end of the 2010-11 school year, Schofield and Easton Elementary Schools were closed. Students were transitioned to Rothschild, Weston, Evergreen and Hatley Elementary Schools.

In September of 2011, the district opened the Idea Charter School. The school is based on a project-learning concept. The district received an implementation grant from the state to help with the initial funding of the school.

In September of 2013, the district implemented four year old kindergarten (4K) services. This program is a partnership between the district and local early childhood professionals.

Budget Administration and Management

The district prepares its budget in a uniform financial accounting structure as required for public elementary and secondary schools in the state of Wisconsin. These rules require the use of a fund accounting system. Funds allow for segregation and reporting of financial transactions in such a way as to ensure compliance with various laws, restrictions, regulations, and limitations.

The district adopts budgets that generally balance revenues and expenditures to avoid deficit spending. Exceptions may occur for capital project and debt service funds or where a fund balance has been accumulated for a specific purpose.

The proposed budget complies with revenue limits adopted by the state legislature. This legislation limits the district's ability to increase property taxes. By virtue of the revenue limit, and the district's practice of adopting balanced budgets, allowable expenditures are limited.

Budget Planning

Budget planning is a year-round process involving the board, the superintendent, assistant superintendents, principals, directors, coordinators, teachers, and other personnel throughout the school system, as well as parents and citizens of the school district.

The Superintendent has overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Principals develop and submit budget requests for their particular schools after seeking the advice and suggestions of staff members. The budget request will reflect the individual principal's judgment as to the most effective way to use resources in achieving progress toward educational objectives.

Staff Involvement in Budget Preparation

The board then gives careful consideration to budget requests and reviews allocations for equity and consistency with educational priorities of the school system. It is the policy of the board to offer professional and other staff organizations the opportunity to review the district budget before the school board approves it.

Determination of Budget Priorities

The district administrator is directed to formulate the annual budget within specific parameters. Resources will be utilized to produce the most positive effect on the student's opportunity to gain a basic/general education in this district.

The budget is prepared in accordance with statutory and regulatory mandates as promulgated by the Department of Public Instruction and/or the Federal Government. The budget must also be in harmony with the school board contracts with its employees. At all times the development and promulgation of the budget must take into consideration the school board's responsibility to the children of the D.C. Everest Area School District.

Budget Implementation

The school board has placed the responsibility for administering the operating budget, once adopted, with the district administrator in accordance with the following principles:

- All actions of the district administrator in executing the programs of the district are subject to continuous review by the board.
- All expenditures of funds for the employment and assignment of personnel meet the legal requirements of the Education Code of the Department of Public Instruction and adopted board policies.
- All expenditures, so authorized, are contained and fully funded within the line item of the operating unit as adopted.

Budget Administration And Management (Continued)

- All budget actions are consistent with other Wisconsin laws and other policies of the D.C. Everest Area School District.

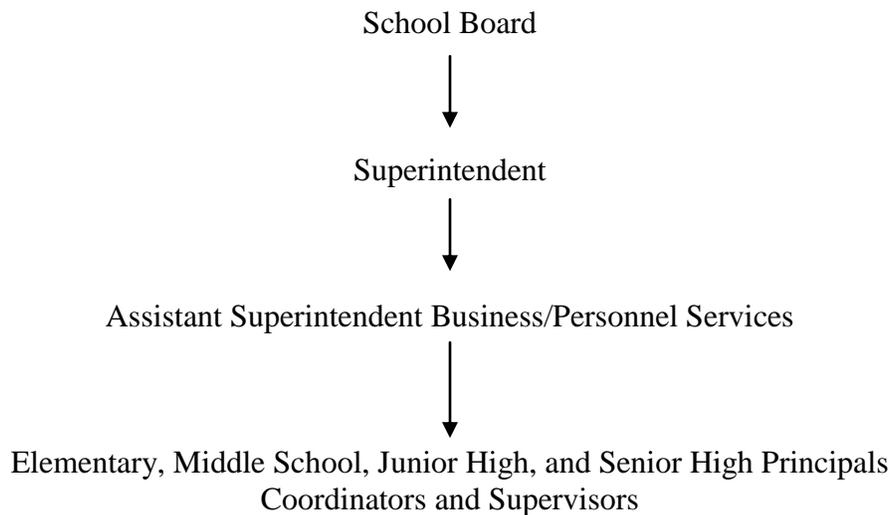

Capital Budget (Building and Grounds Projects)

Providing a safe, clean and attractive learning environment in which our children can learn is a high priority for the D.C. Everest Area School District. Effective operation and maintenance of school facilities is essential. Facility needs are reviewed on an annual basis and future needs are addressed in a five-year plan. Repairs and special needs are addressed daily and include preventative maintenance programs. The administration and school board recognize the need to acquire equipment to enhance employee productivity, and to maintain and improve its buildings and grounds. The Supervisor of Maintenance and Operations, with input from building and grounds staff, determines current and future capital equipment needs.

Budget administration and management is a process of regulating expenditures during the fiscal year to ensure they do not exceed authorized levels and are used for intended purposes.

Each budget manager is responsible for the administration of his/her budget. All favorable and unfavorable variances are investigated and corrective action taken. The business office coordinates the overall revenue and expenditure plans and ensures district expenditures are within available revenues.

The budget centers and flow of budget management are as follows:

The manager of each of these budget centers is authorized to approve expenditures of funds within their area of responsibility so long as the funds are expended according to purchasing procedures and legal requirements.

All purchase orders and P-Card purchases are verified in the business office to ensure availability of funds, proper account coding, and compliance with legal and purchasing procedures.

Because budgets are quantitative plans, it may be necessary at times to transfer monies within a spending plan to make an unplanned expenditure. In such instances, the budget manager must submit a request to transfer funds with the Assistant Superintendent of Business/Personnel.

Fund Accounting

Financial accounting requirements determine that each transaction be identified for administrative and accounting purposes. The primary accounting element is the “fund”, which is an independent fiscal and accounting entity, requiring its own set of books in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be accounted for so that the identity of its resources and obligations, and its revenues and expenditures are continually maintained.

A fund is an accounting entity consisting of a self-balancing set of asset, liability, and equity accounts used to account for the district's financial transactions in accordance with laws, regulations, or restrictions. The Department of Public Instruction requires reporting of various revenues and expenditures within specified funds. These are the funds that are used by the District:

All funds used by Wisconsin school districts must be classified into one of nine “fund types.” The major fund types are: the General Fund, Special Projects Fund, Debt Service Fund, Capital Projects Fund, Food Service Fund, Agency (Pupil Activity) Fund, Fiduciary Fund, Community Service Fund, and Package and Cooperative Program Fund.

Governmental funds are used to account for activities for instruction, the support of instruction, special projects and revenue, debt service, food service, community education, and capital projects as needed. Governmental funds use the modified accrual basis of accounting. Generally, the type of inflow information is revenue for which cash is received during or soon after the end of the fiscal year. The type of outflow information is for expenditures when goods or services have been received and the related liability is due and payable during the year or soon after.

Fiduciary funds are used to account for assets held by the District on behalf of someone else. Student and other organizations that have funds on deposit with the District are reported in these funds. Fiduciary funds are reported on the accrual basis of accounting. All assets and liabilities, both short-term and long-term, are reported in the asset and liability accounts. Inflows and outflows of revenue and expenditures are recorded for all additions and deductions, regardless of when cash is received or paid. The District has one student association fund (SAF fund) at each school and several trust funds.

Explanation of Funds

All school districts in Wisconsin are required to budget according to the Wisconsin Uniform Financial Accounting Requirements (WUFAR) as defined in the state statutes:

§115.28(13) The state superintendent shall “prescribe a uniform financial fund accounting system, applicable to all school districts which provides for the recording of all financial transactions inherent to the management of schools and the administration of the state’s school aid programs.”

By using this system, the budget is set up by fund. A separate budget is established for each fund wherein a school district anticipates a transaction. Each fund has its own receipts and disbursements and its own fund balance. Listed below are the funds used in conjunction with the enclosed budget.

Explanation of Funds (continued)

Instructional Funds

Instructional funds are funds where elementary and secondary instruction activities are recorded.

10 - General Fund

The General Fund is used to account for district financial activities for current operations, except those that are required to be accounted for in separate funds. Approximately 75% of all District expenditures are conducted through the General Fund.

21 - Special Revenue Trust Fund

This fund is used to account for trust funds that can be used for district operations. The source of such funds is gifts and donations from private parties. Cash and investments in this fund are expended pursuant to donor specifications. There may be a fund balance in this fund.

27 - Special Education Fund

This fund is used to account for special education and related services funded wholly or in part with state or federal special education aid or charges for services provided to other districts as a result of being a host district for a special education package or cooperative program. No fund balance or deficit can exist in this fund.

99 - Other Package and Cooperative Program Funds

This fund is to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund.

Debt Service Funds

These funds are used for recording transactions related to repayment of the following general obligation debt: promissory notes (issued per statute 67.12(12)), bonds, and state trust fund loans. Also included in these funds are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by the Department of Public Instruction. Debt tax levies must be recorded in these funds. The resources in these funds may not be used for any other purpose as long as a related debt remains.

38 - Debt Service Fund

This fund is used to account for transactions for the repayment of debt issues that was authorized by school board resolution before August 12, 1993, or incurred without referendum approval after that date. A fund balance may exist in this fund. Repayment of principal and interest is made within the revenue cap. This fund is used to finance the District's Wisconsin Retirement System unfunded liability.

39 - Debt Service Fund

This fund is used to account for transactions for the repayment of debt issues that were either authorized by school board resolution before August 12, 1993, or approved by referendum. Repayment of principal and interest is made outside of the revenue cap. A fund balance may exist in this fund.

Explanation of Funds (continued)

Capital Projects Funds

These funds are used to account for expenditures financed through the use of bonds, promissory notes, state trust fund loans, land contracts, and expansion fund tax levy.

40 - Capital Projects Funds

Used to report capital project fund activities, a fund balance may exist in this fund.

Food and Community Service Funds

These funds are used to account and report transactions of the district's food and community service activities. No K-12 instructional (100 000 series) or instructional support related functions are recorded in these funds.

50 - Food Service Fund

All revenues and expenditures related to Food Services should be recorded in this fund. The Food Service Fund may not transfer money to any other fund. Any fund balance must be retained for future use for Food Services. Federal regulations require that the Food Service Fund be accounted for separately.

80 - Community Service Fund

S.120.13 and 120.61, Wis. Stats., allow a school board to permit use of the district's property for civic purposes. The services have the primary function of serving the community and adult education. These services are accounted for in this fund.

Agency (Pupil Activity) Fund

60 - Agency (Pupil Activity) Fund

The Agency (Pupil Activity) Fund is used to account for assets held by the school district for pupil organizations.

Trust Fund

This fund is used to account for assets held by the district in a trustee capacity for individuals, private organizations, and/or other funds.

72 - Private Purpose Trust Fund

This fund is used to account for gifts and donations specified for the benefit of private individuals and organizations not under the control of the school board. Scholarships are recorded in this fund. Cash and investment accounts in this fund are required as specified by donors. There may be a fund balance in this fund.

73 - Post Employment Benefit Trust Fund

This fund is used to account for resources held in trust for formally established defined benefit pension plans, defined contribution plans, or employee benefit plans. Such plans must be legally established in accordance with state statutes, federal laws and Internal Revenue Service requirements. Specific requirements for use of this fund have been established by the Department of Public Instruction. The District established a Fund 73 for post-employment benefits in 2005.

Explanation of Sources

The Source dimension is used to classify revenues and other sources of income according to their origins. Revenue is an increase of assets which does not represent recovery of expenditures and which does not increase liabilities by an identical amount or a decrease in liabilities, which does not cause an increase in other liabilities or a decrease in assets. The exchange of one type of asset for another (as in the sale of equipment for cash) does not represent revenue. Revenue increases both the assets and the equity of the district as a whole.

100 - Interfund Transfers-In

All revenue from interfund transfers.

200 - Revenue From Local Sources

Property taxes, interfund payments, payment for services, non-capital sales, school activity income, interest on investments, other revenues such as student fees.

300 - Interdistrict Payments Within Wisconsin

Received from other Wisconsin school districts for services rendered.

500 - Revenue From Intermediate Sources

Payments received from Cooperative Education Service Agencies (CESA) and counties.

600 - Revenue From State Sources

Money received from the State of Wisconsin. Examples are categorical aids such as transportation and library aid. Additionally, equalization aids are recorded here.

700 - Revenue From Federal Sources

Money received directly from the federal government or routed through the state such as special education project grants.

800 - Other Financing Sources

Non-recurring sources of funds, which are classified separately from revenues, such as loans.

900 - Other Revenues

Adjustments and refunds of disbursements are recorded here. Money received from an insurance company for non-capital losses are recorded here.

Explanation of Functions

An account designation that categorizes a reason or purpose served by a particular expenditure or made possible by a particular receipt.

110000	Undifferentiated	An instructional situation in which one teacher is responsible for providing instruction in two or more curricular areas to the same group of pupils (K-8 classroom teachers).
120000	Regular Education	An instructional setting in which a teacher is responsible for instructing a group of pupils in only one curricular area (high school math, science, social studies, language arts, music and art).
130000	Vocational Education	Vocational instructional activities (business education, industrial education, home economics and agriculture programs).
140000	Physical Education	Instructional activities concerned with health and safety in daily living (physical education & physical recreation).
150000	Special Education	Instructional activities for pupils with disabilities and provided by specially qualified personnel as required by an Individual Educational Program (IEP) for such pupils (cognitively disabled, learning disabled, emotionally disturbed, speech therapy and homebound instruction).
160000	Co-Curricular Activities	Instructional activities under the guidance and supervision of school staff designed to provide students such experiences as motivation, enjoyment and improvement of skills (extracurricular programs such as athletics).
170000	Special Needs	Activities of students with special needs not requiring an Individualized Education Program (IEP), but receiving instruction in curriculum designed to meet their unique needs.
210000	Pupil Services	Activities associated with pupil services programs (social work, guidance, health, psychological services, speech pathology and audiology, attendance, occupational and physical therapy).
220000	Instructional Staff	Curriculum development, library services, special education supervision.
230000	General Administration	Activities concerned with establishing and administering policies in connection with operating the school district. Includes school board and superintendent.
240000	Building Administration	Building management, including principals and secretaries.
250000	Business Administration	Activities concerned with paying, transporting, exchanging, and maintaining goods and services for the school district. Includes fiscal, pupil transportation and building and grounds.

Explanation of Functions (continued)

260000	Central Services	Data processing, public information, telephone and staff services, such as training.
270000	Insurance	Unemployment, liability, property, worker's compensation insurances; unemployment compensation and judgments.
280000	Debt Retirement	Interest and bond handling charges.
290000	Other Support	Other retirement services.
390000	Recreation	Other community services.
410000	Inter-fund Transfers	Permanent transfer of money from one fund to another to pay obligations of the receiving fund.
420000	Trust Fund Expenditures	Payment of retirement benefits.
430000	Purchased Instructional	Payments for instructional services or services provided pupils by other public and private agencies.
490000	Other Non-Program Transactions	Uncollected personal property tax refunded to municipalities.

Explanation of Objects

An account designation that categorizes an article or service obtained from a specific expenditure.

100	Salaries	Wages paid for all personnel.
200	Employee Benefits	State retirement, Social Security, health insurance, dental insurance, income protection, and other retirement.
300	Purchased Services	Personal and property services, utilities, pupil and employee travel, communication, data processing, and intergovernmental payments such as tuition.
400	Non-Capital Objects	Supplies, workbooks, textbooks, paper, software, newspapers, magazines, film rental.
500	Capital	Additional and replacement capital equipment, vehicle and equipment rental.
600	Debt Retirement	Interest and costs of borrowing.
700	Insurance and Judgments	Property, liability, workers' compensation and unemployment compensation.
800	Operating Transfers-Out	All interfund transfers out of a fund other than residual equity transfers.
900	Other Objects	Revenue transits, district dues, employee and pupil dues, adjustments and miscellaneous.

Financial Section

Revenue Trends and Assumptions

Revenue Limits

A district's revenue limit is the maximum amount of revenue that can be raised through state general aid and property tax for the General, Non-Referendum Debt, and Capital Expansion Funds, also referred to as Funds 10, 38, and 41 respectively. Revenue limits have been and will continue to be a topic of debate at the state level.

2014-15*	\$75.00	2009-10	\$200.00
2013-14*	\$75.00	2008-09	\$274.68
2012-13	\$50.00	2007-08	\$264.12
2011-12	-\$570.00	2006-07	\$256.93
2010-11	\$200.00	2005-06	\$248.48

*District received an additional \$75 per student categorical aid in 2013-14 & \$150 in 2014-15.

Equalization Aid (State Source)

Over the years, there have been a variety of different methods used to calculate the state's participation in financing K-12 education. Since 1995, the state has tried to provide a two-thirds funding commitment on a statewide basis. The level of state aid received by an individual district may be higher or lower than two-thirds depending on the district's per member shared costs and equalization value. In recent years, the commitment by the state to fund at two-thirds state-wide has been revised and has subsequently fallen. Generally speaking, as state aid is decreased, property taxes increase to pick up the shortfall. The percentage of actual state equalization aid to the D.C. Everest Area School District General Fund expenditure budget has been:

2014-15	61.7% (Estimate)	2009-10	66.8%
2013-14	60.1%	2008-09	67.4%
2012-13	61.1%	2007-08	67.7%
2011-12	62.8%	2006-07	69.6%
2010-11	64.9%	2005-06	69.9%

Equalization aid is the largest source of revenue for the district. Changes to the formula, changes in district property value, changes to membership and/or changes in shared costs significantly impact the amount of equalization aid the district receives. The district monitors these trends to determine future impact.

Local Property Tax Levies (Local Source)

Local levies are the second greatest source of revenue for the D.C. Everest Area School District and are regulated by the revenue limit law established by the state. Significant changes by legislative action could impact the reliance on local property taxpayers either negatively or positively. The district monitors legislative action to determine the impact of legislative edict.

Categorical Aid

Categorical Aid is state or federal aid intended to either finance or reimburse some specific category, instructional, or supporting program; or to aid a particular target group of pupils. The district may only use the aid for the purpose for which it was intended. Some examples of categorical aid programs in Wisconsin are: Special Education Aid, Common School Fund Aid and Transportation Aid.

Federal Revenue (Federal Sources)

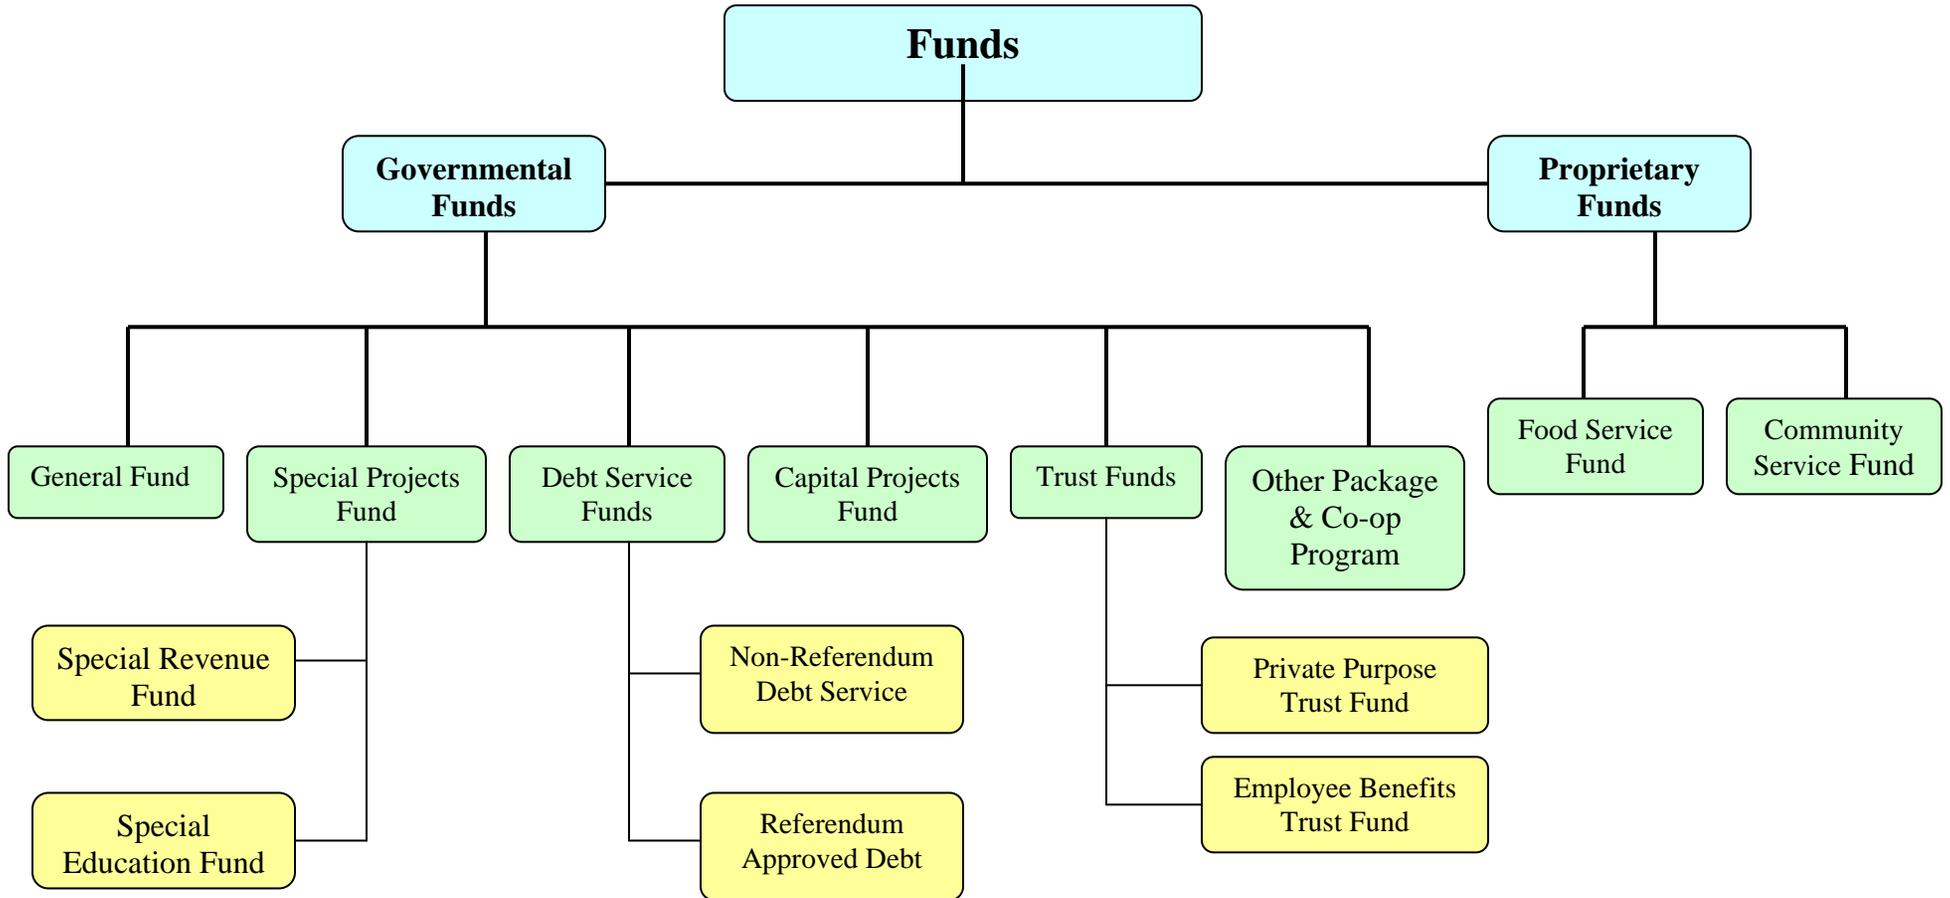

Funds received by a school district from the U.S. Government are routed through the state. Federal revenue only accounts for approximately 1% of the General Fund's total revenue.

Other Revenue Sources

Other revenue sources are approximately 1% of the total General Fund budget.

Annual Meeting - Proposed Budget for Adoption
D.C. EVEREST AREA SCHOOL DISTRICT
BUDGET FOR 2014-15

GENERAL FUND (FUND 10)

The General Fund is used to account for district financial activities for current operations, except those which are required to be accounted for in separate funds. Approximately 74% of all District expenditures are made within the General Fund.

In 1993, Wisconsin Statute 121.90 created a revenue limit formula that placed a limit on the revenue a school district is entitled to receive from general state aid and local tax levies. The maximum revenue limit is based upon enrollment changes, allowed per pupil change determined by state law, each district's prior year controlled revenue and other factors. State equalization aid and local tax levies are the primary revenue sources for the General Fund.

SPECIAL PROJECTS FUNDS (FUND 20)

This fund is used to account for special education and related services funded from a fund transfer from Fund 10, state revenues, federal revenues and charges for services provided to other districts, as a result of being a host district for a special education package or cooperative program. No fund balance or deficit can exist in this fund.

DEBT SERVICE FUND (FUND 30)

These funds are used for recording transactions related to repayment of the following general obligation debt: promissory notes (issued per Wisconsin Statute 67.12(12)), bonds, and state trust fund loans. Also included in these funds are transactions pertaining to land contract payments and refinancing of debt issues and other district obligations as specified by the Department of Public Instruction. Debt tax levies must be recorded in these funds. The resources in these funds may not be used for any other purpose as long as a related debt remains.

D.C. Everest Area School District
2014-15 Proposed Tax Levy

The D.C. Everest Area School district property taxes include levies for general operations, debt service and community services. Property values are equalized to reflect fair market value rather than local assessed value. The equalized levy rate is the total property tax levy divided by the current year equalized property value with tax incremental financing (TIF) values excluded. Levy rates are shown in "mills" or property tax dollars levied per \$1,000 of equalized property value.

Fund Number	Fund	2013-14		2014-15

Revenue Limit-Related Categorical Aid for 2014-15

Remember to budget for revenue limit-related categorical Per-Pupil Aid. This aid does not appear in the Revenue Limit Computation, but districts will receive \$150 multiplied by Line 6 (Current 3-Year Average) of the 2014-15 Revenue Limit computation. Receipt of aid is NOT dependent on levying to the maximum as it was in a previous year. Per-Pupil Aid revenue is coded to Source 619. See <http://sfs.dpi.wi.gov/perpupil> for more information.

District: D C Everest Area (4970) - Common School District
Contact: Aaron Nelson
E-mail: anelson@dce.k12.wi.us
Phone Number: 715-359-4221

Common School District - Annual Meeting Date: 10/22/2014

Unified School District - Date the levy was set for 2014-15: 10/22/2014

First Class City - Date of the meeting at which the budget is communicated to the common council: 10/22/2014

Will the district have a Community Programs and Service Fund (Fund 80) for the 2014-2015 fiscal year? Yes

The purpose and dollar amount for all planned expenditures from the district's Fund 80 for the 2014-15 fiscal year

1. Youth & Adult Sports & Activity Programs	159,296.00
2. Greenheck Facility & Employee Costs	779,050.00
3. Before & After School Care	199,327.00
4. Summer Camp & Day Camp Programming	123,597.00
5.	
6.	
7.	
8.	
9.	
10.	

Please explain how the district's planned expenditures in fund 80, described above, meet the Department of Public Instruction's Criteria for use of Community Service Funds?

The district has a very large and active community services program that encompasses many activities. We operate multiple community youth sports programs (soccer, football, basketball etc.). We hold adult aerobic and other fitness classes, provide access to the pool, host the community Hmong New Year's Celebration, provide Family Fun Days, operate an ice rink for district and community, provide community access to the health and wellness center, soccer fields, baseball fields, softball diamonds, football stadium - we run a before and after care program at all our elementary schools, run a summer youth camp, and host varying community and district events. We provide space in our schools for multiple non-profit organizations, i.e. boy scouts, girl scouts, boys and girl's club etc.

The revenue and dollar amount that for the district's Fund 80 total planned revenue.

Levy (Property Tax)	150,000.00
User Fees	1,090,170.00
Other Revenue	21,100.00
Fund Balance	0.00

Fund 80 Revenue (all sources)	1,261,270.00
Expenses for Fund 80	1,261,270.00
Fund 80 Levy	150,000.00

Year of most recent prior Fund 80 Levy	2013
Most recent Fund 80 Levy	150,000.00

The district does not intend to exceed the limit on the Fund 80 levy authority imposed by 2013 Wisconsin Acts 20 and 46 for the 2014-15 fiscal year. Agree

The district does intend to hold a referendum in order to meet the requirement to exceed the limit on Fund 80 levy authority included in 2013 Wisconsin Acts 20 and 46.

Debt & Liabilities

Debt Limit

The school district has the power to incur debt for purposes specified in statute so long as the principal amount does not exceed ten percent of the equalized value of taxable property within the school district. The table below is a comparison of the outstanding indebtedness of the school district as a percentage of the applicable debt limit.

The legal debt limit and margin of indebtedness, in accordance with § 67.03(1)(b) of the Wisconsin Statutes, applies last year's equalized valuation to the current indebtedness as follows:

The 2014 equalized valuation as certified by the Wisconsin Dept. of Revenue	\$ 2,157,563,257
Debt limit (10% equalized valuation)	\$ 215,756,326
Deduct long-term debt applicable to debt margin	\$ 34,320,000
Percent of legal debt incurred	16%
Percent of legal debt available	84%

D. C. EVEREST AREA SCHOOL DISTRICT INDEBTEDNESS PRINCIPAL AND INTEREST As of July 1, 2014

General obligation debt is comprised of the following individual issues:

Purpose	Principal	Interest	Total	Maturity
32 - Bonds - MS Const.	\$ 795,000	\$ 61,025	\$ 856,025	2018
34 - Bonds - MS Land, MS Const. & SH/JH Renovations	\$ 2,340,000	\$ 197,313	\$ 2,537,313	2020
35 - Bonds - MB Const. & District Wide Renovations	\$ 9,430,000	\$ 1,547,438	\$ 10,977,438	2025
36 - Bonds - MB & MS Const. & District Wide Renovations	\$ 9,790,000	\$ 575,443	\$ 10,365,443	2020
37 - Bonds - MS Const. & SH/JH Renovations	\$ 5,430,000	\$ 1,371,825	\$ 6,801,825	2021
38 - Bonds - District Wide Tech. Project & WRS Pay-Off	\$ 6,535,000	\$ 582,440	\$ 7,117,440	2023
	\$ 34,320,000	\$ 4,335,483	\$ 38,655,483	

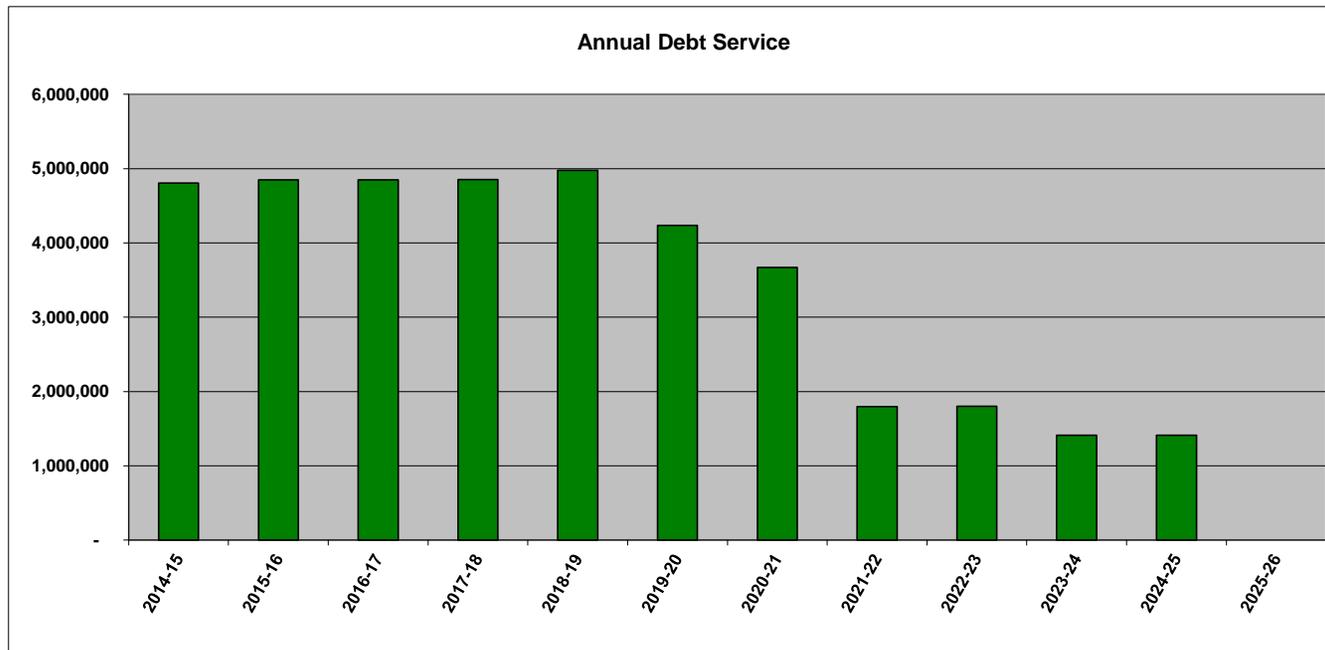

Future Indebtedness and Budget Impact

School districts must levy a sufficient amount for debt service in the current fiscal year to pay long-term debt due in the current school year and the fall of the following school year. As of July 1st, the amount of principal and interest for 2014-15 school year due is \$4,807,237. The tax levy for the 2014-15 school year will be \$4,560,383 of which \$3,457,416 is referendum debt and \$1,102,967 is non-referendum debt. Non-referendum debt is accommodated within the revenue limit. The tax levy has been lowered by around \$220,000 for this current school year and the following five school years due to a FBI settlement with Miron Construction.

Cash flow requirements for the retirement of long-term debt as of July 1st are as follows:

It is anticipated that fund 36 Bonds - will be lowered by around \$220,000 per year until the debt issue is full paid. We are currently waiting for final numbers from PMA.

Postretirement Benefit Valuation Under GASB 45

D. C. Everest Area School District

Willis North America, Inc. completed an actuarial study of our postretirement benefits as required by the Statement of Governmental Accounting Standards No. 45 (SGAS 45). This includes district contributions toward the cost of health insurance premiums for a limited number of years for qualifying employees.

The results of their study show that as of June 30, 2013, the districts Actuarial Accrued Liability (AAL), which is the present value of projected future benefits earned by employees to date, was \$12,735,343 with an Annual ARC cost of \$1,021,572. The Present Value of Future Benefits was \$21,247,510, meaning if that amount were set aside, with earned interest accruing to the fund as well, an ARC payment would not be required to fund benefits earned.

The school district has established an Irrevocable Employee Benefit Deferral Trust in compliance with the requirements of the Governmental Accounting Standards Board (GASB). The purpose of this trust is to process postretirement benefit payments, accrue interest and develop, if possible, a fund balance to help offset the impact of ARC payments on the operating budget.

Irrevocable Employee Benefit Deferral Trust Budget - Fund 73				
	2013-14 Audited		2014-15 Budget	
Beginning Fund Balance	\$	6,334,754	\$	5,846,462

Expenditures				
Trust Payments	\$	1,133,391	\$	1,187,668

Informational Section

Comparative Expenditures per Student

Cost can differ from one district to another or from one year to another. There may be several reasons for this variance - educational programming, pupil transportation requirements, increases or decreases in debt service expenditures, or food and community service operations. The following "comparable" cost measures were developed by the DPI to limit or identify the effects of various factors that contribute to cost variances.

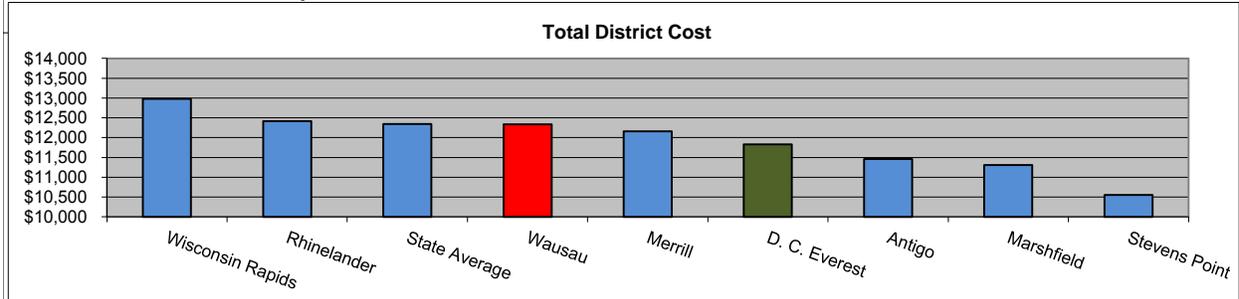

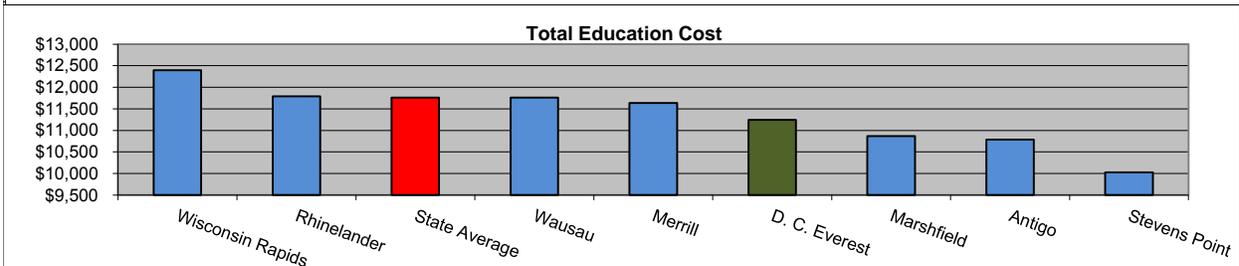

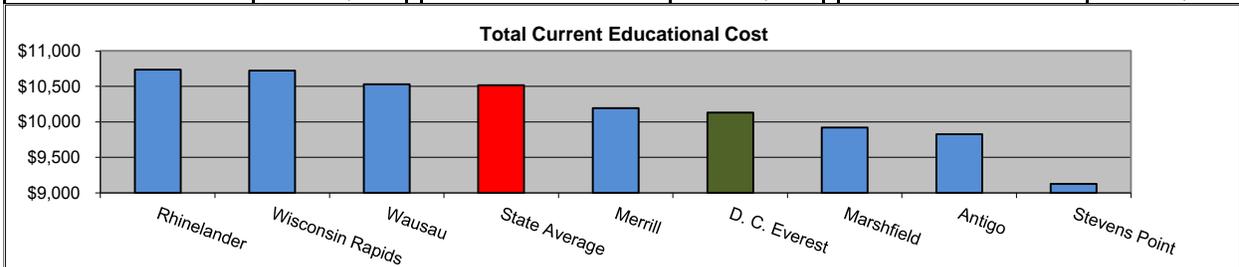

Total Current Educational Cost (TCEC) This measure attempts to identify overall instruction and instructional support service costs attributable to district resident students. It can generally be described as the cost of the district's General and Special Project funds, excluding transportation and facility acquisition expenditures, less inter-fund transfers and revenues for instructional services the district provides to non-resident pupils.

Total Education Cost (TEC) This is the TCEC plus transportation, expenditures for facility acquisitions charged to the General, Special Project, Capital Expansion funds, and debt service principle and interest.

Total District Cost (TDC) This is the TEC plus food and community service costs. It should be noted that food and community service activities are usually funded with fees and other program revenue, requiring little or no property tax subsidy.

The pupil "membership" as used here is the average of the full time equivalency (FTE) of resident pupils on the third Friday in September and the second Friday in January, plus the FTE for summer school, group/foster home, and part time attendance pupils.

2012-13 Actual Spending By Districts - Latest Available from DPI

Pupil Enrollment History

The Third Friday in September count is used by the state to record enrollment. Actual enrollment varies throughout the year. The maximum revenue limit is based upon enrollment changes, the allowable per member change as determined by state law, and each district's prior year controlled revenue. Upon application and approval by the DPI, a district may increase its maximum limit by the amount of specific exemptions. A district then determines the maximum allowable levy for Funds 10, 38 and 41 by subtracting the October 15 general aid certification provided by the department from the revenue limit.

Glossary

Account - A descriptive heading which records financial transactions that are similar in terms of a given dimension, such as fund, function, object, or source.

Accounting Period - A period at the end of which financial statements are prepared (for example, July 1 through June 30).

Accounting System - The total process of recording, retrieving, and reporting information on the financial position and operations of an organization.

Accrual - Basis of accounting under which revenues are recognized when earned and expenditures are recognized when incurred, regardless of the timing of related cash flows.

Amortization of Debt - Gradual payment of an amount owed according to a specified schedule of times and amounts.

Appropriation - A legal authorization granted by a governing body to make expenditures and to incur obligations for specific purposes.

Assessed Tax Rate - Tax levy in dollars divided by assessed valuation.

Assessed Valuation - A valuation set upon real estate or other property by a municipality as a basis for levying taxes.

Assessment Ratio - Difference between assessed and equalized values expressed as a percent of assessed to equalized.

Assets - Items of value owned by the District.

Attendance Area - The geographic area wherein reside the pupils normally served by a particular school.

Audit - An examination of records and documents, and the securing of other evidence, for one or more of the following purposes: (a) to attest to the fairness of management's assertions in financial statements; (b) evaluate whether management has efficiently and effectively carried out its responsibilities; (c) determining the propriety of transactions; (d) ascertaining whether all transactions have been recorded; and (e) determining whether transactions are accurately recorded in the accounts and in the statements drawn from the accounts.

Balance Sheet - A summarized statement of assets, liabilities, reserves, and fund balance as of a given date, reflecting the per fund financial position of the District.

Allowable per Pupil Revenue Limit Increase - A dollar increase in the revenue limit per pupil amount as prescribed by the statutory formula as set by the legislature when they adopt the state's biennial budget.

Bond - A written promise, generally under seal, to pay a specified sum of money, called the face value, at a fixed time in the future, called the date of maturity, and carrying interest at a fixed rate, usually payable periodically.

Budget - A plan of financial operation embodying an estimate of proposed revenues and expenditures for a given accounting period.

Budget Center - A budgetary location for which a manager is responsible for developing and administering the resources necessary for providing services; for example, Curriculum and Instruction.

Budgetary Control - The control or management of business affairs in accordance with an approved budget for the purpose of keeping expenditures within the authorized amounts.

Categorical Aid - State or federal aid which is intended to finance or reimburse some specific category of instructional or supporting program or to aid a particular target group of pupils. The district may use the aid only for the purpose for which it is paid. (Also see "General Aid.")

Computer Aid - State aid to offset business computers exempted from property tax levy.

Debt Limit - The maximum amount of long-term debt which is legally permitted. In Wisconsin, school districts may borrow up to 10% of its total equalized valuation.

Debt Service - Expenditures for the retirement of principal and payment of interest on debt.

Debt - An obligation resulting from the borrowing of money or from the purchase of goods and services. District debts include bonds and notes.

Deferred Revenue - Revenue received but not earned, or revenues which do not meet the measurable and available criteria for recognition in the reporting period.

Department of Public Instruction (DPI) - The state agency, headed by an elected state superintendent, charged with the supervision and guidance of elementary and secondary education in Wisconsin.

Enrollment - A count of all students on the third Friday in September.

Equalization - (1) The process by which the Wisconsin Department of Revenue converts all local assessor - determined property values, by municipality, to a uniform level. (Also see "Property Valuation.") (2) The process of ensuring a minimum tax base (the guaranteed valuation) for the support of education for each pupil in Wisconsin, so that school districts which spend at the same level will tax at the same rate.

Equalization Aid - State aid which is not limited to any specific program, purpose, or target population and is calculated based on membership (enrollment), shared costs, property values and state funding.

Equalized Tax Rate - Tax levy in dollars divided by equalized valuation.

Equalized Valuation - The market value of all real and personal property as established by the Wisconsin Department of Revenue.

Expenditures - Decreases in net financial resources, including current operating expenses which require the current or future use of net current assets, debt service and capital outlay.

Fiscal Year - A 12 - month accounting period at the end of which a school district determines its financial condition and the results of its operations and closes its books. Wisconsin school districts have a July 1 through June 30 fiscal year.

Function - A WUFAR account designation that categorizes a reason or purpose served by a particular expenditure or made possible by a particular receipt.

Fund Balance - The difference between the fund's assets and liabilities equals the "fund balance." A positive fund balance represents a financial resource available to finance expenditures of a following fiscal period. A deficit fund balance can only be recovered by having revenues exceed expenditures in a following fiscal period.

Fund - A sum of money or other resources set aside for specific activities of a school district. The fund accounts constitute a complete entity and all of the financial transactions for the particular fund are recorded in them.

General Aid - State aid which is not limited to any specific program, purpose, or target population but which may be used in financing the general educational program as seen fit by the recipient district. (Also see "Categorical Aid.")

Levy - (*verb*) To impose taxes or special assessments. (*noun*) The total of taxes or special assessments imposed by a governmental unit.

Levy Rate - In property taxation, the amount of tax to be raised divided by the value of property to be taxed; often expressed in mills of the tax per dollar of property value, hence the term "mill rate." (Also see "Property Valuation.")

Liabilities - Obligations owed by the District which are either current (payable within a year) or long-term.

Long-term Debt - Debt with a maturity of more than one year after the date of issuance.

Municipality - A town, village, or city. For some specially identified purposes in Wisconsin Statutes, the term also includes counties, school districts, etc.

Note - A written promise to pay a specified sum of money (principal) on a specified date or dates in the future called the maturity date(s), together with periodic interest at a specified rate for up to 10 years.

Object - A WUFAR account designation that categorizes an article or service obtained from a specific expenditure.

Operating Transfers In/Out - All interfund transfers in and out of a fund other than residual equity transfers.

Other Financing Sources/Uses - Non-recurring sources and uses of funds classified separately from revenues and expenditures.

Property Valuation - The dollar value placed on land and buildings for purposes of administering property taxes. There are two commonly used methods of describing property valuation: assessed and equalized.

Refinance - To pay off an old debt with newly borrowed money and thus incur a new debt.

Reserved Fund Balance - The portion of fund balance set aside for a specific purpose and unavailable for budgetary use. For example, reserve for encumbrances, inventories, and debt retirement.

Revenue Cap - Total equalization aid, property taxes and computer aid in lieu of taxes to finance general fund expenditures limited by enrollment.

Revenue - An increase of assets which does not represent recovery of an expenditure and which does not increase liabilities by an identical amount, or a decrease in liabilities which does not cause an increase in other liabilities or a decrease in assets.

Revenue Limit - A district's revenue limit is the maximum amount of revenue it may raise through state general aid and property tax for the General, Non-Referendum Debt (authorized after August 12, 1993), and Capital Expansion Funds, also referred to as Funds 10, 38, and 41 respectively.

School System - All the schools and supporting services controlled by a school board or by any other organization which operates one or more schools.

Source - Used to classify revenues and other sources of finances according to their origin.

Third Friday Count – Student count that takes place on the third Friday of September. This count is used by the state to record enrollment.

TID or TIF - Tax incremental financing district designated to allow for infrastructure and building improvement costs to be recovered through tax incremental levies. Value of TIF is not included in school district tax base for apportionment and tax rate calculation purposes.

Wisconsin Uniform Financial Accounting Requirements (WUFAR) - The Wisconsin Uniform Financial Accounting Requirements (WUFAR) manual presents a uniform financial and accounting structure for public elementary and secondary schools in the state of Wisconsin.

Assistant Superintendent
Business/Personnel Services

MISSION STATEMENT

D.C. Everest Area School District, in partnership with the community, is committed to being an innovative educational leader in developing knowledgeable, productive, caring, creative, responsible individuals prepared to meet the challenges of an ever-changing global society.

TO: Dr. Kristine Gilmore

FROM: Jack E. Stoskopf, Jr., Assistant Superintendent for Business/Personnel Services

RE: Annual Meeting Approval of Tax Levy

DATE: October 22, 2014

Attached is the proposed tax levy for the D.C. Everest Area School District for the 2014-2015 school year.

Approval of the preliminary levy amount by the attendees at the annual meeting is recommended.

D.C. Everest Area School District
2014-15 Proposed Tax Levy

The D.C. Everest Area School district property taxes include levies for general operations, debt service and community services. Property values are equalized to reflect fair market value rather than local assessed value. The equalized levy rate is the total property tax levy divided by the current year equalized property value with tax incremental financing (TIF) values excluded. Levy rates are shown in "mills" or property tax dollars levied per \$1,000 of equalized property value.

Fund Number	Fund	2013-14		2014-15	
		Levy	Mill Rate	Levy	Mill Rate
Fund 10 (Src 211 & 212)	General Fund	\$ 19,824,258	\$ 9.15	\$ 19,077,347	\$ 8.842
Fund 38	Debt Service Fund	\$ 381,983	\$ 0.18	\$ 1,102,967	\$ 0.511
Fund 39	Referendum Debt Service	\$ 3,869,379	\$ 1.79	\$ 3,457,416	\$ 1.602
Fund 80	Community Service Fund	\$ 150,000	\$ 0.07	\$ 150,000	\$ 0.070
	Total	\$ 24,225,620	\$ 11.18	\$ 23,787,730	\$ 11.025

Municipality	2013-14			2014-15
