4. PD Leadership Committee

5. Special Populations Committee

6. Legislative Committee

10. NEW ESU Chief Administrators

11. Adjournment

BYLAWS
OF
EDUCATIONAL SERVICES UNIT COORDINATING COUNCIL

Article I. Authority and Purpose.

Section 1. Introduction. Pursuant to NEB. REV. STAT. § 79-1245, the Educational Services Unit Coordinating Council (hereinafter referred to as "the Council") is a political subdivision of the State of Nebraska.

Section 2. Purpose of Bylaws. The purpose of these Bylaws is to provide operational guidance to the Council and to clarify the Council's relationship with other education entities.

Section 3. Authority. The powers and duties of the Council are set forth in NEB. REV. STAT. §§ 79-1245 to 79-1249 as it may be amended from time to time. These Bylaws shall in no way limit or alter the authority and duties of the Council as provided by law.

Section 4. Mission. The mission of the Council is to provide the most cost-effective educational support for students, teachers, and school districts in each Nebraska educational service unit by facilitating statewide coordination of educational services and strategic planning.

Article II. Membership and Meetings.

Section 1. Number of Members. The Council shall initially have seventeen (17) members, one (1) administrator from each of the seventeen (17) Nebraska educational service units. The Council may involve liaisons from other educational entities and State agencies in its meetings and activities. If, at any time, the number of educational service units changes, the number of members on the Council shall also change so the number of members on the Council remains the same number as the number of existing Nebraska educational service units.

Section 2. Member Responsibilities. Each member is responsible for attending meetings and faithfully and diligently executing any responsibilities or tasks delegated by the Council to carry out its statutory powers and duties.

Section 3. Regular Meetings. In May of each year, the Council shall approve meeting dates, times and locations for the next 12 months. The Council shall meet at least once annually and schedule the number of regular meetings

that it deems appropriate for each 12-month period. The Council shall endeavor to set meetings on dates and at locations that accommodate the schedule of its members and of the State's education community. Regular meetings shall be noticed and held pursuant to the Nebraska Open Meetings Act.

Section 4. Special Meetings. Special meetings of the Council may be called by the President of the Council or by a majority of Council members for any lawful reason. Special meetings shall be noticed and held pursuant to the Nebraska Open Meetings Act.

Section 5. Quorum. No action may be taken on a matter at a Council meeting unless a majority of Council members are present at the meeting either in person or via teleconference pursuant to NEB. REV. STAT. § 84-1411 as may be amended from time to time.

Section 6. Voting. If a quorum is present, the affirmative vote of the majority of Council members present at the meeting and entitled to vote on the subject matter shall be considered an act of the Council unless of a greater vote is required by law. All votes shall be by roll call vote and recorded in the minutes of the Council meeting.

Section 7. Recessed Meeting. A majority of Council members present at any meeting may vote to recess the meeting to a different date, time and/or location. Any business which might have been transacted at the original meeting may be transacted at the rescheduled meeting if a quorum is present at such recessed meeting.

Section 8. Commissioner of Education. The Commissioner of Education shall be invited to attend or to send representatives from the Nebraska Department of Education in his or her stead, to each regular meeting of the Council.

Article III. Officers.

Section 1. Number and Qualification. The initial officers of the Council shall consist of a President, a President-Elect, a Past-President, a Secretary, a Treasurer and such other officers as may be deemed necessary by the Council. Together these officers shall comprise the Executive Committee of the Council.

Section 2. Election and Tenure. The officers of the Council shall be elected at the first regular meeting of the Council. Election may be by either voice vote or written ballot and shall require a majority vote of all members present at the meeting at which the election occurs. Thereafter the officers shall be elected bi-annually at the September meeting or as soon thereafter as convenient. Each officer shall hold office for two years or until his or her successor is duly elected and qualified, unless his or her service is terminated sooner because of death, resignation, removal, disqualification or otherwise.

Section 3. Removal. Any officer of the Council, either elected or appointed, may be removed by a vote of the majority of the Council. Election or appointment of an officer or agent shall not of itself create a contractual relationship between the officer and the Council or give the officer any contract rights.

Section 4. Vacancies. A vacancy in an office due to death, resignation, removal, disqualification or otherwise shall be filled by a vote of the Council in the same manner as provided in Section 2 above, at the Council's next regular meeting after the vacancy becomes known to the Council.

Section 5. Duties and Authority of Officers.

(a) President. The President shall be the principal executive officer of Council. The President shall cause all meetings of the Council to be lawfully noticed and prepare an agenda for each meeting of the Council in accordance with state law. When present, the President shall preside at all meetings of the Council. The President may sign, with the Secretary or any other officer of the agency authorized by the Council, checks, contracts or other instruments which the Council has authorized to be executed, except in cases where the signing and execution thereof is expressly delegated by the Council or these Bylaws to some other officer or agent of the Council or required by law to be otherwise signed or executed. The President shall perform all duties incident to the office of President and such other duties as may be prescribed by the Council from time to time.

(b) President-Elect. In the absence of the President or in the event of his or her death, inability, or refusal to act, the President-Elect shall perform the duties of the President. When so acting the President-Elect, shall have all the powers of, and be subject to all the

restrictions upon, the President. The President-Elect shall perform such other duties as from time to time may be assigned by the President or by the Council.

(c) Past-President. In the absence of the President or the President-Elect or in the event of his or her death, inability, or refusal to act, the Past-President shall perform the duties of the President. When so acting the Past-President, shall have all the powers of, and be subject to all the restrictions upon, the President. The Past-President shall perform such other duties as from time to time may be assigned by the President or by the Council.

(d) Secretary. The Secretary shall prepare minutes of the meetings of the Council, serve as the custodian of the Council's records, keep a current roster of the physical and e-mail addresses of all Council members, and perform all duties incident to the office of Secretary, and perform such other duties as from time to time may be assigned by the President or by the Council.

(e) Treasurer. The Treasurer shall have charge and custody of and be responsible for, all funds and securities of the Council, receive receipts for all securities and monies due and payable to the Council from any source whatsoever and give such receipts to the Council, deposit all such monies in the name of the Council in such banks, trust companies, or in other depositories designated by the Council, and perform all the duties incident to the office of Treasurer and perform such other duties as from time to time may be assigned by the President or by the Council. If required by the Council, the Treasurer shall give a bond for the faithful discharge of his or her duties in such sum and with such surety or sureties as the Council shall determine.

(f) Executive Committee. The Executive Committee shall meet as needed to prepare for Council meetings, to formulate recommendations for the Council, and for such other reasons as deemed appropriate by the President or as directed by the Council.

Article IV. Administration.

Section 1. Reimbursement for Expenses. Council members and Council employees shall be entitled to reimbursement for actual expenses incurred in the performance of their duties as allowed by NEB. REV. STAT. § 79-1217 and other laws and applicable regulations as they may be amended from time to time. No request for reimbursement shall be submitted by an individual for an expense which has been paid by an educational service unit, other educational agency, or political subdivision. No charge for mileage shall be allowed when such mileage accrues while using an automobile owned by the State of Nebraska or one of its political subdivisions.

Section 2. Budget. The Council shall annually adopt a budget as required by the Nebraska Budget Act. Fiscal agents shall, pursuant to the agency agreement between the fiscal agent and the ESUCC, segregate funds contributed to a project from other funds maintained by the fiscal agent, either by maintaining a separate account of the Council designated for such a purpose or by maintaining a segregated fund within the budget of the educational service unit serving as fiscal agent. The Council shall require each fiscal agent appointed by the Council to provide to the Council quarterly statements of all activity for each project.

Section 3. Agency Agreements and Fiscal Agents. The Council may enter into agency agreements with individual educational service units or other public or private entities. The purpose of such agreements will be for the Council to delegate to the agent entity the authority and responsibility to oversee particular statewide cooperative projects. The agency agreement shall specify whether the agent entity will also serve as the fiscal agent for the project.

Section 4. Powers. The Council shall have the power to:

(a) Purchase and/or lease supplies, materials and equipment and enter into a contract with any person, firm, corporation or other entity.

(b) Accept for any of its purposes and functions any and all donations, grants of money, equipment, supplies, materials and services, conditional or otherwise from any person or entity, and receive, utilize, and dispose of the same. The nature, amount, and conditions, if any, attendant upon any donation or grant accepted

pursuant to this section shall be detailed in the annual report of Council.

(c) Employ, compensate, evaluate and discharge staff limited only to those persons necessary to carry out its duties and functions;

(d) Establish committees as it deems necessary for the purpose of advising the Council on any and all matters pertaining the Council's duties or activities;

(e) Indemnify or reimburse any person in the same manner as an educational service unit board is authorized to do pursuant to NEB. REV. STAT. § 79-1217 as may be amended from time to time;

(f) Take any other action authorized, either explicitly or implicitly, by Nebraska law, including any action that may be necessary to perform its duties and functions as provided in these Bylaws.

Section 5. Annual Plan. The Council shall develop a written document outlining the programs, services and other projects which the Council will operate each year ("Annual Plan"). The Council will annually review the Annual Plan and may amend it as the Council deems necessary.

Section 6. Advisory Committees. The Council may solicit input from advisory committees comprised of teachers, administrators, board members, staff development staff, and other individuals. The role of these committees shall be advisory only, and no recommendation or proposal by any advisory committee shall be final until acted upon and adopted by the Council.

Article V. Other Matters.

Section 1. Fiscal Year. The fiscal year of the Council shall begin on ~~July 1~~ September 1 and end on ~~June 30~~. August 31. (Amended March 3, 2010)

Section 2. Liability Insurance. The Council shall obtain adequate insurance to cover itself, its members and its agents, employees, volunteers, or other persons in performing duties to the Council. Adequate shall mean an amount, if available, which will satisfy the maximum claims that could be made under Nebraska's Political Subdivision Tort Claims Act.

Section 3. Amendment. These Bylaws may be amended from time to time as deemed necessary by a majority of the Council. All such amendments must be in writing, appended to this document and signed by the Council Secretary.

Section 4. Intellectual Property. All rights to any intellectual property (copyright, trademark, patent, etc.) created in connection with any project reflected in the addenda to these Bylaws shall be owned by the Council.

These Bylaws were adopted by the Educational Service Unit Coordinating Council at a meeting lawfully held pursuant to the Nebraska Open Meetings Act this _____ day of July, 2008.

Nebraska Open Meetings Act

§84-1407 Act, how cited Sections 84-1407 to 84-1414 shall be known and may be cited as the Open Meetings Act.

§84-1408 Declaration of intent; meetings open to public It is hereby declared to be the policy of this state that the formation of public policy is public business and may not be conducted in secret. Every meeting of a public body shall be open to the public in order that citizens may exercise their democratic privilege of attending and speaking at meetings of public bodies, except as otherwise provided by the Constitution of Nebraska, federal statutes, and the Open Meetings Act.

§84-1409. Terms, defined For purposes of the Open Meetings Act, unless the context otherwise requires: (1)(a) Public body means (i) governing bodies of all political subdivisions of the State of Nebraska, (ii) governing bodies of all agencies, created by the Constitution of Nebraska, statute, or otherwise pursuant to law, of the executive department of the State of Nebraska, (iii) all independent boards, commissions, bureaus, committees, councils, subunits, or any other bodies created by the Constitution of Nebraska, statute, or otherwise pursuant to law, (iv) all study or advisory committees of the executive department of the State of Nebraska whether having continuing existence or appointed as special committees with limited existence, (v) advisory committees of the bodies referred to in subdivisions (i), (ii), and (iii) of this subdivision, and (vi) instrumentalities exercising essentially public functions. (b) Public body does not include (i) subcommittees of such bodies unless a quorum of the public body attends a subcommittee meeting or unless such subcommittees are holding hearings, making policy, or taking formal action on behalf of their parent body, except that all meetings of any subcommittee established under section 81-15,175 are subject to the Open Meetings Act, and (ii) entities conducting judicial proceedings unless a court or other judicial body is exercising rulemaking authority, deliberating, or deciding upon the issuance of administrative orders;

(2) Meeting means all regular, special, or called meetings, formal or informal, of any public body for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any action of the public body; and

(3) Videoconferencing means conducting a meeting involving participants at two or more locations through the use of audio-video equipment which allows participants at each location to hear and see each meeting participant at each other location, including public input. Interaction between meeting participants shall be possible at all meeting locations.

§84-1410. Closed session; when; purpose; reasons listed; procedure; right to challenge; prohibited acts; chance meetings, conventions, or workshops (1) Any public body may hold a closed session by the affirmative vote of a majority of its voting members if a closed session is clearly necessary for the protection of the public interest or for the prevention of needless injury to the reputation of an individual and if such individual has not requested a public meeting. The subject matter and the reason necessitating the closed session shall be identified in the motion to close. Closed sessions may be held for, but shall not be limited to, such reasons as: (a) Strategy sessions with respect to collective bargaining, real estate purchases, pending litigation, or litigation which is imminent as evidenced by communication of a claim or threat of litigation to or by the public body; (b) Discussion regarding deployment of security personnel or devices; (c) Investigative proceedings regarding allegations of criminal misconduct; (d) Evaluation of the job performance of a person when necessary to prevent needless injury to the reputation of a person and if such person has not requested a public meeting; (e) For the Community Trust created under section 81-1801.02, discussion regarding the amounts to be paid to individuals who have suffered from a tragedy of violence or natural disaster, or (f) For public hospitals, governing board peer review activities, professional review activities, review and discussion of medical staff investigations or disciplinary actions, and any strategy session concerning transactional negotiations with any referral source that is required by federal law to be conducted at arms length. Nothing in this section shall permit a closed meeting for discussion of the appointment or election of a new member to any public body.

(2) The vote to hold a closed session shall be taken in open session. The entire motion, the vote of each member on the question of holding a closed session, and the time when the closed session commenced and concluded shall be recorded in the minutes. If the motion to close passes, then the presiding officer immediately prior to the closed session shall restate on the record the limitation of the subject matter of the closed session. The public body holding such a closed session shall restrict its consideration of matters during the closed portions to only those purposes set forth in the motion to close as the reason for the closed session. The meeting shall be reconvened in open session before any formal action may be taken. For purposes of this section, formal action shall mean a collective decision or a collective commitment or promise to make a decision on any question, motion, proposal, resolution, order, or ordinance or formation of a position or policy but shall not include negotiating guidance given by members of the public body to legal counsel or other negotiators in closed sessions authorized under subdivision (1) (a) of this section.

(3) Any member of any public body shall have the right to challenge the continuation of a closed session if the member determines that the session has exceeded the reason stated in the original motion to hold a closed session or if the member contends that the closed session is neither clearly necessary for (a) the protection of the public interest or (b) the prevention of needless injury to the reputation of an individual. Such challenge shall be overruled only by a majority vote of the members of the public body. Such challenge and its disposition shall be recorded in the minutes.

(4) Nothing in this section shall be construed to require that any meeting be closed to the public. No person or public body shall fail to invite a portion of its members to a meeting, and no public body shall designate itself a subcommittee of the whole body for the purpose of circumventing the Open Meetings Act. No closed session, informal meeting, chance meeting, social gathering, email, fax, or other electronic communication shall be used for the purpose of circumventing the requirements of the act.

(5) The act does not apply to chance meetings or to attendance at or travel to conventions or workshops of members of a public body at which there is no meeting of the body then intentionally convened, if there is no vote or other action taken regarding any matter over which the public body has supervision, control, jurisdiction, or advisory power.

§84-1411. Meetings of public body; notice; contents; when available; right to modify; duties concerning notice; videoconferencing or telephone conferencing authorized; emergency meeting without notice; appearance before public body (1) Each public body shall give reasonable advance publicized notice of the time and place of each meeting by a method designated by each public body and recorded in its minutes. Such notice shall be transmitted to all members of the public body and to the public. Such notice shall contain an agenda of subjects known at the time of the publicized notice or a statement that the agenda, which shall be kept continually current, shall be readily available for public inspection at the principal office of the public body during normal business hours. Agenda items shall be sufficiently descriptive to give the public reasonable notice of the matters to be considered at the meeting. Except for items of an emergency nature, the agenda shall not be altered later than (a) 24 hours before the scheduled commencement of the meeting or (b) 48 hours before the scheduled commencement of a meeting of a city council or village board scheduled outside the corporate limits of the municipality. The public body shall have the right to modify the agenda to include items of an emergency nature only at such public meeting.

(2) A meeting of a state agency, state board, state commission, state council, or state committee, of an advisory committee of any such state entity, of an organization created under the Interlocal Cooperation Act, the Joint Public Agency Act, or the Municipal Cooperative Financing Act, of the governing body of a public power district having a chartered territory of more than one county in this state, of the governing body of a public power and irrigation district having a chartered territory of more than one county in this state, of a board of an educational service unit, of the educational service unit coordinating council, of the governing body of a risk management pool or its advisory committees organized in accordance with the Intergovernmental Risk Management Act, or of a community college board of governors may be held by means of videoconferencing or, in the case of the Judicial Resources Commission in those cases specified in section 24-1204, by telephone conference, if: (a) Reasonable advance publicized notice is given; (b) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including seating, recordation by audio or visual recording devices, and a reasonable opportunity for input such as public comment or questions to at least the same extent as would be provided if videoconferencing or telephone conferencing was not used; (c) At least one copy of all documents being considered is available to the public at each site of the videoconference or telephone conference; (d) At least one member of the state entity, advisory committee, board, council, or governing body is present at each site of the videoconference or telephone conference; and (e) No more than one-half of the state entity's, advisory committee's, board's, council's, or governing body's meetings in a calendar year are held by videoconference or telephone conference. Videoconferencing, telephone conferencing, or conferencing by other electronic communication shall not be used to circumvent any of the public government purposes established in the Open Meetings Act.

(3) A meeting of a board of an educational service unit, of the educational service unit coordinating council, of the governing body of an entity formed under the Interlocal Cooperation Act, the Joint Public Agency Act, or the Municipal Cooperative Financing Act, of the governing body of a risk management pool or its advisory committees organized in accordance with the Intergovernmental Risk Management Act, of a community college board of governors, of the governing body of a public power district, or of the governing body of a public power and irrigation district may be held by telephone conference call if: (a) The territory represented by the educational service unit, member educational service units, community college board of governors, public power district, public power and irrigation district, or member public agencies of the entity or pool covers more than one county; (b) Reasonable advance publicized notice is given which identifies each telephone conference location at which an educational service unit board member, a council member, a member of a community college board of governors, a member of the governing body of a public power district, a member of the governing body of a public power and irrigation district, or a member of the entity's or pool's governing body will be present; (c) All telephone conference meeting sites identified in the notice are located within public buildings used by members of the educational service unit board, council, community college board of governors, governing body of the public power district, governing body of the public power and irrigation district, or entity or pool or at a place which will accommodate the anticipated audience; (d) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including seating, recordation by audio recording devices, and a reasonable opportunity for input such as public comment or questions to at least the same extent as would be provided if a telephone conference call was not used; (e) At least one copy of all documents being considered is available to the public at each site of the telephone conference call; (f) At least one member of the educational service unit board, council, community college board of governors, governing body of the public power district, governing body of the public power and irrigation district, or governing body of the entity or pool is present at each site of the telephone conference call identified in the public notice; (g) The telephone conference call lasts no more than two hours; and (h) No more than one-half of the board's, council's, governing body's, entity's, or pool's meetings in a calendar year are held by telephone conference call, except that a governing body of a risk management pool that meets at least quarterly and the advisory committees of the governing body may each hold more than one-half of its meetings by telephone conference call if the governing body's quarterly meetings are not held by telephone conference call or videoconferencing. Nothing in this subsection shall prevent the participation of consultants, members of the press, and other nonmembers of the governing body at sites not identified in the public notice. Telephone conference calls, emails, faxes, or other electronic communication shall not be used to circumvent any of the public government purposes established in the Open Meetings Act.

(4) The secretary or other designee of each public body shall maintain a list of the news media requesting notification of meetings and shall make reasonable efforts to provide advance notification to them of the time and place of each meeting and the subjects to be discussed at that meeting.

(5) When it is necessary to hold an emergency meeting without reasonable advance public notice, the nature of the emergency shall be stated in the minutes and any formal action taken in such meeting shall pertain only to the emergency. Such emergency meetings may be held by means of electronic or telecommunication equipment. The provisions of subsection (4) of this section shall be complied with in conducting emergency meetings. Complete minutes of such emergency meetings specifying the nature of the emergency and any formal action taken at the meeting shall be made available to the public by no later than the end of the next regular business day.

(6) A public body may allow a member of the public or any other witness other than a member of the public body to appear before the public body by means of video or telecommunications equipment.

§84-1412. Meetings of public body; rights of public; public body; powers and duties (1) Subject to the Open Meetings Act, the public has the right to attend and the right to speak at meetings of public bodies, and all or any part of a meeting of a public body, except for closed sessions called pursuant to section 84-1410, may be videotaped, televised, photographed, broadcast, or recorded by any person in attendance by means of a tape recorder, camera, video equipment, or any other means of pictorial or sonic reproduction or in writing.

(2) It shall not be a violation of subsection (1) of this section for any public body to make and enforce reasonable rules and regulations regarding the conduct of persons attending, speaking at, videotaping, televising, photographing, broadcasting, or recording its meetings. A body may not be required to allow citizens to speak at each meeting, but it may not forbid public participation at all meetings.

(3) No public body shall require members of the public to identify themselves as a condition for admission to the meeting nor shall such body require that the name of any member of the public be placed on the agenda prior to such meeting in order to speak about items on the agenda. The body may require any member of the public desiring to address the body to identify himself or herself.

(4) No public body shall, for the purpose of circumventing the Open Meetings Act, hold a meeting in a place known by the body to be too small to accommodate the anticipated audience.

(5) No public body shall be deemed in violation of this section if it holds its meeting in its traditional meeting place which is located in this state.

(6) No public body shall be deemed in violation of this section if it holds a meeting outside of this state if, but only if: (a) A member entity of the public body is located outside of this state and the meeting is in that member's jurisdiction; (b) All out-of-state locations identified in the notice are located within public buildings used by members of the entity or at a place which will accommodate the anticipated audience; (c) Reasonable arrangements are made to accommodate the public's right to attend, hear, and speak at the meeting, including making a telephone conference call available at an instate location to members, the public, or the press, if requested 24 hours in advance; (d) No more than 25% of the public body's meetings in a calendar year are held out-of-state; (e) Out-of-state meetings are not used to circumvent any of the public government purposes established in the Open Meetings Act; (f) Reasonable arrangements are made to provide viewing at other instate locations for a videoconference meeting if requested fourteen days in advance and if economically and reasonably available in the area; and (g) The public body publishes notice of the out-of-state meeting at least 21 days before the date of the meeting in a legal newspaper of statewide circulation.

(7) The public body shall, upon request, make a reasonable effort to accommodate the public's right to hear the discussion and testimony presented at the meeting.

(8) Public bodies shall make available at the meeting or the instate location for a telephone conference call or videoconference, for examination and copying by members of the public, at least one copy of all reproducible written material to be discussed at an open meeting. Public bodies shall make available at least one current copy of the Open Meetings Act posted in the meeting room at a location accessible to members of the public. At the beginning of the meeting, the public shall be informed about the location of the posted information.

§84-1413. Meetings; minutes; roll call vote; secret ballot; when (1) Each public body shall keep minutes of all meetings showing the time, place, members present and absent, and the substance of all matters discussed.

(2) Any action taken on any question or motion duly moved and seconded shall be by roll call vote of the public body in open session, and the record shall state how each member voted or if the member was absent or not voting. The requirements of a roll call or viva voce vote shall be satisfied by a municipality, a county, a learning community, a joint entity created pursuant to the Interlocal Cooperation Act, a joint public agency created pursuant to the Joint Public Agency Act, or an agency formed under the Municipal Cooperative Financing Act which utilizes an electronic voting device which allows the yeas and nays of each member of such city council, village board, county board, or governing body to be readily seen by the public.

(3) The vote to elect leadership within a public body may be taken by secret ballot, but the total number of votes for each candidate shall be recorded in the minutes.

(4) The minutes of all meetings and evidence and documentation received or disclosed in open session shall be public records and open to public inspection during normal business hours.

(5) Minutes shall be written and available for inspection within ten working days or prior to the next convened meeting, whichever occurs earlier, except that cities of the second class and villages may have an additional ten working days if the employee responsible for writing the minutes is absent due to a serious illness or emergency.

§84-1414. Unlawful action by public body; declared void or voidable by district court; when; duty to enforce open meeting laws; citizen's suit; procedure; violations; penalties (1) Any motion, resolution, rule, regulation, ordinance, or formal action of a public body made or taken in violation of the Open Meetings Act shall be declared void by the district court if the suit is commenced within 120 days of the meeting of the public body at which the alleged violation occurred. Any motion, resolution, rule, regulation, ordinance, or formal action of a public body made or taken in substantial violation of the Open Meetings Act shall be voidable by the district court if the suit is commenced more than 120 days after but within one year of the meeting of the public body in which the alleged violation occurred. A suit to void any final action shall be commenced within one year of the action.

(2) The Attorney General and the county attorney of the county in which the public body ordinarily meets shall enforce the Open Meetings Act.

(3) Any citizen of this state may commence a suit in the district court of the county in which the public body ordinarily meets or in which the plaintiff resides for the purpose of requiring compliance with or preventing violations of the Open Meetings Act, for the purpose of declaring an action of a public body void, or for the purpose of determining the applicability of the act to discussions or decisions of the public body. It shall not be a defense that the citizen attended the meeting and failed to object at such time. The court may order payment of reasonable attorney's fees and court costs to a successful plaintiff in a suit brought under this section.

(4) Any member of a public body who knowingly violates or conspires to violate or who attends or remains at a meeting knowing that the public body is in violation of any provision of the Open Meetings Act shall be guilty of a Class IV misdemeanor for a first offense and a Class III misdemeanor for a second or subsequent offense.

Revised August 2013

NDE/ESUCC Collaboration Meeting Agenda

LPS Administration Building

April 3, 2019

Attendance:

ESU Administrators: 1 (Bill Heimann), 2 (Ted Deturk), 3 (Dan Schnoes), (Gregg Robke), 5 (Brenda McNiff), 6 (Dan Shoemake), 7 (Larianne Polk), 8 (Bill Mowinkel), 9 (Joe Haney), 10 (Melissa Wheelock), 11 (Greg Barnes), 13 (Laura Barrett), 15 (Paul Calvert) 16 (Deb Paulman), 17 (Geraldine Erickson), 18 (Liz Standish), 19 (Connie Wickham)

NDE Leaders: Matt Blomstedt, Deb Frison, Dean Folkers, Mark Schultz, Cory Epler, Russ Masco, Lane Carr, Diane Stuehmer, Ryan Foor, Brian Halstead, Shirley Vargas, SuAnn Witt, Don Loeske, Brad Conner, Eric Zeece, Pat Madsen

ESUCC Staff: David Ludwig, Deb Hericks, Scott Isaacson, Beth Kabes, Priscilla Quintana, Craig Peterson, Rhonda Eis

ESUPDO & Initiative Representatives:
PD Planning , SDA (Julie Downing - DL), TLT (BJ Peters (DL),Eileen Barks), ESPD (Jean Anderson), NOC (Jamen Hall), BlendED (Beth Kabes), Data (Russ Masco)

10:00-10:15 Networking and Conversation - Dave

- Find your table (a mix of ESUCC and NDE, department, and expertise at each table)
- 4-6 at a table, need 9 tables

10:15-10:30 Group Norming - Shirley Vargas/Lane Carr

- Are you where you need to be?
- **Meeting Norms: CourageRenewal-CircleOfTrust-Touchstones-stones**
    - Give and Receive Welcome
        - Important to feel welcome
    - Be Present as fully as possible
        - Try to be present as possible
    - What is offered in circle is by invitation, not demand
    - Speak your truth in ways that respect other people's truths
    - No fixing, saving, advising or correcting
        - Reign in thought and behavior - live in the moment
    - Learn to respond to others with honest open questions
        - Respect thy neighbors, quiet
    - When the going gets rough, turn to wonder
    - Attend to your own inner teacher

        - Tap your inner teacher
    - Trust and learn from silence
    - Observe deeply and confidently
    - Know that it is possible
        - It is possible

10:30 - 11:00 MOU

http://www.couragerenewal.org/PDFs/CourageRenewal-CircleOfTrust-Touchstones-stones-(c)2016-web.pdf

- Facilitators: Matt and Dave with Karen and Brian
    - Discussing, communication
    - Leap of faith - needed to create structures, functions
    - 10 years - new people, new vision
        - Only one administrator left from when Matt Blomstedt was the ESUCC Exec Director
        - NDE turn over of people
        - Today is about the possible
- Historical perspective
    - Purpose (Why)
        - No structure, functions
        - What is the common work
        - Rule 84 - to meet twice a year to communicate, discuss
            - Creation of MOU
        - Not everyone was present in October for that work. Important for each table to have deep conversations to move forward.
    - How and why the MOU was originally created
        - Created to show our collaborative work
        - Review data - what schools need
        - How we can be the most impactable for our schools
    - Work done on the MOU since its inception
- Revision/Update process
    - Reflect on Oct. 2018 outcomes
    - DRAFT of MOU
- Alignment of MOU with current and future action plans
    - NDE Strategic Plan
    - Bold Steps
    - PDO Work Groups
    - **Feedback from group on draft: (1) Item D, make it accreditation/continuous improvement, and F make it AQuESTT and School improvement**
- Next Steps

11:00 - 12:15 Review Oct Outcomes

- Who were the stakeholders (5)
    - Facilitator: Dave

- Link to 2018 NDE/ESUCC Collaboration Report, see page 2
- Group time:
  - When we do this again, who/what stakeholders (no names necessary) should attend again?
    - Do we have the right people at the table?
    - Who are we missing?

  - Who were we missing?
  - Table 1: No higher ed is present, different stakeholders attended both meetings (inconsistent attendance), How are the stakeholders identified (NDE specifically), should there be school district representation,
  - Table 2 No Higher education- post-secondary;- possibly invite Dr. Nick Pace, UNL; early childhood learning regional coordinators
  - Table 3 - School district representation
  - Table 4 Were we missing higher Ed? Do we have enough representation to address the perspective of each AQuESTT tenet? Someone from teacher certification (specifically to address teacher retention/shortage issues)
  - Table 5 Post secondary education
  - Table 6 maybe not missing but continuity of participants- same people over the course of the meetings
  - Table 7 Jeremy Heninger, Jen Utemark
  - Table 8 District/ representatives (diverse in size and locations)
    - The reality is the group represents a diverse perspective in so many different fronts… a key is to consider the outcomes and purpose to determine the right stakeholders. There may be opportunities to engage additional stakeholders (e.g., business and industry or public sector state agencies … Dept of Health and Human Services, Department of Labor, etc., also consider higher education and coordination/alignment of these areas… at the very least educator/leader preparation.)
  - Table 9: District/school/teacher representatives (thinking about the historical perspective of the ESU, address areas of needs of districts, inclusion of teacher voice) Professional Associations such as, NSEA, State Literacy Association, NRCSA, check for overlap of different initiatives such as the cadres.
  - Zoom: At the affiliate level, we feel there is adequate communication and collaboration, even if that isn't reflected in the attendance at ESUCC meetings. I.e: Russ Masco at SDA Strategists, ESPD/NDE Conference calls, Dorann Avey with TLT

- Which Data was used to determine priorities (10)
  - Facilitator: Russ
  - Link to 2018 NDE/ESUCC Collaboration Report, see page 3
  - Data Cadre is a resource for each priority group later in the day
  - Later...What additional data is required? Each priority group will be identifying data.
    - Table 1: ESU Service Plan, (in-common services, unique services), general student achievement data, specifically disaggregated student data, Priority plans and what they have in common, Needs Improvement schools and their goals and

priorities, CSI and TSI school list, the MOU is not measurable (too many items, use the action plans instead?)

- Table 2 - process to create specific data that is looked at all areas; ;root causes;; teacher shortage report;; SPED data; early childhood data, specific groups of students to address equity issues;; Rule 10 review feedback
- Table 3 - National trends or other state data to compare; occupational/job data and how that impacts school programming.
- Table 4- Data needed-What are we doing new and different to support the needs improvement schools? What are we doing with needs improvement and CSI schools that respects the local context and culture of the school (avoiding a one size fits all model for improvement). Work group on statewide inventory of ESU services- this is available but not widely disseminated.
- Table 5 - Connecting the data from all sources and what we can learn from it, what's important?
- Table 6 ESU Service Plans (reports from SIMPL) CSI/TSI school data--looking at the bubble schools and how can we help those schools. Also data from our schools that are Excellent -how can we learn from them.
- Table 7 How do we connect the broad categories of priority to the actual work in schools. It will be important that the collaborative work of NDE/ESU is targeted to the needs of schools
- Table 8 -- The data did not really include any context around the data that was a part of the process. Seemed like the quantitative data was missing context or comparisons or benchmarks. Missing SPED data and early childhood data… There was a part of the process that the data was overwhelming and not a clear purpose about the reasons for the use of the data. In the future… it might be helpful to have interim updates or review or sharing of progress of the work vs. trying to recall the conversations. It may have also been an approach to have a small group focus on the depth of a data set and "drill down" to identify the meaning and nuances of the data as well as what data points may be missing, etc. The purpose of this would be to create a deeper value to the use of the data for prioritizing the potential work.
- Table 9 - While student achievement data may have been used, it is important to provide access to ESUs to school and district level achievement data in advance to anticipate support to schools, Potentially add: EBA data disaggregated by tenet, CSI Needs Assessment data and trends, NSCAS data, NWEA MAP data,
- Zoom: there seems to be ample data: SIMPL. Data seems to be more consistent with using SIMPL; Early childhood-no data currently collected and they really aren't represented at ESUCC or in affiliate groups ; we have a lot of data sources, but it isn't directed at a specific ESUCC goal. Are all bold steps aligned with these data sources?

- What were the Priorities (10)
  - Facilitator: Larianne
  - Link to 2018 NDE/ESUCC Collaboration Report, see page 6
  - Solo time: Read through the section.
  - Discuss as a table group.
  - Clarification? Questions?

        - Table 1: curious accreditation/school improvement was so low, funding was the highest but how will this group resolve the priority
        - Table 2 - the MOU generally describes the partnership; the structures are the action plans describing the work; ;look into Rule 84 and start conversation of standards for ESUs
        - Table 3 - funding that is protected, and goal focused either locally, regionally, or state.
        - Table 4- The structure of the MOU is a BIG priority according to the data. Looking at data this time of year, teacher retention/ shortage has become a MUCH bigger priority as districts are experiencing a complete lack of applicants.
        - Table 5 - Why did SIMPL get such a low score? If it's not a priority, why are we doing it? The MOU needs improvement and clarification based upon the high score.
        - Table 6 How can we create an MOU that is specific and create actionables tied to analyzable data sources? With efficient funding.
        - Table 7 Not too interested in endless committees. Maybe an all encompassing MOU is not doable. Are there 2-4 actionable priorities that we could come together on
        - Table 8 A better MOU will provide for clearer understanding of the work and provide insights to the data areas for the future. The highest need and the highest scored items seemed to be a little out of order… It looks like the scores were added together after a sorting, but then not readjusted for the priorities.
        - Table 9 How can we make the data process better to inform the action planning step? The structure of the MOU action plan? Does it incorporate the 5 Bold Steps? What's possible and within our control? Accreditation/School Improvement were low on the list.
        - Zoom: We agree these are still priorities.

- What were the Theory of Action (10)
    - Facilitator: Larianne
    - Link to 2018 NDE/ESUCC Collaboration Report, see page 9
    - Solo time: Read the section
    - Discuss as a table group.
    - Clarification? Questions?
        - Table 1: These theories specifically for funding seem more like advocacy and not as much. Could there be more discussion as to how the current resources are allocated. How can ESUs and NDE work together on accreditation and define NDE/ESUs in the role of school improvement. More articulation.
        - Table 2 - picking two or three areas to focus on and frame them in the Bold Steps piece; do data review on them and then assign the work
        - Table 3 - restructure funding and services maybe even at the state level; teacher mentoring is needed for better retention. Possible restructuring of ESUs and how services are distributed. Some are already consolidating efforts. More effective use of online collaboration or delivery of service.
        - Table 4- An MOU is a conceptual framework. An action plan is how we are going to make steps toward those concepts. Are we expecting the MOU to do too much? Should we have an action plan that is separate from the MOU?

        - Table 5 - Teacher retention - survey current college students as to why they are not going into education not just those already in education or leaving the field.
        - Table 6- MOU needs to reflect the vision of where we need to be going.
        - Table 7 Need to agree on statement of purpose. What are the priorities of the education system in Nebraska. The priorities seem random and disparate in size
        - Table 8 The quality of applicants is more important than the quantity… There are several suggestions, but several are missing… There also seemed to be a lack of clarity around the problem in order to create the theory of action. Is this an opportunity to identify the root cause and then create a theory of action to address that… including the subsequent work associated with action planning, etc.
        - Table 9 - Actions need to include person(s) responsible, maybe forming teams for actions is the most important starting point
        - Zoom: Joint legislative efforts and a unified voice in funding need to continue in a time of limited resources; data-priorities may need to come from NDE, not exclusively from ESU level to ESUCC and NDE; structure-MOU isn't an action plan, so identifying responsibilities isn't always possible. Shared leadership can help create action plans to implement the MOU;
- Crosswalk
    - Facilitator: Dean (10)
        - Alignment to work that we do
    - Link to 2018 NDE/ESUCC Collaboration Report, see page 11
    - Solo time: Read the section
    - Discuss as a table group.
    - Clarification? Questions?
        - Table 1: Funding=add student success and access as well as teaching and learning, Teacher Retention=add student success and access, may be helpful to have a list or link to the strategic priorities
        - Table 2 - continuous improvement is under each of them; how do all the groups work together; need to be prioritized
        - Table 3 - How do the different groups (NDE, ESUCC, PDO) work together to address each category? There could be competitive factions at work rather than collaborative efforts to achieve the same goal. If the "barge" is teacher retention, how does each "tug boat" (NDE, ESUCC, PDO) move the barge down the river?
        - Table 4 The behavioral mental health being linked to funding- does that relate to 2018 legislative session and the bill to fund a social worker at each ESU?
        - Table 5 - same comments as table 8
        - Table 6 Chart identifies how the work is connected in and between NDE, ESUCC, and ESUPDO. How can we be better at meaningful collaboration and not duplication of work but streamlining the work in order for our schools to not be like Octopus Arms- but have a Laser LIke Focus.(Pat Roschewski)
        - Table 7 This chart identifies the connections between existing priorities and the actual work out in districts. The question is how to NDE and ESUs work in collaboration to ensure outcomes for schools. What efforts are being duplicated?
        - Table 8 What would be nice for the document to include clarity of what each of the "bold step" committees are targeting or working to achieve. In addition, the clarity around the Nebraska State Board of Education goal areas … and the potential work of the department implementation planning. What current planning and support work should also inform the analysis and potential

duplicated of work and effort. What about a connection to the ESUCC Committee structure (e.g., Technology, PD, Budget, Exec, etc.) and the outcomes and discussions associated with these monthly meetings?
    - Table 9 how do the three areas (NDE, ESUPDO, and 5 Bold steps) interact with one another? How do we prioritize each category given the prioritize section completed earlier and the overlap of each group?
    - Zoom: this chart would be a valuable tool for taking this back to affiliates to connect the MOU with the work of the workgroups and understand the connections to the bold steps and NDE strategic plan. It might also be valuable to add an affiliate column to elaborate on that connection.

- Priority Plan Proposals (10)
    - Facilitator: Russ
    - Priority Plan and Purpose
        - Measurable
        - Actionable, and outcome focused
        - Components, link to the template

12:15 - 12:45 Lunch

12:45 - 2:00 Priority Plans

- Facilitator: Russ and Larianne
- There were 9 Theories of action.
        - Funding
            - Liz Standish
            - Mark Shultz
            - Jamen Hall
            - Eric Zeece
        - Structure of the MOU/Action Plan & Data for the MOU/Action Planning Meetings in the Future
        -
            - Ryan Foor
            - Brian Halstead
            - Dean Folkers
            - Dan Schnoes
        - Teacher Retention
            - Ted DeTurk
            - Bill Heimann
            - Laura Barrett
            - Geraldine Erickson
            - Greg Barnes
            - Pat Madsen
        - Early Childhood
            - Brenda McNiff

            - Joe Haney
            - Connie Wickham
            - Melissa Wheelock
            - Jean Anderson
        - Instructional Support Systems
            - Rhonda Eis
            - Gregg Robke
            - Scott Isaacson
            - Craig Peterson
            - Russ Masco
        - BlendEd
            - BJ Peters
            - Eileen Barks
            - Beth Kabes
            - SuAnn Witt
        - Instructional Model and Teacher/Principal Evaluation
            - Julie Downing
            - Deb Paulman
            - Diane Stuhmer
        - Accreditation/School Improvement
            - Brad Conner
            - Shirley Vargas
            - Deb Frison
            - Don Loeske
            - Larianne Polk
    - Priority on posters on the walls.
    - Choose an area you want to be a part of
        - No more than 5 to a group (please evenly distribute)
        - Write your names on the poster
        - Name a Facilitator
        - Find a table/place to work
    - Go to the Action Plan template
    - Complete the items in the plan

2:00 - 2:30 Next Steps

- Facilitator: Dave
- NDE and ESUCC will review the priority plans for feasibility
    - Criteria: Partnerships, human capital resources, fiscal needs, contract possibilities, etc.
    - They will notify the Team Facilitator regarding the decision
- Priority Plan teams meet as necessary to accomplish work
- Planning for October Data Dig begins this summer
    - Will compile the Data Necessary as described in the priority plans
    - Other hot issue data will be additional
        - Native American Schools data
        - CSI, NI, and Priority areas of focus
        - Nebraska Leadership and Learning Network data
        - NEP data
- Timeline moving forward
    - July: NDE/ESUCC Leadership approve priority plans and notify team members

- September: PDO review of timeline and priority plans
- October Data Dig: Qualitative and Quantitative
- November: Any new priorities defined
- December: PDO, New priority plans written for approval by NDE/ESUCC, update priority plans

Meeting adjourned at 1:55 PM

Educational Service Unit Coordinating
Council Regular Meeting
April 3, 2019 at 8:00 AM
Central LPS Admin. Bldg.
5905 O Street
Lincoln, NE 68501

Attendance Taken at 8:00 AM.

Heimann ESU 01:	Present
DeTurk ESU 02:	Present
Schnoes ESU 03:	Present
Robke ESU 04:	Present
McNiff ESU 05:	Present
Shoemake ESU 06:	Present
Polk ESU 07:	Present
Mowinkel ESU 08:	Present
Lofquist ESU 09:	Absent
Wheelock ESU 10:	Present

Petitions and Communications to the Board

NDE Update - Flood Support

Commissioner Blomstedt was present to discuss the floods that happened in NE. He shared how they assessed the damage and responses to those schools/staff in needed. FAQs are on the NDE website they might help answer some questions. Instructional time, there is a form in Rule 10 that schools can be filled. The State Board will discuss what the processes will be. Some things discussed, DL Education, different site, etc. Schools needed to make decisions based on the well-being of students (safety, roads, etc) Need to create protocols for disasters. Schools need to declare students that are homeless/displaced so that they can tell who was impacted. Guidance from Fed. Department of Ed on how to use data to get aid resources, etc. There are grants available for mental and behavioral health. Can ESUs help administer these grants? If we know of impacted schools from facilities (track, football fields, parking lot) funds are available. Students are coming from other state schools (ie:: Hamburg, IA) do not account for accountability pieces but we can declare them homeless/displaced. Do not know of dollars around schools that ESUs help. Impacting Services - couldn't get the staff to schools to provide services - used some DL. Is there something that we can put into the file about the situations (IEPs, etc) Document the impact of services. Impact on maintenance of effort logs, continue to discuss the flexibility on this, to be discussed with Fed Dept. of Ed. Can't get students to attendance centers with not being able to get students to those facilities with no way to get there (bridges out). Bus routes are being re-designed to accommodate the students. Sheriffs declaring no travel on back roads, can boards override to take those roads. Schools would be liable. NDE continue to try and work this out. Extension of testing window – two-week extension for impact schools. Will NDE issue a guidance letter for guidance to take an average of hours for seniors in high school to get the needed hours. Grateful to the support of all the ESUs and their help getting schools support that they need. Schools on Spring Break, teachers/staff were out helping in shelters, etc. Local efforts were outstanding.

Smart Sheet Demo
Technology Director was present to give a Smart Sheet Demo of activities across the state. He gave a demo of how we are using for the Innovation Grant. Smartsheet is a software to be used for collaboration and work management. It is used to assign tasks, track project progress, manage calendars, share documents, and manage other work. It has a spreadsheet-like user interface. Possible to set up a Smartsheet like this to show the collaboration with ESUCC, NDE, ESUs, PDO, Affiliates, Work Groups, etc to show the alignment of the State Board and ESUCC goals.

State Board of Education and Nebraska Department of Education Report

Russ Masco shared the Talking Points, we are waiting on information on the AWARE Grant and MTSS Facilitator Grant. We are hoping to get these on a future talking point.

Professional Learning Opportunity: Leading Instructional Change
Discussion on the email sent out by Corey Epler on Professional Learning Opportunity: Leading Instructional Change. Russ Masco will try and get us more information on this discussion.

Association of Education Service Agency's Report
Leadership Conference in Long Beach, CA in mid-July.

Learning Community Update
Not present.

Executive Reports
Executive Director Report
Executive Director shared updates on bold steps. Redesign update meeting will be in May 6 from 2-4PM at ESU 10.

ESUCC Redesign: Update

ESU Standards

Need to schedule a meeting.

Joint Decision Making Parameters
Committee has not met since last meeting.

SIMPL Inventory
SIMPL Inventory next meeting will be on April 12, 2019 at 10:30AM.

Value-Add Metric
Pilots are putting together the value added sheets to be put into SIMPL. Discussion on how to enter data. Deadline has been moved to April 14, 2019.

Value Proposition
Nothing new to report.

Executive Committee Report
ESUCC Committee Re-Structure
Executive Committee met and discussed a timeline transition. They are also planning an Executive Committee retreat in June. Discussion on what committees will bei n the future, Exec Committee structure, committee structure. Paul Calvert is the longest standing ESU Administrator, could possibly fill the past president, we will also need to fill the other position. Larrianne will be the President, Dan Schnoes would offer to be President Elect, Geraldine Erickson possibly to be the Treasurer, will need someone to fill the Secretary role. Discuss and vote in May. Take a look at the ESUCC Committee Re-Structure. Chair Elect reviewed this document with the Board. Working to become a more effective, efficient board. Discussion on making committee meeting agenda one long running agenda so that can begin when one finishes.

Public Comment
There no public comment.

Recommendations from Standing Committees and Project Reports
Finance, Audit, Budget Committee

Committee Chair shared discussions in committee. Discussion on possibly adding SIMPL and AESA Dues into the MSA. Working on MOU with NDE. The final report from State Audit is ready for approval in May. Committee discussed the NROC contract, and will bring forward a motion that if NDE does not provide the funding we will not renew the contract with NROC. Committee discussed options for schools if ESUCC does not renew the contract with NROC.

Approve Claims, Financials Statements, and Assets for Month of February
Committee Chair reviewed reports for claims, financials statements, and assets for month of February

Approve Claims, Financials Statements, and Assets for Month of February Passed with a motion by Schnoes ESU 03 and a second by Erickson ESU 17.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 16, Nay: 0

Approval of March Expenses to be paid in April.
Committee Chair reviewed March expenses to be paid in April.

Recommend motion to approve March expenses to be paid in April Passed with a motion by Schnoes ESU 03 and a second by Polk ESU 07.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea, Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 16, Nay: 0

Technology Committee
Committee Chair shared discussions in Committee. Discussion on Powerschool for those schools who are not part of the consortium and who supports them. Update on the committee that will help with the LR264 study will be ESU 1 (Bill Heimann), 9 (Gary Needham), 10 (Ron Cone), ESUCC (Scott Isaacson.)

Approve TLT Budget Requests
Discussion on TLT Budget requests for 2019-2020.

Recommend Approval of TLT Budget request for 2019-20 Passed with a motion by DeTurk ESU 02 and a second by Wickham ESU 19.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea, Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 16, Nay: 0

Cooperative Purchasing Project
Committee Chair shared discussion in committee. They will begin discussions with other states to join. Annual Buy sales have increased for this year. Discussion on vendor who do substandard work and how to get them removed from our vendor list.

Approve Special Buy contract with Innovative Office Solutions Committee
Chair shared discussion on contract for Innovative Office Solutions.

Approve upon a favorable review by ESUCC appointed Attorney, Special Buy contract with Innovative Office Solutions Passed with a motion by Mowinkel ESU 08 and a second by Wheelock ESU 10.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea, Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 16, Nay: 0

Approve Special Buy contract with Edgenuity/Odysseyware
Approve upon a favorable review by ESUCC appointed Attorney, Special Buy contract with Edgenuity/Odysseyware. Passed with a motion by Mowinkel ESU 08 and a second by Calvert ESU 15.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea, Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 16, Nay: 0

PD Leadership Committee
Committee Chair shared discussions on the NLLN, still lot of questions on this committee. Working to get what our responsibilities are in the development process, update to come in May. Talking points are listed in committee, please review and send questions/concerns. Brad Giese will be the presented for PDO in May.

Committee Chair reviewed the PDO Budget requests for PDO for 2019-2020.
Approve PDO Budget requests in the amount of $4,239 for the 2019-2020 MSA Passed with a motion by Polk ESU 07 and a second by Mowinkel ESU 08.
Heimann ESU 01: Yea, DeTurk ESU 02: Yea, Schnoes ESU 03: Yea, Robke ESU 04: Yea, McNiff ESU 05: Yea, Shoemake ESU 06: Yea, Polk ESU 07: Yea, Mowinkel ESU 08: Yea, Wheelock ESU 10: Yea, Barnes ESU 11: Yea, Calvert ESU 15: Yea, Paulman ESU 16: Yea, Erickson ESU 17: Yea, Standish ESU 18: Yea, Wickham ESU 19: Yea.
Yea: 15, Nay: 0

Special Populations Committee
Committee Chair shared survey results that ESPD sent out on Fairbanks/MIPS random time collection and MTSS services. Link to survey in committee agenda. Will discuss again in May, ESPD will be discussion at their meeting in May. SRS will be transition to new framework in July.

Legislative Committee
Legislative Committee met and discussed, things are fairly quiet. Bromm's were unable to attend as he needed to remain on the floor of the senate. Continue to have discussion with senators on how we can benefit them and ourselves. NCSA Coalition continue to meet. We will continue to provide testimony when needed. Next year Legislative Day will be on February 12, 2020.

NEW ESU Chief Administrators
Went through AdvancED visit, have any one utilized a strategic planning process that works

well? No answers. Discussion on continuing with AdvancED or looking at other. Frameworks, AdVancEd were discussed. Many are making the move to Frameworks. Ongoing discussion with AdvancEd.

Recess ESUCC/NDE Collaboration Meeting - April 3, 2019
Recess to NDE/ESUCC Collaboration meeting at 10:05am.

Adjournment
Meeting adjourned at 1:55PM.

To lead and support the preparation of all Nebraskans for learning, earning, and living.

2017-2026 STRATEGIC VISION AND DIRECTION

Nebraska State Board of Education and Nebraska Department of Education

12/02/16

Nebraska State Board of Education

The State Board of Education is an elected, constitutional body that is the policy forming and evaluative body for the state school program (79-301(2) R.R.S.) in addition to ensuring the State Department of Education functions effectively within the framework developed by the state Legislature and the Board. The Board is elected on a non-partisan ballot, with one member from each district. Board members serve four-year terms.

District 3: Rachel Wise, President
District 1: Lillie Larsen, Vice President
District 2: Glen Flint
District 4: John Witzel
District 5: Patricia Timm
District 6: Maureen Nickels
District 7: Molly O 'Holleran
District 8: Patrick McPherson

Nebraska Department of Education

The Nebraska Department of Education (NDE) is a constitutional agency comprised of services, programs, Vocational Rehabilitation (Nebraska VR), and Disabilities Determination Section (DDS). The NDE operates under the authority of an elected State Board of Education (Board) and the Commissioner of Education (Commissioner). The NDE is organized into teams that carry out the duties assigned by state and federal statutes and the policy directions of the Board. Teams are organized around distinct functions and responsibilities that encompass leadership and support for Nebraska's system of early childhood, primary, secondary, and postsecondary education; direct services to clients; and internal support to the agency.

The NDE carries out its duties on behalf of Nebraska students and parents involved in public and nonpublic school systems. The NDE staff interacts with schools, parents, businesses, community partners, and institutions of higher education to develop, coordinate, and improve educational programs and services.

Commissioner of Education: Matthew L. Blomstedt, Ph.D.

Strategic Vision and Direction – 2017-2026

Introduction

In January of 2016, the Board and the NDE initiated the development of a Strategic Plan to guide the vision and direction of education in Nebraska for the next ten years. Nebraska's Strategic Plan to be known as ***Nebraska Quality Education Systems for Today and Tomorrow (NEQuESTT)*** represents the evolution of a philosophical and practical approach to supporting education in Nebraska. This commitment unifies and strengthens positive outcomes for each and every Nebraskan through bold and achievable goals. ***NEQuESTT*** not only outlines the critical needs and strengths within the system, but also reflects innovative approaches to ensure each Nebraskan has equitable access to opportunities and are ready for success in postsecondary, career, and civic life. ***NEQuESTT*** is the educational journey that puts forth a new vision and bold agenda for the system of education in Nebraska. This vision will require new and different ways of working together, stretching beyond the status quo, and engaging stakeholders through collaborative processes. The strategic plan defines a direction for accountability and a system of services and supports without losing sight of the importance of ensuring compliance with state and federal policies.

NEQuESTT guides the Board and the NDE to address some of the most urgent priorities within Nebraska. With an intentional and comprehensive focus on ensuring a reduction in educational inequities for the most vulnerable populations, this strategic plan directs focus on student- or client-centered outcomes, high quality opportunities, and a strong system of support **for every student, every day**.

NEQuESTT and AQuESTT

NEQuESTT aligns with Nebraska's accountability system, Accountability for a Quality Education System Today and Tomorrow (*AQuESTT*). The six critical tenets of *AQuESTT* holistically address accountability and quality education in Nebraska. Originally designed to meet statutory accountability requirements, AQuESTT has quickly grown beyond and guides the NDE and its work.

AQuESTT provides a fundamental focus on achievement and opportunity gaps and ensures strategies produce equitable outcomes for each and every learner. As a result, ***NEQuESTT*** includes goals with benchmarks that measure disaggregated data to ensure equity and access.

Roles:

In order to support strategic priorities, a suite of approaches is utilized that reflects the nuance of the work and the many stakeholders, systems, and partners that intersect to support a state education system. The various roles are:

Champion - NDE actively leads the strategic vision, goals, and policy direction to support learning, earning, and living by:

- Engaging key stakeholders and partners on emerging needs in the educational landscape and corresponding policy advocacy approach
- Exercising policy leadership and proactively engaging and partnering with the Unicameral and Governor on priority issues
- Advocating for necessary resources to meet needs and/or address issues to execute the vision

Regulator - NDE leverages policy authority to ensure delivery of high-quality, equitable education and services, beyond compliance with state and federal regulations by:

- Assuring access to fair, equitable, and high-quality education and services
- Monitoring school and districts to ensure adherence to regulations and setting expectations beyond compliance for accountability and growth in learning
- Promoting best practices for leadership and using data and resources to ensure effective continuous improvement

Capacity Builder - NDE directs technical assistance and professional development opportunities and promotes the sharing of best practices by:

- Providing technical assistance and professional development opportunities for educators, staff, and community providers
- Actively engaging with priority and needs improvement schools as well as continuing to support the improvement of all schools
- Identifying schools and districts across the state with effective educational practices to gather data on successful practices
- Acting as a facilitator to connect schools to highlight learnings, share lessons learned, and communicate best practices
- Developing, maintaining, and leveraging strong working relationships with education and community partners to extend and enhance capacity across the state

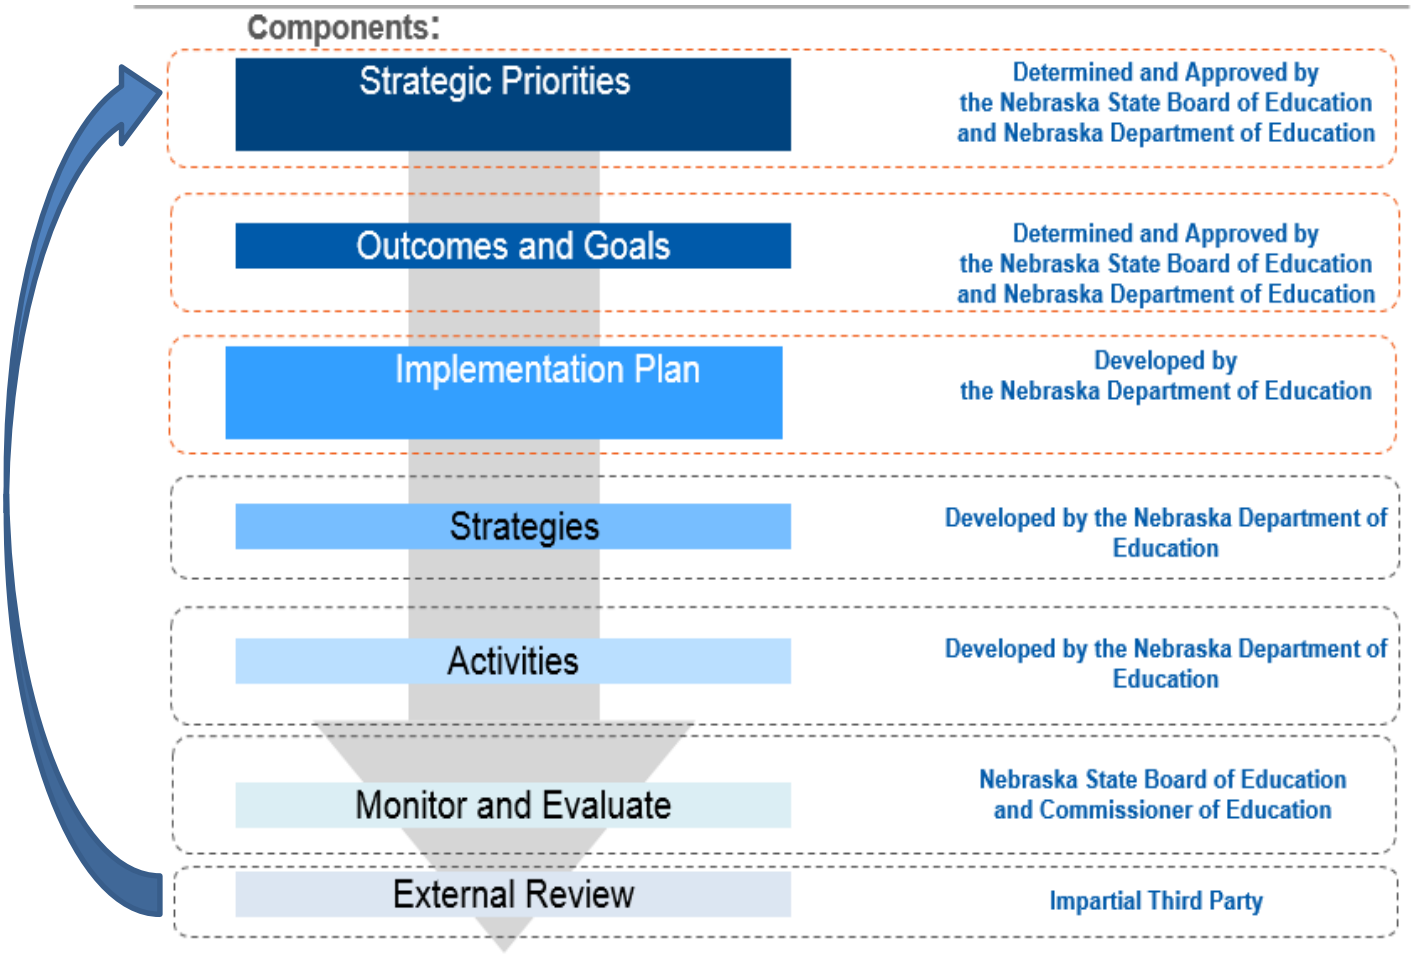
Connector - NDE helps bridge the divide between learning, earning, and living, connecting schools, families, business, and communities by:

- Connecting, convening, and partnering with schools, businesses, out-of-school programs, postsecondary education, state agencies, and community providers to create a more comprehensive approach to education and service delivery
- Supporting other agencies and organizations in active engagement and relationship building amongst individuals, parents, and families

Change Agent - NDE explores and supports promising new innovations by:

- Researching, promoting, and providing support for promising new initiatives and innovations in education across the state and nation (e.g., promising activities in rural areas, blended learning, personalized learning, adult basic education)
- Providing ongoing training, support, and resources to drive the adoption of new practices and to assure implementation

Strategic Direction:



To realize the new strategic vision it can no longer be business as usual.

	FROM	TO
ORGANIZATIONAL STRUCTURE	• Organizational structure primarily oriented around subject area silos • Decision-making authority mostly concentrated in hands of senior agency leadership	• More cross-functional, with collaboration and communication across teams • More distributed decision-making authority, where staff closer to the issue is empowered to make relevant decisions
PERSONNEL & STAFFING	• Staff with very specific skills focused primarily on content knowledge • Traditional focus on regulation and compliance	• Broader staff expertise, including both content knowledge and breadth of experiences (e.g., relationship building, background in business, work with underserved communities) • Focus on leadership, innovation, and learning
STAKEHOLDER ENGAGEMENT	• Sporadic engagement on an as-needed basis • Limited engagement with specific populations or cultural communities	• Consistent and tailored stakeholder engagement plans for specific audiences, allowing authentic relationships and dialogue to develop
DATA & SYSTEMS	• Limited publicly accessible data • Focus on accountability and compliance • Cumbersome website	• Readily available data for all stakeholders from an easy to use, up-to-date platform • Focus on performance management • User-friendly website and an online portal with lessons learned and best practices for practitioners

Moving Forward:

The Board has taken into account the multiple roles of the NDE in the development of this strategic plan and in the expectations set forth for the NDE. This recognition is coupled with the expectation of providing quality, equitable support through a multi-faceted system under the charge of the NDE. The shared responsibility of leadership between the Board and the Commissioner includes developing this plan, monitoring goals, and implementing strategies through the NDE's programs and supports for schools, students, systems and clients across the state. The Board carries out this strategic plan through direction to the Commissioner. The Commissioner has the responsibility to build an implementation plan that makes ***NEQuESTT*** a living document utilizing the aforementioned roles and strategic direction outlined for organizational structure; personnel and staffing; stakeholder engagement; and data and systems.

The strategic plan is multi-layered.

Operational Approach:

NEQuESTT provides a framework for measuring multiple levels and processes to ensure success through standard, quantifiable metrics, artifacts, and evidence-based analyses utilizing a three-tiered approach:

- **NDE Accountability** – Process, regulations, support, interagency collaboration, data systems, fiscal responsibility, and evaluation
- **Service Accountability** – Quality and success of services provided by the agency
- **District and School Accountability** – School and agency progress and improvement

Strategic Priorities, Outcomes, and Goals:

The Board and Commissioner will regularly review these goals as organized by the strategic priorities and outcomes. The NDE goals will include Commissioner and Board activities necessary to build the department's system of accountability and support for services and schools. The NDE will track progress on these goals and other metrics required by state and federal law. The Commissioner will annually report progress on these goals and other measures to report progress and performance to the Board.

Implement, Monitor, and Evaluate:

The Board and the Commissioner share the responsibility to:

- champion and lead the strategic vision and goals.
- serve as change agents and capacity builders.
- ensure progress on the strategic priorities.

The Board and the Commissioner will be responsible for implementing this plan including the development of strategies, and activities, and monitoring on an annual basis. A review will be presented by the Commissioner and appropriate NDE personnel annually or as directed. An objective external review of ***NEQuESTT*** will be conducted by an impartial third-party reviewer two years after adoption and thereafter as determined by the Board with results being presented to stakeholders.

MISSION

To lead and support the preparation of all Nebraskans for learning, earning, and living

GUIDING PRINCIPLES

NDE will:

- Create a dynamic vision that drives change through proactive leadership to support learning;
- Build connections amongst stakeholders to take action in support of success for all learners;
- Provide all Nebraskans significant opportunity to receive fair, equitable, and high-quality education and services to close achievement gaps;
- Allow all learners to achieve their fullest potential in transitioning through phases of school and into civic life;
- Ensure all educators are effective in instructional strategies and monitoring student progress using multiple measures of proficiency; and
- Prepare all learners to be college, career, and civic-ready.

STRATEGIC PRIORITIES

Ensure that all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success	Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life

OUTCOME STATEMENTS

Leadership

Provide leadership and high quality services in processes, regulations, interagency collaboration, data systems, fiscal responsibility and evaluation that enhance the success of educational systems in Nebraska.

Success, Access, and Support

Positive Partnerships and Student Success – Increase student, family, and community engagement to enhance educational experiences and opportunities.

Transitions – Provide quality educational opportunities for student success through transitions between grade levels, programs, schools, postsecondary institutions, and careers.

Educational Opportunities and Access – Ensure that all students have access to comprehensive instructional opportunities to be prepared for postsecondary education and career.

Teaching, Learning, and Serving

College, Career, and Civic Ready – Ensure every student upon completion of secondary education is prepared for postsecondary education, career, and civic opportunities.

Assessment – Use assessments to measure and improve student achievement and inform instruction.

Educator Effectiveness – Assure that students are supported by qualified/credentialed, effective teachers and leaders throughout their learning experiences.

Leadership

Strategic Priority: Ensure that all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success.

Strategic Priority: Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life.

Outcome Statement: Provide leadership and high-quality services in processes, regulations, interagency collaboration, data systems, fiscal responsibility, and evaluation that enhance the success of educational systems in Nebraska.

Goal 1.1 **By 2018, the NDE will be organized through personnel and processes to provide leadership in school support systems, regulations, interagency collaboration, data systems, fiscal responsibility, and evaluation that will enhance the success of educational systems in Nebraska.**

Goal 1.2 **By 2018, the Board and Commissioner will have a process in place to evaluate and ensure timely, high-quality services and systems of support provided by the Nebraska Department of Education.**

Goal 1.3 **By 2020, 100% of teachers, service providers, school leaders and local school board members will have access to quality professional learning opportunities through an NDE facilitated professional learning directory.**

Goal 1.4 **By 2020, the NDE will collaborate with the Governor, Legislature, postsecondary institutions, and the Educational Service Units (ESUs) to create a uniform process to align dual credit opportunities for students across the state.**

Success, Access, and Support

Positive Partnerships, Relationships, and Success

Strategic Priority: Ensure that all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success.

Outcome Statement: Increase student, family, and community engagement to enhance educational experiences and opportunities.

Goal 2.1 **By 2019, the NDE will develop a system to regularly engage and survey clients, schools, and stakeholders to gather input, and measure engagement and satisfaction.**

Goal 2.2 **By 2026, the dropout rate of all Nebraska students including subgroups will be less than 1%.**

Goal 2.3 **By 2026, 100% of Nebraska schools will have all students in grades 7-12 create and utilize a personal learning plan.**

Goal 2.4 **By 2026, there will be a reduction in the percentage of students who are absent more than 10 days per year from 27.46% to 15%.**

Success, Access, and Support

Transitions

Strategic Priority: Ensure that all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success.

Outcome Statement: Provide quality educational opportunities for student success through transitions between grade levels, programs, schools, postsecondary institutions, and careers.

Goal 3.1 **By 2018, a baseline and benchmarks will be developed to track all students with a disability having access to participate in career counseling, explorations, self-advocacy training, and work-based learning experiences.**

Goal 3.2 **By 2026, the 4-year cohort graduation rates for all Nebraska students will be greater than 92% and not less than 85% for any one subgroup.**

Goal 3.3 **By 2026, the 7-year cohort graduation rates for all Nebraska students will be greater than 95% and not less than 90% for any one subgroup.**

Goal 3.4 **By 2026, 100% of Nebraska schools will fully implement a systematic process for supporting the needs of highly-mobile students.**

Success, Access, and Support

Educational Opportunities and Access

Strategic Priority: Ensure that all Nebraskans, regardless of background or circumstances, have equitable access to opportunities for success.

Outcome Statement: Ensure all students have access to comprehensive instructional opportunities to be prepared for postsecondary education and career.

Goal 4.1 **By 2020, NDE will develop a statewide digital course and content repository.**

Goal 4.2 **By 2026, 85% of all Nebraska students, upon graduation from high school, will have completed Advanced Placement coursework, earned dual credit and/or obtained industry certification.**

Goal 4.3 **By 2026, 95% of Nebraska elementary schools would be able to identify at least one high-quality early childhood educational program accessible to all of the school's resident preschool age population.**

Teaching, Learning, and Serving

College, Career, and Civic Ready

Strategic Priority: Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life.

Outcome Statement: Ensure every student upon completion of secondary education is prepared for postsecondary education, career, and civic opportunities.

Goal 5.1 **By 2018, the State Board will adopt a comprehensive approach to define and measure civic readiness.**

Goal 5.2 **By 2020, all Nebraska elementary schools will provide evidence-based interventions for any students not on grade level in reading and/or math.**

Goal 5.3 **By 2026, 100% of Nebraska schools will provide all students with a program for career awareness, exploration, and preparation.**

Goal 5.4 **By 2026, at least 50% of all Nebraska high school students from any given cohort year, will have earned a college degree, credential, or certificate within five years of graduating from high school.**

Teaching, Learning, and Serving

Assessment

Strategic Priority: Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life.

Outcome Statement: Use assessments to measure and improve student achievement and inform instruction.

Goal 6.1 **By 2018, utilizing baseline data from the ACT, long-term goals will be developed for 11th grade achievement, including goals for subgroups.**

Goal 6.2 **By 2018, the NDE will implement an assessment system to measure achievement and growth in grades 3-8 that meets the requirements of federal and state law and is timely for instructional purposes.**

Goal 6.3 **By 2026, the percent of Nebraska students in grades 3-8 and 11 proficient in reading will increase from 79% to 89%.**

Goal 6.4 **By 2026, the percent of Nebraska students in grades 3-8 and 11 proficient in math will increase from 72% to 82%.**

Goal 6.5 **By 2026, the percent of Nebraska students in grades 3-8 and 11 proficient in science will increase from 72% to 82%.**

Teaching, Learning, and Serving

Educator Effectiveness

Strategic Priority: Increase the number of Nebraskans who are ready for success in postsecondary education, career, and civic life.

Outcome Statement: Assure students are supported by qualified/credentialed, effective teachers and leaders throughout their learning experiences.

Goal 7.1 **By 2018, NDE will develop and implement a statewide teacher equity plan.**

Goal 7.2 **By 2020, 100% of Nebraska schools will utilize performance standards and a research-based evaluation system for all certificated staff as aligned to Rule 10.**

Goal 7.3 **By 2022, 100% of Nebraska schools will be staffed by teachers who have or are actively pursuing a teaching certificate with the appropriate endorsement for the subject(s) and grade level(s) of the course(s) being taught.**

ACKNOWLEDGMENT

The Nebraska State Board of Education and the Nebraska Department of Education give special thanks to the many partners who have provided input in the development of this strategic plan. We also recognize and appreciate the grant support of the Peter Kiewit Foundation and the Sherwood Foundation. The NDE is excited to continue collaboration in leading and supporting the preparation of all Nebraskans for learning, earning, and living.

Educational Service Unit Coordinating Council
Executive Committee Meeting
May 7, 2019 at 11:00 AM Central
ESU No.10
76 Plaza Blvd
Kearney, NE 68845

1. Call to Order
Notice to visitors: To be heard at this meeting, the "Request to be Heard" form, must be completed and submitted to the Secretary to the Executive Director of ESUCC. The President of the Board of ESUCC will call upon visitors wishing to address the Board in the order they were submitted or by subject.
Pursuant to Section 84-1411 of the Nebraska Statutes, notice of this meeting was given by advertisement on the ESUCC website, NE Public Meeting site, and host site**.**

Open Meetings Law: Pursuant to Section 84 - 1412 of the Nebraska Statutes, the public is hereby informed that a current copy of the Nebraska Open Meetings Act is posted in this meeting room.

Closed Session:
The council may enter closed session during the meeting when it determines that doing so is appropriate and is authorized by the provisions of the Open Meetings Act.

Meeting called to order at 11:00 a.m.

2. Roll Call

3. Agenda Item

3.1. Approval of Salary and Benefits Package of ESUCC Employees for the 2019-2020 year.

It was noted that ESUCC employees are under ESU 17. Salaries will include a 3.7 increase for the 2019-2020 fiscal year.

Approval of Salary and Benefits at a 3.7 total Package increase for ESUCC Employees for the 2019-2020 year. Passed with a motion by Schnoes ESU 03 and a second by Polk ESU 07.

Schnoes ESU 03: Yea
Polk ESU 07: Yea

Lofquist ESU 09: Yea
Barrett ESU 13: Yea
Erickson ESU 17: Yea
Yea: 5, Nay: 0

3.2. Discuss and take all necessary actions to approve the Master Services Agreement between the ESUCC and each Educational Service Unit for the 2019-20 School Year.

Presented final MSA. Briefly discussed changes that had previously been made and what may need to change in the future.

Recommend to approve the Master Services Agreement between the ESUCC and each Educational Service Unit for the 2019-20 School Year. Passed with a motion by Schnoes ESU 03 and a second by Erickson ESU 17.

Schnoes ESU 03: Yea
Polk ESU 07: Yea
Lofquist ESU 09: Yea
Barrett ESU 13: Yea
Erickson ESU 17: Yea
Yea: 5, Nay: 0

3.3. Discuss and take all necessary action to transfer fiscal ownership of the NROC statewide membership to the Nebraska Department of Education.

Executive Ludwig briefly explained the future of the NROC contract.

Recommend to approve the transfer of fiscal ownership of the NROC statewide membership contract to the Nebraska Department of Education, with support of NDE-managed programs provided by ESUCC pursuant to the terms of the Memorandum of Understanding between ESUCC and NDE. Passed with a motion by Erickson ESU 17 and a second by Barrett ESU 13.

Schnoes ESU 03: Yea
Polk ESU 07: Yea
Lofquist ESU 09: Yea
Barrett ESU 13: Yea
Erickson ESU 17: Yea
Yea: 5, Nay: 0

3.4. ESUCC Transition/Planning

Exectuive Director has been working with future executive director Lofquist very closing, transition is progressing.

3.4.1. ESUCC Executive Committee Planning Retreat
June 19th at KSB, 12:00-4:00PM
This retreat will be in Lincoln on June 19th, at the KSB office (Cornhusker), from Noon - 4:00 p.m.

3.4.1.1. Approve Executive Committee Membership
Past President - Paul Calvert
President - Larianne Polk
President Elect - Dan Schnoes
Treasurer - Geraldine Erickson
Secretary -
Committee discussed recommending the following members for committee positions.
Past President - Paul Calvert
President - Larianne Polk
President Elect - Dan Schnoes
Treasurer - Geraldine Erickson
Secretary - Bill Heimann

Recommend Approval of Executive Committee for 2019-2021 Passed with a motion by Polk ESU 07 and a second by Erickson ESU 17.

Schnoes ESU 03: Yea
Polk ESU 07: Yea
Lofquist ESU 09: Yea
Barrett ESU 13: Yea
Erickson ESU 17: Yea
Yea: 5, Nay: 0

3.4.1.1.1. Signature on ESUCC checks as of July 1, 2019
Currently, the Signatures on the ESUCC checks are Kraig Lofquist (President) and Dan Schnoes (Treasurer), who do we need to change this to as Kraig Lofquist will not be able to sign checks.

President - Larianne Polk
Treasurer - Geraldine Erickson
Currently, the Signatures on the ESUCC checks are Kraig Lofquist (President) and Dan Schnoes (Treasurer), who do we need to change this to as Kraig Lofquist will not be able to sign checks.

President - Larianne Polk
Treasurer - Geraldine Erickson

3.4.1.2. Approve Committee Structure
Cory Dahl would like Ed Tech and FAB - (PDO would also be a choice)
Andrew Dick would like Legislative, Professional Development, ED Tech

Committee Membership to be approved at July meeting.
Committee reviewed/discussed the new committee meeting structure that has been suggested. It was noted that it might be a good idea that each ESU administrator will serve on one committee, however, executive committee members will also serve on a second committee.
Cory Dahl would like Ed Tech and FAB - (PDO would also be a choice)
Andrew Dick would like Legislative, Professional Development, ED Tech
Committee Membership to be approved at July meeting.
Motion tabled until July.

3.4.1.3. Roles and Responsibilities

3.4.2. Transition Timeline

3.5. ESUCC Redesign - May 6 from 2:00-4:00 at ESU 10
Agenda (TBD)

Meeting was held May 6th. It was noted that the meeting went well. The redesign process has been beneficial.

4. Next Meeting Agenda Items

Meeting in July will include Budget review and committee structure.

5. Adjournment

Meeting adjourned at 11:36 a.m.

2019-2020 Master Services Agreement
Between the
Educational Service Unit Coordinating Council and
Educational Service Unit __

THIS MASTER SERVICES AGREEMENT ("Agreement") is entered into this ____ day of _____, 2019 ("effective date") by and between THE EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL, a political subdivision of the State of Nebraska, hereinafter referred to as "the Council" or "the ESUCC," and EDUCATIONAL SERVICE UNIT NO. ___, a political subdivision of the State of Nebraska referred to as "the ESU."

Recitals

Whereas, ESUCC is charged by NEB. REV. STAT. § 79-1245 with the administration of statewide education initiatives and provision of statewide education services;

Whereas, the ESU wishes to receive certain services and participate in certain Projects that are conducted by the ESUCC; and

Whereas, the ESU wishes to have certain services and initiatives made available to its member school districts.

Now, therefore, the ESUCC and the ESU agree as follows:

1. General Provisions

a. Purpose. The purpose of this Agreement is to establish the general terms and conditions applicable to the education initiatives, services and projects (collectively "Projects") which ESUCC supplies to the ESU for the 2019-20 school year. This Agreement is intended to serve as a framework for the provision of services under one or more of the ESU CC's Projects.

b. Participation in Individual Projects. This Agreement outlines several Projects which ESUCC has undertaken for the statewide benefit of Nebraska educational service units and their member school districts. Other than the statewide core service initiatives designated herein as required by Rule 84 of the Nebraska Department of Education, the ESU may choose to participate in some, but not all of the Projects referenced by this Agreement. The ESU shall indicate its intention to participate in a particular Project by marking, where indicated, each Project in which it wishes to participate or make available to its member school districts. ESUCC is only obligated to provide services to the ESU for the Projects which the ESU has marked as provided herein.

c. Term. The term of this Agreement shall be one (1) year, commencing on August 1, 2019 and ending on July 31, 2020.

d. Provision of Services by ESUCC's Agents. The ESUCC may contract with third parties to provide some or all of the services described in this Agreement. The ESU hereby expressly agrees to the provision of those services by said third-party agents and agrees to cooperate with all agents of ESUCC in the implementation of such Projects including, but not limited to, invoicing, payment and administration necessary for the delivery of Project services in the name of ESUCC.

e. Compliance with State Law. Each Party will comply with applicable laws in its performance hereunder and will advise the other of changes in laws that concern the conduct of the Projects and services contemplated by this Agreement. Each Party shall obtain and maintain all approvals required to perform its obligations under this Agreement.

f. Right to Make Changes. ESUCC reserves the right in its sole discretion, to make changes to the operation of each of the individual Projects referred to herein, including, but not limited to, an increase in the fees charged for particular Projects, if the ESUCC determines that such fee increase is necessary for the continued operation of the particular Project, provided, however, that no such change shall have a material adverse impact on the ESU.

g. New Projects. In the event ESUCC determines to offer a new Project during the term of this Agreement and the ESU wishes to participate in said new Project, the parties may describe the new Project in writing and incorporate that writing as a formal addendum to this Agreement.

h. Amendments in Writing. Notwithstanding any provision of this Agreement to the contrary, any amendment to this Agreement must be in writing and signed by an authorized representative of each Party. No oral understanding or agreement not incorporated in this Agreement is binding on any of the Parties.

i. Indemnification. To the extent permitted by applicable law, but without waiving any rights under any applicable state governmental immunity act, the Parties hereto agree to indemnify each other from any and all liabilities, claims, expenses, losses or damages, including attorneys' fees, which may arise in connection with the execution of the work herein specified and which are caused, in whole or in part, by the negligent act or omission of the Indemnifying Party.

j. Assignment. The ESU shall not assign any right or delegate any obligation arising hereunder without the prior written consent of ESUCC. This provision does not prevent the ESU from allowing its member school districts to participate in some or all of the Projects described herein.

k. Third Party Beneficiaries. This Agreement shall be binding upon and inure solely to the benefit of and be enforceable by each Party hereto and their respective successors and permitted assigns. Nothing in this Agreement, express or implied, is intended to or shall confer upon any third party any right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

l. Entire Agreement. This Agreement supersedes and replaces all prior agreements or understandings and constitutes the entire agreement between the Parties concerning the subject matter hereof; there are no other agreements, understandings, or representations, whether written or oral, between the ESU and ESUCC concerning the subject matter addressed herein.

m. Governing Law. This Agreement shall be governed and construed in accordance with the laws of the State of Nebraska.

n. Nondiscrimination. The parties shall not discriminate against any employee or applicant who is to be employed for performance of this MOU with respect to his or her hire, tenure, terms, conditions, or privileges of employment, because of his race, color, religion, sex, disability, or national origin.

o. Employment Eligibility Verification. The parties shall use a federal immigration verification system to determine the work eligibility status of employees hired on or after October 1, 2009 and who are physically performing services within the State of Nebraska. If a party employs or contracts with any subcontractor in connection with this Agreement, the contracting party shall include a provision in the contract requiring the subcontractor to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska.

2. Professional Development Project (ESUPDO Project)

a. Purpose of Professional Development Projects. One of the core services provided to school districts is professional development of their staff. Pursuant to Rule 84 of the Nebraska Department of Education, all ESUs are required to participate in statewide core service initiatives as established by the ESU Coordinating Council as a condition of accreditation. The ESUPDO Project is one of the mandatory statewide core service initiatives undertaken by the ESUCC. Mandatory participation includes financial support of the project pursuant to the terms set forth in this section.

b. Professional Development Planning Committee. The ESUCC shall appoint educators and other experts to a Professional Development Planning Committee. The initial committee shall consist of members who possess expertise in professional development and specific curriculum areas including members from NDE and statewide initiatives/projects at the discretion of the ESUCC and its Executive Director. The Professional Development Planning Committee shall provide the ESUCC's Executive Director with suggestions and input on technical and other matters related to professional development and specific special projects involving educators' professional development, within the State of Nebraska. The ESUCC Executive Director may also form ad hoc committees from time to time to address matters relevant to the various Professional Development Initiatives.

c. Annual Professional Development Program. The ESUCC will develop an annual program of professional development offerings that will assist the ESU and its member districts in providing professional development to educators statewide . The ESUCC will assist the ESU in meeting its obligations pursuant to Rule 84 of the Nebraska Department of Education in collaborating to create opportunities for educational training and staff development for the staff of educational service units, the Nebraska Department of Education, and school districts statewide.

d. ESUPDO Project. The ESUPDO serves as a collaborative effort to provide statewide training and alignment of efforts for ESU employees and key NDE Staff statewide. Professional development is among the core services identified by state statute for ESU's. ESUPDO consists of five affiliate groups comprised of ESU employees across the seventeen ESU's with representation from essential NDE Staff.

These groups are:

i. Staff Development Affiliate (SDA): Members are responsible for providing staff development for their school districts and assisting the Nebraska Department of Education efforts on statewide and local assessment as well as school improvement for Nebraska's school districts.

ii. Teaching and Learning with Technology (TLT): The purpose of the Teaching and Learning with Technology Affiliate (TLT) is to connect educators with resources, best practices, and emerging technologies to transform teaching and learning within the classroom. This support is provided through school improvement efforts, professional development, and coordinated statewide projects, services, and efforts.

iii. Network Operations Committee (NOC): NOC supports the extensive communications network within and among the ESU's and school districts. NOC provides network security and protocols for their districts and ESU's and ensures the communications network for distance education, internet, email, and phones are functioning and secure.

iv. ESU Special Populations Directors (ESPD): This group consists of Special Education Directors and staff from across the state. This group was included in the ESUPDO as the need for special education professional development for special education and classroom teachers emerged in the age of standards and assessment,. ESPD is involved with the Nebraska Department of Education in providing leadership for special education training and support.

v. ESUPDO Fees. Each ESU will participate in the ESUPDO Project and contribute $4,239 to fund the activities of the Professional Development Annual Program.

e. Professional Development Special Projects. The ESUCC may also facilitate special projects, organize and facilitate programs, or serve as a fiscal agent for activities to enhance professional development opportunities. These special projects may include but are not limited to special education grant programs, NDE career education grant programs, and other grant or collaborative efforts that enhance statewide professional development.

f. Fees for Participation in Specific Professional Development Activities. Professional Development activities may include a registration, material, and other fees. Such fees will be set at no more than $20 per person per day. Material and other fees will be actually incurred costs beyond normal registration. Any fees billed through an agent of ESUCC must identify the specific core activity provided on behalf of the ESUCC and be appropriately allocated by such agent in accordance with agreed upon billing practices. ESUCC will provide to each ESU that participates in the Professional Development Project invoices that detail the expenditures for each event or

meeting. Participation fees shall be billed bi-annually by ESUCC during the academic year.

The following is a cost summary for this project:

Section 2	PD Annual Program Fees	$4,239 (Each ESU will participate.)
Section 3	PD Participation Fees	$20 per person per day (Each ESU will participate.)

MSA Fees for 2018-2019: $4,131/$20

3. BlendEd Initiative and Projects:
Encompassing Distance Education, Digital Learning, Instructional Materials, and Learning Management Systems

a. Purpose of BlendEd Initiative and Projects. The ESUCC shall provide distance education services including brokering and facilitating the exchange of distance education courses, the administration of learning management systems, and the assessment of distance education needs and evaluation of distance education services as provided for in NEB. REV. STAT. § 79-1248 and other state statutes and regulations. Additionally, the ESUCC is charged with the administration of statewide initiatives and provision of statewide services among other duties in NEB. REV. STAT. § 79-1246. The ESUCC also has managed statewide services in "core services" as that term is defined in statute, including instructional materials services. The purpose of the BlendEd Initiative is to assure cost-efficient and equitable delivery of digital learning opportunities in partnership with educational service units, school districts, and other potential partners. The BlendEd Initiative will unify ESUCC projects and seeks to collaborate to provide students and school districts across the state with access to a mix of different learning environments to best support the combination of traditional face-to-face classroom methods with more technology-mediated activities.

b. Pursuant to Rule 84 of the Nebraska Department of Education, all ESUs are required to participate in statewide core service initiatives as established by the ESU Coordinating Council as a condition of accreditation. The BlendEd Initiative and Project is one of the mandatory statewide core service initiatives undertaken by the ESUCC. Mandatory participation includes financial support of the project pursuant to the terms set forth in this section.

c. Fees. Each ESU will be invoiced $5,500 fee to support the administration of statewide BlendEd Initiative. Based upon elected participation, the ESUCC shall charge additional fees for services, related equipment, and other fees as described in this Article. Additional fees may be determined and assessed by the ESUCC to provide necessary services.

The following is a cost summary for the project:

BlendEd Initiative/Projects Administration	$ 5,500

d. BlendEd Advisory Committee. The ESUCC shall appoint educators and other experts to a BlendEd Advisory Committee. The initial committee shall consist of up to 20 members representing distance education, instructional materials, learning management systems, and general knowledge about professional development relevant to the initiative. The Advisory Committee shall provide the ESUCC's Executive Director and BlendEd/Distance Education Director with suggestions and input on technical and other matters related to distance education, digital learning, instructional materials, or learning management systems, within the State of

Nebraska. The ESUCC Executive Director and BlendEd/Distance Education Director may also form ad hoc committees from time to time to address matters relevant to the BlendEd Initiative and Projects.

e. Conditions of Participation.
    i. Intellectual Property. The ESU and each of its participating school districts agrees to comply with all relevant laws governing copyright and other intellectual property. The ESU agrees to hold ESUCC harmless for any violation of this provision by the ESU or its agents.
    ii. No Assignment. No Party shall assign any of its rights or obligations under this Project without the prior written consent of the ESUCC's Executive Director or the ESUCC board.

f. Projects and Services. The BlendEd Initiative is designed to create a more integrated approach for both instructors and learners. The Initiative assumes projects from existing distance education efforts, Instructional Materials projects, and Learning Management Systems as recommended by appropriate affiliates. ESUs may choose to participate in all or none of the projects and services and many of the services are made available to school districts directly. The BlendEd Initiative will also seek to organize professional development through existing ESUPDO and other ESU staff as appropriate.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

g. Distance Education Brokering. The ESUCC will provide the NVIS course clearinghouse for use in finding and exchanging distance education courses between participating ESUs and school districts. If fees for distance education brokering become necessary, they will be approved by the ESUCC with at least one month's' prior notice to participating ESUs.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

h. Instructional Materials. The Instructional Materials portion of the BlendEd Project consists of four separate components. On an annual basis, ESUs may participate in none, some or all of the Instructional Materials components. Due to the nature of this project ESUs may not elect to withdraw or amend their participation in any Instructional Materials Project mid-contract year after this Agreement has been approved.

    i. Instructional Materials: Media on Demand: Learn360 is the current provider for a statewide multimedia digital delivery service that also includes a free learning object repository (LOR) for the management and delivery of custom created or licensed content.This agreement with Infobase, owner of Learn360, can be renewed annually following an evaluation of services and usage data and the recommendations of the TLT Affiliate. Participating

ESUs will be charged a fee based on the actual contract cost. Each ESU will pay a fee based on a schedule equivalent to fifty percent of the Media on Demand contract divided equally among the participating ESUs and the remaining fifty percent of the contract divided based on participating Nebraska public schools' PK-12 enrollment after the cost for the non-public schools are calculated and deducted from the remaining fifty percent. The Media on Demand service may be made available to school districts in non-participating ESUs. The ESUCC will establish fees and invoice any participating districts in coordination with the non-participating ESU. The ESUCC will provide an estimate for budget purposes for each participating ESU. Amounts will be invoiced contingent upon the recommendation for renewal of the subscription and approval by the ESUCC board.

The following is a cost summary of the Media on Demand project:

Term Dates: September 1, 2019 - August 31, 2020

Fee: $0.45 per student with statewide student count 199,999 or less
$0.40 per student with statewide student count over 200,000
Total amount based upon student enrollment

A one-year subscription to select Infobase databases. ESUs may select one elementary/middle school and one middle/secondary database at no cost for one year. At the end of the one-year term, the databases are available for purchase through the ESUCC Marketplace at either $0.33 or $0.49 per student depending on the database. If Learn360 is renewed for the following term, two new databases may selected at no cost for one year. For 2020-21, Infobase will maintain this offer with a price increase of $0.01 per student.

ESUs will be invoiced - October 2019

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

Estimated Learn360 Costs for 2019-2020

ESU	Public PK-12 Students	Nonpublic PK-12 Students	Estimated Cost Per ESU 50/50 Formula at $0.45 per student
1	11,469	952	$6,540
3	59,301		$16,399
4	6,582	613	$5,336
5	5,710	342	$5,027
7	12,994	2,469	$7,550
8	10,704	1,900	$6,802
9	9,675	679	$6,031
13	14,143	483	$6,904
15	3,726	147	$4,512
16	8,315	570	$5,690
17	1,533	57	$4,000
18	42,020		$12,682
Totals	186,172	8,212	$87,473

Estimated cost for 2019-20 subscription based upon NDE Student Enrollment Report for 2018-19. Table above does not include those ESUs that have elected not to participate. ESU 3 student count does not include Millard Public Schools.

ii. Learning Object Repository (LOR): Through this service, ESUCC will coordinate a digital library that will enable educators from within participating ESUs to share, manage and use educational resources with a common metadata standard. Multiple platforms are available to access instructional materials that are aligned to academic standards. For ESUs participating in the Media on Demand project, Learn360 provides an LOR feature that houses previous media acquisitions (Nebraska Licensed Titles) in addition to the subscription resources. The ESUCC will also make the Nebraska OER hub available to all ESUs. The Nebraska OER hub offers statewide access to local and national open educational resources (OER). The OER hub is a customized branded landing page on OER Commons, a product of ISKME. Within the Nebraska OER hub, collaborative statewide efforts with and between the Nebraska Department of Education, the

ESUCC, school districts and educators are possible and provides the support to curate and create quality open educational resources that are aligned to Nebraska curriculum. Additionally, open educational resources are available through the National Repository of Online Courses (NROC). Other platforms may be considered as needs change.

Fees for software licensing, hosting, training or other associated project costs for services or products will be based on the vendor-provided schedule of fees. Participating ESUs will be invoiced for their share of the costs as they occur. There is no additional cost for Learn360's custom content repository feature. The annual service plan cost for the Nebraska OER hub is shared with the Nebraska Department of Education. ESUCC's share of the cost for the Nebraska OER hub is covered by the fee that supports the administration of statewide BlendEd Initiative. It is recommended that ESUs supporting the Learning Object Repository(LOR) also elect to participate in Special Projects.

The following is a cost summary of the project:

LOR	Per negotiated contract through ESUCC

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

iii. Instructional Materials: Special Projects. This project will support the state endorsed LOR platforms, curation and creation of educational resources, review and alignment of resources to the Nebraska State Standards and other indicators utilized by Nebraska schools, BlendEd projects, additional trainings, and the promotion of existing instructional materials. ESUCC staff will work in conjunction with relevant staff members from participating ESUs to identify assessed needs to further enhance education for all learners. It is recommended that all ESUs participating in the Learning Object Repository (LOR) elect to participate in Special Projects. The fee for Special Projects will not exceed is $5,000 per ESU and will only invoiced when an actual cost is incurred.

The following is a cost summary of the project:

Special Projects	$5,000	*$500 increase*

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

iv. Instructional Materials: Learning Object Acquisitions. This project will identify and acquire learning objects that will enhance education for all

learners in Nebraska schools. Project funds will be used to offset expenses related to curating, obtaining, implementing and promoting learning objects. ESUCC staff will work in conjunction with relevant staff members from participating ESUs to identify project needs. The fee for Learning Object Acquisitions will not exceed $5,000 per ESU and will only be invoiced when actual cost is incurred.

The following is a cost summary of the project:

Learning Object Acquisitions	$ 5,000	*no increase*

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

i. Federated Identity and Access Management:This initiative will provide participating users with a single sign-on framework, allowing the identity of a user to be verified and that identity to be used to provide access to all of the digital services offered by ESUCC and NDE.

   i. Additional Fees/Costs (if any): The ESUCC and participating ESUs may amend this agreement to expand services based on planning efforts for content hosting, identity management infrastructure and related services. Any such fees/costs will be presented by the ESUCC Technology Committee for approval by the ESUCC board.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

4. Cooperative Purchasing Project

j. Purpose of Cooperative Purchasing. The Cooperative Purchasing Project aggregates demand for certain items commonly purchased by school districts to get lower prices and more favorable terms from selected suppliers.

k. Duties of ESUCC. In connection with the Cooperative Purchasing Program, the ESUCC shall:

i. Combine statewide data relevant to cooperative purchasing in order to promote a valid basis upon which to solicit bids.
ii. Coordinate activities which are commensurate with updating and perpetuating proper specifications inherent within the bidding process.
iii. Prepare official bid documents and invite suppliers to bid in connection with supplies to be purchased by ESUCC and members.
iv. Prepare and cause to be published the official legal notices of the bid opening in connection with supplies to be purchased by ESUCC as required by applicable law or policy.
v. Conduct the public bid opening and resulting bid reviews in accordance with applicable Nebraska statutory "public lettings" provisions, if any, or ESUCC policy and practice, and be responsible for selecting bids based upon such provisions.
vi. Compile price lists and order sheets for each participating educational service unit and make such order lists and price sheets available through the Nebraska ESU Cooperative Purchasing Web Site or Marketplace.
vii. Provide technical support for ESUs and school districts in placing orders with suppliers through the Marketplace . Merchandise will be shipped as specified in bid terms and conditions
viii. Through the website, provide participating ESUs and school districts the capabilities to track items ordered, confirm receipt, check invoices and detect and report shortages.
ix. Retrieve order documents from the website and prepare aggregate orders to be sent to respective suppliers so that merchandise is shipped to each participating school/educational service unit.
x. Assist any participating school/educational service unit with problems related to the processing and delivery of orders from the suppliers.
xi. Participate in an annual audit of cooperative purchasing accounts and records conducted by a Certified Public Accountant.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

5. Special Education Project

a. Student Records System (SRS Project): SRS is an online special education record system designed to create all special education documents, required by Rule 51 and Rule 52, including IEP, MDT, IFSP and all required notices. The SRS is a highly secured system that organizes and stores documents and provides easy access to files via the internet. SRS training is provided across the state for district staff and college and university staff.

b. Improving Learning for Children with Disabilities (ILCD Project): ILCD is a state self-assessment project that gathers information for federal reporting requirements. The ILCD Project utilizes parent, teacher and administration survey assessments. The survey results can be accessed via the ILCD Website. ESU staff provide technical assistance for the ILCD website and survey design.

c. Project PARA: Project PARA is a web-based method for school districts to provide introductory training for their paraeducators. The Project assists schools in meeting the paraeducator training requirements. Project PARA is a collaborative effort between the University of Nebraska, the Nebraska Department of Education and Nebraska educational service units.

d. Fees. Each Participating ESU will pay a fee of $5,500 to fund the Special Education Project.

e. Additional SRS Fee. School Districts that are members of one of the participating Parties to the SPED SRS Project must pay an additional fee to receive access to SRS. Fees will be assessed in accordance with the following table.

2019-2020	**2020-2021**	**Tier**
$166	$174	<100
$430	$452	100-249
$858	$901	250-499
$2,576	$2,705	500-999
$3,435	$3,607	1000-1999
$4,293	$4,508	2000-3999
$8,584	$9,013	4000-17999

The ESUCC will bill the ESU for the fees allocated to each of the ESU's participating member school districts

The following is a cost summary of the project:

Special Education Project	$ 5500
Additional SRS Fees (Tier)	$see chart above

MSA Fees for 2018-2019: $5500

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

6. Legislative and Governmental Relations Project

a. Purpose Legislative and Governmental Relations Project. The Legislative and Governmental Relations Project will assist member ESUs in strategically planning legislative initiatives that support the mission of the ESUCC and its member service units, tracking legislation that affects service units and state-wide educational efforts in the state, and influencing state lawmakers to support the vital work of the ESUCC, service units and public schools in the state of Nebraska.

b. Duties of ESUCC. In connection with the Cooperative Purchasing Program, the ESUCC shall:
   i. Solicit input and direction on legislative and governmental relations issues from its members through the ESUCC legislative committee and in other forums;
   ii. Direct employees of ESUCC to draft, support or oppose state legislation related to matters affecting education in the state of Nebraska;
   iii. Contract with experts in the field of governmental relations to assist the ESUCC in legislative and governmental matters

c. Fees. Each Participating ESU will pay a fee of to be determined by the ESUCC board upon approval of relevant expert contracts to fund the Legislative and Governmental Relations Project. In no event will the fee for participation exceed ESUCC's actual costs.

The following is a cost summary for this project.

Govt. Relations (2019 & 2020)	$ 1629.41

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

Summary of MSA Fees 2019-2020

Please *check and initial* the relevant boxes below indicating the Projects in which the Service Unit wishes to participate. (Please note all projects within the MSA are provided with a either (1) a specific charge, (2) no charge for the project, or (3) a required participation fee for all ESU's.)

ESUPDO with the following costs for services: (Statewide Core Service Initiative pursuant to Rule 84; Each ESU will participate.)

(Signature) (Date)

David Ludwig
ESUCC Executive Director

2019-2020 Master Services Agreement
Between the
Educational Service Unit Coordinating Council and
Educational Service Unit __

THIS MASTER SERVICES AGREEMENT ("Agreement") is entered into this ____ day of _____, 2019 ("effective date") by and between THE EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL, a political subdivision of the State of Nebraska, hereinafter referred to as "the Council" or "the ESUCC," and EDUCATIONAL SERVICE UNIT NO. ___, a political subdivision of the State of Nebraska referred to as "the ESU."

Recitals

Whereas, ESUCC is charged by NEB. REV. STAT. § 79-1245 with the administration of statewide education initiatives and provision of statewide education services;

Whereas, the ESU wishes to receive certain services and participate in certain Projects that are conducted by the ESUCC; and

Whereas, the ESU wishes to have certain services and initiatives made available to its member school districts.

Now, therefore, the ESUCC and the ESU agree as follows:

1. General Provisions

a. Purpose. The purpose of this Agreement is to establish the general terms and conditions applicable to the education initiatives, services and projects (collectively "Projects") which ESUCC supplies to the ESU for the 2019-20 school year. This Agreement is intended to serve as a framework for the provision of services under one or more of the ESU CC's Projects.

b. Participation in Individual Projects. This Agreement outlines several Projects which ESUCC has undertaken for the statewide benefit of Nebraska educational service units and their member school districts. Other than the statewide core service initiatives designated herein as required by Rule 84 of the Nebraska Department of Education, the ESU may choose to participate in some, but not all of the Projects referenced by this Agreement. The ESU shall indicate its intention to participate in a particular Project by marking, where indicated, each Project in which it wishes to participate or make available to its member school districts. ESUCC is only obligated to provide services to the ESU for the Projects which the ESU has marked as provided herein.

c. Term. The term of this Agreement shall be one (1) year, commencing on August 1, 2019 and ending on July 31, 2020.

d. Provision of Services by ESUCC's Agents. The ESUCC may contract with third parties to provide some or all of the services described in this Agreement. The ESU hereby expressly agrees to the provision of those services by said third-party agents and agrees to cooperate with all agents of ESUCC in the implementation of such Projects including, but not limited to, invoicing, payment and administration necessary for the delivery of Project services in the name of ESUCC.

e. Compliance with State Law. Each Party will comply with applicable laws in its performance hereunder and will advise the other of changes in laws that concern the conduct of the Projects and services contemplated by this Agreement. Each Party shall obtain and maintain all approvals required to perform its obligations under this Agreement.

f. Right to Make Changes. ESUCC reserves the right in its sole discretion, to make changes to the operation of each of the individual Projects referred to herein, including, but not limited to, an increase in the fees charged for particular Projects, if the ESUCC determines that such fee increase is necessary for the continued operation of the particular Project, provided, however, that no such change shall have a material adverse impact on the ESU.

g. New Projects. In the event ESUCC determines to offer a new Project during the term of this Agreement and the ESU wishes to participate in said new Project, the parties may describe the new Project in writing and incorporate that writing as a formal addendum to this Agreement.

h. Amendments in Writing. Notwithstanding any provision of this Agreement to the contrary, any amendment to this Agreement must be in writing and signed by an authorized representative of each Party. No oral understanding or agreement not incorporated in this Agreement is binding on any of the Parties.

i. Indemnification. To the extent permitted by applicable law, but without waiving any rights under any applicable state governmental immunity act, the Parties hereto agree to indemnify each other from any and all liabilities, claims, expenses, losses or damages, including attorneys' fees, which may arise in connection with the execution of the work herein specified and which are caused, in whole or in part, by the negligent act or omission of the Indemnifying Party.

j. Assignment. The ESU shall not assign any right or delegate any obligation arising hereunder without the prior written consent of ESUCC. This provision does not prevent the ESU from allowing its member school districts to participate in some or all of the Projects described herein.

k. Third Party Beneficiaries. This Agreement shall be binding upon and inure solely to the benefit of and be enforceable by each Party hereto and their respective successors and permitted assigns. Nothing in this Agreement, express or implied, is intended to or shall confer upon any third party any right, benefit or remedy of any nature whatsoever under or by reason of this Agreement.

l. Entire Agreement. This Agreement supersedes and replaces all prior agreements or understandings and constitutes the entire agreement between the Parties concerning the subject matter hereof; there are no other agreements, understandings, or representations, whether written or oral, between the ESU and ESUCC concerning the subject matter addressed herein.

m. Governing Law. This Agreement shall be governed and construed in accordance with the laws of the State of Nebraska.

n. Nondiscrimination. The parties shall not discriminate against any employee or applicant who is to be employed for performance of this MOU with respect to his or her hire, tenure, terms, conditions, or privileges of employment, because of his race, color, religion, sex, disability, or national origin.

o. Employment Eligibility Verification. The parties shall use a federal immigration verification system to determine the work eligibility status of employees hired on or after October 1, 2009 and who are physically performing services within the State of Nebraska. If a party employs or contracts with any subcontractor in connection with this Agreement, the contracting party shall include a provision in the contract requiring the subcontractor to use a federal immigration verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska.

2. Professional Development Project (ESUPDO Project)

a. Purpose of Professional Development Projects. One of the core services provided to school districts is professional development of their staff. Pursuant to Rule 84 of the Nebraska Department of Education, all ESUs are required to participate in statewide core service initiatives as established by the ESU Coordinating Council as a condition of accreditation. The ESUPDO Project is one of the mandatory statewide core service initiatives undertaken by the ESUCC. Mandatory participation includes financial support of the project pursuant to the terms set forth in this section.

b. Professional Development Planning Committee. The ESUCC shall appoint educators and other experts to a Professional Development Planning Committee. The initial committee shall consist of members who possess expertise in professional development and specific curriculum areas including members from NDE and statewide initiatives/projects at the discretion of the ESUCC and its Executive Director. The Professional Development Planning Committee shall provide the ESUCC's Executive Director with suggestions and input on technical and other matters related to professional development and specific special projects involving educators' professional development, within the State of Nebraska. The ESUCC Executive Director may also form ad hoc committees from time to time to address matters relevant to the various Professional Development Initiatives.

c. Annual Professional Development Program. The ESUCC will develop an annual program of professional development offerings that will assist the ESU and its member districts in providing professional development to educators statewide . The ESUCC will assist the ESU in meeting its obligations pursuant to Rule 84 of the Nebraska Department of Education in collaborating to create opportunities for educational training and staff development for the staff of educational service units, the Nebraska Department of Education, and school districts statewide.

d. ESUPDO Project. The ESUPDO serves as a collaborative effort to provide statewide training and alignment of efforts for ESU employees and key NDE Staff statewide. Professional development is among the core services identified by state statute for ESU's. ESUPDO consists of five affiliate groups comprised of ESU employees across the seventeen ESU's with representation from essential NDE Staff.

These groups are:

i. Staff Development Affiliate (SDA): Members are responsible for providing staff development for their school districts and assisting the Nebraska Department of Education efforts on statewide and local assessment as well as school improvement for Nebraska's school districts.

ii. Teaching and Learning with Technology (TLT): The purpose of the Teaching and Learning with Technology Affiliate (TLT) is to connect educators with resources, best practices, and emerging technologies to transform teaching and learning within the classroom. This support is provided through school improvement efforts, professional development, and coordinated statewide projects, services, and efforts.

iii. Network Operations Committee (NOC): NOC supports the extensive communications network within and among the ESU's and school districts. NOC provides network security and protocols for their districts and ESU's and ensures the communications network for distance education, internet, email, and phones are functioning and secure.

iv. ESU Special Populations Directors (ESPD): This group consists of Special Education Directors and staff from across the state. This group was included in the ESUPDO as the need for special education professional development for special education and classroom teachers emerged in the age of standards and assessment,. ESPD is involved with the Nebraska Department of Education in providing leadership for special education training and support.

v. ESUPDO Fees. Each ESU will participate in the ESUPDO Project and contribute $4,239 to fund the activities of the Professional Development Annual Program.

e. Professional Development Special Projects. The ESUCC may also facilitate special projects, organize and facilitate programs, or serve as a fiscal agent for activities to enhance professional development opportunities. These special projects may include but are not limited to special education grant programs, NDE career education grant programs, and other grant or collaborative efforts that enhance statewide professional development.

f. Fees for Participation in Specific Professional Development Activities. Professional Development activities may include a registration, material, and other fees. Such fees will be set at no more than $20 per person per day. Material and other fees will be actually incurred costs beyond normal registration. Any fees billed through an agent of ESUCC must identify the specific core activity provided on behalf of the ESUCC and be appropriately allocated by such agent in accordance with agreed upon billing practices. ESUCC will provide to each ESU that participates in the Professional Development Project invoices that detail the expenditures for each event or

meeting. Participation fees shall be billed bi-annually by ESUCC during the academic year.

The following is a cost summary for this project:

Section 2	PD Annual Program Fees	$4,239 (Each ESU will participate.)
Section 3	PD Participation Fees	$20 per person per day (Each ESU will participate.)

MSA Fees for 2018-2019: $4,131/$20

3. BlendEd Initiative and Projects:
Encompassing Distance Education, Digital Learning, Instructional Materials, and Learning Management Systems

a. Purpose of BlendEd Initiative and Projects. The ESUCC shall provide distance education services including brokering and facilitating the exchange of distance education courses, the administration of learning management systems, and the assessment of distance education needs and evaluation of distance education services as provided for in NEB. REV. STAT. § 79-1248 and other state statutes and regulations. Additionally, the ESUCC is charged with the administration of statewide initiatives and provision of statewide services among other duties in NEB. REV. STAT. § 79-1246. The ESUCC also has managed statewide services in "core services" as that term is defined in statute, including instructional materials services. The purpose of the BlendEd Initiative is to assure cost-efficient and equitable delivery of digital learning opportunities in partnership with educational service units, school districts, and other potential partners. The BlendEd Initiative will unify ESUCC projects and seeks to collaborate to provide students and school districts across the state with access to a mix of different learning environments to best support the combination of traditional face-to-face classroom methods with more technology-mediated activities.

b. Pursuant to Rule 84 of the Nebraska Department of Education, all ESUs are required to participate in statewide core service initiatives as established by the ESU Coordinating Council as a condition of accreditation. The BlendEd Initiative and Project is one of the mandatory statewide core service initiatives undertaken by the ESUCC. Mandatory participation includes financial support of the project pursuant to the terms set forth in this section.

c. Fees. Each ESU will be invoiced $5,500 fee to support the administration of statewide BlendEd Initiative. Based upon elected participation, the ESUCC shall charge additional fees for services, related equipment, and other fees as described in this Article. Additional fees may be determined and assessed by the ESUCC to provide necessary services.

The following is a cost summary for the project:

BlendEd Initiative/Projects Administration	$ 5,500

d. BlendEd Advisory Committee. The ESUCC shall appoint educators and other experts to a BlendEd Advisory Committee. The initial committee shall consist of up to 20 members representing distance education, instructional materials, learning management systems, and general knowledge about professional development relevant to the initiative. The Advisory Committee shall provide the ESUCC's Executive Director and BlendEd/Distance Education Director with suggestions and input on technical and other matters related to distance education, digital learning, instructional materials, or learning management systems, within the State of

Nebraska. The ESUCC Executive Director and BlendEd/Distance Education Director may also form ad hoc committees from time to time to address matters relevant to the BlendEd Initiative and Projects.

e. Conditions of Participation.
    i. Intellectual Property. The ESU and each of its participating school districts agrees to comply with all relevant laws governing copyright and other intellectual property. The ESU agrees to hold ESUCC harmless for any violation of this provision by the ESU or its agents.
    ii. No Assignment. No Party shall assign any of its rights or obligations under this Project without the prior written consent of the ESUCC's Executive Director or the ESUCC board.

f. Projects and Services. The BlendEd Initiative is designed to create a more integrated approach for both instructors and learners. The Initiative assumes projects from existing distance education efforts, Instructional Materials projects, and Learning Management Systems as recommended by appropriate affiliates. ESUs may choose to participate in all or none of the projects and services and many of the services are made available to school districts directly. The BlendEd Initiative will also seek to organize professional development through existing ESUPDO and other ESU staff as appropriate.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

g. Distance Education Brokering. The ESUCC will provide the NVIS course clearinghouse for use in finding and exchanging distance education courses between participating ESUs and school districts. If fees for distance education brokering become necessary, they will be approved by the ESUCC with at least one month's' prior notice to participating ESUs.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

h. Instructional Materials. The Instructional Materials portion of the BlendEd Project consists of four separate components. On an annual basis, ESUs may participate in none, some or all of the Instructional Materials components. Due to the nature of this project ESUs may not elect to withdraw or amend their participation in any Instructional Materials Project mid-contract year after this Agreement has been approved.

    i. Instructional Materials: Media on Demand: Learn360 is the current provider for a statewide multimedia digital delivery service that also includes a free learning object repository (LOR) for the management and delivery of custom created or licensed content.This agreement with Infobase, owner of Learn360, can be renewed annually following an evaluation of services and usage data and the recommendations of the TLT Affiliate. Participating

ESUs will be charged a fee based on the actual contract cost. Each ESU will pay a fee based on a schedule equivalent to fifty percent of the Media on Demand contract divided equally among the participating ESUs and the remaining fifty percent of the contract divided based on participating Nebraska public schools' PK-12 enrollment after the cost for the non-public schools are calculated and deducted from the remaining fifty percent. The Media on Demand service may be made available to school districts in non-participating ESUs. The ESUCC will establish fees and invoice any participating districts in coordination with the non-participating ESU. The ESUCC will provide an estimate for budget purposes for each participating ESU. Amounts will be invoiced contingent upon the recommendation for renewal of the subscription and approval by the ESUCC board.

The following is a cost summary of the Media on Demand project:

Term Dates: September 1, 2019 - August 31, 2020

Fee: $0.45 per student with statewide student count 199,999 or less
$0.40 per student with statewide student count over 200,000
Total amount based upon student enrollment

A one-year subscription to select Infobase databases. ESUs may select one elementary/middle school and one middle/secondary database at no cost for one year. At the end of the one-year term, the databases are available for purchase through the ESUCC Marketplace at either $0.33 or $0.49 per student depending on the database. If Learn360 is renewed for the following term, two new databases may selected at no cost for one year. For 2020-21, Infobase will maintain this offer with a price increase of $0.01 per student.

ESUs will be invoiced - October 2019

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

Estimated Learn360 Costs for 2019-2020

ESU	Public PK-12 Students	Nonpublic PK-12 Students	Estimated Cost Per ESU 50/50 Formula at $0.45 per student
1	11,469	952	$6,540
3	59,301		$16,399
4	6,582	613	$5,336
5	5,710	342	$5,027
7	12,994	2,469	$7,550
8	10,704	1,900	$6,802
9	9,675	679	$6,031
13	14,143	483	$6,904
15	3,726	147	$4,512
16	8,315	570	$5,690
17	1,533	57	$4,000
18	42,020		$12,682
Totals	186,172	8,212	$87,473

Estimated cost for 2019-20 subscription based upon NDE Student Enrollment Report for 2018-19. Table above does not include those ESUs that have elected not to participate. ESU 3 student count does not include Millard Public Schools.

ii. Learning Object Repository (LOR): Through this service, ESUCC will coordinate a digital library that will enable educators from within participating ESUs to share, manage and use educational resources with a common metadata standard. Multiple platforms are available to access instructional materials that are aligned to academic standards. For ESUs participating in the Media on Demand project, Learn360 provides an LOR feature that houses previous media acquisitions (Nebraska Licensed Titles) in addition to the subscription resources. The ESUCC will also make the Nebraska OER hub available to all ESUs. The Nebraska OER hub offers statewide access to local and national open educational resources (OER). The OER hub is a customized branded landing page on OER Commons, a product of ISKME. Within the Nebraska OER hub, collaborative statewide efforts with and between the Nebraska Department of Education, the

ESUCC, school districts and educators are possible and provides the support to curate and create quality open educational resources that are aligned to Nebraska curriculum. Additionally, open educational resources are available through the National Repository of Online Courses (NROC). Other platforms may be considered as needs change.

Fees for software licensing, hosting, training or other associated project costs for services or products will be based on the vendor-provided schedule of fees. Participating ESUs will be invoiced for their share of the costs as they occur. There is no additional cost for Learn360's custom content repository feature. The annual service plan cost for the Nebraska OER hub is shared with the Nebraska Department of Education. ESUCC's share of the cost for the Nebraska OER hub is covered by the fee that supports the administration of statewide BlendEd Initiative. It is recommended that ESUs supporting the Learning Object Repository(LOR) also elect to participate in Special Projects.

The following is a cost summary of the project:

LOR	Per negotiated contract through ESUCC

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

iii. Instructional Materials: Special Projects. This project will support the state endorsed LOR platforms, curation and creation of educational resources, review and alignment of resources to the Nebraska State Standards and other indicators utilized by Nebraska schools, BlendEd projects, additional trainings, and the promotion of existing instructional materials. ESUCC staff will work in conjunction with relevant staff members from participating ESUs to identify assessed needs to further enhance education for all learners. It is recommended that all ESUs participating in the Learning Object Repository (LOR) elect to participate in Special Projects. The fee for Special Projects will not exceed is $5,000 per ESU and will only invoiced when an actual cost is incurred.

The following is a cost summary of the project:

Special Projects	$5,000	*$500 increase*

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

iv. Instructional Materials: Learning Object Acquisitions. This project will identify and acquire learning objects that will enhance education for all

learners in Nebraska schools. Project funds will be used to offset expenses related to curating, obtaining, implementing and promoting learning objects. ESUCC staff will work in conjunction with relevant staff members from participating ESUs to identify project needs. The fee for Learning Object Acquisitions will not exceed $5,000 per ESU and will only be invoiced when actual cost is incurred.

The following is a cost summary of the project:

Learning Object Acquisitions	$ 5,000	*no increase*

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

i. Federated Identity and Access Management:This initiative will provide participating users with a single sign-on framework, allowing the identity of a user to be verified and that identity to be used to provide access to all of the digital services offered by ESUCC and NDE.

   i. Additional Fees/Costs (if any): The ESUCC and participating ESUs may amend this agreement to expand services based on planning efforts for content hosting, identity management infrastructure and related services. Any such fees/costs will be presented by the ESUCC Technology Committee for approval by the ESUCC board.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

4. Cooperative Purchasing Project

j. Purpose of Cooperative Purchasing. The Cooperative Purchasing Project aggregates demand for certain items commonly purchased by school districts to get lower prices and more favorable terms from selected suppliers.

k. Duties of ESUCC. In connection with the Cooperative Purchasing Program, the ESUCC shall:

i. Combine statewide data relevant to cooperative purchasing in order to promote a valid basis upon which to solicit bids.
ii. Coordinate activities which are commensurate with updating and perpetuating proper specifications inherent within the bidding process.
iii. Prepare official bid documents and invite suppliers to bid in connection with supplies to be purchased by ESUCC and members.
iv. Prepare and cause to be published the official legal notices of the bid opening in connection with supplies to be purchased by ESUCC as required by applicable law or policy.
v. Conduct the public bid opening and resulting bid reviews in accordance with applicable Nebraska statutory "public lettings" provisions, if any, or ESUCC policy and practice, and be responsible for selecting bids based upon such provisions.
vi. Compile price lists and order sheets for each participating educational service unit and make such order lists and price sheets available through the Nebraska ESU Cooperative Purchasing Web Site or Marketplace.
vii. Provide technical support for ESUs and school districts in placing orders with suppliers through the Marketplace . Merchandise will be shipped as specified in bid terms and conditions
viii. Through the website, provide participating ESUs and school districts the capabilities to track items ordered, confirm receipt, check invoices and detect and report shortages.
ix. Retrieve order documents from the website and prepare aggregate orders to be sent to respective suppliers so that merchandise is shipped to each participating school/educational service unit.
x. Assist any participating school/educational service unit with problems related to the processing and delivery of orders from the suppliers.
xi. Participate in an annual audit of cooperative purchasing accounts and records conducted by a Certified Public Accountant.

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

5. Special Education Project

a. Student Records System (SRS Project): SRS is an online special education record system designed to create all special education documents, required by Rule 51 and Rule 52, including IEP, MDT, IFSP and all required notices. The SRS is a highly secured system that organizes and stores documents and provides easy access to files via the internet. SRS training is provided across the state for district staff and college and university staff.

b. Improving Learning for Children with Disabilities (ILCD Project): ILCD is a state self-assessment project that gathers information for federal reporting requirements. The ILCD Project utilizes parent, teacher and administration survey assessments. The survey results can be accessed via the ILCD Website. ESU staff provide technical assistance for the ILCD website and survey design.

c. Project PARA: Project PARA is a web-based method for school districts to provide introductory training for their paraeducators. The Project assists schools in meeting the paraeducator training requirements. Project PARA is a collaborative effort between the University of Nebraska, the Nebraska Department of Education and Nebraska educational service units.

d. Fees. Each Participating ESU will pay a fee of $5,500 to fund the Special Education Project.

e. Additional SRS Fee. School Districts that are members of one of the participating Parties to the SPED SRS Project must pay an additional fee to receive access to SRS. Fees will be assessed in accordance with the following table.

2019-2020	**2020-2021**	**Tier**
$166	$174	<100
$430	$452	100-249
$858	$901	250-499
$2,576	$2,705	500-999
$3,435	$3,607	1000-1999
$4,293	$4,508	2000-3999
$8,584	$9,013	4000-17999

The ESUCC will bill the ESU for the fees allocated to each of the ESU's participating member school districts

The following is a cost summary of the project:

Special Education Project	$ 5500
Additional SRS Fees (Tier)	$see chart above

MSA Fees for 2018-2019: $5500

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

6. Legislative and Governmental Relations Project

a. Purpose Legislative and Governmental Relations Project. The Legislative and Governmental Relations Project will assist member ESUs in strategically planning legislative initiatives that support the mission of the ESUCC and its member service units, tracking legislation that affects service units and state-wide educational efforts in the state, and influencing state lawmakers to support the vital work of the ESUCC, service units and public schools in the state of Nebraska.

b. Duties of ESUCC. In connection with the Cooperative Purchasing Program, the ESUCC shall:
   i. Solicit input and direction on legislative and governmental relations issues from its members through the ESUCC legislative committee and in other forums;
   ii. Direct employees of ESUCC to draft, support or oppose state legislation related to matters affecting education in the state of Nebraska;
   iii. Contract with experts in the field of governmental relations to assist the ESUCC in legislative and governmental matters

c. Fees. Each Participating ESU will pay a fee of to be determined by the ESUCC board upon approval of relevant expert contracts to fund the Legislative and Governmental Relations Project. In no event will the fee for participation exceed ESUCC's actual costs.

The following is a cost summary for this project.

Govt. Relations (2019 & 2020)	$ 1629.41

(Within the Summary Page found on page 17 of the MSA, please check the box if the ESU will participate in the program.)

THIS FORM IS PROVIDED TO HELP YOU BALANCE YOUR STATEMENT

WITHDRAWALS OUTSTANDING - NOT CHARGED TO ACCOUNT

NO.	$	
TOTAL	$	

BEFORE YOU START

PLEASE BE SURE YOU HAVE ENTERED IN YOUR REGISTER ALL AUTOMATIC TRANSACTIONS SHOWN ON THE FRONT OF YOUR STATEMENT.

YOU SHOULD HAVE ADDED IF ANY OCCURRED:
1. Loan advances.
2. Credit memos.
3. Other automatic deposits.
4. Interest paid.

YOU SHOULD HAVE SUBTRACTED IF ANY OCCURRED:
1. Automatic loan payments.
2. Automatic savings transfers.
3. Service charges.
4. Debit memos.
5. Other automatic deductions and payments.

BALANCE SHOWN ON THIS STATEMENT $_____

ADD

DEPOSITS NOT SHOWN ON THIS STATEMENT (IF ANY) $_____

_____

_____

TOTAL $_____

SUBTRACT -

WITHDRAWALS OUTSTANDING $_____

BALANCE $_____

SHOULD AGREE WITH YOUR REGISTER BALANCE AFTER DEDUCTING SERVICE CHARGE (IF ANY) SHOWN ON THIS STATEMENT.

Please examine immediately and report if incorrect. If no reply is received within sixty (60) days the account will be considered correct.

IN CASE OF ERRORS OR QUESTIONS ABOUT YOUR ELECTRONIC TRANSFERS

Telephone or write us at the telephone number or address located on the front of this statement as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer listed on the statement or receipt. We must hear from you no later than 60 days after we sent the FIRST statement on which the problem or error appeared.

1) Tell us your name and account number (if any).
2) Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.
3) Tell us the dollar amount of the suspected error.

If you tell us orally, we may require that you send us your complaint or question in writing within 10 business days.

We will determine whether an error occurred within 10 business days after we hear from you and will correct any error promptly. If we need more time, however, we may take up to 45 days to investigate your complaint or question. If we decide to do this, we will credit your account within 10 business days for the amount you think is in error, so that you will have the use of the money during the time it takes us to complete our investigation. If we ask you to put your complaint or question in writing and we do not receive it within 10 business days, we may not credit your account.

For errors involving new accounts, point-of-sale, or foreign-initiated transactions, we may take up to 90 days to investigate your complaint or question. For new accounts, we may take up to 20 business days to credit your account for the amount you think is in error.

We will tell you the result within three business days after completing our investigation. If we decide that there was no error, we will send you a written explanation. You may ask for copies of the documents that we used in our investigation.

BACKGROUND

The Nebraska Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an administrator representative from each ESU. The ESUCC was created by LB 603 (2007) and officially came into existence, per statute, on July 1, 2008. Fiscal year 2008-2009 was the first year of operation for the ESUCC. The duties of the ESUCC are set out at Neb. Rev. Stat §§ 79-1245 to 79-1249 (Reissue 2014, Cum. Supp. 2018). Section 79-1246(1) provides the following:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC, the legislature passed LB 1208 (2006), which created the Distance Education Council (DEC). The duties and responsibilities of the DEC were transferred to the ESUCC with the passage of LB 603.

While discussing the formation of the ESUCC, the administrators for the ESUs considered the intent of LB 603. In consultation with legal counsel, policy makers, and various State officials, it was decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. In order to transition to the new structure, the ESUCC established a master services agreement with each ESU. Additionally, fiscal agents for each of the projects were continued in the transition to the ESUCC.

In April 2010, the ESUCC held a planning session and adopted a new organizational chart and administrative structure to manage the statewide projects by September 1, 2010. The new organizational structure organized each of the statewide projects under the administration of a single entity and under management of the ESUCC Executive Director. Much of this transition, including centralizing the accounting, policies, and procedures, was completed during the summer of 2010.

Although complete, this transition continues presently with the review of policies and procedures, as well as the development of strategic plans for each project and the ESUCC as a whole. Additionally, Title 92 NAC 84-003.02A1 provides the following:

> *The ESU administrator or his or her designee shall participate in two jointly established meetings with representatives of the Department and the ESU Coordinating Council annually to establish the focus and coordination of necessary core services based on priorities and on needs that are identified through the analysis of data.*

The Nebraska Department of Education (NDE) and the ESUCC meet during October and April of each year to identify collaborative efforts to meet the core service needs of ESUs and school districts.

BACKGROUND
(Continued)

Overview of Statewide Projects and Activities:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide statewide training for ESU employees and key NDE Staff statewide. Professional development is among the core services identified by State statute for ESUs. The ESUPDO consists of five affiliate groups comprised of ESU employees across the 17 ESUs with representation from essential NDE Staff. As the NDE and the ESUCC continue with statewide efforts, alignment with the NDE Strategic Plan, as well as the six tenets of AQuESTT (Accountability for a Quality Education System, Today and Tomorrow), will better define the direction for the ESUPDO. These groups are the following:

    - **Staff Development Affiliate (SDA):** Members are responsible for providing staff development for their school districts and have assisted the NDE's efforts on statewide and local assessment as well as school improvement for Nebraska's school districts.

    - **Technology Assistance Group (TAG):** Members provide assistance to school districts in the dissemination and integration of new educational technologies deployed by school districts. Additionally, TAG members may provide assistance to school districts in the use of new software and computer applications, including statewide assessment. The governance structure within the TAG Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate with full implementation beginning 2017-2018.

    - **Network Operations Committee (NOC):** NOC supports the extensive communications network within and among the ESUs and school districts. NOC provides network security and protocols for its districts and ESUs and ensures that the communications network for distance education, internet, email, and internet protocol phones are functioning and secure. Statewide, this group establishes common frameworks and capacities for assisting one another to help ensure the education network functions well.

    - **Instructional Materials Affiliate (I-Mat):** I-Mat consists of media professionals from across the State. It serves the dual role of providing for and assisting school districts in using and implementing the statewide I-Mat digital resources. Originally, I-Mat served to ensure that school districts had access to educational films, videos, and DVDs. Currently, I-Mat is developing plans for digital delivery of library and media resources. This service is among the core services identified by State statute. The governance structure within the I-MAT Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate, with full implementation beginning 2017-2018.

    - **Teaching and Learning with Technology (TLT):** Between 2015 and 2017, membership for TAG, I-Mat, and Distance Education began a dialogue regarding combined efforts within the three affiliates/projects based upon the fact that 46% of the membership serve in multiple roles. Formalized discussion began during January of 2016 and, as a result of the membership's efforts, the concept of a newly formed affiliate, TLT, evolved. The initial meeting regarding the development of the TLT began with the following stated purpose:

BACKGROUND
(Continued)

Enhance communication through efficient and effective planning, development and implementation while maintaining autonomy of each affiliate.

The development and implementation of the TLT governance and structure will continue throughout the 2016-17 year, with final approval made by the ESUCC during March of 2017 and full implementation beginning 2017-2018.

- **ESU Special Populations Directors (ESPD):** This affiliate group consists of the special education directors and staff from across the State. It was included in ESUPDO as the need for special education professional development for special education and classroom teachers emerged in the age of standards and assessment, along with the need to develop and share professional development efforts for special education teachers and classroom teachers alike. ESPD is also involved with the NDE in providing leadership for special education training and support.

- **Nebraska ESU Cooperative Purchasing (Coop):** The Coop provides cooperative purchasing services to ESU member schools throughout the State of Nebraska. The service is offered by the ESUCC and Nebraska's 17 ESUs in a joint effort. The ESUCC serves as the governing body for cooperative purchasing.

  Per the ESUCC's website (http://www.esucc.org/COOP-PURCHASING), the Coop's vision is to "provide compliant, competitive, aggregated bidding and purchasing to control and reduce costs to its members by maximizing efficiency of resources and processes in Nebraska and Nationally."

  Additionally, the ESUCC's website provides the following information regarding the Coop:

  ESUCC Cooperative Purchasing represents 17 Educational Service Units statewide who in turn service Nebraska school districts with over 300,000 students and is currently in its 5th decade of operation. ESUCC Cooperative Purchasing is authorized to coordinate purchases for public school districts, nonpublic school systems, other ESUs, and other public agencies, including any county, city, village, school district, or agency of the state government, any drainage district, sanitary and improvement district, or other municipal corporation or political subdivision of the State of Nebraska.

- **Distance Education:** Created by LB 1208 (2006), the Distance Education Council began as a State project with ESU 10 serving as the fiscal agent. Coordination of the Distance Education project has since been taken over by the ESUCC, however. In striving to build, improve, and maintain the State's Distance Education network, the ESUCC exercises the powers and duties specified at Neb. Rev. Stat. § 79-1248 (Reissue 2014), as follows:

  (1) Providing public access to lists of qualified distance education courses;

  (2) Collecting and providing school schedules for participating educational entities;

  (3) Facilitation of scheduling for qualified distance education courses;

  (4) Brokering of qualified distance education courses to be purchased by educational entities;

  (5) Assessment of distance education needs and evaluation of distance education services;

  (6) Compliance with technical standards as set forth by the Nebraska Information Technology Commission and academic standards as set forth by the State Department of Education related to distance education;

BACKGROUND
(Continued)

(7) Establishment of a system for scheduling courses brokered by the council and for choosing receiving educational entities when the demand for a course exceeds the capacity as determined by either the technology available or the course provider;

(8) Administration of learning management systems, either through the staff of the council or by delegation to an appropriate educational entity, with the funding for such systems provided by participating educational entities; and

(9) Coordination with educational service units and postsecondary educational institutions to provide assistance for instructional design for both two-way interactive video distance education courses and the offering of graduate credit courses in distance education.

The governance structure within the Distance Education project is recommended as part of the TLT Affiliate, with full implementation that began in 2017-2018.

- **Instructional Materials (I-Mat):** I-Mat has a long history of providing services statewide for school districts through Nebraska's network of ESUs. For approximately 40 years, the ESUs have worked together to purchase rights to media resources and make those available through local ESUs. Beginning in 2010-11, the fiscal management was moved under the ESUCC's central accounting system. ESUs contribute to the project for the "spring buy" and "special projects" each year, as needed and defined by the affiliate(s). The purpose of the I-Mat project is designed for research and development of digital resources. The governance structure within the I-MAT project is recommended as part of the TLT Affiliate, with full implementation that began in 2017-2018.

- **BlendED:** Beginning 2015-2016, a statewide committee comprised of NDE, ESUCC, and ESU staff recommended that three learning management systems (LMS) be included within the ESUCC market place. The recommended LMS included Schoology, Canvas, and BlackBoard. In addition to the LMS, the BlendED Advisory Committee was charged with providing a recommendation for a statewide Learning Object Repository (LOR). After a lengthy review, the recommendation included the integration of the current Learn360 project, Amazon Inspire, and the IlliniCloud ISLE program.

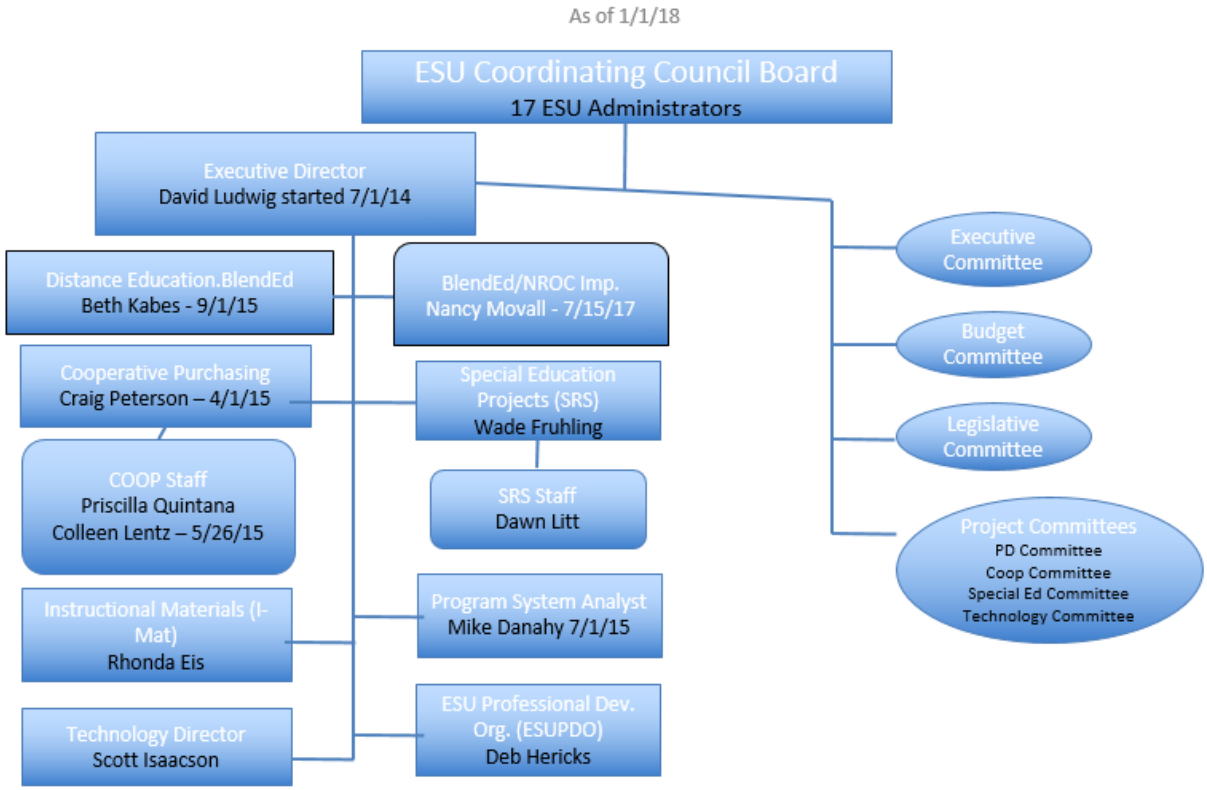
  The BlendEd Project leadership is comprised of a tiered governance structure that includes a BlendEd/Distance Education Director, co-chairs for the overall BlendEd Initiative, and leadership for the BlendEd Pilot Project. Specific duties for each level of leadership include: 1) the Director serving as a project manager for the BlendEd Project; 2) the BlendEd co-chairs providing leadership for the BlendEd Initiative; and 3) the BlendEd Pilot leadership providing the vision and guidance for the daily operations of the pilot program. In addition, a BlendEd Advisory Committee comprised of NDE, ESUCC, ESU staff and school district staff provides the direction and input for the BlendEd Project.

- **Special Education (SPED) Projects:** Three special education projects are managed by the ESUCC. The projects also transitioned in 2010-11 to the ESUCC from a fiscal agent management model under ESU 1. The purpose of the SPED Project is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska. Each participating ESU contributes a $5,500 annual fee in general support of the projects; additionally, each participating school is assessed a fee for services provided under the Student Records System (SRS) fee structure.

BACKGROUND
(Concluded)

- **Improving Learning for Children with Disabilities (ILCD):** ILCD is a State self-assessment Project that gathers information for Federal reporting requirements. The ILCD Project utilizes parent, teacher, and administration survey assessments. The survey results can be accessed via the ILCD website. The ESUCC's technology role includes purchasing, distributing, and scanning surveys. ESUCC staff provides technical assistance for the ILCD website and survey design.

- **Project PARA:** Project PARA is a web-based method for school districts to provide introductory training for their para-educators. The project assists schools in meeting the para-educator training requirements of No Child Left Behind, Title 92 NAC 11, and the Individuals with Disabilities Education Act. Project PARA is a collaborative effort between the University of Nebraska, the NDE, and Nebraska ESUs.



- **Student Records System (SRS):** SRS is an online special education record-keeping system designed to create all special education documents required by Title 92 NAC 51, including IEP, MDT, IFSP, and all required notices. The SRS is a highly secured system that organizes and stores documents and provides easy access to files from anywhere via the internet. SRS training is provided across the State for district staff and college and university staff.

MISSION STATEMENT

The mission of the ESUCC is to provide the most cost-effective educational support for the students, teachers, and school districts in each Nebraska educational service unit by facilitating statewide coordination of educational services and strategic planning.

EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL

INDEPENDENT AUDITOR'S REPORT

Educational Service Unit Coordinating Council
LaVista, Nebraska

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities and the major fund of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 1. This includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Educational Service

Unit Coordinating Council's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash-basis financial position of the governmental activities and the major fund of Educational Service Unit Coordinating Council as of August 31, 2018, and the respective changes in cash basis financial position for the year then ended in conformity with the basis of accounting described in Note 1.

Emphasis of Matters – Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements. Management's Discussion and Analysis, the Budgetary Comparison Schedule – Budget and Actual – General Fund, Notes to the Budgetary Comparison Schedule, and the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is fairly stated, in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in Note 1.

The Management's Discussion and Analysis, Budgetary Comparison Schedule – Budget and Actual – General Fund, and Notes to the Budgetary Comparison Schedule on pages 11 through 16, 29, and 30 herein have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2019, on our consideration of the Educational Service Unit Coordinating Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control over financial reporting and compliance.

Zachary Wells, CPA
Audit Manager
Lincoln, Nebraska

March 20, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Educational Service Unit Coordinating Council (ESUCC) provides the following discussion and analysis of the ESUCC's financial performance, as reflected in the financial report for the fiscal year ended August 31, 2018. Please read it in conjunction with the ESUCC's basic financial statements, which follow.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the ESUCC's financial statements. The provisions of Statement No. 34 (Statement 34) of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments," established standards for external financial reporting for all State and local government entities. These standards require three components for the ESUCC's basic financial statements: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other information (Budgetary Comparison Schedule, and Combining Schedule of Cash Basis Receipts and Disbursements – General Fund) in addition to the basic financial statements. These components are described below:

Government-Wide Financial Statements

These statements are intended to provide a broad view of the ESUCC's operations in a manner similar to the private sector, providing both a short-term and a long-term view of the ESUCC's financial position. The ESUCC prepared its government-wide statements on the cash basis of accounting. Under the cash basis, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Accordingly, the ESUCC's government-wide financial statements are not intended to present the financial position and results of operations in conformity with generally accepted accounting principles (GAAP) accepted in the United States of America. The government-wide financial statements include two statements, the Statement of Net Position and the Statement of Activities.

The *Statement of Net Position* on page 17 presents all of the ESUCC's assets on the cash basis, as described above.

The *Statement of Activities* on page 18 presents information showing how the ESUCC's net position changed during the reported year. Changes reported are on the cash basis, as described above. The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported, instead, as general receipts.

Fund Financial Statements

This is the second set of financial statements presented in the report. Under GAAP, these statements would be different from the government-wide statements in that these statements would use a different accounting approach and focus on the near-term inflows and outflows of ESUCC operations.

The ESUCC has only one fund, the General Fund. GAAP classifies funds into three categories – Governmental Funds, Proprietary Funds, and Fiduciary Funds. The General Fund of an entity is classified as a Governmental Fund, as it accounts for all basic services. The Fund Financial Statements, which can be found on pages 19 and 20, provide detailed information about the ESUCC's General Fund. A fund is a method of accounting that uses a set of accounts to maintain accountability and control over specific sources of funding and spending for a particular activity or objective. GAAP requires governmental funds to use the modified accrual basis of accounting.

The five projects that make up the General Fund in addition to ESUCC Administration are: ESU Professional Development Organization (ESUPDO); Nebraska ESU Cooperative Purchasing Unit (Coop); Distance Education; Instructional Materials (I-Mat); and Special Education.

Notes to the Financial Statements
The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in all of the basic financial statements. The notes can be found beginning on page 21.

Other Information
Following the basic financial statements and the accompanying notes thereto is additional information that further explains and supports the information in such financial statements. The other information consists of the Budgetary Comparison Schedule – Budget and Actual – General Fund and notes, and the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund. This information can be found beginning on page 29.

FINANCIAL AND OPERATING HIGHLIGHTS

The ESUCC's Net Position for the fiscal year ended August 31, 2018, compared to the fiscal year ended August 31, 2017, increased by $82,620. This increase is primarily due to the fact that the ESUCC's fiscal year ends in the middle of the Coop Annual Buy timeframe; therefore, its end of the year balance is directly affected by the timing of receipts of vendor administrative fees. The table on the following page provides a more detailed picture of the changes in net position.

FINANCIAL ANALYSIS OF ESUCC AS A WHOLE

Net Position
The ESUCC's assets totaled $1,259,285 at August 31, 2018, as compared to $1,176,665 at August 31, 2017. Due to the preparation of the financial statements on a cash basis for fiscal years ended August 31, 2018, and August 31, 2017, there were no liabilities as of August 31, 2018, and as of August 31, 2017.

Unrestricted net position is all other net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt." The ESUCC's unrestricted net position totaled $1,259,285 as of August 31, 2018.

	Net Position As of August 31	
	Cash Basis 2018	**Cash Basis 2017**
ASSETS:		
Cash and Cash Equivalents	$ 1,259,285	$ 1,176,665
Total Assets:	1,259,285	1,176,665
NET POSITION:		
Unrestricted	1,259,285	1,176,665
Total Net Position:	$ 1,259,285	$ 1,176,665

As of August 31, 2018, and as of August 31, 2017, the ESUCC's assets consisted of cash and cash equivalents.

The ESUCC did not have any liabilities as of August 31, 2018, and as of August 31, 2017.

The ESUCC's net position was $1,259,285 and $1,176,665 as of August 31, 2018, and 2017, respectively. The ESUCC's net position may vary based on receipts and disbursements in Cooperative Purchasing as well as other ESUCC projects.

Changes in Net Position

The condensed financial information below was derived from the Government-Wide Statement of Activities and reflects how the ESUCC's net position changed during the year. Following the table is management's analysis of the changes in net position for the fiscal year ended August 31, 2018.

Changes in Net Position

	Fiscal Year Ended August 31, 2018 Cash Basis	Fiscal Year Ended August 31, 2017 Cash Basis
Receipts:		
Program Receipts:		
Charges for Services	$ 1,645,105	$ 1,778,443
Operating Grants and Contributions	625,947	463,310
General Receipts:		
State Appropriations	542,992	565,593
Miscellaneous	12,960	4,499
Total Receipts	2,827,004	2,811,845
Disbursements:		
ESU Professional Development	961,044	798,063
Distance Education Council	340,105	362,804
Special Education	512,517	428,452
Instructional Materials	124,298	288,947
Nebraska ESU Cooperative	806,420	800,803
Total Disbursements	2,744,384	2,679,069
Change in Net Position	82,620	132,776
Net Position - Beginning	1,176,665	1,043,889
Net Position - Ending	$ 1,259,285	$ 1,176,665

Receipts

The largest single source of receipts for the ESUCC is charges for services. Charges for services are primarily receipts generated by the Nebraska ESU Cooperative Purchasing Unit for services provided to ESUs and school districts and program receipts for the various projects. Charges for services for the fiscal year ended August 31, 2018, were $1,645,105 and for the fiscal year ended August 31, 2017, were $1,778,443. ESUCC's charges for services declined largely due to a vendor the ESUCC had used for student assessments being awarded a State Contract, and thus ESUCC no longer provided those services that had previously been invoiced to schools as now the State of Nebraska paid for those services.

The second largest source of receipts, during fiscal year 2018, is a grant from the Nebraska Department of Education. Total grants received during the fiscal year ended August 31, 2018, were $625,947 and for the fiscal year ended August 31, 2017, were $360,190. The increase was caused by the Innovative Grant award increasing significantly during the fiscal year.

Disbursements

The largest purpose of disbursements for the ESUCC was for goods and services disbursed by the ESU Professional Development Organization (ESUPDO), which provides training for ESU employees statewide. Disbursements for these services for the fiscal year ended August 31, 2018, were $961,044

and for the fiscal year ended August 31, 2017, were $798,063. The largest cause of this increase was due to an increase in the Innovative Grant disbursements. The Innovative Grant disbursements increased by $410,844 during the fiscal year.

The second largest purpose of disbursements for the ESUCC was for the Nebraska ESU Cooperative Purchasing, which were then provided to ESUs and school districts. Disbursements for these services for the fiscal year ended August 31, 2018, were $806,420 and for the fiscal year ended August 31, 2017, were $800,803.

The remaining disbursements for the ESUCC relate primarily to the various other programs managed by the ESUCC. Disbursements for various programs for the fiscal year ended August 31, 2018, were $976,920 and for the fiscal year ended August 31, 2017, were $1,080,203. The decrease in these programs was caused by staff time being reallocated to assist on the Innovative Grant.

ANALYSIS OF ESUCC'S GENERAL FUND VARIATIONS

The table below provides a comparison of budgeted receipts and disbursements to actual receipts and disbursements.

	Budget	Actual	Positive (Negative) Variance
Beginning Balance	$ 1,144,760	$ 1,176,665	$ 31,905
Total Receipts	4,911,040	2,827,004	(2,084,036)
Total Disbursements	4,911,040	2,744,384	2,166,656
Net Increase (Decrease)	-	82,620	82,620
Ending Balance	$ 1,144,760	$ 1,259,285	$ 114,525

The largest variance between budgeted and actual receipts was Local Receipts, which were budgeted to be $2,619,460 but were actually $1,645,105. The majority of this variance can be explained primarily by the budgeted flow-through revenues included in the budget.

The largest variances between budgeted and actual disbursements were due to General Administration, which had budgeted $1,421,492 but incurred actual costs of $269,240. This difference is caused by ESUCC budgeting for potential grants, which are unknown at the time the budget is prepared.

FACTORS THAT WILL AFFECT THE FUTURE

Several factors influence the future of the ESUCC and its projects. Projects that are based on conditions of ESUs and school districts, as far as purchasing of products and services, tend to vary depending on the levels of participation in Cooperative Purchasing, and professional development. General economics have created an environment where schools and ESUs have fewer resources available to buy goods and services. Additionally, State appropriations have been reduced for support of the ESUCC and the Distance

Education program. These reductions will impact overall resources available for the foreseeable future. Long-term trends will include further strategic reorganization of projects and services to address the likelihood of a decrease in future resources. Strategic reorganization efforts impacting the future will include organizing professional development services under a new structure that will allow for the development of new statewide projects. Additionally, existing projects in technology are being organized to most efficiently and effectively manage the changing environment in educational technology. Future fiscal years will continue to combine efforts in instructional materials and distance education under a "BlendEd" initiative. Similarly, professional development efforts will include new statewide projects and services. Future projects and services of the ESUCC will be maintained through expanded partnerships and possibly through statewide grants or contracts facilitated by the ESUCC.

CONTACTING ESUCC'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers a general overview of the ESUCC's finances and to demonstrate the ESUCC's accountability for the money with which it is entrusted. If you have questions about this report or need additional financial information, contact David M. Ludwig, Educational Service Unit Coordinating Council Executive Director, 6949 South 110th Street, LaVista, Nebraska, 68128. The telephone number is (402) 597-4915, and the email address is dludwig@esucc.org.

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended August 31, 2018

1. Summary of Significant Accounting Policies

A. Organization

The Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an Administrator Representative from each of the 17 ESUs and an Executive Director. The ESUCC was created by LB 603 (2007) and officially came into existence, according to statute, on July 1, 2008. Neb. Rev. Stat. § 79-1246(1) (Reissue 2014) outlines the ESUCC's general responsibilities and duties as follows:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC by the Nebraska Legislature, the 17 ESUs worked in partnership to provide statewide activities. Based on the above statutory authority, the ESUCC decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. Although identified separately in the "ESUCC Admin and Professional Development Organization" column of the Combining Schedule, the ESUCC reports the general administrative costs of the ESUCC overall, along with the ESUPDO project costs. The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. This is accomplished annually by ESU 17 developing employment contracts with all ESUCC project employees, including the Executive Director of the ESUCC. Thus, all ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC reimburses ESU 17 for all salaries and benefits for these employees.

The following is a brief description of each statewide project budgeted for and administered by the ESUCC:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide training for ESU employees statewide. Professional development is among the core services identified by State statute for ESUs.

- **Distance Education:** Distance Education originated with the Distance Education Council, which was formed by legislation in 2006 and has since evolved into a program under the ESUCC. Neb. Rev. Stat. § 79-1248 (Reissue 2014) includes, among the powers and duties of the ESUCC, various responsibilities pertaining to the operation of the State's distance education network.

- **Nebraska ESU Cooperative Purchasing (Coop):** Coop provides cooperating purchasing services to Educational Service Unit Member schools throughout the State of Nebraska.

1. Summary of Significant Accounting Policies (Continued)

- **Instructional Materials (I-Mat):** I-Mat is a statewide project that purchases rights to media materials and makes them available through local ESUs in a variety of formats.

- **Special Education (SPED) Projects:** The purpose of the SPED Projects is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska.

- **BlendEd Initiative (Technology Direction):** In May 2013, the position of Technology Director was formed to coordinate this work across the ESUCC project areas. Projects involved in this effort are the Distance Education and I-Mat, including Learning Object Repository. Blended education calls for making strategic choices about when face-to-face (synchronous) instruction is needed and when and how online (asynchronous) instruction can be best used to provide elements of student control over time, place, path, and pace and provide more equity, efficiency, and flexibility.

B. Reporting Entity

The ESUCC is a governmental entity established under and governed by the laws of the State of Nebraska. In evaluating how to define the ESUCC for financial reporting purposes, all potential component units have been considered. The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, and the ability to significantly influence operations and accountability for fiscal matters. Based upon the above criteria, the accompanying financial statements include all funds for which the ESUCC has oversight responsibility. The ESUCC does not have any component units and has only one fund – the General Fund. The ESUCC is not considered a component unit of any other governmental entity.

C. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The reporting model, based on GASB Statement 34, focuses on the ESUCC as a whole in the government-wide financial statements and major individual funds in the fund financial statements. The government-wide financial statements report information on all of the activities of the primary government and any component units. The ESUCC has only one fund – the General Fund – and has no component units. Governmental activities, which normally are supported by taxes and intergovernmental receipts, are reported separately.

1. Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported instead as general receipts.

D. Fund Types

The accounts of the ESUCC are organized on the basis of funds. The ESUCC has only one governmental fund type – the General Fund.

E. Basis of Accounting

The ESUCC prepares its financial statements, both its governmental-wide and fund statements, on the cash basis of accounting. Under the cash basis of accounting, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Consequently, these financial statements are not intended to present financial information in accordance with generally accepted accounting principles.

F. Cash and Cash Equivalents

In addition to the ESUCC's bank account, this classification includes all short-term investments, such as certificates of deposit, and investments in the Nebraska Public Agency Investment Trust (NPAIT), having original maturities of less than two years. NPAIT deposits and investments include certificate of deposits, demand deposit accounts, repurchase agreements, and government agency securities. These investments are valued at amortized cost, which approximates fair value due to the short-term nature of the investments.

G. Basis of Presentation

The ESUCC adopted the provisions of Statement No. 34 (Statement 34) of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." Statement 34 established standards for external financial reporting for all State and local government entities, which includes government-wide financial statements, fund financial statements, and the classification of net position into three components: (a) invested in capital assets, net of related debt; (b) restricted; and (c) unrestricted. The ESUCC reported only unrestricted net position.

H. Net Position Classification

Government-Wide Statements. Net Position is displayed as unrestricted net position. Unrestricted net position is all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

1. Summary of Significant Accounting Policies (Concluded)

Fund Financial Statements. Governmental fund equity is classified as fund balance. ESUCC has designated its fund balance as Unassigned. Unassigned fund balance is the portion of the General Fund that is not restricted, committed, or assigned for a specific purpose.

I. Capital Assets

Capital assets are recorded as disbursements at the time of purchase. This differs from generally accepted accounting principles, which require capital assets to be capitalized and depreciated over the life of the asset.

J. Estimates

The preparation of financial statements in conformity with the cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K. Compensated Absences

The ESUCC contracts with ESU 17, through an interlocal agreement, to provide staffing for the ESUCC. The ESUCC has entered into negotiated agreements with contracted personnel. In those agreements, the ESUCC has agreed to provide benefits for personal and sick leave. In accordance with the cash basis of accounting, these benefits are recorded as a disbursement when paid.

2. Deposits and Investments

Listed below is a summary of the deposit and investment portfolio that comprises the Cash and Cash Equivalents on the ESUCC's August 31, 2018, basic financial statements.

Deposits – Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. At August 31, 2018, the ESUCC held bank deposits and also held funds in certificates of deposits, demand deposits, and money market accounts with the Nebraska Public Agency Investment Trust (NPAIT).

The NPAIT was established in June 1996 through the Interlocal Cooperation Act and commenced operations on July 25, 1996. The NPAIT was established to assist public bodies throughout the State of Nebraska with the investment of their available cash reserves. Participation in the investment trust is voluntary for its members. The objective of the NPAIT is to provide its owner members with a conservative and effective investment alternative tailored to the needs of its members. The NPAIT currently consists of and operates one portfolio and a fixed-term account. The NPAIT portfolio management generally follows established investment criteria developed by the Securities and Exchange Commission (SEC) for money market funds designed to offer acceptable yield while maintaining liquidity. The NPAIT is not registered with the SEC as an

2. Deposits and Investments (Continued)

investment company. For a copy of the most recent audit report for the NPAIT, which is as of June 30, 2018, contact David Ludwig, Executive Director, Educational Service Unit Coordinating Council, 6949 South 110th Street, LaVista, Nebraska, 68128. The telephone number is (402) 597-4915, and the email address is dludwig@esucc.org.

The ESUCC's bank balance and carrying amount of cash and cash equivalents at August 31, 2018, are set out below:

	Bank Balance	Carrying Amount
Bank Deposits	$ 58,959	$ (115,979)
NPAIT Investments	1,375,264	1,375,264
Total	**$ 1,434,223**	**$1,259,285**

Bank Deposits – The ESUCC does not have a policy for custodial credit risk associated with deposits.

The ESUCC is required by State statute to collateralize bank deposits in excess of federally insured amounts. The bank deposits at August 31, 2018, were covered by the Federal Depository Insurance Corporation (FDIC).

The carrying amount for the Bank Deposit is negative because at August 31, 2018, the outstanding checks exceeded the bank balance. However, the NPAIT account sends funds to the bank account when checks clear the bank.

Investments – The NPAIT may legally invest in direct obligations of, as well as other obligations guaranteed as to principal by, the U.S. Treasury and U.S. Agency and Instrumentalities and in bank repurchase agreements. It may also invest in guaranteed student loans, loans guaranteed by the Small Business Administration, Federal Home Administration, or any other agency of the United States, as well as any other type of investment permitted for public agencies by State law. At June 30, 2018, all of the NPAIT's investments in U.S. agencies and repurchase agreements mature in a period of less than two years.

At August 31, 2018, the ESUCC had $1,375,264 in NPAIT investments. These investments consisted of government agency securities and repurchase agreements, which were collateralized by U.S. government securities.

The ESUCC is exposed to the risks noted below in relation to its investments in the NPAIT. The ESUCC does not have a policy for these risks.

Interest Rate Risk – As a means of limiting its members' exposure to fair value losses resulting from rising interest rates, all of the NPAIT's investments have maturities of less than two years.

2. Deposits and Investments (Concluded)

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. According to the latest audit report on the NPAIT, as of June 30, 2018, the NPAIT's investments in government agency securities were rated as AA+.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the NPAIT will not be able to recover the value of its investment or collateral securities that are in the possession of the outside party.

The ESUCC has no specific policy as to credit risk. All of the underlying securities for the NPAIT investments in repurchase agreements at June 30, 2018, the latest audit report date for the NPAIT, are held by the counterparties in the NPAIT's name.

Concentration of Credit Risk – The NPAIT places no limit on the amount that may be invested in any one issuer.

Reconciliation of deposits and investments for the ESUCC to Cash and Cash Equivalents on the Statement of Net Position, as of August 31, 2018, is as follows:

Carrying Value:		
Bank Deposits	$	(115,979)
NPAIT Investments		1,375,264
Total	$	1,259,285

3. Contingencies and Commitments

Risk Management – The ESUCC is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors, or omissions, injuries to employees, and natural disasters. During the fiscal year, the ESUCC chose to purchase the following commercial insurance policies to cover these risks:

	Limit	Deductible
Personal Property Coverage (per location)	$ 1,000 to $ 200,000	$ 500
Electronic Data Processing Equip. (Various Coverage types from $5,000 to $50,000. With limits from $10,000 to $200,000.)	$ 200,000	$ 1,000
Commercial General Liability (Each Occurrence limit-$1,000,000, Aggregate Limit-$2,000,000)	$ 2,000,000	$ -
Commercial Umbrella Liability Coverage (Each Occurrence limit-$1,000,000, Aggregate Limit-$1,000,000)	$ 1,000,000	$ -

3. Contingencies and Commitments (Concluded)

	Limit	Deductible
Automobile (Non-Owned & Hired) Liability	$ 1,000,000	$ -
Automobile (Comprehensive, Collision)	$ 50,000	$ 250
Workers' Compensation Insurance	$ 500,000	$ -
Transportation Coverage	$ 300,000	$ 1,000

No insurance claims resulting from these risks were filed during the fiscal year by the ESUCC. Settled claims resulting from these risks have not exceeded the above coverage in the past three years.

4. School Retirement

Plan Description

The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. Thus, all of the ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC agreed to reimburse ESU 17 for all salaries and benefits for these employees. Benefits provided by the ESUCC included retirement benefits, as ESU 17 employees are eligible to be members of the Nebraska School Employees Retirement System. Thus, ESU 17 contributes to the Nebraska School Employees Retirement System on behalf of the ESUCC from retirement contributions collected from the ESUCC. The Nebraska School Employees Retirement System is a cost-sharing, multiple-employer defined benefit pension plan administered by the Nebraska Public Employees Retirement System (NPERS). NPERS provides retirement and disability benefits to plan members and beneficiaries. The School Employees Retirement Act establishes benefit provisions. NPERS issues a publicly available financial report that includes financial statements and required supplementary information for NPERS. That report may be obtained by writing NPERS, 1526 K Street, Suite 400, P.O. Box 94816, Lincoln, NE, 68509-4816, or by calling 1-800-245-5712.

Plan members were required to contribute 9.78% of their annual covered salary from September 1, 2017, to August 31, 2018. The ESUCC is required to contribute 101% of the employee contribution. The contribution requirements of the plan members and the ESUCC are established by the Nebraska statutes. For the fiscal year ended August 31, 2018, the ESUCC employees contributed $112,034, and the ESUCC contributed $113,155, which equaled the required contribution. For the fiscal years ended August 31, 2017, and August 31, 2016, the ESUCC employees contributed $101,404 and $87,171, respectively, and the ESUCC contributed $102,418 and $88,042 respectively, which equaled the required contribution.

5. Lease Commitments

ESUCC leases office facilities under operating leases. The future minimum annual lease payments are as follows:

5. Lease Commitments (Concluded)

Year	Governmental Activities
2019	$ 20,758

Operating lease payments for the year ended August 31, 2018, totaled $44,319.

6. Reclassification

The ESUCC records in its general ledger employee salaries and benefits; however, the ESUCC staff are ESU 17 employees, as the ESUCC contracts through an interlocal agreement, with ESU 17 to provide staffing for the ESUCC, making all employees of the ESUCC contract employees. To better reflect the nature of these disbursements, $1,339,579 of salaries and benefits was classified as Purchased Services on the Statement of Cash Receipts, Disbursements, and Changes in Cash Basis Fund Balance.

7. Accounts Receivable

At August 31, 2018, the ESUCC had $136,475 in accounts receivable. In accordance with the cash basis of accounting, these receivables are not recorded on the financial statements. They are recorded as receipts on the financial statements when the ESUCC receives the funds.

8. Unemployment Compensation Insurance

The ESUCC has adopted the reimbursable option of the State's Unemployment Compensation Insurance Program. Under this option, a claimant would receive unemployment compensation from the State. The ESUCC is liable to reimburse the State the actual amount of the claim(s).

9. Related Parties

The governing body for the ESUCC consists of the Administrator from each of the 17 ESUs across the State. The ESUCC coordinates statewide activities and provides services for the 17 ESUs. In turn, the ESUCC bills each of the ESUs for those services.

10. Subsequent Event

In a prior year, the ESUCC was involved in litigation with ESM Solutions Corporation (ESM), a vendor with whom it had contracted. During the fiscal year, ESUCC paid ESM $33,333 as part of a settlement agreement. As part of the settlement agreement, ESUCC is required to pay ESM $33,333 during each of the next two fiscal years. These payments will conclude on September 30, 2019.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE

For the Fiscal Year Ended August 31, 2018

BUDGETARY COMPARISON SCHEDULE

Basis of Budgeting – The ESUCC prepares its budget on the cash basis, which is consistent with the financial statement presentation.

Budget Process and Property Taxes – The ESUCC follows these procedures in establishing the budgetary data reflected in the accompanying statements:

- Public hearings are conducted at public meetings to obtain taxpayer comments.

- Prior to September 20, the budget is legally adopted by the Board through passage of a resolution. Total disbursements may not legally exceed total appropriations. Appropriations lapse at year end, and any revisions thereto require Board approval.

EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Educational Service Unit Coordinating Council
LaVista, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise Educational Service Unit Coordinating Council's basic financial statements, and have issued our report thereon dated March 20, 2019. The report notes the financial statements were prepared on the basis of cash receipts and disbursements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Educational Service Unit Coordinating Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Educational Service Unit Coordinating Council's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Educational Service Unit Coordinating Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Additional Items

We noted certain matters that we reported to the management of the Educational Service Unit Coordinating Council in a separate letter dated March 20, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Zachary Wells, CPA
Audit Manager

March 20, 2019

Educational Service Unit Coordinating Council
LaVista, Nebraska

Dear Council:

We have audited the basic financial statements of the Educational Service Unit Coordinating Council (ESUCC) for the fiscal year ended August 31, 2018, and have issued our report thereon dated March 20, 2019. In planning and performing our audit of the basic financial statements of the ESUCC, we considered internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements. An audit does not include examining the effectiveness of internal control and does not provide assurance on internal control. We also performed tests of the ESUCC's compliance with certain provisions of laws, regulations, contracts, and grants.

During our audit, we noted certain matters involving internal control over financial reporting and other operational matters that are presented here. This comment and recommendation is intended to improve the internal control over financial reporting or result in operational efficiencies in the following area:

Segregation of Duties

During our review of the ESUCC receipt and capital asset processes, as well as our testing of selected transactions, we noted a lack of segregation of duties. We also noted compensating controls adopted by the ESUCC. However, these compensating controls do not completely eliminate the risk of errors or fraud occurring and going undetected. We noted the following:

- Receipts: There is a lack of segregation of duties over the receipts process due to two employees having the ability to perform all of the following processes: receive checks and record initial control, perform the deposit entry, and reconcile the deposit document to the general ledger. We noted compensating controls were in place during the fiscal year, including when all steps of the deposit process are performed by a single person, the deposit slip and ledger are reviewed and initialed by a second person, and review and approval of deposits, bank statements, and reconciliation reports by the ESUCC.

- Capital Assets: There is a lack of segregation of duties over the capital assets process. Five employees had the ability to add capital assets to, as well as remove them from, the accounting records. The ESUCC stated that it had compensating controls in place during the fiscal year, including a review of capital asset activity at the monthly staff meetings.

A similar finding was noted in the previous reports.

A good internal control plan involves an adequate segregation of duties to ensure that no one person is in a position both to perpetuate and to conceal errors or irregularities. When one individual is able to perform all phases of a transaction, there is an increased risk for errors or fraud to occur and go undetected, resulting in loss or misuse of ESUCC funds.

> We recommend the ESUCC review its staffing and assignments to determine if an adequate segregation of duties can be obtained, so no one individual is able to process a transaction from being to end. If an adequate segregation of duties cannot be obtained, we recommend the ESUCC continue monitoring to ensure compensating controls are in place and effective.

ESUCC Response: Receipts - We will continue to monitor and ensure compensating controls are in place and effective. We will also continue to ensure that all transactions are reviewed and approved by multiple personnel. We will continue to review at monthly budget meetings, FAB Committee meetings, and ESUCC Board meetings.

Capital Assets - We will continue to monitor during monthly budget meetings and scheduled staff meetings for review and documentation.

* * * * *

It should be noted this report is critical in nature, as it contains only our comments and recommendations on the areas noted for improvement and does not include our observations on any strong features of the ESUCC.

Draft copies of this report were furnished to the ESUCC to provide management with an opportunity to review the report and to respond to the comment and recommendation included in this report. The formal response received has been incorporated into this report. A response that indicates corrective action has been taken was not verified at this time, but it will be verified in the next audit.

This report is intended solely for the information and use of the ESUCC, the appropriate Federal and regulatory agencies, and citizens of the State of Nebraska, and it is not intended to be, and should not be, used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Sincerely,

Zachary Wells, CPA
Audit Manager

Educational Service Unit Coordinating Council
Finance, Audit, and Budget Committee Meeting
May 7, 2019 at 8:30 AM Central
ESU No.10
76 Plaza Blvd
Kearney, NE 68845

1. Call to Order
Notice to visitors: To be heard at this meeting, the "Request to be Heard" form, must be completed and submitted to the Secretary to the Executive Director of ESUCC. The President of the Board of ESUCC will call upon visitors wishing to address the Board in the order they were submitted or by subject.
Pursuant to Section 84-1411 of the Nebraska Statutes, notice of this meeting was given by advertisement on the ESUCC website, NE Public Meeting site, and host site.

Open Meetings Law: Pursuant to Section 84 - 1412 of the Nebraska Statutes, the public is hereby informed that a current copy of the Nebraska Open Meetings Act is posted in this meeting room.

Closed Session:
The council may enter closed session during the meeting when it determines that doing so is appropriate and is authorized by the provisions of the Open Meetings Act.

Meeting called to order at 8:35 a.m.

2. Roll Call

3. Agenda Item

3.1. Approve Claims, Financials Statements, and Assets for Month of March

1. Approve Claims, Financials Statements, and Assets for Month of March

Approve Claims, Financials Statements, and Assets for Month of March Passed with a motion by Barnes ESU 11 and a second by Heimann ESU 01.

Heimann ESU 01: Yea

Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.2. Approval of April Expenses to be paid in May.
Total expense for the month of April to be paid in May is $186,401.28.
Total expense for the month of April to be paid in May is $186,401.28.

Recommend motion to approve April expenses to be paid in May Passed with a motion by Erickson ESU 17 and a second by Heimann ESU 01.

Heimann ESU 01: Yea
Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.3. Recommend approval of May, June, July, August claims as approved by Executive Director
Recommend approval of May, June, July, August claims as approved by Executive Director

Approval of May, June, July, August claims

Recommend approval of May, June, July, August claims as approved by Executive Director
Passed with a motion by Heimann ESU 01 and a second by Erickson ESU 17.

Heimann ESU 01: Yea
Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.4. Monthly Staff Budget Meeting

Monthly budget meeting was held on Thursday, May 2nd. Financial reports were reviewed.

3.5. NDE/ESUCC MOU

Executive Director briefly discussed an NDE MOU. It was noted that we must continue to move forward and make sure contracts are in place as needed.

3.6. Approve/Accept ESUCC State Audit Final Report

Review of State Audit final report.

Approve/Accept ESUCC State Audit Final Report Passed with a motion by Lofquist ESU 09 and a second by Heimann ESU 01.

Heimann ESU 01: Yea
Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.7. ESUCC Credit Card

3.7.1. Recommend approval of new credit card resolution authorization
Currently authorized on the ESUCC Account is:
Jeff West
Dennis Radford
David M Ludwig
Priscilla Quintana

New authorization:
Larianne Polk
Geraldine Erickson
Kraig Lofquist
Priscilla Quintana
Currently authorized on the ESUCC Account is:
Jeff West
Dennis Radford
David M Ludwig
Priscilla Quintana

New authorization:

Larianne Polk
Geraldine Erickson
Kraig Lofquist
Priscilla Quintana

Recommend approval of new credit card resolution Passed with a motion by Barnes ESU 11 and a second by Heimann ESU 01.

Heimann ESU 01: Yea
Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.7.2. Recommend approval to suspend David Ludwig's credit card on June 30 and obtain a new card by July 1 for Kraig Lofquist with the same credit limits.

Recommend approval to suspend David Ludwig's credit card on June 30 and obtain a new card by July 1 for Kraig Lofquist Passed with a motion by Erickson ESU 17 and a second by Barnes ESU 11.

Heimann ESU 01: Yea
Schnoes ESU 03: Yea
Mowinkel ESU 08: Yea
Lofquist ESU 09: Yea
Barnes ESU 11: Yea
Erickson ESU 17: Yea
Yea: 6, Nay: 0

3.8. AESA Dues

ESUCC will pay the AESA dues for all ESUs , approximately $7500.

3.9. Long Term Fiscal Goals
Overall goals - $300,000

NROC - $135,000 (NDE ACT Line Item Approval and signed agreement in January???)
Isaacson - $164,000 (NDE/ESUCC MOU with Contract for services with NDE

ADVISER)
Back-up Software - $ 25,985 (ESU 3 Collaborative Efforts/Sharing of Resources)
Leases - $ 50,000 (Yearly Expense)
Hardware - $ 35,000 (2018-19 Line Item in Innovative Grant with ongoing yearly needs)

SRS Development and Expansion (IlliiCloud)
Overall goals - $300,000

NROC - $135,000 (NDE ACT Line Item Approval and signed agreement in January???)
Isaacson - $164,000 (NDE/ESUCC MOU with Contract for services with NDE ADVISER)

WITHDRAWALS OUTSTANDING - NOT CHARGED TO ACCOUNT

NO.	$	
TOTAL	$	

BEFORE YOU START

PLEASE BE SURE YOU HAVE ENTERED IN YOUR REGISTER ALL AUTOMATIC TRANSACTIONS SHOWN ON THE FRONT OF YOUR STATEMENT.

YOU SHOULD HAVE ADDED IF ANY OCCURRED:
1. Loan advances.
2. Credit memos.
3. Other automatic deposits.
4. Interest paid.

YOU SHOULD HAVE SUBTRACTED IF ANY OCCURRED:
1. Automatic loan payments.
2. Automatic savings transfers.
3. Service charges.
4. Debit memos.
5. Other automatic deductions and payments.

BALANCE SHOWN ON THIS STATEMENT $_____

ADD

DEPOSITS NOT SHOWN ON THIS STATEMENT (IF ANY) $_____

_____

_____

TOTAL $_____

SUBTRACT -

WITHDRAWALS OUTSTANDING $_____

BALANCE $_____

SHOULD AGREE WITH YOUR REGISTER BALANCE AFTER DEDUCTING SERVICE CHARGE (IF ANY) SHOWN ON THIS STATEMENT.

Please examine immediately and report if incorrect. If no reply is received within sixty (60) days the account will be considered correct.

IN CASE OF ERRORS OR QUESTIONS ABOUT YOUR ELECTRONIC TRANSFERS

Telephone or write us at the telephone number or address located on the front of this statement as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer listed on the statement or receipt. We must hear from you no later than 60 days after we sent the FIRST statement on which the problem or error appeared.

1) Tell us your name and account number (if any).
2) Describe the error or the transfer you are unsure about, and explain as clearly as you can why you believe it is an error or why you need more information.
3) Tell us the dollar amount of the suspected error.

If you tell us orally, we may require that you send us your complaint or question in writing within 10 business days.

We will determine whether an error occurred within 10 business days after we hear from you and will correct any error promptly. If we need more time, however, we may take up to 45 days to investigate your complaint or question. If we decide to do this, we will credit your account within 10 business days for the amount you think is in error, so that you will have the use of the money during the time it takes us to complete our investigation. If we ask you to put your complaint or question in writing and we do not receive it within 10 business days, we may not credit your account.

For errors involving new accounts, point-of-sale, or foreign-initiated transactions, we may take up to 90 days to investigate your complaint or question. For new accounts, we may take up to 20 business days to credit your account for the amount you think is in error.

We will tell you the result within three business days after completing our investigation. If we decide that there was no error, we will send you a written explanation. You may ask for copies of the documents that we used in our investigation.

BACKGROUND

The Nebraska Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an administrator representative from each ESU. The ESUCC was created by LB 603 (2007) and officially came into existence, per statute, on July 1, 2008. Fiscal year 2008-2009 was the first year of operation for the ESUCC. The duties of the ESUCC are set out at Neb. Rev. Stat §§ 79-1245 to 79-1249 (Reissue 2014, Cum. Supp. 2018). Section 79-1246(1) provides the following:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC, the legislature passed LB 1208 (2006), which created the Distance Education Council (DEC). The duties and responsibilities of the DEC were transferred to the ESUCC with the passage of LB 603.

While discussing the formation of the ESUCC, the administrators for the ESUs considered the intent of LB 603. In consultation with legal counsel, policy makers, and various State officials, it was decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. In order to transition to the new structure, the ESUCC established a master services agreement with each ESU. Additionally, fiscal agents for each of the projects were continued in the transition to the ESUCC.

In April 2010, the ESUCC held a planning session and adopted a new organizational chart and administrative structure to manage the statewide projects by September 1, 2010. The new organizational structure organized each of the statewide projects under the administration of a single entity and under management of the ESUCC Executive Director. Much of this transition, including centralizing the accounting, policies, and procedures, was completed during the summer of 2010.

Although complete, this transition continues presently with the review of policies and procedures, as well as the development of strategic plans for each project and the ESUCC as a whole. Additionally, Title 92 NAC 84-003.02A1 provides the following:

> *The ESU administrator or his or her designee shall participate in two jointly established meetings with representatives of the Department and the ESU Coordinating Council annually to establish the focus and coordination of necessary core services based on priorities and on needs that are identified through the analysis of data.*

The Nebraska Department of Education (NDE) and the ESUCC meet during October and April of each year to identify collaborative efforts to meet the core service needs of ESUs and school districts.

BACKGROUND
(Continued)

Overview of Statewide Projects and Activities:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide statewide training for ESU employees and key NDE Staff statewide. Professional development is among the core services identified by State statute for ESUs. The ESUPDO consists of five affiliate groups comprised of ESU employees across the 17 ESUs with representation from essential NDE Staff. As the NDE and the ESUCC continue with statewide efforts, alignment with the NDE Strategic Plan, as well as the six tenets of AQuESTT (Accountability for a Quality Education System, Today and Tomorrow), will better define the direction for the ESUPDO. These groups are the following:

    - **Staff Development Affiliate (SDA):** Members are responsible for providing staff development for their school districts and have assisted the NDE's efforts on statewide and local assessment as well as school improvement for Nebraska's school districts.

    - **Technology Assistance Group (TAG):** Members provide assistance to school districts in the dissemination and integration of new educational technologies deployed by school districts. Additionally, TAG members may provide assistance to school districts in the use of new software and computer applications, including statewide assessment. The governance structure within the TAG Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate with full implementation beginning 2017-2018.

    - **Network Operations Committee (NOC):** NOC supports the extensive communications network within and among the ESUs and school districts. NOC provides network security and protocols for its districts and ESUs and ensures that the communications network for distance education, internet, email, and internet protocol phones are functioning and secure. Statewide, this group establishes common frameworks and capacities for assisting one another to help ensure the education network functions well.

    - **Instructional Materials Affiliate (I-Mat):** I-Mat consists of media professionals from across the State. It serves the dual role of providing for and assisting school districts in using and implementing the statewide I-Mat digital resources. Originally, I-Mat served to ensure that school districts had access to educational films, videos, and DVDs. Currently, I-Mat is developing plans for digital delivery of library and media resources. This service is among the core services identified by State statute. The governance structure within the I-MAT Affiliate is recommended as part of the Teaching and Learning with Technology (TLT) Affiliate, with full implementation beginning 2017-2018.

    - **Teaching and Learning with Technology (TLT):** Between 2015 and 2017, membership for TAG, I-Mat, and Distance Education began a dialogue regarding combined efforts within the three affiliates/projects based upon the fact that 46% of the membership serve in multiple roles. Formalized discussion began during January of 2016 and, as a result of the membership's efforts, the concept of a newly formed affiliate, TLT, evolved. The initial meeting regarding the development of the TLT began with the following stated purpose:

BACKGROUND
(Continued)

Enhance communication through efficient and effective planning, development and implementation while maintaining autonomy of each affiliate.

The development and implementation of the TLT governance and structure will continue throughout the 2016-17 year, with final approval made by the ESUCC during March of 2017 and full implementation beginning 2017-2018.

- **ESU Special Populations Directors (ESPD):** This affiliate group consists of the special education directors and staff from across the State. It was included in ESUPDO as the need for special education professional development for special education and classroom teachers emerged in the age of standards and assessment, along with the need to develop and share professional development efforts for special education teachers and classroom teachers alike. ESPD is also involved with the NDE in providing leadership for special education training and support.

- **Nebraska ESU Cooperative Purchasing (Coop):** The Coop provides cooperative purchasing services to ESU member schools throughout the State of Nebraska. The service is offered by the ESUCC and Nebraska's 17 ESUs in a joint effort. The ESUCC serves as the governing body for cooperative purchasing.

  Per the ESUCC's website (http://www.esucc.org/COOP-PURCHASING), the Coop's vision is to "provide compliant, competitive, aggregated bidding and purchasing to control and reduce costs to its members by maximizing efficiency of resources and processes in Nebraska and Nationally."

  Additionally, the ESUCC's website provides the following information regarding the Coop:

  ESUCC Cooperative Purchasing represents 17 Educational Service Units statewide who in turn service Nebraska school districts with over 300,000 students and is currently in its 5th decade of operation. ESUCC Cooperative Purchasing is authorized to coordinate purchases for public school districts, nonpublic school systems, other ESUs, and other public agencies, including any county, city, village, school district, or agency of the state government, any drainage district, sanitary and improvement district, or other municipal corporation or political subdivision of the State of Nebraska.

- **Distance Education:** Created by LB 1208 (2006), the Distance Education Council began as a State project with ESU 10 serving as the fiscal agent. Coordination of the Distance Education project has since been taken over by the ESUCC, however. In striving to build, improve, and maintain the State's Distance Education network, the ESUCC exercises the powers and duties specified at Neb. Rev. Stat. § 79-1248 (Reissue 2014), as follows:

  (1) Providing public access to lists of qualified distance education courses;

  (2) Collecting and providing school schedules for participating educational entities;

  (3) Facilitation of scheduling for qualified distance education courses;

  (4) Brokering of qualified distance education courses to be purchased by educational entities;

  (5) Assessment of distance education needs and evaluation of distance education services;

  (6) Compliance with technical standards as set forth by the Nebraska Information Technology Commission and academic standards as set forth by the State Department of Education related to distance education;

BACKGROUND
(Continued)

(7) Establishment of a system for scheduling courses brokered by the council and for choosing receiving educational entities when the demand for a course exceeds the capacity as determined by either the technology available or the course provider;

(8) Administration of learning management systems, either through the staff of the council or by delegation to an appropriate educational entity, with the funding for such systems provided by participating educational entities; and

(9) Coordination with educational service units and postsecondary educational institutions to provide assistance for instructional design for both two-way interactive video distance education courses and the offering of graduate credit courses in distance education.

The governance structure within the Distance Education project is recommended as part of the TLT Affiliate, with full implementation that began in 2017-2018.

- **Instructional Materials (I-Mat):** I-Mat has a long history of providing services statewide for school districts through Nebraska's network of ESUs. For approximately 40 years, the ESUs have worked together to purchase rights to media resources and make those available through local ESUs. Beginning in 2010-11, the fiscal management was moved under the ESUCC's central accounting system. ESUs contribute to the project for the "spring buy" and "special projects" each year, as needed and defined by the affiliate(s). The purpose of the I-Mat project is designed for research and development of digital resources. The governance structure within the I-MAT project is recommended as part of the TLT Affiliate, with full implementation that began in 2017-2018.

- **BlendED:** Beginning 2015-2016, a statewide committee comprised of NDE, ESUCC, and ESU staff recommended that three learning management systems (LMS) be included within the ESUCC market place. The recommended LMS included Schoology, Canvas, and BlackBoard. In addition to the LMS, the BlendED Advisory Committee was charged with providing a recommendation for a statewide Learning Object Repository (LOR). After a lengthy review, the recommendation included the integration of the current Learn360 project, Amazon Inspire, and the IlliniCloud ISLE program.

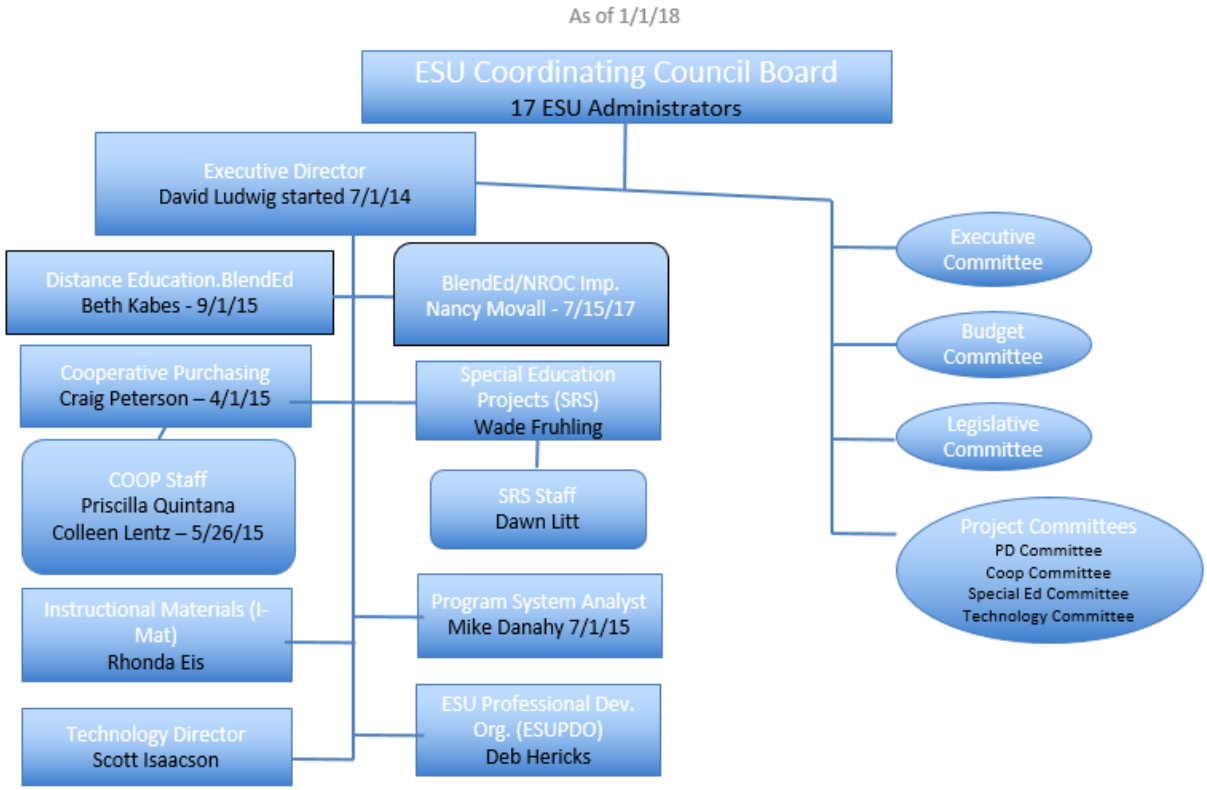
  The BlendEd Project leadership is comprised of a tiered governance structure that includes a BlendEd/Distance Education Director, co-chairs for the overall BlendEd Initiative, and leadership for the BlendEd Pilot Project. Specific duties for each level of leadership include: 1) the Director serving as a project manager for the BlendEd Project; 2) the BlendEd co-chairs providing leadership for the BlendEd Initiative; and 3) the BlendEd Pilot leadership providing the vision and guidance for the daily operations of the pilot program. In addition, a BlendEd Advisory Committee comprised of NDE, ESUCC, ESU staff and school district staff provides the direction and input for the BlendEd Project.

- **Special Education (SPED) Projects:** Three special education projects are managed by the ESUCC. The projects also transitioned in 2010-11 to the ESUCC from a fiscal agent management model under ESU 1. The purpose of the SPED Project is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska. Each participating ESU contributes a $5,500 annual fee in general support of the projects; additionally, each participating school is assessed a fee for services provided under the Student Records System (SRS) fee structure.

BACKGROUND
(Concluded)

- **Improving Learning for Children with Disabilities (ILCD):** ILCD is a State self-assessment Project that gathers information for Federal reporting requirements. The ILCD Project utilizes parent, teacher, and administration survey assessments. The survey results can be accessed via the ILCD website. The ESUCC's technology role includes purchasing, distributing, and scanning surveys. ESUCC staff provides technical assistance for the ILCD website and survey design.

- **Project PARA:** Project PARA is a web-based method for school districts to provide introductory training for their para-educators. The project assists schools in meeting the para-educator training requirements of No Child Left Behind, Title 92 NAC 11, and the Individuals with Disabilities Education Act. Project PARA is a collaborative effort between the University of Nebraska, the NDE, and Nebraska ESUs.



- **Student Records System (SRS):** SRS is an online special education record-keeping system designed to create all special education documents required by Title 92 NAC 51, including IEP, MDT, IFSP, and all required notices. The SRS is a highly secured system that organizes and stores documents and provides easy access to files from anywhere via the internet. SRS training is provided across the State for district staff and college and university staff.

MISSION STATEMENT

The mission of the ESUCC is to provide the most cost-effective educational support for the students, teachers, and school districts in each Nebraska educational service unit by facilitating statewide coordination of educational services and strategic planning.

Report on the Financial Statements

We have audited the accompanying cash-basis financial statements of the governmental activities and the major fund of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the cash basis of accounting described in Note 1. This includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Educational Service

Unit Coordinating Council's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective cash-basis financial position of the governmental activities and the major fund of Educational Service Unit Coordinating Council as of August 31, 2018, and the respective changes in cash basis financial position for the year then ended in conformity with the basis of accounting described in Note 1.

Emphasis of Matters – Basis of Accounting

We draw attention to Note 1 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Report on Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements as a whole, which collectively comprise the Educational Service Unit Coordinating Council's basic financial statements. Management's Discussion and Analysis, the Budgetary Comparison Schedule – Budget and Actual – General Fund, Notes to the Budgetary Comparison Schedule, and the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund is fairly stated, in all material respects in relation to the basic financial statements as a whole on the basis of accounting described in Note 1.

The Management's Discussion and Analysis, Budgetary Comparison Schedule – Budget and Actual – General Fund, and Notes to the Budgetary Comparison Schedule on pages 11 through 16, 29, and 30 herein have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 20, 2019, on our consideration of the Educational Service Unit Coordinating Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control over financial reporting and compliance.

Audit Manager
Lincoln, Nebraska

March 20, 2019

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management of the Educational Service Unit Coordinating Council (ESUCC) provides the following discussion and analysis of the ESUCC's financial performance, as reflected in the financial report for the fiscal year ended August 31, 2018. Please read it in conjunction with the ESUCC's basic financial statements, which follow.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the ESUCC's financial statements. The provisions of Statement No. 34 (Statement 34) of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments," established standards for external financial reporting for all State and local government entities. These standards require three components for the ESUCC's basic financial statements: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other information (Budgetary Comparison Schedule, and Combining Schedule of Cash Basis Receipts and Disbursements – General Fund) in addition to the basic financial statements. These components are described below:

Government-Wide Financial Statements

These statements are intended to provide a broad view of the ESUCC's operations in a manner similar to the private sector, providing both a short-term and a long-term view of the ESUCC's financial position. The ESUCC prepared its government-wide statements on the cash basis of accounting. Under the cash basis, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Accordingly, the ESUCC's government-wide financial statements are not intended to present the financial position and results of operations in conformity with generally accepted accounting principles (GAAP) accepted in the United States of America. The government-wide financial statements include two statements, the Statement of Net Position and the Statement of Activities.

The *Statement of Net Position* on page 17 presents all of the ESUCC's assets on the cash basis, as described above.

The *Statement of Activities* on page 18 presents information showing how the ESUCC's net position changed during the reported year. Changes reported are on the cash basis, as described above. The statement of activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported, instead, as general receipts.

Fund Financial Statements

This is the second set of financial statements presented in the report. Under GAAP, these statements would be different from the government-wide statements in that these statements would use a different accounting approach and focus on the near-term inflows and outflows of ESUCC operations.

The ESUCC has only one fund, the General Fund. GAAP classifies funds into three categories – Governmental Funds, Proprietary Funds, and Fiduciary Funds. The General Fund of an entity is classified as a Governmental Fund, as it accounts for all basic services. The Fund Financial Statements, which can be found on pages 19 and 20, provide detailed information about the ESUCC's General Fund. A fund is a method of accounting that uses a set of accounts to maintain accountability and control over specific sources of funding and spending for a particular activity or objective. GAAP requires governmental funds to use the modified accrual basis of accounting.

The five projects that make up the General Fund in addition to ESUCC Administration are: ESU Professional Development Organization (ESUPDO); Nebraska ESU Cooperative Purchasing Unit (Coop); Distance Education; Instructional Materials (I-Mat); and Special Education.

Notes to the Financial Statements
The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in all of the basic financial statements. The notes can be found beginning on page 21.

Other Information
Following the basic financial statements and the accompanying notes thereto is additional information that further explains and supports the information in such financial statements. The other information consists of the Budgetary Comparison Schedule – Budget and Actual – General Fund and notes, and the Combining Schedule of Cash Basis Receipts and Disbursements – General Fund. This information can be found beginning on page 29.

FINANCIAL AND OPERATING HIGHLIGHTS

The ESUCC's Net Position for the fiscal year ended August 31, 2018, compared to the fiscal year ended August 31, 2017, increased by $82,620. This increase is primarily due to the fact that the ESUCC's fiscal year ends in the middle of the Coop Annual Buy timeframe; therefore, its end of the year balance is directly affected by the timing of receipts of vendor administrative fees. The table on the following page provides a more detailed picture of the changes in net position.

FINANCIAL ANALYSIS OF ESUCC AS A WHOLE

Net Position
The ESUCC's assets totaled $1,259,285 at August 31, 2018, as compared to $1,176,665 at August 31, 2017. Due to the preparation of the financial statements on a cash basis for fiscal years ended August 31, 2018, and August 31, 2017, there were no liabilities as of August 31, 2018, and as of August 31, 2017.

Unrestricted net position is all other net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt." The ESUCC's unrestricted net position totaled $1,259,285 as of August 31, 2018.

	Net Position As of August 31	
	Cash Basis 2018	**Cash Basis 2017**
ASSETS:		
Cash and Cash Equivalents	$ 1,259,285	$ 1,176,665
Total Assets:	1,259,285	1,176,665
NET POSITION:		
Unrestricted	1,259,285	1,176,665
Total Net Position:	$ 1,259,285	$ 1,176,665

As of August 31, 2018, and as of August 31, 2017, the ESUCC's assets consisted of cash and cash equivalents.

The ESUCC did not have any liabilities as of August 31, 2018, and as of August 31, 2017.

The ESUCC's net position was $1,259,285 and $1,176,665 as of August 31, 2018, and 2017, respectively. The ESUCC's net position may vary based on receipts and disbursements in Cooperative Purchasing as well as other ESUCC projects.

Changes in Net Position

The condensed financial information below was derived from the Government-Wide Statement of Activities and reflects how the ESUCC's net position changed during the year. Following the table is management's analysis of the changes in net position for the fiscal year ended August 31, 2018.

Changes in Net Position

	Fiscal Year Ended August 31, 2018 Cash Basis	Fiscal Year Ended August 31, 2017 Cash Basis
Receipts:		
Program Receipts:		
Charges for Services	$ 1,645,105	$ 1,778,443
Operating Grants and Contributions	625,947	463,310
General Receipts:		
State Appropriations	542,992	565,593
Miscellaneous	12,960	4,499
Total Receipts	2,827,004	2,811,845
Disbursements:		
ESU Professional Development	961,044	798,063
Distance Education Council	340,105	362,804
Special Education	512,517	428,452
Instructional Materials	124,298	288,947
Nebraska ESU Cooperative	806,420	800,803
Total Disbursements	2,744,384	2,679,069
Change in Net Position	82,620	132,776
Net Position - Beginning	1,176,665	1,043,889
Net Position - Ending	$ 1,259,285	$ 1,176,665

Receipts

The largest single source of receipts for the ESUCC is charges for services. Charges for services are primarily receipts generated by the Nebraska ESU Cooperative Purchasing Unit for services provided to ESUs and school districts and program receipts for the various projects. Charges for services for the fiscal year ended August 31, 2018, were $1,645,105 and for the fiscal year ended August 31, 2017, were $1,778,443. ESUCC's charges for services declined largely due to a vendor the ESUCC had used for student assessments being awarded a State Contract, and thus ESUCC no longer provided those services that had previously been invoiced to schools as now the State of Nebraska paid for those services.

The second largest source of receipts, during fiscal year 2018, is a grant from the Nebraska Department of Education. Total grants received during the fiscal year ended August 31, 2018, were $625,947 and for the fiscal year ended August 31, 2017, were $360,190. The increase was caused by the Innovative Grant award increasing significantly during the fiscal year.

Disbursements

The largest purpose of disbursements for the ESUCC was for goods and services disbursed by the ESU Professional Development Organization (ESUPDO), which provides training for ESU employees statewide. Disbursements for these services for the fiscal year ended August 31, 2018, were $961,044

and for the fiscal year ended August 31, 2017, were $798,063. The largest cause of this increase was due to an increase in the Innovative Grant disbursements. The Innovative Grant disbursements increased by $410,844 during the fiscal year.

The second largest purpose of disbursements for the ESUCC was for the Nebraska ESU Cooperative Purchasing, which were then provided to ESUs and school districts. Disbursements for these services for the fiscal year ended August 31, 2018, were $806,420 and for the fiscal year ended August 31, 2017, were $800,803.

The remaining disbursements for the ESUCC relate primarily to the various other programs managed by the ESUCC. Disbursements for various programs for the fiscal year ended August 31, 2018, were $976,920 and for the fiscal year ended August 31, 2017, were $1,080,203. The decrease in these programs was caused by staff time being reallocated to assist on the Innovative Grant.

ANALYSIS OF ESUCC'S GENERAL FUND VARIATIONS

The table below provides a comparison of budgeted receipts and disbursements to actual receipts and disbursements.

	Budget	Actual	Positive (Negative) Variance
Beginning Balance	$ 1,144,760	$ 1,176,665	$ 31,905
Total Receipts	4,911,040	2,827,004	(2,084,036)
Total Disbursements	4,911,040	2,744,384	2,166,656
Net Increase (Decrease)	-	82,620	82,620
Ending Balance	$ 1,144,760	$ 1,259,285	$ 114,525

The largest variance between budgeted and actual receipts was Local Receipts, which were budgeted to be $2,619,460 but were actually $1,645,105. The majority of this variance can be explained primarily by the budgeted flow-through revenues included in the budget.

The largest variances between budgeted and actual disbursements were due to General Administration, which had budgeted $1,421,492 but incurred actual costs of $269,240. This difference is caused by ESUCC budgeting for potential grants, which are unknown at the time the budget is prepared.

FACTORS THAT WILL AFFECT THE FUTURE

Several factors influence the future of the ESUCC and its projects. Projects that are based on conditions of ESUs and school districts, as far as purchasing of products and services, tend to vary depending on the levels of participation in Cooperative Purchasing, and professional development. General economics have created an environment where schools and ESUs have fewer resources available to buy goods and services. Additionally, State appropriations have been reduced for support of the ESUCC and the Distance

Education program. These reductions will impact overall resources available for the foreseeable future. Long-term trends will include further strategic reorganization of projects and services to address the likelihood of a decrease in future resources. Strategic reorganization efforts impacting the future will include organizing professional development services under a new structure that will allow for the development of new statewide projects. Additionally, existing projects in technology are being organized to most efficiently and effectively manage the changing environment in educational technology. Future fiscal years will continue to combine efforts in instructional materials and distance education under a "BlendEd" initiative. Similarly, professional development efforts will include new statewide projects and services. Future projects and services of the ESUCC will be maintained through expanded partnerships and possibly through statewide grants or contracts facilitated by the ESUCC.

CONTACTING ESUCC'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens and taxpayers a general overview of the ESUCC's finances and to demonstrate the ESUCC's accountability for the money with which it is entrusted. If you have questions about this report or need additional financial information, contact David M. Ludwig, Educational Service Unit Coordinating Council Executive Director, 6949 South 110th Street, LaVista, Nebraska, 68128. The telephone number is (402) 597-4915, and the email address is dludwig@esucc.org.

NOTES TO THE FINANCIAL STATEMENTS

For the Fiscal Year Ended August 31, 2018

1. Summary of Significant Accounting Policies

A. Organization

The Educational Service Unit Coordinating Council (ESUCC) was created in statute to coordinate statewide activities of Nebraska's 17 Educational Service Units (ESUs). The governing body for the ESUCC consists of an Administrator Representative from each of the 17 ESUs and an Executive Director. The ESUCC was created by LB 603 (2007) and officially came into existence, according to statute, on July 1, 2008. Neb. Rev. Stat. § 79-1246(1) (Reissue 2014) outlines the ESUCC's general responsibilities and duties as follows:

> *The Educational Service Unit Coordinating Council shall work toward statewide coordination to provide the most cost-effective services for the students, teachers, and school districts in each educational service unit. The council's duties include, but are not limited to:*
>
> *(a) Preparation of strategic plans to assure the cost-efficient and equitable delivery of services across the state;*
> *(b) Administration of statewide initiatives and provision of statewide services; and*
> *(c) Coordination of distance education.*

Prior to the creation of the ESUCC by the Nebraska Legislature, the 17 ESUs worked in partnership to provide statewide activities. Based on the above statutory authority, the ESUCC decided that all statewide activities offered in partnership by the ESUs would be placed under the umbrella of the ESUCC. Although identified separately in the "ESUCC Admin and Professional Development Organization" column of the Combining Schedule, the ESUCC reports the general administrative costs of the ESUCC overall, along with the ESUPDO project costs. The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. This is accomplished annually by ESU 17 developing employment contracts with all ESUCC project employees, including the Executive Director of the ESUCC. Thus, all ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC reimburses ESU 17 for all salaries and benefits for these employees.

The following is a brief description of each statewide project budgeted for and administered by the ESUCC:

- **ESU Professional Development Organization (ESUPDO):** The ESUPDO serves as a collaborative effort to provide training for ESU employees statewide. Professional development is among the core services identified by State statute for ESUs.

- **Distance Education:** Distance Education originated with the Distance Education Council, which was formed by legislation in 2006 and has since evolved into a program under the ESUCC. Neb. Rev. Stat. § 79-1248 (Reissue 2014) includes, among the powers and duties of the ESUCC, various responsibilities pertaining to the operation of the State's distance education network.

- **Nebraska ESU Cooperative Purchasing (Coop):** Coop provides cooperating purchasing services to Educational Service Unit Member schools throughout the State of Nebraska.

1. Summary of Significant Accounting Policies (Continued)

- **Instructional Materials (I-Mat):** I-Mat is a statewide project that purchases rights to media materials and makes them available through local ESUs in a variety of formats.

- **Special Education (SPED) Projects:** The purpose of the SPED Projects is for participating parties to pool their resources in connection with the special education services and for the training of special education teachers and other staff members employed by educational institutions within the State of Nebraska.

- **BlendEd Initiative (Technology Direction):** In May 2013, the position of Technology Director was formed to coordinate this work across the ESUCC project areas. Projects involved in this effort are the Distance Education and I-Mat, including Learning Object Repository. Blended education calls for making strategic choices about when face-to-face (synchronous) instruction is needed and when and how online (asynchronous) instruction can be best used to provide elements of student control over time, place, path, and pace and provide more equity, efficiency, and flexibility.

B. Reporting Entity

The ESUCC is a governmental entity established under and governed by the laws of the State of Nebraska. In evaluating how to define the ESUCC for financial reporting purposes, all potential component units have been considered. The basic – but not the only – criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, and the ability to significantly influence operations and accountability for fiscal matters. Based upon the above criteria, the accompanying financial statements include all funds for which the ESUCC has oversight responsibility. The ESUCC does not have any component units and has only one fund – the General Fund. The ESUCC is not considered a component unit of any other governmental entity.

C. Government-Wide and Fund Financial Statements

The basic financial statements include both government-wide and fund financial statements. The reporting model, based on GASB Statement 34, focuses on the ESUCC as a whole in the government-wide financial statements and major individual funds in the fund financial statements. The government-wide financial statements report information on all of the activities of the primary government and any component units. The ESUCC has only one fund – the General Fund – and has no component units. Governmental activities, which normally are supported by taxes and intergovernmental receipts, are reported separately.

1. Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct disbursements of a given function or segment are offset by program receipts. Direct disbursements are those that are clearly identifiable with a specific function or segment. Program receipts include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Appropriations and other items not properly included among program receipts are reported instead as general receipts.

D. Fund Types

The accounts of the ESUCC are organized on the basis of funds. The ESUCC has only one governmental fund type – the General Fund.

E. Basis of Accounting

The ESUCC prepares its financial statements, both its governmental-wide and fund statements, on the cash basis of accounting. Under the cash basis of accounting, receipts are recognized when collected rather than when earned, and disbursements are recognized when paid rather than when incurred. Consequently, these financial statements are not intended to present financial information in accordance with generally accepted accounting principles.

F. Cash and Cash Equivalents

In addition to the ESUCC's bank account, this classification includes all short-term investments, such as certificates of deposit, and investments in the Nebraska Public Agency Investment Trust (NPAIT), having original maturities of less than two years. NPAIT deposits and investments include certificate of deposits, demand deposit accounts, repurchase agreements, and government agency securities. These investments are valued at amortized cost, which approximates fair value due to the short-term nature of the investments.

G. Basis of Presentation

The ESUCC adopted the provisions of Statement No. 34 (Statement 34) of the Governmental Accounting Standards Board (GASB), "Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments." Statement 34 established standards for external financial reporting for all State and local government entities, which includes government-wide financial statements, fund financial statements, and the classification of net position into three components: (a) invested in capital assets, net of related debt; (b) restricted; and (c) unrestricted. The ESUCC reported only unrestricted net position.

H. Net Position Classification

Government-Wide Statements. Net Position is displayed as unrestricted net position. Unrestricted net position is all other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

1. Summary of Significant Accounting Policies (Concluded)

Fund Financial Statements. Governmental fund equity is classified as fund balance. ESUCC has designated its fund balance as Unassigned. Unassigned fund balance is the portion of the General Fund that is not restricted, committed, or assigned for a specific purpose.

I. Capital Assets

Capital assets are recorded as disbursements at the time of purchase. This differs from generally accepted accounting principles, which require capital assets to be capitalized and depreciated over the life of the asset.

J. Estimates

The preparation of financial statements in conformity with the cash basis of accounting requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

K. Compensated Absences

The ESUCC contracts with ESU 17, through an interlocal agreement, to provide staffing for the ESUCC. The ESUCC has entered into negotiated agreements with contracted personnel. In those agreements, the ESUCC has agreed to provide benefits for personal and sick leave. In accordance with the cash basis of accounting, these benefits are recorded as a disbursement when paid.

2. Deposits and Investments

Listed below is a summary of the deposit and investment portfolio that comprises the Cash and Cash Equivalents on the ESUCC's August 31, 2018, basic financial statements.

Deposits – Custodial credit risk is the risk that, in the event of a bank failure, a government's deposits may not be returned to it. At August 31, 2018, the ESUCC held bank deposits and also held funds in certificates of deposits, demand deposits, and money market accounts with the Nebraska Public Agency Investment Trust (NPAIT).

The NPAIT was established in June 1996 through the Interlocal Cooperation Act and commenced operations on July 25, 1996. The NPAIT was established to assist public bodies throughout the State of Nebraska with the investment of their available cash reserves. Participation in the investment trust is voluntary for its members. The objective of the NPAIT is to provide its owner members with a conservative and effective investment alternative tailored to the needs of its members. The NPAIT currently consists of and operates one portfolio and a fixed-term account. The NPAIT portfolio management generally follows established investment criteria developed by the Securities and Exchange Commission (SEC) for money market funds designed to offer acceptable yield while maintaining liquidity. The NPAIT is not registered with the SEC as an

2. Deposits and Investments (Continued)

investment company. For a copy of the most recent audit report for the NPAIT, which is as of June 30, 2018, contact David Ludwig, Executive Director, Educational Service Unit Coordinating Council, 6949 South 110th Street, LaVista, Nebraska, 68128. The telephone number is (402) 597-4915, and the email address is dludwig@esucc.org.

The ESUCC's bank balance and carrying amount of cash and cash equivalents at August 31, 2018, are set out below:

	Bank Balance	Carrying Amount
Bank Deposits	$ 58,959	$ (115,979)
NPAIT Investments	1,375,264	1,375,264
Total	**$ 1,434,223**	**$1,259,285**

Bank Deposits – The ESUCC does not have a policy for custodial credit risk associated with deposits.

The ESUCC is required by State statute to collateralize bank deposits in excess of federally insured amounts. The bank deposits at August 31, 2018, were covered by the Federal Depository Insurance Corporation (FDIC).

The carrying amount for the Bank Deposit is negative because at August 31, 2018, the outstanding checks exceeded the bank balance. However, the NPAIT account sends funds to the bank account when checks clear the bank.

Investments – The NPAIT may legally invest in direct obligations of, as well as other obligations guaranteed as to principal by, the U.S. Treasury and U.S. Agency and Instrumentalities and in bank repurchase agreements. It may also invest in guaranteed student loans, loans guaranteed by the Small Business Administration, Federal Home Administration, or any other agency of the United States, as well as any other type of investment permitted for public agencies by State law. At June 30, 2018, all of the NPAIT's investments in U.S. agencies and repurchase agreements mature in a period of less than two years.

At August 31, 2018, the ESUCC had $1,375,264 in NPAIT investments. These investments consisted of government agency securities and repurchase agreements, which were collateralized by U.S. government securities.

The ESUCC is exposed to the risks noted below in relation to its investments in the NPAIT. The ESUCC does not have a policy for these risks.

Interest Rate Risk – As a means of limiting its members' exposure to fair value losses resulting from rising interest rates, all of the NPAIT's investments have maturities of less than two years.

2. Deposits and Investments (Concluded)

Credit Risk – Credit risk is the risk that the issuer or other counterparty to an investment will not fulfill its obligations. According to the latest audit report on the NPAIT, as of June 30, 2018, the NPAIT's investments in government agency securities were rated as AA+.

Custodial Credit Risk – Custodial credit risk is the risk that, in the event of the failure of the counterparty, the NPAIT will not be able to recover the value of its investment or collateral securities that are in the possession of the outside party.

The ESUCC has no specific policy as to credit risk. All of the underlying securities for the NPAIT investments in repurchase agreements at June 30, 2018, the latest audit report date for the NPAIT, are held by the counterparties in the NPAIT's name.

Concentration of Credit Risk – The NPAIT places no limit on the amount that may be invested in any one issuer.

Reconciliation of deposits and investments for the ESUCC to Cash and Cash Equivalents on the Statement of Net Position, as of August 31, 2018, is as follows:

Carrying Value:		
Bank Deposits	$	(115,979)
NPAIT Investments		1,375,264
Total	$	1,259,285

3. Contingencies and Commitments

Risk Management – The ESUCC is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets, errors, or omissions, injuries to employees, and natural disasters. During the fiscal year, the ESUCC chose to purchase the following commercial insurance policies to cover these risks:

	Limit	Deductible
Personal Property Coverage (per location)	$ 1,000 to $ 200,000	$ 500
Electronic Data Processing Equip. (Various Coverage types from $5,000 to $50,000. With limits from $10,000 to $200,000.)	$ 200,000	$ 1,000
Commercial General Liability (Each Occurrence limit-$1,000,000, Aggregate Limit-$2,000,000)	$ 2,000,000	$ -
Commercial Umbrella Liability Coverage (Each Occurrence limit-$1,000,000, Aggregate Limit-$1,000,000)	$ 1,000,000	$ -

3. Contingencies and Commitments (Concluded)

	Limit	Deductible
Automobile (Non-Owned & Hired) Liability	$ 1,000,000	$ -
Automobile (Comprehensive, Collision)	$ 50,000	$ 250
Workers' Compensation Insurance	$ 500,000	$ -
Transportation Coverage	$ 300,000	$ 1,000

No insurance claims resulting from these risks were filed during the fiscal year by the ESUCC. Settled claims resulting from these risks have not exceeded the above coverage in the past three years.

4. School Retirement

Plan Description

The ESUCC contracts with ESU 17 to provide all staff for the ESUCC. Thus, all of the ESUCC project employees and the ESUCC Executive Director are ESU 17 employees. Through an interlocal agreement, the ESUCC agreed to reimburse ESU 17 for all salaries and benefits for these employees. Benefits provided by the ESUCC included retirement benefits, as ESU 17 employees are eligible to be members of the Nebraska School Employees Retirement System. Thus, ESU 17 contributes to the Nebraska School Employees Retirement System on behalf of the ESUCC from retirement contributions collected from the ESUCC. The Nebraska School Employees Retirement System is a cost-sharing, multiple-employer defined benefit pension plan administered by the Nebraska Public Employees Retirement System (NPERS). NPERS provides retirement and disability benefits to plan members and beneficiaries. The School Employees Retirement Act establishes benefit provisions. NPERS issues a publicly available financial report that includes financial statements and required supplementary information for NPERS. That report may be obtained by writing NPERS, 1526 K Street, Suite 400, P.O. Box 94816, Lincoln, NE, 68509-4816, or by calling 1-800-245-5712.

Plan members were required to contribute 9.78% of their annual covered salary from September 1, 2017, to August 31, 2018. The ESUCC is required to contribute 101% of the employee contribution. The contribution requirements of the plan members and the ESUCC are established by the Nebraska statutes. For the fiscal year ended August 31, 2018, the ESUCC employees contributed $112,034, and the ESUCC contributed $113,155, which equaled the required contribution. For the fiscal years ended August 31, 2017, and August 31, 2016, the ESUCC employees contributed $101,404 and $87,171, respectively, and the ESUCC contributed $102,418 and $88,042 respectively, which equaled the required contribution.

5. Lease Commitments

ESUCC leases office facilities under operating leases. The future minimum annual lease payments are as follows:

5. Lease Commitments (Concluded)

Year	Governmental Activities
2019	$ 20,758

Operating lease payments for the year ended August 31, 2018, totaled $44,319.

6. Reclassification

The ESUCC records in its general ledger employee salaries and benefits; however, the ESUCC staff are ESU 17 employees, as the ESUCC contracts through an interlocal agreement, with ESU 17 to provide staffing for the ESUCC, making all employees of the ESUCC contract employees. To better reflect the nature of these disbursements, $1,339,579 of salaries and benefits was classified as Purchased Services on the Statement of Cash Receipts, Disbursements, and Changes in Cash Basis Fund Balance.

7. Accounts Receivable

At August 31, 2018, the ESUCC had $136,475 in accounts receivable. In accordance with the cash basis of accounting, these receivables are not recorded on the financial statements. They are recorded as receipts on the financial statements when the ESUCC receives the funds.

8. Unemployment Compensation Insurance

The ESUCC has adopted the reimbursable option of the State's Unemployment Compensation Insurance Program. Under this option, a claimant would receive unemployment compensation from the State. The ESUCC is liable to reimburse the State the actual amount of the claim(s).

9. Related Parties

The governing body for the ESUCC consists of the Administrator from each of the 17 ESUs across the State. The ESUCC coordinates statewide activities and provides services for the 17 ESUs. In turn, the ESUCC bills each of the ESUs for those services.

10. Subsequent Event

In a prior year, the ESUCC was involved in litigation with ESM Solutions Corporation (ESM), a vendor with whom it had contracted. During the fiscal year, ESUCC paid ESM $33,333 as part of a settlement agreement. As part of the settlement agreement, ESUCC is required to pay ESM $33,333 during each of the next two fiscal years. These payments will conclude on September 30, 2019.

See the Notes to the Budgetary Comparison Schedule.

NOTES TO THE BUDGETARY COMPARISON SCHEDULE

For the Fiscal Year Ended August 31, 2018

BUDGETARY COMPARISON SCHEDULE

Basis of Budgeting – The ESUCC prepares its budget on the cash basis, which is consistent with the financial statement presentation.

Budget Process and Property Taxes – The ESUCC follows these procedures in establishing the budgetary data reflected in the accompanying statements:

- Public hearings are conducted at public meetings to obtain taxpayer comments.

- Prior to September 20, the budget is legally adopted by the Board through passage of a resolution. Total disbursements may not legally exceed total appropriations. Appropriations lapse at year end, and any revisions thereto require Board approval.

EDUCATIONAL SERVICE UNIT COORDINATING COUNCIL

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

Educational Service Unit Coordinating Council
LaVista, Nebraska

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Educational Service Unit Coordinating Council, as of and for the year ended August 31, 2018, and the related notes to the financial statements, which collectively comprise Educational Service Unit Coordinating Council's basic financial statements, and have issued our report thereon dated March 20, 2019. The report notes the financial statements were prepared on the basis of cash receipts and disbursements.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Educational Service Unit Coordinating Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Educational Service Unit Coordinating Council's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Educational Service Unit Coordinating Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Additional Items

We noted certain matters that we reported to the management of the Educational Service Unit Coordinating Council in a separate letter dated March 20, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Educational Service Unit Coordinating Council's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Educational Service Unit Coordinating Council's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Zachary Wells, CPA
Audit Manager

March 20, 2019

Educational Service Unit Coordinating Council
LaVista, Nebraska

Dear Council:

We have audited the basic financial statements of the Educational Service Unit Coordinating Council (ESUCC) for the fiscal year ended August 31, 2018, and have issued our report thereon dated March 20, 2019. In planning and performing our audit of the basic financial statements of the ESUCC, we considered internal control in order to determine our auditing procedures for the purpose of expressing our opinion on the basic financial statements. An audit does not include examining the effectiveness of internal control and does not provide assurance on internal control. We also performed tests of the ESUCC's compliance with certain provisions of laws, regulations, contracts, and grants.

During our audit, we noted certain matters involving internal control over financial reporting and other operational matters that are presented here. This comment and recommendation is intended to improve the internal control over financial reporting or result in operational efficiencies in the following area:

Segregation of Duties

During our review of the ESUCC receipt and capital asset processes, as well as our testing of selected transactions, we noted a lack of segregation of duties. We also noted compensating controls adopted by the ESUCC. However, these compensating controls do not completely eliminate the risk of errors or fraud occurring and going undetected. We noted the following:

- Receipts: There is a lack of segregation of duties over the receipts process due to two employees having the ability to perform all of the following processes: receive checks and record initial control, perform the deposit entry, and reconcile the deposit document to the general ledger. We noted compensating controls were in place during the fiscal year, including when all steps of the deposit process are performed by a single person, the deposit slip and ledger are reviewed and initialed by a second person, and review and approval of deposits, bank statements, and reconciliation reports by the ESUCC.

- Capital Assets: There is a lack of segregation of duties over the capital assets process. Five employees had the ability to add capital assets to, as well as remove them from, the accounting records. The ESUCC stated that it had compensating controls in place during the fiscal year, including a review of capital asset activity at the monthly staff meetings.

A similar finding was noted in the previous reports.

A good internal control plan involves an adequate segregation of duties to ensure that no one person is in a position both to perpetuate and to conceal errors or irregularities. When one individual is able to perform all phases of a transaction, there is an increased risk for errors or fraud to occur and go undetected, resulting in loss or misuse of ESUCC funds.

> We recommend the ESUCC review its staffing and assignments to determine if an adequate segregation of duties can be obtained, so no one individual is able to process a transaction from being to end. If an adequate segregation of duties cannot be obtained, we recommend the ESUCC continue monitoring to ensure compensating controls are in place and effective.

ESUCC Response: Receipts - We will continue to monitor and ensure compensating controls are in place and effective. We will also continue to ensure that all transactions are reviewed and approved by multiple personnel. We will continue to review at monthly budget meetings, FAB Committee meetings, and ESUCC Board meetings.

Capital Assets - We will continue to monitor during monthly budget meetings and scheduled staff meetings for review and documentation.

* * * * *

It should be noted this report is critical in nature, as it contains only our comments and recommendations on the areas noted for improvement and does not include our observations on any strong features of the ESUCC.

Draft copies of this report were furnished to the ESUCC to provide management with an opportunity to review the report and to respond to the comment and recommendation included in this report. The formal response received has been incorporated into this report. A response that indicates corrective action has been taken was not verified at this time, but it will be verified in the next audit.

This report is intended solely for the information and use of the ESUCC, the appropriate Federal and regulatory agencies, and citizens of the State of Nebraska, and it is not intended to be, and should not be, used by anyone other than these specified parties. However, this report is a matter of public record, and its distribution is not limited.

Sincerely,

Zachary Wells, CPA
Audit Manager

Committee Report

PROJECT NAME: BlendEd and Distance Ed

PROJECT DIRECTOR: Beth Kabes

REPORT PERIOD: May, 2019

COMMITTEE REPORT:

BLENDED: Blended Website: bit.ly/neblend

Pilot

- Visited Ogallala, Sidney, Elgin Pope John and Laurel-Concord-Coleridge in April.
    - ESU Coaches Monthly.
        - April 26, 2019 - Special Project, Newsela, BlendEd Visits
        - April 12, 2019 - Data Conference, Natural Disasters
- April ESU Coaches meeting
    - April 1, 2019

Open Education Resources Project

- Met with Dorann Avey and other TLT members to work on OER Toolkit at NDE on April 24.
    - OER Nebraska Hub: https://www.oercommons.org/hubs/nebraska
    - Instructional Materials Notes
    - OER Notes
- Will be adding Special Project artifacts to Nebaska Hub on June 25 with the coaches from the BlendEd Best Practices and Digital Age Skills projects at ESU 10

Promotion and Professional Development of BlendEd

- Proposal for Westside Personalized Learning Summit on May 29-30 accepted
    - Get Your Target Practice In….Bring Your Questions about BlendEd in Nebraska
    - An Administrator Insight to Personalized Learning Support
- Submitted proposal to Future Ready Conference on June 17-18

DISTANCE EDUCATION: http://bit.ly/nevirtual

- DEU Incentives application window opened April 15. Closes July 31.
    - Currently 40 courses still need to be verified.
- Attended UNMC uBEATS Open House on April 18 (introducing online Modules for Health Sciences)
- NDLA Monthly meetings (serving as President)
- NAMTC Quarter meeting
- Attended Cool Kids Meeting, April 26 via zoom
- Tour of CTE locations to promote VFT, June 7. All PDO members are welcome
    - Visiting
        - Case New Holland in Grand Island
        - Proposed Chief Industries in Grand Island
        - Sandy Creek NCAPS building/program in Fairfield
- ESU 7 will be sponsoring a DL Teachers on June 6. Will be promoting across the state

ESUPDO:

- Attending ESUPDO meeting May 7-9

AESA:

- Member of AESA Affinity Group for OER
- A co-leader of AESA Affinity Group for Blended and Personalized Learning
- Submitted proposal for AESA 2019 with Sally Lindgren from Great Prairie AEA in Iowa and Kira Keene from The Learning Accelerator. This proposal is on behalf of the Affinity Group

MISCELLANEOUS:

- Continue to work with UNO CAEP Evaluation Team (similar to AdvancEd for K-12)

PROJECT NAME: BlendEd Projects – Instructional Materials
PROJECT DIRECTOR: Rhonda Eis

Support and Partnership for Education Data System Study II

Background

In 2013, the Nebraska Legislature requested a Legislative Study on the Education Data Systems.

> The purpose of this resolution is to examine the education data system. The study shall include an assessment of the adequacy of the current data system maintained by the State Department of Education to provide timely access to relevant and accurate data to meet various needs, including information for teachers in public schools about student achievement in their classrooms, objective research regarding educational practices, data for policy formation and review, and accountability to the public regarding the performance of the public schools.

The resulting study, released in 2014, provided an analysis of the systems and provided 10 key recommendations, budget, and approaches to achieve the work. https://www.education.ne.gov/wp-content/uploads/2017/07/NEDataSystemsLegislativeStudyLoRes.pdf

The report served as a basis for planning and operationalizing the work over the past five years, including modernization of data collection and reporting, implementation of single sign on federation, use of open standards, and many additional enhancements.

Partners in the original study included: Educational Service Unit Coordinating Council, Nebraska School Administrators, Nebraska State Education Association, and input from the Nebraska Educational Technology Association members.

Study Revisited

The proposed work is to replicate the study, but from two perspectives.

1) A *retrospective evaluation* of the work that was proposed and now has been accomplished, including estimates of return on investment, areas that still need addressed, and the general response of the education community to the work.

2) A *review and analysis* of the current state and identification of the next set of priorities, projects, or initiatives to further the goals of efficiency, effectiveness, and broader interoperability to support teaching and learning in Nebraska.

Request for Partnership

NDE is requesting consideration to partner on the study and would include any of the following:

1. Promoting surveys, interview, or focus group participation of membership.
2. Providing insights and topics for consideration.
3. Review and validation of the study,
4. Co-Branding the participation in the efforts of the study.
5. Other activities that support the comprehensive completion of the study.

Additional questions to Dean Folkers at dean.folkers@nebraska.gov

Educational Service Unit Coordinating Council
Technology Committee Meeting
May 7, 2019 at 8:00 AM Central
ESU No.10
76 Plaza Blvd
Kearney, NE 68845

1. Call to Order
Notice to visitors: To be heard at this meeting, the "Request to be Heard" form, must be completed and submitted to the Secretary to the Executive Director of ESUCC. The President of the Board of ESUCC will call upon visitors wishing to address the Board in the order they were submitted or by subject.
Pursuant to Section 84-1411 of the Nebraska Statutes, notice of this meeting was given by advertisement on the ESUCC website, NE Public Meeting site, and host site**.**

Open Meetings Law: Pursuant to Section 84 - 1412 of the Nebraska Statutes, the public is hereby informed that a current copy of the Nebraska Open Meetings Act is posted in this meeting room.

Closed Session:
The council may enter closed session during the meeting when it determines that doing so is appropriate and is authorized by the provisions of the Open Meetings Act.

Call to order at 7:58 AM.

Staff: Deb hericks, Scott Isaacson, Priscilla Quintana, Beth Kabes

2. Roll call

3. Agenda Item

3.1. ESU Tech Survey Update

Nothing new to report.

3.2. Update on LR 264 Study
Currently, we have the following assisting with the survey:
ESU 1 - Bill Heimann

ESU 09 - Gary Needham
ESU 10 - Ron Cone
ESUCC - Scott Isaacson

ESU 3, 4, 13 have been asked for representation.
They have had zoom meetings to begin this work. They will continue to work on getting this update. This is not a compliance issue, gathering data only. NITC is discussing the option of doing a Tech Survey.

3.3. Update on ESUCC Hosting Services with ESU 3
Equipment upgrades are in progress at ESU 3 and will be completed by the end of May. During June, ESUCC and ESU 3 will configure networks and firewalls and test the migration of virtual machines from the existing to the new environment. Migration of production services will happen from July 5-12.
Equipment upgrades are in progress at ESU 3 and will be completed by the end of May. During June, ESUCC and ESU 3 will configure networks and firewalls and test the migration of virtual machines from the existing to the new environment. Migration of production services will happen from July 5-12.

3.4. DE2TAILS - Innovation Grant

3.4.1. Tech Plan

Executive Director shared the work with the policies, still with NDE. Will begin to move forward without them. Homeland Security has been contacted but no date set for the safety audit. Will have KSB sent a copy of the draft report.

3.4.1.1. ADVISER Update
The ADVISER system is ready for the spring student data collection. Updates have been made to SIS, SRS and the ADVISER validation reports to resolve confusion and errors encountered during the fall collection.
The system will be updated during the summer to the new Ed-Fi software.

The ADVISER system is ready for the spring student data collection. Updates have been made to SIS, SRS and the ADVISER validation reports to resolve confusion and errors encountered during the fall collection. The system will be updated during the summer to the new Ed-Fi software.

3.4.1.2. Single Sign On

During 2019, an average of 1174 SSO sessions were used per school day. This overall usage is down from previous reports, while the number of school districts using the SSO framework within the last month rose from 141 to 164. The most-used SSO applications in the last month were the application launch portal, Adobe Creative Cloud, and Houghton-Mifflin-Harcourt. Usage statistics charts are attached.

During 2019, an average of 1174 SSO sessions were used per school day. This overall usage is down from previous reports, while the number of school districts using the SSO framework within the last month rose from 141 to 164. The most-used SSO applications in the last month were the application launch portal, Adobe Creative Cloud, and Houghton-Mifflin-Harcourt.

3.4.1.3. Sustainability
Technology director will give an update on sustainability.

3.4.2. SRS/AAP Technology update
SRS software testing and fixing continues. The team expects to attach the new system to live data for testing with additional school users next week. The new system will go live for all users during the first part of July.

SRS software testing and fixing continues. The team expects to attach the new system to live data for testing with additional school users next week. The new system will go live for all users during the first part of July.

3.4.3. BlendEd
Technology Direct will give an update on BlendEd.

Updates given on BlendEd Pilots, summer dates are set, reduce from 5 sites to 3 sites.

3.4.4. NROC/EdReady
Technology Director will give an update on NROC/EdReady.

Executive Director shared that NDE will take over the contract for NROC/EdReady.

3.4.5. SIMPL
Technology director will give an update on SIMPL.

Continue to move SIMPL Process forward.

3.5. Power School Consortium Membership

Continue to discuss how to support the schools that are not part of a consortium.

3.6. NOC Meeting - April 24, 2019

Please add these items to the Agenda for the NOC Update:

Top 5 items that NOC requests to be addressed by Network Nebraska
1) Ticket system setup (by July 1, 2019)
2) Dedicated staff member to Network Nebraska
3) Call in procedure that we can trust
4) Monitoring
5) Addressing staff retention, culture, and department structure

Online Subscriptions:
Safari Books Online - 11 with 5 additional licenses
Coursera - 7 with 2 additional licenses

3.7. Staff Reports

3.7.1. Scott Isaacson

Report through out the meeting.

3.7.2. Beth Kabes

3.7.3. Rhonda Eis

4. Next Meeting Agenda Items

5. Adjournment

Meeting adjourned at 8:30 AM

27.SEP.2018

AFFIDAVITA |

To whom it may concern:

In accordance to IFB Part B | Section 7.1.6 | Engineering. It shall be mandatory that each bidder submit with their bid an affidavit signed by a Registered Professional Engineer stating that the product to be supplied has been tested by an independent testing facility and meets all applicable code requirements.

I Ian O'Neill acknowledge that the Hussey Seating's MAXAM Telescopic Seating System has been independently tested to meet all applicable building code and loading requirements. I have attached a copy of the Independent test report completed by independent engineering firm Criterium – Mooney Engineers; Portland Maine for your reference and use.

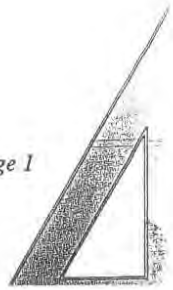
APPENDIX G - RESUMES

1.0 INTRODUCTION

Hussey Seating Company is seeking Pre-Check (PC) approval from the California Department of State Architects (DSA) of a newly designed telescopic seating system. Criterium - Mooney Engineers has been retained by Hussey Seating Company to monitor and provide independent observation of the testing process for the 30 tier, wall attached bleacher system. This report should be reviewed in conjunction with the summary of test data collected and documented by both Hussey Seating Company and HITEC Corporation. The on-site observations were performed by and this report written by David A. Price, P.E. Also present during the testing process were Robert Robbins, P.E., and Michael Nelson, P.E., both employed by Hussey Seating Company.



The evaluations provided by Criterium - Mooney Engineers are based on visible evidence observed at the time of the testing process. No disassembly of components or testing was performed by Criterium - Mooney Engineers.

The scope of this test report does not include a comprehensive evaluation for code compliance or government regulation compliance. It is our responsibility to evaluate conditions relevant to the purpose of making independent observations. We are not, however, responsible for conditions that could not be seen or were not within the scope of our services at the time the observations were made. This report is not to be considered a guarantee of condition and no warranty is implied.

For purposes of this report, all directions (left, right, rear, etc.) are taken from the viewpoint of an observer standing in front of the telescopic seating (when fully extended) and facing it.

2.0 EXECUTIVE SUMMARY

David Price of Criterium - Mooney Engineers witnessed the full-scale testing of the MAXAM 30 tier, wall attached bleacher system. The loads applied were 200% of the live loads specified in Table 16 A-B, labeled "Special Loads" of the 1998 California Building Code. Based on our on-site observations, the bleacher system successfully resisted the applied loads in that: 1) the assembly did not yield to a point that prevented the telescopic operation of the test bleacher; and, 2) individual components did not yield to a point that would have prevented the expeditious egress of anyone using the seating equipment. Accessories including center handrail, end handrail, and portable steps were also tested. These components also successfully resisted the applied loads.

3.0 TESTING PROCEDURES

The testing of the seating equipment was performed based on the following process which identifies the key parameters by which observations were made and test data was recorded.

3.1 Testing Basis

3.1.1 1998 California Building Code and IR33-1 ("Design and Construction of Bleachers 20 Feet or Less in Height"). The forces applied to the telescopic seating equipment were based on the design live loads specified in table 16A-B-"Special Loads" of the 1998 California Building Code (see Appendix B). Specifically, the requirement for bleachers is the application of 120 pounds per square foot vertical load, 24 pounds per foot applied parallel to seat boards at the standard level, and 10 pounds per foot applied perpendicular to seat boards at the standard level. The code does not require that sway loads act simultaneously with other lateral loads. Both the vertical and horizontal loads imposed on the bleacher during the test were 200% of the code specified design live loads. This is in accordance with IR33-1, Paragraph (l). The copy of IR33-1 was the most recent version at the time the testing was performed.

3.1.2 Hussey Seating Company Test Procedure. A specific test procedure was developed by Hussey Seating Company on January 13, 1999 and is also contained in Appendix B. This procedure was reviewed by the Department of State Architects (DSA) and approval for the test procedure was granted on March 12, 1999. The test procedure is similar to the one accepted by the DSA in 1992 except that more rigorous measurement of field data was performed during the current testing process by the application of highly sensitive strain gauges. As can be seen, loads applied to the seating equipment were 200% of the design live loads specified by the California Building Code.

Several items of clarification should be noted when reviewing the test procedure in Appendix B. These are as follows:

3.1.2.1 The bleacher system is no longer referred to as Model 2600 but has since been renamed "MAXAM" and will be submitted for PC approval as such.

3.1.2.2 The Free Standing, Reverse Fold and Portable bleachers were not field tested and will be submitted for PC approval at a later date.

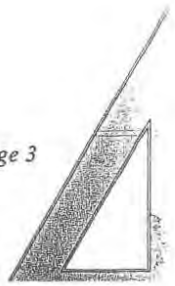
3.1.2.3 The additive front to rear sway load was applied when testing rows 28, 29 and 30 only.

3.1.2.4 On page 2 of the Hussey test procedure the "Rows to be tested" were modified slightly as follows:

13, 14 & 15 (instead of 14, 15 & 16)
17, 18 & 19 (instead of 18, 19 & 20).

3.1.2.5 Test #4 was not performed. The bleacher remained attached to wall during all tests.

3.1.2.6 Test #5 was performed on rows with wood seats only. Injection-molded and extruded plastic seats were not tested.



3.1.2.7 On page 2 of the Hussey test procedures, the loads shown under the section labeled "Accessories to be Tested" are design loads. The actual test loads were 200% of the design loads shown.

3.1.3 Tiers Tested. Tiers 2, 14, 18 and 29 were tested and are considered representative of other tiers. The adjacent tier above and below the tested tier were also tested to model interactive affects of adjacent tiers. In other words, when testing tier 2, loads were also applied to tier 1 and to tier 3.

3.2 Seating Equipment to be Tested

3.2.1 30-Tier Bleacher. The tests were performed on the 30-tier wall-attached bleacher configuration (Photo #1). The bleacher was 25'-6" long and approximately 22 feet tall. Typically, the wall-attached bleacher was not fully extended during the individual portions of the test. It is our opinion that this is a conservative approach to the testing process in that once the bleachers are fully extended, the tiers in the fully extended position will help improve the overall stability of the structure.

3.2.2 Accessories. Accessories for the seating equipment were also tested including the handrails along the center aisle the side rails at each end of the bleacher, and the steps which are a separate components added to the bleacher.

3.3 The Pass/Fail Criteria

3.3.1 Restacking of Seating Equipment. The primary criteria that was used to identify passing of a particular test was that (a) no components or assembly of components would be permitted to yield to a point that it would prevent the telescopic moving or opening of the test bleacher, and (b) no component or assembly would be permitted to break.

3.3.2 Permanent Yielding of Steel Components. During certain portions of various tests, some steel components yielded and did not rebound back to the original shape after the test was over. This occurred at the aisle rail and the front (or free) end of the channel at the base of the column, which houses the wheels. In addition to the pass/fail criteria identified above, engineering judgment was used as to whether or not the yielded component in any way jeopardized the stability of the structure or the expeditious egress of anyone using the seating equipment.

3.4 Material Test Reports

Independent material testing of the steel components was performed by New Hampshire Materials Laboratory during fabrication of the structure. A copy of the materials test reports is contained in Appendix D. As can be seen, the tensile strength of the materials used was typically in excess of 60 ksi and that the samples were each shown to pass the bending test.

3.5 Additional Consultant

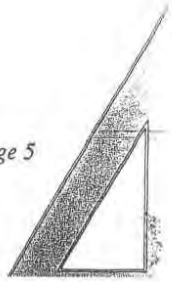
The services of HITEC Corporation were retained by Hussey Seating Company during the testing process. HITEC provided strain gauge and thermocouple installation along with data collection during each of the testing procedures (Photo #2). In additional to external observations made during the testing process, it was thought that this additional technology would help ensure that localized areas where potential yielding could occur would be more easily identified and with a greater level of accuracy. It is my understanding that HITEC provided strain (deformation) information to the Hussey engineers and that this information has since been converted to localized stresses by Hussey Seating Company. During the initial phases of the test procedures, I conferred with Bob Robbins as to logical placement for the strain gauge instruments so that information could be obtained at what appeared to be worst case locations on the seating equipment.

3.6 Criterium - Mooney Engineers - Scope of Services

The scope of services Criterium - Mooney Engineers provided for monitoring the testing of the MAXAM bleacher is contained in Appendix F.

3.7 Measurement and Recording of Test Data

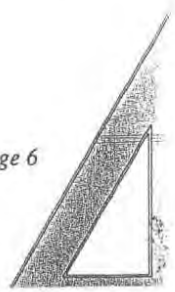
3.7.1 Dynamometers. Dynamometers were used to identify loads being applied to the structure. The dynamometers typically had a capacity of 2,000 pounds each (Photo #3). During portions of the test where more than 2,000 pounds needed to be applied to a specific point, additional cables and dynamometers were installed so that no dynamometer was required to exceed its rated capacity. Calibration for the dynamometers was performed by others, a copy of which is shown in Appendix D. After the tests were completed, each of the dynamometers was again tested to verify its accuracy. A copy of this second series of tests (performed in August, 1999) is also contained in Appendix D.



3.7.2 Strain Gauges and Thermocouples. As noted earlier, strain gauges and thermocouples were placed at various points within the structure at areas where it is anticipated that localized yielding of steel materials may occur.

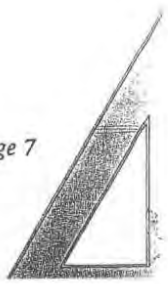
3.7.3 Deflections. Both horizontal and vertical deflections were recorded by Hussey Seating Company for each test. Horizontal deflections were measured during the application of lateral loads to the structure. A simple system using a plumb bob and a piece of paper upon which notations could be recorded was used to identify the horizontal deflections at each increment when load was applied to the structure (Photo #4). Vertical measurements were also taken during each load test. Vertical deflections were recorded at the midspan between the supports and also at the end of the cantilever. Measurements were taken as each increment in load was applied to the structure.

3.7.4 Temperature. During most of the test, the indoor air temperature was recorded. As can be seen in the attached test reports, the temperature rarely fell below 40° within the testing facility even though some of the tests were performed during the winter months.



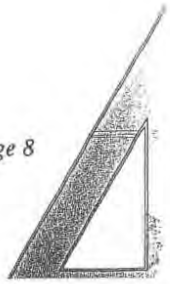
3.8 Testing Facility

A new testing facility was erected for the purpose of testing the 30-tier bleacher system. The structure consisted of structural steel framing and was enclosed in plastic sheeting to ensure that both the seating equipment and the testing equipment remained dry and out of the weather during the testing process. The facility was marginally heated and, for this reason, the air temperature ranged typically from approximately 40° to 70°F.



4.0 OBSERVATIONS AND EVALUATION

Typically, I was not on-site to observe the incremental application of the gravity loads to the bleacher system. The primary reason is that the gravity loads were left in place at the full 200% loading during application of the lateral load tests. It is my opinion that application of the lateral loads simultaneous with the gravity loads represents a "worst case" scenario experienced by the structural system. For this reason, the following inspection reports identify the dates and times I was on site observing lateral load tests. Observations and evaluations are contained within the test report. It should be noted that gravity loads of 200% were in place during each of the following tests unless noted otherwise.

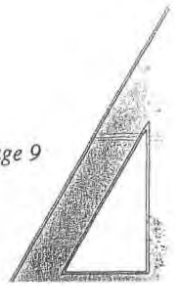


1. Test: Gravity Load Test
   Date: March 3, 1999
   Time: 10:00 a.m.
   Weather Condition: Overcast
   Exterior Temperature: 32°F±
   Interior Temperature: 40°F±
   Site Contact: Bob Robbins
   Observations and Evaluations:
   1. HITEC on-site monitoring strain gauges and continuing with installation.
   2. Scaffolding (for safety) being installed underneath the structure.
   3. Tape measure being installed at cantilevered end and midspan of seating area for measurement of vertical deflection.
   4. Plumb bob at the cantilevered end being installed so that horizontal deflection can be identified.
   5. The initial installation of both testing equipment and data collection equipment was performed in a logical sequence.

2. Test: Sidesway Lateral Load and Front Lateral Load Test Applied at the 14th Tier.
Date: March 5, 1999.
Time: 10:00 a.m.
Weather Condition: Clear
Exterior Temperature: 30°F±
Interior Temperature: 40°F±
Site Contact: Bob Robbins
Observations and Evaluations:

1. Steel bars are stacked four high for modeling the 200% gravity loads (Photo #5). Steel bars measure to be 1½ inches thick by 5 inches wide by 13 inches long.
2. Lateral loads being applied by three Dillon dynamometers.
3. Wheels underneath the columns were noted to be flattened to some extent due to the combination of both the 200% vertical load and the lateral sway loads. However, at the conclusion of the test, it did not appear that permanent damage was induced to the wheels.
4. The sidesway loads were applied at four incremental levels. Deflections were noted at five periods during the testing process. First an initial reading was made prior to application of lateral loads, followed by deflections recorded as each of the incremental loads was applied to the structure. This process was typical during each of the lateral load tests performed on the structure. During the sidesway lateral load test, a total maximum load of 1,224 pounds was ultimately applied horizontally at the 14th tier. For the front sway load test, a total of 255 pounds was applied at each of two locations on the structure located approximately where the riser and the column intersect.
5. It should be noted that the 14th tier was chosen because this represents the location where the 3" x 1½" tube steel column is the longest. From the 15th tier and higher, a larger column tube was used. Therefore, the 14th tier was examined primarily because if a problem were to occur at the smaller, it would occur when the 14th tier reaches its maximum load.
6. Upon removal of the 200% design load, it was seen that the structure resisted the loads in an adequate manner, and I did not see evidence of permanent yielding of components. Furthermore, there was no permanent deformation evidenced at the lower flange of the rear riser or the upper flange of the nose beam.

7. Displacements for Sidesway Load Test at Tier 14



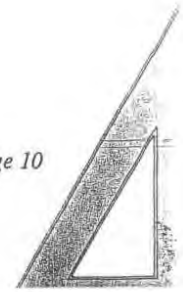
Sidesway Load	Vertical Displacement at Midspan	Vertical Displacement at Cantilevers	Approximate Horizontal Displacement
306 lb.	0"	0"	.06"
612 lb.	.13"	.16"	0.10"
920 lb.	.31"	.06"	0.2"
1224 lb.	.13"	-.03"	0.4"

Note: Negative vertical displacement means upward movement.

8. Displacements for Front-to-Rear Lateral Load Test

Front Load	Vertical Displacement at Midspan	Vertical Displacement at Cantilevers	Approximate Horizontal Displacement
130 lb.	0"	0"	0.2"
260 lb.	-.13"	.03"	1.0"
390 lb.	-.19"	.03"	1.5"
520 lb.	0"	.06"	2.3"

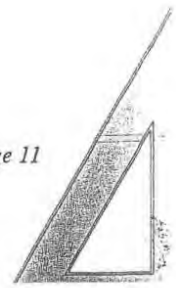
Note: Negative vertical displacement means upward movement.



3. Test: Sidesway Lateral Load and Front Lateral Load Test at Tier 18.
Date: March 9, 1999.
Time: 9:00 a.m.
Weather Condition: Sunny
Exterior Temperature: 25°F±
Interior Temperature: 40°F±; later increased to 57°
Site Contact: Bob Robbins
Observations and Evaluations:

1. The test proceeded smoothly during both the lateral sidesway and also the front lateral load test. Safety scaffolding was in place below highly loaded areas prior to application of lateral loads (Photo #6).
2. The primary observed deformation during the test was located down at the base of the structure where a channel structure houses the two wheels which support the column at the 18th tier. During the sidesway lateral test, the channel housing was noted to be deformed. The deformation was at the front end of channel structure (housing the two wheels) and appeared to be permanent in that it did not completely rebound to its original shape after the load was removed. Later it was discussed that localized deformation could be reduced somewhat by introducing additional stiffeners inside the channel housing for the wheels.
3. It is my understanding that the final design will include these stiffeners. Even without the stiffeners, however, I did not see evidence of components which were broken and it is not felt that the observed deformation in the housing would jeopardize the stability of the structure or expeditious egress of anyone using the seating equipment.
4. Sidesway Displacements at Tier 18 Date: 3/9/99

Sidesway Load	Vertical Displacement at Midspan	Vertical Displacement at Cantilevers	Approximate Horizontal Displacement
306 lb.	0.94"	0.94"	.06"
612 lb.	0.94"	0.94"	0.3"
920 lb.	0.94"	0.94"	0.4"
1224 lb.	1.0"	0.94"	0.6"



Note: Negative vertical displacement means upward movement.

5. Front Lateral Load Displacements at Tier 18 Date: 3/9/99

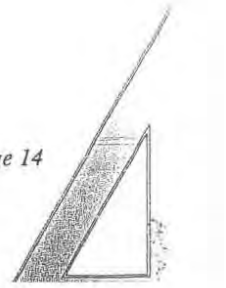
Front Load	Vertical Displacement at Midspan	Vertical Displacement at Cantilevers	Approximate Horizontal Displacement
130 lb.	0"	0"	0.4"
260 lb.	0"	0"	1.4"
390 lb.	-.19"	-	2.5"
520 lb.	-.50"	0"	2.9"

Note: Negative vertical displacement means upward movement.

4. Test: Sidesway Lateral Load Test at Tier 29.
Date: March 15, 1999
Time: 1:30 p.m.
Weather Condition: Snow
Exterior Temperature: 30°F±
Interior Temperature: 41°F±
Site Contact: Bob Robbins and Mike Nelson
Observations and Evaluations:

1. Sidesway test at Tier 29 proceeded smoothly and the load was applied at four incremental steps (Photo #7). The maximum lateral load applied to the structure was again 1,224 pounds.
2. It should also be noted that the structure was connected to the primary building frame which certainly helped provide resistance to the loads. The connection between the building frame and the telescopic seating is developed by a standard component referred to as a "wall buck."
3. The structure successfully resisted the imposed loads.
4. Sidesway Displacements at Tier 29 Date: 3/15/99

Sidesway Load	Vertical Displacement at Midspan	Vertical Displacement at Cantilevers	Approximate Horizontal Displacement
306 lb.	-.13"	0"	.03"
612 lb.	-.13"	-.03"	.03"
920 lb.	-.13"	-.03"	.03"
1224 lb.	-.13"	-.06"	.06"



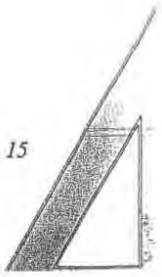
Note: Negative vertical displacement means upward movement.

5. Test: Sidesway Lateral Load Test on Row 2
Date: March 19, 1999
Time: 3:20 p.m.
Weather Condition: Sunny
Exterior Temperature: 30°F±
Interior Temperature: 55°F±
Site Contact: Bob Robbins and Kerry Briggs
Observations and Evaluations:

1. The side lateral load test proceeded smoothly.
2. It should also be noted that Tier 1 consisted of a series of shorter tiers such that wheelchairs could also be included at the front of the seating equipment.
3. The length of the front tier consisted of one segment which was 7'-6" long, a middle segment approximately 10'-6" long, and another end segment 7'-0" long.
4. Each of the segments on the front row or tier had lateral load applied to it. The 7'-6" long segment had a lateral load of 360 pounds (maximum), the middle, 504 pounds and the other end segment 336 pounds. Both the second and third tier each had a total 1,224 pounds applied.
5. Vertical deflections could easily be seen due to gravity loads (Photos #9 and #10) but essentially did not change during lateral load test.
6. The test proceeded smoothly and no apparent permanent deformations were noted.
7. Both horizontal and vertical displacements were so small during the test they were virtually negligible and therefore were not recorded.

6. Test: Front Sway Load Test on Tier 1, 2 and 3
Date: March 23, 1999
Time: 12:00 p.m.
Weather Condition: Sunny
Exterior Temperature: 40°F±
Interior Temperature: 55°F±
Site Contact: Mike Nelson
Observations and Evaluations:

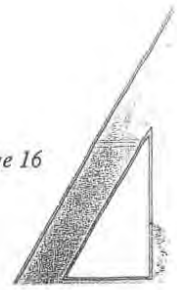
1. The test proceeded smoothly.
2. Front lateral loads were applied at each of the tiers and separate loads were applied for tier 1 for each of the shorter segments.
3. No problems or significant deformations were noted.



7. Test: Vertical Load Test on the Seat Components and Floor Components
Date: March 30, 1999
Time: 9:00 a.m.
Weather Condition: Sunny
Exterior Temperature: 52°F±
Interior Temperature: 60°F±
Site Contact: Bob Robbins and Mike Nelson
Observations and Evaluations:

1. The seat components consist of what appear to be a select grade of southern yellow pine, both wood risers and seats.
2. Vertical loads were applied continuously along the wooden materials consisting of nine steel bars per foot. The floor simultaneously had a load applied of approximately eight steel bars per square foot.
3. A builder's string was extended along the front of the wood seats so that relative deflections could be measured along the wooden seats. A maximum difference in deflection between the support and the cantilevered end was measured to be approximately ¾ inch. The difference in elevation between the supports and the midspan between the supports was approximately ⅜ inch.
4. No observed distress was noted in the wood components.
5. The measured deflections relative to a taut, horizontal string line were as follows:

Left Cantilever	Left Support	Midspan	Right Support	Right Cantilever
.81"	.13"	.31"	0"	.81"



Note: A positive displacement represents a downward direction of movement.

8. Test: Front Lateral Load Test on Tiers 27, 28 and 29
Date: April 2, 1999
Time: 4:30 p.m.
Weather Condition: Clear and sunny
Exterior Temperature: 60°F±
Interior Temperature: 63°F±
Site Contact: Bob Robbins and Mike Nelson
Observations and Evaluations:

1. It is understood that the wall bucks are intended to help provide stability to the 30-tier bleacher system (Photo #11).
2. Because of how the bleacher is constructed, the loads will accumulate at the cantilevered ends of the riser and also at midspan since these are the locations of where the "stops" occur at each tier level.
3. A maximum horizontal cumulative load was applied at tier 28 as follows: At the end of each cantilever a maximum horizontal load of 2,000 pounds was applied. At midspan between the supports a maximum load of 4,000 pounds was applied at tier 28.
4. At tier 29 and tier 30, lesser loads were applied with the intent of modeling the additional horizontal load due to just these two tiers only. The maximum load applied at two locations on tier 29 was 296 pounds (approximately 600 pounds total) and the maximum load applied at two locations on tier 30 was 256 pounds (approximately 500 pounds total).
5. The test proceeded smoothly and no permanent damage to structural components was observed.
6. It should be noted that this test included an "upper stop bracket" at the top of the uppermost columns which helped in transferring horizontal loads directly to the wall bucks at the top of the structure. A second test was performed during which the "upper stop brackets" were removed to see if they were truly a necessary part of the structure and it was found that indeed they are necessary.
7. The horizontal displacements at the cantilevered end were recorded as follows:

Front Load	Approximate Horizontal Displacement
Quarter Load	.3"
Half Load	.5"
Three-Quarter Load	.8"
Full Load	1.0"

9. Test: Center Handrail and End Rail Test
Date: June 4, 1999
Time: 1:30 p.m.
Weather Condition: Sunny
Exterior Temperature: 70°F
Interior Temperature: 72°F
Site Contact: Bob Robbins and Kerry Briggs
Observations and Evaluations:

A. Center Handrail

1. The center handrail used at the step location was tested by applied 200% of the design loads or, in other words, 400 pounds total load. This was applied at four incremental steps.
2. The front load test at the center handrail was performed without incident and deflections were measured both before and at the end of the test (Photo #13).
3. A side load test was performed on the handrail and again the maximum load of 400 pounds was induced after four incremental steps. Permanent deformation of the steel, however, did take place (Photo #14).
4. No components were broken and I did not see evidence of cracked welds during the side load test. The 400 pound load was sustained for a period of time indicating that the component was fully able to sustain this load. It is felt that although the structure did certainly undergo some permanent yielding due to the tubular shape of the handrail, it was still fully capable of supporting the loads induced and required by the code. As to why the steel handrail deformed and then stopped deforming, it is felt that the tubular shape was able to increase its stiffness as it deformed and therefore the deformation stopped and it was able to fully resist the load.
5. Front Load Test Displacements.

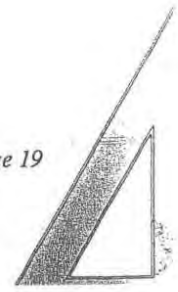
Front Load	Approximate Horizontal Displacement
100 lb.	.6"
200 lb.	2.1"
300 lb.	4.6"
400 lb.	8.1"
0 lb. (end of test)	3.8"

6. Side Load Test Displacements.

Side Load	Approximate Horizontal Displacement
100 lb.	.75"
200 lb.	1.88"
300 lb.	3.63"
400 lb.	7.25"
0 lb. (end of test)	3.8"

B. Side Rail

1. Side lateral loads and front lateral loads were also applied to the side or end rail and although some deflection was noted, it appeared that the end rail essentially had a full rebound and no permanent yielding or deformation of components on the side rail were noted (Photo #15).
2. Side Load Test Displacement on End Rail with Side Load Placed at Top of End Rail Front Post.



Side Load	Approximate Horizontal Displacement
100 lb.	.88"
200 lb.	1.56"
300 lb.	2.38"
400 lb.	3.25"
0 lb. (end of test)	.12"

3. Side Load Test Displacement on End Rail with Side Load Placed at Top of End Rail Back Post.

Side Load	Approximate Horizontal Displacement
100 lb.	.25"
200 lb.	1.0"
300 lb.	1.63"
400 lb.	3.0"
0 lb. (end of test)	0.75"

4. Front Load Test Displacement on End Rail.

Front Load	Approximate Horizontal Displacement
100 lb.	2.13"
200 lb.	4.38"
300 lb.	6.88"
400 lb.	8.5"
0 lb. (end of test)	0.5"

5.0 CONCLUSION

Based on visual observations, the 30-tier full-scale bleacher system successfully resisted the test loads applied to the structure. The test loads consisted of 200% of the live loads specified by the most recent edition of the California Building Code. During some instances, localized yielding or steel components was noted. This occurred at the aisle rail and the front (or free) end of the channel at the base of the column which houses the two wheel. It is not felt that these instances represent a compromise to the overall safety of the structure.

These conclusions are based on visual evidence available at the time the tests were performed. If you have any questions regarding this report, please do not hesitate to contact us.

Sincerely,

David A. Price, P.E.

APPENDIX B

1998 CALIFORNIA BUILDING CODE, IR3301 AND DSA REVIEW OF HUSSEY TEST PROCEDURE

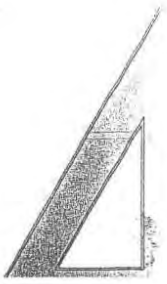

TABLE 16A-A—UNIFORM AND CONCENTRATED LOADS

USE OR OCCUPANCY		UNIFORM LOAD[1] (psf)	CONCENTRATED LOAD (pounds)	
Category	Description	× 0.0479 for kN/m²	× 0.004 48 for kN	
1. Access floor systems	Office use	50	2,000[2]	
	Computer use	100	2,000[2]	
2. Armories		150	0	
3. Assembly areas[3] and auditoriums and balconies therewith	Fixed seating areas	50	0	
	Movable seating and other areas	100	0	
	Stage areas and enclosed platforms	125	0	
4. Cornices and marquees		60[4]	0	
5. Exit facilities[5]		100	0[6]	
6. Garages	General storage and/or repair	100	7	
	Private or pleasure-type motor vehicle storage	50	7	
7. Hospitals	Wards and rooms	40	1,000[2]	
8. Libraries[12]	Reading rooms	60	1,000[2]	CA
	Stack rooms	125	1,500[2]	CA
9. Manufacturing[12]	Light	75	2,000[2]	CA
	Heavy	125	3,000[2]	CA
10. Offices[12]		50	2,000[2]	CA
11. Printing plants[12]	Press rooms	150	2,500[2]	CA
	Composing and linotype rooms	100	2,000[2]	CA
12. Residential[8]	Basic floor area	40	0[6]	
	Exterior balconies	60[4]	0	
	Decks	40[4]	0	
	Storage	40	0	
13. Restrooms[9]				
14. Reviewing stands, grandstands, bleachers, and folding and telescoping seating		100	0	
15. Roof decks	Same as area served or for the type of occupancy accommodated			
16. Schools	Classrooms	*50*	1,000[2]	
17. Sidewalks, *pedestrian bridges* and driveways[12]	*Limited access*	*100*	7	CA
	Public access	250	7	CA
18. Storage[12]	Light	125		CA
	Heavy	250		
19. Stores[12]	*Retail*	*75*	*2,000*[2]	CA
	Wholesale	100	3,000[2]	CA
20. Pedestrian bridges and walkways		100		
21. Press box floor and roof with railing	*TV cameras and equipment*	*100*	*1,000*[2]	CA
22. Dining areas	*Not used for assembly areas*	*100*	*1,000*[2]	CA
23. Kitchens and serving areas		*50*	*1,000*[2]	CA
24. Mechanical and electrical equipment areas[10]	*Open areas around equipment*	*50*	*11*	CA
25. Shops[12]	*Light*	*75*	*2,000*[2]	CA
	Heavy	*125*	*3,000*[2]	CA

[1]See Section 1607A for live load reductions.
[2]See Section 1607A.3.3, first paragraph, for area of load application.
[3]Assembly areas include such occupancies as dance halls, drill rooms, gymnasiums, playgrounds, plazas, terraces and similar occupancies that are generally accessible to the public.
[4]When snow loads occur that are in excess of the design conditions, the structure shall be designed to support the loads due to the increased loads caused by drift buildup or a greater snow design as determined by the *enforcement agency*. See Section 1614A. For special-purpose roofs, see Section 1607A.4.4. CA
[5]Exit facilities shall include such uses as corridors serving an occupant load of 10 or more persons, exterior exit balconies, stairways, fire escapes and similar uses.
[6]Individual stair treads shall be designed to support a 300-pound (1.33 kN) concentrated load placed in a position that would cause maximum stress. Stair stringers may be designed for the uniform load set forth in the table.
[7]See Section 1607A.3.3, second paragraph, for concentrated loads. See Table 16A-B for vehicle barriers.
[8]Residential occupancies include private dwellings, apartments and hotel guest rooms *and dormitories*. CA
[9]Restroom loads shall not be less than the load for the occupancy with which they are associated, but need not exceed 50 pounds per square foot (2.4 kN/m²).
[10]*See Part 7, Title 24, for elevator machine room floor loads and equipment loads.* CA
[11]*See Table 16A-B for equipment design loads.* CA
[12]*See Section 1607A.3.5 for posting requirements.* CA

TABLE 16A-B—SPECIAL LOADS[1]

USE		VERTICAL LOAD	LATERAL LOAD
Category	Description	(pounds per square foot unless otherwise noted)	
		× 0.0479 for kN/m²	
1. Construction, public access at site (live load)	Walkway, see Section 3303.6	150	
	Canopy, see Section 3303.7	150	
2. Grandstands, reviewing stands, bleachers, and folding and telescoping seating (live load)	Seats and footboards	120[2]	See Footnote 3
3. Stage accessories (live load)	Catwalks	40	
	Followspot, projection and control rooms	50	
	Gridirons and fly galleries	*75*	
	Loft block wells[16]	*250*	*250*
	Head block wells and sheave beams[16]	*250*	*250*
	Scenery beams where there is no gridiron[16]	*300*	*300*
4. Ceiling framing (live load)	Over stages	20[15]	
	All uses except over stages	10[4]	
5. Partitions and interior walls, see Sec. 1611A.5 (live load)			5
6. Elevators and dumbwaiters (dead and live loads)		2 × total loads[5]	
6.1 Elevator cars and dumbwaiters (dead and live load)		*See Part 7, Title 24*	*See Table 16A-O*
7. Mechanical and electrical equipment (dead load)		Total loads	*See Table 16A-O*
8. Cranes (dead and live loads)	Total load including impact increase	1.25 × total load[6]	0.10 × total load[7]
9. Balcony railings and guardrails	Exit facilities serving an occupant load greater than 50		50[8]
	Other than exit facilities		20[8]
	Components		25[9]
10. Vehicle barriers	See Section 311.2.3.5		6,000[10]
11. Handrails		See Footnote 11	See Footnote 11
12. Storage racks	Over 8 feet (2438 mm) high	Total loads[12]	See Table 16A-O
12.1 Storage racks and wall-hung cabinets	*Racks over 5 feet (1524 mm) high*	*Total loads*[12]	*See Table 16A-O*
13. Fire sprinkler structural support		250 pounds (1112 N) plus weight of water-filled pipe[13]	See Table 16A-O
14. Explosion exposure	Hazardous occupancies, see Section 307.10		

[1]The tabulated loads are minimum loads. Where other vertical loads required by this code or required by the design would cause greater stresses, they shall be used.

[2]Pounds per lineal foot (× 14.6 for N/m).

[3]Lateral sway bracing loads of 24 pounds per foot (350 N/m) parallel and 10 pounds per foot (145.9 N/m) perpendicular to seat *boards at the standard level. Sway loads need not be applied simultaneously with other lateral loads. Allowable stresses for allowable stress design may be increased one third when considering sway loads acting alone or when combined with vertical loads* and footboards.

[4]Does not apply to ceilings that have sufficient total access from below, such that access is not required within the space above the ceiling. Does not apply to ceilings if the attic areas above the ceiling are not provided with access. This live load need not be considered as acting simultaneously with other live loads imposed upon the ceiling framing or its supporting structure.

[5]*Not adopted by the State of California.*

[6]The impact factors included are for cranes with steel wheels riding on steel rails. They may be modified if substantiating technical data acceptable to the building official is submitted. Live loads on crane support girders and their connections shall be taken as the maximum crane wheel loads. For pendant-operated traveling crane support girders and their connections, the impact factors shall be 1.10.

[7]This applies in the direction parallel to the runway rails (longitudinal). The factor for forces perpendicular to the rail is 0.20 × the transverse traveling loads (trolley, cab, hooks and lifted loads). Forces shall be applied at top of rail and may be distributed among rails of multiple rail cranes and shall be distributed with due regard for lateral stiffness of the structures supporting these rails.

[8]A load per lineal foot (× 14.6 for N/m) to be applied horizontally at right angles to the top rail.

[9]Intermediate rails, panel fillers and their connections shall be capable of withstanding a load of 25 pounds per square foot (1.2 kN/m²) applied horizontally at right angles over the entire tributary area, including openings and spaces between rails. Reactions due to this loading need not be combined with those of Footnote 8.

[10]A horizontal load in pounds (N) applied at right angles to the vehicle barrier at a height of 18 inches (457 mm) above the parking surface. The force may be distributed over a 1-foot-square (304.8-millimeter-square) area.

[11]The mounting of handrails shall be such that the completed handrail and supporting structure are capable of withstanding a load of at least 200 pounds (890 N) applied in any direction at any point on the rail. These loads shall not be assumed to act cumulatively with Item 9.

[12]Vertical members of storage racks shall be protected from impact forces of operating equipment, or racks shall be designed so that failure of one vertical member will not cause collapse of more than the bay or bays directly supported by that member.

The minimum vertical design live load shall be as follows:

Paper media:

12-inch-deep (305 mm) shelf *33 pounds per lineal foot (482 N/m)*
15-inch-deep (381 mm) shelf *41 pounds per lineal foot (599 N/m), or*
33 pounds per cubic foot (5.2 kN/m³) per total volume of the rack or cabinet, whichever is less.

Film media:

18-inch-deep (457 mm) shelf *100 pounds per lineal foot (1460 N/m), or*
50 pounds per cubic foot (7.85 kN/m³) per total volume of the rack or cabinet, whichever is less.

Other media:

20 pounds per cubic foot (3.14 kN/m³) or 20 pounds per lineal foot (292 N/m), whichever is less, but not less than actual loads.

[13]The 250-pound (1.11 kN) load is to be applied to any single fire sprinkler support point but not simultaneously to all support joints.

IR 33-1
Rev. 9/90
Secs. 2308(c), 2907(i), 3323 & 3324, T-24

INTERPRETATION OF REGULATIONS
(Title 21 and Part 2 of Title 24, CCR)

DESIGN AND CONSTRUCTION OF BLEACHERS 20 FEET OR LESS IN HEIGHT

(a) General. Bleachers are required to be designed and constructed in accordance with the provisions of Title 24 and the following interpretations are intended for use in achieving that compliance. The provisions of this IR apply solely to the design of bleachers with an overall height of 20 feet or less, and in no instance should be considered as a precedent for, or be used in the design of other types of structures.

(b) Definitions.

(1) Bleachers more than 5 rows of seats above grade are considered "school buildings" and are subject to Office of the State Architect (OSA), approval.

(2) Permanent bleachers are seating facilities which remain at a location for more than 90 days.

(3) Portable bleachers refer to seating facilities located outside of a building and not attached to permanent foundations. The maximum height of any portable bleachers may not exceed 11 rows or 9 feet above grade to the top seating board.

(4) Folding and telescoping seating facilities are structures used for tiered seating whose overall size and shape may be reduced without being dismantled for purposes of moving or storing.

(c) Footings. Footings for open air seating facilities are required to comply with Title 24, Section 2907(i).

Exception: Temporary open air portable bleachers may be supported upon treated wood sills or steel plates placed directly upon the ground surface, provided soil pressure does not exceed 1000 psf.

NOTE: This interpretation is intended for use by the plan review and field engineers of OSA/SSS and/or OSHPD to indicate an acceptable method for achieving compliance with applicable codes and regulations. Its purpose is to promote more uniform statewide criteria for use in plan review and supervision of construction of public school, health care, and essential services projects. Other methods proposed by design professionals to solve a particular problem will be considered by OSA/SSS and/or OSHPD and reviewed for code and regulation co

(d) Relocation. OSA approval is for the specific location originally shown only. Any subsequent move to another location voids the approval and will require submittal of an application for approval at the new site.

(e) Design. (L = unsupported length of member).

(1) Slender Columns. Columns having an L/r range from 200 to 300 may be used with the following restrictions.

(A) Maximum Allowable Axial Load. The maximum permitted axial load is 2,000 lbs.

(B) Allowable Stresses. The column will be checked for combined direct plus bending stress using the formula:

$$f=a/F=a + f=b/0.60\ F=y << 1.0$$

For a vertical column the additional bending will be computed by assuming a 20 lb. concentrated horizontal load applied half way between lateral supports (so as to produce maximum moment). For inclined or horizontal struts the additional bending will be computed for a 20 lb concentrated horizontal load or 150 lb. concentrated vertical load applied at mid-span, whichever gives the larger bending stress. The allowable column stress will be determined from the formula:

$$F=a = \frac{\pi^2 E}{(L/r)<2} \left(\frac{35}{(L/r-125)} \right)$$

This formula is indicated graphically in Figure 1 of this IR.

(C) Lateral Stays for Columns. Columns should be stayed laterally by direct connected compression struts in two directions at the points of lateral support.

(2) Effective Lengths of Compression Members in X-Braces. Where a compression member is stayed by a tension member in the same plane, the length of the compression member will be limited to a maximum L/r of 200 based on the distance between the tension support and the end connection.

(f) Tests on Steel. OSA will require steel tests in accordance with Section 2727, Title 24, CCR, subject to the following modifications:

(1) Small Shapes and Bars. Shapes less than 1 square inch in cross section and bars other than flats less than 1/2 inch thickness or diameter will not require the tension test, but will require a bend test.

(2) Steel Tubing. Steel tubing used in bleachers is required to be made from new billets. Each size of tubing used on any project will be tested and required to conform to the following properties:

Minimum yield point	35,000 psi
Minimum ultimate tensile strength	60,000 psi
Elongation 15% minimum in two inch guage length	

(3) Test List and Test Methods. OSA and the structural engineer should agree on a list of parts which are to be tested. The engineer should notify the manufacturer of this list of steel requiring testing.

Either of the following methods of testing may be used:

(A) The structural engineer will request the bleacher manufacturer to send him samples of parts, which OSA and the engineer list as being subject to test. The manufacturer will certify that these samples are from the same steel purchased for the bleacher. The structural engineer will have this steel tested locally, at the manufacturer's expense, and submit reports to OSA.

(B) The bleacher contractor will furnish to the State, via the structural engineer, periodic reports of stock steel purchased for use in bleachers, and include in the report the mill test report of the steel purchased and one tension and bend test made by an independent laboratory for each 10 tons purchased. When mill test reports cannot be furnished, one tension and bend test will be made for each 5 tons of steel. A current report should be included with each project submitted for State approval.

(g) Qualification of Welders and Inspection of Welding. Either of the following methods (1) or (2) may be used to satisfy the requirements of Section 2727, Title 24, CCR.

EXCEPTION: This provision need not apply to tack welds not later incorporated into finished welds carrying calculated stress.

(1) Verified Reports. With each bleacher, the manufacturer will send OSA a verified report made by a qualified professional engineer, stating the following:

"Welds on this bleacher have been made by operators who have been previously qualified by tests, as prescribed in the Qualification Section of the Structural Welding Code of the American Welding Society, to perform the type of work required.

I have selected a person qualified to act as welding inspector. I certify him to be experienced in inspection of arc welds on work requiring unquestioned reliability, and that he has the ability to distinguish between sound and unsound welding."

With each bleacher, the welding inspector will send OSA a verified report stating:

"I have checked the equipment and find it adequate and have checked the ability of the welders and found them satisfactory.

I have inspected all the welding and found it proper and in conformity with the plans and specifications and Chapter 27, Title 24, CCR. I have used all necessary tests to assure myself of the adequacy of the welding."

(2) Local Welding Inspection. A local qualified welding inspector, approved by OSA will inspect the welding after delivery in California, and will submit a verified report stating:

"I have inspected all the welding and found it proper and in conformity with the plans and specifications and Chapter 27, Title 24, CCR. I have used all necessary tests to assure myself of the adequacy of the welding.

The manufacturer will pay the cost of inspection and necessary removal and retouching of paintwork.

(h) Lumber. Any one of the following three methods may be used to satisfy the requirements.

(1) Method I. The bleacher manufacturer may send OSA a lumber inspection certification by an approved grading agency, and a notarized certificate, signed by an official of the bleacher manufacturing company, stating that the lumber used in the bleacher is the same as that covered by the lumber inspection certificate.

(2) Method II. The bleacher manufacturer may send OSA a notarized certificate, signed by the official of the bleacher manufacturing company, stating that the official has personally inspected the lumber prior to processing or painting, and that it was grade marked by an approved grading agency and is in accordance with the approved plans and specifications. He shall list the grades indicated by the grade marks and note the maximum slope of grain if it is specified to be more restrictive than the grading rules requirement.

(3) Method III. A qualified professional engineer may certify that the lumber used in the bleachers conform to the grades and other requirements called for in the approved plans and specifications.

When lumber is fabricated by gluing, certification of quality control and inspection of glue joints by an approved inspection agency will be submitted with the above certifications. Note that all methods of glue fabrication of lumber must be previously approved by OSA and the certification must state that all conditions of the approval have been complied with.

(i) Concrete. The requirements governing the quality of concrete may be satisfied by one of the following:
(Also see Section 2604, Title 24, CCR.)

(1) A report of strength tests of two identical cylinders taken for each day's pour; one tested at the age of seven days and the other at 28 days. The report should indicate strengths equal to or exceeding the specified strength required for the project; and should include a bonded weighmaster's affidavit.

(2) The above test report and affidavit are not required when the following provisions of bleacher pier footings are complied with and not listed on the structural test and inspection list.

Bleacher Pier Footings. Concrete may be placed in bleacher pier footings without continuous inspection by the inspector of record providing the thickness of such footings is not less than 1/2 the width or length of the footings, whichever results in the greater thickness. Test cylinders will not be required for such concrete. However, a definite mix should be specified or the concrete mix design should be approved by the architect or structural engineer prior to the placing of concrete.

(j) Other Materials. Certification and testing of materials other than the preceding should be in accordance with the appropriate sections of Title 24, CCR and/or as determined by OSA.

(l) General Affidavit Requirements. All verified reports and certificates will be filed in duplicate and must bear original signatures. They must be notarized or the original signature of the person making the report or certificate must be preceded by the statement:

"I certify (or declare) under penalty of perjury that I have read the above report and know of the contents thereof, and that all of the above statements are true."

(k) Load Tests. When load tests are made as a basis for approval of bleachers by OSA, test loads will be applied in not less than four, approximately equal increments, without shock to the structure and in a manner to avoid arching of the loading materials or stiffening of the structure. The load test procedure must by approved by OSA prior to testing. The strength of the material in the test bleacher should not exceed the minimum specified strength by more than 5 percent.

(l) Test Load Factors. When load tests are made to check design or as a basis for approval of bleachers, the test load should be not less than twice the design vertical load combined with twice the design lateral load.

CRITERIUM-MOONEY ENGINEERS

Mr.David A.Price
Director of Engineering
Criterium-Mooney Engineers
650 Brighton Avenue
Portland, Me.04102.

Dear Mr.Price:

Re: Hussey Seating Company – Bleacher Testing Plan

We have reviewed the Test Protocol for the Hussey Model 2600 Bleacher as requested in your letter dated February 1,1999. It is our understanding this test procedure will be used for partial acceptance of future bleacher PreCheck (PC) submittals to this office.

The testing procedure is similar to the one accepted by this office in 1992 for PC- 203. The acceptance of this test plan is based on the test being conducted under the observation of Criterium-Mooney Engineers. The approval of the future PC submittal will be subject to DSA review of test reports as well as substantiating structural calculations.

Please note all projects submitted to DSA after July 1,1999 must conform to the 1998 California Building Code.

We regret the delay in responding to your letter. If you have any questions or need further information, please contact me at (213) 897-3995.

Sincerely,

Jack E. Bruce, Regional Manager
Los Angeles Basin Regional Office

RE: California DSA certification of 30 tier bleacher

Dave,

Based on our conversation last Wednesday, January 6th, I have pulled together the following information which should be forwarded to your California office to get the ball rolling. Included are proposed test procedures based on testing done in 1992, description of variations between test bleacher and actual production product, and rationale for using strain gauges in lieu of meeting the 5% above minimum yield strength for raw materials as stated in IR-33. Material test reports have also been included to further substantiate the need to exempt ourselves from the 5% over minimum yield requirement.

Obviously, the most important element at this time is DSA's approval of our test plan. Until they give us the "green light" to do our testing we will not be able to proceed. Having established this, it is imperative that your California affiliate get answers as to whether our approach will be acceptable to DSA.

Below you will find explanations of how the bleacher we intend to test differs from what we plan to produce and a description of our rationale for considering this a worse case:

1. Noses & Risers; The main load carrying beams of each row, have been manufactured as break-formed shapes with butt welds to produce a 25'-6" length. The position of the butt weld was determined to be as close as possible to the point of zero moment so as to forego any bending stress through the weld. In the future, we would produce these as roll-formed shapes which would be continuous in length. Since there will be no weld joints in our noses or risers in the actual production product we feel that testing of the welded components would represent a worst case scenario.
2. Strain Gauges; The use of strain gauges is being considered since the material properties of the load bearing elements has been demonstrated as being significantly higher than the minimum specification; at times as much as 20% higher. With strain gauges in place we will be able to quantify the stress levels and compare them with the allowables as predicated by AISC or AISI, whichever is the predominant authority. Although our test bleacher has been constructed of materials in excess of 5% above minimum yield, the use of strain gauges would allow us to determine the stress levels we should reasonably expect if the material were to be within specification.

HUSSEY SEATING COMPANY P.O. Box 459, North Berwick, Maine 03906 U.S.A., Tel: 207-676-2271, Fax: 207-676-2222
e-mail: info@husseyseating.com, *Worldwide Web:* www.husseyseating.com

HUSSEY SINCE 1835

Your partner for seating solutions®

As discussed, our calculations will be done using either CFS (section properties), ANSYS (truss analysis), or conventional hand calculations. The latest editions of AISC, AISI and UBC will be used as the basis of our calculations; Title 24 will be 1997. These will be included in our formal submission to DSA. For now however, we will not be submitting any calculations until we know whether or not DSA will accept our intention of testing the prototype bleacher.

Our goal is to minimize the time required to gain DSA approval. If any of the information above is unclear, or you require additional clarification, please feel free to contact me at your earliest convenience.

Sincerely,
Hussey Seating Company

Robert E. Robbins, P.E.
Development Engineer

PS - I have also included two copies installation and technical information regarding the strain gauges we plan to use for your reference and to be forwarded to DSA.

e-mail: Info@husseyseating.com, *Worldwide Web:* www.husseyseating.com

HUSSEY SEATING COMPANY PROCEDURE FOR LOAD TEST OF MODEL 2600 BLEACHER

Bleacher types to be tested:

Model 2600	30 Tier	Wall Attached
Model 2600	20 Tier	Free Standing
Model 2600	20 Tier	Reverse Fold
Model 2600	15 Tier	Portable

Test Bleacher size and configuration:
26" row spacing; 9 5/8" rise; 25'-6" long section

Test to be conducted by Hussey Seating Company, Inc. and observed by the independent engineering firm Criterium Engineers.

Test Criterion: No component or assembly shall yield to a point that it would prevent the telescopic operation of the test bleacher.

Plan, cross section and detailed part drawings of equipment to be tested will be present at test site at all times.

Telescopic Seating design loads:

Live Load:	100 psf over entire projected area
Seat and Foot area:	120 plf
Side Sway:	24 plf parallel to deck
Front-to-Rear Sway:	10 plf perpendicular to deck

All test loads, gravity, side sway and front-to-rear sway shall be applied at 2x design load (200%) on the designated rows.

Test will be performed on basic bleacher without seats with the exception of seat and foot area test. Designated 25'-6" long deck units will receive 11,050 lb. gravity load in 3 row increments. While the 11,050 lb. gravity load is still in place each row will be loaded with 1224 lb. per row side sway load. Side sway load will then be removed and then 510 lb. per row front-to-rear sway load will be applied. Front-to-rear sway load on tiers above three will be applied as the additive sum of rows below the row being tested with the additive sum being applied to the first row of three.

NOTE: Side Sway and Front-to-Rear Sway loads will not be applied simultaneously.

Load will be applied using steel blocks measuring 13" x 5" x 1 ½" thick. Steel blocks weigh approximately 27 lbs. each. Statistical sampling will be done in order to obtain an average weight per block.

Rows to be selected based on changes in column cross section, bracing scheme, and overall height (maximum slenderness ratio).

Rows to be tested:

1, 2 & 3	Modular ADA spaces, Powered Frames (un-braced) and 1st slant column
14, 15 & 16	Column size changes at tier 15, longest 3" column is on row 14
18, 19 & 20	Bracing scheme change from single tension brace to double tension brace with additional lateral (compressive) brace to limit slenderness ratio.
28, 29 & 30	Longest columns, lateral brace and last row of test bleacher

Test #1: Gravity load @ 200% design load

Test #2: Gravity load with Side Sway load @ 200% design load

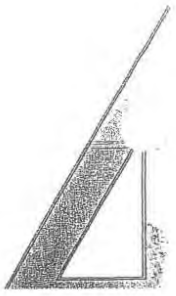
Test #3: Gravity load with Front-to-Rear Sway load @ 200% design load

Test #4: Same as #1 - #3 with bleacher detached from wall attachment

Test #5: Seat and Foot area
- 3 rows with wood seats
- 3 rows with injection molded plastic seats
- 3 rows with extruded plastic seats

Note: Seat and foot area tests will be conducted with 240 lbs. per linear foot; i.e. 2x design load.

Accessories to be tested:



- Aisle Steps — Loads to aisle steps will be identical to bleacher test loads, i.e.
  Live Load: 100 psf over entire projected area
  Side Sway: 24 plf parallel to deck
  Front-to-Rear Sway: 10 plf perpendicular to deck

- Aisle Rails & Sockets — 200 lb. Concentrated load at any point and in any direction per UBC 1997 Table 16-B Special Loads #11 (Handrails)

- End Rails & Sockets — 50 plf applied horizontally at right angles to top rail
  25 psf applied horizontally at right angles to intermediate rails, panel fillers and their connections per UBC 1997 Table 16-B Special Loads #9 (Balcony railings and guardrails)

APPENDIX C

1992 PC203 TEST PROCEDURE

Previously Approved Procedure

October 28, 1992

HUSSEY SEATING COMPANY PROCEDURE FOR LOAD TEST OF MODEL 2600 BLEACHER

Bleacher types to be tested:

Model 2600	30 Tier	Wall attached
Model 2600	30 Tier	Free Standing
Model 2600	30 Tier	Reverse Fold
Model 2600	15 Tier	Portable

Test stand size and configuration:

26" row spacing ; 9 5/8" rise ; 20'-0 long section

Test to be conducted by Hussey Seating Company, Inc. and observed and documented by the independent testing laboratory of New Hampshire Materials Laboratory, Inc.

Test Criterion: No component or assembly shall yield to a point that it would prevent the telescopic operation of test stand.

Plan, cross section and detailed part drawings of equipment to be tested will be present at test site at all times.

Telescopic Seating design loads:

Over the horizontal projection	=	100 psf
Seat and foot area	=	120 plf
Sway load parallel to deck	=	24 plf
Sway load perpendicular to deck	=	10 plf

All test loads, gravity, side sway & front to rear sway to be 2 x design load (200%) on denoted 3 row increments.

Test will be performed on basic stand without seats. Designated 20'-0 long deck units will receive a 8667 lb. gravity load in 3 row increments. While 8667 lb. gravity load is applied a 960 lb. per row side sway load will be applied to the 3 rows. Remove side sway load. Apply a 400 lb. per row front to rear sway load to the top 3 rows without stand being attached to the wall to test stands independent understructure. Apply 1300 lb. front to rear sway load to row 28 & 5300 lb. load to row 27, with stand attached to wall, to test maximum force through stand to wall attachment.

NOTE: Side & front to rear sway test will not be performed in unison.

Load will be applied using steel blocks measuring 13" by 5" by 1.5" thick. Steel blocks weigh 25.5 lbs. each.

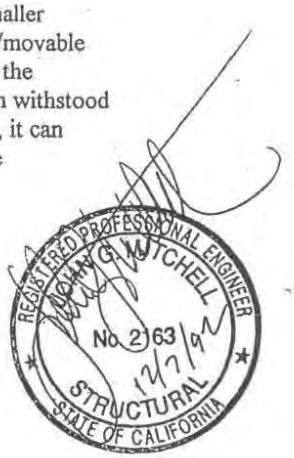
Area or rows to be tested are selected due to deck overhang, center span, change in understructure size, shape or configuration. Rows to be tested:

- Rows 1, 2 & 3 : greatest overhang
- Rows 4, 5 & 6 : column and brace size change
- Rows 13, 14 & 15 : brace size change and tension brace added
- Rows 18, 19 & 20 : largest center span, double stack truss area, column and change style of bracing
- Rows 23, 24 & 25 : top brace size change
- Rows 27, 28 & 29 : longest column, top of unit

Test #1: Gravity load @ 200% design load

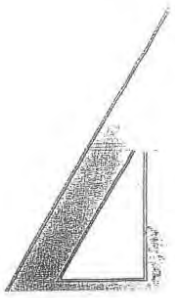
Test #2: Side sway load @ 200% design load

Test #3: (a) Front to rear load @ 200% design load
(b) Same as above except on rows 27, 28, and 29. The stand will be detached from the simulated wall before the 27, 28 & 29 sway force is applied. This shows that at the highest test area the stand's structure is self supporting.
(c) Reattach top of stand to wall. Apply the following loads to row 27, 28, & 29. 30 seating rows x 400 lb. = 12000 lb. (By previous test result appendix B 7-4-81 load distribution is 55% at top & 45% at the bottom of the structure.) 12000 x 55% = 6600 load at wall attachment. Load to be applied with 5300 lb. to row 27 & 1300 lb. to row 28. (Division of loads above was so not to exceed available test pulleys & cables) see attached sketch.



Test #4: Seat Tests

a. 3 Rows - with wood seat with half nosing
b. 3 Rows - with wood seat and center aisle with full nosing
c. 3 Rows - with comfort curve seats with full nosing (injection molded plastic seats)

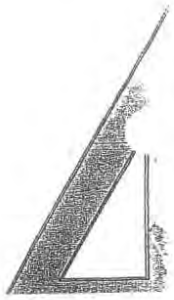


Seat tests will be conducted with 240 lbs. per linear foot of seat and 240 lbs. per linear foot of foot area.

NOTE: The standard wall attached 29/30 seat frame is smaller in structure & construction than the free standing/movable top frames & the reverse fold top frames. Where the standard, wall attached, 29 tier frame construction withstood the loads, when detached from the simulated wall, it can be calculated that the stronger frame is acceptable without testing.

APPENDIX D

MATERIAL TEST REPORTS AND CALIBRATION OF DYNAMOMETERS



I. Material Test Reports

The following material test report was provided to Criterium - Mooney Engineers by Hussey Seating company. Further description of which bleacher components the tested materials represent can be found in the test report for the Wall-Attached MAXAM Telescopic Seating Equipment prepared by Hussey Seating Company.

II. Dynamometer Calibration

The following calibration reports for dynamometers were provided to Criterium - Mooney Engineers by Hussey Seating Company. Since reports were not provided for all dynamometers, it was felt that the dynamometers should be checked again for accuracy by an independent testing company after completion of the field testing for the MAXAM bleacher. The results of the tests can be found in the test report for the Wall-Attached MAXAM Telescopic Seating Equipment prepared by Hussey Seating Company.

CERTIFICATE OF CALIBRATION

This is to certify that the following described Dillon

DYNAMOMETER

Serial Number 12558 has been calibrated to a tolerance of ± 0.5 % by means of dead weights, dead weights through a lever system, or through load applying machines using a load cell transfer standard calibrated by dead weights, with accuracy traceable to the National Institute of Standards and Technology. Calibration of test equipment is in accordance with ISO 10012-1.

We do hereby certify the above listed instrument, Serial Number shown, has been correctly calibrated in accordance with accepted calibration procedures and meets or exceeds the guaranteed accuracy stated above.

Calibrated by Tom Eeden Date Of Calibration: 6/11/98

DILLON LIMITED WARRANTY STATEMENT

Equipment sold and manufactured by Dillon is warranted to be free of defects in parts and workmanship for a period of one (1) year, provided the installing dealer returns the defective equipment, transportation prepaid, to the place of manufacture or to Dillon's nearest service facility. Dillon's exclusive obligation under this warranty is limited to repairing or, at its option, replacing any Dillon part that is determined by Dillon to be defective.

Component subsystems manufactured by Dillon carry the warranty as stated herein. The warranty does not apply to subsystem component parts which are not manufactured by Dillon. Subsystem component parts not manufactured by Dillon shall be subject to any warranty of their manufacturer.

This warranty shall not apply to damages resulting from installation, modification or repair by anyone other than Dillon authorized personnel. Nor shall it apply to any equipment which has been subject to accident, alterations, neglect or misuse.

In the event of highly corrosive or wash down type applications, special protective coatings or materials (such as galvanizing, epoxy coating or stainless steel construction) may be recommended. If these recommendations are not followed and maintained, this warranty shall, at the option of Dillon be voided.

Dillon shall not be liable for any consequential damage, loss or expense of any nature including use of Dillon equipment or components when they are used in combination or separately with accessory equipment not manufactured by Dillon.

THERE ARE NO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO OTHER IMPLIED WARRANTIES.

Representations and/or warranties, by whomever made, which are inconsistent with or in conflict with the terms herein, shall not constitute a term of the Weigh-Tronix Inc express warranty and shall not be binding on Weigh-Tronix Inc. There are no express warranties except as stated herein. This warranty is in lieu of and exclusive of all other warranties.

REPORT OF CALIBRATION

MAINE TEST NUMBER 181 ME

2 ea.500lb cast iron weights
SN: 101 - 102

SUBMITTED BY

All-tech Weighing Systems, Inc.
905 Forest Avenue
Portland, ME 04104

The mass standards described above have been compared with standards of the State of Maine, by modified substitution, and were found to be, or adjusted to within class "F" tolerance.

Standards of the state of Maine are traceable to the National Institute of Standards and Technology through NBS Test No. 39760. The Maine Laboratory is accredited by NIST, OWM, under the "Laboratory Metrology Program", at mass echelon II for 1997. Measurements by this laboratory are traceable to the National Standards at NIST.

The mass standards described above were found to have mass values at the time of test as indicated in the following tabulation. Weights received in an out of tolerance condition show a value in the "before" column.

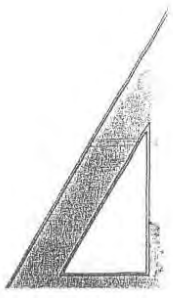
Serial no.	Nominal	Corr. lbs	Uncert. lbs.	Tol. lbs	Before Adj.
101	500 lb	-0.006	0.009	0.05	
102	500 lb	-0.05	0.009	0.05	

The uncertainties shown with reported values are expressed as the sum of the following sources

of inaccuracy: (1) a systematic error relative to the reference standard used, and (2) random error determined by the standard deviation of the measurement process. All mass values have been determined as "conventional mass" with respect to stainless steel with a density of 8.0 g/cm^3 at 20 degrees C.

Environmental conditions and data reduction sheets are on file at the laboratory.

Calibrations performed by this laboratory comply with the requirements of MIL-STD-45662A, and ANSI/NCSL Z540-1, (latest revision).



Date Received: 5/15/97
Date of Test: 6/3/97
Calibration cycle: annual

Danny M. Newcombe, Metrologist

This report may not be reproduced, except in full, without written permission from this laboratory. This report does not constitute an endorsement of any company by NIST, OWM, The State of Maine, or any other government agency.

Re:	HiTEC Info	**CC:**	

☐ **Urgent** ☐ **For Review** ☐ **Please Comment** ☐ **Please Reply** ☐ **Please Recycle**

• **Comments:** Following is a "Resume" describing HiTEC's background and history. Also attached is some literature describing our Field Engineering Services. As I mentioned, I am the application engineer who will be supervising our installation. Field technicians are selected based on their certifications for the types of sensors to be installed.

HiTEC will be providing strain gage and thermocouple installation and data collection equipment to Hussey Seating. The stress calculations resulting from the strain data collected will be the responsibility of Hussey Seating. While HiTEC does have a Professional Engineer on staff in the capacity of Manager of Engineering Services who can provide a comprehensive stress analysis report, it is not HiTEC's intention to provide this service at this time.

Please let me know if the information attached is what you are looking for.

Respectfully,

Chris Abbott

Application Engineer

Website: www.hitecorp.com

HITEC Corporation was established in 1971 to provide a wide range of specialized services for high temperature and extreme environment sensor measurements. These services include: strain gages of all types, thermocouples, temperature, flow and pressure measurement installations for probes, rake leading edge instrumentation, extreme environment installations, research and development efforts, consulting, field and OEM services.

HITEC Corporation was founded by personnel coming from BLH Electronics, Pratt and Whitney Aircraft, Trans-Sonics, and Teledyne CAE. These key people were the inventors of HT free filament strain gages and developers of the Rokide flame spray process for sensor installation and other sensor advances.

Through the twenty-five years of its existence, HITEC Corporation has continued to be on the leading edge of sensor technology and has maintained close ties to other leaders in the field.

HITEC Corporation has recently installed an entirely new laboratory facility for temperature, pressure and flow sensor development and installation, incorporating advanced concepts in machining and brazing techniques. Significant pressure vessel and flow test equipment has been built to our design for support of these techniques. EDM, lathe and milling machining capabilities are available in house.

Specific advances contributed by the founders of HITEC Corporation include:

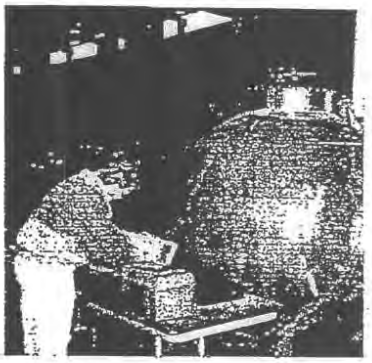
Invention of the HT free filament wire strain gage.

Development of the Rokide flame spray process for sensor attachment.

Development of high purity Rokide rod.

Development of a wire strain gage for dynamic measurements to 2400°F.

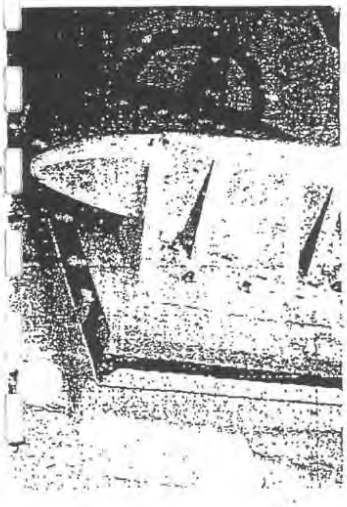
Development of improved manufacturing processes for leading edge vane pressure, flow, and temperature sensors.



HITEC CORPORATION
65 POWER ROAD, WESTFORD, MA 01886-4199
(978) 692-4793; FAX (978) 692-5078
Website: www.hitecorp.com

Complete facilities include:

20,000 Sq. ft of manufacturing and laboratories temperature and humidity controlled
8,000 Sq. ft of engineering and administrative office
Technical Library
Computers including CAD/CAM, FEA
Flame Spray Facility – powder and Rokide
Grit blast, vapor blast, parts cleaning
Curing and temperature cycling ovens, up to 180 cubic ft
Two ton overhead crane, forklifts
Transducer and temperature calibration instrumentation
20,000 lb dead weight testing machine
60,000 lb hydraulic testing machine
200,000 lb hydraulic testing machine
10,000 ft. lbs torque testing capability
Fatigue machine
Fully equipped and certified mechanical/electrical inspection and calibration equipment
Research and development library
Machine shop – Brazing, EDM, grinding, lathe turning, milling (cnc/conventional), sheet metal, welding (gas, TIG, and Arc)



FIELD ENGINEERING SERVICES

Let HITEC install your strain gages at your location

FIELD INSTRUMENTATION SERVICES

HITEC Corporation's engineers and technicians are available to assist in a variety of instrumentation services. From strain gage installations to developing reports, **HITEC Corporation** can support your testing needs. **HITEC Corporation** maintains extensive strain gage inventory and instrumentation for static and dynamic testing. Our inventory includes standard gage configurations and prewired weldables to satisfy your immediate field job requirements.

HITEC Corporation has over 25 years experience in field strain gage testing. Types of testing **HITEC Corporation** has done includes:

**Suspension* cable load monitoring systems

**Bridge* load monitoring systems

**Field* Measurement of residual stresses on bridges, railroad components and molded metal components

**Hydrostatic* testing of pressure vessel covers, valves, temporary steam generator covers

**Proof* load testing of aircraft engine oil pumps

**Gas* pipeline long term monitoring systems

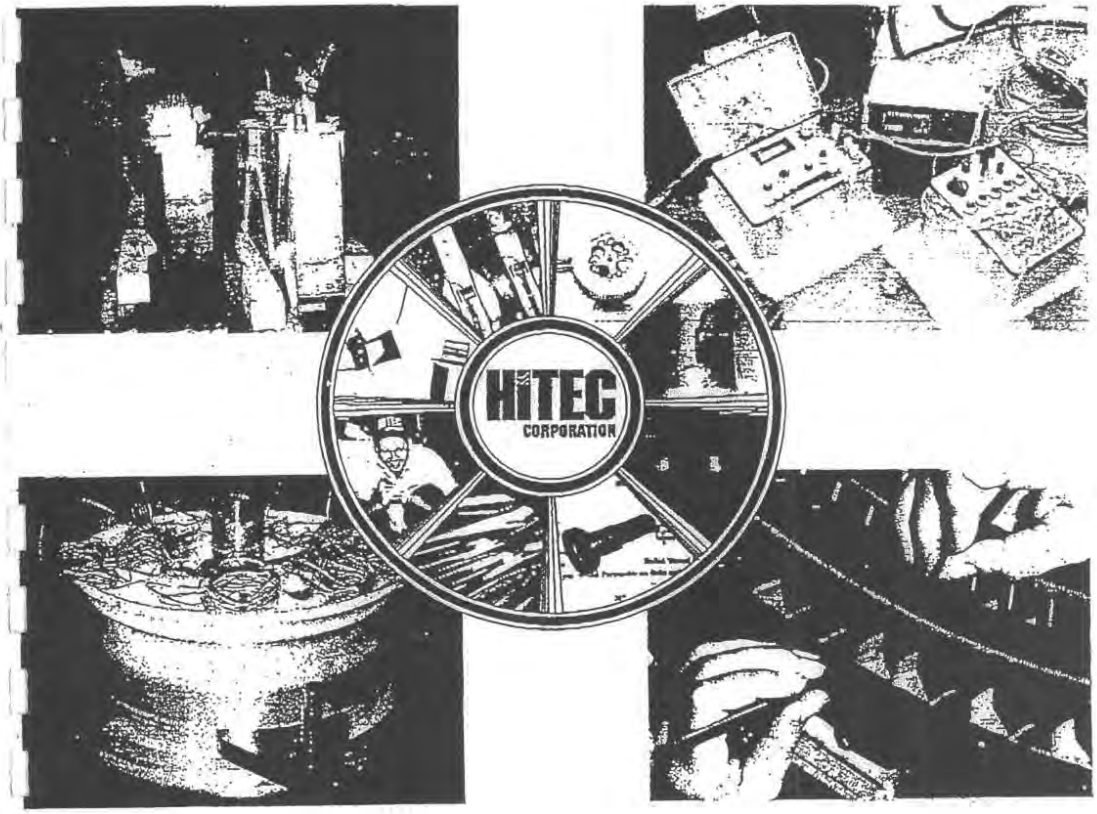
**Wheel* Rim-strain monitoring using slip rings

**Chemical* plant pipe testing

**Tie Bars* instrumentation to set clamp force on injector mold machines

**Primary Telescope Mirror* stress monitoring during rotation

**Aircraft Light Assembly* measuring critical strains through resonance frequencies



**Plus* hundreds more

For field strain gaging
eds using weldables or
nesive techniques,
dynamic or static or rotational systems testing, room temperature or elevated temperature measurements, call **HITEC Corporation. HITEC** engineers are experienced with slip rings and telemetry as well as most signal conditioning equipment.

HITEC Engineers are available to provide complete on-site strain gage installation services or to consult with and assist your own personnel. **HITEC Corporation's** Services are available world-wide and on short notice at standard rates to accommodate your test.

Call HITEC Corporation to discuss your field application strain gage requirements.

Re:	HiTEC Info – Hussey Gage Installation	**CC:**	P.O.

☐ **Urgent** ☐ **For Review** ☐ **Please Comment** ☐ **Please Reply** ☐ **Please Recycle**

• **Comments:** It was a pleasure to meet you this week up in Maine. As you requested, I am faxing you the final drafts of the documents we reviewed with Bob Robbins on site.

Following are copies of the Instrumentation Summary Sheets and working drawings related to the strain gages installed at Hussey Seating. The Summary Sheets define the sensor ID's and describe the types of installation materials used. The sketches indicate the locations referred to on the summary sheets. The drawings only roughly indicate the locations and the Summary Sheets roughly describe the locations. As we discussed when we met on site, Mike Nelson or someone from Hussey will be taking actual location measurements.

I hope you find this information useful.

Respectfully,

Chris Abbott

APPENDIX F

CRITERIUM - MOONEY ENGINEERS SCOPE OF SERVICES FOR MONITORING OF TESTING

Criterium - Mooney's scope of services pertaining to the on-site testing of the MAXAM 30-tier, wall attached bleacher was as follows:

- Review of the Department of State Architects' (DSA) procedures in California to obtain approval.
- Develop a plan to effectively expedite the approval process by proactively providing information needed and working closely with DSA to resolve questions and concerns quickly.
- Review and comment on test procedures to be conducted by Hussey Seating related to these new designs.
- Coordinate approval of testing procedures with DSA.
- Monitor and observe testing as needed.

APPENDIX G

RESUMES

H. ALAN MOONEY, P.E.

Area of Expertise

Mr. Mooney is a civil and structural engineer with over 25 years of experience in engineering-related services from performing thousands of residential and commercial building inspections to managing complex multi-million dollar engineering and construction projects. Mr. Mooney has also served as an expert forensic engineering witness.

Mr. Mooney is CEO of Criterium - Mooney Engineers and President of Criterium Engineers, a national franchise of consulting engineering firms that has 68 locations across the United States. While he is responsible for the general operation of both firms, he continues to be actively involved in serving clients with inspections, structural evaluations, investigative engineering, site planning and structural design.

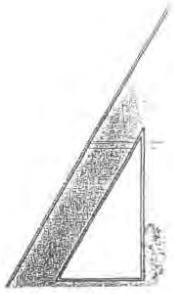
He has also established an impressive track record as a noted seminar leader, locally and nationally on construction-related issues, hazardous materials, and building inspection procedures and standards.

Qualifications

Mr. Mooney is involved in virtually every project that Criterium - Mooney Engineers is awarded, whether it is design or inspection related. The following list are some of the projects that he has worked on in the last few months:

- The Brook House, Brookline, MA - Condition Evaluation & Reserve Study.
- First Universalist Church, Auburn, ME - Design for Expansion.
- John J. Nissen Baking Co., Portland, ME - Space Planning.

Mr. Mooney has been working with these clients, also:



- City of South Portland, ME - Evaluation of Buildings.
- Principal Financial Group, Secaucus, NJ - Building Evaluation.
- Greater Portland YMCA, ME - Building Condition Evaluation.
- Groton Planning Group, Groton, MA - Inspection and Design.
- Anastos & Lohnes, Inc., Yarmouth, ME - Mechanical Evaluation.
- Maine Medical Center, Portland, ME - Structural Evaluation.
- Drummond & Drummond, Portland, ME - Structural Capacity Inspection.

Education

B.S. Civil Engineering, Rutgers University, 1969.

Professional Registrations

Professional Engineer in ME, NH, VT, MA, CT, NY, and SC.
Licensed Environmental Assessor in California.
BOCA International

DAVID A. PRICE, P.E.

Area of Expertise

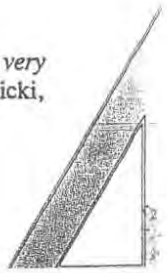
Mr. Price is a Licensed Professional Engineer with experience as a civil and structural engineer. He is the Vice-President of Design Engineering Services at Criterium - Mooney Engineers and has earned that position by his outstanding performance in the structural design of significant multi-story buildings, health care facilities, community centers, parking garages and numerous commercial projects.

Qualifications

Mr. Price has twelve years' experience throughout New England and Texas. During his career, he has completed design work for the following projects:

- Structural Engineer of Record - Portland Public Market, Portland, ME
- Designated Special Inspector - Cumberland Avenue Garage, Portland, ME
- Structural Engineer of Record - Casco Bay YMCA, Freeport, ME
- Structural Engineer of Record - Wiscasset Community Center, Wiscasset, ME
- Structural Engineer of Record - Maine Bank & Trust Building, East Facade Restoration, Portland, ME
- Structural Engineer of Record - One Portland Square Building, Precast Clock Restoration, Portland, ME
- Structural Engineer of Record - Central Maine Medical Center Office Building, Lewiston, ME
- Contractor's Quality Control - Aircraft Ground Equipment Facility, Brunswick Naval Air Station, Brunswick, ME
- Structural Engineer of Record - Harbor Hill Assisted Living Facility, Belfast, ME
- Structural Engineer of Record - Law Enforcement Center, Portland, ME

Education



M.S. Structural Engineering, University of Texas at Austin, 1986
B.S. Civil Engineering, University of Wisconsin at Madison, 1984

Professional Registrations

Licensed Professional Engineer in Maine and New Hampshire

Client's Comment

"...His strong theoretical ability combined with his calm, informed professionalism created a very comfortable working relationship so important to our design oriented team." by Marek Garlicki, AIA, Archetype, Boston, MA

RE: Hussey Seating Company
38 Dyer St Extension
North Berwick, ME 03906

To Whom It May Concern:

Hussey Seating Company has been a client of TD Bank, N.A. for 7 years. They maintain an average deposit relationship in the medium to high six figure range and a loan relationship in the low eight figure range. All loan and deposit accounts have been handled as agreed and Hussey Seating Company is in compliance with all loan covenants.

TD Bank, N. A. finds Hussey Seating Company to be professional in our dealings with them from the strategic planning level to their daily transactions.

Please let me know if I can be of further assistance.

Regards,

Michael J. Chamberlain
VP, Senior Relationship Manager, Middle Market Banking

Limited Commercial Product Warranty

Telescopic Equipment

Hussey Seating Company provides the following limited warranty to the owner of the facility in which Hussey Seating Products were purchased and installed. The warranty period begins on the date of installation completion, continues for the applicable time period set forth below, and is strictly governed by and subject to the terms and conditions set forth below.

WARRANTY:

In the event there is a defect in the material, in the installation (in the event installation is completed by Hussey Seating), and/or in the workmanship of the Hussey Seating Product (or component part there of) which causes failure of the product within the applicable time period and provided notification of this defect is given to Hussey Seating in writing at the address set forth below prior to the expiration of the applicable time period; Hussey Seating, in its sole discretion, will either repair or replace the defective product (or defective component part there of) with a comparable product (or component part there of), or will provide a refund of the purchase price of the defective product (or defective component part there of) prorated over the warranty period. In the event of repair or replacement, the warranty includes labor, materials, and freight for the first five years of the warranty and materials and freight only there after. All other costs are excluded. The fulfillment of the warranty (including investigation, timing of response, labor, and manner of shipment) is under the exclusive and unfettered control and discretion of Hussey Seating.

TIME PERIODS:

10 Years	5 Years
Structural Component parts of Understructure	Decking Systems including aisle steps and rails CourtSide & Classic Wood Seating Collections Electrical: Aisle Lights & Power Systems Portable & Integral Dolly Systems End Closure Curtains Surface Material Finishes: Polymer & Powder Coat (Note conditions as to color, grain and texture listed below.) Surface Material Finishes: Wood Veneer (Note conditions as to color, grain and texture listed below.)

EXCLUSIONS AND CONDITIONS: This warranty excludes and does not apply to:

- Normal wear and tear, abuse, neglect, vandalism, or misuse of Product – all as determined by Hussey Seating in its sole discretion.
- Casualty loss or other Acts of God.
- Product altered or modified by the user.
- User attached accessories.
- Consumable Products; light bulbs, lamps, ballasts, etc..
- Products not installed by Hussey Seating Approved Installers.
- Applied Graphic Solutions.
- Products not properly maintained in accordance with Hussey Seating Operating & Maintenance Procedures & Inspections.
- Non standard material and color finishes whether purchased by the customer or Hussey Seating Company.
- Natural variations occurring in wood and / or color fastness and / or variations in matching of colors, grains or textures of materials shall not be considered defects.
- Polymer Colors will not fade greater than 5 Delta-E units measured within CIE L*a*b color space.
- Powder Coat finish will not fade greater than 5 Delta-E units measured by Hunter L*a*b Color difference per ASTM D2244.

Hussey Seating Company reserves the right to discontinue, modify or make changes in its products. If products covered by this warranty are no longer available, Hussey Seating Company has the right to substitute products of equal quality and value. In the event of repair or replacement of the defective product (or defective component part thereof) there is no responsibility for the matching of color, grain, fabric, or texture except to within commercially acceptable standards, as determined by Hussey Seating in its sole discretion. **THE REMEDIES PROVIDED HEREIN ARE EXCLUSIVE TO THE EXTENT ALLOWED BY LAW AND ARE IN LIEU OF ALL OTHER REMEDIES, WARRANTIES, OR REPRESENTATIONS OTHER THAN THOSE EXPRESSLY STATED HEREIN, WHETHER EXPRESSED OR IMPLIED (INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE) UNLESS SPECIFICALLY AGREED TO IN WRITING BY AN OFFICER OF HUSSEY SEATING IN THE SPECIFIC CIRCUMSTANCE.** In any event, Hussey Seating is not liable (in contract, tort, or otherwise) for consequential, special, indirect, punitive, or incidental damages arising from any product defect or otherwise and in no event shall Hussey Seating Company's responsibility under this warranty exceed the amount of the product's original purchase price. This limited product warranty gives you specific legal rights and you may also have other rights which vary from jurisdiction to jurisdiction. Some jurisdictions do not allow certain exclusions and limitations of incidental or consequential damages or limitations on implied warranties, so the described limitations may not apply to you. This limited warranty shall be governed by, construed, and enforced in accordance with the laws of the State of Maine, without reference to conflict of law principles. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this limited warranty.

Limited Product Warranty

Telescopic Equipment

Hussey Seating Company provides the following warranty to the owner and operator of the facility in which Hussey Seating Products were purchased and installed in North America. The warranty period begins on the date of installation completion, continues for the applicable time period set forth below, and is strictly governed by and subject to the terms and conditions set forth below.

LIMITED WARRANTY:

In the event there is a defect in the material, in the installation (in the event installation is contracted through Hussey Seating), and/or in the workmanship of the Hussey Seating Product (or component thereof) which causes failure of the product within the applicable time period and provided notification of this defect is given to Hussey Seating in writing at the address set forth below prior to the expiration of the applicable time period; Hussey Seating, in its sole discretion, will either repair or replace the defective product (or defective component thereof) with a comparable product (or component thereof), or will provide a refund of the purchase price of the defective product (or defective component thereof) prorated over the warranty period. In the event of repair or replacement, the warranty includes labor, materials, and freight for five years. All other costs are excluded. The fulfillment of the warranty (including investigation, timing of response, labor, and manner of shipment) is under the exclusive and unfettered control of Hussey Seating.

TIME PERIOD:

5 Years
Component parts of Understructure operating mechanisms, structural attachments including safety rails, assembly hardware, &
accessories. Decking Systems including aisle steps, CourtSide & Classic Wood Seating Collections
Electrical: Aisle Lights & Power Systems
Portable & Integral Dolly Systems
End Closure Curtains
Surface Material Finishes: Polymer & Powder Coat (Note conditions as to color, grain and texture listed below.)
Surface Material Finishes: Wood Veneer (Note conditions as to color, grain and texture listed below.)

EXCLUSIONS AND CONDITIONS: This warranty excludes and does not apply to:

- Normal wear and tear, abuse, neglect, vandalism, alteration, or misuse – all determined by Hussey Seating in its sole discretion.
- Acts of God.
- Product altered or modified by the user.
- User attached accessories.
- Consumable Products; light bulbs, lamps, ballasts.
- Products not installed by Hussey Seating Approved Installers.
- Applied Graphic Solutions.
- Products not properly maintained in accordance with Hussey Seating Operating & Maintenance Procedures & Inspection requirements.
- Natural variations occurring in wood and/or color fastness and/or variations in matching of colors, grains or textures of materials shall not be considered defects.
- Polymer Colors will not fade greater than 5 Delta-E units measured within CIE L*a*b color space.
- Powder Coat finish will not fade greater than 5 Delta-E units measured by Hunter L*a*b Color difference per ASTM D2244.
- Powder Coat finish will not fade greater than 5 Delta-E units measured by Hunter L*a*b Color difference per ASTM D2244.

In the event of repair or replacement of the defective product (or defective component thereof) there is no responsibility for the matching of color, grain, fabric, or texture except to within commercially acceptable standards, as determined by Hussey Seating in its sole discretion. **THERE ARE NO OTHER WARRANTIES OTHER THAN THOSE EXPRESSLY STATED ABOVE, WHETHER EXPRESSED OR IMPLIED (INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE) UNLESS SPECIFICALLY AGREED TO IN WRITING BY AN OFFICER OF HUSSEY SEATING IN THE SPECIFIC CIRCUMSTANCE**. Hussey Seating is not liable (in contract, tort, or otherwise) for any consequential, special, direct, punitive, or incidental damage.

Biddeford High School, Biddeford, Maine

MAXAM® Telescopic Gym Bleacher w/ The Total Package
Biddeford High School • Biddeford, ME
Harriman Associates

XtremeLogo
The cornerstone of the Total Package Graphics Program, the XtremeLogo places your school's mascot or logo on a grand scale in the center of your bleacher sections. Using a proprietary graphic transfer process, your XtremeLogo is permanently bonded to the CourtSide bleacher seats – no peeling, scuffing or scratching. Whether the bleachers are opened or closed, your logo will impress.

Clarin Portable Sideline Chairs
The choice of colleges and pro teams nationwide, Clarin portable chairs offer state-of-the-art logo customization for backs, seats and even seat gussets. Durable, full-color imprints of your mascot, logo, and spirit message give big-league sideline impact. Clarin's proven worry-free dependable performance is legendary, delivering decades of service with the flexibility of interchangeable seats and backs.

CourtSide™ Graphic Logos
CourtSide gym seat modules offer a spot for every fan to see your school's logo or mascot at the end of each seating area. These durable, full-color custom graphic logos can even be individually customized for section designation.

StepSigns™
These ultra-durable full-color signs are pre-applied to the front of bleacher aisle steps during manufacturing. Offering full-color to single color imprinting, they are a great place to remind students, fans and competitors of your school motto or spirit message.

CourtSigns™
Featuring the same material and imprinting options as StepSigns, CourtSigns are pre-applied to the bleacher skirt boards during manufacturing. Their longer runs and placement make them ideal for ringing the court with your school name.

Media Platform
The rail sleeves of both detachable or permanently installed Media Platforms are the perfect spot to bring together your full-color logo, mascot, school name and spirit message to top off your bleachers with a message visible from anywhere in your gym.

THE TOTAL PACKAGE (cont.)

Portable Chair Storage Carts
Put an end to haphazard sideline chair storage with our specially engineered Clarin® chair storage carts. Make set-up and break down a breeze by using stacking, hanging, flat or studio carts to keep your chairs organized and all in one place.

Backrests and Seat Spacers
Contrasting color CourtSide™ CB contoured bleacher backrests deliver truly comfortable bleacher seating and turn up the spirit. They can be incorporated anywhere on your bleachers, with or without seat spacers.

Safety End Closure Curtain
MAXAM® bleacher end curtains boost gym security while displaying your school pride. Vibrant full-color customization can run all the way off the edges in large full-bleed designs to wow people with your spirit as soon as they walk in the door.

Auto-Rotating Center Aisle Rails
This Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with the push of a button. No tools, no labor, no more missing or improperly positioned rails.

Colored Rails
Your bleacher aisle, end, front and rear rails carry on your school's color scheme in one or more colors. Choose from a variety of standard color options or custom color matching to bring out school pride with a punch of color.

XTREMELOGOS™

FLEX-ROW™

Flex-Row is the crowning achievement of MAXAM®. It paves the way for your facility to easily accommodate the most challenging team sport and public access seating requirements. Create an endless variety of configurations to accommodate constantly changing needs like team seating, wheelchair access and scorer's tables.

Over time, seating codes, standards and regulations change. Why not give telescopic users the maximum flexibility to respond? Flex-Row™ is the answer, a bold stroke in quick utility.

In its unused position, Flex-Row maintains a standard telescopic bleacher appearance. In only minutes, you can easily re-configure your first bleacher row into any number of lock-in layouts to provide a variety of ADA solutions instead of just one. From a single wheelchair with a seated companion all the way up to a group of several wheelchairs, Flex-Row can handle them all.

MAXAM® Telescopic Gym Bleacher w/ CourtSide Seats
University of New England • Biddeford, ME
Sasaki Associates, Inc.

Standard open bleacher arrangement

Open bleachers using Flex-Row to create ADA seating and scorer's table areas

Closed bleachers using Flex-Row for practice team seating

Easy-access activator, no remote or operation pendant required

Flex-Row also can open up bleacher cut-outs to provide a space for portable team sideline seating and scorer's tables. No matter what the use, Flex-Row features fully enclosed skirting to provide an added measure of safety for fans and students while keeping debris out from under the bleachers. Your Flex-Row can even include backrests to create VIP sideline seating that is fully retractable, or to provide integral visiting team seating.

Flex-Row keeps delivering benefits after the game too. When the entire bank of bleachers is closed, Flex-Row can be pulled out to provide the day-to-day gymnasium seating demanded by coaches, teams and P.E. classes. In these situations, Flex-Row naturally limits student climbing behaviors by providing a convenient place to sit and put book bags.

No matter what the use, you do not need keys, special tools, power, remotes or pendants to operate Flex-Row. The concealed mechanism is easy to operate with just a pull of a lever by your facility staff, coaches or even your faculty.

BLEACHER SEATING SOLUTION

Hussey's telescopic bleachers can be topped with a variety of different seating solutions. Choices range from classic wood benches to individual polymer seat modules, backrests, seat spacers and even cup holder options. With all of the seating and row spacing options available for MAXAM®, you can leave cookie-cutter bleachers behind and get the perfect bleacher system to match your facility's specific needs.

CourtSide CB Contoured Backrests

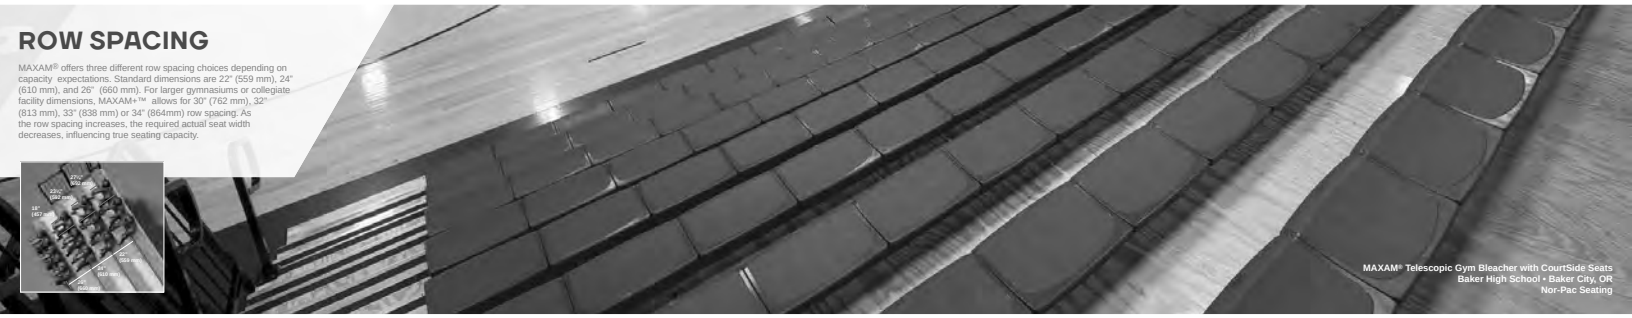
CourtSide XT Seat Spacer
U.S. Patent US8528971B2

A New Dimension of Comfort

Comfortable bleachers are no longer a dream, courtesy of Hussey's CourtSide™ modular gym seat line. Seat modules, contour backrests and patent seat spacers are just the ticket for seating spectators in truly comfortable bleacher seats – a welcome surprise for your fans.

CourtSide is completely modular, and using any piece of the CourtSide line will deliver an enhanced level of comfort to your bleacher seats. You can use all three types of modules throughout your gym, or mix and match to create different levels of seating within the same bleacher bank. Easily create a first row of integrated team seating, or build a section of reserved VIP seating for season ticket sales to your boosters.

Hussey's Courtside modular gym seat line includes two sizes of contoured seat modules, CourtSide CB contoured backrests, and CourtSide XT Seat Spacers, either with or without cup holders.



CourtSide CB backrests are ergonomically designed for maximum comfort. While cheering on the team, spectators can lean back and enjoy ideal low- and mid-back support. CB backrests are also designed for maximum fan safety and easy bleacher cleaning. One person can raise or lower up to seven interconnected backrests at a time, which minimizes labor and operational costs.

Courtside XT seat spacers increase personal space by nearly 25%. This truly comfortable individual seat space better accommodates larger people who appreciate extra elbow room. Cup holder versions are available so you can maximize fan comfort and convenience.

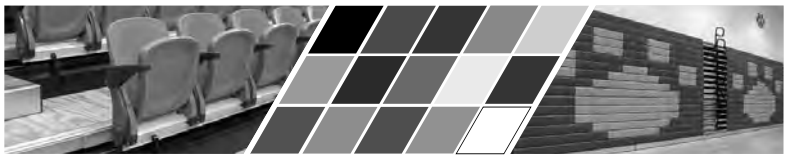
Like all Hussey products, our CourtSide comfort features are engineered for quality and ease of use.

ROW SPACING

MAXAM® offers three different row spacing choices depending on capacity expectations. Standard dimensions are 22" (559 mm), 24" (610 mm), and 26" (660 mm). For larger gymnasiums or collegiate facility dimensions, MAXAM+™ allows for 30" (762 mm), 32" (813 mm), 33" (838 mm) or 34" (864mm) row spacing. As the row spacing increases, the required actual seat width decreases, influencing true seating capacity.

MAXAM® Telescopic Gym Bleacher with CourtSide Seats
Baker High School • Baker City, OR
Nor-Pac Seating

Seating Options



CourtSide™ XCS12
The world's only ergonomically designed gym seat module, the CourtSide XCS12 provides an individualized compound contoured seat that incorporates modern styling, dual texturing and waterfall edges. 12" (305 mm) wide and manufactured from 100% recyclable materials, the CourtSide is the perfect blend of ergonomic comfort, modern design, performance and value.

CourtSide XC10
CourtSide XC10 incorporates a unique fore to aft contoured seat and a gradual "waterfall" curve on the forward edge that reduces pressure to the sensitive region of the thighs regardless of the leg position. 10" (254 mm) wide. 100% recyclable.

Classic Wood
All our wood boards are finger-jointed Southern Pine Grade "B&B", the finest available. Each is triple sanded and finished with two separately UV cured coats of urethane.

Seating Customization

Fold-Down Bleacher Chairs
Do you need fold-down chairs on your telescopic seating? Look no further than our MAXAM+™ telescopic platforms with 30" to 34" (762 mm - 864 mm) row spacing. Our comfortable and stylish Metro™ chairs are available on just a few rows or your entire MAXAM+ system. Metro, Gallery 3™, and Premia™ chairs are available in upholstered or all-polymer versions, and fold and store in the unit when closed.

Standard Colors
The CourtSide™ XC10 and XCS12 are available in 15 standard colors. For accent lines, attention-grabbing signature logos or sticking with a solid color theme, CourtSide is your ideal seat. Production plastic and powder coat colors can vary from printed samples shown, so Hussey makes sample chips available upon request. Custom color matches are also available.

Signature Logo Program
Your local Hussey dealer will work with your community or school to develop a logo design that makes everyone proud. With the MAXAM Signature Logo Program, it is easy to create the most colorful and spirited bleacher logo design.

WALL ATTACHED

Our most popular telescopic gym seating solution. Wall attached systems are supplied in 3 to 30 tier banks, are extremely adaptable, and efficiently recover floor space, allowing you to easily get the most out of your facility at all times.

MAXAM® Telescopic Gym Bleacher w/ XtremeLogo
Foothill High School • Santa Ana, CA
Herk Edwards

REVERSE-FOLD

Often utilized for balcony seating areas, reverse-fold systems retract from back to front to create additional space behind the unit. This space can be used for practice areas, batting cages, volleyball, gymnastics or any wide array of uses. Add back panels for a cleaner look, more versatility and improved safety.

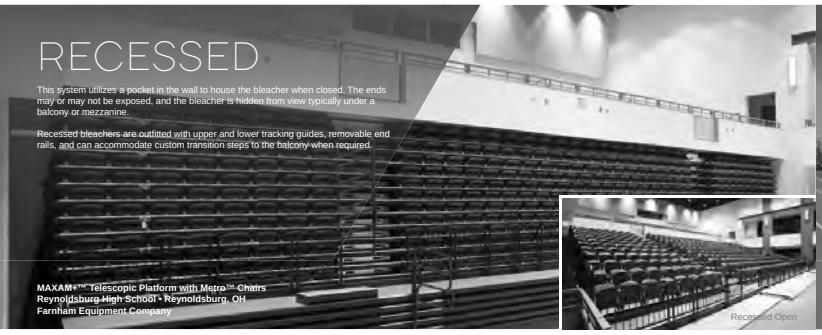
MAXAM® Telescopic Gym Bleacher
Talawanda High School • Oxford, OH
Farnham Equipment Company

Wall Attached Closed

Pendant Control
Pendant controls allow the operator to see the entire bank as it opens and closes—an important safety precaution. The pendant control can be easily removed to prevent unauthorized use.

Wireless Remote Control
All of the built-in safety features of our standard pendant control, with the additional convenience and freedom of movement offered by wireless operation.

Reverse-Fold Closed



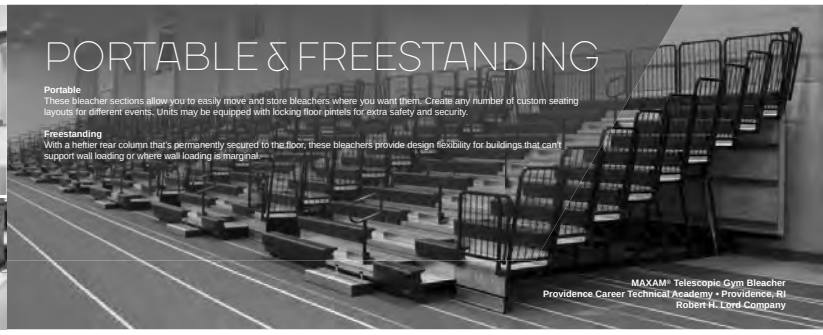
Reverse-Fold Open

Reverse-Fold Delayed Action
Further increase your usable space by up to 3' (914 mm) with MAXAM's delayed action feature. The entire closed bleacher stack moves forward on a linkage to recover additional floor space.

RECESSED

This system utilizes a pocket in the wall to house the bleacher when closed. The ends may or may not be exposed, and the bleacher is hidden from view typically under a balcony or mezzanine.

Recessed bleachers are outfitted with upper and lower tracking guides, removable end rails, and can accommodate custom transition steps to the balcony when required.



MAXAM® Telescopic Platform with Metro™ Chairs
Reynoldsburg High School • Reynoldsburg, OH
Farnham Equipment Company

Recessed Open

PORTABLE & FREESTANDING

Portable
These bleacher sections allow you to easily move and store bleachers where you want them. Create any number of custom seating layouts for different events. Units may be equipped with locking floor pintels for extra safety and security.

Freestanding
With a heftier rear column that's permanently secured to the floor, these bleachers provide design flexibility for buildings that can't support wall loading or where wall loading is marginal.

Traveling Units

A hybrid of recessed and portable banks, traveling units use integral power to drive the entire bank from one setup position to another. Set-up time is greatly reduced compared to individual portable sections.

MAXAM 1™

One minute – one person. We engineered MAXAM 1™ Portable Bleachers to be operated by a single person. Just extend each of the traction arms, tip the unit, give it a gentle push to lock it down, and it is ready to go. Gas struts provide a controlled descent and lift assistance to ensure easy operation. No more waiting for a crew or scheduling extra labor – just keep saving labor time and cost for the entire life of your seats.

One answer – anywhere.
MAXAM 1™ Portable Bleachers fit in just about anywhere – schools, colleges, fitness clubs, retail & corporate training areas, recreation facilities, community centers, sports fields and playgrounds. Handling larger groups is easy – simply connect multiple units together. You can even use it outdoors temporarily in protected areas*. Get creative, and think outside the gym!

UNDERSTRUCTURE

Performance, Flexibility and Safety

A. Posi-Lock™ LX
These automatic row locks prevent accidental closure when the system is in use. This patented, innovative, low-profile design minimizes the chance of accidental damage, ensuring consistent operation.

B. Nose & Riser Beam
These rolled form structural members provide continuous deck support, and are through-bolted to the frame and stabilizers. These designs deliver unparalleled strength, durability and rigidity.

C. Continuous Positive Interglide
This interlocking glide system is a rigid, one-piece formed design which tracks better and operates easier than systems with 1/2" (13 mm) row to row engagement. The 10" (254 mm) minimum interlock provides the industry's most rigid, stable design. Our wheels are 5" (127 mm), resulting in less rolling friction.

D. Captive Interlock & Adjustable Row Stops
The Captive Interlock System engages and aligns deck to deck. In addition, MAXAM® can be configured for three different row-spacing setups—adjustable on-site if required. MAXAM incorporates three stabilizer assemblies per section to provide improved tracking and stability.

E. Independently Locking Flex-Row™
Each Flex-Row is equipped with an independent self-locking mechanism to deliver maximum flexibility, performance and safety.

F. Full-Length Captured Decking
Decking is captive in the riser beam and rests on the nose, firmly secured by the seat bracket. This system provides a stiff, secure walking surface with no exposed hardware. MAXAM is the only telescopic gym seat that utilizes transverse decking, using decking materials in accordance with their industry span rating. Thoroughly load tested and independently verified, MAXAM's continuous full-length deck support system provides an enhanced level of performance, safety and stability.

G. Slant Frame Design
Load-tested and certified for 30 tier single stack sections up to 25' 6" (7772 mm), our slant frame design delivers improved cantilever strength and capacity. It also simplifies the installation process, reducing downtime for the facility. Critical support areas are all fastened with bolts, lock washers and hex nuts. Only MAXAM incorporates a steel to steel connection where the frame meets the wall, creating a stronger union and a safer gym seat.

H. Tension Bracing
Through bolted to the frame to provide additional stability. All bracing is coined to remove sharp edges, and all ends are rounded for safety.

Rail Options

New Auto-Rotating Center Aisle Rails
Hussey's breakthrough center handrail design ensures your patrons will always find a secure hand hold while moving up or down the aisles – while dramatically reducing the labor of properly opening or closing your gym bleacher. This Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with the push of a button.

Colored Rails (Left)
Carry your color scheme throughout the facility with one or more of our palette of standard colors to show your school spirit. Aisle rails, end rails and front or rear rails can all be customized to match your school colors. Ask your Hussey dealer for more information.

Center Aisle Hand Rails
Safety rails include fixed, folding and removable options and feature a safe, fully closed design.

Fixed Front and Rear Rails
An ideal solution for truncations, elevated front aisles, freestanding, portables and reverse fold systems. All rails maintain a consistent design appearance.

Media Platform

Perfect for videotaping, photography, radio broadcasting or team talent scouting, the Hussey Media Platform creates a workable space for covering all the action. Optional rail sleeves can be customized to promote school spirit or generate revenue.

Fold & Stow Center Aisle Hand Rail
Requires no tool and stores on the deck in the bleacher's closed position. Rail rotates and snaps into place.

Self-Storing End Rails
This stylish self-storing rail is designed to meet the most stringent codes for rail loading and sphere passage. Add 12" (305 mm) to bank length for each railed end.

Other Options

Safety End-Closure Curtains
Prevent unauthorized access to the underside of the bleacher, misuse that can result in injury, vandalism and potential liability risk. With Hussey Safety End-Closure Curtains, you can boost gym security while displaying your school pride. Built school-tough, they work beautifully and securely on new or existing bleachers. And Hussey offers the capability for full-bleed designs—including photographs. When paired with the CourtSide™ graphic logo, you can carry your school's identity throughout the gym.

CourtSide
Graphic Logo

Aisle Steps
Intermediate steps at each vertical aisle are mounted to the deck providing code-compliant rises and tread depth. Steps are fitted with non-skid strips and offer rounded edges to enhance safety.

Power Assist
Portable power permits one person to open and close manual sections by moving the tractor from section to section. Operates on standard 115 volt 20 amp service.

Integral Power
MAXAM®'s Powered Frame design applies force where needed—at the frames—and allows for better tracking over uneven floors. With five power options available, you buy only the power you need.

Elevated Front Aisle
Elevated front aisles start at various heights and run the length of the first row of the bleacher. EFA's improve sight lines and are ideal installations for hockey rinks and more. All can be outfitted with front rails, end rails, front panels or access stairs. An ideal solution to facilitate egress and accommodate your individual building requirements. Access stairs can be added as an option.

Motion Monitor
Audio-visual warning for an integrally powered unit that provides a flashing light with self-contained warning horn. Rated at 85 dB, it activates when bleachers are in motion.

Limit Switch
Limit switches ensure the motor stops once the bank is completely open or closed.

*** DIMENSIONAL NOTES:**

1. The Open Dimension of bleacher is increased by the depth of front steps when required to access the aisles on front-loaded seating systems.
   a. MAXAM Add: 11 ¾" (298mm) to Open Dimension w/ CourtSide Seats
   b. MAXAM+ Add: 1'-3 ½" (400mm) to Open Dimension w/ CourtSide Seats
   c. MAXAM+ Add: 1'-4 ½" (419mm) to Open Dimension w/ Chairs

2. Open and Closed Dimensions are for wall attached application.
   a. For Portable Application Add: 2 ¼" (57mm) to Open and Closed Dimensions
   b. For Free Standing Application Add: 2 ¼" (57mm) to Open and Closed Dimensions
   c. For Reverse Fold Application Add: 2 ¼" (57mm) to Open Dimension
   d. For Reverse Fold Application Add: 2 ¼" (57mm) + Row Spacing to Closed Dimension
   e. For Recessed Application Add: 6" (157mm) to Closed Dimension for Minimum Recess Depth

3. The Open Dimension of bleacher is increased by the depth of front steps when required to access the aisles on front-loaded seating systems.
   a. MAXAM Add: 13" (330mm) to Open Dimension
   b. MAXAM+ Add: 1'- 4½" (419mm) to Open Dimension

4. For Recessed Applications Add: 2 ⅛" (64mm) to seat height for minimum recess height.

5. The chart above identifies Maximum number of rows for wall attached section lengths 16'-6" (5029mm) or greater.

6. **SPECIAL NOTE:** For complete dimensional charts referring to smaller sections and other applications including product limitations please reference FASTFACTS or ask your local dealer for details.

Sustainability

At Hussey Seating, respecting the landscape we live in—and the hard work and well-being of the people we work with—has always been in our DNA and part of our heritage. Our commitment to environmentally friendly business practices has taken many forms over the years as standards and technology have changed.

FSC www.fsc.org PROF C105028 The mark of responsible forestry

In the 1970s, when the rest of the nation began to become more environmentally aware, we had already laid walking trails and planted a tree farm on our beautiful Maine campus. Today, going green means developing environmentally friendly paints and finishes, sourcing sustainable woods and metals, going beyond local and national regulations in clean manufacturing and waste disposal, and making deliveries on time while reducing our carbon footprint. We reduced our air emissions by 90% while tripling our seating business, so we know green business is good business.

Hussey seating solutions come in a wide range of colors—but every day our seats get greener. If you'd like to learn more about our sustainability efforts, please visit our website at **www.husseyseating.com/sustainability**

GREAT PERFORMANCES

Multi-use environments like gymnasiums, arenas, convention centers, and performing arts facilities that demand multiple, flexible seating configurations greatly benefit from Hussey Seating™ telescopic platform seating. Safe, easy bleacher operation, reliable performance, great looks, smart seating upgrades and the seating industry's best warranty make Hussey Seating telescopic platform seating your star player.

MAXAM+™ Telescopic Platforms are expertly engineered to meet the seating needs of a wide variety of applications and venues, from school auditoriums to small and mid-size sports and entertainment arenas. Endlessly configurable and easily upgradeable, MAXAM+ lets you reclaim the most indoor event center floor space and make the most of your facility's seating budget.

MXP™ Telescopic Platforms are built strong and smart for multipurpose event centers like professional arenas, convention centers, and community event centers. Providing maximum performance and reliability, ease of setup and operation, and the premium upholstered seating your customers demand, MXP combines the best of operational functionality with spectator luxury.

Great for "black box" auditoriums and theaters, Hussey Seatway™ Telescopic Platforms provide a space-saving retractable 'space frame' seating platform that can also deliver the fit, finish and stylish comfort to satisfy the most sophisticated audiences. Hussey Seatway is completely customized for your performance space and tailored to your seating needs.

MAXAM+ Telescopic Platform w/ Upholstered Metro Chairs
Eden Hall • Gibsonia, PA
Eckles Architecture

MAXAM+™ TELESCOPIC PLATFORM

Available with our full line of seating from our premiere Quattro, Gallery, and Metro lines, to budget friendly Premia or Courtside seating collections. MAXAM+ is great for small to medium size entertainment facilities. With features like custom and variable rise, tapered sections and extruded aluminum decking, MAXAM+ is ready to perform in the most demanding audience environments. Whether it's a full house for game day in your arena, or opening night for a major production in your performing arts center, we can provide the solution to execute your vision and meet the unique needs of your facility.

MAXAM+ Telescopic Gym Bleacher w/ Metro Chairs

Tuft Construction

A New Dimension of Comfort

With the wide variety of seating solutions that MAXAM+™ can support, a comfortable seating solution is just around the corner. All seats are available in both telescopic and fixed versions, allowing an aesthetic continuity throughout a facility.

Easily fitting into both new and existing facility dimensions—our telescopic seating systems allow easy adjustment and make future maintenance, chair replacement and upgrading a breeze. State-of-the-art composite finishes and fully integrated systems allow maximum seating—while providing patrons with a singularly comfortable seating experience.

A-B Quattro Classic Series
Shown as a Forward Fold. Available in nose mount, fixed, and portable stacking options. The Quattro Classic Series blends the comfort of a premium auditorium chair with the flexibility of telescopic seating platform, making these high value locations truly the best seats in the house. Designed to decrease labor costs and changeover time, platforms with Quattro Classic can efficiently change from stored to event-ready with each staff member operating rows of up to 14 chairs at a time for a single operator.

C. Gallery 3
Shown as Fold Down Upholstered. Gallery 3's contemporary European styling gives your facility a fresh look and enhances the experience of your patrons.

With multiple chair widths available, your attendees will enjoy even lengthy performances. Available in manual, lift-assist, and semi-automatic, these rail mounted seats with a surprisingly slim envelope can be event ready with minimal effort.

MAXIMUM SEATING OPTIONS

Ranging from fold-down chairs and benches to polymer gym-seat modules, MAXAM+™ telescopic platforms can support a wide variety of audience seating options.

CourtSide™ Modular Gym Seats
Designed to fit anywhere on your MAXAM+ units, CourtSide is completely modular. CourtSide seat modules, backrests and seat spacers are just the ticket for seating spectators in truly comfortable bleacher seats – a welcome surprise for your fans. You can use all three types of modules throughout your gym, or mix and match to create different levels of seating within the same bleacher bank. Easily create a first row of integrated team seating, or build a section of reserved VIP seating for season ticket sales to your boosters.

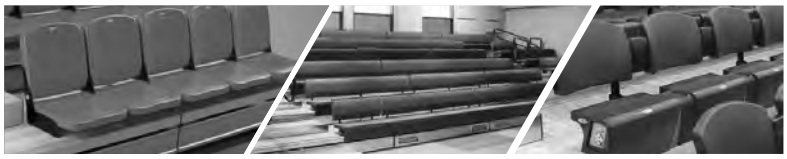
Landis Construction



Seating Options

Metro Upholstered and Polymer
Metro's innovative and distinctive design incorporates both comfort and style. The entire seat is molded using advanced engineering polymers, and is available in 18", 19", 20", 21", and 22" (450 mm, 475 mm, 500 mm, 525 mm, and 550 mm) standard widths (or any variation in-between). Metro has a full line of arm options including polymer, upholstered and wood, as well as cup holders, and many other accessories.

Premia Upholstered
With a sprung foam seat and back, the fully upholstered Premia chair offers big comfort in a small package. This low-maintenance chair with folding backrest offers an innovative way to provide ergonomic comfort in a compact individual chair with semi-automatic operation.

Seating Customization

Premia Polymer
The same design as the Premia Upholstered, the Premia Polymer is an affordable alternative with the increased durability that Polymer offers. No sacrifice to design is necessary as Polymer options come in 19 different colors to match your desired color palette.

Upholstered Bench Seats | Club Bench
The Club Bench closes into a small space, allowing for a minimum rise per row of just under 10½" (260 mm). The manual folding, preformed plywood seat and back come with your choice of upholstery. Also available without the backrest.

CourtSide 12 and 10 with Backrests
Ergonomically designed for maximum comfort to provide ideal low- and mid-back support. Also engineered for maximum fan safety and easy bleacher cleaning. One person can raise or lower up to seven interconnected backrests at a time to minimize labor and operational costs.

THE TOTAL PACKAGE

From our brand new XtremeLogo™ bleacher graphics that make your gym come alive to our Clarin® portable logo chairs, the Total Package Graphics Program helps create the ultimate gymnasium. Inspire your team, students and community with vibrant colored rails, spirited CourtSide™ Contour Backrests, integral CourtSide seat graphic logos, vivid Safety End Closure Curtain graphics, exciting Media Platform Rail Sleeve graphics, and our sleek new StepSigns™ and CourtSigns™. The customization options are nearly endless!

"The bleachers have generated a great deal of school pride with our student body. The kids are so proud when players from opposing schools come into the gym and comment on how beautiful the bleachers are. They've turned a nice gym into a state of the art gym...it's stunning!"

Dennis Walton, CAA, Athletic Administrator
Biddeford High School, Biddeford, Maine

MAXAM® Telescopic Gym Bleacher w/ The Total Package
Biddeford High School • Biddeford, ME
Harriman Associates

XtremeLogo
The cornerstone of the Total Package Graphics Program, the XtremeLogo places your school's mascot or logo on a grand scale in the center of your bleacher sections. Using a proprietary graphic transfer process, your XtremeLogo is permanently bonded to the CourtSide bleacher seats – no peeling, scuffing or scratching. Whether the bleachers are opened or closed, your logo will impress.

Clarin Portable Sideline Chairs
The choice of colleges and pro teams nationwide, Clarin portable chairs offer state-of-the-art logo customization for backs, seats and even seat gussets. Durable, full-color imprints of your mascot, logo, and spirit message give big-league sideline impact. Clarin's proven worry-free dependable performance is legendary, delivering decades of service with the flexibility of interchangeable seats and backs.

CourtSide™ Graphic Logos
CourtSide gym seat modules offer a spot for every fan to see your school's logo or mascot at the end of each seating area. These durable, full-color custom graphic logos can even be individually customized for section designation.

StepSigns™
These ultra-durable full-color signs are pre-applied to the front of bleacher aisle steps during manufacturing. Offering full-color to single color imprinting, they are a great place to remind students, fans and competitors of your school motto or spirit message.

CourtSigns™
Featuring the same material and imprinting options as StepSigns, CourtSigns are pre-applied to the bleacher skirt boards during manufacturing. Their longer runs and placement make them ideal for ringing the court with your school name.

Media Platform
The rail sleeves of both detachable or permanently installed Media Platforms are the perfect spot to bring together your full-color logo, mascot, school name and spirit message to top off your bleachers with a message visible from anywhere in your gym.

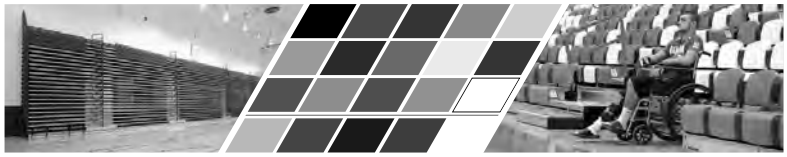
THE TOTAL PACKAGE (cont.)

Portable Chair Storage Carts
Put an end to haphazard sideline chair storage with our specially engineered Clarin® chair storage carts. Make set-up and break down a breeze by using stacking, hanging, flat or studio carts to keep your chairs organized and all in one place.

Backrests and Seat Spacers
Contrasting color CourtSide™ CB contoured bleacher backrests deliver truly comfortable bleacher seating and turn up the spirit. They can be incorporated anywhere on your bleachers, with or without seat spacers.

Safety End Closure Curtain
MAXAM® bleacher end curtains boost gym security while displaying your school pride. Vibrant full-color customization can run all the way off the edges in large full-bleed designs to wow people with your spirit as soon as they walk in the door.

Auto-Rotating Center Aisle Rails
This Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with the push of a button. No tools, no labor, no more missing or improperly positioned rails.



Colored Rails
Your bleacher aisle, end, front and rear rails carry on your school's color scheme in one or more colors. Choose from a variety of standard color options or custom color matching to bring out school pride with a punch of color.

MAXAM+™ Telescopic Platform w/ Metro Chairs
University of Southern Indiana • Evansville, IN • Lee Company

SEATING CUSTOMIZATION

Signature Logo Program
Your local Hussey dealer will work with your community or school to develop a logo design that makes everyone proud. With the MAXAM+ Signature Logo Program, it is easy to create the most colorful and spirited bleacher logo design.

Standard Colors
The CourtSide™ XC10 and XCS12 are available in 15 standard colors (top 3 rows) and Metro is available in all 19. For accent lines, attention-grabbing signature logos or sticking with a solid color theme, select CourtSide or Metro as your ideal seat. Production polymer and powder coat colors can vary from printed samples shown, so Hussey makes sample chips available upon request. Custom color matches are also available.

Flex-Row™
Create an endless variety of lock-in configurations to accommodate constantly changing needs like team seating, wheelchair access and scorer's tables. Available with CourtSide™, Metro™, Club Bench and Gallery 2 seating.

UNDERSTRUCTURE

Performance, Flexibility and Safety

A. Posi-Lock™ LX
These automatic row locks prevent accidental closure when the system is in use. This patented, innovative, low-profile design minimizes the chance of accidental damage, ensuring consistent operation.

B. Nose & Riser Beam
These rolled form structural members provide continuous deck support, and are through-bolted to the frame and stabilizers. These designs deliver unparalleled strength, durability and rigidity.

C. Continuous Positive Interglide
This interlocking glide system is a rigid, one-piece formed design which tracks better and operates easier than systems with 1/2" (13 mm) row to row engagement. The 10" (254 mm) minimum interlock provides the industry's most rigid, stable design. Our wheels are 5" (127 mm), resulting in less rolling friction.

D. Captive Interlock & Adjustable Row Stops
The Captive Interlock System engages and aligns deck to deck. In addition, MAXAM® can be configured for three different row-spacing setups—adjustable on-site if required. MAXAM incorporates three stabilizer assemblies per section to provide improved tracking and stability.

E. Full-Length Captured Decking
Decking is captive in the riser beam and rests on the nose, firmly secured by the seat bracket. This system provides a stiff, secure walking surface with no exposed hardware. MAXAM is the only telescopic gym seat that utilizes transverse decking, using decking materials in accordance with their industry span rating. Thoroughly load tested and independently verified, MAXAM's continuous full-length deck support system provides an enhanced level of performance, safety and stability.

F. Slant Frame Design
Load-tested and certified for 30 tier single stack sections up to 25' 6" (7772 mm), our slant frame design delivers improved cantilever strength and capacity. It also simplifies the installation process, reducing downtime for the facility. Critical support areas are all fastened with bolts, lock washers and hex nuts. Only MAXAM incorporates a steel to steel connection where the frame meets the wall, creating a stronger union and a safer gym seat.

G. Tension Bracing
Through bolted to the frame to provide additional stability. All bracing is coined to remove sharp edges, and all ends are rounded for safety.

Rail Options

New Auto-Rotating Center Aisle Rails
Hussey's breakthrough center handrail design ensures your patrons will always find a secure handhold while moving up or down the aisles – while dramatically reducing the labor of properly opening or closing your gym bleacher. This Patent pending rail is permanently mounted to the bleacher, and automatically rotates to the proper open or closed position as you operate the bleacher with the push of a button.

Colored Rails (Left)
Carry your color scheme throughout the facility with one or more of our palette of standard colors to show your school spirit. Aisle rails, end rails and front or rear rails can all be customized to match your school colors. Ask your Hussey dealer for more information.

Center Aisle Hand Rails
Safety rails include fixed, folding and removable options and feature a safe, fully closed design.

Fixed Front and Rear Rails
An ideal solution for truncations, elevated front aisles, freestanding, portables and reverse fold systems. All rails maintain a consistent design appearance.

Media Platform

Perfect for videotaping, photography, radio broadcasting or team talent scouting, the Hussey Media Platform creates a workable space for covering all the action. Optional rail sleeves can be customized to promote school spirit or generate revenue.

Fold & Stow Center Aisle Hand Rail
Requires no tool and stores on the deck in the bleacher's closed position. Rail rotates and snaps into place.

Self-Storing End Rails
This stylish self-storing rail is designed to meet the most stringent codes for rail loading and sphere passage. Add 12" (305 mm) to bank length for each railed end.

Other Options

Power Assist
Portable power permits one person to open and close manual sections by moving the tractor from section to section. Operates on standard 115 volt 20 amp service.

Integral Power
MAXAM®'s Powered Frame design applies force where needed—at the frames—and allows for better tracking over uneven floors. With five power options available, you buy only the power you need.

Elevated Front Aisle
Elevated front aisles start at various heights and run the length of the first row of the bleacher. EFA's improve sight lines and are ideal installations for hockey rinks and more. All can be outfitted with front rails, end rails, front panels or access stairs. An ideal solution to facilitate egress and accommodate your individual building requirements. Access stairs can be added as an option.

Safety End-Closure Curtains
Prevent unauthorized access to the underside of the bleacher, misuse that can result in injury, vandalism and potential liability risk. With Hussey Safety End-Closure Curtains, you can boost gym security while displaying your school pride. Built school-tough, they work beautifully and securely on new or existing bleachers. And Hussey offers the capability for full-bleed designs—including photographs. When paired with the CourtSide™ graphic logo, you can carry your school's identity throughout the gym.

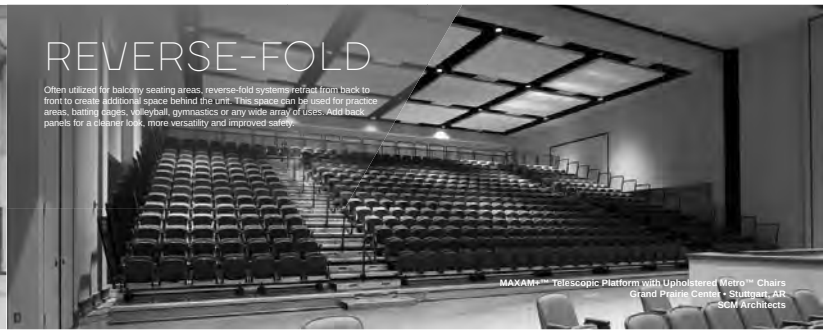
CourtSide
Graphic Logo

Aisle Steps
Intermediate steps at each vertical aisle are mounted to the deck providing code-compliant rises and tread depth. Steps are fitted with non-skid strips and offer rounded edges to enhance safety.

Motion Monitor
Audio-visual warning for an integrally powered unit that provides a flashing light with self-contained warning horn. Rated at 85 dB, it activates when bleachers are in motion.

Limit Switch
Limit switches ensure the motor stops once the bank is completely open or closed.

WALL ATTACHED



Our most popular telescopic gym seating solution. Wall attached systems are supplied in 3 to 30 tier banks, are extremely adaptable, and efficiently recover floor space, allowing you to easily get the most out of your facility at all times.

MAXAM+™ Telescopic Platform with Metro™ Seats
Stewart Middle School • Tacoma, WA
Nor-Pac Seating

REVERSE-FOLD

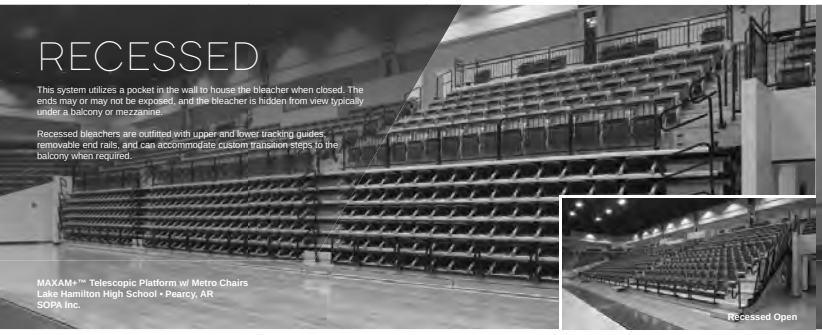
Often utilized for balcony seating areas, reverse-fold systems retract from back to front to create additional space behind the unit. This space can be used for practice areas, batting cages, volleyball, gymnastics or any wide array of uses. Add back panels for a cleaner look, more versatility and improved safety.

MAXAM+™ Telescopic Platform with Upholstered Metro™ Chairs
Grand Prairie Center • Stuttgart, AR
SCM Architects

Wall Attached Closed

Pendant Control
Pendant controls allow the operator to see the entire bank as it opens and closes—an important safety precaution. The pendant control can be easily removed to prevent unauthorized use.

Wireless Remote Control
All of the built-in safety features of our standard pendant control, with the additional convenience and freedom of movement offered by wireless operation.



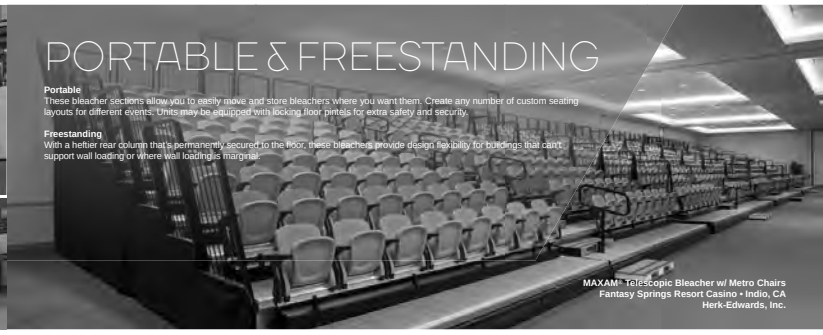
Reverse-Fold Closed

Reverse-Fold Delayed Action
Further increase your usable space by up to 3' (914 mm) with MAXAM's delayed action feature. The entire closed bleacher stack moves forward on a linkage to recover additional floor space.

RECESSED

This system utilizes a pocket in the wall to house the bleacher when closed. The ends may or may not be exposed, and the bleacher is hidden from view typically under a balcony or mezzanine.

Recessed bleachers are outfitted with upper and lower tracking guides, removable end rails, and can accommodate custom transition steps to the balcony when required.



MAXAM+™ Telescopic Platform w/ Metro Chairs
Lake Hamilton High School • Pearcy, AR
SOPA Inc.

Recessed Open

PORTABLE & FREESTANDING

Portable
These bleacher sections allow you to easily move and store bleachers where you want them. Create any number of custom seating layouts for different events. Units may be equipped with locking floor pintels for extra safety and security.

Freestanding
With a heftier rear column that's permanently secured to the floor, these bleachers provide design flexibility for buildings that can't support wall loading or where wall loading is marginal.

MAXAM™ Telescopic Bleacher w/ Metro Chairs
Fantasy Springs Resort Casino • Indio, CA
Herk-Edwards, Inc.

Traveling Units

A hybrid of recessed and portable banks, traveling units use integral power to drive the entire bank from one setup position to another. Set-up time is greatly reduced compared to individual portable sections.

Portable Closed

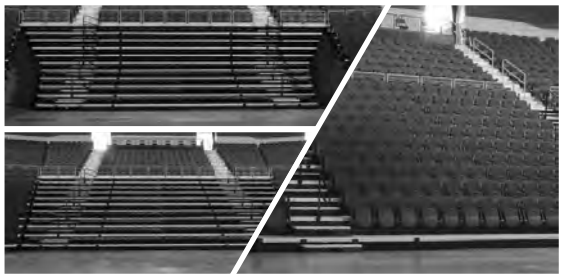
Portable Dolly
Most economical for large number of small portable sections. Two dollies are required to move one section. Maximum section weight of 4000 lbs (1800 kgs).

Integral Dolly
Ideal for high tier units, the integral lifting mechanism allows your staff to move multiple portable sections without additional equipment. Four mechanical screw jacks lift the unit and 12 large wheels allow for effortless transportation of your bleacher. Maximum section weight of 7000 lbs (3150 kgs).

MXP TELESCOPIC PLATFORM

Featuring an amazingly stable and durable telescopic platform that accommodates Hussey's premium seating styles, MXP is expertly engineered for arenas to save time and labor costs while providing the most comfortable and luxurious telescopic platform seating experience available.

MXP Telescopic Platform w/ Metro™ Chairs
Bryce Jordan Center • State College, PA
C.M. Eichenlaub Co.



MXP™ Telescopic Platform w/Quattro® Chairs
Cross Insurance Center • Bangor, ME
Sink Combs Dethlefs

Integrated Program Supports
MXP platforms offer nearly endless customization options for professional arena needs. Adding Integrated Program Supports to an MXP platform allows the section to be truncated at any row. You get the flexibility of choosing how many rows each section needs, on-demand. Engaging this feature is quick and easy with no extra personnel, parts or labor required, and the section is completely stable no matter where it is truncated.

Heavy-Duty Arena Features
MXP platforms focus on delivering on-the-spot configuration flexibility. Completely independent powered sections accommodate nearly any concert configuration easily and change over quickly. Railings can be customized to attach to any row within sections for maximum flexibility and to deliver the crowd control often required by popular tours. Best of all, railings store right on each section to eliminate loose parts and storage hassles.

Professional Grade Style, Comfort & Functionality

MXP platforms are designed to support fully upholstered chairs – even premium VIP chairs from our Quattro® Collections.

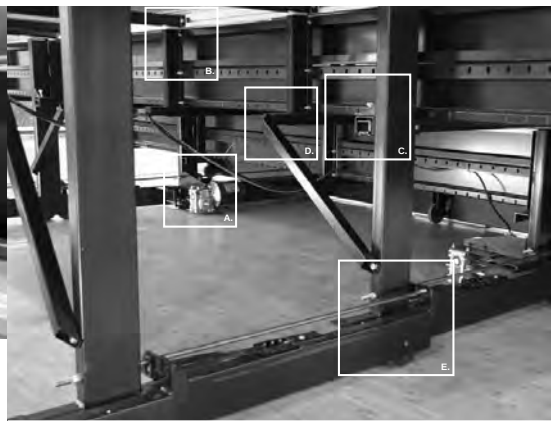
Accommodating up to a 39 ⅞" (1M) premium seat back, your patrons will love the look and feel of MXP. With deeper row spacing, more legroom and our premium upholstered chair options, telescopic seating has never been more comfortable.

Plus, our new chair mounting system delivers the most stable, solid telescopic seating experience available today - one with the feel of a fixed auditorium chair and the flexibility of a telescopic platform.

No matter what chair you choose, it folds flat into the telescopic platform. MXP platforms and the chairs it supports are professional arena grade – designed to withstand the rigors of multiple changeovers a day.

MXP Telescopic Platform w/ Quattro™ Nose Mount Chairs
Bridgestone Arena • Nashville, TN
Populous / Hart Freeland Roberts, Inc.

MXP™ Seat Options



Quattro® Nose-Mount Seating
Our Quattro nose-mount chairs can be raised and lowered in pairs, with the armrest locking into place providing an exceptionally solid, stable seat.

Quattro Forward-Fold Seating
Setup and changeover is fast and easy with a single operator by simply unlocking our Quattro forward-fold upholstered chair rows and raising or lowering up to 14 seats at a time.

Metro Semi-Automatic Seating
Our Metro seats can be configured for true semi-automatic operation of up to 14 chairs at once. The chairs automatically lower as the system is closed and when opened, the operator provides a manual assist to lock the chairs into place.

MXP™ Understructure

Flexibility, Safety, Performance & Reliability

The understructure of any telescopic platform is the backbone of the system, and MXP's understructure is engineered to provide maximum flexibility, safety, performance and reliability. Utilizing Hussey's proven vertical frame design, MXP accommodates rises from 4"-24" (102-610 mm), row spacing from 32" - 39 3/8" (813mm - 1M) in 1" (25 mm) increments, and tapered sections up to 22 ½ degrees, providing maximum seating configuration flexibility.

A. Soft-Start Steerable Power
The most efficient system in the industry, our Soft-Start Steerable Power system utilizes existing power sources, has a controlled start to prevent wear and tear on the system and your facility, and allows a single operator to steer the section and fine-tune its final position.

B. Fully Captive Interlocks
Providing the ultimate in safety and performance, fully captive upper and lower interlocks ensure the frames can never separate. Plus, the upper interlocks provide a stable, locked deck when loaded so your audience will feel as safe and stable on the 30th row as on the first.

C. Adjustable Cantilevers
Creating an exceptionally quiet deck and better overall operational performance, the adjustable cantilevers eliminate friction points during open/close.

D. Tubular Knee Bracing
Designed to withstand heavy use and heavy loads, the tubular knee braces provide a safe, rigid walking surface.

E. Lower Captive Interlocks
The lower interlock design nests completely,permitting a zero-offset between tiers that minimizes the closed footprint of the system. Pre-tension guide rods cannot be bent or disengaged resulting in smooth, reliable operation every time.

HUSSEY SEATWAY

Hussey Seatway has long established itself as a leader in the design, manufacture and installation of retractable and fixed seating systems. Working with clients in the UK and worldwide, Hussey Seatway is an experts in the development of practical, effective and high-quality seating solutions.

We are a solution and customer orientated company which, backed up with our design expertise enables us to engineer space to our customer's advantage allowing their visions to be achieved.

Seatway TP Platforms with Club Bench
Westminster Under School • London UK
Theatretech

Seatway Seating Options

Club Bench
The Club Bench closes into a small space, allowing for a minimum rise per row of just under 10½" (260 mm). The manual folding, preformed plywood seat and back come with your choice of upholstery. Also available without the backrest.

Arts PC
A premium, nose mounted chair with unique folding action and auto armrests, the Arts PC chair closes down into a small space, allowing a standard row rise of only 10½" (260 mm). Available in a range of chair widths, with high quality finishes and accessories.

Gallery 3
Available in a variety of widths, with or without armrests and in a variety of upholsteries, the Gallery 2 chair features a slim and elegant profile, great for a wide range of auditorium seating.

Metro™ Polymer and Upholstered
Sleek, slim and easy to install, the Metro chair comes in a variety of widths and color options.

Sustainability

At Hussey Seating, respecting the landscape we live in—and the hard work and well-being of the people we work with—has always been in our DNA and part of our heritage. Our commitment to environmentally friendly business practices has taken many forms over the years as standards and technology have changed.

FSC www.fsc.org PWOY C104458 The mark of responsible forestry

In the 1970s, when the rest of the nation began to become more environmentally aware, we had already laid walking trails and planted a tree farm on our beautiful Maine campus. Today, going green means developing environmentally friendly paints and finishes, sourcing sustainable woods and metals, going beyond local and national regulations in clean manufacturing and waste disposal, and making deliveries on time while reducing our carbon footprint. We reduced our air emissions by 90% while tripling our seating business, so we know green business is good business.

Hussey seating solutions come in a wide range of colors—but every day our seats get greener. If you'd like to learn more about our sustainability efforts, please visit our website at **www.husseyseating.com/sustainability**

Hussey Seating Company™

The Hussey Seating Company story dates back to 1835 with William Hussey's tremendously successful plow design, and thus, the Hussey Plow Company was born. As times changed over the next sixty years, the family set about reinventing the business, evolving into the company that is now seating the world. Today, under the sixth generation of family leadership, Hussey Seating Company is proud to be known as the leading manufacturer of seating solutions throughout the world – in stadiums, arenas, schools, universities, colleges, places of worship and anywhere people gather.

Your partner for seating solutions.

Bid Bond

CONTRACTOR:
(Name, legal status and address)

Hussey Seating Company
38 Dyer St. Extension
N. Berwick, ME 03906

SURETY:
(Name, legal status and principal place of business)

The Hanover Insurance Company
440 Lincoln Street
Worcester, MA 01653

OWNER:
(Name, legal status and address)

AEPA at Oakland Schools
2111 Pontiac Lake Road
Waterford, MI 58328

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

BOND AMOUNT: $ $100,000 One Hundred Thousand Dollars and 00/100

PROJECT:
(Name, location or address, and Project number, if any)

AEPA IFB #019-A - Telescopic Bleachers & Stadium Seating, Waterford, MI

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

THE HANOVER INSURANCE COMPANY
MASSACHUSETTS BAY INSURANCE COMPANY
CITIZENS INSURANCE COMPANY OF AMERICA

POWER OF ATTORNEY

THIS Power of Attorney limits the acts of those named herein, and they have no authority to bind the Company except in the manner and to the extent herein stated.

KNOW ALL PERSONS BY THESE PRESENTS:

That THE HANOVER INSURANCE COMPANY and MASSACHUSETTS BAY INSURANCE COMPANY, both being corporations organized and existing under the laws of the State of New Hampshire, and CITIZENS INSURANCE COMPANY OF AMERICA, a corporation organized and existing under the laws of the State of Michigan, (hereinafter individually and collectively the "Company") does hereby constitute and appoint,

Stephen W. Freeman, Robin V. Russell, Michael A. Youngblut, Milton L. Willey, John H. Shaffer, III, Thomas R. Davis, Griffin F. Willson, Jeffrey D. Kawamoto, Ronna J. Waggaman and/or Teresita C. Ramseur

Of **M&T Insurance Agency, Inc. of Rockville, MD** each individually, if there be more than one named, as its true and lawful attorney(s)-in-fact to sign, execute, seal, acknowledge and deliver for, and on its behalf, and as its act and deed any place within the United States, any and all surety bonds, recognizances, undertakings, or other surety obligations. The execution of such surety bonds, recognizances, undertakings or surety obligations, in pursuance of these presents, shall be as binding upon the Company as if they had been duly signed by the president and attested by the secretary of the Company, in their own proper persons. Provided however, that this power of attorney limits the acts of those named herein; and they have no authority to bind the Company except in the manner stated and to the extent of any limitation stated below:

Any such obligations in the United States, not to exceed Twenty Million and No/100 ($20,000,000) in any single instance

That this power is made and executed pursuant to the authority of the following Resolutions passed by the Board of Directors of said Company, and said Resolutions remain in full force and effect:

RESOLVED: That the President or any Vice President, in conjunction with any Vice President, be and they hereby are authorized and empowered to appoint Attorneys-in-fact of the Company, in its name and as it acts, to execute and acknowledge for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, waivers of citation and all other writings obligatory in the nature thereof, with power to attach thereto the seal of the Company. Any such writings so executed by such Attorneys-in-fact shall be binding upon the Company as if they had been duly executed and acknowledged by the regularly elected officers of the Company in their own proper persons.

RESOLVED: That any and all Powers of Attorney and Certified Copies of such Powers of Attorney and certification in respect thereto, granted and executed by the President or Vice President in conjunction with any Vice President of the Company, shall be binding on the Company to the same extent as if all signatures therein were manually affixed, even though one or more of any such signatures thereon may be facsimile. (Adopted October 7, 1981 – The Hanover Insurance Company; Adopted April 14, 1982 – Massachusetts Bay Insurance Company; Adopted September 7, 2001 – Citizens Insurance Company of America)

IN WITNESS WHEREOF, THE HANOVER INSURANCE COMPANY, MASSACHUSETTS BAY INSURANCE COMPANY and CITIZENS INSURANCE COMPANY OF AMERICA have caused these presents to be sealed with their respective corporate seals, duly attested by two Vice Presidents, this **18th** day of **October, 2017**.

Equal Employment Opportunity and Affirmative Action Statement of Policy
41 C.F.R. 60-300.44(a)

It is the policy of Hussey Seating not to discriminate or allow the harassment of employees or applicants on the basis of gender, race, color, religious creed, national origin, physical or mental disability, and/or protected veteran status with regard to any employment practices, including recruitment, advertising, job application procedures, hiring, upgrading, training, promotion, transfer, compensation, job assignments, benefits and/or other terms, conditions, or privileges of employment, provided the individual is qualified, with or without reasonable accommodations, to perform the essential functions of the job. This policy applies to all jobs at the Company. The Company will continue to take affirmative action to employ and advance in employment women, minorities, individuals with disabilities, and protected veterans and to treat qualified individuals without discrimination based upon their gender, race, physical or mental disability, or protected veteran status, in all employment practices as follows:

Employment decisions at the Company are based on legitimate job-related criteria. All personnel actions or programs that affect qualified individuals, such as employment, upgrading, demotion, transfer, recruitment, advertising, termination, rate of pay or other forms of compensation, and selection for training, are made without discrimination based upon the individual's gender, race, physical or mental disability, protected veteran status, or other protected characteristics. Employees and applicants with disabilities and disabled veterans are encouraged to inform Human Resources if they need a reasonable accommodation to perform a job for which they are otherwise qualified. The Company makes, and will continue to make, reasonable accommodations to the known physical or mental limitations of an otherwise qualified applicant or employee to promote the employment of qualified individuals with disabilities and disabled veterans, unless such accommodations would impose an undue hardship on the operations of the Company's business.

Hussey Seating is fully committed to principals of equal employment opportunity and affirmative action. As Director of Human Resources, I support the successful implementation of the Company's Affirmative Action Programs. I have appointed Cynthia Talbot, Affirmative Action Officer for the Company, with responsibility for implementation of the Company's affirmative action activities. The Affirmative Action Officer has the full support of top management and the staff necessary to fully implement this Program. All managers and supervisors will take an active part in the Company's AAP to ensure that all qualified employees and prospective employees are considered and treated in a non-discriminatory manner with respect to all employment decisions. Furthermore, Hussey Seating will solicit the cooperation and support of all employees for the Company's policy and our AAPs.

Our AAPs include an audit and reporting system, which, among other things, uses metrics and other information to measure the effectiveness of the AAPs. The Affirmative Action Officer has been assigned responsibility for periodically reviewing progress in the compliance and implementation of the policy of affirmative action for women, minorities, individuals with disabilities, and protected veterans. In accordance with public law, the Company's program of affirmative action for qualified individuals with disabilities and the program of affirmative action for protected veterans are available for inspection in the Human Resources Department, Monday through Friday, from 9:00 to 5:00 upon request.

In addition, employees and applicants will not be subjected to harassment, intimidation, threats, coercion, or discrimination because they have engaged in, or may have engaged in, activities such as filing a complaint, assisting or participating in an investigation, compliance review or hearing, or opposing any act or practice made unlawful, or exercising any other right protected by Section 503 of the Rehabilitation Act of 1973, as amended, the Vietnam Era Veterans Readjustment Assistance Act of 1974, as amended, Executive Order 11246, and/or any other federal, state or local law or regulation regarding Equal Employment Opportunity.

Cynthia Talbot

N.J.A.C. 17:27
GOODS, PROFESSIONAL SERVICE AND GENERAL SERVICE CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union of the contractor's commitments under this chapter and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

The contractor or subcontractor agrees to make good faith efforts to meet targeted county employment goals established in accordance with N.J.A.C. 17:27-5.2.

The contractor or subcontractor agrees to inform in writing its appropriate recruitment agencies including, but not limited to, employment agencies, placement bureaus, colleges, universities, and labor unions, that it does not discriminate on the basis of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex, and that it will discontinue the use of any recruitment agency which engages in direct or indirect discriminatory practices.

The contractor or subcontractor agrees to revise any of its testing procedures, if necessary, to assure that all personnel testing conforms with the principles of job related testing, as established by the statutes and court decisions of the State of New Jersey and as established by applicable Federal law and applicable Federal court decisions.

In conforming with the targeted employment goals, the contractor or subcontractor agrees to review all procedures relating to transfer, upgrading, downgrading and layoff to ensure that all such actions are taken without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability,

nationality or sex, consistent with the statutes and court decisions of the State of New Jersey, and applicable Federal law and applicable Federal court decisions.

The contractor shall submit to the public agency, after notification of award but prior to execution of a goods and services contract, one of the following three documents:

Letter of Federal Affirmative Action Plan Approval

Certificate of Employee Information Report

Employee Information Report Form AA302 (electronically provided by the Division and distributed to the public agency through the Division's website at www.state.nj.us/treasury/contract_compliance)

The contractor and its subcontractors shall furnish such reports or other documents to the Division of Purchase & Property, CCAU, EEO Monitoring Program as may be requested by the office from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Division of Purchase & Property, CCAU, EEO Monitoring Program for conducting a compliance investigation pursuant to **Subchapter 10 of the Administrative Code at N.J.A.C. 17:27**.

N.J.A.C. 17:27-1.1 et seq.
CONSTRUCTION CONTRACTS

During the performance of this contract, the contractor agrees as follows:

The contractor or subcontractor, where applicable, will not discriminate against any employee or applicant for employment because of age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Except with respect to affectional or sexual orientation and gender identity or expression, the contractor will ensure that equal employment opportunity is afforded to such applicants in recruitment and employment, and that employees are treated during employment, without regard to their age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex. Such equal employment opportunity shall include, but not be limited to the following: employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Public Agency Compliance Officer setting forth provisions of this nondiscrimination clause.

The contractor or subcontractor, where applicable will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to age, race, creed, color, national origin, ancestry, marital status, affectional or sexual orientation, gender identity or expression, disability, nationality or sex.

The contractor or subcontractor will send to each labor union, with which it has a collective bargaining agreement, a notice, to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under this act and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

The contractor or subcontractor, where applicable, agrees to comply with any regulations promulgated by the Treasurer, pursuant to N.J.S.A. 10:5-31et seq., as amended and supplemented from time to time and the Americans with Disabilities Act.

When hiring or scheduling workers in each construction trade, the contractor or subcontractor agrees to make good faith efforts to employ minority and women workers in each construction trade consistent with the targeted employment goal prescribed by N.J.A.C. 17:27-7.2; provided, however, that the Dept. of LWD, Construction EEO Monitoring Program, may, in its discretion, exempt a contractor or subcontractor from compliance with the good faith procedures prescribed by the following provisions, A, B, and C, as long as the Dept. of LWD, Construction EEO Monitoring Program is satisfied that the contractor or subcontractor is employing workers provided by a union which provides evidence, in accordance with standards prescribed by the Dept. of LWD, Construction EEO Monitoring Program, that its percentage of active "card carrying" members who are minority and women workers is equal to or greater than the targeted employment goal established in accordance with N.J.A.C. 17:27-7.2. The contractor or subcontractor agrees that a good faith effort shall include compliance with the following procedures:

(A) **EXHIBIT B** (Continued)

(B) If the contractor or subcontractor has a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor shall, within three business days of the contract award, seek assurances from the union that it will cooperate with the contractor or subcontractor as it fulfills its affirmative action obligations under this contract and in accordance with the rules promulgated by the Treasurer pursuant to N.J.S.A. 10:5-31 et. seq., as supplemented and amended from time to time and the Americans with Disabilities Act. If the contractor or subcontractor is unable to obtain said assurances from the construction trade union at least five business days prior to the commencement of construction work, the contractor or subcontractor agrees to afford equal employment opportunities minority and women workers directly, consistent with this chapter. If the contractor's or subcontractor's prior experience with a construction trade union, regardless of whether the union has provided said assurances, indicates a significant possibility that the trade union will not refer sufficient minority and women workers consistent with affording equal employment opportunities as specified in this chapter, the contractor or subcontractor agrees to be prepared to provide such opportunities to minority and women workers directly, consistent with this chapter, by complying with the hiring or scheduling procedures prescribed under (B) below; and the contractor or subcontractor further agrees to take said action immediately if it determines that the union is not referring minority and women workers consistent with the equal employment opportunity goals set forth in this chapter.

(C) If good faith efforts to meet targeted employment goals have not or cannot be met for each construction trade by adhering to the procedures of (A) above, or if the contractor does not have a referral agreement or arrangement with a union for a construction trade, the contractor or subcontractor agrees to take the following actions:

(l) To notify the public agency compliance officer, the Dept. of LWD, Construction EEO Monitoring Program, and minority and women referral organizations listed by the Division pursuant to N.J.A.C. 17:27-5.3, of its workforce needs, and request referral of minority and women workers;

(2) To notify any minority and women workers who have been listed with it as awaiting available vacancies;

(3) Prior to commencement of work, to request that the local construction trade union refer minority and women workers to fill job openings, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade;

(4) To leave standing requests for additional referral to minority and women workers with the local construction trade union, provided the contractor or subcontractor has a referral agreement or arrangement with a union for the construction trade, the State Training and Employment Service and other approved referral sources in the area;

(5) If it is necessary to lay off some of the workers in a given trade on the construction site, layoffs shall be conducted in compliance with the equal employment opportunity and nondiscrimination standards set forth in this regulation, as well as with applicable Federal and State court decisions;

(6) To adhere to the following procedure when minority and women workers apply or are referred to the contractor or subcontractor:

(i) The contactor or subcontractor shall interview the referred minority or women worker.

(ii) If said individuals have never previously received any document or certification signifying a level of qualification lower than that required in order to perform the work of the construction

trade, the contractor or subcontractor shall in good faith determine the qualifications of such individuals. The contractor or subcontractor shall hire or schedule those individuals who satisfy appropriate qualification standards in conformity with the equal employment opportunity and non-discrimination principles set forth in this chapter. However, a contractor or subcontractor shall determine that the individual at least possesses the requisite skills, and experience recognized by a union, apprentice program or a referral agency, provided the referral agency is acceptable to the Dept. of LWD, Construction EEO Monitoring Program. If necessary, the contractor or subcontractor shall hire or schedule minority and women workers who qualify as trainees pursuant to these rules. All of the requirements, however, are limited by the provisions of (C) below. (iii) The name of any interested women or minority individual shall be maintained on a waiting list, and shall be considered for employment as described in above, whenever vacancies occur. At the request of the Dept. of LWD, Construction EEO Monitoring Program, the contractor or subcontractor shall provide evidence of its good faith efforts to employ women and minorities from the list to fill vacancies.

(iv) If, for any reason, said contractor or subcontractor determines that a minority individual or a woman is not qualified or if the individual qualifies as an advanced trainee or apprentice, the contractor or subcontractor shall inform the individual in writing of the reasons for the determination, maintain a copy of the determination in its files, and send a copy to the public agency compliance officer and to the Dept. of LWD, Construction EEO Monitoring Program.

(7) To keep a complete and accurate record of all requests made for the referral of workers in any trade covered by the contract, on forms made available by the Dept. of LWD, Construction EEO Monitoring Program and submitted promptly to the Dept. of LWD, Construction EEO Monitoring Program upon request.

(D) The contractor or subcontractor agrees that nothing contained in (B) above shall preclude the contractor or subcontractor from complying with the union hiring hall or apprenticeship policies in any applicable collective bargaining agreement or union hiring hall arrangement, and, where required by custom or agreement, it shall send journeymen and trainees to the union for referral, or to the apprenticeship program for admission, pursuant to such agreement or arrangement. However, where the practices of a union or apprenticeship program will result in the exclusion of minorities and women or the failure to refer minorities and women consistent with the targeted county employment goal, the contractor or subcontractor shall consider for employment persons referred pursuant to (B) above without regard to such agreement or arrangement; provided further, however, that the contractor or subcontractor shall not be required to employ women and minority advanced trainees and trainees in numbers which result in the employment of advanced trainees and trainees as a percentage of the total workforce for the construction trade, which percentage significantly exceeds the apprentice to journey worker ratio specified in the applicable collective bargaining agreement, or in the absence of a collective bargaining agreement, exceeds the ratio established by practice in the area for said construction trade. Also, the contractor or subcontractor agrees that, in implementing the procedures of (B) above, it shall, where applicable, employ minority and women workers residing within the geographical jurisdiction of the union.

After notification of award, but prior to signing a construction contract, the contractor shall submit to the public agency compliance officer and the Dept. of LWD, Construction EEO Monitoring Program an initial project workforce report (Form AA-201) electronically provided to the public agency by the Dept. of LWD, Construction EEO Monitoring Program, through its website, for distribution to and completion by the contractor, in accordance with N.J.A.C. 17:27-7. The contractor also agrees to submit a copy of the Monthly Project Workforce Report once a month thereafter for the duration of this contract to the Dept. of LWD, Construction EEO Monitoring Program, and to the public agency

EXHIBIT B (Continued)

compliance officer. The contractor agrees to cooperate with the public agency in the payment of budgeted funds, as is necessary, for on-the-job and/or off-the job programs for outreach and training of minorities and women.

(E) The contractor and its subcontractors shall furnish such reports or other documents to the Dept. of LWD, Construction EEO Monitoring Program as may be requested by the Dept. of LWD, Construction EEO Monitoring Program from time to time in order to carry out the purposes of these regulations, and public agencies shall furnish such information as may be requested by the Dept. of LWD, Construction EEO Monitoring Program for conducting a compliance investigation pursuant to N.J.A.C. 17:27-1.1 et seq. ATTACHMENT B – NEW JERSEY ANTI-DISCRIMINATION PROVISIONS N.J.S.A. 10:2-1 ET SEQ.

Pursuant to N.J.S.A. 10:2-1, if awarded a contract, the contractor agrees that:
a. In the hiring of persons for the performance of work under this contract or any subcontract hereunder, or for the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under this contract, no contractor, nor any person acting on behalf of such contractor or subcontractor, shall, by reason of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex, discriminate against any person who is qualified and available to perform the work to which the employment relates;

b. No contractor, subcontractor, nor any person on his behalf shall, in any manner, discriminate against or intimidate any employee engaged in the performance of work under this contract or any subcontract hereunder, or engaged in the procurement, manufacture, assembling or furnishing of any such materials, equipment, supplies or services to be acquired under such contract, on account of race, creed, color, national origin, ancestry, marital status, gender identity or expression, affectional or sexual orientation or sex;

c. There may be deducted from the amount payable to the contractor by the contracting public agency, under this contract, a penalty of $50.00 for each person for each calendar day during which such person is discriminated against or intimidated in violation of the provisions of the contract; and

d. This contract may be canceled or terminated by the contracting public agency, and all money due or to become due hereunder may be forfeited, for any violation of this section of the contract occurring after notice to the contractor from the contracting public agency of any prior violation of this section of the contract. No provision in this section shall be construed to prevent a board of education from designating that a contract, subcontract or other means of procurement of goods, services, equipment or construction shall be awarded to a small business enterprise, minority business enterprise or a women's business enterprise pursuant to P.L.1985, c.490 (C.18A:18A-51 et seq.).

Marketing Activities: Describe how this business marketed its products and services to schools, nonprofit organizations and other public-sector audiences in Fiscal Year 2017– 2018 (July 1 – June 30). List all conventions, conferences and other events at which this company exhibited.

Hussey Seating's go to market via a direct sales channel & exclusive dealer network covering our global audience. Our dealers are known as local experts in seating solutions as well they reside in the communities they work in.

The public-sector business is a large vertical in our business matrix with a key focus from corporate and exclusive dealers…

1. *Hussey Seating Manages National Marketing Efforts*
2. *Hussey Exclusive Dealers Manage Local Marketing with Support from our Dealer Management Teams*
3. *Customer Education and Collaborate Solution Development is Key in our Approach*
    a. *Product Knowledge & Education*
    b. *Product Solutions & Collaborate Design Discussions*
    c. *Purchasing Solutions & Vehicles*
    d. *Life Cycle Management*
4. *Customers are Reached via the following:*
    a. *Trade Shows [complete HSC Direct Show List is in Exhibit B – Marketing Plan]*
    b. *Local Exclusive Dealer Shows | AIA, School Business Officials, etc.*
    c. *AIA CEU Program and Presentations*
    d. *Social Media Channels*
    e. *Direct Digital Communications with Customer Base*
5. *We look forward to also leveraging all member agencies listing / contact details for future opportunities and education sessions.*

Cooperative Marketing: Describe ways in which this business can collaborate with AEPA Member Agencies in marketing the bid. Submit a marketing plan, titled Exhibit B – Marketing Plan, that would entail at a minimum, the following with their response: process on how the contract will be launched to current and potential agencies, the ability to produce and maintain in full color print advertisements in camera-ready electronic format, including company logos and contact information, anticipated contract announcements, planned advertisements, industry periodicals, other direct or, indirect marketing activities promoting the AEPA awarded contract, and how the contract award will be displayed/linked on the Bidder's website.

We will integrate into our marketing programs to include the following:

1. *Develop AEPA procurement contract webpage like: https://www.husseyseating.com/contract-sales/*
2. *Develop a "Value of AEPA & Hussey Seating Company" PDF Document promoting the value of the program to the member agencies.*
3. *Develop a "Full Color Advertisements" with Co-Branding Opportunities*
4. *Launch of AEPA Program to HSC Exclusive Dealers & Customers*
5. *Integrate AEPA into management tools & performance matrix*
6. *Integrate and Promote @ Trade Shows*
    a. *Hussey Seating Trade Shows*
    b. *Hussey Exclusive Dealer Trade Shows*
7. *Reference Exhibit B – Marketing Plan for complete details.*

Sales Training: Explain how your business will educate your salesforce staff on the AEPA contract including timing, methods, etc.

1. *We will develop a sales training module regarding our AEPA [Awarded Contract] National & State Level requirements as outlined in Terms & Conditions. This will follow a successful training processes we incorporate into our Continues Education Program with our Exclusive Dealers / Business Partners.*
2. *We will start with internal training to our Senior Management, Dealer Sales Managers, Dealer Management Teams, Marketing & Finance on the New Awarded Contract[s], Order Processing & Reporting Requirements. [As Awarded]*
3. *We will incorporate AEPA training into our Annual Exclusive Dealer Sales Training [January]*
4. *We will incorporate into our Hussey University Training Programs in Maine [Three Sessions / Year]*
5. *We will incorporate into our Hussey University Webinar Series [Scheduled & Live on-demand Sessions]*
6. *We will provide on-demand consultation & access with AEPA Contract Manager & Dealer Support Teams*

Environmental Initiatives

Describe how your products and/or services support environmental goals.

The following is from our website | https://www.husseyseating.com/sustainability

Green business is good business

Today, going green means developing environmentally friendly paints and finishes, sourcing sustainable woods and metals, going beyond local and national regulations in clean manufacturing and waste disposal, and making deliveries on time while reducing our carbon footprint. We reduced our air emissions by 90% while tripling our seating business, so we know green business is good business. Hussey seating solutions come in a wide range of colors—but every day our seats get greener.

In the last several years, Hussey Seating has committed to further reducing hazardous pollutants and reducing waste. These environmentally friendly changes include:

- *Banning use of all CFCs in spray mechanisms*
- *Reducing production of VOCs from 100 tons in 1996 to less than five tons today*
- *Reducing xyelene use from two tons to .06 tons per year*
- *Switching to environmentally friendly paints and glues*
- *Recycling 83% of non-hazardous solid waste, while the rest is disposed of at a licensed waste-to-energy facility*
- *Reducing the amount of hazardous waste generated by 85%, and*

- *Reducing energy consumption by switching to environmentally friendly lighting and greener, more efficient motors.*

At Hussey Seating, our commitment to sustainability goes beyond environmental awareness. As a thriving, family-owned business with deep roots in our native state of Maine, Hussey Seating is also helping to sustain our local and national economy.

Hussey Seating Company is dedicated to providing great jobs, making great products and supporting and a wonderful way of life.

Describe the business's "green" objectives (i.e. LEED, reducing footprint, etc.).

Our products are designed and manufactured with our environment and global vision to planet earth's management in mind. We leverage design and material selections focused on product deconstruction as a primary goal at end of product life cycle. All the chosen materials can be simply recycled at the end of products life and recycled into a new product without going into a landfill. We also design products of high quality which outlast our competitors, most of our Telescopic Bleachers Systems life extend beyond 25+ years to minimize waste in the throwaway society we live in today.

Our product line also carries complete USGBC LEED documentation for ease of customer use as required on LEED certified projects.

The following is from our website | https://www.husseyseating.com/environmental-data

Our commitment to sustainable building practices is based in fact

When it's time to close out your project for environmental certification, you want hard data, not wishful thinking. Our commitment to sustainable building practices means we've documented the recycled material content and indoor air quality characteristics for our products down to the part level, including packaging, for every product configuration we offer.

Independent Subcontractors, Distributors, Installers, etc.

If the Bidder is not the sole provider of all goods and services provided under this contract, the following **must be answered**:

Selection Criteria for Independent Providers: Describe the criteria and process by which the business selects, certifies and approves subcontractors, distributors, installers and other independent services.

We strive to have the Best Exclusive Dealer Network in the World. We have many long term exclusive dealer relationships with a handful that extend 50+ years with Hussey Seating. Our goal is to bring in local experts that can extend our way of business & culture to their local communities in which they co-exist with our customers to provide the best support that should be expected in any business. We demand and measure finical stability & professionalism at all levels in their organizations from top management, sales, project management, assembly & installation to after-sale service and maintenance for the life of the product.

We manage these exclusive dealers with a direct sales team of Dealer Sales Managers whom work hand and hand in the territories providing us direct oversight, management and access to the global markets in which we choose to do business.

Today our exclusive dealer network is our most valuable asset to our business success which has been privately held, family owned and operated for 183 years… as we have been located and engaged with our customers in North Berwick, Maine Since 1835!

Current Subcontractors, Distributors, Installers, Etc.: Provide a list of current subcontractors, distributors, installers and other independent service providers who are contracted to perform the type of work outlined in this bid in the member agency states (listed in Part A of this IFB). Include, if applicable, contractor license or certificate information and the state(s) wherein they are eligible to provide services on behalf of the business.

All applicable contractor licenses and or certificate information will be provided as States adopt AEPA #019-A Telescopic Bleachers & Stadium Seating for their use and require documentation.

The following list is our exclusive dealers whom provide New Product Sales, Assembly / Installation & Aftermarket Inspection, Service & Maintenance for Hussey Seating Company in the ***states whom are planed participates*** *and or other states member sells in.*

If YES, identify which cooperative and the respective expiration date(s).
Sourcewell | December 2019
State of Alabama | February 2022
State of Mississippi | June 2019
State of Arkansas | December 2019

If YES, and your business is awarded an AEPA contract, explain which contract your business will lead with in marketing and sales representative presentations (sales calls)?
What we have learned over the years is that procurement customer's decided on not only the use of a contract to leverage as a vehicle to purchase desired products, yet they also heavily influence which contract they will use and or not use. Our strategy is to educate the procurement professionals what vehicles we have available for them to make their purchase easy. We work towards educating them as to what products are available on what contracts to help place them at ease during the purchasing process. This has been successful over the years and eliminates any feelings that they are being steered or directed one-way or another into a contract they may not be familiar and or comfortable with.

As part of our training and communication program we will make our exclusive dealers and end users / procurement professionals knowledgeable of the available purchasing vehicles we offer and what product solutions are included in each.

Administrative Fee: Which of the following best reflects how your pricing includes the individual AEPA Members' administrative fee. Mark with an "X".	
	The pricing for the products and/or services are the same for each AEPA Member Agency, shipping, handling, administrative fee and other specific state costs are added to arrive at total price offered to the Individual AEPA Member Agency.
	The pricing for the products and/or services is inclusive of the administrative fee and therefore the pricing is the same for all AEPA Member Agencies. Shipping, handling and other state specific costs are added to the adjusted AEPA Member Agency's price.
X	The pricing for the products and/or services includes **ALL** (shipping, handling, administrative fee, other) costs to arrive at a single price for all AEPA Member Agencies.

Shipping & Handling: Orders that are $50.00 or more shall include free shipping and handling. What is the flat rate your company will charge, regardless of where shipped in the continental United States, for orders less than $50.00?	**$200.00**

Product Returns: Does your business have a return policy? X **No** _____ **Yes**

If YES, describe your return policy and if you charge a restocking fee, what is it? (AEPA allows up to 15% for supplies and up to 25% for equipment).
<Enter Response Here>

Payment Terms: Will your business offer AEPA buyer's a quick pay discount? X

_____ **No** _____ **Yes**

If YES, what is the discount? _____ %Net

Leasing: Do your business offer leasing arrangements under this bid? X **No** _____ **Yes** _____

If Yes, please indicate the rate factor and other cost factors below.

If an AEPA contract is approved and awarded by the Member Agencies, as a Vendor Partner, I agree to:

Responsibilities of an AEPA Vendor Partner	**Yes,** indicate with an "X"	**No,** indicate with an "X"
1. Designate and assign a dedicated senior-level contract manager (one authorized to make decisions) to each of the Member Agency accounts. This employee will have a complete copy and must have working knowledge of the AEPA contract.	X	
2. Train and educate sales staff on what the AEPA contract is: including pricing, who can order from the contract (by state), terms/conditions of the contract, and the respective ordering procedures for each state. It is expected that Vendor Partners will lead with AEPA contracts.	X	
3. Develop a marketing plan to support the AEPA contract in collaboration with respective AEPA Member Agencies. The marketing plan should include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc.	X	
4. Create an AEPA-specific sell sheet with a space to add a Member Agency logo and contact information for use by the Member Agencies and the Vendor Partner's local sales representatives to market within each state.	X	
5. On a quarterly basis, complete the sales and administrative fee report (see attached PDF example) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, the Vendor Partner is required to submit a $0 report to the AEPA Member Agency.	X	
6. On a quarterly basis, complete the online Vendor Partner sales report for each Member Agency.		X
7. Have ongoing communication with the Bid Oversight Chairperson, AEPA Member Agencies and the Member Agencies Participating Entities.	X	
8. Attend two (2) AEPA meetings each year (see Part A)	X	
9. Participate in national and local conference trade shows to promote the AEPA contracts including, but not limited to the Association of School Business		X

Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).		
10. Increase sales over the term of the contract with all participating AEPA Member Agencies.	X	

Exceptions

Instructions:

1. If "no" is marked with an "X" below, complete this form by signing it at the bottom.
2. If "yes" is marked with an "X" below, insert answers into the form shown below, providing narrative explanations of exceptions. *(To insert more rows, hit the tab key from the last field in the last row and column.)*
3. If adding pages, the bidder's name and identifying information as to which item the response refers must appear on each page.
4. Exceptions to local, state or federal laws cannot be accepted under this bid.

	No, this bidder does not have exceptions to the Terms and Conditions incorporated in Parts A and B of this IFB.
X	**Yes**, this bidder has the following exceptions to the Terms and Conditions incorporated in Parts A and/or B of this IFB.

IFB Section and Page Number	Outline Number	Term and Condition	Exception
PART A | p.10	A.6	On a quarterly basis, complete the online Vendor Partner sales report for each Member Agency.	We take exception to item 6. As this is the same information being reported to Member Agencies on item 5. 5.On a quarterly basis, complete the sales and administrative fee report (see attached PDF example) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, a $0 report is required. This is a redundant requirement.
PART A | p.10	A.9	9. Trade show support: Strongly encourage participation in national and local conference trade shows to promote the AEPA contracts including, but not limited to the Association of School Business Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).	We take exception to trade show support with the term including & we will propose we provide trade show support as outlined in the Exhibit B – Marketing Plan as we currently do not participate in the procurement shows that are strongly encouraged.
PART B | p.4	6.6	Vendor Partner must maintain a toll free technical support line open 8 a.m. Eastern Time zone until 5 p.m., Pacific Time zone, Monday through Friday. Calls must be answered by a live US technician.	Technical support will be available from Hussey Seating Corporate | M-F | from 8:00AM – 4:30 PM EST & 8:00 AM – 5:00 PM in each Member Agency's Local Time Zone via Hussey's Exclusive Dealer Network.
PART B | p.4	7.1.1	The telescopic bleacher shall incorporate a locking system permitting the use of one, several, or all rows, each locked in the extended position.	Telescopic bleachers systems are required to fully open to lock into proper proposition to transfer front to back sway load. Our standard system can be used full open or use one row open yet several rows open require additional engineering to provide proper locking. This statement holds true for any and all telescopic seating systems. We can make the following statement and meet the proper safety requirements | The telescopic bleacher shall incorporate a locking system permitting the use of one, or all rows, each locked in the extended

			position. [We would strongly recommend striking the term several.] We understand that customers use their systems as described yet it creates an unsafe environment for the patrons and increases rick and liability for the facilities and school districts / member agencies.
PART B | p.4	7.1.2	Free-Standing (floor attached). Attached permanently to the floor, available in manual or power operation opening in a forward motion. A 10-1/4" rise is required for 20 rows, a 11-1/2" rise for 17 rows, and a rise of 16" is required on 12 rows.	Hussey Seating Company has the following comparable rises and Free-Standing Limitations for safety. 9 5/8" rise | 15 rows MAX for safety. 11 5/8" rise | 12 rows MAX for safety. 16" rise | 7 rows MAX for safety.
PART B | p.5	7.1.11	Nosing and rear riser shall be continuous formed galvanized steel members. Rear riser shall be a slant-away design to provide adequate foot room.	We take exception to this requirement as Hussey's telescopic systems leverage a vertical face riser design for additional strength and live loading transfer.
PART B | p.5 & p.6	7.1.12	A full range of outer backs shall be offered, including upholstered, hardwood veneer, laminated, and plastic; available with either exposed or hidden fasteners; back height may vary from 29" to 39.5", according to chair design. Seats shall be standard or fully enveloped. End panels shall be veneered, upholstered, laminated, or custom ordered; aisle lights may be conventional (on the side of an end panel), teardrop or strip (under the armrest).	Hussey will list our standard telescopic chair & bench seating solutions and options on the price list as this specification listing is about fixed auditorium seating solutions.
PART B | p.6	7.1.13	For rust resistance, steel understructure shall be finished on all surfaces with (Federal Specification TT-E-508) semi-gloss enamel. Tubular steel, which cannot be painted inside, is unacceptable.	Hussey's Seating Systems use tubular steel and do not finish the inside of the tube. Yet Hussey's standard product warrant cover the structural frames for 10 years. Reference warranty for complete details.
PART B | p.9	7.3.3	All installations must be installed by licensed factory-certified installers.	We take exception as there are no licensed factory-certified installers. We always use installers which are factory-certified installers. This was a program created by Hussey Seating Company to improve telescopic safety around the world.

Deviations

Instructions:

1. If "no" is marked with an "X" below, complete this form by signing it at the bottom.
2. If "yes" is marked with an "X" below, insert answers into the form shown below, providing narrative explanations of deviations. *(To insert more rows, hit the tab key from the last field in the last row and column.)*
3. If adding pages, the bidder's name and identifying information as to which item the response refers must appear on each page.
4. Deviations to local, state or federal laws cannot be accepted under this bid.

	No, this bidder does not have deviations (exceptions or alternates) to the specifications listed in Part B of this IFB.
X	**Yes**, this bidder has the following deviations to the specifications listed in Part B of this IFB.

Outline Number Part B	Specification (describe)	Details of Deviation
6.6	Vendor Partner must maintain a toll free technical support line open 8 a.m. Eastern Time zone until 5 p.m., Pacific Time zone, Monday through Friday. Calls must be answered by a live US technician.	Technical support will be available from Hussey Seating Corporate | M-F | from 8:00AM – 4:30 PM EST & 8:00 AM – 5:00 PM in each Member Agency's Local Time Zone via Hussey's Exclusive Dealer Network.
6.6	Vendor Partner must maintain a toll free technical support line open 8 a.m. Eastern Time zone until 5 p.m., Pacific Time zone, Monday through Friday. Calls must be answered by a live US technician.	Technical support will be available from Hussey Seating Corporate | M-F | from 8:00AM – 4:30 PM EST & 8:00 AM – 5:00 PM in each Member Agency's Local Time Zone via Hussey's Exclusive Dealer Network.
7.1.2	Free-Standing (floor attached). Attached permanently to the floor, available in manual or power operation opening in a forward motion. A 10-1/4" rise is required for 20 rows, a 11-1/2" rise for 17 rows, and a rise of 16" is required on 12 rows.	Hussey Seating Company has the following comparable rises and Free- Standing Limitations for safety. 9 5/8" rise | 15 rows MAX for safety. 11 5/8" rise | 12 rows MAX for safety. 16" rise | 7 rows MAX for safety.
7.1.8	Rise per row. The vertical dimension from seat to top can either be 10-1/4" or 11-1/2".	Hussey Seating Company has the following comparable rises 9 5/8" rise 11 5/8" rise 16" rise
7.1.10	Lower track shall interlock with adjacent lower track with an internal anti-drift bearing at the front of track to prevent separation and misalignment. Each lower track shall contain a tier catch to lock each row in open position and allow unlocking automatically.	Hussey MAXAM Seating System incorporate a continuous lower interlock with a minimum of 10 ¼" engagement.
7.1.10	Diagonal knee bracing shall be formed of high tensile steel angle members through-bolted to decking. Deck stiffeners shall be located at all plywood connections and shall be spaced not to exceed 4'-0" on center.	Hussey Seating has two telescopic systems as noted above, the slant frame design using tension or X bracing. Our systems also incorporate continuous decking supports and incorporate deck stabilizers [3 per section] One Center, One @ each end.
7.1.18	Provide manufacturer's warranty that guarantees the bleachers shall be free from defects in material and workmanship under normal user for a period of five (5) years. The warranty coverage shall not be prorated nor limited to the amount of usage.	Hussey's standard product warranty covers the structural frames for 10 years.

By initialing the table (1-12) and signing below, I certify that the information in this form is true, complete and accurate and that I am authorized by my business to make this certification and all consents and agreements contained herein.		
Bidder Certification (By Item)	**Bidder Certification:** YES, I agree or NO, I do NOT agree	**Initial**
1. Violation of Contract Terms and Conditions	YES, I agree	RB

***Please detail additional discounts on large projects.**

Part F.2A– Project Quote Telescopic Seating (Indoor)

AEPA IFB #019.5-A

Bidding Company Name:	***Enter company name here***
INSTRUCTIONS: In the form below, develop a sample quote using the requirements as stated. **Assume the project will take place in** Omaha, Nebraska**.** Pricing should reflect the discounts in F.2 and any applicable multipliers. Include any additional options as a separate line item.	Part F.2A is a REQUIRED FORM if responding to Telescopic Bleachers (Indoor)

Quote Specifications for Pricing Scenario:

Model: Telescopic Seating

Type: Wall Attached

Quantity: Provide two (2) identical banks of wall attached, 9 rows high

Dimensions: 11.5" rise per row, 24" row spacing

Propulsion: Integral Friction Power. An integral automatic electromechanical propulsion system to open and close telescopic seating system. Operation shall assure full visual control of the seating bank. System shall incorporate two (2) friction drive roller assemblies as an integral part of both first row vertical column assemblies. Each section of bleacher shall have a power system that shall consist of two (2) vertical column roller assemblies which shall include wide cast drive wheels for a minimum of four friction roller contact points per section of bleacher. Each roller shall have a specially formulated rubber covering to grip the floor as the units roll in and out. The two friction roller assemblies are linked together by a continuous drive shaft driven by a 1/2 H.P. 208 volt 3-phase motor that shall enable the rollers to work simultaneously, resulting in a more efficient operation with allowance for minor variations in the floor surface. All floor friction power systems shall be controlled by a dual directional, removable walk along pendant which plugs into the front of the first row to give the operator proper position for visual control. The entire power system shall be U.L. Recognized. A 208 volt 3-phase power source, including conduit, wiring, and safety disconnect must be provided by others. Motors, housing, and wiring shall be installed by certified personnel.

Foot Level Aisles: Center Aisle. Provide a permanently attached self-storing aisle rail which is designed to eliminate all labor associated with set up and storage of the aisle rails. List deviation if rails must be rotated or require hardware to be loosened or tightened for proper rail operation. Intermediate Steps. Provide manufacturers' standard intermediate step as necessary per applicable code.

ADA Accessibility: Notchouts. Provide manufacturers' standard permanent handicap notchouts located at each end of lower level bleachers. Fascia panels shall have manufacturer's standard polydeck finish to match deck board surface. Notchouts shall include fixed 36" high steel rails, (no exceptions) with vertical intermediate members to fill design criteria. Recoverable Notchouts. Provide recoverable handicap notchouts located as shown on drawings. Operation of the notchout from either mode shall be accomplished by activating a single pull rod located in the front kickboard. The locking linkage shall engage a continuous locking angle and lock the notchout in either recovered or handicap mode. Recoverable seating utilizing cables or any requirement for tools to change modes will not be acceptable.

Self Storing End Rails: Provide steel self-storing 42" high self-storing end guard rails with tubular supports and vertical intermediate members to comply with all code requirements. Rails shall be fitted to each exposed bank end from third row and above with all steel to steel connections. Finish shall be a black polyester powder coat.

Aisle Recovery: Provide the manufacturer's standard system to move the entire stack towards the balcony edge and recover floor space behind the bleacher system.

Last Row Seat Level Filler Board: Provide and install a properly supported, flush mounted board between the last row seat and the wall. The board shall match the deck board surface and prevent debris from collection between seat and wall.

Operational Controller (pendant switch): Provide 2 of the manufacturers' standard pendant controls plugged into a receptacle for extension and retraction. The receptacles shall be mounted behind the first row kickboard.

Timer's Table: Provide 1 of the manufacturers' standard timer tables that can be utilized at any location. Remove the legs for on-deck storage.

Vinyl Curtain: Provide manufacturers' standard vinyl end curtains to close off under the bleacher units in the extended position.

Supplemental Deck Supports (L-Brackets): Provide supplementaldeck supports per section of understructure, wall attached deck supports per section for lower level row bleachers. Brackets shall be fabricated from 3"x1.5"x3/16" Steel C-Channel. Brackets shall be anchored to wall and support the nose beam(s).

Continuous Wheel Channel: Wheel channels shall consist of a one piece formed steel channel welded to the base of a vertical column. Wheel channels accommodate 8 to 12 wheels per row for maximum weight distribution and operating ease. The number of wheels increases as the number of rows increase.

Wheels: shall be not less than 4" diameter x 1" non-marring soft rubber face to protect wood or synthetic floor surfaces. Wheels shall have molded-in sintered iron oil impregnated bushings to fit a minimum 3/8" diameter axle secured with E-type snap rings.

Columns: Electrically welded closed rectangular steel tube, 2" x 3" minimum size, fitted with a rear welded gusset at the wheel channel.

Row Interlocks: Join each row structure front to rear by means of two (2) interacting steel connections, plus automatic gravity row locks where Engineering determines they are required. Lower track guides shall be an external superslide rod to guarantee positive engagement of vertical supports without binding and assures smooth operation over uneven floor conditions. Superslide shall be mounted to the side of the wheel channels to limit the possibility of damage. Upper track guides shall completely interlock adjacent understructure support. A welded stop to ensure correct extension of bleacher unit on deck support. Use of bolt and nut stops is not acceptable, due to risk of loosening.

Diagonal Braces: Structural formed steel truss fitted to rows 4 and beyond. Bracing shall be attached to the rear riser at optimum locations to insure structural integrity. Bracing shall be designed and shaped to support a minimum load of 1000 LBS of both compression and tension forces created when the bleacher is loaded.

Deck Supports: Shall be of structural steel, 11 gauge spaced not greater than 60" on center for maximum deck stiffness. Every deck support not attached to a vertical post shall have an integral nylon roller to avoid steel to steel friction points for more efficient operation. Rollers less than 1 ½"diameter not permitted.

Decking: Shall be fabricated from a minimum 5/8" AC grade plywood, interior type with exterior glue, 5-ply, all plies with plugged crossbands, produced in accordance with National Bureau of Standards PS-1-83. Decking to match wood seats and fascia; mixed lumber species unacceptable. Decking shall be through-bolted fore/aft to deck stiffeners, doublers and frame cantilevers with locking hardware. Attachment by the use of self-tapping fasteners or retained by friction is unacceptable. Deck end overhang shall not exceed vertical column location by more than 4'-0".

Welds: All welds shall be made at the factory by welders that are qualified in accordance with AWS D1.3 for the equipment and process used.

Nosing and Rear Risers: 1) Nosing and rear riser shall be continuous formed galvanized steel members. Rear riser shall be a slant-away design to provide adequate foot room

Splice Plates: Each section joint shall be tied together with two structural steel members per row, employing a minimum of four steel to steel through bolt connections at the nose beam and a minimum of eight steel to steel through bolt connections at the lower steel rear riser. Gauge of splice plates to match the gauge of the nose beam and rear riser. Splice plates employing steel to plywood deck board attachments will not be acceptable. In order to minimize deflections and keep rows in alignment during operation, splice connections shall transfer both axial loads (tension/compression) and bending. With bid, provide illustration of section joint construction.

Fasteners: All structural connections shall be made with S.A.E. grade 5 or better stress rated bolts. The use of self-tapping bolts is not acceptable.

Platform Finish: Steel Understructure abraded, cleaned and finished with water base acrylic paint.

Seating: One piece individual seating modules constructed of injection molded high-density polyethylene. Provide 12" depth. Seats shall be continuour depth of not less than 11.5" to form a continuous bench seat. List deviation to any seating providing varition to this specification. Each seating module shall have two longitudinal and five transverse internal ribs to provide additional structural integrity and resistance to impact. Each module shall have a full 1/2" interlock to the adjacent module both around the perimeter and along the internal ribs to eliminate pinching hazards and assure proper alignment. A steel-to-steel attachment of each module to a minimum of 12 guage galvanized steel nose beam shall be provided for maximim rigidity. All mounting hardare shall be concealed. End caps shall be provided at the ends of each bank of seating as well as each aisle. Selection from manufacturers' standard colors.

List any deviations from the above specifications in the Notes section below. Per the solicitation requirements, shipping must be included on the quote. Shipping to Omaha, Nebraska .

Bid Affidavit

Instructions: This form must be signed by the business's authorized representative and notarized below. If awarded, the Bidder is required to produce a copy of this document for each Member Agency with which it contracts.

1. The undersigned, is duly authorized to represent the persons, business and corporations joining and participating in the submission of the foregoing bid (such persons, business and corporations hereinafter being referred to as the bidder), being duly sworn, on his/her oath, states that to the best of his/her belief and knowledge no person, business or corporation, nor any person duly representing the same joining and participating in the submission of the foregoing bid, has directly or indirectly entered into any agreement or arrangement with any other bidders, or with any official of the ***Member Agency***, or any employee thereof, or any person, business or corporation under contract with the ***Member Agency*** whereby the bidder, in order to induce the acceptance of the foregoing bid by the ***Member Agency***, has paid, or is to pay to any other bidder, or to any of the aforementioned persons, anything of value whatever, and that the bidder has not, directly nor indirectly entered into any arrangement, or agreement, with any other bidder or bidders which tends to or does lessen or destroy free competition in the letting of the contract sought for by the foregoing bid.
2. This is to certify that the bidder, or any person on his/her behalf, has not agreed, connived, or colluded to produce a deceptive show of competition in the manner of the bidding, or award of the referenced contract.
3. This is to certify that neither I, nor to the best of my knowledge, information and belief, the bidder, nor any officer, director, partner, member or associate of the bidder, nor any of its employees directly involved in obtaining contracts with the ***Member Agency***, or any subdivision of the state has been convicted of false pretenses, attempted false pretenses, or conspiracy to commit false pretenses, bribery, attempted bribery or conspiracy to bribe under the laws of any state or federal government for acts or omissions after January 1, 1985.
4. This is to certify that the bidder, or any person on his behalf has examined and understands the terms, conditions, scope of work and specifications, and other documents of this solicitation and that any and all exceptions have been noted in writing and have been included with the bid submittal.
5. This is to certify that if awarded a contract, the bidder will provide the equipment, commodities, and/or services to members and affiliate members of the Agency in accordance with the terms, conditions, scope of work and specifications and other documents of this solicitation in the following pages of this bid.
6. This is to certify that the bidder is authorized by the manufacturer(s) to sell all proposed products on a national basis.
7. This is to certify that we have completed, reviewed, approved and have included all information that is required of these bid forms.

Acceptance of Bid & Contract Award

Association of Educational PURCHASING AGENCIES

Instructions: PART I of this form is to be completed by the Bidder and signed by its Authorized Representative. PART II will be completed by the AEPA Member Agency only upon the occasion of the bid award. If approved by AEPA, the Bidder is required to produce a copy of the document for each of the AEPA Member Agency with which it contracts.

PART I: BIDDER

In compliance with the Invitation for Bid (IFB), the undersigned warrants that I/we have examined all Instructions to Bidders, associated documents, and being familiar with all of the conditions of the bid, hereby offer and agree to furnish all labor, materials, supplies and equipment incurred in compliance with all terms, conditions, specifications and amendments associated with this IFB and any written exceptions to the bid. Signature also certifies understanding and compliance with the certification requirements of the AEPA Member Agency's Terms and Conditions and/or Special Terms and Conditions. The undersigned understands that their competence, ability, capacity and obligations to offer and provide the proposed tangible personal property, professional services, construction services and other services on behalf of the Bidder Partner as well as other factors of interest to the AEPA Member Agency as stated in the evaluation section, will be a consideration in making the award.

PART II: AWARDING MEMBER AGENCY

Your bid response for the above identified bid is hereby accepted. As a Bidder Partner you are now bound to offer and provide the products and services identified within this IFB, your response and approved by AEPA, including all terms, conditions, specifications, exceptions and amendments. As Bidder Partner, you are hereby not to commence any billable work or provide any products or services under this contract until an executed purchase order is received from the AEPA Member Agency or Participating Entities. The intent of this contract is to constitute the final and complete agreement between the AEPA Member Agency and Bidder Partner, and no other agreements, oral or otherwise, regarding the subject matter of this contract, shall bind any of the parties hereto. No change or modification of this contract shall be valid unless in writing and signed by both parties to this contract. If any provision of this contract is deemed invalid or illegal by any appropriate court of law, the remainder of this contract shall not be affected thereby. The initial term of this contract shall be for up to fifteen (15) months and will commence on the date indicated below and continue until February 28, 2020, unless terminated, canceled or extended. By mutual written agreement as warranted, the contract may be extended month by month up to six (6) months or for three (3) additional 12-month periods.

Form F.2A – Lot 1 Playground Equipment Items Price Schedule
AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the F.1 tab.

Form F.2A – Lot 1 is a REQUIRED FORM only for Bidders submitting under this Lot

Playground Surfacing	Geotex fabric 15' wide roll	Each	$4.80	9.0%	$ 4.37		3235

Form F.2A –Lot 2 Water Park Items Price Schedule
AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the **F.1** tab. Failure to have price correspond may be cause for rejection of your offer.

Form F.2A – Lot 2 is a REQUIRED FORM only for Bidders submitting under this Lot

Form F.2A –Lot 3 Skate Park Items Price Schedule

AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the **F.1** tab. Failure to have price correspond may be cause for rejection of your offer.

Form F.2A – Lot 3 is a REQUIRED FORM only for Bidders submitting under this Lot

Form F.4B– Construction Rates

AEPA IFB #019.5B

Bidding Company Name:	*Kompan, inc.*

Instructions to Bidders — Form F.4 is an Required Form for installation services

Specifications identified in Part B – Specifications, Section 7, refer to the type and quality of products and services for bid. In the form below, enter your bid prices for those items indicated, and list all offered equipment, goods, services, supplies and related items. The prices you offer on these pages affirm that you have accepted the specifications to obtain, deliver and provide those goods and services. Each bidder is encouraged to offer its complete product line and provide the lowest and best prices for the complete product line(s) offered. Lines may be inserted into this document and additional worksheets included for this purpose. Please provide list/retail/regular price, AEPA discount and the AEPA price. In the tab marked "State, enter the multiplier to be added, if any, to the base bid price to calculate the particular state's bid price.

Description of Cost Factors	Unit of Measure	Bid Price
Performance and payment bond -not to exceed 100 %	Percent	2% fee of Project Value
Bonding capacity - total amount of capacity available	Dollar Amount	$ 5,000,000.00
AEPA Discounts offered on individual manufacturer's published price lists/catalogs.	Percent	
Alternative Methods of Costing - Percent of Overhead and Profit added to the cost.	Percent	
Rate of Discounts offered off Alternative Costing Methods (cost + profit & overhead)	Percent	
R.S. Means Multiplier/Factor for State Wage Rates Projects - Normal Working Hours (Defined as 7:00 a.m. to 5:00 p.m. Mondays-Fridays)	Percent	
R.S. Means Multiplier/Factor for Non-State Wage Rates Projects - Normal Working Hours (Defined as 7:00 a.m. to 5:00 p.m. Mondays-Fridays)	Percent	
R.S. Means Multiplier/Factor for State Wage Rates Projects - Outside Normal Working Hours (Defined as Weekends and after 5:00 p.m. Mondays-Fridays)	Percent	
R.S. Means Multiplier/Factor for Non-State Wage Rates Projects - Outside Normal Working Hours (Defined as Weekends and after 5:00 p.m. Mondays-Fridays)	Percent	
Proposer's Support for AEPA Pricing, Percent off the Proposer's Support for AEPA pricing Page	Percent

BID BOND

Bond No: Bid Bond

CONTRACTOR:
(Name, legal status and address)

KOMPAN, Inc.
605 W Howard Ln Ste 101
Austin, TX 78753

SURETY:
(Name, legal status and principal place of business)

Hartford Fire Insurance Company
The Hartford - Bond Claim Department
One Hartford Plaza, T-4
Hartford, CT 06155

OWNER:
(Name, legal status and address)

AEPA
2111 Pontiac Lake Road
Waterford, MI 58328

BOND AMOUNT: $100,000 One Hundred Thousand Dollars and 00/100

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

The Company executing this bond vouches that this document conforms to the American Institute of Architects Document A310, 2010 edition

Our unique playground equipment has been enriching children's play for nearly half a century. Why? Because at KOMPAN, we know that a well-designed playground can be both beautiful, fun, and designed to promote child development. Playgrounds can thereby, in an attractive way, significantly improve children's health, learning, and social interaction. In fact, play is nothing short of fundamental to a better life.

We believe that every child's future depends on play driven experiences that help them grow and develop safely, and challenge them to explore the world.

In addition to playgrounds, KOMPAN today is also an innovation leader in outdoor sport and fitness where we apply our experience and insight into making exercise attractive.

Recently, KOMPAN has also developed an indoor furniture and equipment range, based on a beautiful design with a new creative flexible furniture solution.

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2015.

The annual report for KOMPAN Holding A/S for the financial year 2015, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2015 HIGHLIGHTS

In 2015, KOMPAN continued the multi-year strategy of substantial increased investments in product innovation and in expanding our sales and distribution network. As a consequence, the number of employees increased from approx. 800 to approx. 900 and the Group achieved a record level of revenue and order intake. Earnings were, as expected, negatively impacted by the above strategic investments. Growth is expected to continue in 2016.

OPERATIONAL HIGHLIGHTS

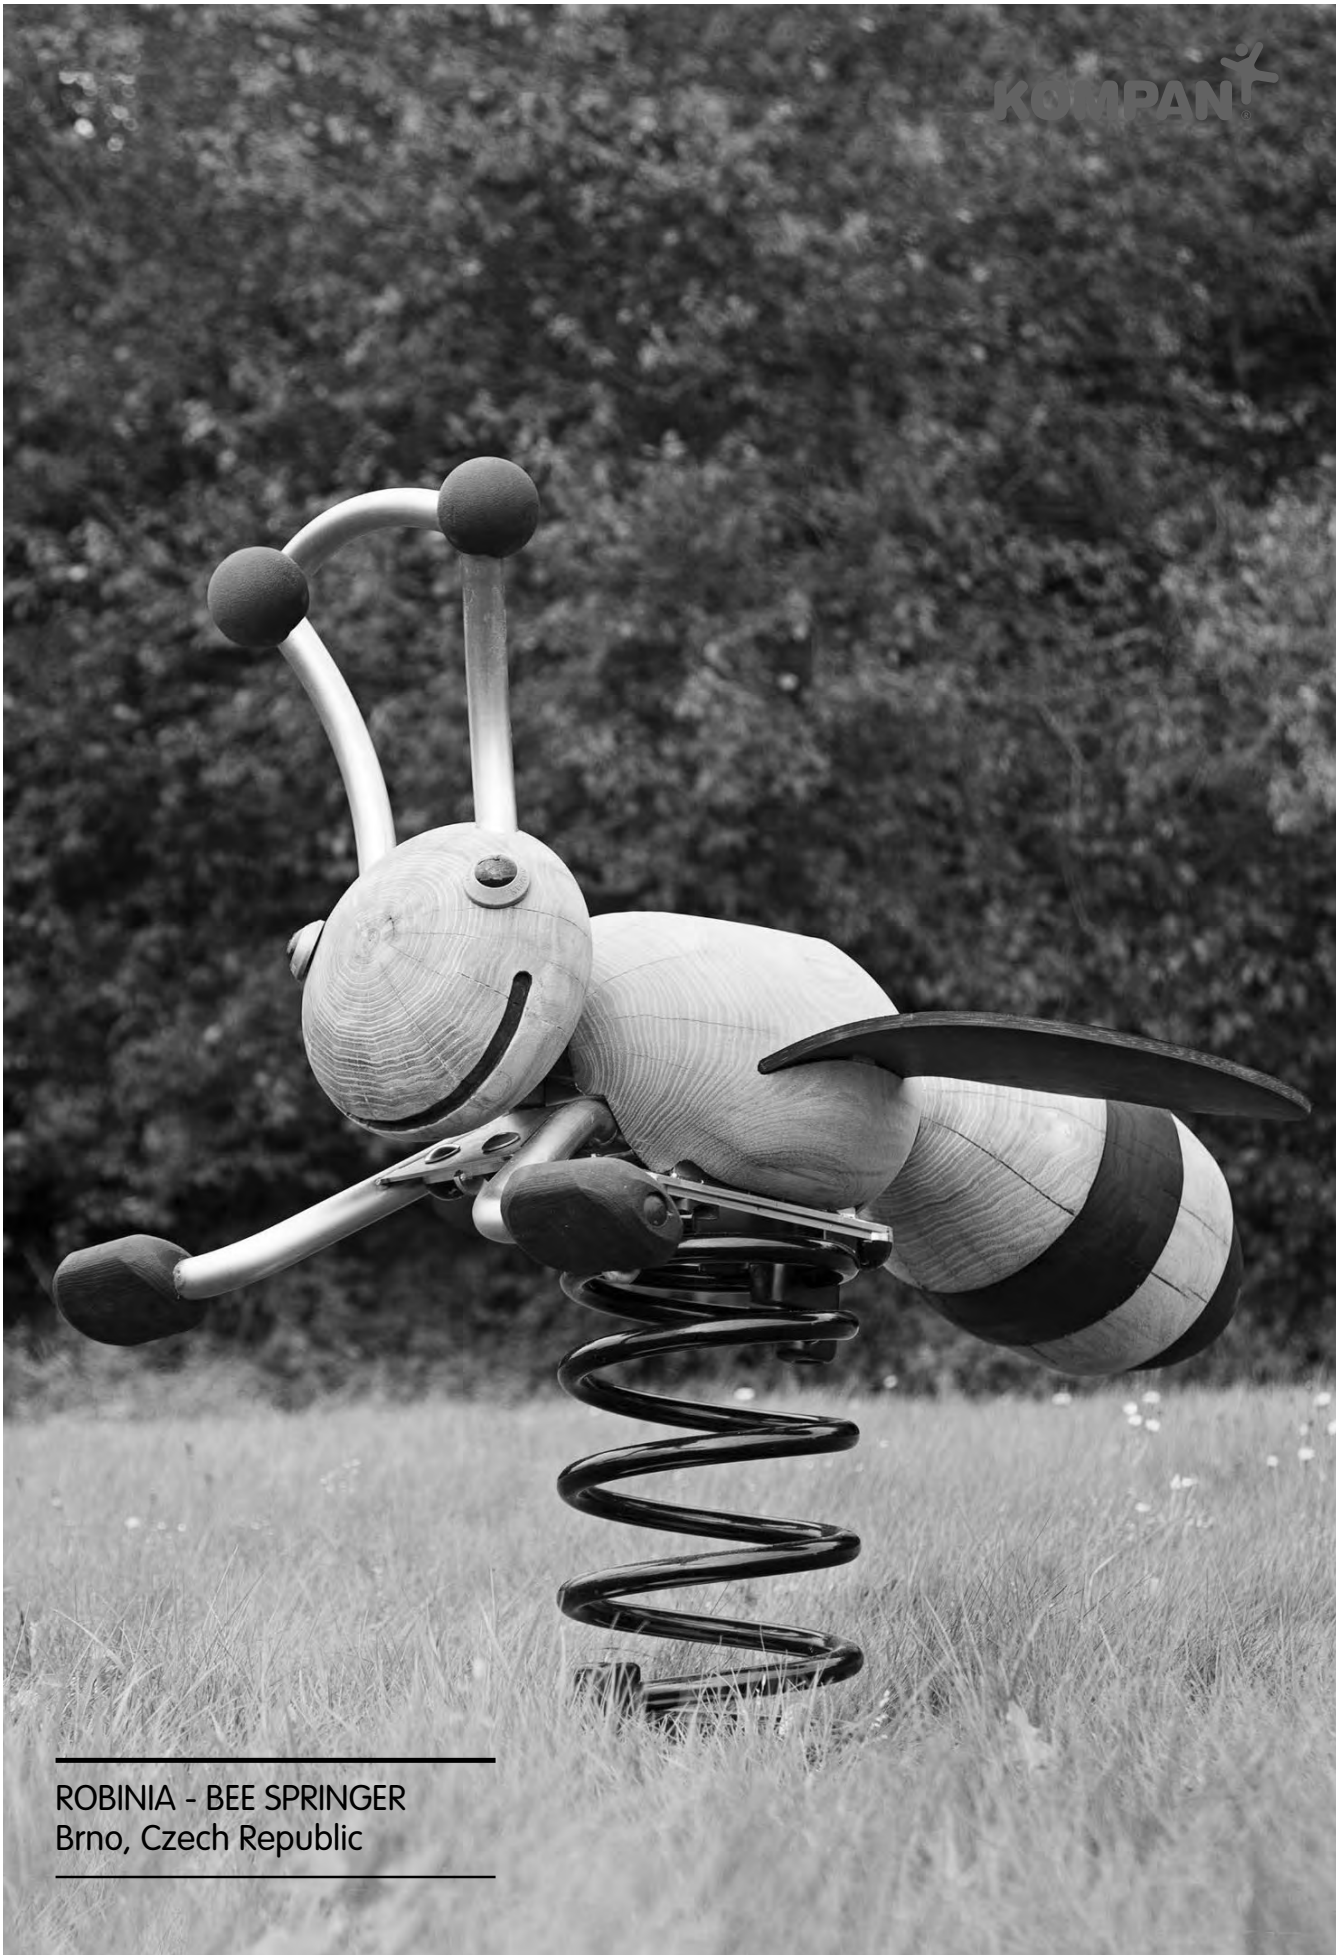
- KOMPAN introduced a new fitness training concept, designed to activate communities. The new holistic and innovative training approach consists of 3 layers:
  1) Aesthetic and cleverly designed next generation fitness products suitable for all ages and abilities,
  2) integrated digital training support and
  3) an onsite trainer program.

- KOMPAN went indoor with focus on quality, design, and a new flexible furnishing concept, based around specially designed indoor solutions, which support children's well-being and motivate them to play and learn. The new award winning concept has been very well received in the markets.

- A new ORGANIC Robinia design was launched - inspired by the organic shapes of nature itself and with all the uniqueness of the winding Robinia tree which has a high content of naturally occuring preservatives, so it does not need to be treated with chemicals for rot, etc. To ensure the best quality throughout the manufactoring process, KOMPAN has built a new world class factory in Brno, the Czech Republic focusing only on the production of ORGANIC Robinia, where we employ quality carpenters and other craftsmen and women.

- In May 2015, KOMPAN Commercial Systems (Belgium) merged with L&Bee (Poland and Belgium), both servicing restaurants and other retail customers. The merger brought together the best of two worlds: a high-performance production site in Poland, and an advanced design studio and customer service department in Liege (Belgium). The combined business furthermore has a highly experienced sales team supported by a dense global network of service teams.

FINANCIAL HIGHLIGHTS



- Revenue grew by 5% to DKK 1,419m, a new record.

- The multiyear strategy of increased investment in our sales and distribution network as well as increased investment in our product development continued, leading to a significant increase in the cost base. EBITA before special items therefore decreased, as expected, from DKK 190m to DKK 127m.

- Cash flow from operating activities was stable and amounted to DKK 129m.

2016 OUTLOOK

- KOMPAN will continue the multiyear strategy of increased investment in our product development and investment in our sales and distribution network. KOMPAN expects topline to continue to grow in 2016 and earnings to be slightly higher than 2015, still impacted by the increased level of investments.

KOMPAN LAUNCHES NEW AND INNOVATIVE ORGANIC ROBINIA

Increased customer demand for natural playground solutions makes KOMPAN build a new factory, dedicated to ORGANIC Robinia

Over the past few years, KOMPAN has seen growing demand and interest in its Robinia products. In response and because only the best is good enough for our customers and users, we have built our new factory exclusively dedicated to products made of Robinia wood.

Our new ORGANIC Robinia designs are inspired by the organic shapes of nature itself and all the uniqueness of the winding Robinia tree. By taking a holistic approach to create the play area, we stimulate children's interest in nature and introduce an understanding of nature into their lives.

KOMPAN Robinia play equipment is the embodiment of our passion for superiority - design, environmental consciouness, quality, and safety.

The new facilities secure that we meet both our own and our customers' high standards. We select the finest Robinia wood and use only the most durable heart wood in our production. And we make sure to live up to the highest safety standards globally.

Having enriched children's play for more than 45 years, we know that real play value matters. Based on knowledge from our KOMPAN Play Institute we make sure children get the most out of their time on our playgrounds, by incorporating age appropriate play and child development into our designs and solutions. All our products bear the fruits of intensive scientific research and knowledge of child development anchored in the internationally recognised KOMPAN Play Institute. What is more and also unique is that our solutions are tested and thoroughly reviewed by age relevant teams of children before they are approved for manufacturing.

The KOMPAN ORGANIC Robinia range can be ordered in FSC™-certified wood. Its aim is to preserve forests through the promotion of responsible forestry. KOMPAN ORGANIC Robinia solutions are available both as untreated wood, brown pigmented (transparent) or with painted parts. The paint we use is an environmental friendly water based acrylic paint that meets European Standard EN71-3 as well as the American CPSIA requirements.

NEW TRAINING CONCEPT DESIGNED TO ACTIVATE COMMUNITIES

PATENT PENDING 15176288.7

KOMPAN has a vision to get an inactive world moving. Through product and concept development, KOMPAN has incorporated what is needed to overcome physical activity barriers, resulting is an intelligent 3 layer training solution

Based on customer and user insights, a deep understanding of global health issues, fitness trends and knowledge from our professionals working with training and physical activity at the KOMPAN Fitness Institute, KOMPAN has developed a new holistic and innovative training approach, consisting of 3 layers:

1) Aesthetic and cleverly designed next generation fitness products and solutions, suitable for all ages and abilities
2) Integrated digital training support
3) Onsite trainer program

The modular and inclusive training solutions are perfect for everyone no matter their fitness level, if the training is performed individually or in a group, with or without guidance.

With the new KOMPAN fitness app the concept provides a location specific training manual, complete with easy instructions, training programs, and nutrition plans to enhance training effects and keep up motivation.

Adding an onsite trainer takes the solution to the next level. The trainer increases the opportunity to encourage less physically active citizens, keeping them motivated and encouraged to be more physically active.

KOMPAN HAS MOVED INDOORS

With a full range of design furniture and equipment for learning and play

KOMPAN has been supplying playgrounds for children all over the world for nearly half a century. Now we are taking a big step and going indoors with a new furnishing concept. The concept is based on our tradition of beautiful design and solutions that support children's well-being and motivate them to learn and play.

FLEXIBLE FURNITURE IS THE FUTURE

The time children spend in the nursery and kindergarten is one of their most important learning periods. Leading experts agree on this. And, at a time when we constantly acquire new knowledge of children's well-being and development, there is no doubt that flexible furnishings and products that are easy to change and adapt to new situations are very important.

At KOMPAN, we have much experience of creating beautifully designed, yet challenging and dynamic settings, because these stimulate children to use their bodies, play, work together and learn new things. In developing the product range, we have utilised our long tradition of working closely together with researchers and carers.

NEW AWARD WINNING AND PATENT PENDING INDOOR CONCEPT - KOMPAN FLEX SYSTEM

OFFERS ENDLESS POSSIBILITIES BY COMBINING VARIOUS MODULES

The FLEX system has been developed to reinforce various skills in children. The flexible modular design means that modules and accessories can change functions in the course of a day. Children and adults can create dynamic environments for themselves, stimulating creativity and imagination and increasing the motivation to build new, exciting, and challenging activity zones.

AGE APPROPRIATE PLAY – TESTED AND APPROVED BY SCHOOL-AGE CHILDREN

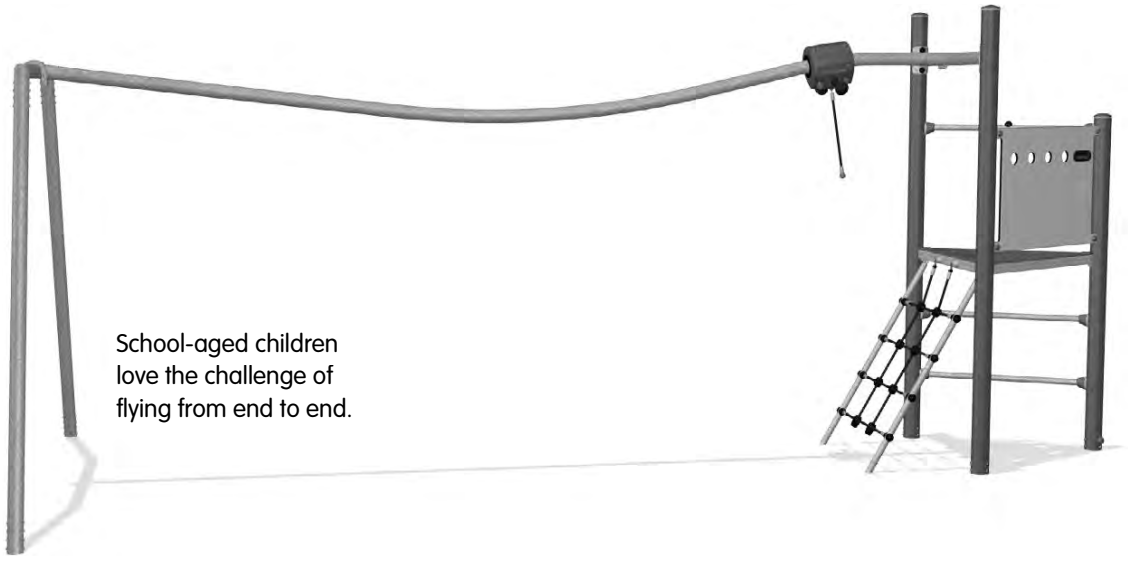
Children's motivation to play is at the heart of KOMPAN's play designs. This is the prerequisite for their physical, social-emotional, cognitive, and creative development

MOMENTS SCHOOL-AGE

To make sure that the play and activity solutions are fun and have physical as well as social holding power the KOMPAN MOMENTS school age designs are tested by children and evaluated by them, their teachers and the KOMPAN Play Institute during the development process.

The decrease in physical fitness and motor skill proficiency impacts children's social capabilities as well as learning capabilities negatively, research shows.

This is why the motivation of active play for school-age children is more important than ever. Apart from being fun, play helps children develop fundamental physical, social, and learning skills.



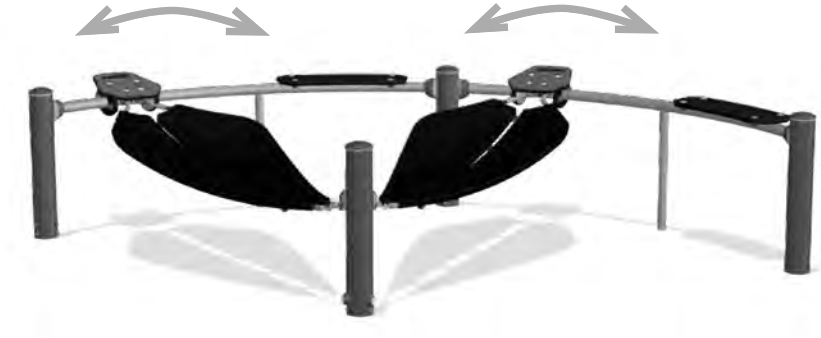
KOMPAN's new school age assortment is designed to provide age appropriate play for school-age children. Numerous physical activities and play panels are created in close cooperation with the KOMPAN Play Institute, verified by user group interaction and incorporated in the new play structures.

The assortment contains a number of products in different sizes including challenging Mega Deck play structures. Some new products are also predesigned to provide accessibility for disabled children so they may participate in play with others on the playground.

All standard products are available in three different color lines, two different post materials, three types of roofs, several slide options, and all possible types of anchoring. Play activities can be selected to match individual preferences. For urban settings, we have designed a special vandalism proof material combination.

NEW ACTIVITIES AND ADD ON FEATURES

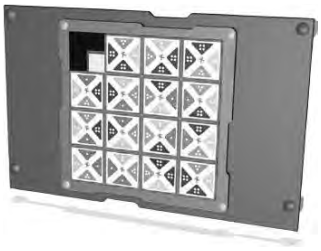
KOMPAN's focus is always to create a challenging and an attractive playground with holding power that ensures children revisit the site frequently. KOMPAN's new School-Age range is good news for a frequently inactive age group.



School-aged children love the challenge of flying from end to end.

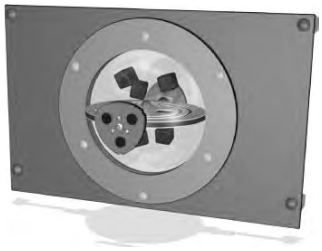
INTEGRATED SHADING

KOMPAN has designed an integrated shading solution that enlarges the covered area considerably. Integrated shades are available for the large square floor size and the Mega Deck platform. The shades are made of polyester and tensioned by adjustable brackets. The polyester shades are quite robust and it is only necessary to take them down if there is heavy wind.



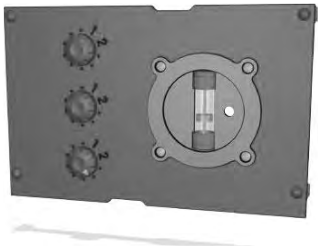
MOVABLE HAMMOCKS

Large two piece moulded PUR hammock that can be moved from side to side by the users.



A fun and changeable meeting and hang out place.

NEW PLAY PANELS FOR YOUNGER SCHOOL-AGE CHILDREN



SLIDE-A-PUZZLE

New domino pattern that ensures hours of focused play.

RANDOMIZER

360° turnable bowl with number dices.

SCORE BOARD + TIME TRACKER

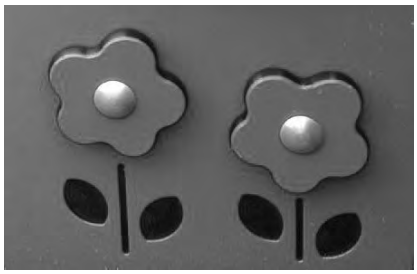
Three turnable score bottoms from 1-10 and time tracker ~ 2 min.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

In 2015, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.



As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising that the Group does not accept any kind of undue payment in any business transaction. In 2015, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and fitness equipment, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened its environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™-certified wood and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimize the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production plants are certified and controlled to ensure the highest standards in terms of quality, environment and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2015 Global Compact communications on progress report available at: www.KompanGroup.com/corporate-responsibility/

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 59% of the shares, KIRK KAPITAL A/S owns 25% of the shares while the remaining 16% of the shares are owned by the Executive Board and 61 other executives in KOMPAN.

INVESTORS	SHAREHOLDING
Christian Dyvig and family	59%

	2015	2014

4. TAX ON PROFIT FOR THE YEAR & DEFERRED TAX

TAX ON PROFIT FOR THE YEAR

Specified as follows:		
Tax on profit for the year	15.2	39.7
Adjustment of deferred tax	4.0	-7.8
Effect of change in tax rate	0.2	-0.1
Adjustment of current tax in respect of previous years	-2.2	0.5
	17.2	**32.3**
Effective tax rate before non-taxable transaction costs	**34.2%**	**25.4%**
Effective tax rate	**31.5%**	**28.3%**

DEFERRED TAX

Deferred tax at 1 January	53.7	22.4
Deferred tax in connection with purchase price allocation	0.0	39.3
Foreign exchange adjustment	0.4	-0.1
Adjustments for the year, profit & loss and equity	3.5	-7.8
Effect of change in tax rate	-0.2	-0.1
Deferred tax at 31 December	**57.4**	**53.7**

Deferred tax is specified in main items as follows:		
Intangible assets	46.2	45.5
Property, plant and equipment	-1.6	-2.0
Receivables	-0.2	-4.3
Inventories	-2.2	-0.2
Provisions	16.8	16.7
Other liabilities	4.6	4.5
Tax losses	-6.2	-6.5
	57.4	**53.7**

Deferred tax assets not recognised in the statement of financial position:

Tax value, tax losses	40.4	27.1

The value is not recognised in the statement of financial position, as the utilisation thereof is subject to a significant degree of uncertainty. There are no deferred tax liabilities that have not been recognised in the financial statements.

5. CONTINGENT LIABILITIES, GUARANTEES AND OTHER FINANCIAL LIABILITIES

DKK 195 million has been provided as collateral secured upon land and buildings with a carrying amount of DKK 43.8 million and DKK 7.4 million in receiveables and other assets with a carrying amount of DKK 7.6 million.

In addition, third-party guarantees have been provided by the Group's companies in the amount of DKK 15.2 million.

KOMPAN Holding A/S and its subsidiaries are parties to a few pending lawsuits. The outcome of these cases is not expected to materially effect the financial position of the Group, neither individually nor in the aggregate.

Every year 150 million people play and exercise at a KOMPAN playground or sportsground. Our unique concept of playing, learning and engaging communities to be physically active are the cornerstone of our philosophy.

For the last four decades, we have played a dominant role and co-created solutions with architects, city leaders, educators, housing associations and the leisure industry. We are present in more than 40 countries and the 1,100 people at KOMPAN are committed to innovate engaging, fun and uniquely designed play and exercise solutions that make people at all ages and abilities want to play, learn and connect.

We continue to claim the position as the world's leading brand in playground and sportsground solutions.

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2016.

The annual report for KOMPAN Holding A/S for the financial year 2016, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2016 HIGHLIGHTS

In 2016, KOMPAN continued the multi-year strategy of substantial investments in product innovation and in expanding our sales and distribution network. The Group achieved a record level of revenue and order intake and increased the number of average full time employees by 15% to now more than 1,000 employees. Earnings are still impacted by the substantial expansion, and KOMPAN expects to continue its above growth in 2017.

OPERATIONAL HIGHLIGHTS

- KOMPAN introduced the Mini series of play structures that are age-appropriate for toddlers and pre-schoolers, that afford maximum play value and that have an inclusive design. The Mini assortment is a result of collaboration between designers, researchers and safety specialists and is an example of our market-leading innovation and design.
- KOMPAN continues the innovative organic Robinia journey launching new amazing Castles and Ships, taking our portfolio of ORGANIC ROBINIA to a new level.
- KOMPAN Sport & Fitness added Street Workout providing new and relevant training solutions for all ages. Our vision with getting an inactive world moving has not changed – and launching our Street Workout states that we will continue.
- KOMPAN launched SIMPLY Play - a new design with fun activities for the midmarket. SIMPLY Play covers basic individual structures and larger play structures. Sometimes all you need is a playground that children will just enjoy. KOMPAN's extensive knowledge within play is used to make SIMPLY Play a flexible and solid choice which is unbeatable value for money.
- In October, KOMPAN acquired the service company Repcon B.V. including its subsidiary Repcon GmbH. The acquisition allows us to take a step closer to our customers providing full service solutions.

FINANCIAL HIGHLIGHTS

- Revenue grew by 6.0% to a new record of DKK 1.504m.
- EBITA before special items increased from DKK 127m to DKK 137m. Earnings were, as expected, still impacted by investments in product development and investments in our sales and distribution network.
- Cash flow from operations was stable and amounted to DKK 125.9m.

2017 OUTLOOK

- KOMPAN will continue the multi-year strategy of increased investments in product innovation and investments in our sales and distribution network. KOMPAN expects topline growth to continue in 2017 and earnings to increase, although still impacted by the level of investments.

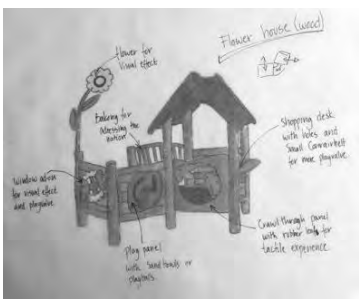
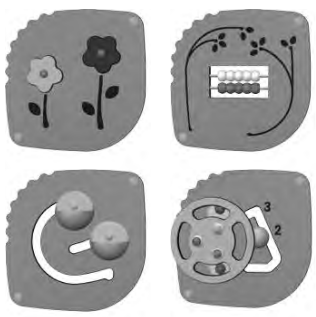
MOMENTS MINI



At KOMPAN, the process of designing new playground equipment is a long journey characterised by innovation, research and testing and the Mini assortment is an example of our market-leading innovation and design.



Through this process, designs are refined and fine-tuned until they offer children maximum play and developmental value. The new MOMENTS Mini line is a perfect example of this working process. From start to finish, KOMPAN's designers, researchers and safety specialists collaborated to create a series of play structures that are age-appropriate for toddlers and pre-schoolers, that afford maximum play value and have an inclusive design.

MAXIMUM PLAY VALUE FOR 1-6 YEAR-OLDS
Children develop at an extraordinary rate during the first years of life, and play is an essential part of this process. When children are born, their brains weigh only 25% of their adult weight. During the first years of life, the brain grows quickly and undergoes a "wiring" process. The development of motor skills, sensory skills, thinking skills – even empathy – are dependent on how well the brain develops in early childhood. Play is the motor of development.

The KOMPAN Play Institute documented the developmental value of the MOMENTS Mini line in a study that compared toddler and preschoolers' play on a Mini play structure to play on a grassy field. Three main findings emerged from the research:

1. The play structure promoted more dramatic play – a more complex form of play
2. The play structure facilitated higher and more complex language use during play
3. Lesser developed children benefited highly from playing on the structure

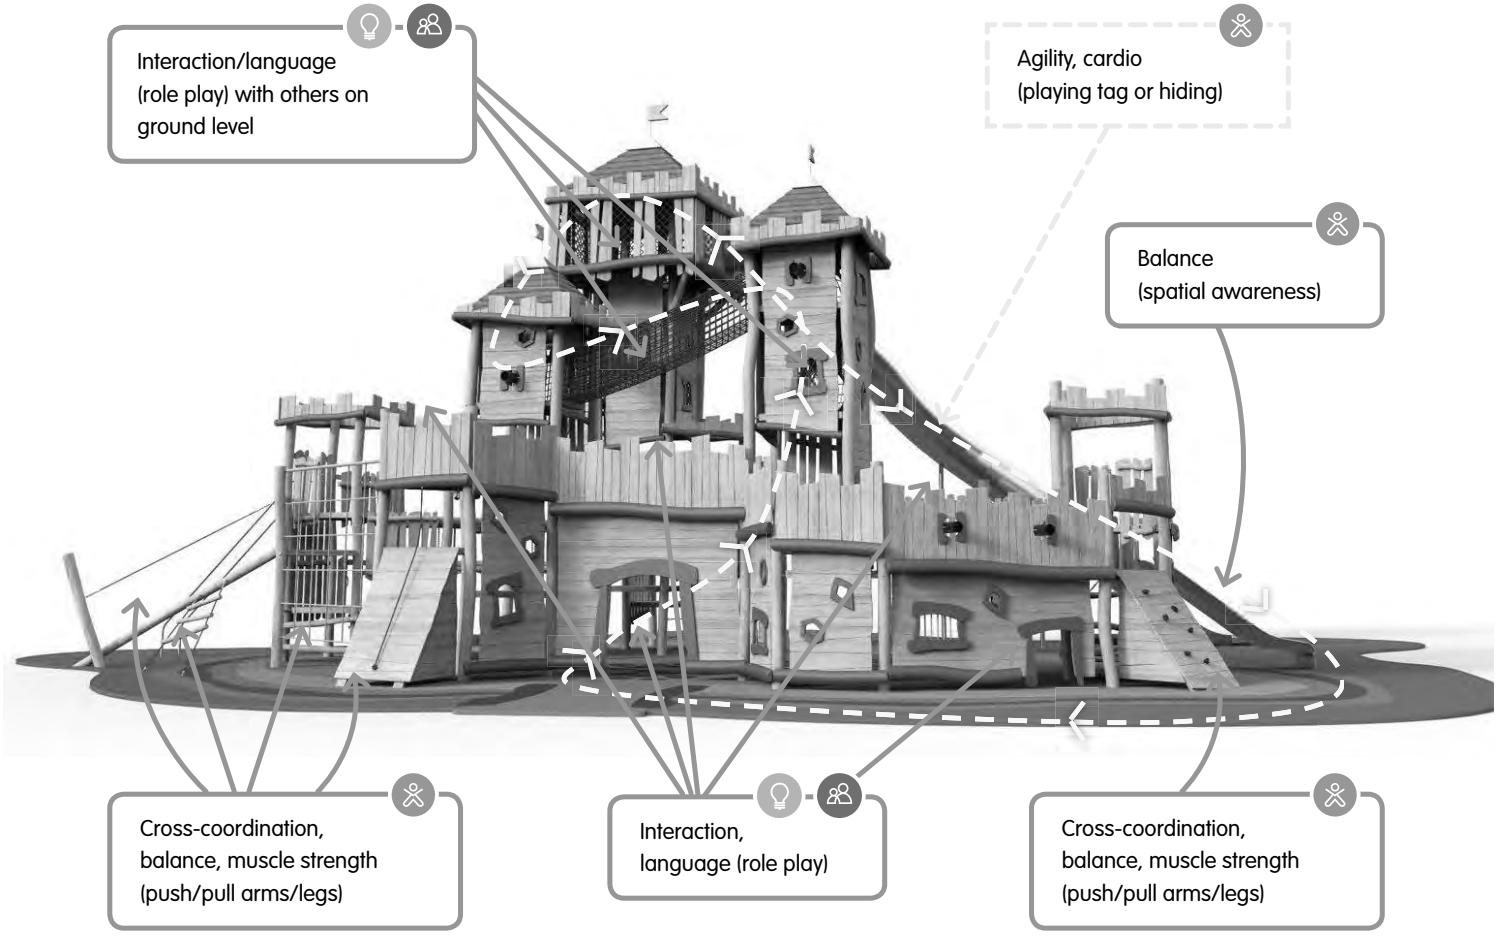
Thus, the MOMENTS Mini line offers the opportunity to invest in children's futures with world-class playground equipment that provides maximum play value.

A PERFECT SOLUTION FOR DEVELOPING TODDLER AND PRESCHOOL CHILDREN
Completely customizable & market leading quality, MOMENTS Mini brings customisation to a new level. The customer is able to choose between a number of options including slides, play panels, post material and more – getting the play structure that perfectly fits the user's needs.

KOMPAN CONTINUES THE INNOVATIVE ORGANIC ROBINIA JOURNEY

Launching new amazing castles and ships our portfolio of ORGANIC Robinia is taken to a new level.

Our new ORGANIC Robinia designs are inspired by the organic shapes of nature itself and all the uniqueness of the winding Robinia tree. By taking a holistic approach to create the play area, we stimulate children's interest in nature and introduce an understanding of nature into their lives. KOMPAN Robinia play equipment is the embodiment of our passion for superiority - design, environmental consciousness, quality and safety.



CONCEPT & DESIGN IDEA

Design scope was to create visually impressive and beautiful castles made from natural organic materials, that have not been treated with chemicals. Importantly for KOMPAN, the castles are also designed with play value in focus, so that the castles support age appropriate activities and development. This in order to secure that children of all ages stay engaged and fully utilise the many features within the castles for long periods of time, beyond simply being taken in by the initial wow effect.

From the outside, the castle looks massive with lots of access points. The backside is open and transparent to see the play taking place. From the first upper level, there are numerous exits down or more ways to continue the climb to the higher levels. The tall towers are interconnected by fully closed net bridges or curved 180° steel tube meshes. The reward for making it to the enlarged top princess chamber is a spectacular view and the opportunity to take a fantastic ride down the enormous multiple curved tubular slide.

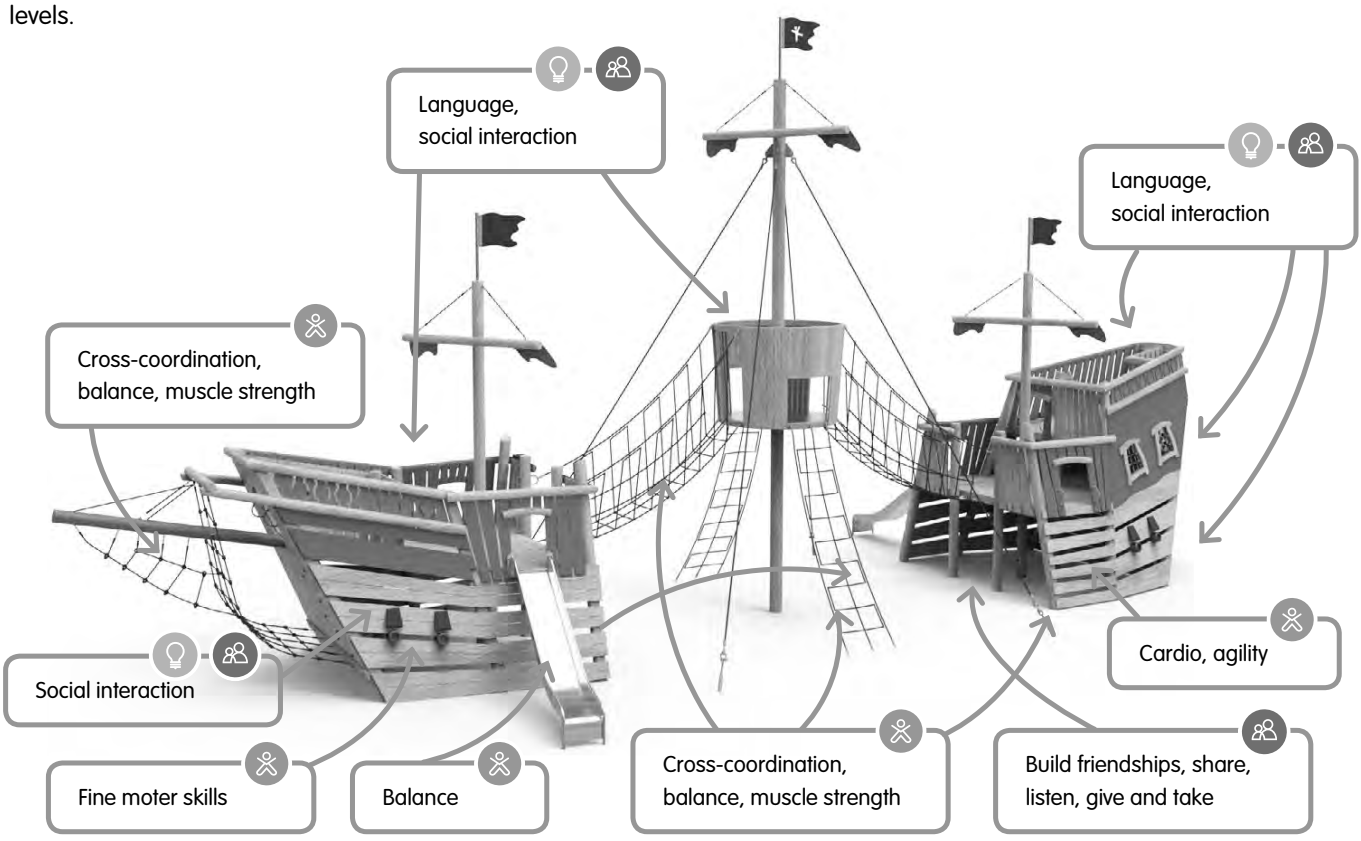
The Robinia castles will give any park a regal touch: the castles are architecture for the play princes and princesses – and possibly even some kings and queens. With their scale, the Robinia Castles allow for a wide range of ages playing together and inviting the whole family for a royal play day.

PLAY INSTITUTE INSIGHT

AGE APPROPRIATE PLAY

The Castle concept is designed for children from 4 up to 15 years.

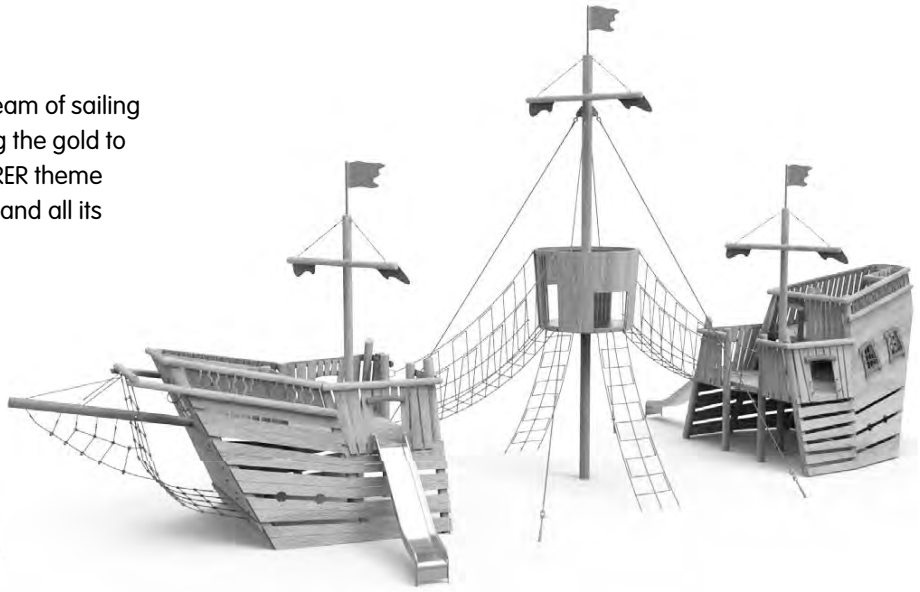
CASTLE, medium



TALL CASTLE, small

THE KOMPAN ARMADA

The fleet is designed to give the children sense of wonder while playing with and within the ship. The rooms below the decks have multiple access and exits, which boost the play experience. The new ships are designed with age appropriate challenging activities that support all competences of play. The ships can be designed with build-in sand play features and/or balancing extensions out from the ship core. The ships can also be designed as inclusive with access to the upper deck levels.



In front of the ship – climbing challenge

Inside the ship – small benches and tables

The PIRATE theme is about the dream of sailing out to treasure islands and finding the gold to live happily ever after. The EXPLORER theme enables the kids to see the world and all its beauty.

The Robinia ships make a fleet of unbeatable imaginative play motivators. From the small chalup boat to the huge schooner, these ships were crafted for play sailors with an imagination to take them anywhere.

THE COROCORD DOME ASSORTMENT GETS A NEW FAMILY MEMBER – OCEAN DOME

Dive freely into a new adventure world. An underwater world formed by rope structures in deep ocean blue and colourful membranes. Discover this world like a fish and pass the existing coral reefs, seaweed and starfish on your way to the surface and towards the horizon on top of the wave. Various imaginative stories and adventures are waiting to be explored by playing in and on the Ocean Dome. Let your imagination run wild!

The framed 3D net construction offers compact bouncy climbing for many users balancing and working their way to the top and down, around and through the meshwork of the net. Balancing trains the vestibular system and improves the sense of balance and motor stability of the child. Children can play for hours climbing or hang out in this thematic net structure. Climbing develops cross-body coordination, hand/eye coordination, agility and spatial awareness, and provides the children with leveled play challenges. The vertical climb takes you to the curly climber, and the rubber mats offer a bouncy, trampoline like break on the way up or down.

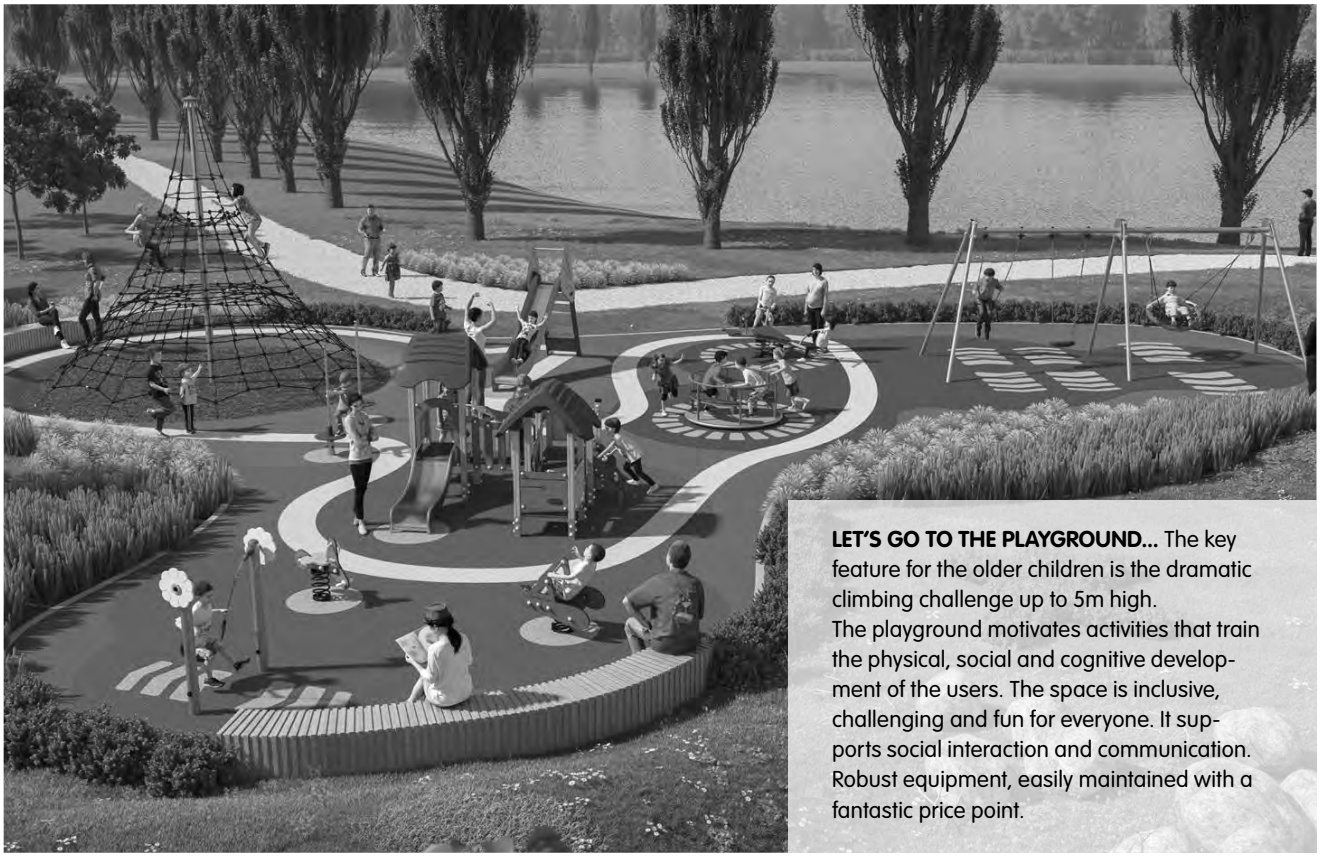
Products installed in foreshore areas are subject to constant extreme corrosive atmosphere. Ocean Dome is therefore also avaiable in a blue painted version, special designed for installation in foreshore areas.

"The system can be used by anyone. This includes children, the disabled and the elderly. It is simple, straightforward, and is freely available. At the same time, it is located in an area where many people do not traditionally work out. So the whole idea is to try to get more people to exercise." ***Carl Christian Ebbesen, Mayor of Culture and Leisure in Copenhagen***

KOMPAN SPORT & FITNESS NOW ADDS STREET WORKOUT

– providing new and relevant training solutions for all ages. Our vision to get an inactive world moving has not changed – and launching our Street Workout is another step in this development.

STREET WORKOUT



A physical activity that symbolises freedom of movement and encourages socialising. It is a combination of athletics, calisthenics and other sports, and is mostly performed in public spaces. The assortment is of course available as individual products, but we have also developed total solutions based on insight and knowledge from our KOMPAN Sport & Fitness institute.

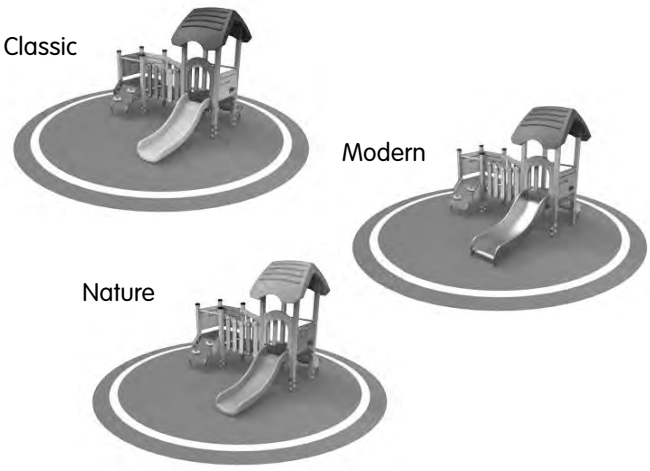
FUNCTIONAL TRAINING

Functional training originates from physiotherapy and is based on the philosophy, that the human body is built to move. That is why functional training is designed to improve natural movement patterns, that you already do or may need in your daily life - like running, lifting or jumping. The training usually takes place outdoors and is based on the classic exercises, which include squats and is done with or without paraphernalia as kettlebells, ropes and medicine balls.

FUNKTIONAL TRAINING app

- KOMPAN Outdoor Fitness Concept is functional and beneficial training for all – beginners to advanced – men and women.
- The characteristic is an iconic and beautiful design using only high-end materials ensuring popular fitness stations, made from long life materials.
- KOMPAN Fitness App. for smartphones, which guides, inspires and motivates, has been developed to also cover our new Street Workout.
- Find exercise for a specific site in the App with map function.

LET'S GO TO THE PLAYGROUND... The key feature for the older children is the dramatic climbing challenge up to 5m high.
The playground motivates activities that train the physical, social and cognitive development of the users. The space is inclusive, challenging and fun for everyone. It supports social interaction and communication. Robust equipment, easily maintained with a fantastic price point.

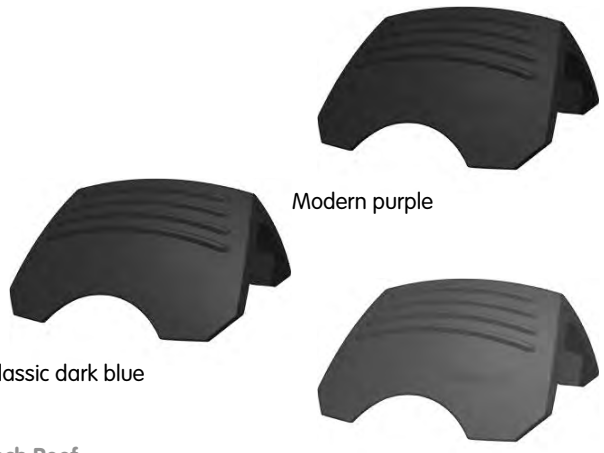


SIMPLY PLAY

New design with fun activities for the midmarket - combine the products to suit you.

SIMPLY Play covers basic individual structures and larger play structures. Sometimes all you need is a playground, that children will just enjoy. KOMPAN's extensive knowledge within play is used to make SIMPLY Play a flexible and solid choice.

The products are suitable for both younger and older children. All structures can be customised to match individual preferences. The combination of colour is predefined in classic, nature and modern. EcoTech roofs can be added or removed on all towers. Slide colours are predefined for the colour lines. All panels are made of recycled EcoCore™ HDPE.



WHEN I GROW UP! The play structure and swing assist in developing motor skills that lay the fundamentals for learning. The police car encourages role play and storytelling. Play value covers the physical, social-emotional and cognitive areas. An inclusive space with varied play opportunities for all children.

ECOTECH ROOF DESIGN

New design with fun activities for the midmarket - combine the products to suit you.

SIMPLY Play roofs are based on revised technology in roto-moulding and recycled EcoCore™ raw materials, that are 100% recyclable also after use. The uniquely designed curved geometry, reinforced by visual shapes and a scratch-resistant grained texture, results in high strength and durable roofs.

- ✓ **Visual impressive design**
- ✓ **Durable all-weather material**
- ✓ **Scratch resistant texture**
- ✓ **Low maintenance**
- ✓ **One piece**

SIMPLY Play material

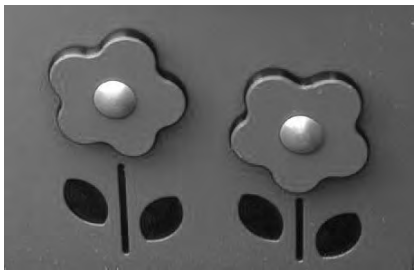
All products within SIMPLY Play are material optimised with simple, durable technical solutions that are easy to assemble and install. To provide best value prices, we pre-package the products at our production facility for efficient shipment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

In 2016, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.



As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising that the Group does not accept any kind of undue payment in any business transaction. In 2016, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and fitness equipment, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened the environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™-certified wood and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimise the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production plants are certified and controlled to ensure the highest standards in terms of quality, environment and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2016 Global Compact communications on progress report available at: www.KompanGroup.com/corporate-responsibility/

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 59% of the shares, KIRK KAPITAL A/S owns 25% of the shares while the remaining 16% of the shares are owned by the Executive Board and 61 other executives in KOMPAN.

INVESTORS	SHAREHOLDING
Christian Dyvig and family	59%
KIRK KAPITAL A/S	25%
Executive Board and other executives in KOMPAN (64 shareholders)	16%

At 31 December 2016

The ownership is united by a clearly defined vision to sustain KOMPAN's growth by expanding the boundaries of intelligent play, fitness and learning, by continuously developing and launching new engaging, fun and unique solutions.

BOARD AND MANAGEMENT

The Board of Directors consists of representatives of the two largest shareholders: Christian Dyvig, Mia Dyvig and Casper Kirk Johansen as well as two employee representatives: Jeanette Fich Jespersen and Otto Mertz.

The Executive Board consists of Chief Executive Officer Connie Astrup-Larsen, Chief Supply Chain Officer Jesper Egelykke Jensen, Chief Financial Officer Peter Elkjær-Larsen, and Chief Marketing Officer Rene Tristan Lydiksen.

3. RESTRUCTURING COSTS, ETC.		
Relocation of production, restructuring of business and severance pay to released employees in connection herewith	6.7	11.0
Adjustment of conditional acquisition price payable in respect of previous years' acquisitions	0.0	0.7
Transaction costs relating from business combinations	0.3	2.2
	7.0	**13.9**

	2016	2015

4. TAX ON PROFIT FOR THE YEAR & DEFERRED TAX

TAX ON PROFIT FOR THE YEAR

Specified as follows:		
Tax on profit for the year	8.9	15.3
Adjustment of deferred tax	11.8	4.0
Effect of change in tax rate	0.0	0.1
Adjustment of current tax in respect of previous years	1.2	-2.2
	21.9	**17.2**
Effective tax rate before non-taxable transaction costs	**27.4%**	**34.2%**
Effective tax rate	**27.6%**	**31.5%**

DEFERRED TAX

Deferred tax at 1 January	57.4	53.7
Deferred tax in connection with purchase price allocation	0.0	0.0
Foreign exchange adjustment	-0.5	0.4
Adjustments for the year, profit & loss and equity	11.7	3.5
Effect of change in tax rate	0.0	-0.2
Deferred tax at 31 December	**68.6**	**57.4**

Deferred tax is specified in main items as follows:		
Intangible assets	48.4	46.2
Property, plant and equipment	5.9	-1.6
Receivables	-0.9	-0.2
Inventories	-1.4	-2.2
Provisions	21.5	16.8
Other liabilities	0.7	4.6
Tax losses	-5.6	-6.2
	68.6	**57.4**

Deferred tax assets not recognised in the statement of financial position:

Tax value, tax losses	41.6	41.1

The value is not recognised in the statement of financial position, as the utilisation thereof is subject to a significant degree of uncertainty. There are no deferred tax liabilities that have not been recognised in the financial statements.

5. CONTINGENT LIABILITIES, GUARANTEES AND OTHER FINANCIAL LIABILITIES

DKK 18.3 million has been provided as collateral secured upon land and buildings with a carrying amount of DKK 46.2 million and DKK 7.4 million in receiveables and other assets with a carrying amount of DKK 7.4 million.

In addition, third-party guarantees have been provided by the Group's companies in the amount of DKK 15.3 million.

KOMPAN Holding A/S and its subsidiaries are parties to a few pending lawsuits. The outcome of these cases is not expected to materially effect the financial position of the Group, neither individually nor in the aggregate.

Play is instinctively human. When we are children, play is how we have fun, learn, socialise, and are physically active. As we get older, it's really the same - play is key to a long and happy life. Through our inventions, we have set new global standards for ways to play, seeking to create the world's best playground and sport & fitness solutions.

We do this because we have a passion to create healthier and happier communities by inspiring people across the world to play more. We do it the KOMPAN way, where product development is based on thorough research, extensive user involvement, and close collaboration with experts through the KOMPAN Play Institute and KOMPAN Sport & Fitness Institute. We then tailor the right solutions to the specific user and customer requirements. This creates products that motivate people of all ages and abilities to play more, be more physically active, and learn and socialise more - while always having fun.

We never compromise on safety and our choice of the highest quality materials creates extremely durable solutions that stand the test of time and weather. We are also conscious that our designs should be beautiful - both in their own right and as a contribution to their architectural and natural surroundings.

Today, digital technologies change the way we live our lives. This includes why, how, and where we play and are physically active as individuals, families, and communities. We take responsibility for driving this change, as we have historically - to continuously lead the industry and reinvent play for everyone's benefit.
Let's play!

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2017.

The annual report for KOMPAN Holding A/S for the financial year 2017, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2017 HIGHLIGHTS

In 2017, KOMPAN continued the multi-year strategy of substantial investments in product innovation and in expanding our sales and distribution network, that started in 2015. The Group delivered a record level of revenue and grew by 11 percent. Earnings are still impacted by the substantial expansion, and KOMPAN expects to continue the investments and growth in 2018.

OPERATIONAL HIGHLIGHTS

- KOMPAN introduced Cube Towers pushing forward with design innovation and provoking unbeatable imaginative play. Climbing is traditionally a favorite activity amongst children, and this new design honours that.
- KOMPAN presented new pirate ships and castles built on a rock solid structure, maintenance free and made from recycled and recyclable materials. KOMPAN castles and ships are equipped with a host of adventurous activities, that can accommodate every site and age range and provide countless hours of fairy tales and adventures.
- KOMPAN Sport & Fitness added the Obstacle Course, that takes us back to our roots with natural movement for increased health and happiness. Launching our Obstacle Course confirms our vision of getting an inactive world moving.
- KOMPAN continues to expand our portfolio of Organic Robinia hard wood equipment with the uniqueness of our classic and modern playgrounds.
- KOMPAN successfully consolidated the production in Sweden into the main production facility in the Czech Republic.

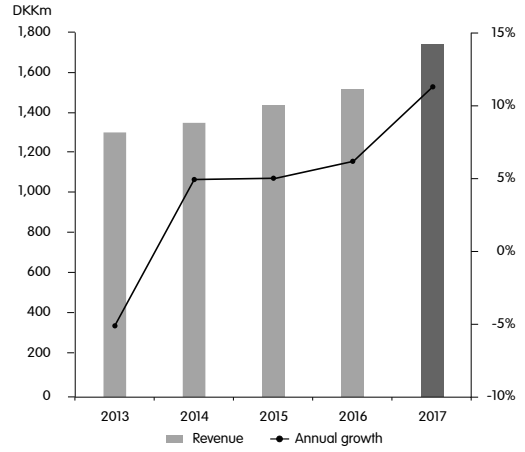
FINANCIAL HIGHLIGHTS

- Revenue grew by 11.0% to a new record of DKK 1,670m.
- EBITDA excluding items affecting comparability increased from DKK 161m to DKK 178m. Earnings were still impacted by investments in product development and investments in our sales and distribution network, as expected.
- Cash flow from operations grew and increased from DKK 126m to DKK 158m. The increase in cash flow was driven by higher earnings and net working capital improvements.

2018 OUTLOOK

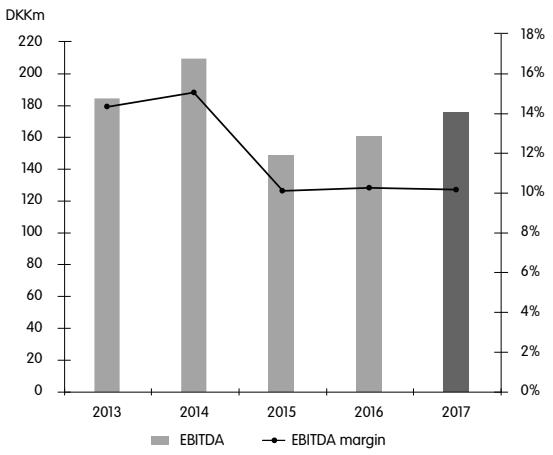
- KOMPAN will continue the multi-year strategy of increased investments in product innovation and investments in our sales and distribution network. KOMPAN expects topline growth to continue in 2018 and earnings to increase, although still impacted by the high level of investments.

KEY FIGURES AND FINANCIAL RATIOS FOR THE GROUP



DKK million	2013	2014	2015	2016	2017
Income statement					
Revenue	1,293.1	1,354.4	1,418.6	1,504.4	1,670.2
EBITDA[1)]	**185.0**	**209.6**	**148.1**	**160.8**	**177.5**
Normalised profit for the year[2)]	**113.2**	**104.5**	**56.9**	**67.4**	**81.5**
Restructuring costs etc.[3)]	-9.2	-17.9	-13.9	-7.0	-38.6
Profit for the year	87.8	82.0	33.0	57.9	24.3
Balance sheet items					
Total assets	1,381.3	1,885.7	1,939.2	1,949.8	1,904.0
Equity	735.7	454.5	515.3	636.9	630.9
Financial ratios					
EBITDA[1)] margin	14.3%	15.5%	10.4%	10.7%	10.6%
Normalised return on equity	16.1%	17.6%	11.7%	11.7%	12.9%
Average number of employees	748	780	892	1,026	1,140

1) EBITDA is presented before restructuring costs, etc. and other operating income.



2) Calculated as normalised profit for the year adjusted for foreign currency adjustments, amortisation of acquired intangible assets, restructuring costs, etc., and other operating income.

3) Restructuring costs etc. relates to items which by their nature are not considered part of ordinary activities, such as costs associated with relocation of production units, restructuring of businesses, transaction costs associated with acquisitions of businesses etc.

Revenue and Annual Growth

EBITDA [1)] and Margin

ROBINIA SHIPS AND CASTLES

The organic Robinia ships make a fleet of unbeatable imaginative play motivators. From the yoal to the huge schooner, these ships were crafted for play sailors with an imagination to take them anywhere.

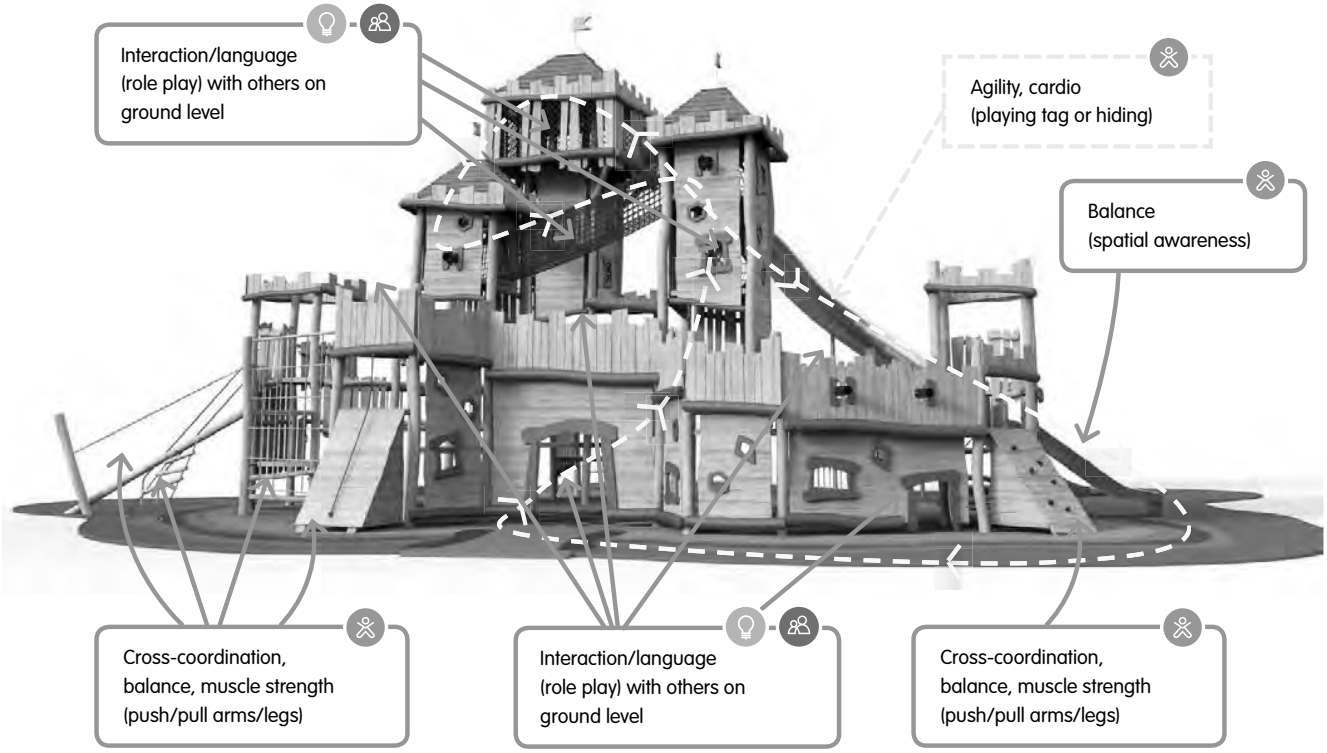
KOMPAN reinvents nature play with market leading play capacity.

KOMPAN has focused on getting play back to nature with the launch of Organic Robinia hard wood equipment. In doing so, we have brought the uniqueness of our classic and modern playgrounds into these designs.

The KOMPAN Organic Robinia designs thus provide market leading Stay and Develop factors, where users improve their language skills and logical thinking. Our challenging track ride, for instance, develops muscle strength and collaborative interpersonal skills with lots of fun. In addition, our Organic Robinia design has built-in unique sensory play - take the desk and crane, for example.

Our design sets new standards for the use of Robinia, as it is modular, providing endless ways of combining towers, slides and swings, to mention just a few options. This gives us a cost-effective way of tailoring solutions to our customers.

The environmentally friendly Robinia wood has a high content of naturally occurring preservatives. That is why it does not need to be treated with chemicals for rot, while having an extreme resistance to splintering, humidity damage, and water penetration.



PLAY INSTITUTE INSIGHT

The organic Robinia castle concept is designed for children from 4 all the way up to 15 years with age appropiate play across all ages.

PHYSICAL
Joy of movement: motor skills, muscle, cardio, and bone density

COGNITIVE
Joy of learning: curiosity, understanding of causal relationships, and knowledge of the world

SOCIAL/EMOTIONAL
Joy of being together: teamwork, tolerance, and sense of belonging

MOMENTS™ MINI

At KOMPAN, the process of designing new playground equipment is a long journey characterised by innovation, research and testing. The Mini assortment is an example of our market leading innovation and design. A perfect solution for developing toddler and preschool children.

In addition to age-appropriate size and scaling, the Mini portfolio also features a number of new play-based learning panels. The panels support a number of skills and competences such as fine and gross motor skills, cross-coordination, abstract thinking and emotional development.

MOMENTS™ COMBINATION SYSTEM

Our newly designed combination system offers a large variety of play activities and material option to fulfil individual requirements in any playground setting, which we specifically configure together with each customer.

NEW PIRATE SHIPS AND CASTLES

Daredevils and pirates take notice!

"If ye playground be in dire need of an overhaul and barnacles have settled on your springers, look no further than these amazing new ships from KOMPAN." Built on a rock solid structure equipped with a host of adventurous activities both topside and below deck, you will find all you need for children to create their own high seas adventures right here.

Below deck and accessible to the generally younger audience, you will find numerous activities built around the Stay and Develop factors, that allow children to pass time while confined to the brig – or searching for treasure below the surface of the sea or in the cargo hold.

Above deck, your little brigands can swing from the deck with all the rush and excitement provided by our track-ride or have them scale the ropes to take our exhilarating more than 6 meter long steel slide.

With all the stuff to explore and try, the stories can go far and wide across the seven seas! Expect your little pirates to try all their parlaying skills when negotiating, to stay for just a few more minutes. And who knows, even all you landlubber grown-ups could end up being carried away by the high tide of seafaring adventure and fun. There is no reason for you not to get into the action.

Built from recycled and recyclable materials, that are durable and maintenance free, expect your seafaring adventures to be safe and reliable – and for the ships to look great for years to come.

Ready the turrets! Man the ramparts!

"A KOMPAN castle is no cause for distress – be you damsel or otherwise!" Get ready for action and adventures fit for Queens and Kings! Packed with fun on all levels, stories, nooks and crannies! Explore the dungeons, prison cells, and caves below – or swing from the ramparts to defend your castle from the dragon.

Climb the giant spider web in the cavern below the massive keep, or sign up for guard duty as you patrol the ramparts keeping an eye out for Robin Hood and his band of merrymen. In the cellars you will find loads of activities built around our Stay and Develop concept – redesigned and configured to support all sorts of role playing action and fun.

From the ramparts you can swoop across the moat using anything from a slide to our super fun track ride. And just as important, we have a whole complement of nets and climbing activities ready for you to scale the castle walls as you sneak into the castle to meet the wizard and steal away his formula for gold!

From the smallest gatehouse to the largest keep, KOMPAN castles can accommodate every site and age range and provide countless hours of fairy tales and adventures – all while you can rest assured, that the maintenance free products, made from recycled and recyclable materials, keeps your KOMPAN castle safe, reliable, and as good as new for years to come.

INNOVATIVE DYNAMIC CAROUSELS

KOMPAN carousels add innovation to the joy of spinning.

The universal design of KOMPAN carousels attracts even teenage users and provides inclusive play opportunities for children with disabilities. Apart from being great fun, the spinners help children practice and improve their sense of balance while building their muscle strength and bone density. It's great exercise, and supports children in navigating the world securely with improved physical literacy and resilience. KOMPAN Play Institute interviews with older children state, that spinning until they get dizzy is one of their favorite play activities.

TIPI CAROUSEL

- Inclusive spinning for all users and play positions: standing, sitting, and lying
- Benefits social play, allowing room for many, of all ages and abilities
- Benefits physical literacy and health training motor skills, muscles, cardio, and bone density
- Life lasting quality: lifetime sealed bearing construction

TWIN RING SKY CAROUSEL

- Invites a wide user range, with two gripping heights and step support
- Designed to benefit upper body muscle strength, motor skills, cardio, and bone density
- Benefits social play, allowing room for many
- Life lasting quality: lifetime sealed bearing construction

NEW SAFER PORTAL SWINGS

Unlimited flexibility and modularity.

Thrill is a main motivator of physical play, and swings are truly thrilling. Learning to swing takes practice, but once learned, brings children hours of joy. Additionally, it will train the vestibular system for coordination and sense of balance. These fundamental motor skills are crucial for children to develop in order to move around and manage the world around them.

Portal swings are a modern update on a traditional favourite, constructed from galvanised steel. The swings are available in three heights: 2.0m for preschool, 2.5m and 3.0m for school age playgrounds. This highly modular system makes it possible to offer multi-bay swings with as many additional bays as you wish. Each section can be equipped with standard, toddler, cradle, or bird's nest seats. Anti-wrap suspensions are available for both standard and cradle seats.

NEW BIRDS NEST ROPE SEATS

- Improved seat comfort with new rope connectors
- Reinforced seat and swing ropes
- Red, black, or sand coloured cords in seat

NEW BIRDS NEST SHELL SEATS

- Safe, weight reduced seat
- Second to none user comfort
- Integrated handles and drain openings
- Grey, green, dark blue, or lime green colour options

COROCORD CUBE TOWERS

The Corocord Cube Tower stands 6.9m high. The three cubes design features each level rotated around a central axis to create protruding play corners and various view sheds. Climbing is traditionally a favorite activity for children and this design honors that, whilst continuing to push forward with design innovation, provoking unbeatable imaginative play.

Within each of the three cubes, an exciting invitation to climb, explore and socialize awaits all. The ultimate goal being to reach the top.

The Cube Tower design truly makes for one exhilarating viewing platform over the community, allowing the children to generate a sense of ownership and belonging. Corocord designs for the teens and grown-ups too - this means you! You are never too old to play, climb up, and help your child spot their landmarks.

Other features include two slide options from different heights, giving children a chance to grow their confidence over time, double swings, and shade protection.

COROCORD CUBES IN AUSTRALIA

We taylormake our cube structures together with our customers. The Australians have led the way in creativity.

Tucker Family Park, Brentwood Forest

Aura Pedal Park

Denman

OBSTACLE COURSES

We used to run, walk, jump, crawl and climb as a natural activity. In the past it was incorporated in everyday activities, but modern life has changed and much of our time is now spend in front of a screen and makes us static. Obstacle courses take us back to our roots with natural movement for increased health and happiness.

The new modern obstacle course is designed to have fun for people of all ages and abilities. It challenges and develops both mental and physical strength. Scalable difficulty levels make it work for young and old, strong and unfit. One course, one objective, many routes to get there.

The fun element is the motivation, that gets people starting over and over again. Apart from pure sport, playful exercise is rare, but obstacle courses create that element.

Do it together, do it with your children and teach them, that an active lifestyle is a fun lifestyle. In fact, once you introduce them to the courses, the bonus will be for you to keep up!

EASY ACCESS

High structures for upper body exercises are easily accessible for users of all heights. Access pods make it easy to get up and reach the exercise structure.

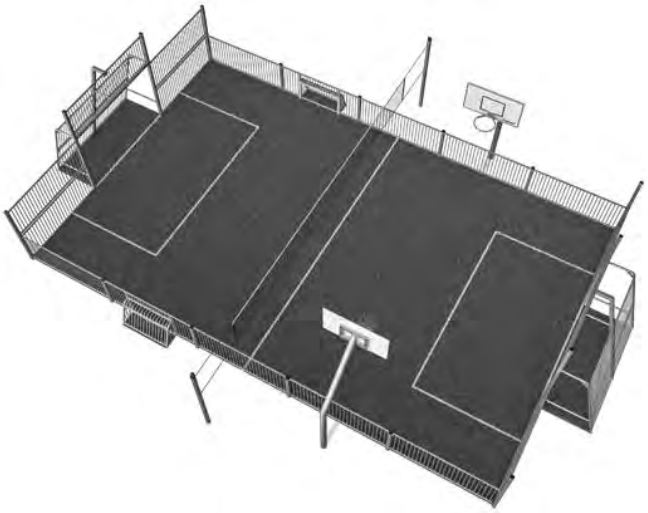
DYNAMIC EXERCISE WITH MULTIPLE DIFFICULTY LEVELS

Obstacles are designed for people of all ages and abilities. Each obstacle has both an easy and hard exercise, so anyone can be challenged.

DURABLE STEEL DESIGN GUARANTEED

The galvanised and powder coated steel construction requires no maintenance and we provide KOMPAN lifetime warranty. The solid structure has made it possible to create new dynamic and challenging obstacles and still maintain a high level of safety.

NEW MULTISPORT



In 2018, KOMPAN introduces a flexible system with high play value for fun sport.

The dream starts in the local park. Practice makes perfect, and maybe someone from your community becomes the next famous ball player.

Ball sports have fascinated many people throughout time, and it still does. Some people follow a sport, and many are also active themselves. With the right area and surrounding, people can have fun and imagine playing at Wembley or Madison Square Garden.

Based on the latest sports development and safety standards, KOMPAN Multisport is designed to make dedicated room for popular sports such as football, basketball, hockey, volley-ball, tennis, badminton, and handball, even when very little space is available.

CONFIGURE YOUR CUSTOM DESIGN

Stand out or blend in with your unique multisport design. The design is based on a flexible system, that fits into any environment and purpose.

The system is supported by a configurator, that quickly configures size, style, play value, choice of materials, and accessibility. In summary, design your own dream stadium.

CROSS SYSTEM

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE

In 2017, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.

As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising, that the Group does not accept any kind of undue payment in any business transaction. In 2017, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and sport & fitness solutions, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened the environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™ certified wood, and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimise the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production facilities are certified and controlled to ensure the highest standards in terms of quality, environment, and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2017 Global Compact communications on progress report available at:
https://www.kompan.com/corporate-responsibility

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 60% of the shares, and KIRK KAPITAL A/S owns 25%, while the remaining 15% of the shares are owned by the Executive Board and 58 other executives in KOMPAN.

The ownership is united by a clearly defined vision to sustain KOMPAN's growth by expanding the boundaries of intelligent play, fitness and learning, by continuously developing and launching new engaging, fun, and unique solutions. KOMPAN's owners are dedicated to being the world's leading social infrastructure company, making society better through commercial play and fitness.

BOARD AND MANAGEMENT

The Board of Directors consists of representatives of the two largest shareholders: Christian Dyvig, Mia Dyvig and Casper Kirk Johansen as well as two employee representatives: Jeanette Fich Jespersen and Otto Mertz.

The Executive Board consists of Chief Executive Officer Connie Astrup-Larsen, Chief Supply Chain Officer Jesper Egelykke Jensen, and Chief Financial Officer Peter Elkjær-Larsen.

Cooperative Marketing: Describe ways in which this business can collaborate with AEPA Member Agencies in marketing the bid. Submit a marketing plan, titled Exhibit B – Marketing Plan, that would entail at a minimum, the following with their response: process on how the contract will be launched to current and potential agencies, the ability to produce and maintain in full color print advertisements in camera-ready electronic format, including company logos and contact information, anticipated contract announcements, planned advertisements, industry periodicals, other direct or, indirect marketing activities promoting the AEPA awarded contract, and how the contract award will be displayed/linked on the Bidder's website.
Click or tap here to enter text.

When this framework agreement is completed, Kompan will announce the partnership via our website and social media channels, as well as purchase advertising in 1-2 emails in 2019 and participate in the Product Expo. We will also create collateral that our sales reps can co-brand with the AEPA logo for in person conversations.

Kompan Website: https://www.kompan.us/play

WARRANTY 2019

KOMPAN's rigorous testing standards ensure long-lasting and durable components and materials, enabling us to provide an excellent warranty package.

Lifetime* Warranty

- Galvanized structural parts:
  - Steel poles
  - Cross beams
  - Floor frames
  - Top brackets
- Stainless steel hardware
- EcoCore ™ and other HDPE panels

10 Year Warranty

- HPL floors and panels
- Galvanized and aluminum metal parts with painted top layer
- Other galvanized metal parts
- Other stainless steel parts
- Corocord rope
- "S" clamps of stainless steel
- Solid plastic parts
- Engineered timber and Robinia wood

5 Year Warranty

- Resin coated plywood plates
- Other painted metal parts
- Springs and ball bearing assemblies
- Other rope and net constructions
- Concrete elements

2 Year Warranty

- Movable plastic and metal parts
- EPDM rubber membranes material
- Electronic components

1. Warranty coverage

This warranty applies to KOMPAN's products for the time periods described for each product type above and with the limitations described in this warranty. The warranty period applies from the date of purchase by the first customer. This warranty covers only defects in materials. KOMPAN's liability under this warranty is limited to repair or replacement of defective products, without charge, at KOMPAN's discretion. Defective electronic components will be delivered and changed by a KOMPAN ICON Professional installer free of charge

2. Limited warranty coverage of labor

In cases where KOMPAN invoices for installation, the labor warranty with respect to failure due to installation defects is limited to 1 year commencing on the date of completed installation.

3. Warranty applies only if products have been properly installed and maintained

The warranty only applies if KOMPAN's products have been installed according to the instructions provided by KOMPAN, and maintained correctly according to the KOMPAN Maintenance Manual. The warranty for ICON electrical components is dependent on those products being installed by an ICON trained and approved installer.

4. No coverage for accidents, wear, tear, cosmetic issues, misuse or vandalism

This warranty does not cover any damage caused by accident, improper care, negligence, and normal wear and tear, surface corrosion on metal parts, discolored surfaces and other cosmetic issues or failures due to misuse or vandalism. Natural changes in wood over time are considered cosmetic issues and are not covered.

5. Products installed near water

Products installed in direct contact with chlorinated water or saltwater (Waterparks), or products installed with occasional contact with such water or installed so close to the shore that they are subjected to salt spray are not covered by the KOMPAN warranty for any defects caused by corrosion.

Products installed in coastal areas, within 200 meters of the shore, will only be covered by the warranty for half the period of the standard product warranty in relation to defects caused by corrosion. KOMPAN’s lifetime warranty if applicable is limited to a 10 year warranty in relation to such products.

** KOMPAN’s LIFETIME warranty is in effect for the lifetime of the product until the product is uninstalled and/or taken out of use.*

In addition, KOMPAN’s general terms & delivery conditions apply and supplement this warranty.

Our unique playground equipment has been enriching children's play for nearly half a century. Why? Because at KOMPAN, we know that a well-designed playground can be both beautiful, fun, and designed to promote child development. Playgrounds can thereby, in an attractive way, significantly improve children's health, learning, and social interaction. In fact, play is nothing short of fundamental to a better life.

We believe that every child's future depends on play driven experiences that help them grow and develop safely, and challenge them to explore the world.

In addition to playgrounds, KOMPAN today is also an innovation leader in outdoor sport and fitness where we apply our experience and insight into making exercise attractive.

Recently, KOMPAN has also developed an indoor furniture and equipment range, based on a beautiful design with a new creative flexible furniture solution.

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2015.

The annual report for KOMPAN Holding A/S for the financial year 2015, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2015 HIGHLIGHTS

In 2015, KOMPAN continued the multi-year strategy of substantial increased investments in product innovation and in expanding our sales and distribution network. As a consequence, the number of employees increased from approx. 800 to approx. 900 and the Group achieved a record level of revenue and order intake. Earnings were, as expected, negatively impacted by the above strategic investments. Growth is expected to continue in 2016.

OPERATIONAL HIGHLIGHTS

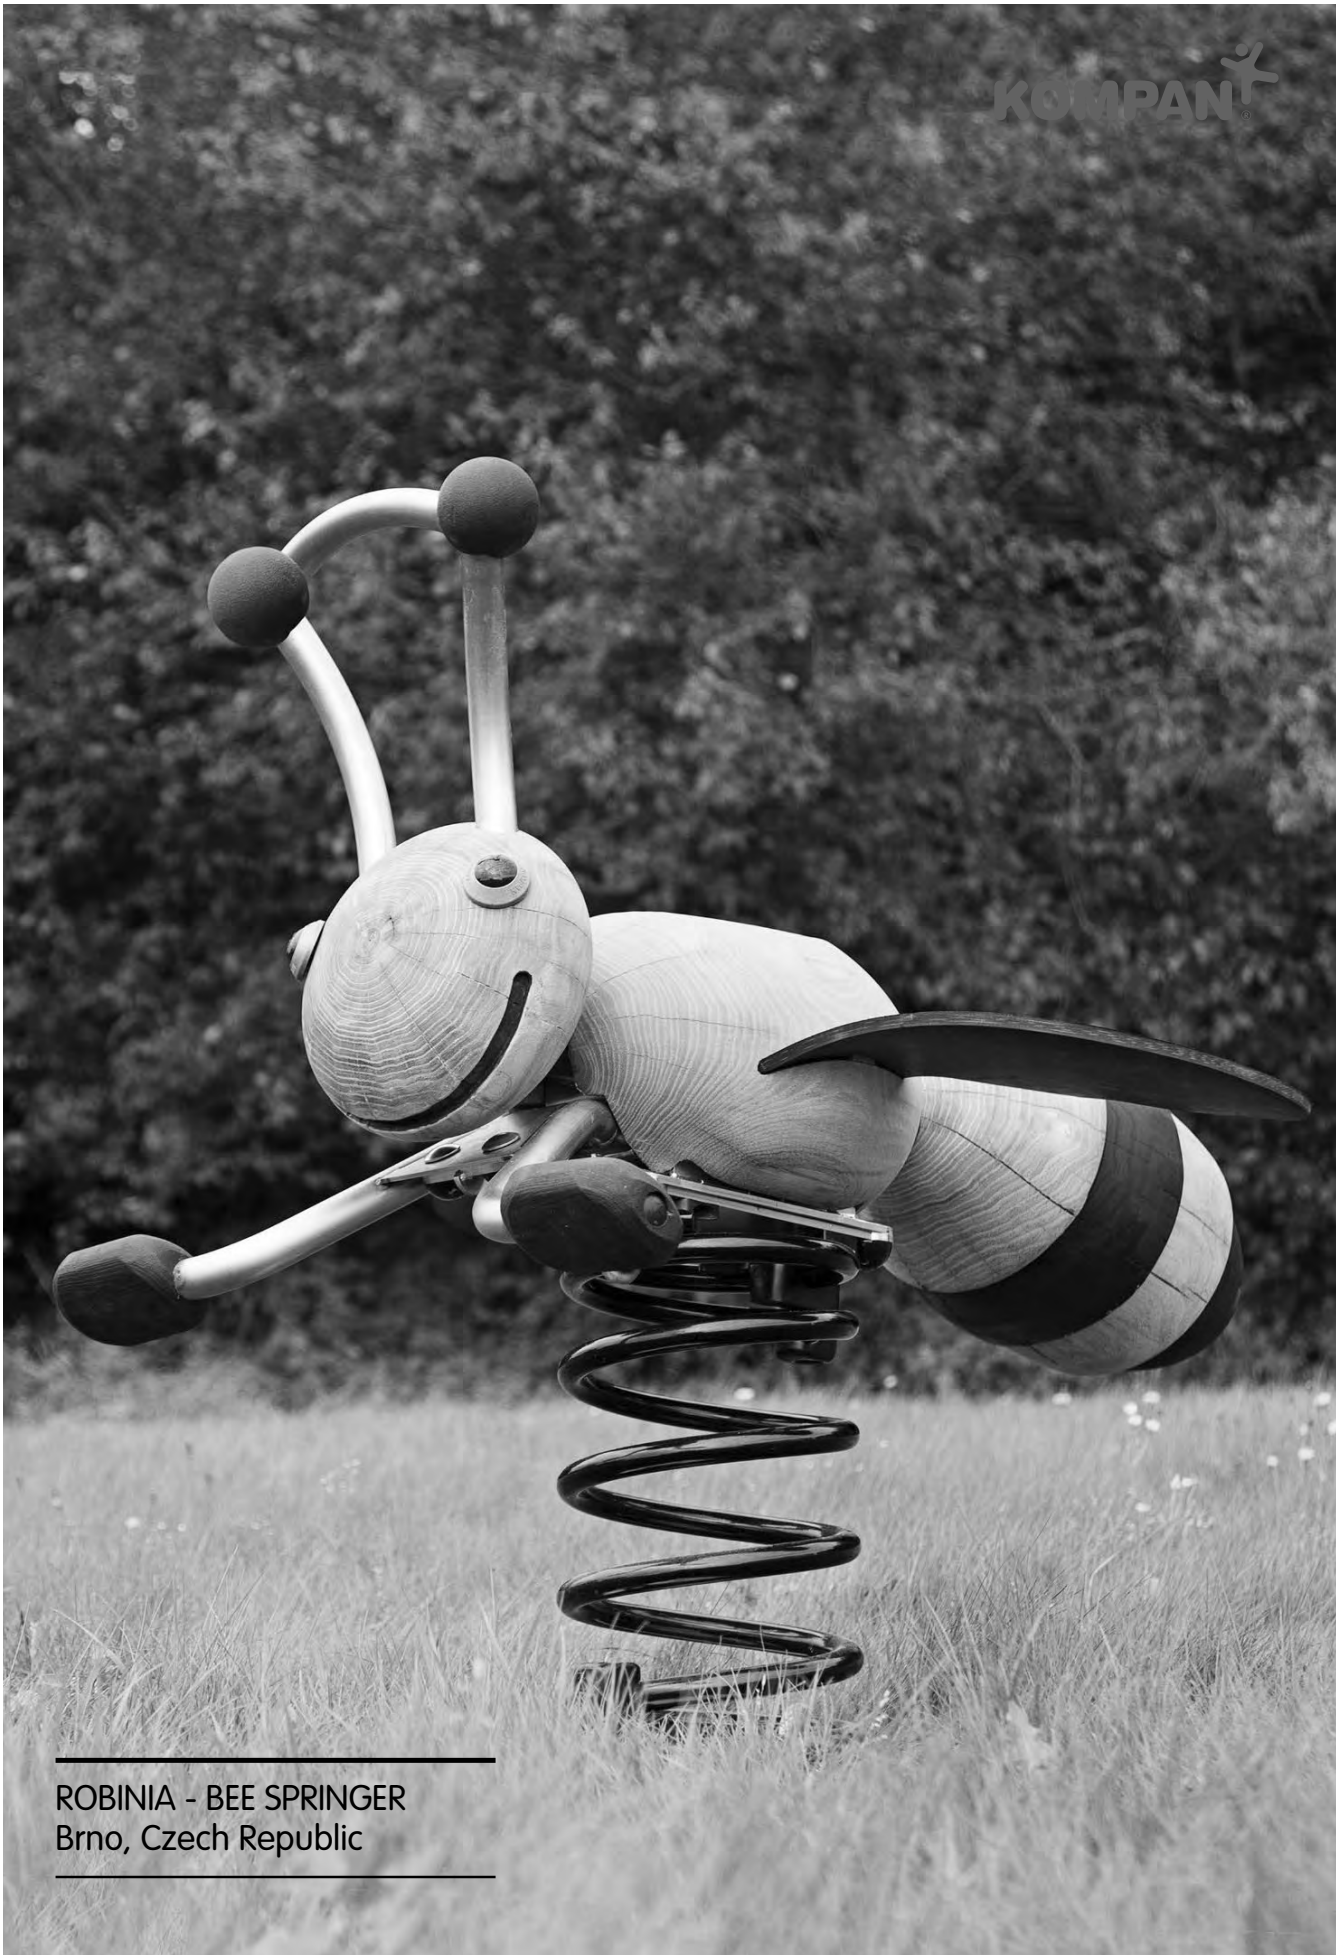
- KOMPAN introduced a new fitness training concept, designed to activate communities. The new holistic and innovative training approach consists of 3 layers:
  1) Aesthetic and cleverly designed next generation fitness products suitable for all ages and abilities,
  2) integrated digital training support and
  3) an onsite trainer program.

- KOMPAN went indoor with focus on quality, design, and a new flexible furnishing concept, based around specially designed indoor solutions, which support children's well-being and motivate them to play and learn. The new award winning concept has been very well received in the markets.

- A new ORGANIC Robinia design was launched - inspired by the organic shapes of nature itself and with all the uniqueness of the winding Robinia tree which has a high content of naturally occuring preservatives, so it does not need to be treated with chemicals for rot, etc. To ensure the best quality throughout the manufactoring process, KOMPAN has built a new world class factory in Brno, the Czech Republic focusing only on the production of ORGANIC Robinia, where we employ quality carpenters and other craftsmen and women.

- In May 2015, KOMPAN Commercial Systems (Belgium) merged with L&Bee (Poland and Belgium), both servicing restaurants and other retail customers. The merger brought together the best of two worlds: a high-performance production site in Poland, and an advanced design studio and customer service department in Liege (Belgium). The combined business furthermore has a highly experienced sales team supported by a dense global network of service teams.

FINANCIAL HIGHLIGHTS



- Revenue grew by 5% to DKK 1,419m, a new record.

- The multiyear strategy of increased investment in our sales and distribution network as well as increased investment in our product development continued, leading to a significant increase in the cost base. EBITA before special items therefore decreased, as expected, from DKK 190m to DKK 127m.

- Cash flow from operating activities was stable and amounted to DKK 129m.

2016 OUTLOOK

- KOMPAN will continue the multiyear strategy of increased investment in our product development and investment in our sales and distribution network. KOMPAN expects topline to continue to grow in 2016 and earnings to be slightly higher than 2015, still impacted by the increased level of investments.

KOMPAN LAUNCHES NEW AND INNOVATIVE ORGANIC ROBINIA

Increased customer demand for natural playground solutions makes KOMPAN build a new factory, dedicated to ORGANIC Robinia

Over the past few years, KOMPAN has seen growing demand and interest in its Robinia products. In response and because only the best is good enough for our customers and users, we have built our new factory exclusively dedicated to products made of Robinia wood.

Our new ORGANIC Robinia designs are inspired by the organic shapes of nature itself and all the uniqueness of the winding Robinia tree. By taking a holistic approach to create the play area, we stimulate children's interest in nature and introduce an understanding of nature into their lives.

KOMPAN Robinia play equipment is the embodiment of our passion for superiority - design, environmental consciouness, quality, and safety.

The new facilities secure that we meet both our own and our customers' high standards. We select the finest Robinia wood and use only the most durable heart wood in our production. And we make sure to live up to the highest safety standards globally.

Having enriched children's play for more than 45 years, we know that real play value matters. Based on knowledge from our KOMPAN Play Institute we make sure children get the most out of their time on our playgrounds, by incorporating age appropriate play and child development into our designs and solutions. All our products bear the fruits of intensive scientific research and knowledge of child development anchored in the internationally recognised KOMPAN Play Institute. What is more and also unique is that our solutions are tested and thoroughly reviewed by age relevant teams of children before they are approved for manufacturing.

The KOMPAN ORGANIC Robinia range can be ordered in FSC™-certified wood. Its aim is to preserve forests through the promotion of responsible forestry. KOMPAN ORGANIC Robinia solutions are available both as untreated wood, brown pigmented (transparent) or with painted parts. The paint we use is an environmental friendly water based acrylic paint that meets European Standard EN71-3 as well as the American CPSIA requirements.

NEW TRAINING CONCEPT DESIGNED TO ACTIVATE COMMUNITIES

PATENT PENDING 15176288.7

KOMPAN has a vision to get an inactive world moving. Through product and concept development, KOMPAN has incorporated what is needed to overcome physical activity barriers, resulting is an intelligent 3 layer training solution

Based on customer and user insights, a deep understanding of global health issues, fitness trends and knowledge from our professionals working with training and physical activity at the KOMPAN Fitness Institute, KOMPAN has developed a new holistic and innovative training approach, consisting of 3 layers:

1) Aesthetic and cleverly designed next generation fitness products and solutions, suitable for all ages and abilities
2) Integrated digital training support
3) Onsite trainer program

The modular and inclusive training solutions are perfect for everyone no matter their fitness level, if the training is performed individually or in a group, with or without guidance.

With the new KOMPAN fitness app the concept provides a location specific training manual, complete with easy instructions, training programs, and nutrition plans to enhance training effects and keep up motivation.

Adding an onsite trainer takes the solution to the next level. The trainer increases the opportunity to encourage less physically active citizens, keeping them motivated and encouraged to be more physically active.

KOMPAN HAS MOVED INDOORS

With a full range of design furniture and equipment for learning and play

KOMPAN has been supplying playgrounds for children all over the world for nearly half a century. Now we are taking a big step and going indoors with a new furnishing concept. The concept is based on our tradition of beautiful design and solutions that support children's well-being and motivate them to learn and play.

FLEXIBLE FURNITURE IS THE FUTURE

The time children spend in the nursery and kindergarten is one of their most important learning periods. Leading experts agree on this. And, at a time when we constantly acquire new knowledge of children's well-being and development, there is no doubt that flexible furnishings and products that are easy to change and adapt to new situations are very important.

At KOMPAN, we have much experience of creating beautifully designed, yet challenging and dynamic settings, because these stimulate children to use their bodies, play, work together and learn new things. In developing the product range, we have utilised our long tradition of working closely together with researchers and carers.

NEW AWARD WINNING AND PATENT PENDING INDOOR CONCEPT - KOMPAN FLEX SYSTEM

OFFERS ENDLESS POSSIBILITIES BY COMBINING VARIOUS MODULES

The FLEX system has been developed to reinforce various skills in children. The flexible modular design means that modules and accessories can change functions in the course of a day. Children and adults can create dynamic environments for themselves, stimulating creativity and imagination and increasing the motivation to build new, exciting, and challenging activity zones.

AGE APPROPRIATE PLAY – TESTED AND APPROVED BY SCHOOL-AGE CHILDREN

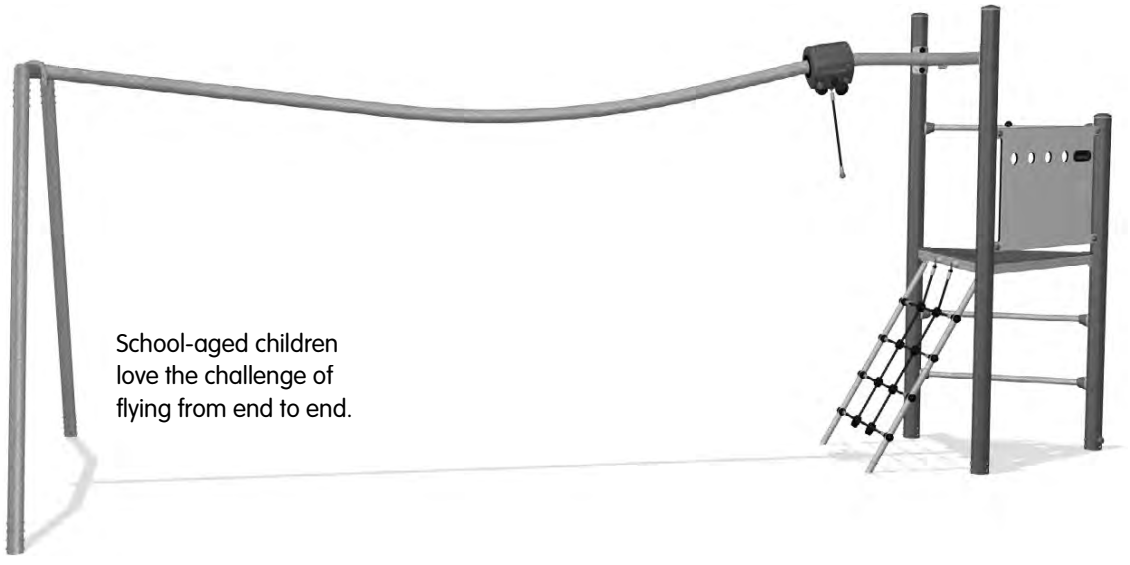
Children's motivation to play is at the heart of KOMPAN's play designs. This is the prerequisite for their physical, social-emotional, cognitive, and creative development

MOMENTS SCHOOL-AGE

To make sure that the play and activity solutions are fun and have physical as well as social holding power the KOMPAN MOMENTS school age designs are tested by children and evaluated by them, their teachers and the KOMPAN Play Institute during the development process.

The decrease in physical fitness and motor skill proficiency impacts children's social capabilities as well as learning capabilities negatively, research shows.

This is why the motivation of active play for school-age children is more important than ever. Apart from being fun, play helps children develop fundamental physical, social, and learning skills.



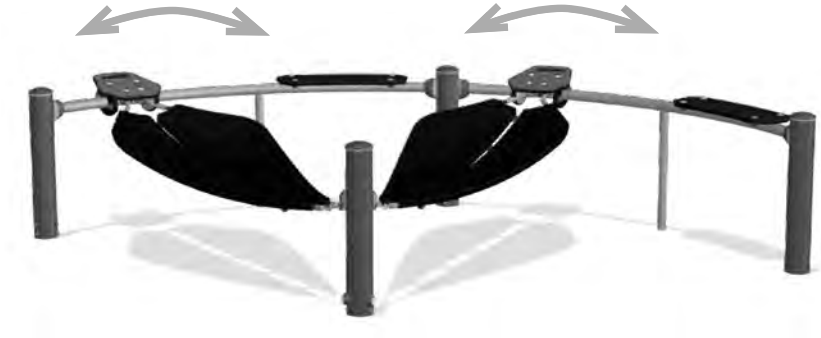
KOMPAN's new school age assortment is designed to provide age appropriate play for school-age children. Numerous physical activities and play panels are created in close cooperation with the KOMPAN Play Institute, verified by user group interaction and incorporated in the new play structures.

The assortment contains a number of products in different sizes including challenging Mega Deck play structures. Some new products are also predesigned to provide accessibility for disabled children so they may participate in play with others on the playground.

All standard products are available in three different color lines, two different post materials, three types of roofs, several slide options, and all possible types of anchoring. Play activities can be selected to match individual preferences. For urban settings, we have designed a special vandalism proof material combination.

NEW ACTIVITIES AND ADD ON FEATURES

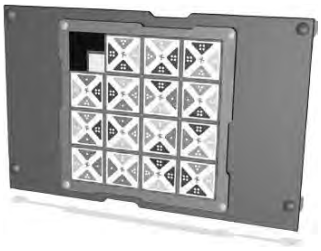
KOMPAN's focus is always to create a challenging and an attractive playground with holding power that ensures children revisit the site frequently. KOMPAN's new School-Age range is good news for a frequently inactive age group.



School-aged children love the challenge of flying from end to end.

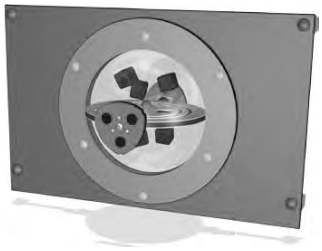
INTEGRATED SHADING

KOMPAN has designed an integrated shading solution that enlarges the covered area considerably. Integrated shades are available for the large square floor size and the Mega Deck platform. The shades are made of polyester and tensioned by adjustable brackets. The polyester shades are quite robust and it is only necessary to take them down if there is heavy wind.



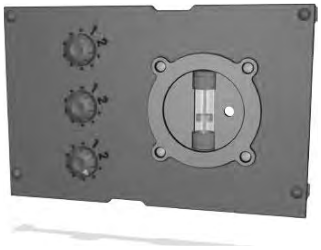
MOVABLE HAMMOCKS

Large two piece moulded PUR hammock that can be moved from side to side by the users.



A fun and changeable meeting and hang out place.

NEW PLAY PANELS FOR YOUNGER SCHOOL-AGE CHILDREN



SLIDE-A-PUZZLE

New domino pattern that ensures hours of focused play.

RANDOMIZER

360° turnable bowl with number dices.

SCORE BOARD + TIME TRACKER

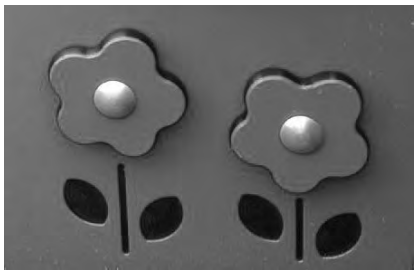
Three turnable score bottoms from 1-10 and time tracker ~ 2 min.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

In 2015, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.



As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising that the Group does not accept any kind of undue payment in any business transaction. In 2015, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and fitness equipment, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened its environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™-certified wood and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimize the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production plants are certified and controlled to ensure the highest standards in terms of quality, environment and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2015 Global Compact communications on progress report available at: www.KompanGroup.com/corporate-responsibility/

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 59% of the shares, KIRK KAPITAL A/S owns 25% of the shares while the remaining 16% of the shares are owned by the Executive Board and 61 other executives in KOMPAN.

INVESTORS	SHAREHOLDING
Christian Dyvig and family	59%
KIRK KAPITAL A/S	25%
Executive Board and other executives in KOMPAN (64 shareholders)	16%

At 31 December 2015

The ownership is united by a clearly defined vision to sustain KOMPAN's growth by expanding the boundaries of intelligent play, fitness, and learning, by continuously developing and launching new beautifully designed innovative products.

BOARD AND MANAGEMENT

The Board of Directors consists of representatives of the two largest shareholders: Christian Dyvig, Mia Dyvig and Casper Kirk Johansen as well as two employee representatives: Jeanette Fich Jespersen and Mads Dreyer.

The Executive Board consists of Chief Executive Officer Connie Astrup-Larsen, Chief Supply Chain Officer Jesper Egelykke Jensen, and Chief Financial Officer Peter Elkjær-Larsen.

Every year 150 million people play and exercise at a KOMPAN playground or sportsground. Our unique concept of playing, learning and engaging communities to be physically active are the cornerstone of our philosophy.

For the last four decades, we have played a dominant role and co-created solutions with architects, city leaders, educators, housing associations and the leisure industry. We are present in more than 40 countries and the 1,100 people at KOMPAN are committed to innovate engaging, fun and uniquely designed play and exercise solutions that make people at all ages and abilities want to play, learn and connect.

We continue to claim the position as the world's leading brand in playground and sportsground solutions.

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2016.

The annual report for KOMPAN Holding A/S for the financial year 2016, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2016 HIGHLIGHTS

In 2016, KOMPAN continued the multi-year strategy of substantial investments in product innovation and in expanding our sales and distribution network. The Group achieved a record level of revenue and order intake and increased the number of average full time employees by 15% to now more than 1,000 employees. Earnings are still impacted by the substantial expansion, and KOMPAN expects to continue its above growth in 2017.

OPERATIONAL HIGHLIGHTS

- KOMPAN introduced the Mini series of play structures that are age-appropriate for toddlers and pre-schoolers, that afford maximum play value and that have an inclusive design. The Mini assortment is a result of collaboration between designers, researchers and safety specialists and is an example of our market-leading innovation and design.
- KOMPAN continues the innovative organic Robinia journey launching new amazing Castles and Ships, taking our portfolio of ORGANIC ROBINIA to a new level.
- KOMPAN Sport & Fitness added Street Workout providing new and relevant training solutions for all ages. Our vision with getting an inactive world moving has not changed – and launching our Street Workout states that we will continue.
- KOMPAN launched SIMPLY Play - a new design with fun activities for the midmarket. SIMPLY Play covers basic individual structures and larger play structures. Sometimes all you need is a playground that children will just enjoy. KOMPAN's extensive knowledge within play is used to make SIMPLY Play a flexible and solid choice which is unbeatable value for money.
- In October, KOMPAN acquired the service company Repcon B.V. including its subsidiary Repcon GmbH. The acquisition allows us to take a step closer to our customers providing full service solutions.

FINANCIAL HIGHLIGHTS

- Revenue grew by 6.0% to a new record of DKK 1.504m.
- EBITA before special items increased from DKK 127m to DKK 137m. Earnings were, as expected, still impacted by investments in product development and investments in our sales and distribution network.
- Cash flow from operations was stable and amounted to DKK 125.9m.

2017 OUTLOOK

- KOMPAN will continue the multi-year strategy of increased investments in product innovation and investments in our sales and distribution network. KOMPAN expects topline growth to continue in 2017 and earnings to increase, although still impacted by the level of investments.

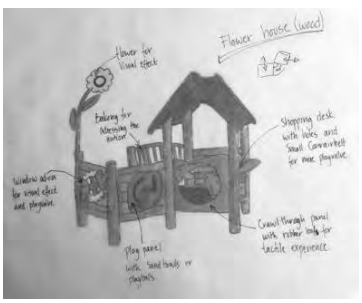
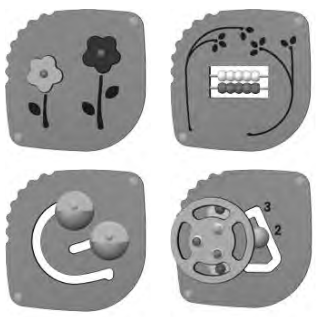
MOMENTS MINI



At KOMPAN, the process of designing new playground equipment is a long journey characterised by innovation, research and testing and the Mini assortment is an example of our market-leading innovation and design.



Through this process, designs are refined and fine-tuned until they offer children maximum play and developmental value. The new MOMENTS Mini line is a perfect example of this working process. From start to finish, KOMPAN's designers, researchers and safety specialists collaborated to create a series of play structures that are age-appropriate for toddlers and pre-schoolers, that afford maximum play value and have an inclusive design.

MAXIMUM PLAY VALUE FOR 1-6 YEAR-OLDS
Children develop at an extraordinary rate during the first years of life, and play is an essential part of this process. When children are born, their brains weigh only 25% of their adult weight. During the first years of life, the brain grows quickly and undergoes a "wiring" process. The development of motor skills, sensory skills, thinking skills – even empathy – are dependent on how well the brain develops in early childhood. Play is the motor of development.

The KOMPAN Play Institute documented the developmental value of the MOMENTS Mini line in a study that compared toddler and preschoolers' play on a Mini play structure to play on a grassy field. Three main findings emerged from the research:

1. The play structure promoted more dramatic play – a more complex form of play
2. The play structure facilitated higher and more complex language use during play
3. Lesser developed children benefited highly from playing on the structure

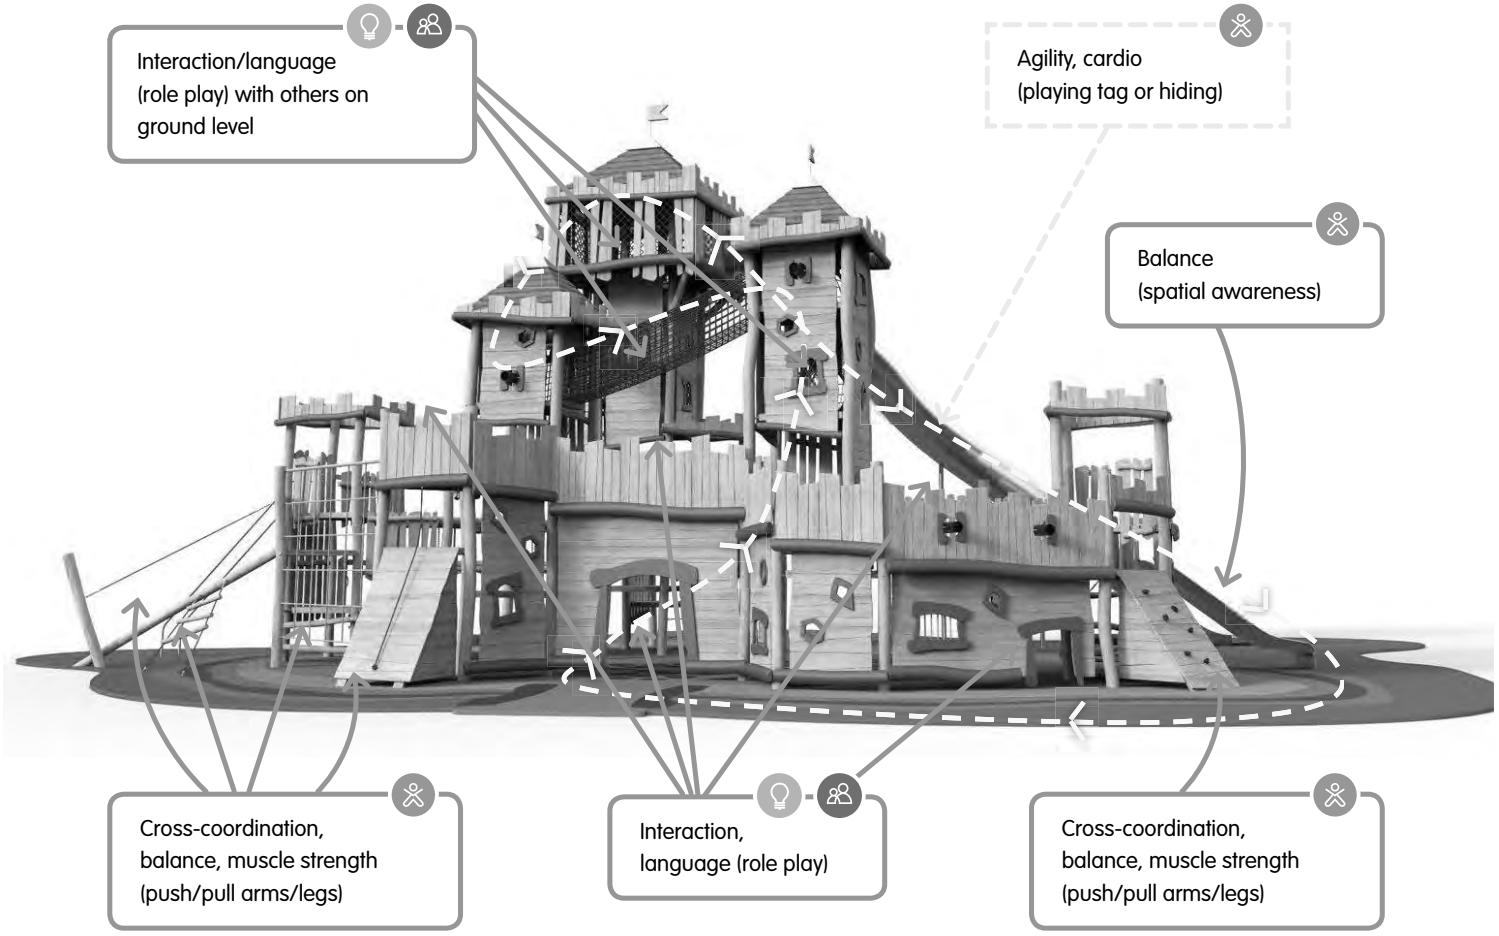
Thus, the MOMENTS Mini line offers the opportunity to invest in children's futures with world-class playground equipment that provides maximum play value.

A PERFECT SOLUTION FOR DEVELOPING TODDLER AND PRESCHOOL CHILDREN
Completely customizable & market leading quality, MOMENTS Mini brings customisation to a new level. The customer is able to choose between a number of options including slides, play panels, post material and more – getting the play structure that perfectly fits the user's needs.

KOMPAN CONTINUES THE INNOVATIVE ORGANIC ROBINIA JOURNEY

Launching new amazing castles and ships our portfolio of ORGANIC Robinia is taken to a new level.

Our new ORGANIC Robinia designs are inspired by the organic shapes of nature itself and all the uniqueness of the winding Robinia tree. By taking a holistic approach to create the play area, we stimulate children's interest in nature and introduce an understanding of nature into their lives. KOMPAN Robinia play equipment is the embodiment of our passion for superiority - design, environmental consciousness, quality and safety.



CONCEPT & DESIGN IDEA

Design scope was to create visually impressive and beautiful castles made from natural organic materials, that have not been treated with chemicals. Importantly for KOMPAN, the castles are also designed with play value in focus, so that the castles support age appropriate activities and development. This in order to secure that children of all ages stay engaged and fully utilise the many features within the castles for long periods of time, beyond simply being taken in by the initial wow effect.

From the outside, the castle looks massive with lots of access points. The backside is open and transparent to see the play taking place. From the first upper level, there are numerous exits down or more ways to continue the climb to the higher levels. The tall towers are interconnected by fully closed net bridges or curved 180° steel tube meshes. The reward for making it to the enlarged top princess chamber is a spectacular view and the opportunity to take a fantastic ride down the enormous multiple curved tubular slide.

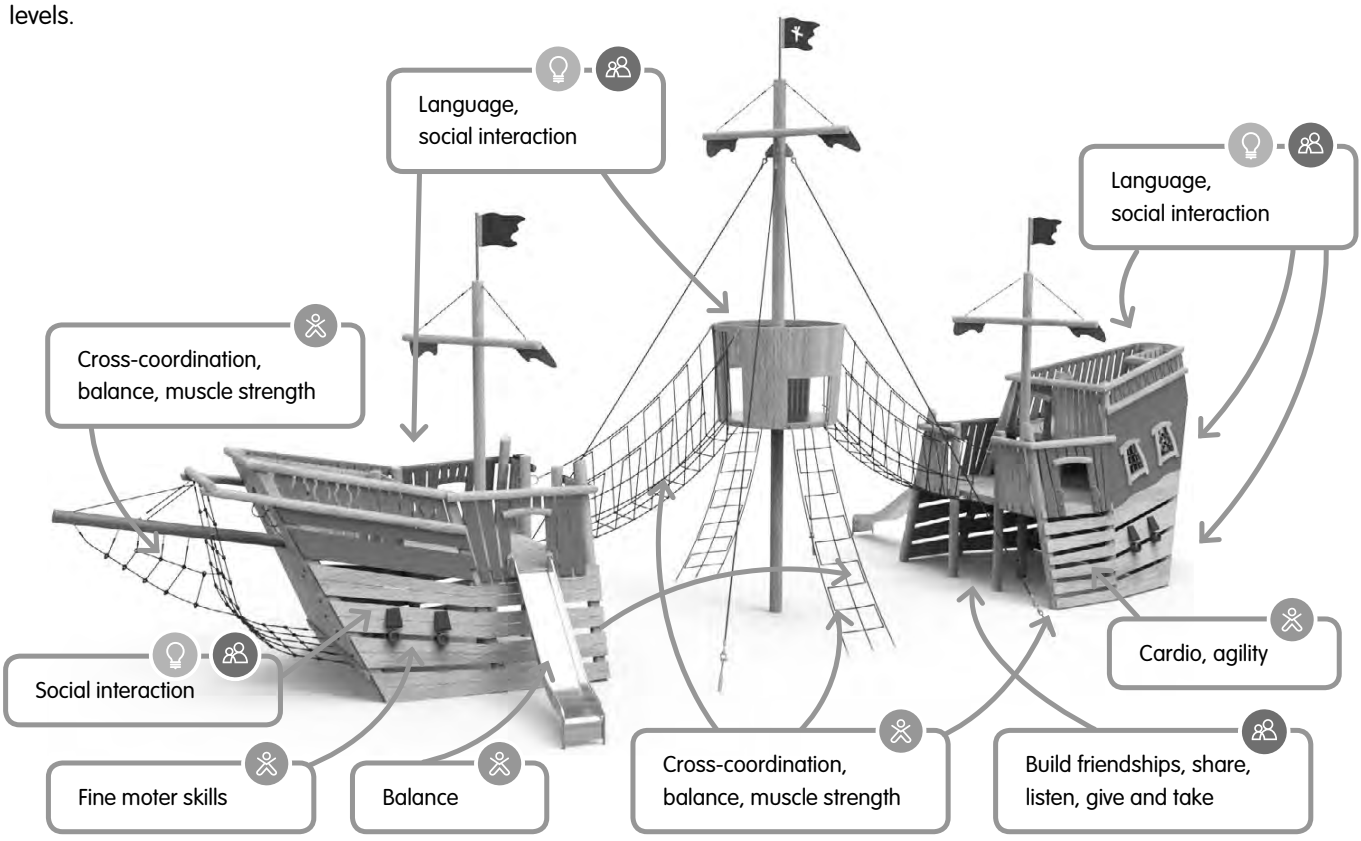
The Robinia castles will give any park a regal touch: the castles are architecture for the play princes and princesses – and possibly even some kings and queens. With their scale, the Robinia Castles allow for a wide range of ages playing together and inviting the whole family for a royal play day.

PLAY INSTITUTE INSIGHT

AGE APPROPRIATE PLAY

The Castle concept is designed for children from 4 up to 15 years.

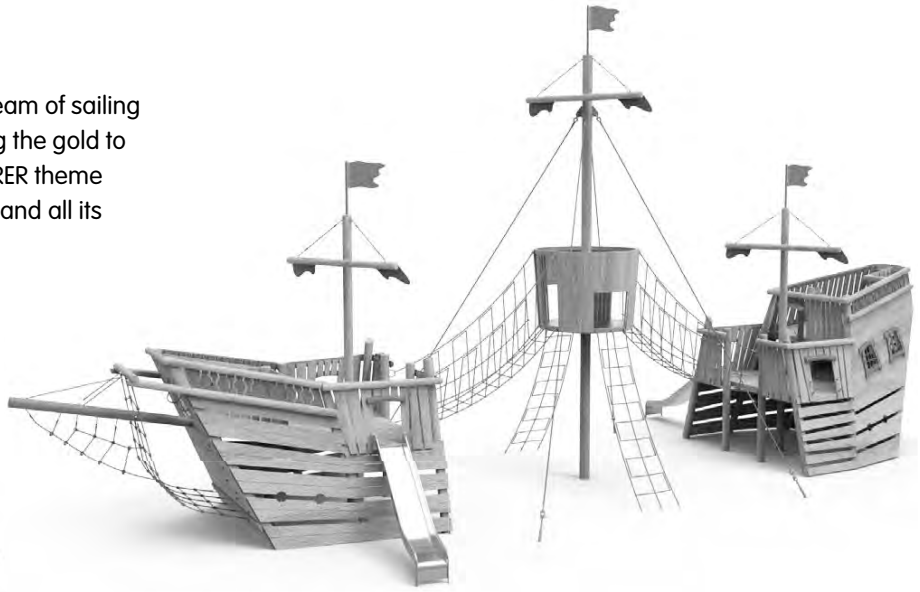
CASTLE, medium



TALL CASTLE, small

THE KOMPAN ARMADA

The fleet is designed to give the children sense of wonder while playing with and within the ship. The rooms below the decks have multiple access and exits, which boost the play experience. The new ships are designed with age appropriate challenging activities that support all competences of play. The ships can be designed with build-in sand play features and/or balancing extensions out from the ship core. The ships can also be designed as inclusive with access to the upper deck levels.



In front of the ship – climbing challenge

Inside the ship – small benches and tables

The PIRATE theme is about the dream of sailing out to treasure islands and finding the gold to live happily ever after. The EXPLORER theme enables the kids to see the world and all its beauty.

The Robinia ships make a fleet of unbeatable imaginative play motivators. From the small chalup boat to the huge schooner, these ships were crafted for play sailors with an imagination to take them anywhere.

THE COROCORD DOME ASSORTMENT GETS A NEW FAMILY MEMBER – OCEAN DOME

Dive freely into a new adventure world. An underwater world formed by rope structures in deep ocean blue and colourful membranes. Discover this world like a fish and pass the existing coral reefs, seaweed and starfish on your way to the surface and towards the horizon on top of the wave. Various imaginative stories and adventures are waiting to be explored by playing in and on the Ocean Dome. Let your imagination run wild!

The framed 3D net construction offers compact bouncy climbing for many users balancing and working their way to the top and down, around and through the meshwork of the net. Balancing trains the vestibular system and improves the sense of balance and motor stability of the child. Children can play for hours climbing or hang out in this thematic net structure. Climbing develops cross-body coordination, hand/eye coordination, agility and spatial awareness, and provides the children with leveled play challenges. The vertical climb takes you to the curly climber, and the rubber mats offer a bouncy, trampoline like break on the way up or down.

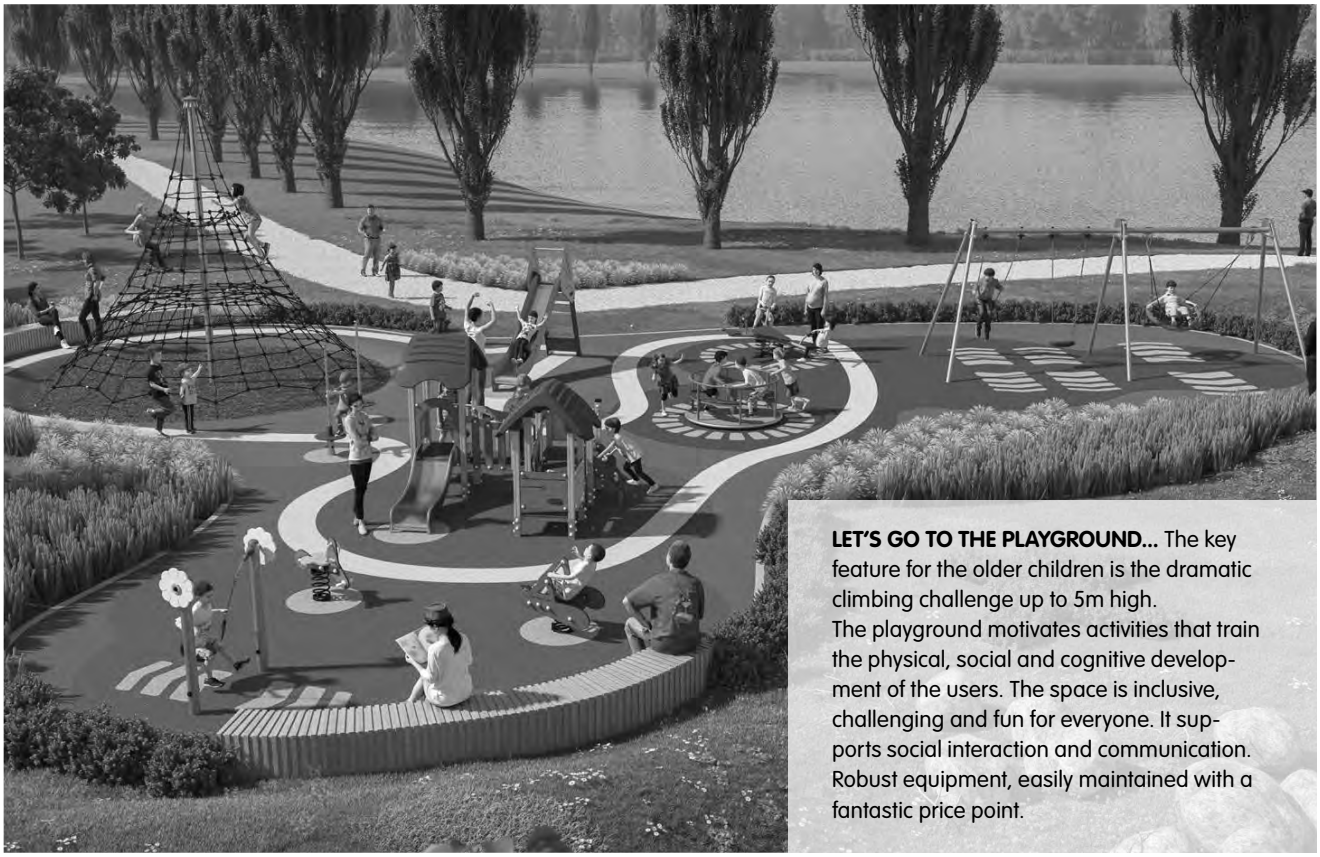
Products installed in foreshore areas are subject to constant extreme corrosive atmosphere. Ocean Dome is therefore also avaiable in a blue painted version, special designed for installation in foreshore areas.

"The system can be used by anyone. This includes children, the disabled and the elderly. It is simple, straightforward, and is freely available. At the same time, it is located in an area where many people do not traditionally work out. So the whole idea is to try to get more people to exercise." ***Carl Christian Ebbesen, Mayor of Culture and Leisure in Copenhagen***

KOMPAN SPORT & FITNESS NOW ADDS STREET WORKOUT

– providing new and relevant training solutions for all ages. Our vision to get an inactive world moving has not changed – and launching our Street Workout is another step in this development.

STREET WORKOUT



A physical activity that symbolises freedom of movement and encourages socialising. It is a combination of athletics, calisthenics and other sports, and is mostly performed in public spaces. The assortment is of course available as individual products, but we have also developed total solutions based on insight and knowledge from our KOMPAN Sport & Fitness institute.

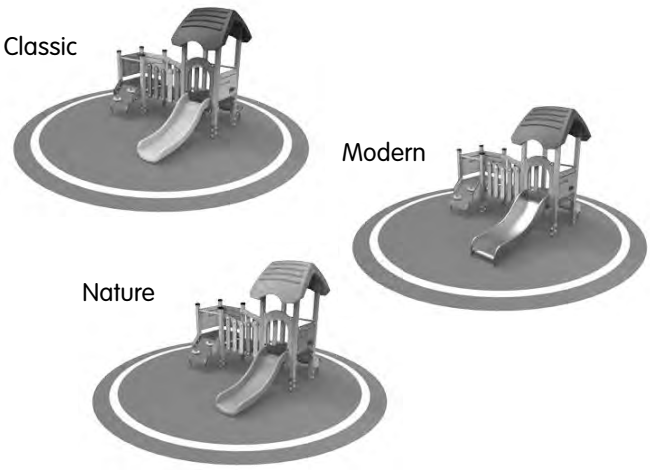
FUNCTIONAL TRAINING

Functional training originates from physiotherapy and is based on the philosophy, that the human body is built to move. That is why functional training is designed to improve natural movement patterns, that you already do or may need in your daily life - like running, lifting or jumping. The training usually takes place outdoors and is based on the classic exercises, which include squats and is done with or without paraphernalia as kettlebells, ropes and medicine balls.

FUNKTIONAL TRAINING app

- KOMPAN Outdoor Fitness Concept is functional and beneficial training for all – beginners to advanced – men and women.
- The characteristic is an iconic and beautiful design using only high-end materials ensuring popular fitness stations, made from long life materials.
- KOMPAN Fitness App. for smartphones, which guides, inspires and motivates, has been developed to also cover our new Street Workout.
- Find exercise for a specific site in the App with map function.

LET'S GO TO THE PLAYGROUND... The key feature for the older children is the dramatic climbing challenge up to 5m high.
The playground motivates activities that train the physical, social and cognitive development of the users. The space is inclusive, challenging and fun for everyone. It supports social interaction and communication. Robust equipment, easily maintained with a fantastic price point.

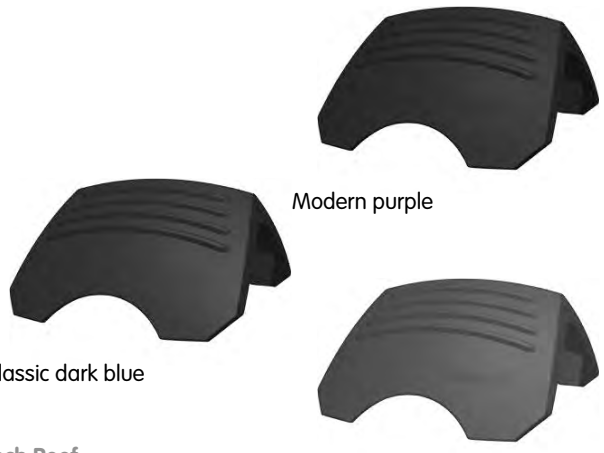


SIMPLY PLAY

New design with fun activities for the midmarket - combine the products to suit you.

SIMPLY Play covers basic individual structures and larger play structures. Sometimes all you need is a playground, that children will just enjoy. KOMPAN's extensive knowledge within play is used to make SIMPLY Play a flexible and solid choice.

The products are suitable for both younger and older children. All structures can be customised to match individual preferences. The combination of colour is predefined in classic, nature and modern. EcoTech roofs can be added or removed on all towers. Slide colours are predefined for the colour lines. All panels are made of recycled EcoCore™ HDPE.



WHEN I GROW UP! The play structure and swing assist in developing motor skills that lay the fundamentals for learning. The police car encourages role play and storytelling. Play value covers the physical, social-emotional and cognitive areas. An inclusive space with varied play opportunities for all children.

ECOTECH ROOF DESIGN

New design with fun activities for the midmarket - combine the products to suit you.

SIMPLY Play roofs are based on revised technology in roto-moulding and recycled EcoCore™ raw materials, that are 100% recyclable also after use. The uniquely designed curved geometry, reinforced by visual shapes and a scratch-resistant grained texture, results in high strength and durable roofs.

- ✓ **Visual impressive design**
- ✓ **Durable all-weather material**
- ✓ **Scratch resistant texture**
- ✓ **Low maintenance**
- ✓ **One piece**

EcoTech Roof
100% recyclable

SIMPLY Play material

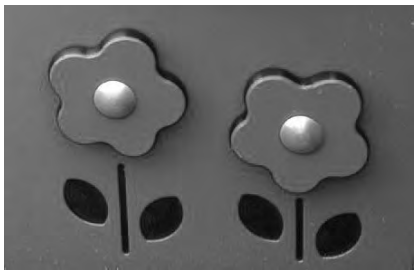
All products within SIMPLY Play are material optimised with simple, durable technical solutions that are easy to assemble and install. To provide best value prices, we pre-package the products at our production facility for efficient shipment.

ENVIRONMENTAL, SOCIAL AND GOVERNANCE

In 2016, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.



As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising that the Group does not accept any kind of undue payment in any business transaction. In 2016, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and fitness equipment, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened the environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™-certified wood and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimise the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production plants are certified and controlled to ensure the highest standards in terms of quality, environment and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2016 Global Compact communications on progress report available at: www.KompanGroup.com/corporate-responsibility/

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 59% of the shares, KIRK KAPITAL A/S owns 25% of the shares while the remaining 16% of the shares are owned by the Executive Board and 61 other executives in KOMPAN.

INVESTORS	SHAREHOLDING
Christian Dyvig and family	59%
KIRK KAPITAL A/S	25%
Executive Board and other executives in KOMPAN (64 shareholders)	16%

At 31 December 2016

The ownership is united by a clearly defined vision to sustain KOMPAN's growth by expanding the boundaries of intelligent play, fitness and learning, by continuously developing and launching new engaging, fun and unique solutions.

BOARD AND MANAGEMENT

The Board of Directors consists of representatives of the two largest shareholders: Christian Dyvig, Mia Dyvig and Casper Kirk Johansen as well as two employee representatives: Jeanette Fich Jespersen and Otto Mertz.

The Executive Board consists of Chief Executive Officer Connie Astrup-Larsen, Chief Supply Chain Officer Jesper Egelykke Jensen, Chief Financial Officer Peter Elkjær-Larsen, and Chief Marketing Officer Rene Tristan Lydiksen.

2. DEPRECIATION, AMORTISATION AND IMPAIRMENT LOSSES		
Intangible assets	31.4	32.7
Property, plant and equipment	13.5	10.8
Gain/loss on the disposal of non-current assets	-0.7	-0.8
	44.2	**42.7**
Recognised in the income statement as follows:		
Production costs, development costs and distribution costs	14.6	12.4
Administrative expenses	8.7	9.2
Amortisation of acquired trademarks	20.9	21.1
	44.2	**42.7**

3. RESTRUCTURING COSTS, ETC.		
Relocation of production, restructuring of business and severance pay to released employees in connection herewith	6.7	11.0
Adjustment of conditional acquisition price payable in respect of previous years' acquisitions	0.0	0.7
Transaction costs relating from business combinations	0.3	2.2
	7.0	**13.9**

	2016	2015

4. TAX ON PROFIT FOR THE YEAR & DEFERRED TAX

TAX ON PROFIT FOR THE YEAR

Specified as follows:		
Tax on profit for the year	8.9	15.3
Adjustment of deferred tax	11.8	4.0
Effect of change in tax rate	0.0	0.1
Adjustment of current tax in respect of previous years	1.2	-2.2
	21.9	**17.2**
Effective tax rate before non-taxable transaction costs	**27.4%**	**34.2%**
Effective tax rate	**27.6%**	**31.5%**

DEFERRED TAX

Deferred tax at 1 January	57.4	53.7
Deferred tax in connection with purchase price allocation	0.0	0.0
Foreign exchange adjustment	-0.5	0.4
Adjustments for the year, profit & loss and equity	11.7	3.5
Effect of change in tax rate	0.0	-0.2
Deferred tax at 31 December	**68.6**	**57.4**

Deferred tax is specified in main items as follows:		
Intangible assets	48.4	46.2
Property, plant and equipment	5.9	-1.6
Receivables	-0.9	-0.2
Inventories	-1.4	-2.2
Provisions	21.5	16.8
Other liabilities	0.7	4.6
Tax losses	-5.6	-6.2
	68.6	**57.4**

Deferred tax assets not recognised in the statement of financial position:

Tax value, tax losses	41.6	41.1

The value is not recognised in the statement of financial position, as the utilisation thereof is subject to a significant degree of uncertainty. There are no deferred tax liabilities that have not been recognised in the financial statements.

5. CONTINGENT LIABILITIES, GUARANTEES AND OTHER FINANCIAL LIABILITIES

DKK 18.3 million has been provided as collateral secured upon land and buildings with a carrying amount of DKK 46.2 million and DKK 7.4 million in receiveables and other assets with a carrying amount of DKK 7.4 million.

In addition, third-party guarantees have been provided by the Group's companies in the amount of DKK 15.3 million.

KOMPAN Holding A/S and its subsidiaries are parties to a few pending lawsuits. The outcome of these cases is not expected to materially effect the financial position of the Group, neither individually nor in the aggregate.

Play is instinctively human. When we are children, play is how we have fun, learn, socialise, and are physically active. As we get older, it's really the same - play is key to a long and happy life. Through our inventions, we have set new global standards for ways to play, seeking to create the world's best playground and sport & fitness solutions.

We do this because we have a passion to create healthier and happier communities by inspiring people across the world to play more. We do it the KOMPAN way, where product development is based on thorough research, extensive user involvement, and close collaboration with experts through the KOMPAN Play Institute and KOMPAN Sport & Fitness Institute. We then tailor the right solutions to the specific user and customer requirements. This creates products that motivate people of all ages and abilities to play more, be more physically active, and learn and socialise more - while always having fun.

We never compromise on safety and our choice of the highest quality materials creates extremely durable solutions that stand the test of time and weather. We are also conscious that our designs should be beautiful - both in their own right and as a contribution to their architectural and natural surroundings.

Today, digital technologies change the way we live our lives. This includes why, how, and where we play and are physically active as individuals, families, and communities. We take responsibility for driving this change, as we have historically - to continuously lead the industry and reinvent play for everyone's benefit.
Let's play!

DISCLAIMER

For the sake of clarity and user friendliness, KOMPAN has published this Annual Review with highlights from the calendar year 2017.

The annual report for KOMPAN Holding A/S for the financial year 2017, pursuant to section 149 of the Danish Financial Statements Act, is available at The Danish Business Authority.

2017 HIGHLIGHTS

In 2017, KOMPAN continued the multi-year strategy of substantial investments in product innovation and in expanding our sales and distribution network, that started in 2015. The Group delivered a record level of revenue and grew by 11 percent. Earnings are still impacted by the substantial expansion, and KOMPAN expects to continue the investments and growth in 2018.

OPERATIONAL HIGHLIGHTS

- KOMPAN introduced Cube Towers pushing forward with design innovation and provoking unbeatable imaginative play. Climbing is traditionally a favorite activity amongst children, and this new design honours that.
- KOMPAN presented new pirate ships and castles built on a rock solid structure, maintenance free and made from recycled and recyclable materials. KOMPAN castles and ships are equipped with a host of adventurous activities, that can accommodate every site and age range and provide countless hours of fairy tales and adventures.
- KOMPAN Sport & Fitness added the Obstacle Course, that takes us back to our roots with natural movement for increased health and happiness. Launching our Obstacle Course confirms our vision of getting an inactive world moving.
- KOMPAN continues to expand our portfolio of Organic Robinia hard wood equipment with the uniqueness of our classic and modern playgrounds.
- KOMPAN successfully consolidated the production in Sweden into the main production facility in the Czech Republic.

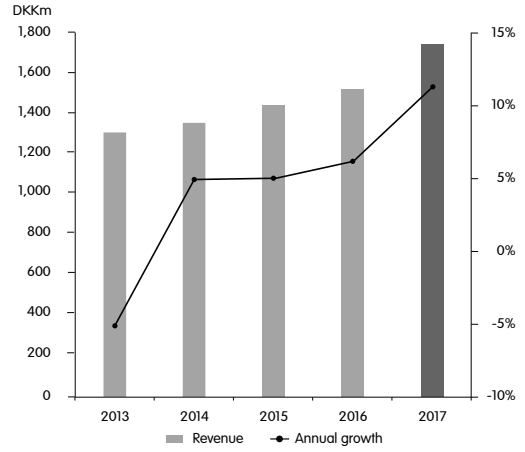
FINANCIAL HIGHLIGHTS

- Revenue grew by 11.0% to a new record of DKK 1,670m.
- EBITDA excluding items affecting comparability increased from DKK 161m to DKK 178m. Earnings were still impacted by investments in product development and investments in our sales and distribution network, as expected.
- Cash flow from operations grew and increased from DKK 126m to DKK 158m. The increase in cash flow was driven by higher earnings and net working capital improvements.

2018 OUTLOOK

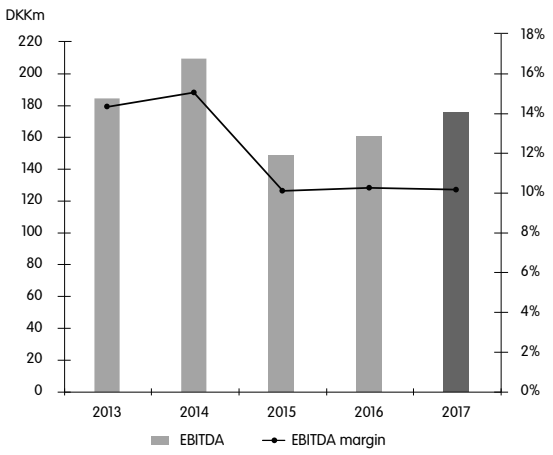
- KOMPAN will continue the multi-year strategy of increased investments in product innovation and investments in our sales and distribution network. KOMPAN expects topline growth to continue in 2018 and earnings to increase, although still impacted by the high level of investments.

KEY FIGURES AND FINANCIAL RATIOS FOR THE GROUP



DKK million	2013	2014	2015	2016	2017
Income statement					
Revenue	1,293.1	1,354.4	1,418.6	1,504.4	1,670.2
EBITDA[1)]	**185.0**	**209.6**	**148.1**	**160.8**	**177.5**
Normalised profit for the year[2)]	**113.2**	**104.5**	**56.9**	**67.4**	**81.5**
Restructuring costs etc.[3)]	-9.2	-17.9	-13.9	-7.0	-38.6
Profit for the year	87.8	82.0	33.0	57.9	24.3
Balance sheet items					
Total assets	1,381.3	1,885.7	1,939.2	1,949.8	1,904.0
Equity	735.7	454.5	515.3	636.9	630.9
Financial ratios					
EBITDA[1)] margin	14.3%	15.5%	10.4%	10.7%	10.6%
Normalised return on equity	16.1%	17.6%	11.7%	11.7%	12.9%
Average number of employees	748	780	892	1,026	1,140

1) EBITDA is presented before restructuring costs, etc. and other operating income.



2) Calculated as normalised profit for the year adjusted for foreign currency adjustments, amortisation of acquired intangible assets, restructuring costs, etc., and other operating income.

3) Restructuring costs etc. relates to items which by their nature are not considered part of ordinary activities, such as costs associated with relocation of production units, restructuring of businesses, transaction costs associated with acquisitions of businesses etc.

Revenue and Annual Growth

EBITDA [1)] and Margin

ROBINIA SHIPS AND CASTLES

The organic Robinia ships make a fleet of unbeatable imaginative play motivators. From the yoal to the huge schooner, these ships were crafted for play sailors with an imagination to take them anywhere.

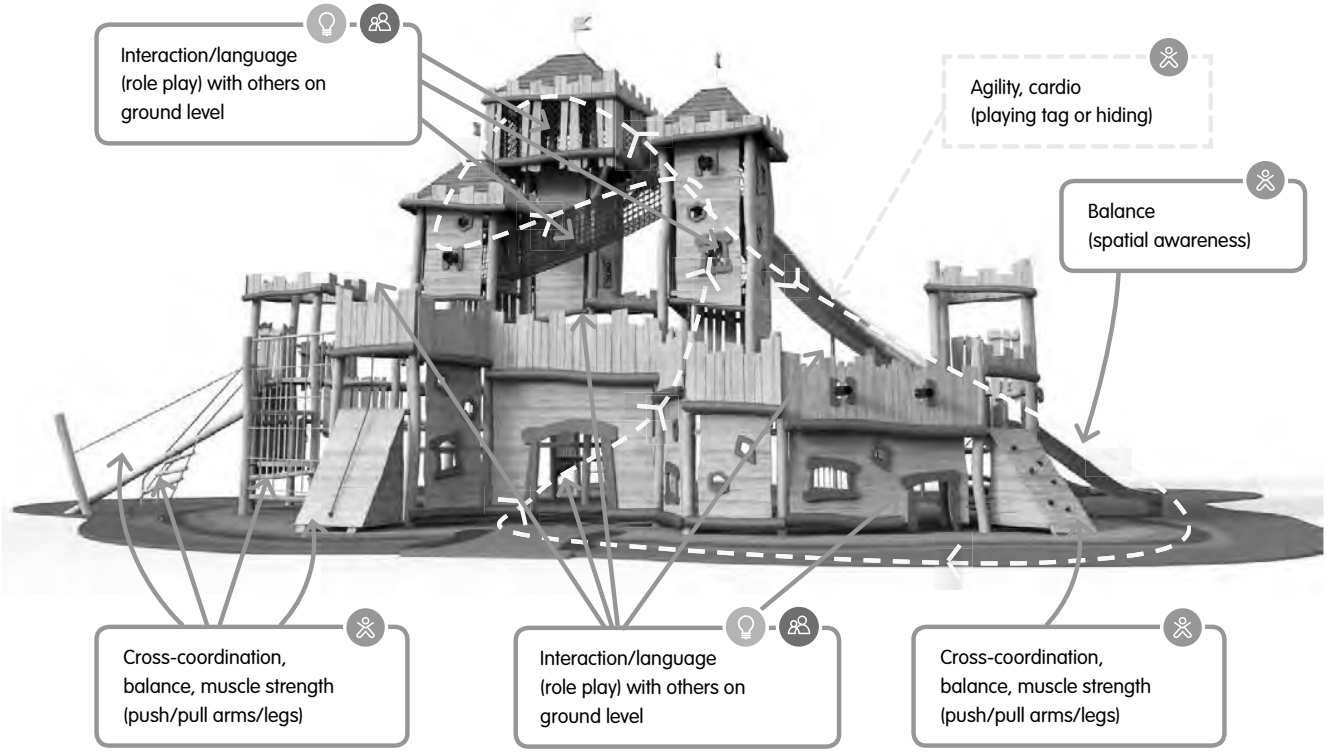
KOMPAN reinvents nature play with market leading play capacity.

KOMPAN has focused on getting play back to nature with the launch of Organic Robinia hard wood equipment. In doing so, we have brought the uniqueness of our classic and modern playgrounds into these designs.

The KOMPAN Organic Robinia designs thus provide market leading Stay and Develop factors, where users improve their language skills and logical thinking. Our challenging track ride, for instance, develops muscle strength and collaborative interpersonal skills with lots of fun. In addition, our Organic Robinia design has built-in unique sensory play - take the desk and crane, for example.

Our design sets new standards for the use of Robinia, as it is modular, providing endless ways of combining towers, slides and swings, to mention just a few options. This gives us a cost-effective way of tailoring solutions to our customers.

The environmentally friendly Robinia wood has a high content of naturally occurring preservatives. That is why it does not need to be treated with chemicals for rot, while having an extreme resistance to splintering, humidity damage, and water penetration.



PLAY INSTITUTE INSIGHT

The organic Robinia castle concept is designed for children from 4 all the way up to 15 years with age appropiate play across all ages.

PHYSICAL
Joy of movement: motor skills, muscle, cardio, and bone density

COGNITIVE
Joy of learning: curiosity, understanding of causal relationships, and knowledge of the world

SOCIAL/EMOTIONAL
Joy of being together: teamwork, tolerance, and sense of belonging

MOMENTS™ MINI

At KOMPAN, the process of designing new playground equipment is a long journey characterised by innovation, research and testing. The Mini assortment is an example of our market leading innovation and design. A perfect solution for developing toddler and preschool children.

In addition to age-appropriate size and scaling, the Mini portfolio also features a number of new play-based learning panels. The panels support a number of skills and competences such as fine and gross motor skills, cross-coordination, abstract thinking and emotional development.

MOMENTS™ COMBINATION SYSTEM

Our newly designed combination system offers a large variety of play activities and material option to fulfil individual requirements in any playground setting, which we specifically configure together with each customer.

NEW PIRATE SHIPS AND CASTLES

Daredevils and pirates take notice!

"If ye playground be in dire need of an overhaul and barnacles have settled on your springers, look no further than these amazing new ships from KOMPAN." Built on a rock solid structure equipped with a host of adventurous activities both topside and below deck, you will find all you need for children to create their own high seas adventures right here.

Below deck and accessible to the generally younger audience, you will find numerous activities built around the Stay and Develop factors, that allow children to pass time while confined to the brig – or searching for treasure below the surface of the sea or in the cargo hold.

Above deck, your little brigands can swing from the deck with all the rush and excitement provided by our track-ride or have them scale the ropes to take our exhilarating more than 6 meter long steel slide.

With all the stuff to explore and try, the stories can go far and wide across the seven seas! Expect your little pirates to try all their parlaying skills when negotiating, to stay for just a few more minutes. And who knows, even all you landlubber grown-ups could end up being carried away by the high tide of seafaring adventure and fun. There is no reason for you not to get into the action.

Built from recycled and recyclable materials, that are durable and maintenance free, expect your seafaring adventures to be safe and reliable – and for the ships to look great for years to come.

Ready the turrets! Man the ramparts!

"A KOMPAN castle is no cause for distress – be you damsel or otherwise!" Get ready for action and adventures fit for Queens and Kings! Packed with fun on all levels, stories, nooks and crannies! Explore the dungeons, prison cells, and caves below – or swing from the ramparts to defend your castle from the dragon.

Climb the giant spider web in the cavern below the massive keep, or sign up for guard duty as you patrol the ramparts keeping an eye out for Robin Hood and his band of merrymen. In the cellars you will find loads of activities built around our Stay and Develop concept – redesigned and configured to support all sorts of role playing action and fun.

From the ramparts you can swoop across the moat using anything from a slide to our super fun track ride. And just as important, we have a whole complement of nets and climbing activities ready for you to scale the castle walls as you sneak into the castle to meet the wizard and steal away his formula for gold!

From the smallest gatehouse to the largest keep, KOMPAN castles can accommodate every site and age range and provide countless hours of fairy tales and adventures – all while you can rest assured, that the maintenance free products, made from recycled and recyclable materials, keeps your KOMPAN castle safe, reliable, and as good as new for years to come.

INNOVATIVE DYNAMIC CAROUSELS

KOMPAN carousels add innovation to the joy of spinning.

The universal design of KOMPAN carousels attracts even teenage users and provides inclusive play opportunities for children with disabilities. Apart from being great fun, the spinners help children practice and improve their sense of balance while building their muscle strength and bone density. It's great exercise, and supports children in navigating the world securely with improved physical literacy and resilience. KOMPAN Play Institute interviews with older children state, that spinning until they get dizzy is one of their favorite play activities.

TIPI CAROUSEL

- Inclusive spinning for all users and play positions: standing, sitting, and lying
- Benefits social play, allowing room for many, of all ages and abilities
- Benefits physical literacy and health training motor skills, muscles, cardio, and bone density
- Life lasting quality: lifetime sealed bearing construction

TWIN RING SKY CAROUSEL

- Invites a wide user range, with two gripping heights and step support
- Designed to benefit upper body muscle strength, motor skills, cardio, and bone density
- Benefits social play, allowing room for many
- Life lasting quality: lifetime sealed bearing construction

NEW SAFER PORTAL SWINGS

Unlimited flexibility and modularity.

Thrill is a main motivator of physical play, and swings are truly thrilling. Learning to swing takes practice, but once learned, brings children hours of joy. Additionally, it will train the vestibular system for coordination and sense of balance. These fundamental motor skills are crucial for children to develop in order to move around and manage the world around them.

Portal swings are a modern update on a traditional favourite, constructed from galvanised steel. The swings are available in three heights: 2.0m for preschool, 2.5m and 3.0m for school age playgrounds. This highly modular system makes it possible to offer multi-bay swings with as many additional bays as you wish. Each section can be equipped with standard, toddler, cradle, or bird's nest seats. Anti-wrap suspensions are available for both standard and cradle seats.

NEW BIRDS NEST ROPE SEATS

- Improved seat comfort with new rope connectors
- Reinforced seat and swing ropes
- Red, black, or sand coloured cords in seat

NEW BIRDS NEST SHELL SEATS

- Safe, weight reduced seat
- Second to none user comfort
- Integrated handles and drain openings
- Grey, green, dark blue, or lime green colour options

COROCORD CUBE TOWERS

The Corocord Cube Tower stands 6.9m high. The three cubes design features each level rotated around a central axis to create protruding play corners and various view sheds. Climbing is traditionally a favorite activity for children and this design honors that, whilst continuing to push forward with design innovation, provoking unbeatable imaginative play.

Within each of the three cubes, an exciting invitation to climb, explore and socialize awaits all. The ultimate goal being to reach the top.

The Cube Tower design truly makes for one exhilarating viewing platform over the community, allowing the children to generate a sense of ownership and belonging. Corocord designs for the teens and grown-ups too - this means you! You are never too old to play, climb up, and help your child spot their landmarks.

Other features include two slide options from different heights, giving children a chance to grow their confidence over time, double swings, and shade protection.

COROCORD CUBES IN AUSTRALIA

We taylormake our cube structures together with our customers. The Australians have led the way in creativity.

Tucker Family Park, Brentwood Forest

Aura Pedal Park

Denman

OBSTACLE COURSES

We used to run, walk, jump, crawl and climb as a natural activity. In the past it was incorporated in everyday activities, but modern life has changed and much of our time is now spend in front of a screen and makes us static. Obstacle courses take us back to our roots with natural movement for increased health and happiness.

The new modern obstacle course is designed to have fun for people of all ages and abilities. It challenges and develops both mental and physical strength. Scalable difficulty levels make it work for young and old, strong and unfit. One course, one objective, many routes to get there.

The fun element is the motivation, that gets people starting over and over again. Apart from pure sport, playful exercise is rare, but obstacle courses create that element.

Do it together, do it with your children and teach them, that an active lifestyle is a fun lifestyle. In fact, once you introduce them to the courses, the bonus will be for you to keep up!

EASY ACCESS

High structures for upper body exercises are easily accessible for users of all heights. Access pods make it easy to get up and reach the exercise structure.

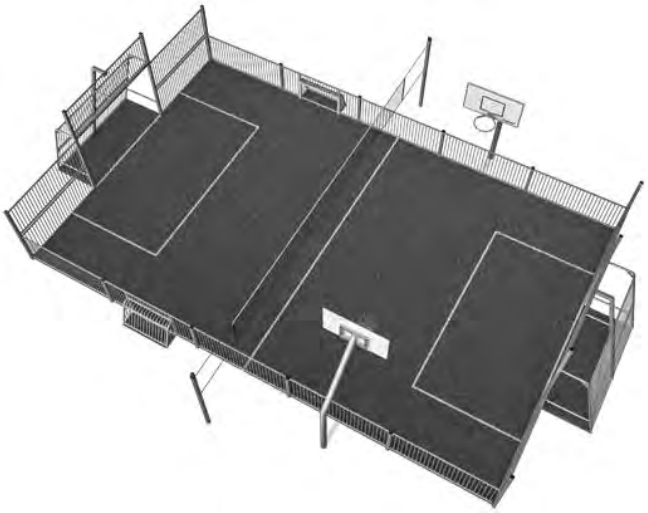
DYNAMIC EXERCISE WITH MULTIPLE DIFFICULTY LEVELS

Obstacles are designed for people of all ages and abilities. Each obstacle has both an easy and hard exercise, so anyone can be challenged.

DURABLE STEEL DESIGN GUARANTEED

The galvanised and powder coated steel construction requires no maintenance and we provide KOMPAN lifetime warranty. The solid structure has made it possible to create new dynamic and challenging obstacles and still maintain a high level of safety.

NEW MULTISPORT



In 2018, KOMPAN introduces a flexible system with high play value for fun sport.

The dream starts in the local park. Practice makes perfect, and maybe someone from your community becomes the next famous ball player.

Ball sports have fascinated many people throughout time, and it still does. Some people follow a sport, and many are also active themselves. With the right area and surrounding, people can have fun and imagine playing at Wembley or Madison Square Garden.

Based on the latest sports development and safety standards, KOMPAN Multisport is designed to make dedicated room for popular sports such as football, basketball, hockey, volley-ball, tennis, badminton, and handball, even when very little space is available.

CONFIGURE YOUR CUSTOM DESIGN

Stand out or blend in with your unique multisport design. The design is based on a flexible system, that fits into any environment and purpose.

The system is supported by a configurator, that quickly configures size, style, play value, choice of materials, and accessibility. In summary, design your own dream stadium.

CROSS SYSTEM
StuyTown, NYC

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE

In 2017, KOMPAN continued implementation of our business ethics policy, including the anti-bribery policy in connection with our global expansion. Furthermore, KOMPAN maintained and strengthened our industri leading environmental profile.

SOCIAL RESPONSIBILITY

KOMPAN's core business is based on a key principle in the UN's Convention on the Rights of the Child: children have the right to play. Corporate social responsibility has been an integral part of KOMPAN's business since inception, and the Group has always addressed the needs of children based on a strong belief that responsibility and profitability can go hand in hand.

As part of daily business, KOMPAN strives to always comply with relevant legislation and the UN Global Compact principles. As part of the efforts to adhere to the principles of the UN Global Compact, KOMPAN has introduced anti-corruption measures, clearly emphasising, that the Group does not accept any kind of undue payment in any business transaction. In 2017, KOMPAN continued the implementation of our business ethics policy including the anti-bribery policy, which covers bribery, facilitation payments, gifts and entertainment, as well as political and charity contributions for the growing KOMPAN Group.

THE GLOBAL COMPACT

WE SUPPORT

ENVIRONMENTAL FOCUS

As a manufacturer of outdoor playground and sport & fitness solutions, KOMPAN has an integrated approach to environmental considerations. KOMPAN maintained and strengthened the environmental profile by continuing the efforts to produce sustainable products with a long lifespan and low maintenance requirements, minimise resource waste and reduce environmental hazards. The majority of production is based on recycled raw materials, and KOMPAN's production materials include FSC™ certified wood, and recyclable aluminium and steel. In the years to come, KOMPAN will focus even more on how we can minimise the waste of resources and reduce environmental hazards.

ECOCORE™

- Core produced from 100% recycled material
- Recyclable after use
- Supported by our lifetime warranty

The Group's respective production facilities are certified and controlled to ensure the highest standards in terms of quality, environment, and working environment, as well as compliance with requirements concerning active substances in accessible components. To supplement KOMPAN's own control systems, third-party testing is carried out.

For further information about KOMPAN's CSR activities, please see the 2017 Global Compact communications on progress report available at:
https://www.kompan.com/corporate-responsibility

OWNERSHIP

Since June 2014, KOMPAN has been owned by a group of dedicated long-term investors. Together with the Dyvig family, Christian Dyvig, chairman of the board, owns 60% of the shares, and KIRK KAPITAL A/S owns 25%, while the remaining 15% of the shares are owned by the Executive Board and 58 other executives in KOMPAN.

The ownership is united by a clearly defined vision to sustain KOMPAN's growth by expanding the boundaries of intelligent play, fitness and learning, by continuously developing and launching new engaging, fun, and unique solutions. KOMPAN's owners are dedicated to being the world's leading social infrastructure company, making society better through commercial play and fitness.

BOARD AND MANAGEMENT

The Board of Directors consists of representatives of the two largest shareholders: Christian Dyvig, Mia Dyvig and Casper Kirk Johansen as well as two employee representatives: Jeanette Fich Jespersen and Otto Mertz.

Marketing

Key Marketing Contact(s): List the name(s), title(s) and contact information of the business's key national and regional marketing office(s). *To insert more rows, hit the tab key from the last field in the Email column.*

Name	Title	Phone	Email
Katherine Ring	Marketing Director	(512) 605-9715	KatRin@kompan.com

Marketing Activities: Describe how this business marketed its products and services to schools, nonprofit organizations and other public sector audiences in Fiscal Year 2017– 2018 (July 1 – June 30). List all conventions, conferences and other events at which this company exhibited.

Click or tap here to enter text.

Kompan Marketed its products via social media paid SEM and SEO channels, through our US website, and via multiple trade shows throughout the US

Cooperative Marketing: Describe ways in which this business can collaborate with AEPA Member Agencies in marketing the bid. Submit a marketing plan, titled Exhibit B – Marketing Plan, that would entail at a minimum, the following with their response: process on how the contract will be launched to current and potential agencies, the ability to produce and maintain in full color print advertisements in camera-ready electronic format, including company logos and contact information, anticipated contract announcements, planned advertisements, industry periodicals, other direct or, indirect marketing activities promoting the AEPA awarded contract, and how the contract award will be displayed/linked on the Bidder's website.

Click or tap here to enter text.

When this framework agreement is completed, Kompan will announce the partnership via our website and social media channels, as well as purchase advertising in 1-2 emails in 2019 and participate in the Product Expo. We will also create collateral that our sales reps can co-brand with the AEPA logo for in person conversations.

Sales Training: Explain how your business will educate your salesforce staff on the AEPA contract including timing, methods, etc.
Click or tap here to enter text.

Upon contract award, Kompan will provide an email summary to our sales leaders nationwide outlining the key components of the AEPA contract. This will also be discussed on the Kompan National Sales call.

Environmental Initiatives

Describe how your products and/or services support environmental goals.
Click or tap here to enter text.

See Below

Describe the business's "green" objectives (i.e. LEED, reducing footprint, etc.).
Click or tap here to enter text.

70% of our products contain recycled materials including 30% recycled steel. However, it doesn't stop here. As innovators we have changed our widely used HDPE panels to the new EcoCoreTM: A highly durable, eco-friendly material, which is not only recyclable after use, but also consists of a core produced from 100% recycled material with a total recycled material content of 80% overall!
All EcoCore material is supported by our lifetime warranty.

Independent Subcontractors, Distributors, Installers, etc.

If the Bidder is not the sole provider of all goods and services provided under this contract, the following **must be answered**:

Selection Criteria for Independent Providers: Describe the criteria and process by which the business selects, certifies and approves subcontractors, distributors, installers and other independent services.
Click or tap here to enter text.

Kompan Screens and certifies that subcontractors, installers, TPP Vendors provide IPEMA product certification, Environmental policies, CPSI Compliance Certification, Product liability insurance, and W-9s. We also background check 3 or more project references that the TPP vendor provides.

Current Subcontractors, Distributors, Installers, Etc.: Provide a list of current subcontractors, distributors, installers and other independent service providers who are contracted to perform the type of work outlined in this bid in the member agency states (listed in Part A of this IFB). Include, if applicable, contractor license or certificate information and the state(s) wherein they are eligible to provide services on behalf of the business.

Disclosures

Line of Credit Letter or Annual Financial Report (REQUIRED): Attach a letter from the business's chief financial institution indicating the current line of credit available to the business and evidence of financial stability for the past three calendar years (2015, 2016 and 2017). This letter should state the line of credit as a range (i.e. "credit in the low six figures" or "a credit line exceeding five figures"). If company is a publicly traded company a complete Annual Financial Report is required in place of Line of Credit Letter. Bidders may choose to send the Letter of Line of Credit and/or Annual Report by email directly to the AEPA Executive Director, George Wilson, at georgewilson.aepa@outlook.com. The Letter of Line of Credit and/or Annual Report must be received by the Executive Director before February 28, 2019 at 1:30 ET.

Legal: Does this business have actions currently filed against it? ✓ **No** _____ **Yes**

If **Yes,** AN ATTACHMENT IS REQUIRED: List and explain current actions, such as, Federal Debarment (on US General Services Administration's "Excluded Parties List"), appearance on any state or federal delinquent taxpayer list, or claims filed against the retainage and/or payment bond for projects.

If YES, what is the discount? _____ %Net

Leasing: Do your business offer leasing arrangements under this bid? ✓ **No** _____ **Yes**
If Yes, please indicate the rate factor and other cost factors below.

If an AEPA contract is approved and awarded by the Member Agencies, as a Vendor Partner, I agree to:

Responsibilities of an AEPA Vendor Partner	**Yes,** indicate with an "X"	**No,** indicate with an "X"
1. Designate and assign a dedicated senior-level contract manager (one authorized to make decisions) to each of the Member Agency accounts. This employee will have a complete copy and must have working knowledge of the AEPA contract.	X	
2. Train and educate sales staff on what the AEPA contract is: including pricing, who can order from the contract (by state), terms/conditions of the contract, and the respective ordering procedures for each state. It is expected that Vendor Partners will lead with AEPA contracts.	X	
3. Develop a marketing plan to support the AEPA contract in collaboration with respective AEPA Member Agencies. The marketing plan should include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc.	X	
4. Create an AEPA-specific sell sheet with a space to add a Member Agency logo and contact information for use by the Member Agencies and the Vendor Partner's local sales representatives to market within each state.	X	
5. On a quarterly basis, complete the sales and administrative fee report (see attached PDF example) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, the Vendor Partner is required to submit a $0 report to the AEPA Member Agency.	X	

6. On a quarterly basis, complete the online Vendor Partner sales report for each Member Agency.	X	
7. Have ongoing communication with the Bid Oversight Chairperson, AEPA Member Agencies and the Member Agencies Participating Entities.	X	
8. Attend two (2) AEPA meetings each year (see Part A)	X	
9. Participate in national and local conference trade shows to promote the AEPA contracts including, but not limited to the Association of School Business Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).	X	
10. Increase sales over the term of the contract with all participating AEPA Member Agencies.	X	

Exceptions

Instructions:

1. If "no" is marked with an "X" below, complete this form by signing it at the bottom.
2. If "yes" is marked with an "X" below, insert answers into the form shown below, providing narrative explanations of exceptions. *(To insert more rows, hit the tab key from the last field in the last row and column.)*
3. If adding pages, the bidder's name and identifying information as to which item the response refers must appear on each page.
4. Exceptions to local, state or federal laws cannot be accepted under this bid.

	No, this bidder does not have exceptions to the Terms and Conditions incorporated in Parts A and B of this IFB.
	Yes, this bidder has the following exceptions to the Terms and Conditions incorporated in Parts A and/or B of this IFB.

IFB Section and Page Number	Outline Number	Term and Condition	Exception

Deviations

Instructions:

1. If "no" is marked with an "X" below, complete this form by signing it at the bottom.
2. If "yes" is marked with an "X" below, insert answers into the form shown below, providing narrative explanations of deviations. *(To insert more rows, hit the tab key from the last field in the last row and column.)*
3. If adding pages, the bidder's name and identifying information as to which item the response refers must appear on each page.
4. Deviations to local, state or federal laws cannot be accepted under this bid.

	No, this bidder does not have deviations (exceptions or alternates) to the specifications listed in Part B of this IFB.
X	**Yes**, this bidder has the following deviations to the specifications listed in Part B of this IFB.

Outline Number Part B	Specification (describe)	Details of Deviation
Part B Page 5&6	GC license	*[Exception page 5 & 6] Kompan does not hold a GC license in all states listed as part of the bid. Kompan instead, subcontracts installation labor to experienced subcontractors who hold GC licenses. Kompan has over 28 years experience project managing turnkey playground installation with this methodology

Part B 6.6	Installation	*[Exception page 6.6] Kompan addresses installation costs on a project by project basis as site conditions/ equipment will vary. These can be easily quoted at time of project planning implementation. Typical installation cost as a percentage of project equipment retail can be in the range of +- 27%- 38% prior to standard discounts that can be applied.

Uniform Guidance "EDGAR" Certification Form
2 CFR Part 200

When a purchasing agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200, referred to as the "Uniform Guidance" or new "EDGAR". All bidders submitting proposals must complete this EDGAR Certification form regarding the bidder's willingness and ability to comply with certain requirements, which may be applicable to specific agency purchases using federal grant funds.

For each of the items below, the Bidder will certify its agreement and ability to comply, where applicable, by having the bidder's authorized representative check, initial the applicable boxes, and sign the acknowledgement at the end of this form. If a bidder fails to complete any item of this form, AEPA will consider and may list the response, as the bidders is unable to comply. A "No" response to any of the items below may influence the ability of a purchasing agency to purchase from the bidder using federal funds.

1. Violation of Contract Terms and Conditions

Provisions regarding bidder default are included in AEPA's terms and conditions. Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the bidder and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA's terms and conditions. The remedies under the contract are in addition to any other remedies that may be available under law or in equity.

2. Termination for Cause of Convenience

For a participating agency purchase or contract in excess of $10,000 made using federal funds, you agree that the following term and condition shall apply:

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the bidder. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay bidder for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the bidder's return policy. If the participating agency has paid the bidder for goods and services provided as the date or termination, bidder shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency's purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is in the participating agency's purchase order, ancillary agreement or construction contract agreed to by the bidder, the participating agency's provision shall control.

3. Equal Employment Opportunity

Except as otherwise provided under 41 CFR Part 60, all participating agency purchases or contract that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Bidder agrees that such provision applies to any participating agency purchase or contract that meets the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 and bidder agrees that it shall comply with such provision.

4. Davis Bacon Act

When required by Federal program legislation, bidder agrees that, for all participating agency contracts for the construction, alteration, or repair (including painting and decorating) of public buildings or public works, in excess of $2,000, bidder shall comply with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, bidder is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specific in a wage determinate made by the Secretary of Labor. In addition, bidder shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.wdol.gov. Bidder agrees that, for any purchase to which this requirement applies, the award of the purchase to the bidder is conditioned upon bidder's acceptance of wage determination.

Bidder further agrees that is shall also comply with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each construction completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled under his contract of employment, shall be defined under this titled or imprisoned not more than five (5) years, or both.

5. Contract Work Hours and Safety Standards Act

Where applicable, for all participating agency purchases in excess of $100,000 that involve the employment of mechanics or laborers, bidder agrees to comply with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, bidder is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of the 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions that are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies, materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

6. Right to Inventions Made Under a Contract or Agreement

If the participating agency's federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or sub recipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experiments, developmental or research work under the "funding agreement," the recipient or sub recipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

7. Clean Air Act and Federal Water Pollution Control Act

Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended, contracts and sub grants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). When required, bidder agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

8. Debarment and Suspension

Debarment and Suspension (Executive Orders 12549 and 12689), a contract award (see 2 CFR 180.222) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3 CFR Part 1989 Comp. p. 235), "Debarment and Suspension." SAM exclusions contain the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Bidder certifies that the bidder is not current listed and further agrees to immediately notify AEPA and all participating agencies with pending purchases or seeking to purchase from the bidder if bidder is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under stat statutory or regulatory authority other than Executive Order 12549.

9. Byrd Anti-Lobbying Amendment

Byrd Anti-Lobbying Amendment (31 U.S.C. 1352), bidders that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that take place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

10. Procurement of Recovered Materials

For participating agency purchases utilizing Federal funds, bidder agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a participating agency may require to confirm estimates and otherwise comply. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recover, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

11. Profit as a Separate Element of Price

For purchases using federal funds in excess of $150,000, a participating agency may be required to negotiate profit as a separate element of the price. See 2 CFRR 200.323(b). When required by a participating agency, bidder agrees to provide information and negotiate with the participating agency regarding profit as a separate element of the price for a particular purchase. However, bidder agrees that the total price, including profit, charged by the bidder to the participating agency shall not exceed the awarded pricing, including any applicable discount, under the bidders contract with AEPA.

12. General Compliance with Participating Agencies

In addition to the foregoing specific requirements, bidder agrees, in accepting any purchase order from a participating agency, it shall make a good faith effort to work with participating agency to provide such information and to satisfy requirements as may apply to a particular purchase or purchases including, but not limited to, applicable record keeping and record retention requirements as noted in the Federal Acquisition Regulation, FAR 4.703(a).

By initialing the table (1-12) and signing below, I certify that the information in this form is true, complete and accurate and that I am authorized by my business to make this certification and all consents and agreements contained herein.

Bid Affidavit

Instructions: This form must be signed by the business's authorized representative and notarized below. If awarded, the Bidder is required to produce a copy of this document for each Member Agency with which it contracts.

1. The undersigned, is duly authorized to represent the persons, business and corporations joining and participating in the submission of the foregoing bid (such persons, business and corporations hereinafter being referred to as the bidder), being duly sworn, on his/her oath, states that to the best of his/her belief and knowledge no person, business or corporation, nor any person duly representing the same joining and participating in the submission of the foregoing bid, has directly or indirectly entered into any agreement or arrangement with any other bidders, or with any official of the ***Member Agency***, or any employee thereof, or any person, business or corporation under contract with the ***Member Agency*** whereby the bidder, in order to induce the acceptance of the foregoing bid by the ***Member Agency***, has paid, or is to pay to any other bidder, or to any of the aforementioned persons, anything of value whatever, and that the bidder has not, directly nor indirectly entered into any arrangement, or agreement, with any other bidder or bidders which tends to or does lessen or destroy free competition in the letting of the contract sought for by the foregoing bid.
2. This is to certify that the bidder, or any person on his/her behalf, has not agreed, connived, or colluded to produce a deceptive show of competition in the manner of the bidding, or award of the referenced contract.
3. This is to certify that neither I, nor to the best of my knowledge, information and belief, the bidder, nor any officer, director, partner, member or associate of the bidder, nor any of its employees directly involved in obtaining contracts with the ***Member Agency***, or any subdivision of the state has been convicted of false pretenses, attempted false pretenses, or conspiracy to commit false pretenses, bribery, attempted bribery or conspiracy to bribe under the laws of any state or federal government for acts or omissions after January 1, 1985.
4. This is to certify that the bidder, or any person on his behalf has examined and understands the terms, conditions, scope of work and specifications, and other documents of this solicitation and that any and all exceptions have been noted in writing and have been included with the bid submittal.
5. This is to certify that if awarded a contract, the bidder will provide the equipment, commodities, and/or services to members and affiliate members of the Agency in accordance with the terms, conditions, scope of work and specifications and other documents of this solicitation in the following pages of this bid.
6. This is to certify that the bidder is authorized by the manufacturer(s) to sell all proposed products on a national basis.
7. This is to certify that we have completed, reviewed, approved and have included all information that is required of these bid forms.

Acceptance of Bid & Contract Award

Association of Educational Purchasing Agencies

Instructions: PART I of this form is to be completed by the Bidder and signed by its Authorized Representative. PART II will be completed by the AEPA Member Agency only upon the occasion of the bid award. If approved by AEPA, the Bidder is required to produce a copy of the document for each of the AEPA Member Agency with which it contracts.

PART I: BIDDER

In compliance with the Invitation for Bid (IFB), the undersigned warrants that I/we have examined all Instructions to Bidders, associated documents, and being familiar with all of the conditions of the bid, hereby offer and agree to furnish all labor, materials, supplies and equipment incurred in compliance with all terms, conditions, specifications and amendments associated with this IFB and any written exceptions to the bid. Signature also certifies understanding and compliance with the certification requirements of the AEPA Member Agency's Terms and Conditions and/or Special Terms and Conditions. The undersigned understands that their competence, ability, capacity and obligations to offer and provide the proposed tangible personal property, professional services, construction services and other services on behalf of the Bidder Partner as well as other factors of interest to the AEPA Member Agency as stated in the evaluation section, will be a consideration in making the award.

PART II: AWARDING MEMBER AGENCY

Your bid response for the above identified bid is hereby accepted. As a Bidder Partner you are now bound to offer and provide the products and services identified within this IFB, your response and approved by AEPA, including all terms, conditions, specifications, exceptions and amendments. As Bidder Partner, you are hereby not to commence any billable work or provide any products or services under this contract until an executed purchase order is received from the AEPA Member Agency or Participating Entities. The intent of this contract is to constitute the final and complete agreement between the AEPA Member Agency and Bidder Partner, and no other agreements, oral or otherwise, regarding the subject matter of this contract, shall bind any of the parties hereto. No change or modification of this contract shall be valid unless in writing and signed by both parties to this contract. If any provision of this contract is deemed invalid or illegal by any appropriate court of law, the remainder of this contract shall not be affected thereby. The initial term of this contract shall be for up to fifteen (15) months and will commence on the date indicated below and continue until February 28, 2020, unless terminated, canceled or extended. By mutual written agreement as warranted, the contract may be extended month by month up to six (6) months or for three (3) additional 12-month periods.

123 North Valley Drive
Grants Pass, OR 97526

SURETY:
(Name, legal status and principal place of business)

Atlantic Specialty Insurance Company
605 Highway 169 North, Suite 800
Plymouth, MN 55441
State of Inc: New York

OWNER:
(Name, legal status and address)

Association of Educational Purchasing Agencies
2111 Pontiac Lake Road
Waterford, MI 48328

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

BOND AMOUNT: One Hundred Thousand & 00/100 Dollars ($100,000.00)

PROJECT:
(Name, location or address, and Project number, if any)

AEPA# 019.5-B - Playground & Recreational Equipment

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

Signed and sealed this 12th day of February , 2019

Power of Attorney

Surety Bond No: 35413-ASI-2019-012

Principal: Playcraft Systems, LLC

Obligee: Association of Educational Purchasing Agencies

KNOW ALL MEN BY THESE PRESENTS, that ATLANTIC SPECIALTY INSURANCE COMPANY, a New York corporation with its principal office in Minnetonka, Minnesota, does hereby constitute and appoint: April D. Perez, each individually if there be more than one named, its true and lawful Attorney-in-Fact, to make, execute, seal and deliver, for and on its behalf as surety, any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof; provided that no bond or undertaking executed under this authority shall exceed in amount the sum of: **sixty million dollars ($60,000,000)** and the execution of such bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof in pursuance of these presents, shall be as binding upon said Company as if they had been fully signed by an authorized officer of the Company and sealed with the Company seal. This Power of Attorney is made and executed by authority of the following resolutions adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the President, any Senior Vice President or Vice-President (each an "Authorized Officer") may execute for and in behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and affix the seal of the Company thereto; and that the Authorized Officer may appoint and authorize an Attorney-in-Fact to execute on behalf of the Company any and all such instruments and to affix the Company seal thereto; and that the Authorized Officer may at any time remove any such Attorney-in-Fact and revoke all power and authority given to any such Attorney-in-Fact.

Resolved: That the Attorney-in-Fact may be given full power and authority to execute for and in the name and on behalf of the Company any and all bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof, and any such instrument executed by any such Attorney-in-Fact shall be as binding upon the Company as if signed and sealed by an Authorized Officer and, further, the Attorney-in-Fact is hereby authorized to verify any affidavit required to be attached to bonds, recognizances, contracts of indemnity, and all other writings obligatory in the nature thereof.

This power of attorney is signed and sealed by facsimile under the authority of the following Resolution adopted by the Board of Directors of ATLANTIC SPECIALTY INSURANCE COMPANY on the twenty-fifth day of September, 2012:

Resolved: That the signature of an Authorized Officer, the signature of the Secretary or the Assistant Secretary, and the Company seal may be affixed by facsimile to any power of attorney or to any certificate relating thereto appointing an Attorney-in-Fact for purposes only of executing and sealing any bond, undertaking, recognizance or other written obligation in the nature thereof, and any such signature and seal where so used, being hereby adopted by the Company as the original signature of such officer and the original seal of the Company, to be valid and binding upon the Company with the same force and effect as though manually affixed.

IN WITNESS WHEREOF, ATLANTIC SPECIALTY INSURANCE COMPANY has caused these presents to be signed by an Authorized Officer and the seal of the Company to be affixed this eighth day of December, 2014.

ATLANTIC SPECIALTY INSURANCE COMPANY CORPORATE SEAL 1986 NEW YORK

Exhibit C

AEPA IFB 0189.5-B Playground & Recreational Equipment Contract

PLAYCRAFT SYSTEMS WARRANTY

Playcraft Systems®, warrants its products to be free from defects in materials or workmanship, when properly used, serviced and installed in accordance with published specifications, for a period of one (1) year from date of final acceptance by AEPA member.
Playcraft Systems® further warrants as follows:

LIFETIME LIMITED WARRANTY
on all stainless steel hardware, metal posts, aluminum posts, aluminum caps and aluminum clamps against structural failure due to natural deterioration or corrosion, or defects in materials or workmanship.

TWENTY-FIVE (25) YEAR LIMITED WARRANTY
on all cast aluminum Spring Rider castings against structural failure due to defects in materials or workmanship.

FIFTEEN (15) YEAR LIMITED WARRANTY
on all metal rails, metal slides, handles, rungs, loops and walls, all Play-Tuff™ coated perforated steel decks, steps, and bridges, all rotationally molded and HDPE sheet plastic components, excluding recycled plastic components, against structural failure due to defects in materials or workmanship.

TEN (10) YEAR LIMITED WARRANTY
on all shade canopy fabric made of UV Stabilized HDPE monofilament yarn and tape against significant fading.

TEN (10) YEAR LIMITED WARRANTY
on all Play-Cord™ against cable breakage and Play-Cord™ connectors against breakage and failure due to defects in materials or workmanship.

FIVE (5) YEAR LIMITED WARRANTY
on all Playcraft System® powder coating and Play-Tuff™ coating against cracking and/or peeling due to normal climatic exposure.

THREE (3) YEAR LIMITED WARRANTY
on all springs, moving swing parts, swing seats and other swing components, as well as all recycled plastic components against failure due to defects in materials or workmanship.

TWO (2) YEAR LIMITED WARRANTY
on any other moving parts not specifically covered above against failure due to defects in materials or workmanship.

ONE (1) YEAR LIMITED WARRANTY
on any other product or part not specifically covered above against failure due to defects in materials or workmanship.

All warranties above commence on the date of final acceptance by AEPA member. For the purpose of this warranty, the term LIFETIME encompasses no specific number of years, but rather that Playcraft Systems® warrants to its original customer, for as long as the original customer owns the Products and uses the Products for their intended purpose, that any Products and all components will be free from defects in materials or workmanship.

The warranty stated above is valid only if the products and finishes: (1) are assembled and installed in conformity with the layout plan and installation instructions furnished by Playcraft Systems®; (2) have been maintained and inspected in accordance with Playcraft Systems® maintenance information and other normal and prudent practices; (3) have been subjected to normal use for the purpose for which the products were designed and intended; (4) have not been subjected to misuse, abuse, vandalism, accident or neglect; (5) have not been altered in any manner including, but not limited to, incorporating unauthorized or unapproved parts; and (6) have not been modified, altered, or repaired by persons other than Seller's designees in any respect which, in the judgment of Seller, affects the condition or operation of the equipment.

This warranty does not cover: (1) cosmetic damages or defects resulting from scratches, dents, marring, rough handling, improper installation methods, fading, discoloring or weathering; (2) damage due to extreme or prolonged exposure to "Environmental Factors", such as wind-blown sand, salt water, salt spray and airborne emissions from industrial sources (sulfur, acids, chemicals, or corrosive agents, other than normal photochemical smog); (3) damage caused by environmental hazards and "Acts of God", such as hail, flooding, lightning, tornadoes, sandstorms, earthquakes, windstorms, and other extreme weather conditions; or (4) normal wear and tear. No warranty is made with regard to gloss retention or uniformity of gloss and color retention. If any products covered by this warranty fail within the time period applicable to a defective product, Playcraft Systems® shall, upon being notified of the defect in writing, at its sole option, either repair the defective products or replace the defective products within 30 days of receipt of the written notification.

Repair or replacement as provided in this section shall be the purchaser's exclusive remedy and purchaser expressly agrees that Playcraft

Systems® shall not be responsible for any other damages, losses, or costs, including consequential and incidental damages, claimed by purchaser. Playcraft Systems® shall deliver the repaired or replacement products to the purchaser free of charge, but shall not provide labor, reimbursements for labor or reimburse any other costs associated with the removal or disposal of the defective products and/or the installation of any replacement products. Notwithstanding the previous sentence, Playcraft Systems® shall not pay for any costs of shipping replacement parts outside of the continental United States. Any products replaced or repaired consistent with this paragraph shall be guaranteed for the balance of the original warranty period.

THIS WARRANTY IS EXCLUSIVE AND IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER EXPRESSED OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THE REMEDIES PROVIDED HEREIN SHALL BE THE EXCLUSIVE AND SOLE REMEDIES OF THE ORIGINAL PURCHASER. PLAYCRAFT SYSTEMS® IS NOT LIABLE FOR ANY SPECIAL, DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES WHICH MAY ARISE FROM THE PURCHASE, USE OR MISUSE OF ITS PRODUCTS. SOME STATES DO NOT ALLOW THE EXCLUSION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THIS EXCLUSION MAY NOT APPLY. PLAYCRAFT SYSTEMS® NEITHER ASSUMES NOR AUTHORIZES ANY OTHER PERSON TO ASSUME OR IMPLY ANY OTHER LIABILITY IN CONNECTION WITH THE SALE OR USE OF THE EQUIPMENT SOLD.
To make a claim under the terms of this warranty, purchaser must submit a written statement detailing the nature of the warranty claim, including an itemization of each defective condition, along with a copy of the original invoice, maintenance records and supporting photographs to Playcraft Systems®, 123 North Valley Drive, Grants Pass, Oregon 97526.

Due to our on-going commitment to product development and Improvement, Playcraft Systems® reserves the right to change, modify or discontinue certain products without notice (Rev. O).

Exhibit B – Marketing Plan

Playcraft Systems upon award of the AEPA IFB #019.5-B Playground & Recreational Equipment will create a press release announcing the award as well as feature the information on our website. Direct mail campaigns announcing approved purchasing through AEPA will be utilized by Playcraft consultants to inform participating agencies. Social media outlets may also be used for the announcement.

We will strive to promote the AEPA contract through educating our consultant network on its benefits. Our consultants can then present the contract to their customers and eligible entities. In our industry, the ability to surpass the bidding process can greatly benefit any entity by bypassing additional costs required for bid writings and the costs needed during the duration of the bid. Playcraft will provide all entities several marketing promotions that describe all these benefits.

With the expansion of our Marketing/Graphics Department, we are well positioned to increase the visibility of the playground component of the AEPA contract. We have dramatically increased our production of marketing materials and the AEPA logo will be prominently featured. The contract will be marketed through all channels available to us – distributors, social media, paid media, trade shows, website, and our PlayDesigner software.

We also have a “how to buy” section on our website which showcases purchasing opportunities. AEPA will be prominently featured. In addition, our consultants may display the AEPA logo on their website which will link back to Playcraft Systems website to provide further information. Also, each sale generated through AEPA will be announced to all our consultants through our website with the advantages of AEPA reiterated each time.

ADDITIONAL DISCOUNTS – Playcraft Systems, LLC.

Form F.2A – Lot 1 Playground Equipment Items Price Schedule

AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the F**.1** tab.

Form F.2A – Lot 1 is an OPTIONAL FORM

Form F.2A –Lot 2 Water Park Items Price Schedule
AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the **F.1** tab. Failure to have price correspond may be cause for rejection of your offer.

Form F.2A – Lot 2 is an OPTIONAL FORM

Bidding Company Name:	*Enter company name here*				Catalog Name:	*Enter catalog name here*				

No.	Product Category	Product Description	Manufacturer	Manufacturer SKU	Vendor SKU	Unit of Measure	Catalog List Price	Bid Discount Percentage	Net Effective Bid Price	Comments	No.

Form F.2A –Lot 3 Skate Park Items Price Schedule
AEPA IFB #019.5-B Category Name

INSTRUCTIONS: Complete the following information for **all items listed below**. These are higher usage items and it is anticipated that deeper discounts will be bid for these items. In the event a new catalog or manufacturer's price list changes during the contract term, the Bid Discount Percentage would not exceed the bid discount percentage. ***Please be sure to set the 'Print Area' PRIOR to submitting your bid response.***

NOTE: The Net Effective Price MUST be consistent with the percentage discounts listed on the **F.1** tab. Failure to have price correspond may be cause for rejection of your offer.

Form F.2A – Lot 3 is an OPTIONAL FORM

Bidding Company Name:	*Enter company name here*				Catalog Name:	*Enter catalog name here*				

No.	Product Category	Product Description	Manufacturer	Manufacturer SKU	Vendor SKU	Unit of Measure	Catalog List Price	Bid Discount Percentage	Net Effective Bid Price	Comments	No.

Instructions to Bidders

Form F.4 is an Required Form for installation services

Specifications identified in Part B – Specifications, Section 7, refer to the type and quality of products and services for bid. In the form below, enter your bid prices for those items indicated, and list all offered equipment, goods, services, supplies and related items. The prices you offer on these pages affirm that you have accepted the specifications to obtain, deliver and provide those goods and services. Each bidder is encouraged to offer its complete product line and provide the lowest and best prices for the complete product line(s) offered. Lines may be inserted into this document and additional worksheets included for this purpose. Please provide list/retail/regular price, AEPA discount and the AEPA price. In the tab marked "State, enter the multiplier to be added, if any, to the base bid price to calculate the particular state's bid price.

CAMPAIGN CONTRIBUTION DISCLOSURE FORM

Pursuant to the Procurement Code, Sections 13-1-28, et seq., NMSA 1978 and NMSA 1978, § 13-1-191.1 (2006), as amended by Laws of 2007, Chapter 234, any prospective contractor seeking to enter into a contract with any state agency or local public body must file this form with that state agency or local public body. This form must be filed even if the contract qualifies as a small purchase or a sole source contract. The prospective contractor must disclose whether they, a family member or a representative of the prospective contractor has made a campaign contribution to an applicable public official of the state or a local public body during the two years prior to the date on which the contractor submits a proposal or, in the case of a sole source or small purchase contract, the two years prior to the date the contractor signs the contract, if the aggregate total of contributions given by the prospective contractor, a family member or a representative of the prospective contractor to the public official exceeds two hundred and fifty dollars ($250) over the two year period.

Furthermore, the state agency or local public body may cancel a solicitation or proposed award for a proposed contract pursuant to Section 13-1-181 NMSA 1978 or a contract that is executed may be ratified or terminated pursuant to Section 13-1-182 NMSA 1978 of the Procurement Code if: 1) a prospective contractor, a family member of the prospective contractor, or a representative of the prospective contractor gives a campaign contribution or other thing of value to an applicable public official or the applicable public official's employees during the pendency of the procurement process or 2) a prospective contractor fails to submit a fully completed disclosure statement pursuant to the law.

The state agency or local public body that procures the services or items of tangible personal property shall indicate on the form the name or names of every applicable public official, if any, for which disclosure is required by a prospective contractor.

THIS FORM MUST BE INCLUDED IN THE REQUEST FOR PROPOSALS AND MUST BE FILED BY ANY PROSPECTIVE CONTRACTOR WHETHER OR NOT THEY, THEIR FAMILY MEMBER, OR THEIR REPRESENTATIVE HAS MADE ANY CONTRIBUTIONS SUBJECT TO DISCLOSURE.

The following definitions apply:

"**Applicable public official**" means a person elected to an office or a person appointed to complete a term of an elected office, who has the authority to award or influence the award of the contract for which the prospective contractor is submitting a competitive sealed proposal or who has the authority to negotiate a sole source or small purchase contract that may be awarded without submission of a sealed competitive proposal.

"**Campaign Contribution**" means a gift, subscription, loan, advance or deposit of money or other thing of value, including the estimated value of an in-kind contribution, that is made to or received by an applicable public official or any person authorized to raise, collect or expend contributions on that official's behalf for the purpose of electing the official to statewide or local office. "Campaign Contribution" includes the payment of a debt incurred in an election campaign, but does not include the value of services provided without compensation or unreimbursed travel or other personal expenses of

individuals who volunteer a portion or all of their time on behalf of a candidate or political committee, nor does it include the administrative or solicitation expenses of a political committee that are paid by an organization that sponsors the committee.

"Family member" means spouse, father, mother, child, father-in-law, mother-in-law, daughter- in-law or son-in-law of (a) a prospective contractor, if the prospective contractor is a natural person; or (b) an owner of a prospective contractor.

"Pendency of the procurement process" means the time period commencing with the public notice of the request for proposals and ending with the award of the contract or the cancellation of the request for proposals.

"Prospective contractor" means a person or business that is subject to the competitive sealed proposal process set forth in the Procurement Code or is not required to submit a competitive sealed proposal because that person or business qualifies for a sole source or a small purchase contract.

"Representative of a prospective contractor" means an officer or director of a corporation, a member or manager of a limited liability corporation, a partner of a partnership or a trustee of a trust of the prospective contractor.

Key Marketing Contact(s): List the name(s), title(s) and contact information of the business's key national and regional marketing office(s). *To insert more rows, hit the tab key from the last field in the Email column.*

Name	Title	Phone	Email
Kyle Fauley	Sales/Marketing Manager – Playcraft Systems	541-955-9199 x125	Kyle.fauley@playcraftsystems.com

Marketing Activities: Describe how this business marketed its products and services to schools, nonprofit organizations and other public sector audiences in Fiscal Year 2017– 2018 (July 1 – June 30). List all conventions, conferences and other events at which this company exhibited.

Playcraft Systems is marketed and sold through an experienced, highly trained representative network. Our consultants conduct their own marketing strategies with support from Playcraft's Marketing Team. Catalogs and national campaign flyers are provided for their use, and each consultant firm determines their own participation in state and local conferences/conventions. On a national level, Playcraft Systems attends annual conferences for the National Recreation and Park Association, American Society of Landscape Architects, and National League of Cities. Playcraft Systems has also been featured in the NRPA Parks & Rec magazine.

Cooperative Marketing: Describe ways in which this business can collaborate with AEPA Member Agencies in marketing the bid. Submit a marketing plan, titled Exhibit B – Marketing Plan, that would entail at a minimum, the following with their response: process on how the contract will be launched to current and potential agencies, the ability to produce and maintain in full color print advertisements in camera-ready electronic format, including company logos and contact information, anticipated contract announcements, planned advertisements, industry periodicals, other direct or, indirect marketing activities promoting the AEPA awarded contract, and how the contract award will be displayed/linked on the Bidder's website.

Playcraft Systems upon award of the AEPA IFB #019.5-B Playground & Recreational Equipment will create a press release announcing the award as well as feature the information on our website. Direct mail campaigns announcing approved purchasing through AEPA will be utilized by Playcraft consultants to inform participating agencies. Social media outlets may also be used for the announcement.

We will strive to promote the AEPA contract through educating our consultant network on its benefits. Our consultants can then present the contract to their customers and eligible entities. In our industry, the ability to surpass the bidding process can greatly benefit any entity by bypassing additional costs required for bid writings and the costs needed during the duration of the bid. Playcraft will provide all entities several marketing promotions that describe all these benefits.

With the expansion of our Marketing/Graphics Department, we are well positioned to increase the visibility of the playground component of the AEPA contract. We have dramatically increased our production of marketing materials and the AEPA logo will be prominently featured. The contract will be marketed through all channels available to us – distributors, social media, paid media, trade shows, website, and our PlayDesigner software.

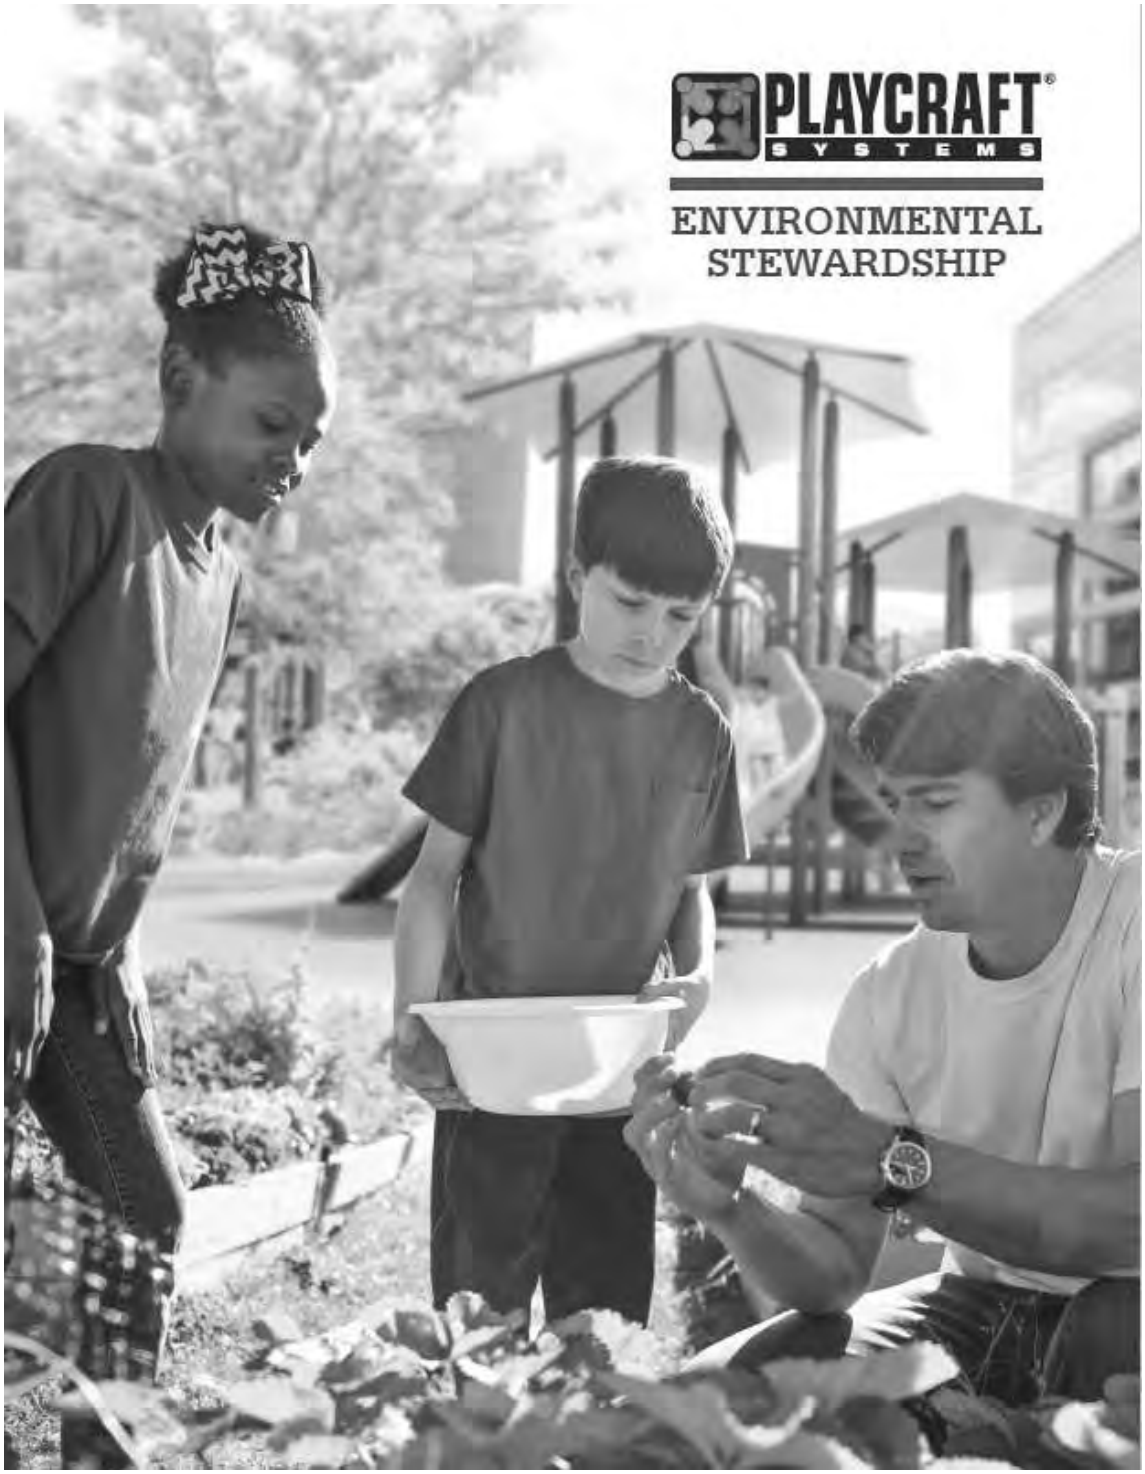
We also have a "how to buy" section on our website which showcases purchasing opportunities. AEPA will be prominently featured. In addition, our consultants may display the AEPA logo on their website which will link back to

Playcraft Systems website to provide further information. Also, each sale generated through AEPA will be announced to all our consultants through our website with the advantages of AEPA reiterated each time.

Sales Training: Explain how your business will educate your salesforce staff on the AEPA contract including timing, methods, etc.

Playcraft Systems Annual Consultant Summit for 2019 will be held at our manufacturing facility March 1, 2019. Most all consultants will be in attendance. This will be the perfect opportunity for our contract manager to introduce the AEPA contract, and its benefits. Pricing, member agencies and entities who can use the contract (by state), terms and conditions of the contract, and ordering procedures will be topics of discussion. In addition, we will create a press release announcing the award as well as feature the information on our website.

Environmental Initiatives



Describe how your products and/or services support environmental goals.

Living and playing within Oregon's forests and landscapes has inspired our unwavering appreciation for the environment. We firmly believe that Playcraft's stewardship of our surroundings is a reflection of ourselves and the responsibility we embrace to protect the lands we share. Playcraft Systems is committed to creating the best playground equipment available for the health of our children, our communities, and our environments.

Playcraft is resolute in the pursuit of improving resource conservation through efficient design and operational waste reduction. Our products are designed to a standard that meets or exceed industry parameters which creates a durable product which shows in the longevity of its life cycle. Parts are manufactured with energy efficient machinery, resourceful energy and waste management techniques, and waste recycled without sacrificing safety or durability.

Describe the business's "green" objectives (i.e. LEED, reducing footprint, etc.).

Based in southern Oregon, environmental factors are a high concern for Playcraft Systems. We take pride in developing state of the art manufacturing processes that cut back on our carbon footprint. This includes, but not limited to, motion sensored factory floor lighting, recycled water for machinery, mass paper and plastic recycling, and reuse of scrap material. Please see our green initiatives in the flyer below.

PLAYCRAFT
SYSTEMS
ENVIRONMENTAL
STEWARDSHIP

Earth Friendly Manufacturing Techniques & Recycling

Playcraft Systems, is committed to creating the best playground equipment available for the health of our children, our communities, and the environment. We employ the latest, most modern equipment and earth-friendly manufacturing processes, and we always use materials with the highest recycled and/or recyclable content possible without sacrificing safety, durability or quality. Our West Coast facility location, near six of the "top ten greenest U.S. cities", places us in close proximity to recycling facilities and to our suppliers of recycled materials. In addition, we manufacture virtually all of our finished products in-house, which saves transportation costs, and helps to reduce our overall carbon footprint.

Recycled/Recyclable Materials

The use of recycled materials is an important decision, and Playcraft Systems is an industry leader in making environmentally-responsible material choices. We were among the first to offer phthalate-free Play-Tuff™ coatings, and to exceed the guidelines found in the Consumer Product Safety Improvement Act (CPSIA).

Certification Assistance

There are a variety of certification programs and incentives available to encourage sustainable building practices. Playcraft Systems can assist your organization in taking advantage of these programs by providing playground equipment which far exceeds the minimum recycled-content amounts needed to qualify for many of these incentives and credits.

Energy-efficient Manufacturing

The way that parts are designed and machinery is used can have a dramatic impact on the energy resources consumed during the manufacturing process. Playcraft Systems has invested heavily in new energy-efficient equipment and lighting throughout our state-of-the-art manufacturing facility in rural Southern Oregon.

Reduced Manufacturing Waste

Playcraft Systems currently recycles virtually all scrap materials produced in our plant, including plastics, metals, and paper. In addition, we continue to find ways to reduce the amount of scrap we produce through improved manufacturing processes.

Playcraft Systems is an advocate of responsible environmental practices, with the goal of balancing the needs of the present with the goals of the future.

Independent Subcontractors, Distributors, Installers, etc.

If the Bidder is not the sole provider of all goods and services provided under this contract, the following **must be answered**:

Selection Criteria for Independent Providers: Describe the criteria and process by which the business selects, certifies and approves subcontractors, distributors, installers and other independent services.

Playcraft Systems utilizes an exclusive sales distribution model - our sales consultants can exclusively promote, market, and sell Playcraft Systems' products within their territory. Playcraft Systems is completely involved in the selection and support of all our principle sales agencies and the sales consultants who are employed by these exclusive agencies. Selection is determined by several factors including sales performance, customer base, customer service and customer relationship policies, amount of sales coverage within their territory, financial strength, and installation capabilities. Each exclusive sales agency is responsible for securing their own installation capabilities (whether direct employees or sub-contractors). Each installation company shall complete and achieve certification through Playcraft Systems' Playground Certification Program. Once certified, each installation company is also required to maintain their certification through bi-annual reviews.

Current Subcontractors, Distributors, Installers, Etc.: Provide a list of current subcontractors, distributors, installers and other independent service providers who are contracted to perform the type of work outlined in this bid in the member agency states (listed in Part A of this IFB). Include, if applicable, contractor license or certificate information and the state(s) wherein they are eligible to provide services on behalf of the business.

Training: If applicable, does this business offer customer training for the products and services sold? **No** X **Yes**

If YES**,** describe what types/kinds of training you offer, the venues where training occurs and the location(s) of your trainers, include number of staff dedicated to training and their qualifications and hours of operation.
Every Playcraft Systems Consultant is trained on our products and sales method by our Sales and Marketing Manager. Tools used include: Playcraft's Sales Kit with product samples, educational flyers, team sharing, and video conference calls. On site visitation from our Sales Director are also conducted for one-on-one consultation. Playcraft's Annual Consultant Seminar held at the factory in Grants Pass, OR provides further educational opportunities with new product introductions, educational workshops, and individual time with Management. Marketing material is provided throughout the year to keep consultants up-to-date on upgrades and expansion of product lines. Our well-informed and caring consultants use this knowledge to inform and educate their customers on the benefits of Playcraft Systems playground equipment and services. Our consultants also work with very talented, certified installers who are more than willing to show the end customer the proper use of equipment and how to care and maintain it. Playcraft also provides Maintenance Kits and Manuals with every structure order to further assist our customers. If there is ever a concern or question, your Playcraft Systems' consultant is only a phone call or email away. Also, Playcraft Systems Customer Service Department is available M-F, 8am – 5pm PST.

AEPA TO INTRODUCE NEW PURCHASING OPTION TO MEMBER ENTITIES

Administrative Fee: Which of the following best reflects how your pricing includes the individual AEPA Members' administrative fee. Mark with an "X".	
	The pricing for the products and/or services are the same for each AEPA Member Agency, shipping, handling, administrative fee and other specific state costs are added to arrive at total price offered to the Individual AEPA Member Agency.
X	The pricing for the products and/or services is inclusive of the administrative fee and therefore the pricing is the same for all AEPA Member Agencies. Shipping, handling and other state specific costs are added to the adjusted AEPA Member Agency's price.
	The pricing for the products and/or services includes **ALL** (shipping, handling, administrative fee, other) costs to arrive at a single price for all AEPA Member Agencies.

Product Returns: Does your business have a return policy? _____ **No** X **Yes**

If YES, describe your return policy and if you charge a restocking fee, what is it? (AEPA allows up to 15% for supplies and up to 25% for equipment).

Playcraft Systems' Return Policy: Cancellation and/or return of standard products incur a restocking fee of 30%, and material must be returned in the same condition as originally shipped and must be returned with freight charges prepaid. Custom products may not be returned. However, for the AEPA contract purchaser, Playcraft will amend the restocking for standard products to 25% for the term of the AEPA contract.

Payment Terms: Will your business offer AEPA buyer's a quick pay discount? X **No** _____ **Yes**

If YES, what is the discount? _____ %Net

Leasing: Do your business offer leasing arrangements under this bid? X **No** _____ **Yes**

If Yes, please indicate the rate factor and other cost factors below.

If an AEPA contract is approved and awarded by the Member Agencies, as a Vendor Partner, I agree to:

Responsibilities of an AEPA Vendor Partner	**Yes,** indicate with an "X"	**No,** indicate with an "X"
1. Designate and assign a dedicated senior-level contract manager (one authorized to make decisions) to each of the Member Agency accounts. This employee will have a complete copy and must have working knowledge of the AEPA contract.	X	
2. Train and educate sales staff on what the AEPA contract is: including pricing, who can order from the contract (by state), terms/conditions of the contract,	X	

and the respective ordering procedures for each state. It is expected that Vendor Partners will lead with AEPA contracts.		
3. Develop a marketing plan to support the AEPA contract in collaboration with respective AEPA Member Agencies. The marketing plan should include, but not be limited to, a website presence, electronic mailings, sales flyers, brochures, mailings, catalogs, etc.	X	
4. Create an AEPA-specific sell sheet with a space to add a Member Agency logo and contact information for use by the Member Agencies and the Vendor Partner's local sales representatives to market within each state.	X	
5. On a quarterly basis, complete the sales and administrative fee report (see attached PDF example) and submit to each Member Agency along with the respective administrative fees to be paid. If there are no sales, the Vendor Partner is required to submit a $0 report to the AEPA Member Agency.	X	
6. On a quarterly basis, complete the online Vendor Partner sales report for each Member Agency.	X	
7. Have ongoing communication with the Bid Oversight Chairperson, AEPA Member Agencies and the Member Agencies Participating Entities.	X	
8. Attend two (2) AEPA meetings each year (see Part A)	X	
9. Participate in national and local conference trade shows to promote the AEPA contracts including, but not limited to the Association of School Business Officials (ASBO), the National Institute of Governmental Purchasing (NIGP), and the National Association of Educational Procurement (NAEP).	X	
10. Increase sales over the term of the contract with all participating AEPA Member Agencies.	X	

Exceptions

3. If adding pages, the bidder's name and identifying information as to which item the response refers must appear on each page.
4. Deviations to local, state or federal laws cannot be accepted under this bid.

X	**No**, this bidder does not have deviations (exceptions or alternates) to the specifications listed in Part B of this IFB.
	Yes, this bidder has the following deviations to the specifications listed in Part B of this IFB.

Outline Number Part B	Specification (describe)	Details of Deviation
7.1.2	Multiple occupancy swings	Disc Swing – Accessible to children with disabilities
7.1.16 (10)	Roof options	Variety of styles. However, no Sultan Palace type.

Uniform Guidance "EDGAR" Certification Form
2 CFR Part 200

When a purchasing agency seeks to procure goods and services using funds under a federal grant or contract, specific federal laws, regulations, and requirements may apply in addition to those under state law. This includes, but is not limited to, the procurement standards of the Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, 2 CFR 200, referred to as the "Uniform Guidance" or new "EDGAR". All bidders submitting proposals must complete this EDGAR Certification form regarding the bidder's willingness and ability to comply with certain requirements, which may be applicable to specific agency purchases using federal grant funds.

For each of the items below, the Bidder will certify its agreement and ability to comply, where applicable, by having the bidder's authorized representative check, initial the applicable boxes, and sign the acknowledgement at the end of this form. If a bidder fails to complete any item of this form, AEPA will consider and may list the response, as the bidders is unable to comply. A "No" response to any of the items below may influence the ability of a purchasing agency to purchase from the bidder using federal funds.

1. Violation of Contract Terms and Conditions

Provisions regarding bidder default are included in AEPA's terms and conditions. Any contract award will be subject to such terms and conditions, as well as any additional terms and conditions in any purchase order, ancillary agency contract, or construction contract agreed upon by the bidder and the purchasing agency, which must be consistent with and protect the purchasing agency at least to the same extent as AEPA's terms and conditions. The remedies under the contract are in addition to any other remedies that may be available under law or in equity.

2. Termination for Cause of Convenience

For a participating agency purchase or contract in excess of $10,000 made using federal funds, you agree that the following term and condition shall apply:

The participating agency may terminate or cancel any purchase order under this contract at any time, with or without cause, by providing seven (7) business days in advance written notice to the bidder. If this agreement is terminated in accordance with this paragraph, the participating agency shall only be required to pay bidder for goods and services delivered to the participating agency prior to the termination and not otherwise returned in accordance with the bidder's return policy. If the participating agency has paid the bidder for goods and services provided as the date or termination, bidder shall immediately refund such payment(s).

If an alternate provision for termination of a participating agency's purchase for cause and convenience, including the manner by which it will be effected and the basis for settlement, is in the participating agency's purchase order, ancillary agreement or construction contract agreed to by the bidder, the participating agency's provision shall control.

3. Equal Employment Opportunity

Except as otherwise provided under 41 CFR Part 60, all participating agency purchases or contract that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 shall be deemed to include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and implementing regulations at 41 CFR Part 60, "Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor."

The equal opportunity clause provided under 41 CFR 60-1.4(b) is hereby incorporated by reference. Bidder agrees that such provision applies to any participating agency purchase or contract that meets the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 and bidder agrees that it shall comply with such provision.

4. Davis Bacon Act

When required by Federal program legislation, bidder agrees that, for all participating agency contracts for the construction, alteration, or repair (including painting and decorating) of public buildings or public works, in excess of $2,000, bidder shall comply with the Davis-Bacon Act (40 U.S.C. 3141-3144, and 3146-3148) as supplemented by Department of Labor regulations (29 CFR Part 5, "Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction"). In accordance with the statute, bidder is required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specific in a wage determinate made by the Secretary of Labor. In addition, bidder shall pay wages not less than once a week.

Current prevailing wage determinations issued by the Department of Labor are available at www.wdol.gov. Bidder agrees that, for any purchase to which this requirement applies, the award of the purchase to the bidder is conditioned upon bidder's acceptance of wage determination.

Bidder further agrees that is shall also comply with the Copeland "Anti-Kickback" Act (40 U.S.C. 3145), as supplemented by Department of Labor regulations (29 CFR Part 3, "Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States"). The Act provides that each construction completion, or repair of public work, to give up any part of the compensation to which he is otherwise entitled under his contract of employment, shall be defined under this titled or imprisoned not more than five (5) years, or both.

5. Contract Work Hours and Safety Standards Act

Where applicable, for all participating agency purchases in excess of $100,000 that involve the employment of mechanics or laborers, bidder agrees to comply with 40 U.S.C. 3702 and 3704, as supplemented by Department of Labor regulations (29 CFR Part 5). Under 40 U.S.C. 3702 of the Act, bidder is required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of the 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions that are unsanitary, hazardous or dangerous. These requirements do not apply to the purchase of supplies, materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

6. Right to Inventions Made Under a Contract or Agreement

If the participating agency's federal award meets the definition of "funding agreement" under 37 CFR 401.2(a) and the recipient or sub recipient wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance or experiments, developmental or research work under the "funding agreement," the recipient or sub recipient must comply with the requirements of 37 CFR Part 401, "Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements," and any implementing regulations issued by the awarding agency.

7. Clean Air Act and Federal Water Pollution Control Act

Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act (33 U.S.C. 1251-1387), as amended, contracts and sub grants of amounts in excess of $150,000 must contain a provision that requires the non-Federal award to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. 7401-7671q.) and the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251-1387). Violations must be reported to the Federal awarding agency and the Regional Office of the Environmental Protection Agency (EPA). When required, bidder agrees to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act and the Federal Water Pollution Control Act.

8. Debarment and Suspension

Debarment and Suspension (Executive Orders 12549 and 12689), a contract award (see 2 CFR 180.222) must not be made to parties listed on the government-wide exclusions in the System for Award Management (SAM), in accordance with OMB guidelines at 2 CFR 180 that implement Executive Orders 12549 (3 CFR Part 1966 Comp. p. 189) and 12689 (3 CFR Part 1989 Comp. p. 235), "Debarment and Suspension." SAM exclusions contain the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. Bidder certifies that the bidder is not current listed and further agrees to immediately notify AEPA and all participating agencies with pending purchases or seeking to purchase from the bidder if bidder is later listed on the government-wide exclusions in SAM, or is debarred, suspended, or otherwise excluded by agencies or declared ineligible under stat statutory or regulatory authority other than Executive Order 12549.

9. Byrd Anti-Lobbying Amendment

Byrd Anti-Lobbying Amendment (31 U.S.C. 1352), bidders that apply or bid for an award exceeding $100,000 must file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. 1352. Each tier must also disclose any lobbying with non-Federal funds that take place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award.

10. Procurement of Recovered Materials

For participating agency purchases utilizing Federal funds, bidder agrees to comply with Section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act where applicable and provide such information and certifications as a participating agency may require to confirm estimates and otherwise comply. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR Part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds $10,000 or the value of the quantity acquired during the preceding fiscal year exceeded $10,000; procuring solid waste management services in a manner that maximizes energy and resource recover, and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

11. Profit as a Separate Element of Price

For purchases using federal funds in excess of $150,000, a participating agency may be required to negotiate profit as a separate element of the price. See 2 CFRR 200.323(b). When required by a participating agency, bidder agrees to provide information and negotiate with the participating agency regarding profit as a separate element of the price for a particular purchase. However, bidder agrees that the total price, including profit, charged by the bidder to the participating agency shall not exceed the awarded pricing, including any applicable discount, under the bidders contract with AEPA.

12. General Compliance with Participating Agencies

In addition to the foregoing specific requirements, bidder agrees, in accepting any purchase order from a participating agency, it shall make a good faith effort to work with participating agency to provide such information and to satisfy requirements as may apply to a particular purchase or purchases including, but not limited to, applicable record keeping and record retention requirements as noted in the Federal Acquisition Regulation, FAR 4.703(a).

By initialing the table (1-12) and signing below, I certify that the information in this form is true, complete and accurate and that I am authorized by my business to make this certification and all consents and agreements contained herein.

Bid Affidavit

Instructions: This form must be signed by the business's authorized representative and notarized below. If awarded, the Bidder is required to produce a copy of this document for each Member Agency with which it contracts.

1. The undersigned, is duly authorized to represent the persons, business and corporations joining and participating in the submission of the foregoing bid (such persons, business and corporations hereinafter being referred to as the bidder), being duly sworn, on his/her oath, states that to the best of his/her belief and knowledge no person, business or corporation, nor any person duly representing the same joining and participating in the submission of the foregoing bid, has directly or indirectly entered into any agreement or arrangement with any other bidders, or with any official of the ***Member Agency***, or any employee thereof, or any person, business or corporation under contract with the ***Member Agency*** whereby the bidder, in order to induce the acceptance of the foregoing bid by the ***Member Agency***, has paid, or is to pay to any other bidder, or to any of the aforementioned persons, anything of value whatever, and that the bidder has not, directly nor indirectly entered into any arrangement, or agreement, with any other bidder or bidders which tends to or does lessen or destroy free competition in the letting of the contract sought for by the foregoing bid.
2. This is to certify that the bidder, or any person on his/her behalf, has not agreed, connived, or colluded to produce a deceptive show of competition in the manner of the bidding, or award of the referenced contract.
3. This is to certify that neither I, nor to the best of my knowledge, information and belief, the bidder, nor any officer, director, partner, member or associate of the bidder, nor any of its employees directly involved in obtaining contracts with the ***Member Agency***, or any subdivision of the state has been convicted of false pretenses, attempted false pretenses, or conspiracy to commit false pretenses, bribery, attempted bribery or conspiracy to bribe under the laws of any state or federal government for acts or omissions after January 1, 1985.
4. This is to certify that the bidder, or any person on his behalf has examined and understands the terms, conditions, scope of work and specifications, and other documents of this solicitation and that any and all exceptions have been noted in writing and have been included with the bid submittal.
5. This is to certify that if awarded a contract, the bidder will provide the equipment, commodities, and/or services to members and affiliate members of the Agency in accordance with the terms, conditions, scope of work and specifications and other documents of this solicitation in the following pages of this bid.
6. This is to certify that the bidder is authorized by the manufacturer(s) to sell all proposed products on a national basis.
7. This is to certify that we have completed, reviewed, approved and have included all information that is required of these bid forms.

Acceptance of Bid & Contract Award

Association of Educational Purchasing Agencies

Instructions: PART I of this form is to be completed by the Bidder and signed by its Authorized Representative. PART II will be completed by the AEPA Member Agency only upon the occasion of the bid award. If approved by AEPA, the Bidder is required to produce a copy of the document for each of the AEPA Member Agency with which it contracts.

PART I: BIDDER

In compliance with the Invitation for Bid (IFB), the undersigned warrants that I/we have examined all Instructions to Bidders, associated documents, and being familiar with all of the conditions of the bid, hereby offer and agree to furnish all labor, materials, supplies and equipment incurred in compliance with all terms, conditions, specifications and amendments associated with this IFB and any written exceptions to the bid. Signature also certifies understanding and compliance with the certification requirements of the AEPA Member Agency's Terms and Conditions and/or Special Terms and Conditions. The undersigned understands that their competence, ability, capacity and obligations to offer and provide the proposed tangible personal property, professional services, construction services and other services on behalf of the Bidder Partner as well as other factors of interest to the AEPA Member Agency as stated in the evaluation section, will be a consideration in making the award.

PART II: AWARDING MEMBER AGENCY

Your bid response for the above identified bid is hereby accepted. As a Bidder Partner you are now bound to offer and provide the products and services identified within this IFB, your response and approved by AEPA, including all terms, conditions, specifications, exceptions and amendments. As Bidder Partner, you are hereby not to commence any billable work or provide any products or services under this contract until an executed purchase order is received from the AEPA Member Agency or Participating Entities. The intent of this contract is to constitute the final and complete agreement between the AEPA Member Agency and Bidder Partner, and no other agreements, oral or otherwise, regarding the subject matter of this contract, shall bind any of the parties hereto. No change or modification of this contract shall be valid unless in writing and signed by both parties to this contract. If any provision of this contract is deemed invalid or illegal by any appropriate court of law, the remainder of this contract shall not be affected thereby. The initial term of this contract shall be for up to fifteen (15) months and will commence on the date indicated below and continue until February 28, 2020, unless terminated, canceled or extended. By mutual written agreement as warranted, the contract may be extended month by month up to six (6) months or for three (3) additional 12-month periods.

This document has important legal consequences. Consultation with an attorney is encouraged with respect to its completion or modification.

Any singular reference to Contractor, Surety, Owner or other party shall be considered plural where applicable.

BOND AMOUNT:
ONE HUNDRED THOUSAND NO/100'S*($100,000.00)****

PROJECT:
(Name, location or address, and Project number, if any)
PLAYGROUND & RECREATIONAL EQUIPMENT

Project Number, if any: **AEPA #019.5-B**

The Contractor and Surety are bound to the Owner in the amount set forth above, for the payment of which the Contractor and Surety bind themselves, their heirs, executors, administrators, successors and assigns, jointly and severally, as provided herein. The conditions of this Bond are such that if the Owner accepts the bid of the Contractor within the time specified in the bid documents, or within such time period as may be agreed to by the Owner and Contractor, and the Contractor either (1) enters into a contract with the Owner in accordance with the terms of such bid, and gives such bond or bonds as may be specified in the bidding or Contract Documents, with a surety admitted in the jurisdiction of the Project and otherwise acceptable to the Owner, for the faithful performance of such Contract and for the prompt payment of labor and material furnished in the prosecution thereof; or (2) pays to the Owner the difference, not to exceed the amount of this Bond, between the amount specified in said bid and such larger amount for which the Owner may in good faith contract with another party to perform the work covered by said bid, then this obligation shall be null and void, otherwise to remain in full force and effect. The Surety hereby waives any notice of an agreement between the Owner and Contractor to extend the time in which the Owner may accept the bid. Waiver of notice by the Surety shall not apply to any extension exceeding sixty (60) days in the aggregate beyond the time for acceptance of bids specified in the bid documents, and the Owner and Contractor shall obtain the Surety's consent for an extension beyond sixty (60) days.

If this Bond is issued in connection with a subcontractor's bid to a Contractor, the term Contractor in this Bond shall be deemed to be Subcontractor and the term Owner shall be deemed to be Contractor.

When this Bond has been furnished to comply with a statutory or other legal requirement in the location of the Project, any provision in this Bond conflicting with said statutory or legal requirement shall be deemed deleted herefrom and provisions conforming to such statutory or other legal requirement shall be deemed incorporated herein. When so furnished, the intent is that this Bond shall be construed as a statutory bond and not as a common law bond.

INDEPENDENT ACCOUNTANTS' REVIEW REPORT

To Management
Romtec, Inc
Roseburg, OR 97471

We have reviewed the accompanying financial statements of Romtec, Inc. (a corporation), which comprise the balance sheet as of March 31, 2017 and 2016, and the related statements of income and retained earnings and cash flows for the year then ended, and the related notes to the financial statements. A review includes primarily applying analytical procedures to management's financial data and making inquiries of company management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, we do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

Our responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. Those standards require us to perform procedures to obtain limited assurance as a basis for reporting whether we are aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. We believe that the results of our procedures provide a reasonable basis for our conclusion.

Accountant's Conclusion

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Supplementary Information

The supplementary information contained in Schedules 1 through 4 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The information is the representation of management. We have not audited or reviewed the supplementary information and, accordingly, do not express an opinion, a conclusion, nor provide any form of assurance on such supplementary information.

See accompanying notes and independent accountants' review report

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(A) Nature of Business – Romtec, Inc. primarily manufactures and sells outdoor restroom facilities for parks and other uses. Romtec, Inc.'s facilities are located in Glide, Oregon, and it sells its products for use principally within the United States.

(B) Inventory – Inventories are stated at cost determined on the first-in, first-out method.

(C) Goodwill / Covenant Not To Compete – Romtec, Inc. has two goodwill accounts. One for the goodwill associated with the purchase of intellectual property, which it amortizes over an estimated life of 15 years. The other goodwill account was created on December 30, 2013, as part of a Purchase Agreement with the original owner of Romtec, Inc., David Bogan, and Romtec, Inc. does not amortize this goodwill. See Note 15 for further explanation. Management has elected not to test goodwill for impairment. This is a departure from generally accepted accounting principles which require that goodwill be tested annually for impairment and not be amortized. The covenant not to compete is also being amortized over 15 years.

(D) Fixed Assets – Fixed assets are stated at cost. For financial reporting purposes, depreciation is computed using the straight-line method of cost recovery. Recovery rates are based on the following

	Years
Leasehold Improvements	7-39
Equipment and Furniture	5-7
Automobiles	5
Computer Software	3

(E) Allowance for Doubtful Accounts – Management believes the accounts receivable to be fully collectible and, accordingly, has established no reserve for bad debts.

(F) Advertising Costs – Romtec, Inc. expenses all advertising costs when incurred and does not have any direct-response advertising requiring capitalization.

(G) Cash Equivalents – For purposes of the statement of cash flows, Romtec, Inc. considers all short-time securities purchased with a maturity of three months or less to be cash equivalents.

(H) Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(I) Reconciliation of Book Income to Taxable Income

	2017	2016
Book Income	$ 397,226	$ 53,670
Non Deductibles	54,849	40,140
Deductibles	(253,821)	(160,203)
Taxable Income before NOL	$ 198,254	$ (66,393)
Net Operating Loss Carryover	(66,393)	0
Taxable Income	$ 131,861	$ (66,393)

NOTE 2: INVENTORY

Inventory consisted of the following at March 31st.

	2017	2016
Component Parts	$ 199,168.77	$ 214,202.25
Finished Goods and Work-in-Progress	$ 161,206.92	$ 557,689.99
Total	$ 360,375.69	$ 771,892.24

NOTE 3: FIXED ASSETS

Fixed assets consisted of the following at March 31st.

	2017	2016
Leasehold Improvements	$ 413,384.01	$ 408,310.01
Shop Equipment & Tooling	$ 243,626.69	$ 264,437.69
Equipment - Office	$ 382,436.33	$ 577,412.49
Office Furniture	$ 88,157.03	$ 88,157.03
Automobiles	$ 113,970.94	$ 76,042.94
Total	$ 1,241,575.00	$ 1,414,360.16
Less Accumulated Depreciation	$ (929,328.17)	$ (1,110,409.25)
Total	$ 312,246.83	$ 303,950.91

NOTE 4: REVOLVING LINE OF CREDIT

Romtec, Inc. has an agreement for a line of credit with Oregon Pacific Bank which provides for working capital financing. The line of credit agreement contains certain financial covenants.

2017	2016
$927,737.42	$999,090.07

The revolving line of credit for $1,000,000 has an interest rate of Wall Street Journal prime rate plus .25% subject to 4.50% floor rate. The line of credit is secured by all accounts receivable, inventory and general intangibles of both Romtec, Inc. and Romtec Utilities, Inc. Guaranteed by Romtec Utilities, Inc. and David Bogan, Timothy D. Bogan and Sarah Bogan-Grant each 50% of outstanding debt not to exceed $250,000. The line renews and is due on July 1, 2018.

NOTE 5: INCOME TAXES

For income tax purposes, Romtec, Inc. uses accelerated depreciation, as well as the election to expense the cost of assets acquired up to maximum amounts allowed under section 179 and 168(k), resulting in the use of less tax depreciation. The tax amortization/depreciation taken in excess of book amortization/depreciation was $235,322 and $157,575 as of March 31, 2017, and March 31, 2016, respectively. This difference is mostly due to the amortization of goodwill as discussed in Note 15.

Temporary income tax reporting differences consists of the book and tax depreciation differences and an inventory adjustment for capitalization of indirect expenses under section 263A. No provision has been made for deferred income taxes occurring as a result of these temporary differences. The amount of deferred income taxes has not been determined.

Romtec, Inc. had federal tax expense of $35,626 and state tax expense of $7,399 for the year ended March 31, 2017. At March 31, 2016, the federal tax expense was $0 and the state tax expense was $3,150.

NOTE 6: LONG-TERM DEBT

Long-term debt consisted of the following at March 31st.

	2017	2016
Note payable to Sarah Bogan, Dated October 1, 2003, payable in monthly installments of $8,660.71 including interest at 6.25% per annum. Matured April 2016.	$ 0.00	$ 8,615.69
Note payable to David Bogan, for Purchase agreement, payable in monthly installments of $27,025.86 including interest at 2.0%. Matures, December 15, 2023.	$ 1,910,810.01	$ 2,193,828.74

Oregon Pacific Bank Property Note, payable in monthly installments of $3,135.10 including interest at 4.00% per annum beginning 01/01/2013. Matures, December 1, 2032.	$ 356,617.42	$ 401,695.73
Oregon Pacific Bank Equipment Note, payable in monthly installments of $1,787.01 including interest at 4.50% per annum beginning 01/01/2013. Matures, December 1, 2019	$ 53,553.74	$ 72,142.64
Oregon Pacific Bank Equipment Note #2, payable In monthly installments of $677.82 including interest at 4.25% per annum beginning 12/01/2014. Matures, November 5, 2019	$ 20,456.95	$ 27,545.62
Oregon Pacific Bank Toyota Avalon Loan, payable in monthly installments of $559.16 including interest at 4.25% per annum beginning 12/17/2015. Matures, December 2, 2020	$ 23,084.28	$ 28,598.67
Note payable to Daniel Sean Bogan, dated April 1, 2017, payable in monthly installments of $1,164.37 including interest at 6.0% per annum beginning 4/1/2017. Matures, March 1, 2023.	$ 70,255.89	$ 0.00
Total	$ 2,434,778.29	$ 2,732,427.09
Less current maturities	$ (381,047.93)	$ (362,354.53)
Long-term debt, net of current maturities	$ 2,053,730.36	$ 2,370,072.56

Maturities of long-term debt are as follows for the years ending March 31st.

2018	$ 383,872.79
2019	362,504.29
2020	349,280.79
2021	350,506.84
2022	359,239.67
2023 and thereafter	265,374.15
Total	$ 2,070,778.53

NOTE 7: **RELATED PARTY TRANSACTIONS**

(A) Romtec, Inc. entered into a new lease agreement beginning January 1, 2014, to rent office and yard space from Bogan Siblings, LLC at the rate of $3,569.00 per month. On August 1,

2015, the rent amount changed to $2,498.30 per month. Bogan Siblings, LLC consists of Bogan family members who own stock in Romtec, Inc.

(B) Romtec Inc. received $496,740.55 and $534,060.71 from Romtec Utilities, Inc. for shared costs in the years ending March 31, 2017, and March 31, 2016, respectively. Of this amount $216,000.00 was for management fees, $291,407.37 was for shared salary, $21,593.64 was for AZ lease reimbursements, and $16,239.54 was for various overhead costs, offset by a reimbursement to Romtec Utilities, Inc. of $48,500.00 for prepaid contract fees. On April 1, 2015, the management fee agreement was amended to a flat $20,000 per month paid to Romtec, Inc. by Romtec Utilities, Inc. for management fees excluding payroll allocated monthly. On January 1, 2016, this allocation was reduced to $18,000 per month. Romtec Utilities, Inc. is a related party by reason of Bogan family shareholders owning stock in both Romtec, Inc. and Romtec Utilities, Inc.

(C) On January 1, 2016, Bogan Siblings, LLC began paying Romtec, Inc. $250.00 per month for management fees. On October 31, 2016, a decision was made to reverse all management fees due from Bogan Siblings, LLC and cease the monthly accrual. Bogan Siblings, LLC is a related party by reason of Bogan family shareholders owning stock in Romtec, Inc.

(D) Romtec, Inc. paid $187,335.32 to Romtec Utilities, Inc. which was for direct purchases of fabricated materials from the fabrication shop.

(E) Romtec entered into a 10 year prepaid lease with David Bogan on March 31, 2010, for office space located in Yuma, Arizona. $215,936.00 was prepaid during the fiscal year ending March 31, 2010, and will be amortized to expense over the 10 year lease term.

(F) Romtec, Inc., Romtec Utilities, Inc., and Bogan Siblings, LLC are under common control and the existence of that control could result in operating results or financial position of the entity significantly different from those that would have been obtained if the entities were autonomous.

NOTE 8: LEASES

(A) Buildings:

1. Romtec, Inc. leased office space from David Bogan in Yuma, Arizona, during the fiscal year ending March 31, 2017. The lease is prepaid in the amount of $149,355.59 and will expire on 03/31/2020. $21,594.00 will be amortized to lease expense annually over the term of the lease.
2. Romtec, Inc. entered into an agreement to lease office and manufacturing facilities in Glide, Oregon, from Bogan Siblings, LLC effective January 1, 2014. The members of Bogan Siblings, LLC consist of the Bogan family members who have stock ownership in Romtec, Inc. The monthly rental payment under the lease agreement is $3,569.00. On August 1, 2015, the monthly rent was reduced to $2,498.30. Total rents paid under this lease in the fiscal year ending March 31, 2017, amounted to $29,979.60.

(B) Equipment Items:

1. Romtec, Inc. leased one vehicle during the fiscal year ending March 31, 2017. The total monthly lease payments for all vehicles in the fiscal year amounted to $8,853 Future minimum lease payments are as follows:

Year Ending March 31st:	
2018	$ 63,022
2019	61,424
2020	61,424
2021	61,424
2022	61,424
	$ 308,718

NOTE 9: EMPLOYEE BENEFITS

(A) Eligible Romtec, Inc. employees participate in the Romtec, Inc. Profit Sharing Prototype Plan (401k) and a new plan document was created on April 1, 2014, by Guardian Retirement Plan Solutions. This plan is a "safe harbor" plan that requires Romtec, Inc. to contribute 3% of eligible employee compensation to a participant account regardless of employee deferred contributions. The employee may contribute up to the maximum amount allowed by law to the plan. Depending on overall economic factors and at the discretion of the Board of Directors, Romtec, Inc. may elect to make a profit sharing contribution on behalf of the eligible participants. For the year ended March 31, 2017, the Safe Harbor contributions by Romtec Inc. amounted to $43,150.04 and the year-end profit sharing contribution amounted to $13,878.81. For the year ending March 31, 2016, the Safe Harbor Contribution was $41,682.88 and the profit sharing contribution was $0.

(B) Romtec, Inc. provides its eligible employees with a $50,000 life insurance policy through LifeMap Insurance Company. Eligible employees are also provided with long term disability insurance through USAble Life Assurance Company. Employees are covered at 60% for a maximum of $6,000.00. Romtec, Inc. also provides medical insurance, paid time off and holiday plans for its eligible employees. Employees are required to pay medical premiums for any dependents. A Dental and Vision plan is offered, and employees are required to pay all premiums. A Section 125 flexible spending plan also supplements the health plans.

NOTE 10: CONCENTRATIONS OF CREDIT RISK

Romtec, Inc. grants credit to its customers during the normal course of business. Romtec, Inc. performs ongoing credit evaluations of its customers' financial condition and generally requires bonding or prepayment from its non-government customers.

NOTE 11: CONCENTRATIONS OF SUPPLIERS AND CUSTOMERS

Romtec, Inc. has six main suppliers of building parts which are made from Company owned molds or patterns. During the year, management was able to increase the number of suppliers from three in the prior year to six at the end of the reporting period. This increase did not result

in an adverse effect on the timeliness of manufacturing or loss in sales as may have been expected.

NOTE 12: COMMON STOCK

	Shares Issued And Outstanding March 31, 2013	Shares Redeemed and Retired	Shares Issued and Outstanding March 31, 2014
Class A voting shares, no par value (500 shares authorized)	370	99	271
Class B nonvoting shares, no par value (2,000 shares authorized)	1,080	0	1,080

NOTE 13: LONG-TERM LIABILITY TO RELATED PARTY

Effective September 30, 2004, Romtec, Inc. entered into an employment agreement with Sarah Bogan. The employment agreement cancelled the Deferred Compensation payable to Sarah Bogan. This resulted in a gain on cancellation of debt in the amount of $756,319 as reflected in Other Income. The employment agreement between Romtec, Inc. and Sarah Bogan provides for a salary and benefits that total approximately the same monthly amount as was being paid under the Deferred Compensation payable. The employment agreement is to terminate 20 years from the date of the employment agreement or death of the employee. See Note 15 for further discussion regarding related party long-term liabilities.

NOTE 14: LITIGATION WITH THE CITY OF PORTLAND, OREGON

Effective February 7, 2014, Romtec, Inc. entered into a settlement agreement with the City of Portland, Oregon. This settlement agreement resolved pending litigation centered on whether or not Romtec, Inc.'s product "The Sidewalk Restroom" infringed on the copyright of the city's "Portland Loo". All claims and actions were dismissed upon execution of this settlement agreement. Both Romtec, Inc. and the City of Portland are free to continue to manufacture and market their respective products. As a condition of the settlement agreement, Romtec, Inc. has agreed to pay a royalty to the City of Portland equal to 8% of the net invoiced revenues received from the sale of The Sidewalk Restroom from the date of the agreement, until the agreement expires on February 6, 2039. To date, there has been one sale of this model, and royalties of $6,051.79 were payable to the City of Portland as of March 31, 2017.

NOTE 15: PURCHASE AGREEMENT

On December 30, 2013, Romtec, Inc. entered into a Purchase Agreement with David Bogan. The Purchase Agreement resulted in a goodwill covenant in the amount of $2,315,000 and redemption of stock of $500,000.00. In addition, a promissory note

was created On December 31, 2013, in the amount of $2,815,000.00. See Note 6 for promissory note terms and remaining balance.

In accordance with generally accepted accounting principles, Romtec, Inc. has elected not to amortize the goodwill for book purposes. However, for tax purposes this amount will be amortized over a period of 15 years, which results in no tax liability in the current year.

NOTE 16: ALLOWANCE FOR WARRANTY AND ERRORS & OMMISSIONS

Effective March 31, 2015, Romtec established an Allowance for Warranty and Errors & Omissions account. The purpose of this account is to fund future costs related to the one-year warranty that Romtec, Inc. offers with the building packages it sells. Prior to the establishment of this account, when a warranty issue arose, Romtec, Inc. would have to absorb costs related to prior year sales in the current year. The intent going forward is to properly match warranty expenses with the related revenue in the same fiscal year.

For the year ending March 31, 2017, this allowance account was eliminated. After careful review of warranty expenses and exposure issues, management concluded that warranty costs were immaterial and the use of an allowance account is unnecessary.

Note 17: SUBSEQUENT EVENT

Subsequent events were evaluated through October 31, 2017, and no events were identified that were required to be presented.

Oregon Pacific Bank

September 26, 2018

To: AEPA
Association of Educational Purchasing Agencies
2111 Pontiac Lake Road
Waterford, Michigan 48328

RE: Romtec, Inc.

Gentlemen,

This is a letter of reference and assurance that our good customer Romtec, Inc. and the Bogan family have a long history of successful business designing pre-engineered layouts and structures that can be assembled on site as well as a variety of structures from kiosks to log pavilions, control sheds to concession stands, storage rooms and gatehouses.

The company is well known as the leading supplier of pre-engineered public restrooms. The company is also known nationally, and especially in the west, for its quality designs, fast lead times and the ability to get projects approved and installed quickly.

Oregon Pacific Bank enjoys a significant and meaningful business relationship having provided credit and account services. The Bank provides credit at a medium-seven figure with deposit accounts averaging a medium six figures. All accounts have been managed as agreed. We would not hesitate to entertain additional financial accommodations for the company.

Oregon Pacific Bank holds this customer and the principals in high regard.

Sincerely and with regard,

Charley Thompson

Cooperative Marketing Plan

There are many opportunities for cooperative marketing campaigns between the Association of Educational Purchasing Agencies and Romtec and Romtec Utilities to market our products through the AEPA contract. Romtec and Romtec Utilities developed these channels, platforms, and lists over many years to represent an active base of purchasers and project managers in our market.

Email

Romtec, Romtec Utilities and AEPA will utilize segmented email campaigns to market our availability on the AEPA contract to purchasers. Additionally, Romtec and Romtec Utilities can develop cobranded marketing pieces that can be attached to various email communications with customers. These attachments would market the benefits of the AEPA contract in addition to the Romtec and Romtec Utilities product lines. Increasing the following and support for purchasing contracts is a great way for Romtec and Romtec Utilities to continue to sell to schools and other institutes of education. Our client email list included many organizations directly involved in this market, and will benefit by learning about the procurement of Romtec and Romtec Utilities products through the AEPA contract.

Direct Mail

Romtec, Romtec Utilities and AEPA can utilize direct mail marketing to purchasers. Direct mail pieces are typically cobranded (example shown above), utilizing a single piece to market for both Romtec and Romtec Utilities and AEPA. Direct mail campaigns can also be developed to include separate promotional pieces for both Romtec and Romtec Utilities and AEPA. Romtec is able to produce informational sheets to accompany product catalogs that provide detail information about the AEPA. This sheet or its design could also be available from the AEPA to be printed and mailed by Romtec and Romtec Utilities. The intent of direct mail campaigns is to market each agency with a tangible a permanent material ad that will have a tangible value to the recipient. Product catalogs are retained by many purchasers as a valuable reference for current or future products.

Targeted PPC Ads

Romtec and Romtec Utilities utilize “pay-per-click” or PPC advertising campaigns. These campaigns allow our ads to be displayed to specific audiences related to search terms and browsing behavior. Additionally, this allows Romtec and Romtec Utilities to remarket to website visitors with ads that display across the internet. PPC advertising allows for very specific ad targeting. Romtec and Romtec Utilities can segment our audience to target specific internet traffic as related to search terms, browsing behavior, or even location to display ads only to people who work in or for an educational institution. Then we can develop a specific ad with written copy that specifies the AEPA contract. This will expose branding to education professionals searching for Romtec and Romtec Utilities products to ads with promotion of the AEPA contract. For the most ad relevance, these ads will link to a contracts page on the Romtec and Romtec Utilities websites specifically mentioning the AEPA contract.

Website Content Development

One aspect of PPC advertising is relevance as determined by search engine optimization (SEO) and keyword density. This is best affected by development of website content for the Romtec and Romtec Utilities websites and also the AEPA website. This is a great way to boost the performance of a PPC campaign, but this same tactic can also generate traffic that is organic in nature. Romtec, Romtec Utilities, and AEPA can work together to develop organic linking through each website. Backlinks are a valuable tactic for increasing performance on search engines, and each organization (Romtec, Romtec Utilities, and AEPA) would benefit from developing targeted links to the website of each other. Additionally if there is an availability for guest blogging or other opportunities for shared content, this strategy is successful for developing strong backlinks and SEO.

Sales Promotional Materials

Romtec and Romtec Utilities utilize an internal sales team that primarily works through inside sales; however, outside sales is a growing model that is working with our current sales team. Our outside sales strategies benefit from educational materials that can be distributed during face-to-face sales meetings with clients and potential clients. Romtec and Romtec Utilities can employ the existing travel of our outside sales efforts to distribute any currently available materials about AEPA contacts. Additionally, Romtec can provide similar cobranded pieces and materials that are developed for email and direct mail campaigns. This makes the most use of the materials and gets marketing information directly into the hands of the people who need it.

Part C – Member Agency (State) Terms and Conditions

Table of Contents

1. Member Agency (State) Terms and Conditions 1
2. Common Terms and Conditions 1
3. Member Agency General Overview Summary 2
4. State Specific Terms and Conditions 3

1. Member Agency (State) Terms and Conditions

A single IFB is being published and distributed on behalf of the Member Agencies in many states. Differences in contract implementation and operation will exist between the Member Agencies. Each state may have special laws relating to this procurement that must be adhered to in addition to the previously stated constraints. *When Member Agency/State Specific Terms and Conditions differ from the General Terms and Conditions, the Member Agency/State Specific Terms and Conditions will prevail.*

2. Common Terms and Conditions

Active Promotion of Contract: Agencies require that the Vendor Partner take ownership and actively promote the contract in cooperation with the AEPA Member Agency to all of the Agencies' qualified Participating Entities.

Sales to Participating Entities: AEPA Member Agencies require that all awarded Vendor Partners offer the Member Agency contract opportunity to all qualified Participating Entities of the cooperative.

Legal Obligations: All Vendor Partners shall comply with all applicable Federal, State and Local Laws, Codes and Regulations while fulfilling the contract. It is the Bidder's responsibility to be aware of and comply with all state and local laws governing this procurement. Applicable laws, codes, and regulations (etc.) must be followed even if not specifically identified herein.

Administrative Fees: AEPA Member Agencies charge Vendor Partners an administrative fee (a percentage of sales in their respective state or states that they extend the AEPA pricing to). Administrative Fees are generally paid to each Member Agency on a quarterly basis. Additional details of how these fees are charged may be found under each state's Terms and Conditions.
A summary of each State's Administrative Fee, any special terms and conditions, and special ordering process requirements is listed here for the convenience of the Bidders.

4. State Specific Terms and Conditions

1. California, Monterey County Office of Education dba CalSave

1) Governing Law and Venue

The laws of the State of California govern the Contract and prevail in the interpretation and administration of the Contract. California-specific Terms and Conditions prevail over any General Terms and Conditions. Each and every provision of law and clause required by law to be included in the Contract shall be deemed to be inserted herein, and the Contract shall be read and enforced as though it were included. If through mistake or otherwise any such provision is not included, or is not currently included, then upon application of either party the Contract shall be physically amended to make such inclusion or correction.

The venue for any litigation arising out of or related to the Contract shall be with either the Superior Court in and for the County of Monterey, State of California or the Federal District Court for the Northern District of California, San Jose Division.

2) Authority

For California, this bid is issued under the authority of the elected Monterey County Superintendent of Schools, who administers the Monterey County Office of Education (MCOE), located at 901 Blanco Circle, Salinas California, 93912. In this document, MCOE may be referred to as Agency, being distinct from other parties who may use this contract who are hereinafter referred to as Local Education Agencies (LEAs), regardless of their hierarchy or their political and organizational status as schools or municipalities.

3) CalSAVE, Administration, and Agent

Contracts awarded and Awarded Contractors/Vendors will automatically be part of the CalSAVE program, and by bidding a vendor must agree to participate. CalSAVE is the cooperative purchasing program founded by the Monterey County Office of Education and administered by the Epylon Corporation under a contract with MCOE, in cooperation with the California County Superintendents Educational Services Association (CCSESA). MCOE is the lead agency for all Contracts, and the Monterey County Superintendent of Schools is the authority for the solicitation, evaluation and award of all contracts. Epylon serves as MCOE's agent, but only the Monterey County Superintendent of Schools has the authority to award contracts. Correspondence and communication related to the contract award or administration of the program should be directed to Epylon, 630 San Ramon Valley Blvd., Suite 210, Danville, CA 94526.
MCOE reserves the right to change agents or to change the contact name of existing Agent's personnel administering the contract. If Agent or Agent's personnel change, Awarded Contractors/Vendors will be notified with new instructions.

4) Transaction Fees

Transaction Fees are the funding source for the operation of the self-supporting CalSAVE cooperative purchasing program. Awarded Contractors/Vendors shall be required to pay a Transaction Fee for all purchases by LEAs made through the awarded Contract. For the purpose of this bid through Monterey County Office of Education and all Contracts awarded using this document, the Transaction Fee shall be 2 percent of Net Sales, which means gross sales less returns and cancelled orders within 30 days, shipping and sales and other taxes (excluding taxes based on net income). Transaction Fees will not be charged to or paid by the buyers themselves. Neither Awarded Contractor/Vendor nor its designated authorized reseller(s) shall include any additional amount corresponding to the Transaction Fees in the awarded Contract prices. This Transaction Fee applies to all orders, regardless of the method used to submit the order, or the quantity or dollar amount of the order.

Epylon will collect the Transaction Fee on behalf of the CalSAVE program. The Contractor/Vendor will make all participation fee payments within two weeks after sending the quarterly report. Checks are to be made payable to the Epylon Corporation and sent to 630 San Ramon Valley Blvd., Suite 210, Danville, CA 94526.

5) Non-Conforming Jurisdictions

Notwithstanding Section A.4 (immediately above) no Transaction Fee is authorized to be charged to Awarded Contractors/Vendors for sales within any jurisdiction where prohibited by law or local- government policy. Instead, the cost of products, services, licenses and goods sold under this contract in such jurisdictions shall be the same as for all school districts in all other counties of California. However, any LEA using this contract where Section 4 fees are not permitted shall be required to pay a 2 percent fee for use of the contract, imposed by MCOE on the authority of Public Contract Code Section 20118 and 20652, which allows MCOE to charge reasonable costs to the public corporation or agency for furnishing the services incidental to the purchase of items under contract.

6) Reports

The Contractor/Vendor will compile a quarterly report listing each purchase made by participating Agencies under this contract, and send them by the 15th of April, July, October, and January to Racquel Landolf with the e-mail address of

rlandolf@epylon.com. These reports shall be in Microsoft Excel format and shall have file names that identify the contractor/vendor and the month being reported. The file at a minimum shall include the fields listed below and shall allow for sorting on any of these fields:

- Date of Order
- Name of Participating Agency (LEA)
- Description of Item Purchased
- Manufacturer's SKU Number
- Quantity
- Contract Unit Price
- Extended Price
- List Price Before AEPA Discount

7) Length of Term

The term of the agreement shall commence on the date of the award and continue as stipulated in General Terms and Conditions, unless terminated, canceled or extended. Contract may be terminated by MCOE if LEAs have not used the contract in any 12-month period, or if orders from participating LEAs do not total
$10,000 in any 12- month period. California statutory term limits and extensions shall apply.

8) Marketing and Advertising under this Agreement

Vendor will actively promote the use of this contract by LEAs in California. Vendor must comply with the marketing plan offered as part of its bid submission. Unless other arrangements are made with the CalSAVE administrator, vendor is also required to perform the following:
