Superintendent Goals

This component of the evaluation tool may contain a changing list of annual goals from year to year for the board to provide feedback on.

Superintendent’s Response:

Superintendent Evaluation Summary

The superintendent should identify no more than four performance areas on which to focus their growth professionally. Note: Targeting in excess of four performance areas will make it difficult for the individual to address the areas adequately. When his/her performance is at a high-level, sustaining, refining, and replicating the performance is the goal. Follow through will ensure the success of the superintendent and the board.

The Performance Plan should consist of:

- goals (**what** must he/she do to achieve the objective or what is the intended result)
- performance indicators (**how** will the board measure progress and/or success)
- timeline (**when** will progress/success be assessed or completion date)
- signature (once the Performance Plan has been completed and reviewed the board president and superintendent will both sign and date placing a copy in the superintendent’s personnel file and a copy will be retained by the board president)

Note: The Performance Plan should be reviewed and updated throughout the year to assess progress and success. Modifications should only be made if the board/superintendent discuss and agree upon appropriate changes.
