March 11, 2020

Dear Mr. Widdifield and Minden Board of Education:

Please accept this letter as my resignation from Minden Public Schools as high school English/journalism teacher. My last year of employment will be this school year.

I am thankful for the enjoyable years I have worked in the school. I have appreciated being a teacher in this system and able to work alongside excellent colleagues. I have had many opportunities to grow and develop in my career field personally and professionally. During the years I have been employed, education has changed dramatically, and it has been exciting, challenging, and energizing to be a part of all the of the new advances. I have appreciated the administration's encouragement and support to embrace and implement new objectives.

I will never forget my time here at Minden Public Schools. It is a wonderful place for any teacher to work. The Minden community, students, faculty, school board, administration, and quality of education are stellar. It has been a pleasure to come to work each day being surrounded by coworkers who make the welfare of the whole student a top priority.

Please let me know if you need any assistance with the transition of passing of my responsibilities to my successor. I would be glad to help however I can. I wish Minden Public Schools continuing success in the future.

Sincerely,

Personnel - All EmployeesInfectious Diseases

In the event that a student, employee, or other person in frequent contact with students, employees or others present in Minden Public Schools contracts an infectious disease, the determination of whether that person should be permitted to remain on duty, attend school or participate in school activities shall be made on a case-by-case basis. The following factors will be taken into consideration:

- (1) The behavior, neurological development, and physical condition of the student;
- (2) The expected type of interaction with others in the school setting;
- (3) The impact on both the infected person and others in that setting.

The determination of whether or not the infected person remains in the school shall be based on scientific and medical evidence.

When it is determined that an infected student poses an imminent threat to the health and safety of the school community or that the student's conduct presents a clear threat to the physical safety of himself, herself, or others, the provisions of the Communicable and Infectious Disease policies shall be implemented, providing for the exclusion of that student.

Any person with an infectious disease will retain the rights of confidentiality and privacy, limited to individuals in a need-to-know position (administrators and board members).
