Administrator Polk notified the Board since September 1, 2020, staff have taken 47 days of medical leave as a result of COVID-19. Staff are now considered essential so if staff can ensure they keep a 6ft distance from others and stay masked, they can come to work in lieu of quarantine. The first option would be for the staff member to work from another location to keep other staff safe. There has been good compliance with quarantining and staying masked in an effort to keep the Service Unit open and the staff safe.

Linda will pull data every month regarding how much medical leave has been taken and provide that information to the Board.

ESUCC is in partnership with the Department of Education to help with the expansion of the learning management system called Canvas. There are two people at ESU 7 who will be Canvas Trainers, Otis Pierce, and Director Marci Ostmeyer.

The Governor received some money, GEER money, those dollars are being used for a variety of ways. One way the GEER money is being used is to try to close the homework gap, giving students access to the internet. A survey was deployed to public and private schools in July. All of the schools who answered the survey will get an allocated dollar amount per student for a device.

AESA presentation will be pre-recorded.

NRCSA meeting - Administrator Polk attended a NRCSA meeting and provided a summary of topics discussed.

The duties of the receptionist have been distributed among four support staff. Contracts for these staff have been adjusted to allow for additional compensation. No questions or concerns from the Board.

6.4. Legislative Update

The Legislature has adjourned SINE DIE on August 13th.

LB1080, 881 introduced by Lathrop - Require school policies that prohibit sexual conduct with students and former students. ESU 7 policy related is Article IV, Section 10, D Standards of Ethical and Professional Performance for Professional Employees.

LB1186 - Require salary to be paid to injured school employees as prescribed.

LB1107 - Nebraska Property Tax Incentive Act

- 1. Put more money into Property Relief Fund and put a minimum that will go into that fund each year.
- 2. Income based tax credit. \$300M/ year
- Corporate income tax credits. Imagine Act (Old LB 775)
- \$300M to UNMC

Interim Study

- Administrator Pay
- LR 318 - Retirement Committee

Mike Dulaney has a feeling that health insurance will have low to moderate increase.

LB1080 is a grooming bill and discusses appropriate behavior between staff and students. Changes needing to be updated in the ESU 7 policy will be updated and reviewed in upcoming Board Meetings.

LB1186 - staff who get injured on the job with students are entitled 7 days of injury pay. The 7 days is there because typically Worker's Comp does not kick in until after 7 days.

LB1107 - property tax incentive act. Spending will be a conversation with our Senators. Forecasting Committee is not positive we will get all of this money.

Interim studies

- more toward administrative duties and responsibilities

- retirement committee (manage it)

Negotiations Committee - low to moderate increase for health insurance.

Negotiations Committee to meet at least once time before Nov. 1st. The Negotiations Committee will meet once in October, before the Board Meeting at 4:30-5:00pm to review some of the updated sheets and to look at the info coming from the trainings. At 5:00pm ESUEA will come in.

Section 6 - Notice of Meeting

Article II, Section 6, A Notice to Public

Reasonable advance publicized notice shall be given for meetings that are subject to the Open Meetings Act. The notice shall give the time and place of the meeting and contain an agenda of subjects known at the time of the notice or a statement that the agenda, which shall be kept continually current, shall be readily available for public inspection at the principal office of ESU 7 during normal business hours and on the ESU 7 Website.

~~The public notice shall be given by a method designated by the Board. The designated methods are publication or posting a reasonable time in advance of the meeting. At least 48 hours advance notice shall be considered sufficient. If notice is given by publication, the notice shall be published in a newspaper of general circulation in the ESU.~~ **The Board will give advance notice of meetings by publishing such notice in a newspaper of general circulation within the ESU's jurisdiction, the Columbus Telegram and, if available, on such newspaper's website. In addition to publishing, the Board may, in its sole discretion, also give advance notice of meetings by posting as an additional means of giving notice to the public.** If notice is given by posting, the notice shall be posted on the front door of the principal office of the ESU and ESU 7 Website.

For an emergency meeting, notice shall not be required to be given; however, the Board will complete minutes for such an emergency meeting as required by law.

The Board meetings that are subject to the notice requirement include all regular, special, or called meetings, formal or informal, of the ESU for the purposes of briefing, discussion of public business, formation of tentative policy, or the taking of any action of the ESU.

The notice requirement does not apply to:

1. Chance meetings or attendance at or travel to conventions or workshops of members of the Board at which there is no meeting of the Board intentionally convened, if there is no vote or other action taken regarding any matter over which the Board has supervision, control, jurisdiction, or advisory power.
2. Meetings of subcommittees unless a quorum of the Board attends or unless such subcommittees are holding hearings, making policy, or taking formal action on behalf of the Board.
3. Judicial or quasi-judicial proceedings, such as termination hearing proceedings.

Section 8 - Fair Labor Standards Act (Minimum Wage & Overtime)

Article IV, Section 8, A Fair Labor Standards Act (Minimum Wage & Overtime) Policy

Work week: The work week for overtime purposes shall be 12:00 a.m. Monday until 11:59 p.m. Sunday. The Administrator may establish a different 7-day period workweek from time to time for specified employees or employee groups.

Nursing Break: Educational Service Unit 7 will provide reasonable break time for an employee who wishes to express breast milk for her nursing child in a place other than a bathroom which is shielded from view and free from intrusion from co-workers and the public for one year after the child's birth.

Overtime: Overtime will be paid to non-exempt employees as required by law; that is, when a non-exempt employee works more than 40 hours in a work week. Compensatory pay in-lieu of overtime pay may be implemented in accordance with law. A non-exempt employee shall not work overtime without the express approval of the employee's supervisor.

Deductions from Salary: The ESU's policy is to not permit improper deductions from the salary of exempt employees who are required to meet a "salaried basis" test in order to be exempt from overtime. (Note: Teaching professionals are not subject to the salaried basis test). An employee who feels an improper deduction affecting exemption status has occurred may submit a complaint to the Administrator or the Administrator's designee, who shall promptly investigate the complaint. Reimbursement shall be made and a good faith commitment to comply in the future will be given in the event it is determined that an improper deduction affecting overtime exemption has been made.

Wage and Deduction Information: Within ten working days after a written request is made by an employee, the Administrator or designee shall furnish the employee with an itemized statement listing the wages earned and the deductions made from the employee's wages for each pay period that earnings and deductions were made. The statement may be in print or electronic format.

The ESU's policy is to authorize unpaid disciplinary suspensions of a full day or more for infractions of workplace conduct rules and to apply such policy uniformly to all similarly situated employees, including exempt employees who are required to meet a "salaried basis" test in order to be exempt from overtime. Unpaid disciplinary suspensions of a partial day or of a full day or more may be implemented for infractions of safety rules of major significance. Deductions of pay of a partial day or of a full day or more may be made for FMLA leaves and in the first and last weeks of employment. In addition, based on principles of public accountancy,

deductions from pay of a partial day or of a full day or more will be made for absences for illness, injury or personal reasons when accrued leave is not used or not available, and for absences due to any budget-required furlough.

~~The ESU will not terminate or retaliate against any employee for inquiring about or sharing compensation information for the purpose of determining whether the ESU gives equal pay for equal work. However, an employee with authorized access to wage information as part of their job function, who discloses the wages of other employees to those who do not have authorized access to other employees' compensation information, may be disciplined for such disclosure, up to and including termination, unless the disclosure was made in response to a complaint or investigation proceeding, hearing or other similar action.~~

Article IV, Section 5, E Professional Boundaries Between Employees and Students

All employees are expected to observe and maintain professional boundaries between themselves and students. A violation of professional boundaries will be regarded as a form of misconduct and may result in disciplinary action.

The following non-exclusive list of actions will be regarded as a violation of the professional boundaries that employees are expected to maintain with a student:

- Using email, text messaging, instant messaging or social networking sites to discuss with a student a matter that does not pertain to school or ESU related activities; such as the student's homework, class activity, school sport or club, or other school or ESU sponsored activity. Electronic communications with students are to be sent simultaneously to multiple recipients, not to just one student, except where the communication is clearly school-related and inappropriate for persons other than the individual student to receive (for example, emailing a message about a student's grades).
- Engaging in social-networking friendships with a student on Instagram, Facebook, or other social networking site. Material that employees post on social networks that is publicly available to those in the school community must reflect the professional image applicable to the employee's position and not impair the employee's capacity to maintain the respect of students and parents or impair the employee's ability to serve as a role model for children.
- Engaging in sexual activity, a romantic relationship or dating a student or a former student within one year of the student graduating or otherwise leaving the student's residing District.
- Making any sexual advance – verbal, written, or physical – towards a student.
- Showing sexually inappropriate materials or objects to a student.
- Discussing with a student sexual topics that are not related to a specific curriculum.
- Telling sexual jokes to a student.
- Invading a student's physical privacy (e.g., walking in on the student in a restroom).
- Hugging or other physical contact with a student that is initiated by the employee when the student does not seek or want this attention.
- Being overly "touchy" with a specific student.
- Allowing a specific student to get away with misconduct that is not tolerated from other students, except as appropriate for students with an IEP or 504 Plan.
- Discussing with a student the employee's problems that would normally be discussed with adults (e.g., marital problems).
- Giving a student a ride in the employee's personal vehicle without express permission of the student's parent, ESU Administrator, or school administrator unless another adult is in the vehicle.

- Taking a student on an outing without obtaining prior express permission of the student’s parent or school administrator.
- Inviting a student to the employee’s home without prior express permission of the student’s parent, ESU Administrator, and school administrators.
- Going to the student’s home when the student’s parent or a proper chaperone is not present.
- Giving gifts of a personal nature to a specific student.
- **Discussing alcohol, tobacco or other illicit drugs in a non-instructional setting, such as describing a party that the employee attended.**
- **Discussing another student’s or employee’s personal matters when it is not appropriate outside of the instructional setting.**
- **“Grooming,” which includes building trust with a student and individuals close to the student in an effort to gain access to and time alone with the student, with the ultimate goal of engaging in sexual contact or sexual penetration with the student, regardless of when in the student’s life the sexual contact or sexual penetration would take place.**

Appropriate exceptions are permitted to the foregoing for legitimate health or educational purposes and for reasons of familial relationships between employees and their children **who are students. A staff member seeking an exception must receive advance approval from his or her Administrator. If a staff member is unable to communicate with an Administrator in advance (such as in the event of an emergency), the staff member must notify the Administrator as soon as possible, but no later than 24 hours immediately following the event.**

Any person who suspects an ESU 7 employee of engaging in any prohibited conduct under this policy, including grooming, should contact the Administrator as soon as practical.

An employee who violates this policy may face discipline, up to and including termination of employment, and may be referred to the appropriate certification or credentialing agencies for further discipline.

A violation of this policy will result in referral to the Department of Health and Human Services, law enforcement, or both.

ADVOCACY

With your help, NASB is an advocate for public education and local school governance ...
and YOUR collective voice in the Legislature

As NASB represents the state's 260+ member districts and ESUs, relationships and communication are the keys to the success of the Association's advocacy work. NASB advocates for the standing positions and legislative resolutions approved by delegates all from member boards at the annual NASB Delegate Assembly held in conjunction with the State Education Conference each November. It is here, and throughout the year where our focus is to work for and with you on all of the issues that impact public education.

Can YOU really make a difference?
YES YOU CAN!

You are an elected official and a community leader. As a school board member, you are in an excellent position to educate and influence the legislative process, and are seen as a key resource on education policy for your district.

We encourage all boards to include a legislative update as a part of each meeting, and to discuss/share key legislative information with other board members and key individuals in the community. Advocacy is year-round, although much of the attention is garnered during the session itself.

Bookmark the Government Relations page of www.NASBonline.org for updates and information, and make sure to utilize *Legislative Notes*, summarizing all of the pertinent items related to public education in Nebraska.

Another great resource is www.NebraskaLegislature.gov.

**NO ONE IS MORE QUALIFIED TO TALK ABOUT YOUR SCHOOL DISTRICT, YOUR COMMUNITY,
AND YOUR NEEDS RELATED TO PROVIDING A QUALITY EDUCATION THAN YOU!**

Advocacy is on-going. Stay up to speed on the Legislature year-round.

- ✓ Become Familiar With Your Senator & Their Staff -- Don't take for granted the access we have as Nebraskans to our Senators & Federal Representatives. It is not like that everywhere. Take advantage of it! Be involved. Build the relationship. Be ENGAGED!
- ✓ Have a "legislative update" agenda item at each board meeting, and share key legislative information with your board, and your community
- ✓ Pass board policy specific to how you deal with legislative issues
- ✓ Utilize NASB's Legislative links, communication, the *Legislative Notes* newsletter, track specific bills, follow along on social media, and study the annual Advocacy Handbook
- ✓ Reach out to NASB's Legislative Team, and/or a member of the NASB Legislation Committee. Attend the various Legislative Lunches throughout the year across Nebraska.
- ✓ Stay up to speed with your local newspaper, social media, senator emails/newsletters, etc.

ASK YOURSELF: WHAT ARE YOU DOING FOR YOUR DISTRICT?
The Legislature needs to know school board members want to be involved!

- Establishes a state fund or funding mechanism that assists Nebraska public schools with the costs of maintaining and constructing facilities;
- Reduces our dependence on local property taxes by drawing revenue from multiple funding sources;
- Promotes the responsibility of locally elected school boards to make sound, transparent school budget decisions;
- Provides funding in a timely and predictable manner;
- Includes the principle of equalization;
- Funds the total excess allowable costs for special education and support services; and
- Recognizes that a long-term solution to education funding will require an ongoing, collaborative effort to execute a

S-46 — USE OF A UNIFORM VALUATION CALCULATION TO DETERMINE LOCAL RESOURCES AND STATE AID

(1998, amended 2015)

S-52 — DUTIES OF SCHOOLS

NASB believes that the primary function of Nebraska schools should be the education of students and that the Legislature should be discouraged from placing duties on school districts which are not directly related to education. (prior to 1995)

S-53 — EDUCATIONAL SERVICE UNIT GOVERNANCE

NASB supports governance of ESUs by elected boards and supports local determination of specific mechanisms of that governance. (2005)

STANDING POSITIONS

PROFESSIONAL STANDARDS & EMPLOYEE RELATIONS

S-54 — EDUCATIONAL SERVICE UNIT REORGANIZATION
NASB supports the continuation of ESUs as an effective means of delivering educational services to school districts and their students. S-69 — STAFF DEVELOPMENT AND EVALUATION

NASB supports in-service training, enrichment programs, and continuing education for professional staff. NASB supports Educational Service Units as an effective and efficient means to provide educational services to local school districts. ESUs should be responsible to the local school boards they serve. (1997)

S-71 — GUIDING THE P-16 EFFORT: 21ST CENTURY SKILLS

NASB urges state and local policymakers to forge a new working relationship in redesigning Nebraska's public education system for the 21st century, with a focus on improving student achievement and holding each level of the system accountable, from preschool through post-secondary education or training, in a manner that:

- a) Promotes multi-level communication and interaction between all P-16 partners to enhance student academic success;
- b) Offers all students a rigorous developmentally-appropriate curriculum designed to provide opportunities and choice, regardless of the post-secondary path they choose;
- c) Engages the assets of the full community;
- d) Utilizes data and technology to individualize education for students and to incorporate new learning into the design;
- e) Closes the achievement gap by focusing on quality teaching and learning opportunities;

f) Implements standards-based education fully in a seamless curriculum, so one level of the system builds on the next and the end result is known and understood from the beginning;

g) Provides sufficient resources that are adequate and sustainable at every level of the system to meet the challenge, resisting unfunded or underfunded mandates; and

h) Preserves the ability of local school boards and their communities to address local needs and challenges in a flexible manner using a variety of options. (2009, amended 2016)

S-72 — INDEPENDENT SCHOOL DISTRICTS

NASB supports the independence of established PK-12 school districts and also supports the cooperation and equalization of opportunity among school districts within learning communities. NASB believes that any legislation introduced impacting school districts or learning communities should seek to give districts and learning communities equalized resources. Any legislation should also allow these independent districts to maintain their right to governance, district curriculum, and the allocation of resources. (2006, amended 2013)

S-73 — LOCAL CONTROL FOR PUBLIC PK-12 SCHOOLS

NASB believes public PK-12 systems should be organized to serve communities throughout Nebraska without arbitrary size limits or a single model, which would not fit our state's varied communities. NASB opposes legislating arbitrary size limits and will work to remedy such limits currently in statute. (2006, amended 2013)

S-74 — LOCAL DISTRICT ADVOCACY

NASB supports the right and obligation of local school districts to advocate for legislative action that impacts their individual interests. (1996)

S-75 — NDE AUTHORITY

NASB opposes attempts by the legislature to preempt the statutory authority of the Nebraska State Board of Education to be the policy-forming, planning and evaluative body for Nebraska schools. (2017)

S-76 — NONPUBLIC SCHOOLS STANDARDS

NASB believes that nonpublic schools should have the same state standards as the public schools, including school approval, accreditation, teacher certification and endorsement, and safety standards. (prior to 1995)

S-77 — POLICY LEADERSHIP & VISION ON THE FUTURE OF NEBRASKA'S PK-12 SCHOOLS

NASB supports efforts to bring policy makers of the executive and legislative branches, educators, school boards, learning community coordinating councils, and ESU boards, and citizens together to determine the best course for the future delivery of PK-12 education to the students of the state. NASB boards emphasize increasing student achievement through governance structures that are clear, efficient, and controlled by the local district. (2003, amended 2008, 2010, 2013)

Important COVID-19 terms cheat sheet

Along with extended school closures, the COVID-19 pandemic has brought along many new terms that are not only used in the school context, but everyday life. Although you may have heard these terms before, it's important to understand exactly what these terms mean, especially with the reopening of schools in SY 2020-21.

1. COVID-19 is the abbreviation for the disease caused by the novel coronavirus (SARS-CoV-2) first identified in Wuhan, China in late 2019. Symptoms tend to appear up to 14 days after exposure to the virus and may include fever, chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, and gastrointestinal issues. The highly contagious nature of the disease, combined with its rapid spread and potentially deadly impact on certain populations, prompted districts across the country to end school-based instruction and switch to distance learning in the spring of 2020.

2. Epidemic means a widespread occurrence of an infectious disease that affects many people at the same time. If an epidemic escalates, it may become a pandemic.

3. Pandemic means a global outbreak of serious illness in people. A pandemic may be caused by a virus or other pathogen that most people have no natural immunity to and can easily be spread from person to person.

4. Self-isolation means the separation of a person who believes she has been exposed to a communicable disease, but is not yet symptomatic, from others who have not been exposed to prevent the possible spread of the communicable disease. Self-isolation may be voluntary or compelled by a federal, state, or local public health order.

5. Social distancing means a practice which is intended to stop or slow the spread of communicable diseases and is recommended by health-care officials. Under this practice, individuals avoid group settings, avoid mass gatherings, and stay approximately 6 feet away from others when possible.

6. Cloth face covering means a washable and reusable piece of cloth worn over the nose and

mouth and secured with ties around the head or loops over the ears. Cloth face coverings are a public safety measure intended to reduce the spread of the virus that causes COVID-19. The term includes face coverings made with a sewing machine, no-sew face coverings made of folded fabric and elastic loops, and handkerchiefs or bandanas tied around the back of the head. It does not include surgical masks or N95 respirators. According to the Centers for Disease Control and Prevention, cloth face coverings should not be worn by children under the age of 2, individuals who have trouble breathing, or individuals who cannot remove a face covering without assistance.

7. N95 respirator means a tight-fitting disposable mask worn over the nose and mouth that reduces exposure to large droplets and small particle aerosols, including the virus that causes COVID-19. N95 respirators are commonly used by medical professionals.

8. Surgical mask means a loose-fitting disposable mask intended to give the wearer protection against large droplets, splashes, or sprays of bodily fluids. It does not protect the wearer against airborne particles, but it may protect others from exposure to the virus that causes COVID-19. Although they can be purchased by the general public, surgical masks are most commonly worn by medical personnel.

9. Distance learning means generally the transmission of educational or instructional programming to geographically dispersed individuals and groups via telecommunications or a computer network.

10. Teleservices is a general term to describe services, including speech therapy services, school health services, and occupational therapy services, provided via telecommunications technology, including the Internet, when the provider and student are in different locations. It may also refer to consultation services provided via such technology when the provider and consulting staff member are in different locations. The term does not include audio-only telephone calls, email messages, or fax transmissions. ■

COVID-19 Funding and FY21 Funding

We have two sets of federal funding talking points: one specific to the next COVID package and what schools will need, and one specific to the annual appropriations for federal fiscal year 2021 (FY21).

COVID-19 Emergency Funding

As part of our ongoing advocacy related to the federal response to the COVID pandemic and federal support for schools, AESA has a very clear policy and funding priorities for the emergency appropriations package, which are outlined below.

Talking Points

- Congress must include \$200 billion in funding dedicated to K12 education, funding that will be critical in the ability of school districts to educate students this fall safely. The funding should retain the flexibility of the CARES Act funding, with broad uses spanning from health and safety for staff and students to staff retention and PPE. This funding could be split between \$175 billion for state education stabilization funds and \$25 billion for categorical programs like Title I and IDEA.
- Urge Congress to include \$4 billion in funding to and through the E-Rate program to help ESAs and school districts address the homework gap and to ensure all students have equitable access to affordable internet at home, a critical need in an era of remote and blended learning.
- Ensure the inclusion of State maintenance of effort language to prevent states from cutting state education funding and using federal emergency funding to backfill the gaps.

FY21 Appropriations

The federal fiscal year 2021 (FY21) will start October 1, 2020, and represents federal dollars that will be in the nation's schools for the 2021-22 school year. FY 2021 is the last year that there are caps on discretionary spending, stemming from the Budget Control Act of 2011. The overall budget for FY21 was set as part of a two-year budget in 2020. With the overall budget numbers set, the detail right now lies with process and politics. For our slice of the funding pie (the Labor Health Human Services, LHHS, bill) there is next to no additional money, and even that allocated increase has been spent/accounted for related to other (non-education) costs, setting up a very real scenario where level funding of our key programs is a win. Neither chamber was able to complete their funding work on time, and they have agreed to—and the House has passed—a continuing resolution to fund the government through December 11. It is level funding for education. Critically, it does include nearly \$8 billion for two nutrition provisions that are essential to feeding kids and families during the COVID-19 pandemic: The bill expands Pandemic EBT and extends it through the end of the current school year and the bill gives the USDA the authority and funding to extend waivers that give schools and community organizations much-needed flexibility for how they serve meals during the pandemic. This legislation removes the last roadblock to USDA extending these waivers through the end of the current school year.

Talking Points

- Thank your members of Congress for the final FY20 package, which included modest increases to the U.S. Department of Education, a critical investment that worked to restore the continued pressure of recession cuts.
- We oppose any effort to direct public dollars to private education. We oppose all vouchers and privatization schema. We ask Congress to continue to prioritize investment in critical formula programs designed to level the playing field, including IDEA, Title I, and Title IV.
- Education is a continual investment. Investing in education builds a stronger nation. We need a well-trained and educated workforce ready to compete in a global economy and support our military.

Education Technology/Homework Gap

The COVID-19 pandemic has blown wide-open one of the nation's worst kept secrets: the inequity with which students are not able to access the internet at home – known as the "homework gap." Even before the COVID-19 pandemic, the homework gap was experienced by up to 12 million K-12 students who couldn't finish their schoolwork from home because they lacked internet access. COVID-19 has created a new reality; schools have physically closed their doors and moved classes online, leaving students without the internet behind.

The inequity among students experiencing the homework gap is stark. According to Pew Research: 37% of rural Americans do not have broadband internet access at home; 35% of students from households with annual incomes below \$30,000 do not have access to high-speed internet at home, and 25% of African-American households and 23% of Hispanic households with school-age children do not have access to high-speed internet at home.

E-Rate is a longstanding, bipartisan universal service program that provides more than \$4 billion in discounts annually on broadband and Wi-Fi to K-12 public and private schools and public libraries. E-Rate does not support home Internet access service and distance learning technology currently, but a 2010 FCC pilot allowed home Internet access service. E-Rate's funding does not come from federal appropriations but through the universal service fund, which is funded via fees assessed on consumer interstate and international phone calls. The FCC's E-rate program is uniquely positioned, as the only federal program that supports schools and public libraries with connectivity, to be used to quickly and efficiently address the homework gap.

The E-rate operates under strong guardrails that ensure the program integrity that funds are accurately and appropriately disbursed.

Talking Points

- Nearly 12 million students are unable to engage in remote learning because they lack internet access. Congress must address this homework gap in its next COVID package.
- Congress must invest \$4 billion in funding to and through the existing E-Rate program to best support equitable access to affordable internet.
- The FCC can quickly and easily make changes to help get appropriate emergency E-rate funds out specifically for the homework gap to connect students to the internet while their school buildings are closed.
- It is both efficient and expedient to move federal dollars through an already existing proven program. It is much easier to use an existing program than "start from scratch" during an emergency. Schools and libraries know the E-rate. Introducing a new program during this COVID-19 emergency saddles them with more bureaucracy and delay – the opposite of what is needed.

IDEA Flexibility

The CARES Act created the opportunity for the U.S. Department of Education to recommend that Congress enact specific IDEA flexibilities for districts providing special education services during COVID-19. Unfortunately, the DeVos Administration only chose to recommend one flexibility to Congress related to Part C to Part B transition and stated they did not believe any additional flexibility regarding timelines, financial requirements, or due process was necessary. This unfortunate response, coupled with the overwhelming and well-organized response by the disability community to oppose any flexibility—regardless of merit—since the pandemic began, poses significant challenges to our advocacy on Capitol Hill.

Without some practical and necessary flexibility for districts to meet both the core and administratively burdensome tenets of IDEA—ranging from the least restrictive environment mandate to meeting initial evaluation timelines—districts will be exposed to considerable litigation from parents who will be able to successfully argue that the district is out of compliance with IDEA.

Talking Points

- It is critical that Congress provide practical, narrow flexibility in how ESAs and the districts they serve meet some of the requirements under IDEA and to ensure that school personnel who are unable to meet every timeline provide the same quality and quantity of services to students virtually and meet other administrative requirements in the law during the pandemic, are not automatically subject to potential litigation for failure to fully implement this complex and underfunded federal law.
- ESAs and Districts need pandemic-specific liability protection that ensures that as long as school personnel document that they have made reasonable and measurable efforts to provide FAPE to students and have not engaged in discrimination, bad faith, or gross misjudgment that they not be sued for their inability to meet IDEA.
- Congress should also provide districts with a local waiver to reduce IDEA spending. Unlike Title I, IDEA has a 100% maintenance of effort requirement and no opportunity for a local waiver due to a precipitous decline in financial resources. This is hitting districts in two ways:
 - During the 2019-2020 school year, some districts redirected money that they had budgeted to spend on special education towards other sudden, emerging needs like technology purchases and food delivery, therefore not spending everything they intended to spend for special education programming.
 - Many districts are anticipating that local revenue losses will be severe and coupled with state declines that they will be unable to spend the exact same amount of funding they did on special education and related services in the 2020-2021 school year as they did in the 2019-2020 school year.
 - As long as budget cuts for special education spending are proportional to other program cuts in the district, districts must be allowed to reduce their special education spending by up to 20%.

Child Nutrition

In the face of nationwide school closures due to the Coronavirus pandemic, education service agencies have spent their time on the front lines providing critical services for their local communities. One of the most notable examples of this work has been our public school systems' continued operation of the federal School Lunch and Breakfast Programs.

To ensure that our families and students have a reliable source of food security throughout this pandemic and that their needs are being met as communities continue to strategize on how to reopen, ESAs and the districts they serve have implemented innovative fiscal and policy solutions (e.g., meal delivery, off-school pop-up sites, and alternative meal feeding patterns) in an effort to meet the breadth of this unprecedented moment. While we appreciate and acknowledge that this would not have been feasible without Congress' quick action in passing the Families First Coronavirus Response and CARES Acts, we implore Congress to take the actions listed below to prevent our districts from tapping into fund balances and drawing upon lines of credit to sustain their foodservice operations.

Talking Points

- We appreciate the House's bi-partisan efforts to include nearly \$8 billion for two nutrition provisions that are essential to feeding kids and families during the COVID-19 pandemic: pandemic EBT and extending child nutrition waivers through the end of the 2020-21 school year (*for more detail, see appropriations talking points*). As such, we urge the Senate to immediately pass the continuing resolution as drafted to ensure students and families can access meals for the duration of the pandemic.
- Given the rise in unemployment and poverty, education service agencies must be given the flexibility to qualify for the Community Eligibility Provision (CEP) based upon student free and reduced-price lunch data from the past three years. By including this provision in the next COVID-19 relief package, Congress will be able to ensure the program's integrity and incentivize greater participation in CEP by school districts.
- Congress must dedicate \$2.6 billion to mitigate a portion of the estimated financial loss that school nutrition programs experienced between March to June of 2020. Allocating these funds will be a critical step in making school nutrition programs financially solvent and to maintain the integrity of essential food security programs as the recovery process begins.

Liability Protection

The multi-faceted nature of reopening the nation's schools this fall, post-COVID is well documented: beyond the obvious health and safety concerns, districts have to rethink and revamp virtually all aspects of district operations, from transportation and sanitation to classroom instruction and attendance and staffing patterns. This means that school will look—and feel—very different for staff, students, and families.

Facing immense pressure, and rising to the challenge and doing their best to reopen schools in a manner consistent with Center for Disease Control (CDC) guidance and other state/local health agency recommendations, schools need temporary and targeted liability relief legislation related to the COVID-19 pandemic, allowing them to do the important work of reopening without fear of excessive liability. Such protections will be critical to businesses, non-profit organizations, and healthcare providers and facilities, as we work to recover from this pandemic.

As school systems prepare to help the country with this major step in emerging from the pandemic, they are also concerned that despite doing their best to follow applicable state and federal health guidelines, they will be forced to defend against an onslaught of frivolous lawsuits. The prospect of such litigation and significant related costs are a very real concern. Any such litigation of this manner would disrupt the school district's budget, a budget likely to have already been cut and squeezed in response to the pandemic and related state and local funding cuts. Absent a targeted safe harbor for those that work to follow applicable guidelines, the fear and uncertainty from unlimited liability threatens to impede our country's social and economic recovery. In the wake of prior crises, Congress came together to pass timely and targeted liability protections for employers with strong bipartisan support because lawmakers understood the acute economic threat of lawsuits at moments of maximum economic vulnerability. School districts need similar liability protection.

Talking Points

- As Congress moves forward in its efforts to enact temporary liability protections for employers that work to follow applicable public health guidelines against COVID-19 exposure claims, that public school systems, including ESAs and other educational institutions, be included in such protections.
- In asking for these liability protections, we think they should be limited in scope and preserve recourse for those harmed by truly bad actors who engage in egregious misconduct.
- Now is the time for Congress to take strong action to stop a growing wave of lawsuits from getting in the way of what we all want and need: healthy citizens and a strong economy.

COVID Funding for Private Schools and Vouchers

AESA recognizes the hardship many students and families are currently facing because of the COVID-19 pandemic regardless of the type of school they attend. But during this challenging time, it is imperative that the federal government focus on providing more resources to our public schools, which serve the vast majority of our nation's students, particularly students from under-resourced communities and students of color, rather than siphoning limited resources to private schools.

All three Republican bills that have been introduced in the Senate contain unprecedented levels of direct aid for private schools. In the CARES Act, Congress has already provided private schools with billions of dollars in relief funds, including wealthy schools with high tuition, large endowments, and affluent students. These bills would give even more money to private schools by setting aside 10% of the public school funding for direct grants to private schools. According to the analysis of the data released by the Treasury Department that cataloged PPP recipients of loans over \$150,000, at least 5,678 private schools have received funding totaling between \$2.67 billion and \$6.47 billion. In contrast, public schools, which are excluded from accessing PPP funding, have only received \$13 billion in direct aid under the CARES Act despite educating more than 50 million students

In addition, Republicans support additional federal emergency relief funding to existing state tax credit voucher programs. They also support creating a new federal tax credit voucher program funded at \$5 billion a year for two years that would provide funding to parents to homeschool their child or attend a private school if the pandemic has impacted their child's education. They also support amending the 529 college savings program to allow parents who homeschool their children to receive tax benefits.

Private school voucher programs undermine our nation's public schools by diverting desperately needed resources away from the public school system to fund the education of a few, select students in private, often religious schools. Furthermore, this scheme is not designed to address pressing issues schools and students are facing due to COVID-19, such as assisting schools to reopen their buildings safely; instead, the proposal is merely exploiting the pandemic in an attempt to pass a federally funded voucher program that Congress would otherwise be unable to pass as a standalone bill.

Talking Points

- Public schools now face mounting costs to ensure that students can safely and appropriately receive the education and services they need, while at the same time, these schools are facing significant revenue loss at the state and local levels as a result of the economic recession.
- Congress should not direct funding away from our public schools to fund private schools. If we do not sufficiently fund our public schools, there is no fallback.

- States cannot create brand new voucher programs and dilute state tax revenue to support existing voucher programs. While there can be disagreement on the merit of school vouchers, the pandemic is not the time to build these programs when capacity is at an all-time low.
