#### **Discussion**

2024-2025 School Audit – Jacob Catmull discussed the audit with the board. He stated the district is in compliance. There were no discrepancies found. He stated he feels there is more fiscal accountability with funding compared to several years ago.

Administrator/Department/Committee Reports - Trustee Claridge expressed a concern on the outstanding student balance at Minico High School.

MCEA had no comments

Superintendent Report - Mr. Larsen reported that funding is worse than when reporting last month. Our support units are lower than anticipated and our enrollment is down. He received an email that the community school funding will be done as of December 31<sup>st</sup> and Federal programs are expecting a 15% or higher cut in funding.

Contracting Services – The board felt in order to make this kind of decision more information is needed. With a new maintenance director being hired, they would like to see what he can bring to the district. Although the district needs to be fiscally responsible to taxpayers the time is not right to change.

**Patron Comments** - Miriam Bird, Robin Taylor, Frank Biggins, Maren Oppelt expressed their concerns regarding contracting out maintenance services.

## Medical Emergency Response Teams (MERT Teams)

- Every 2 years the school nurses train 5-7 staff members from each building to be members of their MERT teams. Our school MERT teams are certified in CPR & First Aid. They are trained to provide immediate, first-responder care for health crises like sudden cardiac arrest, seizure, or injuries, bridging the gap until professional EMS arrives. This helps to improve survival rates through CPR/AED use, coordinating care, and ensuring rapid, organized responses during various emergencies, ensuring student and staff safety. All school MERT teams will be trained this spring on **Friday Feb. 6th** or **Friday April 24th**.

## **SCHOOL NUTRITION REPORT JANUARY**

During the month of December, the Nutrition Department served 33,684 meals over 12 days of service, an increase of 354 meals compared to December of last year. This growth is an encouraging indicator that more students are choosing to eat school meals, reflecting our continued efforts to improve both the quality and appeal of our offerings. For the month, the department received \$105,195.28 in combined breakfast and lunch reimbursements, \$15,345.64 through the Fresh Fruit and Vegetable Program, and \$6,029.88 from the Afterschool At-Risk Program, for a total of \$126,570.80 in reimbursements—a strong result for a shortened service month.

We have also begun early planning for the Summer Food Program with the goal of making it more successful and sustainable than in previous years. The department recently applied for a \$500,000 grant to help offset summer operating expenses, and we will keep the Board informed as funding decisions are announced. Currently, our average food cost is \$3.64 per student per day, while reimbursement averages \$4.89 per meal. By closely managing costs and expanding participation, our long-term objective is to move the Nutrition Department toward financial self-sufficiency. In December, we were fortunate to receive anonymous donations at Heyburn Elementary, East Minico, and Rupert Elementary that eliminated several negative student account balances. While this generosity significantly reduced outstanding debt, the district still carries \$21,648.75 in negative balances, an ongoing concern. To address this more sustainably, we are actively reviewing our meal charge data and working toward qualifying the district for the Community Eligibility Provision (CEP) for next school year. Achieving CEP status would not only reduce the financial burden on the district but would also ease the strain on families by providing free meals to all students.

## TRANSPORTATION REPORT

JANUARY 2026

To Mr. Larsen and our School Board,

As we begin the new year, I would like to extend my sincere best wishes to each of you and to thank you for your continued dedication to our students, staff, and community. The start of a new year offers an opportunity to reflect on our progress and to look ahead with optimism and purpose.

As you know, last month we had a very serious bus accident. I can report that the drivers of both buses are doing well.

With that said it has put a big strain on bus routes. We have combined bus routes since October, and we are still doing that since we now have 4 drivers that have retired and 4 drivers with long term medical conditions.

We handed out 27 tickets in the month of December 18 of them are suspensions.

We have had 16 reimbursed trips for the month of December

We have had 32 non-reimbursed trips for the month of December

January 13, 2026

To our Distinguished Minidoka County School Board,

Greetings. My name is Rick Tundag and I am the new Varsity Softball Coach at Minico High School. It is an honor and privilege to have the opportunity to work with the great student athletes involved in the softball program. I look forward to building a positive culture that focuses on academics, a quality culture that builds good community members, and hopefully a winning program.

161

I am writing to you today to ask for your permission to conduct a cash raffle fundraiser. The girls would each be asked to sell 25 tickets at \$20 per ticket. I am hoping to carry at least 24 girls between the Varsity and JV teams. If everyone sells at least their allotted number of tickets, that will generate \$12,000. The grand prize winner of the raffle would win \$750. The second-place winner would win \$250. I was told that \$1000 was the maximum amount the prizes could total and we would be within those parameters.

I also would like to sell Game Day shirts. I would sell sponsorship spots on the back of the shirts at approximately \$250 each. I would like to sell 20 spots. The funds from the sponsors would more than cover the cost of the shirts. We then would sell the shirts to parents to wear on

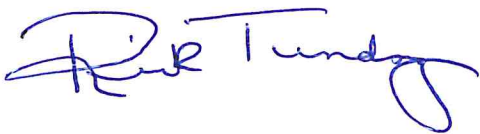

game days or anyone else who would like to support the program. I would be soliciting the shirt sponsors. The girls would not have to find sponsors.

I ask for your permission to conduct both fundraisers. I was hired in December and feel that we are a bit behind on fundraising. I would like to keep all costs for spirit packs to a minimum so that no student athlete is excluded from participating due to financial reasons. If the girls fully participate, we could keep those costs very low and allow parents to spend the funds they wouldn't be required to spend on spirit packs, to rather be spent on travel to support the team. We also have some equipment needs that need to be met.

162

I respectfully ask that you grant us your blessing to move forward with these 2 ideas to generate funds. Having participated in sports and activities at Minico High School myself, I know how amazing our community is in getting behind our kids. I ask that we give them the opportunity to do so once again for the softball program. I appreciate you all and am grateful for your support.

Respectfully,

A handwritten signature in blue ink that reads "Rick Tundag". The signature is stylized with a large, looped "R" and a long, sweeping underline.

The Minidoka County Joint School District No. 331 recognizes that the use of drugs and alcohol prevents staff from peak performance. It is therefore the policy of the Minidoka County Joint School District No. 331 to provide a drug, alcohol and tobacco free workplace for all employees within the district. By enacting this policy, the District is further complying with the Drug-Free Workplace Act of 1988, all Department of Transportation procedures as established in 49 CFR Part 40 Drug Testing Program, the Omnibus Transportation Employee Testing Act of 1991 and the State Board of Education Resolution Regarding Smoking in Public Schools, and various other State and Federal laws.

The Board of Trustees hereby notifies all employees of Minidoka County Joint School District No. 331 that the unlawful manufacture, distribution, dispensation, possession, use of or being under the influence of, any controlled substance, immediately prior to the commencement of work, on any school premises, or on any school assignment and/or school activity, is prohibited. The term "controlled substance" in this policy means all controlled substances listed in the Idaho Uniform Controlled Substances Act in Title 37, Chapter 12, Idaho Code and schedules I through V of § 202 of the Controlled Substances Act (21 U.S.C. 812). This policy further prohibits alcoholic beverages as though defined as a controlled substance. Violation of this policy by any employee will be cause for disciplinary action up to, and including, termination. Compliance with this policy is a mandatory condition of employment with the District.

Tobacco in all its forms is also prohibited from use on any school properties, on any school assignment, and/or school activity.

### **Provisions:**

The provisions relating to this policy address the following:

#### **A. Drug Free Workplace - Employees**

1. The District shall provide the following information to all employees in their new employee packet and upon request of any other employee:
  - a. A copy of this policy and related procedures.
  - b. Available drug counseling, rehabilitation, or other assistance programs relating to drug use.
2. Any employee of the District convicted under any criminal drug statute for a violation occurring on any school premises, or at any school assignment and/or school activity, must notify the building Principal, or the employee's supervisor, no later than five (5) calendar days after such conviction. Such notification shall be in writing and signed by the employee.
3. Upon the District receiving notice of a conviction as described in paragraph 3, or upon any violation by an employee of this policy, the employee shall immediately be suspended without pay, pending a review by the District. The review will be conducted within thirty (30) days of the employee's suspension, at which time the District shall:

- a. Take appropriate personnel action against such employee up to, and including, termination;
  - ~~b. Require such employee to successfully participate in a drug abuse assistance or rehabilitation program approved for such purposes by Federal, State, or local health, law enforcement, or other appropriate agency.~~
4. If any employee has knowledge relating to drug use by any other employee, he/she shall provide that information immediately to his/her supervisor.
  5. The District will require drug and/or alcohol testing of any employee reasonably suspected of being under the influence of illegal drugs, controlled substances, intoxicating substances and/or alcohol while on duty at a District building or at a District-sponsored activity, function, or event, regardless of location.
    - a. Reasonable suspicion means a good faith suspicion, based on objective facts, which is sufficient for a person to conclude that the employee is using or appears to be presently under the influence of illegal drugs, controlled substances, intoxicating substances and/or alcohol. Reasonable suspicion is more than a mere hunch that an employee is using or is under the influence of alcohol and/or drugs.
    - b. Reasonable suspicion may be established through a variety of factors either observed by the Superintendent or designee or reports from persons who report suspected drug or alcohol use by an employee, if the report stems from an individual who bases such report upon articulable observations concerning one or more factors of concern. The factors include but are not limited to the following:
      - i. Personal observation of possession, use or sale of illegal drugs, controlled substances, intoxicating substances and/or alcohol.
      - ii. Apparent impairment or other physical indicators such as odor of illegal drugs or alcohol.
      - iii. Decrease in productivity not reasonably attributable to other causes.
      - iv. Erratic behavior or dramatic changes in normal behavior.
      - v. An employee involved in any accident while operating district vehicles or equipment will be required to submit to a drug and alcohol test if there is injury to property or person, due to insurance and liability.
  6. When there is a reasonable suspicion of possession of a controlled substance by an employee, the District shall notify the appropriate law enforcement agency for any action said agency deems appropriate.

#### **B. Notification of Testing Results**

1. All test results from the testing laboratory will be forwarded to the Superintendent or designee through the third party drug/alcohol testing provider; ~~as represented by a Medical Review Officer (MRO)~~. Drug or alcohol test results will only be reported to the Superintendent or designee.

2. ~~Prior to informing the Superintendent or designee of a prospective or current employee's positive results~~, the employee will be offered an opportunity to personally discuss the positive results with the ~~Superintendent~~MRO or designee. The ~~MRO~~Superintendent or designee will follow up on such information as is deemed appropriate. An employee who is taking a prescription drug that may have been the cause of a positive test result will be asked to provide the name of the medication and the identity of the prescribing physician for verification. If this is verified, the employee's test result will be reported as negative. If, after consideration of the situation, the ~~MRO~~Superintendent or designee determines the results of the positive test are valid, ~~that result will be conveyed to the Superintendent or designee along with the identity of the drug causing the positive result.~~
3. ~~If the employee cannot be located, the MRO or designee may request that the Superintendent or designee arrange for the employee to contact the MRO as soon as possible to discuss the results of the positive test. The MRO will communicate a positive result to the Superintendent or designee without discussing the result with the employee if the employee expressly declines the opportunity to discuss the results of the test or the driver is instructed to contact the MRO, but fails to do so within 24 hours.~~

### **C. Drug and Alcohol Testing –Transportation**

1. In order to assure safety those transporting students are expected to be in suitable mental and physical condition to act appropriately and perform their jobs satisfactorily.
  - a. The drinking of alcoholic beverages or use of other drugs, during meal breaks, and/or during working hours is prohibited, whether on or off district property.
  - b. Employees reporting or returning to work whose behavior reflects the consumption of alcohol or other drugs will be temporarily relieved of duty and may be referred for a medical evaluation.

Where use of such drugs adversely affects job performance, the employee will be relieved of his/her job duties temporarily.
2. A medical evaluation may be required if there is concern about the employee's fitness to transport students.
  - a. Where there is reasonable cause, an employee may be asked to report to a district-designated physician or medical clinic on district time and at district expense for a fitness for duty examination. This could involve appropriate testing, including possible urine or blood screens as determined by the district.
  - b. Employees will be asked to authorize the release of tests to the district. The Consent Release Form (Form 524.00F2)) is attached and made part of this policy by inclusion.

- c. The decision to go for a medical evaluation is voluntary, but if the examination is refused or if consent release form is not signed, the employee may be disciplined up to and including termination.
  - d. Those having positive screens may be required to complete a chemical dependency evaluation as part of the medical procedure.
3. Approximately fifty percent (50%) of transportation drivers will be randomly tested annually at the District's expense. This will include an additional random selection of 25% of all employees who drive District owned vehicles on a regular basis. Any new employee who may drive a district vehicle, will be drug tested.
- a. Names will be drawn at random for alcohol and drug testing.
  - b. Actual date and time of testing of those whose names are drawn will occur without prior notice and will be taken to the testing location by a district designee. on a schedule as determined by the District Transportation Supervisor.
  - c. When notified, the driver will report for signing the Consent Release Form (Form 542.00F2524.00F2), and testing within thirty (30) minutes of notice.
  - d. Failure by the driver to report, when notified, will result in disciplinary action up to and including termination.
  - e. The consent form, (Form 54224.00F2) authorizes the physician or medical clinic to submit the testing results to the Minidoka County Joint School District #331.
  - f. Positive results from the drug and alcohol screening test will make the employee subject to disciplinary action up to and including termination. Results will be communicated to the applicant as per D.O.T. Policy, as previously referenced.
  - g. Any employee who has a positive test result may within seven (7) working days request that the same sample be retested by a mutually agreed upon laboratory. The employee will be responsible for the cost of the second testing. If the retest results in a negative test outcome, Minidoka County School District will reimburse the cost of the retest and the employee shall be reinstated with back pay.
4. The District may require a driver to be tested for illegal drugs or alcohol when there is reasonable suspicion to believe that a driver is under the influence of illegal drugs or alcohol while at work.
5. Post-Accident
- a. A driver operating a vehicle for the district that is involved in an accident may be tested for both illegal drugs and alcohol as soon as practical following the accident. Alcohol testing must be administered within eight hours and drug testing within thirty-two hours of the accident to be considered valid under DOT regulations.
  - b. Any driver required to be tested under this section must remain readily available for such testing and may not consume alcohol within eight hours of the accident.

A driver who is involved in an accident must comply with all instructions given to him/her relative to taking a drug and alcohol test.

6. Return to Duty

Any driver that tests positive for illegal drugs or alcohol and complies with Policy 524 Employee Drugs, Alcohol and Tobacco will also be required to take, and pass, a drug and/or alcohol test at their own expense. Thereafter, such driver shall be subject to unannounced random testing at least six more times within the following twelve months at their own expense in compliance with DOT regulations.

**D. Tobacco**

1. Consistent with the Idaho State Board of Education resolution dated March 18, 1994, all employees are prohibited from smoking or using any tobacco or vaping product in all buildings and on all property owned or leased by the district, in all school transportation vehicles, and at all school activities.

<b>POLICY TITLE:</b>	<b>Classified Staff Payroll</b> <b>Minidoka County Joint School District # 331</b>	<b>POLICY NO:</b> <b>594.00</b> <b>PAGE 1 of 2</b>
----------------------	---	--

It is the policy of the Minidoka County Joint School District No. 331 that classified employees shall be treated similarly with respect to hours of employment and work schedules. Each classified employee will be assigned a regular work calendar as determined by the District.

Classified employees shall not work beyond their regularly scheduled hours unless prior authorization is obtained from a district-level supervisor, administrator, or building-level principal. Any employee who works additional hours without prior approval may be subject to disciplinary action.

When authorized additional hours are worked beyond an employee’s regular work schedule but do not exceed the overtime threshold under applicable state or federal law, the District may grant compensatory time (“comp time”) at a one-for-one (1:1) rate in lieu of additional pay.

Comp time must be taken within the same calendar month in which it is earned. Comp time may not be carried over into a subsequent month and must be scheduled with supervisory approval to ensure continuity of District operations. Any unused comp time at the end of the month will be automatically paid at the employee’s regular hourly rate.

Hours that qualify as overtime under applicable state or federal law are not eligible for compensatory time under this policy and must be compensated in accordance with the District’s overtime policy and wage and hour laws.

Classified employees designated as exempt under applicable state and federal wage and hour laws are not eligible for overtime compensation or compensatory time.

**Time Clock**

1. All employee time calculations will comply with Idaho Code 67-5328 and the Fair Labor Standards Act (FLSA). Per Idaho Code and the FLSA, if the employee works 1-7 minutes their time rounds down to the nearest quarter hour, if the employee works 8-14 minutes the time rounds up to the nearest quarter.
2. At the end of each pay period, each classified employee’s time will be submitted to their Supervisor or designee for review and verification by no later than the **first day** of each month.
3. Overtime must be authorized. If not authorized, this could lead to disciplinary measures.
4. All substitute time is tracked in the District’s automated timekeeping system.

**Working from Home**

1. Classified, including exempt employees, may not work from home unless given prior permission from the Superintendent.

Attendance

In order for an employee to fulfill the duties assigned under his or her job description, regular attendance and punctuality are required. Habitual absences or tardiness can result in disciplinary action up to and including termination of employment. To maintain good

standing under the attendance policy, employees should not exceed authorized leave provided by the district (e.g., sick, personal, vacation). Vacation and personal leave days are to be approved by the supervisor in advance. If an employee has exhausted all available authorized leave and leave without pay is needed, it must be approved by the Board of Trustees.

**Travel Time:**

When traveling for the District, including District approved professional development travel requested by the employee, if it is pre-determined that the professional development will benefit the District, the employee shall keep track of their time as outlined below and record the time on a timesheet:

- a. Travel during the employee's regularly scheduled work hours will be paid at the employee's regular rate.
- b. If travel is required before or after the employee's regularly scheduled work hours the District will pay from Rupert to lodging and from lodging to Rupert, including any drive or flight time.
- c. Conference/meeting attendance during the employee's regularly scheduled work hours will be paid at the employee's regular rate.
- d. If conference/meeting attendance goes beyond the employee's regularly scheduled work hours all additional time should be recorded on the timesheet.
- e. If there is a speaker during a meal, that time can also be recorded. Time for "lunch on your own" will not be included.
- f. An itinerary must be submitted with the reimbursement

If the workshop/conference is voluntary attendance, time will be unpaid.

***Failure to follow this policy may result in disciplinary action up to and/or including termination.***

9. Report any loss, redaction, or suspension of their operator license or endorsements status to their supervisor as soon as they are notified of the licensing status change;
10. Report all accidents immediately to the supervisor and/or to the Risk Management Specialist so that they can be reported to the District's insurance carrier. All Commercial Driver's License (CDL) holders shall comply with federal and state laws regarding the reporting of accidents, citations, or driving convictions and shall immediately report such occurrences to their supervisor;
11. Use of district fueling cards and facilities, maintenance and repair facilities, and supplies shall be limited to bona fide District vehicles and equipment. District materials and facilities shall not be used for personal benefit;
12. Not allow other people to use their refueling card or request that others allow them to use refueling cards which are not assigned to them; and

Any employee violating any of the items listed in this section of this procedure, regardless of whether it occurred while operating a district vehicle or piece of equipment, may be permanently prohibited from operating district vehicles and equipment, and/or subject to disciplinary action, up to and including termination.

#### **Vehicle Care:**

1. All school buses will be brought to the Rupert school bus yard to be washed.

2. Drivers shall ensure the safe condition of the school bus by conducting daily pre-trip, post trip, and child check school bus inspections. The Superintendent or their designee shall establish specific checklists for these inspections. The district or their transportation contractor shall provide drivers with a pre-trip inspection form which may be based on the State Department of Education model pre-trip and post trip inspection forms. At minimum, the pre-trip inspection shall ensure that all safety equipment; such as brakes, tires, all lighting systems, steering, and the horn, are in working order. Post trip inspections shall include an emphasis on locating any sleeping students and any articles left on the bus, and reporting any bus defects.
3. All district vehicles (Driver's Ed, Maintenance, Food Service, Vans, district car, etc), will be washed and maintained as needed.
4. It is the responsibility of the driver of any designated vehicle to make sure that the interior of the vehicle is clean. Paper, bottles and debris of any kind are to be removed. The floors are to be swept, and seats and dash wiped down in preparation for the next group.
5. Transportation employees, as assigned by the Transportation Supervisor, will wash buses.
6. Buses that travel over all paved roads will be washed in the winter months (December through February) at least two times per month.
7. The buses that travel on non- paved roads will be washed at least two times per month but may be washed four times per month. More are permitted if necessary with prior direction or approval from the transportation supervisor/designee.
8. Bus interiors are to be cleaned. Floors are to be kept free of paper and debris by sweeping daily or as needed. Seats are to be wiped down and cleaned as needed but not less than once per week. Dash and driver's area is to be cleaned and free from dust and debris by wiping down the dash area and sweeping around the garbage can area and seat area as often as needed, but not less than every other day. Each bus driver of each bus will have the primary responsibility of washing the outside and cleaning the interiors of his/her bus. All users of vehicles owned and maintained by the district shall adhere to the cleaning and disinfection protocols outlined by the district.
9. School bus technicians shall have first priority in the use of the wash bay for the purpose of steam cleaning the fleet's engines. This needs to be done to comply with state law and regulations.
10. The wash bay is to be kept clean from debris and other items properly stored after each use.
11. Heat controls are not to be changed except by those having authority to do so as designated by the Transportation Supervisor/designee.

### **District-Owned Vehicles**

The district vehicles are for in-district use and for other District-related travel. District vehicles are not to be taken home. The district vehicle may be picked up if the employee is called into work. The Superintendent, however, may approve vehicles to be driven home in certain situations (i.e.on call).

Unauthorized personal use of vehicles or failure to report personal mileage and use may be subject to disciplinary action up to and including termination of employment. Only those who are on district related business may be passengers in a district owned vehicle.

Any mileage driven in a district-owned vehicle that is not for official district business will be considered a taxable fringe benefit to the employee driving the vehicle. This taxable fringe benefit will be in addition to the employee's annual salary and will be reported on the individual employee's W-4. This policy and taxable fringe benefit will be reviewed annually to verify that the policy is in compliance with IRS regulations.

### **Disposal of Vehicles and Equipment**

All vehicles and equipment shall be disposed of only by sales events and methods which are approved by the Board and by rules adopted by the state for disposal of surplus property. Each sales event must be approved individually by the Board. Revenue received from the sale of school buses will be placed in a separate account and used only for the purchase of school buses.

### **Accident Management Procedures**

The Minidoka County School District establishes the following guidelines for reporting, investigating, and documenting all accidents, collisions, and incidents involving district vehicles and equipment:

1. All accidents/collisions/vandalism (herein collectively referred to as "accidents") involving district vehicles, regardless of the amount of damages or personal injuries sustained, shall be reported immediately to the driver's supervisor and Superintendent or designee. Failure to report an accident shall be cause for disciplinary action;
2. An employee involved in any accident while operating district vehicles or equipment will be required to submit to a drug and alcohol test if there is injury to property or person, due to insurance and liability. Failure to submit to a drug and alcohol test; or testing positive for drug use; or prohibited levels of alcohol as outlined in applicable law; shall be subject to disciplinary action, up to and including termination;
3. An accident report shall be completed within twenty-four (24) hours of any accident regardless of the amount of damage sustained to any district vehicle or equipment;
4. All accidents shall be investigated and subsequently reviewed by district personnel. Administrative actions may be taken based on the findings.

### **Definitions**

Vehicles owned by Minidoka County Joint School District #331 will be used in accordance with all State and Federal Laws and Rules and Regulations established by the Idaho Department of Education, Minidoka Schools Board of Trustees, the Superintendent (or designee). Drivers of all district owned vehicles shall be properly licensed and shall receive training as determined by the administration to be appropriate.

**Provisions:**

The use of all school-owned vehicles shall be restricted to the following uses:

- Transportation of students to/from school
- Transportation of students on field trips
- Transportation and maintenance operations
- Operation by staff in conducting school related duties and/or programs

All use of district owned vehicles shall be conducted with energy conservation in mind. Use of staff vehicles should be coordinated whenever possible to provide for car-pooling to eliminate unnecessary mileage or vehicle wear.

The Superintendent or designee has primary responsibility for making all vehicle assignments. Vehicles assigned are not to be taken to or kept at an employee's home during off hour duty assignments except by administrative direction from the Superintendent.

All district owned vehicles will require a mileage log to be kept in the vehicle. This log will be completed for each trip by all employees using the vehicle.

Drivers shall use FMCSA over-the-road hours-of-service trip logs, a trip agenda, or other trip documentation validating applicable driving hours on all out-of-district trips.

All vehicles will be assigned by the Superintendent or designee to individual personnel for the benefit of the school district and may be reassigned, used in car pools, or such other arrangements made as deemed most beneficial.

Vehicle purchases shall be on the basis of economy and efficiency toward accomplishing the assigned purpose.

All staff members who drive vehicles may be required to take training courses as deemed appropriate. The Transportation Supervisor or designee may on an annual basis obtain a copy of the driving history of each staff member who will drive district vehicles which will be maintained in the staff member's personnel file. All new employees who operate district vehicles will be drug tested.

Any staff member involved in any traffic accident while operating a district owned vehicle, whether on or off a public roadway, will report that accident immediately to the local Law Enforcement Agency, and to the staff member's immediate supervisor. No vehicle is to be removed from the scene of an accident until directions to do so are issued by a Law Enforcement Officer, or district designee.

Any district employee who drives district vehicles and who receives a moving traffic citation while operating any type of a vehicle whether personally or district owned shall at the first available opportunity make immediate disclosure of the facts to his/her supervisor.

Any staff member who receives a moving traffic citation while operating a district owned vehicle will be subject to the following procedures:

1. The staff member will notify his/her supervisor at the first available opportunity. The Supervisor will then gather the facts pertaining to each separate incident, and notify the Superintendent or designee.
2. The Superintendent or designee will then review the information and make a determination whether the employee should remain on the job pending the appearance in court by the staff member.
3. Upon being found guilty of the charge or voluntarily entering a guilty plea to the charge, further disciplinary action may be taken, including termination.

The district reserves the right to review the complete driving history of an employee in determining disciplinary actions.

**[RECOMMENDED POLICY: This item addresses practices districts are required to comply with by law, administrative rule, or other guidance, or which are strongly recommended by one of the attorneys we consult on policy matters.]**

### Entrance, Date, and Age

No pupil may be enrolled in kindergarten or first grade whose fifth or sixth birthday respectively does not occur on or before the first day of September of the school year in which the child registers to enter school. Any child of the age of five years who has completed a private or public out-of-state kindergarten for the required 450 hours but has not reached the age and date requirements set above shall be allowed to enter the first grade.

For resident children with disabilities who qualify for special education and related services under the federal Individuals with Disabilities Education Act (IDEA) and subsequent amendments thereto, and applicable state and federal regulations, “school age” shall begin at age three.

The Board of Trustees may exclude from school any pupils who are not of “school age”.

### Initial Enrollment

Immunization records or an appropriate waiver and birth certificate are required for admission to all District schools (subject to provisions of the McKinney Homeless Assistance Act). Communication of the requirement for immunization records or exemptions shall comply with District Policy 3525.

If a birth certificate is not provided upon enrollment of a student for the first time in elementary or secondary school, the District shall notify the person enrolling the student in writing that they must provide within 30 days either a certified copy of the student’s birth certificate or other reliable proof of the student’s identity and birth date, which proof shall be accompanied by an affidavit explaining the inability to produce a copy of the birth certificate. Other reliable proof of the student’s identity and birth date may include a passport, visa, or other governmental documentation of the child’s identity. If the person enrolling a student fails to provide the information within the requested 30 days, the District shall immediately notify the local law enforcement agency of such failure and again notify the person enrolling the student, in writing, that they have an additional ten days to comply. If any documentation or affidavit received pursuant to this section appears inaccurate or suspicious in form or content, the District shall immediately report the same to the local law enforcement agency. Local law enforcement will investigate these reports.

A student transferring schools within the District need not provide proof of identity and birth date if the student’s record already contains such verified information.

Consistent with Policy 3340, the Board has the authority to deny enrollment to any student if they were expelled from a previous school in any state, including if they were disenrolled in lieu of discipline. The Board may also deny enrollment if the student has a conviction or adjudication of

offenses outlined in IC 20-525A(5) or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code. Such convictions or adjudications are required to be disclosed by the student's parent/guardian at the time of initial enrollment, and failure to disclose will result in a denial of enrollment to the student.

### Placement

The goal of the District shall be to place students at levels and in settings that will enhance the probability of student success. Developmental testing together with other relevant criteria, including but not limited to health, maturity, emotional stability, and developmental disabilities, may be considered in the placement of all students. Final disposition of all placement decisions rests with the principal, subject to review by the Superintendent and the Board.

### School Boundaries

The Board of Trustees shall, upon recommendation of the Superintendent, define individual school boundaries annually or as it determines to be needed. These boundaries shall be reviewed annually by the administrative staff who shall recommend changes as needed.

The Board shall strive to keep school boundaries as stable as possible.

Adjustments or changes shall be made whenever necessary to balance pupil loads among the schools for the most efficient use of facilities or whenever it is in the best interest of the students.

When considering boundary changes, the best interest of all students must take precedent over the convenience or interest of students in any one school.

For the purposes of determining a student's attendance area, the official residence of a student is that of their parent/guardian. A student may not claim residency by living with any relative or other person unless that person is the student's legal guardian.

### Advanced Enrollment For Military Dependents

Any member of the United States Armed forces who has received transfer orders to a location in Idaho and will, upon such transfer, reside in the District's attendance boundary may enroll their child in the District regardless of where the child resides at the time of enrollment.

### Transfer

District policies regulating pupil enrollment from other accredited elementary and secondary schools are designed to protect the educational welfare of the child and of other children enrolled in the District.

**Elementary Grades (K-8):** Any student transferring into the District will be admitted and placed on a probationary basis for a period of two weeks.

Should any doubt exist with their teacher and/or principal as to grade and level placement of the student, the student shall be subject to an educational assessment to determine appropriate grade and level placement.

During the two-week probationary period, the student will be subject to observation by their teacher and building principal.

**Secondary Grades (9-12), Credit Transfer:** Requests for transfer of credits from any secondary school shall be subject to a satisfactory examination of the following:

1. Appropriate certificates of accreditation;
2. Length of course, school day, and school year;
3. Content of applicable courses;
4. The school facility as it relates to credit earned (i.e., lab areas for appropriate science or career and technical or vocational instruction);
5. An appropriate evaluation of student performance leading toward credit issuance; and
6. Final approval of transfer credits will be determined by the high school principal, subject to review upon approval by the Superintendent and Board of Trustees.

#### Transfer from Persistently Dangerous Schools

If any school within the District is found to be persistently dangerous in accordance with federal law or the State Department of Education's definition of persistently dangerous, students attending the school shall be permitted to transfer to another traditional or charter school within the District which is not persistently dangerous. The transfer may be either permanent or temporary and lasting until the school of origin is no longer designated as persistently dangerous. Parents/guardians of students shall be notified that the school has been designated as persistently dangerous within ten days of being so designated. Within 20 days of receiving such notification, students may be transferred to another school within the District.

Any student who is the victim of a violent criminal offense on school grounds shall be permitted to transfer to another school within the District.

The Board of Trustees recognizes that some of its patrons may want to enroll their children in a different school than the school that serves the attendance area in which they reside. The Board also recognizes that some out-of-District parents/guardians may want to send their child to a District school. Therefore, this policy is adopted to allow all in-District and out-of-District patrons to choose among this District's schools under specified conditions. In making a decision on a student's open enrollment application, the District shall consider the needs of the student requesting the transfer as well as the other students affected by the transfer and will accept students if capacity allows.

The District will prioritize applications from students who live within the District and may deny students for one or more of the following reasons:

1. The student was expelled, or disenrolled in lieu of discipline, by the previous District;
2. The student has a conviction or adjudication of offenses outlined in IC 20-525A(5) or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code. Such convictions or adjudications are required to be disclosed by the student's parent or legal guardian at the time of applying for open enrollment, and failure to disclose will result in a denial of open enrollment to the student.
3. The student has a documented history of significant disciplinary issues or history of chronic absenteeism. However, students applying who have a 504 plan or IEP may not be denied enrollment or have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.
4. The receiving school within the District does not have space available according to the capacity limits set by the Board of Trustees.

The process outlined in this policy is required for admission to any school within the District and shall be initiated again when a change in grade warrants a change in school – such as when the pupil wishes to continue open enrollment into middle school or high school.

Due process for all students remains the same regardless of which school they attend within the District and regardless of where the student resides once accepted under the open enrollment policy.

### Transportation

Parents/guardians of a student accepted under this policy will be responsible for transporting the accepted student. If bus space is available, then students accepted under the open enrollment policy may be transported from an appropriate, established bus stop within District boundaries. However, this may not apply to students with disabilities who have transportation identified in their IEP as a related service need.

### Sports

Eligibility rules for participating in extracurricular activities shall apply to students who request to

attend a different school as described in this policy and any related procedures.

It is recommended that a student who is considering submitting an open enrollment application to this District and who anticipates participating in a sport governed by the Idaho High School Activities Association (IHSAA) review IHSAA rules prior to submitting their open enrollment application. Certain school transfers could lead to a student being ineligible to play at the varsity level for one year.

#### Application/Approval Process

Applications will be accepted on a form provided by the District (which must be substantially similar to the State's form) until February 1 of each year for enrollment in the subsequent school year. This deadline shall be waived in the case of students who move out of their attendance zone during the school year. The District may also consider other applications submitted after February 1.

At the time of application, the District will provide the student's parent/guardian a list of eligible reasons for denial or revocation of open enrollment.

#### Maximum Capacity

The District will only accept an open enrollment student if the grade level and/or programs they require are below the capacity limits specified in 3010P. The District shall report, at least four times during the school year, the space available at each grade level, by school, using these capacity limits and will post it prominently on the District website.

The Superintendent shall establish a procedure for:

1. Determining which students are chosen when classroom space allows the admission of some, but not all, qualified applicants;
2. Notifying parents/guardians of the possible reasons for denial or revocation;
3. Notifying parents of the action taken on the open enrollment application, including the reasons for the denial of any application;
4. Removing a student from a transfer school, including the grounds for removal, parent notification, and the appeal process; and
5. Notifying parents/guardians of the appeal process available to them in the event their student's application is denied.

#### Re-enrollment

Open Enrollment students do not need to re-apply to maintain their enrollment at the school in which they're enrolled; However, the parent/guardian shall notify the District of their intention to re-enroll on an annual basis no later than February 1. The District will provide a form for parents/guardians that will serve as a notice of intent to re-enroll.

Students who reside in the District and move out of their school attendance zone during the school year must initiate an Open Enrollment request to stay in their school.

#### Revocation of Open Enrollment

Open enrollment students are required to comply with all District policies. Unacceptable behaviors

by a student or false or misleading information on their open enrollment application are grounds for the District to remove an open enrollment student at any time. The District may revoke a student's enrollment if one or more of the following occurs:

1. The student is chronically absent.
2. The student commits repeated, serious disciplinary infractions.
3. The student has been expelled.
4. The student is convicted or adjudicated, or their parent/guardian failed to disclose conviction or adjudication at time of enrollment, of offenses outlined in IC 20-525A(5), or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code.
5. The number of resident students exceeds the capacity limits set in Procedure 3010P. A student's open enrollment cannot be revoked on these grounds if a student has attended the receiving school for more than two consecutive school years. If a student's enrollment is revoked for this reason, the District shall offer information about other District schools that may be accepting open enrollment students.

Students under consideration of revocation who have a 504 plan or IEP may not have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.

### Student Appeals

If an open enrollment application request is denied or revoked, a parent/guardian may request an administrative review by the Board. The parent/guardian must request the review within five school days of receiving the written denial notice. The Board shall consider the appeal at its next regularly scheduled meeting, and issue its decision in writing.

### Student Rights and Responsibilities

All student's rights and responsibilities remain the same regardless of what school they attend within the District and regardless of where the student resides once accepted under the open enrollment policy.

### Preventing or Recruiting Potential Open Enrollment Students

Neither the District nor its employees will take any action to prohibit or prevent application by a student to attend school in another school district or to attend another school within the District. In no event is the District, or an employee of the District to recruit students outside of their attendance area. Violation of this policy may involve disciplinary action up to and including dismissal.

### Evaluation of Policy

Annually, the Superintendent shall report to the Board the effect of this policy. The report should

include the number of open enrollment requests accepted or denied by each school, the reasons for denial, and any unanticipated results of this policy.

**Considerations:**

- Priority will be given to open enrollment applications of students living within the district.
- If the student participates in any athletic program governed by IHSAA, he/she may not be eligible to participate at the new school. The parent or guardian should check [IHSAA rules](#) before submitting an application.
- The transfer request is not complete until the resident school has released the student, submitted the request to the requested school and it has been accepted. The student should remain enrolled in the resident school until there is an effective start date at the requested school.
- The district will notify parents of acceptance and the effective start date or denial.
- Transportation of open-enrolled students is the responsibility of the parent/guardian.

**Decision-Making Criteria, Revocation, and Appeals:**

**Space Availability**

All applications will be considered on a space-available basis. The district will use their maximum enrollment to determine the space availability according to the state law and district policy. When there is a transition from one school to another, such as elementary school to middle/junior high school, a new application is required due to different capacity limits.

**Attendance and Disciplinary Infractions**

Open enrolled students are expected to follow all discipline and attendance policies and regulations applicable to all Minidoka School District students. Failure to meet these conditions may result in revocation of this Open Enrollment transfer and return to his/her resident school.

**Appeals**

Appeals of an administrator’s denial or revocation of open enrollment for students wanting to attend Minidoka School District will be directed to the district’s Board of Trustees for administrative review. The appeals process will follow the district’s policy and process for appeals and must be aligned to Idaho Code 33-1410.

**Acknowledgements:**

- I certify the information provided is accurate and complete.
- I understand the approval of this request shall be dependent upon the acceptance and rejection standards stated in the district’s policy, and revocation of this transfer may occur in accordance to the conditions listed in the district’s policy. This includes over-enrollment within the first two years of the transfer.
- I understand my student must continue to attend the resident school until the effective start date of the transfer and that nonattendance is subject to truancy procedures.
- I understand I am responsible for providing transportation to and from school for my student.
- I understand the transfer can be revoked at any time if there are attendance or discipline issues.
- I understand I must complete the Intent for Re-enrollment each year in order to continue to attend the school.
- I have requested the transfer of my student’s records from \_\_\_\_\_ district to \_\_\_\_\_ district.

I have read the school district policies and procedures on Open Enrollment and hereby request that my son/daughter be permitted to attend the request schools.

Date application received by the district:

Date of Parent Notification:

Open Enrollment Application forms are available on the District's website. Students who reside in the District and move out of their school attendance zone during the school year must initiate an Open Enrollment request to stay in their school. The application, together with the student's cumulative record, special education file, IEP, or other applicable documents, if any, shall be submitted to the receiving district no later than February 1 for enrollment during the following school year. The District will not admit any student prior to viewing that student's records from their previous school districts.

The District has the option of accepting a student who does not meet the criteria set forth herein, if the student agrees to special conditions of admission, as set forth by the District.

No tuition shall be charged when a student from another school attendance area or other Idaho school district attends a District school as described in this procedure and the related District policy.

#### Application for District Students

For students who reside in the Minidoka School District, the parent/guardian completes the Open Enrollment Application form and submits it to the principal of the school they wish to attend.

The principal or their designee shall contact the student's new school to provide any further information needed for proper placement of the student at the new school. They shall also provide an estimate of the student's current grades.

#### Application for Out-of-District Students

For students who reside outside the District boundary, the parent/guardian shall complete the Open Enrollment Application form and submit it to the principal of the school they wish to attend (receiving school).

#### Decision Regarding Application

Once the receiving school principal receives the application from an in-District or out-of-District parent/guardian, along with the student's file from their home district, the principal or designee makes a recommendation to approve or not approve the transfer using the criteria set forth in Policy 3010.

The principal sends the form to the Superintendent, who shall designate an administrator to evaluate data, if any, and/or the placement options. After reviewing the student's file, the designee has discretion to review and accept or deny the open enrollment applications on a case by case basis, considering and applying the factors noted above. The administrator, if possible, should be knowledgeable and/or review the applicable records concerning:

1. The student;
2. The student's disciplinary record;
3. The student's attendance record;
4. The student's disability, if applicable;
5. The placement options, given the student's academic history;
6. The student's disability evaluation data, if any; and/or
7. The placement options.

Applications will normally be considered on a "first-come first-serve" basis.

Any non-resident student placed by court order under the Idaho Youth Rehabilitation Act or the Child Protection Act and residing in a licensed home, agency, or institution located within the District shall be enrolled and shall not be charged tuition.

Homeless children as defined by the Steward B. McKinney Homeless Assistance Act (P.L. 100-77), may attend any school district or school within a district without payment of tuition when it is determined to be in the best interest of the homeless child.

The Superintendent or their designee will notify the parent/guardian of their decision no later than March 31.

If the request for open enrollment is denied, the denial will include a written explanation. If the application is denied because classroom capacity has been reached at the school of choice, the denial will include information about other schools in the District that are below capacity. All parents/guardians whose open enrollment application for a student is denied shall be provided with notice of the denial and information about their options to appeal the denial.

If the request for open enrollment is approved, the notification will inform the parents of the following:

1. Parents must provide transportation or get student to the nearest District bus stop, if space is available;
2. Parents must notify the District by February 1 of each year regarding their intention to re-enroll their child under the Open Enrollment program;
3. That open enrollment may be revoked if the student presents issues of chronic absenteeism, commits serious disciplinary infractions, is expelled, or if the receiving school exceeds maximum capacity with resident students within their first two years of admission.

Any student under the age of 16 will not be dropped from the enrollment of their school of origin until that school has made contact with the new school's secretary to ensure the student is attending as required by law.

#### Grounds for Denial of Application

Factors which may cause an Open Enrollment Application to be denied include:

1. A school, grade, or program(s) has lack of available classroom space and/or staff, such as when the current enrollment is at or above the following capacity limits:

Grade	Class Size
K-1	15
2-3	20
4-6	26
7-12	160 students per teacher
Special Education classroom, Self-Contained	An average of 6 students per teacher
Behavior	11 students
Extended Resource	12 students
Special Education Resource	17 students
English Language Learners (ELL)	20 per full-time ELL teacher
Alternative Schools	18 students per classroom

2. The student has been suspended or expelled in their home district.
3. The student has a documented history of repeated serious disciplinary infractions. This includes infractions which could be grounds for suspension or expulsion, or if the student has a conviction, or adjudication, of offenses outlined in IC 20-525A(5) or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code. Such convictions or adjudications are required to be disclosed by the student's parent/guardian at the time of applying for open enrollment, and failure to disclose will result in a denial of open enrollment to the student.
4. The student has issues of chronic absenteeism. A student is considered chronically absent if the student is absent 10% or more school days during the school year.
5. It is determined that information on the Open Enrollment Application has been misrepresented or was incomplete.

However, if the student has a 504 plan or IEP and the disciplinary or absenteeism issues are a manifestation of the disability, this shall not be grounds for denial of the application.

#### Revocation of Open Enrollment

As long as an open enrollment student's parent/guardian has, before the preceding February,

notified the District of their intention to re-enroll the student the Superintendent shall treat that student as if they reside in that school's attendance area. However, the District reserves the right to remove an open enrollment student if:

1. The student has a documented history of chronic absenteeism;
2. The student has a documented history of repeated serious disciplinary infractions, or has a conviction or adjudication of offenses outlined in IC 20-525A(5) or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code. Such convictions or adjudications are required to be disclosed by the student's parent/guardian at the time of applying for open enrollment, and the failure to disclose qualifies to revoke open enrollment status;
3. The student has been expelled.
4. The number of resident students exceeds the capacity limits set in this procedure. A student's open enrollment cannot be revoked on these grounds if a student has attended the receiving school for more than two consecutive school years. If a student's enrollment is revoked for this reason, the District may offer information about other District schools that may be able to accept open enrollment students.

If a student's open enrollment is revoked, the parent/guardian may appeal the revocation to the Board within five school days.

The Board of the receiving school must render a decision to the parent/guardian at their next regular meeting, and the Board must issue their decision in writing. The decision of the Board may be appealed to the State Board of Education.

If a student who is a resident of another district applies to this District and is accepted under the terms of this policy and fails to attend they shall be ineligible to apply again for open; enrollment in this District.

### Students with Disabilities

In-district and out-of-district students with disabilities are not treated differently from students without disabilities with respect to consideration for placement in the school of their choice, unless the District has made an individual determination that disability-related needs of a particular student with a disability cannot be reasonably met at the school of their choice. Additionally, students applying who have a 504 plan or IEP may not be denied enrollment or have enrollment revoked if the behavior resulting in disciplinary action or chronic absenteeism is a manifestation of the student's disability.

A day of attendance is one in which a pupil is physically present for a full day (at least four hours for grades 1 through 12 and at least two and one-half hours for kindergarten) under the guidance and direction of a teacher or other authorized school personnel while school is in session or is a homebound student under the instruction of a teacher employed by the District.

Average Daily Attendance (ADA) is the aggregate number of days enrolled students are present divided by the number of days of school in the reporting period. A student attending school in another state bordering the student's resident district shall be counted for purposes of ADA. Students for whom no Idaho school district is a home district shall not be counted for purposes of ADA. Funding for districts is based on ADA and must be accurate.

**Board Policy 3031: Extracurricular Activities—Eligibility for Students    Status: Not Enrolled**

Original Adopted Date: | Last Reviewed Date:

The following rules apply for non-public school students who wish to participate in nonacademic school activities, such as extracurricular activities, for which public school students must demonstrate academic proficiency or eligibility. For the purposes of this policy, “non-public school student” means a student who attends a public charter school, home school, or private school, regardless of whether they are dually enrolled for academic or instructional activities as described in Policy 3030:

1. Non-public school students must meet the same eligibility standards as full-time District students;
2. The non-public school student must, on any State Board of Education recognized achievement test, portfolio, or other mechanism, demonstrate composite grade-level academic proficiency;
3. The non-public school student must achieve a minimum composite, core, or survey test score within the average or higher than average range as established by the test service utilized on any nationally-normed test. The minimum score on each assessment is the fifth stanine for the battery total score. The parents/guardian of a dual enrollment student are responsible for obtaining third party testing for their child at their expense in accordance with I.C. 33-203 and State Board of Education rules. Demonstrated proficiency shall be used to determine eligibility for the current and next school year, not to exceed a period of 12 months from the date the test results are released;
4. Non-public school students must be provided the opportunity to take State tests or other standardized tests given to all regularly enrolled public school students when pre-arranged with the principal of the building where the student is registered.
5. A non-public school student will be subject to the same requirements as public school students regarding school attendance on the date of an activity. If the non-public school student is not scheduled to attend academic courses in the District on activity days, the non-public school student’s primary education provider shall provide assurance to the District that such student has met the attendance requirements in the non-public school academic setting. The primary education provider shall also be responsible for the oversight of any other academic standards relating to participation in non-academic activities.
6. A public school student who has been unable to maintain academic eligibility is ineligible to participate in non-academic public school activities as a non-public school student for the duration of the school year in which the student becomes academically ineligible and for the following academic year.

The Board of Trustees of the Minidoka County Joint School District #331 is determined that students attend school in a manner consistent with society's workplace expectations. Students should be in attendance whenever school is scheduled. Students who fail to attend are denied the opportunity to experience learning opportunities and the effectiveness of the teacher's presentation is diminished. Learning is the job of all students. Students must develop the attitudes and work habits to assist them while attending school, as well as in the workplace. To foster this philosophy, all District students are expected to maintain 90% or greater attendance each semester or quarter.

Teachers shall keep a record of absence and tardiness. Before the end of the school day, each school shall attempt to contact every parent, guardian, or custodian whose child is absent from school but who has not reported the child as absent for the school day, to determine whether the parent, guardian, or custodian is aware of the child's absence from school.

### Excused Absences

Excused absences will not be included in the calculation for the 90% attendance requirement. Students shall be counted as absent on a period-by-period basis unless they are excused for one of the following reasons:

1. Funerals;
2. An absence verified by a doctor's note upon return to school;
3. A court-related absence verified by a note from the court upon return to school;
4. Counseling verified by a note from the counselor upon return to school;
5. Incarceration, including at a juvenile detention center;
6. In-school suspension; and
7. School activities.

All notes verifying absences for doctor, court, and counseling appointments must be emailed or faxed from the doctor's office or delivered to the school by a parent/guardian within five school days of returning to school in order to be accepted as an excused absence as defined above.

### Unexcused Absences

Unexcused absences shall be included in the calculation for the 90% attendance requirement. Students shall be counted as absent on a period-by-period basis unless they are excused as listed above. Unexcused absences include:

1. Illness without a doctor's note;
2. Doctor, court, or counseling absences with a note received more than five school days after returning to school;
3. Vacations;
4. Out-of-school suspensions;

### Parent Confirmed Absences

Parent confirmed absences the student's parent/guardian is aware of and has approved. However, unless an absence meets one or more of the excused absence criteria listed above, the absence will be included in the calculation for the 90% attendance requirement. Parents should contact the school prior to a non-illness absence to determine whether the proposed absence will be excused. A student's current grades and progress in classes may affect a principal's decision in approving or disapproving absences other than those for illness or emergencies.

#### Extended Illness or Health Condition

If a student is confined to home or hospital for an extended period, the parent shall make every effort to work with the principal to arrange assignments.

#### Excused Absence for Chronic Health Condition

Students with a chronic health condition which interrupts regular attendance may qualify for placement in a limited attendance and participation program. The student and his or her parent shall apply to the principal or counselor, and a limited program shall be written following the advice and recommendations of the student's medical advisor. The recommended limited program shall be approved by the principal. Staff shall be informed of the student's needs, though the confidentiality of medical information shall be respected at the parent's request. Absence verified by a medical practitioner may be sufficient justification for home instruction.

#### Response to Unexcused Absences

1. Each unexcused absence shall be followed by a warning letter to the parent of the student. A student's grade shall not be affected if no graded activity is missed during such an absence.
2. When a student has multiple trancies, a conference shall be held among the parent, student and principal. At such a conference, the Principal, student and parent shall consider adjusting the student's program or transferring the student to another school or engaging in family counseling.

Every minute of a class is important for effective learning. Students who arrive after the start of class will be considered tardy. Tardiness will be dealt with at the building level with consequences being outlined in each student handbook. Students who are repeatedly dismissed early from a class may also be considered tardy.

If a student fails to attend class at least 90% of the time school is in session, credit for that class will be denied. Both unexcused and parent confirmed absences will be used in the calculation of the 90% attendance requirement. Each school will develop an Attendance Committee to handle credit appeals and deal with student attendance issues. If the committee chooses to deny credits, appeals may be made to the Superintendent based on absences due to extenuating circumstances, such as extended illnesses or chronic health conditions, provided that the student has completed the class with a 60% or higher and has evidence of an extenuating circumstance that was beyond the student's control or a documented chronic health condition or extended illness.

Students who have more than seven parent-confirmed or unexcused absences during the semester at Minico High School or more than four parent-confirmed or unexcused absences per quarter at Mt. Harrison High School will lose credit for that class unless they participate in a credit recovery option. Credit recovery options may include credit recovery classes during the regular school year,

credit recovery classes during the summer school program, or Idaho Digital Learning Academy classes. Please note that loss of credits results in being off-track for graduation. Counselors will notify students who are off-track to graduate

Students who repeatedly violate the attendance regulations established by the Board will be considered "habitually truant" and a truancy petition will be filed with the Juvenile Court as per Idaho Code 33-206 by the building administrator or their designee. Attendance calculated as described above that falls below the 90% attendance requirement in any given reporting period may constitute grounds for a habitual truancy petition. The school may also deny credits and promotion to the next grade level due to poor attendance. Students who are repeatedly dismissed early from school may also be considered truant.

All sanctions imposed for failure to comply with the attendance policies and procedures shall be implemented in conformance with state and District regulations regarding corrective action or punishment.

Make-up work is allowed for students for any type of an absence. However, grades earned may be subject to a reduction due to unexcused absences or truancies. The classroom teacher will provide the student or the parent/guardian who requests make-up work with the information necessary to complete the make-up work, which may include:

1. A list of pages covered during the absence;
2. Information about assignments or special projects; or
3. A copy of all handout materials given during the absence.

In grades 6-12, the principal or designee may require that the student be absent up to three days before assignments are sent home.

A student will be allowed two days for each day of absence to make up new material.

Except in extenuating circumstances, assignments or tests that were announced prior to the student's absence are due on the day that the student returns to school. The Board grants authority to teachers to make exceptions to this policy in the case of term papers, labs, videos, group assignments, or long-range projects as long as students are informed of the different requirements at the beginning of the assignment.

Students are not allowed to take final exams early except when approved by the teacher.

### Reassessments

Reassessments may be given at the discretion of the teacher as long as all students are given the same opportunities. Reassessments should not be identical to previous assessment.

### Late Work

Students shall be permitted to turn in late work, as allowed above, up to one week prior to the end of the semester (unless extensions are made by the principal/designee). Dual credit courses will follow the late work policies outlined by the college or university. This policy is meant to stress the importance of turning in work in a timely manner while simultaneously providing students the opportunity to learn at a different rate.

Homelessness exists in our community. A combination of high housing costs and poverty causes many families to lose their housing. Many young people leave their homes due to abuse, neglect, and family conflict. Children and youth who have lost their housing live in a variety of places, including motels, shelters, shared residences, transitional housing programs, cars, campgrounds, and others. Their lack of permanent housing can lead to potentially serious physical, emotional, and mental consequences. The Minidoka County School District will ensure that all children and youth receive a free appropriate public education and are given meaningful opportunities to succeed in our schools.

Students shall be enrolled in school immediately, without delay and without waiting for the receipt of required documents. Once such documents are obtained, they shall be maintained so that they are available in a timely fashion when the student enters a new school or school district. The District shall serve students regardless of whether they are in the custody of a parent/guardian.

It is the policy of the District to ensure that:

1. Each child of a homeless individual and each homeless child has equal access to the same free, appropriate public education, including a public preschool education, as provided to other students;
2. Homelessness does not in any way separate homeless students from the mainstream school environment; and
3. Homeless children and youths have access to the education and other services that such children and youths need to ensure that such children and youths have an opportunity to meet the same challenging state academic standards to which all students are held.

The Board of Trustees directs all District schools to admit children who are homeless regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment. The Board shall not enter into an out-of-District attendance and tuition agreement with another district for a homeless child.

All schools and employees of the District shall work to ensure that children and youth who are homeless are free from discrimination, segregation, and harassment. The District will also strive to prevent stigma against students who are homeless.

### Definitions

For the purposes of this Policy, the following definitions shall apply.

The terms “enroll” and “enrollment” includes attending classes and participating fully in all school activities.

The terms “homeless,” “homeless individual,” and “homeless person” include:

1. Children and youths who are sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason; are living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; or are abandoned in hospitals;
2. Children and youths who have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
3. Children and youths who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
4. Migratory children who qualify as homeless for the purposes of this part because the children are living in circumstances described in clauses 1 through 3 above; and
5. An unaccompanied student living in any of the circumstances described in clauses 1 through 3 above.

“Children and youth in transition” is defined as children and youth who are otherwise legally entitled to or eligible for a free public education, including preschool, and who lack a fixed, regular, and adequate nighttime residence.

“Unaccompanied youth” is defined as a youth not in the physical custody of a parent/guardian who is in transition as defined above.

The term “school of origin” is defined as the school the student attended when permanently housed, or the school in which the student was last enrolled, including a preschool. When a student completes the final grade level served by the students “school of origin;” the “school of origin” shall progress to the designated receiving school at the next grade level for all of its feeder schools the same as for all students attending one school and progressing to another school in the District.

### In General

The District shall ensure the following is provided according to the homeless student's best interest:

1. That the homeless student's education continues in the school of origin for the duration of homelessness:
  - A. In any case in which a family becomes homeless between academic years or during an academic year; and
  - B. For the remainder of the academic year, if the student becomes permanently housed during an academic year; or
2. That the homeless student is eligible to enroll in the same schools as non-homeless students who live in the same attendance area where the homeless student is actually living.

### Placement Choice

The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

When addressing school placement, the student may attend a school different than the school of

attendance from before the student became homeless or the school last attended by the student, if such is the choice of the student's parent and such is feasible.

When addressing school placement, the District's liaison shall work with the family to address the student's transportation needs.

### School Stability

In determining the best interest of the homeless student each school within the District shall:

1. Presume that keeping the student in the school of origin is in the student's best interest, except when doing so is contrary to the request of the student's parent/guardian, or (in the case of an unaccompanied youth) the student;
2. Consider student-centered factors related to the student's best interest, including factors related to the impact of mobility on achievement, education, health, and safety of homeless students, giving priority to the request of the student's parent/guardian or (in the case of an unaccompanied youth) the student;
3. If, after conducting the best interest determination based on consideration of the above presumptions, the Superintendent determines that it is not in student's best interest to attend the school of origin or the school requested by the parent or guardian, or (in the case of an unaccompanied student) the student, provide the student's parent/guardian or the unaccompanied student with a written explanation of the reasons for their determination, which will be provided in a manner and form understandable to such parent/guardian, or unaccompanied student, including information regarding the right to appeal under "Enrollment Disputes", below; and
4. In the case of an unaccompanied student, ensure that the District's liaison designated under "District Liaison," below, assists in placement or enrollment decisions under this subparagraph, gives priority to the views of such unaccompanied student, and provides notice to such student of the right to appeal under "Enrollment Disputes," below.

### Immediate Enrollment:

1. **In General:** The school selected in accordance with this policy shall immediately enroll the homeless student, even if the student:
  - A. Is unable to produce records normally required for enrollment, such as previous academic records, records of immunization and other required health records, proof of residency, or other documentation;
  - B. Has missed application or enrollment deadlines during any period of homelessness; or
  - C. Has outstanding fees or fines, including fees associated with extracurricular activities.
2. **Relevant Academic Records:** The enrolling school shall immediately contact the school last attended by the student to obtain relevant academic and other records.
3. **Relevant Health Records:** If the student needs to obtain immunizations or other required health records, the enrolling school shall immediately refer the parent/guardian of the student, or (in the case of an unaccompanied student) the student, to the District's liaison

designated under “District Liaison,” below, who shall assist in obtaining all necessary immunizations and/or screenings, or other required health records, in accordance with “Records,” below. Additionally, exemption from these immunization requirements is available as described in Policy 3525 and IC 39-4802.

### Records

Any record ordinarily kept by the school, including immunization or other required health records, academic records, birth certificates, guardianship records, and evaluations for special services or programs, regarding each homeless student shall be maintained:

1. So that the records involved are available, in a timely fashion, when the student enters a new school or school district; and
2. In a manner consistent with FERPA, applicable Idaho law, and District policy.

When a student transfers schools, the District shall help to keep the student academically on track by providing appropriate credit for full or partial coursework satisfactorily completed while attending a prior school or when transferring to a new school.

### Disputes

If a dispute arises over eligibility, school selection or enrollment in a particular school, or any other issue addressed in this policy:

1. The student shall be immediately enrolled in the school in which enrollment is sought, pending final resolution of the dispute, including all available appeals. The student shall receive educational services for which the student is eligible, such as attending classes and full participation in all school activities
2. The parent/guardian of the student or (in the case of an unaccompanied student) the student shall be provided with a written explanation identifying the basis for any decisions related to school selection or enrollment made by the District, or other entity, including the rights of the parent/guardian or unaccompanied student to appeal such decisions;
3. The parent/guardian or unaccompanied student shall be referred to the local educational agency liaison designated under “District Liaison” below, and upon being informed of the dispute, the liaison shall, within 10 days, initiate an appeal with the District and, if unsuccessful, to the state coordinator of the dispute regarding the educational placement of the homeless student; and
4. In the case of an unaccompanied student, the liaison shall ensure that the student is immediately enrolled in the school in which the student seeks enrollment pending resolution of the student’s dispute.
5. If an agreement cannot be reached between the parties regarding the educational placement of enrollment status of the student, then the District shall seek further assistance from the State Coordinator of Homeless Education to review and determine within ten business days how the student’s best interests will be served. The decision of the State Department of Education shall constitute final resolution.

### Privacy

Information about a homeless student’s living situation shall be treated as a student education

record and shall not be deemed to be disclosable “directory information” under the Family Education Records Privacy Act (“FERPA”).

### Contact Information

Nothing in this policy shall prohibit the District and/or the enrolling school from requiring the parent/guardian of a homeless student to submit contact information.

4. Programs for gifted and talented students; and

# Board Policy 3085: Sexual Harassment, Discrimination, and Retaliation Status: Policy

Original Adopted Date: | Last Reviewed Date:

## Policy Purpose

The purpose of this policy is to promote working and learning environments that are free from sex and gender-based harassment, discrimination, and retaliation, and to affirm the Minidoka School District's commitment to non-discrimination, equity in education and equal opportunity for employment.

## Scope of Policy

This policy applies to all members of the Minidoka School District's community, including students, employees, and other members of the public including guests, visitors, volunteers, and invitees.

## Policy Statement

The Minidoka School District is committed to providing a workplace and educational environment, as well as other benefits, programs, and activities, that are free from sex and gender-based harassment, discrimination, and retaliation. Accordingly, the District prohibits harassment and discrimination on the basis of sex, sexual orientation, gender, gender identity, and pregnancy, as well as retaliation against individuals who report allegations of sex and gender-based harassment and discrimination, file a formal complaint, or participate in a grievance process.

Students, employees, or other members of the District community who believe that they have been subjected to sex or gender-based harassment, discrimination, or retaliation should report the incident to the Title IX Coordinator, who will provide information about supportive measures and the applicable grievance process(es). Violations of this policy may result in discipline for both students and District employees.

## Title IX Coordinator

The Federal Programs Director serves as the Minidoka School District's Title IX Coordinator and oversees implementation of this policy. The Title IX Coordinator has the primary responsibility for coordinating the District's efforts related to the intake, investigation, resolution, and implementation of supportive measures to stop, remediate, and prevent sex and gender-based harassment, discrimination, and retaliation prohibited under this policy. The Title IX Coordinator acts with independence and authority and is free from bias and conflicts of interest.

To raise any concern involving bias, conflict of interest, misconduct or discrimination committed by the Title IX Coordinator, contact the Superintendent or their designee at the District office 208-436-4727.

If the District's Title IX Coordinator is the subject of any complaint regarding sex or gender-based harassment or has an apparent bias or conflict of interest regarding such a case, another person

shall be appointed to act as the Title IX Coordinator for handling that case. Such appointees may include, but are not limited to:

1. The Title IX Coordinator of another school district which the District has an agreement with;
2. Another employee of the District who is qualified and trained to address the matter, such as a deputy Title IX Coordinator;
3. A qualified and trained individual who enters into a professional services contract with the District; including but not limited to the District's legal counsel and/or contracted Human Resources or Title IX professionals.

Concerns of bias, conflict of interest, misconduct, or discrimination committed by any other official involved in the implementation of this policy or related grievance processes should be raised with the Title IX Coordinator.

### Mandatory Reporters

The Minidoka School District has classified all employees as mandatory reporters of any knowledge they have that a member of the District community experienced sex or gender-based harassment, discrimination, and/or retaliation. Accordingly, all District employees must promptly report actual or suspected sex and gender-based harassment, discrimination, and/or retaliation to the Title IX Coordinator. District employees must share with the Title IX Coordinator all known details of a report made to them in the course of their employment, as well as all details of behaviors under this policy that they observe or have knowledge of. Failure of a District employee to report an incident of sex or gender-based harassment, discrimination, or retaliation to the Title IX Coordinator of which they become aware is a violation of this policy and can be subject to disciplinary action for failure to comply.

In addition, District employees must also report allegations of suspected child abuse and/or neglect to either law enforcement or the Idaho Department of Health and Welfare as described in Board's policy on reporting suspected abuse, abandonment, or neglect.

### Notice/Formal Complaints of Sex and Gender-Based Harassment, Discrimination, and/or Retaliation

Notice or formal complaints of sex or gender-based harassment, discrimination, and/or retaliation may be made using any of the following options:

1. File a complaint with, or give verbal notice to, the Title IX Coordinator (or deputy/deputies, if applicable). Such a report may be made at any time, including during non-business hours, by using the telephone number, email address, or by mail to the office address listed for the Title IX Coordinator (or any other official as listed above).
2. Report online, using the reporting form posted at [www.minidokaschools.org](http://www.minidokaschools.org).
3. Report by phone at 208-436-4727.

When notice is received regarding conduct that may constitute Title IX sexual harassment, the Minidoka School District shall provide information about supportive measures and how to file a formal complaint, as described in 3085P.

A formal complaint means a document filed/signed by the alleged victim or signed by the Title IX Coordinator alleging an individual violated this policy and requesting that the District investigate the allegation(s). As used in this paragraph, the phrase "document filed/signed by the alleged victim" means a document or electronic submission (such as by electronic mail or through an online portal provided for this purpose by the District, if applicable) that contains the alleged victim's physical or digital signature, or otherwise indicates that the alleged victim is the person filing the complaint. For example, an alleged victim may send an email to the Title IX Coordinator, identify themselves as the alleged victim and the one sending the email, to file a formal complaint. If notice is

submitted in a form that does not meet this standard, the Title IX Coordinator will contact the alleged victim to ensure that it is filed correctly.

Parents and legal guardians of primary and secondary school students who have the legal authority to act on their child's behalf may file a formal complaint on behalf of their child.

### Grievance Processes

When a formal complaint is made alleging that this policy was violated, the allegations are subject to resolution using one of the Minidoka School District's grievance processes noted below, as determined by the Title IX Coordinator. All processes provide for a prompt, fair, and impartial process.

1. For formal complaints regarding conduct that may constitute Title IX sexual harassment involving students or employees, the District will implement procedures detailed in Procedure 3085P.
2. For formal complaints regarding sex and gender-based harassment, discrimination and/or retaliation where students are the accused party, and that do not constitute Title IX sexual harassment, the District will implement procedures described in [insert applicable procedures, which may include: Student Code of Conduct, Uniform Grievance Procedure if no adjudication procedures are included in the Student Code of Conduct, General Bullying, Harassment and Intimidation procedures, Relationship Abuse and Sexual Assault Prevention and Response procedures].
3. For formal complaints regarding sex and gender-based harassment, discrimination and/or retaliation where employees are the accused party, and that do not constitute Title IX sexual harassment, the District will implement procedures described in Certificated/Non-certificated Staff Grievance Procedure

Advisors

You have the right to an advisor of your choosing, who can be an attorney, to accompany you to all meetings, interviews, and hearings and to assist you in this process. **[OPTIONAL: If you would prefer that the school/district appoint a school/district-trained advisor for you, please let me know as soon as possible.]** Upon request, a pre-interview meeting between you, your advisor, and the investigator(s) to explain the District process and answer any questions may be arranged by contacting the investigator.

Retaliation

This letter also serves as a reminder that District policy prohibits retaliation, as defined in Procedure 3085P. The District will impose sanctions on any faculty, student, or staff member found to be engaging in retaliation, and on individuals who encourage third parties to retaliate on their behalf.

If you experience any retaliation, please contact me immediately.

False Statements and/or False Information

Please also be reminded that Procedure 3085P prohibits making false statements and knowingly providing false information in the course of a District grievance process.

To ensure that the investigator(s) can obtain as much accurate and objective information about this matter as possible, please do not suggest to any witness that they distort or align their accounts.

Should it be alleged that you have violated these rules, the District reserves the right to address those allegations inside of this process or to address the allegations as a separate matter pursuant to Procedure 2085P.

Confidentiality

You have the right to discuss this matter with your advisor and others, but the District will conduct this investigation confidentially, meaning that it will only share information as permitted or required by law. The District asks for your discretion in what you choose to share and hopes that you will respect the private and sensitive nature of these allegations. # Procedure 3085-P(1): Sexual Harassment, Discrimination, and Retaliation Policy - Title IX Sexual Harassment Grievance Procedure, Requirements, and Definitions

Status:

Original Adopted Date: | Last Revised Date: | Last Reviewed Date:

## Scope of Procedure

This Title IX Grievance Process applies to all members of Minidoka School District's community, including students, employees, and Board members as well as District patrons, guests, visitors, volunteers, and invitees.

## Purpose of This Policy and Procedure

The Minidoka School District is committed to providing a workplace and educational environment, as well as other benefits, programs, and activities, which are free from sex and gender-based harassment, discrimination, and retaliation. Accordingly, the District prohibits harassment and discrimination on the basis of sex, sexual orientation, gender, gender identity, and pregnancy, as well as retaliation against individuals who report allegations of sex and gender-based harassment and discrimination, file a formal complaint, or participate in a grievance process.

Students, employees, or other members of the District community who believe that they have been subjected to sex or gender-based harassment, discrimination, or retaliation should report the incident to the Title IX Coordinator, who will provide information about supportive measures and the applicable grievance procedure. Violations of this District procedure or its related policy may result in discipline to either students or employees.

## Guiding Principles

Title IX requires school districts to put into place policies and procedures that promote the goal of Title IX, specifically, to prohibit discrimination based on sex, and to respond appropriately if and when sex discrimination occurs or may occur. Title IX explains that when an appropriate official at the District has "actual knowledge" of "sexual harassment" of a student or employee that occurs in one of its educational programs or activities, the District must respond promptly and in a manner that is not "deliberately indifferent." This standard does not require a perfect response; rather, it requires a response that is not "clearly unreasonable" in light of the known circumstances over which the District exercises control.

## Grievance Procedure

### **1. Receipt of a Complaint, Report, or Information Alleging Sexual Harassment**

Upon receipt of a complaint or report (whether verbal or written) of possible sexual harassment, the District shall first determine whether to initiate a formal or informal response. Thus, any and all complaints, reports, or information received by any District employee that sexual harassment is occurring or has occurred shall be immediately forwarded to the District's Title IX Coordinator or other designated employee for review and action as appropriate.

The Title IX Coordinator (Coordinator) shall promptly contact the complainant or reporting party and discuss with them the availability of supportive measures, and will consider the complainant's wishes with respect to the provision of supportive measures. The Coordinator shall explain the availability of these measures to the complainant with or without the filing of a "formal complaint." During this initial meeting, the Coordinator or designee shall explain to the complainant the process for filing a written formal complaint, and shall provide assistance to the complainant to ensure the written formal complaint is properly prepared and submitted.

*Emergency Removal (of students):* Nothing in this procedure prevents the District from removing a respondent from a District education program or activity on an emergency basis, provided that an individualized safety and risk analysis is performed by the Coordinator and Superintendent who determine that an immediate threat to the physical health or safety of any student or other individual arise from the allegations of sexual harassment that justify removal. The Coordinator and Superintendent shall provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. This provision may not be construed to modify any rights and requirements under the Individuals with Disabilities Education Act, Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act.

*Administrative Leave (of employees):* Nothing in this procedure precludes the District from placing a non-student employee respondent on administrative leave during the pendency of a grievance investigation under this procedure. Notwithstanding the above, prior to placing an employee respondent on administrative leave, the Coordinator or designee shall ensure any rights provided by Section 504 of the Rehabilitation Act of 1973 and/or the Americans with Disabilities Act are not impaired or violated.

## **2. Providing Supportive Measures**

If an informal complaint is filed, (for instance, because the complainant does not wish to file a written formal complaint,) as well as during the pendency of the investigation and the decision concluding a formal complaint, the following supportive measures may be implemented to restore or preserve the complainant's access to the District's educational programs without unreasonably burdening the other party (also referred to herein as respondent).

Supportive measures may include actions taken to protect the safety of all parties or the District's educational environment, or which otherwise deter sexual harassment from occurring in the future. Additional supportive measures may include, but are not limited to: counseling, the availability of a safe place or person in the event complainant feels threatened or uncomfortable, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, escort services at school, mutual restriction of contact between the parties, changes in work locations, leaves of absence, increased security and/or monitoring of locations where prohibited conduct has occurred or may occur in the future, as well as additional measures to protect the complainant, provided the supportive measures initiated are not punitive to the respondent.

## **3. Filing a Written Formal Complaint**

Upon receipt of a written formal complaint, the Coordinator or designee is required to provide written notice to all known complainants and respondents of the allegations and the resulting investigation.

- A. General Notice Requirements: The notice will include the District's Title IX grievance process as well as information regarding the District's informal resolution process.

- B. Specific Notice Requirements: The written notice shall include the following information:
- i. Information describing the alleged conduct potentially constituting sexual harassment, including sufficient details known at the time the notice is prepared to allow the parties to prepare a response prior to the investigator's initial interview, and shall be delivered to the parties in enough time to allow their preparation for the initial interview.
  - ii. Sufficient details include but are not limited to the identities of the parties involved, the conduct allegedly constituting sexual harassment, the date(s), and location(s) of the incident(s).
  - iii. A statement that the respondent is presumed to not be responsible for the alleged conduct, and that a determination of responsibility will not be made until the conclusion of the grievance process.
  - iv. A statement informing the parties that they are entitled to have an advisor or representative of their choosing who may be, though is not required to be, an attorney, and that the advisor is authorized to review all evidence submitted in the matter.
  - v. The notice must inform the parties that District policy and procedure prohibit knowingly making false statements or knowingly submitting false information to the investigator or at any other time during the grievance process.
  - vi. The notice must warn the parties that retaliation is prohibited. Accordingly, the parties must be informed that no District employee or other person may intimidate, threaten, coerce, or discriminate against any individual for the purpose of interfering with any right or privilege secured by Title IX or this procedure, or because the individual has made a report or complaint, testified, assisted, or participated or refused to participate in any manner in an investigation, proceeding, or hearing under this procedure. Retaliation includes circumstances where intimidation, threats, coercion, or discrimination are made for the purpose of interfering with any right or privilege secured by Title IX or this procedure. This includes threatening charges against an individual for code of conduct violations that do not involve sex discrimination or sexual harassment, but arise out of the same facts or circumstances as a report or complaint of sex discrimination, or a report or formal complaint of sexual harassment. The District shall keep confidential the identity of:
    - a. Any individual who has made a report or complaint of sex discrimination, including any individual who has made a report or filed a formal complaint of sexual harassment;
    - b. Any complainant;
    - c. Any individual who has been reported to be the perpetrator of sex discrimination;
    - d. Any respondent; and
    - e. Any witness

except:

- a. As may be permitted by FERPA ( 20 U.S.C. § 1232g) or a FERPA regulation (34 CFR Part 99);
- b. As required by law; or
- c. To carry out the purposes of this procedure, including the conduct of any investigation, hearing, or judicial proceeding arising thereunder.

Complaints alleging retaliation may be filed as an additional charge or counter-charge under these procedures.

- C. **Additional Charges:** If, during the course of the investigation, it is determined based on the information gathered that additional allegations or charges are warranted, an amended notice shall be prepared and submitted to the parties including the new allegations and charges as appropriate.
- D. **Consolidation:** The Coordinator may consolidate two or more formal complaints into a single action provided that the allegations of sexual harassment and retaliation arise out of a common set of facts or circumstances and if in the course of an investigation, it is determined that:
  - i. There is more than one respondent and/or more than one complainant; or
  - ii. There are cross-complaints, or additional complaints raised by the original complainant against the original respondent (such as retaliation), or by the respondent against any other party.

#### 4. **Conduct of the Investigation, Informal Resolution**

In the course of their investigation, the District's Coordinator and designees shall comply with the following requirements.

##### *Investigation*

- A. **Burden of Investigation:** The burden of gathering evidence sufficient to make a determination of responsibility is the responsibility of the District's investigator(s) and not the parties. However, the District's investigator is not authorized to access a party's records that are made or maintained by a health care provider such as a physician, psychiatrist, psychologist, or other recognized health care provider, if the record was made in the course of providing treatment to the party, unless and until written consent from an authorized person is provided to obtain such privileged records for purposes of investigating and resolving the allegations of the formal complaint.
- B. **Evidence Offered by Parties:** The parties shall be provided an equal opportunity to call witnesses, including fact and expert witnesses, as well as other inculpatory and exculpatory evidence.
- C. **No Restrictions:** The ability of the parties to discuss the allegations under investigation or to gather and present evidence shall not be restricted.
- D. **Equal Representation Rights:** All parties shall have the same opportunity to have others present, or to be represented by the advisor of their choice throughout the grievance process, including attendance at related meetings or proceedings. If the District limits access to representation in any way at any time during the proceedings, such limitation shall be equally applied to all parties in the same manner. Access to representation may be limited only where a party is already represented as authorized by this procedure, and the additional representation will

unduly increase the cost to the parties, and/or will not otherwise serve to significantly promote a legitimate purpose under this procedure.

- E. Notice of Interviews and Hearings: Adequate notice of the purpose, date, time, place, and the identities of all participants involved shall be provided to any party whose participation at a hearing, interview, or meeting is invited or expected, and allowing sufficient time for the party to prepare and fairly participate.
- F. Evidentiary Considerations: The investigation shall not consider:
  - i. Incidents not directly related to the possible violation, unless they evidence a pattern;
  - ii. The character of the parties; or
  - iii. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.
- G. Right to Inspect Evidence: All parties shall be provided equal access to inspect and review any or all evidence gathered during the investigation related to the allegations of the formal complaint, whether or not relied upon or referred to in the investigator's report. This will ensure that the parties can respond to the evidence prior to the conclusion of the investigation. Prior to completion of the investigation report, the investigator shall provide the parties and their respective advisors, when advisors are identified, a secured electronic or hard copy of the evidence subject to inspection. The parties must have at least ten business days to submit a written response which the investigator shall consider prior to completion of the investigative report. All such evidence shall be made available to all parties at any hearing to give the parties equal opportunity to refer to such evidence during the hearing, including cross-examination of adult parties.
- H. Investigative Report: At least ten business days prior to a hearing, or other time of determination regarding responsibility, the investigator shall send to all parties and their advisors, if any, by electronic format or hard copy, a copy of the investigative report for the parties' review and written response. The parties' responses shall be made part of the record.

*Informal Resolution:* The informal resolution process may include mediation, or other meeting of the parties that does not involve a full investigation and adjudication of the complaint. The District may **not** require the parties to participate in an informal resolution process. Informal resolution is available **only** if a written formal complaint was submitted to the Coordinator. If these conditions are satisfied, then at any time during the course of an investigation, but prior to the time of the Decision-Maker's final determination of responsibility, the parties may request the Coordinator to initiate the informal resolution by process. In so doing, the Coordinator is required to comply with the following:

- A. Provide the parties with written notice informing them of the allegations at issue and the requirements of the resolution process. These requirements include the fact that a written agreement signed by the parties that resolves the allegations at issue will preclude the parties from resuming the formal complaint process that arose from the

same allegations. The parties will also be informed that at any time prior to reaching a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint, and will be notified that the records submitted or discussed during the informal process will be maintained by the District as part of the record, and may be used by the Decision-Maker to determine responsibility.

- B. Require the parties submit voluntary, written consent to participate in the informal resolution process.
- C. Ensure that the informal resolution process is not made available to resolve allegations that an employee sexually harassed a student.
- D. An informal resolution, signed and agreed to by the parties thereto, is not appealable.

*Dismissal of a Formal Complaint:* A written formal complaint may be dismissed by the Coordinator under any of the following circumstances, and prior to a finding of responsibility:

- A. After investigating the allegations of the written formal complaint, dismissal is required if:
  - i. The Coordinator or designee determines that the conduct alleged in the complaint, even if proven, would not constitute sexual harassment as defined herein; or
  - ii. The alleged conduct did not occur in a District education program or activity; or
  - iii. The alleged conduct did not occur against a person in the United States.

Dismissal of the Title IX formal complaint, however, does not preclude action under another provision of the District's Code of Conduct or other District Policy.

- B. If the Complainant notifies the Coordinator in writing that he or she would like to withdraw the formal complaint or any allegations contained therein.
- C. If the respondent is no longer enrolled or employed by the District.
- D. If specific circumstances exist which prevent the investigator from gathering evidence sufficient to reach a determination regarding the merits of the formal complaint or allegations therein.

Upon dismissing a formal complaint, the Coordinator shall simultaneously inform the parties in writing that the complaint has been dismissed, and shall identify the reason(s) for the dismissal. This decision may be appealed in accordance the Appeals portion of this procedure, below.

## 5. **Decision-Maker's Participation**

If the matter is not dismissed for one of the reasons set forth above and is not resolved by the parties through the informal resolution process then, (following completion of the investigation, including issuance of the investigator's final investigation report,) the matter shall be submitted to the Decision-Maker for review and issuance of a determination of responsibility. The Decision-Maker cannot make a determination regarding responsibility until ten business days after the date the final investigation report is transmitted to the parties and the Decision-Maker, unless all parties and the Decision-Maker agree to an expedited timeline.

The Coordinator shall designate a single Decision-Maker or three-member panel and inform the parties and their advisors.

The Decision-Maker(s) may not have had any previous involvement with the investigation. Those who have served as investigators in the investigation cannot serve as Decision-Makers. Those who are serving as advisors for any party cannot serve as Decision-Makers in that matter. The Coordinator is also prohibited from serving as a Decision-Maker in the matter.

All objections to any Decision-Maker must be raised in writing. Any written objection must detail the rationale for the objection and must be submitted to the Coordinator no later than two business days after being notified of the Decision-Maker's identity. Decision-Makers shall not be removed unless the Coordinator concludes that the Decision-Maker's bias or conflict of interest precludes a fair and impartial consideration of the evidence.

The Coordinator shall give the Decision-Maker(s) a list of the names of all parties, witnesses, and advisors. Upon review thereof, if any Decision-Maker believes they cannot make an objective determination, they must recuse themselves from the proceedings. If a Decision-Maker is unsure whether a bias or conflict of interest exists, they shall immediately disclose their concern(s) to the Coordinator and simultaneously inform the parties and their advisors.

No less than ten business days prior to any meeting or the decision-making phase of the process, the Coordinator or the Decision-Maker shall send notice to all parties. Once mailed, emailed, or received in-person, Notice will be presumptively delivered.

The Notice shall contain the following:

- A. A description of the alleged violation(s), a list of all policies allegedly violated, a description of the applicable procedures, and a statement of the potential sanctions that could result.
- B. The time, date, and location of any meeting.
- C. Any technology that will be used to facilitate the meeting.
- D. The name and contact information of the Decision-Maker, along with an invitation to object to any Decision-Maker on the basis of demonstrated bias. Such objections must be raised with the Coordinator at least two business days prior to the meeting.
- E. Information on whether the meeting will be recorded and, if so, information on access to the recording for the parties after the meeting.
- F. A statement that if any party does not appear at the scheduled meeting, the meeting will only be rescheduled for compelling reasons.
- G. Notification that the parties may have the assistance of an advisor of their choosing at the meeting.
- H. A copy of all the materials provided to the Decision-Maker(s) about the matter.
- I. An invitation for the parties to review and submit a written response to the final investigation report within seven business days of the date of the notice.
- J. An invitation to each party to submit to the Decision-Maker any written, relevant questions they want the Decision-Maker to ask of any other party or witness within

seven business days of the date of the notice.

- K. An invitation to each party to submit to the Decision-Maker an impact statement, pre-meeting, that the Decision-Maker will review during any sanction determination.
- L. An invitation to contact the Coordinator to arrange any disability accommodations, language assistance, and/or interpretation services that may be needed at any meeting or in the decision-making process, at least seven business days prior to the meeting/final determination.
- M. Whether parties can or cannot bring mobile phones or devices into the meeting.

Meetings for possible violations that occur near or after the end of a school year, assuming the respondent is still subject to Policy 3085 and Procedure 3085P, and are unable to be resolved prior to the end of the school year will typically be held as soon as possible given the availability of the parties, but no later than immediately upon the start of the following school year. The District will implement appropriate supportive measures intended to correct and remediate any hostile environment while the resolution is delayed.

- A. **Evidentiary Consideration by the Decision-Maker:** Whether at a hearing or through an exchange of questions, only relevant, credible evidence will be admitted into evidence and considered by the Decision-Maker. Any evidence that the Decision-Maker(s) determine(s) is relevant and credible may be considered. The Decision-Maker will not consider:
  - i. Incidents not directly related to the possible violation, unless they evidence a pattern;
  - ii. The character of the parties; or
  - iii. Questions and evidence about the complainant's sexual predisposition or prior sexual behavior, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged, or if the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

Previous disciplinary action of any kind involving the respondent may be considered in determining an appropriate sanction upon a determination of responsibility. This information may only be considered at the sanction stage of the process and cannot be shared with the Decision-Maker until that time.

The parties may each submit a written impact statement for the consideration of the Decision-Maker(s) at the sanction stage of the process when a determination of responsibility is reached.

- B. **Hearing Procedure and Exchange of Questions Procedure:** At the time the matter is referred to the Decision-Maker(s), the Coordinator shall determine, based on the parties involved and the circumstances of the alleged sexual harassment, whether to hold a hearing or to initiate an exchange of questions procedure, and shall so inform all parties and their advisors. Both of these decision-making procedures are discussed below. Upon their selection, the Decision-Maker(s) shall review the evidence and issue a determination of responsibility based on the following circumstances and

procedures.

- C. **Exchange of Questions Procedure:** Where a party involved is an elementary student, or where the Coordinator otherwise determines that a hearing is not appropriate under the circumstances, the Coordinator will initiate the Exchange of Questions Procedure, which provide as follows.

After the Coordinator or designee has submitted the investigative report to the parties pursuant to this procedure and before reaching a determination regarding responsibility, the Decision-Maker(s) shall provide each party an opportunity to submit written, relevant questions that party desires to ask of any party or witness, and shall subsequently provide each party with the answers. The Decision-Maker will also allow for additional, limited follow-up questions from each party to the other, and provide both with complete copies of the answers. Upon receipt of the proposed questions, the Decision-Maker will review the proposed questions and determine which questions will be permitted, disallowed, or rephrased. The Decision-Maker shall limit or disallow any questions that are irrelevant, repetitive (and thus irrelevant), or abusive. The Decision-Maker shall have full authority to decide all issues related to questioning and determinations of relevance. The Decision-Maker may ask a party to explain why a question is or is not relevant from their perspective. The Decision-Maker shall explain any decision to exclude a question as not relevant or to reframe it for relevance. Whether a hearing is held or not, questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant:

- i. Unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant; or
- ii. If the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent. This basis for asking questions or presenting evidence shall not be allowed if the respondent is an adult, non-student employee, because consent is not a recognized defense in cases where the complainant is a student and the respondent is an employee.

The Decision-Maker, after any necessary consultation with the parties, investigator(s), and/or Coordinator, shall provide the parties and witnesses with:

- ii. The relevant written questions to be answered; and
- iii. A deadline for the parties and witnesses to submit written responses to the questions and any appropriate follow-up questions or comments by the parties.

The exchange of questions and responses by the parties and witnesses shall be concluded within a seven business.

- D. **Hearing procedure:** Where both parties are adult employees, or a mature secondary school student, the Coordinator may initiate the live Hearing Procedure. If either party, however, objects and requests the Exchange of Questions Procedure, then the Exchange of Questions procedure shall be followed by the Decision-Maker(s). The Hearing Procedure shall include the following:

At the live hearing, the decision maker(s) must permit each party's advisor to ask the other party and any witnesses all relevant questions and follow-up questions, including those challenging credibility. Such cross-examination at the live hearing

must be conducted directly, orally, and in real time by the party's advisor of choice and never by a party personally, notwithstanding the discretion of the District to restrict the extent to which advisors may participate in the proceedings, as long as the restrictions apply equally to all parties. At the request of either party, the District must provide for the live hearing to occur with the parties located in separate rooms with technology enabling the decision-maker(s) and parties to simultaneously see and hear the party or the witness answering questions. Only relevant cross-examination and other relevant questions may be asked of a party or witness. Before a complainant, respondent, or witness answers a cross-examination or other question, the decision-maker(s) must first determine whether the question is relevant and explain any decision to exclude a question as not relevant. If a party does not have an advisor present at the live hearing, the District shall provide without fee or charge to that party, an advisor of the District's choice to conduct cross-examination on behalf of that party. The advisor may be, but is not required to be, an attorney.

Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless:

- i. Such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant; or
- ii. If the questions and evidence concern specific incidents of the complainant's prior sexual behavior with respect to the respondent and are offered to prove consent.

In cases where both parties are 18 or older, if a party or witness does not submit to cross-examination at the live hearing, the Decision-Maker(s) is prohibited from relying on any statement of that party or witness in reaching a determination regarding responsibility. However, that the Decision-Maker(s) cannot draw an inference about the determination regarding responsibility based solely on a party's or witness's absence from the live hearing or refusal to answer cross-examination or other questions. Live hearings pursuant to this paragraph may be conducted with all parties physically present in the same geographic location or, at the District's discretion, any or all parties, witnesses, and other participants may appear at the live hearing virtually, with technology enabling participants to simultaneously see and hear each other. The District shall create an audio or audiovisual recording, or transcript, of any live hearing and make it available to the parties for inspection and review.

At the hearing, the Decision-Maker shall have the authority to hear and make determinations on all allegations of Title IX sexual harassment and may also hear and make determinations on any additional alleged violations of policy or procedure that have occurred in concert with the Title IX sexual harassment, even though those collateral allegations may not specifically fall within the definition of sexual harassment set for in these procedures.

Any witness scheduled to testify before the Decision-Maker must have been first interviewed by the investigator(s) or have proffered a written statement or answered written questions, unless all parties and the Decision-Maker agree to the witness's participation.

If the parties and Decision-Maker do not agree to the admission of evidence newly

offered at the hearing, the Decision-Maker may delay the meeting and instruct that the investigation needs to be re-opened to consider that evidence.

If the parties raise an issue of bias or conflict of interest of an investigator or Decision-Maker at the hearing, the Decision-Maker may elect to address those issues, consult with legal counsel, and/or refer them to the Coordinator, and/or preserve them for appeal. If bias is not in issue during the hearing, the Decision-Maker shall not permit irrelevant questions regarding bias.

## 6. Decision Making Process and Determination Requirements

Following its review of the evidence submitted by the investigator and the parties, the Decision-Maker, (who cannot be the Coordinator) shall issue a written determination of responsibility. To reach this determination, the District's burden of proof – preponderance of evidence – must be described, and the burden satisfied, before the respondent can be found responsible for sexual harassment in violation of Title IX.

The written determination of responsibility shall include the following information:

- A. Identification of the allegations potentially constituting sexual harassment in violation of Title IX.
- B. A description of the procedural steps taken from receipt of the written formal complaint through the determination, including notifications to the parties, interviews of the parties and witnesses, site visits, methods used to obtain other evidence, and hearings used.
- C. Findings of fact supporting the determination.
- D. Conclusions regarding application of the District's code of conduct to the facts.
- E. A statement of and rationale for the determination as to each allegation, including any determination regarding responsibility, any disciplinary action to be imposed on the respondent, and identification of remedies and measures, if any, that will be provided to restore or preserve equal access to the District's educational programs and activities to be provided to the complainant.
- F. Considerations for disciplinary action. Factors considered when determining discipline may include, but are not limited to:
  - i. The nature, severity of, and circumstances surrounding the violation(s);
  - ii. The respondent's disciplinary history;
  - iii. Previous allegations or allegations involving similar conduct;
  - iv. The need for discipline to bring an end to the Title IX sexual harassment;
  - v. The need for discipline to prevent the future recurrence of Title IX Sexual harassment;
  - vi. The need to remedy the effects of the Title IX sexual harassment;
  - vii. The impact on the parties; and
  - viii. Any other information deemed relevant by the decision-maker(s)
- G. The discipline imposed shall be implemented as soon as is feasible, either upon the outcome of any appeal or upon the expiration of the window to appeal if no appeal is requested. The sanctions described in this process are not exclusive of, and may

be in addition to, other actions taken or sanctions imposed by external authorities.

- H. Identification of the procedures for filing an appeal and the permissible grounds for complainant or respondent to base their appeal.

The Decision-Maker shall simultaneously provide their written determination to all parties. The determination becomes final either, (where an appeal is filed,) on the date the parties are provided copies of the written determination of the result of the appeal; or, (if no appeal is filed,) the date on which an appeal would no longer be considered timely.

The Coordinator is responsible for the effective implementation of any and all remedies set forth in the written determination of responsibility. In the event a student expulsion is recommended, pursuant to and in accordance with the requirements of Idaho Code § 33-205, the Coordinator shall ensure that an expulsion hearing is scheduled and heard by the Board of Trustees.

## 7. Appeals

Any party may file a request for appeal in writing with the Coordinator within seven business days of the delivery of the notice of a final decision.

A three-member appeal panel chosen from the pool of eligible members shall be designated by the Coordinator shall chair the appeal. No appeal panelists will have been involved in the process previously, including any dismissal appeal that may have been heard earlier in the process. A voting chair of the appeal panel shall be designated.

- 8. The request for appeal shall be forwarded to the appeal chair for consideration to determine whether the request meets the grounds for appeal. This review is not a review of the merits of the appeal, but solely a determination as to whether the request meets the grounds and is filed in a timely manner.

Appeals shall be limited to the following grounds:

- A. Procedural irregularity that affected the outcome of the matter;
- B. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter;
- C. The Coordinator, investigator(s), or Decision-Maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the specific complainant or respondent that affected the outcome of the matter;

Appeal procedure: Upon receipt of a valid appeal, the Coordinator shall:

- A. Notify the other party in writing that an appeal has been filed, and implement the appeal procedure fairly and equally for both parties.
- B. Ensure the appeal decision-maker(s) is not:
  - i. The same person(s) as the Decision-Maker(s) that issued the written determination of responsibility;
  - ii. The person who issued the dismissal;
  - iii. The investigator; or

- iv. The Coordinator.
- C. Ensure the appeal decision-maker has been trained in accordance with the requirements of this grievance procedure.
- D. The appealing party shall have ten business days following the delivery of the notice of the appeal to submit a written statement in support of the appeal and challenging the outcome. The responding party shall have ten business days following the delivery of the appealing party's statement in support of appeal to submit the responding party's written statement in opposition to the appeal (and supporting the outcome that is the subject of the appeal). In the event the parties and the appeal decision-maker agree to a different briefing schedule (whether allowing more or less time), the time allowed to prepare a written statement shall be the same for all parties.
- E. Issue a written decision describing the result of the appeal and identifying the bases and rationale for the decision.
- F. Provide the written decision simultaneously to all parties.

#### Requirements of the Title IX Grievance Procedure

The following requirements apply to the conduct of the Title IX Grievance procedure set forth above.

1. **Equitable treatment of the parties:** At all times, both complainants and respondents shall be equitably treated by providing remedies to a complainant until a determination of responsibility for sexual harassment has been made against the respondent. No sanction or discipline may be imposed against the respondent unless and until the process required by this procedure has been completed. Until a final determination of responsibility has been issued only "supportive measures" may be initiated that are non-disciplinary or non-punitive and avoid burdening the respondent. Any and all final remedies, however, must be designed to restore or preserve equal access to the District's education program or activity. Such remedies may include the same individualized services described as "supportive measures;" however, following the decision, such remedies need not be non-disciplinary or non-punitive and need not avoid burdening the respondent
2. **Objective evaluation of the evidence:** The formal grievance process involves an objective evaluation of all relevant evidence obtained, including evidence that supports the conclusion the respondent engaged in a violation of policy or procedure and evidence that supports the conclusion the respondent did not. Credibility determinations may not be based solely on an individual's status or participation as a complainant, respondent, or witness.
3. **Lack of bias:** Any individual materially involved in the administration of the formal grievance process including the Coordinator, investigator(s), decision-maker(s) and appeal decision-maker(s) may neither have nor demonstrate a conflict of interest or bias for a party generally, or for a specific complainant or respondent.
4. **Title IX training of District participating staff:** Any individual designated by the District as a Coordinator, investigator, decision-maker, or any person designated by the District to facilitate an informal resolution process, cannot have a conflict of interest or bias for or against complainants or respondents generally, or against any individual complainant or respondent. The District shall ensure that Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, receives training on the definition

of “sexual harassment” set forth in this procedure, the scope of the District’s education program or activity, how to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes, as applicable, and how to serve impartially, including by avoiding prejudgment of the facts at issue, conflicts of interest, and bias. The District shall ensure that Decision-Makers receive training on any technology to be used at a live hearing and on issues of relevance of questions and evidence, including when questions and evidence about the complainant’s sexual predisposition or prior sexual behavior are not relevant, as required by this procedure. The District shall also ensure that investigators receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence, as set forth in this procedure. All materials used to train Coordinators, investigators, decision-makers, and any persons facilitating an informal resolution process, shall not rely on stereotypes based on gender, and must promote impartial investigations and adjudications of formal complaints of sexual harassment, and provide guidance therefor.

5. **Presumption of innocence:** The District presumes that the respondent is not responsible for the reported misconduct unless and until a final determination is made, in accordance with this procedure, that Policy 3085 or procedure 3085P prohibiting sex discrimination and sexual harassment has been violated.
6. **Promptness:** Investigations are completed promptly, normally within 30 business days, though some investigations may take longer, depending on the nature, extent, and complexity of the allegations; availability of witnesses; police involvement; and other factors.

The District shall make a good faith effort to complete the investigation as promptly as possible and will communicate regularly with the parties to update them on the progress and timing of the investigation.

Notwithstanding the above, The District may undertake a delay in its investigation, lasting from several days to a few weeks, if circumstances require. Such circumstances include but are not limited to a request from law enforcement to temporarily delay the investigation, the need for language assistance, the absence of parties and/or witnesses, and/or a need for accommodations for disabilities or health conditions.

The District shall communicate in writing the anticipated duration of the delay and the reason for it to the parties and provide the parties with status updates if necessary. The District will promptly resume its investigation and formal grievance process as soon as feasible. During such a delay, the District will implement supportive measures as deemed appropriate.

District action(s) or processes may be delayed, but are not stopped by, civil or criminal charges involving the underlying incident(s). Dismissal or reduction of those criminal charges may or may not impact on the District’s action(s) or processes.

7. **Description of sanctions.** The following describes the range of sanctions that may be implemented following a finding of responsibility.

Student Discipline: The following are the usual sanctions that may be imposed upon students singly or in combination:

- A. A warning;
- B. Required counseling;
- C. A required substance abuse treatment program;
- D. Exclusion from participating in extracurricular activities or other District programs/activities;

- E. Alternative placement;
- F. Suspension, which may be in-school, out-of-school, long-term, short-term, extended, or other suspensions;
- G. Expulsion (in compliance with I.C. § 33-205); and
- H. Other actions: In addition to or in place of the above sanctions, the District may assign any other sanctions deemed appropriate.

Employee Sanctions: Sanctions for an employee may include:

- A. A verbal or written warning;
  - B. A performance improvement plan or management process;
  - C. Enhanced supervision, observation, or review;
  - D. Required counseling;
  - E. Required training or education;
  - F. Probation;
  - G. Denial of pay increase or pay grade;
  - H. Loss of oversight or supervisory responsibility;
  - I. Demotion;
  - J. Transfer;
  - K. Reassignment;
  - L. Assignment to a new supervisor;
  - M. Restriction of professional development resources;
  - N. Suspension with pay;
  - O. Suspension without pay;
  - P. Termination (in compliance with I.C. § 33-513(5), in the case of certificated employees);
  - Q. Other actions: In addition to or in place of the above sanctions, the District may assign any other sanctions as deemed appropriate.
8. **Burden of proof.** When determining whether the respondent is responsible for violating Policy 3085 or Procedure 3085P by discriminating based on sex and/or for sexual harassment as defined herein, the decision-maker shall apply the preponderance of the evidence standard, which means the evidence proves on a more likely than not basis that respondent violated the policy or procedure.
9. **Appeals.** Any party may file a request for appeal in writing to the Coordinator within seven business days of the delivery of the notice of a final outcome.
10. **Supportive measures:** Supportive measures are non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the parties. Supportive measures are designed to restore or preserve access to the District's education program or activity, including measures designed to protect the safety of all parties or the District's educational environment, and/or deter Title IX sexual harassment. Examples of supportive measures may include, but are not limited to:
- A. Referral to counseling, medical, and/or other healthcare services;
  - B. Referral to the Employee Assistance Program;
  - C. Referral to community-based service providers;
  - D. Visa and immigration assistance;
  - E. Education of the school community or community subgroup(s);
  - F. Altering work arrangements for employees;
  - G. Safety planning;
  - H. Providing school safety escorts;
  - I. Providing transportation accommodations;

- J. Implementing contact limitations, such as no contact orders, between the parties (note: allegations of violations of a no contact order will be investigated as collateral misconduct under this process);
  - K. Academic support, extensions of deadlines, or other course or program-related adjustments;
  - L. Emergency warnings;
  - M. Class schedule modifications, withdrawals, or leaves of absence;
  - N. Increased security and monitoring of certain areas of the school; and
  - O. Any other actions deemed appropriate by the Coordinator.
11. **Recognition of privileges:** At no time during this grievance procedure may any evidence (whether through testimony or documents) be required, admitted, relied upon, or otherwise obtained by asking questions or admitting evidence that constitutes, or seeks disclosure of, information protected by a legally recognized privilege, unless the person holding the privilege has knowingly and freely waived the privilege.
12. **Recordkeeping;**
- A. The District shall maintain for a period of seven years records of:
    - i. Each sexual harassment investigation including any determination regarding responsibility and any audio or audiovisual recording or transcript required where a hearing is held, any disciplinary sanctions imposed on the respondent, and any remedies provided to the complainant designed to restore or preserve equal access to the District's education program or activity;
    - ii. Any appeal and the result therefrom;
    - iii. Any informal resolution and the result therefrom; and
    - iv. All materials used to train Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process. The District shall make these training materials publicly available on its website.
  - B. For each response to a report of harassment or discrimination based on sex, the District shall create, and maintain for a period of seven years, records of any actions, including any supportive measures, taken in response to a report or formal complaint of sexual harassment. In each instance, the District shall document the basis for its conclusion that its response was not deliberately indifferent, and document that it took measures designed to restore or preserve equal access to the District's education program or activity. If the District does not provide a complainant with supportive measures, then the Coordinator must document the reasons why such a response was not clearly unreasonable in light of the known circumstances (i.e., was not a result of sex discrimination). The documentation of certain bases or measures does not limit the District in the future from providing additional explanations or detailing additional measures taken or to be taken.

### Title IX Grievance Procedure Definitions

The following definitions apply to the identified terms used in this procedure:

“Actual knowledge” means notice of sexual harassment or allegations of sexual harassment to:

1. The District's Coordinator; or

2. Any District official possessing the authority to institute corrective measures on behalf of the District; or
3. Any employee of the District.

Imputation of knowledge based solely on vicarious liability or constructive notice is insufficient to constitute actual knowledge. This standard is not met when the only official of the District with actual knowledge is the respondent. The mere ability or obligation to report sexual harassment or to inform a student about how to report sexual harassment, or having been trained to do so, does not qualify an individual as one who has authority to institute corrective measures on behalf of the District. "Notice" as used in this paragraph includes, but is not limited to, a report of sexual harassment to the Coordinator as set forth in this procedure.

"Complainant" means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

Under circumstances where a sexual assault is alleged by a student against an adult, non-student employee, the District does not recognize the defense of "consent," however it is defined. Where the parties are both adults, however, the following definition of "consent" will apply: Consent occurs where there is a knowing, voluntary, and clear grant of permission, by word or action, to engage in sexual activity. Individuals may experience the same interaction in different ways. Therefore, it is the responsibility of each party to determine that the other has consented before engaging in the activity. If consent is not clearly provided prior to engaging in the activity, consent may be ratified by word or action at some point during the interaction or thereafter, but clear communication from the outset is strongly encouraged. Consent may be withdrawn. A person cannot consent if they are unable to understand what is happening or is disoriented, helpless, asleep, or unconscious, for any reason, including by alcohol or other drugs. It is a violation of policy if a respondent engages in sexual activity with someone who is incapable of giving consent, or is otherwise incapacitated.

"Incapacitation" occurs when someone cannot make rational, reasonable decisions because they lack the capacity to give knowing, informed consent. For example, they cannot understand the "who, what, when, where, why, or how" of their sexual interaction.

"Formal Complaint" means a document filed by a complainant, or signed by the Coordinator, alleging sexual harassment against a respondent and requesting that the District investigate the allegation of sexual harassment. At the time of filing a formal complaint, the complainant must be participating in or attempting to participate in the educational programs or activities of the District. A formal complaint may be filed with the Coordinator in person, by mail, or by electronic mail, or by using the contact information listed on the District's website. As used in this paragraph, the phrase "document filed by a complainant" means a document or electronic submission, (such as by electronic mail or through an online portal provided for this purpose by the District,) that contains the complainant's physical or digital signature, or otherwise indicates that the complainant is the person filing the formal complaint. Where the Coordinator signs a formal complaint, the Coordinator is not a complainant or otherwise a party to this grievance procedure, and must comply otherwise comply with the requirements of this procedure.

**Respondent** means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

**Sexual harassment** means conduct on the basis of sex that satisfies one or more of the following:

1. “Quid pro quo” harassment, which occurs when a District employee conditions the provision of a District benefit, service, or assistance on an individual’s participation in unwelcome sexual conduct;
2. “Hostile Environment,” which is defined as unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to District education program or activity; or
3. Physical threats and attacks, including “sexual assault,” defined as forcible and non-forcible sex offenses as defined in the Clery Act, or dating violence, domestic violence, or stalking as defined in the Violence Against Women Act.

“Supportive measures” means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent in cases where either no formal complaint has been filed, or both before and/or after the filing of a formal complaint. Such measures are designed to restore or preserve equal access to the District’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the District’s educational environment, or deter sexual harassment. Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between the parties, changes in work locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures. The District shall maintain as confidential any supportive measures provided to the complainant or respondent, provided that maintaining such confidentiality will not impair the ability of the District to provide the supportive measures. The Coordinator is responsible for coordinating the effective implementation of all supportive measures.

“Elementary school” and “secondary school” as used in this procedure refer to a local educational agency, as defined in the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act, a preschool, or a private elementary or secondary school, and include this District.

#### Revision of These Procedures

The District reserves the right to make changes to these procedures as necessary. Once those changes are posted online, they shall be in effect. If laws or regulations change or court decisions alter the requirements in a way that impacts these procedures, this document shall be construed to comply with the most recent government regulations or holdings.

### Philosophy

The District believes that foreign exchange students add to the richness of the high school setting for both District and foreign students. Thus, the District is willing to enroll a manageable number of foreign exchange students.

To protect the interests of the District and students, the District has adopted the following policies. It should be realized that foreign exchange students are educated at the expense of the taxpayers of the District and the State of Idaho.

1. The foreign exchange student must be 18 years of age or younger at the time of enrollment.
2. The foreign exchange student must reside with a legal resident of the District. Exceptions may be granted.
3. The foreign exchange student must have sufficient knowledge of the English language to enable effective communication and to use instructional materials and textbooks printed in English.
  - A. An English proficiency test of the District's own choosing may be administered and will supersede all other tests;
  - B. If an organization places a student who, upon arrival, is deemed by the District to be deficient in English language proficiency, the organization will do one of the following:
    1. Terminate the student's placement; or
    2. Provide, and pay for, tutorial help until the student reaches proficiency, as determined by the District.

### Academic Standards and Graduation

1. The foreign exchange student will be expected to meet all appropriate standards required of any student enrolled in the District; and
2. Foreign exchange may not graduate and receive a diploma from any Minidoka County Joint School District high school. They may participate in the ceremonies and receive a certificate of attendance.

### Orientation by the Exchange Organization

1. Orientation, both pre-departure and upon arrival in the United States, must be provided to the exchange student.
2. Orientation must also be provided to the host family in advance of the exchange student's arrival. The family should be advised of potential problems in hosting an exchange student and provided with suggestions for coping with these problems.
3. The student's host family and the District must be provided written information which includes at least:
  - A. The name, address, and phone number of both local and area coordinators for the exchange organization; and
  - B. A 24-hour emergency telephone number for immediate assistance by the exchange organization.

### Supervision

1. The sponsoring foreign student exchange organization must assume the final responsibility for resolving problems, including, if necessary, the changing of host families or the early return home of the exchange student because of personal, family, or school difficulties.
2. The sponsoring foreign student exchange organization must contact the exchange student and host family periodically throughout the exchange visit to ensure that problems are dealt with promptly and effectively.
3. The host family must be available and willing to meet with school personnel when functions or conditions require it.

### District Expectations—Student Opportunities/Responsibilities

1. **Required Courses:** Foreign exchange students will be expected to enroll in the following academic classes while attending any Minidoka County Joint School District high school:
  - A. One English class;
  - B. One United States history class or one government class; and
  - C. Maintain enrollment in at least six classes.
2. **Athletic Program:** Foreign exchange students are eligible to participate in the high school activities program. Guidelines for participation are set by District policy and by the Idaho High School Activities Association (IHSAA), as follows:
  - A. **Recognition:** The student must be a participant of an "official Foreign Exchange Program" as defined in the publication from the National Association of Secondary School Principals, entitled, "Advisory List of International Educational Travel and Exchange Programs".
  - B. **Graduation:** The student cannot have graduated or received a diploma in his or her own country.
3. **Student Fees:** Foreign exchange students are expected to pay all yearbook fees, lab fees, prom tickets, athletic fees, cap and gown fees, lunch prices, and all other school incurred expenses that are expected of other students enrolled in any Minidoka County Joint School District high school.
4. **Achievement and Discipline:** Foreign exchange students must maintain passing grades in all classes, follow the rules and regulations of District student policies, and show satisfactory

discipline and attendance. Failure to comply with these expectations shall result in dismissal of the student from the District's Foreign Exchange Program.

5. **Scholarship(s):** The District will not include names of foreign exchange students in its formal class-rank listing based on cumulative grade point average, nor will foreign exchange students be eligible to apply for any local scholarship.

#### Placement Quotas for Foreign Student Exchange Organizations

1. Minidoka County Joint School District high schools will accept a maximum of two individually sponsored exchange students on a first come, first served basis.
2. The fact that a foreign exchange organization has located a host family within the District does not imply the District will automatically enroll the student. While the organization may develop such an agreement with a host family, the family should be advised it is contingent upon admission to any Minidoka County Joint School District high school.

## Board Policy 3200: Student Rights and Responsibilities

Status:

Original Adopted Date: | Last Reviewed Date:

All students are entitled to enjoy the rights protected by the Federal and State Constitutions and laws for persons of their age and maturity in a school setting. Students should exercise these rights reasonably and avoid violating the rights of others. Students who violate the rights of others or violate District policies or rules will be subject to disciplinary measures.

While students have the right to express concerns, grievances, and viewpoints before school officials and fellow students, school officials may govern the time, place, and manner of such activity. At no time are students or employees allowed to engage in speech or expression that is defamatory, illegal, invades or threatens to invade the rights of others, presents the likelihood of substantial disorder, or is disruptive to the educational process.

These rights and responsibilities may be described at greater length in student handbooks. All student handbooks are approved policy of the Board. The complete student handbook for each school is on file at the District administration office and at the respective schools.

Students who violate the provisions of the applicable student handbook will be disciplined in accordance with the District policies.

The Equal Access Act

Westside Community Board of Education v. Mergens

The Board of Trustees regards student clubs and organizations as an important part of the education and development of students. Active involvement of students in clubs and other activities that provide diversity and supplement the regular classroom activities is not only encouraged by the Board of Trustees of Minidoka County Joint School District #331, but is expected of students in order to achieve the maximum benefits of the educational opportunity provided.

### Definitions

As used in this policy:

1. "School" shall mean any school in the Minidoka County Joint School District;
2. "Club" shall mean a sponsored club or a non-sponsored or non-curriculum group of students of the school who wish to organize and meet to form common goals, objectives, or purposes, but do not include school activities;
3. "Sponsored Club" shall mean a club which is directly under the sponsorship, direction, and control of the school;
4. "Non-sponsored or non-curriculum club" shall mean a student initiated club which is not under the sponsorship, direction, or control of the school or any student initiated club that does not directly relate to the body of courses offered by the school;
5. "Non-participating capacity" shall mean a person may not promote, lead, or participate in any meeting.

The school within the District shall provide equal access and a fair opportunity for clubs to organize and to meet on school premises during the times established for such meetings.

All clubs must operate under the guidelines developed and approved under its current charter.

Sponsored clubs shall be sponsored by a member of the faculty, staff, or administration of the school. Such clubs are open to all students who wish to participate, and are held at times outside the regular classroom day on a voluntary basis.

The District shall not sponsor clubs which advocate particular religious or political beliefs or ideas. Any such clubs shall be non-sponsored or non-curriculum, and must engage a school employee to monitor their activities while on the premises. The school and the School District shall not be identified or associated with the goals, objectives, activities, beliefs, or opinions of any non-sponsored or non-curriculum clubs or its members. Any club whose activities are deemed by the principal to be disruptive of the everyday operations of the school will not be allowed to initiate meetings, nor continue to meet on school premises.

## Equal Access Regulations

Any club recognized by the District will be permitted to use available classrooms those times and under conditions permitted by the building principal

The following general guidelines will be observed in approving, establishing, and operating student clubs at Minidoka County Joint School District schools.

1. Each proposed club must complete and submit a request form to the principal or designee stating the name, specific purpose of the club, the membership requirements, the activities of the club, and meeting dates and times. Each proposed club shall have the student group perform a risk management assessment of the proposed club activities. The principal or designee will forward the request to the School District. The District with Board approval shall respond to the request, accept or reject the application, and designate the club as either a sponsored club or non-sponsored or non-curriculum club.
2. Student participation in club activities and attendance at club meetings shall be voluntary and shall be limited to those students who are currently enrolled in the School District. All student groups meeting on school premises are required to open membership to all interested and/or eligible students. Clubs shall be allowed to meet on school premises from 7:00 AM to 8:00 AM, during the noon hour, and from 3:30 PM to 5:00 PM on days when school is in session. The time and place of all club meetings shall be subject to available space, conflicting activities and programs, and the availability of the faculty sponsor or monitor. Students shall be responsible for ensuring the presence of a faculty sponsor or monitor prior to every meeting. Clubs will be allowed to meet on school premises during other times of the day only in extraordinary or exceptional circumstances as may be determined by the principal or designee.
3. All clubs must comply with the provisions of the school's student constitution, if applicable.
4. No hazing of students shall be permitted.
5. The principal or designee may deny the opportunity of any club to meet on school premises, and may deny permission of any non-school person to meet with or speak to a club on school premises, when there exists a substantial likelihood of material and substantial interference with the orderly conduct of educational activities within the school, or if the meeting or activities in the meeting are, or will be, in violation of any law or ordinance.
6. **Student Club Risk Management Plan**

Each School Sponsored Club must develop and implement a plan that identifies hazards and potential exposures to club members, faculty, staff members, and school property. This plan should also outline the policies and procedures needed to control the identified hazards.

Due to the variety of club activities that can occur within a school district, it is critical that hazards and exposures created by the club activities be carefully evaluated. Some clubs, for example a chess club, may not have significant hazards; however, other clubs such as a drag racing club, or a rodeo club could have the potential for severe injuries. Each Risk Management Plan should be customized to the hazards of the individual club. To assist you in developing your plan, you can answer the following questions:

What are the purposes and goals of the club?

---

---

---

What are the responsibilities of the club members?

---

---

---

What training is to be required of club members? Are there minimum knowledge requirements? How will these be tested? How are training and test results documented and maintained?

---

---

---

What are the responsibilities of the faculty or school-appointed sponsor?

---

---

---

What special training or education is required of the faculty or school staff sponsor? Are they certified through a recognized organization?

---

---

---

What rules are necessary to conduct club activities in a safe manner, minimizing hazards and exposures to club members, School District staff members, and school property?

---

---

---

What safety equipment is needed? Who is to provide this equipment? How is the equipment to be inspected and tested?

---

---

---

List emergency response procedures necessary based on any inherent risks of club activities, such as first-aid and emergency communication.

I.C. § 33-506(1)

**Description**

District Trustees - Organization and Government of Board of Trustees

Secondary schools shall be permitted to publish newspapers, yearbooks, and other pre-approved publications.

Journalistic experience in a school setting should be calculated to develop the background of skills and understanding which will equip a student for the responsibilities of the free press in our society. Students must recognize, however, that a school-sponsored newspaper is unique and different from other newspapers in at least four ways.

1. It is an instructive tool in addition to a means of student self-expression;
2. It is read not just by the intended audience of fellow students, but by parents and many citizens outside the school;
3. It is partially supported by tax funds; and
4. It is an influence on the public relations of the entire District since its content is read by many not simply as expressions of individual students, but as expressions representative of the entire student body and approved by the administration.

The concept of “freedom of the press” under the First Amendment has application with regard to school-sponsored publications. However, the United States Supreme Court has established that school districts may exercise editorial control over the style and content of school-sponsored newspapers without violating the First Amendment. All school-sponsored publications shall comply with the ethics and rules of responsible journalism. Text that is libelous, obscene, vulgar, lewd, invades the privacy of others, conflicts with the basic educational mission of the school, is socially inappropriate, is inappropriate due to the maturity of the students, or is materially disruptive to the educational process will not be tolerated. It is the intent of this district to comply with the Supreme Court ruling, *Hazelwood School District vs. Kuhlmeier*.

The District recognizes that there are valid and necessary reasons to exercise such prepublication editorial control and to impose reasonable restrictions on student speech in school-sponsored publications. Thus, the following guidelines apply to all school-sponsored student publications.

1. School-sponsored publications are those publications, including, but not limited to, school newspapers, yearbooks, and athletic programs, which may fairly be characterized as part of the District’s curriculum, whether or not they occur in a traditional classroom setting. Generally they include student publications which are supervised by a faculty member and are designed to impart particular knowledge or skills to student participants and audiences. However, they also may include publications which students, parents, and members of the public reasonably perceive to be sponsored or approved by the District. The author’s name will accompany personal opinions and editorial statements. An opportunity for the expression of differing opinions from those published/produced will be provided within the same media.
2. The District will not restrict student freedom of expression when such expression is within the rules of responsible journalism and is consistent with the four factors outlined below. The principal of each school shall meet with the publication advisor, student editors, and student writers to establish guidelines for achieving a maximum of student freedom of expression subject to the limitations set forth in this policy.

3. All publications must be reviewed and approved by the building principal prior to distribution. The building principal shall have the authority to determine the appropriateness of any particular item for publication. In exercising such authority, material will not be considered suitable for publication that is:
  - A. Ungrammatical;
  - B. Inadequately researched;
  - C. Obscene;
  - D. Defamatory;
  - E. Advocates prejudice based on race, religion, sexual orientation, or gender identity or expression;
  - F. Invades the privacy rights of others;
  - G. Is unsuitable for the audiences for which the publication is intended;
  - H. Contributes to the disruption or interruption of the educational process or the operation of the school; or
  - I. Otherwise is contrary to District policy or applicable federal or State law.

The school principal may also exclude material that may serve to associate the District with any position other than neutrality on matters of political controversy.

4. The principal of each secondary school shall have the authority to determine whether advertising will be accepted for inclusion in school-sponsored student publications. The District has an important interest in avoiding the impression that it has endorsed a viewpoint at variance with its educational mission. Consequently, if advertising is accepted, each school principal shall have authority to exclude certain categories of advertising. For example, drug, drug paraphernalia, alcoholic beverage advertisements, or any other advertisements that may be viewed as encouraging action that might endanger the health and welfare of students may be excluded. Similarly, advertisements may be excluded if they are:
  - A. Factually inaccurate;
  - B. Defamatory;
  - C. Obscene;
  - D. Advocate prejudice based on race, religion, sexual orientation, or gender identity or expression;
  - E. Contain either explicit or implicit sexual content or overtones; or a
  - F. Are of poor production quality.

The school principal may also exclude advertising that may serve to associate the District with any position other than neutrality on matters of political controversy.

5. In the event the building principal determines that material is not suitable for publication, students may appeal such decision to the Superintendent or his or her designee. The decision of the Superintendent or his or her designee will be final.
6. Copies of each issue of the student publication shall be sent to the Superintendent and each member of the Board of Trustees.
7. Student publications must display quality work.
8. Student publications shall be under the director of the faculty sponsor overseeing them.

**Description**

Hazelwood School District et al. v. Kuhlmeier et al.

The distribution of materials from outside the school system uses a considerable amount of valuable educational time. This time is taken away from students, teachers, and the clerical staff. It is the District's policy to limit the distribution of materials to parent and student organizations sponsored by the District or other governmental agencies. Materials that provide information valued or needed by the District may also be distributed.

Students should not be used to distribute partisan materials or information pertaining to a school or general election, budget or bond issue, or negotiations. Students should not be exploited for the benefit of any individual, group, or profit-making organization.

No staff member may distribute any materials on school property without prior approval of the chief school administrator. All notices and notes sent home with students concerning school activities, programs, schedule changes, organizations, charges for equipment and materials, etc., shall be cleared with the building principal before being sent. All materials distributed will clearly indicate their source. Non-school-related materials will be plainly labeled, including a disclaimer that the activity is "not a school-sponsored activity."

All organizations must have the approval of the Superintendent before materials may be distributed. The Superintendent will use the guidelines listed above in the approval of the distribution of the materials.

In order to facilitate the distribution of materials with information about student activities offered in the community, each school will do the following:

1. Maintain a centrally located bulletin board for the posting of bulletins;
2. Maintain a table where flyers and other information can be made available to students; and
3. Include announcements for student related activities in newsletters that go home with students. The announcements must be submitted one week prior to the newsletter in which the announcement is to go home, must advertise a youth-oriented activity, and must be of non-religious, non-political nature.

It is the intent to post all notices and place flyers on the distribution table except those that are viewed by the principal as likely to be disruptive, libelous, or obscene.

The Minidoka County School District's student dress code supports equitable educational access for all students. The School Board and administration acknowledges students as individuals and students' dress should respect the District's intent and responsibility to ensure the health, safety and mental well-being of all students.

The Board and administration expect that all students will dress in a way that is appropriate for the school day or for any school-sponsored event

In general, students are not to wear or carry items of apparel (clothing, accessories, cosmetics, tattoos, jewelry—including body piercings) which depict or allude to, by picture, symbol, or word, drugs, including alcohol and tobacco; controlled substances; drug paraphernalia; gangs; violence; criminal activity, sexually explicit, lewd, indecent, or offensive material; or illegal acts. The wearing, use, or display of any gang clothing or attire jewelry, emblem, badge, symbol, sign, codes, or other things which evidence membership or affiliation in any gang (based upon the principal's or his or her designee's reasonable belief that gangs may be present in a school) is prohibited on any school premises or at any school sponsored activity, regardless of location.

Head coverings are inappropriate in the school building during regular school hours, unless the principal or designee specifically makes an exception to the policy.

Unless the principal or designee indicates otherwise, students will wear footwear at all times.

The Board of Trustees urges parents and students to exercise sound judgment, based upon the standard of appropriateness for the school setting. For example, clothing exposing bare midriffs and short shorts and skirts will not be allowed. The Superintendent or his or her designee is hereby authorized to promulgate regulations consistent with the provisions of this policy.

#### Interpretation and Implementation of Policy

The building principal/designee shall use reasonable discretion in interpreting and implementing the provisions of this policy. If a conflict arises in the interpretation of this policy, the interpretation of the building principal or designee shall be final. Principals, administrators, and teachers shall use reasonable discretion in enforcing this policy.

## Enforcement

A student's attire or grooming should not be grounds for exclusion from their participation in school classes or in school-related activities. However, if the attire or grooming of a student poses a threat to the health and safety of any person, the situation will be addressed as described in the student handbook will be followed.

## Temporary Exceptions

In order to allow appropriate attire for a particular educational or school activity, the building principal or his or her designee has the authority to grant temporary exceptions to specific provisions of this policy and related regulations. An example of such an exception might be where a specially scheduled school event required a group of students to dress unusually on a particular day.

## Accommodations

The District will seek to accommodate cultural, religious, and ethnic differences in dress and grooming, provided such dress or grooming does not materially or substantially disrupt the educational process of the school or create a health or safety hazard for students, staff, or others. No student shall be required to modify their natural head or facial hair, such as by shaving or straightening through the application of heat or chemicals.

## **Board Policy 3270: District-Provided Access to Electronic Information, Status: Services, and Networks**

**Original Adopted Date: | Last Reviewed Date:**

Internet access and interconnected computer systems are available to the District's students and faculty. Electronic networks, including the internet, are a part of the District's instructional program in order to promote educational excellence by facilitating resource sharing, innovation, and communication.

In order for the District to be able to continue to make its computer network and internet access available, all users, including students, must take responsibility for appropriate and lawful use of this access. Students utilizing school-provided internet access are responsible for good behavior online. The same general rules for behavior apply to students' use of District-provided computer systems. Students must understand that one student's misuse of the network and internet access may jeopardize the ability of all students to enjoy such access. While the District's teachers and other staff will make reasonable efforts to supervise use of network and internet access, they must have student cooperation in exercising and promoting responsible use of this access and students must be held responsible and accountable for their own conduct.

### Curriculum

In accordance with this policy and the Board's philosophy to ensure the safety of all students, the District shall provide an appropriate planned instructional component for internet safety which shall be integrated into the District's regular instructional program. In compliance with the Children's Internet Protection Act this instruction will include information on the safe use of social networking sites and instant messaging, the characteristics of cyber-bullying, and recommended responses.

The purpose of the program is to increase students' knowledge of safe practices for internet use.

The use of the District's electronic networks shall be consistent with the curriculum adopted by the District, as well as the varied instructional needs, abilities, and developmental levels of the students, and shall comply with the selection criteria for instructional materials and library-media center materials. Staff may, consistent with the District's educational goals, use the internet throughout the curriculum.

The District's electronic network is part of the curriculum and is not a public forum for general use.

### Internet Safety

Each District computer with internet access shall have a filtering device as described in Procedure 3270P.

The District shall require that any vendor, person, or entity providing digital or online library resources to the District for use by students verify they have policies and technology protection measures:

1. Prohibiting and preventing users from sending, receiving, viewing, or downloading materials that are deemed to be harmful to minors, as defined by section 18-1514, Idaho Code; and
2. Filtering or blocking access to obscene materials, materials harmful to minors, and materials that depict the sexual exploitation of a minor, as defined in chapter 15, title 18, Idaho Code.

The District will also monitor the online activities of students, through direct observation and/or technological means, to ensure that students are not accessing material that is inappropriate or harmful to minors, as defined in section 18-1514 Idaho Code or as defined in 47 USC Section 254.

Filtering should also be used in conjunction with:

1. Educating students on appropriate online behavior;
2. Requiring students review and sign Form 3270F Internet Access Conduct Agreement;
3. Using behavior management practices for which internet access privileges can be earned or lost; and
4. Appropriate supervision, either in person and/or electronically.

The system administrator and/or Internet Safety Coordinator and/or building principal shall monitor student internet access.

The Superintendent and IT Director shall set a process for reviewing student claims that access has been denied to internet material that is not within the prohibitions of this policy and for unblocking such materials when appropriate.

Review of filtering technology and software shall be done on a periodic basis and is the responsibility of the IT department. It shall be the responsibility of the IT director to bring to the Superintendent or designee any suggested modification of the filtering system and to address and assure that the filtering system meets the standards of Idaho Code 18-1514 and any other applicable provisions of Chapter 15, Title 18, Idaho Code.

### Internet Access Conduct Agreements

Each student and their parent(s)/legal guardian(s) will be required to sign and return to the school at the beginning of each school year the Internet Access Conduct Agreement prior to having access to the District's computer system and/or internet service.

### Warranties/Indemnification

The District makes no warranties of any kind, express or implied, in connection with its provision of access to and use of its computer networks and the internet provided under this policy. The District is not responsible for any information that may be lost, damaged, or unavailable when using the network, or for any information that is retrieved or transmitted via the internet. This includes loss of data resulting from delays, non-deliveries, missed deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the internet is at the user's own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services. The District will not be responsible for any

unauthorized charges or fees resulting from access to the internet, and any user is fully responsible to the District and shall indemnify and hold the District, its trustees, administrators, teachers, and staff harmless from any and all loss, costs, claims, or damages resulting from such user's access to its computer network and the internet, including but not limited to any fees or charges incurred through purchases of goods or services by the user and attorney fees. The user or, if the user is a minor, the user's parent(s)/legal guardian(s) agrees to cooperate with the District in the event the school initiates an investigation of a user's use of their access to its computer network and the internet.

### Violations

If any user violates this policy, the student's access to the District's internet system and computers will be denied, if not already provided, or withdrawn and they may be subject to additional disciplinary action. Superintendent or designee will make all decisions regarding whether or not a user has violated this policy and any related rules or regulations and may deny, revoke, or suspend access at any time, with their decision being final. Actions which violate local, State, or federal law may be referred to the local law enforcement agency.

If the actions of the individual are also in violation of other District discipline policies, said student shall be subject to additional possible disciplinary action based upon these policies.

### Internet Safety Coordinator

The Superintendent shall serve, or appoint someone to serve, as "Internet Safety Coordinator" with responsibility and authority for ensuring compliance with the requirements of federal law, State law, and this policy. The Internet Safety Coordinator shall develop and maintain administrative procedures to enforce the provisions of this policy and coordinate with the appropriate District personnel regarding the internet safety component of the District's curriculum. The Internet Safety Coordinator shall handle any complaints about the enforcement of this policy or refer them to other appropriate personnel depending on the nature of the complaint.

The Internet Safety Coordinator shall maintain documentation evidencing that instruction by school personnel on internet safety is occurring District wide.

### Public Notification

The Internet Safety Coordinator shall inform the public via the main District webpage of the District's procedures regarding enforcement of this policy and make them available for review at the District office.

### Submission to State Department of Education

This policy shall be filed with the State Superintendent of Public Instruction every five years after initial submission and subsequent to any edit to this policy thereafter.

  - Y. Promotion of political, personal, or religious causes in a way that presents such opinions as the view of the District;
  - Z. Disclosing identifying personal information or arranging to meet persons met on the internet or by electronic communications;
4. Network Etiquette – The user is expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:
- A. Be polite. Do not become abusive in messages to others.
  - B. Use appropriate language. Do not swear or use vulgarities or any other inappropriate language.
  - C. Do not reveal personal information (including the addresses or telephone numbers) of other students or staff.
  - D. Recognize that District email is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
  - E. Do not use the network in any way that would disrupt its use by other users.
  - F. Use devices with care to avoid damaging them. This includes using touch screens and keyboards with care. Do not draw on devices, apply stickers to them, or otherwise decorate them.
5. Security: Network security is a high priority. If the user can identify a security problem with the District's electronic devices or services, the user must notify the system administrator, Internet Safety Coordinator, or building principal. The user shall not demonstrate the problem to other users. Users shall keep their account and passwords confidential. Users shall not use another individual's account. Attempts to log on to the internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.
6. Telephone Charges: The District assumes no responsibility for any unauthorized charges or fees, including telephone charges.
7. Copyright Web Publishing Rules: Copyright ~~1201~~ and District policy prohibit the republishing of text or graphics found on the internet or on District websites or file servers, without explicit written permission.

- A. For each republication on a website or file server of a graphic or text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the website address of the original source.
  - B. Students engaged in producing website pages must provide library media specialists with email or hard copy permissions before the website pages are published. Evidence of the status of “public domain” documents must be provided.
  - C. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material is not necessarily authorized to act as a source of permission.
  - D. The “fair use” rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
  - E. Student work may only be published if there is written permission from both the parent/guardian and the student.
  - F. Violation of the copyright web publishing rules may result in denial of access to the network.
8. Use of Email
- A. The District’s email system, and its constituent software, hardware, and data files, are owned and controlled by the District. The District provides email to aid students in fulfilling their duties and responsibilities and as an education tool.
  - B. Email could be subject to public records requests and disclosures depending upon the subject matter of the contents of the email.
  - C. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access by any student to an email account is strictly prohibited.
  - D. Each person should use the same degree of care in drafting an electronic email message that would be put into a written memo or document. Nothing should be transmitted in an email that would be inappropriate in a letter or memorandum.
  - E. Email sent from a District account carry with them an identification of the user’s internet domain. This domain name identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of this District. Users will be held personally responsible for the content of any and all emails transmitted to external recipients.
  - F. Any message received from an unknown sender should be treated with caution and handled as directed by the system administrator. Downloading any file attached to any electronic based message is prohibited unless the user is certain of that message’s authenticity and the nature of the file so transmitted.
  - G. Use of the District’s email system constitutes consent to these regulations.

1. Internet access is limited to only those “acceptable uses,” detailed in these procedures.
2. Staff members shall supervise students while students are using District internet access at school, to ensure that the students abide by the Terms and Conditions for Internet Access contained in these procedures.
3. Each District computer with internet access shall be equipped with a filtering device that blocks materials that are obscene, pornographic, or harmful or inappropriate for students as defined by the Children’s Internet Protection Act and as determined by the Superintendent or designee. The filter may also block other materials students are prohibited from accessing by District policy or procedure. The Superintendent or designee shall enforce the use of such filtering devices. Students must use the District’s filtered network for all online activities on school grounds or using District equipment. Such filter shall also block access to the TikTok website. Measures shall also be undertaken to prevent the downloading of TikTok onto any District device or via the District’s electronic network.
4. The system administrator, Internet Safety Coordinator, and/or building principals shall monitor student internet access.

Student Use of Social Media

Students will be held accountable for the content of the communications that they post on social media locations and are responsible for complying with District policy and procedures for content posted using a District computer, network, or software or when posted during school hours when the student is in attendance at school. Student posts on social media locations outside of school hours and school grounds using a personal computer, network, and software shall be private as long as they do not enter into the educational setting and interfere with the orderly operation of the school. Posts to social network sites using a District computer, network, or software may be subject to public records requests. Students may not disrupt the learning atmosphere, educational programs, school activities, or the rights of others.

All of the requirements and prohibitions in District policy and procedure apply to the use of social media on school grounds, through the District network or using District equipment, or as part of a class assignment.

# Board Policy 3275: District Provided Mobile Computing Devices (Alternatives)

Status:

Original Adopted Date: | Last Reviewed Date:

## MULTIPLE ALTERNATIVES

### Students Allowed to Take Devices Home

The Minidoka County Joint School District is committed to providing a safe, rigorous, and engaging learning environment that prepares all students to be career and college ready. Accessing and using technological resources is one of the cornerstones of a 21st century education. This document describes the rules for acceptable use of District-issued mobile computing devices on and off District premises. Using these resources responsibly will promote educational excellence by facilitating resource sharing, fostering creativity, and promoting communication in a safe, secure environment for all users.

### Distributing Mobile Computing Devices

Before they are issued a mobile computing device, each student must submit an executed Student Agreement for Mobile Computing Device Use and a copy of the Internet Access Conduct Agreement. Each form must be signed by the student and by their parent or guardian if they are less than 18 years of age.

Students may take the devices out of Idaho at the discretion of the building principal. The District directs the Superintendent or designee to establish procedures for students to request permission to take the device with them.

At the end of the school year, the school will collect all devices from students. At the school's discretion, students may be issued devices to support summer school programs. The Superintendent or designee shall establish procedures for the maintenance of records regarding the devices, including tracking device inventory and which device is issued to which student.

### Care and Safety

Students are responsible for the general care of the device they have been issued by the District and are expected to observe the following precautions:

1. No food or drink is allowed next to a device while it is in use;
2. Insert and remove cords, cables, and removable storage devices carefully;
3. Shut down the device when not in use to conserve battery life;
4. Stickers, drawings, or permanent markers may not be used on the device;
5. Do not vandalize the devices or any other school property;

6. Devices must never be left in any unsupervised area.
7. Students are responsible for keeping their device's battery charged for school each day;
8. Do not place anything near the device that could put pressure on the screen;
9. Clean the screen with an anti-static cloth or any other soft, dry cloth;
10. Devices should not be stored in a student's vehicle, or anyplace else subject to extreme temperatures;

**The District offers laptop insurance and parents are encouraged to purchase this to cover unintentional damage to the device.** The Superintendent will designate an individual or office at the school level where the devices must be taken if they break or fail to work properly.

### Use at School

Devices are intended for use at school each day. Students are responsible for bringing their device to all classes, unless specifically advised not to do so by their teacher. Devices must be brought to school each day in a fully charged condition. Power cords must stay with the device at all times. Repeated failures to comply with these requirements will result in disciplinary action.

If students leave their device at home, they may phone their parent/guardian to bring it to school. Students without a device will use a computer in the classroom or a device from the lending pool depending upon availability and at the administrator's discretion. This includes students whose devices are undergoing repair.

Sound must be muted or headsets must be used at all times unless the teacher directs otherwise.

Students may use printers in classrooms, the library, and computer labs with a teacher's permission during class or breaks. All printing should be limited to educational purposes.

### Personalizing Mobile Computing Devices

**Students may not add options or upgrades to the device, change the operating system, or add unauthorized software or safety controls.**

Should students or parents/guardians place personalized items on the device in violation of this policy such items may be accessed or viewed by District staff at any time, for any reason, including randomly selected device reviews. No content placed on District provided devices is privileged or confidential.

### Managing Files

Once details are known about the availability of file space that is shared or is backed up automatically, the Superintendent or designee will set a procedure for where students and teachers should save important documents.

Students should also back up their work. It is the student's responsibility to ensure that work is not lost due to mechanical failure or accidental deletion. Device malfunctions are not an acceptable excuse for not submitting work.

## Software

The software originally installed by the District must remain on the device in usable condition and be easily accessible at all times.

From time to time the school may add or update software applications. The licenses for this software sometimes require that the software be deleted from devices at the completion of a course. Periodic reviews of devices will be made to ensure that students have deleted software that is no longer required in class and that the school has not exceeded its licenses.

All devices will be equipped with anti-virus protection software which will be upgraded regularly.

It is the responsibility of individual students to be aware of additional software programs and files loaded onto their device which are required for classes or school activities.

Students wishing to load additional software onto a device must first obtain the permission of the school's technology department. Any additional software must be appropriate for the school environment and comply with the Internet Access Conduct Agreement. Violent games and device images containing obscene or pornographic material are banned. The technology department shall determine whether a game is violent, and the student may appeal this decision to the principal. Each student is responsible for ensuring that only licensed software is loaded onto their device.

Students shall refrain from downloading the TikTok app onto any District issued device. If TikTok has already been downloaded onto a device issued to a student, the student shall delete the app or seek assistance from [The IT department](#).Inspection and Filtering

Filtering software will be used to prevent access to material considered inappropriate or harmful to minors.

Students may be selected at random or for cause to provide their device for inspection. If technical difficulties occur or unauthorized software or any other violation of District policy is discovered, all files and the hard drive may be reformatted. Only authorized software will be installed. The District does not accept responsibility for the loss of any software or other materials deleted due to a reformat and reimage.

Electronic mail, network usage, and all stored files shall not be considered confidential and may be monitored at any time by designated District staff to ensure appropriate use. The District will cooperate fully with local, State, or federal officials in any investigation concerning or relating to violations of law.

## Remote Access of Devices

Devices may be equipped with the ability to be accessed remotely in the case of technical problems requiring remote assistance, missing or stolen devices, or other for any other appropriate District purpose. A student does not need to be asked for permission prior to remote software maintenance.

## Acceptable Use

Access to the devices is a privilege and not a right. Each employee, student, and parent will be required to follow the Internet Access Conduct Agreement and the Acceptable Use of Electronic Networks Policy. Violation of these policies, whether by the student or another party, while the device is in student custody may result in disciplinary action for the student, possible revocation of device privileges, and/or contacting law enforcement authorities.

## Protecting and Storing Devices

Students are expected to password protect their devices and shall keep their password confidential.

When students are not using their devices, the devices should be stored in their lockers. Students are encouraged to take their devices home every day after school.

Under no circumstances should devices be left in unsupervised areas. Unsupervised areas include the school grounds, the cafeteria, computer lab, locker rooms, library, unlocked classrooms, dressing rooms, and hallways. Unsupervised devices will be confiscated by staff and taken to the building principal's office. Disciplinary action may be taken for leaving a device in an unsupervised location.

## Repair of Devices

Students are to report all device problems **to the IT department.**

The Superintendent will issue a document clarifying student or parent responsibility for lost and damaged devices when the details of the District's insurance policy are known.

## Board Policy 3280: Equal Education, Nondiscrimination, and Sex Equity Status:

Original Adopted Date: | Last Reviewed Date:

The Board of Trustees of Minidoka County Joint School District No. 331 herewith reaffirms its commitment to the fundamental principles of justice, due process, equal protection under the law, and the right to petition for redress of grievances as set forth in the constitutions of the United States and the State of Idaho and as interpreted by the legislative and judicial branches of the United States and State of Idaho with respect to policies of delivery of services.

Recognizing the principles and procedures set forth in these laws, the District will, as a matter of basic educational policy, establish and maintain instructional processes which, in substance and in management, reflect and respect these fundamental legal principles. Sound educational practices dictate that all who participate in the operation of the public schools avoid discriminatory practices both in the area of personnel administration and delivery of educational services.

Equal educational opportunities shall be available for all students without regard to race, color, national origin, ancestry, sex, gender identity and expression, sexual orientation, ethnicity, age, language barrier, religious beliefs, physical and mental handicap or disability, economic or social conditions, actual or potential marital or parental status, military status, citizenship status, status as a homeless child, or other protected categories.

No student shall, on the basis of sex, be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Inquiries regarding discrimination should be directed to the District Title IX or Nondiscrimination Coordinator. An individual with a complaint alleging a violation of this policy shall follow the Uniform Grievance Procedure.

In compliance with federal regulations, the District will notify annually all students, parents, staff, community members, and unions or professional organizations the District holds a collective bargaining agreement with of this policy and the designated coordinator to receive inquiries. Notification should include the name and location of the coordinator, as well as a statement that the District will provide equal access to the Boy Scouts and other designated youth groups. The notification will be provided in all handbooks.

The District will not tolerate hostile or abusive treatment, derogatory remarks, or acts of violence because of disability against students, staff, or volunteers with disabilities. The District considers this behavior to constitute discrimination on the basis of disability in violation of State and federal law.

**Board Policy 3281: Gender Identity and Sexual Orientation**

**Status:**

**Original Adopted Date: | Last Revised Date: Last Reviewed Date:**

The Board believes in fostering an educational environment that is safe and free of discrimination for all students, regardless of sexual orientation, gender identity, or gender expression. This policy is designed to create a safe learning environment for all students and to ensure that every student has equal access to all school programs and activities. Failure of any school student or school employee to abide by the terms and provisions of this policy will subject such individual to disciplinary action.

Any instruction related to sexual orientation or gender identity shall be age-appropriate, developmentally appropriate, and in accordance with state standards. Instruction which does not meet these requirements is prohibited by state law. Parent permission for instruction on these topics must be provided as described in Policy 2320 on Health, Sex Education, and Human Sexuality.

If a student, parent/guardian, or District employee has an issue or concern related to this policy, they should discuss the concern with the building principal so that a resolution can be reached.

A student or the student's parent/guardian may request a meeting be held with the building principal, the student, and the student's parent/guardian to discuss a change in the student's gender expression or identity. The goal of the meeting is to develop understanding of that student's needs with respect to their gender identity and create a plan to address those needs. If the school's staff believe that a gender identity or expression issue is presenting itself and creating difficulty for the student at school, it may be appropriate for the school's administrative staff and/or counselor to approach the student's parent/guardian about the issue. An individual teacher shall not approach a student's parent/legal guardian to address such a student situation. Instead, they shall notify the building principal or school counselor. The building principal or their designee shall work with the counselor to notify the student's parent/guardian and take any appropriate further steps.

The student's use of restrooms, changing facilities, and sleeping rooms shall be addressed as described in Policy 9605. In no case will a student be denied the right to participate in school activities and/or an overnight trip because of that student's transgender status or sexual orientation.

School Activities

The District will provide all students the opportunity to participate in any activities segregated by gender in a manner that is consistent with their gender identity consistently asserted at school. However, activities under the direction of the Idaho High School Activities Association (IHSAA) shall be subject to IHSAA rules and regulations.

Student Records and Privacy

The District's official records required by law shall utilize a student's legal name. In situations where

State or federal law or administrative rules require school employees to use or report a student's legal name or gender, such legal name or gender shall be utilized. However, school staff shall ensure they do not inadvertently disclose the student's transgender status.

Information regarding a student's sexual orientation, gender identity, gender expression, legal name, or gender assigned at birth may constitute confidential information. Disclosure of such information shall be in accordance with District policies pertaining to student privacy. The student's educational record shall not include mention of the student's sexual orientation.

### Change of Official School Records

District records required by law to include the student's legal name and/or gender will be changed by the District upon the student or former student's presentation of appropriate documentation to the District Office. Any current or former student may present to the Superintendent or designee responsible for student records a copy of a court order or birth certificate identifying a change in the student's legal name and/or gender. The student's records will be changed accordingly.

### Confidentiality

School employees should not disclose a student's transgender status or sexual orientation to other individuals, regardless of setting, including the other school personnel, unless they have a legitimate need to know or unless the student has authorized such disclosure. Action in violation of such student confidentiality may subject an employee to discipline, up to and including possible termination and, for certificated personnel, a report to the Professional Standards Commission.

However, when the school becomes aware of change in a student's gender identity or expression and such change constitutes a change in the student's mental, emotional, or physical health or wellbeing, the building principal and/or school counselor shall notify the student's parent/guardian. The individuals responsible for parental notification shall keep documentation that such notification has occurred detailing the date and time, participants in the communication, manner of communication, and the content of such communication.

### Training

The District may conduct staff development or awareness activities for students or parents on transgender issues or gender diversity. However, in regard to such activities the District and its personnel shall not disclose the transgender status of any student without permission of that student and their parent(s)/guardian(s). Any student instruction on this topic shall comply with Policy 2320.

### Dress Codes

School dress codes shall be gender neutral in all situations, including attire during the traditional school day, school activities including dances and prom, and graduation. The District will allow students to dress in a manner that is consistent with their gender identity within the constraints of the dress codes and any other rules regarding student attire.

Students may wear clothing or accessories that voice their views on lesbian, gay, bisexual, and

transgender (LGBT) issues, regardless of viewpoint, provided these conform to the dress code; are not a disruption to the educational environment; and are not obscene, threatening, lewd, or vulgar.

### School Dances

The District shall not impose different or unique practices or rules for same sex couples or transgender students who attend and/or participate in school activities, including dances. This includes such matters as prohibition of attendance of same sex student couples, limitations of public displays of affection only applicable to same sex couples, discounted couples tickets, any requirement that dance court titles correspond to sex assigned at birth, and other such distinctions.

### Safe Environment

It is the responsibility of the District to strive to provide all students, including LGBT students, with a safe school environment. Discrimination, harassment, bullying, or sexual harassment complaints involving LGBT students shall be handled in the same manner as other discrimination, harassment, bullying, and sexual harassment complaints.

## **Board Policy 3285: Relationship Abuse and Sexual Assault Prevention and Response** Status:

Original Adopted Date: | Last Reviewed Date:

The Board endeavors to take steps to prevent and respond to known instances of relationship abuse and sexual assault. Such conduct by students or third parties is strictly prohibited and shall not be tolerated on District premises, or at any District sponsored activity, regardless of location including, but not be limited to buildings, facilities, and grounds on the District campus, school buses, District parking areas, and the location of any District sponsored activity. This includes instances in which the conduct occurs off the District premises, but impacts a District related activity.

Relationship abuse includes the intentional use of physical, sexual, verbal, or emotional abuse or violence by a person to harm, threaten, intimidate, or control another person in a current or past dating relationship. Sexual assault includes sexual violence, sexual abuse, sexual stalking, and rape.

Students whose behavior is found to be in violation of this policy will be subject to discipline, up to and including expulsion. Third parties whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the Superintendent or Board.

Students or third parties may also be referred to law enforcement officials. Should the District or any of its' employees have reason to believe that a child under 18 years of age has been abused, abandoned, or neglected or has been subjected to conditions which would reasonably result in abuse, abandonment, or neglect, the school shall follow appropriate reporting requirements pursuant to the Child Protective Act. Employees shall also report the incident to the District's Title IX coordinator or deputies, as described in Policy 3085.

The Superintendent is hereby directed to develop administrative procedures to implement this policy in the cases of actions which violate this policy but are not within the scope of sexual harassment as defined in Procedure 3085P. Procedures shall include descriptions of prohibited conduct, the definition of abuse pursuant to the Child Protective Act, reporting and investigative procedures, prevention and response procedures, and provisions to ensure notice of this policy is provided to students.

The Board shall review this policy annually.

### Addressing Sexual Assault Outside the Scope of Policy 3085 and Procedure 3085P

Any person wishing to report an instance of sexual assault may do so in accordance with Policy 3085.

If the Title IX Coordinator determines the instance of sexual assault does not fall within the scope of Procedure 3085P to address, it may be addressed through this policy. The District shall maintain the confidentiality of the student, as far as possible, and may notify the student of what information may need to be disclosed in the course of the investigation, to whom, and why. The District shall take steps to prevent retaliation against a student who files a complaint regarding sexual assault. The District shall immediately act to remediate the situation, without waiting for the completion of the investigation, and shall notify the student of any services available to assist him or her.

Such remediation during or following an investigation may include:

1. Providing an effective escort to ensure the complainant can move safely between classes and activities;
2. Ensuring that the complainant and the perpetrator or alleged perpetrator do not share classes, extracurricular activities, or a school;
3. Provision of victim services such as medical, counseling, and academic support services;
4. Arranging for the complainant to have extra time to complete or retake a class without academic penalty;
5. Disciplinary action against the perpetrator;
6. Counseling for the perpetrator;
7. Conducting training with a group of students if, for example, the sexual violence created a hostile environment within a particular grade level or on a sports team;
8. Ensuring the school has access to a counselor trained to assist victims of sexual violence;
9. Training employees on how to handle reports of sexual violence;
10. Informing students about the problem of sexual violence and how to seek assistance;
11. Conducting bystander intervention and sexual assault prevention programs with students;
12. Issuing official statements that the District will not tolerate and will respond to any incidents of sexual violence; and
13. Assessing the school climate to determine whether the campus is free of sexual violence and determining what steps should be taken to address any problems.

Following the investigation, to the extent possible and not in violation of any applicable law, the complainant shall be notified of the outcome of the complaint, including whether the investigation determined that the alleged conduct occurred, remedies being offered to the complainant, any sanctions imposed on the perpetrator that directly relate to the complainant, and any other steps taken to eliminate the hostile environment or prevent recurrence.

Policy - Reporting Form for Students

The Board of Trustees believes that students and employees of the Minidoka County Joint School District No. 331 have the right to learn and work in an atmosphere which is conducive to the achievement of their fullest potential. Sexual harassment of students or employees, whether verbal or physical and whether engaged in by employees of the District, its students, or others is prohibited and will not be tolerated.

Sexual harassment is a form of sex discrimination and is prohibited in the District. An employee, District agent, or student engages in sexual harassment whenever he or she makes unwelcome advances; requests sexual favors; or engages in other verbal, non-verbal, or physical conduct of a sexual or sex-based nature, imposed on the basis of sex, that:

1. Denies or limits the provision of educational aid, benefits, services, opportunities, or treatment, or that makes such conduct a condition of a student's academic status; or
2. Has the purpose or effect of:
  - A. Substantially interfering with the student's educational environment;
  - B. Creating an intimidating, hostile, or offensive educational environment;
  - C. Depriving a student of educational aid, benefits, services, opportunities or treatment; or
  - D. Making submission to or rejection of such unwelcome conduct the basis for academic decisions affecting a student.

The terms "intimidating," "hostile," and "offensive" include conduct which has the effect of humiliation, embarrassment, or discomfort. Examples of sexual harassment include, but are not limited to, unwelcome touching; crude jokes or pictures; discussions of sexual experiences; pressure for sexual activity; intimidation by words, actions, insults, or name calling; teasing related to sexual characteristics; and spreading rumors related to a person's alleged sexual activities.

Students who believe that they may have been sexually harassed or intimidated should contact a counselor, teacher, Title IX coordinator, or administrator who will assist them in the complaint process, per Policy 3085 and Procedure 3085P. Supervisors or teachers who knowingly condone, or fail to report or assist a student to take action to remediate such behavior of sexual harassment or intimidation, may themselves be subject to discipline.

Any District employee who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action up to and including discharge. Any student of the District who is determined, after an investigation, to have engaged in sexual harassment will be subject to disciplinary action, including, but not limited to, suspension and expulsion, consistent with the discipline policy. Any person who knowingly making a false accusation regarding sexual harassment will likewise be subject to disciplinary action up to and including discharge with regard to employees, or suspension and expulsion with regard to students.

Any individual seeking further information should contact the Superintendent for the name of the current Title IX Coordinator for the District. The Superintendent shall ensure that the student and employee handbooks identify the name, address, and telephone number of the individual

responsible for coordinating the District's compliance efforts.

An individual with a complaint alleging a violation of this policy which does not fall within the scope of allegations addressed by Procedure 3085P shall follow the Uniform Grievance Procedure.

## Board Policy 3295: Hazing, Harassment, Intimidation, Bullying, and Cyber Bullying

Status:

Original Adopted Date: | Last Reviewed Date:

The personal safety and welfare of each child is of paramount concern to the Board of Trustees, employees, and patrons of the District. The Board is committed to providing a positive and productive learning and working environment. Hazing, harassment, intimidation, cyber bullying, or bullying by students or third parties is strictly prohibited and shall not be tolerated in the District. This includes actions on school grounds, school property, school buses, at school bus stops, at school sponsored events and activities, and through the use of electronic technology or electronic communication equipment on school computers, networks, forums, or mailing lists and actions at locations outside of those listed above that can be reasonably expected to materially and substantially interfere with or disrupt the educational environment of the school or impinge on the rights of other students or staff at school.

The Board expects all students to treat each other with civility and respect and not to engage in behavior that is harmful to another student or the property of another student. The Board expects students to conduct themselves in keeping with their level of maturity, with a proper regard for the rights and welfare of other students, for school personnel, and for the educational purpose underlying all school activities.

Third parties whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the Superintendent or Board.

Students or third parties may also be referred to law enforcement officials.

Original Adopted Date: | Last Reviewed Date:

The following definitions and procedures shall be used for reporting, investigating, and resolving complaints of hazing, harassment, intimidation, bullying, and cyber bullying.

District employees are authorized and expected to intervene or facilitate intervention on behalf of students facing harassment, intimidation, and bullying. Intervention shall be designed to:

1. Correct the problem behavior;
2. Prevent another occurrence of the problem;
3. Protect and provide support for the victim of the act; and
4. Take corrective action to address documented systemic problems related to harassment, intimidation, or bullying.

### Definitions

1. "Third parties" include, but are not limited to, coaches, school volunteers, parents, school visitors, service contractors or others engaged in District business, such as employees of businesses or organizations participating in cooperative work programs with the District and others not directly subject to District control at inter-district and intra-district athletic competitions or other school events.
2. "District" includes District facilities, District property, buses, electronic technology or electronic communication equipment on District computers, networks, or forums and non-District property if the student or employee is at any District-sponsored, District-approved or District-related activity or function, such as field trips or athletic events where students are under the control of the District or where the employee is engaged in District business.
3. "Hazing" includes, but is not limited to, any act that recklessly or intentionally endangers the mental health, physical health, or safety of a student for the purpose of initiation or as a condition or precondition of attaining membership in, or affiliation with, any District-sponsored activity or grade level attainment, such as forced consumption of any drink, alcoholic beverage, drug, or controlled substance, forced exposure to the elements, forced prolonged exclusion from social contact, sleep deprivation or any other forced activity that could adversely affect the mental or physical health or safety of a student; requires, encourages, authorizes, or permits another to be subject to wearing or carrying any obscene or physically burdensome article, assignment of pranks to be performed or other such activities intended to degrade or humiliate.
4. "Harassment" includes, but is not limited to, any act which subjects an individual or group to unwanted, abusive behavior of a nonverbal, verbal, written, electronic, or physical nature on the basis of an actual or perceived characteristic, including but not limited to age, race, religion, color, national origin, disability, gender, gender identity and expression, sexual orientation, physical characteristic, cultural background, socioeconomic status, geographic location, familial status, or weight. Sexual harassment is addressed separately in Policies 3085 and 3290 and their related procedures.
5. "Harassment, intimidation, or bullying" means any act that substantially interferes with or disrupts the educational environment or impinges on the rights of other students at school, a student's opportunities or performance, that takes place on or immediately adjacent to school grounds, school property, at any school-sponsored activity, on school-provided

transportation or at any official school bus stop, and that has the effect of:

- A. Harming a student or damaging a student's property;
  - B. Knowingly placing a student in reasonable fear of harm to the student or damage to the student's property; or
  - C. Is sufficiently severe, persistent, or pervasive so that it creates an intimidating, threatening, abusive, or hostile educational environment.
6. "Cyber bullying" includes, but is not limited to the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another person by sending or posting inappropriate and hurtful e-mail messages, instant messages, text messages, digital pictures or images, or website postings, including blogs through the District's computer network and the internet, whether accessed on campus or off campus, during or after school hours or through any private electronic device done when the student is present at school. In the situation that cyber bullying originated from a non-school computer, but has been brought to the attention of school officials, any disciplinary actions shall be based on whether the conduct is determined to be reasonably expected to materially and substantially interfere with or disrupt educational environment of the school or impinge on the rights of other students at school and/or in violation of District policy or state law. The Administration shall, at their discretion, contact local law enforcement.
7. "Intimidation" includes, but is not limited to, any threat or act intended to tamper, substantially damage or interfere with another's property, cause substantial inconvenience, subject another to offensive physical contact or inflict serious physical injury on the basis of race, color, religion, national origin, gender identity and expression, or sexual orientation.

### Retaliation/False Charges

Retaliation against any person who reports or is thought to have reported, filed a complaint, or otherwise participated in an investigation or inquiry is prohibited. Such retaliation shall be considered a serious violation of Board policy, independent of whether a complaint is substantiated. False charges shall also be regarded as a serious offense and will result in disciplinary action or other appropriate sanctions, up to and including termination or expulsion.

Any person found to have retaliated against another individual for reporting an incident of harassment may be subject to the same disciplinary action provided for harassment. Individuals who assist or participate in an investigation of harassment are also protected from retaliation under this policy.

### Confidentiality

It is recognized that harassment, hazing, intimidation, bullying, and cyber bullying is often very distressing for the victim and those who suffer as a result of such actions may be reluctant to make their concerns known. All reasonable steps will be taken to ensure that all inquiries and complaints are dealt with allowing for as much confidentiality as can be provided while at the same time allowing for a thorough and appropriate investigation and reporting, where appropriate.

### Policy Distribution

Information about this policy must be distributed to the school community annually, including parents, students, and all school personnel. Information about the District's policies and procedures will be included in student orientation material and in the student handbook.

The Superintendent or designee shall annually distribute and review with employees the requirements, policies, and procedures to be followed concerning the handling of student harassment, intimidation, and bullying and shall include this information in employee handbooks. All new employees will be given these policies and procedures as part of their orientation program.

The District shall provide ongoing professional development to assist school employees in preventing, identifying, intervening, and responding to harassment, intimidation, and bullying. The content of ongoing professional development for District employees shall include, but is not limited to:

1. School philosophy regarding school climate and student behavior expectations;
2. Definitions of harassment, intimidation, and bullying with specific examples;
3. Prevention strategies or programs including the identification of materials to be distributed annually to students and parents;
4. Expectations and examples of staff intervention to harassment, intimidation, and bullying; and
5. School process for responding to harassment, intimidation, and bullying including the reporting process for students and staff, investigation protocol, the involvement of law enforcement, related student support services, and parental involvement.

### Complaint Procedures

Building principals and the Superintendent have responsibility for investigations concerning hazing, harassment, intimidation, bullying, or cyber-bullying. The investigator(s) shall be a neutral party having had no involvement in the complaint presented.

Any student, employee, or third party who has knowledge of conduct in violation of this policy or feels he or she has been a victim of hazing, harassment, intimidation, or cyber-bullying, in violation of this policy shall immediately report his or her concerns.

All complaints will be promptly investigated in accordance with the following procedures:

Step I: Any hazing, harassment, intimidation, bullying, or cyber-bullying, information (complaints, rumors, etc.) shall be presented to the building principal or Superintendent. Students may report such information to another staff member who shall relay the complaint to the building principal or Superintendent. Complaints against the building principal shall be filed with the Superintendent. Complaints against the Superintendent shall be filed with the Board Chair. All such information will be reduced to writing and will include the specific nature of the offense and corresponding dates. This may be done using Form 3295-F1.

Step II: The District official receiving the complaint shall make a record of the report and promptly investigate or refer the complaint to an appropriate colleague or outside party for investigation. Parents will be notified of the nature of any complaint involving their student. The District official will arrange such meetings as may be necessary with all concerned parties within five working days after receipt of the information or complaint. The parties will have an opportunity to submit evidence and a list of witnesses, and written statements may be gathered from all of the parties to the incident, including any witnesses. All findings

related to the complaint will be reduced to writing. The District official(s) conducting the investigation shall notify the complainant and parents as appropriate, in writing, when the investigation is concluded and a decision regarding disciplinary action, as warranted, is determined. This shall include a written report detailing the investigation, the statements of the parties, and any other evidence presented. The District will strive to complete this investigation within ten work days.

Due to the requirements of the Family Educational Rights and Privacy Act, it will often not be possible to provide complainants and parents with detailed information on disciplinary actions taken against another student. To the extent feasible, each party will be notified of the outcome of the investigation within five working days.

A copy of the notification letter or the date and details of notification to the complainant, together with any other documentation related to the incident, including disciplinary action taken or recommended, shall be forwarded to the Superintendent or their designee.

If it is determined that the prohibited conduct occurred, the Superintendent or their designee will take immediate action to address the behavior and to prevent similar behavior in the future.

The building principal shall record a summary of the incident, investigation, and resulting actions taken shall be recorded on Form 3295-F2, which the building principal shall share with the Superintendent regularly.

Step III: If the complainant is not satisfied with the decision at Step II, he or she may submit a written appeal to the Superintendent or designee. Such appeal must be filed within ten working days after receipt of the Step II decision. The Superintendent or designee will arrange such meetings with the complainant and other affected parties as deemed necessary to discuss the appeal. The Superintendent or designee shall provide a written decision to the complainant's appeal within ten working days.

Step IV: If the complainant is not satisfied with the decision at Step III, a written appeal may be filed with the Board. Such appeal must be filed within ten working days after receipt of the Step III decision. The Board shall, within twenty working days, conduct an informal review at which time the complainant shall be given an opportunity to present the complaint and the District's administration to respond if they so desire. The course and conduct of this proceeding shall be informal and shall be at the sole discretion of the Board. The Board shall provide a written decision to the complainant within ten working days following completion of the informal review.

Direct complaints related to educational programs and services may be made to the U.S. Department of Education, Office for Civil Rights.

### Documentation and Reporting

Documentation related to the incident may be maintained as a part of the student's education records. Additionally, a copy of all hazing, harassment, intimidation, bullying, or cyber-bullying, complaints and documentation will be maintained as a confidential file in the District Office and reported as required by the State Department of Education. The Superintendent, building principal, or their designee shall be responsible for receiving and documenting complaints alleging student

harassment, intimidation, and bullying.

The District will keep and maintain a written record, including, but not limited to:

1. Witness statements;
2. Investigative reports; and
3. Correspondence, from the date any allegation of harassment is reported to District personnel.

The information in the written record will also include the action taken by the District in response to each allegation. The written record will be kept permanently in the District's administrative offices and will not, at any time, be purged by District personnel.

The Superintendent or their designee may refer allegations of bullying to law enforcement they believe the alleged actions violate the law.

The District shall strive to create a safe and welcoming environment for all students while also complying with IC 67-5909B.

No student or staff member shall be disciplined for any of the following:

1. Declining to identify the pronouns they prefer to be addressed by;
2. Declining to refer to another person by:
  - A. Any pronoun or gendered title that is not traditionally associated with the individual's sex as indicated on the birth certificate provided to the District;
  - B. A name other than the individual's legal name or a derivative of it.

However, consistent with the District's obligations to its students, nothing in this policy shall override IC 18-917A and Policy 3295 Hazing, Harassment, Intimidation, Bullying, and Cyber Bullying.

For the purposes of this policy, a student's legal name is the official name provided on a student's registration form, and as identified on the student's birth certificate or applicable court order received by the District identifying the student's legal name.

If any teacher is unwilling to use the parent-authorized name or pronouns of a student in their class:

1. The teacher shall notify the building principal.
2. The building principal or their designee shall notify the Superintendent.
3. The building principal shall notify the student's parent/guardian to discuss any options available to the student, such as transferring to the same class taught by another teacher or transferring to a different class. Depending upon the age of the student and the desires of the parent/guardian, the student in question may be part of these discussions.
4. If no resolution acceptable to the District, teacher, and parent/guardian can be reached, the parent/guardian of the student will be offered reasonable academic accommodation as described in Policy 2425 Parental Rights.
5. If a resolution acceptable to the District, teacher, and parent/guardian is reached, such resolution shall be documented by the District. Such documentation shall include the resolution reached and shall affirmatively detail the agreement of the parties to the resolution.

### Parental Permission

Permission shall not be required for a student to use their first, middle, or last name or a derivative of that name. For the purposes of this policy, a derivative of a name includes a shortened or modified name that is typically used as a nickname for the person's legal name. It also includes a person's initials.

A student's parent/guardian must provide written permission for District employees to use the following when referring to a student:

1. Any pronoun or gendered title that is not traditionally associated with the individual's sex as indicated on the birth certificate provided to the District;
2. A name other than the individual's legal name or a derivative of it.

A parent/guardian may provide such written permission when submitting a signed registration form for their student if the form contains a field for a chosen name or name the student commonly uses and/or a field where the parent can provide the pronouns the student uses. The Superintendent or their designee shall create a process for parents/guardians to provide such permission at other times of the school year or if such information is not collected on the registration form.

If there is disagreement or uncertainty about whether the name a student uses is a derivative of their legal name, the matter shall be brought to the building principal. If the principal determines that there is uncertainty about whether the name is a derivative of the student's legal name or determines the name is not a derivative of the legal name, the principal shall direct the student to the process for the student's parent/guardian to provide permission if they wish to proceed with using the name in question.

The Board recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the entire school community. As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive means.

For purposes of this policy, “Drugs” shall mean:

1. All dangerous controlled substances as so designated and prohibited by Idaho law;
2. All chemicals which release toxic vapors;
3. All alcoholic beverages;
4. Tobacco products;
5. Any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
6. “Look-alikes”;
7. Anabolic steroids;
8. Any other illegal substances so designated and prohibited by law.

In accordance with Federal law, the Board hereby establishes a “Drug-Free School Zone” that extends 1000 feet from the boundary of any school property. The Board prohibits the use, possession, concealment, delivery, or distribution of any drug or any drug-related paraphernalia at any time on District property, within the Drug-Free School Zone, or at any District-related event. Furthermore, the Superintendent shall take the necessary steps to ensure that an individual 18 years of age or older who knowingly delivers or distributes controlled substances so designated and prohibited by Idaho law within the Drug-Free School Zone to another person is prosecuted to the fullest extent of the law.

The Superintendent shall prepare guidelines for the identification and regulation of drug use in the schools. Such guidelines shall emphasize the prevention of drug use and include a statement to students that use of illicit drugs and the unlawful possession of alcohol is harmful. The student handbook shall provide standards of conduct that are applicable to all students which clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school premises or as a part of any school activity.

Sanctions for violation of this or any other policy which addresses illegal drug and alcohol possession, use, or distribution may include, together with punitive action, voluntary referral to appropriate persons or agencies for screening and assessment.

The Board shall review this policy annually.

[Student Dress](#)

The Minidoka County Joint School District # 331 is a drug, alcohol, and tobacco free school district and zone. The Board recognizes that use of alcohol and drugs is a serious problem of great concern in our society and that the presence of drugs in school is detrimental to the educational environment and harmful to the health, safety, and welfare of students and staff. The District wishes to help those in need of alcohol and drug intervention and at the same time to protect others that are affected by the presence of alcohol and drugs and to enforce the policies of the District relating to use, possession, or being under the influence of alcohol or controlled substances, as that term is defined in statute (I.C. § 37-2732C).

Students attending school in the District will not use, possess, sell, buy, or distribute drugs, including alcohol; tobacco, including smokeless tobacco, electronic cigarettes or vapes, or look-alikes; controlled substances or related paraphernalia, or over-the-counter medications (except as allowed by District policy) on District property or at District events or activities.

#### Voluntary Disclosure

The District shall strive to create an environment free from alcohol and illicit drugs. In the case of students who come forward and voluntarily disclose using and/or being under the influence of alcohol and/or drugs while on school property or at a school function, prior to the District having reasonable suspicion, the will immediately notify the student's parent/guardian, and the District will work with the parent in the establishment of a plan to assist the student in whatever means are deemed necessary and appropriate. The incident shall be reported to law enforcement.

The mere fact that a student previously disclosed use of alcohol or controlled substances, in and of itself, shall not establish reasonable suspicion at a later date.

#### Use of Alcohol/Drugs Not Disclosed Voluntarily

If the District has reasonable suspicion (based upon reliable information received or the personal observations of staff) that a student is using or is under the influence of alcohol or a controlled substance and the student has not voluntarily disclosed such use or influence, the District may take whatever action is deemed appropriate, including but not limited to suspension, and/or expulsion. The District shall notify the student's parent/guardian as well as local law enforcement. The following shall be used as a guide in determining what procedures may be followed when this occurs, however, the specific procedure may, in large part, depend upon the circumstances in each case:

1. Upon reasonable suspicion, the student will be asked if they have used and/or are under the influence of alcohol and/or drugs;
2. If the student admits to the use, the student's parent/guardian will be immediately called. The student will be asked to reveal the circumstances involving the use of alcohol and/or drugs and asked if any other students were involved;

3. The student will be immediately suspended from school, and depending upon the circumstances, may be suspended for up to 20 days and/or recommended for expulsion.
4. If the student does not admit to the use of alcohol and/or drugs and the staff member(s) in charge, after talking to the student, still believes that the student used or was/is under the use or influence of alcohol and/or drugs, an investigation will be conducted, which may include a search of the student's locker, car, desk, or any other school property used by the student. In addition, law enforcement will be called immediately as will be the parent/guardian. The student will be suspended from school pending an investigation. If the investigation shows that, more likely than not, the student used or was under the influence of drugs and/or alcohol, a recommendation for expulsion may be made to the Board of Trustees. The student will be entitled to full due process prior to being expelled from school.

Only persons who have a "need to know" may receive information regarding a voluntary disclosure, except when deemed reasonably necessary to protect the health and safety of others.

### Resources

When a student admits to using alcohol or drugs or is reasonably suspected of doing so, the student's parent/guardian will be notified of available opportunities for counseling for the student.

When a student is expelled for such substance use, the Board may require, as a condition of readmission, that the student undergo assessment and counseling for alcohol and/or drug use if qualified District staff are available to provide these services.

The District shall provide written annual notification of the voluntary disclosure provisions of this policy as well as counseling availability and any other pertinent information in the student handbook or other reasonable means.

The Board shall review this policy annually.

### Intentional Harassment

District employees and independent contractors of the District are prohibited from using their authority to determine reasonable suspicion solely for the purpose of intentionally harassing a student. Using the authority in such a manner may result in disciplinary action against the employee or may be considered a breach of the District's contract with the independent contractor.

The Board recognizes the necessity of fair and judicious rules and guidelines to aid in the positive conduct of students, resulting in the benefit of all students. This policy applies while a student is on District property, on District transportation, or at any school-sponsored activity.

Each building principal shall be responsible for overseeing and implementing student discipline in their buildings as outlined in their student handbooks and in this policy.

Disciplinary action may be taken against any student guilty of disobedience or misconduct, including, but not limited to:

6. Using, possessing, distributing, purchasing, or selling tobacco products, including e-cigarettes and vapes;
7. Using, possessing, distributing, purchasing, or selling alcoholic beverages. Students who are under the influence are not permitted to attend school functions and are treated as though they had alcohol in their possession;
8. Using, possessing, distributing, purchasing, or selling illegal drugs or controlled substances, look-alike drugs, and drug paraphernalia. Students who are under the influence are not permitted to attend school functions and are treated as though they had drugs in their possession;
9. Assembly or public expression that advocates the use of substances that are illegal to minors or otherwise prohibited within this policy;
10. Using, possessing, controlling, or transferring a weapon in violation of the "Possession of Weapons in a School Building" section of this policy;
11. Using, possessing, controlling, or transferring any object that reasonably could be considered or used as a weapon;
12. Disobeying directives from staff members or school officials and/or rules and regulations governing student conduct;
13. Using violence, force, noise, coercion, threats, intimidation, fear, or other comparable conduct toward anyone or urging other students to engage in such conduct. The District prohibits unlawful acts of violence against students, District personnel, or any other persons.

Assault or battery by a student against another student, employee, or any other person occurring on school property or at a school sponsored event will subject the student to disciplinary action and may result in referral to law enforcement;

14. Causing or attempting to cause damage to, or stealing or attempting to steal, school property or another person's property;
15. Engaging in any activity that constitutes disorderly conduct, an interference with school purposes or an educational function or which is disruptive to the educational environment;
16. Unexcused absenteeism; however, the truancy statutes and Board policy will be utilized for chronic and habitual truants;
17. Hazing – For purposes of this policy, the term “hazing” shall have the meaning set forth in Idaho Code;
18. Initiations;
19. The forging of any signature, or the making of any false entry, or the authorization of any document used or intended to be used in connection with the operation of the school;
20. Harassment, intimidation, cyber bullying, or bullying as defined in Idaho Code and District policy.

These grounds for disciplinary action apply whenever the student's conduct is reasonably related to school or school activities, including, but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any other time when the school is being used by a school group;
2. Off school grounds at a school-sponsored activity, or event, or any activity or event which bears a reasonable relationship to school
3. Traveling to and from school or a school activity, function, or event; or
4. Anywhere, including off-campus, if the conduct may reasonably be considered to be a threat or an attempted intimidation of a staff member, or an interference with the education environment.

### Traditional Disciplinary Measures

Traditional disciplinary measures include, but are not limited to:

1. Expulsion;
2. Suspension;
3. Detention, including Saturdays;
4. Clean-up duty;
5. Loss of student privileges;
6. Loss of bus privileges;
7. In-school detention, which may take place during lunchtime, after school, or on weekends;
8. Notification to juvenile authorities and/or police;
9. Temporary removal from the classroom;
10. Meeting with the student and the student's parents; and
11. Restitution for damages to school property.

Classroom discipline will typically be handled starting at the classroom level, followed by possible removal to the principal's office should the behavior persist.

No person who is employed or engaged by the District may inflict or cause to be inflicted corporal punishment on a student. Corporal punishment shall be defined as the use of physical contact inflicted by a school employee upon the body of a student for purposes of punishment. Corporal punishment does not include, and District personnel are permitted to use, reasonable force as needed to maintain safety for other students, school personnel, or other persons, or for the purpose of self-defense.

### Alternative Disciplinary Measure

Alternative disciplinary action is discipline other than traditional suspension or expulsion from school that is designed to correct and address the root causes of a student's specific misbehavior while retaining the student in class or school, or restorative school practices to repair the harm done to relationships and persons from the student's misbehavior.

Alternative discipline includes, but is not limited to:

1. Reflective activities, such as requiring the student to write an essay about the student's misbehavior;
2. Mediation when there is mutual conflict between peers, rather than one-way negative behavior;
3. Counseling;
4. Anger management;
5. Health counseling or intervention;
6. Mental health counseling;
7. Participation in skills building and resolution activities, such as social-emotional cognitive skills building, resolution, and restorative conferencing;
8. Diversion or use of juvenile specialty courts;
9. Behavioral management plan;
10. Corrective instruction or other relevant learning or service experience;
11. Community service; and
12. In-school detention or suspension which may take place during lunchtime, after school, or on weekends.

### Consequences for Harassment, Intimidation, and Bullying

Students engaging in harassment, intimidation, or bullying will be subject to graduated consequences appropriate to the severity of the violation as determined by the Board, school administrators, or designated personnel depending upon the level of discipline. Graduated consequences for bullying may include any of the above listed traditional or alternative disciplinary measures or a combination thereof in accordance with the nature of the behavior, the developmental age of the student, and the student's history of problem behaviors and performance. However, depending upon the nature of the act, the District reserves the right to deviate from the process of graduated consequences to appropriately address the conduct at issue and move directly to suspension or expulsion proceedings. District personnel may also report the student's conduct to the appropriate law enforcement officials.

### Disciplining Students on Individual Education or Section 504 Plans

The District shall comply with the procedural safeguards enumerated in State and federal law and rule when disciplining students with individualized education plans or 504 plans.

## Gun-Free Schools

A student who uses, possesses, controls, or transfers a firearm, or any object that can reasonably be considered to be or look like a firearm, shall be expelled for a definite period of time of at least one calendar year. The Board, however, may modify the expulsion period on a case-by-case basis. The building administrator shall notify the appropriate law enforcement agency of any student who brings a firearm to school.

If a student violating this policy is identified as disabled, either under the IDEA or Section 504, a determination must be made whether the student's conduct is related to the disability. If the violation of the policy is due to a disability recognized by the IDEA or Section 504, lawful procedures for changes in placement must be followed.

Any student subject to an expulsion shall be entitled to a hearing before the Board, in accordance with Idaho Code and Board policy.

## Possession of a Weapon on School Property – Misdemeanor

No person shall possess a firearm or other deadly or dangerous weapon while on school property or in those portions of any building, stadium, or other structure on school grounds which, at the time of the violation, are being used for an activity sponsored by or through a school in this State or while riding school provided transportation. This also applies to students of schools while attending or participating in any school sponsored activity, program, or event regardless of location.

As used in this section of this Policy only:

Delegation of Authority

Each teacher, and any other school personnel when students are under his or her charge, is authorized to impose any disciplinary measure (other than suspension, expulsion, corporal punishment, or in-school suspension) which is appropriate and in accordance with the policies and rules on student discipline. Teachers may remove students from a classroom for disruptive behavior.

Nondiscrimination

The District will ensure that student discipline is enforced in a nondiscriminatory manner to avoid subjecting similarly situated students to different treatment without a legitimate reason for doing so, or when such a reason is merely a pretext for discrimination. Such discrimination, which the District will endeavor to avoid, includes the following:

1. Adopting discipline rules which treat students differently based on race, color, national origin, ancestry, sex, gender identity, sexual orientation, ethnicity, age, language barrier, religious beliefs, physical or mental handicap or disability, economic or social conditions, or actual or potential marital or parental status, or status as a homeless child;
2. Adopting any rule with the intention of targeting students based on the personal characteristics listed above, rather than for a legitimate purpose, regardless of whether the

phrasing of the rule appears neutral with regard to students' personal characteristics;

3. Enforcing an apparently neutral rule more harshly on the basis of a student's personal characteristics; or
4. Discipline of any student when it is motivated by intentional discrimination.

### Notification

A summarized version of this policy shall be provided in writing at the beginning of each school year to the school personnel, parents, and students in the District. Information provided to students shall be provided in a manner appropriate to the student's age, grade, and level of academic achievement.

The Board shall review this policy annually.

Building Level Discipline Plan

Building principals shall work with staff to develop a discipline plan that outlines general building rules and how student discipline will be handled in the building. The plan shall include responsibilities of classroom teacher, administrators, and when to contact a student's parents/guardians. The plan should clarify minor infractions and outline consequences for them.

Minor Infractions

All minor infractions should be handled by staff who have direct supervision of the student before advancing to the next step. The following are examples of actions that are typically minor infractions. Minor infractions are typically handled by the classroom teacher. Three minor infractions may constitute a major infraction.

1. Incurability
2. Failure to follow class rules or directions
3. Cheating, plagiarism or knowingly attempting to commit academic dishonesty
4. Conduct continuously disruptive to the educational environment or to the instructional effectiveness of the classroom
5. Engaging in any activity that constitutes disorderly conduct, an interference with school purposes or an educational function or disruption to the educational environment
6. Public displays of affection
7. Violation of dress code

Major Infractions

In the case of major infractions, law enforcement may, at the discretion of the building administrator or their designee, be consulted to help assess the situation and determine if legal consequences are applicable or necessary in addition to school discipline.

School personnel will take into consideration the age of the student when disciplining students.

## Board Policy 3340: Corrective Actions, Punishment, and Denial of Enrollment

Status:

Original Adopted Date: | Last Revised Date: | Last Reviewed Date:

**[REQUIRED POLICY: A law or administrative rule requires districts to have a policy on at least one of the topics addressed here.]**

All students shall submit to the reasonable rules of the District. Refusal to comply with written rules and regulations established for the governing of the school shall constitute sufficient cause for discipline, suspension, expulsion, or denial of enrollment.

When a student is suspended or expelled, they will be excluded from school and school activities.

For the purposes of the District's policies relating to corrective action or punishment:

1. "Temporary Suspension" is the exclusion from school or individual classes for a specific period of up to five school days.

The Superintendent or the principal of any school may temporarily suspend any student for disciplinary reasons, including student harassment, intimidation, or bullying, or for other conduct disruptive of good order or of the instructional effectiveness of the school. Prior to suspending any student, the Superintendent or principal shall grant an informal hearing on the reasons for the suspension and the opportunity to challenge those reasons. Any student who has been suspended may be readmitted to the school by the Superintendent or principal who suspended them on reasonable conditions prescribed by the Superintendent or principal. The Board of Trustees shall be notified of any temporary suspensions, the reasons for them, and the response to them.

2. "Extended Temporary Suspension" is the exclusion from school or individual classes by the Superintendent for an additional ten school days. Prior to suspending any student, the Superintendent shall grant an additional informal hearing on the reasons for the extended temporary suspension and the opportunity to challenge those reasons. The student may still be readmitted to the school by the Superintendent who suspended them on reasonable conditions prescribed by the Superintendent. The Board of Trustees shall be notified of any extended temporary suspensions, the reasons for them, and the response to them.
3. "Prolonged Temporary Suspension" is the exclusion from school or individual classes for an additional five school days. Only the Board can extend a temporary suspension for an additional five days and only upon a finding that immediate return to school attendance by the temporarily suspended student would be detrimental to other students' health, welfare, or safety.
4. "Expulsion" is exclusion from school. Only the Board has the authority to expel or deny enrollment to any student who is a habitual truant, whose conduct is such as to be continuously disruptive of school discipline or of the instructional effectiveness of the school, or whose presence is detrimental to the health and safety of other students or who has been expelled from another school district in the State of Idaho or any other state, including if they were disenrolled from a previous school or district in any state in lieu of discipline. In addition, the Board has authority to expel or deny enrollment to any student if they are convicted or adjudicated of offenses outlined in IC 20-525A(5) or other criminal offenses listed in chapter 9, 61, or 66 in Title 18, Idaho Code. Such convictions or adjudications shall be disclosed by the student's parent/guardian at the time of enrollment,

and failure to do so may result in expulsion or denial of enrollment to the student. The District will provide written notice of any student who is expelled or denied enrollment to the prosecuting attorney within five days of the Board's actions.

No student shall be expelled nor denied enrollment without the Board having first given written notice to the parent/guardian of the student stating the grounds for the proposed expulsion or denial of enrollment and the time and place where such parent/guardian may appear to contest the action of the Board. The notice shall also state the rights of the student to be represented by counsel, to produce witnesses and submit evidence on their own behalf, and to cross-examine any adult witnesses who may appear against them. Within a reasonable period of time following such notification, the Board shall grant the student and their parents/guardian a full and fair hearing in executive session on the proposed expulsion or denial of enrollment. However, the Board shall allow a reasonable period of time between notification and the hearing to allow the student and their parents/guardian to prepare their response to the charge. Notice of expulsion or of a decision not to expel shall be provided to the student's parents/guardians by registered mail, return receipt requested.

5. "Discipline" constitutes all forms of corrective action or punishment, including brief exclusions from a class for not more than the remainder of the class period and exclusion from any other type of activity conducted by or for the District. Discipline shall not adversely affect a student's academic grade or graduation requirements as long as all required work is performed.

Except in extreme cases, students will not be expelled unless other forms of corrective action or punishment have failed, or unless there is good reason to believe that other forms of corrective action or punishment would fail if employed. Suspensions or expulsions shall be used only for instances of serious student misconduct.

No student shall be expelled, suspended, or disciplined in any manner for any act not related to the orderly operation of the school or school-sponsored activities or any other aspect of the educational process.

#### Discipline of Students with Disabilities

Additional requirements apply when suspending or expelling a student with a disability. The District shall comply with these requirements as outlined in Procedure 3340P.

## Procedure 3340-P(1): Corrective Actions, Punishment, and Denial of Enrollment Status:

Original Adopted Date: | Last Reviewed Date:

It is the intent of the Board to provide each student with those due process rights that are provided by law.

### Suspension

In the event the proposed punishment of a student is to include denial of the right of school attendance from any single class or full schedule of classes for at least one day, the following procedure shall be used:

1. Before suspension, the student shall be provided a conference during which the charges will be explained and the student will be given the opportunity to respond to the charges.
2. A pre-suspension conference is not required and the student can be immediately suspended when the student's presence poses a continuing danger to persons or property or an ongoing threat of disruption to the educational process. In such cases, the notice and conference shall follow as soon as practicable.
3. Any suspension shall be reported immediately to the student's parent/legal guardian. A written notice of suspension shall state the reasons for the suspension, including any school rule which was violated, and a notice to the parent/guardian of the right to a review of the suspension. A copy of the notice shall be sent to the Superintendent.
4. Upon request of the parent/legal guardian, a review of the suspension shall be conducted by the Superintendent. At the review, the student and parent/legal guardian may appear and discuss the suspension with the Superintendent. After the meeting, the Superintendent shall take such action as appropriate. That action is final.
5. **[SELECT ONE: Work missed during the period of suspension cannot be made up for consideration for grading. OR Arrangement can be made between the [school OR teacher] and student or their family such that graded work missed during the period of suspension can be completed by the student for consideration for the student's grade.**
6. The suspension of a student may be extended by the Superintendent or the Board in accordance with State law. Written notice of the extension of a suspension will be provided to the student's parent/legal guardian.

### Expulsion

A student may be expelled from school only by the Board, and only after the following due process procedures have been followed:

1. The student and parent/legal guardian shall be provided written notice of the Board hearing to consider the recommendation for expulsion, by registered or certified mail at least five school days before the date scheduled for the hearing. The notice shall include the grounds for the proposed expulsion, the time and place of the hearing, information describing the process to be used to conduct the hearing, including the rights of the student to be represented by counsel, to produce witnesses and submit documentary evidence and the

right to cross-examine adult witnesses who testify against the student.

2. Within the limitation that the hearing must be conducted during the period of suspension, an expulsion hearing may be rescheduled by the parent/legal guardian by submitting a request showing good cause to the Superintendent at least two school days prior to the date of the hearing as originally scheduled. The Superintendent shall determine if the request shows good cause.
3. At the hearing, the student may be represented by counsel, present witnesses and other evidence, and cross-examine adult witnesses. Formal rules of evidence are not binding on the Board.
4. To ensure student privacy, the Board must take action on expulsion in executive session. The student shall not be named in the minutes of the meeting, but a record of the decision will be placed in the student's educational record and in the official records of the Board.

### Procedures for Students with Disabilities

Students with disabilities are entitled to all of the due process rights set forth above. In addition, the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 (Section 504) provide additional discipline procedures to a student with disabilities. The District shall comply with the provisions of the IDEA and Section 504 when disciplining students with disabilities.

### Suspension of Students with Disabilities

The District may suspend a student with disabilities for up to ten cumulative or consecutive school days in a school year for violation of the code of student conduct and educational services may cease to the same extent educational services cease for students without disabilities. Cumulative suspensions, if over ten school days in a school year, must not constitute a significant change in placement.

A significant change in placement occurs when a student with a disability is removed for more than ten consecutive school days or is subjected to a series of suspensions or removals that constitute a pattern of exclusion because they are more than ten school days in a school year, and because the length of each removal, the total amount of time the student is removed, and the proximity of the removals to one another indicate a pattern of exclusion.

For a student with an Individualized Education Program (IEP) who is suspended for more than ten cumulative school days in a school year and a change in placement does not occur, educational services shall be provided to the extent necessary to enable the student to appropriately progress in the general education curriculum and appropriately advance toward achieving the goals set out in the IEP, although in another setting, as determined by school personnel, in consultation with at least one of the student's teachers.

### Expulsion of Students with Disabilities

A student with an IEP or 504 plan may not be expelled if the student's violation of the student code of conduct is a manifestation of the student's disability. Any student with an IEP or 504 plan whose violation of the code of conduct is not a manifestation of the student's disability may be

expelled pursuant to expulsion procedures to the same extent a nondisabled student would be expelled for the same violation.

If a student on an IEP is expelled for conduct not a manifestation of the student's disability the student shall continue to receive education services at an alternative setting, consisting of services necessary to enable the student to appropriately progress in the general education curriculum and appropriately advance toward achieving the goals set out in the student's IEP during the period of expulsion. Additionally, the student must receive, as appropriate, a functional behavioral assessment (FBA) and behavior intervention services and modifications designed to address the behavior violation so that it does not recur.

If a student with a 504 plan is expelled for conduct not a manifestation of the student's disability, educational services may cease during the period of expulsion to the same extent educational services cease for students without disabilities.

### Additional Provisions

A student on an IEP who has carried a weapon to school or to a school function, or who knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school or a school function may be removed from the student's current placement. Such a student may be placed in an appropriate interim alternative educational setting for no more than 45 school days in accordance with the IDEA.

A student who is not on an IEP and who has violated the code of student conduct may assert any of the protections provided by the IDEA if it is determined the District had knowledge that the student was a child with a disability before the behavior the precipitated the disciplinary action occurred. The District had knowledge if:

1. The parent expressed concern in writing to supervisory or administrative personnel, or to the student's teacher, that the student is in need of special education and related services; or
2. The parent requested an evaluation; or
3. The student's teacher, or other District personnel expressed specific concerns about a pattern of behavior by the student directly to the director of special education or other supervisory personnel.

For minor infractions of school rules or regulations, or for minor misconduct, staff may detain students. Detention may take place after school hours or during the school day. Secondary students may be required to attend Saturday detention for up to four hours.

Students in detention may work on school work missed, including school work missed while away from class. Students may also be assigned additional work to complete during detention.

Detention shall be part of the requirement of school attendance by the student.

Preceding the assessment of such punishment, the staff member shall inform the student of the nature of the offense charged, and/or the specific conduct that allegedly constitutes the violation. The student shall be afforded an opportunity to explain or justify his or her actions to the staff member. Parents must be notified prior to a student serving after-school detention. Students' parents/guardians will be notified of proposed detention outside of regular school hours, and the school shall attempt to plan the time of the detention in cooperation with the parents/guardians. In the case of detention during school hours, the school shall expeditiously provide written notice of the detention and the student's behavior that prompted it.

Students detained for corrective action or punishment shall be under the supervision of the staff member or designee.

The Superintendent or principal who directed the student detention shall document or have documented a record of the student's detention in the District's student information system.

---

### Definition

“Student sex offender” shall mean a student who has been adjudicated delinquent or convicted of and placed on probation for a dangerous offense such as sexual conduct with a minor, sexual assault, molestation of a child, or continual sexual abuse of a child.

### Notification to School District

The Superintendent of Public Instruction is required by State law to notify a school district or private school regarding the enrollment of a registered juvenile sex offender. The Superintendent of Public Instruction is also required to notify the District or school of the offender's probationary status or treatment status, if known. The Superintendent of the District or his or her designee shall make contact with the State Department of Education in order to receive regular updates of this information.

### Educational Placement

The Superintendent of the District or his or her designee shall determine the appropriate educational placement for student sex offenders except those identified as having a disability. When determining educational placement, the Superintendent or his or her designee shall consider such factors as the safety and health of the student population. The Superintendent or designee shall develop guidelines for managing each student sexual offender in District schools. If the Superintendent or designee determines that, in the best interest of District schools, the student sexual offender should be placed in an alternative educational setting, the District shall pay for the costs associated with this placement.

Convicted juvenile sex offenders shall not attend a school attended by their victims or a victim's sibling. The offender and his or her parent or guardian shall be responsible for providing transportation or covering other costs related to the offender's attendance at another school.

An IEP team shall determine the educational placement of a student sexual offender with a disability. The student with a disability is entitled to all the due process procedures available to a student with a disability under the Individuals with Disabilities Education Act. The IEP team shall develop procedures for managing each student sexual offender with a disability that attends a District school. If the IEP team determines that the student sexual offender should be placed in an alternative educational setting, the District shall pay for the costs associated with this placement.

### Staff

Staff members are to be alert to and inform school officials of any behavior by a juvenile offender that creates an abnormal risk to members of the school community. However, each circumstance involving a student probationary juvenile offender attending a District school shall be evaluated on a case-by-case basis. Whenever possible without placing other students or adult members of the

school community at risk, reasonable efforts should be made to continue the student's education, to provide supportive services, and to avoid any acts of harassment or vigilantism against the student. Although federal and State laws and rules permit the release of information concerning a student registered sex offender, discretion should be exercised when discussing or disseminating information about the student. Whenever possible, the school community should encourage and support timely and appropriate intervention toward the expected outcome that a juvenile offender's conduct will be rectified so the student will commit no further offense and will develop into a responsible, self-controlled adult.

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects.

#### School Property and Equipment and Personal Effects Left There by Students

Lockers assigned to students are the property of the school district. The student will be responsible for the proper care and use of the locker assigned for their use. School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by students, without notice or consent of the student. This applies to student vehicles parked on school property. Building principals may require each high school student, in return for the privilege of parking on school property, to consent in writing to school searches of his or her vehicle and personal effects therein, when reasonable suspicion of wrongdoing exists.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, and other illegal or dangerous substances or material, including searches conducted through the use of specially trained dogs.

#### Students

School authorities may search the student and/or the student's personal effects in the student's possession when there is reasonable grounds for suspecting that the search will produce evidence the particular student has violated or is violating the law or the District's student conduct rules. The search itself must be conducted in a manner that is reasonably related to its objectives and not excessively intrusive in light of the age and sex of the student and the nature of the infraction.

Whenever practical, searches of a student shall be conducted by a staff member of that student's gender. Any time a search of a student must be conducted, a second adult shall be present. Whenever practical, this second adult shall also be of the student's gender. **[OPTIONAL] In no case shall a search of a student be conducted without at least one adult of the student's gender present.**

#### Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

8. Any search or seizure authorized in this procedure shall be conducted in the presence of at least one adult witness as described in Policy 3370. ## **Board Policy 3380: Extracurricular and Co-curricular Participation Policy**

**Status:**

**Original Adopted Date: | Last Reviewed Date:**

The Board of Trustees of Minidoka County Joint School District acknowledges that athletics play an important role in the educational process. Effective athletic programs can provide opportunities for students to develop talents, experience the value of teamwork, and understand the importance of good sportsmanship. The Board shall strive to provide these opportunities to students in the most effective way possible.

Extracurricular or co-curricular activities are supplements to the regular instructional programs and afford students opportunities for enrichment. However, participation in extracurricular and co-curricular activities is a privilege, not a right, as pursuant to Idaho Code. As representatives of their school and District, students participating in such activities are expected to meet high standards of behavior.

Coaches must be knowledgeable and willing to work at all levels in a particular sport for the improvement of the program. The number of qualified coaches at the middle and high school level will be adequate to ensure proper supervision while teaching basic skills to all athletes.

Practice time will be adequate at all levels to give students an opportunity to develop their basic skills in all sports in which they participate during the school year.

The activities director, under the direction of the high school principal, shall evaluate the high school athletic programs at the end of each season. Evaluation of the program at the middle school level shall be completed at the end of each season by the middle school principal working with the middle school activities director. They may seek input from the head coach and activities director from the high school level.

### General Definitions for Extracurricular and Co-Curricular Participation Policy

Unless the context otherwise requires, in this policy:

“Extracurricular Activities” means District and/or school authorized activities which take place outside of the regular school day and do not involve class credit, including (but not limited to) athletics, student groups or organizations, and community activities for which high school letters are awarded.

“Co-Curricular Activities” are District and/or school authorized activities held in conjunction with a for-credit class, but taking place outside of the regular school day including, but not limited to, debate, drama, drill team, band, or choir.

“Activity Suspension or Suspension from Extracurricular or Co-Curricular Activities” means that suspended students shall not travel, dress in uniform, or associate or participate with the team or group at its scheduled event(s). Suspended students may be allowed to participate in practices and meetings; however, the principal or designee may deem it necessary for students to be withheld from practices or meetings for the duration of the suspension.

“Controlled Substances” include (but are not limited to) opiates; opium derivatives; hallucinogenic substances, including cocaine; and cannabis and synthetic equivalents or the substances contained in the plant; any material, compound mixture, or preparation with substances having a depressant effect on the central nervous system; and stimulants.

“Drugs” include any alcohol or malt beverage, any inhalant, any tobacco product, any controlled substances, any illegal substance, any abused substance, any look-alike or counterfeit drug, any medication not approved and registered by the school authorities and/or any substance which is intended to alter mood, and/or any substance which is misrepresented and sold or distributed as a restricted or illegal drug.

“Drug Paraphernalia” is defined as any or all equipment, products, and materials of any kind which are used, intended for use, or designed for use in planting, propagating, cultivation, growing, harvesting, manufacturing, compounding, converting, producing, processing, preparing, testing, analyzing, packaging, repackaging, storing, containing, concealing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance as defined in this policy.

“Emergency Activity Suspension” is defined as imposition of an activity suspension by a principal or his or her designee prior to an informal hearing when it is necessary to protect the health and safety of the individual(s) involved and immediate action is appropriate.

“Event” is defined as a match, game, meet, or other competitive event, including regional and/or state tournaments, and competitions. “Event” is also defined as any band or choir performance(s).

“Knowingly Present” shall mean that a student attended a gathering of two or more individuals at which one or more of the attendees other than the student at issue were using or in possession of drug paraphernalia, controlled substances, drugs, pornography, alcohol, or tobacco and the student knew or reasonably should have known that such use or possession was occurring.

“Minor Infraction” shall mean a minor deviation from acceptable behavior or stated student expectations which occurs while the student is engaged in the extracurricular or co-curricular activity and which is not material or substantial. Students will be given notification of the first minor infraction. Students and parents will be given notification of the second minor infraction through a conference and will be informed that a third minor infraction may result in activity suspension.

“Major Infraction” shall mean a material or substantial deviation from acceptable behavior or stated student expectations which occurs while the student is engaged in the extracurricular or co-curricular activity, including but not limited to insubordination toward or non-compliance with the person in charge of the activity, verbal or physical abuse, hazing, fighting, and refusal of a student to identify him or herself to school personnel upon request.

“On any school premises or at any school sponsored activity, regardless of location” includes, but not is limited to buildings, facilities, and grounds on the school campus, school buses, school parking areas; and the location of any school sponsored activity. “On any school premises or at any school sponsored activity, regardless of location” also includes instances in which the conduct occurs off the school premises but impacts a school related activity.

“Scholastic Year” is defined as the period of time beginning with the first day of the fall

extracurricular and co-curricular activities season and ending with the last day of school.

“School Days” include only those days when school is in session.

### Eligibility Requirements for Extracurricular and Co-Curricular Participation

To take part in any extracurricular or co-curricular activity, students must maintain a 2.0 GPA. If they do not have a 2.0, they shall be placed on probation for two weeks and can bring up their grade and receive a written slip from the teacher or teachers of their passing work. If, after the probationary period, they do not have a GPA of at least 2.0, they shall not be allowed to take part in any extracurricular or co-curricular activity until they have a GPA of at least 2.0.

### Extracurricular or Co-curricular Activity Suspension

The Board believes that the safety and welfare of other students may be adversely affected when students who are involved in extracurricular or co-curricular activities commit major infractions or repeated minor infractions at school or during school activities, and/or are involved in criminal conduct or drug use in any location.

At the beginning of each semester, teachers or coaches of co-curricular courses will identify for students how participation in the co-curricular activity impacts their course grade. Co-curricular students who are suspended as a result of this policy will have their co-curricular course grade affected only if the reason for the suspension was related to course work or course expectations. Students who miss a co-curricular activity because of a suspension may ask to do, or be required to do, alternative assignments or special projects to make up the missed activity.

1. **Activity Suspension as a Result of a School Suspension:** A student will be immediately suspended from all extracurricular and co-curricular activities when he or she receives a suspension from school, not including an in-school detention, for any reason.

Consequences:

- A. The activity suspension is automatic, is for the duration of the school suspension, and runs concurrent with the school suspension; and
  - B. This type of activity suspension cannot be appealed.
2. **Activity Suspension for Repeated Minor Infractions or a Major Infraction During an Activity:** A student may be suspended from an extracurricular or co-curricular activity when he or she commits a third minor infraction, or a major infraction, while engaged in an extracurricular or co-curricular activity on any school premises or at any school-sponsored activity, regardless of location. The coach or advisor will recommend suspension to the Principal.

Consequences:

- A. The incident will be reviewed pursuant to the Informal Hearing Process at Section 5 of this policy;
- B. If the evidence supports the recommendation, the student may be given an activity suspension for a period of time up to and including the remainder of the season or duration of the activity in that school year for that activity only; and

- C. If the activity suspension exceeds nine school days, the parent/guardian may request an appeal as outlined in the Appeal Process at Section 7 of this policy.
3. **Activity Suspension for Criminal Conduct or Drug Use in Any Location During the Scholastic Year:** A student may be suspended from extracurricular and co-curricular activities when he or she has been arrested or it reasonably appears to the District that he or she has violated criminal law, other than infractions or minor traffic violations; or has been involved with drug paraphernalia, controlled substances, or drugs, including alcohol or tobacco, in any location, either on or off campus, during the scholastic year, in any of the following ways: attempting to secure or purchase; using, or having reasonable suspicion of having used; possession; intending or attempting to sell or distribute; selling or giving away; or being knowingly present when any of the above are used, possessed, or consumed.

Consequences:

A. Knowingly Present

- I. First Violation: When a student violates the “knowingly present” prohibition of this policy for the first time during a scholastic year, the school resource officer (“SRO”), principal, or athletic director:
  - a. Will hold a conference with the student;
  - b. Will notify the student’s parent/guardian and the student of the violation;
  - c. May arrange a conference with the parent/guardian and the student; and
  - d. Will inform the student and parent/guardian of consequences for future violations of the policy.
- II. Second Violation: When a student violates this “knowingly present” prohibition of this policy for the second time during a scholastic year, he or she is subject to the consequences outlined below in part 3.B “Other Violations” of the policy.

B. Other Violations

- I. The incident will be reviewed pursuant to the Informal Hearing Process in Section 5 of this policy. If the evidence supports the accusation, the student may be suspended from all extracurricular and co-curricular events for a period of 21 calendar days.
- II. The suspension will be reduced to a 14 calendar day period if:
  - a. In the case of criminal conduct, the student receives counseling which has been approved by a school counselor; or
  - b. In the case of drug, alcohol, or tobacco use, the student agrees to and completes
    - i. A drug/alcohol/tobacco assessment provided by the school (no cost) or the community (the family incurs the cost); and/or
    - ii. A drug/alcohol/tobacco education group, provided or facilitated by the school, and/or the community.
- III. If no event is scheduled during the period of the suspension, the student will be withheld from the next scheduled event.
- IV. If the student notifies school personnel (self-reports) concerning his or her criminal conduct or drug use prior to the personnel’s knowledge of the

incident(s), the principal or athletic director may reduce the length of the activity suspension.

- V. On the occasion of a subsequent infraction during a scholastic year, and if the evidence supports the accusation, the principal or athletic director will bar the student from any form of extracurricular or co-curricular activity for the balance of the scholastic year.
  - VI. All students who receive an activity suspension for criminal conduct or drug use shall be reported to the Superintendent or designee and, if applicable, to the appropriate law enforcement agency.
  - VII. The parent/guardian may request an appeal as outlined in the Appeal Process at Section 7 of this policy, with either a first or second offense.
4. **Infractions Which Occur in Out-of-School Trips:** During an out-of-school trip, if the authorized person in charge of the activity determines that a student should be sent home early because of criminal conduct, drug use, or a major infraction, the authorized person will notify the parent/guardian, and ask him or her to take charge of the return of the student. The parent/guardian will assume any expenses incurred for the return of the student.
5. **Informal Hearing Process:** Prior to giving an activity suspension to a student, the principal or athletic director shall grant the student an informal hearing on the reasons for the activity suspension and the opportunity to challenge those reasons unless an emergency activity suspension is necessary. If an emergency activity suspension is necessary, an informal hearing will be held as soon as possible after the emergency ceases to exist.
6. **Student travel to or from an extracurricular or co-curricular activity:** Unless other travel arrangements are authorized, students will board the bus at the school designated as point of origin for the trip and will return to the point of origin in the bus. There will be no stops along the designated route to pick up or discharge students.

The only variation allowed in this regulation is the release of students to parents in a face-to-face situation at the close of the activity before buses begin the return trip. Such release will require a signed, dated note from the parent.

The activity must provide at least one instructor, coach, or adult sponsor for each bus on a special trip. The bus driver will be responsible for the safe operation of the bus. The sponsor will be responsible for supervision of students and enforcement of bus rules. Any adult designated by the principal as a sponsor will have such authority.

Students must follow all school bus rules with this exception: Food and drink not in glass containers will be allowed on the bus with permission of the principal. However, any debris must be cleaned up at the end of the trip and before students leave the bus.

If a student causes a disruption or hazard on the bus, a hearing will be held with the principal, driver, instructor, coach, adult sponsor, parent/guardian, and student. The driver, instructor/coach/adult sponsor, parent/guardian, and the student will have the opportunity to share with the principal their perceptions of the problem. If the principal finds that there has been an infraction of bus rules, he will take the following action:

- A. On the first infraction, the student will be warned that following any further infraction he or she will be declared ineligible for transportation to the extracurricular or co-curricular activities for one event;

- B. On the second infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activity for two events; and
- C. On the third infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activities for the remainder of the semester.

Based on the severity of the problem as it relates to respect and safety for others, the principal may bypass step #1 and/or step #2 above and immediately declare the student ineligible for transportation for two weeks or for the remainder of the semester.

#### 7. Appeal Process:

- A. This appeal process may be used by students and their parent/guardian only in those instances where an activity suspension or transportation to extracurricular or co-curricular activities exceeds nine school days.
  - B. The parent/guardian must request an appeal in writing within two school days from the notification of the activity suspension decision.
  - C. The Superintendent will appoint a three member panel composed of certificated staff members who have not been involved in the disciplinary action in question. The hearing panel will notify the student and the parent/guardian of the date, location, and time of the hearing; the student will have an opportunity to present additional evidence regarding the circumstances of the suspension or reasons to reduce the length thereof. The appeal must be scheduled within five school days of the request.
  - D. If the panel determines that the evidence reviewed at the appeal supports the suspension, the suspension of the student from extracurricular and/or co-curricular activities shall be continued.
  - E. The student and the parent/guardian will be notified in writing of the panel's findings and determination with respect to the student suspension from extracurricular and/or co-curricular activities within two school days of the panel's decision.
  - F. The panel's determination is final, and is not appealable to the Superintendent or Board of Trustees.
8. Elementary Students: Students in kindergarten through sixth grade who are in violation of this policy may have the length of the activity suspension reduced by the principal or other authorized administrator.

#### **Description**

District Trustees - Governance of Schools

The District has a strong commitment to the health, safety, and welfare of its students. Results of studies throughout the United States indicate that education alone, as a preventive measure, is not effective in combating substance abuse. Our commitment to maintaining the extracurricular activities in the District as a safe and secure educational environment requires a clear policy and supportive programs relating to detection, treatment, and prevention of substance abuse by students involved in extracurricular activities.

If a student athlete is reasonably suspected of using drugs or alcohol during school hours or at school sponsored activities, the District's policy on student drug and alcohol use will be followed.

### Purpose

The drug-testing program is not intended to be disciplinary or punitive in nature, nor is it intended to result in any academic penalty. Students involved in extracurricular activities need to be exemplary in the eyes of the community and other students. It is the purpose of this program to prevent students from participating in extracurricular activities while they have drug residues in their bodies, and it is the purpose of this program to educate, help, and direct students away from drug and alcohol abuse and toward a healthy and drug-free participation. No student shall be expelled or suspended from school as a result of any verified positive test conducted by his or her school under this program, other than as stated herein.

### Scope

Participation in extracurricular activities is a privilege. This policy applies to all District students in grades 7-12 who wish to participate in extracurricular activities that are listed in the current student handbook and any other school-sponsored extracurricular activities not listed.

### Consent Form

It is mandatory that each student who participates in extracurricular activities sign and return the Consent Form prior to participation in any extracurricular activity. Failure to comply will result in non-participation.

Each extracurricular participant shall be provided with the Consent Form (3350F), which shall be dated and signed by the participant and by the parent/guardian. In so doing, the student is agreeing to participate in the random drug-testing program at their high school.

If a student athlete or their parent/guardian refuses to sign the consent form, or the student refuses to submit to testing, they will not be allowed to participate in the sport until a consent form is signed and, in the case of refusal to submit to testing, a urine sample is obtained

## Testing Procedures

1. The selection of participants to be tested will be done randomly by the principal or administrative designee, and selections will be made each month throughout the school year. The building principal or designee shall take all reasonable steps to assure the integrity, confidentiality, and random nature of the selection process. This may include, but is not limited to ensuring:
  - A. The names of all participating student athletes are in the pool;
  - B. The person drawing names has no way of knowingly choosing or failing to choose particular students for the testing; and
  - C. The identity of students drawn for testing is not known to those involved in the selection process.

Names will be drawn from one large pool of those agreeing to be tested.

Testing may occur on a different day, Monday through Saturday. This variable schedule will keep students conscious of the possibility of being tested at any time during the year. Each student will be assigned a number that will be placed in the drawing.

2. If the student shows signs of reasonable suspicion, the principal or administrative designee may call the student's parent/guardian and ask that the student be tested. Factors will include, but are not limited to, excessive discipline problems and/or excessive absences from school. Also, a parent/guardian may request testing of his or her student.
3. No student will be given advance notice or early warning of the testing. In addition, a strict chain of custody will be enforced to eliminate invalid tests or outside influences.
4. Upon being selected for a urinalysis test under this policy, either by random draw, reasonable suspicion, request of a parent/guardian, or a follow-up test, a student will be required to provide a sample of fresh urine, according to the quality control standards and policy of the laboratory conducting the urinalysis.
5. All students will remain under school supervision until they have produced an adequate urine specimen. If unable to produce a specimen, the student will be given up to 24 ounces of fluid. If still unable to produce a specimen within two hours, the student will be taken to the principal's office and told he or she is no longer eligible for any of the extracurricular activities. In addition, the parents/guardian will be telephoned and informed the student is unable to produce a sample for the testing procedure and that he or she may be tested at a later date to be reinstated for eligibility.
6. There is a head strip on each of the specimen bottles indicating the validity of the urine specimen by temperature. All specimens registering below 90.5 degrees Fahrenheit will be invalid. If this occurs, another specimen must be given by the student.
7. If it is proven that tampering or cheating has occurred during the collection, the student will become ineligible for all the extracurricular activities for the remainder of the school year. This will be reported to the parent/guardian.
8. Immediately after the specimen is taken, the student may return to class with an admit slip or pass with the time he or she left the collection site. The principal or administrative designee must note the time and sign the pass.

9. The specimens will then be turned over to the testing laboratory, and each specimen will be tested for alcohol, nicotine, and street drugs (which may include all drugs listed as controlled substances under the laws of the State of Idaho). Also, performance enhancing drugs such as steroids may be tested.
10. The laboratory selected must follow the standards set by the Department of Health and Human Services. It must be certified under the auspices of the Clinical Laboratory Improvement Act (CLIA) and the Joint Commission of Accreditation of Healthcare Organizations (JCAHO).

### Chain of Custody

1. Samples will be collected at a mutually convenient time on the same day the student is selected for testing. If the student is absent on that day, testing will be done on the first day of the student's return to school.
2. The drug test will test for one or more illegal drugs and will not test for any other physical condition.
3. The certified laboratory will provide training and direction to those who supervise the testing program, set up the collection environment, and guarantee specimens and supervise the chain-of-custody. To maintain anonymity, the student's number, not name, will be used.
4. The principal or administrative designee will be responsible for escorting students to the collection site. The student should bring all materials with him or her to the collection site and should not be allowed to go to his or her locker. The administrator should not bring all the students drawn from the pool to the collection site simultaneously. Calling four or five students at a time allows the collections to be carried out quickly and will not cause students to wait a long time, thereby creating a loss of important time from class. Athletes may be called after school, including during practice time.]
5. Before the student's urine is tested by the laboratory, students will agree to fill out, sign, and date any form which may be required by the testing laboratory. If a student chooses, he or she may notify the administrator that he or she is taking a prescription medication.
6. A sanitized kit containing a specimen bottle will be given to each student. The bottle will remain in the student's possession until a seal is placed upon the bottle. The student will sign that the specimen has been sealed. The seal may be broken only by the lab testing the specimen.
7. If the seal is tampered with or broken after leaving the student's possession and prior to arriving at the lab, the specimen is invalid. The student will be called again as soon as possible. The student will remain eligible for extracurricular activities subsequent to a retest.
8. The supervisor obtaining the urine specimen will be of the same gender as the student. Students will be instructed to remove all coats and wash their hands in the presence of the supervisor prior to entering the restroom. The door will be closed so that the student is by him or herself in the restroom to provide a urine specimen. The supervisor will wait outside the restroom. The student will have two minutes to produce a urine specimen. The commode will contain a blue dye so the water cannot be used to dilute the sample. The faucets in the restrooms will be shut off.
9. After it has been sealed, the specimen will be transported to the testing laboratory by lab personnel. The testing laboratory will report the results to the principal or administrative designee.

10. In order to maintain confidentiality, the container which contains the urine specimen to be tested will not have the name of the student on the container. Instead, the student's random identification number will appear on the container. Also, the results sheet for the urinalysis will be mailed to the principal/administrative designee with no name attached; only the student's random identification number will appear on the results sheet.

### Test Results

1. This program seeks to provide needed help for students who have a verified positive test. The students' health, welfare, and safety will be the reason for preventing students from participation in extracurricular activities.
2. The principal or administrative designee will be notified of a student testing positive (if the test shows that drug residues are in the student's system after using at least two different types of analyses). The principal or administrative designee will notify the student and his or her parent/guardian. The student or his or her parent/guardian may submit any documented prescription, explanation, or information that will be considered in determining whether a positive test has been satisfactorily explained.
3. In addition, the student or parent/guardian may appeal by requesting that the urine specimen be tested again by the certified laboratory at a cost to the student or his or her parent/guardian.
4. If the test is verified positive, the principal or administrative designee will meet with the student and his or her parent/guardian at the school. The student and parent/guardian will be given the names of counseling and assistance agencies that the family may want to contact for help. The student will be prevented from participating in extracurricular activities until after a follow-up test is requested by the principal/administrative designee and the results are reported.
  - A. A first positive test may result in suspension from extracurricular activities for the remainder of the sport season or other action as deemed appropriate by the building principal.
  - B. A second or subsequent positive test may result in suspension from extracurricular activities for the remainder of the school year or other action as deemed appropriate by the building principal.
5. A follow-up test will be requested by the principal/administrative designee after such an interval of time that the substance previously found would normally have been eliminated from the body. If this follow-up test is negative, the student will be allowed to resume extracurricular activities. If a second positive result is obtained from the follow-up test or any later test of that participant, the same previous procedure shall be followed. In addition, the District reserves the right to continue testing, at any time during the remaining school year, any participating student who tested positive and did not make satisfactory explanation.
6. Information on a verified positive test result will be shared on a need-to-know basis with the student's coach or sponsor. The results of negative tests will be kept confidential to protect the identity of all students being tested.
7. Drug testing result sheets will be returned to the principal or administrative designee, identifying students by number and not by name. Names of students tested will not be kept in open files or on any computer. Result sheets will be locked and secured in a location to which only the principal and/or administrative designee has access.

## Financial Responsibility

1. Under this policy, the District will pay for all initial random drug tests, all initial reasonable suspicion drug tests, and all initial follow-up drug tests. Once a student has a verified positive test result and has subsequently tested negative from a follow-up test, any future follow-up drug test that must be conducted will be paid for by the student or his or her parent/guardian.
2. A request on appeal for another test of a positive urine specimen is the financial responsibility of the student or his or her parent/guardian.
3. Counseling and subsequent treatment by non-school agencies are the financial responsibility of the student or his or her parent/guardian.

## Confidentiality

Under this drug-testing program, any staff, coach, or sponsor of the District who may have knowledge of the results of a drug test will not divulge to anyone the results of the test or the disposition of the student involved, other than in the case of a legal subpoena being made upon that person in the course of a legal investigation. Once again, this will underscore the District's commitment to confidentiality with regard to the program.

## Other Rules

Apart from this drug-testing program, the Idaho High School Activities Association and the coaching staff/sponsor of each sport/activity have their own training rules and requirements. Coaches/sponsors have the necessary authority to enforce those rules. Any student who violates a rule or requirement as a member of a team or activity will be subject to the consequences as defined in those rules and requirements.

[Guidelines for Food and Beverage Sales](#)

The Minidoka County School Board recognizes that some student groups may choose to conduct fundraisers to help defray the costs of participation by students. The Board is also concerned about the impact that fundraising can have on local businesses and the community in general.

The Board acknowledges that the solicitations of funds from students, staff, and citizens must be limited since students are a captive audience and since solicitation can disrupt the program of the schools. Solicitation and collection of money by students for any purpose, including the collection of money by students in exchange for tickets, papers, magazine subscriptions, or for any other goods or services for the benefit of an approved school organization, may be permitted by the Superintendent or their designee provided that the instructional program is not adversely affected.

All fundraising must be approved in advance in general by the Board and in detail by the Superintendent or their designee. The student group advisor or coach should receive written approval in advance from the Superintendent or designee for each different fund raising activity.

For District-sponsored clubs or activities, the fundraiser goal amounts for the year should be presented to the Board with proposed uses for the funds identified. The Board requests an annual report identifying any expenditures that were not outlined in the initially proposed uses approved by the Board.

When a District-sponsored student group chooses to assess a dollar amount per participating student, that total amount must be approved by the Board. This total amount is to include ALL fundraising and parent contributions. Once the total is achieved, fundraising and solicitations shall cease.

If the fundraising limit for a student group has been reached and a special unforeseen event becomes available, additional fundraising activities may be approved by the Board, but approval must be given prior to the fundraising taking place.

The Board reserves the right to deny any proposed fundraising proposal.

**Board Policy 3440: Student Fees, Fines, and Charges/Return of Property**

**Status:**

Original Adopted Date: | Last Revised Date: | Last Reviewed Date:

[RECOMMENDED POLICY: This item addresses practices districts are required to comply with by law, administrative rule, or other guidance, or which are strongly recommended by one of the attorneys we consult on policy matters.]

The District shall charge no fee for any course for which academic credit is awarded.

A student may be charged a reasonable fee for any non-credit course or non-curricular activity such as an extracurricular activity, student activity, or membership in a voluntary club or association. The Board may waive the fee in cases of financial hardship.

Additional fees may be charged for “enhanced programming and materials” which are voluntary enrichments to the curriculum beyond what is necessary to meet the learning expectations for a particular grade or course (i.e. students may wish to use a superior product or consumable than that provided by the school, in which case they may be asked to pay the additional cost of the upgrade). This includes online enrollment when solely a matter of preference.

A student shall be responsible for the cost of replacing materials or property lost or damaged due to negligence. If school property in a student’s possession is lost, broken, or otherwise damaged, the student may be charged the lesser of the fair market value of the item at the time or the cost of repair.

The District may require, as condition of graduation or issuance of a diploma or certificate that all lawful indebtedness incurred by a student be satisfied and/or that all books or other instructional materials, uniforms, athletic equipment, advances on loans or other personal property of the District be returned.

Students are permitted to park on school premises as a matter of privilege, not of right. Patrols and inspections may be conducted without notice, without student consent, and without a search warrant. Students are required to unlock vehicles for reasonable inspection when instructed to do so by an administrator. Failure to cooperate may result in the loss of permission to drive a vehicle onto campus, in-school suspension, or short-term suspension from school. In cases involving drugs, alcohol, or firearms the local sheriff or police may be called.

Students will be permitted to park their vehicle in the school parking lot provided they have:

1. A current vehicle insurance policy;
2. A driver's license; and
3. Vehicle registration.

Additional parking requirements include:

1. Students must complete the Student Vehicle Parking Form prior to parking on school grounds;
2. Automobiles are restricted to parking in spaces marked for parking. All automobiles inappropriately parked are subject to being towed without additional warning and at owner's expense;
3. The Minidoka County Joint School District assumes no responsibility for automobiles left in the lot overnight;
4. The Minidoka County Joint School District is not responsible for theft or damage to automobiles parked in the student parking lot;
5. The student parking lot is off limits during normal class time, except when the student has written permission from an administrator; and
6. Students are prohibited from loitering in the parking lot. Students must enter the building immediately upon arrival.

Any violation of this policy shall result in the following:

1. First Offense: Conference between the administration and student.
2. Second Offense: Conference between the administration, parent/guardian, and student.
3. Third Offense: Loss of right to drive and park on campus.

## **Board Policy 3460: School-Related Foreign and Extended Travel by Students**

**Status:**

**Original Adopted Date: | Last Revised Date: | Last Reviewed Date:**

The Board of Trustees of Minidoka County Joint School District is committed to the concept of participating in activities that will positively impact students. As such, activities, field trips and other excursions, which are designed to leave the state, should be carefully reviewed to determine that the educational value justifies the trip and its expenses.

The Board is also committed to the concept of participating in activities that will positively impact the economic base of the State of Idaho and the Minidoka County area. As such, activities, field trips and other excursions, which are designed to leave the state, should be carefully reviewed to determine that the educational value justifies the trip and its expenses.

Extended school-related trips, within and outside the US, are allowed by the Minidoka County Joint School District when the experiences are an integral part of the school curriculum and contribute to the District's desired educational goals. School-related travel is intended to allow students experiences that provide them with insight, information, or knowledge that cannot be adequately developed through regular classroom experience.

Such travel shall be solely optional and by the choice of the student and their family. No such travel shall be related to any assignment, course work, or credit.

When contemplating approval of foreign travel by students, the Superintendent and the Board shall take into account any travel warnings or cautions of the U.S. Department of State. The Superintendent shall seek advice concerning foreign travel from the District's legal counsel and insurance carrier.

School-related travel supplements regular instructional programs and affords students opportunities for enrichment. However, participation in school-related travel is a privilege, not a right. As representatives of their school and District, students participating in such activities are expected to meet high standards of behavior.

### Trip Plan Submission/Proposal

All student activities involving travel shall require authorization from the Superintendent or the Superintendent's designee. Each trip's authorization shall be based on the written rationale of the travel's educational value as well as the safety and welfare of the students involved.

Requests for trips must be submitted to the building principal no later than eight weeks in advance of the trip. The building principal will confer with the Superintendent prior to presenting the request to the Board.

Trips should be scheduled as much as possible during non-school hours and days, such as spring or summer break, so that absences from other instructional programs are kept to a minimum.

The teacher(s) responsible for the trip shall submit a list of participants to the school nurse so that

provisions for any special medical problems and/or precautions can be provided.

Advertising, for school approved travel by students, including the distribution of materials, will not be allowed during the school day. Planning and promotion of private, non-sponsored trips shall not be conducted in any school classroom or via any official or employee school email or social media.

Private groups and organizations may not use the District in any way to promote their activities.

The Superintendent will develop procedures for trips, including the approval process, and procedures to be used in case of accident, illness, and student conduct violations. Any travel further than 300 miles from Rupert, Idaho must receive prior approval of the Board of Trustees and must be submitted on a current travel request form. The Board reserves the right to decide the final approval or denial of all travel requests.

The teacher or advisor of the activity shall be responsible for ensuring proposal is completed in detail and submitted for inclusion at a regular board meeting. It must be submitted at least ten days in advance of the board meeting date.

The trip proposal must be in writing and contain the following elements:

1. Identify the purpose of the trip and an outline of anticipated educational experiences and/or course of study to be followed;
2. An itinerary of destinations;
3. Detailed travel and lodging information;
4. Identify the names and phone numbers of students and chaperones attending the trip;
5. Identify and plan for any special medical needs of students and chaperones attending the trip;
6. Identify adequate liability insurance to protect the District, Board members, chaperones, teachers and students;
7. Submit an itemized statement of costs, including transportation, meals, and accommodations; and
8. Submit an itemized statement of costs as appropriate to the school-sponsored trip, such as passport and visa expenses, costs of a personal nature, and optional trip insurance.

Expenses for club trips shall be the responsibility of the club, and expenses for such trips should come from the club requesting to travel.

Proposals for athletic trips out of more than 300 miles from Rupert must also include a rationale justifying the expenditure of time, energy, and funds required for the travel.

District buses will be used for student travel unless other arrangements are approved by the Superintendent or District travel coordinator. Students shall not be transported by coaches, advisors or other staff in private vehicles.

The Superintendent may enforce restrictions regarding the date, length of time, and the chaperone/student ratio as a condition of approval.

Students participating in the trip during school hours are permitted and expected to make up any school work missed. The student's absence shall be recorded as "excused." The total number of school days missed due to the trip must be included in the written proposal.

A plan must be developed for the administration of medication for any student requiring such assistance.

The proposal must include the names and numbers of chaperones, including both male and female chaperones if the proposal is for a mixed group of students.

In developing the proposal for the extended trip, the trip organizer will perform the following duties:

1. Hold at least one pre-trip meeting with students and parents/guardians;
2. Provide the Superintendent, students, parents/guardians, and chaperones with detailed written information about the trip and all activities;
3. Provide detailed information on the responsibilities and rules for the students and chaperones, including discussing District policy regarding student conduct during the trip;
4. Discuss District policy regarding student conduct while on school-sponsored activities;
5. Establish a reasonable curfew and enforce strict compliance with this curfew. Chaperones will be required to perform periodic checks to ensure that students are following the curfew requirements;
6. Perform periodic checks to ensure strict compliance with all school rules and policies;
7. Refrain from using tobacco and consuming alcoholic beverages or drugs while on the extended trip; and
8. Organize recreational and educational activities for students during leisure time to maximize the learning and social benefits of the trip.

### Pre-Trip Meetings

Pre-trip meetings involving students and their parents, as appropriate, shall be scheduled to assure that all plans are clearly understood. Pre-trip meetings shall not occur until approval from the Superintendent has been received.

### Chaperones

Trip chaperones must include at least one certified staff member from the school sponsoring the trip. Depending on the number of students involved, additional certified staff and/or parents/guardians of students going on the trip may be necessary. Chaperones shall be selected by the trip teacher/advisor. Chaperones are under the supervision of the trip teacher/advisor.

Chaperones must have an approved volunteer application on file before the planned event.

A student will be permitted to stay in the same sleeping room with a chaperone only if the chaperone is a member of the student's family. Students whose parents/guardians are not serving as chaperones will share rooms with same-sex students only.

Chaperones will agree to the following duties:

1. Supervise and be responsible for students during the entirety of the trip;
2. Ensure that students follow all legal and school requirements;
3. Establish a procedure for room checks and monitor compliance; and
4. In all ways model the behaviors expected of District students.

Any adult convicted of any sex or drug related offenses may not serve as a chaperone. The District reserves the right to request background checks on chaperones.

The safety, protection, and supervision of District students are the sole purposes for adult chaperones accompanying District students on trips. Those who agree to serve as chaperones must understand and follow the established rules and policies.

The certified staff member serving as the trip organizer will carry a roster of students who are on the trip along with emergency information on each student.

Children who are not a part of the group participating in the trip may not accompany parents when the parents serve as chaperones.

Factors such as the age of the students, type of activity, distance, and destination will dictate what constitutes adequate supervision. At least two adults should accompany every trip. Any exceptions must be approved by the Superintendent or District travel coordinator

Groups with both male and female participants must have supervision of at least one male and one female adult.

### Student Conduct

Students participating in the trip will be subject to all codes of conduct in District policy. Violations will result in appropriate disciplinary action.

Students and their parent/guardian are expected to be knowledgeable about the District's policy on student conduct. Trips are considered an extension of the classroom and all rules and policy pertaining to a school-sponsored activity must be followed.

Students and their parent/guardian will read and sign a code of conduct. The code of conduct will be prepared by the Superintendent and will be reviewed during the pre-trip meetings. Students who violate any school policy during an extended trip may be disciplined, including, but not limited to, being sent home at the parent/guardian's expense.

### Permission

All students must return a permission slip for the trip, signed by a parent/guardian, before they will be allowed to participate in the trip.

The teacher/advisor shall keep a copy of these forms with them during the trip in case of medical emergencies or any incidents requiring parent contact

### Long Distance Travel

Any trip of at least 300 miles from Rupert, Idaho should be scheduled to minimize student days out of school to the extent possible.

Such travel should generally be via air travel. Exceptions must be approved by the Superintendent or District travel coordinator and will only be considered if travel is on a commercial bus or to a destination within the State of Idaho

### Fundraising

Fundraising drives may be allowed to defray costs, however, all fundraisers must be pre-approved by the building principal.

Credit shall not be granted for any school-related travel for which a fee is charged to parents/guardians or students. Such travel shall also not be necessary for any required assignment or coursework.

### Responsibilities

The responsibilities of the principal or Superintendent include:

1. Obtaining and retaining on file written parental permission for students who are under the age of 18;
2. Signing any contractual agreement with a public carrier or any other service provider;
3. Assuring that all plans and arrangements are provided to and understood by the students and their parents; and
4. Setting student and chaperone conduct rules.

The responsibilities of the trip organizer include:

1. Communicating conduct rules of students and chaperones to parents/guardians, students, and chaperones. Setting behavior expectations for students and chaperones;
2. Carrying a list of the names of students and chaperones participating and their emergency information, and submitting a copy of the list to the building principal prior to the trip;
3. Notifying the building principal of any emergency situation, such as an accident involving student(s), a student missing from the group, etc.; and
4. Identifying and providing to parents/guardians an emergency plan.

The responsibilities of the students participating in the travel include:

1. Being knowledgeable about the rules governing student conduct. Student travel is considered an extension of the classroom and all rules pertaining to a school-sponsored activity must be followed.
2. Read and sign the standard code of conduct to be reviewed during the pre-trip meetings.

Students who violate any school policy during a school-sponsored trip are subject to disciplinary action including, but not limited to, being sent home at the parent/guardian's expense.

### Cancellation of Trips

Cancellation of trips may occur due to weather, safety, world events, or local school need. Trips will be cancelled only when appropriate school authorities believe it is reasonably cautious and prudent to do so in order to ensure the safety of students and staff or to ensure the effective operation of the local school. In such cases, every effort will be made to provide as much advance notice as possible.

The District is not responsible for financial losses to students and parents due to cancellation of trips.

The authority to cancel trips rests with the Superintendent or the Superintendent's designee.

### Report of Trip Conclusion

Following the trip, the trip organizer shall prepare and present a summary and evaluation of the trip to the Superintendent and building principal. The Board may request a summary and evaluation be presented to the Board.

## **Board Policy 3500: Student Health/Physical Screenings/Examinations Status:**

**Original Adopted Date: | Last Revised Date: | Last Reviewed Date:**

The Board may arrange each year for health services to be provided to all students. At the start of the school year, each District school shall notify parent/guardians of health services offered or made available through the school or by private organizations partnering with the District that offer services on school property or as a part of a school program. Parents/guardians shall be notified of any new health services that become available after the annual notice is sent.

Such services may include, but are not limited to:

1. The development of procedures at each building for the isolation and temporary care of students who become ill during the school day;
2. The consulting services of a qualified specialist for staff, students, and parents;
3. Vision and hearing screening;
4. Scoliosis screening; and
5. Immunization as provided by the Department of Health and Human Services.

Parents/guardians will receive a written notice of any screening result which indicates a condition that might interfere or tend to interfere with a student's progress. Additionally, if a member of the District's staff becomes aware of a change in the student's mental, emotional, or physical health or well-being, the staff member shall address the matter as described in Policy 2425.

The District will not furnish health care services or solicit to furnish health care services to a student without parent/guardian consent to do so or by court order, unless a medical emergency exists and:

1. Furnishing the health care service is necessary to prevent death or imminent, irreparable physical injury; or
2. The health care provider can't contact the parent/guardian despite a reasonably diligent effort and the minor child's life or health would be seriously endangered by further delay in the furnishing of health care services.

Parents/guardians may be given the option to provide blanket consent to the District furnishing health care services or soliciting to furnish health care services to a student.

If a parent/guardian declines to consent to a health care service for their student, the staff member responsible for seeking such consent shall document their efforts to contact the parent/guardian to obtain their consent and shall also document the parent/guardian's refusal of such consent or failure to respond. If such health service was offered because the student is suspected of having a health problem, the parent/guardian will be notified of this suspicion according to Procedure 2425P Parent Rights – Parent/Guardian Notification of Changes in Student Health and Well-being.

Further, parents will be notified of the specific or approximate dates during the school year when any non-emergency, invasive physical examination or screening administered by the District is conducted which is:

1. Required as a condition of attendance;

2. Administered by the school and scheduled by the school in advance; and
3. Not necessary to protect the immediate health and safety of the student or other students.

As used in this policy, the term “invasive physical examination” means any medical examination involving the exposure of private body parts or any act during such examination that includes incision, insertion, or injection into the body, but this does not include a hearing, vision, or scoliosis screening.

Students who wish to participate in certain extracurricular activities may be required to submit to a physical examination to verify their ability to participate in the activity. Students participating in activities governed by the Idaho High School Activities Association will be required to follow the rules of that organization, as well as other applicable District policies, rules, and regulations. All parents will be notified of the requirements of the District’s policy on physical examinations and screening of students, at least annually at the beginning of the school year and within a reasonable period of time after any substantive change in the policy.

Testing for Sexually Transmitted Infections

If the District provides testing for sexually transmitted infections, the District shall also provide information explaining current adoption practices and where to find resources and support in the State of Idaho.

Abortion-Related Counseling and Referrals Prohibited

All staff are prohibited from providing the following services to any person during working hours or in the course of their work:

1. Providing or performing an abortion;
2. Counseling in favor of abortion;
3. Referring for abortion; or
4. Dispensing emergency contraception, except in the case of rape.

Student Emergency Information

The Board requires that emergency information be collected on student enrollment forms and by any other means deemed directed by the Superintendent.

Many students within the Minidoka County Joint School District #331 participate in extra-curricular activities of a nature whereby physical injury may result. Though the District takes care to ensure all extracurricular activities are as safe as practicable, it is not possible to remove all danger from such activities, and the District acknowledges that concussions may result. The purpose of this policy is to prepare a procedure for addressing situations in which student concussions have occurred, or are suspected to have occurred.

This policy only applies to organized athletic league or sport in which any District middle school, junior high school, or high school student participates as an athlete or youth athlete. For the purposes of this policy, athlete or youth athlete means an individual who is 18 years of age or younger and who is a participant in any middle school, junior high school, or high school athletic league or sport. A school athletic league or sport shall not include participation in a physical education class.

### Pre-Season Education

The administration and coaches will work to ensure that athletes, youth athletes, parents, volunteers, and assistant coaches are educated about concussions. Prior to being allowed to engage or participate in any school athletic league or sport, as discussed above:

1. Each student desiring to participate in such school athletic league or sport, and the student's parents/guardians, shall be provided notice of or copies of any concussion guidelines or information available from the State Department of Education and the Idaho High School Activities Association, and also this policy.
2. Each student desiring to participate in such school athletic league or sport, and the student's parents or guardians, shall acknowledge that they have been provided the guidelines or information available from the State Department of Education and the Idaho High School Activities Association, as well as this this policy, and have had the opportunity to review and have reviewed such information. Further, each student and the student's parents/guardians shall sign an applicable waiver for participating in such school athletic league or sport.
3. The signed waiver and acknowledgment of review of the appropriate information shall be returned to the District.

Athletes will not be allowed to participate in school athletic leagues or sports until the above steps are accomplished.

Coaches, referees, game officials, game judges, and athletic trainers shall review any concussion guidelines or information available from the State Department of Education and the Idaho High School Activities Association and information upon employment and biannually thereafter.

signs or symptoms of a concussion, makes any complaint indicative of a possible concussion, or a coach, assistant coach, volunteer coach, or other School District employee has reason to believe a concussion has occurred, such student shall be removed from play or participation in the practice, game, or competition. According to the Centers for Disease Control and Prevention, and for the purposes of this policy, signs observed by coaching staff which could be indicative of a concussion include if the student:

1. Appears dazed or stunned;
2. Is confused about assignment or position;
3. Forgets an instruction;
4. Is unsure of game, score, or opponent;
5. Moves clumsily;
6. Answers questions slowly;
7. Loses consciousness (even briefly);
8. Shows mood, behavior, or personality changes;
9. Can't recall events prior to the hit or fall; or
10. Can't recall events after the hit or fall.

According to the Centers for Disease Control and Prevention, and for the purposes of this policy, symptoms reported by the athlete which could be indicative of a concussion include:

1. Headache or "pressure" in head;
2. Nausea or vomiting;
3. Balance problems or dizziness;
4. Double or blurry vision;
5. Sensitivity to light;
6. Sensitivity to noise;
7. Feeling sluggish, hazy, foggy, or groggy;
8. Concentration or memory problems;
9. Confusion; or
10. Does not "feel right" or is "feeling down".

Coaches should not try to judge the severity of the injury themselves. Health care professionals have a number of methods that they can use to assess the severity of concussions. Coaches should record the following information, if possible, to help health care professionals in assessing the athlete after the injury:

1. Cause of the injury and force of the hit or blow to the head or body;
2. Was there any loss of consciousness (passed out/knocked out) and if so, for how long;
3. Was there any memory loss immediately following the injury;
4. Were there any seizures immediately following the injury; and
5. The number of previous concussions (if any)

School principals shall ensure that a health record is maintained in for each student.

Such authorization must be in writing, and must be provided to the District prior to the student being returned to play. If the authorization is signed by a licensed health care professional trained in the evaluation and management of concussions, such authorization must also be countersigned by the directing physician.

District Personnel shall not dispense medication except as set forth in this policy.

This policy shall be reviewed annually by the Board of Trustees or their designee.

#### Assistance in Self Administration of Medicines by Students

Any school employee authorized in writing by the school administrator or school principal:

1. May assist in the self-administration of any drug to a pupil provided:
  - A. The student's parent/guardian has consented in writing; and
  - B. The drug may lawfully be sold over the counter without a prescription.

Such administration must be as described in the written instructions provided in accordance with this policy.

2. May assist in the self-administration of a prescription drug to a pupil in compliance with the written instructions of a licensed health care practitioner, if the pupil's parent/guardian consents in writing.

#### Administering Medicines to Students

No employee except a qualified health care professional may administer a drug or prescription drug to a pupil under this policy except in an emergency situation.

The Board will permit the administration of medication to students in District schools. Pursuant to the written authorization of the student's licensed health care practitioner, as well as the written authorization of a parent/guardian, the school nurse (who has received direction as to the administration of medication by the student's licensed health care practitioner) may administer medication to any student in the school.

Where administration of medication is a routine activity for a particular student, the subject shall be addressed in a student's health care plan, Section 504 Plan, or IEP as applicable.

A parent must fill out the necessary forms for a student to receive routine medication at school. Medication will be given at the time specified on the completed medication administration form.

Diagnosis and treatment of illness and the prescribing of drugs are never the responsibility of a school employee and should not be practiced by any school personnel.

The absence of a school nurse for the administration of medication shall be addressed on a case-by-case basis considering compliance with Idaho law and the medical needs of the student.

## Emergency Administration of Medicines

In case of an anaphylactic reaction or the risk of such reaction, or in the case of a seizure, a school nurse or delegate may administer medication to any student in need thereof on the school grounds, in the school building, or at a school function, according to the standing order of the chief medical advisor or the student's private physician.

In the absence of a school nurse, the administrator or designated staff member exempt from the nurse licensure requirements who has completed training in administration of medication, may give emergency medication to students. There must be on record a medically diagnosed allergic condition which would require prompt treatment to protect the student from serious harm or death.

Training on emergency administration of medication, for the administrator or designated staff member, shall be done by the school's nurse or another licensed health care practitioner to ensure such individuals have knowledge of how to administer emergency medication to students. Records shall be retained as to the individuals trained, the identification of the trainer and the date of training activities.]

Record of the medication administered in an emergency will be entered on an Individual Student Medication Record and filed in the student's cumulative health folder.

## Self-Monitoring and Treatment of Diabetes

A student with diabetes, upon written request of the student's parent/guardian and written authorization from the student's treating physician, shall be permitted by the Board to perform blood glucose checks, administer insulin through the insulin delivery system the student uses, treat hypoglycemia and hyperglycemia, and otherwise attend to the care and management of the student's diabetes in the classroom and in any area of the school or school grounds, and to possess on the student's person at all times all necessary supplies and equipment to perform these monitoring and treatment functions.

## Epilepsy and Seizure Disorder Plans

Upon written request of the parent/guardian of a student who has epilepsy or another seizure disorder, the District shall authorize implementation of a plan – whether a Section 504 plan, Health or Emergency Care Plan, or Seizure Disorder Plan, as deemed appropriate for each individual student. The plan will include, but is not limited to, the following:

1. Providing notice of the student's condition to all employees who interact with the student;
2. The student's symptoms;
3. Written orders from the student's physician on providing care to the student;
4. Whether the student may fully participate in exercise and sports and, if applicable, any accommodations required;
5. Accommodations for school-related activities, such as school trips and after-school activities;
6. A description of how medical treatment of the condition may affect the student's education, if applicable;
7. The student's understanding of and ability to manage the epilepsy or seizure disorder.

8. How to maintain communication with the student, parents/guardians, the student's healthcare team, and the school nurse; and
9. A list of qualified staff who may administer emergency medication to the student for a seizure.

The plan may be updated annually and as necessary if there is a change in the health status of the student. The plan must also address the notification to the appropriate staff.

All employees who have received notification that a student they interact with has epilepsy or another seizure disorder will be provided with information about how to recognize indicators for epilepsy and seizure disorder, epilepsy, or seizure disorder first aid, when to call for assistance, and a parent/guardian and emergency contact information for that student. The training shall be provided by the school nurse. The training may be individualized to each student, if necessary.

#### Self-Administration of Asthma Medication, Insulin/Diabetic Treatment, Seizure Disorder Medication, or Epinephrine Auto-Injectors

Pursuant to Idaho Code covering the self-administration of asthma medication, the following shall apply to epinephrine auto-injectors, seizure disorder medication, insulin, or blood glucose monitoring supplies if a parent/legal guardian chooses to have their child self-administer medication:

1. The parents/guardians of the pupil shall provide to the Board or designee written authorization for the self-administration of medication.
2. The parents/guardians of the pupil shall provide to the Board or designee written certification from the student's physician that the student has a severe allergic reaction (anaphylaxis), asthma, another potentially life-threatening respiratory illness, epilepsy or another seizure disorder, or diabetes and is capable of, and has been instructed in, the proper method of self-administration of medication. In cases where the pupil has severe or life-threatening allergies, Policy 3515 Food Allergy Management, and any related procedures shall be followed. For students with a severe allergic reaction, asthma, another potentially life-threatening respiratory illness, seizure disorder, or diabetes the student's physician or health care provider-supplied information shall contain:
  - A. The name and purpose of the medicine;
  - B. The prescribed dosage;
  - C. The time(s) at which or the special circumstances under which medication should be administered;
  - D. The length of time for which medication is prescribed;
  - E. The possible side-effects of the medicine;
  - F. Actions to take in the event of an emergency, including if the medication does not improve the child's breathing or allergic reaction;
  - G. Contact information for the physician and parent/guardian; and
  - H. If applicable, a list of the child's asthma or seizure triggers or allergies.
3. The school's administration and appropriate teachers and school personnel shall be informed that the student is self-administering prescribed medication. Such notification shall be done in a manner so as to best preserve the privacy of the student and the student's medical condition to the extent appropriate.

For students with severe or life-threatening allergies this information may be provided in the student's Emergency Care Plan.

## Additional Requirements for Self-Administration of Medicines

The Board or Board designee will inform the parents/guardians of the pupil in writing that the District and its employees or agents shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil, absent any negligence by the District, its employees, or its agents, or as a result of providing all relevant information provided pursuant to subdivisions of this subsection with the school nurse, absent any negligence by the District, its employees, or its agents, or in the absence of such nurse, to the school administrator.

The parents/guardians of the pupil shall sign a statement acknowledging that the District shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil and that the parents/guardians shall indemnify and hold harmless the District and its employees or agents against any claims arising out of the self-administration of medication by the pupil.

Students who are authorized to carry their medication, supplies, or equipment necessary for managing their diabetes, allergies, asthma, or epilepsy or other seizure disorder may be retested periodically to ensure they are still capable of correctly using the medication.

As used in this section:

1. "Medication" means:
  - A. An epinephrine auto-injector;
  - B. A metered dose inhaler or a dry powder inhaler;
  - C. Medication for the treatment of epilepsy or another seizure disorder; and
  - D. Insulin, insulin delivery system and/or supplies or equipment necessary for diabetes monitoring and/or treatment

prescribed by a physician and having an individual label;

2. "Self-administration" means a student's use of medication pursuant to prescription or written direction from a physician; and
3. A student who is permitted to self-administer medication pursuant to this section shall be permitted to possess and use the prescribed medication at all times.

Any school employee authorized in writing by the school administrator or principal may assist with self-administration of medications provided that only the following acts are used:

1. Verbal suggestions, prompting, reminding, gesturing, or providing a written guide for self-administering medications;
2. Handing a prefilled, labeled medication holder, labeled unit dose container, syringe, or original marked, labeled container from the pharmacy to the student;
3. Opening the lid of the above container for the student;
4. Guiding the hand of the student to self-administer the medication;
5. Holding a container of fluid and assisting the student in drinking fluid to assist in the swallowing of oral medications; and/or
6. Assisting with removal of a medication from a container for students with a physical disability which prevents independence in the act.

## Handling and Storage of Medicines

All medications, including those approved for keeping by students for self-administration, must first be delivered by the parent or other responsible adult to the nurse or employee assisting with the self-administration of medication. The nurse or the employee must:

1. Examine any new medication to ensure that it is properly labeled with dates, the name of the student, the medication name, the dosage, and the physician's name;
2. If administration is necessary, the nurse must develop a medication administration plan for the student before any medication is given by school personnel;
3. Record on the Student's Individual Medication Record the date the medication is delivered and the amount of medication received;
4. Store medication requiring refrigeration at 36F - 46F; and
5. Store prescribed medicinal preparations in a securely locked storage compartment excluding those medications approved for self-administration. Controlled substances will be contained in a separate compartment, secured, and locked at all times.

No more than a 45 school day supply of a medication for a student will be stored at the school. All medications, prescription and nonprescription, will be stored in their original containers. Access to all stored medication will be limited to persons authorized to administer medications or assist in the self-administration of medications. Each school will maintain a current list of those persons authorized by delegation from a licensed nurse to administer medications.

## Disposal of Medication

School personnel must either return to the parent/guardian or destroy (with permission of the parent/guardian) any unused, discontinued, or obsolete medication. Medicine which is not repossessed by the parent/guardian within a seven-day period of notification by school authorities will be collected by school personnel and properly disposed of by local law enforcement.

Food-allergic reactions can develop into severe or life-threatening reactions and, even with proper treatment, can be fatal. A student's ability to learn may be drastically altered by their fears of a reaction. The Board will endeavor to provide a safe and healthy environment for students with severe and life-threatening food allergies and to address food allergy management in District schools in order to:

1. Reduce the likelihood of severe or potentially life-threatening allergic reactions;
2. Ensure a rapid and effective response in the case of a severe or potentially life-threatening allergic reaction; and
3. To provide students, through necessary accommodations, the opportunity to participate fully in all school programs and activities, including classroom parties and field trips.

Food allergy management will focus on prevention, education, awareness, communication, and emergency response.

District and school administrators, will endeavor to be knowledgeable about and follow all applicable federal laws, including the Americans with Disabilities Act, Section 504, Individuals with Disabilities Education Act, and the Family Educational Rights and Privacy Act, as well as all State laws and District policies and guidelines that may apply to students with allergies. Administrators or their designees may make all of the appropriate allergy forms available to parents, explain the procedures for completing and returning them, and ensure that all forms and health records submitted by parents and physicians are reviewed by the appropriate personnel. Administrators and school nurses may also meet with parents and listen to their needs and concerns.

When a student has been identified as having food allergies verified by a physician, nurse practitioner, or physician assistant, individual written management plans may be used to determine accommodations to be made on a daily basis to prevent and prepare for an allergic reaction. An emergency care plan may be used to provide direction in the event of a life-threatening allergic reaction at school or at a school event. Key staff members may be trained to use emergency medications and may be notified of the location of those medications at school and at any special function.

The Superintendent or designee, in coordination with the school nurse, school nutrition services staff, and other pertinent staff, may develop administrative regulations to implement this policy, including regulations pertaining to all classrooms and instructional areas, school cafeterias, outdoor activity areas, school buses, field trips, and school activities held before or after the school day.

Administrative regulations may address the following components:

1. Identification of students with food allergies and provision of school health services;
2. Development and implementation of individual written management plans;
3. Medication protocols, including methods of storage, access, and administration;
4. Development of a comprehensive and coordinated approach to creating a healthy school environment;

5. Ensuring that the needs of children with documented allergies are taken into consideration in planning for District programs;
6. Communication and confidentiality;
7. Emergency response;
8. Professional development and training for school personnel;
9. Awareness education for students and parents/guardians;
10. Training for District staff and volunteers; and
11. Policy monitoring and evaluation.

Allergy-related policies, protocols, and plans may be updated annually or after any serious allergic reaction occurs at school or at a school-sponsored activity.

The Superintendent or designee may annually notify students, parents/guardians, staff, and the public about the District's food allergy management policy by publishing such in handbooks and newsletters, on the District's website, through posted notices, or other efficient methods.

Students with allergies will be treated in a way that encourages the student to report possible exposure to allergens and any symptoms of an allergic reaction and to progress toward self-care with his or her food allergy management skills. Allergy-related bullying will not be tolerated.

The parent/guardian is expected to provide an adequate supply of the medication to be dispensed, and to retrieve any unused medication at the end of the school year or at the withdrawal of the student. Medication that is not retrieved by the parent/guardian by the student's last day of attendance during the school year will be disposed of by the District. This disposal will be verified by two people.

**THIS DOCUMENT IS FOR INFORMATIONAL PURPOSES ONLY AND IS NOT INTENDED TO BE ADOPTED AS A POLICY OR PROCEDURE.**

A food allergy is an abnormal, adverse reaction to a food that is triggered by the body’s immune system. It is different from a food intolerance, which does not involve the immune system and is not life-threatening. Allergic food reactions can span a wide range of severity of symptoms. The most severe and potentially life threatening reaction is anaphylaxis. Anaphylaxis refers to a collection of symptoms affecting multiple systems in the body, the most dangerous of which are breathing difficulties and a drop in blood pressure. Eight foods (peanuts, tree nuts, milk, eggs, soy, wheat, fish, and shellfish) account for more than 90% of all food allergies, while peanuts and tree nuts together account for more than 90% of severe and fatal allergic reactions to food. Exposure may occur by eating the food or by food contact. Severe allergic reactions can occur within minutes of ingestion, but a reaction can be delayed for up to two hours. Some reactions are “biphasic” in nature with an initial period of symptoms, then a symptom free period of two to four hours followed by severe shock-like symptoms.

The most commonly prescribed medications for the treatment of anaphylaxis are epinephrine, with brand names that include, but are not limited to, EpiPen®, EpiPen Jr®, and Twinject®. Delaying use of epinephrine during an allergic reaction can be fatal.

If a student has a severe or life-threatening allergy or an allergy that impairs a major life activity their condition may qualify as a disability and may be covered under the Federal Americans with Disability Act (ADA), and Section 504 of the Rehabilitation Act of 1973. The student’s physician usually makes this determination. In some circumstances, the Individuals with Disabilities Education Act may also apply.

While some schools have sought to protect students with life-threatening allergies by banning allergen-containing foods from school grounds, such bans are often controversial and difficult to enforce. In many cases, simply designating and maintaining particular lunchroom tables, desks, classrooms, or other specific areas of a school as allergen-free is sufficient. Allergen management is often easier for students of middle-school age or older, as they are able to take greater responsibility for avoiding allergens.

## Procedure 3515-P(1): Food Allergy Management - Medical Plans of Care

Status:

Original Adopted Date: | Last Reviewed Date:

There are several written documents individualized for a particular student with a severe or life-threatening food allergy which may be used to address the student's needs throughout the school day. These may be developed with input from a core team, which may include the student (if appropriate), the student's parent/guardian, the principal or his or her designee, the student's teacher, the school nurse, the cafeteria manager, the counselor, transportation staff, coaches, and other personnel deemed necessary to make decisions about food allergies. Medical plans of care may include the:

**Emergency Care Plan:** A medical plan of care distributed to all school personnel who have responsibilities for the care of the student. This plan specifically describes how to recognize a food allergy emergency and what to do when signs or symptoms of these conditions are observed. In the event the student reports exposure to a food allergen or shows symptoms of anaphylaxis, he or she may be treated according to the Emergency Care Plan. This plan may be developed from information provided by the student's physician and parent/guardian prior to the student's entry to school, or immediately after the student is diagnosed with a severe allergy. Similar plans may also be developed for staff members with severe allergies.

**Individualized Healthcare Plan:** A medical plan of care that may be developed by the school nurse in collaboration with the student's health care provider and core team to provide written direction for school personnel to follow in accommodating the student's needs throughout the day. It may address conduct and use of allergen-containing products in the classroom, the cafeteria, the library, at recess, on field trips, during extracurricular activities, and in other environments the student will face during the school day or during District-sponsored activities. The plan may describe functional problem areas, set goals for overcoming problems, list tasks or interventions to meet the goals, and identify staff members responsible for implementing the plan. This plan may be developed prior to the student's entry to school or immediately after the student is diagnosed with a severe or life-threatening allergy. Input from the core team may be sought before changes are made to this plan. Similar plans may also be developed for staff members with severe allergies.

If a student's severe or life-threatening allergy is determined to be a disability, it may also be addressed in a Section 504 Service Agreement and/or in the Related Services Component of their Individualized Education Program (IEP).

A complete set of a student's current medical plans of care related to food allergies may be maintained by the school nurse. The Superintendent or building principal may also require that copies of the Emergency Care Plan be kept in other places where they may be needed.

The school nurse may provide information or copies of the different components of a student's medical plans of care to appropriate personnel, including teachers, cafeteria staff, District staff supervising school-sponsored extracurricular activities, and others who may be involved in the implementation of the medical plans of care. Such information may be provided to substitute teachers along with contact information for the school nurse.

## Students with Disabling Special Dietary Needs

When a student's food allergy is identified, evaluated, and determined to be a disabling condition, the District shall make appropriate accommodations, substitutions, or modifications for such students in accordance with the applicable policies relating to students with disabilities.

In such cases, the student may be required to have a written medical statement signed by a licensed physician to be included with the student's Individualized Healthcare Plan. The medical statement may identify:

1. The student's special dietary disability;
2. An explanation of why the disability restricts the student's diet;
3. The major life activity(ies) affected by the disability;
4. The food(s) to be omitted from the student's diet; and
5. The food or choice of foods that must be provided as the substitute.

## Students with Non-Disabling Special Dietary Needs

The District may, at its discretion, make appropriate accommodations, substitutions, or modifications for students who have a special dietary need but who do not meet the definition of disability, such as a food intolerance or allergy that does not cause a reaction that meets the definition of a disability. The decision to accommodate such a student shall be made on a case-by-case basis.

Students who fall under this provision may be required to have a written medical statement signed by a physician, physician assistant, or certified registered nurse practitioner identifying the following:

1. The medical or other special dietary condition which restricts the student's diet;
2. The food(s) to be omitted from the student's diet; and
3. The food or choice of foods to be substituted.

## Allergy Inservice Training

The District may provide periodic training to teachers, aides, volunteers, substitutes, food service personnel, transportation personnel, and others as needed on any of the following topics:

1. Basic information such as signs, symptoms, and risks associated with food allergy and anaphylaxis;
2. Awareness of food and non-food items that might present risk;
3. Strategies that reduce risk of exposure to identified allergens throughout the school day;
4. Designation and maintenance of allergen-free zones;
5. Basic food handling procedures, including hand washing, avoiding cross-contamination, and cleaning surfaces;
6. District and school level policies, procedures, and plans for managing students with chronic health conditions including allergies;
7. How to respond in the case of a possible severe or life-threatening allergic reaction;
8. Local emergency medical service procedures;
9. Proper storage and administration of epinephrine auto-injectors, antihistamines, and other medications;
10. Strategies to manage student privacy and confidentiality while maintaining an inclusive class environment; and

## 11. How to deal with food allergy-related bullying.

### Epinephrine and Other Medications

Students with severe allergies may be permitted to carry an epinephrine auto-injector with them, in accordance with Policy 3510. A student's epinephrine may also be kept in other locations where it would be easily accessible for the student, such as in their classroom, with a District employee supervising lunch or recess periods, or on their bus. Locations for storage will follow the manufacturer's guidelines. Staff may be notified of the locations of epinephrine in the school. The Superintendent or building principal may require that whenever students are present at a school, at least one person who has been trained to administer an epinephrine auto-injector also be present.

Any student who receives epinephrine at school must be immediately transported to a hospital for evaluation by a licensed healthcare provider and further observation or immediately released into the care and custody of their parent(s)/guardian(s).

### The Cafeteria

The Superintendent or building principal may require that cafeteria staff take any of the following steps to accommodate students with severe or life-threatening allergies:

1. Prohibit specific foods;
2. Clean and sanitize kitchen surfaces and equipment to avoid cross contamination with potential food allergens;
3. Wear non-latex gloves, and change or wash gloved hands during extended use to avoid cross-contamination with potential food allergens;
4. Have photos of students with severe or life-threatening allergies placed in the kitchen, only for kitchen staff to view;
5. Make appropriate substitutions or modifications to meals served to students with serious allergies;
6. Be prepared to make food ingredient lists used in food production and service available. Maintain food labels from each food served to a child with allergies for at least 24 hours following service in case the student has a reaction from a food eaten in the cafeteria; and
7. With parental approval, set up cafeteria procedures such as entering a student's allergy into computerized database. Such information would remain confidential and be shared on a need-to-know basis in compliance with federal privacy regulations.

### Allergies and the Classroom

The school nurse, teacher, and parents of any children with severe or life-threatening allergies, may set a classroom protocol regarding the management of food in the classroom. This protocol will be communicated by the teacher to the students and parents of the affected class, and may include any of the following accommodations:

1. Parents of students with severe or life-threatening allergies may provide allergen-free snacks to be kept in the classroom and given to the student when treats are served in the classroom;
2. Students, parents, and staff may be prohibited from bringing homemade treats or specified foods for in-class consumption. Only commercially prepared treats with intact ingredient labels may be allowed in class;

3. Teachers may notify parents in writing of any school related activity that requires the use of food in advance of the project or activity;
4. Use of food for instructional lessons may be limited or eliminated;
5. Use of food or candy as part of a school project related to the curriculum may be prohibited; and
6. Allergen-containing foods may be prohibited in classrooms during after-school activities when that classroom will be used by a student with a known food allergy during the school day.

The Superintendent or building principal may require teachers to take any of the following additional steps to accommodate students with severe or life-threatening allergies:

1. Post signs indicating rules for preventing exposure to life-threatening allergens in the classroom and ensure that these rules are enforced;
2. Eliminate the use of food allergens in the allergic student's educational tools, school-provided supplies, and incentives;
3. Participate in planning students' re-entry into school after an anaphylactic reaction; and
4. Send notices to parents of students in the classroom that the classroom is a free zone with regard to a specified food.

Teachers may be required to develop and implement age-appropriate lessons on allergies for such subjects as health, family and consumer sciences, biology, and physical education. Such lessons may emphasize:

1. Support for, and inclusion of, classmates with chronic health conditions, such as food allergies;
2. Bullying prevention, including reporting harassment, hazing, and bullying to school personnel;
3. Knowledge of potential allergens and the symptoms of a potentially life-threatening reaction;
4. Differences between life-threatening allergies and food intolerances;
5. Appropriate response to emergency situations such as life-threatening allergic reactions;
6. Developmentally-appropriate self-management of food allergies; and
7. The importance of following District health policies and guidelines, such as those regarding hand washing, food-sharing, and allergen safe zones.

### Transportation

The school bus drivers may be informed when they are transporting a student with a life-threatening allergy. The Superintendent or building principal may require bus drivers to take any of the following additional steps to accommodate students with severe or life-threatening allergies:

1. Strictly enforce a policy of no eating on the bus. Students with medically documented needs may be permitted to eat allergen-safe foods on the bus;
2. Refrain from handing out food treats; and
3. Assign seats to students, and/or seat students with life-threatening allergies immediately behind and to the right side of the bus driver.

The Superintendent or building principal may require the transportation department to send letters to parents of all students who use District transportation informing them that at least one student

at the school has a life-threatening allergy, requesting that their child wash their face and hands after breakfast and before boarding the bus, and informing them of rules prohibiting students from eating on the bus.

### Field Trips

The Superintendent or building principal may require that those organizing field trips take any of the following steps to accommodate students with severe or life-threatening allergies:

1. Take into consideration the potential for exposure to the student's food allergens when determining sites for field trips, and consider ways of avoiding allergen exposure during the field trip;
2. Notify parents of students with severe or life-threatening allergies and the school nurse as soon as possible of any upcoming field trip;
3. Allow parents of students with severe or life-threatening allergies to accompany the student on field trips;
4. Store meals for students with food allergies separately to minimize cross-contamination;
5. Ensure that students do not eat on the bus;
6. Prepare ways for participants to wash hands before and after eating, such as with hand wipes;
7. Appoint a District employee attending the field trip to implement any student's Emergency Care Plan if necessary, and bring all supplies necessary to do so; and
8. Note the location of closest medical facility ahead of time.

### Other Accommodations

The Superintendent or building principal or the designee may require that any of following steps be implemented to accommodate students with severe or life-threatening allergies:

1. Prohibit food and utensil trading and sharing, and post signs in schools informing students that they are expected to neither trade nor share food or utensils;
2. Designate particular tables in the cafeteria, particular classrooms, areas within classrooms, or other areas as allergen-free zones. These zones may be designated by a universal symbol, and be cleaned with a separate wash bucket and cloth with District-approved cleaning agents;
3. Post signs at points of entry to each school and/or on the school or District website advising that there are students with life-threatening allergies. Such signs may not disclose the identity of the student with the food allergy unless his or her parent has consented to that disclosure;
4. Have letters sent to all parents of children attending school with at least one student known to have a life-threatening allergy, notifying them of the severity of the health threat, signs and symptoms to be aware of, and a concise list of foods and materials of concern and school policy regarding them. This will be done in a way that protects the confidentiality of the student with the life-threatening allergy. If other students or parents may be able to guess or deduce which student has the life-threatening allergy, approval of the student's parent may be sought before the letter is sent;
5. Hold Emergency Care Plan drills to assure the efficiency and effectiveness of such plans;
6. Ensure that there is at least one functioning emergency communication device, such as a walkie-talkie or cell phone, available at all times in classrooms, on field trips, at recess,

during physical education class, at school-sponsored extracurricular activities, and/or on school buses;

7. Develop a cleaning protocol to ensure that the threat of allergens is minimized;
8. Prohibit the sale of particular food items in the school; and
9. Request that students refrain from bringing foods to which a student is known to have a severe or life-threatening allergy to school, and request that parents refrain from sending such foods to school. A Superintendent or building principal may completely prohibit particular food items from the school or school grounds when it is felt that the benefits of doing so would outweigh the difficulty of enforcing such a ban and the controversy such a measure is likely to provoke.

### Confidentiality

The District will endeavor to maintain the confidentiality of students with food allergies, to the extent appropriate and as requested by the student's parents/guardians. District staff shall maintain the confidentiality of student records as required by law, regulations, and Board policy.

### Expectations of Students with Severe or Life-Threatening Allergies and their Parents

The Board expects students with life-threatening allergies to do the following, as age appropriate:

1. Take as much responsibility as possible for avoiding allergens, including refraining from sharing or trading of foods or eating utensils with others, refraining from eating anything with unknown ingredients or a known allergen; avoid putting anything in mouth such as writing utensils, fingers, or other foreign objects;
2. Use proper hand washing before and after eating and throughout the school day;
3. Learn to recognize personal symptoms;
4. Notify an adult immediately if they eat something they believe may contain a food to which they are allergic;
5. Notify an adult if they are being bullied, harassed, hazed, or threatened by other students as it relates to their food allergy;
6. Carry their epinephrine auto-injector with them at all times if they are permitted to do so, or know where the auto-injector is kept and who has access to it;
7. Know how to get to the nurse's office;
8. Develop an awareness of their environment and their allergen-free zones; and
9. Know their overall Individual Healthcare Plan and understand the responsibilities of the plan.

The Board encourages parents of students with serious allergies to do the following:

1. As age appropriate, teach their child to:
  - A. Not share snacks, lunches, drinks, or utensils;

- B. Know which foods are and are not safe for them to eat, and to read labels, and understand ingredient safety;
  - C. Understand the importance of hand washing before and after eating;
  - D. Recognize the first symptoms of an allergic or anaphylactic reaction;
  - E. Communicate with school staff as soon as he or she feels a reaction is starting;
  - F. Understand rules and expectations about bullying related to food allergies, and report such teasing and/or bullying;
  - G. Carry his or her own epinephrine auto-injector when appropriate, or know where the epinephrine auto-injector is kept and who has access to it;
  - H. Administer his or her own epinephrine auto-injector and be able to train others in its use; and
  - I. Develop awareness of their environments, including allergy-controlled zones.
2. Inform the school nurse of their child's allergies prior to the opening of school, or as soon as possible after diagnosis. All food allergies must be verified by documentation from physician, nurse practitioner, or physician assistant;
  3. Work with the core team collaboratively to develop the Individualized Healthcare Plan, and provide an Emergency Care Plan completed by the student's physician;
  4. Complete and submit all requested and required forms. Provide the school with current cell phone, pager, and other emergency contact numbers;
  5. Allow District health personnel to consult with the student's physician or healthcare provider, and provide current contact information for the healthcare provider;
  6. Provide the school nurse with up-to-date emergency medications so they can be placed in all required locations for the current school year. Parents may be requested to provide two or more epinephrine auto-injectors. Medications must comply with the District medication policy of proper labeling and expiration;
  7. Consider providing a medical alert bracelet for their child;
  8. If requested, provide "safe snacks" for their student's classroom in case of an unplanned special event. Parents may also be asked to provide a nonperishable safe lunch to be kept at school in case the student forgets to bring lunch;
  9. Review policies, procedures, and plans with the core team annually and following any allergic reaction at school; and
  10. Provide the school nurse with at least annual updates on their child's allergy status. Inform the school of any changes in the child's life-threatening allergy status and provide a physician's statement if the student no longer has food allergies.

District-Provided Epinephrine

Anaphylaxis is a severe systemic allergic reaction from exposure to allergens that is rapid in onset and can cause death. The Board of Trustees wishes to promote awareness of such health risks to students.

The District may choose to keep stocks of epinephrine at its schools to be used in emergencies for students with unknown allergies who develop an anaphylactic response and/or for those students with known allergies if their personal emergency medication is found to be flawed or is unavailable. This epinephrine may be kept in a place that is accessible at all hours when school is in session.

The Superintendent is directed to develop written procedures to:

1. Establish a method to lawfully obtain epinephrine sufficient to meet the District's needs and to replace doses that are used or reach their expiration date.
2. Determine all locations where school-stocked epinephrine will be kept and ensure it is always available there.
3. Ensure all epinephrine is current and is not outdated or maintained beyond its expiration date as well as a protocol for disposal of outdated epinephrine. This process shall include monthly checks of the epinephrine supply, and disposal shall be by sharps container.
4. Ensure the epinephrine is stored in a secure location that meets all storage requirements suggested by the manufacturer.
5. Develop training protocols for school personnel and assure that such training protocols are implemented with fidelity. Such training shall include:
  - A. How to recognize symptoms of severe allergic reactions, including anaphylaxis;
  - B. Standards and procedures for the storage, administration, and disposal of an epinephrine auto-injector; and
  - C. Emergency follow-up procedures.
6. To assure documentation is maintained for all of the above activities.

If a student has previously been identified as having severe allergies that may warrant the administration of epinephrine as described in Policies 3510 and 3515 and the student's personal dose of epinephrine is flawed or not available, District-stocked epinephrine may be administered to or self-administered by the student as described in Policies 3510 and 3515.

If a student who is not known to have a severe allergy is believed to be having an allergic reaction that requires epinephrine, the school's nurse shall determine whether it is appropriate to administer epinephrine and administer the epinephrine when appropriate.

For sites where a school nurse is not available, the Superintendent shall ensure that at least three willing staff members have received training from a doctor, nurse, or other appropriate medical professional in how to administer epinephrine and how to determine whether it is appropriate to do so. These staff members shall be responsible for these tasks. This training shall be provided at least annually.

Other personnel may be trained annually on how to recognize symptoms of severe allergic reactions.

In accordance with Policy 3500, epinephrine shall only be administered if:

1. The District has parental consent to do so; or
2. Doing so is necessary to prevent death or imminent, irreparable physical injury; or
3. The District can't contact the parent/guardian despite a reasonably diligent effort and the student's life or health would be seriously endangered by further delay in the furnishing of health care services.

Any student who receives epinephrine at school must be immediately transported to a hospital for evaluation by a licensed healthcare provider and further observation or immediately released into the care and custody of their parent/guardian.

No part of this policy is intended to replace student-specific orders or parent-provided individual medications. This policy does not extend to activities off school grounds.

The Board shall require each school that maintains a stock supply and administers epinephrine auto-injectors to submit to the Board or its designee a report of each incident at the school or related school event involving a severe allergic reaction or the administration of an epinephrine auto-injector.

**NOTE: ISBA recommends discussing this policy with the District's insurer as well as the District's School Resource Officer (if applicable) prior to adopting.**

In the case of an opiate-related overdose prompt medical assistance will be summoned to the scene. In the absence of a school nurse, the administrator or designated staff member who has completed training in administration of medication to reverse an opioid overdose may give emergency medication to students. Staff members trained in accordance with the policy shall make every reasonable effort to assist the person, in accordance with their training.

The District's Board of Trustees wishes to prevent opiate-related overdose deaths. For this reason, The Board authorizes the District Superintendent to work with the District's school nurses to make available in any schools the Superintendent deems appropriate either naloxone, sometimes marketed as Narcan, or any other opioid antagonist permitted by Idaho Code. If the Superintendent elects to make opioid antagonists available in District schools, the Superintendent or their designee shall establish procedures for the acquisition, storage, and administration of opioid antagonists and for the training of staff members in how to administer them. This procedure shall also provide a process for ensuring there is an adequate supply of opioid antagonists at each school designated to have a supply, ensuring that the medication has not expired, and replacing the medication as needed.

The Superintendent or their designee may obtain opioid antagonists from a licensed health professional authorized to prescribe and dispense them by Idaho law.

Documentation that the opioid antagonist was prescribed and dispensed in accordance with State law shall be maintained in the Superintendent's office, and copies of any directions provided with the opioid antagonist shall be kept with the medication.

Administration of an opioid antagonist shall not be required in circumstances of unavailability of the medication, unavailability of an employee trained to administer it, and/or uncertainty as to whether an opioid overdose is occurring, among other reasons. This policy shall not create a duty on the part of the District and/or its personnel to administer opioid antagonists.

### Training

Before any District employee may administer an opioid antagonist under this policy, the employee must successfully complete training on recognizing opioid-related overdoses, administering the opioid antagonist provided by the District, promptly seeking medical attention for drug overdoses, and on this policy. Employees shall be trained every year on these topics.

Evidence that such training has been completed shall be placed in the employee's personnel file. A list of District employees who successfully completed such training shall be maintained, updated, and kept in the school nurse's office and in the District office.

If the District's School Resource Officer does not already carry an opioid antagonist which they are trained and authorized to use, they may also be trained to administer opioid antagonists and provided with access to the schools' supplies of the medication in the same manner as trained District staff.

Students shall be encouraged to immediately report medical emergencies to school officials to ensure medical assistance can be immediately provided.

#### Storage of Opioid Antagonists

If the Superintendent directs for opioid antagonists to be kept at a school, the medication shall be stored in a safe location in compliance with the drug manufacturer's instructions. The opioid antagonist shall be readily accessible to those employees who have completed the required training to administer it in the event of a suspected drug overdose. All properly trained employees shall be made aware of exactly where naloxone is being stored.

#### Administration of Opioid Antagonist

These protocols shall be followed when administering an opioid antagonist to respond to a suspected drug overdose:

1. The employee shall immediately ensure that someone calls 911 for emergency medical service personnel to be dispatched to respond to a suspected drug overdose.
2. The employee shall administer the opioid antagonist in accordance with the training they have received and take any further measures directed by their training.
3. The employee shall fully cooperate with emergency medical service personnel responding to the scene and shall not interfere with or impede the administration of emergency medical services to the individual suffering the suspected drug overdose.
4. The employee shall notify the building administrator of the incident as soon as possible.
5. The employee shall provide a written report describing the facts and circumstances surrounding the event.

The Principal shall provide a copy of the report to the Superintendent and the school nurse.

#### Indemnification

Any person who administers an opioid antagonist provided under this policy to another person who appears to be experiencing an opiate-related overdose and who:

1. Acts in good faith and exercises reasonable care; and
2. Contacts emergency medical services as soon as possible

will not be liable in a civil or administrative action or subject to criminal prosecution for such acts, as described in IC 54-1735.

## Parental Notification

The District shall notify all parents/guardians of students of this policy once each school year through methods which may include providing it in the student handbook.

A student's parent/guardian, as well as law enforcement, shall be notified of any incident in which their student is believed to have been under the influence of alcohol or controlled substances in accordance with Policy 3320. The student's parent/guardian shall be notified of any health emergency they experience, as described in Policy 3540.

## Non-Employee Administration of Opioid Antagonists

Nothing in this policy is intended to regulate, restrict, or otherwise deter any emergency medical technician from administering their own supply of an opioid antagonist when responding in good faith to a suspected drug overdose occurring on District property.

The District is required to provide educational services to all school age children who reside within its boundaries. Attendance at school may be denied to any child diagnosed as having a contagious or infectious disease that could make the child's attendance harmful to the welfare of other students. In the instance of diseases causing suppressed immunity, attendance may be denied to a child with suppressed immunity in order to protect the welfare of the child with suppressed immunity when others in the school have an infectious disease which, although not normally life threatening, could be life threatening to the child with suppressed immunity.

The Board recognizes that communicable diseases that may afflict students range from common childhood diseases, acute and short-term in nature, to chronic, life-threatening diseases. The District shall rely on the advice of the public health and medical communities in assessing the risk of transmission of various communicable diseases to determine how best to protect the health of both students and staff.

Management of common communicable diseases will be in accordance with Idaho Department of Health and Welfare guidelines and communicable diseases control rules. A student who exhibits symptoms of a communicable disease that is readily transmitted in the school setting may be temporarily excluded from school attendance.

Students who complain of illness at school may be referred to the school nurse or other responsible person designated by the Board and may be sent home as soon as the parent or person designated on the student's emergency medical authorization form has been notified.

The District reserves the right to require a statement from the student's primary care provider authorizing the student's return to school. In all proceedings related to this policy, the District shall respect the student's right to privacy.

When information is received by a staff member or volunteer that a student is afflicted with a serious communicable disease, the staff member or volunteer shall promptly notify the school nurse or other responsible person designated by the Board to determine appropriate measures to protect student and staff health and safety. The school nurse or other responsible person designated by the Board, after consultation with and on the advice of public health officials, shall determine which additional staff members, if any, have need to know of the affected student's condition.

Only those with direct responsibility for the care of the student or for determining appropriate educational accommodation will be informed of the specific nature of the condition, if it is determined there is a need for such individuals to know this information.

Parents of other children attending the school may be notified that their child has been exposed to a communicable disease without identifying the particular student who has the disease.

[Head Lice \(Pediculosis\)](#)

Head lice are a common problem among school-aged children and adolescents. The District shall take appropriate steps to assist parents/guardians in preventing and addressing head lice while respecting the confidentiality of students with head lice and limiting disruption to their education.

Lice prevention and management activities shall be under the direction of [each school's school nurse Each school's school shall conduct the following tasks and/or train and designate other staff members to do the following:

1. Provide general information to parents/guardians on the diagnosis, treatment, and prevention of head
2. Encourage parents/guardians to perform regular lice checks on the scalp of their children who attend school, especially when excessive itching is noticed;
3. Conduct checks for head lice in students showing symptoms of head lice; and
4. Notify a student's parent/guardian if they are found to have head lice and provide resources on appropriate treatment options.

Individuals shall be trained and assigned within each school to assist in implementing this policy.

To prevent the spread of head lice at school, students should avoid head-to-head and hair-to-hair contact during activities. Students shall be discouraged from sharing such items as hats, scarves, coats, sports uniforms, hair accessories, combs, brushes, or towels.

### Checking for Head Lice

As described in Policy 3500, parents/guardians shall be informed that the school may conduct head lice checks as described below and shall be given the opportunity to consent to such checks ahead of time or decline to do so.

If a parent/guardian declines to consent to a head lice check for their child, the staff member who would have conducted such a check shall document that they requested consent for such a check and that the parent/guardian declined to provide it.

Any staff member who suspects a student has head lice shall report this to the [school nurse OR building principal OR OTHER POSITION] or their designee. The [school nurse OR building principal OR OTHER POSITION] or their designee may train school staff on recognizing signs of head lice.

If the student's parent has consented to such a check, the student will be checked for head lice in a confidential manner by trained personnel. The check shall take place in the office in an area not visible to other students. If available, the nurse will perform the head check. If the nurse is unavailable, the secretary will perform the head check. Students who attend school in the District and are likely to have had head-to-head or other close personal contact with the student, such as siblings, may also be checked.

The District shall not conduct mass lice screenings of students not showing symptoms of head lice.

### Students Found to Have Head Lice

Cases of head lice should be managed in ways that reduce disruption to the education process.

In addition to ensuring the District has parent/guardian consent prior to checking a student for head lice, the school nurse or building secretary will immediately notify the student's parents/guardians after they have been checked for head lice.

The parent/guardian shall be notified of whether lice or nits were found. If signs of lice warranting treatment are found, the parent/guardian will be requested to begin treatment immediately. The notice shall state that prompt, proper treatment of the head lice is in the best interest of the student and their classmates.

Parents/guardians shall be provided with written information on head lice treatment and treatment of home furnishings consistent with the recommendations of the school nurse. The student and their parent/guardian shall be provided with information on how to avoid the spread of head lice. This information shall be provided by the school nurse or the school secretary. The information should include details explaining the problem, list the procedures for treatment, and explain any requirements for reentering school. In addition, the school nurse or school secretary may offer extra help or information to families of children who are repeatedly or chronically found to have head lice.

Students who are found to have lice will be discouraged from making head-to-head contact with others and sharing personal items with other students. Students will not generally be sent home from school early due to signs of live or dead lice or nits. Exceptions may be made as determined appropriate and necessary by the school nurse or the parent/guardian may choose to take the student home for immediate treatment.

If a student is suspected of having head lice but their parent/guardian does not consent to a check for head lice, the parent/guardian shall be notified that the school suspects the student has head lice. The parent may also be provided with information on head lice treatment and with assistance similar to that provided to parents of students found to have head lice.

### Return to School

The student may return to school once the parent/guardian affirms they have begun an appropriate course of treatment for the student's head lice. Students will not generally be excluded from school for having live head lice, provided treatment has begun. Exceptions may be made as determined appropriate and necessary by the [school nurse OR building principal OR OTHER POSITION]. In no case will a student be excluded from school due to the presence of nits only in their hair.

### Notification of Head Lice Cases at School

The District will not normally send a notification<sup>438</sup> regarding head lice cases in the school to parents/guardians of students, aside from notifications related to checks of their own child for head

lice otherwise advised by medical personnel.

### Review of Policy

The District's school nurses shall review the lice management program and related procedures periodically, in consultation with medical experts as appropriate, to ensure that they are meeting the needs of the students, their families, and the District and to ensure they are in compliance with current best practices.

Any records created related to head lice cases should be maintained in accordance with state and federal laws and regulations and District policies regarding the maintenance and confidentiality of student records. Only information needed for purposes of assuring notification of the appropriate parties involved and for prevention of further exposures should be noted in a student's school records. Whether any student has or is suspected of having head lice shall be kept confidential.

Education of Homeless Children

While the District has a responsibility to notify a student's parent/guardian regarding any known changes in the student's mental, physical, or emotional health or well-being, neither a school district nor a teacher has a duty to warn of the suicidal tendencies of a student absent the teacher's or school district's knowledge of direct evidence of such suicidal tendencies. The Board directs the Superintendent or their designee to draft and implement procedures relating to:

1. Suicide prevention;
2. Suicide intervention; and
3. Suicide postvention.

"Postvention" shall mean counseling or other social care given to students after another student's suicide or attempted suicide.

These procedures may include, but are not limited to, the following measures:

1. Prevention:
  - A. Offering and providing help and assistance, including early identification;
  - B. Support and/or counseling by school support personnel for low-risk students;
  - C. Referral to appropriate sources outside the school for high and moderate-risk students;
  - D. The designation of a District-level or school level suicide prevention coordinator(s) by the Superintendent to be responsible for planning and coordinating the implementation of procedures addressing suicide.
  - E. Encouraging staff to report to the coordinator students they believe may be at elevated risk of suicide.
  - F. Education of students on suicide prevention through age-appropriate curriculum.
  - G. Small group suicide prevention programming.
  - H. Offering resources to parents/guardians on suicide prevention.
2. Intervention:
  - A. Contacting the parents/guardians of students identified as at imminent risk of suicide.
  - B. Contacting emergency services to assist a student who is at imminent risk of suicide.
  - C. Providing first aid until emergency personnel arrive, as appropriate.
  - D. Moving other students away from the immediate area of any suicide attempt on District property or at a District event.
3. Postvention:
  - A. After care support by the school for faculty, staff, and students after a sudden death has occurred.
  - B. The development of a plan for responding to a death by suicide that has a significant impact on the school community.
  - C. Notification of the suicide prevention coordinator, if applicable.
  - D. The creation of a crisis team to respond to deaths by suicide that have a significant impact on the school community.
  - E. Contacting the State Department of Education to report any student deaths by suicide and to seek postvention assistance and/or resources.

- F. Offering mental health services to students likely to be strongly affected by a recent death.
- G. Appointing a spokesperson to handle inquiries related to issues involving suicide in the District.

Following notification of District staff of a suicide attempt by a student or following the identification of a student as being at imminent risk of suicide, the building principal may require a note from the student’s doctor or counselor stating that it is the doctor or counselor’s opinion that the student is ready to return to school. The student and their parent/guardian may meet with the school counselor to create a plan for the student’s return to school, including any appropriate accommodations needed by the student.

District personnel shall attend to the rights of the student and their family.

The District shall comply with all requirements of State law and administrative rules for training by personnel on suicide prevention and awareness. This includes providing annual professional development to staff involved in preventing, intervening, and responding to suicide on:

1. School philosophy regarding school climate and the promotion of protective factors;
2. Data on suicide for the region or state, or both;

The Board recognizes that schools are responsible for providing first aid or emergency treatment in case of sudden illness or injury to a student, but that further medical attention is the responsibility of the parent/guardian. School personnel shall not assume responsibility for any treatment beyond first aid. Financial charges incurred during the emergency care process, such as ambulance or hospital fees shall be the responsibility of the parent/guardian. The District shall strive to ensure an employee remain with any seriously ill or injured students until the parent/guardian or their designee assumes responsibility.

Each parent/guardian must provide an emergency telephone number where they can be reached. The District recommends that parents/guardians regularly check and update the emergency contact information they've provided to the District. They must also provide a completed Form 3500F indicating student health services to which they consent. If a student does not have a completed Form 3500F, the District shall presume there is no consent to provide any healthcare services.

The District may keep the telephone numbers of hospitals, ambulances, and others to be called in case of an emergency near all phones. Information on who to contact if a student's parent/guardian is not available shall be available in a central location.

The District may provide emergency treatment to the child if:

1. The parent/guardian already consented to such treatment via Form 3500F or some other means; or
2. District staff reasonably determines that a medical emergency exists and:
  - A. Furnishing the health care service is necessary to prevent death or imminent, irreparable physical injury; or
  - B. District staff can't contact the parent/guardian despite a reasonably diligent effort and the student's life or health would be seriously endangered by further delay in the furnishing of health care services.

When a student is injured or ill, the principal or designated staff member should immediately contact the parent/guardian so that the parent/guardian can arrange for care or treatment of the injured student and consent to providing treatment to the child if they have not already done so.

If a child develops symptoms of illness while at school, the responsible school officials shall do the following:

1. Isolate the child immediately from other children in a room or area segregated for that purpose;
2. Inform the parent/guardian as soon as possible about the illness and request that they pick up the child; and

3. Report each case of suspected communicable disease the same day by telephone to the local health authority, or as soon as possible thereafter if no contact can be made the same day.

In the event of any medical emergency posing a serious threat to life or health, District staff shall call the local emergency medical service provider.

The District may keep the telephone numbers of hospitals, ambulances, and others to be called in case of an emergency near all phones. Information on who to contact if a student's parent/guardian is not available shall be available in a central location.

A note from a student's parent/guardian or their physician shall be required for readmission to school following a serious illness/injury.

### First Aid Supplies

The District shall maintain a first aid cabinet in each building with first aid policies and procedures posted nearby. The school nurse shall distribute first aid supplies to all schools, and these shall be replenished regularly. First aid kits shall be available in the main office, high risk areas, and transportation vehicles.

The District shall strive to ensure that at least one employee who works at each school building has a current first aid certificate

### Interviews by School Administrators (Student Victims/Witnesses)

When a violation of Board policy or school rule occurs, the school principal or designee may question a potential student victim or students who may have relevant information without prior consent of the parent/guardian. Another adult should be present during the questioning of students.

### Interviews by School Administrators (Student Suspect)

In situations where a student is suspected of violating Board policy or school rule, the principal or designee may interview or question the suspected student without the prior consent of the student's parent/guardian. The school official must first have reasonable grounds to suspect that the student committed such a violation. The nature and extent of the questioning must be reasonably related to the objectives of the questioning. If the student denies involvement or culpability in any of the suspected activities, the student will be afforded the opportunity to present their side of the story, orally or in writing.

### Interviews and Questioning by Law Enforcement Officials

If a law enforcement officer is present on school property solely to question a specific, identified student, the school's administrative personnel shall bring the student to a designated location for questioning. Law enforcement officers who are present for such an interview should not otherwise roam the school's facility in an effort to locate the student. They should remain in the administration office while school personnel seek out the student. However, if there is a safety concern or other emergency situation involving a student, the school and law enforcement official shall work together on the best way to contact that student.

Any questioning of a student by law enforcement should take place in a private room or area where confidentiality can be maintained.

When reasonably possible, parents/guardians should be given the chance to be present for questioning. A public school shall notify a student's parent or legal guardian by phone call or text message if a minor student has been or may be questioned by a school resource officer or other law enforcement official, unless the child is a victim or suspected victim of physical child abuse, abandonment, and/or neglect.

The District recognizes that it is not always possible to notify a parent/guardian of a student prior to an interview by law enforcement, whether by an SRO or otherwise. At minimum, when the District is aware that such questioning has occurred, the building principal or designee shall notify the parent/guardian of such event by phone call or text before the end of the day when the interview occurred.

The School Board prefers that any interview of a student or a detainment of a student occur outside of school hours and outside the school setting, when possible. However, when such activities cannot occur outside of the school setting, the principal or designee will notify a parent/guardian of an interview or detainment of a minor student by law enforcement officials.

School personnel shall not require any student to subject themselves to any law enforcement interview. If a parent/legal guardian directs that a student is not to be subject to a law enforcement interview, such direction will be honored by the school and law enforcement will have to make other arrangements to conduct such questioning. Such parental direction shall be required for each case in which a law enforcement officer asks to question a student.

The building principal or their designee may request to be present at the interview, but should not take part in any questioning. If present, the principal or designee should at all times remain a neutral observer. If the student's parent/guardian is not present, the principal should be present during the interview unless otherwise ordered by law enforcement officials.

When students are questioned by law enforcement officers, District personnel are not responsible for a police officer's compliance with the law. If a parent/guardian or student refuses to consent to police questioning, it is the law enforcement officer's responsibility to respond appropriately to such refusal.

#### Questioning by Law Enforcement Officials About School-Related Violations

When a suspected violation of criminal law has occurred on school grounds, at a school sponsored activity, or an activity involving school operations, law enforcement officers may be notified by school officials to request a criminal investigation. Law enforcement officers may also independently determine that an investigation requiring student interviews is necessary

School discipline investigations conducted by school administrators and criminal investigations conducted by law enforcement officers – with the exception of SRO personnel – shall be conducted in a parallel manner rather than as a joint investigation. Therefore, a school discipline investigation need not stop as soon as the school administrator believes that a crime has been committed. The results of the parallel investigations may be shared among school officials and the police.

#### Questioning by Law Enforcement Officers About Non-School-Related Violations

The District strives to maintain cooperative working relations between law enforcement, child protective authorities, and school authorities. Law enforcement officers may wish to interview students regarding their knowledge of suspected criminal activity and may wish to question students who are themselves suspected of engaging in criminal activity. Except when law enforcement officers have a warrant or other court order, or when emergency or other exigent circumstances exist, conducting such interviews during the student's class time is discouraged. Whenever possible, such questioning on matters not related to school should take place away from school and outside of school hours. Whether an interview will be permitted at school during school hours shall be at the discretion of the principal, except when a warrant or court order requires that it be conducted immediately. The principal and principal's designee have the right and the obligation to take reasonable steps to prevent disruption of school operations and the educational

process while at the same time cooperating with law enforcement efforts. Accordingly, the principal or designee shall work together with law enforcement officers to coordinate efforts and minimize or prevent such disruption in cases of student interviews. In the event of disagreement, the principal or designee shall immediately contact the area administrator or District legal counsel for assistance.

Before any student interview begins regarding suspected criminal activity, the principal or designee shall ascertain that the law enforcement officer has proper photo identification evidencing affiliation with an identified law enforcement agency. The Idaho Department of Health and Welfare or law enforcement may exclude school personnel from any child abuse investigations and related interviews and may use a school building to conduct the interview.

### Arrests by Law Enforcement Officers

A law enforcement officer may take a student into custody if the student has been placed under arrest, if the officer declares the student to be in imminent danger, or if the student's parent/guardian and the student consent to such release. When practical, the officer must first notify the principal or designee so that the student may be summoned to the principal's office and taken into custody in a manner that is as inconspicuous as possible and minimizes disruption of school operations and the educational process. When an emergency situation arises and the student is taken into custody or arrested on school premises without prior notification to the principal or designee, the law enforcement officer should notify school authorities of the situation as soon as possible.

When a student is removed from school by law enforcement officers for any reason, the building principal or designee will make every reasonable effort to notify the student's parent/guardian, including attempts to contact them by phone call or text message. At a minimum, the principal will call all of the telephone numbers provided by the parent/guardian to the District. The school official will document such effort in writing. When law enforcement officers make a formal arrest or the student is otherwise in law enforcement custody, any and all responsibility for that student is transferred to law enforcement personnel. If a school official has reason to believe a student is wrongly detained or arrested, they shall not interfere in any way but will contact the Superintendent explaining their reason which will be documented by the Superintendent and reported to the parent/guardian.

School officials will notify the appropriate area administrator of the removal of any student from school by law enforcement under any circumstance. District personnel are not responsible for an officer's legal compliance with respect to said arrest.

### Definitions

"Interview" or "questioning" means asking a student about an incident.

"Reasonable Suspicion" means a common-sense belief based on the information at hand that criminal activity or a violation of school rule/policy has happened or will happen.

The Board recognizes its responsibility for the proper care of students during school hours. Students shall not be removed from school grounds, any school building, or school function during school hours except by a person duly authorized in accordance with District procedures. Before a student is removed or excused, the person seeking to remove the student must present, to the satisfaction of the principal, evidence of his or her proper authority to remove the student. A teacher should not excuse a student from class to confer with anyone unless the request is approved by the principal. The Superintendent is directed to establish procedures for the removal of a student during school hours.

Schools must exercise a high order of responsibility for the care of students while in school. The removal of a student during the school day may be authorized in accordance with the following procedures:

1. Law enforcement officers, upon proper identification, may remove a student from school;
2. Any other agencies must have a written administrative or court order directing the District to give custody to them. Proper identification is required before the student shall be released;
3. A student shall be released to the custodial parent. When in doubt as to custodial rights, school enrollment records must be relied upon, as the parents/guardians have the burden of furnishing schools with accurate, up-to-date information;
4. The school should always check with the custodial parent before releasing the student to a non-custodial parent;
5. Prior written authorization from the custodial parent or guardian is required before releasing a student into someone else’s custody, unless an emergency situation justifies a waiver; and
6. Police should be called if a visitor becomes disruptive or abusive.

## Board Policy 3560: Video Surveillance

Status:

Original Adopted Date: | Last Reviewed Date:

The Board believes that the use of video taping equipment can make positive contributions to the health, safety, and welfare of all students, staff, and visitors to the District, as well as safeguard District facilities and equipment. Having carefully weighed and balanced the rights of privacy of students, staff, and visitors against the District's goal of ensuring the safety of every student, employee, and visitor while they are on District property and also the goal of safeguarding District facilities and equipment, the Board hereby authorizes the use of video cameras on District property as follows:

Video surveillance shall be used to promote order, to maintain the security, health, welfare, and safety of all staff, students, and visitors on District property, and to safeguard District facilities and equipment.

The District shall notify staff and students through student/parent and staff handbooks that video surveillance may occur on District property. Additionally, notices shall be posted on or about School District property alerting those on District property that the District is utilizing video surveillance.

Review of any video recordings is restricted to those who have a security, safety, or a legitimate educational interest.

Video recordings may become a part of a student's educational record or a staff member's personnel record. The District shall comply with all applicable State and federal laws related to record maintenance and retention. Video tapes that are records of student and/or staff behavior shall be secured in a locked file until the tapes are either reused or erased. The video tape shall be considered a student and/or staff record and shall be subject to current law for the release of student record information and/or personnel record.

Video surveillance may be used for investigations of criminal activity by appropriate law enforcement agencies and may be used by the District to investigate violations of District policy.

Students or staff in violation of Board policies, administrative regulations, building rules, or law shall be subject to appropriate disciplinary action. Others may be referred to law enforcement agencies.

Video cameras may be installed in public locations as deemed appropriate by the Superintendent, and shall not be installed in areas with a reasonable expectation of privacy.

Audio shall not be part of the video recordings made, reviewed, or stored by the District.

## Procedure 3570-P(1): Student Records - Maintenance of School Student Records

Status:

Original Adopted Date: | Last Revised Date: | Last Reviewed Date:

School student records are confidential, and information from them shall not be released other than as provided by law. Federal and state laws grant certain rights to parents and students, including the right to inspect, copy, and challenge school records. The information contained in school student records shall be kept current, accurate, clear, and relevant.

The District shall maintain a record for each student that shall contain information, including but not limited to the items listed below, if the District has created or received such information. Items 1 through 7 must be included.

1. Birth certificate;
2. Proof of residency;
3. Unique student identifier issued and assigned by the State Department of Education;
4. Basic identifying information;
5. Academic transcripts;
6. Immunization records;
7. Attendance records;
8. Intelligence and aptitude scores;
9. Residency Form
10. Home Language Survey
11. Psychological reports;
12. Achievement test results;
13. Participation in extracurricular activities;
14. Honors and awards;
15. Special education records (maintained pursuant to IDEA requirements);
16. Verified reports or information from non-educational persons;
17. Verified information of clear relevance to the student's education;

19. Disciplinary records.

The District has determined that the following documentation shall be permanently maintained:

1. The unique student identifier;
2. Transcript;
3. Graduation date;

Other content of the student record shall be maintained for a period of seven years after a student graduates or permanently leaves the District, except for those records for which longer retention is required.

Special Education Records shall be maintained in accordance with then-applicable special education laws, as such may change from time to time.

### Personnel Responsible for Records Maintenance

The District's public records custodian, in conjunction with the Superintendent and their designee shall be responsible for the maintenance, retention, or destruction of a student's records, in accordance with the District's procedure established by the Superintendent.

## Access to Student Records

The District shall grant access to student records as follows:

1. The District or any District employee shall not release, disclose, or grant access to information found in any student record except under the conditions set forth in this policy and consistent with the provisions of State and federal law. This includes the provisions of IC 33-133.
2. The parents of a student under 18 years of age shall be entitled to inspect and copy information in the child's school records. Such requests shall be made in writing and directed to the records custodian. Access to the records shall be granted within five school days of the District's receipt of such a request unless state or federal law specifically provides another length of time.

Where the parents are divorced or separated, both shall be permitted to inspect and copy the student's school records unless a court order indicates otherwise. The District shall send copies of the following to both parents at either one's request, unless a court order indicates otherwise or parental rights have been terminated by court order or parental agreement:

- A. Academic progress reports or records;
- B. Health reports;
- C. Notices of parent-teacher conferences;
- D. School calendars distributed to parents/guardians; and
- E. Notices about open houses and other major school events, including pupil-parent interaction.

When the student reaches 18 years of age or otherwise becomes emancipated, the rights detailed herein for the parent/legal guardian are transferred to the student, unless otherwise addressed by the student, permitted parental access to the student information system, or via court order/guardianship. Additionally, the parents of dependent students, as defined by the Internal Revenue Service (i.e. student termed dependent for income tax purposes) may have access to student educational records if the parents establish this right, via either a copy of the applicable tax forms and/or a Parental Affidavit for Educational Records attesting to the student's dependent status.

Access shall not be granted to the parent or the student to confidential letters and recommendations concerning the admission to a post-secondary educational institution, applications for employment, or the receipt of an honor or award, if the student has waived their right of access after being advised of their right to obtain the names of all persons making such confidential letters or statements.

3. The District may grant access to, or release information from, student records to employees or officials of the District or the Idaho State Board of Education, provided a current, demonstrable, educational or administrative need is shown, without parental consent or notification. Access in such cases shall be limited to the satisfaction of that need.
4. For purposes of an audit or evaluation by a federal or State-supported education program, and to comply with federal requirements related to such a program. The receiving entity must be a State or educational authority ~~or~~ another entity allowed by the Family Educational Rights and Privacy Act (FERPA), or must be an authorized representative of such an entity.

For each new audit, evaluation, or enforcement effort, the District shall enter into a written agreement when designating anyone other than its employee as its authorized representative. The District shall be responsible for using reasonable methods to ensure, to the greatest extent practicable, that the authorized representative:

- A. Uses the personal information only for the authorized purpose;
  - B. Protects the personal information from further unauthorized disclosures or other uses; and
  - C. Destroys the personal information when it is no longer needed for the authorized purpose. Such destruction shall be affected by any specified time period set forth in the written agreement.
5. The District may grant access to, or release information from, student records without parental consent or notification to any person, for the purpose of research, statistical reporting, or planning, provided that no student or parent can be identified from the information released, and the person to whom the information is released signs an affidavit agreeing to comply with all applicable statutes and rules pertaining to school student records. Any such release in this regard shall be consistent with Idaho Code and Policy 3575 relating to the limitations on the release of student data.
  6. The District shall grant access to, or release information from, a student's records pursuant to a court order or appropriate subpoena. In most instances, the parent/qualified student shall be given prompt written notice of such order/subpoena, a general statement of the documents which will be released, and the proposed date of release of the documentation requested. However, there are very limited circumstances under the USA Patriot Act where schools are required to disclose information without notice to the parent or student to the Attorney General of the United States upon an ex parte order in connection with the investigation or prosecution of terrorism crimes or other such specified situations when the court order prohibits disclosure (i.e. Federal Grand Jury Subpoena or Law Enforcement Subpoena wherein such order indicates disclosure is not permitted).
  7. The District shall grant access to or release information from any student record as specifically required by federal or state statute.
  8. The District shall grant access to, or release information from, student records to any person possessing a written, dated consent, signed by the parent or eligible student with particularity as to whom the records may be released, the information or record to be released, and the reason for the release. One copy of the consent form will be kept in the records, and one copy shall be mailed to the parent or eligible student by the Superintendent. Whenever the District requests the consent to release certain records, the records custodian shall inform the parent or eligible student of the right to limit such consent to specific portions of information in the records.
  9. The District may release student records to the Superintendent or an official with similar responsibilities in a school in which the student has enrolled or intends to enroll, upon written request from such official.
  10. Prior to the release of any records or information under items 6, 7, 8, and 9 above, the District shall provide prompt written notice to the parents or eligible student of this intended action except as specified in item 6. This notification shall include a statement concerning the nature and substance of the records to be released and the right to inspect, copy, and challenge the contents.
  11. The District may release student records<sup>467</sup> information in connection with an emergency, without parental consent, if the knowledge of such information is necessary to protect the health or safety of the student or other persons. The records custodian shall make this

decision taking into consideration the nature of the emergency, the seriousness of the threat to the health and safety of the student or other persons, the need for such records to meet the emergency, and whether the persons to whom such records are released are in a position to deal with the emergency. Any release that is made must be narrowly tailored considering the immediacy, magnitude, and specificity of the information concerning the emergency and the information should only be released to those persons whose knowledge of the information is necessary to provide immediate protection of the health and safety of the student or other individuals (i.e. law enforcement, public health officials, trained medical personnel). The length of the exception is limited to the period of the emergency and does not allow for a blanket release of personally identifiable information from a student's records. The District shall notify the parents or eligible student as soon as possible of the information released; the date of the release; the person, agency, or organization to which the release was made; and the purpose of the release and the same information shall be recorded in the student's record log.

12. The District will comply with an ex parte order requiring it to permit the U.S. Attorney General or designee to have access to a student's school records without notice to or consent of the student's parent(s)/guardian(s).
13. The District may charge a fee for copying information in the student's records. No parent or student shall be precluded from copying information because of financial hardship. See Policy 4260 for information regarding the District copy fee schedule.
14. A log of all releases of information from student records, including all instances of access granted, whether or not records were copied, shall be kept and maintained as part of such records. This log shall be maintained for the life of the student record and shall be accessible only to the parent or eligible student, records custodian, or other such person. The log of release shall include:
  - A. Information released or made accessible;
  - B. The name and signature of the records custodian;
  - C. The name and position of the person requesting the release or access;
  - D. The legitimate interests the parties had in requesting or obtaining the information;
  - E. The date of the release or grant of access;
  - F. A copy of any consent to such release; and
  - G. Any additional information required by State or federal law.

### Directory Information

The District may release certain directory information regarding students, except that parents may prohibit such a release. Directory information shall be limited to:

1. Name;
2. Grade level;
3. Academic awards, degrees, and honors;
4. Information in relation to school-sponsored activities, organizations, and athletics;
5. Major field of study;
6. Period of attendance in school; and
7. A student's photo solely for the purpose of publication or recognition of a student's honors, awards, or achievements, or for any District informational or promotional use on its social media or other publications, or for any yearbook.

The notification to parents and students concerning school records will inform them of their right to object to the release of directory information.<sup>468</sup>

### Military Recruiters/Institutions of Higher Education

Pursuant to federal law, the District is required to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education upon request. The notification to parents and students concerning school records will inform them of their right to object to the release of this information.

### Student Record Challenges

Parents/guardians may challenge the accuracy, relevancy, or propriety of their student's records, except for challenges made to the following when a student's school records are being forwarded to another school:

1. Grades; and
2. References to expulsions or out-of-school suspensions

Parents/guardians who wish to challenge a record should write to the school principal or records custodian, clearly identifying the part of the record they want changed or removed, and specifying the reason.

If the District decides not to amend the record as requested by the parent(s)/guardian(s) or eligible student, the parent/guardian has the right to request a hearing at which each party has:

Such notice shall be in writing and provided within a reasonable period of time after the hearing. Additional information regarding the hearing procedures will be provided to the parent(s)/guardian(s) or eligible student when notified of the right to a hearing.

## Minidoka County Joint School District #331

### STUDENTS

3570F1

#### Student Records

#### Notification to Parents' and Students of Rights Concerning a Student's School Records

*This notification will be distributed annually and may be distributed by any means likely to reach the parent(s)/guardian(s). The District shall effectively notify parents and eligible students who have a disability and those whose primary or home language is not English. To be in compliance, this form must be distributed with a copy of Procedure 3570P Student Records.*

The District will maintain a record for each student that shall contain the information listed in the attached copy of Procedure 3570P

#### Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's education records. They are:

1. **The right to inspect and copy the student's education records within a reasonable time of the day the District receives a request for access.**

Students less than 18 years of age have the right to inspect and copy their permanent record. Parents/guardians or students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent(s)/guardian(s) or eligible student of the time and place where the records may be inspected.

The District charges a nominal fee for copying, but no one will be denied their right to copies of their records for inability to pay this cost.

The rights contained in this section are denied to any person against whom an order of protection has been entered concerning a student.

When the student reaches 18 years of age or meets other criteria specified in Procedure 3570P, all rights and privileges accorded to the parent become exclusively those of the student.

2. **The right to request an amendment of the student's education records that the parent(s)/guardian(s) or eligible student believes are inaccurate, misleading, irrelevant, or improper.**

Parents/guardians or eligible students may ask the District to amend a record that they believe is inaccurate, misleading, irrelevant, or improper as described in Procedure 3570P.

**3. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that FERPA or State law authorizes disclosure without consent.**

Disclosure is permitted without consent to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and District safety and security personnel employed by the District); a person serving on the Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent(s)/guardian(s) or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing their tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill their professional responsibility.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person to whom disclosure is specifically required by State or federal law. Before information is released to individuals described in this paragraph, the parent(s)/guardian(s) will receive written notice of the nature and substance of the information and an opportunity to inspect, copy, and challenge the records.

Disclosure is also permitted without consent for research, statistical reporting, or planning purposes as described in Procedure 3070P.

Disclosure is also permitted without consent to any person named in a court order ordering such release and to appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons.

**4. The right to a copy of any school student record proposed to be destroyed or deleted.**

**5. The right to prohibit the release of directory information concerning the parent's/guardian's child.**

Throughout the school year, the District may release directory information regarding students. Directory information is defined in the attached copy of Procedure 3570P

*Any parent(s)/guardian(s) or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30*

*days of the date of this notice. No directory information will be released within this time period, unless the parent(s)/guardian(s) or eligible student is specifically informed otherwise.*

**6. The right to request that information not be released to military recruiters and/or institutions of higher education.**

Pursuant to federal law, the District is required to release the names, addresses, and telephone numbers of all high school students to military recruiters and institutions of higher education upon request.

Parent(s)/guardian(s) or eligible students may request that the District not release this information, and the District will comply with the request.

**7. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.**

The name and address of the office that administers FERPA is:

U.S. Department of Education  
Student Privacy Policy Office  
400 Maryland Avenue, SW  
Washington, DC 20202-4605

The efficient collection, analysis, and storage of student information is essential to improve the education of our students. As the use of student data has increased and technology has advanced, the need to exercise care in the handling of confidential student information has intensified. The privacy of students and the use of confidential student information is protected by federal and State laws, including the Family Educational Rights and Privacy Act (FERPA) and the Idaho Student Data Accessibility, Transparency, and Accountability Act of 2014 (Idaho Data Accountability Act).

Student information is compiled and used to evaluate and improve Idaho's educational system and improve transitions from high school to postsecondary education or the workforce. The Data Management Council (DMC) was established by the Idaho State Board of Education to make recommendations on the proper collection, protection, storage, and use of confidential student information stored within the Statewide Longitudinal Data System (SLDS). The DMC includes representatives from K-12, higher education institutions and the Department of Labor.

This model policy is required by the Idaho Data Accountability Act. In order to ensure the proper protection of confidential student information, the District shall adopt, implement and electronically post this policy to its website. It is intended to provide guidance regarding the collection, access, security, and use of education data to protect student privacy. This policy is consistent with the DMC's policies regarding the access, security, and use of data maintained within the SLDS. Violation of the Idaho Data Accountability Act may result in civil penalties.

### Definitions

**Administrative Security** consists of policies, procedures, and personnel controls including security policies, training, and audits, technical training, supervision, separation of duties, rotation of duties, recruiting and termination procedures, user access control, background checks, performance evaluations, and disaster recovery, contingency, and emergency plans. These measures ensure that authorized users know and understand how to properly use the system in order to maintain security of data.

**Aggregate Data** is collected or reported at a group, cohort, or institutional level and does not contain PII.

**Data Breach** is the unauthorized acquisition of PII.

**Logical Security** consists of software safeguards for an organization's systems, including user identification and password access, authenticating, access rights, and authority levels. These measures ensure that only authorized users are able to perform actions or access information in a network or a workstation.

**Personally Identifiable Information (PII)** includes: a student's name; the name of a student's family; the student's address; the students' social security number; a student education unique identification number or biometric record; or other indirect identifiers such as a student's date of

birth, place of birth or mother's maiden name; and other information that alone or in combination is linked or linkable to a specific student that would allow a reasonable person in the school community who does not have personal knowledge of the relevant circumstances, to identify the student.

**Physical Security** describes security measures designed to deny unauthorized access to facilities or equipment.

**Student Data** means data collected at the student level and included in a student's educational records.

**Unauthorized Data Disclosure** is the intentional or unintentional release of PII to an unauthorized person or untrusted environment.

### Collection

The District shall follow applicable State and federal laws related to student privacy in the collection of student data.

### Access

Unless prohibited by law or court order, the District shall provide parents, legal guardians, or eligible students, as applicable, the ability to review their child's educational records.

The Superintendent or designee, is responsible for granting, removing, and reviewing user access to student data. An annual review of existing access shall be performed.

Access to PII maintained by the District shall be restricted to:

1. The authorized staff of the District who require access to perform their assigned duties; and
2. Authorized employees of the State Board of Education and the State Department of Education who require access to perform their assigned duties; and
3. Vendors who require access to perform their assigned duties.

### Security

The District shall have in place Administrative Security, Physical Security, and Logical Security controls to protect from a Data Breach or Unauthorized Data Disclosure. The District shall immediately notify the Executive Director of the Idaho State Board of Education and the State Superintendent of Public Instruction in the case of a confirmed Data Breach or confirmed Unauthorized Data Disclosure. The District shall also notify in a timely manner affected individuals, students, and families if there is a confirmed Data Breach or confirmed Unauthorized Data Disclosure.

### Use

Publicly released reports shall not include PII and shall use Aggregate Data in such a manner that re-identification of individual students is not possible.

District contracts with outside vendors involving student data, which govern databases, online services, assessments, special education or instructional supports, shall include the following provisions which are intended to safeguard student privacy and the security of the data:

1. Requirement that the vendor agree to comply with all applicable State and federal law;
2. Requirement that the vendor have in place Administrative Security, Physical Security, and Logical Security controls to protect from a Data Breach or Unauthorized Data Disclosure;
3. Requirement that the vendor restrict access to PII to the authorized staff of the vendor who require such access to perform their assigned duties;
4. Prohibition against the vendor’s secondary use of PII including sales, marketing, or advertising;
5. Requirement for data destruction and an associated timeframe; and
6. Penalties for non-compliance with the above provisions.

The District shall clearly define what data is determined to be directory information.

If the District chooses to publish directory information which includes PII, parents must be notified annually in writing and given an opportunity to opt out of the directory within a specified period of time. If a parent does not opt out, the release of the information as part of the directory is not a Data Breach or Unauthorized Data Disclosure.

## Board Policy 3580: Relations with Non-Custodial Parents (Alternatives) Status:

Original Adopted Date: | Last Reviewed Date:

### Access to Students

The parent with whom the student primarily resides shall be recognized by the District as the custodial parent unless a current legal document or signed parental agreement indicates otherwise. Unless there are specific court-imposed restrictions on custody or visitation, such as:

1. A final divorce decree;
2. Interim orders, in the case that the parents are separated; or
3. A restraining order,

the non-custodial parent, upon written request, may visit the child briefly at school. If restrictions are made relative to these rights, the custodial parent will be required to submit a certified copy of all relevant court orders, to the Superintendent, which curtails these specific rights.

Upon receiving such a proof of a court-imposed restriction as described above, the building principal will comply with the court order. Parents are responsible for providing the building principal a copy of any such documents that may limit a parent's rights with respect to the student.

While both parents, absent a court document described above can visit the student at school, only the custodial parent has the right to remove the student from school property. Only a verified note from the custodial parent will be cause for exception to this provision. If school personnel anticipate possible student abduction, law enforcement personnel are to be notified immediately. If a parent attempts to visit their child or remove the child from the school in violation of the court order, the building principal will immediately contact law enforcement and the Superintendent or their designee.

### Access to Student Records

Unless informed otherwise, the Minidoka County Joint School District assumes that there are no restrictions regarding the non-custodial parent's right to be kept informed of the student's school progress and activities. If restrictions are made relative to these rights, the custodial parent will be required to submit to the Superintendent a certified copy of all relevant court orders which curtail these specific rights. Otherwise, the non-custodial parent, upon written request may view the student's educational, medical, or similar records maintained in such student's cumulative record, receive school progress reports, and have an opportunity to conference with the student's teacher(s).

The custodial parent has the responsibility to keep the school office informed as to the address of the student's primary residence, in a manner determined by the school, and how he or she may be contacted at all times. The School District reserves the right to request verification in the form of a certified court document from any party presenting legal documents.

If requested by the custodial parent and pursuant to Idaho Code § 32-717(A), the District will redact the home address of the student from education records prior to providing such records to the noncustodial parent, if requested in writing.

### Enrollment

If the parents of a student are divorced or separated, either parent with whom the child lives and who resides within the District boundaries, may enroll the student in school. For the District's purposes, the enrolling parent has no greater rights or responsibilities pursuant to the education of the student unless the District has been notified that there exists a court-imposed restriction as described in this policy.

If request is made for a flagged record, the record shall not be forwarded and the local law enforcement agency shall be notified of the request for the flagged record.

Any request concerning flagged records or knowledge as to the whereabouts of a missing or runaway child shall immediately be reported to the local law enforcement agency. **TIME SHEET**

All drivers are required to record hours worked and days absent on their timesheet on a daily basis as per each driver's work agreement. The work agreement will include actual route hours plus 15 minutes per trip for pre-trip inspection for busses left unattended for more than one hour, the 15 minutes is intended to address variance in actual route driving time, fueling the bus, keeping it clean, work related phone calls, and doing routine paperwork and reports.

When the actual route time changes from the established route time, due to permanent changes in the routes or stops the route needs to be reevaluated and adjustments in time made.

If the actual route time exceeds the established route time because of weather conditions, breakdowns, or other unforeseen circumstances, immediate notification must be made to the dispatcher or designee who in turn must notify the supervisor who is on duty.

Time is rounded up to the nearest quarter hour at the end of each day. For instance, three hours and 55 minutes will equal (4) four hours total pay for the day. Overtime will be paid according to policy #594.00.

The time sheet is to be submitted to the secretary dispatcher for review and verification prior to approval by the Transportation Supervisor. Under no circumstances is a driver to mark another employee's timesheet. Time sheets are to remain with the employee and it is the employee's responsibility to properly fill out the time sheet prior to submitting it to the secretary dispatcher. Claiming hours, which have not been authorized and worked on a time sheet, constitutes sufficient grounds for termination. At the end of the pay period, the employee is to sign the time sheet approved by central office certifying that the hours recorded are true and accurate.

Non-route driving must be clearly indicated on the time card and coded for a specific purpose (1=field trip, 2=Training etc.) (See attached time card example)

**MINIMUM CALL OUT**

When a driver is called back to work outside their established work schedule, they will be paid a minimum of 2 (two) hours at their normal rate. If the time between the completion of one route and the beginning of a second route is less than one hour and the driver elects to stay on the bus premises on duty between routes, the employee will be compensated for the difference of up to one hour based on normal pay. He/she will be required to perform other duties as prescribed by the Transportation Supervisor while not driving. If the employee desires to leave the bus compound to attend to personal matters between routes, no compensation will be allowed.

**EXTRA CURRICULAR & FIELD TRIPS**

When drivers are on extracurricular trips, they will be paid from the time they leave the gate until they return upon completion of the trip and complete the post trip inspection. (Cleaning, fueling etc.) The rate of pay shall be an hourly rate as established by the Board of Trustees. If the driver arrives at the yard to begin preparation for the trip and the trip is canceled by the school, the driver will receive a minimum of (2) two hours pay.

**OVERNIGHT TRIPS**

In the event the extracurricular or field trip is an overnight trip outside of this district, the driver shall be limited to an "on duty" status for a maximum of 10 hours per day and will be paid at an hourly rate as established by the Board of Trustees.

**BUS WASHES**

Each driver is responsible for maintaining the cleanliness of the exterior of the bus assigned to the route he/she drives. The driver will be authorized to wash the exterior of his/her bus the amount of times per month as approved by the Transportation Supervisor and will be paid at their regular hourly rate for each wash (See Policy 816.40 Transportation Pay Rates). A driver may request another driver to wash his/her bus. If this occurs, the driver actually washing the bus will receive the payment for the work.

**TRAINING PAY**

All drivers who are required to attend training shall be paid a training rate as established by the board of Trustees.
