TECHNOLOGY CENTER

March 1, 2024

Mr. Mike Franz,

In an effort to meet the requirements set forth by the OSDE and the ODCTE, I need your assistance in obtaining the approval of your local board of education in order for the academic courses listed on the attached sheets to be counted for academic credit for students from your district that attend Gordon Cooper Technology Center and to allow sophomore students from your district to enroll at Gordon Cooper Technology Center as well. The academic courses in question are the same courses that have been offered through Gordon Cooper Technology Center for the past several years. The accompanying document provides much more detail regarding the academic courses offered at Gordon Cooper Technology Center to your students. All courses have been approved by the Oklahoma State Board of Education for Gordon Cooper Technology Center to offer, all courses are taught current standards, and all courses are taught by a Highly Qualified teacher per the federal NCLB guidelines.

As a reminder, our involvement in providing academic coursework began several years ago when graduation requirements began to increase. Our desire is to simply offer academic courses for students that choose to attend Gordon Cooper Technology Center. As we all know, it has become harder and harder for kids to meet increased graduation requirements. I hope our offering these courses provides a sound option for your students in both areas.

For those districts that offer weighted credit for various courses and/or various courses at various grade levels I would also ask that you consider the same courses that we offer for similar weighted credit. Concerning any of the courses that we offer, if you need additional information please let me know and I will provide whatever you may need.

In addition I would ask you to approve allowing any of your sophomores to enroll in appropriate CTE courses at Gordon Cooper Technology Center. Right now that would only include Pre-Engineering Academy students and possibly IEP students where appropriate.

Thanks for your help and after your board approves this request simply sign and email a copy to Ronda Brady at rondab@gctech.edu of the attached form and the board agenda. Please review the attached information and call me if you have any questions. I will be happy to present to you or your board if you feel it is necessary.

Respectfully submitted,

Julie McCormick, Superintendent

Wellston Public Schools
Wellston, OK

We are pleased to confirm our understanding of the services we are to provide Wellston Public Schools for the year ended June 30, 2024.

Audit Scope and Objectives

We will audit the financial statements - regulatory basis including the notes to the financial statements which collectively comprise the basic financial statements of Wellston Public Schools as of and for the year ended June 30, 2024. The regulatory basis of accounting provided for certain required supplementary information (RSI) such as the schedule of statutory, fidelity, and honesty bonds. Such information, although not a part of the basic financial statements, is required by the Oklahoma Department of Education who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. As part of our engagement, we will apply certain limited procedures to Wellston Public School's RSI in accordance with auditing standards generally accepted in the United States of America. These limited procedures will consist of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We will not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance. The following RSI is required by the regulatory basis of accounting and will be subjected to certain limited procedures, but will not be audited.

1. Schedule of statutory, fidelity, and honesty bonds.

We have also been engaged to report on supplementary information other than RSI that accompanies Wellston Public School's financial statements. We will subject the following supplementary information to the auditing procedures applied in our audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America, and we will provide an opinion on it in relation to the financial statements as a whole, in a separate written report accompanying our auditor's report on the financial statements OR in a report combined with our auditor's report on the financial statements.

1. Schedule of expenditures of federal awards.
2. Combining statement of assets, liabilities, and fund equity all agency funds.
3. Combining statement of changes in assets and liabilities activity fund.

The objectives of our audit are to obtain reasonable assurance as to whether the financial statements as a whole are free from material misstatement, whether due to fraud or error: issue an auditor's report that includes my opinion about whether or not your financial statements are fairly presented, in all material respects, in conformity with the regulatory basis of accounting of the Oklahoma Department of Education; and to report on the fairness of the supplementary information referred to in the second paragraph when considered in relation to the financial statements as a whole. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and Government Auditing Standards will always detect a material misstatement when it exists. Misstatements, including omissions, can arise from fraud or error and are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment of a reasonable user made based on the financial statements.

The objectives also includes reporting on-

- * Internal Control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements in accordance with *Government Auditing Standards*.
- * Internal control related to major programs and an opinion (or disclaimer of opinion) on compliance with laws, regulations, and the provisions of contracts or grant agreements that could have a direct and material effect on each major program in accordance with the Single Audit Act Amendments of 1996 and Title 2 U.S. *Code of Federal Regulations* (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Auditor's Responsibilities for the Audit of the Financial Statements

We will be conduct our audit in accordance with auditing standards generally accepted in the United States of America; the standards for financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the Single Audit Act Amendments of 1996; and the provisions of Uniform Guidance, and will include tests of accounting records, a determination of major program(s) in accordance with Uniform Guidance, and other procedures we consider necessary to enable us to express such opinions. As part of an audit in accordance with GAAS and Government Auditing Standards, we will exercise professional judgment and maintain professional skepticism throughout the audit.

We will evaluate the appropriateness of accounting policies used and the reasonableness of significant estimates made by management. We will also evaluate the overall presentation of the financial statements including the disclosures, and determine whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We will plan and perform the audit to obtain reasonable rather than absolute assurance about whether the financial statements are free of material misstatement, whether from (1) errors, (2) fraudulent financial reporting, (3) misappropriation of assets, or (4) violations of laws or governmental regulations that are attributable to the government or to acts by management or employees acting on behalf of the government. Because the determination of waste and abuse is subjective, *Government Auditing Standards* do not expect auditors to perform specific procedures to detect waste or abuse in financial audits nor do they expect auditors to provide reasonable assurance of detecting waste or abuse .

Because of the inherent limitations of an audit, combined with the inherent limitations of internal control, and because we will not perform a detailed examination of all transactions, there is an unavoidable risk that some material misstatements may not be detected by us, even though the audit is properly planned and performed in accordance with the regulatory basis of accounting of the Oklahoma Department of Education and *Government Auditing Standards*. In addition, an audit is not designed to detect immaterial misstatements or violations of laws or governmental regulations that do not have a direct and material effect on the financial statements or major programs. However, we will inform the appropriate level of management of any material errors, fraudulent financial reporting, or misappropriation of assets that come to our attention. We will also inform the appropriate level of management of any violations of laws or governmental regulations that come to our attention, unless clearly inconsequential. We will include such matters in the reports required for a Single Audit. Our responsibility as auditors is limited to the period covered by our audit and does not extend to any later periods for which we are not engaged as auditors.

We will conclude, based on the audit evidence obtained, whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the government's ability to continue as a going concern for a reasonable amount of time.

Our procedures will include tests of documentary evidence supporting the transactions recorded in the accounts, tests of the physical existence of inventories, and direct confirmation of receivables and certain assets and liabilities by correspondence with selected individuals, funding sources, creditors, and financial institutions. We will also request written representations from your attorneys as part of the engagement.

We may, from time to time and depending on the circumstances, use third-party service providers in serving your account. We may share confidential information about you with these service providers, but remain committed to maintaining the confidentiality and security of your information. Accordingly, we maintain internal policies, procedures, and safeguards to protect the confidentiality of your personal information. In addition, we will secure confidentiality agreements with all service providers to maintain the confidentiality of your information and we will take reasonable precautions to determine that they have appropriate procedures in place to prevent the unauthorized release of your confidential information to others. In the event that we are unable to secure an appropriate confidentiality agreement, you will be asked to provide your consent prior to the sharing of your confidential information with the third-party service provider. Furthermore, we will remain responsible for the work provided by any such third-party service providers.

Our audit of the financial statements does not relieve you of your responsibilities.

Audit Procedures-Internal Control

We will obtain an understanding of the government and its environment, including the system of internal control, sufficient to identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and to design and perform the audit procedures responsive to those risks and obtain evidence that is sufficient and appropriate to provide a basis for our opinions. Tests of controls may be performed to test the effectiveness of certain controls that we consider relevant to preventing and detecting errors and fraud that are material to the financial statements and to preventing and detecting misstatements resulting from illegal acts and other non-compliance matters that have a direct and material effect on the financial statements. Our tests, if performed, will be less in scope than would be necessary to render an opinion on internal control and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to *Government Auditing Standards*. The risk of not detecting a material misstatement resulting from fraud is higher than on resulting from error, as fraud may involve collusion, forgery, intentional

omissions, misrepresentation, or the override of internal control. An audit is not designed to provide assurance on internal control or to identify significant deficiencies or material weaknesses. Accordingly, we will express no such opinion. However, during the audit, we will communicate to management and those charged with governance internal control related matters that are required to be communicated under AICPA professional standards and Government Auditing Standards.

As required by the Uniform Guidance, we will perform tests of controls over compliance to evaluate the effectiveness of the design and operation of controls that we consider relevant to preventing or detecting material noncompliance with compliance requirements applicable to each major federal award program.

However, our tests will be less in scope than would be necessary to render an opinion on those controls and, accordingly, no opinion will be expressed in our report on internal control issued pursuant to the Uniform Guidance.

Audit Procedures- Compliance

As part of obtaining reasonable assurance about whether the financial statements are free of material misstatement, we will perform tests of Wellston Public School's compliance with provisions of applicable laws, regulations, contracts, and agreements, including grant agreements. However, the objective of those procedures will not be to provide an opinion on overall compliance and we will not express such as an opinion in our report on compliance issued pursuant to *Government Auditing Standards*.

The Uniform Guidance requires that we also plan and perform the audit to obtain reasonable assurance about whether the auditee has complied with applicable laws and regulations and the provisions of contracts and grant agreements applicable to major programs. Our procedures will consist of tests of transactions and other applicable procedures described in the *OMB Compliance Supplement* for the types of compliance requirements that could have a direct and material effect on each of Wellston Public School's major programs. The purpose of these procedures will be to express an opinion on Wellston Public School's compliance with requirements applicable to each of its major programs in our report on compliance issued pursuant to the Uniform Guidance.

Other Services

We will also assist in preparing estimate of needs, the financial statements, schedule of expenditures of federal awards, and related notes of Wellston Public School in conformity with the regulatory basis of accounting of the Oklahoma Department of Education and the Uniform Guidance based on information provided by you. These nonaudit services do not constitute an audit under *Government Auditing Standards* and such services will not be conducted in accordance with *Government Auditing Standards*. We will perform the services in accordance with applicable professional standards. The other services are limited to the financial statements, schedule of expenditures of federal awards, and related notes services previously defined. We, in our sole professional judgment, reserve the right to refuse to perform any procedure or take any action that could be construed as assuming management responsibilities.

You agree to assume all management responsibilities relating to the financial statements and related notes and any nonaudit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements and related notes prior to their issuance and have accepted responsibility for them. Further, you agree to oversee the nonaudit services by designating an individual, preferable from senior management, with suitable skill, knowledge, or experience, evaluate the adequacy and results of those services and accept responsibility for them.

Responsibilities of Management for the Financial Statements

Our audit will be conducted on the basis that you acknowledge and understand your responsibility for designing, establishing, and maintaining effective internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, and for evaluating and monitoring ongoing activities to help ensure that appropriate goals and objectives are met; following laws and regulations; and ensuring that management and financial information is reliable and properly reported. Management is also responsible for implementing systems designed to achieve compliance with applicable laws, regulations, contracts, and grant agreements. You are also responsible for the selection and application of accounting principles; for the preparation and fair presentation of the financial statements, schedule of expenditures of federal awards, and all accompanying information in conformity with the regulatory basis of accounting of the Oklahoma Department of Education; and for compliance with applicable laws and regulations and the provisions of contracts and grant agreements (including award agreements).

Management is responsible for making drafts of financial statements all financial records and related information available to us and for the accuracy and completeness of that information (including information from outside of the general and subsidiary ledgers). You are also responsible for providing us with (1) access to all information of which you are aware that is relevant to the preparation and fair presentation of the financial statements, such as records, documentation, identification of all related parties and related-party relationships and transactions and other matters (2) access to personnel, accounts, books, records, supporting documentation, and other information as needed to perform an audit under the Uniform Guidance (3) additional information that we may request for the purpose of the audit and (4) unrestricted access to persons within the government from whom we determine it necessary to obtain audit evidence. At the conclusion of our audit, we will require certain written representations from you about your responsibilities for the financial statements; compliance with laws, regulations, contracts, and grant agreements; and other responsibilities required by GAAS and Government Auditing Standards.

Your responsibilities include adjusting the financial statements to correct material misstatements and for confirming to us in the written representation letter that the effects of any uncorrected misstatements aggregated by us during the current engagement and pertaining to the latest period presented are immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

You are responsible for the design and implementation of programs and controls to prevent and detect fraud, and for informing us about all known or suspected fraud affecting the government involving (1) management, (2) employees who have significant roles in internal control, and (3) others where the fraud could have a material effect on the financial statements. Your responsibilities include informing us of your knowledge of any allegations of fraud or suspected fraud affecting the government received in communication from employees, former employees, grantors, regulators, or others. In addition, you are responsible for identifying and ensuring that the government complies with applicable laws, regulations, contracts, agreements, and grants and for taking timely and appropriate steps to remedy fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements, or abuse that we report. Additionally, as required by the Uniform Guidance, it is management's responsibility to follow up and take corrective action on reported audit findings and to prepare a summary schedule of prior audit findings and a corrective action plan. The summary schedule of prior audit findings should be available for our review on June 30, 2022.

You are responsible for identifying all federal awards received and understanding and complying with the compliance requirements and for the preparation of the schedule of expenditures of federal awards (including notes and noncash assistance received) in conformity with the Uniform Guidance. You agree to include our

report on the schedule of expenditures of federal awards in any document that contains and indicates that we have reported on the schedule of expenditures of federal awards. You also agree to include the audited financial statements with any presentation of the schedule of expenditures of federal awards that includes our report thereon OR make the audited financial statements readily available to intended users of the schedule of expenditures of federal awards no later than the date the schedule of expenditures of federal awards is issued with our report thereon. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for presentation of the schedule of expenditures of federal awards in accordance with the Uniform Guidance; (2) you believe the schedule of expenditures of federal awards, including its form and content, is fairly presented in accordance with the Uniform Guidance; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reason for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the schedule of expenditures of federal awards.

You are also responsible for the preparation of the other supplementary information, which we have been engaged to report on, in conformity with the regulatory basis of accounting. You agree to include our report on the supplementary information in any document that contains and indicates that we have reported on the supplementary information. You also agree to include the audited financial statements with any presentation of the supplementary information that includes our report thereon or make the audited financial statements readily available to users of the supplementary information no later than the date the supplementary information is issued with our report thereon. Your responsibilities include acknowledging to us in the written representation letter that (1) you are responsible for presentation of the supplementary information in accordance with the regulatory basis; (2) you believe the supplementary information, including its form and content, is fairly presented in accordance with the regulatory basis; (3) the methods of measurement or presentation have not changed from those used in the prior period (or, if they have changed, the reason for such changes); and (4) you have disclosed to us any significant assumptions or interpretations underlying the measurement or presentation of the supplementary information.

Management is responsible for establishing and maintaining a process for tracking the status of audit findings and recommendations. Management is also responsible for identifying and providing report copies of previous financial audits, attestation engagements, performance audits, or other studies related to the objectives discussed in the Audit Objectives section of this letter. This responsibility includes relaying to us corrective actions taken to address significant findings and recommendations resulting from those audits, attestation engagements, performance audits, or studies. You are also responsible for providing management's views on our current findings, conclusions, and recommendations, as well as your planned corrective actions, for the report, and for the timing and format for providing that information.

You agree to assume all management responsibilities relating to the financial statements, schedule of expenditures of federal awards, related notes, and any other non audit services we provide. You will be required to acknowledge in the management representation letter our assistance with preparation of the financial statements, schedule of expenditures of federal awards, and related notes and that you have reviewed and approved the financial statements, schedule of expenditures of federal awards, and related notes prior to their issuance and have accepted responsibility for them. Further, you agree to oversee the nonaudit services by designating an individual, preferably from senior management, with suitable skill, knowledge, or experience; evaluate the adequacy and results of those services; and accept responsibility for them.

Engagement Administrations, Fees, and Other

We understand that your employees will prepare all cash, accounts receivable, or other confirmations we request and will locate any documents selected by us for testing.

We will provide copies of our reports to the District; however, management is responsible for distribution of the reports and the financial statements. Unless restricted by law or regulation, or containing privileged and confidential information, copies of our reports are to be made available for public inspection.

The audit documentation for this engagement is the property of Ralph Osborn, CPA and constitutes confidential information. However, subject to applicable laws and regulations, audit documentation and appropriate individuals will be made available upon request and in a timely manner to Oklahoma Department of Education or its designee, a federal agency providing direct or indirect funding, or the U.S. Government Accountability Office for purposes of a quality review of the audit, to resolve audit findings, or to carry out oversight responsibilities. We will notify you of any such request. If requested, access to such audit documentation will be provided under the supervision of Ralph Osborn, CPA personnel. Furthermore, upon request, we may provide copies of selected audit documentation to the aforementioned parties. These parties may intend, or decide, to distribute the copies or information contained therein to others, including other governmental agencies.

The audit documentation for this engagement will be retained for a minimum of five years after the report release date or for any additional period requested by the cognizant agency, oversight agency, or pass-through entity. If we are aware that a federal awarding agency, pass-through entity, or auditee is contesting an audit finding, we will contact the party(ies) contesting the audit finding for guidance prior to destroying the audit documentation.

Our fee for these services will not exceed \$5,000. Our invoices for these fees will be rendered each month as work progresses and are payable on presentation. In accordance with our firm policies work may be suspended if your account becomes sixty days or more overdue and may not be resumed until your account is paid in full. If we elect to terminate our services for nonpayment, our engagement will be deemed to have been completed upon written notification of termination, even if we have not completed our report(s). You will be obligated to compensate us for all time expended and to reimburse us for all out-of-pocket costs through the date of termination. The above fee is based on anticipated cooperation from your personnel and the assumption that unexpected circumstances will not be encountered during the audit. If significant additional time is necessary, we will discuss it with you and arrive at a new fee estimate before we incur the additional costs.

Reporting

We will issue a written report upon completion of our audit of your financial statements. Our report will be addressed to the Board of Education of Wellston Public Schools. Circumstances may arise in which our report may differ from its expected form and content based on the results of our audit. Depending on the nature of these circumstances, it may be necessary for us to modify our opinions, add a separate section, or add an emphasis-of-matter or other-matter paragraph to our auditor's report, or if necessary, withdraw from this engagement. If our opinions are other than unmodified, we will discuss the reasons with you in advance. If, for any reason, we are unable to complete the audit or are unable to form or have not formed opinions, we may decline to express opinions or issue reports or we may withdraw from the engagement.

We will also provide a report (that does not include an opinion) on internal control related to the financial statements and compliance with the provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a material effect on the financial statements as required by Government Auditing Standards. The report on internal control and on compliance and other matters will state (1) that the purpose of the report is solely to describe the scope of testing of internal control and compliance, and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control on compliance, and (2) that the report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. The report will also state that the report is not suitable for any other purpose. If during our audit we become aware that the entity is subject to an audit requirement that is not encompassed in the terms of this engagement, we will communicate to management and those charged with governance that an audit in accordance with the regulatory basis and the standards of financial audits contained in Government Auditing Standards may not satisfy the relevant legal, regulatory, or contractual requirements.

At the conclusion of the engagement, we will complete the appropriate sections of the Data Collection Form that summarizes our audit findings. It is management's responsibility to submit the reporting package (including financial statements, schedule of expenditures of federal awards, summary schedule of prior audit findings, auditors' reports, and corrective action plan) along with the Data Collection Form to the federal audit clearinghouse. We will coordinate with you the electronic submission and certification. If applicable, we will provide copies of our report for you to include with the reporting package you will submit to pass-through entities. The Data Collection Form and the reporting package must be submitted within the earlier of 30 days after receipt of the auditors' reports or nine months after the end of the audit period, unless a longer period is agreed to in advance by the cognizant or oversight agency for audits.

We appreciate the opportunity to be of service to Wellston Public Schools and believe this letter accurately summarizes the significant terms of our engagement. If you have any questions, please let us know. If you agree with the terms of our engagement as described in this letter, please sign the enclosed copy and return it to us.

Very truly yours,

Ralph Osborn

SCHOOL SECURITY SURVEILLANCE CAMERAS

The School District seeks to promote and foster school safety and a safe and effective educational and work environment. After having carefully considered and balanced the individual’s right to be free from invasion of privacy with the School District’s interest and duty to promote the health, welfare and safety of students and staff as well as the health, safety and welfare of members of the general public who have occasion to use school facilities and enhance the protection of school property, the School District supports and reserves the right to place and use surveillance cameras, when necessary and appropriate, in its schools, school facilities, school buses and/or on its school grounds.

The primary uses of surveillance cameras are as follows: (i) to promote a safe environment by deterring conduct that violates the law or district policy; and (ii) to record images for future identification of individuals in the event of violations of law, district policy and/or school-based rules; (iii) to aid in search of lost or missing children, and (iv) to assist emergency services personnel. Surveillance camera use is limited to uses that do not violate federal or state constitutional protections against unreasonable search and seizure, reasonable expectation of privacy and other applicable laws prohibiting wiretapping and electronic surveillance of aural communications.

Surveillance cameras may be utilized in public areas of schools, school facilities, school buses and school grounds and in areas of schools, school facilities, school buses and school grounds deemed to be at risk for either vandalism or student misconduct. Surveillance cameras will not be used in the private areas of restrooms, showers, locker rooms and dressing rooms and any other area in which there is a reasonable expectation of privacy. Surveillance cameras also will not be used in private offices and classrooms.

Surveillance cameras will not monitor ~~or record~~ sound ~~and will not make audio recordings~~ unless by Court Order and in compliance with wiretap statutes. The use of surveillance cameras and the monitoring of any resultant recordings will be conducted in a professional, ethical, and legal manner and in a manner consistent with all existing policies and state and federal laws and will not be based on a subject’s personal characteristics, including race, gender, ethnicity, sexual orientation, disability, or other protected characteristics. Surveillance cameras are not a guarantee of safety but are a tool that helps deter crime and assist in promoting the safety and security of individuals and property.

Surveillance cameras are implemented as a passive system; no school staff will be designated to view live events in real time on a minute by minute basis. Additionally, surveillance cameras shall not utilize automatic identification, facial recognition, or automatic tracking technologies. Only authorized school personnel, as determined by the Superintendent of Schools or designee, shall be involved with and/or have access to surveillance cameras and any resultant recordings. Additionally, surveillance cameras will be installed and configured to prevent tampering with or unauthorized duplication of recorded information. Furthermore, no surveillance cameras will be installed unless said installation has been approved in advance by the Superintendent of Schools or designee in accordance with the review process set forth below.

Surveillance camera recordings are not considered Directory Information and may be subject to confidentiality restrictions, including but not limited to requirements under the Federal Family Educational Rights Privacy Act. In no instance will surveillance cameras be used to observe and/or evaluate the performance of school district staff or to monitor employees during nonworking time. However, cameras may be used to monitor areas in which an employee works, even if there is only one employee in that area. This policy also does not apply to legitimate academic use of video cameras for educational purposes that have been approved by a school principal.

Implementation, Installation of Surveillance Cameras

To further school safety objectives, the School District’s Safe Schools Committee shall meet as necessary to develop, implement and review both school district and building level safety practices. The Safe Schools Committee will also make recommendations to the building principal regarding the implementation, installation, and use of surveillance

cameras. The Superintendent of Schools or designee shall retain final decision-making authority regarding the recommendations. In determining the most appropriate use and implementation of surveillance cameras in the schools, school facilities, school buses and/or on school grounds, the Safe School Committee’s recommendation will be guided by, at a minimum, the following considerations: a) Demonstrated need for the device at designated location(s); b) Appropriateness and effectiveness of proposed protocol(s); c) The use of additional, less intrusive means to further address the issue of school safety (e.g., restricted access to buildings, use of pass cards or identification badges, increased lighting, alarms); d) Right to reasonable expectation of privacy and other legal considerations; and e) Expense involved to install and to maintain the use of surveillance cameras at designated location(s), including without limitation, schools, school facilities, school buses and/or on school grounds. Additionally, on an annual basis an audit on the location, use and effectiveness of all authorized surveillance cameras and the results shall be provided to the Superintendent of Schools or designee. The Superintendent of Schools or designee shall maintain a current up-to-date record of locations of installed surveillance cameras.

Monitoring employees involved in video monitoring of public areas will perform their duties in accordance with the practices outlined in this policy. Video surveillance monitors shall be located in areas to which access is controlled and shall not be viewable by unauthorized persons. Video recording may only be monitored by staff as authorized by the Superintendent of Schools. No unapproved employees may monitor or view video or camera images for any reason except as necessary in the course of an investigation or adjudication. Any employee violating this policy may be disciplined, up to and including termination. All staff approved to monitor video or camera images shall receive a copy of this policy and provide written acknowledgment that they have read and understand this policy. A log will be maintained by the School District’s safety office that will record the name and date anytime a staff member other than a safety officer views a recording.

Storage

Any video recording used for surveillance purposes in schools, school facilities, school buses and/or on school grounds shall be the sole property of the School District and stored for no more than ~~one~~ two months after which such recordings will be promptly erased unless retained as part of a criminal investigation, court proceeding (criminal or civil), or other bona fide use, as approved by the Superintendent of Schools or designee; and the Superintendent of Schools or designee will be the custodian of such recordings and all such recordings shall be properly protected from unauthorized viewing. A record log will be kept of all instances of access to and use of recorded material.

Release of Information

Requests for viewing a recording must be made in writing to the Superintendent of Schools or designee and all public records requests for recordings that are received will be processed on a case-by-case basis. A determination will need to be made as to whether the information requested is an open record. The request shall identify the individual for whom access is sought, the date(s) and/or time period(s) for which access is sought, and the rationale why access should be granted. If the request is granted, such viewing must occur in the presence of the Superintendent of Schools or designee. Under no circumstances will the School District’s video recording be duplicated and/or removed from the School District premises without the express written authorization of the Superintendent of Schools or designee.

Signage and Notification Regarding Use of Surveillance Cameras

Appropriate and conspicuous signage will be posted at entrances to schools, school facilities, and school grounds and/or at major entrances into schools and school facilities, school buses and school grounds notifying students, staff, and members of the general public of the School District’s use of surveillance cameras. For exterior cameras, signage will be posted in a conspicuous place in close proximity to the surveillance camera; and for interior cameras, signage will be posted in a conspicuous place at or near the entrance to each place being monitored. Students and staff will receive additional notification, as appropriate, regarding the use of surveillance cameras in the schools, school

facilities, school buses and/or on school grounds. Such notification does not preclude, as deemed appropriate by school administration, the discussion of the use of surveillance cameras with staff and students to heighten awareness and help foster a sense of security.

Destruction and/or Tampering with Surveillance Cameras

Any individual who tampers with or destroys a video surveillance camera or any part of the video surveillance system will be subject to appropriate disciplinary action as well as possible criminal charges.

FLAGS

It is the policy of the Wellston Board of Education that the American flag and the Oklahoma flag will be flown at the school during school hours except in bad weather. An assigned custodian or designee will be responsible for raising and lowering the flags.

The school day will begin with a flag salute. However, students not wishing to participate in the pledge shall not be required to do so. A notice to this effect will be posted in a conspicuous place in each school building and/or classroom.

MOMENT OF SILENCE

It shall be the policy of this Wellston Board of Education that no sectarian or religious doctrine shall be taught or inculcated into the curriculum or activities of the school. However, those students who wish to do so may participate in voluntary prayer so long as it is during noninstructional time and does not interfere with the rights of other students.

Each school site within the district shall observe approximately one minute of silence each day for the purpose of allowing each student to meditate, pray, or engage in any other silent activity that does not interfere with, distract, or impede other students in the exercise of their choice. All school personnel are to afford these options to all students, who will individually make the selection as to which of these behaviors they will engage in during the moment of silence. These options will also be included in the student handbooks.

The minute of silence will be held _____ (*at the start of the school day, at 10:00 a.m., etc.*).
The minute of silence will be _____ (*announced over the intercom, begin with the ringing of the school bell, etc.*) at the appointed time.

If the district or a school employee is sued for providing a moment of silence to students, the district must notify the Attorney General within five (5) days. The Attorney General will provide legal representation to the district or employee named as a defendant in an action related to this statutory requirement.
