Board of Education Special Meeting Monday, October 5, 2020 6:00 PM  
tele/video conference and in person  
600 Maple Dr  
Yukon, OK 73099

1. Invocation and Flag Salute

Pastor Mark Borseth, Resurrection Lutheran, will provide the invocation.

2. Call to Order and Roll Call

Attendance Taken at 6:02 PM.

Mrs. Suzanne Cannon: Present

Mr. Chris Cunningham: Present

Mrs. Michele Hawthorne: Absent

Mr. Don Rowe: Present

Mr. Leonard Wells: Present

3. Reports/ Comments from Superintendent and/or Staff

Dr. Simeroth went over the new dashboard for COVID data.  
As well as the current numbers and requirements for closing.

Mrs. Cannon asked what it will take for us to start taking temperatures. Dr. Simeroth said an overwhelming need would be required and temperature is only one of the seven symptoms and not conclusive of the diagnosis. What is the trigger for an A/B Schedule? There are no hard lines, but if we approach a level at a critical mass, we will go to another method of education delivery. How are we keeping our teachers safe? We use the same CDC guidelines for tracing teachers as with students.

4. Board Member Communications and Announcements

A. Beginning of a 30-day public comment and review of the updated policy FDC. Full policy can be viewed here: <https://sites.google.com/a/yukonps.com/policy/>

Mr. Chris Cunningham: Present  
Mrs. Michele Hawthorne: Present  
Mr. Don Rowe: Present  
Mr. Leonard Wells: Present

2. Oath of office - Swearing in of Don Rowe, Board Member

3. Reports/Comments from Superintendent and/or staff

Beginning of a 30-day public comment and review of the new and revised policies DEE-R2, DEC, DEC-R1, DEC-R2, FMH, FMH-R1, FMH-R2, FMH-R3, DG-R1-F, DA, DAB, DF, DEE, DEE-R, FB, FB-E1, FB-E2 with the intent of a second reading and board action during the October 5, 2020, regular board meeting. The full policies can be found by clicking on the link: <https://sites.google.com/a/yukonps.com/policy/>

Dr. Simeroth addressed the merits and pitfalls of the last two weeks' of continuous learning. Athletics are continuing so that we do not ruin opportunities for our students. We went with OSSAA and did not want to rob students of their scholarship opportunities by allowing them to compete as long as they practiced using as many precautions as possible. OSSAA is over all athletics, speech, drama, ag, pom, cheer, band, and many more. The closing of school had nothing at all to do with Redstone not being able to open. This is very untrue. We had already made plans for the classes to begin at the middle school. Thank you to the board for being here. The decisions we make start with the students, always the students.

4. Board Member Communications and Announcements

Mr. Rowe: Grateful for the contacts. You are all important to me and us. We are thankful for your opinion. Teachers you have gone above and beyond, thank you.  
Mrs. Hawthorne: You took the words out of my mouth. I understand your concerns. I too have a child - we are getting through it. Thank you teachers and staff for helping us.  
Mr. Cunningham: Thank everyone for the contacts. I want to reiterate this board always acts in the best interest of the children. We have them in mind - number one. I'd like to thank Ms. Bellamy for her years of service and congratulate her on her retirement.  
Mr. Wells: I'd like to echo what's been said about our teachers and the communication we have received. I'm sorry I did not return all calls or emails. I have read and heard them all. I thought the athletic dept. did a great job Saturday in preparation for the game.  
Mrs. Cannon: Thank you teachers for your outstanding performance. You've been thoughtful, creative, and flexible. Thanks to those who reached out respectfully with ideas. I was happy to hear from each and everyone.

5. Finance Consent Docket- All of the finance consent items will be discussed, considered and approved or disapproved by one vote unless a board member desires to have a separate vote on any or all of the consent items.

Mr. Wells - why no treasurers report? Due to the holiday.  
Dr. Simeroth - Everyone please complete a free and reduced form, please.

I move we approve all items in the Finance Consent Docket as presented Passed with a motion by Mr. Leonard Wells and a second by Mr. Chris Cunningham.

Mr. Don Rowe: Abstain  
Mr. Leonard Wells: Yes  
Mrs. Suzanne Cannon: Yes

7. Discussion and possible action on returning to the classroom.

Attendance Update Taken at 7:01 PM.

Mr. Don Rowe: Absent

Attendance Update Taken at 7:46 PM.

Mr. Don Rowe: Present

Dr. Simeroth gave the results of the teacher poll concerning returning to school. Better than 70% of the teachers wish to return to the classroom with some concerns and 30% are a care giver to someone who is high risk. These are the same concerns we have been discussing since March. He then went over the document we created for potential closings, the number of teachers we can have out due to illness, the number of students we can have out due to illness, etc. He gave options: discuss in October and return after fall break, everyone return September 23, or PreK - 3 return 9/16 and all others return 9/21. Mrs. Cannon asked if we considered an A/B schedule. Dr. Simeroth indicated the state and our administration do not suggest an A/B schedule one of our concerns is the academics. You will only get half the education. Mrs. Cannon asked is there a way for students to remain in the continuous learning platform and zoom in while a class is in session? Dr. Simeroth: This is not a best practice. It is not a good idea to go to virtual if you prefer not to go back to the classroom as you will be 4 weeks behind in their curriculum. You will have to complete those 4 weeks to catch up with the class. Mrs. Cannon asked can a student leave virtual and return when we return to class? Dr. Simeroth: Virtual was a semester commitment. Last Friday we made personal phone calls to every student who was struggling to make a final decision to come back to class. At that point they committed to the semester. Mrs. Cannon asked if on Tuesday we are in class then Wednesday we are on the continuous learning due to illness, how will teachers get classes uploaded and continue seamlessly? Dr. Simeroth: When we have to close a class or pod, we will make contact with parents and there will be a 48 hour lapse. Mrs. Cannon asked if we are back and forth, parents will have to be prepared with childcare at a moments notice? Mrs. Hawthorne said that is definitely part of it. As a parent, I understand it is not ideal, but we have to be flexible to get the most out of what we have and can do. Dr. Simeroth indicated due to this 4-5 weeks of continuous instruction our teachers and students are very prepared and well versed in how to do this and we shouldn't have too much problems with opening and closing because of our preparations. Mrs. Cannon asked where is the outline for what will close, when, why for the parents to see? In our return to learn plan on our website. Why sports and no school? Those activities are voluntary and education is compulsory. Parents/students choosing to compete, it is their choice and we are not requiring them to participate. Dr. Simeroth added that academic scholarships are just as important and that is why we are working with our students to get as much information and education as possible. Mr. Cunningham is trying to understand classroom disinfecting between classes and returning to school will be as safe as possible? Dr. Simeroth indicated every school has a plan complete with lunch, cleaning, hall passing procedures. Part of the extra days for the pre-k thru 3rd is to help us to see if we are missing or over doing anything. Mr. Cunningham wanted to say again we can only do what we can do and we are doing all we can at the best of our abilities and there is no right answer, this is a bad situation. Mr. Wells: What can we do for the people who absolutely do not want to return to the classroom? Dr. Simeroth: I believe the vast majority of our parents know if there was a 100% way to keep our kids safe, we would be there. But I believe most people in the district trust us. There will be a huge upheaval in our staffing if we were to have students go to virtual. Virtual is closed. Families had ample opportunity to sign-up for virtual before school started. Mr. Cunningham: Parents are wanting options. We are only giving a classroom or virtual option for full semester. Options were the number one concern. I would like to see we give them more options. Dr. Simeroth: The only option we could give is a one semester option mostly due to staffing. Mr. Cunningham: Students who do not want to return to the classroom have no option at this time? Dr. Simeroth: The question is not just what is the school doing to us, the question is how are we as a community helping to make this the safest it can possibly be. Mr. Wells: The state department shows at orange one a recommendation is an A/B plan. Dr. Simeroth: Read aloud the whole recommendation which includes distance learning. Mrs. Hawthorne: If our numbers go up, will it change our return date if we set one? Dr. Simeroth: Unless the numbers go up over the recommended threshold, it would increase our safeguards, yes. We also need to remember these are recommendations given by the state department of education. These are not hardfast lines. When we do go back, I believe we should go on a case by case or site by site basis. Mrs. Hawthorne: I know there are a lot of parents who send their children to school sick. Dr. Simeroth: That is why I said it would be up to the community to help us make this the safest situation possible. We all have to work together to make this work. The return to learn plan indicates our requirements with respect to temperature checks and other procedures. Mr. Wells: When we entered this plan, everyone was overly optimistic numbers would drop by now but it appears we may stay at 10% for some time. I believe now is a good time to reconsider this. Mrs. Cannon: Michele brought up kids who will come to school sick. This information is covered in our school plans. Each school has their reaction. What do we do for students who can not wear masks? How are lunch rooms set up? That is also in our site plans. These things have been planned for and well documented. Mr. Rowe: 6 feet spacing of students when possible. Social distancing as best we can. How many students in a classroom at a time? For us we tried a checkerboard for students and that does not seem to be enough. I have emptied my classroom and made as much room as possible and there are only a few students who can come into the room. 18 students is difficult. 10 students is fine. Dr. Simeroth: There are many options of classroom spacing and there was a 13 minute rotation of 6 feet and that doesn't work. There is talk of cohorts (groups of three or four) limiting the exposure to a smaller group. We have moved furniture, we have emptied classrooms as much as possible. We are utilizing outdoor learning opportunities. We believe masks and grouping will help to greatly reduce exposure. Logistics is the hardest parts. Mrs. Cannon: One of the best solution based letters she received was a group of parents offering to make partitions. Mr. Rowe: What about subs or class coverage when teachers are ill or quarantined? Dr. Simeroth: We never have enough subs. We have a high percentage of coverage. As all other districts will struggle, we will. If we have a lack of supervision, we will isolate that classroom or building, we have alternative class coverage plans and will use all personnel available. Mrs. Cannon: Is there a chance that we will join classrooms? Dr. Simeroth: We have teachers covering classes, but not combined in a single room. I will even offer to cover, if necessary. Mr. Rowe: Do we have a plan for teachers teaching in class and teachers helping online only classes, will they be able to move at semester? Dr. Simeroth: Students committed to semester. We will look forward to how and if switches will be allowed as we go. We will make adjustments as needed. Mrs. Cannon: 678 students in virtual, does that effect our funding? Those who went to Epic took funding with them? Yes. Mr. Wells: Are the 16th and the 21st actually doable for our teachers? Dr. Simeroth: If we make the decision tonight, yes. It will give our teachers adequate time to prepare for returning to the classroom.

I move we vote on the return to class September 16, and September 21. Passed with a motion by Mr. Leonard Wells and a second by Mr. Chris Cunningham.

Mr. Chris Cunningham: Yes  
Mrs. Michele Hawthorne: Yes  
Mr. Don Rowe: Yes  
Mr. Leonard Wells: Yes  
Mrs. Suzanne Cannon: No

8. Business Consent Docket: All of the consent items will be discussed, considered and approved or disapproved by one vote unless a board member requests to have a separate vote on any or all of the consent items.

Dr. Simeroth: I really appreciate the communications we have with the YPEA. It is a great group who works hard at what they do. The document is well worked out.  
Mrs. Cannon: The maintenance surplus items need to be adjusted the top two items were approved at June's board meeting and the bottom three (mowers) are not being surplussed. They are extra and are being used in places other than by the maintenance staff. We are only voting to surplus the middle two items.

I move we approve all items in the Business Consent Docket as presented Passed with a motion by Mr. Chris Cunningham and a second by Mrs. Michele Hawthorne.

Mr. Chris Cunningham: Yes  
Mrs. Michele Hawthorne: Yes  
Mr. Don Rowe: Yes  
Mr. Leonard Wells: Yes  
Mrs. Suzanne Cannon: Yes

# Canadian Valley Technology Center

**Our mission is to prepare people to succeed through quality career and technical education programs and services.**

Since 1970, we have been providing educational opportunities for high school students and adults. Our programs and services help you if you're ready to enter the workforce, if you're going to college, if you're an adult ready to make a career change or simply ready to expand your skills. CV Tech is ready to help you focus on your future.

CV Tech's student body is a diverse group of high school students from 14 sending schools and adults from the communities we serve. We have three campuses and offer training in 29 career fields.

Each year, hundreds of students choose to maximize their education by adding Canadian Valley's career-focused curriculum to their class schedules. Students are taught the fundamental concepts of their chosen field and learn to apply them in a professional lab/shop environment, all while learning to apply math, science, literacy, and employment readiness into their studies. This approach helps our students master highly technical procedures and gives them a head start on developing the work ethic employers demand from employees. As a result, our graduates are prepared to keep up with today's rapidly changing job market.

At CV Tech, instructors utilize instructional delivery that consists of individualized, standards-based learning through the use of an online learning management system and hands-on, skills-driven, project-based learning that includes work-based learning opportunities and capstone projects. Employability skills and academic skills instruction are incorporated with occupational skills education throughout the program.

# CV Tech Information

---

## Schedule

We offer two daytime class sessions:

AM 8:25 - 11:15

PM 12:30 - 3:15

Class sessions are approximately three hours with a ten minute break. Students will spend the entire time in their program unless they are taking a math class at CV Tech.

---

## Transportation

Bus transportation is provided from each high school campus or students may choose to drive to campus.

---

## Industry Certifications

The District will pay for up to four industry or trade-specific certification examinations and licenses related to the student's approved program of study, not to exceed \$350.00 per student, per program. To receive this benefit, a student must be:

- taking their first attempt; does not count for retakes
  - currently enrolled or recently completed (within the current year)
  - in district student in good standing
  - have the program instructor's recommendation to take the exam.
- 

## High School Credit

Courses that qualify for credit are marked with this symbol  on the program syllabus. They will also be marked with one of the following symbols to identify the type of credit earned.

 = Science Credit

 = Computer Science Credit

 = Math Credit

All  marked courses qualify for OHLAP credit. OCAS codes are listed on the program syllabus. Awarding of high school credit for courses shall be at the option of the local independent board of education.

Check ODCTE website for continuous updates.

<https://www.okcareertech.org/educators/career-and-academic-connections/academics>

---

## College Credit

Community colleges and universities that offer technical college certificates may award college credit for courses taught at technology centers through Prior Learning Assessments (PLA's).

See current Statewide PLA Technical Inventory at

## Medical Assistant

The Medical Assistant program at CV Tech prepares students to assist physicians and other healthcare providers in a medical office or clinic setting. Some of the core courses include CPR, First Aid, medical terminology, anatomy and physiology, and an introduction to medical assisting.

More specialized courses include pharmacology (including administering oral, topical and injectable medicines) and clinical procedures for selected disorders of each body system. Some of the independent procedures the medical assistant performs include taking vital signs, obtaining a medical history, and measuring height and weight. The medical assistant will also assist the physician with minor office surgeries. In addition, students will learn how to obtain and prepare blood samples for testing, how to perform point of care diagnostic testing, and executing quality control on the testing equipment.

Project Connect is an alternative education program designed to help high school students ages 16-19 acquire a marketable skill while earning the credits necessary to receive a high school diploma. The school week includes 15 hours of academic instruction and 15 hours of occupational instruction. During the six hours in the school day, students are in Project Connect for three hours and they are in a tech program the other three hours.

### **Local Program**

Project Connect

### **Goals**

1. Assist students with gaining the knowledge and understanding of required academic courses with 85% accuracy as presented in individual academic contracts.
2. Practice effective communication and life skills.
3. Provide students with the writing, grammar and math skills necessary to become a successful employee.
4. Provide students with the study skills and critical thinking skills needed to prepare them for higher education and training.
5. Develop character traits that will contribute to success in the workplace and society.

Project SEARCH provides employment and educational opportunities for high school seniors or post-secondary technology center students with disabilities. This nine-month, non-paid internship program is designed to prepare students for entry-level employment through training and career development. Emphasis is on employability skills and the desire to work.

The Project SEARCH “classroom” is in a business setting provided by INTEGRIS Hospital. Students’ immersion in the workplace encourages teaching and learning to take place through continuous feedback and acquisition of work skills. Project SEARCH is made possible through a partnership of INTEGRIS Canadian Valley Hospital in Yukon, Canadian Valley Technology Center El Reno Campus, and a variety of support agencies.

**CAREERTECH ACADEMIC CREDITS/TRANSCRIPTING – UPDATED March 2017**

On March 26, 2015, the Oklahoma State Board of Education approved certain math and science courses taught at technology centers and select high schools to count for academic credit on high school transcripts. On June 8, 2015, the Oklahoma State Regents for Higher Education approved the PLTW Pre-Engineering and PLTW Biomedical courses to count for academic credit on the College Prep/Work Ready curriculum and to count for OKPromise. CTE Biotechnology courses will count as a science course on the CORE curriculum and will count as electives on the CollegePrep/WorkReady curriculum. UPDATE: Additional courses were approved in December 2016.

In order for students to receive credit for these courses, it is imperative that schools follow these guidelines:

- 1) Technology Centers must submit these courses to their partner schools' boards of education for approval to count these courses as academic credit for graduation purposes.
- 2) The following chart shows which courses count for math or science credit and how the instructor of that course must be certified. If the instructor is not certified in the listed area, then the course will count as an elective.
- 3) NCAA – High schools will need to submit to NCAA course syllabi's for the courses approved by the local BOEs that meet the requirements for math or science credit. Technology Centers will need to work with their partner schools to supply the information needed by NCAA.
- 4) It is **very important** that the technology centers send their partner schools the correct OCAS code when listing courses receiving academic credit. (Just as technology centers have been doing for Human Anatomy/Physiology in Health and for courses already on the OKPromise list of approved courses.) It is also **very important** that high schools use these same codes when adding the courses to the students' transcripts. The correct OCAS codes for the science and math courses are listed in the chart below.
- 5) Here is the link to the list of courses on the SDE's website:  
<http://www.ok.gov/sde/accreditation-standards-division> scroll down to subject codes. Under Grades 9-12, click on FY2017-18

## **Additional Guidance for SB 1370 – CORE Math**

**Senate Bill 1370 allows for the acceptance and completion of one (1) year of a full-time, three-hour career and technology program leading to an industry credential/certificate (endorsed or aligned) or college credit to count for a third math credit to meet graduation requirements for students on the CORE curriculum.**

- (1) The CareerTech programs that will count for the CORE curriculum's third required math have to be leading to a certification that is industry-endorsed or industry-aligned.
- (2) SB 1370 also requires that a parent or legal guardian of the student meet with a designee of the local school prior to enrollment in the CORE curriculum. The State Department of Education will develop and distribute to school districts a form suitable for this purpose, which will include information on the benefits to students of completing the college preparatory/work ready curriculum. This meeting is critical in assuring parents and students are fully informed of their options.
- (3) The CORE curriculum counts for high school graduation only. It does not meet college entrance requirements or OKPromise requirements. Students on the CORE curriculum who want to attend college will have to meet additional requirements.
- (4) Tech Centers **SHALL NOT** discourage students from taking Algebra II or Geometry as their third required math or discontinue teaching pull-out math courses. (We do not want to make it more difficult for our students should they choose to continue to higher education, as 52% of our students do.)
- (5) This law should be the **exception** for students rather than the rule. It is an opportunity for students to meet the math requirement if scheduling or other issues prevent them from taking a third math.
- (6) Students can only use this option one time. CareerTech programs cannot count for CORE Math and a computer credit in the same year.
- (7) When the tech centers request their yearly approval of CareerTech academic courses from the local school boards, they will want to add information to specifically address the CORE Math credit.
- (8) It is the local board decision as to how to transcript this credit.
- (9) The SB 1370 law and CTE Rules have been signed by the governor.

## Adult Enrollment Steps

*\*\*The LPN program has different admission and testing requirements. Ask a counselor about the application process or see the Practical Nursing page on our website [www.cvtech.edu](http://www.cvtech.edu).\*\**

**Do you qualify for a testing Waiver(s)?** Test scores are valid for **5 years** from the test date.

- ACT: Composite of 19 or higher
- SAT: Composite of 980 new SAT/1330 old SAT or higher
- Prior Assessment
  - Accuplacer Next Gen scores: 235 in Reading; 238 in Arithmetic
  - Accuplacer Classic: 53 in Reading; 41 in Arithmetic
  - WorkKeys: 3 in all areas
- Pass at least 12 hours of level 1 college courses or Associate Degree (within last 5 years)
- Bachelor/Master's Degree (can be older than 5 years, no time restriction)

**If qualifying for the waiver, all qualifying documents must be submitted to the appropriate program counselor.**

- You will be enrolled or placed on a waitlist.

**If you do not meet any of the criteria above, schedule the Accuplacer Assessment**

- (405) 422-2382 or (405) 422-2318 to schedule assessment
  - If accommodations are needed call (405) 422-2284 prior to scheduling assessment
  - 1st test is free; retest or no show, there is a small fee.
  - Cut scores: Reading 235 (245 Aviation); Arithmetic 238 (244 Aviation)

If taking Accuplacer, upon completion of the assessment, you'll meet with the appropriate program counselor and you will be offered remediation, enrolled, or placed on a waitlist.

**Complete FAFSA application online, if applicable:** <https://fafsa.gov> (School Code: 009965)

**Determine if you qualify for the Next Step Scholarship:**

- Are you under the age of 24?
- Do you have a high school diploma or GED?
- Do you live in one of our 8 sending school districts?

*\*\*Graduating Seniors should complete the Adult Enrollment process by February 1st to be considered for priority enrollment in August.\*\**
