President Miller presided and conducted. The Board of Education met in a study session to discuss the following:

A. Comprehensive Guidance Report

Stacey Worthen, Secondary Counselor Consultant in Student Services, presented the annual report on the Comprehensive Guidance Program in Jordan District. Ms. Worthen indicated the top priority is social emotional wellness for students and employees and highlighted Restorative MTSS culture and school-based mental health team services.

Ms. Worthen said a staffing position has been renamed from “Guidance Counselor” to “School Counselor” and noted the department’s efforts to be more proactive rather than reactive in providing services to all students. She also highlighted the low ratio of counselors to students and presented new mission and vision statements for the school counseling department.

Ms. Worthen said school counselors work with parents to offer social emotional strategies to support students. She explained there are a greater number of counselors this year, but stressed the importance of placing more school counselors at the elementary level to assist with behavior and anxiety issues, thus creating a higher level of success with social emotional wellness in middle and high schools. The Board agreed with adding a discussion on the possibilities of an elementary school counseling program to a future Board meeting agenda.

B. Updates to Administrative Policy AA421 *Local Professional Improvement Committee*

Shelley Nordick, Administrator of Teaching and Learning, noted proposed revisions to policy AA421 include a change in online and micro-education course requirements, including: 1) revising how clock hours are counted for semester credit and 2) changing the required meeting time to allow for more flexibility. The Board agreed to place this on the November 30, 2021 Board meeting agenda with intent for a vote of approval.

C. Update on Advanced Learning Placement for Students (ALPS) and International Baccalaureate (IB)

Rebecca Smith, Consultant in Gifted and Talented/ALPS, presented information about the ALPS programs in one elementary and four middle schools. She explained the program moved from Jordan Ridge to Jordan Hills Elementary School this year and reported testing is now being done by computer. She noted there is a Gifted/Talented Teacher Specialist pilot program at three schools: Jordan Ridge, Bastian, and Westvale and she highlighted the “walk to reading” program.

Ms. Smith explained differences between ALPS and a magnet classroom or honor classes and reported on advertising and recruiting efforts for ALPS. Matt Young, Board member, applauded the department’s efforts in finding ways to enroll new students in the program.

Natalie Nielson, IB CAS Coordinator at West Jordan High, explained the CAS program is an acronym denoting “creativity, activity, and service” projects. She said there are currently nine students in the IB program at West Jordan High, 27 IB certificate-seeking students, and 135 students in “IB-stacked” classes.

Jim Birch, principal at West Jordan High, talked about the recruiting process for the IB program and thanked the Board for their support. Chris Richards-Khong, Staff Assistant in Teaching and Learning, emphasized the importance of school counselors acquainting students and parents with this opportunity. Board members expressed excitement and appreciation for this Jordan District program.

D. Discussion on School Capacity

Dr. Anthony Godfrey, Superintendent of Schools, indicated District personnel are always looking for ways to maximize the use of our buildings and he expressed Staff’s intent to create more useful and thorough school capacity reports.

Travis Hamblin, Director, and Caleb Olsen, Consultant in Student Services, introduced a new way of calculating school capacity, expressing it as a condition rather than a number. They recommended using three definitions (base, extended, and extreme), rather than the 23 ways to report capacity used previously.

The Board discussed the proposed layout of the capacity report, and requested the following items be included on these reports:

1. The number of portables and reasonable potential portables located at a school
2. A final sheet showing the total number of classrooms in special programs
3. The year the school was opened and last date of any major remodels
4. The range between base, extended, and extreme be determined by the following:
 - a. Base range shows a building with District program decisions, including zero to six portables
 - b. Extended range includes the number of portables exceeding six or what is currently on site
 - c. Extreme range shows the reasonable maximum as determined by Auxiliary Services
5. The current enrollment number should be color coded to match the three range level colors

The Board asked Student Services to return with an updated capacity report for three schools to the November 30, 2021 Board study session and they commended the team for their excellent work.

E. Continued Discussion on Student Recognitions and Board Communications to the Public

Tracy Miller, Board President, reminded Board members of suggested ideas to increase communication with the public and keep Board members informed of events in their schools. She noted a list of secondary School Community Council events has been posted to BoardDocs and recommended Board members ask Administrators to include them on email lists for their schools.

After thorough discussion and votes of approval, the Board asked Administration to consider implementing the additional communication methods below. It was recommended Dr. Godfrey report back to the Board if these items can be reasonably accomplished or if more resources are needed.

1. A quarterly opt-in electronic newsletter from the Board
2. An electronic opt-in summary of Board meetings
3. Posting both the Board newsletter and Board meeting summary on social media
4. A staff member notifying the Board of major network news stories regarding Jordan District

It was also agreed that Board members notify the Executive Committee when they want to invite an individual or group to Board meeting to be recognized.

F. Review of Administrative Policies A9 Named gifts to Jordan School District and A11 Naming of Facilities

Tracy Miller, Board President, led a discussion on possible revisions to policies A9 and A11. Board members agreed with Dr. Godfrey's recommendation to combine both policies and asked to include the right of refusal if necessary.

Dr. Godfrey committed to Administration creating a draft with revisions to both policies (individual and combined) with a clarified process for naming facilities and gifts. They will also analyze the threshold amounts to see if an increase is necessary and include the right for Administration and the Board to have input on naming facilities. They will bring this back to the Board as soon as reasonably possible.

G. Continued Discussion on Potential Revisions to Board Policy GP109 Construction of the Agenda

Tracy Miller, Board President, mentioned these revisions were discussed at length at the last Board meeting and noted a single word change for more consistency with policy wording. Board members agreed to vote on the proposed revisions at the Board meeting on November 30, 2021.

H. Continued Discussion on Potential Revisions to Board Policy GP110 Public Participation at Board Meetings

Bryce Dunford, Board First Vice President, said changes discussed at the last Board meeting would be included on a draft for Board study session and possible approval on November 30, 2021. These changes regarding public comments include: removing the word "taxpayers" on the public sign-up and adding the phrase: "silence by the Board on an issue does not suggest support or opposition to the message given". Other additions would be limiting the speaking time to a "maximum" of three minutes and including groups of individuals in wording about refraining from discussing the physical or mental health of an individual.

I. Board Member, Committee, and Superintendent Reports and Comments

Matt Young, Government Relations Advisory Committee Chair, suggested the Board host a breakfast for legislators as in previous years and proposed hosting a legislative lunch at the State Capitol sometime during the session. Board members agreed to move forward with planning for both meals and decided the breakfast will be held January 12, 2022.

Mr. Young then asked Board members for legislative priority suggestions. They recommended studying impact fees (looking at partnerships with developers and locations for building schools), adding more funding for school counselors (to increase counselor to student ratios), addressing transportation and staffing shortages, increasing the health and well-being of teachers and employees, and maintaining local control for school boards. They would also like legislators to consider an automatic inflation for property taxes, a strong weighted pupil index for next year, and changing the law prohibiting retirees from working in any school district, in any capacity, for a year after retirement.

Bryce Dunford, Board First Vice President, recommended the dedication of Aspen Elementary on Wednesday, November 17, 2021 at 7:00 p.m. Board members agreed with this date and time and requested staff send invitations to stakeholders; city, county, state officials and the building contractor as soon as possible. Mr. Dunford requested to personally dedicate this school and asked Dr. Godfrey to speak and President Miller to conduct. All Board members agreed with the dedication plans.

Superintendent Godfrey informed Board members that the second principal meeting was held recently and the theme was "social emotional wellness" for students and employees. A discussion ensued about the Second Step program and an inappropriate link was taken down from the program website. He said social emotional refresher lessons from Dave Kozlowski will be sent out to schools and reported the District has created a protocol for employees with immediate social/emotional needs to receive help from school psychologists.

Dr. Godfrey mentioned he attended the State Marching Band Competition on November 5, 2021 and commended all who were involved for their outstanding performances.

Travis Hamblin, Director of Student Services, clarified there was a 1-2 percent increase in growth last year and Board members asked about the next steps if they move forward on the bond. John Larsen, Business Administrator, recommended consulting with bond council and financial advisors and President Miller noted important bond timeline tasks: school meetings and tours, determining what would be on the bond, decisions on tax implications, setting up “friends of JSD” campaign, and meetings with stakeholders.

A majority of the Board agreed with a vote to be taken in the Business Meeting on a potential bond election in 2022 with the potential for follow-up motions. Staff will begin working on an updated capacity report to be presented to the Board in a future meeting.

This item will be brought to the November 30, 2021 Board meeting for a final vote.

D. Student Recognitions and Board Communications in Board Meetings

Darrell Robinson, Board Member, recommended the Board hire their own part-time communications specialist to assist the Board with public communication, inform Board members of important events in their districts, and facilitate the recognition of students, teams and programs in Board meetings.

Board Members expressed concern about hiring someone to send out communications on their behalf and about budget concerns for this new hire. Board members and Administration agreed to bring ideas to increase public communication to the Board study session for further discussion on November 9, 2021.

E. Discussion on Potential Revisions to Board Policy GP110 *Public Participation at Board Meetings*

Bryce Dunford, Board First Vice President, proposed the Board limit public comment to residents, students, parents and guardians of students, and current employees of Jordan District. All others may be allowed to comment in Board meetings with prior approval from the Board president.

It was suggested using an electronic sign-up to collect information about the participants' city of residence. President Miller proposed two other revisions to this policy: the addition of limiting the speaking time to a "maximum" of three minutes, and including "groups of individuals" in the statement about refraining from discussing the physical or mental health of an individual in public comments. Board members unanimously agreed to bring a draft including these revisions to Board study session on November 9, 2021.

Andrew Thompson, AV Contractor

President Miller presided and conducted. The Board of Education continued its study session to discuss the following:

F. Discussion on Potential Revisions to Board Policy GP109 *Construction of the Agenda*

Tracy Miller, Board President, stated the intent is to bring the policy into alignment with the current District practice. Changes include contacting the executive committee in writing seven days in advance of Board meeting to place an item on the agenda, and replacing the ranking system with general language that describes the intent of the agenda item.

It was decided that an item would automatically be added to the agenda upon written notice including the name of three or more supporting Board members. Board members agreed with making these changes to the draft for further discussion in the next study session and a vote of approval at the General session on November 30, 2021.

G. Continued Discussion on Bingham Bid for fundraising for Baseball Improvements

Matt Young recommended the Jordan Education Foundation oversee and run the project to ensure fundraising is done properly and to avoid special considerations or expectations for donations.

Paul Van Komen, District Attorney, recommended careful evaluation of equity issues.

Board members asked about donor naming rights and it was decided to review this at a future Board meeting.

Scott Thomas, Administrator of Auxiliary Services, explained the District would oversee and supervise donated labor or supplies and inspect the final project to assure it is up to code.

Board members agreed with allowing the Jordan Education Foundation to oversee the fundraising for this special project with adherence to the Foundations' policies and supervision pending bid approval.

MOTION: At 9:43 p.m., it was moved by Matt Young and seconded by Marilyn Richards to go into closed session. The motion passed with a unanimous vote.
