To who it may concern:

I am writing regarding the merger of Owasso Takedown Club and Owasso Wrestling Booster Club. Before the merger, Owasso Takedown Club supported the Owasso Youth Wrestlers within their club. The Owasso Wrestling Booster Club helped support the Owasso Jr High and High School boys/girls wrestlers. Both programs were successful because of the community's support and the hosting of local tournaments and camps as their main fundraisers. This merger helps unify our wrestlers, coaches, and their families. We share the same goal and work together to strengthen Owasso Wrestling for our athletes. Both of the Booster Clubs worked hand in hand throughout the years by working together to put on local tournaments and camps. This merger has made us even stronger and better at preparing our athletes. Our coaches ensure that our athletes get the best training and support they need to succeed on and off the mat. We are excited to see the growth of our program and welcome the support.

Sincerely,

Heather Pollock

5.45 Cyberbullying and Internet Safety

~~As young people embrace the Internet and other mobile communication technologies, bullying has manifested itself in a new and potentially more dangerous way—through cyber bullying. Cyber bullying can generally be defined as sending or posting harmful, harassing, intimidating, threatening, or malicious messages or images through e-mail, instant messages, cell phones and websites. Cyberbullying is bullying that takes place over digital devices like cell phones, computers, and tablets. Cyberbullying can occur through SMS, Text, and apps, or online in social media, forums, or gaming where people can view, participate in, or share content. Cyberbullying includes sending, posting, or sharing negative, harmful, false, or mean content about someone else. It can also include sharing personal or private information about someone else causing embarrassment or humiliation. It is emerging as one of the more challenging issues facing educators, since it has a direct impact on students but often occurs away from school property.~~

Examples of ~~cyber-bullying~~ cyberbullying include, but are not limited to:

- Sending cruel, vicious and sometimes threatening messages;
- Using group chats as a way to gang up on one person;
- ~~● Creating websites that contain stories, cartoons, pictures and jokes ridiculing others;~~
- Posting ~~pictures~~ mean or untrue statements of classmates ~~on-line~~ online with intent to embarrass them;
- Breaking into an ~~e-mail~~ email account or online profile and sending vicious or embarrassing material to others;
- Engaging in ~~IM (instant messaging)~~ messaging intended to trick another person into revealing sensitive or personal information and forwarding that information to others; and
- ~~● Taking a picture of a person using a digital phone camera and sending that picture electronically to others without consent, or the equivalent of that. Taking nude or otherwise degrading photos or videos of a person and sharing that content without consent.~~

Social Networking Sites

~~Most teenagers visit websites to communicate with friends and meet new people. MySpace.com is a social networking site, one of many that has become increasingly popular with students. MySpace allows students to create a personal website (for free), post pictures, add comments, and use it to meet “on-line friends.” The website often includes their full name, telephone number, address, school name, and a picture.~~

~~YouTube is a similar site dedicated to hosting video clips.~~

~~About 68 million people reportedly use MySpace and millions more use other social networking sites, such as: friendster.com; livejournal.com; nexopia.com; and facebook.com. According to MySpace, 22% of its users are younger than 18. The danger lies in that the Internet is vast, public and constantly expanding. And, if students have not developed critical thinking skills, are unsupervised or create websites that are not monitored, they can be at risk of unknowingly~~

~~communicating with predators, spammers or pornographers.~~

~~As such sites proliferate, students should be warned not to post identifying information to the site and never to meet someone in person they have met through the site unless an adult accompanies them. And, parents should conduct frequent reviews of the site to ensure that identifying information or pictures have not been posted.~~

~~MySpace and other social networking sites will cooperate in shutting down a site created solely to harass another individual.~~

Internet Safety

No action is foolproof, but there are steps students can take to protect themselves ~~on-line~~ online and lessen the chance of becoming the victim of unsolicited messages:

- Never give out personal information, passwords, PIN numbers, etc.
- Remember that personal information includes your name, age, ~~e-mail~~ email address, the names of family or friends, your home address, phone number (~~cell or home~~) or school name.
- ~~Choose a username that your friends will recognize but strangers will not recognize (such as a nickname used at school). This will help you to identify yourself to friends and lets you know who is trying to communicate with you.~~
- ~~Do not submit or post pictures of yourself to any website, including your own. These can easily be copied and posted to any other website. Never post or trade personal pictures.~~
- ~~Passwords are secret. Never tell anyone your password except your parents or guardian.~~
- Do not respond to "spam" or unsolicited e-mail.
- Set up ~~e-mail~~ email and ~~instant messenger~~ social media accounts with the help of your parents.
- Do not respond to, or engage in, ~~eyber-abuse~~ cyberbullying.

If you are the victim of a ~~eyber-bully~~ cyberbully:

- Do not reply to messages from ~~eyber-bullies~~ cyberbullies.
- Tell an adult you know and trust. Parents, a favorite teacher, school administrators, counselors, and even police officers can help you deal with cyberbullying. ~~Just as with any other kind of bullying, ignoring it often leads to escalation.~~
- ~~If the bullying is occurring through text messaging, use "call display" or dial *69 to identify the phone number and have it tracked through your cell phone/pager service provider.~~
- ~~Instant messages (e.g. Yahoo instant messenger, Microsoft Messenger) are best handled by blocking messages from certain senders.~~
- ~~Bullies are likely to register for an anonymous e-mail account, such as Hotmail, Yahoo or G-Mail, using a fake name. If you receive threatening e-mail messages,~~

~~instruct your e-mail program to block messages from that address. Then, inform your Internet Service Provider (ISP).~~

- Document the cyberbullying. Make sure to keep copies of harassing interactions as evidence and keep records of the date and time when bullying occurred.
- If you are being bullied via a website or social media platform, chances are that the bully is going against the website's terms of use. Report bullies to the website administrator or platform.
- If you are being bullied via text message or phone calls, have an adult help you contact your phone service provider.
- If physical threats are made or the bullying escalates, inform your local police.
- ~~Do not erase or delete messages from cyber bullies. You do not have to read them; but keep them as evidence. You may get similar messages from other accounts. The police, your ISP and/or your telephone company can use these messages to help you. If necessary, get a new phone number, account or e-mail address and give it out to only on (1) person at a time.~~
- If the bullying occurs at school or on district property, or is the act of another student, report the bullying to ~~the appropriate official~~ a school administrator or teacher and refer to the district's bullying policy.

Suggestions for Parents

- Discuss internet safety and develop an online safety plan with children before they engage in online activity. Establish clear guidelines, teach children to spot red flags, and encourage children to have open communication with you.
- Make sure your children understand how vast and public the Internet is. Remind them that anything they post or send in a message is virtually available to be seen or read by anyone in the world.
- Talk to your children about ~~cyber bullying~~ cyberbullying. Make sure they understand what it is. Let them know that ~~cyber bullying~~ cyberbullying is no less serious and unacceptable than other forms of bullying.
- ~~Keep computers in a common area where you can watch and monitor its use, not in individual bedrooms. Monitor any time spent on smartphones or tablets. Set up the family computer in an open, common area so that you can monitor what your child is sending and receiving.~~
- Review games, apps, and social media sites before they are downloaded or used by children. Pay particular attention to apps and sites that feature end-to-end encryption, direct messaging, video chats, file uploads, and user anonymity, which are frequently relied upon by online child predators.
- Adjust privacy settings and use parental controls for online games, apps, social media sites, and electronic devices.
- Be alert to potential signs of abuse, including changes in children's use of electronic devices, attempts to conceal online activity, withdrawn behavior, angry outbursts, anxiety, and depression.
- Encourage children to tell a parent, guardian, or other trusted adult if anyone asks them to engage in sexual activity or other inappropriate behavior.

- Inform your ~~ISP~~ Internet service provider or cell phone service provider of any abuse. Although it can take a lot of time and effort to get ~~Providers~~ providers to respond and deal with your complaints about ~~cyber-bullying~~ cyberbullying, it is necessary in order to try to stop it from ~~reoccurring~~ recurring.
- ~~Purchase software that can help track activity. There are parental controls that filter both IM and chat rooms.~~

- References to "principal", means the school principal or staff member to whom the principal has delegated the responsibility for student discipline.
- **A student is not counted absent while on change of placement provided they continue to work diligently in the virtual environment as assigned by the site administrator.**

Behavior or Conduct that May Result in Suspension or Change of Placement

~~Students may be suspended or have placement changed for:~~

1. **Violation of a school regulation** (which includes but is not limited to any policy, rule, regulation, directive, etc.);
2. **Possession of an intoxicating beverage**, low-point beer, as defined by OKLA. STAT. tit.37, § 163.2
3. **Missing or stolen property** if the property is reasonably suspected to have been taken from a student, a school employee, or the school during school activities;
4. **Possession of a dangerous weapon or a controlled dangerous substance** while on or within two thousand (2,000) feet of public school property, or at a school event, as defined in the Uniform Controlled Dangerous Substances Act. Possession of a firearm shall result in suspension as provided in the district's policy related to firearms.
5. **Violent Acts Toward School Personnel:** Any student in grades 6 through 12 found to have assaulted, attempted to cause physical bodily injury, or acted in a manner that could reasonably cause bodily injury to a school employee or person volunteering for the school shall be suspended for the remainder of the current semester and the next consecutive semester. For good cause and considering the totality of the circumstances, the district's superintendent or designee may modify the term of the suspension. Final action as to any such suspension, including its term, remains with the board of education or designated hearing officer, pursuant to a timely appeal.

Students suspended for a violent offense directed toward a classroom teacher shall not be allowed to return to the teacher's classroom without the teacher's prior approval. Whether an offense is considered a violent offense, requiring an affected teacher's approval as a condition of return to a particular classroom, shall be based on applicable provisions of the Oklahoma school law regarding student suspension and applicable Oklahoma criminal law distinguishing between violent and nonviolent offenses.

Students who are suspended **or have their placement changed** under categories 1 or 2 will be provided with an education plan as outlined below. No education plan will be required for students who are suspended under category ~~3~~ 4.

District's Obligations Prior to Suspension **or Change of Placement**

Before the district recommends suspension **or change of placement**, other disciplinary options will be considered, including but not limited to: placement in an alternative school setting, reassignment to another classroom, and detention. The district will provide additional procedural safeguards as required by law for students identified as having disabilities under the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act/Title II of the Americans with Disabilities Act.

Pre-~~Suspension~~ Conference with Student

When a student engages in behavior or conduct that may result in suspension **or change of placement** the principal shall conduct an informal conference with the student.

At the conference the principal shall read the regulation that the student is charged with having violated and shall discuss the student's conduct. The student shall be asked whether he/she understands the regulation and be given a full opportunity to explain and discuss his/her conduct.

If the principal concludes that suspension **or change of placement** is appropriate, the student shall be advised **of that decision that he/she is being suspended and the length of the suspension**. The principal shall immediately notify the parent by phone and in writing that the student is being suspended **or having their placement changed** and that other disciplinary options were considered and rejected. The written notice will state which alternative disciplinary options were considered and why they were rejected. Elementary and middle school students shall not be dismissed before the end of the school day without advance notice to the parent.

A student may be suspended **or have placement changed** without a pre-~~suspension~~ conference only in situations when the principal reasonably believes that the student's continued presence in the building will constitute an immediate danger to the health or safety of students, school employees, school property, or would be a substantial disruption of the educational process. In such cases, a conference with the student and parent will be scheduled as soon as possible after the student has been removed from the building.

Conferences with Parents

The principal will seek to hold a conference with the parent as soon as possible after the suspension **or change of placement** has been imposed. The parent should be advised of his/her right to a conference with the principal at the time he/she is verbally notified that a suspension has been imposed. The conference will be held during the regular school hours, Monday through Friday, with consideration given whenever possible to the hours of working parents.

At the conference, the principal will read the regulation the student is charged with having violated and will briefly outline the student's conduct. The principal will also explain the reason for rejecting other disciplinary options. The parent should be asked by the principal if he/she understands the regulation and the charges against the student.

At the conclusion of the conference the principal shall state whether he/she will terminate or modify the suspension **or change of placement**. In all cases the parent will be advised of the right to appeal the suspension **or change of placement**.

Individualized Plans

Suspensions **and changes of placement** in excess of five (5) days shall include an Individualized Plan ("Plan") that shall describe either a home-based school work assignment setting or other appropriate work assignment setting. The Plan shall be prepared by the principal with the assistance of other school employees.

The Plan shall provide for the core units in which the student is enrolled. Core units shall consist of the minimum English, Mathematics, Science, Social Studies and Art units required by the Oklahoma State Department of Education for grade completion in grades kindergarten through eight and for high school graduation in grades nine through twelve.

A copy of the Plan shall be provided to the student and parent. The parent shall be responsible for providing a supervised, structured environment monitoring the student's educational progress until the student is readmitted into school. The Plan shall set out the procedure for education and shall also address academic credit for work satisfactorily completed.

Records

The principal will keep written records of each **suspension** conference. The records will contain the date of the conference, names of participants, time and duration of the conference, and the basis for rejecting alternative disciplinary options. The principal shall also maintain records related to the Plan and the student and/or parent's compliance with the Plan.

Suspension and Change of Placement Terms

All suspensions **and changes of placement** will have a definite start and end date. The term **of a suspension** may be reduced if a student performs a specified remedial act if those conditions are agreed to at the time of the suspension **or change of placement**. **Suspension Term** lengths will be as consistent as possible between students considering the nature of the conduct and the previous disciplinary history of the student.

Long-term suspensions **and changes of placement** are those **suspensions** in excess of ten (10) school days. Suspensions **and changes of placement** will not extend beyond the current school semester and succeeding semester, except in the case of possession of a firearm, in which case a suspension shall be for a period of not less than one (1) calendar year. Suspensions involving firearms are governed by the school district's Gun-Free Schools Student Suspension policy.

Short-term suspensions are those suspensions of ten (10) or fewer school days.

Short-Term Suspension Appeals (10 or fewer days)

A parent or student may appeal the suspension decision to a site committee. The principal shall inform the parent/student of the right to appeal the suspension and the method for appealing.

An appeal must be presented, electronically or in writing, to the principal within three (3) days (excluding days when school is not in session) after the parent/student receives the principal's decision. If the principal does not receive a written appeal within three (3) days (excluding days when school is not in session) of the decision, the principal's suspension decision is final. The principal shall assemble a committee within three (3) days (excluding days when school is not in session) of receiving the parents request to appeal and that committee shall consist of the following members.

- A principal or assistant principal from a different school.
- A teacher of the student's choice.
- A teacher from the same site who has not had the student in class.

During the time of the appeal the student will be placed in In-House Suspension and the days spent in In-House Suspension will not count towards days of suspension.

Long-Term Suspension or Change of Placement Appeals

~~A parent/student may appeal the suspension to the superintendent and board of education or a hearing officer appointed by the board. The principal shall inform the parent/student of the right to appeal the suspension and the method for appealing. At the parent/student's option the appeal may be directly to the board or the board's appointed hearing officer.~~

~~An appeal must be received, electronically or in writing, by the superintendent within five (5) days (excluding days when school is not in session) after the parent/student receives the principal's decision. If the~~

~~superintendent does not receive a written appeal within five (5) days (excluding days when school is not in session) of the principal's decision, the principal's suspension decision is final.~~

Site Level - 1st Level of Appeal

A parent or student may appeal the suspension or change of placement decision to a site committee. The principal shall inform the parent/student of the right to appeal the suspension or change of placement and the method for appealing.

An appeal must be presented, electronically or in writing, to the principal within five (5) days (excluding days when school is not in session) after the parent/student receives the principal's decision. If the principal does not receive a written appeal within three (3) days (excluding days when school is not in session) of the decision, the principal's decision is final. The principal shall assemble a committee within five (5) days (excluding days when school is not in session) of receiving the parents request to appeal and that committee shall consist of the following members.

- A principal or assistant principal from a different school.
- A teacher of the student's choice.
- A teacher from the same site who has not had the student in class.

During the time of the appeal the student will be placed in In-House Suspension and the days spent in In House Suspension will not count towards days of suspension or change of placement.

District Level - 2nd Level of Appeal

In the event the complainant does not accept the decision of the review committee, he/she may appeal to the Assistant Superintendent of Teaching and Learning, who will assemble a 5 person committee of district level administrators.. The request to appeal must be received by the Assistant Superintendent of Teaching and Learning within 5 days (excluding days when school is not in session) after the parent receives the decision from the site-level committee. If the request is not received within this time-frame, the site-level committee decision is final.

Appeals to the Superintendent or Designee ("Superintendent")

~~If the superintendent receives a timely written appeal request, the superintendent will hold a conference with the parent or guardian as soon as possible. The conference will be held during regular school hours, Monday through Friday, with consideration given to the hours of working parents whenever possible.~~

~~At the conference, the superintendent will read the regulation the student is charged with having violated and will briefly outline the student's conduct. The parent will be asked if he/she understands the regulation and the charges against the student. The student/parent will be given an opportunity to provide his/her version of events.~~

~~At the conclusion of the conference the superintendent will state whether he/she shall terminate or modify the suspension. In all cases the parent shall be advised of the right to have the suspension reviewed by the board of education or a board-appointed hearing officer. If the parent is in agreement with the superintendent's decision, he/she shall be requested to sign a waiver of review by the board.~~

In the event the complainant does not accept the decision of the Assistant Superintendent of Teaching and Learning, he/she may appeal to the Owasso Board of Education, within 5 days (excluding days when school is not in session) of receiving the decision from the assistant superintendent.

Board of Education or Designated Hearing Officer - 3rd Level of Appeal

An appeal must be presented, electronically or in writing, to the superintendent within five (5) days (excluding days when school is not in session) days after the parent/student receives the **assistant** superintendent's decision. If the superintendent does not receive a written appeal within five (5) days (excluding days when school is not in session) of the assistant superintendent's decision, the **assistant** superintendent's **suspension** decision is final.

If the board receives a timely written appeal request, the board or an appointed hearing officer, will hear the appeal as soon as possible. This decision is final and non-appealable.

Board Hearing Procedures

The parent/student will be notified in writing of the date, time and place of the hearing and will have the right to choose an "open" or "closed" hearing. Reasonable efforts will be made to accommodate the work schedule of parents. The following procedures will be followed:

1. The board president or the appointed hearing officer should:
 - a. Announce that the next agenda item is a suspension **or change of placement** review hearing.
 - b. Ask whether the parent/student wants the hearing to be open to the public or in executive session. The offer of an open hearing and the response is to be made a part of the minutes of the meeting. If the parent/student requests a closed hearing, a motion to go into executive session per their request should be made and voted on.
2. The board president or hearing officer should advise the parent/student:
 - a. That they are entitled to legal counsel, if they desire it.
 - b. That the administration will present its witnesses first and that after each witness the parents or their legal counsel will be given an opportunity to cross-examine.
 - c. That the parent/student will be given an opportunity to call any relevant witnesses and present any relevant evidence, subject to cross-examination by the administration's legal counsel.
 - d. That the board or its hearing officer will consider the evidence and documents and reach a decision that will be recorded by vote in open session.
 - e. That the parent/student may ask any questions about the procedure.
3. Administration may call witnesses and present documents subject to cross-examination.
4. Parent/student may call any witnesses and present documents subject to cross-examination.
5. After each witness is presented board members or the hearing officer may ask the witness questions.
6. Parent/student's closing statement.
7. Administration's closing statement.
8. Deliberate in private. (If the hearing is not in executive session, the board or its hearing officer may deliberate in executive session only with permission of the parent/student.)
9. Return to open session and vote. After adopting a motion making certain findings of fact the board must make a motion to:
 - a. affirm the suspension;
 - b. modify the suspension **or change of placement** (increase or decrease severity of the suspension **or change of placement**)
 - c. revoke the suspension **or change of placement**. If the hearing is before a hearing officer, no motions will be required as a part of the hearing process; otherwise, the hearing officer will have the same obligations as the board when rendering a decision.

Attendance at School Pending Appeal Hearing

Pending an appeal of the student suspension **or change of placement**, the student will have the right to attend school under such "in-house" restrictions as the principal deems proper, except that at the discretion of the principal, the student may be prohibited from attending school pending any appeal hearing if in the judgment of the principal the student's continued presence in the building will constitute an immediate danger to the health or safety of students, school employees, school property, or

would be a substantial disruption of the educational process. The days in “in-house” will not count toward the days of out of school suspension.

1.61 Wellness

Purpose

Owasso Public Schools (hereto referred to as the District) is committed to the optimal development of every student. This policy outlines the District’s approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. Specifically, this policy establishes goals and procedures to ensure that:

- School staff are encouraged and supported to practice healthy nutrition and physical activity behaviors in and out of school;
- The community is engaged in supporting the work of the District in creating continuity between school and other settings for students and staff to practice lifelong healthy habits; and
- The District establishes and maintains an infrastructure for management, oversight, implementation, communication about and monitoring of the policy and its established goals and objectives.

nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education and other school-based activities that promote student wellness. It is recommended that the school use the *Healthy Schools Program online tools* to complete a school-level assessment based on the Centers for Disease Control and Prevention's School Health Index, create an action plan that fosters implementation and generate an annual progress report.

This wellness policy and the progress reports can be found at: owassops.org

Recordkeeping

The District will retain records to document compliance with the requirements of the wellness policy at Child Nutrition Office. Documentation maintained in this location will include but will not be limited to:

- The written wellness policy;
- Documentation demonstrating that the policy has been made available to the public;
- Documentation of efforts to review and update the Local Schools Wellness Policy; including an indication of who is involved in the update and methods the district uses to make stakeholders aware of their ability to participate on the DWC;
- Documentation to demonstrate compliance with the annual public notification requirements;
- The most recent assessment on the implementation of the local school wellness policy;
- Documentation demonstrating the most recent assessment on the implementation of the Local School Wellness Policy has been made available to the public.

Annual Notification of Policy

The District will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The District will make this information available via the district website and/or district-wide communications. The District will provide as much information as possible about the school nutrition environment. This will include a summary of the District's and/or school events or activities related to wellness policy implementation. Annually, the District will also publicize the name and contact information of the District Leaders leading and coordinating committee, as well as information on how the public can get involved with the school wellness committee.

Triennial Progress Assessments

At least once every three years, the District will evaluate compliance with the wellness policy to assess the implementation of the policy and include:

The DWC, in collaboration with individual schools, will monitor schools' compliance with this wellness policy.

The District will actively notify households/families of the availability of the triennial progress report.

Revisions and Updating the Policy

The DWC will update or modify the wellness policy based on the results of the annual School Health Index and triennial assessments and/or as District priorities change; community needs change; wellness goals are met; new health science, information, and technology emerges; and new Federal or state guidance or standards are issued. **The wellness policy will be assessed and updated as indicated at least every three years, following the triennial assessment.**

Community Involvement, Outreach and Communications

The District is committed to being responsive to community input, which begins with awareness of the wellness policy. The District will actively communicate ways in which representatives of DWC and others can participate in the development, implementation and periodic review and update of the wellness policy through a variety of means appropriate for that district. The District will also inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. The District will use electronic mechanisms, such as email or displaying notices on the district's website, as well as non-electronic mechanisms, such as newsletters, presentations to parents, or sending information home to parents, to ensure that all families are actively notified of the content of, implementation of, and updates to the wellness policy, as well as how to get involved and support the policy. The District will ensure that communications are culturally and linguistically appropriate to the community, and accomplished through means similar to other ways that the district and individual schools are communicating important school information with parents.

The District will actively notify the public about the content of or any updates to the wellness policy annually, at a minimum. The District will also use these mechanisms to inform the community about the availability of the annual and triennial reports.

Food and Beverage Marketing in Schools

The District is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. The District strives to teach students how to make informed choices about nutrition, health and physical activity. These efforts will be weakened if students are subjected to advertising on District property that contains messages inconsistent with the health information the District is imparting through nutrition education and health promotion efforts. It is the intent of the District to protect and promote student's health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with the District's wellness policy.

Any foods and beverages marketed or promoted to students on the school campus* during the school day* will meet or exceed the USDA Smart Snacks in School nutrition standards, such that only those foods that comply with or exceed those nutrition standards are permitted to be marketed or promoted to students.

Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with a commercial interest in the product.¹ This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container.
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (Note: immediate replacement of these items are not required; however, districts will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is financially possible over time so that items are in compliance with the marketing policy.)

- Corporate brand, logo, name or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by the District.
- Advertisements in school publications or school mailings.
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product.

As the District/school nutrition services/Athletics Department/PTA/PTO reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by the District wellness policy.

IV. Physical Activity

Children and adolescents should participate in at least 60 minutes of physical activity every day. A substantial percentage of students' physical activity can be provided through a comprehensive school physical activity program (CSPAP). A CSPAP reflects strong coordination and synergy across all of the components: quality physical education as the foundation; physical activity before, during and after school; staff involvement and family and community engagement and the district is committed to providing these opportunities. Schools will ensure that these varied physical activity opportunities are in addition to, and not as a substitute for, physical education (addressed in "Physical Education" subsection). All schools in the district will be encouraged to successfully address all CSPAP areas.

Physical activity during the school day (including but not limited to recess, classroom physical activity breaks or physical education) **will not be withheld** as punishment for any reason (*"This does not include participation on sports teams that have specific academic requirements"*). Teachers and other school personnel **will not** use physical activity (e.g., running laps, push-ups) as punishment. The district will provide teachers and other school staff with a [list of ideas](#) for alternative ways to discipline students.

To the extent practicable, the District will ensure that its grounds and facilities are safe and that equipment is available to students to be active. The District will conduct necessary inspections and repairs.

Physical Education

The District will provide students with physical education, using an age-appropriate, sequential physical education curriculum consistent with national and state standards for physical education. The physical education curriculum will promote the benefits of a physically active lifestyle and will help students develop skills to engage in lifelong healthy habits, as well as incorporate essential health education concepts (discussed in the *"Essential Physical Activity Topics in Health Education"* subsection). The curriculum will support the essential components of physical education.

All students will be provided an equal opportunity to participate in physical education classes. The District will make appropriate accommodations to allow for equitable participation for all students and will adapt physical education classes and equipment as necessary.

All District **elementary students** in each grade will receive physical education in combination with recess for an average of 120 minutes per week throughout the school year.

All District **secondary students** (middle and high school, grades 6-12) are strongly encouraged to take the equivalent of one academic year of physical education.

The District physical education program will promote student physical fitness through individualized fitness and activity assessments and will use criterion-based reporting for each student.

- Students will engage in moderate to vigorous activity for more than 50% of class time in physical education class.
- During physical education classes, students will be given the opportunity to participate in many types of physical activity, including both cooperative and competitive games.
- When possible physical education classes will have a student/teacher ratio comparable to core subject classroom size
- All physical education classes in the district are taught by licensed teachers who are certified or endorsed to teach physical education.

Essential Physical Activity Topics in Health Education

Health education will be required in all grades (elementary) and the district will require middle and high school students to take and pass at least one health education course. The District will include in the health education curriculum a minimum of 12 the following essential topics on physical activity:

- The physical, psychological, or social benefits of physical activity
- How physical activity can contribute to a healthy weight
- How physical activity can contribute to the academic learning process
- How an inactive lifestyle contributes to chronic disease
- Health-related fitness, that is, cardiovascular endurance, muscular endurance, muscular strength, flexibility, and body composition
- Differences between physical activity, exercise and fitness
- Phases of an exercise session, that is, warm up, workout and cool down
- Overcoming barriers to physical activity
- Decreasing sedentary activities, such as TV watching
- Opportunities for physical activity in the community
- Preventing injury during physical activity
- Weather-related safety, for example, avoiding heat stroke, hypothermia and sunburn while being physically active
- How much physical activity is enough, that is, determining frequency, intensity, time and type of physical activity
- Developing an individualized physical activity and fitness plan

- Monitoring progress toward reaching goals in an individualized physical activity plan
- Dangers of using performance-enhancing drugs, such as steroids
- Social influences on physical activity, including media, family, peers and culture
- How to find valid information or services related to physical activity and fitness
- How to influence, support, or advocate for others to engage in physical activity
- How to resist peer pressure that discourages physical activity

Recess (Elementary)

All elementary schools will offer at least **20 minutes of recess** on all days during the school year (*This policy may be waived on early dismissal or late arrival days*). If recess is offered before lunch, schools will have appropriate hand-washing facilities and/or hand-sanitizing mechanisms located just inside/outside the cafeteria to ensure proper hygiene prior to eating and students are required to use these mechanisms before eating. Hand-washing, as well as time to put away coats/hats/gloves, will be built into the recess transition period/time frame before students enter the cafeteria.

Outdoor recess will be offered when weather is feasible for outdoor play.

In the event that the school or district must conduct **indoor recess**, teachers and staff will develop and follow the indoor recess guidelines that promote physical activity for students, to the extent practicable.

Recess will complement, not substitute, physical education class. Recess monitors or teachers will encourage students to be active, and will serve as role models by being physically active alongside the students whenever feasible.

In order to increase food consumption, reduce waste and improve classroom attentiveness recess will be held before lunch when possible.

Classroom Physical Activity Breaks (Elementary and Secondary)

The District recognizes that students are more attentive and ready to learn if provided with periodic breaks when they can be physically active or stretch. Thus, students will be offered **periodic opportunities** to be active or to stretch throughout the day. The District recommends teachers provide to all students short (3-5-minute) physical activity breaks throughout the day to stretch, move around and break up their time spent sitting. These physical activities may take place during and/or between classroom times. These physical activity breaks will complement, not substitute, for physical education class, recess, and class transition periods.

Schools will allow teachers the opportunity to participate in or lead physical activities throughout the school day.

Active Academics

Teachers will incorporate movement and kinesthetic learning approaches into “core” subject instruction when possible (e.g., science, math, language arts, social studies and others) and do their part to limit sedentary behavior during the school day.

The District will support classroom teachers incorporating physical activity and employing kinesthetic learning approaches into core subjects by providing annual professional development opportunities and resources, including information on leading activities, activity options, as well as making available background material on the connections between learning and movement.

Teachers will serve as role models by being physically active alongside the students whenever feasible.

Before and After School Activities

The District offers opportunities for students to participate in physical activity either before and/or after the school day (or both) through a variety of methods. The District will encourage students to be physically active before and after school by: FOR Sports, Running Club, Secondary Band and Athletics.

Active Transport

The District will support active transport to and from school, such as walking or biking. The District will encourage this behavior by engaging in *six or more* of the activities below; including but not limited to:

- Promote activities such as International Walk to School Week, National Walk and Bike to School Week
- Secure storage facilities for bicycles and helmets (e.g., shed, cage, fenced area, bike racks)
- Instruction on walking/bicycling safety provided to students
- Promote safe routes program to students, staff, and parents via newsletters, websites, local newspaper and encourage parents to supervise groups of children who walk or bike to and from school.
- Use crossing guards
- Use crosswalks on streets leading to schools
- District will work with local officials to designate safe or preferred routes to school.

V. Other Activities that Promote Student Wellness

The District will integrate wellness activities across the entire school setting, not just in the cafeteria, other food and beverage venues and physical activity facilities. The District will coordinate and integrate other initiatives related to physical activity, physical education, nutrition and other wellness components so all efforts are complementary, not duplicative, and work towards the same set of goals and objectives promoting student well-being, optimal development and strong educational outcomes.

Schools in the District are encouraged to coordinate content across curricular areas that promote student health, such as teaching nutrition concepts in mathematics, with consultation provided by either the school or the District's curriculum experts.

All efforts related to obtaining federal, state or association recognition for efforts, or grants/funding opportunities for healthy school environments will be coordinated with and

complimentary of the wellness policy, including but not limited to ensuring the involvement of the DWC/SWC.

All school-sponsored events will adhere to the wellness policy guidelines. All school-sponsored wellness events will include physical activity and healthy eating opportunities when appropriate.

Community Partnerships

The District will continue relationships with community partners (e.g., hospitals, universities/colleges, local businesses, SNAP-Ed providers and coordinators, etc.) in support of this wellness policy's implementation. Existing and new community partnerships and sponsorships will be evaluated to ensure that they are consistent with the wellness policy and its goals.

Community Health Promotion and Family Engagement

The District will promote to parents/caregivers, families, and the general community the benefits of and approaches for healthy eating and physical activity throughout the school year. Families will be informed and invited to participate in school-sponsored activities and will receive information about health promotion efforts.

As described in the "Community Involvement, Outreach, and Communications" subsection, the District will use electronic mechanisms (e.g., email or displaying notices on the district's website), as well as non-electronic mechanisms, (e.g., newsletters, presentations to parents or sending information home to parents), to ensure that all families are actively notified of opportunities to participate in school-sponsored activities and receive information about health promotion efforts.

Staff Wellness and Health Promotion

The DWC will have a staff wellness subcommittee that focuses on staff wellness issues, identifies and disseminates wellness resources and performs other functions that support staff wellness in coordination with human resources staff.

Schools in the District will implement strategies to support staff in actively promoting and modeling healthy eating and physical activity behaviors. The District promotes staff member participation in health promotion programs and will support programs for staff members on healthy eating/weight management that are accessible and free or low-cost.

Professional Learning

When feasible, the District will offer annual professional learning opportunities and resources for staff to increase knowledge and skills about promoting healthy behaviors in the classroom and school (e.g., increasing the use of kinesthetic teaching approaches or incorporating nutrition lessons into math class). Professional learning will help District staff understand the connections between academics and health and the ways in which health and wellness are integrated into ongoing district reform or academic improvement plans/efforts.

FUND DIMENSION DEFINITIONS

10 GENERAL FUNDS. Account for all financial resources of the local educational agency (LEA) except those required to be accounted for in another fund.

11* General Fund (For Operations). The general fund of any school district is hereby defined as a current expense fund, as defined in 70 O.S. § 1-117.

12* Cooperative Fund (For Cooperative Programs). The Co-op fund is hereby defined as a current expense fund, as defined in 70 O.S. § 5-117.

20 SPECIAL REVENUE FUNDS. Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

21* Building Fund. The building fund of any school district shall consist of all monies derived from the proceeds of a building fund levy, voted by the people of a school district, not to exceed five mills in any year, as defined in 70 O.S. § 1-118.

Schools which receive gifts or donations or state-appropriated monies for the purpose of capital expenditures or projects shall place such monies in the building fund, and not in the general fund.

School districts which receive monies from rental, sale, or lease of buildings, Impact Aid monies, or grants, whether from state, federal, or other sources, may place such monies in the building fund or the general fund authorized by 70 O.S. § 1-117.

22* Child Nutrition Programs Fund. Title 70 O.S. § 5-158 states that state, federal, and local collections for child nutrition monies may be placed in a governmental budget account that will be administered through your school district treasurer and appropriated separately from all other appropriated funds. The beginning fund balance each year, combined with all actual revenues including collected and estimated revenues, must be appropriated before being expended. Purchase orders shall be issued against available appropriations, and once goods or services have been received, either payable or nonpayable warrants shall be issued in payment of all purchase orders.

23* Special Building Fund (55I052, Mid-Del Schools only).

24* Oklahoma City Metropolitan Area Public Schools (MAPS) Trust. Title 70 O.S. § 3-104 (Number 18) states that the State Board of Education shall prescribe a list of appropriation accounts by which the funds of school districts shall be budgeted, accounted for, and expended. This code meets the requirement of the Resolution of the Oklahoma City Metropolitan Area Public Schools Trust to keep this money at the school district in a separate fund.

25* Municipal/County Tax Levy. Money derived from special sales tax on behalf of the school district. These funds are to be kept separate and expended only for those items addressed in the tax levy agreement.

26* Childcare and Limited Services for Children. Community lunch and childcare services contracted through Department of Human Services. Does not include childcare before or after school by 21st Century grants or Child Nutrition funds.

30 CAPITAL PROJECTS FUNDS. Account for financial resources used to acquire or construct major capital facilities other than those of proprietary and trust funds. A bond fund holds proceeds from the sale of bonds from which all expenditures for bond projects are paid, as defined in 62 O.S. § 574.

A separate fund shall be assigned for each capital project. Bond fund titles should include purpose and fiscal year of authorization. For example, a bond issue authorized for transportation equipment in November of 2009 would be the Transportation Bond Fund of Fiscal Year 2010. All transactions would be identified by the fiscal year in which the encumbrances and/or warrants were issued.

The propositions set forth in a bond issue identifying specific projects shall be accounted for in the Project Reporting dimension series 001-199 assigned by the LEA. If more than one bond issue is authorized in a fiscal year and such bond issues are for a period of ten years or more, multiple issues may be combined by using one bond fund number and tracking propositions via the Project Reporting dimension.

General purpose and fiscal year authorized to be assigned by the LEA:

- 31* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 32* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 33* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 34* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 35* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 36* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 37* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 38* (General purpose) Bond Fund(s) of (fiscal year authorized)**
- 39* (General purpose) Bond Fund(s) of (fiscal year authorized)**

Note: Bonded indebtedness, or the accumulative total of all bond funds voted, may not exceed ten percent of the net assessed valuation of the school district.

40 DEBT SERVICE FUNDS. Account for the accumulation of resources for, and the payment of, general long-term debt, principal and interest.

41* Sinking Fund. The sinking fund of any district shall consist of all money derived from ad valorem taxes or otherwise as provided by law for the payment of bonds and judgments and interest thereon, as defined in 70 O.S. § 1-119.

50* ENDOWMENT FUNDS. This fund is used to account for resources that are legally restricted to the extent that only earnings, and not principal, may be used for purposes that support the school district's programs.

60* SCHOOL ACTIVITY FUND. As defined in 70 O.S. § 5-129, the board of education of each school district shall exercise control over all funds on hand or hereafter received or collected, as herein provided, from students or other cocurricular and extracurricular activities conducted in the district. Such funds shall be deposited to the credit of the subaccount maintained for the benefit of the particular activity within the school activity funds.
