Virgil Heine
Centennial Schools
Utica, Nebraska 68456
402-641-7284

Hello Virgil,

I have gathered the information you requested in reference to upgrading the current JD 1070 tractor and loader you have to a JD 5075E that will have the lift capacity that you are needing in a loader and the power move more items around.

I have given you options for a cab and open operator station tractors with loader and pallet forks. Both options will use the JD 500 style carrier – the same you currently have, this way you can use the large custom built bucket you already have for snow.

The tractor options are priced with PowerGard Protection package on the engine and powertrain for 60 months or 2000 hours, whichever comes first.

JD 5075E Cab Tractor with JD 553 Loader, bucket and pallet forks	\$37,500 with trade
JD 5075E Open Station Tractor with JD 553 Loader, bucket and pallet forks	\$32,500 with trade

The snow blower option you wanted is separate from the tractor, but can be added to if you wish.
3 point Mounted Frontier Snow Blower \$5,750

Total of package with JD 5075E Cab, Loader, Pallet Forks and Snow Blower	\$43,250 with trade
Total of package with JD 5075E Open Station, Loader, Pallet Forks and Snow Blower	\$38,250 with trade

Your lawn mower trade options, we discussed and you have a residential model mower currently. You stated that you have to back up frequently and your current model does not turn very tight. I have recommended the JD X534, this a 4 wheel steer mower with a 54" mowing deck.

JD x534 Lawn Mower 54" Deck \$3,700 with trade

Please review this information and give me a call with any questions you may have, I look forward to working with you.

Respectfully,
Greg Myers

JOHN DEERE
CUSTOMER SERVICE PLANS

Extended Warranty Proposal

JOHN DEERE (MY2013) 5075E Open Operator Station Utility Tractor (57-61 PTO hp)					
Date : June 25, 2013					
Machine/Use Information		Plan Description		Price	
Manufacturer	JOHN DEERE	Plan Type	New - Grace Period	Deductible	\$ 250.00
Equipment Type	5075E TRACT	Coverage	Limited	List	\$ 1,319.00
Model	5075E TRACT	Total Months	60		
Country	US	Total Hours	2000		
Scraper/Const. Use	N/A				

GRACE pricing is only good during the first 12 months or 1000 hours of ownership for new tractors during the John Deere basic warranty period. After this period, DELAYED pricing can be purchased upto the end of the John Deere basic warranty for tractors of 24 months or 2000 hours, and having passed a special inspection/certification process. The Total Months and Hours listed above include the John Deere basic Warranty. 'Limited' Plan coverage = Engine & Powertrain only. 'Comprehensive' Plan coverage = Full Machine.

PowerGard Protection Proposal Prepared for: I have been offered this extended warranty and

Customer Name - Please Print

I ACCEPT the PowerGard Protection

I DECLINE the PowerGard Protection

Customer Signature

If declined, I fully understand that any equipment listed above is not covered for customer expenses due to component failures beyond the original basic warranty period provided by John Deere.

Note : This is **not** a contract. For specific PowerGard Protection coverage terms and conditions, please refer to the actual PowerGard Protection Plan contract for more information and the terms, conditions and limitations of the agreement.

What PowerGard Protection is :

The PowerGard Protection Plan is an extended warranty program for reimbursement on parts and labour for covered components that fail due to faulty material or original workmanship that occur beyond the John Deere Basic Warranty coverage period. The agreement is between Deere & Company and the owners of select John Deere Commercial and Agricultural equipment, who purchase the PowerGard Plans for the desired coverage as indicated in this proposal.

What PowerGard Protection is not :

PowerGard Protection is not insurance. It also does not cover routine maintenance or high wear items, or insurance-related risks/perils such as collision, overturn, vandalism, wind, fire, hail, etc. It does not cover loss of income or loss of value of crops during or after an equipment failure. See the actual product-specific PowerGard Protection Plan agreement for a complete listing of covered components, and limitations and conditions under the program.

Features/Benefits:

- PowerGard protection include the following features and benefits under the program :
- Pays for parts and labour costs incurred on failed covered components (less any applicable deductibles),
- Does not require pre-approval before repairs are made by the authorized John Deere dealership,
- Payments are reimbursed directly to the dealership with no prepayment required by the contract holder.

Fluid Milk Escalator /De-escalator Clause
2013-2014 School Year

1.) The attached bid is based on the cost of skim milk and butterfat to include premiums in Federal Order Market 32 for the month of **June 2013**.

Future price adjustments will be predicated on the following escalator/de-escalator formula for fluid milk taking into consideration monthly changes in the cost of skim milk, butterfat, ingredients, over order premiums. Expenses including fuel, energy, packaging and ingredients will also be included in monthly changes and will be communicated as to what these expenses include.

SKIM MILK: **Price: \$ 13.09 CWT**

- For each \$.10/cwt increase or decrease in the cost of skim milk, prices will adjust respectively as follows on all fat levels.

5 Gallon - .043 per 5 Gallon
 Gallon - .0086 per Gallon
 8 oz. - .00054 per 8 oz.

BUTTERFAT: **Price: \$ 1.8000 per pound**

- For each \$.10 increase or decrease in the cost of butterfat, prices will adjust respectively as follows by various fat levels.

<u>Item</u>	<u>Whole (3.25%)</u>	<u>2%</u>	<u>1%</u>	<u>Fat Free</u>
5 Gallon	.1395/5 Gal	.086/5 Gal	.043/5 Gal	.0045/5 Gal
Gallon	.0279/Gal	.0172/Gal	.0086/Gal	.0009/Gal
8 Oz	.0017/8 Oz	.0011/8 Oz	.0005/8 Oz	.0001/8 Oz

- **Monthly per unit adjustments will reflect a combination of the changes in skim milk and butterfat, and expenses (fuel, packaging, ingredients, resin, energy, etc.).**

This escalator/de-escalator formula applies to all fluid milk items.

2.) **Non Fluid Milk Items**

Prices bid on products other than fluid milk are for one month only, and will automatically renew at the quoted price, unless Dean Foods advises you of our intent to change the price as a result of a significant supplier price change.

Hiland Dairy is pleased to submit for your consideration the following quote for **Dairy Products** for the 2013-2014 school year.

Product

½ Pint 1%	.1920
½ Skim Choc	.2020
½ Pint Skim Straw	.2020
½ Pint Skim	.1880

Bid Due Date June 27th 2013

Escalating/De-escalating

accepted

declined

Please submit form to:
Hiland Dairy
Lewie Bokelman
5220 NW 38th St.
Lincoln, NE 68524
Phone (402) 470-2424
Fax (402) 470-2425

This is an escalating/de-escalating bid on all items. Please see attached clause for monthly cost adjustment factors.

When a decision has been reached based on this bid kindly mail or fax back any competitive bids along with this form.

Signed;

First Delivery:

Please enclose a 2013-2014 school calendar

Sincerely,

Lewie Bokelman
Branch Sales Manager

Milk Escalator / De-Escalator Pricing Clause (DFA Supplied)

The pricing quoted is based on **June's 2013** Federal Milk Marketing Order for Class I Skim and Class I Butterfat. This pricing is subject to change as the cost of raw milk changes each month according to the USDA Federal Milk Market Price Announcements and Dairy Farmers of America.

The cost of milk fluctuates up and down each month based on the cost changes in raw milk. Changes of a minimum of \$.10 per CWT (up or down) will move the cost of a half pint \$.00054.

Prices will also be adjusted up or down based on cost changes in packaging, ingredients, labor, fuel, juice concentrate, re-sale products (ex. Tropicana, Sport Shake), etc. Supporting documentation will be supplied upon request.

All price changes will become effective on the 1st day of the month following the price announcement.

CERTIFICATE OF NON-COLLUSION/INDEPENDENT PRICE DETERMINATION

The undersigned certifies that the preparation and submission of the attached bid have been conducted independently, without consultation, communication, or agreement with any other bidder or potential bidder and that there will be no consultation, communication, or agreement on the price, terms, and conditions of this bid by or on behalf of Hiland Dairy Foods Co., LLC and Roberts Dairy Company, LLC with any other bidder or potential bidder prior to the official opening of the bid.

Date: 6-24-13

Hiland Dairy Foods Co., LLC
Roberts Dairy Company, LLC

2013/14 Additional Growth with 75% Board Vote

For school fiscal year 2013-14, schools can access an expenditure exclusion **up to an** amount equal to 2% of the 2012/13 Certified General Fund Budget Authority. The maximum amount districts could access is in the far right column.

The local school board must approve the access to this additional budget authority with a 75% vote of the board. For example, if the local board has 8 members, at least 6 members must vote to approve.

State Board approval is also required for the school to access this expenditure exclusion for additional budget growth. A template for this request is found on the next tab of this spreadsheet.

Following State Board Approval, the amount of this expenditure exclusion will appear on the 2013/14 LC-2 on Line A-773.

RE: 2013-14 Additional 2% General Fund Growth
(Name of School District)

The school district is requesting approval from the State Board of Education for the Expenditure Exclusion to access up to an amount equal to 2% of the district's 2012/13 Certified General Fund Budget Authority. Upon State Board Approval, the school district will access additional 2% General Fund Growth in the amount of \$ _____. This amount is based on the district's 2012/13 Certified Budget Authority of \$ _____.

The motion to approve the access of this expenditure exclusion for additional budget authority was approved by 75% of the school board on _____.

Attached are the board minutes documenting the 75% board approval.

Sincerely,

(Name of Superintendent)

AGRICULTURAL ACADEMY INTERLOCAL AGREEMENT

This Interlocal Agreement (“Agreement”) is made and entered into under the provisions of the Nebraska Interlocal Cooperation Act, NEB. REV. STAT. §§ 13-801 to 13-827, between Seward County School District 80-0567, commonly known as Centennial Public Schools (“Centennial”), Seward County School District 80-0009, commonly known as Seward Public Schools (“Seward”), and York County School District 93-0012, commonly known as York Public Schools (“York”). The parties are referred to collectively as “Districts.”

WHEREAS, the Districts are political subdivisions of the State of Nebraska pursuant to Chapter 79, Reissue Revised Statutes of Nebraska, as amended;

WHEREAS, NEB. REV. STAT. §79-748 encourages schools to develop public-private partnerships and the Districts desire to establish an Agricultural Academy through such partnerships;

WHEREAS, the Districts desire to make the most efficient use of their taxing authority and other powers to enable them to cooperate with each other and other entities as further agreed on the basis of mutual advantage to provide goods, services, and facilities in a manner and pursuant to forms of governmental organization that will accord the best results in terms of geographic, economic, population, and other factors that will influence the needs and development of the Districts;

WHEREAS, the Districts have passed resolutions authorizing each District to approve and enter into this Agreement;

NOW, THEREFORE, in consideration of the mutual covenants contained herein, it is agreed by the parties as follows:

- 1. No Separate Legal Entity.** This Agreement does not establish a separate legal or joint entity.
- 2. Purpose.** The purposes of this Agreement are as follows:
 - A. To enhance the Districts’ curricular and non-curricular offerings and to make increased educational opportunities available to the students;
 - B. To create an Agricultural Academy (“Academy”) for the benefit of the Districts and its students through the formation of partnerships with

- private entities that are primarily agriculturally focused; and
- C. To enter into any arrangements that are desirable or necessary for the Academy, including but not necessarily limited to providing a site for the Academy, staffing the Academy, and equipping and furnishing the Academy.

3. Term. This Agreement shall have a term of 4 year(s), commencing on September 1, 2013 and ending on August 31, 2017. Subsequently, after the initial four (4) year term, this Agreement shall automatically renew from year to year for an additional one-year term unless one of the Districts gives written notice to the others on or before March 1st of its intention to terminate it at the conclusion of the then-current contract term.

4. Administration.

A. Board. This Agreement shall be administered by the Academy Board ("Board") which shall consist of the Superintendent from each of the Districts.

B. Powers. The Board may take any action authorized, either explicitly or implicitly, by the Interlocal Cooperation Act, including any action that may be necessary to perform the duties and functions as provided in this Agreement.

C. Term. Each Board member shall serve for so long as he or she holds the position of Superintendent.

D. Voting. Unless the Board unanimously adopts different rules relating to voting by Board members, each Board member shall have one vote on matters before the Board. Except as otherwise provided in this Agreement, all actions of the Board may be taken with the concurrence of a majority of the Board members entitled to vote.

E. Quorum. A majority of all members of the Board shall constitute a quorum for the transaction of any business.

F. Officers. The Board may elect a chairperson and any other officers it desires from its Board members.

G. Meetings and Notice. Meetings may be called by any one member of the Board. Written or electronic notice of the meeting and agenda shall be provided to each Board member at least 5 days prior to any meeting.

5. Employment of Teacher.

- A. York shall employ a teacher for the Academy on a full-time or part-time basis as determined by the Board. York shall be responsible for paying the teacher's salary and providing fringe benefits in accordance with its negotiated agreement with the York Education Association and/or its policies. The Districts (or their foundations, if any) expect to receive donations from private entities to fund the cost of the teacher, and such private donations shall first be used to reimburse York (or its foundation) for any teacher-related costs and expenses. In the event that private donations are insufficient to pay all teacher-related costs and expenses, the Districts shall share the total remaining cost of the teacher equally, including but not limited to salary or compensation, state and federal taxes, retirement, and mileage (if any). Centennial and Seward shall reimburse York for the cost of the teacher no later than York's last day of each semester unless agreed otherwise in writing.
- B. The York Superintendent shall have the general responsibility for supervising and overseeing teacher's work; for seeing to the payment of teacher's salary and fringe benefits; for administering appropriate discipline; for adjusting teacher's grievances; and for managing and supervising teacher in accordance with York's policies and subject to the direction of its Board of Education.

6. Teacher Not a Third-Party Beneficiary. The teacher is not a third-party beneficiary of this Agreement, and it creates no enforceable rights in favor of the teacher.

7. No Joint Employment. This Agreement shall not make the Districts joint employers of the teacher for purposes of workers' compensation, unemployment compensation, liability, or any other purpose.

8. Provision of Classroom, Books and Instruments. Each District shall be responsible for providing such books and materials as may be necessary for its own students. In the event that an Academy classroom is not provided by a private entity or additional classrooms are necessary, the Board shall make appropriate arrangements for such classroom(s). In the event that a District provides the classroom(s), it shall be at no charge to the other Districts.

9. Transportation. Each District shall be responsible for providing or arranging transportation for its students.

10. Manner of Acquiring, Holding, and Disposing of Real and Personal Property. The Districts do not anticipate a need to acquire, hold, or dispose of real property to accomplish the purposes of this Agreement. The Districts' respective boards of education shall determine the manner of acquiring, holding, or disposing of real property in the event that such a need arises. In no event shall the Board have the authority to acquire real property on behalf of the Districts. The Board shall have the authority to acquire and hold any personal property that is needed or required for the implementation of any purpose of this Agreement. The title to all such personal property shall be held in the name of York for the benefit of all Districts. York shall have the authority to dispose of such personal property, provided that (a) any such disposal shall comply with Neb. Rev. Stat. § 79-10,114, and (b) any funds raised from such sale shall be equally shared by or credited to each District.

11. Financing and Budgeting. This Agreement shall be financed, at least in part, by private donations or other non-District funds and, if necessary, by equal contributions from the Districts. The Board shall prepare a budget based on a fiscal year coinciding with the fiscal years of the Districts.

12. Expenses. Unless provided otherwise herein, all expenses of this Agreement not payable from proceeds received from private entities shall be shared and paid equally by the Districts.

13. Taxes. This Agreement does not grant the Districts any authority to levy, collect, or account for any tax authorized under sections 13-318 through 13-326 or 13-2813 through 2816.

14. Nondiscrimination. The Districts shall not discriminate against any employee or applicant who is to be employed for performance of this Agreement with respect to his or her hire, tenure, terms, conditions, or privileges of employment, because of his race, color, religion, sex, disability, or national origin.

15. Employment Eligibility Verification. The Districts shall use a federal immigration verification system to determine the work eligibility status of employees hired on or after October 1, 2009 and who are physically performing services within the State of Nebraska. If a District employs or contracts with any subcontractor in connection with this Agreement, the District shall include a provision in the contract requiring the subcontractor to use a federal immigration

verification system to determine the work eligibility status of new employees physically performing services within the State of Nebraska.

16. Termination. This Agreement may be terminated only by a unanimous vote of the Districts' respective boards of education. Any funds contributed to or for the benefit of the Academy in possession of any of the Districts upon termination of this Agreement shall be divided equally by the districts. Any other personal property owned by any of the Districts as a result of this Agreement shall be the property of the District that purchased it. In the event that the cost of the personal property was shared equally by the Districts, the property shall be liquidated or distributed in kind upon the termination of this Agreement. If a dispute arises between the Districts as to the value of such property or as to how it will be distributed, such property shall be sold by taking bids at public auction and selling said property to the highest bidder with the proceeds therefrom being divided equally by the Districts.

17. Withdrawal. A District's board of education may withdraw from this Agreement by passing a resolution and submitting a copy of it to every other District at least 60 days in advance of the stated date of withdrawal. Withdrawal shall not impair a District's obligation for its share of any outstanding indebtedness.

18. Liability Insurance. Each District shall obtain and pay for its own liability insurance coverage for their participation in this Agreement.

19. New Members. The Districts may add school districts to this Agreement by unanimous consent of the then current member Districts. The Board shall establish the fees, costs, charges, assessments, and other conditions required for participation by the new member District.

20. Notice. Each District giving any Notice ("Notice") under this Agreement must give written Notice by personal delivery, registered or certified Mail (in each case, return receipt requested and postage prepaid), or electronic mail (to the District's then Superintendent at the e-mail address maintained by the Nebraska Department of Education, with receipt confirmed). Notice shall be sent to the following addressees at the following addresses:

Centennial: Centennial Public Schools
Attn: Superintendent
1301 Centennial
Utica, NE 68456-0187

Seward: Seward Public Schools
Attn: Superintendent
410 South Street
Seward, NE 68434-2541

York: York Public Schools
Attn: Superintendent
2918 N. Delaware Ave.
York, NE 68467-9502

With copy to:

Steve Williams, Legal Counsel
Harding & Shultz, P.C., L.L.O.
P.O. Box 82028
Lincoln, NE 68501-2028
swilliams@hslegalfirm.com

Notice is effective only if the party giving the Notice has complied with this section.

21. Amendments and Modifications. The Districts may amend or modify this Agreement only by a signed, written unanimous agreement by all parties that identifies itself as an amendment or modification to this Agreement. No other alterations in the terms of this agreement shall be valid or binding.

22. Severability. If any provision of this Agreement is determined to be unenforceable, the remaining provisions of this Agreement shall remain in full force, if the essential terms and conditions of this Agreement for each party remain enforceable.

23. Counterparts. The Districts may execute this Agreement in multiple counterparts, each of which constitutes an original, and all of which, collectively, constitute only one agreement. The signatures of all of the Districts need not appear on the same counterpart, and delivery of an executed counterpart

signature page by facsimile or other electronic means is as effective as executing and delivering this Agreement in the presence of the other Districts to this Agreement. This Agreement is effective upon delivery of one executed counterpart from each District to the other Districts. In proving this Agreement, a District must produce or account only for the executed counterpart of the District to be charged.

24. Assignment. The Districts shall not assign or otherwise dispose of this Agreement or any duty, right, or responsibility contemplated in this Agreement to any other person or entity without the previous written consent of each of the other Districts.

25. Entire Agreement. The Agreement is the complete and exclusive expression of the Districts' agreement on the matters contained in this Agreement. All prior and contemporaneous negotiations and agreements between the Districts on the matters contained in this Agreement are expressly merged into and superseded by this Agreement.

Benchmark[®] – Easy Application, Superior Protection

Benchmark is sprayed or rolled over the following approved roof deck: metal, sprayed polyurethane foam (SPF), plywood, isocyanurate insulation board, and oriented strand board (OSB). With proper primer application, Benchmark can also be applied over asphalt built-up roofing.

Specifications

Elongation	338% (base and top coats combined)	ASTM D-412
Tensile Strength	410 psi (base and top coats combined)	ASTM D-412
Flexibility	1/8" Mandrel Bend at -40° F	ASTM D-1737
Accelerated Weathering	2,000 hrs under 5X magnification – no cracking, checking, crazing, chalking, or erosion	ASTM G-23
Fire Rating*	UL-790 Class "A," combustibile and non-combustibile decks	
Hail Rating	Class 4 Severe Hail	UL TGFU.R8435 FM 4470
Solar Reflectivity	85%	ASTM E-903
Base Coat Thickness	13.5 dry mils	
Top Coat Thickness	13.5 dry mils	
Drying Time	2-8 hours (depending on humidity, temperature, UV exposure and wind)*	

*Refer to Underwriters Laboratories Roofing Materials and Systems directory for specific fire resistance assemblies or contact Conklin Roofing Systems.

Optional Warranty Program

Our optional warranty programs for your new Conklin Roofing System include limited material and manufacturer-backed labor and materials warranties up to 15 years. Contact your Conklin roofing contractor for more information.

Conklin is a charter member of the Energy Star Program. Benchmark meets the criteria established by EPA/DOE for energy efficiency and reflectivity.

Benchmark meets the requirements of reflectivity and emissivity for inclusion in the CRRC program.

Benchmark has achieved a UL-790 "Class A" Fire Rating, an FM-4470 "Class A" rating for fire and is approved under Miami-Dade NOA 08-0917.08, ICC ER-5203, and Florida State approval 7033.

Learn more about Conklin Roofing Systems by contacting the Conklin Contractor below for a roof inspection and a quote.

Benchmark® Premier Roof Coating

Benchmark Sets the Standards for Superior Protection

- Strength** — Benchmark's super tensile strength makes it highly resistant to acid rain, air pollutants, and UV rays
- Durability** — Exceptional elongation gives Benchmark the flexibility to withstand building movement
- Value** — Benchmark has 85% solar reflectivity, which reduces cooling costs

Benchmark exceeds other acrylic-based products on the market today because it combines high tensile strength and exceptional elongation, earning a Class 4 hail rating and providing long-term performance you can count on. If you set your standards high, put your trust in Benchmark!

Features

- Completely seamless membrane for exceptional waterproofing
- Water-based formula for easy clean-up
- Low VOC emissions to help protect the environment
- Superior dirt resistance keeps reflectivity high longer

Benchmark is formulated for use with the following Conklin Roofing Systems:

- MR® System for metal roofs
- Fabric-Reinforced
- Spray Polyurethane Foam (SPF)

We hereby submit specifications and estimates for: installing Conklin's Benchmark MR SYSTEM.

1. SURFACE PREPARATION: Power wash entire roof surface.
2. SECURE METAL SHEETS: Tighten sheet metal and replace missing screws.
3. APPLY METAL READY: Rust inhibitor - where necessary
4. PATCH BREAKS ON TIN: Where tin is broken, reinforce with tin, caulk and screws.
5. SEAL AROUND PENETRATIONS THROUGH ROOF: Seal with coating and fabric around every penetration and add roof curbs where needed to avoid water ponding.
6. CAULKING: Caulk over the top of the screws with a special fastener grade Kwick Kaulk or base coat, this puts a seal around the neoprene washer that cracks.
7. BASE COAT AND FABRIC: Benchmark Base will be applied over all seams, both vertical and horizontal, we use 2-inch Spunflex, a polyester membrane to reinforce vertical seams and 5-inch Spunflex to reinforce horizontal seams. The seams are then embedded into a coating of base coat and more coating is applied on top of the Spunflex membrane.
8. COAT ENTIRE ROOF WITH BENCHMARK TOP COAT: Benchmark Top Coat is used to provide a uniform appearance to the roof with a coverage rate of approximately 1.9 gallons per square.
 Finished color of the roof to be White
 Install the above system in accordance with Conklin's specifications.

*Add \$360.00 to contract price to seal 24 seams in gutters.
 **Labor and material warranty does not apply to repairs made to gutters.
 Signature _____
 Total average dry mils plus fabric over seams is 48 Mils+ and 13.5 Dry mils in the field metal
 Elongation 338% Tensile Strength 410 psi

WARRANTY: 12 year "leak free" material warranty and 12 year "leak free" labor warranty. (Non pro-rated.)
 * This roof has a twenty year life expectancy

RENEWABLE WARRANTY: An additional 12 year warranty can be renewed at the end of the first 12 year period with an inspection and re-coat. The roof should be re-coated between the 16 th year and the 20 th year. The warranty can be renewed after each re-coat, and if it is re-coated on a regular basis, the roof may never need to be re-roofed again.

Any alteration or deviation from above specification involving extra costs, will be executed only upon written orders, and will become an extra charge over and above the estimate. Owner to carry fire, tornado and other necessary insurance on above work. Workmen's compensation and public liability insurance on above work to be taken out by Tillotson Enterprises, Inc. Tillotson Enterprises, Inc. is not responsible for any existing or future damage due to mold or mildew. Late payments can void warranty.

We hereby propose to furnish material and labor - in accordance with the above specifications, for the sum of:
 ELEVEN THOUSAND EIGHT HUNDRED SIXTEEN DOLLARS AND 00 CENTS \$11,816.00

Payment to be made as follows: 50% at job start and 50% within 30 days upon completion of the project. Delinquent payment, upon any work completed, shall bear interest at 1.3% per month from date of completion, and, if suit is filed to enforce payment, owner will pay reasonable attorney fees and court cost.

1st payment	\$5,908.00	2nd payment	\$5,908.00
Date paid		Date paid	

Acceptance of the Proposal. The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.	We agree to furnish the above items and conditions herein contained. All agreements contingent upon strikes, Acts of God, or other causes beyond our control.

 5,200 Square feet of roof
 5,616 Square feet of metal surface
 Sales Person Dan Zysset

Bid # 0703 146 DZL

TO: Centennial Public Schools Mike Wright P.O. Box 187 Utica NE 68456	Job name and/or location Centennial Public Schools BUS BARN 5th & E St. Utica NE 68456
PHONE: FAX:	Job Phone: Cell Phone:

We hereby submit specifications and estimates for: installing United Roof Mate MR SYSTEM.

1. SURFACE PREPARATION: power wash entire roof surface.
2. SECURE METAL SHEETS: Tighten sheet metal and replace missing screws.
3. APPLY ACRYLEX 400: Rust inhibitor where necessary
4. PATCH BREAKS ON TIN: Where tin is broken, reinforce with tin, caulk and screws.
5. SEAL AROUND PENETRATIONS THROUGH ROOF: Seal with coating and RM fabric around every penetration and add roof curbs where needed to avoid water ponding
6. CAULKING: Caulk over the top of the screws with a Roof Mate butter gade or base coat, this puts a seal around the neoprene washer that cracks.
7. BASE COAT AND FABRIC: Roof Mate Base will be applied over all seams, both vertical and horizontal, we use 2-inch RM fabric, a polyester membrane to reinforce vertical seams and 6-inch RM fabric to reinforce horizontal seams. The seams are then embedded into a coating of base coat and more coating is applied on top of the RM fabric membrane.
8. COAT ENTIRE ROOF WITH ROOF MATE TOP COAT: Roof Mate Top Coat is used to provide a uniform appearance to the roof with a coverage rate of approximately 1.75 gallons per square.
 Finished color of the roof to be White
 Install the above system in accordance with United specifications.

*Add \$360.00 to contract price to seal 24 seams in gutters.

**Labor and material warranty does not apply to repairs made to gutters.

Signature

Total dry mils plus fabric over seams is 46 Mils+ and 12 Dry mils in the field metal
 Elongation 226% Tensile Strength 224 psi

WARRANTY: 10 year "leak free" material warranty and 10 year "leak free" labor warranty. (Non pro-rated.)

** This roof has a twenty year life expectancy*

RENEWABLE WARRANTY: An additional 10 year warranty can be renewed at the end of the first 10 year period with an inspection and re-coat. The roof should be re-coated between the 14 th year and the 18 th year. The warranty can be renewed after each re-coat, and if it is re-coated on a regular basis, the roof may never need to be re-roofed again.

Any alteration or deviation from above specification involving extra costs, will be executed only upon written orders, and will become an extra charge over and above the estimate. Owner to carry fire, tornado and other necessary insurance on above work. Workmen's compensation and public liability insurance on above work to be taken out by Tillotson Enterprises, Inc. Tillotson Enterprises, Inc. is not responsible for any existing or future damage due to mold or mildew. Late payments can void warranty.

We hereby propose to furnish material and labor - in accordance with the above specifications, for the sum of:

TEN THOUSAND NINE HUNDRED NINETY-TWO DOLLARS AND 00 CENTS \$10,992.00

Payment to be made as follows: 50% at job start and 50% within 30 days upon completion of the project. Delinquent payment on any work completed, shall bear interest at 1.3% per month from date of completion, and, if suit is filed to enforce payment, owner will pay reasonable attorney fees and court cost.

1st payment \$5,496.00	2nd payment \$5,496.00
Date paid	Date paid

<p>Acceptance of the Proposal. The above prices, specifications and conditions are satisfactory and are hereby accepted. You are authorized to do the work as specified. Payment will be made as outlined above.</p>	<p>We agree to furnish the above items and conditions herein contained. All agreements contingent upon strikes, Acts of God, or other causes beyond our control.</p>

Conklin MR System[®] for Metal Roofs

Don't Replace Your Roof - Restore It!

"The roof of our building was deteriorating with rust. Installing the Conklin MR roofing system extended the life of the roof. After installation we now enjoy a dry building. We also like the annual inspection as part of the Conklin warranty. It has been a good investment."

Bill R., Owner
Kidron Electric Inc.

What is Metal Roof Restoration?

A complete waterproofing system for metal roofs that inhibits rust, stops leaks and provides an energy efficient, long-lasting and attractive finish coat for years of service. All seams are strengthened with fabric reinforcement embedded into our acrylic elastomeric roof coating. Exposed fasteners are sealed from the elements with premium caulking. The entire roof surface is protected with one of Conklin's industry-leading roof coatings. The system is an effective method for preserving an existing metal roof without the need for costly metal repair or replacement.

What can this System do for you?

- Stop leaks at seams where they most occur
- Extend the life of your roof
- Overcome metal design flaws
- Reduce air conditioning costs

Prevents leaks

The Conklin MR System® protects your metal roof from the elements with a highly-durable, seamless membrane. Stops leaks where they occur most by sealing all seams, fasteners and penetrations with a combination of the best acrylic elastomeric coatings on the market, strengthened with fabric reinforcement. This ensures that the elements cannot get to your most valuable items.

Extend your roof's life

Conklin's MR Systems offer additional benefits beyond stopping leaks and inhibiting rust. Conklin highly-reflective roof coatings reduce the destructive thermal shock experienced by metal roofs during extreme fluctuations in temperature. This minimizes the amount of expansion and contraction experienced by the roof and greatly increases its useable life.

Save money by saving energy

The highly-reflective coating also provides significant energy savings. By reflecting up to 85% of the sun's ultraviolet energy rather than absorbing it in the form of heat, Conklin ENERGY STAR roof coatings can drastically reduce cooling costs. The benefit can also be felt in a cooler workspace.

Our three exceptional roof coatings are designed to meet the needs of your particular project:

- Benchmark® offers the ultimate in flexibility and strength
- Rapid Roof III® is the workhorse of the Conklin line
- Rapid Roof HV delivers Conklin quality without the costly code approvals and fire ratings

Tested. Proven. Trusted.

Conklin Roofing Systems have been tested, proven and trusted by building owners nationwide since 1977. Our systems are tested and approved by major code approval agencies, such as Factory Mutual (FM) and Underwriters' Laboratories (UL). Architects, specifiers, building owners and facility managers around the country rely on Conklin Roofing Systems to protect the valuable contents of their buildings.

Affordable quality

Conklin Metal Roofing Systems are designed to provide long-term performance at a fraction of the cost of metal replacement. Additionally, there are financial benefits to metal roof restoration systems. Metal roof restoration can be expensed as a repair or maintenance cost while roof replacement must be capitalized.

Metal Roof System Application

1

Power wash and clean with Rust Off®.

2

Prime with Metal Ready® Universal.

3

Kwik Kaulk® all fastener heads.

4

Reinforce existing seams with Spunflex® or Butyl Tape and base coat.

5

Seal entire roof with one of our approved acrylic coatings:

- Rapid Roof® HV
- Bench Mark®
- Rapid Roof III®
- PUMA® XL
- Equinox®

6

Completed project.

Photos courtesy of Bill Feland

"We live in an area where the temperatures range from 25° below to 100° above zero, so the roof has a lot of movement and weather related stress. This process sealed our leaks, stopped the rusting and allows our students and staff to stay dry. We didn't know we were going to get increased energy efficiency when we started, but we are spending less to cool the building. We are going to have more of our buildings done with the MR System."

Keith M., School Superintendent

Conklin's highly-reflective roof systems have been providing quality solutions to the roofing market since 1977.

Learn more about Conklin Roofing Systems by contacting the Conklin Contractor below for a roof inspection and a quote.

TOTAL SQUARE FOOTAGE:

6,987,620

MR = Metal Roof Coatings

FO = Spray Polyurethane Foam on Roof

RC = Foam or Metal Roof that been resprayed with coatings

Ply = Coating and Fabric

IF = Foam sprayed inside of a building for insulation

HC or FX = Hy-Crown or Flexion are Single ply roof systems

DB = Spraying coating directly to the substrate (no foam or fabric)

Alumify = Aluminum colored oil base paint

Maintain = White rust inhibition coating for wall or roofs

ROOF MATE

SUSTAINABLE ROOF COATINGS

Reflective Solutions for a Brighter Future

THE SUSTAINABLE ROOFING SYSTEM

Thank you for your interest in UNITED COATINGS' ROOF MATE —The Sustainable Roofing System. As pioneers in roof coatings technology, we developed the first fluid-applied acrylic roofing elastomer over 30 years ago. The concept is no different from using a coat of paint to protect the siding on a house or the body of a car. We have simply adapted the same principal to protect the integrity of the roofing substrate, whether it is new or retrofit. Incorporating a premium quality advanced acrylic elastomer coating, ROOF MATE forms a waterproof, monolithic membrane, preventing further degradation of the underlying roofing system.

ROOF MATE incorporates all of the positive features now being touted throughout the roofing industry. Benefits such as reflectivity, maintainability and sustainability. All roofing systems will eventually begin to break down as they age. The ROOF MATE System has evolved to include primers and reinforcement as necessary, so that it can be applied to virtually any aged, yet still sound, roofing substrate. By extending the life of the existing roof, the Building Owner not only saves on the cost of roof replacement, but also cuts energy consumption, lowers air conditioning costs, reduces pollution and eases the burden on our already overflowing landfills.

The viability of the system and its positive benefits have been investigated and documented by not only the roofing industry, but by several independent testing organizations. Local, State and Federal Government agencies are now heavily involved in supporting the benefits of "Cool Construction" materials. We are proud of the fact that ROOF MATE from UNITED COATINGS is ENERGY STAR®, CRRC, UL, FM, ICC and Dade County Florida approved.

UNITED COATINGS is also a partner in the Environmental Protection Agency's ENERGY STAR® Roof Products Program. Our roof coatings have been independently tested and certified to meet Cool Roof Rating Council (CRRC) standards, and qualify for California Title 24 and LEED certification.

Check out the following pages to see what ROOF MATE can do for your aging roof—or for your new roof as well. If you would like additional information, samples, a free survey, or just want to talk roofing, give us a call at (800) 541-4383 or (480) 754-8900, or visit our website at www.unitedcoatings.com. Thank you for your interest in our products. We look forward to solving your roofing problems with proven solutions. ROOF MATE from UNITED COATINGS...Longevity By Design®.

WHY CONSIDER A REFLECTIVE COATING?

LOWER ROOF TEMPERATURES

Highly reflective white pigments reflect 85+% of the sun's radiant heat, dramatically lowering the temperature of the underlying roof substrate and preventing further degradation.

LOWER INTERIOR TEMPERATURES

Since most of the sun's radiant heat is reflected rather than absorbed into the roof substrate, interior temperatures are reduced dramatically.

ELIMINATES TEAR-OFFS

Discarded roofing materials take up a tremendous amount of our ever-diminishing landfill space. Application of a protective coating system prior to failure of an existing roof prevents further degradation, ultimate tear-off and subsequent replacement expense.

REDUCED ENERGY CONSUMPTION

Preserving our precious energy resources has become a major focus of government and industry, as building codes are amended to recognize the benefits of "heat reflective" roof systems as a method of reducing energy costs and improving air quality.

REDUCED "HEAT ISLAND" EFFECT

Dark colored construction materials, combined with a reduction in vegetation, has created a phenomenon labeled "heat islands" in most of our urban metropolises, with temperatures up to 12°F higher than surrounding rural areas. Reflective roof coatings are classified as "cool construction materials", which help to minimize the negative effects associated with heat islands.

BETTER AIR QUALITY

Because light colored roofs reflect most of the sun's radiant energy away from the roof substrate before it is converted into heat, the surrounding air temperature is lowered. Most pollution is dependent upon photochemical reactions whose rates are temperature dependent, therefore a slight reduction in air temperature can result in a dramatic decrease in atmospheric pollution.

LOWER ELECTRICAL COSTS

Documented case studies show that a reflective white roof coating system substantially reduces air conditioning energy use, typically paying for itself within 5 years.

SUSTAINABLE

Roof coatings systems require very low annual maintenance. Through periodic recoating, the elastomeric coating system can be extended to last the life of the building.

MONOLITHIC

Roof coatings systems are liquid-applied and 100% adhered. This means there are no seams to come apart, no fasteners to come loose, no adhesives to disbond and no ballast adding unnecessary weight.

INDEPENDENT TEST DOCUMENTATION

Numerous case studies by organizations such as the U.S. Department of Energy, Lawrence Berkeley National Laboratory, the Florida Solar Energy Center, Tennessee Valley Authority and the Roof Consultants Institute have verified the advantages obtained through the use of reflective coatings systems.

CONCRETE ROOF SUBSTRATES

Concrete roof substrates inevitably crack and control joints eventually begin to fail, allowing moisture to penetrate to the interior. Chalky or punky concrete is sealed with a penetrating primer to solidify the surface. Moving cracks and control joints are individually detailed with caulk and/or reinforcing fabric. On more severely cracked or deteriorated surfaces, full fabric reinforcement can be installed over the entire roof. *Roof Mate* remains permanently flexible to bridge existing and future cracking, maintaining a waterproof elastomeric membrane.

**UNITED
COATINGS**
LONGEVITY BY DESIGN®
A Subsidiary of Quest Specialty Chemicals™

METAL ROOF SUBSTRATES

As metal roofs age they become more susceptible to corrosion, normally beginning at the seams and spreading throughout the panel. As gaskets degrade around the fasteners and come loose, allowing additional deflection between panels, leaks begin to occur. The **Roof Mate System** includes primers for inhibiting the spread of rust, as well as several options for sealing fasteners and reinforcing seams. Reinforcement methods include polyester fabric, self-adhesive butyl-backed fabric and discs, and fabric-free mastic systems.

**UNITED
COATINGS**
LONGEVITY BY DESIGN[®]
A Subsidiary of Quest Specialty Chemicals[™]

SINGLE PLY ROOF SUBSTRATES

Single-ply membranes, such as EPDM, Hypalon, PVC, Neoprene, CSPE, CPE, NBP and TPO all eventually succumb to the effects of extended exposure to the elements. These effects typically manifest themselves through degradation of the surface as it begins to oxidize, check and craze. Seams, whether heat-welded or glued, also eventually begin to come apart, allowing water intrusion beneath the membrane. **Roof Mate**, applied directly over these single-ply substrates, eliminates the need to tear off and/or reapply another single-ply sheet. By incorporating primers and reinforcement as necessary, the **Roof Mate System** effectively restores the membrane to its original water tight condition, while its permanent flexibility allows the elastomeric membrane to expand and contract with movement of the roof.

**UNITED
COATINGS**
LONGEVITY BY DESIGN[®]
A Subsidiary of Quest Specialty Chemicals[™]

OTHER ROOF SUBSTRATES

Board-stock or sprayed-in-place insulation, transite, wood and composite shingles have also proven to be excellent candidates for application of the *Roof Mate System*. Contact UNITED'S Technical Service Department or your local Representative for specification assistance on any type of unusual or challenging roof coating requirement you might have. Chances are, we have a system designed to effectively extend the life of your particular roof substrate.

Board of Directors Responsibilities (adopted 11/15/05, amended 11/14/07)

A. Responsibilities

1. Meetings

- a. NASB Board of Directors Meetings - Attend and participate in all meetings (normally January, March, June, August and November). Note: The first four meetings are held on a Saturday in Lincoln at the NASB office; the November meeting is held in conjunction with State Conference in Omaha. To be excused from a Board meeting, Directors should notify the NASB office before the meeting date.
- b. Annual Planning Meeting - The annual planning meeting is generally held in conjunction with the January Meeting.
- c. Area Membership Meetings - Participate in the Area Membership Meetings that serve your NASB Region, and fulfill related duties as assigned. Directors from the Metro districts, as well as the Executive Board, could expand their roles to assist with other larger regions. These duties would be assigned by the President.
- d. Annual State Conference - Held in November of each year.
- e. Educational seminars sponsored by the Association - especially those held in your respective region.

2. Serve as a member of one or more standing committees to which appointed. Committees include: Legislation, Membership, Conference, Nominating, Executive, Public Relations/Marketing, Awards of Achievement, Governor's Award, Policy Review Task Force, Oversight and any special committees deemed necessary.

3. Act as liaison between the school districts within the NASB Region and the NASB Board of Directors.

- a. Provide a direct connection to the board for the local school district(s) in the Director's region.
- b. Promote the services provided by the Association for the individual needs of each board within a region.
- c. A relative representative who represents a shared perspective of the issues impacting local school districts.
- d. A resource.
- e. Contact the NASB member school districts within the region you serve.

- f. Act as a direct resource to assist staff in updating annual membership information (i.e., current members of each board [and following elections] addresses, phone numbers, email, officer status, etc.).
 - g. Be prepared at each Board of Directors Meeting to give a brief report on the contacts, responses and information shared with your member school districts.
4. Maintain contact with state senators representing the NASB Region to which the director is elected.

B. Duties

The Board of Directors shall:

1. implement the purposes of the Association and exercise general supervision over its affairs;
2. attend the annual Delegate Assembly and implement policies and programs adopted by that body;
3. enter into such agreements with other agencies to plan, implement, and administer projects, activities, and services designed to improve its member boards as it deems necessary;
4. act upon the Nominating Committee's recommended candidate for Vice President;
5. act upon appointments to committees;
6. recommend establishment of committees;
7. review boundaries of districts and make necessary adjustments in accordance with the Bylaws of the Association;
8. employ and evaluate the Executive Director under such terms of employment and at such salary as it may determine, to manage the affairs of the Association;
9. act upon the employment, evaluation, and salary of other personnel;
10. employ an independent certified public accountant to audit the financial records of the Association and submit an annual audit report to the Board of Directors for its adoption; and
11. adopt an annual budget.

SUPERINTENDENT'S REPORT

July 11, 2013

1. NASB will be hosting a School Finance and Budget Planning Workshop on July 23rd at the Cornhusker in Lincoln. Registration begins at 5:15 p.m., Dinner at 5:30 p.m. with the meeting beginning at 6:00 p.m. The workshop should be over by 8:45 p.m. Larry is registered, please let me know if you would like to attend. Registration deadline is July 16th.
2. Start planning now to attend the National School Boards Association Conference in New Orleans on April 5th through the 7th. Registration and housing opens in October, so I would like to have an idea by that time.
3. The NASB Area Membership Meeting will be held on September 4th in York. Registration begins at 4:45 p.m. and the opening session starts at 5:00 p.m. There are two skill building sessions at 5:30 and 6:20 p.m. The dinner and program will run from 7:10 p.m. to 8:30 p.m. Please let me know if you will be unable to attend.
4. Colin, Megan, and I will be attending Administrator Days in Kearney on July 31st, August 1st, and 2nd.
