Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea; Yea: 5, Nay: 0, Absent: 1

The motion was made by Jeremy Buschkamp and seconded by Lisa Van Heek to approve the consent agenda. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea; Yea: 5, Nay: 0, Absent: 1

Public comment was given by two people.

In Administrative time, Mr. Wragge, Mr. Ostermeyer, and Ms. Higgins, referenced their reports to the Board members.

Mr. Wragge updated the board members on additional storm damage that had happened, which included all the football field light poles leaning, a leaning parking lot light pole at the high school, and the bell tower at the elementary had a tree fall on it. The insurance company has come and accessed all the areas of damage, and it looks like we will need to replace all the poles. We have halogen bulbs and fixtures, and ALICAP suggested going to LED, as halogen bulbs and fixtures are no longer in production, and inventory is being used up. Mr. Wragge will be getting quotes, and will be working with ALICAP on the insurance claim part of it.

The motion was made by Jeremy Buschkamp and seconded by Lisa Van Heek that the agreement on the north farmland for 2027 will be farmed with the north half being sown into grass for haying as a buffer strip, and the south half being able to be farmed with no restrictions, and a percentage split of the income being divided 80% to the FFA and 20% to other activities. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Nay, Michael Janssen: Absent, Craig Marsh: Nay, Lisa Van Heek: Yea; Yea: 3, Nay: 2, Absent: 1

Mr. Ostermeyer and Ms. Higgins shared information with board members regarding the recently held staff in-service. During the data retreat in-service, they reviewed the school's student data reports, along with doing activities and brainstorming, to focus on the area of writing. The area

of writing is the state's next area of focus over the next several years. They also did some curriculum planning across the grade spans.

The motion was made by Craig Marsh and seconded by Jayne Arens to approve the option enrollment resolution, as presented. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea; Yea: 5, Nay: 0, Absent: 1

The motion was made by Jeremy Buschkamp and seconded by Craig Marsh to approve the quote from Miller Painting for the caulking of control joints on the high school building for $10,950.00, to be paid for using depreciation funds. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea; Yea: 5, Nay: 0, Absent: 1

Discussion was held on possible extra staffing decisions for the 2027-2028 school year, for high school special education, and an extra first grade teacher. After discussion, it was agreed to at least pursue advertising for an additional high school special education teacher.

During project and plan discussion, Mr. Wragge updated the board members that windows would soon be going in, and the drywall would be going up. The asbestos abatement is complete, and air quality has passed inspection. ESI will now be coming back for mold removal that has developed in some of the old school areas. After the abatement, we will now need to replace the stage flooring that was removed, and then paint the two small offices that are on the stage. The east girls' restroom at the elementary will also be switched to three stalls instead of four for better spacing, which will include new partitions and plumbing.

The motion was made by Craig Marsh and seconded by Lisa Van Heek to go into closed session at 8:19 pm, to only discuss collective bargaining for certified staff. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea; Yea: 5, Nay: 0, Absent: 1

The motion was made by Jayne Arens and seconded by Craig Marsh to come out of closed session at 8:44 pm, with only having discussed collective bargaining for certified staff. The motion passed by the following roll call vote. Passed - Jayne Arens: Yea, Jeremy Buschkamp: Yea, Amy Hoffman: Yea, Michael Janssen: Absent, Craig Marsh: Yea, Lisa Van Heek: Yea Yea: 5, Nay: 0, Absent: 1

The motion was made by Jeremy Buschkamp and seconded by Amy Hoffman to set the next meeting for November 9, 2026, at 6:30 pm, and to adjourn the meeting at 8:45 pm. The motion passed by the following roll call vote. Ag Education/FFA

National Convention

Four members and Ms. Lutjelusche traveled to Indianapolis, Indiana, beginning October 20th for the 99th National FFA Convention & Expo. While there, members attended sessions, heard from numerous speakers and leaders, toured the Indianapolis 500 Speedway, connected with business and college representatives, and networked with FFA members from across the state and country.

Poultry Evaluation

On October 28th, eight members competed in the District Poultry Evaluation contest held in Bloomfield at the Knox County fairgrounds. This contest focuses on a career in poultry production. Members evaluate live chickens, eggs, and meat products and take a knowledge test. The team finished 8th overall. Full results are posted on Facebook.

Connecting Chapters

On October 29th, eleven members participated in the Nebraska Farm Bureau's Connecting Chapters training. This training focuses on providing FFA members with the skills to increase agricultural literacy in their communities, particularly through connections with elementary students. During the training, members practiced presenting an agriculturally accurate book and presenting lessons for elementary students.

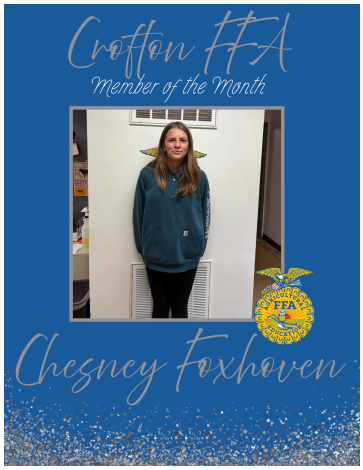

Member of the Month

The October Member of the Month was Chesney Foxhoven. Chesney competed at the Knox County Fair for the first time this year, where she was named Grand Champion Junior Goat Showman. Chesney also competed at District Dairy Evaluation in September as part of the District Champion Junior High team. She was the individual District Runner-Up.

Crofton Community School District's
2025–2026 Annual Computer Science Education Status Report

This report has been prepared to satisfy the annual reporting requirement under Neb. Rev. Stat. § 79-3305.

Crofton Community School is pleased to report on student progress in computer science and technology education and the following district–determined measures of progress. The following data illustrate the district's progress in implementing computer science and technology education.

Computer Science & Technology Opportunities

High School Computer Science (Grades 9-12)

Note: Per NRS 79-3304, beginning in the 2027-2028 school year, all students must receive a minimum of five high school credit hours (one semester equivalent) of computer science and technology before graduation.

Enrollment Data (Graduation Requirement Only):

To meet the upcoming graduation requirement beginning with the graduating class of the 2027–2028 school year, Crofton requires all 9th–12th grade students to take Advanced Software Technology or Digital Media I & II for one semester during their 4 years of high school.

Enrollment data for the 2025–2026 school year:
High School Elective & Advanced Computer Science Courses

Course Name	NDE Course Code	Total Enrollment
Information Technology Applications	270502	36
Digital Media I	270602	24
Digital Design II	270611	24

Middle School Computer Science (Grades 7-8)

Junior High students at Crofton Community School are offered a variety of Computer Science and Technology Courses. These courses are each nine weeks in length and build on Computer Science education received at the elementary level.

Middle School Courses that include Computer Science Instruction:

Grade Level	Course/Unit Name	NDE Course Code	Total Enrollment
7th Grade	iTECH 7	279930	24
8th Grade	iTECH 8	279931	17

Elementary Computer Science (Grades 4th — 6th)

Crofton Community School employs a Instructional Technologist who provides 25 minutes of instructional time, Monday – Friday, with upper elementary students. All Kindergarten – 6th grade students receive Computer Science and Technology instruction.

Computer Science and Technology Instruction at the elementary level:

Grade Level	**Average Instructional Time Per Day**	**Primary Delivery Method**
6th Grade	25 Minutes per day	Specials: Monday – Friday
5th Grade	25 Minutes per day	Specials: Monday – Friday
4th Grade	25 Minutes per day	Specials: Monday – Friday
Kindergarten – 3rd grade	Developmentally appropriate technology and computer science content integrated into existing daily coursework and subject areas	

Teacher Certification & Capacity

Crofton Community School employs the following staff positions related to Computer Science and Technology Education:

- Elementary Computer Science teacher .25 FTE
- High School Computer Science teacher .25 FTE
- ES Media Specialist / Information Technology teacher .50 FTE
- HS Media Specialist / Information Technology teacher .50 FTE
- High School Information Technology / Computer Science teacher 1.0 FTE

Crofton Community School conducts Computer Science–specific professional development annually for all educators who provide Computer Science instruction.

Additional professional development, specific to computer science education, would be beneficial.

Student Progress

Crofton Community School Board of Education has made Computer Science and Technology preparedness a priority for all students. Crofton Community School uses course completion, enrollment in advanced computer science coursework, and locally identified skill indicators to monitor student progress. During the 2025–26 school year, 100% of students enrolled in the district's introductory computer science course successfully completed the course. Enrollment in elective and advanced computer science coursework has been steady each year courses have been offered. Specific targets include keyboarding, office productivity software skills, AI literacy, and foundational knowledge of Computer Science. As more elementary students have received direct Computer Science instruction, we have noticed an upward trend in middle and high school Computer Science course enrollment and completion.

Reporting Period: 2025–2026 School Year

PLAINVIEW

Our K, 1, 2 are all 2-track…regardless of size. They come together in 3rd grade and then split up a bit for departmentalized instruction 4th–6th.

We've had 2 kindergarten teachers since this current senior class of 30+ started 12 yrs ago. The board liked both teachers and they didn't have a place for the newly hired K teacher to go so they just kept her even though the K class the next year was only 18.

Eleven yrs ago, we were bouncing a teacher around with this large class until they got to 4th grade. We used ESSER funds to hire an additional 1st grade teacher to keep a class split for 2 years and then we took it a step further into 2nd grade for 2023-2024.

Basically we decided that class sizes of 10–15 for the first 3 grades would highly increase the probability that they will be reading on grade level by 3rd grade. Our NSCAS scores have gone up 20 pts and our Elementary AqUESTT classification has gone from Good to Great to Excellent from 2021-2022 to 2025-2026 so we can justify the expense with data. I do use REAP $ to help pay…classified as class size reduction.

Either I or Jen will be happy to talk with you or your Elem principal directly about this model. It's just what we do…it's not a big discussion each year but our investment in splitting grades K, 1, and 2 appears to be paying off with results!

OTHER CONSIDERATIONS

The ES bond project included two additional classrooms. We presented them as classrooms for the primary grades (1st and 2nd) to maintain smaller class sizes for teaching foundational skills in the early elementary grades.

Moving teachers from grade level to grade level to accommodate larger classes creates several challenges—

- Reduced Academic Achievement: Teachers who move between grade levels do not develop the same depth of knowledge and familiarity with a grade–level curriculum as teachers who consistently teach the same grade level

- Teacher Retention: Teachers who are moved from grade level to grade level often seek positions in other districts where they can remain in one classroom. This creates turnover (time and resources spent on hiring, training, learning our system, learning our culture)

- Parental Discontent and Frustration: Parents will prefer their children to have the teacher who consistently teaches that grade level rather than one who moves between grade levels

- Curriculum and Supply Costs: Grade-level curriculum and materials will be bought and likely used for one year before being shelved as the classroom teacher moves on to another grade level. And then we buy more curriculum and materials…

NOVEMBER

1. Drywall in North Classrooms and old School Counselor office
    a. Chunks of drywall missing
    b. Several walls have a lot of glue stuck to them
    c. Replacing the damaged drywall with new / patching
        i. 3–4 sheets in each of the three classrooms

2. Gym Perimeter Walls—after abatement
    a. Costs: Framing, Rock, Insulation, and Paint

3. Flooring—Stage floor
    a. Composite Wood flooring
        i. Scratches and scuff are easier to fix
        ii. Vinyl rips
        iii. A matte finish and a light wood grain color to reflect light (black curtains absorb it)

4. 40 Radiator Panels (The panels covering the radiators hanging on the walls)
    a. Sandblast, Epoxy, Fix dents, paint
    b. Epoxy application requires 70 degrees or warmer
    c. We have to sandblast to remove the paint from the fins. The heat on the panels from the radiators requires extra prep (epoxy). And we have to apply a good paint because of the heat
    d. Bid—$4754
