6. Superintendent's comments

Veteran's Day Events

1. McCook Elementary held a special program in their commons area the morning of the 11th.
2. Central Elementary held a breakfast program for Central students and any relatives that are veterans. Central Starz sang patriotic songs that focused on paying tribute to the service of our veterans to our country.
3. Jr. High: Students completed papers about veterans, sharing information and stories about family members who served in the armed forces. These papers were posted in the JH hallways. Junior high choir students performed patriotic songs during IN/EN Time (10:42AM).
4. High School: Veterans Memorial Wall at High School Entry Way. Recognized veterans who served our country, and gave special recognition to Dick Trail.

7. Curriculum Work Days

- Teachers' teams will be working during the late fall and early spring semesters to work through their content area standards to ensure that our local curriculum is appropriately aligned to the state standards, and to ensure that our CRT assessments provide both teachers and students a clear feedback on each student's level of mastery.
- Teacher teams will meet during the school day and substitutes will be hired to cover their class so that the teachers have ample time to thoroughly review and discuss our identified essential learning objectives and the assessments that address them.

8. School Improvement

- Discussed and reviewed the District's belief statements and vision statement
- Discussed multicultural education plans and their updating (RULE 10) requirement.
- Discussed the Nebraska Frameworks Model update and the need to stay on course for the next three years. After the next visitation, the team may decide to adopt many of the new model's processes.

9. Safety Team Meeting

- The Safety Team met to discuss progress toward implementation of our Raptor emergency communications and alert system. We will be conducting additional training on March 9 with staff members. The focus of the training will be on reunification.
- Discussed our anonymous reporting system and sharing that process with students.
- We also discussed setting up a visit for our annual review of our school buildings and grounds.
- Reviewed emergency bag contents and checklists

10. ALICAP Report

- Attached
11. Tennis and Track Building Update
 - Due to the fact that no bids were submitted for the construction of our tennis and track building, we are now in the process of taking on the challenge of overseeing the work through the superintendent and business offices. We will be working on lining up subcontractors to do the work under our guidance.
 - The potential to save some money on the project exists, but it may take a little longer for the project to be completed.
 12. Meeting with McCook Community College
 - Update on the welding program
 - 13.

2021-2021 RFP's

RFP for Central elementary roof will be published in Jan.

Audit was performed. Audit results: Favorable with the same findings as previous years

Deficiency: The size of the District's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties. This situation dictates that the District Board remain involved in the financial affairs of the District to provide oversight and independent review functions.

Items to be done by the district office,

1. Within the Activities Fund, there are three accounts with a negative balance. These accounts should be evaluated and resolved to positive or zero balances, if possible.
2. Within the Nutrition Fund, there were a few checks that have been outstanding for a significant amount of time. We recommend that any outstanding checks dated before August 31, 2021, be voided. Outstanding checks should only be within a year of the current fiscal year.
3. All affiliated organizations of the School District must not use the School District's Federal ID number for bank accounts or other purposes. We recommend that you contact any affiliated organizations (i.e. Booster Clubs, Parent Teacher Organizations, Senior

Parents, or Foundations) and verify that the organizations are not using or relying on the School District's Federal ID number. If they are using the School District's Federal ID number, their activity will be incorporated into the School District's financial statements for the year ended August 31, 2023.

Federal/state Reports filed in October:

The annual financial Review was submitted and accepted by the NDE

6. Superintendent's comments

School Improvement

The state of Nebraska is currently crossing the state providing training for the new school improvement process, due to the significant number of changes being made to the Nebraska Frameworks continuous school improvement process model. I, and several building principals, attended a workshop at the Educational Service Unit (ESU) in Trenton last week. The new process calls for a significant increase in the number of specific expectations and paperwork the District will need to meet prior to our next external review in the spring of 2025.

The District has developed an easy to read and understand document to share with parents and patrons that explains our school improvement goal. The documents will be distributed as handouts and via electronic media during the coming weeks.

Rule 10

The District is currently going through NDE's Rule 10 checklist to make sure the District is complying with all of its requirements. This process takes place annually. The Rule 10 document provides all the necessary guidance for schools to meet accreditation and covers all necessary topics from the numbers of new book purchases for the school library to the qualifications of teachers and administrators.

Connecting the Dots Activity

On September 21, the high school hosted the Connecting the Dots event in conjunction with the Nebraska Extension office. The activity engages sophomores in career exploration. Each student takes a survey where they express their interests and, according to that information, the students are provided with potential careers they more closely examine. The activity helps the students to better understand the job marketplace, including wages and necessary education levels. Local employees were also involved with the activity and were on hand to discuss their specific career fields. I was fortunate to work at the event, and I was very impressed with the way the students engaged in the activity. The students took a very thoughtful approach to the day and were actively engaged.

FYI:

- Commissioner Blomstedt will be leaving his position at NDE at the start of the new calendar year.
- Today is Both Columbus Day and Indigenous People's Day

10. Positive Comments

Teresa Thomas commented on the new podcast by McCook Bison TV. Very impressive and great job. Really enjoyed listening to Mr. Dickes and the students.

Loretta Hauxwell commented on the positive comments from Alumini after heritage days for opening the schools for them to see and spend time back @ MHS.. She also thanked Mr. Dickes for walking with the band at Harvest of Harmony.

Mike Langan commented on the positive feedback on McCook bison volleyball and Coach Hoins. Mike also thanked the school for all their leadership towards students' first attitude. And appreciates all the interventions.

Dennis Berry commented that the student engagement is very high and students are busy and involved. He pointed out that the students organizing the pinkout events show a greater purpose than themselves. Great job

Samantha Rodewald commented on the great leadership of the students this year. Especially the senior and junior classes.

Tom Bredvick was able to walk the bricks with high school students, and was amazed at the students' support for the potential of new city facilities. He also commented on the audit and how prepared the business office staff is and how good they are at their jobs.

Brad Hays commented on First Central Bank teaching financial literacy at Central Elementary. He also congratulated Coach Matt Weimers on his 200 win as a tennis coach.

Jeff Gross commented on the post card hearing. It was good to be able to present facts to the community members that showed up. While the process was tough and worrisome, we were prepared and gave a true picture of the final picture of the district.

Grant Norgaard commented and recognized Robin Henrichs, Tyler Jedlecki, Tom Sughroue and Jeff Gross for writing grants and submitting those grants to the MCFF. He thanked The

Nebraska 4H and the High School administration and counseling department for the connect the dots program.

11. Adjournment

McCook School Board Report
November 14th, 2022
Special Education Dept., John Hanson, Director

- 1) Kirstie Koch, Marisa Hoins and I attended the annual Tri State (NE, IA, KS) Special Education Law Conference Nov. 3rd and 4th in Omaha. I wrote up a one page summary of the sessions I attended and distributed to all administrators and special education teachers.
- 2) The annual nonpublic sped proportionate share application has been submitted to the NDE via the electronic portal. MPS receives money (usually around \$30-\$40K/year) annually to provide special education services (resource, OT, Speech, counseling) to students who are parentally placed at nonpublic schools in the district boundaries (St. Patrick's and homeschools).
- 3) A team of Speech/Language Pathologists, School Psychologists and myself worked to submit documentation requested by NDE in regards to the disproportionate representation of MPS hispanic/latino students in the disability category Speech/Language Impaired (SLI).
- 4) The early childhood team and I are presenting briefly (10-15 minutes) to the staff, including doctors, at McCook Clinic on Monday, November 21st at 6 PM on appropriate procedures to make referrals for a school based evaluation/possible services on children they (medical staff) suspect may have a disability between the ages of birth-three.
- 5) I will be attending the UNK Speech/Language Pathologist Career Fair December 2nd.
- 6) Thank you to Tracy Flaska and Kathy White, both are elementary special education teachers for hosting a student teacher 2nd semester from UNK. Also thanks to Michelle Dickes, district Occupational Therapist, who is hosting a student intern from St. Mary's University in Omaha for a week this November.

Central Elementary:

- Fall Festival was a big success for us this year. We had around 550 people attend! The food trucks, games, petting zoo, etc were all a hit. We've probably hit our capacity of amount of people to the amount of staff we have. We may scale back a bit if necessary.
- Veteran's Day breakfast is 8:00-8:30 on Friday (upon writing this). We have about 62 people that will eat! We will be at full capacity at our building!
- We received our N-SCAS scores and I was very pleased with how we are doing based on last year's results. We've made some big progress in the past few years in terms of math and reading scores. I'm sure we will share those once we get to see the states' results.
- "No other state scored higher than Nebraska in fourth-grade math. Only one state scored higher in eight-grade math. Only three states outscored Nebraska in fourth grade reading and only seven states scored higher in eight grade reading." - Nebraska Department of Education
 - With N-SCAS, we should easily be in the top quartile of schools across the state. This hopefully in something we can celebrate going forward but also build upon!

Junior High Board Report
October 31, 2022
Chad Lyons, Principal

1. Junior high parent-teacher conferences were on Wednesday, October 5, from 2:30 - 8 PM and Friday, October 7, from 8:00 - noon. There were a few conferences Thursday, October 6, morning. Staff reviewed fall AIMSWebb and MAPS data on Thursday. Eighty-nine percent of our sixth-grade parents attended P/T conferences. Seventh grade had seventy-eight percent attendance. Sixty-eight percent of our eighth-grade parents attended conferences. Only one or two parents per grade level were a no-show who signed up to attend conferences.
2. Seventh and eighth-grade level teams attended RTI meetings.
3. Junior high fall sports have concluded. Winter sports meetings were planned for our student-athletes. Junior high girls basketball and wrestling practice has started.
4. Fast Forward reading intervention program for selected students started.
5. Second session of seventh and eighth-grade STEAM exploratory classes started.
6. First quarter ended on Friday, October 14. First-quarter grade sheets were mailed to parents. First quarter Honor and Merit Rolls were made public.
7. Lifetouch conducted our picture retake day.
8. Mrs. Bass presented suicide prevention and bullying information to students during physical education classes.

Inspection Summary Report

McCook Public Schools - McCook, Nebraska

Loss Control Visit Completed by Matt Fisher on November 1, 2022

Key Personnel met with – Jake Curl, High School Assistant Principal - Jeff Gross, Assistant Superintendent - Chris Wallace, Director of Maintenance

BUILDINGS: On this visit I toured the Junior High School facility located at 600 West 7th Street and McCook Elementary at 1500 West 3rd Street. Both of these buildings are located within the city limits of McCook.

ADMINISTRATIVE INTERVIEW: An interview was conducted with Mr. Gross and Mr. Curl. One of Mr. Curl's duties is heading up the district's safety and security committee.

The McCook district has completed the necessary steps to be qualified for cyber security coverage through the ALICAP group and their reinsurer. Having these controls in place not only makes them qualified but also greatly diminishes the chances of a cyber attack.

We discussed the various requirements for the safety and security committee the district has in place. To meet the requirements of Rule 10 the committee is meeting annually to discuss school security. LB 757 requires the committee to meet quarterly and discuss safe work conditions. Representation during these meetings needs to include all the various work groups.

The Workmen's Compensation Modifier for McCook for 2022-23 is .87. This is up slightly over the previous year when it was .85 and the year before when it was .80.

McCook district employees are utilizing the Vector Training system to train in a number of areas. Additionally the district is training all employees in CPR and use of AEDs. The district has all drivers who will be transporting students in any school vehicle complete training through the Nebraska Safety Center.

The district is conducting regular inspections of their facilities. These reports are kept on file by Mr. Curl. We discussed the benefit of documenting a description of corrective actions taken whenever a concern is noted through the reporting system.

Staff and student handbooks contain information relevant to preventing and reporting sexual harassment. The district has completed all required Title IX training and has a reporting system in place for Title IX complaints.

WALK THROUGH SUMMARY: Mr. Chris Wallace, Director of Maintenance, escorted me and provided information as we reviewed the facilities and operational structure of the McCook Junior High School and McCook Elementary buildings.

Commendations:

1. At the McCook Elementary site new stairs and a revised handicap ramp have been installed to improve the appearance, the safety, and the accessibility of this building.
2. The McCook Elementary site has a secure entrance that forces persons entering the building to pass through the office prior to gaining access to the rest of the building.
3. The playground at the McCook Elementary site has a crumb rubber impact zone with rubber mats under the swings and at the end of slides.
4. In the Junior High building new anti slip treads have been installed on the stairs leading down to the cafeteria area.
5. The tornado and fire signage in the Junior High is excellent. Good visual directions posted in the same place in each room.
6. The kitchen areas were clean and orderly. New equipment is being added in these areas to improve function and safety.
7. The district employs a SRO to help provide a safe and secure environment for students and staff.

Recommendations:

1. The general layout of the Junior High building creates a number of safety concerns. While the district utilizes a buzz in system for visitors to the building there are no controls over where they might go once they are in the building. The many hidden areas and multilevel layout of the building make it impossible to properly supervise students at all times.
2. The inspection tags on the fire suppression hoods in the kitchens created some questions about when they were inspected. It would be good to have these consistently tagged.
3. In both buildings the fire extinguishers were not being inspected on a monthly basis by in-house personnel. It would be advisable to assign someone to do these monthly inspection.
4. A fire extinguisher should be present in the concession stand at the Junior High.
5. The tiered seating areas in the industrial tech classrooms pose some safety concerns. These areas present considerable trip hazards where a number of sharp corners exist.
6. At the MCCook Elementary building the signage for tornado and fire were missing in some places and could be improved with a more visual illustration in others.
7. In both buildings there were places where the required 3' clearance in front of electrical panels was not being maintained.
8. In the preschool classroom at McCook Elementary the fire exit that adjoins the storage closet was blocked with stored items. Additional shelving to help organize this area is recommended.
9. In the chair / desk storage area at the elementary the required 3'; passage from front to back of the room was not present. This area could be better organized and unused items need to be discarded.

SUMMARY: The district is working diligently to provide the most safe and secure facilities possible. The age and design of buildings often limit the ability to address some safety concerns. Continual review of options to improve the educational function and safety of all facilities is encouraged.

Audit was performed. Audit results: Favorable with the same findings as previous years

Deficiency: The size of the District's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties. This situation dictates that the District Board remain involved in the financial affairs of the District to provide oversight and independent review functions.

Items to be done by District office,

- 1. Within the Activities Fund, there are three accounts with a negative balance. These accounts should be evaluated and resolved to positive or zero balances, if possible.*
- 2. Within the Nutrition Fund, there were a few checks that have been outstanding for a significant amount of time. We recommend that any outstanding checks dated before August 31, 2021, be voided. Outstanding checks should only be within a year of the current fiscal year.*
- 3. All affiliated organizations of the School District must not use the School District's Federal ID number for bank accounts or other purposes. We recommend that you contact any affiliated organizations (i.e. Booster Clubs, Parent Teacher Organizations, Senior Parents, or Foundations) and verify that the organizations are not using or relying on the School District's Federal ID number. If they are using the School District's Federal ID number, their activity will be incorporated into the School District's financial statements for the year ended August 31, 2023.*

Board of Education
McCook Public School District No. 17
McCook, Nebraska

Dear Board of Education,

In planning and performing our audit of the financial statements of McCook Public School District No. 17 (District) as of and for the year ended August 31, 2022, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, we considered the School's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over financial reporting.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, significant deficiencies or material weaknesses may exist that have not been identified. However, as discussed below, we identified certain deficiencies in internal control that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A reasonable possibility exists when the likelihood of an event occurring is either reasonably possible or probable as defined as follows:

- *Reasonably possible.* The chance of the future event or events occurring is more than remote but less than likely.
- *Probable.* The future event or events are likely to occur.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control over financial reporting that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the following deficiency in the entity's internal control to be a significant deficiency:

1. The size of the District's accounting and administrative staff precludes certain internal controls that would be preferred if the office staff were large enough to provide optimum segregation of duties. This situation dictates that the District Board remain involved in the financial affairs of the District to provide oversight and independent review functions.

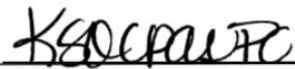

During our audit, we became aware of other matters that create an opportunity for strengthening internal controls and operating efficiency. This letter does not affect our report dated October 27, 2022, on the financial statements of McCook Public School District No. 17.

We will review the status of these comments during our next audit engagement. We have already discussed these comments and suggestions with various District personnel, and we will be pleased to discuss these comments in further detail at your convenience, to perform any additional study of these matters, or to assist you in implementing the recommendations. Our comments are summarized as follows:

1. Within the Activities Fund, there are three accounts with a negative balance. These accounts should be evaluated and resolved to positive or zero balances, if possible.
2. Within the Nutrition Fund, there were a few checks that have been outstanding for a significant amount of time. We recommend that any outstanding checks dated before August 31, 2021, be voided. Outstanding checks should only be within a year of the current fiscal year.
3. All affiliated organizations of the School District must not use the School District's Federal ID number for bank accounts or other purposes. We recommend that you contact any affiliated organizations (i.e. Booster Clubs, Parent Teacher Organizations, Senior Parents, or Foundations) and verify that the organizations are not using or relying on the School District's Federal ID number. If they are using the School District's Federal ID number, their activity will be incorporated into the School District's financial statements for the year ended August 31, 2023.

The purpose of this communication, which is an integral part of our audit, is to describe for management and those charged with governance the scope of our testing of internal control and the results of that testing. Accordingly, this communication is not intended to be and should not be used for any other purpose.

Hello,

On behalf of the local McDonald's owner-operators of the Great Plains Business Unit, we are pleased to present you with this check as the result of our recent Fries for School Supplies fundraiser. This fundraiser ran August 22-26, 2022 and 10% of all a la carte fry sales at your local McDonald's restaurant were donated back to a local school. We are pleased to share that your school was one of those selected! These funds can be used in whatever way you see fit to support the students.

We are proud to support our community and can't thank you for all that you do!

Sincerely,

Your local McDonald's Owner-Operator
