**McCook School Board Report**  
**November 11, 2024**  
**Special Education Dept., John Hanson, Director**

- 1) The annual nonpublic proportionate share application has been completed in the NDE portal. This application helps NDE determine how much IDEA 6412 funds MPS will receive as a result of providing special education services to students parentally placed in our nonpublic preschools, homeschools, and St. Patrick's K-8 school. During the 2023-24 school year, MPS received \$26,274. This goes to support the special education teacher assigned to these schools, the speech/language pathologist, and the district's occupational therapist.
- 2) Mr. Joel Bednar and I will be attending Fort Hays State's SLP and Special Education Teacher Career Fair on Friday, November 15th.
- 3) Teacher evaluations and file reviews are underway.
- 4) We have some special education teacher interviews scheduled in the next couple of weeks with qualified candidates for our openings.
- 5) I am planning on taking a few high school students to MCC's Tour Day just for students with mild disabilities on Thursday, November 14th.
- 6) We had Haleigh Carlson, school attorney with the Perry, Guthrie and Haase law firm, share a training with us a couple of weeks ago regarding writing measurable and appropriate IEP goals and completing Prior Written notice forms accurately that got the sped teachers thinking and writing more detailed IEPs.
- 7) Our 5th grade traveling basketball team that I help coach starts practice tonight, and we practice every Monday night, so I probably won't make it to the next couple school board meetings.

### Central Elementary School Update

#### New Hires (pending)

I was very impressed with both Kara Marvin and Zoe Francescato when they interviewed. Kara comes with 4 years of teaching experience along with being the Children’s Director at McCook Christian Church. Zoe is student teaching with Mrs. Oltmer in 1st grade. Both bring a great demeanor to the classroom and will add positively to our 5th grade team.

#### RECRUITING!

We’ve been to UNK, UNL, and Wayne State for career fairs. I’ll also be attending For Hays State on Friday, November 15 with John Hanson.

#### External Visit

Last week, I was gone on Thursday doing an External Team Visit in David City. I learn a lot by doing this and only helps our internal processes. I don’t like doing more than 1 a year and I did not lead this one which cuts back on the work outside of school. .

#### NDE Rule 10 Committee

I was asked to serve on an NDE Rule 10 committee. I will attend 3 meetings a year and hopefully have a voice on district accountability. I will provide updates after our initial meeting in January.

#### Veterans Day Planning

We are having our annual breakfast at Central Elementary on Monday, November 11. Currently (upon writing this), we have 50 people attending! That may be our limit going forward.

### **Curriculum**

We are sending nine teachers to Denver, CO, from December 9-11 to attend the Solution Tree Institute. This is a unique opportunity, as Solution Tree Institutes are not typically held in Denver. We are considering sending additional staff to future sessions to further enhance professional development.

### **ELA Textbook Adoption:**

All of our samples are in and teachers are now digging through 3-4 programs. We met during Vertical PLC's to get us started.

### **Vertical PLC**

The past two weeks, we have been working in vertical PLCs. You can see the agenda and what we have been doing on [the following website](#).

Junior High Board Report

Internal Board Policies - OrganizationAnnual Information Meeting

The Board of Education believes that an effective communications program is a necessary component of the District's organization and operation. It is, therefore, the policy of the McCook School District to make it the responsibility of the Superintendent to maintain a continuing information program for compiling and disseminating noteworthy news and information to the residents of the District and the production of an annual report.

Among such communication efforts shall be news of school events and activities, instructional programs, District goals and plans, general facts and statistics relating to standardized norm-referenced and criterion-referenced testing of students, follow-up studies and surveys of graduates, District budget and finance information, and other appropriate information of interest and concern to the public.

### Community Relations

#### Community Support Groups and Organizations

The Board of Education recognizes the value of and need for school support groups as organized by parents and other members of the school community and encourages the establishment of such support groups. The Board of Education is committed to promoting a cooperative and positive relationship with such organizations. In order to assure optimum effectiveness of such joint efforts for school program improvement, the Board of Education believes it is appropriate and necessary to establish certain reasonable guidelines for the functioning of school-related groups and organizations.

Groups and/or organizations which desire to involve themselves with the support of any school program and who expect access to school facilities and school staff, will be required, to provide a copy of organization rules of operation and the names of their representative leadership.

As an assurance of productive involvement between such organizations and the school, it shall be expected that a close communication will be maintained between the organizations' leadership and the Board of Education, its administration or appropriate designees. Because the teaching of students is a first priority and primary responsibility of the certificated staff, caution is urged against undue infringement on the time of teachers and administrators particularly during the course of the scheduled instructional day.

It is recognized that the Board of Education is charged with a statutory responsibility to govern the school's programs and that the Board of Education will not relinquish that obligation. Any proposal calling for a change in district policy, as might be recommended by any organization, should be properly submitted to the Board of Education for its deliberation and decision.

StudentsAnti-Bullying Policy

One of the missions of the District is to provide a physically safe and emotionally secure environment for students and staff.

The administration and staff are to implement strategies and practices to reinforce and encourage positive behaviors by students. Positive behaviors include non-violence, cooperation, teamwork, understanding, and acceptance of others.

The administration and staff are to implement strategies and practices to identify and prevent inappropriate behaviors by all students, including anti-bullying education for all students. Inappropriate behaviors include bullying, intimidation, and harassment. Bullying means any ongoing pattern of physical, verbal, or electronic abuse on school grounds, in a vehicle owned, leased, or contracted by the school being used for a school purpose by a school employee or designee, or at school-sponsored activities or school-sponsored athletic events.

The school district shall review the anti-bullying policy annually.
