Motion by Dennis Berry to work with MNB Bank as the local financial institution for the low interest loan with the Nebraska Department of Environment and Energy. The motion was seconded by Teresa Thomas.

Dennis Berry	Yes
Tom Bredvick	Abstain
Brad Hays	Absent
Loretta Hauxwell	No
Mike Langan	Yes
Theresa Thomas	Yes

Motion Failed on a 3-1-1 Vote

Discussion continued on the selection of the local financial institution. President Tom Bredvick asked Tim Weibe from MNB Bank who was in attendance to detail the process for the loan. Tim stated that the Nebraska Energy Office (NEO) provides the forms and that all financial institutions would use the same forms to request the low interest loan. The rates for the low interest loan are the same for the school no matter which financial institution is selected. The NEO buys down the loan to make it palatable for the financial institution. The school will only pay the 1% interest on the energy loan.

GROWTH OVER TIME ?

Skills/Accomplishments

Developed curriculum and taught Agricultural Education for 12 years

Advisor for three different local FFA Chapters over the last 12 years

Built and developed four new FFA Chapters in: Paxton, Wood River, Sutherland, and Maywood. While teaching part time at Maywood and also teaching distance learning to four other schools, had such success that my distance schools hired and began their own FFA Chapters.

Started the West Central FFA Chapter. A combination of various schools which were taught over Distance Learning. Traveled to distant schools weekly to insure that they received the hands-on learning needed for success.

Taught Distance Agricultural Education for four years to four schools.

Trained numerous students toward State Championships in the FFA Organization in Floriculture, Horse Evaluation, and Environment as well as advising numerous students toward earning their State and National FFA Degrees.

Experience

Medicine Valley High School / Agricultural Educator and FFA Advisor

January 2002 - May 2005

Prepared and taught 7 preps a day. 2 preps which received biology credit towards graduation. I developed an Applied Biology curriculum in which many students who struggled with the regular Biology class enrolled in. I focused more on repetition and used daily hands-on activities and learning opportunities to insure the information was understood. I also developed an Advanced Biology Class which was geared towards students wanting to further their education in science. Curriculum dealt heavily on Genetics and Human Anatomy and Physiology.

Hayes Center High School / Agricultural Educator and Part-time FFA Advisor

August 2005 - May 2009

Was hired to be a part-time second Agricultural Educator. My focus was to be on the Introduction to Agriculture Class, building and maintaining a greenhouse, and developing the integration of the Nebraska College of Technical Agriculture's Concurrent Classes into our school class schedule. Taught and integrated the concurrent classes into my daily class schedule, leading to several students receiving college credit.

Maywood High School / Agricultural Educator and FFA Advisor

August 2009- May 2014

Hired as a part-time instructor and was responsible for developing the West Central FFA Chapter which was a combination of the Maywood, Sutherland, Wood River, Brady and Maywood Schools. All classes were taught via Distance Learning. I developed curriculum and group activities that were highly interactive, even though my students were miles apart. I became very familiar with Google Docs and used it daily to send and receive assignments. At the time I used the program Moodle to upload my lesson plans, assignments, and tests. I also traveled weekly to each remote school to insure those students had a weekly lab activity to enhance their learning. I was able to build strong programs while teaching via Distance Learning in which after 3 years nearly each school chose to hire their own full time agricultural educator.

Education

University of Nebraska-Lincoln / Bachelor's Degree in Science

August 1996 - December 2001

While attending UNL I first earned my Agronomy Degree. While earning this degree I took many biology and chemistry classes. Which is how I earned my Biology Endorsement. I also was a Teaching Assistant to Dr. Don Lee and taught the lab portion of the Genetics 315 course for 4 semesters. I stayed at the University to dual major in Agricultural Education. I student taught in both Biology and Agricultural Education at Ord High School.

McCook School Board Members,

The purpose of this letter is to inform you of my intention to resign from my Kindergarten teaching position at McCook Elementary School at the end of the 2019-2020 school year.

It has been an honor and blessing to work in my current position for the past 30 years. I have truly enjoyed working with wonderful teachers, staff, administrators, families and community members. I still love teaching kindergartners as much as I always have, and I will definitely miss the kindergarten children!

I am looking forward to retirement, and plan to spend more time with our twelve grandchildren, six children and extended families. In addition, I plan to do some camping and traveling with my husband Brent. I enjoy several hobbies, specifically sewing, reading, gardening, and canning. I also plan to spend more time at our farm house in rural Hayes County with our dog Shiloh and our miniature ponies.

I know McCook Schools will continue to be a source of pride in our community and a bright star among schools across Nebraska for years to come. I am thankful to have had the opportunity to work with all of you and wish you all the best!

Sincerely,

Bev Klein
