Superintendent Report for September 2021

Ken Schepers Donation

Mr. Schepers sent the district a check for \$25,000. This generous donation is in addition to the scholarship fund that he is working with the Shelton School Foundation to provide. This money will most likely be used to provide new instrument cases for district owned instruments as well as to purchase new chromebook devices for the 7-12 students. The donation won't cover the entire cost of the 7-12 devices, but will be substantial assistance. We have sent Mr. Shepers an information thank you and once we have expended the donation we will send him a more formal thank you letter including pictures of our students with the items purchased using the donated funds.

School Finance

This month I submitted grant applications for ESSER III Funds and High Ability Learner (HAL).

ESSER III Breakdown

- \$10,000 for Mental Health Services
- \$54,000 for high quality instructional materials in core content areas (20% that must be allocated to lost learning)
- \$202,475 HVAC to improve air quality

HAL Breakdown

- \$2,084 for personnel to sponsor JH and HS Quiz Bowl
- \$1,487 for student activities

Buildings and Grounds

Work continues on the new front end for our district HVAC system. The challenge is to integrate the old HVAC units into the new honeywell system. Rassmussen will be here every day in the next week and beyond if necessary to finish this project.

The compressor in the high school unit was replaced on Friday, September 3 and allowed the AC to come back online in the high school wing. The estimated cost for this repair was \$20,000 but the final cost will come in slightly below that. When I receive the final bill I will update the board, but right now it looks like it will be around \$18,703. The new compressor has a 5 year warranty.

Pro Track and Tennis is planning to be here either this weekend or early this week to resurface the high jump pad and the runways. Work has been done to till the dirt around those to smooth

out the ground. Following the track resurfacing we will do one more pass to smooth things out and then plant grass to try and stay ahead of puncture vine and stickers in the spring. This will complete that project.

Health Standards

As anticipated the State Board of Education has postponed the development of Health Standards. Ther official statement is copied below:

The State Board of Education received substantial input on the draft Health Education Standards and recognizes that now is not the time to continue the process. Further, the COVID-19 pandemic has placed varied demands on school districts, parents and families, and communities. The intent of the State Board of Education is to determine the most appropriate time to address the topic of Health Education Standards after the pandemic has concluded, as determined by appropriate national, state and local health officials. The decision to continue the process of developing Health Education Standards must be introduced by a State Board member and supported by a majority vote of the State Board of Education.

Professional Development

The staff has been working hard to implement the professional development that we have focused on over the past professional development days. Specifically in the areas of Learning Targets, Success Criteria, and Student Teaming.

The administrative team has completed trend walks where we were looking for examples of the professional development that has been taught to staff. We have seen some growth in those previously mentioned areas and we will have data to share with you at a future meeting.
