POLICY 7004: STAFF DRESS AND APPEARANCE

The attire worn by staff members conveys an important image to students and the general public. The appearance of professional staff members shall be appropriate to their assigned duties and indicative of their professional standing in the school and community.

I. Staff Expectations in Dress and Appearance

A. General Expectations in Dress and Appearance

1. Certified staff, paraeducators, and office staff should generally dress in business casual attire that is clean and professional.
2. Custodial, maintenance, and transportation staff should dress in attire appropriate to the work they are performing.

B. Unacceptable Forms of Dress and Appearance

1. The following are examples of unprofessional attire which should not be worn by classroom staff during the traditional school day, when students or visitors are in attendance, or when the employee is supervising, directing, or coaching students when the public is in attendance:
 - For men: shirts without collars, unless the shirt can be deemed professional by other standards.
 - Athletic wear, including sweat, jogging and wind suits, except when teaching a physical education activity in the gymnasium, on a playing field, or at athletic or other activity practices.
 - Shorts, except when teaching physical education class or at athletic or other activity practices.
 - Blue jeans, except at athletic or other activity practices, or on days considered to be “dress down” days.
 - Hats, except when worn outside for sun coverage.
 - Rubber soled ‘flip flop’ thong sandals.
 - Any attire which is excessively wrinkled or torn, so that it is no longer neat and professional.

- Any attire which is immodest or may distract other employees or students in the learning environment.

II. Enforcement

The superintendent or principal shall maintain the discretion to make determinations on staff dress and appearance. Administrators may temporarily suspend all or a portion of the dress code when other factors support a lower dress expectation for school employees (e.g., special “casual days” or field days). Any violation of school policy and rules may result in disciplinary action.

POLICY 7007: ALCOHOL AND DRUG TESTING FOR SCHOOL DRIVERS

Shelton Public Schools is required under the provisions of the federal Omnibus Transportation Employee Testing Act of 1991 to implement a drug and alcohol-testing program for all persons subject to commercial driver's license requirements. This comprehensive program must include conducting pre-employment, reasonable suspicion, random, post-accident, return to duty and follow-up testing for use of alcohol or drugs by such drivers, notifying drivers of the requirements and consequences of the program, and maintaining appropriate records.

Adopted on: 3/13/95

POLICY 7008 DRUG POLICY REGARDING DRIVERS

Policy Statement. Drivers for the school district must be free from drug and alcohol abuse, and the use of illegal drugs or improper use of alcohol is prohibited. The overall goal of drug and alcohol testing is to ensure a drug free and alcohol-free transportation environment, and to reduce accidents, injuries and fatalities.

Designated Contact. The school district has designated the Superintendent as the individual any driver may contact with questions about this policy or the school district's drug testing program and procedures for drivers. This individual further maintains and will provide drivers informational materials concerning the effects of alcohol and controlled substances use on an individual's health, work, and personal life; signs and symptoms of an alcohol or a controlled substances problem (the driver's or a co-worker's); and available methods of intervening when an alcohol or controlled substances problem is suspected, including confrontation, referral to any employee assistance program and/or referral to management.

The Superintendent may be contacted at 308-647-6742.

Covered Drivers. Any person who operates a commercial motor vehicle on behalf of the school district is covered by this policy and the school district's drug testing program and procedures for drivers. All covered drivers must provide the school district a signed statement certifying that he or she has received a copy of this policy and related materials.

Covered Workday. A driver is required to comply with this policy and the terms of the school district's drug testing program and procedures for drivers at all times they are assigned, or may be assigned, to perform safety-sensitive functions. This includes all time from the time a driver begins to work or is required to be in readiness to work until the time he/she is relieved from work and all responsibility for performing work. Safety sensitive functions include: (1) all time at a school district facility or property, contractor facility or property, or on any public property, waiting to be dispatched, unless the driver has been relieved from duty by the school district; (2) all time inspecting equipment as required by state or federal law or regulation and any and all other time inspecting, servicing, or conditioning any commercial motor vehicle; (3) all time spent at the driving controls of a commercial motor vehicle in operation; (4) all time, other than driving time, in or upon any commercial motor vehicle; (5) all time loading or unloading a vehicle, supervising, or assisting in the loading or unloading, attending a vehicle being loaded or unloaded, remaining in readiness to operate the vehicle, or in giving or receiving receipts for shipments loaded or unloaded; and (6) all time repairing, obtaining assistance, or remaining in attendance upon a disabled vehicle.

Prohibited Conduct. No driver shall: (1) report for duty or remain on duty requiring the performance of safety-sensitive functions while having an alcohol concentration of 0.04 or greater; (2) use alcohol while performing safety-sensitive functions; (3) perform safety-sensitive functions within four hours after using alcohol; or (4) refuse to submit to a pre-employment

controlled substance, a post-accident alcohol or controlled substance test, a random alcohol or controlled substances test, a reasonable suspicion alcohol or controlled substance test, a return-to-duty alcohol or controlled substances test, or a follow-up alcohol or controlled substance test required under state or federal law or this policy. No driver required to take a post-accident alcohol test shall use alcohol for eight hours following the accident, or until he/she undergoes a post-accident alcohol test, whichever occurs first.

No driver shall: (1) report for duty or remain on duty requiring the performance of safety sensitive functions when the driver uses any drug or substance identified in 31 CFR 1308.11 Schedule 1; (2) report for duty or remain on duty requiring the performance of safety-sensitive functions when the driver uses any non-Schedule I drug or substance that is identified in the other Schedules in 21 CFR part 1308 except when the use is pursuant to the instructions of a licensed medical practitioner who is familiar with the driver's medical history and has advised the driver that the substance will not adversely affect the driver's ability to safely operate a commercial motor vehicle; or (3) report for duty, remain on duty or perform a safety-sensitive function, if the driver tests positive or has adulterated or substituted a test specimen for controlled substances.

Types of Testing. Pursuant to regulations promulgated by the Department of Transportation (DOT), the district has implemented four types of testing: (1) pre-employment testing, (2) reasonable cause testing, (3) post-accident testing and (4) random testing.

Refusal to Submit to Testing. A driver shall not refuse to submit to testing. A driver will be considered to have refused to submit to testing if the driver fails to provide a sample or specimen necessary for testing upon a lawful request, consistent with the required testing protocols. The refusal to submit to the testing used by the district will be grounds for refusal to hire driver applicants and to terminate the employment of existing drivers.

Consequences for Violations. Any driver who becomes unqualified on the basis of violation of the terms of this policy will be subject to disciplinary action which may include termination of the driver's employment, and shall include the immediate removal from safety-sensitive functions in compliance with federal law. No driver tested pursuant to this policy and the school district's drug testing program and procedures who is found to have an alcohol concentration of 0.02 or greater but less than 0.04 shall perform or continue to perform safety-sensitive functions until the start of the driver's next regularly scheduled duty period, but not less than 24 hours following administration of the test.

Return to Duty Process. A driver who has violated this policy or the school district drug testing program and procedures cannot again perform any safety-sensitive functions until and unless the employee completes the return-to-duty process, including the substance-abuse professional's (SAP) evaluation, referral, and recommended education or treatment. The school district will provide employees the relevant contact information for available and acceptable SAPs as necessary, but the school district is not required under the law to provide a SAP evaluation or any subsequent recommended education or treatment for a driver. Any driver completing the

return-to duty process must complete a return-to-duty test and test negatively.

Disqualification. Any applicant who tests positive for the presence of the following drugs is medically unqualified to drive and will not be considered for the position of driver: (1) marijuana, (2) cocaine, (3) opiates, (4) amphetamines, or (5) phencyclidine (PCP). Any district driver who tests positive shall be medically unqualified and removed from service immediately.

Pre-employment Testing. All applicants for employment must submit to drug and alcohol tests as a condition of being considered for employment.

Reasonable Cause Testing. The district shall have reasonable cause to require a driver to submit to drug testing when a driver manifests physical or physiological symptoms or reactions commonly attributed to the use of controlled substances or alcohol.

Post-Accident Testing. A driver who has been involved in a reportable accident must submit to drug and alcohol testing as soon as possible. A reportable accident includes any accident in which there is a fatality, a person is injured and must be treated away from the accident site, the driver receives a citation for a moving violation, or a vehicle is towed from the scene. The driver must notify the district immediately regarding any reportable accident.

Serious Injury to the Driver. If a driver is so seriously injured that he or she cannot submit to testing at or immediately after the time of the accident, the driver must provide the necessary authorization for the district to obtain hospital reports or other documents that would indicate whether there were controlled substances or alcohol in the driver's system.

Random Testing. All drivers will be subject to unannounced random testing for drugs and alcohol. The district or its agents will periodically select drivers at random for testing. A district official will notify a driver when his or her name has been selected and will instruct the driver to report immediately for testing. By its very nature, random selection may result in one driver being tested more than once in a 12-month period, while another driver may not be selected at all during the same 12 months.

Frequency of Random Testing. Under DOT regulations, the district must test at least 50 percent of its average number of driver positions for drugs and 25 percent of its average number of driver positions for alcohol each year. The tests must be unannounced and spread evenly throughout the year. DOT regulations also require that every driver selected at random must have his or her name placed back in the random pool for the next selection period.

Testing Procedure. All urine and blood specimens collected under the policy will be submitted to an approved laboratory for testing. Specimens that initially test positive for drugs will be subjected to a subsequent confirmation test before being reported by the laboratory as positive. All such specimens collected and submitted will be maintained securely to safeguard the validity of the test results and maintain the integrity of the testing process while ensuring the results are attributed to the correct driver.

Medical Resource Officer. All laboratory test results will be reported by the laboratory to a medical review officer (MRO) designated by the district. Negative test results will be reported as such by the MRO to the district. Before reporting a positive test result to the district, the MRO will attempt to contact the driver to discuss the test result. If the MRO is unable to contact the driver directly, the MRO will contact a district official designated in advance by the district, who shall in turn contact the driver and direct the driver to contact the MRO. Upon being so directed, the driver shall contact the MRO immediately or, if after the MRO's business hours and the MRO is unavailable, at the start of the MRO's next business day. If required by DOT regulations, personal information collected and maintained pursuant to this policy shall be reported to the Clearinghouse by the MRO in the event of: (1) a verified positive, adulterated, or substituted drug test result; (2) an alcohol confirmation test with a concentration of 0.04 or higher; (3) a refusal to submit to any test required by this policy and the school district's drug testing program and procedures; (4) an employer's report of actual knowledge that a driver has used alcohol or controlled substances based on the employer's direct observation of the employee, information provided by the driver's previous employer(s), a traffic citation for driving a CMV while under the influence of alcohol or controlled substances or an employee's admission of alcohol or controlled substance use; (5) on duty alcohol use as prohibited above; (6) pre-duty alcohol use as prohibited above; (7) alcohol use following an accident as prohibited above; (8) controlled substance use as prohibited above; (9) a substance abuse professional report of the successful completion of the return-to-duty process; (10) a negative return to-duty test; and (11) an employer's report of completion of follow-up testing.

Confidentiality. Pursuant to DOT regulations, individual test results for applicants and drivers will be released to the district and will be kept confidential unless the tested individual consents to their release or release is required by law (such as the release of information to the Clearinghouse.) Any person who has submitted to drug testing in compliance with this policy is entitled to receive the results of such testing upon timely written request.

Retesting. An individual who tested positive for the presence of drugs may request that the original sample be retested. The request for a retest must be submitted in writing on a form provided by the district within 3 working days of the district's notification to the individual that he or she has a positive test result. The individual making the request must pay all costs associated with the retest and transfer of the sample to another laboratory before the retest will be performed.

POLICY 7010: PROFESSIONAL BOUNDARIES AND APPROPRIATE RELATIONSHIPS BETWEEN EMPLOYEES AND STUDENTS

School district employees and student teachers or interns (“employees”) are responsible for conducting themselves professionally and for teaching and modeling high standards of behavior and civic values, both at and away from school. Employees are required to establish and maintain professional boundaries with students and must have appropriate relationships with students. They may be friendly with students, but they are the students’ teachers, not their friends, and they must take care to see that this line does not become blurred. This applies to employees’ conduct and interactions with students and to material they post on personal web sites and other social networking sites including, but not limited to, Instagram, Facebook, and Twitter. The posting or publication of messages or pictures or other images that diminish an employee’s professionalism or ability to maintain the respect of students and parents may impair his or her ability to be an effective employee. Employees are expected to behave at all times in a manner supportive of the best interests of students.

Sexual Relationships Prohibited. Employees are prohibited from engaging in any relationship that involves sexual contact or sexual penetration with a student while the student is a current student and for a minimum of one year after the date of the student's graduation or the date the student otherwise ceases enrollment. Sexual contact has the same meaning as in section 28-318, and sexual penetration has the same meaning as in section 28-318.

Grooming Prohibited. Employees are prohibited from engaging in grooming with students. Grooming means building trust with a student and individuals close to the student in an effort to gain access to and time alone with the student, with the ultimate goal of engaging in sexual contact or sexual penetration with the student, regardless of when in the student’s life the sexual contact or sexual penetration would take place.

Unless an employee can clearly and convincingly demonstrate a legitimate educational purpose, grooming behaviors and related conduct that are a violation of this policy include, but are not limited to:

- Communicating about sex when the discussion is not required by a specific aspect of the curriculum.
- Joking about matters involving sex, using double entendre or making suggestive remarks of a sexual nature.
- Displaying sexually inappropriate material or objects.
- Making any sexual advance, whether written, verbal, or physical or engaging in any activity of a sexual or romantic nature.
- Kissing of any kind.
- Dating a student or a former student within one year of the student graduating or otherwise leaving the district.
- Intruding on a student's personal space (e.g. by touching unnecessarily, moving too close, staring at a portion of the student's body, or engaging in other behavior that makes the student uncomfortable).
- Initiating unwanted physical contact with a student.
- Communicating electronically (e.g. by e-mail, text messaging, or through social media) on a matter that does not pertain to school.
- Playing favorites or permitting a specific student to engage in conduct that is not tolerated from other students.
- Discussing the employee's personal issues or problems that should normally be discussed with adults.
- Giving a student a gift of a personal nature.
- Giving a student a ride in the employee's vehicle without first obtaining the express permission of the student's parents or a school administrator.
- Taking a student on an outing without first obtaining the express permission of the student's parents or a school administrator.
- Inviting a student to the employee's residence without first obtaining the express permission of the student's parents and a school administrator.
- Going to a student's home when the student's parent or a proper chaperone is not present.
- Repeatedly seeking to be alone with a student.
- Being alone in a room with an individual student at school with the door closed.
- Any after-school hours activity with only one student.
- Any other behavior which exploits the special position of trust and authority between an employee and student.

This list is not exhaustive. Any behavior which exploits a student is unacceptable. If in doubt, ask yourself, "Would I be doing this if my family or colleagues were standing next to me?"

Communication Between Employees and Students. The preferred methods for employees to communicate with students are school email and district approved applications such as Schoology, Remind, and SportsYou.

A personal communication system is a device or software that provides for communication between two or more parties and is capable of receiving, displaying, or transmitting communication. Personal communication system includes, but is not limited to, a mobile or cellular telephone, an email service, or a social media platform.

Employee communications with students through a communication system generally are to be sent simultaneously to multiple recipients and not just to one student. The burden to demonstrate the appropriateness of a communication with a student only shall rest with the employee.

Reporting a Policy Violation. Anyone may report suspected grooming, other unacceptable employee conduct, or any violation of this policy as follows:

School District. Reports may be made to a principal, the superintendent, or the Title IX Coordinator in person, by mail, by telephone, or email.

Nebraska Department of Education. Reports may be made at: Nebraska Department of Education, Attn: Certification Investigations' Office, P.O. Box 94933, Lincoln NE 68509 or Nde.investigations@nebraska.gov.

Nebraska Department of Health and Human Services. Reports may be made by calling the Child Abuse and Neglect Hotline at (800) 652-1999.

Law Enforcement. Reports may be made to the local police department by calling (308) 647-5110, the county sheriff at (308) 236-8555, or the Nebraska State Patrol at (402) 471-4545.

An employee is required to make a report to a principal or the superintendent if the employee reasonably believes that another employee has violated or may have violated this policy. Minor concerns or violations shall be reported within 24 hours. Major concerns or violations shall be reported immediately. Violations committed by or concerns about the superintendent shall be reported to the school board president.

A student who feels his or her boundaries have been violated should directly inform the offender that the conduct or communication is offensive and must stop. If the student does not wish to communicate directly with the offender or if direct communication has been ineffective, the student should report the conduct or communication to a teacher, administrator, counselor, the Title IX coordinator, or other school employee with whom she or he feels comfortable.

Retaliation Prohibited. Retaliation for good faith reports or complaints made as a result of this policy is prohibited. Individuals who knowingly and intentionally make a false report shall be subject to discipline as provided by district policy and state law.

Policy Violations. Any violation of this policy by an employee may result in disciplinary action up to and including dismissal from employment and/or referral to the Nebraska Department of Education, which may result in the suspension or revocation of the employee's certificate. Any violation involving sexual or other abuse will result in referral to the Nebraska Department of Health and Human Services, law enforcement, or both.

Policy Verification. Employees shall verify that they have received, reviewed, and understood this policy by signing an acknowledgment document indicating the same.

No Limits on Reports to NDE. Nothing in this policy shall be construed to limit any certificated employee's duty to report any known violation of the standards of professional practices (Title 92, Nebraska Administrative Code, Chapter 27, commonly known as Rule 27) adopted by the Nebraska Board of Education.

POLICY 7011: PERSONNEL RECORDS

The district shall maintain a personnel file regarding each employee. All materials in a personnel file, except for employment references and information that was gathered in the process of assessing an applicant for hiring, shall be available to the employee for review within a reasonable period of time of the employee's request. Employees may inspect the contents of their personnel files only in the presence of an administrator or a person designated by the administration.

An employee may respond to any document(s) in his or her personnel file by submitting a written response to the person responsible for keeping the file, who shall attach the response to file copies of the disputed document.

No person other than school officials engaged in their professional duties shall be granted access to employees' personnel files, and the contents of such files shall not be divulged in any manner to any unauthorized person. An attorney acting on behalf of the board of education or administration is deemed to be a school official.
