III. DUAL LANGUAGE IMMERSION

A. Superintendent's Recommendation

Superintendent Prince gave her recommendation to the Board regarding the full implementation of Dual Language Immersion at both Garfield and Lincoln Elementary Schools (filed as Supplemental Item #VII-16 in the Official 2011-12 Board Minutes). Dr. Prince recommends to the Board they approve the expansion of the Dual Immersion program as proposed by the Dual Language Immersion Task Force, with some clarifications/modifications. Modifications to the original proposal are as follows below:

- The district will develop and implement a late entry policy for students who are older than the cutoff age for admission into DLI.
- All students currently on the wait list for DLI will be placed into a DLI classroom at their school in fall 2012.
- Transition support for English only classes. The district will provide support to parents, teachers, and students to ensure success while English only is phased out.
- The district will develop and implement protocol to support students with IEPs.

B. Board Action

The Board engaged in discussion about the Dual Language Immersion proposal. Below is a summary of the some of the comments made by Board members, as well as answers to their questions by staff members:

- Current waitlisted students coming into Kindergarten and first grade will be granted a spot in DLI at either Garfield or Lincoln.
- Two primary goals to DLI program, to help students who are English Language Learners gain fluency in English, and also to help native English speaking students become bi-literate.
- In response to a question posed by Director Sauret on whether or not the district would be reimbursed by the state for busing costs, Assistant Superintendent Bogatin responded, that while other districts in the state had been told they would not be reimbursed, the Oregon Department of Education confirmed to our district, that as long as the student resides outside the one mile distance to their school, they would reimburse 70% of the transportation cost. Other school districts acknowledged that they may have been given misinformation.
- At this time, the district cannot guarantee placement in DLI, to students who are not currently on the waitlist for the 2012-13 school year.
- The next steps if DLI expansion is approved include: meeting with both Garfield and Lincoln to assess transfers and enrollment; begin to look at curriculum; start marketing for Kindergarten enrollment; meet with English only families; and talk to neighboring boundary schools that may be affected by transferring students.
- If DLI expansion is rejected by Board, an analysis of resources for current programs must be done. The experience of English only K-5 students is different from that of students in DLI. The district would look at ways to alleviate those differences.
- Director Rochester noted the value of dual language education, and explained why he could not vote in favor of the task force recommendations. He did not support the limitation of school choice that would ensue once Lincoln and Garfield became school-wide dual language immersion schools; he did not see anything in the recommendations that directly addressed the serious problems in the English-only strand at Garfield and Lincoln; he had not received a budget prepared by Business Services, and was somewhat skeptical about optimistic assertions concerning implementation costs; he did not feel that the Board of Directors had done sufficient due diligence on the task force recommendations, especially concerning potential costs, when the district faces significant deficits. Director Rochester thanked the Superintendent for her responses to many of the concerns expressed by the public and the Board, but did not feel that these adjustments to the recommendations were sufficient.

- Once a student is transferred to another school from either Garfield or Lincoln; that new school becomes their homeschool, they will not be treated differently from the boundary students.
- Transition of homeless students is an issue that will need extra attention.
- It is necessary to consider the structure of Dual Language and English only classes occurring in one school, and the inequities that come from this.
- At the moment, the district has two schools with two programs that act as schools within schools.
- There doesn't seem to be a solution that does not have a financial cost, but DLI expansion will be beneficial to the district.
- There are currently not enough DLI students at the secondary level to offer the program. There is the understanding that DLI will become part of the K-12 system.
- Director Ball made the following points regarding the expansion of Dual Language Immersion:
 - Having a discussion about costs, without credible cost estimates on the table is a fruitless endeavor.
 - During the transition, after waitlisted English only (EO) students move to DLI and more affluent families transfer out of the English only strand, the remaining English only populations will become more disadvantaged, with greater concentrations of poverty than exist now. These are the neediest of the needy we must be concerned with.
 - I agree with virtually everything Director Rochester made in his statement.
 - Concerned with not just the impact on neighborhood schools, but also the impact on neighborhoods.
 - Garfield and Lincoln are not the same schools, as data received right before this meeting show.
 - No one has discussed the problem that the two programs do not fit well together. For example, what if we thought about DLI and EO as separate schools that share a building or locale. Rearrange things, instead of throwing money at it. There are many examples of successful 90/90/90 (high-poverty) schools across the country.
 - Rather than go forward with a recommendation that still has so many questions, take a week or so, and go to the EO families and staff, talk to them, and see if there isn't another option that isn't going to serve these populations better.
 - I have too many concerns about the inequities for EO students during the transition period.
 - I regrettably will vote against the recommendation.
- Several Board Members shared concern with the current boundaries in place in the district. It was noted that it is difficult to redraw boundary lines.
- A plan should be developed to transition late-entry students in to the DLI program.
- Garfield and Lincoln would become dual-boundary schools. If a family moves into the neighborhood school, but the child does not qualify for the DLI program, the district will provide transportation to another school.
- Transitioning waitlisted students into DLI will not have a cost increase. The added support for students is within budget parameters.
- Every attempt should be made to keep students at their neighborhood schools.
- Director Corrigan noted that she supports the Superintendent's recommendations, but with these thoughts: hope for a cost-neutral program, with no reductions at other schools; district should make every attempt to keep kids in neighborhood schools; district should develop a careful process of checkpoints; south Corvallis should not feel isolated or left out; concern with the portion of one-way immersion at Lincoln.

- Chair Schuster said she supports the Superintendent's recommendation, with the following comments: would like every school in the district to be bilingual; trusts the district staff to work through the unknowns; concern for the high turnover and difficulties of the English only strand.
- Director Rodman indicated support of the Superintendent's recommendation, noting that a rejection of the proposal does not solve the problem of inequities in the English only strand.
- Director Donohue said he supports the Superintendent's recommendation, yet noted concerns with moving students to out-of-boundary schools, as well as high-needs and mobile students who need stability.
- Director Sauret made the following points about the DLI expansion proposal:
 - I have a vision for DLI offered in every school, but unless we structure a DLI program properly, it will be hopeless to have a broader DLI program.
 - Concern about the lack of cost proposal for the 12 year change.
 - English only students need more than just monitoring; they deserve a reasonable opportunity to achieve.
 - Concern about transportation support for the next six years, for students not wanting to participate in DLI.
 - Concern with how many questions remain with the proposal.
- Director Donohue disagreed with Director Rochester's assertion that the motion is too broad, and the Board has not carried out due diligence with regard to the task force proposal.

MOTION # 17:

It was moved by Director Donohue and seconded by Director Rodman to accept the proposal from the DLI Task Force as modified by Superintendent Prince to include late entry policy, waitlist, English only student/family/teacher support, and IEP student support.

Directors Corrigan, Donohue, Rodman, and Chair Schuster voted in favor of the motion. Directors Ball, Rochester, and Sauret voted in opposition to the motion. The motion carried.

IV. SPECIAL EDUCATION REVIEW

Special Education consultants Dianne Fentress-Rowe and Tass Morrison, along with Director of Student Services Kathleen Walker, and Special Education Coordinator Cindy Pedersen, gave a PowerPoint presentation with findings from the Special Education Review, which was conducted during late 2011 through early 2012 (filed as Supplemental Item #VII-17 in the Official 2011-12 Board Minutes).

A summary of the presentation along with answers to questions from Board members follows:

- In September 2011 Superintendent Prince and Student Services Director Kathleen Walker requested a comprehensive review of special education.
- The review process consisted of interviews with district staff, a parent survey, public meetings, and review of special education academic data.
- Consultants interviewed various stakeholder groups. Questions were tailored to specific groups.
- The consultants' report touched on accolades, opportunities for improvement, and recommendations for the special education program.

- Several schools were commended for their process of collecting information before IEP meetings.
- Focus groups will determine what is most urgent and what will need long term planning.
- Staff turnover is more pronounced in the Educational Assistant group than in certified staff.
- Recommend district invest in evidence based curriculum K-12 for academic and non-academic instruction.
- Some software and assistive technology needed by students to access instruction is out dated.
- Teachers as well as school administrators have concern about the work load, as well as the time in which teachers have to complete their required work, especially in regard to the documentation needed from IEPs.
- Parents described their frustration with the district's complaint process. The district should review and provide staff training about the School Board approved process for addressing complaints.
- The district should consider a protocol for timely communication to staff and other special education stakeholders.
- It is important to look at how to serve the population of students with extreme behavioral issues.
- The district should consider implementing a behavior support program. The purpose would be to provide short term observations, collect data, and train staff and parents on effective intervention strategies.
- Communication should increase between special education and regular education, starting with the district level and moving down to the building level.
- Budget cuts and loss of staff could be an underlying reason for the current concern with communication between departments.
- Positive Behavior Supports (PBS) work well for the general population of special education students. Further interventions for students with specific behavioral issues may be needed.
- Staff in several buildings stated they have limited opportunity to collaborate with colleagues.

IX.D. K-5 Music Curriculum Adoption

BOARD MEETING DATE: April 2, 2012

FOR ACTION

SUBJECT: K-5 Music Curriculum Adoption

Issue:

The current K-5 music instruction curriculum was purchased in 1983 and is terribly outdated. The series was written before MENC (Music Educators National Conference) wrote the national music standards upon which our Corvallis K-5 Music Power Standards are based. It contains very few multicultural songs or listening selections. The recordings are on vinyl records. Each music teacher has had to develop his/her own curriculum, which has resulted in the lack of alignment between schools. New music teachers have very little to work with and need tremendous support from their fellow music teachers to even know where to begin.

In an attempt to address these issues, the music staff endeavored to create power standards during their PLC time last year. They worked from the National Standards from MENC, because ODE does not have any music standards. Once the power standards were complete, it became even clearer that the 1983 curriculum was extremely inadequate even if they could use the vinyl recordings (many schools do not have working turntables). This year, during PLC time, elementary music teachers have been sharing lesson ideas to help meet the standards.

The K-5 music staff evaluated the two music curriculums approved by ODE: Making Music and Spotlight on Music. After answering a lengthy questionnaire and discussing their findings, the staff overwhelmingly agreed that the Spotlight on Music series was the better curriculum. Music staff expressed these sentiments:

- The Spotlight on Music curriculum contains everything we need to make sure we teach all of our power standards at each grade level.
- The song selections are more current with quality accompaniments.
- The cultural sound tracks are more authentic and of higher quality.
- Separate ELL materials are provided for our Dual Immersion schools.
- Making Music is not that different from our 1983 curriculum!

On February 13, the Spotlight on Music materials were available for public viewing; approximately 15 people looked through the materials. Several filled out a survey and included the following comments:

- The visuals are colorful, artistic and appealing.
- CDs are of high quality, appropriate range for children's voices.
- Complete range of concepts from basic to sophisticated – clearly presented.
- Wonderful exposure to musical and artistic masterpieces.

In summary, the music staff is thrilled with the possibility of acquiring the Spotlight on Music curricular materials. The team reviewed the price list of specific items and unanimously agreed

how to best use the money for the new curriculum. These materials will help provide for exciting, relevant, quality music instruction in all Corvallis elementary schools.

Cost Impact: The total purchase amount will be \$80,130.48.

ACTION REQUESTED: Adopt Spotlight on Music series as the K-5 music curriculum.

Corvallis School District 509J
Board of Directors

BOARD MEETING DATE: April 2, 2012

FOR ACTION

SUBJECT: Board Policy—GCBDE/GDBDE—Military Leave of Absence—Revised—Second Reading

Issue: State and federal law mandate that employers keep jobs open for their employees who are members of the military and are gone on active duty or training. This policy has been updated to better reflect state law, which gives employees 90 days to notify the district of their intention to return to their jobs.

Options Considered: Not revising the policy.

Involvement: Human Resources Staff

Consequences: Policy would not reflect current state law.

Cost Impact: None

ACTION REQUESTED: Adopting the revised policy.

CONTACT PERSON(S): Jennifer Duvall, Kerry Richey

Military Leave of Absence

The district will grant military leave to employees on duty¹ with a uniformed service² in accordance with applicable state and federal law. Employees requesting military leave are required to provide written notice as soon as practicable following notification of military call up or reservist duty, unless precluded by military necessity

Military leave exceeding 15 days is unpaid leave. Employees may use accrued vacation or similar leave during the period of service exceeding 15 days.

While on military leave, the employee will receive the same benefits as other employees on leave, as well as the following:

1. The employee may continue enrollment in the district's health insurance. During the first 18 months of leave, the employee may be required to pay any employee contribution required of other employees on a leave of absence. If the leave extends beyond 18 months, the employee will be required to pay not more than 102 percent of the full premium;
2. Upon return from military service, the district will give retroactive employer contributions to the Public Employee Retirement System on the same basis as if the employee had not left, provided the employee was an enrolled member at the time of the leave. The employee may repay any required employee contributions over a period of three times the military service leave period or five years, whichever is less.

An employee on duty with a uniformed service is entitled to reemployment for a maximum of five years, unless retained on active duty because of war or national emergency. Employees returning from active duty must notify the district of their intention to return to their former jobs within 90 days of release from duty. An individual returning from military leave shall notify the district of his/her intent to return as follows: Employees who are veterans and reservists returning from training must only inform the district of their training obligations and report back at the next regularly scheduled working period.

An individual reemployed under this policy is entitled to the seniority and other currently existing rights and benefits the individual had when service started, plus the additional seniority

¹ "Duty" means the performance of duty on a voluntary or involuntary basis in a uniformed service and includes active duty, active duty for training, initial active duty for training, inactive duty training, full-time National Guard duty and absence to determine fitness for duty.

² "Uniformed service" means the Armed Forces, the National Guard, the commissioned corps of the Public Health Service and any other category of persons designated by the President in time of war or national emergency.

and similar rights and benefits that would have been accrued if employment had been continuous.

This policy does not apply if the employee has been separated from service with a dishonorable discharge or bad conduct discharge or under other than honorable conditions.

IX.J. Board Policy GBH/JECAC—Staff/Student/Parent Relations—Revision—

BOARD MEETING DATE: April 2, 2012

FOR ACTION

SUBJECT:

Board Policy GBH/JECAC—Staff/Student/Parent Relations—Revision—Second Reading
Board Policy JECAC/GBH—Staff/Student/Parent Relations—Revision—Second Reading

Issue: It is the responsibility of the parent with sole custody to provide any court order that **curtails** the rights of the noncustodial parent at the time of enrollment or any other time a court order is issued.

Oregon School Boards Association recommends that we update our policy by removing the following language: *A parent with sole custody shall be requested to provide the district with written instructions regarding particular rights or privileges granted to the noncustodial parent.*

The district should follow only what is in the court order.

Note: The above-coded policies are identical but filed in two different sections of our board policy handbook. To conserve resources, only GBH/JECAC—Staff/Student/Parent Relations is being printed. Changes to the other policy will be the same.

Options Considered: Not revising the policy.

Involvement: District staff.

Consequences: Policy may remain unclear.

Cost Impact: None

ACTION REQUESTED: Adopting the revised policies.

CONTACT PERSON(S): Kevin Bogatin, Kerry Richey

Staff/Student/Parent Relations**

The Board encourages parents to be involved in their student's school affairs and, unless otherwise ordered by the courts, an order of sole custody on the part of one parent shall not deprive the other parent of the following authority as it relates to:

1. Receiving and inspecting school records and consulting with school staff concerning the student's welfare and education, to the same extent as provided the parent having sole custody;
2. Authorizing emergency medical, dental, psychological, psychiatric, or other health care for the student if the custodial parent is, for practical reasons, unavailable.

It is the responsibility of the parent with sole custody to provide any court order that curtails the rights of the noncustodial parent at the time of enrollment or any other time a court order is issued. ~~A parent with sole custody shall be requested to provide the district with written instructions regarding particular rights or privileges granted to the noncustodial parent.~~

Noncustodial parents will not be granted visitation or telephone access to the student during the school day. The student will not be released to the noncustodial parent without written permission of the parent with sole custody. In the event the parents have a court documented standard parenting plan in place, schools will follow the plan.

In the case of joint custody, the district will adhere to all conditions specified and ordered by the court. The district may request in writing any special requests or clarifications in areas concerning the student and the district's relationship and responsibilities. The district will use reasonable methods to identify and authenticate the identity of both parents.

Sexual Harassment

Sexual harassment is prohibited and shall not be tolerated in the district. This includes sexual harassment of students or staff by other students, staff, Board members, or third parties. "Third parties" include, but are not limited to, school volunteers, parents, school visitors, service contractors, or others engaged in district business, such as employees of businesses or organizations participating in cooperative work programs with the district and others not directly subject to district control at interdistrict and intradistrict athletic competitions or other school events.

~~by students, staff, Board members, parents, vendors, and others doing business with the district.~~

District includes district facilities, district premises, and nondistrict property if the student or employee is at any district-sponsored, district-approved, or district-related activity or function, such as field trips or athletic events where students are under the control of the district or where the employee is engaged in district business.

Sexual harassment of students and staff shall include, but not be limited to, unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature when:

1. Submission to the conduct or communication is made either explicitly or implicitly a term or condition of a student's education or participation in district programs or activities or as a condition of employment for staff;
2. Submission to or rejection of the conduct or communication is used as the basis for decisions affecting a student or employment or assignment of staff;
3. The conduct or communication has the purpose or effect of unreasonably interfering with a student's educational performance or with an employee's ability to perform his/her job;
4. The conduct or communication has the effect of creating an intimidating, offensive, or hostile educational or working environment;
5. The conduct or communication has the purpose or effect of demanding sexual favors in exchange for benefits.

Relevant factors to be considered will include, but not be limited to, did the individual view the environment as hostile; was it reasonable to view the environment as hostile; the nature of the conduct; how often the conduct occurred and how long it continued; age and sex of the complainant; whether the alleged harasser was in a position of power over the student or staff

member subject to the harassment; number of individuals involved; age of the alleged harasser; where the harassment occurred; and other incidents of sexual harassment at the school involving the same or other students or staff.

Examples of sexual harassment may include, but not be limited to, physical touching or graffiti of a sexual nature; displaying, e-mailing, or distributing of sexually explicit drawings, pictures, and written materials; sexual gestures or obscene jokes; touching oneself sexually or talking about one's sexuality in front of others; or spreading rumors about or rating other students or others as to appearance, sexual activity, or performance.

All complaints about behavior that may violate this policy shall be promptly investigated. Any student or employee who has knowledge of or feels he/she is a victim of sexual harassment must immediately report his/her concerns to the building principal, compliance officer or superintendent. The student and the student's parents or staff member who initiated the complaint shall be notified when the investigation is concluded.

The initiation of a complaint in good faith about behavior that may violate this policy shall not adversely affect the educational assignments or study environment of a student complainant or any terms or conditions of employment or work environment of the staff complainant. There shall be no retaliation by the district against any person who, in good faith, reports sexual harassment.

It is the intent of the Board that appropriate corrective action be taken by the district to stop the sexual harassment, prevent its recurrence, and address negative consequences. Students in violation of this policy shall be subject to discipline up to and including expulsion and/or counseling or sexual harassment awareness training, as appropriate. The age and maturity of the student(s) involved and other relevant factors will be considered in determining appropriate action. Employees in violation of this policy shall be subject to discipline, up to and including dismissal and/or additional sexual harassment awareness training, as appropriate. Other individuals whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the superintendent or Board.

~~Students shall be subject to discipline up to and including expulsion. Employees shall be subject to discipline, up to and including dismissal. Other individuals whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the superintendent or Board.~~

The district may report individuals in violation of this policy to law enforcement officials. Licensed staff and those participating in practicum programs as specified by Oregon Administrative Rules, shall be reported to the Teacher Standards and Practices Commission.

The superintendent shall ensure appropriate training is provided to all supervisors, staff and students. This policy as well as the complaint procedure will be made available to all students, parents of students and staff in student/parent and staff handbooks. The district's policy shall be posted in all schools. Such posting shall be by a sign of at least 8.5 by 11 inches.

The superintendent will establish a process of reporting incidents of sexual harassment.

All staff, ~~and~~ students, ~~and third parties~~ shall be subject to this policy.

END OF POLICY

Issue: For students enrolled in a public charter school, House Bill 2299 modifies several Oregon Administrative Rules (OARs). The bill shifts the special education responsibilities for providing a student with a free appropriate public education (FAPE) from the district of a parental residency to the district in which the charter school is located. The bill requires the district to maintain appropriate student records regarding special education services and establishes notice requirements for the district upon student enrollment or when the student is no longer enrolled in the public charter school.

Options Considered: Not revising the policies and administrative regulations.

Involvement: District staff.

Consequences: Policy and administrative regulations will not reflect current Oregon law.

Cost Impact: Unknown.

Special Education—Evaluation Procedures

Consistent with its child find and parent consent obligations, the district responds promptly to requests initiated by a parent or public agency for an initial evaluation to determine if a child is a child with a disability.

A full and individual evaluation of a student's educational needs that meets the criteria established in the Oregon Administrative Rules will be conducted before determining eligibility and before the initial provision of special education and related services to a student with a disability. The district implements an ongoing system to locate, identify and evaluate all children birth to 21 residing within its jurisdiction who have disabilities and need early intervention, early childhood special education or special education services.

The district identifies all children with disabilities, regardless of the severity of their disabilities, including children who are:

1. Highly mobile, such as migrant and homeless children;
2. Wards of the state;
3. American Indian preschool children living on reservations;
4. Suspected of having a disability even though they advance from grade to grade;
5. Home schooled;
6. Attending private (religious or secular) school located within the boundaries of the district;
7. Attending a public charter school located in the district ~~charter school~~;
8. Below the age of compulsory school attendance; or
9. Above the age of compulsory school attendance who have not graduated from high school with a regular diploma and have not completed the school year in which they reach their 21st birthday.

The district is responsible for evaluating and determining eligibility for special education services for school age children. The district is responsible for evaluating children who may be

eligible for Early Intervention/Early Childhood Special Education (EI/ECSE) services. The district's designated referral and evaluation agency is responsible for determining eligibility.

Before conducting any evaluation or reevaluation, the district:

1. Plans the evaluation with a group that includes the parent(s);
2. Provides prior written notice to the parent that describes any proposed evaluation procedures the agency proposes to conduct as a result of the evaluation planning process; and
3. Obtains informed written consent for evaluation.

The district conducts a comprehensive evaluation or reevaluation before:

1. Determining that a child has a disability;
2. Determining that a child continues to have a disability;
3. Changing the child's eligibility;
4. Providing special education and related services;
5. Terminating the child's eligibility for special education, unless the termination is due to graduation from high school with a regular diploma or exceeding the age of eligibility for a free appropriate public education.

Upon completion of the evaluation, the district provides the parent or eligible child a copy of the evaluation report at no cost. The evaluation report describes and explains the results of the evaluation. Upon completion of the eligibility determination, the district provides the parent or eligible child documentation of eligibility determination at no cost.

The district ensures that assessments and other evaluation materials, including those tailored to assess specific areas of education need, used to assess a child:

1. Are selected and administered so as not to be racially or culturally discriminatory;
2. Are provided and administered in the child's native language or other mode of communication and form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally unless it is clearly not feasible to do so;
3. Are used for purposes for which assessments or measures are valid and reliable;
4. Are administered by trained and knowledgeable personnel; and

5. Are administered in accordance with any instructions provided by the producer of such assessments.

Materials and procedures used to assess a child with limited English proficiency are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education, rather than measuring the child's English language skills.

A student must meet the eligibility criteria established in the Oregon Administrative Rules.

The district conducts reevaluations:

1. When the educational or related services needs, including improved academic achievement and functional performance of the children warrant a reevaluation;
2. When the child's parents or teacher requests a reevaluation; and
3. At least every three years, unless that parent and the district agree that a reevaluation is unnecessary.

The district does not conduct reevaluation more than once a year, unless the parent and district agree otherwise and at least once every three years, unless the parent and district agree that a reevaluation is unnecessary.

If a parent has previously revoked consent for special education and related services and subsequently requests special education and related services, the district will conduct an initial evaluation of the student to determine eligibility for special education.

X.L. Board Policy—IKFB—Graduation Exercises—Revision—First Reading

BOARD MEETING DATE: April 2, 2012

FOR INFORMATION

SUBJECT: Board Policy—IKFB—Graduation Exercises—Revision—First Reading

Issue: Currently, students working toward a standard high school diploma may participate in graduation ceremonies if they are within one credit of satisfying the requirements for the diploma, have met all other requirements, and have completed a plan for completing the remaining credit by September 1 of the following school year.

Effective June 2012, all students in good standing who have successfully completed **all** graduation requirements for a high school diploma or modified diploma by the designated deadline may participate in graduation exercises. These requirements include: earning 24 credits in the designated areas, completing all mandatory career learning activities, and demonstrating proficiency in required essential skills.

Students in good standing meeting credit requirements for an extended diploma or alternative certificate (as defined in policy IKF) also may participate in graduation exercises.

Options Considered: Not revising the policy

Involvement: District office staff

Consequences: Students who are within one credit and are permitted to walk at graduation, with the expectation that they return over the summer to complete that final credit. Last year 4 of 12 students completed that requirement and graduated. It appears this policy discourages completion of all high school graduation requirements.

Cost Impact: None.

ACTION REQUESTED: Adoption of the revised policy.

CONTACT PERSON(S): Kevin Bogatin, Kerry Richey

Graduation Exercises

Because the Board believes that completion of the requirements for a diploma, a modified diploma, extended diploma, or alternative certificate from the public schools is an achievement that improves the community as well as the individual, the Board wishes to recognize that achievement in a publicly celebrated graduation exercise.

Accordingly, appropriate graduation dates and programs may be planned by the high schools.

Effective June 2012, all students in good standing who have successfully completed all graduation requirements for a high school diploma or modified diploma by the designated deadline may participate in graduation exercises. These requirements include: earning 24 credits in the designated areas, completing all mandatory career learning activities, and demonstrating proficiency in required essential skills.

~~All students in good standing who have successfully completed the requirements for a high school diploma, a modified diploma, an extended diploma, or alternative certificate (as defined in policy IKF) may participate in graduation exercises. Students earning a high school diploma or modified diploma must meet career learning requirements and essential skills requirements to participate in the graduation ceremony. Students working toward a standard high school diploma may participate in graduation ceremonies if they are within one credit of satisfying the requirements for the diploma, have met all other requirements, and have completed a plan for completing the remaining credit by September 1 of the following school year.~~

Students in good standing meeting credit requirements for an extended diploma or alternative certificate (as defined in policy IKF) also may participate in graduation exercises.

“In good standing means” the student has not been suspended, expelled, or otherwise excluded from school programs at the time of the ceremony.
