 - II.B. Math Activity (12:30 p.m.)*
 - II.C. Book Discussion (1:00 p.m.)*

Limitless Mind

Book Discussion Questions

1. In the introduction, Jo defines growth and fixed mindsets. Describe your experiences with growth and fixed mindsets in school and beyond.
2. What research or anecdote stood out to you in Chapter 1? How will this information alter what you once believed to be true and/or how will it inform your work or practice?
3. Have you ever heard someone say they are not a “math person” or thought the same about yourself? How does our society picture someone who is a “math person?” Has any of the evidence Jo shared changed your view on this topic?
4. Jo compares US math classrooms to those in Japan and China: while US teachers typically give students 30 repetitive problems to practice, teachers in Japan and China that she has seen gave no more than three problems to investigate and struggle through understanding. In what ways do either of these depictions resonate with your experiences when you were in school?
5. How can we support children (or others) to accept mistakes as a learning opportunity? Given that it’s a whole cultural change, how can we help everyone around us learn to love mistakes, struggle, and failure?
6. Which of the research findings about growth mindset surprise you, if any?
7. Describe your personal experiences as a child or adult with the word “smart.”
8. What is an example of a subject/topic where you can use a multi-dimensional approach?
9. Describe a time when you felt as though you were not a good learner because you were not thinking or working quickly enough.
10. Share your thoughts on replacing speed with flexible thinking. What personal experiences have you had with this?

- II.D. Break (2:00 p.m.)*
- II.E. Board Goals Review (2:15 p.m.)*

2018-2023 Board Goals

(Adopted 10-14-21)

Goal 1: Student Achievement

All students will read grade level texts by 3rd grade and stay on grade level; successfully complete Algebra I by the end of 9th grade; be on track with required credits by the end of 9th grade; and graduate with a post-secondary plan. Student identity (race, culture, socioeconomic status, language, ability, gender, gender identity, gender expression, or sexual orientation) should not predict or predetermine success in school.

Strategies:

1. Monitor students' reading progress in grades pre-K - 3rd grade using a system of sound instruction, assessment, and intervention so that all students are reading at grade level by 3rd grade.
2. Prepare students to successfully complete Algebra I by the end of 9th grade.
3. Develop a system that ensures each 9th grade student is on track to graduate.
4. All students graduate with a post-secondary plan.

Goal 2: Equitable Systems

Student identity (race, culture, socioeconomic status, language, ability, gender, gender identity, gender expression, or sexual orientation) should not predict or predetermine success in school. Disaggregated data will be used to measure progress on goal.

Strategies:

1. Recruit and retain racially and culturally diverse staff.
2. Increase and support student voice, empowerment, and leadership in our schools.
3. Expand parent and community partnerships.
4. Increase and support school staff and administrative empowerment in leadership in our schools.
5. Increase racial consciousness of staff through professional development focused on race, culture and culturally relevant instruction.

(Continued on next page.)

Goal 3: Real-World Learning

All students participate in real-world learning, with a global perspective, that prepares them for an ever-changing future. Student identity (race, culture, socioeconomic status, language, ability, gender, gender identity, gender expression, or sexual orientation) should not predict or predetermine success in school.

Strategies:

1. Support cultural responsiveness and biliteracy in our students and staff.
2. Create additional learning pathways toward graduation and life beyond high school.
3. Integrate real-world, experiential learning in all grades.
4. Integrate communication, critical thinking, collaboration, creativity, and problem solving skills into learning experiences.
5. Integrate environmental, social, and economic-sustainability in learning experiences.

Goal 4: Health & Wellness

Improve the health and wellness of district students and staff. Student identity (race, culture, socioeconomic status, language, ability, gender, gender identity, gender expression, or sexual orientation) should not predict or predetermine success in school.

Strategies:

1. Support and enhance programs that promote student mental wellness and safety.
2. Support and enhance programs that promote student physical wellness and safety.
3. Support a robust worksite wellness program for district staff.

Goal 5: Long Range Facility Planning

Transform aging school facilities to provide safe, effective, efficient, innovative, and equitable learning opportunities for every student. Student identity (race, culture, socioeconomic status, language, ability, gender, gender identity, gender expression, or sexual orientation) should not predict or predetermine success in school.

Strategies:

1. Communicate the needs for improved infrastructure and facilities with the Corvallis community.
2. Engage staff, parents, students and community in execution of facility improvements consistent with the district's core values for educational design.
3. Complete construction projects through a voter-approved bond levy.

(Continued on next page.)

Goal 6: 2021-22 Goal in Response to COVID-19

As a school district, adapt to the new conditions presented by the COVID-19 pandemic. Take all preventative measures available, working with community partners, to keep our schools open with students in our classrooms. Make decisions focused on health and safety, student achievement, and equitable systems.

1. Implement the most current Oregon Department of Educational blueprint.
2. Implement executive orders, rules, and guidance from the Oregon Department of Education, Oregon Health Authority, Governor's Office, and Benton County.
3. Provide ongoing communication with staff, students, and the community.
4. Utilize any new resources that are earmarked for the purposes of academic, health, and wellness resumption efforts.
5. Prioritize communities that are disproportionately impacted by COVID-19.
