Request for Administrative Assistant Support for IASC starting in January

Pat-

I would like to request that Amie Hanson provides Administrative Assistant support for IASC starting in January. Our current Administrative Assistant will be ending her time in IASC in December.

I have not brought this to the AC committee yet or the BOD, but wanted to ensure that Deer River would be open to this option prior to discussing it at upcoming IASC meetings. If Deer River does not feel this is in the best interest of Deer River, I will respect that decision and look at other options.

Thank you!

Hello,

I have an opportunity to work as an archeological technician with the Leech Lake reservation. They said it goes until the ground freezes. I'd most likely be back by the end of November at the latest.

Thanks,

Ynes Schrader

DEER STEP RIVER

Good evening District 317 School Board. The S.T.E.P. Coalition had an exciting month in September. Since it was the first month back from summer break, we dedicated ourselves to finishing the youth group rebrand. We held our first advisory meetings for grades 9-12 and 6-8 to get the student's input on the rebrand, their input on youth programs, and the direction of our messaging. The youth group is now the "STEP UP" group! Many kids signed up officially while also joining our youth subcommittee groups. Subcommittee groups include; video productions, social media production, swag (clothing), event planning, substance abuse issue identifiers, and our training/travel team. We plan to go digital with our messaging while maintaining our former messaging practices using posters and billboards. Going digital is no small task; it will take our entire coalition, including our youth, to move in the direction we want. It will also take the support of our school admin and board as well. Together, we can make this happen and be a model prevention program for our state and beyond.

4.2. The request for participation meets the criteria for participation in one or more Shared Programs approved by the IASC Board, with the input of the Inter-District Collaboration Committee, including criteria regarding costs and minimum and maximum student participation:

Rev. 2022

516 STUDENT MEDICATION

[Note: The necessary provisions for complying with Minnesota Statutes sections 121A.22, Administration of Drugs and Medicine, 121A.221, Possession and Use of Asthma Inhalers by Asthmatic Students, and 121A.222, Possession and Use of Nonprescription Pain Relievers by Secondary Students are included in this policy. The statutes do not regulate administration of drugs and medicine for students aged 18 and over or other nonprescription medications. Please note that section 121A.22 does not require school districts to apply the administration of medication rule to drugs or medicine used off school grounds, drugs or medicines used in connection with athletics or extra-curricular activities, and drugs and medicines that are used in connection with activities that occur before or after the regular school day.]

I. PURPOSE

The purpose of this policy is to set forth the provisions that must be followed when administering nonemergency prescription medication to students at school.

II. GENERAL STATEMENT OF POLICY

The school district acknowledges that some students may require prescribed drugs or medication during the school day. The school district's licensed school nurse, trained health clerk, principal, or teacher will administer prescribed medications, except any form of medical cannabis, in accordance with law and school district procedures.

III. REQUIREMENTS

- A. The administration of prescription medication or drugs at school requires a completed signed request from the student's parent. An oral request must be reduced to writing within two school days, provided that the school district may rely on an oral request until a written request is received.
- B. An "Administering Prescription Medications" form must be completed annually (once per school year) and/or when a change in the prescription or requirements for administration occurs. Prescription medication as used in this policy does not include any form of medical cannabis as defined in Minnesota Statutes section 152.22, subdivision 6.
- C. Prescription medication must come to school in the original container labeled for the student by a pharmacist in accordance with law and must be administered in a manner consistent with the instructions on the label.
- D. The school nurse may request to receive further information about the prescription, if needed, prior to administration of the substance.
- E. Prescription medications are not to be carried by the student, but will be left with the appropriate school district personnel. Exceptions to this requirement are: prescription asthma medications self-administered with an inhaler (See Part J.5. below), and medications administered as noted in a written agreement between the school district and the parent or as specified in an IEP (individualized education program), Section 504

plan, or IHP (individual health plan).

- F. The school must be notified immediately by the parent or student 18 years old or older in writing of any change in the student's prescription medication administration. A new medical authorization or container label with new pharmacy instructions shall be required immediately as well.
- G. For drugs or medicine used by children with a disability, administration may be as provided in the IEP, Section 504 plan or IHP.
- H. The school nurse, or other designated person, shall be responsible for the filing of the Administering Prescription Medications form in the health records section of the student file. The school nurse, or other designated person, shall be responsible for providing a copy of such form to the principal and to other personnel designated to administer the medication.
- I. Procedures for administration of drugs and medicine at school and school activities shall be developed in consultation with a school nurse, a licensed school nurse, or a public or private health organization or other appropriate party (if appropriately contracted by the school district under Minnesota Statutes section 121A.21). The school district administration shall submit these procedures and any additional guidelines and procedures necessary to implement this policy to the school board for approval. Upon approval by the school board, such guidelines and procedures shall be an addendum to this policy.
- J. If the administration of a drug or medication described in this section requires the school district to store the drug or medication, the parent or legal guardian must inform the school if the drug or medication is a controlled substance. For a drug or medication that is not a controlled substance, the request must include a provision designating the school district as an authorized entity to transport the drug or medication for the purpose of destruction if any unused drug or medication remains in the possession of school personnel. For a drug or medication that is a controlled substance, the request must specify that the parent or legal guardian is required to retrieve the drug or controlled substance when requested by the school.
- K. Specific Exceptions:
 - 1. Special health treatments and health functions such as catheterization, tracheostomy suctioning, and gastrostomy feedings do not constitute administration of drugs and medicine;
 - 2. Emergency health procedures, including emergency administration of drugs and medicine are not subject to this policy;
 - 3. Drugs or medicine provided or administered by a public health agency to prevent or control an illness or a disease outbreak are not governed by this policy;
 - 4. Drugs or medicines used at school in connection with services for which a minor may give effective consent are not governed by this policy;
 - 5. Drugs or medicines that are prescription asthma or reactive airway disease medications can be self-administered by a student with an asthma inhaler if:
 - a. the school district has received a written authorization from the pupil's parent permitting the student to self-administer the medication;

- b. the inhaler is properly labeled for that student; and
- c. the parent has not requested school personnel to administer the medication to the student.

The parent must submit written authorization for the student to self-administer the medication each school year. In a school that does not have a school nurse or school nursing services, the student's parent or guardian must submit written verification from the prescribing professional which documents that an assessment of the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting has been completed.

If the school district employs a school nurse or provides school nursing services under another arrangement, the school nurse or other appropriate party must assess the student's knowledge and skills to safely possess and use an asthma inhaler in a school setting and enter into the student's school health record a plan to implement safe possession and use of asthma inhalers;

6. Medications:

- a. that are used off school grounds;
- b. that are used in connection with athletics or extracurricular activities; or
- c. that are used in connection with activities that occur before or after the regular school day

are not governed by this policy.

[Note: The provisions of paragraph 6 are optional and the school board may choose to include or exclude any of the provisions specified.]

7. Nonprescription Medication. A secondary student may possess and use nonprescription pain relief in a manner consistent with the labeling, if the school district has received written authorization from the student's parent or guardian permitting the student to self-administer the medication. The parent or guardian must submit written authorization for the student to self-administer the medication each school year. The school district may revoke a student's privilege to possess and use nonprescription pain relievers if the school district determines that the student is abusing the privilege. This provision does not apply to the possession or use of any drug or product containing ephedrine or pseudoephedrine as its sole active ingredient or as one of its active ingredients. Except as stated in this paragraph, only prescription medications are governed by this policy.

[Note: School districts should consult with licensed medical and nursing personnel to address whether nonprescription medications will be allowed at elementary schools and whether and under what conditions school personnel will participate in storing or administering nonprescription medications.]

8. At the start of each school year or at the time a student enrolls in school, whichever is first, a student's parent, school staff, including those responsible for student health care, and the prescribing medical professional must develop

and implement an individualized written health plan for a student who is prescribed epinephrine auto-injectors that enables the student to:

- a. possess epinephrine auto-injectors; or
- b. if the parent and prescribing medical professional determine the student is unable to possess the epinephrine, have immediate access to epinephrine auto-injectors in close proximity to the student at all times during the instructional day.

The plan must designate the school staff responsible for implementing the student's health plan, including recognizing anaphylaxis and administering epinephrine auto-injectors when required, consistent with state law. This health plan may be included in a student's § 504 plan.

9. A student may possess and apply a topical sunscreen product during the school day while on school property or at a school-sponsored event without a prescription, physician's note, or other documentation from a licensed health care professional. School personnel are not required to provide sunscreen or assist students in applying sunscreen.

L. "Parent" for students 18 years old or older is the student.

M. Districts and schools may obtain and possess epinephrine auto-injectors to be maintained and administered by school personnel to a student or other individual if, in good faith, it is determined that person is experiencing anaphylaxis regardless of whether the student or other individual has a prescription for an epinephrine auto-injector. The administration of an epinephrine auto-injector in accordance with this section is not the practice of medicine.

A district or school may enter into arrangements with manufacturers of epinephrine auto-injectors to obtain epinephrine auto-injectors at fair-market, free, or reduced prices. A third party, other than a manufacturer or supplier, may pay for a school's supply of epinephrine auto-injectors.

N. Procedure regarding unclaimed drugs or medications.

1. The school district has adopted the following procedure for the collection and transport of any unclaimed or abandoned prescription drugs or medications remaining in the possession of school personnel in accordance with this policy. Before the transportation of any prescription drug or medication under this policy, the school district shall make a reasonable attempt to return the unused prescription drug or medication to the student's parent or legal guardian. Transportation of unclaimed or unused prescription drugs or medications will occur at least annually, but may occur more frequently at the discretion of the school district.
2. If the unclaimed or abandoned prescription drug is not a controlled substance as defined under Minnesota Statutes section 152.01, subdivision 4, or is an over-the-counter medication, the school district will either designate an individual who shall be responsible for transporting the drug or medication to a designated drop-off box or collection site or request that a law enforcement agency transport the drug or medication to a drop-off box or collection site on behalf of the school district.
3. If the unclaimed or abandoned prescription drug is a controlled substance as defined in Minnesota Statutes section 152.01, subdivision 4, the school district or school personnel is prohibited from transporting the prescription drug to a drop-off box or collection site for prescription drugs identified under this paragraph. The school district must request that a law enforcement agency transport the prescription drug or medication to a collection bin that complies with Drug Enforcement Agency

regulations, or if a site is not available, under the agency's procedure for transporting drugs.

Rev. 2014

526 HAZING PROHIBITION

[Note: School districts are required by statute to have a policy addressing these issues. The Minnesota Department of Education (MDE) will maintain and make available a model policy on student and staff hazing in accordance with Minnesota Statutes section 121A.69. The MDE model policy differs from the MSBA/MASA model policy as it incorporates state and federal requirements related to harassment and discrimination which extends beyond the mandate of Minnesota Statutes section 121A.69. Topics of harassment and discrimination are addressed in other MSBA/MASA policies. While school districts are required to adopt a policy governing student and staff hazing, school districts are not required to adopt any particular policy. MSBA recommends this policy.]

I. PURPOSE

The purpose of this policy is to maintain a safe learning environment for students and staff that is free from hazing. Hazing activities of any type are inconsistent with the educational goals of the school district and are prohibited at all times.

II. GENERAL STATEMENT OF POLICY

- A. No student, teacher, administrator, volunteer, contractor, or other employee of the school district shall plan, direct, encourage, aid, or engage in hazing.
- B. No teacher, administrator, volunteer, contractor, or other employee of the school district shall permit, condone, or tolerate hazing.
- C. Apparent permission or consent by a person being hazed does not lessen the prohibitions contained in this policy.

D. Retaliation against a victim, good faith reporter, or a witness of hazing is prohibited.

E. False accusations or reports of hazing against a student, teacher, administrator, volunteer, contractor, or other employee are prohibited.

F. A person who engages in an act of hazing, reprisal, retaliation, or false reporting of hazing or permits, condones, or tolerates hazing shall be subject to discipline or other remedial responses for that act in accordance with the school district's policies and procedures.

Consequences for students who commit, tolerate, or are a party to prohibited acts of hazing may range from remedial responses or positive behavioral interventions up to and including suspension and/or expulsion.

Consequences for employees who permit, condone, or tolerate hazing or engage in an act of reprisal or intentional false reporting of hazing may result in disciplinary action up to and including termination or discharge.

Consequences for other individuals engaging in prohibited acts of hazing may include, but not be limited to, exclusion from school district property and events and/or termination of services and/or contracts.

~~D~~ G. This policy applies to ~~behavior~~ hazing that occurs during and after school hours, on or off school premises or property, at school functions or activities, or on school transportation ~~and during and after school hours.~~

~~E~~ H. A person who engages in an act that violates school policy or law in order to be initiated into or affiliated with a student organization shall be subject to discipline for that act.

~~F~~ I. The school district will act to investigate all complaints of hazing and will discipline or take appropriate action against any student, teacher, administrator, volunteer, contractor, or other employee of the school district who is found to have violated this policy.

III. DEFINITIONS

A. "Hazing" means committing an act against a student, or coercing a student into committing an act, that creates a substantial risk of harm to a person, in order for the student to be initiated into or affiliated with a student organization, or for any other school-related purpose. The term hazing includes, but is not limited to:

1. Any type of physical brutality such as whipping, beating, striking, branding, electronic shocking, or placing a harmful substance on the body.
2. Any type of physical activity such as sleep deprivation, exposure to weather, confinement in a restricted area, calisthenics, or other activity that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
3. Any activity involving the consumption of any alcoholic beverage, drug, tobacco product, or any other food, liquid, or substance that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student.
4. Any activity that intimidates or threatens the student with ostracism, that subjects a student to extreme mental stress, embarrassment, shame, or humiliation, that adversely affects the mental health or dignity of the student or discourages the student from remaining in school.
5. Any activity that causes or requires the student to perform a task that

involves violation of state or federal law or of school district policies or regulations.

- B. "Immediately" means as soon as possible but in no event longer than 24 hours.
- C. "On school premises or school district property, or at school functions or activities, or on school transportation" means all school district buildings, school grounds, and school property or property immediately adjacent to school grounds, school bus stops, school buses, school vehicles, school contracted vehicles, or any other vehicles approved for school district purposes, the area of entrance or departure from school grounds, premises, or events, and all school-related functions, school-sponsored activities, events, or trips. School district property also may mean a student's walking route to or from school for purposes of attending school or school-related functions, activities, or events. While prohibiting hazing at these locations and events, the school district does not represent that it will provide supervision or assume liability at these locations and events.
- D. "Remedial response" means a measure to stop and correct hazing, prevent hazing from recurring, and protect, support, and intervene on behalf of a student who is the target or victim of hazing.
- E. "Student" means a student enrolled in a public school or a charter school.
- ~~B E~~. "Student organization" means a group, club, or organization having students as its primary members or participants. It includes grade levels, classes, teams, activities, or particular school events. A student organization does not have to be an official school organization to come within the terms of this definition.

IV. REPORTING PROCEDURES

- A. Any person who believes he or she has been the target or victim of hazing or any person with knowledge or belief of conduct which may constitute hazing shall report the alleged acts immediately to an appropriate school district official designated by this policy. A person may report hazing anonymously. However, the school district may not rely solely on an anonymous report to determine discipline or other remedial responses.
- B. The school district encourages the reporting party to use the report form available from the principal or building supervisor of each building or available from the school district office, but oral reports shall be considered complaints as well.

The building principal, the principal's designee, or the building supervisor (hereinafter the "building report taker") is the person responsible for receiving reports of hazing at the building level. Any adult school district personnel who receives a report of hazing prohibited by this policy shall inform the building report taker immediately. Any person may report hazing directly to a school district human rights officer or to the superintendent. If the complaint involves

the building report taker, the complaint shall be made or filed directly with the superintendent or the school district human rights officer by the reporting party or complainant.

The building report taker shall ensure that this policy and its procedures, practices, consequences, and sanctions are fairly and fully implemented and shall serve as a primary contact on policy and procedural matters.

- C. ~~Teachers, administrators, volunteers, contractors, and other employees of the school district~~ A teacher, administrator, volunteer, contractor, and other school employees shall be particularly alert to possible situations, circumstances, or events which might include hazing. 532 USE OF PEACE OFFICERS AND CRISIS TEAMS TO REMOVE STUDENTS WITH IEPs FROM SCHOOL GROUNDS

[Note: School districts are required by statute to have a policy addressing these issues.]

[Note: Minnesota Laws 2009, Chapter 96, made a number of changes to the laws and rules governing the use of "conditional procedures" with respect to special education students. Specifically, Chapter 96 repealed, EFFECTIVE AUGUST 1, 2011, Minnesota Statutes sections 121A.66, 121A.67, Subd. 1, as well as Minnesota Rules 3525.0210, Subparts 5, 6, 9, 13, 17, 29, 30, 46, 47, and 3525.2900, Subp. 5. These laws and rules were replaced, effective August 1, 2011, with a restrictive procedures law which generally addresses the restraint of special education students. Also note that the restrictive procedures law contains a significant staff training component, found at Minnesota Statutes section 125A.0942, Subds. 1, 2, and 5. Staff who intend to use restrictive procedures must be trained in the areas specified in Subd. 5 to use these procedures.]

I. PURPOSE

The purpose of this policy is to describe the appropriate use of peace officers and crisis teams to remove, if necessary, a student with an individualized education program (IEP) from school grounds.

II. GENERAL STATEMENT OF POLICY

The school district is committed to promoting learning environments that are safe for all members of the school community. It further believes that students are the first priority and that they should be reasonably protected from physical or emotional harm at all school locations and during all school activities.

In general, all students, including those with IEPs, are subject to the terms of the school district's discipline policy. Building level administrators have the leadership responsibility to maintain a safe, secure, and orderly educational environment within which learning can occur. Corrective action to discipline a student and/or modify a student's behavior will be taken by staff when a student's behavior violates the school district's discipline policy.

If a student with an IEP engages in conduct which, in the judgment of school personnel, endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, that student may be removed from school grounds in accordance with this policy.

III. DEFINITIONS

For purposes of this policy, the following terms have the meaning given them in this section:

- A. "Student with an IEP" or "the student" means a student who is eligible to receive special education and related services pursuant to the terms of an IEP or an individual interagency intervention plan (IIIP).
- B. "Peace officer" means an employee or an elected or appointed official of a political subdivision or law enforcement agency who is licensed by the Board of Peace Officer Standards and Training, charged with the prevention and detection of crime and the enforcement of general criminal laws of the state and who has the full power of arrest. The term "peace officer" includes a person who serves as a sheriff, a deputy sheriff, a police officer, or a state patrol trooper.

- C. "Police liaison officer" is a peace officer who, pursuant to an agreement between the school district and a political subdivision or law enforcement agency, is assigned to a school building for all or a portion of the school day to provide law enforcement assistance and support to the building administration and to promote school safety, security, and positive relationships with students.
- D. "Crisis team" means a group of persons, which may include teachers and non-teaching school personnel, selected by the building administrator in each school building who have received crisis intervention training and are responsible for becoming actively involved with resolving crises. The building administrator or designee shall serve as the leader of the crisis team.
- E. The phrase "remove the student from school grounds" is the act of securing the person of a student with an IEP and escorting that student from the school building or school activity at which the student with an IEP is located.
- F. "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury.
- G. All other terms and phrases used in this policy shall be defined in accordance with applicable state and federal law or ordinary and customary usage.

IV. REMOVAL OF STUDENTS WITH IEPs FROM SCHOOL GROUNDS

A. Removal By Crisis Team

If the behavior of a student with an IEP escalates to the point where the student's behavior endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building's crisis team may be summoned. The crisis team may attempt to de-escalate the student's behavior by means including, but not limited to, those described in the student's IEP and/or behavior intervention plan. When such measures fail, or when the crisis team determines that the student's behavior continues to endanger or may endanger the health, safety, or property of the student, other students, staff members, or school property, the crisis team may remove the student from school grounds.

If the student's behavior cannot be safely managed, school personnel may immediately request assistance from the police liaison officer or a peace officer.

B. Removal By Police Liaison Officer or Peace Officer

If a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, the school building's crisis team, building administrator, or the building administrator's designee, may request that the police liaison officer or a peace officer remove the student from school grounds.

If a student with an IEP is restrained or removed from a classroom, school building, or school grounds by a peace officer at the request of a school administrator or school staff person during the school day twice in a 30-day period, the student's IEP team must meet to determine if the student's IEP is adequate or if additional evaluation is needed.

Whether or not a student with an IEP engages in conduct which endangers or may endanger the health, safety, or property of the student, other students, staff members, or school property, school district personnel may report a crime committed by a student with an IEP to appropriate authorities. If the school district reports a crime committed by a student with an IEP, school personnel shall transmit copies of the special education and disciplinary records of the student for consideration by appropriate authorities to whom it reports the crime, to the extent that the transmission is permitted by the Family

Education Rights and Privacy Act (FERPA), the Minnesota Government Data Practices Act, and school district's policy, Protection and Privacy of Pupil Records.

[Note: If the school district uses a different reference name for its student records policy, insert that name in place of the reference to Protection and Privacy of Pupil Records, which is the title of MSBA/MASA Model Policy 515.]

The fact that a student with an IEP is covered by special education law does not prevent state law enforcement and judicial authorities from exercising their responsibilities with regard to the application of federal and state law to crimes committed by a student with an IEP.

C. Reasonable Force Permitted

In removing a student with an IEP from school grounds, a building administrator, other crisis team members, or the police liaison officer or other agents of the school district, whether or not members of a crisis team, may use reasonable force when it is necessary under the circumstances to correct or restrain a student or prevent bodily harm or death to another.

In removing a student with an IEP from school grounds, police liaison officers and school district personnel are further prohibited from engaging in the following conduct:

1. Corporal punishment prohibited by Minnesota Statutes section 121A.58;
2. Requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;
3. Totally or partially restricting a child's senses as punishment;
4. Denying or restricting a child's access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child's functioning except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;
5. Interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under Minnesota Statutes Chapter 260E;
6. Physical holding (as defined in Minnesota Statutes section 125A.0941) that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso;
7. Withholding regularly scheduled meals or water; and/or
8. Denying a child access to toilet facilities.

D. Parental Notification

The building administrator or designee shall make reasonable efforts to notify the student's parent or guardian of the student's removal from school grounds as soon as possible following the removal.

E. Continued Removals; Review of IEP

Continued and repeated use of the removal process described herein must be reviewed in the development of the individual student's IEP or IIIP.

F. Effect of Policy in an Emergency; Use of Restrictive Procedures

A student with an IEP may be removed in accordance with this policy regardless of whether the student's conduct would create an emergency.

If the school district seeks to remove a student with an IEP from school grounds under this policy due to behaviors that constitute an emergency and the student's IEP, IIIP, or behavior intervention plan authorizes the use of one or more restrictive procedures, the crisis team may employ those restrictive procedures, in addition to any reasonable force that may be necessary, to facilitate the student's removal from school grounds, as long as the crisis team members who are implementing the restrictive procedures have received the training required by Minnesota Statutes section 125A.0942, Subd. 5, and otherwise comply with the requirements of § 125A.0942.

G. Reporting to the Minnesota Department of Education (MDE)

Annually, stakeholders may recommend, as necessary, to the Commissioner of MDE (Commissioner) specific and measurable implementation and outcome goals for reducing the use of restrictive procedures. The Commissioner must submit to the Legislature a report on districts' progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of seclusion. By January 15, April 15, July 15, and October 15 of each year, districts must report, in a form and manner determined by the Commissioner, about individual students who have been secluded. By July 15 each year, districts must report summary data. The summary data must include information on the use of restrictive procedures for the prior school year, July 1 through June 30, including the use of reasonable force by school personnel that is consistent with the definition of physical holding or seclusion of a child with a disability.

533 WELLNESS

[Note: All school districts that participate in the National School Lunch and School Breakfast Programs are required by the Healthy, Hunger-Free Kids Act of 2010 (Act) to have a wellness policy that includes standards and nutrition guidelines for foods and beverages made available to students on campus during the school day, as well as specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness. The Act requires the involvement of parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the public in the development, implementation, and periodic review and update of the wellness policy. The Act also requires a plan for measuring implementation of the policy and reporting wellness policy content and implementation issues to the public, as well as the designation of at least one person charged with responsibility for the implementation and oversight of the wellness policy to ensure the school district is in compliance with the policy.]

I. PURPOSE

The purpose of this policy is to set forth methods that promote student wellness, prevent and reduce childhood obesity, and assure that school meals and other food and beverages sold and otherwise made available on the school campus during the school day are consistent with applicable minimum local, state, and federal standards.

III. WELLNESS GOALS

[Note: The Act requires that wellness policies include goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness.]

A. Nutrition Promotion and Education

1. The school district will encourage and support healthy eating by students and engage in nutrition promotion that is:
 - a. offered as part of a comprehensive program designed to provide students with the knowledge and skills necessary to promote and protect their health;

2. The school district will encourage all students to make age appropriate, healthy selections of foods and beverages, including those sold individually outside the reimbursable school meal programs, such as through a la carte/snack lines, vending machines, fundraising events, concession stands, and student stores.

B. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health and physical education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities, such as watching television;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

C. Communications with Parents

1. The school district recognizes that parents and guardians have a primary role in promoting their children's health and well-being.
2. The school district will support parents' efforts to provide a healthy diet and daily physical activity for their children.
3. The school district encourages parents to pack healthy lunches and snacks and refrain from including beverages and foods without nutritional value.
4. The school district will provide information about physical education and other school-based physical activity opportunities and will support parents' efforts to provide their children with opportunities to be physically active outside of school.

IV. STANDARDS AND NUTRITION GUIDELINES

[Note: The Act requires that school districts have standards, selected by the school district, for all foods available on the school campus during the school day with the objective of promoting student health and reducing childhood obesity. For foods and beverages sold to students during the school day on school campus, the Act requires that school districts also have nutrition guidelines.]

A. School Meals

[Note: The Act specifically requires that the wellness policy contain standards and nutrition guidelines for all foods and beverages sold to students during the school day that are consistent with the meal requirements for lunches and after-school snacks set forth in 7 Code of Federal Regulations section 210.10 and the meal requirements for breakfasts set forth in Code of Federal Regulations section 220.8.]

1. The school district will provide healthy and safe school meal programs that comply with all applicable federal, state, and local laws, rules, and regulations.

6. Food service personnel shall adhere to all applicable federal, state, and local food safety and security guidelines.
7. The school district will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals.

9. The school district will make every effort to provide students with sufficient time to eat after sitting down for school meals and will schedule meal periods at appropriate times during the school day.
10. The school district will discourage tutoring, club, or organizational meetings or activities during mealtimes unless students may eat during such activities.

B. School Food Service Program/Personnel

1. The school district shall designate an appropriate person to be responsible for the school district's food service program, whose duties shall include the creation of nutrition guidelines and procedures for the selection of foods and beverages made available on campus to ensure food and beverage choices are consistent with current USDA guidelines.

2. As part of the school district's responsibility to operate a food service program, the school district will provide continuing professional development for all food service personnel in schools.

C. Competitive Foods and Beverages

1. All foods and beverages sold on school grounds to students, outside of reimbursable meals, are considered "competitive foods." Competitive foods include items sold a la carte in the cafeteria, from vending machines, school stores, and for in-school fundraisers.
2. All competitive foods will meet the USDA Smart Snacks in School (Smart Snacks) nutrition standards and any applicable state nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.
3. Before and Aftercare (child care) programs must also comply with the school district's nutrition standards unless they are reimbursable under USDA school meals program, in which case they must comply with all applicable USDA standards.

D. Other Foods and Beverages Made Available to Students

3. Fundraising. The school district will make available to parents and teachers a list of suggested healthy fundraising ideas.

E. Food and Beverage Marketing in Schools

1. School-based marketing will be consistent with nutrition education and health promotion.
2. Schools will restrict food and beverages marketing to the promotion of only those foods and beverages that meet the Smart Snacks nutrition standards.

V. **WELLNESS LEADERSHIP AND COMMUNITY INVOLVEMENT**

A. Wellness Coordinator

[Note: The Act requires that local school wellness policies identify the position of the local education agency or school official(s) responsible for the implementation and oversight of the local school wellness policy.]

1. The superintendent will designate a school district official to oversee the school district's wellness-related activities (Wellness Coordinator). The Wellness Coordinator will ensure that each school implements the policy.
2. The principal of each school, or a designated school official, will ensure compliance within the school and will report to the Wellness Coordinator regarding compliance matters upon request.

B. Public Involvement

[Note: The Act requires a description of the manner in which parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the general public are provided an opportunity to participate in the development, implementation, and periodic review and update of the local school wellness policy.]

1. The Wellness Coordinator will permit parents, students, representatives of the school food authority, teachers of physical education, school health professionals, the school board, school administrators, and the general public to participate in the development, implementation, and periodic review and update of the wellness policy.

[Note: Per Minnesota Statutes section 121A.215, when available, a school district must post its current local school wellness policy on its website.]

B. Annual Reporting

[Note: The Act requires that school districts inform the public about the content and implementation of the local wellness policy and make the policy and any updates to the policy available to the public on an annual basis.]

The Wellness Coordinator will annually inform the public about the content and implementation of the wellness policy and make the policy and any updates to the policy available to the public.

C. Triennial Assessment

[Note: The Act requires a triennial assessment of schools' compliance with the wellness policy. The Act also requires school districts to inform the public

about progress toward meeting the goals of the wellness policy by making the triennial assessment available to the public in an accessible and easily understood manner.]

1. At least once every three years, the school district will evaluate compliance with the wellness policy to assess the implementation of the policy and create a report that includes the following information:
 - a. the extent to which schools under the jurisdiction of the school district are in compliance with the wellness policy;
 - b. the extent to which the school district's wellness policy compares to model local wellness policies; and
 - c. a description of the progress made in attaining the goals of the school district's wellness policy.
2. The Wellness Coordinator will be responsible for conducting the triennial assessment.
3. The triennial assessment report shall be posted on the school district's website or otherwise made available to the public.

D. Recordkeeping

[Note: The Act requires school districts to retain records to document compliance with the requirements of 7 Code of Federal Regulations section 210.30.]

1. The school district's written wellness policy.
2. Documentation demonstrating compliance with community involvement requirements, including requirements to make the local school wellness policy and triennial assessments available to the public.
3. Documentation of the triennial assessment of the local school wellness policy for each school under the school district's jurisdiction efforts to review and update the wellness policy (including an indication of who is involved in the update and methods the school district uses to make stakeholders aware of their ability to participate on the Wellness Committee).

1. All students will be required to demonstrate essential skills to effectively participate in lifelong learning.* These skills include the following:

[Note: School district and site goals example courtesy of the Winona School District.]

- C. Every child is reading at or above grade level no later than the end of grade 3, including English learners, and teachers provide comprehensive, scientifically based reading instruction, including a program or collection of instructional practices that is based on valid, replicable evidence showing that, when the programs or practices are used, students can be expected to achieve, at a minimum, satisfactory reading progress. The program or collection of practices must include, at a minimum, effective, balanced instruction in all five areas of reading (phonemic awareness, phonics, fluency, vocabulary development, and reading comprehension), as well as instructional strategies for continuously assessing, evaluating, and communicating the student's reading progress and needs.
- 1. The school district must identify, before the end of kindergarten, grade 1, and grade 2, all students who are not reading at grade level. Students identified as not reading at grade level by the end of kindergarten, grade 1, and grade 2 must be screened for characteristics of dyslexia, unless a different reason for the reading difficulty has been identified.
 - 2. Students in grade 3 or higher who demonstrate a reading difficulty to a classroom teacher must be screened for characteristics of dyslexia, unless a different reason for the reading difficulty has been identified.

[Note: According to Minnesota statutes, dyslexia screening is to be conducted in a locally determined manner.]

- 3. Reading assessments in English and in the predominant languages of district students, where practicable, must identify and evaluate students' areas of academic need related to literacy. The school district also must monitor the progress and provide reading instruction appropriate to the specific needs of English learners. The school district must use locally adopted, developmentally appropriate, and culturally responsive assessment and annually report summary assessment results to the Commissioner of Education by July 1.
- 4. The school district must annually report to the Commissioner of Education by July 1 a summary of the district's efforts to screen and identify students who

demonstrate characteristics of dyslexia using screening tools such as those recommended by the Minnesota Department of Education's dyslexia specialist. With respect to students screened or identified under paragraph (1), the report must include:

(a) a summary of the district's efforts to screen for dyslexia;

(b) the number of students screened for that reporting year; and

(c) the number of students demonstrating characteristics of dyslexia for that year.

5. A student identified as having a reading difficulty must be provided with alternate instruction under Minnesota Statutes section 125A.56, subdivision 1.
6. At least annually, the school district must give the parent of each student who is not reading at or above grade level timely information about:
 - a. the student's reading proficiency as measured by a locally adopted assessment;
 - b. reading-related services currently being provided to the student and the student's progress; and
 - c. strategies for parents to use at home in helping their students succeed in becoming grade-level proficient in reading English and their native languages.

This provision may not be used to deny a student's right to a special education evaluation.

7. For each student who is not reading at or above grade level, the school district shall provide reading intervention to accelerate student growth and reach the goal of reading at or above grade level by the end of the current grade and school year. If a student does not read at or above grade level by the end of grade 3, the school district must continue to provide reading intervention until the student reads at grade level. Intervention methods shall encourage family engagement and, where possible, collaboration with appropriate school and community programs. Intervention methods may include, but are not limited to, requiring attendance in summer school, intensified reading instruction that may require that the student be removed from the regular classroom for part of the school day, extended day programs, or programs that strengthen students' cultural connections.

[Note: School districts are strongly encouraged, but not required, to provide personal learning plans, as provided in Paragraph 8.]

8. The school district will provide a personal learning plan for a student who is unable to demonstrate grade-level proficiency, as measured by the statewide reading assessment in grade 3. The school district will determine the format of the personal learning plan in collaboration with the student's educators and other appropriate professionals. The school district will develop the personal learning plan in consultation with the student's parent or guardian. The personal learning plan will address knowledge gaps and skill deficiencies through strategies such as specific exercises and practices during and outside of the school day, periodic assessments, and reasonable timelines. The personal learning plan may include grade retention if it is in the student's best interest. The student's school will maintain and regularly update and modify the personal learning plan until the student reads at grade level. This paragraph does not apply to a student under an Individualized Education Program.

I. PURPOSE

The purpose of this policy is to make clear to students, parents, and staff the school district's policy regarding extracurricular transportation.

II. GENERAL STATEMENT OF POLICY

The determination as to whether to provide transportation for students, spectators, or participants to and from extracurricular activities shall be made solely by the school district administration. This determination shall include, but is not limited to, the decision to provide transportation, the persons to be transported, the type or method to be utilized, all transportation scheduling and coordination, and any other transportation arrangements or decisions. Employees who are involved in extracurricular activities shall be advised by the administration as to the transportation arrangements made, if any.

III. ARRANGEMENT OF EXTRACURRICULAR TRANSPORTATION

School district employees shall not undertake independent arrangement, scheduling, or coordination of transportation for extracurricular activities unless specifically directed or approved by the school district administration. All transportation arrangements made by a school district employee must be approved by a building administrator. If the school district makes no arrangements for extracurricular transportation, students who wish to participate are responsible for arranging for or providing their own transportation.

IV. NO EMPLOYEE TRANSPORTATION OF STUDENTS WITH PERSONAL VEHICLES

An employee must not use a personal vehicle to transport one or more students except as provided herein. However, employees may make appropriate transportation arrangements for students as necessary in an emergency or other unforeseeable circumstance.

In a nonemergency situation, an employee must get prior, written approval from the administration before transporting a student in a personal vehicle. If a school vehicle is available, the employee will use the school vehicle. The administration has the sole discretion to make a final determination as to the appropriate use of a personal vehicle to transport one or more students.

If any emergency transportation arrangements are made by employees pursuant to this section, the relevant facts and circumstances shall be reported to the administration as soon thereafter as practicable.

All vehicles used to transport students shall be properly registered and insured.

V. FEES

In its discretion, the school district may charge fees for transportation of students to and from extracurricular activities conducted at locations other than school, where attendance is optional.

II. GENERAL STATEMENT OF POLICY

- A. The school board encourages interest on the part of parents and community members in school programs and student activities. The school board welcomes visits to school buildings and school property by parents and community members provided the visits are consistent with the health, education and safety of students and employees and are conducted within the procedures and requirements established by the school district.
- B. The school board reaffirms its position on the importance of maintaining a school environment that is safe for students and employees and free of activity that may be disruptive to the student learning process or employee working environment.

III. POST-SECONDARY ENROLLMENT OPTIONS STUDENTS

- A. A student enrolled in a post-secondary enrollment options course may remain at the school site during regular school hours in accordance with established procedures.
- B. A student enrolled in a post-secondary enrollment options course may be provided with reasonable access, during regular school hours, to a computer and other technology resources that the student needs to complete coursework for a post-secondary enrollment course in accordance with established procedures.

IV. RESPONSIBILITY

- A. The school district administration shall present recommended visitor and post-secondary enrollment options student procedures and requirements to the school board for review and approval. The procedures should reflect input from employees, students and advisory groups, and shall be communicated to the school community and the general public. Upon approval by the school board, such procedures and requirements shall be an addendum to this policy.
- B. The superintendent shall be responsible for providing coordination that may be

needed throughout the process and providing for periodic school board review and approval of the procedures.

V. VISITOR LIMITATIONS

- A. An individual, post-secondary enrollment options student, or group may be denied permission to visit a school or school property or such permission may be revoked if the visitor(s) does not comply with the school district procedures and regulations or if the visit is not in the best interest of students, employees or the school district.

802 DISPOSITION OF OBSOLETE EQUIPMENT AND MATERIAL

I. PURPOSE

The purpose of this policy is to provide guidelines for the superintendent to assist in timely disposition of obsolete equipment and material.

II. GENERAL STATEMENT OF POLICY

Effective use of school building space, and consideration for safety of personnel, will at times require disposal of obsolete equipment and material.

III. DEFINITIONS

- A. “Contract” means an agreement entered into by the school district for the sale of supplies, materials, or equipment.
- B. “Official newspaper” is a regular issue of a qualified legal newspaper.

IV. MANNER OF DISPOSITION

A. Authorization

The superintendent shall be authorized to dispose of obsolete equipment and materials by selling it at a fair price consistent with the procedures outlined in this policy. Any sale exceeding the minimum amount for which bids are required must first be specifically authorized by the school board. The superintendent shall be authorized to properly dispose of used books, materials, and equipment deemed to have little or no value.

B. Contracts Over \$175,000

- 1. If the value of the equipment or materials is estimated to exceed \$175,000, sealed bids shall be solicited by two weeks’ published notice in the official newspaper. This notice shall state the time and place of receiving bids and contain a brief description of the subject matter. Additional publication in the official newspaper or elsewhere may be made as the school board shall deem necessary.

2. The sale shall be awarded to the highest responsible bidder, be duly executed in writing, and be otherwise conditioned as required by law.
3. A record shall be kept of all bids, with names of bidders and amounts of bids, and an indication of the successful bid. A bid containing an alteration or erasure of any price contained in the bid which is used in determining the highest responsible bid shall be rejected unless the alteration or erasure is corrected by being crossed out and the correction printed in ink or typewritten adjacent thereto and initialed in ink by the person signing the bid.
4. In the case of identical high bids from two or more bidders, the school board may, at its discretion, utilize negotiated procurement methods with the tied high bidders so long as the price paid does not go below the high tied bid price. In the case where only a single bid is received, the school board may, at its discretion, negotiate a mutually agreeable contract with the bidder so long as the price paid does not fall below the original bid. If no satisfactory bid is received, the board may readvertise.
5. All bids obtained shall be kept on file for a period of at least one year after their receipt. Every contract made without compliance with the foregoing provisions shall be void.
6. Data submitted by a business to a school in response to a request for bids are private until opened. Once opened, the name of the bidder and the dollar amount specified become public; all other data are private until completion of the selection process, meaning the school has completed its evaluation and ranked the responses. After completion of the selection process, all data submitted by all bidders are public except trade secret data. If all responses are rejected prior to completion of the selection process, all data remain private, except the name of the bidder and the dollar amount specified which were made public at the bid opening for one year from the proposed opening date or until resolicitation results in completion of the selection process or until a determination is made to abandon the purchase, whichever occurs sooner, at which point the remaining data becomes public. Data created or maintained by the school district as part of the selection or evaluation process are protected as nonpublic data until completion of the selection or evaluation process. At that time, the data are public with the exception of trade secret data.

C. Contracts From \$25,000 to \$175,000

If the amount of the sale is estimated to exceed \$25,000 but not to exceed \$175,000, the contract may be made either upon sealed bids in the manner directed above or by direct negotiation, by obtaining two or more quotations for the purchase or sale when possible, and without advertising for bids or otherwise complying with the requirements of competitive bidding notice. All quotations obtained shall be kept on file for a period of at least one year after receipt.

D. Contracts \$25,000 or Less

If the amount of the sale is estimated to be \$25,000 or less, the contract may be made either upon quotation or in the open market, in the discretion of the school board. The sale in the open market may be by auction. If the contract is made on quotation, it shall be based, so far as practicable, on at least two quotations which shall be kept on file for a period of at least one year after receipt.

E. Electronic Sale of Surplus Supplies, Materials, and Equipment

Notwithstanding the other procedural requirements of this policy, the school district may contract to sell supplies, materials, and equipment which is surplus, obsolete, or unused through an electronic selling process in which purchasers compete to purchase the supplies, materials, or equipment at the highest purchase price in an open and interactive environment.

F. Notice of Quotation

Notice of procedures to receive quotations shall be given by publication or other means as appropriate to provide reasonable notice to the public.

G. Sales to Employees

No officer or employee of the school district shall sell or procure for sale or possess or control for sale to any other officer or employee of the school district any property or materials owned by the school district unless the property and materials are not needed for public purposes and are sold to a school district employee after reasonable public notice, at a public auction or by sealed response, if the employee is not directly involved in the auction or sale process. Reasonable notice shall include at least one week's published or posted notice. A school district employee may purchase no more than one motor vehicle from the school district at any one auction. This section shall not apply to the sale of property or materials acquired or produced by the school district for sale to the general public in the ordinary course of business. Nothing in this section shall prohibit an employee of the school district from selling or possessing for sale public property if the sale or possession for sale is in the ordinary course of business or the normal course of the employee's duties.

H. Exceptions for Surplus School Computers

1. A school district may bypass the requirements for competitive bidding and is not subject to any other laws relating to school district contracts if it is disposing of surplus school computer and related equipment, including a tablet device, by conveying the property and title to:

a. another school district;

- b. the state department of corrections;

Policy 610

Revised: _____

610 FIELD TRIPS

I. PURPOSE

The purpose of this policy is to provide guidelines for student trips and to identify the general process to be followed for review and approval of trip requests.

II. GENERAL STATEMENT OF POLICY

The general expectation of the school board is that all student trips will be well planned, conducted in an orderly manner and safe environment, and will relate directly to the objectives of the class or activity for which the trip is requested. Additional criteria to be considered include total cost to the participant and/or district, effect of absence upon scholastic performance of participating students and impact upon the overall operation of the school. The school board reserves the right to approve extended trips on an individual basis.

Student trips will be categorized within three general areas:

A. Required Instructional Trips

Trips that take place during the school day, relate directly to a course of study, and require student participation shall fall in this category. This may include walking field trips. These trips shall be subject to review and approval of the building principal and shall be financed by school district funds within the constraints of the school building budget. Students without parent permission will participate in an alternate activity with same learning objectives and credit. Fees may not be assessed against students to defray direct costs of instructional trips. (Minnesota Statutes section 123B.37, Prohibited Fees)

B. Optional Supplementary Trips

This category pertains to those trips in which students voluntarily participate and which supplement the instructional or activity program goals. Examples of trips in this category include cultural events, student activities, clubs, and other special interest groups or social activities. These trips are subject to review and approval of the principal and/or the activities director. For academic events, students without parent permission will participate in an alternate activity with the same learning objectives and credit. Financial contributions by students may be requested. (Minnesota Statutes section 123B.36)

C. Extended Trips

1. Trips that involve one or more overnight stops fall into this category. Extended trips may be instructional or supplementary and must be requested well in advance of the planned activity. An extended trip request form must be

completed and approved at each level: student, principal, superintendent, and school board. Exceptions to the approval policy may be granted or expedited to accommodate emergencies or contingencies (e.g., tournament competition).

2. The school board acknowledges and supports the efforts of booster clubs and similar organizations in providing extended trip opportunities for students.
3. Participating in overnight trips for curricular, co-curricular, or extra-curricular activities is a privilege. To insure the safety of the traveling party, participants may be subject to a search of their person or possessions by school administrators prior to boarding the transportation for an overnight trip.

III. REGULATIONS

- A. Rules of conduct and discipline for students and employees shall apply to all student trip activity.
- B. The school administration shall be responsible for providing more detailed procedures, including parental involvement, supervision, and such other factors deemed important and in the best interest of students.
- C. Transportation shall be furnished through a commercial carrier or school-owned vehicle.
- D. An employee may use a personal vehicle to transport staff or personal property for purposes of a field trip upon prior, written approval from administration.
- E. An employee must not use a personal vehicle to transport one or more students for purposes of a field trip.
 1. If immediate transportation of a student is required due to an emergency or unforeseen circumstance, such as the illness or injury of a child, and the transportation does not constitute regular or scheduled transportation, a personal vehicle may be used. To the extent a personal vehicle is used, the vehicle must be properly registered and insured.
 2. An employee must obtain pre-approval by administration of student transportation by a personal vehicle, pursuant to Section III.E.1, if practicable. If pre-approval by administration of use of a personal vehicle cannot be obtained in a reasonable time given the circumstances, an employee shall report the relevant facts and circumstances justifying the need for use of a personal vehicle to administration as soon as practicable. The relevant facts and circumstances for use of a personal vehicle shall be documented by administration.

IV. SCHOOL BOARD REVIEW

The superintendent shall at least annually report to the school board upon the utilization of trips under this policy.
