Alsea School District Bond Projects Construction Manager's Report

Report Date: March 1, 2023

GENERAL OVERVIEW

The work packages for the Electrical Upgrades and the Panel Room have been approved by the District and will be submitted to the County for permitting this week. Construction will begin the week of March 13th. That work is expected to be complete this summer except for the switch gear, which will be completed next summer.

The HVAC Upgrade GMP amendment has been received and will go before the school board next week for approval. That work will be completed this summer, when school is out. However the equipment will not be operational until next summer, when the electrical upgrade is completed.

VOC Building design is complete and permitted but is over budget and the VOC staff do not feel that it meets their needs. We are holding meetings with staff to refine the design.

PROJECT TEAM

No changes.

BUDGET

The updated Budget Summary for bond project revenue and expenses is attached. Comments on revenue and expense elements are noted below and will be updated each month as new contracts are committed.

Revenue

The current bond program revenue is \$5.1 million including ESSER and general funds committed to the specific projects, plus the OSCIM grant that doubles the value of the bond amount.

Expenses

The "Current Budget" column in Expenses shows the projected costs matched to the revenue budget including owner's contingency.

The "Committed Costs" column shows the value of work that has been contracted so far.

The "Paid to-Date" column shows the value of work that has been paid for.

SCHEDULE

An updated Master Schedule and Three Week Schedule were received today. We expect work for the Electrical Upgrade and Panel Room projects to begin the week of March 13. However, the final equipment for the Electrical Upgrade has a lead-time of about 1 year so work won't be completed until next summer. The Panel Room work should be complete this summer, and work on the other two packages should be completed by next summer. All work should be completed by the end of summer 2024.

PROJECT-SPECIFIC ACTIVITY

Information in this section will be added when project construction begins.

COMMUNICATIONS

An announcement was made on Alsea social media that IMS was contracted in January to serve as the Owner's Representative and Project Manager for the bond program.

Equity Advanced

(250 words or less per question)

- What strengths do you see in your district or school in terms of equity and access?

Alsea School District has many strengths in terms of equity and access to educational opportunities for ALL students.

- ALL high school students have access and scheduled time with the Counselor to discuss and access class, program and future opportunities that will maximize their success.
- Master scheduling minimizes access barriers for high level core and enrichment instruction,
- On-line education options are available for students to access high level core and elective classes when there are barriers to traditional course offerings.
- Students at risk are offered tutorial time with licensed staff after school, with transportation provided.

- What needs were identified in your district or school in terms of equity and access?

Alsea does have needs in terms of strengthening equity and access to educational opportunities for ALL students.

- Overall student participation and achievement data shows that we need a higher participation rate to break out data related to student focal groups.
- Upload the equity lens or tool you used to inform and/or clarify your plan & budget.

Alsea School District did consider all subgroups and focal groups when working through the Integrated Guidance process, but a formal Equity Lens adopted by the Board was not utilized.

- Describe how you used this tool in your planning.

Alsea School District did consider all subgroups and focal groups when working through the Integrated Guidance process, but a formal Equity Lens adopted by the Board was not utilized.

- District Community Engagement participation – The District participants developing our Aligning for Student Success Plan included Students, classified, licensed and administrative staff as well as representative community members who are parents, partners, and have vested

interests in our students, including those who are part of focal student groups via empathy interviews, surveys, Board meetings and Fireside Chats.

- Focal Group information was shared at each Community Engagement activity prior to discussion and input.
- Describe the potential academic impact for all students AND focal student groups based on your use of funds in your plan.
Use of these funds will have significant academic impact for ALL our students, including those in focal student groups. The following strategies and activities have been, and/or will be, implemented to support reaching desired outcomes as developed through our Needs Assessment process:
 - Strategy or Activity 1 (Hiring a Counselor) - This position will be funded using HSS dollars. Adding a Counselor addresses the need to provide students a better understanding of opportunities available to them following graduation, and what they need to do in high school to prepare themselves for those opportunities. ALL students will have access to the Counselor through scheduled appointments as well as teaching Advisory classes.
 - Strategy or Activity 2 (Providing stronger, more robust, MTSS process through PD training and scheduling) - These activities will be funded using EIS dollars. These funds will provide professional development activities for all Elementary Teachers and all Elementary Instructional Assistants who support student reading development to effectively utilize weekly PD meetings to impact student learning and growth. It also provides funding to support the dedicated time to facilitate PD meetings.
- What barriers, risks or choices are being made that could impact the potential for focal students to meet the Longitudinal Performance Growth Targets you've drafted, or otherwise experience the support or changes you hope your plan causes?

Choices being made to support student growth and achievement through the Integrated Guidance process by Alesa have great potential to impact focal students' ability to meet Longitudinal Performance Growth targets. A barrier is how to ensure those targets are realistic and are used to impact student growth.

- Strategy or Activity 1 - Work with ODE to develop targets and strategies for LPGTs
- Strategy or Activity 2 - Utilize PD time to develop teachers understanding and effectiveness at using data and LPGTs to impact student learning
- What policies and procedures do you implement to ensure activities carried out by the district do not isolate or stigmatize children and youth navigating homelessness?
 - Transportation (including an after school activity bus) is provided for ALL students
 - Free Breakfast and Lunch are provided for ALL students
 - Alesa utilizes the following supports to provide information to children, youth and families navigating homelessness.
 - Family Outreach Coordinator provides support for students through direct services, and support for staff through trainings, that are trauma-informed and sensitive to the special needs of homeless students and families.
 - Title I set-aside dollars

CTE Focus (ASK DALE MOON FOR SUPPORT)

- What strengths do you see in your CTE Programs of Study in terms of equity and access?
 - Our Forestry program of study is currently in the development and implementation stage. This positions us to be very intentional as we consciously design our programming with focal groups as a point of emphasis. We're working to identify, plan for and implement strategies that create an equitable pathway for all students to have access to quality and equitable learning. The Forestry/Natural Resources industry has historically been an area of underserved access for focal groups and our programming is being designed with places, spaces, classes and equipment that seek ways to create inclusivity and eliminate barriers. Frankly, our instructor is incredibly focused on creating a positive, safe, inclusive and engaging learning environment for ALL students to thrive.

- What needs were identified in your CTE Programs of Study in terms of equity and access?
 - We need different types of equipment that can accommodate different physical needs and skill levels.
 - We need to refine our physical spaces to accommodate accessibility and interest levels.
 - We need those physical spaces to be more inviting, interesting, engaging and productive.
 - We need to invest in technology and staff PD that peaks the interest of groups that may not be attracted to the historical activities in the Forestry/Natural Resources industry, IE. Drones, Heavy Equipment simulators, etc.
 - We need to be continually active in seeking partnerships and funding sources such as grants to fill gaps in equitable access to supplies and equipment for students in the programming such as PPE, boots, rain gear, etc.
 - We need to communicate VERY clearly with the families of the student participants about what activities are planned throughout the program of study. Alleviation of concerns about policies, procedures and processes will be paramount for true student engagement. The pathway to safe skill attainment from all skill starting levels will need to be clearly communicated with all program participants, including families.

- What is your recruitment strategy, and how does it ensure equitable access and participation in CTE Programs of Study?
 - We are actively researching, planning for and implementing activities that are engaging, challenging and highly rewarding in the educational process for all students. We want to offer the widest possible array of opportunities to students to find their niche in an industry that is very diverse. One current activity that has shown promising results in this area is taking our students to Forestry/Natural Resources CDE(carrier development events) that offer a first hand experience in some of the different activities relating to Forestry/Natural Resources. We plan to continue this effort and ramp it up even further with guest speakers, industry tours and partnerships with diverse local businesses.

- How will you ensure equal access and participation in your CTE Programs of Study among focal student groups? How will you ensure there is no discrimination for focal student groups?
 - As an organization it is absolutely imperative that we create a culture of openness and fairness with VERY active communication feedback loops. We must know who we are serving and how we can serve them better at all times. We are looking at ways to implement a very proactive and anonymous information gleaning mechanism. We will seek information from those who go all the way through the program of study, those

who avoid the program and those who do not complete the program after starting. This data will be incredibly valuable to refine our scope and sequencing of programming.

Well-Rounded Education

(250 words or less per question)

- Describe your approach to providing students a well-rounded education. What instructional practices, course topics, curriculum design, and student skills development are part of this approach? Describe the approaches by grade band (elementary, middle, and high).

Our district feels that students are better prepared when they have access to PE, the Arts and Career and Technical education programs. We make sure to create schedules that allow for elementary students to have PE every day as well as an introduction to art and music. Our elementary teachers incorporate the arts into daily lessons and we provide them with the professional development to do so. Our middle school and high school schedules are created so that all students have access to these types of courses, including CTE and dual-credit courses through Linn Benton Community College. While some students do need extra academic support and that takes up one of their classes in the schedule, we make sure that they can also access one elective of their choosing.

- Which disciplines (theater, visual arts, music, dance, media arts) of the arts are provided, either through an integration of content or as a separate class?

Elementary: We have hired a 1.0 FTE Teacher to provide Arts and Music education at the Elementary, Middle and High School levels.

Elementary: She meets with every K-5 class three times a week for both art and music to give them access to a better understanding of each discipline, and to see if this is something more they want to pursue as they reach middle school and high school levels in both art and music.

We are partnering elementary and middle/high school together to provide an art teacher who meets with classrooms and provides PD for our elementary teachers to incorporate art further into their lesson planning.

Middle School: She works in our middle/high school, providing a teacher for middle school music and provides a Beginning Art Class for MS/HS electives.

High School: We have opportunities for students in band, as well as the art class.

- How do you ensure students have access to strong library programs?

We partner with LBLED to provide a Licensed Librarian who works with our Library Assistants on the tools they need to help students, help teachers, and keep the library up to date with resources. The ESD provides professional development, resources, works with our curriculum team for book choice, and helps with our library computer system. We partner with the neighboring Alsea Community Library for book sharing and other resources.

- How do you ensure students have adequate time to eat, coupled with adequate time for movement and play?

There is adequate time for PE, Lunch and recess built into the master schedule at the Elementary. The Middle/High School has adequate time for PE, break and lunch built into their master schedule.

- Describe how you incorporate STEAM (Science, Technology, Engineering, Arts, and Math) instructional practices, including project-based learning, critical thinking, inquiry, and cross-disciplinary content.

Elementary: Teachers have class projects that combine STEAM aspects into their project-based lessons.

MS/HS: In science and math classes, projects include visual aids that incorporate the arts into their presentations. Science and math projects both apply critical thinking and inquiry skills, while cutting across disciplinary content.

Questions to consider:

- How does your schedule support opportunities for teachers to integrate other content areas into Math and Language Arts? (Elementary)
 - What are examples of lunch/ afterschool programs that support STEAM?
 - What are examples of curricular projects that are inquiry-based and incorporate math as well as science and engineering practices?
 - How is technology integrated in meaningful ways (simulations, creating models, etc) within other content areas?
 - What elective courses are offered that integrate components of STEAM?
 - What are examples of students being able to use art and/or technology to demonstrate learning in other content areas?
- Describe your process for ensuring the adopted curriculum (basal and supplemental) consists of a clearly stated scope and sequence of K-12 learning objectives and is aligned to all state and national standards.

By district policy, as we adopt curriculum, it needs to meet all state standards. The curriculum has a clear scope and sequence for learning objectives, which includes best teaching practices.

Describe your process for ensuring classroom instruction is intentional, engaging, and challenging for all students.

New Teacher Mentor Academy: We had 9 teachers participate in the ESD's New Teacher Academy, which focuses on how to identify and support teaching practices through observations and feedback. This differentiated support was focused on the needs of novice teachers as voiced through empathy interviews and mentor feedback.

Staff in the Learn At Home Oregon program receive 30 minutes per week of in classroom coaching that focuses on best instructional practices.

- How will you support, coordinate, and integrate early childhood education programs?

We support the pre-K program in Alsea by allowing them to use school facilities for their program needs, as well as providing lunch and transportation services for the program and its students.

The district also provided a 1.0 FTE Instructional Assistant to the program.

- What strategies do you employ to help facilitate effective transitions from middle grades to high school and from high school to postsecondary education?

Our transitions are very effective from elementary to middle school, and from middle school to high school, because we are a one-building K-12 school district. Students are familiar with all facilities in the district, and several staff members serve students K-12, and across "building" lines.

During the last week of school transition students do the "Switch-a-roo," where they go to their next year's teacher's classrooms.

Middle/High School students have an Advisory period once a week that goes over high school graduation plans and credit requirements, and what advanced class placement offerings and options are available. High school students attend field trips to multiple colleges/trade schools as part of their transitioning from high school to postsecondary education. The high school counselor helps students fill out FASFA forms and college/trade school applications.

- How do you identify and support the academic and technical needs of students who are not meeting or exceeding state and national standards, and Perkins Performance targets, particularly for focal student groups?

Staff perform weekly grade and attendance checks for ALL students. Students not meeting standards are referred to the MTSS team. The MTSS Team will complete a plan of support and success to address the individual needs of each student. These plans are available and provided to ALL students, with particular emphasis on those who are part of focal groups that are traditionally underserved and underrepresented.

At the end of each semester we offer a J-Term where students take four classes per day for two weeks to focus on supporting students who are not meeting class standards in core subjects of math, science, language arts and social studies.

- What systems are in place for supporting the academic needs of students, including for focal student groups, who have exceeded state and national standards?

At the end of each semester we offer a J-Term where students take four classes per day for two weeks to focus on supporting students who are not meeting class standards in core subjects of math, science, language arts and social studies. Students who are meeting and exceeding the standards have high interest elective offerings available as class choices.

Students are able to take advanced placement courses and dual credit college courses through Linn Benton Community College.

We have an established process for identifying TAG students by data review of MAPS, and other student data. Our TAG coordinator develops the plan with the student and parents. The plan is reviewed yearly.

Well-Rounded Education

CTE Focus (ASK DALE MOON FOR SUPPORT)

- How do you provide career exploration opportunities, including career information and employment opportunities, and career guidance and academic counseling before and during CTE Program of Study enrollment?
 - We have conversations about “What comes next” very often with our student groups.
 - We offer access to the CIS program AND YouScience which is interest and aptitude based. These programs offer a very wide array of insights and opportunities to our students about possible careers.
 - We schedule and facilitate tours of local colleges and universities
 - We take our students to career fairs when available and routinely seek business partnerships for direct industry connections.

- How will students from focal groups and their families learn about CTE course offerings and Programs of Study that are available?
 - Once our programming is fully established and operating it will be very important to communicate with our communities served through open houses, publications, career events and student/peer recruiting involvement.

- How are you providing equitable work-based learning experiences for students?
 - We are committed to finding and establishing real and relevant relationships with individuals, industry connections and business partners who can bring real world advice, experiences and training to our students. The tie-in of classroom training/learning to application in the real world is absolutely essential in creating a highly impactful learning environment through the program of study. This is where the “tools” in the toolbox get applied and refined.

- Describe how students’ academic and technical skills will be improved through integrated, coherent, rigorous, challenging and relevant learning in subjects that constitute a well-rounded education, including opportunities to earn postsecondary credit while in high school.
 - This is the epitome of what the educational process should be. We are actively refining our processes to identify where we can connect our current programming with our planned future programming to bring this sort of exacting and relevant experience to our students.

- What activities will you offer to students that will lead to self-sufficiency in identified careers?
 - It’s a goal of the programming to find and facilitate real world applications of skills in identified career choices through internships, apprenticeships and/or higher education.

- How will you prepare CTE participants for non-traditional fields?
 - Through the equity and accessibility lens it has been identified that we need to include technology, computer sciences, and highly skilled training in our programming on various levels. The scope and sequence of this effort is to send educational staff to PD for

training and certifications in various technology driven fields to then pass those skills to the students.

- Describe any new CTE Programs of Study to be developed.
 - Our organization has many goals to expand our CTE offerings in Alsea but the next program of study in line to be implemented is a Culinary Arts program. We currently have highly qualified personnel on staff that can lead a very impactful and highly rewarding Culinary Arts program of study.
 - After the Culinary Arts program of study implementation the next targeted program would be a Digital Arts program of study. We too have current staff for this career cluster that could lead a highly impactful and rewarding program.

Engaged Community

(250 words or less per question)

- If the goal is meaningful, authentic, and ongoing community engagement, where are you in that process? What barriers, if any, were experienced and how might you anticipate and resolve those issues in future engagement efforts?

Community engagement for this process went well and was inclusive. There is still work to do to solidify this process into future district practice. Some on-going methods for obtaining input from students, staff and the community include "Fireside Chats" with staff and the Superintendent, continuing to solicit input at Board meetings, and continuing to implement student, staff and community surveys, including student empathy interviews.

Student and staff surveys had high response rates, but one barrier included the number of parent/community surveys that were returned. The survey was sent out twice and the community only had 2 and 8 responses, respectively.

In the future we may limit the number of survey questions to decrease the time it takes to respond, and elicit more responses.

- What relationships and/or partnerships will you cultivate to improve future engagement?

We will continue to cultivate partnerships with:

- The Booster Club to promote participation in school events and activities
- The Community Library
- ACE - Alsea Community Efforts to promote school events and activities
- The community by employing a Public Information Officer, to enhance communications between the school and community

- What resources would enhance your engagement efforts? How can ODE support your continuous improvement process?

Funds to pay for the district's Public Information Officer and other continuing community outreach initiatives.

- How do you ensure community members and partners experience a safe and welcoming educational environment?

We provide a welcoming environment that includes a check-in procedure at the front office for all visitors.

- If you sponsor a public charter school, describe their participation in the planning and development of your plan.

As a Charter District we review and reflect on our charter plan each year to ensure alignment with our community's goals and expectations.

- Who was engaged in any aspect of your planning processes under this guidance?

Evidence of Engagement

You will be asked to upload your **top five artifacts** of engagement. Smaller districts, as outlined above, are required to submit their top two artifacts.

- Why did you select these particular artifacts to upload with your application? How do they show evidence of engaging focal student populations, their families, and the community?

The five artifacts chosen to upload include:

- Staff survey
- Community Survey
- Student Survey
- Agenda for Staff Review Meeting
- Agenda for Fireside Chat/Community Review Meeting

These artifacts were chosen because they demonstrate communication between ALL invested parties within the district. These efforts also yielded input that was invaluable to the development of this plan. These artifacts also demonstrate inclusion of focal student population engagement.

Examples: Graphs that show the groups involved in the survey, answers to specific survey questions, pictures from a group event showing how it was for a focal group

- Describe at least two strategies you executed to engage each of the focal student groups and their families present within your district and community. Explain why those strategies were used and what level of the Community Engagement spectrum these fell on.

Two strategies used to engage focal student groups and their families were targeted empathy interviews with focal group students, and the inclusion of focal group student families in the community survey process.

Empathy interviews allowed students to share how our changes utilizing SIA dollars has or has not affected them or their friends directly. It allowed us to better pinpoint the needs of our students. We would rate this community engagement at the level of "Consult and Involve" as all of the community had the opportunity to provide input, and was meaningfully engaged in the process. The limited number of responses moves this further toward Consult than Involve.

- Describe at least two strategies you executed to engage staff. Explain why those strategies were used. Explain why those strategies were used and what level of the Community Engagement spectrum these fell on.

Two strategies for engaging staff included an all staff survey as well as a “Plan Review” meeting for all staff to comment on the final aspects of the proposed plan. These were used to elicit feedback from all staff members, and to receive input and feedback on the final plan for implementation. We would rate this staff engagement at the level of “Involve and Collaborate” as all staff had the opportunity to provide input, review and respond to the final outcomes and goals, and were meaningfully engaged in the process as evidenced by the high number of staff responding to the survey and attending the plan review meeting.

- Describe and distill what you learned from your community and staff. How did you apply that input to inform your planning?

Staff and community wanted to maintain CTE programs, small class sizes and counseling services for student mental health support which are included in the final plan.

Students wanted continued support for CTE programs and hands on learning projects, as well as counseling supports for mental health and college/career readiness. These items are maintained and included in the final plan.

CTE Focus (DALE MOON SUPPORT)

- How will you intentionally develop partnerships with employers to expand work-based learning opportunities for students?

Affirmation of Tribal Consultation

- If you are a district that receives greater than \$40k in Title VI funding or have 50% or more American Indian/Alaska Native Students, you are required to consult with your local tribal government. As evidence of your consultation, you will be asked to upload documentation of your meeting(s) containing signatures from tribal government representatives as well as School District representatives. As this consultation includes all aspects of the Integrated Plan you will be asked to upload the "Affirmation for Tribal Consultation" within this application.

Engaged Community

(250 words or less per question)

CTE Focus (DALE MOON SUPPORT)

- How will you intentionally develop partnerships with employers to expand work-based learning opportunities for students?
 - Open invitations to our community at large to attend informational gatherings at our facilities to bring awareness to our needs and goals.
 - Be VERY proactive with positive communication with our local community to identify possible partnership opportunities.
 - To make sure we have positioned ourselves organizationally to be proactive in providing information about liabilities and coverage for our student participants to address and alleviate potential industry partner concerns.
 - Student surveys to glean possible industry ties to our current student population
 - Staff surveys to glean possible industry ties to our programming
 - Send programming staff to PD's, career fairs and networking events
 - Send programming staff to summer externships to create relevant relationships with industry connections
 - Have clearly established methods of informational input and review of the partnerships from student participants, student families, and industry partners. The feedback loop is very important for programmatic detailing and refining.

Strengthened Systems and Capacity

(250 words or less per question)

- How do you recruit, onboard, and develop quality educators and leaders? How are you recruiting and retaining educators and leaders representative of student focal groups?

New Teacher Mentor Academy: We helped develop our new teachers by pairing them with mentors who are participating in the ESD's New Teacher Mentor Academy. These mentors were provided with facilitation resources and trained on effective mentoring strategies including instructional feedback and educator social and emotional well-being.

- What processes are in place to identify and address any disparities that result in students of color, students experiencing poverty, students learning English and students with disabilities being taught more often than other students by ineffective, inexperienced, or out-of-field teachers?

Each of our schools have MTSS teams in place that meet weekly to look at data for behavior, attendance, or grades depending on the meeting. The team then works with the staff to identify what is working and what is not working for those students, and makes a plan to lead for student success.

We also have Special Education teachers in regular LA classes to support our students with reading and writing disabilities. These services are available for our brick and mortar, and on-line programs.

Administration, Teachers and Counselor meet regularly to identify students at risk of not being on track to graduate, and discuss supportive actions to address those students' needs.

- How do you support efforts to reduce the overuse of discipline practices that remove students from the classroom, particularly for focal student groups?

Our schools use practices to work through the functional/cause of the behavior, and address solutions that are not punitive in nature and address the individual student's needs.

- How do you align professional growth and development to the strengths and needs of the school, the teachers, and district leaders?

Through weekly staff meetings, areas of concerns are brought up and appropriate trainings are then developed and offered.

- How do you provide feedback and coaching to guide instructional staff in research-based improvement to teaching and learning?

Our district's administrators will participate in regular training from the Center for Educational Leadership which focuses on developing a common understanding of quality instruction through the use of effective observations and feedback.

We had 9 teachers participate in the ESD's New Teacher Academy, which focuses on how to identify and support teaching practices through observations and feedback. This differentiated support was focused on the needs of novice teachers as voiced through empathy interviews and mentor feedback.

- What systems are in place to monitor student outcomes and identify students who may be at risk of academic failure? How do you respond and support the student(s) when those identifications and observations are made?

In K-8, MTSS teams meet on a weekly basis to identify students of concern, and who may be at risk of academic failure due to attendance, behavior or coursework. The team then develops a success plan individualized for each student.

In the HS students of concern are brought to the attention of administration and counselors, who then work with classroom teachers to develop a success plan individualized for each student, in consultation with the student and family.

- How do you facilitate effective transitions between early childhood education programs and local elementary school programs; from elementary to middle grades; from middle grades to high school; and from high school to postsecondary education?

At each transitional level, care is taken to provide ample and clear communication with both parents and students. At the Early Childhood to Kindergarten level we provide a Kindergarten Round-up where families are invited to come to their school to see the building, their classrooms, and meet the teachers. The pre-K program is located on district property. Those students use common school resources such as the playground, transportation and food services as do elementary students.

The same can be said for elementary to middle school and middle school to high school, though at each increasing level we try to provide more agency for the student and their engagement in their own education.

Because we are a one school district and campus, students have familiarity with all campus facilities.

For middle school transition the administrators and counselors provide students with information on how middle school works, and what types of classes they will be able to take. We also send this information out to families. The process from middle school to high school is very similar, and we also have multiple high school registration days for students to meet with their counselor and administrators to choose their class schedule.

For the transition from high school to post-secondary, our Counselor provides many opportunities for students to visit and meet with technical schools, colleges, and universities from around Oregon. Our local community college visits our site and provides early enrollment opportunities.

What Happens Next?

Oregon Department of Education 16

Our Plan - Tiered Approach

Tiers of Planning & Budgeting allow for nimble course changes that have been pre-considered but aren't within the current budget parameters.

In our district, these strategies and activities may be necessary if we must move to another tier in our plan.

Tier 2 options are being identified for alternative budget expenditure, where possible and potentially necessary.

Freedom of Expression

Students have a general right to freedom of expression within the school system. The district requires, however, that students exercise their rights fairly, responsibly and in a manner not disruptive to other individuals or to the educational process.

Freedom of Student Inquiry and Expression

1. Generally, students and student organizations are free to examine and discuss questions of interest to them and to express opinions publicly and privately within the school system, provided such examination and expression is fair and responsible and is not disruptive to other individuals or to the educational process. Students may support or oppose causes by orderly means which do not disrupt other individuals or the operation of the school.
2. In the classroom, students are free to examine views offered in any course of study, provided such examination is expressed in a responsible manner.

Freedom of Association

Students are free to organize associations to promote their common interests. Student organizations should be open to all students. Membership criteria may not exclude students on the basis of age, race, religion, color, national origin, disability, marital status, familial status, parental status, linguistic background, culture, socioeconomic status, capability, geographic location, sex, or sexual orientation or gender identity. Each student organization must have a staff adviser to counsel and, when necessary, supervise students in the organization. All student organizations must submit to the school a statement of purpose, criteria for membership, rules and procedures and a current list of officers. School administrators may establish reasonable rules and regulations governing the activity of student organizations.

Publications (K-8), Displays and Productions

On occasion, materials such as leaflets, newsletters, cartoons and other items including displays and productions are prepared, produced and/or distributed by students as part of the educational process and free expression in an academic community. Materials may be reviewed by the administrator or Such materials may be restricted or prohibited, however, pursuant to legitimate educational concerns. Such concerns include:

1. The material is or may be defamatory;
2. The material is inappropriate based on the age, grade level and/or maturity of the audience;
3. The material is poorly written, inadequately researched, biased or prejudiced;
4. Whether there is an opportunity for a named individual or named individuals to make a response;

5. Whether specific individuals may be identified even though the material does not use or give names;
6. The material is or may be otherwise generally disruptive to the school environment. Such disruption may occur, e.g., for example, if the material uses, advocates or condones the use of profane language or advocates or condones the commission of unlawful acts;
7. Students, parents and members of the public might reasonably perceive the materials to bear the sanction or approval of the district.

High School Student Journalists

Generally, high school student journalists have the right to exercise freedom of speech and of the press in school-sponsored media. "School-sponsored media" means materials that are prepared, substantially written, published or broadcast by student journalists; that are distributed or generally made available, either free of charge or for a fee, to members of the student body; and that are prepared under the direction of a student media adviser. School-sponsored media does not include media intended for distribution or transmission solely in the classrooms in which they are produced.

School-sponsored media prepared by student journalists are subject to reasonable time, place and manner restrictions, pursuant to state and federal law. School-sponsored media cannot contain material that:

1. Is libelous or slanderous;

 - a. The commission of unlawful acts on or off school premises;
 - b. The violation of district policies; or
 - c. The material and substantial disruption of the orderly operation of the school. A school official will base a forecast of material and substantial disruption on specific facts, including past experience in the school and current events influencing student behavior, and not on undifferentiated fear or apprehension.

Modifications or removal of items may be appealed in writing to the superintendent. The superintendent shall schedule a meeting within three school days of receiving the written appeal. Those present at the meeting shall include the individual(s) making the appeal, the individual(s) who made the decision to modify or remove materials and the superintendent. At the superintendent's discretion, the district's legal counsel may also attend the meeting. The superintendent shall make ~~his/her~~ decision within three school days of the meeting.

Relations with Home-Schooled Students**

The Board recognizes the rights of parents to teach their children at home and acknowledges the education service district's role in registering and monitoring test results for students who are being taught at home.

Further, the Board is willing to assist parents in this endeavor if a request is made through the superintendent. The district will furnish basic course descriptions, state standards for elementary and secondary education, and, when available, may furnish basic instructional materials upon deposit of a loss/damage fee.

Students may, upon parent request, be allowed to participate in district programs such as physical education programs, instrumental and vocal music programs or other selected options if space and materials are available. Some classes may require testing or other certification of preparedness before enrollment will be permitted. Students enrolled under this policy must adhere to regular attendance procedures as established by the school and must avoid disruption of said programs.

Students who do not adhere to district, school or classroom behavioral and academic standards will be subject to district and school policies that govern these areas. Sanctions for failure to adhere to these policies may include suspension or expulsion from school programs or activities.

Parents are responsible for transportation for students attending selected school offerings.

Only courses recognized by the state of Oregon will earn credits toward a diploma. The Board reaffirms its prerogative not to accept home instruction course credit toward graduation requirements.

Home-schooled students may participate in interscholastic activities if the following criteria are met:

1. The student is in compliance with all rules governing home schooling and can provide acceptable documentation of compliance to the district;
2. The student can meet the district eligibility requirements except the district or class attendance requirements;
3. Students need to meet class requirements of the voluntary association administering the interscholastic activities;
4. The student can achieve the minimum score on an examination from the list adopted by the State Board of Education. The minimum composite test score that a student must achieve shall place the student at or above the 23rd percentile based on national norms. The examination shall be taken at the end of the school year. (Students may participate while awaiting test results.);
5. The parent shall submit the examination results to the district; or the district may adopt alternative requirements, in consultation with the parent, that a student must meet to participate in

interscholastic activities, including, but not limited to, a requirement that a student submit a portfolio of work samples to the district for review to determine whether a student is eligible to participate in interscholastic activities;

6. The student must fulfill the same responsibilities and standards of behavior and performance including related class or practice requirements of other students participating in the interscholastic activity. The student must meet the same standards for acceptance on the team or squad. The student must also comply with all public school requirements during the time of participation;
7. The student must reside in the attendance boundaries of the school for which the student participates.

Site Councils

~~The overall purpose of shared decision making is to enhance student achievement through both improvement of the instructional program and delivery of support services.~~

~~Shared decision making is part of site-based decision making. It is a process, not an end in itself. Site-based decision making provides an opportunity for members of a school community to collaborate, where appropriate, in solving problems, defining goals and shaping direction for an individual school or unit.~~

~~The district encourages the collaborative work of shared decision making. Thus, Site Councils and/or district site committees are supported.~~

The Board directs the superintendent to encourage community involvement in shared decision making and to foster the collaborative efforts of district personnel, students, parents and community members through 21st Century Schools Councils at each school site.

Additionally, the Board may, as deemed necessary for assisting in the administration of grants or for coordination of districtwide programs, establish a 21st Century Schools Council and/or other special committees at the district level for specific projects or issues.

The establishment and charge of a 21st Century Schools Council shall not interfere with the duties, responsibilities and rights of the duly elected Board.

Site Council Members

A 21st Century Schools Council, i.e., site council, shall be composed of teachers, parents, classified employees and administrators or their designees as follows:

1. Not more than half of the members shall be teachers;
2. Not more than half of the members shall be parents or guardians of students attending that school;
3. At least one member shall be a classified employee;
4. One member shall be an administrator or designee.

Other members may be designated by the site council from district patrons that include but are not limited to, local school committee members, business leaders, students and members of the community-at-large.

Selection

The members of a 21st Century Schools Council shall be selected as follows:

1. Teachers shall be licensed teachers elected by licensed teachers at the school site;

2. Classified employees shall be elected by classified employees at the school site;
3. Parents shall be selected by parents of students attending the school, by a process to be defined by the Board; and
4. Others shall be selected by the council.

Duties

The duties of the 21st Century Schools Council shall include, but not be limited to:

1. The development of plans to improve the professional growth of the school's staff;
2. The improvement of the school's instructional program;
3. The development and coordination of plans for the implementation of programs at the school in accordance with Oregon's Educational Act for the 21st Century;
4. The administration of grants-in-aid for the professional development of teachers and classified employees.

If the Board determines that a school site is unable to fulfill the requirement of the 21st Century Schools Council as outlined in this policy, or if the needs of a school site require a different composition, the Board shall establish the 21st Century Schools Council in a manner that best meets the educational needs of the district. The 21st Century Schools Council may request a waiver of Board policy. A waiver request must be submitted in writing to the superintendent. The superintendent will submit the waiver request and his/her recommendation to the Board for final approval. A policy waiver request will be considered based on the district's mission statement, philosophy, Board-adopted goals and effective schooling tenets.

All 21st Century Schools Council decisions are subject to superintendent and Board review and approval, respectively. In no case will a 21st Century Schools Council, i.e., site council, abrogate any provision of the district's collective bargaining agreements, district contracts or Board policy.

All 21st Century Schools Council meetings shall follow the notice, meeting and record-keeping requirements of the Public Records and Meetings Law.

Teaching About Religion

~~The district believes that the teaching of any sectarian view or religious doctrine is not the responsibility of the school. In accordance with the U.S. Constitution, U.S. Supreme Court decisions and the laws of the state of Oregon, the teaching of sectarian religion in the public schools is forbidden. A district must maintain strict neutrality, neither aiding nor opposing religion. Therefore, such instruction is prohibited in the district.~~

~~Teachers should recognize and respect various alternative beliefs. Students should be advised that it is their responsibility, as informed citizens, to have sectarian ideas and other religious beliefs explained to them by theological experts. The neutrality requirement suggests an ongoing search for sensitivity, understanding, appreciation and factual information about cultural and religious diversity. It also mandates that schools refrain from advocacy of a particular religious position.~~

~~Religion influences many areas of education such as literature and history. Religion's role in civilization can and should be properly taught. Teachers may provide information and opportunity for students to study the forms of various religions. It is proper for teachers to teach about religion as opposed to teaching sectarian beliefs, although study of the Bible and other sacred documents as literary forms may inform students concerning particular sectarian belief.~~

~~Teachers shall not advocate, openly or covertly or by subtlety, a particular religion or religious belief.~~

~~If a parent objects to his/her student being exposed to certain ideas, teachings or knowledge or not being exposed to certain ideas, teachings or knowledge, the district has policies that allow the parent to exercise one or both of two options:~~

- ~~1. The district allows for released time for students to take part in religious instruction;~~
- ~~2. The district allows for the option of excluding students from any curriculum parents find objectionable.~~

~~The regular instructional program and the exercise of these options provides reasonable educational opportunities for all students.~~

~~Teachers shall be permitted to teach or present to students information concerning religions and religious beliefs, but teachers shall not promote or inhibit, openly or covertly or by subtlety, a particular religion, religious belief or nonreligious belief.~~

~~Students and staff members may be excused from participating in programs or activities which are contrary to their religious beliefs without penalty.~~

Recognition of Religious Beliefs and Customs

(OSBA has removed this policy from its samples, replaced with IGAC)

It is accepted that no religious belief or nonbelief should be promoted by the district or its employees, and none should be disparaged. Instead, the district should utilize its opportunity to foster understanding and mutual respect among students and parents, whether it involves race, culture, economic background or religious beliefs. In the spirit of tolerance, students and staff members will be excused from participating in practices which are contrary to their religious beliefs without penalty.

The district recognizes that one of its educational goals should be to advance the students' knowledge and appreciation of the role that religious heritage has played in the social, cultural and historical development of civilization.

Observances of Religious Holidays

The practice of the district shall be as follows:

1. The several holidays throughout the year which have a religious and secular basis should be observed in the public schools;
2. The historical and contemporary values and the origin of religious holidays should be explained in an unbiased and objective manner without sectarian indoctrination;
3. Music, art, literature and drama having religious themes or bases are permitted and encouraged as part of the curriculum for school-sponsored activities and programs if presented in a prudent and objective manner and as a traditional part of the cultural and religious heritage of the particular holiday;
4. The use of religious symbols such as a cross, Menorah, crescent, Star of David, creche, symbols of Native American religions or other symbols that are a part of a religious holiday is permitted as a teaching aid or resource provided such symbols are displayed as an example of the cultural and religious heritage of the holiday and are temporary in nature. These holidays include Christmas, Easter, Passover, Hanukkah and Thanksgiving;
5. The district's calendar should be prepared to minimize conflicts with religious holidays of all faiths.

Religion in the Curriculum

1. The district supports the inclusion of religious literature, music, drama and the arts in the curriculum and in school activities provided it is intrinsic to the learning experience in the various fields of study and is presented objectively.
2. The emphasis on religious themes in the arts, literature and history should be only as extensive as necessary for a balanced and comprehensive study of these areas. Such studies should never foster any particular religious tenets or demean any religious beliefs.
3. As curriculum and instruction includes theories, views and precepts, they will be represented as such, not as fact.
4. Student-initiated expressions to questions or assignments which reflect their beliefs or nonbeliefs about a religious theme shall be accommodated. For example, students are free to express religious belief or nonbelief in compositions, art forms, music, speech and debate.

Traditional Observances

Traditions are a cherished part of the community life and the district expresses an interest in maintaining those traditions which have had a significance to the community. Such ceremonies should recognize the religious pluralism of the community.

Therefore, the practice of the district shall be as follows:

1. Because the baccalaureate service is traditionally religious in nature, it should be sponsored by the graduating senior class and the clergy of the community, separate from the district. Said service may be held on or in school property, conforming to the current community use policy;
2. A memorial service of like observance should recognize the religious pluralism of the community.

Moral and Spiritual Training

The district is vitally concerned that teaching of moral and ethical values be part of the fabric of public education.

Religious institutions and orientations are central to human experience, past and present. They are the basis for much of the accepted moral and ethical behavior of today. The district recognizes the importance of the religious heritage of America and respects the religious belief of those in the district. An education excluding such a significant aspect would be incomplete. It is essential that the teaching **about** - and not of - religion be conducted in a factual, objective and respectful manner.

These records also serve as an important source of information to assist students in seeking productive employment and/or post-high school education.

The district shall maintain confidential education records of students in a manner that conforms with state and federal laws and regulations.

Information recorded on official education records should be carefully selected, accurate, verifiable and should have a direct and significant bearing upon the student’s educational development.

The district annually notifies parents or adult students that it forwards educational records requested by an educational agency or institution in which the student seeks to enroll or receive services, including special education evaluation services.

~~The district may impose certain restrictions and/or penalties until those fees, fines or damages are paid. Records requested by another district to determine a student’s appropriate placement may not be withheld. Students or parents will receive written notice at least 10 days in advance of any restrictions and/or penalties to be imposed until the debt is paid. The notice will include the reason the student owes money to the district, an itemization of the fees, fines or damages owed and the right of parents to request a hearing. The district may pursue fees, fines or damages through a private collection agency or other method available to the district. The district may waive fees, fines and charges if the student or parents cannot pay, the payment of the debt could impact the health and safety of the student or if the cost of collection would be more than the total collected or there are mitigating circumstances, as determined by the superintendent.~~

The district shall comply with a request from parents or an adult student to inspect and review records without unnecessary delay. The district provides to parents of a student with a disability or to an adult student with a disability the opportunity at any reasonable time to examine all of the records of the district pertaining to the student’s identification, evaluation, educational placement and free appropriate public education. The district provides parents or an adult student, on request, a list of the types and locations of education records collected, maintained and used by the district.

The district annually notifies parents of all students, including adult students, currently in attendance that they have to right to:

1. Inspect and review the student’s records;
2. Request the amendment of the student’s educational records to ensure that they are not inaccurate, misleading or otherwise in violation of the student’s privacy or other rights;

3. Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the student educational record rules authorize disclosure without consent. (See Board policy JOB – Personally Identifiable Information);
4. File with the U.S. Department of Education a complaint concerning alleged failures by the district to comply with the requirements of the Family Educational Rights and Privacy Act; and
5. Obtain a copy of the district's education records policy.

Regarding records to be released to district officials within the agency, the district's notice includes criteria for determining legitimate educational interest and the criteria for determining which school officials within the agency have legitimate educational interests. School officials may also include a volunteer or contractor who performs an institutional service on behalf of the school.

The district annually notifies parents and adult students of what it considers to be directory information and the disclosure of such. (See Board policy JOA – Directory Information).

The district shall give full rights to education records to either parent, unless the district has been provided legal evidence that specifically revokes these rights. Once the student reaches age 18 those rights transfer to the student.

A copy of this policy and administrative regulation shall be made available upon request to parents and students 18 years of age or older or an emancipated student and the general public.

Records requested by another district to determine a student's appropriate placement may not be withheld.

- d. Records on a student who is 18 years of age or older, or is attending an institution of ~~post-secondary~~~~postsecondary~~ education, that are:
 - (1) Made or maintained by a physician, psychiatrist, psychologist or other recognized professional or paraprofessional acting in ~~their~~~~his/her~~ professional capacity or assisting in a paraprofessional capacity;
 - (2) Made, maintained or used only in connection with treatment of the student; and
 - (3) Disclosed only to individuals providing the treatment. For purposes of this definition, "treatment" does not include remedial educational activities or activities that are part of the program of instruction at the district.
- e. Records that only contain information relating to activities in which an individual engaged after ~~they are~~~~he/she~~ is no longer a student at the district;
- f. Medical or nursing records which are made or maintained separately and solely by a licensed health-care professional who is not employed by the district, and which are not used for education purposes or planning.

The district shall keep and maintain a permanent record on each student which includes the:

- a. Name and address of ~~the~~ educational agency or institution;
- b. Full legal name of the student;
- c. Student birth date and place of birth;
- d. Names of parents;
- e. Date of entry in school;

The request shall include notification to the eligible student or the student's parent(s) that the provision of the social security number is voluntary and notification of the purpose for which the social security number will be used.

The district shall retain permanent records in a minimum one-hour fire-safe place in the district, or keep a duplicate copy of the permanent records in a safe depository in another district location.

2. Confidentiality of Student Records

- a. The district shall keep confidential any record maintained on a student in accordance with OAR 581-021-0220 through 581-021-0430.

- c. Each district shall identify one official to assume responsibility for ensuring the confidentiality of any personally identifiable information.
- d. All persons collecting or using personally identifiable information shall receive training or instruction on state policies and procedures.

3. Rights of Parents and Eligible Students

The district shall annually notify parents and eligible students through the district student/parent handbook or any other means that are reasonably likely to inform the parents or eligible students of their rights. This notification shall state that the parent(s) or an eligible student has a right to:

- a. Inspect and review the student's education records;
- b. Request the amendment of the student's education records to ensure that they are not inaccurate, misleading or otherwise in violation of the student's privacy or other rights;
- c. Consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that the applicable state or federal law authorizes disclosure without consent;

If the eligible student or the student's parent(s) has a primary or home language other than English, or has a disability, the district shall provide effective notice.

These rights shall be given to either parent unless the district has been provided with specific written evidence ~~that~~ there is a court order, state statute or legally binding document relating to such matters as divorce, separation or custody that specifically revokes these rights.

When a student becomes an eligible student, which is defined as a student who has reached 18 years of age or is attending only an institution of ~~post-secondary~~ ~~postsecondary~~ education and is not enrolled in a secondary school, the rights accorded to, and the consent required of, the parents transfer from the parents to the student. Nothing prevents the district from giving students rights in addition to those given to parents.

4. Parent's or Eligible Student's Right to Inspect and Review

The district shall permit an eligible student or student's parent(s) or a representative of a parent or eligible student, if authorized in writing by the eligible student or student's parent(s), to inspect and review the education records of the student, unless the education records of a student contain information on more than one student. In that case the eligible student or student's parent(s) may inspect, review or be informed of only the specific information about the student.

The district shall comply with a request for access to records:

- a. Within a reasonable period of time and without unnecessary delay;
- b. For children with disabilities before any meeting regarding an individualized education program (IEP), or any due process hearing, or any resolution session related to a due process hearing;
- c. In no case more than 45 days after it has received the request.

The district shall respond to reasonable requests for explanations and interpretations of the student's education record.

The parent(s) or ~~an~~ eligible student shall comply with the following procedure to inspect and review a student's education record:

- a. Provide a written, dated request to inspect a student's education record; and
- b. State the specific reason for requesting the inspection.

The written request will be permanently added to the student's education record.

The district shall not destroy any education record if there is an outstanding request to inspect and review the education record.

While the district is not required to give an eligible student or student's parent(s) access to treatment records under the definition of "education records" in OAR 581-021-0220(6)(b)(D), the eligible student or student's parent(s) may, at ~~their~~ ~~his/her~~ expense, have those records reviewed by a physician or other appropriate professional of ~~their~~ ~~his/her~~ choice.

If an eligible student or student's parent(s) so requests, the district shall give the eligible student or student's parent(s) a copy of the student's education record. The district may recover a fee for providing a copy of the record, but only for the actual costs of reproducing the record unless the imposition of a fee effectively prevents a parent or eligible student from exercising the right to inspect and review the student's educational records. The district may not charge a fee to search for or to retrieve the education records of a student.

The district shall not provide the eligible student or student's parent(s) with a copy of test protocols, test questions and answers and other documents described in Oregon Revised Statutes (ORS) 192.345-501(4) unless authorized by federal law.

The district will maintain a list of the types and locations of education records maintained by the district and the titles and addresses of officials responsible for the records.

Student's education records will be maintained at the school building at which the student is in attendance except for special education records which may be located at another designated location within the district. The superintendent or his/her designee shall be the person responsible for maintaining and releasing the education records.

5. Release of Personally Identifiable Information

Personally identifiable information shall not be released without prior written consent of the eligible student or student's parent(s) except in the following cases:

- a. The disclosure is to other school officials, including teachers, within the district who have a legitimate educational interest.

As used in this section, "legitimate educational interest" means a district official employed by the district as an administrator, supervisor, instructor or staff support member; a person serving on a school board who needs to review an educational record in order to fulfill his or her professional responsibilities, as delineated by their job description, contract or conditions of employment. Contractors, consultants, volunteers or other parties to whom an agency or institution has outsourced institutional services or functions may be considered a school official provided that party performs an institutional service or function for which the district would otherwise use employees, is under the direct control of the district with respect to the use and maintenance of education records, and is subject to district policies concerning the redisclosure of personally identifiable information.

The district shall maintain, for public inspection, a listing of the names and positions of individuals within the district who have access to personally identifiable information with respect to students with disabilities.

- b. The disclosure is to officials of another school within the district;
- c. The disclosure is to authorized representatives of:

The U.S. Comptroller General, U.S. Attorney General, U.S. Secretary of Education or state and local education authorities or the Oregon Secretary of State Audits Division in connection with an audit or evaluation of federal or state-supported education programs, or the enforcement of or compliance

with federal or state-supported education programs, or the enforcement of or compliance with federal or state regulations.

- d. The disclosure is in connection with financial aid for which the student has applied or which the student has received, if the information is necessary for such purposes as to:
- (1) Determine eligibility for the aid;
 - (2) Determine the amount of the aid;
 - (3) Determine the conditions for the aid; or
 - (4) Enforce the terms and condition of the aid.

As used in this section “financial aid” means any payment of funds provided to an individual that is conditioned on the individual’s attendance at an educational agency or institution.

- e. The disclosure is to organizations conducting studies for, or on behalf of, the district to:
- (1) Develop, validate or administer predictive tests;
 - (2) Administer student aid programs; or
 - (3) Improve instruction.

The district may disclose information under this section only if disclosure is to an official listed in paragraph (c) above and who enters into a written agreement with the district that:

- (1) Specifies the purpose, scope and duration of the study and the information to be disclosed;
- (2) Limits the organization to using the personally identifiable information only for the purpose of the study;
- (3) The study is conducted in a manner that does not permit personal identification of parents or students by individuals other than representatives of the organization; and
- (4) The information is destroyed when no longer needed for the purposes for which the study was conducted.

For purposes of this section, the term “organization” includes, but is not limited to, federal, state and local agencies, and independent organizations.

- f. The district may disclose information under this section only if the disclosure is to an official listed in paragraph (c) above who is conducting an audit related to the enforcement of or compliance with federal or state legal requirements and who enters into a written agreement with the district that:
- (1) Designates the individual or entity as an authorized representative;
 - (2) Specifies the personally identifiable information being disclosed;
 - (3) Specifies the personally identifiable information being disclosed in the furtherance of an audit, evaluation or enforcement or compliance activity of the federal or state-supported education programs;
 - (4) Describes the activity with sufficient specificity to make clear it falls within the audit or evaluation exception; this must include a description of how the personally identifiable information will be used;
 - (5) Requires information to be destroyed when no longer needed for the purpose for which the study was conducted;

 - (7) Establishes policies and procedures which are consistent with Family Education Rights and Privacy Act (FERPA) and other federal and state confidentiality and privacy provisions to insure the protection of the personally identifiable information from further disclosure and unauthorized use.
- g. The disclosure is to accrediting organizations to carry out their accrediting functions;
 - h. The disclosure is to comply with a judicial order or lawfully issued subpoena. The district may disclose information under this section only if the district makes a reasonable effort to notify the eligible student or student's parent(s) of the order or subpoena in advance of compliance, unless an order or subpoena of a federal court or agency prohibits notification to the parent(s) or student;
 - i. The disclosure is to comply with a judicial order or lawfully issued subpoena when the parent is a party to a court proceeding involving child abuse and neglect or dependency matters;
 - j. The disclosure is to the parent(s) of a dependent student, as defined in Section 152 of the Internal Revenue Code of 1986;
 - k. The disclosure is in connection with a health or safety emergency. The district shall disclose personally identifiable information from an education record to law enforcement, child protective services and health-care professionals, and other appropriate parties in connection with a health and safety emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals. If the district determines that there is an articulable and significant threat, the district will document the information available at that time of determination and the rationale basis for the determination for the disclosure of the information from the educational records.

In making a determination whether a disclosure may be made under the health or safety emergency, the district may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. As used in this section a "health or safety emergency" includes, but is not limited to, law enforcement efforts to locate a child who may be a victim of kidnap, abduction or custodial interference and law enforcement or child protective services efforts to respond to a report of child abuse or neglect pursuant to applicable state law, or other such reasons that the district may in good faith determine a health or safety emergency;-

- l. The disclosure is information the district has designated as "directory information" (See Board policy JOA – Directory Information);
- m. The disclosure is to the parent(s) of a student who is not an eligible student or to an eligible student;
- n. The disclosure is to officials of another school, school system, institution of ~~post-secondary~~ ~~postsecondary~~ education, an education service district (ESD), state regional program or other educational agency that has requested the records and in which the student seeks or intends to enroll or is enrolled or in which the student receives services. The term "receives services" includes, but is not limited to, an evaluation or reevaluation for purposes of determining whether a student has a disability;
- o. The disclosure is to the Board during an executive session pursuant to ORS 332.061;-
- p. The disclosure is to a caseworker or other representative, who has the right to access the student's case plan, of a state or local child welfare agency or tribal organization that are

legally responsible for the care and protection of the student, provided the personally identifiable information will not be disclosed unless allowed by law.

The district will use reasonable methods to identify and authenticate the identity of the parents, students, school officials, and any other parties to whom the district discloses personally identifiable information from educational records.

6. Record-Keeping Requirements

- a. The district shall maintain a record of each request for access to and each disclosure of personally identifiable information from the education records of each student. Exceptions to the record-keeping requirements shall include the parent, eligible student, school official or ~~his/her~~ assistant responsible for custody of the records and parties authorized by state and federal law for auditing purposes. The district shall maintain the record with the education records of the student as long as the records are maintained. For each request or disclosure the record must include:
- b. The party or parties who have requested or received personally identifiable information from the education records; and
- c. The legitimate interests the parties had in requesting or obtaining the information.

The following parties may inspect the record of request for access and disclosure to a student's personally identifiable information:

- d. The parent(s) or an eligible student;
- e. The school official or ~~his/her~~ assistants who are responsible for the custody of the records;
- f. Those parties authorized by state or federal law for purposes of auditing the record-keeping procedures of the district.

7. Request for Amendment of Student's Education Record

If an eligible student or student's parent(s) believes the education records relating to the student contain information that is inaccurate, misleading or in violation of the student's rights of privacy or other rights, ~~they/he/she~~ may ask the building level principal where the record is maintained to amend the record.

The principal shall decide, after consulting with the necessary staff, whether to amend the record as requested within a reasonable time after the request to amend has been made.

The request to amend the student's education record shall become a permanent part of the student's education record.

If the principal decides not to amend the record as requested, the eligible student or the student's parent(s) shall be informed of the decision and of ~~their/his/her~~ right to appeal the decision by requesting a hearing.

8. Hearing Rights of Parents or Eligible Students

If the building level principal decides not to amend the education record of a student as requested by the eligible student or the student's parent(s), the eligible student or student's parent(s) may request a formal hearing for the purpose of challenging information in the education record as inaccurate,

misleading or in violation of the privacy or other rights of the student. The district shall appoint a hearings officer to conduct the formal hearing requested by the eligible student or student's parent. The hearing may be conducted by any individual, including an official of the district, who does not have a direct interest in the outcome of the hearing. The hearings officer will establish a date, time and location for the hearing, and give the student's parent or eligible student notice of date, time and location reasonably in advance of the hearing. The hearing will be held within 10 working days of receiving the written or verbal request for the hearing.

The hearings officer will convene and preside over a hearing panel consisting of:

- a. The principal or ~~his/her~~ designee;
- b. A member chosen by the eligible student or student's parent(s); and
- c. A disinterested, qualified third party appointed by the superintendent.

The parent or eligible student may, at ~~their/his/her~~ own expense, be assisted or represented by one or more individuals of ~~their/his/her~~ own choice, including an attorney. The hearing shall be private. Persons other than the student, parent, witnesses and counsel shall not be admitted. The hearings officer shall preside over the panel. The panel will hear evidence from the school staff and the eligible student or student's parent(s) to determine the point(s) of disagreement concerning the records. Confidential conversations between a licensed employee or district counselor and a student shall not be part of the records hearing procedure. The eligible student or student's parent(s) has the right to insert written comments or explanations into the record regarding the disputed material. Such inserts shall remain in the education record as long as the education record or a contested portion is maintained and exists. The panel shall make a determination after hearing the evidence and make its recommendation in writing within 10 working days following the close of the hearing. The panel will make a determination based solely on the evidence presented at the hearing and will include a summary of the evidence and the reason for the decision. The findings of the panel shall be rendered in writing not more than 10 working days following the close of the hearing and submitted to all parties.

If, as a result of the hearing, the panel decides that the information in the education record is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it shall inform the eligible student or the student's parent(s) of the right to place a statement in the record commenting on the contested information in the record or stating why ~~they disagree/he/she disagrees~~ with the decision of the panel. If a statement is placed in an education record, the district will ensure that the statement:

- d. Is maintained as part of the student's records as long as the record or a contested portion is maintained by the district; and
- e. Is disclosed by the district to any party to whom the student's records or the contested portion are disclosed.

If, as a result of the hearing, the panel decides that the information is inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it shall:

- f. Amend the record accordingly; and
- g. Inform the eligible student or the student's parent(s) of the amendment in writing.

9. Duties and Responsibilities When Requesting Education Records

The district shall, within 10 days of a student seeking initial enrollment in or services from the district, notify the public or private school, ESD, institution, agency or detention facility or youth care center in which the student was formerly enrolled, and shall request the student's education records.

10. Duties and Responsibilities When Transferring Education Records

The district shall transfer originals of all requested student education records, including any ESD records, relating to the particular student to the new educational agency when a request to transfer the education records is made to the district. The transfer shall be made no later than 10 days after receipt of the request. For students in substitute care programs, the transfer must take place within five days of a request. Readable copies of the following documents shall be retained:

- a. The student's permanent records, for one year;
- b. Such special education records as are necessary to document compliance with state and federal audits, for five years after the end of the school year in which the original was created. In the case of records documenting speech pathology and physical therapy services, until the student reaches age 21 or 5 years after last seen, whichever is longer.

Note: Education records shall not be withheld for student fees, fines and charges if requested in circumstances described in ORS 326.575 and applicable rules of the State Board of Education or such records are requested for use in the appropriate placement of a student.

On any form that requests the social security number (SSN), the following statement shall appear just above the space for the SSN:

“Providing your social security number (SSN) is voluntary. If you provide it, the district will use your SSN for record-keeping, research, and reporting purposes only. The district will not use your SSN to make any decision directly affecting you or any other person. Your SSN will not be given to the general public. On the back of the same form, or attached to it, the following statement shall appear:

“OAR 581-021-0250 (1)(j) authorizes districts to ask you to provide your social security number (SSN). The SSN will be used by the district for reporting, research and record keeping. The district and Oregon Department of Education may also match your SSN with records from other agencies as follows:

The Oregon Department of Education uses information gathered from the Oregon Employment Division to learn about education, training and job market trends. The information is also used for planning, research and program improvement.

State and private universities, colleges, community colleges and vocational schools use the information to find out how many students go on with their education and their level of success.

Other state agencies use the information to help state and local agencies plan educational and training services to help Oregon citizens get the best jobs available.

Special Education - Participation in Regular Education Programs

The district ensures that to the maximum extent appropriate, students with disabilities, including students in public or private institutions or other care facilities, are educated with students who are nondisabled without disabilities.

Special classes, separate schooling or other removal of students with disabilities from the regular educational environment occurs only if the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general curriculum.

 - (3) Placement options, including instruction in regular classes, special classes, special schools, home instruction and instruction in hospitals and institutions are available to the extent necessary to implement the IEP for each student with a disability.
 - d. Placement teams, including the parent, select the least restrictive environment for each student, using the following decision-making process:
 - (1) Completion of the IEP, including determining the student's special education and related services, and determining the extent to which these services can be provided to the student in the regular class;
 - (2) If all IEP services cannot be provided in the regular class, identifying those that must be provided outside the regular class; however, the district will not remove a student from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum;
 - (3) For those services that must be provided outside the regular class, identifying where, on the continuum from least to most restrictive, the services can be provided;

- (4) Placement is in the school the student would attend if not disabled, unless another arrangement is required for implementation of the IEP;
- (5) In selecting the student's placement, the placement team considers and documents:
 - (a) All placement options considered, including placement options requested by the parent;
 - (b) Potential benefits of placement options that are considered;
 - (c) Any potential harmful effects on the student or on the quality of services that ~~the student~~ ~~the or she~~ needs; and
 - (d) Modifications and services considered to maintain the student in the least restrictive placement before concluding that a more restrictive setting is necessary.
- (6) The placement team documents the placement selected, and provides a copy of the determination to the parent;
- (7) If the selected placement is a change from previous placement, the district provides the parent with prior written notice of the change in placement; and
- (8) If the parent requests a specific placement that the team rejects, the district provides a prior written notice of refusal.

2. Youth Incarcerated in Adult Correctional Facilities

For students otherwise entitled to a free appropriate public education (FAPE), the placement team may modify the student's placement if the state has demonstrated a bona fide security or compelling penological interest that cannot be otherwise accommodated. The requirements related to least restrictive environments do not apply with respect to these modifications.

3. Nonacademic Settings

- a. The district takes steps, including providing the supplementary aids and services determined appropriate and necessary by the student's IEP team, to provide nonacademic and extracurricular services and activities in the manner necessary to afford students with disabilities an equal opportunity for participation in those services and activities.
- b. Nonacademic and extracurricular services and activities include all those available to nondisabled students and may include:
 - (1) Counseling services;
 - (2) Athletics;
 - (3) Transportation;
 - (4) Health services;
 - (5) Recreational activities;
 - (6) Special interest groups or clubs;
 - (7) Referrals to agencies that provide assistance to individuals with disabilities; and
 - (8) Employment of students.

Special Education - Individualized Education Program (IEP)**

An individualized education program (IEP) shall be developed and implemented for each student with disabilities in the district, kindergarten through 21 years of age, including those who attend a public charter school located in the district, are placed in or referred to a private school or facility by the district, or receive related services from the district. The district is responsible for initiating and conducting the meetings to develop, review and revise the IEP of a student with disabilities. The district will ensure that one or both parents are present at each meeting or are afforded the opportunity to participate and are given a copy of the IEP. A meeting to develop an IEP shall be held within 30 calendar days of a determination that the student needs special education and related services, once every 365 days thereafter and when considering a change in the IEP or placement.

If a student is to be placed or referred to a private school or facility or attends a private or parochial school, the district will ensure that a representative of the private school or facility attends the IEP meeting. If the representative of the private school or facility is unable to attend the IEP meeting, the district shall use other methods to ensure participation including but not limited to, individual or conference telephone calls, or individual meetings.

Special Education - Individualized Education Program (IEP)**

1. General IEP Information

- a. The district ensures that an IEP is in effect for each eligible student:
 - (1) Before special education and related services are provided to a student;
 - (2) At the beginning of each school year for each student with a disability for whom the district is responsible; and
 - (3) Before the district implements all the special education and related services, including program modifications, supports and/or supplementary aids and services, as identified on the IEP.
- b. The district uses:
 - (1) The Oregon standard IEP; or
 - (2) An IEP form that has been approved by the Oregon Department of Education.
- c. The district develops and implements all provisions of the IEP as soon as possible following the IEP meeting.
- d. The IEP will be accessible to each of the student's regular education teacher(s), the student's special education teacher(s) and the student's related services provider(s) and other service provider(s).
- e. The district takes steps to ensure that parent(s) are present at each IEP meeting or have the opportunity to participate through other means.
- f. The district ensures that each teacher and service provider is informed of:
 - (1) Their specific responsibilities for implementing the IEP specific accommodations, modifications and/or supports that must be provided for, or on behalf of the student; and
 - (2) Their responsibility to fully implement the IEP including any amendments the district and parents agreed to make between annual reviews.

The district takes whatever action is necessary to ensure that parents understand the proceedings of the IEP team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.

- g. The district provides a copy of the IEP to the parents at no cost.

2. IEP Meetings

- a. The district conducts IEP meetings within 30 calendar days of the determination that the student is eligible for special education and related services.
- b. The district convenes IEP meetings for each eligible student periodically, but not less than once per year.

- c. At IEP meetings, the team reviews and revises the IEP to address any lack of expected progress toward annual goals and in the general curriculum, new evaluation data or new information from the parent(s), the student’s anticipated needs, or the need to address other matters.
- d. Between annual IEP meetings, the district and the parent(s) may amend or modify the student’s current IEP without convening an IEP team meeting using the procedures in the Agreement to Amend or Modify IEP subsection.
- e. When the parent(s) requests a meeting, the district will either schedule a meeting within a reasonable time or provide timely written prior notice of the district’s refusal to hold a meeting.
- f. If an agency other than the district fails to provide agreed upon transition services contained in the IEP, the district convenes an IEP meeting to plan alternative strategies to meet the transition objectives and, if necessary, to revise the IEP.

3. IEP Team Members

- a. The district’s IEP team members include the following:
 - (1) The student’s parent(s);
 - (2) The student, if the purpose of the IEP meeting is to consider the student’s postsecondary goals and transition services (beginning for IEPs in effect at age 16), or for younger students, when appropriate;
 - (3) At least one of the student’s special education teachers or, if appropriate, at least one of the student’s special education providers;
 - (4) At least one of the student’s regular education teachers if the student is or may be participating in the regular education environment. If the student has more than one regular education teacher, the district will determine which teacher or teachers will participate;
 - (5) A representative of the district (who may also be another member of the team) who is qualified to provide or supervise the provision of special education and is knowledgeable about district resources. The representative of the district will have the authority to commit district resources and be able to ensure that all services identified in the IEP can be delivered;
 - (6) An individual, who may also be another member of the team, who can interpret the instructional implications of the evaluation results; and
 - (7) At the discretion of the parent or district, other persons who have knowledge or special expertise regarding the student.

b.——Student participation:

- (1) Whenever appropriate, the student with a disability is a member of the team.

- (2) If the purpose of the IEP meeting includes consideration of postsecondary goals and transition services for the student, the district includes the student in the IEP team meeting.
- (3) If the purpose of the IEP meeting includes consideration of postsecondary goals and transition services for the student, and the student does not attend the meeting, the district will take other steps to consider the student's preferences and interests in developing the IEP.

e.——Participation by other agencies:

- (1) With parent or adult student written consent, and where appropriate, the district invites a representative of any other agency that is likely to be responsible for providing or paying for transition services if the purpose of the IEP meeting includes the consideration of transition services (beginning at age 16, or younger if appropriate); and
- (2) If the district refers or places a student in an education service districtESD, state-operated program, private school or other educational program, IEP team membership includes a representative from the appropriate agencies. Participation may consist of attending the meeting, conference call or participating through other means.

4.——Agreement for Nonattendance and Excusal

- a. The district and the parent may consent to excuse an IEP team member from attending an IEP meeting, in whole or in part, when the meeting involves a discussion or modification of team member's area of curriculum or service. The district designates specific individuals to authorize excusal of IEP team members.
- b. If excusing an IEP team member whose area is to be discussed at an IEP meeting, the district ensures:
 - (1) The parent and the district consent in writing to the excusal;
 - (2) The team member submits written input to the parents and other members of the IEP team before the meeting; and
 - (3) The parent is informed of all information related to the excusal in the parent's native language or other mode of communication according to consent requirements.

5.——IEP Content

- a. In developing the IEP, the district considers the student's strengths, the parent's concerns, the results of the initial or most recent evaluation, and the academic, developmental and functional needs of the student.
- b. The district ensures that IEPs for each eligible student includes:
 - (1) A statement of the student's present levels of academic achievement and functional performance that:
 - (a) Includes a description of how the disability affects the progress and involvement in the general education curriculum;

The goals and, if appropriate, objectives:
- (a) Meet the student's needs that are present because of the disability, or because of behavior that interferes with the student's ability to learn, or impedes the learning of other students;
 - (b) Enable the student to be involved in and progress in the general curriculum, as appropriate; and
 - (c) Clearly describe the anticipated outcomes, including intermediate steps, if appropriate, that serve as a measure of progress toward the goal.

 - (b) If the IEP team determines that the student will take ~~the~~ an alternate assessment in ~~in~~ ~~any area~~ instead of ~~the~~ a regular ~~statewide~~ ~~state~~ or a ~~districtwide~~ ~~district-wide~~ assessment, a statement of why the student cannot participate in the regular assessment and why the alternate assessment ~~selected~~ is appropriate for the student.
- (6) A statement describing how the district will measure student's progress toward completion of the annual goals and when periodic reports on the student's progress toward the annual goals will be provided.

4. Individualized COVID-19 Recovery Services¹

Individualized COVID-19 Recovery Services are defined as those services determined necessary for eligible students based on the unique needs that arise from their disability due to the impact of the COVID-19 pandemic, which may include but are not limited to:

- a. Special education and related services;
- b. Supplementary aides and services;
- c. Additional or intensified instruction;
- d. Social emotional learning support; and
- e. Peer or adult support.

The IEP team for each eligible student shall consider the need for Individualized COVID-19 Recovery Services at least at each initial IEP meeting and each regularly scheduled annual review meeting.

- f. IEP teams shall consider the impact COVID-19 on the eligible student's ability to engage in their education, develop and re-establish social connections with peers and school personnel, and adapt to the structure of in-person learning.
- g. For initial IEPs, IEP teams shall also review the impact of COVID-19 on the eligible student's initial evaluation timeline and eligibility determination in considering the need for Individualized COVID-19 Recovery Services.
- h. For annual reviews, IEP teams shall also consider the impact of COVID-19 on the implementation of the eligible student's IEP considering the need for Individualized COVID-19 Recovery Services.

Any member of the IEP team, including parents and eligible students, may request that the IEP team meet to review the need for Individualized COVID-19 Recovery Services at any time.

- i. IEP teams are not required to meet more than once annually to consider the need for Individualized COVID-19 Recovery Services unless updated information indicates the eligible student's circumstances have changed or there is reason to suspect that the eligible student may need any additions or modifications to their Individualized COVID-19 Recovery Services.
- j. IEP teams that considered the need for Individualized COVID-19 Recovery Services at an initial IEP or annual review meeting on or after June 24, 2021 shall review the need for Individualized COVID-19 Recovery Services at the next annual review, but are not required to do so before then unless the eligible student's circumstances have changed or there is reason to suspect that the eligible student may need any additions or modifications to their Individualized COVID-19 Recovery Services.

When Individualized COVID-19 Recovery Services are recommended, the eligible student's IEP must be updated to reflect the recommendation.

The district or program shall provide written notice to the parents of each eligible student regarding the opportunity for the IEP team to meet to consider Individualized COVID-19 Recovery Services.

¹ The requirements of this section are in effect until July 1, 2023 unless extended by the State Board of Education.

After each determination is made, the district or program shall provide written notice to the parent and/or adult student with a disability regarding the determination of need for Individualized COVID-19 Recovery Services. This notice shall include the following documentation:

- k. A statement of the Individualized COVID-19 Recovery Services recommended based on the meaningful input of all IEP team members, including parents and eligible students, as appropriate;
- l. The projected dates for initiation and duration of Individualized COVID-19 Recovery Services
- m. The anticipated frequency, amount, location, and provider of the services described in item a. above and whether these services are being provided within the standard instructional day for the eligible student.

If the district and parent hold an IEP meeting to discuss the need for Individualized COVID-19 Recovery Services and do not reach an agreement regarding such services, the district and parent may request a Facilitated IEP meeting. If the district and the parent choose to participate in a Facilitated IEP meeting, the district shall notify ODE.

Nothing in this section shall affect or otherwise alter a parent's right to seek mediation under OAR 581-015-2335, request a due process hearing under OAR 581-015-2345, a complaint under OAR 581-015-2030, or other parental rights under the procedural safeguards.

Nothing in this section relieves the district of its duty to create an appropriate IEP for every eligible student, regardless of whether the eligible student requires Individualized COVID-19 Recovery Services.

6.—Agreement to Amend or Modify IEP

Between annual IEP meetings, the district and the parent may agree to make changes in the student's current IEP without holding an IEP meeting. These changes require a signed, written agreement between the district and the parent.

- a. The district and the parent record any amendments, revisions or modifications on the student's current IEP. If additional IEP pages are required these pages must be attached to the existing IEP.
- b. The district files a complete copy of the IEP with the student's education records and informs the student's IEP team and any teachers or service providers of the changes.
- c. The district provides the parent prior written notice of any changes in the IEP and upon request, provides the parent with a revised copy of the IEP with the changes incorporated.

7.—IEP Team Considerations and Special Factors

- a. In developing, reviewing and revising the IEP, the IEP team considers:
 - (1) The strengths of the student and concerns of the parent for enhancing the education of the student;
 - (2) The results of the initial or most recent evaluation of the student;
 - (3) As appropriate, the results of the student's performance on any general state or districtwide assessments;
 - (4) The academic, developmental and functional needs of the child.

- b. In developing, reviewing and revising the student's IEP, the IEP team considers the following special factors:
- (1) The communication needs of the student; and
 - (2) The need for assistive technology services and/or devices.
- c. As appropriate, the IEP team also considers the following special factors:
- (1) For a student whose behavior impedes ~~their~~^{his or her} learning or that of others, strategies, positive behavioral intervention and supports to address that behavior;
 - (2) For a student with limited English proficiency, the language needs of the student as those needs relate to the IEP;
 - (3) For a student who is blind or visually impaired, instruction in Braille and the use of Braille unless the IEP team determines (after an evaluation of reading and writing skills, needs and media, including evaluation of future needs for instruction in Braille or the use of Braille, appropriate reading and writing), that instruction in Braille or the use of Braille is not appropriate; ~~and~~
 - (4) For a student who is deaf or hard of hearing, the student's language and communication needs, including opportunities for direct communication with peers and professional personnel in the student's language and communication mode, academic level and full range of needs, including opportunities for direct instruction in the student's language and communication mode;
 - (5) If a student is deaf, deafblind, or hard of hearing, the district will provide information about relevant services and placements offered by the school district, the education service district, regional programs, and the Oregon School for the Deaf; and
 - (6) A statement of any device or service needed for the student to receive a free appropriate public education (FAPE).-
- d. In addition to the above IEP contents, the IEP for each eligible student of transition age includes:
- (1) Beginning not later than the first IEP in effect when the student turns 16, or as early as 14 or younger, if determined appropriate by the IEP team (including parent(s)), and updated annually thereafter, the IEP must include:
 - (a) Appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training education, employment, and where appropriate, independent living skills; and
 - (b) The transition services (including courses of study) needed to assist the student in reaching those goals.

Regarding employment planning, the parent shall be provided information about and opportunities to experience employment services provided by Oregon Vocational Rehabilitation or the Oregon Office of Developmental Disability Services. These services must be provided in a competitive integrated employment setting, as defined by Oregon Administrative Rule (OAR) 411-345-0020. Information about these services shall also be provided to the parent by the district at each annual review for IEPs to be in effect when the child turns 16, or as early as 14 or younger, if determined appropriate by the IEP team (including parent(s)).

- (2) At least one year before a student reaches the age of majority (student reaches the age of 18, or has married or been emancipated, whichever occurs first), a statement that the district has informed the student that all procedural rights will transfer at the age of majority; and
 - (3) If identified transition service providers, other than the district, fail to provide any of the services identified on the IEP, the district will initiate an IEP meeting as soon as possible to address alternative strategies and revise the IEP if necessary.
- e. To promote self-determination and independence, the district shall provide the student and the student's parents with information and training resources regarding supported decision-making as a less restrictive alternative to guardianship, and with information and resources regarding strategies to remain engaged in the student's secondary education and post-school outcomes. The district shall provide this information at each IEP meeting that includes discussion of post-secondary education goals and transition services.

8.—Incarcerated Youth

- a. For students with disabilities who are convicted as adults, incarcerated in adult correctional facilities and otherwise entitled to FAPE, the following IEP requirements do not apply:
 - (1) Participation of students with disabilities in state and districtwide assessment; and
 - (2) Transition planning and transition services, for students whose eligibility will end because of their age before they will be eligible to be released from an adult correctional facility based on consideration of their sentence and eligibility for early release.
- b. The IEP team may modify the student's IEP, if the state has demonstrated a bona fide security or other compelling interest that cannot be otherwise accommodated.

9.—Extended School Year Services

- a. The district makes extended school year (ESY) services available to all students for whom the IEP team has determined that such services are necessary to provide a FAPE.
- b. ESY services are:
 - (1) Provided to a student with a disability in addition to the services provided during the typical school year;
 - (2) Identified in the student's IEP; and
 - (3) Provided at no cost to the parent.
- c. The district does not limit consideration of ESY services to particular categories of disability or unilaterally limit the type, amount or duration of service.
- d. The district provides ESY services to maintain the student's skills or behavior, but not to teach new skills or behaviors.
- e. The district's criteria for determining the need for extended school year services include:
 - (1) Regression (a significant loss of skills or behaviors) and recoupment time based on documented evidence; or
 - (2) If no documented evidence, on predictions according to the professional judgment of the team.

- f. “Regression” means significant loss of skills or behaviors in any area specified on the IEP as a result of an interruption in education services.
- g. “Recoupment” means the recovery of skills or behaviors specified on the IEP to a level demonstrated before the interruption of education services.

10.—Assistive Technology

- a. The district ensures that assistive technology devices or assistive technology services, or both, are made available if they are identified as part of the student’s IEP. These services and/or devices may be part of the student’s special education, related services or supplementary aids and services.
- b. On a case-by-case basis, the district permits the use of district-purchased assistive technology devices in the student’s home or in other settings if the student’s IEP team determines that the student needs access to those devices to receive a FAPE. In these situations, district policy will govern liability and transfer of the device when the student ceases to attend the district.

11.—Transfer Students

- a. In state:

If a student with a disability (who had an IEP that was in effect in a previous district in Oregon) transfers into the district and enrolls in a district school within the same school year, the district (in consultation with the student’s parents) provides a FAPE to the student (including services comparable to those described in the student’s IEP from the previous district), until the district either:

- (1) Adopts the student’s IEP from the previous district; or
- (2) Develops, adopts and implements a new IEP for the student in accordance with all of the IEP provisions.

- b. Out of state:

If a student transfers into the district with a current IEP from a district in another state, the district, in consultation with the student’s parents, will provide a FAPE to the student, including services comparable to those described in the student’s IEP from the previous district, until the district:

- (1) Conducts an initial evaluation (if determined necessary by the district to determine Oregon eligibility) with parent consent and determines whether the student meets eligibility criteria described in the OARs ~~Oregon Administrative Rules~~.
- (2) If the student is eligible under Oregon criteria, the district develops, adopts and implements a new IEP for the student using the Oregon Standard IEP or an approved alternate IEP.
- (3) If the student does not meet Oregon eligibility criteria, the district provides prior written notice to the parents explaining that the student does not meet Oregon eligibility criteria and specifying the date when special education services will be terminated.

Special Education - Procedural Safeguards**

Procedural Safeguards – General

A district ensures that students with disabilities and their families are afforded their procedural safeguards related to:

1. Access to students' educational records;
2. Parent and adult student participation in special education decisions;
3. Transfer of rights to students who have reached the age of majority;
4. Prior written notice of proposed district actions;
5. Consent for evaluation and for initial placement in special education¹;
6. Independent educational evaluation;
7. Dispute resolution through mediation, state complaint investigation, resolution sessions and due process hearings;
8. Discipline procedures and protections for students with disabilities, including placements related to discipline;
9. Placement of students during the pendency of due process hearings;
10. Placement of students by their parents in private schools;
11. Civil actions; and
12. Attorney's fees.

¹ If, at any time subsequent to the initial provision of special and related services, the parent of a child revokes consent in writing for the continued provision of special education and related services, the district: 1) may not continue to provide special education and related services to the child, but must provide prior written notice before ceasing the provision of special education and related services; 2) may not use mediation or due process procedures to obtain an agreement or ruling that the services may be provided to the child; 3) the district will not be considered to be in violation of the requirement to make a free appropriate public education (FAPE) available to the child because of the failure to provide the child with further special education and related services; and 4) the district is not required to convene an individualized education program (IEP) team meeting or develop an IEP for the child for further provision of special education or related services.

Procedural Safeguards Notice

1. The district provides to parents a copy of the *Procedural Safeguards Notice*, published by the Oregon Department of Education, at least once per year and upon initial referral or parent request for special education evaluation and when the parent requests a copy. The district also gives a copy to the student at least a year before the student's 18th birthday or upon learning that the student is considered emancipated.
2. The district provides the *Procedural Safeguards Notice* in the parent's native language or other mode of communication unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent is not a written language, the district takes steps to ensure that the notice is translated orally or by other means understandable to the parent and that the parent understands the content of the notice. The district maintains written evidence that it meets these requirements.

Parent or Adult Student Meeting Participation

1. The district provides parents or adult students an opportunity to participate in meetings with respect to the identification, evaluation, ~~individual education program (IEP)~~ and educational placement of the student, and the provision of a ~~FAPE~~ ~~free appropriate public education~~ to the student.
2. The district provides parents or adult students written notice of any meeting sufficiently in advance to ensure an opportunity to attend. The written notice:
 - a. States the purpose, time and place of the meeting and who is invited to attend;
 - b. Advises that parents or adult students may invite other individuals who they believe have knowledge or special expertise regarding the student;
 - c. Advises that the team may proceed with the meeting even if the parents are not in attendance;
 - d. Advises the parents or adult students who to contact before the meeting to provide information if they are unable to attend; and
 - e. Indicates if one of the meeting's purposes is to consider transition services or transition services needs. If so:
 - (1) Indicates that the student will be invited; and
 - (2) If considering transition services, identifies any agencies invited to send a representative (with parent or adult student consent).
3. The district takes steps to ensure that one or both parents of a child with a disability are present at each IEP or placement meeting or are afforded the opportunity to participate, including:
 - a. Notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
 - b. Scheduling the meeting at a mutually agreed upon time and place.
4. If neither parent can attend, the district will use other methods to ensure an opportunity to participate, including, but not limited to, individual or conference phone calls or home visits.
5. The district may conduct an evaluation planning or eligibility meeting without the parent or adult student if the district provided meeting notice to the parent or adult student sufficiently in advance to ensure an opportunity to attend.

Special Education - Procedural Safeguards**

1. Procedural Safeguards

a. The district provides procedural safeguards to:

- (1) Parents, guardians (unless the guardian is a state agency) or persons in parental relationship to the student;
- (2) Surrogate parents; and
- (3) Students who have reached the age of 18, the age of majority; or are considered emancipated under Oregon law and to whom rights have transferred by statute, identified as adult students (called “eligible students”).

b. The district gives parents a copy of the ~~Notice of Procedural Safeguards~~ **Notice**, published by the Oregon Department of Education (ODE):

- (1) At least once a year; ~~and~~
- (2) At the first referral or parental request for evaluation to determine eligibility for special education services;
- (3) When the parent (or adult student) requests a copy; **and**
- (4) To the parent and the student one year before the student’s 18th birthday or upon learning that the student is ~~considered~~ emancipated.

c. The ~~Notice of Procedural Safeguards~~ **Notice** is:

- (1) Provided written in the native language or other communication of the parents (unless it is clearly not feasible to do so) and in language clearly understandable to the public.
- (2) If the native language or other mode of communication of the parent is not a written language, the district takes steps to ensure that:
 - (a) The notice is translated orally or by other means to the parent in **their/his/her** native language or other mode of communication;
 - (b) The parent understands the content of the notice; and
 - (c) There is written evidence that the district has met these requirements.

2. Content of Procedural Safeguards Notice

The procedural safeguards notice includes all of the content provided in the ~~Notice of Procedural Safeguards~~ **Notice** published by ~~the~~ ODE.

3. Parent or Adult Student Meeting Participation

- a. The district provides parents or adult students an opportunity to participate in meetings with respect to the identification, evaluation, individualized education program (IEP) and educational placement of the student, and the provision of a free appropriate public education (FAPE) to the student.
- b. The district provides parents or adult students written notice of any meeting sufficiently in advance to ensure an opportunity to attend. The written notice:
 - (1) States the purpose, time and place of the meeting and who is invited to attend;
 - (2) Advises that parents or adult students may invite other individuals who they believe have knowledge or special expertise regarding the student;
 - (3) Advises the parents or adult student that the team may proceed with the meeting even if they are not in attendance;
 - (4) Advises the parent or adult students who to contact before the meeting to provide information if they are unable to attend; and
 - (5) Indicates if one of the meeting's purposes is to consider transition services or transition service needs. If so:
 - (a) Indicates that the student will be invited; and
 - (b) Identifies any agencies invited to send a representative.
- c. The district takes steps to ensure that one or both of the parents of a student with a disability are present at each IEP or placement meeting or are afforded the opportunity to participate, including:
 - (1) Notifying parents of the meeting early enough to ensure that they will have an opportunity to attend; and
 - (2) Scheduling the meeting at a mutually agreed on time and place.
- d. If neither parent can participate, the district will use other methods to ensure participation, including, but not limited to, individual or conference phone calls or home visits.
- e. The district may conduct an evaluation planning or eligibility meeting without the parent or adult student if the district provided meeting notice to the parent or adult student sufficiently in advance to ensure an opportunity to attend.
- f. The district may conduct an IEP or placement meeting without the parent or adult student if the district is unable to convince the parents or adult students that they should participate. Attempts to convince the parent to participate will be considered sufficient if the district:
 - (1) Communicates directly with the parent or adult student and arranges a mutually agreeable time and place and sends written notice to confirm the arrangement; or
 - (2) Proposes a time and place in the written notice stating that a different time and place might be requested and confirms that the notice was received.
- g. If the district proceeds with an IEP meeting without a parent or adult student, the district must have a record of its attempts to arrange a mutually agreed upon time and place such as:
 - (1) Detailed records of telephone calls made or attempted and the results of those calls;

- (2) Copies of correspondence sent to the parents and any responses received; and
 - (3) Detailed records of visits made to the parents' home or place of employment and the results of those visits.
- h. The district takes whatever action is necessary to ensure that the parent or adult student understands the proceedings at a meeting, including arranging for an interpreter for parents or adult students who are deaf or whose native language is other than English.
 - i. After the transfer of rights to an adult student at the age of majority, the district provides written notice of meetings to the adult student and parent, if the parent can be reasonably located. After the transfer of rights to an adult student at the age of majority, a parent receiving notice of an IEP meeting is not entitled to attend the meeting unless invited by the adult student or the district.
 - j. An IEP meeting does not include:
 - (1) Informal or unscheduled conversations involving district personnel;
 - (2) Conversations on issues such as teaching methodology, lesson plans or coordination of service provision if those issues are not addressed in the student's IEP; or
 - (3) Preparatory activities that district or public personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.

4. Surrogate Parents

- a. The district protects the rights of a student with a disability, or suspected of having a disability, by appointing a surrogate parent when:
 - (1) The parent cannot be identified or located after reasonable efforts;
 - (2) The student is a ward of the state or an unaccompanied homeless youth and there is reasonable cause to believe that the student has a disability, and there is no foster parent or other person available who can act as the parent of the student; or
 - (3) The parent or adult student requests the appointment of a surrogate parent.
- b. The district secures nominations of persons to serve as surrogates. The district appoints surrogates within 30 days of a determination that the student needs a surrogate, unless a surrogate has already been appointed by juvenile court.
- c. The district will only appoint a surrogate who:
 - (1) Is not an employee of the district or ~~the~~ ODE;
 - (2) Is not an employee of any other agency involved in the education or care of the student;
 - (3) Is free of any personal or professional interest that would interfere with representing the student's special education interests; and
 - (4) Has the necessary knowledge and skills that ensure adequate representation of the student in special education decisions. The district will provide training, as necessary, to ensure that surrogate parents have the requisite knowledge.
- d. The district provides all special education rights and procedural safeguards to appointed surrogate parents.
- e. A surrogate will not be considered an employee of the district solely on the basis that the surrogate is compensated from public funds.
- f. The duties of the surrogate parent are to:

- (1) Protect the special education rights of the student;
 - (2) Be acquainted with the student's disability and the student's special education needs;
 - (3) Represent the student in all matters relating to the identification, evaluation, IEP and educational placement of the student; and
 - (4) Represent the student in all matters relating to the provision of a FAPE to the student.
- g. A parent may give written consent for a surrogate to be appointed.
- (1) When a parent requests that a surrogate be appointed, the parent shall retain all parental rights to receive notice and all of the information provided to the surrogate. When the district appoints a surrogate at parent request, the district will continue to provide to the parent a copy of all notices and other information provided to the surrogate.
 - (2) The surrogate, alone, shall be responsible for all matters relating to the special education of the student. The district will treat the surrogate as the parent unless and until the parent revokes consent for the surrogate's appointment.
 - (3) If a parent gives written consent for a surrogate to be appointed, the parent may revoke consent at any time by providing a written request to revoke the surrogate's appointment.
- h. An adult student to whom rights have transferred at age of majority may give written consent for a surrogate to be appointed. When an adult student requests that a surrogate be appointed, the student shall retain all rights to receive notice and all of the information provided to the surrogate. The surrogate, alone, shall be responsible for all matters relating to the special education of the student. The district will treat the surrogate as the adult student unless and until the adult student revokes consent for the surrogate's appointment. If an adult student gives written consent for a surrogate to be appointed, the adult student may revoke consent at any time by providing a written request to revoke the surrogate's appointment.
- i. The district may change or terminate the appointment of a surrogate when:
- (1) The person appointed as surrogate is no longer willing to serve;
 - (2) Rights transfer to the adult student or the student graduates with a regular diploma;
 - (3) The student is no longer eligible for special education services;
 - (4) The legal guardianship of the student is transferred to a person who is able to carry out the role of the parent;
 - (5) A foster parent or other person is identified who can carry out the role of parent;
 - (6) The parent, who previously could not be identified or located, is now identified or located;
 - (7) The appointed surrogate is no longer eligible;
 - (8) The student moves to another district; or
 - (9) The student is no longer a ward of the state or unaccompanied homeless youth.
- j. The district will not appoint a surrogate solely because the parent or student to whom rights have transferred is uncooperative or unresponsive to the special education needs of the student.

5. Transfer of Rights at Age of Majority

- a. When a student with a disability reaches the age of majority, marries or is emancipated, rights previously accorded to the student's parents under the special education laws, transfer to the student. A student for whom rights have transferred is considered an "adult student" under OAR 581-015-2000(1).

- b. The district provides notice to the student and the parent that rights (accorded by statute) will transfer at the age of majority. This notice is provided at an IEP meeting and documented on the IEP:
 - (1) At least one year before the student's 18th birthday;
 - (2) More than one year before the student's 18th birthday, if the student's IEP team determines that earlier notice will aid transition; or
 - (3) Upon actual knowledge that within a year the student will likely marry or become emancipated before age 18.
- c. The district provides written notice to the student and to the parent at the time of the transfer.
- d. These requirements apply to all students, including students who are incarcerated in a state or local adult or juvenile correctional facility or jail.
- e. After transfer of rights to the student, the district provides any written prior notices and written notices of meetings required by the special education laws to the adult student and to the parent if the parent can be reasonably located.
- f. After rights have transferred to the student, receipt of notice of an IEP meeting does not entitle the parent to attend the meeting unless invited by the student or the district.
- g. To promote self-determination and independence, the district shall provide the student and the student's parents with information and training resources regarding supported decision-making as a less restrictive alternative to guardianship, and with information and resources regarding strategies to remain engaged in the student's secondary education and post-school outcomes. The district shall provide this information at each IEP meeting that includes discussion of post-secondary goals and transition services.

6. Prior Written Notice

- a. The district provides prior written notice to the parent of a student, or student, within a reasonable period of time, before the district:
 - (1) Proposes to initiate or change, the identification, evaluation or educational placement of the student, or the provision of a FAPE to the child; or
 - (2) Refuses to initiate or change the identification, evaluation or educational placement of the student, or the provision of a FAPE to the child.
- b. The content of the prior written notice will include:
 - (1) A description of the action proposed or refused by the district;
 - (2) An explanation of why the district proposed or refused to take the action;
 - (3) A description of each evaluation procedure, test, assessment, record or report used as a basis for the proposal or refusal;
 - (4) A statement that the parents of a student with a disability have procedural safeguards and, if this notice is not an initial referral for evaluation, how a copy of the *Notice of Procedural Safeguards Notice* may be obtained; ~~and~~
 - (5) Sources for parents to contact to obtain assistance in understanding their procedural safeguards;
 - (6) A description of other options the IEP team considered and the reasons why those options were rejected; and
 - (7) A description of other factors that are relevant to the agency's proposal or refusal.

- c. The prior written notice is:
 - (1) Written in language understandable to the general public; and
 - (2) Provided in the native language of the parent or other mode of communication used by the parent, unless it is clearly not feasible to do so;
 - (3) If the native language or other mode of communication of the parent is not a written language, the district shall take steps to ensure that:
 - (a) The notice is translated orally or by other means to the parent in the parent's native language or other mode of communication;
 - (b) The parent understands the content of the notice; and
 - (c) There is written evidence that the requirements of this rule have been met.

7. Consent¹ – Initial Evaluation

- a. ~~{Level1}~~The district provides notice and obtains informed written consent from the parent or adult student before conducting an initial evaluation to determine whether a student has a disability (as defined by Oregon law) and needs special education. Consent for initial evaluation is not consent for the district to provide special education and related services.
- b. The district makes reasonable efforts to obtain informed consent from a parent for an initial evaluation to determine a child's eligibility for special education services. If a parent does not provide consent for an initial evaluation or does not respond to a request for consent for an initial evaluation, the district may, but is not required to, pursue the initial evaluation of the child through mediation or due process hearing procedures. The district does not violate its child find obligations if it declines to pursue the evaluation using these procedures.

8. Consent – Initial Provision of Special Education Services

- a. The district provides notice and obtains informed written consent from the parent or adult student before the initial provision of special education and related services to the student.
- b. The district makes reasonable efforts to obtain informed consent, but if a parent or adult student does not respond or refuses consent for initial provision of special education and related services, the district does not convene an IEP meeting, develop an IEP or seek to provide special education and related services through mediation or due process hearing procedures. The district will not be considered to be in violation of the requirement to make FAPE available to the student under these circumstances. The district stands ready to serve the student if the parent or adult student later consents.

9. Consent – Re-evaluation

- a. The district obtains informed parent consent before conducting any re-evaluation of a child with a disability, except:

¹ "Consent" means that the parent or adult student: a) has been fully informed, in ~~their~~^{their}/~~his~~^{his}/~~her~~^{her} native language or other mode of communication, of all information relevant to the activity for which consent is sought; and b) understands and agrees in writing to the carrying out of the activity for which ~~their~~^{their}/~~his~~^{his}/~~her~~^{her} consent is sought. Consent is voluntary on the part of the parent and meeting the requirements of consent provision for OAR 581-015-2090, IDEA and Family Education Rights and Privacy Act (FERPA).

- (1) The district does not need written consent for a re-evaluation if the parent does not respond after reasonable efforts to obtain informed consent. However, the district does not conduct individual intelligence tests or tests of personality without consent.
 - (2) If a parent refuses to consent to the re-evaluation, the district may, but is not required to, pursue the re-evaluation by using mediation or due process hearing procedures.
- b. A parent or adult student may revoke consent at any time before the completion of the activity for which they have given consent. If a parent or adult student revokes consent, that revocation is not retroactive.

10. Consent – Other Requirements

- a. The district documents its reasonable efforts to obtain parent consent, such as phone calls, letters and meeting notes.
- b. If a parent of a student who is home schooled or enrolled by the parents in a private school does not provide consent for the initial evaluation or the re-evaluation, or if the parent does not respond to a request for consent, the district:
 - (1) Does not use mediation or due process hearing procedures to seek consent; and
 - (2) Does not consider the child as eligible for special education services.
- c. If a parent or adult student refuses consent for one service or activity, the district does not use this refusal to deny the parent or child any other service, benefit or activity, except as specified by these rules and procedures.
- d. If, at any time subsequent to the initial provision of special and related services, the parent of a child revokes consent in writing for the continued provision of special education and related services, the district:
 - (1) May not continue to provide special education and related services to the child, but must provide prior written notice before ceasing the provision of special education and related services;
 - (2) May not use mediation or due process procedures to obtain an agreement or ruling that the services may be provided to the child;
 - (3) The district will not be considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further special education and related services; and
 - (4) The district is not required to convene an IEP team meeting or develop an IEP for the child for further provision of special education or related services.

11. Exceptions to Consent

- a. The district does not need written parent or adult student consent before:
 - (1) Reviewing existing data as part of an evaluation or re-evaluation;
 - (2) Administering a test or other evaluation administered to all students without consent unless, before administration of that test or evaluation, consent is required of parents of all students;
 - (3) Conducting evaluations, tests, procedures or instruments that are identified on the student's individualized education program (IEP) as a measure for determining progress; or

- (4) Conducting a screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation.
- b. The district does not need written parent consent to conduct an initial special education evaluation of a student who is a ward of the state and not living with the parent if:
 - (1) Despite reasonable efforts to do so, the district has not been able to find the parent;
 - (2) The parent's rights have been terminated in accordance with state law; or
 - (3) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with state law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the child.
- c. The district does not need written parental consent if an administrative law judge (ALJ) determines that the evaluation or re-evaluation is necessary to ensure that the student is provided with a **free appropriate public education**FAPE.

12. Independent Educational Evaluations (IEE)

- a. A parent of a student with a disability has a right to an independent educational evaluation at public expense if the parent disagrees with an evaluation obtained by the district.
- b. If a parent requests an independent educational evaluation at public expense, the district provides information to parents about where an independent educational evaluation may be obtained, and the district criteria applicable for independent educational evaluations.
- c. If a parent requests an independent educational evaluation at public expense, the district, without unnecessary delay, either:
 - (1) Initiates a due process hearing to show that its evaluation is appropriate; or
 - (2) Ensures that an independent educational evaluation is provided at public expense unless the district demonstrates in a hearing that the evaluation obtained by the parent did not meet district criteria.
- d. The district criteria for independent educational evaluations are the same as for district evaluations including, but not limited to, location, examiner qualifications and cost.
 - (1) Criteria established by the district do not preclude the parent's access to an independent educational evaluation.
 - (2) The district provides the parents the opportunity to demonstrate the unique circumstances justifying an IEE that does not meet the district's criteria.
 - (3) A parent may be limited to one independent educational evaluation at public expense each time the district conducts an evaluation with which the parent disagrees.
- e. If a parent requests an independent educational evaluation, the district may ask why the parent disagrees with the public evaluation. The parent may, but is not required to provide an explanation. The district may not:
 - (1) Unreasonably delay either providing the independent educational evaluation at public expense or initiating a due process hearing to defend the public evaluation;
 - (2) Except for the criteria listed above in c., impose conditions or timelines related to obtaining an IEE at public expense.

- f. The district considers an independent educational evaluation submitted by the parent, in any decision made with respect to the provision of a free appropriate public education (FAPE) to the student, if the submitted independent evaluation meets district criteria.

13. Dispute Resolution – Mediation

- a. The district or parent may request mediation from ODE for any special education matter, including before the filing of a complaint or due process hearing request.
- b. The district acknowledges that:
 - (1) Mediation must be voluntary on the part of the parties, must be conducted by a qualified and impartial mediator who is trained in effective mediation techniques and may not be used to deny or delay a parent’s right to a due process hearing or filing a complaint.
 - (2) Each mediation session must be scheduled in a timely manner and must be held in a location that is convenient to the parties to the dispute.
 - (3) An agreement reached by the parties to the dispute in the mediation process must be set forth in a legally binding written mediation agreement that:
 - (a) States the terms of the agreement;
 - (b) States that all discussions that occurred during the mediation process remain confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding; and
 - (c) Is signed by the parent and a representative of the district who has the authority to bind the district to the mediation agreement.
 - (4) Mediation communication is not confidential if it relates to child or elder abuse and is made to a person who is required to report abuse, or threats of physical harm, or professional conduct affecting licensure.
 - (5) The mediation agreement is enforceable in any state court of competent jurisdiction or in a district court of the United States.

14. Dispute Resolution – Complaint Investigation

- a. Any organization or person may file a signed, written complaint with the State Superintendent of Public Instruction alleging that a district or education service district (ESD) is violating or has violated the Individuals with Disabilities Education Act (IDEA) or associated regulations within one year before the date of the complaint. Upon receiving a parent complaint, the ODE forwards the complaint to the district or ESD along with a request for a district response to the allegations in the complaint.
- b. Upon receiving a request for response from ODE, the district responds to the allegations and furnishes any requested information or documents within 10 business days.
- c. The district sends a copy of the response to the complainant. If ODE decides to conduct an on-site investigation, district personnel participate in interviews and provide additional documents as needed.
- d. The district and the complainant may attempt to resolve a disagreement that led to a complaint through mediation. If they decide against mediation, or if mediation fails to produce an agreement, ODE will pursue the complaint investigation.
- e. If ODE substantiates some or all of the allegations in a complaint, it will order corrective action. The district satisfies its corrective action obligations in a timely manner.

- f. If the district disagrees with the findings and conclusions in a complaint final order, it may seek reconsideration by ODE or judicial review in county circuit court.

15. Due Process Hearing Requests

- a. The district acknowledges that parents may request a due process hearing if they disagree with a district proposal or refusal relating to the identification, evaluation, educational placement or provision of a free appropriate education to a student who may have a disability and be eligible for special education.
- b. The district may request a due process hearing regarding the identification, evaluation, educational placement or provision of a free appropriate education to a student who may have a disability and be eligible for special education.
- c. When requesting a due process hearing, the district or the attorney representing the district provides notice to the parent and to ODE.
- d. The party, including the district, that did not file the hearing request must, within 10 days of receiving the request for a hearing, send to the other party a response that specifically addresses the issues raised in the hearing request.
- e. If the parent had not yet received prior written notice of the district's proposal or refusal, the district, within 10 days of receiving the hearing request for a due process hearing, sends to the parent a response that includes:
 - (1) An explanation of why the district proposed or refused to take the action raised in the hearing request;
 - (2) A description of other options that the district considered and the reasons why those options were rejected;
 - (3) A description of each evaluation procedure, assessment, record or report the district used as the basis for the proposed or refused action; and
 - (4) A description of the factors relevant to the district's proposal or refusal.

16. Resolution Session

- a. Within 15 days of receiving a due process hearing request, the district will hold a resolution session with the parents and the relevant members of the IEP team who have specific knowledge of the facts identified in the due process hearing request.
- b. This meeting will include a representative of the district who has decision-making authority for the district.
 - (1) The district will not include an attorney unless the parent brings an attorney.
 - (2) The district will provide the parent with an opportunity for the parent to discuss the hearing request and related facts so that the district has an opportunity to resolve the dispute.
 - (3) The district and parent may agree in writing to waive the resolution meeting. If so, the 45 -day hearing timeline will begin the next business day, unless the district and parent agree to try mediation in lieu of the resolution session.

17. Time Limitations and Exception

- a. A parent must request a due process hearing within two years after the date of the district act or omission that gives rise to the parent's hearing request.

- b. This timeline does not apply to a parent if the district withheld relevant information from the parent or incorrectly informed the parent that it had resolved the problem that led the parent's hearing request.

18.—Hearing Costs

- c. The district reimburses ~~the~~ ODE for costs related to conducting the hearing, including pre-hearing conferences, scheduling arrangement and other related matters.
- d. The district provides the parent with a written or, at the option of the parent, an electronic verbatim recording of the hearing, within a reasonable time of the close of the hearing.
- e. The district does not use IDEA funds to pay attorney's fees or other hearing costs.

Special Education - Evaluation Procedures

Consistent with its child find and parent consent obligations, the district responds promptly to requests initiated by a parent or public agency for an initial evaluation to determine if a child is a child with a disability.

A full and individual evaluation of a student's educational needs that meets the criteria established in the Oregon Administrative Rules will be conducted before determining eligibility and before the initial provision of special education and related services to a student with a disability. The district implements an ongoing system to locate, identify and evaluate all children birth to 21 residing within its jurisdiction who have disabilities and need early intervention, early childhood special education or special education services.

The district identifies all children with disabilities, regardless of the severity of their disabilities, including children who are:

1. Highly mobile, such as migrant and ~~homeless~~ children experiencing homelessness;
2. Wards of the state;
3. Native American¹ Indian preschool children living on reservations;
4. Suspected of having a disability even though they are advancing~~advance~~ from grade to grade;
5. Home schooled;
6. Resident and nonresident students, including residents of other states, attending~~Attending~~ private school (religious or secular)~~school~~ located within the boundaries of the district;
7. Attending a public charter school located in the district;
8. Below the age of compulsory school attendance who are not enrolled in a public or private school program; and~~or~~
9. Above the age of compulsory school attendance who have not graduated from high school with a regular high school diploma and have not completed the school year in which they reach their 21st birthday.

The district is responsible for evaluating and determining eligibility for special education services for school-age children. The district is responsible for evaluating children who may be eligible for early intervention/early childhood special education~~Early Intervention/Early Childhood Special Education~~

¹ The Individuals with Disabilities Education Act uses the term "Indian".

(EI/ECSE) services. The district's designated referral and evaluation agency is responsible for determining eligibility.

Before conducting any evaluation or re-evaluation, the district:

1. Plans the evaluation with a group that includes the parent(s);
2. Provides prior written notice to the parent(s) that describes any proposed evaluation procedures the agency proposes to conduct as a result of the evaluation planning process; and
3. Obtains informed written consent for evaluation.

The district conducts a comprehensive evaluation or re-evaluation before:

1. Determining that a child has a disability;
2. Determining that a child continues to have a disability;
3. Changing the child's eligibility;
4. Providing special education and related services;
5. Terminating the child's eligibility for special education, unless the termination is due to graduation from high school with a regular diploma or exceeding the age of eligibility for a free appropriate public education.

Upon completion of the evaluation, the district provides the parent or eligible child a copy of the evaluation report at no cost. The evaluation report describes and explains the results of the evaluation. Upon completion of the eligibility determination, the district provides the parent or eligible child documentation of eligibility determination at no cost.

The district ensures that assessments and other evaluation materials, including those tailored to assess specific areas of education need, used to assess a child are:

1. ~~Selected~~Are selected and administered so as not to be racially or culturally discriminatory;
2. ~~Provided~~Are provided and administered in the child's native language or other mode of communication and form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally unless it is clearly not feasible to do so;
3. ~~Used~~Are used for purposes for which assessments or measures are valid and reliable;
4. ~~Administered~~Are administered by trained and knowledgeable personnel; and
5. ~~Administered~~Are administered in accordance with any instructions provided by the producer of such assessments.

Materials and procedures used to assess a child with limited English proficiency are selected and administered to ensure that they measure the extent to which the child has a disability and needs special education, rather than measuring the child's English language skills.

A student must meet the eligibility criteria established in the Oregon Administrative Rules.

The district conducts re-evaluations:

1. When the educational or related services needs, including improved academic achievement and functional performance of the children warrant a re-evaluation;
2. When the child's parents or teacher requests a re-evaluation; and
3. At least every three years, unless that parent and the district agree that a re-evaluation is unnecessary.

The district does not conduct re-evaluation more than once a year, unless the parent and district agree otherwise.

If a parent has previously revoked consent for special education and related services and subsequently requests special education and related services, the district will conduct an initial evaluation of the student to determine eligibility for special education.

Special Education - Evaluation and Eligibility Procedures**

1. Request for Initial Evaluation
 - a. Consistent with its child find and parent consent obligations, the district responds promptly to requests initiated by a parent or public agency for an initial evaluation to determine if a child is a child with a disability.
 - b. Upon receiving a request from a parent or public agency for an initial evaluation, the district designates a team to determine whether an initial evaluation will be conducted.
 - (1) The district team includes the parent and at least two professionals, at least one of whom is a specialist knowledgeable and experienced in the evaluation and education of children with disabilities.
 - (a) The team may make the decision to evaluate with or without a meeting.
 - (b) The district documents team members' input, including parents, whether or not the district convenes a meeting.
 - c. If a meeting is held, the district invites parents to participate.
 - d. If the district agency refuses an evaluation requested by the parent, the district provides the parent with prior written notice of its refusal to conduct an evaluation.
 - e. The district acknowledges the parent's rights to challenge its refusal to conduct an evaluation.
2. The initial evaluation consists of procedures:
 - a. To determine if the child has a disability; and
 - b. To identify the child's educational needs.
3. The district conducts the initial evaluation within 60 school days of receiving parental consent for evaluation unless:
 - a. The district and the parents agree in writing to extend the timeline for an evaluation to determine eligibility for specific learning disabilities;
 - b. The child moves from another district during the evaluation, the district is making sufficient progress to ensure a prompt completion of the evaluation, and the parent and the district agree in writing to a specific time when the evaluation will be completed; or
 - c. The parent repeatedly fails or refuses to produce the child for evaluation.
4. Re-evaluation
 - a. The district conducts re-evaluations:
 - (1) When the educational or related services needs, including improved academic achievement and functional performance of the child, warrant an evaluation;

- (2) When the child's parents or teacher request a re-evaluation; and
- (3) At least every three years, unless that parent and the district agree that a re-evaluation is unnecessary.

b. The district does not conduct re-evaluation more than once a year, unless the parent and district agree otherwise.

5. Evaluation Planning

a. ~~As part of The district, or designated referral and evaluation agency for preschool children, ensures that, as part of an initial evaluation (if appropriate) and as part of any re-evaluation,~~ the child's individualized education program (IEP) or individualized family services program plan (IFSP) team, including the parents and other qualified professionals; as appropriate, must review ~~and document their review of existing information/evaluation data~~ on the child, including:

- (1) Evaluations and information provided by the child's parents;
- (2) Current classroom-based, local or state assessments and classroom-based observations; ~~and~~
- (3) Observations by teachers and related service providers; ~~and~~
- (4) ~~Medical, sensory, and health information.~~

b. On the basis of that review and input from the child's parents, identify what additional data if any is needed to determine:

- (1) Whether the child has a disability;
- (2) The child's present levels of academic achievement and related development needs;
- (3) Whether the child needs, or continues to need, early intervention/early childhood special education (EI/ECSE) or special education and related services; and
- (4) For re-evaluation, whether the child needs any additions or modifications to the special education and related services or, for a preschool child, any additions or modification to ECSE services:
 - (a) To enable the child to meet the measurable annual goals in the child's IEP or IFSP; and
 - (b) To participate, as appropriate, in the general education curriculum or, for preschool children, appropriate activities.

6. Evaluation Procedures

- a. The district assesses the child in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status and motor abilities.
- b. The evaluation is sufficiently comprehensive to identify all of the child's special education and related needs, whether or not commonly linked to the disability category in which the child has been classified.
- c. The evaluation includes information provided by the parent and a variety of assessment tools and strategies to gather relevant functional, developmental and academic information about the child that assist in determining:

- (1) Whether the child has a disability; and
 - (2) The content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).
- d. The district ensures that assessments and other evaluation materials, including those tailored to assess specific areas of educational need, used to assess a child:
- (1) Are selected and administered so as not to be discriminatory on a racial or cultural basis;
 - (2) Are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally and functionally, unless it is clearly not feasible to do so;
 - (3) Are used for the purposes for which the assessments or measures are valid and reliable;
 - (4) Are administered by trained and knowledgeable personnel; and
 - (5) Are administered in accordance with any instructions provided by the producer of the assessments.
- e. The district selects and administers assessments to ensure that if an assessment is administered to a child with impaired sensory, manual or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual or speaking skills (unless those skills are the factors that the test purports to measure).
- f. The district uses technically sound instruments that may assess the relative contribution of cognitive factors and behavioral factors in addition to physical or developmental factors.
- g. The district does not use any single measure of assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child.

7. Requirements if Additional Evaluation Data is not Needed to Determine Eligibility

- a. If the child's IEP or IFSP team determines that no additional data is needed to determine whether or not the child is or continues to be a child with a disability, and to determine the child's educational and developmental needs, the district provides prior written notice of that decision, the reasons for it, and the right of parents to request an assessment.
- b. When the IEP or IFSP team determines that no additional data is needed to determine eligibility, the district does not conduct an assessment of the child unless requested to do so by the parents.

8. Evaluation Procedures for Transfer Students

When a child with disabilities transfers from one district to another district in the same school year, the district coordinates with the previous district to complete any pending assessment as quickly as possible.

9. Eligibility Determination

- a. Once evaluation is completed, the district designates an eligibility team to determine whether the child is eligible for special education services.
- b. This team includes:

- (1) Two or more professionals, one of whom will be knowledgeable and experienced in evaluating and teaching students with the suspected disability; and
 - (2) The student's parent(s).
- c. For consideration of eligibility in the area of specific learning disabilities, the district eligibility team includes:
- (1) A group of qualified professionals and the parent;
 - (2) The child's regular classroom teacher or, if the child does not have a regular classroom teacher, a regular classroom teacher qualified to teach a child of their age, or for a child of less than school age, a preschool teacher; and
 - (3) A person qualified to conduct individual diagnostic examinations of children, such as a school psychologist, speech-language pathologist or other qualified professional.
- d. In interpreting evaluation data, each district team carefully considers and documents information from a variety of sources, including but not limited to, aptitude and achievement tests, teacher recommendations, physical condition, social or cultural background and adaptive behavior and all required elements of the evaluation.
- e. Each eligibility team prepares a written eligibility statement that includes:
- (1) Identification of the evaluation data considered in determining the child's eligibility, including the required evaluation components for the disability under consideration;
 - (2) A determination of whether the child meets the minimum evaluation criteria for one or more of the disability categories in Oregon Administrative Rule;
 - (3) A determination of whether the primary basis for the suspected disability is:
 - (a) A lack of appropriate instruction in reading (including the essential components of reading) or math; or
 - (b) Limited English proficiency.
 - (4) A determination of whether the child's disability has an adverse impact on the child's educational performance;
 - (5) A determination of whether, as a result of the disability, the child needs special education services;
 - (6) The signature of every team member and an indication of whether each agrees with the eligibility determination;
 - (7) For a child suspected of having a specific learning disability, the team's written report includes additional specific documentation as required by Oregon Administrative Rule.
- f. The team does not find a child eligible as a child with a disability if the determinant factor for that eligibility decision is:
- (1) Lack of appropriate instruction in reading, including the essential components of reading instruction or lack of appropriate instruction in math; or
 - (2) Limited English proficiency; and
 - (3) The child does not otherwise meet the eligibility criteria found in Oregon Administrative Rule for the category(ies) of disability under consideration.

- g. The team finds a child eligible if the child has a disability and needs special education and related services, even though the child is advancing from grade to grade.
- h. A child may have disabilities in more than one disability category, but the team needs to find the child eligible in only one category. However, the district evaluates the child in all areas related to the suspected disability or disabilities, and the child's IEP addresses all of the child's special education needs.

Special Education - Private Schools

Individuals with Disabilities Education Act (IDEA) requires special education services for two different groups of private school students: those referred or placed by the district and those enrolled by parents. The law, rules and requirements for these groups of students are vastly different. It is the policy of the district to implement differentiated procedures and services for these groups.

The district shall ensure that a student with a disability who is placed in or referred to a private school or facility by the district is provided special education and related services at no cost to the parents, is provided an education that meets the standards that apply to education provided by the district and has all of the rights of a student with a disability who is served by the district.

If a student with a disability has a free appropriate public education available to them and the parents choose to place the student in a private school, the district is not required to pay the cost of the student's education, including special education and related services, at the private school.

All parentally-placed private school students attending a private school within the district's boundaries will be included in the district's special education private school student count and the private school students for whom the district may provide services.

Special Education - Private Schools

Approved Private Schools

1. Obligations of the district:
 - a. The district ensures that parents are included in any decision about their child's evaluation, eligibility, placement or provision of services.
 - b. If the district refers a student with a disability to, or places such a student in, a private school or facility as a means of providing special education and related services, the district ensures that the student receives an education that meets the standards of the state in a private preschool, school or facility approved by the Oregon Department of Education (ODE) to provide such education in conformance with an individualized education program (IEP), and at no cost to the parents, and has all the rights of a student with a disability who is served by the district.
 - c. Before placing a student with a disability in an approved private school or preschool, the district ensures that the program has current ODE approval to provide special education and related services.
 - d. The district or public agency fulfills all federal and state requirements relating to the evaluation, the IEP/individualized family service plan (IFSP) development and placement when determining whether to place the child in an approved private preschool or school for special education services.
 - e. For each student age three through 21, the district's or public agency's placement team, including the parent, determines whether placement in an approved private school constitutes a free appropriate public education in the least restrictive environment.
 - (1) When proposing to place a child with a disability in an approved private school or preschool, the district ensures that school-age students are district residents or preschool-age children are eligible to receive early intervention/early childhood special education (EI/ECSE) or special education services.
 - (2) The district initiates and conducts an individualized education program (IEP) team meeting that includes a representative of the approved private school. If a representative of the approved private school, or other member of the IEP/IFSP team is unable to attend the IEP/IFSP meeting, the district and the parent may agree to use alternative means of meeting participation such as individual or conference telephone calls, or video conferences.
 - (3) After the district initially places a student in an approved private school, any subsequent meetings to review or revise an IEP/IFSP or placement are the responsibility of the district or public agency, unless the district or public agency requests by written agreement that the approved private school initiate and conduct meetings to review and revise the IEP or IFSP.

- (4) The district may, by written agreement, request that the approved private school initiate and conduct meetings to review and revise the IEP or IFSP. Under such an agreement the district remains responsible for ensuring the private school or preschool meets:
 - (a) All federal and state requirements related to these meetings; and
 - (b) Ensures the participation of parents and the district or public agency representative.
- (5) The private school or preschool may not determine or implement program changes without the participation and agreement of the parents and the district or public agency representative.
- (6) The district in which the child resides provides transportation to and from the approved private school or preschool at no cost to the parent.
- (7) The district or public agency terminates the placement of students in a private school or preschool if ~~the~~ ODE suspends, revokes or refuses to renew the approval of a private school or preschool.
 - (a) The district ensures that every student with a disability who is placed in or referred to a private school or facility by the district as a means of providing special education and related services:
 - (i) Receives education and services that constitute a free appropriate public education in the least restrictive environment at no cost to the parents;
 - (ii) Is provided an education that meets the standards that apply to education provided by the public agency; and
 - (iii) Has all of the rights of a student with a disability who is served by the public agency.
 - (b) The district ensures that all applicable federal and state requirements relating to the evaluation, eligibility, IEP development, placement and procedural safeguards are followed when determining whether the student will be placed in an approved private school for special education services.
 - (c) The district initiates and conducts an IEP meeting at which an IEP is developed based upon the needs of the student before determining placement of a student with a disability in an approved private school.

2. Out-of-State Placements for Special Education

- a. The district ensures that any private educational institution located outside the state of Oregon with which it contracts to provide special education and related services to Oregon students is approved by the state educational agency of the state in which the educational institution is located. If the state does not have a formal approval process, the educational institution shall meet whatever requirements apply for private schools to serve publicly placed students in that state.
- b. The district maintains documentation of such approval and makes it available to ~~the~~ ODE upon request.
- c. The district makes contractual agreements for out-of-state placements for the provision of special education and related services when, in accordance with applicable federal and state law, the district has:

- (1) Developed an IEP;
- (2) The placement team has determined that no appropriate in-state placement options are available.

3. District Responsibility for Students Enrolled by their Parents in Private Schools

- a. The district provides equitable services, funded by a proportionate share of federal special education funds, for resident and nonresident students with disabilities enrolled by their parents in private schools located within district boundaries. Nonresident students include children who are residents of another state.
- b. The district consults with private school officials about procedures and services and provides child find activities, evaluations, reevaluations and eligibility determinations comparable to those provided for the district's public schools.
- c. The district maintains in its records and provides annually to the Oregon Department of Education (ODE), a count of the number of parentally-enrolled private school students evaluated, the number found eligible and the number to whom it provides services.

4. Consultation with Representatives of Private School Students with Disabilities

- a. The district consults, in a timely and meaningful way with representatives of private schools and parents of parentally placed private school students with disabilities enrolled in private schools located within the district's boundaries.
- b. Consultation includes:
 - (1) The child find process, including:
 - (a) How parentally-placed private school children with disabilities may participate equitably, as they do not have an individual entitlement to the same level of special education services as children enrolled in public schools; and in the child find process and how parents, teachers and private school officials will be informed of the process;
 - (b) How parents, teachers and private school officials will be informed of the process;
 - (c) How, where and by whom the special education and related services will be provided;
 - (d) The determination of the proportionate amount of federal funds available including how the amount is calculated, the proportionate share of federal funds available to serve parentally placed private school children with disabilities and how this is calculated;
 - (e) How services will be apportioned if funds are insufficient, and how and when these decisions will be made;
 - (f) A written explanation of service decisions that the district provides to officials of private schools if the district disagrees with the views of the private school officials about the services to be provided or the methods of providing these services.

a. Written affirmation and complaint:

- (1) The district requests a written affirmation, signed by the administrator of each private school participating in the consultation process that a timely and meaningful consultation occurred;

- (2) If private school officials do not provide this affirmation within a reasonable period of time, the district forwards its documentation of the consultation process to the ODE;
 - (3) The district maintains documentation of its consultation process;
 - (4) The district acknowledges the right of a private school official to submit a complaint to the ODE regarding the district's implementation of these requirements. Should such a complaint occur, the district forwards to ODE appropriate documentation, including documentation of the district's consultation process.
- b. The district makes the final decisions with respect to the services to be provided to eligible private school students.
 - c. Child Find for Parentally-Placed Private School Children:
 - (1) The district's child find process includes all resident and nonresident parentally placed students attending private schools located within the district's boundaries.
 - (2) The district provides child find activities that are similar to, and completed within a comparable time period as child find activities for students in the district's public schools.
 - (3) The district consults with private school representatives and parents about how to implement the child find activities and how to keep parents and private school personnel informed.
 - (4) The district ensures the equitable participation of parentally placed private school students in the child find process.
 - (5) The district does not include the cost of conducting child find activities for private school students, including individual evaluations in determining whether it has spent a proportionate share of its federal Individuals with Disabilities Education Act (IDEA) funds on parentally placed private school students with disabilities.
 - (6) The district ensures an accurate count of these children is made between October 1 and December 1 of each year and uses this count in determining the amount the district spends for services in the subsequent fiscal year.
5. Provisions for serving students placed by their parents in private schools:
- a.—District decisions about the services that are provided to private school students with disabilities are made throughout the consultation process and in accordance with the district's plan for service of parentally-placed private school students and their services plans.
 - b.—The services provided to private school students with disabilities are provided by personnel meeting the same standards as personnel providing service in the district program.
 - c.—The district may provide private school students with disabilities a different amount of services than students with disabilities attending public schools in the district.
 - d.—The district may provide services to private school students with disabilities onsite at the student's private school, including a religious school, to the extent that services can be provided in a religiously neutral setting within the private school. These services will be provided during the student's regular school day, unless stated otherwise in the student's service plan.
 - e.—If a parent of a private school student with a disability requests an IEP meeting from the resident district, the resident district will either:
 - (1) Hold an IEP meeting within a reasonable time; or
 - (2) Provide the parent with prior written notice of the district's refusal to hold an IEP meeting.
6. Evaluation, Reevaluation and Eligibility of Private School Students with Disabilities

- a. The district conducts evaluations, reevaluations and eligibility determinations, in accordance with federal and state laws and regulations, for both resident and nonresident students enrolled by their parents in private schools located within district boundaries.
- b. Eligibility for special education and related services will be determined by the district in the same manner as for public school students with disabilities.
- c. The district in which the private school is located reevaluates private school students with disabilities at least every three years to determine whether the student continues to be eligible for special education, whether the student is or is not currently receiving services under a services plan.
- d. If parents who enroll a student in a private school at their own expense do not provide consent for the initial evaluation or the reevaluation, or the parent fails to respond to a request to provide consent, the district does not use due process procedures to override the lack of consent. The district does not, and is not required to, consider the child as eligible for special education services in these cases.
- e. If a parent refuses a reevaluation that is necessary to determine whether the student continues to be a student with a disability, and as a result the team cannot determine the student's continuing eligibility, the student will no longer be considered "eligible" and shall not be counted as a private school student with a disability for the purposes of the private school student count.
- f. Following an initial determination of eligibility, and upon any subsequent determination of eligibility, the district will notify the parent in writing that the resident district will make a free appropriate public education available to the student if the student is enrolled in a district program, and conducts a meeting to develop, review or revise the student's services plan.
- g. If the parent does not choose to remove the child from private school to enroll in a district public school, the district initiates and conducts a meeting to develop, review or revise the student's services plan, consistent with the procedures for IEP meetings and timeline and in light of the service provision the district has determined through the consultation process.
- h. The district in which the private school is located does not release evaluation and eligibility determination information or other personally identifiable information to the student's resident district without written parental consent, unless parents seek enrollment in the student's resident district and the resident district requests records.

7. Services Plan

- a. If a student with a disability is enrolled by a parent in a private school the district offers a services plan.
- b. The district ensures that the services plan describes the specific special education and related services the district will provide to the student in light of the services that have been determined through the consultation process.
- c. The district convenes individual meetings to develop, review and revise the services plan consistent with procedures for IEP team membership, parent participation and IEP content, to the extent appropriate.
- b. The district ensures that a representative of the private school attends each meeting. If the representative cannot attend, the district will use other methods to ensure participation by the private school, including individual or conference telephone calls.
- d. The district is not required to provide transportation from the student's home to the private school. If necessary for the student to benefit from or participate in the services provided by the district, the district must provide transportation:

- (1) From the student's school or the student's home to a site other than the private school; and
- (2) From the service site to the private school, or to the student's home, depending on the timing of the services.

8. Property, Equipment and Supplies

- a.—The district keeps title to and exercises continuing administrative control of all property, equipment and supplies that the district acquires with IDEA funds for the benefit of private school students with disabilities.
- b.—The district may place equipment and supplies in a private school for a period of time needed to implement the service plan of a private school student with disabilities or for child find purposes.
- e.—The district ensures that the equipment and supplies placed in a private school:
 - (1) Are used only for implementation of special education activities; and
 - (2) Can be removed from the private school without remodeling the private school facility.
- d. The district removes equipment and supplies from a private school if:
 - (1)—The equipment and supplies are no longer needed for special education activities, programs or services; or
 - (2)—The district determines removal is necessary to avoid unauthorized use of the equipment and supplies.
- e.—The district does not use IDEA funds for repairs, minor remodeling or construction of private school facilities.

9. Separate Classes Prohibited

The district does not use IDEA funds for classes that are organized separately on the basis of school enrollment or religion of the students if:

- a.—The classes are at the same site; and
- b.—The classes include students enrolled in public school programs and students enrolled in private schools.

10.—Funds and Property Not to Benefit Private Schools

- a.—The district will not use IDEA funds to finance the existing level of instruction in a private school or to otherwise benefit the private school.
- b.—The district will use IDEA funds to meet the special education needs of students enrolled in private schools, but not for:
 - (1)—The needs of a private school; or
 - (2)—The general needs of the students enrolled in the private school.

11.—Use of School Personnel

- a.—The district may use IDEA funds to make public school personnel available in other than public facilities:
 - (1)—To the extent necessary to implement any of the requirements related to private school students with disabilities; and
 - (2)—If those services are not normally provided by the private school.
- b.—The district may use IDEA funds to pay for the services of an employee of a private school to provide services to private school students if:
 - (1)—The employee performs the services outside of ~~his/her~~ **their** regular hours of duty; and
 - (2)—The employee performs the services under public supervision and control.

12.—Federal Funds Available for Services

- a. The district calculates a proportionate share of federal funds available to provide special education and related services to private school students with disabilities using the formula specified in the IDEA.
- b. If the district does not expend the proportionate share of funds by the end of the fiscal year, the district obligates the remaining funds to be used in the following year.
- c. The district does not include child find expenditures in determining whether the district has met its expenditure requirements for parentally placed private school students, but may include the cost of transportation required for students to access required special education services.
- d. The district does not supplant the proportionate amount of federal funds required to be expended for parentally placed private school students.

3. The district takes steps to ensure that its children with disabilities have available to them the variety of educational programs and services available to nondisabled children in the area served by the district and provides a continuum of services to meet the individual special education needs of all resident children with disabilities, and children with disabilities who are enrolled in public charter schools located in the district.
4. The district may, but is not required to, provide special education and related services to a student who has graduated with a regular diploma.

6. If the individualized education program (IEP) team determines that placement in a public or private residential program is necessary to provide FAPE, the program, including nonmedical care and room and board, must be at no cost to the parents of the child.
7. If a parent revokes consent for a student receiving special education and related services, the district will not be considered to be in violation of the requirement to make FAPE available to the student because of the failure to provide the student with further special education and related services.

Special Education - Services for Home-Schooled Students with Disabilities**

1. Home Schooling for Students with Disabilities
 - a. As soon as the district learns of the parent's intent to home school or when the district is informed that a resident student with disabilities is home schooled, the district provides written notice to the parent that it stands ready to provide a free appropriate public education if the student enrolls in the district.
 - b. The district offers and documents to the parent an individualized education program (IEP) meeting to consider providing special education and related services to the student with a disability in conjunction with home schooling.
 - c. The district provides an annual written notice that it stands ready to provide a free appropriate public education if the student enrolls in the district as long as:
 - (1) The student remains eligible for special education;
 - (2) The student is exempt from compulsory education as a home-schooled student; and
 - (3) The student is not receiving special education and related services from the district.
 - d. To consider the provision of special education services, the district convenes the IEP team for a student with a disability if the IEP team determines that a free appropriate public education can be provided in conjunction with home schooling. Services may be provided in the home only to the extent that special education or related services would be provided in the home if the student was not home schooled.
 - e. The district develops an IEP consistent with the requirements for IEP team meetings, IEP team membership and IEP content, with the following exceptions:
 - (1) The student's parent shall be treated as both parent and regular education teacher of the student unless the parent designates another individual as the regular education teacher;
 - (2) Under "extent of nonparticipation in regular education" the IEP shall state that the student is exempt from compulsory school attendance and regular education is provided through home schooling; and
 - (3) The IEP will state how "satisfactory educational progress" will be determined for the student. A parent may use a privately developed plan (PDP) to determine satisfactory progress. If so, the IEP indicates that satisfactory progress will be determined by the PDP team, at parent request. If the student may enroll in a regular education class, pursuant to the district's policy for students who are home schooled, the IEP team includes a regular education teacher.
 - f. The district ensures that:

- (1) Students with disabilities who are home schooled are reevaluated at least every three years unless waived by mutual agreement of the parent and the district, and not more than once a year unless the parent and district agree otherwise;
- (2) If the team determines a specific evaluation is necessary to continue eligibility or to determine appropriate special education and related services for the student's IEP, and the parent refuses consent for such evaluation, or refuses to make the student available, the district will document to the parent that the district stands ready to conduct the evaluation when the parent gives consent or makes the student available;
- (3) If the district does not have sufficient evaluation information to determine eligibility or to develop an IEP, the district is not required to complete these activities. The district will provide prior written notice if the district terminates eligibility or services under these circumstances.

2. Testing and Reporting Requirements

- a. If a student with a disability is receiving IEP services from the district and the IEP includes a provision for IEP team assessment of satisfactory educational progress, the district:
 - (1) Completes the assessment; and
 - (2) Provides the parent with a copy of the results, including a summary statement indicating whether the student has made satisfactory educational progress in light of the student's age and disability.
- b. If a student with a disability is receiving IEP services in a core area of instruction, the district includes the student in statewide assessments, unless an exemption is requested by the parent.

3. Child Find

- a. If the district suspects that a home-schooled student has a disability, the district:
 - (1) Obtains parent consent for initial evaluation; and
 - (2) Conducts an initial evaluation and determines the student's eligibility to receive special education and related services.
- b. If the student is eligible, the district notifies the parent and offers an opportunity for an IEP meeting to consider initiation of special education and related services to the student with a disability.
- c. If the parent refuses consent, does not respond or refuses to make the student available, the district documents to the parent that the district stands ready to conduct the evaluation when the parent gives consent or makes the student available.

4. School Enrollment

- a. If the district permits partial enrollment of home-schooled students in its regular education program, the district will permit students with disabilities to participate to the same extent as nondisabled students, if appropriate, whether or not the student is receiving IEP services from the district.
- b. A student who is exempt from compulsory school attendance as a home-schooled student with a disability will continue to be considered an exempt home-schooled student by the district

even though the student receives special education and related services from the district, unless these services are the equivalent of full-time enrollment in the district; or the district permits partial enrollment of home-schooled students and, pursuant to that policy, the student attends one or more regular education classes, unless partial enrollment is the equivalent of full-time enrollment in the district.

The district shall establish a process to identify and provide those students with information about the program. The district shall send information about the program to the last-known address of the family of the student.

Enrollment Process

Prior to May 15 of each year, a student who is interested in participating in the Expanded Options Program shall notify the district of his/her intent to enroll in post-secondary courses during the following school year. A high school transfer student or returning dropout has 20 business days from the date of enrollment to indicate interest.

The district shall review with the student and the student's parent the student's current status toward meeting all state and district graduation requirements and the applicability of the proposed post-secondary course to the remaining graduation requirements.

A student who intends to participate in the Expanded Options Program shall develop an educational learning plan in cooperation with an advisory support team. An advisory support team may include the student, the student's parent and a teacher or a counselor. The educational learning plan may include:

1. The student's short-term and long-term learning goals and proposed activities; and
2. The relationship of the post-secondary courses proposed under the Expanded Options Program and the student's learning goals.

A student who enrolls in the Expanded Options Program may not enroll in post-secondary courses for more than the equivalent of two academic years. A student who first enrolls in the Expanded Options Program in grade 12 may not enroll in post-secondary courses for more than the equivalent of one academic year. If a student first enrolls in a post-secondary course in the middle of the school year, the time of participation shall be reduced proportionately. If a student is enrolled in a year-round program and begins each grade in the summer session, summer sessions are not counted against the time of participation.

Duplicate Courses

The district will establish a process to determine duplicate course designations. The district will notify an eligible student and the student's parent or guardian of any course the student wishes to take that the district determines is a duplicate course, within 20 business days after the student has submitted a list of intended courses.

A student may appeal a duplicate course determination to the Board based on evidence of the scope of the course. The scope of the course refers to the depth and breadth of course content as evidenced through a planned course statement, including content outlines, applicable state content standards, course goals and student outcomes. The Board will issue a decision on the appeal within 30 business days of receipt of the appeal. If the appeal is denied by the Board, the student may appeal the district's determination to the Superintendent of Public Instruction.

Expanded Options Program Annual Credit Hour Cap

The number of quarter credit hours that may be awarded by a high school under the Expanded Options Program is limited to an amount equal to the number of students in grades 9 through 12 enrolled in the high school multiplied by a factor of 0.33. For example, the cap for a high school with 450 students in grades 9 through 12 is 148.5 ($450 \times 0.33 = 148.5$). (The caps must be established separately for each high school.)

At the district's discretion, the district may choose to exceed both the individual high school level cap and the aggregate district level cap. If the district has more eligible students than are allowed under the credit hour cap the district shall establish a process for selecting eligible students for participation in the program. The process will give priority for participation to students who are "at risk." An "at-risk student" means (1) a student who qualifies for a free or reduced price lunch program; or (2) an at-risk student as defined by rules adopted by the State Board of Education if it has adopted rules to define an at-risk student. An "at-risk" student includes a student who meets state or federal thresholds for poverty as indicated by eligibility for services under any of the following provisions of the No Child Left Behind Act: (1) Title I - Improving Academic Achievement of the Disadvantaged, Part A - Improving Basic Programs Operated by Local Educational Agencies; (2) Title I, Part C - Education of Migratory Children; (3) Title I, Part D - Prevention and Intervention Programs for Children and Youth Who are Neglected, Delinquent, or At-Risk; (4) Title III - Language Instruction for Limited English Proficient and Immigrant Students; and (5) and Title X - Repeals, Redesignations, and Amendments to Other Statutes, Part C - Education of Homeless Children and Youth Program (amending subtitle B of title VII of the McKinney-Vento Homeless Educational Assistance Act).

If the district has not exceeded the credit hour cap, the district shall ensure that all eligible at-risk students are allowed to participate in the Expanded Options Program and may allow eligible students who are not at-risk to participate in the program.

Post-Secondary Institution Credit

Prior to beginning a post-secondary course, the district shall notify the student of the number and type of credits that the student will be granted upon successful completion of the course. If there is a dispute between the district and student regarding the number or type of credits that the district will or has granted to a student for a particular course, the student may appeal the district's decision using an appeals process adopted by the Board.

Credits granted to a student shall be counted toward high school graduation requirements and subject area requirements of the state and the district. Evidence of successful completion of each course and credits granted shall be included in the student's education record. A student shall provide the district with a copy of the student's grade in each course taken for credit under the Expanded Options Program. The student's education record shall indicate that the credits were earned at a post-secondary institution.

Financial Agreement

The district shall negotiate in good faith a financial agreement with the eligible post-secondary institution for the payment of actual instructional costs associated with the student's enrollment, including tuition and fees and the costs of textbooks, equipment and materials.

A district may request a waiver from the Superintendent of Public Instruction if:

1. Compliance would adversely impact the finances of the district; or
2. The district offers dual credit technical preparation programs (i.e., two-plus-two programs, advanced placement or International Baccalaureate programs).

Student Reimbursement

Students are not eligible for any state student financial aid, but students may apply to the district for reimbursement for any textbooks, fees, equipment or materials purchased by the student that are required for a post-secondary course. All textbooks, fees, equipment and materials provided to a student and paid for by the district are the property of the district.

Transportation Services

The district may provide transportation services to eligible students who attend post-secondary institutions within the education service district boundaries of which the district is a component district.

Special Education Services

The district of a student participating in the Expanded Options Program shall be responsible for providing any required special education and related services to the student. "Related services" includes transportation and such developmental, corrective and other supportive services as are required to assist a student with a disability to benefit from special education and is consistent with Oregon administrative rules on special education. "Special education" means specifically designed instruction consistent with Oregon administrative rules to meet the unique needs of a student with a disability by adapting, as appropriate, the content, methodology, or delivery of instruction to address the unique needs of the student that result from the student's disability and to ensure access of the student to the general curriculum. If a

post-secondary institution intends to provide special education and related services to an Expanded Options Program participant, the institution shall enter into a written contract with the district of the student. The contract shall include the following at a minimum:

1. Allowance for the student to remain in the program during the pendency of any special education due process hearing unless the parents and district agree otherwise;
2. Immediate notification to the district if the institution suspects that a student participating in the program may have a disability and requires special education or related services;
3. Immediate notification to the district if the student engaged in conduct that may lead to suspension or expulsion; and
4. Immediate notification to the district of any complaint made by the parents of the student regarding the student's participation in the program at the institution.

District Alternative Programs

The Expanded Options Program does not affect any program, agreement or plan that existed on January 1, 2006, between the district and a post-secondary institution, which has been continued or renewed.

Any new program, agreement or plan that is developed after January 1, 2006, may be initiated at the discretion of the district and the post-secondary institution.

The Board is committed to providing additional educational options to eligible students enrolled in grades 11 and 12 to continue or complete their education, to earn concurrent high school and college credits and to gain early entry into post-secondary education. The district's Expanded Options Program (EOP) will comply with all requirements of Oregon law (ORS 340) and give priority status to "at-risk" students.

Eligible Students

Eligible students may apply to take courses at an eligible post-secondary institution through the Expanded Options Program. A student is eligible for the EOP if the student:

1. Is 16 years of age or older at the time of enrollment in a course under the EOP;
2. Is in grade 11 or 12 at the time of enrollment in a course under the EOP or has not yet completed the required credits to be in grade 11 or 12, but the district has allowed the student to participate in the program;

The district will notify a transfer high school student, or a student returning to high school after dropping out of school, of the EOP if the student enrolls after the district has issued the February 15 notice. The district will notify a high school student who has officially expressed an intent to participate in the EOP, and the student's parent or guardian, of the student's eligibility status within 20 business days of the expression of intent.

It is a priority for the district to provide information about the EOP to high school students who have dropped out of school. The district shall establish a process to identify and provide those students with information about the program. The district shall send information about the program to the last-known address of the family of the student.

The notice must include the following:

1. Financial arrangements for tuition, textbooks, equipment and materials;
2. Available transportation services;

3. The effect of enrolling in the EOP on the student's ability to complete high school graduation requirements;
4. The consequences of failing or not completing a post-secondary course;
5. Notification that participation in the EOP is contingent on acceptance by an eligible post-secondary institution; and
6. District timelines affecting student eligibility and duplicate course determinations.

Enrollment Process

Prior to May 15 of each year, a student who is interested in participating in the EOP shall notify the district of the intent to enroll in eligible post-secondary courses during the following school year. A high school transfer student or a student returning to high school after dropping out of school has 20 business days from the date of enrollment to indicate interest.

The district shall review with the student and the student's parent or guardian the student's current status toward meeting all state and district graduation requirements and the applicability of the proposed eligible post-secondary course to the remaining graduation requirements.

A student who intends to participate in the EOP shall develop an educational learning plan in cooperation with an advisory support team. An advisory support team may include the student, the student's parent or guardian and a teacher or a counselor. The educational learning plan may include:

1. The student's short-term and long-term learning goals and proposed activities; and
2. The relationship of the eligible post-secondary courses proposed under the EOP and the student's learning goals.

A student who enrolls in the EOP may not enroll in eligible post-secondary courses for more than the equivalent of two academic years. A student who first enrolls in the EOP in grade 12 may not enroll in eligible post-secondary courses for more than the equivalent of one academic year. If a student first enrolls in an eligible post-secondary course in the middle of the school year, the time of participation shall be reduced proportionately. If a student is enrolled in a year-round program and begins each grade in the summer session, summer sessions are not counted against the time of participation.

Duplicate Courses

The district will establish a process to determine duplicate course designations. The district will notify an eligible student and the student's parent or guardian, of any course the student wishes to take that the district determines is a duplicate course, within 20 business days after the student has submitted a list of intended courses.

A student may appeal a duplicate course determination to the Board based on evidence of the scope of the course. The Board or designee will issue a decision on the appeal within 30 business days of receipt of the appeal. If the appeal is denied by the Board or designee, the student may appeal the district's determination to the Superintendent of Public Instruction or designee under ORS 340.030.

Annual Credit Hour Cap

The number of quarter credit hours that may be awarded by a high school under the EOP is limited to an amount equal to the number of students in grades 9 through 12 enrolled in the high school multiplied by a factor of 0.33. For example, the cap for a high school with 450 students in grades 9 through 12 would be 148.5 (450 X 0.33 = 148.5). (The caps must be established separately for each high school.)

At the district's discretion, the district may choose to exceed both the individual high school level cap and the aggregate district level cap. If the district has more eligible students than are allowed under the credit hour cap the district shall establish a process for selecting eligible students for participation in the program. The process will give priority for participation to students who are "at risk." An "at-risk student" means: (1) a student who qualifies for a free or reduced lunch program; or (2) an at-risk student as defined by rules adopted by the State Board of Education if it has adopted rules to define an at-risk student.

If the district has not exceeded the credit hour cap, the district shall ensure that all eligible at-risk students are allowed to participate in the EOP and may allow eligible students who are not at-risk to participate in the program.

Post-Secondary Institution Credit

Prior to beginning an eligible post-secondary course, the district shall notify the student of the number and type of credits that the student will be granted upon successful completion of the course. If there is a dispute between the district and the student regarding the number or type of credits that the district will or has granted to a student for a particular course, the student may appeal the district's decision to the Board.

Credits granted to a student shall be counted toward high school graduation requirements and subject area requirements of the state and the district. Evidence of successful completion of each course and credits granted shall be included in the student's education record. A student shall provide the district with a copy of the student's grade in each course taken for credit under the EOP. The student's education record shall indicate that the credits were earned at an eligible post-secondary institution.

Financial Agreement

The district shall negotiate in good faith a financial agreement with the eligible post-secondary institution for the payment of actual instructional costs associated with the student's enrollment, including tuition and fees, textbooks, equipment and materials.

Waiver

A district may request an EOP waiver from the Superintendent of Public Instruction¹ if compliance with the EOP would adversely impact the finances of the district **or** if all conditions identified in ORS 340.083(1)(b)² exist.

¹ Oregon Department of Education

² The district does all of the following:

1. Offers a dual credit program, a two-plus-two program, an advanced placement program, an International Baccalaureate program or any other accelerated college credit program;
2. Ensures that at-risk students who participate in the accelerated college credit programs are not required to make any payments for participation in the programs; and

Student Reimbursement

All textbooks, fees, equipment and materials provided to a student and paid for by the district are the property of the district.

Transportation Services

The district may provide transportation services to eligible students who attend eligible post-secondary institutions within the education service district boundaries of which the district is a component district.

If a post-secondary institution intends to provide special education and related services to an EOP participant, the institution shall enter into a written contract with the district of the student.

The contract shall include the following at a minimum:

1. Allowance for the student to remain in the program during the pendency of any special education due process hearing unless the parent or guardian and district agree otherwise;

3. Immediate notification to the district if the student engaged in conduct that may lead to suspension or expulsion; and
4. Immediate notification to the district of any complaint made by the parent or guardian of the student regarding the student's participation in the program at the institution.

District Alternative Programs

Any new program, agreement or plan that is developed after January 1, 2006, and is intended to provide access for public high school students to a post-secondary course, may be initiated at the discretion of the district and the post-secondary institution.

Dear _____,
(Student/Parent(s))

We are sending you this notice as required by law to notify you of potential opportunities under the Expanded Options Program (EOP). Your child may qualify as an eligible student participate in EOP if your child meets the criteria below and has not already completed course requirements for a high school diploma. If you are hosting a foreign exchange student, foreign exchange students are not permitted to participate in EOP.

Definitions

You may be permitted to participate if you are an eligible student applying to an eligible post-secondary institution for an eligible post-secondary course. An eligible student means a student enrolled in a public school and who is:

1. Is 16 years or older at the time of enrollment in a course under the EOP;
2. Is grade 11 or 12 or has not yet completed the required credits for grade 11 or 12, but the district has allowed the student to participate in the program;
3. Has developed an educational learning plan as described in this policy;
4. Has not successfully completed the requirements for a high school diploma; and
5. Is not a foreign exchange student.

An eligible post-secondary institution means:

1. A community college;
2. A state institution of higher education in the Oregon University System; and
3. The Oregon Health and Sciences University.

An eligible post-secondary course means:

1. Any nonsectarian course or program offered through an eligible post-secondary institution if the course or program may lead to high school completion, a certificate, professional certification, associate degree or baccalaureate degree;
2. It includes academic and professional technical courses and distance education courses;
3. It does not include a duplicate course, which is defined as course with a scope that is identical to the scope of another course.

Purpose

The purpose of this program is to:

1. Create a seamless education system for students enrolled in grades 11 and 12 to:
 - a. Have additional options to continue or complete their education;
 - b. Earn concurrent high school and college credits; and
 - c. Gain early entrance into post-secondary education.
2. Promote and support existing accelerated college credit programs, and support the development of new programs that are unique to a community's secondary and postsecondary relationships and resources;
3. Allow eligible students who participate in the EOP to enroll full-time or part-time in an eligible post-secondary institution;
4. Provide public funding to the eligible post-secondary institutions for educational services to eligible students to offset the cost of tuition, fees, textbooks, equipment and materials for students who participate in the EOP;
5. To increase the number of at-risk students earning college credits or preparing to enroll in a post-secondary institution.

Graduation and Course Credit

Participating in EOP will not adversely affect your child's ability to graduate because credit received from successfully completing an eligible post-secondary course may be applied towards high school graduation requirements. If, however, your child does not receive a passing grade in the eligible post-secondary course, your student may not receive credit towards high school graduation. Failure to successfully

complete an eligible post-secondary course may affect your child's ability to remain in or re-enroll in EOP.

D Selection

All eligible students may apply for EOP, but all eligible students who apply may not be accepted because of space limitations. Enrollment in EOP may be limited because of caps on total credit hours that will be awarded by the high school. Unless notified otherwise, the total number of credits awarded under EOP by each high school equals one-third of its enrollment in grades 9 through 12. (For example, if high school enrollment in grades 9-12 is 1,000 students, the high school may award no more than 330 credit hours for all students in EOP.) If qualified applications to EOP exceed space limitations, the district will establish a process that gives priority to at-risk students.

The definition of an at-risk student is a student who either qualifies for a free or reduced lunch program, or meets state or federal thresholds for poverty which entitles the student for services under certain provisions of the No Child Left Behind Act.

E Enrollment and Participation

To be eligible Participation in EOP depends on your child's acceptance by an eligible post-secondary institution to take an eligible post-secondary course. Your student will not be eligible for state financial aid. Your child will have all costs paid for by the district in the same manner as if your child was attending the public high school. The district will pay for textbooks, fees, equipment or materials, and any other cost associated with enrollment. You will be responsible for providing transportation to the eligible post-secondary institution. The district and the eligible post-secondary institution may be able to arrange transportation services, although this service may not always be available, depending on circumstances. If your child receives special education services, the district will continue to provide special education services under an individualized education program (IEP).

Your child is expected to comply with the same behavior and attendance standards if the child was attending the public high school. Failure to successfully complete an eligible post-secondary course or make satisfactory progress in the course may result in no credit receive toward graduation, removal from EOP, disciplinary action or referral to law enforcement.

Your child may participate in EOP for no more than two years. After two years, your child is no longer eligible. If your child is in grade 12 when he or she first enrolls, she may participate no more than the equivalent of one academic year in EOP. If you are enrolled in high school full time and you are taking a post-secondary course, you will not be awarded credit for that course under EOP.

If your child intends to enroll in a course that is already offered by the district, i.e., a duplicate course, your child will not be eligible to participate in EOP. A duplicate course is one that is similar in content and scope to another course already offered by or through the district. Your child should consider district-provided, educational alternative programs that offer post-secondary level courses.

If you disagree with the district's assessment that a course is a duplicate course as determined by the district, you may appeal the decision under the procedures outlined below.

F Contested Decisions/Appeal

If you disagree with the district's determination that a course is a duplicate course, you may appeal first to the superintendent. Your appeal must be in writing and contain at a minimum the following information: (1) name of student; (2) name of post-secondary course; (3) detailed description of post-secondary course; (4) name of duplicate course offered by high school; (5) detailed description of duplicate course offered by high school; and (6) reasons why you believe course is not a duplicate. You must initiate your appeal within 5 days of receiving notification that the post-secondary course is a duplicate. The superintendent will issue a written decision within 10 days.

If dissatisfied with the superintendent's decision, you may appeal next to the district board. Your appeal must be in writing. You must initiate your appeal within 10 days of receiving the superintendent's determination that the post-secondary course is a duplicate. The board will issue a written decision within 30 days.

If dissatisfied with the board's decision, you may appeal to the Superintendent of Public Instruction or designee after exhausting local procedures or after 45 days from filing a written complaint with the district, whichever occurs first. If you appeal to the Superintendent of Public Instruction or designee, you must comply with all requirements under OAR 581-022-1940.

Student Notification to District

If you have questions, please call the district office. Please respond to this notice before May 15 of your intent to enroll in an eligible post-secondary course during the following school year. If you decide to enroll in an eligible post-secondary course, we will schedule a meeting with your advisory support team to develop an educational learning plan that addresses your short- and long-term academic and career goals. Thank you for your cooperation.

Sincerely,

Superintendent

Annual Expanded Options Program Notification (Version 2)

Alsea School District
301 3rd Street
Alsea, Oregon 97324
Phone: 541-487-4305

Date: _____

Student/Parent(s) or Guardian(s): _____

Address: _____

Dear _____,
(Student/Parent(s))

This notice is required by law to notify you of potential opportunities under the Expanded Options Program (EOP) for your student. Your student may qualify as an eligible student to participate in the EOP for the following school year if your student meets the criteria below.

Your student may be permitted to participate if they are an eligible student applying to an eligible post-secondary institution for an eligible post-secondary course. An “eligible student” means a student enrolled in a public school and who:

1. Is 16 years of age or older at the time of enrollment in a course under the EOP;
2. Is in grade 11 or 12 at the time of enrollment in a course under the EOP or has not yet completed the required credits to be in grade 11 or 12, but the district has allowed the student to participate in the program;
3. Has developed an educational learning plan as described in Board policy IGBHE - Expanded Options Program;
4. Has not successfully completed the requirements for a high school diploma; and
5. Is not a foreign exchange student enrolled in a school under a cultural exchange program.

An “eligible post-secondary institution” means:

1. A community college;
2. A public university listed in ORS 352.002; and
3. The Oregon Health and Science University.

An “eligible post-secondary course” means any nonsectarian course or program offered through an eligible post-secondary institution if the course or program may lead to high school completion, a certificate, professional certification, associate degree or baccalaureate degree. It includes academic courses, career and technical education courses and distance education courses. It does not include a duplicate course, which is defined as “a course with a scope that is identical to the scope of another course”.

Purpose

The purpose of this program is to:

1. Allow eligible students who participate in the EOP to enroll full-time or part-time in an eligible post-secondary institution; and
2. Provide public funding to the eligible post-secondary institutions for educational services to eligible students to offset the cost of tuition, fees, textbooks, equipment and materials for students who participate in the EOP.

Graduation and Course Credit

Participating in the EOP will not adversely affect your student’s ability to graduate because credit received from successfully completing an eligible post-secondary course may be applied toward high school graduation requirements. If, however, your student does not receive a passing grade in the eligible post-secondary course, your student may not receive credit toward high school graduation.

Selection

An eligible student may apply for the EOP, but an eligible student who applies may not be accepted because of space limitations. Enrollment in the EOP may be limited because of caps on total credit hours that will be awarded by the high school. Unless notified otherwise, the total number of credits awarded under the EOP by each high school equals one-third of its enrollment in grades 9 through 12. (For example, if high school enrollment in grades 9 through 12 is 1,000 students, the high school may award no more than 330 credit hours for all students in the EOP.) If qualified applications to the EOP exceed space limitations, the district will establish a process that gives priority to “at-risk students”.

Enrollment and Participation

To be eligible, participation in the EOP depends on your student’s acceptance by an eligible post-secondary institution to take an eligible post-secondary course. Your student will not be eligible for state financial aid. Your student will have all costs paid for by the district in the same manner as if your student was attending the public high school. The district will pay for textbooks, fees, equipment or materials and any other cost associated with enrollment. You will be responsible for providing transportation to the eligible post-secondary institution. The district and the eligible post-secondary institution may be able to arrange transportation services, although this service may not always be available, depending on circumstances. If your student receives special education services, the district will continue to provide special education services under an individualized education program (IEP).

Your student is expected to comply with the same behavior and attendance standards as if the student was attending the public high school. Failure to successfully complete an eligible post-secondary course or

make satisfactory progress in the course may result in no credit received toward graduation, removal from the EOP, disciplinary action or referral to law enforcement.

Your student may participate in the EOP for no more than two years. After two years, your student is no longer eligible. If your student is in grade 12 when they first enroll, your student may participate no more than the equivalent of one academic year in the EOP. If your student is enrolled in high school full-time and they are taking a post-secondary course, your student will not be awarded credit for that course under the EOP. If a student first enrolls in an eligible post-secondary course in the middle of the school year, the time of participation shall be reduced proportionately. If a student is enrolled in a year-round program and begins each grade in the summer session, summer sessions are not counted against the time of participation.

If your student intends to enroll in a course that is already offered by the district, *i.e.*, a duplicate course, your student will not be eligible to participate in the EOP. You will be notified within 20 business days after the student has submitted the list of intended courses if a specific course is denied and is considered a duplicate course. A “duplicate course” is one with a scope that is identical to the scope of another course. Your child should consider district-provided, educational alternative programs that offer post-secondary level courses.

If you disagree with the district’s assessment that a course is a duplicate course as determined by the district, you may appeal the decision under the procedures outlined below.

Contested Decisions/Appeal

If you disagree with the district’s determination that a course is a duplicate course, you may appeal to the Board. Your appeal must be in writing and contain at a minimum the following information: (1) name of student; (2) name of post-secondary course; (3) detailed description of post-secondary course; (4) name of duplicate course offered by high school; (5) detailed description of duplicate course offered by high school; and (6) reasons why you believe course is not a duplicate. You must initiate your appeal within five days of receiving notification that the post-secondary course is a duplicate.

The Board will issue a written decision on the appeal within 30 business days of receipt of the appeal.

If dissatisfied with the Board’s decision, you may appeal the decision to the Superintendent of Public Instruction or designee under Oregon Revised Statute (ORS) 340.030.

Student Notification to District

If you have questions, please call the district office. Please respond to this notice before May 15 if your student intends to enroll in an eligible post-secondary course during the following school year. If your student decides to enroll in an eligible post-secondary course, we will schedule a meeting with your advisory support team to develop an educational learning plan that addresses your student’s short-term and long-term academic and career goals. Thank you for your cooperation.

Sincerely,

Superintendent or designee

Extracurricular Activities

~~Extracurricular activities are an integral part of school life and often require as much planning and supervision as academic subjects. All students, regardless of their ability levels, should be encouraged to take part in extracurricular activities. Care must be taken to ensure that these activities do not take precedence over subject matter areas, but remain in the position of supplementing the actual courses of study.~~

~~Representative student governments, student clubs and other activities are recognized as providing worthwhile learning experiences for many students. The formation of such organizations is authorized and encouraged insofar as they are established and conducted in a manner consistent with district policies and regulations, have staff sponsors and serve a stated purpose that complements district and school goals. Cocurricular/Extracurricular activities will be organized, supervised activities conducted under the sponsorship of the district.~~

Cocurricular/Extracurricular activities are considered to be any activity such as, but not limited to, student government, contests, athletics and clubs. Participants in these activities will be subject to the basic rules pertaining to cocurricular/extracurricular activities and the district's student code of conduct.

These rules are to be followed and enforced by activity coaches or advisors. Offenses will be handled by district-approved procedures.

Students who represent the school in voluntary activities may be required to conform to dress and grooming standards approved by the superintendent and may be denied the opportunity to participate if those standards are not met.

Activity advisors or coaches who issue any additional rules for individual activities must obtain approval from the superintendent or designee prior to allowing participation.

Student Organizations

All members of the school community including staff, faculty, administrators and the Board are responsible for the activities that are conducted in the schools. It is important, therefore, to the orderly use of district school facilities that the use of all space be approved and planned in advance. An attempt shall be made to present a balance of viewpoints.

Students may be permitted to hold meetings on district school property before or after the regular student school day under the following conditions:-

1. The meeting shall be scheduled in advance following Board policy KG - Community Use of District Facilities;
2. All meetings must be approved by the principal or designee;
3. The meeting may be sponsored by school officials, official school clubs or organizations and nonschool organizations.

In addition to the requirements of Board policy, the following restrictions shall apply:

1. Normal class activities shall not be interrupted;
2. The meeting shall not incite hazard to person or property;
3. No group which encourages or advocates the violation of federal laws, state laws or school rules shall be granted use of district facilities;
4. No speaker who encourages or advocates breaking the law shall be invited to speak.

If a crowd is anticipated, a crowd control plan shall be filed in the building administration office two days in advance of the meeting for final approval.

Students may have the right to gather informally during the regular student school day provided they meet the following criteria:

1. Students gathered informally shall not disrupt the orderly operation of the educational process;
2. Students gathered informally shall not infringe upon the rights of others to pursue their activities.

Student organizations may be curriculum related or voluntary student initiated clubs that are not curriculum related.

“Curriculum related” student organizations must meet one of the following:

1. Group’s subject matter is actually taught (or will soon be taught) in a regularly offered course;

2. Group's subject matter concerns the body of courses as a whole; or
3. Participation in the group is required for a particular course or results in academic credit.

“Voluntary student-initiated clubs” must:

1. Be voluntary and student-initiated;
2. Not be sponsored by the school, the government or its agents or employees;
3. Not materially and substantially interfere with the orderly conduct of educational activities within the school;
4. Not be directed, controlled, conducted or regularly attended by “nonschool” persons.

Definitions:

1. “Non-instructional” means time set aside by the school before actual classroom instruction begins or after actual classroom instruction ends;
2. “Sponsorship” means an act of promoting, leading or participating in a meeting. The assignment of a teacher, administrator or other school employee to a meeting for custodial purposes does not constitute sponsorship of the meeting.

The Equal Access Act preserves the authority of the school, its agents and employees to maintain order and discipline on school premises, to protect the well-being of students and staff, and to assure that their attendance at meetings is voluntary.

Schools may prohibit meetings which would materially and substantially interfere with the orderly conduct of educational activities within the school.

In a “limited open forum” situation, schools may not deny equal access of fair opportunity to, or discriminate against student-initiated clubs on the basis of religious, political, philosophical or other content of the speech at such meetings.

If the meetings are religious, the school may not influence the form of any religious activity.

Interscholastic activities when provided by the district will comply with Title IX and other nondiscrimination laws.

District employees, students, parents, alumni, and activity volunteers are prohibited from inducing or attempting to induce a student to attend a district school for interscholastic activity eligibility or participation. The principal, activities director, advisors and coaches are each responsible for ensuring student participants meet all district and OSAA eligibility requirements of participation and those of the associated voluntary organization. The principal or designee is responsible for ensuring accurate certification regarding the eligibility of participating students and for verifying that athletic directors, coaches of sports, and activity advisors have all required certifications prior to assuming their duties. The principal or designee shall ensure that a program is in place to effectively evaluate the performance of all coaches and activity advisors under their supervision.

Volunteers may be approved to assist with district activities with prior approval from the principal.

The principal shall investigate all allegations of district student ineligibility, staff recruitment violations or other student or staff conduct that may violate Board policies, administrative regulations, and/or the OSAA rules and regulations of the associated voluntary organization. The superintendent will develop procedures, as necessary, to implement this policy, including a process to ensure that all district rules governing the conduct of students, staff, and volunteers engaged in district activities are regularly reviewed and updated.

The district will annually review interscholastic activities and participation to determine whether the current offerings reflect the students the district serves.

Participation projections will be based on current year's participation and anticipated changes for the following year. Each year the athletic director will submit coaching level recommendations to the superintendent by the budget deadline for the following year.

b. Sign-up sheets:

The athletic director will post sign-up sheets to determine interest in participation before the beginning of each sport season. The cutoff date for sign-ups will be no later than eight weeks before the first practice date. Fall sport sign-ups will be posted prior to the end of the previous school year.

b. Assistant coaches:

Assistant coaching positions will be included in the proposed budget according to participation projections, anticipated changes and reasonable estimations of total assistant coaching positions.

3. Hiring of coaches:

a. Spring

Staffing levels will be determined subsequent to the approval of the following year's budget based on projected participation. When projections clearly indicate staffing needs, those positions will be filled as soon as practicable.

b. Current year hiring:

When projections do not clearly indicate staffing needs, the athletic director will make staffing recommendations to the superintendent based on the pre-season sign-up sheets. These recommendations should be made eight weeks before the season begins or as soon as practicable.

- c. Once the superintendent has approved filling coaching positions, the athletic director will post open positions and begin the hiring process according to district policy. Returning coaches may be recommended for rehire without opening the position.

Instructional Resources/Instructional Materials

(Version 1)

(see updated version)

The Board is responsible for the selection of instructional materials. The Board delegates to district professional personnel the authority for the selection of instructional and library media materials in accordance with the policy below.

Selection Objectives

When reviewing and selecting instructional materials, the objectives will be:

1. To select materials that will provide improvements in content, organization and teaching methods;
2. To ensure accurate and up-to-date content that includes new concepts, insights and facts;
3. To provide for sequential growth from level to level;
4. To provide a fair representation of the many religious, ethnic and cultural groups and their contributions to our American heritage;
5. To provide recognition of minority groups and women by placing them frequently in positions of leadership and example. There will be no discrimination or bias or prejudice toward sex, sexual orientation, race, religion, national origin, marital status, disability or age.

The district will establish a process and timeline for regularly determining and considering whether the textbooks and other instructional materials are available through online resources that enable students with print disabilities to receive textbooks and instructional materials free of charge.

Textbooks and other instructional materials adopted by the Board shall be selected by the appropriate professional personnel in consultation with parents and citizens. The input of staff and students will be encouraged. Final decisions on purchase will rest with the superintendent or designee, subject to official adoption by the Board in the case of textbooks and other instructional materials.

Selection Criteria

All materials selected will be consistent with the following principles:

1. Materials that enrich and support the curriculum, taking into consideration the varied interests, abilities and maturity levels of the students served;
2. Materials that stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards;

3. A background of information which will enable students to make intelligent judgments in their daily lives;
4. Materials on opposing sides of controversial issues, so that young citizens may develop, under guidance, the practice of analytical reading and thinking;
5. Materials representative of the many religious, ethnic and cultural groups, showing their contributions to our heritage.

The above principles will serve as a guide in the selection of all instructional and library media materials.

To be in compliance with the requirements of federal law, the Board directs the superintendent to distribute curriculum materials and instructional supplies to district schools in such a manner that ensures all schools receive equivalent materials.

Any resident or employee may challenge the appropriateness of the district’s instructional materials. The district will provide a procedure to process such challenges.

Instructional Resources/Instructional Materials (Version 2)

The Board believes that proper care and judgment should be exercised in selecting basic instructional materials. While the Board retains the authority to approve district instructional materials adoptions, it authorizes the superintendent to develop and implement administrative regulations governing how selections are determined. Such procedures will provide for administrator, staff, parent, student and community involvement and employ suitable selection criteria to ensure that the recommended instructional materials will meet the needs of the program, students, teachers and community.

The district will review instructional materials in accordance with the State Board of Education adoption cycle. Each instructional program and basic instructional materials will be reviewed on a seven-year cycle and recommendations for appropriate instructional materials will be made.

Recommended instructional resources and materials will be free of racial, color, national origin, religious, disability, age, marital status, gender identity, sexual orientation or sexual bias. The instructional materials will contain appropriate readability levels, support the district's adopted curriculum content, provide ease of teacher use, be attractive and durable and be purchased at a reasonable cost.

The district will establish a process and timeline for regularly determining and considering whether the textbooks and other instructional materials are available through online resources that enable students with print disabilities to receive textbooks and instructional materials free of charge.

All basic instructional materials recommended for adoption need to be approved for use by the Board. Prior to Board approval, parents, students and interested district patrons will have the opportunity to review the recommended instructional materials and be encouraged to provide opinions about them and their use in the classrooms.

All supplementary materials and library/ media resources will be selected cooperatively by teachers, principals, librarians and sometimes with the assistance of students and parents. Recommended supplementary materials and library/media resources will also be free of racial, color, national origin, religious, disability, age, marital status, gender identity, sexual orientation or sexual bias. The instructional materials will contain appropriate readability levels, support the district's adopted curriculum content, provide for ease of teacher use, be attractive and durable and be purchased at a reasonable cost.

To be in compliance with the requirements of federal law, the Board directs the superintendent to distribute curriculum materials and instructional supplies to district schools in such a manner that ensures all schools receive equivalent materials.

Instructional Materials/Program Adoption Procedure

1. Prior to an adoption study, teachers, administrators, parents, citizens and students may suggest materials they feel should be considered for adoption. Their specific suggestions or recommendations should be submitted to the curriculum coordinator/curriculum administrator of the content area to be reviewed.
2. The curriculum coordinator/curriculum administrator will compile and present all suggestions listed in Step 1 to the review committee. The review committee will be comprised of the curriculum committee and at least two parents selected by the curriculum coordinator/curriculum administrator to represent elementary and secondary levels.
3. In order to inform constituents of the review process, an announcement will be made at a regular Board meeting, a press release will be written and parents will be notified at each building within one month of the committee's first meeting.
4. The committee will conduct a preliminary study of materials suitable for basic adoption. Publishers and curriculum consultants may be invited to participate in the study. Material under consideration for adoption by the committee will be available for review by district constituents upon request. An evaluation/rating instrument will be employed for all program/instructional materials considerations. The committee will decide whether to first initiate a pilot or trial use of a particular series or text or to proceed directly with an adoption. Any trial use or pilot should be coordinated and compatible with the proposed revisions in the curriculum guide. The proposed pilot or trial use must have approval of the principal and the teachers involved.
5. After a trial use in the classroom and/or committee review, the committee will release results of its evaluation on the programs/instructional materials studied to the cabinet. Specific recommendations will be prepared and forwarded to the cabinet. The committee must show evidence of having used an evaluation or instrument to ensure conformity with curriculum program goals.
6. The cabinet will review the recommended adoption and ensure that:
 - a. Appropriate procedures have been complied with;
 - b. Compatibility exists with other texts or skills presented at the same grade level in other curriculum areas;
 - c. The cost is within budgeted amounts.

The cabinet may forward a recommendation to the superintendent either accepting the adoption proposal or referring it back to the committee for revision or further study.

7. The superintendent will decide after reviewing the recommendation to either send the proposal back to the committee for further review or to forward it to the Board for approval.
8. The Board may rule on the adoption recommendation or direct the superintendent to further action as it deems appropriate or conducive to reach established goals and objectives.

9. It is the principal's responsibility to implement and maintain the district-adopted instructional materials/programs. Exceptions to the district-adopted instructional materials/programs could occur only after following the procedure defined below:
- a. If a teacher has a concern regarding the effectiveness/appropriateness of the program adoption in the teacher's assignment area, the teacher may submit that concern in writing to the administrator. If the administrator shares that concern, the administrator may refer the concern to the superintendent. The superintendent will refer the concern to the curriculum administrator/coordinator for a recommendation. The superintendent will issue a decision on the concern after receiving the recommendation;
 - b. If an administrator has a concern regarding the effectiveness/appropriateness of the program adoption, or if the administrator would like to field test/pilot a specific program, the concern or the request to pilot/field test must be submitted to the superintendent for a decision. Should any pilot or field test justify continuation beyond a single school year, the continued use requires the superintendent's approval.

Instructional Materials/Program Adoption Procedure

Section I - Selection

The director of curriculum and instruction will see that each subject area specialist appoints a committee with a representative from each grade level and each building to serve as a instructional materials selection committee. The committee will review all new instructional materials of their subject and in consideration of input from teachers of all grade levels, parents and citizens, will recommend the titles for district adoption.

The director of curriculum and instruction may conduct in-service meetings for employees to explain the materials and answer questions. In-service may consist of techniques such as:

1. Staff meetings at individual schools;
2. Resource teacher meetings;
3. Summer school demonstration class;
4. Available materials may be left at the school as long as time permits and until all those concerned have had an opportunity to review.

The teaching staff and principal of each school will review and select the instructional materials and quantities needed to fulfill the needs of the students. Each principal will submit to the superintendent a written request for the selected materials.

The principals and director of curriculum and instruction will meet and review each school's selection of instructional materials.

The requests for each school are consolidated by the superintendent into a district composite requisition.

Instructional materials are adopted for a period of not less than two years nor more than five years after the date of first use.

A yearly October report of all basic instructional materials adopted by the district is submitted to the superintendent by the director of curriculum and instruction. The report contains:

1. A list of course and/or curriculum areas;
2. Title of the instructional materials adopted for each course and/or area;
3. Grade(s) in which the materials are used;

4. Name of publisher and/or author;
5. Copyright date;
6. Year the material was first adopted by the district.

Use of Feature Films/Videos**

(Version 1)

(see recommended version)

The Board recognizes that the showing of commercially produced and rated feature films and videos has a legitimate purpose in a school's educational program. However, since the content of these feature films customarily is designed for general audience viewing, the Board feels certain precautions should be taken to ensure the showing of a particular film is consistent with the educational goals espoused by the district. Generally, only films rated G, PG or PG-13 may be shown as part of the school program. However, it is also recognized that occasionally an R-rated film may extend or enrich the curriculum. An example is the film **Schindler's List**. In these instances, an administrator will evaluate the film for its relevance and educational value. This may involve discussing the film with the instructor and possibly previewing it. The administrator's decision will be final. The showing of these films is restricted to upper secondary (sophomore-senior) classes.

Films/Videos provided by the Linn-Benton-Lincoln Education Service District are not subject to this policy or the related administrative regulation. Staff using these resources are expected to preview the material to ensure content is consistent with course requirements.

No student shall be penalized for not participating in the viewing of film/video shown as part of a class when his/her parent has requested he/she be excused.

The Board directs administrative procedures be developed to allow the educational use of commercial films rated other than G when:

1. A administrator has approved the use;
2. Provision is made for parent preview when practicable;
3. Prior written parent consent is received.

The Board recognizes the showing of commercially produced and rated feature films and videos may have a legitimate purpose in a school's educational program. Since the content of these feature films or videos customarily is designed for general audience viewing, the Board feels certain precautions should be taken to ensure the showing of particular films or videos is consistent with the educational values espoused by the district.

All copyright laws must be followed.

Only films rated G, PG, PG-13 or other non-rated media may be shown as part of the school program directly tied to district approved curriculum. The Board directs administrative regulations be developed to accomplish this objective, including the provision that parents or guardians have the opportunity to preview a film when practicably possible and that parents or guardians must give prior consent before their student views a film rated PG or PG-13.

Any media materials that are not rated are subject to the approval of the administrator prior to viewing.

Use of Feature Films/Videos in the School**

(Version 1)

(see recommended version)

Commercial feature films/videos rated G, PG or PG-13 may be shown as part of the school instructional program. Moreover, a parent shall be afforded the opportunity to preview a film/video whenever practicable. Prior parental consent will be required for student viewing of any film/video rated other than G. Edited or unrated films will be shown only with the approval of the administrator. If there is any question regarding the content of a film/video, the staff member shall consult with the building administrator.

It is emphasized that the showing of a film/video must have educational purpose and value. Instructors will be required to show a connection to the curriculum/benchmarks. Moreover, prior to showing a film/video, it is expected that appropriate communication has occurred between the instructor and the parents (what will be viewed, when it will be viewed, how it relates to the curriculum and parent options).

Prior to showing a PG or PG-13 feature film/video in class, the instructor must have the approval of the administrator. At least five working days prior to the showing, the instructor shall submit to the administrator a completed Film/Video Viewing Request Form which will address the following:

1. Title and synopsis;
2. Educational purpose;
3. How it meets course objectives;
4. Proposed date of showing;
5. When and how parents will be notified, or if necessary parental consent;
6. Audience rating (PG, PG-13, R);
7. The instructor has previewed the film in its entirety.

Feature films/videos rated other than G will also require parent consent before the film is viewed by the student(s).

Occasionally, there may be an R-rated film that extends or enriches the curriculum in a manner not possible through traditional instruction. In these instances, the instructor is required to submit to the administrator the information requested above 15 workdays prior to the showing of the film/video. Field trips and other curricular/cocurricular activities involving travel may be authorized by the superintendent or designee when such trips or activities contribute to the achievement of desirable educational/social/cultural goals.

In planning and authorizing such trips, primary consideration will be given to educational values derived, the safety and welfare of students involved, community standards of conduct and behavior on the part of all participants and the selection of appropriate adult supervision, either from within the school staff or from the parent and community volunteer pool.

Written parental permission must be obtained for each trip. The signed form showing parental approval and acknowledgment of student conduct guidelines will be maintained on file for a period of one year.

The administration will develop rules to ensure both students and adult supervisors are acquainted with the standards for conduct while representing the district. Such rules will reinforce district policy in areas such as alcohol, tobacco and unlawful drug use, procedure to be used in cases of illness or accident, and methods for communicating with administrators/parents in discipline and emergency situations.

All out-of-state and overnight travel must have prior Board approval. Such approval is predicated on an acceptable plan for travel arrangements, parental involvement, orientation of students and supervisors and support of the appropriate administrator(s).

Community Resource Persons

One goal of education is to prepare students to participate constructively in a democratic, pluralistic society, a society in which many differing opinions are held and differing causes are espoused. It is important that students develop an understanding of divergent ideas. It is also important that they develop judgment, a capacity to discern the difference between fact and opinion and to weigh arguments, slogans and appeals. Books, films and other media are valuable for giving students exposure to many differing ideas, but for effective learning it is also useful to invite appropriate persons not on the district educational staff to speak to or to meet with groups of students as part of the educational process.

No overall standard can be established which will automatically exclude, as a resource, the person whose views or manner of presenting them may obstruct the educational process or endanger the health and safety of students or staff. The Board establishes the following guidelines, however, in an effort to uphold students' freedom to learn while also recognizing obligations which the exercise of freedom entails:

1. The teacher, sponsor and school administrator are expected to exercise judgment and to investigate fully those proposed resource persons about whom questions may arise;
2. The teacher and sponsor Teachers/sponsors should encourage the use of resource persons representing various approaches or points of view on a given topic to afford students a more comprehensive understanding of it;
3. An appropriate record will be made of each resource person used and of that person's presentation;
4. The ideas presented and the resource person invited to present them will have a demonstrable relation to the curricular or cocurricular activity in which the participating students are involved;
5. The teacher or sponsor responsible for inviting the resource person, or any member of the school administration, has the right and duty to interrupt or suspend any proceedings if the conduct of the resource person is judged to be in poor taste or endangering the health and safety of students and staff.

Volunteers

Community patrons Citizens who voluntarily contribute their time and talents to the improvement and enrichment of the public schools' schools instructional and other programs are valuable assets. The Board encourages constructive participation of groups and individuals in the school to perform appropriate tasks during and after school hours under the direction and supervision of professional personnel.

~~Any person authorized by the district for volunteer service into a position having direct, unsupervised contact with students may be required to undergo an Oregon criminal records check.~~

A volunteer authorized by the district for service into a position that allows direct, unsupervised contact with students shall undergo an in-state criminal records check. A volunteer that will not likely have direct, unsupervised contact with students will be required to undergo an in-state criminal records check.

A volunteer who knowingly makes a false statement, as determined by the district, on a district volunteer application form will be denied the ability to volunteer in the district.

Any electronic communications with students by a volunteer for the district will be appropriate and only when directed by district administration. When communicating with students electronically regarding school-related matters, volunteers shall use district e-mail using mailing lists and/or other internet messaging to a group of students rather than individual students or as directed by district administration. Texting or electronically communicating with a student through contact information gained as a volunteer for the district is strongly discouraged.

Nonexempt employees¹ may be permitted to volunteer to perform services for the district provided the volunteer activities do not involve the same or similar type of services² as the employee's regularly assigned duties. In the event a nonexempt employee volunteers to perform services for the district that are the same or similar as the employee's regularly assigned duties, the Board recognizes that under the Fair Labor Standards Act (FLSA), overtime or compensatory time must be provided.³

The administration is responsible for the recruitment, use, coordination and training of volunteers. These assignments will be carried out as directed or delegated by the superintendent. Every effort should be made to use volunteer resources in a manner which will ensure maximum contribution to the welfare and educational growth of students.

¹ There are three types of FLSA exemptions: those for executive, administrative and professional employees. Generally, employees who are exempt under the executive, administrative or professional exceptions must primarily perform executive, administrative or professional duties at least 50% of the employee's time.

² Instructional assistant duties are generally viewed to be the same type of service, supervising and instructing students, as coaching.

³ Districts should review ~~with legal counsel~~ the use of non-exempt employees in extracurricular activity positions such as coaching, ~~and as advisers for cheerleading advisers~~ and other district-sponsored activities ~~with legal counsel~~ for FLSA district impact.

Academic Achievement**

The Board believes it is important that teachers have as much accurate knowledge of student achievement as possible to assess students' needs and growth; thus, a sharing of information among parent, teacher and student is essential.

The district shall ensure that all students have the opportunity to demonstrate progress toward mastery of the knowledge and skills of the student's current grade level or course content level. Students who have not yet met or who exceed all of the standards at any grade level, will be offered additional services or alternative educational or public school options.

The Board directs staff to follow these guidelines in measuring and determining student progress:

1. Parents and students will be informed regularly, at least four times a year, of their student's progress toward achieving the academic content standards, including but not limited to:
 - a. Information on progress in each subject area to meet or exceed the academic content standards at the student's current grade level or course content level, including major goals used to determine the information;
 - b. Specific evidence of student progress toward mastery of a continuum of academic knowledge and skills (academic content standards) of a subject area, upon request from a parent;
 - c. [Evidence of the student's progress in a continuum of knowledge and skills that are not academic and that may include student behaviors that are defined by the district;];
 - d. Student scores on all state and local assessments indicating any of the requirements that have been waived for the district or the individual and time periods for the waiver; and

4. At comparable levels, the school system will strive for consistency in grading and reporting except when this consistency is inappropriate for certain classes or certain students;
5. When no grades are given but the student is evaluated in terms of progress, the school staff ~~also~~ will show whether the student is achieving course requirements ~~at provide a realistic appraisal of the student's current grade level standing in relation to his/her peers;~~

Grading System

Assigning grades is the responsibility of each individual teacher and should be done in a fair and consistent manner. Grades should accurately reflect the student’s progress toward completing course requirements at the student’s current grade level or course content level; shall be based on the student’s progress toward master of a continuum of academic knowledge and skills; and may be based on the student’s progress in a continuum of knowledge and skills that are not academic and that may include student behaviors that are defined by the district.

The requirements of the class should be spelled out thoroughly at the beginning so students will be informed of what they have to do to get an “A, B, C” etc. An academic grade is used to indicate progress in learning and a citizenship grade for behavior. The academic grade is not to be influenced by a student’s behavior. This should be reflected in the citizenship grade only.

(Version 1)

(see updated version)

The Board will establish graduation requirements for the awarding of a high school diploma, a modified diploma, an extended diploma and an alternative certificate which meet or exceed state requirements. A student may satisfy graduation requirements in less than four years. The district will award a diploma to a student fulfilling graduation requirements in less than four years if consent is given by the student's parent or guardian or by the student if the student is 18 years of age or older or emancipated.

For any student identified above, the district shall accept any credits earned by the student in another district or public charter school, applying those credits toward the state requirements for a diploma if the credits satisfied those requirements in that district or public charter school.

Diploma

A high school diploma will be awarded to students in grades 9 through 12 who complete a minimum of 24 credits which include at least:

1. Three credits of mathematics (shall include one unit at the Algebra I level and two units that are at a level higher than Algebra I);

6. One credit in physical education; and
7. Three credits in career and technical education, the arts or world language (units shall be earned in any one or a combination).

The district shall offer students credit options provided the method for obtaining such credits is described in the student's personal education plan and the credit is earned by meeting requirements described in Oregon Administrative Rule (OAR) 581-022-2025.

To receive a diploma or a modified diploma, in addition to credit requirements, as outlined in OAR 581-022-2000 a student must:

Essential Skills Appeal

The district will follow Board policy KL - Public Complaints in the event of an appeal for the denial of a diploma based on the Essential Skills graduation requirement. The district will retain student work samples and student performance data to ensure that sufficient evidence is available in the event of an appeal.

Modified Diploma

A modified diploma will be awarded only to students who have demonstrated the inability to meet the full set of academic standards established by the State Board of Education for a diploma while receiving reasonable modifications and accommodations. A modified diploma may only be awarded to a student who meets the eligibility criteria below:

1. Has a documented history of an inability to maintain grade level achievement due to significant learning and instructional barriers; or

Districts may make modifications to the assessment for students who seek a modified diploma when the following conditions are met:

1. For a student on an individualized education program (IEP) or Section 504 plan, any modifications to work samples must be consistent with the requirements established in the IEP or 504 plan. Modifications include practices and procedures that compromise the intent of the assessment through a change in learning expectations, construct, or content that is to be measured, grade level standard, or measured outcome of the assessment. This means that IEP or 504 school teams responsible for approving modifications for a student's assessment may adjust the administration of the assessment and/or the assessment's achievement standard;
2. For a student not on an IEP or 504 plan, any modifications to work samples must have been provided to the student during their instruction in the content area to be assessed and in the year in which the student is being assessed, and modifications must be approved by the school team that is responsible for monitoring the student's progress toward the modified diploma.

Students not on an IEP or a 504 Plan may not receive a modified Smarter Balanced assessment.

A student's school team shall decide that a student should work toward a modified diploma no earlier than the end of grade six and no later than two years before the student's anticipated exit from high school. A student's school team may decide to revise a modified diploma decision.

A student's school team may decide that a student who was not previously working toward a modified diploma should work toward one when the student is less than two years from anticipated exit from high school if the documented history has changed.

 - b. A medical condition that creates a barrier to achievement; or
 - c. A change in the student's ability to participate in grade level activities as a result of a serious illness or injury that occurred after grade eight.

Beginning in grade five or beginning after a documented history to qualify for an extended diploma, the district shall annually provide to the parents or guardians of the student, information about the availability and requirements of an extended diploma.

Alternative Certificates

Alternative certificates will be awarded to students who do not satisfy the requirements for a diploma, a modified diploma or an extended diploma if the students meet minimum requirements established by the district.

Other District Responsibilities

The district will provide age appropriate and developmentally appropriate literacy instruction to all students until graduation.

The district may award a modified diploma or an extended diploma to a student only upon the written consent of a student who is emancipated or who has reached the age of 18 at the time the modified or extended diploma is awarded, or the student's parent or guardian. The district shall receive the written consent during the school year in which the modified diploma or the extended diploma is awarded.

A student shall have the opportunity to satisfy the requirements for a modified diploma, an extended diploma or an alternative certificate in either 4 years after starting the ninth grade, or until the student reaches the age of 21, if the student is entitled to a public education until the age of 21 under state or federal law.

A student may satisfy the requirements for a modified diploma, an extended diploma or an alternative certificate in less than four years but not less than three years. To satisfy the requirements for a modified diploma, extended diploma or alternative certificate in less than four years, the student's parent or guardian or a student who is emancipated or has reached the age of 18 must provide written consent which clearly states the parent, guardian or student is waiving the fourth year and/or years until the student reaches the age of 21. The district will award to students with disabilities a document certifying successful completion of program requirements. No document issued to students with disabilities educated in full or in part in a special education program shall indicate that the document is issued by such a program. When a student who has an IEP completes high school, the district will give the student an individualized summary of performance.

Eligible students with disabilities are entitled to a Free Appropriate Public Education (FAPE) until the age of 21, even if they have earned a modified diploma, an extended diploma, an alternative certificate or completion of a General Education Development document. The continuance of services for students with disabilities for a modified diploma, extended diploma or alternative certificate is contingent on the IEP team determining the student's continued eligibility and special education services are needed.

Students and their parents will be notified of graduation and diploma requirements.

The district will review graduation requirements biennially in conjunction with the secondary school improvement plan. Graduation requirements may be revised to address student performance.

The district may not deny a diploma to a student who has opted out of statewide assessments if the student is able to satisfy all other requirements for the diploma. Modifications include practices and procedures that compromise the intent of the assessment through a change in learning expectations, construct, or content that is to be measured, grade level standard, or measured outcome of the assessment. This means that IEP or 504 school teams responsible for approving modifications for a student's assessment may adjust the administration of the assessment and/or the assessment's achievement standard;
2. For a student not on an IEP or 504 plan, any modifications to work samples must have been provided to the student during their instruction in the content area to be assessed and in the year in which the student is being assessed, and modifications must be approved by the school team that is responsible for monitoring the student's progress toward the modified diploma.

Students not on an IEP or a Section 504 Plan may not receive a modified Smarter Balanced assessment.

A student's school team shall decide that a student should work toward a modified diploma no earlier than the end of grade six and no later than two years before the student's anticipated exit from high school.

A student's school team may decide to revise a modified diploma decision.

 - b. A medical condition that creates a barrier to achievement; or
 - c. A change in the student's ability to participate in grade level activities as a result of a serious illness or injury that occurred after grade eight.

Beginning in grade five or beginning after a documented history to qualify for an extended diploma, the district shall annually provide to the parents or guardians of the student, information about the availability and requirements of an extended diploma.

Alternative Certificates

Alternative certificates will be awarded to students who do not satisfy the requirements for a diploma, a modified diploma, or an extended diploma if the students meet minimum requirements established by the district.

Beginning in grade five or beginning after a documented history to qualify for an alternative certificate, the district shall annually provide to the parents or guardians of the student, information about the availability and requirements of an alternative certificate.

Other District Responsibilities

The district will ensure that students have onsite access to the appropriate resources to achieve a diploma, a modified diploma, an extended diploma, or an alternative certificate at each high school. The district will provide age-appropriate and developmentally appropriate literacy instruction to all students until graduation.

The district may not deny a student the opportunity to pursue a diploma with more stringent requirements than a modified diploma or an extended diploma for the sole reason the student has the documented history listed under the above modified diploma or extended diploma requirements.

The district may award a modified diploma or an extended diploma to a student only upon the written consent of a student who is emancipated or who has reached the age of 18 at the time the modified or extended diploma is awarded, or the student's parent or guardian. The district shall receive the written consent during the school year in which the modified diploma or the extended diploma is awarded.

A student shall have the opportunity to satisfy the requirements for a modified diploma, an extended diploma or an alternative certificate in the later of 4 years after starting the ninth grade, or until the student reaches the age of 21 if the student is entitled to a public education until the age of 21 under state or federal law.

A student may satisfy the requirements for a modified diploma, an extended diploma or an alternative certificate in less than four years but not less than three years. To satisfy the requirements for a modified diploma, an extended diploma or an alternative certificate in less than four years, the student's parent or guardian or a student who is emancipated or has reached the age of 18 must provide written consent which clearly states the parent, guardian or student is waiving the fourth year and/or years until the student reaches the age of 21. A copy of the consent will be forwarded to the district superintendent who will annually report to the Superintendent of Public Instruction the number of such consents.

A student who qualifies to receive or receives a modified diploma, an extended diploma, or an alternative certificate shall have the option of participating in a high school graduation ceremony with the student's class.

A student who receives a modified diploma, an extended diploma, or an alternative certificate shall have access to instructional hours, hours of transition services and hours of other services that are designed to meet the unique needs of the student and when added together provide a total number of hours of instruction and services that equals at least the total number of instructional hours that are required to be provided to students who are attending a public high school.

The district will award to students with disabilities a document certifying successful completion of program requirements. No document issued to students with disabilities educated in full or in part in a special education program shall indicate that the document is issued by such a program. When a student who has an IEP completes high school, the district will give the student an individualized summary of performance.

Eligible students with disabilities are entitled to a free appropriate public education (FAPE) until the age of 21, even if they have earned a modified diploma, an extended diploma, an alternative certificate or completion of a General Education Development document. The continuance of services for students with disabilities for a modified diploma, extended diploma or alternative certificate is contingent on the IEP team determining the student's continued eligibility and special education services are needed.

Students and their parents will be notified of graduation and diploma requirements.

The district may not deny a diploma to a student who has opted out of statewide assessments if the student is able to satisfy all other requirements for the diploma. Students may opt-out of the Smarter Balanced or alternate Oregon Extended Assessment by completing the Oregon Department of Education’s Opt-out Form⁷ and submitting the form to the district.

The district will issue a high school diploma pursuant to Oregon law (ORS 332.114) to a veteran if the veteran resides within the boundaries of the district or is an Oregon resident and attended a high school of the district, or to a deceased veteran, upon request from a representative of the veteran, if the deceased veteran resided within the boundaries of the district at the time of death or was an Oregon resident at the time of death and attended a high school of the district.

The act of student-initiated test impropriety is prohibited. A student that participates in an act of student-initiated test impropriety will be subject to discipline. “Student-initiated test impropriety” means student conduct that is inconsistent with the *Test Administration Manual* or accompanying guidance; or results in a score that is invalid.

Academic Integrity

The Board encourages the development of critical thinking skills in students, to show them the benefits of setting and accomplishing goals and to help the student realize the satisfaction and reward of learning.

Students are expected to put forth their best effort on tests and assignments. Students are expected to demonstrate respect toward their instructors and peers by encouraging and facilitating learning. Engaging in various forms of cheating or academic dishonesty does not permit students to realize the full extent of the educational experience or their full academic potential.

Students are encouraged to converse with others and assist other students except when it is inconsistent with testing or assignment instructions. This dialogue or exchange of ideas both inside and outside the classroom helps facilitate learning by everyone. Assisting others is prohibited when it would constitute academic dishonesty. Prohibited events include, but are not limited to, using or sharing prohibited study aides or other written materials on tests or assignments. Academic dishonesty also includes sharing, collaborating or communicating with others on tests or assignments, before or during tests or assignments, in violation of directions by the class instructor. Academic dishonesty may also include knowingly sharing false information or knowingly misleading another to reach a false answer or conclusion.

Violation of this policy may result in discipline as deemed appropriate by the instructor or administration, based on the nature and seriousness of the offense. Discipline may involve the district prohibiting the student from participating in school-sponsored activities or events; denial or revocation of school-conferred titles, distinctions, honors or privileges; or suspension or expulsion¹.

Assessment Program**

The district's assessment program shall be designed for the purpose of determining district and school program improvement and individual student needs including the requirements of the Oregon Administrative Rules (OAR) ~~581-022-0606, 581-022-1210 and 581-022-1670~~. Each year the district shall determine each student's progress toward achieving federal, state and local achievement requirements.

Assessments shall be used to measure the academic content standards and to identify students who meet or exceed the performance standards adopted by the State Board of Education.

Accordingly, the district shall maintain the following assessment program:

1. Criterion-reference assessments, including performance-based assessments, content-based assessments and other valid methods as may be required by state and federal requirements;
2. Individual diagnostic and ability evaluations in all grades when students have been referred and parental permission obtained;
3. Assessments by individual teachers;
4. ~~Other Optional~~ schoolwide and grade levelwide assessments, ~~as recommended by the superintendent and as approved by the Board.~~

It is the intent of the Board that progress be measured in a manner that clearly enables the student and parents to know whether the student is making progress toward meeting or exceeding academic content standards. District, school and individual results shall be reported to the Board, parents and the community, as prescribed by law.

The district shall make additional services or alternative educational or public school options available to any student who has not met or has exceeded all of the state-required academic content standards. Additionally, students in schools receiving Title I moneys that have been identified by the Oregon Department of Education (ODE) will be provided supplemental services and public school options as required by law.

The district shall not discriminate in the methods, practices and materials used for assessment, evaluating and counseling students on the basis of race, color, national origin, religion, sex, sexual orientation, gender identity, age, disability or marital status. Discrimination complaints shall be processed in accordance with established procedures.

Staff will receive in-service education in the use of designated assessments and interpretation of assessment results.

A parent on behalf of their student or an adult student may annually opt-out of taking a statewide summative assessment by completing and submitting ODE’s opt-out form¹ to the school. The district shall provide supervised study time for students who are excused from participating in the assessment. A student may be excused from the Oregon Statewide Assessment Program for disability or religious reasons. Parents and adult students will be provided the required notices² and access to forms by the district that include a time frame in which statewide assessments will take place, and an adult student’s or parent’s right to request an exemption from taking the statewide summative assessments.

The act of student-initiated test impropriety is prohibited. A student that participates in an act of student-initiated test impropriety will be subject to discipline. “Student-initiated test impropriety” means student conduct that is inconsistent with the *Test Administration Manual* or accompanying guidance; or results in a score that is invalid.

The superintendent shall ensure a periodic review and evaluation of the district’s assessment program is conducted.

The district is dedicated to a continuous system of instructional program renewal. This renewal process shall include identification of school and district needs for improvement of student achievement at the school and district levels. To this end, the district shall conduct self-evaluations that consider a review of test results and other evaluative information including, but not limited to, demographics, other student performance data, student access to and utilization of educational opportunities and staff characteristics.

The input of staff, students, parents and the local community will be encouraged.

A written district improvement plan shall be developed and implemented based on the district's self-evaluation and consistent with applicable Oregon Revised Statutes and Oregon Administrative Rules. Such plan, where appropriate, shall include, but not be limited to:

1. Continuous short-term and long-term staff development;

Studying Controversial Issues

(Version 1)

(see proposed version)

Since our society is based on the free exchange of ideas and diversity of political and social thought, it shall be the policy of this district to encourage unbiased, unprejudiced and scientific study of controversial issues as they arise as part of school curriculum. A controversial issue may be defined as any topic or problem which society is in the process of debating on which there is honest disagreement. Such issues arise when different interpretations are given to a particular set of circumstances.

The basic goal in studying controversial questions should be to enable the student to develop techniques for considering such questions; techniques which he/she will use habitually in later life. Learning situations shall provide opportunities for the development of clear thinking, balanced judgment, intelligent choices, informed opinion, an ability to differentiate fact from opinion and an understanding of propaganda devices. Questions treated should come within the range of the knowledge, maturity and competence of the students. Issues selected for study should be current, significant and of interest to the students.

The role of the teacher should be such as will reveal to students the processes used by the social scientist to identify, study and solve problems. The teacher shall avoid indoctrination in his/her own personal viewpoint and shall not attempt to control or limit the judgment of students. The selection of materials, guest speakers and classroom activities in general shall be done with studied impartiality for the purpose of fairly presenting all sides of an issue.

The administration of this policy in the district is the immediate responsibility of the superintendent under the guidance of procedures established by the superintendent.

Studying Controversial Issues (Version 2)

The Board supports the inclusion of controversial issues as part of students' education. The presentation and discussion of controversial issues will be informative. The development of ability to meet issues without prejudice and to withhold judgments while facts are being collected, assembled and weighed and to see relationships before drawing inferences or conclusions are among the most valuable outcomes of a free educational system.

Teachers will present an overall view of controversial issues and will guard against giving personal opinions until students have an opportunity to:

1. Find, collect and assemble factual material on the subject;
2. Interpret the data without prejudice;
3. Reconsider assumptions and claims and to reach their own conclusions.

By refraining from expressing personal views before and during the period of research and study, the teacher will encourage students to search after truth and to think for themselves.

Before beginning a class in the study of an obviously controversial topic, a teacher will discuss with the principal.

1. Its appropriateness to the course;
2. Its appropriateness for the students' maturity level;
3. The approach to instruction;
4. The instructional materials to be used.

Parental Rights

The Board recognizes the importance of promoting parental input in decision making related to their student's health and general well-being;¹ in determining district and student needs for educational services; and, in program development and district operations. To assist the district in this effort, and in accordance with law, the No Child Left Behind Act of 2001 (NCLBA), the district affirms the right of parents, upon request, to inspect:

1. A survey created by a third party before the survey is administered or distributed by the district to a student, including any district survey containing "covered survey items"¹ ~~as defined by NCLBA~~;
2. Any instructional material used by the district as part of the educational curriculum for the student;
3. Any instrument used in the collection of personal information from students for the purpose of marketing or for selling that information or otherwise providing that information to others for that purpose.

As provided by law, parents of district students will also, upon request, be permitted to excuse their student from "covered activities"² ~~as defined by NCLBA~~. The rights provided to parents under this policy, transfer to the student when the student turns 18 years of age^{old}, or is an emancipated minor under applicable state law.

The superintendent will ensure that activities requiring parental notification are provided as required by law and that reasonable notice of the adoption or continued use of this policy is provided to parents of students enrolled in district schools. The input of parents will be encouraged in the development, adoption and any subsequent revision of this policy.

The superintendent shall develop administrative regulations to implement this policy, including provisions as may be necessary to ensure appropriate notification to parents of their rights under federal law and district procedures to request review of covered materials, excuse a student from participating in covered activities and protect student privacy in the event of administration or distribution of a survey to a student.

¹ "Covered survey items" ~~under NCLBA~~ include one or more of the following items: political affiliations or beliefs of the student or the student's family; mental and psychological problems of the student or the student's family; sex behavior or attitudes; illegal, antisocial, self-incriminating or demeaning behavior; critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians and ministers; religious practices, affiliations or beliefs of the student or the student's parent; and income, other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such a program.

² "Covered activities," requiring notification, ~~under NCLBA~~ include activities involving the collection, disclosure or use of personal information collected from students for the purpose of marketing or for selling that information or otherwise providing that information to others for that purpose; the administration of any survey containing one or more of covered survey items; and any nonemergency, invasive physical examination or screening that is required as a condition of attendance and administered and scheduled by the school in advance. If not available in the form requested, it will be provided in the form the public record is maintained. If a person who is a party to a civil judicial proceeding to which the district is a party or who has filed notice under ORS 30.275 (5)(a), asks to inspect or to receive a copy of a public record that the person knows relates to the proceeding or notice, the individual must submit the request in writing to the designated custodian of district records and at the same time to the district’s attorney.

Employee and volunteer addresses, electronic mail addresses (other than district electronic mail addresses assigned by the district to district employees), social security numbers, dates of birth and telephone numbers contained in personnel records maintained by the district are exempt from public disclosure pursuant to ORS 192.445 and ORS 192.502 (3). Such information may be released only upon the written request of the employee or volunteer or as otherwise provided by law. This exemption does not apply to a substitute teacher, as defined in ORS 342.815, when requested by a professional education association of which the substitute teacher may be a member. District electronic mail addresses assigned by the district to district employees are not exempt. Additionally, the district will not disclose the identification badge or card of an employee without the employee's written consent if the badge or card contains the employee's photograph and the badge or card was prepared solely for internal use by the district to identify district employees. A duplicate of the photograph used on the badge or card shall not be disclosed.

Upon receipt of a request, the district will respond as soon as practicable and without unreasonable delay. The response must acknowledge the receipt of the request and one of the following:

1. A statement that the district does not possess, or is not the custodian of, the public record.
2. Copies of all requested public records for which the district does not claim an exemption from disclosure under ORS 192.410 to 192.505.
3. A statement that the district is the custodian of at least some of the requested public records, an estimate of the time the district requires before the public records may be inspected or copies of the records will be provided and an estimate of the fees that the requester must pay as a condition of receiving the public records.
4. A statement that the district is the custodian of at least some of the requested public records and that an estimate of the time and fees for disclosure of the public records will be provided by the district within a reasonable time.
5. A statement that the district is uncertain whether the district possesses the public record and that the district will search for the record and make an appropriate response as soon as practicable.
6. A statement that state or federal law prohibits the district from acknowledging whether the record exists or that acknowledging whether the record exists would result in the loss of federal benefits or other sanction. A statement under this paragraph must include a citation to the state or federal law relied upon by the district.

The district may request additional information or clarification from the requester for the purpose of expediting the district's response to the request.

The Board reserves the right to establish a fee schedule which will reasonably reimburse the district for the actual cost of making copies of public records for the public. There will be no additional charge for auxiliary aids and services provided for qualified persons with disabilities.

Requests for copies of documents shall be in writing and will be presented to the superintendent.

The district shall retain and maintain its public records in accordance with OAR 166, Division 400.

Firearms Prohibited

{Oregon law has allowed members of the public possessing a concealed carry license to carry firearms on district property in accordance with ORS 166.370(3)(g). Senate Bill (SB) 554 (2021) allows districts to prohibit even those with concealed carry licenses from carrying firearms by adopting a policy and posting notice at entry points.

OSBA considers this policy to be conditionally required because if the district wants to prohibit concealed carry licensees from carrying firearms on district property, the district must adopt a policy. If the district does not want to limit concealed carry licensees, the district does not need to adopt this policy.}

No person on grounds of the schools controlled by the Board (including in school buildings), will possess any firearm¹, except when said firearm is possessed by a person who is not otherwise prohibited from possessing the firearm, and is unloaded and locked in a motor vehicle. The exception provided in Oregon Revised Statute (ORS) 166.370(3)(g) for concealed carry licensees (see ORS 166.291 and 166.292) does not apply to the possession of firearms on grounds of the schools controlled by the Board.² Firearms under the control of law enforcement personnel are permitted. The superintendent may authorize other persons to possess weapons for courses, programs and activities when in compliance with law and board policy.

Any person violating or threatening to violate the above rules, as determined by the district, may be issued a trespass citation, ejected from the premises and referred to law enforcement officials³.

[The district will post clearly visible sign(s) at all normal points of entry to the school grounds subject to this policy indicating that the affirmative defense described in ORS 166.370(3)(g) does not apply. The district will post on the district's web pages designated for school board operations, identifying designated school grounds that are subject to this policy.]

(see updated version)

It is the district's obligation to protect the health, welfare and safety of students. To be consistent with Oregon law and district curriculum, student possession, use, distribution or sale of tobacco products or inhalant delivery systems in any form on district premises, at school-sponsored activities, on or off district premises, on all district grounds, including parking lots, in district-owned, rented or leased vehicles or otherwise, or while a student is under the jurisdiction of the school is prohibited.

The use, distribution or sale of tobacco products or inhalant delivery systems by staff and all others is prohibited on district premises, in any building or facility, on district grounds, including parking lots, in any vehicle owned, leased, rented or chartered by the district, school or public charter school and at all school-sponsored activities.

For the purpose of this policy, "inhalant delivery system" means a device that can be used to deliver nicotine or cannabinoids in the form of a vapor or aerosol to a person inhaling from the device; or a component of a device or a substance in any form sold for the purpose of being vaporized or aerosolized by a device, whether the component or substance is sold or not sold separately. This does not include USFDA-approved tobacco products or other therapy products marked and sold solely for the approved purpose.

Violation of this policy will lead to appropriate disciplinary action up to and including expulsion for students. When considering disciplinary action for a student with disabilities, the district must follow the requirements of Board policy JGDA/JGEA - Discipline of Students with a Disability, including those involving functional behavioral assessment, change of placement, manifestation determination, and an interim alternative educational setting. Violation of this policy by nonstudents may result in the individuals removal from district property. The district reserves the right to restrict access to district property by individuals who are repeat offenders.

the visitors' course of conduct would conflict with Board policies, district or building regulations or would violate the law.

A direction to leave revokes any permission to visit or license to enter. Whenever possible, the direction should ~~involved before granting approval. In each instance, at least 24 hours notice will~~ be given in writing or followed by written notice which identifies the issuer and gives a brief statement of the reason for the direction to leave. - c. The administrator shall verify and record the identity of the law enforcement official or other authority.
- d. Requests to interview a student during school hours should be, in the opinion of the administrator, important and urgent to justify interrupting school activities.
- e. The administrator will attempt to notify the student's parent(s) prior to granting the interview. If the parent(s) does not give consent to have their child/his/her son/daughter interviewed, then the interview should not take place.
- f. If the parent(s) cannot be contacted, the administrator may grant permission for the questioning to proceed if the student agrees to be interviewed or in the event of compelling emergency circumstances.
- g. If the administrator has been unable to contact the parent(s) then the administrator shall make a reasonable attempt to notify the parent(s) as soon as possible after the interview.
- h. All such interviews shall be conducted in privacy, out of the view of staff, students and others.
- i. An administrator shall be present at all times during the interview unless the student's parent(s) is present and asks the administrator not to participate or the district official is otherwise prohibited from being present by law.
- j. The building administrator shall maintain a written record of all such interviews conducted.

2. **Questioning of a Student Suspected of a Crime, Arrest of a Student or Taking a Student into Custody**

- a. When a student is a suspect in a criminal act and is to be questioned by a law enforcement official for the purpose of establishing involvement in the act, questioning will be allowed on district property only with parental consent. Normally, such questioning should occur outside school hours, off district property.
- b. At no time will a student be released to a law enforcement officer without one of the following:

 - (4) Protective custody resulting from child-abuse of a child investigation;
 - (5) Permission of the parent.
- c. In all cases, other than child-abuse of a child cases, where a student is to be taken from the building by a law enforcement official, the administrator will verify the official's identity and make a reasonable effort to notify the student's parent(s). Law enforcement officials have the primary responsibility for notifying the parent(s) in such instances. Administrators must request law enforcement officials to complete the appropriate form provided by the district. (See KN-AR(2) - Investigations Conducted on District Premises)

Abuse of a Child Investigations

- d. ~~Any investigation of child abuse will be directed by Department of Human Services or law enforcement officials as required by law. The administrator or designee will request documentation from the investigating official demonstrating that the official has a warrant, a court order, exigent circumstances or parental consent to conduct the interview. If the investigating official does not have this documentation, the administrator may deny the official's request to interview the student on school property. The administrator or designee may be present at the interview of the student at the discretion of the investigating official.~~

~~When the subject matter of the interview or investigation involves child abuse, administrators and district employees shall not notify the parent.~~

3. Any investigation of abuse of a child will be directed by the Oregon Department of Human Services (DHS) or law enforcement officials as required by law. The DHS or law enforcement agency will first notify the administrator of the investigation, unless the administrator is a subject of the investigation. The administrator or designee must request the investigating official fill out the appropriate form (See JHFE-AR(2) – Abuse of a Child Investigations Conducted on District Premises). If the investigating official refuses to fill out or sign the form, the administrator may complete the form but should not deny the official’s request to interview the student on school property. If the investigating official does not have adequate identification the administrator shall refuse access to the student. The administrator or designee may be present at the interview of the student at the discretion of the investigating official. When the subject matter of the interview or investigation involves abuse of a child, administrators and school employees shall not notify the parents.

Administrator -Initiated Requests

On occasion, principals may need, or be required to seek law enforcement assistance. Any student violation of the district’s weapons policy shall be reported to the appropriate law enforcement agency. Abuse of a child also requires immediate referral to the DHS Department of Human Services or law enforcement officials. Additionally, principals and/or designee(s) may report to law enforcement officials, other violations of law occurring on district property or at school-sponsored activities as deemed appropriate.

(DISTRICTS MAY ADD ADDITIONAL STUDENT VIOLATIONS THAT ADMINISTRATORS ARE REQUIRED TO REPORT TO LAW ENFORCEMENT OFFICIALS, AS APPROPRIATE.)

The determination for other purposes depends on evaluation of those factors and a power of attorney executed pursuant to ORS 109.056. For special education students, parent also includes a surrogate parent, an adult student to whom rights have transferred and foster parent as defined in OAR 581-015-2000.

Sexual Harassment

(Version 1)

(see updated version)

The Board is committed to the elimination of sexual harassment in district schools and activities. Sexual harassment is strictly prohibited and shall not be tolerated. This includes sexual harassment of students, staff or third parties by other students, staff, Board members or third parties. "Third parties" include, but are not limited to, school volunteers, parents, school visitors, service contractors or others engaged in district business, such as employees of businesses or organizations participating in cooperative work programs with the district and others not directly subject to district control at interdistrict and intradistrict athletic competitions or other school events. "District" includes district facilities, district premises and nondistrict property if the student or employee is at any district-sponsored, district-approved or district-related activity or function, such as field trips or athletic events where students are under the control of the district or where the employee is engaged in district business. The prohibition also includes off duty conduct which is incompatible with district job responsibilities.

Sexual harassment of students and staff shall include, but is not limited to, unwelcome sexual advances, requests for sexual favors and other verbal, nonverbal or physical conduct of a sexual nature when:

1. The conduct or communication has the purpose or effect of demanding sexual favors in exchange for benefits;
2. Submission to or rejection of the conduct or communication is used as the basis for educational decisions affecting a student or employment or assignment of staff;
3. The conduct or communication is so severe, persistent or pervasive that it has the purpose or effect of unreasonably interfering with a student's educational performance or with an employee's ability to perform his/her job; or creates an intimidating, offensive or hostile educational or working environment. Relevant factors to be considered will include, but not be limited to, did the individual view the environment as hostile; was it reasonable to view the environment as hostile; the nature of the conduct; how often the conduct occurred and how long it continued; age and sex of the complainant; whether the alleged harasser was in a position of power over the student or staff member subjected to the harassment; number of individuals involved; age of the alleged harasser; where the harassment occurred; and other incidents of sexual harassment at the school involving the same or other students or staff.

Examples of sexual harassment may include, but not be limited to, physical touching or graffiti of a sexual nature, displaying or distributing of sexually explicit drawings, pictures and written materials, sexual gestures or obscene jokes, touching oneself sexually or talking about one's sexuality in front of others or spreading rumors about or rating other students or others as to appearance, sexual activity or performance.

All complaints about behavior that may violate this policy shall be promptly investigated. Any student, employee or third party who has knowledge of conduct in violation of this policy or feels he/she is a victim of sexual harassment must immediately report his/her concerns to the principal, compliance officer

or superintendent, who has overall responsibility for all investigations. A student may also report concerns to a teacher, counselor or school nurse, who will promptly notify the appropriate district official. The student and the student’s parents or staff member who initiated the complaint shall be notified of the findings of the investigation and, if appropriate, that remedial action has been taken.

The initiation of a complaint in good faith about behavior that may violate this policy shall not adversely affect the educational assignments or study environment of a student complainant or any terms or conditions of employment or work environment of the staff complainant. There shall be no retaliation by the district against any person who, in good faith, reports, files a complaint or otherwise participates in an investigation or inquiry of sexual harassment.

It is the intent of the Board that appropriate corrective action will be taken by the district to stop the sexual harassment, prevent its recurrence and address negative consequences. Students in violation of this policy shall be subject to discipline up to and including expulsion and/or counseling or sexual harassment awareness training, as appropriate. The age and maturity of the student(s) involved and other relevant factors will be considered in determining appropriate action. Employees in violation of this policy shall be subject to discipline, up to and including dismissal and/or additional sexual harassment awareness training, as appropriate. Other individuals whose behavior is found to be in violation of this policy shall be subject to appropriate sanctions as determined and imposed by the superintendent or Board.

Additionally, the district may report individuals in violation of this policy to law enforcement officials. Licensed staff, staff registered with the Teacher Standards and Practices Commission (TSPC) and those participating in practicum programs, as specified by Oregon Administrative Rules, shall be reported to TSPC.

The superintendent shall ensure appropriate periodic sexual harassment awareness training or information is provided to all supervisors, staff and students and that annually, the name and position of district officials responsible for accepting and managing sexual harassment complaints, business phone numbers, addresses or other necessary contact information is readily available. Sexual Harassment

(Version 2)

The district is committed to eliminating sexual harassment. Sexual harassment will not be tolerated in the district. All students, staff members and other persons are entitled to learn and work in an environment that is free of harassment. All staff members, students and third parties are subject to this policy. Any person may report sexual harassment.

The district processes complaints or reports of sexual harassment under Oregon Revised Statute (ORS) 342.700 et. al. and federal Title IX laws found in Title 34 C.F.R. Part 106. Individual complaints may require both of these procedures, and may involve additional complaint procedures.

General Procedures

When information, a report or complaint regarding sexual harassment is received by the district, the district will review such information, report or complaint to determine which law applies and will follow the appropriate procedures. When the alleged conduct could meet both of the definitions in ORS Chapter 342 and Title IX, both complaint procedures should be processed simultaneously (*see* JBA/GBN-AR(1) - Sexual Harassment Complaint Procedure and JBA/GBN-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure). The district may also need to use other complaint procedures when the alleged conduct could meet the definitions for other complaint procedures.

2. Unwelcome conduct of a sexual nature that is physical, verbal, or nonverbal and that:

Sexual harassment does not include conduct that is necessary because of a job duty of a school or district staff member or because of a service required to be provided by a contractor, agent, or volunteer, if the

Sexual harassment means conduct on the basis of sex that satisfies one or more of the following:

1. An employee of the district conditioning the provision of an aid, benefit, or service of the district on an individual's participation in unwelcome sexual conduct;
2. Unwelcome conduct determined by a reasonable person to be so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the district's education program or activity⁴;
3. "Sexual assault": an offense classified as a forcible or nonforcible sex offense under the uniform crime reporting system of the Federal Bureau of Investigation;
4. "Dating violence": violence committed by a person who is or has been in a social relationship of a romantic or intimate nature with the victim and where the existence of such a relationship shall be determined based on a consideration of the length of the relationship, the type of relationship and the frequency of interaction between the persons involved in the relationship;
5. "Domestic Violence": felony or misdemeanor crimes of violence committed by a current or former spouse or intimate partner of the victim, by a person with whom the victim shares a child in common, by a person who is cohabitating with or has cohabitated with the victim as a spouse or intimate partner, by a person similarly situated to a spouse of the victim under the domestic or family violence laws of the jurisdiction receiving grant monies, or by any other person against an adult or

⁴ "Education program or activity" includes locations, events, or circumstances over which the recipient exercised substantial control over both the respondent and the context in which the sexual harassment occurs." (Title 34 C.F.R. § 106.44(a))

youth victim who is protected from that person's acts under the domestic or family violence laws of the jurisdiction; or

6. "Stalking": engaging in a course of conduct directed at a specific person that would cause a reasonable person fear for the person's own safety or the safety of others, or suffer substantial emotional distress.

This definition only applies to sex discrimination occurring against a person who is a subject of this policy in the United States. A district's treatment of a complainant or a respondent in response to a formal complaint of sexual harassment may constitute discrimination on the basis of sex under Title IX.

Federal Procedures

The district will adopt and publish grievance procedures that provide for the prompt and equitable resolution of the student and employee complaints alleging any action that would be prohibited by this policy. *See JBA/GBN-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure.*

Reporting

Any person may report sexual harassment. This report may be made in person, by mail, by telephone, or by electronic mail, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. The report can be made at any time.

The athletic director is designated as the Title IX Coordinator and can be contacted at 541-487-4305. The Title IX Coordinator will coordinate the district's efforts to comply with its responsibilities related to this AR. The district prominently will display the contact information for the Title IX Coordinator on the district website and in each handbook.

Response

The district will promptly respond to information, allegations or reports of sexual harassment when there is actual knowledge of such harassment, even if a formal complaint has not been filed.⁵ The district shall treat complainants and respondents equitably by providing supportive measures⁶ to the complainant and by following a grievance procedure⁷ prior to imposing any disciplinary sanctions or other actions that are not supportive measures against a respondent. The Title IX Coordinator is responsible for coordinating the effective implementation of supportive measures.

The Title IX Coordinator must promptly contact the complainant to discuss the availability of supportive measures, consider the complainant's wishes, with respect to supportive measures, inform the complainant

⁵ (Title 34 C.F.R. §106.44(a)) Response cannot be deliberately indifferent. A recipient is deliberately indifferent only if its response to sexual harassment is clearly unreasonable in light of the known circumstances.

⁶ (Title 34 C.F.R. § 106.44(a)) Supportive measures means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient's education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district's educational environment, or deter sexual harassment.⁶ The district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the recipient to provide supportive measures. (Title 34 C.F.R. § 99.30(a))

⁷ This grievance procedure must meet the requirements of Title 34 C.F.R. § 106.45 (included in accompanying administrative regulation, *see JBA/GNB-AR(2) - Federal Law (Title IX) Sexual Harassment Complaint Procedure*).

of the availability of supportive measures with or without the filing of a formal complaint, and explain to the complainant the process for filing a formal complaint.⁸

If after an individualized safety and risk analysis, it is determined that there is an immediate threat to the physical health or safety of any person, an emergency removal of the respondent can take place.⁹ The district must provide the respondent with notice and an opportunity to challenge the decision immediately following the removal. A non-student employee may also be placed on non-disciplinary administrative leave pending the grievance process.

Notice

The district shall provide notice to all applicants for admission and employment, students, parents or legal guardians, employees, and all unions or professional organizations holding collective bargaining or professional agreements with the district of the following:

1. The name or title, office address, electronic mail address, and telephone number of the Title IX Coordinator(s);
2. That the district does not discriminate on the basis of sex in the education program or activity that it operates, as required by Title IX. This includes admissions and employment; and
3. The grievance procedure and process, how to file a formal complaint of sex discrimination or sexual harassment, and how the district will respond.

Inquiries about the application to Title IX and its requirements may be referred to the Title IX Coordinator or the Assistant Secretary¹⁰, or both.

No Retaliation

Neither the district or any person may retaliate¹¹ against an individual for reporting, testifying, providing evidence, being a complainant, otherwise participating or refusing to participate in any investigation or process in accordance with this procedure. The district must keep confidential the identity of parties and participating persons, except as disclosure is allowed under Family Educational Rights and Privacy Act (FERPA), as required by law, or to carry out the proceedings herein. Complaints of retaliation may be filed using these procedures.

Charging an individual with a code of conduct violation for making a materially false statement in bad faith in the course of a grievance proceeding does not constitute retaliation.

Publication

This policy shall be made available to students, parents of students and staff members. This policy and contact information for the Title IX Coordinator shall be prominently published in the district student handbook and on the district website. This policy shall also be made available at each school office and at the district office. The district shall post this policy on a sign in all grade 6 through 12 schools, on a sign

⁸ The Title IX Coordinator may also discuss that the Title IX Coordinator has the ability to file a formal complaint.

The district official receiving the complaint shall issue the required written notice as outlined under Oregon Procedures in Board policy GBN/JBA - Sexual Harassment.

Step 1 The district official receiving the report or complaint shall promptly initiate an investigation using procedures and standards, including but not limited to, those identified in Board policy GBN/JBA - Sexual Harassment and will notify the complainant or reporting person, any impacted person who is not a reporting person (if appropriate), each reported person, and where applicable the parents of a reporting person, impacted person, or reported person, when such investigation is initiated. The official will arrange such meetings as may be necessary to discuss the issue with all concerned parties within five working days after receipt of the report or complaint. The parties will have an opportunity to submit evidence and a list of witnesses. All findings of the investigation shall be reduced to writing. The official conducting the investigation shall notify the parties in writing that the investigation is concluded and if a violation of the policy was found to have occurred to the extent allowable by law within 30 days of receipt of the report or complaint.

A copy of the required written notice(s) and the date and details of notification of the notice of investigation and results of the investigation, together with any other documentation related to the sexual harassment incident, including disciplinary action taken or recommended, shall be forwarded to the superintendent.

Step 2 If a complainant is not satisfied with the decision at Step 1, the complainant may submit a written appeal to the superintendent or designee. Such appeal must be filed within 10 working days after receipt of the Step 1 decision. The superintendent or designee will arrange such meetings with the complainant and other affected parties as deemed necessary to discuss the appeal within 5 working days of receipt of the appeal. Step 3 If a complainant is not satisfied with the decision at Step 2, the complainant may submit a written appeal to the Board. Such appeal must be filed within 10 working days after receipt of the Step 2 decision. The Board will review the decision of the superintendent or designee in a public meeting to determine what action is appropriate. The Board may use executive session if the subject matter qualifies under Oregon law. Appropriate action may include, but is not limited to, holding a hearing, requesting additional information, and adopting the

P

superintendent's or designee's decision. All parties involved, including the school administration, may be asked to attend a hearing for the purposes of making further explanations and clarifying the issues. The Board shall provide a written decision to the complainant within 30 working days following receipt of the appeal.

If the Board chooses not to hear the complaint, the superintendent's or designee's decision in Step 2 is final¹.

The superintendent is authorized to amend these procedures (including timelines) when the superintendent feels it is necessary for the efficient handling of the complaint. Notice of any amendments will be promptly provided to the parties.

Complaints against the principal may start at Step 2 and may be filed with the superintendent or designee. The superintendent or designee will cause the required notices to be provided. The superintendent or designee will investigate the complaint and will notify the parties in writing that the investigation is concluded and if a violation of the policy was found to have occurred to the extent allowable by law. If the complaint remains unresolved within 10 working days of receipt by the superintendent or designee, the complainant may appeal to the Board in Step 3.

Complaints against the superintendent or a Board member (other than the Board chair) may start at Step 3 and should be referred to the Board chair on behalf of the Board. The Board chair will cause required notices to be provided. The Board chair shall present the complaint to the Board. The Board may use executive session if the subject matter qualifies under Oregon law. If the Board decides an investigation is warranted, the Board may refer the investigation to a third party. When the investigation is complete, the results will be presented to the Board. After receiving the results of the investigation, the Board shall decide, within 20 days, in open session what action, if any, is warranted. The Board chair shall notify the parties in writing that the investigation is concluded and if a violation of the policy was found to have occurred to the extent allowable by law.

Complaints against the Board chair may start at Step 3 and should be referred to the Board vice chair on behalf of the Board. The Board vice chair will cause required notices to be provided. The Board vice chair shall present the complaint to the Board. The Board may use executive session if the subject matter qualifies under Oregon law. If the Board decides an investigation is warranted, the Board may refer the investigation to a third party. When the investigation is complete, the results will be presented to the Board. After receiving the results of the investigation, the Board shall decide, within 20 days, in open session what action, if any, is warranted. The Board vice chair shall notify the parties in writing that the investigation is concluded and if a violation of the policy was found to have occurred to the extent allowable by law.

Direct complaints related to employment may be filed with the U.S. Department of Labor, Equal Employment Opportunity Commission or Oregon Bureau of Labor and Industries.

¹ If the Board chooses to accept the superintendent's decision as the district's final decision on the complaint, the superintendent's written decision must meet the requirements of OAR 581-022-2370(4)(b).

Additional information regarding filing of a complaint or report may be obtained through the principal, compliance officer or superintendent.

All documentation related to sexual harassment complaints may become part of the student's education record or employee's personnel file, as appropriate. Additionally, a copy of all sexual harassment complaints or reports and documentation will be maintained as a confidential file and stored in the district office.

The superintendent shall report the name of any person holding a teaching license or registered with Teacher Standards and Practices Commission (TSPC) or participating in a practicum under Oregon Administrative Rule (OAR) Chapter 584, Division 17, when, after appropriate investigation, there is reasonable cause to believe the person may have committed an act of sexual harassment. Federal Law (Title IX) Sexual Harassment Complaint Procedure

Additional Definitions

“Actual knowledge” means notice of sexual harassment or allegations of sexual harassment to the district’s Title IX Coordinator or any official of the district who has authority to institute corrective measures on behalf of the district, or to any employee of an elementary or secondary school.¹

“Complainant” means an individual who is alleged to be the victim of conduct that could constitute sexual harassment.

“Formal complaint” means a document filed by a complainant or signed by the Title IX Coordinator alleging sexual harassment against a respondent² and requesting that the district investigate the allegation of sexual harassment.³

“Supportive measures” means non-disciplinary, non-punitive individualized services offered as appropriate, as reasonably available, and without fee or charge to the complainant or the respondent before or after the filing of a formal complaint or where no formal complaint has been filed. Such measures are designed to restore or preserve equal access to the recipient’s education program or activity without unreasonably burdening the other party, including measures designed to protect the safety of all parties or the district’s educational environment, or deter sexual harassment.⁴ The district must maintain as confidential any supportive measures provided to the complainant or respondent, to the extent that maintaining such confidentiality would not impair the ability of the recipient to provide supportive measures.

Formal Complaint Procedures

Upon receipt of a formal complaint, the district will provide the parties⁵ written notice of the following:

1. Notice of the district’s grievance process, including any informal resolution process.

¹ This standard is not met when the only official with knowledge is the respondent.

² “Respondent” means an individual who has been reported to be the perpetrator of conduct that could constitute sexual harassment.

³ A complainant must be participating in or attempting to participate in the education program or activity of the district with which the formal complaint is filed.

⁴ Supportive measures may include counseling, extensions of deadlines or other course-related adjustments, modifications of work or class schedules, campus escort services, mutual restrictions on contact between parties, changes in work or housing locations, leaves of absence, increased security and monitoring of certain areas of the campus, and other similar measures.

⁵ Parties include the complainant and the respondent, if known.

2. Notice of the allegations of sexual harassment potentially constituting sexual harassment, including sufficient details⁶ known at the time and with sufficient time to prepare a response before any initial interview.
3. That the respondent is presumed not responsible for the alleged conduct and that a determination regarding responsibility be made at the conclusion of the grievance process.
4. That the parties may have an advisor of their choice, who may be, but is not required to be, an attorney.
5. The parties may inspect and review evidence.
6. A reference to any provision in the district's code of conduct that prohibits knowingly making false statements or knowingly submitting false information during the grievance process.

The Title IX Coordinator will contact the complainant and the respondent to discuss supportive measures. If necessary, the Title IX Coordinator will arrange for an individualized safety and risk analysis. If necessary, a student or non-student employee may be removed or placed on leave.

Investigation

The Title IX Coordinator will coordinate the district's investigation. The investigation must:

1. Include objective evaluation of all relevant evidence, including inculpatory and exculpatory evidence.
2. Ensure that the burden of proof and the burden of gathering evidence sufficient to reach a determination regarding responsibility rest on the district and not on the parties.⁷
3. Provide an equal opportunity for the parties to present witnesses, and other inculpatory and exculpatory evidence.
4. Not restrict the ability of either party to discuss the allegations under investigation or to gather and present relevant evidence.
5. Provide the parties with the same opportunities to have others present during any grievance proceeding, including the opportunity to be accompanied to any related meeting or proceeding by the advisor of their choice.⁸ The district may establish restrictions regarding the extent to which the advisor may participate in the proceedings, as long as the restrictions apply equally to both parties.

⁶ Sufficient details include the identities of the parties involved in the incident, if known, the conduct allegedly constituting sexual harassment, and the date and location of the alleged incident, if known.

⁷ The district cannot access, consider, disclose, or otherwise use a party's records that are made of maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in the professional's capacity, and which are maintained in connection with the provision of treatment to the party, unless the district obtains the party's (or eligible student's parent's) voluntary, written consent to do so.

⁸ In addition to an advisor, complainants and respondents may also be entitled to other accompaniment as required by law or as necessary for conducting of grievance procedures, including but not limited to translators, services for students with disabilities and parents of minor students.

6. Provide, to a party whose participation is invited or expected, written notice of the date, time, location, participants, and purpose of all hearings, investigative interviews, or other meetings, with sufficient time for the party to prepare to participate.
7. Provide both parties an equal opportunity to inspect and review any evidence obtained as part of the investigation that is directly related to the allegations raised in a formal complaint.⁹ Prior to completion of the investigative report, the district must send to each party and party's advisor, if any, the evidence subject to inspection and review in an electronic format or a hard copy, and the parties must have at least 10 days to submit a written response, which the investigator will consider prior to completion of the investigative report;
8. Create an investigative report that fairly summarizes relevant evidence and is sent to each party and party's advisor in electronic format or hard copy at least 10 days prior to any hearing (if required or provided) or other time of determination of responsibility. The party and advisor will be allowed to review and provide a written response.

After the district has sent the investigative report to the parties and before reaching a determination regarding responsibility, the decision maker(s) must afford each party the opportunity to submit written, relevant questions¹⁰ that a party wants asked of any party or witness, provide each party with the answers, and allow for additional, limited follow-up questions from each party. The decision-maker(s) must explain to the party proposing the questions any decision to exclude a question as not relevant.

Credibility determinations are not based on the person's status as a complainant, respondent or witness.

No person designated as a Title IX Coordinator, investigator, decision-maker, or any person designated by the district to facilitate an informal resolution process may have a conflict of interest or bias for or against complainants or respondents generally or an individual complainant or respondent.

If, in the course of an investigation, the district decides to investigate allegations about the complainant or respondent that are not included in the notice previously provided, the district must provide notice of the additional allegations to the parties whose identities are known.

At no point in the process will the district, or anyone participating on behalf of the district, require, allow, rely upon, or otherwise use questions or evidence that constitutes, or seeks disclosure of, information protected under a legally recognized privilege, unless the person holding such privilege has waived the privilege.

Determination of Responsibility

The respondent must be deemed to be not responsible for the alleged conduct until a determination regarding responsibility is made at the conclusion of the grievance process.

⁹ This includes the evidence upon which the district does not intend to rely in reaching a determination regarding responsibility and inculpatory or exculpatory evidence whether obtained from a party or other source, so that each party can meaningfully respond to the evidence prior to the investigation. The district must make all such evidence subject to the parties' inspection and review available at any hearing to give each party equal opportunity to refer to such evidence during the hearing, including for purposes of cross-examination.

¹⁰ Questions and evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant, unless such questions and evidence about the complainant's prior sexual behavior are offered to prove that someone other than the respondent committed the conduct alleged by the complainant, or if the question and evidence concern specific incidents of the complainants prior sexual behavior with respect to the respondent and are offered to prove consent.

The standard to be used for formal complaints in determining whether a violation has occurred is the clear and convincing evidence¹¹ standard.

The person deciding the question of responsibility (the “decision-maker”) must be someone other than the Title IX Coordinator or the investigator(s). The decision-maker must issue a written determination which must include:

1. Identification of the allegations potentially constituting sexual harassment;
2. A description of the procedural steps taken from the receipt of the formal complaint through the determination, including any notifications to the parties, interviews with parties and witnesses, site visits, methods used to gather evidence, and hearings held;
3. Findings of fact supporting the determination;
4. Conclusions regarding the application of the district’s code of conduct to the facts;
5. A statement of, and rationale for, the result as to each allegation, including:
 - a. A determination regarding responsibility;
 - b. Any disciplinary sanctions the district imposes on the respondent; and
 - c. Whether remedies designed to restore or preserve equal access to the district’s education program or activity will be provided by the district to the complainant; and
6. The district’s procedures and permissible bases for the complainant and respondent to appeal.

The district must provide the written determination to the parties simultaneously.

The determination regarding responsibility becomes final either on the date that the recipient provides the parties with the written determination of the result of the appeal, if an appeal is filed, or if an appeal is not filed, the date on which an appeal would no longer be considered timely.

Remedies

The Title IX Coordinator is responsible for effective implementation of any remedies.

The disciplinary sanctions¹² may include:

1. Discipline up to and including suspension and expulsion;
2. Removal from various activities, committees, extra-curricular, positions, etc.
3. Disqualification for awards and honors;

¹¹ A clear and convincing evidence standard of evidence is understood to mean concluding that a fact is highly probable to be true. U.S. Department of Education, Title IX Regulations commentary, p. 1268, FN 1409.

¹² Districts should review any other disciplinary procedures and requirements prior to imposing any discipline, and should contact legal counsel with questions.

4. Discipline up to and including termination, in accordance with laws, agreements, contracts, handbooks, etc.¹³

Other remedies may include:

Educational programming.

Dismissal of a Formal Complaint

The district must dismiss a formal complaint with regard to Title IX sexual harassment if the alleged conduct:

1. Would not constitute sexual harassment, even if proved;
1. Did not occur in the district’s education program or activity¹⁴; or
2. Did not occur against a person in the United States.

The district may dismiss a formal complaint with regard to Title IX sexual harassment if at any time during the investigation or hearing, if provided:

1. A complainant notifies the Title IX Coordinator in writing that the complaint would like to withdraw the formal complaint or any allegations therein;
2. The respondent is no longer enrolled or employed by the district; or
3. Specific circumstances prevent the recipient from gathering evidence sufficient to reach a determination as to the formal complaint or allegations therein.

Upon dismissal of a formal complaint, the district must promptly send written notice of the dismissal and the reason(s) therefor simultaneously to the parties.

The dismissal of a formal complaint under Title IX does not preclude the district from continuing any investigation and taking action under a different process. The district may have an obligation to continue an investigation and process under a different process.

Consolidation of Complaints

The district may consolidate formal complaints as to allegations of sexual harassment against more than one respondent, or by one or more complainant against one or more respondents, or by one party against another party, where the allegations of sexual harassment arise out of the same facts or circumstances.

Informal Resolution

If the district receives a formal complaint, at any time prior to reaching a determination regarding responsibility, the district may offer an optional informal resolution process, provided that the district:

¹³ It is important to keep supportive measures separate from disciplinary sanctions. Supportive measures must be “non-disciplinary” and “non-punitive.”

¹⁴ Includes locations, events, or circumstances over which the district exercised substantial control over both the respondent and the context in which the sexual harassment occurs, and also includes any building owned or controlled by a student organization that is officially recognized by a postsecondary institution. (Title 34 C.F.R. §106.44(a))

1. Provides written notice to the parties disclosing:
 - a. The allegations;
 - b. The requirements of the informal resolution process including the circumstances under which it precludes the parties from resuming a formal complaint arising from the same allegations, provided, however, that at any time prior to agreeing to a resolution, any party has the right to withdraw from the informal resolution process and resume the grievance process with respect to the formal complaint; and
 - c. Any consequences resulting from participating in the informal resolution process, including the records that will be maintained or could be shared.
2. Obtains the parties' voluntary written consent to the informal resolution process; and
3. Does not offer or facilitate an informal resolution process to resolve allegations that an employee sexually harassed a student.

Appeals

Either party may file an appeal from a determination regarding responsibility or from a dismissal of a formal complaint, within 15 days of the decision, on the following bases:

1. Procedural irregularity that affected the outcome of the matter;
2. New evidence that was not reasonably available at the time the determination regarding responsibility or dismissal was made, that could affect the outcome of the matter; or
3. The Title IX Coordinator, investigator(s), or decision-maker(s) had a conflict of interest or bias for or against complainants or respondents generally or the individual complainant or respondent that affected the outcome of the matter.

When an appeal is filed, the district must:

1. Notify the other party in writing;
2. Implement appeal procedures equally for both parties;
3. Ensure the decision-maker(s) for the appeal is not the same person as the decision-maker(s) who reached the determination regarding responsibility or dismissal, the investigator(s), or the Title IX Coordinator;
4. Ensure the decision-maker for the appeal is free from conflicts of interest and bias;
5. Give both parties a reasonable equal opportunity to submit a written statement in support of, or challenging the outcome;
6. Issue a written decision describing the result of the appeal and the rationale for the result; and
7. Provide the written decision simultaneously to both parties.

Timelines

The district will complete the following portions of the grievance process within the specified timelines:

1. General grievance process (from receipt of formal complaint to determination of responsibility): 90 days;

2. Appeals (from receipt of appeal): 60 days;

3. Informal resolution process: 60 days.

Temporary delays of the grievance process, or limited extensions of time will be allowed for good cause¹⁵ with written notice to the parties.

Records

Records will be created and maintained in accordance with the requirements in Title 34 C.F.R. §106.45(a)(10).¹⁶

Training

Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process must receive training on the definition of sexual harassment, the scope of the district's education program or activity, how to conduct an investigation and grievance process including hearings, appeals, and informal resolution processes. The training must also include avoiding prejudgment of the facts at issue, conflicts of interest and bias.

Decision-makers must receive training on any technology to be used at a live hearing and on issues of relevance of questions and evidence, including when questions about evidence about the complainant's sexual predisposition or prior sexual behavior are not relevant.

Investigators must receive training on issues of relevance to create an investigative report that fairly summarizes relevant evidence.

Materials used to train Title IX Coordinators, investigators, decision-makers, and any person who facilitates an informal resolution process, must not rely on sex stereotypes, must promote impartial investigations and adjudications of formal complaints of sexual harassment and must be made publicly available on the district's website.

¹⁵ Good cause may include considerations such as the absence of a party, a party's advisor or a witness; concurrent law enforcement activity; or the need for language assistance or accommodation of disabilities. (Title 34 C.F.R. § 106.45(b)(1)(v))

¹⁶ This includes creating a record for each investigation. This record must include:

- Supportive measures, or reasons why the response was not clearly unreasonable under the circumstances;
- Basis for the conclusion that the district's response was not deliberately indifferent; and
- What measures were taken to restore or preserve equal access to the district's educational program or activity. (Title 34 C.F.R. § 106.45(a)(10)(ii))

Most records (including training) must be retained for at least seven years.

Section 504 – Students

In compliance with the requirements of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and the Americans with Disabilities Act Amendments Act of 2008 (ADA), the district shall ensure that no otherwise qualified individual with disabilities shall, solely by reason of ~~his/her~~ disability, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity conducted by the district or those provided by the district through contractual or other arrangements. Programs and activities shall be accessible and usable by individuals with disabilities as prescribed by law.

The superintendent will ensure all ~~Section 504-qualified students with disabilities~~ are identified annually who qualify for Section 504. Students will be evaluated by a team of individuals knowledgeable about the student, the meaning of the evaluation data and placement options. Services will be provided as required by law.

The superintendent will develop administrative regulations as needed for the implementation of this policy and to meet the requirements of state and federal law. Regulations will include provisions to ensure notice of the district’s responsibilities are provided as required and that procedures are established for students, parents and staff with complaints concerning district compliance with the provisions of law.

Section 504 – Students

In order to meet the requirements of Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990 and the Americans with Disabilities Act Amendments Act of 2008 (ADA), the following procedures have been established:

Definitions

1. A student is considered a “qualified individual with disabilities” under Section 504 if ~~the student~~^{the/she}:
 - a. Has a physical or mental impairment which substantially limits one or more major life activities, even when mitigating measures, such as medication, prosthetics, hearing aids, etc., ameliorate the effects of the disability (e.g., any student receiving services under the Individuals with Disabilities Education Act (IDEA), students with diabetes). The term does not cover students disadvantaged by cultural, environmental or economic factors;
 - b. Has a record or history of such an impairment (e.g., a student with learning disabilities who has been decertified as eligible to receive special education under IDEA, a student who had cancer, a student in recovery from chemical dependencies);
 - c. Is regarded as having such an impairment. A person can be found eligible under this provision if ~~the student~~^{the/she}:
 - (1) Has a physical or mental impairment that does not substantially limit a major life activity but is treated by the district as having such a limitation;
 - (2) Has a physical or mental impairment that substantially limits a major life activity only as a result of the attitudes of others towards such impairment (e.g., a student who is obese);
or
 - (3) Has no physical or mental impairment but is treated by the district as having such an impairment (e.g., a student who tests positive with the HIV¹ virus but has no physical effects from it).
 - d. Has a qualifying disability that is episodic or in remission.
2. “Physical or mental impairment” means any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological; musculoskeletal; special sense organs; respiratory including speech organs; cardiovascular; reproductive; digestive; genito-urinary; hemic and lymphatic; skin; ~~and~~ endocrine; or any mental or psychological disorder, such as ~~intellectual disability~~^{mental retardation}, organic brain syndrome, emotional or mental illness and specific learning disabilities;

¹ HIV - Human Immunodeficiency Virus

3. “Major life activities,” as defined by the ADA, means functions such as caring for one’s self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, working, eating, sleeping, standing, lifting, bending, reading, concentrating, thinking, communicating; and major bodily functions including, but not limited to, functions of the immune system, normal cell growth, digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine and reproductive functions;
4. “Program or activity” includes all district programs and activities. The district will also ensure that contracts with those who provide services to the district, such as alternative programs, also provide students with disabilities an equal opportunity to participate in the program or activity;
5. “Potentially disabling conditions” under Section 504, if they substantially limit a major life activity, may include, but are not limited to:
 - a. Attention deficit disorder (ADD);
 - b. Behavior disorders;
 - c. Chronic asthma and severe allergies;
 - d. Physical disabilities such as spina bifida, hemophilia and conditions requiring students to use crutches;
 - e. Diabetes.

District Responsibilities

The superintendent or ~~his/her~~ designee will:

1. Provide written assurance of nondiscrimination whenever the district receives federal money in accordance with application guidelines;
2. Designate an employee to coordinate the district’s compliance efforts with Section 504;
3. Provide procedures to resolve student, parent and employee complaints of discrimination;
4. Provide notice to students, parents, employees, including those with vision or hearing impairments, of the district’s policy of compliance with Section 504 prohibiting nondiscrimination in admission or access to or treatment or employment in district programs or activities. District aids, benefits and services will afford students with disabilities equal opportunity to obtain the same result, gain the same benefit or reach the same level of achievement as students without disabilities, in the most integrated setting appropriate to the student’s needs. Notice will specify the employee designated by the district to coordinate the district’s Section 504 compliance efforts;
5. Annually identify and locate ~~Section 504-qualified~~ students with disabilities **who are Section 504 qualified** in the district and who qualify for services;
6. Annually notify students with disabilities and their parents or guardians of the district’s responsibilities under Section 504;
7. Provide parents or guardians with procedural safeguards:
 - a. Notice of their rights under Section 504, including the right to request an impartial hearing as provided by **Oregon Administrative Rule (OAR) 581-015-23900-109**;

- b. An opportunity to review relevant records.

Transportation

1. If the district proposes to terminate transportation services for a student who qualifies for services under Section 504, the district will first determine the relationship between the student's behavior and his/her disability and provide the parent with notice of his/her rights.
2. If the district places a student in a program not operated by the district, the district will ensure that adequate transportation to and from the program is provided at no additional cost to the parent or student than would be incurred if the student were placed in programs operated by the district.

Evaluation

1. The district will conduct an evaluation of any student who, because of a disability, needs or is believed to need accommodations or related services. Such evaluation will be completed by an evaluation team comprised of a group of persons knowledgeable about the student, the meaning of the evaluation data and placement options. The team will be appointed by the superintendent or designee. Such evaluation will be completed before any action is taken with respect to the initial placement of the student in a regular or special education program and any subsequent, significant change in placement.
2. Tests and other evaluation materials will:
 - a. Be validated and administered by trained personnel;
 - b. Tailored to assess educational need and not merely based on IQ scores;
 - c. Reflect aptitude or achievement. All tests must measure what they purport to measure.

Placement

1. In interpreting evaluation data and making placement decisions, the evaluation team will:
 - a. Draw upon information from a variety of sources;
 - b. Ensure that all relevant information is documented and considered;
 - c. Ensure that the student is educated with students without disabilities to the maximum extent possible.

Reevaluations

1. The evaluation team will periodically reevaluate all students identified as qualified to receive services under Section 504. Minimally, students will be reevaluated every three years.
2. A reevaluation will be conducted by the evaluation team whenever a significant change in placement occurs. Examples of significant changes in placement include, but are not limited to:
 - a. Expulsion;
 - b. Serial suspensions which exceed 10 school days in a school year. Consideration will be given to the frequency of suspensions, the length of each and their proximity to one another;
 - c. Transferring or placing the student in alternative education or other such programs;
 - d. Graduation;

- e. Significantly changing the composition of the student's class schedule (e.g., moving the student from regular education to the resource room, etc.).

Discipline

1. Before implementing a suspension or expulsion that constitutes a significant change in the placement of a student with disabilities under Section 504, the evaluation team will conduct a reevaluation of the student to determine whether the misconduct in question is caused by the student's disability and, if so, whether the student's current educational placement is appropriate:
 - a. If it is determined that the misconduct of the student is caused by the student's disability, the evaluation team will continue the evaluation, following the requirements of Section 504 and the ADA for evaluation and placement, to determine whether the student's current educational placement is appropriate. Due process procedures that meet the requirements of IDEA may be used to meet the procedural safeguards of law;
 - b. If it is determined that the misconduct is not caused by the student's disability, the student may be excluded from school in the same manner as are similarly situated students who do not have disabilities.
2. When the placement of a student with disabilities under Section 504 is changed for disciplinary reasons, the student and his/her parents are entitled to the procedural protections as specified above. These protections include appropriate notice to parents, an opportunity for their examination of pertinent records, an impartial hearing with the participation of the parents and an opportunity for representation by counsel and a review procedure.
3. The district may take disciplinary action against a student with disabilities under Section 504 who is engaged currently in the use of alcohol or illegal drugs to the same extent that it takes disciplinary action against students not having disabilities. As provided by law, due process procedures specified above will not apply to disciplinary actions arising from the use or possession of alcohol or illegal drugs. Regularly established district due process procedures will, however, be provided.
4. Students with disabilities under Section 504 who are also covered by IDEA will be disciplined in accordance with Board policy JGDA/JGEA - Discipline of Students with Disabilities and the accompanying administrative regulation.

Complaints

Student, parent or staff complaints of noncompliance with the provisions of Section 504 will be reported to the superintendent or designee and processed as provided in Board policy AC - Nondiscrimination and accompanying administrative regulation.

Educational Equity

The district is committed to the success of every student in each of our schools. For that success to occur, the district is committed to equity by recognizing institutional barriers and creating access and opportunities that benefit each student. “Achieving educational equity” means students’ identities will not predict or predetermine their success in school.

Educational equity is based on the principles of fairness and justice in allocating resources, opportunity, treatment and creating success for each student.

Educational equity promotes the real possibility of equality of educational results for each student and between diverse groups of students. Equity strategies are intentional, systemic and focused on the core of the teaching and learning process.

To achieve educational equity the district will commit to:

1. Systematically using districtwide and individual school level data, disaggregated by race/ethnicity, national origin, language, special education, sex, non-binary, socioeconomic status and mobility¹ to inform district decision making.
2. Raising the achievement of all students while narrowing the gap between the lowest and the highest performing students.
3. Eliminating the predictability and disparity in all aspects of education and its administration, including but not limited to, the disproportionate representation of students by race, poverty, sex, sexual orientation, gender identity,² and national origin in discipline, special education and in various advanced learning.
4. Graduating all students ready to succeed in a diverse local, national and global community.

In order to achieve educational equity for each and every student:

1. The district shall provide every student with equitable access to high quality curriculum, support, facilities and other educational resources, even when this means differentiating resource allocation.

¹ These are data categories that the Oregon Department of Education collects. Districts may choose to add to this list from data the district collects.

² “Sexual orientation” is defined by Oregon Revised Statute (ORS) 174.100(7) to mean an individual’s actual or perceived heterosexuality, homosexuality, bisexuality or gender identity, regardless of whether the individual’s gender identity, appearance, expression or behavior differs from that traditionally associated with the individual’s sex at birth.

2. The district shall review existing policies, programs, professional development and procedures for the promotion of educational equity, and all applicable new policies, programs and procedures will be developed with educational equity as a priority.
3. The district shall actively work toward a balanced teacher and administrator workforce to reflect the diversity of the student body. The district seeks to recruit, employ, support and retain a workforce that includes racial, gender~~sex~~ and linguistic diversity, as well as culturally and linguistically responsive administrative, instructional and support personnel.
4. The district shall provide professional development to strengthen employees' knowledge and skills for eliminating opportunity gaps and other disparities in achievement.
5. The district shall create schools with a welcoming, inclusive culture and environment that reflects and supports diversity of the student population, their families and their community.
6. The district shall include partners who have demonstrated culturally specific expertise, including but not limited to, families, government agencies, institutions of higher learning, early childhood education organizations, community-based organizations, local businesses and the community in general, in meeting our high goals for educational outcomes. The district shall seek to involve students, staff, families and community members that reflect district demographics to inform decisions regarding the narrowing of the achievement and other opportunity gaps.
7. The district shall provide multiple pathways to success in order to meet the needs of the diverse student body and shall actively encourage, support and expect high academic achievement for each student.
8. The district shall provide materials and assessments that reflect the diversity of students and staff and are geared toward the understanding and appreciation of [culture, class, language, ethnicity, poverty, ability and other differences that contribute to] the uniqueness of each student and staff member.

The superintendent shall develop procedures to implement this policy. The superintendent will annually report to the Board the progress of the implementation of this policy.

Attendance**

Attendance Goals of attendance requirements are to:

1. Contribute to the academic success of students;
2. Inform parents about their student's students' class attendance or nonattendance;
3. Place the responsibility for attendance in the hands of students and their parents;
4. Aid students in making decisions and accepting the responsibilities and consequences resulting from those decisions;
5. Stress that punctual and regular attendance is a learned function necessary in coping with life;
6. Stress attendance may impact grades and credit;
7. Meet Oregon graduation requirements.

Each school shall notify parents or guardians by the end of the school day if their child has an unplanned absence. Interdistrict Transfer of Resident Students**

Interdistrict Transfer

The Board recognizes there may be circumstances that arise in which a resident student may benefit from attendance in another public school in the state. Consequently, a student who resides within district boundaries may be released to attend school in another district that agrees to accept the student. The agreement will be by written consent of the affected school boards or designees whereby the student becomes a “resident student” of the attending district, allowing the attending district to receive State School Fund moneys. Any additional fees or tuition costs are the responsibility of the parent.

When the resident district approves the release of a resident student to another school district, the student or their parent(s) will be solely responsible for transportation unless federal or state law requires transportation to be provided by the district. When a resident student, who is on an individualized education plan (IEP) is accepted to another district by an interdistrict transfer, the attending district becomes responsible for a free appropriate public education (FAPE).

Additionally, an interdistrict transfer of a resident student will be permitted, as appropriate, to meet the requirements to provide a safe public school choice in the Every Student Succeeds Act (ESSA).

The resident district may not impose any limitations on the length of time for which consent is given to the student requesting release to another district.

The resident district shall not require a student to receive consent more than one time when the student requests admission to the same receiving district, regardless of any time limitations imposed by the receiving district.

The district shall allow the student whose legal residence changes to a different district during the school year or summer between school years, to complete the school year in the district if the student chooses to do so.

Safe Public School Choice Transfer Requests

An interdistrict transfer¹ may be permitted in the event a student has been a victim of a violent criminal offense occurring in or on the grounds of a school the student attends, or the student attends a school identified as persistently dangerous and all other district schools the student may transfer to are also identified as persistently dangerous or there is no other district school to which the student may transfer. The transfer must be to a safe school.

¹ Districts are encouraged, but not required, to explore other appropriate options such as an agreement with a neighboring district to accept transfer students if there is not another school in the district in which the student legally resides for the transferring student.

Homeless Student

A homeless student residing in the district and the student’s parent, or in the case of an unaccompanied student, the district’s liaison for homeless students, may request that the student attend their school of origin² located out-of-district. The request will be considered based on the best interest of the student. The student may continue in their school of origin for the duration of the student’s homelessness. Transportation will³ be provided in accordance with law.

The superintendent is directed to establish procedures for the review of any student request to attend school in another district.

Truancy

“Truancy” is defined as absence from school without permission.

The district believes irregular attendance is one of the factors associated with student failure and frustration with the school experience. A fundamental purpose for insisting on punctual, regular school attendance is to help each student develop habits of responsibility.

With these beliefs in mind, the district will develop procedures that foster a partnership with parents in the early detection of truancy, related counseling and appropriate consequences.

Students shall comply with the district's written rules, pursue the prescribed course of study, submit to the lawful authority of district staff and conduct themselves in an orderly manner at school during the school day or during district-sponsored activities.

Careful attention shall be given to procedures and methods whereby fairness and consistency without bias in discipline shall be assured each student. The objectives of disciplining any student must be to help the student develop a positive attitude toward self-discipline, realize the responsibility of one's actions and to maintain a productive learning environment. Students may be denied participation in extracurricular activities. Titles and/or privileges available to or granted to students may also be denied and/or revoked (e.g., valedictorian, salutatorian, student body, class or club office positions, senior trip, prom, etc.). Student Searches**

The Board seeks to ensure a learning environment which protects the health, safety and welfare of students and staff. To assist the Board in attaining these goals, district officials may, subject to the requirements below, search a student's person and property, including property assigned by the district for the student's use. Such searches may be conducted at any time on district property or when the student is under the jurisdiction of the district at school-sponsored activities.

All student searches conducted by the district shall be subject to the following requirements:

1. The district official shall have individualized, "reasonable suspicion" based upon specific and articulated facts to believe that the student personally poses or is in possession of some item that poses an immediate risk or serious harm to the student, school officials and/or others at the school;
2. The search shall be "reasonable in scope." That is, the measures used are reasonably related to the objectives of the search, the unique features of the official's responsibilities, and the area(s) which could contain the item(s) sought and not excessively intrusive in light of the age, sex, maturity of the student and nature of the infraction.

Routine inspections of district property assigned to students may be conducted at any time.

Use of drug-detection dogs and metal detectors, or similar detection devices, may be used only on the express authorization of the superintendent.

District officials may seize any item which is evidence of a violation of law, Board policy, administrative regulation or school rule, or which the possession or use of is prohibited by such law, policy, regulation or rule.

Students may be searched by law enforcement officials on district property or when the student is under the jurisdiction of the district. Law enforcement searches ordinarily shall be based upon a warrant. District officials will attempt to notify the student's parent(s) in advance and will be present for all such searches, whenever possible.

The superintendent shall develop an administrative regulation for implementing this policy in a manner which protects students' rights and provides a safe learning environment without unreasonable interference. Provisions for staff, student and parent notice of the Board's policy and accompanying regulation shall be included.

Student Searches**

1. Definitions

- a. “Reasonable suspicion” is based upon specific and articulated facts to believe that the student personally poses, or is in possession of some item that poses a risk of immediate and serious harm to the student, school officials and/or others at the school. The official’s knowledge may be based upon relevant past experience of the official, observation by the official and/or credible information from another person.
 - (1) “Past experience” may provide the district official with information relevant to the violation as well as information which enables the official to evaluate the credibility of information from another person.
 - (2) “Credible information from another person” may include information which the district official reasonably believes to be true provided by another district employee, a student, a law enforcement or other government official or some other person.
- b. “Reasonable in scope” means that the manner and extent of the search are reasonably related to the objectives of the search, the unique features of the official’s responsibilities, and limited to the particular student or students most likely to be involved in the infraction and the area(s) which could contain the item(s) sought, and not excessively intrusive in light of the student’s age, sex, maturity and the nature of the infraction.

2. Routine Inspection of District Property Assigned to Students

- a. Lockers, desks and other storage areas provided by the school and assigned to a particular student(s) are the property of the district, remain in the possession of the district and are under the control of the principal. Students have no expectation of privacy regarding these items/areas.
- b. Students may use district-owned storage areas for the limited purpose of temporarily keeping items needed for attendance and participation in school instructional and activity programs only. No other purpose is permitted.
- c. Students shall be provided notification that district-owned storage areas assigned to students are subject to routine inspection without prior notice for the following reasons:
 - (1) Ensure that no item which is prohibited on district premises is present;
 - (2) Ensure maintenance of proper sanitation;
 - (3) Ensure mechanical condition and safety;
 - (4) Reclaim overdue library books, texts or other instructional materials, property or equipment belonging to the district.

3. Voluntary Consent

When a district official has the requisite justification to search either a particular district-owned storage area assigned to a student, or the clothing or the personal property of a student, the official has the option of making a search or asking the student to voluntarily provide the item(s) sought. Before making a search, the official should ordinarily ask for the student's voluntary consent by requesting the student to empty the contents of the storage area, clothing or personal property. If the student refuses consent for their/his/her personal property, the official may elect to contact the student's parents to obtain consent for the search of personal property.

1. Search Procedures

- a. With the requisite justification, a school official may search an individual student, a district-owned storage area assigned to a student or the personal property of a student. Personal property of a student includes, but is not limited to, wallets, purses, lunch boxes/sacks, book bag, backpack or other containers used to carry belongings.
- b. All searches of a student or a student's personal property shall be based on the required reasonable suspicion/risk of immediate and serious harm and shall be reasonable in scope. A "strip search," requiring a student to remove clothing down to the student's underwear or including underwear is prohibited by the district.
- c. Searches will generally be conducted by ~~an~~ administrator or by other school personnel only as authorized by the administrator. In certain circumstances ~~an~~ administrator may be assisted by a law enforcement official(s).
- d. The student will generally be permitted to be present during a search of a district-owned storage area assigned to the student or during a search of the student's personal property. The student's presence is not required, however.
- e. Search of a student's clothing will be limited to the student's "outer clothing" only. "Outer clothing" means the student's coat, jacket or other such outerwear garments worn by a student. A search of the clothing may include the search of a container inside the clothing, provided that the container is of a size and shape to hold the object of the search.
- f. Searches of a student's outer clothing will be conducted by a district official of the same sex as the student.
- g. Where the object of the search may be felt by a "pat down" of clothing or personal property, the district official may first pat the clothing or property in an attempt to locate the object before searching inside the clothing or property.
- h. Searches will be conducted in privacy, out of the view of other students, staff and others and in the presence of an adult witness of the same sex as the student.
- i. Any item removed from the student as a result of the above procedures which is not evidence of a violation of a law, Board policy, administrative regulation or school rule may be returned to the student, as appropriate.

2. Other Searches¹

¹ Consult with legal counsel prior to implementing procedures in this section, modifying as appropriate to meet local needs.

- a. Student vehicles may be parked on district property on the condition that the student and their/his/her parent(s) allow/allows the vehicle and its contents, upon reasonable suspicion/risk of immediate serious harm, to be examined.

If a student or parent(s) refuses to allow access to a vehicle when requested under the circumstances described above, the student's privilege of bringing a vehicle onto district property will be terminated for the remainder of the school year. Law enforcement officials may be notified.

- b. Metal detectors, including walk-through and hand-held devices, may be used when the superintendent determines that there is a need for such detectors based upon reasonable information of a history of:
- (1) Weapons or dangerous objects found at school, on district property, at a school function or in the vicinity of the school; or
 - (2) Incidents of violence involving weapons at a school, on district property, at a school function or in the vicinity of the school.

Upon positive detection, a student will be asked to voluntarily remove the metal item. If the student refuses consent, the student will be held (will not be allowed further entrance into the building) and any personal property will be seized and secured while the parent(s) and law enforcement officials are summoned.

- c. Drug-detection dogs may be used when the superintendent determines that there is a need for use of such dogs based upon reasonable information of a history of:
- (1) Drugs and/or drug paraphernalia use/possession at school, on district property, at a school function or in the vicinity of the school; or
 - (2) Incidents of violence or health emergencies involving drugs and/or drug paraphernalia at a school, on district property, at a school function or in the vicinity of the school.

After such need has been determined, drug-detection dogs may be used to sniff out contraband in district-owned storage areas or in student vehicles parked on district property upon reasonable suspicion to believe that contraband is in the area or vehicle.

Drug-detection dogs will not be used for general or "dragnet" searches.

- d. Body fluid searches of students for the presence of alcohol or drugs are prohibited by the district unless specifically authorized by the Board as part of its athlete drug-testing program.
- e. The district may deploy breathalyzer devices at extracurricular events and activities. Students may be subject to testing procedures as a prerequisite to attending the event/activity. If a student refuses testing, the student/he/she will be detained and parents will be contacted to come and take the student home.

3. Discipline

- a. Possession or use of unauthorized, illegal, unhealthy or unsafe materials will result in the following:
- (1) Seizure of the material:

- (a) Property, the possession of which is a violation of law, Board policy, administrative regulation or school rule will be returned to the parent or, if also a violation of law, turned over to law enforcement officials or destroyed by the district as deemed appropriate by the principal;
 - (b) Stolen property will be returned to its rightful owner;
 - (c) Unclaimed property may be disposed of in accordance with Board policy DN - Disposal of School Property.
- (2) Discipline up to and including expulsion and notification given to law enforcement officials as appropriate or as otherwise required by law or Board policy.

 - (2) Date, time~~Time~~ and location of search;
 - (3) Justification for search and nature of the reasonable suspicion/risk of immediate and serious harm;
 - (4) Description of the object(s) of the search;

 - (6) Results of search, prohibited material(s) found, disposition of the material(s) seized and discipline imposed;
 - (7) Name of the witness to the search;
 - (8) Name of the district official conducting the search;
 - (9) Contacts with law enforcement and name/position of the contact(s).
- c. Documentation will be maintained as a part of the student's education records and retained in accordance with applicable Oregon Administrative Rules governing records' retention.

5. Notice

Notice of the Board's policy and this administrative regulation will be provided to staff, students and their parent(s) annually, through staff and student/parent handbooks.

6. Cooperation with Law Enforcement Officials

Building administrators will meet with law enforcement officials annually to review:

Student Discipline **

Discipline in the district is based upon a philosophy designed to produce behavioral changes that will enable students to develop the self-discipline necessary to remain in school and to function successfully in their educational and social environments.

Students are subject to discipline for conduct while traveling to and from school, at the bus stop, at school-sponsored events, while at other schools in the district and while off campus, whenever such conduct causes a substantial and material disruption of the educational environment or the invasion of rights of others.

The major objectives of the ~~district school~~ discipline program are to teach the following fundamental concepts for living:

1. Understanding and respect for individual rights, dignity and safety;
2. Understanding and respect for the law, Board policies, administrative regulations and school rules;
3. Understanding of and respect for public and private property rights.

The Board seeks to ~~ensure~~ assure a school climate which is appropriate for learning and which assures the safety and welfare of personnel and students. The superintendent will develop ~~procedures~~ administrative regulations whereby those students who disrupt the educational setting or who endanger the safety of others, ~~will be offered corrective counseling and~~ be subject to disciplinary sanctions that are age appropriate, and to the extent practicable, use ~~approaches~~ practices that are shown through research to be effective to correct behavioral problems, while supporting a students' attendance to school and classes. Examples include, but are not limited to, reprimands, conferences, detention and denial of participation in cocurricular and extracurricular activities. Titles and/or privileges available to or granted to students may be denied and/or revoked (e.g., valedictorian, salutatorian, student body, class or club office positions, field trips, senior trip, prom, etc.). The superintendent may propose alternative programs of instruction or ~~instruction combined with counseling prior to a student's expulsion or a student leaving school in~~ accordance with law.

The district shall enforce consistently, fairly and without bias all student conduct policies, administrative regulations and school rules.

A student whose conduct or condition is seriously detrimental to the school's best interests may be suspended. Students may be expelled for any of the following circumstances: a) when a student's conduct poses a threat to the health or safety of students or employees; b) when other strategies to change the student's behavior have been ineffective, except that expulsion may not be used to address truancy; or c) when required by law. The district shall consider the age of the student and the student's past pattern of behavior prior to imposing the suspension or expulsion.

The district will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program as a whole.

The use of out-of-school suspension or expulsion for discipline of a student in the fifth grade or below, is limited to:

1. Nonaccidental conduct causing serious physical harm to a student or employee;
2. When a school administrator determines, based on the administrator's observation or upon a report from an employee, the student's conduct poses a threat to the health or safety of students or employees; or
3. When the suspension or expulsion is required by law.

When an out-of-school suspension is imposed on a student in the fifth grade or lower, the district shall take steps to prevent the recurrence of the behavior that led to the out-of-school suspension, and return the student to a classroom setting to minimize the disruption of the student's academic instruction.

Special education students shall be disciplined in accordance with federal law and Board policy JGDA - Discipline of Students with Disabilities and accompanying administrative regulation.

Parents, students and employees shall be notified by handbook, code of conduct or other document of acceptable behavior, behavior subject to discipline and the procedures to address behavior. Use of Restraint and Seclusion

(Version 1)

(see updated version)

The Board is dedicated to the development and application of best practices within the district’s public educational/behavioral programs. It is the intent of the Board to establish a policy that defines the circumstances that must exist and the requirements that must be met prior to, during, and after the use of physical restraint and/or seclusion as an intervention with district students.

Definitions

1. “Physical restraint” means the restriction of a student’s movement by one or more persons holding the student or applying physical pressure upon the student. “Physical restraint” does not include touching or holding a student without the use of force for the purpose of directing the student or assisting the student in completing a task or activity. The definition of “physical restraint” does not include the use of mechanical, chemical, or prone restraint of a student as these methods are prohibited by Oregon law.
2. “Seclusion” means the involuntary confinement of a student alone in a room from which the student physically is prevented from leaving.

Seclusion does not include the removal of a student for a short period of time to provide the student with an opportunity to regain self-control, in a setting from which the student is not physically prevented from leaving.
3. “Serious bodily injury” means any significant impairment of the physical conditions of a person, as determined by qualified medical personnel, whether self-inflicted or inflicted by someone else.
4. “Mechanical restraint” means a device used to restrict the movement of a student or the movement or normal function of a portion of the body of a student.

Mechanical restraint does not include:

- a. A protective or stabilizing device ordered by a licensed physician; or
 - b. A vehicle safety restraint when used as intended during the transport of a student in a moving vehicle.
5. “Chemical restraint” means a drug or medication that is used on a student to control behavior or restrict freedom of movement that has not been prescribed by a licensed health professional or other qualified health care professional acting under the professional’s scope of practice.
 6. “Prone restraint” means a restraint in which a student is held face down on the floor.

The use of physical restraint and/or seclusion is only permitted as a part of a behavioral support plan when other less restrictive interventions would not be effective and the student's behavior poses a threat of imminent, serious physical harm to the student or others.

Except in the case of an emergency, only staff current in the required training in accordance with the district-designated physical restraint and seclusion training program will implement physical restraint or seclusion with a student. In an emergency, physical restraint, and/or seclusion also may be used by a school administrator, teacher, or other school employee as necessary when the student's behavior imposes a reasonable threat of imminent, serious bodily injury to the student or to others. The use of physical restraint or seclusion under these circumstances is only allowed so long as the student's behavior poses a threat of imminent, serious physical harm to themselves or to others. Any student being restrained or secluded within the district whether in an emergency or as a part of a plan shall be constantly monitored by staff for the duration of the intervention. Any room used for seclusion of a student must meet the standards as outlined in OAR 581-021-0568.

The district shall utilize the Oregon Intervention System (OIS) training program of physical restraints and seclusion for use in the district. As required by state regulation, the selected program shall include: behavioral support, prevention, de-escalation, and crisis response techniques. Any program selected by the district must be in compliance with state and federal law with respect to the use of restraint and/or seclusion.

An annual review of the use of physical restraint and seclusion during the preceding school year shall be completed and submitted to the Superintendent of Public Instruction to ensure compliance with district policies and procedures.

The results of the annual review shall be documented and shall include at a minimum:

1. The total number of incidents of physical restraint;
2. The total number of incidents of seclusion;
3. The total number of seclusions in a locked room;
4. The total number of students placed in physical restraint;
5. The total number of student placed in seclusion;
6. The total number of incidents that resulted in injuries or death to students or personnel as a result of the use of physical restraint or seclusion;
7. The total number of students placed in physical restraint and/or seclusion more than ten times in a school year and an explanation of what steps have been taken by the district to decrease the use of physical restraint and seclusion for each student.
8. The total number of physical restraint and seclusion incidents carried out by untrained individuals;
9. The demographic characteristics of all students upon whom physical restraint and/or seclusion was imposed;

10. The total number of rooms available for use by the district for seclusion of a student and a description of the dimensions and design of the rooms.

This report shall be made available to the Board and to the public at the district’s main office and on the district’s website. At least once each school year the public shall be notified as to how to access the report.

At least once each school year the public shall be notified as to how to access the report.

The district shall investigate all complaints regarding the use of restraint and/or seclusion practices according to the procedures outlined in Board policy KL and KL-AR - Public Complaints.

The superintendent shall develop administrative regulations to carry out the requirements set forth in this policy and to meet any additional requirements established by law related to the use, reporting and written documentation of the use of physical restraint or seclusion by district personnel.

11. Any action designed for the primary purpose of inflicting pain.

The use of a seclusion cell is prohibited.

Restraint or seclusion may not be used for discipline, punishment, retaliation or convenience of staff, contractors or volunteers of the district.

¹ The use of a solid object, including furniture, a wall, or the floor, by district staff performing a restraint is not prohibited if the object is used for the staff's own stability or support while performing the restraint and not as a mechanism to apply pressure directly to the student's body.

Restraint may be imposed on a student in the district only under the following circumstances:

1. The student's behavior imposes a reasonable risk of imminent and substantial physical or bodily injury to the student or others; and
2. Less restrictive interventions would not be effective.

Seclusion may be used on a student in the district only under the following circumstances:

1. The student's behavior imposes a reasonable risk of imminent and serious bodily injury to the student or others; and
2. Less restrictive interventions would not be effective.

If restraint or seclusion is used on a student, by trained staff or other staff available in the case of an emergency when trained staff are not immediately available due to the unforeseeable nature of the emergency, e.g., teacher, administrator[, or volunteer], it will be used only for as long as the student's behavior poses a reasonable risk of imminent and substantial physical or bodily injury to the student or others and less restrictive interventions would not be effective. Students will be continuously monitored by staff for the duration of the restraint or seclusion.

Definitions

1. "Restraint" means the restriction of a student's actions or movements by holding the student or using pressure or other means.

"Restraint" does not include:

 8. “Prone restraint” means a restraint in which a student is held face down on the floor.
 9. “Supine restraint” means a restraint in which a student is held face up on the floor.

Any student being restrained or secluded within the district whether in an emergency or as a part of a plan shall be constantly monitored by staff for the duration of the intervention. Any room used for seclusion of a student must meet the standards as outlined in Oregon Administrative Rule (OAR) 581-021-0568.

As required by state regulation, the selected program shall be one approved by the Oregon Department of Education (ODE) and include, but not limited to, positive behavior support, conflict prevention, de-escalation and crisis response techniques. Any program selected by the district must be in compliance with state and federal law with respect to the use of restraint and seclusion.

An annual review of the use of restraint and seclusion during the preceding school year shall be completed and submitted to ODE to ensure compliance with district policies and procedures.

9. The demographic characteristics² of all students upon whom restraint or seclusion was imposed;
10. The total number of rooms available for use by the district for seclusion of a student and a description of the dimensions and design of the rooms.

This annual report shall be made available to the public at the district’s main office and on the district’s website, and to the Board.

At least once each school year the parents and guardians of students of the district shall be notified about how to access the report.

The district shall investigate all complaints regarding the use of restraint and/or seclusion practices according to the procedures outlined in Board policy KL - Public Complaints and KL-AR - Public Complaint Procedure. The complaint procedure is available at the district’s administrative office and is available on the home page of the district’s website.

The complainant, whether an organization or an individual, may appeal a district’s final decision to the Oregon Department of Education pursuant to OAR 581-002-0001 - 581-002-0023. This appeal process is identified in administrative regulation KL-AR(2) - Appeal to the Deputy Superintendent of Public Instruction.

Suspension**

The Board authorizes the administration to suspend a student suspension for one or more of the following reasons:

1. Willful disobedience and violation of Board policies, administrative school-regulations or school rules;
2. Willful conduct which materially and substantially disrupts the rights of others to an education;
3. Willful conduct which endangers the student, other students or staff members;
4. Willful conduct which damages or injures district property.

A student whose conduct or condition is seriously detrimental to the school's best interests may be suspended. The district shall consider the age of the student and the student's past pattern of behavior prior to imposing the suspension. The district will ensure careful consideration of the rights and needs of the individual concerned, as well as the best interests of other students and the school program as a whole.

The use of out-of-school suspension for discipline of a student in the fifth grade or below, is limited to:

1. Nonaccidental conduct causing serious physical harm to a student or employee;
2. When a school administrator determines, based on the administrator's observation or upon a report from an employee, the student's conduct poses a threat to the health or safety of students or employees; or
3. When the suspension is required by law.

When an out-of-school suspension is imposed on a student in the fifth grade or lower, the district shall take steps to prevent the recurrence of the behavior that led to the out-of-school suspension, and return the student to a classroom setting to minimize the disruption of the student's academic instruction.

~~Students and parents are given notice of possible discipline actions resulting from student misconduct that may result in suspension in the *Student/Parent Handbook* or code of conduct made available by the district.~~

Each notice of suspension will include a statement of the reasons for suspension, the length of the suspension, and a plan for readmission and may include a plan for the student to make up school work. No suspension shall extend beyond 10 school days. Every reasonable and prompt effort must be made to notify the parents of suspended students. The district may require a student to attend school during nonschool hours as an alternative to suspension. ~~Every reasonable and prompt effort must be made to notify the parents of suspended students.~~

In emergency situations that are a result of risk to health and safety, the district may postpone the suspension notice process above until the emergency condition has passed.

Students who are suspended may not attend after-school activities and athletic events, be present on district property without a parent or participate in activities directed or sponsored by the district.

A decision by the superintendent or designee to suspend a student may be appealed to the Board through the district's complaint procedures (see Board policy KL - Public Complaints and its accompanying administrative regulations).

Students and parents are given notice of possible discipline actions resulting from student misconduct that may result in suspension in the *Student/Parent Handbook* made available by the district.

~~Suspensions may be appealed to the Board.~~

Discipline of Students with Disabilities**

When considering student disciplinary procedures that may result in removal of the student, the district follows all special education procedures and ensures the parent and the student are afforded the procedural safeguards of the Individuals with Disabilities Education Act (IDEA) if:

1. The student is receiving individualized education program (IEP) services;
2. For the student not yet identified as a student with a disability, the district had knowledge that the student had a disability and needed special education.

For a violation of a code of conduct, the district may remove a student with a disability from a current educational placement to an appropriate interim alternative educational setting, another setting, or suspension, for up to 10 school days in a school year to the same extent, and with the same notice, as for students without disabilities, if the removals do not constitute a pattern. The district may remove a student with disabilities for additional periods of up to 10 days if the removals do not constitute a pattern. The determination regarding whether a series of removals constitutes a pattern is subject to review in an expedited due process hearing.

Disciplinary removal of a student with a disability constitutes a change in the student's educational placement when the removal is for more than 10 consecutive school days, or the removal is for more than 10 cumulative school days and constitutes a pattern of removals. When considering whether to order a disciplinary change of placement the district may consider any unique circumstances on a case-by-case basis. Any decision to initiate a disciplinary change in placement requires a determination of whether the conduct leading to the disciplinary removal was caused by, or was substantially related to, the student's disability or was a direct result of the district's failure to implement the student's IEP.

For a violation involving drugs, weapons or the infliction of serious bodily injury, the district may remove a student with a disability from the student's current educational placement to an appropriate interim alternative educational setting for the same amount of time that a student without a disability would be subject to discipline, but for not more than 45 school days in a school year without regard to whether the behavior is a manifestation of the student's disability. This removal is considered a change in placement.

The district will provide educational services to a student who is suspended or expelled for more than 10 school days in a school year. These services may be provided in a different location or interim alternative educational setting as determined by the IEP and placement teams.

Discipline of Students with Disabilities**

Definition

1. The district applies the following definitions when considering disciplinary action:
 - a. “Behavioral intervention plan” means an individualized plan, including positive interventions, designed to assist a student to decrease inappropriate behavior and increase or teach an alternative appropriate behavior.
 - b. “Current educational placement” means the type of educational placement of the student as described in the student’s “annual determination of placement” document at the time of the disciplinary removal. It does not mean the specific location or school but the types of placement on the continuum of placement options.
 - c. “Disciplinary removal” means suspension, expulsion or other removal from school for disciplinary reasons, including removals pending completion of a risk assessment. It does not include:
 - (1) Removals by other agencies;
 - (2) Removals for public health reasons (e.g., head lice, immunizations, communicable diseases, etc.);
 - (3) In-school suspensions if the student continues to have access to the general curriculum and to special education and related services as described in the student’s individualized education program (IEP), and continues to participate with nondisabled students to the extent they would in their current placement; or
 - (4) Bus suspensions, unless the student’s IEP includes transportation as a related service, the district makes no alternative transportation arrangements for the student, and the student does not attend school as a result of the bus suspension.
2. “Functional behavioral assessment” means an individualized assessment of the student that results in a team hypothesis about the function of a student’s behavior and, as appropriate, recommendations for a behavior intervention plan.
3. “Suspension” means any disciplinary removal other than expulsion.

Disciplinary Change of Placement

1. Disciplinary removal of a student with a disability constitutes a change in the student’s educational placement when:
 - a. The removal is for more than 10 consecutive school days; or
 - b. The removal is for more than 10 cumulative school days and constitutes a pattern of removals.

2. The district may consider any unique circumstances on a case-by-case basis when determining whether to order a disciplinary change in placement.

Manifestation Determination

1. Within 10 days of any decision to initiate a disciplinary change in placement of a student with a disability, the district convenes a manifestation determination meeting.
2. The district follows all required special education procedures for determining whether a student's conduct that led to a disciplinary removal from school was caused by, or had a substantial relationship to, the student's disability or was a direct result of the district's failure to implement the student's IEP.

Disciplinary Removals for up to 10 School Days

1. The district may remove students with disabilities from their current educational placement, to an appropriate interim alternative educational setting, another setting, or suspension, for up to 10 school days in a school year to the same extent, and with the same notice, for violation of a code of conduct as for students without disabilities. These removals are not considered a change in placement.
2. During disciplinary removals for up to 10 school days:
 - a. The district is not required to provide access to special education and the general curriculum unless students without disabilities are provided access during this time.
 - b. The district is not required to determine whether the student's behavior resulting in the disciplinary removal is a manifestation of the student's disability.
 - c. The district counts days of suspension for the purposes of procedural safeguards as follows:
 - (1) Suspensions of a half day or less will be counted as a half day; and
 - (2) Suspensions of more than a half day will be counted as a whole day;
 - (3) If a student moves from another district in Oregon, any days of suspension from the former district apply, unless the district does not have knowledge of previous suspensions.

Disciplinary Removals of More than 10 Cumulative School Days and Pattern of Removal

1. The district may remove students with disabilities from their current educational placement to an appropriate interim alternative educational setting, another setting or suspension for additional periods of up to 10 days in a school year to the same extent, and with the same notice as for students without disabilities, if the removals do not constitute a pattern. These removals do not constitute a change in placement.
2. In determining whether removals of additional periods of up to 10 school days constitute a pattern or removals, school personnel will consider, on a case by case basis:
 - a. Whether the behavior is substantially similar to the student's behavior in previous incidents that resulted in the series of removals; and
 - b. Additional factors such as the length of each removal, the total number of days of removal, and the proximity of removals to one another.

3. During removals of additional periods of up to 10 school days in a school year that do not constitute a pattern, the district will provide services that are necessary to enable the student to:
 - a. Continue to participate in the general education curriculum;
 - b. Progress toward achieving the goals in the student's IEP; and
 - c. The services and location for delivery of services in this section will be determined by school personnel, in consultation with at least one of the student's teachers, or by the student's IEP team.
4. The determination regarding whether a series of removal constitutes a pattern is subject to review in an expedited due process hearing.

Removal to an Interim Alternative Educational Setting for Not More Than 45 Days by the District under Special Education Circumstances

1. The district may remove a student with a disability from the student's current educational placement to an appropriate interim alternative educational setting for the same amount of time that a student without a disability would be subject to discipline, but for not more than 45 school days in a school year for a drug or weapon violation, or for infliction of serious bodily injury, without regard to whether the behavior is manifestation of the student's disability. This removal is considered a change in placement. School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order such a removal.
2. For the purpose of determining a drug or weapon violation or serious bodily injury, the district will apply the following definitions:
 - a. "Drug" means illegal drug or controlled substance but does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or otherwise legally possessed. It does not include alcohol or tobacco.
 - b. "Drug violation" means the use, possession, sale or solicitation of drugs at school or a school function.
 - c. "Infliction of serious bodily injury" means serious bodily injury caused by a student to another person while at school, on school premises or at a school function under the jurisdiction or ODE or a district.
 - d. "Serious bodily injury" means bodily injury, which involves substantial risk of death, extreme physical pain, protracted and obvious disfigurement, or protracted loss or impairment of the function of a bodily member, organ or mental faculty.
 - e. "Weapon" means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that it does not include a pocket knife with a blade of less than 2 1/2 inches in length.
 - f. "Weapon violation" means carrying a weapon to school or to a school function or acquiring a weapon at school.
3. On the date that the district decides to remove a student to an interim alternative educational placement because of a drug or weapon violation or for serious bodily injury, the district notifies that parent(s) of the decision and gives the parent(s) a *Procedural Safeguards Notice*.
4. Within 10 school days of any decision to remove the student to an interim alternative educational placement because of a drug or weapon violation or for serious bodily injury, the district:

- a. Convenes a meeting to determine whether the behavior is a manifestation of the student's disability; and
- b. Conducts, as appropriate, a functional behavior assessment, and develops a behavior intervention plan based on the functional behavior assessment that is designed to address the behavior so it does not recur.

Removal to an Interim Alternative Educational Setting for Not More than 45 Days by Administrative Law Judge for Injurious Behavior

1. The district may request an expedited due process hearing to obtain an administrative law judge's order to remove a student to an interim alternative educational setting for not more than 45 school days if the student is exhibiting injurious behavior. For the purpose of this request, "injurious behavior" is defined as behavior that is substantially likely to result in injury to the student or to others.
2. The interim alternative educational setting must meet the requirements of the "Interim Alternative Educational Setting" section.

Interim Alternative Educational Setting

When a student with a disability is placed in an interim alternative educational setting, the setting:

1. Is determined by the student's IEP; and
2. Enables the student to:
 - a. Continue to participate in the general curriculum, although in another setting;
 - b. Progress toward achieving the goals in the student's IEP; and
 - c. Receive services and modifications designed to address the misconduct that led to placement in the interim alternative educational setting and to prevent the misconduct from recurring.

Placement Pending Appeal

If a parent disagrees with the manifestation determination or any decision about placement related to the disciplinary removal and requests a due process hearing, the student will remain in the interim alternative educational setting pending the decision of the administrative law judge, or until the end of the disciplinary removal, whichever is shorter, unless the parent and district agree to another placement pending the hearing.

Conduct and Outcome of a Manifestation Determination

1. Within 10 school days of any decision to change the placement of a student with a disability for disciplinary reasons, the district convenes a manifestation determination meeting.
2. The team that determines whether a student's behavior that led to a disciplinary removal from school was caused by, or had a substantial relationship to the student's disability or was a direct result of the district's failure to implement the student's IEP, includes the parent(s), district representatives and other relevant members of the IEP team, as determined by the parent and district.

- a. The team reviews all relevant student information, including the student’s IEP, teacher observations and information provided by the parent.
 - b. The team concludes that the conduct in question is a manifestation of the student’s disability if it determines the behavior was caused by, or had a substantial relationship to, the child’s disability, or if it was the direct result of the district’s failure to implement the IEP.
3. If the team determines that the district did not implement the student’s IEP or identifies other deficiencies in the student’s IEP or placement, the district corrects the identified deficiencies immediately.
 4. Regardless of whether the behavior was a manifestation of the student’s disability, the district may remove the student to an interim alternative educational setting for weapons or drug violations or for infliction of serious bodily injury for up to 45 days.
 5. When behavior is a manifestation of disability.

If the team concludes that the behavior was a manifestation of the student’s disability:

- a. The district will not proceed with a disciplinary removal for more than 10 days.
 - b. The district conducts a functional behavioral assessment and develops a behavior plan to address the behavior that led to the disciplinary action. If the district has already conducted a functional behavioral assessment or if the student already has a behavior intervention plan regarding that behavior, the district reviews, modifies as necessary and implements the plan to address the behavior.
 - c. The district may review and revise the student’s IEP and placement through normal IEP and placement processes.
 - d. The district may enter into an agreement with the parent to change the student’s placement as part of the modification of the behavioral intervention plan.
 - e. If the district believes that maintaining the current placement of the child is substantially likely to result in injury to the student or to others, the district may appeal the decision of the manifestation determination team by requesting an expedited due process hearing. An administrative law judge who concludes that maintaining the current educational placement is substantially likely to result in injury to the student or to others may order a change in placement to an interim alternative educational setting for no more than 45 days.
6. When behavior is not a manifestation of disability.
 - a. If the IEP team determines that the student’s behavior is not a manifestation of the student’s disability the district may proceed with disciplinary removals, in the same manner and for the same duration, as would be applied to students without disabilities. If the district takes such action, applicable to all students, the district:
 - b. Notifies the parent(s) of the decision to remove the student on the date that decision is made and gives the parents a *Procedural Safeguards Notice*;
 - c. Give the parent(s) prior written notice of any proposed change in placement;
 - d. Provides services to the student in an interim alternative educational setting that is determined by the IEP team; and
 - e. Provides, as appropriate, a functional behavioral assessment, develops appropriate behavioral interventions to address the behavior and implements those interventions.

Protections for Students not yet Eligible for Special Education

1. The district will follow all special education disciplinary procedures for a student who has not yet been identified as a student with a disability if the district had knowledge that the student had a disability and needed special education.
2. The district is presumed to have such knowledge if, before the behavior that precipitated the disciplinary action occurred:
 - a. The student's parent(s) expressed a concern in writing to supervisory or administrative school personnel, or to a teacher of the student, that the student is in need of special education and related services;
 - b. The student's parent(s) requested a special education evaluation of the student; or
 - c. The student's teacher or other school personnel expressed specific concerns about a pattern of behavior demonstrated by the student directly to the district's special education director or other district supervisory personnel.
3. The district is not presumed to have knowledge of a disability if:
 - a. The parent has not allowed an evaluation of the student or has refused the initial provision of special education services to the student; or
 - b. The student has been evaluated and found not eligible for special education services.
4. If the district did not have knowledge before taking disciplinary action against the student, the district may take the same disciplinary actions as applied to students without disabilities who engaged in comparable behaviors. However:
 - a. If a special education evaluation is requested, or if the district initiates a special education evaluation, the evaluation will be conducted in an expedited manner.
 - b. Until the evaluation is completed, the student may remain in the educational placement determined by school personnel, which may include suspension, expulsion or placement in alternative education.
 - c. Upon completion of the evaluation, if the student is determined to be a student with a disability, the district will conduct an IEP meeting to develop an IEP and determine placement and will provide special education and related services in accordance with the IEP.
 - d. The district will apply the Individuals with Disabilities Education Act (IDEA) discipline protections beginning on the date of the eligibility determination.

2. When a school administrator determines, based on the administrator's observations or upon a report from an employee, the student's conduct poses a threat to the health or safety of students or employees; or
3. When the expulsion is required by law.

The age of the student and the past pattern of behavior will be considered prior to imposing the expulsion.

No student may be expelled without a hearing unless the student's parents, or the student if 18 years of age, waive the right to a hearing, either in writing or by failure to appear at a scheduled hearing. By waiving the right to a hearing, the student and parent or guardian agree to abide by the findings of a hearings officer.

 3. Expulsion hearings will be conducted in private and will not be open to the general public unless the student or the student's parents request an open session;
 4. In case the parent or student has difficulty understanding the English language or has other serious communication disabilities, the district will provide a translator;
 5. The student shall be permitted to have representation present at the hearing to advise and to present arguments. The representation may be an attorney and/or parent. The district's attorney may be present;
 6. The student shall be afforded the right to present their/his/her version of the events underlying the expulsion recommendation and to introduce evidence by testimony, writings or other exhibits;
 7. The student shall be permitted to be present and to hear the evidence presented by the district;
 8. The hearings officer or the student may record the hearing;
 9. Strict rules of evidence shall not apply to the proceedings. However, this shall not limit the hearings officer's control of the hearing;
 10. If the Board is conducting the expulsion hearing, the Board may designate the Board chair or a third party as the hearings officer. Following the review by the Board of the hearings officer's recommendation, the Board will make the final decision regarding the expulsion;
 11. ~~If~~ If the Board has delegated authority to the superintendent [or designee] to act as the hearings officer, the superintendent may designate ~~themselves~~him or herself, or a third party, as the hearings officer. If the decision of the hearings officer is appealed to the Board for review, the findings as to the facts and the hearings officer's decision will be submitted to the Board, and will be available in identical form to the Board, the student and the student's parents at the same time. At its next regular or special

meeting the Board will review the hearings officer's decision and will affirm, modify or reverse the decision;

12. A Board review of the hearings officer's decision will be conducted in executive session unless the student or the student's parent requests a public hearing. If an executive session is held by the Board or a private hearing is held by the hearings officer, the following will not be made public:
 - a. The name of the minor student;

Communicable Diseases

~~The district will follow both the state and local health authorities' rules and regulations pertaining to communicable diseases.~~

The district shall provide reasonable protection against the risk of exposure to communicable disease for students. Reasonable protection from communicable disease is generally attained through immunization, exclusion or other measures as provided by Oregon law, by the local health department or in the *Communicable Disease Guidance* published by the Oregon Department of Education (ODE) and the Oregon Health Authority (OHA). Services will be provided to students as required by law. A student will not attend school while in a communicable stage of a restrictable disease or when an administrator has reason to suspect that any susceptible student has or has been exposed to any disease for which the student is required to be excluded in accordance with law and per administrative regulation JHCC-AR - Communicable Diseases - Students. If the disease is a reportable disease, the administrator will report the occurrence to the local health department. The administrator will also take whatever reasonable steps it considers necessary to organize and operate its programs in a way which both furthers the education and protects the health of students and others.

The district may, for the protection of both the student who has a restrictable disease and the exposed student, provide an educational program in an alternative setting.

The district will include, as a part of its emergency plan, a description of the actions to be taken by district personnel in the case of a declared public health emergency or other catastrophe that disrupts district operations.

The district shall protect the confidentiality of each student's health condition and record to the extent possible and consistent with federal and state law. In cases when a restrictable or reportable disease is diagnosed and confirmed for a student, the administrator shall inform the appropriate employees with a legitimate educational interest to protect against the risk of exposure.

The superintendent will develop administrative regulations necessary to implement this policy.

Communicable Diseases – Student (Version 2)

In accordance with state law, administrative rule, the local health authority and the *Communicable Disease Guidance*, the procedures established below will be followed.

1. “Restrictable diseases” are defined by rule and include but are not limited to COVID-19¹, chickenpox, diphtheria, hepatitis A, hepatitis E, measles, mumps, pertussis, rubella, Salmonella enterica serotype Typhi infection, scabies, Shiga-toxigenic Escherichia coli (STEC) infection, shigellosis and infectious tuberculosis, and may include a communicable stage of hepatitis B infection if, in the opinion of the local health officer, the person poses an unusually high risk to others (e.g., a child that exhibits uncontrollable biting or spitting). Restrictable disease also includes any other communicable disease identified in an order issued by the Oregon Health Authority or the local public health officer as posing a danger to the public’s health. A disease is considered to be a restrictable disease if it is listed in Oregon Administrative Rule (OAR) 333-019-0010, or it has been designated to be a restrictable disease by the local public health administrator after determining that it poses a danger to the public’s health.
2. “Susceptible” for a child means lacking documentation of immunization required under OAR 333-050-0050.
3. “Reportable disease” means a disease or condition, the reporting of which enables a public health authority to take action to protect or to benefit the public health.

Restrictable Diseases

1. A student of the district will not attend a district school or facility while in a communicable stage of a restrictable disease, including a communicable stage of COVID-19², unless authorized to do so under Oregon law. When an administrator has reason to suspect any child has a restrictable disease, the administrator shall send the student home.
2. An administrator shall exclude a susceptible child from school if the administrator has reason to suspect that the student has been exposed to measles, mumps, rubella, diphtheria, pertussis, hepatitis A, or hepatitis B, unless the local health officer determines that exclusion is not necessary to protect the public’s health. The administrator may request the local health officer to make a determination as allowed by law. If the disease is reportable, the administrator will report the occurrence to the local health department.

¹ Added per OAR 333-019-1000(2).

² “Communicable stage of COVID-19” means having a positive presumptive or confirmed test of COVID-19.

3. An administrator shall exclude a student if the administrator has been notified by a local public health administrator or local public health officer that the student has had a substantial exposure to an individual with COVID-19 and exclusion is deemed necessary by same.
4. A student will be excluded in such instances until such time as the student or the parent or guardian of the student presents a certificate from a physician, a physician assistant licensed under Oregon Revised Statute (ORS) 677.505 - 677.525, a nurse practitioner licensed under ORS 678.375 - 678.390, local health department nurse or school nurse stating that the student does not have or is not a carrier of any restrictable diseases.
5. The district may, for the protection of both the student who has a restrictable disease and the exposed student, provide an educational program in an alternative setting. A student may remain in an alternative educational setting until such time as a certificate from a physician, physician assistant, nurse practitioner, local health department nurse or school nurse states that the student does not have or is not a carrier of any restrictable disease, or until such time as a local public health administrator states that the disease is no longer communicable to others or that adequate precautions have been taken to minimize the risk of transmission. A restrictable disease exclusion for chickenpox, scabies, staphylococcal skin infections, streptococcal infections, diarrhea or vomiting may be removed by a school nurse or health care provider.
6. More stringent exclusion standards for students from school may be adopted by the local health department.
7. The district's emergency preparedness plan shall address the district's plan with respect to a declared public health emergency at the local or state level.

Reportable Diseases Notification

1. All employees shall comply with all reporting measures adopted by the district and with all rules set forth by the Oregon Health Authority, Public Health Division and the local health department.
2. An administrator may seek confirmation and assistance from the local health officer to determine the appropriate district response when the administrator is notified that a student or an employee has been exposed to a restrictable disease that is also a reportable disease.
3. An administrator shall determine other persons who may be informed of a student's communicable disease when a legitimate educational interest exists or for health and safety reasons in accordance with law.

Education

1. The administrator or designee shall seek information from the district's school nurse or other appropriate health officials regarding the health needs/hazards of all students and the impact on the educational needs of a student diagnosed with a restrictable disease or exposed to a restrictable disease.
2. The administrator or designee shall, utilizing information obtained above, determine an educational program for such a student and implement the program in an appropriate (i.e., regular or alternative) setting.

3. The administrator or designee shall review the appropriateness of the educational program and the educational setting of each individual student diagnosed with a restrictable disease.

Equipment and Training

1. The administrator or designee shall, on a case-by-case basis, determine what equipment and/or supplies are necessary in a particular classroom or other setting in order to prevent disease transmission.
2. The administrator or designee shall consult with the district's school nurse or other appropriate health officials to provide special training in the methods of protection from disease transmission.
3. All district personnel will be instructed annually to use the proper precautions pertaining to blood and body fluid exposure per the Occupational Safety and Health Administration (OSHA). (*See* policy EBBAA).

These restrictions are removed by the written statement of the local health officer or designee or a licensed physician (with the concurrence of the local health officer) that the disease is no longer communicable to others in the school setting. For those diseases indicated by an asterisk (*) the restriction may be removed by a school nurse. For pediculosis, or head lice (indicated by a double asterisk (**)), the restriction may be removed after the parent provides a signed statement that a recognized treatment has been initiated. 5. More stringent rules for exclusion from school may be adopted by the local health department or by the district through Board-adopted policy;

6. A disease may not be considered to be a school restrictable disease unless it is listed in section 3. above, in accordance with OAR 333-019-0015 (2), it has been designated to be a school restrictable disease through Board policy or the local health administrator determines that it presents a significant public health risk in the school setting;

Students - HIV, HBV and AIDS**

The district will adhere strictly in policies and procedures to the Oregon Revised Statutes and the Oregon Administrative Rules as they relate to a student infected with HIV or HBV or diagnosed with AIDS¹.

The district recognizes a parent (student) has no obligation to inform the district of an HIV, HBV or AIDS condition, and that the student has a right to attend school. If the district is informed of such a student, written guidelines shall be requested of the parent (student). These guidelines shall include who may have the information, who will give the information, how the information will be given and where and when the information will be given.

When informed of the infection, and with written permission from the parent (student), the district will develop procedures for formulating an evaluation team. The team shall address the nature, duration and severity of risk as well as any modification of activities. The team shall continue to monitor the student's condition. The district will make reasonable accommodations to allow students living with HIV infection to participate in school-sponsored physical activities.

Notification of alternative educational programs shall be made to the parent or eligible student, if an HIV, HBV or AIDS student withdraws from school.

Infection Control and Bloodborne Pathogens ~~HBV/Bloodborne Pathogens~~

The Board recognizes that staff/students incur some risk of infection and illness each time they are exposed to blood or other potentially infectious materials. While the risk to staff/ and students of exposure to body fluids due to casual contact with individuals in the school environment is very low, the Board regards any such risk as serious.

Consequently, the Board directs adherence to standard precautions. Standard precautions require that staff and students approach infection control as if all direct contact with human blood and body fluids is known to be infectious for HIV, HBV and/or other bloodborne pathogens¹.

The district shall develop an Exposure Control Plan that includes infection control procedures, and procedures to minimize and eliminate exposure incidents to bloodborne pathogens.

Infection Control

Staff and students shall receive an annual in-service that includes correct procedures for cleaning up body fluid spills and for personal cleanup, appropriate disposal, immunization and personal hygiene, as well as the location and a content review of first-aid and clean-up kits. Kits shall be available for each room in the building and in each district vehicle.

In addition to an annual in-service, staff and students on a regular basis will receive HIV, AIDS and HBV information.

The information shall emphasize infection — how infection is spread as well as how it is not spread.

~~In order to reduce the risk to staff/students by minimizing or eliminating staff exposure incidents to bloodborne pathogens, the Board directs the superintendent to develop and implement an Exposure Control Plan. The plan shall be reviewed and updated at least annually and when necessary to reflect new or modified tasks and procedures which affect occupational exposure and to reflect new or revised employee positions with occupational exposure. The review and update shall also:~~

Bloodborne Pathogens

The Exposure Control Plan shall be reviewed and updated at least annually and when necessary to reflect new or modified tasks and procedures which affect occupational exposure and to reflect new or revised employee positions with occupational exposure. The review and update shall also:

¹ Bloodborne pathogens - pathogenic microorganisms that are present in human blood and can cause disease in humans. These include, but are not limited to, Hepatitis B virus (HBV) and Human Immunodeficiency Virus (HIV).

1. Reflect changes in technology that eliminate or reduce exposure to bloodborne pathogens;
2. Annually, document consideration and implementation of appropriate commercially available and effective safer medical devices designed to eliminate or minimize occupational exposure.

The plan shall include training followed by an offer of immunization with Hepatitis B vaccine and vaccination series for all staff who are required to provide first aid to students and/or for all staff who have occupational exposure as determined by the district. Training shall be provided at the time of initial assignment to tasks where occupational exposure may take place and at least annually thereafter. Personal protective equipment appropriate to job tasks shall be provided by the district. A postexposure evaluation and follow-up shall be made available to any employee sustaining an occupational exposure.

The district recognizes that, as required by Oregon Administrative Rule (OAR) 437-002-1030, employees who use medical sharps in the performance of their duties (e.g., administering injectable medicines to students, such as epinephrine and glucagon) must, at least annually, be provided with the opportunity to identify, evaluate and select engineering and work practice controls (e.g., sharps disposal containers, self-sheathing needles, safer medical devices, such as sharps with engineered sharps injury protections and needleless systems). The district will implement such work practice controls, as appropriate.

Documentation, including a sharps injury log, will be maintained as required by OAR 437-002-1035 and 437-002-1030(3).

The district will cooperate with the Oregon Department of Education, the Oregon Health Authority, Public Health Division, the local health department and the education service district in delivering HIV, AIDS and HBV education.

The district recognizes that administering of nonprescription medication to students and/or self-medication may be necessary when the failure to take such medication during school hours, would prevent the student from attending school. Consequently, students may be permitted to take noninjectable prescription or nonprescription medication at school.

The district reserves the right to reject a request to administer or allow self administration of a nonprescription medication when such medication is not necessary for the student to remain in school.

A request to the district to allow a student to self medicate with a nonprescription medication shall include written permission and instruction from a parent or guardian, and shall include an assurance from the parent or guardian that the student has received appropriate instruction for its use.

A request to the district to administer a nonprescription medication shall include written permission and instruction from a parent or guardian.

The district shall designate school staff authorized to administer medication to students. Training shall be provided as required by law.

Nonprescription medication will be handled, stored, monitored, disposed of and records maintained in accordance with established district regulations governing administering noninjectable or injectable, or prescription or nonprescription medicines to students, including procedures for the disposal of sharps and glass.

This policy and administrative regulation shall not prohibit, in any way, the administration of recognized first aid to students by district employees in accordance with established state law, Board policy and procedures.

Medications**/* (Version 2)

The district recognizes that administering a medication to a student and/or permitting a student to administer a medication to them self, may be necessary when the failure to take such medication during school hours would prevent the student from attending school, and recognizes a need to ensure the health and well-being of a student who requires regular doses or injections of a medication as a result of experiencing a life-threatening allergic reaction or adrenal crisis¹, or a need to manage hypoglycemia, asthma or diabetes. Accordingly, the district may administer or a student may be permitted to administer to them self prescription (injectable and noninjectable) and/or nonprescription (noninjectable) medication at school.

The district shall designate personnel authorized to administer medications to students. Annual training shall be provided to designated personnel as required by law in accordance with guidelines approved by the Oregon Department of Education (ODE). When a licensed health care professional is not immediately available, trained personnel designated by the district may administer epinephrine, glucagon or another medication to a student as prescribed and/or allowed by Oregon law.

Current first-aid and CPR cards are strongly encouraged for designated personnel.

The district reserves the right to reject a request for administration of medication at school, either by district personnel or student self-administration, if the medication is not necessary for the student to remain in school.

The superintendent and/or designee will require that an individualized health care plan and allergy plan is developed for every student with a known life-threatening allergy or a need to manage asthma, and an individualized health care plan for every student for whom the district has been given proper notice of a diagnosis of adrenal insufficiency. Such a plan will include provisions for administering medication and/or responding to emergency situations while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in a before-school or after-school care program on school-owned property and in transit to or from school or a school-sponsored activity.

A student may be allowed to self-administer a medication for asthma, diabetes, hypoglycemia or severe allergies as prescribed by an Oregon licensed health care professional, upon written and signed request of the parent or guardian and subject to age-appropriate guidelines. This self-administration provision also requires a written and signed confirmation the student has been instructed by the Oregon licensed health care professional on the proper use of and responsibilities for the prescribed medication. A request to the

district to administer or allow a student to self-administer prescription medication shall include a signed prescription and treatment plan from a prescriber².

A request to the district to administer or allow a student to self-administer nonprescription that is not approved by the Federal Drug Administration (FDA) shall include a written order from the student's prescriber that meets the requirements of law.

A written request and permission form signed by a student's parent or guardian, unless the student is allowed to access medical care without parental consent under state law³, is required and will be kept on file.

If the student is deemed to have violated Board policy or medical protocol by the district, the district may revoke the permission given to a student to self-administer medication.

Prescription and nonprescription medication will be handled, stored, monitored, disposed of and records maintained in accordance with established district administrative regulations governing the administration of prescription or nonprescription medications to students, including procedures for the disposal of sharps and glass.

A process shall be established by which, upon parent or guardian written request, a backup prescribed autoinjectable epinephrine is kept at a reasonably, secure location in the student's classroom as provided by state law.

A premeasured dose of epinephrine may be administered by trained, designated personnel to any student or other individual on school premises who the person believes in good faith is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

⁴Naloxone or any similar medication that is in any form available for safe administration and that is designed to rapidly reverse an overdose of an opioid drug may be administered by trained, designated personnel to any student or other individual on school premises who the person believes in good faith is experiencing an overdose of an opioid drug.

This policy shall not prohibit, in any way, the administration of recognized first aid to a student by district employees in accordance with established state law, Board policy and administrative regulation.

A school administrator, teacher or other district employee designated by the school administrator is not liable in a criminal action or for civil damages as a result of the administration, in good faith and pursuant to state law, of prescription and/or nonprescription medication.

² A registered nurse who is employed by a public or private school, ESD or local public health authority to provide nursing services at a public or private school may accept an order from a physician licensed to practice medicine or osteopathy in another state or territory of the U.S. if the order is related to the care or treatment of a student who has been enrolled at the school for not more than 90 days.

³ Subject to ORS 109.610, 109.640 and 109.675.

[⁴ The district is not required to provide or administer this medication. If the district plans on providing and administering this medication this policy language and other associated bracketed policy language is required. If the district does not plan to provide or administer this medication, do not include this language or other associated bracketed language in this policy.]

A school administrator, school nurse, teacher or other district employee designated by the school administrator is not liable in a criminal action or for civil damages as a result of a student's self-administration of medication, as described in Oregon Revised Statute (ORS) 339.866, if that person in good faith and pursuant to state law, assisted the student in self-administration of the medication.

A school administrator, school nurse, teacher or other district employee designated by the school administration is not liable in a criminal action or for civil damages as a result of the use of medication if that person in good faith administers autoinjectable epinephrine to a student or other individual with a severe allergy who is unable to self-administer the medication, regardless of whether the student or individual has a prescription for epinephrine, or administers naloxone or any similar medication that is in any form available for safe administration and that is designed to rapidly reverse an overdose of an opioid drug to a student or other individual who that person believes in good faith is experiencing an overdose of an opioid drug.

The district and the members of the Board are not liable in a criminal action or for civil damages as a result of the use of medication if any person in good faith, on school premises, including at a school, on school property under the jurisdiction of the district or at an activity under the jurisdiction of the district, administers autoinjectable epinephrine to a student or other individual with a severe allergy who is unable to self-administer the medication, regardless of whether the student or individual has a prescription for epinephrine, or administers naloxone or any similar medication that is in any form available for safe administration and that is designed to rapidly reverse an overdose of an opioid drug to a student or other individual who the person believes in good faith is experiencing an overdose of an opioid drug.

The superintendent shall develop administrative regulations as needed to meet the requirements of law and the implementation of this policy.

Prescription Medication**

The district recognizes that the administration of prescription medication to students and/or student self-medication may be necessary when the failure to take such medication during school hours would prevent the student from attending school, and recognizes a need to ensure the health and well-being of students who require regular doses or injections of medication as a result of experiencing a life-threatening allergic reaction or adrenal crisis¹, or have a need to manage hypoglycemia, asthma or diabetes. When a licensed health care professional is not immediately available, a designated trained staff member may administer to a student, epinephrine, glucagon or other medications as prescribed and allowed by Oregon law.

When prescribed by a physician², students in grades K-12 will be allowed to self-administer prescription medication, including medication for asthma or severe allergy as defined by state law, and subject to age-appropriate guidelines. A written treatment plan for a student who self administers medication will be developed and signed by a physician or other Oregon licensed health care professional and kept on file. A written request and permission form signed by a parent or guardian is required and will be kept on file. If the student is deemed to have violated Board policy or medical protocol by the district, the district may revoke the permission given to a student to self-administer medication.

The superintendent will require that an individualized health care plan is developed for every student with a known life-threatening allergy and for every student for whom the district has been given proper notice of a diagnoses of adrenal insufficiency. Such a plan will include provisions for administering medication and/or responding to emergency situations while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in before- or after-school care programs on school-owned property and in transit to or from school or school-sponsored activities.

A request for the district to administer prescription medication to a student shall include the written permission of the parent or guardian and shall be accompanied by written instruction from a physician, physician assistant or nurse practitioner. A prescription label prepared by a pharmacist will be deemed sufficient to meet the requirements for a physician's order.

The district reserves the right to reject a request to administer or allow self administration of a medication when such medication is not necessary for the student to remain in school.

A premeasured dose of epinephrine may be administered by designated, trained district staff to any student or other individual on school premises who the personnel believe, in good faith, is experiencing a severe allergic reaction, regardless of whether the student or individual has a prescription for epinephrine.

¹ Under proper notice given to the district.

² A registered nurse who is employed by a public or private school may accept an order from a physician licensed to practice medicine or osteopathy in another state or territory of the U.S. if the order is related to the care or treatment of a student who has been enrolled at the school for not more than 90 days.

A process shall be established by which, upon parent written request, a backup prescribed autoinjectable epinephrine is kept at a reasonable, secured location in the student's classroom as provided by state law.

Training shall be provided to designated staff as required by law in accordance with approved protocols as established by the Oregon Health Authority. Staff designated to receive training shall also receive bloodborne pathogens training. Current first-aid and CPR cards are strongly encouraged for designated staff.

Prescription medication will be handled, stored, monitored, disposed of and records maintained in accordance with established district regulations governing administering noninjectable or injectable, or prescription or nonprescription medicines to students including procedures for the disposal of sharps and glass.

The superintendent will ensure student health management plans are developed as required by training protocols, maintained on file and pertinent health information is provided to district staff as appropriate. Such plans will include provisions for administering medication and/or responding to emergency situations while the student is in school, at a school-sponsored activity, under the supervision of school personnel, in before- or after-school care programs on school-owned property and in transit to or from school or school-sponsored activities.

This policy and administrative regulation shall not prohibit, in any way, the administration of recognized first aid to students by district employees in accordance with established state law, Board policy and procedures.

Any district employee participating in good faith in the making of a report, pursuant to this policy and Oregon law and who has reasonable grounds for the making thereof, shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed with respect to the making or content of any such report. Further, the initiation of a report in good faith about suspected abuse of a child may not adversely affect any terms or conditions of employment or the work environment of the complainant. If a student initiates a report of suspected abuse of a child by a district employee or a student, in good faith, the student will not be disciplined by the Board or any district employee. Intentionally making a false report of abuse of a child is a Class A violation.

The district shall establish written procedures to provide annual training: 1) for district staff in the prevention and identification of abuse of a child and on the obligations of district employees under ORS 419B.005 as directed by Board policy to report suspected abuse of a child; 2) for parents and legal guardians of students attending district schools on the prevention, identification of abuse of a child and the obligation of district employees to report suspected abuse of a child, separate from district staff training; and 3) designed to prevent abuse of a child available to students attending district-operated schools.

Intentionally making a false report of abuse of a child is a Class A violation.

The district shall provide information and training each school year to district employees on the prevention and identification of abuse, the obligations of district employees under ORS 339.388 and ORS 419B.005 - 419B.050 and as directed by Board policy to report suspected abuse of a child, and appropriate electronic communications with students. The district shall make available each school year the training described above to contractors, agents, volunteers, and parents and legal guardians of students attending district-operated schools, and will be made available separately from the training provided to district employees. The district shall provide each school year information on the prevention and identification of abuse, the obligations of district employees under Board policy to report abuse, and appropriate electronic communications with students to contractors, agents and volunteers. The district shall make available each school year training that is designed to prevent abuse to students attending district-operated schools.

The district shall provide to a district employee at the time of hire, or to a contractor, agent, or volunteer at the time of beginning service for the district, the following:

1. A description of conduct that may constitute abuse;
2. A description of the investigatory process and possible consequences if a report of suspected abuse is substantiated; and

3. A description of the prohibitions imposed on district employees, contractors, and agents when they attempt to obtain a new job, as provided under ORS 339.378. A district employee, contractor or agent will not assist another district employee, contractor or agent in obtaining a new job if the individual knows, or has reasonable or probable cause to believe the district employee, contractor or agent engaged in abuse, unless criteria found in ORS 339.378(2)(c) are applicable.

Nothing in this policy prevents the district from disclosing information required by law or providing the routine transmission of administrative and personnel files pursuant to law.

The district shall make available to students, district employees, contractors, agents, and volunteers a policy of appropriate electronic communications with students.

Any electronic communications with students by a contractor, agent or volunteer for the district will be appropriate and only when directed by district administration. When communicating with students electronically regarding school-related matters, contractors, agents or volunteers shall use district e-mail, using mailing lists and/or other internet messaging approved by the district to a group of students rather than individual students or as directed by district administration. Texting or electronically communicating with a student through contact information gained as a contractor, agent or volunteer for the district is strongly discouraged.

The superintendent shall develop administrative regulations as are necessary to implement this policy and to comply with state law.

Reporting of Suspected Abuse of a Child

Reporting

Any district employee having reasonable cause to believe that **any child** with whom the employee comes in contact has suffered abuse¹ shall orally report or cause an oral report immediately by telephone or otherwise to the local office of the Oregon Department of Human Services (DHS) or its designee or to a law enforcement agency within the county where the person making the report is at the time of their contact. Any district employee who has reasonable cause to believe that **any person**² with whom the employee is in contact has abused a child shall immediately report or cause a report to be made in the same manner to DHS or its designee or to the law enforcement agency within the county where the person making the report is located at the time of the contact pursuant to ORS 419B.010.

Any district employee who has reasonable cause to believe that another district employee, contractor, agent, volunteer or student has engaged in abuse, or that a student has been subjected to abuse by another district employee, contractor, agent, volunteer or student shall immediately report such to the DHS or its designee or the local law enforcement agency pursuant to ORS 419B.015, and to the designated licensed administrator or alternate licensed administrator for their school building.

If known, the report shall contain the names and addresses of the child and the parents of the child or other persons responsible for the child's care, the child's age, the nature and extent of the suspected abuse, including any evidence of previous abuse, the explanation given for the suspected abuse, any other information that the person making the report believes might be helpful in establishing the possible cause of the suspected abuse and the identity of a possible perpetrator.

If the superintendent is the alleged abuser the report shall be submitted to the **building principal** who shall refer the report to the Board chair.

A written record of the abuse report shall be made by the employee reporting the suspected abuse of a student and will include: name and position of the person making the report; name of the student; name and position of any witness; description of the nature and extent of the abuse, including any information which could be helpful in establishing cause of abuse and identity of the abuser; description of how the report was made (i.e., phone or other method); name of the agency and individual who took the report; date and time that the report was made; and name of district administrator who received a copy of the written report.

The written record of the abuse report shall not be placed in the student's educational record. A copy of the written report shall be retained by the employee making the report and a copy shall be provided to the designee that received the report.

¹ Includes the neglect of a child; abuse is defined in ORS 419B.005.

² "Person" could include adult, student or other child.

When the designee receives a report of suspected abuse of a child by a district employee, and there is reasonable cause to support the report, the district shall place the district employee on paid administrative leave³ and take necessary actions to ensure the student's safety. The employee shall remain on leave until DHS or law enforcement determines that the report is substantiated and the district takes the appropriate employment action, or cannot be substantiated or is not a report of abuse and the district determines that either 1) an employment policy was violated and the district will take appropriate employment action against the employee, or 2) an employment policy has not be violated and no action is required by the district against the employee.

When the designee receives a report of suspected abuse by a contractor^{4}, agent or volunteer, the district {may} {shall} prohibit the contractor, agent or volunteer from providing services to the district. {If the district determines there is reasonable cause to support the report of suspected abuse, the district shall prohibit the contractor agent or volunteer from providing services.} {The district may reinstate the contractor, agent or volunteer, and such reinstatement may not occur until such time as a report of suspected abuse has been investigated⁵ and a determination has been made by law enforcement or DHS that the report is unsubstantiated.}

The written record of each reported incident of abuse of a child, action taken by the district and any findings as a result of the report shall be maintained by the district.

If, following the investigation, the district decides to take an employment action, the district will inform the district employee of the employment action to be taken and provide information about the appropriate appeal process. {The employee may appeal the employment action taken through the appeal process provided by the applicable collective bargaining agreement.} {The employee not covered by a collective bargaining agreement may appeal the employment action taken through an appeal process administered by a neutral third party.}

If the district is notified that the employee decided not to appeal the employment action or if the determination of an appeal sustained the employment action, a record of the findings of the substantiated report and the employment action taken by the district will be placed in the records on the school employee maintained by the district. Such records created are confidential and not public records as defined in Oregon Revised Statute (ORS) 192.311, however the district may use the record as a basis for providing information required to be disclosed about a district employee under ORS 339.378(1). The district will notify the employee that information about substantiated reports may be disclosed to a potential employer.

³ The district employee cannot be required to use any accrued leave during the imposed paid administrative leave.

⁴ {The district is encouraged to duplicate this language in the contract. If the contract is with a company and the person assigned to do the work is the alleged perpetrator, the district shall notify the company and request another company employee be assigned to complete the work.}

⁵ The district will investigate all reports of suspected abuse, unless otherwise requested by DHS or its designee or law enforcement pursuant to law.

Definitions

1. Oregon law recognizes these and other types of abuse:
 - a. Physical;
 - b. Neglect;
 - c. Mental injury;
 - d. Threat of harm;
 - e. Sexual abuse and sexual exploitation.
2. “Child” means an unmarried person who is under 18 years of age or is under 21 years of age and residing in or receiving care or services at a child-caring agency.
3. [A “substantiated report” means a report of abuse that a law enforcement agency or DHS determines is founded.]

Confidentiality of Records

The name, address and other identifying information about the employee who made the report are confidential and are not accessible for public inspection.

Upon request from law enforcement or DHS the district shall immediately provide requested documents or materials to the extent allowed by state and federal law.

Failure to Comply

Any district employee who fails to report a suspected abuse of a child as provided by this policy and the prescribed Oregon law commits a violation punishable by law. A district employee who fails to comply with the confidentiality of records requirements commits a violation punishable by the prescribed law. If an employee fails to report suspected abuse of a child or fails to maintain confidentiality of records as required by this policy, the employee will be disciplined up to and including dismissal.

Cooperation with Investigator

The district staff shall make every effort in suspected abuse of a child cases to cooperate with investigating officials as follows:

1. Any investigation of abuse of a child will be directed by the DHS or law enforcement officials as required by law. DHS or law enforcement officials wishing to interview a student shall present themselves at the school office and contact the school administrator, unless the school administrator is the subject of the investigation. When an administrator is notified that the DHS or law enforcement would like to interview a student at school, the administrator must request that the investigating official fill out the appropriate form (See GBNAB/JHFE-AR(2) – Abuse of a Child Investigations Conducted on District Premises). The administrator or designee should not deny the interview based on the investigator’s refusal to sign the form. If the student is to be interviewed at the school, the administrator or designee shall make a private space available. The administrator or designee of the school may, at the discretion of the investigator, be present to facilitate the interview. If the investigating official does not have adequate identification the administrator shall refuse access to the student.

Law enforcement officials wishing to remove a student from the premises shall present themselves at the office and contact the administrator or designee. The law enforcement official shall sign the student out in accordance with district procedures;

2. When the subject matter of the interview or investigation is identified to be related to suspected abuse of a child, district employees shall not notify parents or anyone else other than DHS or law enforcement agency and any school employee necessary to enable the investigation;
3. The administrator or designee shall advise the investigator of any conditions of disability prior to any interview with the affected child;
4. District employees are not authorized to reveal anything that transpires during an investigation in which the employee participates, nor shall the information become part of the student's education records, except that the employee may testify at any subsequent trial resulting from the investigation and may be interviewed by the respective litigants prior to any such trial.

Nothing prevents the district from conducting its own investigation, unless another agency requests to lead the investigation or requests the district to suspend the investigation, or taking an employment action based on information available to the district before an investigation conducted by another agency is completed. The district will cooperate with agencies assigned to conduct such investigations.

Suspected Sexual Conduct with Students and Reporting Requirements

Sexual conduct by district employees, contractors¹, agents², and volunteers³ is prohibited and will not be tolerated. All district employees, contractors, agents, and volunteers are subject to this policy. Students are also subject to this policy if they are acting as an employee, contractor, agent or volunteer.

⁴“Sexual conduct,” means verbal or physical conduct or verbal, written or electronic communications by a school employee, a contractor, an agent or a volunteer that involve a student and that are sexual advances or requests for sexual favors directed toward the student, or of a sexual nature that are directed toward the student or that have the effect of unreasonably interfering with a student’s educational performance, or of creating an intimidating or hostile educational environment. “Sexual conduct” does not include touching or other physical contact that is necessitated by the nature of the school employee’s job duties or by the services required to be provided by the contractor, agent or volunteer, and for which there is no sexual intent; verbal, written or electronic communications that are provided as part of an education program that meets state educational standards or a policy approved by the Board; or conduct or communications described in the definition of sexual conduct herein if the school employee, contractor, agent or volunteer is also a student and the conduct or communications arise out of a consensual relationship between students, do not create an intimidating or hostile educational environment and are not prohibited by law, any policies of the district or any applicable employment agreements.

“Student” means any person who is in any grade from prekindergarten through grade 12 or 21 years of age or younger and receiving educational or related services from the district that is not a post-secondary institution of education, or who was previously known as a student by the person engaging in sexual conduct and who left school or graduated from high school within 90 days prior to the sexual conduct.

The district will post in each school building the names and contact information of the employees designated for the respective school buildings to receive reports of suspected sexual conduct and the procedures the designee will follow upon receipt of the report.

Any district employee[, contractor, agent or volunteer] who has reasonable cause to believe that a student has been subjected to sexual conduct by another district employee, contractor, agent or volunteer, or that another district employee, contractor, agent or volunteer has engaged in sexual conduct with a student

¹ “Contractor” means a person providing services to the district under a contract in a manner that requires the person to have direct, unsupervised contact with students.

² “Agent” means a person acting as an agent for the district in a manner that requires the person to have direct, unsupervised contact with students.

³ “Volunteer” means a person acting as a volunteer for the district in a manner that requires the person to have direct, unsupervised contact with students.

⁴ This definition of “sexual conduct” affects all conduct that occurs before, on or after June 23, 2021, for purposes of reports that are made, investigations that are initiated, or a collective bargaining agreement, an employment contract, an agreement for resignation or termination, a severance agreement or any similar contract or agreement entered into, on or after June 23, 2021.

shall immediately report such suspected sexual conduct to the designated licensed administrator or the alternate designated licensed administrator, in the event the designated administrator is the suspected perpetrator, for their school building. If the conduct also constitutes child abuse, the employee must make mandatory reports in accordance with Board policy GBNAB/JHFE – Suspected Abuse of a Child Reporting Requirements.

If the superintendent is the alleged perpetrator the report shall be submitted to the **building principal** who shall report the suspected sexual conduct to the Board chair.

{If an employee fails to report suspected sexual conduct or fails to maintain confidentiality of records, the employee will be disciplined up to and including dismissal.}

When a designated licensed administrator receives a report of suspected sexual conduct by a district employee, contractor, agent or volunteer, the administrator will follow procedures established by the district and set forth in the district’s administrative regulation GBNAA/JHFF-AR - Suspected Sexual Conduct Report Procedures and Form. All such reports will be reported to the Oregon Department of Education (ODE) or Teacher Standards and Practices Commission (TSPC) in accordance with such administrative regulation. The agency receiving a report will complete an investigation regardless of any changes in the relationship or duties of the person who is the alleged perpetrator.

When there is reasonable cause to support the report, a district employee suspected of sexual conduct shall be placed on paid administrative leave pending an investigation and the district will take necessary actions to ensure the student’s safety.

When there is reasonable cause to support the report, a district contractor, agent or volunteer suspected of sexual conduct shall be removed from providing services to the district and the district will take necessary actions to ensure the student’s safety.

The district will notify, as allowed by state and federal law, the person who was subjected to the suspected sexual conduct about any actions taken by the district as a result of the report.

A district employee, contractor or agent will not assist another district employee, contractor or agent in obtaining a new job if the individual knows, or has reasonable cause to believe the district employee, contractor or agent engaged in sexual conduct. Nothing in this policy prevents the district from disclosing information required by law or providing the routine transmission of administrative and personnel files pursuant to law.

The initiation of a report in good faith about suspected sexual conduct may not adversely affect any terms or conditions of employment or the work environment of the person who initiated the report or who may have been subject to sexual conduct. If a student initiates a report of suspected sexual conduct by a district employee, contractor, agent or volunteer in good faith, the student will not be disciplined by the district or any district employee, contractor, agent or volunteer.

The district will provide to employees at the time of hire, or to a contractor, agent or volunteer at the time of beginning service for the district, the following:

1. A description of conduct that may constitute sexual conduct;

2. A description of the investigatory process and possible consequences if a report of suspected sexual conduct is substantiated; and
3. A description of the prohibitions imposed on district employees, contractors and agents when they attempt to obtain a new job, pursuant to ORS 339.378(2).

All district employees are subject to Board policy GCAB - Personal Electronic Devices and Social Media - Staff regarding appropriate electronic communications with students.

Any electronic communications with students by a contractor, agent or volunteer for the district will be appropriate and only when directed by district administration. When communicating with students electronically regarding school-related matters, contractors, agents or volunteers shall use district e-mail using mailing lists and/or other internet messaging approved by the district to a group of students rather than individual students or as directed by district administration. Texting or electronically communicating with a student through contact information gained as a contractor, agent or volunteer for the district is ~~strongly discouraged~~ prohibited.

The superintendent shall develop administrative regulations to implement this policy and to comply with state law.

Crisis Prevention and Response

(OSBA has removed this policy from its samples)

The Board recognizes that schools are subject to a number of potentially violent events. No school is immune from these events no matter the size or location.

The Board is committed to the prevention of violence against people or property in the schools or at school activities, whether by students, staff or others. While committed to each person’s constitutional rights, including due process rights, the Board does not condone lawlessness. The Board knows that schools cannot be sanctuaries but protecting students in an increasingly violent world is a challenge that must be accepted.

The superintendent shall establish an advisory committee to develop a Crisis Prevention and Response Plan. The committee will review district anti-violence related programs and activities, assess the district’s security and safety needs, review Board policies, administrative regulations, response plans and procedures.

The superintendent will develop an administrative regulation that ensures the effective development and implementation of the district’s plan.

Student Fees, Fines and Charges**

The Board recognizes the need for student fees to fund certain school activities which are not sufficiently funded by the district.

No student will be denied an education because of ~~an~~his/her inability to pay supplementary fees.

No student, however, is exempt from charges for lost or damaged books, locks, materials, supplies and equipment.

All student fees and charges, both optional and required, will be listed and described annually in the ~~parent~~parent/student/parent handbook, or in some other written form, and distributed to each student. Students will be advised of the due dates for such fees and charges as well as of possible penalties for failure to pay them.

Education Records/Records of Students with Disabilities**

“Education records” are those records maintained by the district that are directly related to a student.

The primary reason for the keeping and maintaining of education records for students is to help the individual student in their/his/her educational development by providing pertinent information for the student, their/his/her teachers and their/his/her parents. These records also serve as an important source of information to assist students in seeking productive employment and/or post-high school education.

The district shall maintain confidential education records of students in a manner that conforms with state and federal laws and regulations.

Information recorded on official education records should be carefully selected, accurate, verifiable and should have a direct and significant bearing upon the student’s educational development.

The district annually notifies parents or adult students that it forwards educational records requested by an educational agency or institution in which the student seeks to enroll or receive services, including special education evaluation services.

~~The district may impose certain restrictions and/or penalties until those fees, fines or damages are paid. Records requested by another district to determine a student’s appropriate placement may not be withheld. Students or parents will receive written notice at least 10 days in advance of any restrictions and/or penalties to be imposed until the debt is paid. The notice will include the reason the student owes money to the district, an itemization of the fees, fines or damages owed and the right of parents to request a hearing. The district may pursue fees, fines or damages through a private collection agency or other method available to the district. The district may waive fees, fines and charges if the student or parents cannot pay, the payment of the debt could impact the health and safety of the student or if the cost of collection would be more than the total collected or there are mitigating circumstances, as determined by the superintendent.~~

The district shall comply with a request from parents or an adult student to inspect and review records without unnecessary delay. The district provides to parents of a student with a disability or to an adult student with a disability the opportunity at any reasonable time to examine all of the records of the district pertaining to the student’s identification, evaluation, educational placement and free appropriate public education. The district provides parents or an adult student, on request, a list of the types and locations of education records collected, maintained and used by the district.

The district annually notifies parents of all students, including adult students, currently in attendance that they have to right to:

1. Inspect and review the student’s records;
2. Request the amendment of the student’s educational records to ensure that they are not inaccurate, misleading or otherwise in violation of the student’s privacy or other rights;

3. Consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that the student educational record rules authorize disclosure without consent. (See Board policy JOB – Personally Identifiable Information);
4. File with the U.S. Department of Education a complaint concerning alleged failures by the district to comply with the requirements of the Family Educational Rights and Privacy Act; and
5. Obtain a copy of the district’s education records policy.

~~The~~ Regarding records to be released to district officials within the agency, the district’s notice includes criteria for determining legitimate educational interest and the criteria for determining which school officials within the agency have legitimate educational interests. School officials may also include a volunteer or contractor who performs an institutional service on behalf of the school.

The district annually notifies parents and adult students of what it considers to be directory information and the disclosure of such. (See Board policy JOA – Directory Information).

The district shall give full rights to education records to either parent, unless the district has been provided legal evidence that specifically revokes these rights. Once the student reaches age 18 those rights transfer to the student.

A copy of this policy and administrative regulation shall be made available upon request to parents and students 18 years of age or older or an emancipated student and the general public.

Records requested by another district to determine a student’s appropriate placement may not be withheld.

3. Rights of Parents and Eligible Students

The district shall annually notify parents and eligible students through the district student/parent handbook or any other means that are reasonably likely to inform the parents or eligible students of their rights. This notification shall state that the parent(s) or **an** eligible student has a right to:

When a student becomes an eligible student, which is defined as a student who has reached 18 years of age or is attending only an institution of ~~post-secondary~~ ~~postsecondary~~ education and is not enrolled in a secondary school, the rights accorded to, and the consent required of, the parents transfer from the parents to the student. 4. Parent's or Eligible Student's Right to Inspect and Review

The district shall permit an eligible student or student's parent(s) or a representative of a parent or eligible student, if authorized in writing by the eligible student or student's parent(s), to inspect and review the education records of the student, unless the education records of a student contain information on more than one student. student or student's parent(s) may, at their/his/her expense, have those records reviewed by a physician or other appropriate professional of their/his/her choice.

If an eligible student or student's parent(s) so requests, the district shall give the eligible student or student's parent(s) a copy of the student's education record. The district may recover a fee for providing a copy of the record, but only for the actual costs of reproducing the record unless the imposition of a fee effectively prevents a parent or eligible student from exercising the right to inspect and review the student's educational records. The district may not charge a fee to search for or to retrieve the education records of a student.

The district shall not provide the eligible student or student's parent(s) with a copy of test protocols, test questions and answers and other documents described in Oregon Revised Statutes (ORS) 192.345501(4) unless authorized by federal law.

For purposes of this section, the term “organization” includes, but is not limited to, federal, state and local agencies, and independent organizations.

- f. The district may disclose information under this section only if the district makes a reasonable effort to notify the eligible student or student's parent(s) of the order or subpoena in advance of compliance, unless an order or subpoena of a federal court or agency prohibits notification to the parent(s) or student;
 - i. The disclosure is to comply with a judicial order or lawfully issued subpoena when the parent is a party to a court proceeding involving child abuse and neglect or dependency matters;
 - j. The disclosure is to the parent(s) of a dependent student, as defined in Section 152 of the Internal Revenue Code of 1986;
 - k. The disclosure is in connection with a health or safety emergency. The district shall disclose personally identifiable information from an education record to law enforcement, child protective services and health-care professionals, and other appropriate parties in connection with a health and safety emergency if knowledge of the information is necessary to protect the health and safety of the student or other individuals. If the district determines that there is an articulable and significant threat, the district will document the information available at that time of determination and the rationale basis for the determination for the disclosure of the information from the educational records.

In making a determination whether a disclosure may be made under the health or safety emergency, the district may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. As used in this section a "health or safety emergency" includes, but is not limited to, law enforcement efforts to locate a child who may be a victim of kidnap, abduction or custodial interference and law enforcement or child protective services efforts to respond to a report of child abuse or neglect pursuant to applicable state law, or other such reasons that the district may in good faith determine a health or safety emergency;

- o. The disclosure is to the Board during an executive session pursuant to ORS 332.061;
- p. The disclosure is to a caseworker or other representative, who has the right to access the student’s case plan, of a state or local child welfare agency or tribal organization that are legally responsible for the care and protection of the student, provided the personally identifiable information will not be disclosed unless allowed by law.

The district will use reasonable methods to identify and authenticate the identity of the parents, students, school officials, and any other parties to whom the district discloses personally identifiable information from educational records.

6. Record-Keeping Requirements

- a. The district shall maintain a record of each request for access to and each disclosure of personally identifiable information from the education records of each student. Exceptions to the record-keeping requirements shall include the parent, eligible student, school official or his/her assistant responsible for custody of the records and parties authorized by state and federal law for auditing purposes. The district shall maintain the record with the education records of the student as long as the records are maintained. For each request or disclosure the record must include:
 - b. The party or parties who have requested or received personally identifiable information from the education records; and

The following parties may inspect the record of request for access and disclosure to a student’s personally identifiable information:

The principal shall decide, after consulting with the necessary staff, whether to amend the record as requested within a reasonable time after the request to amend has been made.

The request to amend the student’s education record shall become a permanent part of the student’s education record.

If the principal decides not to amend the record as requested, the eligible student or the student’s parent(s) shall be informed of the decision and of their/his/her right to appeal the decision by requesting a hearing.

8. Hearing Rights of Parents or Eligible Students

If the building level principal decides not to amend the education record of a student as requested by the eligible student or the student's parent(s), the eligible student or student's parent(s) may request a formal hearing for the purpose of challenging information in the education record as inaccurate, misleading or in violation of the privacy or other rights of the student. The district shall appoint a hearings officer to conduct the formal hearing requested by the eligible student or student's parent. Confidential conversations between a licensed employee or district counselor and a student shall not be part of the records hearing procedure. The eligible student or student's parent(s) has the right to insert written comments or explanations into the record regarding the disputed material. Such inserts shall remain in the education record as long as the education record or a contested portion is maintained and exists. The panel shall make a determination after hearing the evidence and make its recommendation in writing within 10 working days following the close of the hearing. The panel will make a determination based solely on the evidence presented at the hearing and will include a summary of the evidence and the reason for the decision. The findings of the panel shall be rendered in writing not more than 10 working days following the close of the hearing and submitted to all parties.

If, as a result of the hearing, the panel decides that the information in the education record is not inaccurate, misleading or otherwise in violation of the privacy or other rights of the student, it shall inform the eligible student or the student's parent(s) of the right to place a statement in the record commenting on the contested information in the record or stating why ~~they disagree~~~~he/she disagrees~~ with the decision of the panel. Readable copies of the following documents shall be retained:

Your SSN will also be provided to the Oregon Department of Education. The Oregon Department of Education gathers information about students and programs to meet state and federal statistical reporting requirements. It also helps districts and the state research, plan and develop educational programs. This information supports the evaluation of educational programs and student success in the workplace.”

The district and Oregon Department of Education may also match your SSN with records from other agencies as follows:

The Oregon Department of Education uses information gathered from the Oregon Employment Division to learn about education, training and job market trends. The information is also used for planning, research and program improvement.

State and private universities, colleges, community colleges and vocational schools use the information to find out how many students go on with their education and their level of success.

Other state agencies use the information to help state and local agencies plan educational and training services to help Oregon citizens get the best jobs available.

Your SSN will be used only for statistical purposes as listed above. State and federal law protects the privacy of your records.

Re: Alsea Football (6 or 8 man)

*Ok for
board consideration*

3/1/23

The OSAA and football ADHOC has designated Alsea to play 8 man football due to our ADM of 79. However our true ADM is 47 but unfortunately they do an average of the last three years of ADM grades 9-11. We are writing a letter of appeal to the OSAA Executive Board to allow us to have an ADM of 47 and play 6 man football. They will vote on this matter on April 3, 2023.

In the meantime, I feel we need to make a decision so the 6 man league and the 8 man league can make their league schedules. We are the one school holding them up to move forward. Do understand we have the right to play 6 man but it would be independent (Can't qualify for state tournament). With our enrollment dropping and with the youth within our program I personally feel we need to play 6 man no matter what. However, I don't feel I should be the only one making that decision. Two years ago we played 6 man and had a little success and built some culture. This past year we played 8 man and we struggled, and our culture struggled. I would also like to mention that we had two legend coaches that worked hard to instill toughness to play 8 man football but our athletes were not ready for the jump. We would have enough numbers to play 8 man but our experience is not ready to play 8 man.

I am asking the board to decide on one of the three options:

Option #1: Play 8 man football and be allowed to play in the playoffs if we qualify. Also understand the league we would be placed in is basically in Klamath Falls.

Option #2: Play 6 man independent and realize that we will not be allowed to make the playoffs.

Option #3: Play 6 man and hope that on April 3rd the OSAA Executive Board votes in favor of Alsea playing 6 man football due to our actual enrollment of 47.

Thank you,

Bart

Re: 2023 Football Season

I approve of the attached analysis presented by Bart Rothenberger – Athletic Director. Personally I am concerned about safety for our students playing 8 man football. This has been demonstrated by the sheer number of injuries sustained by our players during the 2022 football season. Football is a full contact sport, it is better to match teams by abilities, this would be better arranged in a 6 man league. In addition, to play in the assigned 8 man league would considerably increase the athletic travel budget to play in the Klamath Falls area and increase the amount of time players were out of class.

I recommend that the board approves Bart and I to move forward with playing in a 6 man league regardless of outcome. I am convinced this will be best for safety, academics, and budget, but most of all best for our student athletes.

Request for Alsea School Board Action

REVISED MARCH 3, 2023

Date Submitted: January 25, 2023

All items must be submitted to the Alsea School Board on the previous Thursday or (7) working days before the next meeting. You will receive a copy of the Resolution within 5 days following the meeting. Please attach one original and copies for distribution.

Subject: Submitted by: Sara Littlefield, ASD Family Liaison (Alsea School’s Family Outreach Coordinator)

Action Requested: (If a resolution is requested, please attach, and email a draft to the Executive Secretary)

The ASD Family Liaison Coordinator has been working with the Vina Moses Center in the further development of the Alsea School’s Family Outreach Program “annex” with a small building located on the school property. (Previously agreed upon.)

Vina Moses Executive Director has agreed to help pay for the project development with the initial commitment of \$5,000 of Benton County ARP secured funds to go toward the purchase of a small pre-constructed building that meets Benton County requirements for a “Backyard Shed” and to seek additional funding from the Benton County Community Foundation for the balance of the building purchase.

We are seeking approval from the ASD Board to move forward with this project in authorizing VMC to use the \$5,000 as a down payment so VMC can obligate their funds by June 30, 2023.

We are also requesting that ASD approve the memorandum of understanding as a partner in this project which describes partner responsibilities and asset ownership.

We are also proposing that ASD, as a partner in this project, provide an in-kind match as indicated in the project budget attached.

Lastly, we are also seeking approval from the ASD board to submit a grant to Ford Family Foundation for the purchase and installation of a ductless heating system and electrical system, plus other to-be-identified grantors for the balance of the costs of setting up this project and operations.

Specifications, MOU, and bid docs are attached.

Superintendent Gallagher is recommending a meeting on January 26 to approve moving forward.

c. Seesaw - Heather Shunk presented

LaHO wants to move forward with breaking ties with Paradigm and switch to Seesaw as a platform. Seesaw is well known across the country, it brings a lot of pieces together and allows better collaboration with parents and teachers. The unique part of LaHO is we are already using a platform that is similar. Seesaw started out as a collaboration with teachers. In the last 5 years they have added a K-5 standards-based curriculum piece. A lot of teachers are already using some of this as a supplement for parents. It has an embedded assessment tool for teachers to use in real time. Equitable access, multiple languages that curriculum can be translated to.

Supportive

for Special Ed students as well. The cost to the district is about \$58,000 per year as opposed to \$600,000 for Paradigm. Superintendent requested a link that can be shared with the school board so they can have an opportunity to view the program.

9. Reports

a. Guidance Counselor Report

b. Suicide Prevention Plan Draft

a. Guidance Counselor Report - Haley Rose, graduated from Toledo HS, OSU masters in school counseling. Has worked for Toledo high school and now with Alsea SD.

- What she has done so far, breaks up job 3 ways, social emotional, post high school, and academic planning. Implementation of Admentum to help students who have failed courses previously to gain credit recovery. Scheduling and forecasting, senior tracking and advising. Ms Rose is currently the Senior Advisor. Today, the Benton Community Foundation members came and talked to students about applying for scholarships.

- Seniors enrolled - currently we have 20, 3 are foreign exchange students, 14 of the remaining 17 are on track to graduate in June. Risteen Follett asked if parents have the ability to reach out to Ms Rose with questions about the college application process. Linda Montanez asked about the possibility of parents contacting her in the next few months regarding younger students about graduation and potential graduation goals. Alsea has adopted an online program called Overgrad to allow students to take surveys to see where they land in that personality assessment to see what their interests are. Linda Montanez mentioned that the board has been wanting to get back to having these conversations with students from middle school through senior in high school to find best matched colleges or best matched careers. Implementing graduation goals and requirements. Setting up a resume, job shadowing. 4 hours of community service. Ending in a mock interview. Learning real life skills.

- College application week. Offers a time and a place for students to do that in the school during school hours. This was held the first week of November. 16 of 20 utilized. Music,

vet science, chemistry, lineman careers, etc.

- 3 component campaign, focus on applying for scholarships, FAFSA, paying for college. In May there will be a 'decision day' for students to make a declaration as to where they are going to go.

- Also acting as an LBCC liaison for students who are attending college while still in HS

- ASVAB, military entrance survey. All Juniors took that today, Jan 12th.

- College visitation to University of Oregon

- Social Emotional component, Haley Rose can provide a short term counselor when the Mental Health Liz Holden is not available. Level 1 support, getting into classrooms to provide mental health wellness to all students, Level 2 would be small group meetings (bigs and littles) having older students help younger students, Level 3 is putting out fires that needs immediate one on one attention.

b. Suicide Prevention Plan Draft - Superintendent Gallagher requested that the board have an opportunity to read over the material and have Haley Rose return to the next school board meeting to discuss. This is also a Division 22 requirement.

10. Financials

- a. Monthly Accounts
- b. Budget Calendar
- c. Bond payment Schedule Estimates
- d. FTE Report

a. Monthly Accounts- LaRae Sullivan presented

Alsea Student Body accounts - there are a few accounts in the red that she will work with Superintendent Gallagher to discuss what needs to be done.. Risteen Follett wanted to know what the approval process is for spending out of the ASB accounts. LaRae Sullivan said it should be done the same as with the building purchasing process, a requisition should be entered with a PO approval. Debra Lindberg wants to know if any of these accounts are doing fundraising anymore?

Ryan VanLeuven was under the impression that elementary field trips were supposed to be covered by the jog-a-thon money.

Presented we are at an interest rate of 3.0%, contingency is \$120,000, in February the board will receive a review on all expenditures to give a clearer view of the ending balance for this school year. State funding is projected at \$10,300,000, this is after Ms Sullivan put in the October adjustments. There may be additional adjustments in May. We are currently also going to be receiving an additional based on our October numbers. Robert Webb asked what the actual amount is that the district overspending every month currently. Superintendent Gallagher let the board know that is part of the budget conversation for next year.

The current year is budgeted at \$1.8 million we have but this needs to be higher by the end of this

school year. \$1.4 million is in a non touchable account.

Revenue vs expenditures:

We are currently \$82,000 to the plus, the-exciting news, year to date amounts things are starting to head towards the leveling off phase. This is due to cutting back on unnecessary expenditures.

b. Budget Calendar - LaRae Sullivan will be offering training as to what goes into the budgeting

process.

c. Bond payment Schedule Estimates - increase every year, they include interest, the principal increases every year and the interest goes down. By the end of 24 years we are estimated to have a \$4000 balance.

11. Payment of Bills for December 2022

12. Patron Comments:

1. Patron Comments: Risteen Follett checked with the other board members to see if they have any objections to patron comments that go over three minutes for tonight's meeting. No objections. Joni Olsen, concerns regarding the HR reset proposal action item. She feels that the board does not have full documentation with comparisons for salary schedule with job descriptions and work calendars. She likes to work collaboratively but as of tonight is feeling indignant. Do you know how this process will affect the budget? Are you going to have to start this process over once the certified negotiations are over? She said she understands the need for balance. She however feels that the board has not considered all aspects of the reset and how many staff will be publicly impacted.

13. Board Comments

Board Comments: Debra Lindberg - understands the challenge of the situation. The board members do have information that has not been shared with the public. But for the best of the school it has to be done and her decisions are based on fact.

a. Coop Softball/Baseball with Philomath

Superintendent Gallagher read a memo from Bart Rothberger looking into coop with Philomath SD, there will be no extra cost to Alsea school in terms of bussing students to Philomath as we currently have a bus going there. Parents would however, have to pick their students up after practice. Philomath has a Junior Varsity program for participation as well.

b. First Reading of Policies: GAA - GDPA-AR - DL, DBI and DJD1, no action required.

c. Approve Policies DB-FL, moved to the next school board meeting, no action required.

d. HR Reset - version 4, Debra Lindberg made a motion to approve, Linda Montanez seconds, Risteen Follett shared: she talked with Vince Adams, the process to work through this the board can make amendments in the future. Open to discussion - Debra Lindberg wants to make sure that

when HR reset rolls out that not any one person can not afford to live. She agrees that there needs

to be a baseline to work from. If the payscale is going to decrease significantly, we cap that amount. Amend that there will be no more than a 6% decrease in pay for any employee.

Superintendent Gallagher cautioned the board that this can still create an imbalance in current salary pay. Linda Montanez wants to ensure that when an employee is decreased by 6% that their cost of living is frozen until the salary schedule is readjusted. Ryan VanLeuven suggested approving the salary schedule and getting all employees placed correctly. But, put a freeze on the step increase for the 2023-24 year. If this amendment is put into place Risteen Follett would like to suggest that a 'due' date be given to the board to re-evaluate the pay increase percentage. This can be revisited once the certified bargaining is completed as well as the budget is ready for the 2023-24 school year. LaRae Sullivan commented that the budget proposal is due mid April, this will reflect future enrollment projection more accurately. Risteen Follett would like to request that

if an open position can not be filled internally that the board be consulted before the job is posted externally. Robert Webb requests that any hiring of a position whether it is a move from internally or externally it be brought before the board prior to filling or posting. Debra Lindberg requests that decreases and increases in pay all happen in February and no employee gets retroactivity back to July. Debra Lindberg withdraws the amendment that caps losses at 6%. Debra Lindberg recommends adopting the salary schedule of the increase of 2% step scale.

Debra

Lindberg approves with amendments of step freezes being implemented until 2024, an amendment of step increase be placed at a 2% increase for all positions, Linda Montanez seconds.

All in favor, yea.

e. Superintendent hiring memo - amendment to the original calendar that Debra Lindberg was given

HR Reset -Superintendent Gallagher

Included in Boardbooks is the Article 22 of how layoffs for certified staff are to occur within the union. The only documents that are available for the classified staff are board policies GDPA - Layoff of Classified Staff, GDPA-AR also entitled Layoff of Classified Staff.

The HR Reset v4 has also been presented to you. The first proposal for the RIF process was presented to you on January 25, 2023. The board approved the RIF process to move forward and create a plan for the process.

The highlights for this process are: Significant reduction in the estimated ADMW for the 23-24SY which results in approximately half of what we received this year. Next year's budget will be based on this year's enrollment numbers. Because this year's enrollment was down the district may have to pay the ODE back funds. The May adjustment is based on the better of two years and the adjustment may not be that bad. Once the district receives the May adjustment from ODE we may not have to pay funds back. The district has already cut unnecessary programs last spring that were not being properly served. The enrollment in LaHO is less than what was budgeted for which is consistent with other online programs across the state. The district needs to obtain a non-virtual status. If Alsea has virtual status that means that other districts can deny the transfer of students into our district. This means that for the 22-24SY LaHO enrollment is being set at around 217 enrollment if the brick and mortar numbers come in higher than LaHO enrollment can be adjusted. Keep in mind that enrollment for both building and online has been frozen for the remainder of this current school year to be able to continue the status negotiation with ODE.

The Superintendent as well as the Business Manager have been looking at all contracts since the beginning of this year to evaluate what is needed and what can be done for a lower cost. Significant savings are already being made. The district has also re-established many relationships with other agencies to provide services to our school that are paid for at their own state funded expenses, resulting in the district not having to pay for those services. The district has put in place spending checks in balances in place for any purchases or requisitions. This has helped with unnecessary costs.

HR reset was started last spring and has been a long and arduous process. The HR reset was approved by the board at a 2% step pay increase. With lack of evaluations and resumes for the current staff it is difficult to determine at what step employees are to be placed at.

Thus the process is going to look different with difficulty in knowing exactly where to place the employee pay scale. The district will need to meet with classified employees to help with that placement. Work calendars will have to be established to determine work day expectations as well as work hours. Hourly employees will be given the opportunity to choose an annual pay option or receive 12 monthly paychecks averaged out.

Due to the delay that keeps happening with the HR reset and RIF process, Superintendent Gallagher is asking that the new salary rates not take effect until mid March as opposed to the previous request of January and again in February.

The board stated that they thought the process would be to reset everyone's salaries, then take a look at the budget and reevaluate again. Then look at the RIF process. Sean Gallagher asked LaRae Sullivan to calculate what the budget will look like after the staff are placed into the new salary with a comparison to what salaries currently are. The board would like to see these numbers prior to making any further changes. They feel that this will give a clearer idea of where we are at.

Spending freeze, RIF process and a hiring freeze from October 2022. Reduction of force recommendation: Classified staff cuts according to board policy GDPA and GDPA-AR and the certified will be based on the Article 22. Classified reductions will be determined by the date of hire as well as qualifications. For certified staff, there needs to be a 15 calendar day notice, seniority based upon teacher licensure, competence, merit, evaluations by administrators, the problem is these either do not exist or are very outdated.

Keep in mind 80% of a school district's budget is associated with staffing compensation including benefits. With what the district has done so far this year in canceling contracts, renegotiating contracts, spending and hiring freezes as well as absorbing open positions through natural attrition the district has currently saved approximately two million dollars to date. This is significant. The established target for the school district to balance the 22-23SY budget was approximately five million dollars. We still have a three million dollar target to meet.

Two stages of the RIF will be Tier I happening by Spring Break. Tier II will happen by June 30, 2023. Keep in mind that when a position is RIFed that workload will have to be absorbed by remaining staff. With the remaining staff there will be pay reductions as well as a freeze in step raises for the 2023-24 school year. There may need to be classes that have to be combined to accommodate for less staff. This is not a recommendation for the elementary classes but will most likely be at the MS/HS level with like classes. Example: Algebra I and II classes combined. There may be increased supervision duties. There may be loss of programming. We have to be very careful and cautious. If we let a teacher or staff member that is paid with grant funds we can move a general staff funded employee into that position to help alleviate the building budget.

Maintenance of effort - SPED funds, allocations increased incrementally over the years but then shot up to 1.5m. MOE funds are not easy to reduce. The Federal Government dictates that we have to increase spending on students every year. The current increase is outlandish and will be hard to meet. Federal law prohibits us from reducing these numbers even though our IEP except for under the following conditions:

1. Loss of staff through resignation or retirement
2. Loss of student population on IEPs
3. Termination of expenses.

Due to the loss of student population we will be able to decrease from \$1.4 to \$1.2 million for 23-24 that will have to be spent for staffing. The district and Special Ed. department is hoping to be able to decrease funding every year thereafter. What this will look like is the SPED staffing will look heavy in the 23-24 school year even though we do not have the SPED student population to justify it.

Cheryl Doe spoke of some of the ideas that have been looked at. Childfind obligation will help to look at new students needing SPED services as well as MTSS needs. Capital expenditures that would be directed toward the SPED department but benefit the school as a whole. Soren Rounds clarified that aides that would go into classrooms would need to be 'attached' to a student who has an IEP.

Spring break Tier I will result in \$236,000 savings for the current school year. Focus areas are general education IA positions. Secretarial pool, certified TOSA, custodial, reallocating a confidential position to a non confidential, miscellaneous personal service contracts. A transfer of classified and certified to the SIA Grant, Administrative contributions to day. All of this will result in a savings for next year at \$1.1 million

Summer break Tier II still being developed, work needs to be done with the union. Focus areas is more than 10 FTE for all certified staff which includes teachers as well as administrators. This will result in a savings of \$1.3 million.

All of this will still get us to a \$600 shortage so we need to look deeper for areas to make cuts. What is presented today may not be the same tomorrow. Some of this is also contingent on what the government does for school allocations. They are estimating 9.9 billion with most schools needing 10.3 billion to be at status quo. The district is also still evaluating Grant renewals. A balanced budget must be submitted by June 30th.

Deb Lindberg spoke to preserve programs. We are cutting staff who are working with our students. Why not cut administrative positions that we currently have 5 of? Have the Superintendent be the principal, Athletic Director also act as the vice principal. Preserve the secretarial and IA positions. Superintendent Gallagher asked LaRae what would cutting an administrative position as opposed to cutting a teacher.. \$96-100k for a teacher. Admin. would be about \$120-\$150K. Deb would prefer to see the cuts happen at the heavy administrative positions and preserve the support staff.

Questions from the board members: Riseen Follet asked why are we cutting building staff when the online program is the one who does not have the numbers? Has any of this been discussed with staff, particularly the teachers and how this will impact their classroom. There will be a reduction of online administrative staff and have them be onsite. For example the LaHO administrator could also be the elementary principal here in the building. Has any of the staff been asked for input? Could that discussion change any part of this plan? Soren Rounds asked, how will this Tier I loss of staff affect the remaining staff. It is hard to visualize what that will look like.

Contract days? There will be a reduction in contract days, this is a conversation that has already been brought up to the certified staff. Example: secretarial moved from a 260 day contract to a 240 contract. Re-evaluate the pre-school. Suggestions are charging the preschool for mortgage payment, utilities, internet reimbursement. The house will be paid off by September but no rent is being charged.

Is the economy being taken into consideration for the online program and parents having to return to work, how will that affect enrollment for next year? Tim France responded that it has been taken into consideration and that there are other online programs that will be and are closing.

Risteen would like to hear from the staff as to how this will impact them directly. Opening the door for feedback and not complaints. From teachers and staff. How do these cuts fit into the School Improvement Plan / Student Success? With less staff will we still be able to meet these goals?

The board is asking that instead of starting the RIF process at spring break do the following:

1. Hear from the staff to hear feedback, not complaints, without fear of retaliation. Superintendent Gallagher asked that the administration have that conversation with staff but offered to have board members in on those conversations.
2. Put staff on the new pay scale before anyone is let go in the RIF process.
3. Sean will meet with staff after school on March 7 to give them a heads up on what the next steps will be.
4. Make sure that any and all that is done with this process keeps us in alignment with the school improvement plan and the Alignment for Student Success.

4. Superintendent's Report - Sean Gallagher

- a. Bond GMP update - Chris and Nancy Giggy

Recap of report given to the BOC earlier this evening. 4 packages were approved by the committee tonight. 2 of the packages need to get more information. Bond project summary: budget update given by Chris Giggy. Updated budgeted expenses as well as updated estimates. These will be updated on a monthly basis. Currently with the contractor updates we are about 400k over budget. CB construction provided updated bids for the four work packages. Electrical upgrades, Electrical room, HVAC upgrades, VOC building. Because this was all sent out today by CB construction the board is being asked tonight to approve the scope of work at the current costs presented with the knowledge that these figures could come in. These plans all need to be looked at again to make sure they capture all of the changes that need to be made to lower costs.

Aligning for Student Success - Tim France, Bart Rothenberger, Aaron Miller presented. This is a massive project, the state provided extra funds for small schools to help with the costs. Tonight is just information for the board. There is a March 31st due date that will have to be met in order to obtain funding. Aaron Miller from Linn Benton Lincoln ESD presented 6 programs that are aligned.. The 6 programs include HS success, student investment account, continuous improvement plan, CTE programs, Every day matters (attendance), Early indicator and intervention systems. Community engagement, how students are accessing programs. How they are doing in the programs. What needs improvement? Looking at outcome data etc. This is developing a four year plan but with the budget it really is a two year plan. SIA dollars are already supporting programs that we have in place so it does not mean more funding available. Application requirements, applications are due by March 31st, All of the requirements will be presented to the board in the March meeting. Board adopted an equity lens to ensure that all students are being considered. Application must be posted on the district website. The goal is to have it posted prior to the March meeting so that the public has an opportunity to view it prior to the board approval. Tim France is getting input from students and staff. The parent survey was sent out last week. Specifics will be discussed during the meeting this coming Monday as well as with the staff and community.

Superintendent Gallagher reassured the madam chair and the board that they are working on getting information out to the community. Reviewing all student data. 3rd grade readers, 9th grade on track, all 4 years on track, graduation rates etc. ELA scores are uptrending. HS empathy interviews were all positive regarding school, student and staff climate. 9th grade on track has declined over the past few years. Need to formalize grad requirements. 80.3% of students feel like they have someone here at the school that they can reach out to for support.

Intended outcomes: help students graduate, counseling services, CTE, professional development. On track graduation programs. Tiered budgeting. Allows for a back up plan so that the district can continue to move forward. It is the District's job to look at data in the five areas and create a growth plan. State testing is crucial for gathering data on how our students are doing and growth in student success rates. Risteen Follett asked about the additional data. If we don't continue to measure throughout the year then it could get lost. Is there a correlation between the empathy survey and how well students are doing in school? Aaron Miller went over the application questions and what ODE is looking for.

5. District Recognition: LaHO

- a) Employee - Shirley Koetz, presented by Superintendent Gallagher. Although she was not directly a part of Learn at Home we wanted to honor her for all that she has done for both the building and online programs. She has been a tremendous support for many years.
- b) Students - last month the focus was on Valor - Bravery, strength of mind, courage!
 - KG - Rowan Russell and Ryer Albers
 - 1st - Oska Aldridge and Madrid DeAnza
 - 2nd - Jenason Williams and Bentley Mauer
 - 3rd - Elliot Crow
 - 4th - The Entire 4th Grade Class
 - 5th - Macsen Young
 - 6th - Tasha Van Noecker
 - 7th - The Entire 7th Grade Class
 - 8th - The Entire 8th Grade Class
 - Foundations - The Entire Class

6. Financials - LaRae Sullivan

a. Monthly Accounts:

Actuals - referenced handouts, decrease in enrollment numbers in both the building and online program. This is the last year of the higher ADMW. The more experienced teachers the more money we receive. Last year was budgeted at 12m with the end being actually 11.9m. This year we are currently looking at 10m for an additional savings by doing the work that has been done with looking at contracts and unnecessary expenses. The transportation grant ratio dropped down to 80% for the last two years because of the student enrollment being less currently. Because of the loss of ADM we will be asking WLA to pay back to Alsea SD 10% for this current year as well as the previous years. We will be asking the same from Kings Valley. Superintendent Gallagher is working on a graph to better explain the expenses and student/SPED correlation. Ryan VanLueven had a question about the bus situation. Kings valley has not been billed yet. Purchase services and supplies have gone down considerably.

Revenues - showing the actuals per month as per the boards request last month

Expenditures - reflected in the same way. Showing the expenditures from last year and how much the district has saved this year.

- c) Supplemental Budget - announced in the newspaper. The purpose is we did not notify the public when we added a function. This will rectify that. Adding the function of 5000 because we obtained new buses. Clean up on the ASB funds. There are 3 items that are still in the red, forestry, annual yearbook, leadership / student council.
- d) Audit presentation - as presented to the board in their packets.
- e) Budget Calendar - carried over from last month. Needs to be approved by the board tonight.

7. Payment of bills for January 2023 - we paid out less in January than we even paid in December with the two weeks less of operating expenses. Debra Lindberg motioned to approve. Ryan VanLueven seconded. All in favor.

8. Discussion

- a. First Reading of Policies: GAA - GDPA-AR -
- b. Second Reading of Policies: DB FL -
- c. Suicide Prevention Plan - Haylie Rose Policy JHH was included only as a reference. Required by board policy as well as a Division 22 and state requirement. Simply a list of... training for staff. Highlights: Adopted from the Forest Grove plan which has been named as a model plan. Safe Schools training, already provided. CPR training, LBLED has a trainer available to train our teachers. Designated staff will receive assist training. A more intensive training. To provide a curriculum for K-12. Although health is currently only being taught to 7th - 12th grades. What would that curriculum look like for the K-6th grades? Topic for discussion. In case of a suicide what is the schools response. Suicide risk assessment. Student coping plan. This is a draft plan that is being presented to the board tonight. Not the plan that will be put out to the community at this time. SG is asking the board to approve the plan as presented tonight to satisfy the obligation of board policy, Div 22 and state requirement.
- d. Communication Plan - Sara Cash - presenting what she has done and created thus far with some statistics. Communication with the community, school newsletter that was first published in December. It has been viewed all across the United States, Hawaii and the UK. Facebook has 78 followers. # shares etc. Increased coverage in the Alsea Valley Voice, statewide coverage by the OSBA, Future development: survey, hard copies at the cafe and John Boys as well as the community bulletin board. Ruralite and Eugene weekly. Community outreach. Alum interviews etc.
- e. Grant Application and MOU - Sara Littlefield - tabled as Sara Littlefield is home ill.
- f. GMP discussion - anything to add or discuss from the earlier conversation

9. Patron Comments - Sara Cash - Joni Olsen

- Joni Olsen - financials, still trying to get an understanding of what has changed and why we upped the school funding. What was presented tonight did not match what was presented last month. Board questions - 1. Who are the community partners? There have been no communication surveys sent out to the community. The only survey that has happened has been around 'your student'. 2. What is happening with the 'portion of state funding' that we may have to pay back? 3. Do you agree that the financials are accurate? Why did the ADMW go up or change? What does that mean? Who is involved in the financial data? Just the Superintendent and the Business Manager? Set up a meeting with Superintendent Gallagher, LaRae Sullivan and Joni Olsen to go over her concerns and answer her questions more in depth. 4. Why are public comments not allowed when there is a presentation when the board gets to comment?
- Sara Cash - refer to letter she emailed earlier. Regarding the budget crisis and our representation in Salem. Her plans detailing what she would like to do to increase support and funding for Alsea School and other 1A schools across the state. She would like to work with the current legislature to bring awareness to what smaller school districts are unfairly faced with regarding funding etc. She intends to create advocacy materials, leverage current connections with community members.

10. Board Comments - Risteen Follett gave a general reminder of confidentiality. Executive sessions and Superintendent searches are not to leave the board room. Let experiences shape the votes

11. Action Items:

- a. Approval of Policies GAA - GDPA-AR - this was added for approval - Ryan VanLueven motioned to add policies GAA - GDPA-AR to the approval of Policies, Deb Lindberg seconded. All in favor.
- b. Approval of Policies DB - FL Deb Lindberg made the motion to approve Policies DB - FL, Linda Montanez seconded. All in favor
- c. Approval of Suicide Prevention Plan - Deb Lindberg motioned to approve the Suicide Prevention Plan, Ryan VanLueven seconded for discussion. Deb Lindberg recognized that Haylie Rose is in the beginning stages of creating/updating the plan and that the board is approving the plan with the understanding that work will continue until it is finished. Ryan VanLueven seconded with the additional comment to get the K-6 curriculum researched and placed before the board for approval. Risteen Follett feels that approving this at this time runs the risk of it being 'rubber stamped' and then forgotten with no further work done. Deb Lindberg amends that this will be checked on every month with the curriculum being placed before the board. Deb Lindberg motioned to approve with additional comments. Ryan VanLueven seconded. Soren Rounds and Linda Montanez yea, Risteen Follett is a nay.
- d. Approve Budget Calendar Deb Lindberg motioned to approve, Ryan VanLueven seconded. All in favor.
- e. Approve Budget Committee Members - Deb Lindberg motioned to approve the budget committee members as presented. Risteen Follett would like to add Naomi Chadwick if an opening becomes available. Risteen Follett seconded. All in favor.
- f. Approve Grant application and MOU for Family Liaison Program - moved to March 9 meeting as Sara Littlefield was ill.
- g. Approve Communications plan - Ryan VanLueven moved to approve. Linda Montanez seconded. All in favor.
- h. Approve GMPs - Risteen Follett motioned to approve the GMPs as presented. Deb Lindberg seconded. All in favor

- Budget Committee member Kenny Vogler has resigned from being part of the Alsea School District Budget Committee
- In the past years Jamie Olsen has been appointed to fill this budget committee position

For the FY23.24 budget process, I am asking if the Board will approve the Budget Committee appointment officially for Jamie Olsen.

This Budget Committee position would end 06/30/2024.

Re: Resignation for 23-24 School Year

Dear Sean Gallagher, Superintendent, Tim France, Principal, & Alsea School Board Members

I would like to notify you that based upon recent information detailing the specific needs of the district for an in-person administrator for the Learn at Home Oregon (LAHO) program for the 23-24 school year, I will be resigning my appointment for Principal for the 23-24 school year as well as resigning from my current position at the end of this school year, effective June 30, 2023.

This decision is not taken lightly as I had incredible vision, hope, and excitement for leading a dynamic, robust, and highly effective online academic program that supports a wide-range of educational needs and goals of students and families who intentionally chose participating and attending school virtually.

I would like to emphasize that my relocation plans were always intended for the 24-25 school year. This plan was clearly and consistently communicated to the Superintendent and administrative team starting in August 2022. Our family would not be relocating prior to the 24-25 school year due to my oldest son's high school graduation date of June 2024.

My preference would be to continue, as planned and voted on by the board, to lead the LAHO virtual program for the 23-24 school year. However, I cannot be "in person" full time to support brick & mortar programming until the 24-25 school year. If the Superintendent and Board approves my ability to continue working and attending to job responsibilities virtually for the 23-24 school year, I would consider rescinding this resignation and moving forward.

I appreciate that you have supported my leadership style and provided space for incredible professional growth. It has been an honor to work with both of you and I am grateful for your seasoned and on-going mentorship.

Respectfully,

Heather Shunk
