7.3. FISCAL YEAR 2025 TUITION AND COMPREHENSIVE FEES

The proposed change to comprehensive fees includes a \$1.50 increase in instructional equipment and the merge of two College fee structures. The \$1.50 instructional equipment fee increase is proposed to support updated learning equipment in classrooms and labs. This fee has not been increased in more than a decade. The merge of the existing \$8.00 online fee to the existing comprehensive technology fee is proposed to streamline College fee structures for greater transparency for students and align actual utilization of resources with the fee structure.

The total increase of \$10.50 per credit hour for tuition and comprehensive fees is made up of a \$1.00 per credit hour change in tuition and a \$1.50 increase in comprehensive fees for a total increase of \$2.50. The integration of the existing \$8.00 online fee with the existing technology fee of \$5.55 holds both fees flat at the FY24 rates. The range of increase for students in tuition and comprehensive fees per credit hour will range from 1% to 7% depending on the modalities of delivery.

7.4. ACADEMIC YEAR 2024-2025 CREDIT COURSE FEES

Per Board Policy 420.1 Course Fees, the College follows a credit course fee change process using defined, consistent, and fiscally responsible guidelines to develop, increase, or decrease course fees. Course fees are applied to the costs of materials and supplies directly associated with classroom and lab learning.

A comprehensive audit of all course fees was conducted, including a review of any course fee updates that occurred within the last ten years. Of the credit courses that will be offered in Academic Year (AY) 2024-2025, 542 have an associated course fee. Of these 542 courses, it is recommended that the course fees for 451 remain unchanged and 91 course fees be modified. Within the 91 courses, 90 existing courses have an increased fee and one course has a reduced fee. Nine existing courses and one new course will have a new course fee.

The proposed changes will result in an estimated \$150,000 in additional fee revenue based on enrollment in these courses over the past year.
