The Board of Education has requested that the technology department review the current 1:1 program.

In 2011, the district approved a 1:1 technology program at Garden City High School. The plan included the adoption of Apple iPads as the device of choice. In 2018, the 1:1 program was extended to all 1–8th graders. The planned 4-year rollout provided access to iPads for all staff and students at those grade levels. In December 2019, the plan was reviewed for the Board and the decision was made to continue using the iPad for the 1:1 program. During COVID, the plan was extended to cover Kindergarten as well and provided iPads for GEC during remote learning.

Technology discussed with the Board of Education their expectations and desired outcomes from a review of the program. Two areas have been shared with Technology through leadership; device use at the early grade levels, and a review of the iPad as the device of choice for grades 7–12.

Staff's recommendation is to not approve the Year 2 M&V invoice and rather utilize that money towards an upgraded control system for the project, which would be a better use of these funds. Action is needed to discontinue the agreement for the year 2 report.

MEMORANDUM

To: The USD457 Board of Education

Thru: Josh Guymon, Superintendent

From: Dr. Virginia Duncan, Director of Secondary Curriculum & Instruction

Subject: New Courses from Curriculum Council

Date: 9-17-2025

ISSUE:

The Board of Education is asked to consider and approve the addition of the following new courses for dual credit:

- **Business Management (0.5 Credit):** The course is designed to provide a basic understanding of administrative problems through the study of the functions of management. Organizing, planning, directing, and controlling the four functions of management are studied in detail. The study of management encompasses a great deal of territory, both conceptually and geographically.
- **Business Ethics (0.5 Credit):** The course is an overview of philosophical ethics with emphasis in business cases. The course will examine ethical theories and their proponents. The course will also apply ethics to business situations and examine how the theories are practiced when confronted with contemporary issues.
- **Personal Finance (0.5 Credit):** This course surveys various topics that are of personal value and key principles to personal financial stress and management. These topics include personal money management, budgeting, the time value of money, the costs, and benefits of consumer credit, evaluating choices for housing needs and other major purchase, the role of insurance in mitigating risk, and investment-retirement planning and tax and estate planning alternatives and strategies. Personal finance is a course designed to provide the background necessary to manage one's own financial affairs and understand the true benefits and costs of financial services and consumer goods.

BACKGROUND:

GCHS seeks to add the new courses to allow students more elective choices and more dual credit opportunities. Each course recommended above meets the criteria for credit on the Kansas Board of Regents "buckets" of courses that will follow students in the event of a college transfer.

ALTERNATIVES:

1. Approve the courses as presented
2. Do not approve the courses

RECOMMENDATION:

It is recommended that the Board of Education approve the courses as presented.

FISCAL NOTE:

No additional funding is needed to fund these courses

ATTACHMENTS:

Course Description

Description: The course is designed to provide a basic understanding of administrative problems through the study of the functions of management. Organizing, planning, directing, and controlling the four functions of management are studied in detail. The study of management encompasses a great deal of territory, both conceptually and geographically. Therefore, it is important for those being introduced to the field to have reliable guideposts to help them make sense of it all. Five major themes guide the study of management. These themes include an overriding focus on change, an emphasis on skill development, an emphasis on globalization, an emphasis on diversity and an emphasis on ethics. Students should check with their advisor for transferability.

Prerequisites: None

Course Types

ACCELERATED COURSE: An accelerated course allows students to complete an academic course in less time than a full semester. This is an intensive course, covering a full semester's work in considerably less time. Therefore, regular, consistent attendance is vital for success, and students are required to do substantially more work outside of class.

HYBRID COURSE: A hybrid course is a blend of online or independent work and campus-based instruction. A hybrid course offers the benefit of face-to-face instruction and the flexibility and convenience of online or independent work. Each individual course provides specific classroom dates and times while online or independent instruction uses any combination of various methods: video, audio, document files, discussion boards, and written assignments.

FACE TO FACE COURSE: Face-to-face courses are campus-based classes that meet in-person at an established time and place. While instructional technologies (like Canvas) may be used to support the course, instruction takes place fully in-person. Students will still be

expected to use campus technologies like email and Canvas.

ONLINE COURSE: An online course uses computer-based technologies (i.e. *Canvas*) to create an online “classroom.” Students are instructed in course content through online learning: tutorials, testing exercises, group collaborations, independent assignments, and long-range projects. Each individual course provides a schedule of assignments and deadlines. Students need to have adequate computer skills as they will be communicating with the instructor and classmates online. This course is an online course, and you are responsible for ensuring that you can access all course material on a regular basis either from the GCCC campus or from home. Additionally, certain technical abilities will be required, such as installing necessary plug-ins and uploading files. If you have a problem with a personal computer or interrupted network connection, know that you are still responsible for submitting your work on time. If there is a problem with the Canvas system, notify your instructor and Canvas support (877) 259-3991 (or email online@gccccks.edu) (<mailto:online@gccccks.edu>)).

BUSTER LIVE DISTANCE: On-campus students and distance students will attend class together. On-campus students attend class in person while distance students attend remotely, entirely through scheduled, synchronous live Zoom sessions. Distance students are recommended to have their own webcam-enabled laptops for this course.

Time Commitment

A course is measured in credit hours. Each credit hour requires about 45 hours of work.

Classroom Decorum

Netiquette is online etiquette. It is important that all participants in online courses be aware of the proper online behavior and respect each other.

Use appropriate language for an educational environment:

- Use complete sentences
- Use proper spelling and grammar
- Avoid slang and uncommon abbreviations

- Do not use obscene or threatening language

Remember that the College values diversity and encourages discourse. Be respectful of differences while engaging in online discussions. .
For more information about Netiquette, see [The Core Rules for Netiquette by Victoria Shea](http://www.albion.com/netiquette/corerules.html). 
(<http://www.albion.com/netiquette/corerules.html>)

Attendance

Attendance Guidelines:

1. Attendance at GCCC is highly recommended.
2. The student is responsible for contacting each instructor regarding an absence.
3. GCCC supports the right of instructors to recommend withdrawal prior to the published withdrawal date or to fail any student whose absences are excessive in the instructor's opinion.

Online Attendance Guidelines:

Online attendance is highly encouraged to be successful in this class. Attendance online is defined as a learner who logs into the classroom and completes at least two activities in the course each week. Students are required to complete an assignment the first week of the class to maintain their enrollment in the course.

College-sponsored Activity Absence Policy:

1. The student must notify the instructor prior to the absence.
2. The student must obtain assignments prior to the absence.
3. The student and instructor must establish a due date.
4. The student must submit completed assignments by the due date.
5. Coaches or sponsors will provide a list of participants to instructors prior to the activity.

If these criteria are met, coursework will be accepted.

COURSE TYPE

ACCELERATED COURSE: An accelerated course allows students to complete an academic course in less time than a full semester. This is an intensive course, covering a full semester's work in considerably less time. Therefore, regular, consistent attendance is vital for success, and students are required to do substantially more work outside of class.

HYBRID COURSE: A hybrid course is a blend of online or independent work and campus-based instruction. A hybrid course offers the benefit of face-to-face instruction and the flexibility and convenience of online or independent work. Each individual course provides specific classroom dates and times while online or independent instruction uses any combination of various methods: video, audio, document files, discussion boards, and written assignments.

FACE TO FACE COURSE: Face-to-face courses are campus-based classes that meet in-person at an established time and place. While instructional technologies (like Canvas) may be used to support the course, instruction takes place fully in-person. Students will still be expected to use campus technologies like email and Canvas.

GARDEN CITY COMMUNITY COLLEGE

Personal Finance 3cr

ONLINE COURSE: An online course uses computer-based technologies (i.e. Canvas) to create an online "classroom." Students are instructed in course content through online learning: tutorials, testing exercises, group collaborations, independent assignments, and long-range projects. Each individual course provides a schedule of assignments and deadlines. Students need to have adequate computer skills as they will be communicating with the instructor and classmates online. This course is an online course, and you are responsible for ensuring that you can access all course material on a regular basis either from the GCCC campus or from home. Additionally, certain technical abilities will be required, such as installing necessary plug-ins and uploading files. If you have a problem with a personal computer or interrupted network connection, know that you are still responsible for submitting your work on time. If there is a problem with the Canvas system, notify your instructor and Canvas support (877) 259-3991 (or email online@gccccks.edu).

BUSTER LIVE DISTANCE: On-campus students and distance students will attend class together. On-campus students attend class in person while distance students attend remotely, entirely through scheduled, synchronous live Zoom sessions. Distance students are recommended to have their own webcam-enabled laptops for this course.

TIME COMMITMENT

A course is measured in credit hours. Each credit hour requires about 45 hours of work.

CLASSROOM DECORUM

Netiquette is online etiquette. It is important that all participants in online courses be aware of the proper online behavior and respect each other.

Use appropriate language for an educational environment:

- Use complete sentences
- Use proper spelling and grammar
- Avoid slang and uncommon abbreviations
- Do not use obscene or threatening language

Remember that the College values diversity and encourages discourse. Be respectful of differences while engaging in online discussions. For more information about Netiquette, see *The Core Rules for Netiquette* (<http://www.albion.com/netiquette/corerules.html> (Links to an external site.)) by Virginia Shea.

AI and Chat GPT

Students are expected to demonstrate academic integrity and ethics in their use of technology. Tools that use artificial intelligence (AI) to generate written, visual, or other communications are becoming more common, for example OpenAI's ChatGPT.

These are the guidelines for this course:

GARDEN CITY COMMUNITY COLLEGE

Personal Finance 3cr

- 1) Students should not use AI tools on any graded work without instructor permission. Instructor permission for using AI for graded work will be in the assignment description. If there are reasons to use AI outside of previously granted permission, visit with the instructor in advance of the due date.
- 2) When the instructor encourages use of an AI, students should still cite that information as coming from the AI. There should be a clear mark in any work of what was completed through the use of an AI tool and what was original student work.
- 3) Using an AI tool that is not intended for the assignment is considered academic dishonesty. The Academic Ethics policy will apply. The instructor may use an AI detector tool to analyze student work.

CELL PHONE POLICY

Use of cellular phones or any other electronic communication devices for any purpose during a class or exam session is prohibited by Garden City Community College, unless expressly permitted by the instructor.

ATTENDANCE

GUIDELINES:

1. Attendance at GCCC is highly recommended.
2. The student is responsible for contacting each instructor regarding an absence.
3. GCCC supports the right of instructors to recommend withdrawal prior to the published withdrawal date or to fail any student whose absences are excessive in the instructor's opinion.

GUIDELINES:

Online attendance is highly encouraged to be successful in this class. Attendance online is defined as a learner who logs into the classroom and completes at least two activities in the course each week. Students are required to complete an assignment the first week of the class to maintain their enrollment in the course.

COLLEGE-SPONSORED ACTIVITY ABSENCE POLICY:

1. The student must notify the instructor prior to the absence.
2. The student must obtain assignments prior to the absence.
3. The student and instructor must establish a due date.
4. The student must submit completed assignments by the due date.
5. Coaches or sponsors will provide a list of participants to instructors prior to the activity.
6. If these criteria are met, coursework will be accepted.
7. Dual credit students will follow the same criteria.

RE: Adoption of Skyward Qmlativ

ISSUE:

Our Student Information System (SIS) and Financial System, currently with Skyward SMS 2.0, is coming to an end of life. Skyward is transitioning to a new product called Qmlativ. We are seeking approval to transition to the new Skyward SIS/Financial Suite per the attached quote and license agreements.

BACKGROUND:

In 2008, the district adopted Skyward SMS as its SIS and Financial software, which has served us well for 17 years. Skyward announced Qmlativ in 2016 and has been refining it with district partners since. In fall 2024, the technology department and district leadership initiated transition discussions, forming a committee in spring 2025 to evaluate options. After reviewing both Skyward Qmlativ and PowerSchool's SIS/Financial products, the decision was made to transition to Skyward Qmlativ.

ALTERNATIVES:

- Option 1: Self Hosted with Managed Services - 3 yr. locked rate
 - One-Time Installation Fees: \$85,454.00
 - Recurring Fees:
 - Skyward SMS 2.0 FY2026 - \$157,164.00 - Final Year on Current Version
 - Future Qmlativ Fees - \$160,338.00
- Option 2: Secure Cloud Hosted - 3 yr. locked rate
 - One-Time Installation Costs: \$90,030.00
 - Annual Costs:
 - Skyward SMS 2.0 FY2026 - \$157,164.00 - Final Year on Current Version
 - Future Qmlativ Fees - \$179,658.00
- Option 3: Do not approve

RECOMMENDATION:

Approve Option 2: Secure Cloud Hosted.

While hosting in the cloud adds cost, it provides greater security and stability for the district's most vital software. With the database backed up in two U.S. locations, we gain three key benefits: protection against cybersecurity threats, secure offsite backups, and built-in disaster recovery to prevent downtime or data loss.

FISCAL NOTE:

For comparison, our current licensed contract with Skyward SMS is \$157,164.00 per year.

The additional cost of cloud hosting is offset by the infrastructure expenses required for onsite hosting and backup/recovery. Upgrading our current backup system to store past data and support a new database would include an initial cost of approximately \$55,000 and \$30,000 in recurring costs. Sending an encrypted offsite backup to Skyward for disaster recovery would add approximately \$17,000. Additional fees would also be incurred for maintaining an onsite server.

ATTACHMENTS:

- Skyward Q Student & Business Contract: **GARDEN CITY USD #457, KS - 1. Q BUSINESS & STUDENT TRAD CONTRACT - 9.2.25.pdf**
- Skyward Hosting Contract: **GARDEN CITY USD#457, KS - 2. HOSTING CONTRACT - 9.2.25.pdf**

Note: The above contracts were provided to Jennifer Cunningham, District Counsel, and she has read and given her approval for both of them.

*The customer recognizes and acknowledges the recurring fees presented above, both SMS 2.0 and Qmlativ, will be prorated accordingly based on Go-Live date of the Qmlativ Migration through the end of that current fiscal year.
The following fiscal year, Qmlativ Recurring Fees will be billed based on your contract term.

Secure Cloud Computing Services

Secure Cloud Computing Services (SCC Services) provides an option to remotely operate your Skyward application through a secure cloud provider. Our cloud provider operates servers within its own facilities allowing you secure access to all applications through a browser via the Internet. The SCC Services are fully responsible for all aspects involved in database disaster recovery, loading releases and updates, operating and maintaining host servers, software, and databases.

The hosting fees for SMS 2.0 would end upon Qmlativ go-live.

Implementation and Training

Implementation Schedule
Skyward will establish a mutually agreed upon implementation schedule. Failure by the customer to adhere to the implementation schedule will result in delays and additional costs. For postponements between 46-90 business days before the go-live date, a fee of 25% will be applied. These fees are based on pricing from the accepted proposal. Skyward and the customer will subsequently agree on a revised implementation schedule.

7.1 Software Support. So long as Licensee continues to pay the Annual Fees, Skyward will provide Licensee with technical support and software maintenance with respect to the Skyward Products, subject to the terms and conditions described on Schedule A, attached hereto and incorporated herein by reference.

7.2 Professional Services. In the event Licensee requests implementation services, training services, data conversion services, network or data management services, or other project management and professional services from Skyward during the term of this Agreement and Skyward agrees in writing to provide such services, then the terms and conditions of Skyward's provision of such services to Licensee shall be in accordance with the terms and conditions described on Schedule B, attached hereto and incorporated herein by reference.

7.3 Collection of Technical Data. Licensee agrees that Skyward may collect and use technical data and related information, including but not limited to technical information about Licensee's use of the Skyward Products, that is gathered periodically to monitor the health of Licensee's database and to facilitate the provision of updates to the Skyward Products, product support, and other services to Licensee related to the Skyward Products. Accordingly, beginning on the Effective Date and continuing for a period of one (1) calendar year thereafter, neither party shall solicit, whether directly or indirectly, the employment of any of the other party's employees without the prior written consent of the other party. If a party violates this Section 7.4, the parties agree that the violating party shall pay to the other party the sum of Fifty Thousand Dollars (\$50,000.00) for each violation, not to exceed a total sum of One Hundred Thousand Dollars (\$100,000.00) as liquidated damages. The parties further agree that precise monetary damages for a party's violation of this Section 7.4 would be difficult to ascertain and that the foregoing sum represents a fair and conservative approximation of cost of recruitment, hiring and training that would be incurred by the other party.

This Agreement shall be governed by the laws of the State of Wisconsin, without regard to any conflict of laws provisions or rules of construction concerning the draftsmanship hereof. This Agreement contains the entire understanding and full and complete agreement of the parties, and supersedes and replaces any prior understandings and agreements among the parties, with respect to the subject matter hereof. 8.2 Assignment. Neither party may, voluntarily or involuntarily, sublicense, sell, assign or otherwise transfer this Agreement without the other party's prior written consent. Any attempted assignment or delegation without Skyward's prior written consent will be null and void. Notwithstanding the foregoing, the transfer of all or substantially all of the Skyward's capital stock or assets to a third party through a sale, merger or other transaction or proceeding shall not be deemed an assignment under the terms and conditions of this Agreement. Subject to the foregoing, this Agreement shall inure to the benefit of and be binding on the parties and their respective successors, affiliates, legal representatives and permitted assigns

8.3 Severability. If any court of competent jurisdiction determines that any provision of this Agreement is invalid or unenforceable, such invalidity or unenforceability shall have no effect on the other provisions hereof, which shall remain valid, binding and enforceable and in full force and effect, and such invalid or unenforceable provision shall be construed in a manner so as to give the maximum valid and enforceable effect of the intent of the parties expressed herein.

8.4 Waiver. No waiver of a breach of any term of this Agreement will be effective unless in writing and duly executed by the waiving party. No such waiver will constitute a waiver of any subsequent breach of the same or any other term of this Agreement. No failure on the part of a party to exercise, and no delay in exercising, any of its rights hereunder will operate as a waiver thereof, nor will any single or partial exercise by a party of any right preclude any other exercise by a party of any right preclude any other or future exercise thereof or the exercise of any other right. No course of dealing between the parties will be deemed effective to modify, amend or discharge any part of this Agreement or the rights or obligations of any party hereunder.

8.5 Force Majeure. Except for the obligation to make payments, neither party will be liable for any failure or delay in its performance under this Agreement due to any cause beyond its reasonable control, including but not limited to, acts of war, acts of God, acts of terrorism, earthquake, flood, embargo, riot, sabotage, labor shortage or dispute, governmental act, provided that the delayed part: (a) gives the other party prompt notice of such cause, and (b) uses commercially reasonable efforts to promptly correct such failure or delay in performance.

Any notice required or permitted to be given pursuant to this Agreement shall be valid only if in writing and shall be deemed to have been duly given (a) when personally delivered, (b) when transmitted by fax if confirmation of receipt is printed out on the sending fax machine, or (c) three business days after being mailed by certified mail, postage prepaid, addressed to the party receiving notice at the address listed in the opening paragraph of this Agreement, unless that party otherwise notifies the other party in accordance with this Section of a change of address.

8.7 Survival. The provisions contained in Sections 3, 4, 5, and 6, this Section, and any other provisions of this Agreement which by their very nature are intended to survive the termination or expiration of this Agreement will survive the termination or expiration of this Agreement and will inure to the benefit of and be binding upon the parties hereto.

8.8 Counterparts and Signatures. The undersigned warrant and represent that they have the legal authority to execute and deliver this Agreement on behalf of the parties hereto. This Agreement may be executed in any number of counterparts, each of which when so executed will be deemed to be an original and all of which when taken together will constitute one Agreement. The parties agree that original signatures of a party transmitted by facsimile or in portable document format (pdf) or electronic signatures affixed to this Agreement shall be as valid as an original signature of such party to this Agreement. If this document is executed by electronic signature, both parties agree that their electronic signature is legally binding and shall have the same validity and meaning as a handwritten signature and neither party will contest the validity of their respective electronic signature, or claim that it is not legally binding.

HOST HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. Host shall not be held liable for any claims or demands brought against Licensee by any other party unless Licensee has properly notified Host as to such damages, claims, or demands, and Licensee has taken action to minimize such damages, claims, or demands.

6. Term and Termination. The term of this Agreement shall run concurrent with the term of the License Agreement. In the event the License Agreement is terminated for any reason, this Agreement shall automatically terminate as of the date of such termination without further notice. In addition to the foregoing, any party may terminate this Agreement in the event another party fails to perform any material obligation under this Agreement and such failure continues for a period of thirty (30) days following receipt of written notice of such failure. In the event of the termination of this Agreement for any reason, all of Licensee's rights and privileges under this Agreement, including but not limited to Licensee's rights to access and use the Hosting Services shall be immediately terminated.

7. Interpretation and Construction.

(a) Entire Agreement. This Agreement shall be governed by the laws of the State of Wisconsin, without regard to any conflict of laws provisions or rules of construction concerning the draftsmanship hereof. This Agreement contains the entire understanding and full and complete agreement of the parties, and supersedes and replaces any prior understandings and agreements among the parties, with respect to the subject matter hereof. This Agreement may be altered, amended or modified only in writing, signed by both of the parties hereto. (b) Assignment. No party may, voluntarily or involuntarily, assign or otherwise transfer this Agreement without the prior written consent of the other parties. Any attempted assignment or delegation without prior written consent will be null and void. Notwithstanding the foregoing, the transfer of all or substantially all of Host's capital stock or assets to a third party through a sale, merger or other transaction or proceeding shall not be deemed an assignment under the terms and conditions of this Agreement. Subject to the foregoing, this Agreement shall inure to the benefit of and be binding on the parties and their respective successors, affiliates, legal representatives and permitted assigns

(c) Severability. If any court of competent jurisdiction determines that any provision of this Agreement is invalid or unenforceable, such invalidity or unenforceability shall have no effect on the other provisions hereof, which shall remain valid, binding and enforceable and in full force and effect, and such invalid or unenforceable provision shall be construed in a manner so as to give the maximum valid and enforceable effect of the intent of the parties expressed herein.

(d) Waiver. No waiver of a breach of any term of this Agreement will be effective unless in writing and duly executed by the waiving party. No such waiver will constitute a waiver of any subsequent breach of the same or any other term of this Agreement. No failure on the part of a party to exercise, and no delay in exercising, any of its rights hereunder will operate as a waiver thereof, nor will any single or partial exercise by a party of any right preclude any other exercise by a party of any right preclude any other or future exercise thereof or the exercise of any other right. No course of dealing between the parties will be deemed effective to modify, amend or discharge any part of this Agreement or the rights or obligations of any party hereunder.

(e) Force Majeure. Except for the obligation to make payments, the parties will not be liable for any failure or delay in their performance under this Agreement due to any cause beyond its reasonable control, including but not limited to, acts of war, acts of God, acts of terrorism, earthquake, flood, embargo, riot, sabotage, labor shortage or dispute, governmental act, provided that the delayed party: (i) gives the other party prompt notice of such cause, and (ii) uses commercially reasonable efforts to promptly correct such failure or delay in performance.

(g) Survival. Any provisions of this Agreement, including but not limited to Section 3, 5, this Section, and any other provisions which by their very nature are intended to survive the termination or expiration of this Agreement will survive the termination or expiration of this Agreement and will inure to the benefit of and be binding upon the parties hereto.

(h) Third Party Beneficiary. The parties acknowledge and agree that Skyward shall be an express third-party beneficiary of this Agreement entitled to enforce the provisions hereof as if a party hereto, provided that Skyward shall not have any duties under this Agreement or any liabilities arising therefrom.

(i) Counterparts and Signatures. The undersigned warrant and represent that they have the legal authority to execute and deliver this Agreement on behalf of the parties hereto. This Agreement may be executed in any number of counterparts, each of which when so executed will be deemed to be an original and all of which when taken together will constitute one Agreement. The parties agree that original signatures of a party transmitted by facsimile or in portable document format (pdf) or electronic signatures affixed to this Agreement shall be as valid as an original signature of such party to this Agreement. If this document is

Host will not use Personal Data for any other purpose other than as explicitly specified in this Agreement, as otherwise requested by Licensee or as required by law or a court of competent jurisdiction. Host will treat Personal Data as confidential information and impose confidentiality obligations on all Host personnel who Process Personal Data. If any applicable law requires Host to conduct Processing that is or could be construed as inconsistent with Licensee’s instructions, Host will notify Licensee hereof promptly, unless this notification is prohibited by law.

(b) Data Ownership and License. Licensee is the owner of all Personal Data and Host will have no ownership rights or interest in such Personal Data. Notwithstanding the foregoing, Licensee grants Host and its Sub-Processors (if any) a limited, nontransferable, fully-paid, royalty-free, non-sublicenseable, nonexclusive right during the term of the Agreement to Process, use, reproduce, modify, prepare derivative works of, perform, display, transmit, make, have made and import any Personal Data provided by Licensee to Host or its Sub-Processors (if any) in connection with the performance of its obligations under the Agreement, or as otherwise directed by Licensee.

3. Access to Data.

(a) End User Access. Licensee shall establish reasonable procedures by which its End Users of the Skyward Products may view Personal Data, make requests related to corrections of Personal Data, and transfer Personal Data. In the event Host receives any requests from Licensee's End Users to view any Personal Data, make any corrections to Personal Data, or transfer Personal Data, Host will refer such End User requests to Licensee.

(b) Third Party Requests. Unless prohibited by applicable law, Host will promptly notify Licensee of any (i) request for access to any Personal Data from any regulatory body, governmental official or other third party; (ii) warrant or subpoena; or (iii) other request received by Host regarding any Personal Data. Host will reasonably cooperate with Licensee regarding any such third party requests.

(c) Rights of Data Subjects. Host will assist Licensee as requested with responding to Data Subjects' requests to exercise their rights under applicable data protection laws and regulations, which may include, without limitation, rights of access, correction, amendment, blocking and deletion. Host will notify Licensee promptly if it receives any such request or claim from a Data Subject relating to Personal Data or Host's Processing thereof.

4. Compliance with Applicable Laws. Host will comply with all applicable federal, state and local laws with respect to the use and disclosure of Personal Data, including but not limited to the laws of any jurisdiction from which the Personal Data originates.

(a) Family Educational Rights and Privacy Act. The parties expect and anticipate that Host may receive Personal Data that includes "personally identifiable information" or "education records" as defined by FERPA from Licensee only as an incident of Host's performance of its obligations under the Agreement. In the event Licensee provides Host with Personal Data that includes "personally identifiable information" or "education records" as defined by FERPA, Host shall be deemed a "school official determined to have a legitimate educational interest" under 34 CFR 99.31(a)(1), as provided by Licensee's policies and procedures.

5. Transfer of Data.

(a) United States. Host will not store or transfer Personal Data outside of the United States without the prior express written consent of Licensee, establishing a legal basis for such transfer and taking such steps as Licensee may require to ensure that the transfer meets the requirements of applicable law. If Host discovers or reasonably believes that any Personal Data has been or is being Processed in jurisdictions other than the United States, Host will provide prompt notice to Licensee.

(b) Sub-Processors. Host will not subcontract any of its rights or obligations under the Agreement without the prior express written consent of Licensee. In the event Host, with the consent of Licensee, subcontracts its obligations under the Agreement, it will do so only by way of a written agreement with its Sub-Processor that imposes the same privacy and security obligations, as well as confidentiality obligations on the Sub-Processor as are contained in this Addendum. Notwithstanding the foregoing, Host shall have no obligation to enter into any such agreements and shall not be responsible for any third parties to which Licensee or its End Users transmit Personal Data without Host's express prior written consent.

(c) Secured Transmissions. Host and Licensee each agree to maintain security protocols that meet industry standards in the transfer or transmission of any Personal Data.

Host shall, upon reasonable request from Licensee, provide Licensee with a written summary of the procedures its uses to maintain the privacy, security, and confidentiality of Personal Data.

(b) Security Measures. Host will take appropriate and commercially reasonable measures, including without limitation, administrative, physical, technical (including electronic), and procedural safeguards. Host will ensure that Personal Data is only available to Host personnel who have a legitimate business need to access the Personal Data, who are bound by legally enforceable confidentiality obligations, who have received training on applicable data protection policies and procedures, and who will only process the Personal Data to perform the Hosting Services.

(c) Security Incident Response. Host and Licensee will each promptly and without undue delay, notify the other party of any Security Incident of which they become aware. The notice will summarize in reasonable detail (i) the nature of the Security Incident; (ii) whether Personal Data has been lost, stolen or compromised, if known; (iii) the party's appraisal of the consequences of the Security Incident; (iv) the cause of the Security Incident, if known; (v) any corrective action taken or to be taken by Licensee or Host; and (vi) any internal point(s) of contact responsible for managing or responding to the Security Incident. Host and Licensee will promptly take all necessary and advisable corrective actions and will cooperate fully with the other party in all reasonable and lawful efforts to prevent, mitigate, or rectify such Security Incident.

(d) Security Incident Notification. The parties will consult with one another on the content of any mandated communications in association with a Security Incident. Except for mandated communications, the content of any external filings, communications, notices, press releases or reports to be issued related to any Security Incident must be promptly reviewed and approved by both Licensee and Host prior to any publication or communication, and such approval shall not be unreasonably withheld, conditioned or delayed. In the event of a Security Incident, if Licensee or Host determines that such Security Incident must be disclosed or reported to a third party, including individuals or governmental authorities, Host will reasonably cooperate with Licensee in fulfilling Licensee's reporting and disclosure obligations.

7. Reimbursement of Information Disclosure Costs.

(a) Reimbursement. Subject to the limitations of liability described in this Addendum and the Agreement, Host will reimburse Licensee for all uninsured direct out of pocket and commercially reasonable costs it incurs in providing notifications and credit monitoring services to individuals, each as and to the extent required by applicable law (collectively the "**Information Disclosure Costs**"), arising from a Security Incident, to the extent such Security Incident was directly caused by the negligence or willful misconduct of Host; provided however, Host shall not be responsible for any such Information Disclosure Costs unless Licensee has promptly notified Host of any Security Incident resulting in possible Information Disclosure Costs and Licensee has used its best efforts to minimize such breach or disclosure and the Information Disclosure Costs associated therewith, as required by Section 6 above.

(b) Limitations. Notwithstanding anything contained herein to the contrary, Host will not be liable for, and shall have no obligation to reimburse Licensee for its Information Disclosure Costs to the extent the Security Incident was caused (i) in whole or in part by the negligence or willful misconduct of Licensee or its employees, agents or End Users; (ii) by Licensee's failure to operate the Hosting Services in compliance with Host's recommended policies and procedures; or (iii) by Licensee's failure to comply with applicable law and follow industry standard security protocols with respect to Licensee's use of the Hosting Services and/or protection of Personal Data.

8. Personal Data Retention, Return and Deletion. Host will not retain Personal Data any longer than is reasonable necessary to accomplish the intended purposes for which the Personal Data was provided to Host pursuant to the Agreement and to comply with law and enforce its contractual rights. When Personal Data is no longer necessary for the purposes set forth in the Agreement or promptly upon the expiration or termination of the Agreement, whichever is earlier, or at an earlier time as Licensee requests in writing, Host will (a) provide Licensee, in an industry standard format selected by Host, a copy of all or, if specified by Licensee, any part of the Personal Data; and (b) destroy all, or if specified by Licensee, any part of the Personal Data in Host's possession in a manner in accordance with applicable law, for example in the case of protected health information, using a secure overwrite utility that will overwrite the Personal Data with random information rendering the Personal Data unrecoverable, or in the case of protected health information stored on paper, CD, DVD, Blu-ray and magneto-optical devices, destroying it by pulverizing, cross-cut shredding, pulping or burning. Host will provide a certification of destruction if requested. In the event applicable law does not permit Host to comply with the delivery or destruction of the Personal Data as provided in this section, Host warrants that it will ensure the confidentiality of the Personal Data and that it will not use or disclose any Personal Data at or after the termination or expiration of the Agreement, except as required by law or to protect its valid interests. Notwithstanding the foregoing, the duty of Host to delete Personal Data pursuant to this section shall not extend to any De-Identified Data or Personal Data that was placed in emails or other medium by Licensee or its employees, agents or End Users and was not properly de-identified prior to transmission to Host.

MEMORANDUM

TO: Board of Education
THRU: Josh Guymon, Superintendent
FROM: Casey Wise | Director of Technology
DATE: October 13, 2025
RE: Adoption of a District AI Policy

ISSUE:

Artificial Intelligence (AI) is becoming an integral part of education, offering both opportunities and challenges. Without clear district guidance, staff and students may face inconsistent expectations, privacy concerns, and risks of misuse. A district policy is needed to ensure AI is used responsibly, equitably, and in alignment with our educational mission.

BACKGROUND:

At the February 19, 2024 board meeting, Technology provided an overview of what Artificial Intelligence is and outlined its uses in public education. In July of 2024, the board reviewed a proposed policy and tabled a vote to approve it at that time. There were further discussions with Board members in August of 2024, but no decision was made to reintroduce a modified policy for review.

ALTERNATIVES:

- Option 1 - Approve the attached proposed AI Policy
- Option 2 - Do not approve the proposed policy

RECOMMENDATION:

Approve the Proposed AI Policy

We recommend the Board adopt the proposed AI policy. Developed by the Technology Department in collaboration with the Instructional Department and informed by district policies statewide and nationally, the policy provides clear expectations for staff and students, promotes responsible use of AI tools, and establishes a baseline aligned with key elements of the national executive order on AI in public schools.

FISCAL NOTE:

The adoption of this policy does not have any financial impact.

ATTACHMENTS:

- USD-457 Artificial Intelligence Policy

USD-457 Artificial Intelligence Policy

Purpose and Philosophy

At USD 457, Artificial Intelligence (AI) is a tool to enhance, not replace, teaching. We use AI to support rigorous instruction while upholding personalized and equitable education. By streamlining tasks, AI frees teachers to focus on students, while this policy safeguards privacy, promotes academic integrity, and fosters critical thinking and digital literacy for success in an AI-driven world.

Scope

This policy applies to all AI technologies accessed or utilized within USD 457 for school-related activities, whether on school grounds or through school-provided devices and networks. It covers all students, staff, administrators and applies to current and future AI technologies.

Core Principles

Human-Centered Education: AI complements but never replaces human instruction, judgment, and relationship-building in education.

Academic Integrity: AI must enhance learning while maintaining rigorous standards of original student work and honest academic practices.

Privacy and Security: All AI tools must comply with federal and state education laws, including FERPA, COPPA, ADA, Section 504, and Title VI/IX.

Equity and Fairness: All AI tools will be scrutinized for bias and implemented to ensure equitable access and outcomes for all students.

Transparency and Oversight: Human professionals maintain final decision-making authority, particularly for high-stakes determinations.

Prohibited Uses

Violate privacy: Collect, store, or analyze identifiable student data without explicit authorization. Staff and students are prohibited from entering student names, photographs, likenesses, social security numbers, government identifiers, assessment scores, grades, disciplinary records, special education or health information, passwords, credentials, non-public district documents, personal contact information, or financial information into AI tools.

Make high-stakes decisions without oversight: Determine student academic progression, assign final grades, impose disciplinary actions, or conduct staffing evaluations without substantive human review and prior administrative approval.

Replace human educators: Serve as a substitute for direct instruction, mentorship, or student-teacher relationships.

Promote bias or discrimination: Perpetuate inequities based on race, gender, socioeconomic status, ability, or other protected characteristics.

Create harmful content: Generate false, misleading, defamatory, harassing, bullying, or threatening content about individuals; impersonate others; or access/disseminate inappropriate material.

Bypass academic integrity: Enable plagiarism or cheating. Students may not submit AI-generated work as their own original creation.

Consequences for Misuse: Violations of this policy will be addressed under existing student academic honesty policies, staff professional standards, or district disciplinary procedures, as applicable.

Professional Development and Support

The district commits to providing:

- Targeted training and workshops on appropriate and ethical AI use
- Dedicated IT and instructional support for seamless integration
- Peer learning opportunities and regular updates as technology evolves

Review

This policy will undergo annual review to adapt to technological advancements and evolving educational needs. This ensures AI remains a beneficial and powerful educational tool in our schools that fosters innovation, critical thinking, creativity, and digital literacy while maintaining the highest educational standards.

Conclusion

USD 457 affirms that Artificial Intelligence (AI), when used responsibly, is a powerful tool to enhance teaching, learning, and operations. By safeguarding privacy, ensuring equity, upholding human judgment, and promoting digital citizenship, the district prepares students and staff to thrive in an AI-driven world. Our approach aims to empower educators, equip students with critical AI skills, and ensure ethical, secure implementation across the district. By integrating AI thoughtfully, Garden City Public Schools commits to creating an inspiring learning environment and preparing students to be capable, ethical leaders of the future.

Guidelines for Student Use

The responsible use of AI by students in the PreK-12 educational setting is essential for fostering a safe, ethical, and productive learning environment. By adhering to this policy, students will be better equipped to leverage AI technologies while respecting the norms and values of our school community.

Educational Purpose Only: Students may use AI tools exclusively as directed by teachers. AI should enhance, not replace, learning.

Disclosure Required: When AI assists with assignments, students must disclose its use, explain how it supported their learning, and provide proper citation.

Ethical Standards: Students must respect intellectual property rights, privacy norms, and academic honesty. AI-generated work must not be presented as the student's original creation.

Safety and Respect: Students must not share personal information with AI tools or use AI to harm, harass, or threaten others.

Critical Evaluation: Students must verify AI-generated information using reliable sources, as AI can produce inaccurate, biased, or misleading content.

Guidelines for Staff Use

The responsible use of AI by staff in the PreK-12 educational setting is essential for fostering a safe, ethical, and productive learning environment. By adhering to this policy, staff will be better equipped to leverage AI technologies while respecting the norms and values of our school community.

Instructional Enhancement: AI may supplement but not replace curriculum delivery. Educators retain primary responsibility for instruction and student interactions.

Additional Tasks: Administrative tasks (e.g., scheduling, drafting communications), professional productivity (e.g., data analysis), with guidance that staff remain responsible for accuracy and appropriateness.

Student Use: Students may use AI in classroom settings according to the teacher's classroom/assignment policy.

Academic Integrity Enforcement: When investigating suspected policy violations, AI detection tools shall not be the sole basis for findings, as these tools are unreliable. Multiple evaluation methods and professional judgment are required. Educators should first engage students in conversation about expectations.

Equitable Access: When assignments permit AI use, tools must be made available to all students during school hours to ensure no student is disadvantaged by lack of home access.

Roles and Responsibilities

Teachers: Thoughtfully integrate AI tools into instruction, monitor student use, model responsible practices, and maintain primary responsibility for teaching and assessment.

Students: Use AI only as directed, disclose and cite AI use, verify accuracy of AI-generated content, and protect personal information.

Administrators: Provide clear guidelines, ensure resources for implementation, evaluate impact on learning outcomes, approve AI use for high-stakes decisions, and handle violations of the AI use policy.

Purpose

Garden City Public Schools (USD 457) is seeking qualified architectural firms to serve as the District Architect of Record for all upcoming facility planning, design, and construction projects. The selected firm will partner with the Board of Education and district administration to support the design and delivery of safe, functional, and future-focused school facilities that reflect our district's mission of delivering an unparalleled educational experience for our students, staff, and community.

District Background

USD 457 serves approximately 6900 students across 18 campuses in Garden City, Kansas. The district includes one early childhood center, one alternative learning center, eleven elementary schools, two intermediate centers, two middle schools, and one comprehensive high school. - Facility planning, design, and documentation
- Cost estimating and phasing recommendations
- Assistance with CMAR or traditional bid processes
- Construction administration and close-out
- Warranty and post-occupancy review
- Consultation in planning projects, facility maintenance and on-going items as needed by the district.

All engineering disciplines (civil, structural, mechanical, electrical, and plumbing) must be provided by Kansas-licensed professionals. MEMORANDUM

TO: Board of Education
THRU: Josh Guymon, Interim Superintendent
FROM: Brandon Anderson, Director of Plant Facilities
DATE: 9/30/2025
RE: **-Presentation of Honeywell Year 1 Measurement & Verification Report on Energy Savings Project from 2023-2024 Lighting Upgrade and Sister Schools VRF Systems.**
-Consider and Act on Year 2 Measurement and Verification Services Contract in the amount of \$25,563.

ISSUE & BACKGROUND:

As contracted, we have the Measurement and Verification Report for year 1 of the project of which we had already agreed and paid for in advance when the commitment was made. Cost for the year 1 report was \$56,527.

We will also discuss and propose a year 2 Maintenance and Verification Report of which the invoice is attached in the amount of \$25,563.

Director of Plant Facilities, Brandon Anderson will present and stand for questions.

ALTERNATIVES:

The Board after hearing the year 1 presentation will be asked to consider if the year 2 report is needed and valuable and if inclined approve the expense or concur with staff's recommendation and save these funds to allocate towards a better control system.

RECOMMENDATION & FISCAL NOTE:

In a very tight budgetary time, staff's recommendation is to not approve the year 2 M&V Invoice and rather utilize that money towards and upgraded controls system for the project which would be a better use of these funds.
