2004-2005 Talent Search District/School Results

In the midst of celebrating our 25th anniversary, the Duke University Talent Identification Program (Duke TIP) has completed another successful talent search season. Without the help and support of local counselors, teachers, and administrators Duke TIP's mission of identifying and supporting academically talented students in our sixteen-state region would not be possible. We are extremely grateful for your support of the Talent Search this year and throughout our 25 years. We hope that you enjoy the enclosed flip-up document holder as a token of our appreciation for all of your hard work.

The participating students in your district/school receive a copy of their individual scores at home usually 3-4 weeks after the test date. Once Duke TIP receives most of the test scores (usually by early March) we configure those scores into a publication called the *2004-2005 Talent Search Results Summary*. The purpose of the *Results Summary* is to enable each participant to see how he/she did in comparison to the other participating seventh graders in the Duke TIP sixteen-state Talent Search region. The complete *Results Summary* is available on our Web site (www.tip.duke.edu). A copy is also sent to each participating student in May.

Enclosed with this mailing is a report that provides you with a list of participants in your district/school this year. The names of the students are arranged alphabetically in three categories. The first group is students who qualified for both the Grand Recognition Ceremony and State Recognition Ceremony; the second group is students who qualified for the State Recognition Ceremony only; and the third group is the rest of the students who participated. Individual scores are listed to the right of the student's name. If you would like to

recognize the students who participated in the 7th Grade Talent Search at your school's award assembly, we have posted a sample script for your use on the Teacher/Counselor page of our Web site.

We hope that this report provides information that can be used in conjunction with other factors to tailor the curriculum to address the educational needs of these students. The summary can also serve as one of the assessment tools used for future planning of gifted programming in your district/school. A student qualifying for State Recognition is in the top 25% of the Talent Search pool, and a student qualifying for Grand Recognition is in the top 2%. These are significant achievements because the pool itself is highly selective and the scores are ones that many high school students aspire to achieve. The scores are also reliable indicators that these students may need some type of educational intervention such as:

- The opportunity to be placed in the school's gifted program if they are not already enrolled.
- The opportunity to begin a course sequence earlier than their classmates.
- The opportunity to access specific classes at higher grade levels than their normal grade.
- The opportunity to conduct an independent study project that enables them to explore a subject more thoroughly than the normal curriculum allows.
- The opportunity to skip a grade(s).

IMPORTANT

Please ensure that superintendents and principals receive a copy of these scores. Specific score information is confidential. Do not post scores or distribute score information to unauthorized parties.

It is important to note that it is an honor for all students to have been part of the 2004-2005 Talent Search. Through qualifying, each student has already demonstrated his/her academic ability on standardized testing. Below is a summary of the benefits the students receive by participating in the Talent Search.

- In January, students received the 2005 edition of the *Educational Opportunity Guide* that contains listings for over 350 quality programs across the United States that are appropriate for academically gifted students.
- Duke TIP will also mail the students an informative and entertaining newsletter in the fall and spring of each school year through 10th grade.
- In the fall of the 10th grade, students will receive a copy of the *College Guide* that will serve as an informative resource as they begin the college application process.
- Duke TIP also has summer programs for students who qualified at the State and Grand Recognition levels. The students only have to qualify once for these programs and will receive mailings about these opportunities every year through the 10th grade.

In April, students qualifying for recognition ceremonies will receive their invitations. Grand Recognition Ceremony honorees who are invited to attend the ceremony at Duke University are also invited to their respective State Recognition Ceremony. If traveling to Duke University is not possible, these students will receive their Grand Ceremony award at the State Ceremony. Dates and locations for the ceremonies are listed below. Interested teachers and administrators are also welcome to attend. Please note: In states where more than one ceremony is held, students are assigned to a nearby site. But, due to the capacity of each facility, it may not be the closest site. Check with your students to see where they are assigned.

Enclosed you will find the Spring 2005 Advance Request Card (pink card for ordering materials) for the 2005-2006 Talent Search. Please complete the school and address information accurately and include the name of the facilitator who will be handling the Talent Search this fall. We encourage you to submit the postcard with current information to ensure that materials are sent to the appropriate person. Application materials can also be ordered from our Web site. Click on "Contact Us" on our home page. Additional materials may also be ordered in the fall if needed.

Presented for:

Board action ☒ Report/Review Only ☐ Consent Agenda Item ☒ Date: May 17, 2005

Supporting documents:

Contact Person:

AL Bishop

Background Information:

Due to the large number of students at La Vega Intermediate H.P. Miles campus and the targeting of that campus to improve the TAKS scores, we are recommending an additional Math or Reading Interventionist for the 2005-2006 school year. At the 4th, 5th and 6th grade level, the TAKS test procedures change and we feel they need more individual and small groups to aid the students who have academic deficiencies. This campus lacks the resources to aid these students other than the classroom teachers..

Fiscal Implication:

Approximately \$35, 000 a year

Administrative Recommendation:

Administration recommends approval of this position for the LVIS campus.

Approve Budget Change Requests

Gary W. Williams

Background Information:

After adoption of the official budget each year, there are requests to change appropriations that arise for several reasons:

The PTO, booster club or some other similar organization desires to purchase some items for the school. According to regulation, these gifts must be reflected in the accounting records of the District and thus require a budget change request.

At each school, the principal maintains a "club" fund of which part is derived from the sale of soft drinks and school supplies. Traditionally, the principals have been allowed to use such funds at the campus at which they are generated. To use these funds, the principal must make a budget change request.

During the course of the fiscal year, most of the organization heads realize a need to transfer appropriations from account to account due to changing needs. Due to unforeseen circumstances, additional appropriations are occasionally required. Such an instance might be emergency repairs to a roof. The budget is a flexible document. Budget change requests are the way that accountability for that flexibility is maintained.

Fiscal Implication:

The fiscal implications of the budget change requests are noted in the attached document.

Approve A+ and Cisco Classes For La Vega High School

Presented for:

Board action ☒ Report/Review Only ☐ Consent Agenda Item ☒ Date: May 17, 2005

Supporting documents:

None ☒ Attached ☐ Provided Later ☐

Contact Person:

AL Bishop

Background Information:

At the end of 2004, the Agriculture Science classes were discontinued at La Vega High School due to low enrollment. This elective was not replaced for the 2004-2005 school year. After researching for a year and meeting with counselors, we are recommending that the A+ Technology program and the Cisco Technology programs be phased in over the next 3 years. The A+ system is for 10th, 11th and 12th graders and teaches computer repair and building. The Cisco system is a two-year program that teaches students network building and repair. These programs will provide marketable skills for our students upon completion and receiving their certification as well as providing them with pathways to higher education.

Fiscal Implication:

\$35,000 in salary and \$20,000 start up costs over next couple of years.

Administrative Recommendation:

LVISD recommends approval of these programs for LVHS.

Designation of Board Delegate and Alternate to the 2005 Texas Association of School Boards Delegate Assembly

Presented for:

Board action ☒ Report/Review Only ☐

Supporting documents:

None ☒ Attached ☐ Provided Later ☐

Contact Person:

Dr. Monte Geren

Background Information:

The Delegate Assembly is TASB's general governing body. As an active member of TASB, LVISD Board Members are entitled to have a delegate and an alternate attend the Assembly and cast a vote on any action items coming before the Assembly.

The TASB bylaws permit only Board Members to serve as the District's delegate or alternate. Because of the complexity of various education issues, TASB recommends that the delegate and alternate be chosen from among the more experienced members of the Board who are well-informed on a wide range of issues affecting public education today.

This year's Delegate Assembly will be held in conjunction with the TASA/TASB Convention in Houston on September 23-25, 2005.

Fiscal Implication:

Travel expenses to attend the Delegate Assembly. Board travel is a budgeted item.

CONSIDER APPROVAL OF LA VEGA HIGH SCHOOL CREDIT CLASSIFICATION RESTRUCTURING PROPOSAL

Presented for:

Board action ☒ Report/Review Only ☐

Supporting documents:

None ☐ Attached ☒ Provided Later ☐

Contact Person:

Dr. Sharon M. Shields

Background Information:

La Vega High School administration has proposed a restructuring of the course credits required for students to be classified as a junior and senior. Currently to be classified as a junior, students have to have 13 credits and 20 credits to be classified as a senior. The proposed changes would allow students to have 12 credits to be classified as a junior and 17 credits to be classified as a senior. The 6 credits that is required for students to be classified as a sophomore is unchanged.

The basis of this request is in response to the change from a Block Schedule model to the 7-Period Day model implemented during 2004-2005 school year. While on the Block Schedule, students could accumulate as many as 32 credits over the course of four years. However on the 7-Period Day schedule, students can only accumulate up to 28 credits over the course of four years.

I have attached a copy of the signed proposal from La Vega High School.

Fiscal Implication:

None.

La Vega Administration recommends that the Board approve the credit classification restructuring proposed to take effect during the 2005-2006 school year.

We (La Vega High School) staff would like to recommend changing the number of credits earned to become an 11th grader and 12th grader. We propose the following: 17.0 credits to be classified as a 12th grader and 12.0 credits to be classified as an 11th grader. The number of credits needed for 10th grade (6.0) would not change.

Consider Approval of Local Leave for Professional Contracted Employees

Presented for:

Board action ☒ Report/Review Only ☐ Consent Agenda Item ☐ Date: May 17, 2005

Supporting documents:

Contact Person:

AL Bishop

Background Information:

LVISD has eight professional contracted staff through JR3. When we entered into the contract with JR3, the District did not grant these staff members any leave days. The rules by which most of these staff members work under through JR3 have changed and they no longer are able to draw all twelve of their checks from TRS each year. They also have to pay added cost into social security as well as a fee to JR3. If these staff members miss a day they are supposed to be on duty, they are docked a full days' pay. We are recommending that the district approve five days of local leave for the professional contract employees beginning with the 2005-2006 school year. There are three of eight that do not require a sub if they are out. These employees are Diane Dieteker, Jane Keahey, Mamie Hall, Sherrell Huff, Pat Lednický, Gwen Lee, Elizabeth Kahn and Al Bishop.

Maximum of \$1500 per year
