Background Information:

In 1999, the Texas State Legislature passed a requirement that the Texas Education Agency develop a system to rate the financial integrity of all Texas school districts. For the third year in a row, the district achieved the highest rating awarded by the state (Superior Achievement). The attached information outlines the report sent to us by TEA, and Mr. Charles Langlotz will share a presentation explaining the findings.

Management Report

Introduction

This is the third year of Schools **FIRST** (Financial Integrity Rating System of Texas), a financial accountability system for Texas school districts developed by the Texas Education Agency in response to Senate Bill 875 of the 76th Texas Legislature in 1999. The primary goal of Schools **FIRST** is to achieve quality performance in the management of school districts' financial resources, a goal made more significant due to the complexity of accounting associated with Texas' school finance system.

The Schools **FIRST** accountability rating system assigns one of four financial accountability ratings to Texas school districts, with the highest being "Superior Achievement", followed by "Above Standard Achievement", "Standard Achievement", and "Substandard Achievement". Districts with serious data quality problems may receive the additional rating of "Suspended – Data Quality". Districts that receive "Substandard Achievement" or "Suspended – Data Quality" ratings under Schools **FIRST** must file a corrective action plan with the Texas Education Agency.

Many business-related issues are covered in this report. The primary reporting tool, however, is the Financial Accountability Ratings Worksheet. This worksheet was developed by representatives of the Texas Education Agency (TEA), the Texas Business & Education Council (TBEC), and the Texas Association of School Business Officials (TASBO). It is administered by TEA and calculated on information submitted to the Agency via our PEIMS submission and audit report each year. PEIMS data has always been critical on the student side of the submission, and this project will add a great degree of importance to our financial submission each year.

The worksheet consists of 21 Yes/No criteria. If the district answers **NO** to Indicators 1, 2, or 3; or, if the district answers **NO** to both Indicators 4 and 5, the district's rating is "Substandard Achievement".

The 2003-2004 District Status for La Vega Independent School District is a rating of "SUPERIOR ACHIEVEMENT". LVISD scored a 20 out of the possible 21 yes answers.

Overview of the Worksheet
“No” Response

La Vega Independent School District had only one “No” response on the worksheet; that being Indicator Number 11. This indicator has to do with the percent of operating fund expenditures expended for instruction and if the district’s percentage is below the 54% established for the indicator the district receives a “No” answer. LVISD’s percentage for Indicator Number 11 was 50.76%.

Indicator #11 – Was the Percent of Operating Expenditures for Instruction More Than 54%?

This indicator shows a district’s ability to focus the majority of its funding so that it directly pays for student instruction. Only items such as salaries of classroom teachers and classroom supplies qualify as “Instruction” expenditures in this calculation (Function 11). La Vega ISD’s percentage for school year 2004 was 50.76% or approximately 3% under the 54% threshold. This means the district will need to do a better job of watching operating expenditures and get this percentage up for 2005. This Indicator also is proposed to change under the Commissioner’s Rules Concerning Financial Accountability Rating System, from 54% to 59%. The 79th session of the Texas Legislature also gave consideration to instructional costs by attaching an amendment to school finance legislation requiring a 65% instructional cost ratio. Although the school finance reform did not pass the Legislature during this session or two special sessions, the issue of instructional costs will continue to be a major item in any funding formula in the future. In fact, the Governor has issued an Executive Order directing the Commissioner of Education to develop a phase in of operating expenditures for instruction up to 65%.

Overview of the Worksheet
“Yes” Responses

Indicator #1 – Was the Total Fund Balance less Reserved Fund Balance greater than zero in the General Fund?

La Vega ISD continues to maintain a healthy fund balance in the General Operating fund. At the end of the 2003-2004 fiscal year covered by this report, LVISD’s General Operating Fund Unreserved Fund Balance was \$3,450,866.

Indicator #2 – Were there NO disclosures in the Annual Report and/or other sources of information concerning default on bonded indebtedness obligations?

The annual audit report from the District’s outside auditors carries a lot of weight in this 21-point checklist. This indicator seeks to make certain that each district has paid their bills/obligations on bonds issued to pay for school construction, etc. Defaulting on a debt service payment is very serious. It is also a sure sign of a major financial weakness. La Vega ISD has never defaulted on a bonded debt payment.

Indicator #3 - Was the Annual Financial Report filed within one month after the November 27 or January 28 deadline depending upon the district’s Fiscal Year end date (June 30 or August 31)?

La Vega ISD’s fiscal year ends on August 31. Up until recently, districts only had 120 days after the end of their fiscal year to file the report (December 31). Now districts have 150 days (January 28) to file their annual report. La Vega ISD’s Annual Financial Report was received by the Agency on January 10th, 2005.

Indicator #4 – Was there an Unqualified Opinion in the Annual Financial Report?

A “qualification” on the District’s financial report means that the district needs to correct some of its reporting or financial controls. A district’s goal, therefore, is to receive an “Unqualified Opinion” on its Annual Financial Report. La Vega ISD received an “Unqualified Opinion” on its Annual Financial Report for the Fiscal Year ended August 31, 2004.

La Vega Independent School District
Annual Financial Integrity Rating System of Texas
Management Report

Indicator #5 – Did the Annual Financial Report NOT disclose any instance(s) of material weakness in internal controls?

A clean audit of the District's Annual Financial Report would state that LVISD has no material weaknesses in internal controls. Any internal weaknesses create a risk of LVISD not being able to properly account for its use of public funds, and should be immediately addressed. La Vega ISD's Annual Financial Report not only received an "Unqualified Opinion", there was also no instance(s) of material weakness found in internal controls.

Indicator #6 – Was the percent of total tax collections (including delinquent) greater than 96 percent?

Tax revenue is the "lifeblood" of any school district. This indicator measures a district's success in collecting the taxes owed to it by the community's businesses and homeowners by placing a 96 percent minimum collection standard. A district must collect 96 percent or more of its taxes, **including** any delinquent taxes owed from past years. The McLennan County Tax Office collects the taxes for La Vega ISD, while the law firm of McCray Veselka Bragg & Allen, P.C. collected the district's delinquent taxes in Fiscal Year 2004. Tax collections for both current and delinquent taxes at the end of 2004 were 99.70%. This Indicator may be changed by a proposed amendment to 19 TAC Chapter 109, Commissioner's Rules Concerning Financial Accountability Rating System, to read, "Was the Three-Year Average percent of Total Tax Collections (including Delinquent) greater than 97%".

Indicator #7 – Did the comparison of PEIMS data to like information in the Annual Financial Report result in an aggregate variance of less than 4 percent of expenditures per fund type (Data Quality Measure)?

This indicator measures the quality of data reported to PEIMS (Public Education Information Management System) and in the District's Annual Financial Report to make certain that the data reported in each case "matches up". If the difference in numbers reported in any fund type is more than 4 percent, La Vega ISD would "fail" this measure. La Vega ISD's Data Quality Measure on this Indicator was 0%. This Indicator is also proposed for a change by the Commissioner's Rules Concerning Financial Accountability Rating System by changing the variance from 4% to 3%.

La Vega Independent School District

Indicator #8 – Were Debt-Related Expenditures (net of IFA and/or EDA allotment) less than \$770 per student? (If the district’s five-year percent change in students was a 2 percent increase or more, or if property taxes collected per penny of tax effort were more than \$100,000, then answer this indicator YES).

This indicator shows the Legislature’s intent for school districts to spend money on education, rather than fancy buildings, by limiting the amount of money districts can spend on debt to \$770 per student. La Vega ISD’s debt related expenditures per student were \$196.05 in the 2004 school year.

Indicator #9 – Was there NO disclosure in the Annual Audit Report of Material Noncompliance?

NO disclosure means the Annual Audit Report includes no disclosure indicating that the school district failed to comply with laws, rules and regulations for a government entity. Again, there were no disclosures in La Vega ISD’s Annual Audit Report of material noncompliance.

Indicator #10 – Did the district have full accreditation status in relation to financial management practices? (E.g. no master or monitor assigned)

TEA has never had to take over control of La Vega ISD due to financial issues. La Vega ISD has continued to maintain full accreditation status with regard to its financial practices.

Indicator #12 – Was the aggregate of Budgeted Expenditures and Other Uses LESS THAN the aggregate of Total Revenues, Other Resources and Fund Balance in General Fund?

La Vega ISD did not overspend its budget for 2004. To receive a negative rating on this indicator, LVISD’s total expenditures and other uses for the fiscal year would have to have exceeded the total funds available.

La Vega Independent School District
Annual Financial Integrity Rating System of Texas
Management Report

Indicator #13 – If the district’s Aggregate Fund Balance in the General Fund and Capital Projects Fund was LESS THAN zero, were construction projects adequately financed? (Were construction projects adequately financed or adjusted by change orders or other legal means to avoid creating or adding to the fund balance deficit situation?)

La Vega ISD did not over-spend on school buildings or other capital projects. This indicator measures LVISD’s ability to construct facilities without damaging its Fund Balance. More on the 2004 Bond issue passed by the voters of LVISD and the construction progress can be found later in this report.

Indicator #14 – Was the ratio of Cash and Investments to Deferred Revenues (excluding amount equal to net Delinquent Taxes Receivable) in the General Fund greater than or equal to 1:1? (If Deferred Revenues are less than Delinquent Taxes Receivable, then answer this indicator YES.)

This indicator measures whether or not La Vega ISD has sufficient cash and investments to balance Fund Balance monies such as TEA overpayments (deferred revenues). In other words, LVISD should have fund balance monies of its own that are at least equal to those dollars that are there due to overpayments from TEA, and we should not be spending “next year’s” monies this year.

Indicator #15 – Was the Administrative Cost Ratio less than the standard in State Law?

TEA and state law sets a cap on the percentage of a district’s budget that school districts can spend on Administration. For a district our size, state law sets an acceptable Administrative Cost Ratio at 0.1401. In 2004, La Vega ISD’s Administrative Cost Ratio was 0.1197. More on the Administrative Cost Ratio can be found later in this report.

Indicator #16 – Was the Ratio of Students to Teachers within the ranges shown below according to district size?

This indicator measures the district’s pupil-teacher ratio to ensure that it is within TEA recommended ranges for districts of our student population range. For example, districts with a student population between 1,000 and 4,999 should have no more than 22 students per teacher and no fewer than 11.5 students per teacher. La Vega ISD’s ratio of students to teachers in 2004 was 13.9942.

Indicator #16		
District Size -	Ranges for Ratios	
No. of Students Between	Low	High
<500	7	22
500 - 999	10	22
1,000 - 4,999	11.5	22
5,000 - 9,999	13	22
=> 10,000	13.5	22

Indicator #17 – Was the Ratio of Students to Total Staff within the ranges shown below according to district size?

This indicator measures the pupil-staff ratio to ensure that it is within TEA-recommended ranges for districts of our student population range. For example, districts with a student population between 1,000 and 4,999 should have no more than 14 students per staff member and no fewer than 6 students per district employee. La Vega ISD's ratio of students to total staff in 2004 was 6.3793.

Indicator #17		
District Size -	Ranges for Ratios	
No. of Students Between	Low	High
<500	4	14
500 - 999	5.5	14
1,000 - 4,999	6	14
5,000 - 9,999	6.5	14
=> 10,000	6.6	14

Indicator #18 – Was the Fund Balance in the General Fund more than 50% and less than 150% of Optimum according to the Fund Balance and Cash Flow Calculation Worksheet in the Annual Financial Report?

Exhibit J-3, page 27, of the 2004 Annual Financial Audit, shows the calculation for the above indicator. La Vega ISD's Fund Balance in the General Fund was \$3,723,833 which was more than 50% (\$1,434,983.50) but less than the 150% figure (\$4,304,950.50).

Management Report

Indicator #19 – Was the decrease in Undesignated Fund Balance less than 20 percent over two Fiscal Years? (If 1.5 times Optimum Fund Balance in General Fund or if Total Revenues exceeded Operating Expenditures in the General Fund, then answer this indicator YES.)

This indicator checks to see if districts are “feeding off their Fund Balance” to pay for salaries or other district operating expenses. This indicator also notes rapid decreases in the district’s undesignated Fund Balance (those dollars not designated as a “land fund” or “construction fund”) or emergency fund.

Indicator #20 – Was the Aggregate Total of Cash and Investments in the General Fund more than \$0?

This indicator looks to see if the district has cash in the bank, and/or investments. As noted in Indicator #18, LaVega ISD’s fund balance at the end of 2004 was \$3,723,833. Excess funds (those funds not needed immediately for accounts payable or payroll) are invested in one of the investment pools or at the District’s depository. La Vega ISD’s cash in the checking account at the District’s depository bank is set up as an interest bearing account.

Indicator #21 – Were Investment Earnings in all Funds more than \$15 per student?

Is the district using its cash or reserve fund (Fund Balance) monies wisely? La Vega ISD’s investment earnings in 2004 amounted to \$80.30 per student.

Other Data Concerning the District's Operations

The purpose of this section of the report is to discuss other aspects of the District's business operations not covered by the worksheet. The worksheet should be viewed as a good basic tool with which to assess the district's primary business practices. However, we should not stop there! The district should always be working towards improvement in all aspects of its operation to maximize funds available to campuses for educational purposes and to its ancillary departments that support the campuses.

On the following pages we will briefly review a number of business practices not covered by the Financial Accountability Worksheet directly.

Financial Strength

The State of Texas recommends we discuss financial strength in this report. This is a difficult topic to address because there are many measures of financial strength; some are better than others, and it is hard to tell which the best measure is for LVISD. For La Vega ISD however, the district believes the most significant financial indicator of strength is its ability to meet its cash flow needs from September to December each year without borrowing money. For the past five years, LVISD has not had to borrow funds for operating reasons, which tells us that the district has adequate financial strength at this time.

Operating Costs Comparison

Only a small portion of the districts total General Fund expenditures are flexible or variable in nature. Salaries and benefits comprise the biggest expenditure each year, followed closely by Maintenance and Operations costs. Utility payments fluctuate greatly from year to year, but still make up the third largest single expenditure. Once you remove those three large expenditures from the equation, you are left with a small portion of the districts budget that retains some semblance of control for us. Supplies, materials, travel and training and a few contracted services comprise this remaining balance. LVISD consider these costs to be its controllable operating costs. The chart below demonstrates how the district's operating costs per student have increased/decreased over time.

Operating Costs Comparison

	OPERATING COSTS	\$\$\$ CHANGE	%%% CHANGE
YEAR	PER STUDENT	FROM PREVIOUS YEAR	FROM PREVIOUS YEAR
1999-00	\$6,516	\$ 620	10.52%
2000-01	\$6,587	\$ 71	1.09%
2001-02	\$7,013	\$ 426	6.47%
2002-03	\$7,262	\$ 249	3.55%
2003-04	\$7,679	\$ 417	5.74%

One measure the State of Texas uses to measure operating cost efficiency is the administrative cost ratio. TEA has a formula that is mandated by law. Basically, it takes administrative costs (functions 21 – Instructional Leadership and 41 – General Administration) and divides them by instructional costs (functions 11 – Instruction; 12 – Instructional Resources and Media; 13 – Curriculum & Staff Development; and, 31 – Guidance & Counseling) to arrive at a percentage. A district's size determines their administrative cost limitation. Based on La Vega ISD's size, its administrative cost ratio limit is 14.01%. This indicator is covered in the worksheet for 2003-04, but since it deals with the sensitive issue of administrative costs, the district felt it prudent to demonstrate that its administrative cost ratio has been less than the state's limit for the past several years. SB900 enacted during the 78th Texas Legislature's Regular Session in 2003 repealed Section 42.201 of the Texas Education Code (TEC) relating to administrative cost ratios. The bill continued the statute only for the limited purpose of recovering amounts from districts that meet the criteria for excess administrative costs for 2002-2003.

Administrative Cost Ratio Comparison

YEAR	STATE LIMIT	DISTRICT ACTUAL
1999-00	14.01%	12.44%
2000-01	14.01%	11.63%
2001-02	14.01%	12.41%
2002-03	14.01%	0.%
2003-04	14.01%	0.%

The administrative cost ratio indicator is proposed for some changes again by the Commissioner's Rules Concerning Financial Accountability Rating System; however, the percent for LVISD's ADA Group will remain the same at 14.01%.

Personnel Management

The District's longstanding personnel goal is to attract and retain qualified staff, and to offer a competitive salary and benefit package each year. With the No Child Left Behind Act, that staff must now be "highly qualified" as well. It hasn't always been easy to do so, but each year the District has managed to find the funding to fit a salary increase into the budget. Even more of a challenge has been to present a comprehensive health insurance package to our employees.

Debt Management

The taxpayers of the La Vega ISD authorized a \$16 million bond program in February 2004. A total of 530 votes were cast, 349 for the bond program and 181 against the bond program. The District is vigorously pursuing any and all state funding available in order to lessen the impact on the taxpayers of the District. State funding opportunities available to the District include both the Instructional Facilities Allotment (IFA) and Existing Debt Allotment (EDA). To date, all bonds which were authorized have been sold and are now being invested in interest bearing accounts in both a state money market pool and the District's local depository.

Facility Acquisition and Construction Management

The \$16 million bond issue mentioned in the above paragraph provides for two new campuses in the La Vega ISD; the first being a complete rebuilding of the elementary campus on the existing site that will include the addition of two classroom wings, library, cafetorium, P.E. gym, and administrative space. The second,

construct a new Primary Center preferably on a site owned by the district. This facility will accommodate the consistent growth at the KG level, allow for expansion of the Pre-K program, and expansion of early childhood services to include four-year olds and qualifying three-year old students. Lastly, the bond proceeds will be used to make other improvements to existing District facilities if funds are available.

Cash Management

The worksheet addresses a couple of cash/investment issues, but only in a very basic manner. The worksheet criteria essentially say you should have cash available, and you should earn a minimal rate of return on it. However, the investment and cash management program for La Vega ISD is much more complex than this.

First, there is state and local board policy that requires the District to invest funds with five objectives in mind. These objectives are: suitability, safety, liquidity, marketability, diversity and yield.

Suitability, safety and liquidity are almost redundant. If a security is suitable and safe, the probability is that it is liquid. If it's liquid and suitable, it's safe. State and local policy specify what types of securities the District can purchase, and virtually all of them fall within these restrictions. The District does not purchase ones that do not fall within the interpretation of these policy restrictions. Even though Certificates of Deposit are legal investments, they are highly illiquid and their marketability can fluctuate, so the District does not use this method of investment.

There are also a few investments that are legal for the District to purchase, but they aren't very marketable. Consequently, the District does not invest in these either. The District strives to maintain diversity in our portfolio, balancing cash in money market pools and one local bank in Waco. This is true for the General Fund, Debt Service Fund and Bond Construction Fund. The funds from the sale of bonds are invested in money market pools. A monthly Investment Report is included in each month's Board of Trustees meeting agenda for review and approval. The Board also has to approve the District's Investment Policy on a yearly basis.

Local Board of Trustees policy states that the Superintendent or designee shall serve as the investment officer for the District. By resolution, the Board has designated both the Deputy Superintendent for Support Services and Director of Finance for the District as investment officers. These investment officers must have at a minimum, 10 hours training in the Public Funds Investment Act every two years from an independent contractor. Both the Deputy Superintendent and Director of Finance have fulfilled these training requirements.

Tax Collections

One of the indicators addresses tax collections for the year under review. As important as this criterion is from year to year, we felt additional discussions was warranted. The minimum criterion is 96%, which our District has exceeded each year for the past several years as shown in the chart below.

<u>For Year</u> <u>Ended</u>	<u>Total Tax</u> <u>Collections</u>
1998	100.02%
1999	98.69%
2000	98.06%
2001	98.32%
2002	97.89%
2003	97.60%
2004	99.70%

Of course, several sections of this report, financial strength, debt management, construction management, cash management, and financial allocations are all a lot easier if taxes (both local and debt service) are collected at a high collection rate consistently over the years. With the state's share of funding decreasing it is more important than ever that local tax collections remain high and consistent in the coming years.

Budgetary Planning & Financial Allocations

The District's budget process usually begins in January each year. During the first month of planning, budget allocations are developed for each campus and department; a budget manual is updated for the new year and distributed to all budget managers. Campuses and departments get funds based on their previous year's budgets adjusted up or down for the future years' needs. Special project requests for amounts supplemental to allocations are considered individually each year. Budget input is scheduled for February. In March, the district begins attempting to calculate state and local tax revenues and the budget starts to take on some form. June is the month the district is first able to give the Board and the public a preliminary view of how the next year's budget looks. In odd-numbered years, the legislature is in session, and that complicates and delays the district's budgeting process. The optimal time for making a public salary decision is May. June and July are busy months budget-wise, as decisions are made on special project requests, revenue data is fine-tuned and a final budget is submitted to the Board of Trustees for approval in August.

The district's budget process is a proactive and highly participatory one, and campuses and departments are given a great deal of discretion as to how to budget their funds. After the budget is adopted, each campus or department is given equal latitude regarding amending their budget when their plans or needs change. This decentralized style of budget management is required by the state of Texas to a certain degree. Site-based decision-making empowers our campuses and, most importantly, it provides a system that works best in the long run for all concerned by allocating resources where they are needed, even when those needs change.

Annual Audit Report

Each year, the district has an audit performed by independent accountants which currently is the firm of Jaynes, Reitmeier, Boyd & Therrell, P.C. Their job is to report on the district's financial status and to ensure that the district is doing a good job of keeping its financial records up to required standards. This report is a critical element of the accountability ratings worksheet, included in several indicators. In another section of this report, the district discussed its compliance with the criteria in the worksheet for last year. Included in the Annual Audit Report are a Schedule of Findings and Questioned Costs for the Federal Programs. La Vega ISD had NONE in the 2004 audit. A Management Audit Letter, which is usually included with the Annual Audit Report, comments on findings that, while not involving material weaknesses in internal accounting control, are opportunities for strengthening internal controls and operating efficiency. The 2004 audit was the third year the audit document was prepared in compliance with GASB 34 regulations.

Other Issues

As mentioned previously in this report, several Indicators have been proposed for change under the Proposed Amendment to 19 TAC Chapter 109, Budgeting, Accounting, and Auditing, Subchapter AA, Commissioner's Rules Concerning Financial Accountability Rating System, Sec. 109.1002, Financial Accountability Ratings. In addition to the proposed changes for some indicators, a new Indicator, Indicator 2 (a Critical Indicator) will be added to the present 21, making a total of 22 Indicators. The new Indicator would read: Was the Total Net Asset Balance in the Governmental Activities Column in the Statement of Net Assets greater than zero? Some of the proposed changes are likely to have a significant impact on the financial rating for some school districts.

ANNUAL FINANCIAL INTEGRITY RATING SYSTEM OF TEXAS MANAGEMENT REPORT

Report/Public Hearing

October 18, 2005

7:00 P.M.

Schools **FIRST**

- Third year of financial accountability system for Texas school districts
- Primary goal – To achieve quality performance in the management of school districts' financial resources, a goal made more significant due to complexity of accounting associated with Texas' school finance system
- Developed by TEA in response to Senate Bill 875 of the 76th Texas Legislature in 1999

Schools **FIRST**

- Four financial accountability ratings determined by number of indicators answered NO:
 - Superior Achievement (0 – 2)
 - Above Standard Achievement (3 – 4)
 - Standard Achievement (5 – 6)
 - Substandard Achievement (7+ or NO to one default Indicator)
 - Suspended – Data Quality

Schools **FIRST**

- Worksheet consists of 21 YES/NO criteria
- NO answer to Indicators 1, 2, or 3; or both 4 and 5 – automatic “Substandard Achievement”
- LVISD scored 20 out of 21 YES answers
- NO answer to Indicator 11

Schools **FIRST**

- 2003-2004 District Status for La Vega I S D:

Background Information:

LVISD POLICY BED (LOCAL) -- Public Participation: At regular meetings the Board shall allot 30 minutes to hear persons who desire to make comments to the Board. Persons who wish to participate in this portion of the meeting shall sign up with the presiding officer or designee before the meeting begins and shall indicate the topic about which they wish to speak.

Limit on Participation: Audience participation is limited to the portion of the meeting designated for that purpose. At all other times during a Board meeting, the audience shall not enter into discussion or debate on matters being considered by the Board, unless recognized by the presiding officer. No presentation shall exceed five (5) minutes. Delegations of more than five persons shall appoint one person to present their views before the Board.

Board's Response—Specific factual information or recitation of existing policy may be furnished in response to inquiries, but the Board shall not deliberate or decide regarding any subject that is not included on the agenda posted with notice of the meeting.

Complaints and Concerns—Complaints and concerns for which other resolution channels are provided shall be directed through those channels. The presiding officer or designee shall determine whether a person who wishes to address the Board has attempted to solve a matter administratively. If not, the person shall be directed to the appropriate policy to seek resolution before bringing the matter to the Board at a subsequent meeting.

These fashion trends have to go

JEWELISHA JEFFERSON

One thing my family, friends and I have noticed in the past year how fashion has taken the wrong road. A belt is no longer worn to hold up pants, and shoelaces obviously are no longer needed.

The main cause of this downhill trend in fashion is television, but videos and most of the fashions seen in the stores contribute as well.

The baggy jeans, gold mouthpieces and floppy tongues hanging out of tennis shoes have to go. I cannot stand it. This style is mostly worn by guys, but, surprisingly, some girls have also adopted this look. The bad fashions for girls are the "Daisy Dukes" and light-up high heels and sandals. Sorry to tell you, guys and gals, but these looks are not attractive.

I think these styles make our generation look terrible, and unfortunately, the look grows worse everyday.

Believe it or not, people do judge you by the way you present yourself through your clothing and grooming. Most people are completely wrong, but a first impression is everything. Learn to dress in a style you want people to associate with you.

Some people feel that by dressing in these fashions, they will become part of the "in crowd." Others say they're just trying to express themselves as individuals.

Dressing like the other 700 kids in a school is not expressing yourself as an individual. If you feel you need to express yourself, go buy that shirt that none of your friends thought was cute, but you did. Buy those jeans that are "out of style" if you like them, or those shoes that were so cute yet so unusual to you.

If you feel that this fashion craze is you, then feel free to express yourself, but just remember you might be mistaken for something or someone you're not.

If our generation wants our parents, teachers and society to look at us as young adults, then we need to start covering up, pulling up and lacing up some of our fashions.

Jewelisha Jefferson is a freshman at La Vega High School.

SUBJECT: Person Identification Database (PID) Error Rate Success!

2004-2005 PEIMS Summer/Submission 3 PID Error Rate

This letter includes your district's PID error rate for the 2004-2005 PEIMS Summer/Submission 3. For Submission 3, your district's PID error rate is 0.0% with 0 PID errors. For this submission, your district meets the PID error rate standard of 10 or fewer student records with PID errors or a PID error rate on student records of 2.0% or lower. You are to be congratulated for your success and I appreciate your interest and support for enhancing the overall quality of PEIMS data.

Background

The PID system is used by the Texas Education Agency (TEA) to manage and store identifying information on individuals who are reported to TEA through the Public Education Information Management System (PEIMS). The PID system includes records for students and teachers. The purpose of the PID system is to ensure that each time data are collected for the same individual, certain pieces of basic identifying information match.

PID errors make it impossible to link data across two or more data submissions. The introduction of longitudinal performance measures of school completers and school leavers requires linking many years of data. Because desk audits of district leaver data submissions require student data be linked across years, the accuracy of the PID information has become increasingly critical.

PID Questions

Several PID discrepancy reports are available through EDIT+. The PID Error Rate Policy is posted on the TEA website. The policy may be accessed on the Internet at: <http://www.tea.state.tx.us/peims/>. Clicking on the PID button will provide access to the PID policy and other helpful PID information. We ask that you direct PID questions to your ESC PEIMS Coordinator or to Esmeralda Luna at (512) 463-9820.

Sincerely,

Criss Cloudt, Associate Commissioner
Accountability and Data Quality

Fall Report on 2005-2006 Class Sizes/Enrollment

Presented for:

Board action ☐ Report/Review Only ☒ Date: October 18, 2005

Supporting documents:

None ☐ Attached ☒ Provided Later ☐

Contact Person:

Dr. Sharon M. Shields

Background Information:

This report is being provided to the Board of Trustees to inform you of class sizes and enrollment data for the La Vega ISD thus far during the fall 2005 semester.

Texas Education Code 25.111, **Student/Teacher Ratios**, notes that except as provided by Section 25.112, each school district must employ a sufficient number of teachers to maintain an average ratio of not less than one teacher for each 20 students in average daily attendance.

Texas Education Code 25.112, **Class Size**, provides that a school district may not enroll more than 22 students in a kindergarten, first, second, third, or fourth grade class. A survey of class size for grades kindergarten through fourth was completed on October 11, 2005. All sections were in compliance at that time. Class size for grades kindergarten, first, second, third, and four will be monitored throughout the school year.

The attached documents include an enrollment report by grade level and campus for the entire LVISD.

Fiscal Implication:

It might be necessary to increase sections in the future should the enrollment increase.

Administrative Recommendation:

This report is being provided for informational purposes.

Plan for Increased TAKS Scores – La Vega High School 2005-2006

1. **May – 2005** TAKS Study Guides received and mailed home for each student and each subject area of TAKS not passed from grade 9 -12.
2. **Aug. 9, 2005** Staff meeting to look at percentages and strategies to improve scores to remain “acceptable” in 2006 with higher standards.
3. **Aug. 15, 2005** Copy of TAKS Individual Student report given to science, math, social studies, and English/language arts teachers by class periods so they can look at objectives that need more work and gear lesson plans accordingly.
4. **Aug. 16, 2005** Tutorial information mailed to parents with TAKS Confidential Student Report for seniors who re-tested in July.
5. **Aug. 17 – 22, 2005** Schedules were checked and all seniors who failed Math were placed in a Math Skills class for local credit or a Math Applications class for full credit, and those who failed ELA were placed in Reading for full credit. Those students who could not take the class or chose not to were required to get parent permission to not take the class. The parent was informed that the student would not be taking advantage of all available resources to help them pass TAKS Exit in that subject.
6. **Aug. 19- 22, 2005** Conferences with students as they were given their copy of TAKS scores from July – also given information on how many problems they lacked to passing each particular test, objectives that need strengthening, and days and times for tutorials.
7. **Sept. 6, 2005** Announcements beginning daily about the tutorials offered in our Academic Camps, PLATO recovery program, and TAKS tutorials. Posters placed on walls in front of school, by cafeteria, on halls to remind students of times.
8. **Sept. 7, 2005** Seniors who still need to pass one or more TAKS tests were called to Ms. Moore’s office for a conference on tutorials available and to make sure each student has the Exit Level TAKS Study Guide(s). Each student was also provided with a personal copy of tutorial times and dates.
9. **Sept. 8, 2005** Parent letter mailed home to each senior who still has one or more tests to pass informing parent of all opportunities provided to the students for remediation.
10. **Sept. 8, 2005** TAKS Tutorials to be offered in Math, Science, Social Studies, and ELA on Mondays and Wednesdays from 3:45 – 5:00 for all grade levels. Resource: Buckle Down Publishing. Also TRACK and PLATO will be available

in the library from 4:00 – 6:00 Mon – Thurs. and in computer labs before and after school.

11. **Sept. 9, 2005** TEA Individualized TAKS Study Guide mailed home with an explanation letter to parents, parent information sheet on study guide, and sheets on all tutorials that can be posted at home.
12. **Sept. 12, 2005** “Study Buddies” assigned to administrators. All administrators will be assigned 7 – 8 seniors to visit with on a regular basis to monitor going to tutorials and provide support and encouragement.
13. **Sept. 13, 2005** TAKS Information Booklet from TEA copied and given to each senior core teacher for additional information.
14. **Sept. 19, 2005** Math and Science Bell Ringers began in all non-core classes
15. **Sept. 26, 2005** Grand Central Station will be open for all students from 3:45 – 5:30 Monday – Thursday for TAKS remediation and tutorials.
16. **Sept. 27, 2005** Lisa Cobb (Math/Science Facilitator) begins a pullout program for seniors who do not have a science class in preparation for 1st TAKS tests.
17. **Oct. 11, 2005** Community ELA TAKS Parent Seminar – First of 4 seminars in each one of the core areas tested offered to parents to help them become aware of the TAKS objectives, see examples of sample questions, and various test taking skills and strategies. 7:00 p.m. in High School Auditorium.
18. **Oct. 13, 2005** TAKS Science Blitz – 6:00 – 8:00 p.m. Tutorial “cram session” on all science objectives tested on science exit level exam.
19. **Oct. 24, 2005** PGP (Personal Graduation Plan) Counselors begin meeting with parents and students to discuss requirements for graduation that are remaining to be met. This may include attendance issues, credit recovery, and mastery of all sections of TAKS.
20. **Oct. 25, 2005** Community Science TAKS Parent Seminar – Second of 4 seminars in each one of the core areas tested offered to parents to help them become aware of the TAKS objectives, see examples of sample questions, and various test taking skills and strategies. 7:00 p.m. in High School Auditorium.
21. **Nov. 8, 2005** Community Math TAKS Parent Seminar – Third of 4 seminars in each one of the core areas tested offered to parents to help them become aware of the TAKS objectives, see examples of sample questions, and various test taking skills and strategies. 7:00 p.m. in High School Auditorium.
22. **Nov. 15, 2005** Community Social Studies TAKS Parent Seminar – Last of 4

seminars in each one of the core areas tested offered to parents to help them become aware of the TAKS objectives, see examples of sample questions, and various test taking skills and strategies. 7:00 p.m. in High School Auditorium.

23. **Nov. 16, 2005** Installation of BEN phone system. System will be used to contact parents with TAKS information, notification of their student missing mandatory tutorials, and students class absences.
24. **Dec. 1, 2005** Senior students who failed Oct TAKS retests will be required to attend tutorials a minimum of twice a week. Students will be allowed to choose morning (7:00 – 8:00 a.m.) or afternoon (4:00-5:00 p.m.) on Mondays and Wednesdays. These students would possibly also be placed into another class for the subject area needed if their schedule and credits allow it. Students with extenuating circumstances will be allowed to use TRACK in lieu of tutorials with documentation of 2 hours spent per week minimum.

Dr. Sharon M. Shields

Background Information:

For the sixth year, McLennan Community College has provided districts with performance data on their graduating seniors who enrolled in MCC. The purpose of the report is to examine the performance of local-area high school graduates (2004) enrolled in credit and developmental courses at MCC during the fall 2004 semester. The study examined 1) the percentage of local-area high school graduates attending MCC, 2) the demographics of local-area high school graduates attending MCC, 3) MCC grade distribution of local-area high school graduates, 4) the percentage of local-area high school graduates enrolled in developmental courses, and 5) the percentage of local-area high school graduates attending MCC during the fall 2004 semester who returned to MCC in the spring 2005.

The study warns that comparisons across schools should be made with caution because of the substantial differences in the number of graduates attending MCC. La Vega ISD will use the data from this study to help in evaluating the effectiveness of our educational program.

Fiscal Implication:

None.

Performance (Pass Rates and Attrition Rates)	12
Enrollment in Developmental Courses	15
Fall-to-Spring Retention	17

Purpose and Background: This report examines the performance of local-area high school graduates (2004) enrolled in credit and developmental courses at MCC during the fall 2004 semester. The results include data from public schools only. In most cases, the number of high school graduates was obtained through the Texas Education Agency Web site at the following address:

<http://www.tea.state.tx.us/adhocrpt/adstg04.html>. In some cases, the number of graduates was obtained directly from the school district. Please note that the data reflect all graduates for the 2004 year, including summer 2004 graduates. The results from this report will be used by MCC to help identify the needs of our students. The study examined 1) the percentage of local-area high school graduates attending MCC, 2) the demographics of local-area high school graduates attending MCC, 3) MCC grade distribution of local-area high school graduates, 4) the percentage of local-area high school graduates enrolled in developmental courses, and 5) the percentage of local-area high school graduates attending MCC during the fall 2004 semester who returned to MCC in the spring 2005 semester. The report contains an executive summary as well as detailed results. Comparisons across schools should be made with caution because of the substantial differences in the number of graduates attending MCC. It is also useful to examine changes across years for a given school. For many of the analyses, the data from the previous graduating class (2003) are included. For some of the performance measures, data from 2002 graduates are also included.

Summary of Results:

(Note: Percentages have been rounded to the nearest integer.)

SCHOOL PERSONNEL PRESENT - Dr. Monte Geren, Gary W. Williams, Dr. Sharon M. Shields, Al Bishop, Cliff Brown, Charles Langlotz, Patricia Harvey, Steve Salvesen, Jana Miller, Bonnie McRae, Nancy Muhammad, and Lori Mynarcik.

OTHERS PRESENT - Steve Harvey, Demi Wood, Thomas Wood, and Kimberly Wood.

CALLED TO ORDER AND OPENING CEREMONY - Board President Phil Bancale established a quorum and brought the board meeting to order at 7:00 p.m. Ms. Bonnie McRae, Principal at La Vega Intermediate School H. P. Miles Campus, led the Pledge to the United States Flag and the Pledge to the Texas Flag.

APPROVED LISTING OF AGENDA ITEMS - Motioned by Mr. Jennings and seconded by Mrs. Watkins, the Board unanimously approved the listing of agenda items.

PUBLIC PARTICIPATION - None.

RECOGNITION ITEMS - The Board of Trustees recognized Demi Wood, a student at La Vega Intermediate School H. P. Miles Campus. Miss Wood composed the winning entry in a contest at La Vega Intermediate School H. P. Miles Campus to establish a pledge for their campus.

SPECIAL REPORTS - Board Members were given the following reports.

Construction Report - Mr. Cliff Brown, Director of Construction, provided a report on current construction projects.

Superintendent's Information to the Board - Dr. Geren, Superintendent, updated the Board on calendar and other miscellaneous items.

Enrollment Report - Mr. Al Bishop, Executive Director for Personnel and Administrative Services, provided a report on enrollment for the 2005-2006 school year. The projected enrollment is 2,597 students. Enrollment peaked on September 12th with 2,611 students, and the enrollment as of September 19th was 2,595.

Textbook Update - All textbooks for the 2005-2006 school year have been ordered. Campus textbook coordinators are submitting supplemental textbook requests as necessary, and these requests are submitted in a timely manner.

APPROVED CONSENT AGENDA ITEMS - On a motion by Mr. Harris and seconded by Mr. Jennings, the Board unanimously approved the following Consent Agenda items:

- The minutes for the August 9, 2005 called board meeting;
- The minutes for the August 16, 2005 regular board meeting;
- The minutes for the August 30, 2005 called board meeting;
- The Tax Collection Reports for the period ending on August 31, 2005; and
- The funding and terms specified in the Texas Reading First Initiative for Grades K-3 Cycle 1 Year 3 Continuation Funding Grant.

ACTION / DISCUSSION ITEMS - The following items were considered and/or approved by the Board of Trustees.

Approved Resolution Authorizing Extracurricular Status for the McLennan County 4-H Organization and Approved McLennan County Extension Agents as Adjunct Staff Members - Motioned by Mrs. Watkins and seconded by Mr. Harris, the Board unanimously approved a resolution regarding the extracurricular status of the 4-H Organization and the recognition of Texas Cooperative Extension Staff Members as adjunct faculty members of La Vega ISD.

Nomination of Candidate for the McLennan County Appraisal District Board of Directors - Motioned by Mr. Jennings and seconded by Mrs. Watkins, the Board unanimously agreed to nominate Mr. Billy Hubert for a position on the McLennan County Appraisal District Board of Directors.

Budget Management Resolution - On a motion by Mrs. Watkins and seconded by Mr. Jennings, the Board unanimously agreed to authorize the Superintendent or his designee to approve budget adjustments that do not change the overall level of appropriations.

Approved Additions and Modifications of the La Vega High School and La Vega Junior High School George Dixon Campus Student Handbooks and Student Code of Conduct - Mr. Harris made a motion to approve the recommended additions and modifications of the La Vega High School and La Vega Junior High School George Dixon Campus Student Handbooks and Student Code of Conduct. Mrs. Watkins seconded the motion and it passed unanimously.

The change in the Student Code of Conduct for all campuses will prohibit all knives or knifelike instruments. Changes in the student handbooks pertain to the dress code, graffiti, and trespassing on school grounds.

Adoption of Amended Tax Rate for 2005-2006 - Motioned by Mr. Harris and seconded by Mr. Jennings, the Board unanimously agreed to adopt an amended tax rate of \$1.6925, composed of \$1.50 for Maintenance and Operations and \$0.1925 for Debt Service.

The District set its 2005-06 tax rate on August 31, 2005. Based on the best information available at that time, the Board adopted a tax rate of \$1.7975, with \$1.50 dedicated to Maintenance and Operations and \$0.2975 dedicated to Debt Service. Since that time, the District has learned that Existing Debt Allotment (EDA) funds, which help pay a portion of debt service costs, have been approved and appropriated. The administration has confirmed that the District will receive \$525,052 in EDA funds in 2005-06. This new information allowed the District to amend the Debt Service tax rate from \$0.2975 to \$0.1925, resulting in a new overall tax rate of \$1.6925.

Mr. Bancale, Board President, made the following announcement: "The Board will hold a public hearing on the proposed amended tax rate on September 29, 2005 at 12 noon in the Board Room of the Administration Building, located at 3100 Bellmead Drive, Bellmead, Texas, 76705. Action on the amended tax rate may be taken at this meeting. The public is invited and encouraged to attend and comment on the proposed amended tax rate."

CLOSED MEETING - A closed session of the Board was declared at 9:00 p.m. on September 20, 2005 as authorized by the Texas Open Meetings Act, Texas Government Code Section 551.074, to discuss personnel or to hear complaints against personnel. The closed meeting ended at 9:10 p.m. on September 20, 2005.

ADJOURNMENT - On a motion by Mrs. Watkins and seconded by Mr. Jennings, the Board unanimously agreed to adjourn the meeting at 9:10 p.m. on September 20, 2005.

Supporting documents:

None ☐ Attached ☒ Provided Later ☐

Contact Person:

Dr. Sharon M. Shields
Ms. Tammy Brinkman
Ms. Peggy Johnson
Ms. Bonnie McRae
Mr. Bryant Adams
Mr. Jerry Brem

Background Information:

Each district and campus is required annually to prepare a district and campus improvement plan. The plans should focus on improving the performance of all students as measured by the Academic Excellence Indicator System (AEIS) and Annual Yearly Progress (AYP) Report. The plans should outline the major initiatives the district and campuses will focus on throughout the school year. Additionally, the plans should identify the budgetary priorities for the district.

The proposed 2005-2006 DIP and CIP's have been responsive to feedback from numerous sources, including 2004-2005 AEIS data, AYP reports, goals identified by the Board of Trustees and Superintendent, and district and campus needs assessment.

Fiscal Implication:

Financial implications have been identified in the plans and are included in the approved 2005-2006 budget.

Administrative Recommendation:

The administration recommends the Board approve the 2005-2006 District Improvement Plan and Campus Improvement Plans as presented.

Mission 2005-2006

To have the courage, knowledge and imagination to prepare all children to think critically and creatively to prepare them to be lifelong learners, and to prepare them for life in an information-based society where application of knowledge and the ability to work with information are essential.

Campus Philosophy

- ◆ Increased opportunities for success must be provided for all children.
- ◆ Teamwork yields greater results in improved student achievement.
- ◆ The focus is always on the student and learning is measured on an individual basis.
- ◆ Respect and responsibility are foremost in the quest for success.
- ◆ Social, emotional, physical, and academic needs must be addressed for all children.
- ◆ Collaborative decision-making is essential with the central focus always being the students learning.

La Vega Junior High School-George Dixon Campus Goals 2005-2006

- 1) All students at La Vega Junior High School-George Dixon Campus will demonstrate exemplary academic and social performance and will contribute positively to the global community.
- 2) La Vega Junior High School-George Dixon Campus will achieve an active partnership among parents, community members and educators, which will promote successful students learning.
- 3) La Vega Junior High School-George Dixon Campus will have a safe, orderly environment conducive to successful student learning.

La Vega Independent School District District Goal & Strategies

By 2005-2006, we will strive to achieve “recognized status” as measured by the Academic Excellence Indicator System for each campus and for the District.

Strategies for Achieving Long –Range Goal and District & Campus Performance

Objectives: In the 2005-2006 school year, LVISD will:

1. Focus on the improvement of reading, writing, math, and social studies competencies at all grade levels in all subject areas
2. Focus on all teachers teaching the TEKS as a basis for their curriculum
3. Focus on increasing student attendance and decreasing student dropouts
4. Provide staff development for all staff, as appropriate
5. Focus on improving the school climate for students, faculty, and staff thereby helping to improve public perception of the school district
6. Continue to increase efforts to improve communication between superintendent, Board of Trustees, administrative, teaching and support staff, campus and district planning and decision-making teams
7. Implement a long-range plan for facilities utilization and expansion
8. Provide for increased technology availability to students and staff and increased use of technology by students and staff

LaVega ISD

Planning Dates/Description

September 9, 1998	<i>The LaVega ISD Administration team met with Mary Ann Moody,</i> Field Service Agent, and Linda Holbrook, Title I Educational Specialist, both From ESC Region 12 to discuss the meaning and requirements of a Title I School wide program. All campuses in the district were eligible to have a School wide Program. The group decided to explain the requirements to their Campus staff and reach a decision per campus on starting the process to have a school-wide program.
September 30, 1998	Linda Holbrook met with the H. P. Miles staff to give an overview of the federal and state law on campus planning as it relates to the School wide program and the state accountability system. She explained what it meant to be a school-wide program.
November 4, 1998	Linda Holbrook provided Site-Based Decision Making training for the H. P. Miles Middle School staff. She discussed the guidelines from the Integrated Planning Guide: team composition, roles and responsibilities, and the six areas of decisions.
December 2, 1998	The H. P. Miles staff, community members and parents developed a vision for the campus for the next five years by specifically listing the descriptors of their “Dream School”. Linda Holbrook and Nelda Kettler facilitated the activity.
January 5, 1999	The H. P. Miles Middle School staff, parents, community members and selected students started the process for the Comprehensive Needs Assessments. They were organized into four teams: Student Issues, Parent Issues, Parent/Community Issues, and Facility/Safety Issues. Linda Holbrook facilitated the activity and guided them into areas for study and research. The task was to identify their strengths, trends, current successful practices, prioritized needs, staff development needs and sources.
March 3, 1999	The Team Leaders from the four teams presented the finding from the Comprehensive Needs Assessment to the entire staff and invited guests. Several gave results of the surveys and the needs that were identified. They explained their process of study and reported the prioritized needs. Linda Holbrook and Nelda Kettler facilitated the meeting.
March 29, 1999	The four-team leaders met with Linda Holbrook and Carlon Lemmons from ESC Region 12 to clarify the expectations for the compiled data from the Needs Assessment. The group determined the campus goals and measurable objectives.
May 11, 1999	Linda Holbrook and Carlon Lemmons met the four-team leaders to develop the first draft of the new campus plan. The plan was then presented to the entire staff and SBDM for review and revision. After the staff/team approval, the plan was printed in final form to go to Central Office.
May 24, 1999	The H. P. Miles Middle School staff and Site-Based Team met to review/revise the campus plan. The four-team leaders presented the plan goal sheets. The staff and SBDM team approved the document.
September 3, 1999	Linda Holbrook, Carlon Lemmons, from ESC Region 12, met with Dr. Sharon Shields, S. Jansing N. Kettler, and B. Adams for plan review and revision.

September 9, 1999	The H. P. Miles Campus Quality Improvement Council (SBDM) met. The team reviewed and approved the Campus Improvement Plan.
September 21, 1999	The H. P. Miles Middle School Campus Plan was presented to the La Vega ISD School Board for final approval.
February 25, 2000	Carlton Lemmons, ESC Region 12, met with H. P. Miles staff to update campus needs assessment and to work with the planning teams (which involved new members) on the 2000-2001 Campus Improvement Plan. Activities included breakout groups, Q & A Sessions, and whole group consensus.
March 27, 2000	Planning Teams met during Early Release Staff Development time to identify new targets to reach our campus goals. Budget planning, scheduling and staffing were discussed.
April 5, 2000	More revisions and updates were added to the CIP during and afternoon of group planning sessions. Nelda Kettler and team leaders facilitated.
July 2000	La Vega ISD School Board approved H. P. Miles Middle School Campus Improvement Plan.
August 3, 2000	Linda Holbrook met with Bryant Adams and Nelda Kettler to review and revise the plan. State guidelines were discussed and implemented.
September 6, 2000	The H. P. Miles Middle School CQIC met. The CIP was again discussed, Title I components were identified, and budget amounts were appropriately entered.
September 15, 2000	All teachers at H. P. Miles Middle School met with Nelda Kettler during their respective conference periods. The CIP was discussed and no further revisions were made at that time.
October 16, 2000	The Campus Leadership Team met with Nelda Kettler. The CIP and the staff development plan for the current year were approved.
October 24, 2000	The H. P. Miles CQIC met and each member received the final revision of the Campus Improvement Plan. The team also approved the staff development plan for 2000 – 2001.
April 25, 2001	The H. P. Miles CQIC and the Campus Leadership Team combined for the spring planning meeting. The master schedule was previewed and approved as well as the continuation of the honors program at HPM. The summative evaluation of the Campus Improvement Plan was discussed. Final revisions of the plan for the upcoming school year will be done in the summer and fall.
October 1, 2001	Planning teams started revising the CIP. All teams met on October 5 and October 8 to finalize their revisions.
October 9, 2001	Team chairpersons met with Mr. Adams, Mrs. Kettler, and Mr. Borland to share CIP revisions and make any necessary addition/deletion changes. Later, on the same day, the CQIC met to review the revised plan and to input further ideas from parents, students, and community sectors. After a period of time, the revisions were completed and the HPM CQIC, pending Board approval and DQIC approval, approved the new plan.
November 27, 2001	HPM Campus Quality Improvement Council met to distribute and discuss our campus quality improvement plan and answer any questions. We also reviewed the campus AEIS Report and answered any questions concerning the report. We also discussed the possibility of HPM school uniforms.

October 8, 2002	HPM Campus Quality Improvement Council met to introduce new members to review and approve our campus improvement plan as presented. We also will revisit the possibility of HPM school uniforms and the process for presenting this to our parents and the community.
November 12, 2002	HPM Campus Quality Improvement Council met to discuss school uniforms and the types of school uniforms. We also talked about the issue being presented to our District Quality Improvement Council.
May 6, 2003	HPM Campus Quality Improvement Council met to discuss a proposal for consideration to change our current Skills for Living Course to Health Education starting the 2003-2004 school year to meet urgent curriculum needs of our junior high students. There was final consideration and recommendation made by this committee to consider the change for the 2003-2004 school year.
September 9, 2003	La Vega Jr. High School Campus Quality Improvement Council met to review and approve the Campus Improvement Plan.
April 13, 2004	La Vega Jr. High School-George Dixon Campus met to discuss and approve high school credit for the following: Health Ed.—1/2 year credit, Physical Ed.—1/2 year credit, which will include; weight training and aerobics class. Also, Business Communication Applications Systems (BCIS)—1 credit.
October 18, 2004	La Vega Jr. High School-George Dixon Campus met to review and approve the Campus Improvement Plan.
April 13, 2004	La Vega Jr. High School-George Dixon Campus CQIC met to review and discuss course offerings for high school credit at the jr. high school level. The committee also reviewed TAKS objectives for Science.
October 18, 2004	The La Vega Jr. High School-George Dixon Campus CQIC met to approve our Campus Quality Improvement Plan for 2004-2005. The committee also reviewed and discussed TAKS data from the 2003-2004 school year.
October 25, 2005	Campus Quality Improvement Council meeting scheduled

Comprehensive Needs Assessment Summary

Through a system of planning, La Vega Junior High School-George Dixon Campus used numerous sources to arrive at the goals and objectives for the upcoming school year. Each year the planning for the next year starts as the current year is beginning. Faculty meetings, team meetings, departmental meetings, administrative meetings, and grade level meetings provide the means to analyze data and reach consensus on a plan to improve student achievement. We can proudly say that we have seen substantial growth in most areas in the past three years, but we will not be satisfied until all gaps are closed and all children are learning to the highest potential possible. We believe that this campus can and will become an exemplary campus because the total group effort to reach the goal has spread to the student body. An attitude of “I believe in myself” is shining through in the classrooms.

The planning teams have put together initiatives and means for reaching campus goals. Data from six weeks reports, district wide assessments, and the annual AEIS report help us in regularly checking the progress. With this system of information, a plan is devised during the school year to tutor children as needed to help each one to be successful.

The Three Priority Goals of La Vega Junior High School-George Dixon Campus

- All students at La Vega Junior High School-George Dixon Campus will demonstrate exemplary academic and social performance and will contribute positively to the global community.
- La Vega Junior High School-George Dixon Campus will achieve an active partnership among parents, community members, and educators, which will promote successful learning.
- La Vega Junior High School-George Dixon Campus will have a safe, orderly environment conducive to successful student learning.

La Vega Junior High School-George Dixon Campus (LVJHGD)

Parental Involvement Policy

2005 – 2006

Educators and parents have mutual goals, which are to promote lifelong learning and to allow students to develop strengths and interests to evolve into a successful career. At LVJHGD, we focus on how teachers can shape instruction to meet the unique needs of learners. Effective communication between parents and educators will create a partnership that will lead to a higher level of student success through personalized learning. Our school accepts the lively diversity among its students and incorporates individualized instruction to provide the students with the substance and skills to survive in a rapidly changing culture and economy. The “Parent Connection” is a vital tool in the building of campus where ALL students are learning and performing to the very best of their ability.

LVJHGD parents are campus partners and we must work together between our school and community. Parents are encouraged to commit to school involvement, which will enrich the lives of their children.

- Review the information in the Student Handbook (including the Student Code of Conduct) with your child; sign and return the acknowledgement form(s). Parents with questions should contact the principal (Mr. Bryant Adams).
- Participate in school activities, such as Open House, extracurricular activities, National Parent Involvement Week, parent-teacher conferences, decision-making councils, planning committees, the parent volunteer program, PTO, and others.
- Place a high priority on education and take advantage of the educational opportunities the school provides.
- Attend School Board Meetings to learn more about the LaVega ISD operations. The LaVega ISD Board meets on the third Tuesday of each month at 7:00 P.M. in the District’s Administration Building.
- Be aware of your child’s school activities and class schedule. Monitor academic progress carefully and contact teachers as needed. Work with teachers in a partnership to help meet the needs of your child.
- Exercise your right to review teaching materials, textbooks, other instructional aids, and tests that have been administered to your child.
- Review your child’s records, when needed. You may review (1) attendance records, (2) test scores, (3) grades, (4) disciplinary records, (5) counseling records, (6) psychological records, (7) applications for admission, (8) health and immunization information, (9) teacher and counselor evaluations, (10) reports of behavioral patterns, and (11) state assessment instruments administered to your child.
- If an instructional activity in which your child is scheduled to participate conflicts with your religious or moral beliefs, you may temporarily remove your child from the classroom. The removal cannot be for the purpose of avoiding a test and may not extend for an entire semester. Furthermore, your child must satisfy grade level and graduation requirements as determined by the school and by the Texas Education Agency.
- Become a school volunteer. For further information, contact Principal Bryant Adams, Asst. Principal Elicia Krumnow, Asst. Principal Stephen Hanks, or Counselor Mary Keezee.

MCCA Campus Improvement Plan for 2005-2006

For the 2005-2006 school year MCCA will focus on several areas of concern. These areas of concern are attendance, recidivism rate, the relationship with the parents and academic performance at the Bill Logue Detention Center.

Attendance:

Over the past five years we have improved our overall daily attendance rate from 55% to 75% last year. Our attendance officer, Mr. Guerrero, has done an excellent job keeping up with our student's attendance needs. He attempts to solve any roadblocks that may be keeping a child from attending school. In the event we feel the student or family are not working with us to help the student attend school Mr. Guerrero will file on the child for non attendance in Judge Villarreal court.

This school year we are focusing on an 80% attendance rate as our goal. Judge Villarreal has informed us that we may file on a repeat offender immediately rather than waiting for the child to have three more unexcused absences.

Mr. Guerrero and I will continue to do home visits to help solve any issues that keep the student from attending regularly.

Recidivism Rate:

Last year we hired Nathan Barrier to follow up on our students returning to their home campuses. This seemed to help during the transition period. I expect Mr. Barrier to help even more this year now that he knows our students and has built a relationship with their families. He presently works with the students and families for 60 days after their return.

Every year we expect more from our students concerning our boot camp drill activities. Although this creates conflict with the parents that feel their child was expelled unjustly it creates an atmosphere on campus of pride of accomplishment and confidence that they can compete when they return to their home campus. They no longer request to stay at MCCA because they fear going back.

The Relationship with the Parents:

Many of the students that we serve come from homes with little consistency and parenting skills. MCCA has teamed up with Judge Whitfield and his wife to create a four 11/2 hour session parenting program. We will use this as an incentive for the parents that must come to school because of their child's behavior problems. We will offer the parenting program to any one that does not want to come to school with their child. Our parenting program concentrates on consistency and contract writing with the child. We believe if we can improve the parent's performance we will improve the child's performance.

Academic Performance at Bill Logue Detention Center:

We serve two populations at the detention facility Short term clients that must remain in detention awaiting the judge to release them and long term clients in “Boot Camp” Short term students have no hope of finishing classes while they are with us. This group will participate in study skill programs to improve their skills and techniques to become a better student when they leave detention. The long term students will use the curriculum offered at MCCA (Gurley). We will intensify our reading instruction by adding an additional hour of reading remediation in the afternoon. We will also continue instruction during the summer months (paid by McLennan County)

Localized Policy Manual

Update 76

La Vega ISD

Your Localized Update 76 represents the first of two post-legislative updates and encompasses changes in law from the 79th regular legislative session that have an immediate effect on the governance and management of the district. Update 77 will be issued in early November and will address the remaining legislative changes from that session and, to the extent possible, any changes that may arise from a special session.

Please bear in mind that the (LEGAL) policies reflect the ever-changing legal context for governance and management of the district. They should NOT be adopted but, rather, should inform local decision making. The (LOCAL) policy recommendations in this update will need close attention by both administration and the board to ensure that they reflect the practices of the district and the intentions of the board. Board action is needed to adopt, revise, or repeal (LOCAL) policy.

To better focus board attention and expedite its review, your Localized Update 76 packet contains:

- ***Vantage Points—A Board Member's Guide to Update 76***, copies of which may be found in the separately wrapped package accompanying this packet. ***Vantage Points*** offers a highly summarized overview of the update and is intended to provide local officials a first glance at the scope of the update—as a prelude to studying the detailed Explanatory Notes and policy text within the packet. **Please distribute *Vantage Points* to your board members at the earliest possible opportunity, preferably with their review copies of this update.**

- Your Localized Update, which includes:

INSTRUCTIONS . . . providing specific, policy-by-policy directions on how this update, if accepted as prepared, should be incorporated into your Localized Policy Manuals.

EXPLANATORY NOTES . . . summarizing changes in the policies in each code and how those changes affect your policy manual. Please note that, where appropriate, the Explanatory Notes ask you to **verify that a particular policy continues to reflect your current practice and to advise us of changes needed** so that our records and your manual accurately track the district's actual practice.

Update 76 materials can be identified by the DATE ISSUED—08/16/2005—located in the lower left corner of each page. If you have any questions concerning this Update, please call your Policy Consultant/Analyst, Kaye Teaff, at 800-580-7529 or 512-467-0222.

Regarding board action on Update 76 . . .

- Board action on Localized Update 76 must occur within a properly posted, open meeting of the board and may be addressed on the agenda posting as “Policy Update 76, affecting (LOCAL) policies (see attached list).” Using the Instruction Sheet as a guide, create and attach to the posting a list of the (LOCAL) policy codes **and the titles/subtitles of those policies**. BoardBook compilers should use “Policy Update 76, affecting (LOCAL) policies” as the agenda item and, as agenda sub-items, the code and name of each of the (LOCAL) policies affected by the update.
- An appropriate motion for board action on Localized Update 76 is as follows:

“I move that the board add, revise, or delete (LOCAL) policies as recommended by TASB Policy Service and according to the Instruction Sheet for TASB Localized Policy Manual Update 76 [with the following changes:]”
- The board's action on Localized Update 76 must be reflected in board minutes. The Instruction Sheet—annotated to reflect any changes made by the board—and the Explanatory Notes for the update should be filed with the board minutes where they comprise the authoritative historical record of your district's manual. Also include in the historical record a copy of the replaced or rescinded (LOCAL) policies.
- **Notify your Policy Consultant/Analyst of any changes made by the board so that Policy Service records—forming the basis for these and subsequent updating recommendations—exactly mirror your manual.**

Regarding manual maintenance and administrative regulations . . .

- The update should be incorporated into each of the district's Localized Policy Manuals as soon as practicable. If the district uses *Policy On Line*, please notify us of the board's action on Update 76 so this action may be reflected in your district's Localized Policy Manual as it appears on TASB's Web server. *Policy On Line* staff may be reached by phone (800-580-7529 or 512-467-0222), fax (512-467-3618; see the pink form enclosed), e-mail (pol-support@tasb.org), or Internet feedback form (<http://www.tasb.org/policy/pol/private/polfdbk.html>).
- Administrative procedures and documents—including formal (REGULATIONS), handbooks, and guides—that may be affected by Update 76 policy changes should be inspected and revised as needed. If the district routinely submits (REGULATIONS) to Policy Service for processing or desires that the updated (REGULATION) be included in the district's *Policy On Line* manual, please submit these changes to your Policy Consultant/Analyst at your earliest convenience.

PLEASE NOTE: This Localized Update 76 packet and the Update 76 *Vantage Points* may not be considered as legal advice and are not intended as a substitute for the advice of the board's own legal counsel.

District: La Vega ISD

AC (LEGAL) GEOGRAPHIC BOUNDARIES

SB 427, enacted during the 79th regular session, requires districts that alter their boundaries—or the boundaries of single-member districts—to promptly notify the county voter registrar of the change. Notification must occur within 30 days of the board's action and must be accompanied by a map (in a format compatible with that used by the registrar's office) marking the change. This requirement becomes effective for elections ordered after September 1, 2005.

BBB (LEGAL) BOARD MEMBERS
ELECTIONS

While the November uniform election date remains unchanged, the May uniform election date—long pegged to the first Saturday in May and moved last year to the third Saturday to accommodate redistricting time lines—has moved again, to the second Saturday in May, as a result of HB 2339 from the 79th regular session.

Other legislative changes affecting this policy are as follows:

- SB 427 requires that changes in district boundaries—and single-member district boundaries—be promptly communicated to the county voter registrar. (See NOTICE TO VOTER REGISTRAR on page 2.)
- HB 2339 adjusts the filing and write-in deadlines for elections held on the general election day (November of even years). Filing for a place on the ballot must occur no later than the 70th day prior to election day and declaration of a write-in candidacy must occur no later than the 67th day prior to election day. For other elections, the usual time lines—62nd day and 57th day, respectively—apply. (See FILING INFORMATION.)
- HB 2339 also adjusts the deadline for ordering an election on the general election day: the call must occur no later than the 70th day beforehand. For other elections, the usual deadline—the 62nd day—remains. (See NOTICE on page 3.)

In this same section appears the HB 1580 requirement that the district retain—for at least 22 months—a copy of the newspaper notice of the election. Previously state law required that the copy be retained for 60 days.

Also added is the HB 2309 requirement that the board deliver—no later than the 60th day preceding the election—notice of the election to the county clerk of each county in which the district is located.

- HB 1209 requires districts holding elections on the November uniform election date of any year to use regular county polling places. Excluded from this requirement are Harris County and the seven contiguous counties: Galveston, Chambers, Liberty, Montgomery, Waller, Fort Bend, and Brazoria. (See BALLOT, ELECTION OFFICIALS, AND POLLING PLACES on page 4.)
- HB 719 provides the Texas secretary of state more detailed direction regarding his authority to promulgate rules pertaining to form and posting of the long-required NOTICE OF VOTING RIGHTS HOTLINE.
- HB 57 (effective for elections ordered after October 1, 2005) clarifies the timeframe for canvassing May election returns. While November-electing districts still must canvass returns between the 8th day and 11th day after elections, May-electing districts may start canvassing sooner. May-electing districts may begin on whichever of the following dates is latest:
 - the third day after election day,

Explanatory Notes

TASB Localized Policy Manual Update 76

- the date on which all early voting ballots and provisional ballots have been counted, or
- the date when all timely received ballots cast outside the country have been counted.

(See CANVASS RETURNS on page 6.)

- HB 2309 requires—for all elections called after January 1, 2006—the person presiding over the canvassing to prepare a report of the precinct results and to deliver that report to the secretary of state—in an electronic form to be specified by the secretary. (See CERTIFICATE OF ELECTION on page 7.)

Unless otherwise indicated above, these provisions apply to elections ordered after September 1, 2005.

Please note: This (LEGAL) version is for districts whose boards are composed of seven trustees, elected at-large and from single-member trustee districts. If there has been a change in your district's method of election and this description no longer reflects your practice, please contact your Policy Consultant/Analyst so we can update our files and issue the correct (LEGAL) version for your manual.

BBBA (LEGAL) BOARD MEMBERS REPORTING CAMPAIGN FUNDS

We are adding to your manual the enclosed policy on REPORTING CAMPAIGN FUNDS addressing directives from the Texas Ethics Commission applicable to candidates for the board.

TERMINATION OF CAMPAIGN TREASURER APPOINTMENT is new material drawn from HB 1863 and effective June 17, 2005. The legislation empowers a board to adopt a process by which its secretary may terminate the appointment of a campaign treasurer for an inactive candidate or political committee.

BE (LEGAL) BOARD MEETINGS

Legislation resulting from the 79th regular session affects board meeting notices as follows:

- At CONTINUED MEETING, on page 2, is new text—from SB 690, effective June 17, 2005—allowing the board to recess a meeting and resume the meeting the following business day without posting further notice. The board cannot continue that meeting, however, to yet another day without the required notice. The legislation effectively embraces as law a 1998 attorney general's opinion (DM-482) to that effect and specifies that any such continuation must be in good faith and not for the purpose of circumventing the notice requirements of the Texas Open Meetings Act.
- HB 2381 requires a district to post meeting notices on its Internet Web site, if the district maintains a Web site. Previously districts have posted a hard copy of the meeting notice in a continuously accessible place at the central administration office or another continuously accessible location. After September 1, 2005, districts may satisfy the posting requirement by (1) making "a good-faith attempt to continuously post the notice on the Internet" during the 72 hours preceding a meeting AND (2) posting a hard copy notice in the central administration office, where it must be readily accessible to the public during normal business hours. (See TIME OF NOTICE AND ACCESSIBILITY on page 3.) Posting on the Internet, though, is no longer discretionary for a district that maintains an Internet Web site: provisions of SB 1133, reflected at INTERNET POSTING on page 3, require such districts to post meeting notices on the site and—for districts containing a municipality with a population of 48,000 or more—to post also the meeting agenda, if it differs from the posted notice. HB 2381 is effective September 1, 2005; SB 1133, on January 1, 2006.
- At CATASTROPHE, on page 4, is reflected—also from SB 690—language that allows a board prevented by a catastrophe from convening a properly posted meeting to convene the meeting at a convenient location within 72 hours. Whether further notice is needed within the 72-hour period is not clearly stated. TASB attorneys note that the embedded cross-reference to Government Code Section 551.045 (the section providing for emergency meetings or emergency-driven additions to the agenda) might suggest that

Explanatory Notes

TASB Localized Policy Manual Update 76

the district would still be bound to provide a two-hour notice but that the catastrophic delay might in itself constitute a “reasonably unforeseen situation” creating an “urgent public necessity.” Because of this ambiguity, districts are urged to confer with local counsel should a catastrophe prevent the board from meeting as initially scheduled.

BQ (LEGAL) PLANNING AND DECISION-MAKING PROCESS

HB 283 (from the 79th regular session and effective June 18, 2005) requires that—within the framework of the District Improvement Plan—each district implement a discipline management program that provides “for the prevention of and education concerning unwanted physical or verbal aggression, sexual harassment, and other forms of bullying in schools, on school grounds, and in school vehicles.” The new requirement may be found at item 9 on page 2.

BR (LEGAL) REPORTS

Beginning this fall and **within the first ten days of classes**, districts with Internet Web sites must publish on the Web their most recently received AEIS report and School Report Cards (SRCs). Such publication is mandated by HB 3297, from the 79th regular session and effective June 18, 2005, and does not affect existing publishing requirements, keyed to TEA's release of the reports:

- The AEIS report still must also be published **within two weeks** after the local hearing (convened **within 90 days** after receipt from TEA) and posted in various public places (e.g., school offices, local businesses, and public libraries). (See page 2 for requirements regarding AEIS INTERNET DISSEMINATION.)
- SRCs still must also be distributed to parents **within six weeks** after receipt from TEA, by mail, parent/teacher conferences, or other means identified by the campus. (See page 3 for requirements regarding SRC INTERNET DISSEMINATION.)

CAA (LOCAL) FISCAL MANAGEMENT GOALS AND OBJECTIVES FINANCIAL ETHICS

Three items within the definition of FRAUD AND FINANCIAL IMPROPRIETY have been refined for clarity:

- At item 8—a reference to policy DBD has been added. A reference to “law or District policy” has also been added to clarify when items of material value may be accepted.
- At item 9—“inappropriately” has been moved to the beginning of the phrase so that it modifies all actions described.
- At item 11—“law or District policy” has been added to embrace both legally defined conflicts of interest as well as those established by policy, such as at DBD(LOCAL).

CCA (LEGAL) LOCAL REVENUE SOURCES BOND ISSUES

Various bills from the 79th regular session affect this policy:

- At EXISTING DEBT ALLOTMENT (page 1): SB 1863, effective July 1, 2005, updated the year-eligibility for state funding for servicing of existing bonded indebtedness.
- At ELECTIONEERING (page 1): HB 2339, effective September 1, 2005, clarifies that the board cannot use “state or local funds or other resources of the district to electioneer for or against any candidate, measure, or political party.”

Explanatory Notes

TASB Localized Policy Manual Update 76

- At ELECTIONS (page 1): HB 57, effective for elections called after October 1, 2005, now prohibits school districts from holding bond elections (or any other election, for that matter) other than on the May or November general election dates.
- At CALL FOR ELECTION (page 2): HB 2339 also adjusts the deadline for ordering a bond election on the general election day: the call must occur no later than the 70th day beforehand. For other elections, the usual 62-day requirement remains in place.
- At NOTICE OF ELECTION (page 2): a HB 2309 provision requires that the board deliver—no later than the 60th day preceding the election—notice of the election to the county clerk of each county in which the district is located.

CCG (LEGAL) LOCAL REVENUE SOURCES AD VALOREM TAXES

Changes arising from the 79th regular session are as follows:

- TAX RATE (page 2) reflects both SB 1652, effective September 1, 2005, and SB 18, effective June 18, 2005. The former clarifies that the tax rate has separate maintenance/operations and debt service components and requires the actual debt service rate to match the rate posted under Education Code 44.004(c)(2)(A)(ii)(b).
The latter legislation represents a substantial addition to the requirements for adopting a tax rate. Beginning with the current tax rate adoption, the motion to adopt a tax rate that exceeds the effective tax rate must be phrased as an increase in property taxes. Furthermore, the ordinance setting a tax rate that will cause maintenance and operations taxes overall to exceed those levied the previous year must include, in type larger than in any other portion of the document, tax increase language and the amount of the tax increase for a home valued at \$100,000. The legislation also provides specific language that the district must post on its Internet Web site to announce the increase.
- As found at REINVESTMENT ZONES/TAX INCREMENT FINANCING (page 8), counties have been newly authorized by HB 2120 to form reinvestment zones, after September 1, 2005.
- In addition and as with trustee elections at BBB(LEGAL) and bond elections at CCA(LEGAL):
 - At CALL FOR ELECTION (page 3), HB 2339 also adjusts the deadline for ordering an election to ratify school taxes on the general election day: the call must occur no later than the 70th day beforehand. For other elections, the usual 62-day requirement remains in place. (Effective September 1, 2005.)
 - At NOTICE TO COUNTY CLERK (page 4): a HB 2309 provision requires that the board deliver—no later than the 60th day preceding the election—notice of the election to the county clerk of each county in which the district is located. (Effective June 18, 2005.)

CDA (LEGAL) OTHER REVENUES INVESTMENTS

SB 256—from the 79th regular session and effective September 1, 2005—amends the Public Funds Investment Act to clearly allow local governments to invest in certificates of deposit or share certificates issued by a depository institution's branch office. Previously such investments could occur only with a state or national bank, savings bank, or state or federal credit union domiciled in Texas.

The new language may be found in the first paragraph at item 2 on page 6. A new second paragraph under that item lists five additional circumstances allowing investment in certificates of deposit.

CE (LEGAL) ANNUAL OPERATING BUDGET

A new section titled USE OF DISTRICT RESOURCES has been added (on page 1) to reflect the HB 1826 prohibition against the use of district employees, property, or resources in the design, construction, or renovation.

Explanatory Notes

TASB Localized Policy Manual Update 76

tion of improvements to real property that is not owned or leased by the district. This legislation, from the 79th regular session, was effective June 18, 2005.

Also added within this section is the HB 2339 ban on using state or local funds or other resources for election-eering of any sort. [See also CCA(LEGAL).]

CH (LEGAL) PURCHASING AND ACQUISITION

HB 664 from the 79th regular session allows many districts to favor local bidders in awarding purchasing contracts. The legislation, effective September 1 and reflected under FACTORS on page 2 and LOCATION OF BIDDER on page 3, allows the district to award the purchase contract to a local bidder if that bid is within five percent of the lowest bid and under the following conditions:

- The district's administrative office is located in a municipality with a population under 250,000,
- The bidder's principal place of business is within the district, and
- The purchase is not for telecommunications or information services.

CKC (LEGAL) SAFETY PROGRAM/RISK MANAGEMENT EMERGENCY PLANS

SB 11 from the 79th regular session newly requires districts to put in place "a multihazard emergency operations plan" no later than March 1, 2006, and to conduct a security audit of district facilities at least once every three years.

The plan requirement is specific to security and must address:

- employee emergency response training,
- student and staff emergency drills, and
- coordination with local emergency management agencies, law enforcement, and fire departments.

The Texas School Safety Center, created in 2001 by the Legislature, is charged with the responsibility of providing districts a safety training program that now includes assistance in developing a multihazard emergency operations plan. The center is currently creating a model plan that will form the basis for this training; the training will be delivered through education service centers. Additionally, districts may request on-site technical assistance on school safety issues.

Further information as it becomes available will be posted on the Safety Center Web site at <http://www.txssc.txstate.edu/txssc.htm>.

CRD (LEGAL) INSURANCE AND ANNUITIES MANAGEMENT HEALTH AND LIFE INSURANCE

Legislation from the 79th regular session prompts the following additions:

- At PLAN DISCLOSURE STATEMENT on page 1 is a HB 765 requirement that districts not participating in TRS Active Care provide both employees and prospective employees a copy of any plan disclosure statement prepared by the provider. The district must also retain a copy of the notice that has been signed by the recipient. This requirement applies to all policies issued or renewed after January 1, 2006.
- At COMPENSATION SUPPLEMENT on page 3 is found the SB 1691 "clean-up" of the supplemental compensation–Healthcare Reimbursement Account tangle that arose from actions of the 78th Legislature (2003). The amount of the supplement is now clearly pegged to an amount specified in the General

Explanatory Notes

TASB Localized Policy Manual Update 76

Appropriations Act. The legislation does not extend the supplement to retirees eligible for TRS Care (or other coverage through the state, the University of Texas, or Texas A&M University). The supplement will be distributed monthly, rather than annually as before, and administration of the fund transfers will now be handled by TEA rather than TRS.

SB 1691 also includes a provision that effectively eliminates the 90-day waiting period, imposed during the 78th regular session, for new employees to become TRS members. Because this provision is not effective until September 1, 2005, the old law will apply for those who have not completed the 90-day waiting period by that date. As a consequence—and only until September—those employees are not eligible for TRS and must be covered by whatever stop-gap measure the district has in place. As of September 1, coverage by TRS begins, but the district must pay the state's share for the remainder of the employee's 90-day period. (See TRS CONTRIBUTIONS FOR NEW HIRES on page 4.)

SB 1691's scope also includes a requirement that—beginning September 1, 2005—a district that hires a retiree must fund:

- both the state's and employee's shares (currently 12.4 percent of the employee's salary) that would be payable if the employee were not a retiree; and
- the state contribution rate for the retiree's health insurance coverage, if the retiree is enrolled in TRS Care. The district does not have to make the TRS Care contribution, however, if the retiree is enrolled in TRS Active Care or if the retiree was reported to TRS by a school district as a retiree in January 2005. (See TRS CONTRIBUTIONS FOR REHIRED RETIREES on page 5.)
- At TERMINATION OF COVERAGE, on page 8, is reflected a SB 1448 provision that makes any district that does not participate in TRS Care subject to the limits on exclusions for preexisting conditions found in the Insurance Code. This requirement becomes effective with the 2005–06 school year.
- At EMPLOYEE ELECTION on page 11 appears HB 407 language that allows an employee married to another employee to declare himself or herself as dependent so that both are covered by the same policy, conceivably at a lower combined premium rate. This provision is effective with the start of the 2005–06 school year and applies to coverage provided under either a large or small employer health benefit plan.

CRE (LEGAL) INSURANCE AND ANNUITIES MANAGEMENT WORKERS' COMPENSATION

As a result of HB 7 from the 79th regular session, the Texas Workers' Compensation Commission has been merged into the Texas Department of Insurance. The many references to "TWCC" in this policy have been replaced by "TDI" and citations have been updated.

CS (LEGAL) FACILITY STANDARDS

At SECURITY CRITERIA, on page 3, a provision of SB 11 from the 79th regular session has been added and is effective with the development of Texas School Safety Center criteria this fall: a district using Instructional Facilities Allotment funds must consider in the design of the facility TSSC security criteria.

DC (LEGAL) EMPLOYMENT PRACTICES

This policy has been redeveloped to present topics and subtopics in a more logical manner and to more closely track statutory language. Substantive changes attributable to the 79th regular session are as follows:

- Under EMPLOYMENT POLICIES on page 1, SB 387 newly defines posting of vacancies as an "employment policy" essential. Further requirements in this regard are found at POSTING OF VACANCIES.

Explanatory Notes

TASB Localized Policy Manual Update 76

These provisions become effective with the 2005–06 school year and require the district to post vacancies for positions requiring certification or licenses in specified locations for at least ten school days and to allow current employees “a reasonable opportunity” to apply. The notice requirement is waived for filling vacancies in positions affecting “the safety and security of students as determined by the board.” The ten-day requirement, waived for filling a vacancy that occurs during the school year, embraces the broad definition of “teacher” found at Education Code 21.201 that includes such positions as classroom teachers, counselors, and administrative personnel required to have SBEC certification.

- At EMPLOYMENT OF RETIREES on page 2, SB 1691 provisions, effective September 1, 2005, have been added. These reporting requirements replace previous TRS rules regarding the monthly reporting statement.

DC (LOCAL) EMPLOYMENT PRACTICES

Policy Service records indicate that your district has not yet completed and returned the worksheet found in the **Contractual/Noncontractual Employment Starting Points** policy development tool kit. As a consequence your current policies may not adequately reflect district practice in light of changes in law and in the certification structure enacted by the State Board for Educator Certification.

For further information, refer to this **Starting Points**, found at <http://www.tasb.org/services/policy/starting/contract.aspx>, or contact your district’s Policy Consultant/Analyst.

DEA (LEGAL) COMPENSATION AND BENEFITS SALARIES, WAGES, AND STIPENDS

In addition to being reorganized for clarity and to more closely track statutory language, the policy has been revised to include SB 1691 provisions pertaining to COMPENSATION SUPPLEMENT (on page 2), TRS CONTRIBUTIONS FOR NEW HIRES (on page 3), and TRS CONTRIBUTIONS FOR REHIRED RETIREES. Further information on each of these additions may be found in the explanatory note at CRD(LEGAL) in this update packet.

At RETIREMENT INCENTIVES, found on page 4, is an additional SB 1691 provision that prohibits districts from offering incentives for employees to retire from TRS.

DHE (LEGAL) EMPLOYEE STANDARDS OF CONDUCT SEARCHES AND ALCOHOL/DRUG TESTING

Beginning September 1, 2005, districts will be required to report to the Department of Public Safety anomalous results of driver drug tests required by the U.S. Department of Transportation. The provisions of SB 217 from the 79th regular session require these reports when:

- a test indicates an alcohol concentration of 0.04 or greater or a result above the level set by DOT regulations for drug concentration;
- the employee refuses to provide a specimen for testing; or
- the specimen is found to be adulterated, diluted, or switched.

In addition to these revisions, found at REPORTS on pages 2 and 3, the policy has been reorganized and lightly edited to more closely track statutory language. A lengthy listing, drawn from DOT regulations, of materials that must be made available to those subject to DOT-required testing has been deleted as excessively detailed for policy.

DK (LEGAL) ASSIGNMENT AND SCHEDULES

While the addition to the policy—the TRANSFERS provision on page 2—is modest, the policy itself has been refined to more closely track the language of statute. The new TRANSFERS provision is language drawn

Explanatory Notes

TASB Localized Policy Manual Update 76

from SB 387—effective with the 2005–06 school year—that permits a district to include in its employment policies provisions for employee transfers within the district.

DLB (LEGAL) WORK LOAD REQUIRED PLANS AND REPORTS

SB 493 from the 79th regular session permits the commissioner of education to authorize an accreditation investigation of a district in response to “repeated complaints of excessive paperwork requirements on classroom teachers.” This provision becomes effective with the 2005–06 school year.

While not added to this policy, the legislation also requires the commissioner to limit written reports and other paperwork TEA requires of principals or classroom teachers and, at least once every even-numbered year, to review and reduce paperwork requirements imposed by TEA on districts.

E (LEGAL) INSTRUCTION

We have revised the E–Section Table of Contents to accommodate policy EHBG: Prekindergarten.

EHAC (LEGAL) BASIC INSTRUCTIONAL PROGRAM REQUIRED INSTRUCTION (SECONDARY)

At COORDINATED HEALTH PROGRAM on page 1 has been added new law extending to middle and junior high students a health initiative that has previously been focused only on elementary students. From the program mandate in the 77th regular session, amended during the 78th regular session, to SB 42 in the 79th regular session, differing effective dates emerge: districts must receive training in the implementation of the elementary program by September 1, 2007, while training for the middle and junior high program must begin in the 2006–07 school year.

At item 5, on page 2, of the list of required course offerings in grades 9–12, language from HB 492 from the 79th regular session has been added. Beginning with the 2006–07 school year, districts must include instruction in personal financial literacy in any course meeting the economics course credit requirement. The State Board of Education must adopt—by March 1, 2006—rules that include a transition period for 2006–07 juniors and seniors and must adopt TEKS on personal financial literacy by the 2008–2009 school year.

EHBD (LOCAL) SPECIAL PROGRAMS FEDERAL TITLE I

As we reviewed your files in preparation for this update, we noticed that you did not have a local policy addressing COMPARABILITY OF SERVICES, which is a requirement for districts that receive Title I federal funds and have more than one campus at the same grade level. If your district meets these criteria, we recommend that you consider adopting this policy; otherwise, please contact your Policy Consultant/Analyst so we can adjust our files accordingly.

EHBG (LEGAL) SPECIAL PROGRAMS PREKINDERGARTEN

We have created this new code to specifically focus on prekindergarten programs and moved provisions, previously found at FD(LEGAL) and elsewhere, to this new policy. This material has been supplemented with Education Code provisions on grants, specifically the PREKINDERGARTEN EXPANSION GRANT and the READY TO READ GRANT, found on page 2.

Also new is a requirement—from HB 2048 from the 79th regular session and effective June 18, 2005—that the district participate in the Texas Information and Referral Network (TIRN), an initiative of the Health and Human Services Commission. Participation will take two forms:

Explanatory Notes

TASB Localized Policy Manual Update 76

- Information collection: Each district, each local workforce development board, and the Texas Head Start State Collaboration Office will provide TIRN information regarding available child-care and education services and eligibility information. This information will be published on the Internet (in a manner prescribed by the legislation) and will provide—in the language of the bill—“a point of access through which a person may be directed on how or where to apply for all child-care and education services available in the person’s community.”
- Contact management: TIRN staff will provide the person’s contact information to the local Head Start or Early Head Start center, local workforce development center, and school district. Each entity is then required to contact the person regarding eligibility and to match the person’s need with child-care and education services it provides or that are available through other providers in the community.

EHBK (LEGAL) SPECIAL PROGRAMS
OTHER INSTRUCTIONAL INITIATIVES

Revisions are as follows:

- At CONSTITUTION DAY, on page 1, a requirement embedded in the Federal Appropriations Act of 2004 has been added: districts that receive federal funds from any source must observe U.S. Constitution Day each September 17. That observance marks the date in 1787 that delegates to the Constitutional Convention convened to sign the document. [Further information is available on the National Archives Web site at <http://www.archives.gov/education/lessons/constitution-day/>.]
- At WOMEN’S INDEPENDENCE DAY, on page 3, provisions of HB 67 from the 79th regular session and effective May 9, 2005, have been added. The day commemorates the ratification of the 19th Amendment (women’s suffrage) of the U.S. Constitution on August 26, 1920.

EIA (LEGAL) ACADEMIC ACHIEVEMENT
GRADING/PROGRESS REPORTS TO PARENTS

NOTICE OF PERFORMANCE RATINGS has been added to reflect HB 3297 from the 79th regular session and effective June 18, 2005: districts are now required to provide campus rating information with the first report card of the year.

F (LEGAL) STUDENTS

To better accommodate increasingly detailed law and regulations pertaining to chronic health conditions, we have created—at FFAF—a new code for INDIVIDUALIZED HEALTH PLANS.

FD (LEGAL) ADMISSIONS

Legislation from the 79th regular session is incorporated as follows:

- At RESIDENT GRANDPARENT, on page 3, appears the HB 25 language (effective May 27, 2005, and replicated in HB 283 with a June 18, 2005, effective date) that requires a district to admit any nonresident student for whom a grandparent, residing in the district, provides a “substantial amount of after-school care.” The determination of what constitutes a “substantial amount” is left to the board.
- AT REQUIRED DOCUMENTATION, on page 5, is found language, also from HB 25, that significantly shortens the time lines within which records of transfers must occur. Previously law required the sending district to provide records to the receiving district within 30 days of the request; new law requires that this

Explanatory Notes

TASB Localized Policy Manual Update 76

occur within ten working days of the request. Moreover, the law now requires the sending district to notify the parent that he or she may request an unofficial copy to take to the new district.

Please note also that the prekindergarten provisions previously in this policy have been moved to EHBG(LEGAL) and provisions regarding the U.S. Immigration's Student and Exchange Visitor Information System (SEVIS) have been deleted since they do not apply to public school districts in Texas.

FD (LOCAL) ADMISSIONS

Revisions to this local policy are as follows:

- At RESIDENCY REVIEW, we have deleted a statement specifically addressing the appeal of a superintendent's decision. Since all decisions may be appealed under the appropriate complaint policy, the statement was unnecessary and potentially confusing.
- At NONRESIDENT STUDENT IN GRANDPARENT'S AFTER-SCHOOL CARE, there is new language resulting from HB 25 on admission of nonresident students for whom grandparents, residing in the district, provide a "substantial amount of after-school care." The local policy text:
 - obligates the parent and grandparent to provide residency information and **to complete a form** to document the extent of after-school care provided, and
 - delegates to the superintendent authority to approve these admission requests.

Admission of the student is based on whether the care provided by the grandparent is determined by the board to be "substantial." Because of differing needs and circumstances of children at different ages and stages of development, formulating objective criteria to be used to measure "substantial amount" will likely yield a range of decisions governed by exception rather than rule. We suggest that the superintendent propose administrative regulations setting forth guidelines. Such guidelines might establish a threshold for approval—e.g., a minimum number of hours per day, of days per school week, of months per school year—and provide for consideration of age and special needs or circumstances.

To assist districts in making this determination, Policy Service has prepared a "boilerplate" administrative procedure and a sample form that the parent and grandparent would be required to complete. These documents may be found at FD(REGULATION) and FD(EXHIBIT), respectively, in the **TASB Regulations Resource Manual**, available via MyTASB to policy administrators.

We have retained unaltered the district's locally developed text at PERSON HAVING LAWFUL CONTROL OVER A STUDENT and at EXCEPTIONS.

FDB (LEGAL) ADMISSIONS
INTRADISTRICT TRANSFERS

This policy has been revised to more closely track statutory language and reorganized for clarity. In addition, HB 283 provisions relating to transfers prompted by bullying are reflected on page 2. That legislation from the 79th regular session and effective June 18, 2005, defines bullying and allows victims of bullying to be assigned to another classroom or transferred to another campus. The transfer is not automatic—the board or its designee must determine that the bullying occurred—nor is the district required to provide transportation to another campus.

FDB (LOCAL) ADMISSIONS
INTRADISTRICT TRANSFERS

We recommend adoption of this local policy addressing the need for the board to formally delegate authority to investigate and approve requests for class changes or transfers pursuant to an allegation of bullying. The

Explanatory Notes

TASB Localized Policy Manual Update 76

language of delegation is generalized to all intradistrict transfers whether from classroom to classroom or campus to campus. If this language is not consistent with district practice, please contact your Policy Consultant/Analyst for appropriate text.

FDD (LEGAL) ADMISSIONS SCHOOL SAFETY TRANSFERS

A new section titled SEXUAL ASSAULT TRANSFER reflects HB 308 from the 79th regular session. Effective June 18, 2005, the new law requires a district to permit a student who is the victim of a sexual assault by another student to transfer to another campus in the district. If no other campus exists, the victim's parent may request a transfer to another district. If, however, the victim does not want a transfer, the district must transfer the assailant to another campus or—if only a single campus exists at that grade level—to the district's alternative education program or juvenile justice alternative education program. The law requires the district to notify, to the extent permitted by federal privacy laws, the victim's parent of where the assailant has been transferred or placed. The district is not required to provide transportation to either student.

This new law echoes to some extent the No Child Left Behind Act's Unsafe School Choice Option (renamed School Safety Choice Option in Texas), found on page 1 of this policy. This NCLBA transfer provision is triggered when the sexual assault occurred on the grounds of the school the victim attends; the HB 308 transfer provision applies regardless of where the sexual assault occurred but only if both students were attending the same school at the time of the assault.

In addition to the significant change described above, the policy has been revised throughout to more closely track statutory language.

FDD (LOCAL) ADMISSIONS SCHOOL SAFETY TRANSFERS

The No Child Left Behind Act requires districts receiving ESEA funds to notify students of their right to transfer within the district from a school identified as "persistently dangerous" or when the student becomes a victim of violent crime at school. Recent guidance from TEA strongly encourages districts in which an intradistrict transfer is not possible to work with another district to arrange an interdistrict transfer. In this light, we have reorganized your current (LOCAL) policy to avoid redundancy and have added a provision that the district "explore transfer options with another school district." With the generalization of the transfer statement, we have deleted a provision—not required by law or TEA guidance—that the district would transport these students to their new school. New to the policy is language:

- delegating to the superintendent (or the superintendent's designee) authority to receive and expedite school safety transfer requests.
- establishing time lines—as specified by TEA—for notification of transfer rights and for approval of transfer requests.
- requiring retention of relevant records for five years, as specified by TEA.

ADDITIONAL TRANSFER OPTIONS, on page 2, has been added to acknowledge the right of a parent whose student has been the victim of a sexual assault—within circumstances added to the Education Code by HB 308—to transfer to another classroom or school OR to request that the assailant, if on the same campus as the student, be transferred to another school. [See FDD(LEGAL) explanatory note and text for additional information.]

TEA's July 22, 2005, "To the Administrator Addressed" communique on NCLBA transfer requirements may be found at <http://www.tea.state.tx.us/nclb/PDF/SSCONotice0705.pdf>.

FEA (LEGAL) ATTENDANCE COMPULSORY ATTENDANCE

HB 1575 from the 79th regular session prompts two changes to this policy. Both changes became effective on June 18, 2005:

- At **AFFIRMATIVE DEFENSE—STUDENT**, on page 5: the affirmative defense to prosecution of a student for nonattendance may now be used only if—after deducting involuntary absences and excused absences—the number of remaining unexcused or voluntary absences is insufficient to constitute an offense.
- At **DISTRICT COMPLAINT OR REFERRAL**, the district now has only seven school days—from the student's last absence—to file a complaint for nonattendance or refer the student to a juvenile court for conduct indicating a need for supervision.

In addition to these changes, the policy has been refined throughout to more closely track statutory language and, with new margin notes, to improve the mapping of the material.

For more information, see TEA's August 2, 2005, "To the Administrator Addressed" correspondence regarding attendance, admission, enrollment records, and tuition at <http://www.tea.state.tx.us/taa/legal080205.html>.

FFAC (LEGAL) HEALTH REQUIREMENTS AND SERVICES MEDICAL TREATMENT

At **PRESCRIPTION MEDICATION AND SPECIAL EDUCATION STUDENTS**, on page 4, appears a new section drawn from the December 2004 reauthorization of the Individuals with Disabilities Education Act. The Act now prohibits an employee of the district from requiring a student to obtain—as a condition of attending school or being evaluated for or receiving special education services—a prescription for a controlled substance.

FFAF (LEGAL) HEALTH REQUIREMENTS AND SERVICES INDIVIDUALIZED HEALTH PLAN

FFAF is a new policy code established to house provisions applicable to **INDIVIDUALIZED HEALTH PLANS**, such as those called for by HB 984 (from the 79th regular session) for students with diabetes.

The legislation, effective June 18, 2005, requires a three-pronged approach by parents and schools:

- Development of a diabetes management and treatment plan (DMTP) by the parent and the physician responsible for treating the student's diabetes.

This plan, signed by the parent and physician, must identify the health-care services the student may receive at school and assess the student's ability to manage his or her diabetes. The plan must be submitted to the school by the beginning of the school year or upon the later enrollment of the student, or as soon as practicable after diagnosis.

- Development of an individualized health plan (IHP) for the student by the principal or designee and the school nurse (if one is assigned to the school).

This plan must be developed in collaboration with the parent, the physician (to the extent practicable) and at least one of the student's teachers.

- Development of campus procedures and resources to provide the required care to diabetic students.

The campus will attempt to ensure the availability of a school nurse or unlicensed diabetes care assistant (UDCA), under the supervision of the principal. A UDCA may be a school employee who volunteers to

Explanatory Notes

TASB Localized Policy Manual Update 76

perform this duty or an employee of the local health department or other entity with which the district has contracted for this service. Each UDCA must be appropriately trained by the school nurse or a health-care professional having expertise in the care of diabetics. Training must be in accordance with guidelines promulgated by the Texas Diabetes Council of the Texas Department of State Health Services.

Additionally, the principal must make efforts to have at least one UDCA if a school nurse is assigned full-time to the campus and at least three UDCAs if there is no full-time nurse. School employees who transport or supervise students during off-campus activities must be given specific information regarding diabetic students in their charge: the identification of the diabetic student, potential emergencies and appropriate responses to emergencies that may arise as a consequence of the diabetes, and an emergency contact number.

The law provides UDCAs liability protection under the general immunity applicable to school district professional employees. They are also sheltered from claims regarding unlicensed practice of medicine, while school nurses are held harmless for the actions of a UDCA.

The Texas Diabetes Council released its "Guidelines for Training Unlicensed Diabetes Care Assistants" in July. This and many other resources relating to diabetes in a school setting may be found at <http://www.tdh.state.tx.us/diabetes/default.htm>.

FFG (LEGAL) STUDENT WELFARE CHILD ABUSE AND NEGLECT

HB 1970, from the 79th regular session and effective September 1, 2005, prompts the following changes:

- At TO WHOM REPORTED on page 2: new language in the introductory paragraph clarifies that a report of alleged or suspected abuse or neglect must always be made to the Texas Department of Family and Protective Services:
 - **if** the abuse or neglect involves a person who is responsible for the care, custody, or welfare of the child, and
 - **unless** the report is made to the state agency that operates, licenses, certifies, or registers the facility in which the alleged abuse or neglect occurred OR the report involves a juvenile justice program or facilities (e.g., a juvenile justice alternative education program).
- Otherwise the report should be made to any of the four agencies that continue to be specified by law.
- At REPORTS TO DISTRICT on page 3: DFPS is newly required to provide the superintendent a written report if its investigation of abuse or neglect involves a student and a district employee. Previously DFPS was obligated only to orally notify the superintendent that an investigation had been initiated.

FFG (EXHIBIT) STUDENT WELFARE CHILD ABUSE AND NEGLECT

This exhibit has been revised to reflect HB 1970 changes described at FFG(LEGAL): reports of alleged or suspected abuse or neglect must always be made to the Texas Department of Family and Protective Services (Child Protective Services) in the circumstances described in the explanatory note at FFG(LEGAL).

Please note: Blanks are provided in the first paragraph and at "To whom do I make a report?" for contact information related to reporting child abuse and neglect of a student. Please supply your Policy Consultant/Analyst with the appropriate information so that a completed exhibit can be returned to you for inclusion in your Localized Policy Manual.

FL (LEGAL) STUDENT RECORDS

At DESIGNATION OF DIRECTORY INFORMATION, beginning on page 7, are key provisions of SB 256 from the 79th regular session that became effective on June 17, 2005. The text attempts to reconcile "public infor-

Explanatory Notes

TASB Localized Policy Manual Update 76

mation” under the Texas Public Information Act with “directory information” under the federal Family Educational Rights and Privacy Act (FERPA). In short, FERPA now controls what is subject to public disclosure for purposes of student records.

The legislation also addresses the content and form of the ANNUAL NOTICE that FERPA requires to be given to parents regarding their right to withhold some or all directory information on their children:

- specific language that the district must use to fulfil the FERPA requirement;
- a requirement that this language appear in 14 point (or larger) boldface type; and
- the inclusion of a form—on that page or the next—that allows the parent to check off or list directory information he or she does not wish disclosed, to object to the required release of directory information to a military recruiter or institution of higher education, and to consent to release certain directory information for limited school-sponsored purposes.

On page 4, a federal provision regarding release of visa information—previously found in FD(LEGAL)—has been moved to this policy. That provision, from the Enhanced Border Security and Visa Entry Reform Act of 2002, requires the release—to any of the federal and state agencies listed at item 3 on page 3—of personally identifiable information otherwise protected from disclosure when the student is holding an F, J, or M visa.

FL (LOCAL) STUDENT RECORDS

DIRECTORY INFORMATION, on page 4, includes the full list of categories so defined by the Family Educational Rights and Privacy Act (FERPA). To fulfill SB 256 requirements, each district must designate, in policy, the categories of information it will treat as “directory information” and make accessible to third parties without parental consent. FERPA also requires districts to allow parents to object to the release of one or more categories of this information.

If you wish to delete any of the items listed as directory information on page 4, please contact your Policy Consultant/Analyst.

Please note: This (LOCAL) policy version is for districts in which the principal is custodian of all records for currently enrolled students at the assigned school and for students who have withdrawn or graduated. If this information does not reflect your current practice, please contact your Policy Consultant/Analyst so we can update our records and issue you the correct policy text.

FL (EXHIBIT) STUDENT RECORDS

The information contained in this exhibit—addressing the confidentiality of personally identifiable information for students, the limitations on directory information, and the rights of parents under the Family Educational Rights and Privacy Act—is more appropriately published in student handbooks or, if the district prefers, distributed separately at the beginning of each year or when a student later enrolls. In that light and because of the specific requirements of SB 256 governing the directory information notice and parental consent form, we recommend deletion of this exhibit from the district’s policy manual.

This exhibit has long been incorporated in the TASB Model Student Handbook issued each spring. The 2005–06 version was rereleased on July 7 to address SB 256 requirements—as well as other legislative changes—and to provide districts with a directory information consent form compatible with SB 256.

Both this exhibit and the new parental consent form may also be found in the FL(EXHIBIT) in the **TASB Regulations Resource Manual**, available via MyTASB to policy administrators.

FMF (EXHIBIT) STUDENT ACTIVITIES CONTESTS AND COMPETITION

This notice regarding anabolic steroids has been more appropriately moved to FNCF (Student Conduct: Alcohol and Drug Use). Please delete FMF(EXHIBIT) in favor of FNCF(EXHIBIT), included in this update packet.

FNAF (LOCAL) STUDENT EXPRESSION DISTRIBUTION OF NONSCHOOL LITERATURE

In June 2005, Policy Service issued the second of a two-part response to two issues—distribution of non-school literature on school premises and use of district facilities for nonschool purposes—that have given rise to First Amendment challenges against district policies and practices in Texas and around the nation. Four policy codes are implicated:

- regarding students: FNAF and FNAB.
- regarding the community: GKD and GKDA

The **Starting Points** policy development tool kits on these issues guide the district in reviewing and refining these policies in light of these challenges and to ensure that local policy provisions for these four policies are coordinated. The tool kits are available to policy administrators via MyTASB at https://www.tasb.org/docs-my-tasb/gov_svcs/policy_svc/amendment_sp/index.shtml.cfm.

FNC (LEGAL) STUDENT RIGHTS AND RESPONSIBILITIES STUDENT CONDUCT

HB 283 from the 79th regular session further specified the scope of each district's discipline management program. The legislation, effective June 18, 2005, requires the program to address education regarding and prevention of unwanted physical or verbal aggression, sexual harassment, and other forms of bullying on school grounds and in school vehicles.

FNCF (EXHIBIT) STUDENT CONDUCT ALCOHOL AND DRUG USE

This exhibit, recoded from FMF, addresses the long-standing requirement that districts post cautionary notices regarding use of anabolic steroids in school gyms and other places where physical education classes are conducted.

Please note: The 79th Legislature—in the form of HB 3563—ordered the University Interscholastic League to adopt rules prohibiting a student from participating in an athletic competition sponsored or sanctioned by the League unless the student agrees not to use steroids and the parent acknowledges in writing the statements that are found in this exhibit.

UIL is also required to:

- develop an education program—before September 1, 2005—for students participating in UIL athletic activities and for their parents and coaches regarding the health effects of steroid use.
- make the program available to districts.
- work with public or private entities to study the effectiveness of the program.

During the 2005–06 school year, UIL must measure the extent of illegal steroid use by high school students and the number of districts that test high school students for illegal steroids. UIL is further charged with the responsibility of developing a plan for testing students engaged in UIL athletic activities for illegal steroids.

Explanatory Notes

TASB Localized Policy Manual Update 76

Finally, UIL must file a written report with the Legislature—not later than December 1, 2006—regarding the use survey, the effectiveness study of educational programs, and the testing plan. The bill directly states that, if the Legislature is not satisfied that the educational program has significantly reduced student use of illegal steroids, it may require UIL to implement the testing plan (and authorizes UIL to raise membership fees to pay for the testing).

Concurrently, TEA, working with the Department of State Health Services, must develop information about the use of anabolic steroids and associated health risks and distribute the information to school districts. (This was apparently accomplished more than a month before passage of the legislation by a joint communication from the commissioner of education and the commissioner of health: <http://www.tea.state.tx.us/taa/comm042605.pdf>.) The State Board of Education has not yet determined at which grade levels this information is to be distributed.

FO (LEGAL) STUDENT DISCIPLINE

Legislation enacted in the 2003 regular session required a district to specify in its student code of conduct whether self-defense might be considered a mitigating factor for offenses that would ordinarily prompt suspension, placement in a disciplinary alternative education program, or expulsion. In the 2005 regular session, by means of HB 603 (effective June 17, 2005), the Legislature added three further considerations:

- Intent or lack of intent at the time the student engaged in the conduct,
- A student's disciplinary history, or
- A disability that "substantially impairs the student's capacity to appreciate the wrongfulness of [his or her] conduct."

A district is not required to take these factors into consideration but, if it does, the decision to do so must be expressed in the student code of conduct. (See **STUDENT CODE OF CONDUCT**, item 4, on page 1)

At item 5, on page 1, text—also from HB 603—has been added to clarify that districts are not required to specify minimum terms of DAEP placement or expulsion (except as otherwise provided by statute).

HB 283, also from the 79th regular session, expands the scope of the student code of conduct to include two new items:

- A prohibition of bullying, harassment, and making hit lists and ensuring that district employees enforce these prohibitions. (See item 7 on pages 1 and 2 for the specific language and the definitions of "bullying," "harassment," and "hit list.")
- Providing grade level-appropriate methods for managing and disciplining students and preventing and intervening in student discipline problems, including bullying, harassment, and making hit lists. (See item 8 on page 2 for the specific language.)

These new student code of conduct requirements are addressed in the **TASB Model Student Code of Conduct**, released on June 21, 2005.

Please note: HB 383 from the 79th regular session amends Family Code 151.001 to include the following language (effective September 1, 2005):

"Only the following persons may use corporal punishment for the reasonable discipline of a child:

- the parent or grandparent of the child;
- a stepparent of the child who has the duty of control and reasonable discipline of the child; and
- an individual who is a guardian of the child and who has the duty of control and reasonable discipline of the child."

Explanatory Notes

TASB Localized Policy Manual Update 76

Close review by TASB attorneys has found that the intent of the language was to clearly empower grandparents, stepparents, and guardians to use corporal punishment without fear of a *de facto* claim of child abuse. Moreover, the legislature left intact existing authority permitting districts to administer corporal punishment (see page 4 for cites to federal cases in that regard and DH(LEGAL) regarding professional immunity relating to student discipline). Believing that sufficient legal authority exists for school personnel to administer corporal punishment, TASB Legal Services has not included those provisions of HB 383 in this (LEGAL) policy but urges districts to confer with local legal counsel regarding that reading.

Be aware also that, on July 27, 2005, the commissioner requested an attorney general's opinion on the applicability of Family Code 151.001 to corporal punishment administered within a school setting. The request went on to pose related questions: whether corporal punishment may be administered with the consent of or over the objection of the parent (or other person named in the new provision). Full text of the request may be found at http://www.oag.state.tx.us/opinions/requests_ga/RQ0369GA.pdf.

Please also note: This (LEGAL) version, which includes provisions on corporal punishment, is for districts that allow that method as one of their discipline management techniques. If your district does not allow the use of corporal punishment, please contact your Policy Consultant/Analyst so we can update our files and issue the correct (LEGAL) version for your manual.

FOA (LEGAL) STUDENT DISCIPLINE REMOVAL BY TEACHER

HB 603 from the 79th regular session newly requires that a student removed from class by a teacher for assault or sexual assault on the teacher or attempted murder against the teacher cannot be returned to the class without the teacher's consent. Effective on June 17, 2005, this addition to Chapter 37 prevents a placement review committee from returning the student to the teacher's class—over the teacher's objection—as it might for other removals by the teacher and further provides that consent cannot be coerced. (See RETURN TO CLASS on page 1.)

FOC (LEGAL) STUDENT DISCIPLINE PLACEMENT IN A DISCIPLINARY ALTERNATIVE EDUCATION SETTING

Changes from the 79th regular session are as follows:

- At SEXUAL ASSAULT OF ANOTHER STUDENT, on page 2, are provisions of HB 308 that provide for the transfer of a student convicted or otherwise adjudicated for sexually assaulting another student assigned to the campus. If the district does not have another campus serving the grade level of the assailant and upon request of the parent of the victim, the assailant must be placed in a disciplinary alternative education program or a juvenile justice alternative education program. Time limits ordinarily associated with DAEP or JJAEP placements do not apply. This provision is reflected in the **TASB Model Student Code of Conduct** released June 21, 2005.
- At ACTIVITIES, on pages 5 and 6, is new language from HB 603 from the 79th regular session that adds to the tangle of notification requirements. Previously, the superintendent was required to notify all instructional and support personnel:
 - responsible for supervising a student arrested or taken into custody by a law enforcement agent, or
 - who have regular contact with a student convicted (or otherwise adjudicated) of a reportable offense.

The law in the first circumstance above includes a specific confidentiality requirement; in the second circumstance, it does not.

Effective June 17, 2005, the law also now requires:

- the principal or designee to notify "each educator who has responsibility for, or is under the direction and supervision of an educator who has responsibility for, the instruction of [the] student."

Explanatory Notes

TASB Localized Policy Manual Update 76

- notification for ANY offense for which the student must or may be placed in a DAEP or expelled— independent of any action taken by the criminal justice system. [FOC(LEGAL) addresses the DAEP component of this requirement; FOD(LEGAL), the expulsion component.]
- the information be kept confidential from any person not entitled to the information. Intentional failure to keep the information confidential may prompt suspension or revocation of an educator's certificate.
- At ENROLLMENT IN ANOTHER DISTRICT, on page 6 and also from SB 603, is new language requiring notification of staff when a student in a DAEP in one district attempts to enroll in another district before the expiration of the term of placement. The provision mirrors that at ACTIVITIES regarding who must be notified and confidentiality.

ADDITIONAL PROCEEDINGS, on page 9, has been added to reflect legislation enacted in the 78th regular session: a student in a DAEP who engages in further misconduct (for which DAEP placement is appropriate) may be assessed an additional term of placement.

FOC (EXHIBIT) STUDENT DISCIPLINE PLACEMENT IN A DISCIPLINARY ALTERNATIVE EDUCATION SETTING

HB 1095 from the 79th regular session expands Section 22.11, found on page 2, to include intentional harassment of a public servant (a term encompassing district employees). The language expands the existing bodily fluids statute to protect any public servant performing an official duty. The effective date of this language is September 1, 2005.

FOD (LEGAL) STUDENT DISCIPLINE EXPULSION

The SB 603 notice requirement added to FOC(LEGAL) applies to expulsions as well. This revised requirement appears at NOTICE OF EXPULSION ORDER: TO STAFF, on page 6. [See the explanatory note at FOC(LEGAL) for further information.]

FOD (LOCAL) STUDENT DISCIPLINE EXPULSION

Your current (LOCAL) policy at this code—addressing the expulsion hearing process—includes time-sensitive information most relevant to students and parents. Because the board-adopted Student Code of Conduct is the primary vehicle of information for students and parents on issues of discipline, these provisions are more appropriately placed in that document than in the board policy manual. To eliminate redundancy and prevent confusion, we recommend that this policy be deleted.

GBA (LEGAL) PUBLIC INFORMATION PROGRAM ACCESS TO PUBLIC INFORMATION

Changes arising from the 79th regular session are as follows:

- A new INVESTMENT INFORMATION section has been added to page 2 to reflect SB 121 (effective immediately). This section is essentially a highly summarized reference pointing to a lengthy list of disclosable information that will soon be codified in Government Code 552.0225. In the interim, this information is accessible at the Texas Legislature Online: <http://www.capitol.state.tx.us>. [79th regular session, SB 121 text, enrolled version]
- A companion piece—regarding investment information that is not disclosable—is found at item 28, on page 8.

Explanatory Notes

TASB Localized Policy Manual Update 76

- At item 27 appears a new SOCIAL SECURITY NUMBERS section. In accordance with SB 1485, effective immediately, districts are now authorized to withhold Social Security numbers of living persons.

GBAA (LEGAL) INFORMATION ACCESS REQUESTS FOR INFORMATION

Changes arising from the 79th regular session and effective September 1, 2005, are as follows:

- SB 727 transfers the Texas Building and Procurement Division's responsibility regarding public records to the attorney general's office. This shift is reflected at SIGN, on page 1, and throughout this policy. In addition:
 - The law newly considers as withdrawn any public information request for which the requestor does not complete examination of the records within ten business days after the records are made available, if a request for additional time is not filed. (See EXAMINATION, on page 2).
 - Previous law specified that, for requests that require programming or manipulation of data, the officer for public information has 20 days (plus an additional ten if an extension is needed) in which to provide the requestor a statement of estimated cost and time required to fulfill the request. The legislation newly requires that the requestor has 30 days to respond after this information is received. If the requestor does not respond within this time frame, the request is to be considered withdrawn. (See FURTHER ACTION on page 4).
 - Finally, the legislation requires that when a district sends to the attorney general written comments stating why an exception to the Opens Records Law applies the district also send a copy to the person who requested the information. The district must redact from the copy any comments disclosing the substance of the information in question. (See ADDITIONAL INFORMATION, on pages 6 and 7.)
- SB 623 specifies that the district has ten days—from the day that the requestor pays the deposit or posts bond for payment of the anticipated cost of preparing a copy of public information—to provide the information or request an attorney general's opinion. Also, if the requestor fails to make the deposit or post bond in a timely manner, the request must be considered withdrawn. (See DEPOSIT OR BOND, on page 10.)

GND (LEGAL) RELATIONS WITH EDUCATIONAL ENTITIES STATE EDUCATION AGENCY

Changes arising from the 79th regular session are as follows:

- At INTERNET DISSEMINATION, on page 4, is added the SB 3297 requirement—also found at BR (LEGAL) in this update—regarding Internet posting of the most recent performance ratings of the district.
- At PAPERWORK REQUIREMENTS, on page 5, is found the SB 493 provision—also appearing at DLB(LEGAL) in this update—authorizing the commissioner to undertake a special accreditation investigation of a district for repeated complaints regarding excessive paperwork imposed on teachers.

See the explanatory notes for these referenced codes for further information.
